The Facilities Sustainment, Restoration and Modernization (SRM) program provides funds to keep the Department's inventory of facilities in good working order, (i.e., day to day maintenance requirements). In addition, it provides resources to restore facilities whose age is excessive or have been damaged by fire, accident, or natural disasters, and alternations of facilities to implement new or higher standards to accommodate new functions or mission. The funds depicted above do not include amounts financed through the Working Capital Funds for sustainment and restoration of the Fund activities. Costs of military personnel assigned to SRM activities are also excluded.

Defense-Wide agencies and activities are requesting \$301.7 million in FY 2010 for Facilities Sustainment, Restoration and Modernization in the O&M, Defense-Wide appropriation.
