**I. Base Realignment and Closure Overview**

A. Background

The Defense Secretary's Commission on Base Realignment and Closures was chartered on May 3, 1988 to recommend military installations within the United States, its commonwealths, territories, and possessions for realignment and closure. The Congress and the President subsequently endorsed this approach through legislation that removed some of the previous impediments to successful base closure actions. The Defense Authorization Amendments and Base Closure and Realignment Act, Public Law 100-526, as enacted October 24, 1988, provides the basis for implementing the recommendations of the 1988 Commission. Under this Act, all closures and realignments were to be completed no later than September 30, 1995. Funding for these actions resides in the Base Realignment and Closure Account - Part I (BRAC-I) which spans fiscal years 1990 through 1995.

On November 5, 1990, The President signed Public Law 101-510, Title XXIX, Defense Base Closure and Realignment Act of 1990, establishing an independent commission known as the Defense Base Closure and Realignment Commission which met only during calendar years 1991, 1993, and 1995. The purpose of the Commission was to ensure a timely, independent, and fair process for closing and realigning U.S. military installations. The actions to implement the recommendations of the 1991, 1993, and 1995 Commissions are underwritten from the Base Realignment and Closure Account 1990 (BRAC II). Action must be initiated no later than two years after the date on which the President transmits a report to Congress and all closures and realignments must be completed no later than the end of the six-year period beginning on the same date. The implementation period for the last authorized round of base closure is complete as of 13 July 2001.

Public Law 101-510 included a number of other provisions affecting base closure, one of which, section 2923, designated the Base Closure Account (BRAC I) to be the exclusive source of funds for environmental restoration projects at round one closure sites. The National Defense Authorization Act for FY 1992, Section 2827, designated Base Closure Account 1990 as the exclusive source of funds for environmental restoration projects at closure sites approved by the 1991, 1993, and 1995 Commissions. The intent of this section was to preclude the cleanup actions at bases slated for closure from competing with other sources of funding for environmental cleanup such as the Defense Environmental Restoration Account (DERA).

The FY 2002 National Defense Authorization Act, authorized an additional round of base realignment and closure in 2005 by amending the Defense Base Closure and Realignment Act of 1990 (Public Law 101-510). The 2005 BRAC Commission recommendations became law on November 9, 2005. The Department of Defense Base Closure Account 2005 (Treasury code 0512) has been established as a single account on the books of the Treasury to execute actions to implement BRAC 2005 approve closures and realignments. The six-year

**FY 2012 Budget Estimates**  
**DoD Base Realignment and Closure Data**  
**2005 Commission**

implementation period for the 2005 approved realignment and closures ends on September 15, 2011.

**B. Budget Justification Requirements**

The Defense Authorization Amendments and Base Closure and Realignment Act of 1990 (as amended) specify the type of budget information required for the BRAC budget submission. The Act states, “As part of each annual budget request for the Department of Defense, the Secretary shall transmit to the appropriate committees of Congress:

(1) a schedule of the closure and realignment actions to be carried out under this title in the fiscal year for which the request is made and an estimate of the total expenditures required and cost savings to be achieved by each such closure and realignment and of the time period in which these savings are to be achieved in each case, together with the Secretary’s assessment of the environmental effects of such actions; and

(2) a description of the military installations, including those under construction and those planned for construction, to which functions are to be transferred as a result of such closures and realignments, together with the Secretary’s assessment of the environmental effects of such transfers.”

(3) a description of the closure or realignment actions already carried out at each military installation since the date of the installation’s approval for closure or realignment under this part and the current status of the closure or realignment of the installation, including whether –

- (A) a redevelopment authority has been recognized by the Secretary for the installation;
- (B) the screening of property at the installation for other Federal use has been completed; and
- (C) a redevelopment plan has been agreed to by the redevelopment authority for the installation;

(4) a description of redevelopment plans for military installations approved for closure or realignment under this part of its closure or realignment, and the quantity of property already disposed of at each installation;

(5) a list of the Federal agencies that have requested property during the screening process for each military installation approved for closure or realignment under this part, including the date of transfer or anticipated transfer of the property to such agencies, the acreage involved in such transfers, and an explanation for any delays in such transfers;

(6) a list of known environmental remediation issues at each military installation approved for closure or realignment under this part, including acreage affected by these issues, an estimate of the cost to complete such environmental remediation, and the plans (and timelines) to address such environmental remediation; and

**FY 2012 Budget Estimates**  
**DoD Base Realignment and Closure Data**  
**2005 Commission**

(7) an estimate of the date for the completion of all closure and realignment actions at each military installation approved for closure or realignment under the part."

The FY 2012 budget justification material has been developed to comply with the above requirements. The BRAC 2005 Executive Summary Book provides an overview of the BRAC 2005 costs and savings for each DoD Component through the six-year implementation period. The DoD Components have prepared separate justification books providing detailed information by realignment and closure package, broken out by one-time implementation costs, anticipated revenues from land sales, and expected savings. The cost data reflected on all BC-02 financial displays as well as other cost data reflected in the Components Justification Books budget material accurately reflects all BRAC related costs. Costs associated with environmental and caretaker efforts for property not yet conveyed are appropriately reflected elsewhere in the Components Justification Books budget material. This comprehensive approach satisfies the requirement of paragraphs (1) and (2) above. The reporting requirements in Section 2097, paragraphs (3) through (7), as added by P.L. 109-163 Section 2831, will be provided separately.

The FY 2008 National Defense Authorization Act Conference Report Section 2706 required the Department to submit a comprehensive accounting of the funding required to ensure that the plan for implementing the final recommendations of the 2005 Defense Base Realignment and Closure Commission remains on schedule for completion by September 15, 2011. The cost data reflected on all BC-02 financial displays as well as other cost data reflected in the Components Justification Books budget materials constitute the comprehensive accounting of the funding required to ensure timely implementation of the 2005 Defense Base Closure and Realignment Commission recommendations.

**C. DoD Base Closure Account Capitalization and Funding**

The Department has complied with the guidance contained in the House of Representatives Report 101-76, Military Construction Appropriations Bill, 1990, July 26, 1989, to determine the proper method of capitalizing the DoD Base Closure Accounts. In denying general transfer authority to the Secretary of Defense, the Committee expressed the belief that the necessary one-time costs to implement base realignments and closures be requested as new appropriated amounts to facilitate improved accounting of the funds appropriated. Additionally, the Committee indicated that any savings or cost avoidance due to base realignment or closure should be reflected through reduced requirements in the annual budget requests for the affected appropriations.

The manner in which the impacts of base realignments and closures are reflected in BRAC 2005 appropriations accounts is consistent with this language. The budget request includes any funds that are required to be transferred to the Homeowner's Assistance Program for the purpose outlined in Section II.

**FY 2012 Budget Estimates  
DoD Base Realignment and Closure Data  
2005 Commission**

The implementation of base realignment and closures requires the relocation of units and activities from one site to another. Recurring savings (reduced base operations costs) are realized through the increased efficiencies inherent in the consolidation of functions on fewer bases. The net savings are reflected as savings in the specific appropriations, primarily operation and maintenance, and are not incorporated in the DoD Base Closure Accounts.

Estimates for savings or cost avoidance have been incorporated into the DoD Component appropriation account where they are to accrue, resulting in corresponding reduced budget requests for those appropriations.

The recurring savings reflected on all BC-02 financial displays reflect those cost avoidances that are estimated to accrue each year as a result of implementing the closure and/or realignment recommendations. These savings, attributable to such areas as civilian salaries, military personnel entitlements and overhead, are used to fund the implementation of BRAC recommendations and/or fund other Defense priorities such as equipment, facilities, and military personnel billets for our forces. The BRAC decisions free up military personnel authorizations that, in many cases, are re-applied within each Military Department to support new capabilities and to improve operational efficiencies at worldwide locations. To the extent that savings generated from military personnel reductions at closing or realigning installations are immediately used to fund military personnel priorities, these resources are not available to fund other Defense priorities.

**D. Financial Management Procedures**

The Defense Authorization Amendments and Base Closure and Realignment Act of 1990 (as amended) established the Defense Base Closure Account 2005 as a mechanism to provide the required funding to implement the approved recommendations of the 2005 BRAC Commission. Funding approved by Congress in the BRAC 2005 account is appropriated and authorized in a lump sum amount and may be spent for construction, planning and design, civilian severance pay, civilian permanent change in station, transportation of things, and other costs directly related to bases approved for realignment or closure after January 2005. The management structure of the BRAC 2005 program is described below.

