2.3.1. Managerial cost accounting should be a fundamental part of the financial management system and, to the extent practical, should be integrated with other parts of the financial management system to provide consistent, cost-based information for reporting and management’s use.

2.3.2. DoD depot maintenance activities must, in accordance with SFFAS 4:

2.3.2.1. Accumulate and report the costs of activities on a regular basis for management information purposes;

2.3.2.2. Establish responsibility segments, and measure and report the costs of each segment's outputs and calculate the unit cost of each output;

2.3.2.3. Determine and report the full costs of government goods and services, including direct and indirect production costs and general and administrative (G&A) overhead costs;

2.3.2.4. Recognize the full costs of goods and services provided by other federal entities; and

2.3.2.5. Use and consistently follow costing methodologies or cost finding techniques most appropriate to the segment's operating environment to accumulate and assign costs to outputs. (Refer to Volume 4, Chapter 19 for additional guidance on managerial cost accounting).

3.0 ESTABLISHING THE COST ACCOUNTING MODULE

3.1 Job Order Cost Accounting Module

A job order cost accounting module should be subsidiary to, and integrated within, the financial system defined in Volume 1, Chapter 3 "Federal Financial Management Improvement Act Compliance". The cost module should be integrated with the depot payroll, fund control, and material control modules. Specifically, management should have information available from the cost accounting and reporting module to assist in the:

3.1.1. Comparison of historical unit cost trends with replacement cost trends to include proper identification and categorization of costs;

3.1.2. Oversight in the utilization of resources;

3.1.3. Evaluation of program budgets;

3.1.4. Comparison of cost trends among DWCF entities or between DWCF and contract sources;

3.1.5. Managerial direction and guidance for DWCF programs;

3.1.6. Evaluation of DWCF activities for efficient use of resources;

3.1.7. Estimation of DWCF requirements;

3.1.8. Monitoring of DoD Component compliance with various congressionally mandated reporting requirements;

3.1.9. Examination of the behavior of cost drivers over time (e.g., relationship between a given cost item and the quantity of its related cost driver(s) over time); and

3.1.10. Establishment of DWCF rates used for customer program budgets based on historic models of cost of repair and applied overhead.

3.2 Requisite Module

The cost accounting module must be established for, but not limited to, all DWCF depot maintenance activities.

3.3 Chart of Accounts

3.3.1. The United States Standard General Ledger ([USSGL](#)) provides a uniform chart of accounts and technical guidance for standardizing federal government agency accounting. Guidance on the use of individual general ledger accounts and transactions applicable to the DoD is provided within the Standard Financial Information Structure ([SFIS](#)). The DoD Standard Chart of Accounts ([SCOA](#)) includes all the point accounts and other information related to the USSGL for DoD purposes.

3.3.2. The following guidance further explains the use of the USSGL chart of accounts by a DWCF activity. For detailed DoD general ledger account guidance and DWCF transaction posting refer to the DoD SCOA and the DoD [USSGL Transaction Library](#).

3.3.2.1. Account 152500, "Inventory-Raw Materials," must be used to record all materials held for the purpose of providing a good or service to a customer regardless of the method acquired, e.g., purchase, donation, or transfer without reimbursement. DWCF activities must not charge raw materials to the work-in-process account until the materials are issued for use. Raw material issues must then be charged to appropriate job orders or cost centers. Unneeded material and supplies must be returned to the Inventory-Raw Materials account when a determination is made that the material is available for other uses.

3.3.2.2. DWCF activities must verify raw materials records and adjust them to physical counts. Any adjustments needed to reconcile the physical count with the recorded (book) value of raw materials must be charged to the appropriate cost center or to a gain or loss account as described in paragraph 9.8.

3.3.2.3. Account 152600, "Inventory-Work-in-Process," is the control account for all unbilled job orders. (Refer to Volume 4, Chapter 4 for work-in-process accounting policy.) The amount of work-in-process consists of all costs applied to unbilled job orders including direct labor, direct materials, direct contractual costs (exclusive of contracts that are awarded that directly cite the funds issuer's line of accounting), and applied overhead expenses. The balance in this account must be reconciled to the total charges on unbilled job orders as of the end of each quarter. In addition, the validity and reasonableness of the charges recorded on the unbilled job orders must be verified on a random sample basis at least annually. This validation must be performed by personnel not assigned to the accounting or maintenance function. For example, personnel from a DoD Component audit service or a local internal review staff may be assigned to perform this

function. Based on the results of the verification, DWCF activities must adjust accounts in accordance with the accounting scenarios contained in the DoD USSGL Transaction Library within SFIS.

3.3.2.4. DWCF activities must use account 141000, “Advances and Prepayments,” to record payment for expenses that properly apply to future accounting periods. Typical prepaid expenses are rents paid to a lessor at the beginning of a rental period. This account must not be used solely to level out significant expenses but must, in fact, represent an equitable distribution to the appropriate time period commensurate with the benefits that will accrue to that future period from the current payment. Refer to Volume 4, Chapter 5 “Advances and Prepayments” for additional guidance and definitions regarding prepayments.

3.4 Customer Funding

Depot maintenance workload performed by DWCF activities is considered non-severable in nature and thus customers must fund the full price of the order, through completion of the effort, using a reimbursable order. The DWCF activity must recognize revenue and bill the customer funding an order or, when advance payments have been received, relieve those advance payments to the appropriate revenue account. Revenue billings to customers must reflect due credit for the advances received. In no case must the total amount of revenue recognized and billed exceed the amount of the order. Chapter 11 “Reimbursements and Revenue Recognition” contains requirements for reimbursements and revenue recognition for DWCF entities.

3.5 Accruals

DWCF activities must record accrued expenses that are significant (material) in relation to the recording of costs for a DWCF activity in the appropriate expense accounts, budgetary accounts, and applicable liability accounts during the accounting period that the benefit was received rather than at the time of the payment for the expense. For example, DWCF activities must record accruals for accrued salaries, annual and sick leave, employee benefits, estimates for utilities, major real property maintenance and repair, and other significant services received and not yet paid. SFFAS 4 states that the determination of whether an item is material (i.e., significant) depends on the degree to which omitting information about the item makes it probable that the judgment of a reasonable person relying on the information would have been changed or influenced by the omission.

3.6 Missing or Erroneous Data

Occasions may arise when, due to missing or erroneous data, costs incurred cannot be identified to charge to the appropriate job order. Such costs must be temporarily recorded in the applicable expense account under suspense control until the correct data is available to make the proper distribution to the correct job order. Any unadjusted amount at the end of a fiscal year, if immaterial, must be charged to the applicable cost center using Account 610000 “Operating Expenses/Program Costs”.

4.0 ESTABLISHING JOB ORDERS

The performing activity must establish job orders in accordance with the following table:

Value of work to be performed	Units subject to “pre-shop analysis”¹ or “examination and evaluation”	Units NOT subject to “pre-shop analysis” or “examination and evaluation”
>\$150,000/unit	Job order per item	Not applicable
\$25,000 to \$150,000/unit ¹	Job order per monthly induction	Job order per monthly induction
<\$25,000/unit ²	Job order per quarterly induction	Job order per quarterly induction valued at \$500,000 or more
<\$25,000/unit ³ AND <\$500,000/TMS or NSN	Not applicable	Job order per quarterly induction, not to exceed \$1,000,000 per job order

¹ inspections and tests and other similar activities performed to determine work requirements

² for multiples of the same identification number (Type Model Series (TMS) or National Stock Number (NSN))

³ homogenous group, by stock classification, subclassification, repair category, or other appropriate criteria

5.0 JOB ORDER REQUIREMENTS

5.1 Job Order Cost Assignment Requirements

DWCF activities must assign costs to individual job orders at the time the job order receives a benefit from the incurrence of an expenditure. The benefit may occur at any time but usually occurs subsequent to the time the obligation is incurred, and before the disbursement occurs. DWCF activities may charge costs to job orders based on standard costs when those costs are properly adjusted for variances to arrive at the actual cost. Costs, including standard costs, must be recorded based on accrual concepts. DWCF activities must not charge direct material, labor, or other direct costs to job orders based on planned, programmed, or reserved amounts. Refer to Volume 4, Chapter 19 for additional guidance on job order cost accounting.

5.2 Job Order Opening and Closing Requirements

5.2.1. DWCF activities must open a job order when a new job order is required under section 4.0.

5.2.2. DWCF activities must close a job order as soon as all direct, indirect production, and G&A overhead costs are determined and assigned to the job order. Normally, all such costs must be determined and posted to the job order within 30 days of the completion of all direct labor chargeable to the job order. The job order must be closed with the use of predetermined indirect and G&A rates when authorized. DWCF activities must apply such indirect and G&A rates consistently to all job orders. At the end of the fiscal year, any under and/or over absorbed indirect and G&A (variances) must be adjusted using the transactions contained in the DoD USSGL Transaction Library within SFIS.

5.3 Segregation of Cost for Cancelled and Completed Job Orders

DWCF activities must identify costs associated with the cancellation or reduction of partially completed maintenance work, and report these costs separately from the costs of normally completed work. Paragraph 12.12 provides additional guidance on cancelled or reduced scope orders.

5.4 Customer Order Support of Job Orders

Customer orders, either project orders or Economy Act orders, from the activity responsible for the financing appropriation, are required to support each job order. The customer must provide full and adequate funds to cover all requirements. A customer may, however, issue orders to cover multiple job orders when agreed to in writing with the depot maintenance activity.

6.0 PROCESS COST CENTERS PROCEDURES

6.1 Process Cost Centers

A DWCF activity may perform certain unique operations that lend themselves to process cost center procedures. Process costing is a method of cost accounting that first collects costs by process and then allocates the total costs of each process equally to each unit of output flowing through it during an accounting period. For example, plating and painting operations are particular processes that may be uniformly and consistently performed to units that either are end items or will become part of end items. Rather than attempting to directly account for and assign each direct labor hour and material cost to an item that has undergone the particular plating or painting process, use of a process cost center allows the labor and material costs of the cost center to instead be accumulated and allocated to those items that were plated and/or painted during the respective accounting period. SFFAS 4 recognizes that process costing is appropriate when the production of goods or services involves a regular pattern of process, the output consists of homogeneous units, and all units are produced through the same process procedures. (Refer to Volume 4, Chapter 19 for additional guidance on process cost accounting).

6.2 Cost Allocation Basis

The DWCF activities must allocate process cost center costs to the job orders for the units processed through the cost center during the respective accounting period. The basis for the allocation of costs must be the number of equivalent units (e.g., number of units, linear feet, square feet, hours operating time) processed on-the-job orders through the cost center during the accounting period.

6.3 Cost Allocation Consistency

The DWCF activity should conduct a thorough analysis of alternative cost accounting and assignment methods before it adopts process cost center procedures. The method used to accumulate and allocate the costs for such operations must be documented and consistently applied from accounting period to accounting period to ensure consistency in the assignment of costs.

7.0 USE OF WORK MEASUREMENT STANDARDS

7.1 Work Measurement Standards

DWCF activities that establish work measurement standards for labor, material, and indirect production and G&A costs must develop cost estimates for each job order using these standards. Incurred costs must be compared against estimated costs to determine if corrective actions are required to control significant variances. Established work measurement standards need to be periodically re-evaluated and updated as necessary to assure that they encourage improvements in efficiency and continue to be within an attainable range.

7.2 Basis of Work Measurement Standards

DWCF activities that establish work measurement standards must base the standards on generally accepted industrial engineering techniques where high value, high volume work is involved. The work measurement standards may be established by in-house or other DoD personnel or they may be established by original equipment manufacturer's specifications of maintenance tasks and frequencies (product reliability engineered standards). DWCF activities that establish work measurement standards for labor, material, indirect production, or G&A costs must continuously review the standards to verify their accuracy in light of advanced processing equipment, and higher level of skills used. For low-value, low-volume work, the work measurement standards may involve less sophisticated engineering techniques, but the work measurement standards or estimated resources required must be developed for all work accepted.

8.0 LABOR COSTS

8.1 Civilian Labor Hours

DWCF activities must record all civilian labor hours worked in a cost center as either a direct cost on a job order or as an indirect production cost that will be allocated to a job order. Civilian labor hours must be charged at the current payroll rate to include DoD paid personnel benefits.

8.2 Use of Actual and Average Labor Rates

DWCF activities must use actual civilian payroll hourly rates as the basis to record labor costs. Average labor rates may only be used to record labor costs for cost centers when the range of actual hourly pay rates within that center is limited and significant distortions of recorded costs would not result from their use. DWCF activities must not use stabilized rates approved for billing purposes as the basis to record labor or other costs incurred. Stabilized rates are the result of budget estimates; actual costs incurred must be recorded in the cost accounting system independent of the rate setting process.

8.3 Labor Distribution System

DWCF activities must use a labor distribution system to charge all direct labor hours and costs to applicable job orders. Each pay period, DWCF activities must reconcile and correct differences between the labor hours recorded for payroll purposes, payroll costs incurred, and the labor hours and costs distributed to job orders and indirect production cost centers through the labor distribution system. For discrepancies that cannot be reconciled between job order records and payroll records without incurring a major expenditure of resources, DWCF activities must correct the job order records to equal the payroll records. Differences due to the use of average cost center labor rates must be charged to G&A expenses.

8.4 Military Labor Hours

DWCF activities must record all military hours worked as either a direct cost on a job order or as an indirect production cost of a cost center. DWCF activities must charge military labor hours to the job order at the current civilian equivalent rate applicable to the rank and military service of each military member. (Refer to Chapter 12 “Expenses” for the military personnel costing process.)

8.5 Military Personnel Depot Maintenance Costs

DWCF activities must record as an unfunded depot maintenance cost all military labor performed by a “ship’s force” or other military personnel that are part of the operating forces or an intermediate level organization that are loaned, without reimbursement, to and working under the supervision or direction of the depot maintenance activity when weapons systems, platforms or components are undergoing depot maintenance in a DWCF depot. Military personnel “on loan” and not assigned to DWCF activities are funded under other appropriations. The DWCF activities

must not bill these labor costs to, or accept reimbursement from, the customer. These costs are nonrecoverable and DWCF activities must not include them in the calculation of the net operating results used for developing future rates or prices. When military personnel are not working under the supervision or direction of the depot maintenance activity (not assigned), any maintenance work they perform must not be considered depot maintenance.

8.6 Timekeeping

A DWCF activity must maintain a timekeeping system to collect and distribute both military and civilian labor to applicable job orders or cost centers. A timekeeping system must provide the following information:

8.6.1. Source of Hours Available:

8.6.1.1. Normal duty hours available by cost center.

8.6.1.2. Premium time, overtime, and holiday time by cost center.

8.6.1.3. Loaned labor hours by gaining and losing cost center.

8.6.2. Application of Hours Available:

8.6.2.1. Direct hours worked by cost center on each job order.

8.6.2.2. Indirect hours worked by cost center.

8.6.2.3. Nonproductive (e.g., annual, sick) hours by cost center.

8.7 Allocation of Hours

DWCF activities must apply the allocation of hours worked to benefiting job orders, activities, services, or products on a per unit basis, where applicable. The allocation of hours worked to benefiting job orders may also be based on industrially engineered earned hour (actual hour efficiency of a cost center if the employees in the cost center are of a homogeneous type and the allocation of labor hours are properly adjusted for variances to arrive at actual hours worked). The industrially engineered earned hour method of allocation is not appropriate for a cost center with a diverse workforce or different types of workload.

8.8 Supervisor Responsibilities

Supervisors are responsible for the validity of timekeeping records. Supervisors are also responsible for establishing the job order(s) for each pertinent employee and notifying employees of the job orders. Employees are responsible for certifying that the time charged to job orders is correct. DWCF activities must reconcile the source documents used to record the hours worked by each employee on each job order to the total payroll hours.

8.9 Direct Labor

Direct labor is work that can be identified, without undue cost or difficulty, to a single, specific job order. Direct labor generally includes the hands-on maintenance, repair, overhaul, test, and related direct production effort that follow the established sequence and content of work necessary to accomplish the billable job. Direct labor does not include the support work identified as either indirect production or G&A in nature.

8.10 First Line Supervision

First line supervision is that position level immediately over nonsupervisory workers. First line supervisors and above occupy an official supervisory designated position, and when acting in a supervisory capacity, must have their labor costs charged by the DWCF activity as an indirect production cost of the cost center supervised. First line supervisors may be borrowed and when used as direct labor, DWCF activities must classify the time of the first line supervisor as direct labor and charge it to the applicable job order rather than as an indirect production cost. "Crew chiefs," "snappers," "team leaders," and other subordinate job leaders are not first line supervisors.

8.11 Loaned Labor

DWCF activities must place special emphasis on accurately recording the use of loaned labor, which occurs when an employee is temporarily transferred (loaned) from one cost center to another within a DWCF activity. When an employee is loaned, the gaining cost center must record the labor hours of the employee. Care must be exercised to assure that the costs of loaned employees are not charged by both, or by neither of, the loaning and gaining cost centers. First line supervisors at both the loaning and gaining cost centers may be tasked to validate that such costs are accurately recorded. Only personnel assigned to the DWCF are recoverable in the rate structure, while loaned labor is funded by other appropriations.

8.12 Temporary Employees

If employees are temporarily assigned to a DWCF activity from an organizational entity other than DWCF activity and the DWCF activity neither pays the individual directly nor makes payment or reimbursement to the activity loaning the employee, the labor costs must be recorded as unfunded. These costs are nonrecoverable and DWCF activities must not include them in the calculation of net operating results used for developing future rates or prices.

8.13 Civilian Leave and Benefits

The following requirements apply to accounting for civilian leave and benefits. For DoD general ledger accounts and related transaction posting detail, refer to the DoD SCOA and the DoD USSGL Transaction Library.

8.13.1. Accruals.

8.13.1.1. Account 221000, “Accrued Funded Payroll and Leave,” must be used to account for accrued annual leave of DWCF civilian employees. DWCF activities must include a factor for annual leave accruals in stabilized rates or prices in order to provide funding for annual leave.

8.13.1.2. Account 221300, “Employer Contributions and Payroll Taxes Payable,” must be established to account for accrued sick leave, accrued holiday, and other miscellaneous leave in addition to other employee benefits such as life and health insurance, and retirement contributions. The accruals are to be based on estimates of leave to be taken, not the amount of leave earned.

8.13.2. Leave must be costed to job orders based on an allocation factor for all time worked except when a holiday is involved. When an employee works on a holiday, the regular pay for the holiday must be charged against the holiday leave accrual liability, the same as for employees who do not work on the holiday. DWCF activities will only cost the additional pay for working on the holiday, along with the leave accrual, at the prescribed allocation factor, to the job order as stated in paragraph 8.16.

8.13.3. Leave actually taken must be relieved from the appropriate accrued leave account based on payroll labor distributions, and must not be charged to current job orders.

8.13.4. Reconciliation.

8.13.4.1. The amount of annual leave accrued must be reconciled at the end of the fiscal year with individual employee leave records. Adjustments to reconcile the balance in the account to the individual leave records must be costed to USSGL Account 610000, “Operating Expenses/Program Costs” as a G&A expense adjustment. After reconciliation, the balance of the accrued annual leave account must be carried forward into the following fiscal year.

8.13.4.2. At fiscal year-end, the estimates of sick leave, holiday leave, and other leave to be taken may not agree with the actual leave taken. Adjustments necessary to result in a \$0 balance in the sick leave, holiday leave, and other leave accounts must be costed to Account 640000, “Benefit Expense (Personnel Benefits – Civilian)” as a G&A expense adjustment. Accrued sick, holiday, and other leave balances are not to be carried forward into the following fiscal year.

8.14 Allocation Factors

The use of allocation factors for calculating leave accruals and applying them to the proper cost centers on labor cost distributions is normally the simplest, most economical, and most accurate method of accruing and costing leave. DWCF activities must update the allocation factors periodically to limit the adjustments to the accrued leave accounts to a minor amount at the end of the fiscal year.

8.14.1. A DWCF activity may determine its own allocation leave accrual factors because of variances caused by average length of service, climate, turnover, and local leave usage experience.

8.14.2. When establishing the allocation factors, it is necessary to estimate the average annual workdays for the activity to which the factor must be applied. The following is an illustration:

8.14.3. Total days in year	365.0
Less time off	
Average annual leave taken	20.0
Average sick leave taken	9.0
Holidays and other events	11.0
Saturdays and Sundays	<u>104.0</u>
Normal time off	<u>144.0</u>
Normal workdays	221.0
Estimated overtime work	3.5
Estimated holiday time work	<u>.5</u>
Average workdays	225.0

8.14.4. The annual leave accrual factor may be calculated as follows:

1. Average days net accrual of annual leave		21
2. Average workdays (computed in para. 8.14.3)	+	225
3. Preliminary accrual factor (excluding pay adjustments) [(1) ÷ (2)]	=	.093
4. Estimated regular pay for regular time and overtime worked and premium pay for holiday time worked	x	\$10,000,000
5. Total amount accrued for annual leave using preliminary factor	=	\$ 930,000
6. Estimated increase in accrual of annual leave due to pay increase	+	\$ 30,000
7. Total leave accrual requirements	=	\$ 960,000
8. Amount to which leave accrual factor is to be applied (para. 8.14.4.4)		\$10,000,000
9. Annual leave accrual factor	=	.096

8.14.5. The composite leave accrual factor may be calculated as follows:

<u>Type of Leave</u>	<u>Average Days Annually</u>	<u>Average Workdays</u>	<u>Accrual Factor</u>
Annual	(refer to para. 8.14.4.9)	=	.096
Sick	9 ÷	225	= .040
Holiday and Other	11 ÷	225	= .049
Composite Accrual Factor			.185

8.15 Fringe Benefits

In addition to the factor for leave, DWCF activities must add a factor to cover the employer's share of other employee fringe benefits such as retirement, life insurance, health, and other benefits. Each activity may develop its own factor. Standard accrual factors for leave, retirement, insurance, health, and other benefits must be applied against all payroll costs.

8.16 Overtime Premium

The costs of overtime premium pay (that is, the amount paid for working overtime that is above the normal labor hour rate) must not be charged directly to the applicable job order except when the overtime is clearly caused by the unique conditions of the job order. A clear relationship for the incurrence of overtime costs may be established when a DWCF activity agrees with a customer to meet an expedited completion date or accepts additional work within the same time frame on the same order. Otherwise, the overtime premium must be recorded as an indirect production cost.

8.17 Other Premium Pay

Other premium pay includes payments for extra shift, hazardous duty, and night duty. Consistent with the policy for overtime premium, DWCF activities must only classify other premium pay as a direct labor charge when the incurrence of the premium pay is clearly the result of unique conditions of the job order. Unless the peculiar conditions of the job order require the incurrence of the premium pay, premium pay must be charged as indirect labor costs.

9.0 MATERIAL COSTS

9.1 Raw Materials

All material purchased by DWCF depot maintenance activities, for the purpose of providing a good or service to a customer, must be accounted for in general ledger account 152500, "Inventory-Raw Materials". This account must be debited based upon receipt of materials and supplies. The same account must be credited with an offsetting debit (charge) to general ledger account 152600, "Inventory-Work-In-Process," upon issue of the material for use in the performance of DWCF work. Inventory accounting policy and related requirements necessary to establish financial control over DoD inventory, operating materials and supplies, and stockpile materials is contained in Volume 4, Chapter 4.

9.2 Allocation of Direct and Indirect Material

Direct material and supplies must be charged directly to the applicable job order. Indirect material must be charged to the using cost center upon issue.

9.3 Moving Average Cost (MAC)

Materials and supplies contained in the inventory account must be valued at historical cost using the moving average cost flow assumptions in accordance with SFFAS 3 and Volume 4, Chapter 4. More detailed guidance regarding the calculation of MAC is contained in Volume 4, Chapter 4.

9.4 Acceptance and Use of Customer Furnished Material

DWCF activities must accept and use customer furnished material only when its use could be expected to result in a more economical, efficient, or timely output.

9.5 Return of Customer Furnished Material

9.5.1. DWCF activities must return customer furnished material that remains after job order completion to the customer within 60 days unless there is, or soon will be (generally within 90 days), a direct production requirement from the customer who furnished the material for which the material may be used.

9.5.2. If the customer abandons the material, it may be retained if needed for other work requirements. If the inventory is retained, no accounting entry is needed other than the original accepting entry.

9.6 Direct Material

Direct material is that material and supplies that can be identified, without undue cost or difficulty, to the performance of work specified by a work authorization document or job order. A small amount of material may be treated as indirect material even though the material is incorporated as part of the final product, if this practice is consistently applied to all job orders. Direct material may either be incorporated as a part of the final product or consumed in the process.

9.7 Indirect Material

Indirect material is that material that cannot be identified, without undue cost or difficulty, to the performance of work as specified by a work authorization document or job order. The determination of what constitutes “without undue cost or difficulty,” although not defined, is subject to reasonable interpretation. If questioned, it is the responsibility of the DWCF activity to demonstrate that identification of material (or labor) as direct would be unduly costly or difficult in relation to the benefit received.

9.8 Excess Materials

DWCF activities should review the material and supplies on hand in a cost center at least annually to determine if excesses exist. Those items that are excess and are not needed for a particular job order must be returned to the materials and supply stock account. The unused material returned to the materials and supplies stock account must be recorded as follows:

9.8.1. Credit must be granted to the job order originally charged for unused direct material and that material must be recorded as an increase to Account 152500, “Inventory-Raw Materials”. If the job order to which the material was originally charged has been closed, and a decision is made not to reopen the order to post the credit, the credit must be applied to Account 719000, “Other Gains.”

9.8.2. Credit must be granted for the return of usable indirect material to the materials and supplies stock account. The credit must be applied to the indirect material expense account of the applicable cost center.

9.8.3. Items in excess of the needs of a DWCF activity must be returned to the supply system. DWCF activities must record transactions for materials returned and credit received (if any) in accordance with the DoD USSGL/SFIS requirements and transaction library and Volume 4, Chapter 4.

9.9 Reparable Carcasses

When an item such as an assembly, subassembly, or an end item is designated as an “exchange” item, the depot can order and pay for a replacement from the Supply activity to install on the customer’s equipment. The job order must be charged the price the depot pays for the replacement. Further, the depot must return the damaged part or carcass to the Supply activity. If the depot receives credit from the Supply activity, the depot must credit the job order for the amount received. For non-DoD carcasses including those owned by foreign governments, refer to the requirements in [Volume 15](#), “Security Assistance Policy and Procedures”.

9.10 Items Beyond Repair

If an exchange carcass is beyond repair or an exchange item is missing and the depot maintenance activity must order and pay for a replacement from the Supply activity, the cost of the new item must be charged to the job order as a direct material cost.

10.0 OTHER DIRECT COSTS

10.1 Purchased Services

Purchased services must be charged as direct costs to the job order that benefits from the services. If only one job order benefits from a contract or purchase, the cost of the contract must be charged to that job order. If more than one job order benefits from a contract, the costs of the contract must be prorated to the benefiting job orders based on estimates or calculations of the benefits received by each job order.

10.2 Purchased Services Benefiting Indirect Cost Centers

Purchased services that benefit indirect cost centers must be recorded as indirect production costs. If purchased services benefit the activity as a whole, they must be recorded as G&A costs.

10.3 Contracts Supplementing Capacity or Capability

The costs of contracts that supplement the capacity or capability of a DWCF activity must be charged to the job orders that use the additional services.

10.4 Material Costs

The costs of material procured from contractors must be recorded in account 152500, “Inventory-Raw Materials” and charged to job orders under normal procedures. If, however, material is procured for a specific job order, the acquisition cost of the material must be a direct charge to the applicable job order.

10.5 Travel and Per Diem Expenses

Travel and per diem expenses (including regular labor hours spent in travel) must be charged as direct costs only if the labor hours worked while traveling are charged as direct labor. If the traveler works on more than a single job order, the travel and per diem expenses must be prorated based on the related direct labor hours to each order. If the travel is not related to job orders, all travel and per diem expenses must be charged as an indirect production expense of the employee's cost center.

11.0 INDIRECT COSTS

11.1 Indirect Production Rates and Standard Costs

The indirect production rates and standard costs discussed in this chapter should not be confused with stabilized billing rates. Stabilized billing rates or stabilized prices are used solely to price work to DoD-funded customers and may only be changed upon approval of the Office of the Under Secretary of Defense (Comptroller) (OUSD(C)).

11.2 Indirect Production Costs

DWCF activities must record as indirect production costs, by object class as specified in Office of Management and Budget [\(OMB\) Circular A-11](#), all costs incurred that are not chargeable as direct costs, unless specifically designated otherwise. Indirect production costs must be recorded by activity, department, cost center, or other organizational element responsible for incurring the cost. The number and type of indirect production cost centers to be established is a function of the diversity of the indirect activities at the depot and the level of management information required. The minimum number of cost centers required to separately identify and record homogeneous groupings of cost is a function of the number of different types of facilities, equipment, and/or skills required in the indirect area. The number of additional cost centers is a management prerogative in terms of the number and type of cost centers needed to ensure efficient and effective operations.

11.3 Indirect Production Cost Pools

Costs of departments, service, and processing centers that provide support directly to direct cost centers must be classified as operating support indirect production cost pools. The costs assigned to these cost pools must be allocated in full to the benefiting direct cost centers (refer to paragraph 11.5) and not included in the G&A expense rate described in paragraph 11.6. Costs assigned to operating support indirect production cost pools must be allocated to the benefiting direct cost centers using a base that results in the distribution of costs incurred in proportion to the benefits received.

11.4 Indirect Production Cost Allocation

Indirect production costs must be allocated to job orders by the use of an operations rate and a G&A rate as described in paragraphs 11.5 and 11.6, respectively. These rates are not the stabilized rates and prices to be used to price DoD customer bills. Refer to Volume 2B, Chapter 9 “Defense Working Capital Fund Budget Justification Analysis” for policy guidance on stabilized rates and prices.

11.5 Operations Rate

DWCF activities must develop an operations rate for each direct cost center in which direct labor is utilized in the performance of DWCF activities. The operations cost pool must consist of all indirect production costs incurred by the cost center plus the allocated share of operating support costs of departments or service cost centers, if any (refer to paragraph 11.3). Use direct labor hours, including both military and civilian direct labor, as the basis for allocating the operations cost pool to the direct cost centers. This base is appropriate because operations in a DWCF activity is normally a function of direct labor hours. When the use of direct labor hours as an allocation base will not result in an equitable allocation of the operations cost pool costs (that is, charges are not commensurate with benefits received), a more appropriate alternate allocation base may be selected providing:

11.5.1. An organizational authority that is above the level of the local performing DWCF activity, including the OUSD(C), has not directed that particular DWCF activity to use a specific allocation base. If a higher organizational authority has not previously directed a specific allocation base for use, then approval of the alternate preferred base need not be obtained by the local performing DWCF activity;

11.5.2. The alternate allocation base preferred for use is approved by the comptroller of the local performing DWCF activity; and

11.5.3. Justification for the decision is documented and retained in the office of the local comptroller for review.

11.6 G&A Rate

DWCF activities must allocate G&A [overhead](#) expenses to job orders using an allocation rate separate from the operations rate. The G&A expense pool is comprised of all G&A expenses incurred by a DWCF activity. The base used to allocate G&A expenses to a job order is total incurred costs (both direct and indirect production costs). When the use of total incurred costs as an allocation base will not result in an equitable allocation of G&A expenses (that is, charges are not commensurate with benefits received), a more appropriate alternate allocation base may be selected providing:

11.6.1. An organizational authority that is above the level of the local performing depot maintenance activity, including the OUSD(C), has not directed that particular depot maintenance activity to use a specific allocation base. If a higher organizational authority has not previously directed a specific allocation base for use, then approval of the alternate preferred base need not be obtained by the local performing DWCF activity;

11.6.2. The alternate allocation base preferred for use is approved by the comptroller of the local performing DWCF activity; and

11.6.3. Justification for the decision is documented and retained in the office of the local comptroller for review.

11.7 Variances

Indirect production costs and G&A overhead expenses must be allocated to job orders using, respectively, the indirect production rate and G&A rate. These rates are not the stabilized rates and prices to be used to price DoD customer bills. (Refer to Volume 2B, Chapter 9 for policy on stabilized rates and prices.) The indirect production and G&A rates must be developed based upon estimated costs with an anticipated level of activity (base). The applied overhead account must be used to record any over- and/or under- absorbed indirect production and G&A. A variance between actual indirect production and G&A costs and applied indirect production and G&A may require a change in the indirect production or G&A rate as applicable. The development of a new indirect production and/or G&A rate must include plans to absorb the amount of the realized variance during the time period the new rate is in effect. A change in the indirect production or G&A rate must be approved by the comptroller of the performing DWCF activity when it is apparent that:

11.7.1. The variance is not due to seasonal fluctuations such as summer vacations;

11.7.2. The variance will continue to exist at fiscal year-end; and

11.7.3. The expected variance is significant. The determination of what is “significant” must be made by, or in consultation with, the local DWCF comptroller.

11.8 Completed Job Orders

When a job order is complete, it must be closed—moved from work-in-process to Account 650000, “Cost of Goods Sold”—including indirect production and G&A costs allocated based upon the particular rates in effect during the life of the order. Adjustments in rates made after a job order is closed must not be posted to a completed job order unless the effect of the adjustment would have a significant impact on the total costs assigned to the job order. Adjustments applicable to the current fiscal year for under/over-applied indirect production and G&A must be accounted for using the DoD USSGL Transaction Library within SFIS.

11.9 Permanent Change of Station

The costs of Permanent Change of Station movements for transferred civilian employees that are the responsibility of a DWCF activity must not be charged as a direct cost but as an indirect production expense and recorded in accounts 610000, "Operating Expenses/Program Costs. Use object class 210 to record travel and transportation costs of persons and object class code 220, as identified in OMB Circular A-11, to record the transportation cost of items to make the proper distinction of expense type.

12.0 COSTS REQUIRING SPECIAL ATTENTION

12.1 Quality Assurance

DWCF activities must charge quality assurance costs (including test design and analysis); testing conducted to independently assure the quality of the work accomplished; and related supervision and support incurred in direct support of a customer order, directly to the order. DWCF activities must charge quality assurance costs that are not identifiable to specific job orders to an operating support indirect cost center as described in paragraph 11.3 and allocate the costs to the benefiting direct cost centers.

12.2 Inspections and Tests

Operational inspections and tests performed to determine the condition of the item and make adjustments are inherent in performing maintenance and must be recorded as "direct labor - production." Specifically, DWCF activities must record inspections and tests made to determine work requirements, such as pre-shop analysis, initial evaluation and inspection, and pre-inspection or shakedown inspection, as "direct labor" on the applicable job order. Likewise, DWCF activities must record final inspection and tests performed after a process is complete to assure operational or functional adequacy as "direct labor - production."

12.3 Repairables

The National Inventory Control Point item manager directs the reclamation of unserviceable depot level repairables. Depots must establish a separate job order for each reclamation project and return items produced as a by-product of the reclamation process to the DoD supply system.

12.4 Borrowed Assemblies, Subassemblies, Components, or Parts

12.4.1. Depots use two terms in reference to borrowed assemblies.

12.4.1.1. "Backrobbing" (also called "rob-back") is defined as the taking of an assembly, subassembly, component, or part from an item that has been inducted for maintenance for use on another item inducted for maintenance with the intention of replacement at a later time. It is the temporary borrowing of the required part.

12.4.1.2. “Cannibalization” is defined as the taking of an assembly, subassembly, component, or part from an item (serviceable or unserviceable) that has not been inducted for maintenance (without regard to its location or ownership) by a maintenance activity for use on an item that has been inducted for maintenance.

12.4.2. Generally, borrowing is authorized only to prevent a work stoppage. Depots must charge the current acquisition cost of the assembly, subassembly, component, or part that was borrowed, and the cost of installing it, to the benefiting job order. Depots must charge all costs incurred in removing the borrowed item and reinstalling the replacement item to the operations cost pool of the cost center requiring the part. These costs must not be separately identified for reporting purposes.

12.5 Calibration

Depots must charge the cost of calibration of an assembly, subassembly, component, part, or other equipment from an item that has been inducted for maintenance to the benefiting job order. Calibration of equipment used by a depot maintenance cost center in the performance of its work must be charged as an indirect production expense of the cost center that uses the item being calibrated.

12.6 Modifications and Upgrades

12.6.1. Depots must establish a separate job order for each modification or upgrade of a major end item such as an aircraft. Separate job orders must only be established for other than major end item modifications or upgrades when the work is easily identifiable, such as when the modification or upgrade is the primary purpose of inducting the item. Depots must charge the cost of material used in the modification or upgrade process, such as a modification kit, and the cost of direct labor incurred to install the modification, to the modification job order.

12.6.2. Depots must also charge to the modification or upgrade job order the modification or upgrade material (modification kits) used for the modification or upgrade job order when a modification or upgrade is performed concurrently with depot maintenance work on the same major end item. In addition, repair requirements that are the direct result of the modification/modernization installation work (also referred to as repair incident to mod) are also legitimate charges to the modification job order. However, direct labor must be charged as modification or upgrade work only when it is peculiar to the modification or upgrade process. For example, depots must charge labor costs incurred in disassembly, test, inspection, repair, rebuild, replacement and servicing that are performed as a normal part of the overhaul to depot maintenance overhaul when modification or upgrade is performed concurrently with overhaul; these costs must not be prorated between overhaul and modification or upgrade.

12.6.3. Depots may charge labor costs incurred installing a modification or upgrade concurrently with depot maintenance overhaul work to the depot maintenance overhaul job order if the amount of the modification or upgrade labor is so small that no significant or material distortion in either the modification or upgrade or the depot maintenance cost will occur. When this practice is followed, there must be no adjustments to the depot maintenance overhaul job order based on labor or material standards or other estimates of modification or upgrade labor in order to support reimbursement from fund citations for modification or upgrade work.

12.7 Information Technology

12.7.1. Depots must capitalize the costs of computer programming efforts for DWCF equipment (that is, the costs of software development efforts for use on DWCF activity assets) when they meet the DoD capitalization criteria. Programming efforts that do not meet prescribed capitalization criteria must be treated as operations overhead expense of the performing cost center. If the programming effort consumes significant amounts of resources, the depot must establish a separate indirect department or service center and allocate the service center's capitalized and other costs to the benefiting direct cost centers based on program use. Depots must charge the costs of programming effort for non-DWCF activities to those activities before allocating the remaining costs to the benefiting direct cost centers. When the programming costs are not appropriately chargeable as an indirect production cost, depots must charge the costs to a G&A expense account. General cost guidance applicable to information technology can be found in Volume 4, Chapter 6 "Property, Plant, and Equipment".

12.7.2. DWCF activities perform software support to ensure that fielded software systems, as updated by modification and improvement efforts, continue to support original missions. All DWCF costs for software support must be charged to specific job orders established for this purpose. DWCF activities must include all applicable direct labor, direct material, all other direct costs, indirect production, and G&A costs in costs charged to the orders.

12.8 Machine Set-Up Costs

12.8.1. Depots must charge the cost of programming efforts for automatic test and numerically controlled machines to the benefiting job order(s). However, if a depot expends significant effort for programming that benefits more than one job order, then the depot must allocate the programming cost to all benefiting job orders. If new machinery or equipment is required, then these costs are part of the Capital Investment Program. The nonproductive labor hours of employees waiting for programming to be completed is an indirect expense of the worker's cost center.

12.8.2. Depots must charge machine tool set-up time to the benefiting job order(s). Set-up time is normally recorded as direct labor on a job order and should not be separately recorded from the job order. However, if a significant effort is expended for a set-up that must benefit more than one job order, then the depot should allocate the set-up to all benefiting job orders. The nonproductive labor hours of employees waiting for a set-up to be completed are an indirect expense of the worker's cost center.

12.9 Defective Work and Spoilage Costs

12.9.1. Depots must charge the applicable job order for efforts undertaken to correct work defects and spoilage when quality control standards are not met. Examples of corrective work that should be directly charged to a job order include:

12.9.1.1. Reworking castings, welds, and brazing involving acceptable reject rates.

12.9.1.2. Minor realignment or refitting of units that are improperly finished or aligned.

12.9.1.3. Resoldering of connections broken in transit.

12.9.2. Depots must charge the responsible cost center's indirect material and labor costs with the costs of the corrective work when unusual defects or excessive spoilage occurs. When the responsible cost center cannot be determined, depots must charge the applicable material and labor cost as an indirect production cost. Defective work and spoilage that are chargeable to indirect production costs include the following:

12.9.2.1. Costs for additional material and labor necessary to remedy or rework end products when defects beyond acceptable levels are detected during the normal production and inspection processes. Such costs do not add value to the work performed but are necessary to bring the work up to stated specifications.

12.9.2.2. Costs related to work on items with defects so severe that the item must be removed from the production process and sold as scrap or returned in part to raw materials. When this happens, the depot must relieve the applicable job order of the costs and charge the indirect production costs of the responsible cost center. If a responsible cost center cannot be determined, the depot must charge a G&A account for "Defective Work and Spoilage" for the costs of the rejected item.

12.10 Disposition

12.10.1. Depots must comply with [40 U.S.C. § 574](#) and Volume 11A, Chapter 5, "Disposition of Proceeds from Department of Defense Sales of Surplus Personal Property" regarding disposition of proceeds from DoD sales of surplus property. Proceeds from the sale of surplus property generated, collected, or otherwise obtained by DWCF activities as a part of normal operations must be credited to the DWCF and accounted for as follows:

12.10.2. Estimated proceeds from the sale of material removed during work on vessels, aircraft, vehicles, and weapons that can be feasibly and economically related to a specific job order may be credited to that job order. When actual proceeds are known, the job order amount must be adjusted if the job order is still open. Otherwise, the net difference between the estimated amount and the actual amount of proceeds must be adjusted to USSGL Account 711000, "Gains on Disposition of Assets - Other".

12.10.3. Carcasses received from customers that are later condemned or deemed unserviceable are considered a normal part of DWCF operations. Therefore, the proceeds from the sale of carcasses received from customers must be credited to USSGL Account 711000.

12.10.4. All other proceeds from the sale of DWCF items must be credited to USSGL Account 711000.

12.11 Mobilization Capability Costs

Mobilization capability costs include the costs to maintain a surge capacity and/or maintain other assets, functions, or capabilities required to meet an operational contingency as documented in the Secretary's force planning guidance or operational plans. Surge capacity most often manifests itself in facilities and equipment that are unutilized or underutilized during normal peacetime operations. DoD policy and guidance associated with mobilization costs is contained in Chapter 14 "Mobilization Costs", and in Volume 2B, Chapter 9.

12.12 Job Order Cancellations or Reductions in Scope

12.12.1. Depots must charge the costs incurred plus the applied indirect production and G&A costs, and costs associated with the cancellation or reduction, to the customer when a job order is canceled or reduced in scope after a DWCF activity has commenced work or incurred costs on the order. Funds personnel must ensure the customer provides and/or does not reduce funding below amounts required to cover canceled/reduced orders. Examples of directly associated cancellation or reduction costs to be charged to customers are advance planning costs, non-creditable direct material, special test equipment, necessary preservation and/or shipment effort, and any additional effort necessitated by the cancellation and/or reduction; for example, salvaging of material. In addition, depots must charge the customer for the costs of salaries payable to employees hired specifically to work on the canceled order until the employees are, or could have been, separated through a reduction in force or other appropriate action (taking into account appropriate administrative lead time), or reassigned to other direct jobs.

12.12.2. Costs that are indirectly associated with cancellation or reduction actions must not be charged to the customer. Although normally allocated indirect production and G&A costs must be charged to canceled or reduced customer orders, any underapplied indirect production and G&A costs that may occur as a result of a reduced workload base of the DWCF activity as a whole must not be charged to the customer canceling or reducing their order. The underapplied costs must be recorded against the net operating results of the performing DWCF activity.

12.13 Employee Training Costs

12.3.1. Depots must record the cost of training performed for the DWCF activity's benefit as an indirect expense of the employees' cost center. General developmental training for WCF employees not required to support actual productive workload (i.e., training in the installation, operation, and maintenance of DoD weapons, equipment, and systems to develop organic expertise) may not be charged as a direct cost to customer orders.

12.3.2. Training costs must include all applicable elements of cost, including labor costs of trainees, travel, transportation, per diem costs, labor costs of instructors, tuition, books, and materials. Training costs must include the cost of planning the course of instruction, conducting the course, and any related support effort.

12.3.3. The development and qualification of employees requested by activities outside of the performing DWCF activity must be charged to a specific job order.

12.3.4. The hours of on-the-job training in the form of actual productive effort (as opposed to observation or other noncontributory effort) are chargeable as direct labor to the related job order. Noncontributory effort, including time spent observing others, should be charged to the indirect costs of the cost center of the employee.

12.14 Technical Assistance

Depot maintenance technical assistance is a specialized service, provided by qualified depot maintenance technicians, that is performed in many different ways depending upon the requirement. Technical assistance may include instruction on maintenance repair or support processes for military equipment, special programs for military reserve units, training foreign nationals using uniquely qualified personnel to provide technical assistance, performing specific work requiring special skills for operational activities, other maintenance organizations, or foreign governments. All depot maintenance activity costs for technical assistance must be charged to specific job orders established for that purpose. The costs charged to these job orders must include direct labor, direct material, all other direct costs, and operations overhead and G&A costs including variances for applied overhead.

12.15 Assets Manufactured by a DWCF Activity for Itself

Normally, the material requirements of a DWCF activity are met by the supply system or commercial procurement. However, in some cases, material requirements may be fulfilled by a manufacturing process at the DWCF activity. The manufacturing process includes several phases:

12.15.1. Preparation of a work authorization document (in-house job order) to replace the normal funded customer order;

12.15.2. The costing of direct labor, material, and applied overhead to the manufacturing job order as work-in-process; and

12.15.3. The posting of the completed job order to an asset account, or, if the transaction is reimbursable, to a job order.

12.16 Special Non-DWCF Functions

Occasionally, some uniquely qualified DWCF personnel are asked to perform various types of special functions that are not DWCF activities or functions. Such work is chargeable to other separately budgeted functions such as supply operations, property disposal, or family housing.

12.17 Concurrent Maintenance

Concurrent maintenance occurs when the depot inducts component parts of an end item into the maintenance process at the same time as the end item is inducted for maintenance. This approach is used instead of an exchange. The approach selected is usually a function of the desired outcome and the availability of exchanges. Concurrent maintenance and exchange do not normally result in the same costs being incurred, and no attempts should be made to balance the costs incurred for work performed in the two separate modes. All concurrent maintenance costs must be charged to the weapon system order and not allocated to component repair job orders.

12.18 Host/Tenant Support Services

The DWCF activities give and receive different types and levels of support services to and from the host installation depending upon location and mission assignments.

12.8.1. Uniform costing requires that support services that benefit the performance of the depot maintenance function be recognized as part of the indirect expenses of the benefiting cost center, or the entire DWCF activity as appropriate, regardless of the funding source for the support services.

12.8.2. The DWCF activities must not provide or receive goods or services on a nonreimbursable basis. In addition, offset or barter arrangements must not be made with other activities for goods or services. Special arrangements to avoid normal funding requirements may result in apparent violations of the Antideficiency Act.

12.19 Employee Bonuses and Awards

Depots must charge monetary awards paid to employees for suggestions and one-time bonuses, such as special act awards performance bonuses, and productivity gain sharing program payouts, to indirect production costs of the cost center of the employee receiving the award. Annual pay increases resulting from the employee performance appraisal process are simply increases in base pay that affect regular payroll cost.

CHAPTER 14

MOBILIZATION COSTS

1.0 GENERAL

1.1 Overview

Each Defense Working Capital Fund (DWCF) activity group must plan for and maintain the capability to expand or alter operations, or to provide extraordinary supply or other functional area support necessary, to satisfy mobilization conditions when required. The nature and extent of the costs to be paid by a separate appropriation rather than charged to other customers through the rates must be in accordance with this policy.

1.2 Purpose

1.2.1. The policy contained herein addresses the requirement for a separate appropriation to finance the cost of maintaining a mobilization capability during peacetime; these are not normal operating costs that are passed on to DWCF customers. This policy applies to all DWCF activity groups. This requirement is hereafter referred to as a mobilization requirement.

1.2.2. The Statement of Federal Financial Accounting Standards 4 ([*SFFAS 4*](#)), “Managerial Cost Accounting Standards and Concepts,” [requires](#) the reliable and timely information on the full cost of federal programs, their activities, and outputs. SFFAS 4 provides a general understanding of cost accounting, definitions of direct and indirect costs, and the methodology for accumulating the total costs of the supporting DWCF mobilization/surge activities.

1.3 Authoritative Guidance

The National Defense Authorization Act delineates appropriations for mobilization costs. The following accounting policy and related requirements prescribed by this chapter are in accordance with the applicable provisions of:

1.3.1. Title 10, United States Code, section 2208 ([*10 U.S.C. § 2208*](#)), “[*Working Capital Funds*](#);”

1.3.2. [*10 U.S.C. § 7541, "Army Arsenal: Treatment of Unutilized or Underutilized Plant Capacity Cost*](#);” and

1.3.3. SFFAS 4, “Managerial Cost Accounting Standards and Concepts.”

2.0 DEFINITIONS

2.1 Mobilization Capability Costs

Mobilization capability costs include the costs to maintain a surge capacity, to procure and maintain approved war reserve material levels, and/or to maintain other assets, functions, or capabilities required to meet an operational contingency as documented in the Secretary's force planning guidance or operational plans.

2.2 Surge Capacity

2.2.1. An activity group's total surge capacity often manifests itself in facilities and equipment that are unutilized or underutilized during normal peacetime operations. Unutilized Capacity is that part of a DWCF activity's assets including plant and equipment that is held in a standby, idle, or lay away status or for war reserve storage. The DWCF uses a separate appropriation to procure and/or maintain wartime reserve materials, and to maintain other assets, functions, or capabilities required to meet an operational contingency.

2.2.2. Unutilized capacity associated with the ability to satisfy a projected surge capability is considered a mobilization requirement eligible for separate appropriation funding if it is utilized only 20 percent or less of available workdays in a month. The DWCF rates must not include the cost of unutilized capacity. Instead, the host activity will budget direct appropriated fund support (labor, materials, contractual support, and overhead) for the unutilized capacity and will reimburse the DWCF activity for costs incurred in the DWCF.

2.2.3. Unutilized capacity associated with the ability to provide capability in excess of any known or projected requirement is not a mobilization requirement.

2.3 War Reserve Materiel

War reserve materiel includes secondary items procured and/or stored in support of wartime scenarios established in the Secretary's force planning guidance or contingency operations identified in specific Operational Plans.

3.0 FUNDING

3.1 Operations

The cost incurred to maintain unutilized plant and equipment capacity must be reimbursed by the Department of Defense (DoD) Component responsible for the activity's management unless funds have been appropriated directly to the DWCF for that purpose. The DWCF activity must separately accumulate the portions of direct, indirect, and general and administrative (G&A) costs supporting the maintenance of this capacity. When a portion of a DWCF activity's plant is purposely set aside as idle capacity, the Component must request a direct operation and maintenance appropriation to pay for the cost of essential operation and maintenance for that portion of the plant and idle equipment as well as an allocated portion of G&A costs. The

percentage of G&A costs allocated to the cost center for the unutilized plant capacity must be the same as the percentage of G&A costs allocated to other cost elements of the activity. Separate cost centers must be maintained for all such costs.

3.2 War Reserve Materiel

The purchase of secondary items of supply, such as War Reserve Materiel, must be funded from a direct appropriation. The applicable Supply Management or Commissary Resale activity Annual Operating Budget must reflect such appropriated amounts as a separate goal. Items such as ammunition and/or principal and major end items procured for war reserve must not be funded with DWCF, but must be funded through amounts available to Component/Defense Agency procurement appropriations.

3.3 Capital Investments

Component procurement appropriations must fund new capital asset investments at DWCF activities necessary to satisfy a mobilization requirement. The DWCF activity groups must assume ownership of such assets. New capital assets to satisfy a mobilization requirement (as well as other, older capital assets laid away for use in mobilization) must be depreciated for reporting purposes on the Accounting Report (Monthly) 1307 (AR(M) 1307). These expenses are non-recoverable for rate setting purposes because the assets are funded by appropriations, see Volume 2B, Chapter 9.

3.4 United States Transportation Command

The United States Transportation Command (USTRANSCOM) activity must maintain a capability to respond expeditiously to requirements to transport personnel, material, or other elements required to satisfy a mobilization condition. The following paragraphs describe direct appropriations, requested by the Air Force or Army, as appropriate, that support USTRANSCOM operations.

3.4.1. The Air Mobility Command (AMC) [develops](#) airlift flying hour requirements and associated costs to maintain the capability of the airlift system, including crew training (and concurrent mobilization) requirements. The DoD uses the airlift system training generated capacity to move air eligible cargo and passengers. The USTRANSCOM generally establishes rates that are competitive with commercial carriers to extend air eligibility and increase capacity utilization. However, resulting revenue does not cover the costs of operations due to the mobilization requirement. This requirement will be budgeted and recorded as follows:

3.4.1.1. The costs for military personnel will be recorded at the civilian equivalency rate in accordance with the policy on Military Personnel Expense in Chapter 12. A Military Personnel appropriation will directly fund military personnel within the AMC. These expenses must be reported on the AR(M) 1307 [and](#) are recoverable for rate setting purposes because the expenses are reimbursed to the respective Military Personnel appropriation. See Volume 2B, Chapter 9.

3.4.1.2. The Air Force will request a direct appropriation for and place an order with the DWCF to fund the balance of the mobilization requirement costs. This will ensure revenue offset the costs.

3.4.2. The Surface Deployment and Distribution Command must plan for and maintain a Reserve Industrial Capacity (RIC) to transport personnel resources, material and other elements required to satisfy a mobilization requirement. The costs of RIC will be funded by the Army Operation and Maintenance appropriation.

4.0 ACCOUNTING

4.1 Cost Center Capability

DWCF activities must establish a cost center capability to separately account for all costs applicable to the continuance of a mobilization requirement. Where necessary, DWCF activities must maintain such costs to the function or task level, as necessary to segregate costs between normal operating costs and mobilization costs.

4.2 War Reserve Items

DWCF activities must account for purchases of DWCF-funded War Reserve items at the same level of detail as items procured for peacetime requirements, recording amounts in separate general ledger accounts, or appropriate subaccounts, to retain separate visibility of such assets. Inventory levels funded by such amounts are not available for sale; therefore, DWCF activities must maintain and report War Reserve costs separately to ensure that the unit cost targets for Supply Management activities are not affected.

5.0 REPORTING

The DWCF activities must record and report financial information on the maintenance of a mobilization capability in accordance with the DoD accounting and reporting requirements specified for the DWCF. AR(M) 1307 must be prepared to include a footnote that identifies the amount of the mobilization requirement costs that are funded through direct appropriations or reimbursable orders accepted specifically for mobilization requirements.

All	Administrative updates to include clarifying language in accordance with Department of Defense (DoD) Financial Management Regulation Revision Standard Operating Procedures.	Revision
1.2.3, 4.1.4	Removed Title 10 United States Code Section 2306 (10 U.S.C. § 2306), “Kinds of contracts” which Congress repealed on January 01, 2021, and replaced with 10 U.S.C. § 3501, “Multiyear contracts: acquisition of property.”	Revision
1.2.5 through 1.2.9 (previous version)	Removed authoritative guidance 31 U.S.C. § 3901 – 3905 as they are not unique to the chapter and are appropriately referenced in Volume 4, Chapter 9 on accounts payable.	Deletion
1.2.16 (previous version)	Removed DoD Manual 4140.01, Volume 2, “DoD Supply Chain Materiel Management Procedures: Demand and Supply Planning” from authoritative guidance and added it to paragraph 2.2.5.	Revision
1.2.17 (previous version)	Removed DoD Manual 4140.68, “Integrated Materiel Management of Non-consumable Items 3” from authoritative guidance and added it to paragraph 2.2.1.	Revision
2.2.9.2	Updated language to clarify inventory augmentation definition and responsibilities.	Revision
2.5.4 (previous version)	Removed discount pricing as an exception to OUSD(C) approval to de-conflict with approval requirements in paragraph 2.6.	Deletion
2.8	Removed confusing, non-policy text on “Infrastructure costs” formerly at subparagraph 2.2.11 and replaced it with “Capital Investment Recovery” guidance.	Deletion/ Addition

CHAPTER 15

SUPPLY MANAGEMENT ACTIVITIES

1.0 GENERAL

1.1 Purpose

This chapter provides the policy to guide budget formulation and execution for Supply Management Activities (SMA) of the Defense Working Capital Fund (DWCF) and is applicable to all DoD working capital funds.

*1.2 Authoritative Guidance

The financial management policy and related requirements prescribed in this chapter are in accordance with the applicable provisions of:

1.2.1. Title 10, United States Code, section 2208 ([10 U.S.C. § 2208](#)), “Working Capital Funds;”

1.2.2. [10 U.S.C. § 2210](#), “Proceeds of sales of supplies: credit to appropriations;”

1.2.3. [10 U.S.C. § 3501](#), “Multiyear contracts: acquisition of property;”

1.2.4. [31 U.S.C. § 1502 \(a\)](#), “Balance available;”

1.2.5. The Office of Management and Budget ([OMB Circular A-11](#)), Part 4, “Instructions on Budget Execution;”

1.2.6. [Statement of Federal Financial Accounting Standards 3](#), “Accounting for Inventory and Related Property;”

1.2.7. [Defense Federal Acquisition Regulation Supplement 217.74](#), “Unfinitized Contract Actions;”

1.2.8. [DoD Directive 5134.12](#), “Assistant Secretary of Defense for Logistics and Materiel Readiness;”

1.2.9. [DoD Instruction \(DoDI\) 1330.17](#), “DOD Commissary Program;”

1.2.10. [DoD Manual \(DoDM\) 4140.01 Volume 1](#), “DoD Supply Chain Materiel Management Procedures: Operational Requirements.”

2.0 PRICING OF INVENTORY ITEMS

2.1 Budgeting

Policy requirements for the budget development of prices for SMA items are in Volume 2B, Chapter 9.

2.2 Standard Price

2.2.1. Charge DoD customers the standard price for DoD Inventory Control Point (ICP)- managed items (excluding subsistence), or Integrated Materiel Management (IMM) items. The Federal Logistics Information System (FLIS), accessible through WebFLIS, is the authoritative source of standard prices. Prices are computed based on factors, including replenishment cost of the item; surcharges for transportation, inventory loss, obsolescence and maintenance; Capital Investment Recovery; and supply operations. Each cataloged inventory item with an assigned national stock number and, under DoD ICP management, must have a selling price for all authorized customers. See [DoDM 4140.68](#) “Integrated Materiel Management of Nonconsumable Items,” for non-consumable items standard pricing details.

2.2.2. Charge the standard price to non-DoD customers directly supporting DoD-related mission requirements. The selling price to other non-DoD customers is prescribed in Volume 2B, Chapter 9. See paragraph 2.5 for exceptions to this policy.

2.2.3. DWCF activities must institute selling prices at the lowest practical item level to promote cost visibility/management and motivate cost effective customer/supplier behavior.

2.2.4. The SMA must determine the item standard price annually in advance of the execution year. The standard sales price is effective for billing purposes on the first day of the fiscal year (FY). A standard price cannot change in the FY without prior approval from the Office of the Under Secretary of Defense (Comptroller) (OUSD(C)), Office of the Deputy Comptroller for Enterprise Financial Transformation (EFT), Directorate for Financial Management Operations and Analysis (FMOA), except as stated in paragraph 2.5. The dollar amount of unfilled customer orders accepted at the previous FY’s standard price must be adjusted (upon notification to and confirmation from the customer) to reflect the latest standard price when notice of the price change is received.

2.2.5. Catalog and assign all local procurements a standard price including any retail level cost recovery element. In accordance with the [DoDM 4140.01, Volume 2](#), “DoD Supply Chain Materiel Management Procedures: Demand and Supply Planning,” inventory retail level is the level below the wholesale, either at the consumer level for providing material to ultimate users or at the intermediate or region level. See DoDM 4140.01-V2 for additional demand and supply planning guidance.

2.2.6. The DWCF establishes selling prices in the budget that are normally fixed during execution to mitigate the impact of unforeseen fluctuations on customers’ ability to execute programs. See Volume 2B, Chapter 9 for full recovery of costs and setting of prices.

2.2.7. The standard price must also contain the total materiel costs, see Volume 2B, Chapter 9. Total materiel costs include:

2.2.7.1. Materiel costs (without inflation) for losses and gains from incoming and outgoing shipments, physical inventory adjustments, inventory losses as a result of shrinkage, theft, deterioration, damage contamination, defective items if not reimbursed by supplier, obsolescence, and adjustments to reconcile internal records.

2.2.7.2. Materiel Inflation (normal inflation) is the dollar amount of the inflation rate set by OMB. Materiel Cost Adjustments as outlined in Volume 2B, Chapter 9 accounts for any anticipated price growth beyond normal inflation.

2.2.7.3. Loss/damage/washout/obsolescence are costs where a replacement unit is required. Activities that manage on an exchange carcass basis incur replacement cost for carcass losses and washouts. Lost carcasses, e.g., in transit to customer or supply system, must be investigated and necessary internal controls strengthened as required by Volume 12, Chapter 7. Carcass washouts are carcasses initially determined to be repairable but subsequently determined to be unrepairable and require replacement. If determined unrepairable due to customer-caused cannibalization or other malicious damage, charge the customer the difference between the exchange price and the current standard price, and this cost must not be included in the surcharge element. Maintenance activities must maintain all documents, see Volume 1, Chapter 9.

2.2.8. In a system supporting exchange pricing, the price charged to customers returning a Depot Level Repairable part for repair and purchasing a serviceable (new or repaired) part, equates to the latest repair price plus wash out costs per item plus pricing elements necessary to recover other operating costs. If no carcass is returned, the customer must be charged the full standard price. See Volume 2B, Chapter 9, paragraph 2.6.2.13 for specifics on exchange pricing. Also, see Volume 4, Chapter 4, for information on supply turn-in.

2.2.9. SM operations also incur non-materiel overhead and pricing adjustment costs, including adjustments for prior year operating results, approved surcharges, and other factors. The Cost Recovery Rate reflects the markup on total materiel costs required to recover operating costs, calculated by dividing total non-materiel costs by total materiel costs. This represents the percentage markup on materiel costs required to operate the supply activity. These cost elements are displayed on the SM-5a “Markup on Materiel Cost” exhibit in Volume 2B, Chapter 9.

2.2.9.1. The provisioning cost element is provided when a weapon system was originally fielded under a contractor logistics support agreement. The component may fund the provisioning action in the standard item price if the contractor fails to perform or a component decision is made to transfer program management to a DWCF supply activity. The component may fund this action using contract authority without an immediate reimbursement if a funding source can be identified and used for reimbursement by the time of first delivery and the OUSD(C), EFT/FMOA, has preapproved the action. Preapproved reimbursable transactions of this type must be recorded as “other income” and not included in the standard price.

* 2.2.9.2. Inventory Augmentation. An anticipated inventory requirement that drives growth in inventory beyond replenishment, excluding appropriately resourced increases for mobilization. When required, the supply activity develops a financing strategy for the Program and Budget Review, or the Budget Execution Review if, in the year of execution, the activity must execute above its planned Unit Cost Ratio (UCR). When an activity internally augments inventory, regardless of the UCR, the activity provides a prioritization strategy in accordance with DoDM 4140.01, Volume 2. The Joint Logistics Resource Requirement Board co-chairs must approve the financing strategy. Recoup costs by direct appropriation or a cost recovery element in the pricing structure. See Volume 2B, Chapter 9.

2.2.9.3. Unusual or nonrecurring losses, such as those due to armed hostilities, riot, or significant damage due to fire, flood, earthquake, storms, or other abnormal events, are not normal inventory losses and must not be included in the cost recovery element for inventory expenses. DWCF Activities must obtain approval from the OUSD(C), EFT/FMOA, to fund such losses.

2.2.10. The standard item sales price must include recovery of operating costs including payroll, personnel travel, transportation, defense agency billings, other DWCF purchases, operating materials and supplies, rent/communications/utilities, depreciation, transportation, and other service contracts.

* 2.2.11. Other cost recovery elements, as approved by the OUSD(C), EFT/FMOA, during the budget review, may be added to the price and include Accumulated Operating Results adjustments, cash surcharges, and fund management adjustments.

2.2.12. The purpose of the cost recovery elements is to balance total revenues with total net operating costs. Total net operating costs must not include requirements funded by appropriations, such as war reserve materiel or national defense stockpiles (see Volume 4, Chapter 4). The costs within the recovery elements must account for the following as applicable:

2.2.12.1. The SMA finances the costs of wholesale ICPs and wholesale supply depot operations. Such costs include civilian labor and benefits, military labor, supplies, purchased services, and reimbursements to other defense agencies providing support. The cost of performing equivalent functions at the retail level (installation/area supply support) may be included in the cost assessed by the wholesale activities if the retail activity is managing the distribution of Defense Logistics Agency, General Services Administration, or any other government agency where an additional rate would not be applicable.

2.2.12.2. The SMA finances the costs of separate activities that exist primarily to benefit the wholesale ICP and/or a wholesale supply depot mission. Establish mission support overhead cost pools that identify civilian labor and benefits, supplies, purchased services, and other costs incurred in functions such as line management command and control, staff management and policy, centralized procurement, accounting, personnel, and automated data processing. The portion of overhead costs directly benefiting the SMA mission is allocated to, and reimbursed by,

the [SMA](#). The allocation must be prorated on the relationship of the cost of the benefits provided to the [SMA](#), to the cost for all activities or functions.

2.2.12.3. Shipping and transportation [costs](#), including costs for packing, crating, handling, transportation, and, where appropriate, port loading, and unloading. Items may be shipped from a stocking point (issues) or to a stocking point (returns).

2.2.12.3.1. Transportation costs include [SMA](#)-issued items. To the extent that first destination transportation is not included in the acquisition cost, an estimate of the cost must be included. Second destination transportation (SDT) costs should [assume](#) average cost as adjusted by budget year projected changes. A [SMA](#) generally finances SDT costs for transportation within the Continental United States (CONUS) and between overseas locations. Assess additional charges for expedited delivery.

2.2.12.3.2. The [SMA](#) must reimburse transportation and other shipping costs only for items approved by an item manager for return to the [SMA](#) from DoD customers.

2.2.12.3.3. Costs of shipping and transportation for customer return of reparable exchange carcasses. [Accordingly](#), customers [are](#) not charged separately for [the](#) returns.

2.2.12.3.4. Shipping and transportation costs of item manager-directed Lateral Redistribution Orders (LRO) of stock. The ICP or IMM must reimburse the supplying/holding activity for packing, crating, handling, and transportation for ICP/IMM-directed materiel moves.

2.2.12.4. The costs of providing and managing commissary items, including related operating costs, must be identified as commissary operating costs. These costs include headquarters or regional-level costs. Commissary operating costs [are](#) reimbursed by appropriations for commissaries and the commissary trust revolving fund, see DoDI 1330.17.

2.2.12.5. If a [SMA](#) experiences a sudden decrease in volume of customer orders, it may require additional revenue to liquidate contract authority. Resources may be obtained through either transfer or direct appropriation, or by [SMA](#) establishment of a cost recovery element (or combination of both). [The SMA](#) will eliminate any cash surcharge [once](#) undelivered order stock levels have stabilized for the new volume of demand.

2.2.13. A cost recovery element used by a retail-level supply activity:

2.2.13.1. Will include inventory (materiel) expenses for retail-managed items [which](#) are the net of gains and losses, obsolescence, and shelf-life deterioration.

2.2.13.2. May include other cost recovery elements, when approved by the OUSD(C), [EFT/FMOA](#).

2.3 Foreign Military and Private Party Sales

Per Volume 15, the DWCF must sell items to Foreign Military Sales customers at the current price. The current price is also applicable to private parties (state and local governments, and non-governmental entities not under a DoD contract) authorized SM support.

2.4 Lateral Redistribution of Stock

When another activity has stock to fill an order, a SMA may direct an LRO to that activity to issue stock directly to the customer. As provided in [DoDM 4140.01, Volume 5](#), “DoD Supply Chain Materiel Management Procedures: Delivery of Materiel,” LRO billing procedures ensure a supply holding activity is reimbursed for both the standard price of the materiel and standard packing, crating, handling, and transportation costs. The item manager will bill the customer for the standard price of the materiel and pay the supply holding activity via the ICP/IMM for the standard price of the materiel and the standard packing, crating, handling, and transportation costs. DoD Components facilitating LROs must record outlays of Fund Balance with Treasury (FBwT) as a disbursement. Recording a negative collection is prohibited. Since these are intra-agency transactions, trading partners must use the correct detailed transaction-level codes. See the Deputy Chief Financial Officer financial policy memorandum (FPM), “Accounting Treatment of Lateral Redistribution Activities ([FPM 20-05](#)).”

*2.5 Authorized Changes of Standard/Exchange Prices

Prices cannot be changed during a FY without justification to, and prior written approval of the OUSD(C), EFT/FMOA. The item manager will group all approved price changes and release for updates to the SMA’s pricing catalog not to exceed once a month. The only exceptions to the price changes requirement for prior approval are:

2.5.1. Unit of issue changes;

2.5.2. First time buys; and

2.5.3. Contract modifications or new contracts for the same requirement.

2.6 Discount Pricing

2.6.1. Product prices must reflect the full cost of the product and the related management activity unless the following conditions are met, and approved by OUSD(C), EFT/FMOA:

2.6.1.1. Requests to discount item prices must include an impact analysis of the anticipated cost (profit/loss) and Component approval.

2.6.1.2. Reductions from standard prices may be made for an actual difference in item utility or desirability due to age, condition, or model for items being phased out of the

system; and items no longer procured, with limited remaining shelf-life, in less-than “fully serviceable” condition, or in long supply, i.e., assets stratified as “potential reutilization stock.”

2.6.1.3. See Volume 4, Chapter 4, for SMA development of exchange transaction prices.

2.7 Pricing for Additional/Premium Service

2.7.1. Components may establish and offer variable levels of service related to a product, at variable prices, to allow customers to economize according to needs. Appropriate fees may be established annually and may vary according to the item/class of items. Refunds (credits) are available when a customer paid but was not provided a level of service. Customers are authorized to pay for enhanced service; this policy does not authorize reduced charges. Individual orders may be assessed an additional cost based on the following elements:

2.7.1.1. Expedited delivery.

2.7.1.2. Delivery outside the CONUS based on destination.

2.7.1.3. Depot handling fees related to order issues only. The fee(s) includes a minimum charge for low priced orders, a standard charge for bin item issues, a standard charge for normal bulk item issues, and special charges for unusual bulk item issues, e.g., special handling and extraordinary quantities.

2.7.1.4. Other additional/premium charges as approved by OUSD(C), EFT/FMOA.

*2.8 Capital Investment Recovery

Reflects the estimated recoupment of all assets defined by the capital program in terms of recoupment of outlays. See Volume 2B, Chapter 9 for details on recovering these infrastructure related costs.

3.0 CONTRACT AUTHORITY FOR SUPPLY MANAGEMENT OPERATIONS

3.1 Background

3.1.1. Based on 10 U.S.C. § 2210, obligations may be incurred against anticipated reimbursements, without regard to FY limitations. OMB Circular A-11 defines Contract Authority as a type of budget authority permitting obligations in advance of appropriations, offsetting collections, or receipts to make outlays to liquidate the obligations.

3.1.2. Contract Authority is apportioned and allocated without a supporting Treasury cash balance. Consequently, contract authority must be replaced or liquidated by other budgetary resources. Contract Authority is apportioned to the DWCF Capital Programs and the SM Operating Programs for the current FY of the apportionment only, and for no other FY.

3.2 Budgetary Resources

3.2.1. **SM** budgetary resources available during the current **FY** consist of congressionally appropriated and re-appropriated amounts made available; the net of any non-expenditure transfers and internal distributions of budgetary authority into and out of the **SMA** and other Federal Government accounts (cash transfers); and apportioned contract authority.

3.2.2. Liabilities (accounts payable) are typically payable from the **FBwT** within the terms of the Prompt Payment Act, [Title 31, U.S.C., Chapter 39](#), as implemented under [Title 5, Code of Federal Regulations, part 1315.31](#). Unfunded (unliquidated) contract authority is a **SMA** long-term liability because budgetary resources required have not yet materialized through customer orders or Congressional appropriations.

3.2.3. Unobligated appropriation balances are not available for use in the subsequent year unless reapportioned as a **new** apportionment in the new **FY**.

3.2.4. The OMB may approve and apportion contract authority in the amount of the approved **SMA**-operating program, which may include the amount of the requested variability target or a portion thereof.

3.2.5. The OMB apportions contract authority on the **Standard Form (SF)-132**, "Apportionment and Reapportionment Schedule." The **Office of the Deputy Comptroller (Program/Budget)** allots contract authority on the Annual Operating Budgets.

3.2.6. Apportioned contract authority is either obligated or returned. Obligated contract authority is substituted with the receipt of customer orders, and then liquidated with revenue collection from order fulfillment. With Congressional approval, appropriations can be used to liquidate contract authority rather than spending authority from offsetting collections.

3.2.7. Customer orders received are requisitions and other orders accepted for furnishing items on a reimbursable basis. Order-generated budgetary resources are available to fund obligations provided that, in the case of orders from the public, an advance has been collected. Contract authority must not be used to fulfill orders from the public unless an advance is collected and reflected in the **SMA's FBwT**, except when explicitly authorized by law.

3.3 Contract Authority and Cash Management

3.3.1. Components' activity groups are responsible for cash management (see **Volume 2B, Chapter 9**). The liquidation of contract authority is only authorized by collections from customer orders or by an appropriation. **SM** cash collections are the primary funding source for liquidation unless otherwise approved in writing by OUSD(C), **EFT/FMOA**.

3.3.2. **SM** activities may also submit requests as part of the component's budget request, for appropriations to liquidate contract authority, if a change in customer demands warrants this action. Similarly, OUSD(C), **EFT/FMOA**, must pre-approve in writing any proposed budget negative surcharges, other than Accumulated Operating Results recovery.

4.0 MULTIPLE-YEAR CONTRACTS

4.1 Overview

4.1.1. **SM** activities are authorized to use multiple-year contracts to procure items from a single contractor and more than one annual program increment of items to obtain an Economic Order Quantity (EOQ).

4.1.2. The **SMA** determines if items with stable demand are sole sourced and/or acquired by a multiple-year contract.

4.1.3. **SM activities** fund advance EOQ procurement for manufacturing components, parts, and raw material in quantities exceeding the current annual requirement when it is cost effective to do so. Advance procurements may be funded fully in single-year increments on a termination liability basis or included in a multiple-year contract with the nonrecurring contract costs.

* 4.1.4. Under 10 U.S.C. § 3501, the DoD is authorized to enter into multiple-year contracts containing cancellation clauses that may include both nonrecurring and recurring costs. This law specifies congressional reporting requirements based on cancellation ceilings. Further, annual DoD appropriations acts may limit the use of multiple-year contracts. OUSD(C), EFT/FMOA, must approve, prior to contract award, a single contract in excess of \$100 million or \$10 million in estimated termination liability. Each separate contract option must be treated as a single contract event, with the dollar amounts determining whether OUSD(C), EFT/FMOA approval is required.

4.2 Obligations

4.2.1. The **SMA** must obligate the minimum amount required for the period of the contract.

4.2.1.1. If the contract provides for annual terms with options to extend the terms in subsequent years, the Government must obligate the amount required to be procured in the first year. The obligation for each option year must be recorded when the option is exercised.

4.2.1.2. If the contract provides for minimum quantities over a period of more than one year, the obligation must be recorded for the sum of the minimum quantities times the agreed price. If the contract provides for minimum dollar amounts for a period of more than one year, the obligation must be recorded for the sum of the minimum dollar amounts.

4.2.1.3. The bona fide needs rule, derived from 31 U.S.C. § 1502(a), applies to appropriations limited to a definite period of time. Although the rule does not statutorily restrict a **SMA** from incurring obligations against contract authority for subsequent **FY** requirements, contract authority may impose limitations on execution of obligations. Also, **SM** activities use contract authority to incur obligations to acquire stock or forecasted customer orders, and do not execute customer budgetary resources. Therefore, the timing of **SMA**'s contract authority obligations do not govern, establish, or reflect the customers' appropriation bona fide need.

4.3 Cost of Items

The cost of items procured by multiple-year contracts must be the amount paid for each item. If termination costs are incurred or if minimum guaranteed amounts are not met for items procured, the additional costs paid under the terms of the contract must be recorded as [SMA](#) materiel obligations.

5.0 BUDGETARY ACCOUNTS

5.1 Overview

Budgetary accounts are used to control and account for obligation authority received from appropriations and contract authority apportioned by OMB. [SM](#) activities are subject to apportionment, as required by the Antideficiency Act, in accordance with the procedures prescribed in OMB Circular A-11, “Instructions on Budget Execution” and Volume 3, Chapter 19.

5.2 Allotments

[Annual Appropriation Act](#) general provisions provide that, “Except in amounts equal to the amounts appropriated to DWCF in this Act, no obligations may be made against a DWCF to procure war reserve materiel inventory unless the Secretary of Defense has notified the Congress prior to any such obligation.” Obligation authority for mobilization must be allotted and allocated separately as a direct program. [Conversely, non-mobilization obligations](#) must be allotted and allocated separately as a reimbursable program [and](#) accounted and reported separately.

5.3 Budget Execution

Balances for budgetary accounts are displayed on the SF-133 “[Report on Budget Execution and Budgetary Resources](#)” and the [Defense Finance and Accounting Service](#) “Accounting Report (Monthly) 1307, part VII” (see Volume 3 Chapter 19).

CHAPTER 1

FUNDS

1.0 GENERAL

1.1 Overview

This chapter prescribes a comprehensive description of account symbols and their operation within fund groups. Account symbols are the basis for reporting the Department of Defense (DoD) financial transactions. The U.S. Department of the Treasury (Treasury), Bureau of the Fiscal Service (Fiscal Service) and the Office of Management and Budget (OMB) assign account symbols consistent with the principals and standards prescribed by the Comptroller General of the United States. Fiscal Service assigns account symbols to agencies after considering the government's relationship to the accounts, the sources of the receipts, and the availability of the funds for expenditure. Receipt account symbols are arranged numerically within each fund group; that is, general, special, and trust funds. Expenditure account symbols (appropriations) and other fund accounts are arranged numerically by general, revolving, special, deposit, and trust fund groups.

1.2 Purpose

The purpose of this chapter is to define receipt, appropriation, and other fund account symbols relating to financial operations and accounting transactions of the Department. Fund account symbols are not the same as the United States Standard General Ledger (USSGL) accounts prescribed in Volume 1, Chapter 7.

1.3 Authoritative Guidance

The accounting policy and related requirements prescribed by this chapter are in accordance with the applicable provisions of:

1.3.1. [Treasury Financial Manual \(TFM\)](#), Supplement to Volume I;

1.3.2. Federal Account Symbols and Titles ([FAST](#)) [Book](#); and

1.3.3. [OMB Circular A-11](#), Preparation, Submission and Execution of the Budget.

These authorities describe the various categories of Federal Government fund account symbols.

2.0 FUND GROUPS

2.1 Fund Groups and Symbols

All accounts are identified by fund groups through assignment of numeric and/or alphanumeric account symbols. The symbol assigned to an account is determined after

consideration of the governmental effect of the account and the source of the receipt, and the availability of the fund for expenditure. Some of these accounts have a significant impact on DoD operations. The FAST Book contains all of the fund groups, account symbols, and titles. Table 1-1 lists the fund groups and the range of federal fund account symbols.

Table 1-1. Fund Groups and Symbols

Fund Group	Symbols
General Funds	0000-3899
Clearing, Default, and Custodial Accounts	3500-3885
Management Funds	3900-3999
Revolving Funds	4000-4999
Special Funds	5000-5999
Deposit Funds	6000-6999
Trust Funds	8000-8999

2.2 Additions and Deletions

The Defense Finance and Accounting Service (DFAS) obtains new fund account symbols from the Treasury but the Office of the Under Secretary of Defense (Comptroller) (OUSD(C)), Program and Financial Control Directorate must approve new fund account symbols used in Standard Form (SF) 133, "Report on Budget Execution and Budgetary Resources."

3.0 GENERAL FUNDS

3.1 General Fund Receipt Accounts (0000-3399)

General fund receipt accounts have been established to account for receipts of the Federal Government that have not been earmarked by law for a specific purpose and are preceded by an "R." For internal control purposes, none of the receipts credited to these accounts are available for obligation and expenditure. Therefore, general fund receipt account collections do not affect budgetary resources. General fund receipt account collections do provide resources to the Congress to fund appropriations. However, a congressional appropriation action requires a separate accounting process.

3.1.1. Unless there is specific statutory authority that authorizes a reimbursement to an appropriation account or fund (including special funds), all collections must be credited to the appropriate general fund receipt account. However, obligations incurred that result in, or as a result of a general fund receipt account collection or receivable must be recorded in the budgetary accounts of a direct appropriation or fund. Such obligations may be recorded as reimbursable obligations only when authorized to be reimbursed independent of the general fund receipt collection.

3.1.2. Accounts receivable for the general fund receipt accounts must be recorded whenever an event results in the determination that money is owed to the U.S. Government. General fund receipt account receivables may be recorded at a summary level. Examples include:

3.1.2.1. A receivable must be recorded for general fund receipt account 2651, "Sale of Scrap and Salvage Materials, Defense," based upon the recording of an issue or the transfer of ownership of scrap or salvage material to a buyer. (Normally, a cash payment is required.)

3.1.2.2. A receivable must be recorded for general fund receipt account 3019, "Recoveries for Government Property Lost or Damaged, Not Otherwise Classified, Army, Navy, Air Force," based upon the receipt of an approved DoD [\(DD\) Form 200](#), "Financial Liability Investigation of Property Loss."

3.1.2.3. The accounting for receivables and collection of those receivables in general fund receipt accounts are described in Volume 4, Chapter 3.

3.2 General Fund Expenditure Accounts (0000-3899)

General Fund accounts record amounts appropriated by Congress for the general support of the government. Appropriations are statutory authorities to incur obligations and make payments from the Treasury for specified purposes. When a law appropriates budget authority, it specifies the period of availability. The period of availability is the amount of time the entity may create new obligations. This is called the period of availability for new obligation of the budget authority, and the period is normally specified in the law providing the budget authority.

3.2.1. Annual Appropriations (Annual Budget Authority). An annual appropriation has a period of availability for only one fiscal year or less. An example of an annual appropriation is Operation and Maintenance, Army, 021 21 2020.

3.2.2. Multiple-Year Appropriations (Multi-Year Budget Authority). A multi-year appropriation has a period of availability for two or more fiscal years. An example of a multi-year appropriation is Other Procurement, Navy, 017 21/22 1810.

3.2.3. No-Year Appropriations (No-Year Budget Authority). A no-year appropriation has an indefinite period of availability because the appropriation is available until all funds are expended or the appropriation is no longer needed. An example of a no-year appropriation is Environmental Restoration, Air Force, 057X0810.

4.0 CLEARING, DEFAULT, and CUSTODIAL ACCOUNTS (3500-3885)

Clearing, default, and custodial accounts temporarily hold unidentifiable general, revolving, special, or trust fund collections that belong to the Federal Government. An "F" preceding the last 4 digits of the fund account symbol identifies these accounts. These clearing, default, and custodial accounts are to be used only when there is a reasonable basis or evidence that the collections or disbursements belong to the U.S. Government and therefore properly affect the budgetary resources of the DoD activity. None of the collections recorded in clearing, default, or custodial fund accounts are available for obligation or expenditure while in a clearing, default, or custodial account.

4.1 Budget Clearing Account

Budget Clearing Account (suspense), F3875, temporarily credits unclassified transactions from the public when there is a reasonable presumption that the amounts belong to the agency. Therefore, unlike deposit accounts, clearing accounts immediately affect the budget.

4.2 Custodial Accounts

Custodial Clearing Account (F36XX), a subset of the clearing account, temporarily holds funds collected as well as accounts for accruals and transfers related to funds collected on behalf of a Treasury Account Symbol (TAS) other than the General Fund of the U.S. Government.

4.3 Undistributed Intragovernmental Payments Account

Undistributed Intragovernmental Payments, account F3885, is used to temporarily credit unidentified or unclassified transactions between Federal agencies, including Intragovernmental Payment and Collection (IPAC) transactions.

4.4 Temporary Account Requirement

Since accounts F36XX, F3875, and F3885 are temporary in nature, DoD Components must expeditiously transfer all monies to the proper account in order to minimize the balance. Use of these suspense accounts are valid if approved by the Treasury provided the suspense account transactions are reclassified to the correct line of accounting and properly reported in the accounting system within 60 days.

5.0 MANAGEMENT FUND ACCOUNTS (3900-3999)

Management fund accounts are working fund accounts authorized by law to facilitate accounting for administration of intragovernmental activities other than a continuing cycle of operations. Such accounts generally do not own a significant amount of assets nor do they have a specified amount of capital provided (a corpus of the fund). A management fund provides a means of interim financing and accounting for: (1) an operation or project that is financed by more than one appropriation or fund and whose costs cannot be distributed and charged to the financing appropriations or funds immediately, or (2) an operation or project that is established pursuant to a transfer of functions involving two or more appropriations or funds under authority of law. An example of a management fund is the Air Force Management Fund, 057X3960.

5.1 Policy

5.1.1. A management fund must be used only to finance the costs of operations which are chargeable to appropriations or funds of a DoD Component. Projects may encompass participation by organizational units of one DoD Component or of two or more DoD Components.

5.1.2. A management fund may not be used to finance any activity that involves a continuing cycle of business-type operations, such as industrial or commercial-type activities, or to purchase materiel for stock. It may be used to finance the purchase of materiel for use in an operation or project operated under a management fund.

5.1.3. A management fund may not be used to finance a new operation or project, although eligible under section 5.0, if other effective and efficient financing techniques are available. In general, appropriation reimbursements must be used. However, industrial funds must be used to finance industrial or commercial-type activities, and stock funds must be used to finance the acquisition of consumable (expense-type) materiel for stock.

5.1.4. Management fund accounts are subject to periodic internal audits.

5.2 Responsibilities

5.2.1. The OUSD(C) Deputy Chief Financial Officer (DCFO) must:

5.2.1.1. Ensure that a management fund account is established or continued only when there is no other effective and efficient financing technique available to accomplish the proposed operation or project. The OUSD(C) DCFO will receive, review, evaluate and approve proposed management fund account charters submitted in accordance with Figures 1-1 and 1-2.

5.2.1.2. Review and evaluate proposed management fund account charters or amendments and recommend to the Under Secretary of Defense (Comptroller) (USD(C)) the establishment or continuance of a management fund account.

5.2.2. The Heads of DoD Components must:

5.2.2.1. Propose use of a management fund as a financing technique, when considered appropriate, in accordance with the provisions of this chapter.

5.2.2.2. Oversee compliance with this chapter regarding the provision for budgeting, financing, accounting, and reporting for management fund accounts in use by their Component.

6.0 REVOLVING FUNDS (4000-4999)

Revolving funds are established to finance a continuing cycle of business-type operations. Revolving fund accounts are authorized to be credited with receipts, incur obligations, and make expenditures. Revolving fund collections are normally available for obligation and expenditure without further action by the Congress. However, DoD revolving funds (except for some business areas within the Defense Working Capital Fund) are subject to apportionment by OMB. Apportionment by OMB precludes obligation or expenditure of funds in excess of the apportioned balance during a fiscal period. The concepts in this section normally apply to revolving funds.

6.1 General

There are two types of revolving funds. Public enterprise revolving funds are distinguished from intragovernmental revolving funds by the source of revenues. Public enterprise revolving fund revenues come primarily from outside the Federal Government. Intragovernmental revolving fund revenues come primarily from other federal appropriations or funds.

6.1.1. Appropriations and/or reappropriations are usually provided to start, increase the size, or replace significant losses of a revolving fund. Also, existing resources in other accounts may be transferred to a revolving fund as capitalized assets to serve the same purposes in lieu of an appropriation. The resources used to commence or increase the size of a revolving fund are commonly referred to as “the corpus of the revolving fund.” The corpus forms the nucleus of resources used to acquire the resources needed to perform the mission of the revolving fund.

6.1.2. Revenues are generated in DoD revolving funds from reimbursable actions on behalf of authorized beneficiaries. Those revenues result in collections of funds. The funds collected are used to pay for the acquisition of resources needed to operate the revolving fund. In revolving funds that are apportioned by OMB, the use of the budgetary resources associated with those collections to incur obligations is limited to the amount of obligation authority available for the fiscal period.

6.1.3. Revolving funds subject to apportionment are apportioned on an obligation basis. An SF 132, “Apportionment and Reapportionment Schedule,” must be submitted to the OMB for approval of the amount of budgetary authority needed for the operation of the revolving fund for a fiscal period. A fiscal period may be a quarter of a fiscal year or a full fiscal year.

6.1.4. Budgetary resources available for apportionment action include:

6.1.4.1. Unobligated balances brought forward.

6.1.4.2. Appropriations.

6.1.4.3. Contract authority.

6.1.4.4. Spending Authority from Offsetting Collections (Anticipated collections, reimbursements, and other income)

6.1.4.5. Recoveries of prior year obligations.

6.1.4.6. Restorations.

6.1.5. The apportionment of anticipated reimbursements does not authorize a revolving fund to obligate in excess of the contract authority, borrowing authority, or reimbursable orders received from within the Federal Government and advances received for orders outside the Federal Government. Orders from state, local, and foreign governments are considered to be orders from the public.

6.1.6. In the case of loan programs, budgetary resources available for obligation from loan repayments and interest on loans are comprised of actual collections when authorized to be used. Loan repayments in the form of loans receivable and interest receivable are amounts due but not collected. These amounts are not available for obligation until collected.

6.1.7. Other assets, whether of a working capital nature such as inventories of stock or of a fixed asset nature, are not considered as a budgetary resource. Such assets, therefore, do not enter into the determination of unobligated balances. However, claims against budgetary resources, such as delivered and undelivered orders, are obligations of a revolving fund and must be subtracted from unobligated balances when incurred. Obligations for the procurement of inventories, as well as for the acquisition of other revolving fund assets, must be recognized, recorded, and reported along with other obligations.

6.1.8. Some revolving funds, particularly public enterprise funds, have budget authority exclusively for the fund that is technically outside the fund as long as it remains “undrawn.” This concept may apply to the authority to borrow from the public, authority to borrow from the Treasury, and sometimes contract authority.

6.1.9. The amount of obligational authority apportioned or the available balance of obligational authority may be less than the total budgetary resources available in a revolving fund. The difference, which cannot be obligated unless it is apportioned, may be characterized as either an unapportioned balance of a revolving fund or a restrictive withholding. The concept of an unapportioned balance is one of preserving a portion of the fund’s capital so it may continue to revolve.

6.1.10. Incurring obligations or authorizing the incurrence of obligations in excess of apportioned budgetary resources must be reported as an apparent violation of the administrative control of funds provisions contained in Volume 14. This reporting requirement applies whether or not a revolving fund has unapportioned budgetary resources or nonbudgetary assets greater than the amount of the deficiency.

6.1.11. Each revolving fund is required to submit a separate set of reports to the Treasury as described in Volume 6A. Therefore, the data required for each revolving fund to prepare these reports must be identified within the DoD Component's accounting system.

6.2 DoD Public Enterprise Revolving Funds (4000-4499)

Public Enterprise revolving funds include but are not limited to the Special Defense Acquisition Fund and the Homeowners Assistance Fund.

6.2.1. The Special Defense Acquisition Fund is funded by the use of a limited amount of certain foreign military sales collections as authorized by Congress. The fund is used to acquire items needed in anticipation of sales to foreign governments. The proceeds from the sales of the fund are used to acquire items in anticipation of future sales. Budgetary resources provided from sales to customers are not available for use until collections occur and OMB approves apportionment of funds by category of item. The apportionment of funds by OMB provides control

over the obligations for the acquisition of approved categories of items. The Special Defense Acquisition Fund was assigned the symbol 011X4116 by the Treasury.

6.2.2. The Defense Homeowners Assistance Fund is funded by borrowing authority and appropriations. The fund is used to acquire homes under certain criteria when a DoD installation is closed. The fund acquires homes as assets and assumes the related liabilities. All properties acquired by the Homeowners Assistance Fund are managed and disposed of by the U.S. Army Corps of Engineers. At the time of sale of a property, revenues are recorded and gains and losses on the disposition of the asset are determined. Costs incurred related to a property must be capitalized as an increase in the amount of the asset whenever value is added to the property. Under certain conditions, losses incurred on private sales of qualified property may be reimbursed as operating expenses of the fund. Certain other operating expenses may be authorized. The budgetary resources provided from sales or lease of property are only available for obligation after collection and when apportioned by OMB. The Defense Homeowners Assistance Fund was assigned the fund account symbol 097X4090 by the Treasury.

6.3 Intragovernmental Revolving Funds (4500-4999)

DoD intragovernmental revolving funds include but are not limited to the Defense Working Capital Fund, and the Pentagon Reservation Maintenance Revolving Fund.

6.3.1. The Defense Working Capital Fund was established to fund the operation of certain support functions within DoD. This fund was formed from five previously existing industrial funds, four previously existing stock funds, and selected Defense Agency support functions that were previously funded through direct appropriations. The Defense Working Capital Fund provides support functions such as inventory, maintenance, communications, depot maintenance, military airlift, and sealift. Services are provided on a reimbursable basis to authorized customers. The Defense Working Capital Fund was assigned the fund account symbol 097X4930 by the Treasury.

6.3.2. The Pentagon Reservation Maintenance Revolving Fund was established by the Fiscal Year 1991 National Defense Authorization Act and is codified in Title 10, U.S. Code, section 2674. The Pentagon Reservation Maintenance Fund finances the activities of the Washington Headquarters Services, the Pentagon Force Protection Agency, and the Raven Rock Mountain Complex. The fund provides space, building services, and force protection for the DoD Components, including Military Departments and other activities housed within the Pentagon Reservation. The Pentagon Reservation Maintenance Revolving Fund was assigned the fund account symbol 097X4950 by the Treasury.

7.0 SPECIAL FUNDS (5000-5999)

7.1 Special Fund Receipt Accounts

The Department credits special fund receipt accounts with receipts from specific sources earmarked by law for specific purposes. At the point of collection, these receipts are either available immediately or unavailable for expenditures depending upon statutory requirements.

7.2 Special Fund Expenditure Accounts

Special fund expenditure accounts are established to record amounts appropriated or otherwise made available by transfers from a special fund receipt account to be obligated and expended for special programs in accordance with specific provisions of law. The accounting for special fund expenditure accounts must be in accordance with the provisions of this Regulation. However, each special fund must be viewed as a unique fund in light of any special provisions in the enabling legislation. An example of a DoD special fund account is the Wildlife Conservation, fund account symbol X5095.

8.0 DEPOSIT FUNDS (6000-6999)

Deposit fund accounts are established to account for collections that are either held temporarily and later refunded or paid upon administrative or legal determination as to the proper disposition thereof, or held by the government as banker or agent for others and paid out at the direction of the depositor. Deposit funds are liabilities of the Federal Government. Deposit fund transactions are excluded from the budget totals because the amounts are not owned by the government, and therefore are not available for the incurrence of any Federal Government obligations or payment of any Federal Government obligations. This section identifies various types of deposit funds.

8.1 Monies Withheld

Monies withheld by the government from payments for goods and services received. This type of transaction may be treated as a deposit fund liability only when a budgetary account has been charged and the funds are being held by the government pending payment; for example, payroll deductions for savings bonds or state and state income taxes.

8.2 Deposits from Outside Sources

Deposits received from outside sources for which the U.S. Government is acting solely as a banker, fiscal agent, or custodian.

8.3 Monies Awaiting Distribution

Monies held by the U.S. Government awaiting distribution on the basis of a legal determination or investigation. This category includes monies in dispute (between the Government and outside parties) when ownership is in doubt and there is no present basis for estimating ultimate distribution.

8.4 Unidentified Remittances

Unidentified remittances must be credited as suspense items outside the budget unless there is a reasonable presumption that they will be credited ultimately to a receipt, appropriation (expenditure), or other fund account within the budget, in which case amounts must be credited to the receipt clearing fund accounts. An example of a DoD deposit fund account is the Army's Group Life Insurance Fund, fund account symbol 021X6434.

8.5 Unclaimed Collections

On a quarterly basis, DoD Components must initiate action to clear unclaimed collections held in their trust, revolving, and deposit fund accounts for more than one year. Unclaimed collections are money held by the government for individuals whose whereabouts are unknown. Unclaimed collections of \$25 or more are transferred to "Payment of Unclaimed Moneys" with the accounting citation 020X6133, if held for more than one year. This account represents money that, when claimed, are properly refundable to the legal owner of the funds. Unclaimed collections of less than \$25 or amounts of \$25 or more that have been held for more than one year for which the rightful owner can be neither identified nor located are transferred to R1060 unclaimed amounts.

9.0 TRUST FUNDS (8000-8999)

9.1 Trust Fund Receipt Accounts

The Department credits trust fund receipt accounts with receipts generated by the terms of a trust agreement or statute that designates a fund as a trust fund. At the point of collection, these receipts are either available immediately or unavailable for expenditure depending upon statutory requirements. Accounting for trust funds must be in accordance with the provisions of this Regulation. However, each trust fund must be viewed as a unique fund in light of any special provisions in the trust agreement or the enabling legislation. Because of the unique nature and magnitude of impact of the deposits, advances, and Foreign Military Sales related to the Executive trust fund, special accounting requirements have been established in Volume 15.

9.2 Trust Fund Expenditure Accounts

Trust fund expenditure accounts are established to record amounts appropriated or otherwise made available by transfer from a trust fund receipt account to be obligated and expended in carrying out the specific purposes or programs in accordance with the terms of the trust agreement or statute. Funds transferred or appropriated to a trust fund expenditure account are normally available for obligation and expenditure within the limits imposed by the trust agreement or authorizing statute.

9.3 Trust Revolving Funds (8400-8499)

A trust revolving fund is a single account that is authorized to be credited with receipts and incur obligations and expenditures in support of a continuing cycle of business-type operations in accordance with the provisions of the trust agreement or statute. Trust revolving fund receipts are available for obligation and expenditure without further action by the Congress. In general, DoD trust funds authorized to incur obligations and expend receipts have been exempted from apportionment by the OMB. However, the Defense Commissary Agency Surcharge Collections, Sales of Commissary Stores trust revolving fund is subject to apportionment by the OMB. Accounting for trust fund expenditure accounts and trust revolving funds must be in accordance with the provisions of this Regulation. However, each trust fund must be viewed as a unique fund in light of any special provisions in the trust agreement or the enabling legislation.

10.0 AVAILABLE RECEIPTS

Available receipts are special or trust fund receipts that, pursuant to law, are available as appropriations to a single agency for expenditure without further congressional action. However, in some fund accounts, use is restricted to investment only or is precluded by a limitation or benefit formula. An available receipt account carries the same symbolization as its corresponding expenditure account in that an "X" is inserted to indicate the period of availability of such funds for obligation. However, in special circumstances, available receipts that are earmarked for current year obligations and expenditures initially are placed in an unavailable receipt account until Fiscal Service prepares a warrant to move the funds to a current fiscal year expenditure account.

11.0 UNAVAILABLE RECEIPTS

These are receipts that, at the time of collection, are not appropriated and not immediately available for expenditure. Unavailable receipts held in special and trust fund receipt accounts are unavailable for expenditure until appropriated pursuant to specific legislative provisions. Unavailable receipts are sometimes invested. In these circumstances, Treasury designates the fund as "available only for investment."

12.0 TRANSFER APPROPRIATION ACCOUNTS

Fiscal Service establishes transfer appropriation accounts to receive (and subsequently obligate and disburse) allocations treated as nonexpenditure transactions. These accounts carry symbols identified with the original appropriation from which monies were advanced. A transfer appropriation account is symbolized by adding the receiving agency's department prefix to the original appropriation or fund account symbol. A bureau suffix identifies that the transfer is to a particular office or bureau within the receiving department. For example, 017-097 06 0100 represents a transfer of funds that was initially appropriated to Defense Agencies (097) and was transferred to the Department of the Navy (017) for execution purposes.

*13.0 PATENT ROYALTY ACTIVITIES

Each fiscal year, Treasury will create new three-year TAS to record collections and payments of expenses related to patent royalties. DoD Components should obligate and disburse directly from the three-year TAS for the purposes specifically authorized in statute, Section 3710c of Title 15, U.S. Code, which states that collections are only available for three years.

DoD Components must record the collections in the USSGL 426600 – Other Actual Business-Type Collections From Non-Federal Sources. USSGL 426600 provides direct budget authority on line 1800 of the SF 132, and SF-133.

Figure 1-1. Management Fund Requirements

1.0 APPROVAL OF CHARTERS AND MANAGEMENT FUND ACCOUNTS

A separate administrative account, called a management fund account, must be established for each operation or project that is to be financed by a management fund. This account must be established only with the approval of the Under Secretary of Defense (Comptroller) (USD(C)). As a basis for approval of a management fund account, a proposed charter and explanation of the reasons for the use of the management fund as the means of financing the operation or project must be submitted to the USD(C) via the Deputy Chief Financial Officer (DCFO).

1.1 The proposed charter must be prepared in the uniform format prescribed in Figure 1-2. If a Military Department is to be responsible for administration of the account, the proposed charter must be submitted under the signature of either the Secretary, Under Secretary, or an Assistant Secretary of the Military Department. A proposed charter submitted by a Defense Agency must be signed by the Director or Deputy Director of the Agency concerned. When appropriations or funds of more than one DoD Component are to share in the financing of a proposed account, the concurrence of each DoD Component involved must be evidenced by the signature of the Component comptroller or an equivalent official.

1.2 The scope of operations of a management fund account, as prescribed in the charter, must not be exceeded. However, the basic provisions of a charter may be changed by submitting a proposed charter amendment in the same manner as an original charter application.

1.3 The USD(C) must evidence approval of a charter or an amendment by signing the charter and returning a copy to the applicable DoD Component as its authority to commence operations subject to availability of funds. The original must be retained in the official files of the USD(C).

2.0 DISCONTINUANCE OF A MANAGEMENT FUND ACCOUNT

When a management fund account is to be discontinued, the managing DoD Component must submit a termination notice to the USD(C) stating the reason for discontinuing the account and the estimated date of final liquidation.

3.0 BUDGETING, FINANCING, ACCOUNTING, AND REPORTING

3.1 Budgets and Financial Plans

3.1.1. Annual budget estimates must be prepared for each management fund in accordance with Volume 2B.

3.1.2. An operating budget or financial plan must be prepared annually and updated quarterly by the managing DoD Component for each management fund account in a format appropriate for management planning and control purposes. A copy of the operating budget or financial plan for an operation or project must be submitted with the request for approval of an

Figure 1-1. Management Fund Requirements (continued)

account charter. When required for purposes of obtaining advances or for guidance in estimating appropriation or fund requirements, copies of operating budgets or financial plans also must be furnished to participating DoD Components or their organizational subdivisions.

3.2 Financing and Administrative Control of Funds

3.2.1. Obligational authority for the conduct of operations under a management fund account is provided by reimbursable orders, either with or without advances, whichever may be appropriate. The reimbursable orders may be issued in periodic increments to lessen the administrative workload and they must specify the accounting classifications to be used for billing purposes.

3.2.2. The management fund must be controlled administratively in accordance with Volume 14, “Administrative Control of Funds.” No obligation may be incurred against a management fund that is not chargeable to a specific order and the appropriation or fund supporting that order.

3.3 Billing and Payment

3.3.1. Management fund outlays must be charged to appropriations or funds as prescribed in the account charter and specified in the reimbursable order.

3.3.2. Billing and payment must be accomplished by SF 1081, “Voucher and Schedule of Withdrawals and Credits.” In the case of financing by means of advances, the advances must be accomplished by SF 1081 prepared and processed as of the beginning of the period covered by the advance. In all cases, however, the DoD Component responsible for the management fund account must submit monthly bills to participating organizations to permit them to charge appropriate accounts and record the reduction in the advance accounts, as well as to permit the managing DoD Component to adjust its own accounts.

3.4 Accounting and Reporting. Financial transactions must be classified under each management fund account in enough detail to meet management planning and control requirements. The principles, standards, and requirements in this Regulation apply to the accounting and reporting systems, including the recording and reporting of the source, application, and status of funds. Additional financial reporting that may be needed by participating organizations for management purposes must be specified by the DCFO and the Heads of the DoD Components.

Figure 1-2. Uniform Format for Management Fund Account Charters

1.0 IDENTIFICATION OF MANAGEMENT FUND ACCOUNT

The proposed charter must be numbered serially within each Military Department or the Office of the Secretary of Defense, and the management fund account must be identified by a brief but descriptive title. Serial numbers must be reserved for existing management fund accounts; thus, if a Military Department has three active management fund accounts, the next proposed charter will be No. 4. A reference must be made to this chapter as authority for the management fund account.

2.0 PURPOSE

A brief but complete description of the operation or project to be financed by the management fund must be included in this section.

3.0 PARTICIPATING ORGANIZATIONS

The organizational units within the managing Military Department or Defense Agency and the organizations in the other Military Departments or Defense Agencies that will participate in the operation or project must be identified in this section.

4.0 ADMINISTRATION

The following information must be included in this section:

- 4.1 The name and location of the organization or office that will be responsible for management and direction of the operation or project.
- 4.2 The location of the accounting and other administrative records.
- 4.3 The location of the principal place of business, if different from paragraphs 4.1, and 4.2.
- 4.4 Special provisions concerning administrative and logistic support.

5.0 BUDGETING, FINANCING, ACCOUNTING, AND REPORTING

The following information must be included in this section:

- 5.1 Arrangements for the preparation and submission of operating budgets or financial plans.

Figure 1-2. Uniform Format for Management Fund Account Charters (continued)

5.2 Provisions for financing, that is, by reimbursement with or without advances; provisions for determining and allocating costs when appropriate; and provisions for the return of unexpended balances of advances.

5.3 The management fund title and symbol.

5.4 A brief description of the system of accounts and of the system of internal control, including administrative control over funds.

5.5 The nature of the expenses chargeable to the operation or project.

5.6 Reporting policies and procedures.

6.0 TERM AND DURATION OF THE ACCOUNT

This section must specify the commencement date and the termination date of the operation or project or, for an operation or project of indefinite duration, the conditions under which the operation or project will terminate.

CHAPTER 3*CONTRIBUTIONS FOR DEFENSE PROGRAMS, PROJECTS, AND ACTIVITIES****1.0 INTRODUCTION (0301)****1.1 Purpose (030101)**

This Chapter prescribes the overall policy and assigns responsibilities for the acceptance, receipt, use, and reporting of money, real or personal property, or services to the Department of Defense (DoD) under Title 10, United States Code, section 2608.

1.2 Defense Cooperation Account (030102)

A special account is established in the Treasury of the United States for receipt of monetary contributions and proceeds from the sale of real or personal property contributions accepted by the Secretary of Defense, or designee under Title 10, United States Code, section 2608.

2.0 AUTHORITY (0302)**2.1 Secretary of Defense (030201)**

Title 10, United States Code, section 2608 provides authority for the Secretary of Defense (SECDEF) to accept, for use by the Department, from any business (or person), foreign government, or international organization, any contribution of money or real or personal property and may accept from any foreign government or international organization any contribution of services.

2.2 Under Secretary of Defense (Comptroller) (USD(C)) (030202)

Authority to accept such contributions has been delegated to the USD(C), who also serves as the single point of contact in the Department for the Departments of State and the Treasury with respect to all matters involving the receipt, administration and distribution of contributions of funds from foreign countries for defense programs.

2.3 Military Departments and Defense Agencies (030203)

The Secretaries of the Military Departments and the Directors of the Defense Agencies, have authority to accept from any business (person), or international organization, any contribution of real or personal property for use by their organizations.

2.4 Washington Headquarters Services (030204)

Given Washington Headquarter Services' responsibility for the management of property and physical assets at the Pentagon and to maintain consistency in property accountability the

Director of the Washington Headquarter Services has authority to accept contributions of personal property offered to the Office of the Secretary of Defense for use at the Pentagon.

2.5 Delegation of Authority (030205)

The USD(C) may provide additional delegations of authority to accept contributions of real and personal property or services on a case by case basis.

3.0 POLICY ON CONTRIBUTIONS (0303)

3.1 Nonmonetary Contributions (030301)

These are contributions in the form of real property (fixed assets such as land, buildings, other structures, and facilities), tangible property (inventory or items held for sale, operating materials, supplies, and equipment) or services that would benefit the DoD if accepted. Once the DoD accepts these contributions, the intent of the accounting standards (Statements of Federal Financial Accounting Standards (SFFAS)) is that the benefiting DoD organization should recognize the contribution in its financial statements. See Volume 4, Chapters 4 and 6, and Volume 6B, for accounting and reporting guidance.

3.1.1. The receiving DoD organization recognizes a change in inventory, stock, or plant, property, and equipment (PP&E) related records once transfer of the goods or services is made thus making DoD the legal owner of said goods or services. An organization receiving donated general PP&E determines its fair value at the time it was acquired by the government. Donations of assets or services must be reported quarterly to the Defense Finance and Accounting Service (DFAS), Indianapolis, 8899 East 56th Street ATTN: Trust Fund Accounting Division, Column 203L, Indianapolis, Indiana 46249-1500 (see paragraph 5.1).

3.1.2. The receiving organization must document and retain on file the details of each nonmonetary contribution received. For audit purposes, the supporting documentation must be retained for the life of the asset, but no less than 6 years and 3 months. Each file must include:

3.1.2.1. A description of the contribution.

3.1.2.2. The estimated value of the contribution, including the valuation method used (see subparagraph 3.1.3, below).

3.1.2.3. The name and address of the donor(s).

3.1.2.4. A list of restrictions, conditions, or other information set out by the donor.

3.1.2.5. The acquisition date.

3.1.2.6. The useful expected life of the donation.

3.1.2.7. A statement explaining the benefits of accepting the donation. You must explain why accepting the donation is preferred to obtaining the item or service through existing DoD supply channels.

3.1.2.8. A unique identifier or data element used to track the same or similar items shipped from different sources.

3.1.2.9. The Service and appropriation that benefit from this contribution. Identify the appropriation that normally furnishes this asset.

3.2 Monetary Contributions (030302)

The USD(C) retains the authority to accept all monetary contributions. Monetary contributions are not generally accepted with restrictions, i.e., with designations for specific programs or purposes.

3.2.1. Contributions in Cash

3.2.1.1. Cash contributions, including proceeds from the sale of any contributed property, shall be deposited to the Defense Cooperation Account (DCA) as soon as practical, but not later than the last day of the month.

3.2.1.2. Consistent with sound cash management practices, any cash accepted, under USD(C) authority, shall be either converted into a check and forwarded to the DFAS using overnight delivery service, or deposited into a Treasury General Account with funds transferred to the DCA via electronic funds transfer--whichever process results in the earliest deposit of funds into the DCA.

3.2.1.3. Any funds forwarded by electronic funds transfer shall be deposited within 24 hours into the DCA under ALC 9720010 and Account Number 97X5187.1. Additionally, the DFAS Trust Fund Accounting Division shall be notified prior to forwarding any funds electronically.

3.2.1.4. Documentation associated with cash contributions, including copies of deposit tickets, and the original of correspondence from contributors shall be forwarded within 24 hours of the deposit using overnight delivery service, to the DFAS Trust Fund Accounting Division.

3.2.2. Contributions by Check

3.2.2.1. Checks received by DoD officials shall be made payable to the "United States Treasury." The reference line on the check should indicate the "Defense Cooperation Account."

3.2.2.2. Checks received by DoD officials shall be forwarded to the DFAS Trust Fund Accounting Division. The DFAS shall deposit such funds within 24 hours of receipt into the DCA under ALC 9720010 and Account Number 97X5187.1.

3.2.2.3. Documentation associated with check contributions, including the original of any correspondence from contributors shall be forwarded with the check.

3.2.3. Contributions by Wire Transfer

3.2.3.1. Contributions by wire transfer eliminate delays in receiving deposits and provide the most efficient preliminary accounting information for investment purposes.

3.2.3.2. After approval by the USD(C), donors may make contributions to the DCA via electronic funds transfer from commercial banks to “Account Number 1” in the Federal Reserve Bank of New York (as Fiscal Agent of the United States). The Federal Reserve Bank of New York shall credit the Department accordingly, using the format in Figure 3-1.

3.2.3.3. Documentation associated with wire transfer contributions, including the original of any correspondence from contributors shall be forwarded within 24 hours of the deposit using overnight delivery service, to the DFAS Trust Fund Accounting Division.

3.2.4. Contributions in Foreign Currencies (Cash or Check). Upon notice of a planned large contribution (\$1 million or more) to be made in foreign currency the cognizant DoD official shall:

3.2.4.1. Request the donor provide as much lead time as possible regarding the amount of the contribution and the estimated date the contribution will be made.

3.2.4.2. Advise the USD(C) and the DFAS Trust Fund Accounting Division of any planned contributions and continue to keep that office advised of the status until the currency transfer is made by the donor.

3.2.4.3. Upon approval by the USD(C), request the donor credit the foreign currency contribution to the Federal Reserve Bank of New York “Account Number 1” via the donor’s central bank. If the Federal Reserve Bank does not maintain an account with a particular donor, the DoD official should seek guidance from the DFAS Trust Fund Accounting Division, for appropriate alternative arrangements.

3.2.4.4. Foreign checks received by DoD officials shall be converted to a check denominated in U.S. dollars prior to being forwarded to the DFAS or transferred electronically into the DCA.

3.2.4.5. Cash and checks received by DoD officials in countries not served by a DoD disbursing officer shall, upon approval by the USD(C), be delivered to the nearest U.S. Embassy within 24 hours of receipt for deposit in the DCA, under ALC 97200010 and Account Number 97X5187.1.

3.3 Policy On Acceptance Of Contributions (030303)

3.3.1. Authorities that may accept contributions shall use sensitivity and scrutiny when contributions are offered from prohibited sources and, if there is a question on propriety, shall consult with their Ethics Counselor to determine whether accepting a contribution would violate any prohibition, or reflect unfavorably on the Department. “Prohibited source” and “Ethics Counselor” shall have the meanings set forth in DoD 5500.7-R, the Joint Ethics Regulation.

3.3.2. Authorities that may accept contributions may pay all necessary expenses in connection with the conveyance or transfer of a contribution. Contributions should not be accepted if it would result in substantial expenditures or administrative efforts and maintenance that are disproportionate to any benefit.

3.3.3. Department personnel shall not solicit, fundraise for, or otherwise request or encourage the offer of a contribution.

3.3.4. Authorities that may accept contributions may acknowledge offers of future contributions and advise the donors that acceptance will occur after actual presentation of the contributions only when they determine that such acceptance will likely occur.

*4.0 REPORTING ON CONTRIBUTIONS (0304)

4.1 Reporting Requirements (030401)

Not later than 10 days after the end of each quarter, each DoD official that has accepted and received a nonmonetary contribution shall submit a report to the DFAS Trust Fund Accounting Division that identifies the following:

4.1.1. Nonmonetary Contributions Received

4.1.1.1. A description of each item received.

4.1.1.2. The value of each item received, including the valuation method used.

4.1.1.3. The name of the contributor for each item received.

4.1.1.4. The date each item was received.

4.1.1.5. Details of any restrictions, conditions or other relevant information regarding each contribution.

4.1.1.6. Expected useful life of the contribution.

4.1.1.7. If two more like items are received from different sources the items are to be accounted for separately to permit identification of items received.

4.1.2. Nonmonetary Contributions Sold

4.1.2.1. A description of each item sold.

4.1.2.2. The proceeds of each item sold. Also include in report the disposition of the funds received. Funds should be forwarded or deposited with DFAS and credited in the DCA consistent with 10 U.S.C. 2608(b)(2).

4.1.2.3. The name of the contributor for each item sold.

4.1.2.4. The date each item was sold.

4.1.2.5. The name of the purchaser for each item sold.

4.1.2.6. If two or more like items are received from different sources the items are to be accounted for separately to permit identification of items when sold.

4.1.2.7. Details of any other relevant information regarding each item sold.

4.1.3. Monetary Contributions Received

4.1.3.1. The dollar amount of each contribution.

4.1.3.2. Name of the donor for each contribution received.

4.1.3.3. The date each item was received.

4.2 Defense Finance and Accounting Services Reporting Requirement (030402)

Not later than 15 days after the end of each quarter, the DFAS shall prepare and forward to the USD(C) a report to be submitted to the Congress that provides the following information.

4.2.1. Summary values of monetary and nonmonetary contributions accepted during the quarter.

4.2.2. A description of all property valued at more than \$1 million. In determining whether the \$1 million threshold has been met, the following procedures shall be used:

4.2.2.1. The value of similar items accepted during the quarter shall be added together.

4.2.2.2. The value of components which, if assembled, would comprise all or a substantial portion of an item or facility shall be added together.

5.0 INVESTING CONTRIBUTIONS (0305)

5.1 General (030501)

Consistent with good cash management practices, funds in the DCA shall be invested in Government securities until distribution is authorized. Generally, investments are limited to U.S. Treasury bills maturing in 90 days or less.

5.2 Purchasing Government Securities (030502)

The DFAS shall follow the procedures below for purchasing Government securities.

5.2.1. Daily, after all contributions and other transactions have been entered into the DCA, generate a Pre-closing Trial Balance.

5.2.1.1. Verify the amount in account 1010, Fund Balance with Treasury, with the amount entered in the General Ledger for the same day.

5.2.1.2. Research and correct any differences between account 1010 and the General Ledger immediately.

5.2.2. A security investment can be purchased if account 1010 has a balance sufficient to purchase a \$10,000 Treasury bill or a \$1,000 U.S. Treasury note or bond. Information on prices, maturities, and yields of U.S. Treasury securities generally can be found in the financial section of major newspapers.

5.2.3. Select a U.S. Treasury security from those available.

5.2.4. Input the following information into the Treasury's FedInvest system or other appropriate system:

5.2.4.1. Account: Defense Cooperation Account

5.2.4.2. Transaction Type: Purchase

5.2.4.3. Transaction Date: (Date the security will be purchased)

5.2.4.4. Type of Security: (Specify)

5.2.4.5. Date of maturity: (Specify)

5.2.4.6. Amount: (Amount available in account 1010, Fund Balance with Treasury)

5.2.5. The day after the transaction, review the FedInvest system or other system as appropriate to obtain the face amount, discount or premium, interest purchase (if any), and the

price of the security purchased. Record the above information in the Trust Fund Accounting System (TFAS).

5.2.5.1. Complete the coordination section of the Memorandum for Purchase or Sale of Investments.

5.2.5.2. Complete the Purchases Input Worksheet and update the DCA system. Once this has been accomplished, a person other than the one making input must sign the Purchase Input Worksheet confirming that the DCA was updated for the Purchase.

5.2.6. Once the above has been accomplished, a person other than the individual making the input needs to review the data in the TFAS and the DCA to ensure that the systems have been properly updated.

5.3 Selling Securities (030503)

The DFAS shall follow the procedures below to sell Government securities.

5.3.1. The Office of the Deputy Comptroller (Program/Budget) will determine the amount needed for payment or transfer. The Fund Manager, DFAS Trust Fund Accounting Division, normally shall sell securities to cover the amount needed if no securities mature on that day or contributions are not received. The decision as to which securities will be sold will depend on current economic conditions.

5.3.2. Select a security or securities for sale.

5.3.3. Input the following information into the Treasury's FedInvest system or other appropriate system:

5.3.3.1. Account: Defense Cooperation Account

5.3.3.2. Transaction Type: Sale

5.3.3.3. Transaction Date: (Date security will be sold)

5.3.3.4. Type of security: (Specify)

5.3.3.5. Interest Rate: (Enter applicable rate only if Notes or Bonds are sold)

5.3.3.6. Date of maturity: (Specify)

5.3.3.7. Amount: (Minimum amount of proceeds from the sale required to cover any projected negative amount in account 1010)

5.3.4. If needed, obtain the principal amount and interest earned from the FedInvest or other appropriate system.

5.3.5. Update the TFAS with DCA activity.

5.4 Maturing Securities (030504)

The DFAS shall maintain a tracking system that identifies impending maturities and collections of securities for the DCA and ensure appropriate reinvestment action is taken upon maturity of a security.

5.5 Payments or Transfers (030505)

Payments or transfers from the DCA must be authorized by the Congress. The USD(C) will provide withdrawal notification to the DFAS which shall ensure appropriate action is taken.

5.6 Annual Reviews (030506)

The DFAS will conduct an annual review of the DCA operations and transactions, including the purchase and sale of investments. The objective of the review will include compliance with the DoD and the Treasury policies and procedures, and adequacy of internal controls.

FIGURE 3-1

Monetary Contributions by Wire Transfer Instructions

The following is a guide for completing the funds transfer form (Figure 3-1) which should be available at the sending financial institution.

1. RECEIVER DEPOSITARY FINANCIAL INSTITUTION (DFI) No. The Treasury Department's American Bankers Association (ABA) number for deposit messages is 021030004. This number shall be entered by the sending bank for all deposit messages sent to Treasury for credit to the Defense Cooperation Account.
2. TYPE-SUBTYPE CODE. The type and subtype code is provided by the sending bank.
3. SENDER DFI NO. This number is provided by the sending bank.
4. SENDER REFERENCE NO. The sixteen (16) character reference number is inserted by the sending bank at its option.
5. AMOUNT. The transfer amount shall be in U.S. dollars and must be punctuated with commas and a decimal point; use of the dollar sign is optional.
6. SENDER DFI NAME. This information is automatically inserted by the Federal Reserve Bank.
7. RECEIVER DFI NAME. The Treasury Department's name for deposit messages is "TREAS NYC." The name should be entered by the sending bank.
8. PRODUCT CODE. A product code of "CTR" for customer transfer should be the first data in the RECEIVER - TEXT field. Other values may be entered, if appropriate, using the ABA's options. A slash must be entered after the product code.
9. AGENCY LOCATION CODE (ALC). The agency location code is of critical importance and must appear in the precise manner stated to allow for automated processing and classification to the ALC of the Department of Defense. The sequence includes the beneficiary code tag (BNF) and indicator code (/AC) followed by the Defense Department's eight (8) digit ALC (97200010) for this account. The ALC identification sequence can, if necessary, begin on one line and end on the next line. However, the field beneficiary code tag (BNF) must be one line and cannot contain any spaces.
10. THIRD PARTY INFORMATION. The reason for the funds transfer should appear in this field. The originator-to-beneficiary information field tag (OBI=) is used to signify the beginning of free-form text. An example follows: BNF=/AC-97200010 OBI=to the DCA(97X5187) for defense programs, projects, and activities from (Name of Donor).

CHAPTER 4

DIRECT LOANS AND LOAN GUARANTEES

1.0 GENERAL

1.1 Purpose

This chapter establishes the Department of Defense (DoD) policies for direct loans and loan guarantees for non-Federal borrowers. The policies for credit programs reflect the requirements of the [Federal Credit Reform Act of 1990](#) (FCRA) as amended. The major purposes of the Act are to: (a) measure more accurately the costs of Federal credit programs; (b) place the cost of credit programs on a budgetary basis equivalent to other Federal spending; (c) encourage the delivery of benefits in the form most appropriate to the needs of beneficiaries; and (d) improve the allocation of resources among credit programs and between credit and other spending programs.

1.2 Authoritative Guidance

The financial management policy and related requirements prescribed in this chapter are in accordance with the applicable provisions of the following sources, and apply to all proceeds resulting from sales of acquired assets:

1.2.1. [Office of Management and Budget \(OMB\) Circular A-11](#), Part 5, Section 185, "Federal Credit."

1.2.2. [OMB Circular A-129](#), "Policies for Federal Credit Programs and Non-Tax Receivables."

1.2.3. [The Treasury Financial Manual \(TFM\) Volume I Part 2, Chapter 4600](#).

1.2.4. [Statement of Federal Financial Accounting Standards \(SFFAS\) 2](#), "Accounting for Direct Loans and Loan Guarantees."

1.2.5. [SFFAS 18](#), "Amendments to Accounting Standards For Direct Loans and Loan Guarantees in SFFAS No. 2."

1.2.6. [SFFAS 19](#), "Technical Amendments to Accounting Standards For Direct Loans and Loan Guarantees in SFFAS No. 2."

1.2.7. Federal Accounting Standards Advisory Board (FASAB) [Technical Release 3 \(Revised\)](#), "Auditing Estimates for Direct Loan and Loan Guarantee Subsidies under the Federal Credit Reform Act."

1.2.8. [FASAB Technical Release 6](#), "Preparing Estimates for Direct Loan and Loan Guarantee Subsidies under the Federal Credit Reform Act."

2.0 ACCOUNTING STANDARDS

2.1 Explanation

The specific accounting standards for direct and guaranteed loans are discussed in this chapter. The standards concern the recognition and measurement of direct loans, the liability associated with loan guarantees, and the cost of direct loans and loan guarantees.

2.2 Accounting Standards

2.2.1. Post-1991 Direct Loans. Refers to direct loan obligations made on or after October 1, 1991, and the resulting direct loans. Direct loans disbursed and outstanding are recognized as assets at the present value of their estimated net cash inflows. The difference between the outstanding principal of the loans and the present value of their net cash inflows is recognized as a subsidy cost allowance.

2.2.2. Post-1991 Guarantees. Refers to loan guarantee commitments made on or after October 1, 1991, and the resulting loan guarantees. For guaranteed loans outstanding, the present value of estimated net cash outflows of the loan guarantees is recognized as a liability. Disclosure is made of the face value of guaranteed loans outstanding and the amount guaranteed.

2.2.3. Subsidy Costs of Post-1991 Direct Loans and Loan Guarantees. A subsidy expense is recognized for direct or guaranteed loans disbursed during a fiscal year. The amount of subsidy expense equals the present value of estimated cash outflows over the life of the loans, minus the present value of estimated cash inflows, discounted at the average interest rate on marketable U.S. Treasury securities of similar maturity to the cash flows of the loan or loan guarantee for which the estimate is being made.

2.2.3.1. For the fiscal year during which new direct or guaranteed loans are disbursed, the components of the subsidy expense of those new direct loans and loan guarantees are recognized separately as interest subsidy costs, default costs, fees and other collections, and other subsidy costs.

2.2.3.2. The interest subsidy cost of direct loans is the excess of the amount of the loans disbursed over the present value of the interest and principal payments required by the loan contracts, discounted at the applicable U.S. Treasury interest rate. The interest subsidy cost of loan guarantees is the present value of estimated interest supplement payments.

2.2.3.3. The default cost of direct loans results from [projected deviations](#), other than prepayments by the borrowers, from the payments schedule in the loan contracts. The deviations include delinquencies and omissions in interest and principal payments. The default cost is measured at the present value of the projected [payment deviations](#) minus [projected](#) net recoveries. Projected net recoveries include the amounts that would be collected from the borrowers at a later date, or the proceeds from the sale of acquired assets, minus the costs of foreclosing, managing, and selling those assets.

* 2.2.3.4. The default cost of loan guarantees results from paying lenders' claims upon default of the guaranteed loans. The default cost of loan guarantees is measured at the present value of projected payments to lenders required by the guarantee, plus uncollected fees, minus interest supplements not paid as the result of the default, and minus projected net recoveries.

2.2.3.5. The present value of fees and other collections is recognized as a deduction from subsidy costs.

2.2.3.6. Other subsidy costs consist of cash flows that are not included in calculating the interest or default subsidy costs, or in fees and other collections. They include the effect of prepayments within contract terms. (See Appendix A)

2.2.4. Subsidy Amortization and Reestimation. The subsidy cost allowance for direct loans is amortized by the interest method, using the interest rate that was originally used to calculate the present value of the direct loans when loans were disbursed, [after adjusting for the interest re-estimate](#). The amortized amount is recognized as an increase (when effective interest exceeds nominal interest) or decrease (when nominal interest exceeds effective interest) in interest income. Nominal interest equals the nominal balance (i.e., the face amount) of the loan outstanding at the beginning of the period multiplied by the interest rate stated in the loan contract. Effective interest equals the book value of the loan (i.e., net of allowance for subsidy) multiplied by the applicable U.S. Treasury interest rate.

2.2.4.1. Interest is accrued and compounded on the liability of loan guarantees at the interest rate that was used to calculate the present value of the loan guarantee liabilities, when the guaranteed loans were disbursed. The accrued interest is recognized as interest expense, [after adjusting for the interest re-estimate](#).

2.2.5. Criteria for Default Cost Estimates. The criteria for default cost estimates apply to both initial estimates and subsequent reestimates. Default costs are estimated and reestimated for each program on the basis of separate cohorts and risk categories. Cohort refers to the fiscal year of obligation for direct loan obligations or loan guarantee commitments of a program. Risk category means subdivisions of a cohort of direct loans or loan guarantees into groups that are relatively homogenous in cost, given the facts known at the time of obligation or commitment. The reestimates take into account the differences in cash flows between the projected and realized amounts, and changes in other factors that can be used to predict the future cash flows of each risk category.

2.2.5.1. In estimating default costs, the following risk factors are considered: (a) loan performance experience; (b) current and forecasted international, national, or regional economic conditions that may affect the performance of the loans; (c) financial and other relevant characteristics of borrowers; (d) the value of collateral to loan balance; (e) changes in recoverable value of collateral; and (f) newly developed events that would affect the performance of the loan. Improvements in methods to reestimate defaults also are considered.

2.2.5.2. Each credit program must use a systematic methodology, such as an econometric model, to project default costs of each risk category. If individual accounts contain significant dollars that would carry a proportionately higher weight in terms of risk exposure, an analysis of the individual accounts is warranted in making the default cost estimate for that category.

2.2.5.3. The actual historical experience for the performance of a risk category is a primary factor upon which an estimation of default cost is based. To document actual experience, a database must be maintained to provide historical information on actual payments, prepayments, late payments, defaults, recoveries, and amounts written off.

2.2.6. Netting Subsidy Reestimate Amounts (within Cohorts). To calculate subsidy costs, components begin by estimating the expected cash flows and inflows over the life of the loans for each cohort year. Expected cash flows are then discounted to the point of loan disbursement to determine the net present value. The subsidy cost represents the net present value cost of making or guaranteeing new loans.

2.2.6.1. The data used for budgetary subsidy cost estimates are updated, or reestimated, annually after the end of the fiscal year to reflect actual loan performance and to incorporate any changes in assumptions about future loan performance. Reestimates must be made immediately after the end of each fiscal year, as long as any loans in the cohort are outstanding.

2.2.6.2. OMB Circular A-11, Part 5, Section 185.6 (f), “Calculating Reestimate Increases/Decreases”, states in cases where agencies execute a risk category on a loan-by-loan basis, increases or decreases in subsidy cost for different loans within the same cohort and risk category will be netted against each other. Loans that require increased subsidies should draw on the excess from any risk categories within the cohort where the reestimate shows a subsidy decrease. A negative or downward subsidy reestimate, should be recognized as a direct reduction in expense, not as a revenue, gain, or other financing source.

2.2.6.2.1. If the netting within the cohort indicates a net increase in the subsidy cost of the cohort as a whole since the last estimate or reestimate, an obligation in the amount of the net increase (plus interest) must be recorded against permanent indefinite budget authority available to the program account for this purpose.

2.2.6.2.2. If the netting within the cohort results in a net downward reestimate, there is no overall increase in subsidy cost for the cohort, and hence no additional appropriated subsidy for the program account. To keep the correct amount of balances in the financing account, an obligation and a financing disbursement in the amount of the net decrease (plus interest on the reestimate) must be recorded in the financing account.

2.2.6.2.3. Within the financing account, any amounts borrowed for downward reestimates for individual loans not needed for/transferred to loans with upward reestimates are transferred to a miscellaneous receipt account.

2.2.6.3. The Defense Finance and Accounting Services (DFAS) maintains separate accounting records for each loan and loan guarantee with all accounting transactions. All projects having a downward re-estimate, whether or not they are in a cohort with an upward re-estimate project, borrow the gross amount of their respective downward reestimates from the Bureau of Fiscal Services. The borrowed funds received by a downward reestimate project are transferred to the amount needed to fund an upward reestimate project in the same cohort with any net remaining funds paid to the Department of the Treasury.

2.2.6.3.1. Such intracohort transfers are recorded by the downward reestimate project as a credit to United States. Standard General Ledger (USSGL) account 427100 (Actual Program Fund Subsidy Collected) with an offsetting debit to USSGL 427100 recorded by the upward re-estimate project. Consequently, the total reestimate amount included in Line 4120 (Federal Sources) on the Standard Form (SF) 133 "Report on budget Execution and Budgetary Resources", is the sum of the net cohort balances.

2.2.6.3.2. Detailed accounting guidance provided by the Department of Treasury: [Guide for Basic Accounting and Reporting](#) for Direct Loan Programs without Collateral in Federal Credit Program and [Guide for Basic Accounting and Reporting](#) for Loan Guarantee Programs without Collateral in Federal Credit Program.

2.2.7. Revenues and Expenses. Interest accrued on direct loans, including amortized interest, is recognized as interest income. Interest accrued on the liability of loan guarantees is recognized as interest expense. Interest due from the U.S. Treasury on uninvested funds is recognized as interest income. Interest accrued on debt to the U.S. Treasury is recognized as interest expense. Costs for administering credit activities, such as salaries, legal fees, and office costs, that are incurred for credit policy evaluation, loan and loan guarantee origination, closing, servicing, monitoring, maintaining accounting and computer systems, and other credit administrative purposes, are recognized as administrative expense. Administrative expenses are not included in calculating the subsidy costs of direct loans and loan guarantees.

2.2.8. Pre-1992 Direct Loans and Loan Guarantees. The losses and liabilities of direct loans obligated and loan guarantees committed before October 1, 1991, are recognized, when it is more likely than not that the direct loans will not be collected totally, or that the loan guarantees will require a future cash outflow to pay default claims.

2.2.8.1. The allowance for uncollectible amounts and the liability of loan guarantees must be reestimated each year as of the date of the financial statements. In estimating losses and liabilities, the risk factors discussed in subparagraph 2.2.5.1 must be considered. Disclosure is made of the face value of guaranteed loans outstanding and the amount guaranteed.

2.2.8.2. Restatement of pre-1992 direct loans and loan guarantees on a present value basis is permitted but not required.

2.2.9. Modification of Direct Loans and Loan Guarantees. The term "modification" means a Federal action, including new legislation or administrative action, which directly or indirectly alters the estimated subsidy cost and the present value of outstanding direct loans, or the liability of loan guarantees.

2.2.9.1. Direct modifications are actions that change the subsidy cost by altering the terms of existing contracts or by selling loan assets. Existing contracts may be altered through such means as forbearance, forgiveness, reductions in interest rates, extensions of maturity, and prepayments without penalty. Such actions are modifications unless they are considered reestimates, or workouts, as defined in subparagraph 2.2.9.3, or are permitted under the terms of existing contracts.

2.2.9.2. Indirect modifications are actions that change the subsidy cost by legislation that alters the way in which an outstanding portfolio of direct loans or loan guarantees is administered. Examples include a new method of debt collection prescribed by law or a statutory restriction on debt collection.

2.2.9.3. The term "modification" does not include subsidy cost reestimates, the routine administrative workouts of troubled loans, or actions that are permitted within the existing contract terms. Workouts are actions taken to maximize repayments of existing direct loans, or minimize claims under existing loan guarantees. The expected effects of workouts on cash flows are included in the original estimate of subsidy costs and subsequent reestimates.

2.2.10. Modification of Direct Loans. With respect to a direct or indirect modification of pre-1992 or post-1991 direct loans, the cost of modification is the excess of the pre-modification value of the loans over the post-modification value of those loans. The amount of the modification cost is recognized as a modification expense when the loans are modified.

2.2.10.1. When a post-1991 direct loan is modified, the existing book value of that loan is changed to an amount equal to the present value of the net cash inflows projected under the modified terms from the time of modification to the loan's maturity. That amount is discounted at the original discount rate, which is the rate that originally was used to calculate the present value of the direct loan, when the direct loan was disbursed, after adjusting for the interest rate reestimate.

2.2.10.2. When a pre-1992 direct loan is directly modified, it is transferred to a financing account and its book value is changed to an amount equal to its post-modification value. Any subsequent modification is treated as a modification of post-1991 loans. When a pre-1992 direct loan is indirectly modified, it is kept in a liquidating account. The bad debt allowance is reassessed and adjusted to reflect amounts that would not be collected due to the modification.

2.2.10.3. The changes in the book value of both pre-1992 and post-1991 direct loans, resulting from a direct or indirect modification, and the cost of modification, normally will differ due to the use of different discount rates or different measurement methods. Any difference between the change in book value and the cost of modification is recognized as a gain or loss. For post-1991 direct loans, the modification adjustment transfer paid or received to offset the gain or loss is recognized as a financing source (or a reduction in financing source).

2.2.11. Modification of Loan Guarantees. With respect to a direct or indirect modification of pre-1992 or post-1991 loan guarantees, the cost of modification is the excess of the post-modification liability of the loan guarantees over the premodification liability of those loan guarantees. The modification cost is recognized as modification expense when the loan guarantees are modified and results in a subsidy cost increase or decrease, which must be recorded on the SF-133; refer to OMB Circular A-11, section 185.30 for complete details.

2.2.11.1. The existing book value of the liability of modified post-1991 loan guarantees is changed to an amount equal to the present value of net cash outflows projected under the modified terms from the time of modification to the maturity of those loans, discounted at the original discount rate (the rate that originally is used to calculate the present value of the liability when the guaranteed loans were disbursed, after adjusting for the interest rate reestimate.)

2.2.11.2. When a pre-1992 loan guarantee is directly modified, the modified loan guarantee is transferred to a financing account and the existing book value of the liability of the modified loan guarantees is changed to an amount equal to its post-modification liability. Any subsequent modification is treated as a modification of a post-1991 loan guarantee. When a pre-1992 loan guarantee is indirectly modified, that loan guarantee is kept in a liquidating account. The liability of such a loan guarantee is reassessed and adjusted to reflect any change in the liability resulting from the modification.

2.2.11.3. The change in the amount of liability of both pre-1992 and post-1991 loan guarantees resulting from a direct or indirect modification and the cost of modification normally will differ, due to the use of different discount rates or the use of different measurement methods. Any difference between the change in liability and the cost of modification is recognized as a gain or loss. For post-1991 loan guarantees, the modification adjustment transfer paid or received to offset the gain or loss is recognized as a financing source (or a reduction in financing source).

2.2.12. Disclosure. Disclosure is made in notes to financial statements to explain the nature of the modification of direct loans or loan guarantees, the discount rate used in calculating the modification expense, and the basis for recognizing a gain or loss related to the modification. For further information on financial statement disclosures regarding direct or guaranteed loans, go to “Notes to the Financial Statements,” Volume 6B, Chapter 10.

2.2.13. Foreclosure of Post-1991 Direct Loans and Guaranteed Loans. When property is transferred from borrowers to a Federal credit program, through foreclosure or other means, in partial or full settlement of post-1991 direct loans, or as compensation for losses that the government sustained under post-1991 loan guarantees, the foreclosed property is recognized as an asset. The asset is recorded at the present value of its estimated future net cash inflows discounted at the original discount rate, adjusted for the interest rate reestimate.

2.2.13.1. If a legitimate claim exists by a third party or by the borrower to a part of the recognized value of the foreclosed assets, the present value of the estimated claim is recognized as a special contra valuation allowance.

2.2.13.2. Upon the foreclosure of a guaranteed loan, a Federal guarantor may acquire the loan involved. The acquired loan is recognized at the present value of its estimated net cash inflows from selling the loan or from collecting payments from the borrower, discounted at the original discount rate, adjusted for the interest rate reestimate.

2.2.13.3. When assets are acquired in full or partial settlement of post-1991 direct loans or guaranteed loans, the present value of the government's claim against the borrowers is reduced by the amount settled as a result of the foreclosure.

2.2.14. Write-off of Direct Loans. When post-1991 direct loans are written off, the unpaid principal of each such loan is removed from the gross amount of loans receivable. Concurrently, the same amount is charged to the allowance for subsidy costs. Prior to the write-off, the uncollectible amounts should have been reflected in the subsidy cost allowance through the subsidy cost estimate or reestimates. Therefore, the write-off would have no effect on expenses. See OMB Circular A-129 for additional details.

2.2.15. Additional Disclosures Required for Periods Beginning After September 30, 2000. The SFFAS No. 18 requires additional disclosures. Beginning in FY 2001, Federal agencies are required to:

2.2.15.1. Report subsidy reestimates in two distinct components: the interest rate reestimate and the technical/default reestimate.

2.2.15.2. Display reconciliation between the beginning and the ending balances of the subsidy cost allowance for direct loans and the liability for loan guarantees, reported in an entity's balance sheet.

2.2.15.3. Provide a description of program characteristics and disclose:

2.2.15.3.1. the amounts of direct or guaranteed loans disbursed in each program during the reporting year, [and the preceding reporting year](#);

2.2.15.3.2. the estimated subsidy rates for the total subsidy and the subsidy components at the program level in the current year's budget for the current year's cohorts;

2.2.15.3.3. events and changes in economic conditions, other risk factors, legislation, credit policies and subsidy estimation methodologies and assumptions, that have had a significant and measurable effect on subsidy rates, subsidy expense, and subsidy reestimates; and

2.2.15.3.4. events and changes in conditions that [have occurred and are more likely than not to](#) have a significant impact, but the effects of which are not measurable at the reporting date.

3.0 CREDIT REFORM FUND CONTROLS

3.1 Fund Control

DoD agency heads must prescribe, by regulation, a system of administrative control of funds. For credit programs and resources, systems for administrative control of funds must ensure that internal controls include objectives specific to compliance with the Antideficiency Act. Additional detailed guidance can be found in OMB Circular A-11, Part 4, Section 150.

3.2 Antideficiency Act Violations

Antideficiency Act violations for direct loans, guaranteed loans, and financing accounts are reportable to the President, through the Director of the OMB, to the Comptroller General, and to the Congress. For additional information, go to “Antideficiency Act Violations,” Volume 14, Chapter 2. Violations include:

3.2.1. Overobligation or Overexpenditure of the Subsidy. This is any case where an officer or employee of the U.S. Government makes or authorizes an expenditure or creates or authorizes an obligation, including a commitment, that is in excess of amounts appropriated and apportioned for (1) the direct loan subsidy or (2) the guaranteed loan subsidy. Examples of violations include modifications of direct loans or loan guarantees, such as forgiveness, forbearance, reductions in interest rate, prepayments without penalty, and extensions of maturity, that result in obligations in excess of apportioned unobligated balances or subsidy amounts.

3.2.2. Overobligation or Overexpenditure of the Credit Level Supportable by the Enacted Subsidy. This is any case where an officer or employee of the U.S. Government makes or authorizes an expenditure or creates or authorizes an obligation, including a commitment, that is in excess of the credit program level supportable by the enacted subsidy, regardless of whether the subsidy is positive or negative. This includes obligations or expenditures that are in excess of: (1) the direct loan level, (2) the guaranteed loan level, or (3) any limitations on the loan level or the Federal share of guaranteed loan levels.

3.2.3. Overobligation or Overexpenditure of the Amount Appropriated for Administrative Expenses. This is any case where an officer or employee of the U.S. Government makes or authorizes an expenditure or creates or authorizes an obligation, including a commitment, which is in excess of the amount appropriated for administrative expenses.

3.2.4. Obligation or Expenditure of the Expired Unobligated Balance of the Subsidy Except to Correct Mathematical or Data Input Errors in Calculating Subsidy Amounts. This is any case where an officer or employee of the U.S. Government makes or authorizes expenditure or creates or authorizes an obligation, including a commitment, against unobligated subsidy balances after the period of obligation authority has expired. Correction of mathematical or data input errors up to the amount of the lapsed unobligated balance of the subsidy are specifically exempted. Corrections of these errors in excess of the amount of the expired unobligated balance of the subsidy are violations.

4.0 CREDIT APPORTIONMENT AND REAPPORTIONMENT

All Treasury appropriation fund symbols (TAFS) and all program, financing, and liquidating accounts are required to be apportioned, except in the case of a TAFS that is in its entirety exempt from apportionment by OMB. See [OMB Circular A-11](#), part 4, section 120.6 for TAFS that are partially exempt from apportionment. This subject is discussed in full detail in Volume 3, Chapter 2, "Apportionment and Reapportionment."

5.0 REPORT ON BUDGET EXECUTION AND BUDGETARY RESOURCES (SF 133)

5.1 Coverage

Unless otherwise specified by the OMB, the Report on Budget Execution and Budgetary Resources must be prepared to provide current data on each credit account, whether apportioned or not. Current reporting requirements are published in OMB Circular A-11, Part 4, "Instructions on Budget Execution."

5.2 Timing of Reports

The SF 133 must be submitted electronically through the Treasury's Governmentwide Treasury Account Symbol Adjusted Trial Balance System ([GTAS](#)), at the end of November, July, August, and each quarter or such other time period specified by the OMB for each open TAFS. This facilitates analysis and ensures consistent presentation of budget execution information so that Governmentwide totals are meaningful. A copy of the SF 133 for each calendar quarter must be submitted to the Committee on Appropriations, House of Representatives.

6.0 DIRECT LOANS

Obligation of subsidy must be recorded in the program account when a binding contract has been signed, in accordance with the provisions of OMB Circular A-11, Part 5, Federal Credit. Subsidy funds must be paid from the program account to the financing account when the direct loan is to be disbursed to the borrower. Note that the subsidy is not recalculated at the time of loan disbursement. Rather, any change in estimated subsidy caused by an interest rate change or change in estimates for other components of subsidy cost is made at the beginning of the fiscal year after the fiscal year in which the loan is disbursed. If, at that time, the subsidy amount increases, permanent indefinite budget authority is available to fund the increase, pursuant to section 504(f) of the FCRA of 1990. If the subsidy amount decreases, a payment must be made to a receipt account.

7.0 GUARANTEED LOANS

Obligation of subsidy must be recorded in the program account when a binding contract has been signed, in accordance with the provisions of OMB Circular A-11, Part 5, Federal Credit. Subsidy funds must be paid from the program account to the financing account when the guaranteed loan is disbursed to the borrower by the third-party lender. Note that the subsidy is not recalculated at the time of loan disbursement. Rather, any change in estimated subsidy caused by an interest rate change or change in estimates for other components of subsidy cost is made at the beginning of the fiscal year after the fiscal year in which the loan is disbursed. If, at that time, the subsidy amount increases, permanent indefinite budget authority is available to fund the increase, pursuant to section 504(f) of the FCRA of 1990. If the subsidy amount decreases, a payment must be made to a receipt account.

8.0 COMPUTATION OF INTEREST EXPENSE AND INTEREST INCOME

8.1 Instructions for Computations of Interest Expense and Interest Income for Direct and Guaranteed Loan Programs

8.1.1. Interest expense in a direct loan program results from borrowing from the U.S. Treasury. As each loan is disbursed by the financing account to the individual borrower, subsidy funds are transferred from the program account to the financing account. Consequently, each loan disbursement is financed by two sources: subsidy transfer, and borrowing from the U.S. Treasury.

8.1.2. A single borrowing from the U.S. Treasury is made at the beginning of each fiscal year, separately for each cohort, based on the estimated net loan disbursements for the cohort. Interest expense accrues on the borrowing, and interest income accrues on the undisbursed balance of the borrowing from the U.S. Treasury. (The undisbursed balance of U.S. Treasury borrowing is held as uninvested funds and earns interest.) The interest rate earned on the uninvested funds equals the interest rate paid on borrowing from the U.S. Treasury.

8.2 Frequency of Interest Computations

OMB has determined that most credit programs do not have a seasonal bias in their loan disbursement patterns. Consequently, interest expense and income calculations for cohorts that currently are disbursing must be based on an assumption that the actual loan amounts disbursed during the year were disbursed equally throughout the four quarters. The assumption allows agencies annually to compute interest expenses and interest income, at the end of each fiscal year, using the average annual interest rate provided by OMB and the U.S. Treasury. In those few programs that have a strong seasonal pattern, OMB will calculate special weighted average interest rates appropriate to these patterns and will provide them to the agencies.

8.3 Weighted Average Interest Rate

The [Federal](#) Credit Reform Act provides that the interest rate for borrowing must be assigned based on the U.S. Treasury rate in effect during the period of loan disbursement. Many individual loans are disbursed in segments over several quarters or even years. Consequently, several interest rates can be applicable to an individual loan. To simplify the recordkeeping, a single weighted average interest rate is maintained for each cohort and is adjusted each year, until 90 percent of the disbursements from the cohort have been made. Each year the current year average annual interest rate is weighted by current year disbursements, and merged with the prior year's weighted average, to calculate a new weighted average. Additional information regarding subsidy calculation is contained in OMB Circular A-11, Part 5, Federal Credit.

8.4 Procedure and Due Dates for Computing Interest Expenses and Income Related to Borrowing for Direct Loan and Guaranteed Loan Financing Accounts

Detailed instructions for calculating interest due to and due from the U.S. Treasury are provided in Volume 1, Part 2, Treasury Financial Manual, Chapter 4600. OMB distributes the actual annual interest rates approximately 10 business days before fiscal year-end, September 30. Each cohort has its own specific interest rate used to earn or pay interest, referred to as a cohort interest rate. The OMB Credit Subsidy Calculator (CSC) calculates the cohort interest rate. Agencies must use the most current version of the CSC, available through the OMB contact with primary responsibility for the account, to calculate interest paid to Treasury. On or before the day the interest payment is made via the Intra-governmental Payments and Collections (IPAC) system, but in any case no later than September 30 of the current fiscal year. Agencies must email the supporting interest payment calculation to Federal Investments and Borrowings Branch.

9.0 Credit Reform USSGL Accounts and Definitions

Credit reform accounts and definitions were established in the USSGL to implement requirements of the FCRA of 1990 (as amended), and are intended to account for direct loans and loan guarantees. DoD entities must follow the Standard Financial Information Structure ([SFIS](#)), which is based on the Treasury USSGL. For more complete information, [visit](#) the SFIS website.

APPENDIX A

CREDIT REFORM: CASH FLOWS FOR DIRECT LOANS AND FOR LOAN GUARANTEES

In order to more clearly understand the cash flow process as required by credit reform for a direct loan or a guaranteed loan, two examples are provided.

EXAMPLE: Cash Flow for a \$100 Direct Loan, 20 percent subsidy, disbursed in one year

1. Congress appropriates \$20 in subsidy budget authority (BA) to the program account.
2. The \$20 subsidy is obligated when the \$100 loan is obligated.
3. The \$20 subsidy is outlayed to the financing account at the time the \$100 loan is disbursed to the borrower. Simultaneously, the financial account borrows the additional \$80 needed to make the \$100 loan from the U.S. Treasury (Treasury).
4. The borrower pays fees, interest, and principal to the financing account under the terms of the loan.
5. The financing account makes payments to the Treasury over time on the \$80 portion of the loan. If the subsidy rate is accurate, the loan repayments (and other payments) to the financing account will be exactly the amount necessary to repay the original amount of \$80 borrowed from the Treasury plus interest.
6. If the subsidy is not accurate, a reestimate must be calculated, and as necessary, either:
 - a. an additional subsidy will be disbursed from the program account to the financial account, to cover the amount of the reestimate, or
 - b. excess funds must be moved from the financial account to a negative receipt account, where these funds are unavailable until appropriated.

EXAMPLE: Cash flow for a \$100 Loan Guarantee with a 20 percent subsidy rate disbursed in one year

1. Congress appropriates \$20 in subsidy BA to the program account.
2. The \$20 subsidy is obligated when the \$100 loan is obligated.
3. The lending institution lends a 75 percent government-guaranteed \$100 loan to the borrower. When the loan is disbursed, \$20 in subsidy BA is outlayed to the financing account. The borrower pays a 2 percent upfront fee to the agency, which is deposited into the financing account.

4. Reserves (uninvested funds) are held in the financing account and earn interest.
5. The borrower pays principal and interest to the lending institution.
6. If the borrower defaults, the reserves held in the financial account are used to make claim payments to the lending institution. If the subsidy rate is accurate, the financial account will have exactly the reserves required to cover all defaults and other subsidies for that set or cohort of loans.
7. If the subsidy is not accurate, a reestimate must be made and, as necessary either:
 - a. additional subsidy must be disbursed from the program account to the financing account to cover the amount of the reestimate, or
 - b. excess funds must be moved from the financing account to a negative receipt account, where these funds are unavailable until appropriated.

CHAPTER 5

GRANTS AND COOPERATIVE AGREEMENTS

1.0 GENERAL

1.1 Overview

1.1.1. Grants and cooperative agreements are legal instruments used to enter into a relationship, the principal purpose of which is to transfer a thing of value to the recipient to carry out a public purpose and stimulate the economy as authorized by law. In contrast, contracts are used to acquire property or services for a DoD Component's direct benefit or use. Grants and cooperative agreements are two types of assistance awards.

1.1.2. A DoD Component's expected level of involvement in the performance of the assistance award determines whether the legal instrument is a grant or cooperative agreement. Grants are used when a DoD Component expects no substantial involvement in carrying out the activity contemplated in the agreement, whereas cooperative agreements are used when the Component anticipates substantial involvement in carrying out the activity contemplated in the agreement.

1.1.3. A technology investment agreement, as defined in 32 Code of Federal Regulations (CFR) 37 is a cooperative agreement while a cooperative research and development agreement, as defined in Title 15 United States Code (U.S.C.), Section 3710a, is neither a grant nor a contract.

1.1.4. The accounting treatment for grants and cooperative agreements is the same. In this Chapter, the term "grant" covers both grants and cooperative agreements. The accounting treatment for international agreements is discussed in Chapter 9.

1.1.5. DoD grant recipients (grantees) include institutions of higher education, hospitals, non-profit organizations, local and state governments, Indian tribal governments, and for-profit entities.

1.2 Purpose

This chapter prescribes the policy to be followed by DoD Components to account for and control funds obligated, and assets acquired through grants. It also outlines additional reporting requirements for grants.

1.3 Authoritative Guidance

The financial management policy and related requirements set forth in this chapter are in accordance with the applicable provisions of:

1.3.1. [31 U.S.C. § 6101](#), "Definitions", also included as part of the DoD Grant and Agreement Regulations (DoDGARS)."

1.3.2. [31 U.S.C. § 63](#), “Using Procurement Contracts and Grant and Cooperative Agreements.”

1.3.3. [Public Law 116-103](#), “Grant Reporting Efficiency and Agreements Transparency (GREAT) Act of 2019.”

1.3.4. [2 CFR 200](#), “Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards.”

1.3.5. [2 CFR 1104](#), “Implementation of Governmentwide Guidance for Grants and Cooperative Agreements.”

1.3.6. [31 CFR 205](#), “Rules and Procedures for Efficient Federal-State Funds Transfers.”

1.3.7. [32 CFR Part 21-37](#), “DoDGARS.”

1.3.8. Federal Accounting Standards Advisory Board (FASAB) Statement of Federal Financial Accounting Standards ([SFFAS](#)) [3](#), “Accounting for Inventory and Related Property.”

1.3.9. FASAB [SFFAS 6](#), “Accounting for Property, Plant, and Equipment.”

1.3.10. FASAB [SFFAS 7](#), “Accounting for Revenue and Other Financing Sources and Concepts for Reconciling Budgetary and Financial Accounting.”

1.3.15. Office of Management and Budget ([OMB Circular A-123](#)), “Management’s Responsibility for Enterprise Risk Management and Internal Control.”

1.3.16. [OMB Circular A-129](#), “Policies for Federal Credit Programs and Non-Tax Receivables.”

2.0 DoD STATUTORY AUTHORITIES FOR USE OF GRANTS

A DoD Component may use grants under statutory authorities granted to the Secretary of Defense that the Secretary properly delegates to Heads of DoD Components, or under statutory authorities granted directly to the Heads of DoD Components. The types of statutory authority DoD may utilize to award assistance instruments are provided in 32 CFR § 21.420.

3.0 GRANTS FINANCIAL MANAGEMENT

3.1 Financial Management Information System

3.1.1. The DoD Component must ensure the availability of a financial management information system capable of recording and monitoring grant transactions and providing, by transaction, a delineation of the federal and grantee breakout of program costs.

3.1.2. The system must enable the DoD Component to [quickly identify](#) the basic categories of funds involved, along with the related obligation and expenditure rates, and provide for ensuring fund availability prior to awarding financial assistance and obligating funds.

3.2 Record Retention

The DoD Component must maintain grant-supporting financial management documentation in accordance with the requirements in Volume 1, Chapter 9.

3.3 Recording and Reviewing Commitments and Obligations

Accounting for funds under a grant must start with the commitment of funds prior to their obligation by an awarding official. The awarding official must be a DoD grants or agreements officer with a statement of appointment that meets the requirement in 32 CFR §§ 21.435-21.465. After funds commitment, budgetary obligations must be recorded upon execution of the agreement or other obligating document approved by the awarding official that sets out the amount and purpose of the award, the performance period, the performance obligations of the parties to the award, and other terms. A legal obligation to disburse grant funds, in accordance with the terms of the agreement, occurs upon execution of an agreement or other obligating document. Refer to Volume 3, Chapter 8 for more information.

3.4 Payments

Volume 10, Chapter 19 provides detailed payment provisions for grants and other instruments of assistance.

3.4.1. Timing and Frequency

3.4.1.1. 32 CFR §22.810 prescribes the timing and frequency of grant payments. In general, it is Governmentwide policy to minimize the time elapsing between any payment of funds to a grantee and the grantee's disbursement of the funds for program purposes. For States,

payments are governed by Treasury-State Cash Management Improvement Act agreements and default procedures codified in 31 CFR 205 and I TFM 4A - 2000 Overall Disbursing Rules for All Federal Agencies.

3.4.1.2. Payments made to grantees to cover part or all of their anticipated expenses or advance payments must be accounted for as advances by the assisting DoD Component until the grantee has performed under the award, i.e., until the grantee meets the requirements [that](#) allow it to use the funds in accordance with the grant agreement. Refer to Volume 4, Chapter 5 for more information.

3.4.1.3. Requiring payments as reimbursements is the preferred method when the requirements in paragraphs [3.4.1.1](#) and [3.4.1.2](#) cannot be met, the DoD Component sets a specific grant condition per 2 CFR § 200.207, or the grantee requests payment by reimbursement. Reimbursement may be used on any grant for construction, or if the major portion of the construction project is accomplished through private market financing or Federal loans, and the Federal award constitutes a minor portion of the project.

3.4.2. Method

It is a Government-wide requirement to use electronic funds transfer (EFT) in the payment of any grant to the [maximum extent practicable](#) under 32 CFR §22.810.

3.4.3. Process

Disbursing offices must follow the policies and procedures in Volume 10, Chapter 19 for payment provisions for grants.

3.4.4. Withholding Payments

The DoD Component may withhold payments for allowable costs when:

3.4.4.1. The grantee failed to comply with the project objectives, Federal statutes, regulations, or the terms and conditions of the Federal award. If the grant is not otherwise suspended, the DoD Component must release the payment to the grantee upon the grantee's compliance. If the grant is suspended, the DoD Component will make payment adjustments according to 2 CFR § 200.342;

3.4.4.2. The grantee is delinquent in a debt to the United States as defined in OMB Circular A-129. In this situation, the DoD Component must provide reasonable notice to the grantee that payments will not be made for obligations incurred after a specified date until the indebtedness to the Federal Government is paid; or

3.4.4.3. The grantee has a sustained audit finding which resulted in amounts due to DoD. The DoD Component must promptly record the amount due from the grantee upon entitlement as an accounts receivable, even if the decision to collect is subject to administrative

appeal or litigation. Interest must begin to accrue no later than 30 days after the date the grantee was notified of the debt and continues to accrue while an appeal is underway.

3.4.5. Interest from Advanced Payments

A DoD Component may allow grantees to retain interest earned up to \$500 per year for the grantee's administrative expenses. Any additional interest earned on DoD advance payments, required to be deposited in interest-bearing accounts, must be remitted annually to DoD using either an Automated Clearing House network or a Fedwire Funds Service payment.

3.5 Recording of Expense

3.5.1. When the grantee that received the advance has performed under the grant, the DoD Component must record an expense in an amount equal to the cost of the services performed or cost incurred and reduce the advance account by that amount. The grantee must provide sufficient documentation to support the cost of the services performed or cost incurred, consistent with the grant.

3.5.2. Payments to grantees as reimbursement for work performed or costs incurred must be accounted for as expenditures and as expenses incurred, or as reductions of liabilities if the expenses were recorded previously.

3.6 Accruals

The DoD Component must recognize, and report balances due or advanced to grantees at the end of the reporting period and apply cost-benefit considerations to the process of estimating and validating accruals.

3.6.1. Accrual estimates must be treated as follows:

3.6.1.1. Amounts issued as advances must be adjusted, even if grantees have not yet reported expenses incurred; and

3.6.1.2. Where there is no advance or no remaining advance, the DoD Component must estimate amounts payable to grantees.

3.6.2. The DoD Component must document and maintain support for the data and assumptions used to develop grant accrual estimates and follow internal control guidance in FASAB Technical Release 12.

3.7 Accounts Receivable

3.7.1. At the termination or closeout of a grant, disallowed expenses, improperly applied funds, unused funds, and any amount due to the DoD according to the grant terms and conditions must be established as an accounts receivable by the DoD Component.

3.7.2. When a grantee has a sustained audit finding [that](#) resulted in amounts due to DoD, the DoD Component must promptly record the amount due from the grantee upon entitlement as an accounts receivable, even if the decision to collect is subject to administrative appeal or litigation. Interest must begin to accrue no later than 30 days after the date the grantee was notified of the debt and continues to accrue while an appeal is underway.

3.8 Debt Collection

A debt is established when a DoD Component determines that a grantee was paid an amount in excess of how much a grantee is entitled under the terms and conditions of the grant. The treatment of debt collection is described in Volume 10, Chapter 19, and Volume 16, Chapters 2 and 6.

4.0 REAL PROPERTY AND EQUIPMENT

4.1 Grantee Purchased Real Property or Equipment

A DoD Component must provide prior approval to grantees to purchase real property or equipment with federal funds. Generally, title to real property or equipment vests with the grantee upon the grantee's acquisition and DoD does not account for its reversionary interest in real property and equipment ([32 CFR 34.21\(a\) and \(b\)](#)). The title must be conditional, subject to the following:

4.1.1. The grantee must use the real property or equipment for the authorized purposes of the grant until funding ceases, or until the property or equipment is no longer needed for the purpose of the grant. Use in other projects must be limited to those under federally sponsored projects (i.e., awards) or programs that have purposes consistent with those authorized for support by the DoD Component;

4.1.2. The grantee cannot encumber the property without approval of the DoD Component; and

* 4.1.3. The grantee must use the real property or equipment following the terms of the grant and dispose of the property or equipment following disposition instructions from the DoD Component, consistent with [32 CFR § 34.21\(d\) and \(e\)](#).

4.1.4. At grant close-out, the DoD Component must follow paragraph 3.7 to account for any outstanding proceeds from the disposition of real property or equipment.

4.2 Federally-owned Property

Title to Federally-owned property remains vested in the DoD ([32 CFR § 34.22](#)) and:

4.2.1. The DoD Component must establish appropriate general ledger accounting control and property records and include the assets in its financial statements. The asset must be recorded

at acquisition cost to the grantee, and depreciated in accordance with guidance in Volume 4, Chapters 24 and 25.

4.2.2. If DoD has no further need for the property, it must declare the property excess and report it for disposal following the instructions in Volume 4, Chapter 24 for Excess Items Disposition, unless the DoD Component has statutory authority to dispose of the property by alternative methods.

4.3 Exempt Federally-owned Property

Exempt Federally owned property means property acquired under a grant when the DoD has chosen to vest title to the property to the grantee without further obligation to the Federal government, based on explicit terms and conditions of the grant. A DoD Component may exercise this option only when statutory authority exists.

5.0 SUPPLIES

Title to supplies will vest in the grantee upon acquisition. If there is a residual inventory of unused supplies exceeding \$5,000 in total aggregate value upon termination or completion of the project or program and the supplies are not needed for any other Federal award, the grantee must retain the supplies for use on other activities or sell them. In either case, the grantee must compensate DoD, following the requirements in [32 CFR § 34.24](#). The grantee may deduct and retain \$500 or ten percent of the proceeds, whichever is less, for selling and handling expenses. At grant close-out, the DoD Component must follow paragraph 3.7 to account for compensation received from grantee residual inventory.

6.0 INTANGIBLE PROPERTY

Intangible property applies to a patent, patent application, copyright, or other intangible property acquired, but not developed or produced, under the grant. When the grantee no longer needs the intangible property for the originally authorized grant purpose, the DoD Component must arrange for the disposition of the intangible property, following the requirements in [32 CFR § 34.25](#). At grant close-out, the DoD Component must follow paragraph 3.7 to account for the remaining proceeds from disposition of intangible property.

7.0 OTHER REQUIRED REPORTING

7.1 Improper Payment

7.1.1. An improper payment is any payment that should not have been made or that was made in an incorrect amount under statutory, contractual, administrative, or other legally applicable requirements. An improper payment also includes any payment that was made to an ineligible recipient or for an ineligible good or service, or payments for goods or services not received (except for such payments authorized by law).

7.1.2. Questioned costs, including those identified in audits, are not an improper payment until reviewed and confirmed to be improper as defined in [*OMB Circular A-123 Appendix C*](#).

7.1.3. Grant programs are subject to the payment integrity requirements in Volume 4, Chapter 14.

7.2 Public-Private Partnership Reporting

Grants which meet the definition of public-private partnerships (P3), risk-sharing arrangements or transactions with expected lives greater than 5 years between public and private sector entities, may be subject to disclosure under SFFAS 49. Volume 6B, Chapter 10 and SFFAS 49 provide detailed information about P3 reporting.

7.3 Grants, Loans, Credits, and Contingent Liabilities Involving Foreigners

1 TFM 2 - 4500 requires electronic submission of several reports pertaining to foreign obligors to [the](#) Treasury. Volume 6A, Chapter 13 and Volume 16, Chapter 6 provide more details.

FINANCIAL MANAGEMENT REGULATION

CHAPTER 6: "ARCHIVED"

**UNDER SECRETARY OF DEFENSE
(COMPTROLLER)**

VOLUME 12, CHAPTER 7: “FINANCIAL LIABILITY FOR GOVERNMENT PROPERTY LOST, DAMAGED, DESTROYED, OR STOLEN”

SUMMARY OF MAJOR CHANGES

Changes are identified in this table and also denoted by [blue font](#).

Substantive revisions are denoted by an asterisk (*) symbol preceding the section, paragraph, table, or figure that includes the revision.

Unless otherwise noted, chapters referenced are contained in this volume.

Hyperlinks are denoted by [bold, italic, blue, and underlined font](#).

The previous version dated [March 2014](#) is archived.

PARAGRAPH	EXPLANATION OF CHANGE/REVISION	PURPOSE
1.2 (070102)	Added an authoritative guidance paragraph.	Addition
6.2 (070602)	Replaced the requirement to disclose Social Security Number on the DoD (DD) Form 200, “Financial Liability Investigation of Property Loss,” with the Electronic Data Interchange Personal Identifier in accordance with DoD Instruction 1000.30, “Reduction of Social Security Number (SSN) Use Within DoD.” Added the respective block numbers on DD Form 200 to assist with the preparation of the form.	Revision/ Addition
Table 7.1 (deleted)	Deleted Table 7.1 (picture of DD Form 200) and added a hyperlink to access the form.	Deletion/ Addition
10.0 (0710)	Added and moved all definitions within the chapter to this section to define and clarify commonly used terms in the chapter.	Addition/ Revision
Multiple	Rearranged content of the chapter to flow in a logical sequence and renumbered sections and (sub)paragraphs accordingly.	Revision
Multiple	Replaced and updated several cancelled or outdated references and required forms.	Revision

CHAPTER 7

**FINANCIAL LIABILITY FOR GOVERNMENT PROPERTY
LOST, DAMAGED, DESTROYED, OR STOLEN**1.0 **GENERAL** (0701)

1.1 Purpose (070101)

This chapter prescribes **Department of Defense (DoD) general requirements and responsibilities for determining accountability for** financial liability for lost, damaged, destroyed or stolen government-owned property, including supply system materiel, equipment, and real property:

1.1.1. Inquire, research, and investigate the causes of the loss, damage, destruction, or theft of government property.

1.1.2. Assess financial liability with respect to lost, damaged, destroyed, or stolen government property.

1.1.3. Account for loss, damage, destruction, or theft of government property; determine the responsibility and amount of financial liability of those found to be culpable for such financial losses; provide relief from accountability; and establish debts resulting from the assessment of financial liability.

1.1.4. Initiate DoD **(DD) Form 200**, “Financial Liability Investigation of Property Loss.”

1.1.5. The requirements **within this chapter** apply to all government property regardless of whether the government property is recorded in an **Accountable Property System of Record (APSR)**.

1.1.6. This chapter does not apply to loss, damage, destruction, or theft of Government **Furnished Property**, Contractor Acquired Property, and property acquired by a contractor as a result of partial, advance, progress or performance based payments in the possession of a third party, to include contractors. Loss, damage, destruction, or theft of such property must be processed in accordance with the terms and conditions of the accountable contract or third party agreement to which the lost, damaged, destroyed, or stolen property was accountable.

***1.2 Authoritative Guidance** (070102)

The financial management policy and related requirements prescribed by this chapter are in accordance with the applicable provisions of:

1.2.1. Title 10 United States Code, section 2775 (**10 U.S.C. § 2775**), “Liability of members assigned to military housing;”

- 1.2.2. 10 U.S.C. §§ 801 - 806, “General Provisions;”
- 1.2.3. 18 U.S.C. § 641, “Public money, property or records;”
- 1.2.4. 18 U.S.C. §1361, “Government property or contracts;”
- 1.2.5. Federal Acquisition Regulation (FAR Subpart 45.101), “Definitions;”
- 1.2.6. FAR Subpart 52.245-1, “Government Property;”
- 1.2.7. DoD Instruction 1000.30 (DoDI 1000.30), “Reduction of Social Security Number (SSN) Use Within DoD;”
- 1.2.8. DoDI 4161.02, “Accountability and Management of Government Contract Property;”
- 1.2.9. DoDI 4140.01, “DoD Supply Chain Materiel Management Policy;”
- 1.2.10. DoDI 5000.64, “Accountability and Management of DoD Equipment and Other Accountable Property;”
- 1.2.11. DoD Manual (DoDM) 4140.01, Volume 5 (DoDM 4140.01-V5), “DoD Supply Chain Materiel Management Procedures: Delivery of Materiel;”
- 1.2.12. DoDM 4140.01-VII, “DoD Supply Chain Materiel Management Procedures: Inventory Accountability And Special Management and Handling;”
- 1.2.13. DoDM 4140.25-V9, “DoD Management of Energy Commodities: Defense Fuel Support Point (DFSP) Bulk Petroleum Inventory Accounting;”
- 1.2.14. DoDM 4165.63, “DoD Housing Management;”
- 1.2.15. DoDM 4160.21-VI, “Defense Materiel Disposition Disposal Guidance and Procedures;”
- 1.2.16. Defense Logistics Manual 4000.25, “Defense Logistics Management System”, Volume 2 (DLM 4000.25-V2), “Supply Standards and Procedures;” and
- 1.2.17. Defense Transportation Regulation 4500.9-R, Part II, “Cargo Movement.”

2.0 GENERAL REQUIREMENTS (0702)

2.1 [General](#) Responsibilities (070101)

2.1.1. Under Secretary of Defense (Comptroller). The Under Secretary of Defense (Comptroller) is responsible for financial policies regarding financial liability for government property lost, damaged, destroyed, or stolen.

2.1.2. DoD Components. The DoD Components are responsible for ensuring that the following policies and procedures are implemented:

2.1.2.1. Determining and assessing the amount of financial liability of those responsible for such losses;

2.1.2.2. Mitigating, reducing, and/or relieving financial liability in appropriate cases;

2.1.2.3. Establishing debts resulting from the assessment of financial liability and referring them for appropriate collection action.

2.2 Initiation of General Inquiries and Investigations (070202)

2.2.1. Upon discovery of loss, damage, destruction, or theft of government-owned property (real or personal) of any value, the first line supervisor or, in the case of military, immediate superior within the chain of command, [must](#) conduct a [general](#) inquiry to determine if the situation warrants a more formal inquiry, i.e., an investigation. A DD Form 200 is not required for [general](#) inquiries. Loss, damage, destruction, or theft of [supply system](#) materiel [must](#) be processed in accordance with [section 8.0](#).

2.2.2. An investigation [must](#) be conducted for all loss, damage, destruction, or theft of government-owned equipment with initial [unit](#) acquisition cost (value) of \$5000 or greater; all sensitive, classified, or leased (capital [lease](#)) property regardless of initial acquisition cost; and any real property (see [DoDI 5000.64](#) for more information). Investigations may also be conducted when circumstances warrant. For example, when the loss, damage, destruction or thefts of small amounts of property occur frequently enough to suggest a pattern of wrongdoing, then an investigation may be warranted.

2.2.3. The [approving authority](#) is responsible for establishing procedures and designating a person, typically the [accountable property officer](#), [real property accountable officer](#), or [reviewing authority](#) (for supply system stocks or “materiel”), to initiate and conduct the investigation, in accordance with agency procedures. Investigations are not limited to the thresholds, but may be conducted if the approving authority deems a formal investigation necessary.

2.2.4. At a minimum, investigations must [address the following information](#):

2.2.4.1. What happened?

2.2.4.2. How it happened?

2.2.4.3. Where it happened?

2.2.4.4. Who was involved?

2.2.4.5. When it happened?

2.2.4.6. Any evidence of negligence, willful misconduct, or deliberate unauthorized use or disposition of the property.

2.2.5. Evidence of Negligence.

2.2.5.1. When inquiring into the loss, damage, destruction, or theft of government property, the first consideration is whether there is evidence of negligence. [Examples of questions that can be asked in order to determine whether evidence of negligence exists are](#): “Would a reasonably prudent individual have acted in this manner?” “Were there procedures governing the use of the property, and were they followed?” “What were the circumstances that existed when the loss actually occurred?” “Was the individual on the job?” [Furthermore, an example of a given scenario could be](#), if a dump truck is parked on an incline, a reasonable person would be expected to set the hand brake and leave the vehicle in park. Using blocks under the wheels might or might not be required. If the individual failed to set the brake and/or use blocks under the wheels and the truck rolled down the incline and was damaged, this could be considered evidence of negligence. A reasonably prudent person would be expected to take precautions.

2.2.5.2. When loss, damage, destruction of government quarters is involved, a distinction must be made between simple and gross negligence. Evidence of simple or gross negligence depends on the conduct of the individual. If the individual failed to exercise precautions or good judgment, then simple negligence applies. If the individual’s conduct was characterized by a reckless, deliberate, or wanton disregard of foreseeable consequences, then gross negligence applies.

2.2.5.3. Evidence of whether simple or gross negligence was the proximate cause of the loss, damage, or destruction is based on the facts and circumstances and [must](#) be determined during the general inquiry and documented during the investigation process.

2.2.6. The DD Form 200 is required documentation for investigations and [must](#) be used to document the facts and circumstances of the loss, damage, destruction, or theft. The person conducting the investigation [must](#) complete blocks 1 through 11 of the DD Form 200, as described in section 6.0.

2.2.7. The DD Form 200 is not required when:

2.2.7.1. An individual voluntarily makes restitution to the government for the full amount and classified or sensitive property is not involved.

2.2.7.2. The damage involves a government-owned vehicle. In such cases, an accident investigation report may be used to document an inquiry in lieu of a DD Form 200. However, when the documentation clearly indicates that negligence or abuse was involved, or if a claim against the government is possible, a DD Form 200 **must** be prepared.

