| Total Estimated Cost    | 100,489             |

*// The Previously Reprogrammed amount is the result of below threshold reprogramming actions.*

Project Description: This project constructs, renovates, and demolishes facilities to support development of the Naval Special Warfare Center Basic Training Command Schoolhouse on the Naval Amphibious Base Coronado. The facilities will support a variety of functions including operational gear storage, applied instruction, administrative areas, boat storage and maintenance.

Justification: This project was awarded in September 2019. Due to significant unforeseen site conditions that included un-recorded utility lines, buried slabs, additional hazardous materials, differing site condition in renovation areas, and further deterioration of existing facilities, the cost of this project has increased. Additional funds will cover these costs and provide a complete and useable facility. This project also has two unawarded options for the boat storage and medical facility renovation that are not part of this reprogramming request. These unawarded options were submitted to Congress in USSOCOM's FY 2022 Unfunded Priority List (UPL) as a cost to complete request.

A 10 U.S.C. §2853 cost variation notification is not required.

Source of Funds: Savings from the following project will fund this requirement:
