CHAPTER 7

DEPARTMENT OF DEFENSE EDUCATION ACTIVITY (DoDEA) EMPLOYEES

1.0 GENERAL

1.1 Purpose

This chapter establishes policy and procedures for the pay and leave of the DoDEA employees employed under the Teaching Position (TP) Pay Plan. These employees include teachers, principals, administrators, instructional systems specialists (ISS), guidance counselors, social workers, nurses, and school psychologists.

1.2 Authoritative Guidance

The pay policies and requirements established by the DoD in this chapter are derived primarily from, and prepared in accordance with the United States Code (U.S.C.), Title 20. The specific statutes, regulations, and other applicable guidance that govern each section are listed in a reference section at the end of this chapter. Specifically, [20 U.S.C. §§ 901-907](#) govern the salaries and personnel practices applicable to educators employed overseas by the DoDEA on a school year basis. The pay and personnel practices are implemented by policies and regulations issued by the DoDEA under the authority and direction of the Secretary of Defense. The regulations on pay include [DoDEA Regulation 1400.13](#), Salaries and Personnel Practices Applicable to Teachers and Other Employees of the DoD Dependents Schools (DoDDS), and the Dependent Schools [\(DS\) Regulation 5301.4](#), DoDDS Salaries and Personnel Practices Applicable to Principals and Assistant Principals, as amended. These policies and regulations differ considerably from those applicable to other federal civilian employees paid under Title 5, U.S.C. or other statutes.

2.0 TP PAY PLAN

Individuals, such as educators and administrators who hold a TP (hereinafter referred to as educators, administrators, and ISS employees) as defined in 20 U.S.C. § 901 are governed by the policies and regulations prescribed by the DoDEA. Educators including teachers, social workers, guidance counselors, school psychologists, and nurses earn a school year salary based on 190 duty days (also referred to as working days) and typically receive compensation over [22 or 26](#) pay periods [depending upon the written election of the employee](#). Administrators including school principals and assistant principals earn a school year salary based on 222 duty days and are paid out over 26 pay periods. ISS employees (educator positions that support the DoDEA schools above the school level, rather than at the school level) earn a school year salary based on 222 duty days and are paid out over 26 pay periods. Educators, administrators, and ISS employees do not earn annual, sick, or home leave under Title 5, U.S.C., but instead, are entitled to “educator’s leave” under 20 U.S.C. § 904.

2.1 School Year Duty Days

2.1.1. Educators. The school year for educators consists of 190 duty days and includes no less than 175 days of classroom instruction. The 190 duty days include the days required before and after the first and last day of school when educators must prepare for the opening and closing of school. The school year calendar may be adjusted after the school year begins with no change in school year salary, as long as 190 duty days are required and no less than 175 days of classroom instruction are provided. If the school year extends beyond 190 duty days, the educator receives compensation at the appropriate daily rate as of the 191st working day. Should an emergency preclude completion of a full school year at one or more schools, the educators must be furloughed, separated, or salary continued until the full school-year salary has been paid out.

2.1.2. Administrators. The school year requirement for administrators consists of 222 duty days and includes no less than 175 days of classroom instruction. Also, included in the 222 duty days is any time when the services of a majority of educators at the school are required. The school year calendar may adjust after the school year begins with no change in school year salary as long as the required 222 duty days for principals and assistant principals and no less than 175 days of classroom instruction remain. If the school year extends beyond 222 duty days during a given school year, the administrator receives compensation at the appropriate daily rate as of the 223rd working day. Should an emergency preclude completion of a full school year at one or more schools, the administrators must be furloughed, separated, or salary continued until the full school-year salary has been paid out.

2.1.3. ISS Employees. The school year for an ISS employee consists of 222 duty days, the same schedule as administrators. ISS employees coordinate their 222-day schedule with their supervisors at the start of the school year.

2.1.4. Overseas School Year Calendars. Overseas school year calendars issued by the DoDEA may vary due to local customs and holidays. The calendars identify the first and last duty days of the school year, instructional days, and exception days for educators and students. The DoDEA provides a copy of school calendars to the servicing Civilian Payroll Office (PRO) and to the Defense Finance and Accounting Service (DFAS) Information and Technology (I&T) Office no later than 4 weeks prior to the first duty day of the new school year. Submit calendar(s) and updates, if necessary, via email to the PRO (dfas.indianapolis.in.jfv.mbx.dodea@mail.mil) and DFAS I&T (dfas.indianapolis.in.ztb.list.cin.dcps-dodea@mail.mil) as soon as possible.

2.2 Work Schedules

Educators, administrators, and ISS employees work in full or half day increments and work either a seasonal part-time or seasonal full-time schedule. Substitute teachers work an intermittent work schedule. See also [DoDEA Administrative Instruction \(AI\) 1422.01](#), DoDEA Work Schedule Program, for additional information.

2.3 Salary Schedules

The DoD Wage and Salary Division (WSD) establishes the rates of basic compensation for teachers and TP in the DoD. The DoD WSD issues Pay Plan salary schedules in April or May of the current school year. The schedules are effective retroactive to August 1st of the current school year (i.e., the prior calendar year). Use prior school year salary schedules until WSD issues salary schedules for the current school year. There are separate salary schedules issued for educator, management, specialist, and administrator overseas school year positions. Salary schedules are further differentiated by step and academic salary lane (i.e., Bachelor's, Bachelor's plus 15, Bachelor's plus 30, Master's, Master's plus 15, Master's plus 30, and Doctorate).

2.4 Retroactive Pay Adjustment

After the DoD WSD issues the salary schedule in April or May of the current school year, the servicing Human Resources Office (HRO) processes a retroactive pay adjustment effective August 1st of the current school year (i.e., prior calendar year) using the Standard Form [\(SF\) 50](#), Notification of Personnel Action. When the retroactive adjustment processes, biweekly payments for foreign post allowance and foreign post differential adjust accordingly. The servicing PRO then reconciles educator, administrator, and ISS employee pay and makes any necessary "retro payments" based on increases in salary. The gross amount of the retroactive adjustment computed under the new salary schedules are subject to applicable withholdings (e.g., Civil Service Retirement System (CSRS) or Federal Employee Retirement System (FERS), federal income tax, Social Security tax, Medicare tax, and state income tax). When the retroactive adjustment processes, biweekly deductions adjust accordingly. The biweekly deductions adjust as follows:

2.4.1. Basic and Optional Federal Employees Group Life Insurance (FEGLI),

2.4.2. Thrift Savings Plan (TSP), and

2.4.3. TSP basic one percent and matching employer contributions for FERS employees.

2.5 Step Increases

Step increases for educators, administrators, and ISS employees are similar to step increases for General Schedule (GS) employees. Generally, steps 1 through 14 are regular step increases and steps 15 through 18 are longevity steps. Substitute teachers are not eligible for step increases.

2.5.1. Eligibility.

2.5.1.1. A full-time educator assigned to a 190-day position may receive a regular step increase (steps 1 through 14) provided they have been in a pay status at least 150 duty days during their last previous school year as an educator.

2.5.1.2. A full-time educator assigned to a 190-day position may receive a longevity step increase (steps 15 through 18) provided they have been in a pay status at least 150 duty days during each of the previous 4 school years as an educator.

2.5.1.3. A half-time educator assigned to a 190-day position may receive a regular step increase (steps 1 through 14) provided they have been in a pay status at least one-half of 150 duty days during each of the previous 2 school years. A half-time educator may receive a longevity step increase (steps 15 through 18) after they have been in a pay status at least one-half of the 150 working day minimum during each of the previous 8 school years.

2.5.1.4. A full-time administrator assigned to a 222-day position may receive a step increase (steps 1 through 10) provided they have been in a pay status at least 175 duty days during their last previous school year as an administrator.

2.5.1.5. A full-time ISS employee assigned to a 222-day position may receive a regular step increase (steps 1 through 14) provided they have been in a pay status at least 175 duty days during their last previous school year as an educator.

2.5.1.6. A full-time ISS employee assigned to a 222-day position may receive a longevity step increase (steps 15 through 18) provided they have been in a pay status at least 175 duty days during each of the previous 4 school years as an educator.

2.5.1.7. A half-time ISS employee assigned to a 222-day position may receive a regular step increase (steps 1 through 14) provided they have been in a pay status at least one-half of 175 duty days during each of the previous 2 school years. A half-time educator may receive a longevity step increase (steps 15 through 18) after they have been in a pay status at least one-half of the 175 working day minimum during each of the previous 8 school years.

2.5.1.8. A full-time educator assigned to a 190-day position may receive an annual step increase (or service credit towards a longevity step) for the last satisfactory year of service, plus an additional annual step (or service credit) for the first year of absence, only upon return to duty after successfully completing a program of study or employment of one or more years under the Administrative Reemployment Rights Program.

2.5.2. Effective Date. Step increases take effect August 1st of each school year following completion of the school year. However, the step increase is not payable until the educator returns to duty for the subsequent year. When moving to a higher or lower salary schedule, there is no change to the effective date of step increases.

2.6 Arrival at Post

2.6.1. Late Arrival. Newly recruited educators from the Continental United States are appointed with the understanding that they will serve for an entire school year or a specified partial month. When an educator arrives late to the post of assignment through no personal fault (e.g., due to transportation or processing delays), then administratively excuse the absence and pay the educator as though he/she arrived on time and served during the lost time.

DoDEA dates the offer letter 14 days prior to the reporting date. Educators, other than described, who arrive late at the post of assignment after the start of the school year, do not receive compensation for the duty days prior to the day of arrival unless granted paid leave by a supervisor.

2.6.2. Early Arrival. Educators who arrive at their post of assignment prior to the start of the school year normally are not entitled to compensation until the start of the school year. However, educators who are required to report at their post of assignment and perform work prior to the start of the school year receive compensation at the daily salary rate from the prior school year salary schedule for each day worked. Note: This salary is not subject to retroactive adjustment.

2.7 Departure From Post

Educators who are unable to depart promptly after the end of the school year for personal reasons or because of circumstances beyond their control (e.g., lack of available transportation), are not entitled to compensation for the period between the end of the school year and the date of departure.

2.8 During Travel

While en route during a permanent change of station (PCS) between school years, an educator is in a non-pay status and not paid basic compensation. While en route during a PCS between school years, a principal or assistant principal (otherwise in a non-pay, non-duty status) remains in a non-pay status and receives appropriate per diem payments as provided in the [DoD Joint Travel Regulations](#).

2.9 Work at More Than One Post of Assignment

2.9.1. When educators PCS during the school year, action will be taken to ensure that, after working the scheduled duty days during the remaining pay periods at the new post of assignment, the educator receives the full school year salary as entitled. If the total number of days actually worked during the school year (to include paid leave at the former duty station and the new duty station) exceed 190 days, the educator receives compensation at the daily rate for any days worked in excess of 190 days.

2.9.2. When administrators or ISS employees PCS during the school year, action will be taken to ensure that, after working the scheduled duty days during the remaining pay periods at the new post of assignment, the administrator or ISS employee receives the full school year salary as entitled. If the total number of days actually worked during the school year (to include paid leave at the former and new duty stations) exceed 222 days, the employee receives compensation at the daily rate for any days worked in excess of 222 days.

2.10 Substitute Teachers

2.10.1. School Year Substitute Teachers. A substitute teacher receives the flat daily rate prescribed under Salary Schedule A. The minimum increment paid for substitute work is one-half day.

2.10.2. Summer School Substitute Teachers. The Salary Schedule for “Other Compensation” provides the daily rate for a summer school substitute teacher and is two-thirds of the regular school year substitute teacher rate established for the prior school year. This salary is not subject to retroactive adjustment. For example, the prior school year rate for a 2023 summer school substitute teacher is published in the 2022-2023 salary schedules. The minimum increment earned and paid is one-half day the equivalent of one-third of the regular substitute teacher rate. Substitute teachers who teach an academic enrichment K-8 program during the summer recess period receive a stipend as authorized by the memorandum of understanding (MOU).

2.11 Allowances and Differentials

Educators, administrators, and ISS employees may be entitled to certain allowances and differentials such as government quarters, living quarters allowance (LQA), temporary quarters subsistence allowance (TQSA), separate maintenance allowance (SMA), post allowance, post differential and/or storage of household goods. See section 5.0 for payment information on post allowances and foreign post differentials for TP Pay Plan employees. See Chapter 3 for payment information on LQA, TQSA, and SMA. An educator employed as a substitute is not entitled to government quarters, quarters allowance, post allowance, post differential, or storage of household goods.

3.0 LEAVE

3.1 Accrual of Leave

3.1.1. Educators. Under 20 U.S.C. § 904, educators (excluding substitute teachers) are entitled to cumulative leave with pay, also referred to as educator leave. If the school year consists of less than 8 months, the leave accrues at the rate of 1 day for each calendar month worked or partial month. When the school year includes more than 8 months, an employee who serves the entire school year is entitled to 10 days of cumulative educator leave with pay for the school year. The full school year accumulation of leave is credited to the employee’s leave record when the school year begins (normally, in August) or whenever the employee enters on duty under [DS Regulation 5630.4](#), DoDDS Absence and Leave.

3.1.2. Administrators and ISS Employees. Administrators and ISS employees may earn 13 days of cumulative educator leave with pay under 20 U.S.C. § 904 and DS Regulation 5301.4. The credit reflects on the employee’s leave record each year on August 1st.

3.1.3. Liquidation of Unused Leave Upon Separation. If an educator, administrator, or ISS employee separates for any reason before the school year ends, any leave credited, but not earned, will be subtracted from the leave balance. If already used, a debt will be established and appropriate collection action taken.

3.1.4. Leave Accrual for Part-Time Educators and Part-Time ISS Employees. Educators and ISS employees regularly employed on a part-time basis earn leave in an amount proportionate to the amount of leave earned as compared to full-time. Part-time ISS employees, such as those in a job-sharing arrangement, earn 6.5 days per year (or one-half day (4 hours) per pay period, if less than 8 months remain in the school year).

Example 1: A part-time educator appointed to a part-time position for the full school year. The educator is scheduled to work one-half day on each duty day during the regular school year. The educator is entitled to accrue 10 half days (or 5 days) of educator leave.

Example 2: A part-time educator appointed to a part-time position for the full school year. The educator is scheduled to work each Tuesday and Thursday during the regular school year. The educator is entitled to accrue two-fifths (4 days) of the 10 days of educator leave that would be earned during full-time employment.

Example 3: A part-time educator appointed to a part-time position for the last semester (one-half) of the school year. The educator is scheduled to work one-half day on each scheduled duty day during the semester. The educator is entitled to accrue one-fourth (2.5 days) of educator leave.

3.1.5. Substitute Teachers. Substitute teachers employed in positions on a temporary intermittent basis and are not entitled to earn leave.

3.1.6. Summer Recess Period. Educators and administrators who perform activities during the summer recess period do not earn leave.

3.2 Leave Usage

3.2.1. Minimum Charge. The minimum charge for educator leave is one-half day, and additional charges are in multiples thereof. An administrative authority may use discretion and excuse an occasional absence from duty of less than one-half day for adequate reasons without charge to educator leave. Report leave charges to the PRO and record on the employee's timecard.

3.2.2. Authorized Absences. An educator, administrator, or ISS employee may use accrued educator leave during the school year for the following:

3.2.2.1. Maternity purposes;

3.2.2.2. Illness of the educator;

3.2.2.3. Illness, contagious disease, or death in the immediate family of the educator that requires his or her absence;

3.2.2.4. Any personal emergency; or

3.2.2.5. Any purpose.

With the appropriate advance notice and prior approval of the supervisor, an educator, administrator, or ISS employee may use up to 3 days of leave in a given school year for any purpose. Educator leave used for any purpose normally may not be used during orientation week or the first or last week of the school year. An exception may be made when an employee is accepted for an educational program and must report prior to the end of the school year.

3.2.3. Summer Recess Period. Using accrued educator leave during any summer recess period is not permissible. An absence during a summer recess period is without pay.

3.2.4. Non-work Days. Except for unique tours of duty established by the host nation (e.g., Bahrain), Saturdays, Sundays, regularly scheduled holidays including U.S. holidays and host nation holidays and other administratively authorized non-work days are not normally days of leave. See 20 U.S.C. § 904(b). Therefore, Leave Without Pay (LWOP) is not charged to an educator, administrator, or ISS employee, who is in a non-pay status immediately preceding or following a scheduled holiday.

3.3 Advances of Leave

Under unusual circumstances, an educator, administrator, or ISS employee may receive up to 30 days of advanced educator leave (above the amount already credited for the current school year) for use on any scheduled duty day within the school year. Such an advance is subject to subsequent earning of educator leave, or repayment upon separation for leave advanced but not earned. The immediate supervisor may approve requests for up to 10 days of advance educator leave. Submit requests in excess of 10 days of advance educator leave to the Director for Student Excellence or District Superintendent, as appropriate. Submit approved requests to the PRO upon receipt from the approving official.

3.4 LWOP

The immediate supervisor of an educator or ISS employee may approve an LWOP request of up to 3 days. The Director for Student Excellence or District Superintendent may approve LWOP requests in excess of 3 days, but less than 30 days. The Director for Student Excellence may approve LWOP requests of 30 days or more. The District Superintendent must approve LWOP requests in excess of 3 days, but less than 30 days for administrators. The Director for Student Excellence or their delegate must approve LWOP requests in excess of 30 days by administrators.

3.5 Conversion of Leave for Federal Employees Transferring to the DoDEA

3.5.1. Sick Leave. An employee of the federal government or the District of Columbia, who transfers without a break in service from a position under a different leave system to an educator, ISS employee or administrator position, receives credit for sick leave immediately prior to the effective date of their conversion, transfer, promotion, or reappointment. Sick leave so credited is included in the employee's balance of educator leave.

3.5.2. Annual Leave. There is no annual leave credited to an educator, ISS employee, or administrator's balance of educator leave when he or she transfers without a break in service from a position under a different leave system. The employee will receive a lump-sum payment for accrued annual leave from the previous employer. However, administrators who converted from GS or General Merit positions to Salary Schedules K and L on October 11, 1987, received credit for annual leave during the initial conversion.

3.6 Transfer and Recredit of Educator's Leave

3.6.1. Reappointed to Another Educator, Administrator, or ISS Employee Position. When an educator, administrator, or ISS employee is separated from their current position and reappointed in another educator, administrator, or ISS employee position without a break in service of more than 3 years, the employee's educator leave is certified to the employing agency for credit as sick leave on the [SF 1150](#), Record of Leave Data.

3.6.2. Reappointed to Federal Position. When an educator, administrator, or ISS employee is separated from their position and reappointed (without a break in service to another federal position subject to another leave act), the leave account is certified to the employing agency for credit in accordance with Title 5, Code of Federal Regulations, section 630.501, ([5 CFR 630.501](#)).

3.6.3. Temporary Employment During Recess. If an educator, administrator, or ISS employee accepts temporary employment with the federal government in a non-educator position during a recess period, their educator's leave account will not be transferred to the leave account of the summer position. Any sick leave earned during the temporary summer employment will be credited and any unused sick leave balance will be transferred to the educator's leave account when they return to duty in their regular educator or administrator position.

3.7 Liquidation of Leave Upon Separation

3.7.1. Any annual leave earned under a different leave system and remaining to the credit of an educator, administrator, or ISS employee upon their separation will be liquidated by a lump-sum payment in accordance with [5 U.S.C. § 5551](#) and 20 U.S.C. § 904(f).

3.7.2. Liquidation of educator leave upon separation through lump-sum payment is prohibited. Educator leave that may not be liquidated includes leave earned by an educator, administrator, ISS employee, or the leave balance pursuant to subparagraph 3.5.1.

3.8 Sabbatical Leave

3.8.1. Authority. Yearlong educator leave at half-pay (sabbatical leave) may be authorized for an educator, administrator, or ISS employee, and for educational purposes, when the course of study is determined to be appropriate by the Director for Student Excellence. An SF 50 is not required. The approved request for training should reflect that the educator, administrator, or ISS employee will be in an LWOP status one-half of each day during the yearlong period.

3.8.2. Benefits and Entitlements During Sabbatical Leave. Educators and administrators granted sabbatical leave at half-pay will continue to receive life insurance and health benefits coverage in the same manner as if they were in full pay status. Retirement contributions will be deducted for only one-half year; however, the employee is entitled to credit for a full year toward retirement. Educator leave is not earned, nor should it be deducted from the employee's leave account during the training period. Any pay step increase that would have been authorized should be processed as if the educator or administrator had worked a full school year.

3.8.3. Pay Status Reporting During Sabbatical Leave. The educator or administrator's work schedule should not change during sabbatical leave. The time and attendance report for each pay period should reflect that the employee is in an LWOP status one-half of each day.

4.0 PAY STATUS DURING SCHOOL YEAR AND SUMMER RECESS

4.1 School Year

An educator's school year consists of 190 duty days. In most overseas locations, these duty days fall on days during the normal workweek (i.e., Monday through Friday). An educator, however, does not work every Monday through Friday during the school year because of exception days (e.g., winter and spring recess, federal holidays, and certain host nation holidays). As a result, the school year may include 22 pay periods with approximately 213 days, Monday through Friday, between the educator's first and last duty day of the school year. There are typically 21 full pay periods, plus 3 additional days in the 22nd pay period in a given school year.

4.2 Summer Recess

During the summer recess period, while school is not in session, educators ordinarily are in a non-pay status. Educators who are returning to duty for the following full school year are entitled to have LQA payments continued during the summer recess period while they are in a non-pay status. See the Department of State Standardized Regulation ([DSSR](#)), Chapter 100, Quarter Allowances, and Chapter 700, DoD Teachers. The servicing HRO will notify the servicing PRO of any change (e.g., transfer, resignation, or retirement) in the status of educators.

5.0 COMPENSATION

5.1 Educators with a 190-Day School Year

5.1.1. Daily/Biweekly Rate. Educators earn pay at a rate that differs from the typical rate used to pay employee salaries. If one used the usual pay calculations, the educator's seasonal work schedule, in conjunction with recess periods, would cause pay to fluctuate during each pay period of the school year. Therefore, in order to provide consistency, calculate the biweekly pay for educators using the following information and formulas:

5.1.1.1. Duty Days and "Daily Rate" or "190 Rate" for Educators. The number of duty days in the school year is 190. The educator's daily rate, or "190-Rate," is the school year salary divided by 190 days.

5.1.1.2. School Year Days and "School Year Rate" or "213-Rate" for Educators. For most school years, the school year days will total 213, 214, or 215 days, depending on the calendar year. School year days equal the total number of days (Monday through Friday) falling within an educator's first through last duty day during the school year. School year days include 190 duty days, as well as all other non-work recess days that occur on Monday through Friday during the regular school year. Non-work (or exception) days include federal holidays (e.g., Labor Day) and school recess days (e.g., spring recess) when educators are normally not scheduled to work. Use the number of school year days to determine an educator's school year rate, or "213-Rate." The school year rate is the daily rate used to provide a uniform payment for each biweekly pay period. Multiply the school year rate by 10 days to determine the educator's biweekly basic pay amount. Educators may elect biweekly payments over 260, 261, or 262 days (depending on how many workdays are in the fiscal year). Determine the school year rate by dividing the school year salary by either 260, 261, or 262 days.

5.1.1.3. Formula for Educator's Biweekly Pay. An educator's salary normally pays out over 21 full and 1 partial pay periods. To calculate the biweekly pay, use the following formula:

5.1.1.3.1. $\text{School Year Salary} \div (213, 214, 215, 260, 261, \text{ or } 262 \text{ School Year Days}) = \text{School Year Rate, and}$

5.1.1.3.2. $\text{School Year Rate} \times 10 \text{ Days} = \text{Biweekly Pay.}$

5.1.2. Educator Post Allowance. In computing the post allowance for educators paid on a 190-day school year basis, divide the total annual amount of post allowance payable by the number of calendar days in the school year (i.e., school year days plus weekend days) to obtain the daily rate. Multiply the daily rate by the number of calendar days in the pay period (normally, 14 days). See also paragraph 5.6 regarding post allowances.

5.1.3 Reducing Pay for Absences Without Pay. For educators on non-paid absence (e.g., LWOP or absence without leave (AWOL)), the biweekly pay is reduced by 1/190th of the school year salary for each scheduled duty day that the educator is in a non-paid status. Since educators do not receive pay for federal holidays or recess periods, there is no reduction in biweekly pay when the educator is in a non-paid status before or after an exception day.

5.1.4. Biweekly Pay for Educators Beginning Work After Start of School Year. When an educator's appointment begins after the start of the school year, the school year salary adjusts according to the number of duty days remaining in the school year. Multiply the daily rate ("190-Rate") by the number of duty days remaining in the school year to obtain the adjusted school year salary. To determine the biweekly pay, divide the adjusted school year salary by the remaining number of school year days, and then multiply by 10 days. To calculate the biweekly pay for educators who begin work after the start of the school year, use the following formula:

5.1.4.1. $\text{"190-Rate"} \times \text{Duty Days Remaining} = \text{Adjusted School Year Salary},$

5.1.4.2. $\text{Adjusted School Year Salary} \div \text{School Year Days Remaining} = \text{Adjusted School Year Daily Rate}, \text{ and}$

5.1.4.3. $\text{Adjusted School Year Daily Rate} \times 10 \text{ Days} = \text{Biweekly Pay}.$

Example: An educator reports for work after the beginning of the school year and receives a salary of \$38,000 for working a full school year (i.e., 190 duty days). The educator would have a "190-Rate" (daily rate) of \$200.00 ($\$38,000 \div 190$). This salary normally would be paid out over 213 school year days. However, the educator in this example begins work on October 1st. Due to the late start, 23 duty days (August through September) will not be worked. The school year calendar indicates that 167 ($190 - 23$) duty days remain in the school year. Thus, the "adjusted school year salary" would be \$33,400 ($\200.00×167). To determine how the adjusted school year salary of \$33,400 will be paid biweekly, the remaining school year days must be identified. In this example, 188 school year days remain (167 duty days + exception days). The adjusted school year daily rate is computed as follows: $\$33,400 \div 188 = \177.66 . The biweekly pay equals the adjusted school year daily rate multiplied by 10: $\$177.66 \times 10 = \$1,776.60$.

5.1.5. Educators Who Separate Before the End of the School Year. When an educator separates (i.e., resigns, retires, or dies) before the end of a school year, the school year salary adjusts according to the number of duty days worked. Determine the adjusted school year salary by multiplying the daily rate (“190-Rate”) by the number of duty days worked (include any days in a paid leave status). To calculate the adjusted school year salary for educators who separate before the end of the school year and to reconcile difference(s) in the salary actually paid, use the following formula:

5.1.5.1. “190 Rate” \times Duty Days Worked = Adjusted School Year Salary, and

5.1.5.2. Adjusted School Year Salary \div School Days Completed
(Duty Days + Exception Days) = Adjusted School Year Daily Rate.

Example: An educator separates before the end of the school year. The educator has been receiving a school year salary of \$38,000 at the “190-Rate” (daily rate) of \$200.00 (\$38,000 \div 190). This salary normally would be paid out over 21 full and 1 partial pay periods at the school year daily rate of \$178.40 (\$38,000 \div 213 = 178.40). Should the educator resign after working only 120 of the scheduled 190 duty days in the school year, the adjusted school year salary would be \$24,000 (\$200.00 \times 120). In this example, the number of school days completed by the educator (duty days worked + exception days) for the school year was 123 (120 duty days worked + 3 exception days). The adjusted school year daily rate would be \$195.12 (\$24,000 \div 123). Any difference between the adjusted school year salary and the salary actually paid to date must be reconciled. Reconcile the adjusted school year salary and the salary actually paid by recomputing the entire school year using the adjusted school year daily rate to determine what the educator should have been paid from the start of the school year to the date of separation. In this example, the employee was actually paid \$21,900 (\$178.40 \times 123). The educator should have been paid \$24,000 (\$195.12 \times 123).

5.2 Administrators with a 222-Day School Year

5.2.1. Daily/Biweekly Rate. Administrators earn pay at a rate that differs from the typical rate used to pay employee salaries. If the usual pay calculations were used, the administrator’s seasonal work schedule, in conjunction with recess periods, would cause pay to fluctuate during each pay period of the school year. Therefore, to provide consistency, the biweekly pay for administrators is calculated using the following information and formulas:

5.2.1.1. Duty Days and “Daily Rate” or “222 Rate” for Administrators. The number of duty days in the school year for administrators is 222. The administrator’s daily rate, or “222-Rate,” is the school year salary divided by 222 days.

5.2.1.2. School Year Days and “School Year Rate” or “260 Rate” for Administrators. The school year days for administrators will total between 260 and 262 days, depending on the calendar year. The days during the school year include days that fall within and outside of the school year for educators.

School year days for administrators include 222 duty days and all other exception days that occur on Monday through Friday during the school year. Exception days include federal holidays (e.g., Labor Day) and school recess days (e.g., spring recess) when administrators are not normally scheduled to work. Use the number of school year days to determine an administrator's school year rate, or "260-Rate." The school year rate is the daily rate used to provide a uniform payment for each biweekly pay period. Multiply the school year rate by 10 days to determine the administrator's biweekly basic pay amount.

5.2.1.3. Formula for Administrator's Biweekly Pay. Administrators typically receive compensation over 26 pay periods. Use the following to calculate biweekly pay:

5.2.1.3.1. $\text{School Year Salary} \div (\text{260, 261, or 262 School Year Days}) = \text{School Year Rate, and}$

5.2.1.3.2. $\text{School Year Rate} \times 10 \text{ Days} = \text{Biweekly Pay.}$

5.2.2. Administrator Post Allowance. In addition to basic pay, administrators are entitled to a post allowance for employees assigned to foreign areas where the cost of goods and services is substantially higher. See 20 U.S.C. § 906. To compute the foreign post allowance for an administrator, divide the total annual amount of post allowance payable by 365 calendar days (366 days for a leap year). See paragraph 5.6 for information regarding post allowance.

5.2.3. Reducing Pay for Absences Without Pay. For administrators in a non-paid absence (e.g., LWOP or AWOL), reduce the biweekly pay by 1/222th of the school year salary for each scheduled duty day in a non-paid status. Since administrators do not receive pay for exception days, there is no reduction in biweekly pay when the administrator is in a non-paid status before or after a federal holiday or recess day.

5.2.4. Biweekly Pay for Administrators Beginning Work After Start of School Year. When an administrator's appointment begins after August 1st and will not work 222 duty days by July 31st, the school year salary adjusts according to the number of actual duty days remaining in the school year. Multiply the daily rate ("222-Rate") by the number of duty days remaining in the school year in order to obtain the "adjusted school year salary." To determine the biweekly pay, divide the adjusted school year salary by the remaining number of school year days and then multiply by 10 days. To calculate biweekly pay for administrators who begin work after the start of the school year, use the following formula:

5.2.4.1. $\text{"222-Rate"} \times \text{Duty Days Remaining} = \text{Adjusted School Year Salary,}$

5.2.4.2. $\text{Adjusted School Year Salary} \div \text{School Year Days Remaining} = \text{Adjusted School Year Daily Rate, and}$

5.2.4.3. $\text{Adjusted School Year Daily Rate} \times 10 \text{ Days} = \text{Biweekly Pay.}$

Example: An administrator reports for work after the beginning of the school year and receives a salary of \$55,500 for working a full school year (i.e., 222 duty days). The administrator has a “222-Rate” (daily rate) of \$250.00 ($\$55,500 \div 222$). This salary is paid evenly over 26 pay periods. However, the administrator in this example begins work on September 15th. Due to the late start, 33 duty days are not worked. The administrator will work only 189 of the duty days remaining by July 31st. Thus, the adjusted school year salary is \$47,250 ($\250.00×189). To determine how the adjusted school year salary of \$47,250 will be paid biweekly, the remaining school year days must be identified. In this example, 228 school year days remain (189 duty days + exception days). The adjusted school year daily rate is computed as follows: $\$47,250 \div 228 = \207.24 . The biweekly pay equals the adjusted school year daily rate multiplied by 10 days: $\$207.24 \times 10 = \$2,072.40$.

5.2.5. Administrators Separating Before End of School Year. When an administrator separates (i.e., resigns, retires, or dies) before the end of a school year, the school year salary must be adjusted according to the number of duty days already worked. The adjusted school year salary is determined by multiplying the daily rate (“222-Rate”) by the number of duty days worked (including days in a paid leave status). To calculate the adjusted school year salary for administrators who separate before the end of the school year, use the following formula:

$(\text{School Year Salary} \div 222 \text{ Days}) \times \text{Duty Days Worked} = \text{Adjusted School Year Salary for Separated Administrators}$

Example: An administrator separates before the end of the school year. The administrator has been receiving a school year salary of \$55,500 at the “222-Rate” (daily rate) of \$250.00 ($\$55,500 \div 222$). This salary normally would be paid out over 26 pay periods. Should the administrator resign after working only 120 of the scheduled 222 duty days in the school year, the adjusted school year salary would be \$30,000 ($\250.00×120). Any difference between the adjusted school year salary and the salary actually paid to date must be reconciled.

5.3 ISS Employees with a 222-Day School Year

5.3.1. Daily/Biweekly Rate. ISS employees build their own calendar to schedule 222 duty days out of the 260 to 262 school year. The remaining 38 (or 39) days in the school year are considered non-work days for the purposes of this regulation. The ISS employee establishes the schedule; then, receives supervisor approval. If the ISS employee schedules work on a federal holiday, then the employee will not receive holiday pay and will still have the same number of non-work days (either 38 or 39) in the school year. However, if the employee schedules work on a holiday or a Sunday when normal school operations are in session, the employee is entitled to the appropriate premium pay. For example, if school is in session on Sundays due to local custom and the ISS employee’s approved schedule allows for Sunday as a workday, the employee is entitled to Sunday premium pay. However, if Sunday is not normally a workday for school staff and the ISS employee schedules Sunday as a workday, the employee is not entitled to Sunday premium pay. To provide consistency, calculate biweekly pay as follows:

5.3.1.1. Duty Days and “Daily Rate” or “222 Rate” for ISS Employees. The number of duty days in the school year to ISS employees is 222. The ISS employee’s daily rate, or “222-Rate,” is the school year salary divided by 222 days.

5.3.1.2. School Year Days and “School Year Rate” or “260 Rate” for ISS Employees. The school year days for ISS employees will total between 260 and 262 days, depending on the calendar year. Thus, the days during the school year include days that fall within and outside of the school year for educators. The school year days for ISS employees include 222 duty days and exception days that occur on Monday through Friday during the regular school year. Exception days include federal holidays (e.g., Labor Day) and school recess days (e.g., spring recess) when ISS employees are not normally scheduled to work. However, due to the schedule flexibility, ISS employees may elect to work on a federal holiday (but will not receive holiday pay) and schedule non-work days on days that other educators generally work. Use the number of school year days to determine an ISS employee’s school year rate, or “260-Rate.” The school year rate is the daily rate used to provide uniform payment for each biweekly pay period. Multiply the school year rate by 10 days to determine the ISS employee’s biweekly basic pay amount.

5.3.1.3. Formula for ISS Employee’s Biweekly Pay. ISS employees typically receive compensation over 26 pay periods. Use the following to calculate the biweekly pay:

5.3.1.3.1. $\text{School Year Salary} \div (260, 261, \text{ or } 262 \text{ School Year Days}) = \text{School Year Rate, and}$

5.3.1.3.2. $\text{School Year Rate} \times 10 \text{ Days} = \text{Biweekly Pay.}$

5.3.2. ISS Employee Post Allowance. In addition to basic pay, ISS employees are entitled to a post allowance under 20 U.S.C. § 906. To compute the foreign post allowance for an ISS employee, divide the total annual amount of post allowance payable by 365 calendar days (366 days for a leap year).

5.3.3. Reducing Pay for Absences Without Pay. For ISS employees on non-paid absence (e.g., LWOP or AWOL) the biweekly pay reduces by 1/222th of the school year salary for each scheduled duty day that the ISS employee is in a non-paid status. Since ISS employees do not receive compensation for scheduled non-work days, no reduction of biweekly pay is necessary when the ISS employee is in a non-paid status before or after an exception day.

5.3.4. Biweekly Pay for ISS Employees Beginning Work After Start of School Year. When an appointment is after August 1st and the ISS employee will not work 222 duty days by July 31st, the school year salary must adjust according to the number of actual duty days remaining in the school year. Multiply the daily rate (“222-Rate”) by the number of duty days remaining in the school year in order to obtain the adjusted school year salary. To determine the biweekly pay, divide the adjusted school year salary by the remaining number of school year days. Then, multiply by 10 days. To calculate biweekly pay for ISS employees who begin work after the start of the school year, use the following formula:

5.3.4.1. “222-Rate” \times Duty Days Remaining = Adjusted School Year Salary,

5.3.4.2. Adjusted School Year Salary \div School Year Days Remaining = Adjusted School Year Daily Rate, and

5.3.4.3. Adjusted School Year Daily Rate \times 10 Days = Biweekly Pay.

Example: An ISS employee reports for work after the beginning of the school year and receives a salary of \$55,500 for working a full school year (i.e., 222 duty days). The ISS employee has a “222-Rate” (daily rate) of \$250.00 (\$55,500 \div 222). This salary normally pays out in even payments over 26 pay periods. However, the ISS employee in this example begins work on September 15th. Due to the late start, it may be difficult to schedule all 222 duty days by July 31st (in this example, the employee can only schedule 189 duty days for the rest of the school year). The adjusted school year salary equals the daily rate multiplied by the total number of scheduled duty days remaining. Thus, the adjusted school year salary is \$47,250 (\$250.00 \times 189). To determine how the adjusted school year salary of \$47,250 is paid biweekly, the remaining school year days must be identified. In this example, 228 school year days remain. The adjusted school year daily rate is computed as follows: \$47,250 \div 228 = \$207.24. The biweekly pay equals the adjusted school year daily rate multiplied by 10 days: \$207.24 \times 10 = \$2,072.40.

5.3.5. ISS Employee Separating Before End of School Year. When an ISS employee separates (i.e., resigns, retires, or dies) before the end of a school year, the school year salary must be adjusted according to the number of actual duty days already worked. The adjusted school year salary is determined by multiplying the daily rate (“222-Rate”) by the number of duty days worked including any days in a paid leave status. To calculate the adjusted school year salary for ISS employees who separate before the end of the school year, use the following formula:

(School Year Salary \div 222 Days) \times Duty Days Worked = Adjusted School Year Salary for Separated ISS Employees

Example: An ISS employee separates before the end of the school year. The ISS employee has been receiving a school year salary of \$55,500 at the “222-Rate” (daily rate) of \$250.00 (\$55,500 \div 222). This salary would normally be paid out over 26 pay periods. Should the employee resign after working only 120 of the scheduled 222 duty days in the school year, the adjusted school year salary would be \$30,000 (\$250.00 \times 120). Any difference between the adjusted school year salary and the salary actually paid to date must be reconciled.

5.4 Premium Pay, Sunday Work, and Holiday Work

5.4.1. Overtime and Compensatory Time. Educators and administrators are ineligible for overtime pay or compensatory time off.

5.4.2. Work Performed on Sunday. Educators appointed to a 190-day position whose regular tour of duty requires them to work on a Sunday are entitled to basic pay, plus a premium of 25 percent of the daily rate (“190-Rate”). Administrators on a 222-day position whose regular tour of duty requires them to work on a Sunday (providing that is part of the 190-duty day school year or within summer school session) are entitled to basic pay, plus premium pay at a rate equal to 25 percent of the regular daily rate (“222-Rate”). If an ISS educator works on a Sunday when normal school operations are in session, the employee is entitled to the appropriate premium pay. See paragraph 5.3.

5.4.3. Work Performed on a Federal Holiday. Educators appointed to a 190-day position whose regular tour of duty requires them to work on any of the federal holidays are entitled to basic pay, plus premium pay at a rate equal to the daily rate. Administrators on a 222-day position whose regular tour of duty requires them to work on any of the federal holidays (providing that is part of the 190-duty day school year or within summer school session) are entitled to basic pay, plus premium pay at a rate equal to the daily rate. If an ISS employee schedules work on a federal holiday, then the employee typically will not receive holiday pay. However, if the ISS employee schedules work on a federal holiday when normal school operations are in session, the ISS employee is entitled to the appropriate premium pay. See paragraph 5.3.

*5.5 Employment During the Summer Recess Period

5.5.1. Educators. Educators are in a non-pay/non-duty status during the summer recess period. However, educators may receive pay for certain duties performed during the summer recess period. An educator who participates in a non-summer, school-related activity (e.g., agency sponsored and approved training, early return, and late departure) during the summer recess period receives compensation at a daily rate of 1/190th of the prior school year salary. An educator who participates in a summer school-related activity (e.g., teaching) typically receives two-thirds of the daily rate of their prior school year salary. However, exceptions are possible, and the educator may receive a different salary amount as stated on the employee’s notification for teaching summer school. The minimum increment earned and paid for summer recess activities is one-half day. Educators who work an academic enrichment K-8 program during the summer recess period receive a stipend as authorized by the MOU. An educator receives payment for participating in summer recess activities via the submission of a memorandum by the DoDEA to the PRO, similar to the one used to authorize payment for extra duty assignments. This period of employment is exempt from dual pay provisions, as provided by [5 U.S.C. § 5533\(d\)\(7\)\(D\)](#) and is not subject to CSRS, FERS, FEGLI, or TSP deductions. See also [DoDEA AI 5303.01](#), [Compensation for DoDDS Educators During School Recess Periods](#).

5.5.2. Administrators and ISS Employees. An administrator or ISS employee who participates in a non-summer, school-related activity (e.g., agency sponsored and approved training) during the summer recess period that is in excess of the 222-day work year, receives compensation at a daily rate of 1/222nd of the prior school year salary. An administrator or ISS employee who participates in a summer school-related activity receives two-thirds of the daily rate of the prior school year salary. The minimum increment earned and paid for summer recess activities is one-half day. An administrator or ISS employee receives payment for participating in summer recess activities via the submission of a memorandum by the DoDEA to the PRO, similar to the one used to authorize payment for extra duty assignments. This period of employment is exempt from dual pay provisions, as provided by 5 U.S.C. § 5533(d)(7)(D) and is not subject to CSRS, FERS, FEGLI, or TSP deductions. See also [DoDEA AI 5303.01](#), Compensation for DoDDS Educators During School Recess Periods.

5.6 Post Allowance and Foreign Post Differential

Payment of allowances and/or differentials is determined in accordance with the DSSR, and the DoD Instruction ([DoDI 1400.25-V1250](#)), DoD Civilian Personnel Management System: Overseas Allowances and Differentials.

5.6.1. Post Allowance. In addition to basic pay, under 20 U.S.C. § 906, full-time educators, administrators, and ISS employees are eligible to receive a post allowance for employees assigned to a foreign area where the cost of goods and services is substantially higher. The amount paid is a flat rate based on the employee's basic salary, family size, and post assignment. The amount of the annual foreign post allowance is located on the [SF 1190](#), Foreign Allowances Application, Grant and Report. If an employee's annual salary is adjusted, the post allowance may also be adjusted and if so, the daily rate should be recomputed. Compute daily rates as follows:

5.6.1.1. Educator Post Allowance Daily Rate. To compute the post allowance for educators paid on a 190-day school year basis, divide the total annual amount of post allowance payable (as shown on the SF 1190) by the number of calendar days in the school year (i.e., school year days plus weekend days) to obtain the daily rate. Multiply the daily rate by the number of calendar days in the pay period (normally, 14 days).

5.6.1.2. Administrator Post Allowance Daily Rate. To compute the foreign post allowance for an administrator, divide the total annual amount of post allowance payable (as shown on the SF 1190) by 365 calendar days (366 days for a leap year).

5.6.1.3. ISS Employee Post Allowance Daily Rate. To compute the foreign post allowance for an ISS employee, divide the total annual amount of post allowance payable (as shown on the SF 1190) by 365 calendar days (366 days for a leap year).

5.6.2. Foreign Post (Hardship) Differential. An educator, administrator, or ISS employee may receive compensation for a foreign post (hardship) differential under the DSSR, Chapter 500. The foreign post differential is additional compensation paid to an eligible employee in a foreign

area where conditions of the environment differ substantially from conditions in the United States and additional compensation is available as a recruitment and retention incentive.

The foreign post differential is 5 to 35 percent over basic compensation. The Department of State periodically reviews and updates rates based on changes in living conditions at various foreign posts. Rates are subject to change at any time. Additionally, any adjustment in an employee's annual salary may cause adjustments to foreign post differential.

5.7 Extra Duty Program for Educators

* 5.7.1. Eligibility. This program applies to certain DoDEA employees who are employed under the pay plan and who are assigned extra duty assignments, such as coaching, or activity sponsorship, in addition to regular school duties. See [DoDEA AI 1417.01](#), Extra Duty Assignments. Educators receive extra duty compensation for extra duty assignments conducted and completed outside the educator's duty day. When a selected educator performs an extra duty assignment, the educator and school principal will sign an MOU. The MOU identifies the extra duty assignment, and includes a description of duties, hourly range, amount of compensation, and a statement that prohibits performing duties during regular duty hours. Administrators are not eligible for extra duty assignments and any extra duties performed by an administrator will be considered voluntarily. Compensatory time and holiday pay are not authorized forms of extra duty compensation.

5.7.2. Compensation.

5.7.2.1. Requirements for Pay. The DoD WSD publishes the compensation rate for completing an extra duty assignment as part of the yearly DoDEA salary schedules (Schedule for Other Compensation). Before receiving extra duty compensation, the educator must complete the activity and perform the minimum number of established hours for the activity. The administrator certifies satisfactory completion of the extra duty assignment and authorization for compensation. The administrator forwards a memorandum to the PRO as soon as possible, no later than May 31, to facilitate payment by the end of the school year.

5.7.2.2. Hourly Range of Assigned Duties. The Director of DoDEA determines an appropriate hourly range for the completion of each type of authorized extra duty activity. Hourly ranges established by the DoD WSD for extra duty compensation are as follows:

5.7.2.2.1. 1 - 19 hours,

5.7.2.2.2. 20 - 39 hours,

5.7.2.2.3. 40 - 79 hours,

5.7.2.2.4. 80 - 119 hours,

5.7.2.2.5. 120 - 159 hours,

5.7.2.2.6. 160 - 199 hours, and

5.7.2.2.7. 200 hours and over.

5.7.2.3. Reducing Compensation for Fewer Hours Worked. If the administrator determines the extra duty assignment has been completed satisfactorily in less time than identified in the approved MOU, compensation must be reduced and the educator should be compensated at the rate established for the appropriate lower hourly range. The educator receives compensation at the rate established for the appropriate lower hourly range. When the hours worked fall short of the original range, or completion of an extra duty assignment is less than acceptable to the administrator, a lesser payment, than the amount indicated in the approved MOU pays on a pro rata basis. To compute a lesser payment, divide the mid-point hour of the appropriate hourly range by the hours actually worked. Then, multiply by the dollar value assigned to the regular hourly category. (For 200 hours and over, the mid-point is 220 hours.)

Example: An educator works 10 hours towards a 20-39 hourly range extra duty assignment (\$910 for school year 2016-2017). When the mid-point (30 hours) is divided into the hours worked (10 hours), and the results rounded to 2 decimal places (.33) and is multiplied by the dollar value of the hourly range for the duty (.33 × \$910), the payment due will be \$300.30.

5.7.2.4. Substitutes. Substitute teachers receive compensation for completing an extra duty assignment at the rate of compensation published by the DoD WSD.

5.8 Accelerated Deductions of Premiums and Allotments for Educators

5.8.1. FEGLI and Federal Employees Health Benefits (FEHB) Accelerated Premium Deductions. Deductions for FEGLI and FEHB premiums from an educator working a 190-day work schedule accelerate to allow the total annual premiums to pay in 22 pay periods, rather than 26 pay periods. Accelerated premium deductions over the course of 22 pay periods allow the employee to maintain coverage and pay no additional premiums during the summer recess when the educator is in non-pay status. The coverage period typically runs from the first duty day of the school year until the day prior to the first duty day of the next school year. Accelerated premium deductions are not required for an administrator or ISS employee assigned to a 222-day work schedule.

5.8.2. Calculation of Accelerated Premium Deduction for FEGLI and FEHB.

5.8.2.1. FEGLI. To determine the amount of the accelerated biweekly premium deduction for FEGLI, first determine the normal (i.e., 26 pay periods) biweekly premium rate deducted for other federal employees in the same salary bracket. Convert the biweekly rate to an annual rate by multiplying the biweekly rate by 26 (to arrive at the amount paid over the entire calendar year). Second, divide the annual rate by 22 (or the number of pay periods over which the educator is normally paid) in order to determine the accelerated premium deduction for each pay period for the educator. The calculation applies to both basic and optional insurance. For optional

insurance, use the age band rate to convert the biweekly rate to an annual rate. Use the following to calculate the accelerated premium deduction amount:

5.8.2.1.1. $\text{Biweekly Premium Rate} \times 26 \text{ Pay Periods} = \text{Annual Premium Rate, and}$

5.8.2.1.2. $\text{Annual Premium Rate} \div 22 \text{ Pay Periods} = \text{Accelerated Premium Deduction.}$

5.8.2.2. FEHB. To determine the accelerated biweekly premium amount deducted from an educator's pay for FEHB, first determine the normal (i.e., 26 pay periods) biweekly premium rate deducted for other federal employees. Convert the biweekly rate to an annual rate by multiplying the biweekly rate by 26 (to arrive at the amount paid over the entire calendar year). Second, divide the annual rate by 22 (or the number of pay periods over which the educator is normally paid) in order to determine the accelerated premium deduction for each pay period for the educator.

5.8.2.3. Accelerated Deductions Beginning After the Start of the School Year. If the educator begins work after the first scheduled duty day of the school year, the total annual premium rate for FEGLI and FEHB must be reduced by a proportionate amount for the coverage period remaining (i.e., through the day prior to the first scheduled duty day of the next school year). Divide the reduced annual premium rate by the number of pay periods remaining to determine the accelerated premium deduction amount. To calculate the accelerated premium deduction amount, use the following:

5.8.2.3.1. $\text{Reduced Annual Premium Rate} \div \text{Pay Periods Remaining} = \text{Accelerated Premium Deduction.}$

5.8.3. Coverage Upon Separation or Movement Under FEGLI and FEHB. If an educator resigns at the close of the school year and he or she has elected coverage under FEGLI and/or FEHB, the actual date of separation will be delayed. The delayed separation date provides the employee with FEGLI and/or FEHB benefits throughout the period covered by accelerated premium deductions. Thus, the period of coverage for an educator employed for a full school year continues until the day prior to the first duty day of the next school year. If the educator separates earlier than the end of the school year, the resignation will specify an earlier date for termination of coverage, and require employee acknowledgement that FEGLI and/or FEHB coverage will continue for only 31 days after the date of separation. An educator who separates before the end of the school year will be reimbursed proportionately if the separation date is earlier than the end of the extended period of prepaid FEHB coverage. If an educator converts to or is appointed to a 222-day or calendar year work schedule, accelerated premium deductions may need refunded, if the effective date of the conversion or appointment occurs during the prepaid coverage period and withholding for the employee's new position results in duplicate premium payments.

5.8.4. Deductions for Federal Flexible Spending Account (FSAFEDS) and Long-Term Care (LTC). Educators, enrolled in the FSAFEDS Program and paid over 21 pay periods, may elect the option to accelerate these allotments. The Federal LTC Program does not offer

accelerated payments to educators paid over 21 pay periods. For periods of non-pay status, the educator receives a “Bill for Uncollected Payroll Premium.”

5.9 Other Deductions

5.9.1. Allotments of Pay.

5.9.1.1. Labor Organization Dues

5.9.1.1.1. Allotments of pay for labor organization dues are effective the second pay period in October of each school year for an educator who is a bargaining unit member. The amount of the allotment will be the dues amount identified by the employee on the [SF 1187](#), Request for Payroll Deductions for Labor Organization Dues, or the amount identified on a list issued by each local or regional bargaining unit, divided by 12 full pay periods unless otherwise agreed to by all parties.

5.9.1.1.2. Educators who enter the dues withholding agreement at a time when less than 12 full pay periods remain in the school year will have their dues allotments prorated over the remaining full pay periods within the dues withholding period.

5.9.1.1.3. An SF 1187 authorization for dues withholding remains in effect when a “Not-to-Exceed” (NTE) employee converts to an excepted service position in the bargaining unit prior to the expiration of the NTE appointment.

5.9.1.1.4. After each pay period, the PRO will prepare and forward the remittance to the designated labor organization electronically. A report that lists names and amounts withheld accompanies each remittance.

5.9.1.1.5. An educator’s authorization for dues withholding is carried forward automatically to the next school year unless notification to stop the deduction is received from the employee. No later than September 1st, educators may request cancellation of labor organization dues deductions by submitting a [SF 1188](#), Cancellation of Payroll Deductions for Labor Organization Dues, to the PRO. Proper completion and timely submission of the SF 1188 is the employee’s responsibility. If the SF 1188 is late (received after September 1st), it processes for the next school year.

5.9.1.1.6. No later than 2 weeks prior to the date withholding is to begin, the local or area units of the labor organization will forward a list of employees who have requested dues withholding. The list will identify the bargaining unit name or number, location, address, point(s) of contact and phone number(s). The list will also include the following employee information: name, Social Security Number, location assigned, and amount of dues to withhold for that school year.

5.9.1.2. Savings Allotments and Allotment Allowed for 190-Day Educators Assigned in Overseas Areas. Savings and other allotments, as authorized in Chapter 11, deduct over the number of full pay periods in the school year.

5.9.2. TSP. An educator, administrator, or ISS employee may elect to have either a percentage or a dollar deduction for TSP in accordance with guidelines in Chapter 11. If the educator, administrator, or ISS employee specifies a percentage withholding, the employee receives TSP deductions taken from the annual retroactive salary adjustment each year.

5.10 Educators Appointed as Junior Reserve Officer Training Corps (JROTC)

The DoDEA employs retired military officers and noncommissioned officers as educators in its JROTC overseas program. The school year salary of JROTC instructors is set using the comprehensive Schedule for Educators and Specialist (Schedule C).

5.11 Waiver of Erroneous Payments of Pay and Allowances

DoDEA employees may apply for a waiver of erroneous payments of pay and allowances by following procedures outlined in Chapter 8. However, the PRO forwards DoDEA employee applications to the DoDEA Human Resources [Division, Classification and Compensation Section](#), for adjudication rather than to the Defense Debt and Claims Management Office at DFAS.

CHAPTER 8

UNDERPAYMENTS, COLLECTION OF NON-DoD DEBTS, GARNISHMENTS, BANKRUPTCY ACTION, AND TAX LEVIES

1.0 GENERAL

1.1 Purpose

This chapter establishes policy pertaining to underpayments, special payments, collection of non-DoD debts, processing garnishments, bankruptcy actions, tax levies, and tax reporting on pay corrections. For regulations governing the collection of debts owed to DoD, see Volume 16.

1.2 Authoritative Guidance

The pay policies and requirements established by DoD in this chapter are derived primarily from and prepared in accordance with the United States Code (U.S.C.), including Titles 5, 11, and 31. The specific statutes, regulations, and other applicable guidance that govern each section are listed in a reference section at the end of this chapter.

2.0 UNDERPAYMENTS

2.1 General

Salary underpayments to employees or former employees may result from computation or time and attendance errors. Current or former employees, who believe they have not been credited with the proper amount of pay or leave, should contact their timekeeper to make time and attendance corrections or their personnel office to make pay or allowance changes. Employees may also file a claim for additional earnings. For more information on the process for filing a claim, see Chapter 6.

2.1.1. Computation Errors. Underpayments may be the result of computation errors involving income tax withholding, retirement or other employee benefit deductions, Social Security/Medicare tax, or the rate of pay. Every effort should be made to correct the underpayments by increasing or decreasing the pay factors affected on the first payroll prepared after the error is discovered.

2.1.2. Time and Attendance Errors. Underpayments may also be the result of time and attendance errors. All salary payments to employees must be paid in accordance with the time and attendance reported and certified by the employee's supervisor. Reported time and attendance, which is less than an employee's normal work schedule, is presumed to accurately reflect the employee's hours of work and non-work. Any errors in time and attendance must be corrected and certified in order to adjust underpayments.

2.2 Special Payments

Special payments are defined as payments made outside of the normal payroll-processing schedule and are used to correct salary underpayments. Special payments are processed manually. Employees do not receive a Leave and Earnings Statement (LES) at the time of the special payment, but the Civilian Payroll Office (PRO) should notify the employee that the payment is being made. After the special payment is processed through the payroll system, an LES will reflect the gross amount of the special pay and all applicable deductions.

2.2.1. Guidelines for Issuing Special Payments

An employing activity must submit a request to the PRO for a special payment. The PRO may receive special payment requests via interfaced action(s). The PRO must request copies of substantiating and supporting documentation in order to process the special payment. The PRO makes the final determination on whether a special payment is appropriate and will process a special payment only under the following circumstances:

2.2.1.1. Employee Receives Less Than 90 Percent of Pay. A special payment may be issued to correct a salary underpayment when an employee has received less than 90 percent of their regular biweekly pay and allowances. The request for the special payment must be made by the commanding officer/director and must include a certified time and attendance report (or corrected time and attendance report). The PRO Directors may waive the 90 percent rule for making special payments when extenuating circumstances exist.

2.2.1.2. Employee Erroneously Omitted From Payroll. A special payment may be issued to pay an employee erroneously omitted from the payroll. Before the special payment is processed, the PRO must verify an individual's employment using the Standard Form [\(SF\) 50](#), Notification of Personnel Action. The request for the special payment must be made by the commanding officer/director and must include a certified and corrected time and attendance report and any necessary source documents to support deductions.

2.2.1.3. Employee on Leave Without Pay (LWOP). A special payment may be issued to pay an employee placed in an LWOP status for payroll processing when LWOP is approved for conversion to advanced annual, sick, and/or donated leave. The commanding officer/director may request a special payment after determining a financial hardship exists for the employee and that the employee has received less than 90 percent of their regular biweekly pay and allowances. The request must include a certified and corrected time and attendance report.

2.2.1.4. Special Payments to Beneficiaries. A special payment may be issued to pay a beneficiary entitled to receive a deceased employee's unpaid compensation under [5 U.S.C. § 5582](#). Beneficiaries of deceased employees may request a special payment by sending a letter to the PRO identifying the need for payment to defray expenses. The PRO may issue the special payment only after the employing activity's human resources office submits sufficient documentation to support the payment. For more information on deceased employee unpaid compensation and the computation of such payments, see Chapter 10.

2.2.2. Special Payments Not Authorized

Special payment requested for the following reasons will not be processed:

2.2.2.1. Partial Payment of Salary. The PRO will not honor a request for partial payment of salary before the regular pay date.

2.2.2.2. Special Payments of Premium Pay. The PRO will not process a request for special payments for overtime or other premium pay earned but not reported and, therefore, not paid in the corresponding pay period. However, authorization for a special payment for other reasons will include the payment of any unpaid premium pay for the corresponding pay period.

2.2.3. Computation of Special Payments to Employees

The PRO must compute the special payments to current and former employees using the “gross-to-net” method. Gross-to-net payments represent the regular biweekly pay and allowances normally due the employee (plus unpaid premium pay for the corresponding pay period, if applicable,) less required deductions and withholdings withheld from the employee’s biweekly pay. Gross-to-net special payment computations should be applied as follows:

2.2.3.1. Biweekly Payment of Less Than 90 Percent. If the employee received less than 90 percent of their biweekly pay, the employee is entitled to the difference between what was paid and what should have been paid. The PRO will deduct additional amounts for applicable items, such as those identified in subparagraph 2.2.6, unless previous payroll processing has satisfied those deductions. The employee is responsible for existing voluntary allotments not deducted during the previous processing. All deductions and withholdings must resume the following pay cycle, including voluntary allotments.

2.2.3.2. No Pay Received. If the employee received no biweekly pay, the gross entitlements, less applicable deductions and withholdings, are payable to the employee. The PRO must exclude deductions for voluntary allotments. The employee is responsible for existing voluntary allotments. All deductions and withholdings must resume on the following pay cycle, including voluntary allotments.

2.2.3.3. Final Pay as Special Payment. An employee’s final pay may be issued as a special payment. The gross entitlements, less required deductions and withholdings in subparagraph 2.2.5, is payable to the employee. The employee is responsible for voluntary allotments. Under [5 U.S.C. § 5514](#), when an employee separates by resignation, retirement, death, or termination of appointment, the employee’s final pay (including lump-sum leave payments) will be applied to the extent necessary to liquidate any previously established debt. See Volume 16, Chapter 3.

2.2.4. Disbursement of Special Payments

Employees will receive special payment disbursements in the same manner as their net pay, by electronic funds transfer (EFT). If the employee has received a waiver of the EFT requirement for payroll disbursements, the PRO will send the employee a U.S. Treasury check via express mail to the employee's address of record. Payments are normally issued within 3 business days following the PRO's receipt of the special payment request and required supporting documentation.

2.2.5. Processing Special Payments Made After the Last Regular Pay Period of the Tax Year, But Prior to the End of the Calendar Year

2.2.5.1. Federal, State, and Local Taxes and Social Security/Medicare. For special payments made after the last regular pay period of the tax year, but prior to the end of the calendar year, the PRO must withhold federal, state, and local taxes, and Social Security/Medicare from the special payments. When computing or making deductions for Social Security, the PRO must ensure the employee has not reached maximum withholdings for the year. The PRO must forward the withholdings to the applicable offices as soon as possible. The PRO will include all deductions and contributions for Social Security/Medicare, federal, state, and local taxes for canceled checks or special payments.

2.2.5.2. Internal Revenue Service (IRS) Form W-2, Wage and Tax Statement. The PRO will process updates to ensure special payments or canceled checks are included in the history totals. After the final pay period of the tax year, if the PRO identifies incorrect reporting on the W-2, the PRO will issue the W-2c and the IRS Form 941-X, Adjusted Employer's Quarterly Federal Tax Return or Claim for Refund, in accordance with the IRS Publication 15, (Circular E), Employer's Tax Guide.

2.2.5.3. Thrift Savings Plan (TSP). Special payments for TSP participants are subject to TSP deductions provided the employee has not reached the maximum contribution level established by law. TSP deductions withheld from special payments after the last regular pay period in the tax year, but before the end of the calendar year, will be combined with the next pay cycle for reporting and submission to the Federal Retirement Thrift Investment Board.

2.2.6. Tax Rates for Special Payments

2.2.6.1. Tax Rate. The PRO must use the tax rate associated with the current IRS Form W-4, Employee's Withholding Certificate, when processing all time and attendance retroactive transactions. The PRO must combine the retroactive wages with the wages from the last pay period (i.e., the pay period prior to the current pay period) to determine the basis for recomputing tax withholdings. The PRO must recompute the taxes and determine the retroactive tax withholdings by subtracting the taxes withheld during the last pay period from the recomputed taxes.

2.2.6.2. Retroactive Wage Increases. In accordance with Circular E, retroactive wage increases are supplemental wages, not regular wages. The amount of federal tax withheld will depend on how the supplemental wages are paid. For prior year retroactive payments, the

amount of federal tax withheld is calculated using the supplemental tax rate, which is updated by the IRS annually. For current year retroactive payments, the amount of federal tax withheld is calculated using the employee's current tax rate.

3.0 COLLECTION OF NON-DOD DEBTS BY SALARY OFFSET; JUDGMENTS AGAINST EMPLOYEES FOR DEBTS OWED TO THE FEDERAL GOVERNMENT

3.1 Non-DoD Federal Creditor Agencies

3.1.1. Request for Salary Offset. A non-DoD federal creditor agency is a non-DoD agency to which an employee owes a debt. When non-DoD federal creditor agencies (except for the IRS or U.S. Courts) identify DoD employees as having outstanding debts, those agencies must address their salary offset requests to the Secretary of Defense designee for such collection, which is the Defense Finance and Accounting Service (DFAS) Cleveland (CL).

DFAS-AHADC/CL
1240 East 9th Street
Cleveland, OH 44199-8002

A request for offset must include certification that due process rights have been afforded to an indebted employee by the non-DoD creditor agency. Debts established in the payroll system for collection from non-DoD employees serviced by DFAS, who later transfer and become DoD employees, should be transferred systematically to the employing DoD agency for continued collection.

3.1.2. Statute of Limitations. There is no statute of limitations for collection of a debt by salary or administrative offset. Debts more than 10 years delinquent as of December 31, 2009, that were previously ineligible for collection may now be collected by administrative offset. Additional notice and due process requirements must be met. For further information, see Volume 16, Chapter 2.

3.2 Government Travel Charge Card (GTCC) Contractor

3.2.1. Authority. Public Law [\(PL\) 105-264](#) authorizes federal agencies to collect undisputed delinquent amounts incurred on an individually billed GTCC from the DoD employee's disposable pay. The amount deducted may not exceed 15 percent of an employee's disposable pay for each pay period, unless the employee has provided written consent for a greater amount. For further information, see the Federal Travel Regulation [\(FTR\) Part 301-54](#); [FTR Part 301-76](#); and Title 41, Code of Federal Regulations, Part 301-76, ([41 CFR Part 301-76](#)).

3.2.2. Request for Collection. After undisputed debts become 90 days delinquent, the travel charge card contractor must send a 90-day demand letter to the employee that includes all due process requirements for initiating salary offset. If the debt is not disputed or paid, or arrangements are not made for payment by installment agreement within the 30-day period following the final debt letter, then the travel charge card contractor may request initiation of the salary offset process through payroll deduction.

3.2.3. Responsibilities

3.2.3.1. Travel Charge Card Contractor

3.2.3.1.1. Request for Offset. The travel charge card contractor must forward delinquent debts to DFAS-CL Salary Offset Project Office.

3.2.3.1.2. Record of Charges, Late Fees, and Costs. The undisputed 120-day old delinquent accounts referred for salary offset must contain the full balance of the account, regardless of whether some of the individual charges relate to an official travel document. In addition to the delinquent charges, the amount referred for salary offset must include any late fees assessed and costs of collection.

3.2.3.1.3. Financial Institution Information. The file must include the travel charge card contractor's financial institution and account routing information to facilitate electronic transmission of delinquent amounts collected.

3.2.3.1.4. Private Collection Agency Referrals. Any delinquent debt the travel charge card contractor has already forwarded to a private collection agency for collection must not be included in the salary offset process. Likewise, a travel charge card contractor must not refer any delinquent debt already submitted to DFAS for collection by salary offset to a private collection agency.

3.2.3.2. Salary Offset Project Office

3.2.3.2.1. Processing Requests. The Salary Offset Project Office must process the request for initiation of travel charge card delinquent debt salary offset in the same manner as is done for federal salary offset requests from other federal agencies.

3.2.3.2.2. Debt Balance. The Salary Offset Project Office must manage the debt balance during the salary offset process. If for any reason changes to the debt balance occur, the travel charge card contractor must immediately advise the Salary Offset Project Office of those changes.

3.2.3.2.3. Reports From the PRO. The PROs must provide reports listing the collection transactions to the Salary Offset Project Office for each collection file in order to monitor amounts collected and remaining debt balances due.

3.2.3.3. Due Process - Inquiries, Disputes, and Hearing Process. Any inquiries or disputes regarding the debt and the 90-day demand notice, which are received by the travel charge card contractor prior to forwarding the debt to DFAS for collection, will be handled and resolved by the travel charge card contractor. If the employee wants to negotiate an installment agreement prior to the referral of the debt for salary offset, the employee will make any such agreement with the travel charge card contractor. If the employee is not satisfied with the travel charge card contractor's disposition of the dispute, he or she may submit a petition to the travel charge card contractor for a debt hearing.

3.3 Collection of State Debts

Under [31 U.S.C. § 3716\(h\)](#) and [31 CFR 285.6](#), a state may enter into a reciprocal agreement with the Department of Treasury to collect unpaid state debt by offset of federal non-tax payments. DFAS does not offset non-tax state debts from federal employee salaries.

3.4 Judgment Against an Employee

When a U.S. Court determines that a federal employee is indebted to the United States and enters a judgment against the employee, PL 97-276, section 124 (published as a note to 5 U.S.C. § 5514), allows collection of the debt by deduction from the employee's current pay account. The employee's consent is not required. Any federal agency requesting salary offset under this authority must send a request for offset to the PRO with a copy of the judgment entered against the employee. The PRO may request DFAS Office of General Counsel (OGC) to review the judgment if questions arise. After confirmation of the validity or interpretation of the judgment, the PRO will:

3.4.1. Compute the amount to be collected each pay period using the percentage specified in the offset request. The maximum amount deducted for a pay period may not exceed 25 percent of the employee's disposable pay, unless a greater percentage is necessary to recover the amount owed within the time of the anticipated employment. Deductions may be made from basic pay, special pay, incentive pay, or in the case of an individual not entitled to basic pay, other authorized pay.

3.4.2. Collect the total unpaid balance as specified in the offset request. This amount may include accumulated interest and administrative charges. The agency requesting offset should notify the PRO approximately 90 days before completion of the judgment offset with the final judgment amount, which includes the balance of accrued interest charges.

3.4.3. Forward a copy of the offset request to the employee with written notification advising the employee of the deduction amount and pay period the deduction will start.

3.4.4. Apply final pay (salary and lump-sum leave) to any unliquidated debt balance if the employee retires, resigns, dies, or if employment otherwise ends.

3.4.5. Forward payment each pay period to the agency requesting salary offset.

4.0 CHILD SUPPORT, ALIMONY AND COMMERCIAL GARNISHMENTS

*4.1 General

DFAS serves as the paying agency for DoD, as well as non-DoD federal agencies. In this capacity, DFAS-OGC, Garnishment Law Directorate, is the designated agent for service of [the](#) legal garnishment process for agencies paid by DFAS.

Submit court orders, related documents, and forms for child support, alimony, [and](#) commercial garnishments to the Garnishment Law Directorate by mail, fax, or online through the [askDFAS](#) module. For additional information, see the DFAS Garnishments website: <https://www.dfas.mil/Garnishment/>.

DFAS Office of General Counsel
Attn: Garnishment Law Directorate

Fax: (216) 367-3675

Upon review of the court order, DFAS will process the garnishment deduction in the payroll system. A cancellation to the order will be automatic on the date of separation from DoD, upon death of the employee, or upon notification from the court that the garnishment is terminated. The employee cannot voluntarily stop court-ordered deductions.

4.2 Child Support and Alimony Garnishments

4.2.1. Authority. [Title 42, U.S.C. § 659](#) provides consent by the United States for garnishment and similar proceedings for enforcement of child support and alimony obligations against employees. The PRO must deduct court-ordered garnishment under this section from the employee's pay in accordance with [5 CFR Part 581](#).

4.2.2. Pay Subject to Garnishment. All moneys due employees, the entitlement to which is based upon "remuneration for employment," are subject to court-order garnishment. The term "remuneration for employment" means all compensation paid or payable for personal services performed by an individual, whether such compensation is denominated as wages, salary, commission, bonus pay, or otherwise, and includes, but not limited to, those items as defined in [5 CFR 581.103](#).

4.2.3. Pay Not Subject to Garnishment. Moneys paid as reimbursement (normally defined by law or regulations as allowances, awards paid for making suggestions, and injury compensation payments) are not deemed “remuneration for employment” and, therefore, are not subject to garnishment. Amounts not subject to garnishment are defined in [5 CFR 581.104](#). Other exclusions not subject to garnishment are deductions, as defined in [5 CFR 581.105](#).

4.2.4. Maximum Garnishment Limitations. Aggregate disposable earnings means the amount of any pay that is due or payable to an employee as “remuneration for employment” minus the deductions that are listed as exclusions. Unless a lower maximum garnishment limitation is provided by applicable state or local law, the maximum part of the aggregate disposable earnings subject to garnishment to enforce a support order ([5 CFR 581.402](#)) will not exceed the percentages specified in the following subparagraphs:

4.2.4.1. Up to 50 percent of the employee’s aggregate disposable earnings for any workweek if the employee is supporting a spouse, a dependent child, or both, other than the former spouse, child, or both for whose support is required by the garnishment order. An additional 5 percent of the employee’s disposable earnings is subject to garnishment in each case if the outstanding arrearages are over 12 weeks old; or

4.2.4.2. Up to 60 percent of the employee’s aggregate disposable earnings for any workweek if the employee is not supporting a spouse, dependent child, or both, other than the former spouse, child or both for whose support is required by the garnishment order. An additional 5 percent of the employee’s disposable earnings are subject to garnishment in each case if the outstanding arrearages are over 12 weeks old.

4.3 Commercial Garnishments

4.3.1. Authority. The public law, as codified in [5 U.S.C. § 5520a](#) and enabled by [5 CFR Part 582](#), authorizes the pay of federal civilian employees to be garnished for commercial obligations in accordance with state law. Commercial obligations and garnishments do not include those for child support or alimony.

4.3.2. Pay Subject to Commercial Garnishment. Pay due to employees, as defined in 5 U.S.C. § 5520a, is subject to commercial garnishment.

4.3.3. Pay Not Subject to Commercial Garnishment. Suggestion awards and injury compensation payments are not subject to garnishment. Other amounts excluded from pay subject to garnishment are payroll deductions as defined in [5 CFR 582.103](#).

4.3.4. Maximum Garnishment Limitations. Under [15 U.S.C. § 1673\(a\)\(1\)](#), involuntary withholding for the collection of a commercial debt is limited to a maximum of 25 percent of the employee's disposable earnings. However, state law prevails when it provides a maximum collection percentage less than 25 percent. If the employee already has a child support or alimony withholding order in effect, and the total deduction for child support and alimony equal or exceeds 25 percent of an employee's disposable pay, then no commercial debt deduction will be processed by the PRO. Further, limitations on the amount to be garnished are found in [5 CFR 582.402](#). There is no limit on the percentage amount for garnishment for federal, state, or local tax obligations, or for bankruptcy court orders.

4.3.5. Administrative Fee. For each commercial garnishment received and processed, an administrative fee may be added to the garnishment amount and collected from the employee in full before any payments are remitted to the creditor. In accordance with 5 CFR 582.305, the agency may retain administrative fees as offsetting collections.

4.4 State Tax Levies

Involuntary state tax levies will be processed similar to commercial garnishments. Involuntary state tax levies are submitted to the Garnishment Law Directorate to begin legal review, whereas the PRO can establish voluntary state tax levies as allotments.

5.0 BANKRUPTCIES

*5.1 General

This section applies to DoD employees who have filed a bankruptcy petition under either [11 U.S.C. Chapter 7](#) or [11 U.S.C. Chapter 13](#). The law waives the U.S. Government's sovereign immunity for purposes of compliance with payroll deduction orders issued by the bankruptcy courts ([11 U.S.C. § 106](#)). Therefore, collections will be processed in accordance with the court order.

DFAS serves as the paying agency for DoD, as well as non-DoD federal agencies. In this capacity, DFAS-OGC, Garnishment Law Directorate, is the designated agent for service of personal bankruptcy cases for agencies paid by DFAS.

Submit bankruptcy notices and Chapter 13 withholding orders to the Garnishment Law Directorate by mail, fax, or online using the askDFAS module. See also DFAS Garnishments website for additional information on bankruptcies.

DFAS Office of General Counsel
Attn: Garnishment Law Directorate
PO Box 998002
Cleveland, OH 44199-8002

Toll free fax: (877) 622-5930
Fax: (216) 367-3675

5.1.1. Automatic Stay Provisions. Collecting an amount of indebtedness owed to the United States that was incurred prior to the filing date of the petition is described as a pre-petition debt. Collecting debts by offset from the employee's pay account is authorized only through the day prior to the date the bankruptcy petition is filed. Continuing deductions from the employee's pay after the filing of a petition in a bankruptcy is improper and violates the automatic stay provisions of the bankruptcy statute. Amounts withheld after the date the bankruptcy petition is filed must be refunded to the employee. Child support and alimony garnishments are not terminated unless the bankruptcy order specifically directs termination. Coordinate with DFAS-OGC, Garnishment Law Directorate, if there are questions about collecting a debt when a debtor has filed bankruptcy, as there may be exceptions that affect the collection of a debt or refund due a debtor.

5.1.2. Proof of Claim. Upon notice or actual knowledge of the filing of a bankruptcy petition, when the employee has listed the United States as a creditor, the PRO files a proof of claim with the bankruptcy court concerned for all Chapter 13 filings and, if requested by the bankruptcy trustee, for Chapter 7 cases.

5.1.3. Post-Petition Debt. If the bankruptcy is completed and the employee receives a discharge, then generally, the listed indebtedness to the United States for pre-petition debts is discharged with [some](#) exceptions. Any new debt incurred after the filing of the bankruptcy petition is known as a post-petition debt. Typically, the bankruptcy proceedings do not affect liability of the debtor for post-petition debts, but may affect [a creditor's ability to collect for the post-petition debts if the bankruptcy case is still active](#). Therefore, prior to taking any collection action on post-petition debts, the PRO should coordinate with DFAS-OGC, Garnishment Law Directorate.

5.1.4. Court Dismissal. If the court dismisses the bankruptcy case, all debt collection and garnishments may resume because there is no longer a valid bankruptcy case.

5.2 Chapter 13 Bankruptcies (The Plan)

5.2.1. Under the Chapter 13 [of the](#) Bankruptcy Code, an employee may file a petition with the court to enter into a Plan. [Title 11, U.S.C. § 1325](#) permits an indebted individual who has a regular income to file a Plan with the bankruptcy court designed to liquidate all or part of the creditor's claim. When a Plan has been approved, the court may order DoD to pay all or part of the employee's wages to a trustee for the employee.

5.2.2. Generally, when the court confirms the Plan, its provisions are binding upon the employee and all creditors of the employee, regardless of whether they are affected by the Plan or have been included in the Plan. Coordinate with DFAS-OGC, Garnishment Law Directorate, as there may be exceptions that do not bind creditors against the plan and/or discharge depending on the characterization of the indebtedness, the date the indebtedness [was](#) incurred, and/or the effectiveness of service of the bankruptcy notice to the creditor.

5.2.3. Once the bankruptcy court confirms a Plan, it usually orders the employer to pay a specific amount of an employee's income to the trustee named in the order. Payment to the trustee will be made in accordance with the employee's normal pay cycle. Bankruptcy law authorizes

withholdings of up to 100 percent of the employee's disposable earnings, as directed by court-ordered, wage order.

5.2.4. The pay of an employee is subject to payment to the trustee appointed by the court pursuant to Chapter 13 of the Bankruptcy Code. Compliance with the court order gives the government valid acquittance against the employee since the court order is binding on the employee.

5.2.5. If the United States is both the employer and creditor when the individual files bankruptcy under Chapter 13, then the government's priority under [31 U.S.C. § 3713](#) may be asserted in the absence of a judicial determination to the contrary. An [Official Form 410](#), Proof of Claim, should be timely filed by the appropriate PRO with the bankruptcy court.

6.0 TAX LEVY FOR UNPAID FEDERAL INCOME TAX

6.1 Authority

The IRS District Directors are authorized under [26 U.S.C. § 6331](#) to collect delinquent federal income taxes by levy on the salary or wages of any United States or Washington, D.C. employee. When the employee fails to pay federal income tax due within 30 days after the IRS issues a notice and payment demand, a levy against the employee's wages may be issued. The levy is served against the take home pay of the employee and attaches only to the salary check or cash disbursement the employee would receive on payday if it were not for the levy.

6.1.1. Allotments. After the PRO receives a levy, the PRO must not allow employees to increase or add any voluntary allotments. Changes that increase existing voluntary allotments are only authorized after the total tax liability is paid or arrangements are made with the IRS.

6.1.2. Time Limits. The IRS has the authority to collect outstanding federal taxes for 10 years from the date the tax liability was assessed. However, the 10-year collection period can be suspended and the amount of time the suspension is in effect will be added to the time remaining in the 10-year period. For example, if the 10-year period is suspended for 6 months, the time left in the period the IRS will have to collect will increase by 6 months.

6.2 Procedures

When the IRS serves Form 668-W, Notice of Levy on Wages, Salary, and Other Income, the PRO will take immediate action to implement the levy. Once the PRO processes the levy, the levy will continue in effect until the collection is complete or until the IRS releases the levy.

6.2.1. Notice to Employee. The PRO must follow instructions as indicated on the 668-W and provide notice to the employee that a levy has been received.

6.2.2. Claiming of Exemptions. Employees may claim a biweekly personal exemption and a biweekly exemption for each dependent. The IRS updates exemption amounts annually. The PRO must use the [IRS Publication 1494](#), Tables for Figuring Amount Exempt from Levy on Wages, Salary, and Other Income, along with the 668-W for the current exemption amounts.

6.2.2.1. Employee Responsibilities. The employee must certify exemptions and provide the information to the PRO on the 668-W under “Statement of Exemptions and Filing Status.” The employee must return the completed form to the PRO for processing. If the employee fails to provide exemption information to the PRO, a dependency exemption will not be allowed and only the minimum personal exemption for each pay period will be allowed. An employee may provide a new statement to the PRO at a later date to have the exempt amount recomputed. The employee does not have to return the form if they have no dependency exemptions to claim.

6.2.2.2. Court Judgment. If the employee is required by a court judgment (made before the date of the levy) to contribute to the support of minor children, that amount of salary, wages, or other income is already exempt from the levy and the employee may not claim the minor children as exemptions.

6.2.2.3. Computing Take Home Pay. The levy attaches to the employee’s take home pay minus the allowable exceptions. Unless otherwise instructed by the IRS, the employee’s payroll deductions in effect at the time the levy was received will be allowed when determining the employee’s take home pay. However, a voluntary allotment may be disallowed if the deduction is so large it defeats the levy. The IRS may notify the PRO when different procedures should be followed for specific employees. To determine the employee’s take home pay, the levy attaches to the gross amount of the employee’s accrued wages or salary, less the following specified deductions:

6.2.2.3.1. Social Security/Medicare;

6.2.2.3.2. Retirement;

6.2.2.3.3. Federal Employees’ Health Benefits;

6.2.2.3.4. Federal Employees’ Group Life Insurance;

6.2.2.3.5. Pay attached or garnished for child support or alimony;

6.2.2.3.6. Overpayments due the U.S. Government; and

6.2.2.3.7. Allowable personal exemptions on the 668-W.

6.2.2.4. Return the 668-W to the IRS. After the PRO makes the first deduction for the levy against the employee’s pay, the PRO must follow the instructions on the 668-W and return Part 3 of the form to the IRS.

6.2.2.5. Employee Transfers or Separation

6.2.2.5.1. Transfers Within DoD. If the employee has been reassigned to an organization serviced by another PRO, then the losing PRO must inform the IRS District Director of the employee's new address. The losing PRO must mail the complete levy package to the new PRO for processing.

6.2.2.5.2. Other Employee Transfers or Separation. If the employee has moved from overseas, transferred to another federal agency, separated or retired, then the PRO will return the levy to the IRS District Director and provide the employee's new address on the 668-W.

6.2.2.6. No Employee Record Found. If the PRO receiving the levy has no record that payroll service has been furnished for the employee, the PRO must annotate that fact on the bottom of the levy and return the levy to the IRS District Director.

6.3 Voluntary Deductions for Unpaid Federal Income Tax

An employee may arrange with the IRS to liquidate a delinquent federal income tax debt through voluntary biweekly payroll deductions. The [IRS Form 2159](#), Payroll Deduction Agreement, must be submitted to the PRO to initiate the deduction process.

7.0 PAY CORRECTIONS AND TAX REPORTING

7.1 General

7.1.1. Purpose. This section provides guidance on correcting tax reporting for underpaid or overpaid earnings.

7.1.2. Authoritative Guidance. The authority used to derive procedures for this section includes Circular E and corresponding statutes and regulations.

7.2 Tax Reporting for Underpayment of Earnings

A payment made to correct an underpayment of earnings (“corrective payment”) is reported as wages in the year the corrective payment is issued, even if the underpayment occurred in a prior calendar year. The PRO must process the corrective payment in the current pay cycle. The PRO must report the corrective payment as gross wages subject to Social Security/Medicare taxes on the employee’s current year W-2. Social Security/Medicare tax should be withheld from the corrective payment. The gross wages must be reported as current quarterly earnings on the [IRS Form 941](#), Employer’s Quarterly Federal Tax Return. For separated employees, the PRO may be required to prepare the [IRS Form W-2c](#), Corrected Wage and Tax Statement, if a W-2 was previously issued.

7.3 Tax Reporting for Overpayment of Earnings

If an employee has been overpaid earnings, the earnings are reported in the year the employee was overpaid (see paragraph 7.3.1 for adjustments to tax reporting if the employee repays the debt in the same year as the overpayment). If the employee repays a debt for an overpayment of earnings, the procedures for correcting tax reporting depend on whether the repayment was made in the same year as the overpayment, or in a subsequent year.

7.3.1. Repayment of Current Year Overpayments

If the employee was overpaid earnings and repaid the debt in the same year as the overpayment, the following applies:

7.3.1.1. Active Employees. For active employees, the PRO must follow debt collection procedures in Volume 16 in order to establish a debt for the overpaid earnings. If the employee repays the debt, in whole or in part, in the same year the overpayment occurs, the PRO will need to record the repaid amount as a reversal in the base pay, gross pay, net pay, or other pay as applicable. Such action is required to recover income tax withholding and Social Security and Medicare taxes for the repaid wages and to correct the yearly gross income. If the entire debt is not repaid in the same year in which the overpayment occurred, see paragraph 7.3.2.

7.3.1.2. Separated Employees. The PRO must follow the same procedures for active employees outlined in subparagraph 7.3.1.1, but must reestablish the employee on the payroll prior to processing the required reversals. If a W-2 was previously issued to the separated employee, the PRO must prepare a W-2c. If the entire debt is not repaid in the same year in which the overpayment occurred, see paragraph 7.3.2.

7.3.2. Repayment of Prior Year Overpayments

If the employee was overpaid earnings and repaid the debt in a year subsequent to the year of the overpayment, the following applies:

7.3.2.1. Active Employees.

7.3.2.1.1. Tax Reporting. If an active employee repays an overpayment of earnings paid in a prior year, Social Security/Medicare wages and taxes may need to be corrected. If the year of repayment is still within the 3-year statute of limitations for Social Security and/or Medicare tax refunds, the PRO must prepare a W-2c and W-3c for the prior year to reduce the gross wages subject to Social Security/Medicare (box 3). Wages reflected in box 1 of the W-2c should not be corrected. Additionally, no adjustments are made for income tax withholding or additional Medicare tax withholding. In accordance with the Circular E, the PRO will prepare the 941-X to correct errors on the 941 and retain copies of the corrected forms. If the repayment is beyond the 3-year statute of limitations, then the PRO will not make corrections to the prior year W-2 and the 941.

7.3.2.1.2. Tax Certificate. The PRO should prepare a tax certificate for the employee representing the repaid wages in the year of repayment. The amount entered on the certificate is the total amount of the reverse deductions plus the amount the employee repaid. The employee may be entitled to a deduction (or a credit, in some cases) for the repaid wages on the employee's income tax return for the year of repayment. For additional information, also see [26 U.S.C. § 1341](#) and [IRS Publication 525](#), Taxable and Nontaxable Income.

7.3.2.2. Separated Employees. For separated employees, the PRO will follow the procedures outlined for active employees, but will retain copies of the W-2c and the 941-X to balance annual federal tax deposits.

CHAPTER 9

RECORDS, FILES, AND REPORTS

1.0 GENERAL

1.1 Purpose

This chapter provides guidance on records, files, and reports relative to the Civilian Payroll Offices (PRO).

1.2 Authoritative Guidance

The pay policies and requirements established by the DoD in this chapter are derived primarily from, and prepared in accordance with, the United States Code (U.S.C.), including Title 5. The specific statutes, regulations, and other applicable guidance that govern each section are listed in the References section at the end of this chapter.

2.0 RECORDS AND FILES

2.1 Payroll Documentation

2.1.1. Disbursement Documentation. Documentation in the form of a voucher must be prepared for each disbursement or group of disbursements authorized to be paid by any DoD Component. A voucher is the authority for payment and must be correctly prepared in accordance with all legal and regulatory guidance, supported with proper documentation, and certified by an authorized certifying official prior to disbursement submission. DoD agencies are not permitted to give an employee the authority to certify his or her own disbursements.

2.1.1.1. Disbursements to the Office of Personnel Management (OPM). Deductions for the Civil Service Retirement System (CSRS) and the Federal Employees Retirement System (FERS), life insurance, and health benefit programs with employer contributions are routinely paid to OPM each pay period. The automated [Standard Form \(SF\) 2812-A](#), Report of Withholdings and Contributions for Health Benefits by Enrollment Code, is used to report these deductions to OPM. A consolidated SF 2812-A must be submitted biweekly to OPM through the Retirement and Insurance Transfer System (RITS). For additional information on RITS, see subparagraph 3.3.3.

2.1.1.2. Disbursements to Taxing Authorities. Federal income, Social Security, and Medicare taxes withheld must be paid to the Internal Revenue Service (IRS) as provided by the [IRS Publication 15, \(Circular E\)](#), Employer's Tax Guide. State or city/local income taxes withheld must be paid to the appropriate taxing authority in accordance with the Treasury Financial Manual ([TFM](#)), [Volume I, Part 6, Chapter 5000](#) and Title 31, Code of Federal Regulations, Part 215 ([31 CFR Part 215](#)).

2.1.1.3. Disbursements to Thrift Savings Plan (TSP). Employee and employer contributions for traditional or Roth TSP accounts, and deductions for TSP loan repayments must be paid to the TSP Record Keeping Service Provider. See [TSP PRO Resources](#).

2.1.1.4. Other Disbursements. All other amounts withheld must be paid in accordance with applicable regulations or instructions furnished by the employee.

2.1.2. Deduction Documentation. Payments to those for whom deductions are authorized to be paid must be reconciled on a cyclical basis, at least annually, with the amounts withheld plus the related employer contributions, if any, as shown by the pay or other records. This procedure is necessary to determine whether the correct amounts are reported to those authorized to receive deductions and contributions withheld from the employee's pay. Payroll records must provide a clear audit trail from the gross pay calculation to the net pay received by the employee by pay period and by year-to-date totals.

2.1.2.1. Tax Withholding. The amounts reported on the annual [IRS Form W-2](#), Wage and Tax Statement, must match the total amounts withheld during the year as shown by the PRO records.

2.1.2.2. Individual Retirement Record (IRR). A related control account and either the [SF 2806](#), IRR (CSRS) or the [SF 3100](#) IRR (FERS), must be maintained in accordance with the OPM requirements for each civilian employee for whom retirement deductions are made. For information on items reported on the IRR, refer to the [CSRS/FERS Handbook, Chapter 81](#) and OPM Benefits Administration Letter [\(BAL\) 15-102](#).

2.1.2.3. Federal Employees' Group Life Insurance (FEGLI). Each DoD PRO must keep a record of the total amounts withheld from employees' salaries and the total amount of the employer's contributions for FEGLI for each calendar year. These records must be kept in a ledger or other appropriate form or represented by file copies of vouchers that were used to report information to the OPM.

2.1.2.4. Federal Employees Health Benefit (FEHB). A record of employee deductions and the employer's contributions for health benefits must be kept by each enrollment code number. The PRO and the health benefit carrier must submit the enrollee data included in this record to the National Finance Center's (NFC) FEHB Centralized Electronic Enrollment Reconciliation Clearinghouse (CLER) system on a quarterly basis. (See the [NFC OPM/FEHB CLER](#) website.) The Human Resources Office (HRO) and the PRO must review any error codes identified in the CLER system and resolve the discrepancies. The discrepancies are resolved by comparing the health benefits coverage reported by the PRO, the health benefits coverage reported by the carriers, the [SF 2809](#), Health Benefits Election Form, and the [SF 2810](#), Notice of Change in Health Benefits Enrollment, sent in support of the coverage.

2.1.2.5. TSP Deductions. The HROs must maintain a record of traditional and/or Roth TSP deductions and agency contributions for each employee.

2.2 Retroactive Computations Involving Former PROs

2.2.1. General. When retroactive payroll computations are required that involve one or more former PROs, the consolidated PRO maintains overall responsibility for the adjustment process. If it is determined that a former PRO is involved, the consolidated PRO is responsible for contacting each former PRO to obtain the necessary information.

2.2.2. Documentation Requests. If the consolidated PRO is unable to obtain the documentation necessary to perform the retroactive calculation, the consolidated PRO may take one or more of the following steps:

2.2.2.1. Request Archived Documents From the National Personnel Records Center (NPRC). When copies of the [SF 135](#), Records Transmittal and Receipt, are unavailable at the employee's former office, the current PRO must complete a National Archives and Records Administration (NARA) [Optional Form 11](#), Reference Request - Federal Records Centers, with all available information. The employee's name, Social Security number (SSN), known places of employment, names and PRO numbers of applicable PROs, and year(s) for which the records are requested must be included in the description and remarks section of the form.

2.2.2.2. Contact the Appropriate HRO. If the NPRC cannot locate the records, the PRO must prepare a memorandum to the appropriate HRO requesting copies of the [SF 50](#), Notification of Personnel Action, or other related pay and/or leave information. Since there may have been consolidations of both the PRO and the appropriate HRO prior to the Defense Civilian Pay System (DCPS) consolidations, it is imperative that both offices work together to obtain information that will assist in the determination of pay and leave adjustments for the employee.

2.2.2.3. Contact the Employee. If the PRO cannot locate documentation from the NPRC or the appropriate HRO, the PRO must contact the employee for the necessary documentation. If the employee has copies of the SF 50 and/or the Leave and Earnings Statement (LES), the PRO may accept this information and use it to reconstruct the pay and/or leave records.

2.2.2.4. Contact OPM. If the transmittal letters to OPM and/or copies of the retirement records cannot be located, the PRO may submit a request to OPM in writing to procure the necessary copies of the records. The PRO may use the information on the retirement records for reconstruction of pay information for adjustments.

3.0 REPORTS

3.1 General

DoD civilian payroll systems must conform to various legal and regulatory requirements by generating reports at regular intervals, on an as-needed basis or by producing reports to meet special requirements. The PRO must support management by generating reports that provide the necessary information to ensure the system's integrity. Individuals who create reports are responsible for correcting errors due to inaccurate reading or entering of data. Discrepancies in reporting, transmitting, or depositing funds must be resolved promptly. Pursuant to the provisions of the Government Accountability Office [\(GAO\)-03-352G](#), Maintaining Effective Control Over Employee Time and Attendance Reporting, reports must be:

3.1.1. Prepared accurately, promptly, and distributed to the appropriate recipients to ensure receipt when the information will be of maximum benefit;

3.1.2. Based on, supported by, and periodically validated against appropriate detailed information in the payroll system;

3.1.3. Sent in a timely manner to officials who authorized, or were responsible for, processing payroll transactions, and reviewed by those officials for completeness and accuracy;

3.1.4. Discussed periodically with users and modified or eliminated as appropriate to meet user needs; and

3.1.5. Retained and disposed of in accordance with [NARA General Records Schedule 2.0](#), Human Resources, which includes: [NARA General Records Schedule 2.4](#), Employee Compensation and Benefits Records, and [NARA General Records Schedule 2.5](#), Employee Separation Records, with sensitive data handled in accordance with the provisions of the Privacy Act. See [5 CFR Part 2606](#).

3.2 As-Required Reports

3.2.1. Income and Employment Tax Reports. Income and employment tax reports are submitted to cities/localities that have an agreement with the Secretary of the Treasury and to cities/localities where voluntary deductions have been taken from employees. Reports are sent to the city/local taxing authorities based on the frequency prescribed by each municipality. See TFM, Volume I Part 6, Chapter 5000.

3.2.2. State Income Tax Reports. These reports are required by states that reached an agreement with the Secretary of the Treasury. These reports are submitted to the state taxing authorities based on the frequency prescribed by each state. See TFM, Volume I, Part 6, Chapter 5000.

3.2.3. Report on Transfer of Employee

3.2.3.1. SF 1150, Record of Leave Data. The losing PRO must prepare an [SF 1150](#) at the time of the employee's separation if the employee transfers within DoD to another PRO or to another Federal agency. All blocks on the SF 1150 must reflect accurate data. In addition to reporting transferred leave data, the form contains other pertinent information for the employee in the Remarks section. This includes, but is not limited to: year-to-date wages for Social Security and/or Medicare tax purposes, year-to-date TSP deductions, last deduction for FEHB and FEGLI, date through which the insurance deductions were made, and overseas or territorial differential data.

3.2.3.1.1. The losing PRO forwards the completed SF 1150 to the losing HRO.

3.2.3.1.2. The losing HRO includes the SF 1150 in the employee's Official Personnel Folder (OPF) and forwards it to the gaining HRO.

3.2.3.1.3. The gaining HRO then forwards the SF 1150 to the gaining PRO.

3.2.3.2. Delayed Receipt of SF 1150. If there is a delay of the OPF containing the SF 1150 reaching the appropriate gaining HRO, and the employee is taking leave, the leave balances from the employee's latest LES may be entered into DCPS. Once the gaining PRO receives the SF 1150, any transferred-in leave balances will be overridden if the SF 1150 data differs.

3.2.3.3. OPM Form 630, Application to Become a Leave Recipient Under the Voluntary Leave Transfer Program (VLTP). Use version A, B, or C as appropriate for the VLTP action requested. This form records the transfer of leave for leave recipients covered by the VLTP. The OPM Form 630 is used when a current leave recipient transfers to another PRO or Federal agency without a break in service and will be attached to the SF 1150.

3.2.3.4. Request for Wage and Separation Information. The PRO must report wage data to the appropriate HRO in accordance with Chapter 6. The appropriate HRO maintains a file copy of all data furnished for two years in accordance with the General Records Schedule 2.0, and then the file copy is destroyed.

3.2.3.5. SF 2806 (CSRS)/SF 3100 (FERS). The PRO will prepare and maintain the SF 2806/SF 3100 in accordance with Chapter 4.

3.2.3.6. Other Forms. The Defense Finance and Accounting Service (DFAS) is responsible for:

3.2.3.6.1. Preparing the [IRS Form W-2c](#), Corrected Wage and Tax Statement, in accordance with Circular E, to correct prior year wages and tax withholdings as applicable;

3.2.3.6.2. Providing copies to the employee and copy A to the Social Security Administration (SSA);

3.2.3.6.3. Sending a separate [*IRS Form W-3c*](#), Transmittal of Corrected Wage and Tax Statements, with the corrected W-2c to SSA upon completion of the correction;

3.2.3.6.4. Retaining the employer's copy of the W-2c in the PRO;

3.2.3.6.5. Preparing the 941-X to adjust the gross wages subject to Social Security and/or Medicare taxes;

3.2.3.6.6. Attaching the [*IRS Form 941-X*](#), Adjusted Employer's Quarterly Federal Tax Return or Claim for Refund (formerly Form 941c) to the current quarterly [*IRS Form 941*](#), Employer's Quarterly Federal Tax Return, and entering the amount of the adjustment on the 941. The PRO must maintain copies of both forms;

3.2.3.6.7. Retaining a copy of the W-2c and the Form 941-X in the current year quarterly tax folder to balance annual Federal tax deposits;

3.2.3.6.8. Preparing [*IRS Form 1095-C*](#), Employer-Provided Health Insurance Offer and Coverage, for the IRS and the employee for the previous tax year; and

3.2.3.6.9. Preparing [*IRS Form 1094-C*](#), Transmittal of Employer-Provided Health Insurance Offer and Coverage Information Returns. This form is sent to the IRS in conjunction with the 1095-C.

3.3 Biweekly Reports

3.3.1. Civilian LES. The LES must show gross pay, deductions, net pay, and employer contributions for the current pay period and cumulative totals for the current year. The LES must reflect the accrued and used leave balances for the pay period and year-to-date values. The LES must be made available electronically by accessing the [*DFAS myPay*](#) web application or mailed to the employee's non-work address every pay period.

3.3.2. SF 2812-A, Report of Withholdings and Contributions for Health Benefits by Enrollment Code. The amount collected for employee retirement (CSRS and FERS), FEHB, and FEGLI deductions, military service deposits, reemployment offsets, and the agency's contributions for retirement (CSRS and FERS), FEHB, and FEGLI are transferred to OPM. As prescribed by OPM, the PRO uses a "no-check-issue" as the means of payment to OPM. Funds are transferred to OPM using the SF 2812-A. The SF 2812-A reports the total employee deductions and agency contributions for health benefits by health benefits plan enrollment code for the pay period (see subparagraph 2.1.1.1).

3.3.3. Retirement and Insurance Transfer System (RITS).

3.3.3.1. RITS is part of the Intra-Governmental Payment and Collection (IPAC) system developed by OPM and the Department of the Treasury (Treasury) to report civilian retirement and insurance contributions. The automated RITS interfaces with the payroll system and replaces the manual reporting of the SF 2812-A to OPM.

3.3.3.2. To process RITS transactions, the PRO must provide the disbursing office with the payroll system-generated hardcopy of the payroll for personal services certification and summary, the SF 2812-A and any disbursement vouchers for cash payments.

3.3.3.2.1. Cash payments received from employees, such as military deposits and health benefits payments, are considered current transactions. The funds are collected and disbursed from a holding account. The total of the payroll for personal services certification and summary and cash disbursement vouchers must equal the total on the SF 2812-A. Cash collections for health benefit indebtedness received from pay accounts not carried forward from the former PROs, must be reported to OPM separately on a supplemental SF 2812-A.

3.3.3.2.2. The disbursing office must ensure the voucher amounts agree and the vouchers contain proper certifying signatures before authorizing the transmission of the file to OPM. The delay between the creation of the system file and transmission is a necessary step in the process to establish adequate internal controls for the disbursement of government funds. If the file is transmitted before the payment date, OPM must warehouse the data until the settlement date.

3.3.3.2.3. The IPAC transaction is a direct payment to OPM. Report the transaction on the SF 1219, Statement of Accountability.

3.3.3.3. RITS provides the capability to report on a regular biweekly basis, as well as to report adjustments in a supplemental off-cycle mode. Reporting during the regular biweekly cycle is the preferred method and automated capabilities of the payroll system must be fully utilized in order to do so. Use of a supplemental reporting cycle must be limited to the greatest extent possible.

3.3.3.4. Consolidated PROs using RITS may find it necessary to report adjustments related to former PROs, as well as adjustments related to the consolidated office. In these situations, the following may be applicable:

3.3.3.4.1. Adjustments for Accounts That Have Not Been Transferred to the Consolidated PRO. These accounts were inactive on former PRO records and did not convert to the consolidated office. Responsibility for these adjustments is now with the consolidated payroll operation and is under the DFAS PRO operations. These adjustments could involve correction of a retirement plan, cash collection for military deposits, or health benefit indebtedness.

3.3.3.4.1.1. Retirement Plan Correction. These adjustments must be reported to OPM via a hard copy SF 2812-A citing the PRO number that originally reported the deductions and contributions. Corrected retirement records and registers citing the former PRO must be prepared and forwarded to OPM. Copies of the SF 2812-A, registers, and records must be forwarded to the departmental reporter for the former PRO so that cumulative balances may be adjusted.

3.3.3.4.1.2. Cash Collections for Military Deposits. The PRO must report cash collections for military deposits via a hard copy SF 2812-A citing the PRO number that originally reported the deductions and contributions. Corrected retirement records and registers citing the former PRO must be prepared and forwarded to OPM. Copies of the registers, records, and SF 2812-A must be forwarded to the departmental reporter for the former PRO so that cumulative balances may be adjusted.

3.3.3.4.1.3. Cash Collections for Health Benefit Indebtedness. Cash collections for health benefit indebtedness must be reported via RITS as a supplemental SF 2812-A from the consolidated PRO using the consolidated PRO Number.

3.3.3.4.2. Adjustments for Accounts That Have Been Transferred to the Consolidated PRO. These accounts were active on former PRO records and converted to the consolidated office. Adjustments may be for accounts that have become inactive since consolidation or for those still in an active status. As part of the consolidated payroll operation, the DFAS PRO is responsible for these adjustments. Records for both the former and consolidated PROs may need to be corrected, depending on the effective date of the correction involved.

3.3.3.4.2.1. Retirement Plan Correction. The adjustment may involve both hard copy reporting via the SF 2812-A and reporting via RITS. Adjustments that are effective prior to the transfer to the consolidated office must be reported to OPM, via the SF 2812-A, citing the former PRO number. Corrected retirement records and registers for that portion applicable to the former PRO must be prepared and forwarded to OPM. A copy of the SF 2812-A, registers, and records must be forwarded to the departmental reporter for the former PRO so that cumulative balances may be adjusted. That portion of the adjustment applicable to the consolidated PRO must be corrected through the payroll system and reported via the RITS regular biweekly cycle. Adjustments for accounts that have become inactive since consolidation must be corrected through the payroll system by reactivating the account.

3.3.3.4.2.2. Cash Collections for Military Deposits. Cash collections for military deposits must be reported via RITS during the regular reporting cycle. Collections for accounts that have become inactive since consolidation must be corrected through the payroll system by reactivating the account. Correction through the payroll system is necessary in order to maintain the proper sequencing of system-assigned register numbers.

3.3.3.4.2.3. Cash Collections for Health Benefit Indebtedness. Cash collections for health benefit indebtedness must be reported via RITS during the regular biweekly reporting cycle.

3.3.4. TSP Form TSP-2, Certification of Transfer of Funds and Journal Voucher. A “no-check-issue” procedure is used to transfer the amount collected for employee TSP deductions as well as the agency contributions to NFC. Funds are transferred to NFC using the TSP Form TSP-2.

3.3.5. Payroll for Personal Services Certification and Summary. The payroll for personal services certification and summary provides total payroll costs and detailed accounting data by appropriation and accounting activity in connection with the civilian payroll.

3.3.6. Reports of Salary Offsets for Non-DoD Federal Agencies

3.3.6.1. Report of Collections. The PRO must forward a biweekly report to each creditor agency of the collections made for the pay period. This report must include, at a minimum, the non-DoD agency to which the collections apply, the PRO name and address, the employee’s name, the amount collected for each employee, the period for which the collection applies, and the total amount of collections remitted to the non-DoD agency.

3.3.6.2. Report of Employees With Salary Offset. The PRO forwards a biweekly report of employees with salary offsets for non-DoD federal agencies to the DFAS site that originally forwarded the salary offset request to the PRO. This report must include, at a minimum, the employee’s name, SSN, creditor agency, amount of the last biweekly collection amount, pay date of the last collection, and the debt balance amount. In the case of employees with more than one debt to a non-DoD Federal agency, the information required in this paragraph must be provided for each debt.

3.3.7. Reporting Union Dues to Labor Organizations or Associations of Management Officials or Supervisors. Each pay period, the PRO must prepare a listing for each recipient of withheld dues. At a minimum, the listing must include the name and address of the PRO, the labor organization or association for which the listing pertains, employee names and amount of dues deducted for each, total amount collected and system-generated remarks that explain the lack of deductions.

3.3.8. Combined Federal Campaign (CFC) Report. The PRO must provide a transmittal report to the Central Campaign Administrator to include:

3.3.8.1. The employing agency, e.g., Army, Navy, Air Force;

3.3.8.2. The employee names and deduction amounts per individual employee;

3.3.8.3. The pay period number; and

3.3.8.4. The pay period date of the CFC data. See [5 CFR 950.801](#).

3.4 Quarterly Reports

3.4.1. Continuation of Pay (COP) for Disabling, Job-Related Traumatic Injuries Sustained by Federal Employees. The Department of Labor requires a quarterly report on COP. The requirement applies to all PROs including National Guard units. See [20 CFR 10.200](#).

3.4.2. Employment Statistics Program. Upon request, the PRO furnishes feeder data to the appropriate HRO on total wages paid to civilian employees for specific calendar quarters. The appropriate HRO must prepare and submit the final report.

3.4.3. IRS Form 941, Employer's Quarterly Federal Tax Return. Each PRO must report tax payment information to the IRS on the Form 941. The report must be completed and filed by the due date established by the IRS. This is normally the end of the month following the close of the quarter. If all taxes for the quarter are deposited when due, the PRO must file the Form 941 by the 10th day of the second month following the close of the quarter. The tax payment information required under [IRS Schedule B \(Form 941\)](#), Report of Tax Liability for Semiweekly Schedule Depositors, must be derived from the payment records. The total amount of tax payments during a quarter must agree with the total taxes reported on the Form 941.

3.4.3.1. The PRO forwards the system-generated IRS disbursement voucher, "In Lieu of SF 1049, Public Voucher for Refunds," to the disbursing office at an agreed upon time preceding the payment date for transmitting the voucher data through the Electronic Federal Tax Payment System (EFTPS). EFTPS is a service offered by the Treasury, which allows an agency to electronically file and make tax payments reported on the Form 941 each quarter. See [Treasury's EFTPS](#) website for IRS information.

3.4.3.2. The DFAS Cleveland Disbursing Office makes the daily tax deposits that are reported on the Form 941 through EFTPS. The tax deposit information is entered on the Form 941, using a fillable form available from the IRS website. After the Form 941 is prepared, it is reviewed and signed by a supervisor then e-faxed to the IRS point of contact.

3.4.3.3. The disbursing office returns the Form 941 printout to the PRO the day following each IRS disbursement. This printout reflects the cumulative totals for the quarter.

3.4.3.4. The PRO must correct any discrepancies.

3.4.4. Health Benefits Reconciliation Data File. Each quarter, the OPM FEHB CLER data must be reported to NFC, which implements a system to reconcile health benefits data for government agencies. The quarterly report of enrollees must include enrollee names, the total amount for employee deductions, and the total amount for employer contributions. The quarterly report must include enrollment data for all health plans for the payroll paid during the 1st through the 15th of March, June, September, and December. If there are two payrolls paid during that period, the PRO reports only the enrollment data for the last payroll paid. The data in this report is first sorted by the FEHB enrollment code and then by the SSN. The report must provide a subtotal for each enrollment code and a grand total for each plan.

3.4.5. Transportation Fringe Benefit Report. A fringe benefit is a form of pay for the performance of services that is in addition to the employee's regular salary or wages. Examples of transportation fringe benefits include the use of a business vehicle, transit passes, and the value of parking.

3.4.5.1. Employers are required to report the value of transportation fringe benefits as taxable income for amounts that exceed the established IRS threshold.

3.4.5.2. The parking fringe benefit valuation must be reported by the employing activity directly to the servicing PRO on a quarterly basis to ensure proper reporting of income and collection of taxable wages on the W-2.

3.4.5.3. The monthly value of the transportation fringe benefits and the reportable taxable benefit must be included in the report.

3.4.5.4. Certain qualified transportation fringe benefit amounts may be excluded from an employee's wages each month. See Chapter 3 for information on qualified transportation fringe benefits and [IRS Publication 15-B](#), Employer's Tax Guide to Fringe Benefits.

3.4.6. Civilian Direct Deposit Participation Report. When directed, the PRO must furnish data to the appropriate functional organization on civilian employees participating in Direct Deposit/Electronic Funds Transfer (EFT). This feeder-type information is used by DoD managers to report payment volumes and the percentage of payments made by EFT to the Bureau of the Fiscal Services within 25 days after the end of each quarter.

3.4.7. Reporting Workforce Information. OPM collects data from agencies relating to civilian employees in a manner and at times prescribed by OPM. See [5 CFR 9.2](#). The Office of Management and Budget (OMB) primarily uses the reported data as a baseline for making policy decisions on personnel budget requests.

3.4.7.1. SF 113-A, Monthly Report of Federal Civilian Employment. The PRO must submit this report to OPM on a quarterly basis covering three months for the quarter or on a pay period basis covering the quarter. If the PRO submits data on a pay period basis, the PRO must report total employment "as of" September 30th for its September (fiscal year) submission. The report must reflect lump sum payments, wages, and salaries earned during the reporting period. The turnover data must include accessions and separations when the effective data occurs during the period covered. See [SF 113-A](#).

3.4.7.2. SF 113-G, Monthly Report of Full-Time Equivalent/Work-Year Civilian Employment. The PRO must provide feeder data to the Defense Manpower Data Center for reporting to OMB. See [SF 113-G](#).

3.5 Semiannual Reports

3.5.1. Semiannual Headcount Report. OPM requires that a report of the withholdings and contributions for retirement, FEGLI, and FEHB be sent in the form of a semiannual headcount report. This report is required for the last pay period paid during the 1st through the 15th of March and September, in conjunction with the quarterly reporting of enrollment in all health benefits plans.

3.5.2. Report of Work Years and Personnel Cost. This report provides information required by OMB to estimate the cost of proposed federal pay increases, evaluate the financial effects of proposed legislation on civilian personnel compensation and benefits, and prepare analysis of pay and personnel benefits of federal employees. The consolidated PRO provides feeder-type data on the leave data for part C of this report.

3.6 Annual Reports

3.6.1. Wage and Tax Statements

3.6.1.1. Wage and Tax Statements to SSA. The W-2 is used to report taxable income to SSA and the IRS. The PRO must issue a W-2 to each employee no later than January 31st of the year following the applicable tax (calendar) year. This also applies to employees who died or separated during the year. Individuals may request the form at an earlier date by making their request in writing to the PRO. In such instances, the form is to be issued within 30 calendar days of receipt of the request or of the final payment, whichever is later. The DoD PROs are required to use the DFAS approved standardized W-2 each year.

3.6.1.2. Wage and Tax Statements to States

3.6.1.2.1. The PRO provides this information to states that have entered into a Standard Agreement with Treasury or as authorized pursuant to a published routine use statement. See TFM, Volume I, Part 6, Chapter 5000, section 5070. The PRO will issue returns with respect to those employees who:

3.6.1.2.1.1. Are employed in the state and subject to mandatory withholding of state income tax; or

3.6.1.2.1.2. Have established voluntary allotments for the state's income tax.

3.6.1.2.2. The PRO provides annual information returns on the W-2. Other forms prescribed by states must not be used.

3.6.1.2.3. The PRO must include only the information on the W-2.

3.6.1.2.4. The PRO must submit the W-2 to the states in print or electronically. The PRO must file all returns in accordance with regulations issued by the state taxing authorities. A list of state taxing authority contacts is available at the IRS website.

3.6.1.2.5. The PRO may need to report information to more than one taxing authority for the same employee. If so, it must supply a copy of the W-2 to the proper state, city, or local taxing authorities on request. Those authorities will decide if the employee is liable for any tax.

3.6.1.2.6. A state requirement to file information returns monthly does not affect existing arrangements to submit the W-2 only once a year.

3.6.1.3. Wage and Tax Statements to Cities or Other Localities

3.6.1.3.1. In the case of an agreement with the city or locality, the PRO will issue returns with respect to those employees who are:

3.6.1.3.1.1. Employed in the city or locality and subject to the tax (whether or not tax is withheld); or

3.6.1.3.1.2. Residents of the city or locality and are subject to the tax (whether or not tax is withheld). If the city or locality has not entered into a standard agreement, with the prior written consent of the employee, or if authorized pursuant to a published routine use statement, the PRO will issue returns to the taxing authority with respect to an employee who has voluntary deductions for the city or locality's income tax.

3.6.1.3.2. The PRO provides annual returns on the W-2. Other forms prescribed by cities or localities must not be used.

3.6.1.3.3. The PRO must include only the information on the W-2.

3.6.1.3.4. The PRO must submit the W-2 in accordance with regulations issued by the city or locality taxing authorities.

3.6.1.3.5. A city or locality requirement to file information returns monthly does not affect existing arrangements to submit the W-2 only once a year.

3.6.1.4. Wage and Tax Statements to Employees

3.6.1.4.1. If the employee has not yet transitioned to an electronic W-2 format, the PRO must mail a paper W-2 to each employee's non-work address by January 31st of the next year. The W-2 must include the:

3.6.1.4.1.1. Employee's name, SSN, and address;

3.6.1.4.1.2. Wages subject to Social Security/Medicare, federal, state, city, or local withholding;

3.6.1.4.1.3. Social Security and/or Medicare, federal, state, or local tax withheld, if any;

3.6.1.4.1.4. Name of state, city, or county; and

3.6.1.4.1.5. City and/or county assigned Employer Identification Number.

3.6.1.4.2. The PRO must mail corrections to the annual wage and tax statement(s) to an employee's non-work address as soon as an error is discovered. Refer to subparagraph 3.2.3.6 for information on the W-2c and W-3c.

3.6.1.4.3. The PRO must issue the 1095-C to employees no later than January 31st of the year following the applicable tax (calendar) year.

3.6.2. Student Loans. Agencies are required to report annually to OPM on their use of the student loan repayment authority. Before March 31st of each year, agencies must submit their reports for the previous calendar year. See [5 CFR 537.110](#). The reports must contain:

3.6.2.1. The number of employees, who received student loan repayment benefits;

3.6.2.2. The job classifications of the employees who received student loan repayment benefits; and

3.6.2.3. The cost to the Federal Government of providing student loan repayment benefits.

3.6.3. Telework. The Telework Enhancement Act of 2010, codified at [5 U.S.C., Chapter 65](#), requires that agencies report an annual telework participation goal. OPM issues an annual report to Congress summarizing information provided by agencies on the status of their telework programs. See [OPM's Reports to Congress](#), Status of Telework in the Federal Government. The reports provide a baseline for measuring each agency's progress toward meeting the requirements of the Telework Enhancement Act. Agencies are required to make an annual assessment of progress towards meeting participation goals. In cases where agencies do not meet goals, they must detail actions to be taken to identify and eliminate barriers to maximizing telework opportunities for the next reporting period. See 5 U.S.C. § 6506 and [OPM's telework.gov](#) website. Each report submitted must include:

3.6.3.1. The total number of employees in the agency;

3.6.3.2. The number and percent of employees in the agency who are eligible to telework; and

3.6.3.3. The number and percent of eligible employees in the agency who are teleworking:

3.6.3.3.1. Three or more days per pay period;

3.6.3.3.2. One or two days per pay period;

3.6.3.3.3. Once per month; or

3.6.3.3.4. Occasional, episodic, or short-term basis.

3.6.4. Child Development Programs. Agencies initiating a child care subsidy program are required to track and report the utilization of their funds to OPM annually on a DoD [\(DD\) Form 2605](#), Department of Defense Child Development Program Annual Summary of Operations. See [5 CFR 792.204](#).

3.6.5. Experts and Consultants. Each agency that used and paid experts and consultants is required to submit an annual report to OPM. See [5 U.S.C. § 3109](#) and [5 CFR 304.107](#). This report must cover the entire agency for the year ending December 31st and be submitted by February 28th of the following year. See [OPM Form 1623](#), List of Experts and Consultants Hired Under 5 U.S.C. § 3109. This report must contain:

3.6.5.1. The number of days the agency employed each paid expert or consultant;
and

3.6.5.2. The total amount paid by the agency to each expert and consultant, not including payments for travel and related expenses.

3.6.6. Affordable Care Act Reporting. Applicable Large Employers (ALE) must report to the IRS whether the employer has made an offer of coverage to their full-time employees. An ALE is an employer with 50 or more employees. Reporting is completed using the 1095-C and the 1094-C for the previous tax year. For additional information, see also the [IRS Information Reporting by Applicable Large Employers](#).

3.6.7. Foreign Language Pay Reporting. Each DoD Component with Defense Civilian Intelligence Personnel System (DCIPS) positions must submit a report on its foreign language pay program to the Under Secretary of Defense for Intelligence through the Director, Human Capital Management Office. See DoD Instruction [\(DoDI\) 1400.25-V2016](#). Annual reports must:

3.6.7.1. Include a copy of the Component's current foreign language pay policy or guidance, and copies of any related documents or communications issued on foreign language pay since the previous report was submitted;

3.6.7.2. Identify the total number of language-coded authorizations and official tasking that requests language and proficiency in support of mission requirements;

3.6.7.3. Identify the total number of DCIPS employees receiving foreign language pay, and whether or not they are assigned to designated foreign language positions. Include a breakout of the number of DCIPS employees identified as receiving foreign language pay by each language;

3.6.7.4. Identify the total amount of foreign language payments made in the past calendar year and a breakout of the amounts by language;

3.6.7.5. Identify for Interagency Language Roundtable Level 3 proficiency and above (combined), the percentage of recipients paid, by language; and

3.6.7.6. Discuss the current state of recruitment and fill of foreign language positions, including overages, trends, shortfalls, recommendations regarding foreign language pay policy, trends in payments (by language and amount of payment) from the previous year, and a brief statement reflecting the effectiveness of incentive pay in the recruitment.

CHAPTER 10

SPECIAL CATEGORY EMPLOYEES

1.0 GENERAL

*1.1 Purpose

This chapter provides guidance on special category employees. Special category employees include those whose retirement, leave, or pay may be specific to an occupational series or tour of duty. Special category employees also include employees deemed legally *incapacitated*, missing or deceased, and de facto employees.

1.2 Authoritative Guidance

The pay policies and requirements established by the DoD in this chapter are derived primarily from, and prepared in accordance with, the United States Office of Personnel Management's (OPM) [*Pay and Leave*](#), Title 5, Code of Federal Regulations (CFR), Chapter I, OPM, [*subchapter B, Civil Service Regulations*](#); [*Title 5, United States Code \(U.S.C.\), Part III*](#); and the DoD Instruction (DoDI) 1400.25, [*DoD Civilian Personnel Management System*](#). Due to the subject matter in the chapter, the list of authoritative sources is extensive. The specific statutes, regulations, and other applicable guidance that govern each section are listed in a reference section at the end of this chapter.

2.0 OVERSEAS EMPLOYEES

*2.1 General

The general pay provisions for General Schedule (GS) employees who work stateside also apply to GS employees stationed overseas. The [*DoDI 1400.25-V1250*](#), Overseas Allowances and Differentials, authorizes and governs the payment of allowances and differentials to DoD civilian employees who are citizens of the United States and located in a foreign area. The [*DoDI 1400.25. V-1261*](#), Observance of Holidays in Foreign Areas, covers time off for observed holidays for employees who are citizens of the United States located in a foreign area and foreign national employees. The Department of State Standardized Regulations ([*DSSR*](#)) prescribe eligibility requirements, the applicable rates to be paid, and the provisions to be observed in paying overseas foreign area allowances and differentials to employees.

2.2 Foreign Nationals

2.2.1. Authority. [*Title 22 U.S.C. § 3968*](#) establishes the pay for foreign national employees. Delegation of authority is established by [*DoDI 1400.25-V1231*](#), Employment of Foreign Nationals. Authority is delegated to each military department to re-delegate to its Service Component Commanders the authority to establish salaries, wages, fringe benefits, related compensation items, and other terms of employment for foreign national employees. Additional guidance can be found in the [*DoD Manual 1416.08*](#), DoD Manual for Foreign National

Compensation, which prescribes procedures and instructions for the development of pay and compensation programs for foreign nationals employed by the U.S. Forces in foreign areas.

2.2.2. Entitlements. The Wage and Salary Division of the Defense Civilian Personnel Advisory Service (DCPAS) monitors the foreign national compensation program and advises the Deputy Assistant Secretary of Defense for Civilian Personnel Policy on statutory pay restrictions related to foreign national wage schedules, foreign national total compensation comparability plans, and public interest determinations addressing such plans, as necessary. See DoDI 5120.39, [DoD Wage Fixing Authority](#) - Appropriated Fund and Nonappropriated Fund [Compensation Programs](#).

2.3 Canadian Employees

2.3.1. General. Canadian national direct-hire employees receive compensation comparable to that paid to Canadian government employees in the same locality and performing essentially the same work with relatively the same degree of responsibility.

2.3.2. Authority. DoDI 1400.25-V1231 contains the authority for the administration of foreign nationals, including Canadians.

2.3.3. Entitlements

2.3.3.1. Holidays. Canadian legal holidays are observed with no charge to leave. If an emergency requires work on a Canadian holiday, the employee must be paid premium pay at a rate of 1.5 times the employee's regular rate of pay (for example, if an employee is paid \$16 per hour, the employee will be paid premium pay of \$24 per hour for work on a Canadian holiday), in addition to receiving either holiday pay equal to regular wages earned by the employee in the four weeks before the Canadian holiday divided by 20 (for example, if an employee works a 5-day week and earns \$120 per day, the employee earns regular wages of \$600 per week; \$600 per week x 4 weeks = \$2,400 ÷ 20 = \$120 holiday pay), or compensatory time off (subject to local labor laws pursuant to DoDI 1400.25-V1231). The following are the legal Canadian holidays:

2.3.3.1.1. New Year's Day (January 1),

2.3.3.1.2. Good Friday (March-April),

2.3.3.1.3. Easter Monday (March-April),

2.3.3.1.4. Victoria Day (May 24),

2.3.3.1.5. Canada Day (July 1),

2.3.3.1.6. Civic Holiday (1st Monday in August),

2.3.3.1.7. Labor Day (1st Monday in September),

2.3.3.1.8. Thanksgiving Day (2nd Monday in October),

2.3.3.1.9. Remembrance Day (November 11),

2.3.3.1.10. Christmas Day (December 25), and

2.3.3.1.11. Boxing Day (December 26).

2.3.3.2. Absence and Leave. Canadian employees accrue sick leave at a rate of 4.25 hours each pay period except for the last pay period of the leave year. During the last pay period, 6.25 hours accrue. The total annual accumulation is 112.5 hours or 15 days of sick leave.

2.3.3.3. Work-Related Injury or Illness. The Federal Employees' Compensation Act covers work-related injuries or illness.

2.3.4. Pay. Salaries are based on rates in approved agreements between the Treasury Board of Canada and the Public Service Alliance of Canada for Canadian Civil Service Employees. The effective dates are the same as in the basic Canadian agreements. Pay is in Canadian Dollars on a biweekly basis.

2.3.5. Hours of Duty. The workday is 7.5 hours, and the workweek is 37.5 hours.

2.3.6. Step Increases. Employees receive step increases until they reach the top step. Step increases require written certification by the supervisor that an employee has demonstrated an acceptable level of competence during the waiting period. Certification is completed and forwarded to the Human Resources Office (HRO) for processing prior to the effective date of the step increase. Step increases are effective at the beginning of the first pay period following the effective date of the anniversary.

2.3.7. Retroactive Pay. Retroactive pay adjustments are made based on agreements covering Canadian Civil Service employees. These adjustments are payable to employees separated during the retroactive period.

2.3.8. Leave Without Pay (LWOP). Aggregate periods of LWOP of more than 80 hours during the waiting period for a step increase will delay the increase. Extended periods of LWOP also affect leave accruals.

2.3.9. Awards. Canadian National employees generally are eligible for all awards, except quality step increases.

2.3.10. Canada Pension Plan. Employee contributions for the Canada Pension Plan are deducted from employee salaries. The U.S. Government pays the employer's contribution.

2.3.11. Registered/Retirement Pension Plan. The U.S. Government pays an amount equivalent to the employees' contributions up to a legal maximum of annual salaries.

2.3.12. Severance Pay. Employees are paid a lump-sum amount according to the following.

2.3.12.1. Lay-Off. Two weeks of pay for the first complete year of continuous employment and 1 week of pay for each complete additional year of continuous employment with a maximum benefit of 28 weeks of pay.

2.3.12.2. Resignation. When an employee resigns with 10 or more years of continuous employment, they will be paid one-half week of pay for each complete year of continuous employment up to a maximum of 26 years with a maximum benefit of 13 weeks of pay.

2.3.12.3. Retirement. Upon retirement, when an employee would be entitled to an immediate annuity, or to an immediate annual allowance had the employee been under the Canadian Government Public Service Superannuation Act, an employee is paid 1 week of pay for each complete year of continuous employment with a maximum benefit of 28 weeks of pay.

2.3.12.4. Death. Upon death, the employee's estate will be paid 1 week of pay for each complete year of continuous employment, with a maximum benefit of 28 weeks of pay.

2.3.13. Ontario Health Insurance Plan. Employees enrolled in the Ontario Health Insurance Plan are reimbursed an amount equivalent to the Canadian government contributions under the plan. Claims for reimbursement, supported by receipts, are submitted annually by the end of the calendar year.

2.3.14. Employment Insurance. The U.S. Government participates in the [Canadian Employment Insurance Program](#) for Canadians employed in Canada by the DoD. Any DoD installation that employs personnel in Canada should follow the guidance issued by the [Canada Revenue Agency](#). The U.S. Government contributes an amount equal to that paid by a Canadian government employer to the Canadian fund. The employee's contributions are deducted from his or her salary.

2.3.14.1. Deductions and Remittances. The Payroll Office (PRO) must use the Canada Revenue Agency T4001 [Employer's Guide – Payroll Deductions and Remittances](#) to determine insurable employment and earnings for withholding.

2.3.14.1.1. Employee's Share. Funds must be withheld from the pay of all insurable employees at the rate set in the Canada Revenue Agency T4001 Employer's Guide.

2.3.14.1.2. Employer's Share. The employer's share must equal 1.4 times the amount withheld from the employee's pay on each payroll voucher. The contribution is charged to the fund from which employees' salaries are paid.

2.3.14.2. Retroactive Payments. The DoD may not make retroactive payments of deductions to the Canada Revenue Agency if the employee concerned has not given correct information to the employing installation. This includes cases that have been adjudicated.

2.3.14.3. Audits and Record Retention. The DoD records of deductions, contributions, and remittances are subject to audit by Canadian authorities. The audit requirements may be met by sending copies of records of covered personnel and insurance remittance documents to the proper Canada Revenue Agency district office. The PRO must send copies of records required by Canadian authorities on request.

2.3.15. Canadian Income Tax. The employee's income tax contributions are deducted from his or her biweekly salary.

2.3.16. Accidental Life Insurance. This is a voluntary contribution deducted from the employee's biweekly salary at the employee's request.

3.0 OTHER THAN FULL-TIME CAREER EMPLOYEES

3.1 General

This section provides guidance regarding employees who do not work the typical 40-hour workweek established under [5 CFR 610.111](#). Such employees include part-time, intermittent, seasonal, and piecework employees.

3.2 Part-Time Employment

Part-time employment generally is no less than 16 hours and no more than 32 hours per week under a schedule consisting of an equal or varied number of hours per day. Agencies may permit employees to work less than the minimum 16 hours per week based on guidance provided in [5 CFR 340.202\(b\)](#) and [DoDI 1400.25, V340](#), DoD Civilian Personnel Management System: Other Than Full-Time Employment. Employment may be between 32 and 64 hours in a biweekly pay period in the case of a flexible or compressed work schedule. See [5 U.S.C. § 3401\(2\)](#). Part-time employment does not include employment on a temporary or intermittent basis. A part-time employee must have a regular schedule of at least 1 hour, set in advance, in each administrative workweek in each biweekly pay period. See [5 CFR Part 340](#) and [5 U.S.C. §§ 3401-3408](#).

3.2.1. Benefits. Part-time permanent employees are eligible to receive the same benefits as full-time employees. On a prorated basis, part-time employees are eligible to receive leave, retirement, and health and life insurance coverage. See [OPM Benefits for Part-Time Employees](#).

3.2.1.1. Leave

3.2.1.1.1. Annual Leave. Part-time employees, who have a regular tour of duty established in advance of one or more days during each administrative workweek, earn annual leave on a prorated basis based on the total number of hours in a pay status in each biweekly pay period, excluding overtime hours. See [5 U.S.C. § 6302](#) and [5 U.S.C. § 6303](#). Hours in a pay status include straight time and additional hours worked, up to a total 80 hours in the biweekly pay period. Maximum carryover at the end of the leave year is the same as for a full-time employee. Leave is

charged for an absence during the hours an employee is regularly scheduled to work. See Chapter 5.

3.2.1.1.2. Sick Leave. Part-time employees with a regularly scheduled tour of duty will earn and be credited with 1 hour for each 20 hours in a pay status. See [5 U.S.C. § 6307](#).

3.2.1.1.3. Other Leave. Part-time employees are eligible for other leave categories (e.g., absent without leave, LWOP, court leave, funeral leave, or excused absence) on the same basis as full-time employees. The rules governing the Family and Medical Leave Act of 1993 and the Federal Employees Family Friendly Leave Act also apply to part-time employees. See Chapter 5.

3.2.1.1.4. Military Leave. Each member of a Reserve Component who is an employee of the U.S. is entitled to a leave of absence from his or her duties without loss of pay, time, or efficiency rating for each day, but for no more than 15 days in any fiscal year in which he or she is on active duty or training. Eligible part-time employees accrue military leave that is prorated based on the tour of duty. See [5 U.S.C. § 6323\(a\)\(2\)](#) and Chapter 5.

3.2.1.1.5. Holiday Leave. When a holiday falls on a scheduled workday, a part-time employee is entitled to basic pay for the number of hours the employee is regularly scheduled to work on that day, not-to-exceed 8 hours, unless covered by a compressed work schedule. A part-time employee is not entitled to pay for a holiday that falls on a day the employee is not normally scheduled to work.

3.2.1.1.6. In-Lieu-of Holiday. An in-lieu-of holiday is granted to replace the day designated as a holiday by federal statute or executive order when the holiday falls on a full-time employee's non-work day. Under [DoDI 1400.25-V610](#), Hours of Duty, part-time employees are not entitled to in-lieu-of holidays. However, if a part-time employee is prevented from working because the activity is closed, he or she may either be placed in an appropriate leave category or be excused (placed on administrative leave at the agency's discretion) without loss of pay for the number of hours that he or she is regularly scheduled to work on that day.

3.2.1.2. Retirement. Part-time employees are subject to deductions for retirement benefits on the same basis as full-time employees.

3.2.1.3. Federal Employees Health Benefits (FEHB). Part-time employees are eligible to participate in the FEHB Program. See the [FEHB Handbook](#). The cost to the employee is the total cost of health benefits (both the employee and the employer's share) less the prorated government contribution. See Chapter 11 for more information on FEHB for part-time employees.

3.2.1.4. Federal Employees Group Life Insurance (FEGLI)

3.2.1.4.1. Part-time Eligibility. A part-time employee is eligible to participate in the FEGLI Program. Participation is voluntary and eligible part-time employees are automatically covered under the basic insurance option unless they waive the insurance coverage. The part-time employee's basic insurance amount is the greater of their annual rate of basic pay rounded up to the next \$1,000 plus \$2,000, or a flat \$10,000. Basic life insurance coverage is effective from the first day the employee is in an official duty status. Employees may elect additional optional insurance within 60 days from their appointment date. All new employees must complete a Standard Form [\(SF\) 2817](#), Life Insurance Election, or its electronic equivalent, to cancel basic insurance or to elect additional optional insurance. If a part-time employee becomes a full-time employee in the middle of a pay period, the amount withheld for basic life insurance is based on the amount of insurance last in force for the employee during the pay period (that is, the full-time rate). See the [FEGLI Program Handbook](#).

3.2.1.4.2. Nonpay Status. FEGLI coverage continues for up to 12 months when an employee enters nonpay status. FEGLI ends at the end of the 12 months with a 31-day extension of coverage and a right to convert to an individual policy. If the employee is in nonpay status for part of the pay period, withholding for premiums and the government contribution is still required. The employee is not required to pay premiums while on LWOP unless they are receiving benefits from the Department of Labor (DOL), Office of Workers' Compensation Program (OWCP). See the FEGLI Program Handbook for special nonpay situations during which the employee must continue to make premium payments.

3.2.1.4.3. Part-Time Annual Rate of Basic Pay. For life insurance purposes, the annual pay for a part-time employee is the annual rate of basic pay applicable to his or her tour of duty in a 52-week work year. For example, an employee whose pay is \$56,282 per annum, employed half-time, would have an annual pay for insurance purposes of \$28,141.

3.2.1.4.4. Concurrent Part-Time Employment. An employee may be employed on a part-time basis in more than one Federal agency and eligible for FEGLI coverage in one or both of the positions. However, an employee may not maintain more than one FEGLI election even if he or she is serving in more than one position. See the FEGLI Program Handbook (under Concurrent Employment) for exceptions including guidance concerning part-time employees in nonpay status at one of the agency positions. The amount of insurance is based on the sum of annual pay for all positions including annual pay for a position excluded from life insurance coverage. The agency must take the following steps to ensure that the correct premiums are applied:

3.2.1.4.4.1. The agency that pays the greater of the two salaries withholds and pays the government contribution;

3.2.1.4.4.2. The agency must contact the other employing office, confirm the salaries paid, and assume responsibility for withholding all of the required premiums from the salary; and

3.2.1.4.4.3. The agency that pays the greater salary to the individual must also provide the government contribution for basic insurance based on the aggregate amount of basic coverage the employee has from all covered positions. This eliminates the need for the other employing office to make partial withholdings and government contributions.

3.2.2. Pay. Gross basic pay is computed by multiplying the employee's hourly rate of pay by the total number of hours worked and the hours of paid leave during the pay period.

3.2.2.1. Overtime Pay. Under [5 U.S.C. § 5542](#), overtime pay for eligible part-time employees is authorized only for work over 8 hours a day or 40 hours in a week.

3.2.2.2. Compensatory Time Off. Under [5 U.S.C. § 5543](#), part-time employees may elect to take compensatory time off in-lieu-of overtime pay. Under [5 U.S.C. § 5550\(a\)](#), part-time employees may elect to perform compensatory overtime work to replace time taken off for religious observances. See Chapter 5.

3.2.2.3. Sunday Premium Pay. Under [5 U.S.C. § 5544\(a\)](#) and [5 U.S.C. § 5546](#), a part-time employee is entitled to pay at his or her rate of basic pay plus premium pay at a rate equal to 25 percent of his or her basic pay for each hour of Sunday work. Up to 8 hours of Sunday premium pay may be paid to a part-time employee who has Sunday as part of his or her non-overtime regularly scheduled tour of duty (i.e., Sunday through Thursday basic workweek). An employee with a tour of duty of Monday through Friday who works either regularly scheduled overtime or irregular or occasional overtime work on a Sunday is entitled to overtime pay and is not entitled to Sunday premium pay. An employee must perform actual work to receive Sunday premium pay. Employees who do not work during their Sunday tour of duty because they are on paid leave or excused absence, using compensatory time off or credit hours, or because Sunday is a holiday, are not entitled to Sunday premium pay. See OPM Memorandum for [Administrative Claims for Sunday Premium Pay](#). For additional information pertaining to Sunday premium pay, see Chapter 3.

3.2.2.4. Night Differential Pay. Under [5 U.S.C. § 5545](#), GS part-time employees are entitled to night pay for work performed between 6:00 p.m. and 6:00 a.m. as part of their regularly scheduled administrative workweek. See Chapter 3.

3.2.2.5. Night Shift Differential Pay. Under [5 U.S.C. § 5343\(f\)](#), Federal Wage System (FWS) part-time employees who work a regular scheduled shift of 8 hours or less are entitled to night shift differential. A majority of the hours worked, however, must be on the second or third shift. For information on pay for the second and third shifts, see Chapter 3.

3.2.2.6. Holiday Premium Pay. Under 5 U.S.C. § 5546, a part-time employee who works on a holiday that falls during his or her regularly scheduled hours is entitled to holiday premium pay only for those scheduled hours. However, part-time employees who are excused from work on a holiday may only receive their rate of basic pay for the hours they are regularly scheduled to work on that day. Additionally, part-time employees do not receive holiday premium pay for working on an in-lieu-of holiday that is scheduled for full-time employees.

3.3 Intermittent Employment

3.3.1. General. The term intermittent relates to an employee's work schedule and not the appointment type. Intermittent employees can be either permanent or temporary employees. Intermittent employees work sporadically and have no fixed or guaranteed schedules. This is other than full-time employment in which employees serve under an excepted or competitive service appointment without a regularly scheduled tour of duty. See [5 CFR 340.403](#). An intermittent work schedule is appropriate for a position involving work that is sporadic and unpredictable such that a regular tour of duty cannot be scheduled in advance.

3.3.1.1. Pay. Intermittent employees are paid only for hours of work performed while in a duty status. The gross basic pay is computed by multiplying the employee's hourly rate of pay by the total of the hours worked during the pay period. Because employees working on an intermittent basis do not maintain a regularly scheduled workweek as defined in [5 CFR 610.102](#), intermittent employees are not eligible for pay for holiday work, night pay or night shift differential, or Sunday premium pay. See [5 CFR 532.509](#), [5 CFR 550.121](#), and [5 CFR 550.103](#). Intermittent employees are entitled to overtime when appropriate. Intermittent employees receive their normal salary for working holidays, Sundays, or during a night shift. An exception exists for an FWS intermittent employee assigned to a regularly scheduled shift of fewer than 8 hours. The FWS employee in this situation is entitled to night shift differential pay if a majority of the hours are worked during the period when night shift differential is payable. See [OPM Appropriated Fund Operating Manual, subchapter S8-4](#). A GS intermittent employee is not eligible for night pay differential unless temporarily assigned to a regular tour of duty with night work.

3.3.1.2. Leave. Intermittent employees do not earn annual or sick leave.

3.3.1.3. Sick Leave Recredit Upon Transfer. When a full or part-time employee transfers to an intermittent job to which he or she cannot transfer previously earned sick leave, the sick leave must be held in abeyance until the employee returns to the original leave system under which the leave was earned. The sick leave is recredited if the employee returns to the original leave system on or after December 2, 1994, without regard to the original date of transfer. See [5 CFR 630.502](#).

3.3.1.4. Lump-Sum Annual Leave Payment. When a full-time or part-time employee is changed to an intermittent employee, any unused annual leave is paid as lump-sum. A lump-sum payment is not required when the employee is part of a continuing program under which employees are required to return to full-time or part-time employment after a period of intermittent employment (e.g., student trainee). See [5 CFR 550.1203](#).

3.3.2. Deductions

3.3.2.1. Retirement. Intermittent employees are not eligible for retirement coverage except when the intermittent employment follows employment in a covered position, and there has not been a break in service of more than 3 days. Intermittent employees are subject to Social Security and Medicare deductions. See [5 CFR 831.201](#).

3.3.2.2. FEHB. Intermittent employees who are expected to work 130 hours or more per month for at least 90 days are eligible to enroll in an FEHB plan. These eligible employees will receive the same government contribution as full-time permanent employees. See [5 CFR 890.102\(j\)](#) and OPM Benefits Administration Letter [\(BAL\) 14-210](#).

3.3.2.3. FEGLI. Intermittent employees are excluded from FEGLI coverage by regulation, except when intermittent employment follows, with a break in service of no more than 3 days, a position in which the employee was eligible to be insured and to which the employee is expected to return. The agency makes this determination, not OPM. See the FEGLI Program Handbook. For insurance purposes, the annual pay for intermittent employees is the annual rate that they were receiving at the end of the pay period or, in the event of death or dismemberment, the annual rate they were receiving at the time of the death or accident. For example, if an intermittent employee is paid \$17.84 per hour, his or her rate of pay fixed by law is \$37,232 (\$17.84 per hour x 2,087 hours per year = \$37,232/year). If this employee works only 2 days or 16 hours during a particular pay period, the annual rate of pay for insurance purposes is based on actual time worked during that pay period. In this example, \$7,421 is the annual rate of pay for insurance purposes (\$17.84 per hour x 16 hours during the pay period x 26 pay periods per annum = \$7,421/year). However, insured employees whose annual pay is \$8,000 or less are covered for the minimum \$10,000 of basic insurance. See the FEGLI Program Handbook.

3.4 Seasonal Employment

The term “seasonal” relates to an employee’s work schedule and not the appointment type. Seasonal employment was established to allow agencies to recruit and train employees for duty that occurs on a predictable yearly basis and is expected to last less than 12 months each year. See [5 CFR 340.402](#). As with other career employees, seasonal employees are entitled to receive full benefits. At the end of the season, the employee is placed into a non-duty/nonpay status and will be recalled at the onset of the next season in accordance with a pre-established agreement between the agency and the employee.

3.4.1. Pay. Gross basic pay is computed by multiplying the employee’s hourly rate of pay by the total of the hours worked and the hours of paid leave during the pay period.

3.4.2. Leave. Employees in a seasonal position earn leave during the time in pay status and during the first 80 hours in nonpay status each year. A seasonal employee earns leave on the same basis as any other employee eligible to earn leave. See [5 CFR 630.208](#) for information on leave during nonpay status.

3.4.3. Deductions

3.4.3.1. Regularly scheduled seasonal employees under career or career-conditional appointments and who are expected to work at least 6 months per year are subject to FEGLI and retirement deductions. These deductions are made on the same basis as those of full-time employees.

3.4.3.2. Employees in a seasonal position who are expected to work 130 hours or more per month for at least 90 days are eligible to enroll in an FEHB plan. These eligible employees will receive the same government contribution as full-time permanent employees. See 5 CFR 890.102(j) and BAL 14-210.

3.5 Piecework Employees

When Executive Agency employees are hired on a piecework basis, the employee's earnings are determined based on the amount of work produced. The general authority for entitlement of pay, scheduling of work, and excusing absences for piecework employees are granted under [5 U.S.C. § 6104](#) and [5 CFR 610.301-306](#). Employees working limited appointments of 1 year or less and being paid piecework rates are excluded from retirement coverage unless they are covered by an exception. See [5 CFR 831.201\(a\)\(5\)](#).

3.5.1. FEGLI. For life insurance purposes, the annual pay for a piecework employee is the total basic earnings for the previous calendar (52-week) year, not counting premium pay for overtime or holidays. See [5 CFR 870.204\(d\)](#).

3.5.2. FEHB. Piecework employees are excluded from FEHB coverage except for those with a work schedule that provides for full-time or part-time service with a regularly scheduled tour of duty. See [5 CFR 890.102\(c\)\(6\)](#).

4.0 REEMPLOYED ANNUITANTS

4.1 General

A retired federal employee may be rehired in federal service as a reemployed annuitant. The retired employee's annuity may continue to be paid upon reemployment, or may be terminated or suspended. Reemployment may result in an increase in the employee's retirement and death benefits. Special provisions apply to annuitants reemployed by DoD on or after November 25, 2003, and to former Members of Congress.

4.1.1. Employees Retired From Competitive Service

4.1.1.1. Regulations Governing Reemployment. Instructions governing the reemployment of employees retired from the regular competitive service under the Civilian Service Retirement System (CSRS) and the Federal Employees Retirement System (FERS) are contained in [5 U.S.C. § 8344](#), [5 U.S.C. § 8468](#), [5 U.S.C. § 9002](#), [5 CFR Part 837](#) and the [CSRS/FERS Handbook, Chapter 100](#), Reemployed Annuitants. See subparagraph 4.1.2 for annuitants reemployed by DoD on or after November 25, 2003.

4.1.1.2. Treatment of Annuity Upon Reemployment. As a general rule, if a CSRS or FERS annuitant is reemployed, the annuity continues to be paid, but the annuity payment is offset from the reemployed annuitant's salary. Certain exceptions apply which may result in the CSRS or FERS annuity being terminated or suspended upon reemployment. The Director of OPM

may waive the reemployment provisions for CSRS or FERS annuitants on a case-by-case basis for a position where there is exceptional difficulty in recruiting or retaining a qualified employee.

4.1.1.2.1. Termination of a Disability Annuity. A CSRS or FERS disability annuitant may be reemployed in a temporary or permanent position and given the same type of appointment that would be given to any other person appointed to the position. Reemployment may cause the disability annuity to terminate if OPM determines the annuitant has recovered or been restored to earning capacity prior to reemployment. Additionally, reemployment may terminate the annuity of a CSRS or FERS disability annuitant who was medically disqualified for continued membership in the National Guard.

4.1.1.2.2. Termination of an Annuity Based on Involuntarily Separation. When involuntary separation such as for reduction-in-force and lack of funds is the basis for a CSRS annuitant's retirement, and the new appointment is subject to retirement coverage, the annuity payment is terminated upon reemployment and retirement deductions must be taken from the salary.

4.1.1.2.3. Termination Upon Presidential Appointment or Election to Congress. When a CSRS annuitant receives a Presidential appointment subject to retirement deductions, or is elected as a member of Congress, payment of the annuity terminates upon reemployment.

4.1.1.2.4. Suspension Upon Judicial Appointment. When a CSRS or FERS annuitant is appointed as a justice or a judge of the United States, payment of the annuity is suspended.

4.1.1.2.5. Suspension Upon Interim Appointment by Merit System Protection Board (MSPB). When a CSRS or FERS annuitant receives an interim appointment under [5 U.S.C. § 7702](#) by the MSPB, payment of the annuity is suspended.

4.1.1.3. Reemployment of Law Enforcement Officers (LEOs), Firefighters, and Air Traffic Controllers (ATCs). A retired LEO or firefighter mandatorily separated is generally barred from reemployment in a primary position involving law enforcement or firefighting duties after reaching age 57. However, he or she is not barred from reemployment in a secondary position or any other position. Similarly, a retired ATC is generally barred from reemployment in the same position after reaching age 56. He or she is not barred from reemployment in any other position not covered by the special retirement provisions for ATCs. The agency must withhold the required deductions from the reemployed annuitant's pay (0.5 percent higher than the regular deduction rate). See [5 U.S.C. § 8335](#) and [5 U.S.C. § 8425](#).

4.1.1.4. Supplemental Annuity or Redetermined Annuity. A reemployed annuitant may earn future benefits either in the form of a supplemental annuity or a redetermined annuity.

4.1.1.4.1. Supplemental Annuity. A supplemental annuity is an annuity added to the reemployed annuitant's present annuity. An employee who works as a reemployed annuitant on a full-time basis for at least 1 year, or on a part-time basis for a proportionately longer period, may be entitled to a supplemental annuity. For a reemployed annuitant who qualifies for a supplemental annuity, the [SF 2806](#), Individual Retirement Record CSRS, or [SF 3100](#), Individual Retirement Record FERS, typically prepared for a new employee, is prepared at the time of separation rather than at the time of appointment.

4.1.1.4.2. Redetermined Annuity. A redetermined annuity is a recomputed annuity that takes the place of the employee's present annuity. A redetermined annuity is computed using all of the reemployed annuitant's creditable service. A reemployed annuitant who completes at least five years of actual continuous full-time service and/or part-time service that is equivalent may elect to have their annuity computed as a redetermined annuity under the law in effect at the time of separation from reemployment, in-lieu-of a supplemental annuity.

4.1.1.4.3. Exception. The special retirement provisions for LEOs, firefighters, and ATCs do not apply to service from reemployment. Therefore, any service credit from reemployment that is used to calculate a supplemental or redetermined annuity is treated as regular service, even if the employee is reemployed in an approved LEO, firefighter, or ATC position.

4.1.2. Annuitants Reemployed by DoD on or After November 25, 2003. The Secretary of Defense was granted the authority to reemploy annuitants without a reduction in pay or of the annuity (5 U.S.C. § 9902). Instructions governing annuitants who are reappointed by DoD on or after November 25, 2003, are found in the [DoDI 1400.25-V300](#), Employment of Federal Civilian Annuitants in the DoD. Generally, annuitants hired by DoD prior to November 25, 2003, are subject to salary offset unless an exception is approved by OPM or DoD. However, reemployed annuitants hired by DoD after November 25, 2003, may continue to receive their full annuity and salary upon appointment and will not have their salary offset by their annuity or further retirement deductions. An exception applies for certain discontinued service retirement (DSR) annuitants who are receiving annuities based on involuntary separation for reasons other than for cause based on misconduct or delinquency. A DSR annuitant hired by DoD after November 25, 2003, may elect retirement contributions and earn further retirement credit in-lieu-of receiving their full salary plus annuity. See [CSRS/FERS Handbook, Chapter 44](#).

4.1.3. Former Members of Congress

4.1.3.1. Suspension of Annuity Upon Reemployment. The CSRS annuity of a retired Member of Congress is generally suspended when the annuitant becomes reemployed or accepts an appointment. See 5 U.S.C. § 8344(d). Contact OPM Retirement and Insurance Programs, Annuitant Services Division, Washington, DC 20415 for further guidance regarding reemployment of Members.

4.1.3.2. Supplemental or Redetermined Annuities. Members of Congress are not covered under the provisions for supplemental or redetermined annuities. The agency retirement counselor should contact OPM concerning the benefits for reemployed former Members.

4.2 Prorating Annuities for Appropriate Reductions of Wage and GS Salaries

4.2.1. General. Upon reemployment, HRO provides the [SF 50](#), Notification of Personnel Action, data to the servicing PRO as to the amount of annuity paid to a reemployed annuitant.

4.2.2. Employees Retired From the Competitive Service. A reemployed annuitant, who retains his or her annuity, must have their salary reduced by a sum equal to the retirement annuity allocable to the period of actual employment. The appropriate reduction and adjusted salary must be determined as follows:

4.2.2.1. An annuitant reemployed on an annual pay basis must have his or her per annum salary reduced by the amount of the annual annuity. The remainder of the salary is computed in amounts payable on a biweekly pay period basis. Payment for overtime worked is based on an annuitant's full rate of basic pay before any reduction by the amount of their annuity.

4.2.2.2. An annuitant reemployed on an hourly pay basis must have his or her daily or hourly rate of pay converted to the per annum equivalent. The per annum rate is reduced by the total amount of the annuity being received by the employee. The remainder converts to a per diem or per hour rate, as appropriate.

4.2.2.3. The reimbursement to OPM is adjusted following increases in an annuity as provided in the CSRS and FERS Handbook and any OPM instructions issued with periodic cost-of-living adjustments.

4.2.3. Former Members of Congress. A former Member of Congress who is employed in an appointive position on an intermittent service basis, and who retains his or her annuity, must have his or her salary reduced by a sum equal to the retirement annuity allocable to the period of actual employment. The amount of annuity allocable to each pay period must be processed as a payroll deduction rather than as a reduction in pay period earnings, as is the case with reemployed competitive service annuitants. Therefore, annuities withheld must not reduce earnings for tax and other purposes. Annuities withheld in the case of former Members of Congress must be remitted to OPM.

4.3 Processing

Retirement deductions are optional for CSRS reemployed annuitants, and there is no requirement for a matching government contribution. See the CSRS and FERS Handbook, Chapter 100. Retirement deductions are required for FERS reemployed annuitants, as are government contributions. These deductions are computed on the reemployed annuitant's basic pay before any offset due to receipt of an annuity. Deductions for Medicare (CSRS employees) or Social Security/Medicare (FERS employees) are computed on the amount remaining after subtracting the annuity offset, in accordance with Social Security Administration guidance. Federal, state, and local taxes are computed on the amount remaining after subtracting the annuity offset. A reemployed annuitant may not be credited with sick leave that was reported to OPM for use in the calculation of the employee's annuity. Sick leave used in the annuity computation is charged against an employee's sick leave account and is considered used. The sick leave may not thereafter be used, transferred, or recredited. See [5 CFR 630.407](#).

4.4 Computation of Lump-Sum Leave Pay

Under the provisions of 5 U.S.C. § 8344, the lump-sum payment for unused annual leave payable to a reemployed annuitant upon separation will be computed on the basis of the employee's wage or salary rate fixed for his or her position or occupation without reduction for the amount of annuity received by the employee. This includes reemployed annuitants who are retired from the competitive service or who are former Members of Congress.

5.0 DECEASED EMPLOYEES

5.1 General

Procedures governing the settlement of accounts of deceased civilian employees are set in [5 U.S.C. §§ 5581-5584](#) and [5 CFR 178.201-208](#). An employee may designate a beneficiary or beneficiaries to receive his or her unpaid compensation using an [SF 1152](#), Designation of Beneficiary Unpaid Compensation of Deceased Civilian Employee. If no beneficiary has been designated by the employee, payment is made pursuant to the order of precedence set out in 5 U.S.C. § 5582(b). Deceased civilian employees also include former employees who die after separation from the employing installation, but prior to receiving final pay and allowances. The procedures do not apply to the settlement of accounts for deceased Members of Congress or to the employees of certain federal banks. For death gratuity payments, refer to paragraph 5.9.

5.2 Unpaid Compensation

The settlement of a deceased employee's account includes payment of any unpaid compensation due the employee in the form of pay, allowances, or other amounts due at the time of death including, but not limited to:

5.2.1. Current salary (including any retroactive salary), including cost-of-living allowances, overtime and premium pay;

- 5.2.2. Unclaimed or unnegotiated checks;
- 5.2.3. Cash awards;
- 5.2.4. Foreign and non-foreign area differentials and allowances;
- 5.2.5. Lump-sum annual leave payment;
- 5.2.6. Travel reimbursement; or
- 5.2.7. Severance pay.

5.3 Payment of Unpaid Compensation Due a Deceased Employee

When the HRO is notified of the death of an employee, they forward a copy of the employee's SF 1152, (if available) and all [SF 1153s](#), Claim for Compensation of Deceased Civilian Employee, submitted by the claimants to the servicing PRO. Claimants must provide supporting documentation as requested by the servicing PRO. Upon notice of the death of a civilian employee, an [SF 1154](#), Public Voucher for Unpaid Compensation Due a Deceased Civilian Employee, is prepared to permit prompt payment of the amounts due. If undisputed, the unpaid compensation due a deceased employee may be paid directly by the agency to the designated beneficiary/beneficiaries or, if none, to the person or persons eligible for payment under the order of precedence set out in 5 U.S.C. § 5582(b) and 5 CFR 178.204. Disputed claims for unpaid compensation due to a deceased employee are submitted to OPM Merit System Accountability and Compliance (MSAC) for settlement.

5.3.1. Undisputed Claims for Unpaid Compensation. As soon as practicable after the death of an employee, the agency in which the employee was last employed will request the appropriate person or persons execute an SF 1153. See 5 CFR 178.205(a). Direct payment is permitted to the claimant(s) who is legally entitled to an employee's unpaid compensation. When paying more than one beneficiary, percentages are applied due each beneficiary as specified by the deceased employee on the SF 1152. If the SF 1152 does not specify percentages, the total amount of unpaid compensation should be divided equally among the eligible claimants. The SF 1152 must be signed by the employee and filed with the employee's employing activity prior to his or her death. A properly executed and filed SF 1152 will be effective so long as employment with the agency continues. If the employee resigns and is reemployed or transferred to another agency, the employee must execute another SF 1152 with the employee's new employing agency, in accordance with 5 CFR 178.203(e). However, if the employee's agency or site, function, records, equipment, and personnel are absorbed by another agency, then the employee's designation form may continue, and a new designation form is not required. Money due an employee at the time death is paid to the person or persons surviving at the date of death, in the following order of precedence, and the payment bars recovery by another person of amounts so paid:

5.3.1.1. First, to the beneficiary or beneficiaries designated by the employee in writing (SF 1152) received in the employing agency before his or her death;

5.3.1.2. Second, if there is no designated beneficiary, to surviving spouse of the employee;

5.3.1.3. Third, if none of the above, to the child or children of the employee, and descendants of deceased children by representation;

5.3.1.4. Fourth, if none of the above, to the parents or surviving parent of the employee;

5.3.1.5. Fifth, if none of the above, to the duly appointed legal representative of the estate of the employee; and

5.3.1.6. Sixth, if none of the above, to the person or persons entitled under the laws of the domicile of the employee at the time of his or her death.

5.3.2. Other Claim Considerations

5.3.2.1. Claims by a Child(ren) of Deceased Employee. For purposes of claims of unpaid compensation under 5 U.S.C. § 5582(b), a “child” of a deceased employee includes a natural or legally adopted child of the employee. If another person adopts the employee’s natural child, the child is a beneficiary of the employee only in those states where an adopted child may still inherit from a natural parent. A stepchild is not an eligible beneficiary unless adopted by the employee or unless the stepchild is permitted to inherit pursuant to the intestacy laws of the employee’s domicile at death.

5.3.2.2. Additional Evidence Required. Where payment is to be made to the duly appointed legal representative of the estate of the employee or a person entitled under the law of the domicile of the deceased individual, the servicing PRO may require the claimant(s) to submit evidence of entitlement under state law. This includes, but is not limited to: funeral expense receipts, small estate affidavit, trust documents, court orders granting summary administration, letters of administration, and where necessary, the deceased person’s will.

5.3.2.3. Felonious Intent. If the beneficiary’s actions caused the death of the employee, the employee’s unpaid compensation will not be paid to that person unless evidence is received and determined by the servicing PRO to clearly absolve the beneficiary of any felonious intent.

5.3.2.4. Death of Beneficiary Prior to Final Settlement. If the beneficiary survives the employee but dies before receiving final settlement, upon presentation of a SF 1153 claim form, the unpaid compensation may be paid to the beneficiary’s estate or heirs at law.

5.3.3. Disputed Claims. Disputed claims include those claims where doubt exists as to the amount or validity of the claim or as to the person properly entitled to payment. Disputed claims may also include unnegotiated or undelivered checks for money due to the decedent. Disputed claims are submitted to the MSAC in accordance with [5 CFR 178.102](#) and [5 CFR 178.207](#) either by the claimant or by the agency on the claimant's behalf. After the MSAC settles the dispute and certifies the SF 1154, the claim will be paid.

5.4 Computation of and Deductions From Final Pay

The employee's pay earned and applicable deductions are computed through the date of death.

5.4.1. Retirement. If the employee was covered by a retirement system, the retirement contributions are deducted from the unpaid salary earned through the date of death.

5.4.2. Social Security and Medicare Portions of the Federal Insurance Contributions Act (FICA) Tax. If the employee was subject to Social Security/Medicare, deduct for Social Security/Medicare tax from unpaid salary paid in the same calendar year as the employee's death. See Internal Revenue Service [\(IRS\) Publication 15, \(Circular E\)](#). Gross wages paid in the calendar year through the date of death, subject to the statutory limitation, are subject to Social Security/Medicare. Social Security/Medicare taxes must be withheld from wages paid to a beneficiary or to the estate of the deceased employee in the same calendar year that the employee died. If the payment is made after the calendar year of employee's death, wages are exempt from Social Security/Medicare taxes.

5.4.3. Federal Income Tax. A deceased employee's unpaid wages are not subject to federal income tax withholding in either the calendar year in which the employee died or afterward. Federal income tax withholding is not deducted from unpaid salary earned by an employee through the date of death. See IRS Circular E.

5.4.4. State Tax. State, territory, or District of Columbia income tax is not deducted from the unpaid salary and lump-sum leave earned by an employee through the date of death.

5.4.5. Local Tax. Local taxes are not deducted from the unpaid salary and lump-sum leave earned by an employee through the date of death.

5.4.6. FEHB. If a survivor is eligible to continue enrollment, withholding for premiums are made using the daily proration rule according to Chapter 11. If there is no eligible survivor, or the employee self-only enrollment, a full premium deduction is withheld for the pay period during which the employee died.

5.4.7. FEGLI. If the employee was subject to FEGLI, premiums for the periods for which pay is due, must be withheld, including the pay period during which death occurred.

5.4.8. Thrift Savings Plan (TSP). Deductions for TSP contributions and any TSP loans outstanding must be withheld.

5.4.9. Allotments. Allotment deductions for the pay period in which death occurred are not withheld.

5.4.10. Other Deductions. Any other required deductions must be taken, such as for any indebtedness owed by the employee.

5.5 Lump-sum Payment for Accrued Leave

The PRO does not deduct retirement, federal, state, or local income tax, health benefits, or life insurance from the lump-sum payment.

5.6 Tax Reporting

5.6.1. IRS Form W-2, Wage and Tax Statement. Gross amounts of final pay for the pay period of death plus any lump-sum annual leave payments must be reported as Social Security wages (box 3) and Medicare wages (box 5) only if these amounts are paid to the estate or beneficiary in the same year that the death of the employee occurs. The Social Security and Medicare taxes withheld are reported in boxes 4 and 6. These amounts are not included as wages, tips, or other compensation in box 1. The PRO does not report payments made after the year of death on a W-2 and will not withhold Social Security and Medicare taxes.

5.6.2. Miscellaneous Income. The PRO will take the following actions:

5.6.2.1. Prepare an IRS Form 1099-MISC, Miscellaneous Income, for amounts payable to the decedent's estate or to beneficiary(s) whether the PRO makes the payment in the year of death or after the year of death;

5.6.2.2. Report the payment in box 3, "Other income;"

5.6.2.3. Include the gross amounts of final pay for the pay period of death, lump-sum annual leave, and other moneys such as travel reimbursements; and

5.6.2.4. Enter the name and Social Security Number of the individual if the recipient of the payment is an individual beneficiary. Enter the name and federal tax identification number for the estate if the recipient of the payment is the Employee's estate.

5.7 Transfer of Funds

The unpaid compensation is placed in the deposit fund account pending receipt of a claim for the compensation. If after one year, a claim has not been paid out from the deposit fund account, the funds should be transferred according to the Treasury guidelines. Subsequent payment of claims from this account is made by preparing an SF 1154. See Department of Treasury Financial Manual, (TFM), Volume 1, Part 6, Chapter 3000.

5.8 Life Insurance Status for Employee Death Cases Within the Department

When an employee dies, the [SF 2821](#), Agency Certification of Insurance Status, is processed according to the guidance in the FEGLI Program Handbook.

5.9 Death Gratuity Payments for Federal Employees

5.9.1. \$10,000 Death Gratuity. [Title 5 U.S.C. § 8133](#) authorizes agencies to pay a death gratuity payment not-to-exceed \$10,000 to the personal representative of any federal employee who dies from an injury sustained in the performance of duty on or after August 2, 1990. The gratuity is also payable if the employee died after separating from service and the death was a direct result of injuries received in the line of duty on or after August 2, 1990. The following information should be considered when making the \$10,000 death gratuity payment:

5.9.1.1. The gratuity payment, when combined with certain other payments, may not exceed \$10,000. Other payments include the \$200 payable under 5 U.S.C. § 8133(f) for reimbursement of the cost of termination of the decedent's status as an employee of the United States and up to \$800 payable under [5 U.S.C. § 8134\(a\)](#) for funeral and burial expenses. Pursuant to [DCPAS Benefits Reference Guide: Death in Service](#), the death gratuity is payable only if the death claim is approved by the OWCP.

5.9.1.2. The gratuity payment is not considered wages for the purpose of Social Security, Medicare, or federal, state, or local tax withholding. An [IRS Form 1099-R](#), Distributions From Pensions, Annuities, Retirement or Profit-Sharing Plans, IRAs, Insurance Contracts, etc., must be prepared by the Defense Finance and Accounting Service (DFAS) and forwarded to the personal representative.

5.9.2. Death Gratuity Under 5 U.S.C. § 9904. Under the provisions of [5 U.S.C. § 9904](#), DoD civilian employees who are assigned to certain activities outside the United States determined to be hazardous to life or health or that involve specialized security requirements may be eligible for benefits comparable to those provided under [22 U.S.C. § 3973](#) by the Secretary of State to members of the Foreign Services. Pursuant to 22 U.S.C. § 3973, a death gratuity is paid when an employee dies as a result of injuries received in the performance of duties. The amount of the gratuity is equal to Level II of the Executive Schedule under [5 U.S.C. § 5313](#), at the time of an employee's death. This gratuity payment must be made as follows, regardless of other beneficiaries designated to receive any other benefits:

5.9.2.1. First, to the widow or widower, as defined under [5 U.S.C. § 8101\(6\) and \(11\)](#); or

5.9.2.2. Second, to the child, or children as defined under 5 U.S.C. § 8101(9), in equal shares, if there is no widow or widower; or

5.9.2.3. Third, to dependent parent, or dependent parents, defined under 5 U.S.C. § 8101(7), in equal shares, if there is no widow, widower, or child. If there are no survivors as indicated in subparagraph 5.9.2, the death gratuity must not be paid.

5.9.3. Death Gratuity for Service With Armed Forces in a Contingency Operation. Title 5 U.S.C. § 8102(a) provides a death gratuity of up to \$100,000 to the survivors of a federal employee who dies from injuries received in connection with services performed with an Armed Force in a contingency operation. The gratuity is reduced by the amount of any death gratuity payments that have been paid under any other law of the United States based on the same death. See 20 CFR 10.916. The OWCP is responsible for administering and adjudicating all claims under this authority. For additional information, see 20 CFR 10, subpart J. See also DOL Death Gratuity Page.

6.0 EXPERTS AND CONSULTANTS

6.1 General

An agency may make excepted service appointments to hire experts and consultants. Agencies may appoint experts and consultants on a temporary basis (i.e., not-to-exceed 1 year) or an intermittent basis (i.e., without a regularly scheduled tour of duty) under 5 U.S.C. § 3109 and 5 CFR Part 304. Experts and consultants are paid based on the SF 50 data received from the HRO. Experts and consultants appointed under 5 U.S.C. § 3109 are considered to be federal civil service employees under 5 U.S.C. § 2105. See 5 CFR 304.101. Unless expressly provided otherwise, they are covered by laws applicable to federal employees, including pay and leave requirements.

6.2 Setting Pay on Initial Appointment

Determining the appropriate rate of basic pay for experts and consultants, including a decision to pay no salary, is made on an individual case basis. The rate of basic pay may be an hourly or daily rate. Normally, pay is set equal to a GS rate in grades GS-13 through GS-15. Unless specifically authorized by an appropriation or other statute, the highest payable rate is the daily rate for GS-15, step 10, or if paid on a biweekly basis, the biweekly rate for GS-15, step 10 (both excluding locality pay or any other additional pay). See 5 CFR 304.105 for daily and biweekly basic pay limitations.

6.3 Overtime and Premium Pay

6.3.1. Overtime. Experts and consultants paid on a daily rate basis are not normally entitled to overtime pay under 5 U.S.C. § 5542, regardless of the number of hours worked. Nevertheless, the designation of a regular tour of duty in the appointment documents does not necessarily preclude receipt of compensation at the agreed daily rate for work performed outside of that tour of duty. For example, if such an employee works 6 days a week, the 6th day is paid at the straight time rate rather than the overtime rate. Experts and consultants employed on a daily basis may be paid the rate of basic compensation for work on days outside the prescribed tour of duty, provided the compensation within any biweekly pay period does not exceed the rate of basic pay for Level V of the Executive Schedule. Experts and consultants who are nonexempt under the

Fair Labor Standards Act (FLSA) may be entitled to overtime pay. Overtime must be authorized and approved in advance by an appropriate official.

6.3.2. Holiday Pay. Experts and consultants with a regularly scheduled tour of duty (i.e., not intermittent) are entitled to pay for any holiday occurring on a workday on which they perform no work, provided that workday is part of the basic workweek. Those employed on an intermittent basis do not earn leave and are not entitled to paid holidays. See 5 CFR 304.106.

6.4 Salary Increases

Experts and consultants are not automatically entitled to an equivalent pay increase when the GS is adjusted under [5 U.S.C. § 5303](#) unless noted in an appointment document. However, agencies may adjust expert or consultant pay on an ad hoc basis, subject to the limitations of 5 CFR 304.105, with an SF 50 action.

6.5 Exception From Dual Pay Restriction

Generally, an individual is prohibited by statute from receiving basic pay from more than one position for more than an aggregate of 40 hours of work in 1-calendar week. An exception to this restriction is provided for an individual who earns pay for service on an intermittent basis from more than one consultant or expert position, provided the pay is not received for the same hours of the same day. See [5 U.S.C § 5533\(d\)\(1\)](#).

6.6 Annual and Sick Leave

6.6.1. An expert, consultant, or other employee who serves on an intermittent or other basis without a prearranged regular tour of duty does not earn annual and sick leave. See [5 U.S.C. § 6301\(2\)\(B\)\(ii\)](#).

6.6.2. An expert or consultant who serves on a regularly prescribed tour of duty, full-time or part-time, earns annual and sick leave. HRO must determine the regular tour of duty in advance and annotate the appointment document specifically to show whether the employee earns leave. The accrual rate is the same as for other full-time and part-time federal employees as discussed in [5 CFR Part 630](#). See 5 CFR 304.106.

6.7 Retirement

Experts and consultants are appointed on a temporary or an intermittent basis and therefore, they are not covered under the federal retirement systems. See 5 CFR 831.201 and [5 CFR 842.105](#). However, coverage is continued for an employee who is currently covered by a federal retirement system and who is later appointed as an intermittent or temporary (full-time or part-time) expert or consultant without a break in service or after a separation from the service of 3 days or less.

6.8 FEGLI

Experts and consultants are ineligible for FEGLI due to their temporary or intermittent appointment status. However, coverage is continued if an employee currently covered by FEGLI is appointed as an intermittent or temporary appointment (full-time or part-time) expert or consultant without a break in service or after a separation from the service of 3 days or less. To continue life insurance coverage for an intermittent employee, there must be an expectation that the employee will return to the previous position on a full-time basis.

6.9 FEHB

Employees in an expert or consultant position who are expected to work 130 hours per month or more for at least 90 days will be eligible to enroll in an FEHB plan. These eligible employees will receive the same government contribution as full-time permanent employees. See 5 CFR 890.102 and BAL 14-210.

*7.0 LEGALLY INCAPACITATED EMPLOYEES

7.1 General

An SF 50 action showing the employee's separation because of mental [incapacity](#) is initiated by the servicing HRO. The agency may also place the employee on an extended leave of absence by means of an SF 50 action. No payments will be made to the employee once the servicing PRO has been notified that the employee is declared legally [incapacitated](#). A claim must be filed on the employee's behalf before the pay account can be settled. No specific form is required to file a claim for amounts due mentally [incapacitated](#) or former employees. The claim must be filed in writing over the signature of the person claiming on behalf of the legally [incapacitated](#) employee. If the claim is from a claimant other than a guardian or committee, the servicing PRO's Office of General Counsel should be consulted prior to making payment.

7.1.1. Guardian or Committee. The initial claim filed by the guardian or committee of the estate of a legally [incapacitated](#) employee must be accompanied by a certificate of the court showing the appointment and qualification of the claimant as guardian or committee. After making the first payment, subsequent recurring payments may be made to the same payee without further claim as long as the appointment as guardian or committee remains in effect and the matter is otherwise free from doubt. Each subsequent payment voucher must include a citation to the voucher upon which the initial claim was paid.

7.1.2. Other Than Guardian or Committee. If a guardian or committee has not been appointed and will not be appointed, a sworn statement that includes the following information to support the initial claim:

7.1.2.1. The claimant's relationship to the legally [incapacitated](#) employee, if any;

7.1.2.2. The name and address of the person having care and custody of the legally [incapacitated](#) employee;

7.1.2.3. A remark that any amount paid to the claimant must be applied only to the use and benefit of the legally [incapacitated](#) employee; and

7.1.2.4. A remark that no appointment of a guardian or committee is contemplated.

7.2 Claim Action

Upon receipt of a claim, the proposed date of separation is considered to determine whether compensation is due currently or a payroll voucher for final settlement should be processed. To avoid invalid payments when the employee is on extended paid leave, the HRO monitors the case for any changes in the employee's condition and immediately advises the servicing PRO.

7.3 Claims

Claims for unpaid amounts owed to legally [incapacitated](#) employees may be paid once the claim and claimant's entitlement have been verified.

7.3.1. Any unclaimed, undelivered, or uncashed salary checks drawn in favor of the employee must be returned to the disbursing officer for cancellation and credited to the appropriation fund originally charged.

7.3.2. The net amount of any returned check must be posted to the appropriate pay record. Adjustment of the items originally deducted from the gross pay is not required if the proceeds of the check are due the employee. If the proceeds of the check are not due an [SF 1098](#) Schedule of Canceled or Undelivered Checks, to cancel the check and must adjust entries for the deductions from gross pay.

7.3.3. The amount to be paid to the claimant must be computed and must include any further payments due to the employee for each pay period in the regular payroll cycle, such as payments due when the employee is carried on sick leave.

7.4 Doubtful Claims

Doubtful claims are submitted to OPM for certification.

8.0 MISSING PERSONS, CAPTURED OR INTERNED

8.1 General

Civilian personnel who are determined officially to be missing are entitled to continued pay and allotments from their pay under the Missing Persons Act ([5 U.S.C. §§ 5561-5568](#)) and the Terrorism Compensation Act ([5 U.S.C. § 5569](#)). Missing status includes persons:

8.1.1. Missing;

8.1.2. Missing-in-action;

8.1.3. Interned in a foreign country;

8.1.4. Captured, beleaguered, or besieged by a hostile force; or

8.1.5. Detained in a foreign country against the employee's will.

8.2 Pay, Allotments, and Leave Account

An employee in a missing status is entitled to receive or have credited to his or her account, for the period while in that status, the same pay and allowances to which he or she was entitled at the beginning of that period or may become entitled thereafter. The servicing PRO retains responsibility for the employee's pay, leave, and retirement records. See 5 U.S.C. § 5562.

8.2.1. Pay. The employee's pay account is maintained on a pay-period basis. Standard deductions are applied for retirement, FICA, federal and state income tax withholding, FEHB, and FEGLI in the totals for the regular payroll voucher. Upon receipt of an official determination that a civilian employee is in a missing status, any unclaimed or uncashed checks must be returned to the disbursing office.

8.2.2. Allotments. The initiation, continuance, discontinuance, increase, decrease, suspension, or resumption of an allotment from the pay and allowances of an employee in a missing status, is authorized when that action is in the interest of the employee, the dependents, or the United States. See 5 U.S.C. § 5563.

8.2.2.1. Allotments authorized by an employee before the missing status began normally continue for the period of absence.

8.2.2.2. The missing employee's dependents may receive an allotment of the employee's pay. Dependent payments cannot exceed the employee's net pay. The needs of the dependents, the number of dependents and their relationship to the employee, however, should be considered when determining the payment amount. If possible, reserve a reasonable amount each pay period to ensure that the employee will have funds available upon return.

8.2.2.3. The pay and allowances of a missing employee in a captive status may be allotted to an interest bearing savings fund established by the Secretary of the Treasury. See 5 U.S.C. § 5569. Captive status means a missing status, which, as determined by the President, arises, because of a hostile action and is a result of the individual's relationship with the government. All or any portion of the employee's pay and allowances may be allotted to the extent that such pay and allowances are not subject to an allotment under 5 U.S.C. § 5563 as outlined in subparagraph 8.2.3.

8.2.3. Leave. A special leave account should be established to restore any annual leave forfeited by an employee while in a missing status. Notwithstanding any other provision of law, an employee in a missing status on or after January 1, 1965, is entitled to:

8.2.3.1. Payment for annual leave which accrued to his or her account on or after January 1, 1965, but which was forfeited under [5 U.S.C. § 6304](#) because he or she was unable to use that leave by virtue of the missing status; or

8.2.3.2. Have all of that leave restored and credited to a separate leave account in accordance with the provisions of 5 U.S.C. § 6304(d)(2).

8.3 Termination of Absence

Employees should not be separated from federal service while they are entitled to pay and allowances under the Missing Persons Act (5 U.S.C. §§ 5561-5568).

8.3.1. If an employee returns from a missing status, future salaries are paid using normal payroll procedures.

8.3.2. If the employee returns from missing status, a statement of the special leave account balance must be furnished to his or her HRO. The employee must elect, in writing, to receive either a payment or credit for the leave. If the employee requests payment, the payment is made using the employee's rate of pay in effect at the time of the forfeiture of the leave.

8.3.3. If the HRO receives an official notice of the employee's death or presumed death, the servicing PRO will take action as outlined in section 5.0.

8.3.4. If the employee returns from missing status, the agency must charge the pay adjustment or final settlement, including local allotment payments to dependents, to the employee's appropriated fund account.

9.0 AUTHORITY FOR TEMPORARY ASSIGNMENTS

The authority for temporary assignments of employees between executive agencies and State, local, and Indian Tribal governments, institutions of higher education, and other eligible organizations is found in [5 U.S.C. §§ 3371-3376](#) and [5 CFR Part 334](#). An employee's pay and leave provisions will be included in the employee's written assignment agreement as required by 5 CFR 334.106.

10.0 EMPLOYEES TRANSFERRED TO INTERNATIONAL ORGANIZATIONS

10.1 General

An agency may detail or transfer an employee to any organization that the Department of State has designated as an International Organization (IO). See [5 U.S.C. §§ 3581-3584](#) and [5 CFR 352, subpart C](#). A detail or transfer may not exceed 5 years; however, this may be extended 3 additional years upon the approval of the head of the agency. A detail or combination of details and transfers must not exceed 8 years in the aggregate throughout an employee's Federal career. See 5 CFR 352.306. An employee who transfers is entitled to be

reemployed in his or her former position, or one of like status, within 30 days of his or her application for reemployment.

10.2 Deductions

Under [5 U.S.C. § 3582](#), an employee who transfers to an IO may elect to keep coverage for retirement, FEGLI, and FEHB. The agency continues to make the agency contributions to the funds, and the employee's coverage continues as long as the employee's share of the payments remains current. At the time an employing Federal agency consents to the transfer of an employee, the agency must advise the employee in writing of the employee's right to continue retirement, health benefits, and group life insurance coverage, as applicable, for the duration of the assignment or transfer. The notice must explain the conditions for continued coverage and the employee's obligations and responsibilities with regard to continued coverage. The notice must also explain that, if the employee elects to retain coverage, the agency will continue to make the agency contributions to the funds, and the employee's coverage will continue as long as employee payments are currently deposited in the respective funds. See 5 CFR 352.309(a).

10.2.1. Retirement and FEGLI. Contributions must be based on the salary that the employee would have received had he or she remained in the position from which he or she transferred. If these amounts are changed by law, regulation, or a change in basic pay while an employee is serving with an IO, the amounts will be recomputed, and the IO will be notified (if applicable) of the effective date and new amount. For regulations on retirement and FEGLI, refer to 5 CFR 352.309.

10.2.2. FEHB. Deductions are based on the cost of the plan of the employee's choice. If the enrollment cost changes while the employee is serving with an IO, the amount is recomputed based on notification from the HRO.

10.2.3. TSP. An employee who transfers to an IO is not eligible to participate in the TSP while employed by the IO even if he or she elects to retain Federal retirement coverage. However, upon reemployment, an employee who elected to retain Federal retirement coverage while employed by the IO and has made all deposits required for such coverage may make contributions to the TSP which he or she missed as a result of the service with an IO, and receive make-up agency contributions and lost earnings on the agency contributions, as provided under 5 CFR 352.311(e).

10.2.4. FICA. Effective January 1, 1995, [Public Law \(PL\) 103-296, section 319](#), the Social Security Independence and Program Improvements Act of 1994, required that FERS and CSRS Offset employees who transfer to an IO continue their FICA coverage (including the Old-Age, Survivors, and Disability Insurance and Medicare taxes), if both of the following conditions are met:

10.2.4.1. The transferring employee must have been employed at a federal agency and subject to FICA immediately prior to the transfer; and

10.2.4.2. The employee must retain Federal reemployment rights under 5 U.S.C. § 3582.

Note: FICA tax is required for these transferred employees even if they are not continuing CSRS Offset or FERS coverage during the transfer. While employed by an IO, an employee's FICA tax is based on the amount of pay the employee would have received had he or she remained at the transferring agency.

10.3 Payments From Transferred Employees

The agency advises transferred employees to make payments for retirement, FEHB, and FEGLI promptly for each pay period. Payments are current if received within 3 months after the end of the pay period covered by the payment. See 5 CFR 352.309(d). If payments are not timely, coverage terminates on the last day of the pay period for which the required payment was timely, subject to a 31-day extension of FEGLI and FEHB as provided in Chapter 11.

10.4 Accounting for Payments

A DoD [\(DD\) Form 1131](#), Cash Collection Voucher, is used to deposit amounts received from either the individual or the employing organization into a deposit fund established for such purposes. An [SF 1080](#), Voucher for Transfers Between Appropriations and/or Funds, or [SF 1081](#), Voucher and Schedule of Withdrawals and Credits, is used to transfer the employer's contribution, if required, from the appropriation which would have been charged for the employee's pay to the proper deposit fund account. Total amounts (employee payments and government contributions) are included on the [SF 2812-A](#), Report of Withholdings and Contributions for Health Benefits by Enrollment Code, submissions to OPM through the Retirement and Insurance Transfer System (RITS). RITS calculates and tracks obligation due dates and payment timeliness.

10.5 Leave Account

Employees who are transferred to an IO may elect to receive payment for accumulated annual leave or have it remain to their credit until they return to federal employment. Employees also may request payment at any time before reemployment. Upon reemployment, sick and annual leave will be recredited to the employee when applicable. If the employee is paid the balance of his or her leave and is reemployed within 6 months after transfer, he or she must refund to the agency the amount of the lump-sum payment. See 5 U.S.C. § 3582(a)(4) and Chapter 3.

10.6 Pay Upon Reemployment

Agencies are required to provide an employee who is reemployed after transfer to an IO with the rate of basic pay to which the employee would have been entitled had the employee remained in the civil service. See [PL 105-277, section 2504](#) and 5 U.S.C. § 3582(b).

10.7 Retirement

An employee who transfers from a position covered by CSRS, CSRS Offset, or FERS to a public IO may continue retirement coverage for up to 5 years of such service or up to 8 years if authorized by the Secretary of State. See [*CSRS and FERS Handbook, Chapter 12*](#), § 12A3.1-4.

11.0 TEMPORARY AND TERM EMPLOYMENT

11.1 General

11.1.1. Temporary and term appointments are used to fill positions when there is not a continuing need for the job to be filled. Employees occupying either category of appointment are not entitled to competitive status nor reinstatement eligibility, based on this type of service. Within the DoD, temporary and term appointments may be permitted to last longer than the time restrictions of [*5 CFR Part 316*](#) and may also allow such employees consideration for permanent employment.

11.1.2. For further information regarding subparagraph 11.1.1, see the following memorandums:

11.1.2.1. Deputy Secretary of Defense Memorandum, [*“Noncompetitive Temporary and Term Appointments to Meet Critical Hiring Needs”*](#) in the Department of Defense,” dated July 14, 2017;

11.1.2.2. Office of the Under Secretary of Defense (Personnel & Readiness) (OUSD (P&R)) Memorandum, [*“Modification of Temporary and Term Appointments”*](#) Within the Department of Defense,” dated June 12, 2017;

11.1.2.3. OUSD (P&R) Memorandum “Modification of Temporary and Term Appointments Within the Department of Defense,” dated June 12, 2017 as modified by Deputy Secretary of Defense Memorandum, [*“Extensions of Term Appointments”*](#) in the Competitive Service in the DoD,” dated August 10, 2018; and

11.1.2.4. OUSD (P&R) Memorandum, “Modification of Direct-Hire Authority for the Department of Defense for [*Post-Secondary Students and Recent Graduates*](#),” dated January 15, 2019.

11.2 Temporary Employment

11.2.1. Appointments. Pursuant to DoD policy, a component may make a temporary appointment to:

11.2.1.1. Noncompetitively fill a short-term position based on a critical hiring need that is not expected to last more than 1 year. A critical hiring need means the need to fill the position(s) to meet mission requirements brought about by circumstances such as, but not limited to, extraordinary workload or unusual or unanticipated event(s) or circumstances creating the need

to fill the position(s). Such appointment may be extended up to 6 additional months but may not exceed a total of 18 months and does not convey noncompetitive conversion to any other appointment. See Deputy Secretary of Defense Memorandum, “Noncompetitive Temporary and Term Appointments to Meet Critical Hiring Needs in the Department of Defense,” dated July 14, 2017; and

11.2.1.2. Temporarily fill a position for less than 1 year and may extend such appointment in increments of up to 1, not-to-exceed a total of 3 years. See the OUSD (P&R) Memorandum “Modification of Temporary and Term Appointments Within the Department of Defense,” dated June 12, 2017 as modified by Deputy Secretary of Defense Memorandum “Extensions of Term Appointments in the Competitive Service in the DoD,” dated August 10, 2018 and [5 CFR 316.401](#).

11.2.2. Benefits. Temporary employees are eligible to earn annual and sick leave and are covered by Social Security and unemployment compensation, but do not receive the other benefits provided to career civil service employees. Employees in a temporary position who are expected to work 130 hours or more per month for at least 90 days are eligible to enroll in an FEHB plan. These eligible employees will receive the same government contribution as full-time permanent employees. See 5 CFR 890.102 and BAL 14-210. Temporary employees are generally ineligible for coverage under FEGLI or FERS.

