This internal reprogramming action realigns $12.0 million within the Research, Development, Test, and Evaluation, Defense-Wide, 99/00, appropriation from the National Security Agency to OSD for proper execution of Information Assurance requirements. This transfer does not change the purpose for which the funds were originally appropriated. It meets all the administrative and legal requirements of the Congress and has not previously been denied by the Congress. This action does not affect the National Foreign Intelligence Program, Tactical Intelligence and Related Activities (TIARA), or Joint Military Intelligence Programs (JMIP). This action is not reflected in the FY 2000/2001 President's budget.

Explanation: The Congress appropriated $12.0 million for the creation of a clearinghouse program to mitigate attempts at computer espionage and/or disruptions of critical defense databases, in particular unclassified databases such as personnel, procurement, logistics, staffing and assignment data. These funds are being realigned to an OSD Program Element for execution within the C3I program. The Defense-Wide Information Assurance Program (DIAP) will be responsible for program execution.

Approved (Signature and Date)
          Signed by Mr. William J. Lynn, April 22, 1999.