2.2.7.3. The loss involves shipping and transportation discrepancies attributed to carriers, which are processed and reported according to [DLM 4000.25 V-2, Chapter 17](#). However, item discrepancy reports should be reviewed and evaluated to determine if the circumstances of the loss or damage appear to have been caused by negligence or abuse by DoD personnel. If so, a DD Form 200, [Standard Form 364](#), “Report of Discrepancy (ROD),” and [DD Form 361](#), “Transportation Discrepancy Report” **must** be prepared.

2.3 Voluntary Payments (070203)

Individuals may voluntarily choose to pay the government for lost, damaged, or destroyed government property any time prior to involuntary collection from their pay. Individuals offering the payment do so of their own volition. The government does not seek any advantage nor forego any right by accepting a voluntary payment. An individual cannot be coerced or threatened with adverse action if payment is not voluntarily made. Individuals must be made aware of the effect of making a voluntary payment. That is, it may not be later withdrawn, avenues for relief will no longer be available, and voluntary payment does not preclude other administrative or disciplinary action. Individuals offering to pay in excess of basic pay for one month by military members or one-twelfth of annual pay by civilian employees must be made aware that their liability may be a lesser assessment as a result of an investigation. Voluntary payments may be made in cash, by check, or through payroll deduction.

2.4 Review (070204)

Upon completion of the investigation, the DD Form 200 **must** be forwarded to the appointing authority for review. The appointing authority **must** determine if a financial liability officer or financial liability board is needed to conduct an investigation. The general criteria for appointing a financial liability officer are in [subparagraph 4.2.1](#). The criteria for appointing a financial liability officer for inventory losses are in [paragraph 8.8](#). General Counsel and/or the member’s commander must be consulted before statements are taken from anyone if there is a suspected violation of the Uniform Code of Military Justice ([10 U.S.C. §§ 801 – 806](#)).

2.5 Evidence of Theft (070205)

Cases involving stolen government-owned property must be referred to local security and/or law enforcement officials, in accordance with agency procedures.

2.6 Financial Liability Officer Investigations (070206)

The appointing authority may appoint a financial liability officer to determine whether the facts and circumstances support the findings and recommendations of the individual completing blocks 9 and 10 on the DD Form 200. Qualifications, duties, and responsibilities of financial liability officers are discussed in section 4.0.

2.7 Financial Liability Board (070207)

The appointing authority may appoint a financial liability board in lieu of an officer. The reasons for appointment of a board include the complexity, size, or unique type of loss due to negligence or abuse. The composition, objectives, and functions of the board are discussed in section 5.0.

2.8 Determination of Financial Loss (070208)

2.8.1. Computation of Financial Loss. A computation of the financial loss to the government **must** be made when there is evidence to indicate that the loss was proximately caused by negligence or abuse.

2.8.1.1. When damaged property or items can be repaired economically or restored in condition to that immediately prior to the loss, the loss to the government **must** be based on the cost of repair or restoration. If the cost to repair or restore the property exceeds the cost to replace the property, the loss to the government **must** be as determined in subparagraph 2.8.1.2. For real property, the plant replacement value will be used to value the asset. If the cost to repair or restore the real property exceeds the plant replacement value, then the cost to acquire and install a new asset will be the amount of loss.

2.8.1.2. When property is lost, damaged, destroyed, or stolen, and the property cannot be replaced, the amount of the loss **must** be the fair market value of the property immediately before the loss. When a fair market value cannot readily be determined, the cost of repairs or an estimate of the repairs may be used (can be obtained from technical manuals or other reliable sources); or the acquisition cost or standard price, adjusted for depreciation may be used (based on the specified depreciation period for such item or if such a period has not been specified, based on its estimated useful life). Depreciation **must** be computed using the straight-line method of depreciation. In no case should property be depreciated below its scrap value. For property that is damaged beyond economical repair, the scrap or salvage value of the property **must** be used to reduce the loss to the government.

2.8.2. Liability. Financial liability of individuals is based on the actual loss to the government, as computed in subparagraph 2.8.1. When liability is limited by the individual's rate of pay, the amount of the actual loss to the government still is computed. However, in such cases, the financial liability of the individual either is the actual amount of the loss or the limitation based upon the rate of pay, whichever is less.

2.8.3. Collective Liability. If more than one individual is found financially liable for the loss, damage, destruction, or theft of government property, the individuals **must** be collectively **held** liable for the loss to the government. The government cannot collect more than the total amount of assessed liability. Therefore, the approving authority who assessed financial liability will decide how much to collect from each individual. Among the factors to be considered in taking collection action from each liable individual are the degree of each individual's responsibility for the loss, damage, destruction, or theft and the ability to collect from the responsible individual.

2.9 Notification and Examination (070209)

When financial liability is recommended, the individual **must** be notified and given the opportunity to examine the findings and recommendations, obtain representation, make a rebuttal statement, and present any mitigating factors that may have contributed to the negligence or abuse. If damage to government housing is involved, an individual also **must** be given the opportunity to request a waiver of the financial liability **in accordance with 10 U.S.C. § 2775**.

3.0 APPROVING AND APPOINTING AUTHORITY (0703)

3.1 Duties and Responsibilities (070301)

3.1.1. Approving Authority. DoD Component regulations **must** designate those individuals who may be an approving authority. The approving authority's responsibilities may be delegated; however, the delegations must be in writing. The approving authority may also act as the appointing authority or designate an appointing authority in writing. The approving authority **must**:

3.1.1.1. Designate an appointing authority, when needed.

3.1.1.2. Disqualify oneself when a conflict of interest is possible, e.g., because the loss relates to property for which he or she is responsible and/or accountable.

3.1.1.3. Establish procedures and designate a person to initiate and conduct an inquiry immediately after the loss, damage, destruction, or theft is discovered (see **subparagraph 2.2.1**).

3.1.1.4. Ensure that all DD Forms 200 received are accurate, complete **and signed by the appropriate individuals**. Evaluate each DD Form 200 and either approve recommendations to assess financial liability or relieve those involved from liability, responsibility or accountability. The approving authority approves or disapproves all DD Forms 200, regardless of dollar value, unless otherwise delegated in writing.

3.1.1.5. Ensure that all gains and losses that require a formal investigation are promptly and thoroughly investigated. The system used to process DD Forms 200 must be frequently reviewed to evaluate the accuracy and timeliness of the investigations.

3.1.1.6. Ensure that DD Forms 200 are initiated, processed and adjudicated within the time limits that may be established by the DoD Components.

3.1.1.7. Require, if delays occur in the initiating or processing of a DD Form 200, a written explanation of the reason for the delay and take appropriate corrective actions.

3.1.1.8. Ensure that persons held financially liable are so notified, informed of their rights (including waiver rights if government housing is involved), and given the opportunity to inspect a copy of the DD Form 200.

3.1.1.9. Personally evaluate each DD Form 200 when there is evidence of negligence, abuse, or theft.

3.1.1.10. Determine whether to delegate to the appointing authority the authority to approve or disapprove a DD Form 200 when there is no evidence of negligence or abuse or theft.

3.1.1.11. Ensure, when financial liability is recommended, or when recommendations appear to be inconsistent with findings, that a judge advocate or civilian attorney has reviewed the findings and provided an opinion on the adequacy of evidence and its relationship to the findings and recommendations. This legal review must be included as part of the record with the DD Form 200 and completed before final action is taken by the approving authority.

3.1.1.12. Ensure that corrections of any attested entries are properly initialed and documented.

3.1.1.13. Overrule, when appropriate, the recommendations of the appointing authority and the financial liability officer. When this action results in the assessment of financial liability, the individuals not previously recommended for liability must be advised of their rights and afforded an opportunity to exercise their rights.

3.1.1.14. Formally notify individuals against whom he or she has approved financial liability.

3.1.2. Appointing Authority. The appointing authority is designated in writing by the approving authority. The approving authority also may act as appointing authority. The appointing authority is responsible for the following tasks:

3.1.2.1. Appoint a financial liability officer, if needed.

3.1.2.2. Appoint a board in lieu of a financial liability officer to conduct the investigation, if warranted. Reasons for considering appointment of a board include complexity, size, or unique type of loss due to negligence or abuse (see section 5.0).

3.1.2.3. Provide administrative guidance to the financial liability officer or the board.

3.1.2.4. Review DD Forms 200 for accuracy and compliance with this Regulation.

3.1.2.5. Approve or disapprove the recommendations of the financial liability officer or the board, and forward personal recommendations to the approving authority.

3.1.2.6. Approve or disapprove DD Forms 200 when there is no evidence of negligence or abuse and authorization has been delegated in writing by the approving authority.

3.1.2.7. Approve or disapprove DD Forms 200 when the loss, damage, destruction or theft is less than \$100,000 and authorization has been delegated in writing by the approving authority.

3.2 [Due Process](#) (070302)

The appointing and approving authorities must act on the DD Form 200 once an individual has been properly notified and given the opportunity to respond to the findings. Failure of involved individuals to respond to recommendations of financial liability is not a sufficient reason to delay the approval process if the individuals were given a reasonable opportunity to reply, as discussed in [subparagraph 4.3.6](#).

4.0 FINANCIAL LIABILITY OFFICER (0704)

4.1 Criteria (070401)

4.1.1. Appointment of Financial Liability Officer. The [approving or](#) appointing authority should appoint a financial liability officer to conduct a formal investigation when:

4.1.1.1. Recommended by an accountable officer.

4.1.1.2. Directed by higher authority.

4.1.1.3. Deemed appropriate by the [approving or](#) appointing authority (e.g., repetitive losses, evidence of negligence or abuse or large dollar losses).

4.1.2. Financial Liability Officer Duty. Unless operational requirements clearly dictate otherwise, a financial liability officer [must](#) perform this function as a primary duty until the investigation has been completed.

4.2 Financial Liability Officer Qualifications (070402)

4.2.1. Selection Criteria. A financial liability officer is selected based on training, experience, competence, and ability to conduct independent and objective investigations.

4.2.2. Persons Eligible. The financial liability officer **must** be a commissioned officer; warrant officer; enlisted member in the grade of **Enlisted Rank (E)**-7, E-8, or E-9; or a civilian employee **General Schedule (GS)** -07, or above. The financial liability officer **must** be senior to the individuals directly involved in the discrepancy.

4.2.3. Use of Reserve Component Personnel. Reserve Component commissioned officers, warrant officers, and noncommissioned officers in grades E-7, E-8, or E-9 not on active duty may serve as financial liability officers during Reserve training sessions.

4.2.4. Relationship to Property. A person who is accountable or responsible for, or in any way directly interested in, the property being investigated, **must** not be appointed as a financial liability officer.

4.3 Financial Liability Officer Responsibilities and Duties (070403)

4.3.1. The primary purpose of the DD Form 200 is to determine responsibility for lost, damaged, destroyed, or stolen property. To determine such responsibility, the facts contributing to the loss, damage destruction, or theft must be developed by investigation.

4.3.1.1. The investigation may establish the fact that some other individual is at fault. The financial liability officer **must** not limit an investigation to verifying statements of interested parties. Rather, the financial liability officer **must** perform an investigation as thoroughly as needed, in his or her opinion, to ensure that all facts are fully developed, the interests of the government are fully served, and the rights of the involved individuals are fully protected.

4.3.1.2. An investigation is required to determine responsibility and/or liability without regard to the relationship of the responsible individual to the property. As an example, actions by the accountable property officer or property custodian should be investigated as well as the actions of the property users.

4.3.2. The investigation conducted by the financial liability officer is the critical phase of the process. The financial liability officer should determine the actual facts, not as alleged but as they actually occurred. The financial liability officer's recommendations **must** be evaluated in succeeding reviews; therefore, the recommendations must be supported by the findings and conclusions. **While** conducting an investigation the financial liability officers **must** conduct investigations promptly. They **must** inform the **approving or** appointing authority immediately of all delays experienced. In conducting the investigation, the financial liability officer **must** personally:

4.3.2.1. Scrutinize all available evidence.

4.3.2.2. Interview witnesses and secure statements, ideally in writing, from individuals concerning:

4.3.2.2.1. The cause of the loss, damage, or theft.

4.3.2.2.2. The responsibility for the loss, damage, or theft.

4.3.2.3. Compile evidence substantiating or refuting any statement in block 9 of the DD Form 200.

4.3.2.4. Physically examine the damaged property, if possible, and then release it for repair or disposal. This should be done on the first day of his or her appointment.

4.3.2.5. Consult the [approving or](#) appointing authority for guidance, when needed.

4.3.2.6. Determine the amount of damage as described in [subparagraph 2.8.1](#), if the property has been damaged. Determine the value of the property immediately before its damage if the property is not economically repairable. The accountable officer may be asked to assist if he or she has not been directly involved.

4.3.2.7. Ensure that action is taken to exercise control over the property if the property is recovered during the investigation.

4.3.2.8. Ensure that the total loss to the government is computed correctly.

4.3.2.9. Coordinate actions with the claims investigating officer when the investigation may cover loss, damage, destruction, or theft of government property that is being, has been, or [will](#) be investigated because of attendant events by a claims investigating officer. This includes cases where military personnel or civilian employees, while driving a private vehicle, damage government property and have insurance to pay for part of the loss.

[4.3.3.](#) The financial liability officer should make a determination from the findings and conclusions as to how the loss or damage occurred and whether negligence or abuse was involved.

[4.3.4.](#) After recording the findings and conclusions, the financial liability officer recommendations [must be](#) based on policies set forth in this Regulation. The financial liability officer [must](#) recommend whether to assess financial liability.

[4.3.5.](#) A financial liability officer's findings and recommendations are administrative, not judicial; therefore, the reports are purely advisory; the opinions do not constitute final determinations or legal judgments; and the recommendations are not binding upon appointing and approving authorities.

4.3.6. The financial liability officer **must allow** any person whose conduct or performance of duty may be subject to inquiry or has a direct interest in the inquiry an opportunity to have their position considered, **according to the following**:

4.3.6.1. Give any individual against whom the financial liability officer makes a finding of financial liability a chance to examine the report of investigation after the findings and recommendations have been recorded.

4.3.6.2. Give the individual being recommended for financial liability the opportunity to make a statement.

4.3.6.3. Inform the individual that his or her statement may be used against him or her with regard to financial liability and other administrative and disciplinary actions.

4.3.6.4. Fully consider and attach as an exhibit to the DD Form 200 any statement made by the individual(s).

4.3.6.5. Ensure that the individual being recommended for possible financial liability is aware of his or her rights under Volume 5, Chapter 28, "Management and Collection of Individual Debt."

4.3.6.6. Request the individual to acknowledge his or her understanding of these rights by completing block 16 of the DD Form 200.

4.3.6.7. If appropriate, prepare a statement that the individual recommended for liability refused to sign block 16 of the DD Form 200 after being given the opportunity.

4.3.6.8. Mail a copy of the findings, recommendations, and evidence to the person against whom financial liability is recommended by certified mail with a return receipt requested when the person is not readily available. For example, the person may have been transferred or separated from one of the Military Services.

4.3.6.8.1. A full explanation of the person's rights **must** be included and a reply **must** be requested.

4.3.6.8.2. If the reply is not received within 30 days after the date of mailing, the financial liability officer **must** record this fact and take action to complete the DD Form 200. The record **must** be included in, or appended to, the DD Form 200.

4.3.6.8.3. Any reply received subsequent to the expiration of 30 days **must** be forwarded through the same channels as the DD Form 200 for attachment to the original DD Form 200.

4.3.6.9. Consider any new evidence received after a recommendation has been made. If the financial recommendations remain unchanged, the financial liability officer **must** note that the added evidence was considered and **must** provide a rationale for not changing the decision,

e.g., no new evidence or the matters do not overcome the evidence supporting the original recommendations. The notation **must** be on all copies of the report immediately following the original recommendation. If the financial liability officer makes a change in the original recommendations because of the new evidence, the officer **must** record such change as “Amended Recommendations.” These recommendations should be recorded immediately after the original recommendations.

5.0 FINANCIAL LIABILITY BOARD (0705)

5.1 Financial Liability Board Role (070501)

A financial liability board may be appointed by the appointing authority for the specific **role** of conducting the investigation. The primary purpose of a financial liability board is to provide the appointing and approving authorities with adequate information upon which to assess liability or relieve the involved individual from liability for the loss, damage destruction, or theft of government property. A board provides more resources than an officer to investigate losses that are large, complex, or unique. Financial liability boards are administrative, not judicial. Therefore, their reports are purely advisory, their opinions do not constitute final determinations or legal judgments, and their recommendations are not binding upon appointing and approving authorities. The board members will establish appropriate board procedures, such as voting **and** work priorities.

5.2 Appointment and Composition (070502)

5.2.1. Selection. The members of a financial liability board are selected based on training, experience, competence, and ability to conduct independent and objective investigations. The senior member normally **must** be designated as the Chair. The appointing authority **must** not appoint an individual who was or is accountable or responsible, or has direct interest in the property, including a financial liability officer who may have previously investigated the loss of the property.

5.2.2. Composition. The financial liability board members **must** be commissioned officers; warrant officers; enlisted members in grades E-7, E-8, or E-9; or civilian employees GS-07, or above. The board Chair and a majority of the board **must** normally be senior in rank to the persons directly involved.

5.2.3. Use of Reserve Component Personnel. A source of financial liability board members is Reserve Component commissioned officers; warrant officers; and enlisted members in grades E-7, E-8, or E-9 during their Reserve training sessions.

5.3 Functions (070503)

The following are specific functions of a financial liability board:

5.3.1. Primary Function. The primary function of a financial liability board is to research, develop, assemble, record and analyze all available information relative to the loss. The board is required to formulate and clearly express consistent findings of facts, conclusions, and recommendations.

5.3.2. Collateral Function. A collateral function of the financial liability board, especially when requested by the appointing authority, is to afford a hearing to any person whose conduct or performance of duty may be subject to inquiry or who has direct interest in the inquiry.

5.4 Final Action by the Financial Liability Board (070504)

The board Chair completes his or her action on the DD Form 200 as the financial liability officer and recommends relief from, responsibility, or assessment of financial liability.

6.0 PREPARATION OF DD FORM 200 (0706)

6.1 Purpose of the Form (070601)

The DD Form 200 is used to document the financial liability process for lost, damaged or destroyed government property. When completed, the DD Form 200 is the official document to support the establishment of debts, relief from accountability, and adjustment of accountable property records, supply system stock and financial records.

*6.2 Instructions for Preparation (070602)

6.2.1. **Block 1**. "Date Initiated:" Self-explanatory.

6.2.2. **Block 2**. "Inquiry/Investigation Number:" Number assigned to the inquiry and/or investigation in accordance with DoD Component instructions.

6.2.3. **Block 3**. "Date Loss Discovered:" Self-explanatory.

6.2.4. **Block 4**. "National Stock No:" Enter the National Stock Numbers, manufacturer's part number, or other identification number(s), in numerical sequence. If not applicable, enter the word "none."

6.2.5. **Block 5**. "Item Description:" Enter the nomenclature of the item(s) including any serial number(s), model number(s), and controlled inventory item. If the item is nonstandard, give a brief description sufficient for identification. If only a portion of an end item is damaged, describe the end item, fully, and then describe the damaged parts. If additional space is needed, a continuation sheet may be used. For real property, provide the **Real Property Unique Identifier**, the facility number, address, location, room number, and a description of the damage.

6.2.6. **Block 6.** “Quantity:” Enter the number of units and unit of issue (e.g., 1 each, 2 dozen, 5 pair).

6.2.7. **Block 7.** “Unit Cost:” Enter the cost per unit shown in official catalogs, supply bulletins, or accountable property records. The specific reference should be indicated for audit trail purposes.

6.2.8. **Block 8.** “Total Cost:” Enter the total cost of all units of each article listed (block 6 x block 7). For real property enter the estimated cost to repair/replace or if the cost to repair exceeds the plant replacement value, the estimated cost to purchase and install the asset.

6.2.9. **Block 9.** “Circumstances Under Which Property Was Lost, Damaged or Destroyed:” Enter a complete statement of the facts, including the date and place of the incident. Include the name, grade, and the [Electronic Data Interchange Personal Identifier \(also known as the DoD Identification Number\)](#) of all persons directly involved. The statement must [at the minimum](#) answer five basic questions of who, what, when, where and how (see [subparagraph 2.2.4](#)). Identify any appropriate contract number(s), transaction number(s), control number(s). Add as exhibits and identify alphabetically within the block, as needed.

6.2.10. **Block 10.** “Actions Taken to Correct Circumstances Reported in Block 9 and Prevent Future Occurrences:” Include recommended actions by the accountable property officer and/or property custodian, and if appropriate by the financial liability officer, to the appointing and approving authorities.

6.2.11. **Block 11.** “Individual Completing Blocks 1 Through 10:” Person conducting the inquiry/[investigation](#).

6.2.12. **Block 12.** “Responsible Officer ([Property Record Items](#)) or Reviewing Authority ([Supply Systems Stocks](#)):” See [section 10.0](#) for definitions of “Responsible Officer” and “Reviewing Authority.”

6.2.13. **Block 13.** “Appointing Authority:” See [section 3.0](#) for [duties and responsibilities](#) and [section 10.0](#) for definition of “Appointing Authority.”

6.2.14. **Block 14.** “Approving Authority:” See [section 3.0](#) for [duties and responsibilities](#) and [section 10.0](#) for definition of “Approving Authority.”

6.2.15. **Block 15.** “Financial Liability Officer:” Enter findings and recommendations of the financial liability officer along with a recommendation regarding liability of the involved parties. See [section 4.0](#) for [duties and responsibilities](#) and [section 10.0](#) for definition of “Financial Liability Officer.”

6.2.15.1. An indication that negligence on the part of the individual has not been determined.

6.2.15.2. A recommendation that the investigation be continued at some future time because of extenuating circumstances.

6.2.15.3. Recommendation for corrective actions.

6.2.15.4. Recommendation that the individuals involved in the loss, damage, destruction, or theft, be relieved of responsibility for the property when negligence cannot be established. State the facts on which the recommendations are based. Proper conclusions [must](#) be drawn from available facts, not opinions or suspicions. The financial liability officer must sustain or refute the statements made in block 9 of the DD Form 200 and any other statements that are part of the inquiry and/or investigation. Do not use stereotyped phrases such as “loss or damaged in manner stated.” The financial liability officer [must](#) state in his or her own words how the loss or damage occurred based on the evidence obtained by the investigation.

6.2.15.5. As prescribed in [subparagraph 2.8.1](#), include a computation of charges, when recommending financial liability. The computation should show how depreciation was calculated and other factors used in determining the loss, or reference should be made to the exhibit on which the computation is recorded. The results of the computation [must](#) be entered in block 15.b.

6.2.15.6. Describe the disposition of the property. Once released by the financial liability officer or the appointing authority (when a financial liability officer is not appointed), property considered to be “uneconomically repairable” [must](#) be disposed of in accordance with [DoDM 4160.21-V1](#).

6.2.15.7. Recommendations [must](#) be entered immediately after the findings. The recommendation [must](#) include:

6.2.15.7.1. Financial liability to be assessed or relief from responsibility and accountability. Also, enter this information in block 15.d. For a military member enter monthly basic pay and for a civilian enter one-twelfth of the yearly salary.

6.2.15.7.2. Disposition instructions for any unserviceable property not previously sent to the [Defense Logistics Agency, Disposition Services](#).

6.2.15.7.3. State clearly the full name, grade, [DoD Identification Number](#), and the amount of the charge, when recommending financial liability.

6.2.15.7.4. State if the DD Form 200 may cover the loss, damage, destruction, or theft of property for which a claim is also being processed.

6.2.15.8. The recommendations must represent a logical and equitable decision developed from the facts cited in the evidence and findings.

6.2.15.9. Sign the DD Form 200 in block 15.j, at the end of the recommendations.

6.2.16. **Block 16.** “Individual Charged:” See [subparagraph 4.3.6](#).

6.2.17. **Block 17.** “Accountable Officer:” See [section 10.0](#) for definition of “Accountable Officer.” Record document numbers used to adjust property and financial records. All other blocks are self-explanatory.

7.0 GOVERNMENT HOUSING LIABILITY (0707)

7.1 Purpose (070701)

This section describes the liability of military personnel for the loss, damage, or destruction of government housing (family housing or unaccompanied personnel housing). It describes minimum requirements for assessing financial liability when government housing, including equipment or furnishings therein, is lost, damaged or destroyed. Government housing within the scope of this chapter includes both permanent and temporary quarters either owned by, or controlled by, the U.S. Government.

7.2 [Military Personnel Liability for Government Housing](#) (070702)

7.2.1. Determination of Proximate Cause. A member of a Military Service [must](#) be held liable to the [U.S.](#) for the loss, damage or destruction of family housing or an unaccompanied personnel housing unit assigned to such member, including equipment and furnishings therein, when a determination is made that the loss, damage or destruction was proximately caused by the abuse or negligence of the member, a dependent of the member, or a guest either of the member or the member’s dependent.

7.2.2. Financial Liability of Military Members. Financial liability against military personnel for loss, damage or destruction of government housing, including equipment and furnishings therein, is assessed for the full amount of the loss if the loss, damage or destruction was proximately caused by gross negligence or abuse. Liability of military members for damage to government housing and related equipment and furnishings is prescribed in 10 U.S.C. [§ 2775](#) and DoDM [4165.63](#).

7.2.3. Notification and Examination. Occupants who are assessed financial liability for loss of, or damage to, assigned government housing [must](#) be notified in accordance with [subparagraph 4.3.6](#). A member’s failure to respond [must](#) not preclude the government from completing a DD Form 200.

7.2.4. Determination of Negligence. Determinations must be made on whether the loss or damage to government housing was proximately caused by simple or gross negligence or abuse of the member, the member's dependents, or guests of either. Such a determination leads to the following considerations:

7.2.4.1. When the proximate cause of the loss or damage is determined to be gross negligence or abuse, the financial liability of the member is the total amount of the loss to the government. Where a member's dependent or guest causes a loss or damage through gross negligence or abuse, the member is fully liable for the loss or damage if the member was "on notice" of the particular risk involved and failed to exercise reasonable, available opportunities to prevent or limit the loss or damage. In the absence of evidence to the contrary, the member is presumed to have been "on notice" of any risks attending the activities of family members and guests on the premises.

7.2.4.2. Where simple negligence is determined to be the proximate cause of the loss or damage, the financial liability of the member is limited to an amount equal to basic pay for one month at the rate in effect at the time of the loss, or the amount of the loss, whichever is less.

8.0 SUPPLY SYSTEM MATERIEL (0708)

8.1 Purpose (070801)

This section applies to personal property defined as "supply system materiel," and contains procedures to be followed when inventory losses are discovered. The provisions of this chapter are applicable to all activities accountable for supply system materiel including stock fund and other inventories (e.g., appropriated fund).

8.2 Inventory (070802)

Physical inventories **must** be **performed** in accordance with the provisions contained herein and in [DoDM 4140.03-V5](#).

8.2.1. Discrepancies. Despite the safeguards established by DoD Components in the care and maintenance of supply system stocks, discrepancies may occur between stock record balances and materiel in storage. These discrepancies are subject to post count validation, pre-adjustment research, and causative research, as prescribed in [DLM 4000.25-V2](#).

8.2.2. Adjustments. An adjustment **must** be made to the inventory and financial records to bring those records into balance after appropriate research ([see DLM 4000.25-V2](#)). Care should be taken to process the transactions correctly (e.g., an issue posted twice should be corrected by a reversal (credit transaction), not as a loss of inventory). These types of corrected discrepancies are referred to as resolved discrepancies. For unresolved inventory losses, an inventory adjustment document or a DD Form 200 **must** be used to substantiate adjusting the inventory and accounting records to the stock on hand and to provide relief from property accountability or responsibility.

8.2.3. Causative Research.

8.2.3.1. Causative research **must** be conducted for all inventory discrepancies that meet any of the criteria specified in [DLM 4000.25-V2](#). For inventory discrepancies which do not meet the criteria for performing causative research, a justification for adjusting the inventory and accounting records and relief from property accountability **must** be provided by means of an inventory adjustment document in accordance with [subparagraph 8.2.4](#).

8.2.3.2. The purpose of this research is to establish liability or provide relief from accountability for the accountable property officer and/or property custodian for the loss, damage destruction, or theft of supply system materiel; and determine if the loss to the government was proximately caused by the negligence or abuse of individuals. If an individual accepts responsibility for the loss, damage destruction, or theft of supply system materiel and voluntarily reimburses the government, a DD Form 200 is not required. The collection voucher may be used to adjust the financial and accountable property records.

8.2.4. DD Form 200 Used in Substantiating Inventory Loss Adjustments. When authorized, the reviewing authority may approve physical inventory adjustments equal to or less than \$50,000, when negligence or abuse is not evident or suspected. When negligence or abuse is evident or suspected, the reviewing authority **must** initiate an investigation in accordance with [paragraph 2.2](#). The investigation **must** be used to substantiate adjusting the stock record, and providing relief from property accountability.

8.3 Resolved Inventory Losses (070803)

8.3.1. Accountability. The data developed by post count validation, pre-adjustment research, and causative research **must** be utilized to prepare correcting documentation so that the inventory accounting systems may be updated. These adjustments **must** be processed in accordance with this Regulation and [DLM 4000.25-V2](#).

8.3.2. Statistics. The type of [inventory losses must be categorized and accumulated by category to identify trends or problem areas in accounting or supply system procedures in accordance with DLM 4000.25-V2](#).

8.4 Unresolved Inventory Losses Not Meeting the Criteria for an Investigation (070804)

8.4.1. Accountability. Relief from property accountability and justification for the adjustment of the inventory and accounting records to the inventory on hand **must** be provided by means of an inventory adjustment document. The detail data requirements and procedures for preparing and processing the inventory adjustment document **must** be as prescribed in appropriate DoD Component implementing documents.

8.4.2. Authority for Adjustment. If the cause or probable cause of the discrepancy has not been determined, and the discrepancy does not qualify for causative research, this paragraph **must** be cited as authority for relieving the accountable officer of accountability.

8.4.3. Statistics. See [subparagraph 8.3.2](#).

8.5 Unresolved Inventory Losses - Causative Research Indicates No Personal Responsibility (070805)

8.5.1. Accountability. See [subparagraph 8.4.1](#).

8.5.2. Statistics. See [subparagraph 8.3.2](#).

8.6 Unresolved Inventory Losses - Causative Research Indicates Evidence of Personal Responsibility (070806)

8.6.1. Method of Adjustment. A financial liability investigation [must](#) be used to support adjustment of the inventory and accounting records to the actual inventory on hand and to relieve the accountable officer of accountability.

8.6.2. Statistics. See [subparagraph 8.3.2](#).

8.7 Criteria for an Investigation (070807)

A financial liability investigation [must](#) be initiated on all unresolved inventory discrepancies for each stock number that meets any of the following criteria:

8.7.1. Gains and losses of sensitive items (e.g., drugs designated as controlled substances and assigned to one of five schedules by the Drug Enforcement Agency, Department of Justice, under the Comprehensive Drug Abuse, Prevention, and Control Act of 1970 and any other drugs designated for local control by the Medical Treatment Facility Commander, precious metals, hazardous materiel, small arms, ammunition, explosives) regardless of dollar value.

8.7.2. Gains and losses of classified items, regardless of dollar value.

8.7.3. Gains and losses of pilferable items when the unit price times the quantity is equal to or greater than \$2,500.00 for each stock number.

8.7.4. Any inventory loss when there is an indication or suspicion of fraud, theft or negligence.

8.7.5. Repetitive losses when the cumulative dollar value of the inventory losses equals or exceeds the projected cost of the financial liability investigation.

8.7.6. Bulk petroleum when the loss exceeds the [allowable loss limits per DoDM 4140.25-V9](#).

8.8 Procedures for an Investigation (070808)

8.8.1. Accountability and Responsibility. For unresolved inventory losses which meet the criteria set forth in paragraphs 8.6 and 8.7, a DD Form 200 is required to relieve accountable property officer of property custodian from responsibility, to substantiate adjustment of the inventory and accounting records to the inventory on hand, and to identify problem areas or trends for corrective actions. A financial liability investigation should be conducted by a person who is not directly supervised by the accountable property officer or property custodian. It **must** include, as a minimum, the following actions:

8.8.1.1. Review and evaluate existing procedures for their adequacy in protecting property.

8.8.1.2. Determine compliance with prescribed regulations and procedures.

8.8.1.3. Determine who is involved and what responsibilities they have been assigned.

8.8.1.4. Determine whether simple or gross negligence or abuse is evident.

8.8.1.5. Review of causative research conducted.

8.8.1.6. Determine the cause or the probable cause of the inventory loss.

8.8.1.7. Recommend actions to minimize recurrence of the inventory loss.

8.8.2. Review the Adequacy of Procedures in Protecting Property

8.8.2.1. Physical Security Review. Determine if storage facilities are adequate to ensure proper safeguarding of all items, especially those items that are sensitive, classified, or subject to pilferage. The review should include an evaluation of compliance with regulatory requirements, procedures to determine degree of susceptibility of items to theft or pilferage, and lessons to be learned from losses that have been experienced.

8.8.2.2. Receipt, Storage, and Shipment Procedures Review. Determine if adequate procedures exist to prevent loss from theft or pilferage during receipt, storage, or shipment. The degree of protection should be commensurate with statutory and regulatory requirements, the degree of susceptibility to theft or pilferage, and experienced losses.

8.8.3. Determine Procedural Compliance. Determine if the responsible persons have complied with existing procedures to protect government property. If they have not complied with the procedures, determine if they failed to comply or were instructed not to comply.

9.0 PETROLEUM PRODUCT/LOSSES (0709)

9.1 Loss Expectancy (070901)

Some losses are unavoidable in the handling and storage of volatile products. These losses can be controlled by management actions to limit the rates of loss for such products so that standards are not exceeded. For this reason, DoDM 4140.25-V9, provides allowable loss limits to accommodate product losses normally expected. Losses are categorized as in-transit, operating, and determinable, these categories are defined in DoDM 4140.25-V9. However, any trends, such as a pattern of losses within the allowable percentage, must be researched and investigated.

9.2 In-Transit Losses (070902)

Losses of product received at DoD activities are allowable only when the actual loss is within the allowable loss tolerance percentages. When a loss exceeds the allowable limit, a portion of the loss is not allowable, and the entire loss will be reported as prescribed in DoDM 4140.25-V9. Causative research, as described in subparagraph 8.2.3, must be performed if there is any suspicion of negligence or abuse on the part of U.S. Government personnel who contributed to the loss.

9.3 Storage or Operating Losses (070903)

The allowable storage or operating loss tolerance percentages for various types of petroleum products are prescribed in DoDM 4140.25-V9. When the loss exceeds the allowable limit, a portion of the loss is not allowable; and the entire loss must be researched and reported in accordance with the provisions in section 8.0.

9.4 Determinable Losses (070904)

Losses which occur from determinable causes (such as tank overflows, spills, pipeline breaks, recovered abandoned product, fire or unrecoverable tank bottom) can normally be precluded or greatly minimized by effective management. These losses must be researched and reported in accordance with section 8.0.

*10.0 DEFINITIONS (0710)

No.	List of Definitions	Description of Definitions
1.	Abuse	Willful misconduct or deliberate unauthorized use.
2.	Accountability	The obligation imposed by law, lawful order, or regulation, accepted by an organization or person for keeping accurate records, to ensure control of property, documents or funds, with or without physical possession. The obligation, in this context, refers to the fiduciary duties, responsibilities, and obligations necessary for protecting the public interest; however, it does not necessarily impose personal liability upon an organization or person.
3.	Accountable Property Officer	Comparable terms include: Army -- Supply Support Accountable Officer/Property Book Officer; Navy -- Personal Property Manager; Air Force -- Accountable Officer/Chief of Supply/Chief of Materiel Management; Marine Corps -- Accountable Officer; Defense Logistics Agency -- Accountable Property Officer. An individual who, based on his or her training, knowledge, and experience in property management, accountability, and control procedures, is appointed by proper authority to establish and maintain an organization's accountable property records, systems, and/or financial records, in connection with Government property, irrespective of whether the property is in the individual's possession.
4.	Accountable Property	A term used to identify property recorded in the APSR .
5.	Accountable Property Record	The record contained within the APSR .
6.	Acquisition Cost	The amount, net of both trade and cash discounts, paid for the property, plus transportation costs and other ancillary costs.
7.	Adjustment	Posting to the accountable property records the changes made necessary by the loss, damage, destruction, or theft.

DEFINITIONS (Continued)

No.	List of Definitions	Description of Definitions
8.	Administration	An established process or system to determine whether a responsible party should be held financially liable.
9.	Appointing Authority	An individual designated in writing by the approving authority. The approving authority may act as the appointing authority. The appointing authority appoints financial liability officers, if required; approves or disapproves the recommendations of the accountable property officer, reviewing authority, or financial liability officer; and recommends actions to the approving authority. The appointing authority is normally senior to the reviewing authority, accountable property officer, and financial liability officer.
10.	Approving Authority	The approving authority makes determinations to either relieve involved individuals from responsibility and/or accountability or approve assessment of financial liability. The approving authority may act as the appointing authority or designate an appointing authority in writing. DoD Component regulations must designate who may serve as the approving and appointing authority. The approving authority is normally senior to the appointing authority.
11.	Collective Liability	Where more than one individual may be liable for a debt, both collectively or individually.
12.	Commander	An individual vested with command authority in a DoD Component.

DEFINITIONS (Continued)

No.	List of Definitions	Description of Definitions
13.	Contractor Acquired Property (CAP)	Any property acquired, fabricated, or otherwise provided by the contractor for performing a contract, and to which the Government has title. Although the Government may have title, CAP has not yet been delivered. CAP that is subsequently delivered to the Government for use on the same or another contract is considered Government Furnished Property. See definition 20, "Government Furnished Property."
14.	Controlled Inventory Items	<p>Those items designated as having characteristics which require that they be identified, accounted for, secured, segregated, or handled in a special manner to ensure their safekeeping and integrity. Controlled inventory items in descending order of the degree of control normally exercised are:</p> <p>a. Classified Items. Materiel which requires protection in the interest of national security.</p> <p>b. Sensitive Items. Materiel which requires a high degree of protection and control due to statutory requirement or regulations, such as narcotics and drug abuse items; precious metals; items which are of a high value, highly technical, or a hazardous nature; and small arms, ammunition, explosives, and demolition materiel.</p> <p>c. Pilferable Items. Materiel having a ready resale value or application to personal possession and which is, therefore, especially subject to theft.</p>
15.	Culpability	Determination of fault.
16.	Deliberate Unauthorized Use	Willful or intentional use without right, permit, or authority.
17.	Determination of Proximate Cause	Ascertaining whether the loss, damage, destruction, or theft was proximately caused by an individual's negligence or abuse.
18.	Financial Liability	The statutory obligation of an individual to reimburse the government for lost, damaged, or destroyed government property as a result of negligence or abuse.

DEFINITIONS (Continued)

No.	List of Definitions	Description of Definitions
19.	Financial Liability Officer	An individual who is appointed in writing by the appointing authority to conduct an investigation to determine responsibility for loss, damage, or destruction of government property. Individuals so appointed must not be the accountable property officer, property custodian, or otherwise have any direct interest in the property being investigated. The individual must be a commissioned officer; warrant officer; enlisted member in grades E 7, E 8, or E 9; or a civilian employee GS 07, or above. However, the financial liability officer is normally senior to the person(s) directly involved with the discrepancy. The appointing authority may act as the financial liability officer.
20.	Government Furnished Property	Any property in the possession of, or directly acquired by, the Government and subsequently furnished to the contractor for performance of a contract. CAP that is subsequently delivered to the Government for use on the same or another contract is considered Government Furnished Property. See definition 13, "Contractor Acquired Property."
21.	Gross Negligence	An extreme departure from the course of action to be expected of a reasonably prudent person, all circumstances being considered. The act is characterized by a reckless, deliberate, or wanton disregard of foreseeable consequences.
22.	Inquiry	An informal process of ascertaining the facts, circumstances, and cause of the loss, damage, destruction, or theft.
23.	Inventory	Tangible personal property that is held for sale, in the process of production for sale, or to be consumed in the production of goods for sale or in the provisions of services for a fee.

DEFINITIONS (Continued)

No.	List of Definitions	Description of Definitions
24.	Investigation	A formal proceeding for determining the facts and circumstances related to loss, damage, destruction, or theft of government property; determining the present condition of such property; receiving recommendations as to disposition, retention, and further accountability for such property; or determining the responsibility for loss, gain, damage, or destruction of government property.
25.	Liability	The state of being responsible or answerable for the loss, gain, damage, or destruction of government property.
26.	Negligence	The failure to act as a reasonable prudent person would have acted under similar circumstances. An act or omission that a reasonably prudent person would not have committed or omitted under similar circumstances and which is the proximate cause of the loss of, damage to, or destruction of government property. Failure to comply with existing laws, regulations, or procedures may be considered as evidence of negligence.
27.	Probable Cause	Reasonable grounds for belief.
28.	Property Custodian	Also known as responsible officer. An individual appointed by the accountable property officer, who accepts custodial responsibility for property, typically by signing a hand receipt. The property custodian is directly responsible for the physical custody of accountable property under their control. See Definition 32, “Responsible Officer.”
29.	Proximate Cause	The cause which, in a natural and continuous sequence of events unbroken by a new cause, produced the loss or damage. Without this cause the loss, gain, or damage would not have occurred. It is further defined as the primary moving cause, or the predominate cause, from which the loss, gain, or damage followed as a natural, direct, and immediate consequence.
30.	Record	All forms of information (e.g., narrative, graphic data, and computer memory) registered in either temporary or permanent form so that it can be retrieved, reproduced, or preserved.

DEFINITIONS (Continued)

No.	List of Definitions	Description of Definitions
31.	Research	<p>An investigation of potential or actual discrepancies between physical count and recorded balances. The purpose of the research is to determine the correct balance and determine the cause of discrepancies. There are three types of research:</p> <p>a. Post count Validation. A comparison of physical count with potential recorded balances or another count, with consideration of transactions that have occurred recently. The purpose of post count validation is to determine the validity of the count. Post count validation research ends when the accuracy of the count has been verified or when any necessary recounts have been taken.</p> <p>b. Pre-adjustment Research. A review of potential discrepancies, which involves the consideration of recent transactions and verification of catalog data. The purpose of pre-adjustment research is to determine the correct balance. Pre-adjustment research ends when the balance has been verified or the adjustment quantity determined (see DLM 4000.25-V2).</p> <p>c. Causative Research. An investigation of discrepancies (i.e., gains and losses) consisting of (as a minimum) a complete review of all transactions to include supporting documentation: catalog change actions, shipment discrepancies, and unposted or rejected documentation occurring since the last completed inventory; the last location reconciliation which included quantity; or back one year whichever is sooner. The purpose of causative research is to identify, analyze, and evaluate the cause of inventory discrepancies with the aim of eliminating repetitive errors. Causative research ends when the cause of the discrepancy has been discovered or when, after review of the transactions, no conclusive findings are possible.</p>

DEFINITIONS (Continued)

No.	List of Definitions	Description of Definitions
32.	Responsible Officer	An individual appointed by the accountable property officer, who accepts custodial responsibility for property, typically by signing a hand receipt. The property custodian is directly responsible for the physical custody of accountable property under their control. Also known as property custodian. See definition 28, "Property Custodian."
33.	Responsibility	The requirement placed on an organization or individual who acts as the custodian of another individual's property by controlling, supervising and managing the property in their care.
34.	Reviewing Authority	An individual designated in writing by the approving authority to review and analyze the results of supply system stock research.
35.	Simple Negligence	See definition 26, "Negligence."
36.	Standard Price	The unit price of an item, as it is recorded in the Standard Catalog for use in financial and accountable records of the holding service or agency. (An item not included in the appropriate service or agency pricing catalog must be priced at original cost, if available, or if not known, at fair market value, as stated in paragraph 2.8.1.2).
37.	Stock Record	A perpetual inventory form of record that shows by nomenclature, the quantities received, issued, and the balance on hand. The stock record must show by item the receipt, issue, and transfer of accountability of property; the balances on hand; and such other identifying or stock control data as required. See DLM 4000.25-V2.
38.	Supply System Materiel	Supply system materiel refers to those inventories, wholesale and below wholesale, where a stock record account is required to be maintained. See DLM 4000.25-V2.

DEFINITIONS (Continued)

No.	List of Definitions	Description of Definitions
39.	Value	The financial value of an item. Typically, the original acquisition cost or, in the case of capital equipment, the full cost or net book value.
40.	Willful Misconduct	Intentional damage, destruction, misappropriation, or loss of government property.

CHAPTER 8

FOREIGN NATIONAL EMPLOYEES SEPARATION PAY ACCOUNT, DEFENSE

1.0 GENERAL

1.1 Purpose

This chapter specifies policy applicable to the United States Department of the Treasury (Treasury) “Foreign National Employees Separation Pay Account, Defense” account. Except as provided herein, all separation payments for Department of Defense (DoD) foreign national employees must be made from this account. All amounts that were obligated for such separation payments, but not expended before enactment, must be transferred to this account. Similar amounts obligated after enactment must also be transferred into this account on a quarterly basis. Amounts in the account remain available until expended.

1.2 Authoritative Guidance

1.2.1. The National Defense Authorization Act ([*NDAA for Fiscal Years 1992*](#)) and 1993 authorized a trust fund account to accumulate funds to finance obligations for separation payments to foreign national employees of the DoD. The [*NDAA for Fiscal Year 1995*](#) extended this authorization to include foreign nationals employed by a foreign government, for the benefit of DoD, under any of the following agreements that provide for separation pay: (1) a contract, (2) a treaty, or (3) a memorandum of understanding with a foreign nation. Title 10, United States Code, section 1581 ([*10 U.S.C. § 1581*](#)), “Foreign National Employees Separation Pay Account,” provides for the establishment and operation of this account. The use of the term “foreign national employees” in this chapter is meant to apply to both foreign national direct and indirect hire employees. [*10 U.S.C. § 1592*](#) establishes that funds in the “Foreign National Employees Separation Pay Account, Defense” account may not be used to pay severance pay to a foreign national employed by DoD that provides for payment of separation pay if the separation of the employment of the foreign national is the result of the closing of, or the curtailment of activities at, a United States military facility in that country at the request of the government of that country.

1.2.2. This guidance applies to all DoD appropriations. This guidance does not apply to activities under the Defense Working Capital Fund (DWCF). DWCF activities must continue to make necessary foreign national employee severance payments under established DWCF procedures. This guidance also does not apply to the Foreign Military Sales (FMS) Trust Fund. The FMS Trust Fund activities must continue to accrue and disburse separation pay to their foreign national employees from the FMS Trust Fund. Use of non-appropriated funds (NAF) to pay for severance or separation entitlements, accrued during periods of employment with appropriated funded (APF) entities is prohibited.

2.0 POLICY

2.1 Calculations

Foreign national employees' separation pay must be determined and calculated at the installation level in accordance with applicable host country agreements. These amounts must be obligated in the full amount of the liability that accrues during the fiscal year, without regard to whether the amount is currently payable. Disburse these amounts from the Treasury "Foreign National Employees Separation Pay Account, Defense," 097X8165. The applicable Treasury receipt account is 097X8165.001, "Employing Agency Contributions, Defense." Find additional guidance on obligations for separation allowances for foreign national employees in Volume 3, Chapter 8.

2.2 Pay Accruals

Transfer foreign national employee separation pay accruals (obligations) quarterly to the "Foreign National Employees Separation Pay Account, Defense." Transfer amounts via a Standard Form (SF) 1081, "Voucher and Schedule of Withdrawals and Credits."

2.3 Director, Defense Finance and Accounting Service

The Director, Defense Finance and Accounting Service (DFAS) must administer the account as well as perform related accounting functions.

2.4 Administrative Subdivisions

Establish administrative subdivisions within the account for each DoD Component that budgets for foreign national employee separation pay. Record deposits into and payments from the account in the applicable DoD Component subdivision.

2.5 Disbursements

Except for those organizations operating within the DWCF and the FMS Trust Fund disburse, all separation payments for foreign national employees paid from DoD appropriations from the "Foreign National Employees Separation Pay Account, Defense." Forward requests for authorization to disburse from this account to the appropriate servicing DFAS site. Forward a copy of the backup documents to the DFAS Indianapolis, Enterprise Accounting and Audit Support, Trust Funds Accounting and Reporting Operations mailbox at: dfas.indianapolis-in.jja.mbx.cin-jjra@mail.mil.

2.6 Transfers

Transfers into the "Foreign National Employees Separation Pay Account, Defense" must be made as follows:

2.6.1. **Transfer** all amounts accrued (obligated) for foreign national employee separation pay liability during each fiscal year by any DoD Component into the account quarterly via an SF 1081. Forward a copy of the backup documents to DFAS Indianapolis, Enterprise Accounting and Audit Support, Trust Funds Accounting and Reporting Operations mailbox at: dfas.indianapolis-in.jja.mbx.cin-jjra@mail.mil.

2.6.2. **Obligate and transfer** additional amounts from funds otherwise available to a DoD Component into the account under authority provided in the 10 U.S.C. § 1581, **when** payments from a DoD Component's subdivision of the account exceed the balance in that Component's subdivision. These transfers must equal the amount of the payment in excess of the balance of the DoD Component's subdivision of the account, plus any amounts accrued but not currently payable. **Find** additional guidance on the transfer of a foreign national employee from one DoD Component to another in Volume 3, Chapter 8.

2.6.3. Each DoD Component, in conjunction with the Director, DFAS, or designee, must perform at least an annual review of the amounts in its respective account subdivision and compare such amounts to its foreign national separation pay liabilities to ensure sufficient funds have been obligated for future payment. Both parties must certify the accuracy of the information. **Conduct this** annual review each April. DFAS and the other DoD Components also must maintain an audit trail of accounting records and **ensure** the establishment of an effective internal control system for the entire account.

2.7 Deobligations

Each DoD Component must notify its supporting DFAS site of all deobligation transactions, adjustments, and corrections, in a timely and accurate manner. The respective site will record adjustments and corrections in the accounting records.

2.8 Availability of Deobligated Amounts

Maintain amounts deobligated by DoD Components in the account for 2 years from the date of deobligation for recording, adjusting, and liquidating amounts properly chargeable to the liability of the respective DoD Component. **Cancel** any such deobligated amount remaining after the 2 years.

3.0 SUBSEQUENT DISBURSEMENTS

3.1 Validation of Funds Availability

Local disbursing offices and the Department of State may continue to make disbursements for foreign national employee separation payments, when approved by DFAS, using DoD cross-disbursement procedures. Each DoD Component and non-DoD office (e.g., Department of State) must coordinate its disbursement/cross-disbursement actions with the supporting DFAS site to validate the availability of funds prior to disbursement.

A positive balance in the account is necessary prior to payment; therefore, both DoD and non-DoD activities will verify from the supporting DFAS site that sufficient funds are available prior to submitting vouchers to servicing disbursing offices for employee payments.

3.2 Cross-Disbursements

When cross-disbursements procedures are used, the appropriate DFAS site must be advised prior to each actual disbursement. Find additional guidance on cross-disbursement transactions in Volume 3, Chapter 11.

4.0 RESPONSIBILITIES

4.1 DFAS Indianapolis- Enterprise Accounting and Audit Support, Trust Funds Accounting and Reporting

4.1.1. Oversee the recording and reporting of all required accounting information. Perform the required reporting and reconciliation of cash in the Treasury.

4.1.2. Maintain a general ledger account structure with necessary subsidiary ledgers to support the various accounts. Also accurately maintain subsidiary ledgers and an audit trail. The detailed subsidiary ledgers may remain at the supporting DFAS sites or DoD Component field level activities.

4.1.3. Process all accounting transactions through the accounting network in a timely and accurate manner.

4.1.4. Provide accurate and timely accounting service to customers, e.g., DoD Components, upon request. Coordinate the accounting process with other DFAS sites.

4.1.5. Perform a positive funds control function and alert the DoD Components when necessary to ensure a timely transfer, based on available information.

4.1.6. Provide a point of contact with telephone, email address, and fax numbers to the DoD Components.

4.2 DoD Components

4.2.1. Determine the obligation amount and notify the supporting DFAS site in a timely manner to accomplish the quarterly transfer. This information will be the basis for future SF 1081 processing and for updating the accounting records.

4.2.2. Process the SF 1081 and return a copy to the supporting DFAS site in a timely manner.

4.2.3. Manage all pertinent agreements regarding DoD foreign national employees. Forward a copy of all agreements and/or arrangements, including changes and amendments, to the supporting DFAS site.

4.2.4. Notify the supporting DFAS site of all changes, adjustments, or cancellations of previously reported information at least monthly.

4.2.5. Provide the supporting DFAS site with a point of contact, telephone, email address, fax numbers, and current mailing address.

CHAPTER 9

INTERNATIONAL AGREEMENTS

1.0 OVERVIEW (0901)

1.1 Purpose (090101)

This chapter establishes the financial procedures that shall be followed when DoD Components initiate, develop, and request formal review of international agreements and any annexes, appendices, amendments, or modifications thereto.

2.0 GENERAL (0902)

2.1 International Agreement Document (090201)

The term “international agreement” includes any document, among others, identified as an international agreement, memorandum of understanding, memorandum of agreement, memorandum of arrangement, exchange of notes, exchange of letters, or technical arrangement with one or more foreign governments (including their agencies, instrumentalities, or political subdivisions) or with an international organization. It does not include Foreign Military Sales (FMS) transactions and contracts entered into under the provisions of the Federal Acquisition Regulation or agreements financed with security assistance funds. The latter agreements are implemented under provisions identified in Volume 15.

2.2 International Agreement Design For Coordination (090202)

Each international agreement submitted for coordination must contain a fiscal and legal memorandum in accordance with [DoD Directive 5530.3](#), “International Agreements,” paragraphs 9.3.2 and 9.3.3, or a Summary Statement of Intent (SSOI) in accordance with [DoD Instruction 5000.2](#), “Operation of Defense Acquisition System,” Enclosure 9, section E9.4.1 and the [Defense Acquisition Guidebook](#), Chapter 1 Supplement, The fiscal memorandum shall identify all financial implications of the agreement and provide all information required for a complete understanding and analysis of those implications. The legal memorandum shall identify the statutory authority for any obligation or expenditure of United States (U.S.) appropriated or nonappropriated funds involved in the agreement, as well as the legal basis for any use of U.S. Government property by or on behalf of a foreign government or international organization contemplated by the agreement. The SSOI, in addition to providing information on the fiscal implications and the legal basis for the agreement, provides information such as overview, objective, partner nations, project management, benefits/risks to the U.S., potential industrial base impact, procurement, information security and technology transfer, and points of contact. It is the responsibility of the proponent to provide the references and details supporting the agreement as requested by the approving officials.

3.0 LEGAL CONSIDERATIONS (0903)

3.1 General (090301)

Legal authority information is critical to the preparation of an agreement and is the basis for determining the legal authority for entering into the agreement and subsequent financial requirements. The legal information is used by financial management officials to review applicable international agreements and determine the existence of any special pricing or funding requirements. The legal information normally provides the following, as relevant:

3.1.1. Special Legal Pricing Requirements. The legislative authority to enter into an agreement also may mandate special pricing requirements on the U.S. Thus, the legal authority information shall identify any peculiar pricing that must be reflected in the agreement. In the absence of specific legal authority to price on other than a full cost basis, DoD services and materials shall be priced on a full cost basis.

3.1.2. Legal Requirement for the Disposition of Monies Collected by the Department of Defense (DoD). Amounts collected as reimbursements for DoD material or services or new procurements must be deposited into the miscellaneous receipts of the U.S. Treasury, unless there is specific legal authority to credit collections to a DoD appropriation or fund. Options available for deposit of collections include deposit to an appropriation account, a commercial bank account, or a U.S. Treasury deposit account.

3.1.3. Legal Requirement for Recognition of Obligational Authority. Obligational authority can be created only to the extent that funds are collected and deposited into the U.S. Treasury and appropriated by Congress, unless there is express legal authority to create obligatory authority on a dependable undertaking (contract authority) or other basis.

3.1.4. Special Prohibitions or Requirements on the Use of Appropriated Funds. The legal information section shall identify any special prohibitions or requirements on the use of appropriated funds in support of the agreement. These special prohibitions are in addition to the standing prohibitions discussed in paragraph 4.4. An example of a special requirement is when FMS credit funds are to be used to finance co-production or licensed production in a foreign country. The approval of such use requires the Secretary of State first to advise the Congress. (See section 42(b) of the Arms Export Control Act ([AECA](#)).)

4.0 FISCAL CONSIDERATIONS (0904)

The fiscal information in the fiscal memorandum or SSOI documents the various financial considerations involved in implementing an international agreement. Specific considerations to be included in the fiscal information are as follows:

4.1 Financing Sources for U.S. Costs (090401)

4.1.1. The fiscal information shall include a schedule of proposed financing sources to be used by the sponsoring DoD Component to implement the agreement. Financing sources may be

current appropriations or funds, provision for inclusion in the Future Years Defense Program (FYDP), or a statement of an intent to include in future program and/or budget requests or FYDPs. This information shall be in a schedule form by FY as illustrated in Table 9-1. When current appropriations or funds are to be used as a financing source, the fiscal information section shall identify the specific appropriation(s) or fund(s), the FYDP Program Element, the amount(s) available therein, and the respective amounts to be used. If the source of financing in current appropriations is in two accounts, the applicable sources of financing must be supported by details showing the specific financing appropriation account symbols.

4.1.2. If the proposed international agreement is, in fact, a firm order for goods or services, a formal certification of fund availability shall be included. Applicable funds shall be committed in accordance with Volume 3 of this Regulation.

4.2 Provisions for the Disposition of Funds Collected (090402)

The fiscal information section shall describe the planned disposition of any funds collected from the foreign country or international organization. The four possible alternatives for disposition of amounts collected are as follows:

4.2.1. Reimbursement to Financing DoD Appropriations or Funds. If reimbursements are to be returned to the financing DoD appropriation accounts, the fiscal memorandum or SSOI shall identify the accounts to be reimbursed. This identification need not specify the fiscal year of the appropriations. Normal reimbursable accounting procedures shall apply.

4.2.2. Deposit in the U.S. Treasury as Miscellaneous Receipts. Without statutory authority to reimburse DoD appropriations or funds or to make other disposition, collections shall be deposited into the U.S. Treasury as miscellaneous receipts. The miscellaneous receipt account to be credited with such collections shall be specified by the depositor. DoD accounting systems shall accumulate costs incurred on behalf of the other participant(s), establish an accounts receivable identified to the applicable miscellaneous receipts account and bill such amounts.

4.2.3. Deposit in a U.S. Treasury Deposit Account. If a Treasury deposit account has been established for the agreement, the fiscal memorandum shall identify the appropriate U.S. Treasury account symbol.

4.2.4. Deposit in a Commercial Bank Account

4.2.4.1. If execution of a proposed agreement contemplates use of a commercial bank account for a foreign country's funds, such a provision shall be included in the fiscal memorandum or SSOI with a description of intended bank account operation.

4.2.4.2. For contracts administered by DoD, two funding accounts must be cited: the DoD appropriation account for the U.S. share and the commercial bank account for the share of the other participant(s). The fund citation on the contract shall indicate the commercial bank account rather than the normal accounting classification code. In this case, only the Department can draw down on the commercial bank account.

4.3 Use of Amounts Credited (090403)

Foreign contributions collected by a DoD Component under terms of a cooperative project on a cost sharing basis from a foreign country or North Atlantic Treaty Organization (NATO) may be credited to a financing DoD appropriation or fund. Such contributions, however, are available only for the payment of the share of project expenses allocated to the foreign country or NATO making the contribution. The fiscal memorandum or SSOI shall certify that such collections will be used only for purposes as prescribed herein. Payments for which such amounts are available include the following:

4.3.1. Payments to contractors and other suppliers (including DoD and other participants acting as suppliers) for necessary articles and services.

4.3.2. Payments for any damages and costs resulting from the performance or cancellation of any contract or other obligation.

4.3.3. Payments or reimbursements of other program expenses, including program office overhead and administrative costs.

4.3.4. Refunds to other participants.

4.4 Availability of Financing Sources (090404)

There are two general prohibitions on the use of appropriated funds for international agreements. In addition, the legal section must identify any other applicable prohibitions. It is implicit in the identification of the financing sources set forth in paragraph 4.1, that funds are available. It is desirable, however, to include in the fiscal information section a certification that all legal and policy prohibitions on the use of funds have been complied with. The general prohibitions are as follows:

4.4.1. No funds designated by the Congress for NATO or major non-NATO cooperative research and development under [10 U.S.C. 2350a](#) may be used to procure equipment or services from any foreign government, foreign research organization, or other foreign entity (including NATO participants) to the agreement.

4.4.2. U.S. Government military assistance funds (i.e., Foreign Military Financing, FMS loans, and FMS credits) are not available to finance a foreign participant's share of the cost of a cooperative project authorized by section 27 of the [AECA](#) or a cooperative development project with a major non-NATO ally under [10 U.S.C. 2350a](#).

4.5 Financial and Nonfinancial Contributions (090405)

A contribution to an international agreement may be financial, nonfinancial, or both. Nonfinancial contributions may be in the form of defense articles or defense services needed for the cooperative project. In the event that the contribution is nonfinancial, a price analysis must be made to ensure the valuation assigned to such nonfinancial contribution is fair and reasonable. The fiscal information section shall summarize the results of such an analysis. The price analysis shall be based on prior cost experience for the nonfinancial contribution to be provided. When a foreign contribution is in the form of foreign currency or the awarding of a contract in a foreign country, the foreign currency contribution generally shall be valued at the exchange rate current at the time that the agreement is prepared. There shall be no subsequent modification of the valuation because of changes in the currency exchange rate. The fiscal memorandum or SSOI shall display the value of the currency in terms of U.S. dollars.

4.6 Valuation of Nonfinancial Contributions (090406)

The value of all nonfinancial (background data/information, software, services, military and civilian labor, materiel, equipment, and facilities) contributions to an agreement is to be determined and considered for the evaluation of equitableness of the proposed project. The fiscal memorandum or financial section of the SSOI shall describe the nonfinancial contributions, indicate their value, and state the method used in determining the valuation. The nonfinancial contributions shall also be valued in terms of U.S. dollars in the fiscal memorandum or SSOI. The alternatives for determining the value of nonfinancial contributions are as follows:

4.6.1. Full Costs. Volume 11A, Chapter 1 provides guidance on the specific cost elements and identification methods for pricing sales to private parties. These same methods shall be followed in valuing nonfinancial contributions to an international agreement.

4.6.2. Other Than Full Costs. An agreement that requires the identification or use of less than full cost is normally authorized only when a reciprocal pricing agreement has been entered into by the Department and the other party (parties) to the agreement. The agreement shall demonstrate that costs to be excluded mutually have not been considered by the other party in a determination of equitableness.

4.6.3. Cost Recoupment Waivers. In the event that less than full cost is being identified on the basis of a cost waiver, the legal authority for the waiver, the date of the waiver, and its approving authority must be provided in the SSOI. Copies of such waivers shall be made available on request.

4.7 Reasonable and Necessary Expense (090407)

Any obligation of DoD appropriations under an international agreement must be supported by a showing that it is a reasonable and necessary expense required for the accomplishment of DoD missions, unless the use of DoD funds for other than a DoD mission specifically is authorized by statute.

5.0 PROPOSED AGREEMENT (0905)

5.1 Financial Policies and Appropriate Cross References (090501)

An agreement must contain language that implements the requirements established by U.S. law and regulation. This section discusses the financial policies that must be followed and provides appropriate cross references to other parts of this Regulation that provide more specific guidance.

5.2 Fund Availability Qualification (090502)

5.2.1. Because agreements may involve future years for which the Congress has not yet appropriated funds, all agreements that require that DoD provide financial contributions shall contain a funds availability clause to prevent a premature recording of an obligation against a future year's appropriation.

5.2.2. Examples of typical fund availability qualification clauses inserted in an international agreement follow:

5.2.2.1. "All undertakings of the U.S. Government under this agreement and any annexes, appendices, amendments, or modifications thereto, are expressly subject to the availability of U.S. funds for such purpose."

5.2.2.2. "The obligations of each participant under this agreement are subject to the availability of funds for those purposes."

5.3 Reconciliation of Agreement Dollar Value to Financing Sources (090503)

An international agreement must set forth the dollar value of the agreement and portions of the dollar value that must be borne by each participant. This cost sharing may be in the form of monies or nonfinancial contributions. A preliminary requirement is to ensure that any obligations that the Department may be required to incur in implementation of the agreement have been identified in the fiscal information section. Nonfinancial contributions, described in the scope section, may be valued in the fiscal information section as part of the overall financial contributions, or described solely in the scope section without valuation in the financial information section. The financial information in the fiscal memorandum or SSOI will value all financial and nonfinancial contributions identified in the international agreement.

5.4 Adherence to Prescribed Pricing Rules (090504)

5.4.1. In the event that an international agreement provides for nonfinancial contributions, there must be assurance that proper pricing procedures have been followed. Paragraphs 4.5 and 4.6 of this chapter discuss special requirements that may be applicable to certain agreements. The text of an agreement must be reviewed carefully to ensure compliance with these paragraphs. An area of special pricing attention is charges for existing DoD technical data and computer software, or the use of equipment or facilities.

5.4.2. Preexisting technical data and computer software or such data developed outside the scope of an agreement is normally referred to as background data. When background data is a nonfinancial contribution, its value for determining equitability is its full (total) cost of development, adjusted for any special modifications, shipping, installation, etc. When the original development cost is unknown, background data should be valued at the cost of similar data, or the estimated cost to reconstruct the data.

5.4.3. Background data may be provided for use in furtherance of the purpose of an international agreement as long as it is used solely in connection with the purpose of the agreement. However, an agreement must specify that if the background information is used for any other purpose, approval of the originating participant must be obtained. The following specifics apply:

5.4.3.1. If the data are to be used for cooperative production purposes, the Department must receive appropriate financial credit as part of the DoD share of project cost, unless a cost recoupment waiver has been approved. Any provision for waiver shall be identified in the fiscal information section.

5.4.3.2. If the data is to be used for development and production purposes, a technology transfer fee may be applicable for the development phase. This fee may be offset by a nonrecurring cost recoupment charge when production occurs.

5.4.3.3. All background information exchanged shall be used only for the purposes of the agreement, and is not to be transferred to any third party without the approval of the originating participant.

5.4.4. Equipment and facilities provided for use in the furtherance of the purpose of an international agreement should be based on an amortized rate. This amortized rate should be based on the cost and useful life of the equipment or facilities, and applied to the length of time the equipment or facilities will be used in the furtherance of the purpose of the international agreement. Standard rates, if available, can also be used.

5.5 Determination of Program Equitableness (090505)

* 5.5.1. Public law and DoD policy require that international agreements that involve cost sharing be equitable. The U.S. and the other participants to an international agreement shall contribute their equitable share of the full cost in funds or in defense articles or services needed to execute the cooperative project, and shall receive their equitable share of the results of the cooperative project in the form of defense articles or services. [A participant's cost share must be proportionately equal to the benefits it receives.](#) The following methodology for determining equitability is in direct response to those requirements and is based on the authority of the Under Secretary of Defense (Comptroller) in accordance with [10 U.S.C. 135](#) and [DoD Directive 5118.03](#), "Under Secretary of Defense (Comptroller)/Chief Financial Office, Department of Defense," for establishing and supervising the execution of uniform DoD policies, principles, and procedures for international financial matters, including the adequacy of international financial agreements.

5.5.2. The SSOI or fiscal memorandum to a proposed international agreement must clearly explain why the agreement is considered equitable. Prior to approval of all proposed international agreements, a determination of agreement equitability must be made by the approving DoD officials. It is critical that sufficient detail and information be provided to clearly demonstrate to approving officials that the proposed international agreement is equitable.

5.5.3. Calculation of Expected Contribution. In support of an equitability determination by DoD approving officials, the expected contribution shall be calculated and presented in the SSOI or supporting documentation using one of the methods below:

5.5.3.1. Number of Participants Method. This is the preferred method of calculating the expected contribution for cooperative feasibility studies, research and development efforts, and test and evaluation programs, and for agreements that establish management or oversight program offices. It is the method that should be employed when estimated unit production quantities are not known or the number of benefiting assets is equal. Under the number of participants method, the expected contribution is determined by dividing the agreement costs by the number of participating nations. An equitable share is where all participating nations equally share the total cost and the benefits. An example of this method is provided in Table 9-2.

5.5.3.2. Estimated Unit Production Method. This is the preferred method of calculating the expected contribution for an agreement that cooperatively establishes a program for the production of defense articles or weapon systems. It is used when specific unit production quantities are known or can be estimated. Under the unit production method, the shares are considered to be equitable when the contribution is proportionately equal to the share of the program production to be received. An example of this method is provided in Table 9-3. An equitability statement is required in the SSOI or accompanying documentation, and it must clearly present the calculation showing production estimates in relation to the total cost of the international agreement or production program.

5.5.3.3. Benefiting Assets. This is the preferred method of calculating the expected contribution when the number of benefiting assets are known or can be estimated. Under the benefiting assets method, the shares are considered to be equitable when the contribution is proportionately equal to the number of assets that will be benefited. An example of this method would be Table 9-3 where the number of units is replaced with benefiting assets. An equitability statement is required in the SSOI or accompanying documentation, and it must clearly present the calculation showing benefiting assets in relation to the total cost of the international agreement.

5.5.3.4. Other Methods of Calculation. There may be situations when none of the above three methods apply, and another calculation is legally supportable. For example, where the U.S. has agreed by treaty to pay a specified percentage of the costs of the operations of an international organization. An equitability statement is required in the SSOI or accompanying documentation. The calculation and justification for use of that calculation must be clearly presented.

5.6 Sales and Transfers of Technical Data Developed Under an Agreement (090506)

An agreement should provide that, in the event technical data developed under the agreement is sold or transferred to third parties, a charge may be made to recoup a pro-rata share of each participant's investment. The agreement also must provide that background information and data developed outside the program not be retransferred without the prior approval of the owner of the information or data, and contain provisions for any applicable charges. For third party sales and transfers, or the addition of new participants, any recoupment charge for the information or data developed under the program must be shared on the basis of the participants' financial contribution to the development of the item or technology. The amount of the charge and the procedures for assessing and distributing it shall be determined mutually by the participants prior to the approval of any such third party sale consistent with the policies and laws of each participant. The agreement also should provide that any participant may reduce or waive the assessment of its share of the levy in accordance with its laws and policies. Furthermore, the agreement should provide for rights of use of information developed under the agreement for defense purposes of a participant without payment to the other participant(s).

5.7 Taxes, Duties, and Similar Charges (090507)

Agreements should provide that, insofar as existing laws and regulations permit, the participants shall use their best efforts to ensure that readily identifiable taxes, customs duties, and similar charges on the program components and services shall not be levied in connection with the project. If an agreement obligates the U.S. Government to bear the cost of any U.S. taxes, duties, or similar charges levied in connection with the program, the legal memorandum or SSOI must identify the legal authority for such U.S. obligation.

5.8 Advance of DoD Funds (090508)

5.8.1. An advance constitutes a disbursement of DoD funds before an authorized DoD official has certified that materials have been delivered or ordered services performed. An agreement shall not provide for DoD advance payments, unless the conditions for such advances, as set forth in Volume 4, Chapter 5 are met. An advance to a foreign country is authorized only when required for compliance with the laws and ministerial regulations of the foreign country and is further required by the agreement.

5.8.2. When possible, advances shall be made for no more than the amount necessary to fulfill the DoD share of project expenses for one month. Advances and prepayments shall not exceed the amount necessary to fulfill the DoD share of project expenses for a current fiscal quarter. If monies are paid in advance and deposited into commercial banks, provision must be made to ensure that the agreement requires:

5.8.2.1. Payment of interest at competitive rates;

5.8.2.2. Timely identification of interest earned by each party; and

5.8.2.3. Interest disposition in accordance with the participants' instructions.

5.8.3. The DoD share of funding required to support an international project shall be obtained in full by appropriation, and no part of such funding shall be derived from interest earnings on U.S. contributions. In view of this policy, the U.S. Government share of interest earned on U.S. advance payments must be returned to the U.S. Treasury Miscellaneous Receipts Account 3210, “General Fund Proprietary Receipts, Defense Military, Not Otherwise Classified.” The interest shall not be used to reduce a future call for funds, nor used for any project cost that would result in funding derived outside the appropriation process.

5.8.4. Advances of DoD funds in excess of 90 days or \$5 million require consultation with the Department of the Treasury. Contact with the Department of the Treasury shall be through the Office of the Under Secretary of Defense (Comptroller).

5.9 Billing Requirements (090509)

When payments are to be made, the agreement or subsequent financial arrangements must include the following information:

5.9.1. Billing Cycle. Bills for incurred costs are to be rendered on a 30-day cycle. This is a U.S. Treasury requirement and must be adhered to by DoD. However, in the negotiation process and only at the initiation of other participants, agreement may be reached on up to a 90-day billing cycle.

5.9.2. Collecting Office. The agreement or subsequent financial arrangements shall provide the name and address of the organization to which payments shall be made. It also is desirable to set forth a position title and a telephone number to which questions may be addressed.

5.9.3. Paying Office or Offices. The agreement or subsequent financial arrangements shall provide the name and address of the organization that is responsible for making payments under the agreement. It also is desirable to set forth a telephone number and a position title to which questions may be addressed.

5.9.4. Payment Terms. The payment due date shall not be more than 30 days from the date of the invoice, date prepared.

5.9.5. Documentation in Support of Billings. The agreement or subsequent financial arrangements must identify the form of the bill and the specific supporting details.

5.9.6. Currency of Payment. Normally, payment shall be in the currency of the supplying nation or the lead country if joint financing is provided for in the agreement. The invoice shall identify the amount paid in foreign currency at the current exchange rate and the equivalent conversion rate in U.S. dollars.

5.10 Special Types of Agreements 090510)

5.10.1. Agreements for Reciprocal Exchange of Materials or Services. These agreements must set forth the time period allowed for exchange of materials and services. They also must set forth financial settlements that must be made if the exchange does not take place. DoD services or materials provided are priced in accordance with Volume 11A, Chapter 1.

5.10.2. Cooperative Research, Development, Test and Evaluation, Technical Data Exchange, Co-production, Licensed Production, and Related Standardization Agreements That Are Not Implemented through the Security Assistance Program. Full costs must be identified and shared equitably. Cost sharing may be accomplished through the following:

5.10.2.1. Pooling of monies and designation of a lead country to manage the program, collect cash, and award contracts. Specific shares of program cost are set forth in the agreement.

5.10.2.2. No pooling of monies or designation of a lead country. Specific efforts to be accomplished by each participating country and estimated costs of such efforts are set forth in the agreement.

TABLE 9-1: Example International Agreement Financing Schedule

(\$ in Millions)

Financing Sources	Current Year	Current Year + 1	Current Year + 2	Totals
U.S./PE 0603456	1.5	1.0	0.0	2.5
U.S./PE 0603567	0.0	0.5	1.0	1.5
France	1.5	1.5	1.0	4.0
Germany	1.5	1.5	1.0	4.0
Totals	4.5	4.5	3.0	12.0

TABLE 9-2: Calculation of Expected U.S. Contribution Using the Number of Participants Method

Step 1: Determine the total program cost to the U.S. and other participants.

U.S. Share	\$150
Other Participants	300
Total Cost	\$450

Step 2: Determine the percentage of the U.S. share of the total costs under the agreement.

U.S. Share	\$150 = 33% share
Total Cost	450

Step 3: Determine the total number of participants and calculate the U.S. share on a percentage basis.

Total Participants	3
U.S.	1 = 33% U.S. as a percentage of Participants

Step 4: Compare the results of step two to step three. If the result of step two is equal to the result of step three, the U.S. appears to be paying an equitable share.

TABLE 9-3: Calculation of Expected U.S. Contribution Using the Benefitting Assets Method

Step 1: Determine the total program cost to the U.S. and other participants.

U.S. Share	\$150
Other Participants	<u>300</u>
Total Cost	\$450

Step 2: Determine the percentage of the U.S. share of the total costs under the agreement.

U.S. Share	\$150 = 33% share
Total Cost	450

Step 3: Determine the total number of production units or benefiting assets under the agreement.

U.S. Units/Assets	20,000
Other Participants	40,000
Total Units/Assets	60,000

Step 4: Determine the percentage of the U.S. share of the total number of production units or benefiting assets under the agreement.

U.S. Units/Assets	20,000 = 33% share
Total Units/Assets	60,000

Step 5: Compare the results of step two to step four. If the result of step two is equal to that of step four, the U.S. appears to be paying an equitable share.

VOLUME 12, CHAPTER 10: “FUNDING CIVILIAN SEPARATION INCENTIVES AND CIVILIAN PERSONNEL TRANSITION INITIATIVE”

SUMMARY OF MAJOR CHANGES

Changes are identified in this table and also denoted by [blue font](#).

Substantive revisions are denoted by an (*) symbol preceding the section, paragraph, table, or figure that includes the revision.

Unless otherwise noted, chapters referenced are contained in this volume.

Hyperlinks are denoted by [***bold, italic, blue, and underlined font***](#).

The previous version dated [April 2020](#) is archived.

PARAGRAPH	EXPLANATION OF CHANGE/REVISION	PURPOSE
1.2.1	Updated guidance to include Public Law 101-510, Section 322 “Guidelines for Future Reductions of Civilian Employees of Industrial-type or Commercial-Type Activities.”	Revision
2.1	Revised the description of separation incentives and outpatient subsidy to clarify the recipient and the maximum amount that DoD is allowed to pay under each category.	Revision
3.4	Clarified that a DoD Component-offered outplacement subsidy is offered to the gaining Federal agency, not the employee.	Revision
4.0	Removed verbiage to clarify that all Antidefiency Act provisions apply to all Federal agencies.	Deletion

CHAPTER 10

**FUNDING CIVILIAN SEPARATION INCENTIVES
AND CIVILIAN PERSONNEL TRANSITION INITIATIVES**

1.0 GENERAL

1.1 Purpose

The purpose of this chapter is to provide definitions and funding requirements to implement civilian separation incentives and civilian personnel transition initiatives.

1.2 Authoritative Guidance

The financial management policy and related requirements prescribed in this chapter are in accordance with the applicable provisions of the following sources:

*1.2.1. [Public Law 101-510, Section 322](#). “Guidelines for Future Reductions of Civilian Employees of Industrial-type or Commercial-Type Activities.”

1.2.2. Title 5, United States Code, Section 5724, [\(5 U.S.C. § 5724\)](#), “Travel and transportation expenses of employees transferred; advancement of funds; reimbursement on commuted basis.”

1.2.3. [5 U.S.C. § 9902 \(f\)](#), “Department of Defense personnel authorities.”

1.2.4. Department of Defense Instruction [\(DoDI\) 1400.25, Volume 1700](#), “DoD Civilian Personnel Management System: Civilian Assistance and Re-Employment (CARE) Program.”

1.2.5. [DoDI 1400.25, Volume 1702](#), “DoD Civilian Personnel Management System: Voluntary Separation Programs.”

2.0 OVERALL FUNDING POLICY DEFINITIONS

*2.1 Separation Incentives/Outplacement Subsidies

2.1.1 For the purpose of this policy, the term “civilian separation incentives” means resignation and retirement incentives and outplacement subsidies [that may be used to encourage designated civilian employees to separate voluntarily from DoD](#).

2.1.2. Available separation incentives include Voluntary Separation Incentive Pay (VSIP), VSIP Phase II, Voluntary Early Retirement Authority (VERA), and Voluntary Reduction in Force (VRIF). The DoD activities may pay up to \$25,000 (before taxes and deductions) from appropriations, funds, or accounts available for such purposes for the voluntary resignation, early retirement, or optional retirement of a designated civilian employee.

2.1.3. Outplacement subsidies are used as an incentive for other Federal agencies to hire employees displaced by reduction in force (RIF) or transfer of function. DoD activities may pay up to \$20,000 from appropriations, funds, or accounts available for such purposes. The payment is for Permanent Change of Station (PCS) costs incurred by another Federal agency when that agency hires any DoD employee in a surplus skill category who is subject to RIF. See paragraph 3.4.

2.2 Audit Readiness/Internal Procedures

Each DoD Component must develop and implement internal operating procedures and/or guidance to implement this overarching policy in a manner that ensures accurate, timely, and relevant reporting of financial data. Relevant records supporting financial statements must be maintained and made available during financial statement audits.

2.3 Recording Funding Obligations

Funds for separation incentives and outplacement subsidies must be obligated when an employee accepts the offer of an incentive payment. The obligation must be recorded in DoD Standard General Ledger account 640000, “Benefits Expense,” and reported as object class 13.0, “Benefits for former personnel” for separation incentive and object class 12.1 for outplacement subsidies. Refer to the [Office of the Deputy Chief Financial Officer Standard Financial Information Structure \(SFIS\)](#) for additional information on account descriptions, and Office of Management and Budget [\(OMB\) Circulars](#), Circular A-11, Section 83 for additional information on object class codes.

3.0 SPECIFIC FUNDING POLICIES FOR DIFFERENT TYPES OF EMPLOYEES

3.1 Civilian Separation

A DoD Component that offers civilian separation incentives to an employee, in order to induce the voluntary separation of that employee to create a vacancy for another employee of the same DoD Component, must fund the resulting separation payments from the applicable appropriation, fund or account that otherwise is available to pay for salaries and expenses of that DoD Component. The source of VSIP funds may include a Defense Working Capital Fund (DWCF) for employees of a DWCF-funded activity. DoD central account funding is not provided.

3.2 Base Realignment and Closure Act

Congress amended the [Base Realignment and Closure \(BRAC\)](#) statute in the Fiscal Year 2013 National Defense Authorization Act and created a single Treasury account known as the “Department of Defense Base Closure Account” to improve the BRAC program’s overall efficiency and effectiveness. The Defense Base Closure Account is available for payment of separation incentives when determined necessary to implement a BRAC recommendation. The departmental policy contained in Volume 2B, Chapter 7 provides the general criterion to apply costs to the DoD Base Realignment and Closure Account.

3.3 Foreign Military Sales Trust Fund

For employees paid from, or whose salaries are fully reimbursed by, the Foreign Military Sales (FMS) Trust Fund, an offer of separation incentives or civilian personnel transition initiatives (either to an FMS Fund civilian employee or to a non-FMS Fund civilian employee to benefit an FMS Fund civilian employee) must be funded as follows:

3.3.1. Separation incentives offered to an FMS civilian employee, in order to induce a voluntary separation of the FMS civilian employee, with the elimination of that FMS civilian employee position, must be paid by the FMS Fund.

3.3.2. Separation incentives offered to an FMS civilian employee, in order to create a vacancy within the same DoD Component for another FMS civilian employee who otherwise would be separated, must be paid by the FMS Fund.

3.3.3. Separation incentives offered to a non-FMS civilian employee, in order to create a vacancy for an FMS civilian employee who otherwise would have been separated, where the FMS civilian employee continues fully to support the FMS program, must be paid by the FMS Fund.

3.3.4. Any costs of outplacement subsidy described in paragraph 3.4, for an FMS civilian employee, must be funded by the FMS Fund.

3.3.5. No other separation payments are chargeable to the FMS Fund.

*3.4 Placements Outside the Department

DoD activities may pay up to \$20,000 (subject to the availability of funds) in outplacement subsidy for Permanent Change of Station (PCS) costs associated with placement of a surplus DoD employee with another Federal Agency as authorized under 5 U.S.C. §5724 and DoDI 1400.25, Volume 1702. When a DoD Component-offered outplacement subsidy is accepted [by the gaining Federal agency](#), the DoD activity must notify the gaining [agency](#) that DoD funds may be billed up to \$20,000 per employee or for the actual PCS costs, whichever is less. The notification must include the DoD fund citation to be billed and the address of the fiscal station paying the subsidy. Payment must be made by the applicable DoD activity based upon documentation of the amounts paid or to be paid to the employee by the gaining Federal Agency.

*4.0 CONTROLS OVER AVAILABLE FUNDS

Controls must be established to ensure that sufficient funds are available to cover projected requirements for employee acceptance of incentive offers and outplacement subsidies each quarter. Antideficiency Act provisions apply to the DoD Component appropriations, funds and accounts. Therefore, if available funds are projected to be inadequate to cover anticipated incentive program acceptances and outplacement subsidies; appropriate action must be taken. In this regard, the DoD Components either must cancel or withdraw incentive offers prior to employee acceptance, or obtain additional funds.

CHAPTER 11

PRIVATIZATION OF DEFENSE UTILITY SYSTEMS

1.0 GENERAL

1.1 Purpose

This chapter prescribes financial management policies to the implementation of statutory provisions of Title 10, United States Code, section 2688 ([10 U.S.C. § 2688](#)), “Utility Systems: Conveyance Authority.” Section 2688 permits the Secretary of a Military Department to convey (i.e., transfer or pass title to) a utility system, or part of a utility system, under the Secretary’s jurisdiction to a municipal, private, regional, district, or cooperative utility company, or other entity (this authority does not apply to utility projects constructed or operated by the Army Corps of Engineers under its civil works authority). A utility system is defined as any system used for the: (1) generation and supply of electric power, steam, hot water, or chilled water; (2) supply of natural gas; (3) treatment or supply of water; (4) collection or treatment of wastewater; or (5) transmission of telecommunications. The term “utility system” also includes the following: (A) equipment, fixtures, structures, and other improvements utilized in connection with a utility system as defined and (B) real property, easements, and rights-of-way associated with a utility system as defined.

1.2 Authoritative Guidance

The financial management policies in this chapter correspond with the Department of Defense ([DoD](#)) [Instruction 4170.11](#), *Installation Energy Management*. The Instruction specifies that utilities privatization “is the preferred method for modernizing and recapitalizing DoD utility systems. “To this end, the Instruction provides: “Except where the Secretary of the Military Department has certified that the systems are exempt due to security reasons, or where privatization is uneconomical, the Military Services must attempt to privatize those types of utility systems at every Active and Reserve Component installation within and outside the United States that is not designated for closure under a base closure law.” This guidance also assigns the office of primary responsibility for the Instruction to the Under Secretary of Defense for Acquisition and Sustainment. [10 U.S.C § 2925](#) defines the annual reporting requirements related to Installations Energy Management, Energy Resilience, and Mission Assurance.

2.0 CONVEYANCE OF UTILITY SYSTEMS

2.1 Consideration and Determination

Subsection 2688(c)(1) of 10 U.S.C. provides that the Secretary of a Military Department concerned may require as consideration for a conveyance an amount for the value (as determined by the Secretary) the right, title, or interest conveyed. Such consideration may take the form of a reduction in charges for future utility services or a lump sum payment. Subsection 2688 does not itself constitute authority for the Secretary of a Military Department to

convey a utility system without any consideration or cause to be inapplicable to authorities that govern disposal of DoD real property and personal property. **The Secretary concerned** may authorize a contract for utility services to have a term in excess of 10 years, but not to exceed 50 years. The determination of cost effectiveness must be made using a business case analysis that includes an independent estimate of the level of investment that should be required to maintain adequate operation of the utility system over the proposed term of the contract. The business case analysis must also demonstrate how a privatized system will operate in a manner consistent with energy resilience and cybersecurity requirements and associated metrics provided to the conveyee to ensure that the reliability of the utility system meets mission requirements.

2.2 Reduction in Charges

A reduction in charges for future utility services is acceptable consideration when the services are provided by the utility or entity obtaining the utility and the reduction in charges is provided to the military installation at which the utility system is located at the time of conveyance. In such circumstances, a reduction in charges for utility services is an exchange of dissimilar assets that does not result in a credit to an appropriation. The consideration (reduction) in such an exchange is considered an Other Asset (Account 199000), and the recorded asset is reduced by charges to Operating Expenses/Program Costs (Account 610000) over the life of the contract for utility services. Corresponding asset disposal losses must be recognized as described in Volume 4, Chapter 17.

2.3 Lump Sum Payment

2.3.1. Provisions of 10 U.S.C. § 2688 provide that any lump sum cash payment received as consideration for the sale of a utility system must be credited, at the election of the Secretary concerned, to an appropriation of the Military Department available for:

2.3.1.1. The procurement of the same utility services as are provided by the utility system conveyed;

2.3.1.2. Carrying out energy savings or water conservation projects (as discussed in Chapter 12); or

2.3.1.3. Improvements to other utility systems.

2.3.2. A lump sum payment must be credited to the appropriation used to fund the types of base operating support costs described in subparagraph 2.3.1 at the location of the privatized utility system. In most cases, this will be an Operations and Maintenance appropriation. Approval of the Office of the Under Secretary of Defense (Comptroller) (OUSD(C)), Program/Budget (P/B) is required for the use of any other appropriation type, as described in paragraph 3.2.

2.3.3. The amount credited to an appropriation must be merged with the funds in that appropriation and must be available for obligation in the same period, for the same purposes, and subject to the same conditions and limitations as that appropriation. There is no provision in the statute for extending the availability of such funds beyond the normal expiration date of the appropriation.

2.3.4. The conveyance of a utility for a lump sum payment results in budgetary and proprietary accounting entries by the entity responsible for collection as follows:

2.3.4.1. Receipt of a lump sum payment is recorded in the budgetary accounts as an earned reimbursement, as described in Volume 3, Chapter 15.

2.3.4.2. Receipt of a lump sum payment for the conveyance of a utility is recorded in the proprietary accounts as a gain or loss on disposition of assets, as described in Volume 4, Chapter 17.

3.0 CONVEYANCE AUTHORIZATION AND AGENDA

3.1 Same Utility Service Procurements

Before utility conveyance proceeds may be used to procure the same utility services as those provided by the utility system conveyed, the organization receiving the funds must submit the proposed distribution of funds to the Assistant Secretary of a Military Department (Financial Management and Comptroller) (ASMD(FM&C)) for approval. The ASMD(FM&C) must notify the supporting Defense Finance and Accounting Service (DFAS) site of approved funds distributions.

3.2 Savings and Conservation Projects and Improvements

3.2.1. Receiving Organization. Before utility conveyance proceeds may be used for carrying out energy savings or water conservation projects or improvements to other utility systems, the receiving organization must:

3.2.1.1. Prepare and submit to ASMD(FM&C) – for each major construction, minor construction, emergency construction, or Federal Energy Management Program project - the budget estimate data required by Volume 2B, Chapter 6, using Department of Defense Form 1391 ([DD Form 1391](#)), “FY__ Military Construction Project Data.”

3.2.1.2. Ensure the required approval and funding authorization is received before the disbursement of funds.

3.2.1.3. Prepare the paperwork necessary for the disbursement of funds in accordance with Volume 5, Chapter 9.

3.2.1.4. Ensure any amount credited to an appropriation from a conveyance under 10 U.S.C. § 2688, is administered in accordance with the financial policy and guidance in Volume 3, Chapter 15.

3.2.2. The ASMD(FM&C). Before approving a receiving organization's request to carry out energy savings or water conservation projects or improvements to other utility systems, ASMD(FM&C) must:

3.2.2.1. Review the receiving organization's proposal submitted under subparagraph 3.2.1.1, and forward it to OUSD(C), P/B, Directorate for Military Personnel and Construction, for final approval.

3.2.2.2. Ensure required OUSD(C), P/B approval and funding authorization are received before the disbursement of funds is approved.

3.2.2.3. Provide funds control and reporting information to the supporting DFAS site.

3.2.2.4. Notify the receiving organization of the final decision and provide the funding authorization document.

3.2.3. The OUSD(C), P/B, Directorate for Military Personnel and Construction

3.2.3.1. Before approving an ASMD(FM&C) request to carry out energy savings or water conservation projects or improvements to other utility systems, OUSD(C), P/B must:

3.2.3.1.1. Review the receiving organization's proposal submitted under subparagraph 3.2.1.1.

3.2.3.1.2. Prepare and submit any necessary apportionment and reapportionment schedule using the most current version of Standard Form 132, "Apportionment and Reapportionment Schedule," (e.g., for urgent unforeseen projects not already included in the Military Construction program) to the Office of Management and Budget (OMB) for approval.

3.2.3.1.3. Notify the ASMD(FM&C) of the final decision and OMB approval, and provide the funding authorization document.

3.2.3.2. Provide funds control and reporting information to Washington Headquarters Service (for Department-level appropriation accounting).

3.2.4. The DFAS

* 3.2.4.1. The Military Services are responsible for ensuring that all funding authorization documents and expenditure transactions are complete, and accurately reported to the DFAS Departmental Reporting System, Budgetary (DDRS-B).

3.2.4.2. The Director, DFAS, must account for and report to OMB and the U.S. Department of the Treasury on amounts credited to appropriations resulting from a conveyance under 10 U.S.C. 2688 and on any related fixed asset transactions.

CHAPTER 12

**IDENTIFICATION, RETENTION, AND USE OF ENERGY AND WATER
CONSERVATION SAVINGS**

1.0 GENERAL

1.1 Purpose

This chapter prescribes financial management policy for the identification, retention, and use of energy and water cost savings. The Congress has enacted several measures pertaining to energy security within the Department of Defense (DoD), to provide instruction and guidance for the receipt and use of incentives and water cost savings from utilities for water conservation; the availability and use of energy cost savings; energy savings contracts and activities; energy conservation construction projects; the use of renewable forms of energy and energy efficient products in military construction and facility repair and renovation projects; the sale of electricity from alternate energy and cogeneration production facilities; and for the DoD activities' participation in programs for management of energy demand or reduction of energy usage during peak periods.

1.2 Authoritative Guidance

1.2.1. Title 10, United States Code, section 2866 ([10 U.S.C. § 2866](#)) "Water Conservation at Military Installations," provides that funds attributable to water cost savings realized under the provisions of that section must be used as prescribed in subparagraphs 1.2.3.1 and 1.2.3.2, provided that such use under subparagraph 1.2.3.1 is for water conservation activities. Neither 10 U.S.C. § 2866 nor any provision in the Department's appropriations acts, however, provide for the extended availability of such funds. Accordingly, such funds are available only for the period for which they were appropriated.

* 1.2.2. The Installation Energy & Water Plans in Section 2827 of the [National Defense Authorization Act for Fiscal Year 2021](#), "Improving Water Management and Security on DOD Installations," requires the creation and implementation of a joint methodology for conducting water management and security assessments. This report discusses water security and efficiency through innovative ways to reduce water use across installations in order to strengthen base readiness through improved water security. Suggestions include systems upgrades, alternate water resources, and water use related changes and opportunities to replicate projects across installations.

1.2.3. [10 U.S.C. § 2912](#), "Availability and Use of Energy Cost Savings," provides that an amount of funds appropriated to DoD for a fiscal year that is equal to the amount of energy cost savings realized by the Department, including financial benefits resulting from shared energy savings contracts pursuant to [10 U.S.C. § 2913](#), "Energy Savings Contracts and Activities," must remain available for obligation until expended, without additional authorization or appropriation. The amount that remains available for obligation must be used as follows:

1.2.3.1. One-half of the amount must be used for the implementation of additional energy conservation and energy security measures, including energy resilience and energy conservation construction projects, for buildings, facilities, or installations of the DoD, or related to vehicles and equipment of the DoD, which are designated, in accordance with regulations prescribed by the Secretary of Defense, by the head of the department, agency, or instrumentality that realized the savings.

1.2.3.2. One-half of the amount must be used at the installation at which the savings were realized, as determined by the commanding officer of such installation consistent with applicable law and regulations, for (a) improvements to existing military family housing units; (b) any unspecified minor construction project that will enhance the quality of life of personnel; or (c) any Morale, Welfare, and Recreation (MWR) facility or service.

1.2.4. 10 U.S.C. § 2913, provides that the Secretary of Defense must develop a simplified method of contracting for shared energy savings contract services that will accelerate the use of these contracts with respect to military installations and will reduce the administrative effort and cost on the part of DoD as well as the private sector. The Secretary may provide for the direct negotiation (by departments, agencies, and instrumentalities of DoD) of contracts with shared energy savings contractors that have been selected competitively and approved by any gas or electric utility serving the department, agency, or instrumentality concerned.

1.2.5. 10 U.S.C. § 2914, “Energy Resilience and Conservation Construction Projects,” provides that the Secretary of Defense may carry out a military construction project for energy resilience, energy security, or energy conservation, which has not been previously authorized, using funds appropriated or otherwise made available for that purpose. When a decision is made to carry out a project under this section, the Secretary of Defense must notify the appropriate congressional committees of the decision. The project may then be carried out only after the end of the 14-day period beginning on the date the notification is received by such committees in an electronic medium.

1.2.6. 10 U.S.C. § 2915, “Facilities: Use of Renewable Forms of energy and Energy Efficient Products,” provides that the Secretary of Defense must encourage the use of energy systems using solar energy or other renewable forms of energy as a source of energy for military construction projects for energy resilience, energy security, or energy conservation (including military family housing projects), and facility repairs and renovations, and ensure, to the maximum extent practicable, the use of energy efficient products in facility construction, repair, and renovation. The Secretary concerned must require that the design for the construction, repair, or renovation of facilities (including family housing and back-up power generation facilities) must include consideration of energy systems using solar energy or other renewable forms of energy and require such energy systems be installed if consistent with the energy performance goals and energy performance master plan for the Department and is shown to be cost effective. Additionally, the Secretary of a military department may grant exceptions to otherwise applicable square foot and cost per square foot limitations.

1.2.7. 10 U.S.C. § 2916, “Sale of Electricity from Alternate Energy and Cogeneration Production Facilities,” provides that the Secretary of a military department may sell, contract to sell, or authorize the sale by a contractor to a public or private utility company of electrical energy generated from alternate energy or cogeneration type production facilities which are under the jurisdiction (or produced on land which is under the jurisdiction) of the Secretary concerned. The sale of such energy must be made under such regulations, for such periods, and at such prices as the Secretary concerned prescribes consistent with the Public Utility Regulatory Policies Act of 1978, and 16 U.S.C. § 2601, “Findings: Public Utility Regulatory Policies.” (Revenues from the sale of electricity must be deposited and utilized in accordance with section 4.0.)

1.2.8. 10 U.S.C. § 2919, “Department of Defense Participation in Programs for Management of Energy Demand or Reduction of energy Usage During peak Periods,” provides that the Secretary of Defense, the Secretaries of the military departments, the heads of the Defense Agencies, and the heads of the other instrumentalities of the Department are authorized to participate in demand response programs for the management of energy demand or the reduction of energy usage during peak periods conducted by any of the following: an electric utility; an independent system operator; a State agency; or a third party entity (such as a demand response aggregator or curtailment service provider) implementing demand response programs on behalf of an electric utility, independent system operator or State agency. Financial incentives received from such entity must be (a) received as a cost reduction in the utility bill for a facility; or (b) deposited into a fund established under 10 U.S.C. § 2919(c) for use, to the extent provided for in an appropriations Act, by the military department, Defense Agency, or instrumentality receiving such financial incentive for energy management initiatives.

2.0 DEFINITIONS

The following definitions apply with respect to the identification, retention, and use of energy conservation cost savings:

2.1 Energy Savings Performance Contracts

An Energy Savings Performance Contract (ESPC) is a contract between the Federal government and an energy service company (ESCO) that allows agencies to accomplish energy projects for their facilities without up-front capital costs and without Congressional appropriations to pay for the improvements. The ESCO designs, implements, and arranges financing for an energy savings project that meets the Federal agency’s needs. The ESCO guarantees that the improvements will generate savings sufficient to pay for the project over the term of the contract (up to 25 years). If the energy conservation measures installed by the ESCO do not deliver the guaranteed energy savings, the agency pays only an amount equal to the verified, not guaranteed, savings for that period. The ESCO must immediately determine the reasons for the under achieved energy savings during that period. If it is determined that the ESCO-installed and maintained equipment and controls malfunctioned, then the ESCO must immediately correct the malfunction. If it is determined that the ESCO-installed and government-maintained equipment and controls malfunctioned, the government may be required to pay the guaranteed savings to the ESCO for that period. After the contract ends, any additional cost savings accrue to the agency. The additional savings are transferred to an extended availability account, in accordance with

section 3.0 for use as indicated in subparagraph 1.2.3. An ESPC is an alternative financing tool to reduce energy use, modernize aging equipment, reduce maintenance costs, and deploy energy efficiency and renewable energy technologies. See [DoD Instruction 4170.11](#), Installation Energy Management, for further details on ESPC.

2.2 Energy Cost Savings

Energy cost savings, for the purposes of 10 U.S.C. § 2912, are savings realized as the result of a reduction in the cost of energy as measured against budget documentation, which is determined by metering (if available) or by other methodology, such as professionally acceptable engineering models and estimates, as determined appropriate by the Component Head. The Component Head or designee may define the types of energy commodities to be included in their programs (water is not included as a commodity for this purpose, per subparagraph 1.2.1). Energy cost savings could refer to funding remaining after an energy bill is paid or to additional unobligated funding made available in an amount equivalent to avoided cost from energy not consumed during the previous fiscal year.

2.3 Extended Availability of Funds

Except as stated in subparagraph 1.2.1, pursuant to 10 U.S.C. § 2912, savings realized by DoD and transferred to an extended availability account, including financial benefits, remain available for obligation until expended in accordance with subparagraph 1.2.3, without additional authorization or appropriation.

2.4 Cost Effectiveness

An energy system using solar energy or other renewable forms of energy is considered cost effective if the cost difference between the original investment cost of that energy system, and the original investment cost of an energy system not using renewable energy sources can be recovered over the expected life of the facility.

2.5 Extended Availability of Funds Account

This is an account established for each appropriation to which identified energy cost savings and unobligated balances resulting from such energy cost savings, or a portion thereof, are transferred. The balances in this account remain available for obligation until expended. The Military Department realizing the savings must retain, until expended, an equivalent amount of funding in the extended year account, using appropriately established financial management accounting codes to separate the funding (50 percent of the savings amount for the military department and 50 percent for the installation) to ensure use in accordance with subparagraph 1.2.3.

2.6 Component Head or Designee

The Secretary of a military department, the Director of a defense agency, an individual designated to act for the Secretary of a military department, or the Director of a defense agency

for the purposes of executing the duties, functions, and responsibilities set forth in this chapter. When a provision is applicable only to the military departments, reference is made to the Secretary concerned, or designee.

3.0 ENERGY SAVINGS AND INCENTIVES RECEIVED FROM UTILITIES

3.1 Extended Availability from Energy Savings

Energy savings amounts having an extended availability must be transferred to extended availability accounts for execution.

3.1.1. An extended availability account must be established for each appropriation for which energy cost savings have been identified and for which a period of extended availability is to be established.

3.1.2. Transfers to extended availability accounts must be made by a Standard Form (SF) 1151, "Nonexpenditure Transfer Authorization," or other authorized Service-specific method that incorporates all SF 1151 requirements (see Volume 14, Chapter 1, subparagraph 2.6.2.6). Reprogramming actions will not be required in the case of such transfers.

3.1.3. Accounting, appropriate controls, and oversight for amounts in extended availability accounts must be established at the level that use the accounts; this will be at the installation, Military Department, Defense Agency, and/or Office of the Secretary of Defense level.

3.2 Financial Incentives

Financial incentives received from gas or electric utilities under 10 U.S.C. § 2913 are not considered energy cost savings. These incentives are credited to the installation's accounts used for operations and maintenance and remain available for the same purposes and the same period as the appropriation to which they are credited. Such incentives are refunds or rebates received as a check and deposited in the accounts used for operations and maintenance; they are not credits to the utility bill.

4.0 REVENUES FROM THE SALE OF ELECTRICITY

4.1 Sale of Electricity

Proceeds from sales of electricity from alternate energy and cogeneration production facilities under 10 U.S.C. § 2916 must be credited to the appropriation account currently available to the military department concerned for the supply of electrical energy. The Secretary concerned or designee determines the accounts to which such proceeds must be credited. (See Treasury's Federal Account Symbols and Titles: [*The FAST Book*](#) for current accounts.) In the case of proceeds from the sale of electrical energy generated from any geothermal energy resource, 50 percent must be credited to the appropriation account, and 50 percent must be deposited in a special account per the guidelines that are described in 10 U.S.C. § 2916(b)(3).

4.2 Use of Proceeds from the Sale of Electricity

Subject to the availability of appropriations for this purpose, proceeds credited may be used to carry out military construction projects for energy resilience, energy security, or energy conservation, under the energy performance plan developed by the Secretary of Defense under [10 U.S.C. § 2911\(b\)](#), “Energy Policy of the Department of Defense,” including minor military construction projects for energy resilience, energy security, or energy conservation, authorized under [10 U.S.C. § 2805](#), “Unspecified Minor Construction,” which are designed to increase energy conservation.

4.3 Congressional Notification

4.3.1. Before carrying out an unspecified minor military construction project for energy resilience, energy security, or energy conservation, described in paragraph 4.2 using proceeds from sales under paragraph 4.1, the Secretary concerned must notify the appropriate committees of Congress of the project. For energy conservation projects, the notification must include the justification and cost estimate, the expected savings-to-investment ratio, payback estimates, and the project’s measurement and verification cost estimate. For energy resilience or energy security, the notification must include the rationale for the project, and known vulnerabilities. The project may then be carried out only after the end of the 14-day period beginning on the date the notification is received by Congress in an electronic medium pursuant to [10 U.S.C. § 480](#), “Reports to Congress: Submission in Electronic Form.”

4.3.2. In accordance with the reporting parameters detailed in 10 U.S.C. § 2914, not later than 90 days after the end of each fiscal year (beginning with fiscal year 2017), the Secretary of Defense must submit to the appropriate committees of Congress a report on the status of the planned and active projects carried out (including completed projects).

5.0 BUDGETING FOR ENERGY COST SAVINGS

The portion of the guaranteed savings due to the contractor for payment under ESPCs must be included in each military department’s utility requirements submitted in budget requests for the length of the ESPCs entered into by that military department. The entire amount of guaranteed savings provided in ESPCs (including amounts for contract payments and amounts to be retained by installations) must be included in total utility requirements submitted as part of budget requests for the first five years of ESPCs. The total of the amounts requested must not exceed those that would have been requested in the absence of ESPCs. The Secretary concerned, or designee, must specify the procedures for identification of such amounts by installations, facilities, or operating locations at which ESPCs for that military department are in existence. In accordance with the Office of Management and Budget ([OMB Circular A-11, Appendix B](#), “Budgetary Treatment of Lease-Purchases and Leases of Capital Assets,” the costs of ESPCs may be scored on an annual basis, consistent with the guidance provided in OMB Memorandum M-98-13, “Federal Use of Energy Savings Performance Contracting,” and OMB Memorandum M-12-21, “Addendum to OMB Memorandum M-98-13 on Federal Use of Energy Savings Performance Contracts and Utility Energy Service Contracts.”

6.0 CAPTURING BALANCES AVAILABLE FOR USE RESULTING FROM ENERGY CONSERVATION MEASURES

6.1 Installation Commanders

6.1.1. When carrying over unobligated balances resulting from energy conservation, Installation Commanders or their designees must ensure energy cost savings amounts carried over for use beyond the fiscal year for which they were originally appropriated are authorized to be used only for funding initiatives specified by 10 U.S.C. § 2912 (see subparagraph 1.2.3). Installation Commanders must also:

6.1.2. Ensure that unobligated fund balances available at the end of the normal period of appropriation availability that are the direct result of energy conservation measures are identified based on the most current available consumption data and represent actual unobligated funds remaining in the appropriation accounts.

6.1.3. Ensure that the unobligated energy cost savings balances at year-end are carried forward for use beyond the fiscal year by transferring the funds to the extended availability of funds account.

6.1.4. Submit to the Component Head or designee proposed energy savings projects for a given fiscal year that are projected to cost more than the amount of funds available to the Commander for that purpose.

6.1.5. Implement additional energy conservation initiatives approved by the Component Head, or designee and other projects as specified.

6.2 Component Heads

The Component Head or designee must receive and evaluate savings measures submitted by Installation Commanders and authorize funding for those other energy savings measures as the Component Head or designee deems appropriate. The Component Head or designee must also ensure that procedures are established to provide sufficient time to compute the energy cost savings and identify the savings amounts to be transferred to the extended availability of funds account.

7.0 ACCOUNTING FOR ENERGY COST SAVINGS

7.1 Title 10, United States Code, Section 2912

The energy cost savings amounts realized in accordance with 10 U.S.C. § 2912 remain as unobligated balances available for obligation at the end of the fiscal year.

7.2 Unobligated Balance Transfers

Unobligated balances covered by paragraph 7.1 must be transferred to extended availability accounts on an SF 1151 or other authorized Service-specific method that incorporates all SF 1151

requirements (see paragraph 3.1). The authority to be cited for the transfer is 10 U.S.C. § 2912. No further adjustments to the amounts carried forward are permitted once the balance is established in the extended availability account.

8.0 REPORTING REQUIREMENTS

The standardized Service-specific reporting methods (e.g., the Army's General Fund Enterprise Business System) or the following requirements must be used to report the status of extended availability accounts:

8.1 Accounting Report (Monthly) 1002

The following special procedures have been established for reporting extended availability obligated and unobligated balances on the Accounting Report (Monthly), (AR(M)) 1002, Appropriation Status by Fiscal Year Program and Subaccounts:

8.1.1. Normal Availability Obligated and Unobligated Balances

Identify and report as usual.

8.1.2. Extended Availability Unobligated Balances

Identify, in column F (Cumulative Unobligated Balance), unobligated extended availability amounts resulting from energy cost savings at the end of the normal availability period (e.g., FY 200X/200X+1 or FY 200X/200X+2, +3, and so on) and available unobligated amounts (that is, FY 2024/2025, FY 2024/2026, FY 2024/2027 for the FY 2024 account). The stub entry, column a (Budget Activity) identifies the unobligated extended availability amount as "Extended Availability - Energy Cost Savings." The amount reported must agree with line 2201 of the SF 133, "Report on Budget Execution" (see paragraph 8.2).

8.1.3. Extended Availability Obligated Balances

Identify, in column e, obligations incurred against the extended availability account. The stub entry must identify those obligations as to the purpose for which the obligations were incurred. The reporting categories for the extended availability accounts must be continued for all fiscal years with remaining obligated balances against the extended availability account.

8.2 Standard Form 133

At the end of the first fiscal year, use line 2201, "Unob(ligated) Bal(ance): Apportioned: Avail(able) in the current period" on the [SF 133](#), to identify the amount of available unobligated funds that are available for energy savings investments (or other authorized purposes) in the following fiscal year(s).

VOLUME 12, CHAPTER 13: “FISCAL POLICY FOR BASE CLOSURE AND REALIGNMENT”**SUMMARY OF MAJOR CHANGES**

Changes are identified in this table and also denoted by [blue font](#).

Substantive revisions are denoted by an * symbol preceding the section, paragraph, table, or figure that includes the revision.

Unless otherwise noted, chapters referenced are contained in this volume.

Hyperlinks are denoted by [***bold, italic, blue, and underlined font***](#).

The previous version dated [May 2018](#) is archived.

CHAPTER 13

FISCAL POLICY FOR BASE CLOSURE AND REALIGNMENT

1.0 GENERAL (1301)

1.1 Purpose (130101)

This chapter specifies financial policy for base closure and realignment.

1.2 Authoritative Guidance (130102)

1.2.1. Since 1988, the Congress has enacted legislation that created six separate accounts at the U.S. Department of the Treasury (Treasury) to finance base closure and military installation realignment.

1.2.1.1. Section 207 of the Defense Authorization Amendments and Base Closure and Realignment Act ([Public Law \(P.L.\) 100-526](#)), October 24, 1988, established the “DoD Base Closure Account.”

1.2.1.2. Section 2906 of the Defense Base Closure and Realignment Act of 1990 ([P.L. 101-510](#)), November 5, 1990, created the “DoD Base Closure Account 1990.”

1.2.1.3. Section 2921 of the Defense Base Closure and Realignment Act of 1990 (P.L. 101-510), November 5, 1990, established the “DoD Overseas Military Facility Investment Recovery Account.”

1.2.1.4. Section 344 of the National Defense Authorization Act for Fiscal Years (FYs) 1992 and 1993 ([P.L. 102-190](#)) established the “Reserve Account.”

1.2.1.5. Section 2906A of the Defense Base Closure and Realignment Act of 1990 created the “[DoD Base Closure Account 2005](#).”

1.2.1.6. Section 2711 of the National Defense Authorization Act ([NDAA](#)) [for FY 2013](#) establishes a new appropriation for the “Department of Defense Base Closure Account” (097X0516) and cancels existing Base Closure Accounts (097X0510 and 097X0512).

1.2.2. This guidance also establishes funds distribution, accounting and reporting policy and procedures for the “DoD Base Closure Account 1990,” “DoD Base Closure Account 2005” and the “Reserve Account.”

2.0 POLICY (1302)

2.1 General (130201)

2.1.1. [Department of Defense \(DoD\)](#) Components are responsible for implementing all base closure and realignment action including preparation of an economic analysis in accordance with Volume 2B, Chapter 6, and must administer the allocations of base closure funds.

2.1.2. DoD Components are to deposit the proceeds in the appropriate account authorized by law. If transfer funds were deposited into the wrong account, a suspense account, or other interim account, a Standard Form (SF) 1080, "Voucher for Transfers Between Appropriations and/or Funds," must be used to transfer funds to the proper account.

2.2 DoD Base Closure Account 1990 and DoD Base Closure Account 2005 (130202)

2.2.1. The Treasury symbol for DoD Base Closure Account 1990 is 097X0510. This account is identified as the "Base Realignment and Closure Account, Part II, Defense," in Treasury's Federal Account Symbols and Titles (FAST) publication. Section 2711 of the National Defense Authorization Act for FY 2013 cancels this account effective upon enactment of the National Defense Authorization Act for FY 2014. Existing unobligated balances as of December 31, 2013, transfer to the new appropriation (097X0516).

2.2.2. The Treasury symbol for DoD Base Closure Account 2005 is 097X0512. This account is identified as the "Base Realignment and Closure Account 2005, Defense," in Treasury's FAST publication. Section 2711 of the National Defense Authorization Act for FY 2013 cancels this account effective upon enactment of the National Defense Authorization Act for FY 2014. Existing unobligated balances as of December 31, 2013, transfer to the new appropriation (097X0516).

2.2.3. The U.S. Treasury symbol for DoD Base Closure Account is 097X0516. This account is identified as the "Base Realignment and Closure Account, Defense," in Treasury's FAST publication. Section 2711 of the National Defense Authorization Act for FY 2013 established this account effective upon enactment of the National Defense Authorization Act for FY 2014. Existing unobligated balances as of December 31, 2013, transfer from 097X0510 and 097X0512 to the new appropriation.

2.2.4. Except as provided for in subparagraph 2.2.6 funds deposited into these accounts must be:

2.2.4.1. Funds authorized for, and appropriated to, the account.

2.2.4.2. Proceeds received from the sale or disposal of any property at an installation closed or realigned under the provisions of the Defense Base Closure and Realignment Act of 1990, P.L. 101-510.

2.2.5. Proceeds resulting from the sale or disposal of property or facilities (including buildings and structures) due to the base closure process must be deposited as reimbursements into the appropriate DoD Base Closure Account (DoD Base Closure Account 1990 or DoD Base Closure Account 2005). Treat these reimbursements as a collection and an earned reimbursement, and credited to the appropriation as a budget source.

2.2.6. Proceeds received after September 30, 1995, from the transfer or disposal of any property at a military installation closed or realigned under the Defense Authorization Amendments and Base Closure and Realignment Act, P.L. 100-526 and Title 10, United States Code, section 2687 ([10 U.S.C. § 2687](#)) must be deposited as reimbursements into the appropriate DoD Base Closure Account.

2.2.7. Deposit a portion of the proceeds resulting from the transfer or disposal of any real property or facility acquired, constructed, or improved (in whole or in part) with commissary store funds or nonappropriated funds into the “Reserve Account.” The amount deposited must be equal to the depreciated value of the investment made with such funds in the acquisition, construction, or improvement of that particular real property or facility. Complete the depreciated value of the investment in accordance with Volume 4, Chapter 4, for property funded with commissary store funds. See Volume 13, Chapter 3, for property funded with nonappropriated funds.

2.2.8. Subject to their availability, funds in the account may be used to:

2.2.8.1. Carry out actions as may be necessary to close or realign any military installation. Such actions include the acquisition of such land, construction of such replacement facilities, performance of such activities, and conduct of such advance planning and design as may be required to transfer functions from an installation being closed or realigned to another military installation.

2.2.8.2. Provide economic adjustment assistance to any community located near an installation being closed or realigned. Additionally, provide community planning assistance to any community located near a military installation to which functions must be transferred as a result of such closure or realignment.

2.2.8.3. Carry out activities for the purposes of environmental restoration and mitigation at an installation being closed or realigned. This includes reducing, removing and recycling hazardous waste, and removing unsafe buildings and debris.

2.2.8.4. Offer outplacement assistance to civilian employees employed by the DoD at installations being closed or realigned.

2.2.8.5. Reimburse other federal agencies for actions performed at the request of the Secretary of Defense with respect to any such closure or realignment.

2.3 DoD Overseas Military Facility Investment Recovery Account (130203)

2.3.1. The Treasury symbol for the receipt account (funds deposited in the DoD Overseas Military Facility Investment Recovery Account Deposits, DoD) are 097X5193.017, .057, .021, and .097, as applicable. The Treasury symbol for the special fund account (expenditure of funds from the account) is 097X5193.

2.3.2. Except as offered in subparagraph 2.3.3, funds deposited into this account must be amounts paid to the United States, pursuant to any treaty, status of forces agreement, or other international agreement to which the United States is a party, for the residual value of real property or improvements to real property used by DoD civilian or military personnel.

2.3.2.1. Steps must be taken to ensure that the United States receives, through direct payment or otherwise, consideration equal to the fair market value (FMV) of the improvements made by the United States at facilities scheduled for release to host countries. Determine the FMV for such improvements on a facility-by-facility basis.

2.3.2.2. The term “fair market value of the improvements” means the value of improvements on the basis of their highest use.

2.3.2.3. The term “improvements” includes new construction of facilities and all additions, improvements, modifications, or renovations made to existing facilities or to real property, without regard to whether they were carried out with appropriated or nonappropriated funds.

2.3.3. In the case of a payment for the residual value of real property or improvements at an overseas military facility, deposit the portion of the payment that is equal to the depreciated value of the investment made with nonappropriated funds into the “Reserve Account” not in the “DoD Overseas Military Facility Investment Recovery Account.”

2.3.4. Subject to availability, funds in the account may be used by the DoD for payment, as shown in appropriations acts, of costs incurred by the DoD in connection with:

2.3.4.1. Facility maintenance, repair and environmental restoration at military installations in the United States.

2.3.4.2. Facility maintenance, repair and compliance with environmental laws at military installations outside the United States that the Secretary of Defense anticipates must be occupied by the U.S. Forces for an extended period.

*2.4 Reserve Account (130204)

2.4.1. The Treasury symbol for the receipt account (funds deposited into the Reserve Account) is 097X5195.003. The U.S. Treasury symbol for the special account (expenditure of funds from the Reserve Account) is 097X5195. This account is identified as “Use of Proceeds from the Transfer or Disposition of Commissary Facilities, Defense.”

2.4.2. The transfer or disposal of a commissary or nonappropriated fund (NAF) facility must be connected with the closure or realignment of a military installation. Deposit into this account a portion of the proceeds equal to the depreciated value of the investment made in any real property or facility acquired, constructed, or improved (in whole or in part) with commissary store funds or nonappropriated funds.

2.4.3. If the proceeds from the transfer or disposal of any real property or facility acquired, constructed, or improved (in whole or in part) with commissary store funds or nonappropriated funds are greater than the depreciated value, then the excess amount must be deposited into the appropriate base closure account, not the Reserve Account.

2.4.3.1. The term “commissary store funds” means funds received from the adjustment of, or surcharge on, selling prices at commissary stores fixed under 10 U.S.C. § 2685.

2.4.3.2. The term “nonappropriated funds” means funds received from a NAF instrumentality. (See [Volume 13 for additional guidance and definitions.](#))

2.4.3.3. The term “nonappropriated fund instrumentality (NAFI)” means an instrumentality of the United States under the jurisdiction of the Armed Forces (including the Military Exchange Services). [NAFI programs and facilities shall be operated, maintained, and funded as an integral part of the personnel and readiness program.](#) (See [Volume 13 for additional guidance and definitions.](#))

2.4.3.4. The depreciated value of the investment made by NAF must be computed in accordance with Volume 13, Chapter 3.

2.4.4. Subject to availability, funds in the account may be used for the purpose of acquiring, constructing, or improving commissary stores, and real property and facilities for NAF instrumentalities.

2.4.5. DoD Components are responsible for ensuring that budgeting and accounting procedures can separately identify the following:

2.4.5.1. Commissary

2.4.5.2. Exchange system

2.4.5.3. All other NAFI balances in the Reserve Account.

3.0 BUDGET AND ACCOUNTING RESPONSIBILITIES (1303)

3.1 Requests for Funds (130301)

3.1.1. DoD Components

3.1.1.1. DoD Base Closure Account Financial Plan. The Military Departments and Defense Agencies, in cooperation with, and at the direction of, the Under Secretary of Defense for Acquisition and Sustainment or designee, the Director, Office of the Secretary of Defense (OSD) Base Realignment and Closure (BRAC) Office, must submit a financial plan to the Director, Military Personnel and Construction, Office of the Under Secretary of Defense (Comptroller) (OUSD(C)), Program/Budget (P/B), supported by a “DoD Base Closure Account Financial Plan,” (Format 460-BC) (see Figure 13-1), to request allocations of base closure funds. For planned military construction and family housing construction requirements, list separately on the financial plan each project to be executed using requested base closure funds. Also submit a separate narrative explanation for other planned expenditures to the Director, Military Personnel and Construction, OUSD(C), P/B, in sufficient detail on the Format 460-BC to support the DoD Component financial plan. Host DoD Components are responsible for coordination with all affected tenant activities, including Defense Agencies, Defense Medical Facilities Office, Reserve Components, and nonappropriated fund activities. Tenant activities must identify specific base closure program requirements to their host DoD Component.

3.1.1.2. BRAC Reprogramming Procedures. Section 2905A(f) of the Defense Base Closure and Realignment Act of 1990, as amended by the FY 2008 National Defense Authorization Act, Section 2704, (P.L. 110-181) specifies certain cost and scope limits on those BRAC 2005 military construction projects with costs equal to or in excess of \$5 million, as follows:

3.1.1.2.1. Cost may not be increased or reduced by more than 20% or \$2 million than the authorized amount, whichever is less.

3.1.1.2.2. Scope may not be reduced by more than 25% from the scope specified in the most recent budget justification material.

These limits do not apply if the Secretary of Defense makes a determination that an increase or reduction in cost or a reduction in the scope of work for a military construction project or military family housing project “needs to be made for the sole purpose of meeting unusual variations in cost or scope.” If such a determination is made, then the DoD must notify the congressional defense committees not later than 21 days before the date on which the variation is made (or 14 days if notification submitted electronically). The Deputy Under Secretary of Defense for Installations and Environment memorandum of February 27, 2008, delegated notification responsibility to the DoD Components contingent upon OUSD(C) and OSD BRAC Office concurrence.

3.1.2. Director, Military Personnel and Construction. This office must initiate the SF 132, “Apportionment and Reapportionment Schedule” for the appropriate base closure account for submission to the Office of Management and Budget (OMB) for its approval.

3.2 Funds Distribution (130302)

3.2.1. Director, Military Personnel and Construction. Upon OMB approval of the SF 132 for the base closure account, this office must provide a Fund Authorization Document to the applicable component for recording in the agency-level accounting records.

3.2.2. Director, Defense Finance and Accounting Service (DFAS). The Director of DFAS must obtain and record, in the departmental-level accounting records, a Financial Management Service (FMS) 6200, “Appropriation Warrant,” for the base closure accounts. Exhibit 13-1 illustrates the most common entries used for this account.

Exhibit 13-1. Accounting Entries for Recording Warrants

Dr 411900 Other Appropriations Realized
Cr 445000 Unapportioned Authority
Dr 101000 Fund Balance With Treasury
Cr 310100 Unexpended Appropriations – Appropriations Received
To record the appropriation warrant (FMS 6200).

3.2.3. DoD Components. The DoD Components must:

3.2.3.1. Record the Fund Authorization for the base closure accounts received from the Director, Military Personnel and Construction, OUSD(C), P/B. Exhibit 13-2 illustrates the most common entry used to accomplish this action.

Exhibit 13-2. Accounting Entries for Fund Authorization

Dr 445000 Unapportioned Authority
Cr 451000 Apportionments
To record the Fund Authorization received from OUSD(C) P/B.

3.2.3.2. Receive and record the allocations of base closure funds received from the Director, Military Personnel and Construction, OUSD(C), P/B, subdivide the allocations of the base closure accounts by subaccount, and distribute the base closure funds to the installations responsible for base closure actions. Each DoD Component must distribute the base closure funds to its installations in accordance with its normal fund distribution procedures. The applicable subaccounts are shown in Exhibit 13-3.

Exhibit 13-3. Base Closure Accounts by Subaccount

Military Construction:

Construction

a. (Project)

b. (Project)

Planning and Design

NOTE: The military construction subaccount must be reserved for projects listed individually on the Format 460 accompanying the fund allocation document.

Family Housing:

Construction

a. (Project)

b. (Project)

Planning and Design

Operations

Exhibit 13-3. Base Closure Accounts by Subaccount (continued)

Operation and Maintenance (O&M):

- Civilian Severance Pay
- Civilian Permanent Change of Station (PCS)
- Transportation of Things
- Facilities Sustainment
- Program Management (civilian work years, travel, and related support dedicated to implementation efforts)

Environmental:

Includes environmental restoration, including reducing, removing, and recycling hazardous wastes, and removing unsafe buildings and debris; Memoranda of Agreements between Defense and States (DSMOA), and reimbursements to the Agency for Toxic Substance and Disease Registry (ATSDR); and mitigation efforts associated with a military installation closure or realignment. Mitigation efforts do not apply to the DoD Base Closure Account.

Community Programs:

Community Planning Assistance: For communities located near a military installation to which functions must be transferred as a result of a closure or realignment of a military installation.

Economic Adjustment Assistance: For communities located near a military installation being closed or realigned.

Federal Agencies Reimbursement:

Includes reimbursements to other federal agencies for actions, other than for environmental activity discussed in this exhibit, performed with respect to any closure or realignment.

Military Personnel:

Limited to PCS and Temporary Duty (TDY) expenses dedicated to implementation efforts.

Procurement-type Items:

The procurement account should be limited to investment items in accordance with the expense/investment criteria.

Other Costs:

Any other expenses associated with base closure and realignment efforts.

3.2.3.3. Account for the receipt and allotment of the allocations using the entries in Exhibit 13-4.

Exhibit 13-4. Accounting Entries for Recording Allocations

Dr 455000 Internal Fund Distributions Received
 Cr 456000 Funds Available For Allotment

To record receipt of an allocation of direct program obligational authority.

Dr 456000 Funds Available For Allotment
 Cr 457000 Allotments Issued
Dr 101000 Fund Balance With Treasury
 Cr 310100 Unexpended Appropriations – Appropriations Received

To record the allotment of direct program obligational authority to a subordinate activity.

3.3 Plan Execution (130303)

The DoD Components must:

3.3.1. Record the allotment of base closure funds provided to installations. Exhibit 13-5 illustrates the entries to record the allotment.

Exhibit 13-5. Accounting Entries for Recording Allotments for Base Closure Accounts

Dr 458000 Allotments Received
 Cr 461000 Allotments--Realized Resources

Dr 101000 Fund Balance With Treasury
 Cr 310100 Unexpended Appropriations – Appropriations Received

To record receipt of an allotment.

3.3.2. Implement base closure and realignment actions and administer their allocation of base closure funds in accordance with their approved financial plan.

3.3.2.1. Exhibit 13-6 illustrates the entries for recording expenses that result in a fund outlay and that are incurred as a result of a DoD base closure.

Exhibit 13-6. Accounting Entries for Recording Expenses/Expenditures for Base Closure Accounts

 Cr 490200 Delivered Orders --Obligations, Paid
 and
Dr 610000 Operating Expenses/Program Costs
 Cr 101000 Fund Balance With Treasury

To record expenditure of an allotment.

3.3.2.2. Losses that do not result in a fund outlay and that are incurred as a result of a DoD base closure must be accounted for as an extraordinary loss. Exhibit 13-7 illustrates these entries.

Exhibit 13-7. Accounting Entries for Recording an Extraordinary Loss (Or Gain) That Does Not Result In Fund Outlay

Dr 173900 Accumulated Depreciation on Buildings, Improvements and Renovations
Dr 174900 Accumulated Depreciation on Other Structures and Facilities
Dr/Cr 730000 Extraordinary Items (Debit for Loss or Credit for Gain)
 Cr 171100 Land and Land Rights
 Cr 173000 Buildings, Improvements and Renovations
 Cr 174000 Other Structures and Facilities

To record extraordinary loss (or gain) that does not result in a fund outlay from base closures.

3.3.3. Rephase planned execution of the financial plan as the situation dictates, and with the prior approval of the Under Secretary of Defense for Acquisition and Sustainment or designee, the Director for Base Closure and Utilization, and in coordination with the Director, Military Personnel and Construction, OUSD(C), P/B. A revised Format 460-BC and supporting documentation must be prepared that reflects the changes in the financial plan.

4.0 REPORTING RESPONSIBILITIES (1304)

4.1 DoD Components (130401)

The DoD Components must prepare and submit reports to the appropriate DFAS site on the status of its allotments. At a minimum, these reports must offer detail for each subaccount specified in a Fund Authorization document provided by OSD (see subparagraph 3.2.3). Submit these reports in accordance with a schedule of due dates to be provided by the DFAS.

4.2 Defense Finance and Accounting Service (130402)

4.2.1. Establish base closure accounts with Treasury.

4.2.2. Post SF 1151, “Nonexpenditure Transfer Authorizations” transactions, as necessary, for the base closure accounts.

4.2.3. Prepare departmental-level appropriation and fund status reports as required by Volume 6A, Chapter 4, for the base closure accounts administered by the Military Departments and Defense Agencies.

4.2.4. Prepare Chief Financial Officer reports for all base closure accounts.

4.2.5. Offer consolidation of appropriate financial reports to produce Treasury Index 97 financial reports on a pass-through basis.

4.2.6. Subject to the approval of the OUSD(C), supplement this guidance with additional procedures, as may be required.

5.0 ADMINISTRATION OF BASE CLOSURE FUNDS (1305)

5.1 Appropriated Fund Activities (130501)

Expenses, losses, or other events occurring at an appropriated fund activity as a direct result of a DoD base closure action, which result in a cash outlay, are eligible for reimbursement from the applicable DoD Base Closure Account. Expenses, losses, or other events not resulting in a cash outlay by an appropriated fund activity are not eligible for reimbursement. Expenses, losses, or other events that result in a cash outlay (vice expenses, losses, or other events that do not result in a cash outlay) are dependent largely upon the unique circumstances in existence at a particular activity subject to closure. The general guidance on those two categories of expenses and losses are:

5.1.1. Expenses that Ordinarily Result in a Cash Outlay

5.1.1.1. Military Construction projects, including planning and design efforts, for which base closure funds are requested.

5.1.1.2. Family Housing projects, including construction, planning and design, and operations for which base closure funds are requested.

5.1.1.3. Operations and Maintenance-type efforts including civilian severance pay, civilian PCS, outplacement assistance transportation of things, facilities sustainment, and program management (civilian work years, travel, and related support dedicated to implementation efforts).

5.1.1.4. Environmental projects including environmental restoration (reducing, removing, and recycling hazardous wastes, and removing unsafe buildings and debris),

Memoranda of Agreements between the DoD and the various states, and reimbursements to the Agency for Toxic Substance and Disease Registry (ATSDR).

5.1.1.5. Community Programs including economic adjustment assistance to a community in which the closed base is located, or community planning assistance to the community to which functions must be transferred as a result of a closure or realignment of a military installation.

5.1.1.6. Federal agencies including reimbursements to other Federal agencies for actions, other than for environmental activity discussed in subparagraph 5.1.1.4, performed with respect to any closure or realignment.

5.1.1.7. Military Personnel, limited to PCS and TDY expenses dedicated to implementation efforts.

5.1.1.8. Procurement-type Items for those items normally purchased with procurement appropriations.

5.1.1.9. Other expenses associated with base closure and realignment efforts.

5.1.2. Losses that Do Not Ordinarily Result in a Cash Outlay. Losses on real property or facilities sold, leased, transferred, or disposed of in connection with the closure or realignment of a military installation.

5.2 Disposition of DoD Base Closure Assets (130502)

The loss (or gain) from the sale, lease, or other disposal of assets must be recorded by the activity having financial custody of those assets. The sale, lease, or other disposal action must only be recorded in proprietary accounts of that installation. Any proceed generated from the sale, lease, or other disposal action of assets does not add to, or otherwise affect, the budgetary accounts of that activity. Exhibit 13-8 illustrates these entries.

CHAPTER 14

**TRANSFERRING, DISPOSING, AND LEASING OF REAL PROPERTY AND
PERSONAL PROPERTY**

1.0 GENERAL

1.1 Purpose

This chapter provides financial policy for the disposal, transfer, and leasing of real property, as well as the transfer and lease of personal property. Financial policy for the disposal of personal property is addressed in [Volume 11A, Chapter 5](#), “Disposition of Proceeds from Department of Defense Sales of Surplus Personal Property.”

*1.2 Authoritative Guidance

1.2.1. Title 40, United States Code, section 572(b) ([40 U.S.C. § 572\(b\)](#)), “Real Property,” applies to real property, including any improvement on the property, that is under the control of a Military Department and that the Secretary of the Department determines is excess to the Department's needs. [10 U.S.C. § 2667](#), “Leases: non-excess property of Military Departments and Defense Agencies,” governs leases of Department of Defense (DoD) real and personal property. Sections 572(b) and 2667 require that [Military Departments must deposit](#) proceeds received from the transfer or disposition, or lease of real and personal property controlled into special accounts established by the United States Department of the Treasury (Treasury) for that Secretary. [10 U.S.C. § 2687](#), “Base closures and realignments,” requires [Military Departments to deposit](#) proceeds from the lease, transfer, or disposal of any property at a military installation that is closed or realigned into accounts established by Treasury. [Statement of Federal Financial Accounting Standards \(SFFAS\) 54](#), “Leases” applies to federal entities that present general purpose federal financial reports, in conformance with generally accepted accounting principles, as defined by [SFFAS 34](#), “The Hierarchy of Generally Accepted Accounting Principles, Including the Application of Standards Issued by the Financial Accounting Standards Board.”

1.2.2. Unless otherwise stated, the provisions of this chapter do not apply to:

1.2.2.1. The disposition of proceeds from the sale of surplus personal property (see Volume 11A, Chapter 5);

1.2.2.2. Property at a military installation designated for closure or realignment under 10 U.S.C. § 2687 (see [Chapter 13](#), “DoD Support to United States Commercial Space Activities”);

1.2.2.3. Damaged or deteriorated military family housing (see [10 U.S.C. § 2854a](#), “Conveyance of damaged or deteriorated military family housing; use of proceeds”);

1.2.2.4. The lease of defense articles in the stocks of DoD to an eligible foreign country or international organization under [22 U.S.C. § 2796](#), “Leasing Authority;”

1.2.2.5. Transfer of defense articles to Iraq under the National Defense Authorization Act for fiscal year 2008 ([Public Law 110-181](#), section 1228);

1.2.2.6. Proceeds from the disposal of property received as gifts under [10 U.S.C. § 2601](#), "General gift funds," (see [Chapter 30](#), "Operation and Use of General Gift Funds").

2.0 POLICY

2.1 Leases: Non-excess Property and Personal Property

2.1.1. The Secretary of a Military Department [may](#) lease non-excess real and personal property under its control that is not needed for a public use for the time that it is leased in accordance with 10 U.S.C. § 2667. Section 2667 provides the same authority to the Secretary of Defense (SecDef) with respect to property under the control of a Defense Agency. Throughout this chapter, the term "Secretary concerned" will mean the Secretary of a Military Department, with respect to matters concerning that Military Department; and the SecDef, with respect to matters concerning the Defense Agencies.

2.1.2. Leases for non-excess property may be accepted under the following conditions:

2.1.2.1. The lease is not more than five years unless the Secretary concerned determines a longer period to be in the public interest.

2.1.2.2. The lease has a provision that it may be revoked at any time. If the lease is revoked to sell the property, the lessee may be given [the](#) first option to buy.

2.1.2.3. The payment (in cash or in-kind) is not less than the fair market value.

2.1.2.4. The lease may not provide for a leaseback payment of [more than \\$500,000 per year by the Secretary concerned or DoD](#).

2.1.2.5. [Deposit](#) all fees received from such leases (other than from leases of property at a military installation designated for closure or realignment) into a special Treasury account established for that Secretary.

2.1.2.6. [Deposit](#) proceeds deposited in the special Treasury account established for the Secretary concerned [to make proceeds](#) available to that Secretary and distributed by the Office of the Under Secretary of Defense (Comptroller), Program/Budget (OUSD(C)/PB) consistent with appropriation law. See paragraph 2.2.

2.1.2.7. This section does not apply to oil, mineral, or phosphate lands.

2.1.3. Repeal of 10 U.S.C. § 2667a. The Duncan Hunter National Defense Authorization Act for fiscal year 2009 repealed 10 U.S.C § 2667a, "Leases: non-excess property of Defense agencies" (see [Public Law 110-417](#), section 2812). This authority is now incorporated into

10 U.S.C. § 2667, as revised, and that section now covers leases by both military services and Defense Agencies. In addition:

2.1.3.1. The repeal of 10 U.S.C. § 2667a does not affect the validity or terms of any lease with respect to [the](#) property of a Defense Agency entered into by the SecDef under 10 U.S.C. § 2667a.

2.1.3.2. Amounts deposited in a special Treasury account established for a Defense Agency pursuant to 10 U.S.C. § 2667a before repeal and amounts that would be deposited in connection with outstanding leases:

2.1.3.2.1. Remain available until expended for the purposes specified in section 2667a, specifically, solely for the maintenance, repair, restoration, or replacement of the leased property; or

2.1.3.2.2. To the extent provided by appropriations law, [it](#) must be transferred to the special Treasury account described in paragraphs 2.2 and 2.3.

2.1.4. Easements for Rights-of-Way. [10 U.S.C. § 2668](#) allows the Secretary of a Military Department to grant easements for rights-of-way over, in, and upon public lands under the Secretary's control. This authority is available provided the Secretary of that Military Department finds that the easement will not be against the public interest.

2.1.4.1. The easement may be made upon such terms as the Secretary considers advisable. The authorized purposes of the easement are listed in 10 U.S.C. § 2668(a).

2.1.4.2. [Account for](#) proceeds and in-kind consideration received from the granting of easements in the manner specified for leases of DoD property in 10 U.S.C. § 2667. See paragraphs 2.2 and 2.3.

2.1.5. Natural Resource Conservation. [10 U.S.C. § 2694a](#) allows the Secretary of a Military Department to convey certain surplus real property for purposes of natural resource conservation.

2.1.5.1. Surplus property that may be conveyed under this authority is limited to property that:

2.1.5.1.1. Is under the administrative control of the Secretary;

2.1.5.1.2. Is suitable and desirable for conservation purposes;

2.1.5.1.3. Has been made available for public benefit transfer for a sufficient period of time to potential claimants; and

2.1.5.1.4. Is not subject to a pending request for transfer to another Federal agency or for conveyance to any other qualified recipient for public benefit transfer under the real

property disposal processes and authorities in [40 U.S.C. § 550](#), “Disposal of real property for certain purposes.”

2.1.5.2. Entities eligible to receive surplus property for purposes of natural resource conservation are limited to states, political subdivisions of a state; and nonprofit organizations that exist for the primary purpose of conservation of natural resources on real property.

2.2 Accounting Procedures for Leases of Real and Personal Property

2.2.1. Deposit of Funds. [Deposit](#) funds received from the lease or easement of real and personal property under 10 U.S.C. § 2667 and 10 U.S.C. § 2668 (other than from leases of property at a military installation designated for closure or realignment) into the special fund Treasury receipt account, net of amounts paid for utilities and services furnished to lessees.

2.2.2. Services Furnished to Lessees. [Treat](#) payments for utilities and services furnished lessees pursuant to leases as a normal reimbursable transaction with funds credited to the appropriation account or working capital fund from which the cost of furnishing the utilities and services was paid.

2.2.3. Designated Purposes. [Deposit](#) funds in Treasury receipt account 5189 to the Secretary concerned for expenditure to the extent provided for in appropriation acts, for the following:

2.2.3.1. Maintenance, protection, alteration, repair, improvement, or restoration (including environmental restoration) of property or facilities.

2.2.3.2. Construction or acquisition of new facilities.

2.2.3.3. Lease of facilities.

2.2.3.4. Payment of utility services.

2.2.3.5. Real Property maintenance services

2.2.4. Use of Proceeds

2.2.4.1. At least 50 percent of the funds deposited [are](#) available for the designated purposes at the military installation or Defense Agency location where the proceeds were derived.

2.2.4.2. [Proceeds](#) deposited for designated purposes, derived from activities associated with a military museum, must be available for that museum.

2.2.4.3. [The Secretary concerned may spend](#) the remainder of the funds deposited for the designated purposes as described in subparagraph 2.2.3.

2.2.5. Agricultural and Grazing. [The Secretary concerned may retain and spend money for](#) rentals received related to a lease for agricultural or grazing purposes to cover the administrative expenses of agricultural or grazing leases and to cover the financing of multiple-land use management programs at any installation under the jurisdiction of the Secretary. This provision does not apply to lands acquired by the United States for flood control or navigation purposes or any related purpose, including the development of hydroelectric power.

2.2.5.1. To ensure appropriate accounting and reporting of proceeds from agricultural and grazing leases, the Military Departments must factor collections received into their annual budget process and request the Office of Management and Budget to apportion them prior to use. See 10 U.S.C. § 2667 for complete guidance for collections and disbursements related to agricultural and grazing leases. The Military Departments are prohibited from using suspense account F3875 to record and report these proceeds.

2.2.5.2. When recording the direct offsetting collections in general fund accounts (e.g., an Operation and Maintenance account for agricultural and grazing lease proceeds), the Military Departments must use United States Standard General Ledger (USSGL) account 426600 “Other Actual Business-Type Collections From Non-Federal Sources,” which provides direct spending authority on line 1800 of the Standard Form (SF) 132, “Apportionment,” and the SF 133, “Report on Budget Execution and Budgetary Resources.”

2.2.6. Leases under 10 U.S.C. § 2667a. The provisions of this paragraph apply to the proceeds from leases of Defense Agency property under 10 U.S.C. § 2667a (repealed October 2008) only to the extent provided by appropriation law. Otherwise, such proceeds may be used only for costs related to the leased property. See subparagraph 2.2.3. The repeal of this section does not affect the validity or terms of any lease with respect to [the](#) property of a Defense Agency entered into by the SecDef before the repeal date of October 14, 2008.

2.2.7. Accounting Entries. The value of lease payments received and payments for services provided will be recognized as revenue. The accounting entries for the recognition of revenue are specified in the DoD USSGL, Standard Financial Information Structure ([SFIS](#)) [Transaction Library](#), primarily in Category C, “Collections and Receivables.”

2.2.8. Appropriation Authority. Per section 8034 of the fiscal year 2005 DoD Appropriations Act, [Public Law 108-287](#), amounts deposited in special Treasury accounts established pursuant to 40 U.S.C. § 572 and 10 U.S.C. § 2667 during fiscal year 2005 and in subsequent years remain available until transferred by the SecDef to current applicable appropriations, at which point they are available for the same time period and the same purposes as the appropriation to which transferred.

2.3 Special Treasury Fund for the Proceeds of Sale and Lease

2.3.1. Requirements. The special funds are to be established and operated under the provisions of [Chapter 1](#), “Funds.” The special funds designated by the Treasury for use in connection with 40 U.S.C. § 572, [40 U.S.C. § 485](#), and 10 U.S.C. § 2667, are Treasury Fund Symbols 5188, “Disposal of DoD Real Property,” and 5189, “Lease of DoD Real Property.” These Federal

Treasury account symbols have been established as no-year accounts. These Funds and applicable point accounts are listed in Table 14-1.

2.3.2. Purposes

2.3.2.1. 40 U.S.C. § 572. Any net proceeds (gross proceeds less expenses of transferring or disposing of the property) received from the transfer or disposal of real property under 40 U.S.C. § 572 must be deposited into special fund Treasury receipt account 5188, "Disposal of DoD Real Property," with point accounts as listed in Table 14-1. See paragraph 2.2 for the appropriate accounting treatment.

2.3.2.2. 10 U.S.C. § 2667(e)(1)(A). Funds received from leases of real property entered into pursuant to 10 U.S.C. § 2667 must be deposited into the special fund Treasury receipt account 5189, "Lease of DoD Real Property," with point accounts as listed in Table 14-1. Funds received from leases of personal property must also be deposited into the special fund Treasury receipt account 5189, "Lease of DoD Real Property." See paragraph 2.2 for the appropriate accounting treatment.

2.4 Acceptance of Funds to Cover Administrative Expenses

2.4.1. In connection with real property transactions with nonfederal persons or entities, 10 U.S.C. § 2695 states: "...the Secretary of a Military Department may accept amounts provided by the person or entity to cover administrative expenses incurred by the Secretary in entering into the transaction." Acceptance of funds applies to the following transactions:

2.4.1.1. The exchange of real property;

2.4.1.2. The grant of an easement over, in, or upon real property of the United States;

2.4.1.3. The lease or license of real property of the United States;

2.4.1.4. The disposal of real property of the United States for which the Secretary will be the disposal agent; or

2.4.1.5. The conveyance of real property under 10 U.S.C. § 2694a.

2.4.2. Amounts collected for administrative expenses must be credited to the appropriation, fund, or account from which the expenses were paid. The amounts credited must be merged with funds of an identical appropriation, fund, or account and must be available for the same purposes and subject to the same limitations as these funds.

2.4.3. Accounting Entries. Funds received to cover administrative expenses will be recognized as revenue. Standard accounting entries are specified in the USSGL SFIS Transaction Library.

2.5 Leases: In-Kind Consideration

2.5.1. Acceptance of In-Kind Consideration. Generally, the receipt of cash is the preferred form of consideration for leases of buildings and property of the Federal Government per [40 U.S.C. § 1302](#). In some cases, under 10 U.S.C § 2667, as payment of part or all of the consideration for the lease, the terms of the lease may provide for the alteration, repair, or improvement, by the lessee, of the property leased.

2.5.2. Types of In-Kind Consideration. In-Kind consideration falls into two categories: construction or maintenance of real property, and the reduction of expenses.

2.5.2.1. Real Property In-Kind Consideration involves:

2.5.2.1.1. Alteration, repair, or improvement of property leased in lieu of rental payments.

2.5.2.1.2. Maintenance, protection, alteration, repair, improvement, or restoration (including environmental restoration) of property or facilities under the control of the Secretary concerned.

2.5.2.1.3. Construction of new facilities for the Secretary concerned.

2.5.2.2. Expense-type In-Kind Consideration involves:

2.5.2.2.1. Provision of facilities for use by the Secretary concerned.

2.5.2.2.2. Provision or payment of utility services for the Secretary concerned.

2.5.2.2.3. Provision of real property maintenance services for the Secretary concerned.

2.5.2.2.4. Provision of such other services relating to activities that will occur on the leased property as the Secretary concerned considers appropriate.

2.5.2.3. Expense-type In-Kind Consideration results in revenue recognition equal to the operating expenses that are avoided because of receiving the in-kind contribution.

2.5.3. Accounting for In-Kind Consideration

2.5.3.1. Real Property In-Kind Consideration. SFFAS No.7, "Accounting for Revenue and Other Financial Sources and Concepts for Reconciling Budgetary and Financial Accounting", paragraph 36(d) states: "Revenue from specific types of exchange transactions [must](#) be recognized as follows: When services are rendered continuously over time or the right to use an asset extends continuously over time, such as the use of borrowed money or the rental of space

in a building, the revenue **must** be recognized in proportion to the passage of time or the use of the asset."

2.5.3.2. Accounting Entries. The accounting entries for in-kind revenue earned are in the USSGL SFIS Transaction Library. To recognize revenue earned and capitalized assets received, the Treasury accounts detailed in Table 14-2 must be used. [For additional information on leases see Volume 4, Chapter 26, "Accounting For Leases."](#)

2.6 Transfers of DoD Real Property

2.6.1. In accordance with 40 U.S.C. § 572(b), real property and related improvements under the control of a Military Department (other than property at a military installation designated for closure or realignment) that are determined by the Secretary of the Military Department to be excess to the needs of that Department must be made available for transfer without reimbursement to other Military Departments. If the property is not transferred to another Military Department, the Secretary of the Military Department must request the Administrator of the General Services Administration (GSA) to transfer or dispose of such property in accordance with applicable laws.

2.6.2. Any proceeds generated from [the](#) transfer or disposition of property will be deposited into a special account in the Treasury. Funds deposited into the special Treasury account will be distributed to the Military Department(s) by the OUSD(C)/PB consistent with applicable appropriation law to include an amount for facility maintenance and repair or environmental restoration as stated in 40 U.S.C. § 572(b).

2.6.3. If a Military Department determines that real property and related improvements under its control (other than property at a military installation designated for closure or realignment) are [in](#) excess [of](#) its needs and are available for transfer to another Military Department, the transfers will be made on a non-reimbursable basis.

2.6.4. Both the losing and gaining Military Departments will recognize the transfer of real property in the accounting records. The value of the transfer is the net book value of the assets (acquisition cost of the real property plus the cost of capitalized improvements less accumulated depreciation). If the net book value of the property is not known or cannot be determined, the fair market value at the time of the transfer may be used. The same amount of the transfer must be used by both parties. Detailed explanations for property and fiscal accountability are required as supporting footnotes to the accounting entries.

2.6.5. The accounting entries for transfers between DoD components without reimbursement are standard transactions E510 and E606 specified in the USSGL SFIS Transaction Library.

2.6.6. The [DoD \(DD\) Form 1354](#), "Transfer and Acceptance of DoD Real Property," is used to document the transfer of real property between DoD Components.

2.7 Disposal of DoD Real Property

2.7.1. Sale by GSA. If real property is not transferred to another Military Department, the SecDef must request that the GSA Administrator dispose of such real property in accordance with the provisions of applicable laws. See [DoD Instruction 4165.72](#), “Real Property Disposal,” for additional information.

2.7.2. Deposit of Proceeds. Any consideration (money) received must be deposited directly into the special fund Treasury receipt account 5188 with the point account specified in Table 14-1. The explanation for this transaction is as follows: to record the disposition of real property located at (include a full description and the Real Property Universal Identifier number). Monies received were deposited into the special fund Treasury account [097X5188](#), “Disposal of DoD Real Property,” under cash voucher #_____ in accordance with 40 U.S.C. § 572.

2.7.3. Availability of amount deposited. To the extent provided in an appropriation act, an amount deposited in a special Treasury account from the disposal of property is available for facility maintenance and repair or environmental restoration as follows:

2.7.3.1. In the case of property located at a military installation that is closed, the amount is available for facility maintenance and repair or environmental restoration by the Military Department that had jurisdiction over the property before the closure of the military installation.

2.7.3.2. In the case of property located at any other military installation:

2.7.3.2.1. Fifty percent of the amount is available for facility maintenance and repair or environmental restoration at the military installation where the property was located before it was disposed of or transferred; and

2.7.3.2.2. Fifty percent of the amount is available for facility maintenance and repair and for environmental restoration by the Military Department that had jurisdiction over the property before it was disposed of or transferred.

2.7.4. Accounting Entries. The accounting entries for disposal of real property are specified in the USSGL SFIS Transaction Library, primarily in Category C, “Collections and Receivables” and Category D, “Adjustments, Write-offs and Reclassifications.”

3.0 REPORTING REQUIREMENTS TO CONGRESS

3.1 Reporting and Notification

3.1.1. 40 U.S.C. § 572(b)(6). As part of the annual request for authorization of appropriations to the Committees on Armed Services of the Senate and the House of Representatives, the Department must include an accounting of each transfer and disposal of real property made during the fiscal year proceeding the fiscal year in which the request is made. This summary must include a detailed explanation of such disposal and the use of the proceeds received.

3.1.2. 10 U.S.C. § 2662(a). Includes specific reporting requirements for leases in which the Secretary of a Military Department or, with respect to a Defense Agency, the SecDef may not enter into any transactions by or for the use of that Department until the Secretary concerned submits a report to the Committee on Armed Services of the Senate and the Committee on Armed Services of the House of Representatives. These reporting requirements are discussed in detail in paragraph 3.2.

3.1.3. 10 U.S.C. § 2667(h). When a proposed lease involves only personal property, the lease term exceeds one year, and the fair market value of the lease consideration exceeds \$100,000:

3.1.3.1. This paragraph does not apply if the Secretary concerned determines that:

3.1.3.1.1. A public interest will be served as a result of the lease; and

3.1.3.1.2. The use of competitive procedures for the selection of certain lessees is unobtainable or not compatible with the public benefit served under [subparagraph 3.1.3.1.1](#).

3.1.3.2. Not later than 45 days before entering into a lease, the Secretary concerned must submit to Congress written notice describing the terms of the proposed lease to include:

3.1.3.2.1. The competitive procedures used to select the lessee; or

3.1.3.2.2. In the case of a lease involving the public benefit exception authorized by 10 U.S.C. § 2667(h) (2) and the description of the public benefit to be served by the lease.

3.1.3.3. The reporting requirement described in this paragraph does not apply to [the](#) renewal or extension of a certain lease by the Secretary of the Navy for [the](#) operation of a ship within the University National Oceanographic Laboratory System. See 10 U.S.C. § 2667(h)(3) for the specific terms of this exception.

3.1.4. 10 U.S.C. § 2668. Copies of instruments granting easements over public lands must be furnished to the Secretary of the Interior.

3.2 Reporting under Title 10 U.S.C. § 2662

3.2.1. Under 10 U.S.C. § 2662, the Secretary concerned must submit a report to the Committee on Armed Services of the Senate and the Committee on Armed Services of the House of Representatives before entering into an acquisition, lease, license, or easement of real property owned by the United States (other than a lease or license entered into under Base Closure and Realignment Property), if the estimated price or annual fair market rental value of the property is more than \$750,000.

3.2.2. Reporting notifications under 10 U.S.C. § 2662 do not apply to any new facilities whose construction is accepted as in-kind consideration. The Secretary concerned must notify

Congress of the proposed lease before (1) issuing a contract solicitation or other lease offering with regard to the transaction; and (2) providing public notice regarding any meeting to discuss a proposed contract solicitation with regard to the transaction. The contents of this public notification are specified in 10 U.S.C. § 2662(b)(2). Specifically, the notification must include the following with regard to the proposed lease:

3.2.2.1. A description of the proposed transaction, including the proposed duration of the lease;

3.2.2.2. A description of the authorities to be used in entering into the transaction;

3.2.2.3. A statement of the scored cost of the entire transaction, determined using the scoring criteria of the Office of Management and Budget;

3.2.2.4. A determination that the property involved in the transaction is not excess property, as required by 10 U.S.C. § 2667 (a)(3), including the basis for the determination;

3.2.2.5. A determination that the proposed transaction is directly compatible with the mission of the military installation at which the property is located and a description of the anticipated long-term use of the property at the conclusion of the lease;

3.2.2.6. A description of the requirements or conditions within the contract solicitation or other lease offering for the person making the offer to address taxation issues, including payments in lieu of taxes, and other development issues related to local municipalities; and

3.2.2.7. If the proposed lease involves a project related to energy production, a certification by the SecDef that the project, as it will be specified in the contract solicitation or other lease offering, is consistent with the DoD performance goals and plan required by [10 U.S.C. § 2911](#).

3.2.3. 10 U.S.C. 2662 Notification. The Secretary concerned may not enter into the actual lease with respect to property for which the information required by 10 U.S.C. § 2662(b)(2) (see 3.1.2) was submitted in a report to Congress unless the Secretary again complies with these notice-and-wait requirements. The subsequent report to Congress must include the following with regard to the proposed transaction:

3.2.3.1. A cross reference to the prior report that contained the information submitted under 10 U.S.C. § 2662(b)(2) with respect to the transaction;

3.2.3.2. A description of the differences between the information originally submitted under 10 U.S.C. § 2662(b)(2) and the information regarding the transaction being submitted in the subsequent report;

3.2.3.3. A description of the payment to be required in connection with the lease, license, or easement including a description of any in-kind consideration that will be accepted;

- 3.2.3.4. A description of any community support facility or provision of community support services under the lease, license, or easement, regardless of whether the facility will be operated by a covered entity (as defined in 10 U.S.C. § 2667(d)) or the lessee or the services will be provided by a covered entity or the lessee; and

3.2.3.5. A description of the competitive procedures used to select the lessee or, in the case of a lease involving the public benefit exception authorized by 10 U.S.C. § 2667 (h)(2), a description of the public benefit to be served by the lease.

Treasury Fund Symbol	Description
097X5188	Disposal of Department of Defense Real Property, Defense
097X5189	Lease of Department of Defense Real Property, Defense

*Table 14-2. USSGL Accounts for Leases with In-Kind Consideration

Entry	Account	Account Description	Comments
Debit	101000	Fund Balance with Treasury	For cash received from lessee
Debit	193000	Lessor Lease Receivable	This account is used to record the present value of lease payments to be received for the lease term in leases other than short-term, intragovernmental, and lease contracts that transfer ownership. This account does not close at year-end.
Debit	1xxxxx	Appropriate asset account(s)	For capitalized assets received from or constructed by lessee
Debit	679000	Other Expenses Not Requiring Budgetary Resources	For in-kind services and non-capitalizable assets received from lessee
Credit	593000	Lessor Lease Revenue	This account is used to record the amount of revenue earned from (1) Short-term lease payments paid to a lessor based on the provisions of the lease contract; (2) Intragovernmental lease receipts to a lessor, including lease related operating costs (maintenance, utilities, taxes, etc.,) received from the lessee based on the provisions of the lease agreement; and (3) Variable payments based on future performance of the lessee or usage of the underlying asset in leases other than short-term, intragovernmental, and lease contracts that transfer ownership.

VOLUME 12, CHAPTER 15: “EDUCATIONAL ASSISTANCE PROGRAMS”**SUMMARY OF MAJOR CHANGES**

Changes are identified in this table and also denoted by [blue font](#).

Substantive revisions are denoted by an * symbol preceding the section, paragraph, table, or figure that includes the revision.

Unless otherwise noted, chapters referenced are contained in this volume.

Hyperlinks are denoted by [bold, italic, blue, and underlined font](#).

The previous version dated March 1998 is archived.

PARAGRAPH	EXPLANATION OF CHANGE/REVISION	PURPOSE
1.2.2. (150102.B.)	Provides additional references for the Title 10, U.S.C., Chapter 1607 benefits, the “National Call to Service” program, and the “Benefits Transferred to Dependents” program.	Addition
2.3.1.5. (150203.A.5.)	Details the expiration of the benefit entitlement for active duty.	Addition
2.3.2.3. (150203.B.3.)	Provides the benefit entitlement criteria for the Reserve Component members who are ordered to active duty.	Addition
2.3.2.4. (150203.B.4.)	Provides guidance on benefit entitlement criteria for Reserve Component members who separate because of a disability.	Addition
2.3.3. (150203.C.)	Details benefit criteria for Reserve Component Members supporting Contingency Operations (Title 10, U.S.C., Chapter 1607).	Addition
2.3.4. (150203.D.)	Details benefit criteria for the National Call to Service Incentive program (Title 10 U.S.C., section 510(e)).	Addition
2.3.5. (150203.E.)	Details benefit criteria for the 38 U.S.C. Chapter 30 benefits Transferred to Dependents program (Title 38, U.S.C., section 3020).	Addition
2.3.6. (150203.F.)	Provides clarification on maximum combined eligibility for multiple benefit programs.	Addition
3.3.2. (150303.B.)	Details the Reserve Educational Assistance Program (REAP) for Reserve Component Members Supporting Contingency Operations and Other Specified Missions (Title 10, U.S.C., Chapter 1607).	Revision
5.3 (150503)	Details FY 2007 monthly benefit rates for members who are entitled to basic education assistance with regard to REAP.	Revision

PARAGRAPH	EXPLANATION OF CHANGE/REVISION	PURPOSE
7.4.1. (150704.A.)	Details contribution reporting requirements for the active duty appropriations.	Revision
7.4.2. (150704.B.)	Details contribution reporting requirements for the Reserve and National Guard appropriations.	Revision
7.3.1. (150703.A.)	Update to office symbol for the DFAS Trust Fund Investment Office.	Revision
8.2 (150802)	Update to e-mail address when requesting a fund transfer from the trust fund to DVA.	Revision

CHAPTER 15

EDUCATIONAL ASSISTANCE PROGRAMS

1.0 OVERVIEW (1501)

1.1 Purpose (150101)

This chapter provides guidance relative to [financial operations of and](#) recording transactions for the Educational Assistance Programs and establishes the accounting principles and standards relative to those requirements.

1.2 General (150102)

1.2.1. Entitlements under the Educational Assistance Programs are established by law and are available to any person meeting eligibility requirements. Authorizations for entitlements constitute a binding obligation on the part of the Federal Government, and eligible recipients may have legal recourse if the obligation is not fulfilled. Legislation authorizing entitlements does not necessarily include a corresponding appropriation of funds; thus, the subsequent enactment of appropriations may be necessary.

* 1.2.2. Entitlements for veteran educational assistance shall be established in accordance with [DoD Directive 1322.16](#), “Montgomery GI Bill (MGIB) Program (dated June 18, 2002, USD(P&R)),” [DoD Instruction 1322.17](#), “Montgomery GI Bill for the Selected Reserve (dated November 29, 1999, ASD(RA)),” Directive-type Memorandum, “Interim Procedures for Implementing the Program of Educational Assistance Authorized Under the Provisions of [Chapter 1607, Title 10, U.S.C.](#) (dated March 7, 2006, ASD(RA)),” the “National Call to Service Implementation Memorandum (dated September 6, 2003, USD(P&R))” (10 U.S.C. section 510(e)); and Benefits Transferred to Dependents ([Chapter 30, 38 U.S.C. section 3020](#)).

2.0 EDUCATIONAL ASSISTANCE PROGRAMS (1502)

2.1 Background (150201)

The Veteran’s Educational Assistance Act of 1984 (P.L. 98-525) referred to as the Montgomery GI Bill (MGIB), provides for an educational assistance program to aid in the recruitment and retention of members of the Armed Forces and the readjustment of members to civilian life after their separation from military service. The Act also provides a program of educational assistance to aid in the recruitment and retention of members of the Selected Reserve.

2.2 Accounting Treatment (150202)

The accounting treatment to be followed for entitlement programs depends on the program and the nature and other circumstances surrounding the requirements to pay benefits. Generally, the unexpended appropriation shall be reduced by the amount of the liability and recorded as a financing source when the liability and expense are recognized. [Specific payment procedures for each education benefit program are outlined below.](#)

2.3 Eligibility Requirements (150203)

* 2.3.1. Active Duty ([Chapter 30, Title 38 U.S.C.](#)). Eligibility is obtained when an individual:

* 2.3.1.1. First becomes a member of the Armed Forces [but expires 10-years after the member separates.](#)

2.3.1.2. Does not disenroll from the basic program.

2.3.1.3. Has their pay reduced by \$100 per month for the first 12 months of active duty.

2.3.1.4. Meets the initial Service-defined criteria for additional or supplemental benefits of any type.

* 2.3.1.5. [Members who are separated from active duty because of a disability which was not the result of the individual's own willful misconduct incurred on or after the date on which that member became entitled to educational assistance, such member's entitlement to educational assistance expires at the end of the 10-year period beginning on the date on which the member was discharged or was released from active duty.](#)

2.3.2. Selected Reserve ([Chapter 1606, Title 10, U.S.C.](#))

2.3.2.1. Members of the Selected Reserve who meet all of the following criteria are entitled to educational assistance:

2.3.2.1.1. On or after July 1, 1985, enlisted, reenlisted or extended an enlistment in a Reserve component for service in the Selected Reserve for a period of not less than 6 years or, in the case of officers, agree to serve in the Selected Reserve for 6 years beyond any existing Selected Reserve service obligation.

2.3.2.1.2. Completed the requirements for award of a high school diploma or equivalency certificate before applying for benefits (Reference [10 U.S.C. 16132\(a\)](#)).

2.3.2.1.3. Completed the initial period of active duty for training required of the member.

2.3.2.2. Each person who becomes entitled to educational assistance shall be given a written DD Form 2384-1, Notice of Basic Eligibility summarizing the provisions of 10 U.S.C. Chapter 1606. This notice provides a date of basic eligibility contingent on meeting initial eligibility criteria established in subparagraph 2.3.2.1 above.

* 2.3.2.3. Period of Entitlement. Member's entitlement to educational assistance expires at the end of the 14-year period beginning on the date on which the member became entitled to such assistance or on the date the member separates from the Selected Reserve, whichever occurs first. However, the expiration of a Service member's entitlement who is ordered to active duty under an order issued under sections 12031(a), 12301(d), 12301(g), or 12304 of 10 U.S.C. shall be extended beyond the 14-year period or the date the Service member separated from the Selected Reserve by the length of the period of active duty plus 4 months.

* 2.3.2.4. Members who are separated from the Selected Reserve because of a disability which was not the result of the individual's own willful misconduct incurred on or after the date on which that member became entitled to educational assistance, such member's entitlement to educational assistance expires at the end of the 14-year period beginning on the date on which the member became entitled to such assistance.

* 2.3.3. Reserve Component Members Supporting Contingency Operations (Chapter 1607, Title 10, U.S.C.).

2.3.3.1. Reserve Component members supporting contingency operations and National Guard Members supporting certain operational requirement who meet all of the following criteria are entitled to educational assistance:

2.3.3.1.1. Reserve Component member ordered to active duty in support of a contingency operation and served for 90 consecutive days or more on or after September 11, 2001.

2.3.3.1.2. A member of the Army or Air National Guard, ordered to duty under Section , for 90 consecutive days or more if the duty performed was authorized by the President or Secretary of Defense for the purpose of responding to a national emergency declared by the President and supported by federal funds, and 90 or more consecutive days of such duty occurred on or after September 11, 2001.

2.3.3.2. Members released from duty before completing 90 consecutive days because of an injury, illness, or disease incurred or aggravated in the line of duty (Line of Duty determination required) shall be entitled to educational assistance at the rate prescribed in Section 16162(c)(4)(A) of Title 10, U.S.C.

2.3.3.3. Active Guard and Reserve members may qualify for this benefit but only if their name is listed on an individual or collective by name list of personnel stating that they have been mobilized and/or deployed to support a qualifying mission as described in subparagraphs 2.3.3.1 or 2.3.3.2, above.

2.3.3.4. An Active Guard or Reserve member cannot gain eligibility by merely providing support (even if direct support) to a mobilized portion of the unit unless the Active Guard or Reserve member is mobilized or deployed as provided in subparagraph 2.3.3.3, above.

2.3.3.5. To retain eligibility for educational assistance under 10 U.S.C. Chapter 1607.

2.3.3.5.1. A member who was serving in the Selected Reserve at the time the member was ordered to active duty or full-time National Guard duty must continue to serve in the Selected Reserve, except, under regulations prescribed by the Secretary of Defense, educational assistance may be provided to a member of the Selected Reserve who incurs a break in service in the Selected Reserve of not more than 90 days if the member continues to serve in the Ready Reserve during and after such break in service;

2.3.3.5.2. A member who was serving in the Individual Ready Reserve to the time the member was ordered to active duty must continue to serve in the Ready Reserve (either the Selected Reserve or the Individual Ready Reserve).

* 2.3.4. National Call to Service (10 U.S.C. 510(e)). The National Call to Service (NCS) Incentive program requires a participant to perform a period of national service to be eligible for benefits.

2.3.4.1. There is a three-tiered service requirement to qualify for incentives under the NCS program:

2.3.4.1.1. First, after completion of initial entry training, individuals must serve on active duty in a military occupational specialty designated by the Secretary of Defense for a period of 15 months.

2.3.4.1.2. After this, and without a break in service, these individuals must serve either an additional period of active duty as determined by the Secretary of Defense, or a period of 24 months in an active status in the Selected Reserve.

2.3.4.1.3. After completion of this period of service, and also, without a break in service the remaining period of obligated service specified in the agreement will be served as follows:

2.3.4.1.3.1. On active duty in the armed forces.

2.3.4.1.3.2. In the Selected Reserve.

2.3.4.1.3.3. In the Individual Ready Reserve.

2.3.4.1.3.4. In AmeriCorps, or another domestic national service program jointly designated by the Secretary of Defense and the head of such a program.

2.3.4.2. Any combination of the service referred to above may also be approved by the Secretary of the Military Department concerned pursuant to regulation prescribed by the Secretary of Defense and specified in the agreement.

2.3.4.3. Individuals who participate in this program have a choice of incentives as follows:

2.3.4.3.1. Cash bonus of \$5,000.

2.3.4.3.2. Repayment of a qualifying student loan not to exceed \$18,000.

2.3.4.3.3. Entitlement to allowance equal to the 3-year monthly 38 U.S.C. Chapter 30 rate for 12 months (\$1,101 effective October 1, 2007).

2.3.4.3.4. Entitlement to allowance equal to fifty percent of the less than 3-year monthly 38 U.S.C. Chapter 30 rate for 36 months (fifty percent of \$894.00 effective October 1, 2007).

2.3.4.4. The NCS participants are not entitled to additional assistance under 10 U.S.C. Chapter 1606 or 38 U.S.C. Chapter 30 benefits. However, if the NCS participant has eligibility under either of these chapters, he or she may be paid the amount of 10 U.S.C. Chapter 1606 or 38 U.S.C. Chapter 30 benefits minus any amounts paid under the NCS program. The education benefit options will be administered to the extent possible like 10 U.S.C. Chapter 1606.

2.3.5. Chapter 30 Benefits Transferred to Dependents (Chapter 30, Title 38, U.S.C., Section 3020). Developed for the purpose of enhancing recruitment and retention of members of the Armed Forces, this program allows eligible Members to transfer basic educational assistance to one or more dependents.

2.3.5.1. Members who meet the following criteria are eligible:

2.3.5.1.1. Completed 6 years of service in the Armed Forces;

2.3.5.1.2. Has critical military skill designed by the Secretary; or

2.3.5.1.3. Is in a military specialty designated by the Secretary concerned as requiring critical military skills; and

2.3.5.1.4. Enters into an agreement to serve at least 4 more years as a member of the Armed Forces.

2.3.5.2. Individuals who are approved to transfer an entitlement to basic educational assistance follow:

2.3.5.2.1. The member's spouse.

2.3.5.2.2. To one or more of the member's children.

2.3.5.2.3. To a combination of "a" and "b" above.

2.3.5.3. The total number of months of entitlement transferred by a Member to a dependent may not exceed 18 months.

2.3.6. Maximum Combined Eligibility. Members eligible for multiple benefit programs, e.g., 38 U.S.C. Chapter 30 and 10 U.S.C. Chapter 1606; or 10 U.S.C. Chapter 1606 and 10 U.S.C. Chapter 1607 can use up to 36 months of a given program but cannot exceed more than 48 months combined.

3.0 TYPES OF PROGRAMS (1503)

3.1 Categories of Education Benefits (150301)

Education benefits are comprised of two major categories -- Those with a pay reduction and those without a pay reduction.

*3.2 Pay Reduction Programs (150302)

Enrollees in these programs, 38 U.S.C. §§ 3011 and 3012, have their pay reduced by \$100 each month for the first 12 months of active duty. All participating service members are required to have completed the requirements for a high school diploma or an equivalency certificate, or have successfully completed the equivalent of 12 credit hours in a program of education leading to a standard college degree before becoming eligible to use the benefit. Members who meet these requirements are entitled to a basic monthly benefit and can receive up to 36 months of benefit. Some exceptions exist for early discharge for service connected disability.

3.2.1. Educational Assistance Program for Service on Active Duty. Participation in this program is limited to persons who:

3.2.1.1. After June 30, 1985, first become a member of the Armed Forces or first enters on active duty as a member of the Armed Forces.

3.2.1.2. Serve at least 3 years of continuous active duty in the Armed Forces.

3.2.1.3. Serve at least 2 years of continuous active duty in the case of an individual whose initial period of active duty is less than 3 years, (see further stipulations in subparagraph 3.2.2 below).

3.2.1.4. After completion of the service described above:

3.2.1.4.1. Continue on active duty.

3.2.1.4.2. Are discharged from active duty with an honorable discharge.

3.2.1.4.3. Are placed on the retired list or temporary disability retired list, or is transferred to the Fleet Reserve or Fleet Marine Corps Reserve.

3.2.1.4.4. Are released from the Armed Services under honorable conditions by the Secretary of Defense for further service in a Reserve Component of the Armed Forces.

3.2.2. Educational Assistance Program for Less than 3 Years Service on Active Duty. Participation in this program is limited to persons who:

3.2.2.1. After June 30, 1985, first become a member of the Armed Forces or first enters on active duty as a member of the Armed Forces.

3.2.2.2. Serve at least 2 years of continuous active duty.

3.2.2.3. Beginning within 1 year after completion of the service on active duty, serve at least 4 years of continuous duty in the Selected Reserve during which the individual participates satisfactorily in the training as required by the Reserve Unit or the Department of Defense.

3.3 No Pay Reduction Programs (150303)

3.3.1. Educational Assistance Program for Service in the Selected Reserve.

3.3.1.1. The Montgomery GI Bill (MGIB) for the Selected Reserve (Chapter 1606, Title 10, U.S.C.) provides educational assistance to individuals who agree to serve in the Selected Reserve of the Ready Reserve for 6 years and meet the eligibility criteria specified in paragraphs 2.3.2.1 through 2.3.2.3.

3.3.1.2. Additionally, the Secretary of the Military Department concerned may provide additional educational assistance to a member who has a skill or specialty designated by the Secretary concerned as a skill or specialty in which there is a critical shortage of personnel or for which it is difficult to recruit or, in the case of critical units, retain personnel. This benefit is often referred to as the “kicker” and is in addition to the assistance provided under the basic benefit. To be eligible for kicker payments, the member must qualify for and be assigned to a Service-designated critical specialty, skill, or unit in the Selected Reserve designated by the Secretary concerned, be in receipt of basic MGIB Selected Reserve benefits or benefit under 38 U.S.C. Chapter 30 (other than section 3012), and enter into a period of obligated service, as described in subparagraph 2.3.2.1. The period of obligated service for kicker payments is separate from the period of obligated service for the basic MGIB Selected Reserve benefit, but runs concurrently with that period of obligated service. Kicker payments may not exceed \$350 per month.

3.3.1.3. Individuals may not receive credit for service in both this program and the programs under paragraph 3.2.

3.3.1.4. Members who have met the eligibility criteria will be given a statement in writing summarizing the provisions of sections 16134 and 16135, Chapter 1606, Title 10 U.S.C.

3.3.1.5. A member is prohibited from receiving educational assistance under this program and financial assistance as a member of the Senior Reserve Officers’ Training Corps Program.

* 3.3.1.6. Eligibility for educational assistance under 10 U.S.C. Chapter 1606 terminates when a member fails to participate satisfactorily in the required training as a member of the Selected Reserve or 14 years after becoming eligible for MGIB Selected Reserve benefits, whichever occurs first. *However, the expiration of a Service member’s entitlement who is ordered to active duty under an order issued under sections 12301(a), 12301(d), 12301(g), or 12304 of 10 U.S.C. shall be extended beyond the 14-year period or the date the Service member separated from the Selected Reserve by the length of the period of active duty plus 4 months.*

* 3.3.2. Reserve Educational Assistance Program for Reserve Component Members Supporting Contingency Operations and Other Specified Missions. Enrollees in this program, as provided in section 16163(a), Chapter 1607 of Title 10, U.S.C., are required to have been ordered to active duty in support of a contingency operation or in the case of National Guard members order to duty under section 502(f), Title 32, U.S.C., at the request of the President or Secretary of Defense for the purpose of responding to a national emergency declared by the President or the Congress.