11.3 Term Employment

11.3.1. Appointments. Pursuant to DoD policy, a component may make a term appointment to:

11.3.1.1. Noncompetitively fill a short-term position based on a critical hiring need that is expected to last more than 1 year. Critical hiring need means the need to fill the position(s) to meet mission requirements brought about by circumstances such as, but not limited to, extraordinary workload or unusual or unanticipated event(s) or circumstances creating the need to fill the position(s). Such appointment may not exceed a total of 18 months and does not convey noncompetitive conversion to any other appointment. See Deputy Secretary of Defense Memorandum, “Noncompetitive Temporary and Term Appointments to Meet Critical Hiring Needs in the Department of Defense,” dated July 14, 2017;

11.3.1.2. Fill a position initially for more than 1 year, but not more than 6 years. Components may extend term appointments beyond 6 years and up to 8 years in increments of up to 1 year according to policy. Under certain conditions as prescribed in policy, an employee in a term position may be noncompetitively converted to a career or career-conditional appointment. See the OUSD (P&R) Memorandum “Modification of Temporary and Term Appointments Within the Department of Defense,” dated June 12, 2017 as modified by Deputy Secretary of Defense Memorandum “Extensions of Term Appointments in the Competitive Service in the DoD,” dated August 10, 2018; and

11.3.1.3. Pursuant to the direct-hire authority, initially appoint a current post-secondary student for a period expected to last more than 1 year and not-to-exceed the time

limits stated in section 5 CFR 316.301, to include any future legislative and/or regulatory modification to those time limits. Within 120 days of successful completion of their academic program, the student may be noncompetitively converted into a career or career-conditional appointment. See the OUSD (P&R) Memorandum the “Modification of Direct-Hire Authority for the Department of Defense for Post-Secondary Students and Recent Graduates,” dated January 15, 2019.

11.3.2. Benefits. Term employees are eligible to earn annual leave and sick leave. Term employees are also eligible for coverage under FERS, FEHB, and FEGLI. Term employees can work full or part-time work schedules and are eligible for promotions and within-grade increases upon satisfying the required waiting period.

12.0 EMPLOYEES WHOSE WHEREABOUTS ARE UNKNOWN

In the event an employee’s whereabouts are unknown and payment cannot be made to the employee, refer to Volume 5, Chapter 7 for guidance.

13.0 AIR TRAFFIC CONTROLLERS (ATC)

13.1 General

ATCs are employees in an ATC facility (i.e., tower, ground-controlled approach, and approach control), actively engaged in the separation and control of air traffic or in providing preflight, in-flight, or airport advisory service to aircraft operations, or the immediate supervisor of any such employee. See [DoDI 1400.25-V331](#).

13.2 Overtime

All overtime work scheduled in advance of the administrative workweek on a day containing part of an ATC’s basic 40-hour workweek must be compensated under [5 CFR 550.111](#).

13.3 Premium Pay

Differential pay is authorized for certain DoD employees. The Secretary of Defense has authorized five percent ATC premium pay under 5 U.S.C. § 5546a(a)(1). The payment of the premium is mandatory for DoD ATCs who are in the GS-2152 occupational series and occupy a position no lower than GS-9 at air traffic control centers, terminal or flight service stations. The HRO provides this information to the servicing PRO via an SF 50.

13.4 Leave

Leave accruals are based on guidelines published in 5 CFR Part 630.

13.5 Mandatory Separation

Generally, under 5 U.S.C. § 8335(a) for CSRS employees and 5 U.S.C. § 8425(a) for FERS employees, an ATC who is otherwise eligible for immediate retirement must be separated from the federal service on the last day of the month in which the employee becomes 56 years of age. However, if the ATC has been granted a waiver of the mandatory separation age based on exceptional skills and experience, an ATC may delay separation until the day he or she becomes age 61. Additionally, an ATC who has received a waiver of the maximum entry age under [5 U.S.C. § 3307\(b\)](#) may delay separation until the last day of the month he or she completes 20 years of service.

13.6 Retirement

ATCs have unique retirement deduction percentages for CSRS and FERS coverage. OPM publishes the rates in the [CSRS and FERS Handbook, Chapter 30](#).

14.0 PERSONNEL ON LONG-TERM, FULL-TIME TRAINING

14.1 General

Long-term, full-time training is defined as a training period of 120 consecutive workdays or more. See [5 U.S.C., Chapter 41](#) and [5 CFR Part 410](#). Employees on long-term, full-time training are authorized payment of salary.

14.2 Leave

If salary payments continue during the training period, annual and sick leave regulations apply. Leave is reported via the time and attendance reporting mechanism and is administered as specified for the following leave types:

14.2.1. Annual Leave. Personnel on long-term, full-time training will continue to accrue annual leave. Ordinarily, an employee will be charged with annual leave during school vacation periods that fall on government workdays unless he or she returns to the work site or has made documented arrangements with his or her DoD point of contact to be actively involved in academic work. These documented arrangements should be accomplished well in advance of the vacation periods. Annual leave charges are reported on the employee's time and attendance report. See [OPM Training and Development Policy](#).

14.2.2. Sick Leave. Personnel on long-term, full-time training continue to accrue sick leave. The agency should charge sick leave on the time and attendance report when the employee is unable to attend classes due to illness.

15.0 EMERGENCY MEDICAL TECHNICIAN (EMT)

15.1 General

This section applies to EMTs or paramedics who are not classified as firefighters.

15.2 Tour of Duty

EMTs and paramedics work various schedules including the basic 40-hour workweek, compressed work schedules, and uncommon tours of duty. An uncommon tour of duty means an established tour of duty that exceeds 80 hours of work in a biweekly pay period. See 5 CFR 630.201. Schedules and changes to tours of duty for an EMT or paramedic working uncommon tours must be on file in the employing activity/timekeeper site. Sleep and meal time also must be documented. The EMT's hourly rate is multiplied by 40 hours, and the base pay and premium pay is based on this weekly rate regardless of the hours in the scheduled tour of duty for that week.

15.3 Overtime Computation

15.3.1. Standby Duty Pay

15.3.1.1. FLSA-nonexempt EMTs and paramedics are compensated for regularly scheduled overtime hours in excess of 40 hours in a week by the payment of annual premium pay for standby duty plus .5 times the employee's hourly regular rate for all overtime hours worked. If an EMT performs an additional 24-hour shift during a pay period, and the shift is scheduled in advance of the workweek, standby duty pay covers all regularly scheduled overtime hours, but the employee is entitled to .5 times the employee's hourly regular rate for all overtime hours worked. Sleep and meal periods during regularly scheduled tours of duty are hours of work for EMTs who receive annual premium pay for regularly scheduled standby duty. EMTs and paramedics are compensated for irregular or occasional hours of work in excess of 40 hours in a week by payment of the straight-time rate of pay for all irregular or occasional overtime hours of work plus .5 times the employee's hourly regular rate of pay times the overtime hours. When an employee works an additional 24-hour shift, which is irregular or occasional overtime work, the two-thirds rule will apply. Up to 8 hours of sleep and meal time (a shift of 24 hours or more) are excluded from irregular overtime hours providing all regulatory conditions under [5 CFR 551.432](#) are met.

15.3.1.2. FLSA-exempt EMTs and paramedics are compensated for regularly scheduled overtime hours in excess of 40 hours in a week by the payment of annual premium pay for standby duty. If an EMT performs an additional 24-hour shift during a pay period and the shift is scheduled in advance of the workweek, standby duty pay covers all regularly scheduled overtime hours. When an employee works an additional 24-hour shift that is irregular or occasional overtime work, overtime is paid in accordance with [5 CFR 550.113](#) or [5 CFR 550.114](#). The two-thirds rule will apply providing all regulatory conditions under [5 CFR 550.112\(m\)](#) are met.

15.3.1.3. On-duty sleep and meal periods during regularly scheduled hours for which standby duty premium pay under 5 U.S.C. § 5545(c)(1) are payable may not be excluded from hours of work. See [5 CFR 551.432\(e\)](#).

15.3.2. Compressed Work Schedule. The customary FLSA standard of compensating an employee with overtime pay for all hours of work in excess of 8 hours in a day and 40 hours in a week does not apply to an employee covered by a compressed work schedule under [5 U.S.C. § 6128](#). For example, an EMT with a 12-hour day in their schedule will not be entitled to FLSA overtime until they work over the 12-hour schedule for the day.

15.4 Charging Leave

One hour (or an appropriate fraction thereof) of leave must be charged for each hour (or an appropriate fraction thereof) of absence from the uncommon tour of duty. For additional guidance on leave accruals for EMTs refer to [DoDI 1400.25-V630](#), Leave, and 5 CFR 630.210. When an employee takes 24 hours of leave, 8 hours of sleep and meal time for that employee are deducted from actual hours of work under FLSA. Sleep and meal time for days of partial leave must be documented on the time and attendance report so that actual hours of work are shown. Sleep and meal time scheduled during leave periods must be added to total sleep and meal time so that total hours of actual work and total hours of sleep and meal time will be shown. Employees with uncommon tours of duty, established under 5 CFR 630.201 and 5 CFR 630.210, may be charged leave for regularly scheduled overtime hours outside the 40-hour basic workweek. Thus, such employees may receive applicable premium pay and FLSA overtime pay during hours of paid leave.

15.5 Accruing Leave

Employees on uncommon tours of duty accrue and use leave on the basis of that uncommon tour. Accrual rates for such employees are directly proportional to the standard leave accrual rates for employees on an 80-hour biweekly tour of duty. See 5 CFR 630.210(a). The number of hours in the uncommon tour is multiplied by the accrual rate divided by 80 ((uncommon tour of duty hours) x (accrual rate/80) = uncommon accrual rate). See the table in DoDI 1400.25-V630. Employees on uncommon tours of duty repeating a cycle of more than 1 biweekly pay period (e.g., a 3 biweekly pay period cycle) accrue leave based on the average hours in the biweekly tour. For example, an emergency medical technician on a tour of duty of 96 hours for 1 biweekly pay period and 120 hours for each of the following 2 biweekly pay periods works an average tour of 112 hours per pay period, and accrues leave based on a 112-hour tour of duty.

15.6 Premium Pay

The HRO determines the amount of the premium pay for the irregular tour of duty and reports it on the SF 50. An EMT employed as an intermittent employee is not entitled to premium pay on an annual basis, nor is he or she entitled to paid leave. An EMT is paid under regular overtime rules. Refer to [5 CFR Part 551](#) for additional guidance on pay administration for EMTs under FLSA.

16.0 FIREFIGHTERS

16.1 General

Firefighter pay is governed under 5 U.S.C. § 5542(f), 5 U.S.C. § 5545(b), and [5 CFR 550, subpart M](#). A firefighter is an employee classified in the GS-0081, Fire Protection and Prevention Series, which includes line firefighters, supervisory firefighters, and fire inspectors whose regular tour of duty averages at least 106 hours per biweekly pay period. Newly hired firefighters going through initial basic training with a 40-hour basic workweek are covered by the GS classification and pay system and classified in the GS-0099 General Student Trainee Series (as required by [5 CFR 213.3202\(b\)](#)). Uniform allowances may be authorized for firefighters, refer to Chapter 3.

16.2 Regular Tour of Duty

The term “regular tour of duty” means a firefighter’s official work schedule as established by the employing agency on a regular recurring basis. The regular tour of duty may consist of a fixed number of hours each week or a fixed recurring cycle of work schedules in which the number of hours per week varies in a repeating pattern. The regular tour of duty includes only those overtime hours that are part of the fixed recurring work schedule. However, irregular hours are deemed included in a firefighter’s regular tour of duty if those hours are substituted for hours in the regular tour of duty for which LWOP is taken, as provided in 5 CFR 550.1303(d). There are generally two types of official work schedules for firefighters.

16.2.1. 24-Hour Shift Firefighters. Most commonly, firefighters work a 72-hour workweek consisting of three 24-hour shifts. These shifts include periods of actual work and substantial periods of time during which firefighters are in a standby status. In standby status, firefighters are free to eat, sleep, and engage in personal activities, but are confined to the worksite and remain in a state of readiness to perform actual work as required.

16.2.2. 40-Hour Plus Firefighters. Other firefighters (most commonly supervisors) have a regular 40-hour workweek consisting of five 8-hour days in addition to regularly scheduled standby duty (e.g., an extra 16-hour standby shift).

16.3 Uncommon Tour of Duty

An agency must establish an uncommon tour of duty for each firefighter compensated under 5 CFR 550, subpart M, for the purpose of leave use and accrual. The uncommon tour of duty must correspond directly to the firefighter’s regular tour of duty so that each firefighter accrues and uses leave based on that tour. See 5 CFR 630.210.

16.4 Hourly Rate of Basic Pay

The firefighter's regular tour of duty is used in determining the appropriate pay computation method. Firefighters are paid on an hourly rate basis. A firefighter's daily, weekly, or biweekly rate of basic pay must be computed using the applicable hourly rates derived under 5 CFR 550.1303(a) and (b). Premium pay caps apply to the additional nonovertime pay received by firefighters with schedules exceeding the basic 40-hour workweek. Nonovertime pay is considered as basic pay and is not subject to reduction, but is included in the aggregate pay when determining the overtime pay cap. See 5 CFR 550.1305 and [5 CFR 550.107](#).

16.4.1. 24-Hour Shift Firefighters. For firefighters with a regular tour of duty that does not include a basic 40-hour workweek (firefighters whose schedules generally consist of 24-hour shifts with a significant amount of designated standby and sleep time), the hourly rate of basic pay is computed by dividing the applicable annual rate of basic pay by 2,756 hours.

16.4.2. Basic 40-Hour-Plus Firefighters. For firefighters with a regular tour of duty that includes a basic 40-hour workweek plus additional nonovertime hours, the hourly rate of basic pay is computed by dividing the applicable annual rate of basic pay by:

16.4.2.1. 2,087 hours, for hours within the basic 40-hour workweek (or an 80-hour biweekly pay period); and

16.4.2.2. 2,756 hours, for any additional nonovertime hours.

16.4.3. Training. Firefighters are entitled to pay for their regular tour of duty during training. A firefighter should receive basic pay and overtime pay for the firefighter's regular tour of duty in any week in which attendance at agency-sanctioned training reduces the hours in the firefighter's regular tour of duty. This guidance does not pertain to student trainee employees in the GS-0099 series. A firefighter is not prohibited from receiving a higher amount of pay if he or she is entitled to that higher amount based on hours of actual work. See 5 CFR 410.402(b)(6).

16.5 Meal and Sleep Time

For firefighters compensated under 5 U.S.C. § 5545(b), meal time and on-duty sleep time may not be excluded from hours of work.

16.6 Overtime Computation

Under 5 U.S.C. § 5542, for firefighters compensated under 5 CFR 550, subpart M, overtime work means officially ordered or approved work in excess of 106 hours in a biweekly pay period, or in excess of 53 hours in an administrative workweek if the agency establishes a weekly basis for overtime pay computations. See 5 CFR 550.111(g). Overtime pay is considered part of continuation of pay for firefighters. Overtime hourly rates of pay are calculated as follows:

16.6.1. FLSA-exempt (FLSA noncovered). For a firefighter who is exempt from FLSA, the overtime hourly rate is computed as provided in 5 CFR 550.113(e). Generally, the overtime hourly rate is capped at 1-1/2 times the GS-10 minimum rate, but the rate may not fall below the firefighter's own hourly rate of basic pay.

16.6.2. FLSA-nonexempt (FLSA covered). For a firefighter who is covered by nonexempt from the overtime provisions of FLSA, the overtime hourly rate of pay equals 1-1/2 times the firefighter hourly rate of basic pay for that particular firefighter as established under 5 CFR 550.1303(a) or 5 CFR 550.1303(b)(2).

16.7 Premium Pay

Except for overtime pay in accordance with paragraph 16.6, a firefighter is barred from being paid any other premium pay including night pay, Sunday premium pay, holiday pay, and hazardous duty pay. Premium pay for overtime in the firefighter's regular tour of duty covered by 5 U.S.C. § 5545(b) is subject to a biweekly limitation rather than an annual limitation. See 5 CFR 550.107.

16.8 Leave Accrual

The leave accrual rates for firefighters are established based on an uncommon tour of duty. See paragraph 16.3. Leave accrual for firefighters is directly proportional based on the number of hours in the biweekly tour of duty and the accrual rate of the corresponding leave category to the standard leave accrual rates for employees who accrue and use leave on the basis of an 80-hour biweekly tour of duty. One hour or an appropriate fraction thereof of leave is charged for each hour or appropriate fraction thereof of absence from the uncommon tour of duty. See 5 CFR 630.210(c).

16.9 Mandatory Separation

A firefighter, who is otherwise eligible for immediate retirement under [5 U.S.C. § 8336\(c\)](#) (CSRS) and [5 U.S.C. § 8412\(d\)](#) (FERS), must be separated from the federal service on the last day of the month in which the employee becomes 57 years of age unless he or she has not yet completed 20 years of service. In that case, the employee must be separated on the last day of the month in which he or she completes 20 years of service. See 5 U.S.C. § 8335(b) and 5 U.S.C. § 8425(b).

16.10 Retirement

Firefighters have a unique retirement deduction percentage for CSRS and FERS employees. These rates are published by OPM in the CSRS and FERS Handbook, Chapter 30. Percentages of basic pay for withholding and contributions for FERS employees are described in [5 U.S.C. § 8422\(a\)\(2\)\(B\)](#) and [5 U.S.C. § 8423\(a\)\(1\)\(B\)](#). Percentages of basic pay for withholdings and contributions for CSRS employees are described in [5 U.S.C. § 8334\(a\)](#). Additionally, a firefighter's special retirement coverage provides for an enhanced annuity formula and reduced age/service requirements as follows:

16.10.1. CSRS Coverage. Under 5 U.S.C. § 8336(c) once an employee reaches 50 years of age and completes 20 years of service as a firefighter or LEO, or any combination of such service totaling at least 20 years, they are entitled to a special annuity computation as provided under [5 U.S.C. § 8339\(d\)](#).

16.10.2. FERS Coverage. Under 5 U.S.C. § 8412(d), an employee is entitled to a special annuity computation as provided under [5 U.S.C. § 8415\(d\)](#) after:

16.10.2.1. Completing 25 years of service as an LEO or a firefighter, or any combination of such service totaling at least 25 years; or

16.10.2.2. Reaching the age of 50 and completing 20 years of service as an LEO or firefighter, or any combination of such service totaling at least 20 years.

17.0 JUDGES

17.1 Administrative Law Judges (ALJs)

17.1.1. Authority. Under [5 U.S.C. § 3105](#), the Department may appoint ALJs for proceedings conducted in accordance with administrative procedures under [5 U.S.C. §§ 556-557](#). These employees may not perform duties inconsistent with their duties and responsibilities as administrative law judges.

17.1.2. Pay for ALJs. There are three levels of basic pay for ALJs (designated as AL-1, AL-2, and AL-3, respectively), and each ALJ is paid at one of the levels as established under [5 U.S.C. § 5372](#). The ALJ positions are (lowest to highest): AL-3, Rate A; AL-3, Rate B; AL-3, Rate C; AL-3, Rate D; AL-3, Rate E; AL-3, Rate F; AL-2; and AL-1. The minimum rate for an ALJ (AL-3, Rate A) is set at 65 percent of Level IV of the Executive Schedule. The maximum rate for an ALJ (AL-1) is set at 100 percent of Level IV of the Executive Schedule.

17.2 Judges of the U.S. Court of Appeals for the Armed Forces

The U.S. Court of Appeals for the Armed Forces (formerly the U.S. Court of Military Appeals) is established under [10 U.S.C. §§ 941-946](#). See [DoDI 1400.25-V805](#), Special Retirement and Survivor Benefits for Judges of the U.S. Court of Appeals for the Armed Forces. The President, with the advice and consent of the U.S. Senate, appoints the judges for a term of 15 years. The court, consisting of five judges, is located within the DoD for administrative purposes. Washington Headquarters Services (WHS) is the employing office for the judges. For pay purposes, the judges are civilian employees as defined in [5 CFR Part 213](#). The judges are entitled to the same salaries and travel allowances provided to the judges of the U.S. Courts of Appeals (GS Salary Table, Schedule 7, for Judicial Salaries). The maximum annual salary is that of Level I of the Executive Schedule.

17.2.1. Entitlements. Judges are entitled only to regular base pay. Judges are excluded from the leave provisions of 5 U.S.C. § 6301(2). As federal judges under [5 U.S.C. § 5541\(2\)\(i\)](#), they also are excluded from the provisions of premium pay under [5 U.S.C. § 55, subchapter V](#).

17.2.2. Deductions

17.2.2.1. Judges under CSRS are required to contribute eight percent of basic pay for retirement. Judges under FERS have the same deduction rate as other FERS employees. See the CSRS and FERS Handbook, Chapter 30.

17.2.2.2. The FEGLI for the judges is based on Level II of the Executive Schedule.

17.2.2.3. Judges are subject to the Social Security tax wage base limit as published yearly by the IRS. There is no wage base limit for Medicare tax, and all covered wages are subject to Medicare tax.

17.2.3. Special Retirement and Survivor Benefits for Judges of the U.S. Court of Appeals for the Armed Forces. Upon becoming eligible for retirement, judges may elect to receive a retirement annuity from the DoD Military Retirement Fund (MRF) in-lieu-of an annuity under CSRS or FERS. See [10 U.S.C. § 945](#). Survivor and former spouse annuities may also be elected. The DFAS Indianapolis site serves as the PRO for retiree and survivor entitlements. DFAS must perform functions such as:

17.2.3.1. Maintaining individual retirement records of individuals who elect annuity benefits under 10 U.S.C. § 945;

17.2.3.2. Issuing annuity payments from moneys in the DoD MRF, including the collection of applicable federal and state income taxes, and collections of debts owed the U.S. Government;

17.2.3.3. Arranging with OPM for transfer of moneys, including interest payments authorized under 10 U.S.C. § 945(a)(3)(A), from the Civil Service Retirement and Disability Fund (CSRDF) to the DoD MRF;

17.2.3.4. Withholding, as appropriate, contributions from the annuity for payment of FEHB, FEGLI, making correct agency contributions, and transmitting these moneys to the CSRDF;

17.2.3.5. Readjusting the annuity payment when events change the retiree or survivor entitlements;

17.2.3.6. Accounting for retirement moneys received from OPM and disbursing to benefit recipients, insurance carriers, and federal and state tax entities; and

17.2.3.7. Ceasing annuity payment if the employee elects judiciary retirement benefits under 10 U.S.C. § 945(g).

17.2.4. Notifications. Judges in receipt of an annuity under 10 U.S.C. § 945 are responsible for notifying WHS of their election of judicial retirement benefits under 10 U.S.C. § 945(g).

17.2.5. Dual Compensation. [PL 114-328](#), December 23, 2016, (2017 National Defense Authorization Act (NDAA)) removed the dual compensation prohibition for retired judges. As of December 27, 2016, a retired judge who returns to federal service in a position other than that of a senior judge, may receive both their retirement annuity and any pay he or she earns as a federal employee.

17.2.6. Senior Judges of the U.S. Court of Appeals for the Armed Forces. Under [10 U.S.C. § 942\(e\)](#), a retired judge who formerly served on the Court of Appeals for the Armed Forces may be called upon to perform judicial duties for the court as a senior judge. When performing duties, a senior judge is considered an employee or official of the government. Senior judges receive their full retirement annuity. Senior judges are also paid an additional amount equal to the difference between the sitting judge's pay and the senior judge's annuity pay for each day judicial duties are performed. The additional amount is calculated using the difference between the daily equivalent of the annual rate of pay for a sitting judge and the daily equivalent of the retired judge's annuity. See 10 U.S.C. § 942(e)(2) and PL 114-328 (2017 NDAA). A senior judge may also continue to receive his or her retired and annuity pay if the senior judge performs non-judicial duties for the court and receives no pay other than per diem and travel expenses. See the U.S. Court of Appeals for the Armed Forces Rules of Practice and Procedure.

18.0 AUXILIARY CHAPLAINS AND WEST POINT MILITARY ACADEMY CHAPLAINS

18.1 Auxiliary Chaplains

Civilian clergy may be assigned to perform essential religious services of the chapel program that are beyond the staffing capabilities of the commissioned officer Armed Forces chaplains. Auxiliary chaplains normally perform their services on military installations. To serve as auxiliary chaplains, civilian clergy must be ordained or accredited by a faith group recognized by the [Armed Forces Chaplains Board](#). They must meet any additional qualifications required by the Armed Forces.

18.2 Appointing and Paying Auxiliary Chaplains

18.2.1. Auxiliary chaplains may be appointed by the HRO on an intermittent basis. They are paid on a fee basis from the employing activity's appropriated funds for civilian personnel such as Operation and Maintenance funds. The HRO may appoint auxiliary chaplains under the excepted service authority in 5 CFR 213.3101.

18.2.2. Work Schedules. Auxiliary chaplains employed on an intermittent basis have no work schedule. They are paid for religious services performed.

18.2.3. Absence and Leave. There is no entitlement for leave.

18.2.4. Entitlements. The pay scale for auxiliary chaplains is determined by the employing activity's HRO. Social Security, Medicare, federal and state income tax withholdings are made in accordance with the tax documents filed by the chaplain. Social Security, Medicare, federal and state income tax withholdings do not apply to chaplains under non-personal service contracts.

18.3 West Point Military Academy Chaplain

Under [10 U.S.C. § 7437](#), the President may appoint a chaplain to serve at the United States Military Academy at West Point. The civilian chaplain is entitled to a monthly housing allowance, in the same amount as the basic allowance for housing (BAH) allowed to a lieutenant colonel and to fuel and light for quarters. However, because utility costs are already factored into the BAH rate, no separate allowance for fuel and light should be paid. The chaplain's salary is taxable and is subject to the withholding of income, Social Security, and Medicare taxes. The BAH is not subject to the withholding of income taxes under [26 U.S.C. § 107](#) which excludes from a minister's gross income the value of rental allowances he or she receives for a home. However, Social Security and Medicare taxes must be withheld from the BAH.

19.0 SERVICE SECRETARIES

19.1 General

Effective the pay period beginning November 30, 2003, [5 U.S.C. § 5504](#) was amended to allow the Cabinet Secretaries (e.g., the Secretary of Defense) and the Secretaries of the Military Departments to be paid on a biweekly basis.

19.2 Time and Attendance

Time and attendance is not reported for Service Secretaries. Accrual or usage of annual and sick leave is not authorized. Military Department Secretaries are not eligible for premium pay.

20.0 ADDITIONAL PAY FOR CERTAIN HEALTHCARE PROFESSIONALS

20.1 General

OPM has delegated to DoD the discretionary use of certain Title 38 provisions that are primarily available to the Department of Veterans Affairs (VA). If DoD uses one of these authorities in the delegation agreement, the comparable authority in Title 5 is waived. However, DoD does not use all of the Title 38 authorities it has been delegated. The following Title 38 provisions as provided in [5 U.S.C. § 5371](#) have been delegated:

20.1.1. Special Salary Rate Authority ([38 U.S.C. § 7455\(a\)\(2\)\(A\)](#)) and (B), (b), (c), and (d));

20.1.2. Baylor Plan and Alternate Work Schedules ([38 U.S.C. § 7456](#) and 7456(A));

20.1.3. Premium Pay ([38 U.S.C. § 7454](#) and 38 U.S.C. § 7456(a) and (b));

20.1.4. Authority to Establish Qualifications ([38 U.S.C. § 7402\(a\)](#), (b), (d), and (f));

20.1.5. Qualification-based Grading System ([38 U.S.C. § 7403\(a\)](#), (b)(4), (c), (e), and (f)(1));

20.1.6. Head Nurse Pay and Nurse Executive Special Pay ([38 U.S.C. § 7452\(a\)\(2\)](#) and (g));

20.1.7. Hours of Employment ([38 U.S.C. § 7421\(a\)](#));

20.1.8. Pay for Physicians and Dentists ([38 U.S.C. § 7431\(a\)](#), (b), (c), (d)(1)-(5), (e)(2)-(4), (f) and (h); [38 U.S.C. § 7432](#) and [38 U.S.C. § 7433\(a\)](#));

20.1.9. Nurse Locality Pay System ([38 U.S.C. § 7451\(a\)](#), (b), (c), (d), (e), and (f)); and

20.1.10. Special Incentive Pay for Pharmacist Executives ([38 U.S.C. § 7410\(b\)](#)).

20.2 Premium Pay

The authority to compensate certain DoD healthcare professionals with additional pay is used to recruit and retain qualified employees in specific medical fields. For additional guidance, see [DoDI 1400.25-V540](#), Pay Pursuant to Title 38—Additional Pay for Certain Healthcare Professionals.

20.3 Baylor Plan Nurses

Baylor Plan nurses work at DoD Health facilities and are hired to work a Baylor workweek consisting of two regularly scheduled 12-hour tours of duty. The tours are worked entirely between the last day and the first day of the administrative workweek (Friday midnight to Sunday midnight) authorized under 38 U.S.C. § 7456. The Baylor workweek is considered to be a full 40-hour workweek for pay and leave accrual purposes. For additional guidance on Baylor Plan nurses see [DoDI 1400.25-V541](#), Pay Pursuant to Title 38—Special Rules for Nurses Pursuant to the Baylor Plan.

20.4 On-Call Employees

Health care professionals are eligible to receive on-call pay when assigned to a work unit that has been officially designated as requiring employees to be on-call. On-call pay is a premium paid to certain professionals for working under circumstances or conditions authorized by [38 U.S.C. § 7457](#). The employee must be officially scheduled to be on-call outside of his or her regular duty hours. An employee, who is excused from regular duty on a holiday, or in-lieu-of holiday, may be scheduled to be on-call and receive on-call pay.

20.5 Physicians and Dentists Pay Plan (PDPP)

20.5.1. General. The [DoDI 1400.25-V543](#), Pay Plan for DoD Civilian Physicians and Dentists Covered by the General Schedule, establishes policy and provides guidance to establish the PDPPs for eligible DoD civilian physicians and dentists who:

20.5.1.1. Work full-time or part-time with tours of at least 20 hours per pay period at grade GS-15 equivalent or below, and

20.5.1.2. Provide direct patient care and services.

20.5.2. Pay. Every 2 years, the VA publishes the minimum and maximum amounts of annual pay for the PDPP in the Federal Register. Under the PDPP, a physician or dentist's annual pay is the sum of base pay plus market pay. Base pay is the GS rate for the physician or dentist before any deductions and without additional pay of any kind. Market pay reflects the recruitment and retention needs for the specialty or assignment of a particular physician or dentist. Annual pay is basic pay for all purposes, including the computation of retirement benefits, lump-sum annual leave payments, life insurance, TSP, and other benefits. See 38 U.S.C. § 7431(f).

20.5.3. Pay Limitation. Title 38 U.S.C. § 7431(e) provides that in no instance should the total amount of compensation paid in any year to a physician or dentist under Title 38 exceed the salary of the President of the United States as in effect on the last day of that calendar year. Section 7431 does not allow pay over the cap to be deferred and paid the next calendar year. Payments that exceed the salary of the President may not be made at any time. For further information and a discussion of limitations on market pay, see DoDI 1400.25-V543 and Chapter 3.

21.0 LEOs

21.1 General

LEOs as defined by [5 U.S.C. § 8331\(20\)](#), are employees whose primary responsibility is the investigation, apprehension, or detention of individuals suspected or convicted of offenses against the United States.

21.2 Premium Pay

The majority of LEOs are covered by the standard premium pay provisions established in 5 U.S.C., Chapter 55, subchapter V (including provisions that reflect overtime pay entitlements under FLSA for covered nonexempt employees). Premium pay with specific implications for LEOs includes:

21.2.1. Availability Pay. LEOs, as defined by 5 U.S.C. § 8331(20) and 5 CFR 550.103, are authorized to receive premium pay in the form of availability pay in accordance with 5 U.S.C. § 5545a and 5 CFR 550.185. Availability pay was established to compensate the employee for unscheduled duty in excess of a 40-hour workweek based on the needs of the employing agency. An exception under 5 CFR 550.181(b) allows any Office of Inspector General employing less than five investigators to elect not to cover their employees under the provisions of 5 U.S.C. § 5545(a). Availability pay recipients are not covered by FLSA. Availability pay is subject to a biweekly limitation under 5 CFR 550.107. Under 5 CFR 550.186, LEOs receiving availability pay are not entitled to other types of premium pay based on unscheduled duty hours;

21.2.2. Annual Premium Pay for Standby Duty. The rate of annual premium pay for standby duty is determined by the HRO and sent via SF 50 to the servicing PRO. (See Chapter 4, Table 4-1 for a list of deductions withheld). Standby duty pay is generally not used for federal law enforcement employees however, for more information concerning standby duty pay, refer to Chapter 3. Standby duty pay under 5 CFR 550.141 may not be paid to an LEO, who is receiving availability pay. See 5 CFR 550.163;

21.2.3. Overtime Computation. Overtime work scheduled in advance of the administrative workweek on a day containing part of a criminal investigator's basic 40-hour workweek must be compensated under 5 CFR 550.111; and

21.2.4. Administratively Uncontrollable Overtime (AUO). Information concerning AUO for LEOs is located in Chapter 3 and on OPM Fact Sheet: Guidance on Applying FLSA Overtime Provisions to [Law Enforcement Employees Receiving AUO Pay](#).

21.3 Leave Accrual

Leave accrual guidance for LEOs is based on the guidelines published in 5 CFR Part 630.

21.4 Mandatory Separation

LEOs eligible for immediate retirement must separate from the federal service on the last day of the month in which the employee becomes 57 years of age unless he or she has not yet completed 20 years of service. In that case, the employee separates on the last day of the month in which he or she completes 20 years of service. See 5 U.S.C. §§ 8335(b), 8425(b), 8336(c), and 8412(d).

21.5 Retirement

LEOs have a unique retirement deduction percentage rate for CSRS and FERS employees, which are published by OPM in the CSRS and FERS Handbook, Chapter 30.

22.0 MILITARY SEALIFT COMMAND (MSC)

The pay of officers and members of crews of vessels must be fixed and adjusted from time-to-time as nearly as is consistent with the public interest in accordance with prevailing rates and practices in the maritime industry. See [5 U.S.C. § 5348](#). Hours of work and premium pay policy for MSC civil service mariners are covered by Department of the Navy Civilian Marine Personnel Instruction 610, Hours of Work and Premium Pay, which has been approved by the Department of the Navy's Office of Civilian Human Resources. Base wage and premium pay scales for MSC civil service mariners are approved by the DoD Wage Setting Authority, in coordination with OPM.

23.0 DE FACTO EMPLOYEES

23.1 General

A de facto employee is an individual who, in good faith, renders services to the government but who was never properly appointed or never actually appointed as an employee. There are four common de facto employment situations:

23.1.1. When an individual performed services, but was not recorded as an employee in the pay system because either the record was not yet established or the individual began working prior to their official starting date,

23.1.2. When a current employee received pay for an erroneous promotion,

23.1.3. When an employee performed services after their official separation date or after the end date of their service appointment, or

23.1.4. When an individual was hired and performed services under an erroneous appointment, but is not expected to receive a legal appointment.

23.2 Payment of De Facto Employees

23.2.1. General. Under the principles of quantum meruit (i.e., the actual value of services performed) an individual whose appointment is found to be improper or erroneous is entitled to receive compensation earned, service credit for purposes of accrual of annual leave, and lump-sum payment for unused leave upon separation, unless:

23.2.1.1. The appointment was made in violation of an absolute statutory prohibition, or

23.2.1.2. The employee was guilty of fraud in regard to the appointment or deliberately misrepresented or falsified a material matter. See Comptroller General (Comp. Gen.) decisions [58 Comp. Gen. 734, B-191977](#), August 17, 1979 and [61 Comp. Gen. 127, B-197400](#), December 10, 1981.

23.2.2. De Facto Determination and Payment Processing. Payment of de facto employees for services rendered to the government will depend on the facts of each individual's situation. The employing agency must make a determination identifying the employee as a de facto employee who acted in good faith and must convey that determination to DFAS. The employing agency must submit a payroll processing request to initiate the payment of a de facto employee. A de facto determination from the agency will invalidate any debt that may have been established for wages paid.

23.2.3. De Facto Guidance. The payment of de facto employees has been addressed in the following Comptroller General opinions:

23.2.3.1. Individual Serving Before Appointment. Individuals serving in a de facto status before officially appointed should be compensated for the reasonable value of their services performed during that period. Payment is established at the rate of basic compensation set for the positions to which they are ultimately appointed. See [Comp. Gen. B-191397](#), September 6, 1978 and [Comp. Gen. B-189741](#), April 4, 1978;

23.2.3.2. Individual Never Appointed. The reasonable value of the services of an individual who was never in fact appointed to the position which the individual purportedly filled, should be established at the rate of basic compensation for the position that was ultimately advertised and filled. See [Comp. Gen. B-193605](#), January 8, 1979;

23.2.3.3. Premium Pay. The rule that a de facto employee is entitled to the reasonable value of his or her services does not limit the employee to receipt of basic compensation only. The reasonable value of his services includes premium pay, including holiday pay. See [Comp. Gen. B-188574](#), December 29, 1977;

23.2.3.4. Termination and Reemployment. In the event an individual is terminated from employment after the appointment was found to be erroneous and is then reemployed after a break in service, the individual is entitled to compensation earned, lump-sum payment for accrued annual leave, service credit for annual leave accrual purposes, and recredit of accrued sick leave. If OPM denies service credit for the period of the improper appointment, the employee would be entitled to a refund of the retirement deductions made from his or her salary during the period of the erroneous appointment, less any necessary Social Security deductions. See [Comp. Gen. B-197400](#), December 10, 1981;

23.2.3.5. Dual Compensation Prohibition. De facto status may not be applied to nullify the effect of a statutory provision that prohibits dual compensation. See [Comp. Gen. B-157983](#), December 13, 1965; and

23.2.3.6. Erroneous Promotions. A current employee who receives an erroneous promotion may be regarded as a de facto employee. For example, an employee is regarded as a de facto employee if the employee is promoted but it is later determined the employee did not meet the general requirements of the higher position. The employee is entitled to retain the compensation received for the services performed in good faith as a de facto employee during the period of the erroneous promotion unless there is a statutory bar prohibiting such payment. See [Comp. Gen. B-221745](#), April 28, 1986.

23.2.4. Tax Reporting. Pay to a de facto employee should be reported as if the individual had been a correctly appointed employee during the de facto period. De facto status has no impact on how pay is reported. Any pay that includes wages should be reported on a W-2 form for the year in which payment is made.

23.2.4.1. Example: An employee was erroneously promoted and performed duties and received pay associated with the erroneous promotion in 2013. The error was not discovered until 2014. The payments for the de facto employment were reported as taxable income on the

2013 W-2. There should be no adjustment to the 2013 W-2 even though the error was discovered in 2014.

23.2.4.2. Example: An employee was erroneously promoted and performed duties and received pay associated with the erroneous promotion in 2013. The error was discovered in 2013 and the full amount paid was collected as a debt from the employee in 2013. A de facto determination was submitted in 2014, which authorized the employee to be paid for the services performed as a de facto employee. The wages for the de facto period were repaid to the employee in 2014. The wages for the de facto period are reported in the year actually paid, or 2014.

23.2.5. FEHB and FEGLI Deductions

23.2.5.1. FEHB. Under the Affordable Care Act, health insurers may not cancel coverage retroactively if premiums have already been paid, even when an employer has erroneously allowed an ineligible employee to enroll in FEHB. Premiums should not be refunded to the de facto employee.

23.2.5.2. FEGLI. If the error is discovered before 2 years have passed, incontestability does not apply, and the erroneous coverage is not valid. Any erroneous coverage should be voided and the premiums should be refunded. See FEGLI Program Handbook and Chapter 11.

23.2.6. TSP. The regulations at [5 CFR 1605.12](#) set out procedures for removing erroneous contributions received by TSP from employees and employers.

23.2.7. Retirement Credit. The question of whether a de facto employee is entitled to service credit for retirement purposes should be referred to OPM. If OPM denies service credit for the period the de facto employee worked, the de facto employee is entitled to a refund of retirement contributions made during the de facto period, less any Social Security deductions. See 61 Comp. Gen. 127 (1981).

23.3 Variations

OPM assists Federal agencies with correcting errors made during the competitive hiring process. Variations are used to correct errors made in the competitive hiring process when no other remedy exists within the regulation. See OPM Guidance, Hiring Authorities and [5 CFR 5.1](#).

24.0 HIGHLY QUALIFIED EXPERTS (HQEs) AND HIGHLY QUALIFIED EXPERTS-SENIOR MENTORS (HQEs-SMs)

24.1 General

Employees appointed as an HQE must possess an uncommon level of expertise and recognition. Such expertise, with the exception of HQE-SMs, is generally not available within the federal workforce at the time of need, nor is it typically gained within the civil service or uniformed services. HQE-SMs, by nature, have the expertise and experience required to fulfill their intended roles, having been recruited from former or retired civil service or uniformed service personnel. See [5 U.S.C. § 9903](#) and [DoDI 1400.25-V922](#), [DoD Civilian Personnel Management System: Employment of HQEs](#).

24.2 Appointments

Employees hired as HQEs will be given “Excepted Not-to-Exceed” appointments (up to 5 years) under an Experts Other pay plan. The HQE or HQE-SM must sign a written service agreement.

24.3 Pay

Compensation for an HQE or HQE-SM should reflect the salary paid in the labor market for comparable positions, taking into account such factors as applicant’s skills, professional and educational accomplishments, and the complexity of the work the applicant is asked to perform. See DoDI 1400.25-V922 for other relevant factors. Basic pay for an HQE or HQE-SM typically will be within the range from GS-15, step 1 (or equivalent) up to the statutory limit of Level IV of the Executive Schedule. In addition to basic pay, HQEs and HQE-SMs may receive locality-based comparability payments applicable to the geographic location of their position of record as prescribed by [5 U.S.C. § 5304](#). When added to the rate of basic pay, locality-based comparability payments may not exceed Level III of the Executive Schedule as described in 5 U.S.C. § 5304(g)(2)(C). See DoDI 1400.25-V922 for additional pay information.

24.4 Performance Awards

HQEs and HQE-SMs are not eligible to receive performance awards.

24.5 Leave

HQEs and HQE-SMs are subject to the annual leave accrual provisions of 5 U.S.C. § 6304(a), which sets the maximum number of annual leave hours carried forward from one leave year to another at 240 hours. Full-time HQEs and HQE-SMs accrue 8 hours of annual leave per pay period and at a prorated rate for other eligible part-time employees.

*25.0 RESEARCH POSITIONS IN THE SCIENTIFIC AND TECHNOLOGY REINVENTION LABORATORIES (STRL)

The 2023 NDAA ([PL 117-263](#)) authorizes the Secretary of Defense to carry out a program to fix the rate of basic pay not to exceed 150 percent of the Level 1 of the Executive Schedule for certain research and technology positions in the STRL of the DoD. These positions are term and temporary appointments not-to-exceed 5 years. See [10 USC § 4094](#) and [87 FR 40200](#).

CHAPTER 11

ALLOTMENTS AND VOLUNTARY DEDUCTIONS

1.0 GENERAL

1.1 Overview

Allotments and voluntary payroll deductions are made from an employee's gross pay. Both allotments and voluntary deductions are executed at the employee's request and require written authorization from the employee prior to withholding the deduction. Authorized deductions may be made through automated computer programs, such as myPay, using a personal identification code. See Chapter 4 for information on mandatory deductions.

1.2 Purpose

The purpose of this chapter is to provide guidance on mandatory, discretionary, and voluntary deductions as they may be applied to an employee's gross pay.

1.3 Authoritative Guidance

The pay policies and requirements established by the DoD in this chapter are derived primarily from, and prepared in accordance with, the United States Code (U.S.C.), including Titles 5, 10, 31, and 38. Due to the subject matter in the chapter, the list of authoritative sources is extensive. The specific statutes, regulations, and other applicable guidance that govern each section are listed in a reference section at the end of this chapter.

2.0 ALLOTMENTS

2.1 Overview

An allotment is a recurring deduction from an employee's pay that is authorized by the employee. An allotment is paid to a specific person or institution as directed by the employee. An agency must permit an employee to make certain mandatory allotments as discussed in paragraph 2.2. Additionally, an agency may permit an employee to make additional discretionary allotments that have been deemed appropriate by the agency. For additional information, see [5 U.S.C. § 5525](#), Title 5, Code of Federal Regulations, Part 550, subpart C, ([5 CFR 550, subpart C](#)), and paragraph 2.3. For information concerning the order of precedence for processing both mandatory and voluntary deductions and allotments, see Chapter 4.

2.1.1. Allotment Processing. An allotment must be requested in writing by the employee. The request may be made electronically or by regular mail. The allotment request must identify the authority under which the allotment is permitted, the specified amount to be deducted, the period of time over which the deduction is to be made, and the name and address of the person or institution to whom the allotment is payable.

2.1.2. General Limitations on Allotments. Any allotment is subject to the following limitations:

2.1.2.1. The employee must designate the amount of the allotment and the person or institution to whom the allotment is made payable;

2.1.2.2. The total amount of allotments may not exceed the pay due to the employee for a particular pay period;

2.1.2.3. The employee must personally authorize a change or cancellation of an allotment,

2.1.2.4. The agency has no liability in connection with any authorized allotment disbursed by the agency in accordance with the employee's request; and

2.1.2.5. Any disputes regarding any authorized allotment are a matter between the employee and the allottee.

2.1.3. Allotments Not Authorized. The following allotments are not authorized:

2.1.3.1. Collection of debts to private creditors and nongovernmental agencies;

2.1.3.2. Contributions to charities, except as authorized in subparagraphs 2.2.3 and 2.3.2;

2.1.3.3. Payment of insurance premiums, except as authorized in subparagraph 2.2.7; and

2.1.3.4. Payment of dues to civic, fraternal or other organizations, except as authorized in subparagraphs 2.2.1, 2.2.2, and 2.3.2.

2.2 Mandatory Allotments

Mandatory allotments are those allotments an agency must permit an employee to make as authorized under [5 CFR 550.311\(a\)](#).

2.2.1. Allotments for Labor Organization (Union) Dues. An allotment for dues payable to a labor organization is authorized under [5 U.S.C. § 7115](#). Any eligible employee has the right to make a voluntary allotment for the payment of dues to labor organizations. Employees must submit a Standard Form [\(SF\) 1187](#), Request for Payroll Deductions for Labor Organization Dues, to request and authorize the allotment of pay. The allotment is effective the first pay period beginning after receipt of the properly executed SF 1187.

2.2.1.1. Deductions for Dues. Unless the negotiated collective bargaining agreement states otherwise, the amount of the dues deduction indicated on the SF 1187 will remain the same until the appropriate official in the labor organization certifies the dues amount has changed. When

an employee is in a nonpay status for an entire pay period, the Payroll Office (PRO) will not deduct a missed allotment for that pay period from future earnings. The PRO will not take a partial deduction if an employee is in a nonpay status for part of a pay period and the employee's earnings are not sufficient to cover the full deduction. An employee's biweekly deductions for labor organization dues should be calculated as follows:

2.2.1.1.1. If the amount stated on the SF 1187 refers to a total annual deduction for a 12-month period, then divide the total annual deduction by 26 to determine the biweekly deduction.

2.2.1.1.2. If the amount stated on the SF 1187 refers to a monthly deduction, then multiply the monthly deduction by 12 to determine the total annual deduction. Divide the total annual deduction by 26 to determine the biweekly deduction.

2.2.1.2. Cancellation of Dues Allotment by Employee. An employee may submit a request to cancel the allotment for payment of labor organization dues at any time.

2.2.1.2.1. Written Cancellation Required. An employee may file an [SF 1188](#), Cancellation of Payroll Deductions for Labor Organization Dues, to cancel an allotment. However, any written request signed by the employee for the cancellation of an allotment that contains sufficient information may be acceptable. Unless the collective bargaining agreement states otherwise, the employing activity is responsible for furnishing the SF 1188 to employees upon request.

2.2.1.2.2. Effective Date. Under 5 U.S.C. § 7115(a), an employee may cancel a union dues allotment at yearly intervals (or as negotiated in a collective bargaining agreement as long as the intervals are consistent with section 5 U.S.C. § 7115(a)). An employee may not be prevented from cancelling a dues allotment for a period of greater than one year.

2.2.1.3. Automatic Termination of Allotment. An allotment for payment of labor organization dues is automatically terminated pursuant to 5 U.S.C. § 7115(b) when any of the following events occurs:

2.2.1.3.1. The collective bargaining agreement between the agency and the labor organization ceases to be applicable to the employee. For example:

2.2.1.3.1.1. When an employee is no longer a member of the bargaining unit due to separation from the employing activity, the termination of the allotment will be effective with the employee's final pay from the activity;

2.2.1.3.1.2. When an employee is no longer eligible to be a member of the bargaining unit due to a promotion or reassignment to a supervisory position, the termination of dues will be effective at the beginning of the first pay period after the employee loses eligibility to be a member; or

2.2.1.3.1.3. When the labor organization loses eligibility for exclusive recognition, the termination of the allotment will be effective at the beginning of the first pay period after notification is received concerning the loss of recognition.

2.2.1.3.2. The employee is suspended or expelled from membership in the labor organization. Termination of dues will be effective the first pay period after the Defense Finance and Accounting Service (DFAS) receives the written notification from the labor organization indicating that an employee was suspended or expelled from membership.

2.2.1.4. Erroneous Deduction of Dues After Automatic Termination of Allotment. The agency must automatically terminate an allotment for labor organization dues when the employee ceases to be a member of the bargaining unit. There is no additional requirement for the employee to submit a cancellation form or to take any other action to terminate the allotment. If the agency does not terminate the allotment for labor organization dues in a timely manner, the PRO must refund any erroneously deducted labor organization dues, without interest, to the employee. The agency has a claim against the labor organization for the overpayment amount.

2.2.2. Allotments for Association of Management Officials and/or Supervisors Dues. An allotment for dues payable to an association of management officials and/or supervisors is authorized under [5 CFR 550.331](#). An employee is eligible to make a voluntary allotment for the payment of dues if the employee is a supervisor or management official and is a member of the association. The agency and the association of management officials and/or supervisors must maintain a written agreement allowing for the deduction of allotments for the payment of dues.

2.2.3. Allotments for Charitable Contributions. An agency must permit an employee to make an allotment for charitable contributions through the Combined Federal Campaign (CFC) under [5 CFR 550.341](#). For additional information, see DoD Instruction ([DoDI 5035.01](#) and [DoDI 5035.05](#)). The CFC is a charitable fundraising program established and administered by the Office of Personnel Management (OPM) and is the only authorized solicitation for charitable contributions from employees in the Federal workplace. OPM designates a Local Federal Coordinating Committee (LFCC) to conduct the CFC in a particular community. For additional information, see [5 CFR Part 950](#), [Executive Order 12353](#), and [Executive Order 12404](#).

2.2.3.1. Geographic Boundaries of the Local Campaign. An employee may participate in a particular CFC only if that employee's official duty station is located within the geographic boundaries of that CFC. The Director, OPM may grant permission for solicitations of Federal employees, outside the CFC, in support of victims in cases of emergencies and disasters. Any special solicitations will be managed through a Disaster Relief Program developed by OPM. See [5 CFR 950.102\(a\)\(2\)](#) and [79 Federal Register 21581](#).

2.2.3.2. Ways to Donate. An agency must conduct a campaign during the period determined by the LFCC, which will not begin before September 1 and will not extend beyond January 15. New employees may make pledges within 30 days of entry on duty, if outside of the campaign period. See 5 CFR 950.102 and [5 CFR 950.601](#). Employees can start allotments to CFC by either:

2.2.3.2.1. CFC Pledge Form. The CFC Pledge Form, in conformance with 5 CFR 950.402, is the only form an employee may use to authorize a CFC payroll allotment. Agencies will make the form available to employees electronically, along with other campaign materials, including the official charity list, when the charitable contributions are solicited. The electronic pledge is completed by the employee and transmitted to the employee's servicing PRO in real time via the centralized pledge system in order to establish a CFC payroll allotment. Employees may also submit a paper pledge form. Paper pledge forms may be given to the campaign manager or mailed directly to: CFC Processing Center, P.O. Box 7820, Madison, WI 53707-7820. The CFC Processing Center will input the pledge into the centralized pledge system which then will be transmitted to the employee's servicing PRO; or

2.2.3.2.2. CFC Mobile Application. The mobile application allows employees to have the same options for giving to start, stop, or change their CFC allotments as they would by using the CFC Pledge Form or using an electronic online form. Employees can search and donate to charities using payroll information. See the [CFC Giving Mobile Application](#).

2.2.3.3. CFC Allotments Are Voluntary. A CFC allotment is voluntary and based on the employee's authorization. See [5 CFR 950.701\(c\)](#).

* 2.2.3.4. 1-Year CFC Allotment Term. A CFC allotment will be in effect for 1 full year, e.g., 26, 24, or 12 pay periods, depending on the employee's pay schedule. The term begins with the first pay period after January 15 and ends with the last pay period that includes January 15 of the following year. See 5 CFR 950.701(d).

2.2.3.5. Central Campaign Administrator (CCA). OPM has established that a CCA will administer the CFC donor pledging system. Any pledges made must be pledged through the centralized administrator. See [OPM Memorandum, 2017 Combined Federal Campaign](#), dated August 3, 2017, and [5 CFR 950.106](#).

2.2.3.6. CFC Allotment Amount. Employees specify an allotment amount to be deducted each pay period during the year. Allotments will not be less than \$1 per biweekly pay period. There is no restriction on the size of the increment above the minimum amount. The amount of the allotment may not be adjusted during the 1-year term. See 5 CFR 950.701(e).

2.2.3.7. Discontinuance of CFC Allotments. Allotments discontinue automatically after the expiration of the 1-year term, or upon the death, retirement, or separation of the employee from Federal service. CFC payroll deductions may be cancelled at any time via the centralized pledge system, but this is the only change permitted outside the official solicitation period. If a pledge is cancelled during the official solicitation period, a new pledge cannot be submitted. See 5 CFR 950.701(f).

2.2.3.8. Transfer of CFC Allotment Authorization. If an employee transfers during the 1-year term of the allotment, the allotment authorization must be transferred to the new PRO. See 5 CFR 950.701(g).

2.2.4. Allotments for Income Tax Withholding. An employee may make an allotment for income tax withholding when the employee has a legal obligation to pay, but the agency has no legal obligation to withhold taxes. The allotment for payment of taxes authorized by [5 CFR 550.351](#) applies to State, District of Columbia, and local income or employment taxes.

2.2.5. Allotments for Personal Accounts at Financial Organizations. An employee may authorize two or more allotments for a personal account(s) at a financial organization. The allotment deductions must be a fixed amount for each biweekly pay period and will continue until canceled by the employee.

2.2.5.1. Initiation. To initiate an allotment to a personal account at a financial organization, an employee submits an [SF 1199A](#), Direct Deposit Sign-Up Form, and a Financial Management Service ([FMS](#)) [2231](#), Fast Start Direct Deposit Form. Employees may also initiate an allotment to a financial organization through an automated computer program that allows employees to process allotments using a personal identification code. To initiate the allotment, the employee must provide a routing transit number, the employee's account number, account type, and the biweekly amount.

2.2.5.2. Changes. To change the amount of the allotment or the financial organization or account, the employee must submit a new SF 1199A and an FMS 2231. The employee may also make a change through an available automated computer program.

2.2.5.3. Cancellations. An employee may cancel an allotment to a financial organization at any time by submitting the appropriate form to the Customer Service Representative (CSR) for processing. The employee may also cancel the allotment through an available automated computer program.

2.2.5.4. Deductions

2.2.5.4.1. If the salary is sufficient to cover the deduction, the PRO will deduct the full allotment amount each pay period even if an employee is in a pay status for only part of a pay period. No deductions will be made if the salary amount is insufficient to cover the full allotment deduction.

2.2.5.4.2. Retroactive deductions will not be made for a period during which the employee's net pay was insufficient to cover the allotment. The PRO will not make adjustments during future pay periods for amounts it failed to deduct during a current pay period.

2.2.6. Child Support and/or Alimony Payments. Employees are permitted to make an allotment for child support and/or alimony when he or she voluntarily elects to do so as authorized by [5 CFR 550.361](#). This provision for a voluntary allotment does not apply to garnishment orders issued to enforce child support or alimony obligations.

2.2.7. Flexible Benefits Plan Allotments. The PRO permits eligible employees to make an allotment as part of a flexible benefits plan established by OPM. The Federal Flexible Benefits Plan

(FedFlex) is OPM's cafeteria plan that offers pretax benefits to employees in accordance with Internal Revenue Service (IRS) regulations. The FedFlex offers the following options.

2.2.7.1. [Premium Conversion](#). Premium conversion for medical, dental, and vision plans allows employees to pay premiums using pretax dollars. See subparagraph 3.2.8.

2.2.7.2. [Flexible Spending Accounts \(FSAs\)](#). FedFlex offers employees the opportunity to participate in the Federal Flexible Spending Accounts Program (FSAFEDS). See section 5.0.

2.2.7.3. [Health Savings Accounts \(HSAs\)](#). Eligible employees enrolled in a high deductible health plan (HDHP) may establish an HSA with an HSA trustee or custodian and may request allotments to fund the HSA. An HSA is funded with pretax monies and may be used to cover current and future qualified medical expenses. The allotment continues until the employee revokes or modifies the allotment election. An employee may modify an HSA allotment at any time in order to effect a prospective change. Any balance remaining in an HSA at the end of a plan year automatically carries forward in the account and no HSA account is subject to forfeiture. Employees are responsible for ensuring their enrollment and contributions are in accordance with IRS rules and within annual limits. Payroll providers are not responsible for verifying employee eligibility or checking to ensure employee contributions are within annual limits.

2.3 Discretionary Allotments

In addition to the mandatory allotments that an agency is required to accept from employees, an agency may also permit employees to authorize discretionary allotments made at the employee's request for any legal purpose deemed appropriate by the head of the agency (or designee). The authority to accept discretionary allotments does not constitute independent authority by an agency to permit pretax allotments in addition to those authorized by OPM under subparagraph 2.2.8. See 5 CFR 550.311(b).

2.3.1. [Purchase of Savings Bonds](#). The U.S. Department of Treasury ([Treasury](#)) has discontinued the issuance of paper savings bonds through federal agency payroll savings plans. Savings bonds may be purchased in the following manner:

2.3.1.1. An employee must open a [TreasuryDirect](#) account. As instructed by the TreasuryDirect payroll savings plan, the employee must submit a request to the civilian PRO for a payroll deduction in the form of an allotment. The employee's request must include the TreasuryDirect account and the amount to be deducted biweekly.

2.3.1.2. Savings bonds purchased in TreasuryDirect post to the employee's account one business day after the scheduled purchase date.

2.3.2. [Foreign Affairs Agency Organizations](#). An employee may elect to make an allotment to pay dues to a foreign affairs agency organization in accordance with [5 CFR 550.371](#).

2.3.2.1. The employee is allowed to revoke the authorization at least every six months; and

2.3.2.2. The allotment terminates when the dues withholding agreement between a foreign affairs agency and the organization is terminated or ceases to be applicable to the employee.

2.3.3. Military Welfare Societies (MWSs). An employee may elect to contribute voluntarily to the MWSs as an authorized charitable campaign. The MWSs include Army Emergency Relief Society, Navy-Marine Relief Society, and the Air Force Aid Society. With the exception of CFC (see subparagraph 2.2.3), MWSs are prohibited from soliciting Federal civilian employees.

3.0 FEDERAL EMPLOYEES HEALTH BENEFITS (FEHB)

3.1 General

The FEHB Program was originally authorized in 1960 and is governed under [5 U.S.C., Chapter 89](#) and [5 CFR Part 890](#). FEHB is an employer-sponsored group health insurance program for eligible Federal civilian employees, retirees, former employees, family members, and former spouses. In January 2016, the Self Plus One enrollment type became available. See Benefits Administration Letter [\(BAL\) 15-210](#). Employees are eligible to enroll themselves and eligible family members in a health plan offered by FEHB. An employee's participation in the program is voluntary. OPM sets the amount that the government contributes toward an employee's health plan cost, and the employee is responsible for paying the remaining balance of the premium cost through salary withholding. OPM designates a three-digit enrollment code to identify health plans. The first two digits identify the plan and the third digit identifies the option (high or standard) and the type of enrollment (self only, self and family, or self plus one). For more information, visit [FEHB Facts](#).

3.1.1. Authorized FEHB Forms

3.1.1.1. The [SF 2809](#), Health Benefits Election Form, must be completed by the employee in order to:

3.1.1.1.1. Switch designated eligible family member;

3.1.1.1.2. Enroll or re-enroll in the FEHB Program;

3.1.1.1.3. Elect not to enroll in the FEHB Program;

3.1.1.1.4. Change FEHB enrollment;

3.1.1.1.5. Cancel FEHB enrollment; or

3.1.1.1.6. Suspend FEHB enrollment (only annuitants or former spouses).

3.1.1.2. The [SF 2810](#), Notice of Change in Health Benefits Enrollment, must be completed by the employee for the purpose of:

3.1.1.2.1. Termination;

3.1.1.2.2. Transfer in;

3.1.1.2.3. Reinstatement; or

3.1.1.2.4. Change in name of an enrollee.

3.1.2. Effective Dates. Except for open season, or unless otherwise provided, most enrollments and changes to enrollments are effective the first day of the pay period after the employing office receives the SF 2809 enrollment or SF 2810 change request. An employee must be in a pay status at least part of the pay period preceding the effective date of enrollment or change request. If an employee was not in a pay status during the pay period preceding the request, the enrollment or change becomes effective on the first day of the pay period after the employee returns to pay status. Open season begins the Monday of the second full workweek in November and ends the Monday of the second full workweek in December. OPM sets the effective date for enrollments and changes made during the annual open season.

3.2 FEHB Premium Contributions and Withholdings

Information concerning government employer contributions (government contribution) and employee withholdings for FEHB premiums can be found in 5 CFR 890, subpart E. See the [FEHB Handbook](#). Premium contributions and withholdings begin the first pay period that the enrollment is effective. The PRO forwards the contributions and withholdings to OPM using the Retirement and Insurance Transfer System (RITS) on the same date payroll is paid.

3.2.1. Government Premium Contributions. The government's contribution must be paid every biweekly pay period during which an employee's enrollment continues, whether the employee is in a pay or nonpay status. The government contribution for eligible employees is paid out of agency appropriations or other funds available for payment of salaries.

3.2.2. Full-Time Employee Premium Withholding. Unless otherwise provided, full-time employees are responsible for paying their share of the premium for every pay period that enrollment continues. The PRO deducts the withholding amount each pay period from the employee's pay. The amount is determined by the rate applicable to the plan, option, and coverage selected by each employee. The plan brochure describes the benefits, biweekly deduction, and other major features of each participating plan. If the withholding is insufficient, the employee incurs a debt to the United States in the amount of the proper withholding required for each pay period. Employees must check their Leave and Earnings Statements (LES) to verify the premium withholding is correct and must report discrepancies to their employing office immediately.

3.2.3. Part-Time Employees Premium Withholding and Contributions. Part-time employees, as defined in [5 U.S.C. § 3402](#), may elect coverage under FEHB and must pay the employee share of the FEHB premium. The agency pays the employer contribution in whole or in part depending on the following, as determined by the Human Resources Office (HRO).

3.2.3.1. A part-time career employee hired after April 8, 1979, who works 16 to 32 hours a week (or 32 to 64 hours biweekly) is entitled to a partial government contribution toward the FEHB premium that is in proportion to the number of hours scheduled to work in a pay period. The partial contribution is determined as follows:

3.2.3.1.1. The pro-rated share of the government's contribution is determined by dividing the number of scheduled hours the part-time employee works as indicated on the [SF 50](#), Notification of Personnel Action, by the number of hours worked by a full-time employee serving in the same or comparable position (normally 80 hours per biweekly pay period).

3.2.3.1.2. The resulting percentage is applied to the government contribution made for full-time employees enrolled in that plan.

3.2.3.1.3. The amount of the government contribution is deducted from the total premium (government contribution plus employee share), and the remaining amount is withheld from the employee's pay. See [5 U.S.C. § 8906\(b\)\(3\)](#) and refer to the FEHB Handbook.

3.2.3.2. Employees who served on a part-time basis before April 8, 1979, and who have continued to serve on a part-time basis without a break in service, are eligible for the full government contribution.

3.2.4. Temporary Employee Premium Withholdings and Contributions.

3.2.4.1. Effective November 17, 2014, employees on temporary appointments, employees on seasonal schedules who will be working a schedule of less than six months per year, and intermittent employees who are expected to work 130 hours per month or more for at least 90 days will be eligible to enroll in an FEHB plan. These newly eligible employees will receive the same government contribution as full-time permanent employees. See [BAL 14-210](#). Temporary employees who had worked for 12 consecutive months, were already eligible to enroll in the FEHB Program, and who were expected to work for 130 hours per month for at least 90 days also became eligible to receive the same government contribution as full-time permanent employees.

3.2.4.2. The Federal Employees Health Benefits Amendments Act of 1988 provides FEHB coverage for certain temporary employees excluded from coverage under subparagraph 3.2.4.1. To be eligible for coverage, a temporary employee must have completed 1 year of current continuous employment, excluding any break in service of 5 days or less. See 5 U.S.C. § 8906a(a). The employee must pay both the employee and the government share of the FEHB premium.

3.2.5. Withholding and Contributions Under Certain Conditions

3.2.5.1. Withholding From Lump-Sum Leave (LSL) Payment. The PRO will not deduct the regular biweekly withholding for FEHB premiums from an employee's LSL payment. However, the PRO may collect from the LSL payment any previously established debt that is the result of an employee's underpayment or failure to pay premiums.

3.2.5.2. Withholdings and Contributions Upon Transfer. An employee's health plan enrollment and coverage continue without change when the employee transfers from one PRO to another without a break in service of more than 3 days. Each PRO is responsible for FEHB premium withholdings and contributions during the time the employee was in a position serviced by the PRO. The PRO will prorate the withholdings and contributions using the Daily Proration Rule if the employee transfers to a different PRO at any time other than the first day of the pay period. See subparagraph 3.2.7.

3.2.5.3. Withholding and Contributions Upon Retirement. If an employee retires and is eligible to continue enrollment in a health plan as an annuitant, the PRO's responsibility for FEHB premium withholdings and contributions is based on the date the annuity starts. If the annuity starts after the end of the employee's final pay period, the PRO makes withholdings and contributions for the entire final pay period. If the annuity starts before the end of the employee's final pay period, the PRO makes withholdings and contributions through the day before the starting date of the annuity using the Daily Proration Rule discussed in subparagraph 3.2.7. OPM will make withholdings beginning with the effective date of the annuity.

3.2.5.4. Withholding and Contributions Upon Death. If an employee dies and there is no survivor annuity, or if the employee maintained self only enrollment, the PRO must make full FEHB premium withholdings and contributions for the pay period in which the employee dies. If a survivor annuitant is eligible to continue enrollment, the PRO will prorate the calculation using the Daily Proration Rule and the employee's date of death.

3.2.5.5. Withholding and Contributions Upon Retroactive Reinstatement. An employee who is restored to duty retroactively after an erroneous suspension or removal may elect to have his or her enrollment retroactively reinstated, or may enroll in the plan and option of their choice in the same manner as a new employee. If the employee elects to have the enrollment retroactively reinstated, the PRO must take deductions for the period of suspension or removal from the retroactive pay adjustment (i.e., back pay award) and the government premium contributions should be made as though the suspension or removal had not occurred.

3.2.5.6. Withholding and Contributions Upon Termination or Reinstatement for Military Service. If enrollment is terminated or reinstated because of an employee's entry into or return from military service, the Daily Proration Rule is applied. The effective date of the action is the date the employee entered into or returned from military service.

3.2.5.7. Withholding Upon Return From Shutdown Furlough. An employee's FEHB coverage continues during a shutdown furlough. The National Defense Authorization Act (NDAA) for fiscal year (FY) 2020 provides that employees are authorized to receive retroactive pay in the case of a shutdown furlough. Therefore, FEHB premiums missed due to the lapse of appropriations are to be collected from retroactive pay. See [BAL 22-202](#).

3.2.6. Withholding and Contributions During Leave Without Pay (LWOP) or Insufficient Pay Status

3.2.6.1. 365-Day Limit. Enrollment may continue while an employee is in a nonpay status for up to 365 days. The 365 days of continuous enrollment is not considered to be broken by any period of less than 4 consecutive months in pay status. If an employee has 4 consecutive months in pay status after a period of nonpay status, the employee is entitled to begin a new 365-day period of continuous enrollment. See 5 CFR 890.303(e).

3.2.6.2. PRO Forwards Premium Payments Each Pay Period. An employee is responsible for continuing to pay the employee's share of the FEHB premium during periods of LWOP or insufficient pay, unless the employee terminates the enrollment. The PRO will not withhold the employee's share of premiums for a pay period when an employee is on LWOP or has insufficient pay to cover the full FEHB premium. However, the PRO must continue to forward the full FEHB premium (both the government contribution and the employee's share) to OPM each pay period. The PRO must advance salary to cover the employee's share of the FEHB premium and the employee will incur a debt for the advance payments.

3.2.6.3. Notification to Employee. The payroll system must be capable of identifying all employees on LWOP or who have insufficient pay to cover premiums. Written notice must be provided to an employee by the PRO as soon as the PRO becomes aware that premium payments cannot be withheld from the employee's salary. Notice should be provided in accordance with instructions in the FEHB Handbook and [5 CFR 890.502\(b\)](#) and sent by first-class mail or delivered in person. If mailed, the notice is considered to be received 5 days after the date of the notice. The notice must advise the employee of the following:

3.2.6.3.1. Options for continuing or terminating enrollment;

3.2.6.3.2. Effect of termination;

3.2.6.3.3. If the employee decides to continue coverage, the employee must agree to pay the premium directly, incur a debt, or pre-pay premiums;

3.2.6.3.4. If the employee elects to incur a debt or fails to pay the entire amount due, the employee thereby agrees to repay the debt in full and allow the debt to be collected by salary offset. The notice should indicate that if the debt cannot be collected by salary offset, it will be recovered from a LSL payment, income tax refunds, retirement payments, or any other source available for the recovery of a debt due the government; and

3.2.6.3.5. If the employee does not complete the election indicating whether the employee chooses to continue or terminate enrollment and return the notice within 31 days after receipt (45 days if the employee lives overseas), enrollment will automatically terminate.

3.2.6.4. Employee Must Continue or Terminate Enrollment. If the employee enters LWOP or pay is insufficient, the employee must either terminate enrollment or agree to pay the premium (or incur a debt) in order to continue enrollment. See the FEHB Handbook for additional information.

3.2.6.4.1. Terminating Enrollment

3.2.6.4.1.1. Coverage. If the employee elects to terminate enrollment, the termination is effective at the end of the last pay period in which the PRO withheld the premiums from pay. Upon termination, FEHB coverage continues for an additional 31 days at no cost to the employee. During the 31-day period, the employee and covered family members may convert to an individual contract with the insurance carrier (commonly referred to as the “conversion right”).

3.2.6.4.1.2. Reenrollment. If the employee returns to a pay status, or at the end of the first pay period that pay becomes sufficient to cover premiums, the employee must reenroll within 60 days if the employee wishes to elect FEHB coverage again. If the PRO has forwarded the [government contribution to OPM using RITS](#) and an adjustment is required in a subsequent pay period due to the late receipt of the FEHB cancellation, appropriate changes must be made to the payroll for personal services summary and the [SF 2812-A](#), Report of Withholdings and Contributions for Health Benefits by Enrollment Code. See the [CSRS and FERS Handbook](#).

3.2.6.4.2. Continuing Enrollment. If the employee elects to continue coverage, the employee may pay premiums directly to the employing agency while on leave (“pay-as-you-go” option), incur a debt for the unpaid premiums while on leave (“catch-up” option), or pre-pay the premiums before the employee goes on LWOP. The PRO must notify the employee of choices available (using the notification discussed at subparagraph 3.2.6.3) and provide the employee with a method to make direct premium payments. If the employee elects to incur a debt, the employee must repay the debt in full or the employee will be subject to debt collection action. If the employee pre-pays the premiums, the amount may be deducted from pay or may be paid out-of-pocket. Out-of-pocket payments are after-tax monies.

3.2.6.4.3. Employee Takes No Action. If the employee does not sign and return the written notice within 31 days of receiving the notice (45 days for overseas employees), the PRO must terminate the enrollment on the SF 2810. The effective date of enrollment termination is retroactive to the end of the last pay period that premiums were withheld from pay.

3.2.6.5. Coordinating Withholding From Disability Retirement or Workers' Compensation

3.2.6.5.1. Pending Applications

3.2.6.5.1.1. General. An employee's period of LWOP may be associated with an employee's pending application for disability retirement or workers' compensation benefits. Generally, if the employee's application is approved, the disability retirement annuity or workers' compensation benefits will be payable from the day following the last day of pay.

3.2.6.5.1.2. PRO Actions. If the employee does not continue to make premium payments during LWOP, the PRO must recover the employee's share of the FEHB premium from the annuity or workers' compensation benefits payment. If the employee's share of FEHB premiums were paid during LWOP and withholding is also made from the annuity or workers' compensation benefits for the same period, the PRO will refund the amounts to the employee to avoid double premium payments. If the disability retirement annuity does not begin on the day following the last day of pay, the PRO will not refund premium payments until the office receives a notice from OPM indicating the disability retirement application has been approved.

3.2.6.5.2. Withholding While Receiving Workers' Compensation. Health benefits enrollment continues while an employee is receiving compensation through the Office of Workers' Compensation Programs (OWCP). Historically, if compensation lasted fewer than 29 days, FEHB enrollment remained with the PRO. In August of 2010, the OWCP discontinued the practice of delaying deductions for the 28-day period and began making the FEHB deductions effective the first day of LWOP to prevent interruptions in insurance deductions. See Federal Employees Compensation Act ([FECA Circular No. 09-04](#)) and [FECA Circular No. 12-05](#). Enrollment continues during the first 365 days in LWOP status while an employee is receiving compensation. After 365 days, an employee must meet certain participation requirements (see FEHB Handbook) and enrollment eligibility is determined by the OWCP.

3.2.6.6. Special Circumstances Involving Employees on LWOP. An employee may elect to continue their benefits and pay the employee share of their premiums under the following [*special circumstances*](#).

3.2.6.6.1. Student Trainees on LWOP. Enrollment for student trainees with a career or career conditional appointment continues during LWOP as long as the student is participating in the Pathways Program under [5 CFR Part 362](#). The student must continue to pay the employee share of FEHB premiums during LWOP status.

3.2.6.6.2. Part-Time Employees on LWOP. During LWOP, a part-time career employee who receives a prorated government contribution toward FEHB premiums must continue to pay the same amount of health benefits premiums that were withheld from the employee's pay when the employee was in pay status.

3.2.6.6.3. Temporary Employees on LWOP. A temporary employee enrolled in FEHB must pay both the employee share and the [government](#) share of premiums during periods of LWOP. An employee who accepts a temporary position with another employing office must have the enrollment transferred from their original employing office to the new employing office. If the employee is still in LWOP status when the temporary position at the new employing office ends, enrollment must be transferred back to the original employing office. The original employing office must determine the remaining time the employee is entitled to continue FEHB coverage under LWOP. If the employee's temporary position in the original employing office has expired, the FEHB enrollment must be terminated. Both offices must coordinate the action so that withholdings and contributions are made in a timely manner.

3.2.6.6.4. Employees on Family and Medical Leave. An employee is entitled to 12 weeks of unpaid leave under the Family and Medical Leave Act (FMLA). See [5 U.S.C. § 6382](#). The 12 weeks of FMLA leave usually runs concurrently with the 365-day period for FEHB coverage during LWOP status. During the 12 weeks of FMLA leave, the general requirements for premium withholding and contributions described in paragraph 3.2 apply. During any FMLA leave period that extends beyond 365 days (for example, if the employee has used an extensive amount of LWOP before beginning FMLA leave), the employee must pay the employee's share of FEHB premiums directly to the PRO on a current basis.

3.2.6.6.5. Employees Appointed to Employee Organizations

3.2.6.6.5.1. Eligibility. An employee who is authorized LWOP status in order to serve as a full-time officer/employee of an employee organization may continue health benefit coverage if elected within 60 days from the start of LWOP. Coverage continues for the entire length of the appointment, even if LWOP lasts longer than 365 days. The employee pays the full cost of the health plan premium (both the employee and [government](#) share). The employee must make the premium payment to the PRO before, during, or within 3 months after the end of each pay period.

3.2.6.6.5.2. Termination. Coverage terminates if the employee does not pay premiums within this timeframe (subject to the 31-day extension of coverage and conversion right). Coverage will not resume until the employee enters pay and duty status in Federal service. Coverage may be restored retroactively if the employing agency finds that the employee was unable to make premium payments for reasons beyond the employee's control and payment is made at the first opportunity.

3.2.6.6.6. Appointments to State or Local Governments, Institutions of Higher Education, Indian Tribal Government, or Other Organizations. An employee granted LWOP for the purpose of an appointment to a State or local government, an institution of higher education, Indian tribal government, or certain other organizations specified in [5 CFR Part 334](#), may elect to continue health benefits coverage for the duration of the assignment. Employees are entitled to continue coverage even if LWOP lasts longer than 365 days. The employee must pay the employee's share of the premiums to the PRO before, during, or within 3 months after the end of each pay period. The employing office must continue to pay the [government](#) share of the premiums as long as the

employee continues to make premium payments. If the employee does not make premium payments in a timely manner, coverage:

3.2.6.6.6.1. Terminates if the employee does not pay premiums in a timely manner (subject to the 31-day extension of coverage and conversion right);

3.2.6.6.6.2. Will not resume until the employee enters pay and duty status in Federal service; and

3.2.6.6.6.3. May be restored retroactively if the employing agency finds that the employee was unable to make premium payments for reasons beyond the employee's control and payment is made at the first opportunity.

3.2.6.6.7. Transfer to International Organization. An employee who is transferred to an international organization under [5 U.S.C. § 3582](#) may elect to continue health benefits coverage and must pay the employee share of premiums to the employing office before, during, or within 3 months after the end of each pay period. The employing office must continue to pay the government contribution as long as the employee pays their share of the premium. Coverage terminates if the employee does not pay premiums within this timeframe (subject to the 31-day extension of coverage and conversion right). Coverage will not resume until the employee enters pay and duty status in Federal service. Coverage may be restored retroactively if the employing agency finds that the employee was unable to make premium payments for reasons beyond the employee's control and payment is made at the first opportunity. See [5 CFR 352.309](#).

3.2.6.6.8. Employee Salary Paid in Less Than 12 Months. If an employee's salary is paid over a period of less than 12 months (for example, a teacher who is paid over 10 months), the employing office should prorate the annual premium installments over the number of salary installments during the year so that the employee does not owe additional premiums during the nonpay period. If the employee is on LWOP status during the normal work period, the employee must pay premiums for that period.

3.2.7. Daily Proration Rule

3.2.7.1. General. The Daily Proration Rule is a formula used to calculate partial employee withholdings and government contributions for FEHB premiums. Unless otherwise provided, the full withholding and contributions must be made for each pay period even if the employee is in pay status for only part of the period. The PRO uses the Daily Proration Rule to compute partial withholdings and contributions under the following circumstances:

3.2.7.1.1. The employee transfers to a position serviced by a different PRO other than at the beginning of a pay period;

3.2.7.1.2. The employee retires other than at the end of a pay period and is eligible to continue FEHB enrollment;

3.2.7.1.3. The employee dies, and there is a survivor annuitant eligible to

continue FEHB enrollment; or

3.2.7.1.4. The employee terminates or reinstates enrollment because of entry into or return from military service.

3.2.7.2. Application of the Daily Proration Rule. The FEHB Handbook provides examples for computing a prorated amount of withholdings and contributions using the Daily Proration Rule. Each PRO (gaining and losing) is responsible for FEHB withholdings and contributions for the actual time the employee occupied a position serviced by the PRO. The PRO must compute daily FEHB premium withholdings and contribution rates as follows:

3.2.7.2.1. Daily Withholding Rate. To determine the daily withholding rate for partial employee withholding, multiply the employee's biweekly withholding rate by 26 and divide by 364; the result will equal the daily withholding rate. Multiply the daily withholding rate by the number of days on the payroll, the result will equal the amount of withholding for which the PRO is responsible. Use the denominator of 364 even during a leap year.

3.2.7.2.2. Daily Contribution Rate. To determine the daily contribution rate for partial government contributions, multiply the biweekly government contribution rate by 26 and divide by 364; the result will equal the daily contribution rate. Multiply the daily contribution rate by the number of days on the payroll, the result will equal the amount of contributions for which the PRO is responsible. Use the denominator of 364 even during a leap year.

3.2.8. FEHB Premium Conversion. Premium conversion is a method for reducing taxable income by the amount of an employee's contribution to his or her FEHB premium. Premium conversion reduces the employee's taxable income thereby lowering the employee's Federal income tax, Social Security and Medicare taxes, and state and local taxes. See [5 CFR 892.102](#). The HRO automatically enrolls eligible employees in premium conversion. Before the effective date of coverage, an employee may waive participation in the premium conversion benefit by filing an [FEHB Premium Conversion Waiver/Election Form](#). Thereafter, an employee may file a waiver of participation in premium conversion only under the limited circumstances set out at [5 CFR 892.205](#). See 5 CFR 892, subpart B for additional information.

3.2.9. Collection of Unpaid FEHB Premiums Debt

3.2.9.1. Debt Collection. Debt collection actions will be made pursuant to the debt collection authority in Volume 16. If the employee received a salary advance to cover FEHB premiums (using the "catch-up option"), and the employee signed a statement agreeing that the debt may be withheld from future pay, then the agency is not required to offer the employee a hearing before beginning salary offset, but notice of the intent to collect the debt must be provided. See [5 CFR 550.1104\(b\)](#).

3.2.9.2. Payments and Offsets. The PRO will note payments received or payroll deductions withheld and record those payments in OPM deposit fund for FEHB withholdings. If the employee separates, the amount owed must be offset against any entitlements due. If the employee retires and final pay is not sufficient to cover the debt, then the [OPM Form 1522](#), Request for Offset for Health Benefits Premiums from Monies Payable Under the Civil Service Retirement System (CSRS) or the Federal Employees Retirement System (FERS), must be used to offset against a CSRS or FERS annuity. In addition, note on the [SF 2806](#), Individual Retirement Record (CSRS), or [SF 3100](#), Individual Retirement Record (FERS), that the separating employee has been indebted. There is no minimum amount subject to offset. If the employee has made any duplicate payments that are later offset, the duplicate payments must be refunded.

3.2.9.3. Debt Collection After Transfer to a Different PRO. The date of last withholding and amount due must be shown on the [SF 1150](#), Record of Leave Data, when an employee has a debt for unpaid FEHB premiums and transfers to a different PRO. Amounts due from employees transferring to another PRO should be collected by the gaining PRO, paid to the former employing office, and reported to OPM by the gaining PRO.

3.2.9.4. Employees Erroneously Allowed to Continue FEHB Coverage Beyond 365 Days of LWOP. The Affordable Care Act does not allow a health insurer to cancel coverage retroactively if premiums have been paid, including if an employer has erroneously allowed an ineligible employee to enroll. Where an employee who was on LWOP elected to incur a debt for the employee portion of the premium, and the employee's enrollment was erroneously allowed to continue for an extended period of time beyond the 365th day, the premium debt incurred by the employee for coverage may be significant. Therefore, OPM has directed agencies that in such a case, the agency must allow the employee to choose whether to:

3.2.9.4.1. Terminate the enrollment prospectively effective last day of the pay period in which the error was discovered and keep the coverage during the erroneous enrollment period. This means, if the employee incurred a debt, the employee owes the employee share of the premiums to the agency for that period, however the employee is entitled to full benefits during the period of the erroneous enrollment; or

3.2.9.4.2. Terminate the enrollment retroactively back to the date the FEHB enrollment should have terminated (meaning the employee owes no premiums for the erroneous enrollment period, but was not covered during that period and is responsible for any claims paid). This will allow the employee to avoid a large premium debt if little or no services were used due to the agency's error.

3.3 FEHB for Employees Entering Active Military Service

3.3.1. General. Federal law allows up to 24 months of continued FEHB benefits for Federal employees, and their covered dependents, who separate or enter into nonpay status to serve in the uniformed services, referred to as Absent-Uniformed Service (AUS). See [38 U.S.C. § 4317\(a\)\(1\)\(A\)](#) and [5 U.S.C. § 8905a](#).

3.3.1.1. Active Duty 30 Days or Less. If the employee is on active duty for 30 days or less and is in pay status, the employee's FEHB enrollment continues without change to the employee withholding or [government contributions](#).

3.3.1.2. Active Duty Over 30 Days. An employee who enters active duty for more than 30 days may continue enrollment for up to 24 months unless the employee terminates enrollment.

3.3.1.3. Cost of FEHB Coverage. As discussed in subparagraph 3.3.2, the cost of FEHB is dependent upon the nature and length of the employee's active duty. Eligible DoD employees called to active duty in support of a contingency operation receive an enhanced benefit that results in the agency paying both the employee and government shares of the premiums for up to 24 months. However, if status changes to non-contingency during the employee's active duty service, a debt will incur. See also 5 CFR 890.303(i), 5 CFR 890.304, and 5 CFR 890.502(f).

3.3.2. Premium Payments General Information

3.3.2.1. First 365 Days. For the first 365 days AUS (12 months), the employee must pay the employee share of the FEHB premium (the employee may elect to postpone payment using the "catch-up option").

3.3.2.2. After 365 Days. After 365 days on AUS, the employee must pay both the employee share and the government share of the FEHB premium, plus an administrative charge of 2 percent of the total plan premiums. Payment is made directly to the PRO on a current basis (each pay period). See 5 CFR 890.502(f). As discussed in subparagraph 3.3.3, DoD Components pay both the employee and government's share of the FEHB premium if the employee is called or ordered to active duty in support of a contingency operation.

3.3.2.3. Enrollment Termination and Reenrollment. An employee's enrollment ends 24 months after absence for military service began, or 90 days after service ends, whichever is earlier. At the end of the 24 months, FEHB coverage will continue for an additional 31 days during which the employee and covered family members may convert to an individual contract with the insurance carrier. If the employee has terminated enrollment during active duty, they may enroll again within 60 days after returning to civilian employment.

3.3.2.4. Additional Guidance. See OPM's guidance on Coverage for Federal [Civilian Employees on Active Military Duty](#).

3.3.3. Premium Payments When Service is in Support of a Contingency Operation. Eligible Federal employees called to active duty in support of a contingency operation, as defined in [10 U.S.C. § 101\(a\)\(13\)](#), on or after September 14, 2001, are allowed an extension of coverage under the FEHB Program for up to 24 months. See 5 U.S.C. § 8905a and 5 CFR 890.502(f). DoD agencies may pay both the employee's share and the government's share of the FEHB premiums (in addition to any administrative charges the employee may otherwise be required to pay) for up to 24 months for eligible employees. See 5 U.S.C. § 8906(e)(3). When an employee moves from a contingency to non-contingency operation, the agency is required to cease paying the employee share of premiums.

3.3.3.1. Eligibility Requirements. To be eligible for continued FEHB coverage and payment of the employee's share of the FEHB premium under these authorities, the employee must be:

3.3.3.1.1. Enrolled in FEHB and elect to continue that enrollment;

3.3.3.1.2. A member of a Reserve component of the Armed Forces, which includes the Army National Guard, the Army Reserve, the Naval Reserve, the Marine Corps Reserve, the Air National Guard, the Air Force Reserve, and the Coast Guard Reserve;

3.3.3.1.3. Called or ordered to active duty (voluntarily or involuntarily) in support of a contingency operation as defined in 10 U.S.C. § 101(a)(13);

3.3.3.1.4. Placed on AUS or separated from civilian service to perform active duty; and

3.3.3.1.5. On active duty for a period of more than 30 consecutive days.

3.3.3.2. Effective Date. Continued coverage and agency full premium payment for eligible employees will be effective the date the employee is initially placed on AUS or separated from civilian service to perform active duty. Eligibility continues for up to 24 months while the employee is on active duty. The 24-month period will not be extended by the employee's intermittent use of paid leave during a period of military service.

3.3.4. Historical Information

3.3.4.1. Service in Support of a Contingency Operation on or After December 8, 1995, but Before September 14, 2001. Title 5 U.S.C. § 8906(e)(3) provided an extension of coverage under FEHB for no longer than 18 months for eligible employees. Under the law, agencies were authorized to pay the full FEHB premium (employee share and government share) for a period no longer than 18 months for eligible employees. The period of continued FEHB coverage began on the date of the employee's absence from their civilian position. The agency paid full FEHB premiums during periods of AUS or separation, but not during any pay period the employee used paid leave.

3.3.4.2. Service Not in Support of a Contingency Operation on or After December 12, 1994 and Before December 10, 2004. The Uniformed Services Employment and Reemployment Rights Act (USERRA) protects all employees serving on active duty in the uniformed services, including those serving under non-contingency orders. See 38 U.S.C. § 4317(a)(1)(A). Under USERRA, employees called to active duty under Title 32 or Title 10 between the aforementioned dates, were entitled to continued coverage of FEHB for 18 months. The period of continued FEHB coverage began on the date of the employee's absence from their civilian position.

3.3.4.2.1. First 12 Months. The employee was responsible for payment of the employee's share of the FEHB premium for the first 12 months.

3.3.4.2.2. 12 to 18 Months. The employee was responsible for the full FEHB premium (employee share and government share) plus an administrative charge of 2 percent of the total plan premiums after 12 months and up to the 18-month limitation.

3.4 Retroactive Changes and Adjustment of Errors

3.4.1. Retroactive Changes in Enrollment. If the employee does not participate in premium conversion, the employee may change enrollment from self and family to self plus one or from self and family or self plus one to self only at any time. An employee who participates in premium conversion is limited to changing their enrollment from self and family to self plus one or from self and family or self plus one to self only during open season, or within 60 days after the employee has a qualifying life event. Generally, a qualifying life event is an increase or decrease in the number of eligible family members as described in the FEHB Handbook.

3.4.1.1. The HRO may make enrollment changes retroactively to the first day of the pay period that began after the employing office received the employee's enrollment change request.

3.4.1.2. The retroactive change, and corresponding adjustments to health benefits withholdings and contributions, may be made only upon the employee's written request. The request must identify the event and date when the employee became the only person covered by family enrollment.

3.4.1.3. If an employee retroactively changes from self and family to self only, the PRO must make corrective adjustments to refund premiums back to the beginning date of the change in coverage provided by the employing agency. The Barring Act (Statute of Limitations), under [31 U.S.C. § 3702\(b\)\(1\)](#), does not apply to these specific changes.

3.4.2. Adjustment of Errors

3.4.2.1. Underdeduction. An underdeduction of FEHB withholding represents an overpayment of the employee's pay. Collection of the overpayment is exempt from due process if the amount was accumulated over four pay periods or less immediately preceding the current pay period. See 5 CFR 550.1104(c). Collection is subject to due process procedures when the amount accumulated is for a period of more than four pay periods. The PRO must collect the overpayment from a separated employee's final pay. See Volume 16, Chapter 3, [paragraph 2.7](#) for additional information.

3.4.2.2. Overdeduction. If the PRO overdeducts the FEHB premium amount owed by the employee, the PRO must refund the overdeduction to the employee and adjust the [government](#) contribution on a subsequent pay period.

3.5 Temporary Continuation of Coverage (TCC)

3.5.1. General. An employee who loses FEHB coverage because he or she separates from Federal service may enroll under the TCC of FEHB. TCC allows an employee to continue health benefits coverage for up to 18 months from the date of separation. An employee's family member (child or former spouse) who loses coverage because he/she is no longer eligible may also enroll under TCC and may continue coverage for up to 36 months from the date of their change in status as a family member. HRO provides the employee with a notification of TCC election rights. For specific details regarding TCC, see 5 CFR 890, subpart K.

3.5.2. Notification. Once the employee's HRO establishes TCC eligibility, the HRO will forward the election form to the National Finance Center (NFC), which administers the TCC program for the DoD. The NFC will notify eligible individuals and provide further information on benefits, and will process enrollment changes and cancellations. NFC will collect premiums and send them to OPM.

3.5.3. Premium Payments. Individuals eligible for TCC must pay the full premium for the health benefit plan, which includes the employee withholding amount and the [government](#) contribution plus an administrative charge of 2 percent of the total plan premiums. However, if the individual has TCC based on a separation due to a reduction in force under 5 U.S.C. § 8905A(d)(4), the employee only pays their share, and the agency continues to pay the [government](#) contribution amount plus the administrative charge of 2 percent of the total plan premiums.

4.0 FEDERAL EMPLOYEES DENTAL AND VISION INSURANCE PROGRAM (FEDVIP)

4.1 General

FEDVIP provides dental and vision insurance to Federal employees at competitive group rates. While FEDVIP enrollment occurs during the annual Federal benefits open season process, FEDVIP is separate from the FEHB Program. For additional information, see [5 CFR Part 894](#).

4.2 FEDVIP Eligibility and Participation

4.2.1. Eligibility. Generally, in order to be eligible to enroll in FEDVIP, employees must be eligible for enrollment in the FEHB Program however; enrollment is not required. Certain employees, such as some temporary employees or intermittent employees, are not eligible for FEDVIP even though they may be eligible for FEHB. Enrollees in the FEHB TCC are not eligible for FEDVIP. Coverage of FEDVIP continues each year, and employees do not need to re-enroll each year to continue current coverage. Employees may enroll in FEDVIP through BENEFEDS, which administers enrollment for the FEDVIP program. Employees can utilize the secure enrollment site [BENEFEDS](#), or call BENEFEDS Customer Service at 1-877-888-3337.

4.2.2. Enrollment. Employees may enroll in FEDVIP:

4.2.2.1. During the annual open season;

4.2.2.2. Within 60 days after first becoming eligible as a new employee, or a previously ineligible employee who transfers to a covered position;

4.2.2.3. Within 60 days after returning to work following a break in service of at least 30 days; or

4.2.2.4. From 31 days before the employee (or eligible family member) loses other dental/vision coverage to 60 days after a qualifying life event allowing the employee to enroll. See 5 CFR 894.502 and BENEFEDS for information on qualifying life events.

4.2.3. Types of Enrollment. Under the FEDVIP, employees may select from the following types of enrollment:

4.2.3.1. Self only, which covers only the employee;

4.2.3.2. Self plus one, which covers the employee plus one eligible family member as specified by the employee; or

4.2.3.3. Self and family, which covers the employee and all eligible family members.

4.2.4. Cancellation, Termination, and Extension of Enrollment

4.2.4.1. Cancellation of Enrollment. Generally, an employee may only cancel FEDVIP participation during open season. An employee may cancel FEDVIP participation outside of open season only under the following two circumstances and the cancellation is effective at the end of the pay period in which the employee submits the cancellation request:

4.2.4.1.1. When the employee or employee's spouse is called to active military duty; or

4.2.4.1.2. When the employee transfers to an eligible position with another Federal Agency that provides dental and/or vision coverage and the employer pays 50 percent or more of the premium.

4.2.4.2. Ineligibility. When an employee no longer meets the definition of an eligible employee, FEDVIP coverage stops at the end of the pay period in which the employee was last eligible.

4.2.4.3. Extension of Coverage and TCC. Upon termination, there is no extension of coverage or right to convert to an individual contract with the insurance carrier. There is no TCC for employees or family members when FEDVIP coverage stops or family members become ineligible.

4.3 FEDVIP Premiums

4.3.1. General. Employees who elect to participate in FEDVIP pay the entire premium, as there is no government contribution for FEDVIP. Part-time employees pay the same premium as full-time employees.

4.3.2. Premium Conversion. The PRO withholds FEDVIP premiums from the employee's biweekly salary on a pre-tax basis using premium conversion, the method for reducing taxable income by the amount of the employee's contribution to their FEDVIP premium. Unlike the FEHB program, an employee may not opt out of premium conversion for FEDVIP. Premiums are not paid on a pre-tax basis if the employee has insufficient pay to cover the premium or is in a nonpay status. An employee who pays a premium directly to the FEDVIP administrator is not eligible for premium conversion. When an employee's enrollment is retroactively changed and additional premium withholding is required, the employee is not eligible for premium conversion unless the change is the result of a birth or adoption of a child.

4.3.3. Insufficient Pay or Nonpay Status. If an employee misses a premium payment for FEDVIP, they must make up the payment in subsequent pay periods or FEDVIP coverage will stop on the last day of the pay period in which FEDVIP received an allotment. An employee who is in a nonpay status, or who has insufficient pay to cover premiums, may also arrange to pay premiums directly to the FEDVIP administrator. If the employee stops making direct premium payments, FEDVIP coverage stops at the end of the pay period in which the employee last made a payment. If FEDVIP coverage stops, the employee will not be able to reenroll until the next open season after the employee is in pay status or the employee's pay is sufficient to pay the premium.

4.3.4. Withholding Upon Return From Shutdown Furlough. An employee's FEDVIP coverage continues during a shutdown furlough. The FY20 NDAA provides that employees are authorized to receive retroactive pay in the case of a shutdown furlough. Therefore, FEDVIP premiums not paid due to the lapse of appropriations are to be collected from retroactive pay. See BAL 22-202.

5.0 ALLOTMENTS FOR FEDERAL FLEXIBLE SPENDING ACCOUNT PROGRAM (FSAFEDS)

5.1 General

FSAFEDS offers three different [Flexible Spending Accounts](#) (FSAs). Eligible employees under this program open a FSA and make an annual election to deposit a portion of their pay into the account for the upcoming benefit period. The PRO withholds allotments from the employee's biweekly salary on a pretax basis and deposits the funds into the FSA. Employees may request to accelerate allotments over fewer pay periods. The employee may use their FSA for reimbursement of out-of-pocket costs for health care (such as co-payments and expenses not covered by insurance). Employees may also set up an account for dependent care expenses for a qualifying dependent. FSAFEDS is not a part of the FEHB program.

5.1.1. Open Season. Eligible employees must enroll in FSAFEDS each year during the Federal Benefits Open Season. Open season enrollments are effective January 1 of the following year. Enrollment does not carry forward year-to-year, and an employee must reenroll each year. New and newly eligible employees must enroll in the program within 60 days (but no later than October 1) of their entry on duty.

5.1.2. Enrollment. Employees must enroll directly with FSAFEDS either through [FSAFEDS](#) online or by calling FSAFEDS at 1-877-372-3337.

5.2 Types of Flexible Spending Accounts

5.2.1. Health Care Flexible Spending Account (HCFSA). An eligible employee may make an allotment to an HCFSA to pay for qualified health care costs not covered by FEHB. If an employee maintains an HCFSA and enrolls in an HDHP, the employee may not maintain an HSA.

5.2.2. Dependent Care Flexible Spending Account (DCFSA). An eligible employee may make an allotment to a DCFSA to pay for qualified dependent care (such as day care) expenses.

5.2.3. Limited Expense Health Care Flexible Spending Account (LEX HCFSA). The LEX HCFSA is only available to employees who enroll in an FEHB HDHP with an HSA. Eligible expenses are limited to dental and vision care services.

5.3 Allotments for FSAs

5.3.1. Payment of Allotments. Allotments withheld from the employee's pay are forwarded to BENEFEDS on the same date payroll is paid.

5.3.2. Carryover

5.3.2.1. Prior to 2015. Any unused FSA allotments were forfeited if the employee did not incur an eligible expense and file a timely claim for reimbursement.

5.3.2.2. After 2015. In October 2013, the Treasury and the IRS modified the forfeiture (“use-or-lose”) rule for health care FSAs. Effective January 1, 2015, FSA programs allowed participants to carry over up to \$500 of unused health care FSA funds to the next plan year (as long as they re-enroll in health care FSAs). Each year, by January 15, a carryover account will be established with their remaining funds from the prior calendar year, up to \$500. Any amount over \$500 will remain in the prior year account and will be forfeited if prior year claims are not submitted by the April 30 deadline. The carryover funds can be used for prior year expenses that are submitted by April 30 or current year expenses. The carryover balance will be set to a “secondary priority” for claim reimbursement; this means that the carryover balance will be used only if the prior and/or current year balances have been depleted. See [BAL 14-801](#). For additional information on carry over rules, see FSAFEDS website.

5.3.3. LWOP and Nonpay Status

5.3.3.1. Effect of Nonpay Status. The government will not make up the employee’s allotments to an FSA if the employee is on LWOP or in a nonpay status. However, the employee may prepay allotments for periods of LWOP. If allotments are not prepaid, the HCFSAs or LEX HCFSAs account will be frozen. The employee will not be eligible for reimbursement of expenses incurred during LWOP or while in a nonpay status until the employee returns to pay status and allotments have restarted (even if the government continues to pay the employee’s FEHB premiums for medical coverage). If an employee maintains a DCFSAs during nonpay status, certain dependent care expenses that meet IRS guidelines for eligible expenses may continue to be reimbursed up to the account balance.

5.3.3.2. Return to a Pay Status. Upon the employee’s return to pay status, the PRO will restart the allotment. FSAFEDS will recalculate any future allotment amounts based on the number of pay dates remaining in the benefit period to ensure the employee reaches their annual election amount.

5.3.4. Separation From Employment and Termination of FSAFEDS Participation. Participation in FSAFEDS stops as of the employee’s separation date, or the last day of the pay period in which FSAFEDS received an allotment. HCFSAs or LEX HCFSAs expenses incurred after participation ends are not eligible for reimbursement. Reimbursement is only available for expenses incurred prior to the date of termination. However, the employee may continue to use the remaining balance in a DCFSAs for eligible dependent care expenses until the end of the Benefit Period or until the depletion of the account balance, whichever comes first. Termination may be due to a change in employment status causing the employee to lose eligibility, separation from Federal employment, or transfer to a Federal agency not covered by FSAFEDS.

6.0 FEDERAL EMPLOYEES GROUP LIFE INSURANCE (FEGLI) PROGRAM

6.1 General

The FEGLI Program is a term life insurance program that provides life insurance coverage for Federal employees and their families. See [5 U.S.C., Chapter 87](#). The FEGLI Act of 1954, [Public Law \(PL\) 83-598](#), created the FEGLI Program. OPM administers the Program and sets the amounts for employee withholdings and government contributions. For additional information, see [5 CFR Part 870](#) or the [FEGLI Handbook](#). FEGLI benefits are payable regardless of the cause of death. The employee's SF 50 (in block 27) reflects the employee's current FEGLI enrollment code. See [SF 50 Insurance Code Translator](#) for a description of the FEGLI code.

6.2 Types of Life Insurance

There are two types of life insurance coverage under the FEGLI Program, Basic and Optional. The employee and the government share the cost of Basic insurance. The employee pays the entire cost for any of the three additional types of Optional insurance. Additionally, accidental death and dismemberment coverage is an automatic part of Basic and Option A insurance at no additional cost to employees.

6.2.1. Basic Insurance. On the date the eligible employee is initially placed in pay and duty status, the HRO automatically enrolls the employee in Basic insurance, unless the employee specifically waives Basic insurance coverage. A new employee may opt out of Basic insurance by filing a waiver of Basic insurance with the employing office before the end of the first pay period. A transferred employee or an employee who returns after 12 months in a nonpay status may also use a previously filed waiver from earlier employment which remains in effect. See [5 CFR 870.501](#).

6.2.1.1. Basic Insurance Amount (BIA). The amount of an employee's Basic insurance coverage is equal to their BIA multiplied by a factor based on the employee's age. An employee's BIA is either the annual rate of basic pay, rounded to the next higher thousand (plus \$2,000) or \$10,000, whichever is higher. An employee's BIA automatically changes whenever an employee's pay changes. Effective October 30, 1998, there is no maximum BIA. Note: if the employee's salary is limited or "capped" by law, the amount of Basic insurance is based on the capped amount, not on the amount of pay without the cap. See [5 CFR 870.202](#).

6.2.1.2. Annual Rate of Basic Pay for Determining BIA. BIA is based on the employee's annual pay as fixed by law or regulation. See [5 CFR 870.204](#). An employee's annual pay for life insurance purposes includes the following pay:

6.2.1.2.1. Interim geographic adjustments and locality-based comparability payments;

6.2.1.2.2. Premium pay for standby duty under [5 U.S.C. § 5545\(c\)\(1\)](#);

6.2.1.2.3. For a law enforcement officer, as defined under [5 U.S.C. § 8331\(20\)](#), [5 CFR 831.902](#), and [5 CFR 842.802](#), premium pay for administratively uncontrollable overtime is authorized under 5 U.S.C. § 5545(c)(2):

6.2.1.2.4. Night Shift differential pay for wage employees;

6.2.1.2.5. Environmental differential pay for employees exposed to danger or physical hardship;

6.2.1.2.6. Special pay adjustments for law enforcement officers;

6.2.1.2.7. Availability pay for criminal investigators under 5 U.S.C. § 5545a;

6.2.1.2.8. Market pay for physicians and dentists of the Department of Veterans Affairs under [38 U.S.C. § 7431](#); and

6.2.1.2.9. Straight-time pay for regular overtime hours for firefighters.

6.2.1.3. Annual Rate of Pay for Employee Paid Multiple Rates. An employee may be paid for work using different pay rates. The annual rate of pay for such employees for life insurance purposes is based on their work schedule as follows:

6.2.1.3.1. Regular Schedule. Annual pay for employees regularly scheduled to work at different pay rates, such as day and night rates or two positions at different rates for each position, is the weighted average of the rates at which the employees are paid, projected to an annual basis. A regular schedule may exist even though the schedule varies within a year or even within a pay period.

6.2.1.3.2. No Regular Schedule. The annual pay of employees, who work at different pay rates but not on a regular schedule, is the annual rate the employee was receiving at the end of the pay period. In the event of death or dismemberment, it is the annual rate at the time of the death or accident.

6.2.1.4. Annual Rate of Pay for Part-Time Employees. A part-time employee's annual pay for life insurance purposes is the employee's basic pay applied to the tour of duty on record, based on the most recent SF 50, in a 52-week work year.

6.2.1.5. Annual Rate of Pay for Employees Serving in More Than One Position at the Same Time. If the employee legally services in more than one position at the same time and the employee is entitled to FEGLI for at least one of the positions, the annual rate of basic pay for life insurance purposes is the sum of the annual rate of basic pay fixed by law or regulation for each position. Certain exceptions apply. See 5 CFR 870.204(g) and subparagraph 6.5.7.

6.2.2. Optional Insurance. An employee who has not waived Basic insurance may elect additional Optional life insurance. Optional insurance is not automatic, and employees must specifically elect coverage within 60 days after becoming eligible for coverage, unless a previous election or waiver from earlier employment remains in effect. The cost of Optional coverage depends on the employee's age and is based on 5-year age bands beginning at age 35. Changes in rates based on age are effective on the first day of the first pay period following the pay period during which the employee's birthday occurs. See [5 CFR 870.504](#).

6.2.2.1. Eligibility to Elect Optional Insurance. An employee may elect one or more types of Optional life insurance coverage provided that:

6.2.2.1.1. The employee is enrolled in Basic life insurance coverage;

6.2.2.1.2. The employee does not have a waiver of that type of Optional insurance still in effect (or a waiver of that number of Option B or Option C multiples still in effect); and

6.2.2.1.3. The employee's pay, after all other deductions, covers the full cost.

6.2.2.2. Types of Optional Life Insurance. There are three types of optional insurance. See [5 CFR 870.201](#).

6.2.2.2.1. Option A (Standard Optional Insurance). Option A coverage is available only for the employee and is fixed in the amount of \$10,000.

6.2.2.2.2. Option B (Additional Optional Insurance). Option B coverage is available only for the employee and is an amount equal to 1, 2, 3, 4 or 5 times the employee's annual basic pay after rounding to the next higher thousand if not an even thousand. The amount of coverage under this option automatically changes whenever the employee's annual pay increases or decreases by an amount sufficient to raise or lower pay to a different \$1,000 bracket.

6.2.2.2.3. Option C (Family Optional Insurance). Option C provides coverage for the death of an employee's spouse or eligible dependent children. Eligible family members are automatically covered. The employee elects either 1, 2, 3, 4 or 5 multiples of coverage. Each multiple is equal to \$5,000 for the spouse and \$2,500 for each eligible dependent child. Payment is made to the insured employee.

6.3 Effective Dates for Withholding Premiums and Coverage

Withholding of premiums for new employees begins with the same pay period during which coverage begins as follows:

6.3.1. Basic Insurance. Coverage is effective on the first day the employee enters on duty in pay status. See 5 CFR 870.501(a)(1).

6.3.2. Optional Insurance (all options). Coverage is effective the first day the employee enters on duty in pay status on or after the date the HRO receives the election. See 5 CFR 870.504(d).

6.4 Effective Date of Waiver or Cancellation of FEGLI

At any time, an employee may waive Basic insurance, cancel any or all Optional insurance, or reduce the number of multiples under additional Optional insurance. Cancellation of Basic insurance automatically cancels all forms of Optional insurance. Coverage and deductions stop or are reduced effective the last day of the pay period in which the employee files an [SF 2817](#), Life Insurance Election: Federal Employees' Group Life Insurance Program. See 5 CFR 870.502 to [5 CFR 870.505](#).

6.5 FEGLI Premium Withholdings and Contributions

6.5.1. General. The cost of Basic insurance is shared between the insured employee and the government. The employee pays two-thirds of the cost, and the government pays one-third. See [5 CFR 870.401](#). The employee pays the full cost of all Optional insurance. OPM periodically reviews the cost of insurance and notifies agencies of premium rate changes.

6.5.2. Amount of FEGLI Premium Withholding. During each pay period in which an insured employee is in pay status for any part of the period, the PRO must withhold the employee's share of the FEGLI premium from their biweekly pay. Premium withholding is subject to the following requirements.

6.5.2.1. The amount of premium withholding is based on the amount of insurance last in force during the pay period.

6.5.2.2. If the employee dies or separates during a pay period, the PRO bases the withholding on the amount of insurance in force on the date of death or separation.

6.5.2.3. If the employee's BIA changes during the pay period, the PRO bases the withholding amount on the BIA last in force during the pay period.

6.5.2.4. If an employee works only a partial pay period, there is no pro-rated premium withholding.

6.5.2.5. If the employee works less than 52 weeks per year, the PRO must convert the biweekly rate to an annual rate. The PRO then prorates the annual rate over the number of pay periods in the year to determine the withholding amount.

6.5.2.6. The PRO must report withholdings and contributions for FEGLI to OPM each pay period as described in Chapter 9. See 5 CFR 870, subpart D.

6.5.3. Withholding FEGLI Premiums During Periods of Insufficient Pay

6.5.3.1. Short-Term Periods of Insufficient Pay. Withholdings will be made from an employee's salary when the employee is in pay status for any part of a pay period. If the salary is insufficient to permit all payroll deductions, the PRO must use the order of precedence for deductions in Chapter 4. After all other required deductions are made, if pay for a particular period is not enough to cover the full withholdings for life insurance premiums, the amount withheld must first be applied to Basic insurance. Any balance of pay remaining must then be applied to Optional insurance (first to Option B, then Option A, then Option C). See [5 CFR 870.404\(f\)](#).

6.5.3.2. Extended Periods of Insufficient Pay. A review and determination of insufficient pay must be made by the HRO when it is expected that an employee's pay, after all other applicable deductions, is insufficient to cover the cost of the premiums for a period of 6 months or more. The HRO must notify the employee if an employee's pay will be insufficient to cover FEGLI premiums over the course of 6 months or more. See FEGLI Handbook. The employee may wish to reduce or cancel other deductions from pay or may reduce FEGLI coverage in order to increase pay to cover the withholdings. An employee may elect to make direct payments to the employing office for periods when the pay is insufficient to cover the cost of the premiums. If the employee does not make direct payments, adjust, or cancel coverage, the HRO will terminate coverage as follows:

6.5.3.2.1. The HRO will terminate all coverage if pay is not sufficient for any premium withholding.

6.5.3.2.2. If the employee has pay available to cover part of the premiums, the HRO will administratively terminate as much coverage as necessary to allow for premium withholdings in the following order:

6.5.3.2.2.1. Multiples of Option C,

6.5.3.2.2.2. Option A,

6.5.3.2.2.3. Multiples of Option B, then

6.5.3.2.2.4. Basic insurance.

6.5.3.2.3. Coverage terminates at the end of the last pay period during which premiums were withheld.

6.5.3.3. Reinstating FEGLI Premium Withholding When Pay is Sufficient. If the HRO terminated coverage administratively, the HRO will automatically reinstate FEGLI coverage when the employee's pay becomes sufficient to cover the withholdings. If an employee paid premiums directly, the employing office must start withholding premiums from the employee's pay as soon as the pay becomes sufficient.

6.5.4. Withholding FEGLI Premiums and FEGLI Coverage During Nonpay Status

6.5.4.1. Twelve Months of Free Coverage. When an employee enters a nonpay status, the employee is entitled to 12 months of free FEGLI coverage from the last date of pay. No premium payments are required if the employee is in a nonpay status for an entire pay period (unless the employee is receiving benefits from the OWCP). See subparagraph 6.5.6. Make-up withholdings from future salary payments are not required.

6.5.4.1.1. The employee's coverage stops on the date the employee completes 12 months in a nonpay status, subject to the 31-day extension of coverage and right of conversion under subparagraph 6.5.3. The 12 months in a nonpay status may be broken by periods of less than 4 consecutive months in a pay status.

6.5.4.1.2. The employee is entitled to begin a new period of 12-month coverage if the employee has at least 4 consecutive months in pay status after a period of nonpay status.

6.5.4.1.3. If the employee has exhausted the 12 months of FEGLI coverage while in a nonpay status and returns to duty for less than 4 consecutive months, the Basic insurance stops 32 days after the last day of the last pay period in a pay status. See [5 CFR 870.601\(d\)](#).

6.5.4.2. Partial Pay Period. If an employee is in a nonpay status for part of a pay period, the full premium (for both Basic and Optional coverage) is withheld, and the government contribution is paid.

6.5.4.3. Withholding Premiums From Back Pay Awards. Except under the circumstances described at subparagraph 6.10.1, no FEGLI premium withholdings are made by the PRO from back pay awarded to an employee who was determined to be erroneously suspended or terminated from employment.

6.5.4.4. Withholding Premiums When Employee on LWOP Accepts Temporary Employment in Another Position. If an employee, who is entitled to 12 months of free coverage while in a nonpay status, accepts a temporary appointment to another position, in which he or she normally would be excluded from insurance coverage, insurance (Basic and Optional) continues.

6.5.4.4.1. The amount of Basic insurance is based on whichever position's salary is higher. The PRO takes withholdings from pay earned in the temporary position.

6.5.4.4.2. When the employee has completed the 12 months of nonpay status from the first position that entitled the employee to free coverage, FEGLI coverage will terminate, even if the employee remains in the temporary position. If the temporary position ends before the 12-month period and the employee is still on LWOP from the first position, the free coverage under the first position continues until the employee is separated or until the end of the 12-month nonpay status. After the 12-month period, an employee is eligible for the 31-day extension period and the right to convert to private insurance. See [5 CFR 870.508\(b\)](#).

6.5.4.5. Special Nonpay Situations. Special nonpay situations involve employees appointed to employee organizations, state or local government, Indian tribal organizations, institutions of higher education, or when an employee transfers to an international organization. Employees in these special nonpay situations may elect to continue their FEGLI coverage for the duration of their appointment. If elected, coverage continues even if the employee remains in a nonpay status for more than 12 months.

6.5.4.5.1. Payment of Premiums. If the employee elects to continue coverage, the employee must pay the premiums from the beginning of the nonpay status, and the employee is not eligible for 12 months of free coverage. Whether the government continues contributing depends on the appointment. See FEGLI Handbook and 5 CFR 870.508.

6.5.4.5.2. Continued Coverage Not Elected. If the employee does not elect to continue coverage, the employee is still eligible for 12 months of free coverage and coverage will terminate at the end of the 12-month period, the same as for any other employee in a nonpay status.

6.5.5. Withholding FEGLI Premiums From LSL Payments Upon Separation. No insurance premium is withheld from the LSL payment when the employee separates from Federal service. However, if the employee has an established debt that is being collected due to the underpayment of premiums, the agency may collect the debt from the LSL payment.

6.5.6. Withholding FEGLI Premiums While Employee is Receiving OWCP Payments

6.5.6.1. Twelve Months of Coverage as Employee. If an employee is in a nonpay status while receiving workers' compensation benefits, the employee receives 12 months of coverage. The HRO must notify the OWCP of the type and amount of life insurance the employee has in effect. The OWCP will make withholdings from workers' compensation benefits when compensation begins, even during the first 12 months of nonpay status, at the same rate that was withheld from the employee's salary. The OWCP deductions for FEGLI will begin effective the first day of LWOP. See FECA Circular No. 12-05. The employing agency continues to pay the [government](#) contribution until the employee separates from service or completes 12 months in nonpay status, whichever happens first. Thereafter, OPM pays the [government](#) contribution. See FEGLI Handbook.

6.5.6.2. Continuing Coverage as an OWCP Compensation. If FEGLI coverage stops after 12 months in a nonpay status or due to separation, under 5 CFR 870.701, an OWCP compensation may be eligible to continue Basic coverage (but not accidental death or dismemberment) and may continue or reinstate Optional insurance if:

6.5.6.2.1. The compensation was insured during the 5 years of service immediately before the date of entitlement to compensation, or for the full period of service during which the employee was eligible to be insured if less than 5 years; and

6.5.6.2.2. The compensationner has not converted to an individual policy.

6.5.6.3. Requesting Continuation of Coverage. The compensationner must complete an [SF 2818](#), Continuation of Life Insurance Coverage, as an Annuitant or Compensationner. The HRO must provide the compensationner with a copy of the [SF 2819](#), Notice of Conversion Privilege, Federal Employee's Group Life Insurance Program. The HRO must complete an [SF 2821](#), Agency Certification of Insurance Status. The HRO must send the SF 2818 and SF 2821, a copy of the SF 2819, and all pertinent life insurance information from the employee's file to OPM for verification of eligibility to continue coverage. If eligible, OPM's Retirement Operations Center will serve as the "employing office" and will maintain the compensationner's life insurance file. See 5 CFR 870, subpart F.

6.5.6.4. Notice of Ineligibility. If the employee does not meet the requirements for continuation of life insurance (subparagraph 6.5.6.2), the HRO must notify the OWCP by completing a "Notice of Life Insurance Ineligibility" and issue a copy to the employee. The OWCP will stop withholding at the end of the 12 months of free coverage. If the employee separates before the end of the 12 months, the agency must notify the OWCP so that withholdings will end. See FEGLI Handbook.

6.5.7. Withholding FEGLI Premiums for Employees in Concurrent Employment Positions. An employee who legally serves in more than one position at the same time, in either the same agency or different agencies, is eligible for coverage if at least one position is a covered position. The amount of Basic and Option B insurance is based on the sum of annual pay for both positions (salaries are added together before rounding up to the next even thousand and before adding the additional \$2,000 for Basic insurance). The agency paying the higher salary withholds the employee's premium share and pays the government contribution. If the employee goes into a nonpay status in an excluded position, at the end of 12 months in nonpay status, the amount of coverage is no longer based on the combined salary but is based solely on the salary from the covered position. If one of the positions is excluded from coverage, see the FEGLI Handbook.

6.5.8. Withholding Upon Return From Shutdown Furlough. An employee's FEGLI coverage continues during a shutdown furlough. The FY20 NDAA provides that employees are authorized to receive retroactive pay in the case of a shutdown furlough. Therefore, FEGLI premiums not paid due to the lapse of appropriations are to be collected from retroactive pay. See BAL 22-202.

6.6 FEGLI Daily Proration Rule

6.6.1. General. The FEGLI Daily Proration Rule is a formula used to calculate partial employee withholdings and government contributions for FEGLI premiums. Unless otherwise provided, the PRO deducts full withholdings and contributions for each pay period even if the employee is in pay status for only part of the pay period. The PRO uses the FEGLI Daily Proration Rule to compute partial withholdings and contributions under the following circumstances:

6.6.1.1. The employee transfers to a position serviced by a different PRO other than at the beginning of a pay period or, the transfer involves two agencies that are on different pay schedules; or

6.6.1.2. The employee retires other than at the end of a pay period.

6.6.2. Application of the FEGLI Daily Proration Rule. The FEGLI Handbook provides examples for computing a prorated amount of withholdings and contributions using the Proration Rule. Each PRO is responsible for withholdings and contributions for the actual time the employee occupied the position that the PRO serviced. Each PRO (gaining and losing) must compute daily FEGLI premium withholding and contribution rates as follows:

6.6.2.1. Determine the Daily Rate. To determine the Daily Rate for partial employee withholdings and government contributions (for Basic insurance), multiply the biweekly employee withholding and government contribution rates by 26, then divide by 364, the results will equal the daily rate. Use the denominator of 364 even during a leap year. The formula is as follows:

Biweekly Employee Withholdings $\times 26 \div 364 =$ Daily Rate, and

Biweekly Government Contributions $\times 26 \div 364 =$ Daily Rate.

6.6.2.2. Apply the Daily Rate to Formulas for Insurance Types. The PRO computes the Daily Rate using the formula discussed in subparagraph 6.6.2.1. Once computed, the PRO must use the following formulas to determine the amount of withholdings and contributions (for Basic insurance) for which losing and gaining PROs are responsible:

6.6.2.2.1. For Option A, the formula is:

Daily Rate \times Days on Payroll;

6.6.2.2.2. For Basic Insurance and Option B the formula is:

Daily Rate \times Coverage Amount \div \$1,000 \times Days on Payroll; and

6.6.2.2.3. For Option C, the formula is:

Daily Rate \times Number of Multiples \times Days on Payroll.

6.6.3. Active Employees. Use the FEGLI Daily Proration Rule to determine the PRO's (gaining and losing) responsibility for withholdings and contribution.

6.6.4. Retiring Employees. Withholdings and contributions depend on the employee's age at the time of retirement.

6.6.4.1. If the employee is under 65 years of age on the starting date of the annuity, the PRO will make Basic insurance withholdings and contributions and Optional insurance withholdings based on the following:

6.6.4.1.1. If the annuity starts after the end of the pay period, the PRO will make full withholdings and contributions for the entire pay period. Withholdings and contributions are not required for the period between the end of the pay period in which the employee separates and the date the annuity begins. See 5 CFR 870.404(b).

6.6.4.1.2. If the annuity starts before the end of the pay period, the PRO will make withholdings and contributions through the day before the annuity commencement date using the FEGLI Daily Proration Rule.

6.6.4.2. If the employee is 65 years or older on the starting date of the annuity, the PRO will make Basic insurance withholdings and contributions and Optional insurance withholding based on the post-65 election chosen by the employee.

6.6.4.2.1. If the employee elects Basic insurance with the 75 percent reduction, the PRO will make withholdings and contributions through the end of the pay period in which the employee separates for retirement without any proration.

6.6.4.2.2. If the employee elects Basic insurance with the 50 percent reduction, or no reduction, the PRO will make withholdings and contributions based on the starting date of the annuity, the same as for retiring employees under age 65.

6.6.4.2.3. If the employee has Option A, the PRO will make the withholdings through the end of the pay period in which the employee separates for retirement without any proration.

6.6.4.2.4. If the employee has Option B or Option C and elects full reduction, the PRO will make withholdings through the end of the pay period in which the employee separates for retirement without any proration. If the employee elects no reduction for Option B or Option C, the PRO will make the withholdings based on the starting date of the annuity, the same as for retiring employees under age 65.

6.7 FEGLI Termination, Cancellation, Extension or Conversion

6.7.1. Termination. Termination of FEGLI coverage is an involuntary action. An employee whose life insurance terminates receives a 31-day extension of coverage and a right to convert coverage. Termination does not affect an employee's eligibility to continue coverage into retirement. Life insurance terminates when the following occurs:

6.7.1.1. The employee separates from service (see FEGLI Handbook for exceptions);

6.7.1.2. Pay is insufficient to make any premium withholdings, and the employee does not elect to make direct payments;

6.7.1.3. The employee completes 12 months in nonpay status, and the employee is not eligible to continue coverage;

6.7.1.4. The employee moves to a position that is excluded by law from FEGLI coverage; or

6.7.1.5. Upon the death of the employee.

6.7.2. Cancellation of FEGLI Coverage. Cancellation of life insurance coverage is voluntary. Employees who cancel coverage are not eligible to receive the 31-day extension of coverage or a right to convert the coverage. Cancellation of life insurance may affect an employee's eligibility to continue life insurance coverage after retiring. See also paragraph 6.4.

6.7.2.1. Cancellation of Basic Insurance. An employee may cancel Basic insurance at any time by filing a waiver of Basic insurance coverage with their HRO. Coverage is canceled at the end of the pay period in which the waiver is properly filed. Cancellation of Basic insurance automatically cancels all forms of Optional insurance.

6.7.2.2. Cancellation of Optional Insurance. An employee may cancel Optional life insurance, or reduce the number of multiples under Option B, at any time by filing a waiver of Optional insurance coverage with their HRO. An employee will not receive a refund of premiums paid prior to the effective date of cancellation. Coverage terminates at the end of the pay period in which the employee files the waiver. Exception: If Option C is canceled because there are no eligible family members, the effective date is retroactive to the end of the pay period in which there were no longer any eligible family members. See 5 CFR 870.505(b). Cancellation of Optional insurance does not cancel Basic insurance. The Barring Act (Statute of Limitations) at 31 U.S.C. § 3702(b)(1) does not apply to retroactive refunds for Option C.

6.7.2.3. Reinstating Insurance. For detailed information concerning cancelling a waiver of coverage, see the FEGLI Handbook and [5 CFR 870.503-505](#).

6.7.3. 31-Day Extension of Coverage and Conversion. When Basic and Optional insurance terminates, except by an employee's waiver or cancellation, coverage automatically continues without cost for an additional 31 days. No withholding or government contributions are required during the 31-day extension. An employee may convert to an individual policy and may convert any or all of his or her Basic and Optional coverage. Conversion is effective at the end of the 31-day extension of coverage. The employing agency must notify the employee of the loss of coverage and the right to convert to an individual policy either before or immediately after the event causing loss of coverage. See [5 CFR 870.603](#).

6.8. Office of Federal Employees' Group Life Insurance (OFEGLI) Requests for Pre-Payment Verification

PROs must cooperate with the OFEGLI when it requests pre-payment verification. The OFEGLI is required to obtain verification before making payment to beneficiaries of enrollees with \$200,000 or more of FEGLI coverage. OFEGLI will request the insured's current salary, annual salary (if different) and details on enrollment in Optional insurance, if applicable.

6.9. Continuation of Coverage for Federal Employees Called to Active Duty

Effective January 28, 2008, for Federal employees called to active duty or active duty for training, FEGLI coverage continues for up to 24 months. See 5 CFR 870.601(d)(3). Coverage applies to a member of a Reserve component of the Armed Forces called or ordered to active duty for greater than 30 days and is on approved AUS to perform active duty or active duty for training.

6.9.1. Months 1 through 12. An employee called to active duty maintains continued FEGLI coverage for up to 12 months just as any other employee in a nonpay status. Employees do not pay for coverage during this 12-month period.

6.9.2. Months 13 through 24. An employee called to active duty must elect to have life insurance continue for an additional 12 months and must pay the employee and agency share of the premium from the beginning of the additional 12 months of coverage. An employee may cancel some or all of the coverage during this period. See [5 U.S.C. § 8706\(d\)\(1\)](#).

6.9.3. Termination. At the end of the first 12 months, or 90 days after the military service ends, whichever is earlier, coverage will terminate unless the employee elects to continue coverage for the additional 12 months, subject to the 31-day extension of coverage and right to convert to an individual policy. An employee may cancel an election at any time, in which case insurance will stop upon receipt of notice of cancellation.

6.9.4. Return to Federal Service. When the employee returns to active Federal service after military duty, the employee is afforded the same level of life insurance that was in place before the employee entered nonpay status or separated for military service, as long as the position is not excluded from coverage. HRO reinstates the same type of insurance even if the employee declined to continue coverage for the additional 12 months, reduced some or all of the coverage, or allowed coverage to terminate due to nonpayment.

6.10. Increasing Coverage for Employees Deployed in Support of a Contingency Operation

Civilian employees eligible for FEGLI, who are deployed in support of a contingency operation, as defined at 10 U.S.C. § 101(a)(13), or DoD employees eligible for FEGLI, who are designated as emergency essential under [10 U.S.C. § 1580](#), may elect Basic, Option A and Option B, up to 5 multiples, within 60 days after the date of notification of deployment. See 5 CFR 870.503(e) and (f).

6.11. Retroactive Changes and Adjustment of Errors

6.11.1. Retroactive Changes to Pay

6.11.1.1. Erroneous Suspension/Removal and Back Pay Awards. If an employee is retroactively restored to duty with back pay after an erroneous suspension or removal, no life insurance premium withholding is made from the back pay award. However, if death or dismemberment occurred during the period of suspension or separation, the PRO must withhold premiums from the back pay. Additionally, if the employee had Option C coverage and a covered family member dies during the period of separation or removal, the PRO must withhold Option C premiums from the back pay award. See 5 CFR 870.404(e) and the FEGLI Handbook.

6.11.1.2. Retroactive Pay Increase. If an employee receives a retroactive pay increase that was delayed beyond the effective date due to administrative error or oversight, and the pay increase resulted in higher life insurance premiums, deductions for the increased premium adjustment must be applied retroactively.

6.11.2. Adjustment of Errors for Overdeductions and Underdeductions of FEGLI Premiums

6.11.2.1. Current Employees

6.11.2.1.1. Overdeduction of FEGLI Premiums Owed. When the PRO erroneously overwithholds premiums from the salary of an employee, the PRO must refund the erroneous withholding to the employee the next pay period. This automatically corrects the excess government contribution.

6.11.2.1.2. Underdeduction of FEGLI Premiums Owed. When less than or none of the proper amount of FEGLI premiums are withheld from the salary of the employee, the underdeduction represents an overpayment of regular pay to the employee that must be collected as a debt. The collection of the debt may be exempt from due process requirements under 5 CFR 550.1104(c). See Volume 16, Chapter 3, paragraph 2.7 for additional information. The agency must submit the uncollected amount due, including the government contributions, to OPM within 60 calendar days after the date the agency discovers the underdeduction, regardless of whether collection from the employee has been made. Government contributions must be adjusted when payment is received from the employee.

6.11.2.1.3. OWCP Compensationers. The procedures for refunding overdeductions and collecting underdeductions are the same for employees who are receiving compensation from the OWCP.

6.11.2.2. Separated Employees. When it is necessary for the PRO to make an adjustment in withholdings for a separated employee, the adjustment is withheld from the final salary payment to the employee (or if deceased, to the employee's beneficiary or estate).

6.11.3. Incontestability

6.11.3.1. General. Incontestability is a provision of law that allows erroneous coverage to remain in effect under certain conditions. See [5 CFR 870.104](#). Coverage allowed to stand due to incontestability becomes valid coverage. Erroneous coverage always involves more coverage than an employee is entitled to receive or more than the employee elected. Incontestability does not apply to premiums being withheld for less coverage than an employee elected since such underwithholding is considered an overpayment of salary, annuity, or compensation. For purposes of incontestability, erroneous coverage may occur under the following circumstances:

6.11.3.1.1. The employee was allowed to elect coverage when not entitled to do so;

6.11.3.1.2. The SF 50 was coded incorrectly, giving the employee more coverage than he or she elected;

6.11.3.1.3. The PRO collected premiums for a coverage that the employee did not elect on the election form; or

6.11.3.1.4 OPM erroneously continued an employee's coverage beginning when the employee became an annuitant or compensation.

6.11.3.2. Requirements of Incontestability. An employee becomes insured under the provision of incontestability only if both of the following conditions are met:

6.11.3.2.1. The erroneous coverage was in effect for at least 2 years between the time the error was made and the time the error is discovered; and

6.11.3.2.2. The employee paid the applicable premiums for the erroneous coverage while it was in effect.

6.11.3.3. If Incontestability Applies and the Individual Does Not Want Coverage. When incontestability applies, an employee may cancel the coverage, but only prospectively. The PRO will not refund the premiums for the erroneous coverage period unless the employee had erroneous Option C coverage and did not have any eligible family members. An employee may cancel erroneous Option C coverage retroactively and the PRO must refund any erroneous Option C premiums retroactive to when the employee ceased having eligible family members. The Barring Act does not apply.

6.11.3.4. When Incontestability Does Not Apply. If the erroneous coverage is discovered before 2 years, incontestability does not apply and the coverage is not valid. The PRO must void the coverage and refund the premiums.

7.0 FEDERAL LONG-TERM CARE INSURANCE PROGRAM (FLTCIP)

7.1 General

The Long-Term Care Security Act authorized OPM to design a long-term care insurance program for Federal employees and their families. See [5 U.S.C., Chapter 90](#). OPM created the [FLTCIP](#) and contracted with the John Hancock Life Insurance Company as the carrier that provides Long-Term Care (LTC) insurance. Long-Term Care Partners, LLC (LTCP), a subsidiary of John Hancock, is the exclusive administrator of FLTCIP. See [5 CFR Part 875](#) for additional information. LTC insurance provides coverage for eligible employees, annuitants, and qualified family members. Coverage applies to those who can no longer perform activities of daily living without assistance due to a chronic illness, injury, disability or the aging process as determined by the LTCP. LTC insurance pays a portion of the cost of covered services, such as home health care, adult day care, or nursing home or assisted living facility costs.

7.1.1. Duties of LTCP. The LTCP administers all aspects of the program. Eligible employees must submit their application directly to the LTCP for approval of coverage. The LTCP is responsible for:

- 7.1.1.1. Accepting and approving employee applications,
- 7.1.1.2. Answering employee questions about the program,
- 7.1.1.3. Maintaining their web site to include current information, and
- 7.1.1.4. Transmitting applicable payroll data for automatic payroll deductions.

7.1.2. Duties of Federal Agencies. Federal agencies are responsible for the following:

- 7.1.2.1. Providing access to information about the FLTCIP to eligible employee,
- 7.1.2.2. Responding to questions from the LTCP including questions on the employment status of an applicant or enrollee,
- 7.1.2.3. Providing reports as OPM requires,
- 7.1.2.4. Complying with BALs and other OPM issuances, and
- 7.1.2.5. Deducting premiums as authorized by employees and remitting those payments on a biweekly basis to the LTCP.

7.2. Eligibility and Cost

7.2.1. Eligibility. Participation is voluntary and elections must be made through LTCP. Most Federal civilian employees are eligible to apply for the LTC coverage. If an employee is eligible for the FEHB program, the employee is also eligible to apply for LTC insurance through

FLTCIP, even if not enrolled in FEHB. Retirees are eligible to apply. Eligibility also extends to qualified relatives including spouses and adult children of eligible employees and retirees, as well as parents, parents-in-law, and stepparents of current employees. Qualified relatives may apply for coverage even if the employee does not apply.

7.2.2. Cost of Coverage. The employee pays the full cost of LTC insurance and there are no government contributions toward LTC insurance premiums. LTC premiums are based on both the employee's age and the cost of options that the employee selects.

7.3. Coverage and Payment Options

7.3.1. Effective Date of Coverage. If LTCP approves the employee's application for coverage, the LTCP will send approval notification to the employee and provide the employee with an effective date of coverage. If enrollment occurs during open season, the effective dates of coverage are announced. If enrollment occurs any time outside of open season, coverage is effective the first day of the month after the approval date of the application. Additional requirements apply for active workforce members who apply for coverage under abbreviated underwriting and for those employees whose eligibility changes prior to their announced effective date of coverage. See [5 CFR 875.404](#).

7.3.2. Payment of Premiums

7.3.2.1. Payment Options. An employee who qualifies for participation in the LTCIP may choose from three payment options:

7.3.2.1.1. Payroll deduction,

7.3.2.1.2. Automatic bank withdrawal, or

7.3.2.1.3. Direct billing.

7.3.2.2. Payroll Deductions. If premiums are paid through payroll deductions, deductions begin on the first full pay period on or after the effective date of coverage. Payroll deductions for LTC premiums occur each biweekly pay period until the employee separates, transfers, or elects a different payment option.

7.3.2.3. Correcting Underpayments and Overpayments. If the carrier determines that the employee has underpaid premiums, the employee will pay retroactive premiums to the carrier for the amount due. If the carrier determines that the employee has overpaid premiums, the carrier will reimburse the employee or reduce future premium payments by the amount of the overpayment. See 5 CFR 875.303.

7.3.2.4. Withholding Upon Return From Shutdown Furlough. An employee's FLTCIP coverage continues during a shutdown furlough. The FY20 NDAA provides that employees are authorized to receive retroactive pay in the case of a shutdown furlough. Therefore, FLTCIP premiums not paid due to the lapse of appropriations are to be collected from retroactive pay. See BAL 22-202.

7.3.3. Transferring Employees. Employees transferring to a new agency must notify LTCP regarding where and when the transfer will occur. The employee's current payroll deductions will continue until the separation action processes. An employee will automatically receive a direct bill from the LTCP for any premiums not collected through payroll deduction due to the transfer. Payroll deductions are not adjusted to "catch-up" uncollected premiums.

8.0 DISABILITY INSURANCE FOR EMPLOYEES OF THE UNIFORMED SERVICES UNIVERSITY OF THE HEALTH SCIENCES (USUHS)

Full-time civilian faculty members appointed to an Administratively Determined (AD) position of the USUHS School of Medicine receive mandatory coverage under a long-term disability insurance plan. In order to participate in the long-term disability insurance plan, the employee must be covered under the Teachers Insurance and Annuity Association College Retirement Equities Fund (TIAA-CREF) or the Fidelity Investments program. The employer and employee share the cost of the disability insurance and each contributes 50 percent of the premium. USUHS AD employees covered under FERS or CSRS are not eligible for the long-term disability insurance plan.

9.0 NATIONAL GUARD ASSOCIATION OF UNITED STATES (NGAUS) INSURANCE TRUST (IT) PROGRAM

Army and Air National Guard Technicians (Title 32 Technicians) may choose to participate in the NGAUS-IT, which provides disability and life insurance products through its underwriter, ReliaStar Life Insurance Company. Technicians should contact their HRO or NGAUS-IT for enrollment instructions and forms. Technicians who participate agree to have premiums deducted from their biweekly pay on the NGAUS-IT enrollment form. CSRs work closely with ReliaStar Life Insurance Company, which confirms the approval of enrollment and provides the CSR with start dates and amounts of payroll deductions. ReliaStar will notify CSRs of any revisions to premium deductions due to age or salary changes. CSRs enter the appropriate premium deduction information into the Defense Civilian Pay System. The PRO deducts premiums for the entire pay period, regardless of the day of termination, and proration is not required.

10.0 THRIFT SAVINGS PLAN (TSP)

10.1 General

The Federal Employees' Retirement System Act of 1986 established the TSP, a retirement savings and investment plan for Federal employees. See [5 U.S.C., Chapter 83](#), [5 U.S.C., Chapter 84](#), and [5 CFR Part 1600](#). TSP offers eligible employees traditional tax deferral advantages and a Roth-TSP option. The Federal Retirement Thrift Investment Board administers the plan. FERS, CSRS, and CSRS-Offset employees are eligible to participate in the TSP. TSP benefits depend on an employee's retirement system. If the employee's coverage is under CSRS, TSP is a supplement to the CSRS annuity. If the employee's coverage is under FERS, TSP is part of the three-part retirement package that includes the FERS basic annuity and Social Security. See also [TSP](#) for additional information.

10.2 Establishing a TSP Account, Contribution Elections, and Automatic Enrollment

10.2.1. Employees Hired Between August 1, 2010 and September 30, 2020. Employees (including FERS or CSRS rehired employees) hired after July 31, 2010, are automatically enrolled in TSP. The PRO deducts 3 percent of the employee's basic pay each pay period and deposits the funds into the employee's TSP account. The employee must make a contribution election to stop or change the contribution. FERS employees also receive contributions from the government. TSP invests all contributions in the age appropriate Lifecycle Fund until the employee changes the contribution allocation with the TSP. See [TSP Bulletin 10-7](#), [TSP Bulletin 15-2](#), and [TSP Bulletin 19-4](#).

10.2.2. Employees Hired on or After October 1, 2020. Employees (including FERS or CSRS rehired employees) hired after October 1, 2020 are automatically enrolled in TSP. The PRO deducts 5 percent of the employee's basic pay each pay period and deposits the funds into the employee's TSP account. This change will not affect the contribution rates for existing employees who were enrolled in TSP prior to October 1, 2020. See TSP Bulletin 19-4.

10.2.3. FERS Employees Hired Before August 1, 2010. The agency establishes a TSP account accruing Agency Automatic (1 percent) Contributions for FERS employees hired before August 1, 2010. Employees must make a contribution election in order to begin employee contributions and to receive Agency Matching Contributions.

10.2.4. CSRS Employees. CSRS employees may make a TSP contribution election at any time through their HRO in order to establish a TSP account. CSRS employees do not receive Agency Automatic (1 percent) Contributions or Agency Matching Contributions.

10.2.5. Contribution Elections. A contribution election is used by an employee to start, stop, or change employee contributions. The employee may elect to contribute at any time as instructed by the employing agency, by submitting a paper election form, by using electronic media, such as the Employee Benefits Information System. An election may not exceed the maximum contribution limit under [5 CFR 1600.22](#). The contribution election may be a percentage of basic pay or a dollar amount that is deducted each biweekly pay period. Percentages and dollar amounts must be expressed in whole numbers. Contribution elections are effective the first full pay period after the agency receives the election. For more information on TSP forms, visit the [Civilian Forms](#) section on the TSP's website.

10.3. TSP Contributions

10.3.1. General. TSP contributions come from three sources: Employee Contributions, Agency Automatic (1 percent) Contributions, and Agency Matching Contributions. Additional information on employee contribution elections, contribution allocations, and agency automatic and matching contributions can be found in 5 CFR Part 1600 and [5 CFR Part 1601](#) or on the TSP website.

10.3.2. Employee Contributions. Employee Contributions are payroll deductions taken from an employee's basic pay before taxes are withheld. The PRO withholds contributions each pay period in the amount directed by the employee (or the automatic enrollment amount if no election is made). See 5 CFR 1600.34. An employee is immediately vested in his or her own contributions and any accrued earnings on such contributions. Maximum contribution limits are as follows:

10.3.2.1. Internal Revenue Service (IRS) Limits. Contribution amounts are subject to the Internal Revenue Code (IRC) limitations on the maximum dollar amount of contributions. The limits set by the IRS may change annually and are published on the TSP website. See 5 CFR 1600.22 and TSP's [Contribution Limits](#).

10.3.2.2. Contribution Limits Through 2005. The maximum employee contribution for FERS, CSRS and CSRS-Offset participants was limited through 2005 to a percentage of basic pay. After 2005, the IRS began setting contribution limits. Additional information regarding FERS limits for 2005 and before can be found at [5 U.S.C. § 8432\(a\)\(2\)](#), [5 U.S.C. § 8351\(b\)\(2\)\(B\)](#), and 5 CFR 1600.22.

10.3.2.3. Catch-up Contributions. A TSP participant age 50 or older may be eligible to make tax-deferred or Roth catch-up contributions from basic pay that are separate from the participant's regular contribution election. Except as provided in subparagraph 10.3.2.3.4, catch-up contributions for FERS employees are not eligible for Agency Matching Contributions. Catch-up contributions may be made at any time during the calendar year if the employee is:

10.3.2.3.1. At least age 50 by the end of the calendar year;

10.3.2.3.2. Making regular TSP contributions at a rate that will result in the participant making the maximum regular contributions permitted under the IRC; and

10.3.2.3.3. The catch-up contribution does not exceed the contribution catch-up annual limit. See 5 CFR 1600.23.

10.3.2.3.4. Beginning the first pay period of calendar year 2021, the Spillover Method [was implemented](#) for catch-up contributions. Eligible employee's will no longer need to make a separate contribution election for catch-up contributions. Once the contribution limit has been reached, the employee's contributions will "spill over" toward the catch-up limit. Contributions spilling over toward the catch-up limit are eligible for Agency Matching Contributions, but only up to the 5 percent of pay to which participants are already entitled under subparagraph 10.3.4. See [TSP Bulletin 19-5](#) and [TSP Bulletin 20-1](#).

10.3.3. Agency Automatic (1 Percent) Contributions. Beginning with an employee's first pay period, an agency contributes an amount equal to 1 percent of the employee's basic pay to the employee's TSP account each pay period. For employees hired on or after December 1, 2008, The TSP Enhancement Act of 2009 (established with [PL 111-31](#)) eliminated the waiting period for FERS employees to receive the Agency Automatic Contributions. See TSP Bulletin 10-7. The agency contribution is not deducted from the employee's pay, nor is it used to determine tax owed by the employee. CSRS employees do not receive an agency contribution. Generally, most FERS employees become vested and entitled to the Agency Automatic Contributions, and associated earnings, after completing 3 years of service. If an employee:

10.3.3.1. Dies before separating from service, he or she is automatically vested in all of the money in the employee's TSP account; or

10.3.3.2. Separates from Federal service, the employee must meet the TSP vesting requirement in order to keep Agency Automatic Contributions and associated earnings.

10.3.4. Agency Matching Contributions. Employees covered under FERS will receive Agency Matching Contributions on the first 5 percent of pay that the employee contributes each pay period to their TSP account. The agency matches the first 3 percent of pay the employee contributes dollar for dollar. The agency matches the next 2 percent of pay at 50 cents per dollar. The agency does not match the employee contributions above 5 percent. Employees covered under CSRS do not receive Agency Matching Contributions.

10.3.5. Contribution Allocations. Employees may make a contribution allocation directing how money deposited into the employee's TSP account is to be invested. This applies only to future deposits and does not affect funds already in the account (an Interfund Transfer reallocates existing investments). The allocation directs the investment of employee contributions, Agency Automatic (1 percent) Contributions, and Agency Matching Contributions. The allocation remains in effect until superseded by a subsequent contribution allocation submitted by the employee. Allocations must be in 1 percent increments and the sum of the percentages elected must equal 100 percent. An employee may change an allocation using the TSP website or using ThriftLine (the automated system or speaking to a TSP Participant Service Representative). Employees may allocate investments among any of the following [TSP investment funds](#):

- 10.3.5.1. Government Securities Investment (G) Fund,
- 10.3.5.2. Fixed Income Index Investment (F) Fund,
- 10.3.5.3. Common Stock Index Investment (C) Fund,
- 10.3.5.4. Small Capitalization Stock Index Investment (S) Fund,
- 10.3.5.5. International Stock Index Investment (I) Fund, and
- 10.3.5.6. Lifecycle (L) Funds.

10.4 TSP Loan Program

10.4.1. General. The [TSP Loan Program](#) allows employees to borrow money from their TSP account while actively employed by the Federal government. TSP participants must apply for a TSP loan and must meet the eligibility criteria set forth in [5 CFR 1655.2](#). Employees may not have more than two outstanding loans (one general purpose and one residential loan) at any time and must set up loan payments through payroll deduction. Repayment must restore the original loan amount, plus interest. Deductions for repayment each pay period is in the amount set out in the Loan Agreement. An employee may make additional payments and may pay off the loan early by making payment directly to TSP.

10.4.2. Types of TSP Loans. There are two types of TSP loans authorized under the TSP loan program, the general purpose loan and the residential loan.

10.4.2.1. General Purpose Loans. General purpose loans may be used for any purpose. Obtaining the loan requires no documentation. The repayment term is 1 to 5 years.

10.4.2.2. Residential Loans. Residential loans may be used only for the purchase or construction of a primary residence. Residential loans require documentation regarding the cost of purchasing or constructing the residence and other documentation as requested by TSP. The repayment term is 1 to 15 years.

10.4.3. Borrowing Limits for TSP Loans

10.4.3.1. Minimum Loan Amount. The initial principal amount of any loan cannot be less than \$1,000.

10.4.3.2. Maximum Loan Amount. The principal amount of a new loan must be less than or equal to the smallest of the following:

10.4.3.2.1. The employee's own contributions and earnings on those contributions in the employee's TSP account balance, not including any outstanding loan balance;

10.4.3.2.2. Fifty percent of the employee's vested account balance, including outstanding loan balance or \$10,000, whichever is greater, minus any outstanding loan balance; or

10.4.3.2.3. \$50,000 minus the employee's highest outstanding loan balance, if any, during the last 12 months.

10.5 In-Service Hardship Withdraw

Employees who meet eligibility requirements may make a financial hardship withdrawal from their TSP account. An employee cannot return or repay the money removed from the TSP account. See [5 CFR 1650.32](#), [TSP In-Service Withdrawal Basics](#), and [TSP In-Service Withdrawals for Financial Hardship](#).

10.5.1. Prior to September 15, 2019. After making the withdrawal, the employee cannot make employee contributions to their TSP account for six months. FERS participants will not receive any Agency Matching Contributions for the period during which the employee is not making employee contributions. However, Agency Automatic (1 percent) Contributions will continue.

10.5.2. On or After September 15, 2019. The rule requiring employee contributions to be suspended for 6 months is eliminated. A financial hardship withdrawal will have no effect on an employee's contributions. After making the withdrawal, restarting the TSP contributions is the employee's responsibility. See [TSP Bulletin 19-9](#).

10.6 Correction of Late Contributions

10.6.1. Late Contributions. A late contribution is a contribution that is timely deducted from an employee's basic pay, but is not timely reported to the TSP for investment. A late contribution may also result from an employee contribution that was timely reported to TSP, but was not timely posted to the participant's account by TSP because the payment record submitted contained errors. See [5 CFR 1605.2](#).

10.6.2. Corrections. The PRO must submit late contributions to TSP as soon as the error is discovered. The PRO must show the "as of" date for the contributions. Breakage for both the employee and agency contributions is calculated by TSP. See [5 CFR 1605.15](#).

10.7 Correction of Employing Agency Errors

10.7.1. General. Agency errors occur when an agency either erroneously submits less contributions to a TSP participant's account than it should have or more than it should have. An error is an act or omission by TSP or the employing agency that is not in accordance with applicable statutes, regulations, or administrative procedures. It does not mean an act or omission caused by events that are beyond the control of TSP or the employing agency. It is the responsibility of the employing agency to determine whether it has made an error that entitles a TSP participant to a correction for missed or insufficient contributions. See [5 CFR 1605, subpart B](#).

10.7.2. Missed or Insufficient Contributions. Types of errors resulting in missed or insufficient contributions include, but are not limited to, when the agency actions prevent an employee from making an election to contribute, when the agency fails to implement an election properly submitted, or when the agency fails to make agency automatic or matching contributions. See [5 CFR 1605.11](#). If as a result of an agency error, a participant does not receive all of the TSP contributions to which he or she is entitled, the following applies.

10.7.2.1. Employer Makeup Contributions. An agency is required to correct any agency automatic (1 percent) contributions and agency matching contributions it failed to make. The PRO should promptly submit all missed contribution to TSP. TSP will calculate breakage due the participant and post the contributions and breakage to the participant's account. See 5 CFR 1605.11. See subparagraph 10.6.2 for information concerning breakage.

10.7.2.2. Employee Makeup Contributions. Missed or insufficient contributions that are the result of an agency error are corrected prospectively. The agency must notify the TSP participant if he or she is eligible to make up the missed contributions and receive matching agency contributions (if applicable). Employee contributions may only be made through future payroll deductions from basic pay. Contributions by check, money order, cash or other form of payment directly from the participant to TSP or to the employing agency for deposit into TSP are not permitted. There is no payment of breakage on makeup employee contributions for missed or insufficient contributions. The employee will receive the tax benefit in the year the contributions are made up.

10.7.2.3. Notification to Employee. The PRO should issue a written notification to the employee indicating that the agency acknowledges that an error has occurred which has caused a smaller amount of employee contributions to be made to the participant's account than should have been made. The agency must advise the employee that he or she may, but is not required, to elect to establish a schedule to make up the deficient contributions through future payroll deductions. An employee has 30 days from the date the notification was received to set up a schedule to make up any deficient contributions.

10.7.2.4. Repayment Schedule. An agency may not require a TSP participant to make up contributions in less than twice the number of pay periods over which error occurred. The maximum length of the repayment schedule may not exceed four times the number of pay periods over which the error occurred.

10.7.3. Removal of Excess or Erroneous Contributions. Generally, an agency must submit a negative adjustment record to TSP in order to identify and remove excess or erroneous contributions for each pay date. TSP will credit the agency with the actual value of the adjusted contribution. The agency must return the original amount of the employee contribution to the participant if applicable. Any positive earnings on employee contributions remain in the participant's account. Positive earnings on agency contributions are forfeited to TSP. Excess or erroneous contributions submitted to TSP before January 1, 2000, may not be returned and remain in the participant's account. See [5 CFR 1605.12](#).

10.8. Corrections Following an Award of Back Pay or Retroactive Pay Adjustment

10.8.1. Erroneously Separated Employee. An erroneously separated employee may request that any employee contributions not made during the period of erroneous separation be deducted from his or her back pay award. See [5 CFR 1605.13](#). If the employee elects to make up contributions for the back pay period, the HRO will either reinstate the employee's contribution election on file at the time of separation, or the employee may submit a new contribution election if he or she would have been eligible to make such an election but for the erroneous separation. The TSP makeup contributions are subject to the following requirements:

10.8.1.1. Breakage is paid on all makeup contributions, both employee and agency. Unless otherwise required by the employing agency or the court or other tribunal with jurisdiction over the back pay case, breakage will be invested according to the participant's contribution allocation on the posting date. If there is no contribution allocation on file, breakage will be calculated using the share prices for the default investment fund in effect for the participant. See 5 CFR 1605.2.

10.8.1.2. The employee will receive the tax benefit in the year the contributions are made. The PRO must annotate retroactive employee contributions by year on the IRS Form W-2, Wage and Tax Statement.

10.8.1.3. TSP will not accept retroactive contributions for erroneous separations directly from the Department of Justice Judgment Fund or by check, money order, cash or other form of payment directly from the participant or agency.

10.8.1.4. If, by error, back pay is paid to an employee prior to making TSP contribution deductions, an individual who is still employed with the agency may make up the missed contributions through future payroll deductions.

10.8.2. Other Retroactive Pay Adjustments. The agency must deduct TSP contributions from the pay adjustment using the employee's election on file for the period of the pay award. Breakage is calculated based on the contribution allocation on file when the contribution would have been made. See 5 CFR Part 1605 and [subparagraph 10.10](#).

* [10.8.3. Catch-Up Contributions for Back Pay Awards and Other Retroactive Pay Adjustments](#). Any corrective contributions or make-up contributions attributable to prior years must not exceed the elective deferral, catch-up, or (if including tax-exempt contributions) annual addition limits applicable to those years. If the participant was age 50 or older during the year to which the back-pay award or other retroactive pay adjustment is attributable, then corrective contributions or make-up contributions will spill over toward the catch-up limit for those years. Any adjustment records will remove catch-up contributions first (if applicable) based on the origination date. Corrective contributions and make-up contributions will spill over, even if the contributions are attributable to years before 2021. However, catch-up contributions attributable to years before 2021 are not eligible for matching. To submit these corrections, agencies should use the regular records, even for amounts beyond the elective deferral limit. See TSP Bulletin 20-1.

10.9. Corrections Due to Misclassification of Retirement System Coverage

An employee that has his or her retirement system coverage misclassified by the employing agency is entitled to have their record corrected.

10.9.1. Misclassified as FERS. When the CSRS employee is misclassified as a FERS participant, the following applies to the corrected record:

10.9.1.1. Employee contributions that exceed any applicable contribution percentage for the pay periods involved may remain in the employee's account. The employee may request the return of excess employee contributions made on or after January 1, 2000, but contributions made before January 1, 2000, must remain in the employee's account; and

10.9.1.2. TSP will forfeit agency contributions made to the CSRS employee's account.

10.9.2. Misclassified as CSRS. When the HRO misclassifies a FERS employee as a CSRS participant, the following applies to the corrected record:

10.9.2.1. The employee may not elect to have the contributions made while misclassified as a CSRS participant removed from the account;

10.9.2.2. The employee may elect to make up contributions that he or she would have been eligible to make as a FERS employee during the period of misclassification;

10.9.2.3. The employing agency must make Agency Automatic (1 percent) Contributions and Agency Matching Contributions on employee contributions made while the employee was misclassified;

10.9.2.4. If the misclassified coverage is a Federal Erroneous Retirement Coverage Corrections Act (FERCCA) correction, the employing agency must submit makeup employee contributions on late payment records. The employee is entitled to breakage on employee contributions, Agency Automatic (1 percent) Contributions, and Agency Matching Contributions;

10.9.2.5. If the misclassification coverage is not a FERCCA correction, the employing agency must submit makeup employee contributions on current payment records. The employee is not entitled to breakage on employee contributions, but breakage is required for retroactive agency contributions; and

10.9.2.6. If employee contributions were made up before OPM implemented regulations on FERCCA corrections and the correction is considered to be a FERCCA correction, an amount to replicate TSP lost earnings will be calculated by OPM and provided to the employing agency for transmission to the TSP record keeper.

* 10.9.2.7. If employee contributions were made up before OPM implemented regulations on FERCCA corrections and the correction is considered to be a FERCCA correction, an amount to replicate TSP lost earnings will be calculated by OPM and provided to the employing agency for transmission to the TSP record keeper. See [5 CFR 1605.14\(b\)\(5\)](#).

10.9.3. Misclassifications That are Corrected to Federal Insurance Contribution Act (FICA) Only. If the HRO misclassifies the employee as either FERS or CSRS and later corrects the retirement coverage to FICA only, the employee is no longer eligible to participate in TSP. For regulations regarding employee and agency contribution in the employee's account, see [5 CFR 1605.14\(c\)](#).

10.9.4. Misclassified as FICA Only. If the HRO misclassifies the employee as FICA only and later corrects the retirement coverage to either FERS or CSRS, the employee may elect to make up contributions that he or she would have been eligible to make as a FERS or CSRS employee during the period of misclassification.

10.10 Breakage

10.10.1. General. Breakage, also referred to as "lost earnings," is the loss incurred or the gain realized on makeup or late contributions. Breakage for both the employee and agency contributions is calculated, posted and charged to the agency or forfeited to TSP in accordance with 5 CFR 1605.2. This includes breakage on late contributions, makeup agency contributions, and loan payments. When breakage is payable, breakage calculations are subject to the following requirements:

10.10.1.1. The contribution is submitted to TSP for deposit more than 30 days from the original pay date; and

10.10.1.2. The net contribution (employee and agency combined) is at least \$1.00.

10.10.2. Posting of Multiple Contributions. If the TSP posts multiple makeup or late contributions, or late loan payments with different "as of" dates for a participant on the same business day, the amount of breakage charged to the employing agency or forfeited to the TSP will be determined separately for each transaction, without netting any gains or losses attributable to different "as of" dates. In addition, gains and losses from different sources of contributions or different TSP Funds will not be netted against each other. Instead, breakage will be determined separately for each "as of" date, TSP Fund, and source of contributions. This is done to provide clarity due to multiply occurrences and to provide the employee complete information in order to make accurate and sound decisions.

10.11 Contributions Missed as a Result of Military Service Under USERRA

10.11.1. Employee Contributions. Upon their return to service, FERS and CSRS employees who separated from Federal civilian service or who were on AUS in order to perform military service may be eligible to make up employee contributions (including any catch-up

contributions for employees age 50 or older) missed because of their military service. FERS employees are eligible to receive matching agency contributions.

10.11.1.1. The PRO must deduct employee contributions from future pay. Employees must meet conditions specified in [5 CFR 1620.40](#). The allowable amount of any makeup contributions will be offset by the dollar amounts an employee contributed to TSP while performing military service. Total contributions may not exceed the IRS limit in effect the year the contribution would have been made.

10.11.1.2. Upon reemployment or return to a pay status after military service, an employee has 60 days to elect to make up any missed contributions. Missed employee contributions are made up in accordance with 5 CFR 1605.11(c). Employees who wish to makeup contributions under this authority should review the information on the TSP website regarding [Resuming and Making Up Contributions](#) and 5 CFR 1605.31.

10.11.2. Agency Automatic (1 percent) Contributions. The agency must deposit the Agency Automatic (1 percent) Contribution a FERS employee would have been eligible to receive during the period of AUS or separation. The contribution is based on the basic pay the employee would have earned and is entitled to breakage.

10.11.3. Agency Matching Contributions. The agency must deposit matching contributions based on the amount a FERS employee contributed to the uniformed services account from his or her military basic pay. Amounts contributed from other sources (such as uniformed services incentive, special, or bonus pay) are not used to determine Agency Matching Contributions. The agency pays matching contributions on any makeup employee contributions made after the employee returns from military service (unless the maximum matching has already been received). Agency Matching Contributions are entitled to breakage.

11.0 POST-56 MILITARY DEPOSIT

11.1. General

11.1.1. Background. On January 1, 1957, Social Security began using military service in the computation of Social Security benefits. As a result, Federal (employee) retirees with an annuity that included credit for military service performed after 1956 lost credit for time spent in military service when they became entitled to Social Security benefits. In 1982, Congress enacted a law allowing Federal employees who were also veterans with post-1956 military service to pay a deposit into FERS or CSRS to avoid the loss of their military service credit.

11.1.2. Post-56 Military Deposit. An employee must pay a deposit prior to retirement for military service performed after December 31, 1956, or the military service will not count toward the CSRS or FERS retirement annuity. This deposit is referred to as the Post-56 Military Deposit. Making the Post-56 Military Deposit allows an employee to receive credit for military service under both Social Security and CSRS or FERS.

11.1.3. Authoritative Guidance. See [5 U.S.C. § 8334\(j\)](#) and [5 U.S.C. § 8422\(e\)\(1\)\(A\)](#); [5 CFR 831.2101-2107](#) and [5 CFR 842.307](#); and the CSRS and FERS Handbook, Chapter 23.

11.1.4. Post-56 Deposit Payments. The employee may make a Post-56 Military Deposit in installment payments or a lump-sum payment. Installment payments must be in whole dollar amounts not less than \$25 per pay period, except for the last payment that may be in any amount to complete repayment. Unpaid balances are subject to interest calculations, and OPM issues [BALs](#) concerning the [rate of interest](#) to use. The employee must submit payments, other than payroll deductions, directly to either [pay.gov](#) or:

DFAS-Cleveland
ATTN: J3DCBB/559
1240 East 9th Street
Cleveland, OH 44199

The payment must be in the form of a negotiable instrument made payable to “Disbursing Officer.” Mailed payments must be received by the disbursing officer by the close of business on the last regular business day before the interest accrual date. The date of receipt by the disbursing officer will constitute the date of payment, not the date of the postmark. The PRO computes interest on the unpaid balance on the employee’s interest accrual date.

11.1.4.1. Timing of Payment. Employees must complete the deposit for military service prior to separation from service. If an employee dies, but was eligible at the time of death to make a deposit, the employee's survivor may make the deposit in one lump sum to the former employing agency before OPM completes adjudication of the survivor annuity application.

11.1.4.2. Administrative Errors. An employee, who was eligible to make a deposit for military service but failed to complete the deposit prior to separation due to an administrative error may complete the deposit in a lump sum if OPM determines an agency error occurred. If, after separation, a retiree requests to make a deposit and OPM determines that an agency error occurred, OPM will issue a letter to the agency. This letter will explain the administrative error in detail and advise the agency to compute and accept the Post-1956 Military Service Deposit. See [BAL 13-103](#).

11.2. FERS Post-56 Military Deposit (“Buy Back”)

11.2.1. General. A FERS employee may receive credit for post-1956 military service under FERS rules only if he or she makes a Post-56 Military Deposit equal to the applicable percentage rate based on the period of service and the military basic pay he or she earned during the period of military service, plus interest. See [Credit for Military Service](#). The deposit is required in order to receive credit for military service performed after December 31, 1956. The deposit is necessary to get credit for both FERS eligibility and annuity computation purposes. No deposit is due for military service performed before January 1, 1957. The employee is not charged interest if the deposit is paid in full before the first interest accrual date (IAD). Interest accrual starts and is compounded annually beginning 2 years from the date of the first employment under

FERS.

11.2.2. IAD. For FERS employees first employed prior to January 1, 1987, interest started to accrue on January 1, 1989. Therefore, the initial IAD for these employees is January 1, 1990. For employees first employed on or after January 1, 1987, interest began to accrue 2 years from the date the employee was first employed and subject to FERS. Therefore, the initial IAD for these employees is 1 year after the 2-year interest free grace period ends.

11.3 CSRS Post-56 Military Deposit (“Buy Back”)

11.3.1. General. A CSRS employee first employed on or after October 1, 1982, will receive credit for post-1956 military service only if he or she makes a Post-56 Military Deposit equal to 7 percent of the military basic pay earned during the post-1956 military service, plus interest. Employees first employed under CSRS before October 1, 1982, have the option of making deposits for post-1956 military service and avoiding a possible annuity reduction.

11.3.2. Interest Accrual Dates. For CSRS employees, interest begins to accrue on the military service deposits on October 1, 1985, or 2 years after an employee is first employed or reemployed after a period of military service in a position subject to CSRS. The IAD is the date each year when the PRO adds the accrued interest to the amount owed by the employee. The initial IAD is the date 1 year after the end of the interest free grace period. Thereafter, the IAD falls on the anniversary of the first IAD until the employee pays the deposit in full. The employee is not charged interest if the deposit is paid in full before the first IAD.

DEFINITIONS

1.0 General

The following list defines general terms of significance or importance relating to federal civilian pay policies for the DoD that are discussed in various chapters. Definitions are provided for general information and, by no means, represent an exhaustive list of all financial management terms. Terms are not defined where standard dictionary definitions apply.

2.0 List of Definitions

Absent Without Leave (AWOL)

Absence from a place of duty without permission or authorization.

Absent-Uniformed Service (AUS)

An employee is absent (whether in pay or non-pay status) to perform duty with the uniformed services and has reemployment rights under Uniformed Services Employment and Reemployment Rights Act (USERRA). See Title 38, United States Code (U.S.C.), Chapter 43 ([38 U.S.C., Chapter 43](#)).

Administrative Offset

Withholding funds payable by the United States (including funds payable by the United States on behalf of a state government) to, or held by the United States for, a person to satisfy a claim. See [31 U.S.C. § 3701\(a\)\(1\)](#). This includes offset from disposable pay (salary).

Administrative Workweek

Any period of [seven](#) consecutive 24-hour periods designated in advance by the head of the agency. See [5 U.S.C. § 6101](#), Title 5 Code of Federal Regulations (CFR), section 532.501 ([5 CFR 532.501](#)), and [5 CFR 550.103](#).

Advance of Pay

Single lump-sum payment authorized for payment in advance of an employee's scheduled pay date in accordance with Chapter 3.

Agency

See Federal Agency.

Advanced Compensatory Time for Religious Reasons

Compensatory time requested by the employee and granted by the supervisor for the employee to meet religious requirements. See [5 U.S.C. § 5550a](#).

Allotment

A recurring, specified deduction from pay, authorized by a civilian employee, paid to an allottee.

Allottee

A person or institution to whom an allotment is made payable.

Alternative Work Schedule (AWS)

An arranged tour of duty that varies from a regular tour of duty and includes flexible and compressed work schedules. See the Office of Personnel Management's [\(OPM\) Handbook on AWS](#) for more information.

Annuitant

A retired federal employee or his/her survivor who is receiving payments from OPM.

Appropriated Fund

The amount that agencies may obligate during the period of time specified in a particular appropriation act.

Availability Pay

Premium pay provided for criminal investigators in job series 1811 and 1812 who are required to work, or be available to work, substantial amounts of unscheduled overtime duty based on the needs of the employing activity.

Base Realignment and Closure (BRAC)

The congressionally authorized process under [10 U.S.C. § 2687](#) that gives the Secretary of Defense the authority to reorganize the base structure to more efficiently and effectively support the forces, increase operational readiness, and facilitate new ways of doing business.

Basic Pay

Also referred to as "base pay." Basic pay is the total amount of pay received at a rate fixed by law or administrative action for the position held by the employee. Basic pay does not include certain types of pay, for example: bonuses, allowances, overtime or holiday pay.

Basic Work Requirement

The number of hours, excluding overtime hours, which an employee must work or otherwise account for by leave, credit hours, holiday hours, excused absences, compensatory time off, or time off as an award. See [5 U.S.C. § 6121](#).

Basic Workweek

For a full-time employee, a basic workweek is the 40-hour workweek established in accordance with [5 CFR 610.111](#). Unless specifically designated, a basic workweek for full-time employees is five 8-hour days, Monday through Friday. See [5 CFR 610.121](#).

Beneficiary

For purposes of Volume 8, a beneficiary is the person or persons authorized by law to receive the employee's unpaid compensation. Person or persons may include a legal entity, or the estate of the deceased employee. See [5 CFR 178.203](#) and [5 U.S.C. § 5582](#).

Buy-Back of Leave

The process by which an employee makes arrangements with the civilian payroll office (PRO) to repurchase sick or annual leave that was used by the employee, prior to the approval of his or her claim for compensation under the Federal Employees' Compensation Act at [5 U.S.C., Chapter 81](#).

Calendar Year (CY)

The period starting January 1 and ending December 31.

Civil Service Retirement System (CSRS)

A defined benefit retirement and disability benefits system for federal government employees and members of Congress under [5 U.S.C. §§ 8331-8351](#). The Federal Employees Retirement System (FERS) replaced CSRS under [5 U.S.C., Chapter 84](#) for federal employees who first entered covered service on or after January 1, 1987.

CSRS-Offset

The plan for federal employees whose service is subject to CSRS deductions and Social Security taxes, as described under 5 U.S.C. § 8349. CSRS-Offset employees are covered by Social Security because they were separated from CSRS covered federal employment for more than 1 year and returned to a position in which they were covered by CSRS after 1983. Old-Age, Survivors, and Disability Insurance (OASDI) withholdings are offset from their CSRS contributions so that the combined Social Security and CSRS contributions are the same as for employees who have CSRS coverage only.

Commercial Garnishment

For purposes of Volume 8, a commercial garnishment is the process by which a federal agency withholds pay from a federal civilian employee pursuant to [5 U.S.C. § 5520a](#) in order to honor a garnishment order or similar legal process issued by a court of competent jurisdiction in the enforcement of a commercial debt against the employee.

Compensatory Time Off

Time off granted in lieu of pay for an equal amount of time spent in irregular or occasional overtime work. See [5 U.S.C. § 5543](#).

Compressed Work Schedule

For a full-time employee, consists of an 80-hour biweekly basic work requirement scheduled by an agency for less than 10 workdays. For a part-time employee, denotes a biweekly basic work requirement of less than 80 hours scheduled by an agency for less than 10 workdays. See 5 U.S.C. § 6121(5).

Continental United States (CONUS)

The 48 contiguous states and the District of Columbia.

Continuation of Pay (COP)

Payment made to an employee during an absence from the job due to a traumatic on-the-job injury.

Core Hours

Designated hours and days during which an employee covered by a flexible work schedule is required to be present for duty. See [5 U.S.C. § 6122\(a\)\(1\)](#).

Credit Hours

Hours an employee elects to work with supervisory approval that are in excess of the employee's basic work requirements under a flexible work schedule. See 5 U.S.C. § 6121(4).

Customer Service Representative (CSR)

The liaison between the employee and the PRO and/or the HRO that provides assistance in resolving payroll and leave issues.

Data Element

A named identifier and attributes for each of the entities represented within the Defense Civilian Pay System (DCPS).

Debt

Any amount of money or any property owed to a DoD Component or another federal agency by any person, organization, or entity except another federal agency. Debts include insured or guaranteed loans and any other amounts due from fees, leases, rents, royalties, services, sales of real or personal property, or overpayments; penalties, damages, interest, fines and forfeitures; and all other claims and similar sources. Delays in processing employee-elected coverage or a change in coverage under federal benefits programs are not normally debts if processing delays did not exceed **two** monthly or **four** biweekly pay periods. Amounts due a non-appropriated fund instrumentality are not debts owed the United States unless specifically included by this Regulation. See 31 U.S.C. § 3701(b)(1).

Deductions

Monies withheld, by law (mandatory deductions) or voluntarily (voluntary deductions), from an employee's pay (salary). The three basic types of deductions are:

1. Those required by law, regulations, or decision issued by a court or administrative body;
2. Those for benefits specifically authorized by law, such as health and life insurance; and
3. Voluntary personal allotments to a designated allottee.

Defense Civilian Pay System (DCPS)

The standard DoD civilian pay system approved by the Under Secretary of Defense (Comptroller) Chief Financial Officer to pay employees from appropriated, revolving, or trust funds.

Departmental Reporting

The Defense Finance and Accounting Service (DFAS) organizational entity serving as the focal point for a Military Service, when dealing with OPM and the **Federal Retirement** Thrift Investment Board (**FRTIB**) concerning retirement or Thrift Savings Plan (TSP) reporting.

Disposable Pay

The amount that remains after pay (salary) reduced by amounts that are:

1. Required by law for deduction;
2. Properly withheld for federal, state, and local income taxes;
3. Deducted as health insurance premiums;
4. Deducted as normal retirement contributions; and
5. Deducted as normal life insurance premiums.

Disabled Veteran Leave (DVL)

Leave granted to a newly hired civilian employee who is a military veteran with a service-connected disability rated at 30 percent or more. Such leave may be used in the first year of civil service duty to receive treatment for service-connected injuries. See Chapter 5; [5 U.S.C. § 6329](#); [5 CFR 630, subpart M](#); and [OPM Fact Sheet, Disabled Veteran Leave](#).

Due Process

For purposes of Volume 8, due process refers to legal proceedings carried out in accordance with established law and regulations in connection with the collection of debts due the United States.

Emergency Medical Technician (EMT)

A specialist in the technical details of medical treatment responding to an urgent need for assistance requiring immediate action.

Employee

An employee refers to an individual appointed to a position in DoD and paid from appropriated, revolving, or trust funds. See [5 U.S.C. § 2105](#).

Employer Identification Number (EIN)

A nine-digit number the Internal Revenue Service assigns to identify the tax accounts of employers, sole proprietors, corporations, partnerships, non-profit associations, trusts, estates, government agencies, and other business entities pursuant to [26 U.S.C. § 6109](#).

Entitlement

Legally established benefit available to any person or unit of the federal government meeting eligibility requirements established by law.

Environmental Differential Pay (EDP)

Pay for duty involving unusually severe hazards or working conditions. See [5 U.S.C. § 5343\(c\)\(4\)](#).

Executive Schedule (EX) Employees

Position is appointed and paid to a federal employee according to the Executive Schedule under [5 U.S.C. §§ 5311-5318](#).

Fair Labor Standards Act (FLSA)

The federal law, codified at [29 U.S.C., Chapter 8](#), establishes minimum wage, overtime pay, recordkeeping, and child labor standards for full-time and part-time workers in the private sector and in federal, state, and local governments.

Family and Medical Leave Act (FMLA)

Sets an entitlement for a total of 12 administrative workweeks of unpaid leave for family and medical needs during any 12-month period. FMLA allows employees to use or substitute up to 26 weeks of accrued or accumulated sick leave for unpaid FMLA leave to care for a seriously injured/ill covered Service member as authorized by the fiscal year 2008 National Defense Authorization Act (NDAA) including up to 30 days (or 240 hours) of advance sick leave. See [5 CFR 630, subparts D](#) and F.

Federal Agency

Any executive agency as defined by [5 U.S.C. § 105](#), including the U.S. Postal Service and the Postal Rate Commission; a Military Department as defined by [5 U.S.C. § 102](#); an agency of the legislative branch, including the U.S. Senate and U.S. House of Representatives; and an agency or court of the judicial branch.

Federal Employee Retirement System (FERS)

The retirement plan for employees, described in 5 U.S.C., Chapter 84, and effective January 1, 1987.

Federal Wage System (FWS)

The FWS is a uniform pay-setting system that covers federal appropriated fund and non-appropriated fund blue-collar employees paid by the hour. “Wage grade” is the term used to describe non-supervisory FWS employees. “Wage supervisors” are supervisory FWS employees.

Flexible Hours

The times during the workday, workweek, or pay period within the tour of duty during which an employee covered by a flexible work schedule may choose to vary his or her times of arrival to and departure from the worksite consistent with the duties and requirements of the position. See 5 U.S.C. § 6122(a)(2).

Flexible Work Schedule (FWS)

A work schedule established under 5 U.S.C. § 6122. In the case of a full-time employee, has an 80-hour biweekly basic work requirement that allows an employee to determine his or her own schedule within the limits set by the agency. In the case of a part-time employee, has a biweekly basic work requirement of less than 80 hours that allows an employee to determine his or her own schedule within the limits set by the agency.

Financial Institution

Bank, savings association, or credit union eligible under [31 CFR Part 210](#) to serve as a government depository.

Fiscal Year (FY)

For the federal government, a fiscal year refers to the customized, 12-month period, starting October 1 and ending September 30, used for accounting purposes and preparing financial statements.

Foreign Areas

Geographical locations defined in the Department of State Standardized Regulations ([DSSR](#)) as any area situated outside of the United States, the Commonwealth of Puerto Rico, the Commonwealth of the Northern Mariana Islands, and the possessions of the United States.

Foreign National

A foreign national is a person who is not a citizen or national of the United States.

Foreign National Employee

For the purposes of Volume 8, a foreign national employee is an individual employed by or performing work for U.S. forces outside the United States, its territories, and possessions in a system of employment. See DoD Instruction [\(DoDI\) 1400.25, V-1231](#).

Garnishment

Written notification concerning the attachment of monies to satisfy a debt that results in the withholding of a specified amount from the employee's pay (salary).

General Schedule (GS)

The classification and most common pay scale for the majority of federal government employees, especially employees in professional, technical, administrative, or clerical positions. Administered by OPM, the system consists of 15 grades, from GS-1, the lowest level, to GS-15, the highest level. There are 10 pay steps within each grade.

Holiday Work

Non-overtime work performed by an employee during a regularly scheduled daily tour of duty on a holiday designated in accordance with [5 CFR 610.202](#). See [5 U.S.C. § 5546](#).

Human Resource Office (HRO)

For the purposes of Volume 8, a federal agency's HRO includes any entity, department, or personnel responsible for managing human resource activities related to its employees. These activities may include recruiting and hiring of new employees, orientation and training of current employees, employee benefits, and retention.

Intermittent Work Schedule

Employment on an irregular or occasional basis, without a regularly scheduled tour of duty. See [5 CFR 340.401](#).

Involuntary Repayment

Recovery of debt owed to the federal government by means of salary offset under [5 U.S.C. § 5514](#) by deduction from the current pay of employee without his or her consent.

Irregular or Occasional Overtime Work

Overtime work that is not part of an employee's regularly scheduled administrative workweek. See 5 CFR 532.501.

Leave and Earnings Statement (LES)

A document provided to each employee showing gross pay, deductions, net pay for a pay period and cumulative totals for the year to date, along with leave balances at the end of the pay period.

Leave Record

The amounts of leave earned and used, and the balance available.

Leave Without Pay (LWOP)

A temporary non-pay status and absence from duty and, in most cases, granted at the employee's request.

Leave Year

The period beginning with the first complete pay period in a calendar year and ending with the day immediately before the first day on the first complete pay period of the following calendar year.

Limitations on Premium Pay (Pay Caps)

The maximum biweekly and aggregate limitations for premium pay. See [5 CFR 550.105](#).

Locality Payment

A locality-based comparability payment, payable to GS employees under [5 U.S.C. § 5304](#) and [5 CFR 531, subpart F](#). See [5 CFR 531.602](#).

Lump-Sum Leave Pay

Payment for accumulated annual leave upon separation or change to a nonconvertible leave system.

Military Leave

An approved absence with pay authorized under [5 U.S.C. § 6323](#).

Military Service Deposit (MSD)

A payment made to the civilian retirement fund to allow creditable military service to be used toward civilian retirement eligibility and in civilian annuity computations. For additional information on MSDs, see the [DFAS MSD](#) webpage.

National Guard

The Army or Air National Guard of a state, a United States territory (e.g., Guam, Puerto Rico, or the Virgin Islands) or the District of Columbia.

National Guard Technician

A federal employee of the National Guard hired under [32 U.S.C. § 709](#) and does not include National Guard Bureau employees hired under Title 5 of the U.S. Code or other authority.

Net Pay

The remaining amount of wages or salary due after all payroll deductions.

Non-Appropriated Funds (NAFs)

Monies that are not appropriated by the Congress to incur obligations and make payments out of the U.S. Treasury. NAFs come primarily from the sale of goods and services to DoD military and civilian personnel and their family members.

Non-Appropriated Fund (NAF) Employee

A civilian employee who is paid from non-appropriated funds of the Army and Air Force Exchange Service, Navy Exchanges, Marine Corps Exchanges, Coast Guard Exchanges, or any other instrumentality of the United States under the jurisdiction of the Armed Forces which is conducted for the comfort, pleasure, contentment, or physical and mental improvement of members of the Armed Forces. See 5 U.S.C. § 2105(c) and [DoDI 1400.25, V-1401](#).

Non-Foreign Areas

The states of Alaska and Hawaii, the Commonwealths of Northern Mariana Island and Puerto Rico, territories and possessions of the United States that the Secretary of State has designated as being within the scope of Part II of [Executive Order 10000](#).

Overtime Hours

For flexible work schedule, refers to all hours in excess of 8 hours in a day or 40 hours in a week officially ordered in advance and excludes credit hours. For compressed work schedules, overtime hours refers to any hours in excess of those specified hours for full-time employees that constitute the compressed work schedule. For part-time employees, overtime hours are hours in excess of the compressed work schedule for a day (must be more than 8 hours) or, for a week (must be more than 40 hours).

Pay (Salary)

Pay and salary have the same meaning. They include basic, premium, and any other authorized pay and allowances other than travel and transportation expenses.

Pay Period

A segment of time during which employees perform work and receive pay. For most federal civilian employees, a pay period covers 14 consecutive days, which normally begins on Sundays.

Pay Record

Part of each civilian employee's master pay record that contains all transaction information on payments and deductions with an audit trail to the authorizing documents. The pay record includes information such as pay grade, record of payments, all earnings separately identified by type (e.g., basic pay, bonuses, premium pays, and allowances), allotments, any deductions, year-to-date gross earnings, taxable earnings, and taxes withheld.

Payroll Certifying Officer

A person appointed to certify the accuracy and propriety of payroll for compensation for personal services.

Permanent Change of Station (PCS)

The assignment, detail, or transfer of an employee to a different permanent duty station (PDS) under a competent travel authorization that does not specify the duty as temporary, provide for further assignment to a new PDS, or direct the employee to return to the old PDS.

Premium Pay

The dollar value of earned hours of compensatory time off and additional pay authorized by [5 U.S.C. § 5541](#), and includes pay for overtime, night, Sunday, or holiday work, stand by duty, administratively uncontrollable overtime work or availability duty. See 5 CFR 550.103.

Prevailing Rate Employee

An individual employed in a particular trade or craft, or other skilled mechanical craft; or in an unskilled, semiskilled, or skilled manual labor occupation; or any other individual in a position having trade, craft or laboring experience and knowledge as the paramount requirement. Also referred to as "federal wage employees." See [5 U.S.C. § 5342](#).

Rate of Basic Pay

The rate of pay fixed by law or administrative action for the position held by the employee, to include locality pay, and special pay adjustments for law enforcement officers, but does not include any other types of pay. See [5 CFR 531.203](#).

Reemployed Annuitant

A person who is receiving a CSRS or FERS retirement annuity and, at the same time, is earning a paycheck as a federal government employee. See [5 CFR Part 837](#).

Regularly Scheduled Work

Work scheduled in advance of an administrative workweek under an agency's procedures for establishing workweeks in accordance with 5 CFR 610.111, excluding any such work to which availability pay under [5 CFR 550.181](#) applies. See 5 CFR 550.103.

*Remote Work

An alternative work arrangement that involves an employee performing their official duties at an approved alternative worksite away from an agency worksite, without regularly returning to the agency worksite during each pay period.

Salary Offset

An administrative offset under 5 U.S.C. § 5514 to collect a debt owed by a federal government employee through deductions, at one or more officially established pay intervals, from the current pay account of the employee without his or her consent.

Scheduled Overtime Work

Overtime work scheduled and approved prior to the beginning of the employee's regularly scheduled administrative workweek.

Severance Pay

Pay authorized for eligible employees involuntarily separated from federal service. See [5 U.S.C. § 5595](#).

State

A state or territory of the United States, including the Commonwealth of Puerto Rico.

*Telework

A flexible work arrangement under which an employee performs the duties and responsibilities of such employee's position, and other authorized activities, from an approved worksite other than the location from which the employee would otherwise work.

Thrift Savings Plan (TSP)

The tax-deferred savings plan established under [5 U.S.C. §§ 8431-8440f](#). The TSP Enhancement Act of 2009, [TSP Bulletin 11-U-4](#), authorized TSP to add a Roth feature to the plan in addition to the current traditional contribution plan. See [TSP website](#) for additional information.

TSP Loan

Funds borrowed by employees and members of the uniformed services from their individual TSP accounts in accordance with the requirements at [5 U.S.C. § 8433\(g\)](#).

Tour of Duty

The hours of a day (a daily tour of duty) and the days of an administrative workweek (a weekly tour of duty) that creates an employee's regularly scheduled administrative workweek. See [5 CFR 610.102](#). Under a flexible work schedule means the limits set by an agency within which an employee must complete his or her basic work requirement. Under a compressed work schedule or other fixed schedule, tour of duty is synonymous with basic work requirement.

United States (U.S.)

[Includes the](#) 50 states and the District of Columbia, unless otherwise qualified.

Voluntary Deduction

Deductions from an employee's pay requiring written authorization from the employee to affect withholding.

Waiver

In the context of debt collection, the cancellation, forgiveness, or non-recovery of a debt owed by an employee to an agency as permitted or required by law. See Volume 16 for waiver standards.

CHAPTER 1

GENERAL INFORMATION

1.0 PURPOSE

The policies addressed in Volume 9 apply to all personnel traveling under orders funded by the DoD. This includes military members, civilian employees, members of the Reserve Components, dependents on official orders, and travelers on DoD invitational travel authorizations. Individual DoD Component travel implementing guidance remains in use to provide direction for travel order preparation, administration and accounting.

2.0 AUTHORITATIVE GUIDANCE

Volume 9 provides supplemental instructions on the payment of allowances authorized by the Joint Travel Regulations ([*JTR*](#)). The DoD chartered Per Diem, Travel and Transportation Allowance Committee (PDTATAC) publishes the JTR. The JTR directly implements the travel and transportation allowances authorized by law for members of the Uniformed Services, and also implements guidance from the General Services Administration's (GSA) Federal Travel Regulation ([*FTR*](#)) for DoD civilian employees.

2.1 Additional Guidance

2.1.1. Additional guidance pertinent to the U.S. Air Force and Space Force is in the [*Department of the Air Force Instruction 24-602, Volume 1, Passenger Movement*](#).

2.1.2. Additional guidance pertinent to the U.S. Navy is available in the [*Navy Passenger Transportation Manual \(OPNAVINST 4650.15C CH-1\)*](#).

2.1.3. Additional guidance pertinent to the U.S. Marine Corps is in the [*Marine Corps Assignment, Classification, and Travel System Manual \(ACTSMAN\)*](#).

2.1.4. Additional guidance pertinent to the use of Nonappropriated Funds is in the [*DoD Instruction 1400.25, Volume 1405*](#).

