10. Description of Proposed Construction						
Funds are to be utilized for preparing plans and specifications for construction of the Defense Agencies and Secretary of Defense Activities.						
11 Requirement:						
The estimated costs for most projects do not include any amounts for feasibility studies, preliminary engineering or final plans and specifications. The accomplishment of the planning and design effort required to develop and execute the construction program for the Defense Activities is dependent on the provision of funds proposed by this item.						
FY 2011 Defense Level funding covers planning and design for various defense activities such as Defense Logistics Agency, The Joint Staff, Defense Information Systems Agency, the Defense Finance and Accounting Service, and to cover efforts across the Department to standardize and distribute uniform design criteria.						
Defense Level funding also covers all planning and design efforts associated with the Energy Conservation Investment Program (ECIP). The FY 2011 ECIP program has been increased to \$120 million, and Defense Level planning and design funding has been increased to cover the design activities necessary to support this program.
