This reprogramming action is submitted for prior approval because this action uses special transfer authority and exceeds established reprogramming thresholds. This reprogramming action provides funding in support of higher priority items, based on unforeseen military requirements, than those for which originally appropriated; and are determined to be necessary in the national interest. They meet all administrative and legal requirements, and none of the items have previously been denied by the Congress.

This reprogramming action realigns \$6.572 million within the Research, Development, Test, and Evaluation, Air Force, 10/11, appropriation.

Budget Activity 07: Operational System Development	
0101122F Air-Launched Cruise Missile (ALCM)	
3,536	3,536
	<b>+6,572</b>
	10,108

Explanation: Funds are required to support Long Range Stand-off (LRSO) Materiel Solutions Analysis (MSA) completion and Technology Development Phase. The LRSO is the replacement for the Air Launched Cruise Missile (ALCM), and is required to support national objectives for both nuclear and conventional deterrence. The LRSO study group evaluated the scope and estimated cost to complete the LRSO MSA phase. The evaluation showed that additional funding was needed.

Budget Activity 05: System Development and Demonstration	
0604851F Intercontinental Ballistic Missile	
59,736	59,736
	<b>-6,572</b>
	53,164

Explanation: Funds are available due to the Intercontinental Ballistic Missile contracting delays on the Engineering and Manufacturing Development (EMD) support equipment programs resulting in a re-phased program schedule.