2.2 Exceptions

The Office of the Under Secretary of Defense (Comptroller) (OUSD(C)) is the approving authority for exceptions to policy. Requests for exceptions must include a justification, a recommendation and approval from the appropriate DoD Component command channel at or above the level of the Deputy Chief Financial Officer (DCFO), OUSD(C). Send requests through the appropriate DoD Component to the Defense Finance and Accounting Service (DFAS), Director, [Accounting and Finance Policy Division \(DFAS-ZPT\)](#), 8899 E. 56th Street, Indianapolis, IN, 46249. DFAS-ZPT will review and recommend approval/disapproval to the DCFO, OUSD(C), who will make the final decision.

3.0 EFFECTIVE DATE OF JTR CHANGES

See the information on “EFFECTIVE DATE OF REGULATION CHANGES” in the Introduction to the JTR for explanations of JTR effective dates. The DFAS-ZPT may release policy memorandums affecting Volume 9 that implement PDTATAC determinations, if necessary. These policy memorandums remain in effect until published in a change to Volume 9.

4.0 RESPONSIBILITIES

The OUSD(C) has ultimate responsibility for the policies contained in Volume 9. The DoD Components may submit requests for changes to DFAS-ZPT. The DFAS-ZPT will review requests and initiate recommended changes to Volume 9 if necessary.

5.0 ROUTING AND FORMAT FOR RECOMMENDING CHANGES

Recommendations for changes should include a full explanation regarding the need and rationale for the proposed change. Provide details when the proposal is the result of an actual situation. Addresses for submission of proposed changes are:

Army:	Assistant Secretary of the Army (Financial Management and Comptroller) 109 Army Pentagon Washington, DC 20310-0109
Navy:	Senior Civilian Official Office of the Assistant Secretary of the Navy (Financial Management and Comptroller) 1000 Navy Pentagon Washington, DC 20350-1000
Air Force and Space Force:	Assistant Secretary of the Air Force (Financial Management and Comptroller) 1130 Air Force Pentagon Washington, DC 20330-1130
U.S. Marine Corps:	Commandant of the Marine Corps Headquarters, U.S. Marine Corps Programs & Resources Department 3000 Marine Corps Pentagon Washington, DC 20350-3000
Defense Agencies and DoD Field Activities:	Defense Finance and Accounting Service Attention: DFAS-ZPT 8899 East 56th Street Indianapolis, IN 46249

NOTE: DFAS-ZPT will return recommendations from the Military Services if they have not passed through the specified organization.

6.0 REQUIREMENTS FOR REPORTING EMPLOYEE TRAVEL

Federal agencies are required by the GSA to report the use of Government aircraft to carry senior Federal officials and non-Federal travelers, on a semi-annual basis in accordance with (IAW) the FTR 301-70.906 and 301-70.907. Agencies must also report all instances of first class and business class travel, on an annual basis IAW the FTR 300-70, Subpart B.

NOTE: DoD Service Components/Agencies must be mindful of any additional Office of Management and Budget travel-specific reporting requirements, which often originate from Executive Orders (EO).

6.1 Report for Travel on Government Aircraft by Senior Federal Officials

Except when a trip is classified, the following information must be reported to the GSA:

6.1.1. The person's name with indication that he/she is either a senior Federal official or a non-Federal traveler, whichever is appropriate;

6.1.2. The traveler's organization and title or other appropriate descriptive information (e.g., dependent or press);

6.1.3. Name of the authorizing agency;

6.1.4. The official purpose(s) of the trip;

6.1.5. The destination(s);

6.1.6. For personal or political travel, the amount that the traveler must reimburse the Government (i.e., the full coach fare or appropriate share of that fare);

6.1.7. For official travel, the comparable City Pair Program fare (if available to the traveler) or the full coach fare if the City Pair Program fare is not available; and

6.1.8. The cost to the Government to carry this person (i.e., the appropriate allocated share of the Federal or Close Air Support aircraft trip costs).

NOTE: Additional information concerning the GSA's requirement to report travel on Government aircraft by senior Federal officials and non-Federal travelers, to include the Senior Federal Travel Reporting tool and submitting negative reports is available at [Senior Federal Travel Reporting](#).

6.2 Other Than Coach Class (OTCC) Reporting

OTCC accommodations are defined in the FTR as first class, business class and premium economy class. When reporting OTCC accommodations to GSA, agencies are only required to report first class and business class. Reporting is not required for premium economy class accommodations. Agencies must separate first class from business class when reporting. An agency must submit a negative report when it has no OTCC accommodations to report. All instances of first class and business class accommodations paid by the Government, which includes any accommodations used as part of a multi-leg or multi-segmented trip paid by the Government must be reported. Beginning in fiscal year 2015, GSA requires agencies to report premium class travel by ticket, rather than segments as in previous years. If any portion of the ticket purchased involves first class or business class accommodations, the entire cost of the ticket must be reported.

6.3 First Class and Business Class Accommodations That Do Not Require Reporting:

6.3.1. Any first class or business class accommodation paid by the traveler [with personal funds](#),

6.3.2. Those acquired by the traveler through frequent flyer points or benefits,

6.3.3. Those which are considered a free upgrade, or

6.3.4. When the Federal Government pays coach class fares for first class or business class accommodations.

6.4 Negative Reports and Exceptions to Reporting First Class and Business Class Travel

6.4.1. Negative Reports. DoD Components that have no first class or business class accommodations to report must still submit a negative report to GSA annually.

6.4.2. Exceptions to Reporting Premium Class Travel. Agencies are not required to report data protected from public disclosure by statute or EO; however, they must submit, in a cover letter to the GSA the following aggregate information:

6.4.2.1. Aggregate number of authorized OTCC trips protected from disclosure,

6.4.2.2. Total cost of actual OTCC fares paid that exceeded coach class fare, and

6.4.2.3. Total cost of coach class fares that would have been paid for the same travel.

NOTE: Additional information concerning the GSA requirements for reporting first class or business class accommodations, to include gaining access to the on-line reporting tool, may be found at [Travel Reporting](#).

CHAPTER 4

TRANSPORTATION ALLOWANCES

1.0 GENERAL

1.1 Purpose

This chapter provides general policy guidance to official travelers on transportation allowances.

1.2 Authoritative Guidance

This chapter provides guidance under authorities contained in statute, the Joint Travel Regulations ([JTR](#)), and the Federal Travel Regulation ([FTR](#)).

2.0 TRANSPORTATION MODE

The Authorizing Official (AO) should direct or authorize the transportation mode for official travel. If the AO does not direct a specific transportation mode, air transportation is ordinarily the authorized mode. The traveler must use the Travel Management Company (TMC). See the JTR, paragraph 010201. The Transportation Office(r) (TO) is responsible for issuing policy on the use and procurement of transportation. Travelers should contact the TO for information regarding available transportation services and costs.

3.0 TRAVEL BY PRIVATELY OWNED VEHICLE (POV)

3.1 Use of POV

An AO may authorize, but cannot direct a traveler to use a POV in connection with travel on official Government business. This limitation also applies to travel as a passenger in a POV. See the JTR, paragraph 020210. An employee may not be prohibited from using a POV on official travel. See [the FTR 301-70.105](#) on administering the authorization and payment of employee POV travel expenses.

*3.2 When POV Use is More Advantageous to the Government

POV use on a temporary duty (TDY) assignment is [not automatically considered to be advantageous to the government](#). AOs must consider the preferred transportation methods and the determination factors outlined in the JTR, paragraph 020203 before authorizing POV transportation.

3.3 When POV Use is Not More Advantageous to the Government

If a traveler elects to use a POV instead of the transportation mode authorized, then:

3.3.1. Reimbursement must be limited to the constructed cost of the authorized transportation mode, which is the sum of per diem and the transportation cost the Government would have incurred when traveling by the authorized transportation mode, unless otherwise stated in the JTR. See the JTR, paragraph 020210.F; and

3.3.2. Charge leave in accordance with personnel regulations for travel time that is not official travel time. See the JTR, paragraph 020302.

3.4 Allowable Travel Time Policy

The standard DoD procedure for administering travel time for all DoD travelers is based on the traveler's required period of duty at the TDY point. All time that is not official travel time must be accounted for in accordance with appropriate personnel regulations. See the JTR, paragraph 020302.

3.4.1. Day of Arrival at the TDY Point. When the traveler is required to perform duty at the TDY point on the day of arrival, that day is a day of duty. Travel time is granted prior to that first duty day. When the traveler performs no duty at the TDY point on the day of arrival, that day is a travel day.

EXAMPLE: POV travel is authorized as advantageous to the Government. The authorized travel time is two days. The traveler performs duty on the day of arrival at the TDY point. For this example, Departure/Arrival is D/A, Permanent Duty Station is PDS, Private Automobile is PA, **TD is TDY** and Mission Complete is MC.

<u>D/A</u>	<u>DATE</u>	<u>LOCATION</u>	<u>MODE</u>	<u>REASON FOR STOP</u>
Dep	1 Oct	PDS	PA	
Arr	3 Oct	TDY point A		TD
Dep	8 Oct	TDY point A	PA	
Arr	10 Oct	PDS		MC

NOTE: Refer also to DoD [\(DD\) Form 1351-2](#), Travel Voucher or Subvoucher, for explanation of codes.

In this example, October 3 is a day of duty and October 1 and 2 are travel days. Using the same example, if the traveler did not perform duty on October 3 at the TDY point, October 2 and 3 are the travel days. The AO must determine if October 1 should be charged as leave in accordance with DoD Component procedures.

3.4.2. Day of Departure From the TDY Point. When a traveler is required to perform duty at the TDY point on the day of departure, that day is a day of duty. Travel time is granted after that last day. When a traveler is not required to perform duty at the TDY point on the day of departure from the TDY point, that day is a travel day.

EXAMPLE: POV travel is authorized as advantageous to the Government. The authorized travel time is two days. The traveler performs duty on the day of departure from the TDY point.

<u>D/A</u>	<u>DATE</u>	<u>LOCATION</u>	<u>MODE</u>	<u>REASON FOR STOP</u>
Dep	1 Oct	PDS	PA	
Arr	3 Oct	TDY point A		TD
Dep	8 Oct	TDY point A	PA	
Arr	10 Oct	PDS		MC

In this example, October 8 is a day of duty and October 9 and 10 are travel days. Using the same example, if a traveler performs no duty on October 8 at the TDY point, October 8 and 9 are travel days. The AO must determine if October 10 should be charged as leave in accordance with DoD Component procedures.

*4.0 FIRST CLASS OR BUSINESS CLASS ACCOMMODATIONS

Travelers are not entitled to reimbursement for [first class or business class](#) accommodations unless properly authorized or approved. See the JTR, paragraph 020206. It is DoD policy that travelers using commercial air carriers for official travel must use economy or coach accommodations. This does not preclude the traveler from accepting a complimentary seating upgrade offered by the carrier.

5.0 UNUSED/LOST/STOLEN TRANSPORTATION REQUESTS OR TICKETS

5.1 Unused/Lost/Stolen Transportation Requests or Tickets

If a traveler does not use the ticket (paper or electronic) for Government-procured transportation, the traveler must return that ticket to the TO/TMC. Travelers utilizing electronic tickets for which they do not have an issued boarding pass must return a copy of their itinerary to the TO/TMC. The traveler must complete and have the issuing authority (i.e., TO/TMC) sign an original and one copy of a [DD Form 730](#), Receipt for Unused Transportation Requests and/or Tickets, Including Unused Meal Tickets. The [Standard Form \(SF\) 1170, Redemption of Unused Tickets](#), may also be used if its use is in accordance with Service regulations. The traveler must attach a copy of the DD Form 730/SF 1170 (or other receipt) to the travel claim. If a traveler loses a paper ticket or transportation request, the traveler must contact the TO/TMC for assistance. A traveler remains financially responsible to the Government for the cost of a lost or stolen paper ticket or transportation request, regardless of fault or negligence. If the travel order directs use of Government-procured transportation, do not reimburse the traveler for personally procured transportation unless the AO provides a statement to allow reimbursement.

5.2 Involuntarily Relinquished Airline Accommodations

Penalty payments or credits issued by air carriers under certain provisions of their tariffs for failing to furnish accommodations for confirmed reserved space belong to the U.S.

Government, and not the traveler, when the payments result from travel on official business and the traveler was involuntarily denied boarding. In accordance with the JTR, paragraph 020206, travelers must request that the transportation carrier show "Treasurer of the United States" as the payee on the compensation check and forward the payment according to Service/DoD Agency directives.

6.0 RENTAL VEHICLES

An AO must authorize or approve use of a rental vehicle. It is mandatory that travelers use an available TMC to obtain a rental vehicle. When a TMC is available, but not used, reimbursement is limited to what the cost would have been if a TMC made the arrangements. See the JTR, Table 2-8. Only the individual authorized a rental vehicle on their travel order, and named on the rental agreement/contract, may receive reimbursement for authorized rental car expenses. See the JTR, paragraph 020209.

6.1 Receipts

When a traveler is authorized and uses a commercial rental vehicle, a receipt from the rental agency must be attached to the claim for costs of \$75.00 or more. See the JTR, paragraph 010301.

6.2 Mileage Charges

When a mileage charge is included in the cost of a rental vehicle, the total cost of which is \$75.00 or more, a statement showing the official distance driven must be attached to the claim.

6.3 Leisure Use With Official Use

A traveler who is on official travel with an authorized rental vehicle will only be reimbursed for the use of a rental car while on official travel. The Defense Travel Management Office (DTMO), [U.S. Government Rental Car Agreement](#), only covers official travel. Rental car vendors have different procedures and the traveler must check with the rental car vendor to determine if the rental car must be returned after the official business portion of TDY in order to obtain another rental car for personal use.

6.4 Reimbursement for the Cost of Damages to Commercial Rental Vehicles

Rental cars covered by the DTMO rental car agreement include full liability and vehicle loss, and damage insurance coverage in the Government rate. Reimbursement or payment to the rental agency for damages must be made by the Government, or by the traveler if it is determined that the traveler was not within the scope of employment when the loss occurred. When Government reimbursement is approved, and extra collision insurance is not purchased or included in the basic rental contract (e.g., in accordance with DTMO negotiated agreements), the traveler may be reimbursed for personal funds paid to the rental agency for the full amount of damage sustained, or the deductible amount (when contained in the rental agreement), for a vehicle properly rented and damaged in the performance of official business. The JTR, paragraph 020209 defines official purposes. The traveler submits a claim for reimbursement through the AO to the

claims office of the supporting Staff Judge Advocate for adjudication. Supporting documentation must include, but is not limited to:

6.4.1. Police accident reports and traffic citations;

6.4.2. Statements from witnesses; and

6.4.3. Statements and itemized bills from the traveler and rental agency to ensure that the claim is valid, not settled, and in an amount commensurate to the actual damage.

NOTE: The inclusion of an accident report assists legal authorities in establishing fault on the part of the party not employed by the Government, which may enable the Government to recoup its loss when the negligence of that party can be established without costly investigation. Reimbursement is prohibited for damage sustained to a rental vehicle while being used on other than official business, or by willful and wanton negligence on the part of the traveler.

6.5 Damage Claims Received From Rental Agencies

Rental agencies may submit a damage claim directly to the Government. To be considered for payment, these claims must be supported by appropriate documentation. Claims for reimbursement or payments made directly to the rental agency may be made in the full amount of damage sustained or the deductible amount (when contained in the rental agreement). At a minimum, include documentation provided in paragraph 6.4.

7.0 LOCAL TRAVEL IN AND AROUND PERMANENT OR TEMPORARY DUTY STATIONS

7.1 General

The AO should make sure local directives clearly define the local area in which transportation expenses may be authorized or approved for conducting official business. See the JTR, paragraph 0206. When two or more installations are in close proximity, the senior commander or senior Service commander should determine the local area. When travelers perform TDY in the local area and require lodging, travel orders are necessary to support the claim.

7.2 Prohibition on Self Approval

Appointed AOs and approving officials may not approve their own vouchers for payment of local travel.

7.3 Permanent Duty Station

Travelers performing local travel in a POV must provide a trip-by-trip accounting of all travel performed on official business. Refer to Chapter 8, paragraph 6.2 for claim submission instructions and the JTR, paragraph 020204 for distance determinations. When like trips between the same points occur on a repeated basis, one entry on the claim suffices, provided that it reflects

the distance or costs between these points and the dates on which the trips occurred.

7.4 Temporary Duty Station

Travelers performing local travel in a POV at the TDY site may be authorized/approved reimbursement for transportation expenses necessarily incurred for conducting official business in the local area of their TDY stations using the TDY mileage rates for local and TDY travel. See the JTR, paragraphs 020210 and 020212.

8.0 TRAVEL AND TRANSPORTATION FOR FUNERAL HONORS DETAIL

8.1 General

A person not employed by the Government, who participates in a funeral honors detail for a veteran in accordance with Title 10, United States Code, section 1491, ([10 U.S.C. § 1491](#)) may be authorized transportation or transportation reimbursement and expenses. See the JTR, paragraph 032004.

8.2 Transportation Mode

The transportation mode used should be the least costly mode available that adequately meets the needs of the detail. When a POV is the authorized mode, actual expenses rather than a mileage allowance may be paid. Reimbursement for POV actual expenses are limited to fuel, oil, parking, ferry fares, and road, bridge, and/or tunnel tolls.

8.3 Lodging and Meals

The actual cost of lodging and meals may be reimbursed up to the per diem rate prescribed for the area concerned. If individuals serving on the funeral honors detail incur costs to include per diem, an invitational travel authorization will be used.

8.4 Reimbursable Expenses

Reimbursable expenses, in accordance with the JTR, paragraph 0204, may be authorized or approved.

CHAPTER 5

TEMPORARY DUTY TRAVEL (TDY) AND TRAVEL ADVANCES

1.0 GENERAL

1.1 Purpose

This chapter identifies the DoD financial management policies and guidance governing travel administration for travelers performing Temporary Duty (TDY) travel, and for travel advances.

1.2 Authoritative Guidance

Guidance in this chapter is provided under authorities contained in statute, the Joint Travel Regulations ([*JTR*](#)), the [*Federal Travel Regulation*](#), and other portions of the [*DoD Financial Management Regulation*](#). It does not include every condition in which travel and transportation allowances are either authorized, or limited by, the JTR. Information contained in this volume does not supersede the JTR.

2.0 RESPONSIBILITIES

2.1 Departmental Accountable Official (DAO) Responsibilities

DAO's involved in the travel management process must serve as control points within the organization. Individuals that may be officially appointed as DAO's for the travel process may include reviewing officials, approving officials, and authorizing officials (AO). If appointed, DAO's may be held pecuniarily liable under guidance contained in Volume 5, Chapter 5, section [7.0](#) for illegal, improper or incorrect payments resulting from information, data, or services they negligently provide to certifying officers; and upon which the certifying officers relied to certify payment vouchers. DAO's must be appointed and terminated using a DoD [*\(DD\) Form 577*](#), Appointment/Termination Record-Authorized Signature.

2.1.1. General Responsibilities

2.1.1.1. Acknowledge appointment and responsibilities as a DAO by signature.

2.1.1.2. Implement, maintain, and enforce system internal procedures and control points within an organization to minimize opportunities for erroneous payments.

2.1.1.3. Comply with all applicable DoD regulations, policies, and procedures.

2.1.1.4. Respond in a timely manner to inquiries by reviewing officials.

2.1.2 Reviewing Officials. The person appointed as a reviewing official may not serve concurrently as a certifying or disbursing officer. Except where impracticable within afloat or tactical operating forces, persons appointed as reviewing officials must not be in the supervisory chain of command of a certifying or disbursing officer.

2.1.2.1. Conduct prepayment review of travel claims.

2.1.2.2. Conduct post-payment review of travel payments certified by Certifying Officers.

2.1.3 Approving Officials

2.1.3.1. Approve TDY orders.

2.1.3.2. Approve travel claims.

2.1.3.3. If required by the DoD Component, approve claims by signing and dating the DD Form 1351-2, Travel Voucher or Subvoucher, and forward approved vouchers to the appropriate travel computation office. If a voucher is disapproved, annotate the reason and return to the traveler for correction or clarification as necessary.

2.1.3.4. If an allowance or itinerary changes, approve after-the-fact allowable expenses and itinerary or status changes by signing and dating the DD Form 1351-2 and forwarding the approved voucher to the travel computation office.

2.1.4 Authorizing Officials

2.1.4.1. Authorize all appropriate travel allowances except when a higher authority is required such as for premium-class travel.

2.1.4.2. Review lines of accounting for accuracy.

2.1.4.3. Assign travel order control numbers.

2.1.4.4. Determine if travel was performed as authorized.

2.1.4.5. Approve appropriate travel claims when there is a change from the written travel order involving allowances, itinerary, or reimbursable expense, such as a rental car. NOTE: The act of signing and dating the traveler's DD Form 1351-2 in block 21, with remarks in block 29, negates the need for amendments.

2.1.4.6. Sign and date all appropriate travel claims when required by the DoD Component.

2.1.4.7. Ensure the claim is forwarded to the appropriate liaison office or travel computation office within 2 working days following the traveler's submission.

2.2 Certifying Officers

Certifying Officers are pecuniarily liable under Title 31 United States Code (U.S.C.), section 3528 ([31 U.S.C. § 3528](#)). Also, see Title 41 Code of Federal Regulations (CFR) ([41 CFR § 301-71.203](#)) and Volume 5, Chapter 5. Responsibilities for individuals appointed as Certifying Officers are applicable to both Defense Travel System (DTS) and non-DTS travel claims. They must:

- 2.2.1. Be appointed by appropriate authority as prescribed in Volume 5, Chapter 5;
- 2.2.2. Acknowledge by signature their appointment as a certifying officer;
- 2.2.3. Complete a DD Form 577;
- 2.2.4. Certify travel claims for validity and reasonableness;
- 2.2.5. Certify claims for payment as outlined in Volume 5, Chapter 5;
- 2.2.6. Forward certified claims to the supporting disbursing office;
- 2.2.7. Compare pre-trip and post-trip estimate of expenses;
- 2.2.8. Review all lodging receipts; and
- 2.2.9. Review individual reimbursable expense receipts of \$75 or more.

2.3 Responsibilities of Others Involved in the Travel Process

2.3.1. Government Travel Charge Card (GTCC) Agency Program Coordinators (APCs). APCs implement and execute the GTCC program. See DoD Instruction ([DoDI 5154.31, Volume 4](#)) and the [DoD GTCC Regulations](#) for additional information and APC responsibilities.

2.3.2. Resource Managers/Fundholders

- 2.3.2.1. Ensure proper assignment of funding.
- 2.3.2.2. Maintain funds control.
- 2.3.2.3. Certify fund availability.

2.3.3. Supervisor Review

2.3.3.1. Review, sign, and date all appropriate travel claims for military and civilian personnel.

2.3.3.2. Submit the travel claim to the appropriate travel computation office for processing prior to payment.

2.3.4. Travel Computation Offices

2.3.4.1. Establish adequate internal controls to process travel claims.

2.3.4.2. Notify traveler if voucher is incorrect, incomplete, or missing required documentation; and request correction.

2.3.4.3. Notify the submitting office or person if travel claim is received at the wrong office for computation.

2.3.4.4. Compute and determine the travel allowance.

2.3.4.5. Forward the computed travel claim and supporting documents to the disbursing office for payment or interface with the disbursing system for payment.

2.3.5. Automated Information System (AIS) Administrators. The AIS administrators operate and maintain systems to support travel management. They support the allowance, certifying, and disbursing systems.

2.3.6. Travelers. Travelers must:

2.3.6.1. Prepare the DD Form 1351-2 after travel has been completed, to include identifying the duration of the TDY in block 17;

2.3.6.2. Attach all supporting documentation including the original or legible copies of orders and receipts for all lodging expenses, as well as claimed reimbursable expenses of \$75 or more;

2.3.6.3. Ensure that current electronic funds transfer (EFT) information is on file with the travel computation office. If not, identify EFT information using a Standard Form [\(SF\) 1199A](#), Direct Deposit Sign-Up Form including account and financial institution routing transit number and account type;

2.3.6.4. Ensure that GTCC information is on record and indicate the mandatory split-disbursement dollar amount to be sent to the GTCC account;

2.3.6.5. Sign, date, and include home or unit address and unit telephone number on travel claim;

2.3.6.6. Forward or fax the original DD Form 1351-2 and supporting documents to the AO or travel computation office as appropriate; and

2.4 Suspected False Claims

Travelers are liable under [18 U.S.C. § 287](#) and [18 U.S.C. § 1001](#), and the False Claims Act [31 U.S.C. §§ 3729 through 3731](#), if they knowingly submit false, fictitious, or fraudulent claims. When a suspected fraudulent claim is presented for payment, certifying officers or disbursing officers must follow the policies and procedures outlined in Volume 5, Chapter 12, section [4.0](#).

3.0 TRAVEL ORDERS

Travel orders are prepared in accordance with DoD Component management guidance and administrative instructions including the JTR, paragraph 010206 for Service members and civilian employees, and the JTR, paragraph 030501 for invitational travel authorizations. The travel order establishes in writing the conditions for official travel and transportation at government expense. To ensure proper reimbursement, the actual TDY duty location must be listed on the travel orders (i.e., if going TDY to Ft. Bliss, TX, the travel orders must explicitly state “Ft. Bliss, TX” not “El Paso, TX”). Travel orders must identify the traveler as either a GTCC cardholder or non-cardholder. This statement authorizes alternative payment methods (e.g., transportation tickets being charged to a centrally billed account). The TDY travel orders must include the travel computation unit (location/address) to which travel vouchers must be submitted.

3.1 Funding

3.1.1. All orders, wherever possible, must be funded by the traveler’s organization unless group orders or alternative methods are more efficient. If funding is to be provided by another office, the traveler’s organization must obtain a fund cite from that office in an amount sufficient to pay for the travel prior to issuing travel orders.

3.1.2. In the event of a split-year funded trip, the traveler must return to his or her official duty station if no DoD Appropriation Act has been signed or continuing resolution has been enacted. Expenses incurred in returning to the traveler’s duty station will be posted in the new fiscal year as necessary costs to close down operations.

3.2 Itinerary Variations

3.2.1. Variations Authorized. The authorization of travel variations should not be used in place of adequate advance planning, nor must they be used to grant an open travel authorization. Variations must be authorized in the order and are permitted only when considered mission essential in accordance with Per Diem, Travel, and Transportation Allowance Committee ([PDTATAC Travel Orders](#)). “Variations Authorized” permit:

3.2.1.1. Omission of travel to a place, or places, stated in the travel order;

3.2.1.2. Change in the order of travel to places shown;

3.2.1.3. Travel to places not shown; and

3.2.1.4. Change of the specified time spent at a named destination.

3.2.2. Verbal Variations. Confirmation of a verbal order is required, and may not be delegated, when the AO gives the traveler a verbal order to:

3.2.2.1. Change the order of places to be visited;

3.2.2.2. Change the time at each location; or

3.2.2.3 Add or omit locations.

3.2.3. No Amendments Needed. No amendments are needed if:

3.2.3.1. The traveler departs within a period of 7 days before or after the specified date of departure; or

3.2.3.2. The TDY is extended by 100 percent of the original time or 7 days, whichever is less. For example, if a TDY of 5 days is authorized, then the traveler could be extended for 5 additional days (100 percent) without amendments (the lesser of 7 days and 100 percent is 5 days). On the other hand, if a TDY is authorized for 14 days, then the traveler could extend 7 additional days without amendments (the lesser of 7 days and 100 percent is 14 days).

3.3 Issued in Advance

A written travel order is issued before travel is performed unless an urgent or unusual situation prevents prior issuance. Travel orders may not be revised or modified retroactively after the effective date to increase or decrease the rights and benefits that have been fixed under the applicable statutes or regulations. Note: This does not prohibit confirmation of verbal orders.

3.4 Basis for Reimbursement

The travel order is the basis for the traveler's reimbursement. Reimbursement for travel is not authorized when travel is performed in anticipation of verbal orders. The right to allowances is established when travel expenses are incurred under orders. Travelers are entitled to travel and transportation allowances only while in a travel status.

3.5 Object Classification

Accounting for TDY travel is accomplished through the use of a single object classification code. All TDY orders must be issued using the single object classification code of 21, "Travel and Transportation of Persons." Temporary exemptions to the mandatory use of the two-digit (21) object classification code to accommodate component-unique accounting requirements may be permitted only with the advance approval of the Under Secretary of Defense (Comptroller) or designee.

3.6 Registration Fees

All registration fees incurred while DoD travelers are on TDY travel must be charged to object classification code 21, "Travel and Transportation of Persons."

3.7 Errors on Travel Orders

3.7.1. Personal Data. When travel orders contain erroneous data (e.g., misspelled names, incorrect Social Security numbers, or incorrect grades), claims may be paid without amending the orders. The traveler may make and initial any necessary changes.

3.7.2. Appropriation Data. When the accountable (funding) station is the disbursing station, the incorrect accounting classification data may be corrected without an amendment. If the accountable (funding) station is different than the disbursing station, then changes to the incorrect accounting classification data must be supported by one of the following:

3.7.2.1. Separate funding documents;

3.7.2.2. A letter from the accountable disbursing official/comptroller; or

3.7.2.3. A documented telephone call to the accountable disbursing official or comptroller.

3.8 Retroactive Amendments to Orders

3.8.1. Amendment Required. Travel orders cannot be amended to increase or decrease a travel allowance after travel is performed. The original order, however, may be amended after travel is performed when issued in error or travel requirements change en route. A written amendment confirming a verbal order is not included in this category provided the verbal order was issued on or before the effective date of the directed change.

3.8.2. Amendment Not Required. Some provisions of the JTR provide for after-the-fact approval (e.g., rental cars). In this case, the approval is not a retroactive amendment. Such expenses are claimed on the voucher and approved by the AO. An AO's signature on a DD Form 1351-2 constitutes approval of the claim.

4.0 TRAVEL ADVANCES

4.1 Policy

Cash travel advances must not be authorized unless an exception is granted. Annotate the maximum advance amount authorized on the travel order. The standard practice is for the traveler to use his or her GTCC to obtain cash from an automated teller machine (ATM) for expenses that cannot be charged to the GTCC. Also, annotate on the travel order the maximum ATM cash advance amount that may be withdrawn using the GTCC. Personnel who are not eligible or who are exempted from mandatory use of the GTCC may obtain travel advances only via EFT. See

section 5.0 for limitations on advances. The Commander or supervisor, in coordination with the disbursing officer, may authorize cash advances in limited situations where no other process is available to accomplish the mission. See DoDI 5154.31, Volume 4 for additional guidance on the GTCC program. To determine if an individual is exempt from mandatory use of the GTCC, see the GTCC Regulations.

4.2 Managing Financial Resources

To manage financial resources more effectively for travel expense purposes, DoD Components must:

4.2.1. Hold to a minimum the amounts of cash advances for travel purposes as provided in section 5.0;

4.2.2. Ensure that travelers submit vouchers within established time frames, as provided in paragraph 4.5; and

4.2.3. Process travel vouchers promptly to assure timely payment to civilian employees or Service members or to recover any excess travel advances. DoD Components must establish internal policies and procedures to ensure travel vouchers are paid within 25 working days after the end of a trip or travel period.

4.3 Cadets and Midshipmen

Cadets and midshipmen travel in accordance with the policies of the respective service academy. If a cadet or midshipman requires a travel advance or seeks settlement at a disbursing office, the following offices must be contacted for authorization:

U.S. Military Academy:

Defense Finance and Accounting Service
ATTN: Travel Operations
325 Brooks Road
Rome, NY 13441
DFAS-TRAVELADVANCE@MAIL.MIL

U.S. Naval Academy:

Midshipman Disbursing Office
101 Buchanan Road
Annapolis, MD 21402-5024
Commercial Phone: (410) 293-3297

U.S. Air Force Academy:

10 ABW/FMFPPP
2304 Cadet Drive Suite 220
U.S. Air Force Academy
Colorado Springs, CO 80840-5040
Commercial Phone: (719) 333-4298

4.4 Invitational Travel Authorizations

Travel advances may be authorized for travelers using invitational travel authorizations. The amount of the advance must be approved by the order-issuing AO and included on the invitational travel authorization. Limit advances to the authorized amount (see paragraph 4.1).

4.5 Monitoring Advances

4.5.1. General. When a travel advance is authorized, it must be monitored to ensure that a corresponding travel claim is filed within 5 working days of the traveler's return to or arrival at the permanent duty station (PDS), or immediately when the orders are canceled. Travelers whose TDY extends beyond 30 days may file travel claims within 5 working days after the end of every 30 calendar day period or travel accrual payments may be provided in accordance with service-specific regulations.

4.5.2. Failure To Submit Travel Claim. If a traveler has not submitted a claim within 15 days after the estimated date of return/arrival (provisions for separatees/retirees are in paragraph 5.15), then the following action will be taken.

4.5.2.1. Marine Corps Members. Fifteen days after the Service member's estimated date of arrival/return, recoup the total amount of the advance through pay account deduction (see Headquarters Marine Corps - Personnel & Readiness (Resources, Fiscal and Finance) [Finance Policy Manual, Volume 2, Travel](#)). System acceptance of this transaction activates the delayed deduction program. The Service member is notified of the impending deduction on the next leave and earnings statement. The amount then is deducted from the Service member's pay the following month.

4.5.2.2. Other Travelers. Each DoD Component must ensure that it has a process to monitor travelers' advances. Issue a letter advising travelers of his or her responsibility to submit travel claims and/or repay advances. On the 46th day after the traveler's estimated date of return/arrival, if no response to the letter has been received, then collect from the traveler's pay account. See Volume 16, Chapter 2 regarding administrative offset procedures.

5.0 TRAVEL ADVANCE LIMITATIONS

5.1 General

Except as provided in paragraph 5.3, DoD Components must limit travel advances to those estimated expenses that a traveler is expected to incur for authorized travel including travel incident to permanent duty travel/civilian employee temporary change of station (PDT/TCS) that ordinarily would be paid using cash (see “cash transaction expenses” as defined in paragraph 5.2). This limitation applies to all advances. Advances issued for travel under single trip, as well as open travel authorizations, are limited to the estimated cash transaction expenses for no more than a 45-day period.

5.2 Cash Transaction Expenses

Cash transaction expenses are those travel expenses that, as a general rule, cannot be charged and, therefore, must be paid using cash, personal checks, or traveler’s checks. Travelers must use the GTCC for all authorized travel expenses. If the card cannot be used to charge the expense, the card should be used to withdraw cash from an ATM to pay for those expenses. The following are cash transaction expenses:

5.2.1. Meals, when the GTCC is not accepted, and incidental expenses covered by the per diem rate, or Actual Expense Allowance (AEA); or

5.2.2. Other authorized miscellaneous expenses which cannot be charged using a charge card and for which a cost reasonably can be estimated before travel.

5.3 Exceptions to Travel Advance Limitations

5.3.1. Authorized Exceptions. The limitation in paragraph 5.1 does not apply to any of the following civilian employee PDT/TCS expenses:

5.3.1.1. Temporary quarters subsistence,

5.3.1.2. Transportation and temporary storage of household goods (HHG), or

5.3.1.3. Mobile home transportation.

5.3.2. Discounted Conference or Training Registration Fee ([41 CFR § 301-74.23](#)). Advance payment of discounted conference or training registration fee may be paid as indicated in paragraph 5.7. See the JTR, subparagraph 030201.D.

5.3.3. Order-Issuing Official's Discretion. The order-issuing/authorizing official may, under limited circumstances, authorize a travel advance for non-cash transaction expenses (e.g., lodging, common carrier transportation, advance payment of discounted conference registration fee) to be paid to a traveler. Those circumstances are as follows:

5.3.3.1. Use of GTCC Not Accepted. When travel circumstances are such that the GTCC is not expected to be accepted to purchase transportation, lodging, car rental, or other travel expenses that ordinarily are charged;

5.3.3.2. GTCC Not Offered. When the civilian employee is not offered a GTCC in accordance with GTCC Regulations 040602.B;

5.3.3.3. PDT/TCS. When use of a GTCC is not feasible for PDT/TCS travel or a house hunting trip incident to a transfer between official stations, particularly a transfer between agencies; or

5.3.3.4 Financial Hardship. When not issuing an advance to a civilian employee would cause financial hardship for the traveler.

5.3.4. Allowable Amount for Meals and Incidental Expenses (M&IE). Unless a different amount is prescribed in the travel order/AEA, the amount advanced for meals and incidental expenses must not exceed the M&IE allowances prescribed in the JTR, paragraph 020304.

5.3.5. Amount Allowed. Travel advances should not exceed 80 percent of the estimated lodging and transportation costs in the event that a GTCC is not accepted at the TDY location; a Service/Agency does not authorize use of the GTCC for PDT or TCS travel; or the civilian employee has not been offered the GTCC. This information must be shown in block 16 of the travel order and will serve as the basis for authorizing an advance up to 80 percent. If the 80 percent limitation results in a financial hardship on the civilian employee, then the order-issuing official may authorize an advance for up to 100 percent of the estimated expenses for:

5.3.5.1. An individual trip, or

5.3.5.2. An open travel authorization not to exceed a 45-day period.

5.3.6. Travel Under a Reduced Per Diem Rate. When a reduced per diem rate is prescribed in accordance with the JTR, paragraph 020308, civilian employees or Service members may be authorized a cash travel advance of 100 percent of the authorized per diem rate for no more than a 45-day period, provided that the following three conditions are all met:

5.3.6.1. The period of TDY exceeds 60 days;

5.3.6.2. Travel vouchers will be filed at least every 30 days; and

5.3.6.3. The GTCC cannot be used.

5.4 Per Diem Amount

5.4.1. TDY or AEA. An advance based on the per diem allowance is limited to a period of 45 days under an individual travel order unless the civilian employee is:

5.4.1.1 Assigned to TDY for a period in excess of 45 days at a place where there are no facilities available for processing travel vouchers, or

5.4.1.2. Performing extended TDY aboard a Navy ship.

5.4.2. Civilian Employee PDT/TCS

5.4.2.1. Travel Between Old and New PDSs. An advance for the civilian employee and/or dependents, based on the applicable per diem allowance, must be limited to the amount payable for the allowable travel time.

5.4.2.2. Round-Trip Travel to Seek Permanent Residence. An advance for the civilian employee and/or spouse, based on the per diem allowance, must be limited to the amount payable for the actual number of days authorized in the travel orders.

5.5 Mileage Amount

5.5.1. TDY. An advance based on the mileage allowance must be limited to the official distance between the PDS and the TDY location.

5.5.2. Civilian Employee PDT/TCS

5.5.2.1. Travel Between Old and New PDSs. An advance, based on the mileage allowance of the Service member/civilian employee and/or dependents, must be limited to the official distance between the old PDS and new PDS.

5.5.2.2. Round-Trip Travel to Seek Permanent Residence. An advance, based on the mileage allowance of the civilian employee and/or spouse, must be limited to the official distance between the old PDS and new PDS.

5.6 Commercial Transportation Amount

When a civilian employee who does not have a GTCC is authorized to perform travel by commercial transportation, an advance may be paid based on the estimated cost of the required transportation, not to exceed 80 percent for each trip authorized under the travel orders. If the 80 percent limitation results in a financial hardship on the civilian employee, then the order-issuing official may authorize an advance for up to 100 percent.

5.7 Advance Payment of Discounted Conference or Training Registration Fee

5.7.1. General. Travelers may be permitted to register early and be reimbursed for an advanced discounted payment for a conference or training registration fee as soon as they are approved for the event and they submit a proper claim for the expenses incurred.

5.7.2. Traveler is Unable to Attend an Event for Which Reimbursement Was Made. If the advance payment was made in accordance with subparagraph 5.7.1 and the traveler is unable to attend the event, the traveler must seek a refund of the registration fee and repay the advance with any refund received. If no refund is made, the DoD Component concerned must absorb the advanced payment as a preparatory travel expense if the traveler's failure to attend the event was caused either by a decision of the DoD Component concerned or for reasons beyond the traveler's control that are acceptable to the DoD Component concerned, (e.g., unforeseen illness or emergency). The traveler must repay the amount advanced if no refund is made, and the traveler's failure to attend the scheduled event is due to reasons deemed inexcusable by the DoD Component concerned.

5.8 HHG Amount

An advance for the cost of HHG transportation must be limited to the cost of shipping the estimated weight of the civilian employee's HHG within the maximum weight for which a civilian employee is eligible at the applicable rate and distance shown in the [commuted rate table](#). An advance for the cost of temporary storage must be limited to the applicable commuted rate for the weight of HHG and period of storage, not in excess of 90 days and not in excess of the maximum HHG weight for which a civilian employee is eligible. A request for an advance by a civilian employee should be accompanied by a written statement designating the points of origin and destination, the estimated HHG weight to be shipped, and any anticipated temporary storage not to exceed 90 days. The estimate of weight required in support of an advance may consist of a statement of the estimated weight signed by the carrier selected to handle the shipments.

5.9 Temporary Quarters Subsistence Expense (TQSE) Amount

Advances may be paid in 30-day increments for subsistence expenses covered in the JTR, Table 5-84. The initial advance of funds for TQSE must not exceed the maximum amount allowable under the JTR, Table 5-85 for the first authorized period of 30 days or less. Thereafter, advances for subsequent 30-day periods may be paid as authorized by the DoD Component. When an advance is needed for the second and subsequently authorized 30-day periods, DoD Components should advise civilian employees to submit the request for advance in sufficient time to allow for processing, approval, and issuance of the advance.

5.10 Mobile Home Transportation Amount

5.10.1. Within the Continental United States (CONUS). When the point of origin and the PDS to which movement is authorized are both located within CONUS, an advance for the cost of transportation of a mobile home moved by a commercial transporter must be limited to an amount computed at the applicable rates for transportation for the official distance and 90 days temporary storage prescribed in the commuted rate schedules for the maximum weight of HHG for which a civilian employee is eligible. When a civilian employee tows a mobile home by a Privately Owned Vehicle (POV), an allowance of \$.11/mile is paid to cover the transportation costs listed in the JTR, subparagraph 054406.B.

5.10.2. Between CONUS and Alaska. For travel between the CONUS and Alaska involving movement through Canada, limit the advance to the constructive cost for transportation and temporary storage of HHG under a Government bill of lading, subject to the provisions and limitations prescribed in subparagraph 5.10.1.

5.11 Group or Charter Arrangements

When payment for transportation under group or charter arrangements cannot be made to a carrier with Government-procured transportation documents, an advance may be paid based on the estimated cost of the transportation to be furnished.

5.12 Requesting an Advance

Subject to the conditions in subparagraph 5.12.1 an advance must, upon request, be paid to a civilian employee. The appropriate office must compute the amount paid. An exception to this requirement is authorized when individual travel orders are received via the Department of the Navy certified Automated Travel Order delivery system. Do not pay an advance more than 10 days before travel begins unless specifically authorized by the authority directing the travel as necessary because of early departure incident to leave and Service exigencies. An advance is subject to the conditions stated in the following subparagraphs:

5.12.1. Number of Advances Authorized. Ordinarily, only one advance may be paid for a specific purpose under the same travel order. An exception to this rule may be made for civilian employees or Service members on TDY in excess of 45 days aboard Navy ships or civilian employees or Service members on other TDY assignments under an individual travel order in excess of 45 days at a place where there are no facilities available for processing travel vouchers. The total of the amounts advanced during the TDY assignment may not exceed the total amount authorized to be advanced in the traveler's orders.

5.12.2. Prior Advance Outstanding. No advances will be paid to personnel who failed, for reasons unacceptable to the approving official, to submit a reimbursement voucher on a previous travel authorization/order in which an advance was paid, or have not made arrangements to settle an outstanding advance. This requirement may be waived when personnel have not had reasonable time to prepare and submit vouchers between successive travel assignments.

5.12.3. HHG Shipments. Advances for transportation or temporary storage of HHG or mobile home movement must not be paid if such expenses are not expected to be incurred by the civilian employee concerned within 30 days from the authorizing date. In such cases, the advance may be paid later.

5.13 Obtaining an Advance Payment

5.13.1. Document Submission

5.13.1.1. Department of the Navy. Prepare and submit to the disbursing office one copy of the original travel order after it is signed. The travel order must indicate the amount of the advance authorized.

5.13.1.2. Marine Corps. Prepare and submit to the appropriate paying office an original and three copies of the [DD Form 1351](#), Travel Voucher, accompanied by three copies of the civilian employee's travel order; or other requirements as provided by the appropriate paying office.

5.13.1.3. All Others. Prepare and submit to the appropriate paying office an original and three copies of the DD Form 1351 accompanied by three copies of the civilian employee's travel order.

5.13.2. Payment. The disbursing office pays an advance. Necessary records of advances paid to civilian employees or Service members are maintained by the appropriate office as specified in paragraph 5.14.

5.14 Advance Repayment

5.14.1. General. A civilian employee or Service member who has received an advance must submit a travel claim voucher within 5 working days of the civilian employee's or Service member's return after the end of each trip so that settlement of the advance account can be made. The responsible settlement office that accounts for funds against which the advance is charged is responsible for settlement or collection action in accordance with the applicable Component's accounting or disbursing regulation. The DoD Components must implement internal controls to assure that:

5.14.1.1. Travelers with outstanding travel advances are notified of any delinquencies in filing vouchers and repaying outstanding travel advances,

5.14.1.2. Travelers are paid amounts owed them within 15 working days after receipt of claims in the paying office, and

5.14.1.3. Outstanding travel advances and unpaid travel vouchers are reviewed and settled prior to an individual's separation.

5.14.2. Deduction From Vouchers. The settlement office must ensure that the amount previously advanced is deducted from the total expenses allowed or otherwise is recovered. In instances where a traveler is in a continuous travel status, or where periodic reimbursement vouchers are submitted on individual trip authorizations, the full amount of travel expenses allowed may be reimbursed to that traveler without any deduction of the advance until such time as the final voucher is submitted. If the amount advanced is less than the amount of the voucher

on which the advance is deducted, pay the traveler the net amount. If the advance exceeds the reimbursable amount, then the traveler immediately must refund the excess.

5.14.3. Delayed Use of Advance Funds. In the event of cancellation or indefinite postponement of authorized travel, the traveler must promptly notify the finance office and refund any advance for the authorized travel. If a traveler does not refund the advance promptly, the finance office must take immediate steps to collect the advance from the traveler.

5.14.4. Outstanding Advances. A civilian employee or Service member must be informed that any over-advanced amount indicated in a travel claim settlement voucher must be immediately repaid. If a traveler does not make voluntary settlement of the indebtedness, take action to collect the outstanding advance from money due the civilian employee or Service member.

5.14.5. Recovery of Advances. Outstanding travel or transportation advances that have not been fully recovered by deductions from reimbursement vouchers or voluntary refunds by the traveler must be collected promptly in accordance with applicable debt collection laws and regulations. In the event that a civilian employee or Service member dies before settling a travel advance, any travel advance in excess of earned allowance is subject to collection. In the event the amount due is not refunded within a reasonable period, effect collection by salary offset, retired pay, or otherwise from the person to whom advanced, or the traveler's estate, by deduction from any amount due from the U.S. Government or by such other legal recovery method as may be necessary. Salary or other amounts due must be used to settle the advance before set-off against the retirement credit. In view of these protections, a traveler is not required to furnish a bond in order to obtain a travel advance.

5.14.6. Accounting for Advances. Accounting for cash advances for travel purposes, recovery, and reimbursements must be in accordance with procedures prescribed by the Government Accountability Office (GAO). See the GAO Policy and Procedures Manual for Guidance of Federal Agencies, [*GAO Title 7, Fiscal Guidance*](#).

5.15 Advances for Service Member Separatees or Retirees

5.15.1. General. A Service member who is separating or retiring may be paid an advance through EFT incidental to separation/retirement no more than 10 days prior to the Service member and/or dependent(s) actual travel dates. Upon completion of the travel, a Service member who has received an advance must submit the travel claim to the appropriate settlement office.

5.15.2. Late Travel Claim. If the claim is not received within the required time frame, the travel official responsible for settling the advance must prepare a letter to the Service member advising that: he or she is responsible for submitting the travel claim to the appropriate travel settlement office; a response is required within 30 days; and if the travel claim is not received within this required time, the total amount of the advance becomes a debt (Volume 16, Chapter 2). For retirees, refer the debt for offset against the retired pay account. For separated Service members, refer the debt for collection action to include possible offset against future Federal income tax returns. If no response is received within the 30-day time frame, then the responsible disbursing official holding the debt must forward the debt and necessary documentation to:

DFAS-IN/Debt and Claims
Dept. 3300 ATTN: Debt Establishment
8899 East 56th Street
Indianapolis, IN 46249-3300

6.0 TRAVEL STATUS

6.1 General

Travel status begins when a traveler departs the home or office and ends when the traveler returns to the office or home. See the JTR, paragraph 010203, and Appendix A.

6.2 Aircrew

Generally, aircrew travel status begins with take-off from the PDS and ends with landing at the PDS. See the JTR, subparagraph 010203.D.

7.0 FURNISHED MEALS

7.1 Complimentary Meals Furnished by a Hotel

When a traveler is furnished a complimentary meal by a commercial lodging establishment for which a charge is not added in the lodging cost, that meal is not a deductible meal. There is no deduction from the M&IE rate regardless of whether the meal is consumed by the traveler. For rules concerning lodgings and meals furnished by Government contract, see the JTR, paragraph 020304. Additional information on what constitutes deductible/non-deductible meals can be found in the JTR, Table 2-18.

7.2 Meals Furnished at Conferences

When some but not all meals are included in conference fees, the proportional meal rate applies on each day one or two meals are provided, except on travel days to and from the PDS. Light refreshments, including a continental breakfast, are a deductible meal when served at a mealtime (e.g., breakfast 0600-0800). Light refreshments served during a break (not at a mealtime) are not a deductible meal. See the JTR, subparagraphs [030201.B](#) and [030201.C](#).

8.0 GOVERNMENT QUARTERS AND GOVERNMENT DINING FACILITY AVAILABILITY

8.1 Non-availability Statements

Travelers are not required to obtain written non-availability statements before obtaining reimbursement for commercial lodging costs and the local M&IE rate. The availability of Government quarters, contract quarters, and dining facilities must be confirmed when a reservation request is made. The traveler must obtain the confirmation by using the following procedures:

8.1.1. Lodging Reservations. A traveler on TDY must reserve lodging through the electronic travel system, the servicing Travel Management Company (TMC), or by contacting the Government quarters facility directly for availability of quarters. A DoD traveler must use the Integrated Lodging Program (ILP) facilities if available. See the JTR, paragraph 020303. If quarters are confirmed as not available, then the Government quarters facility is required to give the TMC or the traveler a confirmation or non-availability number, or the name and phone number of the person contacted. The traveler enters the confirmation or non-availability number on the travel order or voucher. If the TMC or the traveler is not able to obtain a confirmation or non-availability number from the billeting office, the traveler must note on the travel order or voucher the date and time the attempt was made. The commercial lodging and per diem rate, not to exceed the locality per diem rate (unless AEA is authorized or approved) must then be paid.

8.1.2. Dining Facility Availability. If the AO directs use of a Government dining facility while the traveler is quartered on-base, the traveler should obtain information on the availability of a Government dining facility through the responsible office at the destination U.S. installation office. If not available, the M&IE rate for commercial meals is authorized. For Service members attending courses of instruction at a school or installation, the schoolhouse commander determines the availability of meals. When a travel authorization directs the use of a Government dining facility for TDY travel, and it is not available, a traveler must provide a statement of non-availability explaining which meals were not available and why, to receive reimbursement. The reason for non-availability must be acceptable to and approved by the AO. Once approved, the travel authorization must be modified to document the change in meal rate. See the JTR, subparagraph 020304.D.3

8.2 Government Dining Facility

8.2.1. Government Dining Use Required. If the AO directs use of a government dining facility while the traveler is quartered on-base but, during the trip, no such facility is available, the Service member may be reimbursed the full M&IE rate if all three meals are not available. Note: The dining facility and on-base government quarters must be on the same installation. If one or two meals are not available (provided the AO accepts the Service member's certification of non-availability), the traveler must be reimbursed the proportional meal rate or the full M&IE rate as determined by the AO. The appropriate government facility rate must be paid when civilian travelers consume all three meals in a government mess or the proportional rate on any day in which one or two, but not all three, meals are consumed in a government mess. See the JTR, paragraphs 020304 and 032901.

8.2.2. Government Dining Use Impractical. The use of a government dining facility is impractical on any day in which the Service member is traveling between or among locations, except for meals incident to special status as outlined in section 9.0. See the JTR, paragraph 020304.

8.3 TDY Not at an Installation

Travelers on TDY to an ILP site must use approved DoD Preferred lodging accommodations when Government quarters or Public-Private Venture lodging are not available.

The Defense Travel Management Office website lists [ILP](#) approved properties. See the [DoD Preferred Commercial Lodging Metro Locations](#) list. A traveler must book DoD Preferred commercial lodging through the DTS or the contracted TMC. When the TDY location is not at an installation, a Service member is not required to use a nearby Government facility. If a Service member chooses to use Government quarters at a nearby installation, however, a Government dining facility is “not available” for M&IE purposes. See the JTR, paragraphs 020303 and 020304.

8.4 TDY at an Installation

8.4.1. Military Personnel TDY to an Installation. Service members are required to check for Government quarters availability when TDY to a U.S. installation. Availability/non-availability documentation must be obtained per the JTR, paragraph 020303. Service members should use adequate available Government quarters when TDY to a U.S. installation; however, when adequate Government quarters are available on that U.S. installation and other lodgings are used, lodging reimbursement is limited to Government quarters cost. See the JTR, paragraph 020303.

8.4.2. Civilian Personnel TDY to an Installation. A civilian employee is encouraged, but not required, to use available Government quarters unless traveling to an ILP site. A civilian employee is required to use Government quarters at an ILP site. See the JTR, subparagraph 020303.B.2. If the electronic reservation system cannot reserve Government quarters, then make reservations through [Department of Defense Lodging](#), or by contacting the Government quarters facility directly. In compliance with the requirement to exercise prudence when incurring expenses, civilian employees should exercise the same care in incurring expenses for Government travel that a prudent person would exercise if traveling at personal expense. An AO should request reduced per diem when a per diem rate is more than the amount necessary, based on known lodging or meal cost reductions in effect due to prearrangements, special discounts, or other reasons. The AO must request and authorize reduced per diem before travel occurs. Only a DoD Component head may authorize a reduced per diem rate for a civilian employee, except as otherwise specified in the JTR. See the JTR, paragraphs 010102, 020303, and 020308.

9.0 SPECIAL STATUS AND PER DIEM RATES

Reduced or zero per diem rates for a special status, such as field duty, sea duty, hospitalization, rehabilitation, and essential unit dining, take effect at 12:01 a.m. the day after the traveler enters the status and ends at 12:00 a.m. the day preceding the day the traveler leaves that status. See the JTR, paragraph 020315.

9.1 Departure From and Return to PDS

Seventy-five percent of the appropriate M&IE rate is paid to travelers on the day of departure from and return to the PDS when entering or exiting a special status providing all meals.

9.2 Other Changes in Status

For all other days of travel when the traveler enters or exits a special status providing all meals, those meals provided before entering and after exiting the status are available and the proportional meal rate applies on those days. For all days of travel, meals are not available unless traveling within the Area of Responsibility (AOR). See the JTR, paragraph 032901, for information on meals within the AOR. If no travel is involved and the traveler goes from a zero per diem status directly into another zero per diem status, no per diem is paid for that day. Otherwise, apply normal per diem computations, at the special status rates, for that day.

9.3 Occasional Meals or Lodging

Occasional meals or occasional lodging may be authorized or approved when a traveler must either purchase meals from commercial or nonappropriated funds (NAF) sources, or obtain lodging through commercial, Government, or NAF sources when per diem is not otherwise authorized. The reimbursement may be made not to exceed the proportional meal rate for the meal or lodging portion of the locality per diem allowance. This does not include payment of the basic food cost for officers, civilian employees, or Service members in field duty, sea duty, or under essential unit messing. See the JTR, paragraph 020305. Note: Civilian employees may be reimbursed expenses for occasional meals or occasional lodging expenses that the civilian employee must incur at a time when the meals or lodging are furnished without cost (or at nominal cost) for TDY of more than 12 hours.

9.4 Travel Orders

Travel orders must identify the reduced per diem rates, availability or non-availability of Government quarters, authorization for Government or proportional meal rate as applicable, identification of special status, and reference to the letter or message in which they were established.

10.0 CONSECUTIVE TDY

10.1 Per Diem

Per diem is payable for the interval between two periods of TDY if the interval exists through no fault of the traveler and the traveler either remains at the first TDY location or travels to the next TDY location within the allowable travel time.

EXAMPLE: The traveler completes the first TDY on October 5 and the next TDY starts October 8. The traveler is paid per diem during the delay at an authorized delay (AD) point in between the first and second TDY point. Note: Privately owned Automobile (PA), Temporary Duty (TD), Mission Complete (MC).

<u>D/A</u>	<u>DATE</u>	<u>LOCATION</u>	<u>MODE</u>	<u>REASON FOR STOP</u>
Dep	1 Oct	PDS	PA	
Arr	1 Oct	TDY Point A		TD
Dep	8 Oct	TDY Point A	PA	
Arr	8 Oct	TDY Point B		TD
Dep	12 Oct	TDY Point B	PA	
Arr	12 Oct	PDS		MC

10.2 Authorized Delay En Route

A traveler may receive per diem if awaiting transportation at an authorized delay point between TDY locations. To attain savings to the Government, combine what would have been two separate TDY trips into one longer trip and provide for AD at an intermediate location. Per diem is payable for the interval between the two periods of TDY. The amount of per diem paid is based on the location of the AD. Note: Commercial Plane (CP).

<u>D/A</u>	<u>DATE</u>	<u>LOCATION</u>	<u>MODE</u>	<u>REASON FOR STOP</u>
Dep	1 Oct	PDS	CP	
Arr	1 Oct	TDY point A		TD
Dep	5 Oct	TDY point A	CP	
Arr	5 Oct	The location in between the 1 st /2 nd TDY location	CP	AD
Dep	8 Oct	AD point	CP	
Arr	8 Oct	TDY point B		TD
Dep	12 Oct	TDY point B	CP	
Arr	12 Oct	PDS		MC

11.0 LEAVE, PERMISSIVE TDY, OR ADMINISTRATIVE ABSENCE IN CONJUNCTION WITH FUNDED TDY

11.1 Permissive/Administrative Travel Time

A traveler who takes leave, permissive travel, or an administrative absence before or after a funded TDY is entitled to travel allowances from the PDS to the funded TDY location and return to PDS. If the traveler takes leave, permissive travel, or an administrative absence between two TDY locations, the traveler is entitled to allowances for direct travel between the two TDY locations.

11.2 Travel Time When Using a POV

Permissive or administrative travel time is authorized when a traveler is authorized to travel by POV for personal convenience on funded TDY and reimbursement is based on a constructive schedule. Compute the allowable travel time based on the provisions of the JTR, paragraph 020302. Permissive or administrative travel time is not authorized when the orders

direct a mode of transportation and that mode is available but not used. Per diem is not authorized for the additional period.

11.3 Leave and Overtime in Conjunction with Official Travel

The unit commander, designated representative, or civilian employee's supervisor must make and document determinations regarding leave and duty status, to include overtime. The granting, accounting for, and associated reporting procedures are organizational responsibilities made in accordance with DoD Component instructions.

12.0 RETURN TO THE PDS DURING TDY

12.1 Authorized Return

When a travel order authorizes return to the PDS, the traveler is authorized travel, transportation allowances, and per diem for travel from the TDY site to the PDS and return to the TDY site. When the AO has authorized or approved the lodging costs maintained at the TDY site as mission essential, the incurred expenses are paid as a reimbursable expense. In making the decision to authorize or approve, the AO must determine that the reasons for retaining the lodging are reasonable and necessary and not strictly for the convenience of the traveler. This determination is made after considering the traveler's efforts to obtain lodging on a weekly or monthly basis or other long-term rental agreement. When the lodging retained is charged on a daily basis, the AO should consider such factors as the length of the TDY, the amount of personal belongings, the capability of the establishment to store those belongings, and the ability of the traveler to secure a room upon return. The AO must state the reason for authorizing or approving reimbursement of the retained lodging. For this authorization, the permanent quarters from which the traveler normally commutes to the PDS are the same as the PDS. If the traveler goes to another location, then no allowances are authorized for the travel and per diem is computed as if the traveler remained at the TDY location.

12.2 Voluntary Return

When a traveler voluntarily returns to the PDS during a TDY period, limit his or her allowance to the lesser of the actual travel cost for the roundtrip to the PDS and what it would have cost had he or she remained at the TDY site. The factors included in determining actual travel costs are: per diem for the travel days; roundtrip transportation for the mode used; and cost for quarters retained at the TDY site. See the JTR, paragraph 020312.

VOLUME 9, CHAPTER 6: “PERMANENT DUTY TRAVEL”**SUMMARY OF MAJOR CHANGES**

Changes are identified in this table and also denoted by [blue font](#).

Substantive revisions are denoted by an asterisk (*) symbol preceding the section, paragraph, table, or figure that includes the revision.

Unless otherwise noted, chapters referenced are contained in this volume.

Hyperlinks are denoted by [***bold, italic, blue, and underlined font***](#).

The previous version dated [May 2023](#) is archived.

PARAGRAPH	EXPLANATION OF CHANGE/REVISION	PURPOSE
All	Verified and updated references, hyperlinks and formatting to comply with current administrative instructions, and made clarifying editorial changes.	Revision
8.0	Revised to incorporate the new Temporary Quarters Subsistence Expense Lodging Plus method and remove the Actual Expense method.	Revision
9.0	Removed the temporary authority to extend house hunting trip travel days due to transportation delays that expired on December 31, 2022.	Deletion
All	This instruction has been reviewed by the Per Diem, Travel and Transportation Allowance Committee (PDTATAC) staff in accordance with Department of Defense Instruction 5154.31, Volume 5, dated October 16, 2015, as PDTATAC Case RR25002. Any conflict between this publication and the Joint Travel Regulations (JTR) is resolved based on the JTR and not this publication.	Revision

CHAPTER 6

PERMANENT DUTY TRAVEL

1.0 GENERAL

1.1 Purpose

This chapter provides general policy for the preparation, submission, and processing of permanent duty travel (PDT) claims for travelers. There are a number of PDT benefits or allowances that DoD members and civilian employees may be authorized when traveling from one Permanent Duty Station (PDS) to another at the direction of the Service or agency for which they are working. Some relocation allowances must be paid to the employee, while other allowances are paid at the discretion of the DoD component. An employee's specific PDT allowances may not include all of the allowances identified and described in this chapter. To determine what is actually allowable, employees must work with the agency sponsoring the travel/move. See the Joint Travel Regulations ([JTR](#)), section 0536 for more information about mandatory and discretionary relocation allowances.

1.2 Authoritative Guidance

This chapter provides guidance under authorities contained in the JTR, and the General Services Administration (GSA) Federal Travel Regulation ([FTR](#)).

2.0 DEFENSE TRAVEL SYSTEM (DTS)

The DTS does not currently support PDT, and should not be used by DoD travelers for arranging travel or settling claims involving PDT.

3.0 TRANSPORTATION AND STORAGE OF HOUSEHOLD GOODS (HHG)

Ordinarily, the Government arranges for the shipment of HHG. When DoD personnel arrange for the shipment themselves and a Government bill of lading (GBL) is the authorized method, the Transportation Office(r) (TO) provides information concerning the traveler's allowable expenditures and computes the amount the shipment would have cost the Government. Civilian employee reimbursement is limited to the actual cost incurred not to exceed the Government cost computed by the TO. When the commuted rate is the authorized method of shipment for a civilian employee, payment must be computed based on the [GSA Commuted Rate Table](#) regardless of the actual cost of the move. Service members may be paid a monetary allowance equal to 100 percent of the Government's constructed cost. If the TO instructs a Service member in writing to personally arrange HHG transportation, or if a TO is not available, payment must be made for the actual costs incurred to procure authorized services up to the maximum allowable weight allowance. See the JTR, paragraph 051502 for Service members, and JTR, paragraph 054305, for civilian employees.

3.1 Commuted Rate Method

When a DoD employee is authorized to ship HHG at the commuted rate, the payment must be computed using the GSA Commuted Rate Table in effect on the date the carrier picked up the HHG, or the date that the employee actually moved the HHG without regard to Government cost. Certified weight tickets or a constructed weight must support the claim in accordance with the JTR, subparagraph 054305.E.4.

3.2 Personally-Procured Move (PPM) Monetary Allowance

A Service member or a deceased member's next of kin may elect to personally-procure HHG transportation and be paid a monetary allowance of 100 percent of the Government's "Best Value" cost for the actual HHG weight transported up to the maximum authorized weight allowance. The member must have orders authorizing PDT, temporary duty (TDY) with HHG allowances, or a short distance HHG move in accordance with the JTR, section 0519. The TO will provide the member with a [DoD \(DD\) Form 2278](#), Application for [Personally Procured Move \(PPM\)](#) and Counseling Checklist. This form shows the [Government Constructed Cost \(GCC\)](#) or contract cost for moving the HHG, based on a weight estimate provided by the traveler. A Service member, or next of kin who personally arranges for HHG transportation without going through a Government transportation office is responsible for all issues and costs related to circumstances outlined in the JTR, subparagraph 051502.A.

3.2.1. Impact on Other PDT Allowances. Service members and/or dependents traveling to their destination in a rental or privately owned vehicle (POV) used for a PPM are authorized both a PPM monetary allowance and PDT allowances. The PDT allowances are not part of the PPM monetary allowance program and are separately processed.

3.2.2. Claims. No PPM monetary allowance claim can be computed without valid weight tickets or an approved constructive weight by the TO. Claims for PPM monetary allowances must be supported with:

3.2.2.1. The Service member's statement of expenses actually incurred;

3.2.2.2. Certified weight tickets (original or copy) for gross and empty weights, or a record of the approved constructive weight by the TO; and

3.2.2.3. A record of the weight shipped with any other record of shipment or storage under the same travel order.

3.2.3. Payment Procedures. Pay PPM monetary allowance claims in accordance with each Service's procedures. Service addresses for PPM monetary allowance claims are found in subparagraph 3.2.4. Compute the personally-procured monetary allowance claim as follows:

3.2.3.1. Obtain the [GCC](#) or local contract cost from the TO. [The maximum amount of the allowance is equal to 100 percent of the GCC or local contract cost;](#)

3.2.3.2. Deduct the expenses actually incurred by the Service member from the maximum allowance dollar amount. The resulting dollar amount is the member's incentive payment;

3.2.3.3. Multiply the member's incentive payment by the applicable Federal tax withholding percentage. This amount is withheld for Federal Income Tax Withholding (FITW);

3.2.3.4. If the member's state of legal residence has a withholding agreement with the Secretary of the Treasury, multiply the member's incentive payment by the applicable withholding percentage. This amount is withheld for State Income Tax Withholding (SITW) (Title 5, United States Code (U.S.C.), sections 5517 ([5 U.S.C. § 5517](#)) and 5520 ([5 U.S.C. § 5520](#)) and Title 31, Code of Federal Regulations (CFR), part 215 ([31 CFR part 215](#))). The Treasury Financial Manual (TFM) Volume 1, Part 6, Chapter 5000, Appendix 1 ([TFM VI P6 C5000 A1](#)) lists states with a withholding agreement;

3.2.3.5. Deduct the FITW and SITW amounts from the incentive payment amount to determine the amount payable to the member;

3.2.3.6. Deduct any advance operating allowance paid to the member. The amount remaining after deducting the advance is the dollar amount payable to the member for settlement; and

3.2.3.7. Prepare Internal Revenue Service (IRS) Form W-2, Wage and Tax Statement. Insert the incentive portion of the personally-procured monetary allowance move payment in the earned income block, insert the FITW in the FITW block and insert the SITW in the state income tax block.

3.3 Actual Expense Reimbursement for Personally-Procured Shipment or Storage of HHG

3.3.1. Claims

3.3.1.1. Civilian employees may claim actual expense reimbursement for personally-procured shipment or storage of HHG and unaccompanied baggage.

3.3.1.2. Service members may claim actual expense reimbursement for personally-procured shipment of unaccompanied baggage and storage of HHG. In most circumstances Service members choosing to personally-procure shipment of HHG must submit a PPM monetary allowance claim rather than an actual expense claim. See the JTR, paragraph 051502.B for the limited circumstances when Service members may claim actual expense reimbursement for personally-procured HHG shipment.

3.3.1.3. The claims must include the traveler's certification as follows: "I certify that this shipment (including drayage, storage, packing, and crating) consisted of household goods and personal effects. These items belonged to me and were used by me (or my dependents) before the effective date of my orders. They were not intended directly or indirectly for any other person or persons, or for sale. The following shipments were previously made at Government expense under the same travel orders that support this claim (if no previous shipments show "NONE"). I certify that I did not request payment under the monetary allowance or any other program. I further certify that the declared professional books, paper, and equipment belong to me and are necessary in the performance of my official duties."

3.3.2. Supporting Documents. The traveler must submit the following documents to support a claim for actual expense reimbursement:

3.3.2.1. A statement provided by the TO on the constructive cost of shipment by GBL, accessorial services, or storage which states that the charges claimed are reasonable and that the member was instructed personally to arrange the shipment (if applicable);

3.3.2.2. Receipts for expenses of \$75 or more;

3.3.2.3. When applicable, copies of a time extension certificate, powers of attorney or written authorizations;

3.3.2.4. The claimant's statement showing the necessity for any storage:

3.3.2.4.1. Over 90 days for a Service member, or

3.3.2.4.2. Over 90 days for a civilian employee making a PCS move to/from Outside the Continental United States (OCONUS), or

3.3.2.4.3. Over 60 days for a civilian employee making a PCS move within the Continental United States (CONUS).

NOTE: Non-availability of Government storage is not an acceptable reason for requesting storage over the 90/60 day limit.

3.3.2.5. For shipments by van carriers, provide a certified weight ticket. In place of certified weight tickets, where charges are based on cubic measure, the owner may obtain a certificate from the carrier stating: "No scale within 10 miles. Shipment used _____ cubic feet of properly loaded van";

3.3.2.6. An itemization of packing charges that shows size, type, and number of containers used with the charge for each container;

3.3.2.7. Receipts for packing, crating, drayage, unpacking, and uncrating that are itemized and supported with a statement by the TO for the area on availability of Government facilities;

3.3.2.8. A bill of lading. If no bill of lading is available, the traveler must obtain other evidence showing point of origin and destination;

3.3.2.9. An itemization of costs incurred if the TO performs or procures the services. This is not required for accessorial services itemized on a GBL for line-haul van shipment; and

3.3.2.10. Copies of all applicable orders.

3.3.3. Claim Submission. Submit the travel settlement voucher, [DD Form 1351-2](#), Travel Voucher or Subvoucher, within 5 working days of arrival at the new PDS.

3.3.4. Payment. If the claim is proper and supported by the appropriate documentation, the disbursing office must pay the claim.

4.0 TRANSPORTATION AND STORAGE OF POV

4.1 Concurrent Travel Transportation

If overseas travel with a POV was concurrent, a traveler must include travel to the vehicle port of embarkation (POE) and the vehicle port of debarkation (POD) with the PDT claim. See the JTR, section 0530 for Service members, and section 0547 for civilian employees, for POV transportation and storage guidance.

4.2 Nonconcurrent Travel Transportation

If travel is not concurrent, travelers must submit a separate claim. A TDY order is not required for a separate trip to pick up or deliver a vehicle to the POE and/or the POD. (NOTE: The PDT orders provide authorization.) Ordinarily, a [DD Form 788](#), Private Vehicle Shipping Document for Automobile, supports the claim. However, when a traveler performs PDT and has a commercial shipping firm process the vehicle for shipment at Government expense, the DD Form 788 usually is not in the traveler's possession at the time that the claim is processed. A statement from the traveler, accompanied by a copy of the billing from the commercial firm, is acceptable.

4.3 Storage

Service members ordered to a foreign or non-foreign PDS OCONUS to which transportation of a POV is not permitted, sent TDY on a contingency operation for more than 30 days, or other reason(s) listed in the JTR, section 0532, may be eligible for POV storage. See the JTR, Section 0532 for more details.

5.0 TRANSPORTATION OF MOBILE HOMES

5.1 Employee Allowances

5.1.1. General. A DoD employee may be authorized mobile home transportation in lieu of transportation of HHG, but may not be authorized both mobile home and HHG transportation. The constructed cost to transport a mobile home, any HHG removed from the mobile home, and unaccompanied baggage and additional HHG to the new PDS for the civilian employee's use is limited to the Government's "Best Value" cost of the civilian employee's maximum PCS HHG weight allowance between authorized points. The TO determines what the authorized and unauthorized costs are incident to a mobile home shipment. See the JTR, Chapter 5, section 0544.

5.1.2. Claims. When movement of a mobile home is made by self-procured commercial transportation, a statement of authorization is issued by the TO. An original or legible copy of the paid bill from the commercial transporter is required and the bill must be completely itemized to preclude any payment of unauthorized costs.

5.2 Member Allowances

5.2.1. General. A Service member directed to perform PDT is entitled to transportation and mobile home allowances. A member also may be entitled to movement of a mobile home under unusual or emergency circumstances, even though not related to PDT allowances. When a member performs TDY en route, the authorized shipment of a TDY weight allowance does not preclude the mobile home transportation allowance. See the JTR, Chapter 5, Part D for more information.

5.2.2. Claims. The preparation of claims and submission of supporting documentation is as required by Service procedures.

6.0 DISLOCATION ALLOWANCE (DLA)

DLA is paid to members as specified in the JTR, section 0505. If a change of grade occurs between the issue date of orders and the effective date of orders, a copy of the promotion/demotion orders may be submitted with the claim versus an amended order.

6.1 Effect of Assignment to Quarters

A member without dependents, who is above the pay grade of E-5, may receive DLA if the member elects not to occupy assigned quarters of the United States or a housing facility under the jurisdiction of a uniformed service, and the quarters or facility do not meet the minimum adequacy standards established by the Secretary of Defense for members in such grade. Do not advance or pay DLA to a member under these circumstances without a statement from the gaining organization that assigned quarters do not meet the minimum adequacy standards. See the JTR, subparagraph 050505.B.

6.2 Sea Duty

The senior spouse of a member married to member couple without dependents in a pay grade below E-6 who elect not to occupy assigned shipboard quarters may be advanced or paid DLA based on guidance contained in the JTR, Table 5-11, Rule 2.

6.3 DLA Advance Payments

DLA advance payments may be issued 30 days prior to travel rather than 10 days prior to travel as directed for most other travel advances in Chapter 5. All other conditions related to the advance payment and final settlement of travel allowances as outlined in Chapter 5 remain in effect. Components may alternatively opt to authorize use of the Government Travel Charge Card (GTCC) for DLA expenses in accordance with the [DoD GTCC Regulations](#), paragraph 040505.

7.0 CIVILIAN MISCELLANEOUS EXPENSE ALLOWANCE (MEA)

The flat payment MEA amounts for civilian employees do not require receipts or itemized statements. When a DoD civilian employee claims MEA expenses in excess of the flat payment MEA amount, the approving official may approve them subject to the limitations in the JTR, Chapter 5, section 0541. The civilian personnel office assists in the determination of the allowable expenses.

*8.0 CIVILIAN TEMPORARY QUARTERS SUBSISTENCE EXPENSE (TQSE)

A DoD employee's PDT orders must authorize the initial TQSE period and specify whether the [Lodgings Plus \(LP\) method](#) or the Lump Sum (LS) method is authorized. Additional periods of [TQSE \(LP\)](#) require amended orders. The employee must provide a statement in advance selecting TQSE (LS), which certifies that TQSE expenses will be incurred. The disbursing office does not determine the number of TQSE days authorized. [Receipts are required for all TQSE \(LP\) lodging expenses as specified in the JTR, Chapter 5, subparagraph 054206.C.](#) Advances and payments for TQSE are based on the provisions of the JTR, Chapter 5, paragraph [054206.G](#).

9.0 CIVILIAN HOUSE HUNTING TRIPS

If authorized in their travel orders, DoD employees may make house hunting trips, not to exceed 10 consecutive days. The employee and spouse may travel separately or together; however, the cost cannot exceed one round trip for travel together. The number of days for house hunting that the employee uses does not limit the number of days for the spouse (e.g., the employee can take 4 consecutive days and the spouse still could use up to a total of 10 days). Advances and payment for house hunting trips are based on the prescribed locality per diem rate, when paid under the lump sum method. Under the Lodging Plus method, the standard CONUS per diem rate applies. For more information on house hunting trips, see the JTR, section 0540.

10.0 CIVILIAN REAL ESTATE TRANSACTIONS

10.1 Reimbursement Due to the Sale and Purchase of a Residence or for Settling an Unexpired Lease

DoD employees may be reimbursed for expenses required for the sale and purchase of a residence, or for the settlement of an unexpired lease, in connection with PDT. Settlement claims for transactions regarding a sale, purchase, or lease termination, must be submitted following completion of these transactions. See the JTR, Chapter 5, section 0545.

10.1.1. Reimbursement of Expenses for the Sale and Purchase of a Residence. The employee must file a [DD Form 1705](#), Reimbursement for Real Estate Sale and/or Purchase Closing Cost Expenses. Separate DD Form 1705's are required for expenses at the old duty station and at the new duty station. Copies of the supporting documentation showing costs incurred must be attached. The approval authority must approve the appropriate DD Form 1705 in accordance with Component regulations for real estate transactions at the old and new stations. The claim must be submitted in accordance with the JTR, section 0545.

10.1.2. Reimbursement of Expenses When Settling an Unexpired Lease. The employee files a claim using the DD Form 1351-2. The following documentation must be provided to meet the conditions in the JTR, Chapter 5, paragraph 054507 when filing a claim for reimbursement of an unexpired lease:

10.1.2.1. A copy of the lease prescribing the penalties or other costs that are payable if occupancy is terminated prior to the lease expiration date;

10.1.2.2. A statement of the extent of legitimate attempts made to avoid penalty costs if the lease includes a savings provision for subleasing, or making other arrangements to avoid penalty costs; and

10.1.2.3. An itemized list of expenses along with the paid receipts for each expense item, and any necessary explanations for clarification of penalty costs.

10.2 Home Marketing Incentive Payment (HMIP)

The document submitted for payment of HMIP may be a locally-developed form used as an attachment to the travel settlement claim, DD Form 1351-2. The form, at a minimum, must contain the following information:

10.2.1. Employee's name (last, first, middle initial);

10.2.2. Employee's Social Security Number;

10.2.3. Employee's present position, title, grade;

10.2.4. Employee's current organization;

10.2.5. Employee's current duty phone;

10.2.6. Computation of HMIP to include the final payment amount (the relocation services company must complete the amended sale transaction and submit the employee's real estate invoice for payment before the computation can be completed);

10.2.7. Traveler's signature; and

10.2.8. Order approving official's signature.

10.3 HMIP Income Tax Considerations

HMIP is considered income, and a W-2 must be processed showing the taxes withheld and the employee income. No authority exists to pay either a withholding tax allowance (WTA), or a relocation income tax allowance (RITA) to offset the Federal, state, and local income taxes on the incentive payment. Payment offices must obtain an approved document (as described in paragraph 10.2) with a DD Form 1351-2 and a valid copy of PDT orders for payment.

11.0 PAYMENT OF TRAVEL VOUCHERS INVOLVING OCONUS PERMANENT DUTY ASSIGNMENT FOR DOD CIVILIAN EMPLOYEES

11.1 Proceeding To, or Round Trip Travel From, a PDS OCONUS

Reimbursement vouchers for travel to a PDS OCONUS under an original agreement, or for round trip travel from a PDS OCONUS under a renewal agreement, must be prepared upon completion of the travel and submitted to the travel computation office servicing the OCONUS station for payment.

11.2 Transfer From PDS OCONUS

When employees transfer from OCONUS duty stations, they must submit reimbursement vouchers to the travel computation office that supports the new duty station.

11.3 Returning From OCONUS Employment for Separation From the Service

11.3.1. General. Prior to departure from an OCONUS duty station, an employee who is being returned for separation for any reason must be furnished written instructions by the releasing activity on the following:

11.3.1.1. How to record trip itinerary,

11.3.1.2. Which travel expenses are reimbursable,

11.3.1.3. How to keep a record of these items, and

11.3.1.4. How to complete and sign documents that are to be forwarded for the purpose of finalizing pay and reimbursement of travel claims.

NOTE: Except as provided in subparagraph 11.3.2, the OCONUS releasing activity, in conjunction with the servicing travel computation office, must process final pay and settlement of travel claims for employees who are returned for separation.

11.3.2. Navy Employees. Travel claims of the following Navy employees must be submitted to the office that supports the location to which the employee returns:

11.3.2.1. Employees who are returned from OCONUS for separation under overseas agreements or for purposes of retirement, and

11.3.2.2. Foreign nationals who are returned to their places of residence in foreign countries for separation under employment agreements or for purposes of retirement.

11.4 Agreement Violation

An employee is responsible to carry out the mission for which travel is undertaken. If an employee does not report to the designated PDS, refuses to perform the mission, or resigns, the employee must reimburse the Government for all travel, transportation, and relocation expenses paid based on that service agreement including WTA and RITA. See the JTR, Chapter 5, paragraph 054913.

11.4.1. Allowance Determination. The appropriate finance office must determine an employee's travel, transportation, and relocation allowances. The allowance determination must occur prior to processing the employee's separation. Travel, transportation, and relocation allowances previously furnished and/or to be furnished are computed by the activity where the violation occurred.

11.4.2. Statement of Liability or Credit. For each transportation agreement violation, the finance office must provide the employee with a statement of the employee's liability or credit that indicates in detail the liabilities, obligations, and credits (and an explanation of how the credits are used or applied). A copy is sent to the civilian personnel officer for inclusion in the employee's personnel folder. The employee must also be informed of the right to file a claim if he or she disagrees with the statement of liability or credit.

11.4.3. Collection. If the finance office determines that an employee is indebted to the Government, the office must immediately initiate collection action.

12.0 CIVILIAN EMPLOYEE INCOME TAX WITHHOLDING

12.1 Federal Withholding

[IRS Publication 15](#) states payments to employees for nondeductible moving expenses are considered supplemental wages and subject to FITW, Social Security and Medicare withholding. For more information about nondeductible moving expenses, see the FTR § 302-17, [GSA Bulletin FTR 18-05](#) and [GSA Bulletin FTR 19-02](#).

12.2 State, City, and County Withholding

Agencies must withhold state, city, and county income taxes from the taxable compensation of employees whose regular place of Federal employment is within a state, city, or county that has an agreement with the Secretary of the Treasury (5 U.S.C. §§ 5517 and 5520 and 31 CFR 215). The TFM, Volume 1, Part 6, Chapter 5000, Appendix 1 lists states with an agreement. The TFM, Volume 1, Part 6, Chapter 5000, Appendix 2 ([TFM VI P6 C5000 A2](#)) lists cities and counties with an agreement.

13.0 RELOCATION INCOME TAX ALLOWANCE (RITA)

13.1 Allowance

The RITA is a 2-year, two-process calculation intended to reimburse many civilian employees for substantially all of the additional Federal, state and local tax burden associated with their relocation. See the FTR, Chapter 302, Part 302-17 for more information including eligibility criteria.

13.1.1. Year One WTA. The WTA is an estimated partial payment of the final RITA payment designed to cover FITW from the PDT moving expense reimbursement. It is intended to provide an immediate offset to the tax withheld on the payment, and is also subject to withholding. As a result, payment of WTA allows the employee to receive the same reimbursement had the withholding not been required. Federal Insurance Contributions Act (FICA) deductions are not reimbursed to the employee. To receive WTA, an employee must agree in writing to repay any excess WTA amount paid in year one. The agreement may be written on the settlement voucher or may be a separate statement. The statement must read as follows:

“I agree to repay any excess amount of WTA paid to me in year one and submit the required certified tax information. I understand failure to comply with this requirement will preclude payment of WTA. I also understand that the entire WTA is an excess payment if the RITA claim is not submitted within 120 days.”

Compute the WTA in the following manner:

13.1.1.1. Determine amount of covered reimbursable expense,

13.1.1.2. Multiply Step 1 amount by .282 to arrive at the WTA amount,

13.1.1.3. Add Step 2 amount to Step 1 amount to determine the total income subject to tax,

13.1.1.4. Multiply Step 3 amount by .22 to determine FITW amount. Enter this amount in the appropriate block on W-2, and

13.1.1.5. Subtract the Step 4 amount from the Step 3 amount. This result is the net payment or net income for the employee.

13.1.2. Year Two RITA. The RITA payment must occur in the calendar year following the calendar year in which WTA is paid. An employee who does not elect WTA may still claim RITA in the calendar year following payment of travel claims.

13.1.2.1. RITA is based on employee's gross compensation, tax filing status, and marginal tax rates. RITA reconciles WTA payments with the employee's personal tax liability.

13.1.2.2. The employee must file a claim for RITA; it is not automatic. If an employee does not file for RITA in year two, he or she is liable for the additional federal income tax incurred as a result of the additional income. RITA does not cover any moving expense for which the IRS allows a deduction.

13.1.2.3. In some instances, when an employee files the RITA final claim in the second year, he or she is in a lesser tax bracket because of lower earned income. If the calculation of RITA results in a negative amount, do not adjust prior year or current year income. The employee is obligated to repay this amount as a debt due to the Government. A negative W-2 is not issued. NOTE: Year two is the calendar year in which RITA payment is made. The dollar value of the payment must appear on the employee's W-2 as additional income.

13.2 Funding

RITA is a PDT allowance. Therefore, the reimbursable expenses of an employee transferred in the interest of the Government must be charged against the appropriation current when valid travel orders are issued. The organization responsible for the original funding of the move also has the responsibility to secure adequate funds in order to pay the adjustment vouchers.

CHAPTER 7

EVACUATION ALLOWANCES

1.0 GENERAL

1.1 Purpose

This chapter provides general financial policy for evacuated military/uniformed member dependents and civilian employees and/or their dependents. Personnel evacuations require special handling by finance officers at the evacuation point, safe haven, and designated places. The processing of evacuees requires patience, tact, and expeditious service.

1.2 Authoritative Guidance

This chapter provides guidance under authorities contained in statute, Joint Travel Regulations ([JTR](#)), the Department of State Standardized Regulations ([DSSR](#)) [§ 600](#), and Office of Personnel Management regulations codified in Title 5, Code of Federal Regulations ([CFR](#)), [§§ 550.401 through 550.409](#). See the JTR Tables 6-1 through 6-12 to identify the official responsible for announcing the evacuation and identifying the safe haven locations.

2.0 EVACUATION ADVANCES AND PAYMENTS

2.1 Orders

Copies of the departure orders support evacuation advances and payments. If departure orders are not available, refer evacuees to the local personnel organization. The Defense Travel System does not support evacuation travel. For more information see the Defense Travel Management Office's ["Who may use the Defense Travel System"](#) document. Evacuees requiring advances should use an available automated teller machine (ATM) or electronic funds transfer (EFT) once they have departure orders. If no ATM is available and/or EFT cannot be used, the supporting disbursing office may use an alternate payment method.

2.2 Evacuation From Foreign Locations

2.2.1. Military Member Dependents. The JTR, Chapter 6, sections 0602 and 0603 cover allowances for the dependents of Service members authorized or ordered to evacuate from locations outside the continental United States. Uniformed members are not evacuated; however, they may be issued orders for temporary duty (TDY) travel as required.

2.2.2. DoD Civilian Employees and/or Families. Title 5, United States Code ([U.S.C.](#)), section 5725 ([5 U.S.C. § 5725](#)) provides authority for transportation at the Government's expense for an employee's dependents and household goods to a safe haven location when an evacuation is authorized or ordered. The JTR, Chapter 6, section 0604 addresses regulations governing evacuations from foreign areas. [Title 5 U.S.C. § 5522](#) provides authority for advance pay, allowances, and differentials when an employee and/or their dependents are authorized or ordered

to evacuate the employee's permanent duty station. The DSSR, section 600, "Payments During An Ordered/Authorized Departure" relates to the evacuation of civilian employees of the United States and their dependents from or within any foreign area.

2.3 Evacuations From United States and Non-Foreign Outside the Continental United States (OCNUS) Locations

2.3.1. Military Member Dependents. The JTR, Chapter 6, sections 0602 and 0603 cover allowances for the dependents of Service members authorized or ordered to evacuate from locations within the United States. Uniformed members are not evacuated; however, they may be issued orders for TDY travel as required.

2.3.2. DoD Civilian Employees and/or Families. Evacuations within the United States and non-foreign OCONUS locations (including evacuations during a pandemic health crisis) are administered under authority cited in 5 CFR 550.401 through 550.409.

2.3.2.1. Authorized management officials must announce a safe haven when ordering an evacuation. A safe haven is defined as the area to which an employee or dependent will be or has been evacuated. In the case of a pandemic health crisis, an agency may order employees to evacuate their worksites and perform work from home or a mutually agreeable alternative location. During this time, the agency may designate the employee's home or alternative location as a safe haven. After determination and announcement of the safe haven, and the authorized management official has provided their approval, evacuation payments may be provided to evacuated employees. Evacuation payments cover the period of time during which the evacuation order remains in effect, unless terminated earlier for failure to perform work or for reasons listed in 5 CFR 550.407, but must not exceed 180 days.

2.3.2.2. Employees in the United States ordered to evacuate their official duty stations and perform work from their homes (or alternative locations mutually agreeable to the agency and the employees) may be eligible for special allowance payments to offset the direct added expenses incidental to travel (e.g., travel expenses and per diem) outside the limits of their official duty station under 5 CFR 550.403.

2.3.2.3. Determination of special allowances is made in accordance with (IAW) 5 CFR 550.405. En route travel and transportation for an evacuated employee and the transportation expenses for the dependents to the safe haven are as prescribed for TDY travel in the JTR, Chapter 2. Per diem is authorized for dependents of an evacuated employee at a rate equal to the rate payable to the employee as determined IAW the JTR, except that the rate for dependents under age 12 is one-half of this rate. Per diem for both the employee and dependents is payable from the departure date from the evacuated area through the arrival date at the safe haven, including any en route delay period that is beyond an evacuee's control or that may result from evacuation travel arrangements.

2.3.2.4. Pursuant to 5 CFR 550.405, subsistence expenses for an evacuated employee and/or dependents must be determined at applicable per diem rates for the safe haven or for a station other than the safe haven that has been approved by the responsible official designated

by the Secretarial process. See also JTR, Chapter 6, paragraph 060103. Subsistence expenses are to be paid beginning on the date following arrival and may continue until terminated. The subsistence expenses are computed on a daily rate basis pursuant to the guidelines contained in 5 CFR 550.405(b). Payment of subsistence expenses is decreased by the applicable per-person amount for any period for which the employee is authorized regular travel per diem IAW the JTR.

2.4 Finance Office Guidance

The finance office that supports the evacuation point or safe haven area must assist any evacuated traveler with all financial matters. The assistance provided may include the following:

2.4.1. A briefing sheet that includes the finance office's phone number(s), mailing address, and hours of operation;

2.4.2. A description of evacuation entitlements;

2.4.3. A listing of documentation required for advances and payments. The finance office should advise dependents to submit a photocopy of the front and back of their identification (ID) card with each claim submission; and

2.4.4. Information on when, where, and how to submit claims for advances and payments. If problems are encountered, the finance office should contact the appropriate DoD component.

2.5 Claims

2.5.1. Claims Preparation. All claims for payment of evacuation allowances should be submitted to the appropriate supporting DoD component. The supporting finance office must assist evacuees with claim preparation. Each evacuee must be asked about advances or previous payments received. All advances or previous payments associated with an evacuation claim paid by any or all Government agencies must be disclosed upon submission of the claim. This is to avoid duplicate payments IAW the JTR, paragraph 010302. Any duplicate payments must be repaid to the Government.

2.5.2. Payment Method. Initial evacuation advance payments are usually mass evacuation payments. Finance offices are encouraged to use DoD **(DD) Form 1351-6**, Multiple Payments List, as a supplement to **DD Form 1351-2**, Travel Voucher or Subvoucher, to expedite payments. However, this alternative payment method does not lessen the need for proper documentation. Payments to dependents must be made only upon presentation of a valid travel order issued by a competent authority.

3.0 ID OF EVACUEES

3.1 ID Available

United States Uniformed Services ID and Privilege Cards; [Common Access Cards](#); Geneva Convention Cards; passports; or other forms of picture ID are acceptable forms of identification to process payments to evacuees.

3.2 ID Not Available

If the evacuee has no picture ID available, two witnesses may vouch for the evacuee by signing a statement verifying the identity of the evacuee. Each witness must show acceptable ID as indicated in paragraph 3.1 and provide their permanent address. The lack of adequate ID delays service to an evacuee; however, every reasonable effort must be made to accommodate an evacuee lacking adequate identification.

VOLUME 9, CHAPTER 8: “PROCESSING TRAVEL CLAIMS”**SUMMARY OF MAJOR CHANGES**

Changes are identified in this table and also denoted by [blue font](#).

Substantive revisions are denoted by an asterisk (*) symbol preceding the section, paragraph, table, or figure that includes the revision.

Unless otherwise noted, chapters referenced are contained in this volume.

Hyperlinks are denoted by [bold, italic, blue, and underlined font](#).

The previous version dated [April 2022](#) is archived.

PARAGRAPH	EXPLANATION OF CHANGE/REVISION	PURPOSE
All	Verified and updated references, hyperlinks, and formatting to comply with current administrative instructions, and made clarifying editorial changes.	Revision
All	Clarified that local travel claims may be reimbursed using the Defense Travel System as well as the Optional Form 1164.	Revision
All	This publication has been reviewed by the Per Diem, Travel and Transportation Allowance Committee (PDTATAC) in accordance with DoD Instruction 5154.31, Volume 5, dated October 16, 2015, as PDTATAC Case RR23015. Any conflict between this publication and the Joint Travel Regulation (JTR) is resolved based on the JTR and not this publication.	Revision

CHAPTER 8

PROCESSING TRAVEL CLAIMS

1.0 GENERAL

1.1 Purpose

This chapter provides general policy to travelers for the preparation, submission, and processing of travel claims for electronic submission through the Defense Travel System (DTS) and for Permanent Duty Travel (PDT) and Temporary Duty Travel (TDY) forms for hard-copy submission.

1.2 Authoritative Guidance

This chapter provides guidance under authorities contained in statute, the Joint Travel Regulations ([JTR](#)) and the Federal Travel Regulation. It does not include every condition in which the JTR either authorizes or limits travel and transportation allowances. Information contained in this volume does not supersede the JTR.

2.0 ADDITIONAL GUIDANCE

2.1 Disbursing Officer (DO) and Certifying Official Responsibilities

The DO is accountable for all travel payments and the DO's responsibilities are [provided](#) in Volume 5, Chapter 2. The certifying officer is responsible for the accuracy and propriety of payments to include ensuring that travel statements and claims are accurate and properly supported (see Volume 5, Chapter 5). Additionally, the disbursing office is responsible for ensuring that random audits are conducted.

2.2 Payment Method

Electronic funds transfer (EFT) is the mandatory means by which a travel claim is settled within DoD. Split disbursement, which permits direct payment via EFT to the Government Travel Charge Card (GTCC) contractor for charges incurred on the GTCC and to the cardholder for any residual amount, is [also](#) mandatory. Supervisors may authorize [alternative](#) methods of payment in limited situations in which the traveler does not have access to an account at a financial institution that can receive EFT transmissions.

2.3 Adjustments of \$10 or Less

The DO must pay the traveler all amounts due on the original settlement claim. The DO, however, is not required to make collections of \$10 or less on a final settlement or on an overpayment of \$10 or less that the DO subsequently detects. Conversely, the DO must process supplemental payments for \$10 or less only when specifically requested by the traveler.

2.4 Over Advances

If upon settlement of the travel claim the DO determines that a traveler received an excessive travel advance and the excess amount is greater than \$10, the official must forward a letter of indebtedness and give the traveler an opportunity to immediately repay the excess advance. If immediate payment is not made, the DO will initiate collection action as required in accordance with (IAW) Volume 16, Chapter 2.

2.5 Overpayments

If the DO detects an overpayment greater than \$10, the DO must forward a letter of indebtedness to the traveler that requests remittance. The traveler is required to pay the indebtedness within 30 calendar days after the date of notification; otherwise, initiate collection action as outlined in Volume 16, Chapter 2.

2.6 Income Taxation of Reimbursable TDY Allowances

When a civilian employee performs a TDY assignment at one location for more than a year, the Internal Revenue Service (IRS) considers the duty station to be permanent, and any reimbursement (e.g., per diem) is considered taxable income (see [Title 26, United States Code \(U.S.C\), section 162\(a\)](#) and [Internal Revenue Ruling 99-7](#)). The IRS may consider a TDY assignment at one location for less than a year to be permanent, depending upon the specific circumstances. Travel Authorizing Officials (AOs) must determine, IAW the JTR, paragraph 010206, that the assignment is not a Temporary Change of Station (TCS) or a Permanent Change of Station (PCS) move before authorizing a long-term TDY assignment away from the permanent duty station (PDS) for more than 180 days. When TDY reimbursements are taxable income, the travel office must compute all applicable tax withholdings, deduct them from the traveler's claim(s), and issue an IRS Form W-2, Wage and Tax Statement, to the traveler. The IRS W-2s must include income and the tax withholding amounts. Civilian employees who perform long-term TDY assignments for which TDY allowances are taxable are also authorized an Extended TDY Tax Reimbursement Allowance (ETTRA) IAW the FTR, Part 301-11, Subpart F. At a minimum, travelers will submit a DoD (DD) Form 1351-2, Travel Voucher or Subvoucher, a copy of their travel orders, and the W-2 issued from the travel settlement office to claim the ETTRA. NOTE: The traveler must submit travel claims involving taxable TDY allowances on a DD 1351-2 to the appropriate travel settlement office. DTS does not compute claims involving income taxes; do not use DTS in these instances.

3.0 Forms

Travelers, in conjunction with official travel may use the following forms:

[DD 730](#)

Receipt for Unused Transportation Requests and/or Tickets, Including Unused Meal Tickets

[DD 788](#)

Private Vehicle Shipping Document for Automobile

<u>DD 788-1</u>	Private Vehicle Shipping Document for Van
<u>DD 788-2</u>	Private Vehicle Shipping Document for Motorcycle
<u>DD 1351</u>	Travel Voucher NOTE: Multiple use form.
<u>DD 1351-2</u>	Travel Voucher or Subvoucher NOTE: Used to claim PDT/TDY travel allowances for official travel performed, including dependents' travel and other PDT allowances.
<u>DD 1351-2C</u>	Travel Voucher or Subvoucher Continuation Sheet NOTE: Used when the DD 1351-2 does not provide sufficient space.
<u>DD 1351-3</u>	Statement of Actual Expenses NOTE: Used to claim actual subsistence expenses when the traveler performs TDY on an actual expense basis.
<u>DD 1351-5</u>	Government Quarters and/or Mess
<u>DD 1351-6</u>	Multiple Payments List NOTE: Used to make multiple payments for travel and TDY performed under like conditions and circumstances.
<u>DD 1610</u>	Request and Authorization for TDY Travel of DoD Personnel NOTE: Used to support travel claim payments.
<u>DD 1614</u>	Request/Authorization for DoD Civilian Permanent Duty or Temporary Change of Station (TCS) Travel NOTE: Used to support PDT travel payments.
<u>DD 1705</u>	Reimbursement for Real Estate Sale and/or Purchase Closing Cost Expenses
<u>DD 2278</u>	Application for Personally Procured Move and Counseling Checklist
<u>DD 2461</u>	Authorization for Emergency Evacuation Advance and Allotment Payments for DoD Civilian Employees
<u>DD 2912</u>	Claim for Temporary Quarters Subsistence Expense (TQSE) (Sub-Voucher)

[Optional Form \(OF\) 1164](#) Claim for Reimbursement for Expenditures on Official Business

NOTE: Used to claim reimbursement for expenses incurred for recruiting duty and expenses incurred within and around a PDS station.

[Standard Form 1199A](#) Direct Deposit Sign-Up Form

4.0 CLAIM PREPARATION

4.1 Completion

The traveler is responsible for preparing their DD 1351-2 to claim reimbursement for official travel. Even when someone else prepares the claim, the traveler remains responsible for the truth and accuracy of the information. When the traveler or a legally appointed designee signs the form, the traveler attests that the statements are true and complete and that the traveler is aware of the liability for filing a false claim. All claims and attached statements must be completed using ink, typewriter, or computer-generated forms.

4.1.1. General. Travelers must use the DD 1351-2 to submit travel claims requesting reimbursement for expenses incurred while on official travel. The claim is prepared and submitted, with required attachments and approvals, to their servicing travel computation office. The traveler must carefully review expenses claimed on the DD 1351-2 and sign the original claim. Electronic certifications (digital signatures) may be submitted and accepted for payment on a travel claim, in addition to those signed in ink, only if all of the requirements listed in, Volume 5, Chapter 1, subparagraph 3.5.3, are met. Exceptions to the use of DD forms may be granted through the process prescribed in the [DoD Manual 7750.08, Section 7](#).

4.1.2. Erasures and Alterations. The traveler must initial erasures and alterations on totals of reimbursement claims. The person who issued or signed the receipt must initial alterations, such as erasures and alterations in totals on receipts.

4.1.3. Leave of Absence. When the traveler takes leave while in a travel status or at the TDY point(s), the traveler must show the number of hours, type of leave, and dates of leave, on the reimbursement claim along with the scheduled hours of duty. See the JTR, paragraph 033301 for the impact of leave on per diem at TDY locations for civilian employees.

4.1.4. Return to PDS or Home on Non-workdays. If return to the PDS or home from which the traveler commutes daily to the PDS occurs over a weekend or on any non-workday, the following information must be entered on the claim:

4.1.4.1. Date of arrival at PDS (or home),

4.1.4.2. Roundtrip ticket cost or roundtrip distance traveled by privately owned vehicle (POV), and

4.1.4.3. Date of return to TDY location.

NOTE: Per diem is not payable for time spent at the PDS or home.

4.1.5. Travel by POV. When travel is by POV, the traveler must show the points between which the traveler performs travel on the travel claim. The traveler must explain any unusual conditions or circumstances that may affect allowances on the settlement claim, or attached on a separate sheet as supporting documentation. When two travelers on official duty ride together in the same POV, the travelers must identify the name of the owner-operator of the POV and the name of the passenger, along with the name of the department or agency for whom they work. The traveler responsible for POV operating expenses (ordinarily the POV operator/owner) is authorized TDY mileage for the official distance. A traveler not responsible for POV operating expenses (ordinarily a passenger) is not authorized TDY mileage.

4.1.6. Travel by Rental Vehicle. When the AO determines it is advantageous to the Government IAW the JTR, paragraph 020203, a rental vehicle may be authorized or approved under the provisions of the JTR, paragraph 020209. When a traveler utilizes commercial transportation to a TDY site, the AO may authorize or approve the use of taxi fares, public transit fares or a rental vehicle for transportation in and around the TDY location. See the JTR, paragraph 020212. Taxi transportation between home or hotel and transportation terminals is a usual item of reimbursable expense. Such usual items must be stated on the claim but do not require special authorization or approval.

4.1.7. Foreign Currency. IAW the JTR, [Table 2-24](#), a traveler who pays with a credit card for Outside the Continental United States (OCONUS) expenses should check with the credit card vendor to determine the final bill in U.S. currency prior to travel claim submission. Travelers may use the currency exchange rate at which the credit card vendor settles the credit card bill to determine OCONUS expenses charged to the card. Travelers must report reimbursable expenditures in the foreign currency of the country actually paid. To receive proper reimbursement, the traveler must report the following information on their travel claim: The amount of the expense in foreign currency; the exchange rate on the day the item was purchased in cash or the exchange rate at which the credit card was billed if paid with a credit card; and the bank commission(s) charged for conversion of U.S. dollars to foreign currency. The traveler must show the rates of conversion and the commission(s) charged. If the traveler does not show the conversion rate(s), the activity settling the claim must use an appropriate exchange rate for the date the expense was paid. NOTE: Travelers are not authorized reimbursement for losses, and are not liable for repayment to the Government for gains, resulting from currency conversions.

4.1.8. Reimbursements for Other Traveler's Expenses. Reimbursements to travelers who pay for other traveler's expenses are strictly forbidden. Travelers are only reimbursed for expenses, which they themselves incur, and not for expenses incurred by, or on behalf of, any other government personnel. Approving Officials, Authorizing Officials, and Certifying Officers must deny approval of all travel claims in which travel expenses of other personnel are claimed. Approval of this type of claim will subject Approving Officials, Authorizing Officials, and Certifying Officers to potential pecuniary liability (see Chapter 5, paragraphs 2.1 and 2.2 for

information on pecuniary liability for Departmental Accountable Officials and Certifying Officers).

4.1.9. Items Denied Reimbursements. The travel computation office must deny claims for items in vouchers that are not reimbursable under this volume and the JTR, or not properly supported by receipts where required. The claimant must be notified and informed of the reason(s) and required corrective action, if any. If the traveler later reclaims these items, the traveler must itemize them in a subsequent regular or supplemental claim that is supported by the original or copy of the denial notice.

4.1.10. Supporting Documents. In addition to expense statements or other declarations, when required, support the claim by including the following documents:

4.1.10.1. Travel Orders. Travel orders and issued amendments to the claim for TDY and two copies for PDT.

4.1.10.2. Government-Procured Transportation Documents. Memorandum copies of transportation request documents.

4.1.10.3. Unused Government-Procured Transportation Documents. The traveler obtains receipts for the unused portion of travel when they return the unused portion of the ticket to a Transportation Officer (TO). This is not applicable to the Navy.

4.1.10.4. Statements for Common Carrier Reimbursement. When a traveler claims reimbursement for common carrier transportation paid by cash, the following statement must be included on the claim: "I hereby assign to the United States any rights I may have against other parties in consideration with any reimbursable carrier transportation charges described herein."

4.1.10.5. Unused Tickets. When itineraries are changed or trips are canceled after tickets have been issued to the traveler, the traveler must write and initial a statement on the travel claim that all tickets have either been used for official purposes, and/or all unused tickets, or portions thereof, have been properly accounted for and turned in to the TO or Travel Management Company (TMC). The traveler must attach receipts issued by TO/TMC for unused tickets to the travel settlement claim.

4.1.10.6. Actual Expense Authorization (AEA). When AEA is authorized or approved in connection with TDY and the travel order does not reflect it, the traveler must attach three copies of the AEA to the claim.

4.2 Itinerary

Claims must contain a complete itinerary for the entire period of travel. This includes return to the PDS during TDY and any type of leave taken and the periods the leave is used. On claims for TDY travel, the first entry must be the traveler's residence or office, as applicable, except for an aircrew traveler, or extended TDY (i.e., TDY in excess of 30 days). See the JTR, paragraph 010203. The traveler does not need to list travel from the residence or office to a carrier

terminal in the itinerary; the traveler claims the mileage or taxi as a reimbursable expense. This also applies to travel from a carrier terminal to the place of lodging or TDY site. The claimant must list the dates of departure from and arrival at a port of embarkation/port of debarkation.

4.3 Reimbursable Expenses

The traveler must enter all allowable reimbursable expenses. Tax on lodging is a separate reimbursable expense from the room charge and the traveler must claim it separately on the travel claim for travel within Continental United States and non-foreign OCONUS areas. Travelers may find information regarding specific State exemptions for lodging taxes at the General Service Administration [State Tax Exemption Information for Government Charge Cards](#).

4.4 Recruiting Expenses

Recruiting expenses authorized in the JTR, paragraphs 020605 and 020606 may be reimbursed using the DTS or OF 1164.

4.5 Other Instructions

4.5.1. The traveler must attach all lodging receipts regardless of amount and any other receipts for expenses of \$75 or more to the claim. The traveler must furnish a statement explaining the circumstances if a receipt is impracticable to obtain or it has been inadvertently lost/destroyed.

4.5.2. Travelers receive 75 percent of the meals and incidental expense rate for the first and on the last day of travel [when the standard per diem rules in JTR Chapter 2 are in effect](#).

5.0 RESPONSIBILITIES

5.1 Authorizing Official (AO)

Refer to Chapter 5, section 2.0 for additional AO responsibilities.

5.1.1. [Reviewing Travel Claims](#). The AO confirms the authorized travel and must ensure the following when reviewing and signing travel claims:

5.1.1.1. The traveler properly prepared the claim using ink or computer-generated forms;

5.1.1.2. All amounts claimed are accurate;

5.1.1.3. The traveler attached required orders, receipts, statements, and justifications to the travel claim;

5.1.1.4. All expenses claimed are authorized and allowable;

5.1.1.5. Any deviation from the travel order is in the Government's best interest;

5.1.1.6. Claimed items requiring approval after the fact, but not approved in the order, were necessary in the conduct of official business;

5.1.1.7. Reimbursement, as appropriate, is approved (in whole or in part) or reimbursement is revised;

5.1.1.8. The claim is on an original travel voucher with an original/electronic signature and date;

5.1.1.9. Advance and partial payments are annotated, or "NONE" is entered in block 10 of the DD 1351-2; and

5.1.1.10. When the traveler used foreign currency for reimbursable expenses, the appropriate blocks of the DD 1351-2 must include the expense in foreign currency and U.S. dollars, the exchange rate, and commission charges for the foreign currency at the time of the transaction.

5.1.2. Approving Items. Before an AO may approve an item involving use of a transportation mode not authorized in a travel order, the traveler must explain the necessity for that mode on the claim. When a traveler claims a POV expense under orders that authorize travel by common carrier or Government vehicle, and a travel-approving official does not determine that such use is in the Government's best interest, reimbursement is limited per the JTR, paragraphs 020210 and 020302. An AO also may approve:

5.1.2.1. Excess accompanied baggage expenses;

5.1.2.2. Miscellaneous reimbursable expenses;

5.1.2.3. Minor deviations in TDY duration or location; and

5.1.2.4. Additional travel expenses incurred by a [traveler](#) with a disability or special needs. See the JTR, [subparagraph 020207.D](#).

5.1.3. Items Requiring Advance Authorization. The following require advance authorization and may not be approved on the claim after the fact:

5.1.3.1. Use of reduced fares for group or charter arrangements,

5.1.3.2. Payment of a reduced rate of per diem for subsistence expenses,

5.1.3.3. Acceptance of payment from a nonfederal source for travel expenses, and

5.1.3.4. Travel expenses related to attendance at a conference.

5.2 Review of Travel Claims

An AO or supervisor that has knowledge of the purpose and conditions of the travel claim prepared by the traveler conducts the review of the claim by ensuring that:

5.2.1. The claim is properly prepared;

5.2.1.1. The traveler used the correct travel claim forms (printed in ink, computer-generated or typewritten form).

5.2.1.2. The claim is on an original travel voucher with an original/electronic signature and date.

5.2.1.3. The traveler annotates any advances or partial payments authorized on the travel claim or “NONE” in the appropriate block.

5.2.1.4. When foreign currency is used while traveling on official business, the traveler includes the expense in both foreign currency and U.S. dollars, indicating the exchange rate and commission charges for the foreign currency at the time of the transaction if paid with cash, or the rate at which the credit card bill was settled if paid with a credit card.

5.2.2. The amounts claimed are accurate and reasonable;

5.2.3. The traveler attached the required orders authorizing the travel, receipts, statements, and any justifications to the travel claim; NOTE: For the definition of what constitutes a valid receipt, see Volume 9, Definitions;

5.2.3.1. The traveler has submitted original lodging receipts regardless of the dollar amount.

5.2.3.2. The traveler has submitted receipts for all single items of expense of \$75 or more.

5.2.4. The claimed expenses were authorized and allowable, and that any deviations from the authorized travel were in the best interest of the Government; and

5.2.5. The AO or supervisor has reviewed, signed, and dated all travel claims and forwarded them to the travel office for computation.

5.3 Travel Computation Office

Refer to Chapter 5, subparagraph 2.3.4 for the travel computation office’s responsibilities.

5.4 Traveler

Refer to Chapter 5, subparagraph 2.3.6 for the traveler's responsibilities.

6.0 SUBMISSION OF TRAVEL CLAIMS

6.1 Temporary Duty (TDY) and Permanent Duty Travel (PDT) Claims

The traveler must submit all claims within five working days of return to or arrival at the PDS. In cases of extended TDY (over 45 days), and reservists on Annual Training, Active Duty Training, or Inactive Duty Training that is known to be greater than 45 days, the traveler must submit a claim for each 30-day period. The traveler must submit the claim within five working days after each 30-day period.

6.2 Local Travel at Permanent Duty Station (PDS)

6.2.1. General. The traveler must submit claims for reimbursement of expenditures for official business using the [DTS](#) or OF 1164 for such expenses as taxicabs, public carriers, or POVs while transacting official business in the locality of the PDS. The traveler must submit claims as soon as practical after expense has occurred. Travelers may submit claims for each individual trip or by combining recurring trips on one claim. The OF 1164 is not used for reimbursement of fares or mileage for use of a POV in connection with TDY travel involving per diem allowance.

6.2.2. Claim Submission. The [claim](#) must identify the date, point of origin and destination, and the amount of fare and tips or distance for each trip. The traveler need not complete the point of origin column, when the point of destination of one trip is identical to the point of origin of the next trip. When the traveler claims identical trips on a voucher, only the first trip must show the points of origin, destination, and date for the trip. Subsequent trips may be annotated with a statement such as "Same trip made on date(s)." Unless required by local authority, it is not necessary to compute mileage reimbursement for each trip. The traveler may add the "number of miles" and the total multiplied by the mileage rate. The claimant must sign the form and must submit as provided in applicable Component policy.

6.3 Non-Medical Attendants

6.3.1. Non-medical Attendant for Specialty Care Over 100 Miles. If a patient meets the travel requirements in the JTR, paragraph 033007, roundtrip transportation and travel expenses for one necessary attendant are authorized. The attendant must be a parent, guardian, or another adult member of the patient's family who is at least 21 years of age. An individual traveling as an attendant is authorized travel and transportation allowances or reimbursement for expenses prescribed as follows:

6.3.1.1. Military Member as Attendant. A member who is a family member, and [is](#) ordered to be an attendant, is authorized TDY travel and transportation allowances while acting as an attendant.

6.3.1.2. Civilian Employee as Attendant. A U.S. Government civilian employee who is a family member, and is assigned as an attendant, is authorized the TDY travel and transportation allowances prescribed in regulations issued by the employee's agency or department funding the travel.

6.3.1.3. Other Person as Attendant. A person other than a military member or U.S. Government civilian employee who is at least 21 years of age, is a family member, and who is designated to travel as an attendant, will be issued an Invitational Travel Authorization (ITA) or be included in the patient's travel order and identified as an attendant. This person is authorized reimbursement of reasonable travel expenses contained in the JTR, paragraph 033007. NOTE: The patient and attendant cannot both be reimbursed for the same travel expense (e.g., both cannot be paid mileage when traveling by POV).

6.3.2. Claims. When travelers incur overnight lodging and/or meals, the traveler must file the claim on a DD 1351-2. When the claim doesn't include overnight lodging or meals, travelers must use the DTS or OF 1164 for such expenses as occasional meals, taxicabs, public carriers, or POV. The traveler submits the claim as soon as practicable after they incur the expense.

6.3.3. Claim Submission. The claim must identify the date, point of origin and destination, and the actual expense to perform as a non-medical attendant for specialty care patients. The traveler submits the claim as soon as practicable. A mileage allowance is paid when a POV is used and reimbursement is authorized for parking, ferry fares, and road/bridge/tunnel tolls. The traveler must use a DD 1351-2 for reimbursement for actual cost of lodging and meals up to the per diem rate prescribed for the area concerned.

6.3.4. Non-Medical Attendant for Very Seriously and Seriously Wounded, Ill, or Injured Member. A non-medical attendant of a member may be provided transportation and per diem as described in and determined by appropriate authority under the JTR, paragraph 033202. An individual traveling as a non-medical attendant is authorized travel and transportation allowances or reimbursement for expenses prescribed as follows:

6.3.4.1. Military Member as Attendant. The member is authorized TDY travel and travel allowances while acting as an attendant.

6.3.4.2. Civilian Employee as Attendant. A U.S. Government civilian employee is authorized the TDY travel and transportation allowances in the regulations used by the agency or department funding the travel.

6.3.4.3. Other Person as Attendant. An ITA must be issued to a person other than a military member or U.S. Government civilian employee designated to travel as an attendant. This person is authorized reimbursement of travel allowances as prescribed in the JTR, paragraph 033202.

6.3.5. Claims. Submit claims for reimbursement of expenditures for military members/civilian employee attendants using the DD 1351-2. Submit claims for reimbursement of expenditures for other persons as an attendant using the [DTS or OF 1164](#) when they do not incur overnight lodging and/or per diem. When travelers incur overnight lodging and/or per diem, the traveler must file the claim on a DD 1351-2.

6.3.6. Claim Submission. The [claim](#) must identify the date, point of origin and destination. The traveler must use the DD 1351-2 for reimbursement for per diem.

6.4 Travel and Transportation for Funeral Honors Detail

6.4.1. General. Funeral honors duty travel allowances may be authorized for Reserve Component (RC) military members and individuals not employed by the Government (see the JTR, paragraph 032004). Claims for the Funeral Honors Duty Allowance \$50.00 stipend authorized in Volume 7A, Chapter 58, and Volume 7B, Chapter 22, are not travel allowances and must be submitted to and paid through the appropriate Military Pay office.

6.4.1.1. Reserve Component (RC) Military Members

6.4.1.1.1. Must use the [DTS or OF 1164](#) for reimbursement of expenditures for funeral honors detail when they do not incur overnight lodging and/or per diem.

6.4.1.1.2. Must use the DD 1351-2 when they incur overnight lodging and/or per diem. RC members performing funeral honors duty at a location 50 or more miles from the member's residence are authorized TDY travel and transportation allowances contained in the JTR, Chapter 2.

6.4.1.2. Individuals Not Employed by the Government

6.4.1.2.1. Must use the [DTS or OF 1164](#) for reimbursement for expenditures for funeral honors detail when they do not incur overnight lodging and/or per diem.

6.4.1.2.2. Must use an ITA and the DD 1351-2 when they incur overnight lodging and/or per diem. Allowances for individuals not employed by the Government performing funeral honors detail are contained in the JTR, paragraph 032004.

6.4.1.2.3. A mileage allowance may not be paid. Reimbursement for actual POV expenses is limited to fuel, oil, parking, ferry fares, road, bridge, and tunnel tolls. The traveler must use an ITA for reimbursement for actual cost of lodging and meals up to the per diem rate prescribed for the area concerned. Reimbursements may be authorized and approved for miscellaneous expenses contained in the JTR, Chapter 2.

6.4.2. Claim Submission. The [claim](#) must identify the date, point of origin and destination, and reimbursable expenses incurred while performing the Funeral Honors Detail. The traveler submits the claim to the military unit augmented for approval.

6.5 Separated or Retired Members

6.5.1. General. A separated or retired member who has not received an advance must forward the claim to the disbursing office responsible for that person's pay accounts prior to separation or retirement. The DO must pay all claims submitted within one year of separation or retirement. The disbursing office that supports U.S. Marine Corps separatees or retirees must pay all claims submitted within 60 days of the month of separation or retirement. Claims received after the stated time periods for filing must be forwarded to the following designated Service address:

Army:	Defense Finance and Accounting Service (DFAS) ATTN: Travel Pay, MilPCS 325 Brooks Road Rome, NY 13441-4501
Navy:	Travel Processing Center at separatees or retirees separation point
Air Force:	Member's last servicing Financial Services Office (FSO)
Marine Corps:	Member's last servicing Finance/Disbursing Office (FO/DO)

6.5.1.1. Officers. Travel allowances payable to a separating or retiring officer must be used to offset indebtedness to the Government when paid as an advance or settlement.

6.5.1.2. Enlisted Personnel. Travel allowances payable in advance to separating or retiring enlisted personnel for personal travel home may not be used to offset any debts to the Government. Travel allowances payable to enlisted members after they have returned home must be withheld and applied against their debts.

6.5.1.3. Dependents and Household Goods Claims. Advances and settlements of dependent travel allowances and household goods allowances must be withheld and applied to indebtedness to the Government.

6.5.2. Travel to Specialty Care Over 100 Miles. When a retired member with a combat-related disability, who is not a TRICARE Prime enrollee, is referred by a primary care provider for follow-on specialty care, services, and supplies, for that particular disability, more than 100 miles from the primary care provider's office, the patient must be reimbursed for reasonable travel expenses. See the JTR, paragraph 033007.

6.6 Deceased and Next of Kin

6.6.1. Attendance at a Deceased Member's Memorial Ceremony. In addition to round-trip travel and transportation allowances to attend burial ceremonies, an eligible family member as described in the JTR, paragraph 032002, may be authorized travel and transportation allowances for one round-trip to an installation/home port/unit memorial service, if that memorial service, for a deceased member who dies while on active duty, occurs at a location other than the burial ceremony location. See the JTR, paragraph 032005.

6.6.1.1. Claims. ITAs must be issued to eligible family members attending a memorial service. The traveler must complete this trip within 2 years following the member's death, unless the Service Secretary waives the time limitation.

6.6.1.2. Claim Submission. The traveler must use [the DTS or OF 1164](#) for reimbursement of expenditures when they do not incur overnight lodging and/or per diem. The [claim](#) must identify the date(s), point of origin and destination, and the actual expense in attending the memorial service. The traveler must use a DD 1351-2 when they incur overnight lodging and/or per diem.

6.6.2. Unsettled Claims for Deceased Travelers. The individual designated by the Service to settle a deceased member's affairs is responsible for the preparation of the travel claim for the travel of the deceased member. The finance official computes and forwards all claims to the supporting Defense Finance and Accounting Service (DFAS)/Service site (see subparagraph 6.6.4 for address) for payment or collection. For deceased civilian employees, the surviving spouse or legal representative, the executor, or administrator must sign any outstanding travel claims. The travel office computes these claims locally. Travel settlements for travel cardholders who paid for expenses using a GTCC, are subject to split disbursement (see [10 U.S.C. § 2784\(a\)](#) and [DoD GTCC Regulation](#), paragraphs 040701, 041007 and 041106). Following payment to the GTCC issuer, any remaining expense reimbursement will be forwarded to the member's or civilian employee's pay activity for inclusion in the death claim payment. Similarly, all reimbursements for non-card holders will be forwarded to the appropriate pay activity for inclusion in the death claim payment.

6.6.3. Claims for Dependents of Deceased Members. Two copies of [DD Form 1300](#), Report of Casualty, support travel performed under the provisions of the JTR, paragraph 032001.

6.6.3.1. If the claim is for travel to a member's home of record, as shown on DD 1300, no further documentation is required.

6.6.3.2. If the claim is for travel to the official residence of a relative, the claimant must furnish a statement to that effect showing the name and relationship of the person to whose residence they traveled.

6.6.4. Forward these claims to the following applicable address:

Army: DFAS Indianapolis
Systems Liaison and Procedures Division,
Military Pay
ATTN: DFAS-IN/JFLAKD
8899 East 56th Street
Indianapolis, IN 46249-0885
dfas.indianapolis-in.jfl.mbx.dfas-in-
systems@mail.mil

Navy: DFAS Cleveland
Federal Office Bldg.
1240 East 9th Street
Cleveland, OH 44199-2055

Air Force: Members last servicing
Financial Services Office (FSO)

U.S. Marine Corps: FO/DO responsible for the deceased Marine

6.7 Travel Under Classified Orders

If classification of a TDY order is necessary, classify, mark, and handle the special order according to the applicable DoD Component security regulation.

6.7.1. Statement Substitute. The approving official may withdraw such orders and substitute the following certificate:

“I certify that the travel upon which allowances on this voucher are claimed was authorized by SECRET (or CONFIDENTIAL) travel orders issued on (date); the travel so ordered was performed; that where travel by private conveyance is involved, the official distance so covered is as stated on the claim; that where per diem is involved, the days and times of departure are as stated; that no Government quarters or meals were furnished except as stated thereon; the transportation mode and basis for reimbursement are correct; the time for which reimbursement is claimed was the minimum necessary; and I have shown or mailed to the paying disbursing official a copy of the travel orders upon which the voucher is based.”

6.7.2. Voucher Support. Distribute classified orders only to persons who have the proper clearance and who require a copy of the order. An unclassified extract from a classified order may be used to support the payment voucher if it furnishes enough information. This permits filing an unclassified travel claim. For classified locations, the traveler must indicate in the itinerary of the travel claim the location by showing site 1, site 2, and so forth. The DO must pay the claim if they can apply the per diem rate. If, however, the disbursing official does not have knowledge of the location or the traveler insists on not showing the location, process the travel claim and documentation per Service instructions.

6.8 Multiple Payment Procedures in Connection With Sea Trial Trips

When more than one traveler participates in sea trial trips at the same time, between the same points, and the same accounting data is chargeable, submit a travel claim on a DD 1351-6, Multiple Payments List, to cover the entire group. Enter the notation “See Attached” in the appropriate blocks for the claimant’s name and the certifying official. A DD 1351-2 must support the claim.

6.9 Navy Oceanographic Office

The disbursing office of the ship pays travel claims of civilian employees of the Navy Oceanographic Office for travel aboard survey ships if presented for payment before completion of travel. The disbursing office of the traveler’s duty station pays travel claims filed after return to the traveler’s duty station.

6.10 U.S. Coast Guard

6.10.1. U.S. Coast Guard Travel Using DoD Appropriations. Coast Guard members who travel on orders citing DoD appropriations should file travel claims the same as active-duty DoD members using the procedures applicable at the disbursing office of the unit whose funds are involved. Disbursing offices will settle these vouchers like those of any other member. If any excess travel time is involved, then forward a copy of the settlement voucher to:

Commanding Officer (TVL)
U.S. Coast Guard Pay and Personnel Center
444 SE Quincy Street
Topeka, KS 66683-3591

6.10.2. U.S. Coast Guard Travel on Other Than DoD Appropriations. When a Coast Guard member requests a travel advance or settlement payment on orders citing other than a DoD appropriation, the disbursing officer may provide payment and seek reimbursement from:

Commanding Officer
U.S. Coast Guard Finance Center
1430A Kristina Way
Chesapeake, VA 23326-1000

6.11 Travel and Living Allowance (T&LA) for International Military Students and Guest Instructors

International Military Students and Guest instructors who are paid T&LA, as defined in Chapter 10 of Defense Security Cooperation Agency (DSCA) Manual 5105.38-M, Security Assistance Management Manual, must submit travel claims along with copies of their travel orders/authorization and required receipts for reimbursement to the appropriate travel settlement office (see [DSCA Manual, Chapter 10, Section C10.13](#)).

7.0 COLLECTIONS AND INDEBTEDNESS FOR CIVILIAN EMPLOYEES

7.1 Collections

The civilian employee is billed in writing with a demand for payment. If the civilian employee does not remit payment, the DO must initiate collection through salary deductions, set-off from final salary and allowances, lump-sum leave payment, the civilian employee's retirement account, or other amounts due the civilian employee IAW with controlling debt collection regulations.

7.2 Uncollectible Cases

If the actions prescribed in paragraph 7.1 do not result in full reimbursement to the Government, forward a record of all collection efforts and transactions to the same office as for an agreement violation claim in Chapter 6, paragraph 11.4, except for delinquent indebtedness cases of former civilian employees of the Military Services. Forward debts for former civilian employees of the Military Services to:

DFAS-IN/Debt and Claims
Department 3300
8899 East 56th Street
Indianapolis, IN 46249-3300

8.0 ADVANCE DECISIONS, DOUBTFUL CLAIMS AND RECLAIM OR RECONSIDERATION REQUESTS

8.1 Request for Advance Decision

A DoD DO or certifying officer may request an advance decision on any questionable claim presented for payment. Additionally, accountable officials and others with final responsibility for adjudicating claims may request an advance decision on doubtful claims (claims involving doubtful questions of law or fact) prior to preparation or presentment of a claim. The request must be prepared and submitted as required in Volume 5, Chapter 12. Submit the original request package and two copies to the DFAS Indianapolis office through the supporting DFAS site for the DoD Component that funds the travel order. An accountable officer desiring an advance decision on an issue involving the interpretation of the JTR must forward the request through the Per Diem Travel and Transportation Allowances Committee. Forward requests to the following addresses, as applicable:

Army,	DFAS Indianapolis
Marine Corps,	ESS Travel Pay
Navy, and all	ATTN: DFAS-IN/ JJFKCE
Defense Agencies	8899 East 56 th Street
	Indianapolis, IN 46249

Air Force

Member's last servicing
Financial Services Office (FSO)

8.1.1. Amounts Over \$250. The supporting DFAS site must review each request and contact the DO to resolve any questions. Requests for amounts over \$250 require advance decisions by the Defense Office of Hearings and Appeals (DOHA) for Service members and the Civilian Board of Contract Appeals (CBCA) for DoD civilian employees. Forward all requests for advance decisions through the General Counsel of the requesting Component or the DFAS to the General Counsel, DoD, before referral to any authorized official outside the DoD (see Volume 5, Chapter 12, section 3.0).

8.1.2. Amounts Under \$250. If the advance decision request is for \$250 or less, the General Counsel, DoD, may refer the request to the General Counsel, DFAS. The General Counsel, DFAS must review the request and issue an advance decision (see [DoDI 1340.21](#), Procedures for Settling Personnel and General Claims and Processing Advance Decision Requests, Enclosure 8, paragraph E8.5.3).

8.2 Reconsideration Requests and Reclaims

When the travel office makes a decision concerning an allowance determination that the traveler disagrees with, that travel office must issue the traveler a written explanation and advise the traveler of the right to have the claim reconsidered. If the traveler does not accept the explanation of the DO, the DO must assist with the resubmission of the claim. To have a claim reconsidered (see exceptions in paragraph 8.4), send:

8.2.1. A copy of the claim;

8.2.2. A letter of explanation from the traveler;

8.2.3. An endorsement from the approving officer; and

8.2.4. A letter of position from the travel computation office, through the major Command, to the appropriate DFAS site. The DFAS site must respond to the DO or traveler. If the traveler does not accept the decision, the DFAS site may forward the claim as a reclaim or appeal to DOHA or the CBCA. A reclaim or appeal is forwarded because the claimant is unwilling to accept the decision, and not because the travel office or accountable official has doubts as to whether the claim should be paid. The travel office or accountable official forwards such claims through the appropriate DFAS site to DOHA for Service members and the CBCA for DoD civilian employees at the following addresses.

Defense Office of Hearings and Appeals
Claims Division
PO Box 3656
Arlington, VA 22203-1995

Civilian Board of Contract Appeals
ATTN: Clerk of the Board
1800 F Street, NW.
Washington, DC 20405

8.3 Waivers

Travelers or Components must submit waiver requests resulting from erroneous travel payments and transportation allowances to the DFAS Indianapolis site. See Volume 16, Chapter 4.

8.4 Unions and Third-Party Review

When covered by a collective bargaining agreement, neither the Department, the Office of Personnel Management, the CBCA, nor the DOHA, has jurisdiction over the claimants claim unless the matter of travel claims is explicitly excluded from grievance under the collective bargaining agreement.

9.0 CLAIM FOR LATE PAYMENT FEE

The Travel and Transportation Reform Act of 1998 ([Public Law 105-264](#)), governs the claim for late payment fees for late processing of a traveler's travel claim.

9.1 Submission of Travel Claim

Travelers must submit a properly prepared travel claim to their supervisor/approving official within five working days after completion of travel. The disbursing office pays the travel claim within 30 calendar days after the claim is signed and dated as received by the supervisor/approving official. The supervisor/approving official or the travel computation office has seven calendar days to notify the traveler if the travel claim is not proper or complete for payment.

9.2 Late Payment Fee and Charges

If the disbursing office does not pay a travel claim within 30 calendar days after it is received by the office with responsibility to approve the claim, that office may be required to pay a late payment fee. This fee is payable, using the Prompt Payment Act interest rate, beginning on the 31st day after the submission of a proper travel claim and ending on the date that the Government disburses the payment. The only exception is that no payments are required for amounts less than \$1.00. Interest payment funding instructions are located in Volume 10, Chapter 7, paragraph 2.9. In addition, the Government must pay the traveler an amount equal to any late payment charge that the card contractor would have been able to charge had the traveler not paid the bill. The IRS has determined that the late payment fee is reportable as interest and that the Government reports payment equal to the late payment charge as additional wages. In addition, travelers must be reimbursed for late fees imposed by the bank if the nonpayment that caused the late fee was a result of the Government's untimely processing of the travel claim. The bank does not assess late fees until 75 days following the billing statement.

9.3 Systems Modifications

As necessary, modifications are made to DoD Component travel systems to capture the date of submission of a proper travel claim and compute entitlement for late payment fees due as a result of untimely settlements.

9.4 Claims for Late Payment Fees

Payment of late fees must be calculated and paid at the time the claim is processed. Travelers who believe that late payment fees were not included in the calculation of their travel claim may submit supplemental travel claims for late payment fees. Claimants must submit each such supplemental travel claim through the office where the claim is reviewed/approved. That office must annotate the claim with the date of receipt of the original travel claim.

9.5 Receipt of Travel Claim for Late Payment Fee

Upon receipt of a travel claim for a late payment fee, the travel computation office must review the claim. That office must calculate the number of elapsed calendar days beginning with the signature and date of receipt by the supervisor/approving official and the date the claim was paid. The date the supervisor/approving official receives the proper travel claim counts as the first day and the payment date of the travel claim counts as the last day. If the number of days exceeds 30 calendar days, the travel computation office multiplies the amount paid on the delayed travel claim by the daily Prompt Pay Act interest rate by the number of days in excess of 30 days. Pay the traveler by EFT, or check if the previous payment was by check. The disbursing office must use the accounting classification used for the original travel claim for the amount charged to the supplemental travel claim. When required, prepare an [IRS Form 1099-INT](#), Interest Income, for the traveler IAW IRS regulations.

9.6 Travel Claim Forwarded to Another Activity

If the traveler submits a travel claim and the travel computation office requires a review by another activity, such as for doubtful claims, the 30-day clock continues to run. If the travel computation office disallows a claim, the claimant earns no late payment fee. If the travel computation office allows part of the claim, that amount is subject to the late payment fee and that portion of the payment earns interest from the original submission date. Claims returned to the traveler for errors or incomplete travel claims do not earn interest. Start the 30-day clock when a corrected claim is submitted to the supervisor/approving official.

DEFINITIONS

1.0 General

The following list defines general terms of significance or importance relating to travel pay entitlement policies for the DoD that are discussed in various chapters in Volume 9. This list of definitions provides general information. It is by no means an exhaustive list of all financial management terms. The standard dictionary definition shall apply to any terms not defined in this chapter, unless otherwise indicated. Authoritative guidance with more detailed explanations or nuances may be found in Volume 9 specific chapters.

2.0 List of Definitions

Accountable Officials

Individuals appointed in writing to ensure the adequacy of system internal procedures, and serve as control points within an organization, focusing on minimizing opportunities for erroneous or improper payments.

Actual Expense Allowance

Payment of authorized actual expenses incurred, up to the limit prescribed by the Joint Travel Regulations ([JTR](#)), as appropriate. Entitlement to reimbursement is contingent on entitlement to per diem and is subject to the same definitions and rules governing per diem. See the JTR, Appendix A, and paragraph 020307.

Actual Travel Time

The travel time from physical departure to arrival at the traveler's temporary duty (TDY) location or permanent duty station (PDS).

Agency Program Coordinator (APC)

The individual who administers the Government travel card program and acts as the liaison between the travel card vendor and agency cardholders. APCs are responsible to the respective Department of Defense (DoD) Component Program Manager (CPM) for program execution and management at hierarchy levels determined by the DoD CPM.

Allowable Travel Time

The number of days allowed for official travel. See the JTR, paragraph 020302.

Approve

As defined in the JTR, Appendix A, the ratification or confirmation of a completed act. Its use, with respect to official travel, applies equally to military and civilian personnel.

Approving Official

Individuals who direct and approve/disapprove travel requests and vouchers prior to claim settlement. They ensure the necessity and justification for travel orders.

Authorize

As defined in the JTR, Appendix A, the term ‘authorize’ is defined as the giving of permission before an act. Its use, with respect to official travel, applies equally to military and civilian personnel.

Authorized Travel Time

The maximum allowable travel time, determined before travel begins, and based on the mode of travel authorized in the orders.

Authorizing Official (AO)

The designated representative to whom final authority to issue travel orders is delegated in writing by a DoD Component, by organizational title, and/or by name. He or she directs travel and is responsible for funding. This is the same as Authorizing/Order-Issuing Official.

Authorizing Official (AO) (Defense Travel System (DTS))

An individual appointed in writing that is responsible for authorizing travel and approving travel claims by determining the necessity of trips and funds availability, assigning the proper line of accounting (LOA) prior to authorization, and approving travel claims for validity after completion of travel. The AO is the individual who controls the mission, authorizes the trip, and controls funds for TDY travel.

Cardholder

The cardholder is the legal agent of the Government Travel Charge Card (GTCC). The cardholder holds primary liability for the card’s proper use and payment.

Centrally Billed Accounts (CBA)

A card or account established by the travel card vendor at the request of a federal agency. Through a CBA, the travel card vendor bills the Government and payments are made directly to the travel card vendor by the federal agency responsible for the reconciliation of the account. CBA’s are issued directly to the Government and the Government retains liability for the CBA’s.

Certifying Official

An individual, designated in writing, who is responsible for the certification of travel vouchers for payment and the verification that payments made by the Government are legal, proper, and correct.

*Common Carrier

A private sector supplier of air, rail, bus, ship, or other transportation system.

Component Program Manager (CPM)

The designated headquarters program manager for each agency using the General Services Administration (GSA) SmartPay contract. CPMs are responsible for establishing the hierarchies for their agency and distributing program management information from the Defense Finance and Accounting Service, the Defense Travel Management Office, and the GSA.

Concurrent Travel

Travel under which the traveler is accompanied or immediately followed by the traveler's spouse and/or dependents.

Constructed Cost (Transportation)

The constructed cost is the sum of the authorized transportation type's ticket cost plus the TMC fee. See the JTR, [paragraph 020210](#) and Appendix A, Policy Constructed Airfare entry for more information.

Contiguous United States

The 48 contiguous states of the United States and the District of Columbia, which do not include Alaska (AK) and Hawaii (HI).

Continental United States (CONUS)

The 48 contiguous states of the United States and the District of Columbia. This definition specifically excludes the states of AK and HI as they are not part of the contiguous states and are included in the definition of Non-Foreign, Outside the Continental United States (OCONUS) locations. See Title 37, United States Code, section 101 ([37 U.S.C. § 101](#)).

Defense Travel System (DTS)

An efficient, flexible system for electronically creating travel authorizations (travel orders), vouchers, and pre-audit documents and for completing the post-travel claims processes. DTS provides for paperless electronic routing, review, and approval of the travel and associated documentation.

Dependent

The term 'dependent' is defined in the JTR, Appendix A. Dependents of uniformed members can be acquired, command sponsored, or non-command sponsored.

Designated Place

See the JTR, Appendix A and Chapter 6, in reference to evacuation allowances.

Digital Signature

An electronic [equivalent](#) of a written signature. A digital signature can be used in proving to the recipient or a third party that a document or message was, in fact, signed by the originator.

Directed

An order to do something in a specific way.

Disbursing Office

An activity, or that organizational unit of an activity, whose principal function consists of the disbursement and collection of official funds for the Government.

Dislocation Allowance (DLA)

An allowance paid to military members to partially reimburse them for expenses incurred in relocating their households. See the JTR, section 0505.

Foreign Area

Any area or country outside the 50 states of the United States, District of Columbia, the Commonwealths of Puerto Rico and the Northern Mariana Islands, Guam, and U.S. territories and possessions.

Funeral Honors Detail

A group of individuals not employed by the Government who participate in a funeral honors detail for a veteran and may be authorized transportation or transportation reimbursement, and expenses. See [10 U.S.C. § 1491](#).

Government Bill of Lading

A Government document used for the procurement of commercial transportation (moving) services.

Government Constructed Cost (GCC)

The “Best Value” cost the Government would have paid for Government procured [household goods \(HHG\)](#) transportation.

Government Dining Facility or Government Mess

A Government-owned facility, funded by appropriated funds. See the JTR, Appendix A.

Government Travel Charge Card (GTCC)

A charge card used by authorized individuals to pay for official travel and transportation related expenses for which the card contractor bills the Government (CBA) or individual (Individually Billed Account (IBA)). See the JTR, Appendix A.

Household Goods (HHG)

Items associated with the home and all personal effects belonging to a member/employee and dependents on the member’s order effective date/employee’s effective date of transfer/appointment that legally may be accepted and transported by an authorized commercial transporter. See the JTR, Appendix A.

Individually Billed Account (IBA)

A GTCC account issued to a traveler to pay for official travel and transportation expenses. The traveler is liable for the use and payment of the account. See the JTR, Appendix A.

Invitational Travel Authorization (ITA)

A term applied to the authorized travel of individuals who are: not employed by the Government; employed intermittently by the Government under [5 U.S.C. § 5703](#) as consultants or experts and paid on a daily basis (when actually employed); or serving without pay or at \$1 a year, or a volunteer covered by [10 U.S.C. § 1588](#). ITAs are not authorized for individuals merely to attend a meeting or conference, even if hosted by a DoD Component on a matter related to the Component’s official business. The traveler must be an actual “participant” in the proceedings of the gathering, and not there only for attendance. See the JTR, Chapter 3, section 0305.

Joint Travel Regulations (JTR)

The travel regulations that prescribe travel and transportation allowances authorized for members of the Uniformed Services, DoD civilian employees, and their dependents. The JTR is the Department’s implementing guidance for the Federal Travel Regulation ([FTR](#)), issued by the GSA.

Line of Accounting (LOA)

A data structure representing a DoD account that may be used to track travel funding (i.e., transportation, per diem, meals, and incidental expenses) associated with an organization's budget and to ensure accurate accounting transactions.

Meals and Incidental Expenses (M&IE)

The term 'Meals and Incidental Expenses' is defined in the JTR, Appendix A, under Per Diem Allowance.

Non-Concurrent Travel

Travel under which the traveler is not accompanied or immediately followed by the traveler's spouse and/or dependents.

Non-Foreign Outside the Continental United States (OCONUS) Area

The states of AK and HI; the Commonwealths of Puerto Rico and the Northern Mariana Islands; Guam; the U.S. Virgin Islands, and U.S. territories, and possessions (excluding the former Trust Territories of the Pacific Islands, which are foreign areas for JTR purposes.) See the JTR, Appendix A.

Object Classification

A code that classifies transactions according to the nature of the travel services performed rather than their purpose.

Open Travel Authorization

A written document issued or approved by an AO for the purpose of performing official Government travel for a continuous period of time. Also commonly known as a "blanket" or "repeated" travel authorization. See the JTR, Appendix A, definition of "Order."

[*Other Than Coach Class \(OTCC\)](#)

[OTCC common carrier accommodations are first class, business class and premium economy class. See the FTR, § 300-3.1 for more information.](#)

Outside the Continental United States (OCONUS)

The area outside of the 48 states of the United States and the District of Columbia. See the JTR, Appendix A.

Payment Review Official

An individual who conducts random pre-payment or post-payment reviews in accordance with Volume 5, Chapter 5.

Permanent Change of Station (PCS)

The term 'Permanent Change of Station' is defined in the JTR, Appendix A.

Permanent Duty Station (PDS)

The term 'Permanent Duty Station' is defined in the JTR, Appendix A. It is also referred to as "official station."

Permissive/Administrative Travel Time

An authorized administrative absence not chargeable to leave and for which per diem and transportation allowances are not payable.

Personally-Procured Household Goods (HHG) Transportation

The transport and/or storage (Storage-in-Transit and/or Non-Temporary Storage) of HHG arranged by a member/employee and/or the member's/employee's agent.

Privately Owned Vehicle (POV) for Transporting People

Any transportation mode actually used for the movement of persons from place to place, other than a Government conveyance or common carrier. Included is a vehicle loaned for a charge to, or rented at personal expense by the Service member or civilian employee for transportation on PCS or TDY travel, when such rental has not been authorized or approved IAW the JTR, paragraph 020209. A common carrier or a Government owned, chartered or leased vehicle is not a POV.

Privately Owned Vehicle (POV) for Shipment

Any motor vehicle owned by or leased (12 or more months) to a member/employee or dependents for the primary purpose of providing personal transportation. The vehicle must be self-propelled, licensed to travel on the public highways, designed to carry passengers or HHG; and must have four or more wheels. See the JTR, Appendix A.

Proportional Meal Rate

The average of the standard Government meal rate and the meals portion of the applicable M&IE rate, rounded up to the nearest dollar. See the JTR, Appendix A. This meal rate is used as prescribed in the JTR, Chapter 2, Table 2-17.

Receipt

A legibly written/printed/electronic document (or facsimile thereof) provided by a service provider or vendor to a customer, which provides documentary evidence that the service provider or vendor has been paid for services or goods, provided to the customer. To be considered valid, a receipt must contain the name of the entity providing the good(s)/service, the date(s) that the good(s)/service was/were provided/purchased, the price of the good(s)/service, any tax levied, the total monetary amount due, and must indicate that the total monetary amount due was paid.

Relocation Income Tax Allowance (RITA)

Reimburses an eligible transferred employee for the additional Federal, State, and local income taxes incurred by the employee (or by an employee and spouse if a joint tax return is filed) as a result of reimbursement, or payment, of certain travel and transportation expenses and relocation allowances that are not excludible from gross income for Federal income tax purposes. See the JTR, paragraph 053611, and the FTR, § 302-17. A domestic partner is not a spouse and the employee cannot be reimbursed for additional Federal, State, and local income taxes incurred by the employee's domestic partner if a joint tax return is filed.

Safe Haven

A designated area to which an employee and dependents and/or military dependents are ordered or authorized to evacuate. See the JTR, Chapter 6.

SmartPay

A GSA program that provides users with card-based tools to simplify procuring needs in three operational areas. The fleet card allows users to efficiently fuel and maintain vehicles, boats, planes, or equipment. The travel card allows users to purchase common carrier transportation, car rentals, lodging, and meals for official travel and travel-related expenses. The purchase card enables users to purchase goods and services to satisfy official business needs.

Split Disbursement

Divides a travel voucher reimbursement between the GTCC vendor and the traveler. Specifically, it is a payment option whereby the traveler can designate a specified amount of his or her travel entitlement be sent directly to the SmartPay travel card vendor to pay down his or her account balance, and the remainder of the entitlement sent to his or her personal direct deposit account.

Supervisor Review

A review conducted by a person who has supervisory responsibilities over the person whom he or she directs to travel. The supervisor has knowledge of the basis for the travel claim. The supervisor reviews the travel claim to ensure that it is valid and accurate. He or she signs and dates the travel claim prior to submitting it to the proper travel computation office.

Temporary Change of Station (TCS)

The relocation of an employee to a new PDS for a temporary period to perform a long-term temporary assignment, and subsequent return of the employee to the previous PDS upon completion of that assignment. See the JTR, Appendix A.

Temporary Duty (TDY)

Duty at one or more locations, away from the PDS, under an order providing for further assignment, or pending further assignment, to return to the old PDS or to proceed to a new PDS. For the purposes of Volume 9, temporary duty includes temporary additional duty (TAD) for those DoD Components that use TAD. See the JTR, Appendix A.

Temporary Lodging Expense (TLE)

An allowance intended to partially pay members for lodging/meal expenses incurred by a member/dependent(s) while occupying temporary lodging in CONUS in connection with a PCS. See the JTR, section 0506.

Temporary Quarters Subsistence Expense (TQSE)

A discretionary allowance, that is intended to partially reimburse employees for reasonable subsistence expenses to pay for lodging, food, and other necessities incurred when they and/or their dependents must occupy temporary quarters due to a PCS to a new PDS in the CONUS or non-foreign OCONUS. See the JTR, section 0542.

Temporary Quarters Subsistence Expense-Actual Expense Reimbursement (TQSE(AE))

An allowance based on the standard CONUS per diem rate for temporary lodging occupied in CONUS localities; or the PDS locality per diem rate for temporary lodging occupied in OCONUS localities. The rates may be found at: [Per Diem Rates](#). See the JTR, paragraph 054206.

Temporary Quarters Subsistence Expense-Lump Sum Reimbursement (TQSE(LS))

A fixed amount payment based on the PDS location's maximum per diem that is in effect on the date that the fixed offer was accepted. Apply the per diem for the season in which the employee travels that is in effect on the day the employee accepts the fixed rate offer (e.g., offer accepted in November for travel the following June - uses the per diem rate in effect for the following June). ([CBCA 2189-RELO](#), September 12, 2011). See the JTR, paragraph 054208.

Transportation Officer (TO)

A person appointed or designated by the commander of a DoD activity to perform traffic management functions. This person may also be designated as "installation TO," "traffic manager," "traffic management officer," or "passenger TO."

Travel Authorization (Also referred to as a Travel Order)

A written or electronic instrument issued or approved by a person(s) to whom authority has been delegated, that directs an individual or group of individuals to travel.

Traveler

A military member(s)/dependent(s), DoD civilian employee(s)/dependent(s), and invitational traveler(s) who travel in an official capacity.

Travel Management Company (TMC)

A commercial activity providing a full range of commercial travel and ticketing services for official travel under a contract with the Government. This was formerly referred to as a Commercial Travel Office (CTO).

Travel Status

The Service member's/civilian employee's status for the elapsed period of time from the beginning to the end of official travel in compliance with the authority in an order, including time en route awaiting transportation connections and delays en route beyond the traveler's control. See the JTR, Appendix A.

U.S. Installation

As defined in the JTR, Appendix A, a base, post, yard, camp, or station under the local command of a uniformed service, with permanent or semi-permanent-type troop shelters and a Government Dining Facility/Mess, and at which there are U.S. Government operations. This includes only that area actually occupied by those operations (plus the minimum surrounding area necessary for close-in security) and excludes contracted hotels not contained on and operated by the Installation.

Withholding Tax Allowance (WTA)

An estimated partial payment that acts as an advance on the final RITA payment.

Year One (RITA)

The calendar year in which the WTA payment is made to a civilian employee.

Year Two (RITA)

The calendar year in which the RITA payment is made to a civilian employee.

CHAPTER 1

FINANCIAL CONTROL OF VENDOR AND CONTRACT PAYMENTS

1.0 GENERAL

1.1 Purpose

This chapter sets forth policy necessary to ensure internal controls are adequately established per stated laws and regulations for the entitlement and payment of goods and services. In addition, contract clauses have been outlined that may impose limitations on entitlement to financing or invoice payments. DoD officials are responsible for ensuring DoD organizations maintain control of payments made to vendors and contractors. Internal control and limitation requirements are necessary to ensure payments are based on terms and conditions contained in accepted purchase orders, contracts, and unilateral and bilateral modifications.

1.2 Authoritative Guidance

The importance of internal controls is addressed in many statutes, regulations, and DoD executive documents, which include: Volume 1, Chapter 3; the Federal Managers' Financial Integrity Act ([*FMFIA*](#)); [*Office of Management and Budget \(OMB\) Circular A-123*](#); and [*DoD Instruction 5010.40*](#).

2.0 INTERNAL CONTROLS

2.1 Statutory Compliance

The FMFIA establishes overall requirements with regard to internal controls, whereas the DoD Component Head is charged with establishing controls to reasonably ensure that:

2.1.1. Obligations and costs are in compliance with applicable laws;

2.1.2. Funds, property, and other assets are safeguarded against waste, loss, unauthorized use, or misappropriation; and

2.1.3. Revenues and expenditures, applicable to DoD operations, are properly recorded and permit the preparation of reliable financial and statistical reports to maintain accountability over assets.

2.2 Federal Standards

The FMFIA requires the Government Accountability Office (GAO) to issue standards for internal control in Government. Refer to [*GAO Standards for Internal Control*](#) in the Federal Government. These GAO standards provide the overall framework for establishing and maintaining internal control and for identifying and addressing major performance and management challenges and areas at greatest risk of fraud, waste, abuse, and mismanagement. In

implementing these standards, financial managers are responsible for developing the detailed policies, procedures, and practices for contract and vendor pay entitlement operations and ensuring they are built into, and are a continuous and integral part of, ongoing operations. The OMB prescribes policies and standards for executive departments and agencies to follow in developing, operating, maintaining, evaluating, and reporting on financial management systems (see [OMB Circular A-123 Appendix D](#)).

2.3 Regulatory Compliance

It is DoD policy to make payments and collections that are timely and accurate in accordance with applicable laws and regulations. These laws and regulations include requirements for identification, reporting, and reduction of improper payments (refer to Volume 4, Chapter 14 and Volume 5, Chapter 6). In addition, financial managers with responsibilities for ensuring internal controls are established and functioning properly to comply with this policy must:

2.3.1. Create, document, and maintain an organizational structure and business processes that appropriately segregate assigned duties, emphasize adherence to policies and procedures, and employ sound internal accounting and system access controls;

2.3.2. Implement finance and accounting systems that comply with the federal financial management systems requirements, maintain accurate and complete accounting and entitlement records from contract execution through closeout, and monitor the causes of late payments and interest penalties. The complete listing of financial management system requirements is in the OMB Circular A-123 Appendix D. Efforts to develop or modify a critical financial management system must be subject to the compliance process (see Volume 1, Chapter 3);

2.3.3. Establish systematic controls that provide adequate audit trails to allow the tracing of financial events from source documents to general ledger account balances through successive levels of summarization and financial reports/statements. Ensure all transactional data is processed using accurate coding, and errors are researched and corrected;

2.3.4. Utilize electronic processes and digital signatures, as prescribed by [OMB Circular A-130, Appendix II](#), whenever possible and in the best interest of the Government;

2.3.5. Employ systems that ensure the authenticity of electronically transmitted data, including the electronic signature. Such controls must provide reasonable assurance that deliberate or inadvertent manipulation, modification, or loss of data during transmission is detected;

2.3.6. Ensure prevalidation and payment documentation to vendors and contractors is retained in accordance with Volume 1, Chapter 9 and is readily available to support future audit efforts. Original payment documentation, and associated supporting documentation, must also be retained in accordance with Chapter 8, paragraph 4.1. The documentation must be of sufficient quality to allow an independent third party, such as an outside auditor, to understand and verify the basis of the prevalidation and the payments. Electronic record storage requires adequate controls to ensure that integrity of the digital images accurately represents the corresponding paper

documentation and detects changes to an original digital image. The retention of documentation, both paper and electronic records, is the responsibility of the certifying officer; and

2.3.7. Implement finance and accounting data structures that comply with the Standard Financial Information Structure and the Standard Line of Accounting (see Volume 1, Chapter 4).

2.4 Periodic Reviews

Managers with responsibilities for determining entitlements, authorizing, or executing payments and collections must:

2.4.1. Periodically (minimum annually) validate cash management and payment performance quality and effectiveness; and

2.4.2. Periodically (minimum annually) test effectiveness of internal controls, document results of testing, and take necessary corrective actions (see OMB Circular A-123).

3.0 PREVALIDATION

3.1 General

Prevalidation, as described in [Public Law 104-61 Sec. 8102](#), is the process of matching the planned disbursement with a recorded obligation before the financing or invoice payment is made, and is intended to minimize the occurrence of problem disbursements and Antideficiency Act violations (see Volume 14, Chapter 2).

3.1.1. Obligations (and any adjustments) must be established and recorded for the amounts of orders placed and contracts awarded that will require payment in the current or some future accounting period, as prescribed in Volume 3, Chapters 8 and 15.

3.1.2. Liabilities for payment, including accounts payable, must be established as prescribed in Volume 4, Chapters 8 and 9.

3.1.3 Prior to payment, the undisbursed balance of each applicable obligation must be sufficient to cover the amount of the planned disbursement, as well as all previously scheduled disbursements (see Volume 3, Chapter 11).

3.1.4. Situations may occur when an entitlement office receives a payment request before fund managers have recorded the obligation in the accounting system, resulting in the inability to accomplish prevalidation. Policy addressing this situation exists in Volume 3, Chapter 8 (section 14.0), and it directs the accounting office to immediately record an obligation based upon valid and proper obligation documents in its possession for amounts that are \$2,500 or less.

If the dollar amount is greater than \$2,500, the accounting office must take the actions required to remedy the unrecorded obligations as prescribed in Volume 3, Chapter 8, subparagraph 14.3.2.

3.1.5. Prevalidation must ensure validation of the line of accounting associated with the planned disbursement with the line of accounting on the obligating document before the financing or invoice payment is made.

3.2 Thresholds

The following thresholds have been established for Non-Mechanization of Contract Administration Services (non-MOCAS) and MOCAS payments.

3.2.1. All non-MOCAS payments must be prevalidated.

3.2.2. The following prevalidation thresholds must be used for MOCAS payments:

3.2.2.1. All dollar value payments made on contracts awarded after fiscal year (FY) 2004 must be prevalidated; and

3.2.2.2. For contracts issued during FY 2004 and prior, payments greater than \$5,000 must be prevalidated.

4.0 PAYMENT LIMITATIONS

The following contract clauses, when applicable, may impose limitations on entitlement to financing or invoice payments.

4.1 Limitation on Undefinitized Contracting Actions

4.1.1. According to Defense Federal Acquisition Regulation Supplement ([DFARS](#)) [217.7401](#), “definitization” means the agreement on, or determination of, contract terms, specifications, and price, which converts the undefinitized contract action to a definitive contract. Also, DFARS 217.7401 states an “undefinitized contract action” means any contract action for which the contract terms, specifications, or price are not agreed upon before performance is begun under the action. Examples are letter contracts, orders under basic ordering agreements, and provisioned item orders for which the price has not been agreed upon before performance has begun.

4.1.2. In accordance with [Federal Acquisition Regulation \(FAR\) 16.603-4](#), letter contracts must include [FAR 52.216-24](#) among others. Under the terms stated in this clause, the maximum amount of the Government’s obligation is the amount specified in the clause. However, if a contractor submits a qualifying proposal before 50 percent of the not-to-exceed price has been obligated by the Government, then the limitation on obligations before definitization may be increased to no more than 75 percent (see [DFARS 217.7404-4](#) and [DFARS 252.217-7027](#)).

However, some exceptions apply for purchases of initial spares and contingency operations, as well as humanitarian or peacekeeping operations. See [DFARS 217.7404-5](#) for additional information.

4.2 Limitation of Cost or Funds

4.2.1. The basic requirements for contract funding are described in [FAR 32.7](#), and supplemented by [DFARS 232.7](#). No officer or employee of the Government may create or authorize an obligation in excess of the funds available, or in advance of appropriations, unless otherwise authorized by law (see Volume 14, Chapter 2). Before executing any contract, the contracting officer must obtain written assurance from the responsible fiscal authority that adequate funds are available, or expressly condition the contract upon availability of funds, in accordance with [FAR 32.703-2](#).

4.2.2. Fully-funded, cost-type contracts may include [FAR 52.232-20](#), or incrementally funded, cost-type contracts may include [FAR 52.232-22](#). Under the terms stated therein, the Government's obligation to the contractor (and the contractor's obligation to perform) is generally limited to the funds allotted to the contract. Both FAR contract clauses require the contractor to notify the contracting officer 60 days (or as otherwise directed by the contract) prior to the date when it is expected that incurred costs will exceed 75 percent (or 85 percent if specified by the contract) of contract estimated costs for fully-funded cost contracts, or amounts allotted to the contract for incrementally-funded cost contracts.

4.3 Limitation on Withholding of Payments

In accordance with [FAR 32.111\(b\)\(2\)](#), supply; research and development; service; time and materials; or labor hour contracts, that include two or more terms that authorize temporary withholding of amounts otherwise payable, must include a clause substantially the same as [FAR 52.232-9](#). Under the terms stated therein, the total amount that may be withheld at any one time must not exceed the greatest amount that may be withheld under any one clause or the contract schedule term amount at the time. This limitation does not apply to withholding under any clause related to employee wages, the recovery of overpayments, withholdings not specifically provided for by the contract, or any withholding for which the contracting officer determines the limitation would not be appropriate.

4.4 Limitation of Government's Obligation

In accordance with [DFARS 232.706-70](#), incrementally funded, fixed-price contracts (one or more incrementally funded contract line items) must include [DFARS 252.232-7007](#). Under the terms stated therein, the Government's obligation to the contractor for the incrementally funded contract line item number(s) (and the contractor's obligation to perform) is limited to the funds allotted. The contract clause requires the contractor to notify the contracting officer 90 days (or as otherwise directed by the contract) prior to the date when the work will approximately reach 85 percent of the amount then allotted.

CHAPTER 2

DISCOUNT OFFERS AND REBATES/REFUNDS

1.0 GENERAL

1.1 Purpose

This chapter prescribes the policy for payment discounts and government purchase card (GPC) rebates. This chapter also provides information on determining if discounts should be taken and provides information on rebates offered by the GPC issuer to encourage early payment.

1.2 Authoritative Guidance

The DoD will follow the supporting guidelines for taking discounts and rebates found in [Title 5, Code of Federal Regulations \(CFR\), part 1315](#); Federal Acquisition Regulation, [\(FAR\) 32.906\(e\)](#); and Office of Management and Budget, [\(OMB\) Circular A 123, Appendix B, Chapter 7](#). Travel card rebates are addressed in DoD Government Travel Card Regulations, promulgated under the authority of [DoD Instruction 5154.31](#), Volume 4 - Commercial Travel Management, "DoD Government Travel Charge Card Program." The [OMB Circular A-130](#), Appendix II prescribes the use of electronic processes and digital signatures whenever it is possible and in the best interest of the Government.

2.0 DEFINITIONS

2.1 Discount Date

As prescribed by 5 CFR 1315.2(o), the discount date is the date by which a specified payment reduction, or discount, may be taken in accordance with the discount terms.

2.2 Discount Period

The discount period is the period during which a discount may be taken. The discount period begins from the invoice date placed on a proper invoice by the vendor. If the vendor did not include the invoice date on the invoice, the discount period would begin on the date a proper invoice is actually received and date stamped or otherwise annotated by the designated agency office in accordance with 5 CFR 1315.7(d) and 5 CFR 1315.9(b). See Chapter 7, paragraph 2.4 for guidance on determining the invoice receipt date. The discount period ends on the discount date. When the discount date falls on a weekend or legal holiday, the discount may be taken if payment is made on the next business day as prescribed in FAR 32.906(e).

2.3 Effective Annual Discount Rate

The effective annual discount rate is the annualized value of the discount offered during the discount period. The DoD will take the discount when this rate equals or exceeds the U.S.

Department of Treasury (Treasury) Current Value of Funds Rate ([CVFR](#)). Use the Bureau of the Fiscal Service ([Fiscal Service](#)) [Discount Calculator](#) to determine if it is economically justified to accept a discount offered by a vendor.

2.4 Entitlement Office

The entitlement office is the designated activity to authorize the release of funds or other benefits to those with legally established rights granted by law or by agreement through contract. The entitlement office may also be referred to as the payment office.

2.5 Liquidated Damages

As provided for in [FAR 11.5](#), an agency may establish in a contract a predetermined rate of liquidated damages to be paid in the event of an unexcused delay in performance or delivery, or a breach of contract. Liquidated damages are paid by the contractor and are used to compensate the agency for probable damages associated with the unexcused delay or breach. Liquidated damages are not punitive or negative performance incentives.

2.6 Rebate/Refund

2.6.1. As defined by 5 CFR 1315.2(aa), a rebate is a monetary incentive offered to the DoD by GPC issuers to pay monthly GPC billing statements early. A corrective rebate is done to correct improper or erroneous payments or for an invoice adjustment. The terms “rebate” and “refund” are used interchangeably throughout the CFR, OMB guidance, and existing legislation.

2.6.2. The current General Services Administration (GSA) contract offers productivity refunds based on timeliness and/or frequency of payments and sales refunds based on the dollar volume during a specified period. As stated in OMB Circular A-123, Appendix B, Chapter 7, a refund is a monetary payment provided by a charge card issuer to the agency/organization as stated in the contract. The three types of refunds are:

2.6.2.1. Sales refunds, which represent payments from the charge card issuer to the agency/organization based on the dollar or “spend” volume during a specified time period;

2.6.2.2. Productivity refunds, which represent payments from the charge card issuer to the agency/organization based on the timeliness and/or frequency of payments made to the contractor; and

2.6.2.3. Corrective refunds, which are payments from the charge card issuer to the agency/organization to correct improper or erroneous payments or an invoice adjustment.

2.6.3. For the GSA SmartPay 3 Program, a composite refund approach is used, which combines sales and productivity refunds together. As a result, there are generally no separate sales or productivity refunds. For simplicity, the refunds under GSA SmartPay 3 are referred to as “sales” refunds. See OMB Circular A-123, Appendix B, Chapter 7.1 (note).

2.7 Trade-in

Merchandise accepted as partial payment for a new purchase is referred to as trade-in property.

2.8 Treasury Current Value of Funds Rate

The CVFR is used to assess interest charges for outstanding debts owed the government, to evaluate the cost-effectiveness of a cash discount or sales/productivity refund, and to determine when agencies should pay purchase card invoices when a rebate is offered by the card issuer. Use the Fiscal Service CVFR to view current and historical CVFRs.

3.0 POLICY

3.1 Discounts

3.1.1. As prescribed by 5 CFR 1315.7(a), if a DoD Component is offered a discount by a vendor, whether stipulated in the contract or offered against an invoice, a DoD Component must take the discount if economically justified, but only after acceptance of the goods or services has occurred. [FAR 32.111\(b\)](#) requires [FAR 52.232-8](#), “Discounts for Prompt Payment,” be included in all fixed-price supply and service contracts. The contractor may extend the discount period or increase the discount percentage beyond a previous offer. The offer may be in writing, or it may be oral for specific invoices. If the offer is oral, then the entitlement office must attach a conversation record to the invoice with the name and position of the person offering the discount, the discount terms, the person’s telephone number, and the date of the offer. The entitlement office has the option of requiring written confirmation of the verbal offer.

3.1.2. Entitlement offices must schedule discounted payments as close to, but not later than, the last day of the discount period. Payment is considered to be made on the date printed on the check, or on the electronic funds transfer settlement date, per 5 CFR 1315.4(h). If the payment office cannot apply the discount, payments must be made in accordance with the payment due date guidelines prescribed in 5 CFR 1315.4(g).

3.1.3. A discount is advantageous to the DoD when the discount terms yield an effective annual discount rate that equals or exceeds the CVFR, calculated using the Fiscal Service Discount Calculator cited in paragraph 2.3. DoD Component payment systems must incorporate processes that take advantage of cash discounts as a matter of routine, which eliminates any need for special handling. Such discounts must be taken when the discount terms applied in the conversion formula result in an effective annual discount rate equal to or greater than the CVFR.

3.1.4. Discounts must not be taken when the payment is made after the discount date. As prescribed by 5 CFR 1315.7(b), when an agency takes a discount after the discount date, interest must be paid on the amount of the discount taken. Interest will be calculated for the period beginning the day after the specified discount date through the payment date of the discount erroneously taken, as prescribed in 5 CFR 1315.10(a)(6).

3.1.5. When the discount terms in the contract and the invoice differ, DoD Components must take the most cost-effective discount.

3.1.6. Compute discounts on the approved gross amount of the invoice, except as follows.

3.1.6.1. Deduct taxes or freight charges that are separately listed.

3.1.6.2. Deduct taxes that are not proper charges under international or status of forces agreements.

3.1.6.3. Compute the discount on the actual cash balance due when there is a trade-in.

3.1.6.4. When the entitlement system has the capability to trace and pay individual line items on an invoice, the invoice may be split into multiple payments. Each line item must meet the receipt and acceptance requirements to take advantage of the discount offered against the invoice.

3.1.6.5. Contract or purchase order modifications may change or add discount terms. Take the discount on any subsequent payment that is made by the new or revised discount date when new or revised discount terms apply.

3.1.7. Discounts may be taken on amounts legally withheld and later released if related amounts were paid in accordance with the discount terms. The discount period for the released payment will begin when the entitlement office receives notification of the release.

3.1.8. The following requirements are used when liquidated damages apply and a contract for supplies, services, research and development, or construction includes [FAR 52.211-11](#), [FAR 52.211-12](#) or [Defense Federal Acquisition Regulation Supplement 252.217-7009](#).

3.1.8.1. When liquidated damages apply, and the contract or invoice contains an offer of a discount for early payment, compute the discount on the gross contract price without regard to the amount of liquidated damages.

3.1.8.2. When liquidated damages apply to a price that is modified, and the contract contains an offer of a discount for early payment, compute the discount based on the modified price without regard to the liquidated damages.

3.1.9. After a progress payment has been made, the government is entitled to a discount on any part of delivery payments applied in liquidation of progress payments.

3.1.9.1. When the discount terms have been met, take the discount against the gross amount of the invoice. If the discount date is not met, only take the discount against the amount of the liquidation. The discount still applies to the liquidation portion of the payment even in instances in which the discount period has expired on the balance due on the partial delivery.

3.1.9.2. If the contractor has had the use of these progress payments, the payment office is entitled to take a prompt payment discount on them at the time they are recouped.

3.1.9.3. If the discount is offered for the first time on an invoice and the contract does not have a discount clause, then do not take the discount on the progress payment liquidation portion of the invoice.

3.1.10. In rare instances, the contractor may offer a voluntary discount after a contract is completed, including final payment. These discounts are distinguished from early payment and volume discounts in that voluntary discounts are discretionary with the contractor and do not reduce the amount obligated against the paying appropriation. Do not treat discounts received after contract completion as rebates. Such discounts must be deposited in the Miscellaneous Receipts Account of the Treasury.

3.1.11. When contracts have Free on Board Origin terms, payments made prior to the delivery of supplies to the carrier or delivery to the destination are entitled to the discount offered on the contract.

3.1.12. Components need to be cognizant of the amount of discounts lost, or not taken, as part of their overall payment operations. Tracking discounts lost can provide additional insight into the efficiency and effectiveness of payment operations and identify opportunities to take advantage of limited budgetary resources by increasing the amount of discounts received. Entitlement or disbursement system capabilities must be in place to identify and periodically report discounts lost to management for assessment and appropriate corrective actions.

3.1.13. Components must ensure that documentation supporting the discount transactions is retained in accordance with Volume 1, Chapter 9 and is readily available to support audit efforts. The documentation must be of sufficient quality to allow an independent third party, such as an outside auditor, to understand and verify the basis of the entitlement and the determination of a discount.

3.2 Rebates/Refunds

3.2.1. Components must have internal controls and procedures in place to allow them to maximize the sales/productivity refunds, and to identify and collect the corrective rebates. Components must ensure that documentation supporting the rebate/refund transactions is retained in accordance with Volume 1, Chapter 9 and is readily available to support audit efforts. The documentation must be of sufficient quality to allow an independent third party, such as an outside auditor, to understand and verify the basis of the rebates/refunds.

3.2.2. GPC billing statements must be paid as soon as administratively possible when the rebate offered is greater than the cost of funds as defined in 5 CFR 1315.8. The Defense Finance and Accounting Service must determine and make available, as needed, GPC payment data that compares the Current Value of Funds to the rebate discount points, for the payment cycle day. This data must be used to assist Components and the payment office in performing a cost and benefit analysis as part of their consideration of the cost of early payment. This cost is the interest

amount the DoD will earn at the CVFR for each day the payment is not made. Specifically, a comparison will be made between the basis points offered by the card issuer and the corresponding basis points of the Treasury's CVFR. DoD Components must forward their approved GPC billing statements to the payment office to allow sufficient time to process the payment, receive a rebate for early payment, and avoid interest penalties per 5 CFR 1315.8.

3.2.3. DoD Components may use the [Fiscal Service Rebate Spreadsheet](#), which automatically calculates the net savings to the government and whether the DoD Component must pay earlier than the normal contractual payment terms. The only variables required for input to this spreadsheet are the CVFR, the maximum discount rate (that is, the rate from which basis points offered by the card issuer are derived), and the amount of money owed. If the DoD Component elects not to use the spreadsheet, a manual computation can be performed as described in 5 CFR 1315.17.

3.2.4. The charge card issuer is required to calculate the rebate and return that amount to the DoD customer designated in the contract. DoD Component entities subject to the receipt and use of the rebates/refunds must employ the necessary internal controls and procedures to ensure that rebates are received when due as per the terms of their GPC contract, and that the rebates received from the charge card issuer are calculated properly.

3.2.5. Pursuant to [Title 10, United States Code, section 4754](#), DoD rebates attributable to the use of the GPC may be credited to operation and maintenance, and/or research, development, test, and evaluation accounts which are current when the rebates are received. For example, if a rebate is received in the new fiscal year against a bill that was paid in September of the previous fiscal year, the rebate may be credited to the operation and maintenance and/or research, development, test, and evaluation account(s) current after October 1 of the new fiscal year. This includes the operational portion of a nonappropriated or working capital fund account.

CHAPTER 3

CONTRACTUAL CLAIMS

1.0 GENERAL

1.1 Purpose

This chapter prescribes financial management policy relating to contractual claims against the United States, which must be adjudicated by the responsible party before payment is made or denied. This chapter also addresses the assignment of claims, name change agreements, and claims that fall under the Contract Disputes Act (CDA). It also includes the regulatory authority, required documentation, and the responsibilities of the agencies involved.

1.2 Authoritative Guidance

[Title 31, United States Code \(U.S.C.\), section 3727](#) and Defense Federal Acquisition Regulation Supplement ([DFARS](#)) [232.8](#) provide statutory requirements concerning the assignment of claims, and [41 U.S.C. § 7101-7109](#) provide statutory requirements for contracts in dispute. The [Federal Acquisition Regulation \(FAR\) 32](#), Contract Financing, and [FAR 42](#), Contract Administration and Audit Services, govern claims for monies due, or to become due, under Government contracts. The [FAR 33](#), Protests, Disputes, and Appeals, provides statutory requirements for filing protests and for processing contract disputes and appeals. Specific criteria and required documentation for payment of valid claims are identified in these provisions and included in this chapter.

2.0 INTERNAL CONTROLS

Internal controls must be in place to ensure that duplicative or erroneous payments do not occur (for regulatory compliance, refer to Chapter 1). Managers with responsibilities for determining entitlements, authorizing or executing payments, and performing collections must perform periodic (minimum annual) risk assessments to ensure that sufficient management control mechanisms are in place to ensure that DoD funds are spent appropriately, and in accordance with all applicable laws and regulations. Refer to Volume 4, Chapter 14 for additional guidance related to improper payments and related risk assessments.

3.0 RETENTION

The retention of payment documentation, both paper and electronic records, is the responsibility of the certifying officer. Electronic record storage requires adequate controls to ensure that integrity of the digital images accurately represents the corresponding paper documentation and detects changes to an original digital image. Refer to Volume 1, Chapter 9, Figure 9-1 for DoD financial records retention policy. [Title 44, U.S.C. § 2909](#) prescribes the authority to retain records for a longer period than specified in the U.S. National Archives and Records Administration, [General Records Schedules](#).

4.0 ASSIGNMENT OF CLAIMS

4.1 Conditions for Assignment of Claims

The [FAR 32.8](#) prescribes requirements for the assignment of contractual claims, which refers to the transfer by the contractor of its right to be paid by the Government for contract performance to a bank, trust company, or other financing institution, as security for a loan made to the contractor.

4.1.1. The authorization to assign claims to banks, trust companies, or other financing institutions (including federal lending agencies) of monies due, or to become due, under Government contracts totaling \$1,000 or more is prescribed by [41 U.S.C. § 6305](#) and 31 U.S.C. § 3727, if not prohibited in the contract.

4.1.2. A contract may prohibit the assignment of claims if the agency determines the prohibition to be in the Government's interest prescribed by FAR 32.803(b).

4.1.3. When a contractor receives payment by the Government Purchase Card, the contractor may not assign their rights under the contract if the contract is for commercial items and includes the [FAR 52.212-4](#).

4.1.4. Unless otherwise expressly permitted in the contract, the assignment must:

4.1.4.1. Cover all amounts payable under the contract not already paid; and

4.1.4.2. Not be made to more than one party, except that it may be payable to a party acting as the agent or trustee for more than one party participating in the financing.

4.1.5. If an agency pays a party other than the assignee when a properly filed and approved assignment of claims is on record, it may result in Government liability to the assignee.

4.1.5.1. When such an error occurs, the agency remains liable to the assignee for the amount of the payment, subject to potential defenses; and

4.1.5.2. The agency must initiate collection against the payee for any erroneous payment.

4.1.6. Refer to the DFARS 232.8 for additional guidance concerning the assignment of claims.

4.2 Actions Required for Assignment of Claims

4.2.1. As prescribed by DFARS 232.8 and FAR 32.805(b), the assignee will:

4.2.1.1. Forward to the Administrative Contracting Officer (ACO) a true copy of the instrument of assignment, which is a certified duplicate or photostat copy of the original, and an original and three copies of the notice of assignment;

4.2.1.2. Forward to the surety or sureties, if any, a true copy of the instrument of assignment, and an original, and three copies of the notice of assignment. The surety will return three acknowledged copies of the notice to the assignee, who will forward two copies to the disbursing officer of the payment office designated in the contract; and

4.2.1.3. Forward to the disbursing officer of the payment office cited in the contract a copy of the instrument of assignment and an original and copy of the notice of assignment.

4.2.2. The ACO will acknowledge receipt by signing and dating all copies of the notice of assignment and will:

4.2.2.1. File the true copy of the instrument of assignment and the original of the notice in the contract file;

4.2.2.2. Forward two copies of the notice to the disbursing officer of the payment office cited in the contract;

4.2.2.3. Return a copy of the notice to the assignee; and

4.2.2.4. Advise the contracting officer of the assignment.

4.2.3. If the ACO determines that the assignment is valid, the disbursing officer of the designated payment office must acknowledge the notice of assignment and take the required actions as follows:

4.2.3.1. Acknowledge and return a signed copy of the notice of assignment to the assignee and file the true copy of the instrument of assignment and the original notice of assignment;

4.2.3.2. Authorize payment to assignees only after receipt of the following assignment documents:

4.2.3.2.1. A copy of the notice of assignment acknowledged by the contracting officer;

4.2.3.2.2. A copy of the signed notice and a true copy of the instrument of assignment from the assignee; and

4.2.3.2.3. A copy of the notice acknowledged from the surety or sureties, if any, or a copy received from the surety or sureties via the assignee; and

4.2.3.3. Ensure the payment office designated in the contract is provided a copy of the instrument of assignment and the signed notice of assignment.

4.2.4. If the ACO rejects the assignment, the disbursing officer of the designated payment office returns the acknowledged notice, and copy of the assignment, to the assignee. The ACO advises the assignee that the assignment cannot be recognized for the reasons stated by the contracting officer.

4.2.5. Components and agencies must maintain procedures to ensure the appropriate payment office is provided a copy of the instrument of assignment and the signed notice of assignment.

4.3 Letter Contracts

When entering into an assignment of claims under letter contracts, notices (with copies of assignments) are forwarded, by the assignee, to the contracting officer and the designated disbursing officer of the payment office cited in the contract.

4.3.1. If a letter contract is assigned, that assignment is not voided by a subsequent definitization of the contract.

4.3.2. Contracting officers, and the disbursing officer of the designated payment offices, accept receipt for, and honor the assignment of, the proceeds of a definitive contract superseding a letter contract.

4.4 Open-End, Call-Type, or Indefinite-Delivery-Type Contracts

Assignment of claims under open-end, call-type, or indefinite-delivery-type contracts are authorized, provided orders of \$1,000 or more are placed prior to the assignment, or the basic contract imposes a minimum obligation of \$1,000 or more. When the designated payment office cannot determine whether an assignment of claims applies to an individual call or order under indefinite-delivery-type contracts, the designated payment office must withhold payments until the ACO determines the status and validity of the assignment. Refer to [**FAR 16.1**](#) for information concerning contract types.

4.5 Basic Ordering Agreements

Basic ordering agreements require a notice of assignment for each delivery order/supplemental procurement identification number. A notice of assignment will not be acknowledged, based solely on a basic ordering agreement, because the basic ordering agreement is not a contract between the Government and contractor ([**FAR 16.703\(a\)**](#)). The contracting officer must return the notice, and a copy of the assignment, to the assignee and advise that assignments

may be acknowledged on individual orders of \$1,000 or more. Consult the agency legal office for determination if there is any doubt on any of these types of contracts.

4.6 Special Considerations for Assignments of Claims

The following are special considerations:

4.6.1. Two assignments of the same contract cannot exist without a release from the first assignment (41 U.S.C. § 6305). An authorization of a second assignment may only occur upon releasing the first assignment and notifying the original parties. Refer to FAR 32.805 for further guidance;

4.6.2. If the amount of the contract is increased, it is not necessary to execute an additional assignment;

4.6.3. The date of assignment cannot be before the date of the contract;

4.6.4. Except as authorized by 41 U.S.C. § 6305(b), the transfer of contracts, or any interest in the contract to another party, is prohibited (41 U.S.C. § 6305(a)); and

4.6.5. Payments to the assignee are not subject to reduction or setoff for an assignor's liability, unless departments/agencies decide it is in the Government's interest, or if the contracting officer makes a determination prescribed by [DFARS 232.803\(d\)](#).

4.7 Release of Assignment of Claims

A release of an assignment is required prior to a further assignment or reassignment. A release of an assignment is also required when the contractor wishes to establish a right to receive payments after the contractor's obligations to the assignee have been satisfied, and a balance remains due on the contract.

4.7.1. If the assignee releases the contractor from an assignment of claims under a contract, the contractor must file a written notice of release together with a true copy of the release of assignment notice to the same offices noted in subparagraph 4.2.1.

4.7.2. The ACO:

4.7.2.1. Signs and returns a copy of the release notice to the contractor;

4.7.2.2. Files the true copy of the instrument of the release of assignment and the original release notice with the contracting office's copy of the contract. The ACO and surety's acknowledgment are required. Refer to FAR 32.805(e) for additional guidance; and

4.7.2.3. Signs, dates, and returns the release notices to the assignee.

4.7.3. The designated payment office makes remaining payments to the contractor once it receives the following release documents:

4.7.3.1. A true copy of the instrument of release of assignment, and

4.7.3.2. The original and two copies of the release notice.

4.8 Electronic Funds Transfer

If a contractor attempts to change the identity of the payee by changing Electronic Funds Transfer (EFT), or other information, in [System for Award Management \(SAM\)](#), without complying with the rules governing novation agreements and assignment of claims, the payment information will be incorrect within the meaning of the “Suspension of Payment” paragraph of the EFT clause in the contract ([FAR 4.1102\(d\)](#)). Assignees must be registered separately in SAM to ensure the financial institution identified in the assignment meets the requirement for EFT.

5.0 NOVATION AND CHANGE OF NAME AGREEMENTS

5.1 Legal considerations

5.1.1. A novation agreement is a legal instrument executed by all of the following: the contractor (transferor), the successor in interest (transferee), and the U.S. Government. The transferor guarantees the performance of the contract, the transferee assumes all obligations under the contract, and the Government recognizes the transfer of the contract and related assets. Refer to [FAR 42.12](#) for additional information.

5.1.2. A change of name agreement is a legal instrument executed by the contractor and the Government that recognizes the legal name change of the contractor without affecting the original contractual rights and obligations of the parties.

5.1.3. Title 41 U.S.C. § 6305 prohibits the transfer of Government contracts. However, as prescribed by FAR 42.1204(a), the Government may, when it is in its interest, recognize another party as the successor in interest to a Government contract when the third party’s interest in the contract arises out of the transfer of all the contractor’s assets, or the entire portion of the assets involved in performing the contract. Examples include, but are not limited to:

5.1.3.1. Sale of the assets with a provision for assuming liabilities;

5.1.3.2. Transfer of the assets incident to a merger or corporate consolidation; or

5.1.3.3. Incorporation of a proprietorship or partnership, or formation of a partnership.

5.2 Contractor and Contracting Officer Responsibilities

The contractor provides evidence to the contracting officer responsible for processing and executing novation and change of name agreements, as prescribed by FAR 42.1203(a-g).

5.2.1. The contracting officer enters into a bilateral modification to the contract, which changes the name of the contractor, as prescribed by FAR 42.1203(h).

5.2.2. Refer all questions regarding the novation and change of name agreements to the contracting officer.

5.3 Transfer of Contractual Obligation

When a contracting officer approves the transfer of a contractual obligation to another contractor, the transferor guarantees the performance of the contract by the transferee (a satisfactory performance bond may be accepted instead of the guarantee).

5.3.1. A transferee assumes all the transferor's obligations under the contract, and the transferor waives all rights under the contract with the Government. Refer to the FAR 42.1204 for additional guidance.

5.3.2. When it is in the Government's interest not to concur with the transfer of a contractual obligation from one company to another company, the original contractor remains under contractual obligation to the Government.

6.0 CONTRACT DISPUTES

6.1 Contractor Claims

The CDA waives the Government's sovereign immunity, permitting contractors to appeal a contracting officer's final decision to the appropriate board of contract appeals, or file suit in the Court of Federal Claims.

6.1.1. [***The Armed Services Board of Contract Appeals***](#) is an independent tribunal that presides over disputes under the CDA of 1978, codified at 41 U.S.C. §§ 7101-7109, which allows Federal Government contractors to file a claim with the DoD for monetary damages, and other legal remedies related to their contractual dealings.

6.1.2. Routine submissions for payment are not considered claims under the CDA. The submission may be converted to a claim by written notice to the contracting officer as provided in [***FAR 33.206\(a\)***](#).

6.1.3. All claims by contractors against the U.S. Government must be a written demand or assertion submitted to the contracting officer for a decision. A contractor asserting a claim exceeding \$100,000 must provide a certification as required by, [***FAR 33.207\(c\)***](#).

6.2 Claims Settlement and Final Judgement

The Bureau of the Fiscal Service administers and certifies payments from the Judgment Fund for the settlement and final judgment in a CDA case (Treasury Financial Manual, [*Volume 1, Part 6, Chapter 3100*](#), [*28 U.S.C. § 2517*](#), and [*31 U.S.C. § 1304*](#)). Reimbursement of the Judgment Fund is payable from funds current at the time the award is made by the activity accountable for the contract obligation as prescribed in [*41 U.S.C. § 7108\(c\)*](#).

6.3 Interest Penalties

Interest on amounts due the contractor, on claims under the CDA, are payable to the contractor from the date the contracting officer receives the claim, or the date payment would otherwise be due, whichever is later, to the date paid ([*FAR 33.208\(a\)*](#)). [*Title 41 U.S.C. § 7109*](#) provides the authority for the Secretary of the Treasury to establish the interest rate. Refer to the [*Department of the Treasury's website*](#) for applicable interest rates. Under the CDA, only simple interest is paid, as noted in [*FAR 33.208\(b\)*](#); compound interest (interest on interest) is not payable under the CDA.

6.4 Questionable and Fraudulent Claims

6.4.1. If any part of a claim is attributable to misrepresentation of fact or fraud on the part of the contractor, the contracting officer will refer the matter to the agency official responsible for investigating fraud in accordance with [*FAR 33.209*](#).

6.4.2. Fraudulent and questionable claims should not be paid. For additional information concerning fraudulent and questionable claims refer to Volume 5, Chapter 12.

CHAPTER 4

MISCELLANEOUS ADVANCE PAYMENTS

1.0 GENERAL

1.1 Purpose

This chapter prescribes policy for the entitlement and payment of miscellaneous advance payments. Advances do not include payments for which performance has occurred. Miscellaneous advance payments addressed in this chapter represent a current outlay of funds to DoD employees, other Federal Government agencies, or non-Federal entities before receipt of the items or services for which the payments were advanced.