3.3.2.1. Participation in this program is limited to persons who:

3.3.2.1.1. *On or after September 11, 2001, have been ordered to active duty in support of a contingency operation or ordered to full-time National Guard duty to respond to national emergency declared by the President or the Congress and have served for 90 consecutive days or more.*

3.3.2.1.2. The educational assistance entitlement increases based on the length of continuous service.

3.3.2.1.2.1. A member who completes 90 consecutive days of qualifying service is entitled to assistance at a rate equal to 40 percent of the rate provided to an individual eligible for assistance under 38 U.S.C. 3011.

3.3.2.1.2.2. A member who completes 1 continuous year of qualifying service is entitled to assistance at a rate equal to 60 percent of the rate provided to an individual eligible for assistance under 38 U.S.C. 3011.

3.3.2.1.2.3. A member who completes 2 continuous years of qualifying service is entitled to assistance at a rate equal to 80 percent of the rate provided to an individual eligible for assistance under 38 U.S.C. 3011.

3.3.2.1.3. A member who was ordered to active service as described in subparagraph 3.3.2.1 but was released from duty before completing 90 consecutive days because of an injury, illness or disease incurred or aggravated in the line of duty is entitled to educational assistance at the rate prescribed for a member who has completed 90 consecutive days of duty.

* 3.3.2.2. To retain eligibility for educational assistance under Chapter 1607, Title 10, U.S.C.:

3.3.2.2.1. A member who was serving in the Selected Reserve at the time the member was ordered to active duty or full-time National Guard duty must continue to serve in the Selected Reserve, except, under regulations prescribed by the Secretary of Defense, educational assistance may be provided to a member of the Selected Reserve who incurs a break in service in the Selected Reserve of not more than 90 days if the member continues to serve in the Ready Reserve during and after such break in service;

3.3.2.2.2. A member who was serving in the Individual Ready Reserve at the time the member was ordered to active duty must continue to serve in the Ready Reserve (either the Selected Reserve or the Individual Ready Reserve).

* 3.3.2.3. A member who has met the eligibility requirements of subparagraph 3.3.2.1 will be given a statement in writing notifying the member of such eligibility and summarizing the provisions of section 16163(a), Chapter 1607 of Title 10, U.S.C..

* 3.3.2.4. A member who has a service connected injury, illness or disease is not required to meet the requirement in subparagraph 3.3.2.2 regarding continued membership in the Selected Reserve or Ready Reserve.

* 3.3.2.5. Individuals may not receive credit for service in both this program and the programs under paragraph 3.2.

3.3.3. Vietnam Era GI Bill Service. This program required service during the period February 1, 1955 through December 31, 1976.

3.3.4. Inservice Enrollment in a Program of Education. Participation in this program is limited to individuals who are a member of the Armed Forces who did not elect to participate in the contributory programs in paragraph 3.2 above, and:

3.3.4.1. After June 30, 1985, have completed at least 2 years of service on active duty.

3.3.4.2. Continue on active duty or in the Selected Reserve without a break in service. Some exceptions apply for not being able to find a vacancy in, or locate a unit of the Selected Reserve within stipulated timeframes.

3.3.5. Supplemental Educational Assistance for Additional Service. Benefits payable under this program are prescribed by the Secretary of Defense, and may provide for the payment of supplemental educational assistance to individuals eligible for educational assistance under paragraph 3.2 above. Eligible persons for this program:

3.3.5.1. Must have served 5 or more consecutive years of active duty in the Armed Forces beyond the years of active duty counted under paragraph 3.2 without a break in service.

3.3.5.2. Must have been discharged from service with an honorable discharge, or is placed on the retired list, or is transferred to the Fleet Reserve or Fleet Marine Corps Reserve, or is placed on the temporary disability retire list without a break in service after completion of 5 or more consecutive years of active duty beyond the years of active duty as specified in the above.

3.3.5.3. Must have completed 2 or more consecutive years of active duty in the Armed Forces beyond the years of active duty counted under paragraph 3.2 without a break in service, and 4 or more consecutive years of duty in the Selected Reserve.

3.3.6. Educational Program for Tutorial Assistance. Benefits for participation in this program are in addition to other educational benefits received, but are limited in benefit amount and number of months.

3.3.7. Additional Educational Assistance for Qualified Individuals with Critical Skills or Specialties. The Secretary of Defense, without regard to application, may authorize educational assistance to individuals in specialized categories such as physicians and registered nurses in critical specialties, students in the nursing program, and other health professions.

4.0 BENEFITS UNDER PAY REDUCTION PROGRAMS (1504)

* Rates for budgeting purposes are updated annually and issued in the Office of the Under Secretary of Defense (Comptroller) Program and Budget Submission Guidance.

4.1 Monthly Benefits (150401)

Veterans entitled to basic educational assistance with regard to subparagraph 3.2.1 who are pursuing an approved program of education are entitled to receive monthly benefits up to \$1,101, beginning October 1, 2007, for an approved program of education pursued on a full-time basis. Veterans will receive an appropriately reduced rate, as determined under prescribed regulations, for an approved program of education pursued on less than a full-time basis.

4.2 Eligibility Criteria (150402)

With regard to subparagraph 3.2.2, veterans entitled to basic educational assistance who are pursuing an approved program of education are entitled to receive benefits at the monthly rate of \$894 beginning October 1, 2007, for an approved program of education pursued on a full-time basis. Veterans in this category also will receive an appropriately reduced rate, as determined under prescribed regulations, for an approved program of education pursued on less than a full-time basis.

*4.3 Monthly Benefit Increases (150403)

With respect to the fiscal year beginning on October 1, 1993, and each fiscal year thereafter, the monthly basic benefits for each fiscal year will increase by the percentage which the Consumer Price Index (all items, United States city average) for the 12-month period ending on the June 30 preceding the beginning of the fiscal year for which the increase is made exceeds the Consumer Price Index for the previous 12 months. Any increase in a benefit rate with respect to a fiscal year after fiscal year 2004 and before fiscal year 2014 shall be rounded down to the next lower whole dollar amount. Any such increase with respect to a fiscal year after fiscal year 2013 shall be rounded to the nearest whole dollar amount.

4.4 Skill or Specialty Designators (150404)

With regard to subparagraph 3.2.1, individuals who have a skill or specialty designated by the Secretary of Defense as a skill or specialty in which there is a critical shortage of personnel or for which it is difficult to recruit, may be entitled to receive an additional benefit known as the “kicker” benefit at a monthly rate of up to \$950.

5.0 BENEFITS FOR THE NON PAY REDUCTION PROGRAMS IN THE SELECTED RESERVE (1505)

5.1 Benefit Payments (150501)

Individuals entitled to basic educational assistance with regard to subparagraph 3.3.1 who are pursuing an approved program of education are entitled to receive monthly payments, effective October 1, 2007, at the monthly rate of \$317 for a full-time pursuit of a program of education; \$237 per month for three-quarter-time; and \$157 per month for half-time. Individuals will receive an appropriately reduced rate, as determined under prescribed regulations, for an approved program of education pursued on less than a full-time basis if tuition assistance is not available to the person from the respective Military Department.

5.1.1. Effective February 10, 1996, a member who meets the eligibility criteria for 10 U.S.C. Chapter 1606 “kicker payments” (subparagraph 3.3.1.2) is entitled to an additional \$100, \$200 or \$350 per month, as determined by the Secretary of the Military Department concerned, in addition to the basic benefit monthly payment.

* 5.1.2. Rates for budgeting purposes are updated annually and issued in the Office of the Under Secretary of Defense (Comptroller) Program and Budget Submission Guidance.

5.2 Educational Programs Eligible for Assistance Payments (150502)

Educational assistance provided under subparagraph 3.3.1 is available to individuals pursuing a program of education consisting of a program of apprenticeship, other on-the-job training, a cooperative program, a correspondence program of education, flight training program, or a program of approved individualized tutorial assistance. The amount of monthly educational assistance allowance for each program varies and is a predetermined percentage of the monthly allowance otherwise payable to a veteran entitled to receipt of assistance, or a percentage of the cost of the program.

*5.3 Eligibility Requirements (150503)

Members entitled to basic educational assistance with regard to subparagraph 3.3.2 who are pursuing an approved program of education are entitled to receive benefits at the monthly rate, effective October 1, 2007, according to the period of continuous service.

5.3.1. Completed 90 continuous days of duty or performed fewer than 90 days of duty but have a service-connected injury, illness or disease:

5.3.1.1. \$440.40 per month for a full-time pursuit of a program of education.

5.3.1.2. \$330.30 per month for three-quarter-time.

5.3.1.3. \$220.20 per month for half-time.

5.3.1.4. \$220.20 for less than half-time but greater than one-quarter time.

5.3.1.5. \$110.10 for one-quarter time or less.

5.3.1.6. Reduced rates will be paid to apprenticeship and on-the-job training, flight training, correspondence training and cooperative training. Individuals will receive an appropriately reduced rate, as determined under prescribed regulations, for an approved program of education pursued on less than a full-time basis if tuition assistance is not available to the person from the respective Military Department.

5.3.2. Completed 1 continuous year of duty:

5.3.2.1. \$660.60 per month for a full-time pursuit of a program of education.

5.3.2.2. \$495.45 per month for three-quarter-time.

5.3.2.3. \$330.30 per month for half-time.

5.3.2.4. \$330.30 for less than half-time but greater than one-quarter time (tuition and fees only).

5.3.2.5. \$165.15 for one-quarter time or less.

5.3.2.6. Reduced rates will be paid to apprenticeship and on-the-job training, flight training, correspondence training and cooperative training.

5.3.3. Completed 2 continuous years of duty:

5.3.3.1. \$880.80 per month for a full-time pursuit of a program of education.

5.3.3.2. \$660.60 per month for three-quarter-time.

5.3.3.3. \$440.40 per month for half-time.

5.3.3.4. \$440.40 for less than half-time but greater than one-quarter time (tuition and fees only).

5.3.3.5. \$220.20 for one-quarter time or less.

5.3.3.6. Reduced rates will be paid to apprenticeship and on-the-job training, flight training, correspondence training and cooperative training.

*5.4 Basic Monthly Benefit (150504)

The basic monthly benefit for each fiscal year will increase by the percentage by which the Consumer Price Index (all items, United States city average) for the 12-month period ending on the June 30 preceding the beginning of the fiscal year for which the increase is made exceeds the Consumer Price Index for the previous 12 months. Any resulting increase in a benefit rate shall be rounded to the nearest whole dollar amount.

Rates for budgeting purposes are updated annually and issued in the Office of the Under Secretary of Defense (Comptroller) Program and Budget Submission Guidance.

6.0 FUNDING FOR EDUCATIONAL ASSISTANCE PROGRAMS (1506)

6.1 DoD Education Benefits Fund (150601)

The Veteran's Educational Assistance Act of 1984 established a trust fund to finance DoD education liabilities on an actuarially sound basis. The DoD Education Benefits Fund is a trust fund used to accumulate funds for transfer to the Department of Veterans Affairs (DVA) to cover the DoD share of benefits. The Fund, 97X8098 - Department of Defense Education Benefits Fund (Education Fund), contains the following assets:

6.1.1. Amounts paid into the Education Fund from the active duty and reserve personnel appropriations.

6.1.2. Any amount that may be appropriated by the Congress to the Education Fund.

6.1.3. Interest earned as a result of the investment of available Education Fund cash balance in U.S. Government securities. This method of funding the educational assistance program became effective July 1, 1985.

6.2 Education Fund Payments (150602)

Amounts payable to the Education Fund shall be determined using methods and assumptions approved by the DoD Education Benefits Board of Actuaries. The accounting principles contained in Chapter 16 also apply to the education benefits programs.

6.3 Education Fund Transfers (150603)

Amounts to be transferred to the Education Fund shall be obligated by Components at the same time military pay is obligated as required in Volume 3, Chapter 8, and further explained in Chapter 16.

6.4 Educational Fund Deposits (150604)

The Act provides for withholding a total of \$1,200 (in 12 equal monthly installments) from the basic pay of active duty military members who elect to participate in the new educational program. The Military Departments shall deposit the withheld funds to the general fund of the Treasury as miscellaneous receipts. The miscellaneous receipts subaccounts are identified in subparagraph 6.6.2, below.

6.5 “Kicker” Educational Benefit (150605)

The DVA pays all claims for benefits under the educational program. The DVA also funds most of the basic educational benefits for active duty military members from a general fund appropriation. An additional benefit (i.e., the “kicker”) may be paid at the discretion of the Secretary of Defense. However, this is funded in the military personnel appropriations by the Department of Defense as are all supplemental benefits. These funds shall be paid into the Education Fund for subsequent transfer to the DVA.

6.6 Education Fund Transfer to Department of Veterans Administration (150606)

The Education Fund is used to accumulate funds for transfer to the DVA to cover the DoD share of benefits. The Director, DFAS, shall account and report for the DoD Education Benefits Fund since it is an Office of the Secretary of Defense account. In addition, the Director, DFAS, shall invest the cash balances of the Education Fund not actually needed to cover transfers to the DVA for payment of benefits.

6.6.1. For amounts withheld from active duty members, a general fund proprietary receipt account has been established to which collections of military personnel contributions are deposited. However, the funds collected are treated as proprietary receipts of the DVA, rather than of the Department of Defense, with the appropriate offset against budget subfunction 702 (Veterans’ Education, Training, and Rehabilitation).

6.6.2. Even though the Department of Defense does not receive credit for the offsetting receipts, it is responsible for collecting the contributions from individuals participating in the program. To ensure proper crediting of the collected funds, all contributions shall be deposited [into Miscellaneous Receipt Account 36R2473 - Contributions from Military Personnel, Veteran’s Educational Assistance Act of 1984](#) (per capita amounts defined in 7.2). It is essential that the funds be deposited to Treasury index number “36” (DVA) rather than the index numbers for each Military Department.

6.7 Monthly Report for Miscellaneous Receipt (150607)

Each Military Department shall provide the DVA a monthly letter report of funds deposited to Miscellaneous Receipt Account 362473. The report shall show only the net amount deposited with no detail.

6.7.1. Submit the report in time to reach the DVA no later than the close of business on the seventh workday after the close of the reported month. The following address shall be used for sending the reports:

Department of Veterans Affairs (047H1)
810 Vermont Avenue, NW
Washington, DC 20420
ATTN: C.O. Finance (047H1)

6.7.2. If the report cannot be submitted in time to reach the DVA by the seventh workday after the reported month, the Military Department shall report by facsimile machine the amount deposited. The report should be “faxed” to the DVA Central Office, Field Finance Division.

7.0 FUND TRANSFERS OF MILITARY PERSONNEL APPROPRIATIONS (1507)

Transfers from the military personnel appropriations to the DoD Education Benefits Fund shall be processed as indicated below. (The accounting for these amounts shall follow the accounting requirements contained in Chapter 10, Volume 4.)

7.1 Receipt and Expenditure Accounts. (150701)

The DoD Education Benefits Fund is classified as a trust fund and uses both receipt and expenditure accounts since it is not designated a trust revolving fund. Receipts are available immediately for expenditure; therefore, the Treasury Department requires deposits to be made using “X” symbolization for the receipt account. Deposits are made to the following trust fund receipt accounts as applicable.

7.1.1. 97X8098.1 - Employing Agency Contribution, Department of Defense, Education Benefits Fund. Payments from DoD military personnel appropriations.

7.1.2. 97X8098.2 - Earnings on Investments, Department of Defense, Education Benefits Fund. Payments of interest by Treasury on Education Fund investments in U.S. securities.

7.1.3. (62) 97X8098 - Disbursements-Unamortized Premium and Discount, Department of Defense Military Retirement and Education Benefits Funds. Purchase of premium, interest, and discount.

7.1.4. (72) 97X8098 - Receipts-Unamortized Premium and Discount, Department of Defense Military Retirement and Education Benefits Fund. Write-off and amortization of premium and discount and collection of interest purchased.

7.1.5. 20X6825.01 - Unamortized Discount, Department of Defense Military Retirement and Education Benefits Funds. Purchase of discount, write-off, and amortization of discount.

7.1.6. 20X6825.02 - Unamortized Premium, Department of Defense Military Retirement and Education Benefits Funds. Purchase of premium, write-off, and amortization of premium.

7.1.7. 20X6825.03 - Accrued Interest Purchased, Department of Defense Military Retirement and Education Benefits Funds. Purchase of interest and collection of interest purchased.

7.2 Timing (150702)

Transfers of funds for a given month shall be accomplished on or before the last business day of that month. If the transfers are accomplished on an estimated basis, they shall be adjusted in the subsequent month when actual figures become available.

7.3 Method for Transfer of Funds (150703)

7.3.1. Transfers are made on an expenditure basis. Funds shall be disbursed from the military personnel appropriations and collected into the Education Fund. The disbursement and collection transactions are accomplished using the Intragovernmental Payment and Collection System (IPAC). The disbursement and collection transactions also can be made on an SF 1081, Voucher and Schedule of Withdrawals and Credits. The disbursing officer making the payment shall forward a copy of the completed SF 1081 to the DFAS, and also report both the disbursement and collection transactions on the monthly DD Form 1329, Statement of Transactions. Completed forms shall be forwarded to the following address:

Director
Defense Finance and Accounting Service
Trust Fund Investment Office
ATTN: [DFAS-JJRA](#), COLUMN 203L
8899 E. 56TH Street
Indianapolis, IN 46249
Fax Number: (317)275-0247
E-mail Address: CIN-JJRA@dfas.mil

7.3.2. The total amount transferred from the military personnel appropriation to the Education Fund shall be detailed by the Military Service obligation program and reported on the face of the SF 1081 or on a separate attachment.

*7.4 Calculation of Transfers (150704)

Transfers to the Education Fund from the active duty and reserve component personnel appropriations shall be accomplished monthly. The amounts to be transferred shall be calculated using the formulas provided in subparagraphs 7.4.1 and 7.4.2, below, which are based on existing legislation and, therefore, subject to change upon any enacted amendments. The per capita amounts to be used in the calculations shall be determined by the DoD Office of the Actuary using

methods and assumptions approved by the DoD Education Benefits Board of Actuaries. The per capita amount is the per-person normal cost potentially offset by an amount related to amortizing a surplus (if this particular service or Reserve Component's portion of the Fund as determined by the Office of the Actuary for a particular program has a surplus). This information shall be provided to the Military Departments when it becomes available.

* 7.4.1. Active Duty Appropriations. The per capita normal cost multiplied by the number of new entrants who become eligible during the month. Eligibility is defined in subparagraph 2.3.1, above.

7.4.1.1. The Services shall report monthly to DFAS, and DFAS shall report monthly in their trial balance, the total amount of per capita contributions for each combination of benefit level and years of obligated service. The report shall specify how such amounts are derived in terms of the number of members for the current month, reconciling corrections from the prior month (if any), and the per capita amounts used in such calculations. These amounts should be reported separately from contributions that fund other programs.

7.4.1.2. The Services shall pay an amortization payment into the Department of Defense Education Benefits Fund on October 1st of each year to reduce the fund's liability. The amount of the contribution, if any, for each Component shall equal the amount specified in the letter for the current fiscal year issued by the Department of Defense Education Benefits Board of Actuaries to the Secretary of Defense.

7.4.1.3. To ensure proper crediting of contributions made to DFAS, the Services shall reference the following account titles:

Active Army

NOTE: In the future, account numbers will be assigned to each account title by DFAS. When new benefit programs are added, the Services and DFAS shall create and use new account numbers and titles as needed to ensure proper crediting of contributions.

* 7.4.2. Reserve and National Guard Appropriations. Per capita amounts and amortization payments required.

7.4.2.1. The per capita amount cost is multiplied by the number of Reserve Component members who become eligible during the preceding month. Eligibility is defined in subparagraph 2.3.2, above. A contribution is made for an eligible member only one time. Eligibility date is established in the Notice of Basic Eligibility also described in subparagraphs 3.3.2 and 3.3.3. This eligibility date never changes.

7.4.2.2. The per capita amount is multiplied by the number of Reserve Component members who become eligible during the [preceding](#) month. Eligibility is defined in subparagraph 2.3.3, above (REAP). A contribution is made for an eligible member only one time. Eligibility date is established when the member has completed the minimum service requirement as specified in subparagraphs 2.3.3.1 through 2.3.3.3, above.

* 7.4.2.2.1. The amount of the contribution for each member (i.e., the per capita amount) shall equal the amount specified in the letter for the current fiscal year issued by the Department of Defense Education Benefits Board of Actuaries, corresponding to one of the three benefit levels - 90 days, 1 year, or 2 years ((10 U.S.C. 16162(c)(4)) - based on the length of the member's activation orders or based on the members who actually served 90 days or more if the activation orders are for less than 90 days. In this context, "activation orders" refers to the maximum level of consecutive qualifying service the member is anticipated to obtain for the current mobilization event. For example, if a member is called up for 120 days to complete required training in preparation for activation or deployment, and the member is scheduled to be activated for 15 months following the training (with a short break in between the two), the component shall contribute based on the 1-year benefit level when the member reaches the 90-day point during the training.

7.4.2.2.1.1. The Components shall track whether members have previously reached the qualifying 90-day threshold.

7.4.2.2.1.2. No contribution shall be made for a member who subsequently reaches the initial 90-day threshold, if a contribution has already been made.

7.4.2.3. The Reserve Components shall report monthly to DFAS, and DFAS shall report monthly in their trial balance, the total amount of per capita contributions for 10 U.S.C. Chapter 1606; to include the breakout by basic and kicker, and within kicker, by kicker benefit level. The report shall specify how such amounts are derived in terms of the number of members for the appropriate month, reconciling corrections from the prior month(s) (if any), and the per capita amounts used in such calculations. These amounts should be reported separately from contributions that fund other programs.

7.4.2.4. The Reserve Components shall report monthly to DFAS the total amount of per capita contribution for each of the three benefit levels (90 days, 1 year, or 2 years) for 10 U.S.C. Chapter 1607. The report shall specify how such amounts are derived in terms of the number of members for the appropriate month, reconciling corrections from the prior month(s) (if any), and the per capita amounts used in such calculations. These amounts should be reported separately from contributions that fund other programs.

7.4.2.5. If required due to a program's unfunded liability, the Reserve Components shall pay an amortization payment into the Department of Defense Education Benefits Fund on October 1st of each year to reduce the funds liability. One payment shall be made for 10 U.S.C. Chapter 1606 and a separate payment shall be made for 10 U.S.C. Chapter 1607. The amount of the contribution, if any, for each component shall equal the amount specified in the letter for the current fiscal year issued by the Department of Defense Education Benefits Board of Actuaries to the Secretary of Defense.

7.4.2.6. To ensure proper crediting of contributions made to DFAS, the Reserve Components shall reference the following account titles:

Army Reserve

Selected Reserve Benefit (10 U.S.C. Chapter 1606)

Army Reserve

Critical Skill or Critical Unit Benefit (10 U.S.C. Chapter 1606)

Air National Guard

Selected Reserve Benefit (10 U.S.C. Chapter 1606)

Air National Guard

Critical Skill or Critical Unit Benefit (10 U.S.C. Chapter 1606)

\$100 monthly “kicker” benefit

\$200 monthly “kicker” benefit

\$350 monthly “kicker” benefit

Amortization (10 U.S.C. Chapter 1606) – Air National Guard

Educational Benefits for Reservists in Support of Contingency Operations (10 U.S.C. Chapter 1607)

Mobilized 90 Days

Mobilized 1 year but not 2

Mobilized 2 years or more

Amortization (10 U.S.C. Chapter 1607) Air National Guard

NOTE: In the future, account numbers will be assigned to each account title by DFAS. When new benefit programs are added, the Services and DFAS shall create and use new account numbers and titles as needed to ensure proper crediting of contributions.

8.0 FUND TRANSFERS TO DVA (1508)

Transfers from the DoD Education Benefits Fund to the DVA shall be processed as follows:

8.1 General Fund Appropriation Transfer Account (150801)

The DFAS shall transfer funds to the DVA on an expenditure basis. This is required because VA pays the benefits from general fund appropriation account 36X0137 - Readjustment Benefits, Veterans Administration.

8.2 IPAC Transactions (150802)

The actual transaction is accomplished by using IPAC. The DVA will provide DFAS a letter of intent to disburse prior to making any IPAC transactions. This request will be sent CIN-JJRA@dfas.mil. The DVA will report the collection into 36X0137 on its DD Form 1329.

9.0 PAYROLL DEDUCTIONS (1509)

9.1 Order of Precedence for Deductions (150901)

Deductions from pay for the education benefits program are governed by the order of precedence for deductions from gross pay established by the [Treasury Financial Manual, Volume 1, Part 3, Chapter 7000, "Allotments and Assignment of Pay."](#) The order of precedence shall be used when the gross entitlement payment is not sufficient to permit all deductions to be made. The order of precedence is in Volume 7.

9.2 Participation Election Criteria (150902)

When an individual enters on active duty as a member of the Armed Forces, participation in the education benefits program is automatic, unless the service member makes an election not to enroll for education benefits using [DD Form 2366](#), Montgomery GI Bill Act of 1984 Basic Enrollment. Once enrolled in the program, a reduction of the service member's pay becomes mandatory. The deduction is considered an "Indebtedness Due the United States." Therefore, it ranks ahead of state income taxes and all other deductions of lower precedence. Within the "Indebtedness" category, it takes precedence below any debts due to the Department of Defense since the reduction is deposited to a civil agency account.

9.3 Selected Reserve Participation (150903)

In the case of a member of the Selected Reserve, the Secretary of Defense shall collect from the individual an amount equal to \$1,200 not later than 1 year after completion by the individual of the 2 years of service on active duty providing the basis for such entitlement. Collection may be made through a reduction in basic pay or through such other method as the Secretary of Defense considers appropriate.

10.0 REFUNDS OR ERRONEOUS DEDUCTIONS (1510)

Refunds or erroneous deductions from active duty members shall be processed as follows:

10.1 Current Year Deductions (151001)

If the refund takes place within the same fiscal year as the erroneous deduction was made, the payment to an active duty member shall be charged to miscellaneous receipt account 362473. Such transactions will reduce the monthly deduction deposited to miscellaneous receipt account 362473 and reported to the DVA.

10.2 Prior Year Deductions (151002)

If the refund takes place after the close of the fiscal year in which the erroneous deduction was made, the payment to an active duty member shall be made from Treasury appropriation 20X1807 - Refund of Monies Erroneously Received and Covered. Such payments shall be reported routinely on the Military Department's monthly Statement of Transactions. The Treasury Department shall be contacted by telephone if payments from 20X1807 in excess of \$100,000 are to be made in a given month. The report shall be provided to the Credit and Debt Management Branch, Financial Management Service.

11.0 COLLECTION OF EDUCATIONAL DEBTS OWED TO THE GOVERNMENT (1511)

Collection of educational debts owed to the government by members of the Selected Reserve shall be processed as follows.

11.1 Selective Reserve Participation Refunds (151101)

Members of the Selected Reserve receiving educational assistance benefits under Title 10 U.S.C. Chapter 1606, and who fail to participate satisfactorily in required reserve training, may be required to refund an amount to the United States. This amount is calculated in accordance with the formula established in Title [10 U.S.C. 16135\(b\)\(1\)](#).

11.2 Selective Reserve Participation Refund Calculation (151102)

The refund shall equal the product of the following:

11.2.1. The number of months of obligated service remaining under the agreement entered into by the reservist divided by the original number of months of the original obligation.

11.2.2. The total amount of educational assistance provided to the reservist increased by interest equal to the highest rate being paid by the Treasury on securities having maturity of 90 days or less on the day on which the refund is determined to be due. The interest shall accrue from the day on which the reservist first is notified of the amount due to the U.S. Government as a refund.

11.3 Selective Reserve Data Collection Requirements (151103)

Each Military Department shall maintain data on Selected Reserve members who are:

11.3.1. Eligible for educational assistance.

11.3.2. Fail to participate satisfactorily.

11.3.3. Not excused from the responsibility to refund overpayments received under the Selected Reserve educational assistance program.

11.4 Collection of Debts Owed (151104)

Responsibility for administering the collection of debts owed to the program has not been established. This matter will be addressed in the memorandum of understanding with the DVA covering financial matters. The Military Departments shall be advised of the determination when the memorandum of understanding is ratified.

11.5 Reporting Requirements for Education Benefits Programs (151105)

The reporting requirements and related standards contained in Chapter 13, Volume 4, also apply to the education benefits programs.

VOLUME 12, CHAPTER 16: “MILITARY PERSONNEL ENTITLEMENT PROGRAMS”

SUMMARY OF MAJOR CHANGES

Changes are identified in this table and also denoted by [blue font](#).

Substantive revisions are denoted by an asterisk (*) symbol preceding the section, paragraph, table, or figure that includes the revision.

Unless otherwise noted, chapters referenced are contained in this volume.

Hyperlinks are denoted by [***bold, italic, blue, and underlined font***](#).

The previous version dated [October 2015](#) is archived.

PARAGRAPH	EXPLANATION OF CHANGE/REVISION	PURPOSE
All	Updated hyperlinks, format, and renumbered sections and paragraphs in accordance with standard operating procedures.	Revision
1.3 (160103)	Added an “Authoritative Guidance” paragraph and incorporated the appropriate references.	Addition
2.0 (1602)	Moved the “Definitions” section and added a definition for capitation payments.	Revision
5.3 (160503)	Incorporated requirements to align with the Department of Defense Instruction (DoDI) 6070.02, “Department of Defense Medicare-Eligible Retiree Health Care Fund Operations.”	Addition
5.7 (160507)	Added information for Medicare-Eligible Retiree Health Care reimbursements.	Addition
5.9.2.2.2. (160509.B.2.b)	Changed the “Uniformed Services Family Health Plan” to the “Designated Provider Program,” effective October 1, 2012.	Revision
5.9.4.2.3.1. (160509.D.2.c.(1))	Added clarifying language to ingredient costs.	Revision

CHAPTER 16

MILITARY PERSONNEL ENTITLEMENT PROGRAMS

1.0 GENERAL (1601)

1.1 Overview (160101)

Entitlements Programs are legally established benefits available to any person or unit of government meeting eligibility requirements established by law. Authorizations for entitlements constitute a binding obligation on the part of the Federal Government, and eligible recipients may have legal recourse if the obligation is not fulfilled. Legislation authorizing entitlements does not necessarily include a corresponding appropriation of funds, thus subsequent enactment of appropriations may be necessary.

1.2 Purpose (160102)

This chapter prescribes the accounting policy for two entitlement programs established for Department of Defense (DoD) military personnel. The entitlement programs are the Military Retirement Fund (MRF) and the Medicare-Eligible Retiree Health Care Fund (MERHCF).

*1.3 Authoritative Guidance (160103)

The accounting policy and related requirements prescribed by this chapter are in accordance with the applicable provisions of:

1.3.1. Title 10, United States Code, sections 1461 – 1467 ([10 U.S.C. §§ 1461 - 1467](#)), Chapter 74, “Department of Defense Military Retirement Fund.”

1.3.2. [10 U.S.C. §§ 1111 - 1117](#), Chapter 56, “Department of Defense Medicare-Eligible Retiree Health Care Fund.”

1.3.3. Office of Management and Budget ([OMB Circular A-11](#)), Section 20, “Terms and Concepts.”

1.3.4. [OMB Circular A-136](#), “Financial Reporting Requirements.”

1.3.5. DoD Instruction ([DoDI 6040.40](#)), “Military Health System Data Quality Management Control Procedures.”

1.3.6. [DoDI 7770.01](#), “Reporting Requirements for Retired Uniformed Service Pay File Extracts.”

1.3.7. [DoD 6010.13-M](#), “Medical Expense and Performance Reporting System for Fixed Military Medical and Dental Treatment Facilities.”

1.3.8. [Actuarial Standards Board](#) (ASB) provides a list of definitions from the Actuarial Standards of Practice and Actuarial Compliance Guidelines of the ASB.

1.3.9. [DoD Office of the Actuary](#) (OACT) provides actuarial expertise on all matters relating to military compensation and benefits.

1.3.10. [DoD Agency Financial Report](#). The Under Secretary of Defense (Comptroller) (USD(C)) website publishes the “Military Retirement Fund Audited Financial Report,” and the “Medicare-Eligible Retiree Health Care Fund Audited Financial Statements” on the DoD Agency Financial Report web page. Both financial reports are shown on the web page as “MRF” and “MERHCF,” respectively.

*2.0 DEFINITIONS (1602)

The following terms and their definitions apply to this chapter.

2.1 Capitation Payments (160201)

These are payments agreed upon in a capitated contract by a health insurance company and a medical provider. They are fixed, pre-arranged monthly payments received by a physician, clinic or hospital per patient enrolled in a health plan, or per capita.

2.2 Cost (160202)

The price or cash value of the resources used to produce a program, project, or activity (OMB Circular A-11).

2.3 Federal Financial Statements ([160203](#))

Principal financial statements and reporting information applicable to the MERHCF include the Balance Sheet, Statement of Net Cost, Statement of Changes in Net Position, Statement of Budgetary Resources, notes to financial statements and required supplementary information as required by [OMB Circular A-136](#).

2.4 Medicare-Eligible ([160204](#))

With respect to any person, means entitled to benefits under part A of title XVIII of the Social Security Act (42 [U.S.C § 1395c](#) et seq).

2.5 Military Treatment Facilities ([160205](#))

A medical facility (hospital or clinic) operated by one or more of the Uniformed Services.

2.6 Normal Cost Contribution (160206)

Amounts paid into [MERHCF](#) from the “Military Personnel, Reserve Personnel and National Guard Personnel” appropriations to fund future benefits payable from [MERHCF](#), attributable to military service rendered in the current fiscal year. Contribution amounts are based on the normal cost per capita rates (developed by the DoD OACT) multiplied by the expected average force strength (in the President’s Budget) for that fiscal year ([available on the DoD OACT website](#)).

2.7 Per Capita Normal Cost Rates (160207)

Average per Uniformed Service member actuarial rate developed by the DoD OACT.

2.8 Refund (160208)

The return of excess [payments](#) to or by the Government retired or retainer pay. The gross entitlement for a member based on conditions of the retirement law, pay grade, years of service for basic pay, years of service for percentage multiplier, percentage of disability, if applicable, and date of retirement (transfer) [in accordance with](#) DoDI 7770.01.

2.9 Uniformed Services Retiree Health Care Programs (160209)

The provisions of [Title 10](#) or any other provision of law creating an entitlement to or eligibility for health care (services) for a member or former member of a participating uniformed service who is entitled to retired or retainer pay and an eligible dependent under such program.

3.0 GENERAL ACCOUNTING POLICY FOR ENTITLEMENT PROGRAMS (1603)

3.1 Payment of Benefits (160301)

Entitlement programs are divided into three categories according to the events that give rise to benefit payments: payments based on individual eligibility, payments required by law, and reimbursable events. These categories are accounted for as follows:

3.1.1. Individual Eligibility. When the program is administered by a federal agency, entitlement benefits based on individuals meeting eligibility requirements of a program [must](#) be recorded as a liability and an expense when the eligibility requirements are met (as determined by program officials). The recorded liability and expense [must](#) cover all expected payments for the current period of eligibility. Payments to recipients reduce the recorded liability.

3.1.2. Compliance with Statutory Laws. When payments are authorized (through appropriation and allotment of funds) for disbursement pursuant to legal requirements with no specific action required of the recipients, a liability and expense [must](#) be recorded when the appropriated funds are allotted to the applicable program. The recorded liability and expense [must](#) cover the total amount to be disbursed. As payments are made, the liability [must](#) be reduced.

3.1.3. Reimbursable Events. When payments are based on the occurrence of a specific event for which costs are reimbursable under an entitlement program, a liability **must** be recorded when the event occurs. If the reimbursement is based on end-of-period reports from program administrators, an estimated amount **must** be accrued at the end of a reporting period.

3.2 Identifiable Refunds (160302)

When the expense for payments made under an entitlement program exceeds the appropriation (permissible for certain programs under special statutory authority), the source of the related funds **must** be clearly identified. If the funds were borrowed, the appropriate liability account **must** be established.

3.3 Suspension of Payments (160303)

When substantiated doubt exists on the continued entitlement of a military retiree or annuitant to receive benefit payments and payments on an account are suspended, the Defense Finance and Accounting Service (DFAS) **must** cease obligating on the subject account for retired pay, retainer pay, or annuitant benefits. Previously obligated amounts **must** be deobligated to the extent of recoveries on previous payments or amounts held in a suspense account. Although this procedure is directed primarily at suspected death status accounts, it applies equally to other situations that may terminate entitlement. Examples of other situations include (but are not limited to) employment by a foreign government, renouncing U.S. citizenship, remarriage of a surviving spouse, and certain student annuitants dropping out of school.

4.0 ACCOUNTING POLICY FOR THE ACCRUAL AND INVESTMENT OF MRF (1604)

4.1 Retired Pay Entitlements (160401)

Retired military pay is a pension program established by 10 U.S.C. §§ 1461 – 1467 and administered by the Secretary of the Treasury. The MRF **must** be used for the accumulation of funds in order to finance on an actuarially sound basis, liabilities of the DoD under military retirement and survivor benefit programs. As such, the program fits under the category of entitlement authority as defined by 2 U.S.C. § 622(9).

4.2 MRF Assets (160402)

In accordance with 10 U.S.C. §1462, “Assets of Fund,” the following deposits are made into the DoD MRF, which constitute the assets of MRF:

4.2.1. Amounts paid into the MRF from the “Military Personnel, Reserve Personnel and National Guard Personnel” appropriations representing future retirement and survivor benefits being accrued by members performing current service.

4.2.2. Amounts paid into the MRF from the U.S. Department of the Treasury (Treasury) as an unfunded liability and Concurrent Receipt normal cost payment.

4.2.3. Interest earnings on investments in government securities made by the Treasury and the payment of the par values of these securities at maturity.

4.3 Unfunded MRF Liabilities (160403)

Determinations of funding contribution amounts for the current portion of retired military benefits and amounts required to liquidate the unfunded portion of the MRF are as follows:

4.3.1. Amounts necessary to fund present and future benefits payable to military retirees and their survivors **must** be based on actuarial funding determinations by the DoD OACT, using methods and economic assumptions (including the inflation, interest, and salary rates) approved by the DoD Board of Actuaries and in accordance with [10 U.S.C. § 1465](#). DoD Components **must** include sufficient funds to be transferred to the MRF, as determined by the DoD OACT, in their Military Personnel (MILPERS) appropriation budgets.

4.3.2. The annual amount required to liquidate the unfunded liability of the MRF **must** be calculated by the DoD OACT, in accordance with methods and assumptions approved by the DoD Board of Actuaries.

4.3.3. Amounts to be transferred to the MRF for retired pay accrual **must** be obligated by the DoD Components at the same time military retired pay is obligated, as required in Volume 4, Chapter 10.

4.3.4. Entitlements for former spouse payments from military retired pay and survivor benefits annuities are described in Volume 7B, Chapter 29. Payments of authorized and accrued benefits **must** be made from the MRF, a trust fund established under Public Law 98-94, in accordance with [10 U.S.C. § 1463](#).

4.3.5. Calculations of funding amounts for the current portion of retired military benefits **must** be performed centrally by the Military Departments for Active, Reserve, and National Guard military personnel. The calculations **must** employ retired military pay accrual percentages published annually by the Office of the Secretary of Defense (OSD) and **must** be applied to the total base pay amount calculated. The term "base pay" means outlays for basic pay.

4.4 Investment of MRF Cash Balances (160404)

The Investment Fund Manager, DFAS, is responsible for investing cash balances of the MRF not needed to cover current retirement payments. Investments are limited to Market-Based U.S. Government Special Securities issued by the Treasury (see [10 U.S.C. § 1467](#)).

4.5 Calculation of Retired Pay Benefits (160405)

Retired pay benefits **must** be calculated (see Volume 7B, Chapter 3) and paid by DFAS.

4.6 Reimbursements of Retired Military Pay (160406)

All reimbursements made to DoD Components in accordance with the guidance contained in [Volume 11A, Chapter 6](#) for retired military pay **must** be credited to the applicable MILPERS appropriation account. The annual reimbursable rates are also available online at the Office of the Under Secretary of Defense (Comptroller) ([OUSDC](#)) public website under the “Quick Links” section; select the “DoD Reimbursable Rates.”

4.7 Accounting for MRF Obligations and Accruals (160407)

Using DoD Board of Actuarial approved relevant actuarially percentages for obligations and accruals, military pay active duty accounts and Reserve and National Guard personnel accounts **must** be accounted for as follows:

4.7.1. Amounts equating to an actuarially determined percentage of basic pay **must** be obligated each month for subsequent payment to the MRF.

4.7.2. Accounting for the direct program **must** be at the budget sub-activity level prescribed in [Volume 2A, Chapter 2](#). Accounting for the reimbursable program may use a simplified structure to include basic pay, retired pay accrual, and other.

4.7.3. The amount accrued for retired pay **must** be obligated each month. At the end of the month, amounts obligated for retired pay accrual **must** be disbursed. If information on the total entitlement and total expenditures is not available at the end of the month, estimates may be used and appropriate adjustments made when the actual amounts become known.

4.7.4. Release of funds **must** be consistent with budgetary authority. An undelivered order entry **must** be made at the beginning of each month to accrue the estimated MRF obligations to the members. Before the end of each month, the actual obligations **must** be recorded and an accrued expenditure (paid or unpaid, as applicable) established. The corresponding disbursement of funds **must** agree with the reported outlay and amount obligated.

4.7.5. All military pay accounting systems **must** provide for the recording of obligations for basic pay separate from other kinds of pay and allowances. However, the liquidation of obligations for pay and allowances may be on a gross basis. If the actual amount of basic pay disbursed is not known at the end of the month, an estimated retired pay obligation to be liquidated and disbursed to the MRF may be developed by a formula such as: multiplying the estimated basic pay by the retired pay accrual percentage (provided by the DoD OACT).

4.7.6. [The Military Departments must also obligate and disburse amounts calculated for the retired pay accrual in the applicable military pay for Active, Reserve, and National Guard accounts; and disbursements for retired pay benefits accruals must be deposited, via the Intra-Governmental Payment and Collection \(IPAC\) system, at the end of each month to trust fund receipt account 097X8097.001, “Employing Agency Contribution, Department of Defense Military Retirement Fund.”](#) The associated disbursement and collection transactions must be supported using a Standard Form (SF) 1081, “Voucher and Schedule of Withdrawals and Credits.” The SF 1081 **must** be

properly certified prior to submission to the DFAS Trust Fund Accounting and Reporting (TFAR) division. The disbursing officer making the payment also **must** process the collection, forward a copy of the completed SF 1081 to DFAS TFAR, and report both the disbursement and collection transactions on the monthly SF 1220, “Statement of Transactions (**According to Appropriations, Funds, and Receipt Accounts**).” The DFAS copy of the SF 1081, with all supporting documentation, **must** be transmitted electronically, immediately upon completion of the transactions, so that the deposit may be recorded in the MRF as soon as possible and the funds invested.

4.8 Accounting for MRF Appropriations (160408)

The permanent indefinite appropriations, 097_0040, “Payments to Military Retirement Fund, Defense,” and 097_0041, “Concurrent Receipt Accrual Payments to the Military Retirement Fund, Defense,” are accounted for as follows:

4.8.1. At least 3 weeks before the end of the fiscal year, the Secretary of Defense **must** provide the Secretary of the Treasury with a certification of the amounts, as determined using methods and assumptions approved by the DoD Board of Actuaries that should be deposited to these accounts for the ensuing fiscal year. The certification **must** include the amounts needed to fund the amortization of the original unfunded liability for military retirement, any other unfunded liability resulting from benefit structure changes and actuarial gains or losses, and the portion of the accrual charge to be funded by the Treasury. A copy of the certification **must** be sent directly to:

Department of the Treasury
Bureau of **the** Fiscal Service
Budget Reports Division
3201 Pennsy Drive, Building E
Landover, MD 20785-1603

4.8.2. Upon receipt of the certification, the Treasury provides the **Fiscal Service (FS) Form 6200**, “Department of the Treasury Appropriation Warrant,” for the amount certified. The Warrant **must** be dated October 1 and provided to DFAS on or before that date so that the funds are available for immediate investment in the new fiscal year.

4.8.3. On October 1, DFAS is required to: (1) record the **FS Form 6200** to 097_0040, “Payments to **Military Retirement Fund**, Defense;” (2) disburse the entire amount from 097_0040, and (3) deposit it to trust fund receipt account 097X8097.003, “Federal Contribution, **Department of Defense Military Retirement Fund**.”

4.8.4. The DoD MRF is classified as a trust fund and makes use of both receipt and expenditure accounts since it is not designed as a trust revolving fund.

4.8.4.1. Deposits are made to the following trust fund receipt accounts as applicable:

4.8.4.1.1. 097X8097.001, “Employing Agency Contribution, Department of Defense Military Retirement Fund.” Payments from DoD Military Departments for accrual of future retired pay benefits and transfers of deposits made by Judges of the U.S. Court of Military Appeals, including interest, from 024X8135, “Civil Service Retirement and Disability Fund, Office of Personnel Management,” and the payment from the indefinite appropriation for the normal costs contribution, 097_0041, “Concurrent Receipt Accrual Payments to the Military Retirement Fund, Defense.”

4.8.4.1.2. 097X8097.002, “Earnings on Investments, Department of Defense Military Retirement Fund.” Payment of interest by Treasury on Fund investments in U.S. securities.

4.8.4.1.3. 097X8097.003, “Federal Contribution, Department of Defense Military Retirement Fund.” Payments from the permanent indefinite appropriation for the unfunded liability, 097_0040, “Payments to Military Retirement Fund, Defense”.

4.8.4.1.4. 097X8097, “Disbursements-Unamortized Premium and Discount, Department of Defense Military Retirement Fund.” Purchase of premium, interest, and discount.

4.8.4.1.5. 097X8097, “Receipts-Unamortized Premium and Discount, Department of Defense Military Retirement Fund.” Write-off and amortization of premium and discount and collection of interest purchased.

4.8.4.2. The Treasury account symbol for the trust fund expenditure account is 097X8097. Amounts deposited to the receipt accounts identified in subparagraph 4.8.4.1 are available immediately to the trust fund expenditure account for investment or payment of retired pay benefits.

4.8.4.2.1. Account 097X8097 **must** incorporate the same budget activity structure as the account “Retired Pay, Defense.” Accounting **must** be at least at the budget activity level, and lower level accounts **must** be established as necessary to meet reporting requirements.

4.8.4.2.2. Since account 097X8097 is an OSD account, DFAS is responsible for its overall accounting and reporting.

4.8.4.2.3. Acting for the Secretary of Defense, DFAS **must** allocate a portion of 097X8097 to each Military Department in order to fund payments of retirement benefits.

4.8.4.2.4. Annuity payments to retired Judges of the U.S. Court of Military Appeals **must** be charged to 097X8097.

4.9 MRF Financial Reporting Requirements (160409)

4.9.1. DoD Components **must** report in their Statement of Operations the amount of Federal contributions (including accrued amounts), if any, made to the pension plans(s) on behalf of their employees. The agency contribution **must** not include amounts withheld from employee's compensation for submission to the plan(s).

4.9.2. DoD Components which administer programs that provide annuity benefits to eligible participants **must** recognize, for reporting purposes, an actuarial (accrued) liability for the program. Determination of the liability **must** be in accordance with applicable [Federal Accounting Standards Advisory Board](#) standards (e.g., [Statement of Federal Financial Accounting Standards \(SFFAS\) 5](#) and [SFFAS 33](#)).

4.9.2.1. For the year in which the actuarial (accrued) liability is first recorded, the initial amount of the liability **must** be reported as an accounting change, i.e., a charge to equity and an accrued liability. Thereafter, changes in the liability each year **must** be charged or credited to expense.

4.9.2.2. Footnotes to the financial statements **must** disclose the nature and amount of required agency contributions, if any. The footnotes also **must** disclose the agency responsible for reporting the pension plan's unfunded liability.

4.9.2.3. Financial information for pension plans **must** be reported in the annual financial statements of administering agencies.

4.9.2.4. The notes to the financial statements **must** include a description of the methods and significant assumptions used in computing the actuarial present value of future program benefits. Additionally, if the actuarial liability computed in accordance with these standards is different from the actuarial liability computed for funding purposes, the footnotes **must** include an adequate explanation of the basis for any significant differences between the two liabilities.

4.9.3. DFAS is responsible for preparing MRF reports in accordance with Volume 6A.

4.9.3.1. [SF 133, Report on Budget Execution and Budgetary Resources](#). DFAS **must** submit the SF 133 for all MRF expenditure accounts.

4.9.3.2. [ACCT RPT \(M\) 1002, Appropriation Status by Fiscal Year Program and Subaccounts](#). DFAS **must** submit this report for the MRF expenditure account prepared in accordance with Volume 6A, Chapter 4.

4.9.3.3. [Other Reports](#). DFAS **must** follow the instructions in Volume 6A as applicable. In addition, the Military Departments **must** comply with the monthly reporting requirements contained in Volume 6A.

4.9.4. Status of Funds. The DFAS **must** prepare a Status of Funds and forward it to the Deputy Comptroller, Program/Budget, on the fifteenth workday of the following month. The DFAS must report actual data for current fiscal year through the previous fiscal month.

5.0 ACCOUNTING POLICY FOR THE ACCRUAL, INVESTMENT, AND TRANSFERS OF MERHCF (1605)

5.1 MERHCF Purpose (160501)

MERHCF was established by the Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001, Public Law 106-398. As amended, the MERHCF pays the qualifying health care service costs of all uniformed service retiree health care programs for the benefit of members or former members of a participating service who are entitled to retired or retainer pay and are Medicare-eligible. This includes their dependents who are Medicare-eligible, and survivors who are Medicare-eligible.

5.2 MERHCF Entitlements (160502)

The DoD MERHCF is an OSD Special Fund and is considered an entitlement authority as defined in 2 U.S.C. § 622(9). The DoD MERHCF, administered by the Secretary of the Treasury, **must** be used for the accumulation of funds in order to finance, on an actuarially sound basis, liabilities of DoD under uniformed services health care programs for specific Medicare-eligible beneficiaries, as designated by 10 U.S.C. §§ 1111 – 1117.

*5.3 MERHCF Proponent (160503)

5.3.1. Assistant Secretary of Defense for Health Affairs (ASD(HA)). Under the authority, direction, and control of the Under Secretary of Defense (Personnel and Readiness) (USD(P&R)), the ASD(HA):

5.3.1.1. Approves and issues procedures for management and operation of MERHCF.

5.3.1.2. Provides guidance and operational direction to the Director, Defense Health Agency (DHA) regarding the management and operation of MERHCF.

5.3.2. Director, DHA. Under the authority, direction, and control of the ASD(HA) the Director, DHA:

5.3.2.1. Directs and oversees the implementation of DoD policy on management and operation of MERHCF:

5.3.2.1.1. Develops and implements methods for calculating amounts to be transferred periodically from MERHCF for projected costs of uniformed service retiree health care programs for Medicare-eligible beneficiaries (purchased health care and direct health care) in accordance with 10 U.S.C. §§ 1111 – 1117.

5.3.2.1.2. Coordinates with the Chief Actuary, DoD OACT to determine any actuarial impacts to MERHCF resulting from any proposed changes to the method or methods for calculating amounts to be transferred periodically from MERHCF for the projected costs of uniformed service retiree health care programs for Medicare-eligible beneficiaries.

5.3.2.1.3. Conducts an annual execution review in coordination with the USD(C) and the Secretaries of the Military Departments to compare projected costs to the costs based on actual workload performed for Medicare-eligible beneficiaries. Provide Military Treatment Facility (MTF)-level feedback on the status of reported workload for eligible beneficiaries and the associated Fund payments for that workload.

5.3.2.1.4. Coordinates with the ASD(HA); the USD(C); the Director, DFAS; the Chief Actuary; and DoD OACT to:

5.3.2.1.4.1. Establish or update the accounting policy and financial management processes for payments to and from MERHCF.

5.3.2.1.4.2. Review and approve appropriate amounts and disclosures needed for the Federal financial statement reports and the related footnote disclosures and schedules.

5.3.2.1.4.3. Review and update MERHCF's Financial Management Committee charter as necessary.

5.3.2.1.4.4. Support annual required independent financial audits in accordance with the provisions of MERHCF's Financial Management Committee charter and support any other operational audits of MERHCF, as needed.

5.3.2.2. Reviews current and proposed legislative program changes for potential impacts to MERHCF's valuations and coordinates with the Chief Actuary, DoD OACT and the USD(C) to provide input for decision making.

5.3.3. DoD MERHCF Board of Actuaries. The MERHCF Board:

5.3.3.1. Furnishes advice and opinion to the ASD(HA) and the Director, DHA on matters referred to it as appropriate.

5.3.3.2. Reviews actuarial valuations of MERHCF. This includes review and approval of the amortization schedule for the unfunded actuarial liability to ensure the liability will be fully funded in the future.

5.3.3.3. Reports on the actuarial status of MERHCF annually to the Secretary of Defense and not less than once every four years (quadrennial report) to the President and Congress.

5.3.4. Chief Actuary, DoD OACT. The Chief Actuary, DoD OACT under the authority, direction, and control of the Director, Defense Human Resources Activity:

5.3.4.1. Coordinates with the MERHCF Board to report on the actuarial status of MERHCF annually to the Secretary of Defense and not less than once every four years (quadrennial report) to the President and Congress.

5.3.4.2. Using methods and assumptions approved by the MERHCF Board, coordinates with the USD(C) and the Director, DHA to provide the National Security Division, OMB with:

5.3.4.2.1. Annual estimates of per capita normal cost rates and total annual normal cost contribution amounts for the coming fiscal year.

5.3.4.2.2. Preliminary estimates of per capita normal cost rates and estimates of total annual normal cost contribution amounts for the succeeding fiscal year.

5.3.4.3. Using methods and assumptions approved by the MERHCF Board, coordinates with the USD(C) to:

5.3.4.3.1. Calculate the annual amounts due to MERHCF from the Secretary of the Treasury for:

5.3.4.3.1.1. The total unfunded actuarial liability amortization payment, and

5.3.4.3.1.2. The total normal cost contribution on behalf of the Secretaries of the Military Departments.

5.3.4.3.2. Provide an annual estimate of per capital normal cost rates to the participating uniformed services (the United States Coast Guard (USCG), Public Health Service (PHS), and the National Oceanic and Atmospheric Administration (NOAA)).

5.3.4.4. Coordinates with the ASD(HA), and the Director, DHA to provide to the USD(C), the Secretaries of the Military Departments, Secretaries of the Uniformed Services and the Director, DFAS:

5.3.4.4.1. Notification of all public meetings and decisions made by the MERHCF Board.

5.3.4.4.2. Annual estimates of the per capita normal cost rates and total projected normal cost contribution amounts to MERHCF.

5.3.4.4.3. Annual estimates of total projected outlays from MERHCF.

5.3.4.4.4. Annual adjustments and schedules needed for Federal financial statement reports.

5.3.4.5. Reviews current and proposed legislative and regulatory program changes for potential impacts to MERHCF's actuarial valuations and coordinates with the Director, DHA and the USD(C) to provide input for decision making as applicable.

5.3.4.6. Coordinates with the ASD(HA) to determine any actuarial impacts to MERHCF of any proposed changes to the method or methods for calculating amounts to be transferred periodically from MERHCF.

5.3.5. USD(C). The USD(C) prepares the total unfunded liability amortization payment plus the total normal cost contribution for certification by the Secretary of Defense, on behalf of the Military Department Secretaries, to the Secretary of the Treasury using the annual amounts due to MERHCF calculated by the DoD OACT.

5.3.6. Director, DFAS. The Director, DFAS under the authority, direction and control of the USD(C), coordinates with the Secretary of the Treasury, the Chief Actuary, DoD OACT, the Secretaries of the Military Departments, the Secretaries of the participating Uniformed Services, and/or the Director, DHA as applicable, to:

5.3.6.1. Manage MERHCF's investments in accordance with the provisions of 10 U.S.C § 1117.

5.3.6.2. Establish the necessary accounts for MERHCF.

5.3.6.3. Develop financial management processes for payments to and from MERHCF and establish or update them.

5.3.6.4. Develop, report and approve appropriate amounts and disclosures needed for the Financial Statement reports and the related Footnote disclosures.

5.3.6.5. Support the annual independent financial audit of MERHCF's Federal financial statements and any other financial or operational audits of MERHCF as necessary.

5.3.6.6. Incorporate into the Planning, Programming, Budgeting, and Execution System the accounting process for contributions to MERHCF and for payments and outlays from MERHCF, in accordance with 10 U.S.C. §§ 1111 – 1117.

5.3.7. Secretaries of the Military Departments. The Secretaries of the Military Departments:

5.3.7.1. Provide current and projected personnel end strength and average strength data and estimates to the DoD OACT and USD(C) when requested.

5.3.7.2. Conduct all fund transfers, accounting, reconciliation, and other administration relating to the operation of MERHCF.

5.3.8. Administering Secretaries for the Participating Uniformed Services. The Administering Secretaries for the participating Uniformed Services include the Secretary of Homeland Security (for USCG) and the Secretary of Health and Human Services for PHS and NOAA. The Administering Secretaries for the participating Uniformed Services:

5.3.8.1. Using the annual estimate of per capital normal cost rates provided by the DoD OACT, calculate the normal cost contribution amounts using current personnel end strength and average strength data.

5.3.8.2. Coordinate with the USD(C) to transfer the calculated normal cost contributions to MERHCF consistent with 10 U.S.C. §§ 1111 – 1117.

5.3.8.3. Provide the basis for the calculation of the normal cost contribution amount to the DoD OACT, the USD(C), and the Director, DFAS.

5.3.8.4. Provide current and projected personnel end strength and average strength data to the DoD OACT and USD(C) when requested.

5.3.8.5. Provide retiree strength data to the DoD OACT when requested.

5.4 MERHCF Accounts (160504)

The DoD MERHCF (097X5472, “Department of Defense, Medicare-Eligible Retiree Health Care Fund”) is classified as a Special Fund and uses both receipt and expenditure accounts. The account number 097X5472 is the special fund expenditure account. Amounts deposited to the MERHCF receipt accounts are available immediately to the special fund expenditure account for investment, payment of benefits and administrative costs. Transfers from 097X5472 **must** be reported as expenditures. Transfers received by the appropriate program accounts **must** be reported as offsetting collections and as expenditures when expenses are paid. Acting for the Secretary of Defense, DFAS **must** make amounts available from 097X5472 in order to fund all qualifying expenses. All credits (deposits) and charges (payments) to ALC 97200010 for account 097X5472 made through the IPAC system **must** be reported to Treasury using the Governmentwide Accounting (GWA) system.

5.4.1. Deposit Accounts. Deposits are made to the following special fund receipt accounts, as applicable:

5.4.1.1. 097X5472.001, “Non-DoD Employing Agency Contributions, DoD Medicare-Eligible Retiree Health Care Fund.” Payments from participating uniformed services for accrual of future health benefits.

5.4.1.2. 097X5472.002, “Earnings on Investments, DoD Medicare-Eligible Retiree Health Care Fund.” Payment of interest by Treasury on Fund investments in U.S. public debt securities.

5.4.1.3. 097X5472.003, “Federal Contributions, DoD Medicare-Eligible Retiree Health Care Fund.” Payments from the permanent indefinite appropriation for the unfunded liability – 097X0850.

5.4.1.4. 097X5472.004, “Refunds Received, DoD Medicare-Eligible Retiree Health Care Fund.” Refund of amounts previously transferred from MERHCF, which are determined to be not necessary for the purposes transferred.

5.4.1.5. 097X5472.005, “Department of Defense Contributions, DOD Retiree Health Care Fund.” DoD MERHCF payments from the Military Services.

5.4.2. Investment Accounts. The following accounts are used exclusively for investment transactions in U.S. securities, as applicable:

5.4.2.1. 097X5472 – Disbursements, Unamortized Premium and Discount. Purchase of premium, discount (CR) and interest.

5.4.2.2. 097X5472 – Receipts, Unamortized Premium and Discount. Write-off and amortization of premium and discount and collection of interest purchased.

5.4.2.3. 097X5472 – Investment in U.S. Securities (par). The par value of purchases of U.S. securities.

5.4.2.4. 097X5472 – Redemption of U.S. Securities (par). The par value of redemptions prior to maturity and the par value of matured U.S. Securities.

5.5 MERHCF Assets (160505)

5.5.1. Contributions. Amounts are contributed to MERHCF by DoD, other uniformed services (USCG, NOAA, and PHS), and the Treasury. These amounts must be based on determinations by the DoD OACT under methods and assumptions approved by the DoD MERHCF Board in accordance with the provisions of 10 U.S.C. §§ 1111 – 1117 as follows:

5.5.1.1. DoD. Amounts are paid into MERHCF from the “Military Personnel, Reserve Personnel and National Guard Personnel” appropriations to fund future benefits payable from MERHCF attributable to Military Service rendered in the current fiscal year.

5.5.1.2. Other Uniformed Services. Amounts paid into MERHCF from other uniformed services

5.5.2. Unfunded Actuarial Liability Payment. Amounts paid into MERHCF from a permanent indefinite general fund appropriation, 097X0850, to fund future benefits payable from MERHCF attributable to service rendered prior to October 1, 2002 (i.e., the unfunded actuarial liability) as well as all actuarial gains and losses.

5.5.3. Investment Income. Income on the invested portion of MERHCF.

5.5.4. Return of Prospective Payment Transfers. Amounts returned to MERHCF that were previously transferred to fund the payment of expenses.

5.6 Accounting for MERHCF Revenues (160506)

Amounts earned on investments are recorded by DFAS in accordance with the provisions of 10 U.S.C. §§ 1111 – 1117 and applicable accounting principles. DFAS deposits the amounts received for investment income into the MERHCF receipt account number 097X5472.002, “Earnings on Investments, DoD Medicare-Eligible Retiree Health Care Fund.” Amounts contributed to MERHCF by the DoD, other uniformed services, and the Treasury **must** be based on determinations by the DoD OACT under methods and assumptions approved by the DoD MERHCF Board in accordance with the provisions of 10 U.S.C. §§ 1111 – 1117:

5.6.1. Annual Certification Letter and Apportionment

5.6.1.1. Prior to the beginning of each fiscal year, the Secretary of Defense issues a letter certifying the amortization payment (the initial unfunded actuarial liability plus amortization of actuarial gains and losses) and the normal cost contributions (the accrued cost associated with the current year’s military service) on behalf of DoD. The normal cost contributions are determined in accordance with 10 U.S.C. §§ 1111 – 1117.

5.6.1.2. The certifying letter **must** request the Treasury to issue warrants to the DoD MERHCF payment account (097X0850) at the start of the fiscal year for the amortization payment and to the ten MERHCF contribution accounts for the normal cost accrual contributions. A copy of the letter **must** be sent directly to:

Department of the Treasury
Bureau of the Fiscal Service
Budget Reports Division
3201 Pennsy Drive, Building E
Landover, MD 20785-1603

5.6.1.3. The OUSD(C) submits an apportionment request to OMB for the ten MERHCF contribution accounts. The MERHCF contribution accounts correspond to one of the ten military personnel accounts (Active, Reserve, and National Guard).

5.6.2. Accounting for the Amortization of the Unfunded Actuarial Liability

5.6.2.1. Upon receipt of the certification, the Treasury provides the FS Form 6200, for the certified amortization amount. The warrant **must** be dated October 1 and provided to DFAS on or before that date so that the funds are available for immediate investment in the new fiscal year.

5.6.2.2. On October 1, DFAS **must** record the FS Form 6200, disburse the entire amortization amount from 097X0850, and deposit it to special fund receipt account 097X5472.003 – Federal Contributions, DoD MERHCF and notify the DoD OACT, the USD(C), and the Director, DHA when the payments are deposited.

5.6.3. Accounting for Military Pay Contributions

5.6.3.1. On the first duty day of October, Treasury issues warrants to the ten MERHCF normal cost contribution accounts. The Military Services will transmit payment to MERHCF, via facsimile or email, using an SF 1081 as supporting documentation for the IPAC.

5.6.3.2. To ensure the timely payment of funds and prevent a possible loss of interest to MERHCF, the Military Services **must** pre-coordinate their payments with the DFAS TFAR prior to the issuance of warrants by the Treasury and **must** prepare the SF 1081 to transmit payment based on the amounts certified by the Deputy Secretary of Defense.

5.6.3.3. DFAS deposits the amounts received for the normal cost contribution amounts into the MERHCF receipt account 097X5472.001, "Employing Agency Contributions, DoD Medicare-eligible Retiree Health Care Fund" and notifies the USD(C), the DoD OACT, and DHA when these payments have been deposited.

5.6.4. Accounting for Other Uniformed Services Contributions

5.6.4.1. The normal cost contribution payments to MERHCF for participating uniformed services **must** be computed and deposited in a manner similar to that described for the Military Services in subparagraph 5.5.1 using the rates provided by DoD OACT in accordance with the provisions of 10 U.S.C. §§ 1111 – 1117.

5.6.4.2. Payments to the MERHCF will be made at the beginning of the fiscal year to ALC 97200010 through the IPAC system. DFAS **must** credit the special fund account 097X5472.001, "Non-DoD Employing Agency Contributions, Department of Defense Medicare-Eligible Retiree Health Care Fund." Documentation supporting the deposits **must** be transmitted electronically to DFAS prior to or immediately upon completion of the transaction.

*5.7 Reimbursements of Medicare-Eligible Retiree Health Care (160507)

The Fiscal Year 2005 National Defense Authorization Act provides permanent, indefinite appropriations from the Treasury to finance the cost of Medicare-Eligible Retiree Health Care (MERHC) accruals beginning in fiscal year 2006, rather than from MILPERS annual appropriations. Therefore, the per capita normal cost for MERHC accruals are not billable to other DoD Agencies or Federal Agencies. 22 U.S.C. § 2761(a)(1)(C) of the Arms Export Control Act requires foreign countries or international organizations, in the case of the sale of a defense service, to pay "the full cost to the United States Government of furnishing such service." Therefore, the per capita normal cost for MERHC accruals must be included in the DoD Annual Rate Billable to Foreign Military Sales (i.e., the reimbursable rate billed to foreign countries or international organizations). Reimbursements of the per capita normal cost for MERHC accrual must be deposited into the Treasury Miscellaneous Receipts account 304100.

5.8 Investment of MERHCF Cash Balances (160508)

The Investment Fund Manager, DFAS, is responsible for investing cash balances of MERHCF not required to meet current withdrawals. Investments are limited to Market-Based U.S. Government Special Securities issued by the Treasury and are made in accordance with the provisions of [10 U.S.C. §§ 1111 – 1117](#). The income on such investments must be credited to receipt account 097X5472.002, “Earnings on Investments, DoD Medicare-Eligible Retiree Health Care Fund,” and form a part of MERHCF. The reporting instructions for accounts invested in the Treasury securities contained in the Treasury Financial Manual do not pertain to the DoD MERHCF (097X5472). The reporting procedures for this Fund were agreed to by Treasury’s [Bureau of the Fiscal Service](#), OMB, and DoD. These agreed upon procedures were formalized by DoD and Treasury in 1993, and DFAS [must](#) maintain documentation of the agreement.

5.9 Accounting for MERHCF Outlays (160509)

5.9.1. DFAS [must](#) make amounts available from the special fund, account 097X5472, for payment of qualifying expenses in accordance with the provisions of [10 U.S.C. §§ 1111 – 1117](#):

5.9.1.1. Amounts transferred from MERHCF [must](#) be merged with and available for the same purposes and for the same time period as the appropriation to which transferred in accordance with the provisions of [10 U.S.C. §§ 1111 – 1117](#).

5.9.1.2. Funds may be returned to the MERHCF within two years in accordance with the provisions of [10 U.S.C. §§ 1111 – 1117](#).

5.9.1.3. The DHA determines annual prospective payments / transfer amounts from MERHCF in accordance with [10 U.S.C. §§ 1111 – 1117](#) and the following accounting and financial management processes for two categories of health care expenses: Purchased Care and Direct Care.

5.9.2. Purchased Care. Health care purchased from non-DoD providers is paid through the Operations and Maintenance (O&M) accounts within the MERHCF under the DHA Contract Resource Management (DHA-CRM) limit code (097X5472.18D9). For Purchased Care, the DHA-CRM [must](#) provide an estimated annual expense program to DFAS and the Director, DHA, at least one month prior to the start of each fiscal year. These estimates are used by DFAS for management of the investment portfolio and effective cash management and forecasting and are used by the Director, DHA in the development of the annual distribution plan. Accounting and financial management processes for using MERHCF funds for payment of pharmacy claims and health care purchased from non-DoD providers are as follows:

5.9.2.1. A Funding Authorization Document (FAD) will be issued to DHA-CRM for MERHCF funding in the amount(s) approved on the annual/quarterly distribution plan.

5.9.2.2. DHA-CRM uses this MERHCF funding for modifications to contracts for administrative payments and for pass through costs for healthcare and pharmacy claims attributable to Medicare-eligible beneficiaries.

5.9.2.2.1. The TRICARE Dual Eligible Fiscal Intermediary Contract (TDEFIC), TRICARE Overseas Program (TOP), and TRICARE Pharmacy Program (TPHARM – Mail Order and Retail) contracts process individual healthcare claims and administrative costs including per claim administrative payments and monthly costs. These contracts utilize TRICARE Encounter Data (TED) to process healthcare and pharmacy claims as well as the claim rate associated with the claims.

* 5.9.2.2.2. The Designated Provider Program (DPP), formerly Uniformed Services Family Health Plan (USFHP) contracts, have capitated rates by contract based upon enrollments at each DPP/USFHP hospital. Modifications to the contracts are done at least once a year to initiate a new option period and to set aside funds for the new fiscal year. Each modification for MERHCF funding is an estimate of enrollments of Medicare-eligible retirees, retiree family members, and survivors for the period of time covered by the modification (i.e. one year, one month. These plans include inpatient and outpatient services and a pharmacy benefit. The capitation rate is paid by DoD. Beneficiaries who choose enrollment in these plans are ineligible for care in MTFs as well as for benefits under the TRICARE for Life (TFL) (or other TRICARE plans) and Pharmacy programs. Prior to August 20, 2012, USFHP enrollees were not required to participate in Medicare. Beginning October 2012, a military retiree (or eligible family member) who becomes eligible for Medicare due to age may not enroll or stay enrolled in the USFHP, unless the military retiree (or eligible family member) was enrolled in the plan prior to September 30, 2012.

5.9.2.2.3. Marketing and Education contract supports the healthcare and pharmacy contracts with marketing and educational materials. Modifications to the contracts are done at least once a year to initiate a new option period.

5.9.2.3. DHA-CRM makes payments based on contract requirements and the appropriate funding source.

5.9.2.4. Validation of claims processed against MERHCF:

5.9.2.4.1. TED related health care and pharmacy claims and administrative payments are validated through a series of edits in TED and in DHA-CRM's accounting system. Edits include validation of funding source based on claim details contained in the TED records. This ensures that only costs attributable to Medicare-eligible beneficiaries have been included in payments drawn from MERHCF.

5.9.2.4.2. Modifications to contracts are not processed without the availability of MERHCF funding on the FAD. Payments are reconciled against available funding on the modifications when payments are made.

5.9.2.5. DFAS and DHA-CRM Reporting Procedures:

5.9.2.5.1. Estimated payments and collections using MERHCF funds will be reported to DFAS, as needed, by agreement with DFAS. Payments and collections include those made through all Treasury systems used by DHA-CRM.

5.9.2.5.2. At the end of every month, DHA-CRM will report to DFAS a final reconciliation of payments and collections that used MERHCF funds for the month.

5.9.2.5.3. At the end of every month, DHA-CRM will report the amounts of open accounts payable and open accounts receivable using MERHCF funds for use in Federal financial statement reporting.

5.9.3. Direct Care. Direct care is health care services provided to Medicare-eligible beneficiaries directly in MTFs of the DHA Service Medical Activities (SMAs) of the Army, Navy and Air Force and the DHA National Capital Region Medical Directorate (NCR MD).

5.9.3.1. Defense Health Program (DHP) O&M Transfers. Direct care qualifying expenses are paid through the DHP O&M account (0130188*/18P*) for the SMAs and the NCR MD. MERHCF transfers for benefit outlays are reported in GWA by ALC 97200010 as an increase to the DHP account 097 CY 0130 for the current fiscal year and as an increase to the expenditure account 097X5472. This must be completed by DFAS on the first workday of each quarter and reported to Treasury. Copies of the SF1081 recording the transfer must be sent by DFAS to the appropriate OUSD(C) Directorate, who must distribute the funds to DHA via a FAD.

5.9.3.2. Military Pay Reimbursements. Direct care funding amounts for MILPERS accounts of the Army, Navy and Air Force for health care provided to Medicare-eligible beneficiaries in MTFs by active duty Service personnel are processed via IPAC and reported in the same manner as other IPAC transactions. This must be completed by DFAS on the first work day of each quarter. Copies of the SF 1081 (or SF 1151, “Nonexpenditure Transfer Authorization”) supporting these transactions must be sent to the appropriate OUSD(C) Directorates and DFAS sites that account for the funds.

5.9.4. Direct Care Annual Prospective Payment Development. The Director, DHA annually develops prospective payment amounts for the estimated costs of providing health care services projected to be provided in MTFs to Medicare-eligible beneficiaries as authorized by 10 U.S.C. §§ 1111 – 1117 and in accordance with OMB Circular A-11, section 20. The annual projected expenses are transferred in quarterly increments in accordance with a distribution plan provided by DHA to DFAS approximately one month prior to the start of each fiscal year. The annual distribution plan to DFAS contains quarterly payment amounts by Uniform Service, and for the NCR MD as appropriate, for the Service MILPERS payments and the DHP O&M payments and transfers. The DHP O&M projected payment includes civilian pay expense.

5.9.4.1. Expense Allocation. The DHA bases prospective payment amounts on expenses reported by the MTF's Medical Expense and Performance Reporting System (MEPRS) and patient encounter data for the most recent fiscal year for which data is complete at the time the calculations are prepared. MEPRS expense data are recorded as MILPERS and DHP O&M components of costs per individual patient encounter to develop a workload Level of Effort (LOE) for each Service and the NCR MD for that fiscal year. After the LOE and cost allocations for each SMA and the NCR MD are adjusted and reconciled with the distributions previously made for that fiscal year, the LOE rate amounts and cost allocations by service are inflated to the coming fiscal

year's equivalent for execution using standard OMB inflation rates applicable to the Medical industry and issued in OSD inflation guidance.

5.9.4.2. Workload Rate Development. DHA develops the MTF-specific rates for the prospective payment calculation. These MTF-specific rates are the average dollar expense per workload unit for each MTF as described in the following subparagraphs 5.9.4.2.1 – 5.9.4.2.3 for Medicare Severity-Relative Weighted Product (MS-RWP), Composite Weights, or Outpatient Pharmacy prescriptions. These rates are separated into MILPERS and DHP O&M rates and **must** be developed for the following categories of health care services:

5.9.4.2.1. Inpatient care - cost per MS-RWP. An MS-RWP is a DoD measure of workload that represents the relative resource consumption of a patient's hospitalization as compared to that of other inpatients. MS-RWPs are generated as the result of completed Composite Health Care System (CHCS) Standard Inpatient Data Records (SIDRs). The prospective payment amount for inpatient care for eligible beneficiaries for each MTF **must** be the product of the estimated MS-RWPs for that MTF multiplied by the MTF-specific rate per MS-RWP for the year of execution. The MS-RWP data source **must** be the Military Health System Data Repository (MDR).

5.9.4.2.2. Outpatient care - cost per Composite Weights. Composite weights are a combination of Ambulatory Payment Classification (APC) weights and relative value units (RVUs). The Composite Weight is an ambulatory workload measure of encounters adjusted for case complexity as measured by combining provider aggregate RVU with APC aggregate weight after standardizing to an APC-based unit. Composite Weight components (APCs and RVUs) are generated from Comprehensive Ambulatory Provider Encounter Records (CAPERs). The prospective payment amount for outpatient care for each MTF **must** be the product of the estimated composite weights for that MTF multiplied by the MTF-specific rate per composite weight for the year of execution. The CAPERs data source **must** be the MDR.

5.9.4.2.3. MTF Outpatient Pharmacy. MTF Outpatient Pharmacy prospective payments **must** be calculated for two separate cost components:

* 5.9.4.2.3.1. Ingredient costs. Ingredient costs are prices paid for pharmacy ingredients (drugs) purchased from vendors. **The per unit costs for pharmaceuticals dispensed for Medicare-eligible retirees/dependents or retired at the MTFs are calculated based on the prime vendor invoices for all continental U.S.-based facilities for the National Drug Codes within their Generic Sequence Numbers based on a weighted average basis of the average acquisition cost (the price paid by the MTF for the pharmaceutical product) during the relevant fiscal year.**

5.9.4.2.3.2. Non-ingredient costs. Non-ingredient costs are all other costs associated with MTF Outpatient Pharmacy operations as allocated in MEPRS. These rates are based on MEPRS costs per prescription for the most recent fiscal year for which data is complete at the time the calculations are prepared, inflated to the year of execution. Prospective payment amounts are based on qualifying MEPRS pharmacy “non-ingredient” expenses allocated to beneficiary categories (DoD and other Uniformed Services) on the basis of **Pharmacy Data**

[Transaction Service \(PDTs\)](#) prescription counts (volume) for Military Pay and non-ingredient O&M. The data source for the number of prescriptions filled [must](#) be the MDR using data fed from PDTs.

5.9.4.3. Management Controls on Data Used to Develop Prospective Payment Amounts. Management controls on data used to develop prospective payment amounts include, but are not limited to, the following:

5.9.4.3.1. The MEPRS data and the MS-RWP, SIDR, and CAPER records [must](#) be prepared, reviewed, and validated in accordance with DoD 6010.13 and DoDI 6040.40.

5.9.4.3.2. MEPRS data [must](#) be recorded and maintained by the Military Departments in accordance with DoD 6010.13-M.

5.9.4.3.3. The Defense Manpower Data Center within the Defense Human Resources Activity under USD (P&R) receives a monthly data feed from the Centers for Medicare and Medicaid Services that provides Medicare eligibility data. These data are merged with data in the Defense Enrollment Eligibility Reporting System (DEERS) to provide both DoD and Medicare eligibility status. Individual patient eligibility data [must](#) be verified for each patient encounter using DEERS, and subsequently stored in the encounter record by the capture system (Composite Health Care System or claims processor). If a source system does not perform this check and recoding, the records from that system [must](#) be verified centrally through merge and comparison to the DEERS extracts.

5.9.4.4. Execution Reviews

5.9.4.4.1. Comparison of the MTF LOE to the Prospective Payment Amount. After the year of execution is complete and the associated expenses and workload data are available, DHA conducts an execution review in coordination with USD(C), SMAs and the NCR MD to determine the direct care MTF LOE for that fiscal year and the allocated actual expense to estimate the cost of caring for the Medicare-eligible beneficiaries during that period. The prospective payment amounts for that fiscal year that were paid to each SMA and the NCR MD are compared to the allocated expenses and actual workload LOE calculated for the same time period.

5.9.4.4.2. Reconciliation and Execution Review. Results of the execution review (LOE calculation) are:

5.9.4.4.2.1. Reported to the DoD OACT for use in determining future Fund requirements under the oversight of the Medicare-eligible Retiree Health Care Board of Actuaries (MERHCF Board).

5.9.4.4.2.2. Used during subsequent Program and Budget Reviews with OSD to determine impacts, if any, to future MTF prospective payment amounts.

5.9.4.4.2.3. Used to determine whether any additional transfers from MERHCF or transfers back to MERHCF are appropriate for Direct Care payments. Prospective payment amounts (full or partial) determined to be not necessary (in excess of reconciled expenses), may be returned to the MERHCF within two years after the end of the obligation year that funds were originally transferred in accordance with 10 U.S.C. §§ 1461–1467. Returns to the MERHCF should be processed to the appropriate MERHCF account.

5.9.4.4.2.4. Used as a starting point for developing the coming fiscal year's prospective payment amounts. The workload units and expense allocation used in the execution review is described in paragraph 5.9.

5.10 MERHCF Financial Reporting Requirements (160510)

5.10.1. Permanent Indefinite Appropriation 097X0850 – Payment to DoD MERHCF. The DFAS is responsible for preparing the reports for this account in accordance with Volume 6A.

5.10.2. SF 133, Report on Budget Execution and Budgetary Resources. DFAS must submit a monthly SF 133 that includes all MERHCF accounts.

5.10.3. Federal Financial Statements. The DFAS must prepare all MERHCF Federal financial statements as required by OMB Circular A-136 to support the DoD Agency-wide financial statement process. The MERHCF Federal financial statements must recognize a liability for the present value of future MERHC benefits for eligible participants. For the year in which the liability is first recorded, the initial amount of the liability must be reported as an accounting change (i.e., a change to equity and an accrued liability). Thereafter, changes in the liability each year must be charged to expense.

5.10.4. Status of Funds. The DFAS must prepare a Status of Funds and forward it to the Deputy Comptroller, Program/Budget, on the fifteenth workday of the following month. The DFAS must report actual data for current fiscal year through the previous fiscal month.

VOLUME 12, CHAPTER 17: “DoD REWARDS PROGRAM”**SUMMARY OF MAJOR CHANGES**

Changes are identified in this table and also denoted by [blue font](#).

Substantive revisions are denoted by an (*) symbol preceding the section, paragraph, table, or figure that includes the revision.

Unless otherwise noted, chapters referenced are contained in this volume.

Hyperlinks are denoted by [***bold, italic, blue, and underlined font***](#).

The previous version dated [September 2019](#) is archived.

CHAPTER 17

DoD REWARDS PROGRAM

1.0 GENERAL

*1.1 Overview

The Secretary of Defense (SecDef) is authorized to offer either monetary compensation or payments-in-kind to individuals who supply information or non-lethal assistance to the United States (U.S.) Government personnel, or personnel from allied forces involved in joint operations with U.S. Armed Forces. This aid must benefit the operations or activities of the armed forces or of allied forces in combined operations outside the U.S. against international terrorism or contribute to force protection. This capability is valuable in motivating local citizens in foreign nations to assist by providing information or other forms of help, such as handing over dangerous individuals and weapons, to U.S. Government personnel or allied force personnel. The Department of Defense Rewards Program (DoDRP) facilitates the provision of incentives for U.S. Government or allied force personnel to encourage cooperation.

1.2 Purpose

This chapter provides guidance on implementing the DoDRP for all Department of Defense (DoD) entities. It covers the execution, management, recording, and reporting of U.S. appropriations for the DoDRP. It assigns responsibilities for administration, specifies uses for U.S. funds, and outlines procedures for transparency and accountability. Geographic combatant commanders can provide additional guidance aligned with these directives.

*1.3 Authoritative Guidance

1.3.1. Title 10, United States Code, section 127b ([10 U.S.C. § 127b](#)), “Department of Defense Rewards Program.”

1.3.2. DoD Instruction ([\(DoDI\) O-3000.13](#)), “DoD Rewards Program.” (DoD [Public Key Infrastructure](#) certificate [is](#) required to access this document.)

*2.0 DEFINITIONS

2.0.1. Allied Forces. For the purposes of this chapter only, the term “allied forces” is defined as foreign government personnel participating with [the](#) U.S. Armed Forces in combined operations outside of the U.S. against international terrorism.

2.0.2. Combatant Commands Reward Programs (CCRPs). The collective activities of a combatant command to incentivize eligible persons, through the offer and payment of rewards, to provide information or non-lethal assistance that enables or enhances force protection of, or combating terrorism by, U.S. or allied forces.

2.0.3. DoDRP. The enterprise of Rewards Programs and governance established, planned, executed, and overseen throughout the DoD in accordance with Section 127b of Title 10, U.S.C., and this issuance.

2.0.4. Force Protection. Activities intended to protect against, disrupt, or mitigate threats (all threats, not just international terrorism threats) to U.S. or allied forces. Also includes personnel recovery of U.S. or allied forces.

2.0.5. Non-lethal Assistance. Assistance not intended primarily to inflict bodily harm or death that is beneficial to force protection or counterterrorism.

2.0.6. Tactical Rewards Officers (TROs). A member of U.S. forces (excluding contractors), appointed in accordance with CCRP guidance, who may approve reward offers and reward payments with a value up to and including \$10,000. A TRO is a DoDRP fund-approving official. Formerly known as a “reward authorization officer.”

3.0 RESPONSIBILITIES

3.1 Under Secretary of Defense (Comptroller)/Chief Financial Officer (USD(C)/CFO)

3.1.1. Oversees development of justification materials for the DoDRP in the President’s Budget.

3.1.2. Allocates DoDRP funds as part of the Under Secretary of Defense (Policy) (USD(P)) budget to the Director, Washington Headquarters Service.

3.1.3. Oversees execution of DoDRP funds as part of the USD(P) budget.

3.1.4. Coordinates DoDRP appropriations-related engagements with the Senate Appropriations Committee – Defense, House Appropriations Committee – Defense, and other congressional staff members, Members of Congress, or committees, as required.

3.1.5. Coordinates on the DoDRP Annual Report.

3.2 Office of the USD(P), Assistant Secretary of Defense for Special Operations and Low Intensity Conflict (ASD SO/LIC)

3.2.1. Implements policy for the DoDRP.

3.2.2. Approves allocation of DoDRP funds to combatant commanders (CCDRs).

3.2.3. Maintains a single consolidated SecDef pre-approved rewards list. This list will include the identity, nominating headquarters or office, the amount approved, and other relevant data. CCDRs may nominate individuals or items to be placed on the pre-approved rewards list through the Director, Joint Staff.

3.2.4. Coordinates the SecDef pre-approved rewards list with the Department of State (DOS) and the Department of Justice (DOJ) to ensure that a reward does not duplicate or interfere with the payment of reward authorized by those Departments.

3.3 Geographic Combatant Commander

3.3.1. Designates, in writing, a program liaison officer to serve as the point of contact for all disbursement of funds, goods, or services;

3.3.2. Establishes procedures for the accounting, obligating, cash management, and disbursement of funds;

3.3.3. Establishes procedures and processes to coordinate notification of awards with appropriate representatives of the DOS and the DOJ to ensure the making of a reward does not duplicate or interfere with the payment of a reward authorized by those Departments.

3.3.4. Establishes internal controls and review procedures for classified voucher processing when required and in accordance with Volume 5, Chapter 9, "Disbursements."

3.3.5. Provides a copy of commander-approved lists to the Director, Joint Staff as updates occur.

3.3.6. Submits estimated Rewards Program budget requirement for the upcoming fiscal year on August 15 of the current fiscal year.

3.3.7. Reports annually to the Director, Joint Staff, no later than October 15 of each year for the preceding fiscal year.

3.3.8. Requests additional funds from ASD SO/LIC if all available funds for these purposes have been expended and additional funds are required.

3.4 Director, Joint Staff

3.4.1. Advises the SecDef on the DoDRP.

3.4.2. Coordinates on the DoDRP Annual Report.

3.4.3. Appoints the Joint Staff DoDRP Monitor and may, as necessary, appoint one or more Joint Staff DoDRP Assistant Monitors.

3.5 Washington Headquarters Service

3.5.1. Receives DoDRP funds from the USD(C)/CFO, as part of the USD(P) budget.

3.5.2. Allocates DoDRP funds to CCDRs upon approval of the ASD(SO/LIC).

4.0 IMPLEMENTING THE PROGRAM IN THE FIELD

4.1 Rewardable Information

Eligible persons may receive a reward for providing information or non-lethal assistance that benefits (1) an operational activity of U.S. or allied forces in combined operations against international terrorism outside the U.S. or (2) force protection of U.S. or allied forces in combined operations.

4.2 Payment Approval Amounts

TROs can authorize rewards up to \$10,000. A CCDR is permitted to approve rewards up to \$1,000,000. For rewards greater than \$1,000,000 and up to \$2,000,000, approval from the USD(P) is necessary. Rewards exceeding \$2,000,000 but not surpassing \$5,000,000 require the authorization of the SecDef or the Deputy Secretary of Defense (DepSecDef), or alternatively, through a separate written delegation, the USD(P). Statutorily, if any proposed reward (whether pre-approved or otherwise) exceeds \$2,000,000, consultation with the Secretary of State is mandated for the SecDef. Table 17-1 in DoDI O-3000.13 outlines these approval limits.

Table 17-1. DoDRP Fund-Approving Officials: Reward Offers and Reward Payments

DoDRP Fund-Approving Official	Approval Level	Remarks
SecDef or DepSecDef	Up to \$5,000,000	For rewards more than \$2,000,000, must coordinate with the Secretary of State in all instances and the Attorney General in law enforcement-related instances before approving.
USD(P)	Up to \$2,000,000	May not be further delegated.
CCDR	Up to \$1,000,000	
Deputy CCDR	Up to \$1,000,000	Upon delegation by CCDR. May not be further delegated.

Table 17-1. DoDRP Fund-Approving Officials: Reward Offers and Reward Payments (continued)

DoDRP Fund-Approving Official	Approval Level	Remarks
Directly Subordinate CCDR	Up to \$100,000	Upon delegation by CCDR. May not be further delegated.
	More than \$100,000 and up to \$1,000,000	Upon approval of USD(P) and delegation by CCDR. May not be further delegated.
TRO	Up to \$10,000	In accordance with CCRP guidance. May not be further delegated.

4.3 Geographic Combatant Commanders' Nominations for Reward Lists

Geographic combatant commanders can propose individuals or items for the SecDef pre-approved rewards list if the reward amount exceeds their authority. Nominations are submitted to ASD SO/LIC via the Director, Joint Staff. ASD SO/LIC will coordinate with DOS and DOJ to avoid duplication or interference with other authorized rewards, then forward them to the SecDef or DepSecDef for approval. ASD SO/LIC will maintain a consolidated list including the identity, nominating headquarters or office, approved amount, and other relevant information.

4.4 Geographic Combatant Commander Approvals

A geographic combatant commander has the authority to approve rewards up to \$1,000,000 per reward. Geographic combatant commanders must also provide immediate written notification to ASD SO/LIC when they approve or pre-approve awards and payments of \$100,000 or more.

4.5 Geographic Combatant Commander's Pre-Approved Rewards List

The geographic combatant commander may provide a list of pre-approved rewards for information or assistance pertaining to specific individuals or items. Pre-approving these rewards ensures that field forces can promptly compensate informants for valuable information or assistance, with the combatant commander's prior authorization indicated in the pre-approved list. Copies of these lists, along with any updates, will be provided by the geographic combatant commanders to the Director, Joint Staff.

4.6 Deputy Geographic Combatant Commander Approvals

A geographic combatant commander can delegate their authority to approve or pre-approve rewards to the deputy commander. Additionally, this authority can be delegated to the commander of a direct subordinate command, with approval from the SecDef or DepSecDef.

4.7 TRO Approvals

A geographic combatant commander can delegate approval of rewards up to \$10,000 to subordinate U.S. Service members or civilian employees by appointing TROs. These appointments must be documented in writing, specifying the reward authority's scope, limitations, and accounting procedures. Geographic combatant commanders will also provide guidelines and criteria for TROs to evaluate whether information or assistance qualifies for a reward, including type and amount.

4.8 TRO Certifies Reward Parameters are Met

When issuing a list of pre-approved rewards to field forces, geographic combatant commanders must set up procedures and designate responsibility for certifying that the information or assistance received meets the approval criteria. This certification responsibility can be assigned regardless of the delegation limits on reward approval authority based on monetary value. Only U.S. TROs are permitted to fulfill this role.

4.9 Types of Reward Payments and Other Acceptable Uses of Funds

Rewards can be disbursed in cash, either U.S. dollars or foreign currency. TROs may also authorize non-cash rewards, such as food, local amenities, necessities, or communal rewards. Aside from the rewards outlined in Table 17-1, DoDRP funds are authorized to cover overhead costs directly tied to the program's operations. These funds can be allocated for advertising reward offers, travel expenses, and administrative costs associated with running the program. Approval thresholds for these overhead costs, before delegation, are detailed in Table 17-2.

Table 17-2. DoDRP Fund-Approving Officials: Advertising, Travel, and Administration

DoDRP Fund-Approving Official	Approval Level	Remarks
SecDef or DepSecDef	Up to \$5,000,000	
USD(P)	Up to \$2,000,000	May be delegated, in whole or in part, to any member of U.S. forces (excluding contractors) within the Office of the USD(P) and may be further delegated.
CCDR	Up to \$1,000,000	May be delegated, in whole or in part, to any member of U.S. forces (excluding contractors) and may be further delegated in accordance with CCRP guidance.

4.10 Payments Made by Designated Disbursing Officers/Paying Agents

After a TRO has approved or certified a reward, that officer will inform the program liaison officer, or an appointed disbursing officer or paying agent as per [Volume 5, Chapter 2](#), “Disbursing Offices, Officers, and Agents,” who will proceed to make the authorized payment.

4.11 Coordination with DOS and DOJ

The procedures of the geographic combatant commander will include a process to coordinate with relevant country team representatives from the DOS and DOJ, ensuring that offering a reward does not duplicate or conflict with a reward authorized by those departments.

4.12 Requests for Additional Funds

Geographic combatant commanders can request additional funding from ASD SO/LIC if they have exhausted their allocated resources and need more. Each geographic combatant commander will submit their projected budget needs for the next fiscal year by August 15 of the current fiscal year.

5.0 PROCEDURES

5.1 Allocation of Funds

The USD(C)/CFO will ensure DoD funds for the Rewards Program are correctly allocated to Washington Headquarters Service for control and execution. Geographic combatant commanders will inform the Director, Joint Staff of any necessary inter-theater fund allocations.

5.2 Improper Usage of Funds

U.S. citizens, officers or employees of the U.S. federal, state, or local government, or employees of a U.S. Government contractor are not eligible for rewards under the DoDRP. [CCDRs should be cautious about rewarding foreign security force members due to potential risks such as extortion, corruption, negative perceptions, or undermining U.S. law or DoD human rights policies related to training and equipping foreign security forces.](#) The USD(P) can grant exceptions to this rule for specific countries and will review these waivers annually. Requests for such approvals should be directed to the ASD SO/LIC. Previously approved waivers remain valid under this guidance.

5.3 Delivery, Transporting and Safeguarding of Funds

Any funds made available for the DoDRP will be delivered, transported, and safeguarded consistent with [Volume 5, Chapter 3](#), “Obtaining and Safeguarding Public Funds.”

5.4 Appointment of Paying Agents

Paying Agents responsible for delivering funds under the DoDRP will be appointed in accordance with Volume 5, Chapter 2. Allied forces members will receive the same training as U.S. paying agents and sign a statement of understanding. Since foreign nationals and other non-U.S. citizens cannot be held pecuniarily liable for fund losses, it is important to consider the necessity and risk when appointing non-U.S. citizens as paying agents. All funds given to and returned by allied forces paying agents must be recorded on [DD Form 1081](#), "Statement of Agent's Officer's Account," as specified in [Volume 5, Chapter 15](#), "Disbursing Officer Accountability." Upon completing authorized payments, the paid vouchers, negotiable instruments, and any remaining funds must be returned to the disbursing officer along with a properly filled out DD Form 1081.

5.5 Documentation of Payments

DoDRP payments will be executed and recorded in accordance with Volume 5, Chapter 9 and [Volume 10, Chapter 8](#), "Commercial Payment Vouchers and Supporting Documentation."

5.6 Circumventing Limits

Circumventing monetary limits and approval requirements by dividing a single reward into multiple smaller rewards, or by other methods, is not permitted. However, splitting payments of approved expenses for administrative purposes is allowed (for instance, paying a vendor 50 percent at the start of a project and the remaining 50 percent upon completion).

5.7 Clearance of Accounts

Accounts maintained under the Rewards Program will be cleared consistent with Volume 5, Chapter 2.

5.8 Certification of Payments

Payments made under the DoDRP will be certified in a manner consistent with [Volume 5, Chapter 5](#), "Certifying Officers, Departmental Accountable Officials, and Review Officials."

5.9 Audits and Program Reviews

The DoDRP will undergo periodic audits by internal bodies like the DoD Inspector General and other audit agencies, as well as external groups such as the Government Accountability Office and congressional oversight committees. Officials managing the Rewards Program must cooperate fully with these reviews, audits, or investigations.

6.0 PAYMENTS AND REWARDS THROUGH GOVERNMENT PERSONNEL OF ALLIED FORCES

6.1 Execution of Rewards through Allied Government Personnel

The SecDef, geographic combatant commanders, and all delegated officials may use their authorities, acting through government personnel of allied forces to offer and make rewards. Rewards may not be paid acting through allied government officials after the payment date authorized by 10 U.S.C. § 127b.

6.2 Request for Payment of Reward

Allied government personnel will send reward payment requests to the geographic combatant commander's liaison officer or a TRO with delegated authority. That individual will decide if the information or assistance warrants a reward and determine its type and amount.

6.3 Appointment of Allied Government Personnel as Paying Agents

When feasible, reward payments to support allied forces will be distributed directly by U.S. personnel. If direct payment by U.S. personnel is not feasible, commanders may appoint allied personnel as paying agents for the DoDRP, even though Volume 5, Chapter 2 requires paying agents to be U.S. Service Members or civilian U.S. Government employees. Commanders should follow the provisions of Volume 5, Chapter 2 when appointing allied paying agents. Commanders and disbursing officers must evaluate the risks of using allied government personnel as paying agents. A paying agent acts on behalf of the disbursing officer, who remains accountable for public funds given to an allied paying agent. Commanders and disbursing officers must ensure effective internal controls to reduce the potential risks of fraud, waste, and mismanagement by allied personnel. All funds advanced to and returned from the allied paying agent must be documented on a DD Form 1081, according to Volume 5, Chapter 15. After completing authorized payments, the paid vouchers, negotiable instruments, and any remaining funds should be returned to the disbursing officer with a properly completed DD Form 1081.

6.4 Allied Government Personnel Limitations

Funds will be advanced to an allied paying agent only after a specific reward has been approved for payment to an identified payee. Disbursing officers will advance funds to allied paying agents after reviewing the payment voucher for the rewards. All funds advanced to and returned from the allied paying agent will be documented on a DD Form 1081. Combatant commands are responsible for ensuring that all allied government personnel nominated by their subordinate commands to offer or make rewards are properly qualified and trained. They are also responsible for ensuring that these personnel perform their duties in accordance with DoD policy and procedures. Allied force government personnel participating in the reward program will have a designated U.S. liaison officer through whom they can request reward funds or in-kind items and validate the information or non-lethal support.

7.0 INFORMATION DISSEMINATION

7.1 Information Dissemination

Media queries regarding the DoDRP will be referred to the Office of the Assistant Secretary of Defense for Public Affairs.

7.2 Program Identification and Combination with Other Programs

This program does not need to be identified as a U.S. or DoD program or display an official symbol. Geographic combatant commanders can coordinate with other U.S. Government Rewards Programs and are not required to distinguish this one from others if it does not duplicate or interfere with rewards authorized by the DOS or DOJ.

7.3 Advertisements

Geographic combatant commanders can spend funds to publicize the DoDRP and cover administrative costs. Advertisements may mention coalition or allied headquarters as offering the reward. U.S. commanders will maintain control and authorization of rewards within these headquarters. Geographic combatant commanders can also use theater information dissemination programs to support the DoDRP. Military Information Support Team (MIST) expertise should be used for effective advertising, with MIST funds available only if DoDRP funds are insufficient. Expenses for publicizing and administering the program must be documented in quarterly and annual reports, detailing the target audience, required funds, and objectives. Establishing call centers using DoDRP funding requires coordination and approval from the Director, Joint Staff, to ASD SO/LIC.

8.0 REPORTS AND NOTIFICATIONS

8.1 Annual Report

According to 10 U.S.C. § 127b, by February 1 each year, the SecDef must report to the Senate and House Armed Services Committees on the administration of the Rewards Program for the previous fiscal year.

8.1.1. Each report for a fiscal year under this subsection must include the following:

8.1.1.1. Information on the total amount expended during that fiscal year to carry out the Rewards Program under this section.

8.1.1.2. Specification of the amount, if any, expended during that fiscal year to publicize the availability of rewards under this section.

8.1.1.3. With respect to each reward provided during that fiscal year:

8.1.1.3.1. The amount or value of the reward and whether the reward was provided as a monetary payment or in some other form;

8.1.1.3.2. The recipient of the reward and the recipient's geographic location; and

8.1.1.3.3. A description of the information or assistance for which the reward was paid, together with an assessment of the significance and benefit of the information or assistance.

8.1.1.4. A description of the status of program implementation in each geographic combatant command, including in which countries the program is being operated.

8.1.1.5. A description of efforts to coordinate and de-conflict the authority under subsection (a) with similar Rewards Programs administered by the U.S. Government.

8.1.1.6. An assessment of the effectiveness of the program in meeting its objectives.

8.1.2. The SecDef may submit the report in classified form if the SecDef determines that it is necessary to do so.

8.2 Report on Designation of Countries for Which Rewards May Be Paid

8.2.1. Within 15 days of designating a country for operations or activities eligible for rewards under this section, the SecDef must report to the Senate and House Armed Services Committees.

8.2.2. Each report must include:

8.2.2.1. The designated country.

8.2.2.2. The reason and justification for the designation of the country.

8.2.2.3. An estimate of the amount or value of the rewards to be paid as monetary payment or payment-in-kind under this chapter.

9.0 WAIVERS

9.1 Requests for Waivers or Exceptions to Law

Requests for waivers or exceptions to any provision of law that would otherwise prohibit, restrict, limit, or constrain the execution of the reward program must be submitted through ASD SO/LIC, the USD(C)/CFO, and DoD General Counsel to the SecDef for approval.

9.2 Requests for Waivers or Exceptions to Guidance

Requests for waivers or exceptions to this guidance must be submitted through ASD SO/LIC to the USD(C)/CFO for approval.

CHAPTER 19

FOOD SERVICE PROGRAM

*1.0 GENERAL

1.1 Overview

Title 37, United States Code, section 1011 (37 U.S.C. § 1011), requires the Secretary of Defense to establish rates for meals sold at messes to officers, enlisted members, Reserve personnel who are paid from Reserve or National Guard appropriations, federal civilian employees, military retirees, dependents of military personnel, and any other authorized diners. The rates are published on the Office of the Under Secretary of Defense (Comptroller) (OUSDC) reimbursable rates website under Quick Links, Department of Defense, (DoD) Reimbursable Rates. “Food Service Charges at Appropriated Fund Dining Facilities (Tab G).”

1.2 Purpose

1.2.1. Every calendar year, the OUSDC must establish rates for the meals to be consumed at appropriate dining facilities. The established rates must be sufficient to provide reimbursement for operating expenses and food costs to the appropriations concerned. The Secretary may reduce a rate for meals established by the amount of that rate attributable to operating expenses, if the Secretary determines that it is in the best interest of the United States. The statute generally requires the DoD to collect the full cost of meals consumed in an appropriated facility. The provisions of this chapter must be used to determine specific meal charges for all classes of diners, to include individuals, groups and units.

1.2.2. The OUSDC is responsible for the financial management policy herein. The Defense Finance and Accounting Service is responsible for applicable procedures necessary to assist the DoD Components in implementing this policy. The financial management policy herein must not be supplemented by DoD Component issuances without the prior written approval of the OUSDC.

1.3 Authoritative Guidance

The financial management policy and related requirements set forth in this chapter are in accordance with the applicable provisions of:

1.3.1. [37 United States Code \(U.S.C.\) § 1011](#), Mess operation: reimbursement of expenses

1.3.2. [37 U.S.C., § 402](#), Basic allowance for subsistence

1.3.3. [37 U.S.C., § 422](#), Cadets and midshipmen

1.3.4. [37 U.S.C., § 474](#), Travel and transportation allowances: general

1.3.5. [26 Code of Federal Regulations § 1.119-1](#), Meals and lodging furnished for the convenience of the employer

1.3.6. The DoD Manual, “DoD Food Service Program,” [\(DoDM\) 1338.10](#)

1.3.7. DoD Directive [\(DoDD\) 1418.05](#), Basic Allowance for Subsistence (BAS) Policy

1.3.8. OUSD(C) “Food Service Charges at Appropriated Fund Dining Facilities (Tab G)”

1.3.9. The Joint Travel Regulations ([JTR](#))

2.0 REIMBURSABLE MEAL AND MEAL SERVICE (OPERATING) CHARGES

2.1 Meal Rates

The provisions of this chapter must be used to determine use of the DoD discount meal rate (the cost of the food only) or the DoD standard meal rate (the cost of both the food and the non training/readiness food service operating expenses).

*2.2 Meal Services Available

There are two types of meal service available to personnel authorized to use an appropriated dining facility on a reimbursable basis--traditional and a la carte.

2.2.1. Traditional Meal Service. Under the traditional meal service system, diners must pay either the DoD standard meal rate or the DoD discount meal rate (as prescribed by section 3.0), without regard to the menu items taken.

2.2.2. A la carte Meal Service. Under the a la carte meal service system, diners must pay either the DoD standard meal rate or the DoD discount meal rate (as prescribed by section 3.0), for the food items selected.

2.2.2.1. The Military Departments must ensure that a consistent and fair a la carte pricing policy is applied uniformly and consistent with guidance provided by the OUSD(C).

2.2.2.2. [When using an “a la carte” menu, the price of each item on the menu must be established at 133 percent of the food cost \(i.e., the cost of unprepared food multiplied by a factor of 1.33\), rounded to the nearest five cents. However, price averaging of certain salads, vegetables, and other food categories is authorized \(e.g., a salad bar with different types of salads or vegetables\). Refer to OUSD\(C\) reimbursable rates website.](#)

2.2.2.3. When the cost of food changes, the a la carte items must be repriced accordingly.

3.0 MEAL CHARGES

Reimbursement charges for persons authorized to eat in an appropriated dining facility vary depending on the status of each person. The five major categories of personnel are officers, enlisted personnel, military dependents, Federal civilian employees and others.

3.1 Officers

3.1.1. Charge Required. DoD military officers are not authorized to eat in appropriated dining facilities without charge.

3.1.2. Discount Meal Rate. Officers, when not receiving the meal portion of per diem, must be charged the discount meal rate when they are:

3.1.2.1. Performing duty on a U.S. Government vessel,

3.1.2.2. On field duty,

3.1.2.3. In a group travel status, or

3.1.2.4. Included in essential unit messing (EUM) as defined in the JTR. EUM refers to using the Government dining facility as a unit or group and cannot be applied to an individual traveler. It may be required for operational deployments or training courses, when the Secretary concerned, the Combatant Commander, or the Joint Task Force (JTF) Commander determines that it is essential for accomplishing training and readiness or is necessary for military operations.

3.1.3. Standard Meal Rate. Officers must be charged the standard meal rate when in any status other than that set forth in subparagraph 3.1.2.

3.2 Enlisted Personnel

3.2.1. Conditions for Charge. Enlisted personnel may eat in an appropriated dining facility without charge when not receiving either an allowance for subsistence or the meal portion of per diem. Enlisted personnel entitled to meals at government expense must be furnished such meals on a nonreimbursable basis without regard to unit or DoD Component affiliation. Reimbursement between the Military Departments for such meals is not authorized for active duty personnel and members of the Reserve Components. See Tab G.

3.2.2. Discount Meal Rate. Enlisted personnel when not receiving the meal portion of per diem, must be charged the discount meal rate when they are:

3.2.2.1. On a U.S. Government aircraft on official duty either as a passenger or as a crew member engaged in flight operations, or

3.2.2.2. On JTF operations other than training at temporary U.S. installations or using temporary appropriated dining facilities.

3.2.3. Standard Meal Rate. Enlisted personnel must be charged the standard meal rate when they are receiving the meal portion of per diem or when they are receiving an allowance for subsistence.

3.3 Military Dependents

3.3.1. Charge Required. Military dependents are not authorized to eat in appropriated dining facilities without charge.

3.3.2. Discount Meal Rate. Military dependents must be charged the discount meal rate when they are dependents of enlisted members in pay grades E-1 through E-4.

3.3.3. Standard Meal Rate. All military dependents, other than military dependents of enlisted members in pay grades E-1 through E-4, must be charged the standard meal rate.

3.4 Federal Civilian Employees

3.4.1. Charge Required. Federal civilian employees are not authorized to eat in appropriated dining facilities without charge.

3.4.2. Discount Meal Rate. Federal civilian employees, not receiving the meal portion of per diem, must be charged the discount meal rate when they are:

3.4.2.1. Performing duty on a U.S. Government vessel,

3.4.2.2. On field duty,

3.4.2.3. In a group travel status,

3.4.2.4. Included in EUM as defined in the JTR,

3.4.2.5. On a U.S. Government aircraft on official duty either as a passenger or as a crew member engaged in flight operations, or

3.4.2.6. On JTF operations other than training at temporary U.S. installations or using temporary appropriated dining facilities.

3.4.3. Standard Meal Rate. Federal civilian employees must be charged the standard meal rate when in any status other than those set forth in subparagraph 3.4.2.

3.5 Members of Youth Groups

This category consists of members of organized nonprofit youth groups sponsored at the national or local level and ad hoc groups of youths. The distinction between the two groups is that an organized youth group has continuity over time and a structure (such as officers, advisors, organization rules); while an ad hoc group does not. For example: A local high school Key Club, which may be sponsored by the Kiwanis Club, would qualify as an organized nonprofit youth group. On the other hand, if the children of a local Kiwanis Club's members visited an installation, they would be considered an ad hoc group because they are not a formally organized and structured youth group.

3.5.1. Charge Required. These individuals are not authorized to eat in appropriated dining facilities without charge.

3.5.2. Discount Meal Rate. Members of an organized nonprofit youth group sponsored at either the national or local level must be charged the discount meal rate, when extended the privilege of visiting a military installation, or when residing at a military installation and permitted to eat in the general mess by the commanding officer of the installation (37 U.S.C. § 1011(b)).

3.5.3. Standard Meal Rate. All ad hoc youth group members must be charged the standard meal rate.

3.6 Others

This category includes: (1) military retirees and their dependents, (2) government contractors in overseas contingency operations, (in accordance with the Defense Federal Acquisition Regulation Supplement, Procedure, Guidance, and Information 225.7401 ([DFARS PGI 225.7401](#))) and (3) all other individuals not included in paragraphs 3.1 through 3.5.

3.6.1. Charge Required. These individuals are not authorized to eat in appropriated dining facilities without charge.

3.6.2. Standard Meal Rate. These (all other) be charged the standard meal rate.

4.0 GENERAL PROVISIONS (1904)

4.1 Personnel, Other Than Enlisted Personnel

Personnel, other than enlisted personnel, may receive a meal from an appropriated dining facility, provided no increase in direct resources results from feeding such personnel and appropriate meal charges are collected consistent with paragraph 3.0.

4.2 Commanding Officer Responsibility

The commanding officer of the DoD installation, at which an appropriated dining facility is located, is responsible for assuring that meals are provided only to authorized personnel within the capabilities and availability of existing appropriated dining facilities.

4.3 Temporary Duty Orders

Temporary duty orders must indicate the food allowance/per diem status of travelers to assist in determining the appropriate meal charge to be assessed.

4.4 Service Academies

Service academies (i.e., Army, Navy, and Air Force) are to use the food service charges at Tab G. See Chapter 20.

4.5 Civilian and Military Personnel of a Foreign Government

Civilian and military personnel of a foreign government must be furnished meals in accordance with specific arrangements made between the U.S. Government and the foreign government. Charges for food costs and related food service operating expenses must be made on the same basis as they would be for U.S. Government personnel of equal rank.

*5.0 DISPOSITION OF FUNDS

5.1 Overview

Each Military Service is responsible for the program, budget, and accounting for obligations, expenditures, revenues, and food service operating expenses and all meals in accordance with this Chapter.

5.2 Recording Policy

Program obligations and expenditures, as well as revenues and food service operating expenses, must be recorded, accumulated, and controlled in accordance with this chapter.

5.3 Collections

5.3.1. Except when deductions from pay are authorized and have been provided for, or prior arrangements for payment have been established with an official of an authorized group, diners must pay for a meal in cash prior to the meal being served. In any event, all meal charges must be determined and posted no later than the last day of the month incurred with payment being made not later than the 15th of the following month.

5.3.2. Any losses that might be incurred from uncollectible accounts must be absorbed by the subsistence account funding the facility.

5.4 Discounted and Standard Meal Rate Distribution

Collections must be distributed as follows:

5.4.1. Discount Meal Rate. Collections received from patrons paying the discount meal rate (food costs only) must be credited to the applicable financing subsistence account of the Military Service.

5.4.2. Standard Meal Rate. Collections received from patrons paying the standard meal rate must be credited to the financing appropriation(s). The food cost portion must be credited to the subsistence account and the operating expense portion (difference between discount and standard meal rates) to the operations and maintenance or other financing account(s).

6.0 ACCOUNTING FOR FOOD ALLOWANCES

6.1 Information Requirements

6.1.1. Information requirements have been established to ensure that data are maintained and that information is reported for use in determining and administering food allowances. These requirements prescribe procedures for counting meals furnished to personnel in appropriated dining facilities under the daily food allowance and authorized reimbursable programs. They are designed to assist in monitoring food costs and allowances and making the accumulation of data more consistent throughout the Department under the Food Service Program established by DoDM 1338.10.

6.1.2. The recording and reporting of obligations/expenditures against the daily food allowance portion of the operations and maintenance appropriations are as set forth in Volumes 2A and 2B, "Budget Formulation and Presentation," and Volume 3, "Budget Execution—Availability and Use of Budgetary Resources."

6.1.3. The data reported must support budget requests based on furnishing meals to entitled enlisted personnel by each Military Service, after consideration of the absentee rate, without regard to the member's parent Military Service.

*6.2 Counting the Number of Persons' Furnished Meals

6.2.1. Except for mass feeding situations as set forth in subparagraphs 6.2.2.1 and 6.2.2.2, all personnel authorized to eat in appropriated dining facilities must identify themselves with a meal card, DoD Common Access card, or travel orders issued by a DoD Component before receiving a meal from an appropriated dining facility. Enlisted personnel on BAS or receiving the meal portion of per diem, as well as all officers, civilian employees, official visitors, dependents, and guests authorized to eat on a reimbursable basis, must be required to identify themselves as to the category of entitlement (authorized to eat on a reimbursable basis) and status (per diem or non-per diem). They must reimburse DoD at the appropriate meal rate before receiving a meal from an appropriated dining facility.

6.2.2. The following procedures must be used to account for meals served to authorized subsistence-in-kind entitled or cross Service reimbursable personnel:

6.2.2.1. Each appropriated dining facility must maintain usage data in an electronic management information system or other logs in which each diner's unit of assignment and identification, travel order number, or other authorizing document are recorded. The applicable identification number may include, for example, the diner's meal card, [DoD ID](#), or [Common Access Card \(CAC\) number](#). When reimbursement is required, the rate category must be recorded in the log. A person independent of the appropriated dining facility operation must complete the log. When mass feeding within a specified time period is required, such as at recruit (basic) training centers and special schools, a single person responsible for the group may certify the entitlement classification and/or the reimbursement rate for all diners in the group.

6.2.2.1.1. Record of daily usage must be used by the appropriated dining facility in preparing necessary reports.

6.2.2.1.2. The meal card control officer or the personnel manager of the installation must use the usage records to conduct local management reviews and perform periodic tests of meal card usage, entitlement and reimbursement rates. The responsible official must retain all records and test results in accordance with approved disposition schedules.

6.2.2.2. As an alternative to the procedures in subparagraphs 6.2.1 and 6.2.2, each diner must sign an appropriate signature record, including authorization category, for each meal received. These records must be reviewed at the local command level and retained until verified independently against the reports submitted for the appropriated dining facility.

6.2.2.3. At their discretion, installation commanders are authorized to impose requirements that are more stringent.

6.2.2.4. DoD Common Access Card, other SMART card technology, or other headcount procedures approved by the Secretary of a Military Department may be utilized for diner identification/authorization, as long as the integrity of the count is maintained.

6.2.3. The total count of each meal must be classified and recorded by the diner's category of entitlement and by type of food allowance, i.e., basic daily food allowance (BDFA), special food allowance, and supplemental food allowance.

6.2.4. During combat or other operational conditions (e.g., mass troop movements, maneuvers or field exercises when actually subsisted under field conditions, forces afloat, and emergency conditions resulting from catastrophes or civil disorders), when maintenance of a meal log or signature record is not practicable, an internal control system must be established to maintain the integrity of the headcount.

6.2.5. Each appropriated dining facility must number, serially, the daily log forms and signature records, which must include the following minimum requirements:

6.2.5.1. Identification of the appropriated dining facility and date.

6.2.5.2. Identification of the number of meals.

6.2.5.3. Signatures of the person maintaining the log, and of the officer in charge.

6.2.5.4. Diner's unit of assignment, identification number, or travel order number or other authorizing document identification, and category of entitlement, which authorizes the diner to eat on a reimbursable basis.

6.2.5.5. Diner's signature and rank or grade.

***7.0 FOOD SERVICE OPERATING EXPENSE REPORTING REQUIREMENTS**

The OUSD(C) Program and Budget Office establishes meal rates annually for personnel authorized meals on a reimbursable basis. [The Military Services are required, in coordination with OUSD\(C\), to report cost of food served to service members and food service operating expenses.](#)

CHAPTER 20

MILITARY ACADEMY DINING HALL OPERATIONS

1.0 GENERAL

1.1 Purpose

This chapter promulgates the policy that implements Title 37, United States Code, section 422 ([37 U.S.C. § 422](#)) which authorizes funding for the operation of cadet and midshipmen dining halls at the military academies and prescribes associated reporting requirements.

1.2 Authoritative Guidance

The financial management policy and related requirements set forth in this chapter are in accordance with the applicable provisions of:

1.2.1. 37 U.S.C. § 422, “Cadets and midshipmen,” which authorizes an allowance in lieu of subsistence;

1.2.2. Department of Defense Instruction ([DoDI 1015.15](#)), “Establishment, Management, and Control of Nonappropriated Fund Instrumentalities and Financial Management of Supporting Resources”; and

1.2.3. [DoDI 7600.06](#), “Audit of Nonappropriated Fund Instrumentalities (NAFI) and Related Activities.”

2.0 POLICY

2.1 Authorization Determination

[2.1.1.](#) Each Military Department operates an academy dining hall to provide complete food service support to the cadets or midshipmen as an integral part of the activities of its academy.

[2.1.2.](#) The superintendent of each academy is authorized to determine who may be authorized to eat in the academy dining hall and the regulations incident thereto within guidelines issued by the secretary of the cognizant Military Department.

[2.1.3.](#) Charges for meals furnished to other than cadets and midshipmen will be established by the Under Secretary of Defense (Comptroller) (USD(C)) and the reimbursable rate for “Food Service” issued annually.

[2.1.4.](#) All collections for food costs must be deposited into the nonappropriated fund described in [subparagraph 2.2.2](#). The charge for operating expenses will be collected and deposited under the same rules that are applicable to appropriated fund food service activities as prescribed by Chapter 19, sections 5.0 and 6.0.

2.2 Subsistence Allowance Amount

2.2.1. The amount of the subsistence allowance for cadets and midshipmen is prescribed by the Secretary of Defense.

2.2.2. The amount prescribed is allocated by the Military Departments from the current military personnel appropriation to a nonappropriated fund at each academy based on the number of cadets and midshipmen present for training.

2.2.2.1. Each nonappropriated fund is used to procure the food and food products necessary to provide subsistence for the cadets and midshipmen.

2.2.2.2. Nonappropriated funds must be established as a NAFI and administered as a Program Group V – Supplemental Mission Fund in accordance with DoDI 1015.15.

2.2.2.3. The nonappropriated fund must be audited in accordance with DoDI 7600.06 if the annual revenues in the fund exceed the threshold established therein.

2.2.2.4. The nonappropriated fund must not be used for any purpose other than subsistence procurement. All other charges associated with dining service must be charged against appropriated funds.

2.3 Subsistence Allowance – Leave Status

The subsistence allowance that is not earned for any cadet or midshipman on leave or otherwise away from the academy, and not subsisted at Government expense, will be credited to the cadet/midshipman's pay account.

2.4 Subsistence Allowance – Temporary Duty Status

The subsistence allowance that is not earned for any cadet or midshipman on temporary duty, and subsistence-in-kind that is furnished at the temporary duty location, will not be collected by the nonappropriated fund.

3.0 RESPONSIBILITIES

3.1 Internal Control and Procurement Requirements

Under overall policy supervision by the secretary of the cognizant Military Department, the superintendent of each academy is responsible for:

3.1.1. Assuring the efficient and effective management of the academy dining hall and its nonappropriated fund for the purchase of subsistence items. In connection with this responsibility, the superintendent must install an accrual accounting system that permits an objective, constructive evaluation of the dining hall operation.

3.1.2. Assuring that the procurement procedures maintain the same degree of integrity as those procurement actions taken in accordance with the Federal Acquisition Regulation (FAR). In the event any question arises regarding the proper procurement procedure, the FAR will be used as a guide.

3.2 Reporting Requirements

An annual report on meal operating expenses in the military academy dining halls should be submitted in accordance with the guidance contained in Volume 11A, Chapter 6, Appendix F.

4.0 ANNUAL REIMBURSABLE RATES

The annual reimbursable rates for military academy dining halls are located on the USD(C) public website, listed by fiscal year (FY) under the following headings: Financial Management, Reports, [DoD Reimbursable Rates](#). Example: The FY 2024 rates are titled, “Food Service Charges at Appropriated Fund Dining Facilities (Tab G).”

CHAPTER 21

FINANCIAL MANAGEMENT FOR DEFENSE HEALTH PROGRAM RESOURCES***1.0 GENERAL (2101)****1.1. Overview (210101)**

1.1.1. The annual [Defense Health Program](#) (DHP) appropriation funds all elements of the DHP, including annual Operations and Maintenance, multi-year Research, Development, Test and Evaluation, and multi-year Procurement. The applicable [U.S. Department of Treasury \(Treasury\) Federal Account Fund Symbol and Titles \(FAST\)](#) is 097X0130.

1.1.2. The Department of Defense (DoD) Components execute the DHP through direct allotment to performing installations/activities for all DHP costs, except for military medical personnel costs paid centrally from the applicable Military Personnel appropriation.

1.1.3. Civilian medical personnel end strength and full-time equivalents are retained by the applicable DoD Components. [Each](#) DoD installation/activity must direct cite its own DHP operating account for payment of medical civilian personnel.

1.1.4. DoD policy applicable to budget formulation and congressional justification (including presentation formats) for the DHP is found in Volume 2B, Chapter 12, section [1204](#), “Defense Health Program.”

1.2 Purpose (210102)

This chapter prescribes the financial management policies and procedures necessary to account for DHP resources.

1.3 Authoritative Guidance (210103)

The financial management and related requirements prescribed by this chapter are in accordance with the applicable provisions of:

1.3.1. Title 31, United States Code, section 1514 ([31 U.S.C. § 1514](#)), “Administrative division of apportionments”;

1.3.2. [Office of Management and Budget \(OMB\) Circular A-11](#), section 150 and Appendix H “Administrative Control of Funds”;

1.3.3. Treasury FAST Book;

1.3.4. [DoD Directive \(DoDD\) 5136.01](#), “Assistant Secretary of Defense for Health Affairs (ASD (HA))”;

1.3.5. [DoDD 5136.13](#), “Defense Health Agency”; and

1.3.6. [DoD Manual 8910.01, Volume 1](#), “DoD Information Collections Manual: Procedures for DoD Internal Information Collections.”

2.0 RESPONSIBILITIES (2102)

2.1 Office of the Assistant Secretary of Defense (Health Affairs) (210201)

The Office of the Assistant Secretary of Defense (Health Affairs) allocates total obligation authority to the headquarters level of each DoD Component Medical Command to fund the DHP at respective installations/activities. The following activities are also funded on a direct basis from the DHP appropriations:

2.1.1. Defense Health Agency (DHA),

2.1.2. Uniformed Services University of the Health Sciences,

2.1.3. DHA, Contract Resource Management.

2.2 Head of Performing DoD Component (210202)

The Head of each performing DoD Component Medical Command, or designee, must:

2.2.1. Provide DHP allotments to performing installations/activities within that Component.

2.2.2. Receive installation/activity level monthly execution reports and summarize those reports for submission to each Defense Finance and Accounting Service (DFAS) site. Each DFAS site **must** submit their data to DFAS-Indianapolis (DFAS-IN), Other Defense Organizations, Audited Financial Statements and Budget Execution Division for consolidation.

2.2.3. Ensure adequate funding in the DHP operating appropriation for medical civilian personnel payroll costs.

2.2.4. Maintain full responsibility for the operation and execution of appropriate Centrally Managed [Accounts](#) (CMA) or open allotments to provide for emergency care of active duty military personnel and fund the CMAs from the DHP authority made available to them. [For additional information regarding CMAs, see Volume 14, Chapter 1, paragraph 010207.](#)

2.2.5. Require Military Treatment Facilities to establish and maintain programs for reimbursable operations consisting of the Third-Party Collections program, Medical Services Accounts program, and Medical Affirmative Claims programs to collect the reasonable charges for medical services provided to Uniform Services beneficiaries and non-beneficiaries. Programs will be established per DHA-Procedures Manual (PM) 6015.01, “Military Treatment Facility Uniform Business Office Manual” which is available on the [DHA Publications](#) home page.

2.2.6. Ensure Service Medical Components [comply](#) with the Standard Financial Information Structure (SFIS) [and Standard Line of Accounting \(SLOA\)](#) as the common business language that enables budgeting, performance-based management and the generation of financial statements in accordance with Volume 1, Chapter 4. SFIS is a comprehensive data structure that supports budgeting, financial accounting, cost/performance, and external reporting needs across the DoD.

2.3 Performing Installation/Activity (210203)

The performing installation/activity must:

2.3.1. Direct cite the DHP allotment received from its Component headquarters to fund all transactions in support of the DHP.

2.3.2. Continue to provide personnel and other support for the DHP.

2.3.3. Maintain monthly and year-to-date DHP civilian end strength and full-time equivalent utilization data and transmit such data to the Component headquarters and DFAS-IN Departmental Reports, Budget Execution and Financial Statement Division, as appropriate, in conjunction with monthly execution reports.

2.3.4. Maintain detailed accounting records and data integrity, including the capability to provide data, in accordance with the requirements detailed in [DHA PM 6010.1 Volumes 1 and 2](#), “Medical Expense and Performance Reporting System for Fixed Military Medical and Dental Treatment Facilities.”

2.3.5. Ensure the Budget Activity Group (BAG) and corresponding Program Element (PE) structure, unique to the DHP, is maintained within accounting systems. The BAG and PE structure for the [DHP](#) Budget Activity 1, Operations & Maintenance, is provided at [Table 1](#). The PE definitions are included in the [Future Years Defense Program Structure Handbook \(FYDP\) Appendix E](#) that is maintained by the Office of Cost Assessment and Program Evaluation.

VOLUME 12, CHAPTER 23: “CONTINGENCY OPERATIONS”**SUMMARY OF MAJOR CHANGES**

Changes are identified in this table and also denoted by [blue font](#).

Substantive revisions are denoted by an * symbol preceding the section, paragraph, table, or figure that includes the revision.

Unless otherwise noted, chapters referenced are contained in this volume.

Hyperlinks are denoted by [bold, italic, blue, and underlined font](#).

The previous version dated [September 2007](#) is archived.

PARAGRAPH	EXPLANATION OF CHANGE/REVISION	PURPOSE
All	Reworded and reformatted chapter for clarity. Revised references and added electronic links.	Revision
1.2 (230102)	Added reference to Budgeting for Contingency Operations.	Revision
2.6 (230206)	Removes reference to USD(C) memorandum, April 20, 1992, “Disaster Relief Funds” (hereby rescinded) and adds reference to DoD Directive 5100.46, Foreign Disaster Relief, dated July 6, 2012.	Revision
2.10 (230210)	Added reference for War-Related Reporting Requirements	Addition
2.11 (230211)	Added reference to Report Incremental Contingency Operations costs on a Monthly Basis	Addition
2.12 (230212)	Added reference to the OMB memorandum on “Criteria for War/Overseas Contingency Operations Funding requests”	Addition
3.7 (230307)	Reworded and reformatted chapter for clarity.	Revision
3.8 (230308)	Added paragraph to explain the Office of the Military Advisor role in processing United Nations requests.	Addition
4.6 (230406)	Added explanation on cost categories and the cost breakdown structure, inserts hyperlink to Overseas Contingency Operations Guidance, and reassigns the Costs Categories Table (23-1) to Annex 4.	Revision
4.9 (230409)	Added paragraph on using the Contingency Operation Support Tool (COST) for developing estimates for an operation.	Addition
7.1 (230701)	Added guidance on the assignment of Special Program Codes.	Addition

PARAGRAPH	EXPLANATION OF CHANGE/REVISION	PURPOSE
9.2.13. (230902.M)	Reworded and reformatted chapter for clarity.	Revision
9.4.2. (230904.B)	Added guidance on cost reporting and standard operating procedure documentation.	Addition
9.5 (230905)	Added guidance for using the Program Resource Collection Process (PRCP) to request funding for Overseas Contingency Operations requirements.	Addition
12.2 (231202)	Reassigned Annex 2 to Annex 3.	Revision
15.0 (2315)	Added section to address budget justification and reporting requirements for Overseas Contingency Operations Transfer Fund (OCOTF) and Base Funded Overseas Contingency Operations.	Addition
15.1 (231501)	Added paragraph to explain purpose of the OCOTF.	Addition
15.1 (231501)	Added paragraph to address budget justification process for base funded contingency operations.	Addition
16.0 (2316)	Added section to address Foreign Disaster Relief (FDR) Funded by Overseas Humanitarian, Disaster, and Civic Aid (OHDACA)	Addition
16.1 (231601)	Added purpose/practicability for the program	Addition
16.2 (231602)	Added financial oversight responsibilities for Contingency Operations	Addition
16.3 (231603)	Added guidance for funding OHDACA	Addition
Annex 1	Added Standard Data Reporting Format	Revision
Annex 2	Added Disaster Relief and Humanitarian Assistance Reporting Format	Addition
Annex 3	Reassigned Annex 2 to Annex 3	Revision
Annex 4	Reassigned Table 23-1 to Annex 4 - Cost Breakdown Structure Listing and Definitions	Addition

CHAPTER 23

CONTINGENCY OPERATIONS

1.0 PURPOSE (2301)

1.1 General (230101)

This chapter promulgates financial policy and procedures for small, medium and large-scale campaign level military contingency operations related to the Department of Defense (DoD). These might include, but are not limited to, support for peacekeeping operations, [foreign disaster relief \(FDR\)](#) efforts, and noncombatant evacuation operations (NEO). Note that the term “contingency operation,” as used in this chapter, is more [encompassing](#) than the specific definition contained in Title 10, United States Code, section 101(a), paragraph 13. Explicitly excluded from this chapter are peacetime civil emergencies occurring within the United States, the guidance for which is included in DoD Directive 3025.18, “[Defense Support of Civil Authorities \(DSCA\)](#).” [Also excluded from this chapter are steady-state DoD humanitarian assistance activities.](#)

1.2 Budgeting for Contingency Operations (230102)

DoD Components normally do not budget for contingency operations as discussed in this chapter. Therefore, DoD Components must accomplish directed contingency operations using funds available to the cognizant command or unit, independent of the receipt of specific funds for the operation. The authority for DoD Components to expend available funds is issued by the Secretary of Defense. [Since the Fiscal Year 2010 President’s Budget, estimates for the Global War on Terror and Overseas Contingency Operations are included with the submission of the President’s Budget.](#)

1.3 An Execute Order from the Secretary of Defense (230103)

An execute order from the Secretary of Defense is both the authority for the commander of a combatant command to [initiate military operations](#) and the authority for DoD Components to expend available funds to carry out the order. Planning orders and alert orders from the Chairman, [of the Joint Chiefs of Staff \(CJCS\)](#) constitute authority for a commander of a combatant command to expend funds available to that commander of a combatant command and authority to direct a military component to expend funds available to that component for forces assigned to the commander of a combatant command. [Refer to Joint Publication 5-0, Joint Operation Planning, for information on joint operation order types.](#)

1.4 DoD Policy Requirements (230104)

DoD policy requires that controls, accounting systems, and procedures provide, in financial records, proper identification and recording of costs incurred in supporting contingency operations. For such operations, data must be collected and records maintained to support bill development and the distribution of reimbursements to the applicable organizations.

1.5 Emergency Supplemental Funding (230105)

This chapter does not address wartime activities or the unique circumstances that require U.S. military forces to be placed on a wartime footing. Those situations may result in activities and costs that are not covered specifically by this chapter, but would, nonetheless, require emergency supplemental funding. Such activities will be addressed separately, on an exception basis, from the activities addressed in this chapter. Such exceptions may, for example, include purchase of munitions, replacement of major items of equipment, and repair of facilities or other infrastructure.

1.6 Elimination of Potential Duplicative Efforts (230106)

DoD officials having responsibility for reviewing and approving purchases for which the source of funding is derived from a transfer account like the Overseas Contingency Operations Transfer Fund (OCOTF) shall, to the greatest extent possible, review transactions to: (1) eliminate the potential for duplicating the procurement of goods and services, and (2) ensure that contractors are reimbursed for only those services and goods provided to the government.

1.7 Allowable Contingency Operations Cost (230107)

The funding derived from a contingency transfer account is available only for those incremental costs incurred in direct support of a contingency operation. As such, funds that are transferred into a Component's baseline appropriation are not to be used to finance activities and programs that are not directly related to the incremental cost of the contingency. In addition, the funds transferred to a Component's appropriation are not to be used to procure durable and expendable items in excess of what is required. Furthermore, those durable items procured with transferred funds are to be retained in support of the contingency even after the Component/unit has completed its tour of duty to support the contingency. Those durable items in the inventory, such as office equipment and expendable supplies that have not been consumed, should be made available to Components/units that are replacing the Component/unit that is departing the contingency operation area.

1.8 Fiduciary Responsibility (230108)

It is vital for civilian and military personnel authorized to obligate and expend funds in support of a contingency operation, using resources derived from the transfer of funds from a centrally funded transfer account (e.g., OCOTF), to employ a fiduciary approach to ensure that the funds are used in a prudent manner. Contingency funds are not to be used for purchases that are improper or are in excess of government requirements or which might bring embarrassment to the U.S. Government. Furthermore, special attention must be given by the Components' approving officials when the government purchase card is used for purchases to be funded with funds derived from a contingency operations transfer account. Approving officials are responsible for reviewing and reconciling cardholders' statements and for verifying that all transactions were necessary government purchases made in accordance with the Federal Acquisition Regulation and all other government policies and procedures. (See Volume 10, Chapter 12, of this Regulation for more information.)

2.0 REFERENCES (2302)

The following references document the authority and procedures under which contingency operations have been executed. The memoranda listed in paragraphs 2.4, 2.5, and 2.6, issued to provide interim guidance for financial management of contingency operations, are superseded by the policies and procedures provided by this chapter.

2.1 Waiver of Requirement to Reimburse Support Units (230201)

Secretary of Defense Memorandum, July 22, 1996, “Waiver of Requirement to Reimburse Support Units.”

2.2 Guidance on Contingency Operations and on Contributions for Defense Programs, Projects, and Activities (230202)

Under Secretary of Defense (Comptroller) (USD(C)) memorandum, February 8, 1995, “Guidance on Contingency Operations and on Contributions for Defense Programs, Projects, and Activities.”

2.3 Billing Procedures for U.S. Efforts Supporting Applicable United Nations (UN) Peacekeeping Efforts (230203)

USD(C) memorandum, March 29, 1994, “Billing Procedures for U.S. Efforts Supporting Applicable United Nations (UN) Peacekeeping Efforts.”

2.4 Cost Reporting Requirements and Applicable Billing Procedures for Support to UN Peacekeeping Operations in FY 1994 (230204)

USD(C) memorandum, March 9, 1994, “Cost Reporting Requirements and Applicable Billing Procedures for Support to UN Peacekeeping Operations in FY 1994.”

2.5 Reimbursement of Defense Business Operations Fund Activities for Contingency Operations and Humanitarian Efforts (230205)

USD(C) memorandum, July 28, 1994, “Reimbursement of Defense Business Operations Fund Activities for Contingency Operations and Humanitarian Efforts.”

2.9 Foreign Assistance Act, section 632, Allocation and Reimbursement Among Agencies (230209)

*2.10 War-Related Reporting Requirements (230210)

National Defense Authorization Act (NDAA) for Fiscal Year 2006, Public Law 109-163, Section 1221, as amended.

*2.11 Report Incremental Contingency Operations Costs on a Monthly Basis (230211)

Department of Defense Appropriations Act, 2016, Public Law 114-113, Section 8093.

*2.12 Criteria for War/Overseas Contingency Operations Funding Requests (230212)

Office of Management and Budget memorandum, dated September 9, 2010, “Criteria for War/Overseas Contingency Operations Funding Requests.”

3.0 RESPONSIBILITIES (2303)

3.1 Under Secretary of Defense for Policy (USD(P)) (230301)

USD(P) has policy and management responsibility, through subordinate activities, for peace operations, and foreign disaster relief operations. For these operations, the USD(P) is responsible for accepting requests for assistance from organizations external to the Department and transmitting cost and availability data to those organizations. In coordination with the USD(C), the USD(P) determines financial responsibility for all contingency operations.

3.2 Under Secretary of Defense (Comptroller) (USD(C)) (230302)

USD(C) is responsible for overall financial policy for contingency operations and works with the USD(P) to determine the most responsive method of financing for contingency operations. In addition, USD(C) is responsible for pursuing prompt reimbursement to the Department from UN and other multinational organizations, other nations, and U.S. agencies for support which the Department has rendered. Additionally, USD(C) will issue guidance, as required, that provides the UN rates for reimbursements.

3.3 Under Secretary of Defense for Personnel and Readiness (USD(P&R)) (230303)

USD(P&R) is the NEO coordinator on behalf of the Secretary of Defense. In that capacity, the USD(P&R) ensures that existing policy and procedures for NEO remain current, including the memorandum of understanding with the Department of State in accordance with DoD Directive 3025.14, “Evacuation of U.S. Citizens and Designated Aliens from Threatened Areas Abroad” (short title: Noncombatant Evacuation Operations), and the Joint Federal Travel Regulation. USD(P&R) monitors the provisions of each to ensure compliance.

3.4 Chairman, Joint Chiefs of Staff (CJCS) (230304)

CJCS is responsible for transmitting the Secretary's order to the cognizant Commander of a Combatant Command when a contingency operation is to be executed (via Deployment Orders and Execute Orders). Those orders will include a funding paragraph outlining financial guidance as directed by the USD(C) and USD(P).

3.5 Director, Defense Finance and Accounting Service (DFAS) (230305)

DFAS is responsible for administering centralized cost consolidation; billing and reimbursement distribution functions in support of contingency operations; and issuing to reporting activities the necessary reporting and coding instructions, transmission links, points of contact, and other related information necessary to ensure accurate and timely reporting of costs. DFAS shall assist DoD Components, as required, in the identification and accumulation of costs. The Director, DFAS, has assigned responsibility for all contingency cost consolidations and billings to the [DFAS site supporting contingency operations](#). DFAS, to effect cost consolidation at the DoD level, shall prepare a monthly status report, by operation, appropriation, and appropriate DoD Component, as applicable, consolidating the cost reports submitted by the DoD Components. In addition, DFAS shall prepare a monthly status report on amounts billed and reimbursements received for each applicable contingency operation. DFAS shall provide copies of the monthly cost and billing status reports to OUSD (Comptroller), Program and Budget.

3.6 Secretaries of the Military Departments; Heads of Defense Agencies; and the Commander for U.S. Special Operations Command (230306)

The Heads of the DoD Components cited herein are responsible for preparing cost estimates and submitting budget justifications to the USD(C), and also providing monthly incremental cost reports to DFAS in accordance with USD(C) policy stated herein. The DoD Component headquarters also are responsible for ensuring that guidance is disseminated to the appropriate unit level that details the required cost collection and reporting procedures and methodology for contingency operations.

3.7 Director, Defense Security Cooperation Agency (DSCA) (230307)

[DSCA is responsible for using foreign military sales \(FMS\) systems and other acquisition mechanisms to implement sales or leases of equipment in support of contingency operations as directed by the USD\(P\). Such support may be in response to requests from the Department of State or requests from the UN for articles and services to support equipment leased under FMS procedures. DSCA provides oversight, funding, and exercises overall program management responsibility for FDR activities funded with Overseas Humanitarian, Disaster, and Civic Aid \(OHDACA\).](#)

3.8 U.S. Mission to the UN (Military Advisor) (230308)

The UN Office of the Military Advisor to the U.S. Mission determines the appropriate U.S. agency to support UN requests for assistance. For DoD support, UN requests for price and availability and letters of assist shall be forwarded directly to the USD(P) for approval and action. Other UN requests for assistance shall be forwarded through the Executive Secretary to the USD(P).

3.9 DoD Executive Agent for Repatriation Plans and Operations (230309)

The Deputy Chief of Staff for Personnel, Department of the Army, has been designated by the Secretary of Defense and the Secretary of the Army as the responsible DoD Component for coordinating repatriation operations of DoD noncombatants. The DoD Executive Agent develops and maintains a Joint Plan for DoD Noncombatant Repatriation. Financial responsibility remains with the affected DoD Component.

4.0 ESTIMATING PROCEDURES FOR CONTINGENCY OPERATIONS (2304)

4.1 Three Different Types of Contingency Operations Estimates (230401)

There are three different types of estimates that are developed and used during the course of an operation. The pre-deployment estimate is used to assess various operational assumptions and to inform the go/no-go decision-making process; the budget estimate is used to define and defend requests for reprogramming or additional appropriations; and the working estimate is used during execution of the operation against which the Military Departments measure actual costs, and which can be used as the base for determining the changes in cost that would result from changes to the operational plan. All three types of estimates are important to ensure that senior leaders have the latest and most accurate information available for use in the resource allocation process.

4.2 Pre-Deployment Estimate (230402)

4.2.1. The pre-deployment cost estimate usually is required on short notice, sometimes within hours of notification. This estimate is the most difficult and unreliable of the three estimates due to lack of supporting information. The preliminary estimate typically is prepared by the Office of the Under Secretary of Defense (Comptroller) (OUSD(C)) and the Joint Staff J-8 using a cost model that uses major incremental cost drivers such as modes of transportation, operation duration, force deployment/phasing, and environmental conditions to project a rough order of magnitude cost estimate. Typically, DoD Components need additional time to develop “ground up” estimates.

4.2.2. As an adjunct to the cost model, the OUSD(C) has established a Contingency Cost Estimating Team to help develop more reliable preliminary cost estimates for contingency operations. This team is on call to OUSD(C) and consists of financial managers from the Office of the Secretary of Defense, the Joint Staff, and DoD Components, and augmented by operational and logistics planners as needed, to collect information about the operation and to formulate assumptions to support the cost estimating effort.

4.3 Budget Estimate (230403)

This estimate is based on specific Commander of a Combatant Command operational plans, troop levels, location, and operating circumstances. The respective Military Services, via their financial management and logistics staffs, use data provided by the Commander of a Combatant Command and the in-theater Service Components to derive a projected incremental cost estimate for submission to OUSD(C). Data provided is examined in detail by the Office of the Secretary of Defense Joint Staff to determine the extent to which variations in the plan have been considered in developing the cost estimate. Time permitting, and on an exception basis, information briefings may be solicited from the staffs of the cognizant Commander of a Combatant Command (and/or service Component commands) to detail anticipated requirements and factors that may prove useful in enhancing the development of the cost estimate. As a standard procedure in developing cost estimates, the Military Components shall utilize all available sources of relevant information and ensure that the field commands and headquarters personnel have applied the lessons learned from cost estimates associated with previous operations.

4.4 Working Estimate (230404)

This estimate, formulated by the Military Department headquarters staff based on data provided by the respective component commands, builds on the budget estimate by adjusting periodically the budget estimate to reflect actual execution experience and changes in the operational and logistics plans. These estimates shall be revised/updated formally on a quarterly basis (through the Quarterly Contingency Cost Estimate Report) and reported to OUSD(C) as part of the effort to inform senior leadership of changes in cost. These quarterly updates shall incorporate changes to the operational plan and other policy and fact-of-life changes that have a significant impact on the cost estimate formulated prior to actual program implementation. Such changes shall be generated, at least in part, as a result of decisions made by the local commander, who sets requirements based on his assessment of the operational situation.

4.5 Major Command Monthly Contingency Cost Estimate Report (230405)

These monthly reports to the DoD Component headquarters, from the component commands, identify changes to cost estimates. The reports facilitate regular communication between the Component headquarters and its subordinate commands that have responsibility for executing budgets for various contingency operations. The Component headquarters staff shall use the data submitted to prepare the Quarterly Contingency Cost Estimate Report.

*4.6 Contingency Operations Cost Categories and Definitions (230406)

For estimating and reporting purposes (and, in some cases, for billing purposes), the costs associated with contingency operations are limited to the incremental costs of the operation, that is, costs that are above and beyond baseline training, operations, and personnel costs. Since both the cost estimates and execution reports are based on the same cost categories, cognizant analysts more easily can compare the estimates to actual execution experience. Using a common cost structure facilitates rational cost comparisons. The cost categories at [Annex 4](#) form the basic structure to be used by the Component headquarters to estimate and report contingency operations

costs as defined in the cost breakdown structure listing (e.g., personnel, operating support, investment costs, retrograde, and reset). This document is updated annually to accommodate new cost categories and is posted online. The listing is available on the OUSD(C) Policies and Guidance website for Overseas Contingency Operations at <https://guidanceweb.ousdc.osd.mil/OCO.aspx>.

4.7 Contingency Operations Estimate (230407)

For estimating purposes, the Components will prepare the Contingency Operations estimate for a deployment of military personnel and equipment as approved by the Secretary of Defense using the [Contingency Operations Support Tool \(COST\)](#) as directed by the Office of the Under Secretary (Comptroller). The OUSD(C) will issue specific guidance as necessary pertaining to factors and cost criteria for the CONOPS being estimated. The COST estimate will address the funding requirements for Operation and Maintenance, and Military Personnel costs. [For further information on the COST, see paragraph 4.9.](#)

4.8 Justification of Cost Estimates (230408)

To defend and explain cost estimates, Components shall consider the following factors and note the assumptions and/or facts that apply to the estimate.

<u>Factor</u>	<u>Considerations</u>
Number of Troops (Active and Reserve)	How many troops are in theater and in surrounding countries providing support? Include those afloat.
Number of Reserve Personnel	How many reservists will be deployed? Are these reservists serving beyond their normal tour of duty?
Duration	What is the assumed length of the contingency?
Terrain/Weather	Are there unique environmental factors that may affect costs?
Equipment	What type of equipment is needed to perform the mission e.g., light forces, heavy forces, or aviation support?
Threat	Is this a permissive environment or a hostile environment?
Operational Tempo	Will equipment and weapon systems be operated above the normal peace time tempo already budgeted?
Communications Support	What additional communications support is required? Is the service provided through Defense Information Systems Agency or a commercial firm?
Intelligence Support	What additional intelligence support is required? Any National Foreign Intelligence Program must be coordinated through the Assistant Secretary of Defense for Command, Control, Communications, and Intelligence.

<u>Factor</u>	<u>Considerations (Continued)</u>
Reconstitution	What supplies must be replaced and equipment repaired when troops and/or equipment are redeployed or rotated?
Pre-Deployment Training	Is any training required prior to deployment beyond that already budgeted?
Post-Deployment Training	Is any refresher training required after deployment for lost or degraded skills?
Quality-of-Life	Are there quality-of-life costs? Examples include, but are not limited to delivery of newspapers, establishing commissary or exchange facilities, installing telecommunications and computer email for personal use.
Host Nation Support	Will the host government provide services or support, i.e., assistance-in-kind, to offset the cost of the contingency?
Local Infrastructure	What is the condition of the local infrastructure? Are water and sewage facilities available? Is the road, rail, and air transportation adequate for the mission?
Rotations	Are force rotations planned? At what intervals? Will the equipment rotate with the personnel?
Transportation	How will equipment and personnel be transported to the contingency area? Where will they originate?

4.9 Contingency Operations Support Tool (COST) (230409)

4.9.1. COST uses pre-defined cost factors and weighing coefficients, along with a user-supplied description of the contingency, to estimate the cost of an operation for a specified cost breakdown structure (CBS). The cost factors are either provided by DoD components or developed by the contractor. Users can review and change any of the factors used by a calculation. All COST calculations produce incremental costs, which are over and above budgeted peacetime operations costs.

4.9.2. COST incorporates appropriate algorithms to compute the cost of each line item in the CBS. The CBS used to report COST estimates is the same structure that has been directed for use by the Services and Agencies for reporting actual costs of contingency operations. Users can view these algorithms at any time to verify the calculations or to determine which factors were used to produce an estimate. Users can change the factors and recalculate an estimate to see the effect of the change. Cost factor tables are structured to facilitate updates, and the update process is automated to the extent feasible.

4.9.3. COST is designed to work in a joint environment. While each Component may tailor the tool to its own requirements, all the Components use the same software at the same time in a truly joint effort to build a single DoD cost estimate contingency operation. COST is one of the two joint systems, along with the Joint Planning and Execution System (JOPES), used by DoD to plan and execute contingency operations in support of crises action or campaign level planning. The JOPES translates policy into an operation plan (OPLAN), while COST estimates the incremental cost of the OPLAN.

4.9.4. Components shall use COST to estimate the incremental operational cost for all contingency operations. Additionally, the Combatant Commands (CCMD) and Military Services will coordinate with the OUSD(C) and the Joint Staff J-8 on their cost estimates for contingency operations. The Joint Staff and Military Services will provide cost estimates based on contingency operations' requirements. The OUSD(C) will periodically review the budget estimate to reflect actual execution experience and changes in the operational and logistics plans. Updates, as required, shall incorporate changes to the operational plan and other policy and fact-of-life that have a significant impact on the cost estimate formulated prior to actual plan implementation.

4.9.5. Based upon annual component proposed assumptions, and factor updates to the COST model, the OUSD(C) Operations Directorate will review the components' methodology to ensure that the COST model output is properly informed based on historical execution. In addition, the OUSD(C) Deputy Comptroller (Program/Budget), or appointed designee, will convene a group of senior level component budget officials, as necessary, to review any improvements they believe are needed in the model to better reflect the functional requirements of each Service and to produce improved results. Their review will result in updates to the COST model, as required.

5.0 GENERAL FUNDING RESPONSIBILITIES (2305)

5.1 Service Component (230501)

Each service Component command shall collect all applicable costs related to specific contingency operations, and report these costs to the respective Military Department Senior Financial Manager for subsequent submission for consolidation to DFAS. To the extent that financing has not been provided for a contingency operation, the Department will pursue all options to obtain the additional funding required to ensure readiness of U.S. Forces is not reduced by participation in the operation.

5.2 U.S. Transportation Command and the Defense Logistics Agency (230502)

Except as provided in section 6.0 below, all requests for transportation or other services to a Working Capital Fund Activity, such as the U.S. Transportation Command and the Defense Logistics Agency, shall include a funding source. In the event that a Working Capital Fund activity receives a valid order (e.g., execute or deployment order or a commander of a Combatant Command operations order) that directs action without a funding source, the parent Military Department of the subordinate command receiving the services shall provide funding to finance the request.

6.0 SPECIAL FUNDING MECHANISMS (2306)

6.1 General (230601)

Title 10, United States Code, section 127a was revised to include special funding mechanisms operations for which funds are not provided in advance. The statute also requires that such operations be so designated and identified by the Secretary of Defense to the Congress. When an operation is so designated, DoD Components immediately shall notify subordinate organizations. Also, DoD Components shall establish procedures and controls for these special funding mechanisms.

6.2 Special Funding Mechanisms Participating Units (230602)

Units participating in such designated operations may not be required, under certain conditions, to reimburse (provide funded customer orders to) Working Capital Fund organizations for goods and services at the time such goods and services are ordered. These procedures apply only to units actually participating in the covered operation, and only to requirements that are directly attributable to the operation; would not have been incurred but for the operation; and have not been financed previously through an appropriation, supplemental funding, reprogramming, or a reallocation of existing appropriations.

6.3 General Restrictions (230603)

The following general restrictions apply since the Department is not relieved of the legal restrictions of the Antideficiency Act, and because Working Capital Fund cash must remain positive under these legal restrictions. Prior to acceptance by a Working Capital Fund activity of an unfunded customer order, the commander of the Working Capital Fund activity involved shall determine that the unfunded customer order can be filled without incurring a violation of an Antideficiency Act. If filling the requested goods or services, without a funded customer order, would result in a violation of the Act, the Working Capital Fund activity shall notify the requesting DoD Component either to issue a funded order or arrange for the transfer of sufficient Working Capital Fund cash to the supporting Working Capital Fund activity to cover the requested service or supplies.

6.4 Working Capital Fund Activities (230604)

When a participating unit of the U.S. Armed Forces orders goods or services from a Working Capital Fund activity and those goods or services meet the criteria addressed in paragraphs 6.2 and 6.3 above, the unit providing the unfunded customer order to the performing Working Capital Fund activity must, in each such request, notify the performing Working Capital Fund activity that the order, or specified portion thereof, is in support of a designated operations and that a funded customer order for the goods or services is not required.

6.5 Working Capital Fund Activity Unfunded Customer Orders (230605)

The Working Capital Fund activity filling the unfunded customer order separately shall account for all such unfunded customer orders filled and separately report those costs, on a monthly

basis, to the DoD Component Senior Financial Manager of the requesting activity. The DoD Components' Senior Financial Manager shall report separately the cumulative amounts of such unfunded customer orders to DFAS in accordance with provisions contained in this chapter. In accordance with 10 U.S.C. 127a, such amounts shall be accounted for separately and will be used to determine the amounts required to be transferred to the Working Capital Fund activities in order to restore balances to previous levels.

6.6 Working Capital Fund Priorities (230606)

In order to ensure that the cash reserves of any Working Capital Fund activity are used for the highest priority requirements, the commander of the Working Capital Fund activity shall notify the Principal Deputy Under Secretary of Defense (Comptroller), in writing, and wait 5 workdays before filling the unfunded customer order.

6.7 Guidance on Reporting (230607)

As needed, the OUSD(C) will provide additional guidance on reporting the use of this authority for designated operations that become eligible for the special funding mechanisms available under 10 U.S.C. 127a.

7.0 COST COLLECTION (2307)

7.1 Special Program Codes (230701)

Upon being alerted of an impending contingency operation, each participating DoD Component shall establish a unique special program code to capture costs. [The OUSD\(C\) Operations Directorate shall issue a Standard Financial Information Structure \(SFIS\) code for contingency operations. The SFIS Values Library Service webpage maintains a list of contingency codes.](#) Additionally, the Joint Staff shall issue a three-digit CJCS Project Code, which provides precedence for supply requisitions and facilitates cost capturing and reporting.

7.2 Accounting System(s) (230702)

Each organization that supports a contingency operation shall capture related obligations and disbursements in its accounting system(s) at the lowest possible level of the organization. This provides tracking of obligations and disbursements for affected appropriations.

7.3 Costs Related to Contingency Operations (230703)

Costs related to a contingency operation may be incurred both in the area of responsibility and in other locations. It is the responsibility of the organization that incurs costs in support of the operation, directly or indirectly, to ensure that information on all costs is transmitted to the appropriate DoD Component Senior Financial Manager for forwarding to DFAS, as appropriate.

7.4 Cost Accounting Systems (230704)

Cost accounting systems shall not be established solely for the purpose of determining costs for contingency operations, but the data from existing systems shall be used as applicable.

7.5 Incremental and Billable Costs (230705)

DoD Component Senior Financial Managers shall determine incremental and billable costs.

8.0 COST REPORTING (2308)

8.1 Cost Reporting Requirements (230801)

Cost reports, SFs 1080, and substantiating documents shall be submitted through the DoD Component Senior Financial Manager to DFAS. Component submissions shall be initiated in sufficient time to arrive at DFAS not later than 30 days following the month in which the cost occurs. Costs shall be reported only by the DoD Component Senior Financial Manager that incurs the cost against appropriated funds. Submissions to DFAS for reporting and billing shall be approved by the DoD Component Senior Financial Manager. See Annex 1 for the standard data reporting format for preparation of the Contingency Cost Report.

8.2 DoD Component Inclusions (230802)

The DoD Component cost reports shall include all costs, including Working Capital Funds costs (common user/Component unique), that are collected in the accounting or cost accounting system. The Services shall reimburse the Working Capital Funds activity for costs, and separately reflect such costs in their cost reports.

8.3 Monthly Consolidation Cost Reports (230803)

On a monthly basis, DFAS will consolidate the costs reported provided by the DoD Components and provide reports to the offices of the OUSD (Comptroller), Component Command comptrollers, DoD Component Senior Financial Managers and others, as required, no later than 15 days after receipt from the DoD Components.

9.0 DETERMINING COST (2309)

The following guidelines are provided to assist the DoD Components in determining baseline and incremental costs for contingency operations.

9.1 Baseline Costs (230901)

Baseline costs are the continuing annual costs of DoD operations funded by the operation and maintenance and military personnel appropriations. Essentially, baseline costs are those costs that would be incurred whether or not a contingency operation took place, i.e., programmed and

budgeted costs. Examples include: scheduled flying hours, steaming days, training days, and exercises.

9.2 Incremental Costs (230902)

Incremental costs are additional costs to the DoD Component appropriations that would not have been incurred had the contingency operation not been supported. Incremental costs do not include the cost of property or services acquired by the Department that was paid for by a source outside the Department or out of funds contributed by such a source. The costs of investment items, construction costs, and costs incurred to fix existing shortcomings can be categorized as incremental expenses *only if* the expenditures were necessary to support a contingency operation and would not have been incurred in that fiscal year in the absence of the contingency requirement. Costs incurred beyond what was reasonably necessary to support a contingency operation cannot be deemed incremental expenses, since such costs are not directly attributable to support of the operation. The following are examples of allowable incremental costs:

9.2.1. Military entitlements such as premium pay, hazardous duty pay, family separation allowance, or other payments made over and above the normal monthly payroll costs.

9.2.2. Increases in the amount of allowances due to changes in geographic assignment area due to a contingency (i.e., Basic Allowance for Subsistence (BAS) or Basic Allowance for Housing (BAH)).

9.2.3. Travel and per diem of active military personnel and costs of Reserve Component personnel, called to active duty by a federal official, who are assigned solely to support the contingency.

9.2.4. Overtime, travel, and per diem of permanent DoD civilian personnel in support of a contingency.

9.2.5. Wages, travel, and per diem of temporary DoD civilian personnel hired or assigned solely to perform services supporting the operation.

9.2.6. Transportation costs of moving personnel, material, equipment, and supplies to the contingency or contingency staging area, including such things as port handling charges; packing, crating and handling charges; first and second destination charges.

9.2.7. Cost of rents, communications, and utilities that is attributable to the contingency. Examples of such incremental costs include: telephone service, computer time, satellite time, and crypto-traffic support of the contingency.

9.2.8. Cost of work, services, training, and material procured under contract for the specific purpose of providing assistance in a contingency.

9.2.9. Cost of material, equipment, and supplies from regular stocks used in providing directed assistance. Material, equipment and supplies from stock shall be priced at the standard prices that are used for issues to the DoD activities. Included in this category will be consumables such as field rations, medical supplies, office supplies, chemicals, cleaning and toilet supplies, petroleum, and items ordinarily consumed or expended within 1 year after they are put into use. Material, equipment and supplies determined to be excess to the departmental requirements may be made available for transfer under excess property disposal authority without reimbursement. In these instances, however, accessorial charges for packing, crating, handling, and transportation shall be added where applicable.

9.2.10. Costs incurred that are paid from trust, revolving, or other funds, and whose reimbursement is required.

9.2.11. Replacement costs of attrition losses directly attributable to support of the operation.

9.2.12. That portion of equipment overhaul and maintenance costs when computed on a fractional use basis when the additive cost attributable to the contingency can be identified.

9.2.13. Cost of increased flying hours in excess of the level of flying hours otherwise programmed and budgeted for, except that, in the case of foreign disaster relief undertaken under the authority of 10 U.S.C. 2561 or similar authority funded by the OHDACA appropriation, and within specific parameters authorized by the Secretary of Defense, all flying hour costs shall be included for flights made for the primary purpose of providing the disaster relief.

9.2.14. Service specific costs for increased OPTEMPO, such as steaming costs for the Navy. Such costs, however, require individual determinations. Reported incremental costs shall reflect, as closely as possible, the actual incremental costs incurred by the unit involved in the specific operation, using cost factors for the specific command or geographic area, when available, as compared to composite cost factors for the overall DoD Component.

9.3 Cost Offsets (230903)

In some instances, costs for which funds have been appropriated may not be incurred as result of a contingency operation. Examples include: basic allowance for subsistence not paid, training not conducted, and base operations support not provided. In other situations, identified incremental costs may be offset in various ways, such as supply turn-ins for items not used or placed in inventory, and non-monetary contributions, such as free fuel. See Chapter 3 of this volume for reporting non-monetary contributions. These offsets shall be accurately documented and reported at the cognizant organization levels to maintain adequate accountability for reporting and audit purposes.

9.4 Guidance/Instructions (230904)

Each DoD Component shall ensure that detailed guidance is disseminated to the appropriate subordinate organization levels to ensure the accuracy and reporting of costs.

9.4.1. Acquisition Requirements. For contingency operations involving extended deployment of equipment and/or the consumption of materials, leading to the depletion of war reserve stock, a Component may request funding for such procurement items directly related to the prosecution of operations as approved by OUSD(C). In general, it is anticipated that procurement costs intended to replace consumed equipment or material, will be associated with “Campaign Level Contingency Operations” characterized as military deployments of extended duration and involving the utilization of significant numbers of combat elements of the Services.

9.4.1.1. Cost Estimating. The replacement and reconstitution of equipment, munitions, and other end items related to the contingency operation will be handled on an exception basis. OUSD(C) will request the submission of exhibits indicating the level of consumption, cost, quantities to be procured, inventory objectives, and similar financial and programmatic data necessary to assess the requirement. OUSD(C) will provide additional instructions regarding submission of recapitalization costs at an appropriate time.

9.4.1.2. Major Platforms. For major platforms, the Component must demonstrate that the end item is directly associated with current operations. The request should not contain funding to support accelerations of baseline procurement end items unless specifically approved by OUSD(C). Components will not include estimates for future combat losses in their request.

9.4.1.3. Funding Requests for Procurement Funds. Funding requests for procurement programs should not exceed the numerical quantity that would deliver in a normal funded delivery period for that item. Furthermore, for most situations, a Component should not request funding for obligations expected to occur beyond the current fiscal year.

9.4.1.4. Funding Requests for Research, Development, Test, and Evaluation (RDT&E) Funding. In limited circumstances, a Component may request funding for the development of technologies that can be fielded in support of an on-going operation if the delivery of such technology can be introduced into the area of operations in time to benefit the prosecution of the operation. In such a case, the Component may request RDT&E funding.

9.4.1.5. Funding Requests for Military Construction Funding. In limited circumstances, a Component may request funding for military construction projects which support an ongoing operation. This may be appropriate if the completion of such a structure can be introduced into the area of operations in time to benefit the prosecution of the operation. In such a case, the Component may request funding.

9.4.1.6. Funding Requests for Working Capital Funds or Other Revolving Funds. In limited circumstances, a Component may request funding for Working Capital Fund and other revolving funds which support ongoing operations if such funding is directly related to the operations.

9.4.1.7. Acquisition Obligation Reporting. Obligations for acquisition requirements will be codified under the cost categories (Contingency Cost Breakdown Structure (CBS)) listed in [Annex 4](#). Components will report to DFAS all obligations incurred in procurement, RDT&E, Working Capital, or Military Construction appropriations on a monthly basis as addressed in section 2.8.

9.4.2. Cost Reporting. Reporting is an integral part of the Department's stewardship. Components must make every effort possible to capture and accurately report the cost of the contingency operation. Components are required to report the obligation of all funds (regardless of source) to cover the incremental costs of the contingency, including funds received in a supplemental. Each Component will develop and publish a Standard Operating Procedure (SOP) or other supplemental guidance that will cover Component specific items for cost reporting, under this chapter and validating monthly reporting. At a minimum, the SOP should cover:

9.4.2.1. Data Source. This section should outline the acceptable procedures and methodology used for capturing costs by CBS category. All sources of data collected for reporting costs should be identified, to include source accounting systems, in-house tracking methods, and supporting documentation. If costs are not captured by CBS category, then the methodology of cross-walking data to the CBS category should be documented.

9.4.2.2. Validation. Components will review and validate their reported costs as accurate and a fair representation of ongoing activities on a monthly basis. As a part of this review, the variance analysis, discussed below, will be included. Significant changes from the prior month will be summarized and reported to the OUSD (C) Operations Directorate. [The SOP must include auditable methodology for determining the portion of war-related or other contingency costs attributable to each contingency operation when actual cost by operation is not available.](#)

9.4.2.3. Variance Analysis. Each Component is required to provide an analysis, in the footnotes of the report, of all significant variances to the OUSD(C) Operations Directorate. The analysis should address: Cause of variance (describe the action that caused the costs to increase or decrease), factors affecting the variance (what are the values of the related factors that impacted the changes), purpose and effect of the action; and organization or activities that are/were affected by these actions. Additionally, a point of contact should be identified to explain changes in the established variances.

For example, a fluctuation in Imminent Danger Pay might be:

“XX% variance due to Scheduled Operation [FREEDOM'S SENTINEL](#) brigade troop rotation.”

[An example for an increase in operating costs might be:](#)

“YY” number of troops deployed at a cost of “ZZ.”

Each Component should establish additional criteria for validation and analysis, based on their requirements. [Each component is required to retain documentation of their monthly variance analyses and data validations.](#)

* 9.4.2.4. Reporting Guidance. The OUSD(C) and DFAS will notify the Components of new or special reporting requirements, as well as, provide instructions and guidance for data collection and changes to reporting requirements such as threshold percentages for variance analysis, suspense dates for monthly submissions, and required reviews and validation of reported costs. The Component will consult with the OUSD(C) before opting to include or exclude an incremental contingency related cost in its cost reporting when it deviates from this volume or current reporting guidance. Additional guidance and instructions for reporting costs (e.g., cost of war, disaster relief, humanitarian assistance, and other contingencies) are posted on the OUSD(C) guidance website at <https://guidanceweb.ousdc.osd.mil/OCO.aspx>.

* 9.4.2.5. Documentation. Components will perform an annual review of the methodologies used by subordinate commands in reporting costs by contingency operations. No later than November 30th of the calendar year, the Components will provide an electronic copy of their current SOP to the OUSD(C) Operations Directorate.

9.4.3. Cost Capture

9.4.3.1. Each organization supporting a contingency operation is required to capture and report all related obligations and disbursements at the lowest possible level of the organization. Actual costs, as reflected in the accounting systems or subsidiary accounting records, should be reported. This activity provides tracking of obligations and disbursements for affected appropriations.

9.4.3.2. It is up to the DoD Component to develop adequate measures to allow for capturing actual costs from the official accounting records. Procedures could include establishing unique coding or establishing subsidiary accounting records for use during the contingency operations that will allow it to provide accurate reports to the Department's cost breakdown structure (CBS). When actual costs are not available, an auditable methodology should be established and documented for capturing costs.

9.5 Program Resource Collection Process (PRCP) (230905)

9.5.1. The PRCP is the primary management and assessment tool used by OUSD(C) and Office of Management and Budget (OMB) to manage and assess all OCO requirements.

9.5.2. The PRCP system is used to collect, validate, and report budget data. It generates the appropriation budget justification books commonly known as the M-I, Manpower Programs; O-1, Operations Programs; C-1, Construction Programs; P-1, Procurement Programs; and R-1, RDT&E Programs. It supports automated collection and reporting for other budgetary exhibit such as the OP-8, Civilian Personnel Costs; OP-32, Summary of Price and Program Growth; and PB-22 Major DoD Headquarters Activities.

9.5.3. "Ask OCO" can be found within the "Web-PRCP" and is designed to provide answers to the most critical budget questions regarding OCO.

9.5.4. By using “Ask OCO”, analysts are able to extract PRCP data in an intuitive format. The data is formatted into a series of reports designed to answer frequent questions that are not easily answered by other budgetary tools. These reports provide analysts with data based on the latest budget position.

9.6 Justification Materials for Budget (230906)

This section addresses the requirement to budget for OCO incremental operational costs. This information is used to justify resource requirement for directed OCO – specifically the justification of the incremental costs for supporting a designated operation. These incremental costs will become the basis for any funding requests forwarded to the Congress through normal appropriations process or through emergency supplemental appropriation requests during the year of execution, if warranted.

9.6.1. The OCO budget submission is reviewed in concert with the baseline budget submission.

9.6.2. All Components are required to submit justification materials to support OCO budget estimates. In order to ensure that the requested funding is defensible and that the submitted data and justification material complies with congressional requirements, each Component is required to submit the contingency operation budget exhibits using the formats outlined in the respective appropriations. Components should consult chapters as applicable. Refer to Volume 2A, Chapter 1, general guidance and the specific volumes listed below:

9.6.2.1. Military Personnel. Refer to Volume 2A, Chapter 2, Military Personnel, for appropriation details. For specific details, contact the designated appropriation analyst.

9.6.2.2. Operation and Maintenance. Refer to Volume 2A, Chapter 3, Operation and Maintenance, for appropriation details. For specific details, contact the designated appropriation analyst.

9.6.2.3. Procurement. Refer to Volume 2A, Chapter 4, Procurement, for appropriation details. For specific details, contact the designated appropriation analyst.

9.6.2.4. Research, Development, Test and Evaluation (RDT&E). Refer to Volume 2B, Chapter 5, Research, Development, Test and Evaluation, for appropriation details. For specific details, contact the designated appropriation analyst.

9.6.2.5. Defense Working Capital Fund. Refer to Volume 2B, Chapter 9, for appropriation details. For specific details, contact the designated appropriation analyst.

10.0 BILLING (2310)

10.1 General (231001)

DoD Components determine their billable incremental costs. Billable incremental costs will be less than the full incremental cost when the performing DoD Component has determined to supplement or enhance their support beyond the level agreed to by the requesting organization. The DoD Component headquarters are responsible for transmitting to DFAS, on a monthly basis, a Contingency Operations Cost Report, standardized SF 1080 for each UN Letters of Assist (UNLoA) or incurred cost for which payment is requested, and sufficient supporting documentation such as receipts, invoices, copies of requisitions approved by the organization supported (e.g., UN, State Department, or other), when required by the billed organization.

10.1.1. DFAS is designated to administer centralized billing and reimbursement distribution activities in support of contingency operations. For the billing function, DFAS shall consolidate the bills from the Components for monthly transmittal to the U.S. Mission to the UN (USUN) or other organizations, as required, along with copies of the Component Contingency Cost Reports. In addition, DFAS shall prepare a monthly status report on amounts billed and reimbursements received for each applicable peace operation. Only billable costs shall be submitted to applicable agencies or international organizations in accordance with the provisions of sections 607 and 630 of the Foreign Assistance Act (FAA), other applicable U.S. statutes, and requirements of the organization being billed.

10.1.2. The billing information transmitted by the DoD Components shall include sufficient supporting documentation to satisfy the payee of the validity of the charges. Detailed lists of transactions supporting the amount billed shall be included with each bill rendered.

10.1.3. With respect to services and commodities provided under section 607 of the FAA, the Department may spend only those reimbursements received within 180 days after the end of the fiscal year in which the costs were incurred. Payments received subsequent to the 180 days shall not be available to defray the costs already incurred by the Department in providing the requested assistance. Payments received for assistance provided under the UN Participation Act and unsolicited payments received from the UN for UN Determined Costs for Participating Troops to UN peacekeeping operations shall be credited to the account or accounts that incurred the costs being reimbursed or the accounts currently available for such purposes. Given the legal restrictions on the use of reimbursed expenses, and to ensure timely recoupment of reimbursable costs to the Department, it is incumbent that each DoD Component identifies and reports on a timely basis all reimbursable billable expenses to DFAS with sufficient supporting documentation as required by the billed organization.

10.2 DoD and Non-DoD Transportation Rates for Contingency Operations (231002)

DoD airlift provided in support of UN peacekeeping support, and foreign disaster relief efforts shall be billed at the DoD transportation rate (<http://www.dtic.mil/comptroller/rates/>). This rate is comparable to commercial rates for similar transportation services. Charges for DoD airlift

transportation support provided to other U.S. government agencies pursuant to the Economy Act, 31 U.S.C. 1535, shall normally be billed at the non-DoD rate.

10.3 United Nations Process (231003)

The UN reimburses contributing countries for the costs of their activities in accordance with its standard procedures as covered in the UN Guidelines to Contributing Governments, Aides-Memoire to the agreement, Notes Verbal, and specific and general LoAs. The UN should approve all elements of national contributions and the extent of reimbursement prior to an actual deployment, if possible. Therefore, activities undertaken, troops deployed, or costs incurred for items which are not agreed to in advance by the UN, as identified and detailed in the Guidelines, Aides-Memoire, Notes Verbal, or specific or general LoAs, normally will not be reimbursed by the UN. Only expenditures in support of an operation approved by the UN Security Council, and authorized by the General Assembly as a legitimate charge to the UN, are eligible for reimbursement. Costs related to deployment and sustainment of forces and equipment, and rotation of personnel (but not equipment) of contributing countries, based on prior agreement with the UN, are eligible for reimbursement by the UN through UN standing procedures. Financial responsibilities normally shall be included as part of the agreement between the contributing countries and the UN and shall include the details of the financial responsibilities of each party. The U.S. position normally is negotiated by the Department of Defense in coordination with the Department of State. Since costs billable to the UN may differ from the incremental costs incurred, both shall be reported. The following addresses billing procedures and allowable costs for each major type of financial arrangement.

10.3.1. UN Letters of Assist (UNLoA)

10.3.1.1. A UNLoA is a document, issued by the UN to a contributing government, which authorizes that government to provide goods or services to the UN. A UNLoA typically details specifically what is to be provided by the contributing government and establishes a funding limit that cannot be exceeded for that specific UNLoA. General support UNLoAs can be negotiated with the UN, if such UNLoAs are advantageous to both parties, to cover more generic categories such as subsistence, POL, sustainment, and spare parts. The UNLoAs are considered by the UN to be contracting documents and shall be signed and issued by an authorized UN official. More than one item can be included in a UNLoA.

10.3.1.2. The approved UNLoA is issued by the UN to the U.S. Mission to the UN (USUN) where it is acted on by the Military Advisor to the Ambassador. The Office of the Military Advisor (USUN/OMA) determines the appropriate U.S. agency (DoD or State) to receive the request. For the Department of Defense, all requests should be forwarded to OUSD(P) for approval and action. The Office of the USD(P) shall determine the appropriate action organization, and will provide a copy of the UNLoA to that organization and DFAS. DFAS is responsible for maintaining a status report on all active LoAs.

10.3.1.3. The UNLoA is not considered a funded order, and the UN ordinarily does not provide an advance of funds for the value of the request. Therefore, an UNLoA shall not give a DoD Component any additional obligational authority to accomplish the order. The appropriate action office in the DoD Component shall accomplish the action using existing operation and

maintenance funds or other appropriated funds, and prepare an SF 1080 bill for the cost of the goods or services provided, referencing the appropriate UNLoA. No Working Capital Fund is authorized to be used to support these operations when funds are not provided to the Working Capital Fund activity. The SF 1080 is forwarded to DFAS along with sufficient detailed documentation and a Contingency Operations Cost Report to support the bill. All bills shall include adequate documentation for accountability and certification. DFAS shall verify the UNLoA number and item for which a bill is being submitted, summarize these in a separate attachment, and forward the bill to the USUN Mission for submission to the UN.