1. The Deputy Under Secretary of Defense (Installations & Environment) is responsible for issuing policy for management of the BRAC program and overseeing the DoD Components' execution of the program.
2. To properly account for and manage appropriated fund resources, the DoD Base Closure Account 2005 was established on the books of the Treasury under code 97 X 0512 to aid the DoD Components in the closure and realignment of military installations.

Funds made available to the DoD Components are subdivided and distribute to the activities responsible for base closure actions. Separate sub-allocations are made for each of the

**FY 2012 Budget Estimates**  
**DoD Base Realignment and Closure Data**  
**2005 Commission**

accounts by program year. Each DoD Component distributes the base closure funds in accordance with its normal fund distribution procedures. The applicable reporting requirements include:

Military Construction  
    Construction  
    Planning and Design  
Family Housing  
    Construction  
    Operations  
Environmental  
Operation and Maintenance (O&M)  
    Civilian Severance Pay  
    Civilian Permanent Change of Station (PCS) costs  
    Transportation of things  
    Real Property Maintenance  
    Program Management (civilian work years, TDY travel, and related support dedicated to implementation efforts)  
Military Personnel (limited to PCS expenses dedicated to implementation efforts)  
Other (including procurement-type items)

3. The Under Secretary of Defense (Comptroller) makes funds available to the DoD Components based on their official financial plans. Financial plans are prepared by the DoD Components in cooperation with and at the direction of the program manager, the Deputy Under Secretary of Defense (Installations & Environment). The DoD Components' financial plans and the subsequent sub-allocation of funds are supported by detailed, line-item military and family housing construction justification. Separate narrative explanations for other planned expenditures are also submitted to the Under Secretary of Defense (Comptroller) in sufficient detail to support the DoD Component's Financial plan. The DoD Components are allowed to revise planned execution as the situation dictates but must notify the Deputy Under Secretary of Defense (Installations & Environment) and the Under Secretary of Defense (Comptroller) of all changes. To keep the Under Secretary of Defense (Comptroller) apprised of these changes, the DoD Components are required to submit a revised current year financial plan and supporting documentation on a quarterly basis to reflect the status of the current plan being executed. When a military construction or family housing construction project is to be executed, but does not appear on the approved construction project list, the prior approval of the Under Secretary of Defense (Comptroller), and Congress is required. This will ensure that the Department has complied with the notification requirements of the Congress, prior to the expenditure of DoD Base Closure Account funds. Each DoD Component is sub-allocated funds based upon its official budget justification and financial plan.

**FY 2012 Budget Estimates  
DoD Base Realignment and Closure Data  
2005 Commission**

**4. Decision Rule for Determining the Validity of Charging Cost to the DoD Base**

Closure Accounts: In addition to being supported by the detailed budget justification, the general criterion to be applied when deciding whether to charge specific costs to the DoD Base Closure Account is that the cost in question is a one-time implementation cost directly associated with the overall base closure effort. For example, the one-time operation and maintenance-type costs at R&D-funded installations are charged to the appropriate sub-account of “Operation and Maintenance.” Low-dollar value construction projects budgeted as lump sum under the real property maintenance category are charged to that sub-account and not the construction sub-account of military construction, which is reserved for projects listed individually on the financial plan accompanying the fund allocation document. Recurring costs driven by the transfer of workload from one location to another is budgeted for and charged to the non-base closure accounts.

**II. Homeowners Assistance Program**

The Homeowners Assistance Program (HAP) provides assistance to eligible service members and civilian employee homeowners who have suffered losses through the depression of the real estate market. Funding to support the FY 2012 HAP requirement has been separately requested as a direct appropriation to the Homeowners Assistance Program. Budget justification materials have been submitted with the Department of the Army’s Family Housing justification material.

**III. Budget Summary**

The tables on the following pages provide information on one-time implementation costs, and expected savings from the approved BRAC 2005 round. The Department fully funded BRAC 2005 requirements through the six-year implementation period (FY 2006 – 2011). FY 2012 funding request represents the resources necessary to provide for environmental clean-up and caretaker efforts at property not yet conveyed to another entity.

Op & Maint.	131,465
Total Obligation Authority	258,776
Land Sales / Prior Year Financing	-
<b>Budget Authority</b>	<b>258,776</b>

The FY 2012 budget request includes \$258.8 million of new budget authority for environmental restoration and caretaker costs for facilities closed under the previous four rounds of base closure authority. This funding ensures bases are cleaned efficiently in order to transfer the property to redevelopment authorities.