1.2 Authoritative Guidance

Advance payments, in general, are prohibited by [Title 31, United States Code \(U.S.C.\), section 3324](#). Exceptions to the advance payment prohibition are located in specific appropriation acts or other laws, or granted by the President as outlined in 31 U.S.C. § 3324.

1.2.1. Miscellaneous advance payments in this chapter include many of those identified as exclusions in the Federal Acquisition Regulation ([FAR](#)) [32.4](#). Refer to Chapter 10 for the entitlement and payment of advances to contractors under contract financing arrangements governed by the FAR 32.4 and the Defense Federal Acquisition Regulation Supplement ([DFARS](#)), [232.4](#). Refer to Volume 4, Chapter 5 for the accounting and reporting of advances and prepayments for cash or other assets disbursed under a contract, grant, or cooperative agreement. Refer to Volume 11A, Chapters 3 and 18 for goods or services procured from other Federal agencies where the DoD is specifically authorized by a specific appropriation or law to advance funds.

1.2.2. Use of electronic submissions is preferable when requesting payment in advance. The electronic request for payment must contain all elements of a proper invoice (Title 5, Code of Federal Regulations ([CFR](#)) [section 1315.9\(b\)\(1\)](#)). See Chapter 8, section 2.0 for additional policy concerning electronic invoicing and payment requirements.

1.2.3. All claimants that are subject to the U.S. Internal Revenue Service code must provide a Taxpayer Identification Number (TIN) in accordance with [31 U.S.C. § 3325\(d\)](#). Refer to Chapter 6, subparagraph 2.4.2 for contractor, vendor, or individual payee requirements to provide a valid TIN as part of a proper invoice prior to payment.

1.2.4. All advance payment requests must be submitted to the designated payment office in accordance with the DoD and Component's submission policies and procedures using a vendor invoice; Standard Form ([SF](#)) [1034](#), Public Voucher for Purchases and Services Other Than Personal; or an electronic equivalent.

1.2.5. Personnel may use electronic and digital signatures to approve and certify financial documents processed through automated information systems (Volume 5, Chapter 1, subparagraph 3.5.3).

1.2.6. All advance payments must be approved by a designated approving official, and a properly appointed certifying officer, prior to disbursement to ensure the information on the vouchers agrees with all supporting documentation. A properly appointed certifying officer also certifies that the vouchers are correct and proper for payment from the appropriation(s) or other funds cited on them or on supporting vouchers, and the proposed payments are legal, proper, and correct (Volume 5, Chapter 5).

1.2.7. To ensure auditability, and to validate entitlement systems' payment records, a copy of all supporting documentation must accompany each advance payment request. Refer to Volume 1, Chapter 9, Figure 9-1 for financial records retention policy. Refer to [44 U.S.C. § 2909](#) for authorization to retain records for a longer period than specified in disposal schedules. Certifying officers are responsible for retention of all payment documentation (Volume 5, Chapter 5).

1.2.8. A prevalidation process must occur that matches the proposed advance payment to the obligation of funds recorded in the accounting records prior to the disbursement of the advance payment (Volume 3, Chapter 8). Refer to [31 U.S.C. § 1501](#) for documentation required to record the obligation. Refer to [31 U.S.C. § 1502](#) and [31 U.S.C. § 1552](#), which establish limitations of periods available for expenditure.

1.2.9. Agencies/organizations requesting and approving miscellaneous advance payments must ensure the advance payment does not exceed the value of the items/services being procured.

1.2.10. Components must ensure controls are in place for the liquidation of advance payments and assign responsibility for the performance of follow-up action. Internal controls must ensure that validation and documentation exist showing that the items or services were received and met the organization's requirements. This effort is required before the advance payment can be liquidated. Discrepancies encountered must be resolved as soon as possible upon identification and may include the establishment and collection of debts from members, employees, or commercial, Federal, or state entities; see Volume 16 for more information on the collection of debts.

2.0 STATUTORY ADVANCE PAYMENTS

2.1 Overview

Specific legislation authorizes statutory advance payments.

2.2 Child Care

Amounts may be paid in advance to licensed or regulated child care providers for services to be rendered during an agreed period ([40 U.S.C. § 590\(g\)\(4\)](#) and [10 U.S.C. §§ 1791-1800](#)). Authorized advance payments for child care services in an approved program, in areas where DoD-provided child care is not available, must include a copy of a signed contract between the family and the child care provider outlining the establishment of fees to support the payment ([DoD Instruction 6060.02](#)).

2.3 Subscriptions to Periodicals

Advance payment is authorized for subscriptions or other charges for newspapers, magazines, periodicals, microfilm libraries, and other publications for official use (31 U.S.C. § 3324(d)(2)). The total cost of the subscription is a valid charge to the appropriation for the fiscal year (FY) current at the time the subscription is ordered. Subscriptions may extend beyond the current FY. The subscription may cover deliveries extending into the subsequent year; however, the authorization of payments may not cover more than 1-year's (i.e., 12 months) subscription from the same FY appropriation.

2.4 Tuition

Tuition payments may be paid in advance. [Title 5 U.S.C. § 4109](#) provides general authority for advance tuition payments for civilian and military personnel, and [10 U.S.C. § 2396\(a\)\(3\)](#) authorizes advance tuition payments for military personnel of friendly foreign countries. Advance tuition payments are payable when an educational institution requires payment at the time of enrollment.

2.4.1. Advance Payment. The [SF 182](#), Authorization, Agreement and Certification of Training, must identify the training facility by name and address, the amount payable to the facility for the advance of tuition, and the amount payable to the trainee for the purchase of books and fees for library and laboratory services. The SF 182 must be submitted to the entitlement office to support the advance payment and must be signed by an approving official and certifying officer prior to being paid.

2.4.2. Liquidation of the Advance Payment. As stated in subparagraph 1.2.10, certain controls must be in place to liquidate the advance payment. Part of those controls involving tuition payment advances must include obtaining documentation that demonstrates and documents that the student successfully completed the training previously paid in advance. In the event the student owes the DoD, the Component must collect any outstanding amount due, and prepare and forward a DoD [\(DD\) 1131](#), Cash Collection Voucher, to the designated disbursing office to complete liquidation of the advance payment.

2.5 Advance Payment Authority for Other Type Payments

Title 10 U.S.C. § 2396 authorizes advances of Federal monies for compliance with foreign laws, rent in foreign countries, tuition, public utility services, pay and allowances, and supplies and services of Armed Forces of friendly countries.

3.0 INTRA-GOVERNMENTAL ADVANCE PAYMENTS

3.1 Overview

3.1.1. Agencies may make intra-governmental payments in advance of the performance in the areas identified in this section. Unless the DoD Component is specifically authorized by law, legislative action, or Presidential authorization, funds are not to be advanced to non-DoD Federal entities or used to pay for advance billings without the receipt of goods or services. Volume 4, Chapter 5 covers the conditions and requirements for reporting and accounting related to advances and prepayments. For those few exceptions where DoD is authorized by a specific appropriation or law to advance funds, the specific appropriation or law authorizing the advance must be cited on the obligating and/or interagency agreement documents and orders (Volume 11A, Chapter 18).

3.1.2. The [Treasury Financial Manual \(TFM\), Volume 1, Part 2, Chapter 4700, Appendix 8](#), provides policy and guidance on the use of the Intragovernmental Payment and Collection (IPAC) system by federal entities, including the DoD. IPAC is an internet-based collection and payment system used to transfer funds from one federal entity to another. An IPAC transaction can be initiated either manually through the IPAC application or through the completion of specific performance transactions in G-Invoicing. As G-Invoicing is developed and implemented, its use will be required by all federal entities. Fiscal Service will require federal entities to use G-Invoicing under the authority of [31 U.S.C. 3512\(b\)](#) and [31 U.S.C. 3513](#). Components must establish follow-up actions and controls to ensure receipt and acceptance for the items/services to liquidate the advance payment as prescribed by Treasury Interagency Agreement Guide and subparagraph 1.2.10.

3.2 Leased Office Space

The [Federal Management Regulation, Subtitle C, section 102-73.10](#) prescribes policy for Federal agencies to seek space in Government-owned and Government-leased buildings. With approval from General Services Administration (GSA), one Federal agency can lease from another Federal agency a portion of its leased office space (Federal Management Regulation, Subchapter C, section 102-73.60). The parties may enter into an agreement to include a lease payment made in advance, or on any other basis agreed upon, for the proportionate cost of the space, utilities, and services furnished ([40 U.S.C. § 585](#)).

3.3 Printing and Binding and Deposit Accounts

Title [44 U.S.C. § 310](#) authorizes advance payments for printing, binding, or supplies ordered from the U.S. Government Publishing Office (GPO). The requesting agency must process

the advance payments using IPAC to establish GPO deposit accounts. The [GPO](#) website provides instructions on how to create a deposit account by submitting a [GPO Form 4045](#), Deposit Account (Printing and Binding). For a listing of GPO forms, refer to the [GPO Forms and Standards](#) website to place orders or download a Portable Document Format file.

3.4 Advances to General Services Administration for Special Purpose Leased Space

Title [40 U.S.C. § 581\(g\)](#) authorizes GSA to bill tenants for building rent in advance. The charge is a fixed rate per square foot of space assigned based on costs of building operation and maintenance. There is no requirement to itemize separate cost factors for utilities, rent, or elevator service on the bill.

3.5 Rental of Post Office Boxes

The DoD authorizes advance payments to the U.S. Postal Service (USPS) for post office box rental on an annual basis (Government Accountability Office Comptroller General, B-57828, JUNE 5, 1946, 25 COMP. [GEN. 834](#).) All fees for post office box service are for a six-month period. A fee is payable for two periods at a time, not to exceed two consecutive six-month periods. Federal Agencies whose payment period coincides with the Federal FY may pay their box fees during the first quarter. The USPS will refund a portion of the rental when the box is surrendered before the end of the rental period. In complying with the requirements of [41 CFR 102-192.50](#), the following methods are available when processing advance payments for box rentals:

3.5.1. The Bureau of the Fiscal Service (Fiscal Service) IPAC payment process associated with the Official Mail Accounting System;

3.5.2. The USPS Centralized Account Processing System associated with commercial payments;

3.5.3. Another Fiscal Service approved means of paying the USPS; or

3.5.4. Payments made to service providers other than USPS must be made by Fiscal Service payment methods such as automated clearing house electronic funds transfer, or another Fiscal Service approved means of paying the vendor.

4.0 OTHER ADVANCE PAYMENTS

4.1 Overview

Other advance payments not prohibited by 31 U.S.C. § 3324 are identified in the following paragraphs.

4.2 Attendance at Meetings and Conferences

4.2.1. Components may authorize payment of registration fees prior to attendance at meetings of technical, scientific, professional, or similar organizations. Refer to the [DoD Conference Guidance Version 4.0](#) for the administration and oversight of all conferences, including those conferences hosted by the DoD, and those attended by DoD personnel.

4.2.2. DoD civilian employees and uniformed service members may attend and participate in conferences or meetings, and recognized professional organizations, to maintain and improve professional competency at the Government's expense, subject to the availability of funds, specific management approvals, and the employee's or member's work responsibilities. Conference attendance expenditures, which contribute to improved conduct, supervision, or management of the DoD Components' functions and activities, may be authorized as prescribed by Joint Travel Regulations [Uniformed Service Members and DoD Civilian Employees, Chapter 3, Part B](#). Documentation supporting the approval must accompany the request for advance payment (SF 182 or electronic equivalent). The request for advance payment must be approved by a management official prior to submission to the certifying officer.

4.2.3. If the payment is non-refundable, and the individual fails to attend for reasons beyond their control, then do not collect registration fees from the individual. If an individual's failure to attend the event is due to a reason deemed inexcusable by the DoD Component concerned, the individual must repay the amount advanced. If an individual does not make a voluntary settlement of indebtedness, the Component must take action to collect the outstanding advance from money due the employee or member. Policy for salary offset to collect debts owed to DoD by military members or civilian employees is in Volume 16, Chapter 3.

4.3 Payments to State and Local Governments

Advance payments to state and local governments for goods and services are authorized on the basis that the established responsibility of these governmental units reduces the possibility of a loss to the Federal Government. [FAR 32.409-3\(e\)](#) states that in an advance payment agreement to a state or local government, the contracting officer may omit the requirement for deposit of the advances in a special account, if the approving official determines that other adequate security exists to protect the Government's interest.

4.4 Petition Fees

When submitting a petition for immigrant status for a person whose services are required, the fee must accompany the petition. In this case, the fee is payable in advance to the U.S. Department of State ([22 CFR 22.1 - 22.7](#)). Title 22, CFR 22.3 prescribes remittances in the United States and 22 CFR 22.5 prescribes remittances to Foreign Service posts.

4.5 Professional Societies

When approved, membership dues or fees in professional societies or associations acquired for the benefit of the DoD Component are payable in advance. Appropriated funds expended for

membership must be to acquire services that will benefit the Component, not an individual. The head of an agency or designee must make the determination of the membership requirement. The individual employee must provide verification of membership to validate the advance payment.

4.6 Purchase of Copyrights or License to Use Patent for its Life

Components may authorize an advance payment for a license to use a patent or to purchase the copyright. The [FAR 27](#) and [DFARS 227](#) prescribe policies, procedures, solicitation provisions, and contract clauses pertaining to patents, data, and copyrights. The subject matter of the purchase must be within the authorization of the current FY appropriation ([10 U.S.C. § 3793](#)).

4.7 Utility Connection Charges

As prescribed by [FAR 41.1](#), [FAR 41.2](#), and [FAR 52.241-9](#), payment for a utility service account activation fee or connection charge is allowable. Connection charges, whether refundable or non-refundable, are to be paid by the U.S. Government to the utility supplier for the required connecting facilities, which are installed, owned, operated, and maintained by the utility supplier. If the connection charges are refundable, they are considered an advance payment, and the U.S. Government recovers the connection charges through reimbursements by a specified monthly refund or a credit on the service billings for utility charges.

4.8 Foreign Country-Related Requirements

4.8.1. Postage. Components may authorize the purchase of foreign postage stamps for contingency or classified operations from imprest funds or by an SF 1034. See Volume 5, Chapter 2 and [FAR 13.305](#) for additional guidance on imprest funds. When using an SF 1034, the originating office prepares the voucher, which requires the approval by the appropriate approving official and certifying officer, and forwards it to the disbursing office. The disbursing office prepares a check and sends it to the originating office. The originating office purchases the stamps and provides the disbursing office with a receiving report. No proof of purchase or sales receipt is necessary as the check endorsement acknowledges payment.

4.8.2. Motor Vehicle Operator Permit Fees Overseas. Some foreign countries require personnel to obtain motor vehicle driver permits to perform their official duties. The fees for the permits may require an advance payment. A tour of duty in a foreign country justifies the expenditure.

CHAPTER 6

FEDERAL, STATE, LOCAL, AND FOREIGN TAXES

1.0 GENERAL

1.1 Purpose

This chapter prescribes the financial management policy for payment of federal, state, local, and foreign taxes associated with the various types of payments addressed in this volume. It also provides the tax information reporting requirements, and associated Departmental policy, that apply to certain contract, vendor, and miscellaneous payments (including miscellaneous payments made to military and civilian employees). Tax-related policy and requirements involving Nonappropriated Fund Instrumentalities are covered in Volume 13, Chapter 7.

1.2 Authoritative Guidance

1.2.1. Tax Information Sources. The Federal Government's right to tax exemptions depends on the applicability of federal, state, local, and foreign tax law; tax agreements with foreign countries; items being acquired; the nature of the tax; and the type of transaction. [Federal Acquisition Regulation \(FAR\) 29](#) identifies the general tax applications on U.S. purchases, the rights to exemptions, and the methods of claiming exemptions. More specialized information regarding the applicability of various taxes not obtainable locally may be obtained from the taxing authorities themselves or through discussions with the Component's general counsel.

1.2.2. Exemptions From Certain Federal Taxes

1.2.2.1 [FAR 29.203\(a\)](#) provides that pursuant Title 26, United States Code (U.S.C.), [section 4293](#), the Secretary of the Treasury has exempted the Federal Government from the communications excise tax imposed by [26 U.S.C. § 4251](#) when the supplies and services are for the exclusive use of the United States. This does not include facilities furnished to a Government contractor. Exemptions can be made with or without the use of an exemption certificate. The installation (or issuing) contracting office is responsible for preparing tax exemption certificates.

1.2.2.2 [FAR 29.203\(b\)](#) provides that pursuant to [26 U.S.C. § 4483\(b\)](#), the Secretary of the Treasury has exempted the Federal Government from the Federal highway vehicle use tax imposed in [26 U.S.C. § 4481](#). As stated in FAR 29.203(b), the exemption applies whether the vehicle is owned or leased by the Federal Government.

1.2.2.3. [FAR 29.202](#) identifies other circumstances in which Federal manufacturers' or special-fuels excise taxes may not be imposed in contracting situations that should be recognized by the contracting officer, who then must furnish the seller an exemption certificate.

1.2.3. Policy Hierarchy. Internal Revenue Service (IRS)-published regulations take precedence over DoD policy for the resolution of tax-related issues. Components should consult with their designated legal counsel if there are legal questions or apparent conflicts between the policy provided in this chapter and the IRS regulations.

2.0 RESPONSIBILITIES

2.1 Defense Logistics Agency-Energy (DLA-Energy)

DLA-Energy is responsible for:

2.1.1. Any application for tax refunds applicable to DLA-Energy programs. If DLA-Energy supports a Federal civilian agency, then that civilian agency is responsible for collecting data needed to apply for tax refunds; and

2.1.2. Contracting for fuels, to include the use of the proper clauses concerning local tax provisions as provided in [FAR 29.4](#).

2.2 Military Departments and Defense Agencies

DoD Components are required to take maximum advantage of exemptions from excise taxes.

2.3 Contracting Officer

As outlined in FAR 29, the contracting officer is responsible for:

2.3.1. Inserting the appropriate tax clauses in contracts;

2.3.2. Soliciting prices on a tax-exclusive basis when it is known that the Federal Government as a whole, or the Armed Forces within DoD, are exempt from these taxes;

2.3.3. Contacting local and/or state taxing authorities to verify acceptance of tax exemption certificates;

2.3.4. Working with fleet card issuers to maximize excise tax reclamations (recoupment);

2.3.5. Ensuring that contractors are aware of and understand duty-free entry clause requirements; and

2.3.6. Resolving tax liability or tax exemption disputes associated with DoD contracts.

2.4 Contractors, Vendors, and Individual Payees

2.4.1. In accordance with [FAR 29.304](#), contractors, vendors, and individual payees requesting payment from a DoD Component may be required to take certain action regarding payment, nonpayment, refund, protest, or other treatment of state and local specified taxes. This action will be taken in consultation with the contracting officer and will be varied depending on the tax consequences, nature of the purchases, and applicable contract clauses. Any entitlement or disbursing office concerns regarding any contractor tax-related payment requests or refunds should be elevated to the contracting officer for resolution.

2.4.2. [Title 31, U.S.C. § 7701\(c\)](#) and [FAR 4.902](#) require all payees, subject to the U.S. Internal Revenue Code (IRC), doing business with the DoD to furnish their Taxpayer Identification Number (TIN) as defined by [26 U.S.C. § 6109](#) (which may be a Social Security Number (SSN), [Individual Taxpayer Identification Number](#) or [Employee Identification Number](#)). Payments are not to be authorized without a TIN or SSN on record for the required payee, except as described in paragraph 6.5.

2.4.3. If the contractor, or another payee, believes the [IRS Form 1099-MISC](#), Miscellaneous Income, [IRS Form 1099-INT](#), Interest Income, [IRS Form 1099-NEC](#), or [IRS Form 1099-C](#), Cancellation of Debt, was improperly issued or had incorrect information, they must provide written evidence for a correction to the appropriate tax office.

2.5 Fleet Card Issuer

The Fleet Card issuer (third-party payor) is responsible for working with DLA-Energy and the [Defense Finance and Accounting Services \(DFAS\)](#) to maximize excise tax reclamations, as rules and procedures vary by state. Generally, states require that tax reclamations be completed after payment is made. Refer to the [General Services Administration \(GSA\) SmartPay](#) website for additional Fleet Card tax information.

2.6 DFAS

For those entitlement systems managed by DFAS and Enterprise Resource Planning (ERP)-managed systems that have coordinated with DFAS (except for Defense Health Agency and U.S. Army Corps of Engineers, where responsibility has otherwise been assigned), DFAS is responsible for:

2.6.1. Computing all appropriate tax withholdings, making deposits to the U.S. Department of the Treasury (Treasury), and filing the appropriate tax documents with the IRS;

2.6.2. Paying excise taxes as appropriate;

2.6.3. Performing reclamation of Federal and state excise tax related to fuel purchases, based on data provided by either DLA-Energy or Fleet Card issuers. DFAS responsibilities for performing reclamation will include filing for the National Guard;

2.6.4. Recording any taxes recovered in the applicable accounting systems;

2.6.5. Reviewing payment information to determine if a payment is reportable under current IRS guidelines; and

2.6.6. For those entitlement or ERP systems not managed by DFAS, for which DFAS is the responsible disbursing activity, DFAS is responsible for:

2.6.6.1. Issuing annual instruction on requirements for submitting necessary tax reports to DFAS for distribution to the recipients; and

2.6.6.2. Coordinating the issuance of the hardcopy or electronic tax statements by the IRS-mandated timelines.

2.7 Office of the Staff Judge Advocate or General Counsel

These offices are responsible for providing available payment data related to all settlements of personnel cases. The document forwarded to the paying office must identify the type of payment(s) represented by the settlement (for example, compensatory damages, attorney fees, [back pay](#), or interest), as well as the dollar amount attributed to each type of payment. This information will be used to determine the proper tax reporting of the payments. These offices must also provide the information required to properly report payments to attorneys under [26 U.S.C. § 6045\(f\)](#), separate from the claims settlement payment.

2.8 Third-Party Payors

Third-party payors are responsible for preparing and filing [IRS Form 1099-K](#), Payment Card and Third-Party Network Transactions, for certain payments they made, even if the item(s) procured were delivered to DoD. Further, the DoD is not responsible for filing an IRS Form 1099-MISC when the covered payments are made by third-party payors.

2.9 Convenience Check Account Holder

2.9.1. The convenience check account holder is responsible for tax reporting for the convenience checks they issue and for obtaining a signed [IRS Form W-9](#), Request for Taxpayer Identification Number and Certification. Refer to IRS instructions for [Form 1099-MISC and 1099-NEC](#) for more detail regarding payment types that are not reportable to DFAS. As the checks are written, the account holder must capture the following check recipient data:

2.9.1.1. Payee's legal name (merchant, vendor, or individual name by which taxes are filed);

2.9.1.2 Payee's business name. If the business is classified as a sole proprietorship, then report the business (merchant) information and provide the sole proprietor's name;

- 2.9.1.3. Payee's legal mailing address (the address used to file their taxes);
- 2.9.1.4. Employer Tax Identification Number (SSN or TIN);
- 2.9.1.5. Check number;
- 2.9.1.6. Check amount;
- 2.9.1.7. Payment date (date the check is written, not the date the check is cashed);
- 2.9.1.8. A brief description of the purchase;
- 2.9.1.9. Telephone number and/or email address of the merchant; and
- 2.9.1.10. Convenience check account number.

* 2.9.2. DFAS has tax reporting responsibilities for [certain agencies within](#) the DoD, and thus is responsible for reporting to the IRS miscellaneous [and non-employee](#) income paid to vendors/contractors. [DFAS coordinates with the GSA Smartpay contract designated bank and the account holder to obtain information to issue tax forms and report to the IRS.](#) Additional policy concerning the use of convenience checks is contained in Chapter 23.

2.9.3. The convenience check account holder is responsible for all backup withholding actions required based on the receipt of an IRS CP2100 notice (See [IRS website](#) – backup withholding). Also see paragraph 6.5 for additional information regarding backup withholding.

3.0 FEDERAL EXCISE TAX (FET)

3.1 General

Except for exemptions provided by the [IRC](#) as set out in FAR 29, the Government must pay FET on fuel purchases. If a contract does not specify that the contract price excludes FET, then assume the contract price includes the tax and pay only the contract price. If the contract price specifically excludes the tax, then FET for fuel purchases must be billed on the invoice as a separately identified item from the contracted fuel price.

3.2 Exemptions

Tax exemptions or refunds are available for DoD purchases of aviation fuel and off-highway use of gasoline and road diesel fuels. Whether or not an exemption is available, or a refund application is required, depends on where in the distribution chain the purchase was made and the IRS status of the seller of the fuel. See [IRS Publication \(Pub\) 510](#) for additional IRS guidance.

3.3 Refunds

Requests for refunds must be filed on an [IRS Form 8849](#), Schedule 1, Nontaxable Use of Fuels.

3.4 Quarterly FET Return

3.4.1. Unless notified differently by the IRS District Director, the accounting office responsible for reporting DLA-Energy activity must prepare and submit quarterly FET returns. DLA-Energy must submit a monthly report to DFAS containing the sales to taxable customers. A return must be made using [IRS Form 720](#), Quarterly Federal Excise Tax Return, for the first calendar quarter when the tax liability is incurred and each subsequent calendar quarter until a final return is filed. Final returns must be marked “FINAL” and are applicable only when no FET is owed and reportable in future quarters. See IRS Pub 510 for additional IRS guidance.

3.4.2. IRS Form 720 contains a list of the commodities and services subject to the tax and the tax rate. This form also serves as a return for all excise taxes for which quarterly reporting is required.

3.4.3. The accounting office is responsible for preparing IRS Form 720. Instructions for preparing this form are in [IRS Instructions for Form 720](#).

3.4.3.1. The IRS Form 720 [filing](#) due [date](#) is on or before April 30, July 31, October 31, and January 31.

3.4.3.2. Submit the original IRS Form 720 to the appropriate IRS Center; include the amount of taxes collected.

3.5 Collections for FET

3.5.1. Collections for FET are made to deposit fund accounts. Excise taxes collected must be transferred using the most current instructions received from the IRS. Generally, transfers of excise taxes are required semi-monthly and must be made electronically to the Treasury.

3.5.2. Report the amounts of FET collected and deposited for the sale of aviation fuel other than for the exclusive use of the DoD.

4.0 STATE AND LOCAL TAXES

4.1 State and Local Taxes

4.1.1. In accordance with [FAR 29.302\(b\)](#), DoD Components must assert the Government’s immunity or exemption from taxes whenever it is available, and economically feasible, to do so. State statutes identify whether the tax is levied on the seller or the purchaser. The process for seeking refunds differs from state to state. Some states accept [Standard Form 1094](#), United States Tax Exemption Form, some states have their own required forms, and other states require payment of the

tax at the time of purchase and provide a means for seeking refunds of the tax. The contracting officer will contact the local state taxing authority to verify if they accept tax exemption certificates. A blanket-type tax exemption certificate is used to obtain a U.S. Government exemption from state or local taxes in the case of continuing or numerous purchases from contractors. Payments of state and local taxes are supported under the following conditions:

4.1.1.1. When the tax is levied on the seller, the Federal Government must pay the tax as part of the purchase price unless the taxing authority provides otherwise; or

4.1.1.2. When the Government has, by contract, agreed to reimburse the contractor for taxes paid to a state or municipality.

4.1.2. Unless specifically stated otherwise in the contract, it is presumed that state and local taxes are included in the contract price. When there is a valid and binding contract covering the furnishing of supplies or services at fixed unit prices, and the contract contains no provision for the adjustment of such prices in the event of the imposition on the contractor of state taxes applicable thereto, there is no authority for the payment of any taxes over and above the unit price stipulated in the contract.

4.2 Taxes Involving Fuel Purchases

DLA-Energy is responsible for supplying applications for tax refunds on fuel purchases for both service station and bulk purchases of fuel. Contracting officers should coordinate with DLA-Energy on the applicability and reimbursement of state and local taxes pertaining to diesel fuels and gasoline purchases.

4.3 Leases and Purchases

In accordance with [FAR 29.302\(a\)](#), generally, purchases and leases are immune from various state and local taxes. This determination is a legal question and requires consultation with agency counsel. FAR 29.4 references the different contract clauses concerning state and local taxes that may be included in contracts on leases and rentals.

5.0 CUSTOMS DUTIES

5.1 U.S. Customs Duties on Foreign Purchases

5.1.1. Duty-Free Purchases. The DoD Components can make emergency purchases of war materials abroad. This material will be admitted free of duty. The applicability of customs duties is governed by the contract and actions of the contractor and contracting officer in accordance with [FAR 25.9](#). Federal acquisition policy in FAR 25.9 states that agencies must pursue and use any exemptions allowed when the anticipated savings to appropriated funds will outweigh the administrative cost associated with processing the required documentation. [Defense Federal Acquisition Regulation Supplement 225.9](#) provides more specific Departmental policy and requirements of the administrative contracting officer (ACO) in issuing duty-free entry

certificates, identifying exempted supplies, and performing other formal entry and release procedures for the foreign items procured under a prime contract.

5.1.2. Payment of Custom Duties. If the importation is not determined to be duty-free, then the duty must be charged to the same appropriation/fiscal year used to fund the purchase, even though the importation and purchase may be in different fiscal years. Expired funding is available for such obligation "adjustments" as stated in Volume 3, Chapter 10. The amount due will be generated based on the classification of imports by Customs and Border Protection. Payment vouchers must be prepared to show the payment amount, annotated with the source and calculated amount of the duty, with remittance addressed to the Collector or Deputy Collector at the port of entry. However, prior to payment, the entitlement office must obtain the ACO's approval to ensure the amount of the customs duties is not already covered in the price of the contract or exemption certifications have been issued to exempt the procured items from customs duties.

5.2 Customs Exemptions for American Imports and Purchases in Canada for Joint Defense Program

5.2.1. General. The Government's imports and purchases from other countries are exempt from Canadian import duties and taxes when used for joint defense projects in Canada.

5.2.2. Refund or Remission of Taxes. Goods purchased in Canada by or for the United States, or by the Canadian Commercial Corporation, are governed by concessions when U.S. funds expended are intended for joint Canadian-U.S. projects in Canada or when the goods will become and remain U.S. property. See Defence Production and Development Sharing Remission Order [Consolidated Regulations of Canada, c. 755](#). The concessions permit refund or remission in certain circumstances, including:

5.2.2.1. Sales taxes paid on goods, other than those for resale, to members of the U.S. Armed Forces or civilian personnel for private use;

5.2.2.2. Excise taxes, including the stamp tax on checks. Items for resale to members of the U.S. Armed Forces or civilian personnel for private use are not exempt from stamp taxes or excise taxes; and

5.2.2.3. Customs duties paid on import goods when used, directly consumed, processed, or attached to items or goods manufactured in Canada and sold to the U. S. Government for use with joint Canadian-U.S. projects.

6.0 MISCELLANEOUS

6.1 Payments in Lieu of Taxes

Issues involving the payment of taxes are complex and should be referred to the activity's servicing legal office.

6.1.1. Charges by state or local governments for services levied on Federal Government entities or their contractors, which are not imposed on residents or nonfederal tax-exempt entities, where the cost of service is borne by the general tax revenues, are the nature of a tax to which the DoD is immune.

6.1.2. A reasonable charge by a political subdivision based on the “quantum” of direct service furnished, and which is applied equally to all property tax exempt entities, is not considered a tax against the DoD, even though the services are furnished to taxpayers without a direct charge, provided the political subdivision is not required by law to furnish the service involved without a direct charge to all located within its boundaries.

6.1.3. Payments are permitted in lieu of taxes to municipalities that have lost tax revenue due to the transfer of plants to Government Components, only when authorized by the Congress. Payments in lieu of taxes are not authorized if the property transferred was never on municipality tax rolls and municipal services had never been furnished.

6.2 Foreign Taxes

U. S. Government purchases in a foreign country are not exempt, in general, from taxes and custom duties when imposed by the foreign country. The Status of Forces or other government tax or trade agreements may provide exemptions. The Component’s legal counsel should be consulted regarding the applicability of these agreements to their individual circumstances. [FAR 29.402](#) provides specific clauses pertaining to foreign taxes that may be in contracts.

6.3 Taxes on Arms and Ammunition

In accordance with [10 U.S.C. § 2385](#), Federal taxes may not be imposed on the sale or transfer of firearms, pistols, revolvers, shells, or cartridges when such articles are purchased with funds appropriated for a military department.

6.4 Environmental Assessments

If an environmental assessment is levied by a local government, and it represents a fee, then the payment is authorized. If the assessment appears to be a tax, and its legality is questionable, then the payment is not authorized. The Component’s legal counsel should be consulted to determine whether payment should be made.

6.5 Backup Withholding

6.5.1. In most instances, pursuant to [31 U.S.C. § 3325](#), DoD may not make a payment without a valid TIN. If payment is appropriate without a TIN and a signed IRS Form W-9, and no exception to backup withholding applies, backup withholding must occur. Backup withholding requirements are enforced on a payment-by-payment basis, regardless of payment size. When an individual or entity has not provided a TIN and a signed IRS Form W-9 as described above, the backup withholding requirements, as described in [26 U.S.C. § 3406](#), are applicable. Because of

the TIN requirement imposed by 31 U.S.C. § 3325, backup withholding within DoD should be extremely rare.

6.5.2. Backup withholding requirements are separate from the reporting thresholds that apply to most IRS Form 1099 reporting. Backup withholding is applied to the principal payment only, to exclude such charges as transportation charges or interest. Payments that are not subject to reporting on the IRS Form 1099, as set forth in subparagraph 7.3.2, are not subject to backup withholding.

6.5.3. The [paying office will deposit the](#) backup withholding [with](#) the IRS. The paying office will generate an [IRS Form 945](#), Annual Return of Withheld Federal Income Tax, for the IRS. Additional guidance is available in [IRS instructions for Form 945](#), [IRS Pub 15, \(Circular E\)](#), “Employer’s Tax Guide,” and [IRS Pub 1281](#), “Backup Withholding for Missing and Incorrect Name/TIN(s).”

6.5.4. DoD activities must perform backup withholding on reportable payments when the following conditions exist:

6.5.4.1. The IRS informs the paying office that the payee provided an incorrect TIN and reportable payments totaling \$600 or more during the calendar year,

6.5.4.2. An information return was required concerning the payee for the preceding calendar year, or

6.5.4.3. Backup withholding was required from the payee for the preceding year.

7.0 FEDERAL TAX REPORTING

7.1 General

7.1.1. At the end of each calendar year, payment or entitlement offices are required to report certain payments to the IRS. The reporting requirements are established by [26 U.S.C. § 6041](#), [26 U.S.C. § 6041A](#), 26 U.S.C. § 6045(f), [FAR 4.904](#), and current IRS instructions/guidelines. Payment or entitlement offices must provide the recipients (payees) with an IRS Form 1099 by the date specified by the IRS (See [IRS reporting due dates](#)).

7.1.2. There are various payments made to military members and civilian employees that are subject to IRS for [IRS Form W-2](#), Wage and Tax Statement, reporting (e.g., military award payments). Some of these payment types may require tax withholding and will be reported on the IRS Form W-2. These payments are required to be paid by the appropriate system for accurate withholdings to be applied and reported on the annual IRS Form W-2 by the date specified by the IRS (see IRS reporting due dates). Payment through a vendor pay office is only authorized if the appropriate withholdings are computed, included, and presented for payment to the vendor pay office. At the end of each calendar year, payment or entitlement offices are required to report these payments via Form W-2 according to current Social Security Administration/IRS guidelines.

7.2 Tax Reporting

7.2.1. Each DoD Component is responsible for the preparation of an IRS Form 1099 on its contract or vendor payments for applicable services (specified in paragraph 7.3) that total \$600 or more, or royalties of \$10 or more, in a calendar year to a single person or business entity (partnership, sole proprietor, or corporation), unless an exception applies. For DFAS-serviced Components, DFAS will prepare, print, and distribute the hard copy of the IRS Form 1099 to the vendor/contractor/payee and forward the same information to the IRS. If an IRS Form 1099 is required to be corrected, then the paying office that maintains the underlying payment record provides the information necessary to effect the correction. If the vendor/contractor/payee believes the IRS Form 1099 was improperly issued or had incorrect information, then the recipient must provide the written evidence needed for correction.

7.2.2. Payment data in various payment systems, for the same contractor, must be consolidated to determine if an entity was paid more than \$600 for reportable payments.

7.2.3. IRS Form 1099-MISC is not required for purchase cards and centrally-billed travel paid [for](#) using a government credit card.

7.2.4. DFAS will not make a determination of independent contractor or employee status for tax purposes when payments are made to individuals. That determination is at the discretion of the contract-issuing activity. If there is a question, then the contract-issuing activity, through its chain of command, will submit an [IRS Form SS-8](#), Determination of Worker Status for Purposes of Federal Employment Taxes and Income Tax Withholding, to the IRS Associate Chief Counsel (tax exempt and government entities) for a determination. See [IRS Pub 1779](#), “Independent Contractor or Employee,” for additional information.

7.3 IRS Form 1099 Information Reporting

7.3.1. Payments Subject to Reporting. Certain contract and vendor payments are subject to IRS Form 1099 reporting in accordance with IRS regulations/guidelines.

7.3.1.1. General Rule. Payments are aggregated for the taxable year for:

7.3.1.1.1. Business entities: [Sole](#) proprietors, partnerships, and corporations, with some exceptions;

7.3.1.1.2. Corporations providing medical and health-care services that are not otherwise exempt from taxation under [26 U.S.C. § 501\(a\)](#);

7.3.1.1.3. Canceled debts; and

7.3.1.1.4. Interest (including [Title 5, Code of Federal Regulation, Part 1315](#), Prompt Payment) to individuals, sole proprietors, and partnerships. Corporations are exempt from interest reporting.

7.3.1.2. Payment for Services. Payment or compensation for services rendered, including medical or health-care services and contractual legal services, is subject to IRS Form 1099 reporting, unless the payment [is to an employee and](#) should be reported on an IRS Form W-2. This reporting requirement applies regardless of whether payment is issued to an individual, a sole proprietorship, a partnership, or corporation. The requirement does not apply when a payment is made to a hospital or extended health-care facility that is exempt from taxation under 26 U.S.C. § 501(a), or to a hospital or extended health-care facility owned and operated by the U.S. or an agency or instrumentality of the [United States](#). This reporting rule also applies to payments issued to U.S. corporations, paid in U.S. dollars, for service contracts executed in foreign countries.

7.3.1.3. Payments for Taxable Settlements

7.3.1.3.1. Generally, payments for personnel claims, Equal Employment Opportunity actions, and grievances represent taxable income and should be reported on an IRS Form 1099, but may be reported on an IRS Form W-2 depending on the classification of the settlement categories. This includes amounts paid in settlement, damages for nonphysical injuries or sickness (such as employment discrimination or defamation), liquidated damages, and punitive damages. Amounts paid on account of personal physical injury or physical sicknesses, however, are not taxable and are not reported on an IRS Form 1099.

7.3.1.3.2. Compensatory damages received based on emotional distress or injury that are attributable to a physical injury or physical sickness are not taxable and not reported on an IRS Form 1099, to the extent that the amount paid does not exceed the amount paid for medical care for the emotional distress. Damages paid on account of emotional distress, including physical symptoms such as insomnia, headaches, and stomach disorders, which are not attributable to a specific physical injury or physical sickness, are reportable.

7.3.1.3.3. In cases where the amount to be paid to the complainant represents back pay, and the claim originates with a DoD activity whose civilians are paid by DFAS, the claim must be forwarded to a civilian pay office for payment and issuance of an IRS Form W-2. DoD activities must forward claims representing back pay to their supporting payroll office.

7.3.1.3.4. The office forwarding personnel claims, as described in Chapter 12, for payment, such as taxable settlement awards, is responsible for providing information with the settlement documents that are required for tax reporting. All settlement payments are presumed to be taxable unless otherwise indicated in the settlement agreement or they meet one of the specific categories that are nontaxable.

7.3.1.4. Gross Proceeds Paid to an Attorney. The total amount paid to an attorney for legal services, other than contractual legal services, must be reported on an IRS Form 1099 as required by 26 U.S.C. § 6045(f). The term “attorney” includes a law firm or other provider of legal services, such as a corporation. This reporting requirement applies, regardless of whether or not legal services are provided to the Government, and if the attorney is the sole payee. In the case of payment by check, payment is considered to be made to the attorney or law firm if the attorney or law firm is named the sole, joint, or alternate payee. A need to issue two IRS Form 1099s on a

single payment may occur. In this case, issue an IRS Form 1099 to the complainant and another IRS Form 1099 to the attorney. Information that must be provided by the office forwarding the claim for payment includes, but is not limited to: payee name(s), payee TIN, amount paid, payee address(es), and settling activity identification.

7.3.1.5. Vendors in U.S. Territories. Service payments to vendors located in Puerto Rico, Guam, American Samoa, Commonwealth of the Northern Mariana Islands, and the U.S. Virgin Islands are subject to IRS information reporting.

7.3.2. Payments Not Subject to Reporting. The following classes of contract and vendor payments are not subject to IRS Form 1099 reporting:

7.3.2.1. Payment of bills for merchandise, transportation, freight charges, telegrams, telephone, storage, and similar charges;

7.3.2.2. Payments subject to reporting on an IRS Form W-2 related to compensation paid to DoD employees or service members;

7.3.2.3. Payments of rent, if made to a real estate agent;

7.3.2.4. Payments to Government employees as an allowance or reimbursement for traveling or associated expenses, including claims for damaged household goods;

7.3.2.5. Payments made as an award to an informer or similar payments;

7.3.2.6. Payments made to a Government agency, political subdivision, or instrumentality thereof; and

7.3.2.7. Payments to organizations that are exempt from taxation under 26 U.S.C. § 50 (a).

7.4 Debt Actions Subject to IRS Form 1099-C

7.4.1. Federal agencies are required to report the cancellation of each debt to an individual, sole proprietor, partnership, or corporation. Debts forgiven via a waiver or remission are not issued an IRS Form 1099-C. The term “debt” includes the principal owed, interest, penalties, administrative costs, and fines. If, however, interest is included in the amount reported on the IRS Form 1099-C, then it must be listed separately on the form. A debt is considered to be canceled on the date that the authorized individual approves the termination of the debt-collection process.

7.4.2. The cancellation of the debt is reported on IRS Form 1099-C, regardless of whether the debtor is required to report the debt as income. A copy of the IRS Form 1099-C must be provided to the debtor by the date specified by the IRS (See IRS reporting due dates). If payment is received on a previously canceled prior year debt, then there is no requirement to file an additional or corrected IRS Form 1099-C.

7.5 Payments to Individuals Subject to IRS Form W-2 Reporting

7.5.1. General. As discussed in Chapter 12, various payments are issued by DFAS to, or on behalf of, DoD employees and military members. Payments may be subject to tax withholding and tax reporting (Federal and state) on an IRS Form W-2.

7.5.2. Cash Awards to Military Members

7.5.2.1. Cash awards to military members for disclosures, suggestions, inventions, and scientific achievements are subject to the withholding of Federal and state income taxes, as cited in Chapter 12 paragraph 2.14.3 and Volume 7A, Chapter 44, paragraph 2.1. In accordance with Volume 7A, Chapter 45, paragraph 2.2, cash awards are not subject to Federal Insurance Contributions Act (Old Age, Survivors, and Disability Insurance/Medicare) withholding. Certain Combat Zone Tax Exclusions (CZTE) may apply. Information on the CZTE is available in [IRS Pub 3](#), “Armed Forces’ Tax Guide,” and Volume 7A, Chapter 44, Withholding of Income Tax.

7.5.2.2. For purposes of issuing an IRS W-2, DFAS will withhold taxes and will issue an IRS Form W-2 by the date specified by the IRS (see IRS reporting due dates). See subparagraph 7.1.2 for additional information.

7.6 Filing Information Returns With the IRS

7.6.1. Filing Requirements

7.6.1.1. Forms Required

7.6.1.1.1. When filing manual (paper) IRS Form 1099s, [IRS Form 1096](#), Annual Summary and Transmittal of U.S. Information Returns, must be used to transmit and summarize payment information. It serves as a cover sheet for one or more individual reports. IRS Form 1096 is obtained through the [IRS Forms, Instructions and Pubs](#) website.

7.6.1.1.2. A separate IRS Form 1099 must be completed for each entity concerned, and all are covered by one IRS Form 1096. IRS Form 1099s are obtained through the IRS Forms, Instructions and Pubs website.

7.6.1.2. Distribution of Report. The IRS Form 1096 is to be filed using the address listed on the form, and the IRS Form 1099 is to be filed according to [IRS Pub 1220](#), “Specifications for Electronic Filing of Forms 1097, 1098, 1099, 3921, 3922, 5498, and W-2G.”

7.6.1.3. Electronic Filing. The [IRS Form 4419](#), [Revise Existing Transmitter Control Code \(TCC\)](#) for Application for Filing Information Returns Electronically (FIRE), must be used to receive IRS approval to transmit electronically. When filing 250 or more IRS Form 1099 returns in a single report, filings are done electronically and are required to be filed by the date specified by the IRS (see IRS reporting due dates). These electronic filing procedures are published annually in IRS Pub 1220.

7.6.2. Records Retention

7.6.2.1. Activities preparing information returns must have the ability to reconstruct the data or records used to prepare the IRS Form 1099. The data or records must be retained for at least three calendar years, plus the current calendar year, after filing the information return. See [IRS General Instructions for Certain Information Returns](#). These records permit an audit trail that will substantiate the amount(s) reported by showing all relevant payments, to include payments from multiple contracts. The retention period for IRS Form 1099-C, or backup withholding data, is four calendar years after filing the information return. The issuing location must maintain a copy of information returns or be able to recreate the tax document.

7.6.2.2. Documentation supporting tax-related financial transactions reported in the Component's financial statements needs to be retained in accordance with Volume 1, Chapter 9. The documentation retained must be of sufficient quality to allow an independent third party, such as an auditor, to confirm the computation of the tax-related transaction posted in the accounting system and reported on the financial statements.

8.0 TAX ON CERTAIN FOREIGN PROCUREMENT PAYMENTS

8.1 General

In accordance with [Title 26 U.S.C. § 5000C](#) and implementing regulations such as [FAR 29.402-3](#), a 2% tax will apply to certain foreign procurement payments, unless one of the exemptions in paragraph 8.3 applies. The tax, effective with contracts issued after June 5, 2020 (date of FAR final rule), is identified by the inclusion of [FAR 52.229-12](#) in the contract, and requires paying agents to withhold up to 2% of applicable payments.

8.2 Background

Section 301 of the James Zadroga 9/11 Health and Compensation Act of 2010 ([Public Law 111-347](#)), added section 5000C to the IRC. [Title 26 U.S.C. § 5000C](#), and its implementing regulations at [26 CFR 1.5000C1 through 1.5000C7](#), imposed, unless exempted, a 2% excise tax on the amount of a specified Federal procurement payment on any foreign person receiving such payment. Title 26 CR 1.5000C-1(c) defines the term "specified Federal procurement payment" as any payment made pursuant to a contract with the U.S. Government for goods or services if the goods are manufactured or produced, or the services are provided, in any country that is not a party to an international procurement agreement with the United States.

8.3 Exemptions

Exemptions from the tax may be identified at various stages of the procurement or payment process.

8.3.1. Exemptions Identified Prior to Contract Solicitation. In accordance with FAR 29.402-3, a contracting officer will include the solicitation provision [FAR 52.229-11](#), unless one of the following exceptions applies:

8.3.1.1. Acquisitions using simplified acquisition procedures that do not exceed the simplified acquisition threshold (as defined in [FAR 2.101](#));

8.3.1.2. Emergency acquisitions using the emergency acquisition flexibilities defined in [FAR 18](#);

8.3.1.3. Acquisitions using the unusual and compelling urgency authority per [FAR 6.303-2](#);

8.3.1.4. Contracts with a single individual for personal services that will not exceed the simplified acquisition threshold on an annual calendar year basis for all years of the contract; or

8.3.1.5. Acquisitions if the requiring activity identifies that the requirement is for certain foreign humanitarian assistance contracts.

If one or more of the above exceptions exists, the contracting office will not include the FAR provision in 52.229-11 and clause 52.229-12 in the solicitation and contract, and the resulting contractual payments will not be subject to the tax withholding.

8.3.2. Exemptions Identified by the Vendor During Contract Proposal or Invoicing. FAR provision 52.229-11 requires the bidder/offeror to identify whether they are a foreign person/entity. The provision also requires that, if the bidder/offeror is a foreign person/entity, to identify whether they are claiming a full exemption, partial exemption, or no exemption from the tax by submitting an [IRS Form W-14](#), Certificate of Foreign Contracting Party Receiving Federal Procurement Payments.

8.3.2.1 If the vendor claims a full exemption in their offer, they are not required to submit an IRS Form W-14 with each invoice, and no withholding by the paying agent for the 2% excise tax will be required. Per FAR clause 52.229-12, if circumstances change during the performance of the contract and the full exemption no longer applies, the vendor is required to notify the contracting officer and begin submitting an IRS Form W-14 with each invoice.

8.3.2.2. If the vendor only claims a partial exemption, or no exemption, from the tax with their offer, then the vendor is required, in accordance with FAR clause 52.229-12, to submit an IRS Form W-14 with each invoice, indicating the amount or percentage of the invoice that is exempt from the tax. The excise tax withholding is applied at the payment level, not at the contract level. The vendor must revise each IRS Form W-14 submission to reflect the exemption (if any) that applies to that particular invoice.

8.3.2.3. If the vendor has only claimed a partial exemption, or no exemption, in their offer, and a Form W-14 is not submitted with an invoice, the default withholding percentage is 2% for that payment request.

8.4 Withholding Requirements

8.4.1. Unless the vendor has claimed a full exemption as part of their bid/offer, paying agents will withhold the tax from invoices received based on the information provided by the vendor on the IRS Form W-14 accompanying each invoice. This will typically be 2% of the invoice amount unless the vendor has claimed a partial exemption on the W-14 (e.g., only a portion of the goods were manufactured, or services provided, in a country that has an international procurement agreement or tax treaty with the [United States](#)).

8.4.2. Per FAR clause 52.229-12(d), the Government will withhold a full 2% of each payment unless the vendor claims an exemption. If the vendor enters a ratio in line 12 of the IRS Form W-14, the result of line 11 divided by line 10, the Government will withhold from each payment an amount equal to 2% multiplied by the contract ratio. If the vendor marks box 9 of the IRS Form W-14 (rather than completing lines 10 through 12), the vendor must identify and enter the specific exempt and nonexempt amounts in Line 15 of the IRS Form W-14. The Government will then withhold 2% only from the nonexempt amount.

8.4.3. If the vendor has not claimed a full exemption during their offer, and a Form W-14 is required but not provided with an invoice, the default withholding will be 2% of the invoice amount.

8.5 Responsibilities

8.5.1. Contracting Officer. The contracting officer is responsible for identifying to the paying agent whether or not the contractual payments are subject to the 2% Foreign Excise Tax via inclusion of the appropriate FAR provisions and clauses (52.229-11 and 52.229-12), as well as identifying, in the contract, whether the vendor has claimed a full exemption in its original offer/proposal.

8.5.2. Vendor/Payee. The vendor/payee is responsible for submitting an IRS Form W-14 with each payment request if they have identified in their proposal that: 1) they are a foreign person/entity, and 2) that they have not claimed a full exemption from the tax in their original offer/bid.

8.5.3. Paying Agent. The paying agent is responsible for the following:

8.5.3.1. Withholding the 2% Foreign Excise Tax in accordance with the IRS Form W-14 that the vendor/payee submits with each payment request;

8.5.3.2. Filing the appropriate reports as identified in paragraph 8.9 to report tax withholdings to the IRS, and;

8.5.3.3. Submitting the withheld funds to the IRS as prescribed in paragraph 8.9.

8.5.3. Acquiring Agency/Paying Agent. Every effort must be made by the acquiring agency and paying agent to identify, withhold, and report applicable tax withholdings to the IRS.

However, per IRS guidance, if the acquiring agency fails to withhold the tax, then the foreign contracting party must file a U.S. income tax return and pay the tax due. The acquiring agency, or the paying agent, is not liable for any tax not withheld (see the [U.S. Government Reporting](#) section on the IRS webpage).

8.6 Disputes

In accordance with FAR provision 52.229-11(c), any disputes regarding the imposition and collection of the 26 U.S.C. § 5000C tax are adjudicated by the IRS as the 26 U.S.C. § 5000C tax is a tax matter, not a contract issue. If a vendor disputes a withholding of the 2% Foreign Excise Tax, the vendor should be referred to the IRS to address the matter.

8.7 Refunds for Over-withholdings

8.7.1. Refunds of over-withholdings claimed by a vendor may not be refunded by the paying agent. In accordance with 26 CFR 1.5000C-2(e), if the foreign contracting party (payee) discovers that amounts withheld on prior payments were in excess of the amount required to satisfy its tax liability under section 5000C, the foreign contracting party may request the acquiring agency to decrease the amount of withholding on future payments for which withholding is required under section 5000C. The request must be in writing, signed under penalties of perjury, contain the amount by which the foreign contracting party requests to increase or decrease future amounts withheld under section 5000C, and explain the reason for the request.

8.7.2. Upon receipt of a request in writing, acquiring agencies may decrease the amount of withholding on subsequent payments made to the foreign contracting party that are otherwise subject to withholding under section 5000C, provided that the payment for which the decrease is applied is made on or before the end of the applicable tax year, with respect to the payment for which the over-withholding occurred.

8.8 Payments on Classified Contracts

8.8.1. Payments against classified contracts are not exempt from the withholding of the 2% Excise Tax. However, an acquiring agency/paying agent must determine if the reporting of such tax/withholdings against classified contracts will compromise national security. If so, the reporting of such information may be scaled back or eliminated.

8.8.2. In accordance with 26 CFR 1.5000C-3(c)(2), an acquiring agency is not required to report information otherwise required by 26 CFR 1.5000C on [IRS Form 1042-S](#), Foreign Person's U.S. Source Income Subject to Withholding, for payments made pursuant to classified or confidential contracts, unless the acquiring agency determines that the information reported on the Form 1042-S does not compromise the safeguarding of classified information or national security.

8.9 Reporting/Submission of Withheld Funding to IRS

The paying agent/office is responsible for filing the following reports and submitting withheld taxes to the IRS.

8.9.1. Reporting

8.9.1.1. [IRS Form 1042](#), Annual Withholding Tax Return for U.S. Source Income of Foreign Persons, is an annual form used to report all/aggregate funds withheld by an acquiring agency. This form must be filed annually by March 15 of the year following payment.

8.9.1.2. IRS Form 1042-S is an annual form, broken down and submitted for each vendor/payee for which tax withholdings have occurred. The form is not required to be prepared/submitted with each deposit made to the IRS because the IRS' [Electronic Federal Tax Payment System](#) has a field for remitters to identify what/who the deposit pertains to.

8.9.1.3. The IRS 1042-S is only required to be filed if withholdings have occurred. If no withholdings have occurred for a particular vendor/payee, regardless of the reason, then no Form 1042-S is required. The reporting requirement ties directly to actual withholding that has occurred.

8.9.1.4. The Gross Income Subject to Withholding to be included on the Form 1042-S is the total of the invoiced amounts, which are actually subject to the tax (i.e., it excludes the portions of billings that are exempted based on the vendor's W-14). As an example, if the vendor submits an invoice for \$500,000, and their attached Form W-14 shows that 50% of the services are exempt because they were provided in a country that has an international tax treaty with the [United States](#), then only 50% of the invoice (\$250,000) would be taxed at the 2% rate. Thus, the \$250,000 would be reported on the vendor's Form 1042-S at the end of the tax year as Gross Income Subject to Withholding (along with any other taxed invoices the vendor had throughout the year), and \$5,000 (\$250,000 x 2%) would be withheld from the payment and be reported as Taxes Withheld (along with any other taxes withheld for the vendor throughout the year).

8.9.2. Filing/Submission of Withheld Funds to IRS

8.9.2.1. Funds withheld by paying agents must be submitted/deposited to the IRS via the Electronic Federal Tax Payment System in the timeframes required by 26 CFR 1.5000C-3(b).

8.9.2.2. The frequency of depositing withheld amounts depends on whether the paying agency has other [26 U.S.C. Chapter 3](#), withholding and depositing requirements.

8.9.2.3. If the paying agent does not have any other [26 U.S.C. Chapter 3](#) withholdings, they will make monthly deposits of the 2% tax withholdings on a monthly basis by the 15th of the following month.

8.9.2.4. If the paying agent has other [26 U.S.C. Chapter 3](#) withholdings, the frequency will be dependent on the amounts of withholdings that need deposited (weekly, bi-weekly, or monthly).

8.10 Document Retention

The paying agent withholding applicable taxes will retain all documentation supporting the contract payments, and all tax-related information supporting withholdings, in accordance with Volume 1, Chapter 9, Figure 9-1. This includes any documentation supporting the determination of whether to withhold, how much to withhold, and what was actually withheld, such as contracts, invoices, receiving reports, payment/Electronic Funds Transfer information, the vendor's W-14, Forms 1042 and 1042-S, and IRS Form W-9, Request for Taxpayer Identification Number and Certification.

CHAPTER 7

PROMPT PAYMENT ACT

1.0 GENERAL

1.1 Purpose

This chapter prescribes the financial management policy for payments to vendors and contractors and primarily focuses on timely payment, determination of appropriate due dates, penalty for late payment, required documentation, receipt dates, acceptance dates, and payment discounts. Paragraph 2.2 lists exemptions to this policy.

1.2 Authoritative Guidance

The policies prescribed throughout this chapter pertaining to prompt payment are based primarily upon the Prompt Payment Act (PPA), [Title 31, United States Code \(U.S.C.\), Chapter 39](#), as implemented under [Title 5, Code of Federal Regulations \(CFR\), part 1315](#). Acquisition policy implementing the PPA provisions at 5 CFR 1315 is in the Federal Acquisition Regulation ([FAR](#)) [32.9](#), and the Defense Federal Acquisition Regulation Supplement ([DFARS](#)) [232.9](#). The Office of Management and Budget ([OMB](#)) [Circular A-130, Appendix II](#), prescribes the use of electronic processes and digital signatures whenever it is possible and in the best interest of the Government. Policies pertaining to timely payment have been revised by the National Defense Authorization Act ([NDAA](#)) [Fiscal Year \(FY\) 2022 Section 814](#) and ([NDAA](#)) [Fiscal Year \(FY\) 2021 Section 815](#), as presented in subparagraphs 2.6.3 and 2.6.4.

2.0 PROMPT PAYMENT ACT POLICY

2.1 Application

The payment terms ordinarily imposed by contract, or the PPA and its implementing regulations, may be replaced by the payment terms imposed by another governmental authority. For the purposes of this chapter, days refer to calendar days unless stated differently. The PPA applies to the following, unless these payments meet one of the exemptions in paragraph 2.2:

2.1.1. [Procurement Contracts](#). All payments for contracts for the procurement of goods or services;

2.1.2. [Vendor Payments](#). All vendor payments and payments to persons, organizations, or business concerns engaged in a profession, trade, or business and any not-for-profit entity operating as a vendor; and

2.1.3. [Utility Payments](#). All utility payments, including payments for telephone service, are subject to the PPA. Where state, local, or foreign authorities impose generally applicable late

payment rates for utility payments, those rates must take precedence, and thus, PPA interest rates will not apply.

2.2 Exemptions

2.2.1. In accordance with [5 CFR 1315.1\(a\)\(1\)\(ii\)](#) and 5 CFR 1315.1(b)(1), the following payments are exempt from the PPA:

2.2.1.1. Payments directed by military authority exercised in the field in time of war or in occupied territory as stated in [5 U.S.C. § 551\(1\)\(G\)](#); and

2.2.1.2. Contract financing payments, as defined in [5 CFR 1315.2\(h\)](#).

2.2.2. In accordance with 5 CFR 1315.1(b)(2), the following payments are exempt from the PPA:

2.2.2.1. Payments related to declared states of emergency directing any federal agency to utilize its resources in support of federal, state, and local disaster assistance efforts, as defined in the [Robert T. Stafford Disaster Relief and Emergency Assistance Act](#);

2.2.2.2. Payments related to the release, or threatened release, of hazardous substances, as defined in [42 U.S.C. § 9601](#); and

2.2.2.3. Certain payments related to military contingency operations, as defined in [10 U.S.C. § 101\(a\)\(13\)](#).

2.2.3. DFARS 232.901 defines conditions where emergencies or contingency operations affecting normal business processes will dictate a determination to exempt payments from FAR 32.9 requirements. This determination, and all subsequent determinations, will be clarified by the specific clause in the individual contract. Chapter 8 contains additional policy on certifying payments made in support of emergencies and contingency operations, a matrix tool to assist certifying officials in identifying the critical data elements, and the documentation necessary for proper certification.

2.3 Required Documentation Type, Function, and Purpose

Before making an invoice and/or interest payment, and in support of future financial audits, DoD Components must ensure that appropriate payment documentation is established and matched. This documentation includes the contract, receipt/acceptance report, and a proper invoice, unless not required by the contract. Subparagraphs 2.3.1 and 2.3.2 identify unique circumstances when an invoice and/or receipt/acceptance report may not be required. Acquisition policy in [DFARS 232.70](#) prescribes DoD policies and procedures for submitting and processing payment requests and receiving reports in electronic form. It also specifies exceptions and prescribes Wide Area Workflow as the accepted electronic form for submission of payment requests and receiving reports. It further permits the use of TRICARE Encounter Data System as the electronic format for receiving reports for rendered health care services. Ensure payment

documentation is retained in accordance with Volume 1, Chapter 9 and is readily available to support future audit efforts. Original payment documentation, and associated supporting documentation, must also be retained in accordance with Chapter 8, paragraph 4.1.

2.3.1. Contract. The contract is an enforceable agreement between the agency and the contractor or vendor that provides the necessary information to support payment of invoices and interest penalties. Contracts must contain the data elements required under [5 CFR 1315.9\(a\)](#) as part of the payment documentation. If errors exist in a contractual document that affect payment processing, the entitlement office must notify the contracting office to request corrective action. The payment office must not change contract terms. Contract terms may only be changed through a formal modification to the contract.

2.3.2. Proper Invoice. DoD payments must be based on the receipt of a proper invoice, unless an invoice is not required by the contract (e.g., monthly rental payments), and satisfactory contract performance. FAR 32.905(b) provides details on the information required for a proper invoice. As stated in FAR 32.905.b.2, an interim payment request under a cost-reimbursement contract for services constitutes a proper invoice if it includes all of the information required by the contract. Note that payment requests under cost-reimbursement service contracts are deemed proper when they conform to the contract. The office designated by the purchase order, agreement, or contract first to receive and review invoices, hereafter referred to as the designated activity, must immediately annotate the receipt date and review invoices within 7 days after receipt. If an invoice is improper, then the designated activity must return the invoice to the vendor/contractor.

2.3.2.1. Notice of an Improper Invoice. When the designated activity returns an invoice as improper, they must provide details on why the invoice is being returned and why it is improper. The designated activity's request to the vendor/contractor for a corrected invoice must be clearly marked as such. Notification must be within 7 days of receipt of the invoice (5 days for perishable agricultural commodities, dairy products, edible fats or oils, and food products prepared from edible fats and oils; and 3 days for meat, meat food, fish, and seafood products). If a DoD Component fails to provide notification of an improper invoice within the prescribed timeframes, the computation of the payment due date will be affected, in that the number of days allowed for payment of the corrected proper invoice will be reduced by the number of days delayed beyond the allowable invoice return notification requirement. For example, a typical invoice payable in 30 days is returned as improper on the 11th day after receipt, minus 7 days allowed, equaling a 4-day delay and reducing the payment due date of the corrected/resubmitted invoice by 4 days. As a result of the 4-day delay, the corrected invoice is now payable in 26 days upon receipt before interest begins to accrue. In accordance with FAR 32.906(b)(4), if a designated activity erroneously rejects a proper invoice, then the original invoice receipt date will be used to compute the payment due date and any interest penalties due.

2.3.2.2. Delivery Ticket as an Invoice. A delivery ticket may be used as an invoice when allowed by the contract. When used as an invoice, the delivery ticket must contain the information required by FAR 32.905(b) unless otherwise stipulated in the contract.

2.3.3. Receipt and Acceptance Report

2.3.3.1. A receiving report performs two functions. It provides evidence of the date goods are received, and it provides evidence of the date goods or services are accepted. Receiving reports are written or electronic evidence of the receipt of goods or services by a government official. Receiving reports must minimally contain the information stated in FAR 32.905(c) unless otherwise stipulated in the contract.

2.3.3.2. Receipt of goods does not ordinarily provide a basis for payment. Payment must be based upon acceptance of the goods or services as authenticated by the signature of the government official. Acceptance must occur as a condition of payment except in the following instances.

2.3.3.2.1. Interim Payments on Cost-Reimbursement Contracts for Services as Stated in FAR 32.905(c). Contract terms for interim payments may still require receipt and acceptance documentation, or stipulate other related requirements be met before a request for payment for services can be certified and disbursed.

2.3.3.2.2. Contracts Incorporating the “Fast Payment Procedure” Clause at FAR 52.213-1. For contracts with this clause, payment offices may use the contractor’s submission of an invoice as certification of the delivery of supplies and as the basis for authorizing payment. Payment of these invoices must be made within 15 days after the receipt of the invoice. Component policies and controls must be in place to follow up after payment to ensure receipt of acceptance documentation for the payment and contract files. The acquisition requirements and rules governing the fast payment procedure are found in FAR 13.4 and DFARS 213.4. Refer to section 7.0 of Chapter 10 for additional fast payment procedure financial management policy.

2.3.3.3. The agency receiving official must forward the receiving report, or other government documentation, to the designated payment office by the 5th working day after government acceptance or approval, unless other arrangements have been made.

2.3.3.4. Government acceptance is commonly deemed to occur constructively on the 7th day after the contractor delivers supplies or performs services in accordance with the terms and conditions of the contract, unless there is a disagreement over quantity, quality, or contractor compliance with a contractual requirement. A longer acceptance period can be specified in the contract, in which case the date of the actual acceptance or the date on which such acceptance period ends will substitute for the commonly applied 7th day after the delivery date (refer to DFARS 232.904). The date on which the designated acceptance period ends is referred to as the constructive acceptance date. Constructive acceptance is used to calculate PPA interest and applies to both destination acceptance and source acceptance contract terms. Regardless, government proof of acceptance must be forwarded to the designated payment office.

2.3.3.4.1. If actual acceptance occurs within the constructive acceptance period, the determination of any interest penalty must be based on the actual date of acceptance.

2.3.3.4.2. If actual acceptance occurs after the constructive acceptance period, the determination of any interest penalty must be based on the constructive acceptance date.

2.3.3.4.3. The constructive acceptance requirement does not compel DoD Components to accept supplies or services or make payment prior to fulfilling their designated responsibilities and internal control activities.

2.3.4. Follow up for Required Documents. If payments cannot be made due to the non-receipt of receiving reports, copies of contracts, contract modifications, or other required documentation, the entitlement office will follow up with the contracting or receiving office to ensure these documents are forwarded in a timely manner. These follow-up requests should be made in time to prevent the possible loss of economically justified discounts (if possible) and avoid the unnecessary payment of late payment interest penalties.

2.3.5. Emergency and Contingency Operations. When authorized, the head of the contracting activity of an operational area, in consultation with the cognizant comptroller supporting their contracting activity, will make the determination of whether a contract and related payment will be subject to the requirements of FAR 32.9 and include the applicable payment clause in the contract.

2.3.5.1. For payments that have been determined to be exempt from FAR 32.9, certifying officers involved in supporting contingency operations may use Appendix 1 of Chapter 8 to identify the documents and information needed to ensure the entitlement to payment is valid prior to certification. Certification guidelines for these payments are contained in paragraph 7.6 of Chapter 8.

2.3.5.2. For payments that are subject to the requirements of FAR 32.9, PPA interest payments will be made only as specified in the contract clause.

2.3.6. Progress Payments on Construction Contracts. Progress payments may be made if the payment request meets the requirements specified in the contract clause [FAR 52.232-5\(b\)](#) and any other applicable terms of the contract. These payments are made monthly, or at more frequent intervals, as determined by the contracting officer. According to FAR 52.232-5(d), payment of any portion, or all, of a certified request for progress payment that fails to conform to the specifications, terms, and conditions of the contract is referred to as an “unearned amount.” FAR 52.232-5(d) also requires that if the contractor, after being paid upon submitting a certified request for progress payment, discovers that a portion, or all of such payment, involves an unearned amount, the contractor is then obligated to notify the contracting officer of the performance deficiency and is required to pay DoD interest on any unearned amount from the 8th day after the date of receipt of the unearned amount until:

2.3.6.1. The date the contractor notifies the contracting officer that the performance deficiency has been corrected; or

2.3.6.2. The date the contractor reduces the amount of any subsequently certified request for progress payment by an amount equal to the unearned amount.

2.3.7. Payment for Partial Deliveries on Fixed-Priced Supply, Fixed-Priced Services, or Non-Regulated Communication Service Contracts. FAR 32.906(c) instructs contracting officers, if the nature of the work permits, to write contract statements of work and pricing arrangements that allow contractors to deliver supplies or services and receive invoice payments for discrete portions of the work as soon as completed and found acceptable by the Government. The inclusion of the payment clause at FAR 52.232-1 in the contract, unless specifically prohibited elsewhere in the contract, allows the contractor to be paid for accepted partial deliveries of supplies or partial performance of services that comply with all applicable contract requirements, and for which prices can be calculated from the contract terms. The contract clause may stipulate additional payment requirements; however, a proper invoice and documentation of government receipt and acceptance are required before the payment can be made.

2.4 Determining the Invoice Receipt Date

The date the contractor's invoice or payment request is received must be recorded on the invoice immediately upon receipt by the billing office designated in the contract to receive the invoice. This annotation must be clearly identifiable to the designated activity that will be processing the payment. The receipt date is an integral part of determining the payment due date, the date by which an improper invoice must be returned, and the date on which interest will begin to accrue if a payment is late. If the designated activity fails to annotate the receipt date, then the invoice receipt date is the date placed on the invoice by the contractor. For invoices electronically transmitted, the invoice received date is the date a readable transmission is received by the designated activity, or the next business day if received after normal working hours. For invoices that are made electronically available in feeder systems such as the Government purchase card bank system or the transportation Third Party Payment System, the invoice receipt date is the date on which the invoice is made available to the DoD, versus when invoices are transmitted to the entitlement office (Chapter 23, paragraph 5.6).

2.5 Determining the Payment Due Date

For payments subject to the requirements of FAR 32.9, the payment due date is the date on which payment must be made to avoid paying PPA interest.

2.5.1. If the payment due date is not specified in the contract, the date by which a proper invoice must be paid is the later of:

2.5.1.1. Thirty days after the date on which the designated activity receives the proper invoice; or

2.5.1.2. Thirty days after government acceptance of supplies delivered, services performed, or the applicable date of constructive acceptance, whichever is earlier.

2.5.2. An example of applying subparagraph 2.5.1 in determining the payment due date is as follows: Supplies are received on April 20th and accepted on April 29th, and a proper invoice is received on May 1st. The payment period will begin by using the later date of when a proper invoice is received (May 1st), or the constructive acceptance date (April 27th, which is the 7th day after receipt). In this example, the payment period begins on May 1st and ends 30 days later on May 31st. The interest penalty begins accruing on June 1st. Refer to FAR 32.904 for additional policy on determining the payment due date.

2.5.3. A contract modification may be required in order to determine when a payment is to be made (the payment due date), e.g., an award fee. If a payment cannot be entitled without a contract modification, the payment clock will start with the effective date of the modification.

2.5.4. If the contract does not require an invoice, then the due date is the date designated in the contract (FAR 32.904(b)(2)).

2.6 Timely Payment

The PPA requires both timely and proper cash management of government resources. DoD will make payments no more than 7 days prior to the payment due date, but as close to the due date as possible, unless the Secretary of Defense or designee has determined, on a case-by-case basis for specific payments, that earlier payment is necessary (FAR 32.906). This authority must be used cautiously, weighing the benefits of making a payment early against good stewardship inherent in effective cash management practices ([5 CFR 1315.4\(j\)](#)).

2.6.1. When the conditions in [5 CFR 1315.5](#) are met, a DoD Component may use an accelerated payment method.

2.6.2. For interim payments under cost-reimbursement service contracts, DoD may make payments at the standard due date of 14 days after the receipt of a proper invoice (DFARS 232.906(a)(i)) when the contract specifies the use of FAR 52.232-25, Alternate I. For purposes of computing late payment interest penalties that may apply, the due date for payment is the 30th day after the designated billing office receives a proper invoice (refer to FAR 52.232-25).

2.6.3. In accordance with [10 U.S.C. § 3801\(b\)\(1\)](#) and NDAA FY 2021 Section 815, for a prime contractor that is a small business concern, DoD must, to the fullest extent permitted by law, establish an accelerated payment date with a goal of 15 days after receipt of a proper invoice for the amount due.

2.6.4. In accordance with 10 U.S.C. § 3801 (b)(2) and NDAA FY 2022 Section 814, for a prime contractor that subcontracts with a small business concern, DoD must, to the fullest extent permitted by law, establish an accelerated payment date with a goal of 15 days after receipt of a proper invoice for the amount due if the prime contractor agrees to make payments to the subcontractor in accordance with the accelerated payment date, to the maximum extent practicable, without any further consideration from or fees charged to the subcontractor.

2.6.5. Payment is considered to be made on the date printed on the check, or on the Electronic Funds Transfer (EFT) settlement date. In order to avoid late payment interest fees, the EFT settlement date (the date funds are credited to the vendor's financial institution) must be no later than the calculated due date.

2.6.6. Checks will be mailed or transmitted on the same day the check is dated.

2.6.7. Payments due (including discount periods) on Saturday, Sunday, or legal holidays may be paid on Monday, or the next working day, without interest; however, this does not change the official payment due date as specified in paragraph 2.5.

2.7 Discounts

If a vendor/contractor offers a DoD Component a discount, whether stipulated in the contract or offered on an invoice, the Component should take the discount if economically justified, but only after acceptance has occurred.

2.7.1. When a discount is taken, payment will be made as close as possible to, but no later than, the discount date.

2.7.2. The [*Bureau of the Fiscal Service's website*](#) contains a discount calculator to assist in determining whether the discount is economically justified.

2.7.3. In accordance with FAR 32.907(b), if a DoD Component takes the discount after the deadline, an interest penalty on any amount remaining unpaid will be due.

2.7.4. Refer to Chapter 2 for additional financial management policy concerning discounts.

2.8 Interest Penalties

When DoD Components fail to make payment by the payment due date, interest accrues from the day after the payment due date through the payment date.

2.8.1. Automatic Interest. In accordance with FAR 32.907(a), the designated payment office will pay an interest penalty automatically, without request from the contractor, when all of the following conditions, if applicable, have been met:

2.8.1.1. The designated billing office received a proper invoice;

2.8.1.2. The Government processed a receiving report or other government documentation authorizing payment, and there was no disagreement over quantity, quality, or contractor compliance with any contractual requirement;

2.8.1.3. In the case of a final invoice, the payment amount is not subject to further contract settlement actions between the Government and the contractor;

2.8.1.4. The designated payment office paid the contractor after the due date; and

2.8.1.5. In the case of interim payments on cost-reimbursement contracts for services, when payment is made more than 30 days after the designated billing office receives a proper invoice.

2.8.2. Incorrect Banking Information. If the vendor/contractor provides incorrect banking information, then interest does not begin to accrue until 7 days after the correct information is received (provided the vendor has been given notice of the incorrect banking information within 7 days after the agency is notified that the information is incorrect). Refer to [5 CFR 1315.10](#) for additional regulations.

2.8.3. Late Payment. Interest will be accompanied with a notice stating the amount of the interest penalty, the number of days late, and the rate used (5 CFR 1315.10(b)(2)).

2.8.4. Interest Penalty Requirements. The specific interest rate will be applied to the total penalty period (maximum 1 year interest) regardless of whether the interest period carries over into different interest rate periods. No further interest will accrue after 1 year beyond the original due date or after the contractor files a claim for such penalties under the Contract Disputes Act of 1978 (5 CFR 1315.10(a)(5)). Interest calculations are to be based on a 360-day year.

2.8.5. Additional Penalties. Vendors/contractors may be entitled to an additional penalty payment when the vendor/contractor is owed a late payment interest penalty by DoD of \$1.00 or more, the contractor receives a contract payment dated after the due date that does not include the interest penalty also due, and the interest penalty is not paid within 10 days after the actual contract payment date ([5 CFR 1315.11](#)). The vendor/contractor entitlement to additional penalties is also dependent upon, among other things, its timely submission of a claim for the additional penalty. For further information on additional penalties, refer to 5 CFR 1315.11 and FAR 32.907(c).

2.8.6. Interest Penalties Due Under Construction Contracts. Title [5 CFR 1315.14\(c\)](#) provides for interest penalties to be paid on payments under construction contracts when a progress payment request has been approved as payable by the designated agency office, and remains unpaid for a period of more than 14 days, or longer if specified in the contract, after receipt of the payment request by the designated agency office. Interest penalties may also be applicable to final payments, based on completion and acceptance of work, and payments for partial performance that has been accepted by the agency. Refer to 5 CFR 1315.14 for additional details on payments and interest penalties under construction contracts.

2.8.7. Exceptions to Interest Penalties Due. Title 5 CFR 1315.10(c) identifies exceptions to when interest penalties are due. These exceptions generally include instances such as when interest penalties due are less than \$1.00, the contractor provided incorrect EFT information, payments are solely for financing purposes, or contract payments are delayed due to disputes between the Government and contractor over the payment amount or compliance with the terms of the contract. More detailed information regarding these, and other exceptions, is contained in 5 CFR 1315.10(c).

2.8.8. Computation of Interest Penalties. The Government will compute interest penalties in accordance with the OMB prompt payment regulations at 5 CFR 1315.10 and FAR 32.907. The Bureau of the Fiscal Service website contains both a simple daily interest calculator and a monthly compounding interest calculator to assist in interest calculations.

2.9 Interest Payment Funding

DoD will pay any late payment interest penalties from either the funds available for the administration of the program for which the penalty was incurred (refer to 5 CFR 1315.10(b)(5)), or from funds financing the operation of the Military Department or Defense Agency with which the invoice or contract payment is associated (refer to [31 U.S.C. § 3902](#)). All interest payments will be charged to the fiscal year(s) in which they accrue. If the interest is accrued at the end of the fiscal year, but not paid until the beginning of the next fiscal year, the prior year's funds will be cited. If interest is accrued at the end of the fiscal year, and additional interest is accrued in the new fiscal year, the total interest penalty will be funded citing each respective fiscal year's funds where the interest was accrued, thus ensuring the interest fund cite represents the bona fide need of the year in which the obligation arises. If the appropriation to which the interest would otherwise be charged is cancelled, the appropriation current on the date of payment will be charged pursuant to [31 U.S.C. § 1553 \(b\)\(1\)](#).

2.9.1. Entitlement offices are required to maintain detailed records in support of their determinations, and are to make these records available upon request of any activity determined to have caused a late payment.

2.9.2. A contractor may waive interest entitlement by returning the amount of interest paid by separate check or by returning the government check and requesting payment only in the amount invoiced. In addition to returning interest penalties already received, a contractor may waive their right to PPA interest by either express written statement or by acts and conduct which indicate intent to waive. All requests made in writing must be submitted to the applicable payment office established in the contract, be specific to each invoice/payment, and be for interest that is already earned/accrued. A contractor may not request a waiver of interest for potential interest not yet accrued, or a blanket waiver for a group of contracts/invoices. Interest waiver request documentation must be retained with payment supporting documentation.

2.9.3. Interest retained or waived is collected as a refund to the appropriation originally cited for the payment of interest. All refunds of interest or penalties from contractors will be credited to the same line of accounting classification (including fiscal year) that was charged at the time interest was paid. If the appropriation is cancelled or closed, then refunds will be applied to Miscellaneous Receipts of the U.S. Department of the Treasury.

2.9.4. The Foreign Military Sales (FMS) Trust Fund will fund late payment interest penalties pertaining to procurements financed by a FMS contract. Refer to Volume 15, Chapter 7 for additional information concerning FMS pricing.

APPENDIX 1. MATRIX FOR PAYMENTS IN SUPPORT OF EMERGENCIES AND CONTINGENCY OPERATIONS		1

CHAPTER 8

COMMERCIAL PAYMENT VOUCHERS AND SUPPORTING DOCUMENTS

1.0 GENERAL

1.1 Overview

Commercial payment vouchers, and the related processing requirements addressed in this chapter, apply to payments made to contractors and vendors (used interchangeably throughout the chapter) as part of the contract and vendor payment environments covered by the Federal Acquisition Regulation ([FAR](#)), Defense Federal Acquisition Regulation Supplement ([DFARS](#)), and other authorities identified in paragraph 1.3. The preparation and certification of a payment voucher by the entitlement office based on the proper supporting documentation, as well as those externally certified, advises the disbursing officer (DO) that the [legal and](#) contractual conditions for payment have been met.

1.2 Purpose

This chapter prescribes policy for the entitlement and preparation of commercial payment vouchers and the documentation required to support the payment vouchers. It also identifies the forms most often used for contracts, receiving reports, and vouchers; the document retention requirements; and the related electronic submission and processing requirements.

1.3 Authoritative Guidance

The policies prescribed throughout this chapter pertaining to the entitlement and preparation of commercial payment vouchers, including supporting documentation, are based primarily upon the FAR Parts 13, 16, 32, 43, and 52; FAR Subparts 2.1, 4.1, 4.5, and 4.9; the DFARS Parts 204, 213, 225, 232, 243, and 252; Titles 15, 31, and 41 of the United States Code (U.S.C.); and Titles 5 and 31 of the Code of Federal Regulations (CFR).

2.0 POLICIES AND REQUIREMENTS

2.1 Federal Acquisition Regulation (FAR)

[Title 41, U.S.C., Section 1302](#) establishes the Federal Acquisition Regulatory Council. Pursuant to [41 U.S.C. § 1303](#), the Council issues and maintains a single Government-wide procurement regulation known as the FAR. The FAR is the primary regulation used by all Federal executive agencies for the acquisition of supplies and services with appropriated funds.

2.1.1. [FAR 4.5](#) provides policy for the establishment and use of electronic commerce in federal acquisition as required by [41 U.S.C. § 2301](#).

2.1.2. [FAR 32.11](#) requires contract financing and delivery payments to contractors be made by Electronic Funds Transfer (EFT). FAR 32.1103 and [31 CFR 208.4](#) prescribe limited exceptions

to the EFT requirement. Volume 5, Chapter 11 provides additional EFT policy information concerning disbursements and collections.

2.2 Defense Federal Acquisition Regulation Supplement (DFARS)

The DoD implementation and supplementation of the FAR is issued in the DFARS.

2.2.1. [DFARS subpart 232.70](#) prescribes DoD acquisition policies requiring the submission and processing of contractor payment requests and receiving reports in electronic form to comply with [10 U.S.C. § 4601](#).

2.2.2. Acceptable electronic submission forms prescribed in DFARS 232.7002(b)(1) include, but are not limited to:

2.2.2.1. The Wide Area Workflow (WAWF) module within the Procurement Integrated Enterprise Environment (PIEE);

2.2.2.2. DoD-approved electronic third-party payment systems, or other exempted vendor payment/invoicing systems, which have been determined to be acceptable for commercial transportation services provided under a government rate tender or contract for transportation services; and

2.2.2.3. TRICARE Encounter Data System for rendered health care services.

2.3 Prompt Payment Act (PPA)

The PPA ([31 U.S.C. Chapter 39](#) and [5 CFR Part 1315](#)) requires DoD Components to pay their bills on time and pay interest penalties when payments are made late. Regulations promulgated under the PPA state that federal agencies should take discounts only when payments are made by the discount date and the discount is economically justified. Refer to Chapter 7 for additional policy specific to the PPA.

2.4 Payment Prevalidation

[Public Law 104-61 Sec. 8102](#), DoD Appropriations Act, 1996, requires certain disbursements be matched to a particular obligation before the disbursement is made (prevalidation). Refer to Chapter 1, section [3.0](#), for additional policy specific to prevalidation.

2.5 Requirements for Disbursing Transactions

Volume 5, Chapter 9 prescribes policy and requirements pertaining to disbursing transactions. Additionally, the Treasury Financial Manual ([TFM, Volume 1, Part 4](#)) prescribes requirements for disbursing payment vouchers.

2.6 Payment Certification Requirements

Title [31 U.S.C. § 3325](#) authorizes a DO to disburse money only when provided a voucher certified by a properly appointed certifying officer.

2.6.1. Certifying officers are individuals designated in writing (appointed) who are required to perform their duties in accordance with Volume 5, Chapter 5. DoD Directive ([DoDD](#)) [5118.03](#) delegates authority to appoint certifying officers under 31 U.S.C. § 3325(a)(1) and (b), to the Under Secretary of Defense (Comptroller). Refer to Volume 5, Chapter 5 for additional policy concerning re-delegation authority.

2.6.2. All certifying officers must be appointed using a DoD ([DD](#)) [Form 577](#), Appointment/Termination Record-Authorized Signature. As prescribed by Volume 5, Chapter 5, certifying officers who certify electronic vouchers must submit an electronic DD 577. Certifying officers who certify manual vouchers, or submit manual certifications of electronic payments, must submit an original, manually-signed DD 577. By certifying a voucher, the certifying officer attests that the payment is legal, correct, and proper. As prescribed by [31 U.S.C. § 3528](#) and Volume 5, Chapter 5, certifying officers are pecuniarily liable for payments they certify that do not meet these requirements. For specific policy related to the successive certification of an externally-certified voucher received by the payment office, refer to Volume 5, Chapter 5, [section 5.4](#).

2.6.3. The Secretary of Defense has delegated authority to the Director, Defense Finance and Accounting Service, or designee, to make the required determinations and grant or deny relief on all requests for relief of liability. Refer to Volume 5, Chapter 6, [section 7.0](#) for policy regarding decisions of liability.

2.7 Taxpayer Identification Number (TIN)

Title [31 U.S.C. § 7701\(c\)](#) requires all payees, subject to the U.S. Internal Revenue Code, doing business with the DoD to furnish their TIN (which may be a Social Security Number (SSN) for individuals). Payments are not to be authorized without a TIN or SSN on record for required payees ([FAR 4.902](#)).

2.8 System for Award Management (SAM)

In accordance with [FAR 4.11](#), contractors and vendors doing business with the Federal Government must register in [SAM](#), except as noted in FAR 4.1102. Contractors and vendors are responsible for keeping all SAM information current.

2.9 Electronic and Digital Signatures

Title [15 U.S.C. § 7001](#) authorizes DoD to use electronic and digital signatures. Volume 5, Chapter 1, [subparagraph 3.5.3](#) prescribes the minimum requirements for electronic and digital signatures.

2.10 Contract Payments Using the Government Purchase Card (GPC)

The [FAR 13.301](#) authorizes the use of the GPC to make payments on contracts.

2.10.1. Pursuant to [FAR 32.1110\(d\)](#), contracting officers must insert the clause at [FAR 52.232-36](#), Payment by Third Party, if payment under a written contract will be made by a charge to a government account with a third party such as a Government-wide commercial purchase card. However, pursuant to [FAR 32.1108\(b\)\(1\)](#), payment by a purchase card may also be made under a contract that does not contain the clause to the extent the contractor agrees to accept that method of payment.

2.10.2. When it is contemplated that the Government-wide commercial purchase card will be used as the method of payment, and the contract or order is above the micro-purchase threshold, contracting officers are required to verify (by reviewing the SAM) whether the contractor has any delinquent debt, subject to collection under the Treasury Offset Program (TOP), prior to order placement and contract award. In accordance with FAR 32.1108(b)(2)(ii), contracting officers must not authorize the Government-wide commercial purchase card as a method of payment during any period the SAM indicates that the contractor has delinquent debt subject to collection under the TOP.

2.10.3. The Department of Defense [Government Charge Card Guidebook](#) for Establishing and Managing Purchase, Travel, and Fuel Card Programs provides additional policy and procedures pertaining to the uses and limitations of the GPC in paying contracts.

*2.11 Payment Office Identification

2.11.1 Designating the payment office best suited to perform entitlement activities for FAR-based contracts and Other Transactions (OT) for Prototype and Production is of critical importance for both the acquisition and financial management communities. Payment offices are aligned to entitlement systems via the payment office DoD Activity Address Code (DoDAAC). Contracting and Agreements Officers determine which payment office DoDAAC goes on a contract or OT, and therefore which entitlement system performs the entitlement.

2.11.2 Each DoD entitlement system is capable of handling varying degrees of complexity. The Mechanization of Contract Administration Services (MOCAS) system is capable of handling the most complex contracting and payment situations that may arise (i.e., financing payments, withholds, foreign currencies, and complex contract types and structures.) The Component's Enterprise Resource Planning (ERP) systems are often capable of processing payments for less complex awards in a more efficient, accurate, and less-costly manner. Due to the improved accuracy and lower cost for manual intervention, the Component's ERPs should be used as the payment office except in cases where the contract's complexity requires another alternative such as MOCAS. See the joint Deputy Under Secretary of Defense for Acquisition and Sustainment and Deputy Under Secretary of Defense, Comptroller [policy memorandum](#) for more information.

3.0 SUPPORTING DOCUMENTS REQUIRED TO PROCESS PAYMENTS

As part of entitling and certifying a payment, DoD Components must ensure that appropriate payment documentation is established and retained to support payment of invoices and interest penalties. This documentation normally includes the contract/purchase order, receipt/acceptance report, and a proper invoice. Refer to [5 CFR 1315.9](#) for additional information on required documentation. Paragraph 3.3 defines the exceptions in which receiving reports are not required prior to payment.

3.1 Follow-up for Required Documents

If the entitlement and certification of contractor/vendor invoices cannot be accomplished due to the non-receipt of receiving reports, copies of contracts, contract modifications, or other required documentation, the entitlement office must follow up with the contracting or receiving office to ensure that these documents are forwarded in a timely manner. The entitlement office, contracting office, and receiving activity must address these actions timely to prevent the potential loss of economically justified discounts and to avoid the unnecessary payment of late payment interest penalties.

3.2 Contract

3.2.1. Definition. As defined by [FAR 2.101](#), a contract is a mutually-binding, legal relationship obligating the seller to furnish the supplies or services (including construction) and the buyer to pay for them. Contracts must contain the information prescribed by 5 CFR 1315.9(a) in order to support payment of contractor/vendor invoices. If the entitlement office discovers an error in a contractual document, they must notify the contracting office to request corrective action. The entitlement office may not change contract terms. Contract terms may only be changed through a formal modification to the contract. FAR 4.5 requires the use of electronic commerce in Federal acquisition whenever practicable or cost effective.

3.2.2. Contract Types. [FAR 16](#) describes the types of contracts that may be used in acquisitions.

3.2.3. Contract Clauses. [FAR 52](#) and [DFARS 252](#) contain:

3.2.3.1. Instructions for using provisions and clauses in contracts, and

3.2.3.2. Contract clauses prescribed in specific FAR and DFARS provisions.

3.2.4. Contract Award. Forms commonly used for contract award include, but are not limited to:

3.2.4.1. [Standard Form \(SF\) 26, Award/Contract](#);

3.2.4.2. [SF 33, Solicitation, Offer, and Award](#);

- 3.2.4.3. [SF 44, U.S. Government Purchase Order - Invoice - Voucher](#);
- 3.2.4.4. [SF 1449, Solicitation/Contract/Order for Commercial Items](#);
- 3.2.4.5. [DD 1155, Order for Supplies or Services](#);
- 3.2.4.6. [SF 1442, Solicitation, Offer, and Award](#) (Construction, Alteration or Repair); and
- 3.2.4.7. [Optional Form 307, Contract Award](#).

3.2.5. Contract Modifications

3.2.5.1. [FAR 43](#) and [DFARS 243.2](#) contain the policy and requirements for preparing and processing contract modifications.

3.2.5.2. [SF 30, Amendment of Solicitation/Modification of Contract](#) is a form that may be used for contract modifications.

3.2.6. Contract Distribution. [FAR 4.201](#) and [DFARS 204.201](#) prescribe distribution procedures for contracts and contract modifications that include the requirement to make distribution to the appropriate accounting and payment offices.

3.3 Receiving Report

3.3.1. Definition. As defined by FAR 2.101, a receiving report is written evidence documenting the government's acceptance of supplies delivered or services performed.

3.3.1.1. Acceptance must occur as a condition of payment in all cases except contract financing payments, interim payments on cost-reimbursement contracts for the acquisition of services, and use of the fast payment procedure as defined in Chapter 10, section 7.0. These requirements for payment processing do not negate the documentation requirements established in Volume 4, Chapter 9, section 2.2.

3.3.1.2. As stated in [DFARS 232.7002](#), contractors must submit payment requests and receiving reports in electronic form. DFARS 232.7002(b)(1) identifies the acceptable electronic submission forms, which includes the WAWF module of the PIEE (or other limited authorized electronic means as indicated in DFARS 232.7002(b)(1)(i)). The WAWF module of PIEE, Enterprise Resource Planning systems, and third-party payment systems accomplish electronic receipt and acceptance of materials or services with the use of an electronic signature.

3.3.2. Forms. If approved by the contracting officer and stated in the contract, non-electronic forms that may be used as a receiving report include, but are not limited to the following:

3.3.2.1. [DD 250, Material Inspection and Receiving Report](#). The form used for documenting receipt and acceptance of goods and services is the DD 250. The [DFARS, Appendix F, Part 3](#) contains preparation instructions for the DD 250;

3.3.2.2. [DD 1155](#). The verification of receipt by an authorized government representative constitutes a valid receiving report;

3.3.2.3. [SF 44](#). General procedural instructions governing the form's use are printed on the form and on the inside front cover of each book of forms. For additional policy, including conditions that must be satisfied in order to use the SF 44, see paragraph 7.4;

3.3.2.4. [Bill of Lading](#). In accordance with [FAR 47.302\(c\)\(2\)](#), when the government accepts title of supplies at origin, and the contract specifies transportation terms of free on board to destination (contractor bears the expense of transportation), the contractor may be paid upon acceptance of title at origin, provided the invoice is supported by a copy of a signed commercial bill of lading or other document containing the carrier's signature, indicating the goods were received by the carrier. If the contractor fails to provide this documentation, return the invoice to the contractor as an improper invoice; or

3.3.2.5. [SF 1449](#). The SF 1449 is prescribed for use in solicitations and contracts for commercial items.

3.3.3. [Follow-up for Receiving Report](#). If payment cannot be made due to non-receipt of a receiving report, the entitlement office must follow up with the contracting officer and/or receiving office to ensure the documentation is forwarded in a timely manner.

3.3.4. [Receiving Report Not Required](#). In certain situations, such as contract financing and the fast payment procedure, a receiving report may not be required prior to payment.

3.3.4.1. [Contract Financing Payments](#). As defined in [5 CFR 1315.2\(h\)](#), contract financing payments provide for an authorized disbursement of monies prior to acceptance of goods or services.

3.3.4.1.1. As defined by [FAR 32.001](#), contract financing payments include advance payments, progress payments based on cost, progress payments (other than under construction contracts) based on a percentage or stage of completion, performance-based payments, and interim payments on cost-type contracts (other than under cost-reimbursement contracts for the acquisition of services). [Title 5, CFR 1315.4\(d\) and \(e\)](#) provide for an exception, whereby interim payments under a cost-reimbursement service contract are treated like contract financing payments in that they are also excluded from requiring a receiving report and acceptance prior to payment authorization.

3.3.4.1.2. Contract financing payments do not include invoice payments, payments for partial deliveries, lease and rental payments, progress payments under construction contracts based on a percentage or stage of completion, or interim payments under cost-reimbursement service contracts.

3.3.4.2. Contracts Incorporating the Fast Payment Procedure. Use of the fast payment procedure allows payment prior to verification that supplies have been received and accepted under the limited conditions listed in [FAR 13.402](#) and [DFARS 213.402](#). Refer to Chapter 10, section 7.0 for additional fast payment procedure policy.

3.3.5. Variation in Quantity. Quantity variations in contracts may be authorized for both supply contracts and construction contracts as cited in [FAR 11.7](#). Variations result when total quantities delivered for a line item deviate from contracted quantities. The contract will cite permissible variations as a percentage of contracted quantity and may be defined as an increase, a decrease, or a combination of both (e.g., plus or minus 10% variance).

3.3.5.1. When a shipment is short of the quantity ordered, the entitlement office will pay, in compliance with the PPA (5 CFR 1315), the amount of the invoice that supports the quantity received and accepted, unless specifically prohibited by the contract.

3.3.5.2. When the receiving report or invoice indicates that the shipment is final, but there are undelivered items remaining per the contract terms, the entitlement office will pay, in compliance with the PPA (5 CFR 1315) and the variation authorized in the contract, the amount of the invoice that supports the quantity received and accepted. The entitlement office must also collaborate with the contracting officer, as needed, to advise and assist in resolving the differences.

3.4 Invoice

3.4.1. Definition. As defined by FAR 2.101, an invoice is a contractor/vendor's bill, or written request for payment under the contract, for supplies delivered or services performed. In accordance with DFARS 232.70, contractors/vendors, with few exceptions (refer to DFARS 232.7002(a)), are required to invoice electronically using the WAWF module of the PIEE.

3.4.2. Submission Requirements

3.4.2.1. When using contracting officer approved/designated electronic techniques for submission of invoices and electronically certified vouchers, it is not necessary to transfer paper documentation to the payment office for examination if the same supporting data are readily available and accessible in electronic media or through an electronic process.

3.4.2.2. The certifying officer must further ensure that the transmitted data relied upon in entitling and certifying a payment contains the necessary PPA information required by 5 CFR 1315.9 and [FAR 32.905\(b\)](#). As prescribed by Chapter 1, section 2.0, processes, controls, and routine testing must be established to ensure the completeness, accuracy, authorization, and validity of the electronic data received via system interfaces/transmission.

3.4.2.3. When contractors/vendors are permitted to invoice in a non-electronic manner, they may submit invoices on any type of form, provided all required items of a proper invoice are included on the document, unless their contract prescribes a specific form of invoicing.

3.4.3. Proper Invoice. DoD payments must be based on satisfactory contract performance and the receipt of a proper invoice, unless an invoice is not required by the contract (e.g., monthly rental payments). Title 5, CFR 1315.9(b)(1) and FAR 32.905(b) identify the items that must be included on a proper invoice.

3.4.4. Improper Invoice. If an invoice is improper, or does not meet the contract requirements prescribed by FAR 32.905(b), then the designated activity must return the invoice to the contractor/vendor and provide all details regarding invoice deficiencies.

3.4.4.1. An invoice must be returned as improper if the entitlement office has not been provided a valid TIN for any designated payee subject to the U.S. Internal Revenue Code. If the TIN is not in the SAM, Corporate Electronic Funds Transfer, or within the supporting documentation (to include the invoice or contract), then the contracting officer must provide the contractor's TIN to the appropriate payment office ([FAR 4.203\(e\)\(2\)](#)).

3.4.4.2. An electronically-transmitted payment request is treated the same as a paper payment request and must contain identical data elements as a proper, paper payment request (FAR 32.905(b)). Electronically-transmitted payment requests that are returned to the contractor will be returned in the same manner that they were received, or in a manner practical for the entitlement system. An electronic message reporting the reason for the return must accompany the returned electronically-transmitted payment request.

3.4.5. Forms. Non-electronic forms that may be used as an invoice, if approved by the contracting officer and included in the contract, include, but are not limited to:

3.4.5.1. DD 250;

3.4.5.2. SF 44;

3.4.5.3. Delivery Ticket, refer to Chapter 7, [subparagraph 2.3.2.2](#); and

3.4.5.4. SF 1449.

3.4.6. Recurrent Payments/Fixed Amounts. Payments for services of a continuing nature (e.g., rents, janitorial services), which are performed under agency-vendor contracts providing for payments of definite amounts at fixed periodic intervals, may be made without submission of invoices or bills by the vendor if allowed by the contract.

3.4.6.1. The contract must specify the payment due date. The voucher prepared by the payment office to support payments of this nature must show, at a minimum, the contract number, the period covered by the payment, the name of the vendor, the amount of the payment, and the account/appropriation to be charged. The payment voucher must be certified for payment the same as the vouchers for all other types of payments.

3.4.6.2. To comply with [TFM Volume 1, Part 4A, Chapter 2000, Section 2060](#), internal controls must be established, and periodically tested, to ensure that recurrent payments

being made are: on unexpired contracts or agreements, for correct amounts, for services actually received or leased space actually under contract, and are not duplications of previous payments made for the same goods or services.

3.4.7. Lost or Destroyed Invoices. If an original invoice has been lost or destroyed, then a duplicate must be obtained from the original submitter of the invoice to support the voucher. Mark the invoice obtained as a duplicate. A full explanation of the loss or destruction of the original invoice, and a statement that steps have been taken to prevent duplicate payments, must be placed on, or attached to, the duplicate invoice. If the information has already been input from the invoice into the entitlement system, payment can be made from the information contained in the entitlement system prior to obtaining a duplicate invoice. In those situations where a duplicate invoice cannot later be obtained from the contractor, an annotation must be made documenting that payment was made based on existing records, a hardcopy duplicate invoice could not be obtained, and the original invoice was lost or destroyed. The specific existing records relied upon must be identified and documented, and management review and approval of such payment must occur and be documented prior to the disbursement. Refer to TFM Volume 1, Part 4A, Chapter 2000, Section [2050.10](#).

3.4.8. Invoices Requiring Administrative Contracting Officer (ACO) Approval. The Defense Contract Audit Agency (DCAA) is the authorized representative of the ACO for approving interim contract payment vouchers for provisional payment, including interim vouchers for non-commercial and commercial Time and Material (T&M) and Labor Hour (LH) contracts, subject to final audit. In accordance with [DFARS 242.803](#), DCAA utilizes sampling methodologies to select interim vouchers for review prior to sending them to the payment office. Interim vouchers not selected for pre-payment review will be considered [as](#) provisionally approved and will be sent directly to the payment office. All provisionally-approved interim vouchers are subject to later audit of actual costs incurred. DCAA does not provisionally approve the contractor's final voucher on a contract. Approval of final vouchers is required to be performed by the contracting officer. Refer to [DoDD 5105.36](#) for additional information regarding DCAA's roles and responsibilities in this process. The following invoices and vouchers require ACO approval before payment:

3.4.8.1. Completion vouchers under cost-plus, fixed-fee, or other cost-reimbursement type contracts;

3.4.8.2. Vouchers and invoices for termination costs under supplemental agreements, unless the termination modification specifies the costs to be paid;

3.4.8.3. Completion vouchers under T&M and LH contracts;

3.4.8.4. Invoices for progress and performance-based payments under fixed-price type contracts;

3.4.8.5. Vouchers and invoices where the contract requires approval by the ACO before payment;

3.4.8.6. Invoices for the release of "withhold" amounts previously instituted by the ACO; and

3.4.8.7. Any payment request where a DO requires an ACO signature.

3.5 Payment Voucher

For specific policy and requirements concerning payment vouchers, refer to Volume 5, Chapter 9. TFM Volume 1, Part 4A, Chapter 2000 contains policy related to scheduling payments and required payment voucher data. Forms that may be used as a payment voucher include, but are not limited to:

3.5.1. SF 44,

3.5.2. [SF 1034](#), Public Voucher for Purchases and Services Other than Personal, and

3.5.3. DD 1155.

4.0 DOCUMENT RETENTION

4.1 Period of Retention

Original payment documentation and associated documents must be retained as government records in a format readily accessible to the entitlement office. Refer to Volume 1, Chapter 9, Figure 9-1, for specific policy and timeframes regarding record retention. Electronic record storage requires adequate controls to ensure that the digital images accurately represent the corresponding paper documentation and prevent changes to an original digital image ([FAR 4.805\(a\)](#)). The retention of documentation, both paper and electronic records, is the responsibility of the certifying officer.

4.2 Electronic Document Access (EDA)

EDA is a mandatory DoD-centralized repository of all unclassified contracts, orders, and modifications in accordance with the DFARS, Procedures, Guidance, and Information [204.201](#). The system is also used as a repository for Contract Deficiency Reports, Government Bills of Lading, vouchers, and receiving reports.

5.0 FOREIGN LANGUAGE DOCUMENTS

5.1 Documents Prepared in a Foreign Language

5.1.1. Invoices and supporting documents prepared in a foreign language must be translated before payment to ensure their contents satisfy requirements of the contractual document. Refer to [DFARS 225.1103](#) for additional policy related to contracts that may involve documentation written in a foreign language.

5.1.2. The documents must be translated in enough detail (contract number, item identification, unit of measure, price, and extension) to enable someone unfamiliar with the language to determine that receipts (material or services) satisfy the contract terms.

5.1.2.1. Documents containing technical terms that cannot be translated by entitlement office personnel should be forwarded to the ordering or requiring activity for translation.

5.1.2.2. If terms are so technical that a translation cannot be made, then a descriptive translation is adequate, provided the ordering or requiring activity certifies receipt and acceptance of the items, and provides the names and contact information, along with the signature accompanying this translation certificate if not performed electronically.

5.1.2.3. If not properly translated, return the invoice to the vendor as improper. Refer to [subparagraph 3.4.4](#) and Chapter 7, for information on improper invoice policy.

5.2 Multiple Invoices

If several invoices contain [a similar](#) format and wording, then a single translation is adequate provided like invoices support the same payment voucher, and:

5.2.1. The required certification shows that all data not translated on other identified documents are the same as that translated,

5.2.2. All non-common data on all invoices are identified and translated in enough detail to allow an audit by persons not familiar with the language, and

5.2.3. A separate translation is attached for each group of different invoices.

5.3 Translation Certificate

The translation can be entered over or under the corresponding foreign wording or in its entirety on any available space on the document. If space is not available, then the English translation may be copied on a separate sheet. The translator completes and signs the following translation certificate on each translated document found satisfactory for payment: “I certify that I am familiar with the ____ language, and that I have made a true and correct translation of the____.” (Printed Name, Signature, Date, and Contact Information). This certification, which pertains only to the translation, may be inscribed on a separate sheet and attached if space is not available on the foreign language document. A duly appointed (via a DD 577) certifying officer must ensure payment requirements are satisfied based upon the translation.

6.0 PROCESSING ALTERED DOCUMENTS

The following policy applies to pen and ink changes associated with contractual documents, requests for payment, receiving reports, and invoice documents.

6.1 Prohibited Pen and Ink Changes

6.1.1. Pen and ink changes are prohibited from being made on all contractual documentation. [FAR 43.301\(a\)](#) prescribes the use of the SF 30 to make changes to contractual documentation.

6.1.2. Entitlement office personnel are prohibited from making pen and ink changes on requests for payments, receiving reports, and invoices for the following information:

6.1.2.1. [Payee Identification](#). Payee identification includes, but is not limited to: name, address, banking information, Commercial and Government Entity code, and TIN;

6.1.2.2. [Order Numbers](#). Order numbers include, but are not limited to: contract, modification, call, task, and delivery order numbers;

6.1.2.3. [Monetary Amounts](#). Monetary amounts include any dollar value on any of the documents;

6.1.2.4. [Line of Accounting \(LOA\) Data](#). LOA data includes all information pertaining to the LOA on any of the documents;

6.1.2.5. [Names of Officials and Officers](#). Officials and officers include, but are not limited to: the certifying officer, approving official, contracting officer, and all other related information as typed or printed on the documents; and

6.1.2.6. [Dates](#). Dates include any dates impacting PPA interest or discounts.

6.2 Allowable Pen and Ink Changes

6.2.1. Entitlement offices can make pen and ink changes for administrative type errors not described in [sub](#)paragraph 6.1.2 on requests for payment, receiving reports, and invoice documents.

6.2.2. Entitlement office personnel may accept pen and ink changes on supporting documentation attached to an externally-certified payment request, certified and submitted by an appointed certifying officer. When submitting a certified payment voucher with accompanying manually altered supporting documents such as requests for payments, invoices, and other documents, a properly certified SF 1034 must be provided to the entitlement office identifying the correct total amount and fund citations.

7.0 EMERGENCIES AND CONTINGENCY OPERATIONS

7.1 Definitions

7.1.1. [Emergencies](#). The Robert T. Stafford [Disaster Relief and Emergency Assistance Act](#) defines emergencies as any occasion or instance

for which, as determined by the President, federal assistance is needed to supplement state and local efforts and capabilities to save lives and to protect property and public health and safety, or to lessen or avert the threat of a catastrophe in any part of the United States.

7.1.2. Contingency Operations. A contingency operation, as defined by FAR 2.101(b), is a military operation that either:

7.1.2.1. Is designated by the Secretary of Defense as an operation in which members of the armed forces are, or may become, involved in military actions, as evidenced by the execution of an operations plan (operations order) by a Combatant Commander; or

7.1.2.2. Results in the call or order to, or retention of, active duty of members of the uniformed services, or any other provision of law during a war or during a national emergency declared by the President or Congress. For additional information on contingency operations, refer to Volume 12, Chapter 23.

7.2 Prompt Payment Act (PPA) Exemption

Certain payments made during contingency operations, an emergency, or the release or threatened release of hazardous substances (as defined in [42 U.S.C. § 5170](#) – [42 U.S.C. § 5195c](#)) may not be subject to the requirements of [FAR 32.9](#). Refer to [DFARS 252.232-7011](#) and Chapter 7 for the policy detailing these exemptions.

7.3 Simplified Acquisition Threshold

Title [41 U.S.C. § 1903](#) provides detailed policy involving the simplified acquisition thresholds to support contingency operations and special emergency procurements. The contracting community is primarily responsible for ensuring the conditions for invoking 41 U.S.C. § 1903 are met.

7.4 Standard Form (SF) 44

The SF 44 is designed for on-the-spot, over-the-counter purchases of supplies and non-personal services while away from the purchasing office or at isolated activities. It can be used as a multipurpose 3-in-1 form to document the receipt, invoice, and voucher ([FAR 13.306](#)). The amount of the purchase must be at or below the micro-purchase threshold defined in [FAR 13.2](#), except for purchases made under unusual and compelling urgency or in support of contingency operations. The simplified acquisition threshold applies to the SF 44 for overseas transactions by contracting officers in support of contingency operations. Refer to FAR 13.306 and [DFARS 213.306](#) for the conditions that must be satisfied in order to use the SF 44.

7.5 Government-wide Purchase Card

A contracting officer supporting a contingency operation may use the Government-wide commercial purchase card to make a purchase that exceeds the micro-purchase threshold but does

not exceed the simplified acquisition threshold. Refer to [DFARS 213.301\(3\)](#) for information concerning the conditions that must be met.

7.6 Certification Guidelines

In addition to a contract, receiving report, and an invoice, certifying officers involved in supporting emergencies and contingency operations must ensure specific information is contained within the entitlement package. This is to ensure that the entitlement to payment is valid for certification and payment in those situations when the payment is exempt from the PPA. Payments subject to the PPA would fall within the requirements contained in Chapter 7. For payments made in support of an emergency or contingency operation that are not subject to the PPA requirements, Appendix 1 - Matrix for Payments in Support of Emergencies and Contingency Operations provides a matrix tool to assist in identifying the critical data elements necessary to perform a proper certification of a payment.

7.7 Written Justification

In circumstances where information identified in Appendix 1 is not present on all of the documents (i.e., contract, receiving report, and the invoice), the certifying officer may certify the payment if they can make a reasonable linkage among the documents. Additionally, the certifying officer may, in certain circumstances as explained in Appendix 1, certify a payment that does not contain a critical data element identified in the Appendix 1 matrix; however, they must justify in writing why they certified the payment.

7.8 Transportation Cost

If transportation costs are claimed, or shipment damage occurs or is expected to occur, then shipping terms should be considered as a critical element.

7.9 Control of Funds

All accounting offices that support emergencies or contingency operations must ensure that accounting and document retention requirements are in place within 30 days of declaration of the operation. Adherence to these requirements is critical to DoD financial stewardship and control of funds.

APPENDIX 1. MATRIX FOR PAYMENTS IN SUPPORT OF EMERGENCIES AND CONTINGENCY OPERATIONS

This appendix provides a matrix tool to assist certifying officers in identifying the critical data elements necessary to properly certify a payment made in support of emergencies and contingency operations. The matrix does not apply to contract financing payments since contract terms stipulate the invoicing and related documentation requirements.

When authorized, the head of the contracting activity, in consultation with the cognizant comptroller supporting their contracting activity, will make the determination of whether a contract and related payment will be subject to the prompt payment requirements of FAR 32.9 and are in accordance with the criteria outlined in [DFARS 232.901](#). This determination will be reflected in a specific payment clause in the individual contract.

- Emergencies and contingency operations payments made subject to the Prompt Payment Act (PPA) requirements must adhere to the payment documentation requirements contained in 5 CFR 1315.9.
- Emergencies and contingency operations payments that are not subject to the PPA requirements must adhere to the documentation requirements contained in the following matrix.

The data elements contained in the matrix, in addition to other requirements that may be imposed by the contract terms, or those deemed necessary by the certifying officer, are critical requirements for ensuring proper certification. While it is desirable that all elements identified in 5 CFR 1315 for a proper invoice, receiving report, and contract are available for review by the certifier and subsequent processing of the payment, they are not required if the payment is not subject to FAR 32.9.

The matrix in this appendix identifies the types of payments (e.g., construction, goods or services) that can be exempt from the PPA and the data elements that are required for each type of payment. The matrix is not intended to be all-inclusive as it is very difficult to predict all types of payments that will be made during emergencies and contingency operations. Many payments fall under the category of miscellaneous payments, and each miscellaneous payment may have different data element requirements associated with it.

The certifying officer must use professional judgment to determine if a payment request and supporting documentation is sufficient to demonstrate that the payment is legal, correct, and proper.

- Critical data element not on all documents. A critical data element may be missing from one document, but present somewhere in the payment package. While all critical, required data elements identified in the matrix for a specific type of payment must be present on the supporting documentation, these data elements do not have to be present on all the documents. In other words, if a required data element is contained on the contract (e.g., Taxpayer Identification Number (TIN)) but not the invoice, and the certifying officer can make a reasonable linkage between the two documents, then the certifying officer may certify that payment.

APPENDIX 1. MATRIX FOR PAYMENTS IN SUPPORT OF EMERGENCIES AND CONTINGENCY OPERATIONS (Continued)

- Critical data element completely omitted. When a payment package does not contain a critical data element as reflected in the matrix, the certifying officer must be confident that: (1) there is a legal obligation to pay, (2) the payee has fulfilled any prerequisites to payment, (3) the amount of the payment and identity of the payee are correct, and (4) the payment is legal under the appropriation or fund involved. For any payment package missing any required critical data element, the certifying officer must justify in writing why they certified the payment. This justification can either be on the voucher or on a separate attachment provided with the voucher.

**CRITICAL ITEMS REQUIRED FOR EMERGENCIES AND CONTINGENCY
OPERATION PAYMENTS CERTIFICATION MATRIX**

Data Element	Contracts			Leases	Purchase Card Payments
	Services (Fixed Price)	Goods	Construction		
Contract Number	X	X	X	X	X
Contractor Name	X	X	X	X	X
Contractor Address	X	X	X	X	X
Item Description	X	X	X	X	X
Item Quantity	X	X			
Item Price	X	X			
Fiscal Year and Appropriation	X	X	X	X	X
Invoice Date or Date Invoice Received by Government Official	X	X	X		X
Invoice Amount	X	X	X		X
Date of Receipt/Acceptance	X	X		X	X
Printed Name of Government Official	X	X	X	X	X
Signature of Government Official	X	X	X	X	X
Tax Identification Number (TIN)	X	X	X	X	X

CRITICAL POLICY COMPLIANCE REQUIREMENTS:

1. A contract, receiving report, and invoice are required documents. The elements identified in the matrix must be present on at least one of the documents. Refer to paragraph 7.7 for justified exceptions under emergencies and contingency operations.
2. Cash payments require the seller's signature of receipt attached to the voucher.
3. For payments for services of a recurring nature, if the contract does not require submission of an invoice for payment, then the contract must specify the payment due date.
4. An interim payment request under a cost-reimbursement contract for services constitutes a proper invoice if it correctly includes all of the information required by the contract.
5. Progress payments based on the percentage of completion must be certified by the prime contractor.
6. The TIN is required for all payees subject to the U.S. Internal Revenue Code. Payees not required to provide the TIN include: court-ordered payments, foreign companies, foreign visitors, and U.S. Government agencies. Refer to paragraph 2.7 and subparagraph 3.4.4.
7. Documentation for miscellaneous payments varies, based on the specific type of payment. Refer to Chapter 12 and the [DoD Guidebook for Miscellaneous Payments](#) for additional policy.
8. A certifying officer must justify in writing when a payment is made that is missing any required critical data element. This justification can either be made on the voucher or on a separate attachment provided with the voucher.
9. If transportation costs are claimed, or shipment damage occurs or is expected to occur, shipping terms are considered a critical element.

CHAPTER 10

PAYMENT VOUCHERS – SPECIAL APPLICATIONS

1.0 GENERAL

1.1 Overview

The DoD uses payment vouchers to document the payment of billings for services and supplies. Payment voucher processing described in this chapter relates to vouchers with unique entitlement or execution features. This chapter includes policy for executing intragovernmental payments and entitling partial payments, contract financing, advance payments, fast payments, and payments against cost-reimbursement contracts. Disbursement processing requirements are described in Volume 5, Chapter 9.

1.2 Purpose

This chapter prescribes the DoD policy for handling payment vouchers with special requirements in accordance with the laws and regulations cited herein.

1.3 Authoritative Guidance

This chapter establishes policies based on the statutory and regulatory requirements spelled out in specific sections of [Title 41, Code of Federal Regulations \(CFR\)](#), the [Treasury Financial Manual \(TFM\)](#), [Title 31, United States Code \(U.S.C.\)](#), [Title 10, U.S.C.](#), Federal Acquisition Regulation ([FAR](#)) [Part 32](#), and the Defense Federal Acquisition Regulation Supplement ([DFARS](#)) referenced throughout the chapter. Standard processing forms include the Standard Form ([SF](#)) [1080](#), Voucher for Transfers Between Appropriations and/or Funds, [SF 1081](#), Voucher and Schedule of Withdrawals and Credits, [SF 1034](#), Public Voucher for Purchases and Services Other Than Personal, and the [General Services Administration's \(GSA\) Form 789](#), Statement, Voucher and Schedule of Withdrawals and Credits.

2.0 INTRAGOVERNMENTAL PAYMENTS

2.1 Overview

Intragovernmental payments result from transactions between federal entities for sales, services, or transfers between such entities. See Volume 4, Chapter 3, [section 5.0](#) and Chapter 9, [paragraph 2.6](#) for intragovernmental accounting policy. For DoD, these transactions can be:

2.1.1. Between DoD and Non-DoD entities,

2.1.2. Between DoD Components, or

2.1.3. Within a DoD Component.

2.2 Billing Processes

2.2.1. Interfund Billings. Intragovernmental transactions between or within DoD Components for the purchase of goods will be processed through the interfund billing system when initiated and supported by the supply and accounting systems of both trading partners (also see Volume 4, Chapter 3, section 5.0 for additional policy on intragovernmental receivables). As prescribed by the Defense Logistics Management Standards (DLMS), Defense Logistics Manual ([DLM](#)) 4000.25, [Volume 4](#), Chapter 5, (C5.1.2), Interfund Billing System Procedures, the GSA, Federal Aviation Administration, and the National Oceanic and Atmospheric Administration are authorized federal agencies that may also bill DoD through the interfund billing system for goods purchased. The interfund billing system allows suppliers to reimburse themselves at the time of the billing from appropriations designated by the customer. The supplier forwards an automated billing to the billed office and reports to the U.S. Department of the Treasury (Treasury) a reimbursement of the supplier's funds with an offsetting charge to the customer's funds. Interfund bills, therefore, serve as both a billing and a notice to the customer that its funds have been charged and the bill has been paid. Only the billing office or the Central Accounts Office is authorized to adjust, or otherwise reverse, reimbursements reported to the Treasury on behalf of the billing office. See the DLM 4000.25, Volume 4 for detailed interfund billing system procedures.

* 2.2.2. Non-Interfund Billings. Intragovernmental transactions between DoD Components that are not initiated and supported by the supply and accounting systems of both trading partners, and are unable to be processed through the interfund billing system (described in [subparagraph 2.2.1](#)), are classified as non-interfund transactions. This includes intragovernmental transactions between a DoD Component and a non-DoD entity, which are not authorized for interfund billing in accordance with the DLM 4000.25, Volume 4, Chapter 5. The TFM, Volume 1, Part 2, Chapter 4700, [Appendix 8](#), section 2.6, provides policy and guidance on the use of the Intragovernmental Payment and Collection (IPAC) system by federal entities, including the DoD, to electronically bill and pay for non-interfund intragovernmental transactions. Appendix 8, section 1 of the referenced TFM also provides guidance and information related to the development, use of, and [required implementation dates of G-Invoicing as the platform for creating and managing intragovernmental transactions](#). G-Invoicing is not an accounting system nor a procurement system; instead, it serves as a gateway for federal entities to agree upon the funding terms and the accounting treatment of their reimbursable activity, and exchange that data with one another for consistent financial reporting. IPAC will continue to operate as the application for the settlement of funds between federal entities, even in a G-Invoicing environment, per the TFM. The IPAC system communicates to the Treasury and the trading partner agency that the online billing and payment for services and supplies has occurred. Refer to TFM, Volume 1, Part 2, Chapter 4700, Appendix 8 for additional information on G-Invoicing and IPAC respectively. See Volume 5, Chapter 11 for disbursing policy related to IPAC processes and Volume 4, Chapter 3 for accounting policy related to non-interfund receivables policy. [Volume 5, Chapter 11, paragraph 4.4 provides policy concerning monthly cutoff dates for IPAC processing.](#)

2.2.3. Advance Payments. Unless the DoD Component is specifically authorized by law, legislative action, or Presidential authorization, funds are not to be advanced to non-DoD federal entities, or be used to pay for advance billings without the receipt of goods or services. The constructive delivery and drop from inventory methods described in [paragraph 2.4](#) are exceptions

to this prohibition of advances prior to receipt. Volume 11A, Chapter 3 contains additional policy pertaining to advances to non-DoD entities via Economy Act Orders. Also see Volume 4, Chapter 5, and TFM Volume 1, Part 2, Chapter 4700, Appendix 8, section 2.7 for general policy concerning advance payments.

2.3 Completion of Intragovernmental Reimbursement and Transfer Vouchers

2.3.1. Vouchers. In accordance with DLM 4000.25, Volume 4, Chapter 2, C2.2.7, when an activity is unable to utilize electronic data interchange methods, the SF 1080 is an authorized voucher that may be used to entitle, execute, and support non-interfund intragovernmental payments. See Volume 5, Chapter 9 for detailed guidance regarding disbursement vouchers for non-interfund intragovernmental transactions.

2.3.1.1. SF 1080. The SF 1080 is used as support for bills to other DoD Components and non-DoD federal agencies for non-interfund, intragovernmental transactions.

2.3.1.2. SF 1081. Components may also use the SF 1081 when a manual process is required to generate interagency payments and collections between DoD and other agencies of the U.S. Federal Government. In addition, the SF 1081 is used for correcting prior expenditure or collection transactions, as well as for processing expenditure transactions not requiring payment by check.

2.3.1.3. Valuation/Cost Conditions. The following conditions may apply when using either the SF 1080 or SF 1081.

2.3.1.3.1. Surplus articles, for which payment is to be made, are listed on the voucher or supporting documents at their appraised values. Surplus articles refer to any items provided by the seller to the buyer over and above what was originally requested/agreed to.

2.3.1.3.2. Work and shop orders indicate the unit prices of articles or services furnished, or the actual value of personal services, materials, or other direct charges and overhead. When vouchers cover expenses related to the use of equipment, the following certification is placed upon the itemized statement: "I hereby certify that the amount billed herein represents cost as determined under [31 U.S.C. § 1535](#) and [31 U.S.C. § 1536](#)." In cases where the account is billed based on unit costs (e.g., per hour, day, or mile) rather than by itemization of supplies and services, such unit costs will include all expenses of operation and maintenance except depreciation. The billing method should be identified in, and determined by, the purchase agreement between the entities.

2.3.1.3.3. The services of an employee performed for another federal department or agency may be reimbursed to the providing agency if an agreement for reimbursement was made before the rendering of such services. Copies of such agreements are attached to the transfer voucher (i.e., SF 1080, 1081, or 1034) in support of the payment.

2.3.1.3.4. Articles issued from stock on hand, or stock due in, are listed on the vouchers or supporting documents. The unit prices of such items are at the standard average cost, or are computed on such basis as to ensure proper reimbursement to the agency.

Refer to Volume 4, Chapter 4, [paragraph 4.3](#) for additional details concerning valuation methodologies for inventory items.

2.3.1.4. GSA 789. The GSA 789 is an authorized payment voucher for purchases from GSA (DLM 4000.25, Volume 4, Chapter 2, C2.2.7).

2.3.2. Billing Verification. As prescribed by [Volume 5, Chapter 5, paragraph 5.1](#), Certifying Officer Legislation requirements ([31 U.S.C. § 3325](#) and [31 U.S.C. § 3528](#)) do not apply to intragovernmental payments.

2.3.2.1. The entitlement office examines intragovernmental payment vouchers and supporting documentation to verify amounts, ensure required information is present, and validate that any required certifications are present; such as that described in [2.3.1.3.2](#) for the use of equipment. The entitlement office also verifies accessorial charge rates when levied by non-DoD Government activities for issues, sales, and transfers of material, supplies, and equipment.

2.3.2.2. This verification must ensure that charges do not take into account recurring reimbursement issues (sales) and non-reimbursable transfers of material to other DoD Components, except for sales and transfers pursuant to the military assistance grant aid program and Foreign Military Sales (FMS) programs. After the review and examination for propriety, the entitlement office cites the accounting classification and verifies the voucher is ready for payment.

2.3.3. Receipt and Acceptance Documentation. Evidence of receipt and acceptance is required to support all intragovernmental and interfund transactions. The accurate and timely recording of receipts is critical to ensure financial statements are materially correct. DoD financial reporting entities must develop and implement internal controls to ensure receipt and acceptance is properly accomplished and documented to support all intragovernmental transactions. Refer to Chapter 1 for additional details concerning internal control requirements of federal agencies. Refer to Volume 4, Chapter 9 for additional details concerning receipt and acceptance requirements.

2.4 Constructive Delivery or Drop From Inventory

2.4.1. Overview. Components can place orders with another major organization within DoD, or another [Federal](#) agency, for goods or services under the Economy Act, 31 U.S.C. § 1535. Refer to Volume 11A, Chapter 3 for policy on Economy Act orders. Payments from the ordering agency are made promptly upon the written request of the agency or unit filling the order. Payment is made in advance or upon providing the goods or services ordered, for any part of the estimated or actual cost as determined by the agency or unit filling the order. A bill submitted, or a request for payment, is not subject to audit or certification in advance of payment. Adjustments of amounts paid prior to receipt of the goods or services are made in accordance with prior agreement by appropriate Component personnel on the basis of the actual cost of goods or services provided. DoD billings are based on constructive delivery or drop from inventory as follows.

2.4.1.1. Constructive Delivery. Constructive delivery is the delivery of material by the providing entity to a commercial carrier, freight forwarder, the U.S. or an international post office, or customer at the point of production, storage, or test.

2.4.1.1.1. Delivery is evidenced by completed copies of shipping documents, material shipment status of shipping documents, or a list of deliveries to a post office. Constructive delivery also applies to billings for goods accepted by an authorized inspector of another DoD Component providing direct shipment to the consignee. Such billings must be supported with a DoD [\(DD\) Form 250](#), Material Inspection and Receiving Report, or other authorized documents received from the inspector showing shipment. Under constructive delivery, bills are issued when the carrier accepts the goods for transport.

2.4.1.1.2. Payment under constructive delivery differs from the actual delivery or drop from inventory concept. Constructive delivery bills are accepted and paid without waiting for delivery of the goods to the final destination. However, Components must perform follow-up procedures to ensure the goods have been received and accepted, and obtain the documentation to support the receipt and acceptance for subsequent audit purposes.

2.4.1.2. Drop From Inventory. Drop from inventory is the reduction of the quantitative inventory balance. Billing for shipments from stock must be billed at the standard price in effect at the time the stock is dropped from inventory. Refer to Volume 11B, Chapter 15 for pricing policy of inventory items.

2.4.2. Non-interfund Billings From DoD

2.4.2.1. Overview. Following a supply activity requisition, reimbursable sales of material are billable after the material has been transferred using the drop from inventory method. Billing will occur on the basis of the drop from inventory or performance of services. Sales of bulk petroleum, oil, lubricants, and perishable subsistence, as well as FMS and military assistance grant aid shipments, are noted exceptions to this billing policy. Refer to DLM 4000.25, Volume 4, Chapter 2 for billing guidelines.

2.4.2.2. Responsibility of Supplying Activity. The supplying activity initiates a request for payment for items supplied to the DoD. Billings must, at a minimum, be supported by the following information: document order number, description of the article or services, delivery or other performance date, quantity, and price. The document order number will normally be satisfied by the requisition document number, and the description will normally be satisfied by the National Stock Number. The delivery or performance date is the same date established in the detailed billing record, as appropriate for the issue or service. The supplying activity notifies the requisitioning activity of item substitutions and price or quantity changes. To facilitate the resolution of billing or payment disputes involving bills, billing offices should also include electronic contact information on the bill. Refer to DLM 4000.25, Volume 4, Chapter 2 for further details regarding billing procedures.

2.4.2.3. Responsibility of Requisitioning Activity. The requisitioning activity records the amounts and quantities of items approved for payment at the time of receipt and acceptance of the delivered items/services. The requisitioning activity adjusts the billing for unacceptable items or for items unfilled by the supplying activity and provides reimbursement for the adjusted amount. The requisitioning and supplying activities determine subsequent disposition of the unfilled items through mutual agreement.

2.4.2.4. Billing Adjustments for Short, Damaged, or Defective Shipments Within the DoD. The requisitioning activity initiates action to obtain billing adjustments. When the DoD Component shipping the items is responsible for an adjustment, a Supply Discrepancy Report (SDR) (an electronic equivalent to the [SF 364](#), Report of Discrepancy (ROD)), is prepared by the receiving activity and submitted under DLMS procedures. The Transportation Management Office or Transportation Office initiates the [DD Form 361](#), Transportation Discrepancy Report (TDR), when the shortage or damage is attributed to the commercial carriers. For procedural instructions regarding these reports, see the Defense Transportation Regulation ([DTR](#)), [Part II, Chapter 210](#) and [DLM 4000.25, Volume 2, Chapter 17](#).

2.4.2.5. Other Billing Adjustments or Allowances. The requisitioning activity is responsible for initiating requests to the billing activity to grant adjustments or allowances that do not arise from shortages, damages, or defects in shipments. These adjustment and allowance requests are submitted via the SDR for discrepancies such as overages (to be retained by the receiving activity), unacceptable substitutes, or erroneous material received. Approved requests are applied as an adjustment or allowance to the customer account included in the billing document.

2.4.2.6. Billing and Credit for Material Diversions Using Military Standard Requisitioning and Issue Procedures (MILSTRIP)/Military Standard Transaction Reporting and Accounting Procedures. If the requisitioning activity cancels requisitions, then the requisitioning activity is credited the amount billed, including accessorial charges. Accessorial costs represent certain expenses incident to issues, sales, and transfers of materiel. Accessorial costs include costs incurred for packing, crating, and handling; transportation; and port loading and unloading (See Volume 11A, Chapter 1 for additional details on accessorial charges). Refer to DLM 4000.25, Volume 4, Chapter 2 for further details regarding MILSTRIP cancellation procedures. The alternate consignee for material diverted is billed for the standard price and accessorial charges. If the Defense Logistics Agency (DLA) places an order for direct shipment of non-stocked items and the requisitioning activity cancels the order, then the requisitioning activity is billed via the SF 1080 for contract termination costs arising from cancellation of the requisition. DLA notifies the “bill to” activity cited in the canceled requisition of impending termination costs.

2.5 Payments to Defense Working Capital Funds (DWCFs)

Payment for services rendered by DWCF activities is based on the prescribed rates, tariffs, and billing procedures. DWCF payments are made with the same policy as constructive delivery and drop from inventory payments described in section [2.4](#).

2.6 General Services Administration (GSA)

The majority of GSA billing is accomplished via the interfund process utilizing the Simplified Interagency Billing and Collection system. When the interfund process is not used, the GSA Form 789 is used for purchases from GSA.

2.6.1. Non-interfund Billings (GSA)

2.6.1.1. GSA provides selected supplies, equipment, services, space, communications, motor vehicle rental, and other miscellaneous items on a reimbursable basis. These

supplies and services are financed from revolving, management, or working capital funds, and reimbursement from the Components is obtained through periodic billings and collections. Periodic billings and collections allow GSA to operate these programs with a minimum amount of appropriated funds.

2.6.1.2. The ordering activities receive bills from GSA biweekly, monthly, or quarterly, after the fact, or in advance (e.g., rental payments) on the GSA billing forms. This will be determined in the purchase agreement between the entities. As prescribed by DLM 4000.25, Volume 4, Chapter 2, when activities are unable to use electronic methods, the SF 1080 or the GSA 789 may be used for billing. GSA is not required to certify such bills. Except for those bills that are rendered in advance, bills are sent to the Components only after there is evidence of actual delivery of material or services or after receipt of evidence of shipment (constructive delivery). GSA furnishes bills and supporting documentation containing the data necessary to permit identification of the requisition, purchase order, or other obligating documents. Components must perform follow-up procedures to ensure the goods have been received and accepted, and obtain the documentation to support the receipt and acceptance for subsequent audit purposes. GSA may process requisitions of \$1 or less without billing.

2.6.2. Adjustments. GSA adjusts bills for transportation-type discrepancies attributable to the common carrier, when the difference in shipment is caused by the shipper (GSA), or results from a lost or damaged parcel post shipment. See DLM 4000.25, Volume 4, Chapter 4 for additional policy regarding requesting or processing billing adjustments or refunds.

2.6.2.1. For lost, damaged, or defective shipments, when the discrepancy is attributable to the common carrier, the receiving activity prepares a TDR. The GSA processes these claims within the Continental United States (CONUS), since they are designated on the Government bill of lading to make payment of transportation charges to the common carrier.

2.6.2.2. When a discrepancy in shipment is either caused by the shipper (GSA) or results from a lost or damaged parcel post shipment, the receiving activity prepares the SDR. The receiving activity sends the SDR, under DLMS procedures, to the GSA National Customer Service Center (NCSC). The NCSC will accept reports of discrepancies sent by mail or via e-mail at NCSCCustomer.service@gsa.gov, or through online account access at [GSA ADVANTAGE](#).

2.6.2.3. Errors in GSA non-interfund billings, other than shipping errors, are corrected by GSA based on an electronic request for billing adjustment, if possible, or a letter or email from the billed office. The billed office sends the request for adjustment to the GSA NCSC, including a copy of the bill and explanation of the error.

2.6.2.4. GSA processes the SDR or TDR, replies to the receiving activity, and when applicable, sends an adjusted bill to the billed office. The GSA may also initiate communication advising the billed office of erroneous billings and, when applicable, submit an adjusted bill to the billed office.

2.6.2.4.1. If GSA fails to reply to an SDR or TDR, then the receiving activity is responsible for following up with the GSA NCSC. Refer to DTR, Part II, Chapter 210, and

DLM 4000.25, Volume 2, Chapter 17 for follow-up instructions. When the reply to an SDR or TDR indicates a billing adjustment will not be made, the issue may be elevated within the organization's management chain for resolution. When the reply indicates a billing adjustment will be made, the receiving activity provides a copy of the reply to the billed office.

2.6.2.4.2. If the billing adjustment that GSA stated was forthcoming is not received within 60 calendar days of the date of the reply to the SDR or TDR, the SDR/TDR submitter should consult the billed office for verification. When non-receipt of credit is confirmed, the billed office will submit a request for billing adjustment as prescribed by the Military Standard Billing System procedures contained in DLM 4000.25, Volume 4, Chapter 4.

2.6.3. Transportation. GSA pays transportation costs on stock items to all CONUS activities and to U.S. ports of embarkation for overseas shipments. These costs are included in the GSA standard stock item prices.

2.6.4. Non-interfund Payments

2.6.4.1. Payment is made for material through the IPAC system within 15 days after receipt of the GSA invoice. Bills are paid as rendered without pre-audit or receipt verification, subject only to availability of funds and adjustments for obvious significant errors in dollar amount. If items are deleted from the billing, then fully explain on the GSA billing forms. A follow-up process must be established to ensure the material paid for has been received and accepted. Documentation obtained in support of the receipt and acceptance must be retained as part of the support for the billing for future audit purposes. Documentation must be retained in accordance with the timeframes and requirements identified in Volume 1, Chapter 9 and the [General Records Schedules](#) of the National Archives and Records Administration's disposal authorization guidance.

2.6.4.2. As prescribed by DLM 4000.25, Volume 4, Chapter 2, GSA billings for material shipped overseas contain a special surcharge for packing, packaging, and preservation of material. These costs are not included in the standard unit prices of the items but are separately billed. GSA billings for these charges cite the appropriation fund code shown in the MILSTRIP requisition.

2.6.4.3. Surcharge rates apply when unique DoD marking/packing requires the shipment to be physically handled by a GSA export packing facility. Surcharge rates are computed by applying an authorized percentage of the value of the material ordered and shipped to customers overseas from GSA wholesale distribution centers and vendors. These rates are subject to change each fiscal year based on an annual review of actual costs by GSA (DLM 4000.25, Volume 4, Chapter 2).

2.6.4.4. GSA Accounting Services is responsible for GSA Motor Pool transactions incurred by the local Transportation Officer. Travel Pay sections process payments to GSA or contractors for vehicle rentals authorized by travel orders. Use the data on the documented detailed billing cards to identify the requisition, purchase order, travel order, or other obligating documents. The billing information must be compared to the obligation document; if an error is found, then follow instructions in paragraph 2.6.2. Payment is due within 30 days of the billing date (see

paragraph 2.3.3 for requirements regarding receipt and acceptance). GSA supports each transaction listed with detailed billing cards for use with either mechanized systems or for manual processing.

2.6.4.5. GSA has exclusive multiyear contracting authority for telecommunications resources. However, GSA may delegate this authority in certain instances (see [41 CFR 101-35.6](#) and [DFARS 239.7405](#)). GSA bills for federal telecommunication services are submitted monthly and paid in advance using the IPAC system, without pre-audit or receipt verification and subject only to the availability of funds (see [10 U.S.C. § 2396](#) and [40 U.S.C. § 581\(g\)](#)). These bills should be paid within 15 days after receipt of the GSA invoice. Components must perform follow-up procedures to ensure the services have been received and obtain the supporting documentation (receipt verification) for subsequent audit purposes.

2.6.5. Billing and Credit for Material Diversions Using MILSTRIP. Activities seeking credit resulting from canceled requisitions for a material diversion must provide confirmation of the amount billed, including accessorial charges. The alternate consignee for material diverted is billed for the standard price and accessorial charges. Activities canceling requisitions for material for which GSA placed an order for direct shipment of non-stocked items are billed by SF 1080 for contract termination costs arising from cancellation of the requisition. GSA will promptly provide the bill to the activity cited in the canceled requisition of impending termination costs.

2.7 Payments to the Government Printing Office (GPO), Library of Congress, and Government Corporations

2.7.1. Overview. The [DLA Document Services](#) is the single DoD focal point for GPO ordering and management of document services in accordance with [DoD Instruction 5330.03](#). An invoice is submitted to the requisitioning activity upon the furnishing of printing services or supplies. The office billed prepares and processes the SF 1080 for payment and must attach an invoice to the SF 1080. Instead of transcribing the details of the transactions, each invoice can be listed under the caption “per attached invoice” according to date, number, and other identifying data as appropriate.

2.7.2. Payments to GPO. GPO reimburses the contractor for commercial printing services acquired through that agency.

3.0 PARTIAL PAYMENTS

In accordance with [FAR 32.906\(c\)](#) and [5 CFR 1315.4\(k\)](#), unless prohibited by the contract, partial payments are authorized invoice payments for partial delivery of contractual quantities that have been accepted by the Government. Partial payments are payments made to the contractor after the work has been completed, or goods provided, and are based on items accepted on the receiving report. Per [FAR 32.102\(d\)](#), payments for accepted supplies and services that are only a part of the contract requirements (i.e., partial deliveries) are authorized by [10 U.S.C. § 3801\(a\)\(1\)](#). When appropriate, contract statements of work and pricing arrangements must permit acceptance and payment for discrete portions of the work as soon as accepted (FAR 32.906(c)).

3.1 Invoicing and Tracking

When partial payments are made on purchase orders, contracts, or delivery orders, a partial payment record is maintained by the entitlement office. A separate partial payment record is maintained for each purchase order, contract, or other obligation document requiring partial payments. Contractors will submit payment requests and receiving reports in electronic form, utilizing the Wide Area Workflow (WAWF) module within the Procurement Integrated Enterprise Environment (PIEE), as prescribed by [DFARS 232.7002](#) and [DFARS 232.7003](#), with noted limited exceptions. When payment requests and receiving reports are not submitted in electronic form, the contracting officer will consult with the payment office and the Administrative Contracting Officer (ACO) regarding the preferred method for submission.

3.2 Discounts Offered

Partial payment requests may contain discount provisions per the contract, or on the invoice, that must be considered. See Chapter 2 for discount policy.

3.3 Ordering Agreements and Blanket Delivery Orders

Payments made against blanket purchase agreements, call-type contracts, and blanket delivery orders, as defined by [FAR Part 16](#), are not considered partial payments, except when more than one payment is required on an individual call or order.

4.0 CONTRACT PAYMENT ALLOCATIONS

4.1 [Overview](#)

In accordance with [DFARS, Subpart 204.7108](#), contracting officers must follow the procedures at [DFARS 204.7108, Procedures, Guidance, and Information \(PGI\)](#), for inclusion of payment instructions in contracts. The payment instructions provide guidance to the payment office to assign payments to appropriate accounting classification reference numbers (ACRNs) based on the anticipated contract work performed (regulatory guidance for establishing ACRNs is contained in [DFARS PGI 204.7107](#)). Payment instructions are required for any contracts or separately priced orders that:

4.1.1. Include deliverable line items or subline items that are funded by multiple accounting classifications;

4.1.2. Contain cost-reimbursement or time-and-materials/labor-hour line items; or

4.1.3. Authorize financing payments.

4.2 Application

The DFARS PGI payment instructions provide for a specific allocation methodology based on the type of payment request being submitted and the type of effort being procured. The

contracting officer must insert the specific instructions, or a link to the table at DFARS PGI 204.7108(b)(2), into section G of the contract. The DFARS PGI payment instructions include an authorization for the contracting officer to utilize an alternative “Other” allocation methodology if none of the specific payment-type instructions apply. However, this methodology may only be used if:

4.2.1. It provides a significantly better reflection of how funds will be expended in support of contract performance; and

4.2.2. It is agreed to by the payment office and the contract administration office. A copy of the agreement will be kept in the contract file.

5.0 CONTRACT FINANCING PAYMENTS

5.1 Overview

A contract financing payment, as defined in [FAR 32.001](#) and [DFARS Subpart 232](#), is an authorized Government disbursement of monies to the contractor prior to acceptance of supplies or services by the Government. Contract financing payments relieve the contractor from responsibility for the total financing of a contract that extends over a long period, or is for a large amount of money. These payments must be authorized by the contracting officer within the contract terms and conditions.

5.1.1. Contract financing payments include:

5.1.1.1. Progress payments based on cost ([FAR 32.5](#) and [DFARS 232.5](#));

5.1.1.2. Progress payments based on a percentage or stage of completion ([FAR 32.102](#));

5.1.1.3. Performance-based payments ([FAR 32.10](#) and [DFARS 232.10](#));

5.1.1.4. Advance payments ([FAR 32.4](#) and [DFARS 232.4](#));

5.1.1.4.1. Commercial advance and interim payments ([FAR 32.2](#) and [DFARS 232.2](#)); and

5.1.1.4.2. Interim payments under a cost-reimbursement-type contract, except for a cost-reimbursement contract for services when Alternate I of the clause at [FAR 52.232-25](#) is used. See section 6.0 for policy pertaining to payments on cost-reimbursement-type contracts.

5.1.2. In accordance with [DFARS 232.102-70](#), the contracting officer may establish provisional delivery payments to pay contractors for the costs of supplies and services delivered to and accepted by the Government under certain contract actions.

This may take place if the contract is undefinitized, whereby the contract terms, specifications, or prices are not agreed upon before performance begins.

5.1.3. Contract financing payments do not include:

5.1.3.1. Invoice payments;

5.1.3.2. Payments for partial deliveries;

5.1.3.3. Lease and rental payments; or

5.1.3.4. Interim payments under a cost-reimbursement-type contract for services when Alternate I of the clause at FAR 52.232-25 is used.

5.2 Progress Payments

Progress payments are made to the contractor when requested, as work advances.

5.2.1. Progress Payments Based on Costs. These payments, authorized by the inclusion of [FAR clause 52.232-16](#), are made to the contractor when requested, but not more frequently than monthly and only in amounts approved by the ACO in accordance with FAR 32.5 and DFARS 232.5. Progress payment requests are processed in sequential order.

* 5.2.1.1. Per FAR clause 52.232-16, the total amount of progress payments shall not exceed 80 percent of the total contract price, as defined by [FAR 32.501-3](#). Furthermore, in accordance with [FAR 32.501-1](#) and [10 U.S.C. § 3804\(b\)](#), progress payments may not exceed 80 percent of the eligible costs of work accomplished on undefinitized contract actions (UCA), as defined by [DFARS 217.7401](#), and;

5.2.1.1.1. A contractor performing the contract for which a UCA is entered into has not already received increased progress payments on contractual actions other than UCAs; or

5.2.1.1.2. A contractor performing the contract for which a UCA is entered into, and that has received increased progress payments on contractual actions other than UCAs, can demonstrate that the contractor has promptly provided the amount of the increase to any subcontractors (at any tier), small business concerns, or suppliers of the contractor.

5.2.1.2. Each contractor request for progress payment must be prepared and submitted through the WAWF module of PIEE, as a separate progress payment document/[SF 1443](#), Contractor's Request for Progress Payment, in accordance with [DFARS 252.232-7003](#), with noted limited exceptions. The FAR and DFARS links provided herein discuss the computation, liquidation, reduction, suspension, and limitations of progress payments.

5.2.1.3. [DFARS 252.232-7004](#) provides for special liquidation rates pertaining to small businesses (90%) and small disadvantaged businesses (95%). However, the limitation/ceiling of 80% of total contract price specified by FAR clause 52.232-16 still applies.

5.2.1.4. Progress payments may have different liquidation rates. For example, a contract may have different liquidation rates for payments pertaining to the U.S. effort versus FMS. In this example, the liquidation rate could be 80 percent for the U.S. work versus 90 percent for the FMS, and two separate progress payment requests are required to be prepared and submitted by the contractor. In addition, as prescribed by [DFARS 252.232-7002](#), if more than one FMS country is involved, the contractor is required to attach a supporting schedule to the progress payment request identifying the countries and the requested distribution of the payment. Unless directed otherwise in the contract, or by the contracting officer, the contractor submits the progress payment requests, with supporting information, to the entitlement office designated in the contract when requesting a progress payment.

5.2.1.5. [FAR 32.102\(b\)](#) states that progress payments based on costs do not include:

5.2.1.5.1. Payments based on the percentage or stage of completion when the contract contains either [FAR clause 52.232-5](#) or [FAR clause 52.232-10](#);

5.2.1.5.2. Payments for partial deliveries accepted by the Government;

5.2.1.5.3. Partial payments for a contract termination proposal; or

5.2.1.5.4. Performance-based payments (FAR 32.10).

5.2.2. Progress Payments for Fixed-Price Construction Contracts. The Government may make progress payments on fixed-price construction contracts containing FAR clause 52.232-5 based on estimates of work accomplished that meet the standards of quality established under the contract. These progress payments, whether disbursed monthly or at more frequent intervals as determined by the contracting officer, should be processed by the entitlement office as partial payments as described in paragraph 3.1.

5.2.3. Progress Payments Based on a Percentage of Completion. [FAR 32.102\(e\)\(1\)](#) references the statutory authority to use progress payments based on a percentage or stage of completion. These are authorized only for contracts for construction (as defined in [FAR 36.102](#)), shipbuilding and ship conversion, alteration, or repair. However, percentage or stage of completion methods of measuring contractor performance may be used for performance-based payments in accordance with FAR 32.10. Agency procedures must ensure that payments are commensurate with work accomplished, which meets the quality standards established under the contract.

5.2.4. Progress Payment Allocations to Accounting Classifications

5.2.4.1. DFARS PGI 204.7108 identifies the methodologies for allocation (payment instructions) that contracting officers must include in contracts when financing payments are authorized. The DFARS PGI provide instruction to the payment office to assign payments to the ACRN citation(s). [Refer to Volume 4, Chapter 12, paragraph 4.4, concerning the accounting treatment of progress payments.](#)

5.2.4.2. When allocating progress payments across ACRNs, controls must be established to ensure disbursements do not exceed obligations at the ACRN level. In order to incorporate these necessary controls, progress payments, performance-based payments, and commercial item financing will ordinarily be charged to an ACRN so that the outstanding financing payment balance for each ACRN does not exceed the Unliquidated Obligation (ULO) for that ACRN multiplied by the contractual liquidation rate. This internal control ensures contracts are not over liquidated at the ACRN level, potentially causing a negative ULO condition, prior to final delivery. For ACRNs that fund both fixed-price and cost-type line items, the allocation methodology of contract financing applies only to the fixed-price portions (in accordance with FAR 32.501-3).

5.2.4.2.1. If the ACRN allocation instructions within the contract, based on the incorporation of DFARS PGI payment instructions, deviates from the allocation process described in [5.2.4.2](#), allocations in entitlement and accounting systems may be established to reflect payment instructions that direct liquidation of contract finance payments from ACRNs with a shorter remaining period of availability for expenditure. This may facilitate liquidation of obligations pursuant to [31 U.S.C. § 1553](#) prior to closure of the appropriation account by operation of [31 U.S.C. § 1552](#). If payment instructions direct liquidation of ACRN balances in excess of the ULO balance multiplied by the contractual liquidation rate, controls must be established to ensure that ACRNs with mixed-type funding (fixed and cost) are not over liquidated, and that the overall contract ceiling of 80% of contract price (FAR clause 52.232-16) is not exceeded.

5.2.4.2.2. If the contracting officer determines an alternate ACRN allocation methodology is to be used to liquidate payments for a specific contract, as described in [5.2.4.2.1](#), then the contracting officer must incorporate the DFARS PGI payment instruction of “Other” (prescribed by DFARS PGI 204.7108(d)(12)) and negotiate a written agreement to such an alternate methodology with the payment office before that alternate allocation methodology may be used. A copy of the written agreement, or the contractual modification identifying the specific payment instruction, must be maintained in the contract file and the payment office files for audit support purposes.

5.2.4.3. There are occasions when work is shifted from one contract to another for the same contractor. The shifting of work between contracts must be in compliance with DoD progress payment policy of taking offsets whenever possible. When shifts occur, it is noted that a disbursement adjustment between contracts is a bookkeeping entry and not a payment transaction. Accordingly, when work is shifted between contracts of the same contractor, a progress payment is the net amount of the transactions involved on the contracts. Any transfers of work from one contract to another contract are ordered by a modification to each affected contract.

5.2.4.4. If the progress payment is for FMS requirements, then the portion of the amount approved for payment is charged to each customer country. For the FMS customer to receive a correct billing statement, the long line fund citation must include the country code, implementing agency, country code designator, and the case line number. If each country code contains only one ACRN, then payment is made to the ACRN representing the country code, implementing agency, and case line item. If there is more than one ACRN for each country code, the amount charged to each country code is prorated to the ACRNs identified to that country code, or allocated in a manner identified by, or acceptable to, the ACO (in accordance with DFARS PGI 204.7108 and DFARS 252.232-7002). Proration is based on the ratio of the ACRN obligation to the total obligation for a particular country code.

5.2.5. Progress Payment Recoupment

Progress payments are recouped (liquidated) either by voucher deductions from amounts otherwise due the contractor on payments for fixed-price delivered and accepted items, or in extremely rare cases, by cash refunds. Recoupments must be based on the DFARS PGI payment instruction requirements contained in the contract, as described in [5.2.4.1](#). If the contract contains the FAR clause 52.232-16, progress payment financing shall be liquidated by deducting from any payment under this contract, other than advance or progress payments, the unliquidated progress payments, or 80 percent of the amount invoiced (or an alternate liquidation rate established in accordance with [FAR 32.503-9](#)), whichever is less.

5.2.5.1. Deduction From Vouchers

5.2.5.1.1. Disbursement vouchers are prepared for the gross amount of work completed by the contractor and charged to the applicable accounts, based on the contractual payment instructions. From this gross amount, the deduction for the liquidation amount will occur to recoup the prior progress payment financing.

5.2.5.1.2. The recouped amount is determined by multiplying the gross amount of the invoice by the liquidation rate stated in the contract. If this amount is greater than the outstanding progress payment balance on the contract, then the outstanding progress payment balance becomes the amount recouped.

5.2.5.1.3. The recoupment is computed and applied, utilizing the DFARS PGI payment instructions contained in the contract, against the outstanding progress payment balances of the ACRNs to which the delivery is applicable.

5.2.5.1.4. If an insufficient outstanding balance of progress payments exists on the ACRNs applicable to the delivered items, then any remaining outstanding progress payment balance on other ACRNs must be recouped, up to the liquidation rate established in the contract, which is ordinarily 80%.

5.2.5.1.4.1. If sufficient schedule information is available, then any remaining recoupment is applied against the outstanding progress payment balance of the ACRN. The recoupment is against the ACRN representing the delivery furthest into the future within the

same service as the deliverable ACRN. If sufficient liquidation is not available within the deliverable service ACRN, then liquidation from the ACRNs of other services should occur against the delivery furthest into the future.

5.2.5.1.4.2. If sufficient schedule information is not available, then the remaining liquidation is prorated against those ACRNs with an outstanding progress payment balance within the service of the deliverable first, and then from other service ACRNs when necessary. The basis for the proration is the ratio of the individual ACRN progress payment balances to the total contract progress payment balance.

5.2.5.1.5. Recoupments are not accomplished involving both U.S. and FMS funds unless both are involved with the payment of the deliverable item. If there is a deliverable payment against U.S.-funded ACRNs, then progress payments are recouped only against the U.S. ACRNs. For a deliverable payment against FMS-funded ACRNs, progress payments are recouped against only those countries involved with the FMS deliverable.

5.2.5.1.6. For invoices offering discounts on contracts with unrecouped (unliquidated) progress payments, see Chapter 2.

5.2.5.2. Cash Repayment. Cash repayments may be required by the provisions of the contract.

5.3 Performance-Based Payments

As prescribed by FAR 32.10, performance-based payments are a form of contract financing that is authorized for use by the inclusion of [FAR clause 52.232-32](#) in solicitations that may result in contracts providing for performance-based payments, and fixed-price contracts under which the Government will provide performance-based payments. Performance-based payments and progress payment financing may not be authorized on the same contract, or individual order (for indefinite delivery contracts), per [FAR 32.1003](#).

5.3.1. Payment. Performance-based payment financing differs from progress payments, which are based on costs incurred, in that they are based on objective quantifiable performance, the accomplishment of defined events, or some other quantifiable method. Two different types of performance-based payments may be included in a contract. The inclusion of [DFARS clause 252.232-7012](#) authorizes performance-based financing payments on a whole contract basis, whereas [DFARS clause 252.232-7013](#) authorizes the payments on a deliverable line-item basis. As prescribed by [FAR 32.1004\(b\)\(2\)\(ii\)](#), total performance-based payments shall not exceed 90 percent of the contract price if on a whole contract basis, or 90 percent of the delivery item price if on a delivery item basis.

5.3.2. Recoupment. Performance-based financing payment amounts shall be recouped (liquidated) by deducting a percentage, or a designated dollar amount, from the delivery payments in accordance with FAR clause 52.232-32. The contracting officer must specify the liquidation rate or designated dollar amounts in the contract. The method of liquidation must ensure complete recoupment no later than final payment. As prescribed by FAR 32.1004, the methodology for

liquidating performance-based financing payments must be stated in the contract and will be on the same basis as they were paid, whole contract basis or line item basis.

5.4 Advance Payments for Non-commercial Items

Advances are payments made to contractors in anticipation of performance on the contract. Advances are often made prior to the associated costs being accumulated and summarized in the contractor's accounting system. Contracts must include [FAR clause 52.232-12](#) authorizing these payments before payment may be made. In accordance with FAR clause 52.232-12, these payments will be made payable to the contractor marked for deposit only in the contractor's special bank account designated for this purpose. For more details, see FAR 32.4, DFARS 232.4, and Chapter 4.

5.4.1. Reconciliation and Tracking. Subsidiary records of individual advances must be maintained to support the amount recorded in the general ledger account. The subsidiary record must include the amount advanced, the date advanced, the applicable contract number, and the disposition of the advance. At least quarterly, the subsidiary record must be reconciled with the general ledger balance; see Volume 4, Chapter 3.

5.4.2. Advance Payment Pool Agreements. Advance payments may be used for financing the performance of more than one contract. This is accomplished under a single advance payment agreement called an advance payment pool agreement, under the authority of [FAR 32.408](#) and [DFARS 232.470](#).

5.4.2.1. Advance payment pool agreements are used for the financing of cost-type contracts with nonprofit educational or research institutions, for experimental or research and developmental work, when several contracts or a series of contracts require financing by advance payments. The educational institution uses the advance to pay expenses that will be reimbursed under performance of the contracts. The advance remains outstanding as long as there are contracts remaining in the pool, the need for the amount exists, and there is contract value (unliquidated value on the contract) greater than the amount of the advance.

5.4.2.2. Contracts may cite the funds of more than one agency or department when the contract is part of a pooling agreement. When more than one contract is involved in the pooling agreement, one or more of the contracts is designated as the contract for which the advance payments are applied. This is usually a large dollar value contract.

5.4.2.3. The following policies apply to DoD Components operating under advance payment pool agreements.

5.4.2.3.1. The contractor request for an advance payment must be submitted to, approved, and certified for payment by the office(s) specified in the contract. The advance payment must cite a specific appropriation associated with the advance payment pool agreement. The approved payment request is then forwarded to the payment/entitlement office cited in the contract to be paid.

5.4.2.3.2. Upon receipt of a properly approved advance payment voucher in the entitlement office, it must be reviewed for accuracy. If proper, the voucher is entitled and forwarded to the disbursing office to be paid.

5.4.2.3.2.1. The payment must cite the appropriations identified on the contracts listed on the reimbursement voucher.

5.4.2.3.2.2. A record must be maintained of all contract financing payments made by the entitlement office.

5.4.2.3.2.3. Total payments must not exceed the total amount authorized on the contract.

5.4.2.3.2.4. Payments are to be made within 5 to 10 workdays after receipt of a properly approved reimbursement voucher, but not earlier than the date specified in the pool agreement. These payments are considered a form of contract financing and are not subject to Prompt Payment Act (PPA) interest.

5.4.2.4. Controls must be established (e.g., manual or electronic ledgers) by the payment office to ensure cumulative payments, plus the amount advanced, do not exceed the ULO of all contracts awarded under the pooling agreement. This condition may result from:

5.4.2.4.1. Failure to receive obligating documents, or

5.4.2.4.2. Nearing completion of the pool contracts.

5.4.2.5. Do not make a (non-advance) contract payment when it causes the ULO to fall below the advanced amount. If this condition occurs, notify the designated DoD Component and request further instructions. The Component will advise whether obligating documents are in transit or whether the payment must be processed to liquidate the amount advanced.

5.4.3. Recoupment of Advance Payments

The methodology for recoupment of advance payments should be stated in the contract. In accordance with FAR clause 52.232-12, at any time, the contractor may repay all or any part of the funds advanced by the Government. Whenever requested in writing to do so by the administering office, the contractor must repay to the Government any part of unliquidated advance payments considered by the administering office to exceed the contractor's current requirements. If the contractor fails to repay the amount requested by the administering office, all or any part of the unliquidated advance payments may be withdrawn from the special account established for deposit of the advanced payments, by check signed by only the countersigning agent and applied to reduce the unliquidated advance payments under this contract. If the agency considers a more rapid liquidation appropriate, the contracting officer may use the clause with its Alternate III.

5.4.3.1. When the advance is recouped, or repaid by the contractor, charge the appropriate contracts in the pooling agreement and reduce the amount recorded against the designated contract as advance payments.

5.4.3.2. When a contract is terminated, the disbursing office will collect any balances due for advance payments not liquidated, as well as accrued interest if applicable (see [FAR 32.407](#)).

6.0 COST-REIMBURSEMENT-TYPE CONTRACTS

Cost-reimbursement-type contracts provide for payment of allowable costs incurred, to the extent prescribed in the contract. These contracts establish an estimate of the total cost for purposes of obligating funds, and contain a cost limitation that the contractor may not exceed (except at its own risk) without the approval of the contracting officer (See [FAR 16.3](#)). Interim payments under a cost-reimbursable-type contract are considered contract financing and are governed by the requirements of FAR, Part 32, except for cost-reimbursement contracts for services, when Alternate I of the clause at FAR 52.232-25 is used.

6.1 Recording of Payments

The general ledger posting requirements for those interim cost-reimbursement payments that are considered contract financing are contained in Volume 4, Chapter 5.

6.2 Authority to Review and Approve Vouchers

The Defense Contract Audit Agency (DCAA) has sole authority for verifying claimed costs and provisionally approving interim payment requests under cost-reimbursement, non-commercial and commercial time-and-materials, and labor-hour type contracts. This authority may include, upon request, cost verification and provisional approval for state and local government-submitted claims that fall under the provisions contained in the [Office of Management and Budget Circular A-87](#). In accordance with [DFARS 242.803](#), DCAA utilizes sampling methodologies to select interim vouchers for review prior to sending them to the payment office. Interim vouchers not selected for pre-payment review will be considered to be provisionally approved and will be sent directly to the payment office. All provisionally approved interim vouchers are subject to later audit of actual costs incurred. A Contracting Officer's Representative (COR) may not be delegated authority to approve these types of payments. The COR may review contractor billings, but is expected to coordinate with DCAA when any cost verification of data is necessary for support of their surveillance responsibilities. Therefore, DCAA provisionally approves interim payment requests subject to final audit, the ACO approves the final payment request on the contract, and the COR coordinates with DCAA if any cost verification is needed.

6.3 Invoice Submission

Contractors must submit payment requests and receiving reports in electronic form, utilizing the WAWF module of PIEE, as prescribed by DFARS 232.7002 and DFARS 232.7003, with noted limited exceptions. When payment requests and receiving reports are not required to be submitted

in electronic form, the contracting officer will consult with the payment office and the ACO regarding the preferred method for submitting payment requests.

6.4 Special Provisions for Foreign Military Sales (FMS) - Funded Contracts

Special payment techniques are required in some cases when the contract includes requirements under the FMS program for more than one country, or one or more countries and the United States. Further policy regarding FMS-funded contracts is contained in Volume 15.

7.0 FAST PAYMENT

The fast payment policies authorize payment prior to verification that supplies have been received and accepted on contracts containing [FAR clause 52.213-1](#), under the limited conditions listed in [FAR 13.402](#) and [DFARS 213.402](#). When a purchase is made using fast payment procedures, payment is made based on the supplier's submission of an invoice, which constitutes a certification that the contractor has delivered the supplies to a post office, common carrier, or point of first receipt by the Government, and that it will repair, replace, or correct non-conforming items. Contractors must submit payment requests in electronic form, utilizing the WAWF module of PIES, as prescribed by DFARS 232.7002 and DFARS 232.7003, with noted limited exceptions (see Chapter 8 for additional policy regarding electronic submission requirements).

7.1 Payment Timelines and Requirements

Payment is to be made no later than 15 days after receipt of a proper fast pay invoice. However, if the payment office does not meet the 15-day requirement for payment, PPA interest will begin to accrue in accordance with procedures applicable to invoices to which the fast payment procedure clause does not apply. See Chapter 7 for additional PPA policy and requirements.

7.1.1. Both manual and electronic invoices will be prominently marked as “FAST PAY” and processed using fast payment procedures. Invoices not prominently marked “FAST PAY” may be accepted for payment. If the contract contains FAR Clause 52.213-1, then the invoice may be paid using fast payment procedures.

7.1.2. If the fast payment procedure clause is not incorporated into the contract, the invoice will be paid in accordance with the procedures for invoices to which fast payment procedures do not apply. The contracting officer should be provided timely feedback concerning contractor performance (including deficiencies and any history of abuse) under fast payment purchases.

7.2 Controls

The entitlement office, together with the contracting officer, must ensure the following conditions are in place when using the fast payment procedures.

7.2.1. A closed loop process exists that matches payments to material receipts and resolves non-receipt or other discrepancies. This should consist of a management control/audit program by the entitlement office for the post-payment examination of payments made under fast pay.

7.2.1.1. Authorized personnel with direct knowledge of the receipt must document receipt of goods and services. This documentation, whether hardcopy or systemic, must be made available within the timeframe prescribed by a post-payment examiner when requested during audits. The audit must confirm receipt and acceptance and include matching with payment documents.

7.2.1.2. The first attempt to obtain missing receiving reports will be initiated no later than 45 days after payment is made. If the receiving report is not received within 45 days from the date of the initial follow-up, the entitlement office will contact the contracting officer to verify receipt and acceptance; or issue a contract deficiency report to the contracting officer for non-compliance with contract terms so the entitlement office and the contracting officer can start collection actions.

7.2.2. Auditable evidence of receipt and acceptance of the goods/services exists and is accessible. Audit evidence of receipt must have the date the items were delivered or when the services were rendered, the printed authorizing official's name, and authorizing signature or electronic/digital approval. Audit evidence of acceptance is the authorization that the receipt of goods/services matches the criteria identified on the originating order and acknowledges the items/services are of acceptable condition/quality.

7.2.3. An information flow exists that links consignee (the post office, common carrier, or point of first receipt by the Government) receipt and discrepancy information to both the purchasing and bill entitlement offices. The information flow documents contractor performance and provides timely feedback to contracting/bill entitlement offices.

7.2.4. A prevalidation process exists that matches expenditures and obligations for fast pay transactions (See Chapter 1 for additional information on prevalidation requirements).

CHAPTER 11

PAYMENT AS REIMBURSEMENT FOR PERSONAL EXPENDITURES

1.0 GENERAL

1.1 Purpose

This chapter prescribes policy for reimbursement to civilian personnel, military members, and others who have used personal funds to pay for Federal Government obligations. The [*DoD Guidebook for Miscellaneous Payments*](#), prepared by the Defense Finance and Accounting Service, assists DoD officials in identifying mandatory requirements prescribed for DoD miscellaneous payments. It provides a high-level overview of policies and processes, with a goal of consolidating and streamlining miscellaneous payment procedures across the Components.

1.2 Authoritative Guidance

The policies prescribed throughout this chapter pertaining to claims for personal expenditures are based primarily upon Title 5, United States Code (U.S.C.); Title 10, U.S.C.; Title 31, U.S.C.; and Title 41, U.S.C.; Title 5, Code of Federal Regulations (CFR); Title 32, CFR; [*Joint Travel Regulations \(JTR\), Chapters 2, 3, and 5*](#); DoD Instruction (DoDI) [*1000.30*](#), “Reduction of Social Security Number (SSN) Use Within DoD;” and [*DoDI 7250.13*](#), “Use of Appropriated Funds for Official Representation Purposes.”

2.0 PERSONAL EXPENDITURES

2.1 Overview

It is DoD’s policy that military and civilian personnel follow standard personnel reimbursement procedures established by their Component or activity, and avoid using personal funds to pay for Federal Government obligations. However, personnel will be reimbursed if the underlying expense was authorized, or if there was an urgent and unforeseen public necessity, and the claim is legally payable. Personnel will not use this policy to avoid the use of standard personnel reimbursement procedures established by their [Component](#) or [activity](#), or to circumvent other laws or regulations.

2.1.1. Use of electronic submissions is preferable when requesting reimbursement for personal expenditures. The electronic claim must contain all the elements of the Optional Form [*\(OF\) 1164*](#), “Claim for Reimbursement for Expenditures on Official Business,” unless the Component’s system captures the same data elements through some other system functionality that can be directly linked to the claim and supports both internal and external audit requirements.

2.1.2. In lieu of electronic submissions, the OF 1164 is the authorized form used in requesting reimbursement for personal expenditures outlined in this chapter.

2.1.3. All payments require claimants subject to the U.S. Internal Revenue Service code to provide a Tax Identification Number (TIN) in accordance with [31 U.S.C. Section 7701](#), [31 U.S.C. § 3325\(d\)](#), and [Federal Acquisition Regulation, subpart 4.9](#). For personnel, the TIN may be the claimant's SSN ([26 U.S.C. § 6109\(d\)](#)). However, an alternative identification number should be used whenever possible in accordance with DoDI 1000.30. In accordance with [DoDI 5400.11](#), "DoD Privacy and Civil Liberties Programs," Components must safeguard the privacy of all individuals and the confidentiality of all personally identifiable information (PII), and take action to ensure any PII contained in a system of records used to conduct official business will be protected so the security and confidentiality of the information is preserved.

2.1.4. All claims for reimbursement must be submitted in accordance with the DoD and Component's submission policies and procedures (electronic or manual). All claims must be signed by the claimant, appropriate approving official, and a properly appointed certifying officer prior to being paid.

2.1.5. Personnel may use electronic and digital signatures to approve and certify financial documents processed through automated information systems (Volume 5, Chapter 1, subparagraph 3.5.3).

2.1.6. Certifying officers must approve the claim prior to disbursement to ensure the information on the vouchers agrees with all supporting documentation. Certifying officers certify that the claims/vouchers are correct and proper for payment from the appropriation(s) or other funds cited on them or on supporting vouchers, and the proposed payments are legal, proper, and correct (Volume 5, Chapter 5, sections 4.0 and 5.0).

2.1.7. To ensure auditability and to validate entitlement systems' payment records, all claims for reimbursement require supporting documentation for proof of receipt, approval by a designated approving official, and certification by a properly appointed certifying officer prior to the disbursement. Volume 1, Chapter 9, Figure 9-1 prescribes DoD policy regarding the retention period for financial records in support of these payments. Refer to [44 U.S.C. § 2909](#) for authorization to retain records for a longer period than specified in disposal schedules. Supporting documentation includes, but is not limited to, receipts, tickets, and invoices.

2.2 Claim for Reimbursement for Expenditure on Official Business

2.2.1. Military Personnel and Civilian Employees. Military and civilian personnel claiming reimbursement for expenditure of personal funds without pre-approval must show there was an urgent and unforeseen public necessity. The claimant must prepare a claim for reimbursement and place the following statement on the claim, or attach to the claim: "I certify this claim is true and correct. There was an unforeseen and urgent reason to spend my funds, and I have not received credit or payments." The claimant must sign and date the claim. An official designated in the Component or activity procedures must approve the claim prior to forwarding to the certifying officer.

2.2.2. Non-Government Personnel. Claims submitted for reimbursement require signatures by the claimant, an approving official, and a properly appointed certifying officer. A

certified copy of the document requesting the person to perform services, or documentation showing personally paid items, must support the claim.

2.2.3. Supporting Documents. The documents supporting certified vouchers must show the goods or services were received and essential. Mission-related expenses incurred while in a travel status are not payable on a travel voucher and/or by using the Defense Travel System. The JTR, Chapters 2, 3, and 5, prescribes items allowable for reimbursement while in travel status for military members and DoD civilian personnel.

2.3 Civil Air Patrol Expenses

Reimbursement is authorized to members of the Civil Air Patrol for supplies, including fuel, lubricants, and other items required for vehicle and aircraft operations, through Air Force appropriations [when acting as an auxiliary of the Air Force](#). Reimbursement of expenses is also authorized to place equipment into serviceable condition, [or to](#) improve and maintain equipment (including aircraft, motor vehicles, computers, and communications equipment) owned or leased by the Civil Air Patrol. Refer to [10 U.S.C. § 9494](#).

2.4 Conference Attendance

2.4.1. Overview. [Military](#) members may attend conferences of recognized professional organizations to maintain and further their professional competency at Government expense, subject to the availability of funds, specific management approvals, and the member's work responsibilities. Conference attendance expenditures, which contribute to improved conduct, supervision, or management of the DoD Components' functions and activities, may be authorized as prescribed by Volume 9, Chapters 5, 8, and Definitions. Refer to the [DoD Conference Guidance, Version 4.0](#) for DoD policy concerning the administration and oversight of all conferences.

2.4.2. Attendance at Technical, Scientific, Professional, or Similar Organizations. The DoD requires specific approval for authorization and reimbursement of expenses associated with attending meetings for technical, scientific, professional, or similar private membership non-Federal societies or organizations (JTR, Chapter 3, [sections 0302 and 0321](#)). Documentation supporting that approval must accompany the claim for reimbursement.

2.5 Notary Public Commission Expenses

An employee required to serve as a notary public in connection with the performance of official duties is entitled to repayment of the expenses incurred in obtaining a notarial commission as authorized by [5 U.S.C. § 5945](#). Reimbursable expenses include the cost of seals, embossing devices, recording and filing fees, and surety bonds required for notaries by state laws. DoD Components will not make reimbursements for claims related to dues for notarial professional associations or other non-essential services. The claim for reimbursement of commission expenses must include a statement that the notary commission is required in the performance of official duties as designated in Component or activity procedures. The claimant's statement must be

approved by a management official prior to submission to the certifying officer. There is no statutory authority for payment of these expenses to military members.

2.6 Professional Credentials and Specialty Board Examinations

Reimbursement of expenses to obtain professional credentials may be authorized for application fees, examinations, and certifications. The authority for reimbursement of professional accreditation fees is prescribed by [5 U.S.C. § 5757](#).

2.7 Passports and Visas

Reimbursement is authorized for costs related to obtaining a visa or passport when required for official travel by DoD employees and their dependents in accordance with JTR, Chapter 2, section 0204, Table 2-24.

2.8 Personnel Held Captive

2.8.1. U.S. military personnel held captive who barter personal valuables during escape and evasion may file a claim for reimbursement. The claim submitted for reimbursement must list the value of each article and show its age and condition at the time of barter. The appropriate commander or management official must approve the claim prior to submission to the certifying officer.

2.8.2. Civilian personnel held captive who barter personal valuables during escape or evasions should consult with their Component's legal counsel in preparation of the claim. The claim must be approved by the designated Component official prior to submission to the certifying officer.

*2.9 Room and Board for Dependent Children

In limited circumstances, the cost of room and board is reimbursable to sponsors of dependent children who require room and board away from their domicile (not within commuting distance) as prescribed by [20 U.S.C. § 926\(b\)](#). Also see DoD [Directive 1342.20](#), [DoD Education Activity \(DoDEA\)](#), for more information regarding eligibility requirements for education of dependent children in overseas areas or attendance at non-DoD schools. In accordance with DoD Directive 1342.20, a dependent is defined as a minor who has not completed secondary schooling and who is the child, stepchild, adopted child, spouse, or other eligible minor of an eligible sponsor. A receipt covering the actual payment of room and board by the sponsor is required to support the claimed amount. Additionally, a signed statement is required from the school superintendent or principal that room and board charges are reasonable for the area, and there was nothing available as a less expensive alternative for providing adequate education at a school within the same comparable distance.

2.10 Travel for Dependent Children

When DoD-operated schools are unavailable overseas, the DoDEA will coordinate the placement of students in local public or private schools, or in boarding schools. In limited circumstances, reimbursement for the education travel of student family members is authorized by [5 U.S.C. § 5924\(4\)](#). The claim for reimbursement must be supported with a travel receipt.

2.11 Continuing Medical Education Program

[Title 10, U.S.C. § 1094a](#) prescribes policy for continuing medical education requirements. Individuals enrolled in approved medical correspondence courses may be reimbursed for course costs prior to course completion. Refer to [5 U.S.C. § 4109](#) and Chapter 4, paragraph 2.4 for additional guidance. The claimant must provide satisfactory proof of course completion, through appropriate Component channels, to the certifying officer in a timely manner to avoid debt collection procedures being initiated for perceived non-completion of the course.

2.12 Official Representation

The use of appropriated funds for official representation purposes is authorized as prescribed in DoDI 7250.13. The Heads of DoD Components may authorize the expenditure of Official Representation Funds by authorized individuals, or their designees, only for official purposes. The claim for reimbursement must be supported by receipts for personal expenditures and approved by the officials designated in accordance with DoDI 7250.13 prior to forwarding to the certifying officer for certification. Also see the DoD Guidebook for Miscellaneous Payments (type payment codes OREV, ORGV, OREE, and ORGE) for additional policy.

2.13 Awards Ceremony Fees

Fees paid by award nominees, award recipients, and their supervisors and managers attending ceremonies may be reimbursed by the Government when those expenditures fall within the scope of the Government Employees Incentive Awards Act ([5 U.S.C. §§ 4501-4506](#) and [10 U.S.C. § 1124](#)). Fees may cover items such as meals, refreshments, plaques, and awards. The DoD will not authorize advance payments. Individuals will request reimbursement on travel vouchers. However, to obtain reimbursement in the event travel orders are not issued, the claimant must submit a claim with applicable receipts, approved by the designated management official, to the certifying officer.

2.14 Defense Attaché Payments

Expenses are authorized and reimbursable for military attaché officers to maintain suitable official residence and may vary by location. The claimant must submit a form [DD281](#), "Voucher for Emergency or Extraordinary Expense Expenditures," to request and receive reimbursement. The Head of the DoD Component must approve claims submitted for reimbursement prior to submission to the certifying officer. Title [10 U.S.C. § 127](#) prescribes policy for emergency and extraordinary expenses.

2.15 Payment for Contract Quarters for Foreign Military Sales (FMS) Travelers

Payment for the use of contract quarters is reimbursable for personnel traveling on official orders in connection with FMS. Refer to the Defense Security Cooperation Agency, [Security Assistance Management Manual, Chapter 10, Section C10.13](#); the JTR, Chapter 2, [paragraph 020303](#); and DoD Component regulations for travel reimbursements.

2.16 Reimbursement for Use of Local Special Conveyances

The JTR, Chapter 2, [section 0206](#) prescribes allowable reimbursements for commonly incurred expenses associated with public or special conveyances used for transportation in and around duty stations. The claim for reimbursement must be supported by receipts, and approved by the Component's designated approving official, prior to submission to the certifying officer.

2.17 Official Recruiting Duty

Military members assigned to a recruiting organization, or assigned recruiting duties as either a primary or an additional duty, are authorized reimbursement for actual and necessary expenses paid from personal funds. The JTR, Chapter 2, [paragraph 020605](#) prescribes policy for reimbursement for actual and necessary costs. The claim for reimbursement must be supported by receipts, and approved by the Component's designated approving official, prior to submission to the certifying officer.

2.18 Reimbursement for Local Movement of Household Goods

When local moves of household goods of military personnel are authorized in accordance with the JTR, Chapter 5, and the moves are made at personal expense, the claimant must submit a claim for reimbursement to the designated entitlement office. The claimant must provide a copy of the order directing the move, a copy of the authorization to move household goods at personal expense, and a copy of the paid receipt to support the claim. The claimant will be reimbursed for documented receipts and expenses claimed in accordance with the JTR.

2.19 Expenses Incident to Death of Personnel

2.19.1. [Overview](#). Specific Component regulations authorize and prescribe the services and expenses for the care of deceased personnel. [Title 10, U.S.C. § 1482](#) authorizes payment for services, supplies, transportation, and other expenses incurred by the next of kin. The claimant must submit a claim for reimbursement supported by receipts for personal expenditures. The claim must be approved by the Component's designated approving official prior to submission to the certifying officer. Title 10, U.S.C. § 1482 establishes limitations regarding the amount of reimbursement. The payment of expenses incident to the recovery, care, and disposition of remains of a decedent are covered by [10 U.S.C. § 1481](#).

2.19.2. [Primary Expenses](#). A contract with a local mortuary can cover primary expenses for active duty military. Payments for primary expenses covered by the Prompt Payment Act ([5 CFR 1315](#)) are paid directly to the mortuary by the Government.

2.19.3. Secondary Expenses. Secondary expenses may be assigned to a mortuary or made as a reimbursement to the next of kin for expenses incurred. Secondary expense payments, whether assigned or not, should be expedited.

***2.20 Reimbursement for Civilian Medical and Dental Treatment Paid From Personal Funds**

2.20.1. Military Members. The cost of authorized medical and dental treatment from the private sector is ordinarily paid directly to doctors and hospitals by the Defense Health Agency (DHA) TRICARE contractor. If members pay for private sector care, they may submit a claim for reimbursement. The claim must include paid, itemized invoices from the service provider and signatures of the claimant, approving official, and certifying officer. Visit www.tricare.mil to download the proper claim form, which includes full instructions for completion.

2.20.2. Dependents of Military Members and Retired Members. The cost of authorized medical and dental treatment from the private sector is ordinarily paid directly to the doctors and hospitals by the DHA TRICARE contractor. If dependents or retirees who are enrolled in TRICARE pay for authorized private sector care, they may submit a claim for reimbursement. Visit www.tricare.mil to download the proper claim form, which includes full instructions for completion.

2.20.3. Civilian Personnel. [Title 5, CFR, Subpart 339.203](#) prescribes policy for the authorization of physical examinations to determine an employee's fitness for duty when such requirements are considered essential for performance of the duties, clearly documented in the position description, and directed by the commanding officer or supervisor. Examinations may be procured through an approved agency purchasing method or the employee can make their own arrangements including direct payment for the physical examination. Procured examinations are processed in the same manner as other contractor invoices or the employee may submit a claim for reimbursement. The employee must submit a claim for reimbursement to the appropriate official for approval prior to submission to the certifying officer. The claim must contain a chargeable line of accounting and the amount payable, supported by a paid statement from the physician or other evidence of payment. The activity requiring the physical examination must charge the request for reimbursement to their operating funds.

2.21 Reimbursement Expenses Under Government Employees Training Act

Title 5, U.S.C. § 4109 authorizes reimbursements for necessary expenses such as tuition and matriculation fees, library and laboratory services, and other services or facilities directly related to training. The claim for reimbursement must include receipts for each payment of \$25 or more, details of the expenditures such as services received and dates rendered, signatures of the claimant and approving official, and be certified by a properly appointed certifying officer prior to payment.

2.22 Reimbursement of Miscellaneous Expenses to Defense Counterintelligence and Security Agency (DCSA)

DCSA agents are authorized reimbursement for investigative costs, such as parking fees, police and court record checks, transcripts, photographs, or miscellaneous investigative fees. The DCSA Headquarters must provide the servicing entitlement office the accounting classification citation for the reimbursement. The citation of the appropriate legal, statutory, or other authority providing for the authorization of the reimbursement must appear on the claim for reimbursement. The claimant must submit a claim for reimbursement supported by receipts and approval signatures from designated DCSA management officials.

CHAPTER 12

MISCELLANEOUS PAYMENTS

1.0 GENERAL

1.1 Overview

This chapter prescribes policy for certain miscellaneous payments. The Department of Defense ([DoD](#)) [Guidebook for Miscellaneous Payments](#) (hereafter referred to as the Guidebook) provides additional mandatory requirements prescribed for DoD miscellaneous payments not specifically addressed in this chapter, due to the varied types of miscellaneous payments. The Guidebook also provides a high-level overview of policies and processes, with the goal of consolidating and streamlining miscellaneous payment guidance across the DoD.

1.2 Purpose

A miscellaneous payment occurs as a result of a claim for payment or reimbursement of a valid, non-recurring, non-contractual expense of the DoD, that is not payroll related for a military or civilian member, and when use of the Government Purchase Card is not feasible or appropriate.

1.2.1. The [Standard Form \(SF\) 1034](#), Public Voucher for Purchases and Services Other Than Personal, or an electronic equivalent, is the most common authorized form used when claiming payment or reimbursement for miscellaneous expenses. Refer to the Guidebook for specific information related to other authorized forms, depending on the type of miscellaneous expense, as well as the documentation requirements to support the request for payment. Chapter 8, and Volume 5, Chapters 5 and 9 prescribe policy addressing payment vouchers.

1.2.2. To establish auditability and to validate entitlement systems and payment records, a copy of all supporting documentation must accompany each payment request. Components must ensure the documentation is of sufficient quality to allow an independent third party, such as an outside auditor, to understand and verify the basis of the entitlement, to include the authority for the reimbursement as a liability of the DoD, as well as its value, timing, and funding source. The supporting documentation must clearly identify the parties approving and certifying the payment.

1.2.3. A designated approving official is the individual appointed by the commanding officer, director or designee, with oversight responsibility to ensure all payments or requests for reimbursement transactions are necessary and for official Government purposes only. Components may also assign fiduciary responsibility to these approving officials in accordance with Volume 5, Chapter 5. Approving officials are responsible for providing information and data to certifying officers or disbursing officials in support of the payment by attesting to the accuracy of information and data provided. Approving officials will review all claims and verify the request for payment, or request for reimbursement of miscellaneous expenses, was received in accordance with Component procedures.

1.2.4. All payment requests require supporting documentation for proof of receipt, approved by a designated approving official and certified by a properly appointed certifying officer prior to the disbursement of the payment. Refer to Volume 5, Chapter 5 for policy regarding the appointment of certifying officers via the [DoD \(DD\) Form 577](#), Appointment/Termination Record – Authorized Signature, as well as the proper distribution of the form to the appropriate disbursing office. Certifying officers are responsible for making supporting documentation available for review by authorized personnel, as stated in Volume 5, Chapter 5.

1.2.5. Components must ensure all miscellaneous claims are paid from funds current and available to the accountable activity at the time the claim accrues, unless specifically authorized and noted otherwise. All requests for payment or reimbursement of miscellaneous expenses must contain a valid line of accounting with funds obligated as specified in Volume 3, Chapter 8. Processing of the request for payment through a DoD payment system may require the configuration of unique standard document numbers.

1.2.6. All payments require payees subject to the U.S. Internal Revenue Service (IRS) code to provide a Taxpayer Identification Number in accordance with [Title 26, United States Code \(U.S.C.\), section 6109](#) (also see [31 U.S.C. § 3325\(d\)](#) and [31 U.S.C. § 7701\(c\)](#)), and Federal Acquisition Regulation ([FAR](#)) [4.902](#)). In accordance with DoD Instruction ([DoDI](#)) [5400.11](#), Components must safeguard the privacy of all individuals and the confidentiality of all personally identifiable information (PII), and take action to ensure any PII contained in a system of records used to conduct official business is protected so the security and confidentiality of the information is preserved.

1.2.7. Volume 1, Chapter 9, Figure 9-1 prescribes DoD policy regarding the retention period of financial records in support of these payments. Refer to [44 U.S.C. § 2909](#) for authorization to retain records for a longer period than specified in disposal schedules.

1.2.8. Miscellaneous payments pertaining to awards and judgments that are wage-related must be submitted and paid through the civilian payroll office to ensure proper withholding of mandatory deductions. Refer to Volume 8, Chapter 4 for mandatory payroll deductions.