10.3.2. Non Letters of Assist - U.S. Invoiced Costs. These include recoverable costs of specific support or items requested by the UN, or approved by the UN, in support of a peace operation mission for which a specific itemized bill can be submitted to the UN based on the Aide-Memoire guidelines for participating countries, as described below.

10.3.2.1. Predeployment Actions. Preparation of personnel and equipment for deployment is the responsibility of the contributing country, and includes all preparation costs involved to get the personnel or equipment to the point of embarkation. Billing the UN for reimbursement of these expenses will be based on advance negotiations with the UN. Costs associated with preparing authorized equipment to additional standards defined by UN for deployment to a mission (such as painting, UN marking, winterizing) are the responsibility of the UN. Similarly, costs for returning authorized equipment to national stocks at the conclusion of a mission (such as repainting to national colors) also are the responsibility of the UN. Costs shall be assessed and reimbursed on presentation of a claim based on the authorized equipment list contained in the contribution agreement.

10.3.2.2. Deployment and Redeployment Actions. Transportation to and from the mission area normally shall be by airlift or sealift, as required. Normally, the UN will organize all deployments and redeployments. These activities may be organized by the troop contributing government, but the arrangements must be agreed upon by the UN in advance. All transportation to be provided by the troop contributing country should be coordinated and approved by the UN. If reimbursement is requested, it shall be made only up to the amount it would have cost the UN to accomplish the move.

10.3.2.3. Self-Sustainment. The UN normally is required to provide services to troop-contributing countries. Should the UN not be able, or not wish, to provide the services, it can request a troop-contributing country to provide those services. Services which the UN can request are set out in the UN Contingent-owned Equipment Manual and Procedures (these include services such as catering, communications, minor engineering, explosive ordnance disposal, laundry and dry cleaning, tentage, medical, NBC protection, and other services). Only those services specifically requested will be reimbursable monthly at the indicated rate, on a troop strength basis, to the limits indicated in the agreement with the troop-contributing country.

10.3.2.4. Major Equipment, Minor Equipment and Consumables Reimbursement. Reimbursement for major equipment is provided under established rates whereby the contributing country is reimbursed for both equipment and maintenance (wet lease), or for equipment only, with the UN assuming responsibility for maintenance (dry lease). Minor equipment and

consumables are reimbursed as self-sustainment based upon troop strength. Reimbursement is dependent upon verification that the major equipment, and associated minor equipment and consumables, provided meet the undertaking of the troop-contributing country in its agreement with the UN. The UN has established performance standards so that it can verify that a troop-contributing country has met its obligations and that equipment provided is in acceptable operational order.

10.3.2.5. Arrival Inspection. An arrival inspection will occur immediately upon arrival, and should be completed within one month. Major equipment will be inspected to ensure that categories, groups, and number delivered correspond with the bilateral agreement and are operational. A troop-contributing country representative should explain and demonstrate the agreed self-sustainment capability. Self-sustainment will be inspected with a view to an assessment of the operational equipment and services. The UN will give an account of the services to be provided in the agreement.

10.3.2.6. Operational Readiness Inspection. This inspection of the contingent in the mission area shall be conducted at least once during every 6-month period, or any time when the USUN Mission believes that the equipment or services do not meet standards. The condition of the major equipment shall be inspected, and self-sustainment capability ascertained with a view to assessing whether the sustainment capability is sufficient and satisfactory.

10.3.2.7. Repatriation Inspection. This inspection shall account for all major equipment of the troop-contributing country to be repatriated and verify the condition of the major equipment provided under the “Dry Lease” arrangement. The inspection also shall ensure that no UN owned equipment is part of the equipment repatriated.

10.3.2.8. Reporting Procedures. The USUN Mission shall report to the UN Headquarters the results of all inspections. The reports shall indicate shortcomings in equipment and self-sustainment, and efforts made at mission level to rectify the situation and to bring the contingent in line with the terms of the agreement. Each month the Mission shall submit a report to the Secretariat confirming the mission strength. The monthly report shall indicate the condition of major equipment and self-sustainment.

10.3.2.9. Deployment, Redeployment and Rotation. The UN is responsible for the deployment and redeployment (including regular rotation) of contingent personnel authorized in the Contribution Agreement. The UN normally will make the necessary arrangements with the troop-contributing country and appropriate carriers. When a troop-contributing country offers to provide transportation, the UN may request the troop-contributing country to provide the transportation to and from the mission area under the terms of an UNLoA. The cost for rotation of troops is normally reimbursed on a 6-month basis. Rotation of equipment will not be reimbursed since it is assumed equipment will stay in the area of operation for the length of the operation.

10.3.3. Leases. Leases to the UN shall be managed by the DSCA, which also is responsible for developing requested Price and Availability data to include preparation and transportation costs, with applicable input from the affected Military Component. Development of leases for DoD equipment (major end items) shall follow normal procedures in Security Assistance Management

Manual, Chapter 12, which are governed by the Arms Export Control Act (AECA). Payments from the UN related to the true lease of equipment, as governed by the AECA, revert to the miscellaneous receipts account of the U.S. Treasury. Ancillary costs related to the lease, such as preparation and shipment costs, are governed by section 607 of the FAA, as are the provision of support and services associated with a lease. Reimbursements or payments received under section 607 authority may be credited back to the Component providing the goods or services if reimbursement is received within 180 days after the end of the fiscal year in which the support was provided. Otherwise, these payments revert to the U.S. Treasury.

10.3.4. UN Determined Costs. The UN provides reimbursement at standard rates established by the General Assembly in respect to pay and allowances of military personnel detailed or assigned to the UN to participate in a UN operation. The UN reimburses participating countries without a specific request for payment. The UN determines the number of troop days for which payment will be made based upon USUN Mission reporting of troop strength. No billing is required.

10.3.4.1. Payments by the UN are made directly to DFAS. The State Department receives notification from the UN of a pending reimbursement. Prior to reimbursement by the UN, the State Department transmits this information to the Office of the USD(P), along with the operation(s), time covered, and number of troop months allowed by the UN. The UN estimate is validated by the Joint Staff and the Service Components and directions are provided to the UN through the State Department regarding disposition of the reimbursement.

10.3.4.2. Upon validation of the estimate, the UN processes two checks: one to the DoD (DFAS) at an approved rate per person/month, as determined by the OUSD(C), to cover the incremental military personnel and related costs incurred by the DoD; and a second to the State Department, representing the difference between the UN standard rate and the amount paid to the Department of Defense. For distribution of the DoD funds, Office of the USD(P) makes an assessment of DoD Component manpower deployed during the timeframe covered by the UN payment, and directs DFAS to make the appropriate distribution to the DoD Components, as applicable.

11.0 REIMBURSEMENT/DISTRIBUTION (2311)

UN Process. Within 90 days of receipt of an SF-1080 and supporting documentation from the USUN Mission, the UN will confirm with the appropriate UN organization that the goods or services were received, consolidate payment, and forward a check to DFAS. DFAS will distribute funds to appropriate recipients.

12.0 NONCOMBATANT EVACUATION OPERATIONS (NEO) (2312)

*12.1 Protection of U.S. Citizens and Nationals (231201)

12.1.1. NEOs are conducted to assist the DoS in evacuating U.S. citizens, DoD civilian personnel, and designated host nation (HN) and third country nationals (TCN) whose lives are in danger from locations in a foreign nation to an appropriate safe haven. The United States

Government (USG) will consider evacuating TCNs and host country nationals on a case-by-case, space available, and reimbursable basis. Although normally considered in connection with hostile action, evacuations may also be conducted in anticipation of, or in response, to any natural or man-made disaster.

12.1.2. Upon receipt of a request from the President, or the Department of State, the Department will protect U.S. citizens and nationals and designated other persons, and assist in evacuating these persons from threatened areas overseas. In accordance with Executive Order 12656, as amended on February 9, 1998, the Department is authorized to deploy and use military forces to protect U.S. citizens and nationals and designated other persons in support of their evacuation from threatened areas overseas. The Department of State has the lead responsibility for such evacuations.

12.2 Memorandum of Agreement (MOA) (231202)

The MOA between the Departments of State and Defense, “DOS/DoD Cost Responsibility Matrix and Definitions,” dated September 2, 1997, defines departmental cost responsibilities when an evacuation occurs. The content of the MOA is included at [Annex 3](#) and shall be used to determine all NEO cost responsibilities. In general, DoD will fund protection-related costs and DOS will fund evacuation-related costs. The DoD Component supporting the protection operation shall fund the costs of its deployment, unless otherwise specified.

12.3 Cost to Transport DoD Noncombatants (231203)

In accordance with 31 U.S.C. 1535 (the Economy Act), all costs incurred by the DoD to assist in evacuating personnel from threatened areas are billable and reimbursable, except for the costs to transport DoD noncombatants to safe havens. If, however, the Department of State incurs costs for transporting DoD noncombatants to safe havens, the applicable DoD Component shall reimburse the Department of State for those costs.

12.4 Contingency Operations Cost Report (231204)

After the evacuation is completed, the finance and accounting office of the supporting DoD Component shall collect the cost data and submit the following documents, through its Component Senior Financial Manager, to DFAS: an SF-1080 for all reimbursable evacuation costs, supporting cost documentation (e.g., flying hours, medical costs, or food for evacuees), and a Contingency Operations Cost Report. [The DoD Component shall work with the Department of State and DFAS to submit the bills for reimbursement from the Department of State, Attn: Bureau of Finance and Management Policy, Washington, DC 20520-7427.](#)

13.0 FOLLOW-UP (2313)

In the event that billed organizations require additional information relating to submitted bill(s), DFAS shall assist the billed organization to ensure that the necessary information is provided by the appropriate Component.

14.0 LARGE SCALE CONTINGENCIES (2314)

14.1 Preparing Budget Estimations Guidance (231401)

DoD may be involved in a range of operations from very large to small scale contingencies. The following guidance is to be used in addition to that found throughout this regulation for purposes of preparing budget estimations, cost reporting and billing associated with large-scale, campaign level, contingency operations.

14.2 Costs Related to a Contingency Operations (231402)

During large-scale contingencies costs related to a contingency operation may be incurred in both the area of responsibility (AOR) and in other locations to include home station. Additionally, because of the scale of operations, including intense combat or long-term stability or anti-insurgency operations, expenses beyond only direct incremental costs may be appropriate on a case by case basis in written coordination with OUSD(C). They can relate directly to operations in the AOR or be required as a result or consequence of the operations such as reconstitution activities (to replenish stocks, replace battle losses, or worn equipment or systems), depot maintenance and other supporting actions. In addition, during large-scale, campaign-level contingencies, these special funding authorities are often provided by the Congress in support of the operation. These may include special Train and Equip, Coalition Support, Foreign Disaster Relief or other programs. It is the responsibility of the organization that incurs costs in support of the operation, directly or indirectly, to ensure that information on all incremental costs are captured and transmitted to the appropriate DoD Component Senior Financial Manager for forwarding to DFAS, as appropriate.

14.3 Determining Costs (231403)

Components are required to report the obligation of all funds (regardless of source) to cover the incremental cost of the contingency, including funds received in a supplemental. Baseline costs should not be reported. The following guidelines are provided to assist the DoD Components in determining baseline and incremental costs for contingency operations.

14.3.1. Incremental Costs. In coordination with OUSD(C), DoD Component Senior Financial Managers shall determine incremental and billable costs. Incremental costs are additional costs to the DoD Component appropriations that would not have been incurred had the contingency operation not been supported. Incremental costs do not include the cost of property or services acquired by the Department that was paid for by a source outside the Department or out of funds contributed by such a source. The costs of investment items, construction costs, and costs incurred to fix existing shortcomings can be categorized as incremental cost if the expenditures were necessary to support a contingency operation and would not have been incurred in that fiscal year in the absence of the contingency requirement. Costs incurred beyond what is reasonably necessary to support a contingency operation cannot be deemed reimbursable incremental expenses, since such costs are not directly attributable to support of the operation. Incremental costs may be recorded against supplemental funding, baseline funding, or any source of funds. Base budget funding diverted to pay incremental costs in support of contingency operations are not the same as baseline costs.

14.3.2. Baseline Costs. Baseline costs are the continuing annual costs of DoD operations funded by the Components base appropriations. Baseline costs are those costs that would be incurred whether or not the Component is participating in a contingency operation.

14.3.3. Service-Specific Costs. Service-specific costs for increased OPTEMPO, such as steaming costs for the Navy or Service flying hours should be determined as accurately as possible based on “official” accounting data. Such costs, however, due to the complexity of the operation may require individual determinations on a case by case basis. Reported incremental costs shall reflect, as closely as possible, the actual incremental costs incurred by the unit involved in the specific operation, using cost factors for the specific command or geographic area, when available, as compared to composite cost factors for the overall DoD Component.

14.4 Spending Constraints (231404)

Each DoD Component shall ensure that detailed guidance is disseminated to the appropriate subordinate organization levels to ensure the accuracy and reporting of costs. The DoD Components are responsible to employ a fiduciary approach to ensure that the funds are used in a prudent manner. As operations mature, steps should be taken to evaluate and establish spending constraints.

15.0 OVERSEAS CONTINGENCY OPERATIONS TRANSFER FUND (OCOTF) AND BASE FUNDED OVERSEAS CONTINGENCY OPERATIONS (2315)

15.1 Overseas Contingency Operations Transfer Fund (OCOTF) (231501)

The OCOTF was established to meet operational requirements in support of emerging overseas contingency operations without disrupting approved program execution or force readiness. The OCOTF is a “no-year” transfer account that provides the Department additional flexibility to meet operational requirements by transferring funds to the Military Services and Components based on actual execution experience as events unfold during the year of execution.

15.2 Base Funded Overseas Contingency Operations (231502)

Military Services and Components supporting overseas contingency operations with base funding will submit estimated base budget estimates and obligations electronically through the Select and Native Programming (SNaP) input system during program and budget reviews. Operations include but are not limited to: Bosnia Operations; Kosovo Operations; Operation NOBLE EAGLE; Operation ENDURING FREEDOM (OEF) - TRANS SAHARA; Joint Task Force Bravo – Honduras; Operation OEF-Caribbean and Central America; or other based funded contingency operations.

16.0 FOREIGN DISASTER RELIEF (FDR) FUNDED BY OVERSEAS HUMANITARIAN, DISASTER, AND CIVIC AID (OHDACA) (2316)

16.1 Purpose/Applicability (231601)

The purpose of this section is to provide responsibilities and instructions for the development of DoD FDR cost estimates and the request for funding or subsequent reimbursement from DSCA. In accordance with DoDD 5100.46, DoD FDR activities are conducted outside the U.S. and at the request of the U.S. Agency for International Development (USAID), when civilian capacity is overwhelmed and DoD possesses unique capabilities to support life-saving/sustaining humanitarian activities. USAID uses a Mission Tasking Matrix (MiTaM) process to request DoD support. DoD support activities align with validated expenses incurred as a direct result of providing FDR to a foreign country and which comply with the legal purposes of 10 U.S.C. 2561 or similar authority shall be paid or reimbursed with the OHDACA appropriation, as authorized by the Secretary of Defense.

16.2 Responsibilities (231602)

16.2.1. The Under Secretary of Defense for Policy (USD(P)) has overall policy, guidance and management responsibility, through subordinate activities, for conducting FDR. For these contingency operations, the USD(P) is responsible for accepting requests for assistance from USG Departments and Agencies, and organizations external to the Department and responding to those Departments, Agencies, or organizations.

16.2.2. The Chairman Joint Chiefs of Staff (CJCS) issues an execute order from the Secretary of Defense, to the Commander of a Combatant Command, which gives the Combatant Commander the authority to order the Military Component into action and the authority for DoD components to expend available funds to carry out the order.

16.2.3. The Office of the Under Secretary of Defense (Comptroller) (OUSD(C)) is responsible for the overall financial oversight and determining financial responsibility for all contingency operations.

16.2.4. The Defense Security Cooperation Agency (DSCA) is responsible for program management of the OHDACA appropriation, approving FDR cost estimates in coordination with OUSDP, and issuing funds to Combatant Commands to support validated cost reimbursements.

16.2.5. The Combatant Command (CCMD) is responsible for collecting and preparing estimated costs from the DoD Components responsible for executing FDR operations within their geographic area of responsibility (AOR). The CCMD is responsible for submitting costs reports to DSCA, the OUSD(C), and others as required. In addition, the CCMD will validate and reimburse the DoD Components for incremental costs incurred in support of FDR operations.

16.3 Funds Management of OHDACA Funded Operations (231603)

This section identifies specific OHDACA financial responsibilities and procedures of the CCMD and Military Services to ensure the accountability and management of OHDACA funds distributed in support of FDR operations.

16.3.1. The DSCA will work closely with OSD Policy and Comptroller to coordinate efforts across OSD, the Joint Staff, and the interagency community to provide for a common understanding of resource funding requirements for the relief mission and to focus efforts necessary to obtain additional OHDACA resources, if required, in a timely manner. The DSCA will ensure the approved amount of OHDACA funds set aside by the Secretary of Defense for CCMD FDR operations will be available to the CCMD. DSCA will also provide an OHDACA Funding Authorization Document (FAD) to the CCMD to execute the mission.

16.3.2. The CCMD has the responsibility to establish effective financial management oversight of OHDACA funds provided for the FDR operation. The CCMD will collect daily estimated costs, commitments, and obligations from the supporting components and defense agencies and will ensure that OHDACA funded operations are necessary and applicable, within authorized OHDACA purposes and fund ceilings. The CCMD will report daily funds estimates and expenditures to DSCA and the OUSD(C) Operations Directorate using the Foreign Disaster Relief (FDR) Reporting format at Annex 2.

16.3.3. The Military Component will execute the FDR operations as directed by the CCMD using their available funds, capture actual operation obligations/costs, and code transactions, as necessary, to ensure that all operational costs recorded in the accounting systems are auditable. The Military Component will request OHDACA reimbursement from the CCMD.

16.3.3.1. The request for reimbursement shall be traceable to its costs as included in the cost reports required under paragraph 9.4 of this guidance.

16.3.3.2. Once the DoD Components submit their OHDACA reimbursement request to the CCMD, the CCMD will validate that the costs were incurred in direct support of the mission and comply with legal purposes for the use of OHDACA. Upon validation of these costs, the CCMD will issue an OHDACA FAD or Military Interdepartmental Purchase Request (MIPR) to the DoD Component for reimbursement.

16.3.4. In certain circumstances, a Military Component may need OHDACA funds prior to the humanitarian mission being completed. The CCMD will issue an OHDACA FAD or MIPR to the Military Component, as required.

16.3.4.1. The Military Component is still required to report their estimated daily costs to the CCMD and to execute funds as directed by the CCMD. The CCMD will validate that the costs were incurred to support the humanitarian mission.

16.3.4.2. The Military Component will report all costs as required under section 8.0 of this guidance.

16.3.4.3. The CCMD will make every effort to reimburse OHDACA funds to the Military Component in a timely manner, so the Military Component does not lose buying power from having to utilize its current funds available.

16.3.4.4. The CCMD is required to submit validated cost reports for reimbursement no later than 60 days following the expiration of the Department of Defense Executive Secretary response to the request for assistance. Reimbursement requests received after the 60-day period will be reimbursed by exception based on funds availability.

Annex 1: Standard Data Reporting Format

Contingency	Component	Reporting Period (eg. October-08)	Treasury Index	Basic Symbol	Beginning FY (yyyy)	Ending FY (yyyy)	Funding Category Code [Disaster Relief only]	Operation	BAG
SAG/BLIN/PE	CBS Line Item	Monthly Commitments	Monthly Obligations	Monthly Disbursements	Data Source (ACCT SYS, ADJUSTMENT, COST MODEL, COST ALLOC)		Comments		

Component: Participating DoD Military Service, Defense Agency or Combatant Command; e.g. Army
 Reporting Period: e.g. October-08
 Treasury Index: Treasury's Department identifier; e.g. 57 - Air Force
 Basic Symbol: Appropriation code; e.g. 2020 - Operation & Maintenance for Army
 Beginning FY (yyyy): e.g. 2016
 Ending FY (yyyy): e.g. 2016
 Funding Category Code: For [Foreign Disaster](#) Relief Operations Only; e.g. OHDACA (Overseas Humanitarian, Disaster, and Civic Aid) and Baseline
 Operation: Contingency/Disaster, Humanitarian Relief Event or Activity
 BAG: Budget Account Group; e.g. 01
 SAG/BLIN/PE: Sub Account Group / Budget Line Item Number / Program Element; e.g. 011C
 CBS Line Item: Cost Breakdown Structure; Cost Category e.g. 1.2.1
 Monthly Commitments: Blank (place holder for future use)
 Monthly Obligations: e.g. 7,000.00 (Dollars)
 Monthly Disbursements: e.g. 6,900.00 (dollars)
 Data Source: Accounting System, Cost Model or Allocation
 Comments: As needed

Annex 1 (Continued)

Additional Cost Reporting Considerations and Requirements

1. Be prepared to separately identify offsets to Reserve and Guard accounts due to Reserve/Guard call-up to active duty. Reserve personnel called to active duty shall be funded from the active duty appropriation.
2. Depending on the operation reporting requirements, Component may be required to separately identify other offsets (e.g., training not accomplished, base operating support not required, supplies returned/not utilized, non-monetary contributions, such as free fuel, as applicable).
3. To include dependents (per diem/transportation for NEO or safehaven support): The DoD Component military pay and permanent change of station accounts have been designated fund cites for military dependent evacuations. Related transportation costs addressed here are those from the repatriation center to the evacuees' final safehaven locations. (If CONUS is the designated safehaven, all dependents shall be brought to a repatriation center for processing, then provided additional transportation to a final safehaven location). These costs are separate from the airlift/sealift provided by the DoD or the Department of State for noncombatants during the evacuation; those costs would be reported under Operation and Maintenance, Transportation.
4. Be prepared to provide the most current manpower data for inclusion into the monthly reports to provide a basis for funds distribution for potential United Nations determined cost reimbursements.

Additional information and guidance:

CCMDs will receive OHDACA funding through the Defense Agencies Initiative (DAI) or Program Budget Accounting System (PBAS) from DSCA within 48 hours of the signed Department of Defense Executive Secretary (EXECSEC) memorandum to Department of State.

CCMDs are responsible for reimbursement of all validated expenses related to an EXECSEC or Disaster Response.

Annex 3:Evacuations

Department of State/Department of Defense
Cost Responsibility Matrix and Definitions**Evacuation/Protection
Cost Responsibility****Evacuation Related Costs: 1/**

A. Evacuee transportation/backhaul	State
B. Landing fees	State
C. Positioning of evacuee transportation assets solely for evacuation	State

Protection Related Costs: 2/

D. Positioning of transportation assets when assets are to be used for protection and evacuation	DoD
E. Special Pays (Imminent Danger, etc.)	DoD
F. Protection Forces (including all support)	DoD
G. Deploy/redeploy/reconstitute protection element	DoD
H. Protection of evacuees/DoD assets & personnel	DoD
I. Tactical Airlift Control Element	DoD
J. Per Diem	DoD
K. Communications	DoD
L. NEO command structure	DoD

1/ If other evacuation efforts are requested specifically by the Department of State, those efforts shall be billed under the Economy Act (31 U.S.C. 1535).

2/ If other protection efforts are performed during an evacuation, the associated costs shall be borne by DoD.

Annex 4: Cost Breakdown Structure

1.1 Military Personnel		
1.1.1	Reserve Components Called To Active Duty	The fully-burdened cost for pay and allowances for Reserve and National Guard personnel called to active duty to support a contingency operation (excludes mobilized Reserve AGRs since there is no incremental cost for their mobilization, but includes mobilized National Guard AGRs). Excludes Imminent Danger Pay, Family Separation Allowance, and Hardship Duty Pay which are accounted for in CBS codes 1.1.2, 1.1.3 and 1.1.4 and Stop Loss and Deployment Extension pays which are recorded in 1.1.7.1. Does not include TRICARE accrual costs, which for reservists, are not an incremental cost. It includes, but is not limited to Basic Pay, Basic Allowance for Housing (BAH), Basic Allowance for Subsistence (BAS), Retired Pay Accrual, government's portion of Federal Insurance Contribution Act taxes, and all special and incentive pays not included in 1.1.2, 1.1.3, 1.1.4 and 1.1.7.1.
1.1.2	Imminent Danger or Hostile Fire Pay	When authorized by the directing authority, a monthly special pay provided to active and reserve component military personnel participating in or supporting the contingency operation.
1.1.3	Family Separation Allowance	A monthly special allowance paid to all active and reserve component personnel who are separated from their families for 30 days or more.
1.1.4	Hardship Duty Pay	Hardship Duty Pay (HDP) is a monthly special pay for both mission (HDP-M) and location (HDP-L) paid to all Active and Reserve Component personnel who are eligible based upon the appropriate designations for personnel who are at a location outside of the continental U.S. (OCONUS).
1.1.5	Subsistence-in-Kind	Includes the costs of water, food, and ice and other subsistence items (Army Class I) which are purchased expressly to support personnel engaged in or supporting the contingency operation. Does not include Basic Allowance for Subsistence (BAS) which will be reported in 1.1.1 or 1.1.8 as applicable.

1.1 Military Personnel (Continued)		
1.1.6	Reserve Components Pre-Mobilization/ Post- Mobilization Training	Includes all pay and allowance costs, as well as travel and per diem for training specially required prior to or post activation, and not included within normal Annual Training (AT) and Inactive Duty Training (IDT) periods. Additional AT or IDT required to meet general Military Occupation Specialty individual and collective training standards are excluded.
1.1.6.1	Yellow Ribbon	Includes costs to assist National Guard and Reserve service members and families for reintegration training through the pre and post deployment phases.
1.1.7.1	Other Milpers Special and Incentive Pays	Active Duty special pays and incentives not reportable in 1.1.2, 1.1.3, 1.1.4, or 1.1.8. Special and incentive pays for Reserve Components called to Active Duty should be reported in 1.1.1 if not reportable in 1.1.2, 1.1.3 or 1.1.4. However, Stop Loss pays and Deployment Extension pay will be reported in 1.1.7.1 for both the Active and Reserve Components.
1.1.7.2	Permanent Change of Station - Military	Military personnel PCS costs associated with moving a servicemember in preparation for deployment or mobilization and upon return.
1.1.7.3	Temporary Storage - Military	Includes costs incurred to provide temporary storage for household goods and privately owned vehicles for servicemembers during deployments and mobilization in support of contingency operations.
1.1.7.4	Casualty and Disability Benefits	Costs incurred to pay death gratuities; Servicemembers Group Life Insurance (SGLI); Traumatic Injury Protection under SGLI (T-SGLI); and SGLI and T-SGLI insurance premiums.
1.1.7.5	Recruiting and Retention	Incentives and bonuses to recruit and retain personnel in critical military positions.
1.1.7.6	Additional Mobilization/Deployment Costs	Miscellaneous programs (e.g., Reserve Income Replacement Program, Unemployment Compensation, and Interest on Uniformed Services).

1.1 Military Personnel (Continued)		
1.1.8	Active Component Overstrength	The situation where a Military Service administratively retains a military member in an active duty status beyond a previously scheduled separation from the Armed Forces or brings on additional members in a temporary status to meet wartime requirements. Includes the cost of the fully-burdened composite rate of pay, allowances, taxes, and accruals for approved active component end strength in excess of Congressional authorized manning levels while supporting a contingency operation or war. Includes personnel retained as a result of stop loss actions. Excludes Imminent Danger Pay, Family Separation Allowance, Hardship Duty Pay, Stop Loss and Deployment Extension pays which are accounted for in other categories. It includes, but is not limited to Basic Pay, BAH, BAS, special and incentive pays, Retired Pay Accrual, TRICARE accrual, and the governments portion of Federal Insurance Act Contribution taxes.
1.2 Civilian Personnel		
1.2.1	Civilian Premium Pay	Includes certain types of pay such as overtime pay, night/shift differential pay, Sunday pay, holiday pay, hazard duty pay, environmental differential pay, danger pay allowance, and allowances and differentials in foreign areas that are incurred solely as a result of the employee's participation in or support to the contingency operation. Covers premium pay for both permanent and temporary DoD civilian employees.
1.2.2	Civilian Temporary Hires	Includes the basic salary and benefit costs of DoD civilian employees hired, on a temporary/nonpermanent basis, to directly support contingency operations or to provide backfill support with duty station in CONUS or OCONUS. Includes reimbursement for Working Capital Fund employees utilized in direct support of a contingency.
1.2.3	MRAP Vehicles	Obligations for civilian premium pay for deployed civilians and workload peaks at mobilization/demobilization and deployment/redeployment sites in the Continental United States (CONUS).

2.0 Personnel Support		
2.1	Temporary Duty (TDY)/Additional Duty (TAD)	Includes the costs of travel, per diem, and lodging for military and civilian personnel that result from participation in or support to the contingency operation. Also includes the cost of invitational travel orders for non-DoD personnel who travel at the request of a DoD Component on an assignment directly related to the contingency operation. Excludes the TDY/TAD costs of Reserve Component personnel called to active duty. These costs are to be reported as Reserve Component activation costs.
2.1.1	Per Diem - Military Dependents Only	Per Diem - Military Dependents Only
2.1.2	Per Diem - Military Members	Per Diem - Military Members
2.1.3	PCS Transportation - Military	PCS Transportation - Military
2.1.4	Dislocation Allowance	Dislocation Allowance
2.1.5	Per Diem - DoD Civilians	Per Diem - DoD Civilians
2.1.6	Per Diem - DoD Civilian Dependents	Per Diem - DoD Civilian Dependents
2.1.7	PCS Transportation - DoD Civilians	PCS Transportation - DoD Civilians
2.1.8	Miscellaneous Expense Allowance - DoD Civilians	Miscellaneous Expense Allowance - DoD Civilians
2.1.9	TDY Per Diem and Travel	TDY Per Diem and Travel
2.2	Individual Equipment	Costs associated with government owned, issued, and controlled personal protective gear temporarily issued to military Service members for use at no cost to the military Service members. Examples of personal protective gear include Load Bearing Equipment, helmets, ballistic eyewear, steel toe boots, gloves, goggles, ear protection, and hard armor ballistic inserts. For Service specific definition, see Service respective uniform regulation(s). Input procurement and operation and maintenance funding for individual equipment.

2.0 Personnel Support (Continued)		
2.2.1	Organizational Clothing	Costs associated with government owned, issued, and controlled uniform garments temporarily issued to military Service members for use at no cost to the military Service member. Examples of uniform garments include the Extended Cold Weather Clothing System, Aviation Combat Uniform, Flight Suit, Fire Resistant Combat Uniform, and the Improved Combat Vehicle Crewmember Coverall. For Service specific definitions, see Service respective uniform regulation(s). Input procurement and operation and maintenance funding for organizational clothing.
2.3	Medical Support/Health Services	Additive costs associated with providing medical services to military (Active or Reserve) and civilians (DoD or contractor) in clinics, hospitals, hospital ships, or other medical treatment facilities. Includes predeployment medical examinations, immunizations, medical materials (Army Class VIII supplies; e.g., blood, fluids, and specialized medical repair parts), medical supplies, operation of Mobile Army Surgical Hospital units, patient evacuation, and other nonpay and allowance expenses associated with medical backfill. Includes required communications costs associated with provision of medical services via telemedicine.
2.4	Reserve Component Activation/Deactivation	Includes costs to activate (mobilize) and deactivate(demobilize) Reserve units or individual Reservists. Includes transportation from home station to active duty station in CONUS. Training to bring Reserve Components up to active force readiness standards are considered activation costs. Excludes costs of pay, allowances, active duty TDY/TAD, and transportation to and from the area of operation, training, and other costs which are reported elsewhere.
2.4.1	Yellow Ribbon	Includes costs to assist National Guard and Reserve servicemembers and families with local resources before, during, and after deployments.
2.5	Other Personnel Support	Personnel support costs not included in one of the above items. This category would include unusual costs such as permanent change of station, end of term of service, or special actions associated with household goods or privately-owned vehicle storage.

2.0 Personnel Support (Continued)		
2.5.1	Permanent Change of Station - Civilian	Includes costs associated with moving a civilian in preparation for deployment and upon return.
2.5.2	Temporary Storage - Civilian	Includes costs incurred to provide temporary storage for household goods and privately owned vehicles for civilians during deployments to contingency operations.
2.5.3	Subsistence - Civilian	Includes costs incurred to provide subsistence for civilians during deployments to contingency operations.
2.6	Rest & Recreation	<p>Funds obligated by a DoD Component to provide a U.S. Government civilian or a military member of the Armed Services with an occasion away from a contingency operation duty station for the purpose of rest and recreation.</p> <p>Includes the cost of transportation from and to the contingency operation duty station.</p>
2.7	Body Armor	<p>Costs associated with government owned, issued, and controlled ballistic projectile protection equipment temporarily issued to military Service members for use at no cost to the military Service members. Examples of body armor include helmets, armored vests, body armor plates, small arms protective inserts, side ballistic Insert, and tactical vests. Body armor is a subset of individual equipment. For Service specific definition, see Service respective uniform regulation(s). Input procurement and operation and maintenance funding for body armor.</p>
3.0 Operations		
3.1	Training	Includes the costs associated with predeployment training of units and personnel to participate in or support an operation as well as the costs associated with training troops and personnel during the contingency operation. Includes antiterrorism training if required. Includes ancillary costs associated with proficiency training.
3.1.0	Care-in-Store	The cost to receive, preserve, store, and issue equipment for repair/restoration.

3.0 Operations (Continued)		
3.1.2	MRAP Vehicles Training	Obligations incurred to provide a variety of training in support of MRAP operational capability.
3.2	Operations (OPTEMPO) (Fuel, Other POL, Parts)	<p>Includes the incremental cost to operate units that conduct or support the contingency operation such as materials and services used during an operation to include: petroleum, oils and lubricants (POL) (Army Class III items) and spare and consumable parts such as repair components, kits, assemblies, reparable and nonreparable items for equipment maintenance support (Army Class IX items). Only those additional OPTEMPO costs that the Department incurs as a direct result of the contingency operation should be included.</p> <p>Includes all equipment maintenance required to prepare equipment for deployment and to maintain equipment during the contingency operation. Excludes charges for the use of DoD assets and also excludes cost of ammunition of all types (chemical, radiological, and special weapons), bombs, explosives, mine, fuse detonators, propellants, missiles, pyrotechnics and other associated items (Army Class V items).</p>
3.2.1	MRAP Vehicles Operation	Obligations incurred to provide operation and maintenance of deployed MRAPs.
3.2.2.1	Air Reconnaissance(P3)	Air Reconnaissance(P3)
3.2.2.2	Other Flying Hours	Other Flying Hours
3.2.3	Steaming Days	Steaming Days
3.2.4.1	TAD Non-Medical Personnel (USNS Comfort)	TAD Non-Medical Personnel (USNS Comfort)
3.2.4.2	TAD Medical Personnel (USNS Comfort)	TAD Medical Personnel (USNS Comfort)
3.2.5	Medical Supplies	Medical Supplies
3.2.6	Other Steaming Days	Other Steaming Days
3.2.7	Other	Other
3.2.8	USNS Mercy	USNS Mercy
3.2.8.1	TAD Non-Medical Personnel (USNS Mercy)	TAD Non-Medical Personnel (USNS Mercy)
3.2.8.2	TAD Medical Personnel (USNS Mercy)	TAD Medical Personnel (USNS Mercy)

3.0 Operations (Continued)		
3.3.1	Mine and Ballistic Protection Kits	Includes cost for the purchase, repair and maintenance for equipment and kits designed to increase personnel and vehicle ballistic protection.
3.3.2	Supplies and Equipment	Includes costs for supplies and equipment that is directly attributable to a contingency operation, but is not associated with operating tempo.
3.4	Facilities/Base Support	Includes establishment, maintenance & ops of billeting, camps, airfields, staging areas, relief centers, etc., similar to base operating support and real property maintenance. While this applies to costs incurred away from home station, costs may be included if they are incurred solely to support the contingency op. This category includes leases, rents and utilities to operate bases, camps, relief centers, airfields, and other operating/support facilities established. This category includes fortifications and barriers (Army Class IV) and other physical security costs and costs associated to protect forces at the facility (i.e. lease of land for required stand-off distance, special sewage removal or water hauling) and other base/center operating expenses such as food prep/serving service, storage and distribution warehousing or local area shuttle services. Includes materials and services provided by DoD Components or contractors and all logistics civil augmentation program costs.
3.4.1	MRAP Vehicles Facilities and Base Support	Obligations incurred to provide CONUS base support services, intermediate maintenance, and supplies and equipment in support of operation and maintenance of MRAPs.
3.5.1	Organization Level Maintenance	The cost of equipment maintenance activities performed at the organizational/unit level. Includes the cost to clean, inspect, and maintain organic equipment to the required condition at the conclusion of the contingency operation or unit deployment. Covers equipment organic to the participating unit and war reserve stock prior to replacement into storage. Excludes the cost to transport equipment being repaired/restored.

3.0 Operations (Continued)		
3.5.1.1	Non-Reset Organizational Level Maintenance	Organizational level cost of equipment maintenance activities, other than reset.
3.5.1.2	Reset Organizational Level Maintenance	<p>Reset organizational level maintenance.</p> <p>Definition: For Operation and Maintenance activities, reset includes a series of actions taken to restore units that have participated in contingency operations to a desired level of combat capability commensurate with the units' future mission. It encompasses both maintenance and supply activities that restore and enhance combat capability to unit and pre-positioned equipment that was destroyed, damaged, stressed, or worn out beyond economic repair due to combat operations by repairing, rebuilding, or procuring replacement equipment. These maintenance and supply activities involve both recapitalization and Depot and Field Level repairs/overhauls centrally managed to specified standards.</p> <p>Included are Procurement and Operation and Maintenance funded major repairs/overhauls and recapitalization (Rebuild or Upgrade) that enhance or restore existing equipment inventories through the insertion of new technology or restoration of selected equipment to a zero-miles/zero-hours condition. Reset includes replacement of equipment lost during operations in theater.</p>
3.5.2	Intermediate Level Maintenance	<p>The cost of equipment maintenance activities performed at the intermediate level facility, to include the cost to clean, inspect, and maintain organic equipment to the required condition at the conclusion of the contingency operation or unit deployment. Covers equipment organic to the participating unit and war reserve stock prior to replacement into storage. Excludes the cost to transport equipment being repaired/restored.</p>
3.5.2.1	Non-Reset Intermediate Level Maintenance	Intermediate level cost of equipment maintenance activities, other than reset.
3.5.2.2	Reset Intermediate Level Maintenance	Reset intermediate level maintenance. See CBS Code 3.5.1.2 and 6.1.7 for reset definition.

3.0 Operations (Continued)		
3.5.3	Depot Level Maintenance	The cost of equipment maintenance activities performed at the depot level facility, to include the cost to overhaul, clean, inspect, and maintain organic equipment to the required condition at the conclusion of the contingency operation or unit deployment. Covers equipment organic to the participating unit and war reserve stock prior to replacement into storage. Excludes the cost to transport, receive, preserve, store, and issue equipment being repaired/restored.
3.5.3.1	Non-Reset Depot Level Maintenance	Depot level cost of equipment maintenance activities, other than reset.
3.5.3.2	Reset Depot Level Maintenance	Maintenance actions at the Depot level to accomplish Reset. See CBS Code 3.5.1.2 and 6.1.7 for reset definition.
3.5.4	Contractor Logistics Support	The cost included when required material and maintenance of an end item or system is performed by contract support.
3.5.4.1	Non-Reset Contractor Logistics Support	Contractor logistics support cost, excluding reset costs.
3.5.4.2	Reset Contractor Logistic Support	Maintenance actions through Contractor Logistics Support to accomplish Reset. See CBS Code 3.5.1.2 and 6.1.7 for reset definition.
3.5.5	Up-Armored HMMWV Repair	Obligations incurred to repair, modify, or upgrade Up- Armored High Mobility Multipurpose Wheeled Vehicle
3.5.6	MRAP Vehicles Equipment Maintenance	MRAP Vehicles Equipment Maintenance
3.6	C4I	Includes the cost of designing, engineering, installing, and maintaining C4I systems required to support the contingency operations such as: purchase and lease of communications equipment, lease of commercial satellites and long-haul lines; and collection, analysis, and dissemination of information or intelligence information (to include cartography, imagery, and other mapping activities and joint surveillance attack radar system and unmanned aerial vehicles.

3.0 Operations (Continued)		
3.7.1	Miscellaneous Supplies	Includes costs of procuring, leasing, or renting miscellaneous supplies or services used during the contingency operation. Includes general support and administrative equipment not identified in another category. Includes contract services such as linguists not identified in another category.
3.7.2	Contract Services	Includes costs associated with providing contract services (non C4I) used during the contingency operation not covered in any other CBS category.
3.7.3	General Support and Administrative Equipment	Includes costs incurred to maintain and operate equipment with multi-use administrative purposes.
3.7.4	LOGCAP	Obligations incurred to pay for contract costs related to the Logistics Civilian Augmentation Program.
3.8	IED Operation	Obligations incurred to operate or repair equipment to defeat or counter the use of improvised explosive devices.
3.9	Psychological Operations (Information Operations)	Planned operations to convey selected information and indicators to foreign audiences to influence their emotions, motives, objective reasoning, and ultimately the behavior of foreign governments, organizations, groups, and individuals.
4.0 Transportation		
4.1	Airlift	Includes transportation of personnel, equipment, and material by commercial or military air ; retrograde costs should be reported in CBS 4.8.
4.2	Sealift	Includes transportation of personnel, equipment, and material by sea using commercial or active duty naval ships; retrograde costs should be reported in CBS 4.8.
4.3	Ready Reserve Force (RRF)/Fast Sealift Ships (FSS)	Includes transportation of personnel, equipment, and material by sea using RRF/FSS. Includes the cost to activate/deactivate and make vessels ready for use in contingency operations; retrograde costs should be reported in CBS 4.8.

4.0 Transportation (Continued)		
4.4	Port Handling/Inland Transportation	Includes port handling costs and transportation of personnel, equipment, and material by land. Also includes any contracted services to support port handling or inland transportation. Includes transportation between peacetime operating locations (home station) and ports and transportation between ports and the area of operation during deployment, sustainment, and redeployment; retrograde costs should be reported in CBS 4.8.
4.5	Other Transportation	Includes transportation not included as airlift, sealift, ready reserve forces, or port handling/inland transportation; retrograde costs should be reported in CBS 4.8.
4.6	Second Destination Transportation	Includes the cost of delivery of end item(s) to a location in support of a contingency operation. Also includes Defense Logistics Agency second destination costs; retrograde costs should be reported in CBS 4.8.
4.7	MRAP Vehicles Transportation	Obligations incurred for transportation for MRAP vehicles in support of contingency operations ; retrograde costs should be reported in CBS 4.8.
4.8	Retrograde of Personnel & Equipment	Amounts obligated to retrograde personnel and equipment. Equipment retrograde refers to the movement of non-unit equipment and material from a forward location to a reset program or another directed area of operation.
5.0 Revolving Funds		
5.1	Depot Level Repairables	Includes the cost of depot level repairables obligations incurred in support of a contingency operation within a Working Capital Fund.
5.10	Def Reutilization & Marketing Service OPS	Includes the cost of reutilization and marketing service operations obligations incurred in support of a contingency operation within a Working Capital Fund.
5.11	Other	Includes the cost of other obligations incurred in support of a contingency operation within a Working Capital Fund.
5.2	Depot Maintenance	Includes the cost of depot maintenance obligations incurred in support of a contingency operation within a Working Capital Fund.

5.0 Revolving Funds (Continued)		
5.3	Non-Flying Hours Spares (War Reserve Stock)	Includes the cost of nonflying hours spares obligations incurred in support of a contingency operation within a Working Capital Fund.
5.4	War Reserve Stock Secondary Items	Includes the cost of War Reserve Stock Secondary Items obligations incurred in support of a contingency operation within a Working Capital Fund.
5.5	Prepositioning Equipment Replacement - War Reserve	Prepositioning Equipment Replacement - War Reserve
5.6	Prepositioning Munitions Replacement - War Reserve	Prepositioning Munitions Replacement - War Reserve
5.8	Theater Distribution	Includes the cost of theater distribution obligations incurred in support of a contingency operation within a Working Capital Fund.
5.9	Fuel Transportation and Fuel Combat Losses	Includes the cost of fuel transportation and fuel combat losses obligations incurred in support of a contingency operation within a Working Capital Fund.
6.1 Procurement		
6.1.1	Aircraft Procurement	<p>The obligation of funds in the Components aircraft procurement accounts that include actions taken to restore units to a desired level of combat capability commensurate with the unit's future mission. It encompasses procurement activities that restore and enhance combat capability to unit and pre-positioned equipment that was destroyed, damaged, stressed, or worn out beyond economic repair due to combat operations by procuring replacement equipment.</p> <p>Included are Procurement funded major repairs/overhauls and recapitalization (Rebuild or Upgrade) that enhances existing equipment through the insertion of new technology or restores selected equipment to a zero-miles/zero-hours condition.</p>
6.1.1.1	Aircraft Procurement Reset	Includes the obligation of funds in the Components aircraft procurement accounts, incurred in support of a contingency operation for reset. See CBS Code 3.5.1.2 and 6.1.7 for reset definition.

6.1 Procurement (Continued)		
6.1.1.2	Aircraft Procurement Non-Reset	Includes the obligation of funds in the Components aircraft procurement accounts, incurred in support of a contingency operation excluding reset. Included are purchases of specialized, theater-specific equipment or operationally required modifications to equipment used in theater or in direct support of combat operations.
6.1.2	Munition Procurement	The obligation of funds in the Components munitions procurement accounts that include actions taken to restore units to a desired level of combat capability commensurate with the unit's future mission. It encompasses procurement activities that restore and enhance combat capability to unit and pre-positioned equipment that was destroyed, damaged, stressed, or worn out beyond economic repair due to combat operations by procuring replacement equipment. Included are Procurement funded major repairs/overhauls and recapitalization (Rebuild or Upgrade) that enhances existing equipment through the insertion of new technology or restores selected equipment to a zero-miles/zero-hours condition.
6.1.2.1	Munition Procurement Reset	Includes the obligation of funds in the Components munitions procurement accounts, incurred in support of a contingency operation for reset. See CBS Code 3.5.1.2 and 6.1.7 for reset definition.
6.1.2.2	Munition Procurement Non-Reset	Includes the obligation of funds in the Components munitions procurement accounts, incurred in support of a contingency operation excluding reset. May include munitions procurement based on projected combat operations expenditures, in cases where existing munitions stocks are insufficient to sustain theater combat operations.
6.1.3	Vehicle Procurement	The obligation of funds in the Components vehicle procurement accounts that include actions taken to restore units to a desired level of combat capability commensurate with the unit's future mission.
6.1.3.1	Vehicle Procurement Reset	Includes the obligation of funds in the Components vehicle procurement accounts, incurred in support of a contingency operation within the procurement title for reset. See CBS Code 3.5.1.2 and 6.1.7 for reset definition.

6.1 Procurement (Continued)		
6.1.3.2	Vehicle Procurement Non-Reset	Includes the obligation of funds in the Components vehicle procurement accounts, incurred in support of a contingency operation excluding reset.
6.1.3.3	MRAP Vehicles Procurement	Includes the obligation of funds in the Components vehicle procurement accounts for MRAPs, incurred in support of a contingency operation.
6.1.4	Communication & Electronic Equip Procurement	The obligation of funds in the Components communication and electronic equipment procurement accounts that include actions taken to restore units to a desired level of combat capability commensurate with the unit's future mission. It encompasses procurement activities that restore and enhance combat capability to unit and pre-positioned equipment that was destroyed, damaged, stressed, or worn out beyond economic repair due to combat operations by procuring replacement equipment. Included are Procurement funded major repairs/overhauls and recapitalization (Rebuild or Upgrade) that enhances existing equipment through the insertion of new technology or restores selected equipment to a zero-miles/zero-hours condition.
6.1.4.1	Communication & Electronic Equip Reset	Includes the obligation of funds in the Components communication & electronic procurement accounts, incurred in support of a contingency operation within the procurement title for reset. See CBS Code 3.5.1.2 and 6.1.7 for reset definition.
6.1.4.2	Communication & Electronic Equip Non-Reset	Includes the obligation of funds in the Components communication & electronic procurement accounts, incurred in support of a contingency operation within the procurement title excluding reset.
6.1.5	Non-IED/Up-Armored Humvees Combat Support	The obligation of funds in the Components non-IED/up- armored humvees combat support procurement accounts that include actions taken to restore units to a desired level of combat capability commensurate with the unit's future mission. It encompasses procurement activities that restore and enhance combat capability to unit and pre-positioned equipment that was destroyed, damaged, stressed, or worn out beyond economic repair due to combat operations by procuring replacement equipment. Included are Procurement funded major repairs/overhauls and recapitalization (Rebuild or Upgrade) that enhances existing equipment through the insertion of new technology or restores selected equipment to a zero-miles/zero-hours condition.

6.1 Procurement (Continued)		
6.1.5.1	Non-IED/Up-Armored Humvees, Combat Reset	Includes the obligation of funds in the Components non- IED/up-armored humvees combat support procurement accounts, incurred in support of a contingency operation within the procurement title for reset. See CBS Code 3.5.1.2 and 6.1.7 for reset definition.
6.1.5.2	Non-IED/Up-Armored Humvees, Combat Non-Reset	Includes the obligation of funds in the Components non- IED/up-armored humvees combat support procurement accounts, incurred in support of a contingency operation within the procurement title excluding reset.
6.1.6	Up-Armored Humvees Procure and Modify	The obligation of funds in the Components up-armored humvee procurement accounts procurement accounts that include actions taken to restore units to a desired level of combat capability commensurate with the unit's future mission. It encompasses procurement activities that restore and enhance combat capability to unit and pre-positioned equipment that was destroyed, damaged, stressed, or worn out beyond economic repair due to combat.
6.1.6.1	Up-Armored Humvee Procurement Reset	Includes the obligation of funds in the Components up- armored humvee procurement accounts, incurred in support of a contingency operation for reset. See CBS Code 3.5.1.2 and 6.1.7 for reset definition.
6.1.6.2	Up-Armored Humvee Procurement Non-Reset	Includes the obligation of funds in the Components up- armored humvee procurement accounts, incurred in support of a contingency operation excluding reset.

6.1 Procurement (Continued)		
6.1.7	Reset	<p>Includes the obligation of funds in the Components procurement accounts, incurred in support of a contingency operation for reset.</p> <p>Definition: For Procurement activities, reset includes a series of actions taken to restore units that have participated in contingency operations to a desired level of combat capability commensurate with the units' future mission. It encompasses both maintenance and supply activities that restore and enhance combat capability to unit and pre-positioned equipment that was destroyed, damaged, stressed, or worn out beyond economic repair due to combat operations by repairing, rebuilding, or procuring replacement equipment. These maintenance and supply activities involve both recapitalization and Depot and Field Level repairs/overhauls centrally managed to specified standards.</p> <p>Included are Procurement and Operation and Maintenance funded major repairs/overhauls and recapitalization (Rebuild or Upgrade) that enhance or restore existing equipment inventories through the insertion of new technology or restoration of selected equipment to a zero-miles/zero-hours condition. Reset includes replacement of equipment lost during operations in theater.</p>
6.1.8	Joint Counter IED	<p>Obligations incurred to procure, modify, upgrade or replace equipment to defeat or counter the use of improvised explosive devices. Includes the Joint Improved – Threat Defeat Fund (JIDF).</p>

6.2 Research and Development		
6.2.1	Basic Research	The obligation of funds in the Components Basic Research program, RDT&E title, that include actions taken to restore units to a desired level of combat capability commensurate with the units future mission. It encompasses procurement activities that restore and enhance combat capability to unit and pre-positioned equipment that was destroyed, damaged, stressed, or worn out beyond economic repair due to combat operations by procuring replacement equipment. Included are Procurement funded major repairs/overhauls and recapitalization (Rebuild or Upgrade) that enhances existing equipment through the insertion of new technology or restores selected equipment to a zero- miles/zero-hours condition.
6.2.1.1	Basic Research Reset	Includes the obligation of funds in the Components Basic Research program, within the RDT&E title, incurred in support of a contingency operation for reset. See CBS Code 3.5.1.2 and 6.1.7 for reset definition.
6.2.1.2	Basic Research Non-Reset	Includes the obligation of funds in the Components Basic Research program, within the RDT&E title, incurred in support of a contingency operation excluding reset.
6.2.2	Applied Research	The obligation of funds in the Components Applied Research program, RDT&E title, that include actions taken to restore units to a desired level of combat capability commensurate with the units future mission. It encompasses procurement activities that restore and enhance combat capability to unit and pre-positioned equipment that was destroyed, damaged, stressed, or worn out beyond economic repair due to combat operations by procuring replacement equipment. Included are Procurement funded major repairs/overhauls and recapitalization (Rebuild or Upgrade) that enhances existing equipment through the insertion of new technology or restores selected equipment to a zero-miles/zero-hours condition.
6.2.2.1	Applied Research Reset	Includes the obligation of funds in the Components Applied Research program, within the RDT&E title, incurred in support of a contingency operation for reset. See CBS Code 3.5.1.2 and 6.1.7 for reset definition.

6.2 Research and Development (Continued)		
6.2.2.2	Applied Research Non-Reset	Includes the obligation of funds in the Components Applied Research program, RDT&E title, incurred in support of a contingency operation excluding reset.
6.2.2.3	Applied Research MRAP Vehicles	Includes the obligation of funds in the Components Applied Research program, RDT&E title, incurred in support of MRAPs for a contingency operation.
6.2.3	Advanced Technology Development	The obligation of funds in the Components Advanced Technology programs, within the RDT&E title, that include actions taken to restore units to a desired level of combat capability commensurate with the units future mission. It encompasses procurement activities that restore and enhance combat capability to unit and pre-positioned equipment that was destroyed, damaged, stressed, or worn out beyond economic repair due to combat operations by procuring replacement equipment. Included are Procurement funded major repairs/overhauls and recapitalization (Rebuild or Upgrade) that enhances existing equipment through the insertion of new technology or restores selected equipment to a zero-miles/zero-hours condition.
6.2.3.1	Advanced Technology Reset	Includes the obligation of funds in the Components Advanced Technology Development program, within the RDT&E title, incurred in support of a contingency operation for reset. See CBS Code 3.5.1.2 and 6.1.7 for reset definition.
6.2.3.2	Advanced Technology Non-Reset	Includes the obligation of funds in the Components Advanced Technology programs, within the RDT&E title, incurred in support of a contingency operation excluding reset.
6.2.4	Advanced Component Development & Prototype	The obligation of funds in the Components Advanced Component Development and Prototype programs, within the RDT&E title, that include actions taken to restore units to a desired level of combat capability commensurate with the units future mission. It encompasses procurement activities that restore and enhance combat capability to unit and pre-positioned equipment that was destroyed, damaged, stressed, or worn out beyond economic repair due to combat operations by procuring replacement equipment. Included are Procurement funded major repairs/overhauls and recapitalization.

6.2 Research and Development (Continued)		
6.2.4.1	Advanced Component Development & Prototype Reset	Includes the obligation of funds in the Components advanced Component Development and Prototype program, within the RDT&E title, incurred in support of a contingency operation for reset. See CBS Code 3.5.1.2 and 6.1.7 for reset definition.
6.2.4.2	Advanced Component Development & Prototype Non- Reset	Includes the obligation of funds in the Components advanced Component Development and Prototype program, within the RDT&E title, incurred in support of a contingency operation excluding reset.
6.2.5	System Development & Demonstration	The obligation of funds in the Components System Development and Demonstration programs, within the RDT&E title, that include actions taken to restore units to a desired level of combat capability commensurate with the units future mission. It encompasses procurement activities that restore and enhance combat capability to unit and pre- positioned equipment that was destroyed, damaged, stressed, or worn out beyond economic repair due to combat operations by procuring replacement equipment. Included are Procurement funded major repairs/overhauls and recapitalization (Rebuild or Upgrade) that enhances existing equipment through the insertion of new technology or restores selected equipment to a zero-miles/zero-hours condition.
6.2.5.1	System Development and Demonstration Reset	Includes the obligation of funds in the Components System Development and Demonstration program, within the RDT&E title, incurred in support of a contingency operation for reset. See CBS Code 3.5.1.2 and 6.1.7 for reset definition.
6.2.5.2	System Development and Demo Non-Reset	Includes the obligation of funds in the Components System Development and Demonstration program, within the RDT&E title, incurred in support of a contingency operation excluding reset.

6.2 Research and Development (Continued)		
6.2.6	Management Support	The obligation of funds in the Components Management Support programs, within the RDT&E title, that include actions taken to restore units to a desired level of combat capability commensurate with the units future mission. It encompasses procurement activities that restore and enhance combat capability to unit and pre-positioned equipment that was destroyed, damaged, stressed, or worn out beyond economic repair due to combat operations by procuring replacement equipment. Included are Procurement funded major repairs/overhauls and recapitalization (Rebuild or Upgrade) that enhances existing equipment through the insertion of new technology or restores selected equipment to a zero-miles/zero-hours condition.
6.2.6.1	Management Support Reset	Includes the obligation of funds in the Components Management Support programs, within the RDT&E title, incurred in support of a contingency operation for reset. See CBS Code 3.5.1.2 and 6.1.7 for reset definition.
6.2.6.2	Management Support Non- Reset	Includes the obligation of funds in the Components Management Support programs, within the RDT&E title, incurred in support of a contingency operation excluding reset.
6.2.7	Operational System Development	The obligation of funds in the Components Operational System Development programs, within the RDT&E title, that include actions taken to restore units to a desired level of combat capability commensurate with the units future mission. It encompasses procurement activities that restore and enhance combat capability to unit and pre-positioned equipment that was destroyed, damaged, stressed, or worn out beyond economic repair due to combat operations by procuring replacement equipment. Included are Procurement funded major repairs/overhauls and recapitalization (Rebuild or Upgrade) that enhances existing equipment through the insertion of new technology or restores selected equipment to a zero-miles/zero-hours condition.
6.2.7.1	Operational System Development Reset	Includes the obligation of funds in the Components Operational System Development programs, within the RDT&E title, incurred in support of a contingency operation for reset. See CBS Code 3.5.1.2 and 6.1.7 for reset definition.

6.2 Research and Development (Continued)		
6.2.7.2	Operational System Development Non-Reset	Includes the obligation of funds in the Components Operational System Development programs, within the RDT&E title, incurred in support of a contingency operation excluding reset.
6.2.7.3	Operational System Development MRAP Vehicles	Includes the obligation of funds in the Components Operational System Development programs, within the RDT&E title, incurred in support of MRAPs for a contingency operation.
6.3 Military Construction		
6.3.1	Major Construction	Includes the obligation of funds in the Military Construction title incurred in support of a contingency operation.
6.3.2	Minor Construction	Includes the obligation of funds in the Components (Operation & Maintenance) program for minor construction incurred in support of a contingency operation.
6.3.3	Family Housing (Construction)	Includes the obligation of funds in the Components family housing (construction) program, within the Military Construction title, incurred in support of a contingency operation.
6.3.4	Family Housing (Operation & Maintenance)	Includes the obligation of funds in the Components family housing (Operation & Maintenance) program, within the Military Construction title, incurred in support of a contingency operation.
7.1 Coalition Support		
7.1.01	Pakistan	Coalition Support - Pakistan
7.1.02	Mongolia	Coalition Support - Mongolia
7.1.03	Poland	Coalition Support - Poland
7.1.04	Ukraine	Coalition Support - Ukraine
7.1.05	Uzbekistan	Coalition Support - Uzbekistan
7.1.06	Slovakia	Coalition Support - Slovakia
7.1.07	Azerbaijan	Coalition Support - Azerbaijan
7.1.08	Bosnia	Coalition Support - Bosnia
7.1.09	Macedonia	Coalition Support - Macedonia
7.1.10	Romania	Coalition Support - Romania
7.1.11	Thailand	Coalition Support - Thailand
7.1.12	Jordan (OEF)	Coalition Support - Jordan (OEF)
7.1.13	Jordan (OIF)	Coalition Support - Jordan (OIF)
7.1.14	Georgia (OIF)	Coalition Support - Georgia (OIF)
7.1.15	Estonia	Coalition Support - Estonia
7.1.16	El Salvador	Coalition Support - El Salvador

7.1 Coalition Support (Continued)		
7.1.17	Nicaragua	Coalition Support - Nicaragua
7.1.18	Hungary	Coalition Support - Hungary
7.1.19	Kyrgyz Republic	Coalition Support - Kyrgyz Republic
7.1.20	Tonga	Coalition Support - Tonga
7.1.21	Romania	Coalition Support - Romania
7.1.22	Czech Republic	Coalition Support - Czech Republic
7.1.23	Georgia (OEF)	Coalition Support - Georgia (OEF)
7.1.24	Moldova	Coalition Support - Moldova
7.1.26	Mongolia (OEF)	Coalition Support - Mongolia (OEF)
7.1.90	CRSP	Coalition Readiness Support Program
7.2 Lift and Sustain		
7.2.1	Transportation Support	Lift and Sustain - Transportation Support
7.2.2	Logistic Support	Lift and Sustain - Logistic Support
7.2.3	Other Support	Lift and Sustain - Other Support
7.2.4	Lift & Sustain	Global Lift & Sustain - Operation Unified Protection
7.3 Security Force Funds		
Applies to Afghanistan Security Forces Fund (2091) and Iraq Security Forces Fund (2092)		
7.3.01	Defense Forces	Train and Equip - Defense Forces
7.3.02	Defense Forces Sustainment	Train and Equip - Defense Forces Sustainment
7.3.03	Defense Forces Infrastructure	Train and Equip - Defense Forces Infrastructure
7.3.04	Defense Forces Equipment and Transportation	Train and Equip - Defense Forces Equipment and Transportation
7.3.05	Defense Forces Training and Operations	Train and Equip - Defense Forces Training and Operations
7.3.06	Interior Forces	Train and Equip - Interior Forces
7.3.07	Interior Forces Sustainment	Train and Equip - Interior Forces Sustainment
7.3.08	Interior Forces Infrastructure	Train and Equip - Interior Forces Infrastructure
7.3.09	Interior Forces Equipment	Train and Equip - Interior Forces Equipment
7.3.10	Interior Forces Training and Operations	Train and Equip - Interior Forces Training and Operations
7.3.11	Quick Response Fund	Train and Equip - Quick Response Fund
7.3.12	Quick Response Fund	Train and Equip - Quick Response Fund
7.3.13	Other Support	Train and Equip - Other Support
7.3.14	Detainee Operations Sustainment	Train and Equip - Detainee Operations Sustainment
7.3.15	Detainee Operations Infrastructure	Train and Equip - Detainee Operations Infrastructure

7.3 Security Force Funds (Continued) Applies to Afghanistan Security Forces Fund (2091) and Iraq Security Forces Fund (2092)		
7.3.16	Detainee Operations Equipment and Transportation	Train and Equip - Detainee Operations Equipment and Transportation
7.3.17	Detainee Operations Training and Operations	Train and Equip - Detainee Operations Training and Operations
7.3.18	Prosthetics Clinic	Train and Equip - Prosthetics Clinic
7.3.19	Prosthetics Clinic	Train and Equip - Prosthetics Clinic
7.3.20	Other	Train and Equip – OTHER (e.g., FMS Cases)
7.3.30	Pakistan Counterinsurgency Capability Fund (PCCF)	Defense Security Forces Funds provided by Department of State under §632.
7.3.31	PCCF Defense Security Forces infrastructure	Defense Security Forces Infrastructure
7.3.32	PCCF Defense Security Forces Equipment	Defense Security Forces Equipment
7.3.33	PCCF Defense Security Forces Training	Defense Security Forces Training
7.3.40	PCCF Frontier Corps	Frontier Corps
7.3.41	PCCF Frontier Corps Infrastructure	Frontier Corps Infrastructure
7.3.42	PCCF Frontier Corps Equipment	Frontier Corps Equipment
7.3.43	PCCF Frontier Corps Training	Frontier Corps Training
7.3.50	PCCF Humanitarian Assistance	Humanitarian Assistance
7.3.60	PCCF Other	Other
7.4 Commander's Emergency Response Program (CERP)		
7.4.1	Afghanistan (CERP)	Commander's Emergency Response Program - Afghanistan
7.4.2	Iraq (CERP)	Commander's Emergency Response Program - Iraq
7.4.3	Philippines	Commander's Emergency Response Program - Philippines
7.4.4	Afghanistan Reintegration	Afghanistan Reintegration
7.5 Afghanistan Infrastructure Fund (Expired)		
7.5.1	Power	Afghanistan Infrastructure Fund - Power
7.5.2	Transportation	Afghanistan Infrastructure Fund – Transportation

7.5 Afghanistan Infrastructure Fund (Expired) (Continued)		
7.5.3	Water	Afghanistan Infrastructure Fund – Water
7.5.4	Other Related Activities	Afghanistan Infrastructure Fund – Other Related Activities
7.6 Syria Train & Equip <i>Applies to C-ISIL Train and Equip Fund (2099)</i>		
7.6.1	Trainee Equip/Support	Train and Equip funds used for supporting the vetted Syrian opposition by providing for equipping; training; base operations support, expeditionary facilities and infrastructure; leasing cost; construction and operation of firing ranges; force protection; stipends; transportation, and life support.
7.6.2	U.S. Trainer/Enabler	U.S. Trainer and Enabler funds used for Service expenses directly relating to U.S. forces involved with training the Syrian opposition.
7.7 Iraq Train & Equip <i>Applies to Iraq Train and Equip Fund (2097) and C-ISIL Train and Equip Fund (2099)</i>		
7.7.1	Defense Forces	Train and Equip - Defense Forces
7.8 CISIL Iraq Train & Equip <i>C-ISIL Train and Equip Fund (2099)</i>		
7.8.1	Other Activities	Counter-ISIS train and equip activities outside of Iraq and Syria, and programs to enhance the border security of nations adjacent to conflict areas resulting from ISIS actions.
8.0 Not in Use		
9.0 Humanitarian Relief		
9.1	Security	Includes the costs to provide urgent, temporary, and emergency security of people, facilities, and things in direct support of the operation.
9.11.1	Health and Comfort Packages	Health and Comfort Packages
9.11.2	Blankets	Blankets
9.11.3	Human Remains Pouches	Human Remains Pouches
9.11.4	Human Transfer Cases	Human Transfer Cases
9.11.5	Plastic Sheeting	Plastic Sheeting

9.0 Humanitarian Relief (Continued)		
9.12	Sanitation	Includes the costs to provide urgent, temporary, and emergency sanitation to prevent disease and further damage to people and property in support of the operation.
9.13	Humanitarian Daily Rations	Includes the costs to provide urgent and emergency food direct support of the operation. Includes Meals ready-to-eat.
9.14	Child Care	Includes the costs to provide urgent, temporary, and emergency child care in direct support of the operation.
9.15	Mortuary Services/Support	Includes the costs to provide mortuary services in direct support of the operation.
9.16	Fuel	Includes the obligation of funds to obtain and provide fuel in direct support of the operation.
9.17	Vehicle Rental	Includes the costs for the urgent, temporary, and emergency rental of vehicles in direct support of the operation.
9.18	Vehicle Purchase	Includes the costs of the purchase of vehicles in direct support of the operation.
9.19	Other Procurement	Includes obligation of funds in the Other Procurement accounts for urgent, temporary, and emergency humanitarian relief in direct support of the operation.
9.2	Water	Humanitarian Relief - Water
9.2	Contractor Support	Includes the costs of procuring contractor services used in direct support of the operation.
9.21	All Other Supplies & Materials	Includes the costs of procuring, leasing, or renting miscellaneous supplies or materials used during operation. Includes general support and administrative equipment not identified in another category.
9.22.1	Migrant Costs (CONUS)	Migrant Costs (CONUS)
9.22.2	Migrant Costs (OCONUS)	Migrant Costs (OCONUS)
9.3	Health Care	Humanitarian Relief - Health Care
9.4	Medical Supplies (Excluding Comfort Supplies)	Humanitarian Relief - Medical Supplies (Excluding Comfort Supplies)
9.5	Infrastructure Support	Humanitarian Relief - Infrastructure Support
9.5.1	Temporary/Urgent repairs	Temporary/Urgent repairs

9.0 Humanitarian Relief (Continued)		
9.5.2	Utility/engineering inspections	Utility/engineering inspections
9.5.3	Facility rental	Facility rental
9.5.4	In-Country Support	In-Country Support
9.6	Power/Lighting	Humanitarian Relief - Power/Lighting
9.7	Communication/C3I	Humanitarian Relief - Communication/C3I
9.8	General Transportation	Humanitarian Relief - General Transportation
9.9	Clean-up Costs	Humanitarian Relief - Clean-up Costs

**VOLUME 12, CHAPTER 24: “BURDENSARING AND OVERSEAS RELOCATION
CONTRIBUTIONS BY FOREIGN ALLIES”****SUMMARY OF MAJOR CHANGES**

Changes are identified in this table and also denoted by **blue font**.

Substantive revisions are denoted by a * preceding the section, paragraph, table, or figure that includes the revision.

Unless otherwise noted, chapters referenced are contained in this volume.

Hyperlinks are denoted by **bold, italic, blue and underlined font**.

The previous version dated October 2012 is archived.

CHAPTER 24**BURDENSARING AND OVERSEAS RELOCATION CONTRIBUTIONS
BY FOREIGN ALLIES****1.0 INTRODUCTION (2401)****1.1 Purpose (240101)**

This chapter prescribes the overall policy and assigns responsibilities for the acceptance, receipt, use, and reporting of burdensharing and relocation monetary contributions to the Department of Defense (DoD) under Title 10, United States Code (U.S.C.), sections 2350j and 2350k ([10 U.S.C. §§ 2350j and 2350k](#)).

2.0 RESPONSIBILITIES (2402)**2.1 Under Secretary of Defense for (Policy) (USD(P)) (240201)**

The USD(P) has policy and management responsibility for burdensharing agreements or arrangements. In addition, the USD(P) will work with the Defense Finance and Accounting Service – Trust [Funds](#) Accounting and Reporting [Division](#) (TFAR) (DFAS-IN/JJAEAB) on burdensharing program requirements that impact DFAS responsibilities, as appropriate.

2.2 Under Secretary of Defense (Comptroller) (USD(C)) (240202)

2.2.1. The USD(C) serves as the single departmental point of contact with the Departments of State and Treasury for all matters involving the acceptance, receipt, administration and distribution of contributions of funds from foreign countries and organizations for burdensharing and relocation contributions.

2.2.2. The USD(C) is responsible for coordination and approval of military construction projects that are subject to Title 10 U.S.C., section 2350j. In addition, the USD(C) is responsible for reviewing and submitting to the Congress those reports required by Title 10 U.S.C., section 2350j and Title 10 U.S.C., section 2350k.

2.3 Director of Defense Finance and Accounting Service (DFAS) (240203)

The DFAS Director is responsible for recording and reporting the collection of receipts for burdensharing and relocation contributions and for the distribution of receipts, as prescribed by the USD(C), in support of burdensharing and overseas relocation programs.

2.4 Commanders of the Combatant Commands (CINCs) (240204)

The cognizant CINC is responsible for, but may delegate to subordinate commanders, the following responsibilities.

2.4.1. For burdensharing contributions for other than military construction projects, the cognizant CINC shall:

2.4.1.1. Notify the responsible DoD Component of anticipated contributions from foreign governments.

2.4.1.2. Identify a proposed distribution of funds to the approving authority.

2.4.1.3. Deposit funds received with the DFAS Field Activity located within the immediate overseas operating area or the Financial Services Office (FSO) if no DFAS Field Activity is located within the immediate overseas operating areas.

2.4.1.4. Prepare the necessary disbursing documentation for forwarding to the DFAS Field Activity located within the immediate overseas operating area, or the FSO if no DFAS Field Activity is located within the immediate overseas operating area.

2.4.1.5. Submit reporting and control of funds information to:

DFAS Indianapolis Site
Trust Funds Accounting and Reporting Division (DFAS-IN/JJAEAB)
Room 315AA-1
8899 East 56th Street
Indianapolis, IN 46249-2801

Submit this information via the DFAS Field Activity located within the immediate overseas operating area, or the FSO if no DFAS Field Activity is located within the immediate overseas operating area.

2.4.1.6. Submit information on the amount and purpose of each contribution to:

Office of the OUSD(C)
Office of the Deputy Comptroller (Program/Budget) ODC(P/B)
Operations Directorate, Room 3C710, 1100 Defense Pentagon
Washington, DC 20301-1100

2.4.2. For military construction projects funded with burdensharing contributions, the cognizant CINC shall:

2.4.2.1. Initiate the military construction project proposals utilizing Defense Department (DD) Form 1391 (Justification of Military Construction Projects).

2.4.2.2. Submit for approval the justification material to:

OUSD(C), ODC (P/B)
Military Personnel and Construction Directorate
Room 3C654, 1100 Defense Pentagon
Washington, DC 20301-1100

2.4.2.3. Deposit contributions with the DFAS Field Activity located within the immediate overseas operating area, or the FSO if no DFAS Field Activity is located within the immediate overseas operating area.

2.4.2.4. Ensure that ODC(P/B) Military Personnel and Construction Directorate approval has been received prior to disbursement of funds (see subparagraph 2.4.2.2) via the DFAS Field Activity located within the immediate overseas operating area, or the FSO if no DFAS Field Activity is located within the immediate overseas operating area.

2.4.2.5. Prepare necessary disbursing documentation for forwarding to the DFAS Field Activity located within the immediate overseas operating area, or the FSO if no DFAS Field Activity is located within the immediate overseas operating area.

2.4.2.6. Submit information to the DFAS-IN/JJAEAB (see subparagraph 2.4.1.5) for reporting and control of funds purposes, via the DFAS Field Activity located within the immediate overseas operating area, or the FSO if no DFAS Field Activity is located within the immediate overseas operating area.

2.4.3. For all overseas relocation contributions, the cognizant CINC shall:

2.4.3.1. Notify the DFAS Trust Fund Accounting and Reporting Division (DFAS-IN/JJAEAB) that a contribution is expected.

2.4.3.2. Submit information on the amount and purpose of the contribution to the OUSD(C), ODC (P/B), Operations Directorate (see subparagraph 2.5.1.6). Courtesy copies shall be provided to the Military Personnel and Construction Directorate when contributions are made for construction projects.

2.4.3.3. Deposit the funds with the DFAS Field Activity located within the immediate overseas operating area, or the FSO if no DFAS Field Activity is located within the immediate overseas operating area.

2.4.3.4. Notify DFAS-IN/JJAEAB, via the DFAS Field Activity located within the immediate overseas operating area, or the FSO if no DFAS Field Activity is located within the immediate overseas operating area, at least 1 business day in advance of disbursements so securities can be sold to finance the payment.

2.4.3.5. Prepare the necessary disbursing documentation, for forwarding to the DFAS Field Activity located within the immediate overseas operating area, or the FSO if no DFAS Field Activity is located within the immediate overseas operating area.

2.4.3.6. Submit information to the DFAS-IN/JJAEAB, for reporting and control of funds purposes, via the DFAS Field Activity located within the immediate overseas operating area, or the FSO if no DFAS Field Activity is located within the immediate overseas operating area.

2.5 Assistant Secretaries of the Military Departments (Financial Management and Comptroller) (FM&C) (240205)

2.5.1. The cognizant Assistant Secretary (FM&C) has responsibility to review and approve the distribution of funds received from foreign countries and regional organizations for the purposes outlined in this Regulation. These responsibilities may be delegated below the Assistant Secretary level.

2.5.2. The Assistant Secretary of the Army (FM&C) is responsible for Korea and Kuwait.

2.5.3. The Assistant Secretary of the Air Force (FM&C) is responsible for Japan, except for the Realignment of Forces from Okinawa to Guam, wherein the Assistant Secretary of the Navy (FM&C) is responsible.

2.5.4. Distribution of contributions received from other countries, not specified above, shall be the responsibility of the Assistant Secretary (FM&C) whose Service will use the greater portion of the contribution.

3.0 MONETARY CONTRIBUTIONS (2403)

3.1 Notifications (240301)

3.1.1. The DoD Components shall notify the DFAS-IN/JJAEAB of all potential monetary contributions prior to acceptance of such contributions. All notifications shall indicate the applicable statute (i.e., Title 10 U.S.C., section 2350j for burdensharing contributions or Title 10 U.S.C., section 2350k for overseas relocation). Copies of all notifications shall be sent to the DFAS-IN/JAFB (see subparagraph 2.4.1.5 for full address) via the DFAS Field Activity located within the immediate overseas operating area, or the FSO if no DFAS Field Activity is located within the immediate overseas operating area.

3.1.2. Within 5 working days after notification of anticipated receipt of funds from a country without a designated account, the DFAS Field Activity located within the immediate overseas operating area, or the FSO if no DFAS Field Activity is located within the immediate

overseas operating area, shall submit a request for a new Treasury account for that country to the address in subparagraph 2.4.1.5.

3.1.3. TFAR will submit the necessary documents to the Department of the Treasury to establish the new account and shall send a copy of the information to the DFAS-IN/JJAEAB and the DFAS Field Activity located within the immediate overseas operating area, or the FSO if no DFAS Field Activity is located within the immediate overseas operating area.

3.2 Contributions (240302)

3.2.1. General

3.2.1.1. Monetary contributions shall be accepted for specific purposes as identified in section 5.0 of this chapter.

3.2.1.2. If none of the accounts identified in section 5.0 of this chapter apply, then contributions shall be credited to a DoD disbursing officer's suspense account using a DD Form 1131 (Cash Collection Voucher) for cash and check contributions. The DoD Component and/or DFAS Field Activity disbursing officer may request further guidance from the DFAS-IN/JAFB.

3.2.2. Contributions in Cash

3.2.2.1. The receiving DoD Component and/or DFAS Field Activity located within the immediate overseas operating area shall credit all cash contributions to one or more of the applicable DoD accounts as identified in section 5.0 of this chapter.

3.2.2.2. Documentation associated with cash contributions, including copies of the DD Form 1131 and the original of any correspondence from contributors, shall be forwarded by the receiving DFAS Field Activity located within the immediate overseas operating area (or DoD Component activity if no DFAS Field Activity is located within the immediate overseas operating area) within 24 hours of deposit to the DFAS-IN/JJAEAB.

3.2.3. Contributions by Check

3.2.3.1. Checks received by DoD officials shall be made payable as described in accordance with Volume 5, Chapter 10. The reference line on the check shall identify the applicable burdensharing agreement or arrangement, or a copy of the agreement shall be attached.

3.2.3.2. Checks received by DoD officials shall be forwarded to the nearest DFAS Field Activity located within the immediate overseas operating area, or other DoD disbursing office if no DFAS Field Activity is located within the immediate overseas operating area, for processing within 24 hours of receipt. Such checks shall be credited to one or more of the applicable DoD accounts identified in section 5.0 of this chapter.

3.2.3.3. Documentation associated with check contributions--including copies of checks, DD Forms 1131, deposit tickets and the original of any correspondence from contributors--

-shall be forwarded by the receiving DFAS Field Activity located within the immediate overseas operating area, or other DoD Component activity if no DFAS Field Activity is located within the immediate overseas operating area, within 24 hours of deposit to the DFAS-IN/JJAEAB.

3.2.4. Contributions by Wire Transfer

3.2.4.1. Contributions by wire transfer are preferred since they eliminate delays in receiving deposits and should provide the most efficient preliminary accounting information for receipt distribution purposes. Wire transfers shall be credited to one or more of the applicable DoD accounts identified in section 5.0 of this chapter.

3.2.4.2. Contributors may make contributions to the Department via electronic funds transfer from commercial banks to the Federal Reserve Bank of New York (as Fiscal Agent of the United States). The Federal Reserve Bank of New York shall credit the Department. Any exceptions shall be documented within the international agreements and coordinated with the USD(C), or designee.

3.2.4.3. Documentation associated with wire transfer contributions, including the original of any correspondence from contributors, shall be forwarded within 24 hours of the deposit to the DFAS-IN/JAFB.

3.2.5. Contributions in Foreign Currencies (Cash or Check)

When a DoD Component becomes aware of a planned, large contribution (\$1 million or more) to be made in a foreign currency, the cognizant DFAS Field Activity or DoD Component official shall:

3.2.5.1. Request that the contributor give as much advance notification as possible regarding the amount of the contribution and the estimated date that the contribution will be made.

3.2.5.2. Advise the DFAS-IN/JJAEAB of any planned contributions and continue to keep that office advised of the status until the contribution is received.

3.2.5.3. Except as described in subparagraph 4.2.5.6, the contributor should transfer the foreign currency credit to the Federal Reserve Bank of New York via the contributor's central bank. If the Federal Reserve Bank does not maintain a relationship with a particular central bank, the DoD Component or DFAS Field Activity located within the immediate overseas operating area shall seek guidance from the DFAS-IN/JJAEAB for appropriate alternative arrangements, including the use of limited depositary accounts.

3.2.5.4. Cash and checks received by DoD officials in countries not served by DoD disbursing officers shall be delivered to the nearest U.S. Embassy within 24 hours of receipt for credit in one or more of the applicable DoD accounts identified in section 5.0 of this chapter. If none of the accounts identified in section 5.0 of this chapter applies, then all cash and checks shall be credited to an Embassy disbursing officer's suspense account. The Embassy disbursing officer or representative shall request further guidance from the DFAS-IN/JJAEAB. Documentation

associated with the contribution, including copies of deposit tickets and appropriate collection voucher, shall be forwarded within 24 hours to the DFAS-IN/JJAEAB.

3.2.5.5. Except as described in subparagraph 3.2.5.6, all contributions received in foreign currencies shall be converted to U.S. dollars at the prevailing rate of exchange at the time that the deposit is made.

3.2.5.6. Where international arrangements require the retention of the currency in limited depository accounts for local disbursement in that currency, the deposits shall be calculated and recorded (not converted) in terms of equivalent dollar value based on the prevailing rate of exchange. (See Volume 5, Chapter 13, for additional information.)

4.0 ACCOUNTING (2404)

4.1 Burdensharing (240401)

Burdensharing contributions shall be credited to one or more of the special fund accounts listed below which have been established in the U.S. Treasury for monetary contributions accepted by the Secretary of Defense or designee under Title 10 U.S.C., section 2350j.

4.1.1. Special Fund Receipt Accounts

97_5441.001 Burdensharing Contribution, Defense, Kuwait
97_5441.003 Burdensharing Contribution, Defense, Japan
97_5441.004 Burdensharing Contribution, Defense, South Korea
97_5441.005 Burdensharing Contribution, Defense, Qatar
97_5441.006 Burdensharing Contribution, Defense, United Kingdom

4.1.2. Special Fund Expenditure Account

97X5441 Expenditures (Only)

4.2 Overseas Relocation (240402)

Relocation contributions shall be credited to one or more of the following trust fund accounts which have been established in the U.S. Treasury for monetary contributions accepted by the Secretary of Defense or designee under Title 10 U.S.C., section 2350k.

4.2.1. Trust Fund Receipt Accounts

97_8337.001 Contributions from Kuwait, Host Nation Support for U.S. Relocation Activities

97_8337.003 Contributions from Japan, Host Nation Support for U.S. Relocation Activities

97_8337.004 Contributions from South Korea, Host Nation Support for U.S. Relocation Activities

97_8337.005 Contributions from Qatar, Host Nation Support for U.S. Relocation Activities

4.2.2. Trust Fund Expenditure Account

97X8337 Expenditures (Only)

4.2.3. The DFAS disbursing office or FSO shall transmit copies of deposit tickets for these investments to the DFAS-IN/JJAEAB. For tracking and computation of interest, contributions shall be tracked along with the earnings on each investment by country.

5.0 AVAILABILITY OF CONTRIBUTIONS (2405)

5.1 Burdensharing Contributions (240501)

5.1.1. Burdensharing contributions shall be available only for the payment of the following costs:

5.1.1.1. Compensation for the Department's local national employees,

5.1.1.2. Supplies and services required by the Department, and

5.1.1.3. DoD military construction projects.

5.1.1.3.1. USD(C) or designee written approval is required for the use of such contributions to carry out a military construction project that is consistent with the purposes for which the contributions were made and not otherwise authorized.

5.1.1.3.2. Such approval is also conditional upon a 21-day notice to the Congress as described in subparagraphs 6.1.4 and 6.1.5.

5.1.2. Burdensharing contributions normally shall be available only for the payment of costs in the country making the contribution. Local disbursement of burdensharing funds is authorized. In accordance with Title 10 U.S.C. 2350k, “out-of-country” expenditures shall be made only with the agreement of the contributing country and only for costs that are directly related to U.S. military activities in the contributing country.

5.1.3. If burdensharing contributions are to be used for personnel costs or supplies and services, prior approval of the cognizant Assistant Secretary (FM&C) or designee (such as the U.S. Forces Korea) is necessary before the expenditure of funds.

5.1.3.1. The organization receiving the funds shall submit the proposed distribution of the funds to the cognizant Assistant Secretary (FM&C) for approval.

5.1.3.2. The cognizant Assistant Secretary (FM&C) shall review the proposed distribution and, if approved, transmit the approved distribution to the DFAS-IN/JAFB, as well as to the submitting field component.

5.1.3.3. The field component shall prepare the necessary documentation to effect the disbursement of funds.

5.1.4. If the Department decides to use burdensharing contributions for a military construction project, the cognizant CINC shall forward a coordinated project proposal for approval to OUSD(C), ODC(P/B), Military Personnel and Construction (See subparagraph 2.4.2.2). Once the necessary coordination and approval process has been completed, the Military Personnel and Construction Directorate shall submit a report to the congressional defense oversight committees. The following information shall be included in the proposal:

5.1.4.1. An explanation of the need for the project,

5.1.4.2. The estimated cost of the project, and

5.1.4.3. A justification for carrying out the project.

5.1.5. The Department may not commence a military construction project until the end of a 21-day period that begins on the date that the OUSD(C) submits the required report to the appropriate congressional defense oversight committees.

5.2 Relocation Contributions (240502)

5.2.1. Relocation contributions are available only for costs incurred in connection with the relocation for which the contribution was made. Costs include:

5.2.1.1. Design and construction services;

5.2.1.2. Transportation, packing, unpacking, handling and storage;

5.2.1.3. Communications services;

5.2.1.4. Supply and administration;

5.2.1.5. Personnel costs (including TDY expenses and excluding salaries of permanently assigned military personnel); and,

5.2.1.6. Other expenses that are related directly to the relocation.

5.2.2. The organization receiving the relocation contribution shall submit information on the amount and the purpose of the contribution to the OUSD(C), ODC (P/B), Operations Directorate (see subparagraph 2.4.1.6). Courtesy copies shall be provided to the Military Personnel and Construction Directorate (see subparagraph 2.4.2.2) when contributions are made for construction projects.

5.2.3. The organization receiving the contribution is responsible for preparing the necessary documentation for the disbursing transaction. The DFAS-IN/JJAEAB, however, shall be notified at least 1 business day in advance of disbursement so securities can be sold to finance the payments. The date of each payment and the specific country's funds being utilized must be identified.

6.0 REPORTING REQUIREMENTS (2406)

6.1 Amount and Purpose for Expended Contributions (240601)

No later than 10 days after the end of each fiscal year, the DoD Components shall report, to the DFAS-IN/JAFB, the amount of and the purpose for expended contributions.

6.2 Report for Defense Congressional Oversight Committees (240602)

No later than 20 days after the end of each fiscal year, the DFAS-IN/JJAEAB shall prepare and forward to the OUSD(C), ODC (P/B), Operations Directorate, a report for submission to the applicable defense congressional oversight committees. Those committees are: the Committees on Armed Services of the House of Representatives and the Senate, and the Committees on Appropriations of the House of Representatives and the Senate. The report shall include the following information for each country and regional organization from which contributions were accepted:

6.2.1. The amount of the contribution accepted during the preceding fiscal year under Title 10 U.S.C., sections 2350j and 2350k, and the purposes for which the contributions were made, and

6.2.2. The amount of the contributions expended during the preceding fiscal year under Title 10 U.S.C., sections 2350j and 2350k, and the purposes for which the contributions were expended.

CHAPTER 25

DISPOSITION OF NON-DoD PERSONAL PROPERTY

1.0 GENERAL

1.1 Purpose

This chapter prescribes the policy for the disposition of lost, abandoned, or unclaimed non-Department of Defense (DoD) personal property and the personal property of deceased members of the Armed Forces. This policy applies when disposing of non-DoD personal property under the jurisdiction of a Military Department, or the Department of Homeland Security as prescribed in Title 10, United States Code, section 2575 ([10 U.S.C. § 2575](#)).

1.2 Authoritative Guidance

The financial management policy and related requirements prescribed by this chapter are in accordance with the applicable provisions of:

1.2.1. 10 U.S.C. § 2575, “Disposition of unclaimed property”;

1.2.2. [10 U.S.C. § 7712](#), “Disposition of effects of deceased persons by summary court – martial”;

1.2.3. [10 U.S.C. § 8392](#), “Disposition of effects”; and

1.2.4. [10 U.S.C. § 9712](#), “Disposition of effects of deceased persons by summary court – martial.”

2.0 DISPOSITION OF UNCLAIMED PROPERTY

2.1 General Policy

2.1.1. The Secretary of any Military Department, and the Secretary of Homeland Security, under such regulations as they may respectively prescribe, may each by public or private sale or otherwise, dispose of all lost, abandoned, or unclaimed personal property that comes into the custody or control of the Secretary’s department, other than property subject to 10 U.S.C. §§ 7712, 8392, or 9712. Property subject to paragraph 2.3 is exempted from the requirements. Requirements for the disposition of personal property of deceased members of the Army and Air Force are in section 3.0 Requirements for the disposition of personal property of deceased members of the Navy and Marine Corps are in section 4.0.

2.1.2. Property may not be disposed of until a diligent effort has been made to find the owner (or the heirs, next of kin, or legal representative of the owner). A diligent effort to find the owner (or the heirs, next of kin, or legal representative of the owner) must begin, to the maximum extent practicable, not later than 7 days after the date on which the property comes into the custody

or control of the Secretary having immediate jurisdiction. The period for which that effort is continued must not exceed 45 days.

2.1.3. Notice of the time and place of the intended sale or other disposition must be sent by certified or registered mail to the applicable owner (or heirs, next of kin, or legal representative of the owner) at their last known address. If the owner (or the heirs, next of kin, or legal representative of the owner) is determined but not found, the property may not be disposed of until the expiration of 45 days after the date the notice is sent to the owner (or the heirs, next of kin, or legal representative of the owner).

2.1.4. When a diligent effort to determine the owner (or heirs, next of kin, or legal representative of the owner) is unsuccessful, the property may be disposed of without delay. If the property has a fair market value of more than \$300, it may not be disposed of until 45 days after the date it is received at the point of storage designated by the Secretary.

2.2 Distribution of Proceeds

The proceeds from the sale of lost, abandoned, or unclaimed personal property found on a military installation, must be credited to the operation and maintenance account that funds the operations of that installation and be used to reimburse the installation for any costs incurred during the collection, transportation, storage, protection, or selling of the property. Any proceeds which remain after the reimbursement of installation expenses must be utilized to support morale, welfare, and recreation activities under the jurisdiction of the armed forces that are conducted for the comfort, pleasure, contentment, or physical or mental improvement of members of the armed forces at such installation. The net proceeds from the sale of other property under paragraph 2.1 must be deposited into the U.S. Department of the Treasury (Treasury) as miscellaneous receipts.

2.3 Restrictions

No property covered by this section may be delivered to the Armed Forces Retirement Home by the Secretary of a Military Department, except papers of value, sabers, insignia, decorations, medals, watches, trinkets, manuscripts, and other articles valuable chiefly as keepsakes.

2.4 Claims for Proceeds

The owner (or heirs, next of kin, or legal representative of the owner) of personal property whose proceeds were credited to a military installation may file a claim with the Secretary of Defense for an amount equal to the proceeds less costs referred to in paragraph 2.2. Amounts to pay the claim must be drawn from the morale, welfare, and recreation account for the installation that received the proceeds. The owner (or heirs, next of kin, or legal representative of the owner) may file a claim with the Secretary of Defense for proceeds deposited at Treasury as well. Unless a claim is filed under this section within 5 years after the date of the disposal of the property to which the claim relates, the claim may not be considered by either the Secretary of Defense or a court. The responsibility of the Secretary of Defense to consider such claims has been delegated to the Under Secretary of Defense (Personnel and Readiness).

3.0 ARMY AND AIR FORCE DISPOSITION OF PERSONAL PROPERTY OF DECEASED MEMBERS

3.1 General Policy

Upon the death of a person subject to military law and under the jurisdiction of the Army or Air Force, or upon the death of a resident of the Armed Forces Retirement Home; the commanding officer must permit the legal representative or the surviving spouse of the deceased, if present, to take possession of the effects of the deceased that are then in camp, air base, or quarters. If there is no legal representative or surviving spouse present, the commanding officer must direct a summary court-martial to collect the effects of the deceased that are then in camp, air base, or quarters. The summary court-martial may collect debts due the decedent by local debtors and pay undisputed local creditors of the deceased (to the extent permitted by the monetary assets of the deceased in the court's possession). Receipts for payments made from the estate of the deceased must be filed with the court's final report to the Department of the Army or Air Force.

3.2 Distribution of Personal Property

As soon as practicable after the collection of the personal effects and monetary assets of the deceased, the summary court-martial must, at the expense of the United States, send the personal effects and monetary assets to one of the living persons, in the order of precedence shown on the following list, who is found by the court:

- 3.2.1. The surviving spouse or legal representative.
- 3.2.2. A child of the deceased.
- 3.2.3. A parent of the deceased.
- 3.2.4. A brother or sister of the deceased.
- 3.2.5. The closest next of kin of the deceased.
- 3.2.6. The beneficiary named in the will of the deceased.

3.3 Time Limits

If the summary court-martial cannot dispose of the effects as stated in paragraph 3.2 because there are no persons in any of the categories listed, or because the addresses of such persons are not known or are not available, the court may convert the effects of the deceased into cash by public or private sale. However, the sale may not occur until 30 days after the date of death of the deceased. Items listed in paragraph 2.3 may not be sold.

3.4 Final Disposition of Personal Effects

As soon as practicable after the effects have been converted into cash, the summary court-martial must relinquish custody of all cash and all receipts relating to cash transactions to the executive part of the Department of the Army or Air Force. Wills or other papers of value, an inventory of personal effects, and articles whose sale is not permissible also must be placed under the jurisdiction of the executive part of the Service of which the deceased was a member. All items received by the executive part of the Army or Air Force must be delivered to the Armed Forces Retirement Home.

4.0 NAVY AND MARINE CORPS DISPOSITION OF PERSONAL PROPERTY OF DECEASED MEMBERS

4.1 General Policy

The Secretary of the Navy must retain custody of money or other personal property of a deceased member of the Naval Service and make a diligent effort to determine and locate the heirs or next of kin of the deceased member. Property remaining unclaimed 2 years after the death of the member must be sold, and the proceeds, together with any other monetary assets of the member held in custody, must be deposited into the Treasury as miscellaneous receipts.

4.2 Recoupment

Within 5 years after the date the money and proceeds are deposited into the Treasury, any claim that is presented, and supported by competent proof, must be certified to Congress for consideration. [After](#) the 5-year period, claims may not be accepted, and the requestor must be notified that the time limit for submitting a claim has expired.

CHAPTER 29

ADMINISTERING, USING, AND ACCOUNTING FOR SEIZED AND/OR VESTED FUNDS AND PROPERTY DURING CONTINGENCY OPERATIONS

ANNEX 1 SHIPMENT AND DISTRIBUTION OF FUNDS DURING CONTINGENCY OPERATIONS

A. Purpose and Applicability

This annex addresses the duties, responsibilities, and procedures to be followed by the host nations, Office of the Under Secretary of Defense (Comptroller) (OUSD(C)), and the designated Executive Agent when requesting and shipping vested funds to host nations.

B. Responsibilities

The administrator of the host nation, along with OUSD(C) and the Executive Agent will coordinate, request, document and arrange for the shipment of vested funds to the host nation.

C. Definitions

1. Contingency operations include, but are not limited to, support for peacekeeping operations, major humanitarian assistance efforts, noncombatant evacuation operations, and international disaster relief efforts.

2. Host nation is a nation that receives the forces and/or supplies of allied nations, and/or coalition partners to be located on, to operate in or to transit through its territory.

3. Coalition Forces are defined as a temporary alliance of factions, nations, or countries, for a specific purpose, in times of international conflict or war.

4. Executive Agent is the head of a Department of Defense (DoD) Component to whom the Secretary of Defense or the Deputy Secretary of Defense has assigned specific responsibilities, functions, and authorities to provide defined levels of support for operational missions, or administrative or other designated activities that involve two or more of the DoD Components.

5. Interim government is defined as a temporary government formed by the host nations or allies until a permanent government can be installed by the local people.

6. Vested assets are those frozen by Presidential Executive Order and vested with the U.S. Department of Treasury (Treasury) for return to the host nation.

7. Spending plan is a plan describing the purposes and the amounts of proposed expenditures of vested and seized property, developed by the host nation or the interim government, and submitted through appropriate channels for approval.

D. Procedures

1. The administrator of the host nation will make a determination that vested funds are needed for a specific purpose or objective.

2. After the determination is made, the host nation's comptroller will notify the OUSD(C) to create the necessary funding documents. The host nation's comptroller will also provide OUSD(C) with the host nation approved spending plans, supporting the distribution of the funds. The host nation's comptroller will identify the amount of money required along with the quantity of each denomination.

3. OUSD(C) will notify Treasury that cash is needed. When possible, the host nation's comptroller will give the OUSD(C) and Treasury at least a 10-day advance notice of when the money is needed in country. The Treasury will notify the Federal Reserve Board. The Federal Reserve Board will work with the designated Federal Reserve Bank to procure the amount of money needed and denominations as requested.

4. The host nation's comptroller, in coordination with the Executive Agent, is responsible for coordinating the delivery date and location where the money is to be delivered to allow for a maximum force protection posture keeping in mind customs, requirements and coordination with the host nation. The designated Executive Agent will coordinate with the Surface Deployment and Distribution Command to arrange transportation, security and loading of aircraft at the designated debarkation point to meet the host nation's desired delivery date.

5. The designated Executive Agent will provide the flight number and arrival time in country to the designated receiving disbursing officer and to the host nation to ensure security and logistical assets are available to off-load the currency.

6. The Executive Agent's financial operation's designee will ensure security and logistical assets are available to off-load the currency.

7. The Federal Reserve Board will notify the contracted armored carrier service to escort the money to the designated military installation. When the shipment arrives at the designated military installation, the accountable individual will be a military officer assigned to accompany the flight to the appointed airport.

8. Once at the designated military installation, the money is verified, arranged on pallets and shrink-wrapped to prevent loss and ensure accountability during shipment. The money is then loaded onto available military aircraft and escorted by two designated couriers. The accountable individual has accountability for the money from the designated shipping point to designated receiving point.

9. Accountability will transfer from the accountable individual to the designated custodian for host nation funds or disbursing officer's representative, at the designated receiving point upon verification of funds.

ANNEX 2 DUTIES UPON ASSUMING POSSESSION OF FUNDS AND/OR PROPERTY**A. Purpose and Applicability**

1. This annex addresses the duties, responsibilities, and general procedures to be followed by the Coalition Forces upon discovery, possession, seizure, or receipt of funds and/or property. Specific procedures to ensure accountability and transparency of vested and seized property must be developed to accommodate each unique contingency operation. Policy memorandums specific to each on-going contingency operation will be maintained on the DoD Financial Management Regulation website at [DoD FMR Policy Memoranda](#), Volume 12, Special Accounts, Funds and Programs.

2. The designated Executive Agent shall coordinate with the OUSD(C) to develop specific procedures upon the notification of pending contingency operations. Such procedures will apply to all parties involved in the area(s) of operations for the specific contingency operations as specified in the policy memorandum.

B. Responsibilities

1. Command Responsibility. It is the obligation of the Combatant Commander and subordinate commanders at all levels to ensure all local regime or private property, cash, or other valuables seized, received, or otherwise taken into possession are properly secured, safeguarded, controlled and accounted for.

2. Individual Responsibility. It is the responsibility and obligation of all Coalition Forces personnel to: (1) notify superiors in a timely manner of any property seized or received; (2) keep records of and account for such property; and (3) properly secure, safeguard, and control the property in their physical possession. If required, assist other assigned or responsible personnel in the conduct of their duties to secure and safeguard such property or assets.

3. Custodial Responsibility. This responsibility can be either formally assigned or it may be an inherent responsibility derived from command authority. Custodians shall take all necessary and prudent actions to properly secure, control, account for, and safeguard property that comes into their physical possession.

4. Accountable Individual. An accountable individual will be appointed by the commander of the Coalition Forces (Detachment, Company, Battalion or equivalent activity) that originally finds, seizes, secures, or otherwise takes possession of public or private property, cash, or valuables. The accountable individual may be a Coalition Forces commissioned or warrant officer or a properly qualified Coalition Forces civilian manager detailed or attached to the activity. The accountable individual will: maintain formal property, inventory, and accounting

records that show, on a continuing basis, the identification or description of the items held, the physical count of cash and face value of currency and securities held by denomination, record of all gains or losses and on-hand balances, the conditions and locations of all property assigned or in possession, and evidence of the chain of custody maintained from time of first receipt or possession (by hand receipt or other record).

C. Definitions

Seized funds are cash and property confiscated by coalition forces during military operations and governed by the laws and usages of war. Normally captured foreign currency shall be delivered promptly into the custody of the State Department's United States Disbursing Officer (USDO) supporting the particular country involved. Any DoD DO acquiring captured foreign currency shall ensure the funds are safeguarded and delivered to the USDO as soon as possible. Captured foreign currency shall not be collected into the DOs accountability as prescribed in Volume 5, Definitions.

D. Procedures

1. Secure the property. Use armed guards or other appropriate forms of control as necessary.

2. The ranking military member present when the property is secured automatically becomes the accountable individual with custodial responsibility.

3 Conduct and document a physical inventory of the property. Establish a custodial record, using and modifying DA Form 4137 (Evidence/Property Custody Document) (Figure 2-1) as appropriate.

4. Remove the property, using appropriate care and security, to a controlled area and deliver to an accountable officer.

5. The accountable individual will deliver the property in the form of cash, jewels, precious metals or other items of value to the nearest disbursing officer or disbursing officer's representative. Upon receipt, the disbursing officer or DO representative shall become the designated custodian official for the cash, jewels, and precious metals. All other property should be handled through established logistics channels. If the seized assets have been designated to be collected into a trust fund, the DO will take them into his accountability. The DO will safeguard and account for the assets as prescribed in Volume 5, Chapter 16.

6. This accountable individual shall establish the appropriate accounting records.

7. Officers with custodial responsibility shall take all prudent and necessary steps to accomplish their responsibilities in this area, including observing and controlling the actions of subordinates, as needed, to safeguard property in their custody.

E. Determination of Public or Private Property Status

1. The location where the property was discovered or obtained must be considered in determining whether property is public or private. It is important that the officers with custodial responsibility document the location and circumstances under which property was obtained. In general, property obtained or seized at palaces or government ministry offices or other government compounds will be assumed to be the local regime assets. Property discovered in private residences or commercial locations or in rural locations will be initially assumed to be private assets. If what appears to be stocks or concentrations of looted goods are discovered, this property will initially be considered public.

2. Any additional documentation found with or adjacent to property may be used in the process of making a final determination on the status of the property. This documentation could include such items as records, invoices, vouchers, inventory lists, letters, or other forms of property identification. The officer initially charged with custodial responsibility will be required to make the determination as to the relevance of any documentation found with or in the vicinity of property recovered or seized. Should the documentation be deemed relevant, the officer charged with custodial responsibility will secure and include that documentation along with the property seized.

3. When property is seized from banks or other financial institutions, the custodial officer will secure and include all available, relevant documentation that will assist in the final determination of the status of the property. Other sources of information can be used to assist in these cases, including but not limited to, intelligence information and records obtained at government ministries describing banking or financial institutions used by the regime as part of their government financial system. Final determinations of the status of any seized assets or property will be made in conjunction with U.S. and Coalition Forces legal authorities.

ANNEX 3 FINANCIAL RECORDS RETENTION AND DISPOSITION DURING CONTINGENCY OPERATIONS**A. Purpose and Applicability**

This annex provides guidance on the submission of necessary documents and reports during contingency operations in order to provide pertinent information to the designated accounting site. It addresses the duties, responsibilities, and procedures to be followed by the disbursing officers and certifying officers when providing disbursement services during contingency operations.

B. Responsibilities

The disbursing officer or his designee shall ensure that all original disbursing officer records and associated papers are retained as government property as cited in Volume 5, Chapter 15. These records shall be readily accessible to the disbursing officer for 6-years period consistent with guidance in the National Archives and Records Administration, [*General Records Schedules*](#) or in accordance with the specific record schedules authorized for their DoD Components. Extension to this record retention period may be warranted on a case-by-case basis.

C. Procedures

1. All disbursing officers will keep a daily report of all transactions processed.
2. All disbursement documents shall be supported by either hard copy or readable machine source records to ensure that:
 - a. A legal obligation to pay exists (typically a contract);
 - b. The payee has fulfilled any prerequisites to payment (typically an invoice and receiving report);
 - c. The amount of the payment and identity of the payee are correct;
 - d. The payment is legal under the appropriation or fund involved (typically the correct fiscal year and appropriation); and
 - e. The documentation links together all records and supports an audit of certifying and disbursing officer transactions as required by law. In addition, a copy of the spending plan must be retained with the original disbursement vouchers.
3. If disbursements are made in cash, the voucher should be receipted by the vendors and/or receipts from the vendors should be attached to the vouchers.

4. The designated accounting site must issue specific accounting and document retention and disposition requirements for paid vouchers. These requirements must be satisfied within 30 days of the payment.

5. The original collection and disbursement vouchers shall be forwarded with the DD Form 2657 (Daily Statement of Accountability) to the designated accounting site as soon as possible after the close of the business day. Disbursing officers shall take extra precautions to ensure that all copies prepared for distribution are completely legible. Additional guidance on the assembly and transmittal of financial reports can be found in Volume 5, Chapter 15.

6. Original paid vouchers shall be safeguarded consistent with standard security regulations prescribed in Volume 5, Chapter 3.

7. Payments using vested and seized funds shall be made and documented consistent with Volume 5, Chapter 9.

8. All vested and seized funds shall be delivered, transported and safeguarded consistent with Volume 5, Chapter 3.

ANNEX 4 DEVELOPMENT OF FUNDING REQUIREMENTS FOR VESTED AND SEIZED PROPERTY**A. Purpose and Applicability**

This annex addresses the duties, responsibilities, and procedures to be followed by the government or designated interim government when working to identify and develop requirements for spending plans in restoring and rebuilding the host country for its people. There may be multiple funding sources available for the purpose of stabilization, reconstruction and humanitarian assistance for the benefit of the local people.

B. Responsibilities

1. It is the responsibility of the appointed/designated officials and coalition commanders to explain the requirements for obtaining vested and seized property for projects that achieve the mission of the designated government.

2. Local designated governmental officials and coalition commanders are responsible for requesting funding from vested and seized assets to accomplish approved projects and requirements by submitting the appropriate funding request form to the designated review board.

3. The majority of funding requirements are expected to be included in the interim government budgets. However, unanticipated or emergency requests will be accepted by the designated review board for consideration. The local government offices shall prepare complete funding request forms to request funding for requirements not addressed in budget submissions.

C. Procedures

1. The funding request form will be reviewed in accordance with the interim government process for the allocation of funds. The designated committee, will conduct the initial review of all program funding requests and project submissions, categorize them, and make recommendations to the designated review board for the allocation of vested and seized funds. The designated review board is responsible for preparing and submitting allocation requests to the Administrator for approval. The designated review board requests will include proposed allocations of available resources. The specific roles, responsibilities, and membership of the interim government designate review board will be determined at the formation of the interim government. For approved projects using Seized and Vested Assets, the interim government is the final authority. After the interim government approval, the interim government comptroller will provide the appropriate funding form and related decision documents to the OUSD(C) and the designated Executive Agent budget office.

2. Once funding requests are approved by the Administrator, the requestor must submit a completed Standard Form 1034 (Public Voucher for Purchases and Services Other Than Personal), along with a spending plan to the interim government comptroller for the

disbursement of funds. A spending plan is a plan describing the purposes and amounts of proposed expenditures of vested and seized property, developed by the host nation or the interim government, and submitted through appropriate channels for approval.

ANNEX 5 ALLOCATION, DISBURSEMENT, AND FINANCIAL REPORTING OF VESTED AND SEIZED PROPERTY**A. Purpose and Applicability**

This annex applies to all parties involved in the receiving, disbursing, accounting for, securing, and reporting of vested and seized property. Specific procedures to accommodate each contingency operation must be developed to ensure accountability and transparency of vested and seized property. Policy memorandums specific to each on-going contingency operation will be maintained on the Department of Defense Financial Management Regulation website at Volume 12, Special Accounts, Funds and Programs; Policy Memorandums.

B. Responsibilities

1. Coalition Government Responsibility. The coalition government (or interim government) is responsible for identifying program requirements, identifying appropriate funding sources for requirements, initiating reprogramming actions when needed, maintaining program accountability, fund certification, certifying receipt of goods, services, and payroll, and certifying disbursement of funds.

2. The Designated Executive Agent (Resource Management) Responsibility. The Executive Agent (Resource Management) is responsible for:

- a. Providing commitment accounting support documentation;
- b. Providing obligation transactions input to the designated accounting site for processing into the appropriate accounting system;
- c. Monitoring fund execution; and
- d. Certifying all required financial reports.

3. Disbursing Officer (DO) Responsibility. The DO is responsible for:

- a. Processing DD Form 1131 (Cash Collection Voucher) for seized assets and SF 5515 (Debit Voucher) for vested assets to increase cash balances;
- b. Disbursing cash to host nation authorized payees;
- c. Processing disbursements in the appropriate disbursing system; and
- d. Transferring SF 1034s (Public Voucher for Purchases and Services Other Than Personal) and SF 44s (Purchase Order-Invoice-Voucher) and support documents to the designated accounting site promptly.

4. The Designated Accounting Site. The designated accounting site shall maintain the accounting database and prepare, certify, and process SF 1081s (Voucher and Schedule of Withdrawal and Credits) based upon receipt of the Funding Authorization Documents (FADs); post disbursement and obligation transactions processed by the designated disbursing office to the appropriate accounting system; and maintain documentation for future review and audit. In addition, to record an increase in the DO's accountability under general ledger control, the designated accounting site will prepare an Optional Form 1017-G – Journal Voucher (OF 1017-G, Figure 5-1) upon receipt of the monthly SF 1219 (Statement of Accountability) from the DO.

C. Procedures

1. Program Control Procedures

a. Specific procedures shall be developed to accommodate the unique circumstance of each contingency operation.

b. Cash accountability will be maintained on the DO's DD 2657 (Daily Statement of Accountability) and monthly SF 1219.

c. The designated accounting site will determine the appropriate accounting system to be used as the book of original entry.

d. The Executive Agent shall monitor execution of funds.

e. All collections and disbursement transactions are reported on the disbursing officer's SF 1219 (Statement of Accountability).

2. Funds Management Procedures

a. Fiscal Coding and Management Structure. The Executive Agent, in coordination with the designated accounting site, will establish the fiscal coding and management structure, including monthly and annual reporting levels, budget activities, and project codes. The coding structure and budget activities are established per Treasury and the Office of Management and Budget guidance received and in coordination with the host nation.

b. Vested Assets. Vested assets are funds vested in Treasury by operations of domestic law. A special Treasury General Fund Account Symbol shall be used to record cash deposits and disbursements of vested funds. This unique account shall be used only for the purpose designated for the use of vested funds.

c. Seized Assets. Seized funds are cash and property confiscated by coalition forces during military operations and governed by the laws and usages of war. A special Treasury Deposit Fund Account Symbol shall be used to record seized assets after

validation by the designated Federal Reserve Bank. This unique account shall be used only for the purpose designated for the use of seized funds.

d. Detailed Accounting Codes. The host nation's comptroller shall request detailed accounting transaction codes through the Executive Agent's headquarters, from the designated accounting site, based on the fiscal coding and management structure established.

3. Disbursing Operations and Cash Accountability Procedures

a. The coalition government must provide certifying official appointment letters and signature cards, DD Form 577 (Appointment/Termination Record – Authorized Signature) to the DO for all host nation personnel that will certify SF 44s or SF 1034s for payments.

b. Prior to disbursing, the coalition government shall obtain validated, detailed documentation to support payment of payrolls, utilities, and other goods and services from the designated host nation officials. For accountability purposes, supporting documentation from automated local payment systems should be used if they are determined to be available and adequate. The coalition government shall obtain from host nation officials organizational listing(s) of individuals authorized to receive payment at the designated payment site(s), and the amount each individual is to be paid. The host nation will certify the payment vouchers and present to the DO for payment. The DO and the host nation shall follow customary local practices for validation of, and payment for, normal and/or recurring utilities and other goods and services. The host nation will ensure adequate controls are in place by utilizing supporting documentation from local officials to ensure goods and services were received.

c. The host nation shall prepare and submit a memorandum to the DO, including the date, time, location, number of payees, and amount of money to be disbursed at each site. The DO shall disburse funds based on the amount of the certified voucher. The designated disbursing or paying agent will provide supporting documentation for the additional funds. The DO will advance funding to the disbursing or paying agent via a DD Form 1081 (Statement of Agent's Accountability). After the paying agent has finished making payments, he/she will use the payroll plus any additional payments added to the payroll to balance with the DO.

d. The host nation's representative appointed as the certifying official will certify the payment(s), and will date and sign the payment voucher.

e. Payments made using seized and vested funds shall be certified in a manner consistent with Volume 5, Chapter 5.

f. Paying agents responsible for making disbursements of vested and seized funds shall be appointed consistent with Volume 5, Chapter 2.

4. Delivery of Funds Procedures

a. A host nation's fund custodian or paying agent will deliver the funds to the designated pay site(s). Designated cashiers or designated local representatives will sign a receipt acknowledging receiving the funds and make payments at the designated pay site(s). The cashiers will acknowledge receipt from the disbursing agent on a DD Form 1081. Designated host nation representatives will verify the amount and date, and then sign as the payee on the SF 1034 or SF 44. The host nation appointed task force will ensure, insofar as practicable, that designated coalition representatives properly secure funds at the designated pay site(s) and/or while transporting funds to remote sites.

b. The cashiers and/or designated host nation representatives shall disburse funds to designated individuals or service providers. All disbursements shall be documented with a certified voucher with supporting documentation to validate who received the funds and the purpose that the funds will be used.

(1) For Payrolls. Individuals must present proper/valid identification, and acknowledge receipt of payment by signing the payroll list or other appropriate form.

(2) For Payment of Utilities and Other Goods and Services. The host nation shall appoint paying agents in accordance with Volume 5, Chapter 2. The DO shall brief all cashiers and paying agents on their responsibilities and pecuniary liability for funds. A properly certified voucher with supporting documentation (receipt and invoice) must be presented when disbursing for other than payroll.

c. Paying agents will be advanced funds on a DD Form 1081, "Statement of Agent Accountability". The paying agent will disburse funds based on a properly certified SF 44 or SF 1034. Any funds not disbursed that are remaining after the mission is completed and all disbursements have made will be returned to the DO using a DD Form 1081 and DD Form 2665. The paying agent will use the certified disbursed vouchers to balance with the remaining funds and the advancing DD Form 1081. The host nation comptroller will conduct weekly reviews of any balances on hand at the designated local payment sites. The host nation comptroller shall also review supporting documentation to validate beginning balances, all disbursements and ending cash balances. The host nation comptroller shall verify cash on-hand matches the ending cash balance and that the funds are properly secured. Any funds returned from the designated local payment sites to the host nation comptroller will be collected into the DO's accountability using a DD Form 1131.

5. Paying Operations Procedures

a. Purchasing Officer Appointments. The host nation contracting activity must appoint purchasing officers. Purchasing officers are appointed to purchase goods and services, and are authorized to make such purchases via the SF 44.

b. Paying Agent Appointments. Paying agents must be appointed to pay for commercial services or supplies in support of purchasing officers.

- (1) Requests for paying agents must be made in writing to the DO.
- (2) Host nation commanders authorized to appoint paying agents shall do so in writing in accordance with Volume 5, Chapter 2. The DO must appoint cashiers from the local finance command. The DO shall brief them on the responsibilities and potential pecuniary liability for funds.
- (3) Paying agent appointments may be for either a specific transaction or a specified period of time.
- (4) Appointed paying agents may not serve concurrently as purchasing officers and may not be charged with the handling or custody of any other funds.

6. Disbursing Procedures

- a. The host nation comptroller shall prepare a memorandum to the DO providing date, time, location, number of paying agents, names of the paying agents, and amount of money to be disbursed to each paying agent.
- b. The DO or disbursing agent will advance the funds to the appointed paying agent(s) using DD Form 1081. The paying agent shall sign the DD Form 1081 as a receipt for the funds.
- c. The paying agent will disburse funds in accordance with the purchasing officer's authorization. The purchasing officer and the paying agent will use the SF 44 to make purchases and payments. The purchasing officer will sign and certify the SF 44.
- d. The SF 44 must be signed by the paying agent and the individual receiving the funds.
- e. The paying agent must keep the original SF 44 with all signatures. Upon mission completion, the paying agent must return all supporting documentation (e.g., original receipts and SF 44s) and remaining cash to the DO in country or designated government financial activity in order to clear the DD Form 1081.
- f. The host nation comptroller will authorize any replenishment of funds. The host nation comptroller certifying official must prepare another memorandum to the DO requesting additional funds. A new DD Form 1081 will be prepared by the DO.
- g. Imprest fund cashiers will not be utilized. Purchasing agents appointed by the host nation comptroller-designated government procurement activity will be used to make small purchases, as needed. Disbursing agents will disburse payments based on certified vouchers provided by an appointed certifying officer.

7. Reconciliation Procedures

a. The host nation comptroller and designated accounting site shall conduct a joint reconciliation of commitments and obligations in accordance with Volume 3, Chapter 8. Additionally, the DO and designated accounting site will need to follow existing requirements associated with reporting and reconciliation of DO deposit fund accounts.

b. The DO and cashiers shall follow standard daily balancing procedures as identified in the Volume 5, Chapter 15. Additionally, quarterly cash verifications will be conducted in accordance with Volume 5, Chapter 3.

c. The host nation reports required in Annex 7 will require reconciliation of Program Review Board approved projects versus disbursements.

8. Audits and Program Reviews

The administration, use, and accounting of seized and vested assets will be subject to periodic audits by the Department of Defense's internal audit organizations, including the Office of Inspector General, as well as external organizations such as the Government Accountability Office and congressional oversight committees. All officials responsible for administering vested and seized assets shall cooperate fully with any review, audit, or investigation conducted by such organization.

ANNEX 6 MONTHLY INVENTORY REPORT OF SEIZED PROPERTY

A. Purpose and Applicability

This annex addresses the duties, responsibilities and procedures to be followed by the designated DO or designated government financial activity supporting the host nation's interim government in preparing monthly reporting of vested and seized property.

B. Responsibilities

The designated Executive Agent having custody of the seized assets shall prepare monthly reports describing all vested and seized property in the possession of host nation officials. These reports shall distinguish between vested and seized property.

The designated Executive Agent having custody of the seized assets shall submit the monthly reports under cover memorandum to the host nation and the OUSD(C), with copies furnished to the Principal Deputy Under Secretary of Defense (Comptroller), and the Director, the appointed Executive Agent's Resource Management Directorate no later than close of the fifth business day of the month following the month being reported.

C. Reporting Procedures

1. Follow the attached sample report format (Figure 6-1).

2. Instructions

a. Report Title - enter the name of the month and the year in the title of the report.

b. Line 1.A.1 – enter the beginning balance of the vested cash in possession of U.S. government officials. After the first monthly report, the beginning balance will be the ending balance of the previous month (e.g., the beginning balance for June will be the ending balance from May).

c. Line 1.A.2 – enter the amount of vested cash disbursed during the month being reported.

d. Line 1.A.3 – enter the amount of vested cash deposited to financial institutions and no longer in the possession of host nation officials.

e. Line 1.A.4 - enter the amount of collections.

f. Line 1.A.4.1 - this line will include the amount of cash collected back into the disbursing office.

g. Line 1.A.4.2 - enter the amount of vested cash collected during the month.

h. Line 1.A.5 - enter the total of Line 1.A.1 minus Line 1.A.2 minus Line 1.A.3 plus Line 1.A.4.1 plus Line 1.A.4.2 (Line 1.A.1 – Line 1.A.2 – Line 1.A.3 + Line 1.A.4.1 + Line 1.A.4.2). This is the amount of newly vested cash in the possession of host nation officials.

i. Table 1.B – Non-Cash Assets Vested and Divested – provide, in table format, a listing of vested non-cash property by category (e.g., jewelry, arms, equipment, artwork, etc.), a brief description and item count for such property in the possession of host nation officials. This table shall include a cumulative listing of all vested non-cash property in the possession of host nation officials.

(1) Column 1 – enter the category of the non-cash property.

(2) Column 2 – enter a brief description of the items within the category in Column 1.

(3) Column 3 – enter the beginning count of items in the possession of host nation officials. After the first monthly report, the beginning balance will be the ending balance of the previous month (e.g., the June beginning balance will be the May ending balance).

(4) Column 4 – enter the entity to which the host nation official divested the non-cash property.

(5) Column 5 – enter the count of items divested.

(6) Column 6 – enter the sum of Column 3 minus Column 5 (Column 3 – Column 5).

j. Line 2.A.1 – enter the beginning amount of seized cash (US dollars) in the possession of host nation officials. After the first monthly report, the beginning balance will be the ending balance of the previous month (e.g., the beginning balance for June will be the ending balance from May).

k. Line 2.A.2 – enter the amount of seized cash (U.S. dollars) verified as authentic currency during the reporting period and available for disbursement.

l. Line 2.A.3 – enter the amount of seized cash verified as counterfeit.

m. Line 2.A.4 – enter the sum of Line 2.A.1 minus Line 2.A.2 minus Line 2.A.3 (i.e., Line 2.A.1 – Line 2.A.2 – Line 2.A.3). This amount represents the amount of seized cash (U.S. dollars) in the possession of host nation officials that has not been verified as authentic currency and available for disbursement.

n. Line 2.A.5 – for the first monthly report enter 0.00 (zero). After the first monthly report, the beginning balance will be the ending balance of the previous month (e.g., the beginning balance for June will be the ending balance from May).

o. Line 2.A.6 – enter the amount of seized cash (U.S. dollars) verified as authentic currency during the month and available for disbursement.

p. Line 2.A.7 - enter the amount of seized cash (U.S. dollars) disbursed during the month being reported.

q. Line 2.A.8 – enter the amount of seized cash (U.S. dollars) deposited to financial institutions and no longer in the possession of host nation officials.

r. Line 2.A.9 – enter the amount of seized cash (U.S. dollars) collected during the month. This amount will include the amount of cash collected back into the disbursing office.

s. Line 2.A.10 – enter the sum of Line 2.A.5 minus Line 2.A.6 minus Line 2.A.7 plus Line 2.A.8 plus Line 2.A.9 (i.e., Line 2.A.5 – Line 2.A.6 – Line 2.A.7 + Line 2.A.8 + Line 2.A.9).

t. Table 2.B – Coin/Currency (Non-U.S. dollars) – enter, in table format, a listing of seized coin/currency (Non-U.S. dollars), by country, monetary unit (franc, pound, Canadian dollar, etc.) and amount, in the possession of host nation officials.

(1) Column 1 – enter the name of the country and monetary unit of seized coin/currency (Non-U.S. dollars) in the possession of host nation officials.

(2) Column 2 – enter the beginning count of items in the possession of host nation officials. After the first monthly report, the beginning balance will be the ending balance of the previous month (e.g., the June beginning balance will be the May ending balance).

(3) Column 3 – enter the entity to which the host nation official released the coin/currency (Non-U.S. dollars).

(4) Column 4 – enter the amount of the coin/currency (Non-U.S. dollars) released.

(5) Column 5 – enter the sum of Column 2 minus Column 4 (Column 2 – Column 4).

u. Table 2.C – Non-Cash Assets – enter, in table format, a listing of seized non-cash property by category (e.g., jewelry, arms, equipment, artwork, etc.), a brief description and item count in the possession of host nation officials.

(1) Column 1 – enter the category of the non-cash assets.

(2) Column 2 – enter a brief description of the items within the category in Column 1.

(3) Column 3 – enter the beginning count of items in the possession of host nation officials. After the first monthly report, the beginning balance will be the ending balance of the previous month (e.g., the June beginning balance will be the May ending balance).

(4) Column 4 – enter the entity to which the host nation official released the non-cash assets.

(5) Column 5 – enter the count of items released.

(6) Column 6 – enter the sum of Column 3 minus Column 5 (Column 3 – Column 5).

v. The disbursing officer certifies the accuracy of the data on the report by signing and dating the report.

w. Footnote the amount of non-U.S. currency in possession of the host nation, but not verified as of the end of the reporting period, and the verified amount of counterfeit U.S. currency for the reporting period.

ANNEX 7 MONTHLY DISBURSEMENT REPORT

A. Purpose and Applicability

This annex addresses the duties, responsibilities, and procedures to be followed by the host nation's interim government in preparing monthly disbursement reports for vested and seized assets.

B. Responsibilities

The host nation interim government shall prepare monthly reports describing the purposes, amounts and recipients of all cash disbursements of vested and seized assets. This report will include cash disbursements only; non-cash assets, including coin/currency (non-U.S. dollars), either divested or released, are reported in the Monthly Inventory Report of Vested and Seized Assets (Annex 6, Figure 6-1). These reports shall distinguish between disbursements of vested and seized assets. The report must be reconciled with official accounting records.

The host nation interim government shall submit the monthly reports under cover memorandum to the OUSD(C), with copies furnished to the Director, Resource Management, of the designated Executive Agent, no later than close of the tenth business day of the month following the month being reported.

C. Reporting Procedures

1. Follow the report format at Figure 7-1.

2. Instructions

a. Table 1 – Vested Assets

(1) Column 1 – enter a brief description of the purpose for the cash disbursements. The descriptions should be the same as the descriptions shown on the spending plans (Annex 4).

(2) Column 2 – enter a brief description of the recipients of the cash disbursements. The detail information regarding the entity receiving the cash disbursements is required as part of the supporting documentation to the disbursement vouchers as provided for in the Procedures section for host nation interim government (Annex 5).

(3) Column 3 – enter the dollar amount of the cash disbursements.
NOTE: the total of Column 3 will be reported on the Monthly Inventory Report of Vested and Seized Assets, Line 1.A.2 (Annex 6, Figure 6-1).

b. Table 2 – Seized Assets

(1) Column 1 – enter a brief description of the purpose for the cash disbursements. The descriptions should be the same as the descriptions as shown on the spending plans (Annex 4).

(2) Column 2 – enter a brief description of the recipients of the cash disbursements. The detail information regarding the individual recipients of the cash disbursements is required as part of the supporting documentation to the disbursement vouchers as provided for in the Procedures section for the host nation interim government (Annex 5).

(3) Column 3 – enter the dollar amount of the cash disbursements.
NOTE: The total of Column 3 will be reported on the Monthly Inventory Report of Vested and Seized Assets, Line 2.A.7 (Annex 6, Figure 6-1).

c. The disbursing officer certifies the accuracy of the data on the report by signing and dating the report.

Disbursing Officer, Host Nation Interim Government

DATE

ANNEX 8 REPORTING OF VESTED AND SEIZED ASSETS ON THE DOD FINANCIAL STATEMENTS

A. Purpose and Applicability

This annex addresses the duties, responsibilities, and procedures to be followed by the designated Executive Agent and the Defense Finance and Accounting Service (DFAS) in preparing consolidated financial statements in support of the host nation interim government's vested and seized assets.

B. Responsibilities

The Executive Agent and DFAS are responsible for reporting activity of vested and seized assets on the DoD consolidated financial statements.

C. Procedures

1. Seized asset activity shall be reported on the Executive Agent's financial statements and the DoD consolidated financial statements. These activities relate to the receipt, management, and disposition of cash and negotiable instruments held by the DoD. Nonentity seized cash will be included as Fund Balance with Treasury on the face of the DoD consolidated Balance Sheet and the Executive Agent's Balance Sheets. The Nonentity Assets Note to the financial statements shall contain sufficient disclosure to provide the reader with an understanding of the source of the seized assets, applicable laws and regulations, and how the assets were used.

2. Vested asset activity shall be reported in the General Fund financial statements of the Executive Agent and on the DoD consolidated financial statements. Vested assets will be distinguishable from other entity assets only in the footnotes to the financial statements. The note to the financial statements shall contain sufficient disclosure to provide the reader with an understanding of the source of the vested assets, applicable laws and regulations, and how the assets were used.

3. Additional information regarding financial statement reporting can be found in Volume 6B and the DFAS Financial Reporting Guidance, "Annual and Quarterly Financial Statement Guidance," on the OUSD(C) website.

VOLUME 12, CHAPTER 30: “OPERATION AND USE OF GENERAL GIFT FUNDS”

SUMMARY OF MAJOR CHANGES

Changes are identified in this table and also denoted by [blue font](#).

Substantive revisions are denoted by an * symbol preceding the section, paragraph, table, or figure that includes the revision.

Unless otherwise noted, chapters referenced are contained in this volume.

Hyperlinks are denoted by [***bold, italic, blue and underlined font***](#).

The previous version dated [March 2019](#) is archived.

PARAGRAPH	EXPLANATION OF CHANGE/REVISION	PURPOSE
1.1	Added an Overview section	Addition
1.3	Updated authoritative guidance section to include only hyperlinks and title of reference	Revision
2.0.3, 5.5, & 5.8.1	Changed the term “ethics counselor” to “ethics official”	Revision
5.1	Added an Acceptance of Gifts section for Military Musical Units, Accounting for Missing Persons, Museum Programs, U.S. Service Academies, and Uniformed Services University of Health Sciences	Addition
5.1.5	Incorporated the Under Secretary of Defense for Personnel and Readiness policy memorandum, “Delegation of Gift Acceptance Authority for the Uniformed Services University of the Health Sciences,” dated December 13, 2024.	Addition
7.2.3	Changed Community and Public Outreach Division to Community Relations Division	Revision

CHAPTER 30

OPERATION AND USE OF GENERAL GIFT FUNDS

1.0 GENERAL

*1.1 Overview

The Secretary of Defense (SecDef) and Secretaries of the Military Departments have the authority to accept, hold, administer, and spend gifts made for the benefit or in connection with various institutions and individuals under their jurisdiction. These gifts include money, real property, personal property, or services for the establishment, operation, or maintenance of schools, hospitals, libraries, museums, cemeteries, and other institutions, as well as for the benefit of wounded or injured members of the armed forces (including members performing full-time National Guard duty), civilian employees, dependents, and survivors of members or employees who are killed.

1.2 Purpose

The purpose is to prescribe the overall policy and assign responsibilities for the acceptance, holding, administration, receipt, recording, reporting, use, investment, distribution, disbursement, and accountability of money, real property, personal property, or services to the DoD.

*1.3 Authoritative Guidance

1.3.1. Title 10, United States Code, section 974 ([10 U.S.C. § 974](#)), “Military Musical Units and Musicians: Performance Policies; Restriction on Performance in Competition with Local Civilian Musicians.

1.3.2. [10 U.S.C. § 1501](#), “System for Accounting for Missing Persons.”

1.3.3. [10 U.S.C. § 2601](#), “General Gift Funds.”

1.3.4. [10 U.S.C. § 2113](#), “Administration of University.”

1.3.5. Code of Federal Regulations ([CFR](#)) [§ 2635.203](#), “Definitions.”

1.3.6. DoD Instruction ([DoDI](#)) [4165.14](#), “Real Property Inventory and Reporting.”

1.3.7. [DoDI 4165.70](#), “Real Property Management.”

1.3.8. [DoDI 4165.71](#), “Real Property Acquisition.”

1.3.9. [DoDI 4165.72](#), “Real Property Disposal.”

1.3.10. [DoDI 5000.64](#), “Accountability and Management of DoD Equipment and Other Accountable Property.”

1.3.11. DoD Directive [\(DoDD\) 5500.07](#), “Ethics and Standards of Conduct.”

2.0 DEFINITIONS

2.0.1. Account. For purposes of this chapter, an account is a special account established by the [U.S. Department of the Treasury](#) for receipt of monetary gifts and proceeds from the sale of real or personal property gifts to the SecDef or the Military Departments.

2.0.2. Acceptance Authorities. Acceptance Authorities are the appropriate concerned Secretary and all designees who may accept gifts. The concerned Secretaries may approve additional delegations.

* 2.0.3. Ethics Officials. Ethics Officials represent the [U.S. Government and U.S. Government personnel who are acting in their official capacities](#) as set forth in DoDD 5500.07 - R.

2.0.4. Gifts. Gifts include devises or bequests of money, real property, personal property, or services.

2.0.5. Prohibited Sources. Prohibited Sources are defined as set forth in CFR § 2635.203.

2.0.6. Services. Services include activities that benefit the morale, welfare, or recreation of members of the armed forces and their dependents or are related or incidental to the conveyance of a gift of real or personal property. Performance of services includes non-monetary gifts of services through volunteer gratuitous agreements.

3.0 DESIGNATIONS

The SecDef and the Secretaries of the Military Departments may approve additional Acceptance Authority designations under their jurisdiction. The Office of the Secretary of Defense (OSD) designations are as follows:

3.1 USD(C)

All authority and responsibility granted to the SecDef associated with the acceptance and use of gifts has been delegated to the USD(C).

3.2 USD(C) Designations

The USD(C) prescribes additional designations of gift Acceptance Authority to OSD Components. On behalf of the SecDef, the USD for Acquisition and Sustainment (A&S), USD Personnel and Readiness (P&R), Administration and Organization Policy, DoD Defense Agencies, Joint Staff, Commanders of Combatant Commands, and Washington Headquarters Services (WHS) have the authority and responsibilities associated with acceptance and use of such gifts of real

property or personal property and may authorize the development of additional procedures for implementing policy in this chapter. The Director of the WHS also has the authority to accept such gifts of services for the benefit of individuals at facilities under his or her authority. All gifts over \$500,000 must be accepted by the USD(C).

4.0 RESPONSIBILITIES

4.1 OSD Components

OSD Components and Acceptance Authority designees must ensure compliance with [the](#) policy in this chapter and must establish procedures to ensure personnel are familiar with the restrictions on accepting gifts and requirements for receiving, recording, reporting, and accounting for gifts.

4.2 Military Departments

The Secretaries of the Military Departments and Acceptance Authority designees must ensure compliance with policy in this chapter and establish procedures to ensure personnel are familiar with the restrictions on accepting gifts and requirements for receiving, recording, reporting, and accounting for gifts.

4.3 DFAS

DFAS is responsible for the accounting, investing, and reporting [of](#) all monetary gifts and proceeds from the sale of real property or personal property gifts accepted by the Acceptance Authorities and forwarded to DFAS as prescribed in section 6.0.

4.4 USD(P&R)

USD(P&R) must establish procedures for verifying the eligibility of individuals to receive benefits and may authorize the development of additional procedures [for receiving gifts](#).

5.0 ACCEPTANCE

[*5.1 Acceptance of Gifts](#)

[5.1.1. Military Musical Units.](#) Monetary contributions, personal property, or services for the benefit of a military musical unit may be accepted by the SecDef and Secretaries of the Military Departments. Any monetary contributions must be credited to the corresponding appropriation or account, subject to the same purposes, conditions, and limitations as the funds in that account.

[5.1.2. Accounting for Missing Persons.](#) Gifts including personal property, money, or services for the purpose of facilitating accounting for missing persons may be accepted, held, administered, spent, and used. All monetary gifts and bequests accepted must be deposited in the DoD General Gift Fund.

5.1.3. Museum Programs. Gifts such as books, manuscripts, works of art, historical artifacts, drawings, plans, models, or condemned or obsolete combat materiel may be solicited from a bona fide collector for military museum programs. The military museum program may accept a gift of services from a nonprofit entity established to support the program. Nonprofit entity personnel who provide a gift of services may not be employed within the U.S.

5.1.4. U.S. Service Academies. Gifts of real property can be accepted for the U.S. Military Academy, the Naval Academy, the Air Force Academy, and the Coast Guard Academy. These gifts can be accepted even if the gift is subject to the condition that the property bears a specified name. The Secretary of the Military Department responsible for the respective Service Academy has the authority to accept such gifts.

5.1.5. Uniformed Services University of the Health Sciences (USUHS). Any gift, devise, or bequest of personal property made to the University, including those in the support of an academic chair, teaching, research, or demonstration project may be accepted, held, administered, invested, and spent. This authority is delegated to the USD(P&R) and may be further delegated by the USD(P&R) in writing to the Assistant Secretary of Defense for Health Affairs and/or to the President, USUHS, but may not be delegated below the President, USUHS.

5.2 Circumstances to Decline Acceptance

Acceptance Authorities must decline gifts under the following circumstances:

5.2.1. The use of the gift is **connected** with any program, project, or activity that would result in the violation of any prohibition or limitation otherwise applicable to such program, project, or activity;

5.2.2. The gift or conditions attached to the gift are inconsistent with applicable law or regulations;

5.2.3. The use of the gift would reflect unfavorably on the **DoD's ability**, or any personnel of the Department, to carry out any responsibility or duty in a fair and objective manner;

5.2.4. The use of the gift would compromise the integrity or appearance of integrity of any program of the DoD or any individual involved in such a program; and

5.2.5. Acceptance of the gift would not be in the best interests of the DoD, including but not limited to the following, where it creates or requires:

5.2.5.1. The appearance or expectation of favorable consideration because of the gift;

5.2.5.2. The appearance of an improper endorsement of the donor, its events, products, services, or enterprises;

5.2.5.3. A serious question of impropriety considering the donor's present or prospective business relationships with the DoD;

5.2.5.4. The expenditure or use of funds more than amounts appropriated by Congress;

5.2.5.5. Substantial expenditures or administrative efforts and maintenance that are disproportionate to any benefit;

5.2.5.6. Gift acceptance or the imposition of naming rights that would not reflect favorably upon the DoD; or

5.2.5.7. The real property subject to the gift naming condition has not been named by an act of Congress.

5.3 DoD Personnel

DoD personnel must not solicit, fundraise for, or otherwise request or encourage the offer of a gift. Acceptance Authorities must not accept gifts offered contrary to this policy. Notwithstanding this general prohibition, the SecDef may solicit from a bona fide collector, a gift for the use and benefit of a military museum program.

5.4 Related Expenses

Acceptance Authorities may pay all necessary expenses in connection with the conveyance or transfer of a gift.

*5.5 Offers from Prohibited Sources

Acceptance Authorities must use increased sensitivity and scrutiny when gifts are offered from prohibited sources. Acceptance of gifts from prohibited sources may cause embarrassment to the DoD or the appearance of influencing official decisions or actions of the Department. Acceptance Authorities must consult with their appropriate Ethics Official before accepting such a gift valued in excess of \$10,000 to determine whether the donor is involved in any claims, procurement actions, litigation, or other particular matters involving the Department that must be considered prior to gift acceptance.

5.6 Acknowledgement of Future Gifts

Acceptance Authorities may acknowledge offers of future gifts and advise the donors that acceptance will occur after the actual presentation of the gifts only when they determine that such acceptance will likely occur.

5.7 Acceptance through Intermediaries

Acceptance Authorities must not accept gifts offered indirectly through an intermediary if they **cannot** accept such gifts if offered directly from the source.

5.8 Accepting Gifts to Benefit Certain Members, Dependents, and Civilian Employees

* 5.8.1. Acceptance Authorities must consult with their appropriate Ethics **Official** before accepting gifts valued more than \$10,000 to ensure that:

5.8.1.1. The gift is not offered in a manner that specifically discriminates among DoD personnel based on type of official responsibility or of favoring those of higher rank or rate of pay; and

5.8.1.2. The donor does not have interests that may be affected substantially by the performance or nonperformance of the DoD employee's official duties.

5.8.2. Acceptance Authorities may not accept a gift of services from a foreign government or international organization. They may accept a gift of money, real property, or personal property from a foreign government or international organization only if the gift is not designated for a specific individual.

5.9 Acceptance of Property Gifts with Naming Rights

5.9.1. The authority to accept gifts **with the condition of naming rights** may be delegated by the Secretary concerned only to a civilian Presidential appointee in a position requiring Senate confirmation. This authority may not be further re-delegated.

5.9.2. The Secretary concerned must issue uniform regulations governing the circumstances under which gifts conditioned on naming rights may be accepted, appropriate naming conventions, and suitable display standards. The naming conventions and suitable display standards must be in accordance with Unified Facilities Criteria **(UFC) 3-120-01** and other implementing guidance issued under the purview of the USD(A&S).

5.9.3. The Secretary concerned or designee must decline conditional gifts offered unless the donor agrees in writing that the Military Department retains the right to remove or alter the name if a determination is made that:

5.9.3.1. The donor has committed an immoral act or engaged in unethical conduct;

5.9.3.2. The donor has engaged in activities that reflect unfavorably on the U.S.;

or

5.9.3.3. A subsequent donor offers to significantly alter a facility, and such gift is worthy of receiving naming rights.

6.0 RECEIPT

6.1 Monetary Gifts

All monetary gifts must be forwarded to the DFAS office servicing the Acceptance Authority via mail or an electronic funds transfer (EFT). DoD officials must contact DFAS for EFT deposit information.

6.2 Gift Fund Accounts

Gifts of money and the proceeds of the sale of property gifts must be deposited in the following Treasury accounts:

6.2.1. The DoD General Gift Fund in the case of deposits made by the SecDef or SecDef Acceptance Authority designees.

6.2.2. The Department of the Army General Gift Fund, in the case of deposits made by the Secretary of the Army or Secretary of the Army Acceptance Authority designees.

6.2.3. The Department of the Navy General Gift Fund, in the case of deposits made by the Secretary of the Navy or Secretary of the Navy Acceptance Authority designees.

6.2.4. The Department of the Air Force General Gift Fund, in the case of deposits made by the Secretary of the Air Force or Secretary of the Air Force Acceptance Authority designees.

6.3 Accounting Transactions

Accounting entries for monetary, non-monetary, and service-type gifts are specified within the [U.S. Standard General Library](#).

7.0 RECORDS AND REPORTS

7.1 Records

7.1.1. Acceptance Authorities must keep accurate, auditable, and timely records of all gifts and provide this information for periodic audits. The receiving organization must obtain and retain the required documentation and information for all gifts received including the date non-monetary gifts were transferred to property records and the unique identifier or data element, if applicable (see property accountability requirements in section 9.0). For audit purposes, the supporting documentation for monetary and non-monetary gifts must be retained [in accordance with the policy in Volume 1, Chapter 9, "Financial Records Retention."](#)

7.1.2. Acceptance Authorities must ensure that the following information for items sold is documented and retained:

7.1.2.1. A description of each item sold;

7.1.2.2. The name of the donor for each item sold;

7.1.2.3. The date each item was sold;

7.1.2.4. The name of the purchaser for each item sold;

7.1.2.5. The proceeds of the item sold;

7.1.2.6. Details of any relevant specific information regarding each item sold; and

7.1.2.7. If applicable, the unique identifier or data element used to track the same or similar non-monetary item such as a Real Property Unique Identifier from the DoD Real Property Unique Identifier Registry or accountable property data elements (see property accountability policy cited in section 9.0).

7.2 Reports

7.2.1. DFAS Standards and Compliance (Corporate Reporting) must develop and require a standardized report for Acceptance Authorities or designees to report the following information to DFAS on a quarterly basis:

7.2.1.1. A description of the gift;

7.2.1.2. The value of the gift (estimated value if non-monetary) and the valuation method used;

7.2.1.3. The name and address of the donor(s);

7.2.1.4. The date each gift was received;

7.2.1.5. The expected useful life of the gift (the length of time in which a depreciable asset is expected to be used);

7.2.1.6. Details of any conditions, restrictions, or other relevant specific information regarding each gift;

7.2.1.7. If applicable, a unique identifier or data element used to track the same or similar non-monetary items received or shipped from different sources;

7.2.1.8. Statement explaining the benefits of accepting the gift; and

7.2.1.9. The authority under which the gift was accepted.

7.2.2. Acceptance Authorities must report the information in the reports for all monetary gifts and real property gifts along with personal property gifts and services with a unit value of \$5,000 or more to the DFAS office servicing each Secretary (Defense, Army, Navy, and Air Force)

not later than 10 days after the end of each quarter. Monetary, real property, and personal property gifts must be reported separately.

* 7.2.3. Acceptance Authorities must prepare a separate report entitled "Donations to Military Musical Units under 10 U.S.C. § 974(d)". The report must be submitted to Congress annually for all gifts accepted during the fiscal year by Military Musical Units. A copy of the report must be provided to the OUSD(C), Deputy Chief Financial Officer; and the Office of the Assistant Secretary of Defense for Public Affairs, [Community Relations](#) division.

7.2.4. The DFAS Standards and Compliance (Corporate Reporting) must prepare a report containing the following information and forward the information to the [OUSD\(C\)](#), Deputy Chief Financial Officer no later than 30 days after the end of each quarter:

7.2.4.1. Separate summary values for monetary and non-monetary gifts accepted during the quarter and the authority under which the gift was accepted; and

7.2.4.2. A description of all property valued at more than \$1 million. In determining whether the \$1 million threshold has been met, the following criteria must be used:

7.2.4.2.1. The [cumulative](#) value of similar items accepted during the quarter; and

7.2.4.2.2. The [cumulative](#) value of components which, if assembled, would comprise all or a substantial portion of an item or facility.

8.0 INVESTMENTS

DFAS must:

8.0.1. Invest general gift funds in Government securities until distribution is authorized [and](#) consistent with good cash management practices;

8.0.2. Follow standard operating procedures related to the respective Gift Fund Accounts for purchasing Government securities;

8.0.3. Follow standard operating procedures to initiate and complete the sale of Government securities;

8.0.4. Maintain a tracking system that identifies impending maturities and collections of securities for the specified account and ensure appropriate reinvestment action is taken upon maturity of a security; and

8.0.5. Conduct an annual review of the account operations and transactions, including the purchase and the sale of Government securities. The objective of the review will include compliance with the DoD and the Treasury policies and procedures, and adequacy of internal controls.

9.0 PROPERTY ACCOUNTABILITY

Acceptance Authorities must establish procedures for receiving, accounting, and disposing of real and personal property gifts. Property accountability procedures must be addressed or referenced in general gift acceptance procedures. Property accountability procedures must be consistent with policy prescribed in DoDI 4165.14, DoDI 4165.70, DoDI 4165.71, DoDI 4165.72, and DoDI 5000.64.

CHAPTER 31

DOD BRANDING AND TRADEMARK LICENSING PROGRAM

1.0 GENERAL

1.1 Purpose

This chapter promulgates policy used to account for fees received by the Department of Defense (DoD) from the licensing of trademarks, service marks, certification marks and collective marks. It establishes guidance that is applicable to the Secretary of Defense, the Military Departments, the Chairman of the Joint Chiefs of Staff and the Joint Staff, the Geographic Combatant Commands, the Office of the Inspector General of DoD, the Defense Agencies, the DoD Working Capital Fund Activities, the DoD Field Activities, and all other organizational entities in DoD (hereinafter referred to as DoD Components).

*1.2 Authoritative Guidance

The financial management policy and related requirements prescribed by this chapter are in accordance with the applicable provisions of:

1.2.1. Title 10, United States Code, section 2260 ([10 U.S.C. § 2260](#)), “Licensing of intellectual property: retention of fees”;

1.2.2. [15 U.S.C. § 1127](#), “Construction and definitions; intent of chapter”;

1.2.3. [15 U.S.C. § 1051-1072](#), “The Principal Register”;

1.2.4. DoD Directive ([DoDD](#)) [5122.05](#), “Assistant to the Secretary of Defense for Public Affairs (ATSD(PA))”;

1.2.5. [DoDD 5535.09](#), “DoD Branding and Trademark Licensing Program”; and

1.2.6. DoD Instruction ([DoDI](#)) [5535.12](#), “DoD Branding and Trademark Licensing Program Implementation.”

*2.0 DEFINITIONS

2.1 Branding

The term “branding” includes a program or process of creating awareness, public goodwill, and a positive image for the DoD and its Components through the marketing and promotion of its marks.

2.2 Certification Mark

The term “certification mark” means any word, name, symbol, or device, or any combination thereof –

2.2.1. Used by a person other than its owner, or

2.2.2. Which its owner has a bona fide intention to permit a person other than the owner to use in commerce (use of a mark in the ordinary course of trade) and files an application to register on the principal register established in 15 U.S.C. § 1051-1072, to certify regional or other origin, material, mode of manufacture, quality, accuracy, or other characteristics of such person's goods or services or that the work or labor on the goods or services was performed by members of a union or other organization.

2.3 Collective Mark

The term “collective mark” means a trademark or service mark –

2.3.1. Used by the members of a cooperative, an association, or other collective group or organization, or

2.3.2. Which such cooperative, association, or other collective group or organization has a bona fide need to use in commerce and applies to register on the principal register established in 15 U.S.C. § 1051-1072, and includes marks indicating membership in a union, an association, or other organization.

2.4 Licensee

As used in DoDD 5535.09, the term “licensee” must include any person, company, or organization whose use of a mark is controlled by a DoD Component with respect to the nature and quality of goods or services on or in connection with which the mark is used.

2.5 Licensing Agent

As used in DoD 5535.09, the term “licensing agent” must include any person, company, or organization that serves as an agent of a DoD Component for the purpose of assisting that DoD Component in securing licensees, collecting royalty fees, and/or other operational functions that deal with the DoD Component’s trademark licensing program.

2.6 Service Mark

The term “service mark” means any word, name, symbol, or device, or any combination thereof –

2.6.1. Used by a person, or

2.6.2. Which a person has a bona fide intention to use in commerce and applies to register on the principal register established in [15 U.S.C. § 1051-1072](#), to identify and distinguish the services of one person, including a unique service, from the services of others and to indicate the source of the services, even if that source is unknown. Titles, character names, and other distinctive features of radio or television programs may be registered as service marks notwithstanding that they, or the programs, may advertise the goods of the sponsor.

2.7 Trademark

The term “trademark” includes any word, name, symbol, or device, or any combination thereof –

2.7.1. Used by a person, or

2.7.2. Which a person has a bona fide intention to use in commerce and applies to register on the principal register established in [15 U.S.C. § 1051-1072](#), to identify and distinguish his or her goods, including a unique product, from those manufactured or sold by others and to indicate the source of the goods, even if that source is unknown.

3.0 RESPONSIBILITIES

*3.1 Assistant Secretary of Defense for Public Affairs

The ASD(PA), in accordance with DoDD [5535.09](#), is the proponent agency for the DoD Branding and Trademark Licensing Program (BTLTP) and has overall responsibility for the operation of the program, [providing training](#), defining program costs, and establishing procedures to ensure the proper use of program funds.

3.2 DoD Components

The DoD Components operating a trademark licensing program under the provisions of 10 U.S.C. § 2260 and DoDD 5535.09 are responsible for ensuring that:

3.2.1. A single individual or office is designated within the DoD Component to review and approve all requests for the use of funds deposited into the Component’s designated U.S. Department of the Treasury (Treasury) Account. The designated individual or office must be responsible for ensuring that all funds are used only for authorized purposes. To ensure an independent review of the request, no individual or office may both request and approve the use of such funds. The appointment of this person or office must be done in writing in the form of an

appointment order or similar document. A copy of the appointment must be provided to the DoD Component's supporting representative at the Defense Finance and Accounting Service and to the Manager, DoD BTLP. A record of all requests for the use of funds and the action taken must be retained in accordance with Volume 1, Chapter 9.

3.2.2. There is a complete and accurate accounting for all trademark licensing fees received.

3.2.3. All trademark licensing fees received by DoD Components are promptly deposited and recorded in the United States Standard General Ledger account 426600, which provides direct budget authority on line 1800 of the Standard Form (SF) 132, Apportionment and Reapportionment Schedule, and SF 133, Report on Budget Execution and Budgetary Resources. DoD Components must obligate and disburse from the designated Treasury Account Symbol only for the purposes specifically authorized in 10 U.S.C § 2260. The use of suspense accounts is prohibited and any remaining balances must be transferred to the designated Treasury account. Guidance on processing collections can be found in Volume 5, Chapter 8.

3.2.4. Fees collected are only used for payment of costs incurred in securing trademark registrations and operating the licensing program; and for support of Morale, Welfare, and Recreation (MWR) activities when fees available for a fiscal year exceed the amount needed for payment of such costs.

4.0 ACCOUNTING AND REPORTING

*4.1 Accounting

4.1.1. Fees received in a fiscal year must remain available for obligation in such fiscal year and the following two fiscal years.

4.1.2. The excess of licensing fees collected over annual costs may be expended to support MWR activities. The law does not require that the excess be obligated in the fiscal year collected. The excess may be used in the two following fiscal years to offset those fiscal year costs of the licensing program or may be expended in support of the DoD Component's MWR activities.

4.1.3. Funds not obligated or made available to MWR activities before September 30 of the second fiscal year following the year collected must be reallocated (transferred) to [Treasury Account Symbol](#) R3210, "General Fund Proprietary Receipts, Defense Military, Not Otherwise Classified."

4.1.4. Additional [Treasury Account Symbols](#) may be used to separately track unobligated funds carried forward from the fiscal year of collection through the following two fiscal years.

4.1.5. Each DoD Component must ensure that all royalty reports received from licensees and/or licensing agents are promptly reviewed, and any questions resolved. Copies of royalty reports must be retained in accordance with Volume 1, Chapter 9.

4.2 Reporting

Each DoD Component operating a trademark licensing program must provide the Manager, DoD BTLP, with the following financial reports. The Manager, BTLP, may issue guidance prescribing the required format of the reports and the specific information to be provided.

4.2.1. Quarterly Reports. The following quarterly reports must be forwarded to the Manager, DoD BTLP, within 30 days following the end of each calendar quarter.

4.2.1.1. Income and Expense Report. The Income and Expense Report must show the total fees received from trademark licensing during the preceding calendar quarter. It should also show the total costs paid for securing trademark registrations and the total costs paid for operating the trademark licensing program.

4.2.1.2. Other Quarterly Reports. The Manager, DoD BTLP may require other quarterly reports as the Manager deems necessary to assure compliance with DoDD 5535.09.

4.2.2. Annual Reports. The following annual reports must be forward to the Manager, DoD BTLP, within 45 days following the end of the fiscal year.

4.2.2.1. Trademark Account Fund Aging Report. The Trademark Account Fund Aging Report must show, in detail, the age of all funds currently in the DoD Component's Treasury Account for Trademark Licensing and the date on which those funds will expire.

4.2.2.2. MWR Funding Report. The MWR Funding Report must show all funds transferred during the preceding fiscal year to an MWR activity under the control of the Secretary concerned. If more than one MWR activity received funding, the report must identify each activity and the amount it received. If more than one trademark licensing program is operated by a DoD Component, separate reports must be issued for each program.

4.2.2.3. Other Annual Reports. The Manager, DoD BTLP may require other annual reports as the Manager deems necessary to ensure compliance with DoDD 5535.09.

CHAPTER 32

**COLLECTION AND RETENTION OF CONFERENCE FEES
FROM NON-FEDERAL SOURCES**

1.0 GENERAL

1.1 Purpose

This chapter establishes the policies to be followed by Department of Defense (DoD) Components to account for conference fees that are collected by the Department of Defense to cover DoD costs. The conference fees are used in accordance with statutory authority in Title 10, United States Code, § 2262 ([10 U.S.C. § 2262](#)) which provides authority for the Secretary of Defense to collect fees in advance, either directly or by using a contract, from individuals and commercial participants attending DoD sponsored conferences. This guidance applies to DoD Components, which for the purpose of this chapter, includes the Office of the Secretary of Defense, the Military Departments, the Chairman of the Joint Chiefs of Staff or the Joint Staff, the Unified and Specified Combatant Commands, the Office of the Inspector General of DoD, the Defense Agencies, the DoD Working Capital Fund Activities, the DoD Field Activities, and all other organizational entities in DoD.

1.2 Authoritative Guidance

A “conference” is defined in the [DoD Joint Travel Regulations](#) as a meeting, retreat, seminar, symposium, or event that involves attendee travel. The term conference also applies to training activities that are considered to be conferences in accordance with Title 5, Code of Federal Regulations, section 410.404 ([5 CFR § 410.404](#)). Conferences subject to this authority are also often referred to as conventions, expositions, workshops or exhibitions that typically involve topical matters of interest to, and the participation of, multiple agencies and/or non-governmental participants. The [DoD Conference Guidance 4.0](#) identifies exemptions to the defined list of conferences.

2.0 POLICY

2.1 Other Federal laws and Regulations

Although 10 U.S.C. § 2262 authorizes the retention of conference fees, all other applicable Federal laws and regulations must be followed regarding conferences and conference planning. These Federal authorities include the DoD Travel Regulations, the Federal Acquisition Regulation ([FAR](#)), the [DoD FAR Supplement](#), and the [Joint Ethics Regulation](#). This authority does not increase or affect any other currently existing conference authority. Guidelines related to determining conference fees are available on the [DoD Cost Guidance Portal](#) that resides on the DoD Costs Assessment and Program Evaluation web page. Access requires a DoD Common Access Card.

2.2 Use of Contracts for Conference Planning, Organizing, or Management

DoD Components collecting fees by contract, to include contractors under no-cost contracts, are authorized to structure such contracts to permit contractors to offset from fees collected, the actual costs incurred by the contractor (to include its fee), in providing conference related services. Fee collections in excess of such amounts must be credited to the appropriation from which other conference costs are payable. DoD Components must be responsible for all other provisions contained in this chapter including the oversight regarding the setting of appropriate fee amounts and the reporting of fees collected and costs paid by the contractor.

2.3 Reimbursement

Collection of conference fees into appropriations is subject to the general rules of appropriation reimbursement as well as specific rules stated in 10 U.S.C. § 2262. Fiscal limitations on expenditure of appropriated funds for conference expenses apply to use of fees collected under 10 U.S.C. § 2262. In accordance with DoD Conference Guidance 4.0, revenue is all direct or indirect conference costs collected or reimbursed to DoD by non-DoD entities. For the purpose of this guidance, revenue includes, but is not limited to registration fees collected, exhibitor fees collected, sponsor fees collected, and total conference costs. Total conference costs should be the net value of the conference expenses, less any fees or revenue received by the Department through the conference.

2.4 Ethics and Fiscal Guidance

Ethics restrictions found in the [Standards of Ethical Conduct](#) for Employees of the Executive Branch are applicable to the execution of conferences. Also follow guidance prescribed by the DoD Office of the General Counsel ([See DoD's Standards of Conduct Office \(SOCO\)](#)) paper on Conference Sponsorship and Conference Planning. In addition, DoD conference managers should consult with their own component General Counsel to ensure compliance with applicable laws and regulations.

3.0 RESPONSIBILITIES

3.1 Office of the Under Secretary of Defense (Comptroller), [Office of the Director of Administration and Management \(ODA&M\)](#)

3.1.1. [Secretary and Deputy Secretary of Defense](#) - The Secretary and Deputy Secretary of Defense are accountable for all of the Department's conference related activities. Specifically, with overseeing the DoD's conference policies and controls, and maintaining visibility and accountability for the conduct of conferences hosted by the Department and attended by Department personnel through Component reporting as required by legislation. Agencies are obligated to ensure reporting requirements to Congress on conference costs and fees collected are met, in accordance with the Office of Management and Budget (OMB) [Memorandum M-17-08 and section 739 of Public Law 113-235](#), "Consolidated and Further Continuing Appropriations Act of 2015," and reported through the DoD Conference Tool in adherence with the standards of the DoD Conference Guidance 4.0.

3.1.2. DoD Deputy Chief Management Officer – In accordance with the DoD Conference Guidance 4.0, and consistent with the guidance codified in the OMB Memorandum M-17-08, the DoD Deputy Chief Management Officer is responsible for DoD's conference oversight on behalf of the Secretary and Deputy Secretary of Defense, to include maintaining the DoD Conference Guidance 4.0 policy and controls, and executing the reporting requirements contained in section 320402. The Deputy Chief Management Officer is authorized to act on behalf of the Secretary and Deputy Secretary on all conference related matters.

3.2 Defense Finance and Accounting Service (DFAS)

The DFAS must:

3.2.1. Establish a process for collecting data needed to meet conference fees statutory reporting requirements.

3.2.2. Ensure conference fee collections and disbursements are processed and recorded accurately and timely, consistent with DoD policy.

3.2.3. Take corrective action when issues accounting for these funds arise.

3.3 DoD Components

The DoD Components sponsoring conferences under the provisions of 10 U.S.C. § 2262 must:

3.3.1. Adhere to established chapter OUSD(C), P/B reporting requests.

3.3.2. Develop and implement internal operating procedures and guidance to ensure complete, accurate, timely, and proper accounting and reporting for all conference fees collected, and relevant financial data.

3.3.3. Ensure that conference fees collected are only used to offset associated allowable conference expenses. Use of registration fees to pay unallowable costs is prohibited, illegal, and improper; and reduces the amount of fees that would otherwise be available to pay allowable costs.

3.3.4. Collaborate with DFAS to establish a process for collecting data needed to meet statutory reporting requirements.

3.3.5. As needed, provide training to employees on using this authority.

3.3.6. Monitor conference fee collections and disbursements to assess operational or financial problems.

3.3.7. Ensure all conference fees collected directly by the Government are promptly deposited and recorded in the appropriate account. When fees are collected by contract as described in paragraph 2.2, promptly deposit and record amounts that are in excess of actual conference costs offset by the contractor. To avoid having to credit excess fee collections to Miscellaneous Receipts, fees (attendance, vendor, and other) should be structured so as not to exceed the anticipated costs of the conference. Guidance on processing collections can be found in Volume 5, Chapter 8.

3.3.8. Assist the OUSD(C) in any investigations into funding violations.

3.3.9. Determine the conference fee amounts that are excess and promptly transfer to Receipt Account 3210, "General Fund Proprietary Receipts, Defense Military, Not Otherwise Classified." Excess fees collected must not be used to finance expenditures of a succeeding conference or for any other purpose. Because the statute does not allow the retention of funds in excess of costs incurred, doing so would improperly augment agency funds otherwise available for funding conference expenses.

3.3.10. Ensure that conference fees collected for one conference are not used to fund for other conferences. If more than one conference is funded by a DoD Component, the Component must maintain records sufficient to separately account for fee collections for each conference.

3.3.11. Maintain all records supporting conference fees collected under this authority in accordance with Volume 1, Chapter 9.

4.0 ACCOUNTING AND REPORTING

4.1 Accounting

4.1.1. Accounting for collections into appropriations is covered in the [DoD United States Standard General Ledger](#) [Standard Financial Information Structure](#) Transaction Library.

4.1.2. Except when conference planning services at no cost to the government are used and the government entity does not directly collect fees, amounts collected in accordance with 10 U.S.C. § 2262 with respect to a conference must be credited to the appropriation or account from which the costs of the conference are paid and must be used to pay or reimburse those costs of the Department with respect to the conference. Record conference fees collected as an appropriation reimbursement.

4.1.3. The registration fees collected must remain with the year that funds for the conference are obligated. In the event registration fees are collected in one fiscal year but the conference is conducted in the next, the fees collected must remain in the year the conference expenses were obligated and must be available for the same purpose and time period of that appropriation.

4.1.4. Components, agencies and activities which collect conference fees into appropriations may not augment those appropriations. Accordingly, any fees collected which exceed actual conference costs must be deposited to [Receipt Account 3210](#).

4.2 Reporting

4.2.1. In accordance with DoD's Conference Policies and Controls, all DoD sponsored conferences are required to be reported through a central [DoD Conference Tool](#). This data is used to generate the annual reports that are posted publically and support the Department's ongoing oversight of conference activities. Conference fees are not reported as a separate entity; they are reported within conference expenses as a net of any fees or revenue received through the conference, not to include costs. Detailed guidance on conference expense reporting requirements and thresholds can be found in the DoD Conference Policies and Controls, and in the DoD Conference Tool.

4.2.2. In accordance with OMB Memorandum M-17-08, "Promoting Efficient Spending to Support Agency Operations," agencies must report conference expenses on a dedicated space on their official website. Conference expenses are defined as all direct and indirect conference costs paid by the Government, whether paid directly by agencies or reimbursed by agencies to travelers or others associated with the conference but do not include funds paid under Federal grants to grantees. Conference expenses include any associated authorized travel and per diem expenses, hire of rooms for official business, audiovisual use, light refreshments, registration fees, ground transportation, and other expenses as defined by the Federal Travel Regulations.

4.2.2.1. By January 31 of each year, the agency must provide a description of all agency-sponsored conferences from the previous fiscal year where the net expenses for the agency associated with the conference were in excess of \$100,000. This description must include:

4.2.2.1.1. Total conference expenses incurred by the agency for the conference.

4.2.2.1.2. The location of the conference.

4.2.2.1.3. The date of the conference.

4.2.2.1.4. A brief explanation how the conference advanced the mission of the agency.

4.2.2.1.5. The total number of individuals whose travel expenses or other conference expenses were paid by the agency.

4.2.2.2. In addition, for any instances where the net expenses for an agency-sponsored conference exceeded \$500,000, the website must include the agency designated official's rationale and approval.

The website must also include information in the appropriate format (e.g., narrative) about the total net conference expenses for the fiscal year incurred by that agency as well as a general report about conference activities throughout the year.

4.2.2.3. In reporting this data, agencies must exclude any information that is considered to be sensitive, that is prohibited from public disclosure by statute or regulation, or that may jeopardize national security or the health, safety or security of conference attendees, organizers, or other individuals.

CHAPTER 33

FINANCIAL INSTITUTIONS AND MILITARY BANKING FACILITIES ON DOD INSTALLATIONS

1.0 GENERAL

1.1 Purpose

This chapter prescribes [policies](#) for the establishment, operation, and termination of [financial institutions \(FI\) and Military Banking Facilities \(MBF\)](#) on Department of Defense (DoD) installations worldwide [to enable the DoD mission and provide availability of financial services to DoD personnel](#). In addition to the DoD Components cited in Chapter 1, this chapter applies to the Uniformed Services University of the Health Sciences, all DoD nonappropriated fund instrumentalities ([NAFIs](#)) including the Military Exchange Services and morale, welfare, and recreation (MWR) activities, and all other organizations within DoD.

***1.2 Authoritative Guidance**

[Title 12 United States Code, section 265 \(12 U.S.C. § 265\)](#) and section [1789a](#) authorize banks and credit unions to be depositaries of public money and to be employed as fiscal agents of the United States. [10 U.S.C. § 2667](#) authorizes military departments and Defense agencies to lease non-excess property. [12 U.S.C. § 1770](#) authorizes agencies' discretion regarding space for the operation of credit unions in Federal buildings or Federal land. [Title 32 Code of Federal Regulations Part 230](#), "Financial Institutions on DoD Installations" codifies policies and responsibilities for financial institutions that serve DoD personnel on DoD installations worldwide. [DoD Directive \(DoDD\) 5118.03](#), "Under Secretary of Defense (Comptroller)/Chief Financial Officer, Department of Defense (USD(C)/CFO" authorizes the USD(C) responsibility to establish policy pertaining to FIs and MBFs operating on DoD installations.

***2.0 RESPONSIBILITIES**2.1 The Under Secretary of Defense (Comptroller) (USD(C)) [or designee must:](#)

2.1.1. [Develop policies governing the establishment, operation, and termination of FI and MBFs on DoD installations.](#)

2.1.2. [Coordinate with the USD Personnel and Readiness \(P&R\) on matters concerning FI and MBFs on DoD installations impacting the financial readiness, including consumer protection, of DoD personnel and families.](#)

2.1.3. [Take final action on requests to this chapter excluding requests for exception to subparagraph 3.1.1. Final action on requests for exceptions to subparagraph 3.1.1 is the responsibility of Assistant Secretaries of the Military Departments and may not be re-delegated, except as it pertains to temporary automatic teller machines \(ATMs\) not exceeding 30 days](#)

identified in subparagraph 3.5.5, which may be re-delegated.

2.1.4. Approve duly processed issuance of Geographic Franchise designations for credit unions operating outside the continental United States (OCONUS) DoD installations.

*2.2 The Under Secretary of Defense (Acquisition and Sustainment) (A&S) or designee must:

2.2.1. Monitor policies and procedures governing logistical support furnished to FIs and MBFs on DoD installations, including the use of DoD real property and equipment.

2.2.2. Advise the USD(C) regarding FI and MBF matters involving logistical support, DoD real property, and equipment.

2.3 USD(P&R)

The USD(P&R) (or designee) must advise the USD(C) on matters concerning FIs and MBFs operating on DoD installations impacting the financial readiness and affecting the morale and welfare of DoD personnel and families, including consumer protection.

2.4 The Director, Defense Finance and Accounting Service (DFAS) (or designee) must:

2.4.1. Develop procedures governing FIs and MBFs on DoD installations for promulgation in this Regulation.

2.4.2. For domestic DoD installations, coordinate with the Secretaries of the Military Departments (or designees) on subordinate installation commanders' requests to establish or terminate on-base FI and MBFs. For overseas DoD installations, coordinate with the Secretary of the Military Department concerned (or designee) on subordinate installation commanders' requests to establish or discontinue the provision of financial services from the on-base FI under contract with DoD to operate MBFs or to establish or terminate other banks or credit unions located on DoD installations.

2.4.3. In coordination with affected DoD Components, authorize the banking services provided by overseas MBFs and specify the charges or fees, or the basis for these, to be levied on users.

2.4.4. Coordinate with the Fiscal Assistant Secretary of the U.S. Department of the Treasury (or designee) on the domestic and overseas MBFs designation as depositaries and financial agents of the U.S. Government.

2.4.5. Designate a technical representative to provide policy direction for the procuring and administrative contracting officer(s) responsible under the Federal Acquisition Regulation (FAR) for acquiring banking services required at overseas DoD installations through the operation of MBFs.

2.4.6. Serve as principal liaison with the FIs under contract operating MBFs on overseas

DoD installations. Monitor MBF managerial and operational policies, procedures, and operating results and **take action** as appropriate.

2.4.7. As necessary, assist in the formation of government-to-government agreements for the provision of **financial** services on overseas DoD installations, in accordance with **DoDD 5530.3**, “International Agreements.”

2.4.8. Provide procedural guidance to DoD Components, as required.

2.4.9. **Liaise** with **FI** trade associations, leagues, and councils to interpret DoD policies toward respective memberships and aid in resolving **items of** mutual concern **regarding** the provision of financial services **on DoD installations**.

2.4.10. Coordinate with the USD(P&R) (**or designee**), through the USD(C) (**or designee**), on all aspects of morale and welfare and with the USD(A&S) (**or designee**), through the USD(C) (**or designee**), on all aspects of logistic support, **equipment, and real property** for on-base **FIs and MBFs**.

2.4.11. Monitor industry trends, conduct studies, and **engage** as necessary.

2.4.12. **Liaise**, as appropriate, with **FI** regulatory agencies at federal and state levels.

2.4.13. **Consider** Combatant Command **recommendations** before processing requests for **MBF** operations, credit union **geographic franchises**, or related actions.

2.4.14. **Provide USD(C) recommendation for adjudication of geographic franchise actions**. Maintain a geographic franchise **listing of all** credit unions **operating on** DoD overseas installations.

2.5 Secretaries of the Military Departments (or designees) **must**:

2.5.1. **Act on subordinate installation commanders’** requests to establish or terminate **FI** operations **on domestic DoD installations** in accordance with this guidance. **Act on subordinate installation commanders’ requests** to establish or discontinue providing financial services **via MBF operations**, or to establish or terminate other **FI** located on **overseas** DoD installations. **The Secretary of the Military Department must coordinate all termination requests with the USD(C) (or designee), through the Director, DFAS (or designee), before approving or denying the request. The appropriate regulatory agency will be notified by the Secretary of the Military Department (or designee) if the termination request is approved.**

2.5.2. Oversee **FI** use on respective DoD installations within the guidance contained herein.

2.5.3. **No less than annually, review or cause review of operating days and hours, services provided, related charges, and fees of FIs operating on DoD installations to ensure that they align with operating agreements established.**

2.5.4. Monitor practices and procedures of **FIs** operating on DoD installations to ensure **DoD personnel** welfare and interests are protected.

2.5.5. **Engage, if necessary, in discussion with domestic on-base FIs** to develop and expand **financial** services for DoD personnel.

2.5.6. Encourage the conversion of existing domestic MBFs on respective installations to independent or branch bank status where feasible.

2.5.7. Provide logistical support to overseas MBFs under terms and conditions identified in this Regulation **and** with the applicable terms of DoD contracts with the **FIs operating** overseas MBFs.

2.5.8. Refer policy decisions or proposed changes to this Regulation to the USD(C) (or designee) through the Director, DFAS (**or designee**).

2.5.9. **Ensure use of on-base FIs and MBFs** on DoD installations **by DoD personnel for personal banking activity** is on a voluntary basis and **is** not to be urged in preference to, or to the exclusion of, other **FIs**.

2.5.10. Encourage **FIs** on domestic DoD installations **to provide an offering of competitive banking services comparable to local off-base FIs, including** basic financial information **offered without charge**. **Basic financial information is defined as information on** budgeting, **account** balancing, and reconciliation, benefits of savings, prudent use of credit, how to start a savings program, how to shop and apply for credit, and the consequences of excessive credit.

2.5.11. **Liaise** with federal and state regulatory agencies and **FI** trade associations, leagues, and councils.

2.5.12. Make military locator services available to on-base **FIs and MBFs** in accordance with the Privacy Act guidelines in Figure 33-1.

2.5.13. **Take final action on requests for exceptions to subparagraph 3.1.1, an authority that may not be re-delegated, except as it pertains to temporary ATMs not exceeding 30 days identified in subparagraph 3.5.5, which may be re-delegated.**

2.6 Commanders of the Combatant Commands must:

2.6.1. Ensure the appropriate **coordination on** the following types of requests:

2.6.1.1. **Establishment of FI or MBF operations** in countries not presently served. Such requests **must** include a statement that the requirement has been coordinated with the U.S. Chief of Diplomatic Mission or U.S. Embassy and that the host-country **permits** the operation.

2.6.1.2. **Elimination of** any or all **FI or MBF operations** on DoD installations within a foreign country. Such requests **must** include a statement that the U.S. Chief of Diplomatic

Mission has been informed and that appropriate arrangements to coordinate local termination announcements and procedures have been made with the U.S. Embassy.

2.7 Commanders of Major Commands and Subordinate Installation Commanders [must](#):

2.7.1. Monitor [to ensure FI operations](#) within their commands [are aligned with Operating Agreements and that Operating Agreements and leases or other lease-like instruments are valid](#).

2.7.2. Coordinate requests to establish or construct [FI](#) or terminate logistical support to banks and credit unions within their commands. Personnel assigned to overseas security assistance positions [do](#) not monitor, coordinate, or assist [with this role](#) without the prior approval of the [Defense Security Cooperation Agency](#).

2.7.3. Assign responsibility for subparagraphs 2.7.1 and 2.7.2, to comptroller or resource management personnel.

2.7.4. Allow DoD personnel to attend conferences and meetings [with](#) representatives of on-base [FIs](#), when neither a conflict of duty nor of interest [arises](#), in accordance with [DoDI 1327.06](#) and [DoDI 1400.25, Volume 630](#).

