	-6,600

Explanation: In accordance with section 1901 of P.L. 108-11, \$6.6 million is transferred from the IFF to the Military Construction, Defense-Wide appropriation for contingency construction projects in Iraq. The construction project relocates the 1st Armored Division headquarters (1AD HQ) from East to West Baghdad International Airport (BIAP). This relocation is necessary due to the opening of BIAP in the near future and the fact that due to extensive combat damage, there are no usable facilities at West BIAP for the 1AD HQ. The project consists of joining together three prefabricated modules to provide 68,320 square feet of administrative space for the 1AD HQ operation. The scope of the work includes configuring the space within the buildings for offices and a Tactical Operations Center. Using prefabricated structures will limit the overall cost. This facility is vital to provide a safe and secure operational environment for the 1AD HQ personnel.