1.3 Authoritative Guidance

Policy contained in this chapter pertains to various types of miscellaneous payments, and is based primarily upon Titles 5, 10, 28, 31, 41, and 44 of the U.S.C.; Titles 5, 19, 28, 29, 40, and 44 of the Code of Federal Regulations (CFR); the Treasury Financial Manual (TFM), Volume 1, parts 2 and 6; the FAR parts 5, 33, and 52; and the Defense Federal Acquisition Regulation Supplement (DFARS) subparts 205 and 241. Refer to each individual miscellaneous payment subject for the specific authoritative reference.

2.0 FEES, CLAIMS, AND AWARDS

2.1 Attorney Fees Awarded under Freedom of Information Act (FOIA)

[Title 5 U.S.C. § 552](#) requires the release of agency records requested under the authority of the statute, unless a specific exemption authorizes its withholding.

2.1.1. Under the provisions of the FOIA, a federal district court judge may award attorney fees and litigation costs to a party that substantially prevails in litigation against the Government (5 U.S.C. § 552a(4)(E)). The Openness Promotes Effectiveness in Our National Government Act of 2007 stipulates that fees assessed in FOIA litigation are not payable from the Judgment Fund, which is administered by the U.S. Department of the Treasury (Treasury), Bureau of the Fiscal Service (Fiscal Service). Such fees are payable from appropriated funds of the agency or agencies from which the plaintiff has obtained relief by judgment of the court, or substantial change in agency position (see the note concerning “Limitation on Amounts Obligated or Expended from Claims and Judgment Fund” of 5 U.S.C. § 552).

2.1.2. It is DoD funding policy that the attorney fees, and other costs assessed in the FOIA litigation, are payable from operating funds of the Military Department, Defense Agency, Field Activity, or Combatant Command responsible for administering the initial FOIA determinations or contested record searches that are the subject of the litigation. The funding organization will not necessarily be the organization named as a defendant in the litigation. Components must make payments from funds current at the time of awarding attorney fees.

2.1.3. Litigation involving record or FOIA determinations of multiple organizations may require funding responsibility allocation among such organizations. Counsel that is responsible for defending the litigation is ordinarily in a position to identify the organization that should fund a portion of the attorney fee assessments, and consultation should occur accordingly.

2.2 Attorney Fees Awarded by Court

The Department of Justice (DOJ), in most cases, is the federal agency designated to represent DoD in litigation. The Judgment Fund was established to pay court judgments and DOJ-compromise settlements of actual or imminent lawsuits against the Government ([31 U.S.C. § 1304](#)). Additionally, the DOJ, with the approval of the Fiscal Service, is able to make payments of properly awarded attorney fees. Fees awarded in discrimination cases are exceptions. See [section 3.9](#) for policy on discrimination cases. Awarding of attorney fees must be by a court of competent authority, and these fees are normally payable from the Judgment Fund. If such fees are not payable from this appropriation, the DOJ provides guidance on a case-by-case basis for payment of these fees.

2.3 Attorney Fees Awarded under the Equal Access to Justice Act

2.3.1. The Equal Access to Justice Act (EAJA), as amended by the Equal Access to Justice Reform Act of 2005 ([5 U.S.C. § 504](#)), authorizes payment of attorney fees and other expenses incurred by the prevailing party (other than the United States) in civil actions and administrative

proceedings. The party prevailing against the DoD in the adversary adjudication, or a court action, may obtain an award of attorney fees and other expenses incurred in connection with the proceeding.

2.3.1.1. In adversary adjudications, the application for the amount sought must be submitted to the DoD activity involved within 30 days of final disposition in the adversary adjudication (5 U.S.C. § 504).

2.3.1.2. In court actions, the application for an award of attorney fees and other expenses must be submitted to the court within 30 days of final judgment in the action ([28 U.S.C. § 2412\(d\)\(1\)\(B\)](#)).

2.3.1.3. In both cases, the application must be supported by an itemized statement from the attorney, agent, or expert witness stating the actual time spent and the rate at which fees and other expenses were computed.

2.3.2. Attorney fees and other expenses awarded to claimants under EAJA are payable from funds available to the DoD activity at the time of the award. Attorney fees payable under EAJA are limited to \$125 per hour (5 U.S.C. § 504), unless the adjudicating officer (deciding official), or the court in civil actions, determines a higher rate may be allowed under the law. Other expenses include those for expert witnesses and any study, analysis, engineering report, test, or project necessary for the preparation of the party's case. The amount payable is the amount approved by the adjudicating officer, or by the court in civil actions, based on documentation from the adjudicating officer or the court.

2.4 Attorney Fees Awarded under Contract Disputes

Payments made by the Fiscal Service to the contractor will not include attorney fees payable in connection with an action filed by a contractor under the Contract Disputes Act of 1978 ([41 U.S.C. §§ 7101-7109](#)). Attorney fees awarded in these cases are payable from funds current at the time the award is made and available to the activity accountable for the contract obligation ([28 U.S.C. § 2412\(d\)\(4\)](#)).

2.5 Awards Made to Bid Protesters

The [FAR subpart 33.1](#) prescribes policies and procedures for filing and processing bid protests. Protests can be submitted to the contracting agency, Comptroller General, or the U.S. Court of Federal Claims. The [FAR 33.102\(b\)\(1\)](#) stipulates the head of the agency may take any action that could have been recommended by the Comptroller General had the protest been filed with the Government Accountability Office, and award certain costs to the bid protester (FAR 33.102(b)(2)), if it is determined a solicitation for a contract, proposed award, or award of a contract did not comply with the requirements of law or regulation. These costs may include costs associated with filing and pursuing the protest, consultant and expert witness fees, bid/proposal preparation, and reasonable attorney fees. The agency must use funds available for the procurement to pay the costs awarded ([FAR 33.104\(h\)\(1\)](#)). Refer to [31 U.S.C. § 3554\(c\)\(2\)](#) for cost and fee reimbursement limitations.

2.5.1. Payment of the costs must occur within 30 days of their determination and acceptance by the contracting office. A copy of the decision, along with a statement of costs incurred, approved by the contracting officer, must be used to support the certification of payment.

2.5.2. A successful bid protester must provide a certification when submitting a claim exceeding \$100,000 in accordance with [FAR 33.207](#).

2.6 Claims under the Federal Tort Claims Act and Other Non-Contractual Claims

2.6.1. The Secretary of Defense, or designee, is authorized to pay claims against the United States for monetary damages. The Federal Tort Claims Act ([28 CFR part 14](#)) permits private parties to file a claim against the United States. Claims include damages to or loss of property, or personal injury or death, caused by the negligent or wrongful act or omission of an employee of the United States acting within the scope of his office or employment, under circumstances where the United States, if a private person, would be liable to the claimant in accordance with the law of the place where the act or omission occurred. When an award is in excess of \$25,000, or in excess of the authority delegated to the agency by the Attorney General pursuant to [28 U.S.C. § 2672](#), whichever is greater, an [SF 1145](#), Voucher for Payment Under Federal Tort Claims Act, must be accompanied by evidence that the award, compromise, or settlement has been approved by the Attorney General or his designee ([28 CFR, section 14.10](#)).

2.6.2. A list of persons designated to approve or disapprove claims cited under this regulation, or other applicable statutes, can be obtained from the local office of counsel or judge advocate office. For claims approved by the Secretary of a Military Department, or by designated approving authorities in the office of counsel or judge advocate general, the public voucher must be sent to the appropriate office for payment. Claims approved by other designees should be forwarded to the local entitlement office that supports the approving authority for payment of the public voucher.

2.6.3. Awards are payable from the DoD's appropriations. Refer to 28 CFR, section 14.10 for the required claim documentation, threshold amounts, and execution requirements of the claimant. In accordance with 28 CFR, section 14.10, when an attorney represents a claimant, the voucher for payment must designate both the claimant and his attorney as payees, and the check will be delivered to the attorney, whose address must appear on the voucher.

2.7 Claims under the Foreign Claims Act

2.7.1. The Foreign Claims Act ([10 U.S.C. § 2734](#)) authorizes the Secretaries of the Military Departments, or their designee, to appoint claims commissions to approve or disapprove claims cited under the Act. The composition of a claims commission may include one or more officers, employees, or combination of officers or employees of the armed forces. The commission may settle and pay an amount not more than \$100,000 for a claim against the United States. Title 10, U.S.C. § 2734 covers claims for damage to or loss of real property, damage to or loss of personal property, and personal injury to or death of any inhabitant of a foreign country.

2.7.2. These commissions may also approve or disapprove claims under international agreements in accordance with 10 U.S.C. § 2734b. Commanders, directors, or other designated officials of the DoD should contact the local office of counsel or their Judge Advocate General office for the regulations governing the preparation, submission, adjudication, and payment of these claims. Claims approved must be forwarded to the Component's nearest designated payment office or the nearest Defense Finance and Accounting Service (DFAS) payment office. Use the DoD Activity Address Code (DoDAAC) Customer Service tab on the DFAS.mil website to access the DFAS payment office and DoDAAC customer service information.

2.7.3. Military Service personnel should consult with their respective Judge Advocate General office to identify the requirements for the investigation and adjudication of foreign claims to ensure approved local procedures are followed for processing these claims.

2.8 Counsel Fees and Other Expenses in Foreign Courts

2.8.1. Payment of counsel fees and other service-related expenses in foreign courts may require an advance payment ([32 CFR 845](#)).

2.8.2. Requests for payment of counsel, bail, or other expenses are ordinarily made by the defendant or the accused through appropriate channels, to the officer (or designee) exercising general court-martial jurisdiction. The officer (or designee) must determine if the request meets the proper criteria and take final approval or disapproval action.

2.8.3. When appropriate, contracts or letters of commission and understanding are instruments that obligate the U.S. Government for payment of counsel fees, court costs, bail, and other expenses for obtaining copies of records, printing and filing fees, interpreter fees, witness fees, and other necessary and reasonable expenses. The payment of fines or civil damages is not an authorized expenditure (32 CFR 845.5). Payment for bail is authorized when stated in an authorizing letter or message issued by the responsible officer and citing [10 U.S.C. § 1037](#) as the authority. Members must sign an agreement to refund the U.S. Government the amount of the bail prior to posting of bail (32 CFR 845.10). In the event the defendant forfeits bail, the individual will be held liable to reimburse the DoD either in cash or by payroll deduction via a [DD Form 139](#), Pay Adjustment Authorization.

2.8.4. When the responsible officer certifies an acceptance for legal services and related expenses necessary for the representation of the defendant (32 CFR 845.8), an SF 1034, or electronic equivalent, must be prepared for the advance payment of authorized charges. Payment will be in local currency of the foreign government.

2.9 Payment to Contractor When Contracting Officer Approves Claim under the Contract Disputes Act of 1978

2.9.1. If funds for the claim are available, and the contractor does not appeal the contracting officer's decision, settlement of the claim is to be made by the responsible entitlement office from funds cited on the contract ([41 U.S.C. § 7108](#) and 31 U.S.C. § 1304).

2.9.1.1. After final agreement with the contractor, the contracting officer must modify the contract, accomplished with an [SF 30](#), Amendment of Solicitation/Modification of Contract, to obligate the funds and document support for the payment. The execution of the contract modification must take place prior to entitlement of the contractor's invoice.

2.9.1.2. Upon receipt of the contractor's invoice and the SF 30, payment can be made, including interest from the date the claim was received by the contracting officer to the date of payment. Claims involving disputes, and any interest due, are payable upon resolution in accordance with [FAR 33.208](#) and the [FAR Disputes clause 52.233-1](#).

2.9.2. If funds to pay the claim are not available, the contracting officer may refer the claim to the [Armed Services Board of Contract Appeals \(ASBCA\)](#) and request the ASBCA approve a settlement of the claim from the Judgment Fund. Reimbursement to the Judgment Fund will subsequently be required upon receipt of a bill from the Fiscal Service. This reimbursement may come from current and available funds or by obtaining additional funds (41 U.S.C. § 7108) as stated in [section 2.11](#). The policy for payment of amounts under the Contract Disputes Act by the ASBCA or the Court of Federal Claims is in [section 2.10](#).

2.10 Payment to Contractors Based on Decisions of ASBCA or Court of Federal Claims

2.10.1. Court action may result as identified in [28 U.S.C. § 2412](#) and [28 U.S.C. § 2414](#) when the DoD terminates a contract. While settlement of the contractor's termination claim falls within [section 2.9](#), a separate payment may be due the contractor when a final judgment occurs from a separate court action against the DoD. When settlements have been rendered, the transcript of the court judgment against the DoD must be forwarded by the DoD organization directly to the Fiscal Service. The DoD organization must use the methods prescribed by [TFM Volume 1, part 6, chapter 3100, section 3130](#) (except for claims settled under the Contract Disputes Act of 1978, as noted in [paragraph 2.9.2](#)).

2.10.2. The Fiscal Service administers and certifies payments from the Judgment Fund for the settlement and final judgment by the U.S. District Courts and on final judgments by the Court of Federal Claims ([TFM, Volume 1, part 6, chapter 3100](#), [28 U.S.C. § 2517](#), and 31 U.S.C. § 1304). Reimbursement of the Judgment Fund is payable from funds current at the time the award is made and available to the activity accountable for the contract obligation ([see 31 U.S.C. § 1553 \(b\)\(2\)](#)).

2.10.3. Title 41, U.S.C. § 7108 covers payment of claims filed under the Contract Disputes Act of 1978 (41 U.S.C. § 7101-7109, FAR subpart 33.2, and FAR clause 52.233-1). Judgments against the United States by the Court of Federal Claims, and monetary awards to a contractor from the ASBCA, are authorized to be paid and charged to the Judgment Fund when certain conditions are met, as established by 31 U.S.C. § 1304. Amounts owed may include interest from the date the claim was received by the contracting officer to the date of payment. Reimbursement of the Judgment Fund is payable from funds current at the time the award is made and available to the activity accountable for the contract obligation.

2.10.4. Payment of attorney fees claimed by the contractor may not be included in amounts paid from the Judgment Fund. Attorney fees awarded in these cases will be payable out of funds current at the time the award is made and available to the activity accountable for the contract obligation (28 U.S.C. § 2412(d)(4)).

2.11 Payments to Reimburse the Fiscal Service for Payments in Settlement of Contractor Claims

Upon certification by the Fiscal Service (TFM, Volume 1, part 6, chapter 3100), the amounts of contractor claims settled under the Contract Disputes Act of 1978 may be paid to the contractor by the Fiscal Service from the Judgment Fund. Amounts paid to contractors are reimbursable to the Fiscal Service from the appropriation available for the purpose of the contract or by obtaining additional funds for such purpose. If funds are not available in the proper account to cover invoices received from the Fiscal Service, the Component must request additional funds through appropriate channels. Amounts reimbursed to the Fiscal Service are not charged to the original fiscal year appropriation that funded the contract, unless the original appropriation was still current at the time of the judgment (Volume 3, Chapter 8).

2.12 Interest Awarded Contractor by the Armed Services Board of Contract Appeals

2.12.1. Interest rates are established and reported by the Secretary of the Treasury ([31 U.S.C. § 3902](#)) in January and July of each year on the [Treasury](#) website.

2.12.2. In accordance with FAR 33.208, the Government will pay interest on the amount due from the date the contracting officer receives the claim, or the date the payment is due, if that date is later.

2.12.3. If claims involve antecedent liability, interest payments are chargeable to the appropriation(s) current at the time the basic contract was executed (Volume 3, Chapter 8), or by obtaining additional appropriations for purposes of reimbursement (41 U.S.C. § 7108).

2.12.4. Claims covered by this section exclude interest penalty claims related to the Prompt Payment Act (PPA) cited in [5 CFR, part 1315](#). Pursuant to 31 U.S.C. § 3902, PPA interest must be paid from the funds available for the administration of the program for which interest was incurred, or from funds financing the operation of the Military Department or the defense agency with which the invoice or contract payment is associated. All interest payments will be charged to the fiscal year(s) in which they accrue. In a case of cancelled appropriations, the current fiscal year will be charged any interest payment (31 U.S.C. § 1553 (b)(1)).

2.13 Return of Absentees

The [DoDI 1325.02](#) provides policy to authorize payment of claims for rewards or expenses (but not both) associated with apprehending, detaining, or delivering absentees, deserters, or escaped military prisoners to military control.

2.13.1. Rewards. Receipt of any authorized communication, oral or written, from a military or federal law enforcement officer or agency requesting active cooperation in the apprehension or delivery to military control of an absentee or deserter wanted by the Military Services, will constitute the basis for a reward. Payment of a reward will not exceed the amount cited in [10 U.S.C. § 956](#) for apprehending absentees, deserters, or parole and mandatory supervised release violators.

2.13.2. Expense Reimbursements. The DoDI 1325.02 authorizes reimbursements for reasonable and actual expenses incurred in the apprehension, detention, or delivery to military control of an absentee, deserter, or parole and mandatory supervised release violators. The cost of detention expenses, furnished to military personnel placed in their custody for safekeeping at the request of military authorities, may be reimbursable to civil authorities. These expenses may be reflected in a per day or daily room and board charge the detention facility normally charges other legal jurisdictions for similar prisoner custody services.

2.13.3. Charging of Expenses. Authorized payments and cost of travel of the guards assigned to absentees or deserters are charged to the parent Military Service's military personnel appropriation (DoDI 1325.02).

2.13.4. Condition for Payment. Before a reward is payable, there must be a notification issued for the return to military control of the absentee, deserter, or escaped military prisoner. Receipt of [DD Form 553](#), Deserter/Absentee Wanted by the Armed Forces, oral or written communication from military or federal law enforcement officials, or entering the individual's name in the [National Crime Information Center](#), constitutes notification.

2.13.5. Voucher Preparation and Support. After the apprehended member's release from civilian detention to military control, an SF 1034, or an electronic equivalent, must be prepared and certified by the personnel officer or other certifying officer designated by the commanding officer of the activity. In addition to the other routinely required data items on an SF 1034, the following information must also be shown on the voucher or attached:

2.13.5.1. The member's name, Social Security Number, organization from which the member is absent, and the date and place military authorities resumed control;

2.13.5.2. A statement stipulating the payee apprehended and detained, or apprehended and delivered the member;

2.13.5.3. The military appropriation of the parent military service of the person apprehended;

2.13.5.4. A copy of a DD Form 553, a certificate from the organization of the absentee, or written notification from military or federal law enforcement officials stating the absentee's return to military control was desirable; and

2.13.5.5. An itemized statement of allowable expenses if reimbursement of actual expenses is being claimed.

2.13.6. Payment. Upon receipt of the SF 1034 or electronic equivalent, the entitlement office will review the voucher for its propriety and, if proper, approve the voucher for disbursement by the designated disbursing official.

2.14 Cash Awards to Military Members

2.14.1. Military personnel may receive cash awards for suggestions, inventions, and scientific achievements as authorized by Military Service regulations.

2.14.2. Upon approval of the award, the Executive Secretary of the Suggestion Awards Committee, or designee, must prepare, sign, and submit a claim on an SF 1034, an electronic equivalent, or other Component-established form (plus a copy of the Suggestion Award Certificate) to the entitlement office.

2.14.3. The award payment will be payable against current funds available to the activity primarily benefiting, or the several funds or appropriations of the various activities benefiting ([10 U.S.C. § 1124\(e\)](#)). Refer to paragraph 1.2.8 for requirements pertaining to submission, payment, and mandatory payroll deductions. The claim for payment requires submission on an SF 1034, or electronic equivalent, and must provide the Home of Record of the military member for state tax reporting. The only exception to the requirement for withholding taxes on cash awards is when payment is made to an enlisted member serving in a combat zone. See Combat Zone Tax Exclusions discussed in [Publication #3 \(2020\), Armed Forces Tax Guide](#).

2.15 Rewards for Recovery of Lost DoD Property

Under [10 U.S.C. § 2252](#), certain rewards are authorized and paid as follows:

2.15.1. Commanders may offer rewards for recovery of lost property; and

2.15.2. The reward payment may be made to persons or organizations for the return of lost property, or information leading to its recovery.

2.15.2.1. Conditions for payment of reward include:

2.15.2.1.1. The persons or organizations must know a reward is being offered, or it is a general practice to offer rewards for the return of particular DoD property, or information leading to its recovery;

2.15.2.1.2. The claimant is not a member of the U.S. Armed Forces or an officer, employee, or agency of the U.S. Government; and

2.15.2.1.3. The payment is consistent with local laws, prevailing customs or practices, treaties, or international agreements.

2.15.2.2. A Military Department will not pay a reward of more than \$500 in any case. Rewards are payable from the current funds available for the Component concerned. The

voucher submitted for payment must be supported with a copy of the offer of reward, and a statement by the commanding officer or designated representative that all conditions for payment of reward and accountability for the property have been met.

3.0 PURCHASES OF SPECIAL ITEMS AND SERVICES

This section provides policy for various special items and services for non-recurring and non-contractual purchases.

3.1 Advertising

3.1.1. Newspapers. In accordance with [44 U.S.C. § 3702](#) and [FAR 5.502](#), contracting officers must obtain written authorization from the DoD Component head, or from a person who has received written delegation of authority from the head of a DoD Component, prior to advertising in newspapers, trade journals, and similar publications ([5 U.S.C. § 302\(b\)](#)). Such delegation of authority cannot be re-delegated. Newspaper advertisements are not payable unless the claim includes the advertising bill and a copy of the written authority. Requirements for payment and retention of documents are as follows:

3.1.1.1. Providing Substantiating Documentation. All invoices submitted to the purchasing office must be supported by an affidavit of publication or a copy of the publication or advertisement (known as a "tear sheet"). The officer placing the advertisement will attach evidence of authority to advertise to the invoice and forward the invoice to the designated entitlement office.

3.1.1.1.1. Except in cases of blanket authority to advertise, heads of contracting activities are delegated authority to approve the publication of paid advertisements in newspapers as prescribed by [DFARS subpart 205.5](#).

3.1.1.1.2. If advertising was authorized by a delegated officer, a copy of the delegation must be attached to the first voucher paid under such delegation and can be referenced on subsequent vouchers.

3.1.1.1.3. When the authority to advertise is given to several activities in the form of a notice or instruction issued by the head of a DoD Component based on the official's delegated authority, a reference to the authorizing notice or instruction on the advertisement order is acceptable in lieu of a copy of the authority.

3.1.1.2. Retention of Supporting Documents. Every account for official advertising rendered must include a copy of a tear sheet in which the advertisement appeared as a proof of publication. If tear sheets are not available, an affidavit or a copy of the advertised publication may be furnished in lieu thereof. The affidavit must include the signature of an official of the publishing firm or advertising agency where the order was placed and, in the case of advertising in newspapers or periodicals, must identify the issues in which the advertisement appears. Tear sheets or affidavits submitted as proof of publications must be attached to the

voucher. Volume 1, Chapter 9, Figure 9-1 prescribes policy for the retention period of vouchers and documentation.

3.1.2. Radio Advertising. The requirement of written authority for advertising from the head of a DoD Component, or from a person who has received written delegation of authority, does not apply to radio advertising (FAR 5.502(b)) unless required per Component policy. The other restrictive provisions contained in 44 U.S.C. § 3702 pertaining to advertising do not relate to radio advertising. There are no statutory restrictions upon the use of appropriated funds for radio advertising in the promotion of objectives. Payment for claims must be submitted on an SF 1034, or other approved Component form, accompanied by a copy of the invoice and an affidavit of publication furnished by the advertising agency ([FAR 5.503\(d\)](#)).

3.2 Arbitrator Fees

The use of arbitrator services under negotiated grievance procedures of management and labor union agreements is authorized. These services normally are acquired by issuance of a [DD Form 1155](#), Order for Supplies or Services, which specifies payment terms and conditions, and requires coordination between the civilian personnel office and the contracting support office. Reservation and obligation of funds is a requirement prior to executing the ordering/contracting action. Upon completion of the services, the civilian personnel office, or a designated official, must certify receipt of services. This certification will represent the receiving report required for payment. Payment will then be made using this certification, the arbitrators' billing statement, and the terms specified in the completed DD Form 1155. These payments are governed by the terms cited in the PPA (5 CFR, part 1315), unless the DD Form 1155 contains a specific payment due date.

3.3 Automobiles

The use of appropriated funds to buy or lease passenger motor vehicles must be specifically authorized by an annual appropriation act or other law (see [31 U.S.C. § 1343](#)). The purchase cost limitation identified in 31 U.S.C. § 1343 does not include articles used with a car but not permanently attached to it, or not an integral part thereof (e.g., tire chains, fire extinguishers, safety flares, removable seat covers, transportation of the vehicle, and taxes). The acquisition of motor vehicles should be from the most cost-effective source, which may be by purchase or commercial lease through the General Services Administration (GSA), or by any other method less costly to the Government as validated by a cost-comparison ([DoD Manual 4500.36](#)).

3.4 Blood Purchases

Appropriated funds may be used for the purchase of blood supplies from donors ([24 U.S.C. § 30](#)) or through civilian contracts ([DoDI 6480.04](#)) in accordance with the policies of the respective Military Services for persons entitled to medical treatment at Government expense.

3.5 Civilian Uniform Allowances

The Component's designated personnel must prepare and certify payment of civilian uniform allowances on an SF 1034 or electronic equivalent. The [DoDI 1400.25, Volume 591](#), prescribes the amount payable for uniform allowances per year and other related uniform allowance policies. The voucher for payment may include more than one employee. The payment must be charged to the same appropriation and subsidiary accounting data normally charged for the salary of the personnel concerned. See the Guidebook for additional information and policy.

3.6 Confinement of Prisoners in Civil Detention

3.6.1. Prisoners may be confined in civilian facilities used by the U.S. Marshals Service when DoD confinement facilities are not available, or do not provide for the separation of male and female prisoners in accordance with [DoDI 1325.07](#). The transferring commanders must determine if a military confinement facility, including military/security police detention cells, is not reasonably available. If a facility used or approved by the U.S. Marshals Service is not reasonably available, a military prisoner may be transferred to a facility accredited by the American Correctional Association, or a facility accredited by the State for confinement.

3.6.2. The Provost Marshal's Office, which transfers prisoners, must provide the entitlement office with a certified voucher and supporting documents containing an itemized list of expenses of the confinement (10 U.S.C. § 956). After entitlement, the disbursing office will remit payment to the civil confinement facility. Supplies necessary for personal hygiene and maintenance of good health will be provided to all military prisoners. The Military Services may also provide supplies for a prisoner's comfort, establish monetary or quantity limitations on any supplies, and establish other limitations as deemed appropriate by Service corrections headquarters. Supplies issued to persons in a non-pay status will be paid from appropriated funds. The cost of health and comfort supplies provided to persons in a pay status will be charged against their pay accounts or paid from their personal funds.

3.7 Copies of Official Records or Documents

Fees required by local laws for certified copies or photocopies of public records, or documents required by a court or board, may be paid to the performing officials or legal entities. Current operation and maintenance funds may be used to purchase death certificates for deceased retired personnel. The claimant must sign a statement attesting all resources have been exhausted attempting to find beneficiaries, and none were found.

3.8 Demurrage on Cylinders

3.8.1. Vouchers covering demurrage charges on reusable gas cylinders or drums retained beyond the contracted free loan period must state size, type and quantity. Often, demurrage charges are not funded through the contract due to variables such as a free loan period, the daily rental charge, and delivery shipping point. In computing the period involved, establish the free loan period to commence on the first day after date of delivery of each container without regard to any

particular cylinder. In such cases, the contractor's claim must explain the method of calculating demurrage.

3.8.2. The contractor's claim must cover the preceding demurrage payment and other identifying data such as the cylinder number(s), date of delivery of cylinder(s), date rental starts, date of return of cylinder(s), and the actual number of days and rate per day on which the charges were computed. The Component causing the delay must attach an SF 1034 or an electronic equivalent to support the contractor's claim by identifying the voucher upon which payment was originally made for the filled containers, and citing an appropriate line of accounting. Coordination with the contracting officer or ordering official may be necessary to ensure demurrage costs are not already covered as part of the price(s) negotiated for the cylinder(s) and/or their contents.

3.9 Discrimination Complaints

3.9.1. Overview. Costs incurred in processing discrimination complaints may include travel expenses, attorney fees, investigation expenses, costs of administrative judges, and court reporters ([5 CFR, part 1201](#) and [29 CFR, part 1614](#)).

3.9.2. Attorney Fees. In cases involving complaints of discrimination, attorney fees may be awarded pursuant to a no-fault settlement agreement, an informal adjustment, the decision of the Service director of Equal Employment Office (EEO), the Equal Employment Opportunity Commission (EEOC), the Merit Systems Protection Board, an arbitrator, a Federal court, or other appropriate authority. After review and approval of the award letter by the legal counsel, the EEO manager of the legal office must initiate or authorize the claim for reimbursement. The Component's request for reimbursement of these fees must be as a joint payment to the complainant and complainant's representative supported by an award letter and approval. The claim must cite current operating funds. Policy pertaining to allowable and reasonable attorney fees is in 29 CFR, part 1614.

3.9.3. Investigation Expenses. Most complaint investigations are conducted by an investigator assigned to the appellate review agency. The EEO manager is responsible for arranging for the investigator's visit and submitting a claim for expenses. The chief EEO counselor will initiate a purchase request for expenditures of miscellaneous purchases. An SF 1034, electronic alternative, or a DD Form 1155 supported by the investigator's expense receipts, approved by the chief EEO manager, and certified by an authorized certifying officer, will be used to make payment. The claim must cite operating funds current at the time of investigative services.

3.9.4. EEO Administrative Judge. The EEOC assigns an EEO Administrative Judge to hold hearings on formal complaints of discrimination and otherwise process individual and class complaints for the EEOC. Expenses associated with these complaints where the alleged discrimination took place must be funded using operating funds current at the time of requesting the services. The EEOC will bill the activity for any authorized and required expenses (29 CFR, part 1614). The chief EEO manager at the activity, or assigned designee, must review and approve the EEOC billing.

3.9.5. Court Reporter. The chief office of counsel typically arranges for the services of a court reporter by submitting a request to the DoD Component contracting office. Costs for court reporter services must be paid by the activity where the alleged discrimination took place, using funds current at the time services are requested. The chief EEO manager at the activity, or assigned designee, must review and approve the requests for payment.

3.9.6. Interest. Interest payments related to discrimination cases (when permitted by statute) are to be charged to funds current at the time of the award. The Treasury establishes the rate to be used. This interest rate is not the same as when computing interest under PPA.

3.10 Emergency Notification Service (9-1-1)

3.10.1. Emergency notification is a service allowing a telephone subscriber to dial one number, often 9-1-1, for any emergency. A central control desk takes the call and notifies the appropriate local government agencies. This service often is provided by a state or local government and is funded by charges collected from telephone subscribers. In many cases, this charge is a tax levied by the providing agency, and the telephone company merely acts as a billing and collection agent.

3.10.2. If 9-1-1 fees are imposed by the telephone company for its own service, and duly permitted by the tariff to which all utility customers are subject, the charge is proper and payable by the DoD. The DoD does not have immunity from such fees. If, however, a state or local government is imposing the charge and merely using the telephone company as its agent, then the charge amounts to a tax from which the DoD is exempt.

3.10.3. If a military installation receives an invoice for a 9-1-1 charge imposed by a state or local government, the tax is not payable. If fees were improperly paid, refer to the collection policy in Volume 16, Chapter 5 to recover them.

3.10.4. If it is unclear whether such charges are taxes or service charges, the designated entitlement office, or responsible certifying officer, must contact the base communications officer or higher authority. This clarification must be included as part of the entitlement and certification documentation used to support the payment request.

3.10.5. Telephone service provided to on-base residents is a private contract between the resident and the local telephone company. If residents receive charges for 9-1-1 services, they may not claim exemption based on immunity. If a resident of the base housing lives in an area where all fire, police, and other emergency services are provided by the base, the charge may be for services the resident does not receive, and a challenge may be possible. Regardless of the basis a resident of base housing uses to challenge a 9-1-1 charge, it remains a private matter between the subscriber and the telephone company and is not a DoD reimbursable expense.

3.11 Hospital Accreditation

Hospital accreditation fees associated with the requirements contained in the DoD Manual 6025.13, Enclosure 3 for medical facilities accredited by the Joint Commission

on Healthcare Organization may be reimbursable. A deposit may be required to be paid for an initial customer and, therefore, may be reimbursable. Accreditation and certification on-site fees are invoiced 1 to 5 days following the survey event completion and would be reimbursable for those requiring accreditation. Accreditation annual fees may also be payable and are subject to the programs, services, volumes, and sites where service is provided.

3.12 Lost or Damaged Clothing Payments to Military Personnel

If the loss was not caused by any fault or negligence of the Service member, reimbursement is authorized to compensate military personnel for clothing items destroyed, damaged, lost, abandoned, captured, or otherwise rendered unusable, incident to military training or service ([DoDI 1338.18](#)). Personnel must submit an approved Service-specific Personal Clothing Claim form, or electronic equivalent. The Service member's activity billing office must prepare an SF 1034 or electronic equivalent for payment to the member.

3.13 Medical Services Provided by Civilian Non-Federal Sources

3.13.1. Members. The military medical treatment facility (MTF) can refer members to civilian health care providers for diagnostic services, treatment, or both. Upon receipt of an itemized invoice from the civilian health care provider, the claimant must submit a request for reimbursement to their designated Component. The Component must prepare an SF 1034, or electronic equivalent, within 30 days from the later of receipt of an invoice or the date of acceptance of the care. The same standards apply to an approved claim for services rendered in connection with care of a deceased member.

3.13.2. Dependents and Retired Personnel. Dependents and retired personnel are authorized certain medical care and diagnostic services as established by [10 U.S.C. §§ 1071-1085](#). When a MTF is managing the care of dependent and retired personnel, and must refer those personnel to civilian facilities for the care beyond the MTF's capability, payment for related supplemental care is authorized. The claimant must submit an itemized invoice from the health care provider to their designated billing Component. The Component must prepare an SF 1034, or electronic equivalent, within 30 days from the later of receipt of an invoice or the date of acceptance of the care.

3.14 Security and Firefighting Services

The DoD may not make payments for any service required to be provided by the local government when such service is financed from revenues raised by state or local taxation from which the Federal Government is exempt. Common examples are police and fire protection ([10 U.S.C. § 2465\(a\)](#)). Refer to 10 U.S.C. § 2465(b) for exceptions of authorized payments.

3.15 Municipal Services

In accordance with [DFARS subpart 241.1](#) and [DFARS subpart 241.2](#), the DoD may pay on the same basis as private users of services, based on the quantity of direct services received,

e.g., water and sewage. The general rule is the DoD will not pay for municipal services, unless private citizens and businesses also pay a charge for the same services.

3.16 Patents, Copyrights, and Designs

Appropriated funds available for making or procuring supplies may be used to acquire the following, if the acquisition relates to supplies or processes produced, or used by or for, or useful to the DoD ([10 U.S.C. § 3793](#)):

3.16.1. Copyrights, patents, and applications for patents;

3.16.2. Licenses under copyrights, patents, and applications for patents;

3.16.3. Design and process data, technical data, and computer software; and

3.16.4. Releases for past infringement of patents or copyrights or for unauthorized use of technical data or computer software (10 U.S.C. § 3793).

3.17 Pollution Control Permits or Fees

In the absence of express Presidential exemption, DoD facilities must abide by state or local laws for abatement and control of pollution. These facilities may incur costs related to compliance with these laws for obtaining permits and paying the associated fees for the management of natural resources. Submit an SF 1034, or electronic equivalent, to pay these expenses. The request for payment must include supporting documentation identifying the permit application fee and other related fees, approved by the base civil engineer or assigned designee.

3.18 Reciprocal Mutual Aid Agreements for Fire Protection

3.18.1. Claims for reciprocal mutual aid agreements for fire protection, as required by [44 CFR, part 151](#), are submitted to the Administrator, U.S. Fire Administration, Federal Emergency Management Agency (FEMA), Washington DC 20472, by non-DoD firefighting organizations. If approved, such claims are paid by the Treasury, subject to reimbursement by the DoD installation under whose jurisdiction the fire occurred.

3.18.2. If the claims affect current funding for fire protection, then FEMA will contact the installation as a part of its claim processing and adjudication procedures. The DoD installation must provide information requested, in coordination with the civil engineer, fire protection unit, and staff judge advocate. The DoD installation must provide the complete name and address of the disbursing office, including the Disbursing Station Symbol Number, and an appropriation fund cite for fire protection funding so the Treasury can bill for reimbursement for approved claims paid.

3.18.3. All sums received as reimbursements for costs incurred by any DoD activity for fire protection will be credited to the same appropriation or fund from which the expenses for fire

protection were paid. If the period of availability for obligation of that appropriation has expired, credit the fund or appropriation currently available for the same purpose ([42 U.S.C. § 1856d\(b\)](#)).

3.19 Representation and Contingencies Fund Use

3.19.1. [Overview](#). The policy in this paragraph applies to disbursements made against funds separately appropriated in the contingencies program. These include representation, special expenses, and contingencies. For each fiscal year, the Congress appropriates funds in the contingencies program under the statutory authority in [10 U.S.C. § 127](#) for use by the head of each DoD Component. Funding documents provide authority to obligate and expend contingency funds as approved, or as adjusted later during the fiscal year.

3.19.2. [Representation Funds](#). The head of a DoD Component must authorize the expenditure of Official Representation Funds by commanders for official entertainment or other official purposes in accordance with 10 U.S.C. § 127 and [DoDI 7250.13](#).

3.19.3. [Emergency and Extraordinary Expenses \(10 U.S.C. § 127\)](#). The language in the Appropriation Act for contingencies usually reads: “For emergencies and extraordinary expenses, to be expended on the approval of the Secretary of the cognizant Military Service, and payments may be made on their certificate of necessity for confidential military purposes.” The following policies apply, depending on the type of payment involved.

3.19.3.1. [Miscellaneous Current Expenses](#). Claims for these expenses must be submitted using an SF 1034 or electronic equivalent with attached receipts or other supporting documentation, depending on security protocols.

3.19.3.2. [Intelligence Contingency Funds](#). Expenses incurred using these funds are for confidential military purposes and are normally made based on a [DD Form 281](#), Voucher for Emergency or Extraordinary Expense Expenditures ([file has limited permissions](#)). The original vouchers (i.e., DD Form 281), must be returned to the originator. Refer to Volume 5, Chapter 9 for additional information on vouchers related to contingency funds.

3.19.3.3. [Investigation Expenses](#). Requests for reimbursement of expenses for other than confidential military purposes must be submitted on an SF 1034 or electronic equivalent. The originating office will retain a copy of the voucher and ensure the supporting documents are submitted to the entitlement office. Request for classified investigation expenses for confidential military purposes must be submitted on a DD Form 281. Refer to Volume 5, Chapter 9 for additional information on the handling of classified vouchers and documentation.

3.20 Special Drinking Water

In situations where water supply systems providing service to DoD organizations do not meet the standards prescribed in [40 CFR, part 141, subpart C](#), special drinking water may be purchased with appropriated funds only when it is necessary from the Government's standpoint. The claim for reimbursement requires a statement attesting the drinking water is non-potable, along with a public announcement or a copy of the water testing results. Some examples are:

3.20.1. The public water is unsafe for human consumption;

3.20.2. There is an emergency failure of the water source on the installation;

3.20.3. There is a temporary facility with no drinking water available within a reasonable distance; or

3.20.4. There is no water fit for drinking purposes available without cost or at a lower cost to the Government.

3.21 Support of Armed Forces Personnel in Confinement

3.21.1. Purchase of health and comfort items for personnel confined on-base is authorized to all military prisoners, subject to the provisions of DoDI 1325.07. Reimbursement for the purchase of these items must be claimed using an SF 1034 or electronic equivalent. Supplies issued to persons in a non-pay status will be paid from appropriated funds. The cost of health and comfort supplies provided to persons in a pay status will be charged against their pay accounts or paid from their personal funds.

3.21.2. A prisoner confined without essential clothing will be provided suitable clothing, on a temporary loan basis, by the Military Confinement Facility commander. Permanent issue items, except for distinctive prisoner clothing, will be subject to personal funds withdrawal if the prisoner is in a pay status. All necessary items of clothing for a prisoner confined in a non-pay status will be provided at Government expense.

3.22 Telephone and Television Service

3.22.1. Statutory Provisions

3.22.1.1. Appropriated funds should normally not be used to pay for telephone service to private residences, except in those instances identified in [31 U.S.C. § 1348](#) and [DoDI 1100.21](#). Long distance calls from private residences for official business may be paid from appropriated funds when supported by properly certified vouchers.

3.22.1.2. Charges for official telephone service, and charges for metered services, for a period beginning in one fiscal year and ending in another fiscal year may be paid from the appropriation current at the end of the period covered by the service ([31 U.S.C. § 1308](#)). This rule also applies to leased wire and teletypewriter services.

3.22.1.3. Telephone services provided for Service clubs, motion picture service, military Exchange store activities, and officers' and non-commissioned officers' messes within the United States are subject to federal communications taxes ([26 U.S.C. § 4251](#) and [26 U.S.C. § 4252](#)).

3.22.2. Increased Rates. The contract for telephone service may provide for payment of telephone charges at legally established rates. Under such contracts, rate increases approved by

rate-setting authorities may be paid. Increased rates billed in advance of pending approval by rate-setting authorities may be payable, but will be subject to adjustment if the increase does not receive approval.

3.22.3. Payment Policy.

3.22.3.1. The office designated to receive the telephone bills from the telephone company must coordinate the preparation and certification of the SF 1034, or an electronic equivalent, for payment. Local Component procedures must be in place to confirm the number and active statuses of the phone lines/numbers billed, and ensure the related costs reflect charges for official or other authorized use.

3.22.3.2. The SF 1034 must be forwarded to the designated payment office, together with the telephone company's summary billing statement, which includes totals for the monthly plan and long distance charges. The detailed listings, and schedules supporting the telephone company's bill, must be retained by the responsible office and not be attached to the payment voucher, unless required by local procedures. Components must follow established local ethical conduct and related personnel policies and procedures in addressing the reimbursement of costs associated with unauthorized use. Any funds collected must be handled in accordance with the Component's appropriation and fund deposit rules and regulations.

3.22.4. Teletypewriter Service. If telephone companies provide teletypewriter services, the charges, based on time used, will be processed in the same manner as the telephone charges identified in this section.

3.22.5. Satellite Communications Service. Government communication systems and equipment are only for official use and authorized purposes. The use of Navy communication systems and equipment for other than official use is at the commanding officers' discretion, as long as the Navy does not incur additional cost or the use does not degrade mission readiness ([Operations Navy Instruction \(OPNAVINST\) 2060.8B](#)). The communications officer must collect for unauthorized or unofficial charges on a DD Form 1131, Cash Collection Voucher, from personnel using the ships' communication service in an unauthorized manner. The communications officer must immediately turn over the amounts collected to the disbursing office. When the telephone company bills the ship for the service, payment must be made to the telephone company by the designated payment office using an SF 1034 to substantiate the payment.

3.22.6. Reimbursement for Telephone Wiring Maintenance. Charges paid by the tenant for telephone wiring maintenance necessary in base housing may be reimbursable in accordance with 31 U.S.C. § 1348. Charges for internal wiring repair in family housing will be reimbursable from maintenance funds and charges for unaccompanied personnel housing from current base funds.

3.22.7. Telephone and Television Reconnection Charges

3.22.7.1. Payment using appropriated funds is authorized for reconnection expenses where a move is the result of Government action over which the member has no control,

and the move is directed at Government expense. Exclude expenses incurred during permanent change of station (PCS) that may be reimbursable under the PCS orders or other related regulations.

3.22.7.1.1. Payment is authorized for the following moves as directed by the base commander:

3.22.7.1.1.1. Mandatory assignment to Government-owned housing facilities,

3.22.7.1.1.2. Involuntary relocation to Government or non-Government facilities because of base renovation or condemnation proceedings, or

3.22.7.1.1.3. The termination of assigned quarters because of death of qualifying dependents.

3.22.7.1.2. Members are not authorized reimbursement for moves involving:

3.22.7.1.2.1. Voluntary termination of assigned quarters,

3.22.7.1.2.2. The termination of assigned quarters due to demotion to ineligible grade or adverse conduct by a member,

3.22.7.1.2.3. The termination of assigned quarters due to family separation (no hardship involved), or

3.22.7.1.2.4. Member's voluntary movement from off base to on-base quarters.

3.22.7.2. Reimbursement of the member's claim or a direct payment to the contractor is chargeable against the appropriation covered by the service.

3.22.7.2.1. Reimbursement to Member. A Service member may pay for reconnection charges when billed and then file a claim for reimbursement. The member must submit the invoice, letter, or special order directing the move, and a letter request to the billeting officer for bachelor quarters or to the base civil engineer for military family housing for approval and certification.

3.22.7.2.2. Direct Payment Method. A Service member may submit the same documentation through the billeting officer or base civil engineer to the entitlement office for a direct payment to the contractor. These payments are not subject to the PPA. The payment voucher must contain the statement, "Payment is being made for the following individual(s) for reconnection services on the following dates." Activity controls and procedures must be designed to ensure a duplicate reimbursement is not paid to the Service member at a subsequent time.

3.22.7.3. Support the reimbursement or direct payment to the contractor with the following:

3.22.7.3.1. The special order or letter directing the move;

3.22.7.3.2. The letter from the member requesting reimbursement for reconnection charges already paid or a direct payment to the contractor for charges not yet paid. The member must certify the amount invoiced includes only those charges incurred in restoring telephone or television services previously provided at their old location and does not include charges for any new services or equipment; and

3.22.7.3.3. A copy of the telephone or television company invoice certified by the chief of services or base civil engineer showing only reconnection charges. All other charges are the responsibility of the member and must be paid separately.

3.23 Tuition and Training

3.23.1. Authorized Reimbursements. Tuition and training reimbursements to employees are miscellaneous payments. [Title 5 U.S.C. § 4109](#) provides the authority to reimburse employees for necessary training expenses (e.g., tuition and matriculation fees; library and laboratory services; purchase or rental of books, materials, and supplies; and other services or facilities directly related to employee training). Refer to the [DoDI 1322.25](#) for additional tuition and training guidance.

3.23.2. Military Personnel. Tuition assistance for military personnel must be paid directly to the academic institution in accordance with the contract terms with that institution. Reimbursement to the member for other related reimbursable expenses requires a properly certified [SF 182](#), Authorization, Agreement and Certification of Training, or other Component-approved form. Component procedures must ensure specified annual and per course hour reimbursements do not exceed allowable limits and prevent duplication of payments.

3.23.3. Civilian Employee Training. A miscellaneous payment request is required for direct reimbursements to employees for necessary training expenses, such as books and supplies. Employees submitting requests for these reimbursements must use an SF 182 or other Component-approved form. Refer to [DoDI 1400.25, Volume 410](#) for additional policies and procedures regarding training education, and professional development activities for civilian employees.

3.23.3.1. The training must be a regularly scheduled, off-the-shelf course, training conference, or instructional service available to the public and priced the same for everyone in the same category (i.e., price per student, course, program, service, or training space). To minimize the need for reimbursing the employee, the preference is to pay the training provider directly.

3.23.3.2. Prohibitions against the payment of tuition or other expenses for training include overtime, holiday, and night differential pay, or membership fees as outlined in the DoDI 1400.25, Volume 410 and 5 U.S.C. § 4109.

3.23.3.3. The [Joint Travel Regulations, chapter 3, part B](#) contains travel and transportation policy involving attendance at training.

3.23.4. Advance Payment. Advance payment of tuition and other expenses is authorized (5 U.S.C. § 4109 and [31 U.S.C. § 3324](#)) either when the training facility renders, or refuses to render, a billing. The SF 182 will identify the training facility by name and address, the amount payable to the facility for the advance of tuition, as well as the amount payable to the trainee for purchase of books, library, and laboratory services. The SF 182 must be submitted to the entitlement office to support payment of the advance as a miscellaneous payment.

3.23.5. Liquidation of Advance. Within five workdays after completion of the training, the trainee will prepare an SF 182 itemizing the training expenses, attach receipts when obtainable, and submit the original agency finance copy of the SF 182 endorsing the advance payment information. The disbursing office will liquidate the advance payment in the same manner as prescribed for travel advances.

3.24 Tuition Refunds

3.24.1. When the DoD Education Activity (DoDEA) determines refunds are payable to sponsors of tuition-paying students attending DoD operated schools, refunds will normally be a prorated amount of tuition when enrollment is terminated prior to the end of the grading period ([DoDEA Administrative Instruction 7200.01](#)). A refund of advance tuition payment is only authorized based on a full grading period. A grading period is considered to be any one of the four periods established by the school, and covered by student report cards.

3.24.2. The school administrator must ensure deposit funds are available and prepare an SF 1034, which must include the name of the student, date of enrollment termination, and the amount authorized for refund.

3.24.3. The entitlement office will pay the voucher after reviewing it for propriety and ensuring related funds are available in deposit fund accounts.

3.25 Payment for Contract Quarters for Foreign Military Sales (FMS) Travelers

Contract quarters are reimbursable to the contractor for personnel traveling on official orders in connection with FMS. The Security Assistance Management Manual ([DoD 5105.38M, Chapter 10](#); Volume 15, Chapter 8; and other appropriate DoD Component regulations prescribe the travel policy under which this payment would occur. The claimant must prepare an Optional Form ([OF 1164](#), Claim for Reimbursement for Expenditures on Official Business, SF 1034, or other Component-approved form, or electronic equivalent, and submit it along with a copy of the official orders to obtain reimbursement.

4.0 PROFESSIONAL LIABILITY INSURANCE (PLI)

4.1 Civilian Employees

Certain civilian employees (law enforcement officer, supervisor, management official, or temporary fire line manager) may be eligible for PLI reimbursement up to one-half of the insurance premium costs incurred annually, not to exceed \$150 per year (see [5 U.S.C., chapter 59, subchapter IV](#) and [DoDI 1400.25, Volume 885](#)).

4.2 Conditions for Payments of PLI

An employee must submit an insurance policy and proof of payment to their servicing Human Resource Office/Civilian Personnel Office (HRO/CPO). The employee also must submit a completed OF 1164, SF 1034, or other Component-approved form, or electronic equivalent, certified by the HRO/CPO approving official and an invoice from the insurance carrier. The insurance carrier invoice must include the issuing company's name, the policy number, and proof of payment. If it is not evident to the paying office that the carrier's invoice, or the policy itself, is a qualified professional liability policy, the invoice will be returned to the employee, requesting they provide evidence the sole purpose of the policy presented for reimbursement is to provide liability insurance. The reimbursement is not reportable as taxable income and not subject to IRS Form W-2, Wage and Tax Statement, reporting.

5.0 GOVERNMENT CHARGE CARDS CENTRALLY BILLED ACCOUNTS (CBAs)

5.1 Government Charge Cards CBAs

This section provides financial management policy for CBA billings (hereafter referred to as "invoices" for the purposes of this policy). The GSA's Government-wide [SmartPay3 contract](#) and applicable DoD-tailored task orders authorize the use of CBA programs for the DoD. The Government Travel Charge Card program has two types of travel cards: the Individual Billed Account (IBA) and the CBA. The financial management policy associated with IBAs is contained in Chapter 23. CBA transportation accounts are issued to DoD activities and are restricted to the purchase of air, rail, and bus tickets only for travelers who are not eligible for an IBA. Mission requirements of the unit determine credit limits on CBAs. There are two types of CBAs:

5.1.1. A transportation account is a cardless account issued to a Government transportation office for use in purchasing transportation, to include airline, bus, and rail tickets.

5.1.2. A unit travel card may be issued to an individual or unit for group travel only when it is cost-effective and in the interest of the mission. Unit cards are designed to accommodate groups of travelers such as new recruits, prisoners, and foreign nationals participating in an official DoD-sponsored program or activity.

5.2 Policy

5.2.1. The [Office of Management and Budget Circular A-123 Appendix B](#), A Risk Management Framework for Government Charge Card Programs, provides policy for Federal Government charge card programs.

5.2.2. The [DoD Government Charge Card Guidebook](#) for Establishing and Managing Purchase, Travel, and Fuel Card Programs is a consolidated guide that provides policies, unique business rules and procedures for DoD charge card programs.

5.2.3. Government centrally billed travel card policies are prescribed by [DoDI 5154.31, Volume 4](#), Commercial Travel Management: DoD Government Travel Charge Card (GTCC) Program. Payment provisions are available in DoD Component regulations and Standard Operating Procedures.

5.3 CBA Billing Statements

CBA contractors will furnish a monthly invoice or statement of account, showing charges made during the billing cycle. The invoice must contain the elements specified in Chapter 8. The date of receipt of the invoice in the Billing Office starts the PPA clock.

5.4 Roles and Responsibilities

Officials must work together to ensure accuracy, propriety and legality over centrally billed accounts and related payments. Volume 5, Chapter 5 provides roles and responsibilities of accountable officials for CBA programs. The certifying officer ensures that only certified payment packages are forwarded for payment.

5.5 Documentation

Accountable officials must ensure maintenance of documentation, at all levels, to support the integrity of the Government CBA programs and facilitate the reconciliation and payment of CBA transactions. Accountable officials must establish clear audit trails for CBA transactions by maintaining documentation to support each purchase such as travel orders/authorizations; requisitions, including cross references to any related Blanket Purchase Agreements; telephone and mail order logs; receipt records; and credit slips (DoDI 5154.31, Volume 4, Commercial Travel Management: DoD Government Travel Charge Card (GTCC) Program). Certifying officers must review the payment packages to ensure the information agrees with all supporting documentation before certification and submission to the entitlement office for payment. Volume 5, Chapter 15 prescribes responsibility for certifying officers to make records and supporting documents accessible to authorized users.

5.6 Disputed Transactions

Government CBA owners must dispute, or report as fraud, questionable transactions with the issuing bank in accordance with the timetable and provisions contained in the contract with the

issuing bank and local procedures. Approving officials must notify the entitlement office by annotating the invoice or the invoice package to show reductions for disputed charges and must maintain records to track disputed transactions to full resolution.

5.7 Designated Entitlement Office

The designated entitlement office personnel rely on the certifying officer to ensure the validity, legality, and accuracy of certified invoice packages. The designated entitlement office must ensure all certified invoice payment packages undergo prevalidation to ensure the availability of funding. They must also ensure a DD Form 577 is on file to verify all manually and electronically certified payment packages.

5.8 Records Retention

Approving officials in the billing offices submitting CBA Billing Statements must ensure proper audit trails exist, and documentation is available to support all charges and CBA payments. The retention of documentation, both paper and electronic records, is the responsibility of the certifying officer. Refer to Volume 1, Chapter 9, Figure 9-1 for statutory retention requirements.

6.0 PAYMENTS UNDER REAL PROPERTY LEASES

6.1 [Overview](#)

Leases are subject to the statutory and regulatory provisions applicable to DoD contracts, as well as the specific statutory provisions pertinent to leases themselves. A lease is a contract, which conveys the use of land or buildings for a specified time at a specified rate of compensation. Leases describe the premises, the specific period involved, purpose for which used, the amount of rent, method of payment, special or operational services included (such as heat, light, water, and janitorial services), and any restoration provisions. If the lessor fails to provide the services called for in the lease, then the lessee (DoD) may pay the cost and deduct the amount from the lease rental payments.

6.2 Rent

6.2.1. Fractional Parts of a Month. The calculation to determine payment for part of a month for leased premises must include the actual number of days involved. In computing the time between two dates, the general rule is to exclude the first and include the last date, except when the lease is for a specified term and begins on the date of occupancy.

6.2.2. Monthly Installment Payments of Annual Rent. A lease generally begins on the first of the month. For leases that begin on a date other than the first, the monthly rent installments become due and payable on the date of each month numerically corresponding to the date the term began, less one day. The amount of each installment should be one-twelfth of the annual rate, regardless of the number of days in any calendar month.

6.2.3. Recurring Rental Charges. Processing payment for these charges occurs without requiring individual invoices from the vendor. At the end of each rental period, the using activity or

the designated payment office must prepare an SF 1034 or an electronic equivalent. The claim must identify the lease, confirm the use or availability of the property during the rental period, include all relevant documentation supporting the payment, and be processed in accordance with the provisions of the lease. Refer to the Guidebook for preparation instructions of an SF 1034. Lease or rental payment transactions between intra-Governmental entities must be processed using the Intra-Governmental Payment and Collection (IPAC) System or the G-Invoicing process, as prescribed by the TFM, Volume 1, Part 2, Chapter 4700, [Appendix 5, Section 3](#), and [Appendix 8](#).

6.2.4. Reporting Rental Payments Made to Civilian Landlords. At the end of each calendar year, report yearly rental payments of \$600 or more to the IRS. Do not report payments to real estate agents. See the [DFAS Tax Office](#) website and Chapter 6 for additional information and policy concerning 1099 reporting.

6.3 Party Entitled to Rental Payment

6.3.1. If DoD occupies land under a lease, the rental payment cannot be avoided because of any defect in the title of the lessor at the time of entering into a lease agreement.

6.3.2. If DoD occupies land owned by several tenants-in-common under an agreement with one of them, and without objection by the others, such tenant-in-common is entitled to receive the rent.

6.3.3. If property leased to DoD sells on one day and the deed of conveyance is executed on another day, the grantee is entitled to receive the rental from the property only from and after the date of execution of the deed.

6.3.4. Liability for rent due does not become payable day-by-day. It becomes due in total on the dates set forth in the lease. There will be no proration of the payment for several owners, who may have owned the premises for a portion of the rental period. When leased property changes ownership through a sale, a copy of the deed of sale is furnished for association with the lease contract. If proper notification is provided to the lessee, payment is made to the titleholder on the due date.

6.4 Payment for Leased Land

Payment for leased land is not payable in advance. Payment for leases in foreign countries for periods of time is by direction of laws and ministerial regulations of foreign countries or local customs ([10 U.S.C. § 2396](#)).

6.5 Payment for Cost of Improvement of Rented Premises

DoD lease agreements must be clearly written regarding provisions for laying conduit and wires, making alterations, performing repairs, or making other improvements. Thus, unless the lease clearly provides for making such improvements at DoD expense, the payment of any cost associated with this type of improvement effort is not authorized.

6.6 Payment of Taxes on Property

Although taxes are not payable by DoD as the owner of real property, such taxes are properly payable as part of the rent when specifically included in the terms of the lease.

6.7 Payment of Rent in Connection with Termination of Lease

The terms of the lease determine the basis of payment. Leases containing the standard U.S. Army Corps of Engineer's termination clause require payment for the day after the notice of termination mailing plus 29 days. Leases containing other termination provisions should be analyzed on an individual basis, in consultation with local legal counsel to determine the correct amount of rent due upon termination of the lease.

7.0 PAYMENTS UNDER INDIVIDUAL SET-ASIDE CONTRACTS (ISAs)

Reimbursements made to medical health service providers serving under ISAs may be subject to Federal tax and the Federal Insurance Contributions Act depending on the terms of the contract. If required, payments made under ISAs will be reported by DoD at the end of the year to the IRS on a Form W-2 in accordance with Social Security Administration/IRS guidelines ([IRS Publication 15, Circular E](#)). The DoD Tax Reporting Office will perform the W-2 reporting requirements. Refer to Volume 8, Chapter 9 for disbursements to taxing authorities.

8.0 PAYMENTS OF FEES FOR GUEST SPEAKERS, LECTURERS, AND PANELISTS

Payment for expenses associated with honoraria (guest speaker fees) is allowable for individuals who are not Government personnel. Honoraria are ex gratia payments and are made to a speaker who has discretion concerning the content of the speech, presentation, or panel discussion on the general topic. In contrast, honoraria limitations do not restrict payment for presentation of materials under a training contract involving a program of instruction. To avoid excessive payment of honoraria, the Deputy Secretary of Defense has established a policy for honoraria amounts greater than \$2,000 must have approval by the next higher organizational echelon. Such approvals will be in accordance with the Component's established procedures.

9.0 INTRA-GOVERNMENTAL TRANSACTIONS

The TFM, Volume 1, Part 2, Chapter 4700, Appendices 5 and 8 prescribes policy for agencies to process intra-Governmental expenditure transactions through the IPAC system or the [G-Invoicing process](#). IPAC is an electronic internet-based collections and payment system. Refer to Volume 5 for additional policy regarding IPAC and [G-Invoicing](#).

9.1 Border Clearance Inspectors Overtime Expenses

9.1.1. If border clearance inspectors are required to work overtime, or on Sundays and holidays, at a DoD installation, the DoD installation must pay the overtime expenses incurred, including travel and subsistence in accordance with [19 CFR, 24.16](#) and [19 CFR, 24.17](#). Border clearance officials regularly assigned to DoD installations will not receive payment for travel and

subsistence. When additional inspectors are required to supplement the regularly assigned inspection staff, the DoD installation pays for their overtime, travel, and subsistence.

9.1.2. If a DoD aircraft lands at a site other than a DoD installation, the home station of the aircraft must pay the charges. When a DoD aircraft lands at another DoD installation, the installation providing the landing clearance services must accept the border clearance and inspection expenses. Financial managers must ensure funds are reserved to pay for these claimed expenses. The DoD official designated to make the necessary arrangements must maintain accurate records, submit requests for overtime, certify receipt and acceptance of services, and forward the billings for payment. Invoices received from one agency may be consolidated and processed for payment by using a single IPAC or [G-Invoicing](#) transaction.

9.2 GSA Payments, Where DoD Liability Exists for Damages to GSA Motor Pool Vehicles

9.2.1. Except for normal wear and tear, the DoD is pecuniarily liable for loss of or damages to GSA motor pool vehicles caused by negligence, misconduct, abuse, or inattention of military or DoD civilian personnel.

9.2.2. The operator of the vehicle is responsible for notifying the GSA fleet management center, his/her supervisor, and the state, county, or municipal authorities as required by law ([41 CFR, section 101-39.401](#)) when damages occur to a GSA vehicle. GSA will charge DoD for all costs resulting from damage, including vandalism, theft and parking lot damage to a GSA vehicle on a case-by-case basis after a review of the documentation required by [41 CFR, section 101-39.406](#). Upon receipt of GSA's assessment of damages, use the IPAC system, [G-Invoicing](#), or an [SF 1080](#), Voucher for Transfers Between Appropriations and/or Funds, to process the payment to GSA. The DoD Component to which the vehicle was assigned must provide the fund cite for the payment. The SF 1080 must identify the damaged vehicle involved, and include the vehicle registry number, date of damage, register number of the [SF 91](#), Motor Vehicle Accident (Crash) Report, and, when applicable, include an [SF 94](#), Statement of Witness.

9.2.3. Provide one copy of the voucher, without supporting papers, with the IPAC payment to GSA. Support the original voucher, and other copies of vouchers, (when required) with a copy of the Report of Survey, and the cost of repairs statement prepared by GSA.

VOLUME 10, CHAPTER 13: “COMMERCIAL TRANSPORTATION PAYMENTS”**SUMMARY OF MAJOR CHANGES**

Changes are identified in this table and also denoted by [blue font](#).

Substantive revisions are denoted by an asterisk (*) symbol preceding the section, paragraph, table, or figure that includes the revision.

Unless otherwise noted, chapters referenced are contained in this volume.

CHAPTER 13

COMMERCIAL TRANSPORTATION PAYMENTS

1.0 GENERAL

1.1 Purpose

This chapter establishes policies and responsibilities within the DoD for the financial management of various types of transportation payments. It outlines the policies and responsibilities for payment of transportation documents, including bills of lading (BOL) and third-party transportation invoices. It also includes requirements for prepayment and post-payment audits, reviews, claims, and related General Services Administration (GSA) procedures. The policies in this chapter also apply when the Transportation Working Capital Fund pays the commercial Transportation Service Provider (TSP).

1.2 Authoritative Guidance

The following laws and regulations comprise the current requirements for the efficient and effective use of Government and commercial transportation resources. This policy includes the roles, responsibilities, and authority in applying these requirements, to include policy pertaining to payment of transportation and transportation-related services for the DoD.

1.2.1. [Title 10, United States Code \(U.S.C.\), Chapter 157](#) and [31 U.S.C. § 3726](#) provide information concerning the laws surrounding the transportation of both personnel and supplies and the general conditions under which a carrier may submit claims for payment. Title 31 U.S.C. § 3726 also establishes the role of GSA in settling claims, identifies when claims must be filed with GSA, and identifies requirements for conducting and funding prepayment and post-payment audits.

1.2.2. [DoD Instruction 5158.06](#) and [DoD Directive 4500.09](#) govern the worldwide movement of passengers, cargo, and personal property for DoD.

1.2.3. [Federal Acquisition Regulation \(FAR\), Part 47](#) prescribes policies for applying transportation and traffic management considerations in the acquisition of supplies, and it prescribes policy for acquiring transportation or transportation-related services by contract methods.

1.2.4. [Defense Federal Acquisition Regulation Supplement, Part 247](#) contains additional transportation guidance as a supplement to FAR, Part 47 provisions.

1.2.5. [Title 41, Code of Federal Regulations \(CFR\), Part 102-118](#), codifies statutes and other policies that assure transportation services are uniform and appropriate. It also defines authority for GSA to conduct prepayment and post-payment audits, and establishes agency prepayment audit requirements.

1.2.6. The following laws and regulations provide guidance for payment of Non-Temporary Storage (NTS) and local drayage of Household Goods (HHG):

1.2.6.1. [Title 5 U.S.C. § 5726](#);

1.2.6.2. [Title 41 CFR 302-8](#); and

1.2.6.3. [Joint Travel Regulations \(JTR\)](#).

2.0 POLICY

2.1 Valid Line of Accounting (LOA)

Every transportation shipment, when initiated, must have a valid LOA to include the Standard Document Number, or in its place, an associated Transportation Account Code (TAC) representing a valid LOA, prior to processing shipment requests, automation of obligation recording, and invoice certification and payment.

2.1.1. The Transportation Officer (TO) or the Traffic Management Officer (TMO) will not provide transportation services without first obtaining proper supporting documentation. At a minimum, this documentation must include an authorization to use, and a citation of, a valid and funded LOA provided by a designated Fund Manager (FM) or financial management official.

2.1.2. If funding data supporting the shipment request fails validation when processed, the TO/TMO will suspend further processing efforts until the shipping customer provides written (electronic or hardcopy) verification indicating the LOA is valid.

2.1.3. For further guidance and exceptions regarding the LOA and TAC, please refer to [Defense Transportation Regulation \(DTR\) 4500.9-R, Part II](#), Appendix V and attachments.

2.2 Funded Line of Accounting (LOA) and Associated Transportation Account Code (TAC)

Shipping customers requesting transportation services will provide the TO/TMO with the FM's written or electronic verification of a funded LOA (funding document), or the associated TAC, before entering the Government into a contract with a carrier. The FM verification may be annotated on the Movement Request Order, usually a DoD [\(DD\) Form 1348-1A](#), Issue Release/Receipt Document, or [DD 1149C](#), Requisition and Invoice/Shipping Document.

2.3 Anti-Deficiency Act (ADA)

Any transportation shipment request processed without an authorized, valid, and funded LOA, resulting in an obligation on behalf of the Federal Government, could result in a violation of the ADA under [31 U.S.C. § 1341](#). See Volume 14, Chapters 2 and 3 for additional information concerning appropriations and violations of the ADA.

2.4 Internal Controls

Internal controls must be in place to ensure that duplicative or erroneous payments do not occur. These controls will ensure that sufficient management control mechanisms are available so that DoD funds are spent appropriately and in accordance with all applicable laws and regulations. Refer to Chapter 1 for additional policy specific to internal controls.

3.0 RESPONSIBILITIES

3.1 United States Transportation Command (USTRANSCOM)

Per DoD Instruction 5158.06, the Secretary of Defense has designated [USTRANSCOM](#) as the single manager within the DoD for transportation, other than Service-unique or theater-assigned assets. USTRANSCOM operates three component commands: Surface Deployment and Distribution Command, Military Sealift Command, and Air Mobility Command. USTRANSCOM operates two subordinate commands: Joint Transportation Reserve Unit and Joint Enabling Capabilities Command.

3.2 Defense Finance and Accounting Service (DFAS)

DFAS maintains the software/database support for the Transportation Global Edit Table (TGET).

3.2.1. TGET is a centralized repository that contains established transportation LOAs formatted in accordance with Service/Agency LOA requirements and associated TACs.

3.2.2. Each Component is responsible for updating the TGET and ensuring it contains valid LOAs and TACs.

3.3 Shipping Customers

Shipping customers can be individuals (Service members or civilian employees), units, or organizations within the Military Services, Defense Agencies and other Government (non-DoD) agencies (federal, state, or local) requesting shipment of freight or personal property. The shipping customer will obtain and present to the TO/TMO, in written or electronic form, a valid and funded LOA from a designated FM.

3.4 Transportation Officer (TO) and Traffic Management Officer (TMO)

TOs and TMOs are individuals who are designated to process approved shipment requests for transportation or storage of military goods and other items entitled to be transported or stored at Government expense and related accessorial or special services. The TO/TMO responsibilities include:

3.4.1. Preparing and editing shipment documentation to ensure quality electronic data and timely submission to support total movement shipment processes;

3.4.2. Reviewing shipment requests presented by the shipping customer to ensure that the approved funding and shipping documents fully support each shipment request;

3.4.3. Ensuring that any shipment request that is found to be incomplete or is not fully supported by the proper funding authorization will be suspended and not be accepted for shipment; and

3.4.4. Resuming the shipment request process when written or electronic verification of a corrected LOA, or other required shipping and supporting documents, is received.

3.5 Fund Manager (FM)

FMs are individuals legally responsible for managing the appropriate use of funds and will assist and provide advice to the TO/TMO on all financial related matters. The FM will:

3.5.1. Maintain and issue authorizations to use LOAs, based on requests, to ensure their appropriate use and the availability of sufficient funding;

3.5.2. Coordinate and administer changes and modifications to LOAs and ensure updated data is uploaded to the TGET when necessary;

3.5.3. Provide a properly formatted LOA and associated TAC for input into the shipper system when utilizing electronic processing and third-party billing;

3.5.4. Coordinate with the appropriate finance and accounting office to resolve edit exceptions encountered in the obligation and accrual recording and invoice payment processes;

3.5.5. Work with the TO/TMO and/or certifying officer to correct fund citation edit exceptions;

3.5.6. Provide the shipping customer with documentation supporting funds availability and record the commitment/obligation appropriately. Documentation must include a valid, appropriate, and funded LOA, as well as the point of contact information of the FM (e.g., name, phone number and, e-mail address);

3.5.7. Monitor execution of transportation costs and make adjustments as needed; and

3.5.8. Coordinate with the contracting officer and/or TO/TMO in addressing any issues associated with transactions that have not yet been certified for payment.

3.6 Certifying Officer

Certifying officers are properly qualified and trained individuals designated in writing by the activity commander and will perform their duties in accordance with Volume 5, Chapter 5. All certifying officers will be appointed using a [DD 577](#), Appointment/Termination Record – Authorized Signature. Certifying officers are responsible for:

3.6.1. Ensuring the accuracy of facts stated on a voucher to include the supporting documents and records, pursuant to [31 U.S.C. § 3528](#);

3.6.2. Ensuring accurate computation of vouchers under 31 U.S.C. § 3528 and [31 U.S.C. § 3325](#);

3.6.3. Ensuring the legality of a proposed payment under the appropriation or fund involved, pursuant to 31 U.S.C. § 3528;

3.6.4. Ensuring that when a manual, electronic, or digital signature is affixed to a voucher, the certifying officer certifies to a disbursing officer that the items listed therein are correct and proper for payment from the appropriation(s) or other funds designated thereon or on supporting vouchers, and that the proposed payment is proper, correct, and not prohibited by law;

3.6.5. Ensuring the use of and certifying a [Standard Form \(SF\) 1113](#), Public Voucher for Transportation Charges, and ensuring the form includes the correct amount and fund cites when processing documents such as requests for payments, invoices, and other transportation documents;

3.6.6. Forwarding the certified SF 1113, with the attached supporting documents, to the proper payment office for recording into the accounts payable system and disbursement of payment to the provider;

3.6.7. Returning, and not certifying, vouchers which are inaccurate, inadequate, improper, incorrect, impermissible by law, or contain invalid or inadequate funding information; and

3.6.8. Performing additional duties and responsibilities of certifying officers concerning the review, reconciliation, and certification of the DoD Third Party Payment System (TPPS) monthly summary invoices as discussed in paragraph 10.3.

3.7 Payment Office

Each payment office will:

3.7.1. Provide finance and accounting support to designated shipping customers, FMs, TOs/TMOs, and certifying officers;

3.7.2. Ensure that a valid electronic record of the transportation obligation is posted in the accounting system prior to disbursing funds;

3.7.3. Record accruals, if appropriate, and then disburse payment upon receipt of the certified request for payment or electronic data feeds. See Volume 4, Chapter 9 for additional information;

3.7.4. Ensure that commitment, obligation, accrual, and expense transactions are reconciled and processed into the appropriate accounting systems. See Volume 3, Chapter 8, and Volume 4, Chapter 9 for additional information;

3.7.5. Send electronic funds transfer disbursement to the vendor or third-party payer with an accompanying remittance advice; and

3.7.6. Collect any overpayments, as required. See Volume 16 for additional information.

3.8 General Services Administration (GSA)

GSA is the executive agent for the Federal Government and is responsible for oversight of prepayment and post-payment audits and associated collection actions. GSA also handles payment claims and disputes that cannot be resolved between the TSP and [the contracting officer](#) and the payment office. See sections 4.0 and 9.0 for additional policy concerning transportation audits, reviews, and TSP claims.

3.9 Transportation Service Provider (TSP)

The TSP is the commercial provider of transportation services for either freight or HHG.

3.9.1. The TSP certifies that the shipment has been delivered in good condition and submits certified invoices for payments of services rendered.

3.9.2. The certified invoice is sent to the activity designated in the shipping request.

3.10 Contracting Officer

A contracting officer is a U.S. military officer or civilian employee who has been properly appointed on a [SF 1402](#), Certificate of Appointment.

3.10.1. A contracting officer has the authority to enter into, administer, and/or terminate contracts, and make related determinations and findings. See definition of contracting officer in [FAR 2.1](#).

3.10.2. Within the context of this chapter (for transportation charges falling outside of TPPS processes) the contracting officer:

3.10.2.1. Prepares solicitations and contracts for transportation and/or transportation-related services;

3.10.2.2. Specifies authorization of prepaid freight in contracts;

3.10.2.3. Ensures that the requirements of the DTR 4500.9-R are included in appropriate contracts for all applicable shipments and enforces these requirements concerning shipments under their control; and

3.10.2.4. Includes in the solicitation and contract all applicable services, provisions, clauses, and instructions concerning first destination transportation charges and electronic invoicing. The solicitation and contract must also identify a separate LOA for prepaid freight.

4.0 PAYMENT, AUDITS, AND COLLECTIONS

4.1 Request for Payment

The payment office will process a request for payment in accordance with the applicable commercial rates, fares, or charges for transportation by any common carrier of any property for the United States, or on its behalf, as approved by the TO/TMO, or designee, and certified by the certifying officer. Transportation payments will be made by the payment office designated in the contract.

4.2 Prepayment Audit

Title 31 U.S.C. § 3726 establishes that each agency that receives a bill from a carrier or freight forwarder for transporting an individual or property for the U.S. Government must verify its correctness (to include transportation rates, freight classifications, or proper combinations thereof) using a prepayment audit, in accordance with regulations prescribed by the GSA. Meal tickets and meal checks are not subject to audit since they do not represent bills from a TSP. Implementing instructions are in 41 CFR 102-118, which provides responses to the most frequently asked questions concerning transportation payments and audit.

4.2.1. GSA has complete oversight of the prepayment audit process; however, it can further delegate that authority to the DoD Components if the delegation is determined to be cost-effective or otherwise in the public's best interest, as prescribed in 31 U.S.C. § 3726(g).

4.2.2. The [GSA Transportation Audits Division](#) keeps a central repository of electronic transportation billing records for legal and audit purposes. Therefore, the DoD must forward all

relevant electronic transportation billing documents to GSA as soon as possible following the end of the month; this is accomplished by the TPPS contractor which provides all shipping and payment data available in support of DoD transportation payments ([FAR 47.103-1](#) and 41 CFR 102-118.80).

4.2.3. The payment office must ensure, during its prepayment audit of a hardcopy (non-TPPS) TSP bill, that the TSP filled out the SF 1113 completely, including the taxpayer identification number and standard carrier alpha code. An SF 1113 must accompany all hardcopy (non-TPPS) billings (41 CFR 102-118.100).

4.2.4. In accordance with 41 CFR 102-118.280, [31 U.S.C. § 3521\(b\)](#), and [GAO's Policy and Procedures Manual for Guidance of Federal Agencies, Title 7](#), statistical sampling is permitted on TSP bills under \$2,500. See Volume 5, Chapter 5, section 6.0 for additional details concerning statistical sampling.

4.2.5. In accordance with 31 U.S.C. § 3726(a)(3), expenses for prepayment audits must be funded by DoD appropriations used for the transportation services.

4.3 Prompt Payment Act (PPA)

Transportation payments are subject to the PPA. PPA regulations require that agencies pay transportation bills within a certain time period and pay interest penalties when payments are late.

4.3.1. Unless specified differently in the contract, transportation charges must be paid within 30 days after the original completed BOL reaches the designated billing office, and the carrier certification, as described in paragraph 4.4, is completed on the document.

4.3.2. If an invoice or accompanying documentation is determined to be incomplete or incorrect, the agency must provide the TSP with written notice of an apparent error, defect, or impropriety within 7 days of receipt of the bill. See [FAR 32.905](#) for additional information.

4.3.3. Refer to Chapter 7 for additional PPA policy.

4.4 Certified Invoice

Transportation invoices must be certified by the carrier that the shipment has been delivered in good order and condition. A TSP cannot demand advance payment for transportation charges submitted on a BOL, per 41 CFR 102-118.200.

4.5 General Services Administration (GSA) Post-Payment Audit

A carrier's BOL and the supporting documents, which represent payments made by agency payment offices for freight and passenger transportation services, must be forwarded to GSA for a post-payment audit (41 CFR 102-118.415 and 41 CFR 102-118.425).

4.5.1. GSA reviews the carrier's transportation rates, freight classification, and other information for correctness during the audit and has a number of applicable actions it can take based on post-payment review outcomes (41 CFR 102-118.430 and 41 CFR 102-118.435).

4.5.2. Expenses of post-payment audit contract administration and audit-related functions are financed from overpayments collected from the TSP's bills previously paid by the DoD and similar type refunds (41 CFR 102-118.440).

4.6 Overpayments

If the agency conducts prepayment audits of its transportation bills, agency transportation certifying and disbursing officers are liable for any overpayments made. If GSA has granted a waiver to the prepayment audit requirement, and the agency performs a post-payment audit (31 U.S.C. § 3528 and [31 U.S.C. § 3322](#)), neither the certifying nor disbursing officers are liable based on the reasons listed in these two cited statutes (41 CFR 102-118.160).

4.6.1. If an overpayment results from the use of improper transportation rates, classifications, or from the failure to deduct the proper amount, the disbursing officer or certifying officer will normally not be held liable for overpayments.

4.6.2. Relief of liability may normally be granted when the certification was based on official records and the certifying officer did not know, and by reasonable diligence and inquiry could not have discovered, the correct information, or the obligation was incurred in good faith, and diligent collection actions were undertaken in accordance with established procedures. Refer to Volume 5, Chapter 6.

4.7 Collection / Offset of Overcharges

The Director of the GSA Transportation Audits Division has the authority and responsibility to audit and settle all transportation-related accounts (31 U.S.C. § 3726). When instructed to do so by GSA, the payment office will offset, as appropriate, any overcharge amounts due the United States from an unpaid carrier's bill. [The GSA has the authority to audit but only has the authority to adjudicate and settle when there is a dispute between the contractor and a government party to the contract.](#)

4.7.1. The payment office will inform GSA if they do not have, and are not likely to have, a subsequent voucher to collect an overcharge.

4.7.2. GSA then handles the collection as a U.S. claim against the payee (41 CFR 102-118.640). If GSA collects the overcharged amount, the collection is retained by GSA.

4.7.3. The payment office must report all voluntary refunds to the GSA Transportation Audits Division (so that no Notice of Overcharge or financial offset occurs), unless other arrangements are made (41 CFR 102-118.500(a)).

4.7.4. Once a Notice of Overcharge is issued by the GSA Transportation Audits Division, then any refund is no longer considered voluntary, and the payment office must forward the refund to the GSA Transportation Audits Division (41 CFR 102-118.500(b)).

4.7.5. Title 31 U.S.C. § 3726(d) states that not later than 3 years (excluding time of war) after the time a bill is paid, the Government may deduct from an amount subsequently due a carrier or freight forwarder an amount paid on the bill that was greater than the rate allowed.

5.0 TRANSPORTATION PAYMENT DOCUMENTATION

5.1 Prescribed Forms

The DoD may receive payment requests for transportation and related services in various forms, such as paper or electronic BOLs, or periodic billing statements. Transportation offices will use commercial payment practices and electronic processing to the maximum extent possible in accordance with DoD policy set forth in the DTR 4500.9-R.

5.2 Commercial Bills of Lading (BOL)

The [Commercial BOL](#) (the industry-wide form used by transportation carriers) is the preferred document used for the transportation of property per [48 CFR 53.247](#). This document will be used for the receipt of goods, as documentary evidence of title, and as documentary evidence of delivery. The use of the commercial BOL is the initial step in satisfying the GSA's and DoD's ongoing initiatives to maximize electronic processing of transportation documents. In its electronic form (i.e., without the issuance of a hard-copy Government BOL), the commercial BOL is referred to as a "virtual" Government BOL.

6.0 TRANSPORTATION DELIVERY TERMS

6.1 Delivery Terms

Delivery terms are listed in the contract indicating the point at which title and risk of loss of merchandise pass from the seller to the buyer. They define the obligations and the responsibilities of the buyer and seller during the delivery of goods. See [FAR 47.3](#) for additional details.

6.1.1. Free on Board (FOB) Origin. If the shipping contract states FOB origin, the ownership of the cargo is passed on to the buyer when the goods are placed on the conveyance by

which they are to be transported. Unless the contract states otherwise, the cost of shipping and risk of loss are borne by the buyer (Government), per FAR 47.303-1.

6.1.2. FOB Destination. If the shipping contract states FOB destination, the supplier owns the goods until they arrive at their destination. Unless the contract states otherwise, the cost of shipping and the risk of loss are borne by the seller (contractor). Pursuant to FAR 47.303-6, transportation costs that are included in contracts for material delivered FOB destination must not be paid.

6.1.3. Most Advantageous Delivery Point. If the shipping contract includes both FOB origin and FOB destination delivery terms, the payment office will process each payment in accordance with the assigned contract terms for the goods being shipped. Refer to FAR 47.304-1(b) when the contracting officer includes both options to obtain the most advantageous delivery point.

6.2 Prepaid Freight

Contractor prepaid freight is any type of transportation amount authorized to the point specified in the contract, which is to be prepaid at (FOB) origin by the contractor and later submitted for reimbursement on the contractor's invoice, per FAR 47.303-4.

6.2.1. When providing goods, the TSP can be authorized reimbursement for prepaid freight within their contracts.

6.2.2. Contractors will support the prepaid transportation freight charges with a copy of the carrier's receipted freight bill or evidence of receipt from the carrier. Evidence of payment is a receipted freight bill or BOL stamped or marked "To Be Prepaid" showing the charges receipted for by the carrier. If this is not present, then the BOL must bear a notation of the contractor's check number, the date paid, and proof of shipment.

6.2.2.1. If a receipted freight bill is not available, then the contractor can provide other support for the claim for reimbursement of freight charges. The contractor must furnish a copy of the transportation company's pickup record or a copy of the contractor's internal business document showing the contractor turned the material over to a particular shipper. The contractor then must support either of these documents with a copy of the transportation company's invoice and a statement that the charges have been paid.

6.2.2.2. For cost reimbursement contracts, the contractor must send freight bills to the contracting officer for a pre-payment audit, per [FAR 47.103-2](#).

6.2.2.3. Per FAR 47.303-17(d)(1), the Government may determine that receipted freight bills or other evidence of receipt are not required for transportation charges of \$100 or less if the following conditions are met:

6.2.2.3.1. The underlying contract specifies retention by the contractor of all records for at least 3 years after final payment under the contract;

6.2.2.3.2. The contractor agrees to furnish evidence of payment when requested by the Government; and

6.2.2.3.3. Per FAR 47.303-17(e), shipments and invoices will not be split to reduce transportation charges to \$100 or less per transaction as a means of avoiding the required documented support for the charges.

6.2.2.4. Per FAR 47.303-17(d)(2), a Government agency may pay an invoiced, but unsupported, transportation charge of \$250 or less per transaction if the following conditions exist:

6.2.2.4.1. The contractor cannot reasonably provide a receipted bill; and

6.2.2.4.2. The agency has determined that the charges are reasonable. Determination of reasonableness may be based on the following: past experience (authenticated transportation charges for similar shipments); rate checks; copies of previous bills submitted by the contractor; or other information submitted by the contractor to substantiate the amount claimed. [Any alternation in rates incorporated and/or applied from another department policy or regulation must also include identified equipment in addition to commodity, destination, and origin.](#)

6.2.3. When deliveries are made at points other than the designated FOB point, the contracting officer will make an adjustment in the contract price that corresponds to the resulting increase or decrease in the amount of freight charges.

6.2.4. The payment office will not make an adjustment on the amount of the freight charges if deliveries are made to places other than the FOB point.

6.2.5. The payment office will not make an adjustment to freight charges when a contractor contends that it paid transportation expenses, which the Government was obligated to pay.

6.2.6. The payment office cannot deduct for potential excessive freight charges paid by the Government. Such adjustments must be submitted to the respective legal counsel for referral to the GSA for direct settlement as claims.

6.3 Reimbursable Prepaid Freight

Reimbursement to a contractor for prepaid freight covers the cost of transporting the material being shipped from the designated FOB origin point to the designated destination(s).

6.3.1. The contractor may be authorized by the contracting officer to pay transportation costs subject to the terms and conditions of the BOL on behalf of the Government. The contractor pays for shipping on a commercial BOL, other commercial form, or through the postal system.

6.3.1.1. If a contractor is directed by a contracting officer to ship FOB origin via parcel post, then postal charges are reimbursable.

6.3.1.2. The contractor must list this expense as a separate item on the invoice.

6.3.1.3. Charges are included in accounting records as a part of the cost of material.

6.3.2. The contractor will bill the DoD Component for the cost of the transportation. This billing is shown as a line item on the contractor's invoice and is supported by a receipt, per FAR 47.303-17(d).

6.3.3. Contractor prepaid freight is not authorized within overseas areas. A contractor, however, may be reimbursed for prepaid freight within the United States to a stateside port of embarkation for further shipping by Government means to the overseas area.

6.3.4. Contractor prepaid freight costs are obligated as a cost of the contract.

6.3.5. If it is advantageous to the Government, the contracting officer may authorize the contractor to ship supplies, which have been acquired FOB origin, to domestic destinations, including DoD air and water terminals by common carriers on commercial BOLs. Such shipments must not exceed 150 pounds by commercial air, or 1,000 pounds by other commercial carriers, and must not have a security classification, per FAR 47.303-17(a).

6.3.6. GSA does not audit fixed price contractor prepaid freight charges.

6.3.7. Contractors directed to prepay freight may maintain charge accounts with companies specializing in delivery of small parcels.

6.4 Excessive Freight Charges

Excessive freight charges are freight costs incurred by a contractor that exceed costs from the FOB point specified in the contract, and they are not reimbursable costs. The contracting officer will need to make a determination whether to pay excessive freight charges and provide that determination to the payment office before any approved adjustments to payments can be made by the payment office.

6.4.1. If a contractor prepays freight for a shipment contrary to the current contract terms, payment of shipment charges may be made to the contractor after receipt of contract modification authorizing the prepaid shipment. The payment may not exceed the cost that would have been incurred by the Government. The prepaid freight receipt will be attached to the contractor's request for payment.

6.4.2. Any premium freight (e.g., overnight delivery, first class mail, or airfreight) to be paid by the Government must be authorized by the contracting officer, per FAR 47.304-1(c)(4).

6.4.3. Where the original contract was FOB origin, and the TO/TMO changes the destination point, the Government may be held liable for all additional freight costs.

6.4.4. If the contractor changes the location from where the item is being shipped from, thereby increasing the freight costs, then the contractor is liable for any increased freight costs.

6.4.5. Shipment of perishable or medical supplies that are subject to in-transit deterioration is an example of a situation when solicitations will normally be on an FOB destination-only basis because it is advantageous to the Government per FAR 47.304-1(g)(4).

6.5 Funding Determination Guidelines

When Government property is shipped from one point to another, specific guidelines will be applied to determine the appropriation or fund to be charged for transportation.

6.5.1. Transportation charges are applied to the fiscal year and the appropriation in which they accrue, as stated in the contract.

6.5.2. The transportation (movement) of cargo can have multiple segments (e.g., base to shipping port, then receiving port to base). Each segment may have a different fund-citation, depending on the type of shipment.

6.5.3. Transportation charges for material shipped from one U.S. Government installation to another are not considered part of the contract expense in buying the material.

6.5.4. Transportation charges incurred for transporting exchange or commissary supplies are charged to the applicable exchange fund or to the Defense Commissary Agency.

6.5.5. If freight is damaged in shipment, regardless of which entity is responsible for the damaged goods, transportation funds will not be used to pay for the replacement or repairs of damaged goods.

6.5.5.1. For FOB origin shipments, destination sites will furnish procurement officials with any available information to support the shipper's claim for damage(s).

6.5.5.2. If freight is damaged in shipment, then follow the requirements of the DTR 4500.9-R, Part II, Chapter 209 for reporting damages.

6.6 Property Loss or Damage

The Government generally retains the risk of loss and/or damage to its property that is not the legal liability of the commercial carriers. In addition, the Government generally does not buy insurance coverage for its property in the possession of commercial carriers per [FAR 47.102](#). However, in cases where loss or damage risk does reside with the carrier based on contractual agreement, deductions can be made from amounts due the carrier using the following guidance, per [10 U.S.C. § 2636 \(a\)\(1\) and \(2\)](#):

6.6.1. If deducted due to loss of, or damage to, material in transit for a military department, the amount must be credited to the proper appropriation, account, or fund from which the same or similar material may be replaced; or

6.6.2. If deducted as an administrative offset for an overpayment previously made to the carrier under any DoD contract for transportation services, or as liquidated damages due under any such contract, the amount must be credited to the appropriation or account from which payments for the transportation services were made.

6.7 Non-DoD Funding

Non-DoD agencies that wish to use DoD transportation services must provide funds with the appropriate LOAs to the sponsoring DoD Component. Non-DoD funding is required before services can be provided. The sponsoring Component may set up a reimbursable account where the third-party billing system can continue to pay the TSP, and the sponsoring Component can establish a Service/DoD LOA/TAC for the paying office to process. See Volumes 11A and 11B for additional reimbursable policy.

7.0 NON-TEMPORARY STORAGE (NTS) AND LOCAL DRAYAGE OF HOUSEHOLD GOODS (HHG)

7.1 Definitions and Guidelines

An authorized DoD official will determine if local drayage and storage of HHG is authorized when it provides the best value to the Government. The TO/TMO responsibilities include obtaining these transportation services to meet operational needs.

7.1.1. NTS. NTS of HHG is all storage other than temporary (e.g., storage in transit) or special storage (e.g., access-controlled environment). NTS includes any shipment, movement, packing/unpacking, and crating/uncrating necessary to transport the HHG to and from the designated storage facility.

7.1.1.1. NTS authority is normally included in the permanent change of station (PCS) travel authorization/order and must be obligated against the appropriation current at the time of the contract award, or against the appropriation current at the time the service is rendered, per Volume 3, Chapter 8 ([section 11.0](#)). Follow these same obligational criteria for storage of a privately owned vehicle (POV).

7.1.1.2. Where the contracting officer acquires these storage services (NTS or POV) as non-severable services, obligations are applied to the appropriation current at the time of the contract award. Where storage services are designated as severable, obligations are applied against the appropriation current at the time the services are rendered unless under authority of [10 U.S.C. § 3133](#). A contract that crosses fiscal years must have a period of performance not to exceed 1 year. Refer to Volume 3, Chapter 8 ([subparagraph 3.4.2](#)) for additional information regarding distinctions between severable and non-severable services in the context of a contracting activity procuring services on behalf of customer organizations.

7.1.1.3. All Invoices for NTS services are processed electronically through a TPPS using the policy provided in section 10.0.

7.1.2. Local Drayage. Local drayage includes hauling HHG to a designated storage facility.

7.1.2.1. The TO/TMO responsibilities include the following actions concerning the processing of invoices pertaining to local drayage of HHG:

7.1.2.1.1. Receiving and verifying invoices with supporting documents from the ordering officer;

7.1.2.1.2. Documenting the service for local drayage has been performed and determining the entitlement pertaining to beginning and ending periods of storage and excess weight;

7.1.2.1.3. Certifying the invoiced services have been performed;

7.1.2.1.4. Verifying with the Family Housing Management Office or Billeting Office regarding entitlement to local drayage incident to assignment of Government quarters; and

7.1.2.1.5. Preparing, approving, and certifying the [SF 1034](#), Public Voucher for Purchases and Services Other Than Personal, and forwarding it to the proper payment office with documents to support these entitlements for recording into the accounts payable system and for disbursement of the payment to the provider.

7.1.2.2. When moving HHG to or from storage locally (drayage), the TO/TMO will:

7.1.2.2.1. Provide to the payment office a copy of the invoice containing a certificate of performance signed by both the contractor and ordering officer; a copy of the [DD 1164](#), Service Order for Personal Property; a copy of the [DD 1299](#), Application for Shipment and/or Storage of Personal Property; and a copy of any special orders or other authority; and

7.1.2.2.2. Provide to the ordering office a copy of the paid removal from storage voucher.

7.1.2.3. The payment office responsibilities include the following actions concerning the processing of invoices pertaining to local drayage of HHG:

7.1.2.3.1. Certifying funds availability on the basis of a purchase order request and record obligations based on receipt of a [DD 1155](#), Order for Supplies or Services, with the coordination of the FM;

7.1.2.3.2. Obtaining evidence of receipt of services before paying a contractor's invoice. This may be accomplished by a TO/TMO statement on the invoice that states the date the services ordered were received, with the TO/TMO official's printed name, signature, and contact information placed on that invoice; and

7.1.2.3.3. Obtaining a copy of the obligating document and the contractor's invoice to support the payment voucher.

7.2 Military Members

7.2.1. See JTR, Chapter 5, Part C, Section 0513 and 0514 for details concerning HHG weight allowances.

7.2.2. See JTR, Chapter 5, Part C, Section 0518 for details concerning HHG storage.

7.2.3. The housing office issues assignment and reassignment orders for movement of member's personal property placed in NTS incident to occupancy of Government or Government-controlled quarters.

7.3 Civilian Employees

7.3.1. As stated in 5 U.S.C. § 5726 (b), the maximum combined weight for HHG transported and/or stored for civilian employees is 18,000 pounds. The Government may pay the total transportation cost, and other charges applicable to any excess weight that exceeds the HHG weight allowance, and collect reimbursement for the excess cost from the civilian employee.

7.3.2. As stated in the JTR, Chapter 5, Part F, Section 543, civilian expenses for NTS are authorized for PCS travel, or new appointee travel, to a designated isolated Continental United States (CONUS) permanent duty station (PDS). A signed service agreement for 12 months is required for each individual CONUS PCS. The period of NTS under these conditions may not exceed 3 years, per 5 U.S.C. § 5726(c).

7.3.3. As stated in the JTR, Chapter 5, Part F, Section 543, a traveler's HHG are placed in NTS when there is no authority to transport some items, or the HHG cannot be used at the Outside of the Continental United States (OCONUS) PDS. The traveler may request authority from the employer for HHG withdrawal from NTS, and transportation at Government expense, when the situation requiring NTS no longer exists, and the HHG are needed for the current tour of duty, or when a removal agreement is signed. The period of NTS, at Government expense, may be authorized for a period not to exceed the tour of duty.

8.0 MISCELLANEOUS TRANSPORTATION PAYMENTS

8.1 Drive-away and Tow-away Service

DoD vehicles may be moved by drive-away or tow-away carrier service. Authorized en route expenses may be incurred for which the carrier is not liable. Drive-away service is the movement of a vehicle under its own power by a driver of an authorized motor carrier. Tow-away service is when any motor vehicle, or combination of motor vehicles coupled together, has one or more sets of wheels on the roadway during the course of transportation. This method also includes the movement of one or more vehicles, including other than self-propelled vehicles, when towed or mounted (either full or saddle mount) upon a vehicle. See DTR 4500.9-R, Part II, Chapter 202 for additional information concerning drive-away service.

8.2 Meal Checks

Meal checks are used by DoD recruits, including the Department of Homeland Security Coast Guard recruits, while in transit from the Military Entrance Processing Stations (MEPS), under the command of the U.S. Military Entrance Processing Command (USMEPCOM), to the Service training centers. Meal checks will be issued only by an appointed MEPS Transportation Assistant (TA), or designated alternate, to DoD recruits traveling under provisions of the JTR.

8.2.1. During the transportation briefing, the MEPS TA will inform the recruit on the authorized use of the meal check, the procedures for completing the meal check, their responsibility to use the check for authorized meals, the locations that will accept meal checks, and their responsibility for safeguarding their meal check.

8.2.2. The MEPS will use the USMEPCOM's automated USMEPCOM Integrated Resource System (USMIRS) to issue computer-generated meal checks.

8.2.2.1. The MEPS USMIRS will print the allowable amount on the meal check depending on the type of meal authorized. The rates per meal for members are in the JTR, Chapter 2, Section 0203.

8.2.2.2. The MEPS TA will inform the recruit that he/she cannot write meal checks for amounts that exceed the applicable amount authorized in the JTR. Meals may be acquired at a lower cost. The recruit will be responsible for any costs that exceed the authorized amount published in the JTR, Chapter 2, Paragraph 020306.

8.2.2.3. Meal checks are valid at all airport restaurants owned, operated, or contracted by Host Marriott Services Corporation and most other food vendors.

8.2.2.4. The vendors will not give the recruits any change if the cost is less than the amount stated on the meal check.

8.2.3. Meal checks must not be used:

8.2.3.1. To buy alcoholic beverages;

8.2.3.2. When travel is by commercial aircraft, and passage rates include meal service;

8.2.3.3. When an advance allowance of per diem has been received;

8.2.3.4. When any portion of travel is OCONUS; or

8.2.3.5. For payment of a gratuity.

8.2.4. A contracted private sector bank will pay the restaurants electronically, within 48 hours, through the normal banking process. After the bank pays the restaurants, the payment office will reimburse the bank by electronic funds transfer.

8.2.5. See DTR 4500.9-R Part I, Appendix M for additional information concerning meal checks.

8.3 Meal Tickets

Meal tickets may be issued to all authorized users under the JTR provisions, with the exception of recruits assigned to MEPS. Meal tickets may be issued only as specifically authorized in the DTR 4500.9-R for members traveling together with no/limited reimbursement directed in the authorization/order, on a commercial airline flight on which courtesy meals are not served, and prior arrangements have been made for the airline to serve meals in exchange for meal tickets. See DTR 4500.9-R, Part I, Passenger Movement, Appendix M for details concerning meal tickets.

8.3.1. Meal tickets must not be used:

8.3.1.1. To buy alcoholic beverages;

8.3.1.2. When travel is by commercial aircraft, and passage rates include meal service;

8.3.1.3. When an advance allowance of per diem is received;

8.3.1.4. For travel of civilian employees;

8.3.1.5. For travel of military dependents, except when a dependent is authorized per diem for the purpose of escorting a deceased military sponsor; or

8.3.1.6. For payment of a gratuity.

8.3.2. Reimbursement of contractors accepting meal tickets will be accomplished in the following manner:

8.3.2.1. The contractor submits the original meal ticket(s), DD 652, attached to an invoice;

8.3.2.2. Payment will be made based on a SF 1034. Payment cannot exceed the number of meals nor the price set forth on each meal ticket. Each meal ticket is shown on the SF 1034;

8.3.2.3. Before payment is made, verify the meal ticket has a properly completed contractor's certification and ensure that it agrees with the certification made by the Service member who received the meal or the Service member in charge of the party;

8.3.2.4. Anyone who alters a meal ticket after it has been issued must initial and date the alteration and include their printed name and contact number;

8.3.2.5. Charge the appropriation and allotment cited on the meal ticket with the payment amount; and

8.3.2.6. These payments are due 30 days after they reach the designated billing office. Interest is due on late payments, as these transactions are subject to PPA.

9.0 CLAIMS BY TRANSPORTATION SERVICE PROVIDER (TSP)

9.1 Filing Claims

A TSP may file a claim for the following reasons (41 CFR 102-118.450):

9.1.1. Amounts considered to be owed to the TSP but were not included in the original billing;

9.1.2. Amounts that were deducted or offset by the payment office that are disputed by the TSP;

9.1.3. Amounts that were previously refunded by the TSP in error; or

9.1.4. Unpaid original bills requiring direct settlement by GSA, including those subject to doubt about the suitability of payment (mainly bankruptcy or fraud).

9.2 Claims Resolution /Appeals

If a claim is sent by a TSP to a payment office, they must make every reasonable and legal effort to resolve the dispute directly with the TSP.

9.2.1. If resolution is not possible by the original payment office, the claim must be forwarded to the GSA Transportation Audits Division.

9.2.2. Claims forwarded to the GSA Transportation Audits Division for resolution must arrive at GSA within 3 years (excluding time of war) after the later of the following dates (31 U.S.C. § 3726 and 41 CFR 102-118):

9.2.2.1. The date of receipt of the invoice by the payment office when the demand for payment is refused by the payment office;

9.2.2.2. The date of payment; or

9.2.2.3. The date of deduction on subsequent amounts paid (if the payment office offsets subsequent bills submitted by the TSP).

9.2.3. If the TSP does not agree with the decision of the GSA Transportation Audits Division, then the TSP may appeal to the [Civilian Board of Contract Appeals](#) or file a claim with the U.S. Court of Federal Claims.

9.2.4. Appeals of GSA Transportation Audits Division decisions to the Civilian Board of Contract Appeals must be made within 6 months (excluding time of war) of the date of the decision or within the periods of limitation specified in 31 U.S.C. § 3726, as amended, whichever is later. Refer to 41 CFR 102-118.580.

9.3 Certificate of Settlement

When the claim has been adjudicated by GSA, and it is determined the TSP is owed money, GSA will issue a "Certificate of Settlement" indicating the amount to be paid.

9.3.1. Once a decision is made, interest may accrue beginning 30 days from the date of settlement.

9.3.2. Similarly, if a TSP appeals the decision of an agency to the GSA Transportation Audits Division or to the Civilian Board of Contract Appeals, then interest penalties do not accrue until 30 days after a decision is rendered.

9.3.3. When a dispute arises between the agency and a TSP over an amount billed by the TSP (either in whole or part), the amount in dispute is not subject to interest penalties during the period of resolution, per 41 CFR 102-118.465.

10.0 DoD THIRD PARTY PAYMENT SYSTEM (TPPS)

10.1 Background

The DoD uses a TPPS for transportation payment processing of CONUS freight, HHG shipments, and NTS services. The TPPS collects shipment and financial data from both shippers

and carriers. Transportation transactions are entered into the TPPS electronically, and carriers are reimbursed for their services by a bank. A monthly TPPS summary invoice is forwarded electronically by the bank to the designated billing office for review and approval by an authorized certifying officer. The payment office will compute and pay interest based on payment terms specified in the TPPS contract.

10.2 Internal Control and System Access

All DoD Components utilizing the TPPS service must implement local internal controls to prevent, detect, and report unauthorized transactions as outlined in Chapter 1, Section 2.0. All managers will ensure adequate separation of duties and limit system access to only those individuals necessary to accomplish their assigned tasks. The policy cited in subparagraph 10.3.2 concerning annual reconciliations reinforces existing policy prescribed in the DTR, Part II, Chapter 212, and Part V, Appendix A, which identifies specific reviews and controls that must occur to ensure the timely and accurate processing of transportation bills. DoD Components and transportation offices must work closely with the DFAS to perform root cause analysis and develop both automated tools and business process solutions to improve the efficiency and effectiveness of the reconciliation process, including the use of Advanced Analytics if feasible. The infrastructure should also include performance metrics for Component accountability.

10.3 Certification, Reconciliation, and Payment Processing

Refer to the DTR 4500.9-R, Part II, Chapter 212 for additional detailed information and procedures concerning payment documentation requirements, correcting invalid LOAs and TACs, and the monthly summary invoice certification and payment process.

10.3.1. The certifying officer is responsible for reviewing and certifying the monthly invoices. As part of this review, they must ensure the invoices contain valid and adequate funding information, are accurate, correct, and permissible by law, and must identify any transactions that do not belong to their TPPS account. Certification criteria outlined in paragraph 3.6, the DTR 4500.9-R, Part II, Chapter 212, and Volume 5, Chapter 5 must be applied.

10.3.2. The certifying officer, in conjunction with the payment office, must reconcile the account activity section of each TPPS monthly summary invoice in a timely manner to identify any carrying balance discrepancies, resolve any past due amounts, and review and verify that all fees and adjustments cited on each invoice are correct. All transportation accounts must be reconciled and paid in full on an annual basis, by the end of the first quarter following the end of the fiscal year (FY). For example, all charges on a transportation account that occurred during FY 2021 are required to be reconciled and paid in full by the end of the first quarter, FY 2022. The certifying officer will communicate any reconciliation issues to the payment office in a timely manner, as appropriate.

10.3.3. The certifying officer is responsible for returning, and not certifying, invoices that do not contain valid and adequate funding information, or are not accurate, correct, or permissible by law.

10.3.4. In addition to assisting the certifying officers when necessary, the payment office must ensure that the TPPS monthly invoice is paid in a timely manner. Any late payments will be assessed the proper PPA interest penalty. All interest penalties paid will appear in the subsequent month's fees and adjustment section of the monthly summary invoice and must be reconciled with the total and interest payments previously made.

CHAPTER 16

PAYMENT FOR POSTAL SERVICES AND SMALL PACKAGE DELIVERY COSTS

1.0 GENERAL

1.1 Purpose

This chapter provides DoD policy on processing payments to the U.S. Postal Service (USPS) for various types of postal services, to non-Government service providers, and for commercial small package delivery costs. Refer to Chapter 8 for additional information concerning general payment policies such as electronic invoicing requirements, prevalidation, the use of electronic and digital signatures, supporting documentation requirements, and the requirement for tax identification numbers. Volume 5, Chapter 5 provides policy concerning payment certification requirements.

1.2 Authoritative Guidance

1.2.1. [Title 41, Code of Federal Regulations \(CFR\), Part 102-192](#) prescribes policy for mail management in Federal agencies.

1.2.2. [Title 39, CFR 501.15](#) provides policy on the Computerized Meter Resetting System (CMRS).

1.2.3. The DoD Instruction [\(DoDI\) 4525.09](#), “Military Postal Service;” and DoD [Directive 5101.11E](#), “DoD Executive Agent for the Military Postal Service and Official Mail Program,” contain policy for official DoD mail management.

2.0 PAYMENTS

2.1 Methods of Payment for Postage

2.1.1. [Title 41, CFR, Subpart B, § 102-192.50](#) establishes the following payment policy and methods for paying the USPS:

2.1.1.1. The U.S. Department of Treasury (Treasury) Intragovernmental Payment and Collection (IPAC) process associated with the Official Mail Accounting System (OMAS);

2.1.1.2. The USPS Centralized Account Processing System ([CAPS](#)) associated with commercial payments;

2.1.1.3. Another Treasury-approved means of paying the USPS; or

2.1.1.4. Treasury’s G-Invoicing program for Intra-Governmental buy-sell transactions, as Components/USPS develop the systemic and processing capabilities (see the [Treasury Financial Manual, Volume 1, Part 2, Chapter 4700, Appendix 8](#) and the [Fiscal Service](#) for additional guidance).

2.1.2. Effective April 1, 2019, the USPS required the migration of eligible mail services and products from CAPS to their new Enterprise Payment System (EPS) (see [USPS.com](https://usps.com)). Products not currently supported by the EPS will continue to be supported through CAPS. See [USPS PostalPro](#) for additional information on supported products, as well as User Guides, Frequently Asked Questions, and fact sheets.

2.1.3. Payments made to service providers other than USPS must be made by Treasury payment methods, such as automated clearing house (ACH), electronic funds transfer (EFT), or another Treasury-approved means of paying the vendor.

2.2 Payment to Service Providers

Metered or permit-mail payments must be made using EFT transactions to commercial banks designated by the USPS as their financial agents. Payments for postage may not be held in postal vendor accounts unless the DoD Component has statutory authority to do so, or it has received prior written approval from Treasury.

3.0 INSTALLATION OFFICIAL MAIL MANAGERS (OMM)

3.1 OMM Appointment

The DoDI 4525.09 prescribes policy for installations, units, staff elements, and the DoD Components to appoint OMMs. Such appointment must be in writing, and the function is inherently Governmental. OMM appointments are reserved for commissioned, warrant, and noncommissioned officers (Enlisted-6 or higher), or DoD civilians (General Schedule-9 or higher). This requirement may be granted a waiver when the activity concerned has no personnel in the grades specified. Since the OMM function is inherently Governmental, those duties will not be contracted out.

3.2 OMM Responsibilities

Each installation has an OMM who is responsible for planning and coordinating outgoing postal and delivery purchases. The OMM must work closely with facility personnel to minimize postage requirements, and with managers to ensure that the person who makes the decision to send any significant number of pieces of mail is the same person who controls the funds for postage. OMMs are responsible for interpreting and carrying out the Private Express Statutes ([USPS Publication 542](#)) within their organization; acquisitioning use or disposition of supplies and property; budgeting for and the expenditure of appropriated funds for postage and fees; providing oversight for the monthly reconciliation of trust and debit accounts; and reporting requirements.

3.3 DoD OMM Reporting

The DoD OMM must provide an annual Mail Management Report to GSA when the Agency's collective total payments for mail service expenditures equal or exceed \$1 million per fiscal year ([*GSA Federal Management Regulation, Subchapter G, § 102-192.85*](#)).

4.0 CENTRALIZED TRUST AND DEBIT ACCOUNTS

4.1 CAPS and Centralized Trust Accounts

DoD Components can establish a centralized trust account with the USPS by enrolling in CAPS. The CAPS is an electronic postage payment system designed to make payment for all classes of mail easier and more cost effective. The CAPS provides electronic alternatives to making manual transactions and will enable the OMM to charge postal services at multiple locations, eliminating the need for trust accounts at numerous post office locations. Electronic reports are available to CAPS users that provide the capability to consolidate reports by types of mailing transactions, account, and defined date ranges. Reports are available in printed form and are import-compatible with most electronic reporting systems. Commercial pre-paid postage procurement options are:

4.1.1. Centralized trust account. DoD Components deposit funds electronically via standard ACH banking mechanisms, or Fed Wire, to the CAPS bank prior to mailing. The CAPS account is then reduced automatically as local offices process postage statements.

4.1.2. Centralized debit account. DoD Components designate a debit-enabled bank account for postage charges. The bank debits the account for the total day's postage on the next bank business day.

4.1.3. Government Purchase Card. The GSA Smart Pay credit card may be used for all transactions for which the USPS accepts the card. Use the CAPS or CMRS trust account instead of a GSA Smart Pay card when there is a choice.

4.1.4. Advance Deposit Trust Accounts. Advance deposit trust accounts at local post offices may be used when one of the preceding methods are not available. The use of advance deposit trust accounts is not authorized at military post offices.

4.2 Availability of CAPS Accounts

The use of CAPS accounts is a local decision. CAPS accounts are not available at overseas military post offices. CAPS accounts are established to include customer meter advance deposits, business reply mail (BRM) advance deposits, and permit imprint advance deposits. A payment into a centralized trust or debit account is an advance deposit payment to the post office. The OMM must monitor and reconcile the established centralized trust or debit account to ensure receipt of services that were paid in advance. If the OMM establishes one or more centralized trust or debit accounts, then the OMM maintains a record of all transactions in each account and is responsible for each account balance.

4.3 Centralized Trust and Debit Account Payment Process

4.3.1. The OMM must request funds to set up or replenish each centralized trust or debit account by preparing and submitting a Standard Form [\(SF\) 1034](#), Public Voucher for Purchases and Services Other Than Personal. The OMM must ensure funds are available and approved by the designated approving official and a properly appointed certifying officer.

4.3.2. The OMM charges postal services against a trust or a debit account as required. Each time there is a charge to a centralized trust account or debit account, the USPS issues a receipt. The OMM verifies services received on the postal receipt and reduces the advance based on the amount shown on the receipts. The OMM must identify receipts to each trust or debit account.

4.3.3. One SF 1034 can establish or replenish more than one trust or debit account. The SF 1034 must identify the amount to be deposited into each particular centralized trust account or debit account. Once the designated finance and accounting office makes a deposit into an account, the OMM has limited authority from the USPS to transfer funds between trust or debit accounts. If a transfer between accounts is necessary, then the OMM must coordinate the transaction with the designated finance and accounting office and the USPS. The designated finance and accounting office must use an [Optional Form 1017-G](#), Journal Voucher, or equivalent to record the transfer between accounts.

4.3.4. The OMM must reconcile the trust accounts monthly with the USPS transactional documentation. The designated finance and accounting office confirms the balance in each centralized trust account or debit account monthly with the OMM. The OMM must provide documentation to support any unexplained difference and report those findings to the Comptroller of the designated finance and accounting office. Any unresolved discrepancy must receive a joint review by the OMM and the designated finance and accounting office. Service specific, or locally developed, automated or manual worksheets must be used to assist with the reconciliation process to provide a greater tracking capability of postal expenditures. All Official Mail and Distribution Centers must maintain this information. The OMM must submit a written letter to the USPS to correct account errors.

4.3.5. Advance payments for any centralized trust account or debit account are limited to the postal requirements of the current quarter. The designated finance and accounting office, and the OMM, must review balances versus the postal requirements on a monthly basis. When required, the OMM must adjust the balances by allowing the trust account or debit account to decrease with subsequent use, or by the OMM submitting a request (SF 1034) to designated finance and accounting office to deposit more funds to support the quarterly postal requirements.

4.3.6. There are cases where the USPS refunds cash for unused services in a trust or debit account. The OMM must provide a written request to the USPS to process the refund to the appropriate DoD Component account via IPAC or EFT. If the USPS cannot send the refund via IPAC or EFT, then the OMM must request a reimbursement by check from the USPS using a [Postal Service \(PS\) Form 3533](#), Application for Refund of Fees, Products and Withdrawal of Customer Accounts. Every copy of this form is uniquely barcoded and is no longer available online at the USPS website. The OMM must contact the local Post Office to secure a PS 3533 for each refund

transaction. The OMM will submit the USPS refund check to the designated disbursing office with a DoD [Form 1131](#), Cash Collection Voucher, for deposit as a collection.

5.0 POSTAL METERS

5.1 CMRS Agreements

DoD customers must enter into an agreement with the USPS for authorization to use postage evidencing systems (e.g., via electronic click-through or contract signature), in conjunction with executing a separate agreement with an authorized provider for rental, lease, or use of a postage evidencing system as prescribed by the [Domestic Mail Manual, section 604.4.0](#), “Postage Meters and PC Postage Products (“Postage Evidencing Systems”).” The [PS Form 3615](#), Mailing Permit Application and Customer Profile, must be completed and submitted to the USPS if the DoD mailer will be using a postage evidencing system.

5.2 Commercial Meter Settings

In accordance with 39 CFR 501.15, the USPS accepts payment through ACH transfers, EFT, and check for resetting postal meters. For overseas check payments, the mail manager requests an EFT payment by submitting an SF 1034 with appropriate supporting documentation. The designated payment office must make the EFT payable to the USPS licensed vendor. The designated disbursing office releases the funds to the USPS Accounting Service Center, and upon validation and verification, the USPS forwards the funds to the licensed vendor. Upon receipt of the funds by the USPS Accounting Service Center, the postage meter vendor will reset the metering account over an analog line or internet secure line.

5.3 Refunds for Spoiled Meter Tapes

The OMM may receive refunds from the USPS for spoiled meter tapes, or other types of unused services previously paid. The USPS will issue a refund in the amount remaining in a customer's CMRS account, after the customer provides a written request to the provider. The refund request must meet the USPS approved minimum amount and time frame (39 CFR 501.15(h)). Subparagraph 4.3.6 contains the guidelines for requesting refunds.

5.4 Remote Meters

DoD Components can reset postal meters using a remote method. Title 39, CFR 501.15 provides the legal authority for using the CMRS and contains details about this payment process.

6.0 MISCELLANEOUS PAYMENTS

6.1 Official Business Envelopes

The Defense Logistics Agency (DLA) Document Services serves as the DoD single manager for printing services ([DoDI 5330.03](#)). All DoD Components must procure official business envelopes, and other document services, from DLA at the [DLA Document Services](#) link.

6.2 Postage Stamps

All DoD activities must use only prepaid postage. In instances where the environment will not support the electronic processes, the OMM that purchases postage stamps for official use from the local post office may use a Government purchase card. All working postal accounts advanced by the USPS must be audited at least once monthly by responsible commanders or their designated representatives, postal officers, and Military Post Office supervisors.

6.3 BRM

6.3.1. Specially printed postcards, envelopes, cartons, and labels may be mailed without postage prepayment. Postage and fees are collected when the mail is delivered back to the original sender. This domestic service enables authorized mailers to receive First-Class Mail, without prepaid postage, from customers by paying the postage and a fee upon return receipt of the mail pieces. The OMM obtains a new commercial BRM permit by submitting a PS 3615 to the local post office. The OMM uses a copy of the completed PS 3615 to support the SF 1034. Attach a postal receipt certified by the OMM to the SF 1034. For information on BRM, refer to the [Domestic Mail Manual, section 505](#).

6.3.2. A permit holder may choose to pay an annual account maintenance fee and establish an advance deposit account, which qualifies returned BRM pieces for the high-volume per piece charge. The account maintenance fee must be paid once each 12-month period at each post office where a permit holder holds an advance deposit account and only during the last 60 days of the current 12-month period. Refer to the Domestic Mail Manual, section 505.1.1.9 for the conditions in which an advance deposit account can be used.

6.4 Postage Due Costs

6.4.1. Under normal circumstances, postage due mail is not accepted by DoD mail rooms. Postage due mail is returned to the sender at the sender's expense.

6.4.2. An exceptional circumstance is when DoD Components are engaged in a hostile environment or operating under arduous conditions. Those units can send official matter through the USPS when postage is not available. The addressee will not refuse the postage due penalty mail received from military units engaged in hostile operations, and is obligated to pay the cost of postage.

6.4.3. Government agencies using penalty mail must pay postage due through an OMAS postage due account. Government agencies may no longer use penalty meter strips, or penalty mail stamps to pay postage due ([Domestic Mail Manual, section 604, paragraph 6.3](#)).

6.5 Address Correction Costs

Costs for address correction in CAPS is an ancillary service and must be paid by EFT. Supporting documentation must accompany each payment request for processing.

6.6 Express Mail

Payment for express mail is made with stamps, metered postage, or through an express mail corporate account. This account is similar to a trust account officially authorized by the OMM. Payments into an express mail account are advances to the USPS, and these deposits are controlled similarly to trust account payments; refer to section 4.0. The OMM submits [PS Form 5639](#), USPSA Application and Payment Authorization Form, to establish the account. The USPS provides the OMM with a statement each month. The OMM must reconcile this account with the USPS at least once a month. The designated finance and accounting office confirms the balance in the account with the OMM monthly.

7.0 SMALL PACKAGE DELIVERY COSTS

7.1 Commercial Service

DoD Components may elect to use commercial bills of lading or commercial procedures, and payment practices to the maximum extent possible ([41 CFR 102-118.130](#)), rather than Government Bills of Lading, to procure express transportation services for small package shipments weighing up to 150 pounds.

7.2 Terms and Conditions

Commercial shipments are subject to the terms and conditions set forth in 41 CFR 102-118, and any other applicable contract or agreement of the carrier for the transportation of shipments for the United States. Freight loss and damage claims against commercial carriers using these procedures are processed according to 41 CFR 102-118.450 through 41 CFR 102-118.540.

7.3 Method of Payment

The approved method for billing and payment of commercial small package express shipments is the authorized electronic processes used by DoD for transportation. In instances where the environment will not support the electronic processes, or business reasons preclude the use of these processes, a waiver may be requested from the Office of the Secretary of Defense (Transportation Policy) in accordance with the [Defense Transportation Regulation, Chapter 212, section C.3](#). Waiver requests must contain detailed justification as to why electronic means cannot be used, and a proposed future date when the electronic requirement will be met.

CHAPTER 19

PAYMENT PROVISIONS FOR GRANTS AND OTHER INSTRUMENTS OF ASSISTANCE

1.0 GENERAL

1.1 Purpose

This chapter provides policy for the proper administration and payment of funds under DoD grants, cooperative agreements, and other instruments of assistance. Policy is also included for cash management, financial reporting, and debt collection associated with these instruments. Refer to Volume 3, Chapter 8 for policy when recording obligation of funds for grants or agreements and Volume 12, Chapter 5 for accounting policy concerning these instruments.

1.2 Authoritative Guidance

1.2.1. [Title 31, United States Code \(U.S.C.\), Chapter 63](#) provides criteria for agencies to use in determining when a grant or cooperative agreement is the appropriate legal instrument between the U.S. Government and a state, local government, or other recipient.

1.2.2. [Title 32, Code of Federal Regulations \(CFR\), Part 22](#) outlines grants officers' and DoD Components' responsibilities related to the award and administration of grants and cooperative agreements.

1.2.3. [Title 2, CFR, Subtitle A and Subtitle B](#) prescribe Office of Management and Budget (OMB) guidance and Federal agency regulations for grants and agreements.

1.2.4. [DoD Directive 3210.06](#), "Defense Grant and Agreement Regulatory System (DGARS)," assigns the Assistant Secretary of Defense for Research and Engineering the responsibility for developing and implementing DGARS policies and procedures through the issuance of the DoD Grant and Agreement Regulations (DoDGARs). The DoDGARs is codified at [2 CFR, Subtitle B, Chapter XI](#) and [32 CFR, Subchapter C, Parts 21-37](#) and, as necessary, DoD instructions and other issuances.

2.0 SUBMISSION AND PAYMENT RESPONSIBILITY

2.1 Administering Office

2.1.1. The office that issues the grant or cooperative agreement (grants officer) distributes a copy of the award to the office designated to administer the instrument of assistance, and will also promptly distribute award documents, modifications, and electronic funds transfer (EFT) information to the designated payment office ([32 CFR 22.605](#)). If the DoD awarding office is using a grant payment system in which the awarding office must enter the relevant details of the award into the payment system (e.g., Automated Standard Application for Payments), then this distribution is not required.

2.1.2. The award recipient will certify and forward payment requests for the performance period to the administering grants office or required payment request system. The responsibilities of the administering grants office related to payment requests are specified in [32 CFR 22.810](#). When the DoD awarding office is not using a grant payment system as described in 2.1.1., payment requests are required to be submitted and authorized in accordance with section 22.810 and the administering grants office must review and certify that the payment request or electronic equivalent is legal, proper, and correct (Volume 5, Chapter 5). The administering grants office also ensures the request for payment complies with the award terms and the recipient will not have excess cash on hand, based on expenditure patterns.

2.1.3. See www.grants.gov for additional information and guidance on managing and administering grants.

2.2 Designated Payment Office

The award must designate the specific payment office that will make payment (typically the Defense Finance and Accounting Service (DFAS)). The payment office must verify the propriety, adequacy, and completeness of any required documentation to substantiate amounts to be paid by the DoD. The payment office must retain all hardcopy award documentation, [or](#) have access to electronic award documentation, supporting the payment file.

2.3 Electronic Payment Process

Electronic commerce is the preferred method to submit and process payment requests in accordance with 32 CFR 22.810(b)(3). Payment by EFT is a requirement of 32 CFR 22.810(b)(2) and [31 CFR 208.3, Title 2, CFR, Part 25](#) requires the recipient to maintain current information about itself in the System for Award Management ([SAM](#)). The SAM is the primary Government repository for prospective Federal awardees and Federal awardee information and is the centralized Government system to support certain contracting, grants, and other assistance-related processes.

3.0 INTERNAL CONTROLS

3.1 Internal Controls - Grant Awards

[OMB Circular A-123](#), “Management’s Responsibility for Enterprise Risk Management and Internal Control,” states that statutory requirements should be considered as part of the agency’s internal control framework that includes the Single Audit Act ([31 U.S.C. §§ 7501-7507](#)). Title 32 CFR, Part 22, subpart H provides post-award administration responsibilities between the grants office and the designated payment office regarding specific requirements for timely and accurate handling of financial transactions for grants and cooperative agreements (payments and debt collection). The agency head must establish controls that ensure obligations and costs comply with applicable laws. Safeguards must be in place to ensure DoD’s grants comply with the purpose awarded, are adequate to pay the request, and are expended within the constraints reflected in the grant. The Single Audit process, and an agency’s procedures for resolving audit findings related to those audits, are controls that assist in assuring achievement of these objectives.

3.2 Audits

Refer to [2 CFR, Part 200, Subpart F, 200.501](#) for single audit threshold requirements. The Single Audit Act requires financial statement audits of non-Federal entities that receive or administer grant awards of Federal funds. These audits also include testing the effectiveness of internal controls and determining whether the recipients' Federal expenditures comply with laws and regulations. Each DoD agency that provides Federal awards will review the audits of the recipients to determine whether corrective actions require implementation with respect to audit findings and perform follow up procedures to ensure that the corrective actions are implemented ([2 CFR, Part 200, Subpart F, 200.513\(c\)\(3\)](#) and [2 CFR, Part 200, Subpart F, 200.514\(e\)](#)).

3.2.1. For additional information, see the Single Audit Act information prescribed in DoD Instruction ([DoDI](#)) [7600.10](#), "Follow-Up and Oversight on Single Audits." The DoDI 7600.10 establishes DoD policy for the implementation of single audit requirements in 2 CFR 200, subpart F, which was issued pursuant to 31 U.S.C. § 7501-7507. The DoD Inspector General provides audit policy guidance and direction to the DoD Components and other Federal agencies on single audit matters related to states, local governments, Indian tribes, institutions of higher education, and non-profit organizations.

3.2.2. The DoD will rely on and use single audits. Independent auditors will conduct audits in the oversight of Federal awards provided to states, local governments, Indian tribes, institutions of higher education, and non-profit organizations. The Department may request additional audits of such Federal awards when required by regulation or as needed to ensure effective use of such Federal awards. Any additional audit effort will be planned and implemented to avoid duplication and must be separately funded.

4.0 PAYMENT REQUEST

4.1 Types of Payment Requests

The OMB guidance in [2 CFR 200.305\(b\)\(1\)](#) states that, provided certain standards are met, recipients must be paid in advance. Reimbursement is the method of payment to be used when the standards for advance payments cannot be met or when the grants officer includes specific conditions in the award terms and conditions that require its use (2 CFR 200.305(b)(3)).

4.2 Payment Request Forms

Except as noted, the following forms are authorized for use by the recipients in requesting advances and reimbursements from the grants office.

4.2.1. For non-construction programs with states, local governments, institutions of higher education, and other non-profit organizations, requests for advance payments or reimbursements *may* be made on [Standard Form \(SF\) 270](#), Request for Advance or Reimbursement, or electronic equivalent, or other prescribed forms or formats as necessary (32 CFR, Subtitle A, Chapter 1, Subchapter C, Part 34, [Subpart B, 34.12\(d\)](#)). A DoD Component must also obtain approval for any variation from OMB-approved forms or formats, including the use of

additional or electronic data elements, or modification of the associated instructions for recipient entities submitting the information.

4.2.2. For construction programs, each Federal awarding agency will use the [SF 271](#), Outlay Report and Request for Reimbursement for Construction Programs, as the standard form, or electronic equivalent ([41 CFR, Subpart 105-72.302\(m\)\(2\)](#)). The DoD may use the SF 270 in lieu of the SF 271 when the DoD-awarding agency determines that it provides adequate information to meet Federal needs.

4.3 Commercial Recipients

For payments to commercial recipients, the grants office may authorize recipients to use SF 270 or SF 271, or prescribe other forms or formats as necessary (32 CFR 34.12(d)).

4.4 Accounting for Award Payments

Refer to Volume 12, Chapter 5 for information concerning accounting for advance payments made to the award recipients and accounting for the expenditure until the recipient has performed under the award. Payments to award recipients as reimbursements for work performed, or costs incurred, must be accounted for as expenditures and as expenses incurred, or as reductions of liabilities if the expenses were previously accrued. [Title 2 CFR, Part 200, Subpart E, 200.400\(d\)](#) requires the recipient to maintain adequate documentation to support the accumulation of costs charged to the Federal award. The recipient is not required to provide documentation for accumulated cost when submitting payment requests to the grants office, unless otherwise specified in a form or format approved by OMB in accordance with the Paperwork Reduction Act ([44 U.S.C. § 3501](#)).

4.5 Payment Submission Timelines

When payment requests must be authorized by the administrative grants office in accordance with 32 CFR 22.810, the administrative grants office will review each payment request to ensure the request complies with award terms, available funds are adequate to pay the request, and the recipient will not have excess cash on hand based on expenditure patterns. In these circumstances, to ensure timely payments, the administrative grants office must certify and forward the request to the designated payment office at least 3 working days before the end of the following specified periods:

4.5.1. No more than 7 calendar days after receipt of the recipient's request at the administering office whenever electronic commerce is used, e.g., Electronic Data Interchange to request the payment and EFT to make the payment;

4.5.2. No more than 30 calendar days after receipt of the recipient's request at the administering office when it is not possible to use electronic commerce; and

4.5.3. No more than 7 calendar days after each date specified by the award when payments are authorized in advance, on a predetermined payment schedule, provided the payment schedule

was received in the designated payment office at least 30 calendar days in advance of the date of the scheduled payment.

4.6 Prompt Payment Interest Penalties

In accordance with [5 CFR 1315.15](#), prompt payment interest penalties do not apply to Federal grants and cooperative agreements.

4.7 Cash Management Policy

The [Cash Management Improvement Act](#), implemented by [31 CFR, Part 205](#) and [31 CFR, Part 206](#), sets rules, including interest liabilities and procedures, concerning the transfer of funds for Federal financial assistance programs between Federal agencies and the states.

5.0 DEBT COLLECTION FOR GRANTS AND COOPERATIVE AGREEMENTS

5.1 Collection Policy

Any funds paid to the recipient in excess of the amount to which the recipient is entitled constitutes a debt to the DoD. Grants officers are responsible for post-award administration of grants and cooperative agreements in accordance with the DoDGARs. Primary responsibility for collecting debt resulting from a grant or cooperative agreement rests initially with the grants office (see [32 CFR 22.820](#) for additional detailed policy). DoD awarding offices should use the Debt Collection Office (DCO) of the designated payment office as the primary debt collection option. If DFAS is not the designated payment office, DoD awarding offices may utilize the Debt Management Office of DFAS for further debt collection and administrative offset opportunities, after first utilizing the DCO. Refer to Volume 16, Chapters 1, 2, and 5 for additional detailed policy.

5.1.1. The grants officer will attempt to resolve, by mutual agreement, any claim of a recipient's indebtedness. In the absence of such mutual agreement, any claim of a recipient's indebtedness will be the subject of a grants officer decision, in accordance with [32 CFR 22.815\(b\)\(2\)](#). The grants officer will prepare and transmit to the recipient a written notice providing all relevant data supporting the debt determination (32 CFR 22.820). The notice will inform the recipient that within 30 calendar days of the grants officer's decision, the recipient must either pay the amount owed, in accordance with instructions in the notice, or inform the grants officer of the recipient's intention to appeal the decision.

5.1.2. If the recipient has neither paid the amount due, nor provided notice of intent to file an appeal, within 30 days of the grants officer's decision, the grants officer will send a demand letter to the recipient, with a copy to the DCO (see Volume 16, Chapter 2 for general policy requirements of debt letter notifications).

5.1.3. The DCO of the designated payment office will be responsible for any further debt collection activity, including any additional issuance of demand letters (32 CFR 22.820). The

DCO will follow collection policy in Volume 16, Chapter 5 unless the DoDGARs, or the applicable grant or cooperative agreement, explicitly prescribes a different procedure.

5.1.4. Grants offices will obtain each grant recipient's Taxpayer Identification Number (TIN) via the SAM for the purpose of collecting and reporting delinquent debts.

5.2 Offset Policy

In accordance with the provisions of [OMB Circular A-129](#), "Policies for Federal Credit Programs and Non-Tax Receivables," the collection of delinquent debts owed by the recipient may require the use of administrative offsets. When taking an administrative offset, the DCO will follow the due process as provided in [31 CFR 901.2](#), Demand for Payment, and [31 CFR 901.3](#), Collection by Administrative Offset (also see Volume 16, Chapter 2 and 5 for additional policy concerning offsets). Use of administrative offset is not required in every instance in which there may be an available source of funds. Either the payment office or the accounting office will make a determination on a case-by-case basis, in conjunction with the grants officer responsible for the award against which the offset will be applied. In accordance with 32 CFR 22.820(e), the following examples are when an offset will not be taken.

5.2.1. Recovery of debt by an administrative offset will not be performed when the grants officer determines that the offset will substantially interfere with, or defeat the purpose of, the program for which the offset is contemplated.

5.2.2. Generally, grants and cooperative agreements paid in advance are not subject to offset. If deemed to be in the best interest of the Government, then the payment office may request the issuing grants officer to convert the agreement to a reimbursable method of payment that would enable the use of an administrative offset.

5.3 Collection Office

The office responsible for collecting the debt will apply interest, penalty, and administrative charges to delinquent debts according to policy in Volume 16, Chapter 7.

5.4 Uncollectible Debts

Volume 4, Chapter 3 and Volume 16, Chapters 2, 5, and 7 prescribe policy for writing off debts that are determined uncollectible.

CHAPTER 20

CONTRACT RECONCILIATION

1.0 GENERAL

1.1 Purpose

This chapter prescribes DoD policy for Mechanization of Contract Administration Services (MOCAS) and Non-MOCAS contract reconciliations, and the requirements necessary to maintain complete, consistent, and accurate data for contract files and related entitlement and accounting records. It defines the DoD Components' roles and responsibilities for efficiently identifying differences, conducting research, performing reconciliations, approving recommended adjustments, processing corrections, and maintaining appropriate supporting records.

1.2 Authoritative Guidance

The maintenance of complete and accurate contract files and related entitlement and accounting records is necessary to reduce the potential for [Anti-Deficiency Act \(ADA\)](#) violations, minimize the amount of negative unliquidated obligations (NULOs), and minimize the number and dollar value of unmatched disbursements (UMDs). Paying office contract files will include the information specified in the [Federal Acquisition Regulation \(FAR\) paragraph 4.803\(c\)](#). The use of accounting classification reference numbers (ACRN) and contract line items is described in the Defense Federal Acquisition Regulation Supplement [\(DFARS\) 204.7101](#), [DFARS 204.7103-1](#), and [DFARS 204.7107](#). The streamlined closeout of contract files is described in [DFARS 204.804](#) and section 5.0. Disbursements will be authorized, classified, processed, and promptly posted and reported, as discussed in Volume 5, Chapter 9.

2.0 RESPONSIBILITIES

2.1 Responsible Contract Reconciliation Agent (RCRA)

RCRAs manage the daily operations of contract reconciliation and are responsible for the completion of contract reconciliations. The RCRA is responsible for reviewing the reconciliation request, determining the appropriate level of effort, setting the priority, coordinating assistance, accepting or rejecting reconciliation results, approving adjustments, and ensuring that refunds or demands for payment are initiated. Instructions and guidance on the RCRA's role in contract reconciliation are contained in the User Manual for the Standard Contract Reconciliation Tool ([SCRT](#)).

2.2 Director, Defense Finance and Accounting Service (DFAS)

The Director, DFAS, is the principal DoD executive for the finance and accounting requirements and procedures as prescribed by [DoD Directive 5118.05](#). The Director, DFAS has the following responsibilities:

2.2.1. Assist with providing specific instructions and computer-based tools necessary to identify, analyze, reconcile, track, and correct differences between written contracts, entitlement, disbursement, and related accounting systems. The instructions will include criteria for determining the nature and scope of required analyses;

2.2.2. Provide entitlement and accounting system information to individuals participating in negotiating settlements;

2.2.3. Train and maintain a core group of individuals who meet the qualification requirements to perform responsibilities prescribed by the SCRT manual (to include RCRA, reconcilers, and assistants);

2.2.4. Designate qualified DFAS personnel to be trained as part of the core group, and assign RCRA personnel to oversee and perform contract reconciliations; and

2.2.5. Ensure that the Systems Support Office-DFAS Columbus will provide support to the RCRA and maintain the SCRT, which is a DoD-wide database that contains a listing of RCRA, core group members, and contracts being reconciled. SCRT users will receive support from the help desk at disa.global.servicedesk.mbx.application-ticket-request@mail.mil.

2.3 Enterprise Resource Planning (ERP) Systems

Heads of DoD Components utilizing ERP systems will assume responsibilities to provide data for the support and coordination of contract reconciliation functions performed under the direction of DFAS. The roles and responsibilities of DFAS and the ERP Components may change as the interfaces between SCRT and the ERPs are developed.

2.4 Reconciliation Partners

All RCRA reconciliation partners (procurement contracting officers (PCOs), administrative contracting officers (ACOs), resource managers, and program managers) will perform their respective or combined duties as they relate to the following:

2.4.1. Participating in contract reviews and reconciliations, and assist in the identification and resolution of differences between written contracts and entitlement, disbursement, and accounting systems;

2.4.2. Comparing the ACRNs of the contract with data in the entitlement and accounting systems. When discrepancies occur, the appropriate entitlement and accounting office will be notified of any significant difference(s), and the appropriate office will provide required supporting documentation;

2.4.3. Responding in a timely manner to reasonable requests for action, information, and/or documentation on a contract or modification;

2.4.4. Modifying the contract to correct any disclosed discrepancies in accordance with [FAR 43](#); and

2.4.5. Designating personnel to be trained as part of the core group of individuals from the DoD Components who oversee and perform contract reconciliations.

3.0 CONTRACT RECONCILIATION

3.1 Reconciliation Referrals

Normally, at the end of the contract, the total payments made to the contractor should match the total of funds obligated on the contract. Cost underruns, payment errors, unearned incentives, or withheld fees may be some of the causes that can result in unliquidated obligations at the completion of the contract. When remaining or excess fund balances exist that cannot be explained, reconciliation may be required to compare all source documents with the entitlement and accounting systems. MOCAS contracts will be forwarded to DFAS Columbus to perform reconciliations. Non-MOCAS contract reconciliations will be performed by the designated entitlement office administering payments for those contracts. See the SCRT manual for reconciliation request guidance.

3.2 Discrepancy Identification

When a discrepancy between contract payments and accounting records is identified, a preliminary contract review must be performed by the appropriate RCRA, or designated entitlement office, to determine what corrective action is needed. Recommended adjustments will be reviewed and approved by qualified personnel before distribution to the appropriate location(s) for processing. Approved adjustments must be posted in a timely manner. Reconciled records will be identified by registration in the SCRT. Any subsequent adjustment of reconciled records will be based on a reconciliation registration as prescribed in paragraph 3.5. All actions of contract reconciliation will support the timely completion of funds review, deobligation of excess funds, and contract closeout procedures found in [FAR 4.804](#). The related requirements for researching and correcting NULOs, UMDs, disbursements in suspense accounts, and disbursements in-transit are covered in Volume 3, Chapter 11.

3.3 Conditions for Contract Reconciliation

The following circumstances may indicate discrepant conditions that require preliminary contract review or contract reconciliation:

3.3.1. Incomplete contract, payment, or accounting information;

3.3.2. Insufficient funds;

3.3.3. Un-recouped progress payment balances at or near contract completion;

3.3.4. Possible overpayments;

3.3.5. UMDs; and

3.3.6. NULOs.

3.4 Prioritization Concerns

DoD Components will prioritize the analyses of discrepant conditions in view of applicable time limitations and other circumstances. High priority conditions include those that involve congressional or senior DoD management interest, potential ADA violations, prevalidation problems, insufficient funds for payment, suspected or identified overpayments, transactions with the highest dollar value, and cancelling/closing-year appropriations.

3.5 Registration in the SCRT

Each contract nominated for reconciliation must be registered in the SCRT database of contracts being reconciled. By registering a formal reconciliation request into the DoD contract reconciliation system, the opportunity for duplicated efforts by other DoD Components is greatly reduced or eliminated. Resources, procedural guidance, forms, and other reconciliation tools used to obtain vital information for the contract reconciliation registration process can be obtained from DFAS Columbus Accounts Payable – MOCAS, Reconciliation Division at dfas.dscc.jai.mbx.recon-maillog@mail.mil. For more information on reconciliation tools used in the contract reconciliation process, refer to section 4.0.

3.6 Required Actions

The individual assigned to perform contract reconciliation, whether a Government employee or contractor, will compare databases, research differences, identify root cause(s), and recommend adjustment(s) needed to correct differences between contract, entitlement, and accounting records. Differences among systems will be researched to determine whether errors exist, where they exist, and the extent of such errors, as well as the required corrective actions. Every effort should be made to complete contract reconciliations within 90 days after initiation.

3.6.1. Contract reconciliations should include, as applicable, a review and analysis of:

3.6.1.1. The basic contract, including any modifications, and all obligation actions in all systems;

3.6.1.2. Payment vouchers;

3.6.1.3. Contract payment system records;

3.6.1.4. Official accounting system(s) records for all funds on the contract; and

3.6.1.5. Adjustments, including any collection actions or expenditure transactions, to the contract payment and accounting system(s) records that have been processed.

3.6.2. Differences that require adjustment generally are identified as:

3.6.2.1. Contractual documents that require correction by the ACO or PCO; and

3.6.2.2. Obligation posting documents (omissions or corrections) that require initiation or correction by the responsible funds holder or responsible accounting office.

3.6.3. If the accounting system records require correction, and the entitlement records are correct, then a correction (internal adjustment) is required for the accounting system records to balance with the corresponding entitlement system.

3.6.4. If entitlement office payment system records require a correction, and the accounting system records are correct, then a correction (internal adjustment) is required for the entitlement office payment records to balance with the corresponding accounting system.

3.6.5. If identical correcting adjustments are required by both the entitlement office payment system records and the accounting system records, then corrections (external adjustments) are required to be processed by the responsible entitlement office, and they must flow to the corresponding accounting system.

3.7 Documentation and Review

Documents accumulated during a contract reconciliation must be retained, made available for, and be subject to, internal review and audit.

3.7.1. The DoD Component responsible for the review and acceptance of the recommended adjustments must retain adequate documentation to support any adjustment that is processed. Each completed adjustment file will include the preparer's identity, approval, and confirmation of the posting of the adjustment.

3.7.2. The retention of adjustment files by the DoD Component will be in accordance with the financial record retention requirements in Volume 1, Chapter 9. Foreign Military Sales retention requirements are in Volume 15, Chapter 6.

3.8 Internal Controls

Internal Controls will be incorporated into the operations of all stakeholders to maintain complete, consistent, and accurate data for contract files and related entitlement and accounting records throughout the life of the contract, as discussed in Chapter 1.

4.0 RECONCILIATION TOOL

The SCRT is a DoD-wide registration database and reconciliation tool. In cases where SCRT is not interfaced with an accounting system, other existing tools may be used to identify discrepant conditions and aid in their resolution. Further details on SCRT capabilities and instructions for system access and use can be found in the comprehensive DFAS guide, User Manual for the SCRT.

5.0 STREAMLINED CONTRACT CLOSEOUT

5.1 Criteria

In accordance with the Fiscal Year (FY) 2017 National Defense Authorization Act (NDAA) and with DFARS 204.804(3)(i), as modified by Section 820 of the FY 2021 NDAA, contracting officers may close out contracts, or groups of contracts, through issuance of one or more modifications to such contracts without completing a reconciliation audit or other corrective action in accordance with FAR 4.804-5, as appropriate, if each contract:

5.1.1. Was entered into on a date that is at least 7 FYs before the current FY;

5.1.2. With respect to a contract or group of contracts for military construction or shipbuilding was entered into at least 10 fiscal years before the current fiscal year;

5.1.3. Has been completed at least 4 years before the current fiscal year, in terms of performance or delivery; and

5.1.4. Has been determined by a contracting official, at least one level above the contracting officer, to be not otherwise reconcilable, because:

5.1.4.1. The contract or related payment records have been destroyed or lost; or

5.1.4.2. Although contract or related payment records are available, the time or effort required to establish the exact amount owed to the U.S. Government, or amount owed to the contractor, is disproportionate to the amount at issue.

5.2 Identification and Documentation

Agencies and DoD Components must partner closely to identify potential contracts for closeout under the NDAA legislative authority and must maintain a documented record of all contracts closed under the authority. The Deputy Chief Financial Officer policy memorandum, “National Defense Authorization Act Contract Closeout Authority (FPM 19-06),” dated May 14, 2019, contains critical procedural implementation guidance and can be accessed on the Office of the Deputy Chief Financial Officer/Financial Management Policy and Reporting website under [Dual Purpose Policy Memos](#) & Other Information (Common Access Card-enabled).

5.3 Remaining Balances – Same Contract

Modifications issued under this authority may offset remaining contract balances with balances in other contract line items within the same contract, regardless of the year or type of appropriation obligated to fund each contract line item and regardless of whether the appropriation obligated to fund such contract line item has closed/canceled.

5.4 Remaining Balances – Other Contracts

Modifications issued under this authority may offset remaining contract balances with balances on other contracts meeting the legislative criteria, regardless of the year or type of appropriations obligated to fund each contract and regardless of whether such appropriations have closed/canceled.

5.5 Adjust and Close

After closeout of any contract by the issuance of a negotiated settlement modification, the payment or accounting offices concerned must adjust and close any open finance and accounting records related to the contract(s).

5.6 Liability

As prescribed by Section 836 of the FY 2017 NDAA, no liability will attach to any accounting, certifying, or payment official, or any contracting officer, for any adjustments or closeouts made pursuant to the authority under the DFARS 204.804.

CHAPTER 21

JUNIOR RESERVE OFFICER TRAINING CORPS (JROTC)
INSTRUCTOR PAY

1.0 GENERAL

1.1 Overview

This chapter prescribes the financial management policies applicable to the reimbursement of the DoD portion of JROTC Instructor Pay worldwide to public and private secondary educational institutions and [DoD Education Activity \(DoDEA\)](#).

1.2 Purpose

This chapter applies to all Military Services. The term “Military Services” refers to the Army, Navy, Air Force, Marine Corps, and Space Force.

*1.3 Authoritative Guidance

[DoD Instruction 1205.13](#), JROTC Program, Title 10, United States Code ([U.S.C.](#)), [section 2031](#), and Deputy Secretary of Defense [JROTC Instructor Pay Memorandum](#) provide policy and guidance regarding the JROTC program. The JROTC Instructor Pay Memorandum establishes the JROTC Standardized Instructor Pay Scale (JSIPS) for new JROTC instructors and related changes to the reimbursement of host schools, in accordance with section 553 the National Defense Authorization Act for Fiscal Year 2024 (Public Law 118-31). Prior pay formulas and reimbursement requirements are set forth in prior versions of this chapter.

2.0 DEFINITIONS

2.1 Academic Year

An academic year is the period of time necessary to complete one JROTC course, normally consisting of not less than 7,200 minutes of instruction.

2.2 [DoD Dependent Schools \(DoDDS\)](#)

DoDDS are a network of schools, both primary and secondary, that serve dependents of the U.S. military and dependents of U.S. Government employees. The schools themselves are operated by the [DoDEA](#).

2.3 Domestic Dependent Elementary and Secondary Schools (DDESS)

A DDESS special arrangement is an agreement between the Secretary of Defense, or designee, and a local public education agency whereby a school or a school system operated by the local public education agency provides educational services to eligible dependent children of

U.S. military personnel and federally employed civilian personnel. Arrangements result in partial or total federal funding for the local public education agency for the educational services provided.

2.4 Instructor Management Division (IMD)

The IMD is the office within a Military Service responsible for certifying instructors.

2.5 JROTC Instructor Reimbursement Office (JIRO)

The JIRO is the office within a Military Service responsible for maintaining instructor accounts for reimbursement to a school or school district.

2.6 JROTC Unit

A JROTC unit is an organized group of JROTC students and faculty members at one secondary school.

2.7 Minimum Instructor Pay (MIP)

The MIP is the minimum salary that a school or school system hosting a JROTC unit is required to pay an instructor for instructor duties in direct support of the JROTC program. MIP is calculated using the JSIPS pay scale set forth in the JROTC instructor pay memorandum which should be referenced for additional certification actions for hiring school districts. A JROTC instructor already employed under 10 U.S.C. § 2031 on the date of enactment of JSIPS shall not be subject to a reduction in total compensation due to its enactment.

*2.8 Cost-Of-Living-Allowances (COLAs)

2.8.1. The U.S. Government pays COLAs to white-collar civilian Federal employees in Alaska, Hawaii, Guam and the Northern Mariana Islands, Puerto Rico, and the U.S. Virgin Islands. Title 5, U.S.C. [Section 5941](#) and [Executive Order 10000](#) (as amended) authorize the payment of COLAs in nonforeign areas. JSIPS employees in these particular nonforeign areas, as defined by Office of Personnel Management, are entitled to COLAs.

2.8.2. The [Nonforeign Area Retirement Equity Assurance Act](#), as contained in subtitle B (sections 1911-1919) of title XIX of the National Defense Authorization Act for Fiscal Year 2010 (Public Law 111-84, October 28, 2009), transitions the nonforeign area COLAs authorized under 5 U.S.C. § 5941(a)(1) to locality pay authorized under [5 U.S.C. § 5304](#) in the nonforeign areas as listed in [5 Code of Federal Regulations 591.205](#). The Act also extends locality pay to American Samoa and other nonforeign territories and possessions of the United States where no COLA rate applies.

3.0 PRESCRIBED FORMS

3.1 DoD (DD) Form 2767

Paragraphs 7.2, 8.1, and 8.2 discuss the use of [DD 2767](#), JROTC Instructor Annual Certification of Pay and Data Form.

3.2 Standard Form (SF) 1080

Paragraph 5.3 discusses the use of [SF 1080](#), Voucher for Transfers between Appropriations and/or Funds.

4.0 REIMBURSEMENT RESPONSIBILITIES

*4.1 General

JROTC instructors are paid by the host school, with the sponsoring Military Service reimbursing the school 50 percent of the MIP. JSIPS sets the MIP, as noted in paragraph 2.7, that the Military Services use to reimburse the host school.

4.2 Discretionary Additional Payments

The Secretary of the Military Department concerned (or designee), may pay additional instructor funds to a school when funds are available and the Military Department determines, following periodic reviews, that:

4.2.1. The school is in an educationally and economically deprived area; and

4.2.2. Such action is in the national interest

5.0 REIMBURSEMENT REQUIREMENTS AND PROCESS

5.1 Requirements for Authorizing Reimbursement

The JIRO authorizes reimbursement to the schools only for those instructors:

5.1.1. Who are certified as qualified instructors by the cognizant Military Service;

5.1.2. For whom funding has been authorized by the Military Service; and

5.1.3. Who are filling positions authorized by the Military Service.

5.2 JROTC Units in DoDDS and DDESS Schools

5.2.1. DoDDS JROTC instructors will be employed under provisions of [20 U.S.C. §§ 901-907](#).

5.2.2. DDESS JROTC instructors will be employed under provisions of [10 U.S.C. § 2164](#).

5.3 School Reimbursement Process

5.3.1. The amount of the reimbursement to the school generally is equal to 50 percent of an instructor's MIP. The Secretary of the Military Department concerned may pay to the school more than 50 percent of the amount paid to the member by the school if the specific criteria of needs in paragraph 4.2 are met, as prescribed in 10 U.S.C. § 2031(d)(2). The JIRO must ensure that documentation supporting these reimbursements is retained in accordance with Volume 1, Chapter 9 and is readily available to support future audit efforts. The documentation should be of sufficient quality to allow an independent third party, such as an outside auditor, to understand and verify the basis of the reimbursement.

5.3.2. The amount is calculated based on the information and documentation required on the DD 2754, adjusted to reflect the agreed-upon reimbursement rate/amount between the Military Service and the school.

5.3.3. Monthly statements of the reimbursements are forwarded by the JIRO to the school and the school district. These statements will show the total amount paid to each instructor working at the school.

5.3.4. An electronic funds transfer (EFT) for the reimbursement to the school is sent to the financial institution designated by the public and private educational institutions. DoDDS schools are reimbursed based on the JIRO approval of amounts cited on the DD 2754 by funds transfer via the Intragovernmental Payment and Collection (IPAC) system or SF 1080.

5.3.5. Schools must provide the financial banking information by using the [System for Award Management](#) when the school is new to the JROTC program or when there is a change to its previously provided banking information.

6.0 JROTC UNIT ESTABLISHMENT AT SCHOOLS

6.1 School Verification

An authenticated copy of the countersigned contract between a school and the Military Service must be provided to the JIRO in order to verify and provide documented support that schools requesting payment are active participants in the JROTC program.

6.2 Addresses

Authorized officials occupying the positions stated in the contract between a school and the Military Service are responsible for supplying the current address of the school employing each instructor.

7.0 JIRO

7.1 JIRO Reimbursement Requirements

The school is the employing organization and pays the full amount due the JROTC instructor. This amount is not less than the MIP referenced in paragraph 2.7. Each JROTC instructor negotiates his or her own contract with the school. The Military Service JIRO will authorize reimbursement to the school for up to 12 months per academic year, but only for the period of time the instructor is under a valid contract and is receiving a salary equal to, or greater than, the MIP. The amount of the reimbursement to the school generally is equal to 50 percent of an instructor's MIP as identified in subparagraph 5.3.1.

7.2 JIRO Employment Verification Process

Each school must forward to the JIRO a copy of the DD 2767 within 30 days of the instructor's employment. Reimbursements for that instructor will be held in abeyance until this form is received by the JIRO.

7.2.1. Each school must submit a DD 2767 annually for those JROTC instructors continuing employment at the school in the upcoming academic year.

7.2.2. The form must be received prior to the end date of an instructor's current contract to ensure uninterrupted reimbursement.

7.2.3. Schools are reimbursed only when there is a current form on file at the JIRO.

8.0 SEPARATIONS, TRANSFERS, DECERTIFICATIONS, AND DISESTABLISHMENTS

8.1 Separations

Each employing school must forward a DD 2767, or termination letter, containing the applicable date to the JIRO immediately upon the separation or death of an instructor. Separation of an instructor occurs when that instructor resigns his or her position at a specific school. If notification is not received in a timely manner, then future reimbursement to the school must be adjusted by the JIRO to reflect the actual period of time the instructor performed duties as a JROTC instructor and to collect any over reimbursement.

*8.2 Transfers

A transfer of an instructor occurs when he or she resigns the position at one school and accepts a position at another school. Transfers must be processed as a separation from one school and a new hire at another school. Both the losing and gaining schools must forward to the JIRO a DD 2767. The instructor must immediately forward an updated DD 2754, as stipulated in paragraph 7.4, to the JIRO. [The locality pay will be adjusted based on the JSIPS locality table for the new school. The pay scale used for relocations/transfers will be based solely on grade and highest academic degree held. Relocation assistance allowance may be available for JROTC instructors who relocate to fill hard-to-fill locations pursuant to 10 U.S.C. § 2031\(e\)\(1\).](#)

8.3 Decertification

A Military Service may, for cause, decertify a JROTC instructor for employment eligibility. The IMD must immediately notify the JIRO of those instructors who have been decertified and currently are under contract with a school. Future reimbursement to the school must be adjusted by the JIRO to reflect the actual period of time the instructor performed duties as a JROTC instructor and to collect any over reimbursement.

8.4 Disestablishment of JROTC Units

Disestablishment of a JROTC unit normally occurs upon determining that the unit will not meet the standards specified by the Military Service, or the unit cannot maintain the statutory minimum student enrollment. The disestablishment of a unit voids the contract between the Military Service and the school. Therefore, instructor pay reimbursements to the school are terminated, and the JIRO must authorize final reimbursement to, or initiate collection action from, the school.

9.0 FINANCIAL MANAGEMENT

9.1 Military Service Responsibilities

Each Military Service will be the holder and manager of its JROTC funds. The JIRO concerned must authorize and assign the funds to the proper line of accounting and verify each JROTC instructor's pay computation and associated reimbursement amount for each school for accuracy prior to disbursement by the designated paying office. The JIRO also monitors the budget execution throughout the assignment of the JROTC instructor.

9.2 Military Pay Operations Responsibilities

Based on the authorization received from the JIRO and verification of fund availability, military pay operations certifying officers will perform payment certification and submit to the designated paying office for all school disbursements. Certifying officers must be appointed in accordance with Volume 5, Chapter 5. Reimbursement to DoDDS must be made via a separate IPAC transfer that cites the applicable appropriation provided for DoDDS.

9.3 Designated Paying Office Responsibilities

Reimbursement to the school must be made only after the JIRO concerned has verified the payroll data, authorized fund availability, received concurrence from the appropriate accounting office, and after military pay operations has provided certification. The Defense Finance and Accounting Service (DFAS) designated paying office will disburse funds for school reimbursements based upon an [SF 1034](#), Public Voucher for Purchases and Services Other Than Personal, for each of the Military Service's payments to the school districts. Funds must be sent via EFT to the financial institution of the school, with the exception of reimbursements to the DoDDS schools, which are transferred via the IPAC system.

10.0 IDENTIFICATION AND COLLECTION OF JROTC-RELATED DEBTS

10.1 Debt Identification

The JIRO is responsible for debt identification. A debt accrues when a school or school district is over-reimbursed for the pay of an instructor(s). The following are examples of when debts might accrue:

10.1.1. Instructor transferred to another school. This possibly results in the losing school being over-reimbursed and the gaining school being under-reimbursed;

10.1.2. Instructor separated from instructor program;

10.1.3. Instructor dies; or

10.1.4. Instructor's contract ending date changed, thereby shortening the contract period.

10.2 Debt Collection Process

10.2.1. Collection of a debt is accomplished by a fully documented adjustment to the amount of reimbursement paid to the school for the next calendar month, with one exception. When a debt is owed by a school that no longer has JROTC instructor(s), and is not due any further reimbursements, collection action will be in accordance with Volume 16, Chapter 5.

10.2.2. In those instances, in which a school does not have a future reimbursement to adjust/offset, the JIRO must initiate collection action from the school directly via the use of a demand letter. See Volume 16, chapter 5 for the policy requirements and guidance. Amounts collected must be forwarded to the JIRO as the debt collection office.

10.2.3. After the JIRO has completed all related actions specified in Volume 16, Chapter 5, paragraph 5.2, uncollected debts 90 days delinquent must be referred to the DFAS Debt Management Office, which will refer debts that become delinquent for over 120 days to the Bureau of the Fiscal Service for further collection action, as prescribed in [31 U.S.C. § 3716\(c\)\(6\)\(A\)](#).

VOLUME 10, CHAPTER 22: “PAYMENT RECOVERY AUDITS”**SUMMARY OF MAJOR CHANGES**

Changes are identified in this table and also denoted by *blue font*.

Substantive revisions are denoted by an * symbol preceding the section, paragraph, table, or figure that includes the revision.

Unless otherwise noted, chapters referenced are contained in this volume.

Hyperlinks are denoted by ***bold, italic, blue, and underlined font***.

The previous version dated *May 2021* is archived.

PARAGRAPH	EXPLANATION OF CHANGE/REVISION	PURPOSE
All	Updated hyperlinks and formatting to comply with current guidance.	Revision
5.2	Streamlined the policy concerning reporting requirements by removing redundant information and referring readers to Section II.4.5 of the Office of Management and Budget Circular A-136, dated June 3, 2022, and Volume 4, Chapter 14.	Revision

CHAPTER 22

PAYMENT RECOVERY AUDITS

1.0 GENERAL

1.1 Overview

All programs or activities, as defined by Office of Management and Budget ([OMB Circular A-123, Appendix C](#)), with annual payments that exceed \$1 million must implement and utilize a cost-effective recovery audit and activities program to recover improper payments. Recovery audit requirements apply to all types of payments, except for intra-governmental transactions.

1.2 Purpose

This chapter establishes the DoD policy for implementation of recovery audits in accordance with the laws and regulations cited herein.

1.3 Authoritative Guidance

This chapter establishes policies and requirements based on the Payment Integrity Information Act (PIIA) of 2019 ([Public Law 116-117](#)), as codified in [Title 31, United States Code \(U.S.C.\), Chapter 33, Subchapter IV](#). Except for sections specifically noted in the PIIA, the PIIA supersedes and repeals the Improper Payments Information Act of 2002, the Improper Payments Elimination and Recovery Act (IPERA) of 2010 (31 U.S.C. § 3301 note), and the Improper Payments Elimination and Recovery Improvement Act of 2012 (31 U.S.C. § 3321 note). This chapter also incorporates associated implementing guidance found in OMB Circular A-123, Appendix C, and the financial reporting requirements of [OMB Circular A-136](#).

2.0 DEFINITIONS

2.1 Recovery Audit

A recovery audit is a review and analysis of an agency's or program's accounting and financial records, supporting documentation, and other pertinent information supporting its payments, that is specifically designed to identify overpayments. It is not an audit in the traditional sense covered by Generally Accepted Government Audit Standards. Rather, it is a detective and corrective control activity designed to identify and recapture overpayments, and, as such, is a management function and responsibility (OMB Circular A-123, Appendix C).

2.2 Recovery Audit and Activities Program

This is a Component's overall plan for risk analysis and the performance of recovery audits and recovery activities. The agency head will determine the manner and/or combination of

recovery activities to use that are expected to yield the most cost-effective results. These activities should include a management improvement program if appropriate. A copy of the Consolidated DoD Recovery Audit and Activities Program Plan must be provided to the DoD Inspector General (DoDIG) annually.

2.3 Recovery Activities

A recovery activity includes any activity, not defined as a recovery audit (see paragraph 2.1), used by an agency to identify and recapture overpayments. Recovery activities include but are not limited to review of Single Audit reports; self-reported overpayments, statistical samples conducted under PIIA; and agency post-payment reviews.

2.4 Recovery

Recovery refers to the return of a monetary loss-type improper payment to the agency. This can occur as a result of recovery audits or recovery activities.

2.5 Cost-Effective Recovery Audit and Activities Program

A cost-effective recovery audit and activities program is one in which the benefits (i.e., recovered amounts) exceed the costs (e.g., staff, time, resources, or payments for the recovery audit contractor) associated with implementing and overseeing the program. Each agency will determine the most cost-effective combination of recovery activities and recovery audits as part of their Recovery Audits and Activities Program.

2.6 Improper Payment

An improper payment is any payment that should not have been made, or that was made in an incorrect amount, under statutory, contractual, administrative, or other legally applicable requirements. Incorrect amounts are overpayments or underpayments that are made to eligible recipients. An improper payment also includes any payment that was made to an ineligible recipient, for an ineligible good or service, or for goods or services not received (except for such payments authorized by law). See Volume 4, Chapter 14 for additional details on improper payments and reporting requirements.

2.7 Overpayment

An overpayment refers to a payment in excess of what is due. When an overpayment occurs, the improper amount is the difference between the amount due and the amount of which was actually paid. Overpayments are improper payments resulting in a monetary loss.

2.8 Monetary Loss

Monetary loss to the Federal Government is an amount that should not have been paid and in theory should/could be recovered. A monetary loss-type improper payment is an overpayment.

2.9 Recovery Audit Contingency Contract

This type of contract is for recovery audit services in which the contractor is paid for its services as a percentage of overpayments actually collected. Clear evidence of overpayments must be provided by the contractor to the appropriate Component official.

2.10 Post-Award Audit

A post-award audit refers to a post-award examination of the accounting and records of a payment recipient that is performed by a Component official, or an authorized representative of a Component official, pursuant to the audit and records clauses incorporated into the contract or award. An audit is normally performed by an internal or external auditor that serves in an advisory capacity to the Component official. A post-award audit, as distinguished from a recovery audit, is normally performed for the purpose of determining if amounts claimed by the recipient are in compliance with the terms of the award or contract, and with applicable laws and regulations. Such reviews involve the recipient's accounting records, including the internal control systems.

3.0 DoD RECOVERY AUDIT AND ACTIVITIES PROGRAM

3.1 Applicability

3.1.1. As prescribed by OMB Circular A-123, Appendix C, the Component head will determine the manner and/or combination of payment recovery activities to use within the agency's recovery audit and activities program that are expected to yield the most cost-effective results.

3.1.2. If a Component concludes that implementing this type of review for a program or activity is not cost-effective, then it must submit a quantitative justification to the Office of Under Secretary of Defense (Comptroller) (OUSD(C)), Office of the Deputy Chief Financial Officer (ODCFO), Financial Management Policy and Reporting (FMPR) Directorate, for approval.

3.1.3. When determining the cost-effectiveness of the use of recovery audit contingency contracts, any Defense Finance and Accounting Service (DFAS) resources used to assist the recovery audit contractor must be taken into consideration. This includes the cost of providing government records, researching claims, and recovering amounts due the government. See the OMB Circular A-123, Appendix C, for additional information concerning specific criteria agencies are to consider in determining the cost-effectiveness of a recovery audit and activities program.

3.1.4. Recovery audits will be implemented in a manner designed to ensure the greatest financial benefit to the Component. In most cases the combination of payment recovery activities, predominantly internal controls, are expected to yield the most cost-effective and beneficial results. Recovery Audit and Activities, coupled with the financial management roles and responsibilities for all of the PIIA established programs, will ensure timely overpayment corrective actions and streamlined recoupment processes.

3.1.5. Components will report the results of their recovery audit and activities program in accordance with [section 5.0](#) and OMB Circular A-136, Financial Reporting Requirements.

3.2 Annual Plan Submission

3.2.1. All Components that expend \$1 million or more annually for each program and activity must perform a reassessment of their annual recovery audit plan to determine its validity, and provide any updates or improvements to their plan not later than August 31 of each year, for use during the upcoming fiscal year (FY) to:

OUSDC/ODCFO/FMPR
1100 Defense Pentagon – Suite 3D150
Washington, DC 20301-1100

3.2.2. At a minimum, this plan must include:

3.2.2.1. A cost-effectiveness analysis;

3.2.2.2. The estimated total dollar amount of payments by program or activity for the current FY;

3.2.2.3. Any additional collection/recovery audits and/or risk mitigation activities the Component plans to use in addition to its current DoD recovery audit and activities program;

3.2.2.4. The dollar amount of payments the Component plans to review using these additional activities or audits;

3.2.2.5. What entity will perform the recovery audits (internal, external, or contractor resources);

3.2.2.6. The proposed methodology; and

3.2.2.7. The period of review.

3.2.3. In addition, if the Component head determines that performing recovery audit activities is not cost-effective for certain categories of disbursements, as further described in paragraph [6.2](#), the quantitative justification must be included in this plan.

3.3 Establishing Targets for Recovery Audit and Activities Programs

For each recovery audit and activities program established, annual recovery targets must be set. DoD is required to establish annual targets for their recovery audit and activities programs for each Department established PIIA program (i.e., Civilian Pay, Military Pay for each Branch, Commercial Pay, Travel Pay, Retired and Annuitant) that will drive their annual performance. Targets will be based on the rate of recovery (i.e., the amount of improper contract overpayments recovered divided by the amount of improper contract overpayments identified) and are expected

to be set to show an increase in recoveries over time. Each Component will provide their annual recovery targets to OUSD(C)/ODCFO/FMPR for review and approval (see paragraph 3.2). The OUSD(C)/ODCFO/FMPR, in turn, will submit targets to OMB for review as part of the annual approval process of Agency Financial Reports (AFR) and Performance and Accountability Reports (PAR), coupled with the OMB Annual PIIA Tables and Data call submission.

4.0 OVERPAYMENT IDENTIFICATION

While it is preferable that Components focus efforts toward preventing overpayments from occurring, it is important for Components to have cost-effective means to both identify and recover overpayments if they do occur. Components use a variety of policies and activities to identify and recover overpayments. The following subsections and examples, which come directly from the OMB Circular A-123, Appendix C guidance, are not meant to provide an exhaustive list of overpayment identification methods, rather they are meant to help Components strengthen their overpayment identification processes. Each Component must determine the most cost-effective method for their particular circumstances.

4.1 Reviews

Reviews are a mechanism Components use to assist with identification of overpayments across the Federal Government. This includes but is not limited to activities such as improper payment risk assessments conducted under PIIA, agency post-payment reviews, Budget Execution Monthly Reviews, Dormant Account Reviews, monitoring debt collection software to track recovery of overpayments, SF-50 vs. SF-52 validation, and Sampling and Estimation Methodology Plans conducted under PIIA.

4.2 Audits

The use of audits is a common mechanism that assists in identifying overpayments. Examples include but are not limited to performance of post-award audits, recovery auditing techniques such as data matching with Federal, State, and local databases, audit reports, GAO audits, DoDIG audits, and the results of the agency audit resolution and follow-up process.

4.3 Data Analytics

Using data analytics to identify overpayments is not only beneficial for identifying overpayments after they have occurred, but establishing a robust data analytics effort can move an agency from a “pay-and-chase” approach to a predictive approach allowing the agency to identify potential improper payments before they even occur. There are a wide range of analytics techniques available such as rule-based, anomaly detection, predictive analytics, network/link analytics, or text analytics. Examples of analytics approaches used to identify overpayments include, but are not limited to, using data analytics to monitor and detect misuse in ongoing complex contracts, to monitor and detect misuse in Government purchase cards, for identifying above average payments to a vendor, for identification of duplicate payments, or to identify amounts exceeding purchase orders.

4.4 Reports

While reports are in a “pay-and-chase” status, programs can often use the reports to help identify weaknesses in internal controls that, if strengthened, could prevent future overpayments from occurring. Examples of such reports include, but are not limited to, GAO reports, reports from the public such as new media, or self-reported errors.

4.5 Reconciliations

Reconciliations are a common accounting mechanism which identify overpayments. Examples include but are not limited to conducting contract reconciliations by comparing invoices, receiving reports, and payments; verifying the terms of the contract have been met and are properly recorded, performing reporting and accounting outlays reconciliations, performing service provider payroll disbursement reconciliations, performing general ledger gross pay file reconciliations, or reconciling employee data with the accounting and disbursing systems. When overpayments are identified through reconciliation programs, Components should review their internal controls and determine whether additional mitigation strategies should be established to prevent the overpayments from occurring in the future.

5.0 REQUIRED REPORTING

5.1 Annual Reporting

Components must report annually on their recovery audit and activities programs. Components must consult with the DFAS Enterprise Audit Support & Compliance to ensure proper coverage of improper payments and payment recovery actions and to prevent duplicate reporting. Components must inform OUSD(C)/ODCFO/FMPR if suspension or limitation occurs in the Component monitoring/oversight activities. In order to meet the AFR reporting schedule, Component reporting of their recovery audit and activities program is due no later than the dates established in the annual Consolidated DoD Recovery Audit and Activities Program Plan.

[*5.2 OMB Circular A-136 Required Reporting](#)

5.2.1. The DoD must report in accordance with the annual update to OMB Circular A-136, Financial Reporting Requirements. The following must be addressed in the AFR or PAR:

5.2.1.1. Actions taken to address auditor recovery recommendations; and

5.2.1.2. Fraud reduction reporting. Instances of potential fraud discovered through recovery audit activities must be reported in accordance with Volume 5, Chapter 6.

[5.2.2. Refer to OMB Circular A-136, Section II.4.5 \(Payment Integrity Information Act Reporting\), and Volume 4, Chapter 14, for Payment Integrity Information Act Reporting requirements.](#)

6.0 SCOPE OF DoD RECOVERY AUDIT ACTIVITIES

6.1 Dollar Threshold

All programs and activities that expend \$1 million or more annually, including grant, benefit, loan, and contract programs, must be considered for recovery audits. All classes of contracts and contract payments, as well as all other types of payments (excluding intra-governmental transactions), must be considered for recovery audit activities. Components that disburse payments must review the different types of payment categories and identify those categories that have a higher potential for recoverable payment errors that will ensure the greatest financial benefit to the government. Once this assessment is performed, the Component must then determine the overall cost-effectiveness of performing recovery audits.

6.2 Possible Exclusions

Agencies may exclude payments from certain programs from recovery audit activities if the agency determines that recovery audits are not a cost-effective method for identifying and recovering overpayments or if other mechanisms to identify and recover overpayments are already in place. Common mechanisms used to identify overpayments within a recovery audit include: statistical samples and risk assessments, agency post-payment reviews, prior payment recovery audits and activities, Office of Inspector General reviews, Government Accountability Office reports, self-reported errors, reports from the public, audit reports, and the results of the agency audit resolution and follow-up process. If an agency elects to exclude a class of payments or contracts from payment recovery activities or audits, the justification for this exclusion must be included in their annual plan and annual report (see [sections 3.0](#) and [5.0](#)).

6.3 Required Root Cause Analysis

In addition to identifying and documenting specific overpayments resulting from payment errors, any entity performing recovery audits must also analyze the reasons why payment errors occurred and, where appropriate, recommend cost-effective controls to prevent such overpayments in the future. These results must be presented to management on a regular basis. The results of such analysis, and related recommendations, should be considered by the Component as part of its management improvement program. The Component will provide such information to DFAS, the DoDIG, and where applicable, the IG of the Military Service.

7.0 ROLE AND RESPONSIBILITIES OF THE DoD COMPTROLLER'S OFFICE

7.1 Role

To facilitate compliance with OMB Circular A-123, Appendix C, the ODCFO assigned reporting responsibility for this function to the OUSD(C), FMPR Directorate. This reporting function is part of the OUSD(C) oversight responsibility for DoD's annual recovery audit reporting in the AFR.

7.2 Responsibilities

The Comptroller's FMPR Directorate is responsible for:

7.2.1. Serving as the Executive Agent (EA) for the DoD Payment Integrity program. As the EA for the DoD Payment Integrity program, the FMPR Directorate provides oversight to the DoD Components to ensure compliance with the PIIA and/or OMB Circular A-123, Appendix C, requirements;

7.2.2. Reviewing the Components' annual recovery audit plan submissions as described in paragraph 3.2 to ensure completeness;

7.2.3. Reviewing the annual submission of recovery audit reports described in section 5.0 to ensure the reporting requirements are met;

7.2.4. Preparing and submitting Department-wide recovery audit results and mandatory reports as described in OMB guidance, and any related information for submission to OMB, publication in the AFR, and other required reporting; and

7.2.5. Preparing the Department-wide recovery audit and activities plan reassessment based on pertinent overpayment recovery methods or improvements identified by the Components during the FY, for submission to the DoDIG.

8.0 ROLE AND AUTHORITY OF THE OFFICE OF THE INSPECTOR GENERAL (IG)

8.1 No Impairment of Inspectors General Authority

Nothing in this policy should be construed to impair the authority of an IG under the [Inspector General Act of 1978](#), as amended, or any other law. However, because the recovery audit program required by this policy is an integral part of Components' internal control over payments, and therefore a management function, independence considerations would normally preclude the IG and other Component external auditors from carrying out management's recovering audit program.

8.2 Effectiveness Assessment

The IG, as well as other authorized auditors, are encouraged to assess the effectiveness of Components' recovery audit programs as part of their internal control assessment on existing audits (e.g., the annual financial statement audit, or as a separate audit).

9.0 SOURCES TO PERFORM RECOVERY AUDITS

Recovery audits may be performed by employees of the Components, by any other Component, department, or agency of the U.S. Government acting on behalf of the Component, or by private sector contractors performing recovery audit services under contracts awarded by the Component, or any combination of these options.

10.0 RECOVERY AUDIT SERVICES PERFORMED BY CONTRACTORS

10.1 Use of External Contractors

When Components have determined that using external post-payment recovery audit contractors (i.e., recovery audit contingency contract) is the most cost-effective plan, they must update their current recovery audit plan with the detailed cost effectiveness breakdown, including terms of the contract, and submit to OUSD(C) FMPR for approval prior to executing the contract. These private sector firms may, with the consent of the employing Component, communicate with the Component's contractors for the purpose of verifying the validity of potential payment errors they have identified. In addition, to avoid confusion with established accounts receivable/debt management processes, Components must coordinate with the DFAS, [Enterprise Solutions and Standards](#), Accounts Receivable Office (JJA) at 8899 East 56th Street, Indianapolis, IN 46249 to determine whether direct communication with the Component's contractors is authorized.

10.2 Contingency Fee Requirement

Contracts entered into by Components to obtain recovery audit services from the private sector are limited to contingency contracts that pay the contractor an amount equal to a negotiated percentage of the total amount collected by the United States for valid claims of overpayment. However, certain types of payments recovered may not be available to pay the recovery audit costs (for instance, amounts recovered due to interim improper payments made under ongoing contracts if these amounts are still needed to make subsequent payments under the contract, or amounts recovered from closed accounts). Components may allow contracted recovery auditors to establish a presence on, or visit, the property, premises, or offices of any subject of recovery audits. Such physical presence is not prohibited, and may allow the recovery auditor to perform a more thorough review of the subject's payments and related documentation.

10.3 Actions of External Contractors

The recovery audit contractor may, with the consent of the contracting Component, notify entities, including individuals, of potential overpayments made to those entities, respond to questions concerning potential overpayments, and take other administrative actions with respect to overpayment claims made, or to be made, by the Component.

10.4 External Contractor Prohibitions

In addition to provisions that describe the scope of recovery audits (and any other provisions required by law, regulation, or Component policy), any contract with a private-sector firm for recovery audit services will include contract provisions that prohibit the recovery audit contractor from:

10.4.1. Having the authority to make a final determination relating to whether any overpayment occurred or whether to compromise, settle, or terminate an overpayment claim;

10.4.2. Requiring production of any additional records or information from the Component's contractors. Only duly authorized employees of the Component can compel the production of information or records from the Component's contractors, in accordance with applicable contract terms and DoD regulations;

10.4.3. Using or sharing sensitive financial information with any individual or organization, whether associated with the Federal Government or not, that has not been officially released for use by the general public, except for an authorized purpose of fulfilling the recovery audit contract; or

10.4.4. Disclosing any information that identifies an individual, or could reasonably be used to identify an individual, for any purpose other than as authorized for fulfilling its responsibilities under the payment recapture audit contract.

10.5 Safeguarding Confidentiality

Components will require the recovery audit contractor to take steps to safeguard the confidentiality of sensitive financial information that has not been released for use by the general public and any information that could be used to identify a person.

10.6 Minimum Contract Requirements

At a minimum, each contract for recovery audit services will require the contractor to:

10.6.1. At least quarterly, provide reports to the DoD disbursing Component on the root cause conditions causing the overpayments identified and recommendations on how to mitigate such conditions;

10.6.2. Notify the DoD disbursing Component of any overpayments identified by the recovery audit contractor pertaining to any Component that is beyond the scope of the contracts; and

10.6.3. Report potential instances of fraud immediately to the DoD disbursing Component for which it is performing the contract. The Component will further review and refer to its IG, if appropriate. Contractors and all personnel performing recovery audits must be trained to recognize evidence of fraud and vulnerability to fraud.

11.0 RECOVERY AUDIT COLLECTION ACTIVITY

Actual collection activity must be carried out by federal employees, or nonfederal entities expending federal awards, as appropriate. However, Components or nonfederal entities may use another private sector entity, such as a private collection agency, to perform this function if this practice is permitted by applicable laws and regulations governing collection of amounts owed to the Federal Government.

12.0 DISPOSITION OF AMOUNTS RECOVERED

12.1 Amounts Collected

PIIA and 31 U.S.C. Chapter 33 prescribe that amounts collected under a recovery audit program from expired discretionary fund accounts are available to reimburse the actual expenses incurred by a Component in administering the program, and to pay contractors in accordance with applicable law and regulation, if appropriate. As prescribed by [31 U.S.C. § 3352\(i\)\(2\)\(H\)](#), the disposition guidance in [paragraph 12.2](#) does not apply to the recovery of an overpayment if the appropriation from which the overpayment was made has not expired. In those cases, the collection will be credited to the appropriation or funds from which the original disbursement was made. As prescribed by OMB Circular A-123, Appendix C, any recovered overpayments that pertain to canceled/closed appropriations must be credited to Treasury Miscellaneous Receipts. Please refer to the OMB Circular, A-123, Appendix C, pages 38-42, for flowcharts and tables depicting the disposition requirements.

12.2 Uses of Amounts Collected

Except as provided in [paragraph 12.3](#), 31 U.S.C. § 3352(i)(2) requires that any expired discretionary amounts collected (recovered) through recovery audits, that were appropriated after the date of IPERA's enactment (July 22, 2010), and that are not used to reimburse expenses of the Component or pay recovery audit contractors under [paragraph 12.1](#), may be used in the following manner:

12.2.1. Up to 25 percent of the recovered funds may be used to supplement (but not supplant) any other amounts available to support the Component's financial management improvement program, and will remain available until expended. Such funds can be passed to nonfederal entities, such as state and local governments, if the agency determines that is the best disposition of the funds to support its financial management improvement program;

12.2.2. Up to 25 percent of the recovered funds may be used for the original purpose of the fund. The funding will be credited to the appropriation or fund, if any, available for obligation at the time of collection for the same general purposes as the same appropriation or fund for which the overpayment was made, and will remain available for the same period of availability and purposes as the appropriation or fund to which credited;

12.2.3. Up to 5 percent of the recovered funds may be made available to the Component's IG. The IG may use this funding to carry out the law's requirements, and perform other activities relating to investigating improper payments or auditing internal controls associated with payments. This funding will remain available for the same period of availability and purpose as the appropriation or fund to which it is credited; or

12.2.4. The remainder of the recovered expired or closed/canceled discretionary funds that are not applied in accordance with subparagraphs [12.2.1 through 12.2.3](#) must be deposited in the Treasury as miscellaneous receipts, except recoveries of overpayments that are made from trust or special fund accounts must revert to those accounts (31 U.S.C. § 3352(i)(2)(H).)

12.3 Return of Collections to Original Appropriation

As prescribed by OMB Circular A-123, Appendix C, recovered overpayments from unexpired discretionary fund accounts (still available for obligation) that were appropriated after enactment of IPERA (July 22, 2010) must be credited to the account from which the overpayments were made without using it for any purposes outlined in [paragraphs 12.1 or 12.2](#). Recovered overpayments from revolving funds, working capital funds, non-appropriated funds, and appropriations with indefinite periods of availability must be refunded to such accounts.

12.4 Other Uses of Collections

When required or authorized by other provisions of law, any funds remaining after reimbursing the actual expenses for the administration of the program and paying recovery audit contractors may be credited to the non-appropriated fund instrumentality, revolving fund, working capital fund, trust fund, or other fund or account from which the improper payments were made. For example, a recovery audit contractor may identify an improper payment during its review of a Defense Agency's working capital fund. Upon recovery of the payment, the Component could use the proceeds recovered to reimburse the Department's administration expenses and pay the recovery audit contractor's contingency fee. The remaining balance, if any, could then be credited back to the Component's working capital fund.

12.5 Contingency

Contingency fee contracts will preclude any payment to the contractor performing recovery audit services until the recoveries are actually collected by the Component.

12.6 Accounting for and Reporting Collections

All funds collected, and all direct expenses incurred, as part of the recovery audit and activities program will be accounted for specifically. The identity of all funds recovered must be maintained to facilitate the crediting of recovered funds to the correct appropriations, to identify applicable time limitations associated with the appropriated funds recovered, and to allow for required reporting in compliance with OMB Circular A-136.

12.7 Unconfirmed Overpayments

Overpayments that are identified by a recovery auditor, but that are subsequently determined not to be collectable or not to be improper, will not be considered "collected" for disposition purposes outlined in this section.

12.8 Separate Statutory Authorities

Programs and payments that have separate statutory authority and requirements to conduct recovery audits are not required to follow the disposition of recovered funds outlined in [section 12.0 or 13.0](#) (in accordance with OMB Circular A-123, Appendix C). As an example, the General Services

Administration audits transportation payments for improper payments. Reference Chapter 13 for additional details.

13.0 DISPOSITION OF RECOVERED AMOUNTS BEFORE IPERA

Components may review payments made from appropriations that were enacted before IPERA was signed into law (July 22, 2010), and have the same authorities to credit collections as existed before IPERA was enacted. OMB Circular A-123, Appendix C, provides detailed guidance for the disposition of recovered amounts prior to IPERA enactment. For recoveries of funds appropriated prior to IPERA's enactment, Components may use the recovered funds for reimbursement of Component expenses and to pay the recovery audit contractor. For those funds appropriated prior to IPERA's enactment that have expired, and after reimbursement of Component expenses and payment to the recovery audit contractor, any remainder of the recovered funds must be returned to the expired account(s). If the appropriation is canceled, the funds must be credited to Treasury Miscellaneous Receipts.

14.0 GRANT PROGRAMS

Components whose grant programs fund significant contract activity by grant recipients may consider including contracts at the grant recipient level in their recovery audit and activities program. Components can engage contractors on a contingency basis to the extent otherwise authorized by law.

VOLUME 10, CHAPTER 23: “PURCHASE CARD PAYMENTS”**SUMMARY OF MAJOR CHANGES**

Changes are identified in this table and also denoted by [blue font](#).

Substantive revisions are denoted by an asterisk (*) symbol preceding the section, paragraph, table, or figure that includes the revision.

Unless otherwise noted, chapters referenced are contained in this volume.

Hyperlinks are denoted by [bold, italic, blue, and underlined font](#).

The previous version dated [March 2021](#) is archived.

PARAGRAPH	EXPLANATION OF CHANGE/REVISION	PURPOSE
All	Updated hyperlinks and formatting to comply with current administrative guidance.	Revision
Throughout	Revised all terminology of “vendor” to “merchant” to more closely align with Defense Pricing and Contracting (DPC) policy and guidance.	Revision
Throughout	Revised most references of “DoD Governmentwide Commercial Purchase Guidebook (the “Guidebook”) to “DoD GPC Policy” as the DPC website contains more policies and guidance than just the Guidebook.	Revision
Throughout	Revised terminology of “billing statement” to “Statement of Account” to more closely align with DPC policy and guidance.	Revision
2.3	Added a reference and link to the DPC “Final Governmentwide Commercial Purchase Card Disciplinary Category Definitions Guidance” for terminology and definitions of the specific categories of improper purchase card transactions.	Addition
2.7.2.	Added a reference and link to DPC’s “SP3 Transition Memorandum #9” to provide policy and clarification regarding refund review and validation requirements.	Addition
3.7.1.	Clarified purchase log entry and maintenance requirements in the bank’s Electronic Access System, as prescribed by DoD Government Purchase Card (GPC) Policy.	Addition
4.3	Added a section to prescribe the role and responsibilities of the Component Program Manager based on input from the DPC GPC Program Office.	Addition
5.2.1.	Added clarification of the cardholder’s review process based on input from the DPC GPC Program Office.	Revision

PARAGRAPH	EXPLANATION OF CHANGE/REVISION	PURPOSE
5.7	Clarified language concerning the process of disputing transactions.	Revision
6.6.1.	Revised the review requirements for convenience check transactions in accordance with the “DoD SmartPay® 3 Government-wide Commercial Purchase Card Policies, Procedures and Tools – SP3 Transition Memorandum #6.”	Revision

CHAPTER 23

PURCHASE CARD PAYMENTS

1.0 GENERAL

1.1 Purpose

This chapter provides DoD policy for financial management-related activities within the purchase card program, [including convenience check writing](#). This chapter supplements general payment policy described in other chapters, as well as [DoD Government-wide Commercial Purchase Card Program Policy](#) (hereafter referred to as [DoD GPC Policy](#)), and Office of Management and Budget [\(OMB\) Circular A-123, Appendix B](#). The DoD GPC Policy includes the [DoD Government Charge Card Guidebook](#) (hereafter referred to as the Guidebook) for Establishing and Managing Purchase, Travel, and Fuel Card Programs. These documents assist DoD officials in establishing and managing purchase card programs.