2.7.5. Seek financial services only from existing on-base [FIs and MBFs](#), proposing alternatives where on-base [FIs and MBFs](#) fail to [satisfy](#) a valid requirement.

2.7.6. Ensure, to the maximum extent feasible, that [on-base FIs and MBFs may choose to](#) participate in pilot programs [demonstrating](#) new financial-related technologies or [establishing](#) new business lines (e.g., in-store banking) where the respective DoD Component has determined such services [are needed](#).

2.7.7. [Submit requests for the establishment of FIs and MBFs, substantiated by sufficient evidence and artifacts contained within this guidance, to the Secretary of the Military Department \(or designee\) concerned.](#)

2.7.8. [Submit requests for the termination of FIs and MBFs, substantiated by sufficient evidence and artifacts contained within this guidance, to the Secretary of the Military Department \(or designee\) concerned.](#)

2.7.9. [Issue the appropriate installation and/or facility access credential\(s\), visitor passes, and/or no-cost invitational travel orders to FI and MBF personnel consistent with local security requirements and in accordance with applicable DoD policy guidance for physical access control.](#)

2.7.10. [Unless otherwise noted, draft and conclude written agreements between FIs, MBFs, and other parties as identified within this guidance.](#)

3.0 GENERAL POLICY PROVISIONS

*3.1 Financial Institutions on DoD Installations

3.1.1. No more than one bank and one credit union are permitted to operate on a DoD installation except where they already existed as of May 1, 2000, or the installation was affected by base realignment and closure (BRAC). The following subparagraphs pertain to installations affected by BRAC:

3.1.1.1. When host organizations at two or more installations are consolidated on a single installation, each FI that operated a facility located on real property within the new combined installation is authorized to continue serving its customer base on the installation.

3.1.1.2. The commander of the combined installation may extend the opportunity to compete the request for new banking services to all FIs located on such installation. This includes in-store banking within the premises of a commissary operated by the Defense Commissary Agency (DeCA), a Military Exchange, or any other on-base retail facility.

3.1.1.3. If installation real property is non-contiguous and different FIs operate on geographically separated cantonment areas, the commander may first extend the opportunity to compete for new banking services to the FIs operating on the geographically separated cantonment area. If the FIs operating on the geographically separated portion of the installation decline to provide the services, the commander may permit the FIs operating elsewhere on the installation the opportunity to compete to provide the requested service.

3.1.1.4. If an FI ceases operations on a portion of a contiguous, combined installation on which more than one FI operates, and the commander wants continued levels of FI support in that area of the installation, the commander must extend the opportunity to compete for continued levels of support to the existing FIs operating on other areas of that installation.

3.1.1.5. If a FI voluntarily terminates operations on a non-contiguous geographically separated portion of installation, it is the installation commander's prerogative to decide whether sufficient need for financial services support exists and, if so, to provide FIs operating on other installation cantonment areas the opportunity to compete to provide such support.

3.1.1.6. FIs directly supporting an agency or organization relocating to an installation where an existing FI is providing banking services generally are not able to commence or continue operations on the installation to which an agency or organization relocates. Service Secretaries have authority to grant exceptions to subparagraph 3.1.1 of this guidance, specifically for cases where the FI or FIs operating on the gaining installation cannot accommodate the banking services requirements of the relocated organization's customers because of geographic separation between the sites of the relocated organization and the existing installation financial services provider, or for other compelling reasons.

3.1.2. Upon the request of an installation commander and with the approval of the

Secretary of the Military Department concerned (or designee), duly chartered FI may be authorized to provide financial services on DoD installations to enhance the morale and welfare of DoD personnel and facilitate the administration of public and quasi-public funds. Arrangements for the provision of such services must be in accordance with this chapter.

3.1.3. FIs may be established on DoD installations only after approval by the Secretary of the Military Department concerned (or designee), the appropriate regulatory agency as required, and in accordance with 32 CFR § 230.

3.1.4. Except in limited situations overseas, only **banks** insured by the Federal Deposit Insurance Corporation and credit unions insured by the National Credit Union Share Insurance Fund, or by another insurance organization specifically qualified by the Secretary of the Treasury, **may** operate on DoD installations. These **FIs** may either be State or federally chartered; however, U.S. credit unions operated overseas **must** be federally insured.

3.1.5. MBFs **may** be established on DoD installations when a demonstrated and justified need cannot be met through other means, **pending the availability of FIs willing to perform these functions**. Normally, MBFs **are only** authorized at overseas locations. MBFs may be considered for use at domestic DoD installations only when the cognizant DoD Component **cannot** obtain financial services from a **state** or federally chartered **FI** authorized to operate in the **installation state**. **MBFs may be designated** during mobilization as an emergency measure. The Director, DFAS, may recommend the designation of MBFs to the Treasury.

3.1.6. **The installation commander must approve the** expansion of financial services (to include in-store banking) requiring the outgrant of additional space or logistical support. Any DoD activity **considering expanding the availability of** financial services **must** coordinate requests with the installation banking liaison officer prior to the commander's consideration.

3.1.7. Retail banking operations **must** not be performed by any DoD Component. Solicitations for such services **must** be issued, **and** proposals accepted, **according to** the policies identified in this chapter.

3.1.8. **If an FI or MBF operates on a DoD installation,** installation commanders **must** not seek financial services from any entity other than the on-base **FI or MBF**.

3.1.9. Military disbursing offices, **NAFIs** (including MWR activities and the Military Exchange Services), and other DoD Component activities requiring financial services **must** use on-base **FIs and MBFs** to the maximum extent feasible.

3.1.10. **NAFIs** (including MWR activities and the Military Exchange Services) that desire and are authorized to provide **currency** accommodation exchange services **to individuals must** acquire **all** foreign currency **for this purpose** from the servicing MBF at the MBF accommodation rate and sell it at a rate of exchange no more favorable than the customer rate available at the MBF.

***3.2 Security**

3.2.1. The installation commander (or designee), officials of the on-base FIs, and installation security authorities **must** establish an understanding of each entity's responsibilities on all matters of asset protection.

3.2.2. **Establish a** written agreement outlining the security procedures that the FI follows and the role that installation security authorities play regarding alarms, movement of cash, and **criminal activity response** procedures to be followed (e.g., **vandalism or robbery**).

3.2.3. Cash and other assets in on-base FIs are the property of those FIs. **Except for MBFs operated under contract, maintenance of alarms and the guarding and/or escorting of cash** is the sole responsibility of the on-base FI. **The installation commander may make a determination that providing for the guarding or escorting of cash is desirable or necessary.**

3.2.4. **The use of armored vehicles for transportation of cash is the sole responsibility of the on-base FI and MBF and use must be coordinated with the installation commander to permit access to DoD installations and facilities.**

***3.3 Central Locator Services**

Military locator services will be provided per the Privacy Act guidelines in Figure 33-1 and associated fees, if any, are to be paid by the FI in accordance with Volume 11A, Chapter 4. **See the [Locate Military Members](#) website to obtain information on how to locate a military member, retiree, or facility.**

3.4 Advertising and Personal Solicitation

3.4.1. An on-base FI or MBF may use the unofficial section of that installation's daily bulletin, provided space is available, to inform DoD personnel of financial services and announce **voluntary information sessions on financial information topics within the scope of this guidance**, and other matters of broad general interest. **Media may not be used for competitive or comparative advertising of, for example, specific interest rates on savings or loans.**

3.4.2. An on-base FI or MBF may use installation bulletin boards, newsletters, or web pages to post general information that complements the installation's financial **education** programs and promotes financial responsibility and thrift. **Such information must be unbranded and not promote the services of a specific FI or type of institution.** Message center services may distribute a reasonable number of announcements to use on bulletin boards so long as this does not impose an unreasonable workload.

3.4.3. An on-base FI or MBF may **participate in the newcomer's briefings, as invited, and/or be permitted to** include an insert in the installation's newcomers' package (or equivalent). **Briefings and inserts must** benefit newcomers by identifying the financial services that are available on the installation.

3.4.4. [DoD Instruction 5120.20](#), “American Forces Network Program” prevents using the Armed Forces Radio and Television Service to promote a specific FI.

3.4.5. Installation activities, including Military Exchange Services, MWR, and concessionaire outlets, must not permit literature distribution from off-base FIs if there is an on-base FI. This does not prevent the Military Exchange Services from distributing literature on affinity credit card services that those Military Exchange Services may acquire centrally through competitive solicitation. Off-base FIs may use commercial advertising, mailings, or telecommunications to reach their customers.

3.4.6. Advertising in government-funded (official) installation papers is not permitted except for insert advertising in the Stars and Stripes overseas. Installation newspapers funded by advertisers are not official publications and, thus, may include advertising paid for by any FI or MBF.

3.4.7. An on-base FI and MBF must comply with the solicitation prohibitions contained in paragraph 6.4 and in [DoDI 1344.07](#), “Personal Commercial Solicitation on DoD Installations.”

3.5 ATM Service

3.5.1. ATMs are electronic banking services and, as such, must only be provided by FIs and MBFs in accordance with the provisions of paragraph 3.1.

3.5.2. FIs installing ATMs on DoD installations must bear the cost of ATM installation, maintenance, and operation. The installation commander may enter into an agreement with the on-base FI wherein the installation may acquire and provide ATMs to on-base FI under certain circumstances, such as when it is advantageous to the government to have ATMs available for use, but the acquisition cost is prohibitive. No ATMs may be purchased by an installation unless approved by the Secretary of the Military Department concerned (or designee). In all such cases, installation costs and all logistic support must be borne by the FI. Logistical support and cost to complete site preparation, install, and remove MBF ATMs are borne by the local installation.

3.5.3. ATM approval authority is as follows:

3.5.3.1. The installation commander has approval authority when an on-base FI wishes to place an ATM on the installation. If approved, the ATM location must be reflected as an amendment to the operating agreement and lease or lease-like instruments.

3.5.3.2. Where there is no on-base FI, follow the solicitation procedures to obtain financial services set forth in paragraphs 4.2 and 6.2.

3.5.4. The availability of ATM service does not preclude the later establishment of an FI office should conditions change on an installation.

3.5.5. Installation commander, Military Exchange Services, MWR activities and other NAFIs, and all other organization proposals to install ATMs, including temporary ATM support

not exceeding 30 days, on domestic installations from other than on-base FIs must be considered only when (1) ATM service is unavailable or existing service is inadequate, and (2) the on-base FIs either decline to provide the service, fail to improve existing service, or does not formally respond to the request for such service within 30 days. ATM service from other than on-base FIs is an exception to the policy. The procedures to establish an on-base FIs set forth in paragraphs 4.2 and 6.2 must be followed when soliciting for such ATM services. Proposals received not assessing ATM fees to users are preferred.

3.5.6. ATM service from foreign banking institutions may be authorized on overseas installations with or without MBFs operated under contract where the installation or community commander determines that a bona fide need exists to support local national hires. On installations with MBFs operated under contract, the MBFs must be the primary source of the ATM service except when the DFAS Director, (or designee) determines that providing the service is either not cost effective or precluded by the pertinent status of forces agreements, other intergovernmental agreements, or host-country law. Where ATM service from foreign banking institutions is authorized, ATM connectivity must be limited to host-country networks and the ATMs must dispense only local currency (no U.S. dollars). The operating agreement covering ATM service must be negotiated by the installation or community commander and submitted for approval by the appropriate Combatant Commander (or designee) prior to its execution. A copy of the operating agreement is forwarded through DoD Component channels to the DFAS Director (or designee).

3.6 Domestic and International Treasury General Accounts

In cases where authorization is required for the on-base FI or MBF to act as a Treasury General Account (TGA) domestic depository (or, on overseas installations, an International Treasury General Account (ITGA) depository), the FI must satisfy the risk management standards established by the Secretary of the Treasury. On-base FIs and MBFs must accept deposits for credit to the TGA (or ITGA) when so authorized.

3.7 Staffing

3.7.1. On-base FI must be staffed adequately (i.e., commensurate with industry standards for similar numbers of accountholders and financial services rendered). Staffing at overseas MBFs operated under DoD contract must be maintained within negotiated ceilings.

3.7.2. All staffing must comply fully with applicable equal employment opportunity laws and with the spirit of DoD equal employment opportunity policies as set forth in DoDD 1440.1, “The DoD Civilian Equal Employment Opportunity (EEO) Program.”

3.7.3. DoD personnel, excluding military retirees and their dependents, may not serve as directors of domestic or foreign FI operating offices on those DoD installations where they currently are assigned. This does not preclude a member of a Reserve Component, who has been serving as a director of a domestic or foreign FI operating a banking office on a DoD installation, from retaining his or her directorship if called to active duty.

3.7.4. DoD personnel may not be detailed to duty with an on-base FI located on a DoD installation. Off-duty personnel, however, may be employed by an on-base FI subject to approval by the installation commander (or designee). Such employment must not interfere with the performance of the individual's official duties and responsibilities.

3.8 Departure Clearance

The installation commander establishes the clearance policy for all DoD personnel leaving the installation. The on-base FIs and MBFs must be included as places requiring clearance. The purpose of a clearance is to report the change of address, reaffirm outstanding debts, and receive financial counseling, if desired or appropriate. Clearance may not be denied in order to collect debts or resolve disputes with FI or MBF management.

3.9 Operating Agreements

3.9.1. Except for MBFs operated under contract, before on-base FI operations begin, a written operating agreement (See Figure 33-2) and the appropriate real estate outgrant (i.e., a lease, permit or license issued as identified in paragraphs 4.5, 4.6, 4.7, 6.4, 6.5, and 6.6) must be negotiated directly between the installation commander and officials of the FI. Thereafter, the installation commander and the FI must jointly review the operating agreement at least once every 5 years. The operating agreement must identify the responsibilities and requirements of the FI and the installation commander relating to the FI's operations on-base. The command must send one copy of the agreement through appropriate channels to the Secretary of the Military Department concerned (or designee). The installation commander and the FI must maintain a copy of it. At a minimum, the agreement must include the following provisions:

3.9.1.1. Identification of services rendered and the conditions for service. Agreements, however, may not restrict either entity's right to renegotiate services and fees.

3.9.1.2. Agreement complying with this Regulation and 32 CFR § 230.

3.9.1.3. The FI will furnish copies of its financial reports and other local publications on an "as needed" basis in response to the installation commander's (or designee's) formal request.

3.9.1.4. The FI will indemnify and hold harmless the U.S. Government from (and against) any loss, expense, claim, or demand to which the U.S. Government may be subjected because of death, loss, destruction, or damage in conjunction with the use and occupancy of the premises caused in whole or in part by agents or employees of the on-base FI.

3.9.1.5. Neither DoD nor its representatives are responsible or liable for or for any loss (including criminal losses), expense, or claim for damages arising from operations.

3.9.1.6. The FI will provide no less than 180 days advance written notice to the installation commander before ceasing operations.

3.9.1.7. **Specification of** the security services to be provided for guarding cash shipments at times of unusual risk **to the FI** and to avoid excessive insurance costs charged to that **FI**.

3.9.1.8. Statement that the physical security for cash and negotiable items **will be** consistent with the requirements of the **FI's insurer and agreement** the on-base **FI will provide a copy of these requirements** to the installation commander on request.

3.9.1.9. The **FI** reimburses the installation for logistical support (such as **government-provided** custodial, janitorial, and other services) at rates set forth in the lease or agreement between the installation and the **FI**.

3.9.1.10. Statement that **FI** operations **must** be terminated, when required, under provisions specified in this Regulation.

3.9.2. **Mutually agreed** expansion of services **must be** documented as an amendment to the existing operating agreement between the installation commander and the on-base **FI**. The amendment to the operating agreement and any required lease (to include a change to an existing lease) **must** be in place prior to the initiation of new financial services, offices, **or ATMs**.

3.10 Installation Financial Services

* 3.10.1. DoD Components, NAFIs, including Military Exchange Services and MWR activities, or any other organizational entities within the DoD, are prohibited from conducting retail banking operations. However, cash-back transactions at point-of-sale terminals and check cashing, provided by authorized DoD activities are not considered financial services or retail banking operations within the context of this section.

3.10.2. Financial services **provided on DoD installations must** be as uniform as possible for all personnel. As separately negotiated, or based on a fee schedule, custodians of nonappropriated funds **must** compensate **the on-base FIs and MBFs** for services received. **Compensating balances or fees may be used to pay for** the services provided. Fees **must** not exceed the charge customary for the **FI** less an offsetting credit on balances maintained. **FIs and MBFs must** classify nonappropriated fund accounts as commercial accounts.

3.10.3. At a minimum, **FIs must** provide the same services to individuals and **NAFIs** as are available in the surrounding geographic area. **MBFs must provide services in accordance with contracts informing operations**.

3.10.4. On-base **FIs and MBFs** may conduct operations during normal duty hours provided they do not disrupt the performance of official duties. Operating hours **must** be set, in consultation with the bank or credit union liaison officer, to meet the needs of all concerned. ATMs may be used to expand financial services and operating hours.

3.10.5. DoD personnel may use their allotment of pay privileges to establish sound savings practices through on-base **FIs and MBFs**. The on-base **FI or MBF must** credit customer accounts

no later than the deposit date of the allotment check or electronic funds transfer.

3.10.6. On-base **FIs and MBFs must** conform to the **Standards of Fairness** principles before executing loan or credit agreements.

3.10.7. On-base **FIs and MBFs must** make basic financial education available without charge to individuals seeking these services. Financial education **must be limited to** basic personal and family finances **comparable to education commonly provided by FIs** such as budgeting, checkbook balancing and account reconciliation, benefits of savings, prudent use of credit, how to start a savings program, how to shop and apply for credit, and the consequences of excessive credit. Financial education services must not be advertised outside of the FI's or MBF's physical space unless otherwise authorized within this guidance. On-base FIs and MBFs are encouraged to help ensure DoD personnel are aware of the availability of financial education and counseling services provided by DoD through military and family support centers.

3.10.8. On-base **FIs and MBFs** must strive to provide the best service to all customers. On-base **FIs and MBFs** that discriminate in their services violate **this chapter**. In resolving complaints of discrimination, use the procedures specified in subparagraph 4.8.8.

3.10.9. All correspondence regarding on-base **FIs**, and questions concerning their operation that cannot be resolved locally, **must** be referred through command channels to the Secretary of the Military Department concerned (or designee) for consideration. **All correspondence regarding MBFs, and questions concerning their operations that cannot be resolved locally, must be referred through command channels to the Director, DFAS (or designee).**

***3.11 Banking Liaison Officer**

Each installation commander having an on-base FI or MBF must appoint a Banking Liaison Officer (BLO). The BLO's name and duty telephone number must be displayed prominently at each FI and MBF location on the installation. The responsibilities of BLOs must be assigned to comptroller or resource management personnel. Employees, officials, or directors of a FI or MBF may not serve as BLOs. The BLO must:

3.11.1. Ensure all on-base FIs and MBFs have the latest version of this chapter.

3.11.2. Ensure that no DoD entities are providing financial services on the installation.

3.11.3. Maintain contact with FI and MBF managers to ensure local information regarding installation operations that may impact the provision of financial services is communicated to

resolve local installation items of mutual concern. In executing this authority, the BLO must not become involved in the internal operations of the FI or MBF.

3.11.4. For FI only, review the schedule of service charges and fees annually and ensure that the operating agreement is updated at least every 5 years. Renegotiate the financial services offered and related service charges and fees as necessary.

3.11.5. Assist in resolving general customer complaints about services provided by FIs and MBFs. Complaints specific to transactions between an FI or MBF and individuals are to be resolved through agreements concluded between the FI or MBF and the individual.

3.11.6. Assist in resolving complaints of discrimination with financial services provided by the FI or MBF. If a complaint cannot be resolved, a written request for investigation must be forwarded to the appropriate regulatory agency for FIs and to the Director, DFAS (or designee) for MBFs. Any such request must document the problem and command efforts taken toward its resolution. Informational copies of all related correspondence must be sent through channels to the Secretary of the Military Department concerned (or designee) for transmittal to the Director, DFAS (or designee).

3.11.7. Assist the installation commander in reporting to the appropriate regulatory agency any evidence suggesting malpractice by FI personnel and in reporting to the Director, DFAS (or designee) for MBF personnel.

*3.12 In-Store Banking

3.12.1. Under the direction and approval of the installation commander and the DeCA, Military Exchange Services, MWR activities, or any other on-base retail facility, an on-base FI or MBF may provide in-store banking or ATMs within premises operated by the DeCA, Military Exchange Services, MWR activities, or any other on-base retail facility.

3.12.2. The installation commander must determine whether a solicitation is required. A solicitation is required whenever there are two or more FIs operating on a DoD installation. If only one FI operates on the installation, no solicitation is required, and the installation BLO must work directly with the on-base FI to obtain the requested financial services. In situations where both an FI and MBF operate on the installation, the requirement must be coordinated through the Director, DFAS (or designee) prior to seeking financial services for a determination of whether MBF-provided services are preferred.

3.12.3. The DoD Component seeking in-store banking (e.g., in buildings operated by the DeCA, Military Exchange Services, MWR activities, or any other on-base retail activity) must conduct the solicitation aligned with applicable solicitation procedures contained within subparagraph 4.3.4.

3.12.4. The installation commander (or designee) must formally notify the selected FI, ensure the granting of appropriate lease or lease-like instruments, and ensure additional financial services are documented as an amendment to the existing operating agreement prior to beginning

activities to facilitate the provision of financial services. The amendment **must** be signed by the installation commander, the on-base FI, and the DoD Component that hosts the in-store FI operation.

***3.13 Domestic MBF**

3.13.1. Domestic MBF Establishment

3.13.1.1. Requests to establish **domestic** MBFs **must** be made only when a need for required financial services cannot be met by other means **and are predicated on FIs interested in competing to fill requirements**. During mobilization, however, MBFs may be **requested** as an emergency measure.

***** **3.13.1.2.** Installation commanders **must** send requests for a **domestic** MBF with justification for its establishment through the Secretary of the Military Department concerned (or designee) to the Director, DFAS (or designee), for coordination with the Treasury. The Treasury may approve the designation of an MBF under provisions of 12 U.S.C. § 265 **and** 12 U.S.C § 1789a.

3.13.1.3. **Domestic** MBF operations may begin only after approval for **domestic** MBF status is granted by the Treasury.

3.13.2. Domestic MBF Conversion

3.13.2.1. Where **domestic** MBFs exist, installation commanders **must, on a yearly basis and in accordance with paragraph 4.3, continue to seek FI interest in operating on-base**.

3.13.2.2. Send proposals from the **domestic** MBF to convert **to an independent or branch FI** through command channels to the Secretary of the Military Department concerned (or designee) for approval. The Secretary of the Military Department (or designee) **must** forward the request to the Director, DFAS, for coordination with the Treasury.

3.13.2.3. Forward unsolicited proposals from **FIs** to establish independent or branch **FIs** where a **domestic** MBF exists through command channels to the Secretary of the Military Department concerned (or designee). Each proposal **must** be evaluated on its own merits.

3.13.2.4. The installation commander **must** inform the **FI** operating the **domestic** MBF that an unsolicited proposal for **an independent or branch FI** has been received and **must** offer the **FI operating the domestic MBF** the opportunity to submit its own proposal.

3.13.3. Domestic MBF Termination

The Director, DFAS (or designee), **must** coordinate the termination of a FI's authority to operate a domestic MBF with the Treasury.

4.0 BANKS OPERATING ON DOMESTIC DOD INSTALLATIONS

4.1 General Policy

U.S. banks may operate on DoD installations, in accordance with this chapter, when required by installation commanders to promote the morale and welfare of installation personnel and to help facilitate installation operations.

4.2 Establishment

4.2.1. Include the following information in the installation commander's request to the Secretary of the Military Department concerned (or designee) for the establishment of banks on DoD installations:

4.2.1.1. The approximate number of DoD personnel at the installation, and other persons who may be authorized to use the bank.

4.2.1.2. The name(s), address(es), and distance(s) between the installation and the FIs in the vicinity.

4.2.1.3. Available transportation between the installation and the FIs listed in subparagraph 4.2.1.2.

4.2.1.4. The number of DoD personnel in duty assignments that confine them to the installation or who cannot obtain transportation.

4.2.1.5. The name and location of all FIs used to make official deposits for credit to the TGA.

4.2.1.6. A list of organizational and nonappropriated fund accounts, the name and location of the FI used to make deposits, and the average daily activity and balance of each account.

4.2.1.7. A written description and photographs of the space proposed for bank use.

4.2.1.8. A statement listing requirements for safes and a vault, alarm systems, and surveillance equipment, when necessary.

4.2.1.9. Reasons for use of space controlled by the General Services Administration (GSA). All the GSA-assigned space, whether leased space or federal office building space, is reimbursable to the GSA at the standard level user charge. As such, space occupied by a bank to serve military needs is assigned and charged by the GSA.

4.2.1.10. Any other information pertinent to the establishment of an on-base bank.

4.2.2. The Secretary of the Military Departments (or designee) must:

4.2.2.1. Review each request for the establishment of an on-base bank, ensure solicitations are conducted in accordance with this chapter, and take action to bring solicitations into compliance with this chapter.

4.2.2.2. Conduct a solicitation for the establishment of an on-base bank when warranted.

4.2.2.3. Review the final results of solicitations to ensure compliance with this chapter and approve the selection of the bank.

4.2.2.4. Notify the selected bank either directly or through the installation commander. The selected bank must, in turn, obtain operating authority from their regulating agencies, if required.

4.2.2.5. Forward proposals to establish TGAs to DFAS at dfas.dscc.jff.mbx.dod-financial-institutions-tga@mail.mil for review, processing, and subsequent forwarding to the Fiscal Assistant Secretary of the Treasury in accordance with Volume 11, Chapter 5.

4.3 Solicitations

The Secretary of the Military Department concerned (or designee), or the installation commander with advice from the cognizant Secretary of the Military Department (or designee), must conduct solicitations, to include pre-proposal conferences, for on-base banking. Subject to the criteria for selection outlined in subparagraph 4.3.4, the preferred sources of on-base financial services at domestic installations are federally insured, state-chartered or federally insured, federally chartered banks operating in the local area. Subparagraph 4.3.1 addresses distribution of the solicitation only and does not preclude any federally insured, state-chartered or federally insured, federally chartered bank from responding at any stage (from local distribution in subparagraph 4.3.1.1 to publication in SAM.gov and financial institution trade journals as outlined in subparagraph 4.3.1.3) of the solicitation process. Do not commit to any bank regarding its proposal until the appropriate regulatory agency makes a designation if a designation is required.

4.3.1. Solicitations to establish an on-base bank must be accomplished in the following order:

4.3.1.1. Send solicitation letters to local banks, publish a solicitation announcement in the local newspaper(s), and forward the same to FI associations.

4.3.1.2. If the Secretary of the Military Department concerned (or designee) or, where delegated, the installation commander, determines that the geographic scope of the solicitation needs to be expanded, forward a prospectus to FIs in a larger geographic area, as well as FI associations and regulatory authorities in the state where the installation is located.

4.3.1.3. If the Secretary of the Military Department concerned (or designee) or, where delegated, the installation commander, determines that the geographic scope of the solicitation needs to be expanded further, the [solicitation](#) will be published in Sam.gov.

4.3.2. For [installation-level](#) solicitations, the installation commander [must](#) review proposals to establish [on-base banks](#), select the bank making the best offer, and forward a recommendation to the Secretary of the Military Department concerned (or designee) for final approval.

4.3.3. Banks [must](#) not be coerced when banking arrangements are under consideration or after [on-base](#) offices are established. If otherwise proper, this prohibition does not preclude:

4.3.3.1. Discussions with bank [personnel](#) prior to submitting a proposal for a new banking office.

4.3.3.2. [Requesting](#) banks extend their operations in support of an installation requirement.

4.3.3.3. Discussions with bank [personnel](#) to improve services or to create savings for the bank, DoD personnel, [or the local installation](#).

4.3.3.4. Seeking proposals for [additional](#) banking service as directed by the Secretary of the Military Department concerned (or designee).

4.3.3.5. Negotiations preparatory to signing an [operating](#) agreement [or lease or lease-like instrument](#).

4.3.4. When soliciting [financial](#) services, [evaluate](#) proposals on specific factors identified in the solicitation. These factors, at a minimum, [must](#) be predicated on the services required outlined in Figure 33-2, paragraph 3, the [bank's](#) schedule of service fees and charges, [space requirements and terms](#), and the extent of logistical support required. Prior to issuance of the solicitation, the preparing office [must](#) identify (for internal use during the subsequent evaluation period) the [factor](#) weights to be applied in the solicitation. Proposals [must](#) be evaluated, and [the](#) ultimate selection made based on the factors and weights developed for the solicitation.

4.3.5. The Secretary of the Military Department concerned (or designee), or the installation commander with advice from the cognizant Secretary of the Military Department (or designee), [must](#) make the selection of the bank based on the provisions outlined in this section.

4.4 Terminations

4.4.1. [The installation commander must approve](#) requests for termination of [an on-base bank](#), substantiated by sufficient evidence, and forward to the Secretary of the Military Department concerned (or designee). [The installation commander must initiate](#) the termination of [on-base bank](#) operations [only](#) under one of the following conditions:

4.4.1.1. The **installation** mission has changed or is scheduled to be changed, thereby eliminating, or substantially reducing the requirement for financial services.

4.4.1.2. Active military operations prevent **the** continuation of on-base financial services.

4.4.1.3. **The bank's** performance in providing services is not satisfactory according to standards ordinarily associated with the financial services industry or is inconsistent with the operating agreements or **this chapter**. **The installation commander's written communication with local bank leadership must be undertaken to attempt to resolve matters prior to making this determination.**

4.4.1.4. When merger, acquisition, change of control, or other action results in violation of the terms and conditions of the existing operating agreement, the Secretary of the Military Department (or designee) **must** terminate the operating agreement with the existing banking institution. When the merger, acquisition, change of control, or other action does not result in violation of the terms and conditions of the existing operating agreement, the Secretary of the Military Department (or designee) **must** novate the operating agreement identifying the change in control.

4.4.2. The installation commander **must** forward **approved** requests for termination **of an on-base bank, substantiated by sufficient evidence**, to the Secretary of the Military Department concerned (or designee). The Secretary of the Military Department (or designee) **must review all termination actions to ensure compliance with this chapter and** coordinate all termination actions with the USD(C), through the Director, DFAS, before **the Secretary of the Military Department (or designee) provides** notification to the appropriate regulatory agency **if required**. **After** this coordination process:

4.4.2.1. **The Secretary of the Military Department (or designee) will notify the installation commander if the termination is in accordance with this chapter and if so, the installation commander must notify the on-base bank of the termination. The installation commander must establish a departure date and revoke the authority of the bank to operate on the installation via termination of the lease or lease-like instrument and operating agreement.**

4.4.2.2. **If the termination is not in accordance with this chapter, the request will be returned by the Secretary of the Military Department (or designee) to the installation commander for remediation or dismissal.**

4.4.3. A bank that intends to **voluntarily** terminate its **on-base** operations **must** notify the installation commander **in writing on official letterhead** at least 180 days before the **proposed** closing date. **Within the notification, the bank must identify reasons for termination. This notification and an acknowledgment from the installation commander must** precede any public announcement of the planned closure. When appropriate, the **installation** commander **may** attempt to negotiate an agreement permitting the bank to continue operations until the installation has made other arrangements. Immediately upon notification of a **termination**, the **installation** commander **must** advise the DoD Component headquarters concerned. **If the continuation of financial services**

is justified, action to establish another on-base FI must be taken in accordance with paragraph 4.3, paragraph 6.2, or both, depending on if another FI is currently operating on-base. A copy of the voluntary termination notification must be forwarded through command channels to the Director, DFAS (or designee).

4.5 Use of Space, Logistical Support, and Military Real Property for Banks **Operating on Domestic DoD Installations**

4.5.1. Lease Terms

4.5.1.1. The consideration for a lease **must** be determined by **an** appraisal of fair market rental value in accordance with 10 U.S.C. § 2667. Periodic reappraisals **must** be based upon the fair market rental value exclusive of the **bank** improvements made. **Coordinate with USD(A&S) or designee.**

4.5.1.2. The **lease** term **must** not exceed 5 years except where the banking institution uses its own funds to improve existing government space as outlined in subparagraph 4.5.5. If space occupied is assigned by the GSA, charges to **FIs** for space and services **must** be at the GSA standard level user rate.

4.5.1.3. Leases **must** include the following provisions:

4.5.1.3.1. The government has the right to terminate the lease due to national emergencies; installation inactivation, **change in installation operations eliminating or substantially reducing the need for financial services**, closing, or other disposal action; or default by the lessee.

4.5.1.3.2. The lessee **must** provide written notice 180 days prior to voluntarily terminating the lease.

4.5.1.3.3. Upon a lease termination, the government has the option to cause the title of all structures and other improvements to be conveyed to the United States without reimbursement or require the lessee to remove the improvements and restore the land to its original condition.

4.5.2. Logistical Support

4.5.2.1. The bank **must** be housed in a building accessible to DoD personnel on the installation and in a location permitting reasonable security.

4.5.2.2. Banks **must** perform all maintenance, repair, improvements, alterations, and construction on the banking premises.

4.5.2.3. Banks **must** pay for all utilities (i.e., electricity, natural gas or fuel oil, water, and sewage), heating and air conditioning, intra-station telephone service, and custodial and janitorial services including **garbage disposal** and outdoor maintenance (such as grass cutting and

snow removal) at rates set forth in the lease, operating agreement or other written agreement between the installation and the bank.

4.5.3. Leases executed before the issuance of [this chapter](#) may not be altered solely [because of](#) the provisions of [this chapter](#) unless a lessee specifically requests a renegotiation under these provisions. No lease may be negotiated or renegotiated, nor may any rights be waived or surrendered without compensation to the government and coordination with USD(A&S) or designee.

4.5.4. When a bank participates in the construction of a shopping mall complex the lease [must](#) cover only land where the bank [is](#) physically located.

4.5.5. When a bank uses its own funds to improve existing government space, leases for a period not to exceed 25 years subject to periodic review every 5 years to assess changes in fair market value, may be negotiated for a period commensurate with the appraised value of the leasehold improvements divided by the annual lease fee.

4.6 Land Leases

4.6.1. A lease for [the](#) construction of a bank [must](#) be at the appraised fair market rental value. Charges [must](#) apply for the term of the lease not to exceed 25 years, subject to periodic review every 5 years to assess changes in fair market value.

4.6.2. If determined to be in the government's interest, an existing [land](#) lease may be extended prior to [the](#) expiration of its term. Passage of title to facilities [must](#) be deferred until all extensions have expired. Such extensions [must](#) be for periods not to exceed 5 years with lease payments set at the appraised [land](#) fair market rental as determined on the date of each such extension. Bank lessees [must](#) continue to maintain the premises and pay for utilities and services furnished.

4.6.3. When, under the terms of a lease, title to improvements [passes](#) to the government, arrangements normally [are](#) made as follows:

4.6.3.1. When the square footage exceeds that authorized in [Unified Facilities Criteria and Unified Facilities Guide Specifications \(MIL-STD-3007F\)](#), the bank [must](#) be given first choice to continue occupying the excess space under a lease [providing](#) for fair market rental for the land underlying that excess space.

4.6.3.2. The charge for continued occupancy of improved space by a bank [must](#) be at fair market rental value only for the associated land. The lessee [must](#) continue to maintain the premises and pay the cost of utilities and services furnished.

4.7 Construction

Banks may construct buildings subject to the following provisions:

4.7.1. The building **must** be solely for the use of the bank and may not provide for other commercial enterprises or government instrumentalities.

4.7.2. Construction projects must meet the criteria in MIL-STD-3007F.

4.7.3. Construction Projects Approval Authority:

4.7.3.1. Projects costing \$25,000 or more **must** be approved by the Major Command with an information copy sent to the Secretary of the Military Department concerned (or designee). The Secretary of the Military Department (or designee) **must** have 30 days to provide comments to the Major Command before final approval can be granted.

4.7.3.2. Projects costing less than \$25,000, including interior alterations and room or office additions to existing bank facilities, **must** be approved by installation commanders. Copies of approvals, including the identification of project cost, **must** be furnished to the Secretary of the Military Department concerned (or designee).

* 4.7.4. **Notify** the Congress of all construction projects, using other than appropriated funds and costing over \$1,000,000, in accordance with [DoDI 7700.18](#), “Commissary Surcharge, Nonappropriated Fund (NAF), and Privately Financed Construction Reporting Procedures.”

4.7.5. Proposals for the construction of structures on installations at a bank’s expense **must** be reviewed and reported in accordance with **Military Department** regulations. The following information **must** be listed to support each proposal:

4.7.5.1. Number of DoD personnel at the installation plus others who may use the bank;

4.7.5.2. Square footage of the proposed building;

4.7.5.3. Land area to be leased to the bank;

4.7.5.4. Term of the lease;

4.7.5.5. Estimated cost of construction;

4.7.5.6. Estimated fair market value of the land to be leased;

4.7.5.7. A statement that the bank **is** responsible for utility connections and other utility and maintenance costs;

4.7.5.8. A statement that the building **is** used only for financial services;

4.7.5.9. A statement that bank officials understand the potential building loss in the event of installation closure or other delimiting condition; and

4.7.5.10. Justification for a waiver of space criteria if the building exceeds that specified in MIL-STD-3007F.

4.7.6. Banks [must](#) pay for interior alterations, maintenance, utilities, custodial, and other furnished services.

4.7.7. Banks [must](#) pay all construction costs.

5.0 [FINANCIAL INSTITUTIONS AND MILITARY BANKING FACILITIES OPERATING ON OVERSEAS DOD INSTALLATIONS](#)

5.1 General Provisions of [Financial](#) Services Overseas

The Department acquires [financial](#) services overseas for use by authorized persons and organizations from the following sources.

5.1.1. MBFs operated under contract and authorized by the pertinent status of forces agreement, other intergovernmental agreements, or host-country law.

5.1.2. Domestic and foreign banks located on overseas DoD installations. Each such institution [must](#) be:

5.1.2.1. Chartered to provide financial services in that country.

5.1.2.2. A party to a formal operating agreement with the installation commander to provide such services.

5.1.2.3. Identified, where applicable, in the status of forces agreements, other intergovernmental agreements, or host-country law.

5.2 Establishment

5.2.1. Overseas MBFs Operated Under Contract. Installation or community commanders requiring [financial](#) services [must](#) send a request through command channels to the Secretary of the Military Department concerned (or designee) for concurrence and subsequent transmittal to the Director, DFAS ([or designee](#)), for approval.

5.2.1.1. Requests to establish MBFs [must](#) include, but are not limited to, the following information:

5.2.1.1.1. The approximate number of DoD personnel at the installation and in the community and any other persons who may be authorized to use the MBF.

5.2.1.1.2. The distance between the installation and the nearest MBF and credit union office, the names; [email and mailing](#) addresses, and telephone numbers of the operators of those institutions; and the installations and communities where they are located.

5.2.1.1.3. The availability of official and public transportation between the installation or community and the nearest MBF and credit union office.

5.2.1.1.4. The name and location of the depository used to make official deposits for credit to the TGA.

5.2.1.1.5. A list of organizational and nonappropriated fund accounts, the name and location of the **FIs** where deposited, and the average daily activity and balance of each account.

5.2.1.1.6. A written description and photographs or drawings of the space proposed for MBF use. The extent and approximate cost of required alterations, including the construction of counters and teller cages.

5.2.1.1.7. A statement that recognizes the logistical support, including equipment, to be provided by the local command as detailed in paragraph 5.3. The statement includes the costs of such equipment and the **way it is** acquired.

5.2.1.1.8. In countries where no MBFs currently are operated under contract, a statement from the cognizant Combatant Command that the requirement has been coordinated with the U.S. Chief of Diplomatic Mission or U.S. Embassy and that the host-country permits the operation in accordance with subparagraph 2.6.1.1.

5.2.1.1.9. Any other pertinent information to justify the establishment of an MBF.

5.2.1.2. As a rule, MBFs may be established only when the installation or community population meets the following criteria:

5.2.1.2.1. **Full-time MBF.** Except in unusual circumstances, a total of at least 1,000 permanent military personnel and DoD civilian employees is necessary to qualify for a full-time MBF.

5.2.1.2.2. **Part-time MBF.** Except in unusual circumstances, a total of at least 250 permanent military personnel and DoD civilian employees is necessary to qualify for a part-time MBF.

5.2.1.3. If the population **in** a certain remote area is not sufficient to qualify under the criteria for full-time or part-time MBFs, the installation or community commander explores all other alternatives for acquiring limited **financial** services before requesting **the** establishment of an MBF as an exception to these provisions. Alternatives to limited **financial** services include **the** installation of ATMs and check cashing and accommodation exchange services **by** disbursing officers and their agents.

5.2.1.4. Establishment of an overseas MBF is predicated on and requires:

5.2.1.4.1. Designation of the MBF contractor as a depository and financial agent of the U.S. Government by the Treasury.

5.2.1.4.2. The availability of **FIs** interested in bidding for the operation of the facility and the viability of such proposals.

5.2.1.4.3. The availability of appropriated funds to underwrite **required financial** services.

5.2.1.4.4. Establishment of a U.S. dollar currency custody account to support banking operations.

5.2.1.4.5. **Agreement from host-nations that permit MBF operations.**

5.2.2. Other Overseas Banking Offices. Where a need for financial services has been identified and either (1) the banking and currency control laws of certain host countries do not permit MBFs to operate on DoD installations or (2) MBFs, where permitted, have not been established **or are not permitted to be established**, then the following applies:

5.2.2.1. Installation or community commanders **must** send requests for **financial** services or unsolicited proposals from foreign banking institutions to their Major Commands with supporting data as required in paragraph 4.2.1.

5.2.2.2. Major Commands **must** forward installation or community commander requests to the Secretary of the Military Department concerned (or designee) for approval. The Secretary of the Military Department concerned (or designee) coordinates with the DFAS, **Director (or designee)** to seek the designation of the parent foreign banking institution as a depository and financial agent of the U.S. Government by the Treasury.

5.2.2.3. Banks in this category cannot become operational until the foreign parent banking institution has been designated a depository and financial agent of the U.S. Government. The institution also **must** indicate a willingness and ability to provide collateral backing for any official and nonappropriated fund U.S. dollar deposits. Any collateral pledged **must** be in a form acceptable to the **Director, DFAS (or designee)**, and the Treasury.

5.3 Logistical Support

5.3.1. Overseas MBFs Operated Under Contract

* 5.3.1.1. **For MBFs and ATMs** that are operated under contract, installation or community commanders **must** provide logistical support **and services** to the maximum possible extent **at no charge unless otherwise identified in this regulation**. Such support normally includes:

5.3.1.1.1. Adequate office space, including steel bars; grillwork; security doors; a vault, safes, or both; security alarm systems and camera surveillance equipment (where deemed necessary) that meet documented requirements of the MBF contractor's insurance carrier;

construction of counters, teller cages, and customer and work areas; necessary modifications and alterations to existing buildings; and construction of new MBF premises, if necessary.

5.3.1.1.1.1. The size and arrangement of space **must** permit efficient operations. **The** space assigned may not exceed that prescribed in the MIL-STD-3007F.

5.3.1.1.1.2. All maintenance, repair, rehabilitation, alterations, or construction for **MBFs must** comply with guidelines established by the installation commander.

5.3.1.1.2. Office space in a building that is accessible to most users and permits maximum security. In addition, office space for MBF area and district administrations and storage space for retention of records, files, and supplies.

5.3.1.1.3. DoD housing on a rental basis to assigned MBF staff **who** are designated as key and essential MBF managerial personnel who are unable to find suitable, reasonably priced housing in the vicinity of the DoD installation, subject to the assignment procedures and other requirements of **DoD 4165.63-M**, “DoD Housing Management.”

5.3.1.1.4. Education, on a space-available, tuition-paying basis, provided by the DoD Education Activity to minor dependents of assigned staff.

5.3.1.1.5. Air conditioning, which is considered a normal utility for **MBFs** located at installations that qualify for air conditioning under applicable regulations. **MBF** space is classified as administrative space at military installations.

5.3.1.1.6. Utilities (i.e., electricity, natural gas or fuel oil, water, and sewage), heating, intra-station telephone service, and custodial and janitorial services to include garbage disposal and outdoor maintenance (such as grass cutting and snow removal) **at the same frequencies as provide to other installation activities**.

5.3.1.1.7. Defense Switched Network (DSN) voice and data communication to include, where **available**, internet access.

5.3.1.1.8. Military guards, civilian guards (for use within the installation only), military police, or other protective services to accompany shipments of money **at the frequencies required by MBFs to maintain required operations**. This level of protective service **must also** be provided at other times as required to include replenishment of ATM currency and receipts, alarm system failures, and to avoid undue risks or insurance costs on the part of the MBF.

5.3.1.1.9. U.S. Military Postal Service access in accordance with **DODD 5101.11E**, “DoD Executive Agent for the Military Postal Service (MPS) and Official Mail Program (OMP).” Use of free intra-theater delivery system (IDS) is authorized for all routine mail sent and received between Army Post Offices (APOs) and Fleet Post Offices (FPOs) within a theater.

5.3.1.1.10. Office equipment and furniture on memorandum receipt if available from local stock. If office equipment or furniture is unavailable, statements of nonavailability **must** be issued.

5.3.1.1.11. Vehicle registration and fuel sales from government-owned facilities for bank-operated vehicles if not in conflict with host government agreements. Vehicle registration **must** be subject to normal fees.

5.3.1.1.12. Issuance by local commanders of invitational travel orders, at no expense to the U.S. Government when required for official onsite visits by U.S. based **MBF** officials.

5.3.1.2. Suggestions for changes to the logistical support provisions of the MBF contract may be forwarded for consideration through command channels to the Director, DFAS (or designee).

5.3.2. Other Overseas Banking Offices

5.3.2.1. Logistical support provided to such offices **is** negotiated with the parent foreign banking institution and incorporated into the written operating agreement.

5.3.2.2. Logistical support **must** not exceed that provided to contract MBFs, as specified in 5.3.1.

*5.4 Operations

5.4.1. General Conditions of MBF and MBF ATM Operations

5.4.1.1. Before initiating MBF and MBF ATM operations, a written agreement **must** be negotiated directly and signed by the installation or community commander and a senior official of the **MBF** contractor. **Forward** one copy of the agreement with U.S. **MBF** contractors through command channels to the Secretary of the Military Department concerned (or designee). The Secretary of the Military Department (or designee) **must** forward one copy of the agreement through command channels to the Director, DFAS. **The installation or community commander and the MBF manager must always maintain a copy of the agreement.**

5.4.1.2. **MBF** agreements **must only** state operating details not set forth in the contract. Though the contract limits the number of operating hours per week, local commanders and MBF managers **must** set days and hours of operation to best meet local needs. Operating times may include Saturdays and evening hours when necessary to complement other retail services for DoD personnel, provided the contractor can implement that service at no additional cost to the government. When added cost is involved, the commander **must** send a request including reasons for expanded or modified times of operation, through command channels, to the Secretary of the Military Department concerned (or designee) for action. If approved, the request, with recommendations, **must** be forwarded to the Director, DFAS (or designee) **for coordination to effect requested changes.**

5.4.2. Overseas MBFs and MBF ATMs Operated Under Contract

5.4.2.1. General. Overseas MBFs **must** operate under terms and conditions established at the time of contract negotiations and confirmed in respective contracts or contracting officer determinations.

5.4.2.2. Authorized Customers. DoD banking contracts specify the personnel authorized to receive service. Additionally, overseas major commanders may approve banking services for other individuals that qualify for individual logistic support under the regulations of the DoD Component concerned, **if the** use of **financial** services is not precluded by status of forces agreements, other intergovernmental agreements, or host-country law.

5.4.2.3. Services Rendered. DoD banking contracts specify the services to be rendered and related charges. Suggestions for expansion or modification of authorized services or **changes to** fees or charges may be forwarded through DoD Component channels to the Director, DFAS (or designee). **Requests** for any new service must **include** coordination with the appropriate Combatant Command and U.S. Chief of Diplomatic Mission or U.S. Embassy to make certain that the **requests** do not conflict with the status of forces agreements, other intergovernmental agreements, or host-country law.

5.4.2.4. Regulation to be Provided. The Director, DFAS (or designee) **must** advise each U.S. banking contractor operating an overseas MBF of **this chapter** and furnish a copy to the contractor.

5.4.2.5. Conditions of Operation.

5.4.2.5.1. Part-time and payday service MBFs **must** provide limited services that mirror, to the extent feasible, those provided by full-time MBFs. Since part-time MBFs operate out of nearby MBFs, installation or community commanders **must** provide and fund transportation and guards for their operations, **including servicing of ATMs**.

5.4.2.5.2. Any deficiency of **financial** services under DoD banking contracts **must** be reported to the manager of the MBF within **seven** calendar days of noting the deficiency. If the problem has not been corrected within 30 calendar days after being noted, the commander **must** report the problem through DoD Component channels to the Director, DFAS (or designee).

5.4.2.5.3. The MBF contractor and military disbursing officers **must** establish cash management practices that minimize the cash required to conduct business.

5.4.2.5.4. **Installation** commanders **must** assist MBF contractors **in** developing and updating contingency plans for banking services in the event of hostilities or other emergencies. **Plans must be reviewed and updated yearly by installation commanders and MBF personnel.**

5.4.2.5.5. MBF provision of foreign currency **must** be in accordance with Volume 5, Chapter 13.

5.4.3. Other Overseas **Banks and ATMs**

5.4.3.1. Authorized Customers. The list of authorized customers **must** be negotiated between the installation commander and the foreign bank and **must** be reflected in the operating agreement. The list of authorized customers included in the operating agreement **must** be consistent with the applicable status of forces agreement, other intergovernmental agreements, or host-country law.

5.4.3.2. Services Rendered. Services and charges **must** parallel, whenever practical, the services and charges of MBFs **and ATMs** operated under contract. **Negotiate and include** specific services in the agreement with the foreign bank. A copy of the agreement **must** be sent through **the Secretary of the Military Department concerned (or designee)** to the Director, DFAS (or designee).

5.4.3.3. Operating Agreements. Before agreements are executed, they will be coordinated with and approved by the cognizant Combatant Command (or designee). **Copies of agreements must be forwarded through DoD Component channels to the Secretary of the Military Department concerned (or designee) to the Director, DFAS (or designee).**

5.4.3.4. Conditions of Operation. A foreign bank **must** provide equipment (except that furnished by the installation or community), supplies, and trained personnel.

5.4.4. Relocations of **and Modifications to MBFs or Other MBF Facilities**

When an MBF is **proposed to be** moved from one location to another at the same installation or community, **or for any relocation or modification to MBFs or other MBF facilities** the commander **must provide detailed information about and supporting the relocation to the Secretary of the Military Department concerned (or designee), through command channels.** The **Secretary of the Military Department concerned (or designee) must forward the information to the Director, DFAS (or designee) for approval and assistance prior to relocation or modification.**

5.4.5. Information Requirements. Installation or community commanders **must** send the **following information** through DoD Component channels to the Director, DFAS (or designee) for any of the following **when known, or no less than annually by 30 January each year:**

5.4.5.1. Major changes in installation population affecting **the** use of the MBF **or MBF ATMs.**

5.4.5.2. Opinion that the space assigned is not adequate for the efficient operation of the MBF including a statement concerning corrective action.

5.4.5.3. Suggestions that might improve the MBF operation, increase efficiency, or decrease costs.

5.4.5.4. Pending developments, **including training exercises**, that may have a material impact on the MBF operation.

5.5 Termination

Requests to eliminate any or all MBFs in a foreign country **must** include documentation that the U.S. Chief of Diplomatic Mission has been informed and that arrangements for local termination announcements and procedures have been made with the U.S. Embassy.

5.5.1. Overseas MBFs Operated Under Contract. In cases where an installation or community no longer can justify overseas MBF operations, the commander **must** notify the Secretary of the Military Department concerned (or designee) through command channels.

5.5.1.1. The report **must** state whether a part-time MBF **must** be established and specify the days each week that the MBF would be needed.

5.5.1.2. The Secretary of the Military Department (or designee) **must** send this report with recommendations to the Director, DFAS (or designee).

5.5.2. Other Overseas Banking Offices. Termination actions, when required, **must** be taken in accordance with the applicable clauses in the operating agreement. Notice of intent to terminate, including the closing date, **must** be sent through DoD Component channels to **the** Director, DFAS (or designee), who **notifies** the Treasury so that the foreign banking institution's authority as a Depository and Financial Agent of the U.S. Government at that location may be revoked.

6.0 CREDIT UNIONS OPERATING ON DOMESTIC DOD INSTALLATIONS

*6.1 General Policy

U.S. credit unions may operate on DoD installations, in accordance with this chapter, when required by installation commanders to promote the morale and welfare of installation personnel and to help facilitate installation operations.

6.2 Establishment

6.2.1. A demonstrated need for credit union services may be addressed by establishing a new full-service credit union or by opening a branch office or facility of an existing credit union under the common bond principle.

6.2.2. DoD personnel seeking to establish a new full-service credit union **must** submit a proposal to the installation commander for review. In addition to the information identified in subparagraph 4.2.1, the proposal **must** include a request for the establishment of a field of membership that includes all personnel at the installation. Upon installation commander

concurrence, **forward** the proposal through DoD Component channels to the Secretary of the Military Department (or designee).

6.2.3. The Secretary of the Military Department concerned (or designee) **must**:

6.2.3.1. Obtain a list of credit unions that could establish eligibility to serve the installation's military members and civilian employees from the National Credit Union Administration (NCUA) Regional Office that has geographic jurisdiction and the applicable state regulatory agency.

6.2.3.2. Prepare and send formal solicitation letters to eligible credit unions informing them of an opportunity to establish a branch office at the installation.

6.2.3.3. In coordination with the installation commander, establish the criteria for selection of a specific credit union in accordance with subparagraph 4.3.4. Proposals **must** be evaluated, and a selection made, based upon the factors and weights developed for the solicitation.

6.2.4. Upon approval by the Secretary of the Military Department (or designee), the NCUA or applicable state regulatory agency **must** be notified and asked to establish or amend the selected credit union's charter to include the new location.

6.2.5. No commitment may be made to a credit union regarding its proposal until the appropriate regulatory agency has approved the requested charter change.

***6.3 Terminations**

6.3.1. The installation commander **must** approve requests for termination of an on-base credit union, substantiated by sufficient evidence, and forward to the Secretary of the Military Department concerned (or designee). The installation commander **must** initiate the termination of on-base credit union operations only under one of the following conditions:

6.3.1.1. The installation mission has changed or is scheduled to be changed, thereby eliminating, or substantially reducing the requirement for financial services.

6.3.1.2. Active military operations prevent the continuation of on-base financial services.

6.3.1.3. The credit union's performance in providing services is not satisfactory according to standards ordinarily associated with the financial services industry or is inconsistent with the operating agreements or this chapter. Installation commander written communication with local credit union leadership **must** be undertaken to attempt to resolve matters prior to making this determination.

6.3.1.4. When merger, acquisition, change of control, or other action results in violation of the terms and conditions of the existing operating agreement, the Secretary of the Military Department (or designee) **must** terminate the operating agreement with the existing credit

union. When the merger, acquisition, change of control, or other action does not result in violation of the terms and conditions of the existing operating agreement, the Secretary of the Military Department (or designee) must novate the operating agreement identifying the change in control.

6.3.2. The installation commander must forward approved requests for termination of an on-base credit union, substantiated by sufficient evidence, to the Secretary of the Military Department concerned (or designee). The Secretary of the Military Department (or designee) must review all termination actions to ensure compliance with this chapter and coordinate all termination actions with the USD(C), through the Director, DFAS, before the Secretary of the Military Department (or designee) provides notification to the appropriate regulatory agency if required. After this coordination process:

6.3.2.1. The Secretary of the Military Department (or designee) will notify the installation commander if the termination is in accordance with this chapter and if so, the installation commander must notify the on-base credit union of the termination. The installation commander must establish a departure date and revoke the authority of the credit union to operate on the installation via termination of the lease or lease-like instrument and operating agreement.

6.3.2.2. If the termination is not in accordance with this chapter, the request will be returned by the Secretary of the Military Department (or designee) to the installation commander for remediation or dismissal.

6.3.3. A credit union that intends to voluntarily terminate its on-base operations must notify the installation commander in writing on official letterhead at least 180 days before the proposed closing date. Within the notification, the credit union must identify reasons for termination. This notification and an acknowledgment from the installation commander must precede any public announcement of the planned closure. When appropriate, the installation commander may attempt to negotiate an agreement permitting the credit union to continue operations until the installation has made other arrangements. Immediately upon notification of a termination, the installation commander must advise the DoD Component headquarters concerned. If the continuation of financial services is justified, action to establish another on-base FI must be taken in accordance with paragraph 4.3, paragraph 6.2, or both, depending on if another FI is currently operating on-base. A copy of the voluntary termination notification must be forwarded through command channels to the Director, DFAS (or designee).

6.3.4. Termination of Lease. The lessee must provide written notice 180 days prior to a voluntary termination of the lease. Upon lease termination, the government has the option to cause the title of all structures and other improvements to be conveyed to the United States without reimbursement or require the lessee to remove the improvements and restore the land to its original condition.

6.4 Use of Space, Logistical Support, and Military Real Property for Domestic Credit Unions

6.4.1. Criteria for Use of Space in Government-owned Real Property or Federal Land

6.4.1.1. Criteria governing the assignment of space and construction of new space for credit unions are in the MIL-STD-3007F.

6.4.1.2. A credit union may be furnished space on a DoD installation at one or more locations for periods not to exceed [five](#) years except where the credit union uses its own funds to improve existing government space as outlined in subparagraphs 6.4.1.2.3 and 6.4.1.2.4. The cumulative total of space furnished [must](#) be subject to the limitations of the MIL-STD-3007F.

6.4.1.2.1. The furnishing of office space and/or land (including ATM placement) to on-base credit unions is governed by the Federal Credit Union Act (12 U.S.C § 1770). Notwithstanding any other provision of law, upon application by any credit union, the provision of no-cost federal office space or no-cost land lease is for a period not to exceed 5 years. This is limited to credit unions if at least 95 percent of the membership to be served by the allotment of space or the facility built on the leased land is composed of individuals who are, or who were at the time of admission into the credit union, military personnel or federal employees, or members of their families.

[6.4.1.2.1.1.](#) A written statement to the effect that the credit union meets the 95 percent criterion [is](#) required to justify and document the allotment of free government space and/or land. This statement [must](#) be prepared on the credit union's letterhead and signed by either the chairman of the board of directors or the president.

[6.4.1.2.1.2.](#) A certification [must](#) also be required whenever there is a merger, takeover, or significant change in a field of membership. This certification serves [as](#) justification and documentation for the continued allocation of free government space including space renovated with credit union funds and/or the free lease of land.

[6.4.1.2.1.3.](#) [Update](#) the statement every 5 years and on renewal of each no-cost permit or license. (See Figure 33-3 for a sample format of the statement.)

6.4.1.2.2. Credit unions that fail to meet the 95 percent criterion [must](#) be charged fair market rental for space provided. Except where more than one credit union exists on an installation prior to June 9, 2000, credit unions giving less than full service or not serving all assigned DoD personnel are not authorized no-cost office space.

6.4.1.2.3. When a credit union that meets the 95 percent criterion uses its own funds to expand, modify, or renovate government-owned space, it may be provided a no-cost permit or license for a period commensurate with the extent of the improvements not to exceed 25 years as determined by the DoD Component concerned. The permit or license [must](#) be effective until the agreed date of expiration or until the credit union ceases to satisfy the 95 percent criterion. In this latter case, the no-cost permit [must](#) be canceled in favor of a lease immediately negotiated at fair market value under the provisions of subparagraph [6.4.1.2.4.](#) If the credit union desires,

this permit or license may extend through the period identified in the original permit or license not to exceed 25 years.

6.4.1.2.4. Similarly, a credit union not meeting the 95 percent criterion that uses its own funds to expand, modify, or renovate government-owned space, may be provided a lease at fair market value for a period not to exceed 25 years subject to periodic review every 5 years to assess changes in fair market value. [The](#) duration of this lease [must](#) be commensurate with the extent of the improvements as determined by the DoD Component concerned.

6.4.1.3. All space assigned by the GSA, whether leased or in a federal office building, is reimbursable to the GSA at the standard level user charge. Consequently, the GSA [must](#) charge the benefiting DoD Component for any space assigned for credit union operations. Such space is subject to the provisions of subparagraphs 6.4.1.1 and [6.4.1.2](#).

6.4.2. Logistical Support. When available, custodial and janitorial services including garbage disposal and outdoor maintenance (such as grass cutting and snow removal), heating and air conditioning, utilities (i.e., electricity, natural gas or fuel oil, water, and sewage), fixtures, and maintenance [must](#) be furnished without cost to credit unions occupying no-cost office space in government buildings. [Apart from](#) intra-station telephone service, credit unions [must](#) pay for all communication services to include telephone lines, long-distance data services and internet connections. Credit unions also [must](#) pay for space alterations. Should a credit union fail to meet the 95 percent membership criterion, any logistical support furnished must be on a reimbursable basis.

6.4.3. Leases executed before the issuance of [this chapter](#), see subparagraph 4.5.3.

6.4.4. When a credit union participates in the construction of a shopping mall complex the lease [must](#) cover only land where the branch or facility physically is located.

6.4.5. Administrative Fees. [The installation bears](#) all administrative fees associated with the initiation, modification, or renewal of an outgrant, provided that the credit union satisfies the 95 percent membership criterion requirement for no-cost office space as outlined [in](#) subparagraph 6.4.1.2.1 and that the fees are associated with the no-cost space.

6.5 Land Leases

Credit unions entering a land lease to construct a building on a DoD installation [must](#) be provided a no-cost land lease, if they meet the 95 percent criterion established in subparagraph 6.4.1.2.1. Credit unions not meeting the 95 percent criterion [must](#) enter into a land lease in accordance with subparagraph and subparagraph 6.4.1.2.2 and paragraph 4.6.

6.6 Construction

Credit unions constructing a building on a DoD installation [must](#) do so in accordance with paragraph 4.7.

6.7 ATM Service

Credit unions offering ATM service [must](#) do so in accordance with paragraph 3.5.

7.0 OVERSEAS CREDIT UNIONS

7.1 General Policy

* 7.1.1. Credit union services to authorized persons and organizations, [as permitted by Status of Forces agreements, other intergovernmental agreements, or host-country law](#), may be provided by domestic on-base credit unions operating under a geographic franchise.

7.1.2. The extension of credit union service overseas must be in accordance with this chapter as it relates to domestic credit unions and [aligned with](#) applicable status of forces agreements or other intergovernmental agreements, or host-country law.

7.1.3. Where permitted by the status of forces agreements or other intergovernmental agreements, or host-country law, only federal credit unions or federally insured state-chartered credit unions may operate on overseas DoD installations. The ultimate decision to provide services overseas rests with the credit union itself.

7.2 Establishment

7.2.1. Commanders [must](#) notify the Secretary of the Military Department concerned (or designee), through command channels, when overseas credit union services are needed. Such requests [must](#) include:

7.2.1.1. Full information about available space and logistical support.

7.2.1.2. The name and location of the nearest credit union facility or branch.

7.2.1.3. The distance between the installation and the nearest credit union facility or branch.

7.2.1.4. The availability of any official or public transportation.

7.2.1.5. The number of DoD personnel in duty assignments that confine them to the installation or who cannot obtain transportation (such as hospital patients).

7.2.1.6. In countries not presently served, a statement concurred by the cognizant Combatant Command that the requirement has been coordinated with the U.S. Chief of Diplomatic Mission or U.S. Embassy. The statement [must](#) include the host country permits credit union operations and indicate any conditions imposed by the host country with respect to those operations.

7.2.2. [After](#) approval of the request from the installation or community commander to

establish an overseas credit union facility, the Secretary of the Military Department concerned (or designee) **must** solicit proposals for the provision of full credit union services under the following provisions.

7.2.2.1. Where there is a DoD-designated geographic franchise with a specific field of membership, the Secretary of the Military Department (or designee) **must** direct the installation or community commander to contact the supporting credit union and request that a branch or facility be established. The basic decision concerning such extensions of service rests with the servicing credit union. The Director, DFAS (or designee) **must** maintain a listing of all geographic franchises assigned to credit unions serving DoD overseas installations.

7.2.2.2. Where there is no DoD designated geographic franchise, the Secretary of the Military Department (or designee) **must**:

7.2.2.2.1. Coordinate requests, through the Director, DFAS (or designee), to obtain a geographic franchise. A geographic franchise is the authorization granted to a credit union by the Office of the Under Secretary of Defense (Comptroller) (OUSD(C)) to provide financial services in a specific geographic region located outside the United States, its territories, and possessions.

7.2.2.2.2. Solicit proposals from credit unions currently operating on DoD installations.

7.2.2.2.3. Review proposals of interested credit unions.

7.2.2.2.4. Coordinate with field commands, as needed.

7.2.2.2.5. Recommend selection to the NCUA or applicable state regulatory agency with a copy to the DFAS and the OUSD(C), requesting that the appropriate field of membership adjustment be made. Such a recommendation **must** identify the primary installations on which the credit union would operate and, if applicable, the contiguous geographic boundaries for future facilities and branches.

7.2.3. Where there is an existing field of membership, the Secretary of the Military Department concerned (or designee) **must** take the following actions:

7.2.3.1. If a credit union on an installation terminates operation, afford any other credit union having a geographic franchise within that country an opportunity to assume the franchise being vacated. If all such institutions decline, **offer** the geographic franchise to the federally insured credit union community. If, as a result of a credit union's decision to decline service to an installation or a termination action, another credit union (a) offers to provide service, (b) meets host-country requirements (if any), and (c) is assigned the former geographic franchise or portion thereof, **notify the** NCUA or the applicable state regulatory agency and request appropriate field of membership adjustments.

7.2.3.2. When other credit union(s) having a geographic franchise within a country

decline the opportunity, or there is no other credit union having a franchise within that country, the provisions of paragraph 7.2, apply.

7.2.4. No commitment may be made to a credit union regarding its proposal until the appropriate regulatory agency has announced a selection.

7.3 Logistical Support Services

Installation or community commanders **must** provide **credit unions** logistical support **services on a non-reimbursable basis unless otherwise identified**. Such support normally **must** include:

7.3.1. Adequate office space, including steel bars; grillwork; security doors; vaults; safes; security alarm systems and camera surveillance equipment (where deemed necessary) that meet documented requirements of the credit union's insurance carrier; construction of counters, teller cages, and customer and work areas; necessary modifications and alterations to existing buildings. The size and arrangement of space should permit efficient operations. The credit union **must** pay for all improvements to the space given. **The** space assigned may not exceed that prescribed in the MIL-STD-3007F.

7.3.2. DoD housing on a rental-**paying** basis to key credit union personnel unable to find suitable, reasonably priced housing in the vicinity of the DoD installation, if available.

7.3.3. Education, on a space-available, tuition-paying basis, provided by the DoD Education Activity to minor dependents of assigned staff.

7.3.4. Utilities (i.e., electricity, natural gas or fuel oil, water, and sewage), heating, intra-station telephone service, and custodial and janitorial services.

7.3.5. DSN voice and data communication to include, where **available**, internet access.

7.3.6. U.S. Military Postal Service support under **DoDD 5101.11E**. The use of free IDS is authorized for all routine mail sent and received between APOs and FPOs within a theater.

7.3.7. Military guards, civilian guards (for use within the installation), military police, or other protective services to accompany shipments of money from the MBF to the credit union and **from the credit union to the MBF** where it is impractical or not authorized to have a local armored car service or civilian police authorities entering a military installation to provide cash escort service or when the cost of obtaining such service is prohibitive. **Provide** this level of protective service at other times as required including replenishment of ATM currency and receipts, alarm system failures, and **avoiding** undue risks or insurance costs.

7.4 Travel

Travel by credit union officials must be at no expense to the U.S. Government. Overseas commanders may issue invitational travel orders for official on-base visits by credit union officials

at no cost to the U.S. Government.

7.5 Operations

7.5.1. An overseas credit union **must** confine its field of membership to individuals or organizations eligible by law or regulation to receive services and benefits from the installation. Services **must** not be provided to **individuals or organizations** precluded such services by the applicable status of forces agreement, other intergovernmental agreements, or host-country law.

7.5.2. The Department assigns overseas credit unions a prescribed geographic franchise. Any credit union, however, may continue to serve its members stationed overseas by mail or telecommunications, including **via** the **Internet**.

7.5.3. A credit union proposing a new service to be offered by a branch office that is not authorized by the operating agreement **must** coordinate the establishment of the new service through the cognizant Component command to the Combatant Command. The new service **must** be offered only after the appropriate command's approval and coordination with the U.S. Chief of Diplomatic Mission or U.S. Embassy to ensure that the service does not conflict with the applicable status of forces agreement, other intergovernmental agreements, or host-country law. **The new service must be reflected as an amendment to the operating agreement.**

7.5.4. Credit unions that operate full-service branches **must** have U.S. currency and coin available for member transactions. In areas served by currency custody accounts, transactional U.S. currency and coins **must** be made available from the servicing MBF with no direct or analysis charge to the credit union, provided settlement is made via the local MBF account or equivalent arrangements are made with the MBF.

7.5.5. In countries served by MBFs operated under contract, credit unions **must** purchase foreign currency only from the servicing MBF.

7.5.5.1. The bulk rate purchase price **must** apply to currency used by the credit union to make payments to vendors or to make payroll payments.

7.5.5.2. Credit unions that desire and are authorized to provide accommodation exchange services to members **must only** acquire foreign currency from the servicing MBF at the MBF **accommodation** rate and **resell such foreign currency** at a rate of exchange no more favorable than the customer rate available at the MBF.

7.5.6. Credit unions operating under a geographic franchise on an overseas DoD installation **must** not publicize, display, or sell vehicles on the installation.

7.5.7. The NCUA or applicable state regulatory agency may review operations of overseas credit union offices either when it examines the main credit union or at other times of its choosing. For federally insured, state-chartered credit unions, the applicable state regulatory agency also may examine credit unions operations.

*Figure 33-1: Guidelines for Application of the Privacy Act to Financial Institution Operations

1. The following guidelines govern the application of 32 CFR § 230, “Financial Institutions on DoD Installations” to those [FIs](#) that operate under this Regulation:

A. [FIs](#) and their branches and facilities operating on DoD military installations do not fall within the purview of [5 U.S.C. § 552](#) et seq.

1. These [FIs](#) do not fit the definition of “agency” to which the Privacy Act applies: “...any executive department, Military Department, government corporation, government-controlled corporation, or other establishment in the executive branch of the government (including the Executive Office of the President), or an independent regulatory agency” (5 U.S.C. §§552(e) and 552a(a)(1)).

2. These [FIs](#) are not “government contractors” within the meaning of 5 U.S.C. § 552a(o), as they do not operate a system of records on behalf of an agency “...to accomplish an agency function.” According to the Office of Management and Budget ([OMB Privacy Act Guidance](#)), the provision relating to government contractors applies only to systems of records “...actually taking the place of a federal system which, but for the contract, would have been performed by an agency and covered by the Privacy Act.” Clearly, the subject institutions do not meet these criteria.

3. Since the Act does not apply to them, these [FIs](#) are not required to comply with 5 U.S.C. § 552a(e)(3) in obtaining and making use of personal information in their relationships with personnel authorized to use such institutions. Thus, these institutions are not required to inform individuals from whom information is requested of the authority for its solicitation, the principal purpose for which it is intended to be used, the routine uses that may be made of it, or the effects of not providing the information. There also is no requirement to post information of this nature within on-base banking and credit union offices.

B. The [FIs](#) concerned hold the same position and relationship to their account holders, members, and to the government as they did before the enactment of [OMB Circular A-130](#). Within their usual business relationships, they still are responsible for safeguarding the information provided by their account holders or members and for obtaining only such information as is reasonable and necessary to conduct business. This includes credit information and proper identification, which may include social security number, as a precondition for the cashing of checks.

C. [FIs](#) may incorporate the following conditions of disclosure of personal identification in all contracts, including loan agreements, account signature cards, certificates of deposit agreements, and any other agreements signed by their account holders or members:

Figure 33-1: Guidelines for Application of the Privacy Act to Financial Institution Operations (Continued)

I hereby authorize the Department of Defense and its various Components to verify my social security number or other identifier and disclose my home address to authorized (name of FI) officials so that they may contact me in connection with my business with (name of FI). All information furnished will be used solely in connection with my financial relationship with (name of FI).

When the FI presents such signed authorizations, the receiving military command or installation must provide the appropriate information.

D. Even though an agreement described in subparagraph A.3., has not been obtained, DoD may provide these FIs with salary information and, when pertinent, the length or type of civilian or military appointment, consistent with 32 CFR § 230 and DoDD 5400.07. Some examples of personal information pertaining to DoD personnel that normally can be released without creating an unwarranted invasion of personal privacy are name, rank, date of rank, salary, present and past duty assignments, future assignments that have been finalized, office phone number, source of commission, and promotion sequence number.

E. When DoD personnel with financial obligations are reassigned and fail to inform the FI of their whereabouts, they should be located by contacting the individual's last known commander or supervisor at the official position or duty station within that particular DoD Component. That commander or supervisor either must furnish the individual's new official duty location address to the FI or must forward, through official channels, any correspondence received pertaining thereto to the individual's new commander or supervisor for appropriate assistance and response. Forward correspondence to the individual concerned at his or her last official place of business or duty station as provided by postal regulations to the new location. Once an individual's affiliation with DoD is terminated through separation or retirement, however, the Department's ability to render locator assistance (i.e., disclose a home address) is severely curtailed unless the public interest dictates disclosure of the last known home address. The Department may, at its discretion, forward correspondence to the individual's last known home address. The Department may not act as an intermediary for private matters concerning former DoD personnel who are no longer affiliated with the Department.

2. Questions concerning this guidance should be forwarded through channels to the Deputy Chief Financial Officer, Office of the Under Secretary of Defense (Comptroller), The Pentagon, Washington, DC 20301-1100.

Figure 33-2: Sample Operating Agreement (OA) Between Installation Commanders and Financial Institutions (FI)

*NOTE: The following operating agreement **may be used as a template**. Content of the actual operating agreement **constructed for use between an installation commander and an FI** may vary according to the circumstances of each installation **but must align with this issuance**.*

Operating Agreement Between (*Name of Installation*), (*State or Country Installation Located*) and (*Name of Financial Institution*)

This **agreement** is made and entered into this day by and between the installation commander of (*name of installation*) **in their** official capacity as installation commander, hereinafter referred to as the “commander” and the (*name of FI*), having its principal office at (*location of home office*) hereinafter referred to as the “FI,” together hereinafter referred to as “the parties.” Whereas the commander and the **FI** enter into this **OA** upon the mutual consideration of the promises, covenants, and agreements hereinafter contained.

1. The parties understand and agree that this **OA** in no way modifies, changes, or alters the terms and conditions of Lease Number (*number of lease*) covering the use of real property described therein.

2. The **FI** agrees to operate a (*federally or state*) chartered office on-base in accordance with the policies and procedures set forth **in DoD Financial Management Regulation Volume 12, Chapter 33**. The hours of operations **are** between (*hour office opens*) and (*hour office closes*), and on the following days (*weekdays office open*), except on government holidays when the **FI** may be closed.

3. The **parties have agreed the FI will** provide the following services:

a. Services for Individuals

- (1) Demand (checking) account services
- (2) Cashing personal checks and government checks for accountholders
- (3) Maintaining savings accounts and (any other interest-bearing accounts)
- (4) Selling official checks, money orders, and traveler’s checks
- (5) Selling and redeeming United States savings bonds
- (6) Providing direct deposit service
- (7) Loan Services

Figure 33-2. Sample Operating Agreement Between Installation Commanders and FIs (Continued)

- (8) Electronic banking (i.e., ATMs, internet banking).
- b. Services for Disbursing Officers and their agents
 - (1) Furnishing cash (if the FI's terms for doing so are consistent with sound management practices)
 - (2) Accepting deposits for credit to the Treasury General Account (where the FI has entered into an agreement with the Treasury).
- c. Services for NAFIs and Private Organizations
 - (1) Demand (checking) account services, including wire transfers
 - (2) Savings accounts and nonnegotiable certificates of deposit or other interest-bearing accounts offered by the banking institution
 - (3) Currency and coin for change.
- 4. Service charges proposed by the FI and accepted by the installation commander are as follows:
 - a. Service for Individuals
 - (1) No fees may be charged to individuals for the services listed in subparagraphs 3.a.(2), and 3.a.(5), except for subparagraph 3.a.(2), wherein checks drawn on other FIs may be treated in accordance with the FI's established policy. Any charge to cash a government check must not exceed that typically charged by FIs in the vicinity of the installation. Fees assessed to accountholders and non-acountholders for use of ATMs must be the customary service charges of the FI or those negotiated for base personnel per the attached schedule.
 - (2) Checking and savings accounts. Fees for individual checking and savings accounts must be the customary service charges of the FI or those negotiated for base personnel per the attached schedule.
 - (3) Sale of official checks, money orders, traveler's checks, and other types of financial paper. Charges for these services must be the customary charges of the FI operating the on-base office.

Figure 33-2. Sample Operating Agreement Between Installation Commanders and FIs (Continued)

b. Service for Disbursing Officers and their agents. No charge is made for the services listed in subparagraph 3.b.(2). Compensation to the FI must be per its separate agreement with the Treasury. Charges, if any, for the services stated in subparagraph 3.b.(1) must be as locally negotiated with the FI.

c. NAFIs and Private Organizations. State the charges or refer to a schedule of charges for funds and organizations that do not participate in a central banking program. For those activities participating in a central banking program, determine the compensation to the FI by account analysis.

5. It is agreed that the FI must:

a. Negotiate with the commander (or designee) for any proposed changes to the attached schedule of fees and services at least 30 days prior to proposed implementation.

b. Comply with Volume 12, Chapter 33, and any changes thereto.

c. Comply with Treasury requirements for the establishment and operation of a Treasury General Account where the FI agrees to act as a depository for government funds.

d. Absolve the (*Military Department*) and its representatives of responsibility or liability for the financial operation of the FI; and for any loss (including losses due to criminal activity), expenses, or claims for damages arising from FI operations.

e. Indemnify and hold harmless the United States from (and against) any loss, expense, claim, or demand, including attorney fees, court costs, and costs of litigation, to which the government may be subjected as a result of death, loss, destruction, or damage in connection with the use and occupancy of (*Military Department*) premises occasioned in whole or in part by officers, agents or employees of the FI operating an office of the FI.

f. Favorably respond, whenever feasible, to reasonable local command requests for lectures and printed materials to support consumer credit education programs, financial management program, and newcomer's briefings.

g. Prominently post in the lobby of the FI the name, duty telephone number of the (Bank or Credit Union) Liaison Officer.

h. Accept the government travel card in all on-base ATMs operated by the FI.

Figure 33-2. Sample Operating Agreement Between Installation **Commanders** and FIs (Continued)

- i. Abide by the installation fire protection program, including immediate correction of fire hazards noted by the installation fire inspector during periodic fire prevention inspections.
 - j. **Furnish copies of its financial reports and other local publications on an “as needed” basis in response to the installation commander’s (or designee’s) formal request.**
6. The commander **must** provide the following space and support:
 - a. Space requirements for **FI** operations **must** be administered in accordance with the existing outgrant (i.e., lease, permit, or license). (*Show Number of Outgrant*).
 - b. Utilities (i.e., electricity, natural gas or fuel oil, water, and sewage), heating and air conditioning, intra-station telephone service, and custodial and janitorial services to include garbage disposal and outdoor maintenance (such as grass cutting and snow removal) **in accordance with Volume 12, Chapter 33.**
 - c. DoD housing and minor dependent education in overseas locations for **FI** personnel in accordance with **Volume 12, Chapter 33.**
 - d. **Determination of** the recurring/frequency requirement for installation access and issue the appropriate installation and/or facility access credential consistent with local security requirements using Government authoritative databases for vetting purposes, as prescribed in **DoDM 5200.08, Vol. 3**: “Physical Security Program: Access to DoD Installations.”
7. Termination of this **OA must** be consistent with the termination provision of the real property lease and **the provisions within Volume 12, Chapter 33.**
8. Any provision of this Agreement that is contrary to or violates any laws, rules, or regulations of the United States, its agencies, or the state of (*state in which the **FI** is located*) that apply on federal installations **is** void and have no force or effect; however, both parties to this Agreement agree to notify the other party promptly of any known or suspected continuing violation of such laws, rules, or regulations.
9. So long as this Agreement remains in effect, it **must** be reviewed jointly by the commander and the **FI** at least once every 5 years to ensure compatibility with current DoD issuances and to determine if any changes are required to the Agreement.

Figure 33-2. Sample Operating Agreement Between Installation **Commanders** and FIs
(Continued)

IN WITNESS WHEREOF, the commander and the **FI**, by their duly authorized offices, have hereunto set their hands this day of *(month, day, year)*.

CHAPTER 34

**DIRECT ACCEPTANCE OF GIFTS BY MEMBERS OF THE ARMED FORCES,
DEPARTMENT OF DEFENSE EMPLOYEES AND THEIR FAMILIES AND
SURVIVORS**

1.0 GENERAL

1.1 Overview

Congress enacted Title 10, United States Code, section 2601a ([10 U.S.C. § 2601a](#)) which authorized the direct acceptance of gifts from outside sources by members of the armed forces and civilian employees of the Department of Defense (DoD), their family members and survivors, for injuries or illnesses incurred as a result of combat and other covered circumstances. Prior to enactment, employees and Service members were authorized to receive gifts from within the Department.

1.2 Purpose

This chapter establishes policy and assigns responsibilities to implement 10 U.S.C. § 2601a. The authority in 10 U.S.C. § 2601a is in addition to, and in no way limits, any other statutory or regulatory authority of covered members or employees, their family members, and their survivors to accept gifts from non-federal entities.

1.3 Authoritative Guidance

10 U.S.C. § 2601a provides authority to the Secretary of Defense to prescribe regulations allowing covered members of the armed forces, covered employees of the DoD, their family members, and their survivors to accept gifts from nonprofit organizations, private parties, and other sources outside the DoD under specified circumstances.

2.0 POLICY

2.1 Definitions

2.1.1. Covered Employee. A civilian DoD employee who, while an employee on or after September 11, 2001, incurred an illness or an injury under the criteria in this chapter.

2.1.2. Covered Member. A Service member who, while performing active duty, full-time National Guard duty, or inactive-duty training on or after September 11, 2001, incurred an injury or illness under the criteria in this chapter.

2.1.3. Designated Agency Ethics Official. A DoD employee appointed in writing by the head of the DoD agency to coordinate and manage the agency's ethics program.

2.1.4. Ethics Counselor. A DoD employee appointed in writing by the designated agency ethics official or designee to assist in implementing and administering the DoD component command's or organization's ethics program.

2.1.5. Family Members. Parents, siblings, spouse, biological and adopted children, and dependent relatives of covered members or employees.

2.1.6. Gift. Any gratuity, favor, discount, entertainment, hospitality, loan, forbearance, or other item having monetary value. It includes services, as well as gifts of transportation, local travel, lodgings, and meals. It does not include those items excluded from the definition of "gift" in [Title 5, Code of Federal Regulations \(CFR\), section 2635.203\(b\)\(1\)-\(9\)](#).

2.1.7. Secretary Concerned. The Secretary of a Military Department who has jurisdiction over the military reservation, installation, ship, aircraft, or facility where an event occurs that meets the criterion of this chapter. The Secretary of Defense or designee, if the event meeting the criterion of this chapter occurs at a location that is not a military reservation, installation, or facility, or where more than one Secretary has jurisdiction.

2.1.8. Survivors. Living family members of a covered member or employee who is killed.

* 2.2 Gift to Covered Employees

Pursuant to the authority in 10 U.S.C. § 2601(a), covered members of the armed forces in the DoD and covered employees of DoD, their family members, and their survivors may accept gifts directly from nonprofit organizations, private parties, and other sources outside the DoD when, while performing military duties or performing duties as a civilian employee on or after September 11, 2001, they incur an injury or illness: (1) as a direct result of armed conflict; while engaged in hazardous service; in the performance of duty under conditions simulating war; or through an instrumentality of war; (2) in an operation or area designated as a combat operation or combat zone by the Secretary of Defense; (3) [that results in enrollment in a Warriors in Transition program, as defined in section 738\(e\) of the National Defense Authorization Act for Fiscal Year 2013 \(Public Law 112-239; 10 U.S.C. 1071 note\)](#); or (4) under other circumstances determined by the Secretary concerned to warrant treatment similar to members covered by the first criterion of this section.

2.3 Impermissible Gifts

The authority in 10 U.S.C. § 2601a does not apply to gifts from foreign governments or international organizations or their representatives, nor does it apply to gifts that: (1) are accepted in return for being influenced in the performance of an official act; (2) are solicited or coerced; (3) are accepted in violation of any other statute or regulation, including [18 U.S.C. § 201](#) and [18 U.S.C. § 209](#), and [5 CFR § 2635](#) and [5 CFR § 3601](#); or (4) will reflect adversely on the DoD.

2.4 Criteria for Gift Acceptance

2.4.1. Nonprofit organizations, private parties, and other sources outside DoD. The following individuals may accept gifts from nonprofit organizations, private parties, and other sources outside DoD:

2.4.1.1. A member of the armed forces described in subparagraph 2.4.2.

2.4.1.2. A civilian employee of the DoD described in subparagraph 2.4.3.

2.4.1.3. The family members of such a member or employee.

2.4.1.4. Survivors of such a member or employee who is killed.

2.4.2. Covered members. Applies to a member of the armed forces who, while performing active duty, full-time National Guard duty, or inactive-duty training on or after September 11, 2001, incurred an injury or illness:

2.4.2.1. As described in section 10 U.S.C. 1413a(e)(2);

2.4.2.2. In an operation or area designated as a combat operation or a combat zone, respectively, by the Secretary of Defense in accordance with the regulations prescribed under subparagraph 2.4.1; or

2.4.2.3. That results in enrollment in a Warriors in Transition program, as defined in section 738(e) of the National Defense Authorization Act for Fiscal Year 2013 (Public Law 112-239; 10 U.S.C. 1071 note);

2.4.2.4. Under other circumstances determined by the Secretary concerned to warrant treatment analogous to members covered by subparagraph 2.4.1.1.

2.4.3. Covered Employees. Applies to a civilian employee of the DoD who, while an employee on or after September 11, 2001, incurred an injury or illness under a circumstance described in subparagraph 2.4.2.

2.4.4. Gifts From Certain Sources Prohibited. Members and employees may not accept a gift from a foreign government or international organization or their agents under this authority.

2.4.5. Application of Certain Regulations. These regulations apply to the acceptance of gifts received after the date of the enactment of the National Defense Authorization Act for Fiscal Year 2012 for injuries or illnesses incurred on or after September 11, 2001. The military services must apply uniformly to all elements of the DoD and require review and approval by an ethics counselor before acceptance of a gift to ensure that acceptance of the gift complies with the Joint Ethics Regulation.

3.0 RESPONSIBILITIES

3.1 Under Secretary of Defense for Personnel and Readiness

The Under Secretary of Defense for Personnel and Readiness (USD(P&R)) has the overall oversight responsibility on the implementation of this guidance. USD(P&R) monitors compliance with the provisions of this chapter pursuant to [DoD Directive 5124.02](#).

3.2 Secretary Concerned

The Secretary concerned determines whether an event occurring within his or her jurisdiction meets the criterion of “other circumstances” as described in paragraph 2.2.

3.3 Designated Agency Ethics Official

The relevant designated agency ethics official ensures that an ethics counselor reviews and, when appropriate, approves the acceptance of a gift in accordance with 10 U.S.C. § 2601a (a)(2)(B). That review and approval includes a determination that: (1) the gift is not offered in a manner that specifically discriminates among covered members or employees on the basis of type of official responsibility or favors those of higher rank or pay; (2) the donor does not have interests that may be affected substantially by the performance or nonperformance of the covered member’s or employee’s official duties; and (3) acceptance would not cause a reasonable person with knowledge of the relevant facts to question the integrity of DoD programs or operations.

CHAPTER 1

INTRODUCTION TO NONAPPROPRIATED FUND ACCOUNTING

1.0 GENERAL

1.1 Overview

Nonappropriated Fund (NAF) accounting applies to all NAF Instrumentalities (NAFIs) and their supporting Accounting Offices (AOs). NAFs are separate from appropriated funds (APFs) of the U.S. Department of the Treasury (Treasury). NAFs are not commingled with APFs and are managed separately from APFs, even when used to support a common program.

1.2 Purpose

This chapter provides a list of definitions, reporting requirements, accounting standards, internal controls, and audit requirements for NAFIs.

1.3 Authoritative Guidance

The accounting policies, and related requirements prescribed, are in accordance with the applicable provisions of:

1.3.1. Department of Defense Instruction ([DoDI 1015.15](#), “Establishment, Management, and Control of Nonappropriated Fund Instrumentalities and Financial Management of Supporting Resources;” and

1.3.2. Financial Accounting Standards Board ([FASB](#)) Accounting Standards Codification ([ASC](#)). Users can [now](#) access the FASB ASC [without charge](#). [This access now includes browsing by topic, searches, and print options.](#)

2.0 DEFINITIONS

2.1 APFs

APFs are monies paid out of the Treasury pursuant to statutory authority granted by Congress to the DoD to incur obligations and make payments. The term “appropriation” means a provision of law (not necessarily in an appropriations act) authorizing the expenditure of funds for a given purpose. In most cases, appropriations are of two types, annual and multi-year. Congress approves the appropriation acts that specify the purposes for which the APFs are used. Specific accounting policies for APFs are described in Volume 4. For additional information on the use of and accounting for APFs for NAF activities, refer to DoDI 1015.15.

2.2 Balance Sheet

The Balance Sheet is a financial statement that shows an entity's financial position at a certain point in time (usually at the end of an accounting period). It represents the entity's assets, liabilities, and net worth (or fund equity).

2.3 Chart of Accounts

The chart of accounts is a list of ledger account names, descriptions, and numbers arranged in the order in which they customarily appear in the financial statements. The chart serves as a useful source for locating a given account within the ledger. The chart of accounts for NAFs is established to comply with FASB and DoDI 1015.15 reporting requirements, and is maintained on the [DoD NAF Accounting website](#). NAF accounting systems that are used by the Military Exchanges are exempt from using the NAF chart of accounts. A separate Defense Resale Activities chart of accounts, for use by the Military Exchanges, is also available on the DoD NAF Accounting website.

2.4 Comparability

Comparability is the similarity and consistency of information produced by an entity from period to period and by others operating in similar circumstances. The value and usefulness of information depends greatly on the degree to which it is comparable to information from prior periods and to similar information reported by others.

2.5 Consistency

Consistency is the uniformity of accounting procedures used by an accounting entity from period to period.

2.6 Cost-Benefit Analysis (CBA)

CBA is an analytic technique that compares the costs and benefits of investments, programs, or policy actions in order to determine which alternative or alternatives maximize net benefits (economic efficiency). CBA attempts to consider all costs and benefits. For further direction on economic analysis for decision-making, refer to [DoDI 7041.03](#), "Economic Analysis for Decision-making."

2.7 General Ledger

The general ledger is a collection of all transactions that occur for each NAFL. Separate accounts exist for individual assets, liabilities, net worth, income, and expenses. The general ledger is the core of the NAF accounting system and contains all accounting entries for the NAFL. The general ledger accounts are found in the NAF Standard General Ledger on the DoD NAF Accounting website. DoD Components jointly maintain a separate general ledger from the NAF Standard General Ledger for the Military Exchanges.

2.8 Internal Control

Internal control is a process, effected by the entity's management and personnel, designed to provide reasonable assurance regarding the achievement of objectives relating to operations, reporting, and compliance, and to ensure the integrity of financial and accounting information, promote accountability, and prevent fraud.

2.9 Interpretation

Interpretation is an opinion regarding a set of facts. A degree of subjectivity is involved on the part of the individual, based on experience and judgment.

2.10 Materiality

Materiality refers to the magnitude of an omission or misstatement of accounting data that misleads financial statement readers. Information is material when it is of such magnitude or significance that its omission or misstatement leads to a misinterpretation of the financial information. In addition to magnitude, the nature of the item is considered when making a materiality judgment. For reporting purposes that require the level of materiality to be quantified, materiality must be defined as a minimum of one percent of the total assets in the Balance Sheet for each NAFI. The one percent threshold does not preclude entities from making necessary adjustments to financial statements for transactions that may fall below the threshold. For those NAF activities required to report on a consolidated basis, the threshold of materiality must be a minimum of one percent of the assets in the consolidated Balance Sheet.

2.11 NAFs

NAFs are government monies that are not appropriated by Congress and are not held within the Treasury. These are separate funds that are not recorded in the books of the Treasury. NAFs are administered only through a NAFI.

2.12 NAFI

A NAFI is a fiscal entity of the U.S. Government that is supported in whole or in part by NAFs. A NAFI acts in its own name to provide or assist the Secretaries of the Military Departments to provide, for example, morale, welfare and recreation (MWR) programs for DoD personnel. See the definition of NAFI in DoDI 1015.15 for further clarification.

2.13 Recording

Recording is the accurate documentation of business transactions. Recording is an essential requirement of both manual and automated accounting systems.

2.14 Relevance

Relevance is the capacity of information to make a difference in decision-making. For instance, relevant information must be available in a timely manner to ensure its value in decision-making.

2.15 Reliability

In financial accounting theory, reliability describes information that is reasonably free from error and bias and accurately presents the facts.

2.16 Statement of Cash Flows

The Statement of Cash Flows is a financial statement for a given period that provides information about an entity's cash receipts and cash disbursements as they apply to operating, investing, and financing activities.

2.17 Statement of Income and Expense

The Statement of Income and Expense is a financial statement showing the elements (income and expense) used in arriving at the net income for the accounting period or over a certain period of time.

2.18 Subsidiary Ledgers

Subsidiary ledgers are a group of related accounts supporting the balance of a control account in the general ledger. In some cases, a simple file system, or the equivalent, may be adequate if it substantiates the general ledger account balance. Three typical subsidiary ledgers are accounts receivable, prepaid accounts, and accounts payable.

2.19 Summarizing

Summarizing is the process of bringing together financial information to develop financial statements or reports. Examples of the most commonly used financial statements are the Balance Sheet, Statement of Income and Expense, and Statement of Cash Flows.

2.20 Timeliness

Timeliness is prompt reporting of financial information to users for their maximum benefit. Financial data is recorded as soon as practical after the occurrence of a transaction.

2.21 Trial Balance

A trial balance is a listing of the accounts in the general ledger along with each account's balance in the appropriate debit or credit column. AOs will prepare an end-of-month trial balance of the general ledger accounts to ensure total debits equal total credits.

3.0 ANNUAL REPORTING REQUIREMENTS

3.1 Annual Reporting Period

The annual accounting reporting period for DoD NAFIs begins October 1 of each year and ends September 30 of the following year. The Military Exchanges use the National Retail Federation reporting period and fiscal year that begins in February and ends the following January per DoDI 1015.15. This divides the year into four quarters of 13 weeks grouped into two 4-week “months” and one 5-week “month.”

3.2 Reports

Financial reports are prepared annually for each NAFI and must include notes to accompany the financial statements. The following NAFI financial reports are explained in Chapter 7:

3.2.1. Balance Sheet;

3.2.2. Reconciliation of Net Worth;

3.2.3. Statement of Income and Expense; and

3.2.4. Statement of Cash Flows.

3.3 Financial Statement Disclosures

Financial reports must include full and adequate disclosure of financial and accounting information in accordance with Chapter 7 specific reporting requirements (e.g., disclosure of fund equity adjustments and eliminating entry transactions between NAFIs); this includes Military Service Headquarters, Major Command or Region, and installation NAFIs. Following these requirements ensures that financial and accounting information is properly treated in preparation of reports.

4.0 ACCOUNTING STANDARDS

4.1 Generally Accepted Accounting Principles (GAAP)

The term GAAP encompasses the conventions, rules, and procedures necessary to define accepted accounting practice at a particular time. GAAP includes not only broad guidelines of general application, but also detailed practices and procedures. These conventions, rules, and procedures establish a standard by which to measure financial presentations.

4.1.1. Judgment. Although there are numerous sources of GAAP, some judgment is necessary to determine whether:

4.1.1.1. The accounting principles selected and applied have general acceptance;

4.1.1.2. The accounting principles are appropriate in the circumstances;

4.1.1.3. Financial statements, including related notes, are informative of matters that may affect their use, understanding, and interpretation;

4.1.1.4. Information presented in the financial statements is classified and summarized in a reasonable manner, i.e., it is neither too detailed nor too condensed; and

4.1.1.5. Financial statements reflect the underlying transactions and events in a manner that presents the financial position, results of operations, and cash flows stated within a range of acceptable limits, i.e., limits that are reasonable and attainable.

4.1.2. FASB Codification. The American Institute of Certified Public Accountants Council designated the Federal Accounting Standards Advisory Board as the body that promulgates GAAP for federal entities and the FASB as the organization that establishes standards for financial accounting and reporting in the private sector. Since NAFI business operations are similar to the private sector, financial statements are prepared and presented to comply with accounting standards promulgated by FASB. The FASB ASC is the single source of authoritative nongovernmental U.S. GAAP, and is available as an advanced application that allows users to access authoritative content, perform research, and submit feedback. Effective for interim and annual periods ending after September 15, 2009, the Codification supersedes all previous GAAP standards. All other accounting literature not included in the Codification is considered non-authoritative.

4.1.3. Other Considerations. An important aspect of GAAP, as applied to government entities, is the recognition of the variety of legal and contractual considerations typical of the government environment. These considerations underlie and are reflected in the fund structure, basis of accounting, and other principles that distinguish governmental accounting from private sector accounting. Some of the types of laws and regulations that may have a direct and material effect on the determination of amounts in a NAFI activity's financial statements include:

4.1.3.1. Requirements for reporting to DoD and others;

4.1.3.2. Restrictions on the use of APFs;

4.1.3.3. Restrictions on expenditures, including construction;

4.1.3.4. Restrictions on investments; and

4.1.3.5. Laws and regulations for NAF, Civil Service, and military personnel.

4.2 Accrual Accounting

NAFIs use the accrual basis of accounting. Under accrual accounting, transactions and other economic events are recorded when they occur. Income and expense are recognized and reported when earned or incurred. Accrual accounting emphasizes matching associated income

and expense in the period in which they occur and contributes to effective financial control over resources and cost of operations. Accrual accounting is essential in developing adequate income and cost information.

4.3 AO Responsibilities

AOs provide centralized professional accounting services to NAFIs. AO responsibilities include:

4.3.1. Maintain all books of original entry, the general ledger, and related subsidiary ledgers;

4.3.2. Maintain fixed asset records;

4.3.3. Prepare all disbursement vouchers and checks after assuring availability of funds and pay liabilities of all supported NAFIs;

4.3.4. Maintain payroll records if performing payroll functions;

4.3.5. Prepare required periodic financial reports with ratios and percentages as requested. AOs also report variances in relation to established standards or approved budget goals upon request;

4.3.6. Prepare other information when requested by NAFI management or higher authority. For example, AOs may supply financial analysis with an MWR activity's financial statements or provide variance from budget data or historical information for use in preparation of NAFI budgets;

4.3.7. Prepare and distribute financial reports to all supported NAFIs;

4.3.8. Prepare an annual operating budget for the AO. When more than one NAFI is supported by an AO, then a schedule is prepared that shows the estimated amounts to be assessed each supported NAFI. The estimated assessed costs may be calculated by applying a cost factor against prior actual expenses incurred. The estimated amounts may include costs related to Human Resources;

4.3.9. Reconcile the bank accounts of supported NAFIs. Review daily account balances shown on monthly bank statements to make sure that insurance and collateral are sufficient. Notify NAFI managers of missing or delayed deposit or check documentation;

4.3.10. Compute and bill service fees to recover operating costs;

4.3.11. Review documentation for completeness and accuracy;

4.3.12. Provide documentation to internal and external independent auditors, as required;

4.3.13. Prepare aged accounts receivable and, **if required**, accounts payable reports;

4.3.14. Maintain awareness of all changes that affect financial reporting; and

4.3.15. Review requests for making adjustments to fund equity or net worth, and forward request to appropriate approval authority designated by each Military Service. Non-receipt of accounting documents or failure to record documents received does not constitute a valid equity adjustment.

4.4 Accounting Changes

The term “accounting change” means a change in an accounting principle or an accounting estimate. When an accounting change is made, appropriate footnote disclosure is required to provide justification for the accounting change and its effect on the financial statements.

4.4.1. Change in Accounting Principle. A change in accounting principle results from an adoption of a generally accepted accounting principle different from the one previously used for reporting purposes to include the methods for applying the new principle. A characteristic of a change in accounting principle is that it concerns a choice from among two or more generally accepted accounting principles. In the preparation of financial statements, there is a presumption that an accounting principle, once adopted, is not changed in accounting for events and transactions of a similar type. Consistent use of accounting principles from one accounting period to another enhances the utility of financial statements to users by facilitating analysis and understanding of comparative accounting data. Generally, the past financial statements are restated to reflect a change in accounting principle. When accounting systems do not allow for restatement of comparative financials, the footnotes to the financials should state this fact and explain the impact of the change on the prior year statement.

4.4.2. Change in Accounting Estimate. A change in an estimate used in accounting is a necessary consequence of periodic presentations of financial statements. A change in accounting estimate results from new information or subsequent developments and accordingly from better insight or improved judgment. Preparing financial statements requires estimating the effects of future events. Examples of items for which estimates are necessary are uncollectible receivables, inventory obsolescence, service lives, and salvage values of fixed assets. Future events and their effects cannot be predicted with certainty. Estimating, therefore, requires the exercise of judgment. Accounting estimates may change as new events occur, as more experience is acquired, or as additional information is obtained. A change in accounting estimate is accounted for prospectively over current and future years, which will cause a change to the expense account in future years. Prior years are not restated.

4.5 Accounting Errors

Errors in financial statements result from mathematical mistakes, mistakes in the application of accounting principles, oversight, or misuse of facts that existed at the time the financial statements were prepared. A change from an accounting principle that is not generally

accepted to one that is generally accepted is a correction of an error. The past financial statements are restated to reflect the corrections.

5.0 INTERNAL CONTROLS

NAFIs must establish and operate internal control programs in accordance with a range of guidance. The Office of Management and Budget [Circular A-123](#), “Management’s Responsibility for Enterprise Risk Management and Internal Control,” and the statute it implements, the Federal Managers’ Financial Integrity Act ([FMFIA](#)) of 1982, are at the center of the existing Federal requirements to improve internal controls. Circular A-123 provides guidance on using the range of tools at the disposal of agency managers to achieve desired program results and meet the requirements of the FMFIA of 1982. The Circular provides internal control standards and specific requirements for conducting management’s assessment of the effectiveness of internal controls over financial reporting. For additional guidance, refer to [DoDI 5010.40](#), “Managers’ Internal Control Program Procedures,” and DoDI 1015.15. See Volume 1, Chapter 3, section 3.0 for additional guidance on appropriate internal controls, including verifying the authorization of recorded transactions.

6.0 AUDIT REQUIREMENTS

6.1 Audit Policy

Policy regarding the audit of NAFIs and related activities is prescribed in [DoDI 7600.06](#), “Audit of Nonappropriated Fund Instrumentalities and Related Activities.” NAFIs will have access to the results of system or functional audits in the form of reports.

6.2 Audit Frequency

DoD policy is to provide adequate audit coverage of NAFIs to include annual financial statement audits. Each Military Service is required by DoDI 7600.06 to have independent certified public accountants conduct an annual financial audit of NAFIs with annual income or expenses exceeding \$10 million. NAFIs in Program Group VI – Special Purpose Central Funds, and NAFIs supporting highly sensitive operations, [must have audits at least annually regardless of the dollar threshold of revenues and expenses](#). If directives require or circumstances warrant, additional audits may be scheduled as instructed by DoD Component authority.

6.3 Audit Objectives

The primary objectives of annual NAFI financial audits are to determine whether the financial statements fairly represent the results of operations, and applicable laws and regulations are followed. Particular attention is placed on identifying potential fraud, waste, or abuse in operations.

CHAPTER 2

NONAPPROPRIATED FUND STANDARD GENERAL LEDGER

1.0 GENERAL

1.1 Purpose

This chapter prescribes policy for the Nonappropriated Fund (NAF) Standard General Ledger (NAFSGL), maintained on the [DoD NAF Accounting](#) website. The NAFSGL is a modified version of the United States Standard General Ledger used for accounting and financial statement reporting to ensure financial statement information is consistent for all Nonappropriated Fund Instrumentalities (NAFIs). The NAFSGL provides for standardization and traceability from the financial statements through the general ledger balances to the source documentation for audit purposes. At a minimum, the Office of the Under Secretary of Defense (Personnel & Readiness) updates and publishes the NAFSGL prior to 1 October of each year. Policies in this chapter apply to all NAFIs and their supporting accounting offices, except the Military Exchanges, which include Army and Air Force Exchange Service, Navy Exchange Service Command, and Marine Corps Exchange.

1.2 Authoritative Guidance

The accounting policies, and related requirements prescribed, are in accordance with the applicable provisions of:

1.2.1. DoD Instruction [\(DoDI\) 1015.15](#), “Establishment, Management, and Control of Nonappropriated Fund Instrumentalities and Financial Management of Supporting Resources;” and,

1.2.2. Financial Accounting Standards Board ([FASB](#)) Accounting Standards Codification ([ASC](#)). Users can [now](#) access the FASB ASC [without charge](#). [This access now includes browsing by topic, searches, and print options.](#)

2.0 REPORTING

2.1 Basic Structure

The general ledger accounts are self-balancing (the total debits equal the total credits) and provide for accounting of business events. The NAFSGL contains a Chart of Accounts and basic common account code elements, including the Installation, Nonappropriated Fund (NAF), Activity, Cost Center, Site, Appropriated Fund (APF)/NAF, and General Ledger Account Code (GLAC). Each Military Department uses the accounts required for its particular financial operations. The NAFIs and Military Departments may not have to use all accounts. See paragraph 3.2 for a description of each common account code element.

2.2 Financial Transactions

All resources acquired and used, and valid claims to and against those resources, are to be recorded as financial transactions. Asset and liability accounts cover the collection and payment of cash, the proper classification of assets (e.g., receivables, prepayments, inventory, and fixed assets), and the recognition and proper classification of liabilities (e.g., accounts payable, wages payable, loan liabilities, and pension liabilities). Revenue and expense accounts measure the realization of revenues from the sale of goods and services, and the recognition of costs through the use and consumption of assets.

3.0 NAFSGL FRAMEWORK

3.1 Reporting

The NAFSGL framework requires reporting by specified common account code elements used to organize data for financial reporting. The current NAF common account code elements include the Installation, NAF Fund, Activity, Cost Center, Site, APF/NAF, and GLAC.

3.2 NAF Common Account Code Elements

3.2.1. Installation. A five-character code used to indicate the Military Service and the location where the NAF program is physically or virtually located. The first digit is an alpha character that serves as a Military Service designator (A=Air Force, R=Army, M=Marine Corps, and N=Navy). The last four digits are a numeric string that designates the installation.

3.2.2. NAF Fund. A three-digit code that indicates the NAF Program Group and the type of NAF operation (e.g. Military Morale, Welfare and Recreation (MWR), DoD Lodging, Military Academy Athletic Fund). More information about NAF Program Groups and the definition of NAFIs is in DoDI 1015.15.

3.2.3. Activity. A three-digit code that indicates a specific program or an operational program of a NAFI designed to increase the well-being of authorized MWR users. An activity identifies operational organizations within the Service structure. Examples include bowling, camping, lodging, and golf.

3.2.4. Cost Center. A three-digit code providing a subset or subaccount used to give a more detailed view of a business activity by identifying the accounting subdivision of a NAFI. NAFIs consist of one or more subdivisions called cost centers. Transactions relating to one operational activity (e.g., military club) are recorded into one or more cost centers (e.g., bar, restaurant, or snack bar).

3.2.5. Site. A two-digit code for similar activities operated at separate physical locations that are associated with the same installation. For example, an installation might have two bowling centers or three clubs. The Service would provide a consecutive number for each similar location (e.g., Bowling Alley X = 01, Bowling Alley Y = 02). If the activity and cost center cannot be

traced to a specific site, use the code "00" to indicate the activity and cost center do not align with a site. If only one physical location exists, use the code "01" to identify the location.

3.2.6. APF/NAF. A one-digit code used to differentiate NAF revenues and expenses from APF revenues and expenses. APF is received from a source outside the NAFI, such as the use of Uniform Funding and Management or a reimbursement to the NAFI for NAF expended when APF is the proper source funding (0 = NAF Only and 1 - 9 = APF).

3.2.7. GLAC. An eight-digit code that is used to record transactions relating to a Service's NAF program assets, liabilities, equity, revenues (income), and expenses. The GLAC is the central repository for accounting data transferred from all sub-ledgers or modules, such as accounts payable, accounts receivable, cash management, fixed assets, purchasing and projects. The first four-digit string refers to the DoD Standard GLAC for DoD reporting. For example, account 1000 = Cash in Bank, account 1770 = Intangible Assets, and account 2000 = Accounts Payable. The last four-digit string refers to the DoD detailed account description for use by the DoD Components. For example, 0001 = Checking, 0002 = Local Checking Account, and 0003 = Local Bank Compensating Balance. A Chart of Accounts on the DoD NAF Accounting website provides a detailed definition of each account for reference.

4.0 NAFSGL ACCOUNTS

4.1 Categories

The NAFSGL uses an eight-digit account numbering system for the GLACs. Within the NAFIs, the NAFSGL supports financial statement reporting at the Program Group level and the consolidated Military Department level. All data must summarize to the four-digit DoD standard GLAC and be traceable to the NAFIs using subaccounts. The following paragraphs discuss the definition of each summary category and the accounts that make up that specific summary category. The general ledger accounts are grouped into the following major summary categories:

<u>Account Numbers</u>	<u>Category</u>
1000	Assets
2000	Liabilities
3000	Net Worth/Equity
4000	Operating Income
5000	Operating Expenses
6000	Non-Operating Income
7000	Non-Operating Expenses

4.2 Assets

Account for assets in the 1000 series of accounts. Current asset accounts consist of cash, investments, receivables, inventories, and other assets or resources that are reasonably expected to be converted to cash or be consumed during the normal operating cycle (12 months or less). Long-term asset accounts consist of NAFI-titled fixed assets, APF-titled fixed assets, and other long-term assets. Chapter 3 contains additional information on assets.

4.2.1. Cash/Investments. Cash and investments are liquid assets, which can be quickly used to carry out operations. Cash consists of coins, paper currency and readily negotiable instruments, cash in bank, foreign currencies, revolving cash funds, cash held in petty cash or change funds, imprest funds, savings, and restricted cash for current operations, and certificates of deposit with an original maturity of three months or less. Investments consists of interest-bearing deposits, certificates of deposit with an original maturity greater than three months but no more than 12 months, and marketable securities. Employee retirement cash and investments (employee 401K, employee retirement, and employee post-retirement medical) must be excluded from a consolidated presentation. The employee retirement cash and investments will distort available NAF.

4.2.2. Receivables. Receivables are amounts due from others when the right to receive funds occurs. This may result from amounts owed by employees, customers, and organizations for amounts earned on products sold and services rendered. Receivables consists of customer receivables, inter- and intra-NAFI receivables, APF receivables, merchant card receivables, claims receivables, employee receivables, accrued interest receivables, allowance for doubtful accounts, and other receivables.

4.2.3. Other Current Assets. Other current assets are prepaid expenses that are payments and expenditures made in contemplation of future benefits or performance. Other Current Assets consists of prepayments for supplies, contracts, insurance, franchise fees, deposits, and advance payments.

4.2.4. Inventory. Inventory consists of goods held for sale in the normal course of business, designated as resale inventory items, and warehouse materials not accounted for as prepaid supplies or fixed assets. Inventory consists of central warehouse inventory, work in progress inventory, and inventory in-transit.

4.2.5. Fixed Assets. Fixed assets are property, plant and equipment purchased, donated, or transferred to NAIs that have an expected life of two or more years. Fixed Assets consists of buildings, land, land improvements, vehicles, aircrafts, boats, furniture, fixtures and equipment, information technology, livestock, assets in progress, fixed assets in-transit when ownership passes to the NAI before receiving the asset, and accumulated depreciation. Donations of assets and services determined to be material are reported in the financial statements. Donated artifacts should not be included in the financial statements, unless the NAI: 1) uses or intends to use the artifact in its primary operations outside of its educational function; or 2) sells or intends to sell the artifact and use the proceeds for something other than purchasing another artifact for educational purposes.

4.2.6. Other Long-Term Assets. Other long-term assets are assets not identified in other asset categories. Other long-term assets consist of long-term pension benefit assets, receivables, long-term prepaid expenses, certificates of deposit (more than 12 months), marketable securities, long-term contributions, long-term franchise fees, intangible assets, and long-term royalty and trademark fees. Report pension benefit asset information when the pension plan is overfunded and classified as a long-term asset. Refer to FASB ASC Topic 715, "Compensation-Retirement

Benefits,” and Chapter 11 for reporting guidance. Cash and investments restricted for long-term purposes must be classified and reported on the balance sheet as other long-term assets.

4.3 Liabilities

Account for liabilities in the 2000 series of accounts. Current liability accounts are due on demand or will be due on demand within 1 year and consist of accounts payable, wages payable, interest payable, post-retirement benefit obligations (12 months or less), and other liabilities. Long-term liability accounts are due more than 12 months from the date of the Balance Sheet and consist of loan liabilities, capital lease liabilities, post-retirement benefit obligations (more than 12 months), and other long-term liabilities. Chapter 3 contains additional information on liabilities.

4.3.1. Accounts Payable. Accounts Payable consists of the amounts owed for goods and services.

4.3.2. Post-Retirement Benefit Obligation – Current. Report the current obligation when the pension plan is underfunded (plan assets are less than the plan benefit obligation). Report obligation information when the pension plan is underfunded and classified as a current liability as determined and provided by the pension provider. This includes any other post-retirement benefit plan, such as retiree health care. The benefit obligation is the accumulated post-retirement benefit obligation. Refer to FASB ASC Topic 715 and Chapter 11 for reporting guidance.

4.3.3. Other Current Liabilities. Other Current Liabilities consists of various payables, including loans, leases, interest, wages, taxes, and unearned income.

4.3.4. Long-Term Loans Payable. Long-Term Loans Payable consists of the amount of loans and notes that will be paid in more than 12 months.

4.3.5. Post-Retirement Benefit Obligation – Long-Term. Report the long-term obligation when the pension plan is underfunded (plan assets are less than the plan benefit obligation). Report obligation information when the pension plan is underfunded and classified as a long-term liability as determined and provided by the pension provider. This includes any other post-retirement benefit plan, such as retiree health care. The benefit obligation is the accumulated post-retirement benefit obligation. Refer to ASC Topic 715 and Chapter 11 for reporting guidance.

4.3.6. Other Long-Term Liabilities. Other Long-Term Liabilities consists of the amount of leases and claims that will be paid in more than 12 months.

4.4 Net Worth/Equity

Account for Net Worth/Equity in the 3000 series of accounts. Net Worth consists of retained earnings, transferred equity, workers’ compensation reserves, equity reserves, undistributed profits and net income, unrealized gains and losses, and other equity transactions. The pension cost liability account records any adjustment made to the existing pension balances in the Balance Sheet. Post these adjustments as an offset to the equity account in the Balance Sheet as either an addition or reduction to Net Worth. Account for these temporary adjustments in the Net Worth

section of the Balance Sheet in the same manner as the unrealized gains and losses on investments pursuant to FASB ASC Topic 320, "Investments—Debt Securities." In addition, do not include these temporary adjustments in the net worth calculation. Refer to ASC Topic 715 for reporting guidance.

4.5 Operating and Non-Operating Income

Classify income as either operating (4000 series) or non-operating (6000 series).

4.5.1. Operating Income. Account for operating income in the 4000 series of accounts. Examples of operating income accounts include gross sales income, participation fees income, concessionaire income, rental income, amusements income, gaming income, reimbursement income, and other operating income. Chapter 5 contains additional information on income.

4.5.2. Non-Operating Income. Account for non-operating income in the 6000 series of accounts. Examples of non-operating income include interest income, rebates income, subsidy income, exchange dividend income, unusual and/or infrequent income, and other non-operating income.

4.6 Operating and Non-Operating Expenses

Classify expenses as either operating (5000 series) or non-operating (7000 series).

4.6.1. Operating Expenses. Account for operating expenses in the 5000 series of accounts. Examples of operating expenses include purchases, cost of goods sold, depreciation expense, wage expense, tax expense, retirement expense, supplies expense, communication expense, utilities expense, travel expense, claims expense, entertainment expense, bad debt expense, unemployment compensation/other employee benefit expense, and other operating expense. Chapter 5 contains additional information on expenses.

4.6.2. Non-Operating Expenses. Account for non-operating expenses in the 7000 series of accounts. Examples of non-operating expenses include interest expenses, unusual and/or infrequent expenses, costs incurred in acquiring historical artifacts, unusual and/or infrequent expenses, and other non-operating expenses.

CHAPTER 3

ASSETS, LIABILITIES, AND NET WORTH

1.0 GENERAL

1.1 Purpose

This chapter prescribes the accounting policy and related requirements for Nonappropriated Fund (NAF) assets, liabilities, and net worth. NAF Instrumentality (NAFI) programs and facilities must be operated, maintained, and funded as an integral part of the DoD personnel and readiness program. Policies in this chapter apply to all NAIs and their supporting accounting offices (AOs) to include the Military Exchanges, which include Army and Air Force Exchange Service, Navy Exchange Service Command, and Marine Corps Exchange.

1.2 Authoritative Guidance

The accounting policy and related requirements prescribed are in accordance with the applicable provisions of:

1.2.1. DoD Instruction ([DoDI 1015.15](#)), “Establishment, Management, and Control of Nonappropriated Fund Instrumentalities and Financial Management of Supporting Resources;”

1.2.2. [Financial Accounting Standards Board](#) Accounting Standards Codification ([ASC](#)). Users can now access the ASC without charge. This access now includes browsing by topic, searches, and print options;

1.2.3. [DoDI 4105.67](#), “Nonappropriated Fund (NAF) Procurement Policy and Procedure;” and

1.2.4. Title 5, Code of Federal Regulations (CFR), Part 1315 ([5 CFR Part 1315](#)).

2.0 CHART OF ACCOUNTS

The NAF Standard General Ledger (NAFSGL) chart of accounts, to include definitions and general ledger account codes (GLACs) for asset, liability, and net worth accounts, is maintained on the [DoD NAF Accounting website](#). NAF accounting systems that are used by the Military Exchanges are exempt from using this chart of accounts. A separate Defense Resale Activities chart of accounts, for use by the Military Exchanges, is also available on the DoD NAF Accounting website.

3.0 ACCOUNTING REQUIREMENTS FOR ASSETS

The NAFSGL contains eight categories in the assets group: Cash, Investments, Receivables, Inventories, Other Current Assets, NAFI-Titled Fixed Assets, Appropriated Fund (APF)-Titled Fixed Assets, and Other Long-Term Assets. Specific accounting requirements related to these categories are outlined in paragraphs 3.1 through 3.7.

3.1 Cash

NAF cash must be maintained in financial institutions that are U.S. federally insured or designated by the U.S. Department of Treasury. Cash consists of: coins; paper currency; readily negotiable instruments, such as money orders, checks, and bank drafts on hand or in transit for deposit; amounts on demand deposit with banks or other financial institutions; and foreign currencies, which, for accounting purposes, should be translated into U.S. dollars at the exchange rate on the financial statement date. Additionally, all sales of merchandise or services using credit cards must be recorded as cash at the time of sale.

3.1.1. Cash in Bank

3.1.1.1. Reconciliation of Bank Accounts. Designated accounting personnel must reconcile all bank statements or reports on a monthly basis. Any discrepancies found are reported immediately to NAFI management. To maintain separation of duties, the person performing the reconciliations cannot be any person associated with the collection or disbursement of funds.

3.1.1.2. Blank Check Stock. The AO must designate someone to maintain the records and control the blank check stock. For security reasons, this person cannot be one of the check writers. Checks are sequentially pre-numbered and stored in a locked container, which must be either a built-in vault or a safe that is burglary resistant and is fire resistant for a minimum period of two hours. For additional guidance on securing blank check stock, refer to Volume 5, Chapter 3.

3.1.1.3. Check Signing Equipment. There are three components to check signing equipment: a signature plate, a key to the machine, and the machine itself. The signatory maintains the signature plate, and a designated person, other than the signatory, maintains the key to the machine and a log to record machine usage. Whenever operating the machine, the authorized operator enters the beginning and ending readings, date, and their initials in the log. In addition to signature plates, there are other media acceptable for signing checks, e.g., digitized signatures. For comprehensive guidance on check signing, refer to Volume 5, Chapter 7.

3.1.1.4. Change of Signatory. When a change of signatory occurs, destroy the signature plates and notify the bank. A certificate of destruction is prepared, signed by two witnesses and the successor signatory, and maintained in the AO. Refer to Volume 5, Chapter 7 for additional information on the destruction of signature media.

3.1.2. Foreign Currency. For guidance on exchange rate fluctuations, refer to Volume 5, Chapter 13.

3.1.3. Change Funds

3.1.3.1. Accounting for Change Funds. Upon initial issuance of the change fund, the NAFI's cash account is reduced and the appropriate asset account (change funds issued) is increased. Increases to these funds must be requested in writing from the NAFI custodian (see DoDI 1015.15 for definition of NAFI custodian). The AO issues a check for the approved amount and increases the asset account accordingly.

3.1.3.2. Replenishment of Change Funds. The NAFI manager or designee must replenish the funds at the end of the day with cash received from operations as long as all the daily net receipts are deposited in total. Before replenishing the funds, the NAFI manager or designee must ensure all checks cashed from these funds are deposited daily. In no case will the NAFI manager or designee exchange dollars for foreign currency, except as provided in Volume 5, Chapter 13.

3.1.4. Petty Cash Funds. Disbursements from the petty cash fund are recorded to the applicable expense accounts in the month that the petty cash is disbursed by the petty cash custodian.

3.1.4.1. Establishing a Petty Cash Fund. Each NAFI must comply with the following guidelines when establishing a petty cash fund.

3.1.4.1.1. Each manager within a NAFI appoints, in writing, individuals to act as petty cash custodians.

3.1.4.1.2. The amount of a petty cash fund will not exceed one month's requirements.

3.1.4.1.3. Any one transaction will not exceed \$500, and transactions will not be fragmented to circumvent this limitation. A higher limit may be approved by the Military Service proponent for NAF financial management for purchases made in foreign currency, if currency rates so warrant. This increase must be reviewed on an annual basis.

3.1.4.1.4. In foreign locations, NAFIs may have one petty cash fund in the local foreign currency as well as one in U.S. dollars. If NAFIs give cash bingo prizes in both dollars and foreign currency, two bingo petty cash funds must be established.

3.1.4.1.5. NAFIs must not use petty cash funds for cashing checks or paying salaries and wages.

3.1.4.2. Replenishment of Petty Cash Funds. The AO provides the fixed amount to the individual appointed as the petty cash custodian. Disbursements are made by the petty cash custodian and a petty cash voucher is completed to support each transaction. The petty cash custodian will submit a request with the petty cash vouchers and receipts (or equivalent) to the AO to replenish the petty cash fund as needed, but not later than the last day of each month. The AO will issue a check payable to the petty cash custodian, by name, to reimburse the fund.

3.2 Investments

For guidance on management of investments policy, refer to DoDI 1015.15.

3.3 Receivables

Receivables are amounts owed to the NAFIs for sales of merchandise, services, or dues. Receivables may result from amounts owed by [APF's, Uniform Funding and Management \(UFM\) processes](#), employees, members, customers, and organizations for dues, fees, charges, rentals, credit sales (except sales of merchandise or services using credit cards, per paragraph 3.1), or travel advances. Receivable records are maintained to ensure transactions accurately identify each debt and its respective debtor. Receivable subsidiary records are reconciled on a monthly basis to the general ledger control accounts. Refer to the NAFSGL for a complete listing of receivable accounts and their definitions.

3.3.1. Accounting for Customer Accounts Receivable. A subsidiary ledger is maintained for each individual account. Dues are charged monthly where applicable. Monthly statements are sent to members or participants of the NAFIs that permit charge sales, charge dues, or deferred payments. Account balances are due and payable on the first day after the statement date. Current month dues are treated the same as current month charge sales and normally become payable the first day after the statement date. If the DoD Component authorizes delinquent fees, then they are established as a customer receivable and charged to the delinquent account each month.

3.3.2. Aged Customer Accounts Receivable Reports. An aged customer accounts receivable report is prepared for all NAFIs with internal credit systems. The aging report, at a minimum, will include the following: over 30 days (second billing statement), over 60 days (third billing statement), and over 90 days (fourth billing statement).

3.3.3. Allowance for Doubtful Accounts. ASC, Topic [326](#), Subtopic [20](#), Section [30](#) (ASC [326-20-30](#)) and ASC 450-20-25-2 require the accrual of losses from uncollectible receivables if a loss is probable and the amount of the loss can be reasonably estimated. NAFIs must create and use an allowance for doubtful accounts for bad debts ([credit losses](#)) in the current accounting period. When using the allowance method for bad debts ([credit losses](#)), NAFIs must determine and record the amount of accounts receivable estimated to be uncollectible at the end of each reporting period. The estimated amount to record is based on a review of the average write-offs of accounts receivable, which is based on historical data. Supporting documentation for the calculation and associated adjustment must be maintained for audit purposes. Adjust the allowance for doubtful accounts to cover those accounts expected to become uncollectible during the next reporting period.

3.4 Inventories

Inventory is merchandise or supplies on hand, or in transit, at a particular point in time. Inventory held for sale or resale consists of goods to be sold in the normal course of business. Merchandise held on consignment is not included as part of inventory. A value is assigned, which represents the cost of acquisition. When the goods are sold, the value assigned is used to determine

profit for the accounting period, as shown on the income statement, and to report assets on the balance sheet at the end of the accounting period.

3.4.1. Accounting for Inventory

3.4.1.1. Inventory Subsidiary. Inventories must be valued and recorded at cost, as required by ASC 330-10-30. The DoD Components must prescribe the method for determining cost (e.g., first in first out, last in first out, moving average) as long as the method is consistently applied and disclosed in the notes to the financial statements. The Military Exchanges must use the retail inventory method to account for retail merchandise. The cost of merchandise will include freight, distribution, purchase charges, insurance, and handling charges if they can be associated to specific items. If they cannot be identified to specific items, then record directly against the appropriate expense account. In determining the cost of purchased property or goods, discounts must be deducted from the price billed, and the cost of purchased property must be recorded, net of discounts. The value of discounts not taken must be charged to operations. If cash discounts are not material to warrant changing individual prices, then the amount of the discount is credited to the purchases account and not to individual items. Discounts lost and excise taxes paid are not included in the cost of merchandise but are recorded in the applicable operating expense account.

3.4.1.2. Stock Record. The stock record is used to record resale merchandise and supplies in a warehouse or storeroom. It requires a complete description of the merchandise and all pertinent information regarding receipt and issue.

3.4.1.3. Spoilage, Breakage, Obsolete Material, Customer Complaint, or Reject Items. Immaterial losses of inventory resulting from spoilage, breakage, obsolescence, rejection, or constant customer complaint items are absorbed in cost of goods. Material losses are recorded in a Spoilage and Breakage expense account for the applicable operation.

3.4.1.4. Consigned Merchandise and Tickets. Merchandise held on consignment is maintained and accounted for by the consignor. Revenue is to be recognized only once the consignment tickets have been sold to a third party purchaser. At that time, any selling costs and any costs due to the consignor are expensed. NAFIs only maintain inventory of consigned merchandise for accountability purposes. These items are physically inventoried monthly or at the end of an event for tickets (whichever comes first). In accordance with ASC 606, this inventory is not recorded in the general ledger. Tickets purchased for resale are to be recorded as inventory in the general ledger.

3.4.2. Physical Counts of Inventory. Inventories are required to be physically counted. The following are policies related to physical inventories of merchandise.

3.4.2.1. The inventory list is printed in the same sequence in which the merchandise is stored or arranged for display or in stock record number sequence.

3.4.2.2. A cutoff date is established for sales, issues, returns, adjustments, and transfers so inventory quantities and related accounting entries can be recorded.

3.4.2.3. Merchandise received during the inventory count is not counted unless the payable or payment will be recorded in the general ledger as of the inventory cutoff date.

3.4.2.4. Merchandise sold during the physical count is included in the inventory count if the sale and receivable is recorded in the general ledger after the cutoff date. The merchandise is not included in the count if the related sale and receivable or cash received will be recorded in the general ledger before the inventory cutoff date.

3.4.2.5. Physical inventory is conducted separately for each department.

3.4.2.6. Inventories of merchandise held on consignment are separate from NAFI-owned merchandise. Inventory lists are prepared for each owner of the goods.

3.4.2.7. At the conclusion of the inventory count, any discrepancies are provided to the NAFI custodian for resolution. The general ledger (i.e., Inventory, Central Warehouse Inventory, Purchases, and/or Purchases Discounts and Allowances GLACs) is then adjusted to match the physical count that was observed by the observation team. See DoDI 1015.15 for information on reporting fiduciary responsibility and investigations.

3.4.3. Physical Inventory Observation. At least annually, the physical inventory counts are observed by at least one person who is independent of the NAFI conducting the physical count. The objective of the count is to verify the inventory to determine the accuracy of the accounting records. Since it is frequently impractical to observe all physical inventories at one time, the observations may be staggered throughout the year.

3.5 Other Current Assets

Other Current Assets are short-term prepaid expenses that are payments and expenditures made in contemplation of future benefits or performance. Other Current Assets also consists of prepayments for supplies, contracts, insurance, franchise fees, deposits, and advance payments that are not material enough for a separate line item disclosure. Prepaid expenses are accounted for in multiple accounts in the Other Current Assets category (refer to the NAFSGL for a complete list of accounts and definitions). Under the prepaid concept, payments made for expenses that apply to a specific period of time are amortized over that period. Any unexpired portion of that expense is shown as a prepaid asset. An advance or prepayment is never amortized for more than its expected usage. Monthly expenses are computed and prorated over each month of the period covered by the advance or prepayment. If the advance or prepayment is for supplies, it is expensed based on expected usage provided by the NAFI custodian. The unexpired prepaid expense subsidiary is reconciled to the related control account. The accounting principle of materiality (see Chapter 1) must be considered before employing the prepaid concept.

3.6 NAFI-Titled Fixed Assets and APF-Titled Fixed Assets

Fixed assets are captured under two categories in the NAFSGL: NAFI-Titled Fixed Assets and APF-Titled Fixed Assets. Each category has similar accounting treatment, and the same accounts are listed under each category (refer to NAFSGL for a listing of all fixed assets).

* 3.6.1. Accounting for Fixed Assets. Fixed assets purchased with NAFs, donated, or transferred to a NAFI with a useful life expectancy of two or more years and an acquisition cost of \$7,500 or more must be capitalized. [Services with more stringent asset capitalization threshold policies may follow their internal policy](#). This applies to single items purchased or transferred to a NAFI, or multiple items that are identical and purchased or transferred to the NAFI at the same time.

3.6.1.1. Acquisition Cost. Unless otherwise stated in the following subparagraphs, fixed assets are recorded at cost plus any expenditures necessary to place those assets into use as intended (e.g., installation, freight, testing, and legal fees to establish title). The NAFI can apply purchase discounts to reduce these costs; however, late payment interest penalties must not be capitalized. Interest expenses incurred as part of the acquisition cost of fixed assets will be capitalized.

* 3.6.1.1.1. Assets Purchased in Quantity. All Services are to set the minimum threshold for asset capitalization of assets purchased in quantity at a purchase cost equal to or greater than \$7,500. [Services with more stringent asset capitalization threshold policies may follow their internal policy](#). Additionally, the assets purchased in quantity should be identical items and have a life expectancy of two years or more. The whole room capitalization concept used by the lodging and entertainment industry (i.e., when hotel rooms are furnished, all items for all rooms are purchased at one time and are all capitalized together as one room), and composite purchase capitalization, are both permitted to be used when capitalizing assets purchased in quantity. All other criteria for fixed assets listed in subparagraph 3.6.1 must be met.

3.6.1.1.2. Trade-In Assets. When an asset is traded in at the time of purchase, the new asset is recorded at the amount of the monetary consideration paid, plus the trade-in allowance for the old asset. The acquisition cost and accumulated depreciation of the traded-in asset are removed from the accounting records. If the trade-in allowance is less than the book value of the old asset, then a loss will result. These losses are recorded in the “Other Non-Operating Expense” GLAC of the NAFI. If the trade-in allowance is more than the book value of the old asset, then the difference is subtracted from the acquisition cost of the new asset. No gain is recognized.

3.6.1.1.3. Assets-in-Progress. Assets-in-progress include all costs attributable to a construction project (i.e., building and improvements). This includes, but is not limited to, construction of new buildings, renovation of existing buildings, and fixed assets that are purchased as part of the project. The DoD Components must utilize construction-in-progress to accumulate the cost of real property construction projects. The AO records amounts based on the documentation supporting the contract completion. When progress payments to contractors are based on a percentage of completion clause, record the amount of payments due or paid. In addition to costs related to a construction project, fixed assets received but not billed must be recorded. The AO will transfer the accumulated cost of assets-in-progress to the appropriate fixed asset account and commence depreciation on the date of receipt shown on the asset receiving document in cases where no installation is required, the date installed (if required), or the date the asset is available for use. NAFI management establishes the facility depreciation periods according to guidance in Volume 4. Fully depreciated buildings are to be maintained on the NAFI accounting books until the asset is disposed of either through a sale or retirement.

3.6.1.1.4. Donated or Transferred Assets. Record donations of assets and services material to the financial statements. Assets donated or transferred without the expenditure of funds are recorded at the fair market value on the date the asset was donated or transferred. If the fair market value cannot be determined, then the amount recorded is the book value of the donated asset in the donor's accounting records. Donated artifacts should not be included in the financial statements unless the NAFI: 1) uses or intends to use the artifact in its primary operations outside of its educational function, or 2) the NAFI sells or intends to sell the artifact and use the proceeds for something other than purchasing another artifact for educational purposes.

3.6.1.1.5. Nonmonetary Exchanges. When assets are exchanged between NAFIs without monetary consideration, it is called a nonmonetary exchange. The assets received in such exchanges are recorded on the books of the gaining NAFI at the net book value of the losing NAFI. The offsetting entry is to the "Realized Gains and Losses for Sale of Fixed Asset Income" GLAC on both the gaining and the losing NAFI.

3.6.1.1.6. APF Property Obtained for Free. These assets are recorded separately from other fixed assets because title and control of these assets remain with APFs. For APF fixed assets expected to benefit more than one accounting period, any acquisition costs such as repairs, transportation, installation, and any subsequent outlays that extend the useful life of the asset are recorded and depreciated over the useful life of the asset. For APF fixed assets held one year or less, all costs are an expense for the period the asset is held.

3.6.1.1.7. Other Fixed Assets. Fixed assets acquired through Utilization Support and Accountability (USA) process, UFM process, or [10 U.S.C. § 2492](#) authority are NAFI assets, unless APF-titled. Proceeds from the disposition of these assets revert to the NAFI. Further information on USA, UFM practices, and 10 U.S.C. § 2492 authority is included in DoDI 1015.15.

3.6.1.1.8. Artifacts. Artifacts are historical treasures or heritage assets held primarily for educational purposes in a museum with measures taken to preserve the asset. Costs incurred in acquiring artifacts must be recorded as a non-operating expense and not recognized as part of the asset value, or depreciated.

3.6.1.2. Lease Disclosures. If either capital or operating leases are material, the information concerning the leases is disclosed in the NAFI financial statement footnotes. [Refer to ASC Topic 842 for additional information on leases.](#)

3.6.1.3. Subsequent Expenditures. Subsequent expenditures for fixed assets fall into three categories: repair and maintenance, improvements, and additions. The objective is to match the expenditures with the period benefited. Therefore, expenditures that benefit only the current period are expensed and expenditures that benefit future periods are capitalized.

3.6.1.3.1. Repair and Maintenance. Expenditures in this category are designed to prevent an asset from deteriorating (e.g., painting the interior of the enlisted club) or to return the asset to its original level of performance (e.g., a tune-up on a motor vehicle). These expenditures do not improve the performance of the asset or extend the life of the asset; therefore, these expenditures are expensed in the period incurred.

3.6.1.3.2. Improvements. Improvements are expenditures that extend the useful life of an asset (e.g., an engine overhaul on a motor vehicle) or improve original asset performance. Improvements are capitalized and depreciated.

3.6.1.3.3. Additions. Expenditures which increase the size of an asset (e.g., adding a new section to the club) are called additions. Additions are capitalized and depreciated.

3.6.1.4. APF-Titled Fixed Assets. A unique aspect of NAF accounting is that some assets, particularly buildings, are purchased using NAFs, and the NAFI has exclusive use, but the title rests with the U.S. Government. NAF procured property or facilities may be transferred to APF for maintenance when allowed by the Military Service regulations. Upon receipt of approved documentation from NAFI management, record these items in the NAF property records and general ledger as APF-Titled Fixed Assets (signifies government title) and commence depreciation. Assets acquired by Memorandum of Agreement where title and maintenance are transferred to an APF, are not depreciated in the NAF accounting records.

3.6.1.5. Fixed Assets in Transit. The NAFI may receive title to fixed assets and may make payment for fixed assets before the NAFI has physical possession of the property. Typically, this happens when property destined for a NAFI overseas is delivered to a stateside port for over-water transportation by government means. Payment is made based on the receipt at the port and is recorded to the appropriate fixed asset account. [When asset reaches final transit location, begin](#) depreciation on the date of receipt shown on the asset receiving document in cases where no installation is required, the date installed (if required), or the date the asset is available for use.

3.6.1.6. Disposition of Property. Disposal means that the NAFI activity manager/custodian has physical control of the item and disposes of it. Documents are prepared and approved by the NAFI activity manager/custodian for the disposition of fixed assets. When property is transferred to APFs, it is evidenced on the form required by APFs.

3.6.1.7. Physical Fixed Asset Inventory. A physical inventory of all fixed assets will be conducted at least annually and observed by at least one person who is independent of the NAFI conducting the physical count. The objective of the count is to verify the inventory to determine the accuracy of the accounting records. When it is impractical to perform this inventory all at one time, the NAFI may schedule and conduct the physical inventory by area.

3.6.1.8. Property Subsidiary Ledger. Property subsidiary ledgers serve as property control records. At a minimum, the property subsidiary ledger must list each piece of property, acquisition date, acquisition value, useful life, depreciation to date, and current book value. This subsidiary ledger can be either automated or manual, but if automation is available, it must be used. The NAFI prepares the documentation necessary to change any data on the subsidiary ledger records, even when no general ledger entries are required, e.g., fixed assets transferred from one location to another within the same NAFI.

3.6.1.9 Claims. When an insured asset is destroyed or damaged and the claim is settled, the affected accounts are adjusted. Usually claim settlements do not exceed the acquisition value less accumulated depreciation of the property destroyed (book value).

3.6.1.10. Depreciation. DoD Components must utilize the straight-line method of depreciation, and must prescribe the useful lives of assets and disclose them in the notes to the financial statements. Tangible fixed assets, except construction-in-progress, must be depreciated over their expected useful lives. Accounting for depreciation as an operating expense is an integral part of the accrual basis of accounting. Accordingly, all NAF activities recognize depreciation of their fixed assets. Refer to Volume 4 for the requirements for salvage value to be subtracted from the acquisition cost of fixed assets before computing depreciation.

3.6.1.10.1. Assign an expected useful life within the following parameters:

Asset	Useful Life in Years
Buildings	30 – 40
Building Improvements	5 – 20
Furniture, Fixtures, & Equipment	2 – 10
Vehicles	2 – 10
Aircraft Engine Overhaul	2 – 6
Aircraft Avionics, Interior, Painting	2 - 5
Aircraft	5 – 10
Boats	2 – 15
Computer Hardware	2 – 10
Computer Software	2 – 5
Land Improvements	15 – 25
Land Rights of Limited Duration	Over Specified Duration
Leasehold Improvements	Lesser of the Remainder of Lease Period or 20 Years
Sewers & Other Utilities (excluding items like fiber optic cable)	10 – 50
Steam and Electric Generation Equipment	20
Other Water Transportation Equipment (e.g., barges, tugs)	15 – 20
Livestock (e.g., Horses) & Breeding Livestock	2 – 10
Relocatable/Portable Buildings	2 – 10

3.6.1.10.2. For NAF capital assets whose titles are transferred to APFs, but are still used by the NAFI, continue to depreciate these fixed assets on the NAFIs book until the items are fully depreciated. Fully depreciated assets which are still in use by the entity are to be reported on the balance sheet until disposed of via sale or retirement.

3.6.1.10.3. Commence depreciation on the date of receipt shown on the asset receiving document in cases where no installation is required, the date installed (if required), or the date the asset is available for use, regardless of whether the asset is actually used. In the

case of constructed real property, depreciation will commence when the building is available for use, regardless of whether the building is fully occupied.

3.6.1.10.4. If an asset remains in use longer than its estimated useful life, it will be retained in the property accountability or management system, as well as in the accounting records, and the record will reflect both its recorded cost and accumulated depreciation until its disposition.

3.6.1.10.5. Depreciation of real property must not be accelerated at installations approved for realignment, closure, or re-stationing. Upon actual closure of the facility, the undepreciated value must be expensed in the applicable extraordinary expense account.

3.6.2. Information Technology Assets. In accordance with ASC 350-40-35-4, internal-use software will be amortized on a straight-line basis unless another systematic and rational basis is more representative of the software's use. Software acquired for research and development with no alternative future use will be amortized over the period of the project as opposed to the normal life-cycle amortization. Refer to Volume 4, Chapter 27 for detailed guidance.

3.7 Other Long-Term Assets

Other Long-Term Assets include those not identified in other asset lines of accounting that are held for longer than 1 year. Other Long-Term Assets consists of long-term pension benefit assets, long-term receivables, long-term prepaid expenses, long-term leases and capital leases, certificates of deposit (more than 12 months), marketable securities, long-term contributions, long-term franchise fees, intangible assets, and long-term royalty and trademark fees. Report pension benefit asset information when the pension plan is overfunded and classified as a long-term asset. Refer to ASC 715, "Compensation-Retirement Benefits," and Chapter 11 for reporting guidance. Cash and investments restricted for long-term purposes will be classified and reported on the balance sheet as other long-term assets.

4.0 ACCOUNTING REQUIREMENTS FOR LIABILITIES

The NAFSGL contains two categories in the liabilities group: Current Liabilities and Long-Term Liabilities. Current liabilities are due on demand or will be due on demand within 1 year; whereas, long-term liabilities are amounts due over a period of time longer than 1 year from the date of the balance sheet. Specific accounting requirements related to liabilities are outlined in paragraphs 4.1 through 4.3.

4.1 Recognition of Liabilities

Liabilities arise from the acquisition of goods or services. Accounts payable must be recognized upon receipt of services or when accepting title to goods. Under accrual accounting, accrued liabilities are recorded for goods or services which have been provided but for which invoices have not yet been received; and therefore, not yet included in accounts payable.

4.2 Contingent Liabilities

Contingencies are existing conditions, situations, or circumstances involving uncertainty as to possible gain or loss that will ultimately be resolved when one or more future events occur or fail to occur. Loss contingencies are accrued when the outcome is probable and the amount is reasonably estimable. Do not record gain contingencies. When a contingency is identified, the AO will footnote the year-end Military Service level consolidated financial statements explaining the contingency and the potential for gain or loss. See ASC 450-20-25 for more information on recording contingent liabilities.

4.3 Accountability for Liabilities

The NAFI manager or designee is responsible for approving the disbursement of NAFs. The AO is not authorized to make disbursements without the approval of the NAFI manager or designee or as authorized in this Regulation.

5.0 PAYMENT OF LIABILITIES

5.1 Documentation Required for Payment

DoDI 4105.67 provides policy and responsibility for procurements using NAFs. NAFIs must also comply with the Prompt Payment Act in accordance with 5 CFR 1315. The following documentation is required prior to payment of liabilities.

5.1.1. General. NAFIs will submit the following documents, properly prepared and authenticated, to the AO to support payment for procurements:

5.1.1.1. Procurement document, e.g., purchase order (PO), contract, blanket purchase agreement, or similar documents;

5.1.1.2. [DoD \(DD\) Form 250](#), Material Inspection and Receiving Report, or other signed document that provides evidence goods were accepted or services were received; and

5.1.1.3. Vendor invoice or claim for payment. The invoice or claim may be for a specific delivery or for deliveries made over a specified period.

5.1.2. Overseas Shipments. The AO must receive a vendor invoice and proof of shipment before payment can be made on overseas shipments. These payments may be made prior to receipt or acceptance of goods.

5.1.3. Partial Shipments. The NAFI will submit to the AO a DD 250 or locally produced receiving report showing receipt and acceptance of goods. The form must have "Partial Shipment" written on the top. The AO will establish an accounts payable open item. When the AO receives the invoice for the partial shipment, payment will be processed and the supporting documents will be annotated as partial shipment received.

5.2 Purchases From Other NAFIs

When a NAFI purchases goods or services from another NAFI, a [DD 1149](#), Requisition and Invoice/Shipping Document, or similar form will be submitted to the AO to support the transaction.

5.3 Purchases From the Government

NAFI purchases of goods or services from the Government (e.g., bills from APFs) are not usually supported by a procurement instrument. The NAFI will submit a DD 250 or other signed document to the AO to support the payment.

5.4 POs, Vendor Invoices, and Receiving Reports

5.4.1. POs. A PO is a document issued by the NAFI to a seller, indicating the type, quantity, and agreed price for goods or services to be provided. Sending a PO to a supplier constitutes a legal offer to buy goods or services. Acceptance of a PO by a seller forms a contract between the NAFI and the seller.

5.4.2. Vendor Invoices. A vendor invoice represents a claim against NAF. All invoices must be date stamped at time of receipt and meet Prompt Payment Act criteria in accordance with 5 CFR 1315.

5.4.3. Receiving Reports. A receiving report is a document prepared by the receiving activity to document the receipt of services or acceptance of goods.

5.5 Discounts

For NAFIs, a discount is the amount deducted from the total amount of the invoice when goods are supplied “Free on Board (FOB) destination.” If the goods are supplied “FOB other” and a separate freight charge is shown, then the discount is taken on the cost of goods only. The FOB delivery terms are shown on the PO.

5.6 Prompt Payment Act

The Prompt Payment Act, 5 CFR 1315, requires Federal agencies (including NAF activities) to make payments in a timely manner. If a payment to a contractor is late, then an interest payment is due to the contractor. This interest payment is made without contractor request. A notice stating the amount of the interest penalty, the number of days late, and the rate used for calculation accompanies the interest payment.

6.0 ACCOUNTING REQUIREMENTS FOR NET WORTH

Net Worth or Equity consists of capital invested in NAFIs plus (minus) the net income (loss), resulting from operations since inception. Transactions into and out of equity are limited to net income, net losses, and entries associated with the establishment of the fund, as well as certain adjustments. Adjustments are rare and might include certain accounting principle changes, prior

period adjustments greater than one percent (1%) of the assets in the consolidated balance sheet (or less than 1% but deemed material), and distribution of capital. The NAFSGL contains one category in the net worth/equity group: Net Worth/Equity. Specific accounting requirements related to this category are outlined in paragraphs 6.1 and 6.2.

6.1 Accounting for Net Worth/Equity

6.1.1. When a new NAF organization with preexisting capital is authorized, the capital is recorded as equity. As an example, preexisting capital is a factor when a private association converts to a membership association. Equity is disestablished when a NAF organization is dissolved.

6.1.2. Equity may be distributed by declaring dividends to other NAF organizations. An example is dividends paid by installation restaurants. Special grants for new construction and facility improvements are another method of distributing equity. The declaration of dividends by the Military Exchanges and the distribution of grants must be recorded and reported as decreases in equity. The receipt of Military Exchange dividends and of grants that support recurring operations must be recorded as non-operating income. The receipt of grants for capital items must be recorded as equity transactions. Equity is transferred in the form of cash or other assets.

6.2 Other Equity Transactions

6.2.1. The Other Equity or Earnings general ledger account consists of transfers in and out of equity that will be limited to:

6.2.1.1. Net income;

6.2.1.2. Net losses;

6.2.1.3. Declaration of dividends by Military Exchanges;

6.2.1.4. Prior year material corrections;

6.2.1.5. Components of other comprehensive income (loss) prescribed by ASC 220-10-45-10A;

6.2.1.6. Entries associated with the establishment, disestablishment, or consolidation of NAFIs; and

6.2.1.7. Distribution and receipt of capital.

6.2.2. Refer to Chapter 1 for information on materiality.

CHAPTER 5

INCOME AND EXPENSES

1.0 GENERAL

1.1 Purpose

This chapter prescribes the standard policies surrounding DoD Nonappropriated Fund (NAF) income and expenses. NAF instrumentality (NAFI) programs and facilities must be operated, maintained, and funded as an integral part of the DoD personnel and readiness program. Policies in this chapter apply to all NAIs and their supporting accounting offices (AOs). This includes the Military Exchanges (Army and Air Force Exchange Service, Navy Exchange Service Command, and Marine Corps Exchange), with the exception of policies related to the Nonappropriated Fund Standard General Ledger (NAFSGL), as Exchanges are not required to use the NAFSGL.

1.2 Authoritative Guidance

The accounting policy and related requirements prescribed are in accordance with the applicable provisions of:

1.2.1. [Financial Accounting Standards Board](#) Accounting Standards Codification ([ASC](#)). Users can now access the ASC without charge. This access now includes browsing by topic, searches, and print options;

1.2.2. DoD Instruction ([DoDI 1015.15](#)), “Establishment, Management, and Control of Nonappropriated Fund Instrumentalities and Financial Management of Supporting Resources;” and

1.2.3. Title 10, United States Code ([U.S.C.](#)), sections 2241, 2491, 2492, 7459, 8478, and 9459 ([10 U.S.C. § 2241](#), [10 U.S.C. § 2491](#), [10 U.S.C. § 2492](#), [10 U.S.C. § 7459](#), [10 U.S.C. § 8478](#), and [10 U.S.C. § 9459](#)).

2.0 CHART OF ACCOUNTS

The NAFSGL Chart of Accounts, to include definitions and general ledger account codes for income and expense accounts, is maintained on the [DoD NAF Accounting](#) website. A separate Defense Resale Activities chart of accounts, for use by the Military Exchanges, is also available on the DoD NAF Accounting website.

3.0 INCOME STANDARDS

3.1 Recognition

In accordance with ASC, Topic 605, Subtopic 10, Section 25, NAFIs must recognize revenue (classified as “income” in the NAFSGL) when it is realized or realizable. Earned income is recognized at the time of delivery of the goods or performance of the service. If cash or credit payments are received prior to time of delivery or performance, then income is unearned and a liability is posted. If cash or credit payment has not been received at time of delivery or performance, then an accounts receivable is posted for the amount due.

3.2 Recording

The AO must record income in the appropriate NAFI’s financial records on a consistent basis in the appropriate cost center and in the operating cycle that the income is earned. Income is recorded in accordance with DoDI 1015.15.

4.0 EXPENSE STANDARDS

Expenses are decreases in economic benefits during an accounting period, in the form of outflows (or other asset depletion) or the incurrence of liabilities that result in a decrease in equity. In NAF accounting, expenses are the costs related to the sale of goods and services consequent to the operation of the NAFI.

4.1 Recognition

NAFIs must recognize costs as an expense in the period that the income with which they are associated is recognized (the matching principle). Under the perpetual inventory method, cost elements are included in inventory and expensed when the items are sold and income from the sale is recognized. Under the periodic inventory method, goods purchased for resale are recorded as purchases at the time of purchase and at the end of the period; cost of goods sold is calculated as beginning inventory plus purchases during the period, less ending inventory. If no connection with income can be established, then the asset’s cost is allocated to the accounting period benefited in a systematic and rational manner. This form of expense recognition involves the expected length of benefit and the relationship and cost of each period (e.g., depreciation of fixed assets, amortization of intangibles, and allocation of rent and insurance). All other costs are recognized in the accounting period in which they are incurred.

4.2 Recording

Using the accrual method of accounting, AOs must record expenses on a consistent basis in the appropriate cost center and in the operating cycle in which the expense was incurred. Expenses deemed to be infrequent and/or unusual enough to merit distinction from transactions in the normal course of business should be identified in the footnotes of the financial statements (if not designated as such, and presented separately as part of income from continuing operations on the income statement). Refer to Volume 4 for further guidance on accrual accounting.

5.0 ACCOUNTING FOR APPROPRIATED FUND (APF) SUPPORT TO NAFIs

5.1 Legal Authority

[Title 10 U.S.C. § 2241](#) is the basic statutory authority to provide APFs to support Morale, Welfare, and Recreation (MWR) functions. MWR (Utilization Support and Accountability (USA)) and Uniform Funding and Management (UFM) are two mechanisms for provision of APF support to NAFIs. The MWR (USA) and UFM practices involve use of NAFs for MWR expenses that, per funding policies in DoDI 1015.15, should be borne by APFs. MWR (USA) enables NAFIs to use NAFs to execute such expenses, subject to subsequent APF reimbursement under Memoranda of Agreement (MOAs). Unlike MWR (USA) practices (which involve reimbursement from APFs), under UFM practices, APFs may be transferred into NAF accounts prior to expenditure. Funds appropriated to DoD and available for MWR programs are treated as NAFs for all purposes under UFM MOAs and remain available until expended. [Title 10 U.S.C. § 2491](#) provides statutory authority for UFM practices. Other statutory authorities available to NAFIs are 10 U.S.C. §§ 2492, 7459, 8478 and 9459.

5.2 MWR (USA) Recording

5.2.1. Income. The AO must record funds received from appropriated sources for expenses covered by the MWR (USA) income.

5.2.2. Expense. The AO must record authorized expenses (which is the amount subject to APF reimbursement), as they occur, in the applicable expense accounts to allow identification of MWR (USA) support in accordance with DoDI 1015.15.

5.3 UFM Recording

5.3.1. Income. When cash is received, the AO must record UFM funds received in the cash account with a contra entry to the Unearned Income (liability) account identified as UFM. As UFM expenses are recorded, the cash account must be reduced by the same amount in the same reporting cycle. On a monthly basis, to recognize UFM income for all eligible reimbursements incurred during that month, the AO must record UFM income and reduce the Unearned Income (liability) account identified as UFM.

5.3.2. Expense. The AO must record authorized expenses, as they occur, in the applicable expense accounts to allow identification of UFM support in accordance with DoDI 1015.15 and reduce the cash account as applicable in the same reporting cycle.

5.4 Other APF Support

Direct support is an APF category that occurs when APFs are obligated and expended (e.g., furnishing of utilities, fire/safety support, refuse removal, and snow removal) and the NAFI does not incur the expense subject to reimbursement. In this case, the NAFI does not administer APFs as if they were NAFs.

CHAPTER 7

FINANCIAL REPORTING

1.0 GENERAL

1.1 Purpose

This chapter prescribes the standard policies for financial reporting, which are the principal means of communicating accounting information to those activities relying on information for management of their operations.

1.2 Authoritative Guidance

The accounting policies, and related requirements prescribed, are in accordance with the applicable provisions of:

1.2.1. DoD Instruction [\(DoDI\) 1015.15](#), “Establishment, Management, and Control of Nonappropriated Fund Instrumentalities and Financial Management of Supporting Resources;” and

1.2.2. Financial Accounting Standards Board ([FASB](#)) Accounting Standards Codification ([ASC](#)). Users can [now](#) access the ASC [without charge](#). [This access now includes browsing by topic, searches, and print options.](#)

2.0 RESPONSIBILITIES

2.1 General

The policies in this chapter apply to DoD Nonappropriated Fund Instrumentalities (NAFIs) and their supporting Accounting Offices (AOs). These policies apply to the Military Exchanges, except for policies related to the Nonappropriated Fund Standard General Ledger (NAFSGL).

2.2 DoD Components

The DoD Components are responsible for the fair presentation in the financial reports of financial position, results of operations, and the program and personnel information included. In addition, the DoD Components are responsible for compliance with Nonappropriated Fund (NAF) program laws and regulations.

2.3 AO

The supporting AO is responsible for compiling all the necessary information from accounting and payroll systems, as well as preparation of financial statements and reports. The integrity of those systems, and the accuracy of data produced, are also AO responsibilities. Refer to Chapter 1 for a list of definitions, reporting requirements, and accounting standards.

3.0 FINANCIAL REPORTING

3.1 Financial Statements

The principal financial statements used to convey information to users are the Balance Sheet, Statement of Income and Expense, Reconciliation of Net Worth, and Statement of Cash Flows.

3.1.1. Balance Sheet. The Balance Sheet (also known as Statement of Financial Position) presents a NAFI's financial position as of a specified date. It is sometimes described as a "snapshot" in a point in time that allows the user to see what a NAFI owns as well as what it owes to others. The major components of the Balance Sheet are assets, liabilities, and net worth (equity). Refer to Chapter 3 and FASB ASC Topic 210 for additional information on assets, liabilities, and net worth (equity).

3.1.2. Statement of Income and Expense. A Statement of Income and Expense (also referred to as a profit and loss statement or income statement) provides information about a NAFI's financial performance during a specified period of time, and a summary of a NAFI's profit or loss during the accounting period. The Statement of Income and Expense is used to track revenues and expenses. Refer to Chapter 5 and FASB ASC Topic 220 for additional information on income and expenses.

3.1.3. Reconciliation of Net Worth. The Reconciliation of Net Worth (also known as statement of retained earnings or statement of shareholder equity) provides information about changes to net worth during a specified period of time. It shows the establishment, disestablishment, or consolidation of NAFIs, receipt or distribution of capital, net income or net loss, and prior year material adjustments. Refer to Chapter 3 and FASB ASC Topic 505 for additional information on net worth (equity).

3.1.4. Statement of Cash Flows. A cash flow statement provides information about cash receipts and cash payments of a NAFI during the accounting period. The statement shows how changes in balance sheet and income accounts affect cash and cash equivalents and breaks the analysis down according to operating, investing, and financing activities. Refer to FASB ASC Topic 230 for additional information on preparing the Statement of Cash Flows.

3.2 Footnotes to Financial Statements

Footnotes are an integral part of the financial statements and used to provide additional disclosures to ensure the financial statements are informative and not misleading. When the actual dollar amounts on the financial statements do not provide sufficient information for decision makers, accountants supplement the financial statements with more detailed data in the form of footnotes. Footnotes help management compare the operating results of the current business period with the operating results of previous periods. Fund equity adjustments and significant business closures are examples of occurrences requiring footnotes.

3.3 Format for the Financial Statements

The format presented for the NAFSGL Financial Statement Mapping to the financial statements is maintained on the [DoD NAF Accounting](#) website. The working versions of all statements and notes will include line numbers as shown therein.

4.0 COMPARATIVE ANALYSIS OF FINANCIAL STATEMENTS

Comparative analysis is the study of relationships and trends to determine whether the financial position, results of operations, and the financial progress of the business are satisfactory or unsatisfactory. The objective of any method used to analyze a financial statement is to simplify or reduce the data under review to more understandable terms.

4.1 Analytical Methods and Techniques

Analytical methods and techniques used in analyzing financial statements include the following:

4.1.1. Comparative Balance Sheets, Statements of Income and Expense, Statements of Cash Flows, and Reconciliations of Net Worth (retained earnings) with the following information:

4.1.1.1. Absolute data (dollar amounts);

4.1.1.2. Comparisons expressed in ratios;

4.1.1.3. Increases and decreases in absolute data in terms of dollar amounts;

4.1.1.4. Increases and decreases in absolute data in terms of percentages; and

4.1.1.5. Percentages of total;

4.1.2. Statement of sources and uses of working capital;

4.1.3. Trend ratios of selected and/or related financial and operating data. A trend analysis is performed for each NAFI financial statement. The analysis of the Balance Sheet compares actual to actual, and the percentage of increase or decrease is calculated. The analysis of the Statement of Income and Expense for each activity compares actual to actual as well as actual to the budgeted amounts. The financial statement analysis is made by each activity for items such as sales, cost of goods sold, labor expenses, net income, and all other revenue and expense items with a material financial effect on the activity;

4.1.4. Common size percentages ((amount/base amount) and multiply by 100) from the Balance Sheet, the Statement of Income and Expense, and individual sections of these statements;

4.1.5. Ratios expressing the relationships of items selected from the Balance Sheet, the Statement of Income and Expense, or both statements; and

4.1.6. Statement of variation in net income or gross margin.

4.2 Ratios

The behavior of ratios over a series of accounting periods is indicative of trends and may signal the need for adjustments in the future. Use the ratios/formulas included in subparagraphs 4.2.1 - 4.2.12 to complete the trend analysis explained in subparagraph 4.1.3. The following ratios/formulas are a means of monitoring the efficiency of NAFIs.

4.2.1. Accounts Receivable Turnover. The accounts receivable turnover is the relationship between credit sales and accounts receivable and indicates the liquidity of an activity's receivables. Calculate accounts receivable turnover by dividing net credit sales by the average accounts receivable ($\text{Accounts Receivable Turnover} = \text{Net Credit Sales} / \text{Average Accounts Receivable}$). The average accounts receivable is the beginning accounts receivable plus the ending accounts receivable, divided by two. Use average accounts receivable monthly balances in the computation, as it gives recognition to seasonal fluctuations. When such data is not available, it is necessary to use the average of the balances at the beginning and end of the year. Prompt collection of receivables reduces the amount of loss from bad debts. Another method is to divide 365 days by the accounts receivable turnover figure to get the average number of days the receivables were on the books.

4.2.2. Acid-Test Ratio. The acid-test ratio, or quick ratio, measures the ability of NAFIs to use quick assets to liquidate current liabilities. The formula to compute the acid-test ratio is to divide quick assets by current liabilities ($\text{acid-test ratio} = \text{quick assets} / \text{current liabilities}$). Quick assets refer to assets that can be easily converted to cash, or that are already in cash form, including cash, receivables, and current marketable securities. Current marketable securities are those that can be sold within 12 months of the balance sheet date and not incur a penalty. Quick assets equal current assets minus inventory and prepaid expenses. The acid-test ratio should not be less than 1:1. A ratio of 1:1 shows that for every dollar of current debt there is \$1 of quick assets available to meet current liabilities. Higher ratios indicate NAFIs have sufficient cash and cash equivalents to pay immediate obligations.

4.2.3. Current Ratio. The current ratio, or working capital ratio, measures the relationship between current assets and current liabilities. It measures the ability of current assets to pay short-term debts. The formula to compute the current ratio is to divide the total current assets by the total current liabilities ($\text{Current Ratio} = \text{Total Current Assets} / \text{Total Current Liabilities}$). A current ratio of 1.5:1 is considered standard. A smaller ratio indicates high debt. However, if the current ratio is too high, current assets are not being efficiently utilized and should be converted to other useful purposes. A ratio higher than one means that if all current assets can be converted to cash, they are more than sufficient to pay off current liabilities.

4.2.4. Inventory Turnover Ratio. The inventory turnover ratio expresses the relationship between cost of goods sold and the average inventory balance. The formula to compute the inventory turnover is cost of goods sold divided by the average inventory ($\text{Inventory Turnover} = \text{Cost of Goods Sold} / \text{Average Inventory}$). Average inventory equals beginning inventory plus ending inventory, divided by two. Excess inventory reduces available funds and may increase the cost of insurance, storage, and other related expenses. The inventory ratio for food and beverage operations generally

should not exceed 2.5:1 on a monthly basis or 30:1 on an annual basis. A ratio of 1:3 for other sales operations on a monthly basis, or a ratio of 4:1 on an annual basis, is generally considered acceptable and shows about a 3-month inventory supply. A low turnover rate may indicate overstocking, obsolescence, or deterioration. A high turnover rate may indicate inadequate inventory levels, which may lead to a loss in business. Appropriate inventory levels depend on quantity pricing of purchases, shelf life, and restocking lead-time.

4.2.5. Net Income Ratio. The net income ratio measures the rate of return on revenue. The formula to compute the net income ratio is net income divided by total revenue (Net Income Ratio = Net Income/Total Revenue). Calculate net income as total revenues minus total expenses. Refer to DoDI 1015.15 for additional information on net income.

4.2.6. Ratio of Net Sales to Assets. The ratio of net sales to assets measures the efficiency with which NAFIs are using their assets to generate sales. The formula to compute the ratio of net sales to assets is to divide net sales by total assets minus long-term investments (Ratio of Net Sales to Assets = Net Sales/(Total Assets - Long-Term Investments)). In computing the ratio, exclude any long-term investments from total assets, as they do not contribute to sales. If sales can be stated in a common unit, then units of products sold can be used in place of the dollar amount of sales. Assets used in determining the ratio may be the total at the end of the year, the average at the beginning and end of the year, or the average of monthly totals.

4.2.7. Return on Assets Ratio. The return on assets ratio measures a NAFI's ability to generate income with its existing assets. The formula to compute the return on assets ratio is to divide net income by the average total assets (Return on Assets Ratio = Net Income/Average Total Assets). Average total assets are beginning total assets, plus ending total assets, divided by two.

4.2.8. Return on Fund Equity. The return on fund equity measures a NAFI's ability to earn a higher rate of return than is paid for the funds used in operations. The formula to compute the return on fund equity is to divide net income by the average fund equity (Return on Fund Equity = Net Income/Average Fund Equity). Average fund equity is beginning equity, plus ending equity, divided by two.

4.2.9. Turnover of Working Capital. Working capital is a valuation metric calculated as current assets minus current liabilities. The formula to compute the working capital turnover is to divide net sales by average working capital (Turnover of Working Capital = Net Sales/Average Working Capital). Average working capital is ending current assets, minus ending current liabilities, plus beginning current assets, minus beginning current liabilities, divided by two. Current assets include accounts receivable and inventory while current liabilities include accounts payable. These various components are analyzed individually to account for changes from period to period. The turnover of working capital reflects the extent to which NAFIs operate on a small or large amount of working capital in relation to sales.

4.2.10. Fixed Asset Turnover. The fixed asset turnover is the ratio of net sales to the value of fixed assets, and indicates how well the entity uses its fixed assets to generate sales. The formula to compute the fixed asset turnover is to divide net sales by the total property, plant, and equipment, net of accumulated depreciation (Fixed Asset Turnover = Net Sales/Net Property, Plant, and Equipment).

4.2.11. Working Capital to Total Assets. The working capital to total assets ratio is a liquidity ratio that expresses the net current assets or working capital as a percentage of total assets, and measures a company's ability to cover its short-term financial obligations. The formula to compute the working capital to total assets ratio is to divide working capital by total assets (Working Capital to Total Assets = Working Capital/Total Assets).

4.2.12. Return on Total Assets. The return on total assets measures earnings before interest and taxes (EBIT) relative to total net assets, indicating how effectively assets are used to generate earnings before contractual obligations must be paid. The formula to compute the return on total assets is to divide EBIT by total net assets (Return on Total Assets = EBIT/Total Net Assets).

4.3 Comparative Statements

4.3.1. Comparison. Financial statements analyzed on a comparative basis can be much more informative and meaningful. Use comparative statements to complete the trend analysis explained in subparagraph 4.1.3. Sample comparisons include:

4.3.1.1. Comparison of the latest financial statements and relationships between various elements with one or more previous periods;

4.3.1.2. Comparison of the statements and financial relationships with data for other similar activities;

4.3.1.3. Comparison of the statements and financial relationships of two or more divisions or branches of the same activity; and

4.3.1.4. Comparison of information in the statements with preset plans or goals (normally in the form of budgets).

4.3.2. Horizontal Analysis. A comparison of the amounts for the same item in the financial statements of two or more periods is called horizontal analysis. The term is applied because the analysis includes data from year to year rather than as of one date or period of time. In computing the percent of change, the amount for the earlier year serves as the base. In general, the percentage of change is of greater interest than the actual amounts.

4.3.3. Vertical Analysis. The amount of each item in a statement can be expressed as a percentage of the total. Compare percentages resulting from vertical analysis across two or more periods to discover trends over time.

5.0 REPORTING TO THE INTERNAL REVENUE SERVICE (IRS)

5.1 General

Retain all records relating to payments to individuals and firms according to the [IRS Topic Number 305](#), "Recordkeeping." Continental United States (CONUS) offices consult their local IRS office for forms, publications, or assistance. Overseas offices contact the IRS to get the address and telephone number of the nearest IRS representative. IRS representatives, in CONUS and overseas, provide instructions concerning IRS procedures for return preparation, filing, and depositing employment tax payments. Use electronic reporting mechanisms when possible.

5.2 Contract Payments (Non-personal Services)

* **5.2.1. [Nonemployee Compensation](#).** Report to the IRS cumulative NAFI service contract payments made during the calendar year, along with the total amounts paid, which meet the IRS threshold for reporting income on [IRS Form 1099-NEC](#), "Nonemployee Compensation." Include the name, address, and Social Security number of the individual. For businesses, report the amount paid, the business name, business address, and business tax identification number. NAFI contracts with entertainers are considered service contracts. If a single payment to an individual is less than the IRS threshold, but total payments made during the calendar year to the same individual reach the IRS threshold, report the information to the individual or firm, and the IRS, using 1099-NEC. Payment data in various payment systems, for the same contractor, must be consolidated to determine if an entity meets the IRS threshold for reportable payments. The individual or firm receives a copy of the 1099-NEC by January 31 of the calendar year following the calendar year in which payment was made. This applies to individuals who, in addition to being NAFI employees, have contracts with NAFI for non-personal services. Prepare a separate 1099-NEC for each individual or firm to whom total payments meeting the IRS threshold are made. Use [IRS Form 1096](#), "Annual Summary and Transmittal of U.S. Information Returns," for submitting paper forms, or electronically transmit to the IRS the following year in accordance with IRS guidance.

5.2.2. [Miscellaneous Income](#). Report to the IRS cumulative NAFI service contract payments made during the calendar year, along with the total amounts paid, which meet the IRS threshold for reporting income on [IRS Form 1099-MISC](#), "Miscellaneous Income." Include the name, address, and Social Security number of the individual. For businesses, report the amount paid, the business name, business address, and business tax identification number. If a single payment to an individual is less than the IRS threshold, but total payments made during the calendar year to the same individual reach the IRS threshold, report the information to the individual or firm, and the IRS, using 1099-MISC. Payment data in various payment systems, for the same individual or vendor, must be consolidated to determine if an entity meets the IRS threshold for reportable payments. The individual or firm receives a copy of the 1099-MISC by January 31 of the calendar year following the calendar year in which payment was made. Prepare a separate 1099-MISC for each individual or firm to whom total payments meeting the IRS threshold are made. Use IRS Form 1096, for submitting paper forms, or electronically transmit the 1099-MISC to the IRS the following year in accordance with IRS guidance.

5.3 Gambling and Bingo Winnings

IRS reporting requirements for gambling and bingo winnings are tied to individual games. Unlike contract payments, winnings are not accumulated from game to game; each game stands alone for IRS reporting requirements. Whenever cash, merchandise, or a combination thereof, meeting the IRS threshold for reportable gambling winnings, is awarded to a person for winning a single bingo game or other gambling activity, prepare an [***IRS Form W-2G***](#), “Certain Gambling Winnings.” Individuals receive their copies of the IRS Form W-2G at either the time payment is made, or not later than January 31 of the following year. Use IRS Form 1096 to transmit W-2Gs to the IRS. Additionally, prepare [***IRS Form 1042-S***](#), “Foreign Person’s U.S. Source Income Subject to Withholding,” for reporting foreign nationals’ gaming winnings and withholdings. [Transmit](#) the forms to the IRS the following year [in accordance with IRS guidance](#).

6.0 INTERNATIONAL BALANCE OF PAYMENTS (IBOP) PROGRAM

IBOP is an accounting of a country’s international transactions for a particular period of time. NAFIs are subject to the IBOP reporting guidance prescribed in [***DoDI 4105.67***](#), “Nonappropriated Fund (NAF) Procurement Policy and Procedure,” and Volume 6A, Chapter 13.

VOLUME 13, CHAPTER 8: “NONAPPROPRIATED FUND PAYROLL”**SUMMARY OF MAJOR CHANGES**

CHAPTER 8

NONAPPROPRIATED FUND PAYROLL

1.0 GENERAL

1.1 Purpose

This chapter provides the standard Nonappropriated Fund (NAF) policy for DoD NAF payroll and applies to DoD NAF employees. NAF instrumentality (NAFI) programs and facilities must be operated, maintained, and funded as an integral part of the DoD personnel and readiness program. NAF employees are not paid from funds appropriated by Congress but from funds generated by NAIs. NAF employees are Federal employees, but they are not covered by most laws administered by the Office of Personnel Management (OPM), unless specifically provided by statute. Policy in this chapter applies to all NAIs, NAF Human Resources (HR), NAF payroll offices, and their supporting accounting offices (AOs).

1.2 Authoritative Guidance

The policy and related requirements prescribed are in accordance with the applicable provisions of:

1.2.1. DoD Instruction [\(DoDI\) 1015.15](#), “Establishment, Management, and Control of Nonappropriated Fund Instrumentalities and Financial Management of Supporting Resources;”

1.2.2. [DoDI 1400.25](#), “Civilian Personnel Management System;”

1.2.3. [DoDI 5010.40](#), “Managers’ Internal Control Program Procedures;”

1.2.4. [DoDI 7600.06](#), “Audit of Nonappropriated Fund Instrumentalities and Related Activities;”

1.2.5. Internal Revenue Service [\(IRS\) Publication 15](#) (Circular E), “Employer’s Tax Guide;” [Publication 15-A](#), “Employer’s Supplemental Tax Guide;” and [Publication 1244](#), “Employee’s Daily Record of Tips and Report to Employer;”

1.2.6. Office of Management and Budget [\(OMB\) Circular A-123](#), “Management’s Responsibility for Enterprise Risk Management and Internal Control;”

1.2.7. [OMB, Circular A-130, Appendix II](#), “Implementation of the Government Paperwork Elimination Act;” and

1.2.8. Title 5, United States Code, section 5514 ([5 U.S.C. § 5514](#)), “Installment deduction for indebtedness to the United States.”

2.0 PAYROLL OVERSIGHT

Defense Civilian Personnel Advisory Service ([DCPAS](#)), NAF Personnel Policy Division is responsible for developing, coordinating, and publishing DoD-wide civilian HR policy concerning NAF employees. DCPAS policy covers staffing, workforce relations, pay, classification, leave, and employee benefits. DCPAS is also responsible for implementing the DoD Employee Benefit Portability Act and the congressional mandate for a single, uniform health benefits program for NAF employees. DoD NAF HR policy is found in DoDI 1400.25, with volumes in the 1400 series.

2.1 Payroll Objectives

All NAF payroll systems that are being designed and implemented, or are in use, must operate in accordance with authoritative guidance in paragraph 1.2 and Volume 1. All payroll systems must provide, at a minimum, the following:

2.1.1. Complete, accurate, and prompt processing and accounting for pay, leave, and deductions;

2.1.2. Complete, accurate, and prompt generation and maintenance of payroll records and transactions;

2.1.3. Timely access to complete and accurate information to those customers internal and external to the NAFI who require the information;

2.1.4. Timely and proper interaction of payroll systems with the core financial systems; and

2.1.5. Adequate internal controls to ensure that payroll systems are operating as intended.

2.2 AO Responsibilities

AOs must ensure all payroll information (including accrued payroll and benefits) is passed to the accounting system (whether systemically or manually), update the appropriate NAF Standard General Ledger (NAFSGGL) accounts, and meet reporting requirements specified in DoDI 1015.15 and Volume 13, Chapter 7. AOs are also responsible for the compilation of financial statements.

2.3 NAFI Responsibilities

It is the responsibility of each NAFI to be knowledgeable of the legal requirements governing its payroll operations. NAFIs will establish the administrative workweek, basic workweek, workday, meal periods, legal holidays, administrative leave, flexible and compressed work schedules, compensatory time off for religious observances, and volunteer activities in accordance with DoDI 1400.25, Volume 1406, “Nonappropriated Fund (NAF) Attendance and

Leave.” Compensatory time off may be granted to NAF employees, at their request, instead of overtime pay for overtime work. See DoDI 1400.25, Volume 1405, “Nonappropriated Fund Pay, Awards, and Allowances.” NAFIs must ensure that each position is assigned to its proper occupational category, title, code, grade, or pay band level, consistent with the duties and responsibilities of the position, and proper job-grading standards in DoDI 1400.25, Volume 1407, “Nonappropriated Fund Classification.” The NAFI must work closely with the AO and payroll office to ensure the payroll objectives are met.

2.4 Payroll Office Responsibilities

The NAF payroll office has primary responsibility for all payroll processing and must work closely with the supporting NAF personnel office, NAFIs, and NAF employees to:

2.4.1. Maintain accurate records to satisfy employee needs and NAFI accounting requirements, and to comply with federal, state, and local statutory requirements;

2.4.2. Ensure safekeeping of pay information with adequate controls;

2.4.3. Promptly process all documents received affecting pay in accordance with established schedules;

2.4.4. Obtain information necessary to correct errors detected, including erroneous deductions, deductions not withheld, and over deductions by contacting the submitting office or employee;

2.4.5. Make timely disbursement of employees’ pay and supplemental payments when required;

2.4.6. Provide documentation to the NAF personnel office to support retirement actions; and

2.4.7. Submit tax reports to federal, state, and local authorities.

3.0 BASIC AND PREMIUM PAY

Authorized pay systems for NAF employees are described in DoDI 1400.25, Volume 1405. Laws and policy governing the application of rates of basic pay and premium pay for NAF employees are contained or referenced in that DoD issuance.

4.0 TIPS AND SERVICE CHARGES

NAF employees may receive tips from customers which are not negotiated by the NAFI via cash, check, debit card or credit card (e.g., customer adds to a credit card sales ticket). Debit and credit card tips may be immediately paid to the employee or recorded as a liability in the accounting records to be paid to the employee during payroll processing. NAF employees must report tips received, regardless of payment method, to the NAFI by the 10th day after the month

that the tips are received if those tips total \$20 or more in a month. Employees must report the tips on [IRS Form 4070](#), Employee's Report of Tips to Employer, or a similar form. NAFIs may, at their discretion, distribute service charges (amount added to a customer's ticket) to employees. Service charges distributed to employees are treated as wages and are not required to be included as tips on IRS Form 4070. For further information on tip reporting, refer to IRS Publication 15.

5.0 ALLOWANCES AND OTHER SPECIAL ENTITLEMENTS

DoDI 1400.25, Volume 1405 covers allowances and other special entitlements for NAF employees. The payment of allowances and differentials to NAF employees in overseas and foreign areas must comply with DoDI 1400.25, Volume 1412, "Nonappropriated Fund Overseas Allowances and Differentials, and Employment in Foreign Areas."

6.0 PAYROLL DEDUCTIONS

Payroll deductions or withholdings made from an employee's pay must be properly authorized by the employee (or made in accordance with applicable laws), adequately documented, and paid when due to the appropriate recipient in the amount authorized.

6.1 Taxes

Tax collections represent liabilities that are settled when funds are remitted to the designated authorities. Refer to IRS Publications 15 and 15-A for information on employer identification number, tax withholding, depositing, and reporting.

6.1.1. Employee Versus Independent Contractor. An employer must generally withhold Federal income taxes, and withhold and pay Social Security and Medicare taxes, for its employees. An employer does not generally have to withhold or pay taxes on payments to independent contractors. To determine whether an individual is an employee or an independent contractor under common law, the relationship of the worker and the business must be examined. IRS Publication 15-A provides the guidelines for determining whether an individual is an employee under the common law rules. These rules assist in identifying whether sufficient control is present to establish an employer-employee relationship.

6.1.2. Withholding State and Local Income Taxes. The payroll office will withhold taxes from the wages of civilian employees and remit them to tax jurisdictions wherever the Federal Government has entered into agreements for withholding taxes. State and local taxes must be withheld from the pay of enlisted personnel compensated from NAF for work performed during off-duty hours.

6.1.3. Foreign Taxes. NAFIs located in foreign countries will neither pay to, nor collect for, any foreign country or political subdivision, any tax unless the United States has consented to levy collection by treaty, convention, or Executive agreement.

6.1.4. Federal Insurance Contributions Act (FICA). The payroll office will withhold a set percentage of an employee's salary each pay period to pay the employee's share of FICA

contribution. FICA also requires that the NAFI contribute a set percentage of an employee's salary to the Social Security Trust Fund and the Medicare Trust Funds.

6.2 Other Deductions

Dependent upon Service Component policy, and pay system capability, if an eligible NAF employee elects to participate in other NAF benefits programs (to include retirement, group life, medical, dental, long-term care insurance, flexible spending accounts, and 401(k) savings plan benefits), deductions will be made, as applicable. Employee-elected deductions may also be made for U.S. Savings Bonds, contributions to the Combined Federal Campaign, union dues (as applicable), and allotments to financial institutions, such as credit unions, banks, or other savings institutions. In accordance with 5 U.S.C. § 5514, NAF employees are subject to installment deductions from pay to collect debts owed to Federal agencies.

6.3 Garnishment of Wages

NAF employees are subject to court-ordered garnishment of wages for alimony, child support, bankruptcy, commercial debts, and federal tax levies. Refer to DoDI 1400.25, Volume 1405 for further authorities governing NAF employee garnishments.

6.4 Administrative Offset for Erroneous Overpayments

In accordance with 5 U.S.C. § 5514, NAFI employees are subject to salary offset for collection of debts in the same manner as DoD civilian employees, including debts owed to NAFIs or appropriated fund (APF) activities. NAF payroll offices must ensure procedures are developed to comply with the requirements of 5 U.S.C. § 5514. NAF payroll offices must refer to Volume 8, Chapter 8 and Volume 16, Chapters 2 and 4 in developing indebtedness and debt collection procedures for NAFIs.

6.5 Order of Precedence for Deductions

If the gross salary of an employee is not sufficient to permit all deductions to be made, then deductions will be made in the order of precedence established by the OPM Personnel Policy Memorandum [PPM-2008-01](#), "Order Of Precedence When Gross Pay Is Not Sufficient To Permit All Deductions," dated July 30, 2008. NAFIs must consult policy, legal staff, and collective bargaining agreements to ensure the proper order of precedence is followed.

7.0 EMPLOYEE BENEFIT PORTABILITY PROGRAM

7.1 General

The Portability of Benefits for Nonappropriated Fund Employees Act of 1990 (Portability Act), Public Law ([Pub. L.](#)) [101-508](#), section 7202 provides portability of pay and benefits for employees moving between NAF and APF positions. Under the Portability Act, employees who move with a break in service of no more than three days between NAF and APF positions may be eligible for pay, leave, reduction-in-force, and retirement benefit protection. The protection provided by the Portability Act, particularly protection in the area of retirement coverage elections,

was subsequently expanded by [Pub. L. 104-106](#), section 1043, enacted in 1996. In 2002, [Pub. L. 107-107](#), section 1131 further expanded the retirement election opportunity to make it easier for employees to continue retirement coverage after moving between NAF and APF positions. Under current retirement portability law, eligible employees who move with a break in service of no more than one year between NAF positions and retirement-covered civil service positions in any Federal agency may elect to continue retirement coverage in the losing employment system's retirement plan without the vesting requirement. Additionally, Pub. L. 107-107, section 1132 permits employees in both Civil Service Retirement System (CSRS) and Federal Employee Retirement System (FERS) to use prior NAF service to qualify for an immediate retirement. An employee who elects to remain covered in the losing employment system is excluded from coverage under the gaining DoD Agency for all subsequent periods of employment including periods of service as a reemployed annuitant. Refer to DoDI 1400.25, Volume 1408, "Insurance and Annuities for Nonappropriated Fund Employees," and the [DoD Portability of Benefits Reference Guide](#) for additional information.

7.2 Leave Transfer

In accordance with the Portability Act, accrued annual and sick leave hours will transfer within DoD to the gaining activity, without exchange of funds, if there is a break in service of no more than three days. Employees are not entitled to receive lump-sum payment for accumulated/accrued annual leave. Refer to DoDI 1400.25, Volume 1406 for additional guidance.

7.2.1. NAF to APF Transfer. When a NAF employee transfers to an APF position, the AO or NAF payroll office will make applicable entries to the appropriate NAFSGL accounts to eliminate the annual leave liability (consult local procedures for additional information). The value of the income resulting from the elimination of the liability will be recorded as specific non-operating income in the appropriate NAFSGL account.

7.2.2. APF to NAF Transfer. When an APF employee transfers to a NAF position, the AO or NAF payroll office will record the total dollar amount of accumulated/accrued annual leave to the appropriate NAFSGL accounts to recognize the annual leave liability (consult local procedures for additional information). The value of the expense resulting from the recognition of the liability will be recorded as specific non-operating expense in the appropriate NAFSGL account.

7.2.3. Annual Leave Lump-Sum Repayment. Employees who are covered under the provisions of the Portability Act and were paid lump-sum leave payments between January 1, 1987 and April 15, 1991, because of a transfer between APF and NAF positions, may repay those lump-sum payments and receive credit of the leave. Employees who separated from Federal service between January 1, 1987 and April 15, 1991, and who were subsequently rehired, may also have the opportunity to repay the lump-sum leave and receive credit.

7.3 Portability Retirement Records

NAF HR/payroll offices are responsible for providing and processing forms for employees who are retiring under either CSRS or FERS. OMB Circular A-130, Appendix II prescribes the

use of electronic processes and digital signatures whenever it is possible and in the best interest of the Government. The NAF HR/payroll offices must fulfill the following general responsibilities relating to CSRS or FERS (for further information on portability retirement, refer to Volume 8, Chapter 4, section 4.3).

7.3.1. NAF HR/payroll offices must prepare and maintain a Standard Form [\(SF\) 2806](#) (CSRS) or an [SF 3100](#) (FERS), Individual Retirement Record, for each employee subject to either CSRS or FERS. Each SF 2806/SF 3100 must be correct, complete, clear in every detail, and properly certified to ensure timely and accurate closeout procedures when an employee is separated or transferred to the paying jurisdiction of another agency.

7.3.2. NAF HR/payroll offices must maintain adequate control over retirement records and associated monetary balances.

7.3.3. NAF HR/payroll offices must promptly send claims and records. The OPM address is:

CSRS/FERS Retirement Records
Office of Personnel Management
Retirement Operations Center
P.O. Box 45
Boyers, PA 16017-0045

7.3.4. NAF HR/payroll offices must withhold retirement deductions from employees' salaries, make agency contributions, and send the deductions/contributions to OPM for deposit. Deductions begin on the day the employee acquires coverage under the retirement system and must be prorated for partial pay periods. FICA contributions must be withheld and reported in accordance with current guidance from the [U.S.](#) Department of Treasury. Employee retirement deductions, employer contributions, employee contributions to applicable 401(k) plans, and loan repayments will be made biweekly and submitted to the appropriate NAF employee benefit system. Thrift Savings Plan (TSP) deductions and the employer's matching contributions must be forwarded to the TSP.

8.0 LEAVE ACCRUAL

8.1 Annual Leave

The accrual of annual leave is material and must be recognized as a liability and expensed monthly in the individual NAFI's accounting records. The individual leave records or annual leave report, showing the accumulated leave balance for all employees, will be used as the subsidiary ledger to the appropriate NAFSGL account for each NAFI.

8.2 Sick Leave

The monthly accrual of sick leave is not a liability to the NAFI. Sick leave used monthly will be recognized as an expense in the individual NAFI's accounting records.

8.3 NAFI to NAFI Leave Transfer

When a NAF employee transfers from one NAFI to another, the accrued annual leave hours and dollar amount may be transferred to the gaining NAFI if both employers and employee agree. If the employee elects not to have the annual leave transferred to the gaining NAFI, then the losing NAFI will make a lump-sum leave payment to the employee. If the DoD Component head has implemented policy that permits NAF employees transferring between the NAF activities to receive partial payment of any unused annual leave to their credit at the time of separation, the employee may also elect to transfer part of the annual leave balance and take a lump-sum payment for the remaining portion. Accrued sick leave hours will transfer to the gaining NAFI with no exchange of funds. See DoDI 1400.25, Volume 1406 for additional guidance.

9.0 SEVERANCE AND SEPARATION BENEFITS

DoDI 1015.15 specifies that NAFIs must set aside and invest funds on a regular basis to ensure sufficient cash availability to defray payment of severance benefits for U.S. and Foreign National employees upon their separation from NAFI employment. NAFIs will ensure that the estimated liability for a business-based action is accrued when probable and a separation allowance is accrued on a monthly basis where applicable. DoDI 1400.25, Volume 1405 describes the eligibility criteria, exclusions, and conditions under which NAF employees may receive severance pay and the computation and payment requirements.

10.0 PAYROLL DISBURSEMENTS

All payroll disbursements must be paid to NAF employees by electronic fund transfer (EFT) unless the head of the agency or designee has granted a waiver. The head of the agency or designee may waive the EFT requirement upon receipt of written certification from the employee that states that he or she does not have an account with a financial institution or providing some other extenuating circumstance.

11.0 RECORDS RETENTION AND STORAGE

NAF payroll offices are required to keep records sufficient to support all transactions relevant to matters concerning NAF payroll. In accordance with IRS Publication 15, records of employment taxes must be maintained for a period of 4 years following the due date of such tax or from the date for which such tax has been paid, whichever date is later. Aggregate records documenting payroll disbursed in each pay period (base pay, additions to and deductions from pay, and leave balances) must be stored and transferred to the [National Personnel Records Center](#) for 56 years' retention, in accordance with the National Archives and Records Administration [General Records Schedule 2.4](#).

12.0 INTERNAL CONTROL STANDARDS

A key to effective payroll operations is the maintenance of internal controls over those operations. Internal control standards are outlined in the OMB Circular A-123; DoDI 1015.15, [sub](#)paragraph 6.7.3; DoDI 5010.40; and DoDI 7600.06. All DoD NAF organizations must ensure that these standards are followed for payroll operations as well as for the methods and procedures adopted for processing and auditing payrolls.

CHAPTER 11

ACCOUNTING FOR DEFINED BENEFIT PENSION AND OTHER POSTRETIREMENT PLANS

1.0 GENERAL

1.1 Purpose

This chapter provides requirements to account for defined benefit pension and other postretirement plans for single-employer plans. The policies in this chapter apply to DoD Nonappropriated Fund Instrumentalities (NAFIs), their supporting Accounting Offices, and Military Services Exchanges. This chapter does not pertain to Military Department plans that are considered multi-employer. This chapter provides basic pension accounting, funding principles, and a review of standards. Each NAFI and its Certified Public Accounting firm providing financial services support should fully review the exceptions and variables associated with pension accounting prior to implementation.

1.2 Authoritative Guidance

The annual reporting of Pension Plan assets and liabilities must be in conformance with Financial Accounting Standards Board Accounting Standards Codification [\(ASC\) Topic 715](#), “Compensation–Retirement Benefits.” ASC Topic 715 addresses the concern that employers’ accounting standards for defined benefit pension and postretirement plans fail to communicate the funded status of those plans in a complete and understandable way. [The current published version of ASC Topic 715 is the superseding authority for information in this chapter.](#)

2.0 DEFINITIONS

The standards contained within ASC Topic 715 improve reporting for defined benefit pension and postretirement plans by requiring an employer to recognize certain financial activity occurring in the plans in their financial statements. This activity includes the overfunded or underfunded status of defined benefit pension and postretirement plans in the balance sheet. The actuarial gains and losses, prior service costs (SC), transition obligations, and credits that arise during the period are recognized through the income statement. ASC Topic 715 provides additional information regarding the types of plans for the financial statement reader. Terms that NAFIs and Military Departments should be aware of [are](#) listed in paragraphs 2.1 through 2.7.

2.1 Funded Status

The funded status is the difference between the projected benefit obligation (PBO) (also known as the pension liability) and the plan assets (PA) at fair value.

2.2 Measurement Date

The measurement date is the employer's fiscal year-end statement of financial position. The PA and PBO are measured as of this date. There are two exceptions [when the plan is not sponsored directly by the employer](#). See ASC Topic 715, section 715-30-35-62.

2.3 Net Periodic Pension Cost (NPPC)

The NPPC is the annual expense incurred by the employer because of the pension plan. The NPPC is composed of the SC, interest cost, actual return on assets, amortization of prior SC, transition obligations, and gains or losses.

2.4 Pension Provider

The pension provider is the organization that administers a Military Department's pension plan.

2.5 PA

The PA are the amounts a pension plan could reasonably expect to receive from a current sale of assets held for pension benefits.

2.6 PBO

The PBO is the actuarial present value, as of a specified date, of all employees' vested and non-vested pension benefits.

2.7 Statement of Financial Position

The statement of financial position is another term for the balance sheet. The term "balance sheet" is used in this volume.

3.0 BASIC PENSION ACCOUNTING PRINCIPLES

3.1 Disclosure

Pension accounting principles require the disclosure of the components of net pension costs and of the PBO. ASC Topic 715 prescribes the disclosure requirements that a NAFI must follow to reflect the cost of pension plans on income statements and balance sheets.

3.2 Measurement Date

ASC Topic 715 requires that PA and benefit obligations be measured as of the date of the fiscal year-end balance sheet. As of that date, each NAFI sets assumptions, gathers the participant data used to measure the obligations, and determines the fair value of assets in the pension trust. Each NAFI uses these amounts to calculate the cost of the plan in the future year and determines

if additional amounts must be recorded on the balance sheet. There are two exceptions [when the plan is not sponsored directly by the employer](#). See section 715-30-35-62 of ASC Topic 715.

3.3 Basis for Calculation of NPPC

The basis for calculation is the benefit obligations, i.e., PBO, the accumulated benefit obligation (ABO), and SC. These values are used in the calculation of the NPPC, which is the annual accounting expense or income each NAFI must recognize in its income statement. The NPPC is comprised of the following components.

3.3.1. SC. The SC is the annual accrual of benefits. ASC Topic 715 requires a NAFI to disaggregate the SC component from the other components of net benefit cost on the income statement. [When applicable](#), only the SC component of net benefit cost is eligible for capitalization.

3.3.2. Interest Cost. The interest cost is an increase in PBO associated with the passage of time during the year. This is generally the discount rate multiplied by the beginning of year PBO adjusted for expected benefit payments.

3.3.3. Expected Return on Assets. The expected return on assets is an increase in PA associated with the passage of time during the year. This is offset against the other cost items and is generally the expected long-term rate of return on assets multiplied by the beginning of year market related value of PA adjusted for expected benefit payments, contributions, and possibly for expected administrative expenses paid from the trust.

3.3.4. Amortization Amounts. Amortization amounts are the systematic recognition of certain changes in value.

3.3.4.1. Transition Obligation or Asset. Amortization of a transition obligation or asset allows phased recognition on the income statement of the difference between the plan's funded status (PBO less PA) and any remaining accrued or prepaid cost on the balance sheet.

3.3.4.2. Prior SC. Amortization of prior SC allows phased recognition on the income statement of changes in the PBO associated with a plan [change](#). This amount is generally amortized over the average remaining service period of the plan participants.

3.3.4.3. Net Gain or Loss. Amortization of a gain or loss allows phased recognition of actuarial gains or losses. Actuarial gains and losses that have not yet been reflected on the income statement are accumulated each year and amortized over the average remaining service period of plan participants, only to the extent their total exceeds a threshold. The threshold may be up to 10 percent of the greater of the plan's PBO or market related value of PA.

4.0 BALANCE SHEET CLASSIFICATIONS

The Military Departments will calculate the funded status of a benefit plan. The funded status should be determined as of the year-end statement date (measurement date) and is defined

as the difference between the PBO and PA. Depending on the differences between the PBO and PA, several areas of the balance sheet could be affected. The following examples are provided.

4.1 PA greater than PBO

An overfunded plan exists when the PA is greater than the PBO. The difference would be classified as a non-current asset in the balance sheet.

4.2 PA less than PBO

An underfunded plan exists when the PA is less than the PBO. The difference would be classified as a liability (current or long-term) in the balance sheet. The classification of the liability as a current or long-term liability will be determined and provided by the pension provider.

4.3 Adjustments

Once the funded status of a benefit plan is determined, adjustments may need to be made to existing pension balances in the balance sheet. These adjustments will be posted as an offset to the equity account in the balance sheet and can be either an addition or reduction to the equity section. These temporary adjustments are treated in the equity section of the balance sheet in the same manner as the “unrealized gains/losses on investments,” pursuant to [ASC Topic 320](#), “Investments–Debt Securities.” In addition, these temporary adjustments are not calculated in the net worth determination. The final result of these entries will result in the funded status equaling either a non-current asset or a liability based on the difference of the PA and PBO. The provisions of ASC Topic 715 eliminate the accounting for any potential additional minimum liability.

5.0 INCOME STATEMENT CLASSIFICATIONS

5.1 Presenting NPPC

The NPPC is the annual expense incurred by the employer because of the pension plan. Under ASC Topic 715, the NPPC will continue to be recognized as a component of the income statement similar to the previous reporting process. Accounting rules can produce a negative expense, which appears as income on the financial statements. While the expense (debit) is recognized through the income statement, the second part of the entry (credit) results in adjustments to the balance sheet accounts, which have been expanded to include the adjustment to the equity account. The net of the SC, interest cost, and expected return on PA will continue to be an adjustment as a component of either the non-current asset or the liability, whichever component the NAFI is reflecting in the financial statements due to the new funded status. The amounts of the net gain or loss, net prior SC or credits, and net transition asset or obligation will be offset against the equity account.

5.2 Presenting SC

A NAFI must report the SC component in the same line item(s) as other compensation costs arising from services rendered by the pertinent employees during the period. The other

components of net benefit cost defined in ASC Topic 715 are required to be presented in the income statement separately from the SC component. If the separate line item(s) are used to present the other components of net benefit cost, the line item(s) must be appropriately described.

6.0 DISCLOSURES

The NAFI receives annual valuation reports from outside actuaries to prepare the financial statement disclosures. At a minimum, the NAFI will provide additional information about certain effects on net periodic benefit cost, and the amount and timing of any PA expected to be returned to the Military Departments and NAFIs. In addition, amounts recorded as adjustments to the equity section of the balance sheet will result in an adjustment to the income statement. See ASC Topic 715 for more information on disclosure requirements.

7.0 BASIC PENSION FUNDING (LIABILITY) PRINCIPLES

7.1 Calculation of Liabilities

A pension plan's liabilities can be calculated in different ways, but the same principles always apply. The actuary calculates the expected future pension payments for each participant in the plan using the entity's participant data and plan provisions. These future benefit payments consider the individual's compensation and service history, and when that individual might be expected to die, quit, become disabled, or retire. Each future payment is discounted from the date of payment to present day using the actuarial assumptions, known as the present value of future benefits (PVFB). It represents the present value of all benefits expected to be paid from the plan to current plan participants. Theoretically, the NAFI could set aside that amount of money in a plan today and it would cover payments from the plan, including those for service not yet rendered. Note, this amount considers future service the participant is expected to earn and future pay increases.

7.2 Cost Methods

Actuaries developed the following cost methods to be used to determine the amount of the liabilities (current and long-term) to be reported on the balance sheet. These cost methods divide the PVFB into actuarial liability (AL), normal cost (NC), and present value of future normal costs (PVFNC).

7.2.1. AL. AL is the portion of the PVFB that is attributed to past service. This is the current value of the compensation that was deferred in prior years. For pension accounting purposes, the AL is referred to as the PBO. Different cost methods calculate the AL differently, but it always reflects past service only. Sometimes the AL reflects expected future pay increases because many pension plans are designed so that the retirement benefit is based on the pay at retirement. To allow the plan sponsor to recognize the cost of the plan gradually over the participant's lifetime, the actuary considers the portion of the future benefit due to past service to already include expected future pay increases. The portion of the PVFB that only recognizes benefits accrued to date (i.e., without future pay increases) is called the present value of accumulated benefits (PVAB). This reflects current service and current salary. For pension

funding, the PVAB may also be called the current liability; however, the current liability is calculated using Internal Revenue Service mandated interest and mortality assumptions. For pension accounting purposes, the PVAB is referred to as the ABO.

7.2.2. NC. NC is the portion of the PVFB that is attributed to the current year of service. This is the current value of the compensation that is being deferred this year. Different cost methods calculate the NC differently, but generally it reflects the current year of service and may reflect expected future pay increases. For pension accounting purposes, the NC is referred to as the SC.

7.2.3. PVFNC. PVFNC is the portion of the PVFB that will be attributed to future years of service. It covers compensation that has not yet been earned. This number is not disclosed and is rarely used in any cost calculations. However, it is disclosed in valuation reports for plans that use the entry average normal (EAN) funding method.

7.3 Methods Used for PVFB

PVFB can be divided into the AL, NC, and PVFNC under many different actuarial cost methods. The three most common cost methods are the projected unit credit (PUC) cost method, unit credit (UC) cost method, and the EAN cost method.

7.3.1. PUC Cost Method. The PUC cost method considers expected future pay increases in the calculation of the liability and NC.

7.3.2. UC Cost Method. The UC cost method does not reflect expected future pay increases in the liability, and only reflects one year's expected growth in pay in the NC.

7.3.3. EAN Cost Method. The EAN cost method tends to generate a NC from year to year that is a level percentage of payroll for each individual on the system with a single date of retirement, not multiple dates of retirement.

CHAPTER 1

ADMINISTRATIVE CONTROL OF FUNDS

1.0 GENERAL

1.1 Overview

The Volume 14 prescribes the requirements for the administrative control of funds and the Antideficiency Act (ADA) for Department of Defense (DoD) Components. Chapter 1 defines the statutory restrictions and limitations governing the administrative control of funds. Failure to comply with these restrictions and limitations is a violation of the ADA. Chapter 2 explains the ADA and related statutes, causes of violations, and preventive action including training requirements. Chapter 3 prescribes the requirements for DoD Components when a potential ADA violation is discovered, conducting an ADA investigation, reporting ADA violations, and administering disciplinary action. The provisions of this volume take precedence over any conflicting guidance in other volumes or DoD regulations, manuals, instructions, or directives.

1.2 Purpose

This chapter establishes policy for the administrative control of funds and includes specific instruction for controlling available funds. The DoD Components are required to establish and maintain effective controls over appropriations and other funds in accordance with this chapter. All DoD organizations, appropriations, and funds are subject to the provisions contained herein.

1.3 Authoritative Guidance

Administrative division of apportionments and control of funds is prescribed by Title 31, United States Code, section 1514(a) ([31 U.S.C. § 1514\(a\)](#)). The Office of Management and Budget ([OMB Circular No. A-11](#)) prescribes implementing requirements for the control of funds in Section 150 and Appendix H. Additional authorities:

1.3.1. [31 U.S.C. §§ 1341](#)–1342, [31 U.S.C. §§ 1349](#)–1351, and [31 U.S.C. §§ 1511](#)–1519 (The Antideficiency Act).

1.3.2. [31 U.S.C. § 1101](#), [31 U.S.C. §§ 1104](#)–1108, and [31 U.S.C. § 3324](#) (part of the Budget and Accounting Act, 1921, as amended).

1.3.3. [31 U.S.C. §§ 1501](#)–1502

1.3.4. [31 U.S.C. § 1112](#), [31 U.S.C. § 1531](#), [31 U.S.C. § 3511](#)–3512, and [31 U.S.C. § 3524](#) (part of the Budget and Accounting Procedures Act of 1950).

1.3.5. [2 U.S.C. §§ 681](#)–688 (Congressional Budget and Impoundment Control Act of 1974).

2.0 POLICY

2.1 Defense-wide Appropriations

Unless otherwise specified, for purposes of this volume, the Office of the Under Secretary of Defense, Deputy Comptroller (Program/Budget) is considered a “DoD Component” for matters involving Defense-wide (Treasury Symbol “97”) appropriations.

2.2 Administrative Control Systems

DoD Components must:

2.2.1. Design systems for the administrative control of funds so that formal administrative subdivisions of funds are placed at the highest practical organizational level consistent with effective and efficient management.

2.2.2. Restrict the use of limitations on available funds to those necessary to comply with statutory provisions, such as those imposed by the appropriate DoD Authorization or DoD Appropriations Act, or to address specific management requirements.

2.3 Reporting Requirements for Administrative Control Systems

DoD Components must establish a reporting system for the administrative control of funds process to provide data for reviewing the efficiency (e.g., obligation rate) with which funds are used. Reporting requirements must be established separately from a formal administrative subdivision of funds limitation when a need exists for accumulating data below the allocation level.

2.4 Delegations of Authority

All delegations or redelegations of authority or functions under this chapter must be made in writing. Delegation or redelegation of authority or function is prohibited if the delegation or redelegation limits the capabilities of the Secretaries of the Military Departments, the Directors of the Defense Agencies, or designated officials of the Office of the Secretary of Defense to exercise the control necessary to discharge properly their responsibilities in accordance with this volume.

2.5 Statutory Limitations and Duties of DoD Officials

DoD officials are prohibited from authorizing or creating any obligation or making any expenditure beyond the amount permitted under any statutory limitation that modifies or restricts the availability of funds. Special or recurring statutory limitations on DoD funds are frequently imposed by the DoD Authorization or Appropriations Acts, or may be imposed by other legislation. Specifically, DoD officials to whom funds are entrusted or apportionments or formal administrative subdivisions of funds are issued at any level must:

2.5.1. Limit any further subdivision of funds to the amount provided and currently available.

2.5.2. Limit the obligation and expenditure of funds provided to the amount currently available at the time of the obligation or expenditure, enforce those limitations, and ensure that all personnel involved in administrative control and use of available funds are knowledgeable of such limitations.

2.5.3. Limit the obligation and expenditure of funds provided to the purposes authorized by type of fund or account.

2.5.4. Ensure that the obligation and expenditure of funds provide for a bona fide need of the period of availability of the fund or account.

2.5.5. Preclude acceptance and use of voluntary services, gifts, and donations except in accordance with specified provisions of law.

2.5.6. Ensure that all personnel, including the actual fund users, contracting personnel, and other personnel involved in administrative control and use of available funds, are fully aware of, and comply with, the requirements of the ADA as described in Chapter 2 and other applicable guidance. Potential ADA violation investigation and reporting requirements are also contained in this volume.

2.5.7. Ensure that decisions on the obligation of funds comply with the provisions of the ADA by careful review and examination of the facts involved in advance of the decision.

2.5.8. Enforce compliance with all the provisions of the ADA and other specific laws that limit the obligation and expenditure of funds.

2.5.9. Maintain internal control systems to ensure that:

2.5.9.1. All available funds are identified, controlled, and recorded in the official accounting records from the time received until subdivided to others or obligated and expended.

2.5.9.2. All available funds are identified with authorized purposes by account, period of availability for new obligations, and for the period of availability for expenditure.

2.5.9.3. All special and recurring provisions and limitations on the obligation and expenditure of funds are identified and documented for all available funds and accounts.

2.5.9.4. All proposed obligations of funds are reviewed to ensure that sufficient funds are available to cover the obligation, the purpose of the obligation is consistent with the authorized purposes of the fund or account, and the obligation does not violate any special or recurring provisions and limitations on the incurrence of obligations.

2.5.10. Issue and maintain appropriate delegations of authority.

2.5.11. Ensure that amounts reported to the Department of the Treasury are accurate, that is, recorded accurately and posted to the correct appropriation account.

2.5.12. Ensure that internal controls are in place and operating as required by [DoD Instruction 5010.40](#), “Managers’ Internal Control Program Procedures.”

2.5.13. Ensure that appropriate training programs are in place to provide all personnel involved in administrative control and use of available funds with the knowledge of funds control and the skills and abilities to perform the duties specified in paragraph 2.5. See Chapter 2 for training requirements.

2.6 Apportionments, Allotments, Suballotments and Allocations

The administrative control of funds process restricts obligations and expenditures (disbursements) to the amount available at the apportionment, allotment, suballotment and allocation levels. Apportionments, allotments, suballotments, allocations and other formal administrative subdivision of funds designated by a DoD Component are subject to the provisions of the ADA; therefore, obligations and disbursements of funds that exceed these limitations are violations of the ADA.

2.6.1. Apportionments. An apportionment is a distribution made by OMB of amounts available for obligation in an appropriation or fund account into amounts available for specified time periods, program, activities, projects, objects, or any combination of these. The apportioned amount limits the obligations that may be incurred. An apportionment may be further subdivided by an agency into allotments, suballotments, and allocations.

2.6.1.1. When DoD appropriations or other funds are required to be apportioned under law by OMB to a DoD Component, a request for the apportionment or reapportionment must be prepared and submitted through the Under Secretary of Defense (Comptroller) (USD(C)) to the Director of OMB. A request for an apportionment must be in such form and at such time as the USD(C) may prescribe to conform to the requirements of the Director of OMB. See Volume 3, Chapter 2 for the preparation of apportionment or reapportionment schedules and Volume 3, Chapter 13, paragraph 130303 for the accounting of DoD apportionments and reapportionments.

2.6.1.2. Obligations during any apportionment period must not exceed the amount of the apportionment available for that period or of any administrative subdivisions of the apportionment. Apportionments may include estimates of anticipated budgetary resources; however, these approved anticipated resources may not be obligated until realized.

2.6.1.3. Apportionments that anticipate the need for a deficiency appropriation or a supplemental under 31 U.S.C. § 1515 will be specifically identified on the apportionment request. To qualify as a deficiency apportionment, the request must be required by:

2.6.1.3.1. Laws enacted subsequent to the transmittal of the annual budget for the year to Congress;

2.6.1.3.2. Emergencies involving human life, the protection of property, or the immediate welfare of individuals; or

2.6.1.3.3. Specific authorization by law.

2.6.2. Allotments. An allotment is a subdivision of an apportionment that is made by the head of an agency (e.g., Secretary of Defense), or designee (e.g., USD(C)), to incur obligations within a prescribed amount. Formal distribution, i.e., subdivision of an allotment must contain at least the same statutory and other limitations applicable to the original allotment (e.g. suballotments/allocations to operating agencies or installation-level accounting activities).

2.6.2.1. The USD(C) must make allotments of apportioned amounts, in writing, to the heads of DoD Components. The Secretary of a Military Department, or designee, must make further allotments of apportioned amounts, in writing, to the heads of operating agencies.

2.6.2.1.1. The original signed document or an authenticated copy bearing a signature or an electronic equivalent of a signature must be forwarded to the recipient of the allotment. This does not preclude the use of an automated system to communicate and record fund subdivisions as long as a confirmation copy bearing an authenticated signature or an electronic equivalent of a signature is available to the recipient via the automated system.

2.6.2.1.2. At a minimum, this document must contain the following basic information:

2.6.2.1.2.1. Amount available;

2.6.2.1.2.2. Funding source;

2.6.2.1.2.3. Time period of availability;

2.6.2.1.2.4. Position and title of the responsible official and other agency limitations; and

2.6.2.1.2.5. Justification for changes in allotments.

2.6.2.1.3. A suballotment is a subdivision of an allotment. It is a formal distribution that must contain at least the same statutory and other limitations and requirements applicable to the original allotment. Amounts allotted may be suballotted to major subordinate operating commands.

2.6.2.2. Allotments/suballotments must not exceed the amount available for use for each apportionment period.

2.6.2.3. The use of an electronically reproduced equivalent of an original signature is considered an acceptable implementation of the requirement for a document containing an authenticated signature. However, in accomplishing electronic transmission of fund authorizations through linked computer systems, internal controls for electronically transmitted allotments and suballotments must have the following minimum characteristics:

2.6.2.3.1. Fund control systems must provide validation of fund authorities by use of access codes and lockout techniques.

2.6.2.3.2. One set of access codes must be used to issue fund authorizations.

2.6.2.3.3. Other controlled access codes must be used to process a signature section of fund control documents for transmission to funded activities.

2.6.2.3.4. The authentication, signature element, and symbol must be included as part of electronically produced funding documents.

2.6.2.4. Anticipated transfers or other items of anticipated receipts may be allotted/suballotted/allocated only when realized.

2.6.2.5. Allocations are subdivisions of suballotments, or subdivisions of allotments that are not required to be suballotted (reference subparagraph 2.6.3).

2.6.2.6. DoD Components must not authorize or incur an obligation, or make a disbursement against anticipated transfer authorizations until the transferred resources are realized. Such actions must be delayed until the completed Standard Form (SF) 1151, "Nonexpenditure Transfer Authorization" is received and the resources realized. Nonexpenditure Transfers are processed using the Agency Transaction Module within the Central Accounting Reporting System (CARS). See the Treasury Financial Manual ([*TFM* Volume 1, Part 2, Chapter 2000](#)) for information and guidance on using the CARS.

2.6.2.7. DoD Components must not authorize or incur an obligation or make a disbursement against anticipated reimbursements. Such actions must be delayed until the applicable customer order is received from Federal Government activities and funds are collected from public activities. See Volume 11A for reimbursable policy.

2.6.3. Allocations. Allocations are subdivisions of suballotments or subdivisions of allotments that are not required to be suballotted.

2.6.3.1. The recipients of allotments or suballotments, or their designees, must make allocations in specific amounts to the heads of installations or organizational units of DoD Components, as required. The total of the amounts allocated must not exceed the amount of the allotment/suballotment available for each period.

2.6.3.2. A suballocation is a subdivision of an allocation. The recipients of allocations may make suballocations to the heads of other organizational units, including those of other DoD Components, as required. The total of the amounts suballocated must not exceed the amount of the allocation available for use for each period.

2.6.3.3. Allocations and suballocations must be made in writing and the recipient's copy must either be signed by the fund-issuing authority or be an authenticated copy bearing an authorized authenticated signature or an electronic equivalent of a signature. At a minimum, the document must contain the following basic information:

2.6.3.3.1. Name or title of the allocation/suballocation recipient.

2.6.3.3.2. Amount of the allocation/suballocation and the period of availability.

2.6.3.3.3. Legal restrictions or limitations on the obligation and disbursement of the allocated/suballocated funds.

2.6.3.3.4. The amount of anticipated reimbursements, specified to the organizational level responsible for receiving the reimbursable orders.

2.6.3.4. In emergency circumstances, it may not be possible to provide a formal allocation or suballocation document before incurring obligations. Under such emergency conditions, it may be necessary to use expedited means of communication pending formal confirmation.

2.6.3.4.1. A telephone or other electronic means may be used to make arrangements to indicate that funds will be provided. However, the official allocation or suballocation of funds does not occur until the substantiating documentation of the issuance of funds has been transmitted by the issuer and received by the recipient.

2.6.3.4.2. In such cases, both the issuer and recipient must document the funding transaction showing action taken, the date, amount involved, authorizing official, and method of communication. The issuer must immediately provide a copy of the documentation to the recipient and request acknowledgment of receipt. The recipient must provide confirmation of receipt and acceptance to the issuer. The issuer must sign the same documentation and return the document containing both signatures. The official funds issuance does not occur until this final double-signed (issuer and recipient) document has been received by the recipient of the funds.

2.6.3.4.3. The recipient is not authorized to issue funds to others or authorized to incur obligations with the funds received until after receipt of the double-signed document.

2.7 Other Fund Management

2.7.1. Centrally-Managed Account (CMA). The head of an operating agency that has specific written approval of the head of a DoD Component may establish CMAs. A CMA is a formal administrative subdivision of funds (allotment, suballotment, or allocation) that is managed at the highest practical level and allows officials at a lower echelon to incur obligations or charge expenditures to the CMA for authorized purposes without further determination or certification of fund availability for the individual transactions. Fund balances at the

allotment/suballotment/allocation level are subject to the provisions of [31 U.S.C. § 1517\(a\)\(1\)](#). Fund authorization documents forwarding budget authority to the CMA must include the following statement: “Authorizing or incurring obligations in excess of the cumulative allotment/suballotment/allocation amount, contained herein, is a reportable violation of 31 U.S.C. § 1517.”

2.7.1.1. These accounts must be established only when it is impractical to administer decentralized allotments/suballotments/allocations under normal operating procedures. The head of an operating agency, usually general officer or Senior Executive Service level, is responsible for establishing adequate controls to ensure CMA managers are expeditiously informed of obligations and expenditures at the lower echelon levels to prevent the CMA from becoming over-obligated/expended. Before approval, a specific written determination must be made that adequate controls have been established to avoid over-obligating/expending the CMA.

2.7.1.1.1. The amount of the CMA must be within the amount and terms of the allotment/suballotment/allocation.

2.7.1.1.2. Requests for the establishment of a CMA must fully justify the need, delineate possible alternatives, and clearly demonstrate why the CMA method is the only practical administrative procedure.

2.7.1.1.3. The official who establishes or continues the use of a CMA must be held responsible, to the extent prescribed by law, directive, and regulation, for ensuring that obligations are not incurred, or expenditures made, beyond the amount available under each CMA.

2.7.1.1.4. The establishing or continuing official is responsible for the administration of each CMA and must prescribe an adequate system of financial and nonfinancial control. The system must:

2.7.1.1.4.1. Designate the name or position of specific individuals authorized to incur obligations or make expenditures against each CMA.

2.7.1.1.4.2. Establish suitable limitations on the numbers, quantities or volume for which obligations may be incurred or expenditures made.

2.7.1.1.4.3. Provide for accounting and reporting at least monthly.

2.7.1.1.4.4. Ensure timely notice to prevent the CMA from being over-obligated/expended by taking necessary management action. This may include (a) increasing the amount of the CMA; (b) terminating the CMA; (c) terminating new obligations or disbursements; and/or (d) taking other necessary management actions to prevent an over-obligation/expenditure.

2.7.1.1.5. Each CMA must be reviewed annually to determine whether its operation should be continued. This determination must be made by the head of the DoD Component concerned, or designee. The annual review must include an evaluation, by an

internal audit group, of the adequacy of control procedures established to prevent violations of 31 U.S.C. § 1341(a)(1), 31 U.S.C. § 1517(a), or both, and a recommendation to the head of the DoD Component concerned, or designee, whether continuation of the CMA is justified. DoD Components must provide certification as to the adequacy of controls of the CMA. This certification must be submitted with the annual evaluation required by paragraph 2.12.

2.7.1.2. Components are required to maintain documentation supporting their assessment and produce it on request. At a minimum, Components must maintain records on the following:

2.7.1.2.1. Appropriation and dollar value of the CMA.

2.7.1.2.2. Rationale for establishing a CMA and why it is preferable to other methods of managing the appropriation.

2.7.1.2.3. Individuals primarily responsible for managing the CMA and ensuring fund controls are properly implemented.

2.7.1.2.4. Organizations authorized to make obligations against the CMA.

2.7.1.2.5. Fund controls in place to establish limits on the amount and type of obligations that may be charged to the CMA.

2.7.1.2.6. Monthly execution monitoring and procedures.

2.7.1.2.7. Date and method of testing of internal controls.

2.7.2. Reimbursable Orders. A reimbursable order is an order for services, supplies, material, or equipment placed by a requiring DoD Component (or Federal Agency) and furnished by another DoD Component (or Federal Agency) without separate identification of the items, or separate citation of the funds of the requiring DoD Component; and with subsequent delivery to and reimbursement by the requiring DoD Component. The requiring DoD Component records the reimbursable order as an obligation when the procuring DoD Component accepts the reimbursable order in writing. See Volume 3, Chapter 8 for recording standards.

2.7.2.1. DoD organizations may be authorized by law to accept reimbursable orders for services provided or goods sold to other Federal Government-funded customers and authorized private parties.

2.7.2.2. Apportioned reimbursements must not be allotted/suballotted/allocated unless there is reasonable assurance that orders will be received. Even though apportioned and allotted/suballotted/allocated, these estimates must not be considered budgetary resources available for obligation unless the following two conditions are met:

2.7.2.2.1. Valid orders, including written agreements, have been received from and obligated by Federal Government-funded customers.

2.7.2.2.2. Advance payment has been collected, in the case of orders from the public.

2.7.2.3. Officials responsible for incurring obligations and making expenditures must be particularly cognizant of reimbursable authority received. Controls must be established and carefully followed to avoid obligating or expending in excess of the amount of appropriated funds available, plus the amount of reimbursements that ultimately will be earned and collected.

2.7.2.4. Under certain circumstances, and only with the prior written approval of OMB, immediate and automatic apportionment of the amounts of reimbursable orders received and accepted may be authorized.

2.7.2.5. Reimbursable orders received from state or local governments, recognized international bodies such as the United Nations and North Atlantic Treaty Organization, foreign governments, corporations, or individuals are subject to special controls.

2.7.2.5.1. These orders are to be recognized as reimbursable orders received only to the extent that cash has been received and deposited with the Treasury. The exception is Foreign Military Sales (FMS) orders. Contract authority may be recognized for FMS orders based upon a dependable undertaking when cash advances are not provided for the full amount of the order from a foreign government or international body. Bills are then presented for payment from the account established in the FMS Trust Fund for the applicable country.

2.7.2.5.2. FMS disbursement controls must be established to ensure that disbursements are not made until the cash is actually received from the foreign country and deposited in the Treasury FMS Trust Fund. Expenditure authorizations are used to ensure that funds are available in the account for the country involved before disbursements are made.

2.7.2.6. Reimbursable orders that are financed by appropriated or revolving funds of Federal agencies provide expenditure as well as obligational authority.

2.7.3. Revolving Funds. A revolving fund is an account authorized by specific provisions of law to finance a continuing cycle of business-type operations and to incur obligations and expenditures that generate receipts.

2.7.3.1. General. Obligations and expenditures of a revolving fund, whether subject to, or exempt from, apportionment, must be controlled under applicable provisions of this chapter.

2.7.3.2. Cash Balances. The disbursement of amounts in excess of the Department of the Treasury cash balance of a revolving fund is a potential ADA violation. Additionally, the disbursement of amounts in excess of the balance of sub-numbered cash accounts or other subdivisions of cash within a revolving fund is a potential ADA violation when such sub-numbered accounts or subdivisions have been specifically designated as being subject to the provisions of the ADA.

2.7.3.3. Apportionment. A revolving fund may be subject to apportionment or it may be exempt from apportionment, depending upon the type of fund.

2.7.3.3.1. Revolving Funds Subject to Apportionment. An apportionment limits the obligations that may be incurred to the apportioned amount. The incurring of obligations in excess of apportioned budgetary resources is a potential ADA violation without regard to whether a revolving fund has additional unapportioned budgetary resources or other assets equal to or greater than the amount of the deficiency.

2.7.3.3.1.2. Revolving Funds Exempt from Apportionment. A revolving fund that is exempt from apportionment may not incur obligations in excess of available budgetary resources. The incurring of obligations in excess of available budgetary resources is a potential ADA violation.

2.7.3.4. Budgetary Resources. The incurring of obligations in excess of budgetary resources is a potential ADA violation. The concept of “budgetary resources” is defined and explained in OMB Circular A-11, “Preparation, Submission, and Execution of the Budget.” Budgetary resources available to revolving funds are composed of the same elements as budgetary resources available to appropriated funds. Further, while budgetary resources available for obligation for reimbursable work differ depending upon whether a reimbursable order is accepted from a Federal Government account or from the public, such budgetary resources are determined in the same manner for a revolving fund as they are for an appropriated fund.

2.7.3.4.1. Orders from other Federal Government Agencies. Funded orders from other Federal Government agencies, that represent valid obligations of the ordering account, provide a budgetary resource without regard to whether they are accompanied by an advance payment.

2.7.3.4.2. Orders from the Public. Orders from the public (except FMS orders) including local and state governments and international organizations (e.g., United Nations), provide a budgetary resource only to the extent that the order is accompanied by an advance payment of cash received and credited to the account.

2.7.3.5. Organizational Level for Revolving Fund Potential Violations. Systems for the administrative control of revolving funds should be placed at each organizational level at which budgetary resources may be received, held, transferred, obligated, or expended. The lowest organizational level for administrative control purposes generally should be the level, frequently a single site, at which an obligation may be incurred or expenditure approved. In the case of a revolving fund account that encompasses operations at multiple sites, responsibility for potential ADA violations generally should not be assigned to an organizational level lower than the level at which the administrative control system is adequate to prevent and detect a potential violation of the ADA.

2.8 Obligations and Expenditures

Available funds are used by the incurrence of obligations and expenditures. An amount must be recorded as an obligation or expenditure when incurred as supported by documentary evidence of the occurrence of the event. An oral order or agreement must be formalized in writing or conform to prescribed electronic standards in order to provide proper support and an audit trail for an obligation. Oral orders executed in this manner without a formal commitment of funds run a high risk of violating the ADA and should be avoided if possible. See Volume 3, Chapter 8 to determine the amount and accounting period in which commitments and obligations must be recorded.

2.8.1. Once incurred, all obligations and expenditures must be recorded, accurately and promptly, as of the date incurred even if recordation results in a negative amount in the accounting records for an appropriation or fund, or a formal administrative subdivision of an appropriation. (For this purpose, negative amount means that obligations or disbursements exceed the amount of funds that are appropriated or otherwise available.) A violation resulting from a negative amount is caused by the actions of the individual(s) who caused or created the obligation. The recording of the obligation in the accounting system merely records an obligation that already exists.

2.8.2. Adjustments in obligations may consist of recording changes to obligation amounts that existed in a prior period that may or may not have been identified and recorded during that period. If an adjustment causes total obligations for a prior period to exceed the amount that was available for obligation for that prior period after consideration of all known valid obligations and deobligations, violations of 31 U.S.C. § 1341(a)(1), 31 U.S.C. § 1517(a), or both, may have occurred.

2.8.3. A within-scope contract adjustment is properly chargeable to the funds that funded the original contract. Such adjustment must be charged to those funds even if sufficient funds are not available. If sufficient funds are not available, a potential violation may have occurred.

2.8.4. An increase-in-scope adjustment to a contract is properly chargeable to funds currently available at the time the change was made.

2.9 Reconciliations

DoD managers at all levels must ensure that accounting records for receipt and use of budgetary resources are reconciled. Obvious accounting errors must be corrected immediately and negative account balances must be researched and reconciled promptly with appropriate source documents.

2.9.1. Transactions or adjustments must be recorded in accounting records only when supported by appropriate source documents or electronic equivalents. Managers must not permit identified errors to go uncorrected for extended periods of time, inaccurate transactions to be recorded or failures to record transactions in a timely manner. Due diligence is necessary in order to avoid the appearance of a potential ADA violation that occurred because of careless record keeping.

2.9.2. An ADA investigation must be initiated by the applicable DoD Component and reported to the Office of the Under Secretary of Defense (Comptroller) (OUSD(C)) as required by this volume if a manager suspects that a potential ADA violation may have occurred. However, investigations of potential ADA violations are not required merely to force correction of erroneous records.

2.10 Records

2.10.1. The Defense Finance and Accounting Service (DFAS), working with other DoD Components, must ensure that accounting records are maintained that provide full disclosure and support of the financial operations and resource utilization applicable at each successive organizational level. The accounting records must show the amounts of funds received at each organizational level, funds issued to others, current available balances, and funds committed, obligated, and expended.

2.10.2. These fund control records must constitute an integral part of the official accounting records maintained for each successive organization level for the DoD Component. Financial reports reflecting funds received, issued, available, and utilized must be prepared from the official accounting records.

2.10.3. DoD Components must maintain key records and documents on appropriations, allotments/suballotments, allocations/suballocations, and budgetary data for the funds for which they are responsible.

2.10.4. DoD Components must retain, for 6 years, 3 months, work papers and documentary evidence developed and/or obtained during an investigation of an actual or potential ADA violation.

2.11 Financial Management Systems

In addition to effective and efficient administrative funds control systems established by the DoD Components, the DFAS and/or DoD Component must be responsible for establishing accounting and finance systems. The accounting and finance systems must be established for reporting commitments and obligations by the DFAS and/or DoD Component. Such systems of accounting and internal controls must comply with the requirements of 31 U.S.C. § 3512(b) and (c).

2.11.1. Federal agencies must maintain systems of accounting and internal controls that ensure:

2.11.1.1. Complete disclosure;

2.11.1.2. Adequate financial information;

2.11.1.3. Effective internal control over and accountability for assets;

2.11.1.4. Obligations and costs comply with applicable laws;

2.11.1.5. Revenues and expenditures or expenses applicable to DoD operations are accounted for properly so that accounts and reliable financial and statistical reports are prepared and accountability of assets is maintained;

2.11.1.6. Suitable integration of DoD accounting with the central accounting and reporting responsibilities of the Secretary of the Treasury under [31 U.S.C. § 3513](#); and

2.11.1.7. All assets are safeguarded against waste, loss, unauthorized use, and misappropriation.

2.11.2. Specifically, financial management systems must be:

2.11.2.1. Designed to assist responsible officials in restricting authorization or incurrence of obligations to the proper amount and authorized purpose for which obligational authority is available.

2.11.2.2. Capable of providing timely disclosure of the authorization or creation of an obligation and the disbursement of funds in excess of amounts available in both expired and unexpired accounts.

* 2.12 Annual Evaluation

The OUSD(C) requires DoD Components to conduct an annual evaluation of its overall administrative funds control processes as well as the processing of ADA violations. [The DoD Components are not required to submit an annual evaluation memorandum if the DoD Components do not have centrally managed accounts or are not reporting a potential ADA violation.](#) The applicable Office of the Assistant Secretary of the Military Department for Financial Management and Comptroller or the Senior Financial Manager for other DoD Components will provide [an annual evaluation](#) memorandum addressed to the OUSD(C). The memorandum must address the following information in subparagraph 2.12.1 and be submitted by October 31:

2.12.1. Memorandum Certification Statements.

2.12.1.1. “For Fiscal Year 20xx, the internal controls over centrally managed accounts were in place and effective. Monthly accounting and reporting processes are adequate to reduce the risk of over obligations.”

2.12.1.2. “Corrective actions are being implemented and/or sustained and adequate evidentiary documentation is available to support this certification.”

2.12.1.3. A statement that provides the number of key fund control personnel identified and trained as prescribed in Chapter 2, paragraph 020401.

CHAPTER 2

ANTIDEFICIENCY ACT VIOLATIONS

1.0 GENERAL

1.1 Purpose

This chapter explains the Antideficiency Act (ADA) and related funding statutes that consist of certain provisions of law prescribed in sections (§) of Title 31, United States Code (U.S.C.). It also provides examples of circumstances in which ADA violations may occur and establishes requirements to prevent ADA violations. Additional requirements are contained in Volume 3, Chapter 11. Any military member or Department of Defense (DoD) employee who violates any provision or limitation imposed by any law may violate the ADA and be subject to discipline and/or criminal penalties.

1.2 Authoritative Guidance

1.2.1. The ADA, prescribed in [31 U.S.C. §§ 1341](#)–1342, and [31 U.S.C. § 1517](#), prohibits obligations and expenditures in excess of an appropriation or before an appropriation is available. 31 U.S.C. § 1517 is the primary foundation for the administrative control of funds set forth in Chapter 1. See Figure 2-3 for additional references.

1.2.1.1. Amount Limitation. 31 U.S.C. § 1341 stipulates that any officer or employee of the United States Government or of the District of Columbia government may not:

1.2.1.1.1. Make an obligation, expenditure, or authorize an obligation or expenditure of funds that exceeds the amount available in an appropriation or fund.

1.2.1.1.2. Involve the Government in any contract or obligation for the payment of money before an appropriation is made available, unless the law authorizes such contract or obligation.

1.2.1.2. Voluntary Services Limitation. 31 U.S.C. § 1342 stipulates that an officer or employee of the United States Government or of the District of Columbia government may not accept voluntary services on behalf of the Government or employ personal services in excess of that authorized by law, except as it may be necessary in emergencies involving the safety of human life or the protection of property.

1.2.1.3. Administrative Control of Funds, Amount Limitation. 31 U.S.C. § 1517 stipulates that an officer or employee of the United States Government or of the District of Columbia government may not make an obligation or expenditure or authorize an obligation or expenditure that exceeds an apportionment or amount permitted by a regulation prescribed for the administrative control of an appropriation, including any other formal administrative subdivision of funds designated by a DoD Component. See Chapter 1 for DoD administrative control of funds policy.

1.2.2. [31 U.S.C. § 1301](#), [31 U.S.C. § 1502\(a\)](#), and [31 U.S.C. § 3302\(b\)](#) are additional funding statutes. Noncompliance with these statutes may result in an ADA violation.

1.2.2.1. Purpose Statute. 31 U.S.C. § 1301 stipulates that appropriations must be applied only to the objects for which the appropriations were made, except as otherwise provided by law.

1.2.2.2. Time Limitation. 31 U.S.C. § 1502(a) stipulates that the balance of a fixed-term appropriation is available only for payment of expenses properly incurred during the period of availability or to complete contracts properly made and obligated within that period. See Volume 3, Chapter 8 for obligation policy and Volume 3, Chapter 10 for expired and closed account policy.

1.2.2.3. Miscellaneous Receipts Statute. 31 U.S.C. § 3302(b) requires an official or agent of the Government to deposit money received for the Government from any source into the miscellaneous receipts account of the U.S. Treasury without deduction for any charge or claim if the retention of the money is not authorized or exceeds authorized levels.

1.2.3. If sufficient amounts were available in the proper account for the proper fiscal year at the time of the obligation, and the amount is properly recorded as an obligation, then the use of the wrong appropriation (purpose) or the wrong fiscal year funds (time limitation) generally will not result in an ADA violation. It may be possible to adjust the accounts to replace the erroneously obligated funds with the proper funds. Under these conditions, the error can and should be corrected.

1.2.3.1. The use of the wrong appropriation (purpose) can be corrected if the proper funds (appropriation, year, and amount) were available at the time of the erroneous obligation, available during the entire period from the time of obligation until the time of correction, and available at the time of correction. In other words, to correct the error, not only must amounts have been properly available at the time of the error and be available at the time of correction, but the correct amount must be properly recorded as an obligation in the proper account, consistent with paragraph 2.2, thereby requiring accounting adjustments going forward from the time of correction to account for the change in balance. Funds must be available at the lowest level of the administrative subdivision of funds, i.e., the lowest level of the appropriation, apportionment, allotment, suballotment, or allocation at which the ADA violation occurred.

1.2.3.2. The use of the wrong fiscal year funds (time limitation) can be corrected if the proper funds (appropriation, year, and amount) were available during the entire period from the time of obligation until the time of correction, at the time of the erroneous obligation, and at the time of correction. In other words, to correct the error, not only must amounts have been properly available at the time of the error and be available at the time of correction, but the correct amount must be properly recorded as an obligation in the proper account, consistent with paragraph 2.2, thereby requiring accounting adjustments going forward from the time of correction to account for the change in balance. Funds must be available at the lowest level of the administrative subdivision of funds, i.e., the lowest of the appropriation, apportionment, allotment, suballotment, or allocation level at which the ADA violation occurred.

1.2.3.3. See Volume 3, Chapter 8, paragraph 080304.A for Bona Fide Need recording requirements.

2.0 VIOLATIONS

2.1 General Violations

General ADA violations occur when:

2.1.1. Statutory limitation was exceeded for the amount authorized in an appropriation or fund, to include special and recurring statutory limitations or restrictions on the amounts for which an appropriation or fund may be used.

2.1.2. Statutory limitation on the purposes authorized in an appropriation or fund was violated and upon correction into the proper appropriation or fund, funds were not available at the time of the erroneous obligation or were not available when the obligation was recorded in the proper appropriation or fund.

2.1.3. Funding authority was issued in excess of the amount available in an appropriation or fund and the excess amount was obligated or expended. The issuance of funds by means of a formal administrative subdivision of funds (apportionment, allotment, suballotment, allocation or other formal administrative subdivision of fund), in an amount that exceeds the amount currently available, would result in an ADA violation if those excess funds distributed are obligated or expended. The issuance of a reimbursable order in excess of available funds may also result in an ADA violation.

2.1.4. Obligations or expenditures are authorized or incurred in excess of the amount of funds available at the formal administrative subdivision of funds level. Apportionments, allotments, suballotments, allocations and other formal administrative subdivision of funds designated by a DoD Component are subject to the provisions of the ADA; therefore, obligations and disbursements of funds that exceed these limitations are violations of the ADA. Incurring an obligation or disbursement in excess of a target versus a formal administrative subdivision of funds does not in itself create an ADA violation; however, if exceeding a target causes the governing formal administrative fund subdivision level or limitation to be breached, then a potential ADA violation arises. Errors that require correction by obtaining additional funds at a formal administrative subdivision of fund level cannot eliminate the fact that a violation likely has occurred and must be investigated. An exception applies when funds are required at the formal administrative subdivision level but funds were returned to higher headquarters as the result of the customary practice of sweeping up funds near the end of a fiscal year.

2.1.5. Obligations were made or authorized in advance of funds being available.

2.1.6. Obligations or expenditures of funds did not provide for a bona fide need of the fund or account (time violation) and upon correction into the proper fund or account, proper funds were not available at the time of the erroneous obligation or were not available when the obligation was recorded in the proper fund or account.

2.1.7. Obligations charged against a current account that would otherwise be properly chargeable (except as to amount) to an expired account, but sufficient funds did not exist in the applicable expired account to fund the obligation.

2.1.8. Obligations that otherwise would have been properly chargeable (both as to purpose and amount) to a canceled appropriation exceeds the limits specified in Volume 3, Chapter 10, subparagraph 100303.D.

2.1.9. Voluntary services were accepted, or personal services were employed, except as authorized by law.

2.1.10. Funds were retained without authority and were not deposited into the miscellaneous receipts of the U.S. Treasury but instead augmented an appropriation and, as a result, obligations or expenditures exceed the amount appropriated by Congress.

2.2 Recording Obligations/Expenditures

A violation may not be avoided by declining to record valid obligations or expenditures in the official accounting records. All obligations or expenditures must be recorded accurately and promptly, even if the recording results in a negative amount in the appropriation, fund, or at the formal administrative subdivision of funds level.

2.3 Recording Errors/Omissions

An ADA violation is not considered to have occurred when an over-obligation or over-expenditure results solely from recording a transaction in an erroneous account or recording an incorrect amount for a transaction. In each instance, the potential violation status is eliminated by correcting the erroneous transaction or by posting the omitted transaction. These actions must not include the deletion or adjustment of any valid transactions. If, after the proper recording of the transactions, an over-obligation or expenditure of the appropriation, fund or amount limited by a formal administrative subdivision of funds remains, then a potential ADA violation has occurred.

3.0 CAUSES OF VIOLATIONS

ADA violations occur for several reasons. The following is a list of the most frequent causes of DoD ADA violations:

3.0.1. Inadequate or obsolete internal controls and standard operating procedures;

3.0.2. Internal controls and standard operating procedures that are ignored;

3.0.3. Lack of appropriate training; and

3.0.4. Inadequate supervisory involvement or oversight.

4.0 PREVENTING VIOLATIONS

4.1 Requirements

Inadequate supervisory involvement and oversight combined with a lack of appropriate training are common throughout most DoD ADA violations. Therefore, supervisors of DoD personnel who have responsibility for control and use of DoD funds must ensure that their personnel receive proper oversight, support, and training to prevent violations. To assist in the prevention of ADA violations, DoD personnel must be knowledgeable of requirements in this chapter and Chapter 1. The following subparagraphs provide specific actions that must be taken to reduce or prevent violations.

4.1.1. Heads of DoD Components must:

4.1.1.1. Use the internal management control programs as required by [DoD Instruction 5010.40](#), “Managers’ Internal Control Program Procedures,” to periodically assess the reliability of internal controls to prevent ADA violations.

4.1.1.2. Develop a full spectrum of DoD formal education programs for all military officers, from staff officer courses to executive development courses, and incorporate relevant aspects of this volume to highlight the potential pitfalls and risks associated with the ADA. This volume must be used as source material to conduct seminars and workshops targeted to general and specific audiences including financial, program, and project managers; engineers; contracting, information system, and comptroller personnel; commanders; supervisors; and managers.

4.1.1.3. Develop formal education structures to educate personnel about the ADA. Formal courses can be used to alert personnel to common violations and high-risk business transactions and decisions that can result in a violation. Course materials will clearly state that taxpayer funds should not be spent when the requirement is no longer needed, i.e., the requirement is no longer a bona fide need at that time. The DoD financial management community sponsors professional development courses that include discussions on ADA violations. These courses include the Army Comptroller and Advanced Resource Management Programs at Syracuse (NY) University; the Naval Post Graduate School at Monterey, California; and the Defense Financial Management and Comptroller School at Maxwell Air Force Base, Alabama. In addition, the U.S. Army Judge Advocate General School at Charlottesville, Virginia, includes a fiscal law course in its curriculum; and both the Enhanced Defense Financial Management training course hosted by the American Society of Military Comptrollers and the Under Secretary of Defense (Comptroller) Defense Financial Management Certification Program include fiscal law in their accreditation programs.

4.1.2. DoD commanders, supervisors, and managers must:

4.1.2.1. Be aware of the ADA, related funding statutes, types of violations, and causes of violations as described in this chapter.

4.1.2.2. Provide appropriate ADA training to financial, program, and project managers; engineers; and contracting, information system, and comptroller personnel. Provide fiscal law training to educate DoD personnel with regard to their fiduciary and legal responsibilities to prevent wasteful spending of appropriated funds. The focus of this training must include the basics of fund control, the ADA statute, and related funding statutes; the types of violations that can occur; the most frequent types of violations that occur within the DoD and their causes; the necessary training, supervision, and oversight of personnel who perform financial management or programmatic functions; and methods for preventing violations. Require that all executive development and financial management course content be updated to ensure proper use and good stewardship of appropriated funds. The training must be maintained to ensure the information remains current. Videos, computer courses or handbooks may be used for such training.

4.1.2.3. Identify key fund control personnel, incorporate the provisions of this volume into key fund control personnel training programs, require that key fund control personnel receive appropriations law training at least every three years, maintain the documents that identify key fund control personnel, and maintain documents that confirm completion of the appropriations law training. Key fund control personnel are those responsible for the proper assignment of funding on a commitment or obligation document before the obligation is incurred. Examples are resource managers, fund holders, funds certifying officials, and authorizing officials. Key fund control personnel should inquire with their individual DoD Components as to the appropriate source of training that satisfies this requirement. Appropriations law training requirements for certification of fund availability are separate from training requirements for certification for payment. Personnel that certify vouchers for payment must adhere to additional requirements as prescribed in Volume 5, Chapter 5.

4.1.2.4. Ensure key fund control personnel coordinate with requiring officials, such as program managers, contracting officers, and engineers, to verify that requests comply with funding statutes applicable to the assignment of funding on a commitment or obligation document before the obligation is incurred. This coordination should include ensuring delivery of supplies and/or the period of performance for services aligns with the lifecycle of the associated funds such that the obligation meets the bona fide need rules laid out in Volume 3, Chapter 8, subparagraph 080304.A. Key fund personnel must review and verify on a continuous basis that the goods and/or services are still needed. Key fund control personnel must not spend taxpayer funds when goods and/or services are no longer needed.

4.1.2.5. Ensure that their employees receive the necessary training and experience in the control and use of funds at levels that correspond with their responsibilities. Furthermore, supervisors must perform oversight and validation checks to ensure that established internal controls and standard operating procedures are adequate and are being consistently followed by their subordinates. Inadequate supervisory involvement or oversight combined with lack of appropriate training is common in DoD ADA violations.

4.1.2.6. Ensure regular reviews of fund status type reports are performed. If the amount of commitments and obligations (undelivered orders and delivered orders unpaid or paid) exceed the total amount available in an appropriation or the total amount of funds available at the formal administrative subdivision level, a violation could occur if all or some of the commitments eventually become valid obligations.

4.1.2.7. Take proactive measures specifically tailored to address the causes and corrective actions required to prevent violations. See section 3.0 for causes of violations.

4.2 Common Violations

To prevent ADA violations, DoD personnel must be knowledgeable of the most common and frequent types of ADA violations to include the following:

4.2.1. Exceeding an Appropriation.

4.2.1.1. All DoD commanders, managers, and personnel whose duties include obligating and/or managing funds must be aware of this type of violation and causal factors. This violation often occurs when obligations from an obligation document are not timely or accurately recorded thus causing the official accounting records to reflect an inflated (and incorrect) availability of funds. Since personnel use those records to certify funds are available for other obligations, a violation can easily occur because the records do not reflect the correct amount of funds available for obligation. This violation also occurs when obligations are charged against a current account that would otherwise be properly chargeable (except as to the amount) to an expired account, but sufficient funds do not exist in the applicable expired account to fund the obligation.

4.2.1.2. This type of potential violation is commonly discovered when an unmatched disbursement is recorded in the accounting system when correcting inaccurately recorded obligations, or when a reprogramming action requests additional funds for an expired account. To help prevent this type of violation, DoD funds managers (for example, Comptrollers) must require that all organizations that incur obligations and record obligations maintain strict and absolute positive controls over-obligating documents (or their electronic equivalents) to ensure that none are lost or misplaced and all transactions are recorded accurately and in a timely manner. Such controls include batch totals of transactions and dollar amounts incurred, transmitted, received, processed, and recorded.

4.2.1.3. The establishment of a funds control system is also essential to ensure that all obligations are reconciled properly against available funds and authorized before they are incurred. This process must include reserving available funds for authorized obligations that are not immediately recorded as an obligation. The reservation must be made by means of a formal commitment or an informal reservation record that contains an estimated amount. The documented estimated reservation must closely approximate the obligation when incurred and recorded. Also, when recording estimated obligations, it is important to record the initial obligation based on the most current data available and adjust the estimated obligations as conditions change to avoid making an obligation or expenditure that exceeds the amount available in an appropriation or fund.

4.2.2. Exceeding Statutory Limitations on the Use of Operations and Maintenance Funds.

4.2.2.1. Military Construction. To prevent an ADA violation, engineering and contracting personnel must be advised of the provisions of [10 U.S.C. §§ 2801–2802](#), and [10 U.S.C. § 2805](#); and DoD rules and regulations that cover minor construction projects. Engineering personnel and those who authorized the construction are frequently identified responsible for violations involving construction projects exceeding statutory construction limitations and administrative construction limitations placed in engineering regulations. The following is a brief summary of some of the provisions of 10 U.S.C. §§ 2801, 2802, and 2805; and DoD rules and regulations on minor projects.

4.2.2.1.1. Congress establishes by statute, the amount of Operations and Maintenance (O&M) funds that may be used for a minor construction project. From time to time, that limit is increased by Congress. If the specified limit is exceeded, Military Construction funds must be used for the entire project including planning and design. A violation of [31 U.S.C. § 1341\(a\)\(1\)\(A\)](#) may occur when the limitation is exceeded. The limitation applies to the use of O&M funds for a minor construction project even though there is sufficient obligational authority available in the O&M account at the time that the project is authorized and approved.

4.2.2.1.2. A military construction project includes all work necessary to produce a complete and usable facility, or a complete and usable improvement to an existing facility under provisions of 10 U.S.C. § 2801(b). Incremental construction, which is the planned acquisition of, or improvement to, a real property facility through a series of minor construction projects is prohibited. See Volume 3, Chapter 17 for military construction project requirements.

4.2.2.1.3. Engineering and contracting personnel must be familiar with the statutory limitation, under the provisions of [10 U.S.C. § 2825](#), on the maintenance and repair funds that may be used for a family housing unit. That limit may not be exceeded without prior notification to Congress. When that limit is exceeded for any reason during the completion of a family housing maintenance and repair project, and the conditions specified in the law for a waiver of the statutory limitations have not been met, a violation of 31 U.S.C. § 1341(a)(1)(A) may occur.

4.2.2.1.4. The misclassification of construction costs as alterations by engineering personnel may result in an ADA violation. A potential violation may occur if the amount of the misclassification, when added to construction costs (if any), exceeds a statutory limitation. For example, an engineering project that has a minor construction cost close to the statutory limit, but which also has related maintenance and repair costs, could cause a violation of the statutory limit if the maintenance and repair work later is proven to be construction. Likewise, a maintenance and repair project exceeding the statutory construction limit could be a potential ADA violation if the maintenance and repair later is determined to be construction.

4.2.2.2. Equipment.

4.2.2.2.1. Congress designates an amount above which acquisitions of equipment must be funded from a procurement fund (expense versus investment threshold rule). Using O&M funds to acquire equipment items that exceed the designated threshold amount for the mandatory use of procurement funds could be a potential ADA violation. For instance, O&M funds are used to purchase a computer system when Other Procurement funds are required. Expense versus investment criteria is in Volume 2A, Chapter 1, paragraph 010212 and Volume 2B, Chapter 18.

4.2.2.2.2. Similar problems also frequently occur when acquiring low dollar value equipment items that are estimated to cost less than the congressionally designated amount for procurement funds, but actually cost more than that amount when acquired.

4.2.2.2.3. An ADA violation does not occur automatically in the situations outlined in subparagraphs 4.2.2.2.1 and 4.2.2.2.2 because the obligation can be moved from the O&M account to the applicable procurement account. If proper funds were available in the proper procurement account at the time of the erroneous obligation of O&M funds and funds are available when the obligation is recorded in the procurement account, including all other known valid obligations and deobligations, then a potential ADA violation has not occurred. However, if proper procurement funds were not available at the time of the erroneous obligation or were not available when the obligation is recorded in the procurement account to cover the obligation in the procurement account, a potential ADA violation may have occurred.

4.2.2.2.4. DoD decision makers, such as program managers, information systems managers, and contracting personnel, must be knowledgeable of the expense versus investment rules to prevent this type of violation. Program managers and information systems, contracting, and comptroller personnel must be trained on this issue. Such training should help reduce the incorrect application of the expense versus investment rule and the resulting ADA violations.

4.2.3. Exceeding a Formal Administrative Subdivision of Funds. If a formal administrative subdivision of funds level is exceeded, then a potential violation must be reported. The receipt of additional funds before the end of a reporting period does not mitigate a limitation violation or eliminate the potential violation reporting requirement as specified in Chapter 3. Also, failure to record a valid obligation or expenditure as of the date incurred does not avoid the incurrence of, and the requirement to report, a potential ADA violation if, upon recordation,

available funds in the appropriation fund or other formal administrative fund subdivision level are exceeded. For example, the Military Departments historically have experienced problems with over-obligated Reserve Component (RC) personnel accounts. Funds in these accounts are used to pay RC personnel for such items as weekend drills, travel, special tours, or other training. RC unit commanders who control a formal administrative subdivision of funds level are subject to the ADA and must, in advance of the incurrence and recording of these obligations, budget and reserve against available funds the amounts estimated for weekend drills and other scheduled training.

4.2.4. Obligating Funds in Advance of Availability.

4.2.4.1. A common scenario is the use of current year funds to procure goods or services that properly are funded only with a subsequent year appropriation. An ADA violation occurs when an individual obligates funds before those funds are authorized and appropriated by Congress. For example, signing a facility or equipment operating lease using one-year authority funds and agreeing to pay, or obligating the funds, for a two-year lease during the first year would constitute an obligation in advance of the availability of the funds for the amount associated to the second year of the lease. Similarly, agreeing to pay or obligating the funds for a two-year equipment maintenance agreement using one-year authority funds would constitute an ADA violation related to the amount associated with the second year of the agreement.

4.2.4.2. To help prevent this type of violation, training programs must include specific focus on the importance of ensuring funds are authorized and available before obligating the Government to contracts for future fiscal years' expenses.

4.2.4.3. For guidance on determining whether a violation may be properly corrected, see subparagraph 1.2.3.

4.2.5. Providing Funds to Servicing Agencies Before or Past the Period of Availability.

4.2.5.1. A common scenario occurs when funds cited on an Economy or non-Economy Act order do not meet the bona fide need arising or existing in the fiscal year (or years) for which the appropriation is available for obligation. When an erroneous obligation is moved to the applicable fiscal year and proper funds were not available at the time of the erroneous obligation or were not available when the obligation was recorded in the proper fund or account, a potential ADA violation may have occurred.

4.2.5.2. To prevent this type of ADA violation, DoD personnel with the responsibility to control the use and type of funds used must be aware of the fiscal limitations of providing funds to servicing agencies before or past the period of availability. See specific policy for Economy Act orders in Volume 11A, Chapter 3, section 0304; and non-Economy Act orders in Volume 11A, Chapter 18, sections 1802 and 1803.

4.2.6. Retaining Funds Without Authority.

4.2.6.1. This violation often occurs when funds are retained without authority and are not deposited into the miscellaneous receipts of the U.S. Treasury but instead augments an appropriation and, as a result, obligations or expenditures exceed the amount appropriated by Congress.

4.2.6.2. This violation is often discovered when new personnel arrive and raise concerns over accepting and retaining unauthorized funds. Therefore, it is essential that DoD decision makers, such as DoD Commanders and Comptrollers, are knowledgeable of this type of violation and that financial managers be trained on this issue and understand the authority related to funds under their control to preclude augmenting an appropriation.

Figure 2-1. Potential Violations

A VIOLATION MAY OCCUR WHEN	DESCRIPTION OF POTENTIAL VIOLATION	TITLE 31, UNITED STATES CODE SECTION
Any military member or DoD employee:	1. Makes or authorizes an obligation or expenditure that exceeds: a. The available amount of any appropriation or fund.	1341(a)(1)(A)
	b. Any statutory restriction imposed on the use of an appropriation or fund, such as limits on the use of O&M funds for unspecified minor construction or for purchase of investment items.	1341(a)(1)(A)
	c. The available amount of any apportionment or reapportionment.	1517(a)(1)
	d. The available amount of any formal administrative subdivision.	1517(a)(2)
	e. Any limitation imposed by an authorized official of the DoD or a DoD Component that is intended to restrict obligations of apportioned appropriations or funds.	1517(a)(2)
	2. Involves the Government in any contract or other obligation for the payment of money for any purpose before appropriations are made for such purposes, unless the law authorizes such contract or obligation.	1341(a)(1)(B)
	3. Makes or authorizes an obligation or expenditure against an appropriation account that was closed pursuant to 31 U.S.C. §§ 1552 or 1555 or the period prescribed in an appropriations act for making expenditures as authorized by 31 U.S.C. § 1557.	1341(a)(1)(A)
	4. Accepts voluntary service or employs personal service in excess of that authorized by law except in cases of emergency involving the safety of human life or the protection of property.	1342

Figure 2-1. Potential Violations (continued)

A VIOLATION MAY OCCUR WHEN	DESCRIPTION OF POTENTIAL VIOLATION	TITLE 31, UNITED STATES CODE SECTION
Any military member or DoD employee:	5. Expends a working capital (revolving) fund established under 10 U.S.C. § 2208 in excess of amounts available in Fund Balance with Treasury whether apportioned or not. (Recurring provisions of annual DoD Appropriations Acts that establish cash balances (Fund Balance with Treasury) in working capital funds may be maintained only in such amounts as are necessary at any time for cash disbursements to be made from such funds. This provision allows working capital funds to incur liabilities in excess of available fund balances with Treasury.)	1341(a)(1)(A)
	6. Obligates a working capital (revolving) fund established under 10 U.S.C. § 2208 or a part of the fund, whether subject to or exempt from apportionment, in excess of the available amount.	1517(a)(1)
	7. Obligates a working capital (revolving) fund established under 10 U.S.C. § 2208 in excess of the available amount of budgetary resources.	1517(a)(2)
In Fund Distribution:	1. Total allotments, or operating budget authorities for O&M type funds exceed the amount available for each apportionment period.	1517(a)(1)
	2. Total suballotments, allocations, or operating budget authorities, and centrally managed accounts (CMAs) exceed the amount of the allotment or operating budget authority for each period.	1517(a)(2)
	3. Total allocations or operating budget authorities and CMAs exceed the amount of the available suballotment.	1517(a)(2)
	4. Total suballocations exceed the amount of the allocation.	1517(a)(2)

Figure 2-2. Violation Examples

A. GENERAL. Most of the examples described in items B – D are taken from actual violations that occurred within DoD. However, these violations are fact specific and in other circumstances a potential violation may or may not be incurred. These examples are supplied for information only and are not intended to imply that in all similar but not identical circumstances a violation would have been incurred.

B. TITLE 31, UNITED STATES CODE, SECTION 1341

1. 31 U.S.C. § 1341(a)(1)(A)

a. Obligated O&M funds for site preparation construction costs on a relocatable building project. The project was incorrectly scoped into multiple projects and the cumulative costs of the construction exceeded the minor construction threshold and should have been authorized by Congress and funded with military construction funds. This unauthorized obligation of O&M funds instead of military construction funds resulted in a violation.

b. Obligated O&M and Working Capital funds on a single military construction project. The project amount exceeded the minor construction statutory limitation and resulted in a violation. The Government Accountability Office takes the position that a violation of a funding restriction in an authorizing statute (such as 10 U.S.C. § 2805) results in a violation of the ADA (31 U.S.C. § 1341). The use of funds to finance the project is not consistent with the authorized purpose of the appropriation and resulted in an incurable violation of the “purpose statute” (31 U.S.C. § 1301).

Note: Although the circumstances described herein constitute a violation of 10 U.S.C. §§ 2802(a) and 2805(b), the Department of Justice (DOJ) Office of Legal Counsel (OLC) has concluded that “a violation of a statutory restriction on spending does not violate the ADA where the restriction is not ‘in an appropriation.’” See also: DOJ OLC opinion, “Use of Appropriated Funds to Provide Light Refreshments to Non-Federal Participants at EPA Conferences,” April 5, 2007 (online at: <http://www.justice.gov/sites/default/files/olc/opinions/2007/04/31/epa-light-refreshments13.pdf>); and DOJ OLC letter, “Re: Whether the Federal Aviation Administration’s Finalizing and Implementing of Slot Auction Regulations Would Violate the Anti-Deficiency Act,” October 7, 2008.

c. Obligated O&M funds rather than Procurement funds for recapitalization of a system and Procurement funds were not available when the obligation was recorded which resulted in a violation.

Figure 2-2. Violation Examples (continued)

d. Failure to promptly record valid obligations in a reserve personnel appropriation resulted in valid obligations that exceeded the available amount in the appropriation and resulted in a violation

2. 31 U.S.C. § 1341(a)(1)(B)

a. Obligated O&M funds in advance of the appropriation when a 14 month severable services contract was awarded that exceeded the 12 month limit set forth in section 10 U.S.C. § 2410a, and resulted in a violation.

b. Obligated O&M funds for two and four year severable equipment leases in advance of an appropriation which resulted in a violation.

c. Obligated O&M funds for equipment with phased deliveries into subsequent fiscal years in advance of an appropriation which resulted in a violation.

C. TITLE 31, UNITED STATES CODE, SECTION 1342

Apparently, at the urging of the Chairman, a member of a Federal Commission agreed to waive his statutory entitlement to \$100 per day while involved in Commission business. The year after the Commission was disbanded, the former member changed his mind and filed a claim for a portion of the compensation he would have received had it not been for the waiver. Since the \$100 per day was a statutory entitlement, the purported waiver was invalid and the former commissioner was entitled to be paid. By accepting the waiver and allowing the commissioner to conduct Commission business without pay, the provision against acceptance of voluntary services was violated and a violation of the ADA occurred.

D. TITLE 31, UNITED STATES CODE, SECTION 1517

1. Obligated O&M funds in excess of the Continuing Resolution Authority allocation which resulted in a violation.

2. Obligated O&M funds for information technology equipment in excess of the investment threshold. When correction was made, Procurement funds were not available at the suballotment level which resulted in a violation.

Figure 2-2. Violation Examples (continued)

3. A DoD activity used O&M funds, rather than Other Procurement funds to purchase a data processing local area network (LAN). Even though the hardware components and LAN operating system software were purchased separately, the components and the software together constituted a system with an aggregate cost in excess of the expense/investment threshold specified by the Congress for the required use of procurement appropriation funds. A violation occurred because the DoD activity did not have the required amount of Other Procurement funds at the time of the purchases.
4. A funds holder at a formal administrative subdivision of fund level erroneously distributed more funds than available at the subdivision level. The activities receiving the funds incurred obligations and expenditures in excess of amounts available to the fund holder but below the amount distributed. The funds holder incurred an ADA violation because the obligations and expenditures exceeded the total amount in the formal administrative subdivision of funds.

CHAPTER 3

ANTIDEFICIENCY ACT VIOLATION PROCESS

1.0 GENERAL

1.1 Overview

This chapter describes the Antideficiency Act (ADA) violation process from initial discovery to formal investigation and final report. If an activity suspects an ADA violation and validates those concerns with an internal review, the activity must conduct an in-depth investigation. The structured investigation process consists of two phases, a preliminary review and, if required, a formal investigation. Generally, the preliminary review must establish that a potential ADA violation occurred before a formal investigation begins. The preliminary review gathers facts and establishes by adequate evidence whether an uncorrectable deficiency has occurred. The formal investigation determines the event(s) that “more likely than not” caused the potential violation, the responsible individual(s), and action(s) taken to ensure that a similar violation does not reoccur. To ensure efficiency, it is important that those involved in the investigation of, and reporting on, ADA violations are adequately trained and qualified. Investigators are provided specific authority to collect and evaluate relevant information as well as obtain direct support from subject matter experts and personnel throughout the process.

1.2 Purpose

This chapter addresses potential and actual violations of statutes discussed in Chapters 1 and 2. The policy directs conducting initial reviews, structuring investigations, and other requirements to report an ADA violation properly. It also establishes training requirements for individuals assigned to investigate potential and actual ADA violations. Additionally, this chapter provides organizational corrective and disciplinary actions for civilian and military employees.

1.3 Authoritative Guidance

This chapter implements provisions of Title 31, United States Code (U.S.C.), especially sections 1511 – 1517 and 1519 ([31 U.S.C. §§ 1511 – 1517](#) and [31 U.S.C. § 1519](#)) on apportionment and allotment, and §§ 1341 and 1348 on limitations on obligations and expenditures, § on voluntary services and personal services, and §§ 1349 and 1518 on disciplinary actions. This chapter also implements reporting requirements as specified in [31 U.S.C. §§ 1351](#) and 1517(b), and the Office of Management and Budget ([OMB Circular No. A-11](#), Exhibit 145A).

2.0 REPORTING SUSPECTED VIOLATIONS

2.1 Initial Discovery

A review is initiated if there is adequate information to suspect a potential ADA violation may have occurred. An event marks the date of discovery, such as the release of internal review findings suggesting an ADA violation may have occurred, or receipt of a status of funds report

showing irregularities. The activity may conduct an inquiry to confirm that the information is accurate, complete, and sufficient suggesting that an ADA violation occurred.

2.2 Initial Report

2.2.1. Fund holders must ensure their funds are properly executed in accordance with applicable laws and regulations. Consequently, fund holders must report all suspected violations of the ADA. The professionals administering the funds, other than the fund holders, must also alert proper officials to suspected violations.

2.2.2. Within two weeks of discovering a potential ADA violation, the activity holding the allegedly misused funds conducts an initial review and prepares an initial report. The review aids in preparing the initial report. It determines whether a suspected violation may have occurred – even when the suspected violation is curable. Where the activity identifies a potential cure, note the cure in the report. However, do not cure a potential ADA without concurrence from the authorities identified in 2.2.3.

2.2.3. The activity/command channels must submit initial reports to the applicable Office of the Assistant Secretary of the Military Department for Financial Management and Comptroller, Combatant Commands, or the Senior Financial Manager for other Department of Defense (DoD) Agencies and Field Activities (referred herein as DoD Component).

2.2.4. The initial report does not determine responsibility for causing the potential ADA; it merely notifies leadership that a suspected violation may have occurred. The initial report template is located at Figure 3-2. If the following information is available and pertinent to the potential ADA at issue, the report must contain the following:

- 2.2.4.1. Accounting classification of funds allegedly misspent;
- 2.2.4.2. Name and location of the activity where the alleged violation occurred;
- 2.2.4.3. Name and location of the activity issuing the fund authorization;
- 2.2.4.4. Amount of the alleged violation;
- 2.2.4.5. Nature of the alleged violation;
- 2.2.4.6. Date the alleged violation occurred, and date discovered;
- 2.2.4.7. Means of discovery; and
- 2.2.4.8. Description of the facts and circumstances of the case.

2.2.5. Initial reports addressing potential voluntary services ADA violations must include all items listed in subparagraph 2.2.4 (except subparagraphs 2.2.4.1 and 2.2.4.3).

2.3 Evaluation

The DoD Component must evaluate the initial report for validity and completeness. If this evaluation determines a suspected violation may have occurred, the DoD Component must assign a case number for tracking purposes and direct the initiation of a preliminary review. If the DoD Component determines that the suspected violation is curable, the impacted activity/command **must** provide all the necessary **correcting** information and documentation to the DoD Component, **correct the error, and implement** appropriate internal controls to prevent a recurrence of similar violations. **There are no additional ADA violation requirements.**

3.0 DOD COMPONENT INVESTIGATION ADMINISTRATION

3.1 Timeframes for Investigation

3.1.1. **Complete** the preliminary review within four months from the date it was directed by the DoD Component.

3.1.2. **Complete** the formal investigation within nine months from the date it was directed by the DoD Component.

3.1.3. The Office of the General Counsel (OGC) (Fiscal) **completes the** advance decision legal review within three months from the date the draft formal investigation report is submitted to the Office of the Under Secretary of Defense (Comptroller) (OUSD(C)), Deputy Chief Financial Officer (DCFO) requesting an advanced decision.

3.1.4. The DoD Component must consider appropriate disciplinary action and document any disciplinary action taken. **The DoD Component completes a** final summary report within two months from the Office of the Secretary of Defense (OSD) OGC (Fiscal) receipt of an advance decision concurring with the formal investigation report. However, DoD Components may request additional time from the DCFO to complete disciplinary actions, if required.

3.1.5. The DCFO **completes and submits** the letters required by OMB Circular No. A-11, Exhibit 145A within one month after receiving the final investigation report from the DoD Component. **Complete** the total process for investigating and reporting potential ADA violations within 15 months from the start of the formal investigation. The preliminary review is not part of the 15 months timeline.

3.1.6. All appointing officials must stipulate **a due date for the ADA violation investigation report** in the investigating officer appointment memorandum. The due date must conform to the timeframes stipulated in paragraphs 3.1.1 through 3.1.5 regardless of the scope or amount of the potential violation.

3.2 Approving Exceptions to Timeframes

The DCFO may approve an exception to the timeframes on a case-by-case basis. Upon request, this responsibility may be delegated to the DoD Components. This responsibility may not

be redelegated. The DoD Components must provide sufficient justification for the extension. The DCFO notifies the DoD Components of any extension that is approved.

3.3 Special Interest Investigations

Special interest investigations include potential violations that are the subject of a news release; requested by the Secretary of Defense, Deputy Secretary of Defense, or the USD(C); or involve a high-level DoD official. When necessary, special interest investigations may deviate from the timeframes stipulated in paragraphs 3.1.1 through 3.1.5; however, the DoD Components must notify the DCFO when such deviations are necessary. If the DCFO agrees, the timeframes may be extended.

3.4 Involvement of the OUSD(C)

The OUSD(C) may supervise the progress of an investigation when the nature of the violation or the implication of individuals in the violation warrants such involvement. Such supervision may include requirements for oral and written progress reports and may require a team of investigating officers (IOs) and compressed timeframes.

3.5 Investigation Costs

When investigating outside the major activity/command to which the IO is assigned, identify, and accumulate incidental costs (e.g., temporary duty, local travel). In accordance with Volume 11A and Volume 11B, the activity/command under investigation must reimburse costs.

4.0 PRELIMINARY REVIEWS

4.1 Purpose

4.1.1. The preliminary review gathers facts adequately supporting the conclusion that an ADA reportable violation has occurred. It does not identify responsible officials or recommend corrective actions to prevent similar violations.

* 4.1.2. The DoD Component must assign the responsibility for conducting the preliminary review to the activity where funds were potentially misused.

4.2 Investigating Officer Appointment

4.2.1. The DoD Component official must appoint the IO. The appointing official is at the DoD Component level unless the Component delegates this authority to a senior Commander or director of the organization responsible for conducting the investigation. The official appoints a qualified IO assisted by an expert review team, if necessary. The official issues an appointment letter within two weeks after the DoD Component's evaluation of the initial report concluding that a potential reportable violation has occurred. An appointment orders template is located in Figure 3-3.

4.2.2. The appointing official certifies that the IO has been trained in fiscal law or appropriations law within the last three years and can conduct a complete, impartial, and unbiased review. Each DoD Component ensures that its ADA investigators are properly trained and that the training is current and documented.

4.2.3. Select the IO from an organization external to the activity/command being reviewed.

4.2.4. The IO does not need to be senior in grade to the persons potentially under investigation.

4.2.5. The IO must be competent and capable of gathering evidence, establishing facts, documenting findings and recommendations, and preparing investigation reports of violation.

4.2.6. The IO must manage time and meet the investigation timeframes established. The appointing official may prescribe additional training as required.

4.2.7. Appointing officials must ensure the investigation receives the appropriate level of activity/command emphasis and the IO has adequate time and resources to conduct a thorough investigation.

4.2.8. The appointment orders must certify that investigators are free of personal, external, and organizational impairments. Retain the document(s) in the ADA case file.

4.2.9. Submit the appointment orders to the DoD Component. The appointment orders are part of the case files for the investigation.

4.3 Conduct of the Investigation

4.3.1. Checklists. Figure 3-4 contains a template for the preparation of the preliminary review report.

4.3.2. The investigator gathers facts, establishes a narrative of events, and determines what should have happened before the preliminary review is concluded. The investigator may review funding documents, contracts, and other key documents, as well as interview key witnesses during the investigation.

4.3.3. The investigator must check for accounting errors such as duplications or other errors in recording the applicable obligation and/or expenditure; obligations and/or expenditures charged to invalid and/or improper fund accounts; and inaccurate fund status at the time the applicable transaction occurred. If the preliminary review determines that an accounting error occurred, the investigator must coordinate the appropriate accounting correction.

4.3.4. When an IO determines that a reportable violation can be cured, the fund holder must attempt to correct the accounts. Complete corrections with the concurrence of the DoD Component, and only after the DoD Component receives appropriate supporting documentation.

*4.4 Obligations Charged to the Wrong Appropriation or Wrong Year

For information on obligations charged to the wrong appropriation or wrong year, see Chapter 2, subparagraph 1.2.3.1.

*4.5 Obligations Incurred in Advance of an Appropriation

For information on obligations incurred in advance of an appropriation, see Chapter 2, subparagraph 1.2.3.2.

4.6 Review Results

The IO documents the findings of the preliminary report and accompanies the report with a legal review. Forward this report and legal review for approval to the applicable DoD Component and coordinate with the applicable DoD Component's General Counsel. If the DoD Component involved determines that there is no violation, then the preliminary report completes the required ADA violation investigation.

4.7 Preliminary Reviews Initiated by the OUSD(C)

When an audit report informs or the OUSD(C) otherwise learns of a potential violation, the OUSD(C) may direct the DoD Component to initiate a preliminary review of the circumstances surrounding the potential violation. The date the OUSD(C) directs the DoD Component is the discovery date for reporting purposes and the DoD Component must follow procedures in sections 2.0, and 3.0.

4.8 Oversight Entities

4.8.1. In some cases, the Government Accountability Office, DoD Office of Inspector General (DoD IG), a military department audit agency, or other organizations external to a DoD Component report that a potential violation may have occurred and recommends a preliminary review be conducted. The DoD Component must review the finding(s) and recommendation(s) provided in the report. The DoD Component may have to conduct an informed inquiry.

4.8.2. If the DoD Component agrees that a potential violation may have occurred and a preliminary review is warranted, then the starting date for the investigation is the discovery date for reporting purposes. The DoD Component must follow procedures in section 4.0 and must supply the preliminary review status as requested by the applicable external organization.

4.8.3. If the DoD Component disagrees that a potential violation has occurred and believes a preliminary review is not warranted, the DoD Component must provide applicable written comments to the report outlining the disagreement consistent with policy prescribed in DoD Instruction 7650.03 "Follow-up on General Accountability Office, DoD IG, and Internal Audit Reports."

4.8.4. If the DoD Component and the oversight activity [disagree](#) as to whether a preliminary review is warranted, the DoD Component may request assistance from the DCFO.

4.9 Evaluation

The DCFO may routinely examine open or closed preliminary review cases.

5.0 ROLES OF THE DOD INSPECTOR GENERAL

5.0.1. The Inspector General Act of 1978 (P.L. 95-452), as amended, gives the DoD IG the authority to conduct investigations of violations of the ADA.

5.0.2. The DoD IG reserves the right to initiate investigations of potential [ADA](#) violations, depending upon the type, amount, or significance of the violation.

5.0.3. The DoD IG may elect to conduct investigations not requested by the OUSD(C) or [another DoD official](#).

5.0.4. When the DoD [IG](#) conducts such investigations, the resultant report must constitute the official DoD report on the matter; no other DoD Component must conduct parallel or supplemental investigations unless directed to do so by the Secretary of Defense, Deputy Secretary of Defense, or OUSD(C).

6.0 FORMAL INVESTIGATIONS

6.1 Overview

6.1.1. [Once](#) a preliminary review concludes that a reportable and incurable violation of the ADA has occurred, a formal investigation must be opened. [Report](#) the violation to the DCFO within 2 weeks of the determination. The DCFO assigns the DoD Component a unique tracking number and due date.

6.1.2. The formal investigation determines the event that caused the potential violation, the responsible individual(s), and action(s) taken to ensure that a similar violation does not occur in the future. [Additional evidence discovery](#), re-interviewing witness or interviewing new witness, re-examining documents, or discovery of new documents [may be required](#).

6.1.3. During a formal investigation, the DCFO may request periodic status reports.

6.1.4. The DoD Component generally assigns the investigation to the activity that performed the preliminary review. The DoD Component may request another organization to conduct the investigation to eliminate potential conflicts of interest, or to leverage the expertise of another activity/command.

6.2 Investigating Officer Appointment

6.2.1. The DoD Component official must appoint IOs. The appointing official is at the DoD Component level unless the Component delegates this authority to a senior activity/commander or director of the organization assigned responsibility for conducting the investigation. A qualified IO may be assisted by a review team with expertise in the areas being investigated, if necessary. A template for appointment orders is located in Figure 3-3. The formal investigation may be conducted by the same IO who conducted the preliminary review.

6.2.2. The appointing official certifies that the IO/review team lead has been trained in fiscal law or appropriations law within the last three years and can conduct a complete, impartial, and unbiased review. Each DoD Component must ensure that its ADA investigators are properly trained and that the training is current and documented.

6.2.3. The IO must be selected from an organization external to the activity/command being reviewed.

6.2.4. The IO does not need to be senior in grade to the persons potentially under investigation.

6.2.5. IOs must be competent and capable of interviewing witnesses, gathering evidence, establishing facts, documenting findings and recommendations, and preparing violation reports. They must also manage time and meet established investigation completion timeframes. The appointing official may prescribe additional training as required.

6.2.6. Appointing officials must ensure that the investigation receives the appropriate level of activity/command emphasis and gives the IO adequate time and resources to conduct a thorough investigation.

6.2.7. The appointment orders certify that investigators and/or review team leads are free of personal, external, and organizational impairments. Retain the document(s) in the ADA case file.

6.3 Conduct of Investigation and Preparation of Formal Report of ADA Violation Investigation (ROI)

6.3.1. Checklists

6.3.1.1. Figure 3-1 contains a checklist for use in the conduct of the Formal Investigation.

6.3.1.2. Figure 3-5 contains a template for the preparation of the formal report.

6.3.2. Examination of Physical Evidence

During the investigation, the IO expands upon the findings established in the preliminary investigation or makes new findings. The IO may revise dollar amounts based on witness statements, or, as more information is obtained, facts and conclusions also may be revised. The formal investigation finds the root cause(s) for the violation and identifies the individual(s) making or authorizing the improper obligations or expenditures, and the corrective action(s) implemented to reduce the risk of similar violations in the future.

6.3.3. Identifying Circumstances and Assigning Responsibility

6.3.3.1. Fully investigate all relevant aspects of the case, including all individuals and records connected with the event. Interview key personnel involved in a violation. If an employee to be interviewed is a member of a bargaining unit, comply with appropriate statutory and collective bargaining agreement protections for such employee.

6.3.3.2. Examine and document key event facts leading to the potential violation in the report and address any conflicts. If a series of events at several levels led to the violation, then the report clearly must identify what happened at each level and how the events contributed to the violation.

6.3.3.3. Where the subject matter of the potential violation is beyond the expertise of the IO, a subject matter expert must evaluate the evidence along with statements from personnel interviewed and provide an opinion on whether the key facts are correct and the conclusions reasonable. For example, when a potential violation involves the question of whether a military construction project results in a complete and usable facility, a civil engineer must analyze the facts and provide an opinion.

6.3.3.4. The IO must find facts supporting all conclusions reached in the investigation. All fact findings leading to a conclusion of an ADA violation must be supported by a preponderance of the evidence. A preponderance of the evidence is created when the evidence collected makes the existence of a fact more likely than not. If the IO cannot establish a fact by the preponderance of the evidence, that fact may not be used to support a conclusion that an ADA violation occurred or that an individual is a responsible official.

6.3.3.5. Where the IO concludes that a reportable ADA violation occurred, the IO must find facts and conclude that the responsible official(s), the individual or individuals made or authorized the improper obligations or expenditures pursuant to 31 U.S.C., §§ 1341(a) and/or 1517(a). Determine facts supporting an individual's responsibility for the violation by a preponderance of the evidence. A conclusion that an individual is a responsible official does not, by itself, result in pecuniary liability of an accountable official under 10 U.S.C., § 2773a.

6.3.3.6. Any report that concludes an ADA violation occurred must identify one or more responsible officials. A conclusion that no individual was responsible for the violation is not acceptable.

6.3.3.7. The same individuals may be responsible for more than one violation under the auspices of a single investigation. In these cases, the report **must** specifically clarify how they contributed to each discrete violation.

6.3.3.8. The responsible official is usually the highest-ranking individual in the decision-making process with actual or constructive knowledge of the actions taken and awareness of the possible risks.

6.3.3.9. **To** establish responsibility, the IO must conclude, based on findings of fact, that the act or omission was **the** proximate cause of the violation. An act or omission is **the** proximate cause when it sets into motion a chain of events that directly leads to the violation, and the violation would not have happened but for the act or omission. A violation may have more than one proximate cause, and therefore more than one responsible official.

6.3.3.10. In some cases, **the IO** establishes that an individual had a duty to take an action that may have prevented the ADA violation, knew or should have known of that duty, and failed to take that action. In such cases, collateral evidence, such as Position Descriptions, may be used as evidence of the individual's scope of duties. If used, such evidence must be included in the ROI.

6.3.3.11. Activity/commanding officers, directors, budget officers, or fiscal officers may be named because of their overall responsibility or position, or the fact that they are designated as the holder of a subdivision of funds if they failed to properly exercise their responsibilities. Responsible officials may also include Information Technology specialists, program managers, facility engineers, and acquisition personnel.

6.3.3.12. The ROI must clearly identify the involvement of each individual and the acts or omissions that were the proximate cause(s) of the violation. The following questions must be considered:

6.3.3.12.1. Did the violation occur because an individual carelessly disregarded instruction?

6.3.3.12.2. Did the violation occur because an individual was inadequately trained or lacked knowledge to properly perform their job? If so, was the individual or a supervisor at fault?

6.3.3.12.3. Did the violation occur because of an error or mistake in judgment by an individual or a supervisor?

6.3.3.12.4. Did the violation occur because of lack of adequate procedures and controls? If so, who was at fault?

6.3.3.12.5. Did the violation occur because of other reasons? If so, who was at fault?

6.3.3.13. If at any time during an investigation the IO believes there may be a criminal issue(s) involved, then the investigation must be stopped immediately. The IO must

consult with legal counsel to determine if the issue **must** be referred to appropriate criminal investigators for resolution. The IO must notify the DoD Component of the outcome of this consultation.

6.3.3.13.1. If at any time **the IO** suspects that the **ADA** violation was knowing and willful, then the IO must submit all available information to the DoD Component, which considers the case, in conjunction with the applicable Office of the General Counsel, for submission through DoD channels to the Department of Justice pursuant to 31 U.S.C., §§ 1350 or 1519, as applicable.

6.3.3.13.2. **The** case closes to avoid duplication of effort or interference with a criminal investigation. If appropriate, a new formal investigation opens at the conclusion of the criminal investigation.

6.3.4. Rebuttal Statements

6.3.4.1. Individuals found potentially responsible for the violation **are** provided a draft ROI detailing the facts and circumstances leading to the determination of their responsibility and given two weeks to issue a rebuttal statement.

6.3.4.2. **The IO grants** the individuals named potentially responsible this opportunity even if they no longer work where the violation occurred or have retired or separated from the DoD.

6.3.4.3. The ROI documents the steps taken to notify the proposed responsible officials and provide them an opportunity to submit a rebuttal statement. Certified mail and/or email with tracking may be used to verify a good faith attempt was made to deliver the draft report to the proposed responsible official.

6.3.4.4. **Where** proposed responsible officials may have separated and left no valid forwarding address, **make** a reasonable attempt to contact them. The report **must** be annotated accordingly. **Summarize** attempts to **contact** the proposed responsible official in the report.

6.3.4.5. **Include the declination statement as their response if** the proposed responsible official declines to give a statement in writing.

6.3.4.6. **Note if** they refuse to receive the report or submit a statement of any kind **in the report**. **Summarize** attempts to solicit a response in the report.

6.3.4.7. **Support** any oral statements **with** a memorandum for record.

6.3.4.8. **The** proposed responsible officials **must** acknowledge that they read the draft ADA report and understand that the draft ROI names them as being responsible for the violation. They may introduce any additional information they believe to be pertinent to the violation case.

6.3.4.9. The IO must evaluate the rebuttal statements of the proposed responsible officials to determine if they clarify certain facts, provide mitigating information that might alter the draft's conclusions, or provide additional leads that require follow up. If rebuttal statements

result in material changes to the draft ROI, the responsible official **must** have an opportunity to review the report again.

6.3.4.10. The final ROI includes the rationale for naming the individual as a responsible official, a synopsis of the rebuttal statements, and the IO's assessment. The IO **must** ensure the report is clearly written and the rationale for assigning responsibility to an individual is fully justified.

6.3.4.11. **Summarize** the salient points of the rebuttals in the ROI. Verbatim statements **must** be submitted as an exhibit. The IO assesses the accuracy of the rebuttal statements, following up on new leads, addressing questions regarding the responsibility of other personnel not named, and any other issues introduced by the rebuttal statements.

6.3.5. Corrective Actions

6.3.5.1. The ROI must state what actions were taken to request the proper funding. A **report** stating funds **are** requested is not sufficient. The report must state the year, type of funds, and the amount used to make the correction. As an example, if Operation and Maintenance (O&M) funds were improperly used for a minor construction project costing **more than** the limitation for minor construction, funds must be obligated from the Military Construction appropriation and the O&M appropriation restored to the proper balance.

6.3.5.2. When the **IO determines** the causes and the individuals responsible for the violation, officials of the DoD Component or the activity holding the funds that were misused, must develop lessons learned and implement internal control enhancements necessary to reduce risks **for future similar nature** violations. Those specific actions must be included in the formal report.

6.3.5.3. Corrective actions **must** be concrete actions that have been implemented, or that are in the process of being implemented.

6.3.5.4. Corrective actions **must** address the act or omission by the responsible official(s) that led to the violation.

6.3.5.5. Investigations resulting in no reportable violation are nonetheless permitted to recommend corrective actions, as appropriate, to address any deficiencies or practices documented during the investigation.

6.4 Reinvestigation

If **the DCFO requests** a reinvestigation, then after the reinvestigation is completed or other requested action has been taken, the applicable DoD Component must submit the revised report to the DCFO according to applicable procedures in paragraph 6.3. The DoD Component must submit the revised ROI within two weeks following completion of the reinvestigation or other requested action.

6.5 Formal Investigation Results

6.5.1. The IO **must** ensure the ROI is clearly written and that each **fact** and conclusion is supported by a preponderance of the evidence.

6.5.2. The DoD Component must carefully review the ROI and all enclosures.

6.5.3. The complete report must include:

6.5.3.1. Legal review;

6.5.3.2. Witness statements;

6.5.3.3. Responsible official notification;

6.5.3.4. Responsible official rebuttal or declination statement/proof of delivery/statement from IO regarding inability to contact;

6.5.3.5. Evaluation of responsible official statements;

6.5.3.6. Ongoing/completed corrective actions;

6.5.3.7. For ADAs susceptible to accounting adjustments, fund certifications supporting conclusions that the ADA is/is not correctable; and

6.5.3.8. **SME** functional reviews decisions that drove fund determinations, especially with respect to Military Construction, information technology procurements, and covered Defense Business Systems.

6.5.4. An incomplete ROI must be returned to the activity/command for rework. A firm suspense **must** be given to the activity/command to resubmit a legally supportable report.

7.0 DOD COMPONENT ROI

7.1 Preparation of the ROI

7.1.1. The **DoD Component** ROI must follow the same general format as described in Figure 3-5. However, it is generally a stand-alone product without enclosures or attachments. **Remove** extraneous information not supporting conclusions from the report. The DoD Component must keep these records and provide **them** on request.

7.1.2. **Remove or clarify** confusing information. **Verify** key dates mentioned in the report. Numbers in tables, graphs, and text **must** be accurate, consistent, and easy to follow. Unnecessary tables and photographs may be removed.

7.1.3. Personally Identifiable Information must be redacted and superfluous argument(s) not supporting the findings **must** be removed. Witness names **must** be replaced with position titles where practicable, to avoid potential Personally Identifiable Information concerns.

7.1.4. The ROI must be concise and avoid unnecessary historical background or references to external documents. **Highlight** salient points **and address** gaps in the narrative, utilizing extant supporting documentation.

7.2 Legal Coordination

7.2.1. **Prepare** the DoD Component ROI in close coordination with counsel and verify all information in the IO's report and compare it to information in the exhibits. When in doubt, **staff** the changes with the activity/command to ensure there are no material misstatements of fact and to ensure any factual gaps in the record are **closed**.

7.2.2. When the violation is incurable, the type of ADA violation **is** ultimately 31 U.S.C. §1341 (exceeding an appropriation or in advance of an appropriation), 31 U.S.C. §1517 (exceeding apportionment or formal subdivision) or 31 U.S.C. § 1342 (accepting voluntary services for the United States, or employing personal services not authorized by law).

7.2.3. **Remove** proposed responsible officials **if** facts do not support responsibility **and legal concurs**. **Identify** additional responsible individuals and coordinate adding them to the report with the IO. Proposed responsible officials **are** generally the highest-ranking individual in the decision-making process with actual or constructive knowledge of the actions taken.

7.2.4. **If** the formal investigation was materially incomplete, or the facts do not support the conclusions, **return** the ROI to the activity/command for revision and/or reinvestigation. **Give the activity/command a** firm suspense to resubmit a legally supportable ROI.

7.2.5. **Coordinate with the appropriate stakeholders and annotate the ROI accordingly** if the ADA violation involves the funds or personnel of another DoD Component.

7.2.6. **Prepare an ROI** if the results of a formal investigation **led** to a determination by the DoD Component that there was no violation. The ROI must contain appropriate justification that supports a revised finding that no violation occurred.

8.0 REQUEST FOR ADVANCE DECISION

8.1 Advance Decision Package Submission

8.1.1. **Submit** the ROI, to include the individual(s) responsible for the potential violation, to the DCFO with a copy to the DoD Office of the Deputy General Counsel (Fiscal) (OGC (Fiscal)) requesting an Advance Decision for a determination of whether the case is or is not an ADA violation.

8.1.2. Advance Decision is the pre-decisional OGC (Fiscal) review of the DoD Component ROI and determination that evidence substantiates the ADA violation and the naming of responsible officials. The Advance Decision examines the role of the proposed responsible officials and determines whether they may be legally held accountable in accordance with 31 U.S.C. §§1341(a), 1517, and 1342.

8.1.2.1. If the OGC (Fiscal) determines that no violation is substantiated, then the DoD Component is notified that no further action is required, and the investigation is closed.

8.1.2.2. If the OGC (Fiscal) concurs that the proposed responsible officials are correctly identified and the violation is substantiated by a preponderance of the evidence, then the DoD Component is notified and informed discipline against one or more individuals named in the report may proceed.

8.2 OUSD(C) DCFO Review

The DCFO must review each ADA violation report for completeness, clarity, and compliance with reporting requirements. If the report is determined incomplete by DCFO or OGC (Fiscal), then the ROI must be returned to the applicable DoD Component. The DoD Component must provide additional documentation, modify the report, or accomplish other actions as requested within the period specified by the DCFO.

9.0 DISCIPLINARY ACTION

9.1 Disciplinary Actions

9.1.1. Following OGC (Fiscal) concurrence and receipt of an advance decision from the OUSD(C), the DoD Component sends a tasking memorandum from the DoD Component to the appropriate organization or individual for potential administration of adverse action, as deemed warranted, along with a copy of the report.

9.1.2. The individual imposing discipline must be independent and free of external influence.

9.1.3. The disciplinary officer(s) must follow the appropriate disciplinary procedures applicable to the military member or civilian employee who has been determined in the ADA investigative process to be a responsible individual. The disciplinary officer consults with the staff judge advocate or servicing legal office, as well as the civilian personnel office (in the case of a civilian employee).

9.1.4. The IO is prohibited from also being appointed as the disciplinary officer. The IO does not have a role in recommending or determining discipline.

9.2 Imposing Discipline

9.2.1. Administrative Penalties

9.2.1.1. **Document** disciplinary action taken in the individual's personnel file in accordance with established policies.

9.2.1.2. Administrative discipline for a civilian employee may include but is not limited to, written/oral counseling, written/oral admonishment or reprimand, reduction in grade, suspension from duty without pay, or removal from office.

9.2.1.3. Military personnel may be subject to appropriate administrative discipline or to action under the **Uniform Code of Military Justice** (Common Access Card required.)

9.2.1.4. In general, individuals no longer on active duty or employed by a DoD Component may not be disciplined. However, disciplinary actions may still be imposed against some retired individuals who have separated from military service if it is warranted by circumstances and determined to be legally appropriate by counsel. DoD has no authority to discipline retired or former civilian employees.

9.2.2. Criminal Penalties

9.2.2.1. An officer or employee found responsible for committing a violation knowingly and willfully may be subject to criminal penalties. The IO consults with legal counsel to determine if the investigation **must** be referred to the appropriate criminal investigation organization for action.

9.2.2.2. 31 U.S.C. § 1350, prescribes that an officer or employee of the United States Government who knowingly and willfully violates 31 U.S.C., §§ 1341 or 1342 must be fined not more than \$5,000, imprisoned for not more than 2 years, or both. 31 U.S.C. § 1519 discusses the violation of 31 U.S.C., § 1517 and provides the same level of punishment. Criminal penalties for military personnel may include punishment under **Article 15** of the Uniform Code of Military Justice or trial by Courts-Martial.

* 9.2.2.3. **Include in the ROI a statement from the DoD Components** to the DCFO that criminal penalties **may be required**.

9.3 Documentation of Discipline Imposed

9.3.1. A suggested template for use by the disciplinary officer is located at Figure 3-6. In documenting discipline, the officer imposing discipline must acknowledge the following:

9.3.1.1. An ADA violation is a violation of federal statute;

9.3.1.2. ADA violations constitute misuse of DoD funds, even if the misuse was not knowing or willful and the misuse was not ultimately harmful to DoD, or the DoD Component;

9.3.1.3. DoD is required to report violations of the ADA to the President (via the Director, OMB), the U.S. Congress, and the Government Accountability Office;

9.3.1.4. An unwillful or unintentional violation alone does not justify a decision not to administer disciplinary action; and

9.3.1.5. Disciplinary actions must consider the severity of the violation.

9.3.2. Moreover, the officer imposing discipline must provide a written statement addressing why the disciplinary penalty imposed or not, is commensurate with the severity of the violation.

10.0 SUBMISSION OF THE FINAL REPORT

10.1 Submission to DCFO

Submit the original or an electronic copy of the final ROI, including a discussion of the disciplinary actions taken, to the DCFO and **include** a copy of all pertinent documents referenced in the body of the report.

10.2 ROI Due Date

The ROI is due to DCFO within 14 months from the date the formal investigation began.

11.0 NOTIFICATION TO EXTERNAL AUTHORITIES

11.1 Letter Preparation

Following receipt of an acceptable final ADA violation report from the applicable DoD Component, the DCFO prepares the required letters, in accordance with OMB Circular No. A-11, Exhibit 145A, that report an ADA violation to the President through the Director of the Office of Management and Budget, the President of the Senate, the Speaker of the House of Representatives, and the Comptroller General of the United States. The notification letters must be coordinated with the OGC (Fiscal), Office of the Assistant Secretary of Defense for Legislative Affairs, and Office of the Deputy Comptroller (Program/Budget).

11.2 Letter Content/Submission

These letters are submitted to the USD(C) for signature and forwarded to the external authorities identified in paragraph 11.1. The letters and the attached ROI, notify the external authorities of the violation, its cause(s) and circumstances, the names of the individual(s) responsible for the violation, and the disciplinary action taken.

Figure 3-1. Checklist for Formal Investigations

Initial Phase

- Open formal investigation
- Assign case control number for tracking
- Notify DCFO
- Direct activity to appoint an investigating officer
- Provide appointment memo to the DoD Component
- Name support team
- Conduct in-brief session
- Determine the scope of the investigation
- Consult legal counsel
- Review the results of the Preliminary Review
- Familiarize the team with a legal basis for potential violation
- Consult governing statutes, and regulations
- Meet with staff requesting or reporting investigation
- Compile a list of witnesses and questions
- Make travel arrangements

Phase II

- Examine for physical evidence
 - ✓ Assemble and analyze evidence
 - ✓ Trace and document transactions and funding documents
- Determine the roles and responsibilities of participants and decision-makers at each echelon
 - ✓ Develop a chronology of events
 - ✓ Consult subject matter experts and have them prepare written opinions, as required
 - ✓ Interview witnesses
 - ✓ Determine specific acts or decisions leading to violation
 - ✓ Assign responsibility for making/authorizing violation
- Make an initial assessment of whether anyone appears to have intentionally violated the ADA with knowing and willful intent. If so:
 - ✓ Halt investigation and notify appointing official
 - ✓ Consult with a legal advisor
- Prepare initial draft of findings

Phase III

- Notify proposed responsible officials
 - ✓ Allow two weeks for submission of rebuttal statements
 - ✓ Document delivery of report via email tracking or certified mail
 - ✓ Make a reasonable effort to locate former officials or employees
 - ✓ Provide draft report
- Analyze rebuttals to determine if they necessitate new interviews and follow up on new leads if required
 - ✓ Incorporate salient points from rebuttals in the revised report

Figure 3-1. Checklist for Formal Investigations (continued)

- ✓ Insert assessment on the impact of the rebuttal statements, if any, on conclusions
- ✓ Enclose verbatim rebuttals as an enclosure to report

Phase IV

- Engage activities involved to develop corrective actions to reduce the risk of similar violations recurring:
 - ✓ Document corrective actions that have already been put in place
 - ✓ Quantify enhanced controls being implemented
 - ✓ Obtain a listing of planned corrective actions and milestones
- Incorporate lessons learned and corrective actions in the report
- Finalize Formal Report
- Obtain legal review

Phase V

- Appointing official verifies the following information before endorsement and release:
 - ✓ Is a copy of the investigating officer's appointment memorandum included in the report?
 - ✓ Does the report include the case control number, title of the appropriation/fund involved, Treasury symbol, amount, date of occurrence, date discovered, a description of how the potential violation was identified, the name and title of the investigating officer, the dates, place, and scope of the investigation?
 - ✓ Is the evidence clearly documented in the report and is the evidence relevant to the case?
 - ✓ Does the evidence appear to be complete or are significant factors missing that should be considered? Do there appear to be relevant unanswered questions?
 - ✓ Are the findings clearly stated, logical, supported by the evidence, and relevant to the case?
 - ✓ Is each finding that is based upon testimony properly cross-referenced to the testimony?
 - ✓ Are the findings and conclusions fully substantiated by the evidence and testimony?
 - ✓ Were all conflicts in testimony addressed in the report?
 - ✓ Does the report include a clear description of the causes and circumstances surrounding the violation?
- Transmit report to DoD Component

Final Phase

- DoD Component reviews report
- DoD Component initiates the summary report
- Coordinate with counsel
- DCFO review of report
- Obtain an Advance Decision
- Complete Investigation – Insert discipline imposed into the report.
- Send notification letters to external authorities
- Complete closure

Figure 3-2. Template for Initial Reports

Activity/command Letterhead

Initial Memorandum

MEMORANDUM FOR (DoD Component)

SUBJECT: Alleged Antideficiency Act Violation (Location and Subject Matter)

1. Reference: DOD Financial Management Regulation, Volume 14, Chapter 3.
2. In accordance with [the reference](#), [the initial](#) report of an alleged Antideficiency Act Violation (ADA) follows:
 - a. Accounting classification of funds allegedly misused:
 - b. Name and location of the activity where the alleged violation occurred:
 - c. Name and location of the activity issuing the fund authorization:
 - d. Amount of fund authorization or limitation that was allegedly exceeded:
 - e. Amount and nature of the alleged violation:
 - f. Date the alleged violation occurred:
 - g. Date of Discovery:
 - h. Means of Discovery:
 - i. Description:

Signature Block of
Activity/commanding Officer or
Head of Activity

Figure 3-3. Template for Appointment Orders

Investigating Officer Appointment

MEMORANDUM FOR (Investigating Officer's Name)

SUBJECT: Appointment as Investigating Officer, Case Number.

1. References:

- a. Department of Defense (DoD) Financial Management Regulation Volume 14, Chapter 3.
- b. Cite Initial Report.

2. You are hereby appointed as **an** investigating officer to conduct a preliminary review/formal investigation of a potential Antideficiency Act (ADA) Violation **that** allegedly occurred at (location or activity) in Fiscal Year xx.

3. I certify you have received qualifying fiscal law training within the previous three years and are qualified to perform this investigation. You are free of any known conflicts of interest and able to perform an independent review. You will be assisted by (names of legal advisor and support team subject matter experts).

4. A report detailing the results of your preliminary review/formal investigation will be submitted no later than (suspense date). Your report must include the facts surrounding the alleged violations and include a legal review, which supports the conclusion an ADA violation did or did not occur.

5. Provide any additional instructions to the investigating officer.

6. The point of contact for this report is xxx, who can be reached at (phone), or (email)

Signature Block of Appointing Official

Figure 3-4. Template for Preliminary Review

Preliminary Review

DEPARTMENT OF THE XXX
REPORT OF ANTIDEFICIENCY ACT VIOLATION
Name of Component/Agency and Case No.

1. Appropriations(s) Involved/Title, Symbol, and Apportionment Status. Example: Fiscal Year (FY) Operation and Maintenance, Defense-wide (9710100)
2. Where Violation Occurred.
3. Name and Location of Activity Issuing the Fund Authorization.
4. Amount of Violation.
5. Date Violation Occurred.
6. Type of Violation(s). Provide 31, U.S.C., section violated and a brief description of the violation and state whether the violation was an over-obligation of an appropriation, an apportionment, or an allotment. Example: 1341(a)(1)(A), exceeded the amount available in appropriation or fund.
7. Effect of Violation on the Next Higher Level of Funding. State whether the violation affected the next higher level of funding.
8. Date and Description of How Violation Was Discovered. Provide the date and who/how the violation was discovered.
9. Causes and Circumstances Surrounding the Violation. Provide a detailed description of the violation. Include the following:
 - a. A detailed summary of what caused the violation and the associated circumstances; what actions should have been, but were not, taken by specific individuals; what actions were taken that should not have been taken; and why the violation happened.
 - b. The scope of the investigation and the methods used to accomplish the investigation, for example, face-to-face interviews; research of legal, financial, and management issues; and written explanation of the facts of the potential violation. Discuss the evolution of the issues investigated, number of people interviewed, mitigating circumstances surrounding the violation, issues that could or could not be proven during the investigation and the supporting rationale, any issues that cannot be agreed upon by those individuals involved, and any other comments that are pertinent to the investigation.

Figure 3-4. Template for Preliminary Review (continued)

c. If the investigation has been undertaken because of an audit report, then identify that report by title, number, date, and issuing audit organization. If the investigation was conducted **because of** a memorandum or letter directing an investigation, then reference that document and attach a copy to the report.

10. Conclusion. Summarize your findings in a paragraph to support your conclusion that a violation has occurred or that a violation did not occur.

11. Additional Information. Provide details not covered above.

Figure 3-5. Template for Formal Report

DOD COMPONENT OR AGENCY

REPORT OF ANTIDEFICIENCY ACT VIOLATION INVESTIGATION

Name of Component/Agency and Case No.

1. Appropriation(s) Allegedly Exceeded.

Treasury Symbol or Fund Account, and Apportionment Status. Example: Fiscal Year (FY) Operation and Maintenance, Defense-wide (97 20102010 0100)

2. Where Violation(s) Occurred.

3. Name and Location of Activity Issuing the Fund Authorization.

4. Amount of Violation.

Provide total and breakdown, if applicable.

5. Date Violation(s) Occurred.

6. Type of Violation(s).

Provide the section(s) of title 31, U.S.C. that was violated. For example, 31, U.S.C. §§ [1341\(a\)\(1\)\(A\)](#), [1342](#) or [1517\(a\)\(2\)](#).

7. Effect of Violation(s) on the Next Higher Level of Funding.

State whether the violation(s) **influenced** the next higher level of funding.

a. Exceeding an administrative subdivision at the local level can lead to the next higher level exceeding its subdivision of funds and to the DoD Component's apportionment and appropriation being exceeded.

b. For instance, if an installation exceeded an amount in operating budget authority or an allotment, did this cause the higher activity/command operating budget authority or allocation to also be exceeded? If the higher activity/command operating budget authority or allocation is exceeded, also state why the DoD/Component apportionment or appropriation was also exceeded.

8. Name and Position of Responsible Individual(s).

a. If a violation(s) involves a centrally managed allotment, then the head of the operating agency at the time the violation was incurred must be named responsible.

b. Include **the** position description of the proposed responsible official as **a** backup to the report.

Figure 3-5. Template for Formal Report (continued)

9. Signed Statement(s) of Responsible Individual(s).

State whether a statement(s) was received from the individual(s). If so, enclose the verbatim statement. The ADA report must summarize salient points of the proposed responsible official's statements and an evaluation of their relevance by the investigating officer. The introduction of new witnesses and new evidence in the rebuttal statements must be addressed. Each individual named responsible for the violation(s) must be given the opportunity to state any circumstances believed to be extenuating. If the proposed responsible official could not be located or refused to provide a statement, the report must detail measures taken to contact them and solicit a response. The individual(s) found responsible for the alleged violation must be:

- a. Allowed to consult with legal counsel.
- b. Advised that a violation(s) has been determined to have occurred, and that he or she is named a responsible individual for the violation(s) and must be allowed to review the report and examine evidence on which the determination was based.
- c. Allowed to submit a sworn or unsworn statement regarding the alleged violation(s) after reviewing the report and evidence.
- d. The report must include an evaluation of any facts or circumstances and the effects on the report when the statement of the responsible officer(s) or individual(s) differs from the report itself. If the statement has no effect on the report, state the reason(s) why. Material changes in findings as they relate to the role of the proposed responsible official must be stated with the proposed responsible official a final time.

10. Date(s) and Description of How Violation(s) Was Discovered.

Provide date(s) and who/how violation(s) was discovered.

11. Causes and Circumstances Surrounding the Violation(s).

Provide a detailed description of the violation(s). Include the following:

- a. A brief, clear description of the causes and circumstances surrounding the violation(s); what caused the violation(s) and the associated circumstances; what actions should have been, but were not, taken by a specific individual(s); what actions were taken that should not have been taken, but were; and why the violation(s) happened. The description must state clearly, what the individual(s) responsible for the violation(s) did, or failed to do, that caused the violation(s). State whether the violation(s) was due to careless disregard of instructions; an error; a lack of adequate training, procedures, or controls; or due to other reasons. The report must not be so brief that it does not clearly convey the essential facts and circumstances of what happened.

Figure 3-5. Template for Formal Report (continued)

- Clearly state in sufficient detail what happened. If the violation(s) involved an appropriation with a negative balance, then state whether the cause of the negative balance was systemic or a unique situation.
- b. The scope of the investigation and the methods used to accomplish the investigation, for example, face-to-face interviews; research of legal, financial, and management issues; and written explanation of the facts of the potential violation. Discuss the evolution of the issues investigated, number of people interviewed, mitigating circumstances surrounding the violation(s), issues that could or could not be proven during the investigation and the supporting rationale, any issues that cannot be agreed upon by those individuals involved, and any other comments that are pertinent to the investigation.
 - c. Results of interviews of individuals involved in the violation(s) and a summary of how the area(s) procedures and processes operated that were involved in the investigation. Discuss the issues and the areas or functions that were reviewed, evaluated, and investigated; the names, ranks, and titles of the individuals that were interviewed; and a discussion on any related areas and matters that were not investigated and the rationale for omitting them from the investigation.
 - d. If the investigation has been undertaken because of an audit report, then identify that report by title, number, date, and issuing audit organization. If the investigation was conducted **because of** a memorandum or letter directing an investigation, then reference that document and attach a copy to the report. To ensure all essential items are discussed, use the results of the checklist Figure 3-1.

12. Evidence of Willful Intent to Violate.

State whether the ADA was knowingly and willfully violated. If the violation was willfully committed, was the case referred to appropriate criminal investigators? If criminal investigators or **the** Department of Justice declined to pursue the case, clearly state the outcome.

13. Disciplinary Action Taken.

This section is not used by the investigating officer and **must** have a statement that discipline will be implemented only after DCFO review.

The DoD Component will complete this section only after discipline is implemented and documented.

Figure 3-5. Template for Formal Report (continued)

14. Corrective Action Taken.

State what procedural actions were taken and completed to preclude violations from happening in the future. This must include a description of specific action(s) taken to correct the violation. State what funds were used to make necessary accounting corrections, such as appropriation, title, and fiscal year. Include any procedural changes or new safeguards established to prevent the recurrence of the same type of violation. Describe actions in detail so that the adequacy of the corrective action(s) may be evaluated. This includes improvement of overall and specific policies, procedures, and processes used by the functional areas involved in the violation; revised statutes or regulatory guidance that may have been involved; established or improved internal procedures; and assurance that a similar violation will not occur in the future. Reference documentation of corrective actions in an enclosure.

15. Administrative Control of Funds.

Name and position of the holder of the funds and an evaluation of whether their exercise of fund control responsibilities contributed to the violation.

16. Component or Agency Coordination.

State steps taken to coordinate the report with the other components or agencies involved (if applicable).

17. Additional Information.

If applicable.

Figure 3-6. Template for Discipline Confirmation

OFFICE SYMBOL

MEMORANDUM FOR DoD Component

SUBJECT: Disciplinary Action imposed on Mr./Ms. _____, Antideficiency Act Violation Case XX-XX

1. An ADA violation occurred when Mr./Ms. _____, while assigned to (activity or installation) issued/authorized _____. This resulted in an uncorrectable violation of the Antideficiency Act.
2. I understand that (a) an Antideficiency Act violation is a violation of Federal statute; (b) Antideficiency Act violations constitute a misuse of DoD funds even though the misuse may not have been knowing or willful, and despite whether the disciplinary officer considers the misuse harmful to DoD, the Military Department or Service, or to the Defense Agency; (c) the Department is required to report the violation to the President (via the Director, Office of Management and Budget), the U.S. Congress, and to the Government Accountability Office; (d) an unwilful or unintentional violation does not justify a decision to not administer disciplinary action; and (e) disciplinary action must be commensurate with the severity of the violation, and factors leading to the violation or its resolution may be considered.
3. As identified in the formal investigation, Mr./Ms. _____ is an individual primarily responsible for this violation. Mr./Ms. _____ caused an uncorrectable violation of the ADA when he/she (state specific actions). As the officer charged with imposing discipline in this case, I issued (state actions) to Mr./Ms. _____. While I considered _____, I have determined that _____ is appropriate for the following reasons: _____. No further discipline against Mr./Ms. _____ will be taken.
4. My point of contact for this action is xxx who can be reached at (xxx) xxx-xxxx, email: xxx.

Signed
Disciplinary Officer

VOLUME 15, CHAPTER 1: “GENERAL INFORMATION”**SUMMARY OF MAJOR CHANGES**

Changes are identified in this table and also denoted by [blue font](#).

Substantive revisions are denoted by an asterisk (*) symbol preceding the section, paragraph, table, or figure that includes the revision.

Unless otherwise noted, chapters referenced are contained in this volume.

Hyperlinks are denoted by [bold, italic, blue, and underlined font](#).

The previous version dated [September 2021](#) is archived.

PARAGRAPH	EXPLANATION OF CHANGE/REVISION	PURPOSE
All	Updated hyperlinks and formatting to comply with current administrative instructions.	Revision
1.1.3	Removed reference to Building Partner Capacity (BPC) program administration within the Foreign Military Sales (FMS) Trust Fund and the Economy Act as the legal authority.	Deletion
2.2.2	Added clarification that excess or residual funds from the sale of defense articles not intended to be replaced, executed under the authority of Section 21 of the Arms Control Export Act, are to be credited to the Special Defense Acquisition Fund (SDAF). Funds collected from transfers pursuant to Title 10 or Title 22 BPC authorities should be deposited into Miscellaneous Receipts.	Addition
Table 1-1	Updated and renamed Miscellaneous Receipts to Prior SDAF Account Crosswalk pursuant to Defense Security Cooperation Agency (DSCA) Memorandum “Offsetting Collection Vouchers to the SDAF, DSCA Policy 21-49,” dated September, 29, 2021.	Revision
Table 1-2	Added Miscellaneous Receipts to SDAF Account Crosswalk with Standard Financial Information Structure Attributes, pursuant to DSCA Memorandum “Offsetting Collection Vouchers to the SDAF, DSCA Policy 21-49,” dated September, 29, 2021.	Addition
Table 1-4	Added table of “Accounting Classification Codes of the FMS Administrative Fund” consistent with Office of the Under Secretary of Defense (Comptroller) (OUSD(C)) Memorandum, “Improved Sub-Allocation Holder Identifier Management Process,” January 22, 2018.	Addition

CHAPTER 1

GENERAL INFORMATION

1.0 GENERAL

1.1 Overview

1.1.1. Security Cooperation (SC). SC, which includes DoD-administered Security Assistance (SA) programs and international armaments cooperation, is undertaken to achieve specific ends in support of defense and national security strategy, rather than serving as an end unto itself. SC will be used to develop allied and partner defense and security capabilities and capacity for self-defense and multinational operations, provide the U.S. forces with peacetime and contingency access to host nations, build defense relationships that promote specific U.S. security interests, and take other actions in support of U.S. objectives. Abbreviations and acronyms commonly used in SC policies can be found in the Defense Security Cooperation Agency ([DSCA](#)) [5105.38-M](#), “Security Assistance Management Manual” (SAMM), “[ESAMM Acronyms](#),” and in Appendix 7, “Case Reconciliation and Closure Guide” ([RCG](#)). Commonly used definitions can be found in the SAMM, “[ESAMM Glossary](#),” and in Appendix 7, RCG, “[RCG Definitions](#).” See [DoD Directive 5132.03](#), “DoD Policy and Responsibilities Relating to Security Cooperation,” for more detailed information.

1.1.2. SA. SA refers to a group of programs authorized by Title 22, U.S. Code (U.S.C.), [Foreign Relations and Intercourse](#), or other legal authorities under which the United States provides defense articles, military training, and other defense-related services by grant, loan, credit, cash sales, or lease, in furtherance of national policies and objectives. DoD does not administer all SA programs. Those SA programs administered by DoD are a subset of SC. The SAMM provides guidance on the major programs DoD administers:

- 1.1.2.1. Foreign Military Sales (FMS),
- 1.1.2.2. Foreign Military Construction Services,
- 1.1.2.3. Foreign Military Financing,
- 1.1.2.4. Leases,
- 1.1.2.5. Military Assistance,
- 1.1.2.6. International Military Education and Training (IMET),
- 1.1.2.7. Drawdowns and Special Presidential Waiver Authority, and
- 1.1.2.8. Special Defense Acquisition Fund (SDAF).

* 1.1.3. Building Partner Capacity (BPC) Programs. BPC programs refer to SC and SA activities funded with U.S. Government (USG) appropriations. When executing BPC programs, DoD may enter into agreements for provision of defense articles and/or services to other USG departments and agencies for the purpose of:

1.1.3.1. Building the capacity of partner nation security forces and enhancing their capability to conduct counterterrorism operations, counter-weapons of mass destruction operations, counter-illicit drug trafficking operations, counter-transnational organized crime operations, maritime and border security operations, military intelligence operations, and operations or activities that contribute to an international coalition operation that is determined by the Secretary to be in the national interest of the United States per [10 U.S.C. § 333](#), Foreign security forces: authority to build capacity; or

1.1.3.2. Supporting U.S. Military and stability operations, multilateral peace operations, and other programs. See [SAMM, Chapter 15](#), “Building Partner Capacity Programs,” for a detailed discussion of BPC programs.

1.2 Purpose

The purpose of this chapter is to provide DoD accounting policy for SC transactions to ensure compliance with all requirements for the administrative control of SC programs. [In addition to established accounting policy, as defined elsewhere in existing law and regulation](#), SC transactions must follow DoD accounting policy in Volume 15, unless specifically exempt. Proposed changes must be submitted to the Defense Finance and Accounting Service (DFAS) Accounting [and Finance Policy Directorate](#) as soon as practical for consideration. However, DoD Components must [first](#) submit proposed changes through the DSCA [Office](#) of Business Operations. All proposed chapter updates [must](#) be submitted to the appropriate approving authority, and if approved, will be incorporated into the DoD Financial Management Regulation as soon as possible.

1.3 Authoritative Guidance

SA authorities include the [Arms Export Control Act \(AECA\)](#) (Public Law 90-629), codified as [22 U.S.C., Chapter 39](#), and the Foreign Assistance Act ([FAA](#)) (Public Law 87-195), as amended, codified as [22 U.S.C., Chapter 32](#) and [10 U.S.C., Chapter 16](#).

2.0 ACCOUNTS OF THE U.S. DEPARTMENT OF TREASURY (TREASURY)

The Foreign Affairs/Foreign Relations Committees of the Congress (rather than the Armed Services Committees) authorize SA funds. The Executive Branch, Office of the President, identified by Treasury Index (TI) 11, receives SA funds. Funds and accounts authorized by Acts originating in the Armed Services Committees of the Congress and appropriated to DoD are identified by: TI 97, “Defense Department;” TI 17, “Navy;” TI 21, “Army;” and TI 57, “Air Force.”

2.1 Treasury Accounts Applicable to FMS Trust Fund Operations

Treasury account 11X8242, “Advances, FMS, Funds Appropriated to the President,” is the FMS Trust Fund account used for centrally recording contract authority and collections. Under Section 3 of [Executive Order No. 13637](#), “Administration of Reformed Export Controls,” dated March 2013, responsibility for the execution and administration (e.g., obligations and disbursements) of the FMS Trust Fund was delegated from the Executive Branch, Office of the President, identified by TI 11, to the Secretary of Defense, identified by TI 97. The complete fund cite 97 11X8242, though not required for execution of consolidated financial statements and reports, identifies funds under the control of DoD. Only 11X8242 is reported to the Bureau of Fiscal Service (Fiscal Service) and the Office of Management and Budget. Fiscal Service has established trust fund receipt and expenditure accounts to account for cash collections, budget authority (BA), and cash disbursements resulting from the FMS Program.

2.1.1. Cash Receipts. Cash collected from sales authorized under [22 U.S.C. § 2761](#), [22 U.S.C. §2762](#), [22 U.S.C. §2769](#), and [22 U.S.C. §2796](#) is deposited into Trust Fund Receipt Account 8242.001, “Deposits, Advances, Foreign Military Sales, Executive.” The DFAS Security Cooperation Accounting (SCA) Directorate processes cash collections into this account, including cash transfers from appropriations provided by the USG to finance credit sales under [22 U.S.C. § 2763](#) and the proceeds from guaranteed commercial loans under [22 U.S.C. § 2764](#). Collections must reflect account 8242.001 on DoD reports issued to the Fiscal Service and be listed under “Proprietary Receipts From the Public” in the Fiscal Service system.

2.1.2. BA. The BA resulting from FMS or BPC orders is also recognized in account 97 11X8242. BA is recognized only to the extent it is estimated that orders will be executed within a fiscal year (FY). The portion of the order that cannot be executed is classified as an uncommitted acceptance.

2.1.3. Cash Expenditures. Cash disbursements are made from account 97 11X8242 to contractors when direct cite procedures are used. Intragovernmental payments are made to DoD Components when reimbursable procedures are used for services, items from inventory, and to reimburse for procurements financed by DoD appropriations or other fund accounts.

2.1.4. Miscellaneous Receipts. Amounts recovered from the operation of the FMS programs are deposited into Account 3041, “Recoveries Under the Foreign Military Sales Program, Army, Navy, Air Force, Defense.” [This account](#) includes proceeds from the collection of unfunded civilian pay retirement and benefits, military pay Medicare-Eligible Retiree Health Care accruals, and lease rental payments.

2.2 SDAF

2.2.1. The SDAF, established under the authority of [10 U.S.C. § 114](#), is a DoD-controlled revolving fund used to acquire defense articles and services in anticipation of their sale to eligible foreign countries and international organizations. Pursuant to 10 U.S.C. § 114(c)(1), the SDAF

may not exceed \$3.5 billion. In accordance with [22 U.S.C. § 2795\(c\)](#), the size of the fund includes funds acquired through FMS sales, also known as offsetting collections.

* 2.2.2. Offsetting collections identified in 22 U.S.C. § 2795(b), that were previously collected into the Miscellaneous Receipt account, are now collected and deposited into the SDAF account, 97 11X4116, “Special Defense Acquisition Fund, Funds Appropriated to the President,” by DFAS. Offsetting collections consist of asset use charges; items not requiring replacement; and charges for the proportionate recoupment of nonrecurring research, development, and production costs, excluding charges for FMS leases authorized under 22 U.S.C. § 2796. [Items not requiring replacement are from the sale of defense articles not intended to be replaced under FMS Letters of Offer and Acceptance \(LOA\) that are executed under the authority of section 21 of the AECA. This includes residual or excess funds from the sale of defense articles not intended to be replaced under FMS LOAs. These residual funds are to be transferred to the SDAF account because they cannot be used for their intended purpose of replacing the defense articles sold under the FMS LOA. Funds collected from the transfer of equipment from DoD stock pursuant to Title 10 or Title 22 Building Partner Capacity \(BPC\) authorities are not legally authorized to be deposited into the SDAF. Proceeds from BPC transfers of equipment not intended, or unable to be replaced, should be deposited into Miscellaneous Receipts. Offsetting collections will reside in the parent 11X4116 account for future SDAF procurements; however, the offsetting collections will first be posted as outlined in Table 1-1.](#)

2.2.3. Cash receipts for the anticipated collections, reimbursements, and other income related to the SDAF are collected into the Revolving Fund account “Special Defense Acquisition Fund, Funds Appropriated to the President,” 11X4116. DFAS SCA processes cash collections into account 11X4116, including cash transfers of reimbursements made under the proceeds from the sale or transfer of SDAF procured articles and services.

2.2.4. BA from approved SDAF procurements is recognized in account 97 11 FY/FY 4116. BA exists only for orders that will be executed; i.e., funds obligated before September 30 of the FY when the funds period of availability expires. The portion of the approved SDAF procurements that cannot be obligated must be returned to the Treasury account 11X4116.

2.2.5. Cash disbursements are made from account 97 11 FY/FY 4116 to contractors when direct cite is used and for DSCA approved procurements financed by the SDAF. Expenditures must be consistent with the funding years in which the original funding on the Funding Authorizing Document was provided.

2.2.6. For more information on SDAF, see Chapter 3, Table 3-1, “Cost Elements;” and the [SAMM, Chapter 11.9](#), “Special Defense Acquisition Fund (SDAF).”

2.3 Treasury Accounts Applicable to Credit Sales, Guaranties, and IMET

2.3.1. [Receipt and Utilization of Appropriations](#). The accounts described in subparagraphs [2.3.1.1-2.3.1.6](#) are used to capture the receipt of SA appropriations.

2.3.1.1. Account 11X4121, “Foreign Military Loan Liquidating Account, Funds Appropriated to the President (FMLLA),” is used to record the receipt and use of appropriated funds to finance credit sales under 22 U.S.C. § 2763 and credit sales guaranties for pre-FY 1992 loan obligations under 22 U.S.C. § 2764. FMLLA excess collections are returned to Miscellaneous Receipts account 11R2814, “Other Repayments of Investments and Recoveries.”

2.3.1.2. Account 11 (FY) 1085, “Foreign Military Financing, Direct Loan Program Account, Funds Appropriated to the President,” is used to record the appropriation that subsidizes the estimated long-term cost to the USG of post-FY 1991 foreign military direct loan obligations.

2.3.1.3. Account 11X4122, “Foreign Military Financing, Direct Loan Financing Account, Funds Appropriated to the President,” is used to receive the payments for the subsidy cost from the program account, 11 (FY) 1085, and includes all other cash flows to and from the USG resulting from post-FY 1991 foreign military direct loans. This appropriation is for new loans with original disbursement dates on or after October 1, 1991.

2.3.1.4. Account 11X4174, “Military Debt Reduction Financing Account,” is used to record the rescheduling of loans and to collect loan payments on those loans rescheduled from 11X4121. These loans have pre-FY 1992 original disbursement dates.

2.3.1.5. Account 11 (FY) 1082, “Foreign Military Financing Program, Funds Appropriated to the President,” is used to record the receipt and use of appropriated funds to finance U.S. defense sales to selected foreign friends and allies, primarily through the FMS program. Based on annual appropriations bill language, the funds are considered obligated upon apportionment, are available for expenditure for 5 years, and must remain available for an additional 4 years from the date on which the availability of such funds would otherwise have expired. These funds, transferred to the FMS Trust Fund, are expenditure transfers. BA is transferred from this account to DoD Components to fund administrative expenses of FAA programs (e.g., IMET and End-Use Monitoring).

2.3.1.6. Account 11 (FY) 1081, “International Military Education and Training, Funds Appropriated to the President,” is used to record the receipt and use of appropriated funds for the training of selected foreign military and related civilian personnel in the United States and, in some cases, in overseas U.S. Military facilities.

2.3.2. Cash Collections. The accounts described in subparagraphs [2.3.2.1-2.3.2.3](#) are used to capture collections made from foreign countries because of loans and loan guaranties.

2.3.2.1. Account 11X4121 is used to collect foreign country repayments for outstanding pre-FY 1992 loan obligations. This account is also used to collect loan repayments to DSCA for default payments made by DSCA to the Federal Financing Bank or commercial banks holding pre-FY 1992 loans guaranteed by DSCA.

2.3.2.2. Account 11X4122 is used for collections of foreign country repayments for post-FY 1991 direct loan obligations. This appropriation is used for loans with original disbursement dates on or after October 1, 1991.

2.3.2.3. Account 11X4174 is used to reschedule loans from 11X4121, and 11X4122 is used for countries seeking debt relief. This account is also used to collect the payments from outstanding loans that have been rescheduled.

2.3.3. Security Assistance and International Programs (SAIP) Deposit Account. Account 11X6147, “[Security Assistance and International Programs, Deposit Account](#),” was originally established in 1978 to support the North Atlantic Treaty Organization E-3A Program deposit account. Subsequently, additional activities have used this account for purposes, such as to record collections received from foreign governments to reimburse DoD for goods and services not acquired through the FMS program, or FMS customers to use the Air Force Parts and Repair Ordering System [and Worldwide Warehouse Redistribution System](#) to acquire nonstandard items, and to provide advance funding to support the acquisitions. Beginning in FY21, the SAIP Deposit Account is included in the SA Accounts financial statements.

2.4 Other Treasury Accounts

Other Treasury accounts used in SC include those for BPC cases, Humanitarian Assistance, and Mine Action Programs. For more information on these programs, see the [SAMM, Chapter 11](#), “Special Programs and Services;” [SAMM, Chapter 12](#), “Overseas Humanitarian, Disaster, and Civic Aid (OUDACA);” SAMM, Chapter 15, “Building Partner Capacity Programs;” and [SAMM Table C15.T2](#), “BPC Programs and Authorities.” The Treasury accounts include, but are not limited to:

- 2.4.1. 11 (FY) 1032, “Peacekeeping Operations, Funds Appropriated to the President;”
- 2.4.2. 11X1032, “Peacekeeping Operations, Funds Appropriated to the President;”
- 2.4.3. 11X1041, “Global Security Contingency Fund, International Security Assistance, State;”
- 2.4.4. 11X2724.001, “Foreign Military Financing Program Account, Negative Subsidies;”
- 2.4.5. 11X2724.003, “Foreign Military Financing, Downward Reestimates of Subsidies;”
- 2.4.6. 11X3230, “Special and Trust Fund Proprietary Receipts Returned to the General Fund of the U.S. Treasury;”
- 2.4.7. 21 (FY) 2091, “Afghanistan Security Forces Fund, Army;”
- 2.4.8. 21 (FY) 2097, “Iraq Train and Equip Fund, Army;”
- 2.4.9. 21X2097, “Iraq Train and Equip Fund, Army;”
- 2.4.10. 21 (FY) 2099, “Counter - ISIS Train and Equip Fund, Army;”
- 2.4.11. 21X2099, “Counter - ISIS Train and Equip Fund, Army;”

2.4.12. 97 (FY) 0100, “Operation and Maintenance, Defense-Wide, Defense;”

2.4.13. 97X0100, “Operation and Maintenance, Defense-Wide, Defense;”

2.4.14. 97 (FY) 0819, “Overseas Humanitarian, Disaster, and Civic Aid Defense;” and

2.4.15. 97X0819, “Overseas Humanitarian, Disaster, and Civic Aid, Defense.”

3.0 TYPES OF FINANCING

There are two types of financing associated with the FMS Trust Fund, reimbursable and direct cite. The detailed budgeting and accounting policy for each type is discussed throughout the remainder of Volume 15.

3.1 Reimbursable Financing

Sales under 22 U.S.C. §§ 2761 and 2762, for which the President has determined it is in the National interest to defer payment (bill for defense articles and services on or after delivery), must be accomplished using reimbursable financing. When deferred payment is authorized under 22 U.S.C. § 2761 for 120 days, and for all authorized deferred payments for 22 U.S.C. § 2762 sales, an appropriation is required to finance any outlays until the purchaser makes payment. The appropriation cited must have reimbursable authority.

3.2 Direct Cite Financing

New procurements initiated because of FMS orders under 22 U.S.C. §§ 2762 and 2769 (except as exempted in paragraph 3.1) must be accomplished, to the maximum extent feasible and appropriate, through direct citation of the FMS Trust Fund (97 11X8242 or 97 11X6147) on applicable contractual documents.

3.3 Accounting Classification Codes of the FMS Trust Fund

The agency code signifies the agency name executing FMS Trust Funds within the FMS accounting system. The accounting classification codes of the FMS Case Fund for cases executed within the FMS infrastructure are depicted in Table 1-2. The accounting classification codes of the FMS Administrative Fund for cases executed within the FMS infrastructure are depicted in Table 1-3.

*Table 1-1. Miscellaneous Receipts to Legacy SDAF Account Crosswalk

Organization	Section 51(b) Criteria	Miscellaneous Receipts Account	Prior SDAF Account
Navy	Asset Use Charges	17X3041.1201	97 11X4116.6809
Navy	Items not Requiring Replacement	17X3041.1202	97 11X4116.6808
Navy	Non Recurring Costs	17X3041.1205	97 11X4116.6807
Army	Non Recurring Costs	21X3041.0001	97 11X4116.6807
Army	Non Recurring Costs	21X3041.0002	97 11X4116.6807
Army	Items not Requiring Replacement	21X3041.0003	97 11X4116.6808
Army	Items not Requiring Replacement	21X3041.0004	97 11X4116.6808

CHAPTER 2

FINANCE

1.0 GENERAL

1.1 Purpose

The purpose of this chapter is to provide guidance on Foreign Military Sales (FMS) Trust Fund budget authority (BA), to include FMS Trust Fund obligational authority (OA) for implemented cases, the FMS administrative surcharge budget, and contract administration services (CAS) surcharge budget.

1.2 Authoritative Guidance

The Arms Export Control Act (AECA), Public Law 90-629, as amended, codified as Title 22, United States Code (U.S.C.) Chapter 39 ([22 U.S.C. Chapter 39](#)), provides the authority and general rules for FMS and commercial sales of defense articles and services. Additional specific authorities are in the applicable sections.

2.0 RESPONSIBILITIES

2.1 Defense Security Cooperation Agency (DSCA)

2.1.1. DSCA prepares the annual budget request for the FMS Trust Fund obligational and outlay authority to support the FMS Trust Fund program. DSCA reviews, approves, and distributes funding for the FMS administrative surcharge, Security Cooperation Organizations, Building Partnership Capacity, Special Defense Acquisition Fund (SDAF), and the FMS CAS surcharge accounts.

2.1.2. DSCA is responsible for establishing the annual Safety Level amount to be maintained in the FMS Trust Fund Administrative Surcharge account. The Safety Level amount will represent 18 months of operational funding based on current budget levels. DSCA will establish the Safety Level before the close of the fiscal year (FY) and forward the information to the Defense Finance and Accounting Service (DFAS), Security Cooperation Accounting Directorate (SCA).

2.1.2.1. The 18-month Safety Level is calculated using the amount that may be obligated for expenses pursuant to AECA § 21(e)(1)(A) ([22 U.S.C. § 2761\(e\)\(1\)\(A\)](#)), noted in the “Foreign Military Financing Program” section of the [annual Department of State, Foreign Operations, and Related Programs Appropriations Act](#) for the upcoming FY. The monthly operating amount is calculated by dividing the amount by 12, and then multiplying that amount by 18. For detailed information on the calculation, refer to the DSCA Manual 5105.38-M, “Security Assistance Management Manual” ([SAMM](#)), [C9.15](#).

2.1.2.2. Any changes requiring adjustment of the Safety Level computation methodology will be forwarded to the Office of the Under Secretary of Defense (Comptroller) (OUSD(C)) for review and approval. See Chapter 3, paragraph 4.8.6 for more information on the periodic review and analysis of surcharge accounts.

2.2 Implementing Agency (IA) and Performing Agency

2.2.1. Each implementing and performing agency that prepares data for Letters of Offer and Acceptance (LOAs) must ensure that:

2.2.1.1. [Department of Defense \(DD\) Form 2060](#), FMS Obligational Authority, (or automated equivalent) is created to initiate performance of the case and support Component budget estimates, and

2.2.1.2. Sufficient, anticipated appropriation or fund reimbursable authority is included in the DoD budget.

2.2.2. IAs are responsible for fulfilling FMS Trust Fund orders using these financing techniques:

2.2.2.1. Issuance and acceptance of reimbursable orders into a financing appropriation or Defense Working Capital Fund (DWCF) account,

2.2.2.2. Issuance of allotments of the FMS Trust Fund to performing DoD Components, or

2.2.2.3. Authorization to use the FMS Trust Fund (11X8242, “Advances, Foreign Military Sales, Funds Appropriated to the President”) directly.

2.2.3. IAs must submit FMS administrative and CAS budget requests annually.

2.3 DFAS SCA

DFAS SCA must obtain cash advances from FMS Trust Fund purchasers to liquidate obligations resulting from the use of OA created by the FMS Trust Fund program.

3.0 BA

3.1 General

3.1.1. The DoD BA is the United States' legal financial authority, provided by law, that empowers government agencies to spend federal funds. BA allows DoD to enter into obligations that will result in immediate or future outlays from Federal Government accounts. For Security Cooperation, exercising BA begins with the implementation of the applicable LOA document. Prior to exercising the BA, the IA must prepare and process five forms (or automated equivalents) as applicable:

3.1.1.1. LOA(s),

3.1.1.2. LOA Modifications,

3.1.1.3. LOA Amendments,

3.1.1.4. DD 2060, and

3.1.1.5. DD 2061, FMS Planning Directive (Refer to Figure 2-4).

3.1.2. The implementation of the LOA will occur only after the purchaser has forwarded a signed copy to the IA, with any required initial deposit received by DFAS. Once implemented, IAs will ensure that OA is properly recorded in their accounting system of record. This authority must take place prior to a government agency or department spending money from the budget.

3.1.3. BA requests must be limited to:

3.1.3.1. The total case value for approved LOAs, Amendments, and processed Modifications; or

3.1.3.2. The amount expected to be obligated in the current FY.

3.1.4. At the end of each FY, DFAS reduces unused BA or OA. Following the year-end accounting closing entries, reversal entries restore BA values for the new FY.

3.1.5. BA for FMS case lines, with the exception of contingency and Small Case Management Lines, is distributed to IAs. BA for the below-the-line surcharges (FMS administrative surcharge and packing, crating, handling, and transportation (PCH&T)) are not distributed to IAs.

3.2 Source Documents

3.2.1. LOA. The LOA is the basic source document for an FMS case. The LOA does not in itself create BA in either the FMS Trust Fund or in a DoD appropriation or fund account;

however, it is required for establishing BA. See Figure 2-1 for a sample LOA; instructions for preparing LOAs are contained in [SAMM, C5.4](#).

3.2.2. Amendment to an LOA. An Amendment is designed to obtain FMS Trust Fund purchaser acceptance of a change in LOA scope when the original purpose of a case line or note changes. Amendments are used to alter the original LOA and provide the basis to change FMS Trust Fund BA, when applicable. See Volume 3, Chapter 8, paragraph 3.6 for additional information on determining scope of work changes to associated contracts. See Figure 2-2 for a sample Amendment; instructions for preparing an Amendment are in [SAMM, C6.7](#).

3.2.3. Modification to an LOA. A Modification is a notification document to alert FMS Trust Fund purchasers of within-scope cost increases, cost decreases, or other minor changes to the program. Modifications are used to alter the original LOA and provide the basis to change FMS Trust Fund BA, when applicable. See Volume 3, Chapter 8, paragraph 3.6 for additional information on determining scope of work changes to associated contracts. See Figure 2-3 for a sample Modification; instructions for preparing a Modification are in SAMM, C6.7.

3.2.4. FMS Planning Directive (DD 2061). The installation preparing the LOA data for the IA prepares and maintains a Planning Directive. See Figure 2-4 for a sample DD 2061; instructions for completing the DD 2061 are in Table 2-1. The DD 2061, or the automated equivalent, is a working paper that serves three major purposes:

3.2.4.1. It provides identification of the cost elements included in prices reflected on the LOA and helps assure the case is priced in accordance with DoD pricing policies in Chapter 7;

3.2.4.2. It provides a time-phased plan for execution of the case upon FMS purchaser acceptance and implementation; and

3.2.4.3. It identifies the appropriations or funds that will be used to finance the LOA.

3.2.5. OA Request. An OA Request is prepared based on the Planning Directive.

3.2.5.1. Part A is prepared at the FMS case-line level and is the basis for line-level control of OA. Part B identifies the appropriations or funds that have been or will be used to finance the lines reflected in Part A.

3.2.5.2. The OA Request may be prepared for an individual case or for multiple cases.

3.2.5.3. The OA Request is also used to convey the FMS CAS surcharge OA (see section 5.0).

3.2.5.4. See Figure 2-5 for a sample DD 2060; instructions for completing the form are in Table 2-2.

3.3 Recognition of OA by the FMS Trust Fund

3.3.1. Establishment of FMS Trust Fund OA. To establish OA, FMS Trust Fund purchasers must return all accepted LOAs, Amendments, and processed Modifications to the IA. IAs will create and submit an automated OA request through the Defense Integrated Financial System (DIFS). Upon successful processing in DIFS, the IA will receive an automated acknowledgement of receipt and approval of the OA request.

3.3.2. Trust Fund Direct Citation. The OA Request must be used to request commitment/OA for direct citation of the FMS Trust Fund. The OA Request is used as a control device, and commitments/obligations must be limited to the dollar value of the approved OA Request.

3.4 Recognition of FMS Reimbursable OA in DoD Appropriation or Fund Accounts

3.4.1. Trust Fund Orders for Reimbursable Orders

3.4.1.1. The LOA, Amendment, or Modification does not represent a reimbursable order to the performing DoD Components. The approved OA Request is the reimbursable order. The OA Request includes the reimbursable portion of the order that may be credited to appropriations by a DoD Component for each line within a case for a FY. The OA amount for each line within a case cannot be exceeded. Reporting violations of this administrative limitation will follow the guidance in Chapter 3 and Volume 14.

3.4.1.2. The applicable DoD appropriation or fund accounting system must maintain an audit trail between the applicable OA Request and the appropriation or fund accounting records. Performance within the financing appropriation or fund account will be controlled in accordance with the accounting system established for that particular appropriation or fund account. Appropriation or DWCF bills for earned reimbursements must be processed in accordance with Volumes 11A and 11B.

3.4.1.3. The FMS case management system is not intended to track the financial status, or obligation, while reimbursable performance is in process. The status of specific purchaser requisitions can be obtained through logistical system inquiries. Applicable logistics status reports are provided to case managers and FMS purchasers, and are not to be confused with financial status reports.

3.4.1.4. DoD Components that are not IAs, but support the FMS program in response to IA work requests, must carefully review applicable work requests to determine the financing source. If the financing source is an IA appropriation account, the request must be recorded and processed as an internal DoD order. If the recipient is a sub-allotment holder, the required allotment status report must be provided to the allotment holder and consolidated into the DoD Status-of-Allotment report to DFAS, as discussed in Chapter 3.

3.4.2. Apportionment for Reimbursable Orders

3.4.2.1. When authority to accept reimbursable orders is subject to apportionment, obligations on a reimbursable program may not exceed the apportioned amounts of anticipated reimbursement. Reimbursable OA may be recognized up to the apportioned amount to the extent the FMS Trust Fund purchaser has advanced necessary cash under subparagraph 3.3.1, or has orders charged to appropriated funds. Reimbursable orders in excess of apportionment are not available for obligation; an additional apportionment of anticipated reimbursable orders needs to be requested and received through the reapportionment process.

3.4.2.2. Apportionments and reapportionments for reimbursable programs must be requested by appropriation account and FY. An appropriation that is available for obligation for more than one year requires an apportionment for anticipated reimbursable orders in the first year of availability. That apportionment must be reduced to the value of orders actually received in the first year. In the subsequent years of availability, a reapportionment for anticipated reimbursable orders is required to accept the purchaser's orders that fund within-scope price increases. The reapportionment request for anticipated reimbursable orders in the final year of availability is especially critical because any unused amounts in the reapportionment are automatically available for acceptance of additional reimbursable orders necessary to fund within-scope price increases after the appropriation has lapsed.

3.4.2.3. Receipt of an apportionment, or reapportionment for anticipated reimbursable orders, does not constitute authority to incur obligations. The actual purchaser's orders must be received and recorded in appropriation accounting records before applicable BA may be used.

3.5 Contract Authority

3.5.1. Contract authority is the statutory authority to incur obligations with liquidation of obligations dependent on a future act, such as receipt of an appropriation. Implemented FMS documents, along with the OA Request, create contract authority. New contract authority reported in the [*Standard Form 133*](#), Report on Budget Execution, is the value of FMS cases accepted for performance during the current FY for which OA has been approved in accordance with the requirements of paragraph 3.3.

3.5.2. Funds appropriated by Congress for defense purposes cannot be used to liquidate obligations resulting from the use of FMS contract authority, unless specifically allowed in appropriation acts or supplemental funding bills. FMS purchaser cash deposits liquidate these obligations and unfunded contract authority. Below departmental level, contract authority loses its unfunded identity and is treated in the same way as other budgetary resources available for obligation. See [*22 U.S.C. § 2762*](#) for more information on procurement for cash sales.

3.5.3. Procurements for FMS purchasers are accomplished by citing the FMS Trust Fund in applicable documents. Accordingly, accounting for commitments, obligations, and accrued expenditures in the FMS Trust Fund is accomplished as a direct fund cite.

3.6 BA for FMS Administrative Expenses

The cumulative BA available in the current FY is composed of actual collections for FMS administrative expenses (including the FMS administrative charges and logistics support charges), less any prior allotments of such amounts and the amount to be reserved for future administrative expenses (i.e., the Safety Level). In no event should the annual allotment be higher than the limitation imposed in the annual Department of State, Foreign Operations, and Related Programs Appropriations Acts, unless otherwise approved through the process required by law.

3.7 BA for Cooperative Logistics Supply Support Arrangements (CLSSAs)

Proper recognition and phasing of BA resulting from LOAs written to implement CLSSAs create unique challenges (DoD Instruction [\(DoDI\) 2000.20](#), “Cooperative Logistics Supply Support Arrangements”). Under these arrangements, the purchaser provides for the purchase and sustainment of spare and repair parts in DoD inventory. Once these increments are established, the purchaser is provided supply support with the same responsiveness as is provided to DoD military units within the same Force Activity Designator. The applicable LOAs have three distinct financial subdivisions.

3.7.1. FMS Order (FMSO) I

3.7.1.1. FMSO I, Part A. FMSO I, Part A represents the on-hand inventory level required in the Continental United States (CONUS) to support FMS requisitions to replenish in-country stocks. Normally, the on-hand level represents five months of demand. The cash necessary to establish on-hand inventory accompanies the accepted LOA.

3.7.1.2. FMSO I, Part B. FMSO I, Part B results in recognition of the contract authority necessary to award contracts for pipeline resupply to support FMS purchaser demands.

3.7.1.2.1. The purchaser's requisition is filled from on-hand inventory acquired under FMSO I, Part A. The inventory is then replaced by a delivery of a due-in from a contractor. Purchaser payments under FMSO II (the foreign purchaser's anticipated yearly consumption under CLSSA) provide the cash necessary to pay the contractor and establish new contract authority to award a contract for additional items, thus maintaining quantities in the pipeline.

3.7.1.2.2. Because cash received from FMSO II is used to pay for due-ins, the purchaser is not required to deposit cash in support of FMSO I, Part B. However, billings against the FMSO I, Part B are required if FMSO II demands are below expected levels. FMSO I, Part B normally represents 12 months of demand or the procurement lead-time, whichever is greater.

3.7.1.3. BA. The FMSO I case exists for the duration of the CLSSA and is modified only if the quantity of the end items to be supported changes or FMSO consumption patterns differ from expectations. The reimbursable BA resulting from acceptance of the FMSO I is credited to financing appropriations current at the time the contracts are awarded to increase on-hand and on-order quantities.

3.7.2. FMSO II

FMSO II is the consumption case. FMSO II does not create BA for re-procurement until applicable requisitions are received (earned reimbursements) and purchaser cash is deposited in the financing appropriation account (collected). Upon shipment and collection, additional BA is recognized to maintain the pipeline created by FMSO I, Part B. FMSO II BA is credited to appropriations current at the time material is released from inventory in response to FMSO II requisitions.

4.0 PLANNING DIRECTIVES AND OA REQUESTS

4.1 General

Planning Directives and OA Requests are required for all new cases that have been submitted to FMS Trust Fund purchasers for acceptance and for all cases in the process of implementation. The Planning Directive and OA Request must initially be developed when the LOA data is prepared. The OA Request must be included with the LOA package. The IA must retain the Planning Directive as backup for the LOA package.

4.1.1. The Planning Directive reflects detailed pricing elements, planned financing appropriations (or direct citation), the amount of OA required for the current year, and an estimate of OA for the budget year. The initial Planning Directive may contain abbreviated financial analysis data. However, as execution begins, the Planning Directive must be expanded to encompass all required cost elements and data.

4.1.2. Activities furnishing articles or services to fulfill case requirements must provide the case manager the necessary data to accomplish his or her responsibilities. The case manager must ensure that all applicable charges for the proportionate recoupment of nonrecurring research, development, and production costs (see Chapter 7) are included in the LOA package and identified for reimbursement to the SDAF in the OA Request.

4.1.3. Planning Directives and OA Requests must be prepared for each case and must also be prepared:

4.1.3.1. In support of requests for Amendments and Modifications reflecting financial impact;

4.1.3.2. In support of price changes of less than 10 percent of the estimated cost of articles and services (utilizing the most recently approved document);

4.1.3.3. In support of variations of more than \$100,000 between reimbursable accounts or between direct cite and reimbursable accounts discovered subsequent to case implementation;

4.1.3.4. In support of changes in current year OA requirements within the net case value as reflected on the most recently approved Planning Directive and OA Request; and

4.1.3.5. As necessary, to ensure adequate OA is available in the budget year before commencement of that year.

4.2 Preparation of Planning Directives and OA Requests

Guidance for completing a Planning Directive using DD 2061 is in Table 2-1. Guidance for completing an OA Request using DD 2060 is in Table 2-2. All Planning Directives and OA Requests are cumulative. Therefore, case managers must maintain an audit trail that will relate each to its predecessor.

4.2.1. To ensure control over the flow of documentation, the case manager must assign and maintain a system of control numbers. The control numbers are composed of the FMS Trust Fund purchaser country code, case designator, Julian date, and serial number (e.g., BN-BLX-08181 08).

4.2.2. All amounts on Planning Directives and OA Requests must be in U.S. currency.

4.2.3. Case managers must scrutinize financial performance on a continuing basis to ensure the availability of sufficient OA for both the current FY and case completion.

4.2.4. Each case manager preparing the year-end OA Request must identify the OA requirements through the end of the upcoming FY. If the sum of the budget-year, current-year, and prior-year requirements exceed the case value, then the case manager must initiate action for the processing of a case Amendment or Modification, as appropriate.

4.2.5. The various pricing elements and related appropriations and funds required to prepare Planning Directives and OA Requests are maintained in DIFS by DSCA.

5.0 OA REQUESTS FOR BUDGETED FMS CAS COSTS AND FUNDS REIMBURSED BY THE FMS CAS SURCHARGE ACCOUNT

5.1 FMS CAS Surcharge Budget

DoD Components will develop and submit an annual FMS CAS Budget request to the DSCA Comptroller by August 10 of each year. These estimates must support only FMS CAS-related efforts as outlined in the Federal Acquisition Regulation ([FAR Part 31](#)) and the [Defense FAR Supplement, subpart 225.7303](#). As such, these estimates cannot include FMS CAS-related efforts that are not charged in whole or in part under [22 U.S.C. § 2761](#). This includes individual reciprocal countries' agreements processed by the Under Secretary of Defense (USD) for Research and Engineering and USD for Acquisition and Sustainment; CAS waivers for North Atlantic Treaty Organization (NATO) and NATO Cooperative Projects; CAS waivers applicable to other special projects; and FMS CAS work excluded by specific Public Laws. For more information concerning items excluded from FMS CAS Budget estimates, see Chapters 7 and 8, and [SAMM, C9.6](#).

5.1.1. The FMS CAS Budget request must specify the amount of anticipated FMS CAS work that will be performed and needs to be reimbursed for that particular FY. An OA Request must accompany the budget request with anticipated FMS CAS costs, to include the projected unfunded civilian retirement (UCR) costs and associated salary and retirement costs for military personnel performing full-time FMS CAS. The DoD reimbursable rates are computed annually (see Volume 11A, Chapter 6) and approved and released by OUSD(C) (see [DoD Reimbursable Rates](#)).

5.1.2. The OA Request must reflect the total amount of reimbursements that are expected to be performed for that FY and list all appropriations and reflect the estimated amount for each appropriation. The sum of the amounts reflected for each appropriation must equal the requested total and the FMS CAS Budget. The UCR costs are computed on the basic pay only, excluding overtime (see [5 U.S.C. § 8331](#)).

5.1.3. The Defense Contract Management Agency (DCMA) CONUS FMS CAS Budget estimates must be based on a DCMA-established annual command rate as explained in Chapter 8, subparagraph 7.2.3.4. In addition to the budget estimates, DCMA must provide a copy of the Command Rate Report and the Quarterly Functional Workforce Analysis worksheet.

5.1.4. The DCMA Overseas FMS CAS-Budget estimates must be based on actual costs for employees.

5.1.4.1. Such estimates will include all other costs (e.g., equipment, vehicles, or computers) in addition to salaries that are associated with CAS-employees. Budget presentation of employees' cost must be based upon all effort.

5.1.4.2. Follow the Funded Environmental and Morale Leave (FEML) funding guidance issued by OUSD (Personnel and Readiness), [DoDI 1327.06](#), “Leave and Liberty Policy and Procedures.” Employees who are provided Environmental and Morale Leave (EML) travel as assistance-in-kind (AIK) by the host government may not also travel on FMS CAS-funded FEML in the same year. Under no circumstances may the combination of FMS CAS-funded FEML and AIK-EML exceed one trip per year. The travel on AIK tickets must not be augmented with further tickets or travel that is FMS CAS-funded.

5.1.4.3. The estimates for the part-time employees will include only actual work performed (costs relating to salaries), UCR rate computed on salaries, and overseas temporary duty costs.

5.2 FMS CAS OA Requests

Before FMS CAS surcharge costs may be incurred, the DoD Component must establish a reimbursable order in the financing appropriation that will initially pay the actual cost of such services. The OA Request must list the appropriations and anticipated reimbursements to each appropriation.

5.2.1. The initial approved OA Request must represent the reimbursable order to perform FMS CAS work on FMS cases. If it is suspected that the OA Request is no longer valid, and the OA amount needs either to be increased or decreased, then an updated OA Request must be forwarded with a cover letter to the DSCA Comptroller explaining the need for the OA change.

5.2.2. At year-end, the annual OA Request must be updated to reflect the September 30 end-of-year obligated position. New obligations are not authorized after September 30 of the closing FY.

5.2.2.1. The “Final FMS OA” documents must show the actual cost incurred by each appropriation, including the UCR costs and [Medicare-Eligible Retiree Healthcare accruals](#) that are deposited in Miscellaneous Receipts Account 3041 (see 5 U.S.C. § 8331(3) and [Office of Management and Budget Circular A-11](#), section 20.5), the military pay accounts for military personnel costs associated with salary, the [Defense Health Program account \(97*0130\) for military personnel and their dependents medical healthcare costs](#), and retirement for full-time FMS CAS employees. The U.S. Treasury accounting symbols are listed in the “Federal Account Symbols and Titles: [The FAST Book](#).”

5.2.2.2. This “Final FMS OA” is the basis for withdrawing OA for all unobligated balances that were recorded under each appropriation for that FY. Prior to the close out of a particular FY and during the subsequent FYs, joint financial reviews will be conducted between the billing agency and DSCA. All adjustments or revisions will be submitted within 30 days following the completion of the review.

5.2.2.3. CONUS FMS OA documents should be forwarded to DSCA on or before December 14 of that year. Overseas “Final FMS OA” documents must be forwarded to DSCA when all costs have been reimbursed and all associated disbursements have been processed.

5.2.3. Revenues to fund FMS CAS expenses are prescribed in Chapter 3, subparagraph 4.5.1.4. The methods for reimbursing the DoD Components for performing FMS CAS are prescribed in Chapter 8, subparagraphs 7.2.1 and 7.2.2.

5.2.4. DoD Components that purchase equipment, vehicles, computers, and other items using the FMS CAS Surcharge Account must establish disposal guidance to ensure compliance with Volume 11A, Chapter 5, to ensure that all funds resulting from the sale or disposal of this equipment are returned to the FMS Trust Fund.