1.2 Authoritative Guidance

1.2.1. This chapter establishes policy based on the statutory and regulatory requirements spelled out in [Title 10, United States Code \(U.S.C.\), section 4754](#); the Federal Acquisition Regulation [\(FAR\), Part 13](#); the Defense Federal Acquisition Regulation Supplement [\(DFARS\), Part 213; DFARS PGI 213.301](#); [DoD GPC Policy](#); and the current General Services Administration (GSA) [SmartPay®](#) master contract and applicable task orders.

1.2.2. The Office of the Under Secretary of Defense for Acquisition and Sustainment (OUSD(A&S)) [and the DoD Component Program Managers \(CPM\)](#) are responsible for oversight of the purchase card program, to include policy formulation and procedural guidance. The Defense Contract Management Agency participates in operational oversight of the purchase card program administered by DoD Components.

2.0 PURCHASE CARD POLICY

2.1 [Overview](#)

2.1.1. Through task orders issued on the GSA master contract [\(SmartPay®3\)](#), the DoD uses third party, card-issuing banks to support the purchase card program. The card-issuing banks provide a commercial purchase and payment service that replaces the paper-based, time consuming purchase order process, thereby eliminating procurement lead time, providing transaction cost savings, and reducing procurement office workload. [The use of purchase cards also streamlines payment processes by consolidating transactions from multiple merchants for payment under a single invoice.](#) The suite of services offered by the card-issuing banks includes web-based [purchase log entry](#); electronic invoicing, statement review, approval, certification, [and reporting](#); [retention of transaction supporting data](#); as well as transaction data mining capabilities. Cardholders use purchase cards to make and/or pay for authorized government purchases, [place and pay for orders against contracts, make payments against approved](#) [Standard Form 182](#), Authorization, Agreement

and Certification of Training (as authorized in the DoD [Miscellaneous Payment Guidebook](#)), and pay for intragovernmental transactions. GPC transactions are subject to established limitations on transaction amount, billing cycle amount, and Merchant Category Codes (MCCs) as described in DoD GPC Policy.

2.1.2. A purchase card charge authorizes the card-issuing bank to make payment to the merchant or contractor consistent with the GSA master contract and these regulations. An authorized purchase is defined as a purchase that satisfies a bona fide need at a fair and reasonable price that meets all legal and regulatory requirements. Individuals responsible for purchase card violations (i.e., abuse, delinquency, internal fraud, or misuse) are subject to administrative and disciplinary actions as described in DoD GPC Policy and Component personnel policies and procedures.

2.1.3. Purchase card open market transactions are limited to the micro-purchase thresholds prescribed by [FAR 2.101](#), [10 U.S.C. § 3573](#), and [DFARS PGI 213.201\(g\)](#) that apply to the transaction being made. See DoD GPC Policy for specific guidance related to the application of current DoD micro-purchase thresholds. Any increase to a cardholder's delegated authority must be authorized by issuance and acceptance of a new Government Purchase Card Delegation of Procurement Authority Letter.

2.2 Audits

Pursuant to 10 U.S.C. § 4754(b)(14-15), the purchase card program is subject to periodic audits by the DoD Inspector General and the Military Services' audit agencies to determine whether the program complies with agency policy.

*2.3 Terminology for Unauthorized Purchase Card Transactions

Refer to DoD GPC Policy, OMB Circular A-123, Appendix B, Attachment 6, and DPC's "Final Governmentwide Commercial Purchase Card Disciplinary Category Definitions [Guidance](#)" for terminology and definitions of the specific categories of improper purchase card transactions, including guidance on what is reportable to OMB.

2.4 Purchase Card Accountable Officials

2.4.1. Within DoD, purchase card accountable officials are military members or civilian employees who are appointed in writing as cardholders, approving/billing officials, and certifying officers. Such appointments, made in accordance with Volume 5, Chapter 5 ([10 U.S.C. § 2773a](#) and [31 U.S.C. § 3528](#)), are necessary to establish pecuniary liability under the law governing accountable officials, other than those potentially liable under 10 U.S.C. § 4754(c). Accountable officials are responsible for providing information, data, or services to certifying or disbursing officers in support of the payment process, and are responsible for attesting to the accuracy of information and data in support of the payment to the card-issuing bank. In accordance with Defense Pricing and Contracting (DPC) memorandum, "Appointment of Government wide Commercial Purchase Card Officials – [SmartPay®3 Transition Memorandum #3](#)," accountable officials within the DoD purchase card

program must be appointed within the Joint Appointment Module (JAM) of the Procurement Integrated Enterprise Environment (PIEE).

2.4.2. Foreign national employees cannot serve as purchase card [certifying officers](#) or accountable officials unless they are direct hire employees of the United States Government. However, prior to making such appointments, commanders must consider the potential consequences when the Status of Forces Agreements or other treaties do not subject direct hire local nationals to the same pecuniary liability or disciplinary actions as other DoD employees. If such appointments are necessary, commanders must consider implementing other management controls to compensate for the lack of pecuniary liability. Refer to Volume 5, Chapter 1 for policy regarding accountable officials and foreign national personnel.

2.5 Submission of Billing Statements

Policies, standards, and controls concerning the electronic submission, receipt, and processing of billing statements and transactions are contained in Chapter 8.

2.6 Delegation

As prescribed by [31 U.S.C. § 3325](#), the head of an executive agency may delegate the authority to assign personnel to perform the purchase card invoicing, reviewing, approving, and certifying responsibilities at the accountable official level. When authority is delegated, DoD Components will:

2.6.1. Designate each billing office, approving/billing official, [and/or certifying officer](#) within the Component's activities to receive the official purchase card billing statements; and

2.6.2. Delegate the authority to certify official purchase card billing statements in accordance with Volume 5, Chapters 1 and 5.

2.7 Purchase Card Refunds

2.7.1. The terms "rebate" and "refund" are used interchangeably throughout the CFR, OMB guidance, existing legislation, and this chapter. Timely payment of a purchase card billing statement is a refund computation factor. Purchase card billing statement payments must occur as soon as administratively possible when the refund offered is greater than the cost of funds as defined in [Title 5, Code of Federal Regulations \(CFR\), section 1315.8](#). The DoD will take advantage of refund offers only when it is economically justified and advantageous to the DoD. The DoD will follow the guidelines for taking discounts and refunds/rebates found in 5 CFR 1315.8; [FAR 32.906\(e\)](#); and OMB Circular A-123, Appendix B, Chapter 7. Billing statements will be paid for the amount certified. See Chapter 2 for additional information and policy concerning refunds/rebates.

* 2.7.2. Refunds attributable to the use of the purchase card may be credited to operation and maintenance; and research, development, test and evaluation accounts of the DoD which are current when the refunds are received ([see statutory note](#) "Crediting of Refunds" [within](#)

10 U.S.C. § [4754](#)). In accordance with OMB Circular A-123, Appendix B, Chapter 7, rebates/refunds can be used for any legitimate purchase by the appropriation or account to which they were returned, or as otherwise authorized by statute. Transaction credits, which are funds sent back to DoD from the contracted bank resulting from returned items, billing errors, overpayments, duplicate payments, or erroneous payments, must be credited to the original appropriation from which they were disbursed. See DPC's "[Refund Validation under SmartPay®3 - SP3 Transition Memorandum #9](#)" regarding DoD GPC refund validation requirements.

2.8 Compromised Account Numbers

If an account number is compromised, or if a card has been lost or stolen, the cardholder must notify the approving/billing official, certifying officer, agency/organization program coordinator (A/OPC), and the card-issuing bank to close the account immediately.

3.0 INTERNAL CONTROLS

3.1 [Overview](#)

All DoD Component purchase card program policies, implementing procedures, and enterprise risk management programs must ensure the inclusion of internal controls to prevent, detect, and report improper purchase card transactions. Refer to [DoD GPC Policy](#) and OMB Circular A-123, Appendix B, section 2.4.1 and Attachment 6, for terminology and definitions of improper or incorrect purchase card transactions.

3.2 Monthly Review

The monthly review checklist (Figure 23-1) is intended as a reference tool for use in examining the cardholder purchase card statement from the card-issuing bank. Use of the checklist will assist in delinquency management and avoid account suspensions. Refer to section [5.0](#) for cardholder, approving/billing official, and certifying officer responsibilities in the monthly statement review and reconciliation process.

3.3 Separation of Duties

Managers at all levels will maintain the effective operation of internal controls within the purchase card program and ensure adequate separation of duties of participants under their control. The management accountability and internal control requirements prescribed by [DoD GPC Policy](#), along with those outlined in Chapters 1 and 8, will apply to the operation of a DoD Component purchase card program.

3.4 Merchant Category Codes

MCCs are used to categorize each merchant according to the type of business in which the merchant is engaged and the kinds of supplies or services they provide. These codes are used to limit unauthorized transactions on a card account by blocking purchases from merchants [included](#)

in MCCs identified by OUSD(A&S) as **high risk** sources for government purchases. DoD policy concerning MCCs is contained in **DoD GPC Policy**.

3.5 Data and System Access

Cardholder, approving/billing official, certifying officer, A/OPC, and Resource Manager (RM) access to government and card-issuing bank's purchase card data and processing systems will be limited to that necessary to accomplish required tasks while maintaining proper separation of duties. Refer to **DoD GPC Policy** for specific requirements when such personnel transfer to other duties or depart from the organization.

3.6 Penalties for Unauthorized Use of the Purchase Card

Commanders and supervisors at all levels must ensure compliance with this chapter and the requirements of **DoD GPC Policy**. Military and civilian personnel who violate the provisions of this chapter or **DoD GPC Policy**, are subject to administrative and disciplinary action. In instances when an official directs a cardholder to purchase items or services that are subsequently determined to be violations, the official who directs the purchase may be subject to personal financial liability and to disciplinary action in accordance with OMB Circular A-123, Appendix B, Chapter 4, sections 2.5 and 2.10. See **DoD GPC Policy** for specific policies and requirements pertaining to disciplinary actions within the Government Charge Card Program.

3.7 Documentation

In accordance with 10 U.S.C. § 4754(b)(7), this Regulation, **records management policies**, and **DoD GPC Policy**, documentation will be maintained at all levels to support the integrity of the purchase card program and to facilitate the reconciliation and payment of purchase card transactions. **For purposes of disbursing**, supporting documentation **must** include copies of cardholder **billing** statements, charge tickets, credit slips and receipts, cardholder purchase log, invoices, delivery orders, approvals, requisitions, cross references to any related contract or purchase orders, **or** telephone and mail order logs.

* 3.7.1. Cardholders will establish clear audit trails for purchase card transactions by maintaining a purchase log and **creating a purchase log entry that includes all fields required in the DoD GPC Policy for each purchase requirement and maintaining transaction supporting documentation in the card issuing bank's Electronic Access System**. This ensures cardholder **billing** statements, **purchase log entries**, and supporting documentation **are** available to the approving/billing official and certifying officer. **This also fulfills electronic GPC disbursing office record retention requirements and supports auditability.**

3.7.2. Volume 1, Chapter 9, Figure 9-1 provides the policy regarding document retention requirements for financial transaction records related to procuring goods and services, paying bills, collecting debts, and accounting.

3.7.2.1. On a case-by-case basis, and when determined the records are necessary to complete reconciliation of payment, collection discrepancies, audit requirements, or for other

necessary purposes, an extension beyond the record retention period may be warranted. Refer to [44 U.S.C. § 2909](#) for authorization to retain records for a longer period than specified in disposal schedules.

3.7.2.2. In the event of account termination for both a cardholder and/or approving/billing official, management must ensure safeguards are in place to meet retention requirements.

3.7.3. In accordance with DPC memorandum, “Deployment of Procurement Integrated Enterprise Joint Appointment Module Government-wide Commercial Purchase Card Cardholder Appointment Capability – [SmartPay®3 Transition Memorandum #10](#),” the PIEE/JAM is the mandatory enterprise tool for [issuing](#) and [retaining](#) GPC program appointments.

4.0 RESPONSIBILITIES

4.1 Overview

The [reconciliation and account](#) certification process for [Statements of Account](#) received from the card-issuing bank involves a coordinated responsibility between the cardholder, approving/billing official, and the certifying officer. Every individual involved in the purchase card process must report suspected purchase card non-compliances, [improper transactions](#), or violations through the proper chain of command and in accordance with Component policies (refer to [DoD GPC Policy](#) for definitions of these transactions). They must also complete required initial and refresher training in accordance with [DoD GPC Policy](#), Component policy, and Volume 5, Chapter 5 requirements, and comply with the additional responsibilities for contingency operations and contracting events prescribed in the Guidebook, Appendix B.

4.1.1. Commanders and supervisors at all levels have the authority and the responsibility to ensure that military and civilian personnel under their supervision use purchase cards only as authorized. Commanders and supervisors are responsible for addressing purchase card non-compliances, [improper transactions](#) and [violations](#).

4.1.2. Purchase card disbursing and certifying officers are pecuniarily liable for illegal, improper, or erroneous payments, unless granted relief. Purchase card accountable officials may also be held pecuniarily liable. Policy concerning liability and relief of liability is available in Volume 5, Chapter 6.

4.2 Head of DoD Component

The Heads of DoD Components (or their designees) may delegate their authority in writing for the appointment of cardholders, approving/billing officials, [A/OPCs](#), [component program managers \(CPMs\)](#), and certifying officers (see Volume 5, Chapter 5 for additional policy concerning appointments). In addition, Heads of DoD Components are responsible for managing commanders, directors, or other designated officials and their delegated authority for carrying out their duties and responsibilities as prescribed in [DoD GPC Policy](#).

*4.3 Component Program Manager (CPM)

The CPM serves as the Service's or Agency's functional representative with the Program Management Office and is responsible for developing/maintaining hierarchies, ensuring subordinate CPMs and A/OPCs perform their functions/roles, and interfacing with DoD level program offices regarding card-issuing bank performance issues in accordance with the DoD GPC Policy.

4.4 Agency/Organization Program Coordinator

A/OPCs serve as the Agency's functional representatives and have oversight to manage and ensure the integrity of the purchase card program. The A/OPC is the individual appointed, as identified in [DoD GPC Policy](#), with responsibilities associated with the management, administration, and day-to-day operation of the purchase card program. The A/OPC will jointly work with the RM in setting and maintaining cardholder spending limits based on estimates of purchase requirements for the period or a budgetary limit. They may also assist the RM in providing guidance to the cardholder on any legal or regulatory restrictions on the funds provided.

4.5 Commanding Officer or Director

4.5.1. The military officer in command or the civilian director in charge of an activity has overall responsibility for implementing the purchase card financial management policies of this chapter. They have disciplinary authority over cardholders and approving/billing/certifying officials and must investigate all allegations of purchase card violations. The commanding officer or director must establish procedures for the activity that will permit rapid investigation and resolution of purchase card violations. They will convene or order an investigation in accordance with Volume 5, Chapter 6 and take all appropriate actions resulting from each investigation.

4.5.2. When authority has been delegated by the Head of the DoD Component, the commanding officer or director will appoint accountable officials in accordance with Volume 5, Chapter 5.

4.6 Payment Review Official

The review official is an individual that may be appointed by the commanding officer or director to perform pre- and/or post-payment reviews of payments and perform other duties in accordance with Volume 5, Chapter 5. The A/OPC may not be appointed as the review official.

4.7 Purchase Card Certifying Officer

The certifying officer is the individual responsible for the accuracy of payments, including designation of the proper appropriation(s) or other funds, certified to the disbursing office and disbursing officer. The certifying officer is liable for any illegal, improper, or erroneous payment processed by the DoD resulting from an inaccurate or misleading certification. The certifying officer's appointment must meet minimum qualifications and eligibility requirements as discussed in Volume 5, Chapter 5. While it is desirable to maintain the greatest separation of duties, it is not

always practical or possible. The certifying officer and approving/billing official duties may be performed by the same appointed person as discussed in Volume 5, Chapter 1. See Figures 23-1 and 23-2 for additional information concerning the monthly review checklist and certification statements. Purchase card certifying officers' responsibilities, as identified in Volume 5, Chapter 5, section 3.4 and [DoD GPC Policy](#) include, but are not limited to the following:

4.7.1. Ensuring transactions meet the legal requirements for authorized purchase card purchases;

4.7.2. Ensuring adequate documentation is available for individual transactions and cardholders have reconciled all transactions with purchase log entries;

4.7.3. Ensuring the facts presented in documents for payment are complete and accurate to include designation of the proper appropriation(s) or other funds;

4.7.4. Verifying the accuracy of computation of a voucher before certification;

4.7.5. Ensuring internal controls exist to prevent submission of duplicate invoices for the same transaction;

4.7.6. Ensuring all items and services have been received and procedures are in place to ensure transactions for items or services not received by the next billing cycle are disputed within the designated dispute timeline;

4.7.7. Ensuring the cardholder is familiar with the dispute process of the servicing bank and implementing dispute procedures when warranted. Refer to paragraph 5.7 regarding disputed transactions;

4.7.8. Reviewing and certifying the [Statement of Account](#) and forwarding it to the designated entitlement and/or disbursing office for payment processing. Figure 23-2 contains the language for the certifying officer's certification statement;

4.7.9. Ensuring [cardholder](#) billing statement transactions are reallocated to other accounting classifications, if necessary, prior to the actual certification of the invoice; and

4.7.10. Ensuring the [cardholder](#) billing statement and all original supporting documentation (e.g., receipts, logs, invoices, delivery orders, and approvals) is retained to comply with the requirements for record retention. This retention must capture and leverage origination of electronic data contained in automated systems so that it may be shared across the DoD's various platforms.

4.8 Approving/Billing Official

The approving/billing official is the individual, appointed by the commanding officer, director, or designee, with oversight responsibility for a number of cardholders to ensure that all purchase card transactions are necessary and for official government purposes only.

4.8.1. Approving/billing officials are responsible for providing information and data to certifying or disbursing officers in support of the payment process. A purchase card approving/billing official is responsible for attesting to the accuracy of information and data provided to a purchase card certifying officer in support of a payment to the card-issuing bank. Purchase card approving/billing officials are accountable and may be held pecuniarily liable for any erroneous payments that result from inaccurate information and data, including designation of the proper appropriation(s) or other funds, provided to a purchase card certifying officer, if the erroneous payment is the result of negligence relative to the performance of assigned duties.

4.8.2. The approving/billing official will review each cardholder's billing statement every month to verify the cardholder was authorized to purchase the items, the government has received the items, and all accountable property (including pilferable items as defined by the DoD Component) has been properly recorded on government property accountability records in accordance with Component procedures. The capitalization threshold and accountability requirements for property, plant, and equipment purchased are provided in Volume 4, Chapters 24-28. Each approving/billing official will have a reasonable span of control over cardholders in accordance with [DoD GPC Policy](#). The approving/billing official's responsibilities referenced in [DoD GPC Policy](#) include, but are not limited to the following:

4.8.2.1. Coordinating purchase card limits and MCC exclusions with the RM and A/OPC for cardholders under their purview;

4.8.2.2. Ensuring each cardholder fulfills his or her responsibilities as identified in [DoD GPC Policy](#);

4.8.2.3. Reviewing/reconciling his or her cardholder's [billing](#) statements and approving the statement when the cardholder cannot perform this function. A purchase card checklist, included as Figure 23-1, may be used as a tool by approving/billing officials and certifying officers to document due diligence in billing statement reviews;

4.8.2.4. Verifying all transactions are legal, proper, and mission essential in accordance with the FAR, DFARS, and DoD policies and regulations;

4.8.2.5. Ensuring monthly [Statement of Account](#) accuracy and forwarding the [monthly Statement of Account](#) and all original supporting documentation (e.g., receipts, logs, invoices, delivery orders, and approvals) to the certifying officer;

4.8.2.6. Reviewing, approving, and forwarding the [monthly Statement of Account](#) to the certifying officer (if not the same as the approving/billing official). Figure 23-2 contains the language for the approving/billing official's certification statement;

4.8.2.7. Resolving any questionable purchases with the cardholder;

4.8.2.8. Notifying the A/OPC of any personnel changes that may require cardholder or managing account closure;

4.8.2.9. Notifying the A/OPC and certifying officer (if not the approving/billing official) of any planned approving/billing official reassignment to other duties or departure from the installation or activity;

4.8.2.10. Notifying the A/OPC and certifying officer (if not the approving/billing official) of any lost/stolen cards (in addition to the cardholder notifying the card-issuing bank); and

4.8.2.11. Completing service and agency-specific training.

4.9 Authorized Cardholder

The cardholder is the individual appointed in accordance with the policies contained in [DoD GPC Policy and Volume 5, Chapter 5](#). [DoD GPC Policy](#) addresses the responsibilities of cardholders, their required use of a purchase log, and the responsibilities of others charged with cardholder and cardholder account management, [reconciliation](#), and oversight. From a financial management perspective:

4.9.1. A cardholder will ensure funds are available prior to making the purchase;

4.9.2. A cardholder will perform a review of the monthly cardholder [Statement of Account](#) as described in paragraph [5.2](#);

4.9.3. When a cardholder uses the card to make unauthorized transactions, ([see paragraph 2.3](#)), the cardholder may be liable for any illegal, improper, or erroneous payment resulting from those transactions, and be subject to pecuniary liability (including reimbursing the Government for unauthorized or erroneous purchases through salary offset) or appropriate adverse personnel actions; and

4.9.4. In cases where an erroneous charge is not disputed timely, the cardholder may also be held accountable.

4.10 Convenience Check Account Holder

The convenience check account holder is a military member or civilian employee appointed as prescribed in [DoD GPC Policy](#). [In addition to the responsibilities of an authorized cardholder addressed in paragraph 4.9](#), the convenience check account holder is [also](#) responsible for ordering, receiving, storing, [safeguarding](#), inventorying, reconciling, and disposing of check stock. Convenience check account financial management policy is addressed in section [6.0](#). The convenience check account holder is responsible for tax reporting for the convenience checks they issue and for obtaining a signed Internal Revenue Service ([IRS](#)) [Form W-9](#), Request for Taxpayer Identification Number and Certification, so that an [IRS Form 1099-MISC](#) can be issued to the convenience check payee. Reporting requirements are set forth at paragraph [6.3](#). The convenience check account holder will not perform the functions of approving/billing officials or certifying officers on the managing account for which they are a check writer. The commanding officer,

director, or designee with oversight responsibility will cancel the convenience check privileges of cardholders who improperly use convenience checks.

4.11 Resource Manager

The RM is the individual designated by an agency to record formal commitments and obligations into the accounting system. The RM will establish commitments in advance in amounts no less than the periodic purchase limits authorized for commercial purchase cards or at the purchase requisition level. Advance reservations of funds are established by the RM (or equivalent), in conjunction with the assigned A/OPC, and must be considered when setting office, managing account, and/or cardholder purchase limits. The use of advance reservations of funds or commitments for purchase requisitions will also ensure positive funds control, precluding expenditures from exceeding obligations. Policy for recording obligations for the transactions in this chapter is contained in Volume 3, Chapter 8. The RM responsibilities associated with the purchase card program, referenced in [DoD GPC Policy](#), include, but are not limited to the following:

4.11.1. Coordinating funding and spending limits with approving/billing officials and A/OPCs, to include providing advice on legal or regulatory constraints on the use of funds;

4.11.2. Providing approving/billing officials and cardholders official notification of funding;

4.11.3. Assigning default and alternate lines of accounting (LOAs), and ensuring they are entered into the card-issuing bank's system for electronic invoicing, receipt, and processing;

4.11.4. Providing reallocation authority to cardholders and approving/billing officials, when necessary. The process of reallocation, which gives the cardholder the capability to select different LOAs for a transaction rather than the default line, is set up by the cardholder's supporting RM;

4.11.5. Receiving and correcting invoice rejects with the certifying officer's assistance;

4.11.6. Assisting with resolving accounts in a delinquent status and providing payment information when requested; and

4.11.7. Coordinating with the responsible officials to ensure any unrecorded purchases are recorded in the period in which they occur and the miscellaneous obligation is reversed timely as referenced in Volume 3, Chapter 8.

4.12 Entitlement Office

For the purpose of this chapter, the term "entitlement office" is defined as the office that processes the card-issuing bank's payment request (i.e., [Statement of Account](#)) after certification by the certifying officer. Responsibilities of the entitlement office include, but are not limited to the following:

4.12.1. Verifying the amount certified for payment on the invoice matches the amount certified per the certified disbursement voucher;

4.12.2. Validating sufficient funds have been obligated in the accounting records;

4.12.3. Notifying the certifying officer and RM within one business day of invoices rejected, including a detailed reason for the rejection. Upon resubmission of the rejected transactions, processing will include the Standard Document Number/contract number of the original transaction; and

4.12.4. Computing late payment interest penalties in accordance with Chapter 7 and provisions of the card-issuing bank's contract, if applicable.

4.13 Disbursing Office

The disbursing office verifies that the certifying officer Appointment/Termination Record ([DD Form 577](#), Appointment/Termination Record – Authorized Signature) has been completed in the PIII/JAM and disburses payments to the card-issuing bank. The disbursing office will not replicate the reconciliation process before making payment on certified purchase card billing statements. The disbursing office makes an advice of payment available to the bank. See Volume 5, Chapter 9 for additional disbursing policy.

5.0 STATEMENT RECONCILIATION AND CERTIFICATION

5.1 Receipt and Acceptance

The cardholder will ensure receipt and acceptance and perform proper documentation of all purchases made. Independent receipt and acceptance by an individual, other than the cardholder, is required for accountable property purchases and self-generated purchases (i.e., purchases lacking a documented requisition/request from someone other than the cardholder). Accountable property, as identified in [DoD GPC Policy](#), includes sensitive, classified, and pilferable property type items. Refer to the Guidebook for additional circumstances that may require independent receipt and acceptance and the use of the Wide Area Workflow module within the PIII when the purchase card is used as a method of payment against a contract.

5.1.1. To verify proof of delivery, record the date received, along with the signature (or electronic alternative when supported by internal controls), printed name, telephone number, and office designator or address of the receiving official on the sales invoice, itemized packing slip, bill of lading, or other shipping or receiving document. Record the name of the independent individual confirming receipt in the cardholder purchase log.

5.1.2. Local procedures may specify additional circumstances (e.g., based on cost) requiring evidence of receipt by an individual other than the cardholder. The approving/billing official will verify the existence of receipt and acceptance documentation (e.g., hand receipts for accountable property). The approving/billing official also may physically verify receipt and acceptance. Cardholders must timely notify the property accountability official of pilferable,

sensitive, or high valued property obtained with the purchase card, in accordance with established property accountability policy.

5.2 Cardholder Review

The cardholder's [Statement of Account](#) from the card-issuing bank details all the transactions posted against his or her account through the end of the billing cycle.

* 5.2.1. Each cardholder must reconcile his or her [Statement of Account](#), [ensure a purchase log entry has been created for each transaction/purchase](#), and [retain](#) supporting documentation as specified in [DoD GPC Policy](#) to ensure accurate and timely payments. Cardholders will review their statements to [identify any discrepancies](#) and, as appropriate, [attempt to resolve the issue\(s\) with the merchant or, in accordance with bank procedures, dispute the transaction\(s\) or report the external fraud](#) (see paragraph 5.7).

5.2.1.1. Under the billing discrepancy provisions of the GSA master contract, the cardholder must report cases of fraud to the card-issuing bank, the A/OPC, the commanding officer or director, and the local procurement fraud investigative authority for investigation and adjudication. The cardholder must also comply with the bank's fraud reporting procedures.

5.2.1.2. Known or suspected fraudulent transactions not authorized by the cardholder must not be approved for payment. If the fraudulent transaction is not removed by the bank by the end of the billing cycle, the invoice will be manually [processed](#), excluding the amount of the transaction(s) in question, and then certified for payment. Due to timing issues, if the transaction in question [has already been](#) paid, the bank will issue a transaction credit on the next billing statement in accordance with the SmartPay contract. Cardholders must identify the reason the transactions are deemed fraudulent and the date the fraudulent transactions were reported to the bank in the system. In all instances, the cardholder will attempt to review/reconcile all transactions during the billing cycle within which they occur so that these fraudulent transactions are never included in the corresponding [cardholder Statement of Account](#).

5.2.2. If the cardholder cannot [resolve the discrepancy by](#) obtaining a credit from the merchant, then the cardholder will officially dispute the transaction with the card-issuing bank following the procedures in [paragraph 5.7](#).

5.2.3. The cardholder will sign and date the [Statement of Account](#) (preferably electronically) and forward it, with the necessary supporting documentation, to the approving/billing official for action. Figure 23-2 contains the language for the cardholder's certification statement.

5.2.4. If the cardholder cannot review the [Statement of Account](#) upon receipt (e.g., due to leave or business travel), then he or she will make his or her cardholder [Statement of Account](#) and supporting documentation available to the approving/billing official or certifying officer for timely review.

5.3 Approving/Billing Official Review

The approving/billing official must review each transaction made by cardholders under their managing account to ensure all supporting documentation is available and correct. The approving/billing official will ensure cardholder reviews have been completed properly; ensure [billing discrepancies](#) have been [resolved with the merchant](#), disputed, or reported as fraud as necessary; ensure receipt and documentation of all accountable property; verify all transactions were necessary government purchases; and perform any other functions required by [DoD GPC Policy](#) and other Component policies and procedures.

5.3.1. Under billing discrepancy provisions of the GSA master contract, known or suspected fraudulent transactions not authorized by the cardholder must not be certified for payment and must be reported to the card-issuing bank, A/OPC, commanding officer or director, and the local fraud investigative authority for investigation and adjudication. Refer to [subparagraphs 5.2.1.1 and 5.2.1.2](#) for additional guidance concerning the review and handling of fraudulent transactions. If not done so by the cardholder, the approving/billing official should ensure fraudulent transactions are disputed in accordance with applicable card-issuing bank procedures, and reported as fraudulent in accordance with the card-issuing bank fraud reporting procedures, as well as those of the Component.

5.3.2. The government is contractually obligated to pay the card-issuing bank for all purchase card transactions made by an authorized cardholder other than those successfully disputed or that result from external fraud. This includes those made by an authorized cardholder in violation of purchase card policies (e.g., unauthorized or incorrect as defined by OMB Circular A-123, Appendix B, [section 2.4.1](#)). Every purchase made by an authorized cardholder using an authorized card creates a contractual obligation of the government to pay the card-issuing bank. Report these purchase card violations to the A/OPC, appropriate authorities, and/or management officials for investigation and corrective action in accordance with Component policies and procedures.

5.3.3. For transactions that are determined to be purchase card violations, the approving/billing official will authorize payment for any items that cannot be returned and pursue corrective action by reporting the matter to the A/OPC and management officials in accordance with Component policies and procedures.

5.3.4. For transactions that may be questionable, the approving/billing official will determine as rapidly as possible whether there is potential fraud or whether the transaction is otherwise disputable. The mere lack of supporting documentation will not trigger a finding of fraud or impropriety unless the identity of the item or service, or other facts, would lead a reasonable person to believe that this was a fraudulent or unauthorized transaction. If the transaction is determined not to be external fraud, or otherwise disputable, then it must be approved for payment. The approving/billing official will continue to follow up to obtain sufficient documentation to support that the transaction is no longer categorized as questionable. The follow-up work should involve the cardholder, appropriate management, and bank officials as necessary.

5.3.5. When the approving/billing official is appointed collaterally as the certifying officer, he or she will also complete the requirements in paragraph [5.4](#).

5.4 Certifying Officer Review

The certified billing statement is the official invoice for payment purposes.

5.4.1. The certifying officer will review and certify the billing statement (preferably electronic) and forward it to the designated entitlement and/or disbursing office for timely payment processing. Figure 23-2 contains the language for the certifying officer's certification statement. See Volume 5, Chapter 5 for additional policy concerning certification requirements.

5.4.2. The certifying officer must not certify a known or suspected fraudulent transaction that was not authorized by the cardholder. The certifier must not certify payments if the card or the card number applies to transactions generated by an unauthorized user, such as a [merchant](#) entering the wrong card number, or the transaction occurs after reporting the card or card number lost or stolen. The certifying officer will follow agency procedures for addressing all fraudulent or abusive transactions, or other instances of purchase card misuse.

5.4.3. Pursuant to 31 U.S.C. § 3528, a certifying officer certifying a voucher (purchase card billing statement) is responsible for the information, computation, and legality of a proposed payment under the appropriation or fund. A certifying officer will ensure all transactions are legal, proper, correct, and satisfy a bona fide need in accordance with government policies, rules, and regulations. Since payments are to the financial institution, the certifying officer is responsible for certifying the legality and accuracy of the information pertaining to the amount owed the financial institution.

5.5 Payment without Receipt and Acceptance

In accordance with [DoD GPC Policy](#), the DoD is authorized to certify invoices for payment of micro-purchases prior to the verification that all items billed have been received and accepted. [The cardholder, as part of the monthly reconciliation of their Statement of Account, will annotate instances of non-receipt for recently ordered goods or services on each statement.](#) Each approving/billing official is required to establish a system and related procedures to flag and track all transactions certified for payment without verification of receipt and acceptance. These procedures will ensure that all transactions that have been reconciled and approved for payment will have their receipt verified no later than 45 days after the invoice date. If there is no documented evidence verifying receipt and acceptance after the 45-day period, the cardholder must protect the government's rights by disputing the transaction. The cardholder is responsible for notifying the bank of any item in dispute and will have 90 calendar days from the date the transaction was processed/posted to the account. The cardholder must file a formal dispute in accordance with paragraph [5.7](#).

5.6 Payment of the Certified Billing Statement

The designated entitlement office will pay purchase card invoices (preferably electronic) upon receipt of the certified billing statement. Attention must be paid to the prompt payment clock, which starts when the invoice is made available to the DoD on the card-issuing bank's website versus when invoices are transmitted to the entitlement office. The entitlement office will ensure that only the amount certified for payment by the certifying officer is processed for payment.

*5.7 Disputed Transactions

A transaction dispute may occur in a situation in which the Government questions the validity of a transaction included on the cardholder Statement of Account. Transactions should be disputed only after all attempts have been made to resolve the issue directly with the merchant. Reasons to dispute a transaction include circumstances where the cardholder did not authorize the transaction, the amount of the transaction is incorrect, the quality or service is unacceptable, the information on the transaction is erroneous or is a duplicate of an existing transaction, the material was returned or service was cancelled and a credit was not issued by the merchant within 30 days. The cardholder must dispute the transaction as soon as possible in accordance with the timetable and provisions contained in the tailored task orders with the card-issuing bank, the DoD GPC Policy, and local procedures.

5.7.1. For instances where items appear on the billing statement, but have not been received, the cardholder will contact the [merchant](#) to validate that shipment has been made. For cases of non-shipment, items will be officially disputed only if the merchant fails to credit the account in the next billing cycle, or the items are not ultimately received.

5.7.2. Approving/billing officials will monitor cardholder items billed versus receipt discrepancies to ensure any remaining discrepancies are disputed.

5.7.3. Fraudulent transactions include, but are not limited to, transactions made on lost or stolen cards, incidences of compromised card numbers, or transactions initiated by unauthorized third parties. These transactions do not follow the dispute process, but rather must be reported as fraudulent in accordance with the card-issuing bank fraud reporting procedures, DoD GPC Policy, and those of the Component.

5.8 Summary Accounting

To reduce transaction processing fees, DoD activities will summarize accounting data, where systems capabilities are available to preclude any duplication of LOAs, before submitting certified billing statements and accounting data to the designated entitlement office. Specifically, DoD activities will "roll up" disbursing data by LOA to eliminate duplicate LOAs on one certified billing statement.

5.8.1. Approving/billing officials and certifying officers will ensure complete summarization of billing statements with no duplicate LOAs prior to certification and submission

of the billing statements for payment. The level of appropriation data summarization will be consistent with the advance reservation of funds and the data for entry into the accounts payable, disbursing, and accounting systems in order to maintain positive funds control, match each planned disbursement with a recorded obligation (as described in Chapter 1 and Volume 3, Chapter 8), and prevent unmatched disbursements.

5.8.2. The following methods will be used to facilitate summary-level accounting:

5.8.2.1. Use the minimum number of LOAs per purchase card to satisfy mission requirements;

5.8.2.2. Establish approving/billing official and cardholder relationships, to the maximum extent possible, which will support summary-level billing statements which are comprised of multiple purchase cards citing the same LOA; and

5.8.2.3. Use the object class that is most appropriate for the types of [transactions](#) made with the card.

6.0 CONVENIENCE CHECKS

6.1 [Overview](#)

Use of convenience checks must be minimized and designated as a purchase instrument of last resort. They will only be used if the [merchant](#) offering the goods or services does not accept or does not have the ability to process the purchase card, no other [merchant](#) can reasonably be located, and it is not practical to pay for the items using the traditional procurement method.

6.1.1. A discrete account must be set up in order to issue convenience checks. Convenience check and normal purchase card accounts may be issued under a single managing account, but they must not be commingled. The transactions reported during the billing cycle for the convenience check and purchase card accounts will appear on the cardholder's [Statement of Account](#).

6.1.2. Convenience check accounts are provided by the card-issuing bank in accordance with the terms of the tailored task orders with the bank. The card-issuing banks operate a convenience check writing system that allows DoD activities, including overseas locations, to make selected purchases and payments using checks to replace cash for official expenses, when card products and other alternatives have been determined unusable. The card-issuing banks offer "help desk" assistance and reporting capabilities with a variety of reporting media and frequencies to assist with performing oversight activities.

6.1.3. Each Component will issue instructions concerning the use of convenience checks. Individuals delegated as convenience check account holders will be appointed in writing. At a minimum, the appointment letter will state the specific duties of the check writer, any limitations on the scope of authority (including dollar limitations), and an acknowledgement of the check writer's duties and responsibilities. Convenience checks will not be used for employee

reimbursements, cash advances, cash awards, travel-related transportation payments, meals, or payroll/salary payments. For additional information concerning convenience check requirements and restrictions on their use, refer to [DoD GPC Policy](#).

6.2 Printed Convenience Checks and Issuing Bank Requirements

The GSA contract provides responsibilities of the card-issuing bank for convenience check accounts. The card-issuing bank will ensure convenience checks are sequentially pre-numbered duplex documents (one copy for the cardholder's records and the original for the merchant).

6.3 IRS Form 1099 Requirements for Convenience Check Account Holders

6.3.1. The Defense Finance and Accounting Service (DFAS) has tax form issuance and IRS reporting responsibilities for the DoD convenience check program.

6.3.2. DFAS obtains the universe of DoD convenience check payment data from the GSA contracted bank that is responsible for convenience check accounts. DFAS provides the convenience check payment data to the applicable A/OPC, Account Manager, and Convenience Check Account Holder for determining the tax reporting requirements and completion of specifically identified data not available to, or captured by, the contracted bank. The Convenience Check Account Holder is responsible for ensuring the completion and return of the data to DFAS.

6.3.3. Using the information provided by the Convenience Check Account Holder, DFAS issues the tax forms to the convenience check payees and electronically reports the data to the IRS.

6.3.4. A/OPCs, Account Managers, and Convenience Check Account Holders that do not return the requested information to DFAS are responsible for their own tax form issuance and IRS tax reporting.

6.3.5. Additional tax reporting guidance for convenience check payments is located at <https://www.dfas.mil/contractorsvendors/taxinfo/Convenience-Check-1099PRO/>.

6.4 Authorizing and Establishing Convenience Check Accounts

Requests to establish an account for convenience checks must be justified in writing and in accordance with the provisions established in [DoD GPC Policy](#). A specific individual must be designated as the account holder responsible for that account via the proper application forms and delegation of authority letters. Those forms will be submitted through the DoD activity's existing purchase card hierarchical structure.

6.5 Conditions for Using Convenience Check Accounts

The authorized threshold for convenience checks is one half of the applicable micro-purchase threshold ([41 U.S.C. § 1902, statutory notes](#)). See [DoD GPC Policy](#) and FAR 2.101 for alternative thresholds pertaining to situations involving declared contingencies or emergency-type operations either within the United States or outside the United States. In order to maintain

effective internal controls, approving/billing officials, payment review officials, and certifying officers will not perform the functions of convenience check custodian or cashier. Additional conditions on the use of convenience checks are as follows:

6.5.1. Convenience checks will be issued for the exact payment amount, with a prohibition on splitting purchases, payments, or other amounts among more than one check in order to keep amounts below the [applicable](#) micro-purchase threshold or other assigned limits;

6.5.2. Convenience checks will be used for official government purposes only;

6.5.3. Convenience checks will not be issued as an “exchange-for-cash” vehicle to establish cash funds;

6.5.4. If convenience checks are mailed to payees, then local internal controls must be in place to avoid duplicate payments being made to them;

6.5.5. The issuing activity is responsible for all administrative costs associated with the use of convenience checks. Fees associated with the use of convenience checks are specified in the GSA contract. At DoD Component election, the costs associated with the purchase of convenience checks may be expressed as a: (a) percentage; (b) number of basis points; or (c) fixed fee; and

6.5.6. Convenience checks are negotiable instruments and will be stored in a locked container, such as a safe, where only the account holder has access. Checks will be accounted for by recording transactions as they occur in the check register and/or purchase log to maintain control of number sequence. Local policies and procedures must be implemented to provide safeguards to prevent physical loss, theft, or potential forgery.

6.6 Reconciliation of Convenience Check Accounts

The convenience check account holder will reconcile the [Statement of Account](#) as part of the monthly billing cycle against his or her [supporting documentation](#) in accordance with the standard payment practices established for the purchase card in section 5.0.

* 6.6.1. Convenience check accounts and transactions must be reviewed in accordance with the “DoD SmartPay®3 Government-wide Commercial Purchase Card Policies, Procedures and Tools – [SP3 Transition Memorandum #6](#).” The SP3 Transition Memorandum #6, which phased out the requirement to perform Annual Managing Account Reviews, requires the review and approval of each convenience check case (transaction) generated by the bank’s data mining review tool. Convenience check transaction reviews will ensure each convenience check transaction was authorized, properly funded and approved, appropriate for Government use, does not exceed allowable limits, includes supporting documentation, and any other requirement of Component policies. Any suspected violations will be reported to the appropriate management and investigative authorities in accordance with established policies (see [DoD GPC Policy](#) for terminology and definitions of the specific categories of unauthorized or inappropriate transactions).

6.6.2. The dispute process is not available for convenience checks. Any concerns over a purchase made with a check will be resolved directly with the merchant. The account holder is solely responsible for securing restitution and/or credit on disputed purchases.

6.6.3. Stop payments may have an effect on convenience checks, provided the convenience checks have not been posted to the account. The card-issuing bank will provide the ability to stop payment on a convenience check within 24 hours. The stop payment fee will be charged directly to the account.

7.0 CONTINGENCY CONTRACTING EVENTS

The Guidebook, Appendix B, provides the relevant regulatory and related Departmental policies regarding the use of purchase cards in support of [emergency-type operations \(e.g., contingency contracting events.\)](#) The financial management policies related to purchase cards, as previously identified in this chapter, remain in place for contingency operations and contracting events unless otherwise noted.

Figure 23-1. Approving/Billing Official and Certifying Officer Monthly Review Checklist

This checklist is for approving/billing official and certifying officer use in completing the cardholder billing statement reconciliation, receipt and acceptance, and dispute procedures prior to certification. The checklist is intended as a reference tool for use in examining the cardholder's purchase card statement received from the card-issuing bank.

Account Number: _____ Account Type: _____

Approving/Billing Official Name and Date: _____

Billing Statement Date: _____

Review Steps	Date Completed
Obtain the cardholder statement, supporting documentation, and certification from the cardholder.	
Review purchases for each cardholder to determine whether all transactions were authorized government purchases in accordance with the FAR, DFARS, and all other government agency policy and procedures as applicable.	
Reconcile supporting documentation with details on the billing statement. Also, review for adequacy the purchase log entries for those transactions.	
Resolve any questionable purchases and delinquent balances with the cardholder and, if necessary, advise the cardholder to dispute transactions with the card-issuing bank or report fraudulent transactions. Annotate disputed and fraudulent transactions on the billing statement.	
Review past transactions that were certified for payment without proof of receipt and acceptance to confirm acceptance and receipt with the cardholder. If receipt cannot be confirmed, then direct the cardholder to dispute the transaction.	
Annotate any identified delinquent balances and suspected purchase card violations on the billing statement and report such matters to the A/OPC so the transaction can be disputed or investigated as appropriate. In cases of suspected external fraud, report the matter to the card-issuing bank in accordance with DoD GPC Policy.	
In the case of suspected internal fraud by government personnel (e.g. cardholder/receiver), document the suspected internal fraud and notify the appropriate investigative office and the A/OPC so the transaction(s) can be investigated.	
Ensure supporting documentation (e.g., approvals, receipts, logs, invoices, and delivery orders) is included in the official repository in accordance with DoD GPC Policy.	
Sign or execute electronically the approving/billing official and certifying officer certification statements, and forward the certified statements to the payment office.	

Figure 23-2. Purchase Card Certification Statements

- The Cardholder (as Accountable Official) certification statement will read:

“I certify that, except as may be noted herein or on supporting documents, the purchases and amounts listed on this account statement:

- (1) Are correct and required to fulfill mission requirements of my organization;
- (2) Do not exceed spending limits approved by the Resource Manager;
- (3) Are not for my personal use or the personal use of the receiving individual;
- (4) Are not items that have been specifically prohibited by statute, by regulation, by contract, or by my organization; and
- (5) Have not been split into smaller segments to avoid dollar limitations.”

Authorized Cardholder Signature and Date (or electronic signature)

- The Approving/Billing Official (as Accountable Official) certification statement will read:

“I certify that the items listed herein are correct and proper for payment from the appropriation(s) or other funds designated thereon or on supporting vouchers, and that the payment is legal, proper, and correct, except as may be noted herein or on supporting documents.”

Authorized Approving/Billing Official Signature and Date
(or electronic signature)

- The Purchase Card Certifying Officer certification statement will read:

“Pursuant to the authority vested in me, I certify that this invoice (billing statement) is correct and proper for payment, except as may be noted herein or on supporting documents.”

Authorized Purchase Card Certifying Officer Signature and
Date (or electronic signature)

CHAPTER 1

GENERAL REIMBURSEMENT POLICY

1.0 GENERAL (0101)

1.1 Overview (010101)

DoD reimbursable authority is authorized by the Office of the Under Secretary of Defense (Comptroller) (OUSD(C)), through budget formulation and statutory authorization of the budget in accordance with Title 10, United States Code, section 2205 ([10 U.S.C. § 2205](#)).

1.2 Purpose (010102)

This chapter provides guidance on the amounts that must be recouped when DoD Components perform work or sell property within the Department, to other federal agencies and to private parties that do not involve the Defense Working Capital Fund (DWCF) or other DoD Revolving Funds. It does not provide authority to sell to private parties, since specific legal authority must be identified to make such sales. It supplements the standards for financial accounting for [intragovernmental accounts](#) receivable in Volume 4, Chapter 3, [for intragovernmental accounts payable in Volume 4, Chapter 9](#), and budgetary accounting for reimbursements, in Volume 3, Chapters 8 and 15.

1.3 Authoritative Guidance (010103)

1.3.1. U.S. Department of the Treasury (Treasury) authorized accounts are to be credited for reimbursements made to DoD appropriations in accordance with [31 U.S.C. § 1535](#) and [31 U.S.C. § 1536](#). Refer to 10 U.S.C. § 2205 for further guidance.

1.3.2. Statutory authority on project order agreements for work or material or for the manufacture of material pertaining to approved projects placed with a separately managed DoD-owned establishment is given in [41 U.S.C. § 6307](#). 31 U.S.C. § 1535 governs Economy Act orders placed with an agency or major organizational unit within an agency. Chapters 2 and 3 provide detailed guidance on these [statutory requirements](#).

1.3.3. According to [DoD Instruction \(DoDI\) 4000.19](#) “Support Agreements,” DoD Components are responsible for programming, budgeting, and funding for the reimbursable support agreements into which they enter. These include agreements [into](#) which a DoD Component enters into with another DoD Component; a federal agency; a state, local, or tribal government; [or a non-governmental entity that is a congressionally chartered nonprofit organization pursuant to 36 U.S.C. §§ 20101 to 240101](#) (e.g., American Red Cross, Boy Scouts of America, Girl Scouts of the U.S., and United Service Organizations, Inc.). DoDI 4000.19 uses the term Intra-agency support agreements to refer to agreements between DoD Components. Also, DoDI 4000.19 uses the term Inter-agency support agreements to refer to agreements between DoD Components and federal agencies.

1.3.4. The Department will no longer provide non-reimbursable support of any kind to other federal, state, territorial, tribal, or local government entities; private groups and organizations; foreign governments; and international organizations. Refer to the Secretary of Defense Memorandum, "[Reimbursable Activities in Support of Other Entities](#)," June 19, 2020 (DoD Common Access Card required). Non-reimbursable support may be provided if required by statute. When discretionary non-reimbursable support is permitted but not required by statute, it must be authorized by the DoD Joint Ethics Regulation or DoD Public Affairs guidance; or is provided after approval of an exception. Refer to the OUSD(C) memorandum, "[Reporting Guidance for Reimbursable Activities in Support of Other Entities](#)," July 22, 2020 (DoD Common Access Card required) for details on how to receive an exception.

1.3.5. The requirements in Treasury Financial Manual ([TFM](#)) [Volume I, Part 2, Chapter 4700](#), Appendix 8, "Section 1—Buy/Sell Transactions," provides guidance on Buy/Sell activity that involve reimbursable activity between Federal Program Agencies (FPAs) and, between FPAs and third-party providers. These buyers and sellers are also known as trading partners. The TFM provides the business rules and processes to properly record, report, reconcile and measure intra-governmental transactions (IGTs). The TFM differentiates between two types of IGTs, intra-departmental and intra-governmental. Intra-departmental transactions result from activity between trading partners within the same department. Intra-governmental transactions result from activity between federal agencies not within the same department. The Volume 5, "Definitions" Chapter defines an FPA as a department, instrumentality, office, commission, board, service, or other establishment of the U.S. Government.

1.3.6. The guidance in this chapter is applicable unless a specific DoD issuance authorizes alternative reimbursement policies. The most significant of these alternative reimbursement policies include:

1.3.6.1. [10 U.S.C. § 2571](#) allows for the [exchange or transfer](#) of supplies and services between [military departments](#) without compensation. [Such](#) transfers of supplies between military departments must have the permission of the Service Secretaries involved. In addition, a DoD Component may perform work, services or issue supplies [without reimbursement](#), to another DoD Component with the permission of the respective [Component](#) heads. Furthermore, costs of DoD military or civilian pay and allowances (along with dependent and household goods transportation) for detail or other assignments, may be charged to an appropriation with the approval of the receiving DoD Component head.

1.3.6.2. Volume 11B establishes the DoD guidance for the recovery of cost for products and services provided by the DWCF or other applicable DoD Revolving Fund activities. Reimbursable orders placed with the DWCF or other DoD Revolving Fund activities may fall under any number of authorities (e.g. Project Orders for depot maintenance). The basic transactional authority for the DWCF is derived from [10 U.S.C. § 2208\(a\)](#). This authority for buyer-seller transactions is not dependent on the Economy Act or Project Order Act statutes. See Volume 11B, for additional information regarding DWCF authorities.

1.3.6.3. Volume 13 establishes the DoD accounting guidance for DoD Morale, Welfare, and Recreation (MWR) functions performed by Nonappropriated Fund instrumentalities (NAFIs). DoD Components must not commingle Nonappropriated Funds (NAFs) with Appropriated Funds (APFs), even when used to support a common program. [DoDI 1015.15](#), “Establishment, Management, and Control of Nonappropriated Fund Instrumentalities and Financial Management of Supporting Resources,” provides further guidance.

1.3.6.4. Volume 15 establishes the DoD guidance for the Foreign Military Sales (FMS) of defense articles, defense services and for providing military training to allied and friendly foreign governments and international organizations. Refer to [Volume 15, Chapter 6, Appendix G \(Columns 12 and 13\)](#), for additional information on how to account for actual hours worked.

1.3.6.5. [DoD Directive \(DoDD\) 3025.13](#) “Employment of DoD Capabilities in Support of the U.S. Secret Service (USSS), Department of Homeland Security (DHS),” provides the DoD policy for the use of DoD resources for reimbursable support of the USSS, a DHS entity.

1.3.6.6. [DoDD 3025.18](#) “Defense Support of Civil Authorities,” provides the DoD policy for providing reimbursable military support when requested by civil authorities in order to save lives, prevent human suffering or, mitigate property damages within the U.S. Refer to Chapter 19 for further guidance.

1.3.6.7. [DoDI 3025.21](#) “Defense Support of Civilian Law Enforcement Agencies,” provides the DoD policy for reimbursement when equipment or services are provided to agencies outside DoD in support of civilian law enforcement officials.

2.0 REIMBURSEMENT GUIDANCE (0102)

2.1 General Guidance (010201)

2.1.1. A seller’s reimbursements are amounts earned and collected for materials sold or services furnished as a result of a reimbursable agreement. A seller’s reimbursable obligations are financed by offsetting collections. Components are to credit these offsetting collections to an expenditure account in payment for goods and services provided by that account. Refer to [Office of Management and Budget \(OMB\) Circular A-11, section 20](#) for further details. Credit the specific appropriation or fund account for the collection only when it authorized by law.

2.1.2. The TFM in Volume I, Part 2, Chapter 4700, Appendices 5 and 8 provide the requirements for accounting, reporting, and reconciliation of IGTs between FPAs and their trading partners. The five IGT categories are Fiduciary, Buy/Sell, Transfers, Custodial, and General Fund transactions. Buy/Sell IGTs involve transactions where goods or services are purchased by one federal agency from another federal agency. Buy/Sell IGTs are exchange transactions impacting assets and liabilities; revenue and expenses; and advances/prepayments and deferred credits. Two federal agencies will usually execute a reimbursable agreement to formally document this arrangement. Trading partners must have appropriate statutory authority, such as the

Economy Act, prior to engaging in an agreement for Buy/Sell transactions. For Buy/Sell IGTs, the receiving agency is the buyer and the servicing agency is the seller. Trading partners must reconcile completed performance transactions at a minimum, on a quarterly basis to ensure both parties are in agreement. The TFM provides the requirements for using the standard [Interagency Agreement \(IAA\)](#) containing [the Bureau of the Fiscal Service \(FS\) Form 7600A “United States Government General Terms and Conditions \(GT&C\)”](#) and [FS Form 7600B “United States Government Order Form.”](#) Treasury requires the use of these two IAA forms to ensure the proper recording and reporting on IGT Buy/Sell transactions unless, other guidance (such as OMB policy) requires a completed agreement [for certain IGT types, such as assisted acquisitions](#). Refer to [paragraph 010205](#) for specific guidance.

2.1.3. Non-Economy Act orders for intra-governmental work and services should be executed in accordance with the detailed guidance provided in Chapter 18.

2.2 Disposition of Collections (010202)

2.2.1. Collections must be credited to the appropriation that procured the services or materiel being sold when specifically authorized by law [as required by subparagraph 010201.A.](#)

2.2.2. Collections for unfunded costs such as labor of military personnel, depreciation of capital assets and interest, must be deposited into the General Fund of the Treasury as miscellaneous receipts unless otherwise provided for in this chapter or by other DoD issuances.

2.2.3. [Collections received after an appropriation cancels must be deposited in Treasury Account 3200, “Collections of Receivables from Canceled Accounts.”](#) Refer to [Volume 4, Chapter 3.](#)

2.2.4. Disposition of collections for FMS must be in accordance with Volume 15.

2.3 Billing Standard (010203)

2.3.1. The price to be charged for goods and/or services furnished by the Department depends on whether that good [and/or](#) service is provided to, or for the benefit of a DoD Component, a non-DoD federal agency, a private party, or a FMS customer. Therefore, the ordering DoD Component activity that requisitions or orders a good or service must inform the performing DoD activity of the identity of the intended recipient for the requisitioned goods or services. Volume 4, Chapter 3 [requires that](#) the ordering activity must review all charges from the performing activity to ensure that amounts due are in agreement with the reimbursable order and are supported with a copy of the order or contract and evidence of performance.

2.3.2. DoD Components performing work or services on a customer order must bill the ordering DoD Component, other federal agency, or the public for earned reimbursements (performance of work or services, or delivery from inventory) within 30 calendar days after the month in which performance occurred. The payment due date must not be more than 30 calendar days from the date of the invoice. Bills rendered are not subject to audit by the customer prior to payment as required under 31 U.S.C. § 1535.

2.3.3. The accurate reporting of reciprocal balances, and proper elimination of reciprocal activity between trading partners, requires accurate documentation of accounting events. Imbalances occur when federal entities or trading partners are unable to account for and reconcile differences when buying and selling goods and services. Volume 6B, Chapter 13 provides guidance for [trading partner exchange of data, eliminating intra-governmental transactions from the DoD quarterly and annual financial statements, and providing Treasury elimination information for use in preparing the Government-wide financial statements.](#)

2.4 Determining Amounts to be Reimbursed (010204)

DoD Components must adhere to the guidance in the following 14 categories (subparagraphs [010204.A – N](#)) when determining amounts to be collected as reimbursements. Components may use alternative reimbursement rules described in this volume and in other DoD issuances as applicable.

* 2.4.1. [DoD Components providing prepaid or reimbursable support will require that cost information is quantifiable and provided to all parties. In addition, support must only be reimbursable when the specified support increases the seller's incremental direct costs and the seller's actual indirect costs of providing support. A seller can waive reimbursement from buyers that use or benefit from available support when charges would be less than the anticipated expense of billing and disbursing funds. DoD Components designated as a Combatant Command support agent will provide administrative and logistics support to Combatant Command headquarters and the subordinate unified command headquarters, as documented in agreements on a non-reimbursable basis, in accordance with \[DoDD 5100.03\]\(#\) "Support of the Headquarters of Combatant and Subordinate Unified Commands." Refer to DoDI 4000.19 for additional guidance.](#)

2.4.2. An order placed or agreement made under the Economy Act obligates an appropriation of the ordering entity. The amount obligated is deobligated to the amount of costs incurred and billed by the performing entity before the end of the period of availability of the appropriation. According to OMB Circular A-11 "Section 20 - Terms and Concepts," the Economy Act allows federal agencies or DoD Components to do work for each other. As the costs for this work are incurred, the Economy Act authorizes the collections to be credited directly to the expenditure account that provided the goods and services for reimbursement. Refer to Chapter 3 for further details.

2.4.3. A project order placed with, and accepted by a separately managed DoD-owned entity for services, material, or the manufacture of material, provide support for a valid and recordable obligation of the ordering entity. Project order appropriations remain available to pay an obligation in the same manner as appropriations remain available to pay an obligation to a commercial manufacturer or private contractor. Refer to Chapter 2 for further details.

2.4.4. As provided in Volume 13, Chapter 5 the two mechanisms for providing APF support to NAFIs are via two MWR functions. The first is the Utilization Support and Accountability (USA), and the second is the Uniform Funding and Management (UFM). MWR USA enables NAFIs to use NAFs to execute such expenses, subject to subsequent APF reimbursement. Record in the cash account with a contra entry to an Unearned Income (liability) account any MWR UFM funds received in advance. Reduce the Unearned Income account for the amount of MWR UFM expenses recorded.

2.4.5. Direct Civilian Labor.

2.4.5.1. A DoD Component must be reimbursed for direct civilian labor costs when performing a service or furnishing materials to another entity. If the performing Component has appropriated funds for that purpose, then reimbursement is not required.

2.4.5.2. DoD Components, other federal agencies, and the public must be charged for civilian labor performed for their benefit. Calculate the costs by multiplying the actual hourly pay rates by the number of actual hours worked or assigned (detailed). Charge full-time assignments (details) using annual rates. Otherwise apply the hourly rate in accordance with Chapter 6, Appendix D.

2.4.5.3. Civilian personnel fringe benefit rates must be computed in accordance with Chapter 6, Appendix C. These rates are updated annually and published by OUSD(C), Deputy Comptroller Program/Budget (P/B) on the Financial Management Reports web page, listed by fiscal year (FY) under the [DoD Reimbursable Rates](#) heading. Refer to the Civilian Personnel Fringe Benefit (Tab D).

2.4.6. Direct Military Labor.

2.4.6.1. A DoD Component must fund the cost of direct (and indirect) military labor incurred in the performance of a service for, or the furnishing of materials to, another DoD Component via applicable military personnel appropriations. Therefore, the performing DoD Component must not charge the receiving DoD Component for reimbursement of the cost of military labor. 10 U.S.C. § 2571 authorizes this exception to typical reimbursement requirements as outlined in [010103.F.1](#). DoD Components must reimburse DWCF activities for the cost of military labor as prescribed in Chapter 6, Appendix B and Volume 11B, Chapter 12. U.S. Army Corps of Engineers (USACE) military labor provided in support of civil works activities of the USACE via reimbursable agreement with DoD organizations, and to non-DoD organizations through the Support for Others Program must be charged in the same manner as military labor provided to non-DoD organizations. The Support for Others Program is a reimbursable financing source that is reported each year in the USACE Annual Financial Report. As an example, refer to the [USACE FY 2020 Annual Financial Report](#), Note 1, section 1.D “Financing Sources.”

2.4.6.2. If provided for in the annual DoD Appropriations Act, operation and maintenance appropriations, may be available for reimbursement of pay, allowances and other expenses for National Guard and Reserve members who provide intelligence or counterintelligence support to Combatant Commands, Defense Agencies and Joint Intelligence Activities. These expenses involve the activities and programs included within the National Intelligence Program and the Military Intelligence Program. Refer to the FY 2021 OUSD(C), P/B guidance published online at Tab K under the subsection DoD Reimbursable Rates.

2.4.6.3. DoD Components must charge non-DoD organizations for military labor on the basis of the actual hours worked or assigned (detailed), using the annual military composite standard pay rates. Compute the military personnel composite standard pay and reimbursement rates in accordance with Chapter 6, Appendix G. OUSD(C), P/B annually updates and published these rates online at Tab K under the subsection DoD Reimbursable Rates.

2.4.6.4. Military labor charged using the annual DoD composite rate for military labor includes a Medicare-Eligible Retiree Health Care accrual to cover the cost of health benefits for current officer and enlisted personnel after they retire and become Medicare-eligible, as well as such costs for their dependents and annuitants. The annual composite rate charged to non-DoD organizations includes an acceleration factor to cover medical health care costs of active duty personnel and their dependents. Military Services will furnish data in accordance with Chapter 6, Appendix G.

2.4.7. Temporary Duty Costs. Travel costs incurred by DoD civilian employees and military personnel incurred in performance of a reimbursable work order must be charged as a direct cost when such travel can be identified specifically to the order. Costs of supplies and other directly relatable expenses are also chargeable.

2.4.8. DoD Personal Property and Inventory.

2.4.8.1. According to [DoDI 5000.64](#) “Accountability and Management of DoD Equipment and Other Accountable Property,” personal property includes systems, equipment, materials, and supplies. This does not include records of the Federal Government and real property (land and improvements to facilities). Personal property normally expected to have a period of service of a year or more after being put into use meets the OMB Circular A-11 equipment definition. This equipment must be without material impairment of its physical condition or functional capacity. Personal property either held for sale, produced for sale, or used to produce goods for sale, or to provide a service for a fee, meets the OMB Circular A-11 inventory definition.

2.4.8.2. Reutilization and Marketing Materiel (Surplus)

2.4.8.2.1. [DoD Manual 4160.21, Volume 1](#) “Defense Materiel Disposition: Disposal Guidance and Procedures,” defines a surplus as excess personal property no longer required by the federal agencies, as determined by the General Services Administration. The disposition of materiel by a Defense Reutilization and Marketing Office must be in accordance with this DoD Manual. The accounting treatment is set forth in Volume 4, Chapter 4.

2.4.8.2.2. The general rules for the disposition of proceeds from the sale of scrap or excess personal property must be in accordance with Chapter 5.

2.4.8.3. Non-DWCF Materiel. The pricing of personal property for non- DWCF materiel depends on whether the item(s) being transferred or sold will be transferred to another DoD Component and would normally be replaced. DoD Components make this determination in accordance with the approved acquisition objective, according to [OMB Circular A-25](#) “User Charges.” If the sale will reduce assets required to meet the approved acquisition objective, then replacement is required.

2.4.8.3.1. Issues within or to another DoD Component with the exception of issues in support of NAFI Category C activities and USACE civil works activities, must be on a non-reimbursable basis as provided in 10 U.S.C. § 2571. Such issues will require an accounting entry to reflect the transfer from the losing to the gaining activity. The accounting entry must reflect original acquisition cost and any accumulated depreciation. Issues in support of NAFI Category C activities and USACE civil works activities must be priced in the same manner as issues to other federal agencies and private parties as provided in [010204.H.3.b.](#)

2.4.8.3.2. Issues to other federal agencies or private parties must be priced as follows:

2.4.8.3.2.1. Materiel to be Replaced.

2.4.8.3.2.1.1. Materiel, including equipment, for which replacement (i.e., similar, but not exact) or replacement in-kind (i.e., exact) is required, must be transferred or sold at the estimated replacement cost, including the contract or production costs of the article less an adjustment for age and condition of the item being sold. This price is determined in three steps. First, determine the normal useful peacetime life of the item or equipment to be sold. Second, determine the percentage of useful life remaining on the item. Third, apply the percentage to the estimated (or actual) cost of the replacement item. The resultant amount is the base cost to be used in the sale price calculation. Under no condition must the sale price be less than the scrap value plus the cost of the last major overhaul or outfitting accomplished within 24 months before the sale.

2.4.8.3.2.1.2. If it is imperative that the item be replaced through accelerated procurements and normal pricing policies will not adequately recoup replacement costs, an exception to DoD pricing policies must be requested from OUSD(C), P/B. Normally, the exception would be to either add a replacement factor or delay final pricing until the contract for replacement items is financially complete.

2.4.8.3.2.2. Materiel Not to be Replaced. A DoD Component that transfers or sells material, including equipment, to other federal agencies and private parties must do so at their original acquisition cost, net of any accumulated depreciation/amortization (i.e., net book value). If the DoD Component cannot reasonably ascertain those amounts, the cost of the material will be its fair value at the time of transfer as provided in Volume 4, Chapter 25.

2.4.9. Contracts.

2.4.9.1. Contract costs incurred for contracts awarded as part of a reimbursable agreement must be billed to the benefiting organization.

2.4.9.2. Government-furnished materiel must be billed in addition to contract costs in accordance with subparagraph **010204.H.**

2.4.9.3. If the contract is provided to meet the requirements of a non-federal organization, the contractor must be required to pay rent (at fair market value) to the Department for the costs incurred for the use of plant or production equipment utilized in manufacturing the item being sold.

2.4.9.4. The [*Federal Acquisition Regulation Subpart 52.232-17*](#), “Interest,” provides that all amounts that become payable under the contract must bear simple interest from the due date until paid, unless paid within 30 days of becoming due. The Treasury’s Bureau of the Fiscal Service provides an online “[*Simple Daily Interest Calculator*](#)” for payments less than 31 days old and a monthly compounding interest calculator for payments more than a month late.

2.4.9.5. Contract administration charges must be charged to other federal agencies and private parties, in accordance with statutory or policy requirements. As allowed in 10 U.S.C. § 2571 contract administration costs are not to be charged within a DoD Component or to another DoD Component (with the exception of support to NAFI Category C activities and support provided to USACE civil works activities) when funding for such costs is included in the mission funding of the performing DoD entity. Contract administration charges for support to NAFI Category C activities and support provided to USACE civil works activities must be priced in the same manner as charges to other federal agencies and private parties.

2.4.9.6. DoD personnel services in support of contracts must be costed in accordance with subparagraphs **010204.E** and **010204.F.**

2.4.10. Accessorial Charges.

2.4.10.1. The “Glossary” Chapter defines these as costs incurred for packing, crating, and handling related to sales or shipments of property. Accessorial charges may be incurred by the DoD for direct delivery of items from contractor facilities or by DoD Components for items furnished from DoD stocks. Accessorial expenses for support provided to USACE civil works activities must be priced in the same manner as charges to other federal agencies and private parties.

2.4.10.2. Unless otherwise provided by law or regulation, accessorial charges must be billed to the following:

2.4.10.2.1. Non-DoD federal departments, agencies, or instrumentalities.

2.4.10.2.2. Non-federal entities, including DoD contractors.

2.4.10.2.3. NAFIs when property is transported for DoD MWR activities unless reimbursement has been waived by DoDI 1015.15.

2.4.10.2.4. USACE for civil works projects or activities.

2.4.10.3. Accessorial charges must be reimbursed by non-DoD activities for the actual cost incurred and billed.

2.4.11. Asset Use Charge. A charge for the use of DoD assets (facilities and equipment, or both) is required to recoup depreciation and interest on investment. In accordance with OMB Circular A-25 section 9.A, amounts collected must be returned to the Treasury as miscellaneous receipts, unless otherwise provided for by statute or other DoD guidance. An asset use charge is a factor added to the base rate to recoup depreciation and interest on investments for use of DoD facilities and equipment. A four percent charge may be used. This rate is published annually by OUSD(C), P/B. Refer to the DoD Reimbursable Rates (Tab E) for details. Alternatively, the following calculations may be performed:

2.4.11.1. Depreciation is the systematic and rational allocation of the recorded cost of facilities and equipment (less its estimated salvage or residual value), as an operating expense over the period in which these assets are expected to provide benefits or the estimated useful life, whichever is shorter. Depreciation must be charged using the straight-line method of depreciation. A general equipment or real property item with a recorded cost that equals or exceeds the applicable capitalization threshold and has a useful life of at least two years must be capitalized as an asset and depreciated over its useful life. See Volume 4, Chapter 25. The depreciation calculation is illustrated in Exhibit 1-1.

2.4.11.2. Interest expense must be included in reimbursement billings to private parties to recognize the interest on investment in fixed assets when such assets are acquired or manufactured for the purpose of, or prepared for use in, providing materiel to private parties. The calculation of interest on investment is illustrated in Exhibit 1-2.

2.4.12. Repair and Maintenance. When repair and/or maintenance of items occurs, costs from a cost accounting system or, in its absence, equivalent costs developed through cost-finding techniques must be billed.

2.4.12.1. Labor cost must be computed in accordance with subparagraphs 010204.E and 010204.F.

2.4.12.2. Materiel and Supplies cost must be computed in accordance with subparagraph 010204.H.

2.4.12.3. Transportation and related costs must be computed in accordance with subparagraph 010204.J.

2.4.12.4. Overhead Cost must be computed in accordance with subparagraph 010204.N.

2.4.13. Leased or Loaned DoD Equipment. When determining the charge for leased or loaned equipment, the following elements must be billed:

2.4.13.1. Depreciation is not applicable to federal agencies unless the billing activity is a DWCF. Depreciation must be based on cost-finding techniques for sales to private parties unless actual rates are known. Calculations must be in accordance with subparagraph 010204.K.

2.4.13.2. Interest on investment in assets must be computed in accordance with subparagraph 010204.K and as designated within the lease agreement.

2.4.13.3. Value of equipment not returned to the owning DoD Component must be a sale to the using organization. This sale must be priced in accordance with subparagraph 010204.H.

2.4.13.4. Accessorial expenses must be recognized in accordance with subparagraph 010204.J.

2.4.13.5. Repair costs to restore equipment or property to its condition at the time leased or loaned must be collected from the using organization. The amounts must be based on either actual job order cost accumulations or estimates of the cost to be incurred based upon past repair and maintenance experience for similar equipment. The amounts collected must be returned to the appropriation that financed the repair and maintenance in accordance with [10 U.S.C. § 2667](#).

2.4.13.6. Direct labor costs must be computed in accordance with subparagraphs 010204.E and 010204.F; materiel and supply costs must be computed in accordance with subparagraph 010204.H; and overhead must be computed in accordance with subparagraph 010204.N.

2.4.14. Overhead.

2.4.14.1. Overhead involve expenses necessary to run a business that are not directly tied to the production and delivery of goods or services, according to OMB Circular A- 11.

2.4.14.2. Overhead is typically referred to as general and administrative (G&A) costs or some combination of G&A and indirect costs which cannot readily or directly be identified to the performance of a specific customer order for reimbursable costing. Examples of such costs

include central management, rent for office space, human resources, sales, building maintenance, office supplies and utility costs. As provided by the Federal Accounting Standards Advisory Board (FASAB) in [FASAB Technical Release 15](#) that clarifies Statement of Federal Financial Accounting Standards 6, when accumulated indirect costs are not identified as costs incurred to bring facilities and equipment to a form and location suitable for its intended use, they should be expensed.

2.4.14.3. DoD Components may use materiality to determine whether overhead costs should be included in reimbursable billings. This determination must be justified, documented, and be able to stand up to audit scrutiny. If an organization has a material amount of reimbursable effort, overhead costs are accumulated in a cost pool and allocated to customers. In the absence of a cost accounting system, applicable costs may be estimated.

2.4.14.4. Overhead charges may not be applied to reimbursable customer orders received from APF activities within the Department. However, APF activities will charge overhead on sales to other federal agencies, NAFI Category C activities, USACE civil works activities and private parties.

*2.5 Documentation Standards (010205)

2.5.1. General. Support agreements must comply with generally accepted government auditing standards as required in [31 U.S.C. § 3521](#) “Audits by agencies.” These standards require establishing internal controls that provide reasonable assurance of achieving effective and efficient operations, compliance with regulations and applicable laws, and reliability of financial reporting. Support agreements must contain documentary evidence as required in [31 U.S.C. § 1501](#) “Documentary evidence requirement for Government obligations.” Such evidence must include a purpose or scope of agreement in writing as authorized by law. These agreements must be executed before obligational availability expires and prior to the initiation of reimbursable fund certification.

2.5.1.1. A support agreement with a term greater than 3 years must be reviewed and validated by a support agreement manager from the buyer and seller. This review and validation must occur by at least the mid-point of the effective date (e.g., at year 4 in an 8-year agreement). Support agreements expire at a maximum 10 years from the effective date unless there is legal authority for the agreement to continue beyond 10 years.

2.5.1.2. New signatures from all parties to the agreement are required to establish a new support agreement or modify an existing support agreement. This must take place even when the terms and conditions are the same as those in the prior agreement. Cost estimates within agreements that include reimbursable support services must be reviewed annually by the seller to ensure current year actual costs are identified for accurate customer billing and invoices.

2.5.1.3. Support agreements that are active and have established terms for payment in effect as of December 16, 2020 will be converted to FS Form 7600A. This conversion must occur upon the agreement’s next scheduled review or 3 years from December 16, 2020, whichever comes first. Refer to DoDI 4000.19 for additional guidance.

2.5.1.4. Support agreements must include procedures for amending, terminating, reviewing, and transferring the agreement; and for dispute resolution. For example, the agreement must specify that termination may occur by either party via written notice to the other party following an agreed upon termination time. Reporting entities unable to reach an agreement with respect to intragovernmental account balances must escalate the issue to the OUSD(C), Financial Improvement and Audit Remediation (FIAR) Directorate for resolution. Submit requests to the FIAR Directorate no later than the 12th business day of the month following the end of the quarter. At fiscal year-end, final adjustments must be completed prior to the issuance of the Agency Financial Report. Refer to Volume 6B, Chapter 13 for details.

2.5.2. FS Forms 7600A/B. The TFM defines trading partners as **two entities engaged in IGT activity**. Components must use **FS Forms 7600A/B** for intra-governmental **Buy/Sell** transactions. **FS Form 7600A** should cover the broadest categories of goods and services agreed to by both trading partners and, where practical, consolidate requirements to reduce the agreement workload until DoD Enterprise Resource Planning financial systems are capable of processing **FS Form 7600B** or equivalent.

2.5.3. Principal Documents. The **DoD Financial Statement Audit Guide**, published May 2018 (**DoD Common Access Card** required), allow these Key Supporting Documents for Reimbursable Work Orders:

2.5.3.1. **FS Form 7600A**, GT&C (refer to **DoDI 4000.19** and the TFM, Volume I, Part 2, Chapter 4700, Appendix 8 “Section 1 - Buy/Sell Transactions,” for further guidance).

2.5.3.2. **FS Form 7600B**, Order **Form** (refer to **DoDI 4000.19** and the TFM, Volume I, Part 2, Chapter 4700, Appendix 8 “Section 1 - Buy/Sell Transactions,” for further guidance).

2.5.3.3. The Memorandum of Agreement (MOA) (see DoDI 4000.19 for further guidance).

2.5.3.4. **Standard Form (SF) 1080**, Voucher for Transfers Between Appropriations and/or Funds.

2.5.3.5. **SF 1081**, Voucher and Schedule of Withdrawal and Credits.

2.5.4. Preparation Standards. The following apply to document preparation:

2.5.4.1. **FS Forms 7600A/B**. A Buy/Sell agreement that defines the terms, conditions, scope, and responsibilities for trading partners during the exchange is referred to as the GT&C (**FS Form 7600A**). To begin the agreement process, either a buyer or seller may originate a GT&C that must be completed and approved to create an order (**FS Form 7600B**). The order must reference an open GT&C; however, federal agencies do not have to complete a GT&C each time they do a related order. Federal agencies may complete just one GT&C for multiple years to cover multiple orders. **With the GT&C**, data is exchanged for approval and a broad range of transactions; in general no funds are transferred and no accounting entries are created.

2.5.4.1.1. The Volume 5, “Definitions” Chapter defines G-Invoicing as an online portal that supports the exchange of information in IGT activity by federal trading partners. G-Invoicing will assign a unique identifier for each GT&C for tracking purposes. Federal agencies maintain the ability to associate their own unique identifier to each GT&C in their internal accounting systems. Orders in G-Invoicing must reference an active GT&C. G-Invoicing serves as a gateway for federal entities to agree upon the funding terms and the accounting treatment of their reimbursable activity, and exchange that data for consistent financial reporting.

2.5.4.1.2. The order section of the Buy/Sell agreement (FS Form 7600B) specifies the terms, quantities and prices, accounting data, and actions of each trading partner under the overarching GT&C. It serves as the funding section of the agreement that creates a fiscal obligation and details the necessary products/services requirements. Funding information is provided for both trading partners, and all required points of contact sign to authorize the order. It communicates the Treasury Account Symbol/Business Event Type Code for each order Schedule Line and contains unique lines of accounting or other accounting data. The order will also identify the specific requirements of the buyer for the expected delivery of products or services by the seller. In addition, the order identifies the roles and responsibilities for both trading partners to ensure effective management of the order and use of the related funds.

2.5.4.1.3. Treasury’s Bureau of the Fiscal Service will eventually require all FPAs to use G-Invoicing under the authority of [31 U.S.C. § 3512\(b\)](#) and [31 U.S.C. § 3513](#), and in accordance with the TFM. FPAs must implement G-Invoicing for new orders by October 1, 2022 and for “In-Flight” Orders by October 1, 2023. Refer to the TFM, Volume I, Part 2, Chapter 4700, Appendix 8 for details.

2.5.4.2. MOA. An MOA is used to document an agreement and execute or deliver support with or without reimbursement between two or more parties. When a support agreement involves reimbursement, it can be used to further detail terms and conditions in addition to the FS Form 7600A. A Memorandum of Understanding (MOU) must only be used when there is agreement, among two or more parties, that payment is not expected; and when the parties do not rely on each other to execute or deliver on any responsibilities. Figures 1 and 2 in DoDI 4000.19 provide examples of an MOA and MOU respectively.

2.5.4.3. SF 1080. Intra-governmental payments result from transactions between federal entities for sales, services, or transfers between such entities. DoD Components may use the SF 1080 voucher as support for bills to other DoD Components and non-DoD federal agencies when unable to utilize electronic data interchange methods. See Chapters 2, 9, 16 and Volume 10, Chapter 10.

2.5.4.4. SF 1081. DoD Components may use the SF 1081 voucher when a manual process is required to generate inter-agency payments and collections with non-DoD federal agencies. See Volume 10, Chapter 10.

Exhibit 1-1 STRAIGHT-LINE METHOD OF DEPRECIATION

EXAMPLE OF STRAIGHT-LINE METHOD OF DEPRECIATION

Acquisition cost of the asset	\$1,000,000
Less: Residual value (scrap)	<u>\$ 100,000</u>
Depreciable basis	<u>\$ 900,000</u>

Estimated useful life in years 20

The annual depreciation expense of \$45,000 is computed by dividing the \$900,000 depreciable basis by the 20-year useful life.

Hourly charge is computed by dividing the annual depreciation expense of \$45,000 by 2,080 (standard yearly hours) to arrive at \$21.63 per hour.

Note: the standard 40-hour work week x the standard 52 weeks in a year = standard yearly hours.

Multiply the hours used to complete the customer order by the hourly charge. For example, 500 hours x \$21.63 = \$10,815 depreciation expense to be charged.

Exhibit 1-2 INTEREST ON INVESTMENT CALCULATION

EXAMPLE OF INTEREST ON INVESTMENT CALCULATION

Acquisition cost of the asset	\$1,000,000
Less: Accumulated depreciation (5 years at \$45,000 per year)	<u>\$ 225,000</u>
Net Book Value	<u>\$ 775,000</u>

Annual interest (assume a rate of 10 percent per annum in this instance) \$ 77,500

Hourly charge is computed by dividing the annual interest of \$77,500 by 2,080 (standard yearly hours) to arrive at \$37.26 per hour.

Note: the standard 40-hour work week x the standard 52 weeks in a year = standard yearly hours.

Multiply the hours used to complete the customer order by the hourly charge. For example, 500 hours x \$37.26 = \$18,630 interest on investment to be charged.

VOLUME 11A, CHAPTER 2: “PROJECT ORDERS”**SUMMARY OF MAJOR CHANGES**

Changes are identified in this table and also denoted by [blue font](#).

Substantive revisions are denoted by an (*) symbol preceding the section, paragraph, table, or figure that includes the revision.

Unless otherwise noted, chapters referenced are contained in this volume.

Hyperlinks are denoted by [***bold, italic, blue and underlined font***](#).

The previous version dated [January 2018](#) is archived.

PARAGRAPH	EXPLANATION OF CHANGE/REVISION	PURPOSE
1.2 (020102)	Revised the Authoritative Guidance paragraph to list additional sources.	Revision
2.0 (0202)	Updated the definitions to provide clarification.	Revision
3.1 (020301)	Updated to reflect current U.S. Department of the Treasury references and deadlines.	Revision
4.1 (020401)	Revised to provide more context.	Revision
6.3 (020603)	Revised to clarify the process.	Revision

CHAPTER 2

PROJECT ORDERS

1.0 GENERAL (0201)

1.1 Purpose (020101)

This chapter prescribes the financial management guidance and policy involving project orders issued pursuant to the authority in Title 41, United States Code, section 6307 ([41 U.S.C. § 6307](#)). The United States Coast Guard (USCG) has similar project order authority contained in [14 U.S.C. § 712](#). Chapter 1 provides the overall guidance and discussion of general reimbursement procedures and related supporting documentation.

*1.2 Authoritative Guidance (020102)

The following accounting policy and related requirements prescribed by this chapter are in accordance with the applicable provisions of:

1.2.1. 41 U.S.C. § 6307, Contracts with Federal Government-owned establishments and availability of appropriations

1.2.2. 14 U.S.C. § 712, Contracts with Government-owned establishments for work and material

1.2.3. [31 U.S.C. §§ 1501-1502](#), and [31 U.S.C. §§ 1535-1536](#).

1.2.4. Government Accountability Office ([GAO Red Book](#)), Volume 2, Chapter 7, section B.1, Principles of Federal Appropriations Law

1.2.5. U.S. Department of the Treasury (Treasury) Financial Manual, Volume 1, Part 2, Chapter 4700 ([1-TFM 2-4700](#)), Federal Entity Reporting Requirements for the Financial Report of the United States Government

*2.0 DEFINITIONS (0202)

2.1 Project Order (020201)

41 U.S.C. § 6307 provides the Department of Defense (DoD) with the authority to place an order or contract for work, material, or the manufacture of material pertaining to an approved project from Federal Government-owned and operated activities. USCG has similar project order authority contained in 14 U.S.C. § 712 to accept orders from, and enter into reimbursable agreements with, establishments, agencies, and departments of the DoD.

These Project Orders must be for “non-severable” work or service, which are separate and distinct from the Economy Act Orders discussed in Chapter 3. When placed with, and accepted

by a separately managed DoD-owned establishment or the USCG, the project order serves to obligate an appropriation(s) in the same manner as an order or contract with a commercial enterprise. [The appropriations related to project orders remain available to pay the obligation to a DoD-owned establishment or the USCG just as appropriations remain available to pay an obligation to a commercial manufacturer or private contractor.](#)

2.2 DoD-owned Establishment (020202)

A “DoD-owned establishment” for the purpose of this chapter is any DoD-owned and operated activity (that is, not contractor owned or operated). Such activities include working capital fund activities; other revolving fund activities; and those appropriated fund activities engaged in reimbursable operations that reasonably are not severable into fiscal year segments and where such operations can be forecasted with reasonable accuracy. Examples of such activities include equipment overhaul or maintenance shops, manufacturing or processing plants or shops, research-and-development laboratories, computer software design activities, testing facilities, proving grounds owned and operated by the Department, and engineering and construction activities.

2.3 Contractual Relationship and Commercial Contracts (020203)

Terms such as “contractual relationship,” and “commercial contracts,” are used to indicate the close relationship between project orders and commercial contracts in the particular circumstances involved. The use of these and similar terms do not subject project orders to the provisions of the Federal Acquisition Regulation, project order agreement, or responsibilities (legal or otherwise) not provided for in this chapter.

2.4 Allotment (020204)

[Per Office of Management and Budget Circular A-11, allotments are subdivisions of apportionments that are made by the heads of agencies to incur obligations within a prescribed amount. For the purposes of this chapter, subdivision includes the approved operating budgets for the operation of the Military Departments.](#)

2.5 Approved Projects (020205)

As [interpreted by GAO](#), the term “approved projects” simply refers to projects approved by officials having legal authority to do so.

3.0 GENERAL POLICY (0203)

*3.1 Treasury Guidance [on Intra-Governmental Transactions](#) (020301)

3.1.1. [Section 4708, “Intra-governmental Quarterly and Year-end Requirements,”](#) of the [1-TFM 2-4700](#) discusses the requirements necessary to properly report intragovernmental transactions resulting from business activities (i.e., buy/sell transactions) between two federal government entities, called trading partners. It further references the [Appendix 5, “Overall](#)

Intragovernmental Transaction [Processes/General Information](#)” to properly record, report, and reconcile intragovernmental transactions, including the processes for dispute resolution.

3.1.2. [Appendix 8 to Section 4708](#) provides [guidance concerning reimbursable activity between trading partners, otherwise referred to as buy/sell activity](#). Buy/sell activity and the associated accounting activities must be agreed upon by the trading partners and managed through a formal buy/sell agreement. The TFM provides the requirements for using the standard Interagency Agreement ([IAA](#)) containing Treasury’s Bureau of the Fiscal Service (FS) Form 7600A “General Terms and Conditions (GT&C)” and FS Form 7600B “Order Requirements and Funding Information (Order)”. The data elements captured in these forms are necessary to (1) ensure the proper recording and reporting on intragovernmental buy/sell transactions, and (2) eliminate most of the federal-wide reporting deficiencies impacting the Financial Report of the United States Government.

3.1.3. The [Treasury’s G-Invoicing](#) system will be used as a gateway by all federal entities to agree upon the funding terms and the accounting treatment of their reimbursable activity, and exchange the data with one another for consistent financial reporting. Key changes from manual processes include a new set of data standards and the electronic submission of necessary documentation. The mandated implementation deadline for “new orders” is FY 2023. The mandated implementation deadline for “in-flight” orders, which includes the conversion of orders with an open balance and a period of performance extending beyond September 30, 2023 is FY 2024.

3.2 Recordable Obligation (020302)

3.2.1. A project order is a valid and recordable obligation of the issuing entity when the order is placed with and accepted by a separately managed DoD-owned establishment or the USCG, providing the obligation otherwise meets the criteria for recordation of an obligation contained in 31 U.S.C. § 1501.

3.2.2. All orders or contracts for work or material or for the manufacture of material pertaining to approved projects placed with DoD-owned establishments or the USCG must be considered as obligations in the same manner as prescribed for similar orders or contracts placed with commercial manufacturers or private contractors. Appropriations remain available to pay the obligations so created as in the case of contracts or orders with commercial manufacturers or private contractors.

3.3 Project Order Forms (020303)

3.3.1. As stated in paragraph [020301.B](#), Treasury has established a standard [Interagency Agreement](#) form containing the GT&Cs (FS Form 7600A) and the Order (FS Form 7600B) for federal-wide use in carrying out buy/sell transactions between trading partners. These forms must be issued by an authorized DoD or USCG entity and accepted for performance in a DoD-owned and operated establishment.

3.3.2. To properly document that the order for goods or services is a project order, the trading partners must ensure the proper statute (41 U.S.C. § 6307) is cited on the [FS Form 7600B](#) for DoD project orders, or 14 U.S.C. § [712](#) for USCG-related project orders.

3.4 Work Description (020304)

A project order must include an adequate description of the goods to be delivered and/or work to be performed, to include the Line Item/Sub-Line Item level, as well as, the Product Service Code on each requirement. Without these required elements, the order is not sufficient to create a recordable obligation or document detailed performance/delivery, receipt and acceptance, and its' respective invoicing and settlement. (Note: There may be repeat orders for which the performing installation has detailed and definite specifications available. Thus, if the performing activity has on file those elements that make a project order specific, definite, and certain, and those elements are in sufficient detail to enable the performing installation to proceed in carrying out the work ordered, then it is not necessary to also include those elements within the project order itself. In such cases, reference may be made on the project order that specification documentation is retained on file by the performing activity.)

3.5 Use of Standard Line of Accounting (020305)

In accordance with Volume 1, Chapter 4 "Standard Financial Information Structure", buyers and sellers must [use the Standard Line of Accounting \(SLOA\) and ensure it is](#) properly annotated when generating or accepting a reimbursable order, as applicable. Refer to Volume 1, Chapter 4 for additional details and requirements.

4.0 ADVANCE PLANNING (0204)

*4.1 Work Estimates to Performing DoD Establishments (020401)

[Ordering DoD Components or the USCG must give performing DoD-owned establishments advance planning notice of future requests of goods and/or services expected to be placed with the performing DoD-owned establishment. A performing DoD-owned establishment, in the development of its operating budget, must use this advance planning detailed line/sub-line item level data to draft order requirements.](#) An operating budget is subject to revision as subsequent specific work requirements, including significant revisions thereof, are determined.

4.2 Cost Estimates (020402)

At the appropriate time during project order negotiations, performing DoD-owned establishments must give ordering DoD Components cost estimates for each item to be produced or work to be performed under the project order.

5.0 CONDITIONS GOVERNING ISSUANCE AND ACCEPTANCE OF PROJECT ORDERS (0205)

5.1 Contractual Relationship (020501)

A contractual relationship must exist (i.e., be created by the project order) between the parties involved.

5.2 Under the Same Activity Commander (020502)

Since an entity may not enter into a formal contract with itself, a project order must not be used by one organizational unit to order work from another organizational unit under the same activity commander.

5.3 Expiration (020503)

Expiration dates of project orders must not extend beyond the point in time in which the appropriation funding the order cancels (generally five years after the appropriation expires for new obligations).

5.4 DoD-Owned Establishment (020504)

Project orders must be issued only to DoD-owned establishments (see definition in paragraph 020201) that have been given the authority to operate a reimbursable program in an amount equal to or exceeding the project order amount(s). Those issued to the USCG under 14 U.S.C. § 712 would be issued in accordance with USCG established regulations. To determine whether the project order statute provides the statutory authority for an intra-DoD order, determine whether the order is being placed with a DoD-owned establishment. Also, determine whether the order is “entire” (also known as non-severable) under paragraph 020509 and satisfies the other requirements identified in this chapter.

5.5 Payments (020505)

All payments made by an ordering DoD Component to a performing DoD-owned establishment must be based upon the payment schedule in the approved and accepted order (FS Form 7600A) which must be within the scope and conditions of the established agreement (FS Form 7600B).

5.6 Specific, Definite, and Certain (020506)

Project orders are analogous to contracts placed with commercial concerns and similar to such contracts, must be specific, definite, and certain both as to the work encompassed by the order and the terms of the order itself. A project order must be accepted by the performing entity as a basis of obligation by the issuer.

5.7 Certification of Availability for Purpose (020507)

Project orders are subject to the same fiscal limitations that are contained within the appropriation from which they are funded. On the other hand, the performing entity may not be aware of all such appropriation limitations. Therefore, an official of the issuing entity must offer a certification on or attached to the project order stating that the funds cited on the project order are properly chargeable for the purposes cited in the project order.

5.8 Bona Fide Need (020508)

The issuing entity's project order must serve a bona fide need that exists in the fiscal year in which the project order is issued; otherwise, a valid obligation is not accomplished. It is not intended that the bona fide need of the fiscal year rule be construed to preclude procurement lead-time. Thus, where materials, for example, cannot be obtained in the same fiscal year in which they are needed and contracted for, a provision for delivery in the subsequent fiscal year does not violate the bona fide need rule so long as the time intervening between contracting and delivery is not excessive and the procurement is not for standard commercial items readily available from other sources. Bona fide need generally is a determination of the requesting entity and not that of the performing entity. [The performing entity, however, must perform due diligence prior to accepting a project order. It is incumbent upon the performing entity to review the order for obvious deficiencies that would lead the reasonable financial manager to question if the order serves a bona fide need existing in the fiscal year of the appropriation cited on the order. The performing entity must maintain this documentation as part of the project order file.](#)

5.9 “Entire/[Non-Severable](#)” Versus “Severable” (020509)

5.9.1. To be eligible for project order financing, the need must be present in the fiscal year in which the project order is issued, require a series of actions over a period of time which may cross a fiscal year, and call for work or services that are reasonably not severable between fiscal years. For instance, an order for an “entire” end-item or service would call for a single or unified outcome or product and would be one in which few, if any benefits would accrue if the work were terminated without completion at the end of the fiscal year in which it was placed.

5.9.2. The distinction between “entire” and “severable” may not be readily evident. A service is non-severable if the service produces a single or unified outcome, product, or report that cannot be subdivided for separate performance in different fiscal years. Whether the subdivision is feasible or not is a matter of judgment. The objective desired by the requesting customer must be used in the determination. For example, if the customer supplies an item (for example, an aircraft) for overhaul or renovation and wants the entire item returned in a serviceable state, then a repair of a single component (for example, avionics, landing gear, electronics) of the item when the item consists of many components needing repair, would not be a “severable” action. Conversely, if a customer desires an automated system that consists of multiple modules and some (or all) modules can be used independent of the entire system, then each module that can be used independent of the entire system is severable.

5.9.3. The following are examples of efforts that are not eligible for procurement as a project order:

5.9.3.1. Custodial or housekeeping services;

5.9.3.2. Security or fire protection services;

5.9.3.3. Refuse collection;

5.9.3.4. Routine maintenance in general, including: grounds or surfaced-area maintenance, heating and air conditioning systems operation and maintenance, and other real and personal property maintenance;

5.9.3.5. Services such as: subsistence, storage, printing, laundry, welfare, transportation (including port handling), travel, utilities or communications when any of these purposes is the primary purpose of the request; and

5.9.3.6. Efforts where the stated or primary purpose of the order is to acquire a level of effort (e.g., 80 hours of Continuing Education & Training courses, 40 credits of Continuing Professional Education, 100 hours, 20 weeks, or one year) rather than a specific, definite, and certain end-product.

5.9.4. The following are examples of efforts in which an entire need generally exists and, therefore, are eligible for project order financing:

5.9.4.1. Manufacture, production, or assembly of items including experimental prototypes or items manufactured and assembled for test. "Items" include ships, aircraft, guided missiles, other weapons, vehicles of all kinds, ammunition, clothing, machinery and equipment for use in such operations, and other military and operating supplies and equipment (including components and spare parts);

5.9.4.2. Renovation, rebuild, rehabilitation, reconditioning or overhaul of items, including such operations as are necessary to restore an item to a condition of serviceability equivalent to its original state;

5.9.4.3. Alteration or modification in design or assembly of an item to meet revised specifications or to correct defects;

5.9.4.4. Construction or conversion of items (including buildings and other structures), utility and communication systems, and other public works;

5.9.4.5. Development of software programs and automated systems when the purpose of the order is to acquire a specific, definite, and certain non-severable end-product that is achievable reasonably with the resources (financial, human, and plant) available to the provider rather than a level of effort over an extended period;

5.9.4.6. Production of engineering and construction related products and services; and

5.9.4.7. Education and training contracts for single training courses which are considered a single undertaking. Multi-year research study work order to produce a publishable report.

5.10 Commencement of Work (020510)

The work to be performed under project orders must be expected to begin within a reasonable time after its acceptance by the performing DoD-owned establishment or the USCG.

5.10.1. Although work on a project order is not required to commence in the year of project order acceptance, as a minimum requirement, evidence must exist at the time of project order acceptance showing the intention that work (or procurement if required prior to the beginning of work) must (1) begin without delay (usually within 90 days) and (2) be completed within the normal production period for the specific work ordered.

5.10.2. If work (or procurement if required prior to the beginning of work) financed from an appropriation that expired for obligation on September 30 on a project order does not begin, or is not expected to begin, before January 1 of the following calendar year, then the project order must be returned by the performing activity for cancellation. If it is documented that the delay is unavoidable and could not have been foreseen at the time of project order acceptance, and that documentation is retained for audit review, then the project order can be retained and executed.

5.11 Contingent Event Prohibition (020511)

A project order must not be issued if commencement of work is contingent upon the occurrence of a future event or authorizing action by the ordering entity.

5.12 Lawful Purpose (020512)

Project orders must not be used to contravene provisions of the law or accomplish by means of this device what regulations do not permit under commercial contracts.

5.13 Authorized Purpose (020513)

Project orders must not be issued for the primary (or secondary) purpose of continuing the availability of appropriations.

5.14 Project Order Modifications (020514)

5.14.1. The project order statute differs from the Economy Act at 31 U.S.C. § 1535 because it permits agencies to account for obligations for orders in the same manner as orders for similar work placed with commercial manufacturers and private contractors. Project orders, similar to commercial contracts, may contain special provisions and may be modified. Unlike

procurement contracts with commercial concerns where competition requirements limit permissible contract modifications, project orders may be changed or increased at any time to accommodate new or additional work so long as proper funding is available, and so long as the new work otherwise meets the general conditions governing issuance and acceptance of project orders.

5.14.2. If the appropriation used to fund the initial order remains available for new obligation, then use it to fund all modifications that are a bona fide need of that appropriation, even if the modification changes the scope of the project order.

5.14.3. If the appropriation used to fund the initial order has expired, then use it to fund only those amendments and modifications that are within the general scope of the initial project order.

5.14.4. All modifications that increase or change the general scope of work of the original order must be charged to a current appropriation. In cases where the original appropriation has expired and no longer available for new obligations, and the modification or amendment changes the general scope of the original order, the amendment or modification must be funded from a current appropriation.

5.14.5. The appropriation cited on the project order must remain available for price increases and changes that are within the scope of the original order. These obligational rules apply equally to fixed price and cost reimbursable project orders.

5.14.6. Limitation of cost clauses in commercial cost-reimbursement contracts that are the obligational basis for the requirement to charge current appropriations for all ceiling increases, including those within the general scope of such contracts, are not applicable to cost-reimbursement project orders. Limitation of cost clauses govern the legal liability of the United States to third parties, whereas transactions within or between agencies are governed by principles of comity. Whether to structure such project orders on a fixed price or reimbursable basis is a matter of agency discretion and convenience, but not obligational relevance. Whether the work changes the general scope of the original order, or otherwise satisfies an emergent bona fide need of the current fiscal period, governs whether current funds must be charged. Subject to the provisions of paragraph 020708, amendments to project orders which have the effect of partial or complete termination of such orders must provide for the inclusion of the costs of termination.

5.14.7. Volume 3, Chapter 10 provides additional guidance on accounting requirements for expired and closed accounts.

5.15 Ability to Perform (020515)

Project orders must be issued only to those DoD-owned establishments that are capable of performing substantially the work ordered. “Substantially” as used in this paragraph, means that the project order recipient must incur costs of not less than 51 percent of the total costs attributable to rendering the work or services ordered. Total costs to render the work or services ordered include the costs of goods or services obtained from or provided by contractors.

5.16 Subsidiary Ordering (020516)

The provisions of this chapter are not intended in any way to authorize one DoD-owned establishment to act as a general contracting or purchasing agent for another entity.

5.16.1. Subsidiary ordering (within the government) and contracting (with commercial firms) pursuant to a project order is authorized, given such subsidiary ordering and contracting is incident to, and is for use in, carrying out the purpose of the project order.

5.16.2. Project orders must contemplate the use of personnel and facilities (and may include the use of other resources) on the part of the project order recipient, but beyond those incident to contract procurement. In this connection, it is not improper for a project order recipient to subcontract for component parts when the recipient later assembles those parts into the end-product ordered. The assembly operation includes the use of personnel whose technical skills are essential to completion of the job. In addition, the work expended in the assembly operation must be of such an extent that it avoids a perception of the project order being used for contract procurement.

5.16.3. If a project order cannot be placed with another DoD-owned establishment because that establishment would fill the order by contracting with a commercial concern for performance of substantially the entire order, then it is possible the order could be placed pursuant to the Economy Act. This Act permits the agency or agency unit filling the order to provide or procure by contract the goods and services necessary to perform the order.

5.17 Project Order Default (020517)

5.17.1. Where a recipient of a project order defaults or fails to perform work or services specified in the order, and a replacement project order is required as the result of such default, the following apply:

5.17.1.1. Defaulted work or services may be procured from another DoD-owned establishment or the USCG to the extent of any unobligated balance in the appropriation thus obligated.

5.17.1.2. Similarly, a project order also may be issued to a DoD-owned establishment or the USCG under an appropriation obligated by contracts with outside contractors when such contract is terminated for default or failure on part of the contractor to perform work or services specified in the contract.

5.17.1.3. Replacement project orders resulting from defaults may be issued and obligated subsequent to the period of availability of the appropriation for obligation if the replacement project order is made without undue delay after the termination of the original contract or project order.

5.17.2. A replacement project order fulfills a bona fide need of the appropriation that had funded the contract or project order that was terminated for default. The replacement project order must be awarded on the same basis and be similar substantially to the original project order in its scope and size. The replacement project order must not extend beyond the point in time in which the ordering appropriation cancels (generally five years after the appropriation expires for new obligation).

5.18 Project Order Financing (020518)

A project order must be financed fully by the ordering DoD Component from obligational authority current at the time the project order is issued and accepted. Project orders may be issued for a research, development, test and evaluation project which is not financed to completion (i.e., prepared on an incrementally programmed basis). A research, development, test and evaluation appropriation project or program financed on an incrementally programmed basis is one that is funded for the remainder of the funding appropriation's period of current availability or the current fiscal year vice a fully-funded-to-completion basis.

5.19 Direct-Cite Prohibition (020519)

A DoD-owned establishment may only accept project orders on a reimbursable basis. Orders must not be made a subdivision of funds, similar to an allotment; nor the appropriations of the ordering entity be cited by the performing DoD-owned establishment when incurring and recording obligations incurred in performance of the order.

5.20 Reimbursement of Costs Incurred in Performance of a Project Order (020520)

Reimbursement of costs incurred by a performing activity may be accomplished in the manner ordinarily used by that performing activity. Volume 5, Chapter 9 "Disbursement" recognizes that a disbursement may result from a transfer of funds from one appropriation or fund to another by a "no check drawn" transaction using a Standard Form (SF) 1080, Voucher for Transfers Between Appropriations and/or Funds; SF 1081, Voucher and Schedule of Withdrawals and Credits; or by the Department of the Treasury's Intra-governmental Payment and Collection (IPAC) system. Volume 5, Chapter 11 provides additional information on the IPAC system and also identifies general requirements and technical specifications prescribed by the Treasury on the use of IPAC.

6.0 CONDITIONS GOVERNING PERFORMANCE OF PROJECT ORDERS (0206)

6.1 Timeliness (020601)

After acceptance, project orders must be performed as expeditiously as possible according to the terms as accepted. (See paragraph 020510 for additional information.)

6.2 Notification of Delivery Schedule (020602)

Performing DoD-owned establishments are responsible for promptly advising ordering DoD Components of all goods delivered and/or service rendered, and of any changes in delivery schedules.

*6.3 Summary of Costs (020603)

For cost-reimbursement project orders, performing DoD-owned establishments must give ordering DoD Components a summary of costs incurred to date and estimates of costs to complete the order no less than quarterly, but no more frequently than once a month. No special report forms are authorized for this purpose.

6.4 Expiration Dates (020604)

Expiration dates of project orders may be extended with the approval of the ordering DoD Component. Expiration dates of project orders may not extend beyond the point in time in which the ordering appropriation cancels.

7.0 REIMBURSEMENTS TO PERFORMING DOD-OWNED ESTABLISHMENTS (0207)

7.1 Reimbursement (020701)

Performing DoD-owned establishments must be reimbursed for work covered by project orders based upon fixed prices or costs incurred.

7.2 Fixed Price Project Orders (020702)

7.2.1. A fixed price project order must establish a firm price for purposes of reimbursement for the work or services ordered. A fixed price basis may be used when all of the following conditions are present.

7.2.1.1. Work specifications are stable, specific, and definite; and they are made part of the order (or incorporated by reference) for each item when the project order is accepted for performance on a fixed price basis or amended for any changes in the scope of the work. This requirement is critical especially for project order-accepting activities financed by a direct appropriation. An activity financed by a direct appropriation must not accept a fixed price project order unless the activity can predict with a high degree of certainty the actual cost to complete the project order. Otherwise, the activity may violate the prohibition against inappropriately augmenting an appropriation and/or using an appropriation for a purpose not authorized.

7.2.1.2. When there is more than one item of work or service in a project order, including amendments for changes in scope, each item is made the subject of a separate price as shown by the order or in a list incorporated therein by reference. When the work to be performed is the subject of a work list (e.g., equipment overhaul) each entry on the work list must be considered to be an item.

7.2.1.3. No substantial contingencies are included in the price, nor considered to be involved in performance, so that cost variations in performance reasonably can be expected to be minor.

7.2.1.4. There is a satisfactory system of cost estimating used as a basis for establishing fixed prices. When cost standards are used in cost estimating for the purpose of pricing, they must be adjusted for this purpose to include expected cost variances.

7.2.1.5. The same cost elements are used in cost estimating and establishing fixed prices as would be required for use if reimbursements were based upon actual cost incurred.

7.2.2. The requirement to establish a firm price for purposes of reimbursement for the work or services ordered does not preclude the issuance of amendments/modifications to cover changes in scope of any item in the order.

7.3 Cost-Reimbursement Project Orders (020703)

7.3.1. The amount stated in a cost-reimbursement project order must be a sound estimate of the costs to be incurred in performance of the work or services ordered. Such estimates must be determined based upon the specific work to be performed. The estimate of costs must be the ceiling amount for purposes of reimbursement for the work or services ordered.

7.3.2. The performing DoD-owned establishment and the ordering DoD Component must undertake timely renegotiations for revisions of the ceiling amount of cost-reimbursement project orders. Such renegotiations must take place whenever cost performance indicates the need for adjustment of the ceiling amount upward or downward, but before the cost of performance has exceeded 75 percent, when compared with the current ceiling amount. Renegotiations need not be conducted when the probable cost of renegotiation is greater than the adjustment amount. In such cases, the performing establishment must absorb the difference, upward or downward.

7.3.3. Cost-reimbursement project orders may be converted to a fixed price basis provided all conditions governing the use of fixed price project orders are present (see paragraph 020702). In addition, the conversion must occur prior to incurring either 50 percent of the total cost of the work, or 50 percent of the period of performance, whichever comes first.

7.4 Unfunded Costs (020704)

For purposes of this paragraph, “unfunded costs” are costs that are not funded in the account or appropriation that funds the performing activity. (Examples of unfunded costs are not universal. Some performing revolving fund accounts, primarily the working capital fund accounts,

may fund costs that are unfunded by appropriated funds. Unfunded costs of a performing activity funded by an appropriation normally include labor of military personnel and depreciation of capital assets.) When an ordering DoD Component places an order on behalf of persons or agencies outside the U.S. Government (including reimbursable transactions pursuant to Foreign Military Sales discussed in Volume 15), the ordering DoD Component must identify this circumstance on the project order. Under this circumstance, the amount of unfunded costs must be specifically identified and included in the amounts contained in the:

7.4.1. Project orders issued to performing activities;

7.4.2. Billings made by the performing activity to the ordering activity;

7.4.3. Reimbursements by the ordering activity to the performing activity; and

7.4.4. Reimbursements obtained by the ordering activity from the non-federal customer.

7.5 Working Capital Fund (020705)

In the case of a performing DoD-owned establishment operating under a working capital fund, reimbursable costs must be determined in accordance with Volume 11B.

7.6 Non-Working Capital Fund (020706)

When the performing DoD-owned establishment is not operating under a working capital fund, a reimbursable agreement negotiated prior to the placement of a project order must be executed in accordance with the policy requirements contained in Chapter 1.

7.7 Reimbursable Costs (020707)

Reimbursable costs include the cost of machinery or equipment acquired specifically for the performance of a single project order. Such costs must be specifically approved in the following circumstances:

7.7.1. In advance by the ordering DoD Component,

7.7.2. When the machinery or equipment legally could be acquired directly by the ordering fund or appropriation, or

7.7.3. Approval is incorporated into the terms of the project order agreement or amendments thereto. When this is the case, the approved costs must be segregated from other costs and shown as a separate item in the reimbursable billing. Such machinery and equipment are the property of the ordering DoD Component and must be disposed of in accordance with instructions from the ordering DoD Component.

7.8 Termination Costs (020708)

Costs incurred in the termination of a project order must be reimbursable to the performing DoD-owned establishment when the order is terminated by the ordering DoD Component, to the extent that such costs do not exceed the amount of the fixed price or the current ceiling amount specified in the case of cost-reimbursement project orders. When ordering DoD Components and performing DoD-owned establishments cannot agree on the costs of termination, the case must be referred through Component financial management channels for settlement by the Under Secretary of Defense (Comptroller).

7.9 Billing (020709)

To the extent feasible, performing DoD-owned establishments must bill ordering DoD Components for work performed upon the basis of jobs completed or services rendered in accordance with the terms of the project order. Whenever a long period of time is required in the performance of a project order, periodic progress payments approximating costs incurred may be provided for in the order. Progress payments may be made to the performing DoD-owned establishment to cover the accrued cost (and other direct obligations incurred) of performance to the end of the fiscal year under an uncompleted project order. Reimbursement to a working capital fund activity for work performed prior to completion of the project order must be accomplished normally on either a progress payment or a percentage-of-completion basis.

8.0 ACCOUNTING FOR COST OF PERFORMANCE (0208)

8.1 Administration (020801)

Project orders are reimbursable orders and must be administered and accounted for as such. Therefore, project orders **may not** be administered or accounted for by performing DoD-owned establishments as separate subdivisions of appropriations or funds similar to an allotment. The appropriation type accounting for project orders must be performed by the ordering DoD Component in a manner similar to that performed for commercial contracts.

8.2 Working Capital Fund (020802)

The operations of performing DoD-owned establishments financed under a working capital fund must be accounted for in accordance with Volume 11B.

8.3 Obligation Authority (020803)

Project orders received and accepted are the source of **reimbursable** obligational authority, in the amount of the **accepted project order, for the performance of services or delivery of goods requested**.

8.4 Costs Accounts (020804)

Cost [accounts must be maintained](#) to accumulate the costs of performance for all project orders. Those cost accounts serve as a basis for determining the amount reimbursable for cost-reimbursement project orders and as a basis of determining a fixed price for similar future fixed price project orders.

8.5 Billings (020805)

Billings covering reimbursements must identify costs [for each project line/subline item in accordance with the accepted project order \(FS Form 7600A\)](#). The billing standard is discussed in [Chapter 1](#).

9.0 EXEMPTIONS (0209)

Requests for exemptions, along with appropriate justification, must be submitted to the Office of the Under Secretary of Defense (Comptroller), Deputy Chief Financial Officer.

VOLUME 11A, CHAPTER 3: “ECONOMY ACT ORDERS”**SUMMARY OF MAJOR CHANGES**

Changes are identified in this table and also denoted by [blue font](#).

Substantive revisions are denoted by an (*) symbol preceding the section, paragraph, table, or figure that includes the revision.

CHAPTER 3

ECONOMY ACT ORDERS

1.0 GENERAL

1.1 Purpose

This chapter prescribes the financial management policy applicable to orders placed for goods and services within the authority provided for in Title 31, United States Code, section 1535 ([31 U.S.C. § 1535](#)) (the Economy Act of 1932, as amended). Chapter 1 provides overall guidance on general reimbursement procedures and supporting documentation.

1.2 Authoritative Guidance

1.2.1. [10 U.S.C. § 2410a](#) provides statutory authority for severable service contracts for periods crossing fiscal years.

1.2.2. [10 U.S.C. § 2205](#) provides statutory authority for reimbursements made to appropriations of the Department of Defense (DoD) under 31 U.S.C. §§ 1535 and 1536.

1.2.3. [31 U.S.C. § 1502](#) stipulates the bona fide needs rule.

1.2.4. 31 U.S.C. § 1535 provides the authority for Federal agencies to order goods and services from major organizations within the same agency or other Federal agencies.

1.2.5. [31 U.S.C. § 1536](#) provides the authority for crediting payments received on orders executed under 31 U.S.C. § 1535. Payments may be credited to the appropriation or fund against which charges were made to fill the order, or to replace stocks on hand used to fill the order unless another law authorizes the amount to be credited to some other appropriation or fund; or the head of the performing agency decides that replacement is not necessary, in which case, the amount received is deposited in the United States (U.S.) Department of the Treasury (Treasury) as miscellaneous receipts.

1.2.6. [DoD Instruction 4000.19](#), “DoD Agreements,” establishes policy, assigns responsibilities, and provides direction for agreements within the DoD and between DoD and other entities.

1.2.7. Defense Federal Acquisition Regulation Supplement ([DFARS](#)) [Subpart 217.5](#), “Interagency Acquisitions,” and [DFARS Subpart 217.7](#), “Interagency Acquisitions: Acquisitions by Non-Defense Agencies on Behalf of the Department of Defense,” prescribe specific additional DoD acquisition policy involving interagency acquisitions.

1.2.8. Federal Acquisition Regulation ([FAR Subpart 17.5](#), “Interagency Acquisitions,” provides federal-wide acquisition policy related to interagency acquisitions. Under this Subpart, [FAR 17.502-2](#) provides additional acquisition policy specifically related to Economy Act orders.

1.2.9. The Treasury Financial Manual (TFM) Volume I, Part 2, Chapter 4700, [Section 4750](#), “Intragovernmental Quarterly and Year-End Requirements.”

2.0 DEFINITIONS

2.1 Assisted Acquisition

[FAR Subpart 2.1](#) defines an assisted acquisition as a type of interagency acquisition where a servicing agency performs acquisition activities on a requesting agency’s behalf, such as awarding and administering a contract, task order, or delivery order. [DFARS 217.701](#) defines assisted acquisition similarly as the type of interagency contracting through which acquisition officials of a non-DoD agency award a contract, task, or delivery order for the acquisition of supplies or services on behalf of DoD.

2.2 Direct Acquisition

Per FAR Subpart 2.1, a direct acquisition is a type of interagency acquisition where a requesting agency places an order directly against a servicing agency’s indefinite-delivery contract. The servicing agency manages the indefinite-delivery contract but does not participate in the placement or administration of an order. DFARS 217.701 defines direct acquisition as a type of interagency contracting through which DoD orders a supply or service from a Governmentwide acquisition contract maintained by a non-DoD agency.

2.3 Interagency Acquisition

FAR Subpart 2.1 [defines](#) an interagency acquisition [as](#) an action by which an agency needing supplies or services (the requesting agency) obtains them from another agency (the servicing agency) by an assisted acquisition or a direct acquisition. The term includes acquisitions under the Economy Act (31 U.S.C. § 1535) and Non-Economy Act acquisitions completed under other statutory authorities.

2.4 Multiple Year Appropriation

[A](#) multiple-year appropriation means an appropriation that is available for obligation for a definite period of time in excess of one fiscal year.

2.5 Non-Severable Service

A single undertaking that cannot be feasibly subdivided represents a non-severable service. If the service produces a single or unified outcome, product, or report, [consider it](#) non-severable.

2.6 Requesting Agency

FAR Subpart 2.1 defines the requesting agency as the agency that has the requirement for an interagency acquisition or that needs services.

2.7 Servicing Agency

FAR Subpart 2.1 defines the servicing agency as the agency that will conduct an assisted acquisition on behalf of the requesting agency or that provides services.

2.8 Severable Service

A severable service is ongoing and recurring, providing value to the agency at the time of delivery, regardless of contract completion and is a unique component that independently provides value to meet an agency's need.

3.0 LEGAL AUTHORITY

3.1 Statutory Conditions on Use

3.1.1. 31 U.S.C. § 1535 establishes four basic conditions for the use of Economy Act authorities. In accordance with the statute, the head of an agency or major organizational unit within an agency may place an order with a major organizational unit within the same agency or another agency for goods or services if:

3.1.2. Funds are available;

3.1.3. The head of the requesting agency or unit decides the order is in the best interest of the U.S. Government;

3.1.4. The agency or unit to be asked to fill the order is able to provide or obtain by contract the ordered goods or services; and

3.1.5. The head of the requesting agency decides that ordered goods or services are unavailable by contract as conveniently or economically by a commercial enterprise.

3.2 Reimbursements to Appropriations

10 U.S.C. § 2205 states to credit reimbursements made to DoD appropriations under 31 U.S.C. §§ 1535 and 1536 for services rendered or supplies furnished to the appropriation or fund of the activity performing the reimbursable work.

3.3 Limitations

Economy Act orders may not be used by an agency to:

3.3.1. Circumvent conditions and limitations imposed on the use of funds, including extending the period of availability of the cited funds;

3.3.2. Contravene provisions of the law or accomplish what regulations do not permit under commercial contracts;

3.3.3. Make acquisitions conflicting with any other agency's authority or responsibility (see [FAR 17.501](#)) or for which the servicing agency is required by law to provide and for which it received appropriations; or

3.3.4. Order work or services from another organizational unit under the same activity commander where the activity commander is in a position to fund the required goods or services through the use of direct funds.

4.0 USES OF ECONOMY ACT ORDERS

Use Economy Act orders for any required goods, supplies or services that are appropriate and legal. Acquisition policies contained in the FAR, DFARS, and within individual DoD Component's implementation guidance govern the potential uses of Economy Act orders. Typical uses include: base support (host-tenant) services such as administrative services, civilian personnel services, community services, environmental compliance, fire protection, food service, health service, mail service, police service, security/guard services, and warehousing.

5.0 INITIATING AN ECONOMY ACT ORDER

5.1 Determinations and Findings Requirement

Each Economy Act order submitted to the servicing agency must include a copy of the determinations and findings (D&F) report as required by [FAR 17.502-2\(c\)](#). Specific D&F requirements are stated in FAR 17.502-2(c) and [DFARS 217.503](#).

5.2 Ordering Procedures and Requirements

[FAR 17.503](#), DFARS Subpart 217.5, and DFARS Subpart 217.7 address the procedures that apply to all interagency acquisitions, including those made under the authority provided within the Economy Act.

5.3 Treasury Guidance

5.3.1. The TFM Volume I, Part 2, Chapter 4700, Section 4750, "Intragovernmental Quarterly and Year End Requirements," discusses the requirements necessary to properly report intragovernmental transactions resulting from business activities (i.e., buy/sell

transactions) between two Federal government entities, called trading partners. It further references the Intragovernmental Transaction Guide (Appendix 5) as containing the business rules and processes to properly record, report, and reconcile intragovernmental transactions, including the processes for dispute resolution.

5.3.2. The TFM provides the standard [Interagency Agreement \(IAA\)](#) containing two Fiscal Service (FS) Forms: FS Form 7600A, General Terms and Conditions (GT&C) and FS Form 7600B, Order Form. Treasury has mandated the use of these two forms to ensure the proper recording and reporting on intragovernmental buy/sell transactions, and to eliminate the federal-wide reporting deficiencies impacting the Financial Report of the U.S. Government. Accordingly, all DoD Components must use the latest published versions of FS Forms 7600A/B when completing an Economy Act Order and these must comply with the [Federal Intragovernmental Data Standards](#) when using the Treasury's G-Invoicing system, DoD Ordering systems, Enterprise Resource Planning, or when completing the FS Forms 7600 A/B manually.

5.3.3. The system used to negotiate, broker, and electronically store the GT&Cs and associated transactions between buyers and sellers for all inter and intragovernmental reimbursable transactions is [Treasury's G-Invoicing system](#). This requirement is for all IAAs with a performance period extending to June 30, 2021 or later. In instances where G-Invoicing is not available, such as remote deployments or other austere conditions, DoD Components must use hardcopies of FS Forms 7600A/B. DoD Components must establish internal policies and procedures for designating signature authority for GT&Cs.

5.3.4. The requesting scope of work on the FS Form 7600A [must](#) cover relatively broad categories of goods or services when feasible. However, the FS Form 7600B must discretely describe the goods or services ordered with the associated FS Form 7600A. When practical and legally permissible, the agreement period on the FS Form 7600A [must](#) cover multiple years.

6.0 POLICY

6.1 Specific, Definite, and Certain

Economy Act orders must be specific, definite, and certain both as to the work encompassed by the order and the terms of the order itself.

6.2 Certification of Availability for Purpose

Economy Act orders are subject to the same fiscal limitations that are contained within the appropriation from which they are funded. However, the performing entity may not be aware of all such appropriation limitations. Therefore, the requesting official must provide a certification, on or attached to the Economy Act order, stating that the funds cited [in](#) the Economy Act order are properly chargeable for the purposes cited in the order.

6.3 Bona Fide Need

Economy Act orders citing an annual- or multiple-year appropriation must serve a bona fide need arising, or existing, in the fiscal year(s) for which the appropriation is available for obligation (refer to 31 U.S.C. § 1502). Bona fide need generally is a determination of the requesting activity and not that of the servicing activity. A servicing activity **must**, however, refuse to accept an Economy Act order if it is obvious that the order does not serve a need existing in the fiscal year for which the appropriation is available.

6.4 Appropriation Policy

6.4.1. **Obligation.** An Economy Act order obligates the applicable appropriation of the requesting agency or unit upon acceptance of the order by the servicing agency. The requesting agency **obligates** the entire amount of a reimbursable order when the servicing agency **accepts** the order.

6.4.1.1. **DoD Components cannot use** annual appropriations for requirements that are bona fide needs of a subsequent fiscal year, except as allowed by statutory authority. DoD Components that enter into Economy Act agreements with other organizations to satisfy requirements for severable services, non-severable services, and supplies must ensure that obligations for the Economy Act agreements constitute a bona fide need of the annual appropriation charged. Consequently, the servicing agency must **enter into** any supply or service contract before the end of the period of availability of the annual appropriation.

6.4.1.2. To constitute a bona fide need of the requesting activity's annual appropriation, any resultant contract for supplies or services entered into by the servicing agency must satisfy the same obligational requirements **outlined** in Volume 3, Chapter 8, as would any contract directly entered into by the requesting activity. For example, **an agency may issue** a contract for severable services under an Economy Act agreement that crosses fiscal years only if the awarded contract satisfies the requirements of 10 U.S.C. § 2410a, the contract period does not exceed 1 year, and the contract period begins during the availability period for the agency's appropriation(s).

6.4.1.3. **DoD Components can** obligate multiple-year appropriations for requirements that constitute bona fide needs during the multiple-year period of availability of the appropriation. Multiple-year appropriations obligated for Economy Act orders are subject to the same bona fide need standards as would a contract directly entered into by the requesting activity. **DoD Components** must enter resultant supply and service contracts during the period of availability of the appropriation funding the Economy Act order, and these contracts are subject to the same budgetary full funding or incremental funding policies prescribed in Volumes 2A and 2B.

6.4.1.4. **Agencies must** support resultant contracts for non-severable services that cross fiscal years entirely **with their** appropriations available for new obligations at the time they award the contract.

6.4.1.5. Because Research, Development, Test and Evaluation (RDT&E) requirements are iterative in nature, RDT&E programs, projects, and activities are not subject to full funding policies. For example, [DFARS 232.703-1](#) permits DoD organizations to incrementally fund a fixed-price contract for severable services if the contract is funded with research and development appropriations. Refer to DFARS 232.703-1 for additional guidance and restrictions. In Volume 2A, Chapter 1 of the DoD budgetary policy, [budget estimates for RDT&E](#) are prepared on an incrementally funded basis, [requiring that](#) only the funds necessary for work in a given fiscal year be included in the RDT&E request for that year. The DoD Components encourage fully funding RDT&E contracts for non-severable services.

6.4.1.6. Obligating funds for an Economy Act order where the resultant fixed length severable services contract will exceed the 1-year limit [outlined](#) in 10 U.S.C. § 2410a or will not commence until a subsequent fiscal year, may result in an Antideficiency Act violation under [31 U.S.C. § 1341](#).

6.4.2. [De-obligation](#). Transactions undertaken in reliance on authority conferred by the Economy Act are subject to statutory requirements imposed by 31 U.S.C. § 1535(d) governing when excess funds must be de-obligated. The amount obligated by the requesting agency or unit must be de-obligated to the extent that the servicing agency has not incurred obligations before the end of the period of availability of the ordering appropriation. It is critical that activities reconcile the obligation status of Economy Act orders and de-obligate unused funds, as needed, before the end of the funds' availability. Funds must be de-obligated by both the requesting and servicing agency to the extent that the servicing agency or unit filling the order has not (1) provided the goods or services, or (2) entered into an authorized contract with another entity to provide the requested goods or services before the end of the period of availability (fiscal year or multiple year period, as applicable) of the appropriation of the requesting or ordering agency.

6.5 Commencement of Work

[Work](#) performed under Economy Act orders must begin within a reasonable time after its acceptance by the servicing agency.

6.6 Contingent Event Prohibition

Economy Act orders must not be issued if [the](#) commencement of work is contingent upon the occurrence of a future event or authorizing action by the requesting agency.

7.0 PAYMENT PROCEDURES

7.1 Payments

7.1.1. [DoD Components must make](#) payments promptly upon the written request (or billing) of the agency or unit filling the order. [DoD Components are not allowed to advance](#) funds to non-DoD Federal entities or pay for advance billings without the receipt of goods or services [unless](#) the DoD Component is specifically authorized by law, legislative action or Presidential

authorization. Refer to Volume 4, Chapter 5 for the conditions and requirements related to advances and prepayments.

7.1.2. In cases where a specific appropriation or law authorizes DoD Components to advance funds, the obligating and/or interagency agreement documents and orders must cite the specific appropriation or law that authorizes the advance. When authorized, DoD Components base advance payments on estimated costs, and must adjust the final payment amount to account for actual costs. The performing agency must immediately collect any unused amounts of the advance and return them to the fund from which they were originally made.

7.1.3. The requesting official must be fully aware of the non-DoD Federal agency's billing practices and methods. If the servicing agency is permitted to advance funds, the requesting official from the DoD agency must ensure that the written agreement requires the servicing agency to specifically account for the advanced funds. The requesting official must take appropriate action to ensure that they do not disburse DoD funds in advance of contract performance. Additionally, DoD Components must work with their servicing disbursement sites to ensure trading partner agreements restrict other Federal agencies' ability to withdraw funds prior to the delivery of goods or performance of services.

7.2 Small Amounts

7.2.1. DoD working capital funds, the Corps of Engineers Civil Works Revolving Fund, and other DoD revolving funds may not waive reimbursement of any amount. This does not preclude the identification of a central payment office by a DoD Component to pay small bills. Guidance on the financial management of working capital funds is in Volume 11B.

* 7.2.2. The billing organization can suspend billing until the end of the fiscal year, or until the total billed exceeds \$1,000 when an appropriated fund activity is the performer and the billable amount within the same DoD Component or to another DoD or non-DoD Component is less than \$1,000. The billing organization must bill all suspended amounts to the DoD Component or to another DoD or non-DoD Component no later than the end of the fiscal year even though the billable amount is less than \$1,000.

8.0 REIMBURSEMENTS

8.1 Appropriated Funds

8.1.1. The servicing agency determines the basis of the actual cost for reimbursement under the Economy Act. The requesting agency must pay the servicing agency the actual costs of the goods or services provided. Actual costs include all direct costs attributable to providing goods or services. The servicing agency's increased expenditures do not increase actual costs. Actual costs also include indirect costs (overhead) to the extent they have a significant relationship to providing the goods or services and benefit the requesting agency. Chapter 1 outlines how to calculate indirect costs (overhead). DoD activities not funded by working capital funds normally do not charge indirect costs to other DoD activities.

8.1.2. The servicing agency is **not allowed to** require a payment of any fee or charge in excess of the actual cost (or estimated cost if the actual cost is not known) and the requesting agency **is not required** to pay any fee or charge in excess of the actual cost (or estimated cost if the actual cost is not known) of entering into and administering the contract or other agreement under which the order is filled per FAR 17.502-2.d.(4). The general rules **for** DoD Components **to** follow **regarding** amounts collected as reimbursements are in Chapter 1.

8.2 Working Capital Fund Activities

Reimbursable costs in the case of servicing DoD activities operating under a working capital fund must be determined in accordance with Volume 11B.

9.0 ACCOUNTING

9.1 Direct Fund Cite Orders

Economy Act orders may be issued as direct fund cite orders where the requesting unit identifies the appropriate fund citation for the servicing unit to place on the requested contract or reimbursable order. Servicing DoD activities must not **administer or account** for Economy Act orders as separate subdivisions of appropriations or funds similar to an allotment. The Requesting DoD Component must account for appropriation type (e.g., annual, no-year, multiyear) Economy Act orders in accordance with Volume 3, Chapter 15.

9.2 Working Capital Fund

Volume 11B contains DoD policy and guidance for accounting of the operations of servicing DoD activities financed under a working capital fund.

9.3 Obligation Authority

Economy Act orders received and accepted are the source of obligational authority in the amount of the order for the performance of the work requested.

9.4 Cost Account

Accumulate the costs of performance for all Economy Act orders **with a cost account or other device**. The cost account serves as a historical basis for determining the amount reimbursable for cost reimbursement Economy Act orders and as a basis **for** determining a fixed price for similar future fixed-price Economy Act orders.

9.5 Records

The servicing DoD Component must establish procedures that identify and retain a record of the requestor's appropriation accounting classification(s) for each order received. Establishment and compliance with these procedures will facilitate **the** auditability of the requestor's source of funding.

9.6 Billings

Billings covering reimbursements must identify costs by each item listed in the Economy Act order. Volume 10, Chapter 10 contains the DoD policy for executing intragovernmental payments.

9.7 Reconciliation and Elimination of Intragovernmental Transactions

Volume 6B, Chapter 13 contains DoD policy and guidance for adjustments, eliminations, and other special intragovernmental reconciliation procedures.

VOLUME 11A, CHAPTER 4: “USER FEES”**SUMMARY OF MAJOR CHANGES**

Changes are identified in this table and also denoted by [blue font](#).

Substantive revisions are denoted by an asterisk (*) symbol preceding the section, paragraph, table, or figure that includes the revision.

Unless otherwise noted, chapters referenced are contained in this volume.

Hyperlinks are denoted by [***bold, italic, blue and underlined font***](#).

The previous version dated [June 2020](#) is archived.

PARAGRAPH	EXPLANATION OF CHANGE/REVISION	PURPOSE
All	Updated Uniform Resource Locators.	Revision
1.1	Added clarifying language to define user fees. Edited for conciseness.	Addition
1.2	Moved “Does not apply to user fees associated with the Freedom of Information Act (FOIA) or the Privacy Act of 1974 as amended.” to the Purpose section for clarity.	Revision
1.3.3	Added the User Charge Statute.	Addition
3.1.1	Moved “how collections are treated in the United States Treasury” to the general policy paragraph.	Revision
3.3.1.2.1	Added Volume 4, Chapters 24 and 25 references, which address depreciation of equipment.	Addition
5.0	Updated section and paragraph numbering.	Revision

CHAPTER 4

USER FEES

1.0 GENERAL

*1.1 Overview

The Federal Government must [assess](#) user fees [against each identifiable recipient for special benefits derived from Federal activities beyond those received by the general public](#). The User Charge Statute, Title 31, United States Code, section 9701 ([31 U.S.C. §9701](#)), “Fees and Charges for Government Services and Things of Value,”) establishes that it is the sense of Congress that any work, service, publication, report, document, benefit, privilege, authority, use, franchise, license, permit, certificate, registration or similar thing of value or utility performed, furnished, provided, granted, prepared, or issued by an agency (except a mixed-ownership Government corporation) to a person (except a person on official business of the United States (U.S.) Government) is to be self-sustaining to the extent possible.

The Department of Defense (DoD) is authorized by legislation to establish user fees, in accordance with the guidelines that are defined by 31 U.S.C. §9701.

The [Office of Management and Budget \(OMB\) Circular A-25 Revised](#), “User charges,” and [Chief Financial Officers Act of 1990](#) require federal agencies to review, on a biennial basis, the fees, royalties, rents, and other charges imposed by the agency for services and things of value provided to specific recipients, beyond those received by the general public. The purpose of this review is to periodically adjust existing charges to reflect unanticipated changes in costs or market values, and to review all other agency programs to determine whether fees should be assessed for Government services or the use of Government goods or services.

*1.2 Purpose

This chapter:

[1.2.1. Promulgates Department of Defense \(DoD\) policy regarding establishment and assessment of appropriate fees for services or things of value supplied by DoD Components.](#)

[1.2.2. Provides information on the scope and types of activities subject to user charges and the basis upon which user charges are to be calculated.](#)

[1.2.3. Provides guidance on Component implementation of user charges and the disposition of collections.](#)

[1.2.4. Does not apply to user fees associated with the Freedom of Information Act \(FOIA\) or the Privacy Act of 1974 as amended, \[5 U.S.C. §552a\]\(#\). Refer to Regulation \[DoD 5400.7\]\(#\), “DoD Freedom of Information Act Program” and \[DoD 5400.11\]\(#\), “DoD Privacy and Civil Liberties Program.”](#)

1.3 Authoritative Guidance

The accounting policy and related requirements prescribed by this chapter are in accordance with the applicable provisions of:

1.3.1. 31 U.S.C. § 9701, “Fees and Charges for Government Services and Things of Value.” This statute authorizes the head of each agency to prescribe regulations establishing the charge for a service or thing of value provided by an agency.

1.3.2. Chief Financial Officers Act of 1990, requires federal agencies to review, on a biennial basis, the fees, royalties, rents, and other charges imposed by the agency for services and things of value provided to specific recipients, beyond those received by the general public.

*1.3.3. [31 U.S.C. § 3302](#), “Custodians of money.” The User Charge Statute is a codification of a provision in Title V of the Independent Offices Appropriation Act of 1952, which provided broad authority to assess user fees or charges on identifiable beneficiaries by administrative regulation. This statute details the Federal Government’s custodial responsibilities of public money. Subsection (b) is the basis for the requirement that unless authorized by law, an agency may not retain and use money received from sources other than congressional appropriations; the money must instead be deposited in the Treasury.

1.3.4. [10 U.S.C. § 2667](#), “Leases: non-excess property of military departments and Defense Agencies.” This statute provides authority to the Secretary of Defense to lease non-excess real or personal property and accept either cash or an in-kind consideration as payment.

1.3.5. [OMB Circular A-25](#) Revised, “User Charges.” This Circular establishes Federal policy regarding fees assessed for Government services and sale or use of Government goods or resources. In any case where an OMB circular provides guidance concerning a specific user charge area, the guidance of that circular must be deemed to meet the requirements of this Circular. Examples of such guidance include the following: [OMB Circular A-45](#), concerning charges for rental quarters; [OMB Circular A-130](#), concerning management of Federal information resources; and [OMB Circular A-97](#), concerning provision of specialized technical services to State and Local governments.

2.0 RESPONSIBILITIES

2.1 Under Secretary of Defense (Comptroller)

The Under Secretary of Defense (Comptroller) (USD(C)) will promulgate financial management policy governing user fees.

2.2 DoD Components

Heads of DoD Components, or designees, will:

2.2.1. Identify the services and activities that will adopt and charge a user fee or accept an in-kind consideration.

2.2.2. Determine the extent of the special benefits provided as specified in paragraph 3.1.

2.2.3. Apply the principles specified in paragraph 3.1 in determining full cost or market price.

2.2.4. Publish user fees to be charged for services on schedules, lists, or tables posted on publicly available websites.

2.2.5. Review user fees biennially in accordance with OMB Circular A-25 Revised, to include:

2.2.5.1. Assurance that existing fees are adjusted to reflect unanticipated changes in costs or market values; and

2.2.5.2. A review of all other programs where fees are not being assessed to determine whether special benefits are being provided and whether fees should be charged for Government services or goods.

2.2.6. Publish and describe the results of the biennial review of user fees and any resulting proposals, such as adjustments to fee schedules, in the annual DoD Agency Financial Report as required by the [Government Management and Reform Act of 1994](#) and the Chief Financial Officers Act of 1990.

2.2.7. Ensure the requirements of [OMB Circular No. A-123](#), “Management's Responsibility for Internal Control,” the Government Accountability Office’s [GAO 14-704G](#), “Standards for Internal Control in the Federal Government (the “Green Book”),” [DoDI 5010.40](#), “Managers’ Internal Control Program Procedures,” and appropriate audit standards are applied to user fee collections.

2.2.8. Maintain readily accessible records of [the](#):

2.2.8.1. Services or activities charging user fees or accepting in-kind considerations;

2.2.8.2. Extent of special services provided;

2.2.8.3. Exceptions to the general policy;

2.2.8.4. Cost information used to establish or calculate fees and the specific methods used in their determination. This information must be provided upon request to OMB for the evaluation of the fee schedules in accordance with the requirements in [OMB Circular A-11](#), “Preparation, Submission and Execution of the Budget”; and

2.2.8.5. The collections (i.e., cash or in-kind consideration) from each user fee imposed.

2.2.9. Initiate exception actions outlined in paragraph 3.6. All such actions must be coordinated with the USD(C) prior to forwarding to OMB.

2.2.10. Develop legislative proposals as outlined in section 4.0 when there are statutory prohibitions, restrictions, or limitations on the implementation, assessment or retention of user fees.

3.0 USER FEES

3.1 General Policy

*3.1.1 Collections are credited to the General Fund of the U.S. Department of the Treasury (hereafter referred to as Treasury) as miscellaneous receipts as required by 31 U.S.C. § 3302, or if specific statutory authority is available, may be retained by the Component for a specific purpose (e.g., Agriculture and Grazing (10 U.S.C. § 2667), Forestry ([10 U.S.C. § 2665](#)), Recycling ([10 U.S.C. § 2577](#)), Royalties ([10 U.S.C. § 3710e](#)), and Licensing of Intellectual Property ([10 U.S.C. § 2260](#)) revenue programs).

3.1.2. User fees should only be established and implemented if:

3.1.2.1. Mandated by specific statutory authority, or when implemented under the authority of the User Charge Statute; and

3.1.2.2. The monetary benefits to the Federal Government of receipts collected significantly exceed the costs of collecting the fees.

3.1.3. Since generating and maintaining reliable cost data is expensive, consideration must be given to the cost of personnel and related data gathering requirements, and the costs of implementing, maintaining, and using financial management systems when determining the level of cost detail required and whether or not monetary benefits exceed costs.

3.1.4. It is DoD policy not to compete unfairly with available commercial facilities in providing special services or in the sale or lease of property to private parties and agencies outside the Federal Government. However, when a service (or privilege) provides special benefits to an identifiable recipient, beyond those that accrue to the general public, a fee should generally be imposed to recover the full cost to the Federal Government for providing the special benefit (or the market price) except as otherwise approved by the USD(C) and authorized by the Director of the

OMB. A special benefit will be considered to accrue, and a user fee should be imposed, when a government service:

3.1.4.1. Enables the beneficiary to obtain more immediate or substantial gains or values (which may or may not be measurable in monetary terms) than those which accrue to the general public (e.g. receiving a patent, insurance, or guarantee provision, or a license to carry on a specific activity or business of various kinds of public land use), or

3.1.4.2. Provides business stability or contributes to public confidence in the business activity of the beneficiary (e.g., insuring deposits in commercial banks), or

3.1.4.3. Is performed at the request of or for the convenience of the recipient and is beyond the services regularly received by other members of the same industry or group or by the general public (e.g., receiving a passport, visa, airman's certificate, or a Custom's inspection after regular duty hours).

3.2 Applicability

None of the provisions in this chapter should be construed as giving authority for the sale or lease of property, or the rendering of special services. Actions to convey such special benefits must be authorized by separate authority. This user fee policy is applicable except when other statutes or directives specifically direct other practices or procedures, such as for:

3.2.1. Services to military personnel and civilian employees of the DoD provided in accordance with section 5.0.

3.2.2. Products and services provided to military personnel, their families, and civilian DoD employees by DoD Nonappropriated Fund Instrumentalities (i.e., morale, welfare, and recreation (military and civilian), Military Services exchanges, lodging, supplemental mission funds, and special purpose central funds). Fees for such services are governed by DoD Instruction [\(DoDI\) 1015.15](#), “Establishment, Management, and Control of Nonappropriated Fund Instrumentalities and Financial Management of Supporting Resources,” and other Office of the Secretary of Defense policy.

3.2.3. Sale or disposal of surplus property under specifically approved programs (please refer to [Chapter 5](#)).

3.2.4. Services furnished the general public relating to, or in furtherance of, the Armed Forces recruiting program.

3.2.5. Services furnished to representatives of the public information media in the interest of public understanding of the Armed Forces.

3.2.6. Armed Forces participation in public events. Fees for such participation are governed by the provisions of [DoDI 5410.19](#), “Public Affairs Community Relations Policy Implementation”.

3.2.7. Records made available to the public, under FOIA, pursuant to DoD 5400.7, “DoD Freedom of Information Act Program.” Fees for searches and copies of records are governed by Chapter 6 of DoD 5400.7.

3.2.8. Services furnished to non-Federal audio-visual media. Fees for such services are governed by the provisions of 32 Code of Federal Regulations Part 238 ([32 CFR Part 238](#)), “DoD Public Affairs Assistance to Non-Government, Entertainment-Oriented Media Productions.”

3.2.9. Pricing of performance by DoD Working Capital Fund activities which must be in accordance with Volume 11B.

3.2.10. Foreign Military Sales of Defense articles and services which must be in accordance with Volume 15.

3.2.11. Records made available to requesters under the Privacy Act of 1974, pursuant to DoD 5400.11.

3.3 Calculation of User Fees

All fees must be based on the full cost to the U.S. Government or market price, whichever applies. Additionally, whenever possible, fees must be set as rates rather than fixed dollar amounts in order to adjust for changes in costs to the Government or changes in market prices of the good, resource, or service provided.

3.3.1. Except as provided in [paragraphs 1.3, 4.0, and 5.0](#) a user fee should be imposed to recover the full cost to the Federal Government of providing the service, resource, or good when the Government is acting in its capacity as sovereign. “Full cost” includes all direct and indirect costs associated with providing a good, resource, or service. Full cost must be determined or estimated from the best available records, and new cost accounting systems should not be established solely for this purpose. These costs are outlined in Chapter 1 and include, but are not limited to, an appropriate share of:

3.3.1.1. Direct and indirect personnel costs, including salaries and fringe benefits such as medical insurance and retirement. Retirement costs should include all (funded or unfunded) accrued costs not covered by employee contributions as specified in OMB Circular A-11.

3.3.1.2. Physical overhead, consulting, and other indirect costs including material and supply costs, utilities, insurance, travel, and rents or imputed rents on land, buildings, and equipment. If imputed rental costs are applied, they should include:

*3.3.1.2.1. Depreciation of structures and equipment (based on guidance contained in [Volume 4](#), Chapter 24 [and 25, respectively](#)); and

3.3.1.2.2. An annual rate of return (equal to the average long-term Treasury bond rate) on land, structures, equipment and other capital resources used.

3.3.1.3. The management and supervisory costs.

3.3.1.4. The costs of enforcement, collection, research, establishment of standards, and regulation, including any required environmental impact statements.

3.3.2. User fees should be based on market prices when the Government is not acting in its capacity as sovereign and is leasing or selling goods or resources, or is providing a service (e.g., leasing space in federally owned buildings). Under these business-type conditions, user fees need not be limited to the recovery of full cost, must be based on market prices, and may yield net revenues. “Market price” means the price for a good, resource, or service that is based on competition in open markets, and creates neither a shortage nor a surplus of the good, resource, or service.

3.3.2.1. When a substantial competitive demand exists for a good, resource, or service, its market price will be determined using commercial practices, for example by:

3.3.2.1.1. Competitive bidding; or

3.3.2.1.2. Reference to prevailing prices in competitive markets for goods, resources, or services that are the same or similar to those provided by the Government (e.g., campsites or grazing lands in the general vicinity of private ones) with adjustments as appropriate that reflect demand, level of service, and quality of the good or service.

3.3.2.2. In the absence of substantial competitive demand, market price will be determined by taking into account the prevailing prices for goods, resources, or services that are the same or substantially similar to those provided by the Government, and then adjusting the supply made available and/or price of the good, resource, or service so that there will be neither a shortage nor a surplus (e.g., campsites in remote areas).

3.3.3. Fees established in advance of performance should be based on the estimated cost of performance. Projected amounts must be reviewed the earlier of biennially or whenever significant changes in cost or value occur.

3.3.4. Internal management controls must be established in accordance with [OMB Circular A-123](#), GAO’s [GAO-14-704G](#), and DoDI 5010.40 to ensure that user fees are developed, published on a publicly available website, and adjusted using current, accurate, and complete data. These controls must also ensure compliance with cash management and debt collection policies promulgated in Volume 5.

3.4 Collection of User Fees

DoD Components should make every effort to keep the costs of collection to a minimum and collect fees electronically, via electronic funds transfer (EFT), and utilize, as applicable, the collection services provided by the Treasury’s Bureau of the Fiscal Service (Fiscal Service) as described in Volume 5, Chapter 8 and outlined in the Treasury Financial Management, Volume 1, “Federal Agencies,” Part 5, “Deposit Regulations ([1 TFM Part 5](#)).”

3.4.1. In accordance with OMB Circular A-25, user fees must be collected in advance of, or simultaneously with, the rendering of services unless appropriations and authority are provided to allow for services to be provided on a reimbursable basis.

3.4.2. Although fees must be collected in advance absent statutory authority to provide services or special benefits on a reimbursable basis, Components may collect advance fee payments incrementally if variable costs such as personnel or utility costs are incurred incrementally over time and if the services or special benefit is susceptible to being provided on a severable basis.

3.5 Disposition of User Fees

As required by 31 U.S.C. § 3302, an official or agent of the Government who receives money for the Federal Government from any source must deposit the money in the Treasury as soon as practicable. This law is generally referred to as the “Miscellaneous Receipts Statute.” Accordingly, unless another statute provides otherwise, user fees collected under the authority of the User Charge Statute must be credited to the General Fund of the Treasury as miscellaneous receipts.

3.6 Exceptions or Waiving of User Fees

3.6.1. The Head of each DoD Component or designee may make exceptions to the general policy if the provision of a free service is an appropriate courtesy to a foreign government or international organization; or comparable fees are set on a reciprocal basis with a foreign country.

3.6.2. The Head of each DoD Component or designee may recommend to OMB that exceptions to the general policy be made when:

3.6.2.1. The cost of collecting the fees would represent an unduly large part of the fee for the activity; or

3.6.2.2. Any other condition exists that, in the opinion of the agency head or his designee, justifies an exception.

3.6.3. All exceptions must be for a period of no more than four years unless renewed by the Head of each DoD Component or designee for exceptions granted under subparagraph 3.6.1 or OMB for exceptions granted under subparagraph 3.6.2 after a review to determine whether conditions warrant their continuation.

3.6.4. Requests for exceptions and extensions under paragraphs 3.6.2 and 3.6.3 must be submitted to the Director of OMB.

4.0 LEGISLATIVE PROPOSALS TO RETAIN AND USE FEES

4.1 General Policy

If Components require modification of statutory prohibitions on assessment of user fee charges, they may propose remedial legislation to repeal the assessment prohibition or to authorize an exception. Similarly, Components may propose legislative authority to retain and use amounts collected as user charges. Such proposals are subject to requirements for preparation and submission established in [DoD Directive \(DoDD\) 5500.01](#), “Preparing, Processing, and Coordinating Legislation, Executive Orders, Proclamations, Views Letters, and Testimony.” For additional guidance on submitting legislative proposals for approval or authorization to implement or modify a user fee program or to authorize retention and use of user fee collections, refer to OMB Circular A-25 Revised, paragraph 7.

4.2 Authorities

Under the User Charge Statute, a statutory authority is required for DoD Components to retain and use user fees. Proposals requesting such authority may be appropriate when a user fee is levied in order to finance a service that is intended to be provided on a substantially self-sustaining basis and thus is dependent upon adequate collections.

4.2.1. The authority to use fees credited to an appropriation is generally subject to limits set in annual appropriations language. However, it may be appropriate to request exemption from annual appropriations control, if a provision of the service is dependent on demand that is irregular or unpredictable (e.g., a fee to reimburse an agency for the cost of overtime pay of inspectors for services performed after regular duty hours).

4.2.2. Legislative proposals that permit fees to be credited to accounts must be consistent with the full cost recovery guidelines contained in paragraph 3.3.2. Any fees collected in excess of full cost recovery (i.e., under business-type conditions in which user fees are calculated based on market prices) are to be credited to the General Fund of the Treasury as miscellaneous receipts.

4.3 Procedures

Legislative proposals must be submitted to OMB in accordance with the requirements of DoDD 5500.01 and [OMB Circular No. A-19](#), “Legislative Coordination and Clearance”. To ensure the proper placement of user fee initiatives in the budget account structure, DoD Components are encouraged to discuss proposals with OMB at an early stage of development. Further guidance may be obtained from the DoD General Counsel Office of Legislative Counsel’s website at: <https://ogc.osd.mil/OGC-Offices/Office-of-Legislative-Counsel/>. Proposals to remove user fee restrictions or retain collections must:

4.3.1. Define, in general terms, the services for which fees will be assessed and the pricing mechanism that will be used.

4.3.2. Specify whether fees will be collected in advance of, or simultaneously with, the provision of service unless appropriations and authority are provided in advance to allow reimbursable services.

4.3.3. Specify where collections will be credited. Legislative proposals should not normally specify precise fees. The user fee schedule should be set by regulation to allow for the administrative updating of fees to reflect changing costs and market values.

5.0 BENEFITS FOR WHICH NO FEE MUST BE ASSESSED

5.1 Military and Civilian Benefits

5.1.1. Documents and information requested by members of the U.S. Armed Forces as required by such personnel in their capacity as Service members.

5.1.2. Documents and information requested by members of the U.S. Armed Forces who are in a casualty status or requested by their next of kin or legal representative.

5.1.3. The provisions of the address of record of a member or former member of the U.S. Armed Forces when the address is readily available through a directory (locator) service, and when the address is requested by a member of the U.S. Armed Forces or by a relative or a legal representative of a member of the U.S. Armed Forces or when the address of record is requested by any source for the purpose of paying monies or forwarding property to a member or former member of the U.S. Armed Forces.

5.1.4. Services requested by, or on behalf of, a member or former member of the U.S. Armed Forces and civilian personnel of DoD (where applicable) or, if deceased, his or her next of kin or legal representative that pertain to the provision of:

5.1.4.1. Information required to obtain financial benefits regardless of the terms of separation from the Service.

5.1.4.2. Documents showing membership and military record in the Armed Forces if discharge or release was under honorable conditions.

5.1.4.3. Information related to a decoration or award or required for memorialization purposes.

5.1.4.4. Information related to the review or change in type of discharge or correction of records.

5.1.4.5. Personal documents, such as birth certificates, when such documents are required to be furnished by the member.

5.1.4.6. Services that are furnished free in accordance with statutes or Executive Orders.

5.1.4.7. Information from or copies of medical and dental records or x-ray films of patients or former patients of military medical or dental facilities, when such information is required for further medical and dental care, and requests for such data are (a) submitted by an accredited medical facility, physician, or dentist; or (b) requested by the patient, his or her next of kin, or legal representative. Other requests subject to the Privacy Act of 1974 must be in accordance with DoD 5400.11.

5.2 Services requested by and furnished to entities outside DoD

5.2.1. A member of Congress for official use.

5.2.2. State, territorial, county, or municipal government, or an agency thereof, that is performing a function related to or furthering a DoD objective.

5.2.3. A court, when such services will serve as a substitute for personal court appearance of a military or civilian employee of DoD.

5.2.4. A nonprofit organization that is performing a function related to or furthering an objective of the Federal Government or that is in the interest of public health and welfare, including education.

5.2.5. Donors in connection with the conveyance or transfer of a gift to DoD.

5.3 Occasional and incidental services

Occasional and incidental services (including requests from residents of foreign countries), that are not requested often, when it is determined administratively that a fee would be inappropriate for the occasional and incidental services rendered.

5.4 Administrative services

Administrative services offered by reference or reading rooms to inspect public records, excluding copies of records or documents furnished.

5.5 Services rendered in response to requests

Services rendered in response to requests for classification review of DoD classified records, submitted under [*Executive Order 13526*](#), “Classified National Security Information”, and implemented by [*DoD Manual 5200.01 Volumes 1-3*](#), “DoD Information Security Program.” Such services consist of the work performed in conducting the classification review or in granting and completing an appeal from a denial of declassification following such review.

5.6 Services of a humanitarian nature

Services of a humanitarian nature performed in such emergency situations as life-saving transportation for non-U.S. Armed Forces patients, search and rescue operations, and airlift of

personnel and supplies to a disaster site. This does not mean that inter- and intra-governmental agreements to recover all or part of costs should not be negotiated. Rather, it means the recipient or beneficiary will not be assessed a “user fee.”

CHAPTER 5

DISPOSITION OF PROCEEDS FROM DEPARTMENT OF DEFENSE SALES OF SURPLUS PERSONAL PROPERTY

1.0 GENERAL

*1.1 Overview

This chapter outlines how the Department of Defense (DoD) handles proceeds from the sale of surplus personal property. The DoD must deposit net proceeds from sales into the U.S. Department of the Treasury (Treasury) as miscellaneous receipts, after deducting the expenses of the sale. Legal exceptions allow the DoD to credit proceeds to specific appropriations or funds, such as those from sales of supplies, materials, equipment, and other personal property not financed by stock funds, revolving funds, and non-appropriated fund property. These exceptions also apply to contractor sales of surplus government property, sales of recyclable material on military installations, and the disposal of lost, abandoned, and unclaimed privately-owned personal property.

1.2 Purpose

This chapter provides the policy for the collection and disposition of cash and cash equivalents received by DoD Components for the sale of surplus personal property.

1.3 Authoritative Guidance

The financial management policy and related requirements prescribed in this chapter are in accordance with the applicable provisions of the following sources, and apply to all proceeds resulting from sales of surplus personal property:

1.3.1. Title 10, United States Code, section 2210 ([10 U.S.C. § 2210](#)), “Proceeds of Sales of Supplies: Credit to Appropriations”

1.3.2. [10 U.S.C. § 2605](#), “Acceptance of gifts for defense dependents’ schools.”

1.3.3. [10 U.S.C. § 2608](#), “Acceptance of contributions for defense programs, projects, and activities; Defense Cooperation Account.”

1.3.4. [10 U.S.C. § 2575](#), “Disposition of unclaimed property.”

1.3.5. [10 U.S.C. § 2577](#), “Disposal of recyclable materials.”

1.3.6. [22 U.S.C. § 2355\(d\)](#), “Retention and use of certain items and funds.”

1.3.7. [22 U.S.C. § 2761](#), “Sales from stocks.”

- 1.3.8. [22 U.S.C. § 2795](#), “Fund.”
- 1.3.9. [40 U.S.C. § 571](#), “General rules for deposit and use of proceeds.”
- 1.3.10. [40 U.S.C. § 574](#), “Other rules regarding proceeds.”
- 1.3.11. Title 32, Code of Federal Regulations, section 273 ([32 CFR § 273](#)), “Defense Materiel Disposition.”
- 1.3.12. [41 C.F.R. § 102-38](#), “Sale of Personal Property.”
- 1.3.13. Federal Account Symbols and Titles ([FAST Book Part I](#)), “Agency Identifier Codes.”
- 1.3.14. Treasury Financial Manual ([TFM Volume 1, Part 2, Chapter 1500](#)), “New Account Establishment, Updating Accounts, and Description of Accounts Relating to Financial Operations.”
- 1.3.15. Defense Federal Acquisition Regulation ([DFARS subpart 245.602-70](#)), “Plant clearance procedures.”
- 1.3.16. , [DFARS subpart 245.604](#), “Sale of surplus personal property.”
- 1.3.17. DoD Instruction ([DoDI 4715.23](#)), “Integrated Recycling and Solid Waste Management.”
- 1.3.18. DoD Manual ([DoDM 4160.21, Volume 1](#)), “Defense Materiel Disposition: Disposal Guidance and Procedures.”

2.0 POLICY

2.1 General Rules for Deposit and Use of Proceeds

2.1.1. According to 40 U.S.C. § 571, agencies must deposit net proceeds from sales of surplus property into the Treasury as miscellaneous receipts unless a law authorizes a deposit into an alternate appropriation. The law also requires that agencies pay the expenses of selling old material, condemned stores, supplies, and other public property from the proceeds of the sale, ensuring that only the net proceeds are deposited in the Treasury, or any other applicable appropriation authorized by law.

2.1.2. Under 10 U.S.C. § 2210, a working capital fund responsible for the disposal of property may retain proceeds from disposals that are necessary to recover the expenses incurred in disposing of that property. Therefore, the Defense Logistics Agency (DLA) Disposition Services will retain amounts sufficient to offset all expenses incurred in the disposition of excess/surplus personal property from the proceeds of sales of such property (see Table 5-1).

2.2 Legal Exceptions to the General Rules

The following authorizations permit the crediting of the proceeds of the sale to appropriations and/or funds of the Department. Additional guidance on specific types of exceptions is in Table 5-2.

2.2.1. Supplies, Material, Equipment, and Other Personal Property Not Financed by Stock Funds. In accordance with 10 U.S.C. § 2210, the DoD may credit the net proceeds from the sale or disposal of surplus property, after recovering necessary expenses, to current applicable appropriations. Therefore, any proceeds that remain after recovering disposal expenses will be credited to the current applicable appropriations of the Department (i.e., the appropriation currently available for purchasing such property).

2.2.2. Revolving Fund and Non-Appropriated Fund Property. In accordance with 40 U.S.C. § 574, when property is acquired with amounts either (a) not appropriated from the general fund of the Treasury; or (b) appropriated from the general fund of the Treasury but by law reimbursable from assessment, tax, or other revenue or receipts, the net proceeds of such a disposition or transfer of the property must be:

2.2.2.1. Credited to the applicable reimbursable fund or appropriation; or

2.2.2.2. Paid to the federal agency that determined the property to be excess.

2.2.3. Contractor Sales of Surplus Government Property in the Possession of Contractors. The DFARS subpart 245.60, implements 40 U.S.C. § 574(c) and provides overall direction for crediting proceeds from contractor-conducted sales of surplus government property in the possession of contractors.

2.2.4. Sales of Recyclable Material on Military Installations. The DoD or DLA Disposition Services distribute the proceeds from direct sales of installation-qualified recycling programs (QRP) on military installations, as outlined in 10 U.S.C. § 2577 and DoDI 4715.23.

2.2.4.1. The Director of DLA and DLA Disposition Services (under the Under Secretary of Defense for Acquisition and Sustainment) must establish procedures and controls to ensure that when installations consign recyclable materials for disposal to DLA Disposition Services on behalf of a qualified recycling program, they return 100 percent of any proceeds, minus the costs of sales and handling, to the installations in accordance with established accounting procedures.

2.2.4.2. Agencies must establish an accounting and control system for recycling programs that provides detailed management and audit information, tracks the quantity of material handled, calculates sales and handling costs for recycled material, and monitors expenditures made for appropriate projects and Morale, Welfare and Recreation (MWR) programs. The integrity of the audit trail must be prioritized.

2.2.4.3. If a military installation has a QRP (as determined by the Secretary of the Military Department concerned or the Secretary of Defense) and a balance remains available after such funds are credited, then the installation may use no more than 50 percent of that balance for projects focused on pollution abatement, pollution prevention, energy conservation, alternative-fueled vehicle infrastructure support, and occupational safety and health activities. According to 10 U.S.C. § 2577, the project cannot exceed 50 percent of the amount established by law as the maximum for a minor construction project.

2.2.4.4. DoD Components must promptly deposit and record all recycling proceeds in the United States Standard General Ledger account 426600, which provides direct budgetary authority on line 1800 of the Standard Form (SF) 132, Apportionment and Reapportionment Schedule, and SF 133, Report on Budget Execution and Budgetary Resources. They must obligate and disburse from the designated Treasury Account Symbol only for the purposes specifically authorized in 10 U.S.C. § 2577. The use of suspense accounts is prohibited, and any remaining balances must be transferred to the designated Treasury account.

2.2.4.5. A military installation may transfer the remaining balance available to its non-appropriated morale and welfare account for any morale or welfare activity. If the balance exceeds \$10 million at the end of any fiscal year, the installation must deposit the excess amount into the Treasury as miscellaneous receipts.

2.2.5. Lost, Abandoned and Unclaimed Privately-Owned Personal Property. The DoD may dispose of lost, abandoned, or unclaimed personal property after it has made diligent efforts to find the owner or the owner's heirs, next of kin, or legal representative, as prescribed by 10 U.S.C. § 2575.

2.2.5.1. When [military installations](#) find lost, abandoned, or unclaimed personal property, they must credit the net proceeds from the sale of the property to the operation and maintenance account of that installation and use it:

2.2.5.1.1. To reimburse the installation for any costs incurred by the installation to collect, transport, store, protect, or sell the property; and

2.2.5.1.2. To the extent that the amount of the proceeds exceeds the amount necessary for reimbursing all such costs, to support MWR activities under the jurisdiction of the armed forces at such installation.

2.2.5.2. [Military](#) installations must deposit the net proceeds from the sale of all other lost, abandoned, and unclaimed privately-owned personal property into the Proceeds of Sales of Lost, Abandoned, or Unclaimed Personal Property (_X6001). After five years, [military installations](#) must transfer any unclaimed net proceeds from _X6001 to Forfeitures of Unclaimed Money and Property (_1060).

2.2.5.3. The owner(s) of personal property disposed of as described in this section may file a claim with the Secretary of Defense for an amount equal to the proceeds minus the costs

incurred by the installation to collect, transport, store, protect, or sell the property. They must file the claim within five years of the disposal date of the property.

2.2.5.3.1. To pay claims for property found on military installations, the installations must draw the amounts from their MWR account, into which the proceeds were deposited.

2.2.5.3.2. For all other property, amounts to pay the claim must be from the Proceeds of Sales of Lost, Abandoned, or Unclaimed Personal Property account (_X6001).

2.2.5.4. See Tables 5-1 and 5-2 to identify, by type of surplus property, the collection and disposition of proceeds from the sale of surplus property.

3.0 COLLECTION AND DISPOSITION OF BID DEPOSITS

3.1 Collection of Bid Deposits [Collected Under the Card Acquiring Service](#)

DoD Components establish policies governing acceptance under the [Card Acquiring Service](#). These instances have transaction limits. Further guidance is contained within [Volume 5, Chapter 11](#), “Electronic Commerce and Deposit of Public Funds.” The Office of the Under Secretary of Defense (Comptroller) announces changes or additions to approved credit or debit cards in memoranda or through changes to the TFM. Treasury covers any fees normally charged to sellers, except for equipment and communication costs.

3.2 Disposition of Bid Deposits

If the sale requires a bid deposit, a DoD Component must initially deposit cash collected from bidders into account 097X6501, “Small Escrow Amounts,” until a successful bidder is determined and a contract is awarded.

Table 5-1. Costs Associated with Disposal and Sale of Surplus Personal Property

TYPE OF SURPLUS PROPERTY	DISPOSITION OF PROCEEDS
1. All property types turned over to DLA Disposition Services for disposal. Authority: 10 U.S.C. § 2210	DLA Disposition Services may retain the proceeds from the disposals of property necessary to recover the expenses incurred in disposing of that property. They must deposit these proceeds into the DLA Disposition Services working capital fund (097X4930.005) to offset costs.

Table 5-2. Disposition of Net Proceeds from the Sale of Surplus Personal Property

TYPE OF SURPLUS PROPERTY	DISPOSITION OF PROCEEDS
<p>1. Scrap and usable personal property purchased with working capital funds and turned in by working capital fund activities to the DLA Disposition Services.</p> <p>Authority: 10 U.S.C. § 2577</p>	<p>The applicable working capital fund will receive the net proceeds.</p>
<p>2. Working capital fund supply management excess inventory items turned in to DLA Disposition Services.</p> <p>Authority: 40 U.S.C. § 574</p>	<p>The applicable working capital fund will receive the net proceeds.</p>
<p>3. Property (equipment) purchased with funds from the Surcharge Collections, Sales of Commissary Stores trust fund account to include property downgraded to scrap at turn-in, such as shopping carts, shelving units, and similar material. Scrap material, such as cardboard, is not reimbursable under this rule.</p> <p>Authority: 40 U.S.C. § 574</p>	<p>The net proceeds must be deposited into 097X8164, "Surcharge Collections, Sales of Commissary Stores, Defense Commissary Agency."</p>
<p>4. Bones, fats, and meat trimmings generated by a commissary store.</p> <p>Authority: 40 U.S.C. § 574</p>	<p>The net proceeds must be deposited into 097X4930.004, "Defense Working Capital Fund, Defense Commissary Agency."</p>
<p>5. Non-appropriated fund instrumentalities' property, excluding garbage suitable for animal consumption, which they dispose of under a multiple-pickup contract.</p> <p>Authority: 40 U.S.C. § 574</p>	<p>The applicable non-appropriated fund instrumentality must receive the net proceeds.</p>

Table 5-2. Disposition of Net Proceeds from the Sale of Surplus Personal Property (Continued)

TYPE OF SURPLUS PROPERTY	DISPOSITION OF PROCEEDS
<p>6. Lost, abandoned or unclaimed privately-owned personal property turned in to the DLA Disposition Services.</p> <p>Authority: 10 U.S.C. § 2575</p>	<p>On military installations, the operation and maintenance account must be credited with the net proceeds to reimburse for: 1) any costs incurred to collect, transport, store, protect, or sell the property, and 2) the amount necessary to cover all such costs that support MWR activities under the jurisdiction of the armed forces at that installation. The installation can transfer any remaining proceeds to the non-appropriated MWR account. For all others, the installation must deposit the net proceeds into the “Proceeds of Sales of Lost, Abandoned or Unclaimed Personal Property” account (_X6001). After five years, the installation must transfer any unclaimed net proceeds from X6001 to the “Forfeitures of Unclaimed Money and Property” account (_1060).</p>
<p>7. Property owned by a country (other than the United States) or international organization. (For more details, see Volume 15, Chapter 2, “Finance.”)</p>	<p>The applicable foreign country or international organization must receive the net proceeds.</p>
<p>8. Security Assistance Property</p> <p>a. Military Assistance Program and Foreign Military Financing (FMF) property returned to the U.S. Government by a recipient country or international organization as no longer needed for the purpose for which furnished. (For more details, see Volume 15, Chapter 1, “General Information” & Chapter 4, “Cash Management.”)</p> <p>Authority: 22 U.S.C. § 2355(d)</p>	<p>The “FMF Program, Funds Appropriated to the President” account (011_1082) must receive net proceeds.</p>
<p>b. Special Defense Acquisition Fund (SDAF) property.</p> <p>Authority: 22 U.S.C. § 2795</p>	<p>The “SDAF, Funds Appropriated to the President” account (011X4116) must receive net proceeds.</p>
<p>c. Security Assistance Office property purchased with Foreign Military Sales (FMS) Trust Fund funds.</p> <p>Authority: 22 U.S.C. § 2761</p>	<p>The “Advances, FMS, Funds Appropriated to the President” account (011X8242) must receive net proceeds.</p>

TYPE OF SURPLUS PROPERTY	DISPOSITION OF PROCEEDS
<p>16. Gifts for Defense Dependents Education System - Any gift (including any gift of an interest in real property) that is to be used in connection with the operation and/or administration of the DoD dependent's education system. (For more details, see Volume 12, Chapter 30)</p> <p>Authority: 10 U.S.C. § 2605</p>	<p>The "DoD Dependent's Education Gift Fund" Account (097X8096) must receive net proceeds.</p>
<p>17. Any contribution of money, real property, or personal property made by any person, business, foreign government, or international organization for use by the DoD. (For more details, see Volume 12, Chapter 3 "Contributions for Defense Programs, Projects, and Activities.")</p> <p>Authority: 10 U.S.C. § 2608</p>	<p>The "Defense Cooperation Account" (5187.001) must receive net proceeds.</p>
<p>18. Supplies, material, equipment, and other personal property personal (to include demilitarized/scrapped end items) turned in by DoD Components. (For more details, see Volume 12, Chapter 14 "Transferring, Disposing, and Leasing of Real Property and Personal Property.")</p> <p>Authority: 10 U.S.C. § 2210</p>	<p>The current applicable DoD appropriation (i.e., the appropriation currently available for the purchase of such items) must receive net proceeds.</p>
<p>19. The DoD and other federal government activities turn in all other personal property, including demilitarized and scrapped end items, when the law does not provide for the disposition of the proceeds. (For more details, see Volume 12, Chapter 14)</p> <p>Authority: 40 U.S.C. § 571</p>	<p>The Miscellaneous Receipts account (097_2651) must receive net proceeds.</p>

VOLUME 11A CHAPTER 6: “ANNUAL REIMBURSABLE RATES”**SUMMARY OF MAJOR CHANGES**

Changes are identified in this table and also denoted by **blue** font.

Substantive revisions are denoted by an (*) symbol preceding the section, paragraph, table, or figure that includes the revision.

Unless otherwise noted, chapters referenced are contained in this volume.

Hyperlinks are denoted by ***bold, italic, blue, and underlined font.***

The previous version dated **November 2019** is archived.

PARAGRAPH	EXPLANATION OF CHANGE/REVISION	PURPOSE
1.0	This paragraph was substantively revised to add Overview, update Purpose narratives, and add the required list of Authoritative Guidance information.	Revision/ Addition
2.2	Added the Revolving Funds Director for responsibility of the Working Capital Funds.	Addition
3.1	Updated the table to reflect changes for the Exhibit Submissions requirements/information.	Revision
Appendix A	Updated the table template and the required format for the authoritative guidance. Replaced “shall be” to “must” in the instructions.	Revision
Appendix B	Updated narratives and defined indicators for the Department of Defense (DoD) Working Capital Funds Civilian/Military Equivalency Rate table and its contents.	Revision
Appendix D	Updated tables to remove Defense Logistics Agency and add Defense Contract Management Agency. Corrected the superscript and note number assignments. Accounted for the eleventh federal holiday.	Revision
Appendix F	This appendix was substantively revised to reflect updated information and reference links for Medical and Dental Services Rate Computation.	Revision
Appendix G	Incorporated nondiscretionary revisions in support of fiscal year (FY) 2022, FY 2023, FY 2024, and FY 2025 DoD Military Personnel Composite Standard Pay and Reimbursement Rates policy memorandums issued on July 29, 2021; June 17, 2022; May 9, 2023; and April 30, 2024.	Revision
Appendix H	Updated tables to correct the superscript and note number assignments. Accounted for the eleventh federal holiday.	Revision

CHAPTER 6

ANNUAL REIMBURSABLE RATES

*1.0 GENERAL

1.1 Overview

The Department of Defense (DoD) provides goods and services to meet military mission requirements. The Economy Act allows the Department to provide certain goods to DoD Components, other government agencies, and the private sector under specified conditions. Reimbursable rates, published by the Under Secretary of Defense (Comptroller)/DoD Chief Financial Officer, provide a basis for the Department and its Components to be reimbursed for such goods and services provided.

1.2 Purpose

The purpose of this chapter is to provide guidance relative to the preparation of specific exhibits and due dates for the submission of such exhibits, used to develop and support those reimbursable rates published by the DoD Deputy Comptroller (Program/Budget) (P/B). This guidance applies to all DoD Components and goods or services encompassed by or subject to reimbursable rates approved by the DoD Chief Financial Officer.

1.3 Authoritative Guidance

The financial management and requirements prescribed by this chapter are in accordance with the applicable provisions of:

1.3.1. Title 10, United States Code, section 347, (10 U.S.C. § 347), “International engagement authorities for service academies”

1.3.2. 10 U.S.C. § 2205, “Reimbursements”

1.3.3. 22 U.S.C. § 2347, “International Military Education and Training”

1.3.4. 22 U.S.C. § 2761, “Sales from stocks”

1.3.5. Title 32, Code of Federal Regulations (CFR), part 199.14 (5 CFR 199.14), “Civilian Health and Medical Program of the Uniformed Services (CHAMPUS)”

2.0 RESPONSIBILITY

2.1 Deputy Comptroller (P/B)

The Office of the Under Secretary of Defense (Comptroller) (OUSD(C)) is responsible for reviewing, coordinating, and publishing reimbursable rates for the Department. Where feasible,

applicable reimbursable rates will be published before the beginning of each new fiscal year (FY), allowing sufficient lead time for the distribution of rates and updating billing systems.

***2.2 DoD Components**

DoD Components are required to:

2.2.1. Maintain systems that use generally accepted cost accounting procedures to formulate proposed rates. Each such DoD Component is responsible for maintaining, in conjunction with the Defense Finance and Accounting Service, an appropriate cost accounting system enabling the accumulation of data needed to formulate reimbursable rates for consumers of such goods or services. Generally accepted cost accounting procedures will be the basis for such proposed rates.

2.2.2. Submit to the DoD Deputy Comptroller (P/B) or the Revolving Funds Director for the Working Capital Funds, reimbursable rate exhibits that propose reimbursable rates for the upcoming fiscal year. Such exhibits must be prepared and submitted per the time frames specified in section 3.0 and in accordance with the formats specified in the appendices to this chapter.

2.2.3. Bill using rates approved by the DoD Deputy Comptroller (P/B) or the Revolving Funds Director for the Working Capital Funds. Goods or services provided in an academic year or a fiscal year, as applicable, will be billed at the approved academic or fiscal year rate, respectively, effective with the beginning of the academic year or October 1 of the fiscal year, as appropriate, irrespective of whether the rates have been established in the billing system.

2.2.4. Ensure that rates different from those approved by the DoD Chief Financial Officer are not issued or changed without the prior written approval of that official or the Deputy Chief Financial Officer.

3.0 EXHIBITS

*3.1 Reimbursable Rate Exhibits

The following reimbursable rate exhibits will be submitted each year in support of the President's Budget submission. Detailed instructions are included with each exhibit, and specific due dates are identified:

<u>TYPE OF REIMBURSABLE RATE</u>	<u>APPENDIX</u>	<u>DUE DATE*</u>	<u>SUBMITTING COMPONENT</u>	<u>Reviewing OUSD(C) COMPONENT</u>
Academy Foreign Cadet	A	Per Data Call	All Military Depts and OASD (Health Affairs)	Operations
Civilian/Military Equivalency, DoD Working Capital Fund	B	Per Data Call	OUSD(C)	Revolving Funds
Civilian Personnel Fringe Benefit	C	Per Data Call	OUSD(C)	Operations
Contract Administration Services	D	Per Data Call	DCMA, DCAA, All Military Depts	Operations
Fixed/Rotary Wing Aircraft	E	Per Data Call	All Military Depts	Operations
Medical and Dental Services	F	Per Data Call	OASD(Health Affairs)	Military Personnel and Construction
Military Composite Pay	G	Per Data Call	All Military Depts	Military Personnel and Construction
NASA	H	Per Data Call	DCMA, DCAA, All Military Depts	Operations

3.2 Exhibits Submissions

Exhibits should be submitted to the attention of the corresponding reviewing component in both electronic format and hard copy to the DoD Deputy Comptroller (P/B), The Pentagon, Washington, DC 20301-1100. Spreadsheet and text files provided in electronic format should be compatible with Microsoft Excel.

2/3 of FY 20BY		
Academic Year Reimbursable Rate ⁽⁸⁾		
* Workyears includes Foreign Cadets		

GENERAL

Department of Defense Service Academies' Foreign Cadet Reimbursable Rate is to be used when billing foreign cadets and midshipmen instruction cost. 10 U.S.C. § 347 requires a Foreign Government to reimburse instruction costs to the United States for cadets and midshipmen permitted to attend one of the military academies to include the United States Military Academy, the Naval Academy, and the Air Force Academy. Each Service Department calculates its internal Service Academies' Foreign Cadet Reimbursable Rate using the rate calculation in the instructions. OUSD(C) calculates the Department of Defense Service Academies' Foreign Cadet Reimbursable Rate from the Services' submissions and publishes on the OUSD(C) public website prior to the commencement of the academies' academic year.

INSTRUCTIONS

Instruction costs include faculty, staff, learning material, housing, basic pay and allowance, subsistence (meals), and medical expenses of a cadet/midshipman. The instruction costs are identified in the Operations and Maintenance (O&M), Military Personnel (MILPER), and Other Procurement (OP) appropriations. Detailed instructions for calculating the Services' foreign cadet and midshipman reimbursable rate follows:

- (1) Insert the applicable current year (CY) and budget year (BY) for the fiscal year being calculated. For example, when computing the FY 2026 Budget Year rate, the current year would be FY 2025 and the budget year would be FY 2026.
- (2) Include all budgeting and programming data in the Service Academies Program Element (PE) 804721 for all appropriations. The Service Academy PE **must** be exclusively used for cadet and midshipman instruction cost. The O&M appropriation must include the PE, budget activity, and subactivity group for instruction cost. For the O&M and OP accounts the current year reflects the enacted appropriation and the budget year reflects the President's Budget. In the MILPER accounts CY **must** reflect the CY Estimate (i.e., not the enacted) in the BY President's Budget and BY **must** reflect the BY in the BY President's Budget. When there is no enactment of an appropriation, the CY is an estimate for all appropriations.
- (3) Insert the Cadet/Midshipman workyears/average strength which includes Foreign Cadets (Basic Pay, Average Number) shown in the Military Personnel justification books for budget activity 3, Pay and Allowances for Cadets/Midshipmen submitted to the Congress in support of the President's Budget. The workyears/average strength CY column **must** reflect the CY Estimate in the BY President's Budget and BY **must** reflect the BY in the BY President's Budget.
- (4) Obtain the Cadet/Midshipman medical support cost from the OUSD(C). The Service Academies' Cadet/Midshipman medical support costs include both clinic and hospital costs. The Office of the Assistant Secretary of Defense (Health Affairs) **must** provide a cost per capita for the CY and BY, by Academy to the Director, for Operations Directorate, OUSD(C), Room 3C749, the Pentagon, 30 days after the submission of the President's Budget to the Congress. This amount will be calculated by multiplying the per capita cost provided by the OASD(HA) by the sum of the cadet/midshipman workyears/average strength included in the President's budget.

- (5) Multiply the number of cadet workyears/average strength by the medical support costs per capita rate to get the total Medical charge for the academy.
- (6) Sum the Service Academies PE (804721) cost, the total medical charge Program Element cost, and medical support cost.
- (7) Divide the Total Costs (6) by Cadet/Midshipman workyears/average strength (3).
- (8) Sum $\frac{1}{3}$ of the cost per cadet/midshipman for the CY and $\frac{2}{3}$ of the CY cost per cadet/midshipman for the BY.

*APPENDIX B: DOD WORKING CAPITAL FUNDS CIVILIAN/MILITARY EQUIVALENCY RATE

Fiscal Year _____

The cost of military personnel assigned to a Defense Working Capital Fund (DWCF) is included in the total cost of operations of the DWCF activities at civilian equivalent rates. Military personnel assigned to DWCF activities are to be costed at civilian equivalent rates, using the rates in the table. See Volume 2B, Chapter 9 and Volume 11B, Chapter 12 for guidance for calculating, budgeting, paying (reimbursing), recording and reporting DWCF military personnel costs.

Military Grade	Civilian Grade Equivalent	Civilian Equivalent Rate BY(s) 20--____
O-9	ES Level III	
O-8	ES Level IV	
O-7	ES Level V	
O-6	GS-15	
O-5	GS-14	
O-4	GS-13	
O-3	GS-12	
O-2	GS-11	
O-1	GS-9	
W-5	GS-12	
W-4	GS-12	
W-3	GS-11	
W-2	GS-10	
W-1	GS-9	
E-9	GS-8	
E-8	GS-7	
E-7	GS-6	
E-6	GS-5	
E-5	GS-5	
E-4	GS-4	
E-3	GS-3	
E-2	GS-2	
E-1	GS-1	

The “E” in E-1 represents enlisted while the “1” indicates the paygrade for that position. The other pay categories are “W” for warrant officers and “O” for commissioned officers. Some enlisted paygrades have more than one rank. The “GS” represents Civil Service employees that are paid using the General Schedule (GS) pay scale while the “ES” represents the civilian employees that are paid using the Executive Service (ES) pay scales.

Stabilized customer rates and reimbursement to the Military Personnel accounts are not based on the rates in appendix A. Rather, such amounts are based on the absolute total dollar amount

specified in the President's budget (rather than based on the number, or military composite rate, of individuals actually assigned).

INSTRUCTIONS

The Department of Defense Working Capital Funds civilian/military equivalency rate will be calculated as follows:

1. Use the generic (Rest of U.S.) pay amount for Step 5 of each appropriate General Schedule (GS) civilian grade, or the applicable Executive Service (ES) pay level, from the current civilian pay schedules,
2. Add as required, the applicable portion (pro-rata) of the proposed pay raise, if any, for civilians (GS/ES) that was effective for the budget fiscal year, and
3. Add the average civilian personnel fringe benefits factor applicable to the Military Services and Defense Agencies. The amount for unfunded civilian retirement is not to be included in the fringe benefits percentage factor. Civilian personnel fringe benefit rates are provided by the OUSD (Comptroller) and published on the Comptroller website.

APPENDIX C: CIVILIAN FRINGE BENEFIT RATE COMPUTATION

DOD COMPONENT (1)

		<u>Prior Year (2,3)</u>	<u>Current Year (2,3)</u>	<u>Budget Year (2,3)</u>
A.	<u>Object Class 12.1 Civilian Personnel Benefits (4)</u>			
B.	<u>Object Class 11 Civilian Personnel Compensation (5)</u>			
	11.1 Full-time Permanent			
	11.3 Other Than Full-Time Permanent			
	11.5 Other Personnel Compensation			
	11.8 Special Personal Services Payments			
C.	Total Personnel Compensation (Total of 11.1, 11.3, 11.5, 11.8) (6)			
D.	Civilian Fringe Benefit (Interagency) Rate (7)			
E.	Office of Personnel Management (OPM) Unfunded Retirement Factor (8)			
F.	Public, and Private Activities (9)			
(See footnoted instructions on following page)				

INSTRUCTIONS

- (1) Insert the name of the applicable DoD Component submitting the exhibit. A separate exhibit is required from each Military Service (including the U.S. Marine Corps) and from all Defense Agencies.
- (2) Insert the applicable fiscal year.
- (3) Insert the applicable amounts for each fiscal year. A brief description should be provided to explain changes of 10 percent or more between (a) previously budgeted and actual amounts for the prior fiscal year, (b) previously budgeted and currently budgeted amounts for the current year, and (c) the currently budgeted amounts for the budget year.
- (4) Insert the applicable amounts shown in the current President's Budget for Object Class 12.1, Civilian Personnel Benefits.
- (5) Insert on the applicable lines, the applicable amounts shown in the current President's Budget for Object Class 11.1, 11.3, 11.5 and 11.8.
- (6) Enter the total of personnel compensation from Object Class 11.1, 11.3, 11.5 and 11.8.
- (7) Divide the amount reported in line A. by the amount reported in line C. The resultant percentage is the percentage rate to be applied to civilian labor costs for billings to other Federal Agencies. This is DoD's funded rate.
- (8) The civilian fringe benefit rate--to be used in this calculation--will be obtained annually from the Directorate for Accounting and Finance Policy.
- (9) Add lines D. and lines E. to determine the percentage to be applied on billings to the public and private activities.

*APPENDIX D: CONTRACT ADMINISTRATION SERVICES

Contract administration services (CAS) hourly reimbursable billing rates should be applied to direct labor hours incurred in support of CAS efforts. These CAS rates are to be used in billing other Federal Agencies, the public, and Foreign Military Sales (FMS) customers. FMS customers are to be billed in accordance with the Security Cooperation Policy guidance provided in Volume 15, Chapter 7, paragraph 16.0 and Chapter 8, paragraph 7.0. Waivers and exclusions are to be granted in accordance with Volume 15, Chapter 7, paragraph 13.0.

<u>PERFORMING DOD COMPONENT</u>	<u>OTHER FEDERAL AGENCIES RATES</u> (1)	<u>FMS RATES</u> (2)	<u>PUBLIC RATES</u> (3)
Army			
Navy			
Air Force			
Defense Contract Audit Agency (DCAA)			
Defense Contract Management Agency (DCMA)			

NOTES:

- (1) Use the Budget Year “Gross Cost Per Direct Hour” amount from page 2.
- (2) Sum Budget Year lines C, E, and G from page 2 and multiply the resultant amount by .167 (obtained from OMB Circular No. A 76) Revised Supplemental Handbook, “Performance of Commercial Activities”). That product then is divided by the applicable total direct work-hours (line V from page 2) to derive an hourly unfunded civilian retirement cost. The resultant hourly unfunded civilian retirement cost is added to the “Other Federal Agencies Rate” (column 1) to yield the FMS rate.
- (3) Use the FMS Rate plus 4% for asset use charge. This is achieved by multiplying the FMS rate by 1.04.

REIMBURSEMENT COST FOR CONTRACT ADMINISTRATION SERVICES

J. Total Cost of Personnel Service [(C) + (E) + (G) + (I)]	\$ _____	\$ _____	\$ _____

Notes:

(6) Include the salary expenses of direct civilian and military personnel, e.g., contract administrators.

- a. Civilian. The cost of civilian personnel assigned full-time to contract administration requirements should reflect the annual salary for the applicable pay grades. Otherwise, an hourly rate of 1/2087 of the annual rate **must** be used and a leave and holiday factor of 18 percent of pay cost added.
- b. Military. The cost of military personnel assigned full-time to contract Administration requirements should be based on the annual Military Composite Pay rates. Otherwise, an hourly rate of 1/2080 of the annual Military Composite Pay rate **must** be used and a leave and holiday factor of 14 percent of pay cost added.

(7) Include the indirect salary expenses for civilian and military personnel that perform supervisory and administrative (clerical) functions. Such costs are computed as indicated in (6)a. and (6)b.