Figure 2-1. LOA

United States of America Letter of Offer and Acceptance (LOA) BN-P-BLX			
Based on BANDEF ltr 2/265 of 10 April 2010			
Pursuant to the Arms Export Control Act, the United States Government (USG) offers to sell to the Embassy of Bandaria Office of the Naval Attaché, 1234 Massachusetts Ave, NW, Washington, DC 29999, the defense <u>articles</u> or defense services (which may include defense design and construction services) collectively referred to as "items", set forth herein, subject to the provisions, terms, and conditions in this LOA.			
This LOA provides for Technical Services for the Standard Missile Program.			
Estimated Cost: \$1,038,000		Initial Deposit: \$273,750	
Terms of Sale:			
Cash Prior to Delivery			
Dependable Undertaking			
This offer expires on 22 July 2010. Unless a request for extension is made by the Purchaser and granted by the USG, the offer will terminate on the expiration date.			
This LOA consists of page 1 through page 9.			
The undersigned are authorized representatives of their Governments and hereby offer and accept, respectively, this LOA:			
IA Reviewed/Approved	30 May 2010 Date	Purchaser Signature	18 July 2010 Date
A.R. Smith Director			
Typed Name and Title		Typed Name and Title

15 Dec 2011	\$127,375	\$910,625
15 Mar 2012	\$127,375	\$1,038,000

Explanation for acronyms and codes, and financial information, may be found in the "Letter of Offer and Acceptance Information."

BN-P-BLX

Figure 2-2. Amendment to LOA

United States of America Amendment 1 to Letter of Offer and Acceptance BN-P-BLX			
Based on BANDEF ltr 2/343 of 12 Aug 2010			
Mail To: Embassy of Bandaria Office of the Naval Attaché, 1234 Massachusetts Ave, NW Washington, DC 29999.			
Pursuant to the Arms Export Control Act, the United States Government (USG) offers to amend the Letter of Offer and Acceptance (LOA) identified above for the purchase of defense articles, defense services, or both. Other provisions, terms, and conditions of the original LOA remain unchanged.			
This Amendment provides for extending Basic LOA Item 001 period of availability. Purchaser request extends period of performance 12 months.			
Basic LOA accepted: 18 July 2010.			
Estimated Cost: \$1,557,000		Due with Amendment Acceptance: \$385,625	
Terms of Sale: Cash Prior to Delivery Dependable Undertaking.			
This offer expires on 5 December 2010. Unless a request for extension is made by the Purchaser and granted by the USG, this offer will terminate on the expiration date.			
This Amendment consists of page 1 through page 3.			
The undersigned are duly authorized representatives of their Governments and hereby respectively offer and accept this Amendment:

Figure 2-3. Modification to LOA

United States of America			
Modification 1 to Letter of Offer and Acceptance			
BN-P-BLX			
Based on cost adjustments due to experience during program execution.			
Mail To: Embassy of Bandaria Office of the Naval Attaché, 1234 Massachusetts Ave, NW Washington, DC 29999.			
Pursuant to the Arms Export Control Act, the United States Government (USG) hereby notifies the Purchaser of Modification of the Letter of Offer and Acceptance (LOA) identified above. All other terms and conditions of the LOA remain unchanged.			
This Modification provides for: Cost adjustments to Amendment Item Number 1 based on experience while executing the program.			
Basic LOA accepted 18 July 2010.			
Estimated Cost: \$1,453,200			
Terms of Sale:			
Cash Prior to Delivery			
Dependable Undertaking			
This Modification consists of page 1 through page 3.			
The undersigned are duly authorized representatives of their Governments and hereby respectively furnish and acknowledge receipt of this Modification:

Table 2-1. DD 2061, “FMS Planning Directive,” Completion Guidance

Line/ Column #	Description	Explanation
1	FMS Case Number BN-P-BLX	Continue from LOAs.
2	Date LOA Submitted to Foreign Government	Obtain from date of LOA.
3	Date Offer Expires	Obtain from offer expiration date of LOA.
4	Date Case Accepted by Foreign Government.	Obtain from acceptance date of LOA.
5	Total Case Value	Must agree with total of Column 14 and “Estimated Total Costs” of LOA.
6	Control Number	Consists of country code, case designator, Julian date (YYDDD), and a two-digit sequential number. Initial DD 2061 will use sequential number 01, with each succeeding submission using 02, 03, 04... The Julian date must agree with the data entered on line 7. Use the format BN-BLX-17212 01.
7	Date Prepared	Date formally prepared. Must agree with Julian date used in control number. Use the format Jul 31, 2017.
8	DoD Component/Case Manager	Enter the DoD Component, followed by the case manager’s name, organization, and DSN phone number, e.g., Navy, J. Smith, Naval Air Systems Command, 222-7890.
9	Case Item Number	This entry must match the entries on the LOA.
10	Item Description	This entry must match the item description on the LOA. Use abbreviated titles. When information is classified, enter “Classified – Refer to LOA.”
11	Quantity	This entry must match the entries on the LOA. Columns 9, 10, and 11 should show no further breakdown than is or will be reflected on the LOA.
12	Pricing Elements	This column will be used to provide breakdown of the cost of the article or service by pricing element using codes maintained in DIFS by DSCA.

Table 2-1. DD 2061, “FMS Planning Directive,” Completion Guidance (Continued)

Line/ Column #	Description	Explanation
13	Financing Appropriation	For each Pricing Element, Column 12, enter the first impacted appropriation (the financing appropriation) for reimbursable actions, or enter “DC” for Direct Citation (for example, when the FMS Trust Fund will be directly cited on obligation documents). More than one appropriation may be entered for some pricing elements. Annual appropriations will reflect the applicable FY.
14	Estimated Cost	Enter the estimated cost (priced in accordance with Chapter 7) for each Column 13, Financing Appropriation. For each item number with multiple entries in Columns 13 and 14, enter “Item No. Costs” in Column 13 after the last entry and the sum (subtotal) of the estimated costs for that item in Column 14. This sum must equal the line item total cost to be reflected on the proposed LOA, Amendment, or Modification. For less than 10% increases, this amount will reflect the adjusted cost of the article or service. For each item number citing a single financing appropriation, the entry in Column 14 should be the cost of the item.
15	Direct Cite/OA received to date (most recent prior FY e.g., FY10 during FY11)	Leave blank if case was not implemented in a prior FY. Enter, by Financing Appropriation in Column 13, the amount of OA issued through the end of the prior FY. Column 15 should be adjusted for withdrawals of unused authority at the end of the previous year.

Table 2-1. DD 2061, “FMS Planning Directive,” Completion Guidance (Continued)

Line/ Column #	Description	Explanation
16	Funding Required to Date (same FY entered in Column 15)	Leave blank if case was not implemented in a prior FY.
16a, 16b, and 16c	Obligations Incurred, Unobligated Commitments, and Items from Stock	Columns 16a, 16b, and 16c provide a horizontal breakdown of amounts entered in Column 16d, “Total.”
16d	Total	Enter, by Financing Appropriation in Column 13, the OA committed through the end of the prior FY.

On successive DD 2061s in the same FY, Columns 15 and 16 are constant and reflect the status by financing appropriation as of September 30 of the prior FY. These entries, in total, must agree with the entries in Columns 7 and 8, respectively, of the annual consolidated DD 2060.

Line/ Column#	Description	Explanation
17	Current FY () Funding Plan	Enter the current FY in the parentheses, e.g., (2011). For a new case in which OA will not be required until a subsequent FY, Column 17 should reflect that subsequent year as the current FY. Enter, by financing appropriation, the current FY OA requirements. On successive DD 2061s, these figures are cumulative.
18	Remaining Program Value	Enter, by financing appropriation, the result of Column 14 minus the “Total” of Column 16 minus Column 17. This entry must not be a negative amount.
19	Budget Year Funding Plan	Enter the FY following the year shown in Column 17. Enter, by financing appropriation, the budget year OA requirements. Amounts shown in Column 19 must not exceed the amounts shown in Column 18.

Table 2-1. DD 2061, “FMS Planning Directive,” Completion Guidance (Continued)

SUBTOTALS: If the DD 2061 is prepared in support of a request for an increase of less than 10%, then enter subtotal and less than 10% increase lines.

Line/ Column #	Description	Explanation
10 and 14-19	Subtotal	Enter “Subtotal” in Column 10 and the vertical sums of Columns 14 through 19. Check sums horizontally. Columns 14 = 16 + 17 + 18.
10, 14, and 18	Less than 10% increase	Enter “Less than 10% increase” in Column 10. In Columns 14 and 18, enter the amount of the cumulative net increase in the total materiel/services value.
10 and 14-19	Net Case Value	Enter “Net Case Value” in Column 10 and the vertical sums of Columns 14 through 19. Column 14 should agree with the “Estimated Cost” of the LOA. Check sums horizontally. Columns 14 = 16 + 17 + 18.
10, 12-14, and 18	Packing, Crating & Handling (PC&H), (if applicable)	Enter “PC&H (__ %),” Pricing Element “OS,” and Financing Appropriation “TF” (FMS Trust Fund). Columns 10, 14, and 18 should be completed with the proper rate and amount as computed in accordance with Chapter 7. PC&H charges were discontinued for DWCF items effective October 1, 1990.
10, 12-14, and 18	Admin (if applicable)	Enter “ADMIN (__ %),” Pricing Element “OS,” and Financing Appropriation “TF.” Columns 10, 14, and 18 should be completed with the proper rate and amount as computed in accordance with Chapter 7.
10, 12-14, and 18	Transportation (if applicable)	Enter “TRANS (__ %),” and/or Parc. Post (__ %),” as appropriate, Pricing Element “OS,” and Financing Appropriation “TF.” Columns 10, 14, and 18 should be completed with the proper rate(s) and amount(s) as computed in accordance with Chapter 7. Different rates may be used if partial delivery was made prior to April 13, 1978. The rate to be charged is the rate in effect at the time of delivery.

Table 2-1. DD 2061, “FMS Planning Directive,” Completion Guidance (Continued)

Line/ Column #	Description	Explanation
10, 12-14, and 18	Stock issue asset use (SIAU) (if applicable) for cases implemented after Sep 30, 1979, and all DD 2060/2061 submissions subsequent to that date up to Nov 30, 1989.	Enter “SIAU (1%),” Pricing Element “AU,” Financing Appropriation “TF.” In Columns 14 and 18, enter the amount computed in accordance with Chapter 7. Discontinued November 30, 1989.
10 and 14-19	Total Case Value	Enter “Total Case Value” and the vertical sum of Columns 14 through 19 for “Net Case Value” and PCH&T, Admin, Storage, and SIAU. Check sums horizontally. Columns 14 = 16 + 17 + 18. Column 14 should match the “Total Estimated Cost” line of the LOA.
10	Summary	Enter “Summary:”
10, 14-19	Reimbursable Program	Enter, as applicable “Reimbursable Program” in Column 10. Sum Columns 14 through 19 for all entries with other than “DC” or “TF” in Column 13.
10, 14-19	Direct Cite Program	Enter, as applicable “Direct Cite Program” in Column 10. Sum Columns 14 through 19 for all entries with “DC” in Column 13.

If the DD 2061 is prepared in support of a less than 10% increase, then enter subtotal and less than 10% increase lines.

Line/ Column #	Description	Explanation
10, 14-19	Subtotal	Enter “Subtotal” in Column 10. Sum “Reimbursable Program” and “Direct Cite Program,” Columns 14 through 19.
10, 14, and 18	Less than 10% increase	Enter “Less than 10% increase” in Column 10. In Columns 14 and 18, enter the negative amount of the cumulative net increase in the total materiel/services value.

Table 2-1. DD 2061, “FMS Planning Directive,” Completion Guidance (Continued)

Line/ Column #	Description	Explanation
10, 14-19	Net Case Value	Enter “Net Case Value” in Column 10. Sum “Reimbursable Program” and “Direct Cite Program,” or, if applicable, “Subtotal” and “Less than 10% increase,” Columns 14 through 19.
10, 14, and 18	PC&H, PCH&T, Admin, Trans, or Storage	If applicable, enter “PC&H,” “PCH&T,” “Admin,” “Trans,” and “Storage” in Column 10. Sum Columns 14 and 18 for all entries with “TF” in Column 13.
10, 14-19	Total Case Value	Enter “Total Case Value” in Column 10. Sum “Net Case Value,” “PC&H,” “Trans,” “PCH&T,” “Admin,” and “Storage” lines (as entered from previous guidance) for Columns 14 through 19. Check sums horizontally. Columns 14 = 16 + 17 + 18. Check to ensure that each column total matches the sum entered on the previous “Total Case Value” line.

Table 2-2. DD 2060, “FMS Obligational Authority,” Completion Guidance

Line/ Column #	Description	Explanation
Blank	Type of Request	Enter the designation of the document that occasioned the submission of the DD 2061 and 2060, e.g., LOA, Modification, Amendment, less than 10% increase, or DD 2061 Revision.
1	Performing Component	Enter “Army,” “Navy,” or “Air Force.”
2	Period Covered	Enter the FY for which OA is being requested, e.g., FY2010.

Part A

Line/ Column #	Description	Explanation
3	FMS Planning Directive Control No.	Obtain from line 6 of DD 2061.
4	Total Case Value	Obtain from “Total Case Value” line, Column 14, of “Summary” section of DD 2061. Also equals line 5 on DD 2061.
5	Amount to be Held in FMS Trust Fund	Obtain from “CAS for DCAA and DCMA PCH&T, Admin, and Storage” Column 14, in “Summary” section of DD 2061. Note: PCH&T does not apply to DWCF delivery reported on or after October 1, 1990. Storage charges do not apply to the FMSO I Part A on-hand of DWCF items.
6	Net Case Value	Computation: Column 4 – Column 5 = Column 6 (DD 2060) This amount represents the total that will be provided to the performing DoD Component for an FMS case.
7	Prior Period Reimbursable Funding/Direct Cite Authority: Received	Obtain from “Net Case Value” line, Column 15, of the “Summary” section of DD 2061. The entry is constant for a FY and must agree with the entry on the annual consolidated DD 2060.
8	Prior Period Reimbursable Funding/Direct Cite Authority: Required	Obtain from “Net Case Value” line, Column 16 “Total,” of the “Summary” section of the DD 2061. The entry is constant for a FY and must agree with the entry on the annual consolidated DD 2060.
9	Prior Period Reimbursable Funding/Direct Cite Authority: Withdrawn	Computation: Column 7 - Column 8 = Column 9 (DD 2060) Represents the amount of funds received in prior periods but not required for case performance. These amounts will be withdrawn from the performing DoD Components. The entry is constant for a FY and must agree with the entry on the annual consolidated DD 2060.

Table 2-2. DD 2060, “FMS Obligational Authority,” Completion Guidance (Continued)

Line/ Column #	Description	Explanation
10 & 11	Authority Required this FY	Enter the FY from line 2.
10	Reimbursable	Obtain from “Reimbursable Program” line, Column 17, of the “Summary” section of the DD 2061. Represents the amount of reimbursable OA required for the current FY.
11	Direct Cite	Obtain from the “Direct Cite” line, Column 17, of the DD 2061. Amounts in this column followed by a “(C)” represent direct citation delegation authority required for the current FY. If blank, then the request is for an allotment of funds for direct cite, with the IA to be the accounting station.
12	Remaining Program Value	Computation: Column 6 - [Column 8 + Column 10 + Column 11] = Column 12 Should agree with “Net Case Value” line, Column 18, of the “Summary” section of the DD 2061. May be negative if type of request is for a less than 10% increase.
13	Balance Brought Forward	N/A
14	Case Total	N/A
15	Admin Expense	N/A
16	Total	Sum of entries by column.

Table 2-2. DD 2060, “FMS Obligational Authority,” Completion Guidance (Continued)

Part B		
Line/ Column #	Description	Explanation
17	Appropriation Title	Obtain from appropriate DoD Component directives. Enter abbreviated title. Where the case is impacted by an increase of less than 10%, insert an additional line “Less than 10% increase.”
18	Account Symbol	Obtain from DD 2061, Column 13, “Financing Approp.” Enter the first impacted financing) appropriation or fund for reimbursement action; or enter “DC” where the FMS Trust Fund is to be direct cited. Summarize into one line per account.
19	Balance Brought Forward	N/A
20	Obligational Authority	Enter totals (by column) for each applicable element. Totals should reflect same data as DD 2060 summary data reflected in Part A.
21	Signature Block Accepting/Requesting Official	To be completed by the appropriate DoD Component.
22	Signature Block Offering/Approving Official	To be completed by appropriate Approving Official.
23	Approval Control Number	To be completed by appropriate Approving Official.

NOTE: Line/Column # 6-12: Obtain totals (by appropriation) from applicable column on DD 2061. Enter individual data under each column where the case is impacted by an increase of less than 10%, an appropriate negative entry will be shown in Columns 6 and 12 as determined from Columns 14 and 18 of the DD 2061. Line/Column # 9 should be computed as Column 7 minus Column 8.

VOLUME 15, CHAPTER 3: “ACCOUNTING”**SUMMARY OF MAJOR CHANGES**

Changes are identified in this table and also denoted by [blue font](#).

Substantive revisions are denoted by an asterisk (*) symbol preceding the section, paragraph, table, or figure that includes the revision.

Unless otherwise noted, chapters referenced are contained in this volume.

Hyperlinks are denoted by [***bold, italic, blue, and underlined font***](#).

The previous version dated [September 2022](#) is archived.

PARAGRAPH	EXPLANATION OF CHANGE/REVISION	PURPOSE
All	Updated hyperlinks and internal references throughout.	Revision
4.4	Updated to clarify that Military Departments and Defense Agencies control and report security assistance assets within their accountable property system of record and through the Security Assistance Accounts consolidated annual financial statements rather than on the Military Department or Defense Agency financial statements.	Revision
4.8.2.3	Removed reference to Building Partner Capacity program administration within the Foreign Military Sales (FMS) Trust Fund and the Economy Act as the legal authority.	Deletion
11.1	Revised and updated to remove obsolete reference for FMS problem disbursements greater than \$2,500 to be brought to the attention of the FMS Case Closure Executive Committee for resolution. FMS problem disbursements greater than \$2,500 should be brought to the attention of the Defense Security Cooperation Agency Comptroller using procedures outlined in the Security Assistance Management Manual.	Revision

CHAPTER 3

ACCOUNTING

1.0 GENERAL

1.1 Purpose

This chapter establishes accounting requirements which:

1.1.1. Assure proper DoD control and accountability of cases implemented in the Foreign Military Sales (FMS) Trust Fund;

1.1.2. Provide accounting information that can be used for preparation of Chief Financial Officer (CFO) financial statements, quarterly bills to FMS purchasers, and financial status reports to DoD case managers and Defense Security Cooperation Agency (DSCA) staff;

1.1.3. Integrate with physical delivery (logistics) reporting systems;

1.1.4. Serve as a basis for timely identification and reporting of financial management problems; and

1.1.5. Establish internal controls to assure compliance with the payment requirements of the Arms Export Control Act (AECA), Public Law 90-629, codified at [Title 22, United States Code \(U.S.C.\), Chapter 39](#).

1.2 Authoritative Guidance

Authoritative guidance for this chapter is as follows:

1.2.1. AECA, Public Law 90-629, codified as 22 U.S.C. Chapter 39;

1.2.2. [Title 31 U.S.C. Chapter 15](#); and

1.2.3. Statement of Federal Financial Accounting Standards ([SFFAS](#)) 1: Accounting for Selected Assets and Liabilities, issued by the Federal Accounting Standards Advisory Board.

2.0 GENERAL ACCOUNTING GUIDANCE

2.1 Accounting Characteristics

2.1.1. Each FMS case is an accounting unit similar to a commercial job order. A case identifier is composed of the Security Cooperation (SC) customer code or international organization code, implementing agency (IA) code, and a three-position case designator assigned by the IA. See the DSCA Manual 5105.38-M, "Security Assistance Management Manual" ([SAMM](#)), [Table C4.T2](#), for more information. Obligational authority (OA) necessary to

implement a case is released by case identifier and line-item number. All requisitions for materiel or services have a case identifier and line-item number. Report accrued costs and cash disbursements at this level of detail. Accumulate and report this accounting information to FMS purchasers and DoD case managers to allow proper monitoring of case execution.

2.1.2. DoD manages cash at country level to ensure sufficient funds are available to meet expenditure requirements and to determine arrearages of a country's dependable undertaking. See Volume 16, Chapter 6 for more information on arrearages. A cumulative summary cash account, including all sub-accounts of the FMS Trust Fund 11X8242, "Advances, Foreign Military Sales, Funds Appropriated to the President," is needed to allow reconciliation with the U.S. Department of the Treasury (Treasury) cash records. Cumulative summary accounts showing OA, commitments, obligations, accounts payable, accounts receivable, accrued expenditures, and expenses are required to complete budget execution reports on the FMS Trust Fund account.

2.1.3. DoD case management entails obtaining the necessary OA, releasing requisitions or procurement work orders, and reporting physical delivery of required items. The first two actions require efforts directed through the accounting system. Proper management controls require the use of the same source document for reporting to both the financial and logistical systems (including delivery reporting).

2.2 Responsibilities

2.2.1. DSCA. DSCA is responsible for providing oversight and monitoring usage of the FMS Trust Fund, to include periodic reviews of funding levels and unused balances.

2.2.2. Defense Finance and Accounting Service (DFAS). DFAS performs the accounting, billing, disbursing, and collecting functions for the FMS Trust Fund, as well as provides financial management and accounting support for SC programs. DFAS ensures entries in the accounting systems have audit trails to the source documents and generates financial statements. DFAS is responsible for:

2.2.2.1. Monitoring for compliance, the centralized FMS case-line level accounts prescribed in this chapter, and the Bureau of the Fiscal Service (Fiscal Service), "U.S. Standard General Ledger (USSGL). The DoD Standard Chart of Accounts are in the Standard Financial Information Structure, DoD USSGL Transaction Library, and Volume 1, Chapters 4 and 7. Use information accumulated in the accounts when preparing billing statements to FMS purchasers and financial management reports to DoD case managers and DSCA staff;

2.2.2.2. Maintaining FMS Trust Fund budget execution records;

2.2.2.3. Identifying and notifying DSCA when an FMS Trust Fund arrearage occurs as required in Volume 16, Chapter 6;

2.2.2.4. Summarizing all case-line level accounts at the FMS Trust Fund level, reconciling the summary cash accounts to Treasury's records per Treasury guidance, and using the summary accounts as the basis for required reports on FMS Trust Fund operations;

2.2.2.5. Maintaining audit trails and supporting documentation for entries made to the accounting system; and

2.2.2.6. Preparing monthly, quarterly, and annual statements as required in Volumes 6A and 6B.

2.2.3. IAs. IAs are responsible for:

2.2.3.1. Fulfilling FMS Trust Fund orders using these financing techniques:

2.2.3.1.1. Issuing and accepting reimbursable orders into a financing appropriation or Defense Working Capital Fund (DWCF) account,

2.2.3.1.2. Issuing allotments/OA of the FMS Trust Fund to the performing DoD Components, or

2.2.3.1.3. Authorizing direct citation of the FMS Trust Fund (11X8242);

2.2.3.2. Ensuring appropriation/fund budget execution records accurately reflect the status of the reimbursable FMS Trust Fund program;

2.2.3.3. Performing and/or ensuring the completion of the Dormant Account Review Quarterly (DAR-Q) of obligations and unfilled customer orders as described in Volume 3, Chapter 8, section 16.0;

2.2.3.4. Maintaining audit trails between source documents and entries to the accounting system; and

2.2.3.5. In coordination with DFAS, maintaining within the IAs respective accounting system of record the centralized FMS case-line level accounts prescribed in this chapter and in the USSGL.

2.2.4. Allotment Holders for Actual FMS Administrative Expenses. A DoD Component that receives a DSCA allotment of FMS Administrative Budget Authority (BA) is responsible for:

2.2.4.1. Maintaining obligations and expenditures within the limitations of the allotment,

2.2.4.2. Ensuring obligating documents and accrued expenditures meet the requirements contained in this volume,

2.2.4.3. Returning unobligated OA to DSCA at the end of each fiscal year (FY), and

2.2.4.4. Performing the DAR-Q of obligations and unfilled customer orders as described in Volume 3, Chapter 8, section 16.0.

3.0 MANAGEMENT CONTROLS

For management controls, Security Assistance activities will follow the guidance in DoD Instruction 5010.40, “[*Managers' Internal Control Program Procedures*](#).”

4.0 FMS TRUST FUND ACCOUNTING REQUIREMENTS

4.1 FMS Trust Fund

The FMS Trust Fund is a single account that is authorized to be credited with receipts that may be obligated and expended in accordance with the AECA. FMS Trust Fund receipts must be apportioned prior to obligation and expenditure; however, an official, designated under [*31 U.S.C. § 1513*](#), and as per [*31 U.S.C. § 1516*](#), may exempt trust funds from apportionment.

4.2 FMS Standard General Ledger (GL)

All financial accounting data applicable to the FMS program must be recorded in accounts consistent with Volume 1, Chapter 7 and the USSGL accounts. The USSGL specifies the accounting entries for these accounts. Subsidiary ledgers are used, where necessary, to provide accounting control and management reports. The Deputy CFO, Office of the Under Secretary of Defense (Comptroller) (OUSD(C)), must approve the use of any other GL Trust Fund accounts in writing. Objective evidence, e.g., invoices, vouchers, receipts, or statements, must support all entries in the accounting records and data reported on financial statements. Such evidence may be either hard-copy documents or computer data, but in either case, the evidence must be verifiable.

4.3 Accounting for Receivables

4.3.1. General

4.3.1.1. Cash in advance of performance is required from FMS purchasers unless a written determination is made pursuant to legal authority. See Chapter 4 for more information on cash management. For FMS purchasers who are legally exempt from making cash advances, record accounts receivable for each FMS country program accounted for in the FMS Trust Fund in USSGL 131000, “Accounts Receivable.” SFFAS 1, paragraph 41 provides that a receivable should be recognized when a federal entity establishes a claim to cash or other assets against other entities, either based on legal provisions, such as a payment due date, or goods or services provided. If the exact amount is unknown, a reasonable estimate should be made.

4.3.1.2. The offered and accepted FMS case is a binding requirement and calls for an advance of funds from the FMS purchaser; thus, a non-entity account receivable is established when the due date for payment is not met. Follow up and aging of delinquent accounts receivable will be in accordance with Volume 16, Chapter 6. Accounts receivable are aged according to Volume 4, Chapter 3, Figure 3-1.

4.3.2. Application of Interest. Assess interest on FMS country-level arrearages in accordance with the provisions of the affected country's active cases and Volume 16, Chapter 6.

4.3.3. Reporting. DFAS submits the Fiscal Service, Debt Management Governmentwide Reports: "Treasury Report on Receivables ([TROR](#))," quarterly. Instructions for the TROR are in Volume 4, Chapter 3.

*4.4 Accounting for Inventory

The Military Departments or Defense Agencies control and report [security assistance](#) assets (equipment and related software, amounts invested in inventories, and work-in-process at contractor's plants) [within their accountable property system of record and through the Security Assistance Accounts consolidated annual financial statements.](#)

4.5 Accounting for the FMS Program

The AECA and provisions of the Letter of Offer and Acceptance (LOA) require that the FMS program operate at no cost to the U.S. Government. Therefore, recognize equity only for the balance retained in the attrition account; see subparagraph 4.5.2.

4.5.1. Accounting for FMS Surcharges

4.5.1.1. Record the collection of surcharges established in accordance with AECA §§ 21 and 43 as unearned revenue to ensure full recovery of costs incurred in operating the FMS program.

4.5.1.2. Record and recognize revenue and expenses at the time disbursements are made from the applicable FMS Surcharge account.

4.5.1.3. Revenues to fund these expenses are from the application of money received from accrued costs, estimated actual costs, or rates charged. Maintain ledgers for each of the categories of FMS Surcharges as subsidiary to the unearned revenue control account, USSGL 231000, "Liability for Advances and Prepayments."

4.5.1.4. Apply the Contract Administration Services (CAS) Surcharge to new procurements; however, it may not be applicable under certain conditions detailed in AECA § 21. DSCA provides funding directly to performing activities to reimburse for FMS and [Building Partner Capacity \(BPC\)](#) CAS costs.

4.5.2. Accounting for Attrition Surcharges. When FMS training LOAs include the use of training or operational equipment, an attrition surcharge rate may be applied pursuant to [SAMM, Table C9.T4](#). The Attrition Surcharge Account replaces equipment damaged or destroyed during student training as a result of student negligence. Record attrition surcharges in the attrition account; they are assets to the U.S. Government. At year end, record the balance in the attrition account as equity in the FMS Trust Fund. Refer to Chapter 7, subparagraph 23.3.3 for more information on the application of the attrition surcharge.

4.5.3. Accounting for Bad Debts. Policy concerning compromise, termination, or suspension of collection actions of a country-level bad debt is in Volume 16, Chapter 6, section 6.0. Resolution of all foreign indebtedness resulting from FMS transactions will be staffed with the Department of State (DoS) by DSCA via the Under Secretary of Defense for Policy. Within 30 calendar days of a determination by the DoS that a debt is uncollectible, DSCA will direct DFAS Security Cooperation Accounting (SCA) to record the amount owed, including accrued interest, in the GL. When a country is in arrears, and the debt is confirmed to be uncollectible:

4.5.3.1. All available funds for the affected country will be used to satisfy outstanding liabilities according to a priority recommended by the Director of DFAS SCA and approved by the DSCA Principal Director, Office of Business Operations (OBO);

4.5.3.2. DSCA will direct applicable case managers to request cancellation of all outstanding commitments and adjustment of all outstanding obligations, to include an amount for termination cost. The residual amount of debts shown will be transferred to the GL for the affected country, to coincide with the termination of the FMS cases, based on the determination that the country's account is uncollectible. This highlights losses due to uncollectible amounts in the accounts as required by SFFAS 1, paragraph 44; and

4.5.3.3. Aging of amounts recorded will continue. Accrue the accumulation of interest, in accordance with the AECA and other applicable authorities, monthly on the balance in the sub-account. The amount recorded in the account will include the amount of the arrearage, termination liability costs, and accrued interest.

4.5.4. Accounting for Transactions Occurring Prior to January 1, 1989. A reconciliation problem existed within the FMS Trust Fund for transactions that occurred prior to January 1, 1989, and some reconciliations occurred as a result of management decisions. Adjustments to transactions that occurred prior to January 1, 1989, will be reviewed by the FMS central accounting site control point staff, and approved by the DSCA Comptroller, prior to posting in the Defense Integrated Financial System (DIFS). The control point staff at DFAS SCA and DSCA will maintain a complete audit trail of all adjustments received and processed. Documentation supporting these adjustments will be retained by the originating organization. Transactions will be approved by:

4.5.4.1. DFAS SCA and an appropriate representative of the applicable DoD Component involved;

4.5.4.2. The Director of the applicable DFAS center submitting transactions to DFAS SCA, if the amount of the transaction is in excess of \$500,000; or

4.5.4.3. The Director, DFAS and the Director, DSCA, if the amount of the transaction exceeds \$1,000,000.

4.6 Processing Accounting Transactions

In order to provide accounting services for the FMS Trust Fund, DFAS SCA uses DIFS and records maintained in the IA's source accounting systems. As a trust-fund level management system, DIFS links IA records from bills, including supporting financial documents, issued to purchasing countries for articles and/or services. See [SAMM CI3.6](#) for additional information. Transactions entered into DIFS are a combination of installation-level transactions received through the FMS Integrated Control System, and vouchers recorded at DFAS SCA, resulting from billing, collection, and disbursement activities. Transactions recorded in DIFS are posted at the trust fund-, country-, and case-level. This enables DFAS SCA to prepare required accountability and fund status reports for the FMS Trust Fund. DFAS SCA relies on the accuracy and integrity of the records maintained in IA's source accounting systems. Source transactions must have all of the information required to enable DFAS SCA to prepare required accounting reports and perform financial management oversight.

4.7 DFAS SCA Analysis of FMS Case Accounting Data

DFAS SCA must continuously analyze case-level accounting data to identify developing financial problems and alert IA case managers, DSCA country finance directors, and other concerned DoD officials of the necessity for corrective action. The types of analysis performed are as follows:

4.7.1. Adequacy of Cash Deposits and Timely Payments. Compare the net unreserved cash balance to the accounts payable case-level accounts. If the accounts payable balance is greater, request an IA review of the case payment schedules and coordinate with the IA to ensure sufficient country funds are available to aid in the timely payment to vendors; and

4.7.2. Timely Case Closure Actions. When the expenditures approach OA value, DFAS SCA should request an IA review of the case's financial and logistical status to determine if the case should be closed.

4.8 DFAS SCA Surcharge Transactions

4.8.1. FMS Administrative Surcharge and Logistics Support Charge (LSC) Account

4.8.1.1. Accrual of Earned Surcharge. As accrued expenditures are calculated, pursuant to FMS orders, the amount of FMS Administrative Surcharges applicable will be determined and credited to the FMS Administrative Surcharge account.

4.8.1.1.1. \$30,000 or less. If the computed FMS Administrative Surcharge for the FMS case is \$30,000 or less, the entire surcharge value must be included in the initial deposit ([SAMM Table C9.T17](#)). This includes the value of any small case management line for cases implemented August 1, 2006 through July 2, 2012 (SAMM paragraph [C9.4.7](#)).

4.8.1.1.2. Over \$30,000. If the computed FMS Administrative Surcharge for the FMS case is greater than \$30,000, 35 percent of the surcharge is collected upon case implementation (SAMM Table C9.T17). Apply the remaining accruals over the life of the case and finalize at case closure.

4.8.1.2. Actual FMS Administrative Surcharge. Transactions representing actual expenses will be entered based on accrued expenditures reported in the DoD Status-of-Allotment reports for FMS. See [subparagraph 6.1.3](#).

4.8.1.3. LSC. LSC is applicable to articles delivered or services performed on or after April 1, 1987 and prior to October 1, 2007. These charges are accounted for in the FMS Administrative Surcharge account as described in subparagraphs 4.8.1.1 and 4.8.1.2. For more information on LSC, see SAMM Table C9.T4.

4.8.2. Transportation Surcharge Account

4.8.2.1. Accrual of Earned Surcharge. When items [are](#) reported by the DoD Components as physically delivered, applicable transportation surcharges are earned and credited to the Transportation Surcharge account.

4.8.2.2. Actual Transportation Expense. Transactions showing actual transportation cost, based on receipt of carrier bills, will be entered against the Transportation Surcharge account.

4.8.3. CAS Cost Clearing Account Accrual of Earned Surcharge. When payments are made to contractors (either progress payments or bills for incurred costs), the applicable CAS surcharges are earned and credited to the CAS Cost Clearing Account.

4.8.4. Attrition Surcharge Account. Assess the applicable attrition surcharge for applicable training cases (SAMM Table C9.T4). The IAs will identify the amounts earned as they distribute collections for tuition, credit the attrition portion, and report it to DFAS SCA by country, case, and line. Expenditures from this account represent orders to the DoD Components to fund the cost of replacing damaged or destroyed equipment associated with student training. DFAS SCA will maintain cumulative records of these deposits by country, case, and line item. Fund withdrawal from the attrition account requires prior written approval from the DSCA Comptroller. The cost in full of replacing damaged or destroyed equipment is reimbursed from the attrition account.

4.8.5. Year-End Certification. Reporting entities now utilize the Governmentwide Treasury Account Symbol Adjusted Trial Balance System (GTAS) and the Fiscal Service Year-End Transaction Module to report unexpended appropriation and fund balances. The Year-End Module, in addition to GTAS, is used to initiate year-end cancelation and adjustment transactions previously presented on the Fiscal Service Form 2108. See Volume 6A, Chapter 4 and the Treasury Financial Manual, Volume 1, [Part 2, Chapter 4700](#) for more information.

4.8.6. Periodic/Year-End Analysis of Surcharge Accounts. DSCA and DFAS SCA analyze activity in the surcharge accounts. This analysis will serve as a basis for decisions by DSCA OBO to redistribute surcharge account balances between the accounts or to recommend rate changes. DSCA OBO will coordinate any decision made to redistribute balances, to mitigate shortfalls in one or more surcharge accounts, with DFAS SCA and OUSD(C). If a redistribution between surcharge accounts is required, DSCA OBO will then notify OUSD(C) of the intended redistribution action and seek concurrence. OUSD(C) should provide a response within 30 calendar days. With OUSD(C) concurrence, DSCA OBO will authorize DFAS SCA to redistribute the funds. Once the receiving surcharge account is returned to an acceptable funding level, the transferred funds will be redistributed back to the original account once the DSCA OBO receives concurrence with OUSD(C). When a decision is made to revise rates, the revisions will be coordinated with OUSD(C). See Chapter 7, paragraph 12.2 for more information on revising rates.

5.0 IA ACCOUNTING REQUIREMENTS

5.1 Allotments for Direct Citation

Amounts in Column 11, “Direct Cite Authority Required This FY,” of the DoD (DD) Form 2060, [FMS Obligational Authority](#), or automated equivalent (OA request), which are coded “(A),” represent allotments of case contract authority. Allotment holders must request expenditure authority (EA) from DFAS SCA prior to processing the disbursements against the contract authority. DFAS SCA provides incremental EA from the FMS Trust Fund based on the allottee’s need to disburse funds. Additional instructions for the DoD Status-of-Allotment report are in section 6.0. Specific requirements include:

5.1.1. The DoD Component that holds an allotment of the FMS Trust Fund for direct citation on contracts must maintain detailed commitment, obligation, and expenditure records on an FMS case and line basis. That DoD Component must provide DFAS a monthly DoD Status-of-Allotment report reflecting the case and line-level data. Delivery transactions in an amount equal to the current month’s net change in accrued expenditures or cash advances to contractors must support the status of expenditures. A manual DoD Status-of-Allotment format is in Figure 3-1; and

5.1.2. Submit Monthly DoD Status-of-Allotment information, and associated reports of reconciliation, to DFAS by the 20th calendar day following the close of each accounting month. Use this information, with detailed supporting documentation, as the basis for the DFAS FMS Trust Fund reconciliation with Treasury.

5.2 Allotments for Reimbursable Orders

For information on reimbursable orders, see Chapter 2, paragraph 3.4.

5.3 FY-End Reporting Requirements

5.3.1. The DoD Components are required to submit a printed and certified, final, FY consolidated OA request and DoD Status-of-Allotment information for direct cite funds to DFAS SCA. Establish submission dates in accordance with special instructions issued by DFAS. The forms submitted may be manual forms or automated equivalents.

5.3.2. The final OA request will have this certification: “I hereby certify that this report reflects FMS Obligational Authority as required by DoD 7000.14-R, Volume 15, Chapter 2, subparagraph 3.4.1.”

5.3.3. The final DoD Status-of-Allotment report must have this signed certification: “I hereby certify that the amounts shown in this report are correct. All known transactions meeting the criteria of 31 U.S.C. § 1501(a) have been obligated and are so reported.”

6.0 ACTUAL ADMINISTRATIVE EXPENSE ACCOUNTING REQUIREMENTS

6.1 Reimbursement for FMS Administrative Expenses

6.1.1. Price FMS administrative expenses in accordance with Chapter 7, section 5.0 and charge directly to the allotment received for actual FMS administrative expenses. DoD Status-of-Allotment reports must be submitted in the DoD standard format in Figure 3-1. If the allotment is used as the basis for issuing reimbursable orders to appropriation accounts, a schedule showing the dollar value of orders released to each appropriation must be attached to the DoD Status-of-Allotment report. FMS administrative expenses may not be incurred in excess of the allotment, nor are the DoD Components authorized to incur obligations against appropriated fund operation accounts to finance FMS administrative budgets.

6.1.2. Upon review of the budget requests submitted in response to its administrative budget call, DSCA will approve a single budget amount for each DoD Component and will issue an allotment providing funding for the approved budget. The recipient will prepare a DoD Status-of-Allotment report showing actual uses for administrative expense. Base the information on the organization designated in the DSCA budget call. Allotments for administrative expenses must be fully funded to cover obligations.

6.1.3. Support DoD Status-of-Allotment reports for FMS administrative expenses with subsidiary allotment status reports of the executing organizations. Annotate subsidiary reports as “Subsidiary report-(name of the organization).”

6.2 Control of FMS Administrative and SC Organizations (SCO) Budget Allotment Authority

6.2.1. Report the FY identity of budget allotment authority, obligations, and disbursements for the current FY (CFY), and five preceding FYs, on the monthly DoD Status-of-Allotment reports for administrative expenses. Accounts will remain open for the liquidation and adjustment of valid obligations until the end of the canceled FY (five expired FYs and one canceling FY). See the FY example in subparagraph 6.2.3.

6.2.2. All fund holders are required to maintain FY identity of obligations, disbursements, and budget allotment authority for the CFY and the five preceding FYs.

6.2.3. Provided is an example of FY identity using a CFY of 2024.

FY	Description
FY 2019 = expired FY	At the end of FY 2024, and after completing the end-of-year reporting and closeout cycle, cancel all unliquidated obligations (ULOs). All amounts are withdrawn effective September 30, 2024. Following this action, FY 2019 cancels on October 1, 2024.
FY 2020 = expired FY	
FY 2021 = expired FY	
FY 2022 = expired FY	
FY 2023 = expired FY	
FY 2024 = CFY	Out-of-scope increase to prior FY obligations (FY 2019 and prior) will be charged against the CFY (FY 2024). The CFY becomes an expired FY on October 1, 2024.
FY 2025 = Next FY	October 1, 2024, FY 2025 begins.

6.3 Control of FMS Administrative and SCO Prior FY OA

6.3.1. DSCA will not authorize increases to a prior year OA to record upward adjustments for obligations that are the result of out-of-scope changes. Such changes constitute new obligations and are funded from the current year OA. Upward adjustments, which are the result of “within-scope” changes under the terms of the contract, are usually chargeable to the appropriate FY account against which the original obligation was charged. Charge all valid upward adjustments applicable to canceled years to the CFY.

6.3.2. All fund holders will establish procedures to review and validate all ULOs for the CFY, and the preceding five FYs, on a monthly basis. If obligations are no longer valid, fund holders will ensure these amounts are deobligated and the appropriate funds returned to DSCA for withdrawal; see paragraph 6.5. Valid disbursements may be made from these expired accounts, up to the amount of the ULO balances for that year's obligation. Additional funding to cover these valid upward adjustments (within-scope price adjustments) may be requested from DSCA. This request should provide the following: original obligation amount; additional required funding authority needed; source or reason for additional obligation, including any subsidiary calculations or source; applicable supporting documentation; and point of contact.

6.3.3. Deobligation of prior year funds, and the subsequent reobligation of these same funds in the current or one of the five preceding FYs, is not authorized. Expired funds may only be used for within-scope obligation adjustments until cancellation.

6.4 Control of Unliquidated Balances

6.4.1. FMS Administrative and SCO accounts remain available for liquidating valid obligations until the end of their fifth expired year; see the example in subparagraph 6.2.3. No new obligations can be started for the CFY after September 30 of that FY.

6.4.2. The monthly DoD Status-of-Allotment reports for administrative expenses, showing the DFAS departmental accounting position, will present the current allocation and account balances (obligations and disbursements) for the end of that reporting month.

6.4.3. See paragraph 6.5 for the procedure used when canceling funds at the end of the fifth year following their expiration and the process used when deobligations occur in the five preceding FYs.

6.4.4. All fund holders will establish procedures to review and validate all ULOs for the CFY and the five preceding FYs.

6.4.5. Reference SAMM Table C15.T2 for additional information on BPC programs and authorities, periods of availability of associated funding, and fund cancellation dates.

6.5 Administration and Implementation of the Monthly and End-of-Year Closeout Guidance

6.5.1. All fund holders will review and use their respective monthly DoD Status-of-Allotment reports for administrative expenses, which present the DFAS departmental accounting position for that month. Use these reports to compare with the installation accounting records. If there are disbursement differences between the departmental and installation accounting records, use the departmental accounting records reconciled with Treasury cash to establish the withdrawal amount.

6.5.2. DSCA will issue the annual end-of-year closeout guidance to all holders of FMS Administrative and SCO funds.

6.5.3. When the fifth expired year is canceled, the budget allotment authority amount will be decreased on September 30 to equal the departmental accounting disbursement amount that has been reconciled with Treasury.

6.5.4. The fund holder will ensure that all obligations and disbursements are equal prior to year-end closeout for the canceling year account (the fifth year following funds expiration) and that no further disbursements are processed. The fund holders need to work closely with the DFAS departmental accounting offices at finalizing the amounts to be withdrawn for the canceling year (the fifth year following funds expiration).

6.5.5. All fund holders will notify DSCA in writing when BA can be decreased on the CFY and the five preceding FYs. Upon receipt of a written request from the fund holder, DSCA will issue an FMS Administrative and SCO Allocation document withdrawing the unobligated BA, citing the concurrence correspondence from the fund holder for the expired and canceling FYs. All records will be maintained with the FY BA documents.

6.6 DFAS Responsibilities for Expired and Canceled Accounts

6.6.1. DFAS SCA will adjust EA to agree with the DSCA allocation values for the expired and canceling FYs. All unobligated balances will be considered expired and not available for incurring new obligations. FMS Administrative and SCO accounts remain available for liquidating valid obligations until the end of their fifth expired year.

6.6.2. At the end of each FY, DFAS SCA will update the canceling FY's obligated and disbursed balances for FMS and SCO Administrative Fund accounting records and maintain related supporting documentation.

6.6.3. DFAS SCA will maintain memorandum records of the canceled obligations. Once closed, an account is no longer available for obligation. If it becomes necessary to pay an obligation, which otherwise would have been properly charged to the appropriation before it was canceled, the obligation should be charged to and paid from the applicable CFY FMS or SCO account. Post these obligations against the CFY account when disbursed. Use memorandum records (or equivalent) to record the canceled "valid" obligations offline so that they may later be recognized as valid when disbursed and recorded against the applicable FMS or SCO Administrative CFY account. For more information, see Volume 3, Chapter 10.

6.6.4. Once all BPC cases associated with the transportation account are closed, DFAS, in coordination with DSCA, will deposit all unliquidated balances into the Miscellaneous Receipts of the Treasury (11X3230). BPC Transportation accounts will close when all appropriations within the account have canceled.

7.0 BUDGET EXECUTION

7.1 Objectives

This section establishes the budget execution requirements that are applicable to the FMS program. Specific objectives are to ensure that:

7.1.1. Mandatory budget execution reports that accurately reflect data recorded in accounting records are submitted to Treasury in a timely manner;

7.1.2. Unnecessary FMS OA is withdrawn officially from all organizations participating in execution of FMS cases at the end of each FY; and

7.1.3. FMS case records maintained by IAs are in agreement with DFAS SCA at the case-line level throughout the life of each FMS case.

7.2 Responsibilities

7.2.1. DFAS must provide accounting data on FMS Trust Fund operations to the DoD Components.

7.2.2. DSCA must monitor the FMS program and submission of required FMS Trust Fund Budget Execution reports in accordance with requirements outlined in Volume 6A, Chapter 2, section 2.0.

7.2.3. IAs and the supporting DoD Components must:

7.2.3.1. Conduct year-end reviews of the unobligated FMS reimbursable program to ensure unnecessary BA is identified and returned to the FMS Trust Fund;

7.2.3.2. Ensure that the FMS reimbursable program is properly reported in appropriation or DWCF budget execution reports;

7.2.3.3. Submit financial Budget Execution reports accurately and timely in accordance with section 8.0;

7.2.3.4. Reconcile IA FMS case records to DFAS SCA case-line level accounting transactions on a periodic basis;

7.2.3.5. Partner with DFAS to resolve any variances or out of balance conditions in support of monthly FMS financial reporting; and

7.2.3.6. Prepare [Case Closure Certificates](#) signifying IA completion of all actions necessary for DFAS SCA to close the case as soon as possible after the case supply/services are complete, but no longer than 24 months after such occurrence for cases applicable to countries participating in Accelerated Case Closure Procedures (ACCP). See the SAMM, Appendix 7, “Case Reconciliation and Closure Guide ([RCG](#)),” for the Case Closure Certificate format, [SAMM Chapter 16](#), and paragraph 10.2 for case closure information. For case closure procedures required for non-ACCP, including BPC program cases, refer to paragraph 10.2.

8.0 FMS TRUST FUND BUDGET EXECUTION REPORTS AND FINANCIAL STATEMENTS

8.1 Budget Execution Reports

DFAS submits the following budget execution reports on FMS Trust Fund operations:

8.1.1. Monthly [Standard Form 133, Report on Budget Execution](#), for 11X8242. For more information, see Volume 6A, Chapter 4, section 4.0;

8.1.2. [GTAS](#). Fiscal Service discontinued use of the Fiscal Service Form 2108 and removed references to the form from current Fiscal Service guidance. Budget execution

information previously provided on Fiscal Service Form 2108 is now available to Treasury through GTAS. For more information, see Volume 6A, Chapter 4; and

8.1.3. Appropriate sections of the annual CFO Financial Statements. For more information, see paragraph 8.2.

8.2 Financial Statements

For financial statement guidance concerning the reporting of FMS amounts, see Volume 6B, Chapters 2 and 10. The Security Assistance reporting entity also provides GTAS submissions as a Significant Entity per Volume 6A, Chapter 3, subparagraph 3.4.2.

9.0 CASE EXECUTION

9.1 FY End

At the end of each FY, IAs should review the reimbursable OA received to implement each FMS case. The total amount of reimbursable BA received is on the OA request. The review serves as the basis to withdraw any unnecessary unobligated balances. Make the withdrawal by submitting a year-end OA request. See Chapter 2, section 3.0 for instructions on the preparation of OA requests.

9.1.1. Non-Expiring Accounts. At the close of each FY, retain reimbursable FMS OA in a performing DoD account only to the extent that:

9.1.1.1. The amounts are required to cover certifiable obligations incurred by the performing account because of performance of the order;

9.1.1.2. The amounts have been committed within a formal commitment accounting system, for example, to cover normal administrative lead time on the next contract escalation clauses; or

9.1.1.3. The items have been delivered from inventory or applicable DoD services have been performed (cash earned reimbursement). Withdraw any reimbursable FMS OA not required for these purposes from the performing accounts by September 30 each year. It is recognized that year-end reviews must be made prior to the last day of the FY. Therefore, the amount of OA retained may be somewhat greater than the goal. It is expected, however, that estimating procedures must be improved continually until unnecessary unobligated balances are eliminated.

9.1.2. Expiring and Expired Accounts. By the close of each FY, show reimbursable FMS OA in an expiring account only to the extent that the amounts are earned reimbursements or are required to cover certifiable obligations incurred against the performing account. Withdraw any reimbursable FMS OA not required to cover obligations in the expiring account by September 30

each year. During the FY, transfer amounts required in expired accounts from the Trust Fund, as necessary, to cover upward obligation adjustments needed for within-scope changes to contracts or similar transactions.

9.2 Reimbursement of Appropriations and Accounts

9.2.1. Reimburse DoD appropriations and fund accounts, or Miscellaneous Receipts Account 3041, “Recoveries Under the Foreign Military Sales Program, Army, Navy, Air Force, Defense,” upon delivery of items from inventory or performance of DoD services within 30 calendar days of the occurrence (i.e., date of shipment or performance) for:

9.2.1.1. Items sold under AECA § 21, or

9.2.1.2. Procurement actions made under AECA § 22, if direct cite procedures for financing applicable contracts are not used.

9.2.2. The general rule applicable to the sale of DoD services is that the financing account current at the time of performance is credited with applicable BA and subsequent cash collections. The various cost elements that may be involved in the performance of an FMS order, and the appropriations that are to be reimbursed, are in Table 3-1.

9.2.2.1. When items are sold from inventory, the financing account current at the time items are dropped from inventory is credited with applicable BA and subsequent cash collections.

9.2.2.2. When items not to be replaced (free or excess assets) are sold from inventory, those receipts are credited to the Special Defense Acquisition Fund (SDAF). For more information on SDAF, see [SAMM, section 11.9](#) and Chapter 1, paragraph 2.2.2.

9.2.2.3. When appropriation or fund accounts are used to finance FMS procurements, the account current at the time the order is accepted is credited with BA and subsequent cash collections.

9.3 DD 2061, “Foreign Military Sales (FMS) Planning Directive,” or the Automated Equivalent (Planning Directive)

Update the case Planning Directive as prescribed in Chapter 2, section 4.0. Update cost elements and financing accounts to ensure full recoupment of the costs prescribed in Chapter 7 and to ensure timely identification of cost increases. The Planning Directive serves as the basis for preparing all OA requests during the life of the case.

10.0 FMS CASE CLOSURE REQUIREMENTS

10.1 General

All proper charges and credits must be recorded against the applicable FMS case. Case closure does not stop the billing/reporting process but results in a re-categorization of the case records from active status to inactive status to ensure accessibility for recording subsequent activity. For further guidance on the reconciliation and closure of FMS cases, to include closure checklists, see SAMM Chapter 16, [SAMM A7.C4.3](#), and the RCG.

10.2 Initiating FMS Case Closure

10.2.1. When all ordered items have been physically delivered and all ordered services performed (i.e., supply/services complete), or there is no activity on a blanket order case for 180 calendar days (and the purchaser agrees no further activity will occur), and all other conditions of the LOA are fulfilled, an FMS case is a candidate for closure. At this time, the responsible IA must determine if there are any unresolved delivery issues, outstanding Supply Discrepancy Reports (SDRs), or litigation claims. Contracting officers must review any contracts that have not been financially closed to determine if significant financial adjustments of open contracts may occur. Cases can be closed under either ACCP or non-ACCP closure procedures.

10.2.1.1. ACCP. ACCP must be used only for those countries that explicitly elect such procedures. However, all countries that have cases financed with Military Assistance Program Merger/Foreign Military Financing (non-repayable) are mandatory participants in ACCP, unless specifically excluded by DSCA. Once selected by a country, ACCP must apply to all cases of that country and must govern any case that was opened (or closed) prior to the date of ACCP implementation, unless a specific arrangement between DSCA and the FMS purchaser is made as part of the implementation criteria. Under ACCP, case closure should be initiated within 24 months after the case is supply/services complete, to allow a country to initiate an SDR and allow the IA to reconcile the case. The applicable DoD Component must request DSCA approval to delay closure beyond 24 months.

10.2.1.2. Non-ACCP. Under non-ACCP case closure, all logistical and financial transactions must be processed before case closure can be initiated.

10.2.2. The case manager must ensure the actions outlined in subparagraphs 10.2.2.1-10.2.2.6 are taken.

10.2.2.1. The IA-delivered value must agree with the delivered value recorded in DIFS. If necessary to reconcile IA records, obtain historical transaction records from the DIFS database or equivalent online repositories.

10.2.2.1.1. ACCP. If the case is being closed under ACCP, the difference between progress payments and liquidating deliveries, and the difference between total deliveries

and total disbursements in DIFS, must equal the estimated ULO value established by the IA. The IA records must be in balance with each of these values; if not, the IA must submit applicable input to bring the records into balance before issuing a Case Closure Certificate.

10.2.2.1.2. Non-ACCP. If the case is being closed under non-ACCP, progress payments must equal liquidating deliveries in DIFS. The IA records must be in balance with each of these values; if not, the IA must submit applicable input to bring the records into balance before issuing a Case Closure Certificate.

10.2.2.2. Rectify all problem disbursements in accordance with Volume 3, Chapter 11. A prerequisite for satisfactorily resolving problem disbursements is to validate the accuracy of the disbursed values. Use the authorities in Volume 3, Chapter 11 to facilitate efficient reconciliation and closure actions. Additionally, section 11.0 addresses the applicable write-off authority for FMS problem disbursements.

10.2.2.3. Ensure the validity of all obligations in accordance with Volume 3, Chapter 8. Many of those provisions address FMS-specific actions in this regard.

10.2.2.4. Use the guidance in subparagraphs 10.2.2.4.1-10.2.2.4.2 for all FMS cases without remaining ULOs.

10.2.2.4.1. ACCP. If the case belongs to an ACCP country, the applicable DoD Component must submit a final Case Closure Certificate (see the RCG) to DFAS SCA within 24 months after an FMS case is supply/services complete. If the IA determines that due to reconciliation issues a case under ACCP cannot be closed within 24 months of supply/services completion, then submit the case, along with identification of the problem or cause believed to prevent case closure, to DSCA for resolution.

10.2.2.4.2. Non-ACCP. A supply/services complete case for a country not participating in ACCP will not be submitted for closure until ULOs on accounting classification reference numbers (ACRNs) citing the case are resolved. No case under non-ACCP closure procedures can be interim closed, it must be marked final.

10.2.2.5. Use guidance in subparagraphs 10.2.2.5.1-10.2.2.5.2 for FMS cases with remaining ULOs.

10.2.2.5.1. ACCP

10.2.2.5.1.1. The applicable IA must submit a Case Closure Certificate to DFAS SCA within 24 months after an FMS case is supply/services complete. Cases with a ULO of zero are final closed (there should be no more transactions of any kind on the case). Cases with a ULO greater than zero are interim closed (there could be additional disbursements on the case, but the purchaser has already paid the FMS Trust Fund enough to cover those disbursements). See paragraph 10.3 and the RCG.

10.2.2.5.1.2. The applicable IA must determine and report the value of any remaining ULO relevant to that case. These amounts should be equal to those recorded in the applicable DoD accounting system.

10.2.2.5.1.3. The applicable IA must request DSCA approval to delay interim closure if the estimated ULO is of significant value and is likely to be deobligated rather than disbursed. DSCA will then determine whether to approve the delay.

10.2.2.5.1.4. DFAS SCA must bill the applicable country using the DoD Component's remaining ULO via normal billing procedures. The ULO is part of the case closure value.

10.2.2.5.1.5. DFAS SCA must record the estimated ULO value in a summary account entitled Case Closure Suspense Account (CCSA). At the same time, DFAS SCA must record applicable charges and credits, by country and case, in subsidiary accounts, which total to the CCSA.

10.2.2.5.1.6. When final costs are known and reported by the IA (i.e., liquidating the ULO), DFAS SCA must record such amounts against the CCSA and subsidiary account by country and case.

10.2.2.5.1.7. Upon receipt and payment of final bills, and reconciliation of the case, the IA must submit a final Case Closure Certificate.

10.2.2.5.1.8. On a quarterly basis, DFAS SCA must submit a status report on the CCSA and subsidiary accounts to the DSCA OBO (Financial Reporting and Compliance) and ACCP-participating FMS purchaser countries.

10.2.2.5.1.9. When a country's CCSA has a negative balance of \$100,000 or more for a period of six consecutive months, DSCA may instruct DFAS SCA to bill the country for the entire balance owed. For example, if the country's suspense account has negative balances of \$100,000 on December 31, \$250,000 on March 31, and \$175,000 on June 30, DFAS SCA will bill the country \$175,000. Such billings will be made through the country's omnibus quarterly billing statement and will cite all the FMS case(s) involved. DSCA should review the country's CCSA periodically to determine if any refund is warranted.

10.2.2.5.2. Non-ACCP. For non-ACCP countries, the DoD Component must submit Case Closure Certificates to DFAS SCA only after all applicable known costs have been recorded and no ULOs exist on ACRNs citing the case.

10.2.2.6. At case closure, DFAS SCA must use the submitted closure certificate/transaction in place of an LOA amendment or modification unless the case meets the criteria for an LOA amendment or modification specified in [SAMM, section C6.7](#).

10.3 Closure Certification

10.3.1. The Case Closure Certificate alerts DFAS SCA to initiate actions needed to close a case. The IA must send certificates electronically to DFAS SCA. If any reporting after the issuance of a Case Closure Certificate has caused variances between DIFS and the certified values, DFAS SCA must notify the IA of actions required to enable closure processing to continue. When the IA and DFAS SCA FMS case records are reconciled, DFAS SCA must reclassify the case to an inactive status and provide a final statement of account to the FMS purchaser for the final value of the case. Once a final statement has been sent for an FMS case, the case must be reclassified by the IA from active to inactive status. The IA then closes applicable case records.

10.3.2. All closed cases with post-closure activity on or after October 1, 1992, not subject to ACCP, must be reopened as authorized by DSCA to report execution. The IA must cancel the original closure certificate and submit a new certificate prior to case closure. Cases for countries subject to ACCP may be reopened only as authorized by DSCA.

10.4 Billings After Case Closure

10.4.1. Any cases required to be reverted to implemented status must be approved by DSCA.

10.4.2. The following requirements apply to all ACCP cases.

10.4.2.1. The DoD Component will submit an interface transaction to DIFS moving the case from final to interim closure status. After the status is changed, the IA will send an EA request to DFAS SCA. DFAS SCA will then move the cash from CCSA to the EA reserve account and record the disbursement against the country, case, and line.

10.4.2.2. When post-closure disbursements exceed \$100,000 (in either direction) because of a verified pricing adjustment, the applicable IA must submit a request to DSCA, with an information copy to DFAS SCA, that the case be reopened. Upon receipt of DSCA approval to reopen the case, both the IA and DFAS records must be reclassified to implemented status. If the case is not reopened, then the disbursement must be processed against the CCSA.

10.4.2.3. When all post-closure disbursements/credits have been reported and final costs determined, the DoD Component must certify the case for final status by using the Case Closure Certificate (see the RCG) and by reporting the transaction in DIFS.

10.4.3. The following requirements apply to all BPC cases and cases closed under non-ACCP.

10.4.3.1. All cases must be reclassified to implemented status, except for those with a transaction adjustment of \$200 or less. Such adjustments may be charged to the FMS Administrative Surcharge account. Otherwise, reestablish accounting records at the amounts recorded at the time closure certification occurred. Reclassification to implemented status must occur in both the IA and DFAS SCA records.

10.4.3.2. All post-closure disbursements or credits must be recorded in an undistributed account until case records are reactivated.

10.4.3.3. When post-closure activity results in exceeding the case value, a modification to the case is required.

10.4.3.4. When cases are reactivated, the IA must request additional OA, commence reporting status of funds data, request EA, process disbursement/credit transactions, and report adjusted delivery information via the delivery transaction.

10.4.3.5. Once the disbursement/credit and billing processes are complete, DFAS SCA must bill the FMS Trust Fund purchaser. The IA must recertify the case for closure as specified in paragraph 10.3.

10.4.3.6. For FMS cases where funds have canceled, irrespective of funding source, DSCA will provide guidance on how to proceed and how invoices will be paid.

10.5 Reopening FMS Cases

Normally, closed cases will not be reopened. If the FMS purchaser requests to reactivate a closed case, first determine if there is a case already implemented and available or if a new case should be developed. Opening a closed case (interim or final) is a last resort and requires DSCA approval. See SAMM, Chapter 16, for additional information on reopening cases.

11.0 WRITE-OFF AUTHORITY

An IA that determines unresolved reconciliation issues exist for a case may write off those imbalances using write-off authority guidelines. The IA is responsible for providing all vouchers it prepares citing the FMS Administrative Surcharge account to DFAS SCA.

*11.1 Problem Disbursements

For problem disbursements (unmatched disbursements, negative unliquidated obligations, and in-transit disbursements) up to \$2,500 per transaction, refer to Volume 3, Chapter 11 for an explanation of the problem disbursements policies. The DSCA OBO and DFAS SCA are responsible for ensuring detailed procedures are issued to the FMS community. Problem disbursements greater than \$2,500 should be brought to the attention of DSCA [Comptroller](#) for resolution, provided those problem disbursements have not exceeded the Volume 3, Chapter 11 processing timelines. See [SAMM C16.2.16.1](#) for additional information.

11.2 Other FMS Financial Transactions

For all other types of FMS financial transactions, up to \$200, charge the FMS Administrative Surcharge account for the amount required to affect prompt financial reconciliation as prescribed in the DSCA annual case review requirement in the SAMM, Chapter 16. For write-off adjustments performed while readying a case for closure, DFAS SCA will provide DSCA

OBO (Financial Reporting and Compliance) with a quarterly summary of closure certificates received in which amounts have been charged in accordance with this paragraph. A comment must be included in the remarks/comments section of the Case Closure Certificate when these write offs are used.

12.0 ANTIDEFICIENCY ACT (ADA) VIOLATIONS AND ADVERSE FINANCIAL CONDITION REPORTS

12.1 ADA Violations

For purposes of the ADA, appropriated funds are not limited to those funds specifically appropriated by Congress to federal agencies from the general funds of Treasury. Funds available to agencies are considered appropriated if made available for collection and expenditure pursuant to specific statutory authority, regardless of their source. In applying the ADA, the FMS Trust Fund is considered to be, and will be, treated as appropriated funds. Therefore, the ADA applies to transactions involving the FMS Trust Fund.

12.1.1. Types of Potential Violations. Potential violations may occur in FMS Trust Fund transactions when:

12.1.1.1. Issuing OA or awarding an FMS contract without a signed LOA;

12.1.1.2. Obligating or expending FMS case funds for an unauthorized purpose, including purposes not provided for by law;

12.1.1.3. Violating apportionments or indemnity clauses; or

12.1.1.4. Incurring obligations on a BPC case where the financing appropriation's period of availability to incur new obligations has expired. Additional information on potential violations of the ADA is in Volume 14, Chapter 2.

12.1.2. Identifying and Reporting Potential Violations of the ADA. Detailed guidance for identifying, investigating, and reporting violations under the ADA is in Volume 14. Due to the complexities of provisions in the AECA, it is important to consult with appropriate legal counsel and comptroller officials on potential violations of the ADA for FMS.

12.2 Adverse Financial Conditions

Other reportable events occur when FMS case records are out of balance, but these conditions do not necessarily meet the criteria of violations discussed in paragraph 12.1. These conditions are adverse financial conditions and occur when financial reports show that: OA exceeds case or line-item level values, commitments or obligations exceed OA at case or line-item level, total disbursements exceed obligations at case or line-item level, or EA is not requested prior to disbursement. Adverse financial conditions are reported using the same format used for ADA violations.

12.2.1. Reporting Requirements for Adverse Financial Conditions

12.2.1.1. DFAS SCA has the responsibility for determining reportable conditions and notifying IAs of adverse conditions involving EA. DFAS SCA must provide a monthly analysis report to the DoD Components identifying if disbursements are greater than EA at the country case level, or if EA was requested, remained unused, and was not returned at the end of the month. The DoD Components must review the listings within 15 calendar days of receipt and provide DFAS SCA an explanation of the discrepancy, the required corrective action, and when such action will be processed. This information will be shared with DSCA.

12.2.1.2. DoD Components and IAs have the responsibility to resolve adverse conditions involving obligations or expenditures of funds in excess of approved authority at any level lower than case level.

12.2.2. Exceptions to Reporting Adverse Financial Conditions. Reports need not be submitted for within-scope cost increases in either of the following circumstances:

12.2.2.1. Obligation(s) in excess of the “Total Estimated Cost” shown on the LOA occurs, and a modification is prepared by the DoD Component and submitted to the purchaser through appropriate channels within 60 calendar days of the date of the transaction that resulted in the unfavorable financial condition; or

12.2.2.2. Obligation(s) or expenditure(s) in excess of approved authority occurs, the excess amount results from the posting of duplicate or erroneous obligation/expenditure transactions or the posting of obligations from inventory systems, and corrective action is taken within 60 calendar days of the transaction date. These conditions, however, could indicate weaknesses in internal controls and administrative action may be required to improve systems design or to prevent recurrence.

Table 3-1. Cost Elements

	Cost Element	Appropriation Reimbursed
A.	Services of Military Personnel	
A.1.	Composite standard military pay rate	Military Personnel (MILPERS)
A.2.	Leave and holiday factor when applicable (see Chapter 7, paragraph 20.2)	MILPERS
A.3.	Personnel support costs	Operation and Maintenance (O&M), 97*0130, “Defense Health Program, Defense”
A.4.	Retirement cost prior to October 1, 1984	Miscellaneous Receipts Account 3041
A.5.	Retirement cost after September 30, 1984	MILPERS
A.6.	Medicare-Eligible Retiree Health Care accrual	Miscellaneous Receipts Account 3041
B.	Services of Civilian Personnel including DWCF Personnel	
B.1.	Salary cost and wages	O&M, Research, Development, Test, Evaluation (RDT&E), and DWCF as applicable
B.2.	Leave and holiday factor when applicable	O&M, RDT&E, and DWCF as applicable (see Chapter 7, paragraph 20.1)
B.3.	DoD-funded civilian retirement costs	O&M, RDT&E, and DWCF as applicable
B.4.	Health and life insurance and other employee fringe benefits	O&M, RDT&E, and DWCF as applicable
B.5.	Civilian unfunded retirement costs and post-retirement health benefits not funded by DoD appropriations	Miscellaneous Receipts Account 3041
C.	Inventory Items	
C.1.	Non-excess procurement funded items which require replacement	Financing procurement appropriations, as applicable, current at the time items are dropped from inventory
C.2.	Non-excess procurement funded item that is not to be replaced within the obligation availability of current procurement appropriations	SDAF
C.3.	DWCF items, including the cost recovery elements for operating costs	DWCF
C.4.	Excess procurement funded principal items	Funds items in accordance with <u>Title 10, U.S.C. § 114(c)(2)</u> , Miscellaneous Receipts Account 3041

Table 3-1. Cost Elements (Continued)

	Cost Element	Appropriation Reimbursed
D.	Nonrecurring cost recoupment charges (Collected as a result of FMS)	SDAF
E.	Transportation	Financing appropriation/fund current at the time transportation is supplied
F.	LSC	FMS Trust Fund Administrative Account
G.	DoD Royalty fee charges	Miscellaneous Receipts Account 3041
H.	Charges for the use of DoD assets (includes depreciation on purchased equipment)	Miscellaneous Receipts Account 3041 Depreciation which is included in DWCF shop rates must be retained by the DWCF
I.	Asset Use	SDAF
J.	FMS contract costs financed by DoD appropriation or fund accounts	Financing procurement appropriation or DWCF, as applicable
K.	Temporary Duty costs financed by appropriation or fund accounts	O&M and RDT&E appropriations current at the time travel is performed, or DWCF, as applicable
L.	Accessorial charge	
L.1.	Packing, crating, and handling (PC&H)	FMS Trust Fund PC&H Account
L.2.	Transportation	FMS Trust Fund Transportation Accounts
M.	FMS Administrative Surcharge	FMS Trust Fund Administrative Account
N.	FMS CAS Surcharge	FMS Trust Fund CAS Account
O.	CAS (This is a combination of cost elements A, B, and K)	MILPERS, O&M, DWCF, or Miscellaneous Receipts Account 3041, as applicable
P.	Interest charge resulting from late payment of billings (DD 645, "Foreign Military Sales Billing Statement") for accrued expenditures	Miscellaneous Receipts Account 3210, "General Fund Proprietary Receipts, Defense Military, Not Otherwise Classified"
Q.	Mailing fee, storage, and publications	O&M or DWCF, as applicable
R.	Inventory losses	Applicable procurement or DWCF, as applicable
S.	Attrition	FMS Trust Fund Attrition Account

Note: DoD Components must maintain internal records of the dollar amounts applicable to each category of collections deposited into Miscellaneous Receipts Account 3041. One decimal sub-account must be used for each type of collection. For example, 3041.3 might be used to designate dollar amounts applicable to non-recurring cost recoupment.

VOLUME 15, CHAPTER 4: “CASH MANAGEMENT”**SUMMARY OF MAJOR CHANGES**

CHAPTER 4

CASH MANAGEMENT

1.0 GENERAL

1.1 Purpose

The purpose of this chapter is to provide policies to ensure cash is available to liquidate Foreign Military Sales (FMS) Trust Fund obligations, as disbursements are due. Funds appropriated by the Congress for defense purposes cannot be used to liquidate obligations resulting from the use of FMS Trust Fund contract authority, except as authorized by law. The FMS purchaser, U.S. Government (USG) appropriation made available to finance FMS Trust Fund purchases, or a third-party payer, must meet the cash requirements (outlay authority) of each FMS Trust Fund purchaser.

1.2 Authoritative Guidance

The Arms Export Control Act (AECA), Public Law 90-629, as amended, codified as [*Title 22, United States Code, Chapter 39*](#) provides the authority and general rules for FMS and commercial sales of defense articles, services, and training. Implementation information on cash management procedures can be found at the Security Assistance Management Manual ([*SAMM*](#)), [*Chapter 9*](#), “Financial Policies and Procedures.”

2.0 RESPONSIBILITIES

[*Executive Order 13637*](#), “Administration of Reformed Export Controls,” delegates authority and responsibility for the administration and functions for Security Assistance (SA), from the President, to the Secretary of Defense and the Secretary of State. The authority of the Secretary of Defense is further delegated in the DoD Directive ([*DoDD*](#)) [*5105.65*](#), “Defense Security Cooperation Agency (DSCA),” to the Deputy Secretary of Defense, to the Under Secretary of Defense for Policy, and finally, to the DSCA Director.

2.1 DSCA

DSCA is responsible for:

2.1.1. Ensuring adequate cash availability in the FMS Trust Fund to meet DoD’s financial requirements;

2.1.2. Identifying the specific issue and remedy should cash flow problems arise (e.g., collection of additional funds or other alternative financial arrangements, adjustments to ordered values, delivery timeframes, or ordered quantity);

2.1.3. Approving Standby Letters of Credit (SBLCs), Federal Reserve Bank of New York (FRBNY) accounts, and Commercial Bank Accounts (CBAs) as they may pertain to FMS financial requirements;

2.1.4. Calculating and approving, on a quarterly basis, the Termination Liability (TL) reserve amounts required to protect the USG against liability if a particular FMS-funded contract (or contract line item number (CLIN)) is terminated prior to completion;

2.1.5. Performing follow-up actions on SA Program arrearages;

2.1.6. Constructing standard payment schedules (to include any contract termination costs); and

2.1.7. Preparing special bills for those customers with approved special billing arrangements (SBAs).

2.2 Defense Finance and Accounting Service (DFAS)

DFAS is responsible for:

2.2.1. Posting purchaser cash deposits within 2 business days of notification when the Defense Integrated Financial System (DIFS) is available. When DIFS is unavailable due to scheduled maintenance, update upon availability;

2.2.2. Posting disbursements by the 20th day of the following month to FMS case accounting records;

2.2.3. Reconciling summary trust fund-level account balances in DIFS with the U.S. Department of the Treasury (Treasury) balance in the Account Summary from the Governmentwide Treasury Account Symbol Adjusted Trial Balance System;

2.2.4. Assuring that approved cash expenditure authority (EA) requests do not exceed the FMS purchaser's cash available balance in the FMS Trust Fund; and

2.2.5. Working with the accounting activities, contract payment offices, and certifying officers as appropriate to:

2.2.5.1. Ensure sufficient cash is available and approve EA requests above a country threshold prior to disbursing FMS funds, when requested;

2.2.5.2. Facilitate resolution, or resolve all rejects of EA to lessen Prompt Payment Act interest payments;

2.2.5.3. Resolve situations where EA was approved but returned without a disbursement; and

2.2.5.4. Ensure EA is obtained prior to processing a transfer, correction of charges against, or credits to the FMS Trust Fund using [Standard Form \(SF\) 1080](#), Voucher for Transfers Between Appropriations and/or Funds, or [SF 1081](#), Voucher and Schedule of Withdrawals and Credits.

2.3 Implementing Agencies (IAs)

IAs are responsible for:

2.3.1. Providing information needed to the DSCA (Operations Directorate, Case Writing Division) for payment schedule preparation at the line-level, in the Defense Security Assistance Management System (DSAMS). The IA will approve the schedule as part of the Letter of Offer and Acceptance (LOA) document coordination/signature process. Additional information on payment schedule preparation is in the SAMM, Chapter 9, paragraph [C9.9.1](#);

2.3.2. Developing progress payment schedules or historical cost curves systematically for DoD major weapon systems (used to determine payment schedule distributions for procured materiel requiring progress payments to contractors), and reviewing the schedules or curves when the acquisition strategy changes;

2.3.3. Reviewing all case payment schedules, at least annually, in preparation for a formal review with the FMS purchaser, or when the case value adjusts by ten percent or more;

2.3.4. Requesting and receiving EA approval prior to processing a disbursement citing the FMS Trust Fund;

2.3.5. Resolving problem disbursements using the authorities found in Volume 3, Chapter 11;

2.3.6. Validating obligations in accordance with the requirements found in Volume 3, Chapter 8, section [3.0](#); and

2.3.7. Performing case reviews including reviewing and reconciling general case and delivery-related data, expenditures/disbursements, and USG financial requirements.

2.3.7.1. If payment schedules are inadequate to meet USG financial requirements, the IA must promptly notify the responsible DSCA Country Financial Director, DFAS Security Cooperation Accounting (SCA), and the FMS purchaser of the additional requirements. The IA must also follow-up on this notification by issuing a revised payment schedule via an LOA modification.

2.3.7.2. During the annual review of the case, if payment schedules overstate USG financial requirements due to delays in contract award, delivery slippages, or other reasons, the IA must issue a revised payment schedule via an LOA modification [or amendment](#). The IA is responsible for ensuring that the USG does not prematurely collect customer funds.

2.4 Payment Activities

Payment Activities are defined as the entities responsible for the payment of invoices either to commercial vendors or payees, or for executing intragovernmental payments or collections. Payment Activities are responsible for requesting and receiving EA approval prior to the certification to a disbursing officer of a voucher for a commercial payment, or an intragovernmental payment or payment refund, which cites the FMS Trust Fund.

3.0 CASH MANAGEMENT CHARACTERISTICS

3.1 Cash in Advance

The FMS purchaser must make cash deposits into the FMS Trust Fund, a DSCA-approved Federal Reserve Bank (FRB), or DSCA-approved CBA for defense articles and services sold under AECA, §§ [21](#), [22](#), and [29](#) in advance of delivery, performance, or payments to contractors, except as provided in subparagraphs [3.1.3](#) and [3.1.4](#). Foreign Military Financing (FMF) and other USG appropriations used to finance a sale executed in the FMS Trust Fund must also make advance cash collections.

3.1.1. AECA § 2761, Sales from Stocks. Payment must be made in advance, unless the President determines it to be in the national interest for payment to be made upon delivery of the article or performance of the service.

3.1.2. AECA § 2762, Procurement for Cash Sales. Without charge to any appropriation or contract authorization otherwise provided, the President may enter into contracts for the procurement of defense articles, defense services, or design and construction services in U.S. dollars, to any foreign country or international organization, if such country or international organization provides the USG with a dependable undertaking:

3.1.2.1. To pay the full amount of such contract that will assure the USG against any loss on the contract; and

3.1.2.2. To make funds available in such amounts, and at such times, as may be required to meet the payments required by the contract and any damages and costs that may accrue from the cancellation of such contract, in advance of the time such payments, damages, or costs are due.

3.1.3. AECA § 2761(d) Exception. The President may determine that delayed payment is in the national interest, and allow payment to be made without interest within 60 calendar days after delivery of defense articles from stock or rendering of in-house defense. In addition, the President may extend the 60 calendar day period to 120 calendar days if the President determines an emergency exists.

3.1.4. AECA § 2762(b) Exception

3.1.4.1. Payment within 120 calendar days after delivery of procured defense articles or rendering of procured defense services requires the following Presidential determinations:

3.1.4.1.1. It is in the national interest to issue letters of offer under this authority, and

3.1.4.1.2. The emergency requirements of the purchaser for the acquisition of such defense articles and services exceed the funds available to the purchaser to make payments on a dependable undertaking basis.

3.1.4.2. Both determinations in subparagraph 3.1.4.1, together with a special emergency request for authorization and appropriation of additional funds to finance such purchases under the AECA, are submitted to Congress for approval.

3.1.5. Initial Deposit. An initial deposit must accompany the accepted LOA to provide the cash advance required to cover the outlays and/or deliveries anticipated until receipt of the first quarterly payment. Several factors affect the initial deposit. On an exception basis, DSCA may approve emergency implementation of an FMS case. The initial deposit may be deferred to a later date agreed to by both the FMS purchaser and DSCA. Refer to the SAMM, Chapter 9, section C9.9 for initial deposit requirements.

3.1.6. Billing. DFAS SCA prepares FMS bills on a quarterly basis. The bills include information as of the end of December, March, June, and September. Payments are due on March 15, June 15, September 15, and December 15. DSCA must approve any deviations from this schedule. The bills must include the cash requirements for the calendar quarter following the payment due date. For example, a bill prepared with December data (due March 15) is to project cash requirements through June. Thus, the deposit for an LOA accepted in January would be the cash required through June, or 6 months of advance cash requirements. See Chapter 8 for a full discussion of the FMS billing process.

3.2 FMS Trust Fund

The FMS Trust Fund is managed as a single cash entity, regardless of the source of the deposits. All FMS Trust Fund deposits are accounted for at purchaser and FMS case level by source of financing. Examples of funds include FMF (FMS Credit and FMS Credit (non-repayable)) and the Military Assistance Program (MAP) Merger. Examples of other types of funds are a purchaser's national funds, which include third-party funds, and other DoD appropriated funds.

3.3 SA and Security Cooperation (SC) Funds

The USG may provide SA or SC funds annually to selected allied or friendly countries to finance the purchase of U.S. defense articles and services. It is, therefore, in the USG's interest to use and manage these limited funds as effectively as possible.

3.3.1. In determining the order of funds to be paid into the FMS Trust Fund, DSCA normally draws down MAP Merger funds up to the amount reserved for each case prior to using [Building Partner Capacity \(BPC\)](#) available FMF funds, followed by requesting the FMS purchaser to use other funds. Likewise, MAP Merger funds on deposit in the FMS Trust Fund will be expended prior to FMF funds, followed by the expenditure of the purchaser's national funds.

3.3.2. SA funds that become excess due to FMS case reduction or closure may be reapplied to other FMS cases with DSCA approval. However, FMS Credit Funds must not be refunded to the FMS purchaser unless those funds originated from loans, have been fully repaid by the FMS purchaser, and no delinquent accounts receivable exist.

3.3.3. SC funds are USG appropriations made available in furtherance of the BPC efforts. These funds are deposited into the FMS Trust Fund to enable the acquisition and delivery of articles and services for this purpose. Usually, BPC funds cannot be co-mingled with SA funds on any FMS case. [Until such time that BPC funds are fully decoupled from the FMS Trust Fund, strict attention should be given to ensure that the original fiscal identity of these appropriated funds are not lost, leading to fiscally improper financial transactions.](#)

3.4 SBLC

DSCA is authorized to approve an SBLC arrangement instead of the TL prepayment requirements described in subparagraph [5.1.2](#). An FMS purchaser, with prior approval from DSCA, may provide DSCA with a properly executed, separate SBLC to cover uncollected TL amounts for a billing quarter. In such an event, it will be necessary to deposit into the FMS Trust Fund only the amount of funds needed to cover anticipated expenditures and disbursements during the billing cycle. Refer to SAMM, Chapter 9, paragraph C9.9.1 and/or contact DSCA (Country Financial Management Division) for details on an SBLC.

3.5 FRB Accounts

3.5.1. DSCA is authorized to enter into a national funds investment account agreement with an FMS purchaser and the FRBNY for any country that finances all or a significant part of its FMS programs with national funds. The FRBNY accounts will normally not be considered for a country that finances FMS programs primarily with SA funds.

3.5.2. Upon account establishment, DSCA must compute the amount of funds to be transferred from the FMS Trust Fund to the purchaser's FRB investment account. After the establishment of the investment account, the purchaser remits all national funds payments to the FRBNY, usually identified to specific FMS cases. Payments made from FMF (FMS Credit (non-repayable) only) funds will be made directly to the FMS Trust Fund unless otherwise specified in U.S. law and/or DSCA policy.

3.5.3. DFAS SCA is authorized by the account agreement to make periodic drawdowns, as needed (usually monthly), from the FRBNY account into the FMS Trust Fund, to ensure sufficient funds are available to make payments during the succeeding 30 calendar days.

3.6 CBAs

In accordance with DoDD 5105.65, DSCA is authorized to enter into a national funds investment account agreement with an FMS purchaser who has a duly authorized CBA agreement with a commercial bank. This agreement allows the FMS purchaser to deposit FMS payments into a CBA and earn interest. DSCA manages the CBAs, which operate like the FRBNY accounts. However, funds originating from USG appropriations (e.g., FMF funds (repayable and non-repayable credits) or BPC cases) must not be deposited in this account, and TL amounts must not reside in the CBA. Any deviations must have DoD Office of the Deputy Chief Financial Officer written approval. The USG is not liable for any financial losses resulting from the deposits of the FMS purchaser's funds in the account. However, funds so deposited are considered public funds within the meaning of [*Title 31, Code of Federal Regulations, part 202*](#), Depositories and Financial Agents of the Federal Government. For specific details regarding CBA agreements, refer to SAMM, Chapter 9, Section C9.11.3.

3.7 Disbursements

All cash disbursements for FMS Trust Fund purchases must be identified by FMS case identifier and line, and must not exceed the cash available in the purchaser's FMS Trust Fund account (to include MAP Merger and FMF funds). A specific case may be in a deficit cash position with the deficit being funded by the purchaser's cash advances on other cases. The cash deposited by country "X," however, must not be used to liquidate obligations incurred for country "Y" unless an FMS Trust Fund purchaser authorizes the use of its excess cash deposits to meet the cash requirements of another purchaser. A reportable adverse financial condition exists when a single purchaser's FMS Trust Fund cash summary account is in a deficit position (credit balance). See Chapter 3, section [12.0](#) for more information on adverse financial conditions.

4.0 PAYMENT SCHEDULES

Payment schedules are a consolidated formal presentation to the FMS purchaser of the estimates of cash advances needed to meet USG financial requirements. See section [5.0](#) for cash requirement calculations. The Department of Defense (DD) Form 645, FMS Billing Statement, reflects the amounts shown on the current case payment schedule or the quarterly forecast of USG financial requirements, whichever is greater. If financial requirements or anticipated disbursements exceed the current payment schedule, or SBAs have been negotiated, the billing

statement, not the payment schedule, contains the required payment amount. The IA must continually monitor USG financial requirements and confirm, at least annually, that payment schedules are accurate to ensure cash is available in an FMS purchaser's trust fund account when disbursements are needed. The DSCA Financial Policy and Analysis Division is responsible for issuing detailed guidance for payment schedule preparation. See SAMM, Chapter 9 for more information on payment schedule preparation and billing requirements.

4.1 Requirements

Payment schedule requirements will be included in each LOA in the format required in the SAMM, Chapter 9, section C9.9.

4.2 Timing

As a standard, new sales agreements can enter the billing system at DFAS SCA through the 10th calendar day of the last month of the quarter. Therefore, if a new agreement is anticipated to be accepted by the purchaser and received by DFAS SCA after the 10th calendar day of the last month of the quarter, the DoD Component should require an initial deposit for the first two quarters of the agreement.

4.3 Initial Deposit

If an LOA requires a deposit upon acceptance, the deposit must equal the FMS administrative surcharge required, plus all anticipated costs and contingencies (e.g., contract holdback and TL), until the first billing statement can be rendered and monies collected.

4.4 Payment Schedule Revision

It is essential to prepare payment schedule revisions in the manner consistent with the parameters of the FMS billing cycle. Since the payment schedule is the basis for billing the FMS purchaser, there must be an audit trail between the original payment schedule and any revision(s).

4.4.1. IA case managers are required to initiate payment schedule revisions when the LOA acceptance date is extended beyond the end of the billing quarter, to ensure that the purchaser has an LOA document that matches the payment schedule created in the billing system.

4.4.2. The payment dates shown on the revised payment schedule must be compatible with the FMS billing cycle. The payment schedule dates are in the [SAMM, Chapter 9, Table C9.T16](#).

4.4.3. Payment schedule revisions due to an amendment (change in scope) or a modification must be in accordance with subparagraphs [2.3.7](#).

5.0 CASH REQUIREMENT CALCULATIONS

5.1 Calculation of Initial Estimate of Cash Needed

Calculation of the cash advance needed to meet the USG financial requirements for a specific FMS case requires dividing the costs into broad cost categories. The first category is the portion of case value under the authority of AECA § 21, which includes sales from DoD inventories and the services of DoD personnel. The second category is the portion of case value under the authority of AECA § 22, which includes procurement of hardware or contractor services for the FMS purchaser. The third category is the portion of the case under the authority of AECA § 29, which involves rendering design and construction services from DoD resources.

5.1.1. Initial Estimates of Cash Needed to Meet USG Financial Requirements in Support of the AECA § 21 Effort, When Dependable Undertaking is Authorized. The cash advance needed to meet USG financial requirements for the portion of the case classified as an AECA § 21 sale must include the estimated earned reimbursements to be realized by DoD appropriation/fund accounts through the 3-month period after the payment due date of the billing statement issued by DFAS SCA.

5.1.1.1. Sales From Inventory. The drop from inventory creates the earned reimbursement, to include applicable administrative surcharges and accessorial charges. Therefore, the applicable FMS case manager will develop the estimated portion of cash needed to meet USG financial requirements based on anticipated requisition release dates.

5.1.1.2. Sales of DoD Services. Base the estimates of earned reimbursement for DoD services provided directly to the FMS purchaser, and for DoD services provided in support of an AECA § 22 contract, on the estimated portion of the services that will occur in the applicable billing period. Services also include applicable administrative surcharges and accessorial charges.

5.1.2. Initial Estimates of Cash Needed to Meet USG Financial Requirements in Support of the AECA § 22 and § 29 Effort, When Dependable Undertaking is Authorized

5.1.2.1. The cash advance needed to meet USG financial requirements for the portion of a case classified as an AECA § 22 or § 29 sale, must include estimated disbursements to contractors for contractor invoices and potential disbursements to contractors if the purchaser does not make additional cash deposits in a timely manner, or the purchaser unilaterally cancels the case. Potential disbursements to contractors include payment of contract holdbacks and termination costs that would result if the work were stopped when the cash available to pay contractor invoices is exhausted. The estimate of cash advance needed to meet USG financial requirements covers the period extending through the 3-month period after the payment due date of the FMS billing statement.

5.1.2.2. Base the cash advances needed to meet USG financial requirements in support of procurements for FMS purchasers on normal administrative and procurement lead-times for the type of commodity being procured. The use of progress payment schedules from contractors, when available, is preferred over relying on default cost curves when developing LOA

payment schedules. Tables 4-1 and 4-2 show the total cash advance needed to meet USG financial requirements for contracts in terms of percentage of contract costs. The percentages are a function of procurement lead-times. Tables 4-1 and 4-2 also show the percentage of the contract value required as a reserve for potential termination costs and contract holdback in the absence of an SBLC.

5.1.2.2.1. Potential termination costs represent the liability the USG has to contractors in the event termination occurs. Such costs include all accrued direct and indirect costs, as well as profits and subcontracts not covered by progress payments to the contractor, plus any penalty contract termination charges that might be realized. Potential termination costs do not include price increases to other ongoing contracts resulting from reductions in procurement quantities.

5.1.2.2.2. In the absence of procurement history for a particular system, a similar system, or cost curves obtained from the prime contractor, Tables 4-1 and 4-2 may be used. The IAs must first exhaust all other avenues for obtaining forecasting or historical data from contractors and internal sources prior to using Tables 4-1 and 4-2 as the basis for calculating expenditure and TL prepayment requirements.

5.1.2.2.3. The percentages in Tables 4-1 and 4-2 are for procurement lead-times ranging from 6 months to 60 months. The tables may be used for the development of payment schedules included in the LOA. The percentage figures shown in Tables 4-1 and 4-2 include all applicable costs (e.g., progress payment amounts, contractor holdback, and potential TL). The amount of the cumulative monthly payment applicable to the TL/contractor holdback is shown in the second column (% TL) for each procurement lead-time.

5.1.2.2.4. The TL/contractor holdback amount is a percentage of the Cumulative Amount of Contract Cost. TL/contractor holdback amounts are cumulative throughout the life of the case, and the required percentages decline toward the end of the life of the case.

5.2 Administrative Surcharge Included in Initial Deposit

The initial deposit to accompany the LOA must include the FMS administrative surcharge expense and the cash advance needed to meet USG financial requirements (to include other applicable surcharges and accessorial charges) for the time between LOA acceptance and the first payment due date. The FMS administrative surcharge amount included in the deposit is determined by the total amount of the surcharge.

5.2.1. For cases where the calculated administrative surcharge is \$30,000 or less, the entire administrative surcharge value is recouped as part of the initial deposit. For cases that have a Small Case Management Line (SCML), the entire value of the administrative surcharge and SCML is recouped as part of the initial deposit (refer to SAMM, Chapter 9, paragraph C9.4.7, for more information on SCML).

5.2.2. For cases where the calculated administrative surcharge is greater than \$30,000, one-half of the administrative surcharge is recouped as part of the initial deposit. The remainder is proportionally recouped based on the dollar value of items or services delivered in each subsequent year.

5.3 Estimate of Cash Needed to Collect Nonrecurring Cost (NC) Recoupment Charges

NC Recoupment Charges are earned when the title is passed to the FMS purchaser and should be collected within 30 calendar days of being earned. The title is normally transferred at the point of origin, at the time DoD releases the item from DoD's inventory, or at the time the vendor ships the item. Refer to [SAMM, Chapter 7, section C7.3](#) for more information on title transfers.

5.4 Forecasting Procedures

Alternative forecasting procedures may be used for requisition cases (i.e., Cooperative Logistics Supply Support Arrangement and other repair parts cases). Most payment schedules for these cases tend to be overstated because of variations in both requisitioning and supply actions. To prevent substantial over-billing, each IA must review and update payment schedules in accordance with subparagraph [2.3.7.2](#).

6.0 QUARTERLY TL RESERVE REQUIREMENT

TL Reserve is the amount of prepayments placed in reserve on a quarterly basis. For FMS purchasers with an FRB account, the TL Reserve is maintained in their FRB account, provided sufficient funds are on deposit in the FRB to cover the TL reserved amount. Otherwise, the FMS purchaser's Trust Fund TL Reserve Account will be utilized. The TL Reserve is not an additional charge or cost. These funds are fenced for potential termination costs; however, they do not necessarily represent the entire cost to cancel the contract. These funds cannot be used for normal disbursement activities (e.g., to pay for articles/services, administrative surcharges, or accessorial charges).

7.0 CONTRACTOR REQUEST FOR PROGRESS PAYMENTS AND REIMBURSEMENT OF COSTS UNDER CONTRACTS INCLUDING FMS REQUIREMENTS

Current contracting procedures permit the procurement of both DoD and FMS purchaser(s) requirements in a single contract. Allocate the amount to be billed to DoD and to each FMS purchaser to implement FMS cash flow requirements. The part of the bill applicable to an FMS purchaser can be paid only to the extent that the FMS purchaser has sufficient cash available in its FMS Trust Fund account.

7.1 Contractor Allocations

Per the [Defense Federal Acquisition Regulation Supplement, part 252.232-7002](#), "Progress Payments for Foreign Military Sales Acquisitions," DoD contracts that include FMS requirements must require the contractor to:

7.1.1. Submit a separate progress payment request for each progress payment rate;

7.1.2. Submit a supporting schedule showing:

7.1.2.1. The amount of each request distributed to each country's requirements,
and

7.1.2.2. The total price per contract line item applicable to each separate progress
payment rate;

7.1.3. Identify in each progress payment request the contract requirements to which it
applies (i.e., FMS or USG);

7.1.4. Calculate each request on the basis of the prices, costs (including costs to complete),
subcontractor progress payments, and progress payment liquidations of the contract requirements
to which it applies; and

7.1.5. Distribute costs among contract line items and countries in a manner acceptable to
the Administrative Contracting Officer.

7.2 Allocation of Payments on Contracts

Allocate progress payments in accordance with Volume 10, Chapter 10, paragraph 4.2. In
addition, DoD contracts that include FMS requirements must identify amounts by accounting
classification reference numbers (ACRNs), CLINs, and sub-line item numbers (SLINs), if
applicable. This will enable the paying office to match payments to the applicable obligations.

7.3 Contract Payment Offices

The contract payment offices must require that all bills submitted by contractors for
payment include the proper ACRN/CLIN/SLIN. Contract payment offices must ensure they have
all the documentation required to support payment (refer to Volume 10, Chapter 8, section 3.0),
and that payments are applied to the proper ACRN/CLIN/SLIN.

8.0 DEPOSIT OF PURCHASER CASH INTO TREASURY ACCOUNTS

8.1 General

DD 645s, SBAs, and LOA financial instructions direct that foreign purchasers forward
payments (initial deposits on basic LOAs, amounts due with LOA amendments, or official billing
statement payments) by wire transfer or mailed check.

8.1.1. Wire transfers are the preferred method for the foreign purchaser to forward
payments.

8.1.1.1. Send wire transfers to the Treasury Account at FRBNY, using the standard Federal Reserve Funds Transfer format. The Federal Reserve System (FRS) will accept wire transfers only from banks that are members of FRS. Foreign banks must go through a U.S. correspondent bank that is a member of FRS.

8.1.1.2. DFAS SCA retrieves wire transfers daily from the Treasury Financial Communications System and prepares collection vouchers from this data for crediting FMS purchasers.

8.1.2. Make checks payable to the U.S. Treasury and mail to Disbursing Operation (DFAS-IN/JFD), DSSN 3801 Center Collections - SCA, 8899 E. 56th Street, Indianapolis, IN 46249-6300, showing payment from (insert purchaser) for (insert case identifier). Any recipient of a check from an FMS purchaser is responsible for depositing the check into a Treasury account within one working day of receipt.

8.2 Misrouted Payments

When a recipient other than DFAS SCA is making a check deposit, the deposit must be processed as a courtesy deposit for DFAS SCA. The following procedures apply:

8.2.1. Prepare a deposit ticket utilizing the Over the Counter Channel ([OTCnet](#)) application. For information on OTCnet see Volume 5, Chapter 11, section [8.1](#);

8.2.2. Process the deposit through an FRB or supporting member bank; and

8.2.3. Send a copy of the deposit ticket notification to DFAS-IN/JAX, ATTN: [Cash Accounting](#), 8899 East 56th Street, Indianapolis, IN 46249-6300. Attach the supporting documentation received with the misrouted payment. DFAS SCA must voucher the collection into the FMS Trust Fund on receipt of the supporting documentation.

9.0 EA

EA is an FMS country-level authority, which allows payments to be made against obligations previously recorded against a country's trust fund account. EA is formal segregation of trust fund cash in the FMS Trust Fund, making the cash no longer available for any other purpose.

9.1 EA Requirements

9.1.1. Most country trust fund disbursements require EA (including expenditure adjustments). All EA for administrative fund disbursements is accomplished by DFAS-IN/SCA.

9.1.2. Certifying officers engaged in FMS Trust Fund certification must verify EA was obtained. EA can be obtained by contacting DFAS SCA, or interactively from DIFS.

9.1.3. DFAS SCA can only approve and issue EA when sufficient cash is available in an FMS purchaser's trust fund account.

9.1.4. EA must be obtained during the same calendar month in which the ensuing disbursement will be made.

9.1.5. If the disbursement is not made in the same month as the EA request, the EA must be returned and reissued the subsequent month.

9.1.6. Failure to request EA prior to disbursement is subject to reporting and disciplinary requirements. Administrative control of funds and Antideficiency Act violations are outlined in Volume 14.

9.2 Cash Advances

A cash advance to an appropriation account must be obtained when a cash disbursement for an FMS contract would result in the applicable appropriation account being placed in a negative cash position. The amount requested must be equal to anticipated disbursing demands for a 30 calendar day period. Liquidation of outstanding advances (earning the advance through payment to contractors) must be reported to DFAS SCA monthly. The objective is to limit the amount and length of time that outstanding advances remain against the trust fund.

9.3 Cash Flow Problems

DFAS SCA notifies the DSCA Country Financial Director when sufficient, unencumbered cash is not available for DFAS SCA to provide cash advances or EA, and contractor billings cannot be paid by the due date. The DSCA Country Financial Director then takes appropriate action as outlined in subparagraph [2.1.2](#).

CHAPTER 6

CASE FILES

1.0 GENERAL

1.1 Overview

1.1.1 National Archives and Records Administration (NARA). Within the Federal Government, NARA is responsible for promulgating procedures for the disposal of all U.S. Government (USG) records. The NARA Records Management Program provides guidance and assistance for the management and disposition of Federal records in the General Records Schedules (GRS).

1.1.2. DoD Records Management Program. The DoD Records Management Program outlines records management policy and responsibilities. Within DoD, there are 26 Records Management Programs, each with an appointed Federal Agency Records Officer, Records Management Manual, Instruction or Regulation, and Records Disposition Schedules (RDS). DoD's RDS must comply with NARA guidelines and may include additional financial records used in DoD business operations that are not listed in the NARA GRS.

1.1.2.1. DoD requires documentation to be retained for longer than the NARA requirement if the documentation will be used to support an audit. See Volume 1, Chapter 9, [subparagraph 2.1.3](#) and Figure 9-1 for more information.

1.1.2.2. The Defense Security Cooperation Agency (DSCA) may issue exceptions to retention periods if there is a determination that Security Cooperation cases (hereafter "case files") are needed for any other business purpose that may require access to the documentation (e.g., records associated with ongoing litigation proceedings and country suspensions). Consult your DoD-appointed Federal Agency Records Officer for additional guidance regarding Foreign Military Sales (FMS) records retention.

1.1.3. Case Files. Case files may be maintained in a decentralized manner by the various activities having responsibility for actions associated with the case. Each activity must maintain a comprehensive record of relevant correspondence, worksheets, and officially prepared forms that constitute a complete audit trail from the time of case initiation through case closeout or retirement.

1.1.4. Electronic Files. Reference to the Defense Security Assistance Management System (DSAMS) and other electronic files (including e-mail correspondence and compact disk read-only memory) is encouraged, provided such files are complete, secure, and readily retrievable. Electronic imaging is strongly encouraged to preserve documentation (e.g., historical documents and signature pages), when retention of the paper originals, or a copy of such documents, is materially expensive but necessary to protect USG interests.

1.1.5. Supporting Documentation. The case manager must maintain a directory of supporting documentation locations. All supporting documentation must be reviewed carefully prior to disposal or retirement. In addition, coordinate with your DoD-appointed Federal Agency Records Officer for appropriateness and any potential litigation holds. A closed case from an FMS purchaser perspective may remain open from a DoD accounting perspective.

1.2 Purpose

This chapter establishes guidance on maintaining documents for case files. The guidance is designed to facilitate uniformity of case file maintenance and ensure that all necessary documentation is readily available and retrievable by the appropriate activities. All policy applies regardless of storage media (i.e., electronic and/or hard copy).

1.3 Authoritative Guidance

Authorities for case file policy include:

1.3.1. [Title 36 of the Code of Federal Regulations, subchapter B, parts 1220-1239](#), “Records Management;”

1.3.2. The Federal Acquisition Regulation ([FAR](#)) [4.805](#), “Storage, Handling, and Contract Files;”

1.3.3. NARA, [GRS 1.1](#), “Financial Management and Reporting Records,” which maintains FMS minimum document retention requirements; and

1.3.4. [DoD Instruction \(DoDI\) 5015.02](#), “DoD Records Management Program.”

2.0 CONCEPTS AND REQUIREMENTS

2.1 General

2.1.1. Maintain case files in official folders, uniformly titled, and filed by section as discussed in paragraph 3.1. When more than one file folder is required, the folders must be appropriately numbered (e.g., 1 of 2 or 2 of 2). The documents placed in each folder must be maintained in chronological sequence by section.

2.1.2. When a case is implemented, each implementing DoD Component must identify and direct which supporting activities are to maintain the required documentation on file. For example, a copy of the Letter of Offer and Acceptance (LOA) may be on file with several activities, while copies of contracts applicable to that case would have a more limited distribution.

2.1.3. Certain records associated with a case may be voluminous listings that are too large to be printed and placed in official folders. Instead of filing the listing in the folder, annotate on the General Information Cover Sheet, or within the file itself, where such electronic information is located. The purpose of filing such documents, or cross-referencing notes to such documents,

is to maintain the integrity of the case audit trail and to consider all applicable information during case execution and at case closure.

2.1.4. The uniform case folder, as outlined in section 3.0, lists those documents considered to be of primary relevance on a DoD-wide basis. DoD Components may also wish to include additional documents as part of the case file. The inclusion of such documents is encouraged, and it is recommended that they be filed in the form of numbered appendices following in sequence after the required sections.

2.1.5. The value of the uniform case folder is in maintaining a complete and accurate record for audit purposes and ensuring a standard and systematic approach to case file maintenance. With management support, it may also serve as a checklist of planned and completed actions, thereby facilitating the case execution and closure process. In addition, the existence of a comprehensive and well-maintained file facilitates supervisory reviews and brings greater efficiency to the transfer of ongoing case management responsibilities.

2.2 Responsibilities

Each DoD Component, Implementing Agency (IA), and the Defense Finance and Accounting Service (DFAS), in its role as an accounting service provider, is responsible for maintaining its respective portion of the case file as required in section 3.0.

3.0 UNIFORM CASE DOCUMENTATION

3.1 Documentation Requirements

The minimum required documentation for complete and effective case management includes the following sections:

3.1.1. General Information Cover Sheet: see Table 6-1;

3.1.2. Letter of Request (LOR) Documentation: see Table 6-2;

3.1.3. Planning Information: see Table 6-3;

3.1.4. Security Assistance (SA) Survey Documentation: see Table 6-4;

3.1.5. FMS Contractual Instruments Documentation: see Table 6-5;

3.1.6. Financing Arrangements Documentation: see Table 6-6;

3.1.7. Financial Control Documentation: see Table 6-7;

3.1.8. Implementation Directives Documentation: see Table 6-8;

3.1.9. DSAMS and DSCA 1200 System Update Documentation: see Table 6-9;

- 3.1.10. Case Execution Documentation: see [Table 6-10](#);
- 3.1.11. Special Logistics Documentation: see [Table 6-11](#);
- 3.1.12. Accessorial Charges Documentation: see [Table 6-12](#);
- 3.1.13. Government Furnished Materiel (GFM) Documentation: see [Table 6-13](#);
- 3.1.14. FMS Billing Documentation: see [Table 6-14](#);
- 3.1.15. Supply Discrepancy Report (SDR) Billing Documentation: see [Table 6-15](#);
- 3.1.16. Review Information: see [Table 6-16](#);
- 3.1.17. Case Closure Documentation: see [Table 6-17](#); and
- 3.1.18. Reopened Case Documentation: see [Table 6-18](#).

3.2 Documentation Maintenance and Disposition

The documentation must be accumulated throughout the life of the case from inception through final case closure. IAs may retire, but not destroy, closed case file records to document storage areas upon final case closure by DFAS. DFAS may retire, but not destroy, closed case file records, including delivery listings, no earlier than one year from the date of the latest case-related correspondence with the purchaser or final case closure, whichever is later. DoD Components, IAs, and DFAS must maintain an accurate record of the location of all retired records to ensure they can be located as needed. For more detailed guidance on records retention policy, consult the appropriate DoD-appointed Federal Agency Records Officer using the link provided in subparagraph [1.1.2](#).

Table 6-1. General Information Cover Sheet

General Information Cover Sheet

2. Program management plans
3. Implementing project directives
4. Implementation letters
5. Amendments or updates to #1-4

Table 6-9. DSAMS and DSCA 1200 System Update Documentation

DSAMS and DSCA 1200 System Update Documentation
Copies of worksheets or other evidence that the DSAMS and DSCA 1200 systems were updated at the appropriate times

Table 6-10. Case Execution Documentation

Case Execution Documentation
1. Documents substantiating annual financial and logistical reconciliation (see Chapter 7)
2. Documents substantiating payment schedule revisions (see Chapter 4) to include purchaser-requested schedules (and approvals)
3. Purchase requests
4. USG contracts with commercial vendor, to include statements of work, as applicable
5. Work requests and project orders
6. Reimbursable Orders. Include records management documentation as defined in Section 4 of DoDI 4000.19 , "Support Agreements," to substantiate general terms and conditions. Also retain accepted order documentation such as Military Interdepartmental Purchase Requests (MIPR) and/or Interagency Agreements, and applicable receipt and acceptance documentation
7. Assisted Acquisitions. Accepted MIPR and/or funding documentation. Copies of contract documentation and associated statements of work, as applicable
8. Internal billing documentation (e.g., Standard Form 1080 , Voucher for Transfers Between Appropriations and/or Funds; DD Form 250 , Material Inspection and Receiving Report (or automated system equivalent); temporary duty orders/vouchers)
9. Receipt document from FMS purchaser or purchaser's representative (a freight forwarder), with official purchaser signature
10. Invitational travel orders
11. DFAS SCA-prepared Command Pay Listing (if filed in the case file folder)

Table 6-11. Special Logistics Documentation

Special Logistics Documentation
1. Cooperative Logistics Supply Support Arrangements FMS Order I Equity Listing
2. Concurrent Spare Parts listing
3. Other (e.g., Air Force Security Assistance Management Integration System local management reports)

Table 6-12. Accessorial Charges Documentation

Accessorial Charges Documentation
Applicable documentation to substantiate the reporting of actual (instead of the estimated percentage) packing, crating, and handling (PC&H); transportation; port loading and unloading; and staging costs

Table 6-13. GFM Documentation

GFM Documentation
Note: The inclusion of GFM as part of a case requires special attention from a financial standpoint since the GFM becomes a part of the major item being procured. Unless this information is included as part of another section, this section should have the documentation listed in #1-3
1. Listing, by contract number, of contracts under which GFM may be requisitioned by contractors
2. Listing of GFM by requisition or document numbers
3. Worksheets/backup data showing that PC&H and transportation costs for other than Defense Working Capital Funds items has been added to the base price of GFM

Table 6-14. FMS Billing Documentation

FMS Billing Documentation
Note: The detailed nature and size of this documentation may render inclusion in the case folder impractical. In such instances, it is sufficient to maintain a local record or checklist showing that the documentation and lists have been reviewed, as necessary, to monitor progress, detect errors, and perform satisfactory financial oversight.
1. DD Form 645, FMS Billing Statement (or automated system version equivalent), and financial forecast attachments. Replies to purchaser requests for adjustments are filed in a subsequent section. Include any documents pertaining to special billing arrangements directly associated with the case.
2. Documentation relating to delivery transactions
3. DFAS SCA worksheets and correspondence maintained in the case file folder appendices
4. Correspondence related to authorized exceptions to normal billing procedures

Table 6-15. SDR Billing Documentation

SDR Billing Documentation
1. SDRs
2. Correspondence/documentation relative to such discrepancies
3. DFAS SCA reply to purchaser requests for listing of adjustments

Table 6-16. Review Information

Review Information	
The minutes and other correspondence resulting from:	A. FMS implementation review
	B. Country program/case review
	C. FMS financial management review

Table 6-17. Case Closure Documentation

Case Closure Documentation
1. The DoD Component's case closure certification to DFAS SCA. The final DD Forms 2060 and 2061s should be on file in the "Financial Control Documents" section
2. Any correspondence with DFAS SCA, or other organizations, relative to the case closure certification
3. The final DD Form 645 (DFAS SCA only)
4. The case closure checklist (see SAMM, Appendix 7 Chapter 4, A7.C4.3)
5. The case closure notification sent to DFAS SCA via e-mail or fax, as well as the system generated CII case closure transaction (see SAMM, Appendix 7 Chapter 4, A7.C4.7)
6. A directory identifying the location of stored case records

Table 6-18. Reopened Case Documentation

Reopened Case Documentation
Note: This section is only operative if the case, once closed, must be reopened.
1. All correspondence and data about why the case had to be reopened, including the written authorization(s) approving the reopening
2. The re-finalized DD Forms 2060 and 2061s (filed in the "Financial Control Documentation" section)
3. The closure certification
4. The final DD Form 645

Figure 6-1. Key Planning Milestones Template

CHAPTER 7

PRICING

1.0 GENERAL

1.1 Purpose

The purpose of this chapter is to establish a pricing policy for articles, services, and training and to ensure the DoD Components engaged in Security Cooperation (SC) uniformly and consistently apply pricing methodologies that recoup current period costs and a reasonable contribution to nonrecurring Research, Development, Test, and Evaluation (RDT&E) and production costs. Nonrecurring RDT&E and production costs represent historical decisions to expend RDT&E funds to develop new equipment or to purchase assets or facilities. Foreign Military Sales (FMS) customers and Building Partner Capacity (BPC) partner nations benefit from the investment decision, although it is based entirely on DoD requirements when they purchase related equipment or when the use of the assets and facilities is necessary to provide ordered services or to deliver ordered material.

1.2 Authoritative Guidance

The Arms Export Control Act (AECA), Public Law 90-629, as amended, codified as Title 22, United States Code (U.S.C.) Chapter 39 ([22 U.S.C. Chapter 39](#)) and the Foreign Assistance Act (FAA), Public Law 87-195, as amended, codified as [22 U.S.C. Chapter 32](#), provide the authority and general rules for FMS pricing policy.

2.0 RESPONSIBILITIES

2.1 Price Establishment

The DoD Components that sell defense articles or services under the authority of the AECA and/or the FAA must:

2.1.1. Ensure defense articles and services provided to FMS purchasers are priced in accordance with the policies established in this chapter; and

2.1.2. Establish a single selling price for defense articles and services. A single selling price includes the additional charges for nonrecurring RDT&E and production costs, costs for recurring procurement support efforts, transportation costs when the use of DoD transportation is approved, and other applicable surcharges.

2.2 Price Information

The DoD Components must:

2.2.1. Ensure each price estimate provided to a FMS purchaser is a reasonable

approximation of the final price. However, the fact that an estimate is not consistent with the final cost accumulation does not negate the requirement to establish a final price (actual cost) in accordance with this chapter;

2.2.2. Provide detailed price and cost information upon request by the FMS purchaser. Proprietary cost and pricing data must not be disclosed unless there is prior authorization [from](#) the contractor concerned;

2.2.3. Present prices of defense articles and services to FMS purchasers and DoD Components in the format of FMS Letters of Offer and Acceptance (LOAs) or BPC pseudo-LOAs (unless otherwise specified, references to an LOA in this chapter apply to both types of documents). Surcharges prescribed in this chapter are subject to change without prior approval of the purchaser. The administrative surcharge applicable to each line on the LOA is to be specified in a note in each LOA document. The LOA must be used unless a waiver is obtained from the Director, Defense Security Cooperation Agency (DSCA), to use a suitable substitute instrument. Any substitute instrument must contain the same cost elements as those identified on the LOA; and

2.2.4. Directly cite the FMS Trust Fund (11X8242) purchaser(s) subaccount(s) on contractual documents for new procurements initiated as a result of accepted and implemented FMS LOAs. When funds are provided by another Implementing Agency (IA), when possible, coordinate to directly cite the FMS Trust Fund (11X8242) purchaser(s) subaccount(s) on contractual documents for new procurements.

2.3 Transportation

The DoD Components must ensure that the transportation of material, other than Defense Working Capital Fund (DWCF) material, sold to FMS purchasers is accomplished through the use of Collect Commercial Bills of Lading (CCBL) to the maximum extent possible. When transportation is accomplished through the use of Government Bills of Lading (GBLs), including DWCF material, the GBL must be annotated to show that Interstate Commerce Act, Section 10721 ([49 U.S.C. Section 10721](#)) is not applicable and that normal commercial rates must be billed to the U.S. Government (USG) for the shipment. Refer to the DSCA 5105.38-M, Security Assistance Management Manual ([SAMM C7.6](#)) and [SAMM C15](#) for guidance on the use of the Defense Transportation System (DTS) in support of FMS and BPC cases.

2.4 Case Management

2.4.1. The DoD Components must assign a case manager to each active FMS case. The case manager is responsible for the total financial and logistical aspects of the case including:

2.4.1.1. Prescribed pricing policies are followed;

2.4.1.2. Delivery reports have been submitted to the Defense Finance and Accounting Service (DFAS), Security Cooperation Accounting (SCA) Directorate; and

2.4.1.3. Reconciliation of the FMS case financially and logistically throughout the life of the FMS case has occurred, and not less than annually:

2.4.1.3.1. On the anniversary of each major case, and/or

2.4.1.3.2. In preparation for a review with the FMS purchaser.

2.4.2. The case manager's authority to direct other supporting activities must be commensurate with the responsibilities in subparagraphs 2.4.1.1-3. Refer to [SAMM C2](#) for additional discussion on case management responsibilities.

2.5 Buy Back

The DoD Component must ensure that the USG "buy back" of items from foreign governments initially sold under FMS programs is conducted in accordance with procurement rules involving the obligation of DoD appropriations. Monies due as a result of such procurement may be paid by the DoD Payment Activity into the FMS Trust Fund in accordance with the foreign government's instructions (e.g., applied to a case or a cash refund). The FMS purchaser's "buy back" holding account is used as an audit trail for the transaction. A direct exchange is permitted for a reparable item of the same type under certain circumstances (see subparagraphs 15.2.2.2-3).

3.0 ESTIMATING PRICES AND BILLED VALUES FOR AN LOA

FMS pricing policy for an LOA stipulates how costs are determined when the FMS purchaser is billed and establishes how to develop a price estimate. An essential difference between the billed price and the estimated price on an offer is the degree of firmness associated with each pricing method. [22 U.S.C. § 2751](#) states that sales are approved only when they are consistent with the foreign policy interest of the United States and the purpose and principles of the United Nations Charter.

3.1 Pricing Requirements

3.1.1. Defense Articles and Services from Stock. [Title 22 U.S.C. § 2761\(a\)\(1\)](#) states that a foreign country or international organization pays in U.S. dollars for:

3.1.1.1. Defense articles not intended to be replaced at the time a sales agreement is entered into, not less than the actual value;

3.1.1.2. Defense articles intended to be replaced at the time a sales agreement is entered into, the estimated cost of replacement of such article, including the contract or production costs less any depreciation in the value of such article; or

3.1.1.3. Defense services, for the full cost to the USG of furnishing such service, except in the case of training sold to a purchaser under the terms in paragraph 21.1. In this latter case, only those additional costs that are incurred in furnishing such assistance must be recovered.

3.1.2. Charges Applicable to the Sale of Defense Articles or Services. Title 22, U.S.C. § 2761(e)(1) states that the selling price must include appropriate charges for:

3.1.2.1. Administrative services, calculated on an average percentage basis to recover the full estimated costs (excluding a pro rata share of fixed base operations costs) of administration of sales made to all purchasers of such defense articles and services as specified in [22 U.S.C. § 2792](#)(b) and (c);

3.1.2.2. A proportionate amount of any nonrecurring costs (NC) of Research and Development (R&D) and production of major defense equipment (MDE), except for equipment wholly paid for either from U.S. military assistance funds under [22 U.S.C. § 2311\(a\)\(3\)](#), or from U.S. credit funds made available on a non-repayable basis under [22 U.S.C. § 2763](#); and

3.1.2.3. The recovery of ordinary inventory losses associated with the sale of defense articles that are being stored at the expense of the purchaser of such articles.

3.1.3. Price of New Procurement. [22 U.S.C. § 2762](#) requires eligible countries or international organizations to pay the full amount of the contract and any damages and costs that may accrue due to the cancellation of such contracts (termination liability) when the USG enters into a contract for a new procurement on their behalf. Payment to the USG by the foreign country or international organization must be in U.S. dollars.

3.1.4. Price of Design and Construction Services. [22 U.S.C. § 2769](#) requires that foreign countries or international organizations pay the full cost of design and construction services and any damages and costs that may accrue due to the cancellation of such contracts when the USG enters into a contract for design and construction services on their behalf.

3.2 LOA Values

On the LOA, the estimated price is to be a reasonable approximation of the amount [that](#) will ultimately be billed, including the Office of the Under Secretary of Defense (Comptroller) (OUSD(C)) inflation indices and other factors. Amounts to be placed on the LOA, except unit price, will be rounded to the next whole dollar. LOAs are written either as a defined order, blanket order, or as a Cooperative Logistics Supply Support Agreement (CLSSA). Pricing for each type of LOA requires special treatment. Moreover, an LOA may involve lines that are defined order or blanket order, while CLSSA cases have no other lines. An LOA must include only prices for defense articles and services sold to FMS purchasers and must not be adjusted for any reason other than authorized by this chapter (such as for inflation or for contingencies).

3.2.1. Defined Order LOAs. Defined Order LOAs are for specified defense articles or services and are usually written for the acquisition of systems. Orders are normally placed by the IA following LOA implementation.

3.2.1.1. Cost Estimates. IAs involved in procuring such systems should have available estimates of the expected costs as the basis for developing the FMS price. These estimates, however, must be validated for the configuration to be delivered. Additional charges

detailed in other sections of this chapter must also be applied. When developing estimates for weapon systems in different configurations than those for which IA estimates are available, the IA should obtain contractor estimates for the different configurations.

3.2.1.2. Inflation. When a price estimate must be inflated for delivery of a weapon system several years in the future, OUSD(C)-published inflation indices must be used. If other price inflation or alternate OUSD(C)-published factors apply, those factors must be documented in case files and justified to OUSD(C) for approval before finalizing LOAs.

3.2.2. Blanket Order LOAs. Blanket Order LOAs are for categories of defense articles or services with no definitive listing of items or quantities to be provided.

3.2.2.1. Cost Estimates

3.2.2.1.1. For hardware support items, the price developed may be based on either a computer listing of specified parts or a percentage of the cost of the major system to be supported. In other instances, the price on the LOA may simply be a dollar value line to enable the purchaser to requisition those items up to the dollar ceiling in the Letter of Request. In the latter case, the amount written into the LOA can rely in part on the estimated activity in the country's program.

3.2.2.1.2. In developing a price for LOA purposes where a blanket order is involved, the source of supply might not be known. In this case, certain assumptions must be made. For example, in writing a blanket order case for spare parts for an aircraft, an agency may have to make assumptions about the source and value of items in order to estimate various pricing elements. This allows the analyst to apply the appropriate costs and charges. At the time of the billing for delivery of an item charged to the case, the appropriate surcharges must be applied by DFAS SCA in accordance with Chapter 8. Agencies that have developed an ordering history for certain countries or weapon systems may be able to develop a ratio for items using procurement data and items from stock that enable a more precise application of surcharges for the estimate.

3.2.2.2. Inflation. When developing a price for items to be delivered beyond the period for which pricing data is available, it will be necessary to apply inflation factors as in defined order cases.

3.2.3. CLSSA. CLSSA LOAs are designed to provide responsive and continuous supply support at the depot level for U.S.-made military material possessed by foreign countries and international organizations. CLSSAs are normally the most effective means for providing common repair parts and secondary item support for equipment of U.S. origin that is in allied and friendly country's inventories. Pricing for CLSSA LOAs must be estimated per section 8.0.

3.3 Billing Values

On the DoD (DD) Form 645, FMS Billing Statement, or automated equivalent, the price, at the point in time when actual costs are known and reported to DFAS SCA, should be firm and

exact (the exception being “E” (Estimated) price code transactions). The billed cost (except when a rounded dollar indicator code is utilized) is detailed in dollars and cents.

4.0 ACCESSORIAL COSTS

Accessorial costs represent certain expenses incidental to issues, sales, and transfers of material that may or may not be included in the standard price or contract cost of material. The various types of accessorial costs that may be applicable to FMS shipments include packing, crating, and handling (PC&H); transportation; port loading and unloading; and staging.

4.1 PC&H

PC&H includes the costs incurred at DoD facilities for labor, materials, or services in removing requisitioned articles from storage locations, preparing them for shipment from the storage or distribution points, and processing necessary material release confirmation documents.

4.1.1. PC&H costs will be based on the original acquisition value of material sold from DoD inventories to recover the cost, except for DWCF items delivered after October 1, 1990, since DWCF standard pricing already includes PC&H. PC&H will not be assessed on articles shipped directly from the manufacturer since no in-house DoD labor, materials, or services are involved. Actual costs should be used when known. If actual costs are not available or are not cost effective to obtain, a surcharge rate can be used. Prescribed PC&H rates are:

4.1.1.1. A PC&H rate of 3.5 percent is added to the original acquisition value of material with a unit price of \$50,000 or less ([SAMM C9.T4](#)); and

4.1.1.2. An additional charge added at a rate equal to 1 percent of that portion of the original acquisition value of material with a unit price over \$50,000 (SAMM C9.T4).

4.1.2. The PC&H charge for service/maintenance cases is applied to the acquisition cost of the item(s) sold or serviced, not the cost of the service. The rate(s) in subparagraphs 4.1.1.1-2 apply.

4.1.3. For items, PC&H is computed on the original acquisition value and not the reduced value. Actual costs should be used when known.

4.1.4. For pricing blanket order lines on LOAs, use 3.5 percent on the line value since the unit price is unknown.

4.2 Transportation

Transportation costs include DoD-supplied or DoD-financed transportation (land, air, inland and coastwise waterways) within and outside the United States, and overseas transportation by vessel or air. This includes parcel post via surface or air.

4.2.1. Non-DWCF. The transportation of FMS material must be on CCBLs to the maximum extent possible. When transportation is accomplished using a GBL, it must show that 49 U.S.C. § 10721 is not applicable and that normal commercial rates must be billed to the USG for the shipment. Shipping activities must clearly identify the material as DWCF or non-DWCF to ensure the appropriate fund cite is issued for inland Continental United States (CONUS) transportation.

4.2.2. DWCF. Effective October 1, 1990, DWCF standard pricing includes transportation costs within CONUS. If the first destination transportation is accomplished through GBLs, it must contain the DWCF fund cite, and show that 49 U.S.C. § 10721 is not applicable and that normal commercial rates must be billed to the USG for the shipment. Shipping activities must clearly identify the material as DWCF or non-DWCF to ensure the appropriate fund cite is issued for inland CONUS transportation.

4.2.3. Pricing Transportation. Price transportation on LOAs as follows.

4.2.3.1. Above-the-Line Transportation Services. When FMS purchasers use DTS, an estimated amount is placed above the line to pay for transportation services that are not appropriate to be funded with below-the-line estimates. Examples of these transportation services include premium transportation such as Special Assignment Airlift Mission flights, securing a vessel for a one time only shipment, staging cost for consolidating shipments, Radio-Frequency Identification tagging and tracking devices, special security (guards hired to escort the shipment), and other unique requirements.

* 4.2.3.2. Below-the-Line Transportation Services. When FMS purchasers use DTS, a Delivery Term Code (DTC) percentage is applied to the line to compute an estimated amount for these costs on the LOA. DTC percentages are based on the mode of transportation provided (e.g., port-to-port, depot-to-in-country destination) and the rate area where articles are being delivered. For more information on DTC percentages, see the [SAMM C7](#). Pursuant to [DSCA Policy Memorandum 20-47](#), "Department of Defense Appropriated Building Partner Capacity (BPC) Accounting Interim Solution," dated September 29, 2020, effective fiscal year (FY) 2021, all new BPC cases funded with Title 10, U.S.C. authority must not include any indirect, or below-the-line, charges. All indirect charges are excluded from these cases and will be paid for through a separate program-wide support case or funded via a Funding Authorization Document coordinated through the applicable supporting entity.

4.2.3.3. Exception. The DoD Components must apply estimated actual totals contained in the [SAMM, Transportation Cost Look-Up Tables, Appendix 2](#), to estimate transportation costs for items normally shipped in DTS (e.g., sensitive/hazardous end items) when costs using standard transportation percentages are significantly different from actual charges.

4.2.3.4. Items. For items, transportation is computed on the original acquisition value and not the reduced value, except when accountability for excess items has been transferred to "Property Disposal." The provisions of the [DoD Manual \(DoDM\) 4160.21](#), "Defense Material Disposition: Reutilization, Transfer, and Sale of Property," Volume 3 must apply. The use of actual costs, when known, is highly encouraged.

4.3 Port Loading and Unloading Costs

Port loading and unloading costs include DoD-supplied or DoD-financed labor, materials, or services for loading, unloading, and handling at ports of embarkation or debarkation.

4.4 Staging

The actual costs of staging must be recovered as part of an above-the-line service charge. Such charges must not be duplicative of any other accessorial cost.

4.4.1. Costs for the staging of material in CONUS DoD (non-DWCF owned/operated) facilities are additional to DTS costs, and a 3 percent staging charge is applicable, if DSCA has authorized below-the-line recoupment of staging.

4.4.2. DWCF activities must bill actual costs incurred as an above-the-line service.

4.4.3. When non-excess material is supplied for DoD storage points located Outside CONUS (OCONUS), the applicable rates must be charged as a prepositioning cost.

5.0 FMS ADMINISTRATIVE SURCHARGE

An administrative surcharge must be added to all FMS cases (unless waived pursuant to legal authority, see section 13.0) to recover DoD expenses. SAMM C9.T4 gives further guidance on the current FMS administrative surcharges and how they are applied.

5.1 Prescribed Standard FMS Administrative Surcharge

* 5.1.1. FMS Administrative Surcharge. The applicable FMS administrative surcharge is dependent upon variables associated with the LOA. For cost increases within the scope of the LOA, modifications retain the FMS administrative surcharge rates associated with the lines modified. With respect to contracts issued in support of an LOA, a within-scope change is a unilateral change to the general scope of the contract, subject to the applicable changes clause. A within-scope change to the contract includes but is not limited to, cost growth, or an equitable price adjustment such as cost overruns, a Period of Performance (PoP) extension granting the contractor additional time to complete the deliverables specified in the existing Statement of Work, or a change in PoP due to excusable delays beyond the control of the contractor and without the fault or negligence of the contractor. A change in scope occurs when there is a material change to the product or service from the requirements of the original purpose of a case line or note changes. A material change to a supporting contract to an LOA can include changes that exceed the scope of the original contract by adding new work through an increase to the total estimated cost of the contract as a result of increases or changes to the specification (form, fit, function/type of work), increases in quantity, increase in the number of hours worked/deliverable services, or an increase to the time of performance/extending the PoP. DSCA will determine within-scope and scope changes for USG-provided goods and services. DSCA will coordinate and consult with the cognizant contracting officer to determine within-scope and scope changes for contractor-provided goods and services. See [SAMM C6.7](#) for additional guidance on Amendments and

Modifications. When an amendment adds a new line to an existing FMS case, or changes the scope of the LOA, the FMS administrative surcharge rate in effect at that time is applied. The following FMS administrative surcharge rates are applicable for LOA standard cases/lines and for the periods shown.

5.1.1.1. Effective June 1, 2018. A uniform 3.2 percent FMS administrative surcharge is effective for all new LOA lines accepted by the purchaser on or after June 1, 2018.

5.1.1.2. November 1, 2012 – May 31, 2018. A uniform 3.5 percent FMS administrative surcharge was used for all new LOA lines accepted by the purchaser during this period.

5.1.1.3. August 1, 2006 – October 31, 2012. A uniform 3.8 percent FMS administrative surcharge rate was used for all new LOA lines accepted by the purchaser during this period. Program Management Lines were no longer applicable to new cases accepted on or after this date. USG services, over or above those covered by the FMS administrative surcharge, were provided on well-defined line items. All cases accepted on or after August 1, 2006 through October 31, 2012, collected a minimum charge to ensure sufficient funds to prepare and implement each case by including small case management lines (SCML). The FMS administrative surcharge rate is not applied against the SCML. This application was suspended for cases accepted, implemented, or decreased on or after July 3, 2012. Refer to the [SAMM C9.4.7](#) for specific information concerning the application of the SCML.

5.1.1.4. June 1, 1999 - July 31, 2006. A uniform 2.5 percent FMS administrative surcharge rate was used for standard LOA lines implemented during this period. See 5.1.3 for nonstandard lines.

5.1.1.5. October 1, 1977 - May 31, 1999. A uniform 3 percent FMS administrative surcharge rate was used for standard LOA lines implemented during this period. See 5.1.3 for nonstandard lines.

5.1.1.6. March 10, 1977 - September 30, 1977. A uniform 2 percent FMS administrative surcharge rate was effective for LOAs signed by the IA during this period.

5.1.1.7. January 29, 1970 - March 9, 1977. A 2 percent FMS administrative surcharge rate was applied during this period, unless the supplying Military Department determined that the rate was either insufficient or in excess of actual administrative expenses, for any single FMS case. The use of actual FMS case administrative expenses was authorized.

5.1.2. Supply Support Arrangements. An FMS administrative surcharge of 5 percent must be added to the basic sales price of the initial on-hand portion of CLSSA. See paragraph 8.3 and SAMM C9.T4.

5.1.3. FMS Administrative Surcharges for Nonstandard Articles and Services. For case lines accepted prior to August 1, 2006, an FMS administrative surcharge rate of 5 percent must

be added to the basic sales price of LOA lines for nonstandard articles and services. However, the standard rate in effect must be applied under the following circumstances:

5.1.3.1. A contractor is designated as the source of supply in lieu of a DoD Component performing additional work for the nonstandard articles and services, or

5.1.3.2. A case/program management line is included in the LOA that specifically recovers costs associated with the tasks performed in support of the sale of nonstandard articles or services.

5.2 DoD Component Administrative Expenses

Administrative services cost calculations (as identified in paragraph 3.1) of component Security Assistance (SA) direct and indirect costs must include a pro rata share of manpower and contractor-provided support costs for SA administrative functions. The DoD Component administrative support costs must not include costs prescribed in Volume 15 as above-the-line costs, nor should the costs include DoD mission costs. See [SAMM C9.4](#) for case-related manpower functions and appropriate funding sources.

5.2.1. The personnel portion of actual administrative expenses must include a pro rata share of those personnel performing and supporting SA duties. This same measure applies to contractor-provided support for SA administrative functions. These functions may be indirect (e.g., support across multiple purchasers/cases) or direct (e.g., support to a specific case or program).

5.2.2. DoD organizations that provide general administrative support to SA programs must recoup the full cost (excluding a pro rata share of fixed base operations costs) to provide such support.

5.3 FMS Administrative Surcharge on Cases Closed at Reduced or No Value

5.3.1. For any case that is closed, the USG will retain funds to pay for estimated administrative costs associated with the case, even if no articles or services have been delivered (\$0 delivered value). The minimum, nonrefundable amount will be the value when combining the SCML (if applicable) and the FMS administrative surcharge value; one-half of the FMS administrative surcharge estimated on the case; or the standard FMS administrative surcharge percentage of the expended value, whichever is greater. See [SAMM C6.8](#).

5.3.2. DSCA Office of Business Operations (OBO) may approve reductions to the minimum nonrefundable amount when it can be clearly shown that the actual values of administrative costs on the case are less than the minimum nonrefundable amount, or if the case is canceled for the convenience of the USG.

5.3.3. Case Managers wishing to request that a case be closed at \$0 articles and/or services value, must contact DSCA OBO for approval. The DSCA OBO reply is sent to the Case Manager and DFAS SCA.

5.3.4. Cases canceled for the convenience of the USG may not incur an administrative cancellation fee but require the amount of the FMS administrative surcharge assessed to be approved by DSCA OBO.

5.3.5. For cases with an ordered value greater than or equal to \$25,000,000, and closing at \$0 delivered articles and/or service value, the IA will submit a recommended, nonrefundable FMS administrative surcharge amount to DSCA OBO for approval.

5.4 Waived FMS Administrative Surcharge

5.4.1. General. Normally, the amount of the FMS administrative surcharge that has been waived or reduced for a particular FMS case, pursuant to statute, must be reimbursed to the FMS administrative surcharge account. For such reimbursements, the IA (which is the proponent of the case on which the charge has been waived) must obligate its current available appropriations for the full amount being waived when the case is implemented. DFAS SCA calculates the amount of the earned FMS administrative surcharge on cases with waived administrative surcharge and submits quarterly billings to the appropriate IA.

5.4.2. Funds Control. The LOA package for cases with waived FMS administrative surcharge must cite the authority, dollar amount waived, and obligating document number in a case note. The IA must include a copy of the certified document committing the funds as part of the LOA coordination package. See Volume 14 for guidance on the administrative control of appropriations.

6.0 LOGISTICS SUPPORT CHARGE (LSC)

LSC was applicable to material and services identified on the Military Articles and Services List, excluding DWCF material. LSC was assessed at 3.1 percent of the articles and services reported delivered on or after April 1, 1987 and prior to October 1, 2007. The SAMM C9.T4 explains the elimination of the LSC and how to treat prior year LSC charges.

7.0 PROGRAM MANAGEMENT SERVICES

7.1 Level of Service

7.1.1. FMS Administrative Surcharge Funded Manpower. There is a certain level of routine support provided to an FMS customer in each case. Costs associated with this workload are captured via the assessed FMS administrative surcharge.

7.1.2. LOA Funded Manpower. An IA may determine there are additional services directly related to the defense articles or services being provided, that are over or above the routine level of support generally provided to an FMS customer. These costs may be included on an FMS case as an above-the-line cost at the request of the FMS purchaser, or by the USG, based on the analysis of what will be required to successfully implement and execute the requested program/case. An auditable methodology must be used to document all costs included on these lines.

7.1.3. DoD Component Operating Funds. In accordance with OUSD(C) Memo, “Budget Policy on use of DoD Component Operating Funds in Support of Foreign Security Forces,” Military Departments have the responsibility to develop, maintain, and institutionalize the capabilities of Service members and DoD Expeditionary Civilian personnel to support DoD efforts to organize, train, equip, and advise foreign military forces and relevant supporting institutions. DoD Components are to budget in their operating accounts all costs for DoD military and civilian personnel in Afghanistan, Iraq, and other countries, as well as reach back support, encompassed by DoD Assistance Appropriations.

7.1.3.1. Costs include but are not limited to: military pay, special pay, transportation, pre-deployment training and training in theater, forward base operating costs, life support, communications, vehicle maintenance, program management, and contracts for linguists, logistics, security, and infrastructure needed to support such DoD personnel in-country.

7.1.3.2. Where the Military Department has discretion, as a matter of budget policy, the following activities will be budgeted and paid from DoD Assistance Appropriations and not budgeted or paid from DoD Component operating accounts:

7.1.3.2.1. In circumstances where DSCA provides services pursuant to the Economy Act to the organization designated by the Secretary of Defense or Deputy Secretary of Defense to have management responsibility for the DoD Assistance Appropriation (Managing Organization), amounts from such DoD Assistance Appropriation will be used to reimburse DSCA for its administrative expenses in providing the ordered services;

7.1.3.2.2. In circumstances where the Multi-National Aviation Special Project Office (MASPO) provides services pursuant to the Economy Act to the Managing Organization, amounts from such DoD Assistance Appropriation will be used to reimburse MASPO for the actual costs of the procurement, sustainment, and technical support services;

7.1.3.2.3. In circumstances where the U.S. Army Corps of Engineers (USACE) provides services to the Managing Organization, amounts from such DoD Assistance Appropriation will be used to reimburse USACE for its project design, contract preparation and award, and supervision and administration expenses in providing the ordered services;

7.1.3.2.4. In circumstances where an organization funded by a DWCF provides supplies or services pursuant to [10 U.S.C. § 2208](#) to the Managing Organization, amounts from such DoD Assistance Appropriation will be used to pay the working capital-funded organization for the costs of providing the ordered supplies or services;

7.1.3.2.5. In circumstances where the Managing Organization arranges for a member of an eligible foreign security force to receive education or training at a U.S. Service

school, amounts from such DoD Assistance Appropriation will be used to reimburse the Service school at the lowest rate charged to other foreign countries; and

7.1.3.2.6. In circumstances where the Managing Organization arranges for a member of an eligible foreign security force to attend a U.S. Service Academy, amounts from such DoD Assistance Appropriation will be used to reimburse the U.S. Service Academy at the lowest rate charged to other foreign countries, unless reimbursement for the cost of attendance is waived pursuant to [10 U.S.C. § 347\(a\)\(6\)\(B\)](#).

7.2 Cost Allocation

DoD Components must ensure that each type of cost is allocated only once and only on one basis to an FMS case. Additional discussion on consistency in allocating costs incurred for the same purpose is contained in Volume 4. Care must be taken to ensure against “double charging” for the same costs. The FMS Case-Related Manpower Functions and Funding Source Manpower Matrix ([SAMM C9.T2](#)) describes in detail the manpower functions that may be funded on FMS cases and the funding source for those related costs.

8.0 CLSSA

8.1 CLSSA Management

[DoD Instruction \(DoDI\) 2010.06](#), “Material Interoperability and Standardization with Allies and Coalition Partners,” and the [SAMM C5.4.3.3](#) prescribe the policies and criteria for establishing CLSSAs. CLSSAs provide for the execution of Foreign Military Sales Orders (FMSO) covering stock, consumption, and storage. Two FMS cases are required for supply support arrangements, an FMSO I case and an FMSO II case. Both cases must be executed in order for FMS requirements to be anticipated and to be satisfied on an equal footing with U.S. requirements.

8.1.1. FMSO I

8.1.1.1. The FMSO I case is subdivided into two parts: Part A represents the on-hand portion of the inventory (normally 5 months), and Part B represents an on-order dependable undertaking (normally a 12-month period). In unusual circumstances, it may be determined that the 5-month on-hand and 12-month on-order levels are inappropriate for the particular equipment being supported. In these circumstances, the on-hand and on-order requirements may be adjusted to more realistically reflect DoD on-hand and on-order levels for the items being supported; a renegotiation of the CLSSA may be necessary. The office that developed the CLSSA must retain documentation in support of such determinations.

8.1.1.2. For new FMSO I cases accepted on or after September 20, 2005, the on-hand portion of the inventory list will be 30 percent of the total investment/equity list. For FMSO I cases accepted prior to September 20, 2005, the on-hand portion of the inventory list will remain at 5/17 of the total investment/equity list.

8.1.2. FMSO II. The FMSO II case represents the foreign purchaser's anticipated yearly consumption under CLSSA.

8.1.3. Cash Requirements

8.1.3.1. Cash paid on acceptance of the FMSO I should equal the Part A on-hand portion of the inventory and administrative surcharge. The cash required to liquidate obligations incurred with suppliers for the on-order portion is the cash paid by the purchaser in connection with the FMSO II case and, in turn, creates a new order received and recreates obligational authority (OA) back to the FMSO I.

8.1.3.2. If the amount of progress payments required by the IA varies by more than 10 percent of the Part A value, the DoD Component must:

8.1.3.2.1. Amend the case to bring the Part A value in line with the DoD Component progress payment requirement; or

8.1.3.2.2. Request additional progress payments to equal the Part A value.

8.1.3.3. Cash to cover requisitions is paid in advance of each quarter covered by the case. The cycle of obligation, acquisition, requisition, issuance, and payment can be summarized as follows:

8.1.3.3.1. The FMSO I, Parts A and B, grant the DoD Components OA up to the case amount;

8.1.3.3.2. The cash provided under the FMSO I, Part A, finances the on-hand inventory;

8.1.3.3.3. Requisitions made by the purchaser are filled from the on-hand inventory;

8.1.3.3.4. Replenishment of on-hand inventory is made from contracts awarded under OA granted by the FMSO I, Part B;

8.1.3.3.5. Payments to contractors are made from funds provided in accordance with the FMSO II terms; and

8.1.3.3.6. Liquidation of obligations by payment to contractors in effect recreates OA granted by the FMSO I, Part B, and the cycle commences again.

8.1.4. OA

8.1.4.1. The entire amount of the FMSO I case represents OA. Normally, no cash billings are required against the FMSO I, Part B, unless the CLSSA is either partly or wholly terminated. The FMSO II case provides OA only to the extent purchaser orders are received.

Thus, proper working of the FMSO I and II should result in a constant 12 months of OA in the applicable appropriation or fund account, never more or less, after the on-hand inventory of the FMSO I, Part A, has been acquired.

8.1.4.2. The cash and OA derived from the FMSO I and FMSO II are to be transferred to the commodity command or supply agency that is expected to provide supply support to the foreign country. This command or supply agency must use such cash and OA to increase stock and on-order quantities in anticipation of requisitions from the country that entered into the CLSSA.

8.1.5. Both parts of the FMSO I provide OA equal to its value in the DoD Component activity giving the supply support to the purchaser.

8.2 General Pricing

Use the pricing requirements in subparagraph 15.2.2 to price CLSSA cases.

8.3 FMS Administrative Surcharge

8.3.1. FMSO I (Part A). A one-time nonrefundable, administrative surcharge of 5 percent must be charged on the on-hand portion (Part A) of the FMSO I case. For amendments that decrease the value of the on-hand portion (Part A), there must be no adjustment made to the administrative surcharge. However, for amendments that increase the value of the on-hand portion (Part A), the 5 percent nonrefundable administrative surcharge must be charged on the total value of the increase. The following is an example of the administrative fee computation:

Document	Revised On-Hand Material Value	Increase or (Decrease) to Previous On-Hand Material Value	5% Admin Fee Charge on Increase	Admin Fee Accrued Expenditures
Basic LOA	\$3,000,000	\$3,000,000	\$150,000	\$150,000
Amend 1	4,000,000	1,000,000	50,000	200,000
Amend 2	2,000,000	(2,000,000)	N/A (Decrease)	200,000
Amend 3	3,000,000	1,000,000	50,000	250,000
Amend 4	5,000,000	2,000,000	100,000	350,000
Amend 5	4,000,000	(1,000,000)	N/A (Decrease)	350,000

8.3.2. FMSO I (Part B). No administrative surcharge will be charged on the on-order portion (Part B) of the FMSO I case. The current administrative surcharge (3.2 percent) must be charged on requisitions processed under FMSO II cases. If an FMSO I agreement is terminated, the current administrative surcharge must be charged for the inventory over and above the on-hand portion of the case. There must be no additional surcharge on the on-hand portion of the case since the purchaser has made advance payment of the administrative charges applicable to this portion of the case.

8.4 Storage Costs

There is no annual inventory maintenance and storage charge for DWCF items for CLSSAs, as the DWCF standard (stabilized) price recoups all costs. For non-DWCF items, storage fees must be charged, on the value of stored assets, based on the on-hand portion of the FMSO I. The annual storage fee is 1.5 percent. For cases not remaining open for a full year, a fee of 0.125 percent per month must be charged (SAMM C9.T4).

8.5 Normal Operating Inventory Loss

The standard prices paid by the foreign government for the stock level of DWCF items already include a surcharge for estimated normal operating losses in storage.

8.6 Unusual Inventory Loss

Stock losses due to enemy action, major disaster, or other casualty from a natural phenomenon must be assessed against the foreign government in an amount proportionate to the ratio that the value of its stock case bears to the total value of stocks in storage.

8.7 Obsolete Material

8.7.1. Obsolete or Excess to the United States. If an item becomes obsolete or excess to the United States but not to the foreign government, the United States may request the foreign government to withdraw its undelivered quantity of the item. Additional quantities may be offered to the foreign government at fair value prices (see subparagraphs 15.3.1-2).

8.7.2. Obsolete or Excess to the Foreign Government. If items become obsolete or excess to the requirements of the foreign government but not to the United States, the foreign government may request the United States to consider cancellation of its order and to apply its equity in the undelivered quantity to subsequent orders for other items. If cancellation is not agreed to, arrangements must be made for the United States to dispose of the material and credit the net proceeds to the foreign government. If the United States has a need for the material, credit the stock level for the return of the material to U.S. stocks in accordance with departmental procedures.

8.7.3. Obsolete or Excess to the United States and Foreign Government. If items become obsolete or excess to the requirements of both the United States and the foreign government, arrangements must be made for the United States to dispose of the material, and the proportional share of the net proceeds of sale must be credited to the foreign government.

8.8 Purchaser Equity

CLSSAs are written in terms of an absolute dollar amount of support to be provided under the arrangement. A listing of the specific items required to support the weapon system is not developed. Under this "dollar value" concept, the FMS purchaser's equity must remain valued at the cash deposited for the FMSO I. Upon termination, a review must be made of the foreign country's demand data for specific items. When demand data results in the procurement of stock

above the DoD-approved retention levels, the foreign country must be informed that applicable stocks owned by that country must be drawn down or that a settlement agreeable to both parties must be reached.

9.0 STORAGE, REPAIR, OR MODIFICATION OF PURCHASER-OWNED MATERIAL

9.1 Storage

Costs applicable to the storage of purchaser-owned articles include the functions of receiving, care and preservation, set assembly and related activities, and overhead operations (such as re-warehousing, maintenance of operating equipment, physical inventories, and cleaning areas).

9.1.1. Storage charges are applicable to the non-DWCF, on-hand portion of FMSO I cases, cases on which DoD is ready to deliver applicable items, but the purchaser has requested to delay delivery, and cases on which DoD cannot deliver due to legal or policy restrictions.

9.1.2. Charges commence 15 days following the date of availability (there is no annual inventory maintenance and storage charge for DWCF items for CLSSAs, as the DWCF standard (stabilized) price recoups all costs).

9.1.3. A uniform DoD annual rate of 1.5 percent or 0.125 percent of the average monthly value of purchaser-owned material will be charged to applicable FMS cases to recover an activity's storage cost unless a separate charge is negotiated with the storage facility.

9.1.4. A separate line on the LOA(s) should capture the storage-related costs. If this line did not previously exist, it can be added via an LOA modification.

9.2 Repair or Modification

When a foreign government requests the repair and/or modification of items from non-DWCF activities, the actual or estimated cost of the work will be priced on a job order basis or through the contract procurement process. An illustration of price computation is in Exhibit 7-1.

9.2.1. Labor costs will be computed in accordance with section 20.0.

9.2.2. Materials and supplies obtained from the military supply system stocks will be priced in accordance with section 15.0.

9.2.3. Materials, supplies, or services obtained directly from contractors will be priced in accordance with section 16.0.

9.2.4. Transportation and related costs incurred in the movement of the materials and supplies used during repair and/or modification must be priced in accordance with paragraph 4.2. See subparagraph 4.2.2 for treatment of DWCF material.

9.2.5. Indirect labor, materials, and contractual services will be priced in accordance with the guidance in this chapter and allocated to job orders.

9.2.6. Appropriate incoming and outgoing transportation costs related to FMS equipment or material processed by repair or overhaul facilities will be paid by the FMS purchaser. If the repair facility ships the repaired item to the purchaser, then the transportation costs must be charged to the FMS case.

9.3 FMS Administrative Surcharge

The FMS administrative surcharge must be applied to all direct and indirect costs billed in connection with storage, repair, and/or modification.

9.4 Special Instructions Applicable to DWCF Activities

DWCF activities must charge approved DoD stabilized rates and prices for defense articles and services in support of FMS cases. Material funded by DWCF, including depot-level reparable, must be priced at the standard (stabilized) price in effect at the time the item is dropped from inventory or at the net/exchange price, if applicable, for a direct exchange transaction. The standard (stabilized) price or rate charged to FMS purchasers of DWCF activities for defense articles and services must be adjusted to include an amount for unfunded civilian retirement (UCR) and post-retirement health benefits costs in accordance with paragraph 20.5.

10.0 USE OR EXPANSION OF DOD FACILITIES AND EQUIPMENT

All costs of construction, or expansion of facilities, desired by and for the exclusive use of the foreign government must be financed and funded by the foreign government. Charges by the USG for labor, material, or services must be reimbursed in accordance with the provisions of sections 15.0 and 20.0. Any expansion of facilities or equipment required for DoD use, which may also be available for FMS, must be funded through the normal DoD budget process.

10.1 Reimbursement of Proportionate Share

In addition to the costs identified in paragraph 10.0, a proportionate share of operating costs must be reimbursed.

10.2 Work at DoD Test Facilities and Laboratories

Case and line managers must inform performing activities when work requested at DoD test facilities and laboratories involves FMS. Work is priced to ensure full reimbursement of direct, indirect, and overhead costs to the test facility or laboratory for the FMS effort.

10.3 Embedded Computer Software (ECS) Facilities

10.3.1. ECS support is normally supplied through a services case (or line) of a system sale. A requirement for a new facility, or augmentation of an existing facility, that is funded by the FMS

purchaser is incidental to the service. Regardless of the costs charged to an FMS purchaser for the use or augmentation of a facility, DoD owns and operates the facility.

10.3.2. Software support may be supplied by a separate facility dedicated to FMS or from a facility supporting both DoD and FMS programs. The FMS purchaser pays a prorated share of the total software support costs.

11.0 COSTS ALLOCABLE FOR JOINTLY USED FACILITIES

When specific agreements or arrangements are made for the joint use of USG facilities (e.g., sharing of storage spaces or dedicated training facilities), a pro rata share of the operating cost financed by operating appropriations must be charged to the foreign purchaser.

11.1 Joint Use of Office or Storage Space

11.1.1. When jointly used storage or office space is involved, the pro rata share of operating costs must be determined based on space assigned to the foreign government compared to the total space available for assignment.

11.1.2. Operating costs must include, but are not necessarily limited to, the cost of maintenance and upkeep of the facilities, including access roads, security, communications, utilities, and rent if the USG must make rental payments under lease agreements.

11.2 Joint Use of Satellites

When jointly used satellites are involved, the launch cost must be allocated to each participant based on pre-launch negotiations that consider the expected benefits accruing to each participant. Recurring operating costs must be prorated based on the time each participant actually uses the satellite.

12.0 PERIODIC REVIEW AND RATES/SURCHARGE REVISION

12.1 Periodic Review

Rates that may be developed to recoup accessorial costs and surcharges (see sections 4.0, 5.0, and 16.3.1) are subject to periodic review. OUSD(C) should notify the applicable DoD Components when such reviews are being conducted and request the DoD Components' participation.

12.2 Rate Revision

No charges, or surcharges based on a percentage rate, may be made to recover any element of cost unless the charge or percentage charge is expressly prescribed in Volume 15, or the charge based on the percentage rate is proposed in writing to and is approved by OUSD(C). Whenever a DoD Component believes a prescribed rate should be revised, it should submit its request with supporting data to OUSD(C), through the DoD Component Senior Financial Manager and

DSCA OBO. DSCA OBO will conduct its assessment of the request and provide either its endorsement of or objection to OUSD(C). Sufficient data must accompany the request to enable evaluation of the merits of the proposed revision.

13.0 COST RECOUPMENT WAIVERS AND EXCLUSIONS

A cost recoupment waiver is the exercise of legal authority to partially or totally waive the recoupment of incurred costs. A cost recoupment waiver is not an exception to the pricing policy.

13.1 Waiver of NC Recoupment Charges

13.1.1. Title 22, U.S.C. § 2761(e)(2)(A) authorizes the President to reduce or waive the NC recoupment charge or charges, which would otherwise be considered appropriate under 22 U.S.C. § 2761(e)(1)(B) for particular sales that would, if made, significantly advance USG interest in North Atlantic Treaty Organization (NATO) standardization; standardization with the Armed Forces of Japan, Australia, the Republic of Korea, Israel, or New Zealand, in furtherance of the mutual defense treaties between the United States and those countries; or foreign procurement in the United States under coproduction agreements.

13.1.2. Title 22, U.S.C. § 2761(e)(2)(B) authorizes the President to waive NC recoupment charges for a particular sale if it is determined that:

13.1.2.1. Imposition of the charge or charges likely would result in the loss of the sale; or

13.1.2.2. The waiver of the charge or charges for MDE would result in savings to the United States that substantially offset the revenue due to this waiver.

13.1.3. Title 22, U.S.C. § 2761(e)(2)(C) gives the President the authority to waive, for particular sales of MDE, any increase in a charge or charges previously considered appropriate under 22 U.S.C. § 2761(e)(1)(B). This authority is given if the increase results from a correction of an estimate (reasonable when made) of the production quantity base that was used for calculating the charge or charges for purposes of such paragraph.

13.1.4. The authority to waive NC recoupment charges has been delegated to the Director, DSCA. All waiver requests must be coordinated with OUSD for Research and Engineering (R&E), OUSD for Acquisition and Sustainment (A&S), and OUSD(C).

13.2 Special Waiver Authority for NATO Airborne Warning and Control System (AWACS)

Notwithstanding subparagraph 5.4.1, [10 U.S.C. § 2350e](#) authorizes the Secretary of Defense in carrying out the NATO AWACS program, to:

13.2.1. Waive reimbursement for the costs of the following functions performed by personnel other than personnel employed in the U.S. Air Force AWACS program office:

13.2.1.1. Auditing;

13.2.1.2. Quality assurance;

13.2.1.3. Codification;

13.2.1.4. Inspection;

13.2.1.5. Contract administration;

13.2.1.6. Acceptance testing;

13.2.1.7. Certification services; and

13.2.1.8. Planning, programming, and management services;

13.2.2. Waive any surcharge for administrative services otherwise chargeable; and

13.2.3. Assume contingent liability for:

13.2.3.1. Any program losses resulting from the gross negligence of any contracting officer of the United States;

13.2.3.2. Identifiable taxes, customs duties, and other charges levied within the United States on the program; and

13.2.3.3. The U.S. share of unfunded termination liability.

13.3 Waiver of Contract Administration Services (CAS) and Cataloging Services

13.3.1. Title 22, U.S.C. § 2761(h) authorizes the President to provide (without charge) quality assurance, inspection, CAS, contract audit defense services, cataloging data, and cataloging services. Title 22, U.S.C. § 2761(h) applies to:

13.3.1.1. Any contract or subcontract for defense articles, defense services, or design and construction services entered into after October 29, 1979, under FMS or direct commercial sales on behalf of a foreign government that is a member of NATO or the Governments of Australia, New Zealand, Japan, the Republic of Korea, or Israel. The authority applies only if the foreign government provides these services in accordance with an agreement on a reciprocal basis, without charge, to the USG;

13.3.1.2. Any contract or subcontract for defense articles, defense services, or design and construction services pursuant to the NATO Security Investment Program. The authority applies only in accordance with a reciprocal agreement under which the foreign governments participating in the NATO Security Investment Program provide such services, without charge, in connection with similar contracts or subcontracts; and

13.3.1.3. Cataloging data and cataloging services provided to NATO, to any member government of NATO, or to the Governments of the Republic of Korea, Australia, New Zealand, Japan, or Israel, if that organization, member government, or the Governments of the Republic of Korea, Australia, New Zealand, Japan, or Israel provide such data and services without charge to the United States in accordance with a reciprocal agreement.

13.3.2. The authority to negotiate and conclude these reciprocal agreements has been delegated to OUSD(A&S). Upon approval of the agreement, OUSD(A&S) will provide a copy of that agreement to DSCA.

13.3.3. When a waiver is approved, the cost of CAS in support of the applicable effort must be funded by a DoD appropriation. Billings for such actual costs must not be submitted against the FMS Trust Fund. The waiver under each agreement applies only to new FMS LOAs with implementation dates (as recorded in the Defense Security Assistance Management System) on or after the effective date of the reciprocal agreement.

13.3.4. Countries with CAS waivers are listed in the [SAMM C9.T5](#), [SAMM C9.T6](#), and [SAMM C9.T7](#). DSCA is responsible for updating and maintaining the CAS waiver tables.

13.4 Special Waiver Authority for NATO Cooperative Projects

13.4.1. [Title 22 U.S.C. § 2767\(e\)\(1\)](#) stipulates that the President may reduce or waive the charge or charges in connection with cooperative projects or agreements entered into under the authority of that section. The charges that may be reduced or waived are those that are otherwise considered appropriate under 22 U.S.C. § 2761(e) (see subparagraph 13.1.2) for sales of defense articles and services from stocks or new procurements when the other participants agree to waive or reduce such charges.

13.4.2. Waiver authority of the President under 22 U.S.C. § 2767 has been delegated to the Director, DSCA.

13.4.3. Administrative surcharges must not be increased on other sales made under the U.S.C. in order to compensate for any cost waivers that are granted pursuant to 22 U.S.C. § 2767(d). Funds received pursuant to such other sales must not be available to reimburse the costs incurred by the USG for which waiver or reduction is approved by the President under 22 U.S.C. § 2767.

13.5 Exclusion of the Cost of Military Pay and Entitlements for Defense Services Funded by the Military Assistance Program (MAP) or Non-Repayable Foreign Military Financing (FMF).

13.5.1. Title 22, U.S.C. [§ 2311\(a\)\(3\)](#) permits the exclusion of salaries of members of the Armed Forces (other than Coast Guard) if the sales case for defense articles, services (including training), or for design and construction services is totally financed by MAP Merger or by non-repayable FMF.

13.5.2. For cases with LOAs exclusively citing MAP Merger funds and/or non-repayable FMF or BPC and Foreign Security Forces (FSF) cases, which are funded with DoD or Department of State (DoS) appropriated funds, services provided under 22 U.S.C. §2761, 22 U.S.C. §2762, 22 U.S.C. §2769, or [22 U.S.C. § 2770](#) must be priced to exclude military pay and entitlements (including retired pay accrual). Examples of DoD and DoS appropriated funds are: Pakistan Counterinsurgency Fund, Pakistan Counterinsurgency Capability Fund, Coalition Readiness Support Program, FSF: authority to build capacity under [10 U.S.C. § 333](#), Counter-Islamic State in Iraq and Syria, Counter-Islamic State of Iraq and the Levant Train and Equip Fund, Afghanistan Security Forces Fund, and Iraq Train and Equip Fund.

13.5.2.1. The exclusion of military pay and entitlements in pricing applies when services are performed regardless of the date of the LOA. For MAP Merger, this pricing applies to services provided after September 30, 1985; for non-repayable FMF, this pricing applies to services provided after September 30, 1989.

13.5.2.2. Any subsequent amendment or modification that reduces MAP Merger or non-repayable FMF funding below 100 percent requires re-pricing to add military pay and entitlements to the entire case.

13.5.3. A separate price for DWCF goods and services must not be established to exclude military pay and entitlements when the case is fully funded by MAP Merger, is a non-repayable FMF, or is a BPC case.

13.6 Exchange of Unit Training and Related Support

Title 22, U.S.C. § 2770a authorizes the reciprocal unit exchange of training and related support between the United States and a friendly foreign country or an international organization. This authority applies only to established military units, not to ad hoc units or individual members of units. DoD Directive ([DoDD](#)) [5530.03](#), “International Agreements,” provides that unit exchanges must only be arranged as part of an international agreement.

13.6.1. As outlined in [SAMM C10](#), each country should pay its students Travel and Living Allowance. In addition, exchanges can be made on either an individual-to-individual or unit-to-unit basis.

13.6.2. Reciprocal unit exchanges or related support arrangements must use the following pricing guidelines.

13.6.2.1. The Military Department official with the delegated authority to negotiate agreements must perform a price analysis based on prior experience and/or current supporting data. The price determined for the unit exchange of training or related support must be fair and reasonable. If a pricing determination cannot be made, the training may not be performed and the related support may not be exchanged.

13.6.2.2. Reciprocal unit exchanges of any training or related support by the United States are subject to the applicable pricing provisions contained throughout this chapter.

The estimated cost of the reciprocal unit exchange to be provided, and the value of the unit to be received, must be computed and documented by the Military Department's designated resource management function. The documented estimated cost is the basis for reporting costs incurred and for reimbursement purposes in the event, exchanges are not reciprocated.

13.6.3. Compensation for the acquisition or transfer of a unit exchange of training and related support must be accomplished through either of the following methods.

13.6.3.1. Reciprocal Exchange. Training or related support that is to be exchanged requires a written determination by the approving U.S. organization that the reciprocal unit exchange of training or related support has a substantially comparable value. Comparable value received is the sum of those monetary and nonmonetary values that comprise the total exchange value. Methodologies depicting comparable value, both monetary and nonmonetary, must be retained and available for audit purposes.

13.6.3.2. Reimbursable. Payments for training and related support are to be in the currency of the supplying nation and must be provided in the event reciprocity is not achieved within 12 months from the date the training began.

13.6.4. The servicing accounting and finance office must take the following actions when reciprocal training or related support is not provided or not received.

13.6.4.1. Actions to be Taken When the United States Does Not Provide Reciprocal Training or Related Support. When the United States does not provide reciprocal training and related support within 12 months after such training or support begins, the exchange transaction must be converted to a reimbursable transaction and an obligation must be recorded. The obligation must be recorded against the appropriation current at the time the determination is made that reciprocal training will not be provided or 12 months from the date the training began, whichever occurs first. The resulting accounts payable is to be paid 30 days from the date established. The accompanying documentation must fully explain the reasons for not providing reciprocal training or related support during the preceding 12 months.

13.6.4.2. Actions to be Taken When the United States Does Not Receive Reciprocal Training or Related Support. When the United States does not receive reciprocal training or related support within 12 months after such training or support begins for a foreign country, the exchange transaction must be converted to an accounts receivable. The accounts receivable must be established against miscellaneous receipt account 3210, "General Fund Proprietary Receipts, Defense Military, Not Otherwise Classified." See [Volume 16, Chapter 6](#), "Debt Owed to the Department of Defense (DoD) by Foreign Entities" for procedures for billing foreign countries.

13.7 Special Authorities

In accordance with the administration of the European Air Defense Agreements, the Secretary of Defense is authorized under the International Security and Development Cooperation Act of 1985, Section 132 (see 22 U.S.C. § 2767(e)) to:

13.7.1. Waive any surcharge for administrative services otherwise chargeable under 22 U.S.C. § 2761(e)(1)(A), and

13.7.2. Waive any charge not otherwise waived for services associated with contract administration for the sale (under the AECA) of Patriot Air Defense Missile Fire units to the Federal Republic of Germany contemplated in the agreements.

13.8 Fair Pricing

Under 22 U.S.C. §§ 2761 and 2792, the recoupment of NC is not required for FMS cases wholly funded with MAP Merger or non-repayable FMF, BPC, or FSF cases [that](#) are funded with DoD or DoS appropriated funds. Effective with delivery reports after December 1, 1989, DFAS no longer applies asset use charges to FMS transactions. When such asset use expenses are included in, or are a part of, the standard prices/stabilized rates charged for defense articles and services, a separate price must not be established for sales from or services furnished by, DoD Components in connection with FMS cases. In addition, military salaries and the unfunded costs of civilian retirement and other benefits are not included in the FMS administrative account.

14.0 EXCEPTION TO PRICING POLICIES

An exception to prescribed pricing policies refers to approval of an alternative method of identifying applicable cost(s). Requests for exceptions to the policies prescribed herein, or waivers of DoD costs for which DSCA is not delegated as the waiver authority, must be submitted to OUSD(C), through the DoD Component Senior Financial Manager, and DSCA OBO (Note: A cost recoupment waiver is not an exception to pricing policy). DSCA OBO will conduct its assessment of the request and provide either endorsement or objections to OUSD(C). Sufficient data must accompany the request to enable OUSD(C) to evaluate the merits of the proposed deviation.

15.0 CASH SALES OF DEFENSE ARTICLES ISSUED FROM STOCK

15.1 General

Title 22, U.S.C. § 2761 authorizes the sale of defense articles from stock to eligible foreign governments and international organizations. These sales include all sales of items from DoD inventories, whether delivered from storage or from procurements that were initiated to maintain adequate DoD inventory levels. Procurements specifically for FMS requirements (excluding CLSSAs) may not be considered a sale from stock. Procurements initiated to replace stocks sold from DoD inventories are not FMS new procurements.

15.2 Sale of Defense Articles

15.2.1. Sale Price of Non-Excess Defense Articles. Non-excess defense articles are assets within the approved force acquisition objective and approved force retention stock of all DoD Components. Also included in the non-excess category are articles procured in anticipation of military assistance or sales requirements as a result of CLSSAs, or pursuant to a military

assistance or sales order. The selling price must be determined when the item is dropped from inventory or the LOA is prepared if a firm price is determined in accordance with the provisions of paragraph 15.4.

15.2.2. Sale of DWCF Articles

15.2.2.1. The selling price of DWCF articles to FMS purchasers must be determined at the time the article is dropped from inventory. The standard price charged to FMS purchasers for DWCF articles must be adjusted to include an amount for unfunded civilian retirement and post-retirement health benefits costs (see paragraph 20.5). See [Volume 2B, Chapter 9](#); [Volume 11A, Chapter 1](#); and [Volume 11B, Chapter 11](#) for additional information.

15.2.2.2. If a purchaser returns a reparable DWCF item for repair or replacement, the overhaul service must be priced in accordance with paragraph 9.2. The price of the replacement/exchange item would be the exchange price or net price (standard price less credit) basis adjusted for the unfunded retirement and benefits.

15.2.2.3. As an invested participant, a CLSSA purchaser may return a fully serviceable, reparable item to the appropriate DWCF activity for credit, when the item is within the activity's approved acquisition objective. The credit will only be issued after the item is received and inspected at the activity. Funds credited may be paid by the DoD disbursing office into the FMS Trust Fund in accordance with the instruction of the foreign purchaser or DSCA.

15.2.2.4. Prior to October 1, 2001, petroleum, oil, and lubricants (POL) were priced at standard (stabilized) prices. Effective October 1, 2001, the selling price of POL is the replacement cost of the POL, during the period of the sale, plus associated overhead. See Volume 11A, Chapter 1 and Volume 11B, Chapter 11 for additional information on overhead.

15.2.3. Sale of Non-DWCF Articles. The pricing and treatment of reimbursements of non-DWCF articles sold are dependent upon whether the item(s) being sold require replacement. An illustration of the price computation is in Exhibit 7-2.

15.2.3.1. Item Not to be Replaced. When an item is sold from the stocks of DoD and is not intended to be replaced, it is considered a free asset. The free asset price is not less than the actual value of the article.

15.2.3.1.1. The price of the item must be the most recent actual procurement cost of the series and model being sold, plus the cost of any modifications or improvements incorporated after production and the applicable NC recoupment charge.

15.2.3.1.2. Reductions to the sale price may be made when there is an actual difference in utility or desirability among units of issue of an item due to age or condition.

15.2.3.1.3. The cost of the last major overhaul or outfitting accomplished before the sale date is added to the calculated price and is not reduced for age or condition. The

overhaul costs will be prorated over the interval between the last actual overhaul and the next scheduled overhaul (see Exhibit 7-3).

15.2.3.1.3.1. If a future overhaul is not scheduled, the cost of the previous overhaul will be prorated over the normal average interval between overhauls.

15.2.3.1.3.2. If an overhaul schedule is not available, the most appropriate time span for that series and model should be used.

15.2.3.1.3.3. In the case where actual costs are not available for the last overhaul, a reasonable estimate from the facility normally performing overhauls for the type of item to be sold may be used.

15.2.3.1.3.4. In the case where a maintenance schedule has not been established, a period of at least five years should be used.

15.2.3.1.3.5. A request for waiver of the overhaul cost may be submitted to OUSD(C) in accordance with section 13.0.

15.2.3.1.4. In the case of a naval vessel that is 20 or more years old, and 3,000 tons or less, 22 U.S.C. § 2761(a)(2) provides that the actual value is not less than the greater of the scrap value or the fair value (including conversion costs) as determined by the Secretary of Defense. See Exhibit 7-4 for an example of the price computation for a ship that is greater than 3,000 tons.

* 15.2.3.1.5. The amounts received as payment for free assets from the FMS purchaser must be deposited into the Special Defense Acquisition Fund (SDAF). See [Volume 3, Chapter 15](#), subparagraph 3.5.6. and [SAMM C11.9](#) for additional information on proceeds from assets sold.

15.2.3.2. Item to be Replaced. The sale from stock with replacement represents the sale of assets for cash and the subsequent replacement of assets with cash proceeds. The sale and replacement represent two separate transactions generally occurring months or years apart.

15.2.3.2.1. Like Items. Title 22, U.S.C. § 2761 authorizes the replacement of material using proceeds from sales without further congressional approval, so long as the item sold will be replaced with an item of the identical type, model, and series (e.g., the sale of C-130E aircraft and purchase of C-130E aircraft) or a modified version of the same basic model. Obligations to replace the assets will be recognized as direct obligations.

15.2.3.2.1.1. The price of the item to be replaced must be the best-estimated cost of the replacement item available at the time the item is dropped from inventory, plus the NC recoupment charge of the item being sold, adjusted for its remaining service life. The final bill will utilize the best pricing information available if the actual replacement procurement cost is not known. This must be the final cost to the purchaser regardless of the actual cost of final replacement procurement. Inventory managers must realize that this prescribed

pricing methodology may not result in a one-for-one replacement. If exact quantities are needed in inventory in order to maintain readiness, the inventory manager must recommend FMS procurement and not approve a shipment out of stock.

15.2.3.2.1.2. When it is imperative that stock be replaced through accelerated procurements, and normal pricing policies will not adequately recoup replacement costs, an exception to DoD pricing policies must be requested from the OUSD(C). Section 14.0 specifies guidance on exception requests. Normally, the exception would be to add a replacement factor or delay final pricing until the contract for replacement items is financially complete.

15.2.3.2.2. Dissimilar or Modified Items. Congress authorizes the replacement of material using proceeds from sales of dissimilar or modified items. The replacement item must be a later series, a modified version of the same basic model (e.g., sale of a C-130A aircraft and the purchase of a C-130E aircraft), or an acceptable substitute item (e.g., sale of an M-48 tank and the purchase of an M-60 tank). The purchase of upgrading or a modification kit is not considered a replacement even though the upgrade or modification would result in an end item similar to the items that are being acquired. In this situation, an item of material sold will require replacement to compensate DoD inventories for the resultant loss of capability or readiness. The replacement must be shown under the direct budget program and reprogramming action taken prior to replacement. The obligations to replace the assets will be recognized and accounted for as direct obligations, rather than as reimbursements to annual procurement appropriations.

15.2.4. Sale of Ammunition. The selling price of an ammunition item must be the current standard price plus any applicable NC recoupment charge.

15.3 Excess Defense Articles

Excess defense articles are assets in excess of the Approved Force Acquisition Objective and Approved Force Retention Stock of all the DoD Components (see paragraph 15.2 for additional discussion). Excess defense articles must be sold in an "as is" condition. The cost of repairing, rehabilitating, or modifying such articles must be computed in accordance with paragraph 9.2.

15.3.1. Excess articles may be sold at reduced prices to recognize depreciation for the age and condition of the article. PC&H and Transportation (PCH&T) is computed on the original acquisition value and not on the reduced price. The level of effort for the PCH&T is not less for an article that is considered excess; therefore, the expenses for the PCH&T do not decrease and must be recovered in total from purchasers. This policy applies to procurement appropriations and DWCF. An illustration of the price computation for Non-DWCF is in Exhibit 7-5.

15.3.2. The selling price of excess articles, exclusive of repair or modification costs, must be the highest of:

15.3.2.1. Its market value for which the applicable NC recoupment charge must be assumed to be included (market value is the price at which bona fide sales have been consummated for products of like kind, quality, and quantity);

15.3.2.2. Its scrap value plus NC recoupment charge and the last major overhaul costs incurred (scrap value is the amount that would be expected to be obtained from selling the asset at the end of its useful life); or

15.3.2.3. Its fair value, plus NC recoupment charge and prorated major overhaul costs (fair value is the price for which an item can be bought or sold in an arm's length transaction between unrelated parties).

15.3.3. The fair value is computed using the fair value rates associated with the Federal Condition Code of the asset multiplied by the established inventory price. See Table 7-1. If the IA proposes the price of the material to be less than the 5 percent minimum threshold indicated in Table 7-1 or proposes to waive the overhaul costs, a detailed justification must be sent to the DSCA OBO in accordance with section 13.0. If DSCA endorses the IA proposal, it will forward that package to OUSD(C) for final approval.

15.3.4. The overhaul costs will be prorated over the interval between the most recent prior overhaul and the next scheduled overhaul. If a future overhaul is not scheduled, the cost of the last overhaul will be prorated over the normal average interval between overhauls. In the case where actual costs are not available for the last overhaul, a reasonable estimate from the facility normally performing overhauls for the type of item to be sold may be used. In the case where a maintenance schedule has not been established, a period of at least five years should be used. An example of computing these costs is illustrated in Exhibit 7-3.

15.3.5. When accountability for excess items has been transferred to "Property Disposal," the provisions of the DoDM 4160.21, Volume 3 must apply. This manual provides specific guidance for the disposition of amounts realized from the sale of such equipment. Defense Logistics Agency Disposition Services will calculate PC&H based on the original acquisition value of assets sold or transferred.