(8) Include the salary expenses for civilian and military personnel at the district, regional and headquarters level. Such costs are computed as indicated in (6)a. and (6)b.

- (9) Include the fringe benefit expenses for all civilian and military personnel included in items (A), (D) and (F).
- a. Civilian. Fringe benefits are computed by multiplying civilian personnel costs by the civilian fringe benefit rate. The fringe benefit rate must be that reported for the applicable fiscal year on the OP-8 exhibit, “Civilian Personnel Costs.”
 - b. Military. Fringe benefits are computed by multiplying separately the officer and enlisted salaries by 6 percent for officers and 18 percent for enlisted personnel.

I. Average Personnel Benefits Costs per FTE [(H) ÷ (B)]	\$ _____	\$ _____	\$ _____
J. Total Cost of Personnel Service [(C) + (E) + (G) + (I)]	\$ _____	\$ _____	\$ _____

Notes:

- (10) Computed using the cost and hour data from page 2. Divide the current year amount for each element by the prior year amount, subtract 1 and multiply by 100.
- (11) Computed using the cost and hour data from page 2. Divide the budget year amount for each element by the current year amount, subtract 1 and multiply by 100.

**APPENDIX E: COLLECTIONS FOR REIMBURSEMENTS OF DOD-OWNED AIRCRAFT
(FIXED/ROTARY WING)**

DEPARTMENT OF _____(1)
ACCOUNTS TO WHICH COLLECTIONS ARE TO BE DEPOSITED FOR
REIMBURSEMENTS FOR THE USE OF DOD-OWNED AIRCRAFT (FIXED WING)
FISCAL YEAR _____(2)
(DOLLAR AMOUNT PER HOUR)

Aircraft	DoD	Federal Agency and FMS Users			All Other Users			
	O&M	O&M	MilPers	Total	O&M	MilPers	Asset Utl	Total
(3)	(4)	(5,6)	(5,6)	(5,6)	(7)	(7)	(7)	(7)

INSTRUCTIONS

- (1) Insert Army, Navy or Air Force, as applicable.
- (2) Insert the applicable [\(current\)](#) fiscal year.
- (3) Separately list and provide data for each type/model/series of aircraft (fixed or rotary wing) in the DoD Component's inventory which is subject to reimbursement as a composite rate of all Service Components (Active, Guard, and Reserve).
- (4) The DoD rate will include costs for (8)--Fuel, (9)--DLRs, (10)--Depot Maintenance, and (11)--Other. This rate is to be used for interdepartmental (e.g., Navy to Air Force) billing purposes. Location of calculation instructions in this appendix are indicated by the number in parenthesis before the name of the cost category.
- (5) The Other Federal Agency Rate will include costs for (8)--Fuel, (9)--DLRs, (10)--Depot Maintenance, (11)--Other, and (12)--Crew Salary. Location of calculation instructions in this appendix are indicated by the number in parenthesis before the name of the cost category.
- (6) The FMS rate will include costs for (8)--Fuel, (9)--DLRs, (10)--Depot Maintenance, (11)--Other, (12)--Crew Salary. Location of calculation instructions are indicated by the number in parenthesis before the name of the cost category.
- (7) The Public Rate will include costs for (8)--Fuel, (9)--DLRs, (10)--Depot Maintenance, (11)--Other, (12)--Crew Salary, (13)--Asset Utilization and an unfunded civilian retirement cost (The civilian fringe benefit rate--to be used in this calculation--will be obtained annually from the OUSD(C), Program/Budget, Operations Directorate, 3C749, the Pentagon, Washington, DC 20301-1100) for any civilian personnel costs included in (4), (5), (6), (7) or (8). Location of calculation instructions in this appendix are indicated by the number in parenthesis before the name of the cost category.
- (8) Fuel costs will be equal to the corresponding amounts shown in the related OP-20 Exhibit for the applicable type/model/series. (If for any reason, the OP-20 Exhibit series does not include an applicable type/model/series of aircraft, fuel costs will be computed using the same methodology as that used for aircraft included in the OP-20 Exhibit series, i.e., by dividing the total cost of fuel for the fiscal year for each type of aircraft by the total number of flying hours for that same aircraft.) Services should also include fuel costs for non-fly fuel directly supporting the flying hour program (such as fuel used in engine test cells and auxiliary powers units). [Fuel costs are consistent with the current year's fuel price per barrel, set at the standard fuel price effective October 1 for the respective fiscal year, i.e., the FY 2024 reimbursable rates are consistent with the FY 2024 Standard Fuel Price effective October 1, 2024.](#)
- (9) Depot-level reparable (DLR) costs will be equal to the corresponding amounts shown in the related OP-20 Exhibit series for the applicable type/model/series. (If for any reason, the OP-20 Exhibit series does not include an applicable type/model/series of aircraft, DLR costs will be computed using the same methodology as that used for aircraft included in the OP-20 Exhibit

series, i.e., by dividing the total DLR costs for the applicable fiscal year by the total number of flying hours for that same aircraft.)

(10) Include an hourly rate for depot maintenance cost for airframes, engines, and components for the applicable type/model/series. This cost will be an average cost for that type/model/series and be computed by dividing the total amount of depot maintenance budgeted for the applicable type/model/series by the number of flying hours budgeted for that type/model/series.

(11) Other costs will equal corresponding “other” amounts shown in the related OP-20 Exhibit series (for Air Force, this is equal to the consumables required in Exhibit OP-20). (If for any reason, the OP-20 Exhibit series does not include an applicable type/model/series of aircraft, other costs will be computed using the same methodology as that used for aircraft included in the OP-20 Exhibit series, i.e., by adding all operating costs ((other than fuel, DLRs, depot maintenance, crew salary, and asset utilization)) and dividing the total of such other costs for the applicable fiscal year by the total number of flying hours.) If for any reason the OP-20 Exhibit does not include details for contract logistics support (CLS), use a five-year average of variable CLS or equivalent costs and hours.

(12) Crew salary amounts will be computed based on the number and grade of military personnel operating the aircraft. Crew salary costs will be computed by:

(a) Multiplying the standard number of crew members in each applicable military grade times the annual Military Standard Composite Rate for that grade available on the reimbursable rates page of the OUSD(C) website. For Federal Agencies and Public rates, use the applicable rates in the “Annual Rate Billable to Other Federal Agencies” column. For the FMS rate, use the applicable rate in the “Annual DoD Composite Rate” column plus the annual acceleration factor.

(b) Dividing the result of (a) by 2080 (hours) to convert the annual rate to an hourly rate, by grade.

(c) Multiplying the results of (b) by a factor of 1.14 percent for both officers and enlisted personnel. (This calculation increases the hourly rate by 14 percent for officers and enlisted personnel fringe benefits.)

(d) Adding the amounts arrived at in (c) for each grade, to arrive at a total hourly rate for the entire crew.

NOTE: The computation of crew salary amounts should be supported by a separate table attached to this exhibit.

(13) The asset utilization amount will be computed by applying an asset utilization factor of 4 percent times the sum of columns (8)--Fuel, (9)--DLRs, (10)--Depot Maintenance, (11)--Other and (12)--Crew Salary for each specific aircraft.

(14) Provide a brief narrative to explain significant changes between fiscal years.

APPENDIX F: MEDICAL AND DENTAL SERVICES RATE COMPUTATION*SUBMITTED BY THE OFFICE OF THE ASSISTANT SECRETARY OF DEFENSE
(HEALTH AFFAIRS)**

Budget exhibit includes Inpatient, Outpatient, Pharmacy and other rates. This exhibit is to be included only in the President's budget. The format of the budget exhibit for medical, dental, and pharmacy rates may vary slightly from year to year due to the addition/deletion of rates, changes in nomenclature, updated notes, and other unforeseen reasons. The tables are for informational purposes only.

INPATIENT, OUTPATIENT AND OTHER RATES AND CHARGES***1.0 Inpatient Rates**

Room and Board rates are the weighted average of occupied bed day (OBD) Rates at each MTF within a Regional Charge Table. Final Room and Bed rates include rates for Intensive Care (1.2X) and Step-Down Care (1.1X). Room and board rates are a direct result of the previous fiscal year's costs associated with providing care at the inpatient level, and do not include medications, supplies, procedures performed, or any additional expenses other than providing a room and bed for the patient. Room and Board rates consist of the Full Cost rate, and adjustments are applied such as the Interagency Rate (IAR) or the International Military Education and Training (IMET) rate.

The IMET program is a key funding component of U.S. security assistance that provides training on a grant basis to students from allied and friendly nations. Authority for the IMET program is found pursuant to 22 U.S.C. 2347. Funding is appropriated from the International Affairs budget of the Department of State. Not all foreign national patients participate in the IMET program. The IAR rates are used to bill other federal agencies. The full/Third Party Collection (TPC) rates are used to bill insurance carriers, pay patients, and other payers.

Each MTF providing inpatient care has a regionally assigned room and board full cost rate, step-down rate, and intensive care unit rate. The total number of inpatient stay days not including the date of discharge, multiplied by the MTF's regional daily room and board rate is the charge submitted on the institutional claim for total room and bed charges. In addition, other itemized supplies and ancillary services performed during the inpatient stay (laboratory, radiology, pharmacy) will be included in the total amount of charges on the institutional claim payers will use for reimbursement purposes. Professional fee charges related to an inpatient stay are captured separately on a professional claim. The Department of Defense (DoD) publishes this data annually for hospital reimbursement rates under TRICARE/CHAMPUS pursuant to 32 CFR 199.14(a)(1). Examples of how to calculate the reimbursement charges for room and board follow.

Examples Applying Room and Board Rates to Compute Inpatient Stay Charges

The cost to be recovered for an inpatient stay is the product of the regionally applied room and bed rate and other itemized inpatient charges. This includes the costs of both inpatient institutional and professional services. In the examples, billing is at the full/TPC rate for the calculation of the room and board charges only.

For this example, an MTF assigned to a Texas regional fee schedule will be used to calculate room and board charges. For each day of an inpatient stay, a revenue code is assigned and drives the daily rate at which a room and board charge is applied.

Date of Admission	Date of Discharge	Total Days	Regional Charge Table
October 1, 2024	October 11, 2024	10	Texas
Revenue Code	CDM Description	Room and Board Rate	Total Room and Board Rate Charges
151	Med/Surg (Full cost rate)	\$2,001.24	\$20,012.40

The total room and bed charge is the number of days multiplied by the room and board rate. Additional ancillary and other facility charges may be accrued on an institutional claim as well.

The full table of the current regional room and board rates and other itemized rates are published on the [Defense Health Agency Uniform Business Office \(UBO\) website](#) and [Comptroller Financial Management Reports website](#).

***2.0 Outpatient Rates**

Outpatient Rates are the charges for professional and institutional health care services provided in MTFs financed by the Defense Health Program Appropriation. These rates are used to submit claims for reimbursement of the costs of the health care services provided by MTFs in accordance with the various MTF Cost Recovery Programs: Medical Services Account (MSA), Third Party Collections and Medical Affirmative Claims (MAC).

MTFs utilize charging and billing methodology aligned with the modernized electronic health record and billing system. Health care service procedure codes outlined in the Inpatient and Outpatient Rates policy letters are housed in the MHS Charge Description Master (CDM) for itemized billing of patient care provided in MTFs.

Outpatient Rates consists of CHAMPUS Maximum Allowable Charge (CMAC) Rate Tables (modified for UBO use); Dental Rates; Immunization/Injectable Rates; Anesthesia Rates; and Durable Medical Equipment/Durable Medical Supplies (DME/DMS) Rates.

Outpatient Rates are updated annually on a CY basis, with an effective date [set by the DHA UBO Program Office and outlined in the outpatient rates policy letter](#). The actual rate tables are not included in this section, due to size. The current CY Outpatient rates are on the Defense Health Agency (DHA) Management Control & Financial Studies UBO Website.

CMAC Rates

[TRICARE](#) CMAC Reimbursement rates, established under 32 CFR 199.14(j), are used to determine the appropriate charge for the professional and technical components of services based on the Healthcare Common Procedure Coding System (HCPCS) methodology, which includes the Current Procedural Terminology (CPT®) codes. DHA UBO CMAC rates differ from standard TRICARE CMAC rates in that DHA UBO CMAC rates are formatted for [MHS](#) military billing systems and include charges for additional services not reimbursed by TRICARE. DHA UBO CMAC rates pertain to professional services (e.g., office and clinic visits), ancillary services (e.g., laboratory and radiology) and [Observation](#) professional services.

DHA UBO CMAC rates are calculated for distinct “localities”. These localities recognize differences in local costs to provide health care services in the different geographic regions in which MTFs are located. Each MTF Defense Military Information System Identification (DMIS ID) is mapped to its corresponding CMAC locality code to obtain the correct rates. For all MTFs located outside the continental United States, Alaska, and Hawaii, the national average CMAC locality file (300) is used except for Guam and Puerto Rico which have their own CMAC localities. The complete DMIS ID-to-CMAC Locality table is available on the DHA UBO Website.

For each CMAC locality, the DHA UBO creates two sub-tables of rates: CMAC and Component. The [Component](#) rate table specifies [which](#) rates to use for CPT® codes, which can be provided as distinct professional and technical components, or as a combined professional and technical service. A separate rate is provided for each component. UBO CMAC rates for billing of professional services are available on the DHA UBO Website.

[For use in the MHS CDM, CMAC localities are further mapped to DHA Markets in an effort to consolidate into fewer regional price fee schedules. The MHS approved a Parent-Child Defense Medical Information System \(DMIS\) Identifier \(ID\) Market Mapping methodology to serve as a new MTF Regional Grouping Transition Plan. This methodology is known as the Regional Charge Table approach. At a high level, the Market Mapping Assignment will decrease the number of locality charge tables from the 100+ CMAC Charge Tables to 15 Regional Charge Tables for use within the MHS CDM.](#)

Dental Rates

The UBO Dental Rate Table consists of MTF dental charges [and are](#) based on a flat rate multiplied by the DoD established dental weighted value (DWV) for each American Dental Association (ADA) Current Dental Terminology (CDT) procedure code. The dental flat rate represents the average DoD cost of dental services at all dental treatment facilities. [The example](#)

illustrates the Full Outpatient Rate (FOR) dental charge for ADA CDT code D0270. The Dental rates table may be found on DHA UBO Website.

Example: CY 2024 Dental Rates

CDT Code	Clinical Service	DoD DWV	FOR Rate
D0270	Bitewing – Single radiographic image	0.37	\$

Immunization/Injectable Rates

Immunization or injectable rate charges are applicable for any administered immunization, injection or medication in the MTFs. UBO Immunization rates are based on DHA TRICARE injectable rates whenever TRICARE rates are available. If there is no TRICARE rate available, Purchased Care Data is used to derive rates. Rates are derived from Purchased Care Data by using the Military Health System Management Analysis and Reporting Tool or M2 system. This reporting tool allows for querying and detailed trend analysis including summaries and detailed views of population, clinical, and financial data from all MHS regions worldwide. Data pulled from previous and current FY (to date) allows calculation of average amount allowed for rate use. Outlier rates are adjusted using historical Purchased Care Data of up to five (5) years.

The UBO Immunization/Injectable rate table consists of the CPT®/HCPCS Code, rate, and the short and long descriptions. The current CY Immunization rate table is found on the DHA UBO Website.

Example: CY 2024 Immunization Rate Table

CPT®/HCPCS Code	Rate	Short Description	Long Description
90288	\$	BOTULISM IG, IV	BOTULISM IMMUNE GLOBULIN, HUMAN, FOR INTRAVENOUS USE

Anesthesia Rates

Anesthesia charges are split into base rates and interval rates. The anesthesia base rates are determined by multiplying the anesthesia relative value base unit by the locality-specific TRICARE anesthesia conversion factor (RVU base unit * locality-specific TRICARE anesthesia conversion factor). The anesthesia interval rates are determined per interval of time; the rate calculation for one anesthesia time-based interval is the RVU interval unit of 1 multiplied by the locality-specific TRICARE anesthesia conversion factor (Interval of 1 * locality-specific TRICARE anesthesia conversion factor). An RVU interval unit of 1 is equal to 15 minutes. The total charge for professional anesthesia-based rates is calculated by adding the base rate to the interval rate multiplied by the number of time units in 15-minute intervals. Total professional anesthesia-based rate = [(base rate) + (interval rate * number of 15-minute time intervals)]

TRICARE provides the anesthesia RVU base units for each anesthesia procedure. The locality-specific TRICARE anesthesia conversion factors are mapped based on TRICARE locality. The calculated anesthesia rates are for professional anesthesia-based services performed within the MTFs.

The UBO Anesthesia rate table consists of the CPT® Code, rate, and the short and long descriptions. The current CY Anesthesia [Rate table](#) is published on the DHA UBO Website.

Example: CY 2024 [Anesthesia](#) Rate Table

CPT® Code	Rate	Short Description	Long Description
01820	\$	ANESTH, LOWER ARM PROCEDURE	ANESTHESIA ALL CLOSED PROC RADIUS, ULNA, WRIST, HAND BONES

Durable Medical Equipment/Durable Medical Supplies (DME/DMS) Rate:

UBO DME/DMS rates are based on the CMS Medicare Fee Schedule floor rate when available. If there is no Medicare Fee Schedule floor rate, Purchased Care data is used to establish a rate based on the average amount allowed. [Additionally, the Defense Medical Logistics Standard Support \(DMLSS\) Master Catalog](#) captures the average price paid for over 100,000 medical supplies commonly used by DHA. Only DMLSS line items with an associated HCPCS code listed in the DMLSS Master Catalog will be utilized to develop a weighted average unit cost.

The UBO DME/DMS rate table consists of the alpha numeric HCPCS Code, the description and the rate. The current CY DME/DMS Rate table is published on the DHA UBO Website.

Example: CY 2024 [DME/DMS](#) Rate Table

HCPCS Code	Description	Rate
A4620	Variable concentration mask	\$

*3.0 Pharmacy Rates

[Outpatient](#) Pharmacy rates are established on a unit measure price basis (e.g., cost per tablet) and are standardized for National Drug Codes (NDCs) within each generic sequence number (GSN). Pharmacy rates are derived from the Managed Care Pricing File (MCPF) and are based on TRICARE allowable charges, Average Wholesale Price (AWP) or Prime Vendor Program (PVP) prices listed for the NDCs in the MCPF. Rates are computed based on the median unit measure cost for all of the listed AWP NDCs in each GSN group. The median unit measure price is applied to all the NDCs in that GSN group.

Inpatient Pharmacy rates are established using a conversion of HCPCS/CPT level pricing established by the DHA UBO for any applicable immunizations/injectables, to an NDC level price for NDCs that map to a HCPCS/CPT code with an assigned rate. For NDCs that are not linked to a code with an assigned rate, the outpatient pharmacy rate NDC level pricing is assigned. For any remaining NDCs with no price, a stacked price is assigned based on the GSN.

The Pharmacy tables consist of the 11-digit NDC number, the corresponding name/description of the drug (generic or brand), the form of the dosage (tablet, capsule, powder), the strength of the dosage and the current unit price. Pharmacy rates are updated biannually, [dates are set by the DHA UBO Program Office](#). Available Pharmacy rates are available on the DHA UBO Website.

Example: CY 2024 Pharmacy Rate Table

NDC	Name/Description	Dose Form	Dose Strength	Unit Price
64842012006	LYTGOBI	TA	xxx	\$

***4.0 Cosmetic Surgery**

Elective cosmetic procedures *are not* TRICARE covered benefits. Elective cosmetic procedures provided in MTFs are restricted to TRICARE-eligible beneficiaries, including TRICARE for Life, on a “space-available” basis. Patients receiving elective cosmetic procedures (e.g., Active Duty personnel, retirees, family members, and survivors) are responsible for charges for all services (including implants, injectables, anesthesia, and other separately billable items) associated with elective cosmetic procedures. A list of elective cosmetic procedures and their associated rates can be found on the DHA UBO Website.

Professional Charges for Elective Cosmetic Procedures

Professional charges for elective cosmetic procedures are based on the [CY 2024](#) CMAC national average when available. When CMAC allowable charges are not available, charges are determined based on estimates of the medical resources required relative to procedures that have CMAC pricing. Professional charges for elective cosmetic procedures are applied in both inpatient and ambulatory settings. Elective cosmetic charges are not adjusted for the treating MTF’s geographical location.

CMAC [CY 2024](#) “facility physician” allowable charges are used for the professional component for services furnished by a provider in a hospital operating room or designated Ambulatory Procedure Unit (APU). CMAC [CY 2024](#) “non-facility physician” allowable charges are used for the professional component for services furnished in a provider’s office.

Institutional Charges for Elective Cosmetic Procedures

Institutional charges for elective cosmetic procedures are based on the procedure performed and the location of the service provided (i.e., provider's office/minor surgery room, hospital operating room (either on an outpatient or inpatient basis), operating room of a MTF that is not a hospital (i.e., does not provide inpatient services)).

For elective cosmetic procedures conducted in a provider's office/minor surgery room, the institutional fee is included in the "non-facility physician" professional charge.

The institutional charge for elective cosmetic procedures performed in a hospital operating room on an outpatient basis is based on the APV flat rate for the primary procedure with no additional institutional charge for bilateral or additional procedures.

The institutional charge for elective cosmetic procedures performed in an operating room of a facility that is not a hospital is also based on the APV flat rate for the primary procedure with no additional institutional charge for bilateral or additional procedures.

The institutional charge for an elective cosmetic procedure performed in a hospital on an inpatient basis is calculated by multiplying the CY 2024 TRICARE Adjusted Standardized Amount (ASA), \$8,552.20, by the relative weighted product (RWP) associated with the Diagnostic Related Group (DRG).

If an elective cosmetic procedure is combined with a medically necessary procedure during the same surgical visit, the elective cosmetic procedure charge is adjusted to avoid duplicate institutional charges. The institutional charge, for an elective cosmetic procedure, when combined with a medically necessary procedure is reduced by 50 percent (%) from the initial charge.

Most ancillary services (e.g., laboratory, radiology, and routine pre-operative testing) are included in the institutional pricing methodology described. Ancillary services and supplies not included are billed at the FOR.

Anesthesia Charges for Elective Cosmetic Procedures

Anesthesia rates associated with elective cosmetic procedures include anesthesia professional services. Anesthesia charges are calculated using the CY 2024 national anesthesia conversion factor, multiplied by the sum of base units and national average time units (measured in 15-minute increments) of the primary procedure. An additional anesthesia charge, based on additional minutes of service, is added for secondary procedures performed during the same surgical encounter. Anesthesia charges are applied in both inpatient and ambulatory settings. The current CY **Elective Cosmetic** Rate table is published on the DHA UBO Website.

*APPENDIX G: MILITARY COMPOSITE STANDARD PAY AND REIMBURSEMENT RATES

DEPARTMENT OF THE _____ FOR FISCAL YEAR _____

Grade	Average Strength	Basic Pay	Retired Pay Accrual	Basic Allowance for Housing	Basic Allowance for Subsistence/SIK	Incentive and Special Pay	Permanent Change of Station	Miscellaneous Expense	Eligible Retiree Health Care Accrual	Acceleration Factor	DoD Composite Standard Pay Rate	Rate Billable to DoD Entities	Rate Billable to Other Federal Entities	Rate Billable to FMS Entities
	(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)	(12)	(13)	(14)
O-10 ^{1/}														
O-9 ^{1/}														
O-8 ^{1/}														
O-7 ^{1/}														
O-6 ^{2/}														
O-5														
O-4														
O-3														
O-2														
O-1														
WO-5														
WO-4														
WO-3														
WO-2														
WO-1														
Cadets/Midshipmen														
E-9														
E-8														
E-7														
E-6														
E-5														
E-4														
E-3														
E-2														
E-1 ^{3/}														

Notes:

1/ Basic pay for grades O-7 to O-10 is limited by Level II of the Executive Schedule.

2/ Basic pay for grade O-6 is limited by Level V of the Executive Schedule.

3/ E-1 basic pay must be no less than four months at the E-1 "4 months or less" monthly rate plus eight months at the E-1 "2 or less" monthly rate.

MILITARY COMPOSITE STANDARD PAY AND REIMBURSEMENT RATES

INSTRUCTIONS

Each Military Service must complete an Appendix G using the attached standard format. The heading to each Appendix G consists of three lines. The first line identifies the appendix by number, the second line states “MILITARY COMPOSITE STANDARD PAY AND REIMBURSABLE RATES,” and the third line identifies the Military Service that has developed the rates and the fiscal year that the rates will be used.

The Military Composite Standard Pay and Reimbursement Rates exhibit for the Budget Year should include the following cost elements listed for each report column. Amounts listed **must** be equal to corresponding amounts contained in the applicable Military Service's justification book in support of their military personnel appropriation budget request included in the latest President's budget:

(Column 1) Average Strength. Include the average strength, as provided in the President's budget justification.

(Column 2) Basic Pay. Include the average basic pay amounts by pay grade, as provided in the President's budget justification, Budget Subactivity (BSA) 1-A, Pay and Allowance of Officers, BSA 2-A, Pay and Allowances of Enlisted Personnel, and BSA 3-A, Pay and Allowances of Cadets and Midshipmen. The cadet and midshipmen rate is computed as a single rate for all cadets and midshipmen. Basic Pay for O-7 to O-10 pay grades is limited by Level II of the Executive Schedule. **Basic pay for grade O-6 is limited by Level V of the Executive Schedule. E-1 basic pay must be no less than four months at the E-1 “4 months or less” monthly rate plus eight months at the E-1 “2 or less” monthly rate.**

(Column 3) Retired Pay Accrual. Include average retired pay accrual amounts by pay grade, as provided in the President's budget justification, BSA 1-B, Retired Pay Accrual for Officers, and BSA 2-B, Retired Pay Accrual of Enlisted. The applicable retired pay accrual percentage is statutory and published annually.

(Column 4) Basic Allowance for Housing (BAH). Compute the BAH rate separately for officers and enlisted personnel by pay grade, using amounts from the President's budget justification books. The officer rate is computed by dividing BSA 1-F, BAH for officers by the average strength of officer personnel. The enlisted rate is **calculated** by dividing BSA 2-K, BAH for enlisted by the average strength of enlisted personnel.

(Column 5) Basic Allowance for Subsistence. Compute the basic allowance for subsistence rate separately, for officers and enlisted personnel, by pay grade, and for cadets and midshipmen, using amounts from the President's budget justification books. The officer rate is computed by dividing BSA 1-G, Basic Allowance for Subsistence for officers, by the officer average strength by grade. The enlisted rate is [calculated](#) by adding BSA 4-A, Basic Allowance for Subsistence for enlisted, BSA 4-B, Subsistence-in-Kind (SIK) for enlisted, and BSA 4-C, Family Subsistence Supplemental Allowance (FSSA), and then dividing the total by the enlisted average strength by grade. Compute a single rate for cadets and midshipmen.

(Column 6) Incentive and Special Pays. Compute the Incentive and Special Pay rate separately for officers and enlisted personnel by pay grade, using amounts from the President's budget justification books. Add the incentive and special pay amounts [for each pay grade](#) and then divide the sum by the average end strength, separately for officers and enlisted personnel. The officer rate is computed by adding the amounts for BSA 1-D, Incentive Pay for officers, and BSA 1-E, Special Pay for officers, then dividing the sum by the average strength [of](#) officer personnel. The enlisted rate is computed by adding the amounts for BSA 2-D, Incentive Pay for enlisted, BSA 2-E, Special Pay for enlisted, BSA 2-F, Special Duty Assignment Pay for enlisted, BSA 2-G, Reenlistment Bonus, BSA 2-H, Enlistment Bonus, BSA 2-I, Education Benefits (College Fund), and BSA 2-J, Loan Repayment Program, then dividing the sum by the average strength for enlisted personnel.

(Column 7) Permanent Change of Station (PCS) Expense. This element represents the average cost of amounts provided in the President's budget justification books for PCS travel, Budget Activity 5. Compute the average PCS by adding the following types of travel each for officers, enlisted personnel, and cadets, from the BSAs contained in the justification books: [BSA 5-A, Accession Travel](#), [BSA 5-B, Training Travel](#), [BSA 5-C Operational Travel between duty stations \(within CONUS and within overseas\)](#), [BSA 5-D, Rotational Travel to and from overseas](#), [BSA 5-E, Separation Travel](#), and [BSA 5-F, Travel of Organized Units](#). The sum of BA-5 is divided by the average strength separately for officer and enlisted personnel. Compute a single rate for cadets and midshipmen.

(Column 8) Miscellaneous Expense. This rate is the average computed separately for officers and enlisted personnel by pay grade, and for cadets and midshipmen, of amounts provided in the President's budget justification books for Budget Activity 6, Other Military Personnel Costs, and other amounts for miscellaneous allowances and payments for officers, enlisted, and cadets/midshipmen as contained in BSAs listed in the following matrix:

<u>Miscellaneous Expense</u>	<u>Officer</u>	<u>Enlisted</u>
TSP Matching Contributions	BSA 1-C	BSA 2-C
Clothing Allowances	BSA 1-J	BSA 2-N
Station Allowances, Overseas	BSA 1-H	BSA 2-L
CONUS COLA	BSA 1-I	BSA 2-M
Family Separation Allowances	BSA 1-K	BSA 2-O
Separation Payments	BSA 1-L	BSA 2-P
Special Compensation for Assistance with Activities of Daily Living	BSA 1-M	BSA 2-Q
Social Security Tax-Employer's Contribution	BSA 1-N	BSA 2-R
Other Military Personnel Costs	BA 6	BA 6

Sum the amounts in each of the categories for officer and enlisted [personnel](#) by pay grade and divide the sum by the average strength of officer and enlisted by pay grade, as shown in the budget justification materials. A single rate [must](#) be used for cadets and midshipmen.

(Column 9) Medicare-Eligible Retiree Health Care (MERHC) Accrual. The annual rate is provided in OUSD(Comptroller) budget guidance. It covers the cost of future [healthcare](#) benefits for current officer and enlisted personnel once they retire and become Medicare-eligible, as well as their dependents and annuitants. It does not apply to cadets and midshipmen. See Volume 12, Chapter 16, Paragraph 5.7, for additional information about Reimbursements of MERHC. [To compute the Daily or Hourly Rate of the reimbursement from FMS Entities to be deposited into the Miscellaneous Receipts Account 3041, apply the Daily \(.00452\) or Hourly \(.00057\) factor to the per capita normal cost for the MERHC accrual. Do not use this if the assignment is annual.](#)

(Column 10) Acceleration Factor. This rate is provided by the OUSD(Comptroller) and covers the medical health care costs of active duty personnel and their dependents associated with the Defense Health Program. It does not apply to cadets and midshipmen. [To compute the Monthly or Daily Rate of the reimbursement from Other Federal Entities to be deposited into the Defense Health Program \(97*0130\), apply the Monthly \(.09083\) or Daily \(.00303\) factor to the acceleration factor. Do not use this if the assignment is annual. To compute the Daily or Hourly Rate of the reimbursement from FMS Entities to be deposited into the Defense Health Program \(97*0130\), apply the Daily \(.00452\) or Hourly \(.00057\) factor to the acceleration factor. Do not use this if the assignment is annual.](#)

(Column 11) DoD Composite Standard Pay Rate. This rate **must** be used when determining the military personnel appropriations cost for budget/management studies. **Still, it** should not be considered a **fully burdened** cost **for** military personnel **to make** workforce-mix decisions. Enter the sum of columns (2) through (9). Rates include a per capita normal cost for MERHC accruals since MERHC accruals are counted as part of the Military Departments' discretionary budget authority.

(Column 12) Rate Billable to DoD Entities. This rate **must** be used when obtaining reimbursement for services provided to entities **inside** the DoD. See Volume 11A, Chapter 1, Paragraph 2.3, for billing DoD entities. Add columns (2) through (8). Rates exclude the per capita normal cost of MERHC accruals. Beginning with FY 2006, MERHC accruals are paid from the General Fund of the Treasury and cannot be reimbursed to the Services' personnel accounts during the year of execution. **To compute a Monthly Rate, apply a factor of .08333 (1/12). To calculate a Daily Rate, apply a factor of .00278 (1/360). Per Volume 7A, Chapter 1, Paragraph 3.2.1, "compute monthly compensation as if each month had 30 days"; "the daily rate is 1/30 of the monthly rate."**

(Column 13) Rate Billable to Other Federal Entities. This rate **must** be used when obtaining reimbursement for services provided to other federal **entities** outside of the DoD. See Volume 11A, Chapter 1, Paragraph 2.3, for billing other federal entities. Add columns (10) and (12). Rates include an acceleration factor to cover medical costs for **active-duty** personnel and their dependents. Reimbursements of the acceleration factor **must** be deposited into the Defense Health Program (97*0130). Rates exclude the per capita normal cost of MERHC accruals. Beginning with FY 2006, MERHC accruals are paid from the General Fund of the Treasury and cannot be reimbursed to the Services' personnel accounts during the year of execution. Military labor **must** be charged to non-DoD organizations **based on** actual hours worked or assigned (detailed). To compute a **Monthly Rate, apply a factor of .09083 (1.09/12). To compute a Daily Rate, apply a factor of .00303 (1.09/360). This factor represents a leave factor of 9% and compensates for wages paid during leave. Do not use this factor if the assignment is annual. This factor assumes the member will be contracted for no less than 30 days, resulting in leave accrued. If a member is contracted for less than 30 days, use the Daily Rate factor provided under (Column 12) Rate Billable to DoD Entities. Per Volume 7A, Chapter 35, Paragraph 2.2.2, "Leave accrues to a Service member serving on active duty for 30 days or more. It accrues at the rate of 2½ days for each month of active service. For partial months, it accrues at the rate of ½ day for any period of 6 days or less."** To compute the Monthly or Daily Rate of the reimbursement from Other Federal Entities to be deposited into the Defense Health Program (97*0130), apply the Monthly (.09083) or Daily (.00303) factor to the acceleration factor. Do not use this factor if the assignment is annual.

(Column 14) Rate Billable to Foreign Military Sales (FMS) Entities. This rate **must** be used when obtaining reimbursement for services provided to FMS Entities. Add columns (9) and (13). **Reimbursement procedures for FMS are specifically addressed in the Volume 15, Chapter 8, Paragraph 2.2. 22 U.S.C. § 2761(a)(1)(C) of the Arms Export Control Act requires foreign countries or international organizations, in the case of the sale of a defense service, to pay "the full cost to the United States Government of furnishing such service."** Therefore, the acceleration factor and the per capita normal cost for MERHC accruals **must** be included in the DoD

Annual Rate Billable to FMS. Reimbursement of the acceleration factor **must** be deposited into the Defense Health Program (97*0130). Reimbursement of the per capita normal cost for MERHC accrual **must** be deposited into the Miscellaneous Receipts Account 3041. See Volume 12, Chapter 16, Paragraph 5.7, for additional information about Reimbursements of MERHC. Military labor **must** be charged to non-DoD organizations **based** on actual hours worked or assigned (detailed). To compute a **Daily Rate**, **apply** a factor of .00057 (1.18/2087). **To calculate** an **Hourly Rate**, **apply** a factor of .00057 (1.18/2087). This represents a leave/holiday factor of 18%. This factor compensates for wages paid during leave or holiday and only **applies** when reimbursements are based on time worked. Do not use this factor if the assignment is full-time. **When computing the daily or hourly reimbursable rates for FMS Entities, see Volume 15, Chapter 7, Exhibit 7-12, for examples of military personnel services price computation. To compute the Daily or Hourly Rate of the reimbursement from FMS Entities to be deposited into the Miscellaneous Receipts Account 3041, apply the Daily (.00452) or Hourly (.00057) factor to the per capita normal cost for the MERHC accrual. Do not use this if the assignment is annual. To compute the Daily or Hourly Rate of the reimbursement from FMS Entities to be deposited into the Defense Health Program (97*0130), apply the Daily (.00452) or Hourly (.00057) factor to the acceleration factor. Do not use this if the assignment is annual.**

REIMBURSEMENT COST FOR CONTRACT ADMINISTRATION AND RELATED SUPPORT SERVICES
FURNISHED TO THE NASA

Notes:

- (1) The amounts reflected should be the “actual” cost and work-hour data for the most recently completed fiscal year. This should be the FY 20PY of the President’s budget.
- (2) The amounts reflected should be that shown in the “Total” column of the attached schedule, “Personnel Cost For Contract Administration and Related Support Services Furnished to the NASA” (pages 3 and 4) for the applicable year, i.e., PY, CY, BY.
- (3) Separately, show basis of computation.
- (4) Includes all travel costs, i.e., local, temporary additional duty, and permanent change of station, of the civilian and military personnel included under items (A), (D) and (F).
- (5) Includes other expenses such as supplies, equipment, training and communications.

Notes:

(6) Include the salary expenses of direct civilian and military personnel, e.g., contract administrators, and auditors.

a. Civilian. The cost of civilian personnel assigned full-time to NASA requirements should reflect the annual salary for the applicable pay grades. Otherwise, an hourly rate of 1/2087 of the annual rate **must** be used and a leave and holiday factor of 18 percent of pay cost added.

b. Military. The cost of military personnel assigned full-time to NASA requirements should be based on the annual Military Composite Pay rates. Otherwise, an hourly rate of 1/2080 of the annual Military Composite Pay rate **must** be used and a leave and holiday factor of 14 percent of pay cost added.

(7) Include the indirect salary expenses for civilian and military personnel that perform supervisory and administrative (clerical) functions. Such costs are computed as indicated in (6)a. and (6)b.

(8) Include the indirect salary expenses for civilian and military personnel at the district, regional and headquarters level. Such costs are computed as indicated in (6)a. and (6)b.

(9) Include the fringe benefit expenses for all civilian and military personnel included in items (A), (D) and (F).

a. Civilian. Fringe benefits are computed by multiplying civilian personnel costs by the civilian fringe benefit rate. The fringe benefit rate must be that reported for the applicable fiscal year on the OP-8 exhibit, "Civilian Personnel Costs."

b. Military. Fringe benefits are computed by multiplying separately the officer and enlisted salaries by 6 percent for officers and 18 percent for enlisted personnel.

Variances in The Reimbursement Cost for Contract Administration and Related Support Services Furnished to the NASA

CHAPTER 7

INTERNATIONAL NARCOTICS CONTROL PROGRAM

*1.0 GENERAL

1.1 Overview

The DoD's International Narcotics Control Program (INCP) directly supports the Foreign Assistance Act (FAA) of 1961. The FAA's key objectives are to suppress the illicit manufacturing and trafficking of narcotics and psychotropic drugs, money laundering, precursor chemical diversion, and to progressively eliminate the illicit cultivation of the crops from which narcotic and psychotropic drugs are derived. While the FAA addresses statutory responsibilities for multiple agencies, the DoD is specifically tasked as a key partner in the training of foreign allies on illegal narcotics interdiction and the prevention of illegal narcotics trafficking.

1.2 Purpose

This chapter provides pricing guidance for INCP transactions, explains special cost computation scenarios, and identifies procedures for the disposition of proceeds from collections. *It does not provide guidance and procedures on the DoD's national drug and counterdrug activities as it focuses exclusively on the department's international training efforts and partnership with the Department of State.

1.3 Authoritative Guidance

The financial management policy and procedures addressed in this chapter are in accordance with Section 632 (c) of the FAA.

2.0 SUPPORT OF INTERNATIONAL NARCOTICS CONTROL PROGRAM

2.1 Billing

Section 632 (c) of the FAA explains special pricing requirements when services, including training, are provided by the Department of Defense to the Department of State in support of the INCP. Billing must be made within 30 calendar days after the monthly services are rendered. The payment due date must be no more than 30 days from the date of the invoice. Bills rendered under this program are not subject to audit by the customer.

2.2 Pricing

The following rules must be followed by DoD Components when determining amounts to be collected as reimbursements for orders from the Department of State that cite INCP financing.

2.2.1. INCP Training. The tuition rate for DoD training provided to support INCP is an incremental rate comparable to the International Military Education and Training (IMET) rate. DoD FMR Volume 15 provides a detailed explanation on tuition rates, direct and indirect costs of international student training, and IMET training price exceptions not covered in this chapter. The cost elements to include in the pricing are as follows:

2.2.1.1. Civilian Instructors and School Support Staff. It is anticipated that additional costs charged to the INCP for civilian instructors will be minimal for courses or groupings of courses when either the ratios of students to instructors or U.S. students to international students is high. Courses must be reviewed to determine the additional cost incurred resulting from international student attendance. Classroom or technical courses that are similar, or that utilize instructors who teach more than one course, may be grouped for computation purposes.

2.2.1.1.1. For groups of courses, an estimate must be made of the number of U.S. students in each course and the number of civilian instructors and civilian staff required. A second projection must be made of the total number of students to be enrolled in applicable courses, both U.S. and international, and the number of civilian instructors and civilian staff required. Base both projections on the maximum number of student output by civilian instructors or civilian staff rather than on optimum class size. The difference in the number of civilian instructors and civilian staff between the two projections represents the additional civilian instructors and/or civilian staff required. Applicable additional civilian instructors and civilian staff must be priced in accordance with Volume 11A, Chapter 1. This value, divided by the total number of INCP students, represents the additional cost per INCP student for the course (or courses).

2.2.1.1.2. When there is a one-for-one or one-for-two relationship of civilian instructors to students, the instructor in all cases is considered additional. If the entire class is composed of INCP students, the instructor, and staff must be considered additional in the pricing formula.

2.2.1.2. Military Instructors and Military School Support Staff. There must be no charges to the INCP program for military personnel conducting training courses.

2.2.1.3. Equipment Overhaul and Maintenance. The overhaul and maintenance of major items of equipment, when computed on an hourly use basis, must be considered additional resources to a course based on estimated utilization hours.

2.2.1.4. Simulators. Simulator hours must be considered additional costs. Simulator costs must include pay of the operators, supplies and equipment maintenance. Allocate simulator costs to the course using an equitable distribution across the total hours available.

2.2.1.5. Supplies, Materiel, Training Aids, Ammunition. Charge the replacement costs of items not returned or reusable (including petroleum, oil, and lubricants) expended in the conduct of training as an additional cost.

2.2.1.6. Lost or Damaged Equipment. If equipment was lost or damaged during training and it was found to be the result of an international student's negligence, the additional cost to be charged **must be** the actual costs of the repairs or replacement cost of the equipment.

2.2.1.7. Base Support (That Is, Indirect Student Costs). A standard weekly rate **must be** charged for INCP training conducted on DoD installations. The fixed weekly amount **must be** the same **amount** used for billing DoD appropriations reimbursed by the International Military Education and Training (IMET) program. See Volume 15, Chapter 7, subparagraph 23.4.2, for additional details.

2.2.1.8. Food Preparation. Meal operating/food preparation costs are additive to other food costs. The weekly meal operating and food preparation costs for INCP students must be the **same amount** used in billing DoD appropriations reimbursed by the IMET program when courses are conducted on DoD installations and students use DoD appropriated dining facilities.

2.2.1.9. Instructor Training. Special courses provided on a non-routine basis to US instructors and personnel are considered additional costs and must be charged accordingly. Charge the normal cost rate for all required training conducted at a U.S. training facility in direct support of the INCP program (i.e., the Department of State). Treat special courses conducted by a Management Service Team (MST) away from the normal training institution as dedicated service, and charge the full cost billed to the INCP program.

2.2.1.10. Facilities and Equipment. The costs of any facilities or equipment acquired primarily for the support of international students enrolled in the INCP program are considered additional costs.

2.2.1.11. Field Studies Program (FSP). The full cost of the FSP to the U.S. Government is considered an additional cost.

2.2.1.12. Shipment of Retainable Instructional Materials (RIM). The shipment of **RIM** to students must be included in the tuition rate applicable to INCP students. Apply shipping charges to the same DoD billing appropriations reimbursed by the IMET program. See Volume 15, Chapter 7, subparagraphs 22.10, 23.4.3.3, and 24.8.3 for additional details.

2.2.1.13. Travel and Per Diem. Instructor and student travel and per diem associated with the provision of training must be considered additional costs, to include transportation, living allowances, and medical expenses.

2.2.2. Other DoD Services

2.2.2.1. DoD Services Provided Incident to Normal Mission Accomplishment. When support of the INCP is accomplished incidental to performance of a DoD mission requirement, there are no additional costs incurred. However, an extended mission or overall cost increase constitutes the reimbursement of the cost over and above the scheduled mission cost.

2.2.2.2. Scheduled DoD Transportation. Air and ocean transportation services performed by the U.S. Transportation Command on scheduled movements [must](#) be priced, where applicable, at current tariff rates for DoD Components.

2.2.2.3. Detailed Personnel. All costs incurred in connection with the detail of DoD personnel to the Department of State to support the INCP--both civilian and military--are considered additional expenses and must be priced at the normal rate charged to other Federal Agencies.

2.2.3. Supplies and Equipment. Section 482 of the FAA prohibits the procurement of weapons or ammunition from funds authorized for this program. Thus, any specific order for a weapon or ammunition that cites the appropriations provided to finance INCP either must be rejected or returned for a new fund citation. Supplies and equipment that can be provided must be priced in accordance with Chapter 1. [Additionally, Chapter 1 establishes](#) pricing policy for excess and non-excess material.

2.3 Disposition of Proceeds

Section 632(c) of the FAA mandates that applicable collections from the Department of State must be reimbursed to the financing DoD appropriation account.

VOLUME 11A, CHAPTER 8: “INTERNATIONAL ACQUISITION AND CROSS-SERVICING AGREEMENTS”

SUMMARY OF MAJOR CHANGES

All changes are denoted by **blue font**.

Substantive revisions are denoted by an * symbol preceding the section, paragraph, table, or figure that includes the revision.

Unless otherwise noted, chapters referenced are contained in this volume.

Hyperlinks are denoted by **bold, italic, blue, and underlined font**.

The previous version dated **July 2010** is archived.

PARAGRAPH	EXPLANATION OF CHANGE/REVISION	PURPOSE
All	Updated References throughout the document.	Revision
All	Renumbered the chapter sections and paragraphs to comply with administrative instructions.	Revision
1.0	Revised the chapter format and structure in accordance with the Department of Defense Financial Management Regulation Revision Standard Operating Procedures.	Revision
1.1	Restructured and revised language.	Revision
1.2	Cleared up language and added the Acquisition and Cross-Servicing Agreements (ACSA) Global Automated Tracking and Reporting System (AGATRS) as the DoD System of Record.	Revision
1.3	Added the authoritative guidance paragraph and included applicable references.	Addition
2.1	Cleaned up and added language to increase understanding for the liquidation of credits and liabilities as it applies to ACSA orders.	Revision
2.1.1	Added language and references to clear up the method for liquidating reimbursement orders.	Revision
2.1.2	Added language and references to clear up the method for liquidating exchange/replacement orders.	Revision
2.2.3	Added section for Separation of Duties	Addition
2.3.1	Added requirement for proper training for personnel entering financial data into systems, along with the reference.	Addition
2.3.2	Added requirement for proper delegation for ACSA personnel	Addition
2.3.2.1	Added time requirement to record obligations and reference.	Addition
2.3.2.2	Added requirement to record accounts payable information for monetary buys, and reference.	Revision

PARAGRAPH	EXPLANATION OF CHANGE/REVISION	PURPOSE
2.3.2.3	Added requirement to record accounts receivable information for monetary sales, and reference.	Revision
2.3.2.4	Added requirement to record accounts payable information for exchange/replacement orders, and reference.	Revision
2.3.2.5	Added requirement to record accounts receivable information for exchange/replacement orders, and reference.	Revision
2.3.2.6	Added Aging of Accounts Payable and Accounts Receivable information.	Addition
2.3.3	Added paragraph and subparagraphs for Department Level Obligation Naming Standard.	Addition
2.3.3.1	Added “Standard Format” Requirement for the services.	Addition
2.3.3.2	Added “Standard Format Tracking” justification for the services	Addition
2.3.5	Added Figure 1: Limitations Table	Addition
2.5	Added reference to the United Nations (U.N.) Charter.	Addition
2.8	Added paragraph and subparagraphs for Obligation Ratification; and the process to investigate possible infractions and resolution; references to the Federal Acquisition Regulation (FAR), specific United States Code (U.S.C.) and Financial Management Regulation (FMR) Chapter.	Addition
5.1	Inserted new paragraph 5.1 identifying AGATRS as the Department of Defense (DoD) system of record to manage ACSA orders	Addition
5.2	Revised paragraph and subparagraph language to account for acceptable forms used to document ACSA orders. Minimum information is listed in subparagraphs, with a description for each element.	Revision
5.4	Added “AGATRS will be used to fulfill this purpose.” To emphasize the importance of using the system of record.	Revision
8.0	Added paragraph and references for Debt Collection Actions	Addition
9.1	Added paragraphs and subparagraphs for acronyms and definitions commonly used in ACSA.	Addition
9.1	Added acronyms and what they are intended to mean.	Addition
9.2	Added definitions for terms commonly used in ACSA orders.	Addition
Appendix A	Added Ratification form	Addition
Appendix B	Moved forms to end	Revision
Multiple	Inserted applicable references throughout the Chapter	Revision
Multiple	Revised hyperlinks throughout the Chapter	Revision

CHAPTER 8

INTERNATIONAL ACQUISITION AND CROSS-SERVICING AGREEMENTS***1.0 GENERAL*****1.1 Overview**

The Department of Defense (DoD) strengthens key international partnerships through the acquisition and transfer of logistic support, supplies, and services (LSSS) between DoD and certain countries and regional organizations. These acquisitions and transfers are accomplished through Acquisition and Cross-Servicing Agreements (ACSA), on a reimbursement basis, or by replacement-in-kind (RIK), or by exchange of supplies or services of an equal value (equal-value-exchange (EVE)). The use of these agreements strengthens alliances and provides beneficial support for U.S. service members and respective members of foreign militaries when U.S. supplies are not readily available.

***1.2 Purpose**

This chapter provides guidance and instructions for pricing and disposition of proceeds for reimbursable ACSA orders. For management of ACSA orders, this chapter acknowledges the ACSA Global Automated Tracking and Reporting System (AGATRS) as the DoD System of Record in accordance with Paragraph 5.k. of Enclosure A, *Chairman of the Joint Chiefs of Staff Instruction (CJCSI) 2120.01*.

***1.3 Authoritative Guidance**

The financial management policy and related requirements addressed in this chapter are in accordance with the applicable provisions of the following sources, and apply to all ACSA and Acquisition only Agreements (AOA), allowing the U.S. DoD to acquire LSSS from, and in some cases provide LSSS to authorized parties.

1.3.1. CJCSI 2120.01D, “Acquisition and Cross-Servicing Agreements.”

1.3.2. *Department of Defense Directive (DoDD) 2010.09*, “Acquisition and Cross-Servicing Agreements,” April 28, 2003.

1.3.3. *DoD 7000.14R, Volume 14, Chapter 3*. “Antideficiency Act Violation Process.”

1.3.4. *Department of Defense Instruction (DoDI) 1300.26*, “Operation of the DoD Financial Management Certification Program”.

1.3.5. *DoDI 5530.03*, “International Agreements.”

1.3.6. *Federal Acquisitions Regulation (FAR), Part 1, Subpart 1.6, Section, 1.602-3*, “Ratification of unauthorized commitments.”

1.3.7. Joint Staff ACSA Website, Joint Staff Repository for ACSA agreements, implementing arrangements and relevant program management documents.

1.3.8. Office of Management and Budget (OMB) Circular A-130, “Managing Information as a Strategic Resource,” July 28, 2016, Section 5 - Policy, subsection g – “Electronic Signatures.”

1.3.9. Title 10, United States Code, Chapter 138, Subchapter I (10 U.S.C. §§ 2341 - 2350), “Acquisition and Cross-Servicing Agreements.”

1.3.10. 15 U.S.C., Chapter 96, “Electronic Records and Signatures in Commerce.”

1.3.11. 31 U.S.C. § 1502, “Balances Available.”

1.3.12. 31 U.S.C. § 1341, “Limitations on expending and obligating amounts.”

2.0 GENERAL POLICY

*2.1 Liquidation of Credits and Liabilities

Monetary reimbursement occurs via a monetary instrument in the currency of the supplying nation, as payment for LSSS. The recipient is responsible for the total cost of the order, to include additional fees imposed by financial institutions for payment processing. Exchange/Replacement reimbursements, use RIK or EVE transfers as the means of repayment where equal value is the actual, estimated, or negotiated price at the time of order approval. Signatures of the recipient and the supplier for the terms of the agreement are required and constitute approval.

* 2.1.1. Reimbursement Order Liquidation Method. The reimbursement due date is 30 days from the date of invoice, demand letter, or notice of payment due; unless a specific due date is established by statute, contract provision, or notice of indebtedness [Volume 16, Chapter 6, Paragraph 3.1](#). The bill is then distributed by the Component or by the Accounts Receivable Office (ARO) [Volume 4, Chapter 3, Paragraph 3.4](#). Bills must be accompanied by the completed Form (usually, Form 1-3a generated in AGATRS), or document containing all minimum essential data elements, used to document the issue and receipt of supplies and services. Payment due date must not be more than 30 days from the date of the invoice, Chapter 1, Paragraph 2.3, unless terms of the ACSA agreement or Implementing Arrangement specify a different payment timeline. A payment extension of 30 to 120 days from the due date is permissible, if initiated by the recipient and based upon their processing capabilities, with mutual written agreement of all parties.

* 2.1.2. Exchange/Replacement Order Liquidation Method. Exchange/Replacement orders must be recorded and accrued in compliance with Generally Accepted Accounting Principles. Recorded Accounts Payables and Accounts Receivables related to the exchange of goods and services must be settled through the issue or receipt, as applicable, of the thing of equal value or replacement item, within 12 months of the original (initial) order date of delivery, or within 90 days of an agreed upon settlement conference documented via the authorizing signatory certifying authority to the ACSA agreement. If not settled within this period, the exchange/replacement order must convert to a monetary reimbursable order and then be settled according to [Volume 16](#),

Chapter 6. The resulting accounts receivable or accounts payable must be liquidated, expeditiously, if possible. Upon conversion to a direct bill, any delinquency greater than 90 days will result in the termination of DoD support to the ACSA supported entity until delinquent orders are liquidated.

2.2 Prohibitions

2.2.1. Inventories of Supplies. Inventories of supplies for elements of the United States Forces must not be increased in anticipation of a request for support under the authority of, 10 U.S.C. Chapter 138, Subchapter I and DoD Directive 2010.09.

2.2.2. Prohibitions on Transfers. DoD Components, must not agree to or carry out: (1) transfers in exchange for property whose acquisition by DoD is prohibited by law; (2) transfers of source, byproduct, or special nuclear materials subject to the Atomic Energy Act of 1954 [42 U.S.C. § 2011](#); or (3) transfers of chemical munitions.

* 2.2.3. Mandated Separation of Duties. Safeguards to ensure proper separation of Duties.

Commands will ensure that proper safeguards are in place to include ensuring that a single individual performs only one of the following functions.

2.2.3.1. Initiation of the ACSA Order requirement;

2.2.3.2. Signing to Authorize the ACSA Order as the Logistics Officer;

2.2.3.3. Receipt, inspection, and acceptance of the ACSA supplies or services that are transferred with the Order; and

2.2.3.4. Signing the ACSA Order as the Finance Officer confirming disbursement of payment or acceptance of the re-imbursement payment.

2.3 Obligation and Earned Reimbursement Limitations

Apply the obligations and earned reimbursement limitations discussed below without regard to offsetting balances; that is, only the original gross values of sales and purchases are to be considered for purposes of the limitations. These limitations do not apply during periods of active hostilities involving the armed forces and are allocated by the Joint Staff.

* 2.3.1. Financial Obligation Recording. Duly appointed and trained financial personnel must record entries in the appropriate financial systems in accordance with DoDI 1300.26.

* 2.3.2. Authorized Personnel. Financial Personnel must have on a file a Department of Defense Form 577 ([DD Form 577](#)), appointing them to the role as the financial certifying official. Persons authorized as ACSA Signature Officials must have on file an official delegation memo from higher authority.

* 2.3.2.1. Recording Obligations. Within 10 days of an order authorization the corresponding obligation or reimbursable credit must be recorded in the appropriate financial system as prescribed in Volume 3, Chapter 8, Paragraph 3.3.

* 2.3.2.2. Recording Accounts Payable (ACSA Monetary Buys). Obligations (and any adjustments) must be established and recorded in the appropriate financial system for the amounts of orders placed and contracts awarded that will require payment as prescribed in Volume 10, Chapter 1, Paragraph 3.1 for the current or some future accounting period.

* 2.3.2.3. Recording Accounts Receivable (ACSA Monetary Sales). Amounts due to the DoD will be recorded as sales for the amounts of the orders that will establish a claim to cash or other asset as prescribed in Volume 4, Chapter 1, Section 4.0.

* 2.3.2.4. Recording Accounts Payable (RIK/EVE Buys). Recognize the liability when the DoD and the Partner nation complete the ACSA order. Record amounts in the appropriate financial system for the amount or negotiated amount of orders placed that may require payment as prescribed in Volume 4, Chapter 8, Paragraph 3.1 for the current or future accounting period.

* 2.3.2.5. Recording Accounts Receivable (RIK/EVE Sales). Amounts due to the DoD will be recorded in the appropriate receivables account in the financial system for the amount of orders regardless of the method of reimbursement, as prescribed in Volume 4, Chapter 4, Paragraph 5.4.

* 2.3.2.6. Aging of Accounts Payable and Accounts Receivable: Accounts Payable and Accounts Receivable will begin aging upon the acceptance and/or certification by both parties at the on-going reconciliation of support conferences. Until orders and settlement terms have been agreed to and certified, by both parties, Accounts Payables and Accounts Receivables will remain in a current non-delinquent 0-30 day category for financial reporting and management-monitored metrics.

* 2.3.3. Department Level Obligation Naming Standard

* 2.3.3.1. Standard Format. Within the respective Financial Systems, Services, Components and Agencies using the ACSA Acquire/Transfer process must establish, at the highest level, an ACSA identifier, more specifically a unique document type/entry code. This must be accompanied by a required field to document the AGATRS generated ACSA requisition number. In the absence of a unique document type/entry code, or in the interim during establishment, organizations will identify a free-text field for entry of a standard Department-wide format of the word “ACSA_” followed by the AGATRS generated ACSA Order Requisition Number. Example ACSA_JO-12345-001.

Example → ACSA (word)___AGATRS ACSA Order Requisition #

* 2.3.3.2. Standard Format Tracking. Services/Components/Agencies must communicate their accounting procedures, document type/entry code, in addition to their

respective field choice back to OUSD(A&S) and OUSD(C), and distribute to all subordinates for inclusion in all financial operating procedures regarding ACSA.

2.3.4. Obligation Limitations

2.3.4.1. Acquisitions from NATO Countries, NATO Subsidiary Bodies, the United Nations (UN) Organization or Any Regional International Organization. The total amount that may be obligated by DoD for reimbursable orders (purchases) with NATO countries, NATO subsidiary bodies, the UN Organization, or any regional international organization must not exceed \$200 million during any fiscal year. Of the \$200 million limitation, no more than \$50 million in obligations may be incurred for the acquisition of supplies other than petroleum, oil, and lubricants (POL).

2.3.4.2. Acquisitions from non-NATO Member Countries. The total amount that may be obligated by the DoD for reimbursable orders (purchases) with a non-NATO member country (with which the United States has an acquisition or cross-servicing agreement) must not exceed \$60 million during any fiscal year. Of the \$60 million limitation, no more than \$20 million in obligations may be incurred for the acquisition of supplies (materiel) other than POL.

2.3.5. Earned Reimbursement Limitation

2.3.5.1. Transfers to NATO countries, NATO subsidiary bodies, the United Nations Organization or Any Regional International Organization. The total amount of earned reimbursable credits (sales) to NATO countries, NATO subsidiary bodies, the UN Organization, or any regional international organization of which the United States is a member that DoD can accrue must not exceed \$150 million during any fiscal year.

2.3.5.2. Transfers to Non-NATO Member Countries. The total amount of earned reimbursable credits (sales) to a non-NATO member country (with which the United States has an acquisition or cross-servicing agreement) that DoD can accrue must not exceed \$75 million during any fiscal year.

* Figure 1: Limitations Table

Category 1		Member countries of the North Atlantic Treaty Organization (NATO), subsidiary bodies of NATO, or from the United Nations Organization or any regional international organization of which the United States is a member.					
Category 2		A country which is NOT a member of NATO, but with which the United States has one or more acquisition or cross-servicing agreements.					
PER FISCAL YEAR	Category	Normal Operations	Limit on Acquisition of Supplies	Active Hostilities	Contingency Operations	Non-Combat Operations	Sale, Purchase, or Exchange of petroleum, oils, or lubricants
ALLOWED REIMBURSABLE LIABILITY	1	\$200,000,000	\$50,000,000	Waived	Waived	Waived	Waived
	2	\$60,000,000	\$20,000,000	Waived	Waived	Waived	Waived
ALLOWED REIMBURSABLE CREDITS	1	\$150,000,000	\$0	Waived	Waived	Waived	Waived
	2	\$75,000,000	\$0	Waived	Waived	Waived	Waived

2.4 Requests for Authorization to Use Limitations

Obligation/Earned Reimbursement Limitations are allocated by the Joint Staff. Each organization entering into reimbursable purchases or sales under ACSA, must request authorization. Requests must be accompanied by a justification, including a prioritization of requirements. The requests must be submitted to the cognizant CCMD through the requesting organization's appropriate Component command. The authorizations do not increase the amount of obligational or apportioned anticipated reimbursable authority, but rather allow use of existing budget authority to enter into purchases or sales under the authority of [10 U.S.C. § 2347](#). Requests must identify the categories of support as identified in figure B-1 in Appendix B.

*2.5 Waiver During Contingency or Non-Combat Operations

When United States Forces are involved in a contingency operation or non-combat operation (including an operation in support of the provision of humanitarian or foreign disaster assistance or in support of peacekeeping operations under [Chapters VI](#) or [VII](#) of the [Charter of the UN](#)), the restrictions in paragraphs 2.3 and 2.4 are waived for the purposes and duration of that operation.

2.6 Issuance of the Authorization

The cognizant CCMD must review and approve requests for authorization. If the total amount requested by all Component commands exceeds established limitations, the cognizant CCMD must review the justifications and make appropriate reductions to requested amounts as needed. Each cognizant CCMD must advise the Military Departments of authorizations distributed.

2.7 Distribution of Authorization Received

Upon receipt of an authorization from a CCMD, Component commands must authorize their activities to enter into reimbursable orders under [10 U.S.C. § 2342](#). No activity or unit may enter into such orders without proper authorization. Recipients of an authorization must establish procedures to ensure that authorized dollar amounts are not exceeded.

*2.8 Ratification of Unauthorized ACSA Orders

2.8.1. Ratification is the confirmation or adoption of an unauthorized act after the fact. Ratification, as used in this subsection, means the act of approving an unauthorized commitment by an official who has the authority to do so. An unauthorized commitment, as used in this subsection, can be procedural or funding related, or a mix of both. Procedural errors occur when the person who approved the ACSA order was not in possession of the required authority to approve the ACSA order. Funding errors occur when the funds required to cover the ACSA order are insufficient.

2.8.2. FAR Part 1.602-3 provides a useful guide on how to carry out ratification properly and avoid an ADA violation under 31 U.S.C. § 1341 and Volume 14, Chapter 3. The official with authority to ratify an ACSA order must work with the official's corresponding legal office and Financial Manager(s) (to include those at Higher Headquarters) to determine if ratification is available and the best course of action. If ratification is deemed appropriate, the official authorized to ratify the ACSA order must use the process laid out by their component to answer the questions identified in this subparagraph and conduct an investigation to capture necessary documentation for adjudication/approval. Figure A-1, (*APPENDIX A*) the ACSA Ratification form, must be used to document and capture the questions.

2.8.2.1. Determine Why - The obligating party must document the reasons why the ACSA order was signed and why such an obligation is inappropriate.

2.8.2.2. Determine U.S. Benefit - Document the benefit(s) to the U.S. Government provided by ratification of the unauthorized commitments. Include the bona fide U.S. Government requirement necessitating ratification.

2.8.2.3. Remedial Corrective Actions - Describe all remedial corrective actions, disciplinary actions, or both that were taken; describe all action(s) taken to preclude recurrence.

2.8.2.4. Determine Measures for non-recurrence – Identify the measures undertaken to ensure that the obligating party and the foreign partner will not enter into such orders in the future.

2.8.2.5. Determine Funding Availability - Determine that (1) proper funding was available at the time the obligation was incurred and (2) proper funding remains available at the time of ratification.

2.8.2.6. Adjudication Approval Determination – Investigate and conduct resolution at the lowest level possible. If unable to resolve, elevate and work in conjunction with the Commander, Director, and Comptroller/Budget Officer in preparation for General Officer or SES assessment and requirement for Legal review. If unable to resolve, elevate to higher headquarters. For orders greater than \$1 million, forward findings through command channels to Joint Staff (J4 and Comptroller) for adjudication and approval. If disapproved, reverse the ACSA order under the unauthorized transfer and return the LSSS to the original owning party or begin ADA violation investigation and reporting. (See Volume 14, Chapter 3, Section 2.0 for more information.)

3.0 ACCOUNTING FOR REIMBURSABLE LOGISTIC SUPPORT, SUPPLIES, AND SERVICES

3.1 Military Department (Appropriation Holder) Procedures

The Assistant Secretary (Financial Management and Comptroller) of a Military Service will record specifically apportioned reimbursable program authority at the appropriation level as specified in the apportionment document received from the OMB. Specifically, apportioned reimbursements are amounts earned and collected for property sold or services furnished under [10 U.S.C. § 2346](#). Within the Department, a reimbursement program must be authorized for the account by the Under Secretary of Defense (Comptroller), Program and Financial Control Directorate (P&FC) through the budget preparation process and included in the budget submission materials to Congress. Procedures for recording the authorization and tracking its use are contained in Volume 3, Chapters 13, 14 and 15. The allocation document forwarded to a CCMD will clearly differentiate between direct program authority and specifically apportioned reimbursable authority included in the funding document.

3.2 Unified Command (Allocation Holder) Accounting Procedures

Unified commands will ensure that controls are in place to track amounts of specifically apportioned reimbursable authority included in the funding documents (allotments) issued to installation commands and operating units.

3.3 Installation Command/Operating Unit (Allotment Holder) Procedures

Installation commands and operating units will record the receipt of an allotment containing specifically apportioned reimbursable authority, for which reimbursable orders must be placed, before the authority may be used. Procedures for recording the authorization and tracking its use are contained in Volume 3, Chapter 15. An allotment of anticipated reimbursable authority does not provide obligational authority. An allotment of anticipated reimbursable program authority provides the authority to accept reimbursable orders. The accepted reimbursable order provides the obligational authority. In the case of country-to-country agreements, reimbursable orders are those documents or forms specified in the agreement or amendments thereto.

4.0 REPORTS ON ACSA ORDERS

This section prescribes the requirement for the quarterly report required by DoDD 2010.09. This report is designed to advise the CJCS on reimbursable orders related to the purchase or sale of mutual logistics support, supplies, and services with a foreign entity.

4.1 Applicability and Scope

The reporting requirements apply to the Office of the Secretary of Defense; Military Departments; the CJCS; the CCMDs; and the Defense Agencies. Amounts reported as reimbursable orders must be supported by country-to-country or multinational agreements for mutual logistics support between the United States and the Governments of other NATO countries, NATO subsidiary bodies, UN Organization, any regional international organization of which the U.S. is a member, and other eligible foreign countries.

4.2 Report Format

The quarterly report must be prepared in the formats contained in figures B-2, B-3, B-4, and B-5, (*See APPENDIX B*). The CJCS may modify the report formats as the Chairman deems appropriate, as long as the revised formats meet the minimum information requirements.

4.3 Frequency and Distribution

The quarterly report must be submitted as follows:

4.3.1. No later than 15 days after the end of the preceding fiscal quarter, the commanders of the CCMDs must submit to the CJCS, a detailed report, by fiscal year, for each country-to-country or multinational order entered into under the authority of [10 U.S.C. Chapter 138, Subchapter I](#), that was in effect during the prior quarter, itemized by reimbursable order.

4.3.2. The Military Departments and Defense Agencies must assist, as necessary, the CCMDs in preparing the quarterly report.

5.0 OTHER REQUIREMENTS

[*5.1 Acquisition & Cross-Servicing Agreement Global Automated Tracking and Reporting System \(AGATRS\)](#)

[AGATRS is the DoD system of record for the Joint Staff, CCMDs, and Services to manage ACSA orders. AGATRS is an unclassified, Web-based system that provides a worldwide automated means of building, tracking, and managing orders throughout their life cycle. AGATRS will be used to fully document all transfers of LSSS under ACSA authorities to meet the filing, tracking, and reporting requirements established in paragraphs 5.3 and 5.4. Refer to current versions of the CJCSI 2120.01 and DoDD 2010.09 for additional information and instruction regarding AGATRS use and responsibilities.](#)

*5.2 Documentation Forms

Forms used to document the issue or receipt of supplies and services under the authority of 10 U.S.C. § 2342, are subject to a bilateral or multinational agreement. [The DoD standard form for ACSA order/receipt/invoice is the Form 1-3a producible via AGATRS.](#) For orders with NATO, the form found in the E-Library on the NATO Website, [NATO Standardization Agreement 2034](#), “NATO Standard Procedures for [Mutual Logistics Assistance](#)” is often used. Any form used must include the [following](#) minimum information requirements.

5.2.1. Agreement and/or Implementing Arrangement: The ACSA identification number and, if applicable, IA identification number under which the Order is placed.

5.2.2. Date of Order Authorization (Day, Month, Year): Show the date (DD-MMM-YYYY) on which the order was signed by the authorized acceptance official.

5.2.3. Order or Requisition Number: Show the AGATRS system-assigned number unique to the specific order. This number is system-assigned based on ordering country/organization, Julian date, and document requisition number. For example, “AS-210131-003” would indicate the third order executed for Australian forces 31 January 2021.

5.2.4. Date and Place of Delivery: Delivery place and date of LSSS, or in the case of an Exchange Order, an agreed return date and place of replacement transfer. The date and place delivery of LSSS is required by the recipient. In the case of an Exchange Transaction, include an agreed date and place for delivery of the replacement LSSS.

5.2.5. Quantity and Description of Material/Services Requested: Quantity and description of LSSS requested, to include National Stock Number (NSN) of Materiel when applicable. In the event of an Exchange Order, list the replacement line items.

5.2.6. Unit of Issue: Unit of Issue, (also known as, Unit of Measurement) refers to the quantity of an item such as each, dozen, gallon, pound, ream, yard, etc.

5.2.7. Quantity Furnished: Number of units issued or received, as applicable.

5.2.8. Unit price: Monetary value of logistic supply or service, based on unit of issue, in the currency of the billing country.

5.2.9. Total Value of Furnished Line Item: Quantity furnished multiplied by unit price.

5.2.10. Total Order Amount: Monetary value of all furnished line items expressed in the currency of the billing country

5.2.11. Currency of the Billing Country: Billing country is determined by which party provided LSSS.

5.2.12. Method of Reimbursement: Indicate whether the order is reimbursable by monetary instrument (cash, check or Electronic Funds Transfer (EFT)), RIK, or EVE.

5.2.13. Limitation of Government Liability: Show the maximum liability of the ordering/receiving organization.

5.2.14. Fund Citation or Certification of Availability of Funds: Show the funding source when advance payments are to be provided, or, if funding is not to be paid in advance, include a certification that funds are available. This should always occur prior to the U.S. receiving goods or services.

5.2.15. Authorized Ordering Official: Obtain and show name (typed or printed), signature (wet scanned, digital or graphic), and title of authorized ordering/requisitioning representative. Additional information on electronic processes and digital signatures is available in [OMB Circular A-130, Appendix II](#).

5.2.16. Authorized Acceptance Official: Obtain and show name (typed or printed), signature (wet scanned, digital or graphic), and title of authorized acceptance representative per OMB Circular A-130, Appendix II.

5.2.17. Receiving Representative: Obtain and show name (typed or printed), title, organization, and signature (with date of signature) of individual acknowledging receipt and acceptance of LSSS per OMB Circular A-130, Appendix II.

5.2.18. Supplying Representative: Obtain and show name (typed or printed), title, organization, and signature (with date of signature) of individual acknowledging receipt, and acceptance of LSSS per OMB Circular A-130, Appendix II.

5.2.19. Designated Office Responsible for Payment: Name and mailing address of the office responsible to receive bill and submit monetary reimbursement for LSSS received. (Note: Not mandatory for exchange orders unless, failing proper replacement or return of LSSS, monetary remuneration is required.)

5.2.20. Designated Billing Office: Name and email or mailing address of the office responsible for preparing and delivering bills for LSSS provided. For U.S. acquisitions, must include the office responsible for making payment. This is not required for exchange orders unless Monetary reconciliation is required.

5.2.21. Additional Special Requirements, if any: Examples include such special notations as transportation or special packaging. Show any additional needs of the receiving organization, if applicable.

5.3 Accounting for Funds and Reimbursements

Any organization receiving an authorization to incur obligations or receive reimbursements pursuant to authority in [10 U.S.C. § 2344](#) for an activity or unit for which it provides accounting

and finance support, must capture or obtain data on the use of this authority and must provide for the appropriate targets or limitations within the affected allotments. Similarly, receipt of the earned reimbursement authority requires the establishment of a customer order subsystem to capture data on the use of such authority. Source documents pertaining to the authorized dollar amount and its use, such as obligations (DoD undelivered orders for materiel or services and accrued expenditures based on receipt of the materiel or services ordered), disbursements (liquidation of unpaid accrued expenditures), accounts payable (the unpaid portion of accrued expenditures), accounts receivable (earned reimbursements), and collections (receipt of payment to liquidate accounts receivable) must be recorded promptly in the financial records. Accounting for reimbursable orders under these authorizations must be maintained within the appropriate accounting records to assure crediting of remittances in accordance with paragraphs 2.3, 5.1, and sections 6.0 and 7.0.

*5.4 Exchange Orders and History Files

Control over exchange orders must be established and maintained through use of an exchange order history file. Input to the history file must be made by submission of each individual order form which must include the minimum information prescribed in paragraph 6.2. [AGATRS will be used to fulfill this purpose, ensuring compliance with DoDD 2010.09.](#)

6.0 PRICING REIMBURSABLE ORDERS

10 U.S.C. Chapter 138, Subchapter I, authorizes two methods for pricing reimbursable orders. The method used is dependent upon the ability of the SECDEF to negotiate for the adoption of specific pricing principles for reciprocal application. Pricing procedures under each of the alternatives are set forth in paragraphs 6.1 and 6.2. [Additional pricing information is found in Chapter 1 and Volume 15, Chapter 7, Paragraph 3.1.](#)

6.1 Reciprocal Pricing Principles

When a reciprocal pricing agreement is negotiated between the U.S. and [another authorized party](#), pricing by the supplying country must be in accordance with the following:

6.1.1. For new procurements, the price charged to a recipient country by the supplying country must be no less favorable than that charged the armed forces of the supplying country by its contractors. The price charged must allow for differentials due to delivery schedules, points of delivery, and other similar considerations.

6.1.2. For supplies from inventories of the supplying country, or for logistics support and government services, the supplying country must charge the recipient country the same prices as it charges its own armed forces for identical supplies or services. When the DoD is the supplier, the price charged must be identical to rates charged by the DoD Components for cross-service logistics support or services. Guidance on pricing such support or services is in Chapter 1. The DoD price to be charged is the price for type of sale "To Another DoD Component" as indicated in Chapter 1 and Chapter 4. Where a price for a particular product or service is not otherwise specified, agreement on a price should be reached prior to execution. Failing that, a "not to exceed

amount,” establishing the upper limits of the financial liability of the receiving party, must be established.

6.2 Nonreciprocal Pricing Principles

To the extent that a DoD Component cannot achieve mutual acceptance by another country of reciprocal pricing principles, or in the case of a NATO subsidiary body, the following procedures must apply:

6.2.1. U.S. commanders delegated authority to negotiate, approve, or execute orders pursuant to DoD Directive 2010.09 must determine that the price for acquiring supplies or services is fair and reasonable. This determination must be supported by a price analysis based on prior experience and supporting data, and consideration of all applicable circumstances. If this determination cannot be made, no [purchases or sales](#) must take place.

6.2.2. Any transfer of supplies or services by United States Forces must be subject to the pricing provisions of 10 U.S.C. § 2344.

7.0 DISPOSITION OF PROCEEDS

[Any payment for materiel or services provided by United States forces and initially recorded as a sale order, must be credited to the appropriation or fund used in incurring the obligation. Payment for an order initially recorded as an exchange of materiel or services, but converted into a sale due to non-receipt of replacement materiel or services, must be credited to the appropriation or fund currently available for the same purposes for which the expenditures for materiel or services exchanged were made.](#)

*8.0 DEBT COLLECTION ACTIONS

[The DoD policy is to conduct timely and aggressive debt collection action, with follow-up efforts as necessary, to ensure debt owed to the DoD by a foreign entity is collected and held to an absolute minimum. All collection activity must be in compliance with the provisions of the applicable agreement between the DoD and the foreign entity, CJCSI 2120.01, and Volume 16, Chapter 6, which also contains elevations procedures for foreign indebtedness.](#)

*9.0 DEFINITIONS AND ACRONYMS

*9.1 Acronyms

[Provided to clarify acronym use, used in the context of ACSA.](#)

[ACSA - Acquisition and Cross-Servicing Agreement](#)

[ADA – Antideficiency Act](#)

[AGATRS - Acquisition and Cross-Servicing Agreement Global Automated Tracking and Reporting System](#)

[AOA – Acquisition only Agreement](#)

[ARO – Accounts Receivable Office](#)

CCMD – Combatant Command
CJCS - Chairman of the Joint Chiefs of Staff
CJCSI - Chairman of the Joint Chiefs of Staff Instruction
DFAS – Defense Finance and Accounting Service
DoD - Department of Defense
DoDD - Department of Defense Directive
DoDI – Department of Defense Instruction
EFT – Electronic Funds Transfer
EVE - Equal-Value-Exchange
FM – Financial Management
FMR – Financial Management Regulation
IA – Implementing Arrangement
LSSS - Logistic support, supplies and services
MILDEP – Military Department
NATO - North Atlantic Treaty Organization
NSN – National Stock Number
OMB – Office of Management and Budget
RIK – Replacement-In-Kind
SECDEF - Secretary of Defense
U.N. – United Nations
U.S. - United States
U.S.C. – United States Code

*9.2 Definitions

Section provided to define terms used in the context of ACSA.

9.2.1. Accounts payable – Amounts owed to other entities for goods and services received (actual or constructive receipt), progress in contract performance, and rents due.

9.2.2. Accounts receivable – Amounts owed to the DoD for goods and services provided (actual or constructive), progress in contract performance, and rents from other entities.

9.2.3. Active Hostilities - The employment of offensive action and counterattacks to deny a contested area or position to the enemy in an environment resulting from an attack or other use of force against the United States, United States forces, or other designated persons or property to preclude or impede the mission and/or duties of United States forces, including the recovery of United States personnel or vital United States Government property, in which the host government forces do not have control of the territory and population in the intended operational area.

9.2.4. Acquisition – The act of obtaining ownership or benefiting from logistical support, supplies and/or services.

9.2.5. ACSA Global Automated Tracking and Reporting System (AGATRS) - The DoD system of record for the Office of the Secretary of Defense, Joint Staff, CCMDs, and Services to build, track, and manage ACSA orders for logistic support, supplies, and services. This system

also serves as the worldwide library for ACSAs and their associated Implementing Arrangements (IAs).

9.2.6. ACSA authorities - For the purposes of this instruction, the legal authorities conferred under 10 U.S.C. Chapter 138, Subchapter I (all Sections).

9.2.7. ACSA – Acquisition Cross-Servicing Agreement – See definition for Cross-servicing agreement.

9.2.8. ACSA Order – a legal instrument entered into under the authority of 10 U.S.C. § 2342.

9.2.9. Activities – An organizational unit of a Military component which performs a specific function.

9.2.10. Agreement - A negotiated and typically legally binding arrangement between parties as to a course of action in return for money or the reciprocal provisions of logistic support, supplies, and services by such government or organization to elements of the armed forces.

9.2.11. Allotment – Subdivisions of apportionments that are made by the heads of agencies, or their designee, to incur obligations within a prescribed amount. Subdivision and distribution of an allotment (e.g., sub-allotments and allocations to operating agencies or installation-level accounting activities) must contain at least the same legal and other limitations applicable to the original allotment. Such subdivisions and distributions may establish additional legal and other limitations applicable to execution of budgetary resources.

9.2.12. Acquisition only Agreement – A legal instrument entered into under the authority of 10 U.S.C. 2341.

9.2.13. Authorization – Approval or permission.

9.2.14. Bill – Notice of payment due, normally sent to the recipient of the LSSS as a reminder of the recipient's debt. Need not be accompanied by the 1-3a.

9.2.15. Bona Fide Need - Orders citing an annual or multiyear appropriation must serve a current need arising, or existing, in the fiscal year (or years) for which the appropriation is available for obligation.

9.2.16. CCMD - A unified or specified command with a broad continuing mission under a single commander established and so designated by the President, through the Secretary of Defense and with the advice and assistance of the CJCS. CCMDs typically have geographic or functional responsibilities.

9.2.17. Collections - Amounts received during the fiscal year. Collections are classified into two major categories: offsetting receipts (amounts deposited to receipt accounts) and

offsetting collections. Offsetting collections are receipts or credits credited to an appropriation or fund account.

9.2.18. Component - One of the subordinate organizations that constitute a joint force.

9.2.19. Contingency Operation - A situation requiring a sequence of tactical actions with a common purpose or unifying theme, or the carrying out of a strategic, operational, tactical, service, training, or administrative military mission in response to natural disasters, terrorists, subversives, or as otherwise directed by appropriate authority to protect United States interests.

9.2.20. Cross-Servicing Agreement – An international agreement, authorized by law, which allows for reciprocal provision of logistic support, supplies, and services on a reimbursement basis, specifically allowed by 10 U.S.C. §§ 2341 and 2342.

9.2.21. Disbursement – Amounts paid by Federal Agencies, by cash or cash equivalent, during the fiscal year to liquidate government obligations. “Disbursement” is often used interchangeably with the term “outlay.” In budgetary usage, gross disbursements represent the amount of checks issued and cash or other payments made, less refunds received. Net disbursements represent gross disbursements less income collected and credited to the appropriation or fund account, such as amounts received for goods and services provided. For purposes of matching a disbursement to its proper obligation, the term disbursement refers to the amount charged to a separate line of accounting.

9.2.22. DoD Component – The Office of the Secretary of Defense; the Military Departments; the organization of the Joint Chiefs of Staff; the CCMDs; the DoD Inspector General; the DoD field activities; and the Defense Agencies.

9.2.23. Electronic Funds Transfer (EFT) - The act of debiting or crediting accounts in financial institutions by wire rather than source documents, such as paper checks. Processing typically occurs through the Federal Reserve Bank clearing houses.

9.2.24. Exchange – Replacement of a reciprocal nature of logistic support, supplies or services with similar logistic support, supplies or services of equal value through either a RIK or an EVE transfer.

9.2.25. Implementing Arrangement - A supplementary arrangement that prescribes details, terms, and conditions to implement cross-servicing agreements effectively.

9.2.26. Invoice – A demand for payment with an accompanying 1-3a describing the transfer of the LSSS.

9.2.27. Non-Combat Operations - A military mission carried out as a result of a calamitous situation or catastrophic event that occurs naturally or through human activities, which threatens or inflicts human suffering on a scale that may warrant emergency relief assistance from the United States Government or from foreign partners: to directly relieve or reduce human suffering, disease, hunger, or privation; or to assist in the event of mass casualties, damage, or

disruption severely affecting the population, infrastructure, environment, economy, national morale, and/or government functions in the country or territory where the event occurred.

9.2.28. Obligations – Amount resulting from orders placed, contracts awarded, services received, and similar orders during an accounting period that will require payment during the same or a future period.

9.2.29. Offsetting Collections – Collections from Federal Government accounts or from orders with the public. The two major categories of offsetting collections are offsetting receipts (amounts deposited to receipt accounts) and offsetting collections credited to appropriation or fund accounts.

9.2.30. Order - A written request, in an agreed-upon format and signed by an authorized individual, for the provision of specific logistic support, supplies, and services pursuant to an acquisition or cross-servicing agreement, acquisition only authority agreement, or implementing arrangement with an approved foreign partner for LSSS on a reimbursable basis.

9.2.31. Participating non-NATO countries – The government of a country not a member of the North Atlantic Treaty Organization (NATO) which is designated by the Secretary of Defense (SECDEF) as a government with which the SECDEF may enter into agreements only after consultation with the Secretary of State to determine that such a designation for such purpose is in the interest of the national security of the United States., and notification of appropriate Congressional Committees of the intended designation, not less than 30 days before the date of official Secretary designation.

9.2.32. Ratification - The recognition or adoption of an unauthorized order, obligation or commitment, retroactively, by an official with proper authority after following a reconciliatory process.

9.2.33. Reciprocal – Consisting of or functioning in an even and mutually beneficial manner between two parties.

9.2.34. Reimbursements – Amounts earned and collected for property sold or services furnished either to the public or to another Federal accounting entity. To be an appropriation reimbursement, the collection must be authorized by law, for credit to the specific appropriation or fund account.

9.2.35. Transfer – Selling, Leasing, Loaning, or otherwise providing logistic support, supplies, and services pursuant to an ACSA subject to reciprocal reimbursement.

9.2.36. Undelivered Orders - The value of goods and services ordered and obligated that have not been received. This amount includes any orders for which advance payment has been made but for which delivery or performance has not yet occurred.

9.2.37. Unit – 1) Any military element whose structure is prescribed by competent authority; or 2) A quantity adopted as a standard of measure.

*APPENDIX A: RATIFICATION OF UNAUTHORIZED COMMITMENTS

Figure A-1. Ratification Form

ACSA RATIFICATION FORM FOR APPROVAL/RATIFICATION OF UNAUTHORIZED TRANSACTIONS (ACSA FMR Vol 11a Chapter 8)		
This form is only for the Acquisition and Cross-Servicing Agreement (ACSA) Program and may not be used for ratifications of unauthorized commitments under the Federal Acquisition Regulation (FAR).		
Amount (\$)	To ACSA Program Manager	Date of commitment (YYYYMMDD)
For (item or service)	Committing unit or activity	
<p>PART I — Description of Commitment and Unit Commander's Review</p> <p>The individual making the unauthorized ACSA transaction will complete part I, section A, blocks 1 through 5; provide the required documentation; date, sign, and forward the form to his or her immediate supervisor who will complete part 1, section A, blocks 6 and 7. The immediate supervisor will then forward the form to the appropriate individual (unit commander, director or activity chief, O6/GS15 equivalent) who will complete part I, section B. All information must be provided in detail with documentation attached.</p>		
<p>Section A — Commitment Circumstances</p> <p>1. Statement by individual who made the commitment and whether or not that person is an ACSA implementing and approving official (ACSA IAO):</p>		
<p>2. Explain why ACSA procedures were not followed. For cash transactions, regulations require certification of funds and a counter-signed ACSA order before goods or services are provided.</p>		
<p>3. Describe bona fide Government requirement necessitating the commitment.</p>		

4. Describe Government received benefits (State the value of the benefit and other pertinent facts.)		
5. List and attach all relevant documents (Include statements of requirements, previous or draft ACSA order, invoices, and other evidence of the transaction.)		
Individual making unauthorized ACSA transaction		
Name, grade, and title	Date (YYYYMMDD)	Signature
6. Describe attempts to resolve unauthorized transaction (for example, cancelling transaction, returning merchandise, individual paying from personal funds)		
Financial Analyst verifying funds resolution attempts		
Name, grade, and title	Date (YYYYMMDD)	Signature
7. Comments of Immediate supervisor of Individual making unauthorized ACSA transactions:		
Supervisor		
Name, grade, and title	Date (YYYYMMDD)	Signature

For (item or service)		Committing unit or activity			
<p align="center">Section B — Commander, Director, or Activity Chief</p> <p>Completed by unit commander, director, or activity chief (O6/GS15 equivalent). Complete blocks 1 through 4 and forward the form to the CCMD and MILDEP ACSA Program Manager, International Agreements Division, Office of the Deputy Chief of Staff.</p>					
<p>1. Describe special remedial corrective action, disciplinary action, or both that were taken (Include a description of any administrative action to be taken or explain why no disciplinary action was considered necessary.)</p>					
<p>2. Describe action taken to prevent recurrence of unauthorized ACSA transactions:</p>					
<p>3. I have reviewed part I, section A, and verify that the information is accurate and complete, that the Government received a benefit and associated value from the subject transaction, and—</p> <table border="0"> <tr> <td><input type="checkbox"/> Concur with the subject transaction</td> <td><input type="checkbox"/> Do not concur (explain nonconcurrency)</td> </tr> </table>				<input type="checkbox"/> Concur with the subject transaction	<input type="checkbox"/> Do not concur (explain nonconcurrency)
<input type="checkbox"/> Concur with the subject transaction	<input type="checkbox"/> Do not concur (explain nonconcurrency)				
<p>4. A completed purchase request and commitment form (from applicable system) has been prepared and is attached (required if ratification is recommended). The purchase request and commitment must specifically state that funds were available at the time the unauthorized ACSA transaction was made and are still available.</p> <table border="0"> <tr> <td><input type="checkbox"/> Yes</td> <td><input type="checkbox"/> No</td> </tr> </table>				<input type="checkbox"/> Yes	<input type="checkbox"/> No
<input type="checkbox"/> Yes	<input type="checkbox"/> No

VOLUME 11A, CHAPTER 9 “SUPPORT OF INTERNATIONAL MILITARY ACTIVITIES”

SUMMARY OF MAJOR CHANGES

Changes are identified in this table and also denoted by blue font.

Substantive revisions are denoted by a (*) preceding the section, paragraph, table, or figure that includes the revision.

Unless otherwise noted, chapters referenced are contained in this volume.

Hyperlinks are denoted by **bold, italic, blue and underlined font**.

The previous version dated December 2024 is archived.

PARAGRAPH	EXPLANATION OF CHANGE/REVISION	PURPOSE
All	Administrative updates were completed in accordance with the Department of Defense Financial Management Regulation Revision Standard Operating Procedures. <u>April 2025</u> : Updates from the previous version dated December 2024 remain in blue font due to the visibility of NATO information.	Revision
1.3.13	Incorporated additional authoritative guidance reference for Title 39 United States (U.S.) Code, Section 406, “Postal Services at Armed Forces Installations.”	Revision
Policy Memo 3.3.8.3	The Deputy Chief Financial Officer policy memorandum, “Access to the Military Postal Service by U.S. Civilians Occupying Positions at the North Atlantic Treaty Organization on a Direct Hire Basis, (FPM24-04),” dated March 12, 2024, was incorporated into the chapter and cancelled. <u>April 2025</u> : Added reference to the Military Postal Procedural Manual.	Cancellation
Table 9-1	The table was updated to reflect forecasted laydown of U.S. military positions within International Military Headquarters in the U.S. European Command area of responsibility.	Revision

CHAPTER 9

SUPPORT OF INTERNATIONAL MILITARY ACTIVITIES

1.0 GENERAL

1.1 Overview

This chapter assigns responsibilities and establishes guidance for the support of international organizations, and for providing reimbursable and nonreimbursable support.

1.2 Purpose

1.2.1. Establishes administrative arrangements, reimbursement, and billing procedures, and identifies a method to compute the dollar value of credits due the U.S. for the support of international military activities.

1.2.2. Identifies the support that Department of Defense (DoD) Components can expect to receive from international military organizations and whether such support is on a reimbursable or nonreimbursable basis.

1.2.3. Establishes guidance for financing the U.S. contributions to and the receipt of credits from the international military organizations with which the U.S. participates.

1.2.4. Establishes guidance for paying U.S. personnel employed by international military organizations, and for verifying the credits received from the organizations for such personnel.

1.2.5. Does not apply to the provision of intelligence or cryptologic support provided under authorities other than those cited herein.

1.3 Authoritative Guidance

The financial management policy and related requirements prescribed in this chapter are in accordance with the applicable provisions of the following sources:

- 1.3.1. [Title 5 United States Code \(U.S.C.\) Section 102](#), “Military departments”;
- 1.3.2. [10 U.S.C. § 161](#), “Combatant commands: establishment”;
- 1.3.3. [10 U.S.C. § 164](#), “Commanders of combatant commands: assignment; powers and duties”;
- 1.3.4. [10 U.S.C. § 421\(a\)](#), “Funds for foreign cryptologic support”;

1.3.5. [10 U.S.C. § 2344\(a\)](#), “Methods of payment for acquisitions and transfers by the United States”;

1.3.6. [10 U.S.C. § 2667](#), “Leases: non-excess property of military departments and Defense Agencies”;

1.3.7. [22 U.S.C. § 2751](#), “Need for international defense cooperation and military export controls; Presidential waiver; report to Congress; arms sales policy”;

1.3.8. [10 U.S.C. § 2801](#), “Scope of chapter; definitions”;

1.3.9. [10 U.S.C. § 2802](#), “Military construction projects”;

1.3.10. [22 U.S.C. § 2778\(b\)\(2\)](#), “Control of arms exports and imports”;

1.3.11. [31 U.S.C. § 1353](#), “Acceptance of travel and related expenses from non-Federal sources”;

1.3.12. [31 U.S.C. § 1535](#), “Agency agreements”;

* 1.3.13. [39 U.S.C. § 406](#), “Postal Services at Armed Forces Installations”;

1.3.14. [DoD Directive \(DoDD\) 2010.09](#), “Acquisition and Cross-Servicing Agreements”;

1.3.15. [DoDD 5015.02](#), “DoD Records Management Program”;

1.3.16. [DoDD 5100.03](#), “Support of the Headquarters of Combatant and Subordinate Unified Commands”;

1.3.17. [DoDD 5101.1](#), “DoD Executive Agent”;

1.3.18. [DoD Instruction \(DoDI\) 1000.17](#), “Detail of DoD Personnel to Duty Outside the Department of Defense”;

1.3.19. [DoDI 4000.19](#), “Support Agreements”;

1.3.20. [DoDI 5210.60](#), “Security Clearance Program for U.S. Citizens Employed Directly by the North Atlantic Treaty Organization (NATO)”;

1.3.21. [DoDI 5530.03](#), “International Agreements”; and

2.0 DEFINITIONS AND GUIDELINES

2.1 Military Department

Military Department refers to one of the departments within DoD created by the National Security Act of 1947 as amended ([NSA 1947](#)), which are the Department of the Army, the Department of the Navy, and the Department of the Air Force.

2.2 Military Service

Military Service is established by [the NSA 1947](#) and refers to the Army, Navy, Air Force, Marine Corps, and Coast Guard when operating as a part of the Navy in accordance with law (see the definition of “Service” in the [DoD Dictionary of Military and Associated Terms](#) as amended).

2.3 Military Unit

Military Unit refers to any military element whose structure is prescribed by competent authority (see the definition of “Unit” in Joint Chiefs of Staff Publication 1 ([JP 1](#))).

2.4 Military Element

Military Element refers to any military organization formed to perform a specific function under a joint force commander’s headquarters (see the definition of “Element” in JP 1).

2.5 Nonreimbursable Support

2.5.1. The DoD provides nonreimbursable support to international military organizations in two forms: (1) through a financial contribution to the budget of the international organization, or (2) by assignment of U.S. military elements to the international organization under the terms of international treaties or agreements (see DoDI 5530.03). The U.S. military elements may be assigned either on a long or short-term basis.

2.5.2. Short-term assignments are typically for the purpose of participating in joint exercises or maneuvers under the auspices of the international organization.

2.5.3. Long-term assignments typically involve filling an existing billet on the staff of an international organization.

2.5.4. Support under subparagraphs 2.5.1 and 2.5.2 are not reimbursable to DoD. An exception to this policy is the support by members of a U.S. military element who provide services that were included in the budget of the international organization (e.g., a U.S. Military member who occupies an international civilian billet). These costs are reimbursable (see section 4.0).

2.6 Reimbursable Support

All other support provided to the international military organization and military elements of participating foreign countries is reimbursable to the performing DoD Component and must be provided under one of the authorities described in paragraphs: 4.2, Arms Export Control Act (AECA); 4.3, NATO Mutual Support Act (NMSA); 4.4, Other than AECA and NMSA.

2.7 Support for U.S. Military Elements/Units

The U.S. military element of an international military organization is supported by the international organization and the administrative agent (see paragraph 3.3) on a nonreimbursable basis. The administrative agent must ensure support provided to the U.S. military elements of an international organization is equal in scope and quality to all organizations [that](#) it supports at a comparable location. Other U.S. military units in the area, including units of the administrative agent, also may receive support from the international organization, but on a reimbursable basis. The Military Department concerned, and the international organization will execute a support agreement between them when those military units receive support.

2.8 Table of Distribution and Allowance

[Tables of distribution and allowance \(TDA\)](#) refer to a military unit that is organized to perform unique missions for which a Table of Organization & Equipment (TO&E) does not exist. A TDA may contain combinations of military, civilian, and contractor man-year equivalent positions.

2.9 Table of Organization and Equipment (TO&E)

A [TO&E](#) is comprised of military personnel and refers to the capabilities, organizational structure, and required personnel and equipment for a military unit to accomplish its mission.

3.0 RESPONSIBILITIES

3.1 Under Secretary of Defense (Comptroller)

The Under Secretary of Defense (Comptroller) provides financial policy with regard to support agreements and designates the administrative agent responsible for arranging support to U.S. military elements at an international military organization. Geographic proximity to existing support infrastructure and mission compatibility is the primary criteria used to assign administrative agent duties. Current designations are provided in Table 9-1. The Military Services must request updates to this table as needed to reflect changes in available support infrastructure within a geographic area.

3.2 Secretaries of the Army and the Air Force

3.2.1. The Secretary of the Army must program and budget the annual U.S. contributions to the various NATO bodies in the Army Operations and Maintenance (O&M) appropriation.

3.2.2. The Secretary of the Army must program and budget for the annual U.S. contributions to other recognized multinational headquarters, such as the NATO Force Structure and the NATO Response Force in which the U.S. participates.

3.2.3. The Secretary of the Air Force must budget for the NATO Airborne Early Warning Program Management Agency (NAPMA).

3.3 Administrative Agent

The administrative agent must:

3.3.1. Budget for the U.S. contributions to designated non-NATO international military organizations. When the Army is not the administrative agent for a NATO body or other multinational headquarters, the designated agent provides the Army with program and budget information on the annual contribution for inclusion in the Army's O&M appropriation. Budgeting for the NAPMA constitutes an exception to this policy (see subparagraph 3.2.3.).

3.3.2. Coordinate with appropriate U.S. representatives at the international military organizations to ensure that effective procedures and controls are prescribed for budgeting, obligating, disbursing, and receiving credits incident to administering the U.S. contributions.

3.3.3. Program and allocate resources in a manner that will provide the international organization with the highest possible level of support under paragraphs 4.2, 4.3, and 4.4 consistent with financial constraints that may be imposed through the normal program and budget process.

3.3.4. Support U.S. military elements attached to the designated international military organization on a nonreimbursable basis unless the support is an international budget cost or is a budget responsibility of another Military Department (see paragraph 3.4). The standards and directives of the administrative agent govern the level and type of support furnished. The level and type of support is consistent with the highest possible level of support allowable under this chapter while not violating those same governing standards and directives. Support requirements based upon input provided by the U.S. military element are included in the administrative agent's annual budget. The administrative agent must obtain support from the most efficient and economical source, [including](#) local sources while ensuring that no parallel support facility is established (see DoDI 4000.19).

3.3.5. Provide U.S. military elements, which are TO&E or equivalent units, with replacement consumable and nonconsumable material, obtaining peculiar items when necessary from supply systems of the parent Military Service on a reimbursable basis.

3.3.6. Provide U.S. military elements, which are TDA or equivalent units, both with initial and replacement consumable and nonconsumable material.

3.3.7. Establish a table of allowances, unit allowance lists, base allowance lists, and other authorization documents for U.S. military elements attached to the international military organization.

3.3.8. Budget for the cost of civilian employees of the U.S. Government assigned to positions in international military organizations. These employees retain their status as U.S. employees and are paid from U.S. funds at the appropriate U.S. scale of pay and allowances.

3.3.8.1. The pay and allowances are budgeted at the appropriate international pay scale by the international military organization to which they are assigned. A sum equal to the amount of such pay and allowances at the international pay scale must be collected from the international organization and reflected in the reimbursable portion of the DoD budget. The DoD direct budget must absorb any differences.

3.3.8.2. The U.S. civilians who occupy positions in international military organizations on a direct-hire basis (not as U.S. Government employees), as provided for by DoDI 5210.60, will be governed by the provisions of that firm offer of employment and other applicable U.S. Government regulations that deal with such employment. The international military organization concerned will remunerate those U.S. civilians at the applicable international pay scale; however, these U.S. civilians will not be entitled to the same pay and allowances or benefits as those of U.S. Government employees, [except for Military Postal Access \(MPS\) access benefits as defined in subparagraph 3.3.8.3.](#)

* 3.3.8.3. The U.S. civilians who are employed by the North Atlantic Treaty Organization (NATO) on a direct-hire basis (not as U.S. Government employees) and perform functions in support of the U.S. Armed Forces have access to the U.S. Military Postal Service (MPS) at locations outside of the continental United States. This policy allows NATO direct hires MPS access. In accordance with 39 U.S.C. § 406, "Postal Services at Armed Forces Installations", funds must not be obligated or expended to establish, maintain, or expand a post office established for the purpose described in 3.3.8.2. Refer to the [Military Postal Procedural Manual](#) for implementing guidance on Military Postal Service support for U.S. citizens employed by NATO.

3.4 Secretaries of the Military Departments

The Secretaries of the Military Departments with military personnel assigned to a U.S. military element must:

3.4.1. Budget and fund for personnel costs of military personnel of that [component](#) included in the U.S. military element.

3.4.2. Budget and fund for personally assigned equipment provided to military personnel of that [component](#) included in the U.S. military element.

3.4.3. Make initial issuance to TO&E or equivalent units of that **component** assigned or attached to U.S. military elements.

3.4.4. Budget and fund **component** peculiar requirements, such as flying qualifications, medical examinations, personnel training and development, and social actions, for military personnel of that component.

3.4.5. Support other requirements. Costs are chargeable to the administrative agent on an interservice (reimbursable) basis.

3.4.6. Provide appropriate support to foreign military elements or to international military organizations in accordance with paragraphs 4.2, 4.3, or 4.4, herein, unless identified in this chapter as items of nonreimbursable support.

3.5 Head of a U.S. Military Element

The Head of a U.S. military element must support the international military organization on a nonreimbursable basis, except for the costs of a military member who is assigned to an international civilian position, or when such support requires augmentation of the element's normal manpower, equipment, or other resources from other U.S. sources.

3.6 Head of a DoD Component

The Head of a DoD Component must:

3.6.1. Support the international military organization and participating foreign countries on a reimbursable basis, in accordance with the AECA or the NMSA unless otherwise specified in this chapter.

3.6.2. Ensure the use of appropriate internal controls and oversight measures (e.g., support agreements manager assignments) and documentation of reimbursable support agreements to support financial audits, in accordance with DoDI 4000.19 and DoDD 5015.02.

3.7 Commander of a Unified Combatant Command

The Commander of a Unified Combatant Command must coordinate the activities of the administrative agents concerned in implementing this chapter within the command theater of operations.

3.8 Head of an International Military Organization

The Head of an International Military Organization must support U.S. military elements on a nonreimbursable basis for those support areas set forth in the scope of the budget for international military headquarters and agencies (see Table 9-1.).

4.0 REIMBURSEMENTS

4.1 Reimbursements Due the U.S. from International Military Organizations for U.S. Personnel (Military or Civilian) Occupying International Civilian Positions.

4.1.1. A sum equal to the pay and allowances established for the occupied positions at the international scale must be credited to the U.S. as an offset to the U.S. contribution to the international organization.

4.1.1.1. The administrative agent must determine the amount of credit due and initiate a quarterly [Standard Form \(SF\) 1080](#), Voucher for Transfers between Appropriations and/or Funds, to transfer funds from the U.S. contribution to the international budget to the applicable financing DoD appropriation.

4.1.1.2. As an exception to this offset credit procedure, international military organizations located in the continental U.S. (CONUS), to which contributions are made in U.S. dollars, must make direct reimbursement of the international pay and allowance equivalent to the administrative agent for any U.S. personnel assigned to international civilian positions.

4.1.2. The administrative agent must screen the personnel administration and payroll computations for U.S. employees, as performed by the international organization, to ensure the accuracy and sufficiency of data and credits granted.

4.2 Reimbursements Due the U.S. from International Military Organizations for Reimbursable Support Provided Pursuant to the AECA.

When DoD services are performed, articles delivered from inventory or new procurement initiated under the authority of the AECA, the pricing and billing must be in accordance with Volume 15.

4.3 Reimbursements Due the U.S. from International Military Organizations for Reimbursable Support Provided Pursuant to NMSA.

When DoD services are performed or articles delivered from inventory under the authority of the NMSA, pricing must be in accordance with Chapter 8 and billing must comply with the international agreement negotiated in accordance with DoDD 2010.09.

4.4 Reimbursements Due the U.S. from International Military Organizations for Reimbursable Support Provided Under Authorities Other than the AECA, NMSA, or this Regulation.

4.4.1. Leases of real and personal property are authorized by 10 U.S.C. § 2667 and must be priced in accordance with Volume 2B and Volume 12. Property with a life expectancy of less than 3 years or a value of less than \$1,000 and provided under the authority of the AECA (paragraph 4.2) or NMSA (paragraph 4.3) must be provided on a sales basis. In the event that DoD services or materiel are provided under authorities other than the AECA, NMSA, or this Regulation, the DoD Component providing that support must obtain a legal opinion supporting the use of such other legal

authority before providing the service or materiel. The legal opinion must be retained for audit verification.

4.4.2. The designated official of the DoD Component furnishing the support must:

4.4.2.1. Originate promptly and in detail an SF 1080 to bill the administrative agent or the designated coordinating agent.

4.4.2.2. Prepare the invoice for reimbursable support on the basis of constructive delivery.

4.4.2.3. Distribute the SFs 1080 as follows:

4.4.2.3.1. Submit two copies of the SF 1080, with supporting details, to the international military organization receiving the services or materiel for verification of the charge.

4.4.2.3.2. Forward the original (disbursement SFs 1080) and the collection copy (SF 1080), without supporting detail, to the administrative agent or the designated coordinating agent.

4.4.2.3.3. Retain additional copies, with supporting details as may be required by the billing office, pending receipt of executed vouchers.

4.4.3. The administrative agent or the designated coordinating agent must (1) request that the comptroller of the NATO command or the appropriate international organization concerned provide a monthly listing of charges that have been accepted, and (2) ensure that such charges are reflected as offset credits to the U.S. in the contributions to the international budgets.

4.4.4. The coordinating agent must match the monthly listing of accepted charges with outstanding SFs 1080 and process the SFs 1080 for accepted charges as payments to the billing office. Upon receipt of the validated SFs 1080, the billing office must process the collection.

4.4.5. The designated coordinating agent must verify that the offset credits are applied to the U.S. contributions to the international organization through a reconciliation of individual SF 1080 billings to the monthly list of accepted charges.

4.4.6. When materiel or services are furnished to international military organizations that are located within the CONUS and contributions are made in U.S. dollars, the U.S. military activity providing the support is responsible for billing the international military organization directly and obtaining reimbursement in U.S. dollars.

5.0 SCOPE OF BUDGET FOR INTERNATIONAL MILITARY HEADQUARTERS AND AGENCIES

The international budget includes the types of costs, except as limited by exclusions in the following paragraphs, in such order and form as may be determined by the appropriate financial reviewing authorities. The following paragraphs are illustrative of the types of costs accepted by the NATO Military Budget Committee as an international charge. The comptroller of the international military organization concerned, and the U.S. representative must be consulted if there is doubt whether the cost of any article or service is properly an international charge.

5.1 Civilian Personnel, Administrative Staff

Pay and authorized allowances of personnel employed by an international headquarters for the performance of international functions, including secretarial, clerical, or technical assistance. For U.S. military and civilian personnel, see paragraph 4.1.

5.2 Civilian Personnel, Operational Staff

Pay and authorized allowance of personnel locally hired for custodial, industrial, or operational purposes. This includes upkeep of the premises and fixed or movable equipment used by the headquarters or its support units or fixed installations; supervision or operation of headquarters' fixed and movable equipment other than office equipment; and operation of headquarters enlisted mess facilities.

5.3 Rents and Maintenance

Rental of office space, barracks, warehouses, and other commercial-type buildings, including taxes; cost of utilities, liquid and solid fuels, sewage and garbage disposal service; supplies and material for janitorial and hygienic services (national support unit barracks excluded); and supplies, material, and contractual expenses for maintenance, repair, and minor alterations to buildings and facilities, including replacement of minor installations and fixed equipment when damaged or worn beyond repair.

5.4 Operation of General Services

Stationary and general office supplies for the headquarters and all units assigned in direct support; rental of office equipment required to supplement available equipment in accordance with internationally approved standards; printing, binding, and reproduction; purchase of maps, charts, and terrain models for peace time use; newspapers, periodicals, and library supplies; photo supplies and photographic processing; and drugs and other expendable medical supplies for first aid stations.

5.5 Communications

Procurement and installation of switchboards, radio transmitters and receivers, telephone exchanges, and mobile communications equipment including related signal vehicles; rental of commercial type equipment for additional requirements; repair and maintenance of communications equipment, including supplies and spare parts; cost of commercial communications, including installation and reinstallation charges for leased or other use of local, national, and international telephone, telegraph, and teletype circuits; and postage and postal fees.

5.6 Transportation

Rental or purchase of passenger and cargo vehicles; petroleum, oil, and lubricant products for such vehicles and other equipment used in direct support of international headquarters; supplies and spares required for organizational maintenance of vehicles and related equipment; commercial freight, local hauling, and express charges for internationally procured supply and equipment items, including shipping charges for contribution-in-kind from member nations to place of receipt.

5.7 Travel of International Staff

5.7.1. Civilian Personnel. Transportation and per diem costs of temporary duty travel on official business.

5.7.2. U.S. Military Personnel. When traveling on official business under travel orders issued by an authorized international headquarters that directs payment to be charged to international funds, the costs of such travel are payable as follows:

5.7.2.1. From International Funds. Cost of transportation furnished by Military Airlift Command and/or a common carrier, to include taxi fares and privately owned conveyances under previously approved conditions.

5.7.2.2. From U.S. Appropriated Funds. Per diem and other expenses authorized by U.S. travel regulations, and the costs under subparagraph 5.7.2.1, for personnel who are members of an international military headquarters that does not maintain a centralized international budget for such purposes.

5.8 Exercises and Maneuvers

When directly related to an allied command training exercise, the cost of commercial communication services and facilities provided solely to fill a requirement of the exercise on behalf of the participating nations; civilian labor hired in connection with the exercise by the interallied headquarters and not specifically for any one nation; temporary installations for interallied field headquarters not available from organic equipment of participating troops or the headquarters and not properly chargeable to the host nation; rental of additional commercial transportation required at interallied headquarters for the exercise; utility costs for interallied headquarters if at a place other than an existing military post; and reproduction of photographs and film strips, required by the directing staff for subsequent international training or critique purposes, when the source of production is other than a military unit.

5.9 Representational and Hospitality

Representational and hospitality expenses of the Supreme Commanders for international purposes.

5.10 Contingencies

Claims for losses by fire, theft, and other damages; and costs to employ legal representation in civil court actions.

5.11 Construction

Design and new construction of buildings and facilities, including housing, structures, utilities, modification; and alteration of existing buildings and facilities, including fixed equipment, sewage, gas, water, and electrical supply systems, roads, and approaches.

5.12 Furniture and Equipment

Office furniture and equipment procured within internationally approved standards for the direct support of international headquarters and agency activities; equipment for maintenance of kitchens, shops, heating electrical plants; and furniture used in barracks, messes, recreation rooms, and dining rooms and clubs.

CHAPTER 11

SALE OF SPECIAL OR TECHNICAL SERVICES TO STATE AND LOCAL GOVERNMENTS

1.0 GENERAL

*1.1 Purpose

The purpose of this chapter is to provide the policy for the sale of special or technical services to both state and local governments and provide guidance on amounts that must be recouped when the DoD Components perform these services. This guidance supplements the standards for financial accounting for receivables, and budgetary accounting for reimbursements, discussed in [Volume 4, Chapter 3](#) and [Volume 3, Chapter 15](#).

1.2 Authoritative Guidance

The financial management policy and related requirements promulgated throughout this chapter are in accordance with the applicable provisions of:

1.2.1. Office of Management and Budget ([OMB Circular A-97](#), “Rules and Regulations Permitting Federal Agencies to Provide Specialized or Technical Services to State and Local Units of Government Under Title III of the Intergovernmental Cooperation Act of 1968”; and

1.2.2. Title 31, United States Code, Section 6505 ([31 U.S.C. § 6505](#)), “Authority to provide specialized or technical services.”

2.0 POLICY AND REPORTING

2.1 Policy Requirements

It is the policy of the Department to cooperate to the maximum extent possible with state and local governments to provide specialized or technical services. Such services generally must supplement and not supplant any services provided under other authority.

2.1.1. **Pricing.** [Price](#) specialized or technical services to state and local governments as a sale to private parties at the full costs to the Department. General rules on determining reimbursable amounts vary as there are several categories with applicable guidance to follow when determining amounts for collection. Components may also use guidance found in other sources as applicable. Refer to Chapter 1 for more details.

2.1.2. **Disposition of Proceeds.** [Deposit](#) payments received by Components for providing service to the credit of the appropriation or account from which the costs of providing the services were paid or are to be charged. [Deposit](#) unfunded portions of the costs of such services to the U.S. Treasury as miscellaneous receipts.

2.2 Types of Services

2.2.1. **Components** specialized or technical services **are as follows**:

2.2.1.1. Any existing statistical or other studies and compilations, development projects, results of technical tests and evaluations, technical information, surveys, reports, documents, and any such materials developed or prepared in the future to meet the needs of the federal government or to carry out normal responsibilities.

2.2.1.2. Preparation of statistical or other studies and compilations, development projects, technical tests and evaluations, technical information, surveys, reports, documents, and assistance in the conduct of such activities, and in the preparation of such materials authorized by law to conduct or prepare:

2.2.1.3. Training of the type authorized by law to conduct for DoD personnel.

2.2.1.4. Technical aid in the preparation of proposals for development and other projects, which provide grants-in-aid or other assistance, provided such aid primarily develops recipients' capability to prepare their own proposals.

2.2.1.5. Technical information, data processing, communications and personnel management systems services, and technical advice on improving logistical and management services normally provided **within** the **Department** under existing authorities.

2.2.2. Any of the specialized or technical services provided by a Component to states and their political subdivisions under other authorities also may be provided under the authority of OMB Circular A-97.

2.2.3. If a Component receives a request for specialized or technical services not covered in 2.2.1, but that is consistent with the OMB Circular A-97, and which the Component has special competence to provide, the Component must forward the request to the Assistant Secretary of Defense (Sustainment) (ASD(S)) for submission to OMB for review. If **the validity of a** service request is **in doubt**, the Component should forward the request to the ASD(S) for review.

2.3 Conditions Under Which Services May Be Provided

Provide specialized or technical services, covered under OMB Circular A-97 at the discretion of the Component head, only under the following conditions:

2.3.1. **Provide** such services only to states, their political subdivisions, and combinations or associations of such governments, their agencies, and instrumentalities.

2.3.2. **Provide** such services only upon the written request of a state or its political subdivision. Requests normally must be made by the chief executive of such entities and must be addressed to the head of the Component involved.

2.3.3. Such services may not be provided unless the servicing Component maintains similar services for its own use under the policies and procedures set forth in [OMB Circular A-76](#), “Performance of Commercial Activities”, and subsequent changes thereto. In addition, in accordance with the policies set forth in OMB Circular A-76, the requesting entity must certify that [procurement of](#) such services cannot be reasonably and quickly [made](#) through ordinary business channels.

2.3.4. Such services may not be offered if they require any staff additions or involve expenditures for additional equipment or other facilities solely for the purpose of providing such services, except when the costs of such services are charged to the user.

2.3.5. [Provide](#) such services only upon payment or arrangement for reimbursement to the Component involved by the unit of government making the request. This includes salaries and all other identifiable direct and indirect costs of performing such services.

2.3.6. [Do not disseminate](#) technical [service](#) information to third party governmental entities or associations, unless expressly authorized by the originating Component.

2.3.7. [When a](#) Component [denies](#) a service request [it](#) must [provide](#) a statement to the entity making the request indicating the reasons.

2.4 Reporting Requirements

The head of each [federal](#) agency will furnish annually to the respective Committees of the Senate and the House of Representatives a summary report on the scope of the services provided under OMB Circular A-97. These reports will be prepared as of the end of each calendar year and will indicate the nature of the services rendered, the names of the States and political subdivisions involved, and the cost of the work. [Do not include](#) services provided under other authorities in the reports.

VOLUME 11A, CHAPTER 12 “MAJOR RANGE AND TEST FACILITY BASE”**SUMMARY OF MAJOR CHANGES**

Changes are identified in this table and also denoted by [blue font](#).

Substantive revisions are denoted by an asterisk (*) preceding the section, paragraph, table, or figure that includes the revision.

Unless otherwise noted, chapters referenced are contained in this volume.

CHAPTER 12

MAJOR RANGE AND TEST FACILITY BASE

1.0 GENERAL

1.1 Overview

The Major Range and Test Facility Base (MRTFB) is a national asset that is sized, operated, and maintained primarily for Department of Defense (DoD) acquisition programs to provide the necessary instrumentation, infrastructure, and workforce to support developmental and operational test and evaluation, but also available to non-DoD users having a valid requirement for its capabilities. The MRTFB is operated and maintained primarily for DoD test and evaluation support missions under the oversight of the Director, Test Resource Management Center (TRMC). The MRTFB provides test and evaluation support to the DoD Components responsible for developing, testing, or operating weapons systems. It serves Federal, state, local, and allied foreign governments as well as commercial users when a valid requirement for range, lab, or installed system test facility capabilities exists. MRTFB missions vary from testing missiles, aircraft, and integrated space capabilities to ensuring that electrical components can survive in various environments. The MRTFB is designed to assure the most cost-effective development and testing of materiel, and warfighting capabilities and provide for inter-service compatibility, efficiency, and equity without influencing technical testing decisions or inhibiting legitimate and valid testing.

*1.2 Purpose

This chapter provides a reimbursable policy for the DoD MRTFB. This policy applies to the Office of the Secretary of Defense, the Military Departments, the Office of the Chairman of the Joint Chiefs of Staff, the Combatant Commands, the Office of the Inspector General of the Department of Defense, the Defense Agencies, the DoD Field Activities, and all other organizational entities within the Department of Defense (hereafter referred to collectively as the “DoD Components”). This chapter does not apply to the commercial space launch activities of the Space Launch Delta 30 and Space Launch Delta 45 contained in Chapter 13. Additionally, this chapter does not apply to the sale of samples, drawings, information, equipment, and certain services contained in Chapter 14.

*1.3 Authoritative Guidance

1.3.1. Title 10, United States Code (U.S.C.), Section 2208. Sections 2208(a)(2) and 2208(o) of Title 10 authorize the Secretary of Defense to establish working capital funds (WCFs) for activities that provide common services across DoD and to other persons outside DoD when authorized by law.

1.3.2. 10 U.S.C. § 4175. Section 4175 of Title 10 authorizes the Secretary of Defense to enter contracts with commercial entities that desire to conduct commercial test and evaluation activities at an MRTFB.

1.3.3. [Statements of Federal Financial Accounting Standards 4 \(SFFAS 4\)](#): “Managerial Cost Accounting Standards & Concepts.” This statement requires cost accounting systems to accumulate costs.

1.3.4. [DoD Directive \(DoDD\) 3200.11](#), “Major Range and Test Facility Base (MRTFB).” This Directive promulgates the policy and responsibilities of the MRTFB.

1.3.5. [DoD Instruction \(DoDI\) 3200.18](#), “Management and Operation of the Major Range and Test Facility Base (MRTFB).” This Instruction implements policy and assigns responsibilities for the management and operation of the MRTFB.

1.3.6. [DoDI 4000.19](#), “Support Agreements.” This Instruction includes requirements for support agreements.

2.0 DEFINITIONS

2.0.1. MRTFB. The designated core set of DoD Test and Evaluation (T&E) infrastructure and associated workforce is preserved as a national asset to provide T&E capabilities to support the DoD acquisition system.

2.0.2. MRTFB Activity. Organizational command element of a DoD Component that manages MRTFB capabilities and resources.

2.0.3. Non-DoD Component Users. Federal, state, or local government agencies; allied foreign governments; defense contractors; commercial entities, and private organizations.

2.0.4. Direct Costs. Direct costs are attributable to using the facility or resource for testing under a particular program. DoD Component users must reimburse MRTFB activities for direct costs readily identifiable with a particular program. Chargeable direct costs include labor, contract labor (which includes a portion of general and administrative expense and overhead), software licenses, material, minor construction, utilities, equipment, supplies, items damaged or consumed during testing, prepositioning of aircraft (to include fuel and Aviation Depot Level Repairable charges), vessels, instrumentation, targets, and threat systems; and any resource or item maintained for a particular program. Direct costs must be billed in accordance with Chapter 1 and must be identified as a job or function served in support of a user order.

2.0.5. Indirect Costs. Indirect costs are overhead costs of the MRTFB activities and are not to be charged to DoD Component users. Indirect costs are maintenance facility or resource operating, upgrading, and modernizing costs. Indirect costs do not include any incremental costs directly attributable to the use of the facility or resource for specific testing under a particular program. The following are examples of types of indirect costs, although the list is not all inclusive:

2.0.5.1. General administrative services, security, rent, operating and maintenance costs for buildings, equipment, and utilities;

2.0.5.2. Preventative and usage maintenance;

2.0.5.3. Cost of leases, except when the cost of the lease can be directly associated with a specific user and the appropriation is available to fund the leases;

2.0.5.4. Upgrade or modernization of an MRTFB facility, not expressly needed for testing for a specific user;

2.0.5.5. Routine calibration of instruments;

2.0.5.6. Maintenance and repair of shop machinery; and

2.0.5.7. Replacement of obsolete equipment.

3.0 RESPONSIBILITIES

DoDD 3200.11 and DoDI 3200.18 established the following financial management responsibilities of MRTFB operations.

*3.1 Under Secretary of Defense Research and Engineering (USD (R&E))

USD R&E, specifically the Director, TRMC will:

3.1.1. Review and provide oversight of proposed DoD budgets and expenditures for the MRTFB; and

3.1.2. Coordinate MRTFB decisions affecting financial policy and matters containing a monetary value (financial and non-financial) with the Under Secretary of Defense (Comptroller).

3.2 DoD Chief Information Officer (CIO) and the Secretaries of the Military Departments

3.2.1. Plans, programs, and budgets for institutional costs of operation, maintenance, and sustainability of the MRTFB; and for capability improvements, modernization, and recapitalization; and

3.2.2. Implements a reimbursement system to define and collect user charges in accordance with Chapters 1 and 4.

3.3 MRTFB Users

3.3.1. Plan, budget, and fund the MRTFB activities for applicable direct and/or indirect costs; and

3.3.2. Promptly fund(s) the activity managing the MRTFB facilities or ranges for expenditures of any consumable items, any damage to property or equipment caused by the user in the preparation for, or conduct of, any activity on the facility or range or for direct costs incurred or executed for aborted and/or canceled tests.

4.0 POLICY

4.1 General

The MRTFB is managed and operated under uniform financial guidelines across the DoD Components. Accordingly, all direct and indirect costs charged to MRTFB users must be uniform and applied consistently among all the MRTFB activities. DoD Components must work with the Director, TRMC to ensure financial uniformity and consistency. MRTFB activities' costs are billed to (1) MRTFB users, (2) direct appropriations of the managing activity, or (3) other sources as directed by DoD.

4.2 MRTFB Costs

DoD Components (including DoD training) and Non-DoD Components use an MRTFB. The MRTFB charges DoD Component users only direct costs. The MRTFB charges Non-DoD Component user direct costs plus an appropriate level of indirect costs. Non-DoD users must not increase the institutions' costs to the DoD to operate the MRTFB.

4.3 Accounting

4.3.1. Cost information sets fees and reimbursements. Each MRTFB activity must accumulate and report as required, the costs of its activities for management and audit purposes. In accordance with the SFFAS 4, "Managerial Cost Accounting Standards & Concepts", costs must be accumulated by using cost accounting systems. Such systems must accurately capture full costs (i.e., direct costs or costs directly attributed to a specific user; and indirect costs or costs that cannot be directly attributed to a specific user) and determine user charges or standard rates under agreements entered pursuant to Chapter 1 and DoDI 4000.19, "Support Agreements". Additionally, appropriate separation of duties and levels of authorization must be implemented into the cost-tracking process to protect vulnerable areas such as controls over automatic user billing and rate validation. All rates must be applicable to the specific product or service provided. Each MRTFB activity must validate standard rates at least annually and adjust them accordingly to reflect unanticipated changes in costs or market values.

* 4.3.2. In accordance with DoDD 3200.11, MRTFB activities are categorized as Army, Navy, Air Force, Space Force, or DoD CIO. Specifically, multiple assets comprise MRTFB activities, each of which is reported individually on its respective consolidated Balance Sheet under

General Property, Plant, and Equipment and further disclosed in Note 10 to the financial statements.

4.4 Reimbursements for MRTFB Activity Usage

4.4.1. In accordance with DoDI 4000.19, MRTFB activities and DoD or Non-DoD Federal Component users must use support agreements (memorandums of agreement or understanding) to document and establish the General Terms and Conditions between buyers and sellers for all inter- and intra-governmental reimbursable transactions. Additionally, in accordance with Volume 1, Chapter 4, buyers and sellers must [adhere to and properly annotate](#) the Standard Line of Accounting when generating or accepting a reimbursable order (i.e., Military Interdepartmental Purchase Request). Moreover, reimbursement of direct costs incurred for [prepositioning test instrumentation or assets for executed](#), aborted or canceled tests or for damages to property or equipment caused by a user in the preparation for, or conduct of, any activity on the facility or range; [and consumables expended for an executed, aborted or canceled test](#) must be pursued to the extent permitted by law and DoD policy.

4.4.2. For support agreements established during and or after Fiscal Year (FY) 2017 and whose terms extend beyond FY 2017, MRTFB activities and DoD or Non-DoD Federal Component users [must](#) upload and store their agreements on the Department of the Treasury's G-Invoicing platform (formally Invoice Processing Platform).

4.4.3. Working Capital Fund Activities. MRTFB [activities](#) using WCFs, [fund](#) operations through reimbursable inter-governmental orders and user fees collected from non-Federal users. Under the stabilized price standardized cost recovery method, [Component](#) managers of WCF activities must set rates/prices based on full cost recovery and must charge users in accordance with established pricing policies contained in Volume 2B, Chapter 9 and Volume 11B.

4.4.4. Non-Working Capital Fund Activities. MRTFB [activities not](#) using WCFs [fund](#) operations through direct appropriations, reimbursable inter-governmental orders, and/or user fees collected from non-Federal users.

4.4.4.1. DoD Component Users

4.4.4.1.1. Direct Costs. DoD Component users reimburse MRTFB activities for direct costs identifiable with a particular program or [user](#) order. [MRTFB bills](#) direct costs in accordance with Chapters 1 and 4 [attributable](#) to a job or function supporting a [user](#) order.

4.4.4.1.1.1. [One or more DoD users of an MRTFB activity, by](#) mutual agreement, [may fund](#) investments in new or existing test and evaluation facilities. This agreement, however, must explicitly delineate responsibilities for [asset](#) ownership/capitalization, funding, staffing, operating, and maintaining the facility, and must be approved by all parties prior to [obligating](#) any funds for the project.

4.4.4.1.1.2. Investments made under subparagraph 4.4.4.1.1 that change the composition of the MRTFB must conform to DoDI 3200.18.

4.4.4.1.1.3. Direct incremental costs (i.e., costs resulting from an increase in production) must be charged to DoD Component users.

4.4.4.1.2. Indirect Costs. MRTFB activities must not charge DoD Component users for indirect costs.

4.4.4.1.2.1. The MRTFB activity must not charge DoD Component users for Overhead (indirect) costs. Overhead costs must remain fully borne by and paid for by the institutionally funded program element accounts comprising the MRTFB's budgetary structure.

4.4.4.1.2.2. Do not charge indirect incremental costs to DoD Components.

4.4.4.1.3. Military Personnel Costs. As a rule, the applicable military personnel appropriations must fund the cost of direct (and indirect) military labor incurred in the performance of a service for, or the furnishing of materials to, another DoD Component user. Therefore, since a direct appropriation funds military labor, do not charge the cost of military labor for non-WCF activity. WCF activities must be reimbursed by their users for the cost of military labor as prescribed in Chapter 6.

4.4.4.2. Non-DoD Component Users

4.4.4.2.1. Direct Costs. Charge non-DoD Component users for MRTFB direct costs readily identifiable with a particular program or user order. Charge military labor incurred by non-Working Capital Fund activities to non-DoD Component users on the basis of the actual hours worked or assigned. Price military personnel costs at the composite standard military pay rates in accordance with Chapter 6, Appendix G.

* 4.4.4.2.2. Indirect Costs. Non-DoD Component users are to be charged and must reimburse MRTFB activities for indirect incremental costs unless such support is required by statute or (1) is authorized by DoD Joint Ethics Regulation or DoD Public Affairs guidance; or (2) is provided after approval of an exception, in writing.

4.4.4.2.2.1. Requests for exceptions may only be approved by the Secretary of Defense, the Deputy Secretary of Defense, the Chief Management Officer (if authorized by existing policy), the Secretaries of the Military Departments (if authorized by existing DoD policy), and the Under Secretaries of Defense (if authorized by existing DoD policy).

4.4.4.2.2.2. Refer to Chapter 1 subparagraph 1.3.4.

4.4.5. Foreign Military Sales. Foreign Military Sales users must reimburse MRTFB activities in accordance with Volume 15, Chapter 7. Foreign user countries or foreign commercial entities must purchase services from MRTFB activities through Foreign Military Sales procedures authorized under the Arms Export Control Act.

4.4.6. Government-Furnished Services. When an MRTFB activity **is** included in a contractual agreement as government-furnished services, the user must be charged based on the category of the contracting government agency (see subparagraphs 4.4.4.1 or 4.4.4.2).

4.5 Disposition of Collections

4.5.1. Working Capital Fund Activities. **WCF** MRTFB activities are funded through inter-governmental orders and user fees collected from non-Federal users. Section 2208(h) of Title 10 U.S.C., provides general authority for retention and use of amounts collected under both inter-governmental orders and user fees. Reimbursable inter-governmental orders are valid budgetary resources available to an MRTFB activity for obligation; however, an MFTRB activity financed using WCFs **must** recognize user fees as a budgetary resource **when** collected from a non-Federal user.

4.5.2. Non-Working Capital Fund Activities. For an MRTFB activity not financed using WCFs, its operations **are** financed through direct appropriations, reimbursable inter-governmental orders, and/or user fees collected from non-Federal users. Inter-governmental orders under reimbursable statutory authorities such as the Economy Act increase available budgetary resources financing the MRTFB. **If** a statutory miscellaneous receipts exception is applicable to a reimbursable transaction with a non-Federal user, user charges collected may be credited to the **applicable direct appropriation** reimbursable program. Section 4175(d) of Title 10, U.S.C., authorizes certain transactions with commercial entities conducting **MRTFB** test and evaluation activities.

CHAPTER 13

DOD SUPPORT TO UNITED STATES COMMERCIAL SPACE ACTIVITIES

1.0 GENERAL

1.1 Purpose

This chapter provides reimbursable policy for the provision of Department of Defense (DoD) support to [United States \(U.S.\)](#) commercial space activities. This chapter applies to all DoD Components that provide support to [the U.S. commercial sector in the development of U.S. commercial space](#) launch operations and other related U.S. commercial space activities.

1.2 Authoritative Guidance

[The reimbursable policy and related requirements promulgated throughout this chapter are in accordance with the applicable provisions of:](#)

[1.2.1. *Title 51, United States Code \(U.S.C.\), sections 50901 - 50923*](#) (51 U.S.C. §§ 50901 - 50923) Commercial Space Launch Activities;

[1.2.2. *51 U.S.C. §§ 50501 - 50506*](#), Commercial Space Competitiveness; and

[1.2.3. DoD Directive, *\(DoDD\) 3230.3*](#), DoD Support for Commercial Space Launch Activities.

*2.0 DEFINITIONS

2.1 Commercial

[As defined under 51 U.S.C. § 50501](#), the term “commercial” means having private capital at risk, with primary financial and management responsibility for the activity residing with the U.S. commercial sector.

2.2 Direct Costs

[As defined under 51 U.S.C. § 50913 and DoDD 3230.3](#), the term “direct costs” includes those actual costs (including salaries of U.S. civilian and contractor personnel) incurred by DoD as a result of use of its space-related facility or resource by the U.S. commercial sector. These costs are reflective of costs that would not be borne by DoD in the absence of such use by the U.S. commercial sector [for space launch](#). These costs also include specific wear and tear and property damage incurred by the DoD as related to the [space vehicle launch and recovery](#).

2.3 Indirect Costs

The term “indirect costs” includes the actual costs of maintaining, operating, upgrading, and modernizing the DoD space-related facility.

2.4 DoD Space Launch Property

As defined under 51 U.S.C. § 50902 and DoDD 3230.3, DoD space launch property consists of items built for, or used to perform space launch operations [space vehicle re-entry, recovery](#), and other space-related activities.

2.5 DoD Space Launch Services

As defined under 51 U.S.C. § 50902 and DoDD 3230.3, DoD space launch services are those activities, including utilities, otherwise not needed for public use, involved in the preparation of a launch vehicle, its payload for launch, crew (including crew training), or space flight participation for launch, conduct of a launch, [re-entry, and recovery](#).

2.6 Property Damage Costs

Property damage costs represent the costs necessary to replace or restore the DoD property, or site, to its condition before the space-related lease/license.

3.0 PRICING

3.1 Pricing of DoD Space Launch Property and Services

3.1.1. DoD Space Launch Property.

3.1.1.1. Sale or Transfer. DoD space launch property that is excess or otherwise not needed for public use may be sold or transferred in lieu of sale to U.S. commercial sector launch vehicle operators performing commercial space activities (e.g., payload retrieval services, payload processing services). The transaction must be priced to recover direct costs, as defined in paragraph 2.2.

3.1.1.2. Lease/License. DoD space launch property that is excess or otherwise not needed for public use may be leased/licensed, on a non-interference basis, to U.S. commercial sector launch vehicle operators performing commercial space activities. The transaction must be priced to recover direct costs, as defined in paragraph 2.2.

* 3.1.2. DoD Space Launch Services.

3.1.2.1. For DoD space launch services, as defined in paragraph 2.5, the acquisition price represents an amount equal to the direct costs defined in paragraph 2.2.

3.1.2.2. For commercial space launch services, as defined in paragraph 2.5, customers will be charged direct costs and may be charged indirect costs.

3.2 Defense Working Capital Fund (DWCF) Activities

Generally, standard prices/stabilized rates must be charged for articles and services provided by activities operating under a DWCF. Refer to Volume 11B, Chapters 11 and 15, for additional details and exceptions.

*3.3 Fixed Price Estimates

Commercial space launch operators may be offered fixed price quotes for the sale of DoD launch services based on reasonable estimates of direct costs only when there is a well-defined contractor requirement and a reliable cost history of similar previous sales. Indirect costs may also be included.

4.0 BILLING

Invoices for support provided by DoD must be completed and transmitted to the U.S. commercial space activity within 30 calendar days after the month in which the performance occurred. The payment due date must be no more than 30 days from the date of the invoice.

5.0 DISPOSITION OF COLLECTIONS

5.1 Proceeds from DWCF Activities

Proceeds from the sale of articles and services from DWCF activities must be deposited to the DWCF.

5.2 Proceeds from Non-DWCF Activities

Proceeds from the sale of DoD launch property by a non-DWCF activity must be:

5.2.1. Credited to the general fund of the U.S. Treasury as miscellaneous receipts when the launch property is not to be replaced.

5.2.2. Deposited to the DoD appropriation account or fund, currently available for the procurement of the launch property, if the launch property is to be replaced.

5.3 Proceeds Deposits for License of Launch Property and Leases

Proceeds from the license of launch property must be deposited to the DoD appropriation account or fund currently available for financing the direct costs incurred. Proceeds from leases must be credited to the general fund of the U.S. Treasury as miscellaneous receipts.

5.4 Proceeds Deposits from the Sale of Launch Services

Proceeds from the sale of DoD launch services must be deposited to the DoD appropriation account or fund that financed the provisioning of those launch services. These proceeds must be credited to the fiscal year in which the DoD Component provided the services.

VOLUME 11A, CHAPTER 14: “DISPOSITION OF PROCEEDS OR FEES FOR SERVICES PROVIDED BY OR THROUGH THE USE OF A DOD LABORATORY, CENTER, RANGE, OR OTHER TESTING FACILITY”

SUMMARY OF MAJOR CHANGES

Changes are identified in this table and also denoted by **blue font**.

Substantive revisions are denoted by an asterisk (*) symbol preceding the section, paragraph, table, or figure that includes the revision.

Unless otherwise noted, chapters referenced are contained in this volume.

Hyperlinks are denoted by **bold, italic, blue, and underlined font**.

The previous version dated **January 2016** is archived.

PARAGRAPH	EXPLANATION OF CHANGE/REVISION	PURPOSE
Chapter Title	Changed the chapter title from “Availability Through Sale or Fee for Use of Samples, Drawings, Information, Equipment, and Certain Services by a Government Laboratory, Center, Range, or Testing Facility” to “Disposition of Proceeds or Fees For Services Provided By or Through The Use of a DoD Laboratory, Center, Range, or Other Testing Facility.” This aligns with the title used for Chapter 5. It also better identifies the chapter as providing reimbursable guidance.	Revision
1.3 (140103)	Added four authoritative sources and removed six that are not referenced in the chapter. Also added nine that were previously referenced in the body of the chapter.	Addition/ Deletion
2.0 (1402)	Added five new definitions and revised five definitions for clarification of terms used in this chapter.	Addition/ Revision
3.3 (140303)	Added guidance from Title 10, United States Code, section 2363 (10 U.S.C. § 2363), “Mechanisms to provide funds for defense laboratories for research and development of technologies for military missions.”	Addition
4.1 (140401)	Provided 31 U.S.C. § 9701 definition for “Person.”	Addition
4.5 (140405)	Updated 31 U.S.C. § 3302 requirements.	Revision

CHAPTER 14

**DISPOSITION OF PROCEEDS OR FEES FOR SERVICES PROVIDED BY OR
THROUGH THE USE OF A DOD LABORATORY, CENTER, RANGE, OR OTHER
TESTING FACILITY**

1.0 GENERAL (1401)

1.1 Overview (140101)

The Department of Defense (DoD) promotes research and development within the commercial sector of the U.S. economy by transferring technology and information from the [Department](#) to the commercial sector. This policy strengthens both national and economic security by establishing a national technology and industrial base [to](#) sustain military superiority and increase U.S. production capabilities. The transfer of technology and information from the [Department](#) to the commercial sector [enables](#) critical research and leads to the development of both useful military and/or commercial technology.

1.2 Purpose (140102)

This chapter prescribes [financial management policy for reimbursement through sale or fee and, the disposition of fees and proceeds received by making testing facilities available; and resulting from](#) the provision of samples, drawings, information, and equipment to any person or entity, as authorized. [Authorization is provided](#) by Title 10, United States Code, section 2539b ([10 U.S.C. § 2539b](#)), “Availability of samples, drawings, information, equipment, materials, and certain services” and implemented in DoD Instruction ([DoDI](#)) [5535.11](#), “Availability of Samples, Drawings, Information, Equipment, Materials, and Certain Services to Non-DoD Persons and Entities.” This chapter does not apply to facilities and ranges of the Major Range and Test Facility Base (MRTFB) (see Chapter 12 for [reimbursable](#) policy [applicable to DoD MRTFBs](#)).

*1.3 Authoritative Guidance (140103)

The financial management policy and related requirements prescribed by this chapter are in accordance with the applicable provisions of:

- 1.3.1. [10 U.S.C. § 2358](#), “Research and development projects”;
- 1.3.2. [10 U.S.C. § 2363](#), “Mechanisms to provide funds for defense laboratories for research and development of technologies for military missions”;
- 1.3.3. [15 U.S.C. § 3710a](#), “Cooperative research and development agreements”;
- 1.3.4. [22 U.S.C. § 2753](#), “Eligibility for defense services or defense articles”;
- 1.3.5. [31 U.S.C. § 3302](#), “Custodians of money”;

1.3.6. [31 U.S.C. § 3512](#), “Executive agency accounting and other financial management reports and plans”;

1.3.7. [31 U.S.C. § 9701](#), “Fees and charges for Government services and things of value”;

1.3.8. Chief Financial Officers [\(CFO\) Act of 1990](#);

1.3.9. Defense Logistics Agency (DLA) Instruction 4160.01 ([DLAI 4160.01](#)), (DoD Common Access Card enabled access only) “DLA’s Guidance on Department of Defense (DoD) Property Disposal”;

1.3.10. Department of Treasury (Treasury) Financial Manual (TFM) Volume I, Part 2, Chapter 4700 ([1 TFM Chapter 4700](#)) “Federal Entity Reporting Requirements for the Financial Report of the United States Government” and [1 TFM Part 5](#), “Deposit Regulations”;

1.3.11. [DoDI 5010.40](#), “Managers' Internal Control Program Procedures”;

1.3.12. DoD Manual Volume 1 ([DoDM 4160.21-VI](#)), “Defense Materiel Disposition: Disposal Guidance and Procedures”;

1.3.13. Federal Accounting Standards Advisory Board (FASAB) Handbook, [FASAB Appendix E: Consolidated Glossary](#);

1.3.14. FASAB Handbook, Statement of Federal Financial Accounting Standards 7 ([SFFAS 7](#)), “Accounting for Revenue and Other Financing Sources and Concepts for Reconciling Budgetary and Financial Accounting”;

1.3.15. Government Accountability Office 14-704G ([GAO-14-704G](#)), “Standards for Internal Control in the Federal Government”;

1.3.16. Office of Management and Budget ([OMB Circular A-25](#)), “User charges”;

1.3.17. [OMB Circular A-123](#), “Management's Responsibility for Enterprise Risk Management and Internal Control.”

*2.0 DEFINITIONS (1402)

2.1 Drawing (140201)

A diagram, plan, or list detailing the fabrication and assembly of structural elements, or describing the steps for the installation of materials and equipment. A drawing details the characteristics, or outlines the parts of operation of a product or item.

2.2 Equipment or Materials (140202)

Equipment or materials are personal property, including machinery, devices, and apparatuses, and components of such items. Personal property also includes systems, equipment, materials, and supplies. This does not include records of the Federal Government and real property (land and improvements to facilities) as specified in the glossary portion of [DoDI 5000.64](#) “Accountability and Management of DoD Equipment and Other Accountable Property.” Personal property normally expected to have a period of service of a year or more after being put into use meets the equipment definition in [OMB Circular A-11](#) “Preparation, Submission and Execution of the Budget.”

2.3 Fair Value (140203)

The amount at which an asset or liability could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

2.4 Friendly Foreign Government (140204)

Those countries for which a Presidential Determination has been provided under 22 U.S.C. § 2753(a)(1), and to which transfer has not been prohibited by the Department of State under Title 22, Code of Federal Regulations, part 126 ([22 CFR 126](#)) of the International Traffic in Arms Regulations.

2.5 Historical Cost less Depreciation (Book Value) (140205)

Historical Cost includes all appropriate purchase, transportation, and production costs incurred to bring items to their current condition and location. Historical cost excludes abnormal costs, which should be expensed in the period incurred rather than capitalized as inventory.

2.6 Independent Research and Development (IR&D) Programs (140206)

IR&D programs are performed by non-government entities that are not sponsored by, or required in performance of government contracts or grants. These efforts include basic research, applied research, development, systems and other concept formulation studies. These programs do not include technical efforts expended in developing and preparing technical data specifically to support submitting a bid or proposal.

2.7 Laboratory (140207)

A facility or group of facilities owned, leased, or otherwise under the jurisdiction and control of the DoD, a substantial purpose of which is the performance of research, development, engineering, test and evaluation, or otherwise developing or maintaining a technology in accordance with 15 U.S.C § 3710a.

2.8 Manufacturing or Other Information (140208)

Any blueprints, drawings, plans, instructions, documentation, or other technical information or technical data that can be used or adopted for use to design, engineer, produce, manufacture, operate, repair, overhaul, or reproduce any equipment or material.

2.9 National Technology and Industrial Base (140209)

The persons and organizations that are engaged in research, development, production, integration, services, or information technology activities conducted within the U.S., the United Kingdom of Great Britain and Northern Ireland, Australia, and Canada. Reference [10 U.S.C. § 2500](#) “Definitions.”

2.10 Net Realizable Value (140210)

The estimated amount that can be recovered from selling, or any other method of disposing of an item less estimated costs of completion, holding and disposal.

2.11 Person or entity (140211)

An individual, partnership, corporation, association, state, local, or tribal government, or an agency or instrumentality of the U.S. Government other than the DoD.

2.12 Proceeds (140212)

[40 U.S.C. § 571](#) “General rules for deposit and use of proceeds,” defines proceeds as either the transfer of excess property to a Federal agency for agency use; or sale, lease, or other disposition of surplus property. [40 U.S.C § 574](#) “Other rules regarding proceeds,” defines net proceeds (with respect to the disposition or transfer of property) as proceeds less all expenses incurred for the disposition or transfer, including care and handling. A gain or loss must be recorded for exchange transactions that are unusual or nonrecurring. In contrast, exchange revenue for exchange transactions that are usual and recurring must be reported. Further, exchange revenue is the proceeds from either intragovernmental sales by an organization that maintains an intragovernmental revolving fund; or when each party to a transaction receives and sacrifices something of value (e.g., when a DoD Component provides goods and services to the public). Refer to FASAB SFFAS 7, sections 238 and 314-315 of Appendix B for details.

2.13 Range (140213)

[10 U.S.C § 101](#) defines a range as a designated land or water area that is set aside, managed, and used for range activities of the DoD. This includes firing lines and positions, maneuver areas, firing lanes, test pads, detonation pads, impact areas, electronic scoring sites, buffer zones with restricted access, and exclusionary areas. It also includes airspace areas designated for military use in accordance with regulations and procedures prescribed by the Administrator of the Federal Aviation Administration. Range activities involve research, development, testing, and evaluation of military munitions, other ordnance, and weapons systems; and the training of members of the armed forces in their use.

2.14 Research Center (140214)

The Secretaries of the Military Departments may execute task order contracts, cooperative agreements, or other arrangements to obtain university technical expertise for up to 30 mission types. These arrangements must be made (to the degree practicable) in consultation with DoD activities in order to provide technical expertise and, to reduce costs and duplicative efforts. Examples of these DoD activities include the Federally Funded Research and Development Centers (FFRDCs), University Affiliated Research Centers (UARCs), and Defense Test Centers. Details may be found in 10 U.S.C § 2358. The [Defense Innovation Marketplace](#) gives a listing of FFRDCs and UARCs.

2.15 Sample (140215)

A unit or units of a product drawn from a lot or batch that is representative of the product and is constructed in conformance with the requirements and complies with specifications of the product. The item may be from a prototype or final production version of the product.

2.16 User Fee/User Charge (140216)

A fee assessed to users for goods or services provided by the DoD. In the context of transactions with the public, user fees generally apply to Federal programs or activities that provide special benefits to identifiable recipients above and beyond what is normally available to the public. User fees are normally related to the cost of the goods or services provided.

2.17 Without Charge (140217)

This could be the result of Other Financing Sources resulting from Inflows of resources that increase the net position of a reporting entity during the reporting period but that are not revenues or gains. They include appropriations used, transfers of assets from other government entities, and financing imputed with respect to any cost subsidies. This could also be in the form of a grant as defined by [31 U.S.C. § 6304](#). “Using grant agreements.” According to 31 U.S.C. § 6304, an executive agency must use a grant agreement as the legal instrument reflecting a relationship between the U.S. Government and a state, a local government, or other recipient when (1) the principal purpose of the relationship is to transfer a thing of value to the state or local government or other recipient to carry out a public purpose of support or stimulation authorized by a law of the U.S. instead of acquiring (by purchase, lease, or barter) property or services for the direct benefit or use of the U.S. Government; and (2) substantial involvement is not expected between the executive agency and the state, local government, or other recipient when carrying out the activity contemplated in the agreement.

3.0 CONDITIONS GOVERNING SELLING, RENTING, LENDING (1403)

3.1 Authorization to Sell, Rent, Lend, Give, or Charge an Appropriate Fee (140301)

10 U.S.C. § 2539b [authorizes](#) the Secretary of Defense [or](#) the Secretaries of the Military Departments [concerned](#), in the interest of national defense [to](#):

3.1.1. Sell, rent, lend, or give samples, drawings, and manufacturing or other information (subject to the rights of third parties) to any person or entity;

3.1.2. Sell, rent, or lend [Department](#) equipment or materials to any person or entity:

3.1.2.1. For use in [IR&D](#) programs subject to the condition that the equipment or material be used exclusively for such research and development, or

3.1.2.2. For use in demonstrations to a friendly foreign government;

3.1.3. Make available to any person or entity, at an appropriate fee, the services of any Department laboratory, center, range, or other testing facility for the testing of materials, equipment, models, computer software, and other items; and

3.1.4. Make available to any person or entity, through leases, contracts, or other appropriate arrangements [the](#) facilities, services, and equipment of any [Department](#) laboratory, research center, or range, if the facilities, services, and equipment provided will not be in direct competition with the domestic private sector.

3.2 Fee Determination Policies (140302)

In [selling or leasing property](#) or providing services or in making facilities, equipment, and other items available under subparagraphs 3.1.1 – 3.1.4, the DoD should charge appropriate fees in a manner consistent with [10 U.S.C. § 2363](#), [31 U.S.C. § 9701](#), OMB Circular A-25 and Chapter 4.

*3.3 Fees for Defense Laboratories Research and Development (140303)

[10 U.S.C. § 2363](#) [authorizes](#) a director of a defense laboratory to charge customer activities a fixed percentage fee (not to exceed four percent of costs), above normal costs of performance, in order to obtain funds to carry out four authorized activities. The defense laboratory director must first consult with the science and technology executive of the military department concerned. Activities eligible for funding are:

3.3.1. Innovative basic and applied research that is conducted at the defense laboratory and supports military missions;

3.3.2. Development programs that support the transition of technologies developed by the defense laboratory into operational use;

3.3.3. Development activities that improve the capacity of the defense laboratory to recruit and retain personnel with necessary scientific and engineering expertise that support military missions;

3.3.4. Repair or minor military construction of the laboratory infrastructure and equipment, only if:

3.3.4.1. The Secretary of Defense notifies the congressional defense committees of the total cost of the project before the start date; and,

3.3.4.2. The Secretary of Defense ensures that the project complies with the applicable cost limitations in 10 U.S.C. §§ 2805(d) and 2811.

4.0 PROCEEDS OR FEES (1404)

*4.1 General Policy (140401)

4.1.1. 31 U.S.C. § 9701 gives DoD the authority to charge fees in order to be self-sustaining as much as possible for services, sales and rentals provided to a person (except a person on official business of the Department). The word person includes groups, associations, organizations, partnerships, corporations, and other businesses. Accordingly, the Secretary of Defense is authorized to prescribe regulations establishing the charge for a service or thing of value that is provided by the Department.

4.1.2. The sales price and rental fees related to subparagraphs 3.1.1 and 3.1.2 must be calculated in accordance with paragraphs 4.2 and 4.3. Fees for services provided in accordance with subparagraphs 3.1.3 and 3.1.4 must be calculated in accordance with paragraph 4.3. 10 U.S.C. § 2539b prohibits these fees from exceeding the full amount of all direct and indirect costs incurred by the Department. DoD Working Capital Fund activities must establish stabilized rates and unit prices for goods and services in accordance with Volume 11B.

4.1.3. Internal controls must be established in accordance with 31 U.S.C. § 3512, OMB Circular A-123, GAO-14-704G and DoDI 5010.40. Managers of DoD Components must be able to identify, measure, and assess risks related to mission delivery in establishing, collecting and reporting sales price and fees. The determination as to the effectiveness of internal controls must be justified, documented, and be able to stand up to audit scrutiny in accordance with the DoD May 2018 Financial Statement Audit Guide as amended (DoD Common Access Card enabled access only).

4.1.4. OMB Circular A-25 requires DoD to initiate and adopt user charge schedules. In addition, these schedules must be reviewed biennially to ensure the charges are properly applied and adequately adjusted for changes in costs or market values. Furthermore, the biennial review of user fees must be published and discussed in the annual DoD Agency Financial Report (AFR). The CFO Act of 1990 requires the publication of the DoD annual AFR.

4.1.5. When a [Department](#) laboratory, center, range, or testing facility makes a decision to sell, rent, lend or give samples, drawings, information, or equipment or charge a fee for services that is subject to DoDI 5535.11, then the financial management policy outlined in paragraphs 4.2 through 4.5 regarding calculation, collection, and disposition of proceeds or fees must be followed.

4.2 Calculation of Sales Price (140402)

4.2.1. In general, the sales price of samples, drawings, information, equipment, or materials in accordance with subparagraphs 3.1.1 and 3.1.2 will be calculated or determined prior to or at the time of the sale. When calculating or determining the sales price of such assets, consideration must be given to the following:

4.2.1.1. Fair Value ([defined at paragraph 2.4](#));

4.2.1.2. Historical Cost less Depreciation - Book Value ([defined at paragraph 2.6 and in the FMR “Glossary”](#));

4.2.1.3. Replacement Cost ([defined in the FMR “Glossary”](#));

4.2.1.4. Net Realizable Value ([defined at paragraph 2.11](#));

4.2.1.5. Discounted ([Cash](#)) price ([defined in the FMR “Glossary”](#)). This may be used when selling an asset to a state or local agency;

4.2.1.6. Without charge ([as defined at paragraph 2.17](#)). This action may be considered when reutilizing an asset within DoD, transferring an asset to another Federal agency, or donating an asset to a state or local agency); and

4.2.1.7. The specific mission, goals, and/or objectives of the research and development project associated with a particular asset’s sale.

4.2.2. Additional guidance on the sale (and disposal) of DoD property can be found on the website for the [DLA Disposition Services](#). Moreover, specific guidance regarding property disposal can be found in [DoDM 4160.21-V1](#) and [DLAI 4160.01](#).

4.3 Calculation of Fees (140403)

4.3.1. When DoD services, facilities, or equipment are made available in accordance with subparagraphs 3.1.3 and 3.1.4, an appropriate user fee must be imposed by the DoD [Component](#) providing the service, facility, or equipment [to recoup the total cost incurred](#).

4.3.1.1. In accordance with 10 U.S.C. § 2539b, user fees may not exceed the amount necessary to recoup the direct and indirect costs incurred (i.e., total or full costs) by providing the service, facility, or equipment. However, [DoDI 5535.11](#) allows for the elimination of indirect costs when approved by the director or commander, prior to providing the service or use of facilities and equipment;

4.3.1.2. Costs may include capital improvement costs, utility costs, depreciation, contractor support, salaries of personnel, and all other ancillary support costs. [Reference DoDI 5535.11](#);

4.3.1.3. Specific policy pertaining to the calculation (i.e., identification of specific costs) and reporting of fees for the provision of services, equipment, and facilities pursuant to subparagraphs [3.1.3](#) and [3.1.4](#), can be found in Chapter 4 under the authority of OMB Circular A-25.

4.3.2. When approved by the laboratory directors, facility directors, and/or commanders, prior to providing the service or use of facilities and/or equipment, all or a portion of the indirect costs may be eliminated from the fee. Fees charged for services at less than total costs are permitted only when there is a compelling reason or it is determined to be in the best interest of national defense to do so.

4.3.2.1. [Special consideration](#) as to recovery of less than full costs may be given when:

4.3.2.1.1. The recipient of the benefit is engaged in a nonprofit activity designed for public safety, health, or welfare;

4.3.2.1.2. Payments of full fees by a state, local government, or nonprofit activity would not be in the [Department's](#) best interest; or

4.3.2.1.3. The laboratory directors, facility directors, and/or commanders have determined that the administrative costs of determining and collecting the full fees would outweigh the benefits to the [Component](#).

4.3.2.2. When less than full cost is charged, laboratory directors, facility directors, and commanders must maintain adequate documentation justifying or supporting each decision. Such documentation [must](#) address the criteria in subparagraphs [4.2.1](#) and [4.2.2](#), and be available for audits or inspections and for review by higher authorities.

4.3.3. DoD Working Capital Fund laboratories and facilities must use standard (stabilized) rates to establish fees in accordance with Volume 11B, and DoD [Components](#) designated as [MRTFBs](#) must determine costs and fees in accordance with Chapter 12.

4.4 Collection of Proceeds or Fees (140404)

DoD Components should make every effort to collect proceeds or fees electronically, (e.g., electronic funds transfer), and utilize, as applicable, the collection services provided by the Treasury's Bureau of the Fiscal Service (Fiscal Service) as outlined in the TFM, Volume 1, Part 5, and also Part 2, Chapter 4700, Appendix 5, "Section 3 - Intragovernmental Payment and Collection;" and further described in Volume 5, Chapters 8 and 11. Moreover, support agreements with DoD Components or other Federal Government agencies, contract agreements with private parties or entities that are established in conjunction with sales, rentals, or lending of property identified in subparagraphs 3.1.1 and 3.1.2 and fees received for services identified in subparagraphs 3.1.3 and 3.1.4, should include requirements to use, as applicable, the collection services provided by the Fiscal Service.

4.4.1. In accordance with OMB Circular A-25, user fees must be collected in advance of, or simultaneously with, the rendering of services unless appropriations and authority are provided to allow for reimbursable services;

4.4.2. All fees for services that incur variable costs over time such as personnel or utility costs may be collected incrementally over time.

*4.5 Disposition of Proceeds or Fees Received (140405)

A DoD official or agent must safely keep public money in his/her custody or possession in accordance with 31 U.S.C. § 3302. The code prohibits lending, using public money, depositing the money in a bank, or exchanging it for other amounts. The code requires depositing the money in the Treasury not later than three days upon receipt. The Secretary of the Treasury may prescribe another timeframe requirement. The Secretary of Defense may allow an official or agent to incur expenses to collect, keep, transfer and pay out public money.

4.5.1. Proceeds received from sales or rentals provided in accordance with subparagraphs 3.1.1 and 3.1.2 must be credited to the General Fund of the Treasury as miscellaneous receipts as required by 31 U.S.C. § 3302 and DoDI 5535.11.

4.5.2. Under authority of 10 U.S.C. § 2539b, fees collected for services or when making facilities, equipment and other items available under subparagraphs 3.1.3 and 3.1.4, may be credited to the appropriations or other funds of the Component making such services, facilities, and equipment available.

4.6 Warranties and Liabilities (140406)

All transfers of property or services of whatever nature made pursuant to this policy must be without any express or implied warranty. This means the recipient of the property or services must agree in writing to hold harmless and indemnify the Department from any liability or claim for damages or injury to any person or property arising out of the property or services provided.

4.7 Liability for Loss of or Damage to Property of the [Department](#) (140407)

The written support agreement or contract with an individual, company, corporation, or organization must include a clause stating that the [Department](#) will be reimbursed for any losses or damages arising out of or in conjunction with the use of [DoD](#) property. [Refer to Volume 12, Chapter 7 for guidance on how to assess financial liability.](#)

**VOLUME 11A, CHAPTER 15: “TRAINING OF SPECIAL OPERATIONS FORCES
WITH FRIENDLY FOREIGN FORCES”****SUMMARY OF MAJOR CHANGES**

Changes are identified in this table and also denoted by [blue font](#).

Substantive revisions are denoted by an asterisk (*) symbol preceding the section, paragraph, table, or figure that includes the revision.

Unless otherwise noted, chapters referenced are contained in this volume.

Hyperlinks are denoted by [***bold, italic, blue, and underlined font***](#).

The previous version dated [July 2019](#) is archived.

PARAGRAPH	EXPLANATION OF CHANGE/REVISION	PURPOSE
All	Updated formatting and hyperlinks to comply with current standard operating procedures.	Revision
2.0	Moved types of training expenses out of the authoritative guidance section.	Revision
3.4	Updated paragraph to better align with the Title 10 U.S. Code, Section 381(b) change from quarterly to semi-annual reporting on use of funds for security cooperation programs.	Revision

CHAPTER 15

TRAINING OF SPECIAL OPERATIONS FORCES WITH FRIENDLY FOREIGN FORCES

1.0 OVERVIEW

1.1 Purpose

This chapter provides accounting and reporting procedures to implement provisions of Title 10, United States Code, section 322 ([10 U.S.C. § 322](#)) that are related to the training of special operations forces with friendly foreign forces.

1.2 Authoritative Guidance

10 U.S.C. § 322, authorizes the Commander, United States Special Operations Command and the commander of any other unified or specified combatant command to pay, or authorize payment for, any of the expenses [described in paragraph 2.1](#).

*2.0 PAYMENT OF TRAINING EXPENSES

2.1 Types of Expenses

[2.1.1](#). Expenses of overseas training of U.S. special operations forces, to include civil affairs forces and psychological operations forces, assigned to the combatant commander in conjunction with training, and training with, armed forces and other security forces of a friendly foreign country.

[2.1.2](#). Expenses of deploying such special operations forces, including civil affairs forces and psychological operations forces, for that training.

[2.1.3](#). Incremental expenses incurred, in the case of training in conjunction with a friendly developing country, by that country as the direct result of such training. The term, “incremental expenses,” with respect to a developing country, means the reasonable and proper costs of rations, fuel, training ammunition, transportation (except to and from the continental United States or from one country to another country), and other goods and services consumed by such country, except that the term does not include pay, allowances, and other normal costs of such country’s personnel.

2.2 Purpose of Training

For the authority cited in paragraph [2.1](#) to apply, the primary purpose of the overseas training activities must be the training of special operations forces of the combatant commands. Training of foreign forces may not be the primary purpose.

3.0 POLICY AND PROCEDURES

3.1 Accounting Procedures

Departmental funds expended to facilitate the participation of friendly foreign forces training with U.S. special operations forces must be incurred and reported under the following guidelines:

3.1.1. Funding for training of U.S. personnel may include amounts for training expenses authorized in 10 U.S.C. § 322. The funding source for these proposed payments must be funds made available to the applicable [Department of Defense \(DoD\)](#) Component for these purposes.

3.1.2. Prior to [the](#) commencement of the training, agreement on implementing arrangements should be reached in terms of the types and scope of non-financial support and financial contributions to be provided by the United States to a foreign country or by a foreign country to the United States. In order to protect the interests of the United States, the essential terms of the arrangement should normally be documented in writing and a copy of the document provided to the foreign country. In addition, the arrangement should request that each participating country identify both physical and financial contributions to the training effort and the amount of expenses paid related thereto. Formal foreign agreements, under the provisions of [DoD Instruction 5530.03](#), “International Agreements,” are not required with respect to these implementing arrangements.

3.1.3. If the participating country is unable to identify its expenses in time to meet reporting requirements, then knowledgeable U.S. personnel will estimate that participant’s contributions, and the value of expenses paid in U.S. dollar equivalents at the exchange rate in effect at the time of the training. Estimates of a participating country’s contributions may be calculated using relative factors of comparable costs for similar U.S. training activities.

3.1.4. Arrangements with a friendly developing country may provide for financial or in-kind payment to the developing country by the United States for incremental expenses incurred by that country as a direct result of such training. “Incremental expenses” are defined in subparagraph 2.1.3.

3.1.5. Arrangements with a friendly country also may provide for payment to that country by the United States for the costs of support provided to U.S. personnel by the host country. Expenses that may be paid under the terms of an arrangement with a friendly country for [the](#) support provided to U.S. personnel by that country are limited to those types of expenses included in the definition of incremental expenses described in subparagraph 2.1.3.

3.1.6. For expenses that are to be paid to a friendly country, either incremental costs incurred by a developing country or support provided by a host country to U.S. personnel, the arrangement must stipulate that the host country provides, in advance of payment, appropriate documentation to support the payment. This documentation must include dates, quantities, units, and costs so that the senior U.S. official can determine the reasonableness and propriety of such costs, in U.S. dollar equivalents at current exchange rates, for the various types of authorized expenses incurred.

3.1.7. The following procedures must be followed to substantiate payments for reasonable incremental expenses incurred by a developing country.

3.1.7.1. The senior foreign official participating in the training must certify that the documentation provided to support the claim for payment reflects reasonable and proper expenses incurred during the training.

3.1.7.2. The senior U.S. official participating in the training must include a statement that, in his or her judgment, the documentation reflects reasonable and proper expenses.

3.1.7.3. If the senior U.S. official participating in the training questions the propriety or reasonableness of any expense claimed by the foreign country, resolution of those questions must occur before the payment is made.

3.1.8. The following procedures must be followed to substantiate payments for reasonable expenses to support U.S. personnel.

3.1.8.1. The U.S. official accepting the goods or services on behalf of the United States Government must certify receipt and acceptance for the United States Government. The acceptance must include documentation of the dates, quantities, units, and costs of the various types of support received.

3.1.8.2. The host country must submit a claim for payment that includes documentation of the dates, quantities, units, and costs, in U.S. dollar equivalents at current exchange rates, of the various types of support provided.

3.1.9. The annual report (described in paragraph 3.2) requires a determination of both financial and non-financial contributions to the training effort and the amount of related expenses paid by the participants in such training. Financial and non-financial contributions include all costs that are incurred because of the training. The accounting records from which the contributions are reported must include the separate identification of all the costs incurred, such as:

3.1.9.1. Rations, fuel, and training ammunition.

3.1.9.2. Personnel (including lodging and per diem costs) for other than normal pay and allowances.

3.1.9.3. Costs associated with training areas, firing ranges, storage sites, and other similar items and facilities used during the training. These costs must be attributable directly to such training.

3.1.9.4. All transportation of personnel, equipment and supplies to and from the training area.

3.1.10. The operations and maintenance funds expensed under 10 U.S.C. § 322, are not to be used to supplement other accounts, to circumvent budget ceilings established for other accounts, or to assume the mission of programs funded from other accounts.

3.1.11. 10 U.S.C. § 322 authorizes the Department to program and expend operation and maintenance funds to train U.S. special operations forces, including civil affairs forces and psychological operations forces, with friendly foreign nations. It does not provide authority to conduct any type of training activity that the Department otherwise cannot legally conduct. Any training activity funded under this statutory authority must be conducted in accordance with DoD directives, regulations, and instructions, and all other applicable interagency procedures.

3.2 Annual Report by U.S. Unified Combatant Commands

Funds expended under the authority of 10 U.S.C. § 322 must be reported by the appropriate combatant commands on a fiscal year basis to the Assistant Secretary of Defense (Special Operations/Low Intensity Conflict (ASD(SO/LIC))) to arrive not later than February 1 of each year. Each fiscal year report submitted by the combatant commands must be organized by theater and presented for each country in alphabetical order with each joint combined exchange training (JCET) deployment listed in chronological order. The reporting of classified training activities, if any, must be properly classified and the classification prominently identified. Each report must specify the following:

3.2.1. All countries in which training was conducted.

3.2.2. The type of training conducted in each country for each JCET, including whether such training was related to counter-narcotics or counter-terrorism activities; the date and duration of that training; the number of U.S. military personnel involved; and the total expenses paid by the United States. Total expenses paid by the United States must be the total of (1) amounts paid for deploying and training U.S. special operations forces, including the costs listed in subparagraph 3.1.9; (2) amounts paid to a foreign country for support provided to U.S. personnel, as described in subparagraph 2.1.8; and (3) financial payments to a developing foreign country for incremental expenses, as described in subparagraph 3.1.7.

3.2.3. The extent of participation by foreign military forces, including the number and service affiliation of foreign military personnel involved and the physical and financial contribution of each host nation to the training effort.

3.2.4. The relationship of that training to other overseas training programs conducted by U.S. Armed Forces, such as military exercise programs sponsored by the Joint Chiefs of Staff, military exercise programs sponsored by a U.S. unified combatant command, and military training activities sponsored by a Military Department (including deployments for training, short duration exercises and other similar unit training events).

3.3 Consolidated Budget Display for DoD Security Cooperation Programs

3.3.1. The DASD for Security Cooperation (DASD(SC)), must receive from ASD(SO/LIC) by August 1 each year budget request data for activities to be conducted in the subsequent fiscal year, including the specific country or region pursuant to 10 U.S.C. § 322 for the purpose of developing a Consolidated Budget Display in accordance with 10 U.S.C. § 381(a).

3.3.2. The [Under Secretary of Defense \(Policy\) \(USD\(P\)\)](#) must submit a consolidated budget for all security programs and activities of the Department of Defense each year, consistent with the submission of the President's annual budget request.

***3.4 [Semiannual Report on Use of Funds](#) for DoD Security Cooperation Programs**

3.4.1. The Combatant Commands must transmit to the Director, Defense Security Cooperation Agency ([DSCA](#)), no later than 15 days after the end of each calendar quarter, the cumulative total of all obligations and expenditures related to 10 U.S.C. § 322.

3.4.2. The Director, DSCA must transmit to the [appropriate subcommittees of Congress](#) a report on the obligation and expenditure of funds for security cooperation programs and activities of the [DoD](#) in accordance with 10 U.S.C. § 381(b), [by not later than August 31 for the first six-month period of that year; and February 28 of each year for the second six-month period of the previous year.](#)

3.5 Annual Report by the Secretary of Defense

3.5.1. The ASD(SO/LIC) must receive reports from the commander of the special operations command, and the commander of any other unified or specified combatant command, as described in this chapter, and compile those reports into a single document and forward it to the USD(P).

3.5.2. The USD(P) must, not later than April 1 of each year, submit on behalf of the Secretary of Defense the required annual report to the Armed Services and Foreign Relations Committees of the Senate and the National Security and Foreign Affairs Committees of the House of Representatives.

3.5.3. The annual report must cover training during the preceding fiscal year for which expenses were paid under 10 U.S.C. § 322.

VOLUME 11A, CHAPTER 16: “ACCOUNTING FOR PRODUCTION AND SALE OF FOREST PRODUCTS”**SUMMARY OF MAJOR CHANGES**

Changes are identified in this table and denoted by **blue font**.

Substantive revisions are denoted by an asterisk (*) symbol preceding the section, paragraph, table, or figure that includes the revision.

Unless otherwise noted, chapters referenced are contained in this volume.

Hyperlinks are denoted by **bold, italic, blue, and underlined font**.

The previous version dated **August 2002** is archived.

CHAPTER 16

ACCOUNTING FOR PRODUCTION AND SALE OF FOREST PRODUCTS

1.0 GENERAL

1.1 Purpose

This chapter establishes the policy and procedures to account for the production and sale of forest products (see [Table 16-1](#)). This chapter also assigns responsibility for Department of Defense (DoD) reimbursement and for the entitlement of a state to a share in the net proceeds (see [Table 16-1](#)) derived from forest products sold from military installations or facilities.

*1.2 Authoritative Guidance

The accounting policy and related requirements prescribed by this chapter are in accordance with the applicable provisions of:

1.2.1. [Title 10, United States Code \(U.S.C.\), section 2665](#), “Sale of certain interests in land; logs”;

1.2.2. Department of the Treasury,
[Federal Account Symbols and Titles: “The FAST Book”](#); and

1.2.3. [DoD Instruction \(DoDI\) 4715.03](#), “Natural Resources Management”.

*2.0 DEFINITIONS

For purposes of this chapter, the definitions are as follows:

2.0.1. [Forest Products](#). All plant materials in forested and wooded areas that have commercial value. Materials include, but are not limit to, sawlogs, timber, veneer logs, poles, piles, posts, pulpwood, pine straw, stump wood, bark, and other mulch, cones, seeds, mistletoe, firewood, Christmas trees, and wood chips.

2.0.2. [Net Proceeds](#). The amount [the United States](#) received during a fiscal year (FY) as proceeds from the sale of forest products produced on a military installation or facility, minus the amount reimbursed to the [DoD](#), under 10 U.S.C. § 2665, for program costs incurred by that installation or facility. Program costs include obligations for current operating expenses and for the purchase of capital equipment required to operate the program.

2.0.3. [Reserve Funds](#). A reserve account authorized under 10 U.S.C. § 2665 and administered by the [DoD](#). (The standard general ledger accounts used to report DoD entries are provided in the Transaction Library and Standard Reporting Chart of Accounts available on the Office of the Deputy Chief Financial Officer [SFIS](#) web page.) The amount is held in the U.S.

Treasury Special Fund Account 21*5285, Reserve Account, [DoD](#), Forest Products Program, Army (Replace * with fiscal year designation).

2.0.4. Surplus Funds. The amount expected to be available during the year within the DoD after providing for the reimbursements. These funds represent the amounts to be transferred to the DoD Forestry Reserve Account.

3.0 APPLICABILITY AND SCOPE

The policies and procedures established by this chapter:

3.0.1. Apply to the Office of the Secretary of Defense (OSD) and to the Military Departments (MilDeps, including their Reserve Components). The term “Military Services,” as used herein, refers to the Army, Navy, Air Force, and Marine Corps.

3.0.2. Cover forest products production and sales programs on military installations or facilities in the United States.

3.0.3. Do not apply to forestry activities within the civil programs of the U.S. Army Corps of Engineers ([USACE](#)) or to the state-owned National Guard installations.

3.1 Policy and Procedures

3.1.1. DoD appropriations that incur obligations to fund the production and sale of forest products must be reimbursed from collections made [because of](#) the sale of those products.

3.1.2. Remaining collections are disposed of, as follows:

3.1.2.1. Distribute forty (40) percent of installation net proceeds to the state that includes the military installation or facility from which forest products were sold during a fiscal year. If the installation or facility is in more than one state, each state shares the proceeds proportional to the installation or facility [area](#) in each state. (See paragraphs 2.0.2 and 3.6)

3.1.2.2. Disburse to each state [and transfer](#) any remaining amount to the reserve account. (See paragraph [3.2.](#)) [If](#) collections from the sale of forest products are inadequate, production and sale [obligations](#) may be financed either from the appropriation accounts or from transfers from the reserve account when other sources of funds are not available in a timely manner. If a disbursement to a state is rejected or [cannot](#) occur then the transfer will be deposited into the Reserve account.

3.2 DoD Forestry Reserve Account (DoD FRA)

A DoD reserve account [must](#) be established. [This](#) account may be used for:

3.2.1. Improvements of forest lands;

3.2.2. Unanticipated contingencies in the administration of forest lands and the production of forest products for which other sources of funds are not available in a timely manner; and

3.2.3. Natural resource management that implements approved plans and agreements.

3.2.4. The balance **must** not exceed \$4 million on December 31 of any calendar year. Unobligated balances exceeding \$4 million on that date **are** deposited in the U.S. Treasury General Fund Miscellaneous Receipts Account. (See paragraph 3.4.2.)

3.3 Operating Procedures for Program Obligations

3.3.1. Program obligations **must** be related directly to the economic production and sale of forest products in the following functions:

3.3.1.1. Forest Improvement. Obligations incurred to improve an existing timber stand or forest, whether it is planted, seeded, or natural, to include thinning, pruning, and controlling undesirable vegetative growth.

3.3.1.2. Reforestation. Obligations incurred for natural or artificial regeneration include planting, purchasing seeds or seedlings, preparing sites, and controlling insects, diseases, vegetation, and animals.

3.3.1.3. Forest Protection. Obligations incurred to protect a forest capable of economic production of forest products from damage by fire, insects, diseases, animals, floods, and erosion.

3.3.1.4. Forest Access Roads. Obligations incurred for construction, reconstruction, repair and maintenance of forest access roads and trails, and for repair of other roads **because of** forest production and harvest operations.

3.3.1.5. Sales. Obligations incurred to facilitate **forest product** sales and preparation for sales, including appraising, cruising, marking, scaling, advertising, and escorting prospective bidders, as well as preparing, administering, and enforcing compliance with sales contracts.

3.3.1.6. Management. Obligations incurred to manage the functions listed in subparagraphs 3.3.1.1 through 3.3.1.5, including supervising, planning, programming, conducting field surveys and inventories, training, and attending professional meetings.

3.3.1.7. Forestry Equipment. Obligations incurred to purchase vehicles, minor equipment, and heavy equipment used exclusively in forest management (purchased, as appropriate, by O&M or procurement appropriations under reimbursable program authority).

3.3.2. To the extent that an installation receives applicable program support from a function or activity **above** the installation level, costs **must** be prorated based on the level of effort among all applicable military installations or facilities in the program.

3.3.3. Program obligations do not include amounts incurred for operations that, while related to the land and forest, are for other purposes such as the military mission, recreation, general area improvement, wildlife management, and beautification. Do not include amounts for the protection of forests that are incapable of economic production of timber products. Program obligations at all organizational levels **must** be categorized according to the functions listed in subparagraphs 3.3.1.1 through 3.3.1.7.

3.3.4. Reimbursable program obligations under 10 U.S.C. § 2665(d) include all program costs except those cited in subparagraph 3.3.3. Acquisition of equipment **is** justified on an economic basis. When general equipment is used in forestry program operations, obligations incurred by DoD appropriations for that use **are** included as program costs.

***3.4 Accounting and Reimbursements**

3.4.1. Proceeds collected from forestry sales **must** be turned over to the supporting DoD disbursing officer. The MilDeps **must** use the Treasury Appropriation Fund Symbols (TAFS) identified in Table 16-1 to ensure proper accounting and reporting of proceeds from the sales of DoD forestry products. 10 U.S.C. § 2665 provides complete guidance for collections and disbursements related to the Forestry Products Program. Annually, MilDeps **must** forecast and communicate requirements to their respective Forestry Program Manager and Budget Officer to facilitate the accurate apportionment of Forestry Program funding.

3.4.2. The Department of the Army is the only MilDep authorized to use special fund account 21*5285, "Forestry Reserve Account" (FRA), for its annual Forestry Products Program. The Army manages, on behalf of the Office of the Secretary of Defense, the FRA separately from its annual apportionment and ensures the FRA balance within 21*5285 does not exceed the \$4 million unobligated balance threshold by December 31 of each calendar year. The Department of the Navy and Department of the Air Force collect and execute (obligate and disburse) the Forestry Products Program proceeds using their General Fund (GF) and Operation and Maintenance (O&M) accounts. That portion of the proceeds used to finance reimbursable expenses **must** be transferred to the funding O&M or procurement appropriation in accordance with annual budget guidance. Table 16-1 illustrates the applicable TAFS.

3.4.3. The MilDeps **must** validate the accuracy and completeness of their Forestry account transactions, maintain auditability of their Forestry account transactions, and transfer all residual funding to the DoD FRA by the first week of December of each calendar year. The MilDeps **must** obligate and disburse Forestry Program proceeds only for purposes specifically authorized in 10 U.S.C. § 2665.

3.4.4. All MilDeps are prohibited from using the Budget Clearing Account (suspense) F3875 to record and report forestry product proceeds. Each MilDep received instructions to develop standard operating procedures documenting their process to ensure all future collections and disbursements in the program are in accordance with this policy.

3.5 Compute Entitlements

3.5.1. Compute entitlements to each state in accordance with 10 U.S.C. § 2665(e). Determine these entitlements based on a separate calculation for each military installation or facility from which forest products were sold in that fiscal year.

3.5.2. Maintain records for each military installation or facility concerned to effect sales proceeds and reimbursable program obligations by fiscal year. If a military installation or facility is located in more than one state, make [payments proportional to the area of the installation or facility situated in](#) each state. If an installation or facility is in more than one county within a state, a description of the areas (acres) of the installation or facility situated in each county may accompany that state's entitlement.

3.5.3. Disburse states' entitlements within 90 days after the end of the fiscal year. [Pay](#) by electronic funds transfer.

3.6 Distribute Net Proceeds

As directed by the USD (Acquisition and Sustainment) ([A&S](#)) or designee, in coordination with the Office of the Under Secretary of Defense (Comptroller) (OUSD(C)), distribute net proceeds among the MilDeps to meet the overall funding requirements of the DoD forestry program.

3.7 Coordinating and Reporting Requirements

Figure 16-2 contains USD([A&S](#)) coordinating and reporting requirements. The Forest Products Sales Program report has been assigned Report Control Symbol DD-A&T(Q&A)1649. See subparagraph [4.2.1](#), and Figures [16-2](#), [16-3](#), and [16-4](#).

4.0 RESPONSIBILITIES

4.1 The USD([A&S](#)) or Designee [must](#):

4.1.1. Issue and monitor policy on forest management of DoD lands in accordance with DoDI 4715.03, "Natural Resources Management."

4.1.2. Advise the MilDeps of potential downward adjustments in funding for the program during the year if timely receipt of anticipated proceeds becomes doubtful.

4.2 The Secretaries of the MilDeps [must](#):

4.2.1. Prepare annual forestry program budgets for the coming fiscal year that include anticipated sales revenue, program obligations, states' entitlements, unfinanced requirements, and transfers. See Figure 16-1, "Coordination and Reporting Requirements" for due date and other reporting information.

4.2.2. Ensure that all proposed obligations are related directly to the economical production and sale of forest products, consistent with DoDI 4715.03.

4.2.3. Ensure that no unplanned program obligations are incurred simply to “use up” proceeds.

4.2.4. Adjust the program downward during the year by reducing planned obligations if actual proceeds do not materialize at anticipated levels and sufficient funding cannot be obtained from the reserve account.

4.2.5. Ensure that all program obligations are accumulated in DoD appropriation accounts and that reimbursements and distributions to states and the use of funds from the DoD Reserve Account conform to paragraph 3.2.

4.2.6. Comply with requirements stated in paragraph 3.5.

4.2.7. Coordinate approved budgets with the USD(A&S) or designee to assist in planning and trade-off analysis and to ensure the effective and efficient functioning of the overall DoD program.

4.2.8. Review the cumulative total obligations incurred, estimated program obligations, cumulative revenue, and realistic estimates of future revenue to determine whether DoD forests remain capable of economic production.

4.2.9. Identify to the DoD Supporting Agent (SA) (see subparagraph 4.3.1) the official who is authorized to transfer surplus funds (see Figure 16-1) and accept reserve funds.

4.3 The Secretary of the Army must:

4.3.1. Act as DoD SA to monitor and coordinate financial management of the DoD forest products program.

4.3.2. Coordinate the transfers of surplus and reserve funds.

4.3.3. Maintain the DoD Forestry Reserve Account (21*5285) and make transfers in accordance with the instructions from the USD(A&S) or designee (Replace * with fiscal year designation).

Table 16-1 Treasury Appropriation Fund Symbols (TAFS) For The DoD Forestry Products Program

Operation and Maintenance is shown in the following table as an example.

Component	Account No.	Account Name
Army Program Deposits and Execution		Reserve Account, DoD Forestry Products Program, Army
Collections, Army	21 R 5285	Limit 0021**
Expenditure, Army	21 * 5285	
All Services Deposit End of Year Excess Forestry Net Proceeds		DoD Forestry Products Program, Army
DoD FRA	21 * 5285	Limit 0097^
Program Deposits and Execution		Operation & Maintenance
Navy	17 CY/CY 1804	Navy**
Air Force	57 CY/CY 3400/3410	Air Force**
Marine Corps	17 CY/CY 1106	Marine Corps**

^ Limits are reported internally within DoD only; limits must be consolidated before reporting externally

** USACE will deposit Forest Product Collections directly into the financial accounting system requested by the military service.

Figure 16-1 Coordination And Reporting Requirements
Annual Coordination of DoD Forest Products Program

1. Purpose. To coordinate forestry obligations and revenues of the MilDeps to ensure that overall DoD revenue is sufficient to reimburse all authorized obligations for the production and sale of forest products.
2. Authority. 10 U.S.C. § 2665
3. Schedule
 - a. December 15. Each MilDep disburses funds to the various states. [Accompany](#) each disbursement, identifying the generating installation(s), and amount generated by each installation.
 - b. December 30. [Each MilDep](#) deposits residual forestry funding into the DoD Forestry Reserve Account (21*5285) (Replace * with fiscal year designation).
 - c. January 2. Each MilDep transmits the “Actual Revenue and Obligations Report” to the Executive Agent (EA) and the OUSD(A&S). See Figure 16-2.
 - d. February 15. Each MilDep transmits to the EA and the [OUSD\(A&S\)](#) a report of cumulative program revenue and obligations through December 31 of the current fiscal year and any planned changes. See Figure 16-3.
 - e. May 15. Each MilDep transmits to the EA and the [OUSD\(A&S\)](#) a report of cumulative program revenue and obligations through March 31 of the current fiscal year and any planned changes. See Figure 16-3.
 - f. August 15. Each MilDep transmits to the EA and the [OUSD\(A&S\)](#) a report of cumulative revenue and obligations through June 30 of the current fiscal year and any planned changes. See Figure 16-3.
 - g. September 1. Each MilDep transmits to the EA and the [OUSD\(A&S\)](#) its planned forest products revenue and expenses, by appropriation, for the coming fiscal year. See Figure 16-4. This plan [must](#) reflect no deficit in the program; however, a description of unfinanced needs may accompany the plan.

A. The Reimbursable Forestry Program

1. General. This chapter and annex prescribe the policies and procedures for budgeting, accounting, and reporting of proceeds and obligations associated with the production and sale of forest products at Army installations or facilities (see Title 10, United States Code (U.S.C.), section 2665). Determine eligibility for participation in this program using the provisions of Army Regulation (AR) 200-1: “Environmental Protection and Enhancement”. The objectives of the Army’s reimbursable forestry products program are to support mission operations, support conservation compliance, and execute natural resources stewardship.

2. Responsibilities. Headquarters, Department of the Army (HQDA), Army Staff (ARSTAF) (Office of the Deputy Chief of Staff, G-9 (DCS, G-9), major Army commands (MACOMs), and Army installations, execute the Army’s reimbursable forestry program. The HQDA, DCS, G-9 is the program office and manager for coordination with major Army commands (MACOMs), US Army Corps of Engineers (USACE), and Army installations, to monitor all proceeds received and establish targets for reimbursable authority.

3. Budgeting. Include authority to execute reimbursable work on the Funding Authorization Document (FAD). Authorized funded or reimbursable main account authority may be used for operation and maintenance, minor construction, purchase of forestry equipment, and other obligations directly related to the reimbursable forestry program. The Army, DCS, G-9 office must annually determine targets for the MACOMs’ Forest products reimbursable authority based on the anticipated proceeds, obligations, and states’ entitlements. Issue these targets to the MACOMs separately.

4. Proceeds. Deposit proceeds from the sale of forest products into the Forestry Reserve Account, 21R5285.0021. Report proceeds on the Accelerated Reporting of Receipt and Outlay (Expenditure) Data-Statement of Accountability Report (RCS CSCFA-302A). This includes proceeds from forest products disposed of by the Defense Logistics Agency. Forest products include all plant materials in current and previously forested and wooded areas that have commercial value. The products can be dead and down or designated standing timber. When forest products are removed from Army lands by any means other than a commercial sale (for example, generating energy on the installation), a dollar amount equal to the fair market value must be deposited in the Army Forestry Account by the proponent of the activity removing the forest products. The only exception is that forest products may be removed or used directly to assist the military mission without payment. Deposit advances from contractors as unearned revenue in the same account as the unfilled orders to which the advance applies. Monthly, each activity’s accounting office must transfer the current month earnings from the unearned revenue to the deposit fund account.

5. Expenses. Program expenses incurred by Army installations or facilities and the USACE District Engineer Offices must be related directly to the integrated management, production and sale of forest products, and associated program management costs for personnel at

all levels (i.e., installation, MACOM, district, division, field operating activity (FOA), ARSTAF and auxiliary staff) whose primary duties are to administer the forestry reimbursable program. Program expenses **must** be categorized according to the following functions:

a. Forestry Equipment. Include purchase, over the Capital Expense/Investment Limit (currently \$350,000) only, of forestry equipment (for example, vehicles, or heavy equipment) used exclusively in reimbursable forest management.

b. Forest Fire Protection. Include the protection of forests on land in forestry reimbursable programs. Include equipment costing less than the Capital Expense/Investment Limit.

c. Forest Management. Include reimbursable forest management functions. Include supervision, planning, programming, and conducting field surveys and inventories, training, and attending professional meetings. Include improvements of existing forest stands, whether they are planted, seeded, or natural, including natural resources projects in direct support of the reimbursable forestry program. This includes controlling undesirable vegetative growth, prescribed burning, precommercial thinning, and pruning. Include the protection of reimbursable forests from insect, disease, animal, flood, and erosion damage. Include the sale and preparation for sale of forest products. Include appraising, cruising, marking, scaling, preparing sales contracts, escorting prospective bidders, advertising, sales administration, and contract compliance inspections. Include equipment costing less than the Capital Expense/Investment Limit.

d. Forest Access Roads. Include construction, repair, and maintenance of forest access roads and trails. Include the repair of other roads resulting from the production and harvest operations. Include equipment costing less than the Capital Expense/Investment Limit.

e. Reforestation. Include natural or artificial regeneration, including planting, purchasing of seeds or seedlings, and preparing sites. Include equipment costing less than the Capital Expense/Investment Limit.

f. Forestry Support. Include Phase I archaeological surveys, threatened and endangered species surveys, and military mission coordination efforts driven only by forestry activities (for example, planting and harvesting).

6. Reporting and Review

a. Report proceeds on the RCS CSCFA-302 report. (“Report obligations incurred as automatic reimbursable obligations on the RCS CSCFA-218 (Status of Approved Resources Report”). Report obligations incurred for items of equipment purchased with procurement appropriation funds on the RCS CSCFA-112 (“Status of Reimbursements Report”). See Volumes 6A and 6B of this Regulation for reporting instructions.

b. Report reimbursements earned on the RCS CSCFA-112 report as “Transferred for Collection” in the “Reimbursement Collected-Automatic” column. Identify the amounts transferred by detail reimbursement source code. Identify the reimbursement amount

“Transferred for Collection” as a separate footnote on the RCS CSCFA-112 report. Report reimbursements for items of equipment financed with procurement funds on the RCS CSCFA-112 report. Bill and collect according to procedures outlined in [Volume 5, Chapter 8](#) for collections and Volumes 6A and 6B for reporting instructions.

c. HQDA, MACOMs, installations, district engineering offices, Defense Finance and Accounting Service (DFAS) sites, and Field Accounting Offices (FAOs) submit quarterly analyses of actual proceeds and obligations to become part of the RCS CSCFA-218 report. The U.S. Army Corps of Engineers (USACE) districts **must** report proceeds and obligations separated by [the](#) installation to the DFAS-Indianapolis (DFAS-IN) [Accounts Maintenance & Control for Army/Air Force](#).

d. The Army, DCS, G-9 office provides a quarterly Consolidated Analysis of the Department of the Army (DA) Forest Products, based on installation and USACE Districts input, within 30 days after the end of each quarter. The [Army DCS, G-9](#), the MACOMs, and USACE jointly review the Army’s commercial forestry program using this report. The Army DCS, G-9 **must** maintain a [10-year](#) historical data record of annual proceeds and obligations.

e. Within 90 days after the conclusion of each fiscal year, the Army, DCS, G-9 computes the concluding fiscal year’s unfilled forestry orders (transferring excess to or removing required funds from that fiscal year’s authorized Funded or Reimbursable Main Account) and provides 40 percent of the net proceeds per Army installation to the appropriate states and deposits the remaining net proceeds into the DoD Forestry Reserve Account (21R5285, DFAS-IN Manual 37-100-*). Before issuing states’ entitlements, the DFAS-IN **must** confirm figures with the [Army DCS, G-9](#). States’ entitlements and transfers to 21R5285 **must** not be made until monies are set aside, if necessary, to cover unfilled forestry orders.

f. State entitlements **must** be issued to state treasurers or designated state offices with sufficient explanation to include [the](#) reason for the issuance, itemization by installations and counties, and the DFAS point of contact (POC) phone number(s).

g. USACE determines and updates, as required, the total acreage by county and state for all Army installations or facilities participating in the DoD Forestry Products Program. USACE provides this data to the [Army, DCS, G-9](#). The Army DCS, G-9 updates its files for determining states’ entitlements. Acreage by county is the total acreage of the installation or facility, not just the acreage applicable to the forest products program.

B. The DoD Forestry Reserve Account

1. General. The DoD Forestry Reserve Account (21*5285) is sustained with receipts from each of the Services’ Forestry Program accounts.

2. Responsibilities. The Army is the assigned DoD executive agent for this account. Balances in this account **must** be used in accordance with paragraph [3.2](#) of this chapter.

3. Project Approval Process. The project approval, funding, and accounting processes for forestry reserve account projects at Army installations or facilities follow:

a. Annually, the **Army, DCS, G-9 office must** request the MACOMs, based on installation input, to submit proposed projects. The MACOMs **must** consolidate and rank the proposals and provide them to the **Army, DCS, G-9**. In coordination with other concerned ARSTAF offices and the Office of the Deputy Assistant Secretary of the Army, Environment, Safety and Occupational Health (ODASA-ESOH), the **Army, DCS, G-9 office** will rank the proposals and submit them to the ODASA-ESOH for consideration. The Army, DCS, G-9 or DASA-ESOH forwards **the** Army's official submittal to the **DoD** for funding.

b. The **Army, DCS, G-9 office must** transfer the total approved Army projects from 21*5285 when the Office of the Assistant Secretary of Defense, Energy Installation and Environment approval memorandum and appropriate accounting classification are received from MACOMs.

c. Any remaining funds, after completion of the project, **must** be returned to the Army DCS, G-9. **The performing activity must not** incur **more** expenses **than** the approved amount.

4. Fund Transfers from 21*5285. The **Army, DCS, G-9 office** transfers funds for approved Army projects from this account to the installations.

a. **Army DCS, G-9 transfers** funds for approved projects at other DoD agencies via an Intra-governmental Payment and Collection (IPAC) transaction.

b. Collection and disbursement of funds from this account are limited to the **Army DCS, G-9**.

5. Calendar Year End

a. The Army DCS, G-9 office will notify DFAS, and they **must** deposit unobligated balances exceeding \$4 million on December 31 to a U.S. Treasury General Fund Miscellaneous Receipts Account in accordance with subparagraph 3.2 of this chapter.

b. Deposits to the account of proceeds from the preceding fiscal year **must** not be made until after January 1 to allow sufficient time to manage new deposits efficiently.

c. The Army DCS, G-9 office **must** report the activity and balance of this account within 30 days after the end of each quarter.

C. Equipment Purchases

1. General. Equipment purchased **must** be for commercial forest management use when purchased with Forestry funded or reimbursable authority and for natural resources uses when purchased with DoD Forestry Reserve Account or Agricultural/Grazing funded or

reimbursable authority. (See Volume 4, Chapter 25.) Coordinate equipment purchases with the organization's equipment manager or equivalent.

2. Equipment Acquisition Process. Each purchase of equipment **must** begin with an internal review of contract/buy/lease options, funding availability, and the potential for use of multipurpose equipment. The reimbursable authority is intended only to supplement routine procurement sources. Programmed equipment authority, such as Other Procurement, Army (OPA), **must** be used for equipment. If the internal review justifies the need to purchase new equipment, then the general procedures outlined **must** be utilized.

a. The installation **must ensure** authority exists in the Table of Distribution and Allowances (TDA) or Common Table of Allowance (CTA).

b. The installation **must** determine whether the equipment to be purchased is centrally managed by the Tank-automotive and Armaments Command (TACOM). The installation Property Book Officer (PBO) can make this determination by checking the equipment Line-Item Number (LIN) against the Supply Bulletin 700-20. If the equipment is not centrally managed and is less than the Capital Expenditure Limit, then the equipment may be purchased locally or through the GSA schedule.

c. If the equipment is centrally managed, then the TACOM **must** conduct the purchase unless a waiver for local procurement is granted.

d. If the estimated cost of the equipment is greater than the capital expenditure limit, centrally managed or not, do not use OMA (Agricultural/Grazing, Forestry, or Forestry Reserve Account). The TACOM **must** use equipment purchase authority, reimbursing OPA. The purchase may be finalized at the TACOM, or the authority may be returned to the installation for a local procurement with a local procurement waiver.

VOLUME 11A, CHAPTER 17: “OFFSETTING RECEIPTS”**SUMMARY OF MAJOR CHANGES**

Changes are identified in this table and also denoted by [blue font](#).

Substantive revisions are denoted by an * symbol preceding the section, paragraph, table, or figure that includes the revision.

CHAPTER 17

OFFSETTING RECEIPTS

1.0 GENERAL

1.1 Purpose

This chapter prescribes standard procedures for accounting and reporting offsetting receipts throughout the Department of Defense (DoD).

*1.2 Authoritative Guidance

The accounting policy and related requirements prescribed by this chapter are in accordance with the applicable provisions of:

1.2.1. Title 31, United States Code, section 3512, (31 U.S.C. § 3512) “Executive agency accounting and other financial management reports and plans;”

1.2.2. 31 U.S.C. § 3302. “Custodians of money;”

1.2.3. Office of Management and Budget (OMB) Circular No. A-11; and

1.2.4. Federal Account Symbols and Titles (FAST) Book.

2.0 DEFINITIONS

2.1 Offsetting Receipts

2.1.1. Offsetting receipts are collections within the DoD that result from proprietary or business-like transactions (such as rents, sales of services and products, patent fees, and sale of property) and from Intragovernmental transactions such as deposits between Federal and trust funds or payments within the same fund group.

2.1.2. Offsetting receipts are recorded as offsets to gross outlays and may be distributed or undistributed. Distributed offsetting receipts offset outlays of DoD as the agency that conducts the activity generating the receipts. Undistributed offsetting receipts offset government-wide outlays.

* 2.1.3. **Distributed** Offsetting receipts are **collections** credited to general fund, special fund, or trust fund receipt accounts that offset gross outlays of an agency, typically the agency that conducts the activity generating the receipts. Offsetting receipts are composed of proprietary receipts from the public, receipts from intragovernmental transactions, and offsetting governmental receipts. This line item on the Statement of Budgetary Resources (SBR) must include all distributed offsetting receipts for the agency and deducted from gross outlays to yield net agency outlays. Standard receipt accounts are prescribed by the Department of the Treasury in its FAST Book. Offsetting receipts are deposited with the Department of the Treasury **Financial**

Management Service (FMS) using receipt accounts symbols and reported monthly on the FMS Form 1219/1220, “Statement of Transactions According to Appropriations, Funds and Receipt Accounts” as prescribed in Volume 6A Chapter 3.

2.1.4. Offsetting receipts are deducted from budget authority and outlays at agency (Component) levels. Actual offsetting receipts are reported on the SBR and in budget submissions by DoD Components as described in Volume 6B Chapter 7.

2.1.5. Receipts collected by DoD Components must be classified according to (1) the source of the receipt, (2) the authority for the collection and the nature of the transaction, and (3) whether the receipt offsets agency (Component) or government-wide totals. Receipts also are classified into fund groups in accordance with the Treasury FAST Book (i.e., general funds (0100-3305); clearing accounts (3800-3899); special funds (5000-5999); and trust funds (8000-8999)). In this section of the FAST Book, distributed offsetting receipts, as described in the OMB Circular No. A-136 “Financial Reporting Requirements” are identified with the check √ symbol before the account title.

* 2.1.6. Most offsetting receipts are offset (deducted) against the function that contains the outlays that give rise to the receipts, i.e., the function of the account collecting the money. In such cases, these offsetting receipts at the agency and sub-functional level will be deducted before reaching functional budget authority or outlay totals and are referred to as “*distributed*” to the functions. However, there are several categories of offsetting receipts that cannot be offset properly against any specific function. These collections are deducted from government-wide totals and are referred to as “*undistributed offsetting receipts*.” Such receipts are either intrabudgetary (a payment from one Federal agency to another, such as agency payments to the retirement trust funds) or proprietary (a payment from the public for some type of business transaction with the government). The SBR does not include undistributed offsetting receipts credited to governmentwide outlay totals. There are four (4) types of receipts that are deducted from budget totals as undistributed offsetting receipts:

2.1.6.1. Agency payments (including payments by off-budget Federal entities) as employers into employees’ retirement funds;

2.1.6.2. Interest received by trust funds;

2.1.6.3. Rents and royalties on the Outer Continental Shelf lands; and

2.1.6.4. Other interest such as that collected on Outer Continental Shelf money in deposit funds when such money is transferred into the budget.

3.0 GENERAL STANDARDS

3.1 Contents

3.1.1. Contents of this chapter must be used in addition to the accounting principles, standards, and procedures established in the chapters that follow.

3.1.2. Volume 4 - Accounting Policy and Procedures

3.1.2.1. Chapter 2 “Accounting for Cash and Fund Balance with Treasury”

3.1.2.2. Chapter 16 “Revenues and Other Financial Sources, Expense, Gains and Losses”

3.1.2.3. Chapter 19 “Managerial Cost Accounting”

3.1.3. Volume 6A – Reporting Policy and Procedures: Chapter 4 “Appropriation and Fund Status Reports”

3.1.4. Volume 12 – Special Accounts Policy and Procedures: Chapter 1 “Funds”

3.2 Budgeting Standards

3.2.1. Budgeting standards for offsetting receipts are prescribed by the OMB Circular No. A-11, Preparation, Submission, and Execution of the Budget.

Budget Classification of Offsetting Receipts

(Receipt type codes in bold face)

* Normally offsets budget authority and outlays at the agency level.

3.2.2. Preparation of budget justification requirements is also prescribed in Volume 2B Chapter 11, “Budget Formulation and Presentation.” OMB adopted a single format to present information in the SF 132, SF 133 and Schedule P. The realignment employs three common data

sections—Budgetary Resources; Change in Obligated Balance; and Budget Authority and Outlays, Net. The SF-133, Schedule P, and SBR will use all three of the sections, and the SF-132 will use the common Budgetary Resources.

4.0 ACCOUNTING AND REPORTING STANDARDS FOR OFFSETTING RECEIPTS

4.1 Offsetting Receipts

4.1.1. Offsetting receipts within the Department are collections from the public that result from business-like transactions such as sales of property, rental fees, or sales of services. These miscellaneous proprietary receipts are recorded using receipt account symbols prescribed by the Treasury FAST Book. [The Transaction Library and Standard Reporting Chart of Accounts are available on the Office of the Deputy Chief Financial Officer Standard Financial Information Structure \(SFIS\) web page.](#) The web page also provides the DoD U.S. Standard General Ledger (USSGL) proprietary accounting entries and transaction illustrations. Offsetting receipt account symbols normally used within the Department are:

4.1.2. Account 1435. General fund proprietary interest not otherwise classified. This account must only use Defense civil functions. Account 1435 must not use Defense military functions. Deposits of interest on loans, investments, and other equities must be deposited in account 3210 to ensure that the Department receives credit for the offsetting receipt.

4.1.3. Account 1840. Proprietary receipts for rent of equipment and other personal property. This account must be used exclusively by the Military Departments. Defense Agencies must deposit rent receipts into Account 3210.

4.1.4. Account 2462. Proprietary receipts for survivor annuity benefits. This account must be used exclusively by the Military Departments. Defense Agencies must deposit receipts into Account 3210.

4.1.5. Account 2641. Proprietary receipts for the sale of ordinance material within the Department. All DoD Components may use this account.

4.1.6. Account 2651. Proprietary receipts for the sale of scrap and salvage materials within the Department. All DoD Components may use this account, but the Military Services must cite 97 2651.

4.1.7. Account 3019. Proprietary receipts for recoveries for government property lost or damaged, not otherwise classified. This account must be used exclusively by the Military Departments. Defense Agencies must deposit such recoveries into Account 3210.

4.1.8. Account 3041. Proprietary receipts for recoveries under the Foreign Military Sales Program. This account must be used by all DoD Components. Receipts in this account must sub-categorize and report to the Office of the Under Secretary of Defense, Comptroller (OUSD(C)) on the SF-133, in accordance with the guidance contained in Volume 6A Chapter 4. The sub-categories are:

4.1.8.1. Nonrecurring Research, Development, Test and Evaluation (RDT&E) and production costs.

4.1.8.2. Sale of principal and/or major items from stock that do not require replacement.

4.1.8.3. Sale of excess stock fund and procurement of secondary items from stock.

4.1.8.4. Charges for unfunded civilian retirement costs.

4.1.9. Account 3210. General fund proprietary receipts not otherwise classified. The Military Departments must use this account for proprietary receipts not otherwise classified (as cited above). Defense Agencies must use this account for proprietary receipts not allowed to be reported as indicated in subparagraphs 5.1.1 through 5.1.7. Receipts in this account must be maintained and reported for budget purposes in sub-categories as follows:

4.1.9.1. Freedom of Information Act charges.

4.1.9.2. Sales of surplus real property (excluding Account 2621).

4.1.9.3. Sales of materials, equipment, and other personal property (excluding Account 2641).

4.1.9.4. Interest on loans.

4.1.9.5. Repayment of loans.

4.1.9.6. Royalties on patents, trademarks, and copyrights.

4.1.9.7. Rent of real property.

4.1.9.8. Rent of equipment and other personal property (excluding Account 1840).

4.1.9.9. Sale of power and utilities.

4.1.9.10. For Defense Agencies:

4.1.9.10.1. Sale of publications and reproductions not otherwise classified (similar to Account 2259).

4.1.9.10.2. Fees and other charges for communications and transportation services, not otherwise classified (similar to Account 2429).

4.1.9.10.3. Proceeds from the sale of equipment and other personal property, not otherwise classified.

4.1.9.10.4. Recoveries for government property, lost or damaged, not otherwise classified (similar to Account 3019).

4.2 Budget Clearing Account (Suspense)

Offsetting receipts that are not readily classified into established categories must be temporarily accounted for in the Budget Clearing Account (suspense), F3875. All efforts must be made to identify and clear out suspense accounts and record these receipts properly into the applicable categories listed above within 60 calendar days as discussed in Volume 5 Chapter 11 and Volume 5 Chapter 24.

4.3 Depositing Offsetting Receipts

All offsetting receipts must be recorded immediately upon receipt and deposited with the Department of the Treasury as soon as practicable. Any delays in borrowing or deposit preclude the use of the funds by the Treasury Department to benefit the U.S. Government through the avoidance of interest expense.

4.4 Reporting Offsetting Receipts

4.4.1. Offsetting receipt amounts reported by DoD Components must agree with the collections credited to receipt accounts maintained by the Department of the Treasury. Those DoD Components that prepare consolidated reports must obtain the required information from applicable organizations and ensure that the amounts reported are in agreement with balances reflected by the Department of the Treasury.

* 4.4.2. FMS Form 1220. Actual offsetting receipts must be reported on a monthly basis on FMS Form 1220, "Statement of Transactions According to Appropriations, Funds and *Receipt Accounts*" in accordance with the TFX as prescribed in Volume 6A Chapter 3.

* 4.4.3. SF-133 Report. Unless required by OMB, do not submit SF-133 reports for deposit funds, receipt accounts (including clearing accounts and suspense accounts), and closed Treasury Appropriation Fund Symbol (TAFFS) (TAFFS with canceled balances). Distributed offsetting receipts credited to Components must be included in the SBR. Undistributed offsetting receipts credited to the government-wide outlay totals should not be included in the SBR.

4.4.3.1. The SF-133 report is divided into four sections - Budgetary Resources; SBR; Change in Obligated Balance; and Budget Authority and Outlays, Net. Procedures on monthly budget execution reporting are prescribed in Volume 6A Chapter 4, "Reporting Policy and Procedures." Submit these reports on a monthly basis to the Director for the OUSD(C) Program and Budget (P/B). Offsetting receipt amounts reported on these reports must equal the amounts deposited with the U.S. Treasury.

4.4.3.2. Submit a separate SF-133 report for each group of offsetting receipt accounts as part of the basic appropriation report. Separate SF-133 reports are required for Federal

funds and trust funds requires under each of the functional groups: “Military Functions,” “Civil Functions” and “Military Assistance.”

4.4.3.3. Separate SF-133 reports are required within any of the foregoing groups if the receipts consist of more than one of the following categories:

4.4.3.3.1. Proprietary receipts from the public (P).

4.4.3.3.2. Interfund receipts (ID).

4.4.3.3.3. Federal intrafund receipts (IF) including those receipts in Budget Clearing Account (suspense), F3885.

4.5 Proprietary and Budgetary General Ledgers

4.5.1. Offsetting receipts must be recorded in the proprietary and budgetary general ledgers.

4.5.2. Volume 3 “Budget Execution-[Availability and Use of Budgetary Resources](#),” Chapter 15 and Volume 4 “Accounting Policy and Procedures” Chapters 2, 16, and 19 prescribe the general ledger accounts to be used in recording offsetting receipts.

4.5.3. Source documents for the general ledger entries include cash collection vouchers, sales slips, rental receipts, and journal vouchers.

5.0 USE OF ACCOUNTING DATA FOR BUDGET SUBMISSIONS

5.1 Budgeting Requirements

Budgeting requirements are established by OMB Circular No. A-11 and Volume 2A and Volume 2B, “Budget Formulation and Presentation.”

5.2 Receipt Accounts

Offsetting receipts deposited in receipt accounts are deducted as offsets to outlays and against budget authority at sub-function and agency levels. For instance, sub-function 051, “Department of Defense, Military,” is the level at which proprietary receipts from the public are deducted from the Department's budget authority and outlays in arriving at total DoD Federal Funds in the budget.

5.3 Accuracy and Timeliness

The accuracy and timeliness of recording and reporting offsetting receipts [and outlays](#) are critical in the budget preparation process. Actual receipts for the prior year are reported in the budget submissions and are used as the basis for projecting estimates for the budget out-years.

CHAPTER 18

NON-ECONOMY ACT ORDERS

1.0 GENERAL

1.1 Purpose

This chapter prescribes the financial management policy applicable to orders placed for goods or services from non-Department of Defense (DoD) Federal agencies under statutory authorities other than the Economy Act authority provided in [31 U.S.C. § 1535](#). These orders are referred to as non-Economy Act orders. Chapter 1 provides overall guidance and discussion of general reimbursement procedures and supporting documentation.

1.2 Authoritative Guidance

* 1.2.1. [10 U.S.C. § 3133](#): “Contracts for periods crossing fiscal years: severable service contracts; leases of real or personal property” provides statutory authority for the aforementioned contracts.

1.2.2. [31 U.S.C. § 1502](#): “Balances available” stipulates the bona fide needs rule.

1.2.3. Federal Acquisition Regulation ([FAR Part 7](#)), “Acquisition Planning,” provides Federal-wide acquisition policy and procedures related to acquisition planning.

1.2.4. [FAR Subpart 17.5](#), “Interagency Acquisitions,” and [FAR Subpart 17.7](#), “Interagency Acquisitions: Acquisitions by Non-Defense Agencies on Behalf of the Department of Defense,” prescribe Federal-wide acquisition policy involving interagency acquisitions.

1.2.5. [DoD Instruction 4000.19](#), “DoD Agreements,” establishes policy, assigns responsibilities, and provides direction for agreements within the DoD and between DoD and non-DoD entities.

* 1.2.6. The Treasury Financial Manual (TFM) Volume I, Part 2, Chapter 4700, [1 TFM 2-4700](#), Section 4750 “Intragovernmental Quarterly and Year-End Requirements.”

1.2.7. Defense Federal Acquisition Regulation Supplement ([DFARS Subpart 217.5](#), “Interagency Acquisitions,” and [DFARS Subpart 217.7](#), “Interagency Acquisitions: Acquisitions by Non-Defense Agencies on Behalf of the Department of Defense,” prescribe specific additional DoD acquisition policy involving interagency acquisitions.

2.0 DEFINITIONS

2.1 Assisted Acquisition

[FAR Subpart 2.1](#) defines an assisted acquisition as a type of interagency acquisition where a servicing agency performs acquisition activities on a requesting agency's behalf, such as awarding and administering a contract, task order, or delivery order. DFARS 217.701 defines assisted acquisition similarly as the type of interagency contracting through which acquisition officials of a non-DoD agency award a contract, task, or delivery order for the acquisition of supplies or services on behalf of DoD.

2.2 Direct Acquisition

Per FAR Subpart 2.1, a direct acquisition is a type of interagency acquisition where a requesting agency places an order directly against a servicing agency's indefinite-delivery contract. The servicing agency manages the indefinite-delivery contract but does not participate in the placement or administration of an order. DFARS 217.701 defines direct acquisition as a type of interagency contracting through which [the](#) DoD orders a supply or service from a Government-wide acquisition contract maintained by a non-DoD agency.

2.3 Interagency Acquisition

As defined in FAR Subpart 2.1, an interagency acquisition is an action by which an agency needing supplies or services (the requesting agency) obtains them from another agency (the servicing agency) by an assisted acquisition or a direct acquisition. The term includes acquisitions under the Economy Act (31 U.S.C. § 1535) and non-Economy Act acquisitions completed under other statutory authorities.

2.4 Multiple Year Appropriation

As used in this chapter, a multiple-year appropriation means an appropriation that is available for obligation for a definite period of time [over](#) one fiscal year.

2.5 Non-Severable Service

A non-severable service represents a single undertaking that cannot be feasibly subdivided. If the service produces a single or unified outcome, product, or report, the service is considered non-severable.

2.6 Requesting Agency

The requesting agency is defined in FAR Subpart 2.1 as the agency that has the requirement for an interagency acquisition.

2.7 Servicing Agency

The servicing agency is defined in FAR Subpart 2.1 as the agency that will conduct an assisted acquisition on behalf of the requesting agency.

2.8 Severable Service

A severable service represents a service that is continuing and recurring in nature where the agency realizes a benefit at the time that the service is provided even if the contract has not been performed to completion. A service is considered severable if it can be separated into a component that independently provides value to meet an agency's needs.

2.9 Trading Partner

A trading partner is defined as a Federal entity that is a party to intragovernmental transactions with another Federal entity. This includes transactions between DoD Components and transactions between DoD Components and other non-DoD Federal entities.

3.0 LEGAL AUTHORITY

3.1 Statutory Conditions on Use

3.1.1. Specific statutory authority is required to place a non-Economy Act order with a non-DoD agency for goods or services and to pay the associated cost. If specific statutory authority does not exist, the default is the Economy Act which is discussed in Chapter 3.

3.1.2. The more commonly used non-Economy Act authorities include, but are not limited to:

3.1.2.1. Acquisition Services Fund. The Acquisition Services Fund was established by the General Services Administration Modernization Act which merged the General Supply Fund and the Information Technology Fund to carry out functions related to the uses of the Acquisition Services Fund including any functions previously carried out by the Federal Supply Service and the Federal Technology Service managed by the General Service Administration (GSA).

3.1.2.2. Franchise Funds. Franchise Funds were first established by the Government Management Reform Act of 1994 to provide common administrative support services on a competitive and fee basis.

3.2 Justification

Non-Economy Act orders may be placed with a non-DoD Federal agency for goods or services if:

3.2.1. Proper funds are available;

3.2.2. The order does not conflict with another agency's designated responsibilities (e.g., real property lease agreements with GSA);

3.2.3. The requesting agency or unit determines the order is in the best interest of DoD;
and

3.2.4. The performing agency is able and authorized to provide the ordered goods or services.

3.3 Simplified Acquisition Threshold

Non-Economy Act orders greater than the simplified acquisition threshold must comply with FAR Part 7 and established DoD Components' procedures for the proper use of non-DoD contracts. The "Non-Economy Act Acquisition Package Checklist" provided in Figure 18-1 and the list of "Requesting Official Responsibilities" in Figure 18-2 will assist in ensuring that statute, policy, and regulation are complied with under non-Economy Act orders.

3.4 Prohibitions

Non-Economy Act orders may not be used to violate provisions of law or accomplish what regulations do not permit under commercial contracts or circumvent conditions and limitations imposed on the use of funds including extending the period of availability of the cited funds.

4.0 INITIATING A NON-ECONOMY ACT ORDER

4.1 Ordering Procedures and Requirements

4.1.1. FAR Subpart 7.5, FAR Subpart 7.7, DFARS Subpart 217.5, and DFARS Subpart 217.7 address the procedures that apply to all interagency acquisitions. A non-Economy Act order must comply with the documentation standards in Chapter 1 and be supported with the items identified in Figure 18-1.

4.1.2. Non-Economy Act orders must include:

4.1.2.1. A firm, clear, specific, and complete description of the goods or services ordered. The use of generic descriptions is not acceptable;

4.1.2.2. Specific performance or delivery requirements;

4.1.2.3. A proper fund citation;

4.1.2.4. Payment terms and conditions (e.g., direct cite or reimbursement, and specific appropriation or law authorizing advanced payments);

4.1.2.5. A specific non-Economy Act statutory authority citation such as those referenced in paragraph 3.1;

4.1.2.6. The following statement on funding documents for severable services: “These funds are available for severable service requirements crossing fiscal years for a period not to exceed one year, where the period of any resultant contract for services commences this fiscal year. All funds not placed on contract this fiscal year must be returned promptly to the ordering activity, but no later than one year after the acceptance of the order or upon completion of the order, whichever is earlier.”;

4.1.2.7. The following statement on funding documents for goods or non-severable services: “I certify that the goods or non-severable services to be acquired under this agreement are the necessary expense of the appropriation charged and represent a bona fide need of the fiscal year in which these funds are obligated.”; and

4.1.2.8. DoD Activity Address Code (DODAAC)

4.2 Treasury Guidance

4.2.1. The TFM Volume I, Part 2, Chapter 4700, Section 4750, “Intragovernmental Quarterly and Year-End Requirements,” discusses the requirements necessary to properly report intragovernmental transactions resulting from business activities (i.e., buy/sell transactions) between two Federal government entities, called trading partners. It further references the Intragovernmental Transaction Guide (Appendix 5) as containing the business rules and processes to properly record, report, and reconcile intragovernmental transactions, including the processes for dispute resolution.

4.2.2. The standard Interagency Agreement contains two Fiscal Service (FS) Forms: [FS Form 7600A](#), General Terms and Conditions (GT&C) and [FS Form 7600B](#), Order Form. (See form instructions at [Instructions for FS Form 7600A](#), and [Instructions for FS Form 7600B](#) respectively.) Treasury has mandated the use of these two forms to ensure the proper recording and reporting on intragovernmental buy/sell transactions, and to eliminate the Federal-wide reporting deficiencies impacting the Financial Report of the U.S. Government. Accordingly, all DoD Components must use the latest published versions of FS Forms 7600A/B when completing a non-Economy Act order and these must comply with the Federal Intragovernmental Data Standards when using the [Treasury’s G-Invoicing](#) system, DoD Ordering systems, Enterprise Resource Planning (ERP) systems, or when completing the FS Forms 7600 A/B manually. Until DoD Ordering Systems and ERP systems are capable of processing the FS Form 7600B, DoD trading partners **must** continue to accept the current order forms (e.g., [DoD \(DD\) Form 448](#), Military Interdepartmental Purchase Request). Individual orders must be placed against an FS Form 7600A.

* 4.2.3. The Treasury’s G-Invoicing system must be used to negotiate, broker, and electronically store the GT&Cs and associated transactions between buyers and sellers for all inter- and intragovernmental reimbursable transactions as appropriate system capabilities come online for individual DoD Components. In instances where G-Invoicing is not available, such as

remote deployments or other austere conditions, DoD Components must use hardcopies of FS Forms 7600A/B. DoD Components must establish internal policies and procedures for designating signature authority for GT&Cs.

4.2.4. The requesting scope of work on the FS Form 7600A [must](#) cover relatively broad categories of goods or services when feasible. When the systems capability becomes [available](#) to accept the FS Form 7600B within DoD Ordering Systems or ERPs, the FS Form 7600B must discretely define the goods or services for each order. When practical and legally permissible, the agreement period on the FS Form 7600A [must](#) cover multiple years.

4.3 Best Interest Determination

4.3.1. Each requirement must be evaluated in accordance with DoD Components' procedures to ensure that non-Economy Act orders are in the best interest of DoD.

4.3.2. Factors to consider include:

4.3.2.1. Satisfying customer requirements;

4.3.2.2. Schedule, performance, and delivery requirements;

4.3.2.3. Cost effectiveness, [considering](#) the discounts and fees; and

4.3.2.4. Contract administration, to include oversight.

5.0 FISCAL POLICY

5.1 Specific, Definite, and Certain

For non-Economy Act orders greater than the simplified acquisition threshold, the requesting official must provide:

5.1.1. Evidence of market research and acquisition planning;

5.1.2. A statement of work that is specific, definite, and certain both as to the work encompassed by the order and the terms of the order itself; and

5.1.3. Unique terms, conditions, and requirements to comply with applicable DoD-unique [statutes](#), regulations, directives, and other requirements.

5.2 Contracting Officer Review

All non-Economy Act orders greater than \$500,000 must be reviewed by a DoD-warranted Contracting Officer prior to sending the order to the funds certifier or issuing the FS Forms 7600A/B to the non-DoD activity. In addition to the review by the Contracting

Officer, the requesting official must further review the acquisition package to ensure compliance with the FAR Part 7, and the DoD Component's procedures.

5.3 Certification of Funds

Non-Economy Act orders are subject to the same fiscal limitations that are contained within the appropriation from which they are funded. Because the servicing entity may not be aware of all the appropriation limitations, the DoD requesting official must certify that the funds cited on the order are available, meet time limitations, and are for the purpose designated by the appropriation.

5.4 Bona Fide Need

The bona fide needs rule (31 U.S.C. § 1502) provides that an appropriation or fund limited for the obligation to a definite period is available only for payment of expenses properly incurred during the period of availability or to complete contracts properly made within that period of availability. Non-Economy Act reimbursable orders of DoD Components for supplies, material, services, or equipment placed with non-DoD agencies are subject to policies that, in practical effect, make them subject to obligational standards used for Economy Act reimbursable orders. Non-Economy Act orders citing an annual or multiple-year appropriation must serve a bona fide need arising, or existing, in the fiscal year(s) for which the appropriation is available for new obligations. Otherwise, a valid obligation is not accomplished. An interagency agreement may not be used in the last days of the fiscal year solely to prevent funds from expiring or to keep them available for a requirement arising in the following fiscal year. Bona fide need generally is a determination of the requesting agency and not that of the servicing activity. A servicing agency **must**, however, refuse to accept a non-Economy Act order if it is obvious that the order does not serve a need existing in the fiscal year for which the appropriation is available.

5.5 Obligation

5.5.1. The provisions of [31 U.S.C. § 1501](#) govern the recording of the obligation.

5.5.2. An amount must be recorded as an obligation only when supported by documentary evidence meeting all the following criteria:

5.5.2.1. Binding agreement (funding vehicle) between an agency and another person (including an agency);

5.5.2.2. Agreement is in writing using FS Form 7600A;

5.5.2.3. For a purpose authorized by law;

5.5.2.4. Serves a bona fide need arising, or existing, in the fiscal year or years for which the appropriation is available for obligation;

5.5.2.5. Executed before the end of the period of availability for the new obligation of the appropriation or fund used; and

5.5.2.6. Provides for specific goods to be delivered, real property to be bought or leased, or specific services to be supplied.

5.6 Deobligation of funding under non-Economy Act orders

5.6.1. Goods. Funds provided to a performing agency for ordered goods where the funds period of availability thereafter has expired must be deobligated and returned by the performing agency unless the request for goods was made during the period of availability of the funds and the item(s) could not be delivered within the funds period of availability because of delivery, production or manufacturing lead time, or unforeseen delays that are out of the control and not previously contemplated by the contracting parties at the time of contracting.

5.6.1.1. Where materials cannot be obtained in the same fiscal year in which they are needed and contracted for, provisions for delivery in the subsequent fiscal year do not violate the bona fide need rule as long as the time intervening between contracting, and delivery is not excessive, and the procurement is not for standard commercial off the shelf items readily available from other sources.

5.6.1.2. The delivery of goods may not be specified to occur in the year subsequent to funds availability unless delivery meets the exceptions cited in subparagraph 5.6.1.1 and a justifiable bona fide need exists in the year funds are available for obligation.

5.6.2. Severable Services. An agreement for severable services that are continuing and recurring in nature and provide DoD a benefit each time the service is performed (e.g., maintenance and repair services, scientific, engineering, and technical services) is based on statutory authority other than the Economy Act. The provisions of 10 U.S.C. § 3133 permit the performance of severable services to begin in one fiscal year and end in the next provided the period of performance does not exceed one year. A non-DoD Federal agency may rely on this authority to fill a DoD order funded with fiscal year appropriations to issue a contract for severable services that crosses fiscal years as long as the contract period commences during the period of availability of the DoD customer appropriation. Obligating funds for placing a non-Economy act order with a non-DoD Federal agency, where the resultant fixed-length severable services contract awarded by the non-DoD Federal agency will exceed the one-year limit outlined in 10 U.S.C. § 3133, or which is not to commence until a subsequent fiscal year, may result in an Antideficiency violation under 31 U.S.C. § 1341.

5.6.2.1. The performance of severable services must begin during funds period of availability and may not exceed one year.

5.6.2.2. Annual appropriations provided to a performing agency that have expired must be deobligated unless the performance of the services requested began during the funds period of availability and the period of performance does not exceed one year.

5.6.2.3. The annual appropriation from the earlier fiscal year may be used to fund the entire cost of the one-year period of performance; however, annual appropriations may not be used to enter into a severable services agreement where the period of performance for services requested is entirely in the following fiscal year.

5.6.2.4. In no instance may the period of performance extend beyond September 30 of the subsequent year for services funded with annual appropriations.

5.6.3. Non-Severable Services. Non-severable services contracts must be funded entirely with appropriations available for new obligations at the time the contract is awarded, and the period of performance may extend across fiscal years. Funds provided to a performing agency that become excess must be deobligated as identified.

5.6.4. Excess or Expired Funds. Activities must reconcile all obligations and remaining funds available for orders. The purpose of this reconciliation is to ensure the proper use of funds and to identify and coordinate the return of expired or excess funds. Excess or expired funds must be returned by the performing agency and deobligated by the requesting agency to the extent that the performing agency or unit filling the order has not (1) provided the goods or services (or incurred actual expenses in providing the goods or services), or (2) entered into a contract with another entity to provide the requested goods or services before the end of the period of availability (fiscal year or multiple year period, as applicable) of the appropriation of the requesting or ordering agency. Expired funds must not be available for new obligations.

5.7 Payment Procedures

5.7.1. Payment must be made promptly upon the written request (or billing) of the performing agency. The payment due date must not be more than 30 calendar days from the date of the invoice. Unless the DoD Component is specifically authorized by law, legislative action, or Presidential authorization, funds are not to be advanced to non-DoD Federal entities or be used to pay for advance billings without the receipt of goods or services. Volume 4, Chapter 5 covers the conditions and requirements related to advances and prepayments. For those few exceptions where DoD is specifically authorized by a specific appropriation or law to advance funds, [cite](#) the specific appropriation or law authorizing the advance on the obligating and/or interagency agreement documents and orders, and [collect](#) any unused amounts of the advance from the performing agency immediately and return to the fund from which originally made.

5.7.2. The requesting official must be fully aware of the non-DoD Federal agency's billing practices and methods. The official must also take appropriate action to ensure DoD funds are not disbursed in advance of contract performance. Additionally, DoD Components must work with their servicing disbursement sites to ensure trading partner agreements restrict other Federal agencies' ability to withdraw funds prior to the delivery of goods or performance of services.

5.7.3. Payments made for services rendered or goods furnished may be credited to the appropriation or fund of the Federal agency performing the reimbursable work.

5.7.4. Volume 10, Chapter 10 contains the DoD policy for executing intragovernmental payments.

6.0 NON-ECONOMY ACT ORDER FOLLOW-UP PROCEDURES

6.1 Non-Economy Act Order Oversight

6.1.1. The requesting official must establish quality surveillance plans, for non-Economy Act orders greater than the simplified acquisition threshold and ensure execution that would facilitate the oversight of the goods provided or services performed by the performing agency.

6.1.2. The plans **must** include:

6.1.2.1. Contract administration oversight in accordance with the surveillance plan;

6.1.2.2. Processes for receipt and review of receiving reports and invoices from the performing agency;

6.1.2.3. Reconciliation of receiving reports and invoices; and

6.1.2.4. Requirements for documenting acceptance of the goods received or services performed.

6.2 **Requesting Official Must** Monitor Fund Status

6.2.1. Monitor balances with the performing agency;

6.2.2. Conduct Dormant Account Review Quarterly (DAR-Q) of non-Economy Act orders in accordance with Volume 3, Chapter 8 and include a specific attestation on the DAR-Q that all existing interagency agreements are consistent with DoD policy;

6.2.3. Confirm open balances with the performing agency;

6.2.4. Coordinate the return of funds from the non-DoD performing agency in accordance with paragraph 5.6; and

6.2.5. Coordinate with the accounting office to ensure timely deobligation of funds.

6.3 Non-Economy Act Order Close-Out

6.3.1. All non-Economy Act orders must be reviewed by the requesting official to determine if they are complete. Completed orders must be fiscally closed out. The requesting official must reconcile funds and coordinate the return of excess or expired funds held by the performing agency.

6.3.2. As part of this review, the requesting official will:

6.3.2.1. Identify and determine if there are outstanding invoices;

6.3.2.2. Identify and determine the existence of excess or expired funds;

6.3.2.3. Coordinate the return of funds from the non-DoD performing agency in accordance with paragraph 5.6; and

6.3.2.4. Coordinate with the accounting office to ensure the deobligation of funds.

6.4 Reconciliation and Elimination of Intragovernmental Transactions

Volume 6B, Chapter 13 contains DoD policy and guidance for adjustments, eliminations, and other special intragovernmental reconciliation procedures.

Figure 18-1. Non-Economy Act Acquisition Package Checklist

- A. Documented evidence of market research and acquisition planning performed.
- B. Package includes a specific, definite, and concise statement of work documenting a bona fide need in the fiscal year that the funds are available for new obligations.
- C. Package includes specific performance and/or delivery requirements.
- D. Package identifies the statutory authority permitting the performing agency to support the DoD Component for the goods/services required.
- E. Package includes the purchase request number and the DODAAC.
- F. Package includes written justification for the non-Economy Act order in accordance with DFARS Subpart 217.7 and the DoD Components' procedures.
- G. Package documents review of fees/surcharges/contract administration/discounts to ensure the cost is reasonable and consistent with task to be accomplished by performing agency.
- H. Package includes specific statutory authority authorizing advance payment or billing.
- I. Package documents evidence that DoD competition requirements were followed in accordance with DFARS.
- J. Order identifies DoD unique terms & conditions to the performing agency.
- K. Order identifies unique reporting requirements not otherwise specified to the performing agency.

Figure 18-2. Requesting Official Responsibilities

- A. Market Research
- B. Acquisition Planning
- C. Independent Government Cost Estimate
- D. Statement of Work to include evaluation criteria
- E. Ensure receipt and compliance of FS Forms 7600A/B acceptance
- F. Assist in Technical Evaluation
- G. Quality Assurance Plan
 - 1. Contracting Officer Representative/Contracting Officer Technical Representative - Receiving Reports/Invoices - Inspection & Acceptance
 - 2. Contract Data Requirements List Procedural/Required Reports/Deliverables Report/Contract Performance
 - 3. Property/Equipment Management
 - 4. Perform Contract Oversight
- H. Funds Management/Record Keeping
 - 1. Draw Down
 - 2. Contract Reconciliation
 - 3. Initiate Deobligation
 - 4. Oversight of Billing/Reporting
- I. Update all Points of Contact as necessary throughout acquisition

VOLUME 11A, CHAPTER 19: “DEFENSE SUPPORT OF CIVIL AUTHORITIES”**SUMMARY OF MAJOR CHANGES**

Changes are identified in this table and also denoted by **blue font**.

Substantive revisions are denoted by an * symbol preceding the section, paragraph, table, or figure that includes the revision.

Unless otherwise noted, chapters referenced are contained in this volume.

Hyperlinks are denoted by **bold, italic, blue and underlined font**.

The previous version dated **July 2015** is archived.

PARAGRAPH	EXPLANATION OF CHANGE/REVISION	PURPOSE
1.1	Added an Overview section	Addition
1.3	Moved Reference Hyperlinks into the Authoritative Guidance	Revision
2.0.10	Added definition for “Request for Assistance”	Addition
Addendum 1 (previous version)	Removed Addendum 1, Generalized Financial Flow - Notional	Deletion
Addendum 2 (previous version)	Removed Addendum 2, Reimbursable Authority Closure Certification (Completed by Unit)	Deletion

CHAPTER 19

DEFENSE SUPPORT OF CIVIL AUTHORITIES

1.0 GENERAL

*1.1 Overview

The Department of Defense (DoD) has several key missions, including defending the homeland and supporting civil authorities. In certain cases, national defense resources might be provided to assist civil authorities during disasters, emergencies, or other incidents. The Defense Support of Civil Authorities (DSCA) is typically initiated by a request from a Primary Agency (PA) like the Federal Emergency Management Agency (FEMA). According to DoD policy, DSCA begins with a request from civil authorities or authorized entities, or as directed by the President or Secretary of Defense (SecDef). All DSCA support requests, except for Immediate Response Authority (IRA), must be in writing and include an agreement to reimburse DoD as per [Title 42, United States Code \(U.S.C.\), Sections 5121-5208](#) (42 U.S.C. §§ 5121-5208) (Robert T. Stafford Disaster Relief and Emergency Assistance Act, (commonly called the “Stafford Act”), [31 U.S.C. § 1535](#) (commonly called the “Economy Act”), or other applicable laws. DoD can allocate resources upon approval from SecDef or direction from the President.

1.2 Purpose

This chapter outlines financial guidelines for identifying, recording, reporting, and securing reimbursement for expenses incurred by the DoD while providing DSCA under existing laws and policies. DSCA encompasses assistance provided by the United States (U.S.) Federal military forces, DoD civilian employees, DoD contractors, heads of organizational entities within the DoD (hereafter referred to collectively as “DoD Components”) assets, and National Guard forces when the SecDef, collaborating with the governors of impacted States, decides to use these forces. These decisions are generally in response to civil authorities’ requests for domestic emergency support, law enforcement assistance, other domestic activities, or qualifying entities seeking aid for special events. (DoD Directive [\(DoDD\) 3025.18](#)).

*1.3 Authoritative Guidance

- 1.3.1. [Public Law No: 99-177](#), “Balanced Budget and Emergency Deficit Control Act,”
- 1.3.2. [6 U.S.C. § 314](#), “Federal Emergency Management Agency,”
- 1.3.3. 31 U.S.C. § 1535, “Agency Agreements,”
- 1.3.4. [31 U.S.C. § 9701](#), “Fees and Charges for Government Services and Things of Value,”
- 1.3.5. 42 U.S.C. §§ 5121 – 5208, “Disaster Relief,”

1.3.6. [44 Code of Federal Regulations, part 206.8](#), “Reimbursement of Other Federal Agencies,”

1.3.7. [DoD Instruction \(DoDI\) 5015.02](#), “DoD Records Management Program,”

1.3.8. DoDD 3025.18, “Defense Support of Civil Authorities,” and

1.3.9. [DoD Manual 3025-1](#), “Manual for Civil Emergencies.”

2.0 DEFINITIONS

Unless otherwise noted, these terms and their definitions are for the purposes of this chapter.

2.0.1. [Defense Coordinating Officer \(DCO\)](#). A DoD single point of contact for domestic emergencies. Assigned to a joint field office to process requirements for military support, forward MAs through proper channels, and assign military liaisons as appropriate to activated emergency support functions. (Joint Publication 1-06).

2.0.2. [Defense Support of Civil Authorities](#). Support provided by U.S. Federal military forces, DoD civilians, DoD contract personnel, DoD component assets, and National Guard forces (when SecDef, in coordination with the governors of the affected States, elects and requests to use those forces in Title 32, U.S.C., status) in response to requests for assistance from civil authorities for domestic emergencies, law enforcement support, and other domestic activities, or from qualifying entities for special events. Also known as civil support. (DoDD 3025.18).

2.0.3. [Emergency](#). Any incident, whether natural or manmade, that requires responsive action to protect life or property. Under the Stafford Act, an emergency means any occasion or instance for which, in the determination of the President, Federal assistance is needed to supplement State and local efforts and capabilities to save lives and to protect property and public health and safety, or to lessen or avert the threat of a catastrophe in any part of the U.S. (42 U.S.C. § 5122).

2.0.4. [Immediate Response Authority](#). A Federal military commander’s, DoD Component Head’s, and/or responsible DoD civilian official’s authority temporarily to employ resources under their control, subject to any supplemental direction provided by higher headquarters. Those resources are provided to save lives, prevent human suffering, or mitigate great property damage. This is typically in response to a request for assistance from a civil authority, under imminently serious conditions when time does not permit approval from a higher authority within the U.S. IRA does not permit actions that would subject civilians to the use of military power that is regulatory, prescriptive, proscriptive, or compulsory. (DoDD 3025.18).

2.0.5. [National Response Framework \(NRF\)](#). This framework provides the principles by which response partners are to apply when providing a unified national response to disasters and emergencies. It defines the key principles, roles, and structures by which communities, tribes, States, the Federal Government, and private-sector and nongovernmental partners apply these

principles for a coordinated, effective national response. The NRF is always in effect and can be implemented at any level at any time. ([FEMA National Response Framework](#)).

2.0.6. Mission Assignment. The mechanism used by FEMA to support Federal operations in a Stafford Act major disaster or emergency declaration. The MA orders immediate, short-term emergency response assistance when an applicable State or local government is overwhelmed by the event and lacks the capability to perform, or contract for, the necessary work.

2.0.7. Primary Agency. Also known as [Primary Federal Agency or Lead Federal Agency](#), is a Federal agency with significant authorities, roles, resources, or capabilities for a particular function within an Emergency Support Function (ESF). A Federal agency designated as an ESF PA serves as a Federal Executive agent under the Federal Coordinating Officer (FCO) (or Federal Resource Coordinator for non-Stafford Act incidents) to accomplish the ESF mission.

2.0.8. Principal Federal Official. In Homeland Security Presidential Directive (HSPD)-5 “Management of Domestic Incidents,” the President designated the Secretary of Homeland Security as the “principal Federal official” for domestic incident management and empowered the Secretary to coordinate Federal resources used in the prevention of, preparation for, response to, or recovery from terrorist attacks, major disasters, and other emergencies, except for law enforcement responsibilities otherwise reserved to the Attorney General under HSPD-5.

2.0.9. Reimbursable Budget Authority (RBA) (also called reimbursable obligation authority). Authority to incur obligations in accomplishing reimbursable work if a budgetary resource—either a reimbursable agreement from a federal customer or an advance from a non-Federal customer—is also available. This authority can be acquired only by obtaining an allotment through the FCO using an approved funding program process.

* 2.0.10. Request for Assistance (RFA). A formal request submitted by a civil authority, like a state governor or a designated federal agency, to the Department of Defense for military assistance. This assistance is needed to respond to a specific emergency or situation where civilian capabilities have been overwhelmed or are insufficient.

3.0 RESPONSIBILITIES

3.0.1. Key DoD participants in DSCA activities mentioned in this chapter include, but are not limited to, the SecDef, Under Secretary of Defense for Policy (USD(P)), Under Secretary of Defense (Comptroller) (USD(C)), Chairman Joint Chiefs of Staff (CJCS), Commanders of Combatant Commands (CCDRs), Joint Staff (JS), and DoD Components [and agencies](#).

3.0.2. The SecDef holds the top authority over the DoD and advises the President on DSCA matters. SecDef approves the use of forces, personnel, units, and equipment; oversees policy and actions for DSCA during domestic incidents; and has sole authority to waive reimbursement for DoD support.

3.0.3. The USD(C)/Chief Financial Officer sets policies and guidelines to ensure timely reimbursement to DoD for DSCA activities.

3.0.4. DoD Components ensure adherence to FM guidance for DSCA operations, including cost tracking and reimbursement; and plan, program, and budget for [associated](#) DSCA capabilities as per law, policy, and assigned missions.

3.0.5. The Secretaries of the Military Departments require that reimbursement requests for actual DSCA expenditures (including work performed, contractor payments, or inventory deliveries) start within 30 calendar days after the month when the performance took place. Final billing invoices must be sent to the supported departments and agencies within 90 calendar days following the [last billable](#) event.

3.0.6. The Chief, National Guard Bureau (CNGB), under the authority, direction, and control of SecDef and the Secretaries of the Army and Air Force, reports the use of National Guard assets for DSCA when using Federal resources, equipment, and/or funding to the National Joint Operations and Intelligence Center. CNGB will ensure that the National Guard appropriations are appropriately reimbursed for DSCA activities.

3.0.7. The JS allocates resources for DSCA requests and issues execute orders (EXORDs) to the responsible CCDR to carry out SecDef-approved actions.

3.0.8. The Assistant Secretary of Defense for Homeland Defense and Global Security (ASD(HD&GS)) advises SecDef and USD(P) on DSCA, coordinates policy with federal agencies and DoD Components, and recommends DSCA policy to USD(P). The ASD(HD&GS) ensures all requests for DoD assistance include reimbursement provisions and works with USD(C), JS, and CCDRs to ensure reimbursements are made and reported to SecDef.

3.0.9. CCDRs with DSCA responsibilities must collaborate with subordinate commands to ensure proper reimbursement for DSCA. They provide command and control of DoD personnel and resources coordinating DSCA operations as directed by SecDef.

3.1 Financial Management Augmentation Team ([FMAT](#))

The supported CCDR may form an FMAT to aid in performing FM responsibilities during DSCA operations. The FMAT is composed of experienced FM experts from each Service and major Defense Agency. Under the CCDR's oversight of DSCA activities, aspects of the FMAT can be engaged in real-world events. FMAT members facilitate communication with their respective Services and Agencies and assist in integrating DSCA FM processes into existing financial procedures and policies. Additionally, [Military Services and Agencies will designate an FMAT Office in writing and](#) FMAT members take part in training and exercises with the supported Combatant Command.

3.2 Federal Emergency Management Agency

The Secretary of Homeland Security serves as the primary Federal authority for managing domestic incidents. According to 6 U.S.C. § 314, the Administrator of FEMA is tasked with overseeing the Federal assistance programs under the Stafford Act. FEMA requests assistance through Mission Assignments ([Form 010-0-8 Mission Assignment Form](#)). These MAs must

include necessary details on funding and other management controls, like funding obligation limits, for the requested support. FEMA is responsible for coordinating federal plans and responses to civil emergencies at both national and regional levels and for providing federal assistance to states during such emergencies. Under the Stafford Act, the President may instruct any federal agency to use its legal authorities and resources, with or without reimbursement, to support state and local emergency and disaster response efforts. An RFA is only valid once approved by SecDef. RFAs from FEMA are also known as mission assignments (MAs), though they do not have a directive effect until SecDef's approval.

3.3 DSCA New Requests

The PA uses an RFA or FEMA MA to request goods or services from DoD for DSCA under the Economy Act or Stafford Act. DSCA is typically provided on a cost-reimbursable basis unless directed otherwise by the President or waived by SecDef.

3.4 Immediate Response Authority Support

Support under IRA must be cost reimbursable when appropriate or legally required but must not be delayed or denied due to the requester's inability or unwillingness to commit to reimbursement. Oral emergency requests must be followed by a written request with an offer to reimburse the DoD as soon as possible. IRA support will end when the need is no longer present or when the approving DoD official or a higher authority directs it (DoDD 3025.18).

4.0 GENERAL ACCOUNTING GUIDANCE

DSCA is provided on a cost-reimbursable basis. Exceptions include cases where the law mandates or allows non-reimbursable support, pending approval by the appropriate DoD official. Requests for DSCA can be submitted under the Stafford Act or other conditions.

4.1 Stafford Act

4.1.1. The Stafford Act grants the President the authority to direct the SecDef to use DoD resources to aid state and local governments in addressing emergencies and major disasters. A Governor can seek Federal assistance under this act. Once the request is submitted and meets the certification requirements outlined in the Stafford Act, the President has the discretion to declare an emergency or a major disaster.

4.1.2. The Stafford Act establishes a system for emergency preparedness to safeguard life and property in the U.S., distributing disaster assistance responsibilities among federal, state, and local governments. FEMA is primarily responsible for domestic disaster relief efforts and manages aid under the Stafford Act. Federal departments and agencies, including the DoD, assist FEMA upon request and can receive reimbursement from FEMA for eligible costs incurred during their support.

4.2 Non-Stafford Act

4.2.1. A Federal entity that has the primary responsibility and legal authority for managing an incident (i.e., the requesting agency) and requires support or assistance beyond its usual operations can seek coordination and facilitation from the Department of Homeland Security through the NRF. Agencies offering disaster aid under their own authorities, without a declaration under the Stafford Act, use their own appropriated mission funds. Upon request, the DoD can assist other Federal departments and agencies by establishing inter-agency reimbursable agreements and requesting reimbursement from the requesting agency for eligible costs. Typically, the requesting agency provides funding to the DoD for the requested assistance in accordance with the Economy Act, unless other statutory authorities are applicable.

4.2.2. When an urgent situation arises and there is no time to seek higher approval, Federal military commanders, DoD Components, and responsible DoD civilian officials can exercise IRA to save lives, reduce severe property damage, and prevent human suffering (DoDD 3025.18).

5.0 APPLICABILITY

5.0.1. This policy applies to the Office of the SecDef, the Military Departments, the Office of the CJCS and the JS, the Combatant Commands, the Office of the Inspector General of the DoD, the Defense Agencies, the DoD Field Activities, and all other DoD Components.

5.0.2. This policy applies to the Army and Air National Guard when under Federal command. It also applies when the SecDef deems it necessary to use National Guard personnel for DSCA and obtains concurrence from the affected States' Governors.

6.0 SCOPE

6.0.1. This chapter outlines DoD financial policy for emergency or disaster relief when SecDef approves support requests to assist other Federal departments or agencies under DoDD 3025.18.

6.0.2. Under the Unified Command Plan, DSCA responsibilities are assigned to the Commander of U.S. Northern Command for the 48 contiguous states, the District of Columbia, Alaska, Puerto Rico, and the U.S. Virgin Islands; while the Commander of U.S. Indo-Pacific Command assumes these responsibilities in Hawaii, U.S. territories or insular areas, and possessions within their area of responsibility.

7.0 FUNDING

Disaster relief is not a budgeted program for DoD. Congress appropriates the Disaster Relief Fund (DRF) to FEMA for Federal and State disaster relief. The DRF supports the Stafford Act, providing FEMA a no-year base to direct, coordinate, manage, and fund eligible response and recovery efforts for major disasters and emergencies that exceed State resources. DoD Components may need to initially cover DSCA costs with existing funds, expecting reimbursement later. DRF funding is divided into disaster relief cap adjustment and base/non-major disasters.

7.1 Disaster Relief Cap Adjustment

Funding under the disaster relief cap adjustment is allocated for major disasters declared under the Stafford Act and must be designated by Congress for disaster relief according to section 251(b)(2)(D) of the Balanced Budget Emergency Deficit Control Act (amended by the Budget Control Act). The incremental costs incurred by the DoD beyond its usual mission are reimbursable by FEMA from funds allotted for disaster relief in this category. DoD Components must establish processes to identify and document these incremental costs to ensure reimbursement, as outlined in [Volume 4, Chapter 3, “Receivables.”](#)

7.2 Base/Non-Major Disasters

Funding in the base/non-major disasters category encompasses Emergencies, Pre-disaster Surge Support, Fire Management Assistance Grants, and activities that are not specific to disasters, such as Disaster Readiness Support (e.g., distribution center operations, reservist training). Pre-declaration requests for DoD support in response to disaster events are reimbursed to DoD based on actual costs. Typically, the requesting agency provides funding for the incident in accordance with the provisions of statutory authorities available for this purpose. This funding is not subject to cost-sharing. When an emergency necessitates a DoD response without a major disaster declaration, this funding category is utilized to reimburse DoD for the actual expenses (i.e., full costs) incurred.

7.3 Other

DRF funding cannot be used for activities related to incidents that need a coordinated Federal response before the disaster is declared. If a department or agency requires support beyond its usual operations, it can request PA coordination and facilitation via the NRF. Federal departments and agencies can assist one another by setting up inter/intra-agency reimbursable agreements according to the Economy Act, as outlined in [Chapter 3, “Economy Act Orders,”](#) or other relevant authorities.

8.0 REIMBURSEABLE SUPPORT (AGREEMENT)

FM units deliver similar capabilities during DSCA operations as in other missions. The primary concerns affecting DoD's response in providing DSCA are authorities and funding. Costs incurred are reimbursable according to the Economy Act and Stafford Act, unless otherwise directed by the President. Typically, cost reimbursement happens under the Economy Act (from the Federal agency requesting support) or the Stafford Act (from Federal funds following a Presidential declaration). Reimbursement should be sought for DSCA support provided under these acts. Per 31 U.S.C. § 9701, IRA support to non-Federal agencies is reimbursed to the U.S. Treasury, while IRA support to Federal agencies is reimbursed to DoD organizations per the Economy Act.

8.1 Advances

Advance payments to the DoD from the DRF are usually not permitted but may be required if DoD Components lack sufficient funds to deliver the requested support to the PA before the fiscal year ends.

8.2 Expenditures Eligible for Reimbursement

8.2.1. 44 Code of Federal Regulations, part 206.8 allows for the reimbursement of costs incurred by the DoD when providing requested assistance. Only the SecDef can waive reimbursement under the Economy Act and Stafford Act. Examples of eligible expenditures for reimbursement include:

8.2.2. Overtime, travel, and per diem of permanent Federal agency personnel;

8.2.3. Wages, travel, and per diem of temporary Federal agency personnel assigned solely for the performance of services directed in the major disaster or emergency area;

8.2.4. Travel and per diem of Federal military personnel assigned solely for the performance of services directed in the major disaster or emergency area;

8.2.5. Cost of work, services, and materials procured under contract for the purposes of providing directed assistance;

8.2.6. Cost of materials, equipment, and supplies (including transportation, repair, and maintenance) from regular stocks used in providing directed assistance;

8.2.7. All costs incurred that are paid from trust, revolving, or other funds, and whose reimbursement is required by law; and

8.2.8. Other costs presented by an agency with written justification or mutually agreed upon in writing by the PA.

8.3 Requirements for Reimbursement

8.3.1. DoD Components operating under an approved RFA must submit reimbursement requests following SecDef-approved and Combatant Command's standing DSCA EXORDs. FEMA MAs should also follow FEMA's [Mission Assignment Billing Reimbursement Checklist](#). Requests must reference the specific approved RFA/MA and the relevant disaster or emergency identification number.

8.3.2. Reimbursement requests for expenses from multiple orders cannot be combined. Components seeking reimbursement must keep all financial records, supporting documents, statistical records, and related records concerning the services or resources used by the Department.

8.3.3. A Component official knowledgeable about the original approved RFA must review reimbursement requests to ensure chargebacks outside the original scope are correctly adjusted.

8.3.4. Upon deployment to a supported Combatant Command following an approved RFA, units must report FM details to the Command or its designee until the order is closed. This requirement stands regardless of the unit's redeployment timing.

8.4 Supporting Documentation

8.4.1. Approved RFA (or MA) requests for reimbursement must include supporting documentation.

8.4.2. Each Component **must** keep supporting documentation for all incurred obligations, outlays, and other costs, including:

8.4.2.1. Copy of approved RFA form and identification of order number on other documentation;

8.4.2.2. Breakdown of costs by sub-object class code (see [OMB Circular A-11](#)) and cost breakdown structure code (see [Volume 2A, Chapter 3](#), "Operation and Maintenance Appropriations");

8.4.2.3. Description of services performed;

8.4.2.4. Period of Performance;

8.4.2.5. Personnel Services:

8.4.2.5.1. Regular or overtime labor with **the** breakdown of hours;

8.4.2.5.2. Indirect cost (percentage, description of costs included in cost pool);

8.4.2.6. Travel/Per Diem and Transportation;

8.4.2.7. Contract Services (contract number, name, cost, purpose); **and**

8.4.2.8. Property/Equipment Purchase, provide the following information **and coordinate specialty items with the PA in advance**:

8.4.2.8.1. Expendable Property, separate identification not required;

8.4.2.8.2. Non-expendable property or sensitive items, separate identification is required, including **a** description of item, vendor name, unit cost, and serial number or other unique identification; **and**

8.4.2.8.3. Verification of disposition for items listed in subparagraph 8.4.2.8.2.

8.4.3. Records Retention. [Volume 1, Chapter 9](#), “Financial Records Retention” outlines document retention requirements. Supplementary guidance is available in DoDI 5015.02. DoD Components must follow their own records management policies, and any questions should be directed to their respective [\(Federal Records Officers\)](#).

8.4.4. Citing the Appropriation. Reimbursed funds from the PA for goods and services provided under the Stafford Act should be credited to the appropriation used for those expenditures, available on the reimbursement date. Each DoD Component involved in DSCA is responsible for:

8.4.4.1. Maintaining documentation to support requests for reimbursement;

8.4.4.2. Identifying a staff-level point of contact for financial coordination with the PA and [identify](#)ing a headquarters-level point of contact for billing and reimbursement issues that cannot be resolved at the staff level;

8.4.4.3. Notifying the requesting activity when a task is completed;

8.4.4.4. Applying proper financial principles, policies, regulations, and management and internal controls to ensure full accountability for the expenditure of DRF funds;

8.4.4.5. Submit bill for final reimbursement no later than 90 days from final billing outlay;

8.4.4.6. Submitting annual validation of open obligations [to the PA](#) by providing cost data or other justification to show the amount of the obligation balance that must remain available, and why the approved RFA [or MA](#) must remain open, or risk losing reimbursable authority due to the possible de-obligation of funds;

8.4.4.7. Reconciling obligation balances and [identify](#)ing excess funds available for de-obligation in an effort to return funds to the DRF in a timely manner; [and](#)

8.4.4.8. Marking all final bills “Final.”

9.0 [FISCAL CLOSURE](#)

Components [must](#) carry out RFA closeout procedures, and if excess reimbursable funding is found, notify the PA to deobligate it to the DoD.

CHAPTER 1

DEFENSE WORKING CAPITAL FUNDS GENERAL POLICIES

1.0 GENERAL

1.1 Purpose

The purpose of this chapter is to provide financial management policy for Defense Working Capital Funds (DWCF). Guidance includes the responsibilities of management and their roles surrounding the maintenance of a unit's funds.

1.2 Authoritative Guidance

The accounting policy and related requirements prescribed by this chapter are in accordance with the applicable provisions of:

1.2.1. Title 10, United States Code, section 2208 ([10 U.S.C. § 2208](#)), "Working Capital Funds";

1.2.2. [10 U.S.C. § 2563](#), "Articles and Services of Industrial Facilities: Sale to Persons outside the Department of Defense";

1.2.3. [10 U.S.C. § 7543](#), "Army Industrial Facilities: Sales of Manufactured articles or services outside Department of Defense";

1.2.4. [31 U.S.C. § 3515](#), "Financial Statements of Agencies";

1.2.5. Federal Account Symbols and Titles ([FAST Book](#)), Agency Identifier Codes, Treasury Financial Manual Supplement;

1.2.6. Department of Defense Directive ([DoDD 4275.5](#)), "Acquisition and Management of Industrial Resources";

1.2.7. Office of Management and Budget ([OMB Circular A-11](#)), "Preparation, Submission and Execution of the Budget."

2.0 DWCF REQUIREMENTS

2.1 Treasury Fund Symbol

The DWCF are established under the authority of 10 U.S.C. § 2208. The U.S. Department of the Treasury (Treasury) Account Symbol for the DWCF is 097X4930. The Military Departments and Defense Agencies sub-numbered account identifiers assigned are shown in Table 1.1. The Defense Counterintelligence and Security Agency WCF, Treasury account 097X4932, is also established under 10 U.S.C. 2208 authority.

Table 1.1. DoD Component Account Identifiers

DoD Component	Treasury Assigned Account Number
Army	097X4930.001
Navy	097X4930.002
Air Force	097X4930.003
Defense Commissary Agency	097X4930.004
Defense Agencies	097X4930.005
Defense Counterintelligence and Security Agency	097X4932

2.2 Activity Groups

The DWCF consists of individual activity groups that are managed by DoD Components for providing goods and services, on a reimbursable basis, to other activities within the DoD and to non-DoD activities when authorized.

2.3 Charters

The DoD Component individual activity groups financed through the DWCF must be chartered under the DWCF to achieve the following objectives:

2.3.1. The DWCF is designed to:

2.3.1.1. Create a cost conscious environment for both customers and providers. Customers benefit by becoming aware of the cost of their service requirements and behaviors, deriving cost savings by limiting demands to actual requirements and adjusting behaviors to reduce the cost of providing services. Providers scrupulously reduce or eliminate costs to provide services, and assist customers in identifying and modifying behaviors that increase cost.

2.3.1.2. Provide a more effective means for controlling the costs of goods and services required, produced, or furnished by DWCF activities, and a more effective and flexible means for financing, budgeting, and accounting for the costs thereof.

2.3.1.3. Create and recognize contractual relationships between DWCF activities and those activities that budget for and order the end-products or services.

2.3.1.4. Provide managers of DWCF activities the financial authority and flexibility required to procure and effectively use manpower, materials, and other resources.

2.3.1.5. Encourage more cross-servicing among the DoD Components and among their operating agencies, with the aim of obtaining more economical use of facilities.

2.3.1.6. Facilitate budgeting for and reporting of the costs of end-products. This will underline the cost consequences of choosing between alternatives.

2.3.2. Specific objectives include the following:

2.3.2.1. Instill in the officials of ordering Agencies a greater sense of responsibility and self-restraint in balancing the costs of specific goods and services to be ordered against the benefits and advantages of their procurement, especially in the light of alternative or competing demands.

2.3.2.2. Place ordering agencies in the position of critically evaluating purchase prices (that is, costs of performing activities) as well as quality and delivery-speed of goods and services ordered.

2.3.2.3. Enable ordering agencies to budget and account on an “end-product” basis (the same as when buying from commercial contractors), thereby simplifying budget presentations, budgetary control, and accounting procedures for both producers and ordering agencies.

2.3.2.4. Encourage ordering agencies’ management to improve program planning and scheduling in response to producers’ efforts to plan and negotiate for orders as far in advance as feasible.

2.3.2.5. Establish, whenever feasible, standard prices or stabilized rates and unit prices for goods and services furnished by DWCF activities, thus enabling ordering Agencies to more confidently plan and budget.

2.3.2.6. Furnish managers of DWCF activities with modern management tools comparable to those utilized by efficient private enterprises engaged in similar types of activities.

2.3.2.7. Improve cost estimating and cost control through comparison of estimates and actual costs.

2.3.2.8. Obtain alert, forward-looking financial planning at DWCF activities by making them financially dependent on reimbursements received for goods and services furnished in fulfilling orders from customers.

2.3.2.9. Encourage producers of goods and services to coordinate labor forces and inventories with workload, budgeting, and cost control.

2.3.2.10. Provide flexibility within budget cycles to changes in supply and demand.

2.3.3. A charter must be prepared in accordance with Chapter 2 and submitted to the Office of the Under Secretary of Defense (Comptroller) (OUSD(C)), Program/Budget, Director of Operations for approval. Before charter preparation, ensure that the proposed business entity meets the criteria established as described in Chapter 2, paragraph 2.2. Each DWCF business entity must review its charter annually to assure it remains current. Changes must be prepared and submitted to the OUSD(C) Director of Operations for approval.

2.4 Financing

2.4.1. The DWCF receives its initial working capital through an appropriation or a transfer of resources from existing appropriations of funds and uses those capital resources to finance the initial cost of products or services.

2.4.2. Financial resources to replenish the initial working capital and to permit continuing operations are generated by the acceptance of customer orders. After initial capitalization, a DWCF activity's operations are funded by the reimbursements it receives from its customers for the goods or services provided.

2.4.3. Customers may not place orders with DWCF activities for the purpose of extending the life of their appropriations or avoiding any statutory limitation or restrictions pertaining to those funds. Additional guidance applicable to all working capital funds can be found in Volume 3, Chapter 19.

2.4.4. Amounts earned by the DWCF are available for financing obligations without fiscal year limitation, although DWCF activity obligation authority is dependent on receipt of contract authority, and/or cost authority provided by the receipt of customer orders as documented in the DWCF activity annual operating budget.

2.4.4.1. The Supply Management activity groups and the Capital Investment Program receive contract authority. Contract authority permits obligations to be incurred in advance of appropriations or in anticipation of receipts from customers, but in accordance with an apportionment, allotment, or other limiting authority.

2.4.4.2. Other than the Supply Management activity groups and the Capital Investment Program, all other DWCF obligations must be supported by budgetary resources that are immediately available for outlay even though the outlay may not occur until a future date.

2.5 Authorized Customers

Customers of the DWCF activity may be:

2.5.1. Any DoD command, organization, office, or other element.

2.5.2. Non-DoD federal government agencies.

2.5.3. Private parties and concerns when authorized by law including foreign governments, and state and local governments.

2.5.4. Those U.S. manufacturers, assemblers, or developers authorized by 10 U.S.C. § 2208(h) and in accordance with 10 U.S.C. §§ 2563 and 7543.

2.6 Sources of Budgetary Resources

When an activity receives budgetary resources from more than one source (spending authority from offsetting collections, direct appropriation, contract authority), the receiving activity must maintain records that will enable it to control and separately report the transactions relating to each type of source (in accordance with OMB Circular A-11). Budgetary resources may be received at any level of an organization from the individual activity up to the Departmental level.

2.7 Annual Operating Budgets

Annual operating budgets for the DWCF provide official management cost goals to the Military Services and Defense Agencies for each individual activity group. The annual budget consists of two primary parts—the operating budget and the capital budget. The operating budget represents the annual operating costs of an activity or Component, including depreciation and amortization expenses. The capital budget represents the amount of financial resources that are authorized for use in the acquisition of capital assets. Volume 2B, Chapter 9 and Volume 3, Chapter 19 provides additional details on the annual operating budgets for the DWCF.

2.8 Customer Orders

Customer orders (funded requests for goods or services) provide budgetary resources necessary to finance operations for non-supply management activities, and to liquidate contract authority for supply management activities. Budgetary resources are recognized from anticipated customer orders that obligate budgetary resources of another federal government activity, and from cash advances from non-federal customers, to include orders from non-appropriated fund instrumentalities. To be valid, customer orders must be obligations of a federal government activity and cash advances from nonfederal customers. Cash advances may also be requested from federal government activities when directed and approved in advance by the OUSD(C). When accepted, customer orders create a quasi-binding contractual relationship between a DWCF activity and its customer since acceptance of a customer order requires that the performing entity agree in writing to perform the work for the customer entity. Except as authorized in Chapter 11, a DWCF business entity must not initiate work or services or incur obligations in excess of anticipated orders received unless specific authorization is provided by a signed annual operating budget approved by the Director of Operations, to ensure other budgetary resources are available at the DWCF sub-account level. Customers may request a deobligation of their funds for goods or services ordered that were not provided. Return of customer funds is permissible only if the DWCF activity has not commenced work on the good or service ordered or incurred an obligation for those goods or services.

2.9 Stabilized Rates and Prices

The DWCF individual activity groups operate on a break-even basis in accordance with budgetary guidance contained in Volume 2A and Volume 2B. Rates are required to be established during the budget process at levels estimated to recover the budgeted costs of goods or services to be provided including all general and administrative overhead costs, prior period gains and losses,

and applicable surcharges. The budget process ensures that adequate resources are requested in the customers' fund accounts to pay the established rates and prices. Specific budget formulation requirements are contained in Volume 2B, Chapter 9.

2.10 Restrictions on Use of Customer Appropriations

2.10.1. Customers must comply with statutory limitations and restrictions imposed on the appropriated funds charged when placing an order with the DWCF. A DWCF customer cannot use appropriated funds to do indirectly (i.e., through placement of an order with a DWCF activity) that which it is not permitted to do directly. Thus, the availability of an appropriation funding an order cannot be expanded or changed by placement with an activity financed by the DWCF.

2.10.2. Appropriated funds cited on reimbursable orders are available only for the purposes permissible under the source appropriation and remain subject to the same restrictions. The ordering activity retains primary responsibility for determining the applicability of the appropriated funds cited on the order. However, if instances arise when it is apparent that the ordering appropriation is not appropriate for the purpose provided, then the DWCF activity should return the order with a request for an applicable appropriation to cite.

2.11 Financial Reporting

Under the provisions of 31 U.S.C § 3515 and 10 U.S.C 2208(n), the Department is required to have audited financial statements covering all accounts and associated activities of the Department. The DWCF financial information will be included in DoD's Annual Financial Report. Specific financial statement reporting requirements are contained in OMB Circular A-136, "Financial Reporting Requirements." Volume 6B also identifies recurring reporting requirements applicable to the DWCF.

2.12 Mobilization Capability

Each DWCF activity group must plan for and maintain the capability to expand or alter operations, or to provide extraordinary supply or other functional area support necessary, to meet an operational contingency as documented in Defense Planning Guidance or operational plans. All costs at individual activities within the DWCF related to maintaining a capacity to meet mobilization requirements will be reimbursed by funds that are from direct appropriations and will not be financed through customer rates. Volume 2B, Chapter 9 provides specific guidance for the types of mobilization costs that can be funded by a direct appropriation.

3.0 RESPONSIBILITIES OF MANAGEMENT

3.1 Under Secretary of Defense (Comptroller)

3.1.1. Establish DoD policy on DWCF operations.

3.1.2. Provide oversight on all financial management activities relative to the operations of the DWCF.

3.1.3. Authorize or approve DWCF Charters of specific activities to be included in the DWCF and the terms under which such activities must be operated.

3.1.4. Rescind the DWCF Charters of specific activities that no longer meet DWCF criteria or that may be operated more efficiently under other financing.

3.1.5. Establish all necessary budget preparation, accounting, and reporting policies.

3.1.6. Review and approve operating and capital budgets, and monitor and analyze budget execution.

3.1.7. Provide DWCF operations oversight through budget execution reviews.

3.1.8. Advise DWCF managers on accounting and reporting policies.

3.1.9. Monitor compliance with this guidance and other policy issuances through analysis of reports, audits, and reviews of business entity operations.

3.1.10. Exercise funds control responsibilities in accordance with congressional direction, OMB guidance, and DoD policy.

3.2 Director, Defense Finance and Accounting Service (DFAS)

3.2.1. Advise and assist the USD(C) in the development of requirements, systems, and procedures to comply with statutory and regulatory requirements.

3.2.2. Advise DWCF activities on the accounting and reporting procedures.

3.2.3. Issue supplementary instructions [as needed](#) for unique requirements within the DoD Components and to provide detailed operating instructions.

3.2.4. Review DWCF accounting systems for compliance with established financial systems requirements.

3.2.5. Prepare external and internal accounting reports for the DWCF.

3.3 Military Department Secretaries and Defense Agency Directors

3.3.1. Manage DWCF activities within approved funding limitations.

3.3.2. Designate a management agency or command to be responsible for effective management of each DWCF activity.

3.3.3. Comply with, and recommend changes to, this and other governing regulations.

3.3.4. Provide periodic financial and management information as required by the USD(C).

3.3.5. Submit to the USD(C) proposed Charters authorizing new DWCF activities or rescinding Charters of existing DWCF activities.

3.4 DWCF Activity Management Agency or Command

3.4.1. Budget and provide appropriated funds for the costs of maintaining unutilized plant and facilities being held for mobilization purposes at DWCF activities. Mobilization maintenance costs for unutilized plant and facilities include costs of labor, materials, contractual services, and overhead that were incurred for that purpose. Retention of facilities in excess of those necessary for current or planned workload must be in accordance with DoDD 4275.5, “Acquisition and Management of Industrial Resources.” The acquisition, retention, or disposal of unutilized plants and facilities at transportation activities must be approved by the Deputy Under Secretary of Defense (Acquisition and Sustainment).

3.4.2. Assign responsibility and authority to designated officials for management and operation of DWCF activities.

3.4.3. Assure that all DWCF activities operate within approved funding limitations.

3.4.4. Evaluate the operation of DWCF activities to determine compliance with established requirements.

3.4.5. Initiate change, as needed, to the charter of the DWCF activities.

3.5 Individual DWCF Activity Management

3.5.1. Incur obligations and costs as necessary and allowable to perform the activity mission.

3.5.2. Control performance costs in line with the annual budget approved by the USD(C).

3.5.3. Evaluate the operation of DWCF activities to determine compliance with established requirements.

3.5.4. Identify to higher management any impediments in achieving performance and cost goals.

3.5.5. Identify and justify to higher management investments that will produce future improvements in effectiveness and efficiency.

3.5.6. Establish, monitor and assess internal controls and resolve internal control weaknesses.

3.6 DWCF Activity Customers

3.6.1. Budget for the cost of material, work, and services ordered from a DWCF activity.

3.6.2. Manage budgetary resources provided in annual operating budget for the cost of material, work, and services ordered from DWCF activities.

3.6.3. Notify the DWCF Activity Management as early as possible if it wishes to terminate a previously ordered service. The customer is liable for funding all costs incurred with service delivery until termination.

4.0 ACCOUNTING STANDARDS

The DWCF will adhere to the accounting standards hierarchy in Volume 1, Chapter 2.

5.0 DWCF SYSTEMS AND CONTROL

5.1 DWCF Financial Management Systems

5.1.1. Transactions are executed in accordance with budgetary and financial standards and requirements issued by OMB and Treasury, consistent with the purposes authorized, and are reported in accordance with the Federal Accounting Standards Advisory Board, Statements of Federal Financial Accounting Standards.

5.1.2. Assets are properly safeguarded to deter fraud, waste and abuse.

5.1.3. Performance measurement information is adequately supported.

5.2 DWCF Accounting Systems

DWCF accounting systems must have the capability to account for the status of budgetary resources on a continuous basis. Budgetary controls must be designed to prevent incurring obligations in excess of budgetary resources. System owners must ensure compliance with each new Standard Financial Information Structure matrix that is updated based on guidance released from Treasury.

5.3 Legacy Systems

DoD Components will continue to bear the cost of their legacy system until they have fully transitioned to the emerging/migratory system. However, if the Component has not fully transitioned from the legacy system to the emerging/migratory system due to a DFAS related implementation problem, then the customer bears no direct cost for the legacy system. The costs for the legacy system that DFAS cannot abolish will go into the DFAS customer rates as part of overhead costs. See Figure 1-1.

5.3.1. If the customer has fully transitioned from the legacy system to the emerging/migratory system, then that customer bears no direct cost for the legacy system. However, the costs for a legacy system that DFAS cannot abolish will go into the DFAS customer rates as part of overhead costs.

5.3.2. If the customer has not fully transitioned from the legacy system to the emerging/migratory system but the customer is running the systems parallel for testing purposes, to include running the legacy system for prior year data not transitioned, then that customer bears a cost for both systems until the customer fully transitions to the emerging/migratory system.

5.3.3. If the customer has not transitioned from the legacy system to the emerging/migratory system because of DoD Component related implementation problems, then that customer will bear the cost for the legacy system even if they are the last DoD Component on the legacy system.

5.3.4. If the customer has not transitioned from the legacy system to the emerging/migratory system due to a DFAS related implementation problem, then that customer bears no direct cost for the legacy system. The costs for a legacy system that DFAS cannot abolish will go into the DFAS customer rates as a part of overhead costs.

5.3.5. The customer must be fully transitioned from the legacy system to the emerging/migratory system before the beginning of a new fiscal year. It is not appropriate to change allocation of legacy costs between customers in the year of execution.

5.3.6. When all customers have transitioned to the emerging/migratory system and DFAS is able to abolish the legacy system, the system's residual undepreciated value will be charged to the DFAS Accumulated Operating Result.

6.0 FUNDS MANAGEMENT

Financial resources establishing a DWCF must be appropriated. Continuing operations are generated by reimbursements received. Anticipated reimbursements and anticipated customers' orders are not considered a budgetary resource. Obligations incurred (Undelivered Orders – Obligations, unpaid or Prepaid/Advanced and Delivered Orders – Obligations, paid or unpaid) are claims against budgetary resources. A sufficient fund balance with the Treasury must support all DWCF cash outlays. Refer to Volume 3, Chapter 19 for further guidance on funds management.

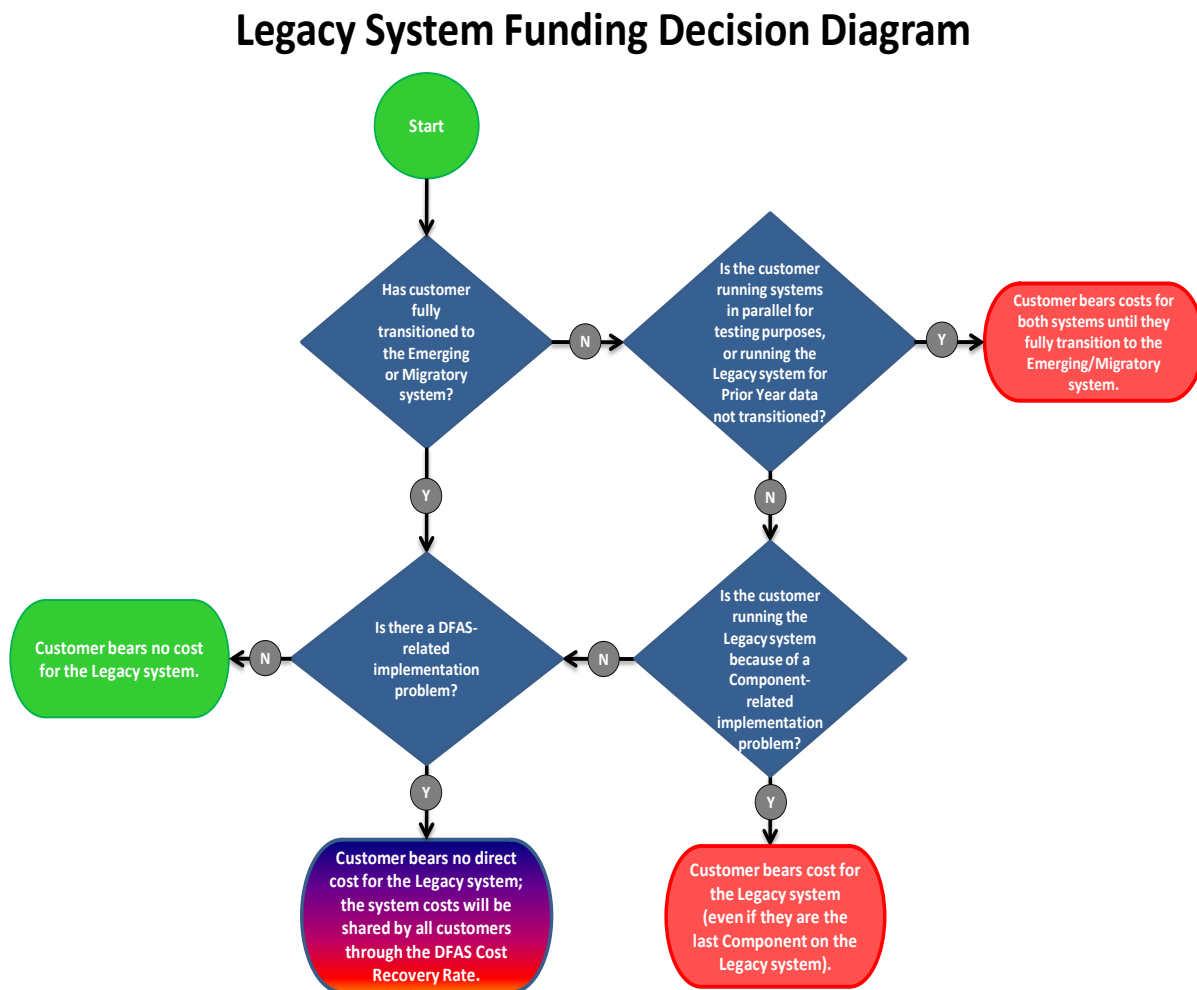

7.0 GENERAL LEDGER ACCOUNTS

All DWCF activities must adhere to the United States Standard General Ledger (USSGL) published by the Treasury Bureau of the Fiscal Service. The USSGL Standard Financial Information Structure Transaction Library provides a decomposition of USSGL accounting transactions for DoD. See Volume 1, Chapter 7 for further details.

8.0 AUDITING

Under 31 U.S.C. § 3515, the DoD activities, of which a DWCF is considered a component, are required to prepare audited financial statements. While preparing for and undergoing audit, DWCF activities must be able to provide documentation that must be of sufficient quality to allow an independent third party, such as an external auditor, to understand and verify the basis, value, and rationale for recorded amounts. The DWCF is subject to audit by the DoD Inspector General, the Government Accountability Office, and other parties when contracted or otherwise authorized.

CHAPTER 2

ESTABLISHMENT OF DEFENSE WORKING CAPITAL FUND ACTIVITIES, TRANSFER OF FUND FUNCTIONS AND CLOSURE OF FUND ACTIVITIES

1.0 GENERAL

1.1 Purpose

This chapter prescribes requirements for the chartering of Defense Working Capital Fund (DWCF) activities. This chapter also provides requirements for transfer of fund functions and closure of fund activities.

1.2 Authoritative Guidance

Title 10, United States Code, section 2208 ([10 U.S.C. § 2208](#)) authorizes the Department of Defense (DoD) to establish DWCFs to finance inventories of supplies and provide working capital for industrial and commercial-type activities. The accounting policies and related requirements prescribed by this chapter are in accordance with:

1.2.1. [10 U.S.C. § 2687](#), “Base closures and realignments,” also known as Base Realignments and Closures (BRAC);

1.2.2. Office of Management and Budget ([OMB Circular A-11](#));

1.2.3. Federal Accounting Standards Advisory Board (FASAB) Statement of Federal Financial Accounting Standards ([SFFAS 3](#)), “Accounting for Inventory and Related Property;”

1.2.4. FASAB [SFFAS 6](#), “Accounting for Property, Plant and Equipment;” and

1.2.5. FASAB [SFFAS 7](#), “Accounting for Revenue and Other Financial Sources and Concepts for Reconciling Budgetary and Financial Accounting.”

2.0 ESTABLISHMENT OF DWCF ACTIVITIES

2.1 Submission of Charter

Prior to the financing of an activity under the DWCF, a proposed charter must be submitted to the Office of the Under Secretary of Defense (Comptroller) (OUSD(C)), Program/Budget (P/B) Operations Directorate for approval.

2.2 Criteria for a DWCF Activity

In order for a Service or DoD agency organization, program, or function to be considered for inclusion in the DWCF it must meet all of the following criteria:

2.2.1. Materials produced or services provided are shared or required by a group of customers or are common requirements of more than one major command, and/or DoD Component.

2.2.2. A cost accounting system is available that is capable of collecting costs of producing outputs. The activity must have the capability to charge prices or rates that are capable of recovering the full funded costs of the provided goods and services in accordance with Chapter 1. For additional information on general cost concepts refer to Volume 4, Chapter 19.

2.2.3. Activities that require and order products or services (i.e., customers) can be identified so that resources can be aligned in the account of the customer with the requirement. The demand for the goods or services to be provided by the program or organization must come from multiple customers within DoD and/or other federal government entities.

2.2.4. Identification of a buyer-seller relationship to the extent that the buyer can influence cost, workload, and the buyer has alternative sources that can provide the products or services. Operation of the program or organization as a DWCF business area should result in a better identification of the full cost of operations and may also result in better quality goods/services and/or result in decreased costs to the federal government.

3.0 DWCF CHARTER REQUIREMENTS

3.1 Charter Format

The DWCF charter format is included in Annex 1. Charter provisions are applicable to each DoD Component activity group included within the DWCF. The charter must describe the mission of the Component by activity group. Before charter preparation, actions must be taken to ensure that the proposed business entity meets the criteria listed in paragraph 2.2. Activities must document these criteria as it applies to all proposals for new DWCF business entities, as well as, the addition of new lines of business within existing DWCF business entities.

3.2 Charter Contents

Each charter must include the following as a minimum:

3.2.1. Statutory authority that authorizes the establishment of a DWCF activity or activity group.

3.2.2. Brief description of the mission of the activity or activities and nature of its products or services.

3.2.3. Designation of the organization (Management Command) directly below the departmental-level that has authority over the management of the DWCF activity group. Additionally, the charter must state whether the Management Command is funded from the DWCF.

3.2.4. Name and location of the activity or activities to be operated under the charter.

3.2.5. Statement of any policy exceptions specifically authorized for the fund's activity group or any activity included within the fund's activity group.

3.2.6. Cancellation of any previously approved charter(s), if applicable.

3.3 Charter Support

Documentation supporting the charter application of an activity requesting entry into the DWCF must include:

3.3.1. Explanation of how the proposed DWCF activity meets the minimum criteria identified in paragraph 2.2 and any additional OUSD(C) requirements for the specific activity or activities.

3.3.2. Justification of any exception to the provisions in Chapter 1.

3.4 Amendment or Cancellation of Charters

Requests for cancellations or amendments of existing charters must be forwarded to the OUSD(C), P/B Operations Directorate for approval and supported by the following information:

3.4.1. Justification for the proposed action that may consist of copies of supporting evaluations or studies.

3.4.2. Information as to the disposition of assets and liquidation of liabilities, as necessary.

3.5 Annual Charter Review

The DoD Components must review DWCF operations each fiscal year to ensure that the charters are current. Any required changes must be submitted to the OUSD(C), P/B Operations Directorate in accordance with paragraph 3.4.

4.0 COMMENCEMENT OF DWCF OPERATIONS

Upon charter approval and commencement of DWCF operations, financial control over initial appropriations, assets, liabilities, and capital must be established in accordance with the following guidance:

4.1 Initial Appropriation and/or Reappropriation

4.1.1. Before a DWCF activity can begin operations, it needs fiscal resources. To begin initial operations, a DWCF business entity is provided necessary capital either by a nonexpenditure transfers from another DWCF or appropriation, following congressional notification required by 10 U.S.C § 2208(r); or Congress may appropriate initial capital in response to a request in the President's budget submission to Congress. The latter is necessary when the level of anticipated cash available is estimated to be insufficient during the initial fiscal year of operation. Appropriations made available to commence operation of a DWCF entity remain available for obligation without fiscal year limitation for their specified purpose until expended or withdrawn.

4.1.2. A reappropriation to a DWCF activity is statutory authority to restore or extend the obligational availability of all or part of the unobligated balance of budget authority that has expired or would otherwise expire in an annual or multiple-year appropriation. Typical budgetary and proprietary accounting entries applicable to receipt and distribution of appropriations and reappropriations are illustrated in Volume 3, Chapter 13. The accounts established for use by departmental-level accounting entities are outlined in the DoD United States Standard General Ledger (USSGL) Transaction Library located on the Standard Financial Information Structure ([SFIS](#)) web page. For additional information regarding DWCF distribution of budgetary authority, refer to guidance issued by the OUSD(C), Deputy Chief Financial Officer, "[Accounting for Internal Distribution of Budgetary Authority–Defense Working Capital Fund,](#)" (DoD Common Access Card is required to access the link).

4.2 Initial Assets and Liabilities

4.2.1. To commence operations, working capital may be provided by a nonexpenditure transfer of fund balances from another appropriation or federal (general) fund account to the DWCF account. Volume 3, Chapter 13 contains information about nonexpenditure transfers.

4.2.2. Personnel assigned from an appropriated fund activity to a DWCF activity are accompanied by a liability for accrued earnings and annual leave earned by those employees prior to their transfer. Payment in the form of cash or other equivalent assets such as inventories or equipment must be made to the receiving DWCF activity for the liabilities assumed.

4.2.3. Assets provided from other appropriations or funds to commence operations of a DWCF activity must be recorded as Financing Sources Transferred in Without Reimbursement. The DWCF must record a liability for an item transferred from a non-DWCF account only when the item is undelivered at the time of the transfer and the obligation for the item on the books of the organization from which the item was transferred resulted from a reimbursable order from a customer. Otherwise, bills for assets on order at the time of the transfer to the DWCF must be

paid by the appropriation or fund originally ordering the item. This is appropriate since the original appropriation or fund ordering the item was funded through the budget process to procure the item.

4.2.4. Depreciation of capital assets that are transferred into a DWCF activity without reimbursement and with no pre-existing depreciation schedules or accumulated depreciation, must be calculated based on the net value (original acquisition cost less calculated accumulated depreciation) plus any associated costs for transportation, installation, and other related costs necessary to put the asset into operational use. For additional information on accounting for general Property, Plant, and Equipment (PP&E), refer to Volume 4, Chapter 25, “General Equipment.”

4.2.5. At the time of initial capitalization, Financing Sources Transferred In Without Reimbursement must equal the value of all assets excluding the nonexpenditure transfer of U.S. Department of the Treasury (Treasury) fund balances from other appropriations, plus the initial appropriation transferred to the activity without reimbursement or assumption of liability by the DWCF, less the sum of the obligations transferred to the activity for which DWCF resources are liable for future disbursement.

5.0 TRANSFER OF DWCF FUNCTIONS

5.1 Transfer Actions

The general actions and related procedures in paragraphs 5.2 through 5.8 must be followed when transferring all or a portion of the functions from a DWCF activity to another DWCF activity or to an appropriation funded activity. Specific actions and procedures are usually necessary to accommodate unique circumstances of the transferring activities.

5.2 Functions to be Transferred

In the case of a partial transfer of functions, specific negotiations must take place between the affected organizations to identify specific functions that are to be transferred, the effective date(s) of transfer, and the disposition of functions not transferred. Action must be taken to ensure that valid requirements are funded by the activity having the requirement. Follow-on negotiations should identify and remedy any initial oversight and specific directions should be provided once these follow-on actions are complete. All actions taken must be consistent with the negotiated agreements. Pending final negotiations, all excluded functions must remain with the current organization.

5.3 Physical, Financial, and Personnel Resources

The organizations involved must identify resources to be transferred incident to the functional transfer. Follow-on actions must identify resources not recognized in the original negotiations, and specific directions must be provided commensurate with finalized agreements. All actions taken must be consistent with negotiated agreements.

5.4 Interim Funding

If an interim funding method is to be used to fund the transfer, pending resolution of other issues, the organizations involved will determine the method and intended duration of the interim funding. Funding provided by a locally established order should not exceed 30 days.

5.5 Budgetary Accounts

5.5.1. There should not be an automatic transfer of budgetary account balances from the losing activity to the gaining activity. Where items included in an existing obligation or order are for continuing services or other requirements of the transferred entity, an agreement must be negotiated between the losing and gaining activities. This agreement must specify whether accountability will remain identified to the losing activity, or if documents will be modified to reflect the gaining fund cite and paying office. In instances where accountability remains identified to the losing activity, a reimbursable support agreement must be negotiated, and accounting support must continue to be provided by the losing activity and paid for by the gaining activity. For more information regarding support agreements, refer to DoD Instruction [\(DoDI\) 4000.19](#), “Support Agreements.”

5.5.2. All actions relating to the fiduciary aspects of the transfer will be captured and monitored as part of the overall transfer plan. A senior financial official from the organizations involved and the servicing DFAS site will be identified and accountable for ensuring the integrity of the post transfer financial balances. Specific action items will be identified in the transfer plans to ensure that all account balances are maintained and properly liquidated subsequent to the transfer. Transferred balances will be closely monitored to ensure that pending and in-process transactions are properly posted in a timely fashion, and balances are not orphaned. The following actions are needed for the transfer of outstanding commitments, obligations, and unfilled customer orders.

5.5.2.1. Outstanding commitments for functions to be transferred from the losing activity should be canceled, but only when managed in coordination with the gaining activity to ensure that the procurement cycle is not interrupted. Concurrent with cancellation at the losing activity, the new commitment must be entered into the accounting system by the gaining activity, and purchases under the document must reflect the gaining activity as the accountable entity. In those cases, where cancellations of an outstanding commitment would unduly interrupt the purchase cycle, a modification to the outstanding order or continued funding by the original ordering activity may be made for reimbursement to the gaining activity.

5.5.2.2. Undelivered orders and other outstanding obligations account balances must not be transferred from the losing activity to the gaining activity without validation. If orders cannot be validated, they must be canceled or stay on the books of the losing activity. All undelivered orders and other outstanding obligations for goods and services ordered but undelivered directly related to functions transferring from the losing activity must be reviewed, and decisions made on the appropriate disposition for each transaction. Undelivered orders and other outstanding obligations for items or services no longer required must be canceled, and any termination costs, which result from the cancellation, must be the responsibility of the losing

activity. If outstanding obligations support a continuing need, that need either may be filled through a modification to the undelivered order or continued funding by the original ordering activity with reimbursement from the new requiring activity.

5.5.2.3. Unfilled customer order account balances must not be transferred from the losing activity to the gaining activity without validation. Unfilled customer orders citing current funding which are directly related to functions transferring from the losing activity must be reviewed to determine what orders for goods or services remain outstanding, and to identify the activity responsible for providing these goods or services to the customer. If goods or services are to be provided by the gaining activity, reimbursement to the gaining activity may be provided either through an amendment to the unfilled customer order or through funding provided by the losing activity. If an unfilled customer order is amended, the losing activity, along with the gaining activity, must ensure that the customer is advised of this decision. If goods or services are to be provided by the losing activity, the losing activity must continue to bill the customer, and return any remaining unobligated balances to the customer after the order is completed.

5.6 Proprietary Accounts

All actions relating to the fiduciary aspects of the transfer will be captured and monitored as part of the overall transfer plan. A senior financial official from the organizations involved and the servicing DFAS site will be identified and accountable for ensuring the integrity of the post transfer financial balances. Specific action items will be identified in the transfer plans to ensure that all account balances are maintained and properly liquidated subsequent to the transfer. Transferred balances will be closely monitored to ensure that pending and in-process transactions are properly posted in a timely fashion, and balances are not orphaned.

5.6.1. Actions required for the transfer of real property from one DoD entity to another is detailed in Volume 4, Chapter 24, “Real Property.” Real property will be reported on the financial statements of the installation host. Real property is usually reported on the Military Department General Fund financial statements, but a Military Department Working Capital Fund (WCF) can report real property on its financial statements if it has been given jurisdiction over a specific installation. WCFs or other business like activities must impute costs in accordance with [SFFAS 55](#). These imputed costs would include depreciation expense. The imputed costs will include what would otherwise have been depreciation expense for real property assets and improvements that were funded by the WCF and subsequently transferred to the General Fund, as well as any depreciation expense or other costs for assets not funded by the WCF. See Annex 2 of Volume 4, Chapter 24 for determining applicable imputed costs. Transfers of assets must include all relevant supporting documentation, as detailed in Volume 1, Chapter 9, “Financial Records Retention.”

5.6.2. Information on Construction-in-Progress (CIP) may be found in Volume 4, Chapter 24. The funding entity reports CIP for real property (including improvements) in its CIP account until the asset or improvement is placed in service. The funding entity also relieves CIP when the asset or improvement is placed in service.

5.6.3. Detailed information on work-in-process may be found in Volume 4, Chapter 4, “Inventory and Related Property.” Work-in-process for customers (unfilled customer orders) must not be transferred from the losing activity to the gaining activity without validation. Transactions outstanding prior to the transfer must remain on the accounting records of the losing entity until completed, canceled, or reissued as a gaining activity responsibility.

5.6.4. Additional information on raw materials may be found in Volume 4, Chapter 4. Raw materials on hand that must be transferred should be validated prior to their transfer. If the precise value of raw materials for which accounting is to be transferred cannot reasonably be validated prior to transfer, representatives from both the losing and gaining activity must jointly review the most current physical and financial reconciliation records available. Concurrently, any apparent abnormal financial values or financial transactions, which appear abnormal, must be jointly reviewed and a consensus reached as to the reliability of records being transferred. Statistical sampling or other methods of verification should be used, as appropriate. Records of accountability being transferred must be as reasonably accurate as possible. Raw materials accounting transfers must be based on the mutually validated on hand values of the accountable records of the losing activity. Accountability for raw materials should be maintained using existing supply and financial records.

5.6.5. Detailed information on inventory may be found in Volume 4, Chapter 4. Inventory in transit is the value of items moving between a DoD supply activity and a contractor or other government supplier, or moving between storage locations within a DoD Component. Amounts posted to this account are based upon ownership acceptance, or payments made for materiel not yet physically received. Amounts recorded in this account are supported by individual documents evidencing the ownership acceptance or payment prior to receipt. Inventory transfers must be performed in accordance with the procedures described in Volume 4, Chapter 4.

5.6.6. Detailed information on accounts receivable may be found in Volume 4, Chapter 3, “Receivables.” Accounts receivable that are to be transferred should be validated prior to their transfer by representatives from both the losing and gaining activity. Records of accountability being transferred must be as reasonably accurate as possible. Any adjustment amounts must be included on the accountable records of the losing activity. Action may be taken to terminate collection action and write off the debt when the criteria in Volume 4, Chapter 3 apply. All remaining and transferred balances will be closely monitored by the involved organizations and the servicing DFAS to ensure timely and proper liquidation occurs.

5.6.7. Detailed information on liabilities may be found in Volume 4, Chapters 9 and 10.

5.6.7.1. If the precise value of accounts payable for which accountability is to be transferred cannot reasonably be validated prior to transfer, representatives from both the losing and gaining activity must jointly review the most current physical and financial reconciliation records available. Statistical sampling or other methods of verification should be used, as appropriate.

5.6.7.2. The liability for accrued payroll and annual leave for employees transferring from a revolving fund activity to another revolving fund activity or to an appropriated activity becomes a liability to the gaining activity as of the date of the transfer. This liability must be recorded on the respective records in the appropriate net position and liability accounts. The losing revolving fund activity must provide a listing to identify individuals transferring and confirm the value of the leave liability of those employees. Regardless of the contributing event, a revolving fund activity that loses employees through reorganization or transfer to an appropriation-financed activity must transfer cash equal to the accrued payroll to the gaining appropriated fund activity and cash equal to the amount of any funded accrued annual leave value to the Treasury as miscellaneous receipts.

5.6.8. Detailed information on net position may be found in Volume 4, Chapter 15. An increase to net position is recognized when an activity operating within the DWCF receives an asset that does not require the use of available resources to finance the item. Conversely, a decrease to net position is recognized each time an activity receives a liability (e.g., accounts payable and unfunded annual leave) from another activity for which payment in the form of cash or other assets is not provided. Entries vary depending on what is being transferred. Various situations have been covered in the preceding paragraphs detailing transactions that impact net position. Additional information relating to Changes in Net Position may be found in Volume 6B, Chapter 6.

5.7 Determine New Fund Citation and New or Revised Data Structure

5.7.1. A fund citation must be used on all accounting documents. To permit continued operation of transferred functions by the gaining activity, the gaining activity must ensure that the proper fund code is provided to those installations transferring to its command and that instructions for preparation of requisitions are provided with sufficient time to ensure billing to the proper accountable activity. The fund citations provided must include the applicable accounting classification code, and must identify any applicable fund code(s), either system unique, or DoD-wide, or both. All obligating documents such as contracts, small purchase actions, travel orders, training requests, and requisitions prepared for purchase of materiel from the military supply system or the General Services Administration must cite the gaining activity accounting classification code.

5.7.2. A DoD Activity Address Codes (DoDAAC) is used to identify a DoD installation (or, in some instances, components thereof) for purposes of mail and communications, shipment of materiel, or billing for assets issued from the DoD military supply system. Each of the DoD Components controls the DoDAAC assignments; however, they are centrally maintained and distributed to the DoD Components by the Defense Automatic Addressing Systems Office to ensure total system visibility. The DoDAAC (in Navy terms, the Unit Identification Codes) is required on Military Standard System requisition documents to ensure compatibility with the logistics management systems. These requisition documents become obligating documents and are the basis for creation of other logistics and financial documents. The circumstance of each transfer action may require identification of the transferred or consolidated segment of the losing activity as a new entity. In such cases, new DoDAACs must be established and distributed to applicable activity personnel to ensure the proper preparation and subsequent processing of

transactions for accounting and reporting. Concurrently, each transfer must be evaluated to ensure that all Service Code assignments, fund code assignments, routing identifier codes, and all other Military Standard supply and financial systems coding have been established consistent with the transfer status of the new entity. Additional information relating to DoDAACs can be found in the Defense Logistics Manual ([DLM](#)) [4000.25, Volume 6](#), Chapter 2.

5.8 Other Actions Required to Accomplish the Accounting Transfer

5.8.1. Reimbursable agreements may exist between the losing installation and other entities for the provision or receipt of services and other support. It is essential that such reimbursable agreements be identified and that the gaining activity and the providing or receiving entity negotiate Intra-Service Support Agreements or Service Support Agreements to define reimbursable services and support to be provided and received. The agreement should be in accordance with DoDI 4000.19.

5.8.2. The transfer of payroll processing must normally be accomplished either at the beginning of a pay period or at the beginning of a fiscal year. Whenever payroll transfers occur, an agreement must be negotiated between the activities as to the date to be used for transfer. The losing activity is responsible for the salary and benefits of all transferring employees through the agreed upon transfer date. The losing activity also must be responsible for payment in the form of cash or other assets for any unused compensatory time, and merit pay bonuses earned by transferring employees for the fiscal year.

5.8.3. Travel advances and outstanding travel obligations for travel, which has occurred, or is in-process, must remain with the losing activity pending settlement. Only travel for transferring activity personnel beginning after the effective date of the transfer must be an obligation of the gaining activity. The losing and gaining activity must jointly review outstanding travel documents and deobligate those no longer valid. Where temporary duty begins before and ends after the effective transfer date, travel documents must contain fund citations (and appropriate estimates) to ensure payment of travel costs commensurate with the duty station of the individual during each of the travel periods. Separate travel documents for each period are recommended. Copies of all related travel documents must be provided to both the losing and gaining activities to ensure proper processing. The losing activity must prepare the travel order, and make appropriate disbursements. Amounts charged to the gaining activity must be processed as a Transaction for Others or other agreed upon procedures by the losing activity. Losing activities must always obtain authority to cite gaining activity funding on travel orders.

5.8.4. If an outstanding contract(s) is essential to the needs of another DoD activity, that need may be filled through a contract modification citing the appropriation or fund of the other DoD activity. It is especially important that contracts for PP&E be terminated when feasible. Termination costs that result from the cancellation must be identified as base closure costs.

5.8.5. A contract modification must be sent to contractors, under normal change procedures, for each contract for which the responsibility for contract payment is transferred. This is necessary to advise the contractor of a change in paying office. If responsibility for both contract payment and accounting for the losing and gaining activity remains unchanged, a contract

modification is not necessary. Instead, the accounting office must transfer transactions (i.e., payments, refunds, collections) identified to the losing activity that properly belong to the gaining activity and record those transactions as a transaction of the gaining activity. Concurrently, for reports to the Treasury, disbursement and collection values are reported as if they occurred within the gaining activity.

5.8.6. The gaining activity must develop procedures to control and manage the required accounting and system changes. Account control totals and other internal control mechanisms must be developed and used to ensure that accounting integrity is maintained.

5.8.7. The gaining activity must provide specific instructions to new organizational elements transferred to it including points of contact, office symbols and phone numbers, in order to continue the reporting function in an efficient and effective manner.

6.0 CLOSURE OF DWCF ACTIVITY

6.1 Funding

The DWCF does not have any funds available to them for payment of costs or absorption of losses that are not related to their output. Reimbursable rates developed for DWCF activities generally recover only costs incurred in providing requested goods or services. Costs over and beyond those costs generally are not considered in reimbursement rate computations. As a result, the DWCF does not have, through their normal operations, funds available for payment of costs resulting from closure actions that are directed by higher authority such as the BRAC Commission. The OUSD(C), P/B, Directorate for Military Construction provides instructions applicable to budget formulation and congressional justification for BRAC appropriations.

6.2 Closure Actions

The following general actions and related procedures must be followed upon notification that a DWCF activity is to be closed. In the case of a partial transfer of a particular function, specific actions and procedures are identified in section 5.0. Specific actions and procedures are usually necessary to accommodate unique circumstances of the closing activities.

6.2.1. The organizations involved must identify the specific functions to be terminated and the disposition of these functions. Specific guidelines on the disposition of these functions must be provided once the review is complete.

6.2.2. The organizations involved must identify and validate the physical, financial, and personnel resources to be disposed of or terminated at the closing activity. Specific directions must be provided once the review is complete.

6.2.3. The organizations involved must identify any interim funding method and intended duration. If an interim funding method is to be used to fund the closure, the affected organizations must determine the method and intended duration of the interim funding. Funding provided by a locally established order should not exceed 30 days.

6.2.4. The organizations involved must identify outstanding commitments for the functions of the closing activity to be terminated. Outstanding commitments that are not necessary should be canceled.

6.2.5. The organizations involved must review all existing contracts not directly associated with a funded customer order and terminate those for which the contracted service or good is, or must be, no longer essential. It is especially important that contracts for PP&E be terminated when feasible. Termination costs that result from the cancellation must be identified as base closure costs.

6.2.6. The organizations involved must review and validate the undelivered orders and other outstanding obligations of the closing activity. In addition, the accounts payable, the accounts receivable to include unbilled accounts, and the unfilled customer orders, should also be reviewed and decisions made on the appropriate disposition of each transaction. Refer to paragraphs 5.5 and 5.6 for additional information regarding these actions.

6.2.7. The organizations involved must reconcile financial and logistic stock records with physical inventories; determine whether quantities on hand are in excess of requirements to complete the remaining productive workload and other closeout needs; purge the inventories of all obsolete, damaged and surplus items; and dispose of excess material and supplies in accordance with logistics inventory policies and procedures. For detail information on inventory refer to Volume 4, Chapter 4.

6.2.8. The organizations involved must review and validate outstanding travel advances and travel obligations. Travel that is no longer required must be deobligated. Outstanding travel advances and travel obligations for which travel has occurred, or is in-process, must be liquidated prior to closing the activity.

6.2.9. The organizations involved must review and validate advance payments received in advance of performance. If the closing activity has received payment for ordered work in advance of its performance, then the amount of the advance less the amount of obligations, if any, incurred in partial completion of the order must be returned to the financing appropriation. If the amount of the advance is less than the obligations incurred, the closing activity must bill the customer for the unreimbursed obligations incurred and ensure that collection is received prior to closing. Move cost to overhead expense when the BRAC funds expire.

6.2.10. The organizations involved must prepare fiscal year-end financial statements for the closed activity.

6.2.11. The organizations involved must forward a request for cancellation of existing charters to the OUSD(C), P/B Operations Directorate.

6.3 Financing BRAC Related Costs

Costs at a DWCF activity must be financed by a BRAC account when those costs are a direct result of a BRAC determination that a base is to be closed. Stated in a different manner, charges for goods and services provided through DWCF may not include amounts necessary to cover costs incurred in connection with the closure or realignment of a military installation. The BRAC costs are those required to carry out actions that are in direct support of closing or realigning bases. Prior year, current year, or budget year operating losses in the DWCF must not be budgeted in the BRAC base closure accounts. Although overhead associated with the costs listed in this section must be charged to the BRAC account, increases in overhead on existing and new customer work must not be considered a direct result of a determination that a base be closed and, therefore, must not be charged to a BRAC account. Costs identifiable directly to base closure actions must be accumulated separately for reimbursement from a BRAC account. Costs attributable to base closure actions include:

6.3.1. Environmental Restoration and Mitigation includes reducing, removing and recycling hazardous waste, and removing unsafe buildings and debris.

6.3.2. Planning includes advance planning and design that may be required to transfer functions from an activity being closed to another military installation.

6.3.3. Outplacement Assistance in relocation, training, or other necessary assistance to civilian employees employed by the Department at installations being closed.

6.3.4. Community Programs include economic adjustment assistance to a community in which the closed base is located, or community planning assistance to the community to which functions must be transferred as a result of closure of a military installation.

6.4 Financing Non-BRAC Related Base Closure Costs

Paragraph 6.3, specifies costs to be financed from a BRAC account. Other costs at an activity undergoing closure, or to be closed, must not be financed by a BRAC account even though the closure was directed as a result of a determination of a BRAC. Those other costs must be financed either by the DWCF (initially) or by an operations and maintenance appropriation.

6.4.1. The following must be financed by the DWCF (initially) to the extent permitted by amounts available from existing and new customer orders:

6.4.1.1. Current year costs in support of customer orders.

6.4.1.2. Prior year, current year, or budget year operating losses.

6.4.1.3. Increases in overhead even though those increases could be attributed to decisions to close bases.

6.4.2. The following must be financed through a transfer from the Operations and Maintenance (O&M) appropriation of the DoD Component responsible for the activity incurring the following costs and loss:

6.4.2.1. All costs at a closing activity in the year of closure that are not associated with a valid work order or are as a result of other than a determination of a BRAC that the activity be closed.

6.4.2.2. Direct and indirect (including General and Administrative) operating costs for which there are not sufficient resources in existing customer orders or other resources of the closing activity.

6.4.2.3. Current year and prior year losses (to the extent not financed from existing and new customer orders as stated in subparagraph 6.4.1.2) must be financed as a pass through from the O&M appropriation of the DoD Component responsible for the activity incurring the loss.

6.5 Procedures for Requesting DoD Base Closure Account Funds

To request an allocation of DoD base closure account funds, an activity that has been selected for closure by a DoD BRAC determination must request guidance from the OUSD(C), P/B Directorate for Military Construction.

6.6 Allocation of DoD Base Closure Account Funds

Upon OMB's approval of a Standard Form (SF) 132, "Apportionment and Reapportionment Schedule," for the base closure account, the OUSD(C), P/B, Directorate for Military Construction must provide a Fund Authorization Document to the Director for Budget and Finance, Washington Headquarters Services (WHS) to fund the Financial Plan as approved. The Director for Budget and Finance, WHS, in accordance with direction received from the Directorate for Military Construction, must allocate DoD base closure funds to the Military Departments or Defense Agencies. Upon receipt of the allocation from the WHS, the Military Departments or Defense Agencies must distribute the base closure funds to the installations responsible for base closure actions. Upon receipt of the fund distribution, the installation must record the allotment from the DoD base closure account. Budgetary accounting entries to distribute direct funds to an installation-level are illustrated in the DoD USSGL Transaction Library.

6.7 Use of DoD Base Closure Account Funds

An activity must implement base closure and realignment actions and administer its allocation of base closure funds in accordance with the approved financial plan. The prior approval of the OUSD(C), P/B, Directorate of Military Construction, is required if a project that does not appear on the approved financial plan is to be executed. The general ledger entries for recording the accounting transactions on the use of direct funds are illustrated in the DoD USSGL Transaction Library.

6.8 Base Closure Account Reporting Requirements

An installation receiving an allotment of DoD base closure account funds must prepare a report on the status of its allotment. The status report must be transmitted to the entity from which the allotment was received in accordance with the reporting due dates required by that entity.

6.9 Disposition of PP&E Assets

6.9.1. The loss (or gain) from the sale, lease, or other disposal of PP&E assets must be recorded by the activity having financial reporting responsibility of the real property asset (i.e., the real property asset Financial Reporting Organization Code). The sale, lease, or other disposal action must be recorded only in proprietary accounts of that installation. Any proceeds generated from the sale, lease, or other disposal of PP&E assets does not add to, or otherwise affect, the budgetary accounts of that activity. All disposals must be supported as of the date the real property leaves the custody of the DoD Component to provide an adequate audit trail for the disposal of the asset. The execution of certain disposal events will generate financial or administrative accountability transactions. For a list of acceptable supporting documentation refer to Volume 4, Chapter 24.

6.9.2. Proceeds resulting from disposal of real property assets (to include land) due to a base closure directed by a BRAC must be deposited as reimbursements into the DoD Base Closure Account. Proceeds resulting from disposal of real property assets (to include land) due to a base closure directed by other than a BRAC must be deposited as reimbursements into the appropriate Treasury miscellaneous receipt account. Examples of transactions involving proceeds resulting from the transfer or disposal of PP&E include funds derived from temporary leases of government property and property upon which settlement has occurred and title has been passed to the new owners. “Good faith” deposits or earnest funds should be deposited in the Budget Clearing Account (Suspense), F3875, until finalization of the sale (settlement) takes place. Upon finalization of the sale (settlement), deposits made to the Budget Clearing Account (Suspense) must be transferred to the appropriate Treasury miscellaneous receipt account. Per the Treasury Financial Manual [Bulletin 2020-05](#), and consistent with OMB Circular A-11 guidance, the suspense account F3875 is to temporarily hold transactions that belong to the government until the transaction is matched to a specific receipt or expenditure account.

6.9.3. A copy of deposit documents, or other notification, must be provided to the Defense Finance and Accounting Service for all deposits made to a base closure account. The deposit document or other notification must identify the specific base closure account to which the deposit was made.

6.10 Withdrawal of Direct Appropriations or Reappropriations

The withdrawal of a direct appropriation or reappropriation is recorded at the departmental-level. The withdrawal of the allocation, if any, of an appropriation or reappropriation issued to the intermediate or activity-level is recorded as a decrease at the intermediate and activity-level and as an increase at the departmental-level as appropriate. The DoD USSGL Transaction Library is the source for the typical budgetary and proprietary accounting entries applicable to receipt, allocation and withdrawal of appropriations.

6.11 Cumulative Results of Operations

6.11.1. DWCF activity that is undergoing closure should request reimbursement for its recoverable costs, as specified in paragraph 6.4: (1) customer accounts for costs attributable to normal day-to-day operations, (2) the account financing the closure for costs attributable to closure activity, and (3) transfer from the O&M appropriation of the DoD Component responsible for the activity for costs in the year of closure, including prior year losses, that are not associated with a valid work order or are as a result of other than a determination of a BRAC that the activity be closed. All reimbursements and costs (including extraordinary gains and losses) flow to Account 331000, "Cumulative Results of Operations (Normal)." This account displays the net difference since the inception of the Activity between 1) expenses and losses, and 2) financing sources including expended appropriations, revenues, and gains. The account is increased by revenues and the value of assets transferred in; and reduced by expenses requiring current resources, expenses not requiring current resources, expenses recorded that are not currently funded and transfers out.

6.11.2. Upon completion of all operations and all closure activity, Account 331000 of the closed activity must have either a positive or a negative balance. If any portion of the balance in general ledger Account 331000 (Normal) is deferred for recovery from, or return to, customers in the subsequent fiscal year stabilized rate or standard price development that deferred amount must be transferred to general ledger Account 331000 (Deferred). Entries to general ledger Account 331000 (Deferred) must not be made unless the decision to recover or return such amounts from cumulative results of operation was authorized by the OUSD(C), P/B Operations Directorate. Additional information relating to cumulative result of operations may be found in Volume 4, Chapter 15.

6.12 Residual Assets

Any financial assets (e.g., cash, receivables, and unobligated authority) that remain after the closing actions are performed must remain in the DWCF and are available to meet the overall requirements of the DWCF or other obligational authority requirements as may be authorized. All remaining residual asset account balances must be reviewed and validated to determine appropriate actions to be taken. The residual balances must be reduced to zero within one year from the date an activity ceases operations. These actions must be documented in writing and provided to the appropriate management command for action.

6.13 Residual Liabilities

Any financial liabilities (e.g., payables and obligated authority) that remain after the closing actions are performed must remain in the DWCF. All remaining residual liability account balances must be reviewed and validated to determine appropriate actions to be taken. The residual balances must be reduced to zero within one year from the date an activity ceases operations. These actions must be documented in writing and provided to the appropriate management command for action.

ANNEX 1: CHARTER FORMAT

DEPARTMENT OF DEFENSE
(MILITARY DEPARTMENT/DEFENSE-WIDE) WORKING CAPITAL FUND
(TITLE OF WORKING CAPITAL FUND ACTIVITY GROUP,
e.g., SUPPLY MANAGEMENT) CHARTER

1. AUTHORITY

The (insert the name of the working capital fund and the fund's activity group), is (was) established, effective _____ (DATE) _____, under the authority of Title 10, United States Code, Section 2208. Operations of the (insert the name of the fund's activity group) must be conducted in accordance with applicable Department of Defense policies and regulations.

2. MISSION

(Provide a brief statement of the mission of the fund's activity group.)

3. MANAGEMENT COMMAND

(Provide the name and location of the fund's activity group management command.)

4. ACTIVITY COMPOSITION

See Attachment. (Attach a list of each activity included within the fund's activity group and each activity's location. The attachment should include an "as of" date.)

5. AUTHORIZED EXCEPTIONS

(Indicate any policy exceptions specifically authorized for the fund's activity group or any activity included within the fund's activity group. Also, explicitly state/reference the document approving that exception. Documentation supporting any authorized exceptions must be submitted with the charter request. If no exceptions are authorized, state "None.")

CHAPTER 3

DEFENSE WORKING CAPITAL FUNDS - BUDGETARY RESOURCES

1.0 GENERAL

Budgetary resources are amounts available to incur obligations in a given fiscal year which include new budget authority, available unobligated balances at the beginning of the year, reimbursements, and other income (also known as offsetting collections credited to an appropriation or fund account), recoveries of prior year obligations from unexpired accounts, and restorations. In the case of reimbursable work, earned reimbursements and unfilled customer orders, limited by the amount collected in advance for orders from the public, comprise budgetary resources.

1.1 Purpose

1.1.1. This chapter discusses budgetary resources available for the Defense Working Capital Fund (DWCF). The applicable general ledger accounts are listed in the United States Standard General Ledger (USSGL) contained in Volume 1, Chapter 7, and the accounting entries for these accounts are specified in the DoD USSGL Transaction Library. Unless otherwise stated, this chapter is applicable to all DWCF Components and DWCF activities listed in Volume 3, Chapter 19. Chapter 2 provides guidance on establishing DWCF activities.

1.1.2. Additional information regarding the receipt and distribution of budgetary resources are located in Volume 3, Chapters 13, 14, and 15.

1.2 Authoritative Guidance

The accounting policy and related requirements prescribed by this chapter are in accordance with the applicable provisions of:

1.2.1. Title 31, United States Code, section 1341 ([31 U.S.C. § 1341](#)), Limitations on Expending and Obligor Amounts;

1.2.2. [31 U.S.C. § 1511](#), Definition and Application;

1.2.3. [31 U.S.C. § 1512](#), Apportionment and Reserves;

1.2.4. [31 U.S.C. § 1513](#), Officials Controlling Apportionments;

1.2.5. [31 U.S.C. § 1514](#), Administrative Division of Apportionments;

1.2.6. [31 U.S.C. § 1515](#), Authorized Apportionments Necessitating Deficiency or Supplemental Appropriations;

1.2.7. [31 U.S.C. § 1517](#), Prohibited Obligations and Expenditures;

- 1.2.8. [31 U.S.C. § 1532](#), Withdrawal and Credit;
- 1.2.9. [31 U.S.C. § 1535](#), Agency Agreements;
- 1.2.10. [10 U.S.C. § 2208](#), Working Capital Funds;
- 1.2.11. [10 U.S.C. § 127a.](#), Operations for Which Funds Are Not Provided in Advance: Funding Mechanisms;
- 1.2.12. Office of Management and Budget ([OMB Circular A-11](#)), Preparation, Submission, and Execution of the Budget;
- 1.2.13. Treasury Financial Manual ([TFM Volume I, Part 2, Chapter 2000](#)), Warrant and Non-expenditure (Net) Transfer Transactions;
- 1.2.14. Government Accountability Office ([GAO Principles of Federal Appropriations Law, Chapter 2](#)), The Legal Framework;
- 1.2.15. [GAO Principles of Federal Appropriations Law , Chapter 3](#), Availability of Appropriations: Purpose;
- 1.2.16. TFM [USSGL](#);
- 1.2.17. Department of Defense ([DoD USSGL Transaction Library](#)); and
- 1.2.18. DoD [Standard Financial Information Structure](#).

2.0 SOURCES OF, RESTRICTIONS ON, AND CLAIMS AGAINST BUDGETARY RESOURCES

Prior to incurring an obligation, a DWCF Component must have sufficient budgetary resources available for obligation in accordance with statutory, administrative, and other restrictions, after consideration of the claims against such budgetary resources.

2.1 Sources of Budgetary Resources

2.1.1. Direct appropriations and/or reappropriations provided directly to the DWCF or a DWCF Component by an appropriation act or other law and in accordance with statutory limitations, if any, by purpose, time, and amount.

2.1.1.1. The DWCF may receive direct appropriation to provide working capital and financing for specific projects or tasks. Appropriations are typically provided to the DoD at the departmental-level then transferred to the DWCF Component levels based on the request of the Office of the Under Secretary of Defense (Comptroller) (OUSD(C)), Deputy Comptroller,

Program/Budget (P/B) and the apportionment by the OMB on the Standard Form (SF) 132, Apportionment and Reapportionment Schedule, as discussed in Volume 3, Chapter 13. OMB distributes the amounts available for obligation in an appropriation through apportionments; and

2.1.1.2. A DWCF reimbursable program may be:

2.1.1.2.1. Automatically apportioned. A DWCF Component may obligate the total amount of obligation authority upon becoming available; or

2.1.1.2.2. Specifically apportioned. A DWCF Component may incur the amount of obligations limited to the specified apportioned amount.

2.1.2. Contract authority authorized by specific statutory authority. Contract authority permits a DWCF Component to incur obligations in advance of an appropriation, offsetting collections, or receipts to make outlays to liquidate the obligations.

2.1.2.1. Unless otherwise specified by statute, contract authority is available for obligation only within the fiscal year for which the authority is provided;

2.1.2.2. By definition, contract authority is unfunded and, therefore, obligations incurred through use of contract authority may not be liquidated until funded by an appropriation of liquidating cash or, more commonly within the DWCF, by offsetting collections credited to the DWCF; and

2.1.2.3. DWCF activities that utilize contract authority are issued both contract authority and anticipated customer order amounts that tie to one another as discussed in Volume 3, Chapter 8.

2.1.3. Non-expenditure transfers between DWCF Component sub-numbered accounts or, when authorized by statute, between a DWCF Component sub-numbered account and a direct appropriation or non-DWCF fund. Non-expenditure transfers into the DWCF increase budgetary resources while non-expenditure transfers from the DWCF decrease budgetary resources.

2.1.4. Offsetting collections credited to the DWCF consisting of earned reimbursements, both collected and uncollected, and unfilled customer orders from:

2.1.4.1. Federal government accounts that represent valid obligations of the ordering account whether or not accompanied by an advance;

2.1.4.2. The public, including state and local governments, but only to the extent accompanied by an advance received and credited to the appropriate DWCF Treasury sub-numbered account; and

2.1.4.3. Refunds, which are the repayments of excess outlays. The amounts are directly related to previous obligations incurred and outlays made. Refunds are not available for obligations until the refund is collected. Refunds collected in the same fiscal year as the obligations incurred are credited to the appropriation or fund account charged with the original obligation. Refunds of prior year obligations are not available for obligation until collected and reapportioned by the OMB. Refunds receivable are not a budgetary resource.

2.1.5. Recoveries of prior year obligations. These are cancellations or downward adjustments of obligations incurred in prior fiscal years that were not outlaid. Within the DWCF, recoveries of prior year obligations are automatically apportioned and are available for new obligations as well as upward adjustments of previously existing valid obligations.

2.2 Restrictions on Budgetary Resources

2.2.1. The DWCF is used to more effectively control and account for program costs and the work performed in the DoD. The Secretary of the Treasury establishes DWCFs upon request of the Secretary of Defense. A DWCF Component may only use amounts appropriated:

2.2.1.1. For the purpose stated in the appropriation act or other law providing the amounts, for no more than the amount appropriated or otherwise made available; and

2.2.1.2. Within the time period for which the funds are available for obligation, and are subject to such other limitations and/or restrictions as may be stated in the applicable appropriation act or other law providing the amounts, as well as such other statutory restrictions, both express and implied, as may be relevant.

2.2.2. Budget Authority is the authority provided by law to incur financial obligations that will result in outlays.

2.2.2.1. Budget authority is available for obligation only in accordance with purpose, time, and amount restrictions imposed by statute, by apportionments imposed by the OMB, and by administrative limitations imposed by authorized officials within the OUSD(C) and the DWCF Components;

2.2.2.2. In addition to being subject to statutory restrictions, DWCF budget authority is apportioned and allocated to the sub-account level on the OMB 132. DWCF budget authority is administratively allocated to the activity group levels as appropriate. The allocated amounts may be further restricted through administrative action; and

2.2.2.3. There are three forms of apportioned budget for the DWCF:

2.2.2.3.1. Direct Appropriation. Direct appropriated amounts are to be used for the specific purpose identified in the appropriations act or other legislation. Funds not appropriated specifically for the designated purpose are not available for that purpose. Unless specified otherwise, direct appropriations for the DWCF are no-year funds that do not expire.

2.2.2.3.2. Spending Authority from Offsetting Collections (Reimbursable Obligations). Reimbursable obligations are obligations financed by offsetting collections credited to an expenditure account in payment for goods and services provided by that account. The collection must be authorized by law to credit the specific appropriation or fund account. Anticipated reimbursements may not be used as a source of obligational authority until a customer order is accepted unless such use specifically is authorized in statute. Volume 3, Chapter 15 describes reimbursable obligations in detail.

2.2.2.3.3. Contract Authority.

2.2.2.3.3.1. Contract authority itself is not an appropriation. It is apportioned budget authority which can be legally obligated and may be used only for the purpose, time, and amount specified by statute relating to that contract authority. It is not funded and is apportioned and allocated without a supporting Treasury cash balance. Contract Authority must always be replaced or liquidated by subsequent or other budgetary resources and cash balances, more commonly within the DWCF, by offsetting collections credited to the DWCF. Unless otherwise specified by statute, contract authority is apportioned to the DWCF for the current fiscal year of the apportionment only, and closes for new obligations if not used within the fiscal year it is apportioned;

2.2.2.3.3.2. The OMB apportions contract authority at the beginning of a fiscal year for the amount of the DWCF program. It provides the authority to incur obligations in anticipation of the collection of receipts or offsetting collections that will be used to liquidate the obligation. Within the DWCF, contract authority is available for capital asset program obligations, i.e., all DWCF activity groups, and supply management operations. Supply Management activity groups include Supply Management, Distribution Depots, Defense Commissary Agency (Resale), and the Defense Reutilization and Marketing Service; and

2.2.2.3.3.3. There are no statutory restrictions placed on the obligational availability or availability to liquidate contract authority obligations of offsetting collections.

2.2.3. A non-expenditure transfer is a transfer of budgetary resources from one budget account, appropriation, or fund to another that does not involve an outlay. Statutory restrictions on the purpose, availability, and use of appropriated funds require that no change be made to those restrictions through the use of a non-expenditure transfer into the DWCF unless such change is specifically authorized by law.

2.2.4. Other events reported on the SF 133, Report on Budget Execution and Budgetary Resources, further restrict the availability of Budgetary Resources. Appendix F of the OMB Circular A-11 includes an explanation of these events with an identification of the impacted reporting lines on the SF 133.

2.2.5. If an apportionment is received by a sub-account or an activity group for a specific purpose, obligations must be kept within the apportioned limits even though the amount apportioned may be less than the total budgetary resources that otherwise would be available to the sub-account or activity group, in compliance with 31 U.S.C. Section 1517(a).

2.2.6. An administrative limitation cannot be used to change or eliminate a statutory restriction. An administrative action can only further restrict the purpose, time, or amount for which budgetary resources may be used. An administrative limitation, if any, of budgetary resources provided to a DWCF Component, or subdivision, by the OUSD(C) or designated representative; and/or a subdivision, if any, of budgetary resources provided to a DWCF activity group or activity (operating unit) by a DWCF Component official must be followed. If an administrative limitation is received, the DWCF Component must keep obligations within the limitation even though the limitation may be less than the total budgetary resources that otherwise would be available. Administrative limitations may be provided in various formats but must be in writing, signed, and clearly state that it is a violation of the 31 U.S.C. Section 1517(a) to incur obligations that exceed the limitation.

2.3 Claims Against Budgetary Resources

A DWCF Component must consider claims against budgetary resources in the determination of budget authority that is available for obligation. Claims against budgetary resources should be recorded in financial records of the DWCF entity. A DWCF Component should maintain financial records in sufficient detail to permit a segregation of budgetary resources and, within that segregation, an identification of claims against the budgetary resources.

2.3.1. Where a DWCF activity receives budgetary resources from more than one source, the receiving activity must maintain records which will enable it to control separately the transactions relating to each source and if the funds transferred are subject to restrictions different from those existing in the account to which transferred.

2.3.2. Of the three general availability restrictions of purpose, time, and amount, purpose should be determinable from administrative records while time and amount should be determinable from financial records.

2.3.3. A DWCF Component should have two primary types of financial accounts, proprietary and budgetary. The balance of budgetary resources available for obligation can be determined only from budgetary accounts. Proprietary accounts, by themselves, are not sufficient to determine budgetary resources. For example, non-budgetary assets such as inventories of stock for sale are not considered a budgetary resource. Additionally, a fund balance (i.e., cash) does not necessarily denote the availability of a budgetary resource. A fund balance, although present, may have claims against it (accounts payable, for example) and the amount of those claims, therefore, are not available for obligation.

2.3.4. Not all budgetary accounts represent a budgetary resource available for obligation. For example, anticipated customer orders are not budgetary resources available for obligation. The anticipated customer order only provides the authority to accept reimbursable orders and does not provide obligation authority. In addition, claims against budgetary resources, such as undelivered orders and unpaid accrued expenditures must enter into the determination of unobligated balances and, therefore, budgetary resources available for obligation. Similar to the anticipated customer order, administrative restrictions or other withheld amounts limit the balance of budgetary resources available for obligation. A DWCF Component can determine budgetary resources available for obligation from data required to be reported on the SF 133. Section 82 of OMB Circular A-11 also provides additional information.

2.3.5. In the event that budgetary resources available to a DWCF Component, activity group, or activity are not sufficient, a DWCF manager should not assume that sufficient budgetary resources exist elsewhere within the DWCF to fund obligations in excess of resources available. Rather, the manager of the DWCF Component, activity group or activity, as applicable, must request, in writing, an increase in authority to incur obligations from its management command or responsible DWCF Component and must defer the incurring of additional obligations until budgetary resources are sufficient to fund them. The DWCF Component must document the authority to incur additional obligations in an Annual Operating Budget signed by the OUSD(C), Director/Associate Director, Operations, or designee. See Volume 3, Chapter 19 for additional information on Obligation Authority.

3.0 SUPPLEMENTAL APPROPRIATION AND REAPPROPRIATION

3.1 DWCF Supplemental Appropriations

3.1.1. Supplemental appropriations may be provided for working capital purposes such as when the cumulative results of operations and/or the cash position is either negative or approaching negative or for other purposes discussed in Volume 2A, Chapter 1.

3.1.2. Receipt of the appropriation provides an immediate infusion of cash. The amount of the appropriation used must be accounted for and reflected in accounting records and financial reports.

3.1.3. Appropriation is a financing source against which expenses must be matched and reported on the Statement of Operations. If the amount of the appropriation is in excess of negative net and cumulative results of operations, the amount of the appropriation used must only be the amount sufficient to bring the total of accumulated operating results and net operating results to a zero-dollar (\$-0-) position. The remaining amount of the appropriation must be used to offset any subsequent year net operating losses.

3.2 Receipt and Allocation of Supplemental Appropriation and Reappropriation

3.2.1. Supplemental appropriation is an appropriation enacted subsequent to a regular annual appropriation act when the need for funds is too urgent to be postponed until the next regular annual appropriations act. These supplementals may be:

3.2.1.1. Requesting additional amounts not previously anticipated; or

3.2.1.2. Requesting changes in appropriations language that do not affect amounts previously appropriated.

3.2.2. Reappropriation is an extension of the availability of unobligated balances of budget authority that have expired or would otherwise expire as a result of legislation enacted subsequent to the law that provided the budget authority. The term does not apply to extensions of the availability of unobligated balances of budget authority that result from standing provisions of law, enacted before the budget authority was provided, or from provisions of law included in the same law that appropriated the funds.

3.2.3. The receipt of a supplemental appropriation or reappropriation is recorded at the departmental-level only. The allocation, if any, of the supplemental appropriation or reappropriation is recorded at the activity group and activity level as appropriate. The receipt and allocation of appropriations provided to the DWCF are accounted for within the DoD USSGL Account Transactions:

3.2.3.1. Departmental-Level Entries. Record receipt of a supplemental appropriation or reappropriation to the DWCF at the account level and establish budget authority. The source document for the Budgetary Account posting is the OMB SF 132, Apportionment and Reapportionment Schedule. The source document for the Proprietary Account posting is the Treasury Warrant (TFS Form 6200), "Department of the Treasury Appropriation Warrant;"

3.2.3.2. Intermediate Level Entries. Record direct budgetary authority received from the departmental-level by an intermediate level component and available for allotment to execution level component(s) or sub allotment to other intermediate level component(s); and

3.2.3.3. Activity (Execution) Level Entries. Record direct budgetary authority received by an execution level component through either allotment or sub allotment of authority.

3.3 Reduction or Withdrawal of Direct Appropriations

3.3.1. The reduction or withdrawal of an unexpired direct appropriation or reappropriation is recorded at the departmental-level. The reduction or withdrawal of the allocation, if any, of an appropriation or reappropriation issued to the intermediate or activity level is recorded as a decrease at the intermediate and activity level and as an increase at the departmental-level, as appropriate. The entry to record the reduction or withdrawal of an unexpired direct appropriation or reappropriation from the departmental-level requires budgetary and proprietary journal entries to perform the transaction.

4.0 CUSTOMER ORDERS

4.1 Anticipation of Customer Order

4.1.1. The DWCF Component must estimate the dollar amount of reimbursable orders it expects to receive in the current fiscal year.

4.1.2. There must be a specific law that authorizes reimbursable work with non-Federal entities. A DWCF Component cannot cite the Economy Act as the statutory authority to perform work for non-Federal customer orders with or without an advance. A law must specifically allow a DWCF activity to incur obligations against customer orders received from non-Federal sources with an advance.

4.1.3. Customer orders with advances from non-Federal sources are credited to a Treasury Appropriation Fund Symbols (TAFS) that is legally available for the work performed. Customer orders with advances from non-Federal sources are credited to a TAFS that is legally available for the work performed where the period of availability of the performing Federal agency TAFS is determined by the activity's general counsel.

4.2 Receipt of Customer Orders

4.2.1. Customer orders received are requisitions and other orders accepted for items to be furnished on a reimbursable basis. The amount of budgetary resources available for obligation from customer orders is the sum of orders received from Federal Government accounts that represent valid obligations of the ordering account, whether or not accompanied by an advance plus orders received from the public, including state and local governments, but only to the extent accompanied by a cash advance.

4.2.2. Throughout the year, unfilled customer order amounts should be adjusted to the extent that orders are filled, canceled, or new orders received.

4.3 Recognition of Reimbursement Earned (Revenue)

An earned reimbursement is the amount of the customer orders that have been filled, provided that in the case of orders from the public, including state and local governments, the amount is limited to the amount of the cash advance received. Earned reimbursements should not exceed the amount of individual customer orders as well as letters of intent, commanders' orders, congressionally mandated actions, and other emergency situations. The amount of budgetary resources available for obligation from earned reimbursements is calculated as the sum of:

4.3.1. Customer orders from Federal Government accounts that have been filled but not yet billed;

4.3.2. Accounts receivable representing Federal Government customer orders that have been filled but not collected;

4.3.3. Cash received as advances from the public for customer orders that have been filled;
and

4.3.4. Cash received as reimbursement for Federal Government customer orders that have been filled.

4.4 Treatment of Unearned Revenue

Unearned revenue consists of amounts received in advance for goods and services to be delivered at a future date. The appropriation language for DoD's DWCF permits the fund to receive advances for supplies and services. The DWCF business entities must be advanced funds identified in the DWCF customer orders during the fiscal year, as required, to enable the DWCF activity to pay for its costs of operation. The DoD Components receiving an advance must record the amount received as a liability until the payment is earned, i.e., goods or services have been delivered. After the payment is earned, the DoD Component must record the appropriate amount as revenue and reduce the liability accordingly. Other Liabilities are further discussed in Volume 4, Chapter 12, and DWCF Reimbursements and Revenue Recognition are further discussed in Volume 11B, Chapter 11.

5.0 NON-EXPENDITURE FUND TRANSFERS

A non-expenditure transfer moves budgetary resources from one budget account, appropriation, or fund to another that does not involve an outlay. Non-expenditure transfers of funds may be received from another appropriation or fund or may be made to another appropriation or fund when appropriate and authorized. A non-expenditure transfer of funds received from another appropriation or fund increases the amount of available budgetary resources. A non-expenditure transfer of funds made to another appropriation or fund decreases the amount of available budgetary resources.

VOLUME 11B, CHAPTER 11: “REIMBURSEMENTS AND REVENUE RECOGNITION - DEFENSE WORKING CAPITAL FUNDS”

SUMMARY OF MAJOR CHANGES

Changes are identified in this table and also denoted by [blue font](#).

Substantive revisions are denoted by an asterisk (*) symbol preceding the section, paragraph, table, or figure that includes the revision.

Unless otherwise noted, chapters referenced are contained in this volume.

Hyperlinks are denoted by [bold, italic, blue, and underlined font](#).

The previous version dated [October 2002](#) is archived.

PARAGRAPH	EXPLANATION OF CHANGE/REVISION	PURPOSE
Chapter Title	Modified the Chapter title from “Reimbursements And Revenue Recognition” to “Reimbursements and Revenue Recognition - Defense Working Capital Funds.” This aligns with the titles used for Chapters 1 - 3. It also distinguishes the Chapter from Volume 11A during online searches.	Revision
1.0 (1101)	Revised the “General” section and added “Overview”, “Purpose” and “Authoritative Guidance” paragraphs in order to comply with the DoD Financial Management Regulation Standard Operating Procedures.	Revision
2.4 (110204)	Updated guidance for use of Project Orders in accordance with Title 41, United States Code, section 6307 (41 U.S.C. § 6307) and for usage of Economy Act Orders in accordance with 31 U.S.C. § 1535.	Revision
2.5 (110205)	Updated guidance for work performed per 10 U.S.C. § 127a.	Revision
2.6 (110206)	Updated guidance for Work Performed in Advance of Reimbursable Orders in accordance with the Office of Management and Budget Circular A-11.	Revision
2.8 (110208)	Updated requirements for stabilized rates to align with Volume 2B, Chapter 9.	Revision
3.1 (110301)	Updated guidance for recognizing and reporting revenue in accordance with Federal Accounting Standards Advisory Board, Statement of Federal Financial Accounting Standards 7, and relevant portions of the Deputy Chief Financial Officer Memorandum, “Policy Change to Account for In Transit Inventory Assets (FPM 19-10),” dated December 9, 2019.	Revision

PARAGRAPH	EXPLANATION OF CHANGE/REVISION	PURPOSE
3.2 (110302)	Updated guidance on Service Type and End-Product Type Orders.	Revision
3.4 (110304)	Removed the budgetary and proprietary accounting entries provided in the former section 3.0 and referred users to the DoD U.S. Standard General Ledger Transaction Library.	Revision
4.0 (1104)	Removed the Prior Period Adjustment content provided in the former section 4.0 because this guidance is given in Volume 4, Chapter 17.	Deletion

CHAPTER 11

REIMBURSEMENTS AND REVENUE RECOGNITION
- DEFENSE WORKING CAPITAL FUNDS***1.0 GENERAL (1101)****1.1 Overview (110101)**

Reimbursements are collections earned for selling goods or providing services. Reimbursable obligations are obligations financed by offsetting collections credited to an expenditure account in payment for goods and services provided by that account. The collection must be authorized by law to credit the specific appropriation or fund account. The Under Secretary of Defense (Comptroller) must authorize reimbursable authority through budget formulation in Annual Operating Budgets and statutory authorization in the annual National Defense Authorization Act. Refer to Volume 3, Chapter 15 for additional information relating to the standards for recording the receipt and distribution of budgetary resources in execution-level activities.

1.2 Purpose (110102)

This chapter establishes guidance for reimbursements and revenue recognition for the DoD Defense Working Capital Fund (DWCF).

1.3 Authoritative Guidance (110103)

The accounting policy and related requirements prescribed in this chapter are in accordance with the applicable provision of:

1.3.1. Federal Accounting Standards Advisory Board, Statement of Federal Financial Accounting Standards 7 (*SFFAS 7*) “Accounting for Revenue and Other Financing Sources and Concepts for Reconciling Budgetary and Financial Accounting.”

1.3.2. Office of Management and Budget (*OMB Circular A-11*) “Preparation, Submission, and Execution of the Budget.”

1.3.3. *Standard Financial Information Structure*. “DoD Standard Reporting Chart of Accounts and DoD U.S. Standard General Ledger (USSGL) Transaction Library.”

1.3.4. Title 10, United States Code, section 127a (*10 U.S.C. § 127a*) “Operations for which Funds Are Not Provided In Advance: Funding Mechanisms,” *10 U.S.C. § 2208* “Working-capital Funds,” *10 U.S.C. § 2210* “Proceeds of sales of supplies: credit to appropriations,” and *10 U.S.C. § 2563* “Articles and Services of Industrial Facilities: Sale to Persons Outside the Department of Defense.”

1.3.5. U.S. Department of the Treasury (Treasury), Bureau of the Fiscal Service, Federal Account Symbols and Titles (*FAST Book*).

2.0 REIMBURSEMENTS (1102)

2.1 Reimbursement Principles (110201)

2.1.1. 10 U.S.C. §§ 2208 and 2210 provide the basic transactional authority for the DWCF. These authorize the Secretary of Defense to finance inventories of supplies, industrial-type activities, and commercial-type activities that provide common services within or among activities of the DoD. Supply-type services involve the sale of material financed using contract authority established by 10 U.S.C. § 2210(b) subsequently liquidated using revenue earned and collected from sales. Industrial-type services may be financed for requirements internal to a military department or for external customers and commercial-type activities may be financed when common services are required within or among the departments and agencies that comprise the DoD. As required by 10 U.S.C. § 2208(o), charges for goods and services provided through a DWCF activity must include amounts to recover the full costs of goods and services provided and amounts for capital investment recovery.

2.1.2. The DWCF billings to and reimbursements from ordering activities for services or goods provided must be accomplished in the most efficient and expeditious manner available to reduce or eliminate the need for additional DoD working capital. In addition, the nature of the DWCF requires ordering activities to budget, control, and account for the cost of all goods and services ordered (refer to 10 U.S.C. § 2208).

2.1.3. As a result, a DWCF activity:

2.1.3.1. Must bill ordering activities for all costs incurred as a result of an accepted customer order as long as the billings does not exceed the fixed-price contract amount.

2.1.3.2. Must bill customer order cancellation or reduction costs. When a job order is canceled or reduced in scope after a DWCF activity has commenced work or incurred costs on the order, the costs incurred, plus the applied overhead (that is, indirect and other normally allocated overhead, such as General and Administrative (G&A) costs) plus costs associated with the cancellation or reduction must be charged to the customer. Examples of directly associated cancellation or reduction costs to be charged to customers are advance planning costs, non-creditable direct materiel, special test equipment, necessary preservation and/or shipment effort, and any additional effort necessitated by the cancellation and/or reduction; for example, salvaging of materiel. In addition, costs charged to customers should include the costs of salaries payable to employees hired specifically to work on the canceled order until the employees are, or could have been, separated through a reduction in force or other appropriate action (taking into account appropriate administrative lead time), or reassigned to other direct jobs. Materiel is defined as all items necessary to equip, operate, maintain, and support military activities without distinction as to their application for administrative or combat purposes, excluding real property, installations, and utilities. Materiel is either serviceable (i.e., in an issuable condition) or unserviceable (i.e., in need of repair to make it serviceable). This definition is taken from DoD Instruction 4140.01 "DoD Supply Chain Materiel Management Policy."

2.1.3.3. Must not charge the customer for costs that are indirectly associated with cancellation or reduction actions. For example, do not charge a customer canceling or reducing an order for under-applied indirect production and G&A overhead costs that result from a reduced workload base of the DWCF activity as a whole. Instead, record the under-applied costs against the net operating results of the performing DWCF activity.

2.1.3.4. Must not enter into any arrangement to offset services/materials received and services/materials furnished, except for Foreign Military Sales (FMS)/Foreign Exchange Agreements as provided in Volume 15 or via Acquisition and Cross-Servicing Agreements as provided in Volume 11A, Chapter 8.

2.2 Reimbursable Orders (110202)

2.2.1. No work or service should be performed by a DWCF activity except on the basis of reimbursable orders received and accepted that constitute obligations of Federal Government ordering activities or cash advances from non-Federal Government entities. Direct fund cite orders will include a reimbursable order portion for the applicable DWCF overhead rate. Economy Act Orders may be issued as direct fund cite orders where the ordering activity identifies the appropriate fund citation for the servicing activity to place on the reimbursable order (refer to Volume 11A, Chapter 3).

2.2.2. Each DWCF activity must record promptly all orders accepted and must account continuously for the status of all orders in terms of deliveries, billings, and unfilled balances. This will provide a basis for scheduling production or operations, assessing work backlogs, determining the need for additional orders or to reduce activity, preparing operating budgets and forecasts, and promptly informing customers about changes in delivery schedules.

2.3 Basis for Reimbursement (110203)

2.3.1. All orders accepted by a DWCF activity must be in writing (either on paper or an electronic document); for a purpose authorized by law; executed before cancellation of the issuing appropriation; and must call for specific goods, real property, work, or services. The DWCF activity will adhere to the accounting standards hierarchy in Volume 1, Chapter 2 in accepting, recording, billing and reporting reimbursable activities.

2.3.2. Each Project Order or other order accepted by a DWCF activity must state specifically the basis of reimbursement to the DWCF for the cost of work or services ordered, as between fixed-price or cost reimbursement. For DWCF industrial facility sales to persons outside the DoD under authority of 10 U.S.C. § 2563, materials or services may be sold on either a fixed-price or cost reimbursement basis.

2.3.3. Orders from the public, including State, local and foreign governments must be accompanied by an advance because DWCF activities cannot recognize budgetary resources for a non-Federal order until a receipt is collected. Volume 4, Chapter 3 provides an exception for fuel sales to the public. According to Chapter 1, paragraph 010208, cash advances may also be requested from Federal Government activities when directed and approved in advance by the Office of the Under Secretary of Defense (Comptroller) (OUSD(C)).

*2.4 Performance Under Project Orders and Economy Act Orders (110204)

A performing activity's mission, function and the nature of the transaction will determine whether 10 U.S.C. § 2208 or another statutory authority governs a class of orders. As stated in subparagraph 2.1.1, 10 U.S.C. § 2208 is the primary transactional authority for DWCF sales of materials and for the provision of services by chartered DWCF industrial and commercial activities that provide common services within or among DoD components. The Economy Act and the Project Order Statute are additional statutes that may pertain to some DWCF sale transactions.

2.4.1. The DoD Components (i.e., DoD-owned and operated activities) ordering work or services from a DWCF financed activity may place a Project Order whenever such an order meets the requirements for Project Orders established in Volume 11A, Chapter 2. A DWCF customer with a qualifying requirement would use authority conferred by 41 U.S.C. § 6307 to account for the obligation in the same manner as it would a procurement contract for a similar requirement with commercial manufacturer or private contractor. To qualify as a Project Order under policy in Volume 11A, Chapter 2 the customer request must be a bonafide need of the fiscal year (FY) in which the Project Order is placed. DWCF customers may place Project Orders only for non-severable requirements that are performed over a period of time which may cross a FY.

2.4.2. Organizations financed by the DWCF accept and perform orders within the scope of their DWCF charter mission under transactional authority conferred by 10 U.S.C. § 2208. Such organizations may also accept and perform Economy Act Orders under 31 U.S.C. § 1535, when providing intra-DoD or intragovernmental support not falling within the activity's DWCF charter mission, provided they otherwise meet the criteria of such orders as described in Volume 11A, Chapter 3. For instance, when a tenant of a DWCF-financed activity reimburses a DWCF installation host, the Economy Act governs the transaction. Such support would not involve provision of supplies or common services for which the DWCF-financed activity was chartered. Support categories for which the Economy Act may provide transaction authority include, but are not limited to, base support (host-tenant) services, civilian personnel services, community services, environmental compliance, fire protection, food service, health service, mail service, police service, security/guard services, and warehousing.

2.4.3. The customer order and funding document should identify the applicable statutory authority (i.e., Project Orders, Economy Act Orders, or 10 U.S.C. § 2208) upon acceptance by the performing activity. See Treasury's Bureau of the Fiscal Service, Interagency Agreement, United States Government Order Instructions, FS Form 7600B. The requesting and servicing activities must identify the applicable statutory and program authorities. FS Form 7600B allows for this information to be provided in blocks 17-19 and 20-21, respectively.

*2.5 Reimbursement for Contingency Operations and Humanitarian Efforts (110205)

2.5.1. All DWCF activity groups, including transportation services provided by the U.S. Transportation Command (USTRANSCOM), operate on a reimbursement basis with users paying for goods and services provided. Payment for contingency operations, including deployment or other emergency response for military or humanitarian assistance, is no exception.

2.5.2. The Military Department Headquarters is responsible for determining which level within the Military Department will pay (that is, at the unit, major command, or Military Department-level). This process also applies when a Unified Combatant Command tasks a Service-funded unit to perform a mission (such as transportation of military personnel or equipment by the USTRANSCOM). Payment for the services provided is the responsibility of the Military Department controlling the equipment or personnel receiving the service.

2.5.3. Transportation provided in response to a Request for Assistance (RFA) from another government agency must not result in third party collections. The Military Department that controls the equipment or personnel being transported is responsible for reimbursing USTRANSCOM. It is the responsibility of the Military Department that accepted the RFA to collect any required reimbursements owed to that Military Department by the requesting government agency.

2.5.4. An exception to this policy occurs when the USTRANSCOM receives an order from the Joint Chiefs of Staff requiring transportation of non-U.S. owned equipment and/or non-U.S. personnel such as unreimbursed efforts in support of the United Nations. In those instances, the Army will pay Surface Deployment and Distribution Command costs, the Navy will pay Military Sealift Command costs, and the Air Force will pay Air Mobility Command costs. Bills may be centralized for more convenient processing if appropriate; however, billings must be forwarded to the appropriate Military Department within 30 days from commencement of the contingency operation or humanitarian effort. The Military Departments must pay these bills, including transportation costs, in a timely manner.

2.5.5. Authority for another exception to this policy is available for operations described in 10 U.S.C. § 127a. 10 U.S.C. § 127a does not confer authority to conduct operations, but rather establishes mechanisms by which funds are provided for two types of operations that the armed forces are required to carry out under some other authority in the absence of advance funding. The first involves the deployment (other than for a training exercise) of elements of the armed forces. The second involves the provision of humanitarian assistance, disaster relief, or support for law enforcement (including immigration control). 10 U.S.C. § 127a(b) authorizes the Secretary of Defense to not require reimbursement for specified services rendered by DWCF activities to a unit of the armed forces performing a section 127a mission.

*2.6 Work Performed in Advance of a Reimbursable Order (110206)

In [certain](#) situations, work for customers may begin in advance of receipt and acceptance of a formal order. They are as follows:

2.6.1. In periods under which the Department is operating under a Continuing Resolution (CR). For more details, refer to Volume 3, Chapter 2 and OMB Circular A-11, Section 123. Orders issued under a CR must identify the portion covered by current obligational authority. When obligational authority is not available neither work nor service is to be performed. Another option is to request that OMB provide an exception apportionment. This must include a written justification that provides the legal basis for the request.

2.6.2. When it is necessary, in an urgent situation, to incur limited costs in advance of the receipt of a regular order for an authorized program for which customer funds are available, such work or services may be undertaken on the basis of a letter of intent which constitutes an obligation of the ordering activity in a stated amount sufficient to cover the advance costs that may be incurred. Therefore, letters of intent are obligating instruments, contractual in nature, and must be funded upon issuance. A letter of intent must expire within 30 days from the date of issuance.

2.6.3. When it is necessary to begin work of an emergency nature prior to the receipt of an order, a commanding officer's order or similar order may be issued by the commander of the DWCF activity subject to the following conditions:

2.6.3.1. The DWCF activity must have written assurance that an order must be issued promptly or must have equivalent documented communication. The use of such orders must be limited to situations in which there are bona fide emergencies arising from unforeseen urgent requirements, e.g., loss or damage caused by a disaster, an act of God, or events caused by unforeseen security situations. A commanding officer's order must not be used as a normal procedure to circumvent administrative lead-times that should be considered in advance planning.

2.6.3.2. A commanding officer's order must expire within 30 days from the date of issuance.

2.6.3.3. A commanding officer's order must be issued on a local form (e.g., DoD [\(DD\) Form 577](#), Appointment/Termination Record - Authorized Signature) and must be approved and signed by the commanding officer or an authorized representative.

2.7 Follow-up on Unfunded Reimbursable Orders (110207)

While there may be some services furnished by a DWCF activity prior to receiving a funded order, this should be a rare occurrence. Whenever this occurs, these services are performed on the basis of anticipated orders or for programs included in approved budget requests. This type of work is for existing customers that have annual recurring requirements. However, when items are furnished or services performed in response to an unfunded reimbursable order (express or implied), and a funded order has not been submitted after 15 days of providing the

service, the DWCF organization **must** notify the comptroller of the customer organization and request a funded order. If funding is not received within 30 days of providing the service, the DWCF organization **must** notify the OUSD(C), Deputy Comptroller Program/Budget (P/B) - Revolving Funds Directorate, and request authorization to directly bill the customer's appropriation account. The OUSD(C) P/B - Revolving Funds Directorate **must** respond to the request within 15 days. Upon authorization by the OUSD(C) P/B - Revolving Funds Directorate, the DWCF organization **will** self-reimburse the DWCF, citing the customer's appropriation.

*2.8 Billing Standard (110208)

The DWCF Components performing work or services on a customer order **must** bill the requesting DoD Component, other Federal agency, or the public for earned reimbursements (performance of work or services, payments to contractors, or delivery from inventory) within 30 calendar days after the month in which performance occurred. The payment due date **must** not be more than 30 calendar days from the date of the invoice.

2.8.1. Stabilized rates **must** be established to **achieve an Accumulated Operating Result (AOR) of zero in the budget year. This means the stabilized rates must** recover operating expenses estimated to be incurred for the applicable FY and provide sufficient working capital for the acquisition of fixed assets as approved by the OUSD(C) P/B - Revolving Funds Directorate. **Therefore, stabilized rates and unit prices must** be established at levels intended to provide for estimated revenues to equal estimated costs plus approved surcharges for the applicable FY for which the rates and unit prices are established. **In budget execution, activities will incur either a positive or a negative operating result. Accordingly, activities will increase their budget year prices to make up actual or projected losses of budgetary resources or reduce their budget year prices to return actual excess resources or projected budgetary gains to customers. Activities may request recovery of AOR outside the budget year in instances when an AOR of zero cannot be achieved. This request must be included in the budget submission and approved by the OUSD(C) P/B - Revolving Funds Directorate. Refer to Volume 2B, Chapter 9 for specific details.**

2.8.2. **When established stabilized rates and unit prices are insufficient to cover the increase in actual costs incurred for Project Order or Economy Act Order cost reimbursable orders, renegotiations in the current FY need not be conducted for small dollar amounts (\$0.01 to \$2,500.00) when the probable cost of renegotiation is greater than the adjustment amount. The resulting negative operating result must be addressed to achieve an AOR of zero in the budget year in accordance with the guidelines in subparagraph 2.8.1.**

2.8.3. Private parties and concerns, when authorized by law including foreign governments, and state and local governments **must** reimburse the DWCF for the full costs incurred by the Federal Government. Full costs for foreign military, state and local government, and private party sales **must** include unfunded costs that are not charged to the DoD or other Federal Government customers (such as unfunded civilian retirement and postretirement health benefits costs). Amounts collected for unfunded civilian retirement and postretirement health benefits costs **must** not be retained by DWCF activities; rather, such amounts **must** be deposited into **either** the Miscellaneous Receipts Account 3210, "General Fund Proprietary Receipts,

Defense Military, [Not Otherwise Classified](#),” or for FMS into Account 3041, “Recoveries Under the Foreign Military Sales Program, Army, Navy, Air Force, Defense” (see the FAST Book). Volume 15, Chapter 7 [provides](#) additional information on the determination of full costs for FMS.

2.9 Disputed Bills between DoD Components (110209)

2.9.1. Payment for ordered goods and services [must](#) be made promptly [after the receipt of the bill/invoice by the requesting activity from the performing activity](#). Payment may be in advance or on providing the goods or services ordered and [must](#) be for any part of estimated or actual cost as determined by the activity filling the order. Proper adjustment of amounts paid in advance [must](#) be made as agreed to by the ordering and performing activities on the basis of the goods or services provided. A bill submitted or a request for payment [must](#) be paid promptly and not postponed subject to audit or other similar validation in advance of payment. This provision is not intended to preclude questions on the accuracy and correctness of the billed amounts but is intended to preclude the nonpayment of bills subject to the resolution of disputed billing details. Every effort [must](#) be expended to resolve disputed billing details within 60 days. The billing activity may request adjudication from the OUSD(C) P/B - Revolving Funds Directorate if, after 60 days, agreement as to the resolution of billing details cannot be reached. The OUSD(C) P/B - Revolving Funds Directorate [must](#) provide a decision on disputed bills within 30 days.

2.9.2. The providing activity may request approval from the OUSD(C) P/B - Revolving Funds Directorate to collect from the customer such amounts as are unpaid, in cases where there is a question as to ownership of the bill (vice dispute over the amount of the bill or other billing details), and the bill remains unpaid for more than 90 days. The OUSD(C) P/B - Revolving Funds Directorate [must](#) provide a decision on ownership questions within 30 days.

3.0 REVENUE RECOGNITION (1103)

*3.1 Reporting Requirements (110301)

3.1.1. DoD Components [must](#) use the percentage of completion method for recognizing revenue on all customer orders. Under this method, the revenue earned on an order [must](#) be recognized, based on the ratio [that costs of goods incurred and services provided to date, bear to the total costs estimated to be incurred on the order when it is completed \(see SFFAS 7, paragraph 149 for guidance and exceptions to this treatment\)](#). The completed [contract](#) method for revenue recognition is not an acceptable method for recognizing revenue within the Department.

3.1.2. Revenue and costs must be recognized in the same accounting period. [In accordance with SFFAS 7, paragraph 36\(c\), “when goods are kept in inventory so that they are available to customers when ordered, revenue should be recognized when the goods are delivered to the customer.” This is clarified in the OUSD\(C\) Financial Management Regulation Policy Memorandum \(FPM\) 19-10 “Policy Change to Account for In-Transit Inventory Assets” dated December 9, 2019. According to FPM 19-10 revenue recognition must occur at the point of receipt of the inventory by the customer effective FY 2021. Volume 4, Chapter 17, subparagraph 170506.A provides that DWCF activities routinely post operating expenses/program](#)

costs to a Cost of Goods Sold (COGS) account (either directly to Operating Expenses/Program Costs or via Work-in-Process accounts) so that costs may be matched to revenue upon completion of the task or filling an order. A standard policy for recognizing and reporting revenue must apply for all activities within a DWCF activity group. The amount of revenue recognized **must not** exceed the amount specified in the order.

3.1.3. Activities in the DWCF industrial activity groups **must** use a work-in-process account to capture and hold inventory costs prior to their recognition as a COGS. Examples of chartered DWCF industrial activities include the Army Industrial Operations Activity Group, Navy Depot Maintenance Activity Group, and Air Force Consolidated Sustainment Activity Group-Maintenance Division's depots. DWCF industrial activities are chartered activities with primary missions involving depot maintenance, transportation, and research and development (refer to Volume 2B, Chapter 9).

3.1.4. Activities in the Transportation commercial activity group **must** recognize revenue based upon receipt of a cargo manifest, the commencement of travel or the agreed upon shipping terms.

3.1.5. Activities in Supply Management activity groups **must not** recognize revenue, and costs of goods sold, and should not reduce their inventory financial balance until receipt by the customer occurs. This is because materiel does not transfer from the DWCF supply management activity's inventory until receipt of the materiel by the customer. Therefore, if billing and collection happen prior to receipt by the customer, the funds received by the DWCF must be recorded as an unearned revenue liability. Billing or collection by Supply Management activity groups at time of shipment is not an advance billing under 10 U.S.C. § 2208(l). Upon confirmation of receipt, the DWCF will recognize revenue earned, relieve the liability, reduce inventory, and recognize COGS.

3.1.6. The customers of supply, industrial and commercial activities financed using DWCFs must record complementary accounting entries. Payment prior to receipt of materiel must be recorded as an advance payment, with a corresponding credit to Fund Balance with Treasury. Upon receipt of the materiel, the customer will relieve the advance and debit either an appropriate asset account (e.g., Operating Materials and Supplies held for use) or recognize an expense, if applicable.

3.1.7. Both the DWCF and the customer must also make or adjust any budgetary accounting entries to maintain Treasury Tie-Points. Tie-Points, also referred to as Tie-Point Reconciliations, are a series of standard USSGL accounting relationships that indicate whether certain account balances within a general ledger trial balance are consistent with other account balances. Tie-Points facilitate the validation of trial balance data. Refer to Volume 1, Chapter 7 and the Standard Financial Information Structure given at 1.3.3 for details.

3.1.8. Activities in the Commissary Resale activity group **must** recognize revenue, and related costs, at the point/time of sale.

3.1.9. In the event that a service is rendered, revenue **must** be considered earned, and recognized, and associated costs **must** be reported, at the time that the service is rendered/performed, but not less frequently than monthly **on the last calendar day**.

3.1.10. Activities in Navy Research and Development activity group **must** use the percentage of completion method **for** revenue **recognition** for production type (end-product item) orders, **or report** revenue **as actual** costs **are incurred and billed** for service **type** orders.

3.1.11. Activities in all other **industrial or commercial** activity groups (for example, Financial Operations, Base Support, Information Services, Reutilization **and** Marketing, and Printing **and** Publications) not discussed in subparagraphs 3.1.1 through 3.1.10, **must** recognize revenue and the associated costs, **when it is earned**. **In other words**, at the time that the service is rendered/performed, but not less frequently than monthly **on the last calendar day**.

*3.2 Service Type Orders **versus** End-Product **Type** Orders (110302)

3.2.1. **For** service type orders, a work-in-process account **must** not be used to capture and hold costs. **According to SFFAS 7, paragraph 36(a), revenue should be recognized when the services are performed**. **Consequently**, service type orders **must** be considered as rendered/completed, and revenue and costs **periodically** recognized, at least **on the last day of the month**. Descriptions of projects and work that should be classified as service type orders **include**:

3.2.1.1. Research and Development includes the conduct and support of research, development, **test, and evaluation**; basic research; applied research; **advanced technology development**; **advanced component development and prototypes**; **system development and demonstration**; and developmental engineering. Does not include production of items for service testing or engineer-user testing. **The Navy's Warfare Centers and Laboratories are examples of DWCF activities that perform these types of orders**.

3.2.1.2. Transportation Services includes transportation (air, land, and sea) services **such as the movement of supplies and provisions to deployed forces**. **This** includes operation of ports, port facilities and related sub-installations, passenger trans-shipment activities, and **air refueling**. **This** also includes the operation of docks, piers, terminals or similar facilities; and wharfage, ferrying, lighterage and stevedoring. **The Navy Military Sealift Command performs these types of orders**.

3.2.1.3. Communication and Information Services includes **telecommunication** services and data processing services (other than **those services addressed in subparagraph 3.2.1.5**) rendered. **For example, the Defense Information Systems Agency operates the information services activity within the DWCF**. **This activity consists of two main components**. The first component includes two lines of service, telecommunications services and enterprise acquisition services. The second component includes computing services.

3.2.1.4. **Specialized Commercial Services.** The Defense Counterintelligence and Security Agency's personnel vetting program provides personnel background investigations on a fee-for-service basis. The Defense Finance and Accounting Service provides debt management and payment services; payroll services for military personnel, retirees, annuitants and civilians; and performs accounting and reporting for customers that place service type orders.

3.2.1.5. **Technical Information** includes central collection and dissemination for DoD technology based information. Includes provision of access to, and transfer of, scientific and technical information. Also includes provision of computer modeling, data services, and response to requests for solutions to technological problems of the Military Departments.

3.2.1.6. **Printing Services** includes printing, reproduction and document automation, workflow conversion, electronic storage and output, multi-function devices, office printers, and distribution of hard copy and digital information. The Defense Logistics Agency is an example of an activity that provides these services.

3.2.1.7. **Distribution Depots** includes management and procurement of items with a designated national stock number for all DoD customers. For example, the Army's Industrial Operations activity group conducts depot level maintenance, repair and upgrade; produce munitions and large caliber weapons; and store, maintain, and demilitarize materiel for all branches of DoD.

3.2.1.8. **Supply Management services involving** receipt, reclamation, storage, and issue of consumables and reparable items. For example, the Army DWCF Supply Management activity group administers spare parts inventory for Army managed items, Non-Army managed items and war reserve secondary items. The activity also maintains a protected inventory of spares in Army Prepositioned Stocks, which is released to support deploying combat units.

3.2.1.9. **Contract Management** includes expediting the products and services delivered by industry, assuring that the specifications of the contract are met and paying contractor invoices for these items. Also includes surveillance of contractor operations to assure compliance with contractual requirements and determining the effectiveness of contractor quality control systems and inspection procedures, and officially accepting materiel on behalf of the government after certifying its conformance to contract provisions. Also includes provision of on-site assistance to program managers, such as representation and participation in meetings and informal program/contract reviews.

3.2.1.10. **Base Support** includes facilities maintenance, family housing services, other housekeeping services, and administrative functions, provided to tenants and others. Also includes provision of utility services (central heat and power, electricity, water, wastewater disposal, and natural gas).

3.2.1.11. **Engineering Services** includes provision of technical and engineering assistance in matters relating to various weapon systems, industrial plant equipment, and associate system when they do not relate to research and development projects. Also includes repair service and quality evaluation; that is, inspecting, calibrating, testing, evaluating, trimming and

reengineering of items. For example, the Air Force enhances readiness by efficiently and economically repairing, overhauling and modifying aircraft, engines, missiles, components, and software to meet customer demands through its Consolidated Sustainment Activity Group-Maintenance Division.

3.2.1.12. Support of Reserve (Under and Unutilized) Capacity includes maintenance of unutilized capacity and support of underutilized capacity.

3.2.1.13. Commissary Services includes operation of Defense commissaries. Also includes provision of troop issue subsistence and programming of the replacement of War Reserve Material rotation rations. For example, the Defense Commissary Agency collects revenues from product sales in commissary stores through its Resale Stocks business activity.

3.2.1.14. Reutilization and Marketing Service includes the reuse of excess and surplus property within the Federal Government and other authorized agencies, donation to local governments, and the sale of the remaining property to the public on a competitive basis.

3.2.2. A work-in-process account must be used to capture and hold costs prior to their recognition as a COGS that will support revenue recognition. Descriptions of applicable projects and work that should be classified as end-product type orders are as follows:

3.2.2.1. Overhaul or a complete rebuilding of parts, assemblies, subassemblies, and end-items.

3.2.2.2. Manufacture and Assembly such as furnishing customers with new end-items and components. In addition, manufacturing prototypes or furnishing items to the customer for testing.

3.2.2.3. Ordnance is defined as explosives, chemicals, pyrotechnics, and similar stores, e.g., bombs, guns and ammunition, flares, smoke, or napalm. Refer to the DoD Dictionary of Military and Associated Terms. This type order includes the receipt, segregation, demilitarization, storage, assembly, disassembly, test, maintenance, and issuance actions.

3.2.2.4. Construction and Conversion includes construction and conversion of property and equipment.

3.2.2.5. Alteration and Modification includes alteration and modification of property and equipment.

3.2.2.6. Other Products include products not otherwise classified such as the production of research and development items for service testing or engineer-user testing.

3.3 Revenue Billings (110303)

3.3.1. The customer funding an order **must** be billed for the revenue recognized **by the DWCF activity performing the order**. When advance payments **are** received, those advances **must** be **reclassified** to the appropriate revenue account **when the revenue is earned**. Revenue billings to customers **must** reflect due credit for the advances received. In no case **must** the total amount of revenue recognized and billed **by the DWCF activity** exceed the amount of the order. **The DWCF customer must not incur obligations for supplies or services ordered from a DWCF activity that exceed the amount of appropriations or other funds available for such purposes. See 10 U.S.C. § 2208 (f).**

3.3.2. Revenue billings **must** be accomplished at least monthly including applicable labor, material, overhead, and surcharges as well as the value of material in inventory that is identified and held in reserve for specific orders, and amounts of work-in-process in contractors' plants and other government plants that are identified to specific orders. **These** billings should be made as late as possible in the month so that they include **these** items to the maximum extent possible and still permit the orderly processing of the collection in the same month. Every effort **must** be made to reduce the billing and collection lag so that a greater portion of the costs **is** recovered in the month incurred.

*3.4 Accounting for Reimbursements and Revenue Recognition (110304)

The DoD Standard Reporting Chart of Accounts provides the DoD account definitions and determines how they are to be used. The DoD USSGL Transaction Library illustrates the accounting entries for USSGL budgetary and proprietary accounts. Both are updated on an annual basis at a minimum. Refer to the Standard Financial Information Structure given in subparagraph 1.3.3 for a decomposition of DoD USSGL accounting transactions for DWCF reimbursement and revenue recognition.

CHAPTER 12

WORKING CAPITAL FUND COSTS

1.0 GENERAL

1.1 Overview

1.1.1. Working Capital Funds are designed to create a cost-conscious environment and provide an efficient and effective means for controlling the cost of goods and services. [Department of Defense \(DoD\) Working Capital Fund \(WCF\)](#) entities must have a cost accounting system capable of collecting and recording the costs of producing outputs in the financial reports, in compliance with the Statement of Federal Financial Accounting Standards ([SFFAS](#)) [4](#), “Managerial Cost Accounting Standards and Concepts,” and the DoD United States Standard General Ledger (USSGL) Transaction Library.

1.1.2. Additional information relating to costs can be found in Volume 4, Chapter 17, “Expenses and Miscellaneous Items” and Chapter 19 “Managerial Cost Accounting”. For [WCF](#) entities, all costs must be recovered, unless specifically excluded by DoD policy.

1.2 Purpose

This chapter describes costs associated with [WCF](#) and sets forth the criteria for allocating certain costs to outputs (goods and services) in accordance with Federal accounting standards. The full costs of resources that directly or indirectly contribute to the production of outputs (goods and services) should be assigned to outputs (goods and services) through costing methodologies that are most appropriate to the operating environment and should be followed consistently. Costs must be assigned using the following methods listed in the order of preference: (a) directly tracing costs wherever feasible and economically practicable (e.g., direct costs), (b) assigning costs on a cause-and-effect basis (e.g., indirect costs), or (c) allocating costs on a reasonable and consistent basis (e.g., general and administrative (G&A) costs). Guidance related to budgeting for costs can be found in Volume 2B, Chapter 9 “Defense Working Capital Fund Budget Justification Analysis.”

1.3 Authoritative Guidance

[The policy and related requirements prescribed by this chapter are in accordance with the applicable provisions of:](#)

1.3.1 Title 10, United States Code, section 2208 ([10 U.S.C. § 2208](#)), “Working-capital funds”;

1.3.2. [SFFAS 3](#), “Accounting for Inventory and Related Property”;

1.3.3. SFFAS 4, “[Managerial Cost Accounting Standards and Concepts](#)”;

1.3.4. [SFFAS 5](#), “Accounting for Liabilities of the Federal Government”;

1.3.5. [SFFAS 6](#), “Accounting for Property, Plant and Equipment”;

1.3.6. [SFFAS 10](#), “Accounting for Internal Use Software;” and

1.3.7. [SFFAS 55](#), “Amending Inter-entity Cost Provisions.”

2.0 MILITARY PERSONNEL EXPENSE

2.1 Military Personnel Cost

2.1.1. The cost of military personnel may involve two separate processes.

2.1.1.1. The first process involves the payment to military personnel appropriations for the budgeted amount of military personnel for an activity group regardless of the actual number of military personnel assigned.

2.1.1.2. The second process involves the assignment of costs for military personnel at the civilian equivalency rate for the number and grade of military personnel assigned to the [WCF](#) activity. In some circumstances, these costs are assigned to production orders or cost centers for services performed; other times they are assigned as overhead or G&A.

2.1.2. Rate guidance is provided in Volume 11A, Chapter 6, Appendix B.

2.1.3. See Volume 2B, Chapter 9 for additional military personnel reimbursement policy.

2.2 Military Personnel Services

[WCF](#) activities must price military personnel services reimbursement in support of [WCF](#) operations using the civilian equivalency rate. The respective Military Departments and [WCF](#) activities must reimburse the appropriate military appropriation every fiscal year.

2.3 Unresolved Disputes

In the event of an unresolved dispute between the military personnel appropriation manager and a [WCF](#) activity on the budgeted amount of the deposit, the budgeted amount requested by the military personnel appropriation manager must be provided. Upon resolution of the dispute, the military personnel appropriation manager will provide a refund to the [WCF](#) activity, if any is due, for the applicable amount.

3.0 DEPRECIATION EXPENSE

Depreciation is the systemic and rational allocation of the recorded cost of an asset over its estimated useful life. Refer to Volume 4, Chapters 24, 25, 26, 27, and 28 for guidance on useful lives.

3.1 Capital Assets

WCF activities will fully reflect the depreciation expense of capital assets owned by the activity in their operating costs, whether they were purchased with WCF budget authority or transferred to the WCF activity without reimbursement. WCF activities will recover only those costs incurred by the activity in the rates through the Capital Investment Recovery (CIR) factor. See Volume 2B, Chapter 9 for additional information regarding the CIR.

3.2 Capital Assets Transferred In

WCF activities will calculate the depreciation of capital assets that are transferred into a WCF business entity without reimbursement based on its net value (original acquisition cost less calculated accumulated depreciation) plus any associated costs for transportation, installation, and other related costs necessary to put the asset into operational use. Since the transfer of capital assets to the WCF activity without reimbursement does not involve an outlay, the CIR factor is not applied.

3.3 Imputed Costs Related to Real Property

Volume 4, Chapter 24, directs WCF activities to impute costs in accordance with SFFAS 55. WCF activities that transfer out real property to comply with DoD policy must record imputed costs for those assets meeting the criteria defined in SFFAS 55.

4.0 MANAGEMENT IMPROVEMENT INITIATIVES

WCF activities must expense any management improvement initiative that does not qualify for the Capital Investment Program and does not result in a capital asset subject to depreciation.

5.0 REAL PROPERTY MAINTENANCE AND REPAIR

WCF activities must expense real property maintenance and repairs in the period in which the maintenance and repair occurs. See Volume 4, Chapter 24 for further policy on real property maintenance and repair.

6.0 DoD HEADQUARTERS ACTIVITIES COSTS

Each WCF activity is under the management control of a designated DoD Component. The WCF headquarters activities costs are related to specific WCF activity operations and are separate from the general policy direction for the Department or a DoD Component. WCF activities must identify management headquarters funded by the WCF in the WCF Charter (Management Command) for each applicable activity. See Chapter 2 for guidance on WCF charter requirements. Refer to Volume 2B, Chapter 9 for the DoD guidance related to headquarters activities.

7.0 ACCOUNTING FOR COSTS

The [*DoD USSGL Transaction Library*](#) illustrates the accounting entries with related USSGL accounts.

CHAPTER 13

COST ACCOUNTING REQUIREMENTS FOR DEPOT MAINTENANCE

1.0 GENERAL

1.1 Purpose

The purpose of this chapter is to prescribe depot maintenance cost accounting requirements for Defense Working Capital Fund (DWCF) activities to uniformly record, accumulate, and report the job order cost of performing DWCF functions. Depot maintenance reporting requirements and procedures are contained in Volume 6A, Chapter 14, “Depot Maintenance Reporting”.

1.2 Authoritative Guidance

1.2.1. Title 10, United States Code, section 2460 ([10 U.S.C. § 2460](#)) generally defines depot maintenance and repairs as:

1.2.1.1. Material maintenance or repair requiring the overhaul, upgrade, or rebuild of parts, assemblies, or subassemblies, and the testing and reclamation of equipment as necessary, regardless of the source of funds for the maintenance or repair, or the location at which the maintenance or repair is being performed;

1.2.1.2. Including all aspects of software maintenance classified by the Department as depot level maintenance and repair, and interim contractor support or contractor logistics support (or any similar contractor support), to the extent that such support is for the performance of services;

1.2.1.3. Not including the procurement of major modifications or upgrades of weapon systems that are designed to improve program performance, the nuclear refueling or defueling of an aircraft carrier and any concurrent complex overhaul, and the procurement of parts for safety modifications; and

1.2.1.4. Including the installation of parts for safety modifications.

1.2.2. Statement of Federal Financial Accounting Standards ([SFFAS](#)) [4](#), “Managerial Cost Accounting Standards and Concepts” sets forth the fundamental elements for cost accounting in Federal agencies. [SFFAS](#) [3](#) “Accounting for Inventory and Related Property” identifies the accounting standards that apply to several types of tangible property, other than long term fixed assets, held by federal government agencies.

1.2.3. Volume 4, Chapter 19 “Managerial Cost Accounting” provides guidance on implementing managerial cost accounting within the Department.

2.0 OVERARCHING POLICY

2.1 General

2.1.1. DWCF depot maintenance activities that utilize a job order costing methodology must use formal cost accounting practices in compliance with the provisions of SFFAS 4.

2.1.2. DWCF activities must ensure compliance with the requirements of this chapter and Volume 4, Chapter 4 “Inventory and Related Property” for all material, whether owned by the Department of Defense (DoD), other federal agencies, state or local governments, foreign governments, or private parties.

2.1.3. DWCF activities must uniformly record, accumulate, and report job order costs to assist management in measuring productivity and efficiency; developing and using performance measurement and cost standards; and highlighting areas that need increased management emphasis. This data also assists in the identification of total capability, duplication of capacity, and areas of interservice support of DWCF workload.

2.1.4. Depot maintenance serves to support Intermediate (I) and Organizational (O) level maintenance by providing technical assistance and performing maintenance that is beyond the capability/responsibility of the I and O levels.

2.2 Facilities Requirement

Depot maintenance may be performed in Government-Owned, Government-Operated facilities; Government-Owned, Contractor-Operated facilities; or Contractor-Owned, Contractor-Operated facilities. The primary funding source for depot maintenance operations is DoD operation and maintenance appropriations made available to customers of depot maintenance. Centrally managed procurement appropriations may finance certain specific programs such as weapon system upgrades and similar modernization and/or modification programs. Activities funded by an appropriation or fund legally authorized for the purpose, as well as customers outside of the DoD such as the Coast Guard and Foreign Military Sales, may place an order for maintenance work.

2.3 Managerial Cost Accounting