15.3.6. A request for an exception to the established pricing policy of excess material for FMS will be submitted in accordance with section 14.0 and must address the following:

15.3.6.1. Whether the item has been screened for potential sale to purchasers and whether there is any existing purchaser interest at the price determined in accordance with the established pricing policy;

15.3.6.2. Whether the alternative proposed price is equal to or greater than the scrap value plus the established recoupment charge for DoD NC;

15.3.6.3. Whether demilitarization costs will be incurred by DoD if the item is sold and, if so, the estimated amount of such demilitarization costs;

15.3.6.4. What the price to repair the item would be and its percentage of the original acquisition cost of the item; and

15.3.6.5. Whether the proposed sale has any other economic or political benefit to DoD and/or the USG.

15.4 Quotation of Firm Prices

15.4.1. The DoD Components are authorized to quote firm prices for items to be sold from stock and for in-house services to be furnished, pursuant to 22 U.S.C. § 2761. Such prices are not subject to further adjustment, provided the purchaser accepts the LOA before the expiration date. A firm price may be quoted only for:

15.4.1.1. An actual or estimated replacement price for a procurement-funded end item, including ammunition, or major items to be sold from inventory as authorized in subparagraph 15.2.3.2, when the price is based on budgetary data or contractor quotation;

15.4.1.2. A price for procurement-funded or major item developed under provisions of subparagraph 15.2.3.1 and paragraph 15.3; and

15.4.1.3. Training tuition rates (only for current year). Refer to section 21.0 for additional information on rates for training of international students.

15.4.2. The reason for quoting firm prices is to minimize difficulties that might arise should prices undergo several revisions due to budgetary decisions made subsequent to [the](#) country's acceptance of LOAs. Firm prices may be quoted only after careful and coordinated development of such pricing data. LOAs (other than for training) that specify firm pricing must be coordinated, at a minimum, with the OUSD(C), the Offices of the Assistant Secretaries of the Military Departments (Financial Management and Comptroller), and DSCA.

15.4.3. All LOAs authorized to be on a firm price basis must include a note that specifies that [the](#) pricing data presented is firm (except for changes authorized in paragraph 22.5) and will not be changed, provided the country accepts the LOA before its offer expiration date.

15.5 Charges for NC

Non-USG purchasers must pay a fair price, determined in accordance with [DoDD 2140.02](#), "Recoupment of Nonrecurring Costs (NCs) on Sales of U.S. Items," for the value of DoD nonrecurring investment in the development and production of MDE, as required by law, unless an NC recoupment charge waiver has been approved by the Director, DSCA. For FMS, an NC recoupment charge is applicable to all MDEs. MDE is any item of Significant Military Equipment (SME) listed on the U.S. Munitions List having a DoD nonrecurring RDT&E cost accumulation of \$50 million or a total DoD production cost of more than \$200 million. A listing of MDE with associated NC charges can be found in the [SAMM Appendix 1](#). The NC recoupment charge is not applicable to BPC cases.

15.5.1. Cost Pool Methodology

15.5.1.1. A cost pool methodology is used to determine the pro rata share of NC to be recouped. The NC recoupment charge computation (nonrecurring RDT&E and nonrecurring production cost pools divided by estimated benefiting units) is submitted to the Director, DSCA for approval. The NC recoupment computation must be supported with an MDE calculation worksheet, illustrated in Exhibits 7-6, 7-7, and 7-8. The Director, DSCA will review each DoD Component's calculations and publish the approved charge in the SAMM Appendix 1.

15.5.1.2. Each DoD Component must establish a system to accumulate cost pools, recognize when a cost pool meets recoupment thresholds, and calculate an NC recoupment charge for items releasable to foreign countries and international organizations when FMS sales are anticipated. The NC recoupment charge must be based upon information recorded in DoD accounting records or DoD budget justification documents. If adequate documentation is unavailable, the DoD Component will calculate the pro rata NC at 5 percent of the last known DoD acquisition cost.

15.5.2. Nonrecurring RDT&E Cost Pool

15.5.2.1. The nonrecurring RDT&E cost pool includes costs funded by RDT&E appropriations to develop or improve the product or technology under consideration. The costs to be included in the nonrecurring RDT&E investment cost pool must be determined on the budget and accounting classifications established for RDT&E appropriations in Volume 2B. [Volume 2B, Chapter 5](#), paragraph 10.5 establishes the following RDT&E categories:

15.5.2.1.1. Budget Activity 1, Basic Research;

15.5.2.1.2. Budget Activity 2, Applied Research;

15.5.2.1.3. Budget Activity 3, Advanced Technology Development (ATD). ATD is sometimes further broken down into budget activities 3A (strictly research efforts that involve the production of breadboards or brass boards to model all or part of a design) and 3B (applied to projects to produce a prototype, which although not suitable for fielding, is closer to representation of an end item for military application);

15.5.2.1.4. Budget Activity 4, Advanced Component Development and Prototypes;

15.5.2.1.5. Budget Activity 5, System Development and Demonstration;

15.5.2.1.6. Budget Activity 6, RDT&E Management Support; and

15.5.2.1.7. Budget Activity 7, Operational System Development.

15.5.2.2. Costs in budget activities 3B, 4, 5, 6, and 7 are subject to recoupment and must be included in the nonrecurring RDT&E cost pools upon which the pro rata charge is calculated. The costs incurred for nonrecurring RDT&E in budget activities 1, 2, and 3A may not be included in the nonrecurring RDT&E cost pool.

15.5.2.3. All applicable NC efforts, including in-house or multiple contractors, must be included in the nonrecurring RDT&E cost pool; the source of the NC effort to develop a product is not relevant to the calculation of the NC recoupment charge. The costs of improvement programs that are designed to continuously improve the safety, reliability, availability, and maintainability of an end item, or major component, over the projected life of the item will be shared equitably by all users of the item.

15.5.2.3.1. Normally, each user will pay a share of the total annual cost through a Component Improvement Program (CIP) or comparable program. All users are expected to participate in such a program.

15.5.2.3.2. The cost-sharing calculation will be established at the time the nonrecurring RDT&E cost pool is established and the NC recoupment charge is approved. First, the total life of the item will be projected, and then the point in time when half of all projected deliveries to non-DoD purchasers will occur will be estimated. Using actual cost data and data from historical files for similar CIP or comparable programs, the total U.S. investment costs over the life of the program will be estimated. The amount of U.S. investment projected to be incurred up to the previously determined point of half of the deliveries to non-DoD purchasers will be included in the weapon system nonrecurring RDT&E cost pool.

15.5.2.3.3. The annual cost of operating the CIP or comparable program will be shared in proportion to the number of items in the possession of each user. This will ensure that the remaining costs of operating the CIP, or comparable program, will be shared equally by all users of the item.

15.5.3. Nonrecurring Production Cost Pool. The costs to be included in the nonrecurring production cost pool are those financed by, or to be financed in the future by, procurement or operations and maintenance appropriations that benefit current and future production runs. DoDD 2140.02 stipulates that the pool must capture such costs as preproduction, special tooling, special testing equipment, production engineering, product improvement, destructive testing and product model production, and testing and evaluation. Other costs may be included if they benefit both current and future production runs. Descriptions of the major categories of costs to be accumulated in this NC pool are as follows.

15.5.3.1. Production Cost. Preproduction cost refers to the cost of such activities as tooling manufacture and tryout (i.e., jigs, dies, and fixtures) and the implementation of layout plans. A lump sum payment for license costs is part of the preproduction cost. See subparagraph 15.5.3.8 for more information on license costs.

15.5.3.2. Special Tooling Cost. Special tooling cost refers to the costs of all jigs, dies, fixtures, molds, patterns, taps, gauges, other equipment and manufacturing aids, and

replacement thereof, that are of such a specialized nature that substantial modifications or alteration of their use is limited to the development of production of particular supplies or parts, or the performance of particular services. The term includes all components of such items, but does not include:

15.5.3.2.1. Material;

15.5.3.2.2. Special testing equipment; or

15.5.3.2.3. Building and non-serviceable structures (except foundations and similar improvements necessary for the installation of special tooling), general or special machine tools, or similar capital items.

15.5.3.3. Special Test Equipment Cost. Special test equipment cost refers to the cost funded by procurement appropriations for either single or multipurpose integrated test units engineered, designed, fabricated, or modified to accomplish special-purpose testing in the performance of the contract. Such testing units comprise electrical, electronic, hydraulic, pneumatic, mechanical, or other items or assemblies of equipment that are mechanically, electrically, or electronically interconnected so as to become a new functional entity, causing the individual item or items to become interdependent and essential in the performance of special test equipment procured with RDT&E appropriations.

15.5.3.4. Developmental Production Engineering Cost. Developmental production engineering cost includes the cost of product design improvement intended to enhance the producibility of an item; examination of available manufacturing processes to determine the need for new techniques (and their development, if necessary); the optimum marshalling of resources for efficient manufacturing (such as optimum lot size, scheduling, production control, production line design and balancing, and plant layout); and tool design and detailed manufacturing planning. Although a continuing activity, most of this effort is rightfully considered a nonrecurring production cost.

15.5.3.5. Product Improvement Cost. Product improvement programs may be accomplished by contractors as an engineering change proposal, modification work order, or an in-house project. Categories listed in subparagraphs 15.5.3.5.1 – 15.5.3.5.5 are to be included in the end item nonrecurring production cost pool, even though a participating product improvement program has been established that prorates the annual cost of the program based upon worldwide asset position (both U.S. and foreign-owned end items). The DoD cost of the category listed in subparagraph 15.5.3.5.6 must be recovered as part of the selling price of a new model item if the item is MDE. Product improvement is subdivided into six distinct types of effort:

15.5.3.5.1. Safety;

15.5.3.5.2. Cost reduction;

15.5.3.5.3. Reliability, availability, and maintainability;

15.5.3.5.4. Deficiency corrections;

15.5.3.5.5. Compatibility standardization, and simplification; and

15.5.3.5.6. New or improved operational capability.

15.5.3.6. Destructive Testing Cost. Destructive testing is a technique for performing tests on a component, assembly, or end item. It involves the testing of an article beyond its design limits (and ultimately its destruction), or the actual consumption of the article to determine if it is performing to design specifications.

15.5.3.7. Pilot Model Testing Cost. Pilot model testing includes the following efforts:

15.5.3.7.1. Qualification testing is a very severe testing to determine if a product will do what it is designed to do. It usually involves the testing of a product to the limits of its performance. It is often destructive and the test articles are not intended to be used operationally in the future; and

15.5.3.7.2. First article testing performed to evaluate a new manufacturer's ability to produce a specified design (could be the new manufacturer's design or that of another manufacturer). It is normally more stringent and costly than routine acceptance testing, but less stringent and costly (and less destructive) than qualification testing.

15.5.3.8. License Cost. License cost refers to the cost of the license DoD obtains to allow competitive awards for the production of an item when its design is owned by a contractor. In effect, DoD buys the rights to allow other contractors to produce an item for DoD purposes through the payment of royalties or a lump sum fee. These royalties are customarily on a per item basis and should be charged as recurring production costs. The lump sum fee is a nonrecurring production cost.

15.5.4. Components for USG Use Only. In computing NC pools for items to be sold under FMS, NC of major components that are restricted to USG use must not be included. For example, the costs of nuclear devices and features, countermeasure devices and features, security devices (black boxes), carrier-peculiar adaptations, and special fuel tank devices must be excluded. Estimates may be used if accounting records do not identify associated costs.

15.5.5. Benefiting Units

15.5.5.1. Benefiting units is the number of items that must be included in all known or projected DoD production quantities and must be determined as follows.

15.5.5.1.1. The production quantities of end items required by DoD must be obtained from either Selected Acquisition Reports or the Future Years Defense Program Procurement Annex.

15.5.5.1.2. The production quantities of end items to be procured for foreign countries or international organizations under SA programs must be obtained from DoD Component SA plans.

15.5.5.1.3. If end item data is not available from any of these sources, then the developing command must estimate the total number of end items to be produced.

15.5.5.1.4. The production quantities of systems components that meet the investment threshold must be derived from the number of end items to be produced. For example, if 100 aircraft must be produced (assume one engine for each aircraft) and spare part support requires 150 engines, the production quantity of engines is 250.

15.5.5.2. In the event of a disagreement on the production quantity and sales projections, the Director, DSCA must make the final determination in coordination with OUSD(C) and OUSD(A&S/R&E) of the production estimates to be used for determining the NC recoupment charge.

15.5.6. NC Charge Revisions. A revision may be submitted at any time by a DoD Component. It is mandatory that a modification to the NC recoupment charge be submitted when a significant change occurs.

15.5.6.1. Price Reduction. When the price is reduced because of age, condition, or supply status (excess), the same percentage reduction must be made to the pro rata share of NC.

15.5.6.2. Biennial Review. DoDD 2140.02 requires a biennial review of approved MDE charges to determine if there has been a significant change in factors or assumptions used to compute the currently approved recoupment for a model. A significant change occurs when:

15.5.6.2.1. A new calculation shows a change of 30 percent of the current system NC charge for an MDE item;

15.5.6.2.2. The NC unit charge increases or decreases by \$50,000 or more;
or

15.5.6.2.3. The potential for a \$5 million change in recoupment exists.

15.5.6.3. Model Change. When a model change occurs, the NC recoupment charge must be recalculated. That portion of the NC that benefits only one model must be allocated only to that model. That portion of the NC that benefits old and new models must be prorated between cost pools related to the old and new model items. The commonality between old and new models may be determined either on the basis of the ratio of old model parts in the new item or on some other common acceptable basis for allocation of costs between the models (e.g., engineering analysis or technology analysis, as appropriate). Sample calculations are illustrated in Exhibits 7-6 through 7-8.

15.5.7. NC Charge Recoupment. The approved pro rata charge must be recouped unless a waiver is authorized. When NC recoupment is applicable, the price on an LOA must include the specific recoupment charge. In instances where the initial rate has not yet been approved, DoD Components must provide an estimated rate based on the most accurate information available to the DoD Component. The LOA must be modified to specify the subsequently approved rate and only that approved rate is to be billed. When a recoupment charge is revised, the previous value is retained in the SAMM Appendix 1. Subsequent revisions to the pro rata charge must be applied to new LOAs and must not be applied retroactively. An exception to this rule of application is not authorized.

15.5.8. Reporting NC Recoupment Collections. NC Recoupment Collections must be reported.

15.5.8.1. Funds collected for NC recoupment charges must be disposed of in accordance with Chapter 3, paragraph 9.2.

15.5.8.2. DoD Components must provide a quarterly report on the status of NC recoupment collections. The report must be forwarded to the Director, DSCA OBO within 45 days following the close of each fiscal quarter.

15.5.8.3. DoD components must maintain records of anticipated and actual NC recoupment collections.

15.5.9. Waivers

15.5.9.1. The Director, DSCA has been delegated the authority to waive NC recoupment charges on FMS sales in accordance with paragraph 13.1. DSCA must issue, in writing, any approvals granted for waivers of the NC recoupment charge that otherwise would be collected under FMS. DSCA must forward a notification of each approved waiver to the applicable DoD Component.

15.5.9.2. The decision on any waiver requires the concurrence of OUSD(C) and OUSD(A&S/R&E). If an issue concerning the waiver request cannot be resolved, the Director, DSCA must submit an official waiver request to the Deputy Secretary of Defense for final determination. That request to the Deputy Secretary of Defense must be coordinated with OUSD(C) and OUSD(A&S/R&E).

15.5.9.3. Articles delivered after November 30, 1989, under FMS cases fully financed with MAP Merger funds and/or non-repayable FMF funds, must be priced to exclude the NC recoupment charge, in accordance with 22 U.S.C. § 2761(e)(1)(B).

15.5.10. "Special" RDT&E and Nonrecurring Production Costs

15.5.10.1. DoDD 2140.02 requires the purchaser to pay for "special" RDT&E and nonrecurring production costs that are incurred for the benefit of a particular FMS purchaser. Documentation must be maintained to show that the FMS purchaser requested the feature for its

own benefit. For purposes of this paragraph, a “special” feature or unique requirement includes, but is not limited to, features that DoD initially may not have adopted or purchased due to the non-availability of funds, lack of authorization from the Congress, or lack of an approved DoD requirement, but subsequently adopts or purchases when otherwise authorized.

15.5.10.2. DoDD 2140.02 stipulates that the USG must not be charged a recoupment charge for "special" RDT&E and nonrecurring production costs even if the USG also adopts those features for its own use, or provides equipment with such features under a U.S. grant, aid, or similar program. This provision applies without regard to whether the adoption of such features by DoD occurs before, during, or after the full development of the feature.

15.5.10.3. DoDD 2140.02 permits the recoupment of "special" RDT&E and nonrecurring production costs incurred by FMS purchasers or participants of a coproduction, co-development, and cooperative development, or cooperative production program.

15.5.10.3.1. Recoupment is allowable only if such "special" costs exceed \$50 million for each FMS purchaser, or if the “special” costs of participants of a cooperative agreement exceed \$50 million in aggregate.

15.5.10.3.2. The "special" recoupment charge is determined by the DoD Component as a result of the distribution of the total costs divided by the total production, which is the same methodology used for determining the DoD NC recoupment charge.

15.5.10.3.3. The reimbursements may be collected by the Department from other purchasers or participants on behalf of the purchaser or cooperative participant incurring the “special” costs. Unless otherwise authorized by the USD, Policy, reimbursements must not be collected after 10 years have passed since the date the original FMS customer accepted the FMS LOA that included the special NC charges. IAs should coordinate with DSCA to obtain approval.

15.5.11. Defense Contract Audit Agency (DCAA). The Director, DCAA must ensure that any evaluation of a contractor accounting system includes an analysis of the internal controls established to ensure compliance with the requirement to pay NC recoupment charges for sales made prior to October 7, 1992. If DCAA audit work (e.g., on a bid proposal or claim for incurred costs) discloses contractor noncompliance with the requirement to pay an NC recoupment charge, an audit report must be issued promptly to the cognizant DoD contracting officer, with a copy of the report submitted to OUSD(C), DFAS SCA, and DSCA OBO.

15.6 Returns

In accordance with 22 U.S.C. § 2761(m), returns may be accepted if the defense article was previously supplied under the U.S.C., is not SME, and is in full functioning condition without need of repair or rehabilitation. DoD must have a funded requirement, including FMS requirements, for the defense article. The purchaser must not be reimbursed directly; the purchaser's FMS Trust Fund account must be credited to reflect the transaction, using DoD appropriations or other purchaser funds, dependent on the buyer.

16.0 CASH SALES OF DEFENSE ARTICLES AND SERVICES FROM NEW PROCUREMENT FOR DIRECT DELIVERY AND NEW PRODUCTION

Defense articles procured for cash sales to an eligible foreign government or international agency for direct delivery, pursuant to 22 U.S.C. § 2762, must be priced to recover the full contract cost to DoD, including DoD recurring contract support costs and applicable DoD surcharges. Costs may be revised for increases in labor and materials, or for other changes in production and procurement costs. The purchaser is obligated to pay any damages or costs that may accrue from the purchaser's cancellation of the contract (termination liability). Applicable surcharges must be added to the contract cost and included in billings for incurred costs. An illustration of the price computation is in Exhibit 7-9.

16.1 Cost Principles

16.1.1. DoD articles must be priced based on the same cost principles used in pricing DoD contracts covering items for DoD use. Recognition must be given to other reasonable, allowable, and allocable contractor costs and risks as permitted in the [Federal Acquisition Regulation](#) and [Defense Federal Acquisition Regulation Supplement](#), unless the purchase is wholly funded through non-repayable FMF funds.

16.1.2. When insufficient funds are available in the FMS Trust Fund account of a foreign government to meet current cash requirements, DSCA must initiate, through the responsible DoD Component contracting officer, appropriate contractual actions that will balance current cash requirements with available funds, unless the provisions of 22 U.S.C. § 2762(b) are involved. This condition should not occur without notification to the FMS purchaser. See Volume 16, Chapter 6 for information on debt owed to the DoD by foreign entities.

16.1.3. The \$250,000 expense/investment threshold stated in [10 U.S.C. 2245a](#) does not apply to investment items funded by expense appropriations in support of BPC programs.

16.2 Nonrecurring RDT&E and Nonrecurring Production Costs

The price must include recovery of nonrecurring RDT&E costs and nonrecurring production costs as specified in DoDD 2140.02. Paragraph 15.5 contains further discussion of these costs.

16.3 CAS Costs Incurred in Support of New Procurements for FMS

16.3.1. CAS Surcharge. DFAS SCA recovers the cost of CAS by applying a percentage surcharge to the delivery transactions reflecting disbursements to contractors for FMS procurements on which applicable CAS have not been waived. The surcharge amounts collected are deposited to an account maintained by DFAS SCA and used to reimburse the DoD Components for CAS performed. The following surcharges are prescribed for DFAS SCA application to disbursement with reimbursable codes, specific delivery source codes, and price code "N":

FMS CAS Component	For LOAs Implemented Before October 1, 2002	For LOAs Implemented October 1, 2002 - November 30, 2014	For LOAs Implemented December 1, 2014 – January 31, 2020	For LOAs Implemented On or After February 1, 2020
Contract Administration/Management	0.50%	0.65%	0.50%	0.45%
Quality Assurance and Inspection	0.50%	0.65%	0.50%	0.45%
Contract Audit	0.50%	0.20%	0.20%	0.10%
Subtotal , Continental United States (CONUS) FMS CAS	1.50%	1.50%	1.20%	1.00%
Outside the CONUS (OCONUS)	Previously included above	0.20%	0.20%	0.20%
Total , CONUS + OCONUS FMS CAS	1.50%	1.70%	1.40%	1.20%

16.3.2. CAS Waivers. CAS is subject to waiver in whole or in part under 22 U.S.C. § 2761(h). See paragraph 13.3 for more information on CAS waivers. A listing of waived programs is included in the SAMM C9. CAS waivers apply only to those cost elements approved for the entire LOA, not only to a specific line/sub-line. CAS waivers are case-based and apply to new cases implemented on or after the approved waiver date. They are not retroactive nor applied to amendments on cases implemented prior to the waiver. The waived CAS element must be charged to DoD appropriations. DFAS and DSCA must reject billings to the FMS Trust Fund CAS Surcharge Account for charges that were waived.

16.4 CAS Costs Incurred in Support of Foreign Country Commercial Contracts

DoD support of commercial contracts awarded by foreign countries and international organizations represents an FMS sale of services. The Defense Contract Management Agency is responsible for performing this function. The hours expended in support of these commercial contracts must be accumulated and billed at an FMS contract administrative hourly labor rate published each FY by OUSD(C). For the current rate, see “Financial Management, Reports, Department of Defense Reimbursable Rates,” Contract Administration (Tab E).

16.5 Costs for Government-Furnished Material (GFM)

16.5.1. Supplied From Inventory. All GFM supplied from inventory must be billed to the FMS case as "work in process" when the GFM is shipped from a depot to a contractor (Chapter 8). The billing price must be the same as a direct sale to an FMS purchaser, plus applicable accessorial costs.

16.5.2. Supplied From a Contractor. All GFM supplied from another contractor must be billed to the FMS case as "work-in-process" when payments are made to the contractor supplying the GFM. GFM should be shipped via a CCBL or prepaid by the supplying contractor. Contracts with contractors supplying GFM should directly cite the FMS Trust Fund as the financing source to the maximum extent possible.

16.5.3. Precious Metal. When precious metals recovered under the precious metals recovery program are provided as GFM to a contractor, the material must be valued at the market price on the date it is supplied to the contractor. Market price must be determined from any authoritative publication, such as *The Wall Street Journal*.

16.6 Other DoD-Funded Services in Support of FMS Procurements

16.6.1. The cost of DoD-provided or DoD-funded engineering services that are required to solve problems encountered during a production run must be allocated to FMS purchasers based on the number of items that are in the production run.

16.6.2. If components are procured for an FMS purchaser and assembled by DoD personnel, assembly labor costs must be assessed in accordance with section 20.0.

16.6.3. If a contractor is designated as the source of supply for nonstandard items to be procured for FMS purchasers, the contract price for the applicable items will normally include the additional cost(s) incurred to research and procure the nonstandard items. Any reasonable method of allocating these additional costs is acceptable. The test of the reasonableness of the contractor's costing allocation would be acceptance of the method by DCAA.

16.7 Customization Costs

The cost of deviations from USG configuration and special technical data desired by a foreign government must be included as a charge to that foreign government.

16.8 Items to be Replaced by Later Production (Diversions)

When new production and procurement items are diverted from Military Department delivery schedules, and will be replaced by later production, these items must be priced at the current production cost or the replacement production cost, whichever is higher.

16.9 Production by a Foreign Government

When a portion of the production quantity is to be produced by the purchasing foreign government, costs must be computed separately in accordance with cost methods established by the foreign government and accepted by the USG.

16.10 Recoupment of Interest Penalties Due to Prompt Payment Act

The FMS Trust Fund must pay or reimburse any prompt payment interest penalty payments that are incurred ([Title 5, Code of Federal Regulation, Part 1315](#), Prompt Payment). Vouchers for interest penalties incurred on FMS procurements must cite the same line of accounting supplied by DFAS SCA prior to the beginning of each FY. If, at the time of occurrence, the appropriate fund cite is unknown, contact DFAS SCA. DFAS SCA has assigned a unique accountable station number for each Service or Component for the purposes of accounting for prompt payment interest penalty reporting.

16.10.1. Within 30 days after the end of each quarter, each assigned DFAS SCA accountable station must submit the FMS Prompt Payment Act Report to DSCA. This report contains three sections reflecting the interest penalties paid by the number of transactions, the dollar amount, and a reason code.

16.10.2. Each assigned DFAS SCA accountable station must submit an FY end-of-year report annually. Since the fourth quarter report is an aggregate of the entire FY, the quarterly report also serves as the annual requirement. This report is due to DSCA 45 days after the end of the FY.

16.11 Price Codes

The DoD Components will make every effort to obtain the final price for contract-supplied items within 180 days of reported delivery. However, the use of estimated price codes is approved for reporting the deliveries of major end items if an actual price code is not available within 30 days after the date of shipment. Moreover, the use of estimated price codes is mandatory for reporting the deliveries of major end items if an actual price code is not available within 90 days after the date of shipment.

17.0 LEASING OF DEFENSE ARTICLES

Defense articles are leased to a foreign country or international organization under the authority of [22 U.S.C. § 2796](#). Inspection, restoration, maintenance, accessorial costs, or other support costs incurred in connection with the lease must be priced in accordance with this chapter and included on a separate LOA. Lease charges must apply except for cooperative R&D projects, military exercises, communications, and/or electronics interface projects. Reimbursement of the lease charge for any defense article that has passed 75 percent of its normal service life may be waived if it is determined that doing so is important to the national security interest of the United States. This waiver authority has been delegated to the Director, DSCA or in the absence of the Director, the Deputy Director.

17.1 Pricing of Leased Defense Articles

The amount to be charged for the lease of defense articles is the depreciation incurred during the period of the lease. The depreciation charge is dependent upon the following (see Exhibit 7-10):

- 17.1.1. Date the item is to be leased,
- 17.1.2. Date the item was first fielded or actual acquisition date,
- 17.1.3. The total estimated service life of the item,
- 17.1.4. Duration of the lease,
- 17.1.5. The original acquisition cost of the item,
- 17.1.6. A pro rata share of nonrecurring RDT&E and production costs, and
- 17.1.7. Capital improvements made to the item.

17.2 Replacement Costs

Replacement costs must be estimated when the item is placed on lease and reflected in the lease agreement. In the event a leased defense article is damaged beyond repair, or is not returned, the replacement cost must be collected from the leasing foreign country or international organization. The FMS administrative surcharge does not apply to lease rental payments. The replacement cost must be calculated in accordance with subparagraphs 15.2.2 and 15.2.3. Refer to [SAMM C11](#) for procedures on leasing arrangements.

18.0 TECHNOLOGY TRANSFER

18.1 Technical Data Package (TDP)

A TDP encompasses production designs, drawings, specifications, models, manufacturing techniques and details, and similar information necessary to enable a foreign government to manufacture, or have manufactured, items of military equipment and repair parts, excluding information associated with the RDT&E stage. It also does not include technical assistance or knowledge by USG personnel; however, such assistance may be provided at additional cost. Refer to [SAMM C3](#) for additional information on TDP.

18.2 Pricing of TDPs

DSCA may authorize release of a TDP to a foreign government for in-country manufacture of military equipment and repair parts. Costs incurred in the preparation, reproduction, and handling of the TDP must be priced in accordance with section 19.0. When the pricing of the TDP is subject to an international agreement of which DoD is a party or is otherwise bound, the sale will be determined consistent with the terms of the agreement.

19.0 PUBLICATIONS

Generally, the cost for a DoD standard publication is the incremental cost to produce another copy. Effective October 1, 2004, acquisition and development costs are excluded in determining the costs of a DoD standard publication.

19.1 Terms

19.1.1. Publications. The term publications include technical orders, technical manuals, supply catalogs, training publications, courseware, computer-based tutorials, administrative publications, engineering drawings, and associated documents, Integrated Logistics Support publications and associated documents, equipment component lists, special file extracts, decals, forms, and audio-visual products.

19.1.2. Medium of Publications. The medium of publication refers to the format of the publication; it may be in bound or loose-leaf format, imprinted form, Automated Data Processing listing, operator's card, microfilm, slide, motion picture film, computer disc, or internet accessible.

19.1.3. FMS Purchaser-Unique Publication. Unique publications are DoD standard publications sanitized for the elimination of non-releasable information or publications developed for a country's unique specification. Engineering drawings and associated documents will be reviewed to determine if a technology charge is appropriate. Refer to subparagraph 15.2.2 when pricing DWCF publications.

19.2 Publication/Software Pricing Factors

Publications or software developed solely for the use of an FMS purchaser(s), such as a country-unique technical order/software, instructions, or other publications and programs, must be priced to recover the total costs (including both in-house and contractual efforts) of development and delivery of the end product. These costs must include but are not limited to, the amounts paid for technical or administrative writing, editing, illustrating, animation, copy preparation, documentation, royalty fees for intellectual property, and distribution services. The costs of additional copies or masters must be limited to the actual costs of reproduction to include media (e.g., disk, tape, compact disk, and hardcopy) and distribution/delivery. The development of FMS prices for current, standard publications, or software programs/products of the DoD includes copy production cost (CPC) and SC.

19.2.1. CPC. CPC are the costs incurred in the printing or reproduction of copies from the reproducible master.

19.2.2. SC. SC are the costs incurred in the elimination of non-releasable information from a DoD publication/software program prior to release to a foreign government. SC includes the costs of classified handling, development, and maintenance of country-peculiar publications or programs, including costs associated with updating manuals/programs for nonstandard items (such as items out of inventory or out of production).

19.3 Development of a Per Copy Selling Price

19.3.1. Calculation. The total cost of a publication or software program is the sum of the incremental costs identified in paragraph 19.2. The total cost must be reduced to a per copy expression by dividing the total incremental cost by the quantity produced.

19.3.2. Use of Actual Cost. Recorded actual costs will be used when available. When actual costs for individual publications or programs cannot be readily determined, a factored expression of historical costs will be developed from the most current cost records available. Uniform pricing tables can be developed from the cost per "unit" ("unit" being either a page, a roll of microfilm/microfiche page, or a running foot of tape or motion picture film). Paragraph 19.2 includes guidance for developing publication pricing tables.

19.4 Other Applicable Costs

19.4.1. Recoupment of NC does not normally apply to the sale of publications or software. However, if the item is MDE, then NC recoupment charges would apply. Applicable NC recoupment charges are a part of the cost included in the pricing formula set forth in paragraph 19.3.

19.4.2. The standard administrative and accessorial charges prescribed in this chapter must be recouped as a percentage of publication/software prices. These charges are not included in the per copy selling price.

19.4.3. The FMS price for a joint Military Service publication or software program must be established by the Military Department responsible for its acquisition and management. That Military Department must notify the other participating DoD Components of the established FMS price.

20.0 PRICING OF PERSONNEL SERVICES

The pricing of DoD personnel services in support of the FMS program, including personnel costs recouped indirectly through the FMS administrative surcharge and those recouped as direct charges, such as special management services, Mobile Training Teams, Mobile Education Teams, Technical Assistance Teams, or Technical Assistance Field Teams, must be calculated in accordance with this section. See section 21.0 for the pricing of personnel assigned to DoD training installations and for those costs that may be waived or excluded from charges in certain cases discussed throughout this chapter. When determining the pricing for personnel services, every attempt should be made to use actual costs. If actual cost data is not available, estimated pricing is acceptable. The costs must be substantiated by a reliable audit trail.

20.1 Civilian Personnel

Services performed by DoD civilian personnel must be priced at rates in effect at the time the services are performed. Salary tables are available at the Office of Personnel Management ([OPM](#)) website.

Base salary rates must be accelerated as discussed in this paragraph. An illustration of civilian personnel pricing computation is shown in Exhibit 7-11.

20.1.1. Accelerated Rates and Factors

20.1.1.1. Fringe Benefits Rate is used to recover the USG's contribution of civilian employee benefits such as retirement, insurance and health plans, and cash awards, and is published annually at OUSD(C) DoD Reimbursable Rates, "Civilian Personnel Fringe Benefit (Tab D)".

20.1.1.2. Leave and Holiday (L&H) Factor is used to compensate for wages paid during leave or holiday period, and is currently set at 18 percent. L&H is not applied to civilian personnel assigned full time to a given requirement.

20.1.1.3. Unfunded Civilian Retirement (UCR) Factor is applied to recover retirement, post-retirement health benefits, and post-retirement life insurance costs incurred by USG, and is published annually at OUSD(C) DoD Reimbursable Rates. UCR does not apply to BPC Case- or FMS Admin-funded personnel.

20.1.2. The cost of civilian personnel assigned full time to FMS Case-funded requirements should reflect the annual salary for the applicable pay grades plus the Fringe Benefit Rate plus the UCR Factor. Otherwise, an hourly rate of 1/2087 of the annual rate plus the L&H Factor will be used, and the Fringe Benefits Rate and UCR Factor are then applied to the calculated hourly rate.

20.1.3. The cost of civilian personnel assigned full time to BPC Case-funded requirements, or funded 100 percent from the FMS Administrative Surcharge Budget, should reflect the annual salary for the applicable pay grades plus the Fringe Benefit Rate. Otherwise, an hourly rate of 1/2087 of the annual rate plus the L&H Factor will be used, and the Fringe Benefits Rate is then applied to the calculated hourly rate.

20.1.4. See paragraph 13.8 for the impact of "Fair Pricing" legislation on civilian personnel services in calculating charges for administrative services under 22 U.S.C. § 2796(e)(1)(A).

20.2 Military Personnel (MP)

20.2.1. MP services must be priced using the composite standard pay and reimbursable rates current at the time services are performed. MP service costs are not included in cases solely citing MAP Merger, FMF, or BPC funding.

20.2.1.1. DoD Reimbursable Rates, "Military Personnel Composite Standard Pay and Reimbursement Rates (Tab K)," are published, and periodically revised, by the OUSD(C). FMS costs are calculated using the "Rate Billable to FMS Entities." Monthly, daily, or hourly rates can be determined from these tables by using factors listed in the notes at the bottom of each page.

20.2.1.2. Historical rates are available by applicable FY, as noted in the DoD Reimbursable Rates. Prior to November 30, 1989, an Asset Use acceleration factor would have applied to the total costs of temporary duty (TDY) and military composite pay costs if the service was performed at a military installation.

20.2.2. Since FY 1985, the annual composite standard military rates include the cost of retirement. These composite rates, however, must also recover the cost of other benefits. L&H costs are added when reimbursements are based on time actually worked, such as when the foreign country does not otherwise pay for the personnel costs incurred by DoD during L&H periods. The additive amounts for retirement, L&H, and other benefits are expressed as percentages of the composite standard pay rate. Pricing computations are illustrated in Exhibit 7-12.

20.2.3. Permanent change of station (PCS) costs are included in the composite standard pay rates and are subject to reimbursement factors. For cases prior to FY 2005, if MP were required to make a PCS move to support an FMS case, the PCS rate must be deleted from the composite rate and the actual PCS cost charged to the case is not subject to any additional reimbursement factor. Effective FY 2005, MP services for FMS must be priced using the composite rates that already include the PCS expense and must no longer use the actual PCS expense for PCS moves to support an FMS case.

20.3 Foreign National Personnel

Foreign national personnel services must be priced at actual costs or at standard pay rates. Standard pay rates must not be used when known to be less than actual costs. Both the actual cost and the standard pay rate must include an estimated amount to cover such benefits as sick leave, maternity leave, death, accident, unemployment, and retirement (separation) when such benefits are paid to these employees or [are](#) specifically required by the laws of the foreign government.

20.4 Travel and Living Allowances

20.4.1. The calculation of personnel costs must include travel time, for both TDY travel and PCS, when the travel directly results from [the](#) performance of an FMS or BPC case (PCS does not apply to BPC).

20.4.2. Travel, per diem, living allowance payments, and other entitlements to DoD personnel working on FMS cases must be identical to the payments and entitlements of DoD personnel working on direct DoD mission assignments at similar locations. Refer to Volume 9 for additional information.

20.4.3. Waivers from the normal travel procedures must be granted to SA travelers on the same basis, and in the same manner, as provided for DoD personnel traveling on regular defense business.

20.4.4. An FMS case must be priced to include the amount paid to employees or centrally funded through authorized DoD entitlement programs.

20.5 Special Instructions Applicable to DWCF

20.5.1. Rates. DWCF facilities must charge approved DoD stabilized rates and prices for services in support of FMS cases, except where special rates have been approved by OUSD(C) or where actual cost reimbursement is appropriate. The stabilized rate to be charged is the rate in effect when the order is received and accepted (as opposed to when work is performed by DWCF supply management). See Volume 2B, Chapter 9 and Volume 11B for additional information on DWCFs.

20.5.2. UCR and Post-Retirement Health Benefits. The price or rate charged to FMS purchasers of DWCF activities for defense articles and services must be adjusted to include an amount for UCR and post-retirement health benefits costs. UCR would not be applied to any personnel funded by the FMS administrative account (see paragraph 13.8). To determine the price or rate adjustment, the civilian salary costs (not including benefits or overtime costs) included in the price or rate, must be multiplied by the UCR and post-retirement health benefits costs rate. Amounts collected for UCR and post-retirement health benefits costs must not be retained by DWCF activities; rather, such amounts must be deposited into the Miscellaneous Receipts Account 3041. The DoD Reimbursable Rates can be found at [the OUSD\(C\) DoD Reimbursable Rates website](#).

21.0 TRAINING OF INTERNATIONAL STUDENTS

21.1 General

Any special requirement for the exclusive use of an international student or international program must be reimbursed in full. Less than the full cost of training may be charged under training price exceptions, 22 U.S.C. § 2761.

21.2 International Student Training Price Exceptions

21.2.1. Title 22, U.S.C. § 2761(a)(1)(C) allows for countries concurrently (same FY) in receipt of International Military Education and Training (IMET) or designated as a high-income foreign country to be charged only those additional costs that are incurred by the USG in furnishing the training.

21.2.2. Title 22, U.S.C. § 2761(g) authorizes the President to enter into NATO Standardization Agreements (STANAG). The President also is authorized to enter into similar agreements with countries that are major non-NATO allies for the cooperative furnishing of training on a bilateral or multilateral basis, if the financial principles of such agreements are based on reciprocity.

21.2.2.1. Such agreements must include reimbursement for all direct costs but may exclude reimbursement for indirect costs, administrative surcharges, and costs of billeting of trainees (except to the extent that members of the U.S. Armed Forces, occupying comparable accommodations, are charged for such accommodations by the United States).

21.2.2.2. Each such agreement must be transmitted promptly to the Speaker of the House of Representatives and the Committees on Appropriations, Armed Services, and Foreign Relations of the Senate. See [SAMM C10.T13](#) and [SAMM C10.T14](#) for more information on Reciprocal Agreements.

22.0 STANDARD GUIDELINES FOR TUITION-BASED TRAINING

Training provided to international students must be based on the costs of providing the training. Several factors affect the tuition rate for which an international student is eligible. The source of financing is one determinant (e.g., whether a country uses its national funds to purchase training or whether U.S. appropriated funds are used to purchase the training). Other factors include whether a country is a high-income country, whether it has signed a reciprocal training agreement with the United States, and/or whether the country is concurrently in receipt of IMET funding. A general tuition rate pricing structure for pricing training is in Exhibit 7-13.

22.1 Types of Training

22.1.1. Standard Formal Training. Formal training provided to international students may consist of flying training courses, technical training courses, language training, and other training not specifically addressed in subparagraph 22.1.2. Tuition rates are generally shown as a cost per student or cost per student week. Refer to section 23.0 for pricing of tuition-based training.

22.1.2. Nonstandard Formal Training. Nonstandard formal training courses follow the same pricing concepts as formal training with the following noted exceptions:

22.1.2.1. Observer Training. Observer training where International students, who audit a course, must be charged the same price as enrolled students; and

22.1.2.2. Distance Learning. Distance learning or other technology-based training as follows:

22.1.2.2.1. A material-only training course that is provided solely by computer media (e.g., computer disc), satellite video teleconference (VTC), or closed circuit VTC, is non-resident, and is being developed solely for the training of international students (one country or a group of cooperating countries), must be priced to fully recoup all costs to the USG including the costs (in-house and contractual) to develop and produce the training, and the costs of the materials (such as a computer disc) (see paragraph 19.2 for publication/software pricing);

22.1.2.2.2. A material and proctor/online service, non-resident training course developed solely for the training of international students (one or more countries) that is provided by computer media (e.g., computer disc), plus online services (proctor), to include testing, must be priced to recoup all costs (in-house and contractual) to develop and produce the training; the costs of the materials (such as a computer disc); and the actual, or estimated, costs of the services (see paragraph 23.1 for training cost categories and paragraph 19.2 for publication/software pricing); and

22.1.2.2.3. Resident courses developed solely for the training of international students that is on computer media (e.g., computer disc), plus on-line services (proctor), must be priced to recoup all costs (in-house and contractual) to develop and produce the training; the costs of materials (such as computer disc); the actual, or estimated, costs of the services; and the costs for resident training (see paragraph 23.1 for training cost categories and paragraph 19.2 for publication/software pricing).

22.1.2.3. Dedicated Training Courses. For purposes of this section, a dedicated training course is a training course developed or provided solely for the training of international students (one or more countries). Pricing of dedicated training courses must be in accordance with section 24.0.

22.1.2.4. Contractor-Provided Courses. Contractor-provided courses must include the applicable contract costs. If taught at a government-owned/government-operated facility, the pricing of indirect costs must be in accordance with section 23.0.

22.1.2.5. Inter-American Air Forces Academy and Western Hemisphere Institute for Security Cooperation Courses. Training costs associated with courses offered at the Inter-American Air Forces Academy and Western Hemisphere Institutes for Security Cooperation Courses must exclude the fixed costs of operating and maintaining the schools (e.g., costs that do not vary with student load).

22.1.2.6. Specialized/Dedicated Training Programs. Refer to section 24.0 for specialized/dedicated training program guidance.

22.1.2.7. Training Teams. Refer to section 25.0 for pricing guidance for the training team.

22.2 Courseware Development

22.2.1. Recoupment of Nonrecurring Development Costs

International student participation in any of the aforementioned types of courses that have been developed for use by U.S. DoD personnel must not include the recoupment of nonrecurring development costs. Since these courses/courseware are not items of SME or MDE, the nonrecurring development costs of the original U.S. courses/courseware must not be included in the price. The costs of providing unique training material based on U.S. developed course/courseware (e.g., sanitizing, customizing, and country standardization) must be recouped.

22.2.2. Pricing of Non-Inventory Courseware

22.2.2.1. When an international partner has requested that specific courseware be developed to meet its training requirements, either for training in the U.S. or for its own in-country training purposes, and the United States does not currently offer or have such courseware developed, the full costs of developing that courseware must be charged to the international partner. Assumptions used in pricing include: courseware does not currently exist,

country-specific requirements being addressed/developed, work hours required to prepare/develop the courseware, courseware may require materials, and courseware may be used in the future for another country if deemed appropriate.

22.2.2.2. The cost must include but is not limited to, the personnel or contractor costs incurred in the development of the courseware material, and/or supply costs incurred for the cost of publishing the courseware, and any shipping costs that may be incurred if delivering the courseware in-country. The guidance for applying costs to publications, if applicable, may be found in section 19.0.

22.2.2.3. When determining the pricing for personnel services, every attempt should be made to use actual costs. If actual cost data is not available, estimated pricing is acceptable. The costs must be substantiated by a reliable audit trail. Pricing of civilian/MP will be in accordance with section 20.0.

22.3 Liability for Damages

22.3.1. Training cases that involve the use of U.S. equipment (e.g., aircraft, trucks, or simulators), but do not include charges for attrition, must include the statement regarding liability for damages, “The Purchaser is liable for any and all damages to U.S. Government equipment caused by negligence on the part of the student.” For students attending training under the IMET program, the student’s Invitational Travel Order (ITO) must include the liability statement. The cost of replacing equipment that is destroyed as a result of student negligence must be reimbursed in full. See section 15.0 for instructions on pricing replacement equipment. Refer to Chapter 3 for guidance on attrition charges.

22.3.2. Claims arising out of combined exercise activities with USG under an LOA with NATO countries must be dealt with under the Agreement between the Parties to the North Atlantic Treaty, regarding the Status of their Forces, Article VIII. This also applies to the Agreement among the States Parties to the North Atlantic Treaty and the other States participating in the Partnership for Peace regarding the Status of their Forces.

22.4 Training Obligation

22.4.1. General. In general, a training course is an entire effort. This is particularly evident with USG contracted training. However, USG-provided training funded by DoD or DoS appropriations must end by the funds expiration date, as this training is severable and must not cross an FY, unless crossing an FY is authorized for a specific authority or program (i.e., FSF: authority to build capacity under 10 U.S.C. § 333, IMET, Combating Terrorism Fellowship Program and the Regional Centers).

22.4.2. Obligations. Funds for training are obligated on the date the student enters the course. In some cases, due to the long-range nature of planning required to support students’ participation in a training course, funds can be obligated prior to the start date of the course, so long as the obligation meets a bona fide need of the current FY and are obligated during the appropriated period of availability.

22.5 Annual Publication of Tuition Rates

Tuition rates must be computed annually by the Military Departments and published in the Training Military Articles and Services List ([SAMM C10.4.3](#)). Every effort should be made to publish these rates by October 1st of each year. Tuition rates must be those in effect for the year in which the student enters the course or phase of a course. Approved rates must remain constant for the year.

22.6 Adjustments to Tuition Rates and Training Obligations

22.6.1. Current Year. Adjustments must be made only to correct significant errors in computation, change in syllabus, or major unanticipated increases or decreases in the cost of such items as POL and salaries. The foreign country must be billed for the actual time the student is in training when it varies from the scheduled length of the course. Any adjustments must be made as soon as possible, but not later than 90 days after completion of the course.

22.6.2. Future Year. Tuition rate estimates for future years must be adjusted for inflation. OUSD(C) published rates will be used. See [OUSD\(C\) DoD Budget Request](#), “National Defense Budget Estimates (Green Book),” for treatment of inflation.

22.7 Training Cancellations

22.7.1. Dedicated Courses/Contract Provided Training. Once a contract is awarded or a quota is confirmed, a 100 percent charge (cancellation charge) will apply to any country that fails to send a student to the identified training, unless another international student is identified and the quota is filled. Dedicated/contract training will only apply to certain courses. This training will include courses that rely on contract support and courses that are designated for international students only. A list of these courses will be identified by the IAs.

22.7.2. All Other Confirmed Training. A 50 percent cancellation charge will apply for all confirmed training canceled or rescheduled with less than 60 days notification unless training is reallocated and filled by another international student. The cancellation policy will be applied to all confirmed training within the 60-day window. Additionally, the cancellation charge will be applied to all training that falls within and outside the 60-day window if the training is part of a sequential pipeline that a student would attend as part of a complete curriculum.

22.7.3. Other Cancellation Charges. The IA will determine all other cancellation charges. To the extent [that](#) there are costs that would not exist but for the international student, such costs must be considered by the IA in determining the appropriate cancellation charge (e.g., cost of the International Military Student Office (IMSO)). Request for waivers to these cancellation charges should be addressed to the IA. The funding status of a training line has no bearing on whether the cancellation charge applies. The cancellation charge will not be applied when the cancellation is due to:

22.7.3.1. USG decisions, such as deletion or rescheduling of classes;

22.7.3.2. Unavoidable circumstances within a country, such as national disaster; or

22.7.3.3. The quota being used by another country.

22.8 Student Costs

Certain costs associated with [the](#) support of international students and/or their dependents are considered to be a responsibility of the foreign government and are not included in the tuition rate for a training course(s). The student's ITO will contain details about the level of support provided in accordance with the FMS LOA; see [SAMM C10.11](#) for more information. Compute and bill these costs as follows.

22.8.1. Meals. Meal rates are set annually by OUSD(C) and published on the OUSD(C), DoD Reimbursable Rates, "Food Service Charges at Appropriated Fund Dining Facilities (Tab G)."

22.8.2. Medical. Medical care (including outpatient) for students and dependents must be charged in accordance with the procedures identified in [SAMM C10.9](#). If included on the LOA, these costs must be shown as a separate line and billed to the foreign country.

22.8.3. Travel. Student travel, living allowances, and related costs must be paid to the commercial carrier, or other service provider, by the foreign country or student. For any U.S. services supplied (e.g., Air Mobility Command transportation), the non-government rate must be applied and billed to the foreign country or student, as appropriate. The government rate applies for IMET or non-repayable FMF.

22.8.4. Lodging

22.8.4.1. Family Housing. International students may occupy DoD student family housing only after a determination has been made that U.S. student requirements are satisfied and must be satisfied for the projected duration of the international student's occupancy. Under these circumstances, the amount to be charged must be, at a minimum, the cost incurred by DoD for the operation and maintenance of family housing units. When international students occupy family housing that is not [in](#) excess [of](#) U.S. Military Service needs, the amount to be charged must be equal to the cost of housing U.S. military service personnel on the economy.

22.8.4.2. Government Quarters. When international students occupy government quarters, they must be required to pay, at a minimum, the local custodial and non-appropriated fund fees.

22.8.4.3. NATO STANAG/Reciprocal Pricing Agreement Countries. Lodging costs may be excluded from reimbursement for [the](#) billeting of trainees except to the extent that members of the Armed Forces occupying comparable accommodations are charged for such accommodations by the United States.

22.9 Field Studies Program (FSP)

In accordance with [DoDI 5410.17](#), “United States Field Studies Program (FSP) for International Military and Civilian Students and Military-Sponsored Visitors,” tuition rates must include the costs associated with the implementation of FSP.

22.9.1. Included Costs. Costs that may be included in the computation of the FSP include the following:

22.9.1.1. Transportation – car, bus, rail, air (if applicable to the Washington D.C. trip), and baggage (non-excess);

22.9.1.2. Meals – costs should be limited to those rates as specified in the Joint Travel Regulations, ([JTR](#));

22.9.1.3. Lodging – if applicable, the costs of lodging will be based on double occupancy for those International Military Students (IMS) in the rank/equivalent grade of O-6 and below. Single-room accommodations are allowed for escorts and those IMS in the rank/equivalent grade of O-7 or higher;

22.9.1.4. Admission (except as noted in subparagraph 22.9.2.4);

22.9.1.5. Tours and associated fees (e.g., brochures, pamphlets, maps);

22.9.1.6. Appropriate gratuities, where applicable;

22.9.1.7. Service charges (e.g., tolls and parking fees);

22.9.1.8. Costs associated with authorized guests at FSP functions such as luncheons, dinners, and receptions planned to facilitate IMS and U.S. personnel meetings and engaging in conversation. The ratio of IMS to guests will not be less than 20 percent in gatherings of fewer than 30 persons. When 30 or more persons are present, the ratio of IMS to guests will not be less than 50 percent;

22.9.1.9. Mementos (e.g., coins and plaques) for sponsors, guest speakers, and other individuals/institutions that support the FSP at a cost not to exceed \$25 (rate to be adjusted annually by OUSD(C) in each year’s Program and Budget Review Inflation Guidance); and

22.9.1.10. Distinctive medallions, plaques, or ornaments, one per IMS, which serve to commemorate the IMS’s experience for participating in a particular FSP activity.

22.9.2. Excluded Costs. Funds may not be obligated or expended to pay for the following:

22.9.2.1. Alcoholic beverages;

22.9.2.2. Excess baggage;

22.9.2.3. Support for purely academic objectives (i.e., costs for trips that are an integral part of the training curriculum must be included in the course tuition rate);

22.9.2.4. Entertainment expenses for activities that are substantially of a recreational character, including but not limited to entrance fees at sporting events, theatrical and musical productions, and amusement/theme parks;

22.9.2.5. Personal costs of the IMS for laundry, cleaning, telephone service, room service, and all other costs not directly associated with the programmed tour; and

22.9.2.6. Dependents authorized to accompany an IMS in the United States participating in selected FSP activities; such participation is subject to space availability and at no cost to the FSP. Costs related to such participation must be paid by the IMS in advance of the event.

22.9.3. IMSO Costs

22.9.3.1. Local area travel costs are reimbursable in accordance with the JTR.

22.9.3.2. Washington, D.C. trip costs will include all appropriate costs for the IMS as well as the escort officer(s) (e.g., transportation, meals, lodging, and admissions). For more information on visits to Washington, D.C., see [SAMM C10.18.5](#).

22.10 Retainable Instructional Materials (RIM)

Much of the RIM issued to an IMS is provided via compact disk; however, if there is a need to ship RIM, include the cost of the shipment in the tuition cost. RIM must be packed and labeled at the training installation and shipped to the Security Cooperation Office of the country for delivery to the IMS. A copy of the student's ITO must be placed inside the package. The training installation must ensure that no personal baggage or other unauthorized matter is shipped with RIM. See [SAMM C10.20.6](#) for additional information.

23.0 PRICING OF TUITION-BASED TRAINING

23.1 Cost Categories

The pricing of training tuition rates falls under one of two costing schemes – full cost or incremental cost. Within each cost scheme, costs are segregated into three categories: direct costs, indirect costs, and other billable costs.

23.1.1. Direct Cost. A direct cost is any cost that is identified specifically with the training of a student. Direct costs also include directly associated costs that would not have been incurred had the other direct costs not been incurred (e.g., costs that are allocated on a specific measurable basis - cost per student week, cost per flying hour/sortie, costs per steaming hour, costs per range hour).

23.1.2. Indirect Cost. Indirect costs are costs of resources that are jointly or commonly used by all activities at an installation, but are not specifically identifiable with any of the users. These costs are not directly related to training but instead are associated with a variety of activities and services.

23.1.3. Other Billable Cost. Other billable costs are those required by legislation or policy that are additive to the cost of training an international student (e.g., FMS administrative surcharge, FSP, attrition, and RIM).

23.2 Pricing of Personnel

23.2.1. MP

23.2.1.1. Full Costs. Price military pay using the FMS composite standard rates, which include the per capita normal cost of Medical Eligible Retiree Health Care (MERHC) and the acceleration factor for the Defense Health Program (DHP) published at OUSD(C) DoD Reimbursable Rates website, under “Military Personnel Composite Standard Pay and Reimbursement Rates,” (Tab K). In addition, see paragraph 20.2 and Exhibit 7-12 for pricing applicability.

23.2.1.2. Additional Cost. Base pay and allowances of U.S. active duty personnel, including MERHC and DHP costs, are considered sunk costs and are normally not considered an additional cost, except as noted in paragraph 23.4. Additional costs related to military deployment as part of a training team could include such costs as hazardous duty pay, family separation pay, travel, and per diem. Exceptions are:

23.2.1.2.1. Military positions coded as reimbursable billets applicable to FMS must be considered additional costs. Budget materials must clearly reflect the reimbursable nature of the billet;

23.2.1.2.2. MP assigned to DWCF activities must be considered additional costs; and

23.2.1.2.3. Pay and allowances of National Guard/Reserve members called to active duty in support of FMS must be considered additional costs.

23.2.2. Civilian Pay

23.2.2.1. Full Cost. Price civilian pay in one of two ways:

23.2.2.1.1. Using actual costs plus inflation and applicable acceleration factors (recommended for tuition pricing); or

23.2.2.1.2. In accordance with paragraph 20.1 and Exhibit 7-11.

23.2.2.2. Additional Cost. Base pay and allowances of U.S. civilians are not necessarily considered sunk costs and may/may not be considered an additional cost. Additional costs related to civilians deploying as part of a training team could include such costs as hazardous duty pay, travel, and per diem. See Exhibit 7-13 for tuition training pricing applicability. Additional costs would include:

23.2.2.2.1. Civilian positions coded as reimbursable billets applicable to FMS. Budget materials must clearly reflect the reimbursable nature of the billet; and

23.2.2.2.2. Civilian personnel assigned to DWCF activities.

23.3 Pricing of Full Cost of Training (Tuition Rates A and B)

Full cost includes all direct costs and a proportional share of indirect costs to the USG for providing the training, regardless of funding sources. When developing the full cost of training, take into account the cost of training both U.S. and international students. For international students, the full cost will also include the other billable costs. Rates priced using full cost principles include Rates A and B in Table 7-2. Training price exceptions are found in subparagraph 21.2.

23.3.1. Direct Costs

Certain costs can be directly identified in training courses. Once identified, the direct cost is divided by the total number of students that can be enrolled in a course to determine the cost per student. Add together all direct costs per student to be included in the tuition rate.

23.3.1.1. Instructors and School Support Staff

23.3.1.1.1. Instructors

23.3.1.1.1.1. Average Instructor Costs. The cost of instructor salaries, allowances, and other entitlements is computed by dividing the annual instructor cost by 52 weeks and multiplying the result by the number of weeks in the applicable course (see section 20.0). Divide this cost by the maximum class size to develop the instructor cost per student.

23.3.1.1.1.2. Instructor Contact Hours. Instructor costs may be allocated on an instructor contact-hours basis (e.g., total platform work hours allocated as instructor contact hours per student); this is one method to allow for equitable distribution.

23.3.1.1.1.3. Total Training Man Weeks (TTMW). Instructor costs are calculated by multiplying the number of weeks for given courses times the total number of students enrolled to derive the total "Training Man Weeks" for a given course. The "Training Man-Weeks" for all courses at a training activity are summed together to calculate the TTMW for a training activity. The total salaries for a training activity are then divided by the TTMW to develop a weekly rate. The weekly rate is then multiplied by the number of weeks for a given course to calculate the instructor cost per course.

*

23.3.1.1.2. School Support Staff

23.3.1.1.2.1. Average School Support Staff Costs. Compute the cost of salaries, allowances, and other entitlements of administrative and other personnel supporting training by dividing the total annual cost by the total course weeks of training and multiplying the result by the number of weeks in the applicable course. Divide this cost by the maximum number of students in the class to develop the school support staff cost per student.

23.3.1.1.2.2. Total Training Man Weeks (TTMW). School support staff costs are calculated by multiplying the number of weeks for given courses times the total number of students enrolled to derive the total "Training Man Weeks" for a given course. The "Training Man Weeks" for all courses at a training activity are summed together to calculate the TTMW for a training activity. The total salaries for a training activity are then divided by the TTMW to develop a weekly rate. The weekly rate is then multiplied by the number of weeks for a given course to calculate the school support staff cost per course.

23.3.1.1.3. IMSO and Staff. Allocate the cost of the IMSO and staff to courses based on actual or programmed international student weeks.

23.3.1.2. TDY and Per Diem. The cost of TDY must be allocated to courses based on a causal or beneficial relationship. Accordingly, TDY must be segregated into two categories: direct TDY that is caused by or benefits a specific course or courses and indirect TDY that benefits the training operation as a whole. TDY that is directly related to (or benefits) one or more courses must be directly allocated to those courses. To preclude "double charging" TDY to a course, care must be taken to ensure that all directly allocable travel is eliminated from the TDY included in the indirect cost pool.

23.3.1.3. Equipment Overhaul and Maintenance

23.3.1.3.1. Depot Level Maintenance. The depot-level maintenance cost of aircraft, engines, motorized vehicles, and equipment must be charged to the applicable course at the budgeted average hourly item repair cost that includes civilian pay, contractual effort, and supplies. These costs must be adjusted to include military pay and centrally procured equipment and parts. Multiply this average hourly cost by the hours programmed for use in the specific course.

23.3.1.3.2. Base Level Maintenance. Base-level aircraft and equipment maintenance costs (including munitions maintenance) must be allocated to courses on the basis of total maintenance costs divided by the total training hours supported, if not identifiable and chargeable on a job order basis. Costs must include military and civilian pay, supplies and equipment (including replenishment spares), and contractual support. If there are a significant number of transit or non-training aircraft at the base, aircraft operating costs must be initially distributed between training and non-training on the basis of percentage of number of takeoffs, number of sorties per year, or maintenance direct labor hours, whichever results in the best allocation of costs in relation to the benefits received. For this purpose, aircraft used by personnel supporting training for proficiency flying must be classified as training aircraft.

23.3.1.3.3. Range Maintenance. Range maintenance and operating costs must be computed and allocated to courses based on the percentage of sorties or rounds fired in the course compared to the total sorties or rounds fired or any other basis that results in an equitable allocation of these costs.

23.3.1.4. Simulators. Simulator costs must include pay of the operators, supplies, and equipment maintenance. Simulator costs must be allocated to the course in the same ratio as hours used to the total hours available.

23.3.1.5. Supplies, Material, Training Aids, and Ammunition

23.3.1.5.1. The cost of POL for aircraft (rotary/fixed wing), motorized equipment, ships, landing craft, and other equipment must be computed by multiplying the equipment hourly cost of POL times the number of operating hours for the course.

23.3.1.5.2. The costs for training materials, equipment, supplies, aids, munitions, flight clothing, and personal equipment must be charged to the applicable course. Training material and aids prepared above base level that are readily identifiable to a course, must be included as a direct cost of the course. If not readily identifiable to a specific course, these costs must be distributed to courses in the same manner as indirect TDY costs. Care must be taken to ensure against "double charging" a course.

23.3.1.6. Directly Associated Costs

23.3.1.6.1. Other directly associated costs allocable to training operations must be distributed to courses based on total training hour support or any other logical method of measurement (e.g., square footage of buildings, flying hours/sorties, or any other usage factor). Costs in this category include costs generated as a result of the incurrence of another cost and would not have been incurred had the other cost not been incurred (e.g., flight line operations costs in direct support of flying training and port operations in direct support of shipboard training, without which there would be no flying training operations or shipboard training operations).

23.3.1.6.2. The cost for training U.S. instructor pilots, including proficiency and continuation training, must be limited to special aircraft not in the active U.S. aircraft inventory. These costs must be divided by the normal tour of duty for an instructor pilot to arrive at an annual cost that must be distributed to courses in the same manner as instructor salaries and allowances.

23.3.2. Indirect Costs

23.3.2.1. Indirect Base Operating Support Costs

23.3.2.1.1. Allocation. Indirect base operating costs must be initially allocated to major claimants (e.g., training activities and tenants) at the installation level using engineering estimates or some other basis to ensure that allocations are commensurate with the benefits received. The amount allocated to training must then be distributed to areas of training

that are significantly different (e.g., flying operations, classroom training, and equipment maintenance). The amount allocated to each area of training must then be distributed to the tuition rate by dividing the amount allocated by the annual estimated student weeks of training.

23.3.2.1.2. Exclusions. No costs to support or operate quarters, a family housing complex, and food service activities that are applicable to instructors and training support personnel may be allocated to tuition rates if these costs are recouped in base personnel salaries.

23.3.2.2. Maintenance and Repair of Facilities. Maintenance and repair of facilities must be considered part of the normal base operating support costs, unless these costs can be directly identified to a specific user (e.g., dedicated facility, specific to a course or courses). When non-dedicated facilities are used for training, the costs are included as indirect costs in the tuition rates. These costs may be combined with other indirect costs and allocated at the installation level or allocated based on a separate cost pool. IAs may not unilaterally dedicate facilities for international student use and then recoup the full cost of the maintenance and repair of the facilities through tuition rates. Such maintenance and repair costs will be combined with other indirect costs and allocated at the installation level. See sections 10.0 and 11.0 for more information on facility usage.

23.3.2.3. Indirect TDY. TDY that is caused by or benefits the training operation as a whole must be allocated to courses by dividing these total indirect TDY costs by the total number of students to determine the course cost per student.

23.3.2.4. Training Material and Aids. Training material and aids not readily identifiable to a specific course must be distributed to courses in the same manner as indirect TDY costs.

23.3.2.5. Exclusions. Exclude the following from indirect allocations:

23.3.2.5.1. Costs associated with combat development, training development (less course development), non-resident instruction, or other activity that offers no support to the training mission, and a pro rata share of school overhead costs to support these elements;

23.3.2.5.2. Costs associated with units attached to the training installation with duty stations at another location that are not involved in the training of international students; and

23.3.2.5.3. Costs related to underutilized capacity and mobilization requirements, when specifically identified and documented.

23.3.3. Other Billable Costs

23.3.3.1. Attrition Rate/Liability Statement. For FY 1996 through FY 2016, Tuition Rate A will include the attrition factor (SAMM C9.T4) whenever the training or education course includes the use of training equipment or operational equipment used as training aids.

For all FYs, Tuition Rate B will include the liability statement in subparagraph 22.3.1. Title 22, U.S.C. § 2761(a)(1)(C) states the full cost of the service must be paid by the purchaser.

23.3.3.2. FSP. Tuition rates must include the costs of the FSP if a program exists at the training location. Do not include if there is no FSP at the training location. See paragraph 22.9 and SAMM Chapter 10 for more information on FSP.

23.3.3.3. RIM. Tuition rates must include the costs of RIM, if applicable. See paragraph 22.10 for more information on RIM.

23.3.3.4. FMS Administrative Surcharge. The current FMS administrative surcharge must be applied to Tuition Rate A. Exceptions are contained in the SAMM Table C10.T13 and [SAMM Table C10.T14](#).

23.4 Pricing of Additional Cost Training (Rates C, D, and E)

Additional costs represent the increase incurred in the full cost of training due to the addition of international students. Title 22, U.S.C. § 2761(a)(1)(C) provides the authority to apply additional cost pricing to training sold to a purchaser concurrently in receipt of IMET or a purchaser designated as a high-income country. [Title 22 U.S.C. § 2347\(b\)](#), provides the authority for FMF recipients (Rate D) to be charged at a rate comparable to IMET (Rate E). Title 22, U.S.C. § 2770(a)(3) provides the authority to exclude military salaries from additional cost pricing when the training is funded with U.S. appropriated funds; see Exhibit 7-14.

23.4.1. Direct Costs

23.4.1.1. Instructors and School Support Staff

23.4.1.1.1. Courses must be reviewed to determine if the additional cost should be developed for a specific course (e.g., pilot training) or a group of courses. For classroom or technical courses that are similar or that utilize instructors who teach more than one course, such courses may be grouped for computation purposes.

23.4.1.1.2. For courses that contain both U.S. and international students, determine instructor and staff requirements for the programmed (maximum) U.S. student load. Estimate the total number of students, both U.S. and international, and the number of instructors and staff required. Where total estimated student requirements exceed maximum programmed student requirements, the difference in instructor and staff between the two projections represents the additional costs. This value, divided by the total number of students, represents the additional cost per student for the course(s).

23.4.1.1.3. When there is a one-for-one or one-for-two relationship of instructor to student, the instructor in all cases must be considered an additional cost. If the entire class is composed of international students, the instructor and staff must always be considered additional.

23.4.1.1.4. It is anticipated that the additional cost charged for instructors must be minimal for courses or groupings of courses when the ratio is high of either students to instructors or U.S. students to international students.

23.4.1.2. TDY and Per Diem. The costs for all student travel and per diem associated with the training must be considered an additional cost. Refer to subparagraph 23.3.1.2 for additional TDY and per diem information.

23.4.1.3. Equipment Overhaul and Maintenance. The cost for overhaul and maintenance of major items of equipment, when computed on an hourly use basis, must be an additional cost to a course based on estimated utilization hours. Refer to subparagraph 23.3.1.3 for additional information.

23.4.1.4. Simulators. The cost for simulator hours must be an additional cost. Refer to subparagraph 23.3.1.4 for additional information.

23.4.1.5. Supplies, Material, Training Aids, and Ammunition. The associated additional cost must be the replacement price of items that are not returned or reusable (including POL) used in conducting the training.

23.4.1.6. Directly Associated Costs

23.4.1.6.1. Instructor Training. The training of U.S. instructors or other personnel for special courses normally not conducted for U.S. personnel must be considered an additional cost. When the required training is conducted at a U.S. training facility, the benefiting country must be charged the course cost established in accordance with instructions for computing training costs in paragraph 23.3.

23.4.1.6.2. Facilities and Equipment. The costs for any facilities or equipment acquired primarily for the support of international students, and the support costs thereof, must be considered incremental.

23.4.2. Indirect Costs

Standard weekly rates for base operating support must be charged to additional cost training rates, as developed by the IAs, and adjusted annually. Include only those additional base operating support costs that are incurred because of international student attendance. See subparagraph 23.3.2 for additional information on indirect costs.

23.4.3. Other Billable Costs

23.4.3.1. Attrition Rate/Liability Statement. For FMS training sold using additional cost pricing (Tuition Rates C-D in Table 7-2), include the liability statement in subparagraph 22.3.1.

23.4.3.2. FSP. The full cost to the USG of FSP must be considered an additional cost. See paragraph 22.9 for more information on FSP.

23.4.3.3. RIM Shipment. If RIM is applicable for a course, then the costs must be considered an additional cost. See paragraph 22.10 for more information on RIM.

23.4.3.4. FMS Administrative Surcharge. The current FMS administrative surcharge must be charged on FMS training cases/lines receiving incremental pricing (Tuition Rates C-D in Table 7-2). Tuition Rate E (IMET) is exempt from paying the FMS administrative surcharge.

23.4.4. Exclusions

The unfunded civilian retirement charge that is deposited to the Miscellaneous Receipts Account of the U.S. Treasury must be considered a fixed cost and not included in incremental priced training rates (Tuition Rates C-E in Table 7-2).

24.0 PRICING OF SPECIALIZED/DEDICATED TRAINING PROGRAMS

When pricing specialized dedicated training programs, full cost-pricing principles (refer to paragraph 23.3) must be applied. Appropriate legislative authority and terms of the formal agreement must be taken into consideration. The information in paragraphs 24.1, 24.2, and 24.3 is provided for current specialized/dedicated training programs. General guidelines for other types of training events are found in the SAMM Chapter 10.

24.1 Army Specialized/Dedicated Training Programs

24.1.1. The RSAF Peace Prairie CH-47 Chinook Helicopter Training Program. The Peace Prairie Program is conducted under the authority of 22 U.S.C. § 2761(a)(1)(C). As a high-income country, Singapore is eligible to receive training priced using the additional cost concept. Absent a formal agreement, costing procedures should follow the guidelines in paragraph 23.4. Costs associated with the salaries of activated troops of the reserve component/National Guard would be considered an additional cost.

24.1.2. The RSAF Peace Vanguard AH-64 Apache Helicopter Training Program. The Peace Vanguard Program is conducted under the authority of 22 U.S.C. § 2761(a)(1)(C). As a high-income country, Singapore is eligible to receive training priced using the additional cost concept. Absent a formal agreement, costing procedures should follow the guidelines in paragraph 23.4. Costs associated with the salaries of activated troops of the reserve component/National Guard would be considered an additional cost.

*24.2 Navy Specialized/Dedicated Training Programs

The Naval Small Craft Instruction and Technical Training School (NAVSCIATTS) provides specialized instruction and technical training through formal courses of instruction or mobile training teams to friendly foreign military and other security forces related to naval small

craft instruction and training and to increase professionalism, readiness, and respect for human rights. Section 1202 of the National Defense Authorization Act for FY 2025 amended [10 U.S.C. § 352\(e\)](#) to authorize the use of various appropriations to the Department of the Navy for NAVSCIATTS operation and maintenance and School requirements for equipment, military construction, food, and food services. To avoid Antideficiency Act violations, the Navy must reference 10 U.S.C. § 352(e), for which appropriations the Navy must use for each area listed in the paragraph.

24.3 Air Force Specialized/Dedicated Training Programs

24.3.1. Euro-NATO Joint Jet Pilot Training (ENJJPT) Program

24.3.1.1. The ENJJPT multinational cooperative training program at Sheppard Air Force Base, Texas is an activity authorized by 22 U.S.C. § 2761(g). The LOAs clearly indicate that the AECA is the authority of the program but remain silent as to which exact section authorizes the activity. Associated program documents (Memorandum of Understanding and Plan of Operations) clearly state that the activity is undertaken "in furtherance of NATO rationalization and standardization" and "in the cooperative spirit of the NATO alliance," while also citing the NATO Status of Forces Agreement.

24.3.1.2. While a NATO or Major Non-NATO Ally may also be in receipt of IMET funds, once a cooperative training agreement of the type envisioned by 22 U.S.C. § 2761(g) is signed, it becomes the section of the U.S.C. that determines the terms under which the training activities are conducted if the financial principles are based on reciprocity. These reciprocal agreements include reimbursement for all direct costs and may exclude reimbursements for indirect costs, the FMS Administrative Surcharge, and the cost of trainee billeting (unless U.S. forces are charged to occupy like accommodations). The application of the FMS Administrative Surcharge and Contract Administration Surcharge to the ENJJPT Program is waived.

24.3.2. Dutch F-16 Training Program

24.3.2.1. The Dutch F-16 training program is conducted under the authority found in 22 U.S.C. § 2761(g). Based on that authority, the program must recoup reimbursement for all direct costs but may exclude reimbursement for indirect costs, the FMS administrative surcharge, and the cost of trainee billeting (unless U.S. forces are charged to occupy like accommodations).

24.3.2.2. The U.S.C. allows for some flexibility when it comes to the billing of indirect costs under 22 U.S.C. § 2761(g) so those preparing the costs can properly account for sharing of the total cost of the program. Unique program agreements may provide specific reimbursement details to which the parties have agreed. The FMS administrative surcharge has not been excluded for this program. Costs associated with the salaries of activated troops of the reserve component/National Guard would be a cost to the program.

24.3.3. The German Air Force (GAF) Tornado Program. The GAF Tornado Program is a dedicated training program, authorized by 22 U.S.C. § 2761(g). Based on that authority, the program must recoup reimbursement for all direct costs but may exclude reimbursement for

indirect costs, the FMS Administrative Surcharge, and the cost of trainee billeting (unless U.S. forces are charged to occupy like accommodations). Again, the U.S.C. allows for some flexibility when it comes to the billing of indirect costs under 22 U.S.C. § 2761(g), so those preparing the costs can properly account for the sharing of the total cost of the program. Unique program agreements may provide specific reimbursement details to which the parties have agreed. The FMS Administrative Surcharge has not been excluded for this program.

24.3.4. The Republic of Singapore Air Force (RSAF) PEACE CARVIN V (PC V) F-15 Training Program. The RSAF PC V program is authorized by 22 U.S.C. § 2761(a)(1)(C). Singapore is identified as a high-income country under the FAA § 546(b) and is eligible to receive training priced using the additional cost concept. Absent a formal agreement, costing procedures should follow the guidelines in paragraph 23.4.

24.3.5. The RSAF PEACE CARVIN II (PC II) F-16 Training Program. The RSAF PC II program is authorized by 22 U.S.C. § 2761(a)(1)(C). As a high-income country, Singapore is eligible to receive training priced using the additional cost concept. Absent a formal agreement, costing procedures should follow the guidelines in paragraph 23.4.

24.3.6. Taiwan Air Force PEACE FENG HUANG F-16 Training Program. Taiwan's PEACE FENG HUANG program is conducted under the authority of 22 U.S.C. § 2761(a)(1)(C). Taiwan is not under special pricing authority and therefore pays the full cost of training. Refer to paragraph 23.3.

24.4 Personnel

Specialized/dedicated training programs may be supported by U.S. personnel, international personnel, or a combination of the two. When establishing a specialized/dedicated training program, an assessment must be performed to determine whether additional U.S. personnel are required to support the training. Care should be taken to ensure these individuals are properly coded as reimbursable billets and whether they are considered a direct cost or an indirect cost. Other personnel billets may provide support to the training.

24.4.1. MP. Pricing for U.S. MP must be in accordance with subparagraph 23.2.1. Where international military members are filling training instructor billets, apply the comparable U.S. rate if computing costs to charge or compensate.

24.4.2. Civilian Personnel. Pricing for U.S. civilian personnel must be in accordance with subparagraph 23.2.2. Apply the unfunded civilian retirement factor where applicable.

24.5 Inflation Factors

Estimates for future years must be adjusted for inflation. OUSD(C) published rates will be used. See subparagraph 3.2.1.2.

24.6 Start-up Costs

The FMS purchaser is responsible for all costs, including expenses incurred by IA activities assisting in the establishment of the training. Costs to consider in the start-up of a specialized/dedicated training program may include, but are not limited to, the following: environmental analysis/assessment/impact; construction of, alteration of, or expansion of existing facilities (refer to section 10.0); a pro rata share of the costs for joint use of USG facilities (refer to section 11.0); acquisition of equipment required to execute the program; commercially-leased space (i.e., off-base offices, on-base modular buildings); and one-time site activation costs, if applicable.

24.7 Direct Costs

Refer to subparagraph 23.3.1 (full cost) or subparagraph 23.4.1 (additional cost) for the types of costs appropriate to charge as direct costs.

24.8 Indirect Costs

Refer to subparagraph 23.3.2 (full cost) or subparagraph 23.4.2 (additional cost) for the types of costs appropriate to charge as indirect costs.

24.9 Other Billable Costs

24.9.1. Attrition Surcharge/Liability Statement. If specific program agreements do not address the application of the attrition surcharge, the liability statement in subparagraph 22.3.1 must be included on the LOA.

24.9.2. FSP. Specialized training programs may include the costs of the FSP if the purchaser(s) desires to participate in such. Refer to paragraph 22.9.

24.9.3. RIM. If there is a need to ship RIM, include the cost of the shipment in the pricing of the specialized training program. Refer to paragraph 22.10.

24.9.4. FMS Administrative Surcharge. The current FMS administrative surcharge must be applied to the specialized training program, where applicable. Refer to subparagraphs 23.3.3.4 and 23.4.3.4.

25.0 PRICING OF TRAINING TEAMS

When training is conducted by a Security Cooperation Team/SA Team (e.g., Management Service Team, TAFT, Extended Training Service Specialist, or MTT) away from the normal training institution, the services of the team must be treated as a service and priced in accordance with paragraph 23.2. Training aids must be included in the pricing. All pay and allowances, travel, and per diem paid to members of the team established to conduct in-country training must be considered costs of the training team except as noted in paragraphs 25.1-25.4.

25.1 Teams Fully Financed by FSF Funding

25.1.1. Military Pay and Allowances. Exclude the cost of military pay and allowances.

25.1.2. Civilian Pay and Allowances. Exclude the cost of civilian pay and allowances.

25.1.3. Attrition/Liability Statement. Include the liability statement, “The Purchaser is liable for any and all damages to U.S. Government equipment caused by negligence on the part of the student.”

25.2 Teams Fully Financed by MAP Merger, FMF, IMET, or BPC Funding

25.2.1. Military Pay and Allowances. Exclude military pay and allowances from the costs established for teams conducting in-country training fully financed by MAP Merger or FMF, financed under the IMET program, or DoD-funded BPC teams. Should a MAP/MAP Merger case be less than 100 percent financed by such funds, it must be re-priced to include the full cost of MP.

25.2.2. Civilian Pay and Allowances. Exclude civilian unfunded retirement from the costs established for teams conducting in-country training fully financed by MAP Merger or FMF, financed under the IMET program, or DoD-funded BPC teams. Refer to paragraph 23.2 for an explanation and pricing.

25.3 Teams Financed by an IMET-Recipient Country/High-Income Country

For teams conducting in-country training financed by a high-income country or an IMET-recipient country using its own national funds, determine whether personnel costs are considered an additional cost to the USG. Refer to paragraph 23.2 for an explanation and pricing.

25.4 Teams Using National Guard/Reserve Personnel

If National Guard or Reserve personnel are activated solely to conduct FMS training, those costs must be considered additional costs to the USG and must be properly charged to the country or countries receiving the training. Refer to paragraph 23.2 for an explanation and pricing.

RIM	If applicable	If applicable	If applicable
FMS Admin	Apply	N/A ³	Apply

¹ **RATE C – FMS:** Countries concurrently in receipt of IMET that elect to purchase training using national funds receive this rate. Countries designated as high-income countries also receive this rate.

² Apply: Charge the entire factor against the additional cost. There is no reduction to the factor because additional cost pricing is used.

³ Refer to 22 U.S.C. § 2761(g). The President is authorized to enter into NATO STANAG and similar agreements with Major Non-NATO Allies if the pricing principles of such agreements are based on reciprocity. Such agreements may exclude reimbursement of indirect costs and the FMS Administrative Surcharge.

Table 7-2. Tuition Rate Pricing Structure (Continued)

Cost Elements	U.S. Appropriated Funds

Attrition	N/A	N/A
Liability Statement	Apply	N/A
FSP	Full	Full
RIM	If applicable	If applicable
FMS Admin	Apply	N/A

²Apply: Charge the entire factor against the additional cost. There is no reduction to the factor because additional cost pricing is used.

⁴**RATE D – FMF:** This rate applies to courses provided to countries that use U.S. appropriated dollars as their source of funding (except IMET). If the training case is not wholly funded with U.S. appropriated funds (e.g., 100 percent MAP Merger, 100 percent non-repayable FMF), then re-price training to include military salaries and benefits. This rate also applies to general BPC appropriations and authorities (i.e., FSF: authority to build capacity under 10 U.S.C. § 333).

Exhibit 7-1. Price Computation Example: Overhaul of Purchaser-Owned Material¹**Assumptions:**

Civilian Direct Labor Hours	500
Direct labor hourly rate (employee salary and pro rata overhead)	\$36.72
UCR Rate FY 2018	6.8%
Army Military Labor Hours (E-7)	100
Foreign Purchaser paid for inbound and outbound transportation	

Computation:

Direct material consumed or incorporated (does not include purchaser-owned material)	\$ 1,000.00
Direct civilian labor cost recouped (including unpacking and PC&H) (500 × \$36.72)	\$18,360.00
Unfunded Civilian Rate costs (\$18,360 × 6.8%)	\$ 1,248.48
Military Composite Standard Pay Reimbursement (104,429 × .00056) × 100	\$ 5,848.02
Transportation ¹	<u>+</u> -----
FMS Selling Price ²	\$26,456.50

¹ This figure is general in nature and does not show all costs that may be included. For example, direct material consumed or incorporated should include transportation, replacement prices, and charges as appropriate (see subparagraph 4.2.2 for treatment of DWCF material). This example assumes that inbound and outbound transportation is paid by the FMS purchaser. See subparagraph 9.2.6 for information on incoming and outgoing transportation costs. If the purchaser does not pay via the freight forwarder, the cost is included in the FMS selling price.

² The administrative surcharge is an additive to the FMS selling price.

Exhibit 7-2. Price Computation Example: Non-Excess Procurement Funded Item from Stock

Assumptions:

Market Value	None Available
Most Recent Acquisition Price	\$50,000.00
New Contract Price	\$100,000.00
Modification Costs	\$5,000.00
NC Recoupment Charge, SAMM, Appendix 1	\$2,000.00
Prorated overhaul costs before sale date (see Exhibit 7-3)	\$5,203.20
Service Life	10 Years
Age at transfer	6 Years
Remaining Service Life	4 Years

Calculation**Not to Be Replaced**

Adjusted Price: $(\$50,000 + \$5,000) \times (4/10)^1$	31/422,000.00
Adjusted NC recoupment: $\$2,000 \times (4/10)^{2,3}$	800.00
Prorated overhaul costs before sale date (see Exhibit 7-3) ⁴	+ 5,203.20
FMS Selling Price ^{5,6,7}	\$28,003.20

To Be Replaced

Adjusted Price: $\$100,000 \times (4/10)^8$	\$40,000.00
Adjusted NC recoupment: $\$2,000 \times (4/10)^{2,3}$	+ 800.00
FMS Selling Price ^{5,6,7}	\$40,800.00

¹ (Most Recent Acquisition Price + Modification Costs) × Remaining Service Life² NC Recoupment Charge × Remaining Service Life³ Credit to Special Defense Acquisition Fund (SDAF) Account 4116.⁴ Credit previously incurred overhaul costs to the financing account.⁵ Any administrative, PC&H, and transportation surcharges are additive to the selling price.⁶ FMS selling price cannot be less than the Market Value if one exists.⁷ If this is a sale of a ship, the FMS selling price cannot be lower than the scrap value or fair value plus the cost of the last major overhaul or outfitting accomplished before the sale.⁸ New Contract Price × Remaining Service Life

Exhibit 7-3. Price Computation Example: Overhaul Costs Previously Incurred for a Procurement Funded Item Sold to FMS Purchasers

Assume the following:

1. Item is to be sold in May 2018. The last overhaul for that aircraft was accomplished in June 2016 at a cost of \$8,672.
2. The normal interval between overhauls for the item is 60 months.

The price is computed using the following steps:

- A. Determine the actual interval since the last overhaul in terms of months.

June 2016 to May 2018 equals 24 months.

- B. Determine the percentage of overhaul costs applicable to the DoD by comparing the actual interval since the last overhaul with the normal interval between overhauls.

Actual Interval = 24 months = 40%

Normal Interval = 60 months

3. Determine the amount of the costs to be charged to the purchaser by subtracting the resulting percentages in step 2 from 100 percent and applying the result to the overhaul costs. If actual overhaul costs are not known, a reasonable estimate should be obtained from the facility normally performing overhauls for the type of item that is to be sold.

$$100\% - 40\% = 60\% \times \$8,672 = \$5,203.20$$

Exhibit 7-4. Price Computation Example: Sale of Ship (Greater than 3,000 Tons or More Than 20 Years Old) Not to be Replaced

Assumptions:

Acquisition Value	\$22,500,000.00
Condition Code (A-3, see Table 7-1)	10%
Nonrecurring Charge	\$500,000.00
Prorated overhaul costs before sale date (see Exhibit 7-3 for how to compute)	\$1,500,000.00
Scrap Value	\$1,000,000.00
Fair Value (Acquisition Value × Federal Condition Code Rate) (\$22,500,000 × 10%)	\$2,250,000.00

Computation:

Greater of Scrap or Fair Value ¹	\$2,250,000.00
Adjusted NC Recoupment (10% × \$500,000) ¹	\$50,000.00
Prorated overhaul costs ²	<u>+\$1,500,000.00</u>
FMS Selling Price ³	\$3,800,000.00

¹ Credit to SDAF Account 4116.

² Credit previously incurred overhaul costs to the financing account.

³ The administrative surcharge is additive to the selling price.

Exhibit 7-5. Price Computation Example: Excess Procurement (Non-DWCF) Funded Item from Stock/Inventory

Assumptions:

Acquisition Value ¹	\$50,000.00
Federal Condition Code (B-1, see Table 7-1)	30%
NC Recoupment Charge	\$2,000.00
Prorated overhaul costs before sale date (see Exhibit 7-3)	\$5,203.20
Market Value	\$10,000.00
Scrap Value	\$5,000.00
Fair Value (Acquisition Value * Federal Condition Code Rate) (\$50,000 × 30%)	\$15,000.00

Computation:

Greater of Market, Scrap, or Fair Value	\$15,000.00
Adjusted NC Recoupment (30% × \$2,000) ²	\$600.00
Prorated overhaul costs before sale date (see Exhibit 7-3) ³	+ \$5,203.20
FMS Selling Price ⁴	\$20,803.20

¹ If the method used to determine an estimated actual PCH&T cost is based on the cost or price of the excess item, acquisition cost must be used.

² Credit to SDAF Account 4116.

³ Credit previously incurred overhaul costs to the financing account.

⁴ The FMS selling price must be increased if the market value or the scrap value plus the NC recoupment charge and the prorated value of the last major overhaul costs incurred are higher than the fair value FMS selling price. The market value is the price at which bona fide sales have been consummated for products of like-kind, quality, and quantity. The scrap value is the amount that would be expected to be obtained from selling the asset at the end of its useful life. The fair value price is determined by the Federal Condition Code.

⁵ Any administrative, PC&H, and transportation surcharges are additive to the selling price.

Exhibit 7-9. Price Computation Example: New Procurement

Contract Price (20 items)	\$1,000,000.00
NC (\$2,500 each × 20 items)	50,000.00
CAS (\$1,000,000 × 0.015)	15,000.00
GFM	25,000.00
PC&H GFM (3.5%) ¹	875.00
Transportation of GFM from Depot to Contractor Plant ¹	<u>+ 938.00</u>
FMS Selling Price (20 items) ²	\$1,091,813.00
FMS Unit Selling Price ² (\$1,091,813/20)	\$54,590.65

¹ PC&H and CONUS transportation are applicable, if the GFM is purchased from procurement citing the case funds. Actual costs should be used whenever known. However, in the absence of actual costs, a percentage-based computation must be used. For the purpose of this example, the GFM (\$25,000) is considered to be all procurement-funded items with unit costs of less than \$10,000. PC&H and Inland CONUS Transportation are not applicable, if the GFM is shipped from inventory by the DoD Working Capital Funds, as the cost is included in the standard (stabilized) price of the item.

² Transportation of end item, if applicable, and administrative surcharges are additive to the selling price

Exhibit 7-10. Calculation of Charges for Leased Defense Articles with Illustrative Entries

STEP 1: Determine Service Life.

a. Date to be leased	June 2018
b. Date item first fielded or actual acquisition date of specific item (if known)	June 2008
c. The total estimated service life of the item	240 months
d. Item age in months as of the lease date	120
e. Number of months to be leased	12
f. Estimated months of service life remaining at conclusion of lease	<u>+ 108</u>
g. Total months of service life (d. + e. + f.) ¹	240

STEP 2: Determine cost of defense articles leased to be depreciated.

a. Original acquisition cost	\$1,000,000
b. Pro rata share nonrecurring R&D and production costs ²	20,000
c. Capital improvements	
1) Major overhauls in past 24 months (see subparagraph 15.5.9)	500,000
2) Modifications net of retirements ³	<u>+ 300,000</u>
Total Cost	\$1,820,000
Less residual value amount subject to depreciation	
(see Volume 4, Chapter 26)	

STEP 3: Calculate monthly charge.

Divide results of Step 2 by results of Step 1. $\$1,820,000/240 = \$7,583.33$

¹ In the event the service life is zero, the life would be extended to include the lease period.

² The pro rata share of nonrecurring R&D and production costs is additive when determining the full cost of the equipment to be depreciated. This cost is not authorized to be waived under subparagraph 15.5.9.

³ Retirements represent serviceable components and weapons that are replaced by a modified version and that are returned to inventory upon removal. Normally, retired items are valued at standard (stabilized) inventory price, if repair is not necessary. If repair is required before the item may be reissued, the retirement item is valued at standard inventory price less estimated repair cost.

Exhibit 7-11. Civilian Personnel Services Price Computation Example

Assumptions:

- A. General Schedule (GS)-12 within Atlanta, Georgia locality pay area. When the GS step is not known, use step 5 pay rates. \$38.23 per hour is used for this computation example.
- B. 100 hours of service performed
- C. Unfunded Civilian Retirement (UCR) Factor. 6.8% is used for this computation example.
- D. Civilian Personnel Fringe Benefits Factor. 35.2% is used for this computation example.
- E. L&H Acceleration Factor = 18%

	FMS Case		BPC Case and FMS Admin	
	Less than Full Time	Full Time	Less than Full Time	Full Time
[A × B]	\$3,823.00	\$ 3,823.00	\$ 3,823.00	\$ 3,823.00
[(1) × E]	\$ 688.14	----	\$ 688.14	----
[(1) + (2)]	\$4,511.14	\$ 3,823.00	\$ 4,511.14	\$ 3,823.00
[(3) × C]	\$ 306.76	\$ 259.96	----	----
[(3) × D]	\$1,587.92	\$ 1,345.70	\$ 1,587.92	\$ 1,345.70
[(3) + (4) + (5)]	\$6,405.82	\$ 5,428.66	\$ 6,099.06	\$ 5,168.70

¹ Pay rates in effect at the time services are performed. Hourly and annual locality salary tables are available at [the OPM website](#). Tables through 2008 are available in the Appendix C Archive of this Volume.

² The L&H acceleration factor is applied as a percentage of direct labor cost when the individual is not assigned full time to support Case-funded or FMS Admin-funded requirements. See [Volume 11A, Chapter 6](#).

³ The UCR acceleration factor is applied as a percentage of total civilian labor costs for FMS Case-funded individuals. Credit unfunded civilian retirement to the Miscellaneous Receipts Account 3041. Current rates are available at the OUSD(C) DoD Reimbursable Rates website, select the applicable FY, Civilian Personnel Fringe Benefit (Tab D). Historical rates are available in the Appendix C Archive.

⁴ The fringe benefits factor is applied as a percentage of the total civilian labor costs and includes the employer's share of retirement, health benefits, life insurance, and other benefits. Rates vary by DoD Component and fiscal year, and are available at the OUSD(C) DoD Reimbursable Rates website, Civilian Personnel Fringe Benefit (Tab D), for FY 1997 and forward. Historical rates are available in the Appendix C Archive.

⁵ For employees funded by FMS Case and BPC Case, the FMS Administrative Surcharge is added separately.

Exhibit 7-12. MP Services Price Computation Example

Assumptions:

- A. Scenario 1: Navy O-4 and E-7 Full time FMS effort in FY2022
- B. Scenario 2: Navy O-4 and E-7 Part-time FMS effort; each performing 480 hours service in FY 2022. TDY cost is \$5,600.
- C. Scenario 3: Navy O-4 and E-7 Part-time FMS effort; each performing 60 days service in FY 2022. Total TDY cost is \$5,600.
- D. Navy O-4 FMS Rate = \$223,770¹
- E. Navy E-7 FMS Rate = \$144,411¹
- F. Navy O-4 Hourly FMS Rate ($\$223,770 \times 0.00057 = \$126.52 \times 480 = \$60,729.91$)²
- G. Navy E-7 Hourly FMS Rate ($\$144,411 \times 0.00057 = \$81.65 \times 480 = \$39,192.33$)²
- H. Navy O-4 Daily FMS Rate ($\$223,770 \times 0.00452 = \$1,012.17 \times 60 = \$60,729.91$)³
- I. Navy E-7 Daily FMS Rate ($\$144,411 \times 0.00452 = \$653.21 \times 60 = \$39,192.33$)³

FMS CASE – FULL TIME FMS EMPLOYEE**Computation Scenario 1:**

	O-4	E-7	Total
FMS Composite Pay Cost ¹	\$223,770	\$144,411	
FMS Selling Price ³			\$368,181

FMS CASE – LESS THAN FULL TIME FMS EMPLOYEE**Computation Scenario 2:**

	O-4	E-7	Total
FMS Rate x Hourly/Daily Factor × hours of service performed ^{2/3}	\$60,729.91	\$39,192.33	\$99,922.24
TDY Cost			\$5,600
FMS Selling Price ³			\$105,522.24

¹ Refer to OUSD(C) DoD Reimbursable Rates_website, MP Composite Standard Pay and Reimbursement Rates (Tab K) to obtain the current “Rate Billable to FMS Entities.” The FMS Rate includes an acceleration factor to cover medical health care costs of active duty personnel and their dependents and a per capita normal cost for Medicare-Eligible Retiree Health Care accruals.

² To compute the hourly rate, multiply the FMS Composite Rate by 0.00057. This computation includes an 18% L&H factor. See Volume 11A, Chapter 6 and the OUSD(C) DoD Reimbursable Rates website for current factors.

³ To compute a Daily Rate, apply a factor of .00452 (1.18/260.875). This computation includes an 18% L&H factor. See Volume 11A, Chapter 6 and the OUSD(C) DoD Reimbursable Rates website for current factors.

⁴ The FMS administrative surcharge is additive to the FMS selling price.

CHAPTER 8

BILLING AND REIMBURSEMENT

1.0 GENERAL

1.1 Purpose

This chapter establishes the standard policies for use when:

1.1.1. The Defense Finance and Accounting Service (DFAS), Security Cooperation Accounting (SCA) [Directorate](#) bills foreign governments and international organizations (hereafter referred to as Foreign Military Sales (FMS) purchasers) for costs related to defense articles and services sold pursuant to the Arms Export Control Act ([AECA](#)) (note: AECA starts on page 427 of Legislation on Foreign Relations, Volume 1-A):

1.1.2. The DoD Components report FMS deliveries of materiel and services, contractor progress payments, and other related costs to DFAS SCA to obtain reimbursement or to report performance under an allotment of FMS Trust Fund budget authority; and

1.1.3. The DoD Components request reimbursement from the other DoD Components for costs associated with inter-service support of FMS cases.

1.2 Authoritative Guidance

The AECA (Public Law 90-629), codified as Title 22, United States Code, Chapter 39 ([22 U.S.C. Chapter 39](#)), and the [Foreign Assistance Act](#) (Public Law 87-195), as amended, codified as [22 U.S.C. Chapter 32](#) provide the authority for FMS sales of defense articles, services, and training.

2.0 RESPONSIBILITIES

2.1 Defense Security Cooperation Agency (DSCA)

DSCA approves the establishment and revision of the Implementing Agency (IA), Delivery Source Code ([DSC](#)), Monitor, and Type of Assistance codes. DSCA forwards the recommended new or revised codes to DFAS Accounting and Finance Policy for approval and inclusion in Volume 15. DSCA and DFAS must use the Standard Financial Information Structure as prescribed in Volume 1, Chapter 4.

2.2 DFAS SCA

DFAS SCA must issue quarterly billing statements to FMS purchasers based on payment schedules attached to the Letter of Offer and Acceptance (LOA) by the applicable IA. Exceptions to this policy may be made when an IA submits a Quarterly Forecast of Financial Requirements for Requisition Cases, and the committed values for requisition cases indicate the performance on

a particular requisition case is behind or ahead of schedule. In such cases, DFAS SCA must bill based on the quarterly forecast or the committed value of requisitions. See Chapter 4, paragraph 5.4 for more information.

2.3 IAs

2.3.1. An IA is the DoD Component assigned responsibility by DSCA to prepare an LOA and implement the case. The IA is responsible for overall management of the actions that will result in delivery of the materiel or service set forth in an implemented LOA.

2.3.2. IAs must report accrued expenditures (work in process (WIP)) and physical deliveries in the applicable IA financial or logistical system within 30 days of the occurrence (e.g., date of shipment or performance). This information is provided to DFAS SCA through the billing and reporting policies prescribed in this chapter.

2.4 Supporting DoD Components

The supporting DoD Components must request reimbursement from other DoD Components through the billing and reporting policies prescribed in this chapter.

2.4.1. Requesting Activities. When placing an order to satisfy an FMS demand, requesting activities are responsible for notifying the performing activities. The notification must include the country, case designator, and line item.

2.4.2. Performing Activities. Upon notification that a customer order is for an FMS purchaser, performing activities must notify the requesting activity whether the order has been accepted on a reimbursable or direct cite basis and identify the total cost to process the order. This total billing must include both funded and unfunded costs. The performing activity must deposit amounts collected to the appropriate accounts, including the Miscellaneous Receipt Account.

3.0 FMS BILLING STATEMENT

3.1 General

3.1.1. DoD (DD) Form 645, FMS Billing Statement (or automated equivalent), and special billing arrangement statements issued by DSCA represent an official claim for payment by the U.S. Government. The DD645 is prepared on a quarterly basis as of December, March, June, and September. As an example, the December bill reflects physical deliveries, performance of services, and WIP from October 1 through December 31, and cash collections recorded for the FMS case through the preparation date of the billing statement. It also has a forecast of estimated advance cash requirements through the month of June. A December bill is mailed on or around January 15, with payment due March 15. The March, June, and September statements follow the same basic timeframes.

3.1.2. The FMS billing statement furnishes an accounting to the FMS purchaser for all costs incurred under each FMS Trust Fund case. Detail on the face of the billing statement must display the cost elements similar to the line item detail on the LOA. Physical performance of

services and delivery of materiel are shown against the line item detail of the LOA. FMS administrative surcharge, accessorial costs, and WIP are separately listed.

3.2 Billings for Cases With Payment Upon Delivery

For cases authorized under the AECA, sections 21(d) or 22(b), the IAs must ensure that each case has a delivery schedule, and ensure its accuracy. DFAS SCA is responsible for billing the FMS purchaser the appropriate charges. Interest must be charged in accordance with the policy found in Volume 16, Chapter 6, section 4.0.

3.3 Final Statement

DFAS SCA must give the FMS purchaser a case final statement at the end of the calendar quarter in which the case is closed and re-categorized from an active status to inactive status. DFAS SCA must annotate the final statement to notify the FMS purchaser of this reclassification.

3.4 FMS Delivery Listing

An FMS Delivery Listing is prepared in support of entries to Current Period Delivery Costs, on the DD645, using the IA FMS Integrated Control System (FICS). The FMS Delivery Listing is an itemized listing of all items physically delivered and services performed during the reporting period. It is cross-referenced to specific document numbers and allows FMS purchasers to validate receipt of the materiel or services. The FMS Delivery Listing also includes DFAS SCA's computation of charges applied by the organization fulfilling the order in accordance with Chapters 3 and 7.

4.0 FMS PURCHASER REQUESTS FOR BILLING AND SUPPLY ADJUSTMENTS

4.1 General

4.1.1. If, after review of the DD645 and/or the supporting FMS Delivery Lists, the FMS purchaser identifies that an adjustment is needed, the FMS purchaser must submit a formal request for adjustment. Billing and supply adjustment requests for materiel or service performance and accessorial charges should be submitted to the IA. Adjustment requests dealing only with FMS administrative surcharges should be submitted to DFAS SCA.

4.1.2. FMS purchasers must submit all requests for billing and supply adjustments on a [Standard Form \(SF\) 364](#), Report of Discrepancy (ROD), also referred to as a Supply Discrepancy Report, clearly indicating the specific adjustment or billing action requested. The DoD Components must process eligible RODs in accordance with the [Defense Logistics Manual 4000.25](#), "Defense Logistics Management Standards (DLMS)." The form, instructions for completion, and definitions are prescribed in [DLMS Manual Volume 2, Chapter 17](#). After RODs applicable to materiel and services are resolved, the DoD Components must report the action being taken to DFAS SCA using appropriate Adjustment Reply Codes in the delivery transaction (for additional information concerning delivery transactions, see section 5.0).

4.2 Adjustment Reply Codes

Adjustment Reply Codes cover most replies to FMS purchaser requests for billing or adjustments. When a situation arises not covered by these codes, a reply by letter is appropriate. Submit requests for codes to cover additional transactions to: DFAS SCA at DFAS-JAX/IN, 8899 E. 56th St., Indianapolis, IN 46249.

4.3 Reply Listing

DFAS SCA provides a consolidated listing of the actions taken in response to RODs. This listing must be mailed with the DD645 to the FMS purchaser involved. All responses to RODs must be listed separately for each country and case and have the same data elements as shown on the FMS Delivery Listing. The Reply Listing is prepared in the same basic sequence as the billing statement and FMS Delivery Listing.

5.0 IA PERFORMANCE REPORTS OR REQUESTS FOR REIMBURSEMENT

5.1 Reporting Deliveries

5.1.1. IAs must report the cost of DoD services, inventory items, and new procurement to DFAS SCA, using delivery reports, or the automated equivalents, through the FICS delivery transaction unless the provisions of paragraph 5.3 are applicable. It is the IA's responsibility to ensure that receipt documentation demonstrating proof of shipment, with the appropriate FMS purchaser's (or the FMS purchaser's representative, e.g., a freight forwarder) signature, is retained permanently for the record.

5.1.2. DFAS SCA must pay earned reimbursements included in such reports within 20 working days from the date of receipt. If a cash flow problem precludes payment, DFAS SCA must issue immediate notification to the Director, DSCA. DSCA will then notify the appropriate country if FMS funding is short, and the Office of the Undersecretary of Defense Comptroller (OUSDC) if appropriated funding is short. The Director, DSCA, must notify IAs to suspend further deliveries of DoD stock or performance of DoD services unless a determination has been made that it is in the national interest for billings to be dated and issued upon delivery or performance, with payment due in 60 days.

5.2 Interfund Transactions

Defense Working Capital Fund (DWCF) items are normally billed under interfund policies and use the Detailed Billing Codes prescribed in DLMS Manual, Volume 4, "Military Standard Billing System – Finance" ([MILSBILLS](#)). To minimize the impact on normal MILSBILLS billing (and still provide IAs or DFAS SCA with the data necessary to assure proper FMS billing), a modified MILSBILLS detailed billing transaction may be used to report FMS shipments. This modified MILSBILLS detailed billing transaction is in place of the FICS delivery transaction. The required modification is to substitute information that normally appears in the unit price field of the MILSBILLS detailed billing transaction. The information required on the modified billings

transactions applicable to the FMS program includes the item number, Transportation Bill Code, [DSC](#), and when applicable, the DWCF Code.

5.3 DFAS SCA Computations

Based on data in delivery transactions, DFAS SCA computes and bills FMS purchasers for the following:

5.3.1. Contract Administration Service (CAS) Charge. CAS percentages prescribed in Chapter 7, subparagraph [16.3.1](#) are applied as a percentage of reported payments to contractors, except for cases when CAS has been waived as authorized in Chapter 7, subparagraph [16.3.2](#) or determined to be not applicable and approved by DSCA. DFAS SCA performance and performance reporting feedback reports identify the amount of CAS computed based on delivery or WIP transactions (see section [9.0](#)).

5.3.2. Packing, Crating, and Handling (PC&H) Charge. The PC&H surcharge applies to shipments of DoD non-Working Capital Fund materiel. For Excess Defense Articles, the IA is responsible for calculating the PC&H based on the acquisition price of the materiel (see Chapter 7, paragraph [4.1](#) or subparagraph [15.3.1](#)).

5.3.3. Transportation Charges. When actual cost is unknown, an estimated transportation charge should be included on the LOA as a “below-the-line” (indirect/accessorial) charge. [Once bills are received](#), estimated costs are collected into the FMS Transportation Account to pay actual transportation costs. See “Security Assistance Management Manual” ([SAMM](#)), [Chapter 9, Table C9.T4a](#), “Table of Delivery Term Codes and Percentage,” and the [SAMM Appendix 2, "Transportation Cost Look-Up Tables"](#) for the applicable rates. When shipments require containerization, storage in-transit, escorts, or have any other special transportation accessorial requirements; these special transportation accessories are not included in the standard transportation percentages, nor in the cost provided in the transportation cost look-up table. These charges are to be placed “above-the-line” and adjusted as needed to capture actual cost. See [SAMM Chapter 7](#) for more information on transportation costs, and Volume 11A, Chapter 1, subparagraph [2.4.10](#) for more information on accessorial expenses.

5.3.4. FMS Administrative Surcharge. The FMS administrative surcharge is assessed on performance reporting, except for the amount collected upon case implementation as prescribed in Chapters 3 and 4. Use the requirements in effect at the time the applicable LOA, basic documents, or amendments are accepted by the FMS purchaser, or are added via LOA modification. See Chapter 7, paragraph [5.1](#) for the prescribed standard FMS administrative surcharge. The FMS administrative surcharge does not apply to WIP.

5.3.5. FMS Logistics Support Charge (LSC). The LSC was applied against items delivered after March 31, 1987, with delivery reported prior to October 1, 2007, on case lines that included specific Military Articles and Service Listings for spares, equipment modifications, maintenance, secondary support equipment, and supplies.

6.0 TRANSPORTATION COST LOOK-UP TABLE

The purpose of the Transportation Cost Look-Up table is to provide DoD Components with estimated transportation costs for items normally shipped in the Defense Transportation System (DTS) (e.g., sensitive/hazardous end items) when costs using standard transportation percentages are significantly different from actual charges. This table is located in the SAMM, Appendix 2 and is used to compute an estimate of the actual transportation costs for the items listed.

7.0 BILLING FOR SPECIFIC COSTS

Compute billings for specific costs associated with support to FMS as indicated in paragraphs 7.1 through 7.4.

7.1 Actual Administrative Costs

Actual administrative costs are funded by an allotment that is provided based on an approved FMS administrative budget. Documentation that shows the propriety of the obligation must support the obligations and outlays against the allotment. The allotment holder must retain these basic source documents for audit and report the use of allotment through the required Status-of-Allotment reports.

7.2 Actual FMS CAS Costs

7.2.1. The DoD Components performing contract administration or audit services must submit a monthly certified [SF 1080](#), Voucher for Transfers Between Appropriations and/or Funds, billing to their servicing DFAS accounting office for reimbursement of contract administration (quality assurance and contract management) and audit services being performed on FMS cases. Billings must reflect the actual or proportionate share of FMS CAS.

7.2.2. The organization performing these services must validate all bills before submitting the SF 1080 and attesting to the validity of the required computation process. The approved DoD reimbursable rate and approved OUSD(C) unfunded civilian retirement rate are available at [DoD Reimbursable Rates](#), “Civilian Personnel Fringe Benefit (TAB D),” by applicable fiscal year (FY). If an adjustment or correction is needed, it must be corrected within 30 days from the date of discovery.

7.2.3. DoD Components authorized to bill for CAS are listed in subparagraphs 7.2.3.1 through 7.2.3.7.

7.2.3.1. Department of the Army Ammunition Plants. Allocate contract management and quality assurance efforts based on the ratio of the FMS disbursements to total net disbursements (the term “disbursements” is defined in the Glossary). Compute the unfunded civilian retirement rate and show it on the monthly billings.

7.2.3.2. Department of the Navy. The Naval Sea Systems Command will submit monthly bills for the Navy Supervisors of Shipbuilding, Conversion, and Repair Activities, and allocate contract management and quality assurance efforts based on actual hours expended. Compute the unfunded civilian retirement rate and show on the monthly billings.

7.2.3.3. Department of the Air Force. The Air Force Security Assistance Training and Air Force Installation Contracting Agency will submit monthly bills and allocate contract management and quality assurance efforts based on actual hours expended. Compute the unfunded civilian retirement rate and show on the monthly billings.

7.2.3.4. Defense Contract Management Agency (DCMA) Continental United States (CONUS) FMS CAS

7.2.3.4.1. DCMA establishes an annual command rate by August 1 of each year for the following FY. The rate must be determined based on the ratio of FMS net contract disbursements to total DoD net contract disbursements. The ratio will reflect actual net FMS (Trust Fund appropriation, 11X8242) disbursement data for the prior 12 months (using January of the prior FY to December of the current FY, e.g., January 2010 to December 2010). The annual command rate must apply to the next FY budgetary estimates and billing period. For example, the January 2010 to December 2010 data will be used for the budgetary estimate and billing period for FY 2012 and the rate due by August 1, 2011. The annual command rates methodology is further defined by the following factors.

7.2.3.4.1.1. Numerator. Twelve months of monthly Defense Integrated Financial System FMS (11X8242) net contract disbursement amounts reported for the Mechanization of Contract Administration Services disbursing stations will be used as the numerator for calculating the annual command rate for DCMA. These amounts will exclude FMS (11X8242) disbursements and apply to contract administration reciprocal agreements, all other types of FMS CAS waivers reflected in the [SAMM subsection 9.6.2](#), and other FMS disbursements that are not FMS contract costs, e.g., in-house services performed by civil servants and financed by the FMS Administrative Surcharge account.

7.2.3.4.1.2. Denominator. Twelve months of total DoD net contract disbursements as reported on the SF 1219, Statement of Accountability, Part A, Line 4.1 will be used as the denominator for calculating the annual command rate for DCMA.

7.2.3.4.2. Quarterly, DCMA will update the Functional Work Force (FWF) to include full-time equivalents that perform CONUS FMS CAS efforts (quality assurance or contract management) in the work sections. Use the updated FWF number derived in the third month of that quarter for the FWF number in the next quarter's billings (SF 1080). In the computation process, round all hours and FWF amounts to whole numbers. Round all dollars and percentages to the second decimal point.

7.2.3.4.3. Monthly, DCMA will prepare the DCMA CONUS FMS CAS monthly earnings computation sheet and certification memorandum.

7.2.3.4.3.1. CONUS FMS CAS earnings and unfunded civilian retirement for the month are computed using the DCMA annual command rate and the data sources listed in this chapter. The unfunded civilian retirement factor is listed with the Annual DoD Reimbursement Rates issued by OUSD(C). The approved FY reimbursable rates are available at the OUSD(C) reimbursable rate website.

7.2.3.4.3.2. Overtime is listed as a separate charge on the DCMA CONUS FMS CAS monthly earnings computation sheet or, if the overtime factor was not included, in the Annual DoD Reimbursable Rate in accordance with Volume 11A, Chapter 6. The unfunded civilian retirement factor is not computed on overtime hours since unfunded civilian retirement applies to salaries (basic pay) only (see [5 U.S.C. § 8331\(3\)](#) for an explanation of what is not included in basic pay).

7.2.3.5. DCMA International

7.2.3.5.1. DCMA International FMS CAS must be reimbursed on actual costs incurred based on net disbursements processed by DFAS. The unfunded civilian retirement rate will be computed on salaries (basic pay) only. Military pay will also be computed and reimbursed.

7.2.3.5.2. Since the FMS CAS Surcharge Account pays for all costs associated with FMS full-time employees, including equipment, vehicles, and housing, these reimbursements (monthly billings) must be based on total actual costs. Employees working part-time FMS CAS are reimbursed using the DoD FMS CAS hourly rate and the unfunded civilian retirement rate listed at DoD Reimbursable Rates, noted in subparagraph 7.2.2. No additional support costs are reimbursed for part-time employees except for overseas Temporary Duty costs.

7.2.3.5.3. Billings must exclude all costs associated with countries that have FMS CAS waivers and/or reciprocal agreements.

7.2.3.6. Defense Contract Audit Agency (DCAA), All Offices Except DCAA Headquarters Offices. Allocate the FMS contract audit based on actual hours expended on FMS requirements. Compute the unfunded civilian retirement rate and show the results on the monthly billings.

7.2.3.7. Any Other Activity Performing Contract Management Services as Approved by OUSD(C). When OUSD(C) grants this exception, the exception will identify the cost recoupment method.

7.2.4. The SF 1080 bills for actual costs must be supported with a schedule containing the following data:

7.2.4.1. Organization;

7.2.4.2. Type of CAS effort incurred:

7.2.4.2.1. Contract audit,

7.2.4.2.2. Quality assurance and inspection, or

7.2.4.2.3. Other CAS efforts;

7.2.4.3. Cost recoupment basis;

7.2.4.4. Annual hourly rates prescribed by OUSD(C) for CAS, plus unfunded civilian retirement costs (including costs for post-retirement health benefits). See the OUSD(C) reimbursable rate website for approved unfunded civilian retirement rate and hourly rates; and

7.2.4.5. The authority or directive requesting work to be performed and justification for why the normal FMS CAS procedures and billing arrangements for the current authorized DoD Components performing CAS cannot be used.

7.2.5. Billings for non-FMS CAS must be charged in accordance with Volume 11A, Chapter 6, Appendix D, Contract Administration Services.

7.3 Actual Transportation Cost

Bill actual transportation costs of delivering defense articles on SF 1080s or Government bills of lading (GBLs); pay from the transportation surcharge account. Transportation costs to FMS purchaser freight forwarders from DWCFs are included in the cost of the article reported to DFAS SCA. Bill inventory shipments from the DWCF beyond the freight forwarders as a “below-the-line” charge in accordance with Table 8-1 and Chapter 3, Table 3-1, Cost Elements. Bill all other shipments according to Table 8-2 and Chapter 3, Table 3-1. Reimburse costs for transportation billed as a “below-the-line” cost to transportation activities based on the SF 1080 bills. The bills must be supported by a valid case identifier comprised of Country Code, IA Code, case designator, date of shipment, and certification that the billed amount was not included in the article’s cost.

7.3.1. Carrier Costs

7.3.1.1. Commercial and Industrially Funded or DWCF Organizations. Support billings for other-than-inland CONUS DWCF materiel by electronic media, listing, or computer tapes detailing the transaction control numbers and case designators or articles transported for FMS purchasers. “Carrier” means commercial carriers and/or the industrially- funded or DWCF part of Air Mobility Command (AMC) and Military Sealift Command (MSC). The following exceptions apply:

7.3.1.1.1. Include the cost of transporting Government furnished materiel (GFM) to a contractor’s plant in the price of the GFM, reported in the delivery transactions, and not in the SF 1080 billings.

7.3.1.1.2. Include the cost of transportation for repair and return cases in the cost of the repair service, reported via the delivery transaction, and not in the SF 1080 billings.

7.3.1.1.3. Report “above-the-line” discrete transportation costs, such as high flight or special airlift, as a case charge via the delivery transaction, and not in the SF 1080 billings.

7.3.1.1.4. Do not include in the SF 1080 billings the inland CONUS transportation cost for DWCF materiel from point of origin to point of FMS purchaser pickup (freight forwarder, FMS purchaser, or FMS purchaser-designated CONUS delivery point); it is borne by the DWCF.

7.3.1.2. DWCF and GBLs. Do not cite the FMS Trust Fund on GBLs for transportation of DWCF materiel. The cost of such transportation is included in the standard price of DWCF materiel. GBL processing activities must not accept GBLs citing the FMS Trust Fund for transporting DWCF materiel.

7.3.1.3. U.S. Postal Service. Directly reimburse all postal service costs collected by DFAS SCA as surcharge costs on FMS purchaser billings to the applicable IA’s designated administrative headquarters organization.

7.3.1.4. Defense Courier Service. Base the SF 1080 billings to recoup the cost of support provided by the Defense Courier Service on a prorated share of FMS shipments to total shipments. Apply the resulting percentage to payments to the Defense Courier Service to determine FMS billings.

7.3.1.5. Air/Army Postal Office (APO), Fleet Postal Office (FPO). Base the SF 1080 billings to recoup the cost of support provided by APOs and FPOs on a prorated share of FMS shipments to total shipments. Apply the resulting percentage to payments to the armed services operating these offices.

7.3.1.6. Commercial Package Carriers. All costs collected by the DFAS SCA as surcharges on FMS purchaser billings for commercial package carriers are directly reimbursed back to the reporting DoD Components and not reimbursed from the FMS Transportation Account as a direct cite disbursement.

7.3.2. Recoupment of the Cost of DoD Organizations Which Support Carrier Movement

7.3.2.1. AMC Headquarters. Allocate non-industrially funded/DWCF headquarters cost based on the ratio of FMS billings to the total dollar value of industrial fund/DWCF billings. The billing for headquarters cost must include a proportionate share of all costs funded by the Operations & Maintenance (O&M) appropriation, Military Pay appropriation, and those unfunded costs identified in subparagraph 7.2.4.

7.3.2.2. MSC Headquarters. Allocate non-industrially funded headquarters cost based on the ratio of FMS billings to the total dollar value of industrial fund/DWCF billings. The

billing for headquarters cost must include a proportionate share of all costs funded by the O&M appropriation, Military Pay appropriation, and those unfunded costs identified in subparagraph 7.2.4.

7.3.2.3. Organizations Responsible for Routing of Materiel, Preparation of GBLs, and Carrier Selection. Organizations responsible for the routing of materiel, preparation of GBLs, and carrier selection include the Surface Deployment and Distribution Command and subsidiary organizations, the Navy Materiel Transportation Office (NAVMTO), and installation transportation offices. Base billings on level of effort estimates of FMS tonnage as a percentage of total tonnage moved. For this calculation, costs of FMS tonnage must include movement of materiel processed through both DTS and commercial bills paid directly by foreign countries. Apply the resulting percentage of tonnage moved to the total actual obligations incurred by routing organizations to determine the base charge. The billing must include the base charge, military labor, and unfunded costs determined in accordance with subparagraph 7.2.4.

7.3.2.4. Organizations Responsible for Accounting, Audit, and Payment of Transportation Bills. Organizations responsible for accounting, audit, and payment of transportation bills are DFAS - Indianapolis Center, for Army, Air Force, and Defense Agency shipments; NAVMTO, Norfolk, Virginia, for Navy shipments; and the Marine Corps Logistics Base, Albany, Georgia, for Marine Corps shipments. Base billings on the use of level of effort estimates, on the number of FMS GBLs processed as a percentage of the total number of GBLs processed. Then apply the percentage to obligations incurred by cost centers responsible for processing GBLs, and those unfunded costs identified in subparagraph 7.2.4.

7.3.2.5. Organizations Providing Physical Security. Shipments that involve sensitive conventional arms, ammunition, and explosives in-transit are to be processed in accordance with [DoD Manual 5100.76](#), "Physical Security of Sensitive Conventional Arms, Ammunition, and Explosives (AA&E)." DoD civilian and military personnel involved in providing personnel services in connection with these types of shipments are to be priced in accordance with the provisions of Chapter 7, paragraphs 20.1 and 20.2.

7.3.3. Billings for Organic Transportation and Troop Labor

7.3.3.1. Troop Labor. Activities utilizing troop labor for the loading or unloading of vessels, trains, vans, or other conveyances are responsible for billing applicable costs. FMS cost may be based on a prorated share of the total cargo manifest, or a similar document.

7.3.3.2. Use of Organic Vehicles. Base billings for the use of organic vehicles on motor pool records that disclose DoD vehicles were used to move FMS materiel. Determine the number of miles and bill at the rate of \$4.00 per mile. This rate includes the labor cost of drivers assigned by the motor pool. Consolidate motor pool billings by major commands.

7.4 Actual PC&H

SF 1080 billings for actual PC&H costs are normally not submitted. Instead, earned reimbursements are transferred to the shipping depot when DFAS SCA applies the applicable

surcharge. DWCF items are not reimbursed for PC&H because that charge is included in the standard price.

8.0 SUPPORTING DOD COMPONENT PERFORMANCE REPORTS/REQUESTS FOR REIMBURSEMENTS

8.1 General

DoD Components must support FMS cases at the request of the applicable IA. Such requests must be in the form of requisitions or formal orders that place a dollar value on the support to be provided, the appropriation/fund that will pay the resulting billings, the appropriation/fund that will bill and record earned reimbursements, and the address (symbol) of the IA or equivalent. Pursuant to a formal order, billings by the supporting DoD Component to the IA must be submitted on an SF 1080 supported by delivery transactions to the paying office identified in the order. The disbursing officer must include the delivery transactions in a consolidated submission to DFAS SCA and reimburse any amounts due for inventory items or services when reimbursement is received from DFAS SCA. Only make payments to contractors subject to expenditure authority (EA) issued by DFAS SCA. A non-reimbursable delivery transaction applicable to such costs should be included in the submission.

8.2 Processing Requisitions

8.2.1. If requisitions are received from the IA with a fund and signal code signifying direct citation of the FMS Trust Fund (not an allotment of direct cite authority), the delivery transaction must be submitted to the requisitioning activity. Process requisitions containing such fund and signal codes on a prompt delivery basis (within 30 days). Obligations must be recorded after the funding authorization has been received and upon release of the requisition to the supply source. Record disbursements against the applicable case once the interfund bill transactions have been validated and accepted in the IA database. The IA reports the initial obligation transaction, obligation adjustment transaction, and related disbursement transaction to DFAS SCA. EA must be approved for all requisitions submitted to non-DoD supplying activities.

8.2.2. Within the DoD, the interfund billing activity must get necessary self-reimbursement authority for interfund requisitions. If stocked items are not available for prompt delivery and new procurement is necessary, follow Military Interdepartmental Purchase Request procedures, direct cite procurement procedures, or commercial buying services procedures. If the requisition is submitted to a non-DoD organization, the summary billing transaction and the supporting unmodified MILSBILLS detailed billed transactions must be submitted to the IA. The IA must convert MILSBILLS detailed delivery transactions to FMS detail delivery transactions and forward the billing information to DFAS SCA within five working days. DFAS SCA must use the FMS detail delivery transactions to prepare delivery reports to the FMS purchasers and provide a copy of the report, or automated system equivalent, to the implementing DoD Components for use in posting to supply performance files.

9.0 PERFORMANCE AND DELIVERY REPORTING

9.1 Reports

9.1.1. FMS Command Pay List. DFAS provides reporting activities with a monthly FMS Command Pay List that identifies the total amount of WIP or deliveries charged to FMS cases in the current reporting period, excluding accounts payable (see subparagraph 9.1.4). The amount includes the delivery transactions submitted by the reporting activity, less accounts payable and rejected items (see subparagraph 9.1.3), and additional charges mechanically computed by DFAS. The last line of the Command Pay List, “Total Reimbursable to This Payee,” should equal the amount received by the payee. DFAS computed charges may or may not be reimbursable to the reporting activity. The following are DFAS computed charges:

9.1.1.1. FMS Administrative Surcharge are non-reimbursable costs;

9.1.1.2. PC&H are reimbursable charges not applicable to DWCF items;

9.1.1.3. “Below-the-line” Transportation Charges;

9.1.1.3.1. Reimbursable and non-reimbursable costs (reimbursable costs are not applicable to DWCF items if the ship date is October 1, 1991 or later). The Inland CONUS rate of 2.75 percent is not applicable to stock fund items effective October 1, 1990,

9.1.1.3.2. Transportation Bill Codes (TBCs) are used to bill FMS purchasers for “below-the-line” transportation costs if the actual method of transportation is different from that identified by the Delivery Term Code. Report the return of repaired materiel using TBC “L.” TBCs are in Table 8-3; and

9.1.1.4. CAS charges are non-reimbursable.

9.1.2. FMS Detail Delivery Feedback List. The FMS Detail Delivery Feedback List is attached to the Command Pay List and identifies the delivery transactions submitted by reporting activities and processed by DFAS for reimbursement or reporting to the FMS purchaser. It also identifies add-on amounts mechanically computed by DFAS for each processed delivery transaction. This listing does not provide summary totals of deliveries reported. It is used to compare deliveries reported with deliveries processed when reconciling amounts reimbursed to the reporting activity. When reconciling reimbursements received from DFAS to reporting activity records, the following columns of the FMS Detailed Delivery Feedback list should be used:

9.1.2.1. The Voucher Amount Paid (VOU AMT PD) column, which identifies the amount of reimbursement to the reporting activity;

9.1.2.2. The Extended Value (EXT VAL) column, which identifies the total amount reported to DFAS;

9.1.2.3. The Stock Fund Add-On (STK FUND ADD-ON) column, which identifies the amount of LSC or stock fund add-on charges computed by DFAS. After accounting date March 1987, this field identifies the LSC;

9.1.2.4. The Contract Administration Surcharge Add-On (CAS ADD-ON) column, which identifies CAS computed by DFAS. The CAS applied to procurement DSCs (non-reimbursable to the reporting activity). Items procured and associated costs charged may include DWCF listed items, GFM, and nonrecurring charges;

9.1.2.5. The Date of Transaction (DT TRAN) column, which identifies the date of transaction; and

9.1.2.6. The Accessorial Administrative Costs (ACSRL ADM COST) column, which identifies administrative charges applied against the FMS case. These charges are applied against total deliveries reported for each case during the month and not identified to the individual deliveries.

9.1.3. FMS IA Performance Report Transaction Register (PRTR). The FMS IA PRTR has five parts. These parts are detailed in the following subparagraphs.

9.1.3.1. The IA-Initiated Performance Reports Rejected Not Processed section includes all delivery transactions that could not be processed by DFAS. The reasons for not processing are listed immediately under each transaction. A corrected transaction should be resubmitted to DFAS. This part must be used in reconciling reported deliveries, to deliveries processed by DFAS. Rejected transactions should be corrected and resubmitted within 30 days.

9.1.3.2. The IA-Initiated Performance Reports Processed with Management Alerts section includes all delivery transactions processed with the possible problem areas identified by DFAS processing. Review these transactions to determine if each transaction was properly prepared. If the transaction was properly prepared, no further action is required.

9.1.3.3. The DFAS-Initiated Performance Reports Processed section includes those transactions computed and applied by DFAS for the IA. DFAS reports these transactions for posting to the IA's records.

9.1.3.4. The DFAS-Initiated Corrections to Initial IA Performance Reports section provides information on delivery transactions subsequently modified by DFAS. Data appears with the IA delivery transaction first, followed by the corrective action taken by DFAS.

9.1.3.5. The DFAS Deletions from the IA-Initiated Performance Reports section provides the delivery transactions that have been subsequently deleted by DFAS.

9.1.4. FMS Accounts Payable List

9.1.4.1. The FMS Accounts Payable List indicates reimbursable delivery transactions for which payment is not being made. Reasons for non-payment include:

9.1.4.1.1. The country's funds are frozen (not available to disburse),

9.1.4.1.2. The country does not have enough cash available, or

9.1.4.1.3. The case provides for payment 60 days after delivery.

9.1.4.2. The list has a total of all transactions that are reimbursable and have not been paid to the reporting activity.

9.1.5. FMS Voucher Backup for Payment of Accounts Payable. The FMS Voucher Backup for Payment of Accounts Payable listing represents the amount paid to the reporting activity per the Command Pay List (see subparagraph 9.1.1) by country, IA, and reporting activity.

9.1.6. FMS Accounts Payable. Detailed payable records are only maintained in installation-level systems and, therefore, can only be aged at the installation level. Monitoring payables and assuring specific vendors are paid promptly is a function of the installation-level accounting activity. IAs should validate general ledger account balances to payables reported to the Defense Integrated Financial System on a monthly basis.

9.2 Reject Codes

The FMS IA PRTR contains Reject Codes for the delivery transactions that did not process to the FMS Command Pay List. Research reports with Reject Codes and process delivery transactions within 30 days. DFAS will maintain a control file of outstanding rejected transactions and will update the file once corrected transactions are resubmitted and reprocessed. DFAS will send copies of the control file to the respective IAs.

9.3 Reconciling Reports

Reconcile reimbursable delivery transactions to the amounts reimbursed. Verify that the voucher backup equals the amount on the check and the FMS Command Pay List. If amounts are not equal, contact DFAS to reconcile differences.

1. The costs of L1D, L1E, and L4O are included in the DWCF item price when being directly shipped to the customer. If the item is shipped to a staging location, the rate listed must be charged.
2. L1A does not apply to DWCF shipments with shipping dates after September 30, 1990. Computation for L1D and L1E for DWCF items was discontinued on items with shipping dates after September 30, 1991. L1A is computed once on DWCF items shipped to a CONUS staging or aggregation area and then on to the CONUS water or aerial port. The first CONUS movement is included in the DWCF item price. The second movement TBCs (P, Q, R, or S) are charged at the normal rate.

*Table 8-1. Transportation Charges Based on TBC for Inventory Items Shipped by DWCF
(Continued)

3. Wherever “L1B/L1C” appears, if the Port of Embarkation (POE) code is “A,” L1C is computed; otherwise, L1B is computed.
4. L1B is computed at [3.75](#) percent for rate area one or [5.5](#) percent for rate area two. See Chapter 7, [subparagraph 4.2.3.2 “Below-the-Line Transportation Services”](#) for more information.
5. L1C is computed at 4.0 percent for rate area one or 6.0 percent for rate area two. See Chapter 7, [subparagraph 4.2.3.2 “Below-the-Line Transportation Services”](#) for more information.
6. L1A is computed once on DWCF items shipped to a CONUS staging or aggregation area and then on to the CONUS water or aerial port. The first CONUS movement is included in the DWCF item price.

1. Amounts collected for L1D, L1E, and L4O must be reimbursed to the shipping depot shown in the delivery transaction. SF 1080 billings for actual costs are not required.
2. Wherever “L1B/L1C” appears, if the POE Code is “A,” L1C is computed; otherwise, L1B is computed.
3. L1B is computed at 3.75 percent for rate area one or 5.5 percent for rate area two. See Chapter 7, subparagraph 4.2.3.2 “Below-the-Line Transportation Services” for more information.

*Table 8-2. Transportation Charges Based on TBC for Inventory Items Not Shipped by DWCF
(Continued)

4. L1C is computed at 4.0 percent for rate area one or 6.0 percent for rate area two. See Chapter 7, subparagraph 4.2.3.2 “Below-the-Line Transportation Services” for more information.
5. L1A is computed twice on non-DWCF items shipped to a CONUS staging or aggregation area and then on to the CONUS water or aerial port for TBCs P, Q, R, and S.

SE	N	N	Y	B

1. DFAS SCA will compute CAS if Price Code is "N" and Reimbursement Code is other than "N" unless statutory waiver of contract administration has been made.
2. PC&H does not apply to DWCF items with ship dates after September 30, 1990.
3. Administrative costs will be computed unless administrative costs have been waived pursuant to statute.
4. The Inland CONUS transportation charge of 2.75 percent does not apply to DWCF shipments with shipping dates after September 30, 1990. Computation for generic codes L1D and L1E for DWCF items was discontinued on items with shipping dates after September 30, 1991.
5. In this column, A refers to items furnished from DWCF. B refers to inventory items that are not shipped from DWCF. Transportation for inventory items furnished from DWCF to freight forwarders or Canada (except Newfoundland and Labrador) is included in the price. Shipments beyond that point are computed according to Table 8-1. Costs for items that are not furnished from DWCFs are also computed according to Table 8-2.
6. Transportation costs are computed using the TBC of the transaction. However, if this position is blank, transportation costs are computed using the DTC. If a DTC is not on the DTC Table, reject the transaction.
7. Included in actual or estimated actual repair cost.
8. Computed standard PC&H except if RIC begins with "G." RIC that begins with "G" will not have PC&H computed.
9. For DSC "EF" and "EG" when transportation is by the General Services Administration (GSA) (RIC begins with "G") and the TBC is not blank, or where the TBC is blank and the DTC is other than "4," the CONUS transportation add-on (generic codes L1A, L1D, and L1E) is not computed. GSA includes CONUS transportation in the price of the item.

*Table 8-4. TBC

TBC	Description
A	Materiel moved by parcel post to an inland CONUS/Canada (except Newfoundland and Labrador) destination or freight forwarder, or to an overseas destination through the APO or international mail. The FMS purchaser makes all subsequent arrangements.
B	Materiel moved by commercial package carrier to an inland CONUS/Canada (except Newfoundland and Labrador) destination or freight forwarder, when all subsequent arrangements are made by the FMS purchaser. However, see TBC “Z.”
C	Materiel moved by GBL, AMC channel airlift, Air Force organizational airlift, MSC sealift, and combinations thereof, to an overseas port of debarkation (POD) in rate area one or two, including overseas carrier discharge. The FMS purchaser makes all subsequent arrangements.
D	Any form of materiel for which the FMS purchaser is totally responsible, such as materiel moved by a collect commercial bill of lading to an inland CONUS destination, free alongside ship (FAS), an overseas carrier at a CONUS POE, freight forwarder, a CONUS POE, or an inland overseas destination. Also used if transportation costs are not applicable.
E	Materiel moved by GBL, AMC channel airlift, Air Force organizational airlift, MSC sealift, and combinations thereof, to an inland CONUS destination, FAS an overseas carrier at a CONUS POE, a freight forwarder, or a CONUS POE when all subsequent arrangements are made by the FMS purchaser.
F	Materiel moved by GBL, AMC channel airlift, Air Force organizational airlift, MSC sealift, and combinations thereof, to an overseas POD in rate area one or two, when overseas carrier discharge and all subsequent arrangements are made by the FMS purchaser.
G	Materiel moved by GBL, AMC channel airlift, Air Force organizational airlift, MSC sealift, Defense Courier Service, Military Ordinary Mail, Weapons System Pouch Service, and combinations thereof, to the ultimate FMS consignee at an overseas inland destination in rate area one or two.
H	Materiel moved by GBL, AMC channel airlift, Air Force organizational airlift, MSC sealift, and combinations thereof, to a CONUS POE when all arrangements subsequent to loading the vessel are made by the FMS purchaser.
J	Materiel moved by AMC channel airlift to an overseas aerial POD (APOD) in rate area one or two when the use of inland CONUS transportation is not required in effecting delivery to the CONUS POE. The FMS purchaser makes all arrangements subsequent to carrier discharge.
K	Materiel moved by AMC Special Assignment Airlift Mission (SAAM) within CONUS to an overseas APOD or inland FMS consignee base within an overseas area or between overseas areas. The FMS purchaser makes any arrangements subsequent to carrier discharge.
L	Substitute for any other standard codes whenever actual transportation costs will be reported in accordance with Chapter 7.
M	Materiel moved by FMS country-owned aircraft from a U.S./DoD staging area.

*Table 8-4. TBC (Continued)

TBC	Description
N	Materiel moved by GBL “or other CONUS inland mode” to a CONUS staging or aggregation area, staging or aggregation of the materiel, and onward movement of the materiel to a freight forwarder by a collect commercial bill of lading or country-owned or provided aircraft, or by AMC or by commercial SAAM.
P	Materiel moved by GBL “or other CONUS inland mode” to a CONUS staging or aggregation area, staging or aggregation of the materiel, and onward movement of materiel by GBL or other prepaid (reimbursable) CONUS transportation to an aerial or water POE, FAS an overseas carrier at a CONUS POE, or arrangements are made by the FMS purchaser.
Q	Materiel moved by GBL “or other CONUS inland mode” to a CONUS staging or aggregation area, staging or aggregation of the materiel; out movement of the materiel from the staging area by GBL, or other prepaid (reimbursable) CONUS transportation to an aerial or water POE; port handling of the materiel, and onward movement by GBL, AMC channel airlift, Air Force organizational aircraft, MSC sealift, and combinations thereof, to an overseas POD in rate area one or two, when overseas carrier discharge and all subsequent arrangements are made by the FMS purchaser.
R	Materiel moved by GBL “or other CONUS inland mode” to a CONUS staging or aggregation area, staging or aggregation of the materiel; and out movement of the materiel from the staging area by GBL, or other prepaid (reimbursable) CONUS transportation to an aerial or water POE; port handling of the materiel, and onward movement by GBL, AMC channel airlift, Air Force organizational aircraft, MSC sealift, and combinations thereof, to an overseas POD in rate area one or two; overseas port handling of the materiel; and onward overseas inland movement to the ultimate FMS consignee at an overseas, inland destination rate area one or two.
S	Materiel moved by GBL “or other CONUS inland mode” to a CONUS staging or aggregation area, staging or aggregation of the materiel, out movement of the materiel from the staging area by GBL, or other prepaid (reimbursable) CONUS transportation to an aerial or water POE; and loading of the materiel aboard a country-owned or provided aircraft or vessel, when all arrangements subsequent to loading the aircraft or vessel are made by the FMS purchaser.
U	Materiel moved by parcel post or commercial package carrier to CONUS POD when all arrangements subsequent to loading the vessel are made by the FMS purchaser (Mode of shipment determines whether parcel post or commercial package carrier is used.)
V	Materiel moved by parcel post or commercial package carrier to an overseas POD in rate areas one or two, including overseas carrier discharge, when arrangements subsequent to loading the vessel are made by the FMS purchaser (The mode of shipment determines whether parcel post or a commercial package carrier is used.)
W	Materiel movement charged according to rates listed in the transportation cost look-up table (see section 6.0).
X	Materiel moved by parcel post or commercial package carrier to an overseas POD in rate areas one or two, when the FMS purchaser makes overseas carrier discharge and subsequent arrangements (The mode of shipment determines whether parcel post or commercial package carrier is used.)

*Table 8-4. TBC (Continued)

TBC	Description
Y	Materiel moved by parcel post or commercial package carrier to the ultimate FMS consignee at an overseas inland destination in rate areas one or two (The mode of shipment determines whether parcel post or commercial package carrier is used.)
Z	Materiel moved within the CONUS by commercial carrier with a published maximum rate of \$25.00 (for example, as published by United Parcel Service).

Note: Rate Area 1 includes Europe, Central America, Mediterranean Ports, Alaska, and Hawaii. Rate Area 2 includes Newfoundland, Labrador, Thule, Iceland, South America (East & West Coasts), Far East, African Ports (other than Mediterranean) and Near East.

CHAPTER 1

GENERAL PROVISIONS FOR DOD DEBT MANAGEMENT

1.0 GENERAL

1.1 Overview

1.1.1. Policy and requirements in this volume apply to administrative actions associated with the collection and disposition of debts that are owed to the DoD by any person, organization, or entity except another Federal agency. Policy and requirements regarding debts owed to the DoD by Federal agencies are contained in Volume 4, Chapter 3.

1.1.2. Policy and requirements in this volume are not applicable to debts owed by DoD or debts arising from antitrust, fraud, tax, or interagency claims.

1.1.3. Policy and requirements for loss of funds cases are contained in Volume 5, Chapter 6. Debts that are the result of improper payments may require loss of funds investigations in accordance with Volume 5, Chapter 6. Debts resulting from improper payments have additional reporting requirements under the [*Improper Payments Information Act of 2002*](#), the Improper Payments [*Elimination and Recovery Act of 2010*](#), and the Improper Payments Elimination and [*Recovery Improvement Act of 2012*](#). Refer to Volume 4, Chapter 14 and Volume 10, Chapter 22 for additional guidance regarding the improper payments program.

1.1.4. Policy and requirements for recording and reporting accounts receivable are contained in Volume 4, Chapter 3.

1.1.5. Where specific statutory authority applies to the collection of a particular category of debt, the provisions of the applicable statute will determine the appropriate debt collection procedures.

1.1.6. Policy and requirements for handling personally identifiable information are contained in the [*DoD Directive 5400.11, "DoD Privacy Program."*](#)

1.1.7. The [*DoD Delinquent Debt Management Guidance*](#) (DDMG), signed August 31, 2012, defines the end state of debt management through the incorporation of Services' and Agencies' Enterprise Resource Planning (ERP) systems. Components that have implemented the DDMG are permitted to follow those requirements in place of specific steps defined throughout Volume 16.

1.1.8. Payments of amounts owed to DoD by organizations, businesses, and individuals must be made in accordance with the terms specified in contracts, agreements, or demand letters.

1.1.9. Nothing in Volume 16 exempts accountable officials from pecuniary liability arising from erroneous payments or loss of funds as discussed in Volume 5, Chapter 6.

1.1.10. Policy and requirements for remitting debt payments via cash and check are contained in the Treasury Financial Manual ([TFM, Volume 1, Part 5, Chapter 2000](#)).

1.1.11. Policy and requirements for remitting debt payments electronically are contained in the [TFM, Volume 1, Part 5, Chapter 7500](#). Policy and requirements for remitting debt payments via credit card are contained in [TFM, Volume 1, Part 5, Chapter 7000](#).

1.1.12. Nothing in Volume 16 will be interpreted in a manner that would impair DoD's ability to collect debts under the common law utilizing any available statutory authority.

1.1.13. Nothing in Volume 16 or the Federal Claims Collection Standards (FCCS) (Title 31, Code of Federal Regulations ([CFR, parts 900-904](#))) requires the omission or duplication of administrative proceedings associated with debt collection that may be required by other laws or regulations. DoD's failure to comply with this volume or the FCCS does not create any right or benefit, substantive or procedural, enforceable by law or in equity by a party against the United States, its agencies, its officers, or any other person. Refer to [31 CFR 900.7-900.8](#).

1.2 Purpose

This chapter provides an overview of the policies and requirements for collection and management of debt owed to the DoD [by any person, organization, or entity except another Federal agency](#).

1.3 Authoritative Guidance

1.3.1. DoD is required to aggressively collect debts in accordance with the following statutes, as well as other statutes and regulations expressly identified in this volume:

1.3.1.1. Debt Collection Improvement Act of 1996 ([Public Law 104-134](#), Chapter 10, section 31001);

1.3.1.2. Debt Collection Act of 1982 ([Public Law 97-365](#));

1.3.1.3. Federal Claims Collection Act of 1966 (codified at Title 31, United States Code, section 3701([31 U.S.C. § 3701](#)) et seq; [5 U.S.C. § 5514](#); and [37 U.S.C. § 1007](#));

1.3.1.4. Contract Disputes Act of 1978 ([41 U.S.C. § 7101 et seq.](#));

1.3.1.5. Internal Revenue Code provisions regarding the authority to make credits or refunds ([26 U.S.C. § 6402](#));

1.3.1.6. FCCS (31 CFR 900-904);

1.3.1.7. Regulations for collection by offset from indebted Government employees ([5 CFR 550, subpart K](#)); and

1.3.1.8. Regulations for the collection of past-due support by administrative offset ([31 CFR 285.1](#)).

1.3.2. Policy and requirements in this volume are intended to be consistent with the [Federal Acquisition Regulation](#) and the Defense Federal Acquisition Regulation Supplement ([DFARS](#)).

2.0 RESPONSIBILITIES

2.1 Accounts Receivable Office (ARO)

The ARO is the office responsible for recording and reporting receivables and may also be the office responsible for debt collection.

2.2 Contracting Officer

The contracting officer has primary responsibility for determining the amount of the debt and ensuring collection for most types of contract debt. The contracting officer, or another authorized official, will request that a payment office collect a debt and will provide a copy of the contract, with the accompanying documents necessary to facilitate collection, to the payment office. If the contracting officer or designated official receives the contractor's payment, then he or she must immediately forward the payment to the disbursing office, with proper documentation, to allow posting into the accounting system. The contracting officer or designated official should request a confirmation of receipt of the payment from the disbursing office. Refer to Chapter 5 for additional responsibilities related to contract debt.

2.3 Debt Collection Office (DCO)

2.3.1. DCO refers to the office or individuals at the DoD Component level that are primarily responsible for debt establishment and collection for the Component. DCOs that manage the debt collection for the Component are typically located in the following areas: AROs, military and civilian payroll offices (located both within and outside of the Defense Finance and Accounting Service (DFAS)), Debt Management Offices (DMOs), the Debt and Claims Management Office (DCMO), contracting offices, disbursing offices, or the Foreign Debt Management Office. DCO also refers to any other organizational element within a DoD Component that performs debt management/collection activities.

2.3.2. After establishing a debt, the DCO is responsible for initial debt collection and due process procedures, including the issuance of debt notification letters that comply with all the requirements for debt collection under the FCCS. If the DCO and ARO are separate offices, the DCO is responsible for working with the ARO to ensure that appropriate accounting actions are completed. DCOs must ensure that all debts are valid and legally enforceable. DCOs must work with the AROs to reverse accounting entries for debts subsequently determined not to be valid or legally enforceable pursuant to Volume 4, Chapter 3.

2.4 DFAS DCMO

The DFAS DCMO offers debt management and collection assistance for delinquent debts owed to DoD by individual debtors who are no longer paid by DoD (i.e., out-of-service employees and Service members). If a Component's DCO cannot collect a debt through offset because the debtor is no longer being paid by DoD, and the debtor has not agreed to pay the debt, then the DCO should obtain debt collection services from the DCMO. The DCMO also makes determinations on hearing requests and applications requesting waiver of individual indebtedness. Refer to Chapters 3 and 4 for additional guidance on referring debts to DCMO and the waiver process.

2.5 DFAS DMO

The DMO is responsible for processing collection actions on referred delinquent vendor/contractor debt. The DMO will document debt collection activities, including any basis for a debt compromise, suspension, or termination of collection action, and retain the documentation in individual debtor files. Refer to Chapter 5 for additional guidance on when to refer debts to DMO and DMO responsibilities.

2.6 DoD Component

DoD Components are responsible for establishing debt management programs as described in section 3.0 and ensuring DCOs and AROs collect and manage debt owed to that Component.

3.0 DEBT MANAGEMENT PROGRAM

3.1 General

Each DoD Component must establish and maintain a debt management program to identify, recover, and collect debts owed by individuals to the United States. DoD Components must clearly designate the DCOs responsible for the recovery and collection of debts within the DoD Component. The recovery of debts must be undertaken promptly, using a strategy that is determined to result in the maximum recovery of debt. DoD Components must ensure debtors are afforded due process, in the form of proper debt notification and the right to review, in accordance with Volume 16 and applicable regulations and guidance issued by the U.S. Department of the Treasury. DoD Components must establish guidance that clearly assigns responsibilities for processing, monitoring, reporting, and closing out delinquent debts.

3.2 Debt Prevention and Monitoring

3.2.1. DoD Components must institute procedures and assign responsibility to designated personnel (including contractors and vendors), as necessary, to ensure that appropriate personnel and organizations (e.g., personnel, entitlement, payroll, finance and accounting, disbursing, and legal offices) are promptly notified and kept apprised of activities that could give rise to indebtedness by any member, employee, or other personnel. Such indebtedness could be the result

of employment or other financial or contractual relationship between DoD and the debtor. DoD Components must maintain continuous communication and follow up to prevent indebtedness from remaining unresolved for an extended period.

3.2.2. DoD officials must establish procedures to identify the causes of indebtedness, delinquencies, and defaults, and must take corrective action to mitigate those causes and thereby reduce the number of debts subject to collection.

3.3 DoD Debtor Information Exchange and Debt Collection Partnership Programs

DCOs must share information concerning debtors. DCOs must cooperate with each other and with other Federal agencies, including any private debt collection agencies and credit bureaus working on behalf of such agencies. DCOs must take all actions necessary to facilitate the collection of delinquent debts owed by current and former DoD civilian employees and military members, as well as other debtors.

3.4 Debt Management Requirements

DoD officials, including contracting officers, contractor/vendor pay offices, disbursing officers, and AROs, must cooperate with each other to ensure that debts are collected, properly recorded in the accounting systems, and accurately reported in the agency's financial statements.

3.5 Documenting Collection Activity

The DCO must document all debt collection activities, including how the debt was established, due process procedures, installment payment plan agreements, collection activity and/or the basis for debt compromise, suspension, or termination of collection action. The DCO must also document bankruptcy activity if applicable. Documentation should be retained in individual debtor files and provided to the office responsible for recording and reporting of the related accounts receivable.

3.6 Automating Debt Collection and Reporting Systems

DoD Components must use automated debt collection and reporting systems to the extent that it is feasible and cost effective for recording, processing, and controlling debts. The Deputy Chief Financial Officer created the DDMG, signed August 31, 2012, which defines the end state of debt management through the incorporation of Services' and Agencies' ERP systems. These systems must be utilized to the fullest extent possible in compliance with the DDMG.

4.0 INTERNAL CONTROLS

4.1 General

DoD Components involved in the collection and management of debts owed to the DoD must adhere to the basic standards for internal controls prescribed in [DoD Instruction 5010.40](#), “Managers’ Internal Control Program Procedures.” DoD Components will establish and maintain internal controls to ensure that debts owed to DoD are recorded, reported, managed, and aggressively collected.

4.2 Recording and Reporting Accounts Receivables

Major categories of receivables must be maintained to facilitate clear and full disclosure (e.g., disclose the debtor, the amount, the age, and the type of debt). Subsidiary records must be reconciled to the control accounts on at least a monthly basis. The DoD Components must document the date of a debt so that timely and appropriate collection and follow-up action can be accomplished. Refer to Volume 4, Chapter 3 for guidance on recording and reporting accounts receivables.

CHAPTER 2

GENERAL INSTRUCTIONS FOR COLLECTION OF DEBT OWED TO THE DOD

1.0 GENERAL

1.1 Overview

The policy and requirements in this chapter apply to administrative actions associated with the collection of debts owed to and collected by the DoD. Additional guidance related to collecting debt from individuals, vendors/contractors, and foreign entities is included in Chapters 3, 5, and 6, respectively. The instructions in this chapter do not apply to the collection of child support or alimony or to commercial, non-DoD debts owed by civilian employees and Service members through garnishment or involuntary allotment. Refer to Volume 7A, Chapters 41 and 43; Volume 7B, Chapters 27 and 28; and Volume 8, Chapter 8 for guidance pertaining to garnishments, involuntary allotments, and tax levies. In addition, this chapter does not apply to antitrust, fraud, tax, or interagency collection issues.

1.2 Purpose

The purpose of this chapter is to provide policy and requirements Debt Collection Offices (DCOs) must follow in the collection of public debts owed to the DoD. These debts include amounts outstanding from civilian employees, Service members, retired personnel, and other individuals.

1.3 Authoritative Guidance

Pursuant to U.S. Department of Treasury (Treasury) requirements, DoD is required to aggressively collect debts in accordance with the following statutes and regulations:

1.3.1. Debt Collection Improvement Act of 1996 ([Public Law \(P.L.\) 104-134](#), Chapter 10, section 31001);

1.3.2. Debt Collection Act of 1982 ([P.L. 97-365](#));

1.3.3. Federal Claims Collection Act of 1966 (codified at Title 31, United States Code, section 3701 ([31 U.S.C. § 3701](#)) et seq; [5 U.S.C. § 5514](#); and [37 U.S.C. § 1007](#));

1.3.4. Contract Disputes Act of 1978 ([41 U.S.C. § 7101 et seq.](#));

1.3.5. Internal Revenue Code provisions regarding the authority to make credits or refunds ([26 U.S.C. § 6402](#));

1.3.6. Federal Claims Collection Standards (FCCS) (Title 31, Code of Federal Regulations (CFR), parts 900-904 ([31 CFR 900-904](#)));

1.3.7. Regulations for collection by offset from indebted government employees ([5 CFR, Part 550](#), subpart K);

1.3.8. Regulations for the collection of past-due support by administrative offset ([31 CFR 285.1](#)); and

1.3.9. Additional statutes and regulations listed by Treasury's Bureau of the Fiscal Service ([Fiscal Service](#)).

2.0 GENERAL GUIDANCE

2.1 Prompt Collection of Debt

DCOs must promptly and aggressively initiate collection action on all established debts owed to the DoD and must complete follow-up actions to ensure successful repayment to the DoD. DCOs may utilize Treasury-designated debt collection centers to pursue collection. For additional information, refer to [Fiscal Service's Centralized Receivables Service](#).

2.2 Statute of Limitations for Collecting Debts

2.2.1. Time Limits for Debt Collection Litigation

2.2.1.1. The DoD may refer a debt to the Department of Justice (DOJ) for litigation against a debtor in order to enforce collection or obtain a judgment in favor of the DoD. Federal law limits the period of time within which an agency may file a lawsuit to collect a debt. In accordance with [28 U.S.C. § 2415](#), the statute of limitations for filing a lawsuit to pursue debt collection is generally the later of 6 years from the date the right of action accrues (date of delinquency), or 1 year after a final decision has been rendered in an administrative proceeding, such as an action before the Armed Services Board of Contract Appeals. For additional guidance on referring debts to DOJ for litigation, refer to section 13.0.

2.2.1.2. Determining the statute of limitations for debt collection litigation is subject to numerous considerations and exceptions depending on the facts of each case. DCOs should consult their legal counsel for guidance. For example, the deadline for initiating litigation to collect an erroneous payment to a Federal employee is 6 years after the right of action accrues (unless otherwise provided by statute); however, a partial payment or a written debt affirmation restarts the 6-year period. Refer to 28 U.S.C. § 2415(d).

2.2.1.3. The time limits for initiating litigation to pursue debt collection do not apply to collection by other means, such as collection by salary offset or administrative offset.

2.2.2. Time Limit for Collection by Administrative Offset. Section 14219 of [P.L. 110-246](#) amended [31 U.S.C. § 3716\(e\)](#) to eliminate the 10-year statute of limitations on collection by administrative offset. In 2016, Section 671 of [P.L. 114-328](#) amended 37 U.S.C. § 1007 and provided a new statute of limitation for the collection of certain debts incurred on or after

December 23, 2016, by a member of the uniformed services. As a result, time limits on the collection of debts differ for civilians and members of the uniformed services as follows.

2.2.2.1. Civilians. There is no statute of limitation on debt collection from current or former civilian employees. All debts, including those previously ineligible for collection prior to the removal of the time limit, may be collected by administrative offset without any time limitation. Debts more than 10 years delinquent as of December 31, 2009, which were previously ineligible for collection, may now be collected by administrative offset, provided additional notice and due process requirements are met. If a debt has been closed out, the debt cannot be reopened for administrative offset. Refer to Volume 4, Chapter 3 for additional guidance on debt closeout.

2.2.2.2. Members of the Uniformed Services. The statute of limitation on debt collection from members of the uniformed services depends on several factors.

2.2.2.2.1. Debts Incurred On or After December 23, 2016. If a member incurs a debt to the United States on or after December 23, 2016, the indebtedness may only be recovered if collection commences before the end of the 10-year period beginning on the date the member incurred the debt. Generally, the date a debt is “incurred” by a member is the date the overpayment is received by the member. The date debt collection commences is typically when the member receives written notification of the debt. The 10-year limitation applies only to debts that meet all of the following requirements:

2.2.2.2.1.1. The debt must have been incurred through no fault of the member;

2.2.2.2.1.2. The debt must be the result of the overpayment of pay or allowances, or be incurred upon the settlement of the member’s accounts; and

2.2.2.2.1.3. The debt must belong to a current, retired, or former member.

2.2.2.2.2. Debts Incurred Before December 23, 2016. Indebtedness incurred by a member prior to December 23, 2016, should be recovered, even when recovery efforts commence after the end of the 10-year period following the date on which the debt was incurred by the member.

2.3 Method of Payment

Debts may be paid in the form of cash, check, money order, wire transfer, or electronic funds transfer (EFT). When a contractual basis exists, demand may be made for the return of specific property or the performance of specific services. Debts may otherwise be resolved by law, regulation, contract, or agreement. Refer to Volume 4, Chapter 3 for guidance on disposition of funds collected.

2.4 Return of Property to Settle Indebtedness

Nothing in this volume is intended to preclude the DoD from demanding the return of specific Government-furnished property or the payment of the value of the property.

3.0 RECOVERY TOOLS FOR DEBTS

3.1 Common Debt Collection Methods Used by the DoD

The following are the most common recovery tools or methods of collection used to collect debts owed to the DoD.

3.1.1. Voluntary Repayment or Voluntary Offset. Whenever possible, the DoD should collect a debt in a single lump-sum payment from the debtor. A debtor may also request to make payment by installment agreement or may permit the withholding (offset) of funds payable to the debtor by the United States. Voluntary repayment via direct remittance or offset is the preferred method for collecting debts. Refer to section 7.0 for guidance on voluntary repayment.

3.1.2. Involuntary Salary Offset. The DoD maintains the authority to collect involuntarily from an individual debtor's current salary or pay as authorized by statute. Refer to section 9.0 for guidance on involuntary salary offset from DoD civilian employees and Service members.

3.1.3. Administrative Offset. The DoD maintains the authority to refer a debt for involuntary collection by administrative offset from any available funds payable to the debtor by the United States, as authorized by statute. Administrative offsets may be taken against tax refunds, retirement payments, contract payments, travel reimbursements, and/or other Federal payments owed to the debtor. Refer to section 9.0 for additional guidance on administrative offset and section 11.0 for guidance on the Treasury Offset Program (TOP) for the administrative offset of any available funds payable to the debtor by the United States.

3.2 Other Collection and Recovery Tools

Collection from other sources, including liquidation of collateral or security, is not a prerequisite to requiring payment by a surety or insurance concern unless expressly required by law. The following are other collection and recovery tools to consider when attempting to collect debt owed to the DoD:

3.2.1. Suspension or revocation of eligibility for loans and loan guarantees, licenses, permits, or privileges (except for disaster loans and where exempted by the Under Secretary of Defense (Comptroller) or the Comptroller's designee, the Deputy Chief Financial Officer, DoD);

3.2.2. Liquidation of security or collateral by the DoD Component through a power of sale or non-judicial foreclosure if debtors fail to pay debts within a reasonable time after issuance of a demand letter, if such action is in the best interest of the Government. The DoD Component must give consideration to security or collateral disposition costs as compared to amounts that might be received from such a sale. After the DoD Component liquidates the security or collateral to satisfy

a debt, the DoD Component must give the debtor a written notice of sale and an account of surplus proceeds, in accordance with applicable laws or regulations. The servicing general counsel should be contacted if there is a bankruptcy filed, which is possible if there is a liquidation of security or collateral (refer to section 15.0 for guidance on debtors involved in bankruptcy proceedings);

3.3.3. Collection in installments;

3.3.4. Administrative wage garnishment;

3.3.5. Compromise of debt;

3.3.6. Credit bureau reporting;

3.3.7. Contracting with collection agencies;

3.3.8. Submission of the debt to DOJ for litigation in order to enforce collection or obtain a judgment in favor of the DoD;

3.3.9. Acceleration of collection of the debt, which is when the DCO considers the total amount of the debt delinquent and demands the debtor pay the entire debt (both the delinquent and non-delinquent portions of the debt). Acceleration is particularly appropriate when a debtor has failed to repay the debt in accordance with an installment plan, or when the debtor will be separating from military or civilian service prior to the end of the installment payment period; and

3.3.10. Rescheduling the debt in order to revise the repayment period.

4.0 DUE PROCESS

4.1 General

4.1.1. In the context of Federal debt collection, the constitutional right of “due process” requires an agency to provide debtors with written notice of the debt and an opportunity to dispute the debt. Due process is required prior to an involuntary salary offset (5 U.S.C. § 5514) or administrative offset (31 U.S.C. § 3716). Except under certain limited circumstances, debtors must receive due process prior to the initiation of debt collection. Written debt notifications must adhere to the requirements at section 5.0. The requirements for disputing a debt are set out in Chapter 4.

4.1.2. The requirements of due process do not preclude a debtor from repaying the debt prior to or during due process, and such payment is not considered a waiver of any due process right. A debtor may elect to repay the debt at any time after receiving the initial notification of indebtedness, the reconsideration or review results from the DCO, a determination by a hearing official, or a decision on a request for waiver or remission of the overpayment. Repayment may also be accepted from the debtor while any of these actions are pending. If payment has been received, and the debt is later determined to be invalid, depending on the circumstances, a full or partial refund (including interest and fees) may be necessary.

4.2 Requirements for Routine Pay Adjustments

4.2.1. In accordance with 5 U.S.C. § 5514, DCOs are not required to provide due process procedures prior to collecting overpayments of pay and allowances from Federal employees and Service members through routine intra-agency pay adjustments that have occurred within the four pay periods preceding the adjustment, or for any adjustments that amount to \$50 or less. The debtor must be provided with a written notice of the nature and the amount of the adjustment, as well as a point of contact for questions regarding the adjustment, by the payday for the pay period in which the adjustment is processed, or as soon thereafter as practical. Notice of the routine adjustment is typically provided on the debtor's leave and earnings statement.

4.2.2. Routine pay adjustments may be used to correct clerical errors, administrative errors, or delays in processing pay documents. Routine pay adjustments include, but are not limited to, correcting overpayments due to corrected or late time and attendance data or late or incorrect personnel actions. The actual overpayment must have occurred after April 26, 1996. Adjustments for health benefits and life insurance premiums made within four pay periods are covered by [5 CFR 550.1104\(c\)](#).

4.2.3. The amount deducted for the routine adjustment may not exceed 15 percent of disposable pay, unless the debtor has consented in writing to a higher amount. When the debtor is a Service member, the servicing military pay office will generate a "no pay due" management notice when a debt creates a "no pay due" situation.

4.2.4. If a DoD debtor's payroll account is moved from one payroll office to another payroll office within the DoD, then the new payroll office has the authority to collect an overpayment made by the former payroll office using routine adjustment procedures.

4.3 Authority to Initiate Collection Before Due Process is Granted

Under [31 CFR 901.3\(b\)\(4\)\(iii\)\(C\)](#), in certain limited circumstances, a DCO may use accelerated procedures to collect a debt by salary or administrative offset prior to, or while providing, notice and an opportunity for review to the debtor. The DCO may initiate collection before due process is given if failure to take the offset would substantially prejudice the DoD's ability to collect a debt, or if there is insufficient time before payment to the debtor to allow for prior notice and an opportunity for review. When prior notice and an opportunity for review is not provided prior to collection, then such notice and opportunity for review must be given to the debtor as soon as practicable. Any amount recovered by offset, which is found not to be owed by the debtor, must be promptly refunded.

5.0 DEBT NOTIFICATION LETTER

5.1 General Requirements for Debt Notification Letter

The FCCS requires the issuance of one debt notification letter to the debtor. Debt notification letters must include the due process notification requirements listed in the Fiscal Service's, "[*Managing Federal Receivables*](#)," Appendix 8. The requirements for the notice of indebtedness can be found in 5 U.S.C. § 5514, 5 CFR 550.1104(b) and (d), [*31 CFR 901.2*](#), and [*31 CFR 285.7\(d\)\(4\)*](#).

5.2 When to Issue a Debt Notification Letter

5.2.1. DCOs must issue the initial debt notification letter to the debtor within 5 working days following final confirmation of the existence and validity of the debt, the basis of indebtedness, and the amount of the debt. Only one due process debt notification is required to be issued to the debtor. DCOs may issue additional demand for payment letters at 30-day intervals after the date of the initial debt notification letter when deemed appropriate by the DCO.

5.2.2. DCOs must exercise care to ensure the debt notification letter is dated the same day the letter is mailed, via the U.S. Postal Service (USPS), to the debtor's last known address or hand-delivered to the debtor. The DCO is required to retain a copy of the debt notification letter as part of the debtor's file. Salary and/or administrative offset may only begin after due process has been provided to the debtor. A DCO is not prohibited from issuing a written demand for payment to the debtor prior to issuing the more formal due process debt notification letter. A demand for payment is typically an abbreviated written request for voluntary repayment of the debt and is not considered sufficient notice of due process. A demand for voluntary repayment may be issued electronically to the debtor, while the formal debt notification must be delivered by the USPS.

5.3 Debt Notification Letters Issued by Disbursing Officers

Disbursing officers are responsible for issuing a debt notification letter under specific circumstances in accordance with Volume 5, Chapters 6 and 8.

5.4 Debt Notification Letters Issued by a Contracting Officer or Other Designated Official

The contracting officer, or other designated official, will issue a debt notification letter in accordance with the guidance in Chapter 5.

5.5 Content of Debt Notification Letters

A sample debt notification letter used by the Defense Finance and Accounting Service (DFAS) Civilian Pay DCO is available at Exhibit 2-1, and a sample debt notification letter used by the Military Pay DCO is available at Exhibit 2-2. DCOs outside of DFAS may modify the sample debt notification letter as they deem necessary; however, all debt notification letters should contain the following information.

5.5.1. Statement of Facts Regarding the Debt. The debt notification must include an explanation of the amount and reason for the indebtedness, the authority for establishing the debt, and the basis on which the determination of indebtedness was made.

5.5.2. Request for Lump-Sum Payment. A request for a lump-sum payment is a request that the debt be repaid in a lump sum by check, money order, or electronic funds transfer.

5.5.3. Payment Due Date. Payment due date is the date by which payment must be made to avoid incurring interest, penalties, administrative (IPA) fees, and enforced collection. The due date must not be more than 30 days from the date of the initial debt notification letter, unless otherwise mandated by statute, contract provision, or another notice of indebtedness. A due date more than 30 days from the date of the debt notification letter may also be allowed based on unusual circumstances as determined by the agency (for example, medical-related debts where insurance is billed first).

5.5.4. Right to Request a Review or Hearing. The debt notification must include a statement indicating that if the debtor wishes to dispute the existence or amount of the debt (or contest the repayment schedule for collection by salary offset), then the debtor may do so by submitting a written request for review or hearing petition. See Chapter 4 to determine whether debtor is eligible for a hearing or review. The notification must advise the debtor of the method and period of time for filing the request for review or hearing petition, typically 30 days from the date of the debt notification letter. It must also state that the timely filing of a request for review or hearing petition will stay the beginning of collection proceedings, and that interest and penalty charges will not be collected until and unless a determination is issued in favor of a collection. Detailed review or hearing petition instructions may be provided to the debtor online through the Internet. This process does not apply to contractor debts. For information regarding the contractor debt dispute process, refer to Chapter 5.

5.5.5. Right to a Written Decision. The debt notification must advise the debtor that if a review or hearing is granted, the debtor has the right to receive a written decision from the reviewer or hearing official within 60 days after the filing of the request for review or hearing petition. In the case of a hearing, the hearing official may grant a request for a delay in the proceedings.

5.5.6. Right to Inspect Records. The debt notification must advise the debtor that he or she has the right to inspect and copy the DoD records relating to the debt.

5.5.7. Voluntary Repayment Agreement Information. The debt notification must advise the debtor of the opportunity to establish a schedule for the voluntary repayment of the debt by entering into an installment payment plan if the debtor claims, and can support, an inability to repay the debt in a single lump sum.

5.5.8. Right to Request a Waiver or Remission. If applicable for individual debtors, include a statement regarding the right to request a waiver or remission of the indebtedness in accordance with applicable statutory authority for waiving or remitting a debt. Detailed waiver application instructions may be provided to the debtor online.

5.5.9. Collection Action on Delinquent Debts. Include a statement indicating that if the DCO is unable to collect a debt, other collection methods may be used, such as referring the debt to a private collection agency (PCA), reporting the debt to a credit bureau, garnishing non-Federal employment wages, or referring the debt to DOJ for litigation. Inform the debtor that any debts delinquent for more than 120 days are required to be transferred to Treasury for collection, and in some cases, the debt may be transferred sooner. Components that follow the procedures contained in the Enterprise Delinquent Debt Management Guidance (DDMG) should refer delinquent debts older than 90 days to the Fiscal Services Debt Management Services (DMS) for further collection action where appropriate.

5.5.10. Collection From Final Pay of Employee. Include a statement indicating that any portion of a debt remaining at the time of separation may be collected from the debtor's final pay and allowances.

5.5.11. IPA. The debt notification must contain a statement explaining the requirements under [31 CFR 901.9](#) to assess IPA, including:

5.5.11.1. An explanation that if the debt is not paid by the due date, then interest will be charged from the date of delinquency, or from the date specified in the repayment agreement, if applicable (refer to the Definitions chapter for a definition of date of delinquency). Include a statement indicating that the interest rate will be calculated pursuant to 31 CFR 901.9;

5.5.11.2. An explanation that if the debt is not paid in full by the due date stated in the debt notification letter, then the DCO will assess administrative costs for the processing and handling of the delinquent debt; and

5.5.11.3. An explanation that if the debt is delinquent for more than 90 days, then the DCO will assess a penalty, not to exceed 6 percent per annum, on the unpaid portion of the debt accruing from the date of delinquency.

5.5.12. Point of Contact. Include a statement identifying the name, mailing address, email address, fax number, and telephone number of a point of contact the debtor may contact regarding the debt.

5.5.13. Payment Address. Provide the address where payment should be mailed or delivered (including instructions for Pay.Gov or EFT, where applicable), and include notice that the check, money order, or wire transfer must be made payable to Treasury.

5.5.14. Penalty for False or Frivolous Statements. The debt notification letter must indicate the consequences of knowingly providing false or frivolous statements, representations, or evidence, which include:

5.5.14.1 Disciplinary procedures for Federal employees under [5 U.S.C. Chapter 75](#), [5 CFR 752](#), or any other applicable statutes or regulations;

5.5.14.2. Penalties under the False Claims Act ([31 U.S.C. §§ 3729-3733](#)) or any other applicable statutory authority; or

5.5.14.3. Criminal penalties under [18 U.S.C. §§ 286-287](#), and [18 U.S.C. §§ 1001-1002](#), or any other applicable statutory authority.

5.5.15. Bankruptcy. Include a statement indicating the debtor is responsible for notifying the DCO if the debtor files or has filed for bankruptcy.

5.5.16. Right to a Refund. Include a statement that amounts paid or deducted for the debt, which are later waived or found not to be owed to the Government, will be refunded promptly to the debtor, unless prohibited by law.

5.5.17. Tax Filing. Provide notice that for joint income tax filers, the spouse should file Internal Revenue Service ([IRS Form 8379](#)), Injured Spouse Allocation, with the IRS to claim his or her share of the tax refund.

5.5.18. Salary Offset Procedures. Where applicable, state the DCO's intention to collect the debt of a Federal employee by means of payroll deductions (salary offset) if payment is not received within 30 days. Identify the amount, frequency, proposed beginning date, and the duration of deductions by salary offset.

5.6 Duplication of Debt Notification

When a debtor has previously been provided with due process with respect to a debt, there is no need to duplicate due process requirements before initiating administrative offset with regard to the same debt, except as provided in subparagraph 2.2.2. DCOs will implement salary or administrative offset procedures as funds or monies become due and payable to a debtor.

6.0 RESPONDING TO DEBTOR INQUIRIES

The DCO should respond promptly to any questions raised by the debtor, normally not later than 30 days from the date of receipt of the debtor's correspondence. The DCO must provide copies of relevant documents requested by the debtor.

7.0 VOLUNTARY REPAYMENT OF INDEBTEDNESS

7.1 Lump-Sum Repayment

Lump-sum repayment in full is the preferred method of collection. DCOs must encourage debtors to repay their debts through lump-sum payments by EFT (for military personnel and contractors), personal check, money order, or Pay.Gov. Lump-sum collections by offset from current pay or salary cannot exceed the percentages specified in subparagraph 9.2.3 or any other applicable regulation, unless voluntarily agreed to by the debtor.

7.2 Voluntary Repayment by Installment

7.2.1. General. If the Component determines that the debtor is financially unable to pay a debt in a lump sum, then the DoD may accept voluntary repayment from the debtor in regular installments, rather than proceeding with collection by an involuntary salary or administrative offset. Installment agreements must be in writing as specified in paragraph 8.2. DCOs must include a copy of a voluntary repayment agreement in the debt notification issued to the debtor. Refer to Exhibit 2-1 and Exhibit 2-2 for a sample voluntary repayment agreement.

7.2.2. Amount of Installment Payment for Individual Debt. The size and frequency of installment payments should bear a reasonable relation to the size of the debt and the debtor's ability to pay. Installment payments should be at least \$50 per month unless a debtor can prove financial hardship. The installment payments should be sufficient in size and frequency to liquidate the debt in 3 years or less; however, a greater amount of time may be appropriate based on the size of the debt and the debtor's ability to repay. An installment payment plan is typically only appropriate if the total debt amount is at least 5 percent of the individual's annual disposable pay. Unless voluntarily agreed to by the debtor, the amount of the installment payments from an individual's current pay or salary must not exceed the offset percentages established in subparagraph 9.2.3.

7.2.3. Review of Proposed Installment Agreements. DCOs must forward requests for installment payment plans from contractors/vendors to the Debt Management Office (DMO) for review and approval. DCOs will review proposed installment agreements submitted by Service members and DoD civilian employees. The Debt and Claims Management Office (DCMO) will review proposed installment agreements submitted by individuals who are no longer employed by the DoD. The DCO/DMO/DCMO must review the proposed installment agreement submitted by the debtor using the criteria set out in paragraph 8.1 and must notify the debtor as to whether the proposed agreement is acceptable.

7.2.4. Installment by Payroll (Salary Offset) or Cash Repayment. Individuals may make installment payments through payroll deductions or by submitting cash repayments on a monthly basis or each pay period. Cash repayment includes payments by EFT, personal check, money order, or another negotiable instrument. Any amount remaining unpaid at the time of separation or retirement will be collected from final lump-sum payments of any nature, such as final salary, lump-sum leave, and/or bonuses.

7.2.5. Applying Receivables. When a receivable is collected by installment payment, apply amounts received first to contingency fees, second to outstanding penalties, third to administrative costs, fourth to interest, and last to principal. Contingency fees are defined as administrative costs resulting from fees paid by one Federal agency to other Federal agencies or private collection contractors for collection services rendered when the fees are paid from the amounts collected from the debtor.

8.0 CONSIDERING AND PROCESSING INSTALLMENT AGREEMENTS

8.1 Proposed Installment Agreement Review Criteria

8.1.1. An installment repayment schedule should adequately protect the interests of both the DoD and the debtor. The DCO must ensure the debt is recoverable within the shortest practical period of time, taking into consideration the financial impact on the debtor.

8.1.2. A debtor may negotiate the terms of an installment repayment schedule if the schedule proposed by the agency would subject the employee to an extreme financial hardship. An extreme financial hardship means the proposed repayment schedule would prevent the debtor from meeting the costs necessary for essential subsistence expenses of the debtor, the debtor's spouse, and dependents. Essential subsistence expenses include costs incurred for food, housing, necessary public utilities, clothing, transportation, and medical care. Upon the agency's request, the debtor must submit financial statements in support of a proposed installment payment plan. The agency may enter into installment agreements only when there is sufficient evidence the debtor will be able to abide by the terms of the agreement, including the repayment schedule. The DCO should base its decision to accept or deny a proposed installment agreement on a review of the following factors:

8.1.2.1. Age and health of the debtor;

8.1.2.2. Present and potential income;

8.1.2.3. Inheritance prospects;

8.1.2.4. Possibility of hidden assets or fraudulent transfers;

8.1.2.5. Assets/income available through enforced collection;

8.1.2.6. Reasonable and necessary living expenses for the debtor and the debtor's dependents;

8.1.2.7. Income from all sources and expenses for the individual, spouse, and dependents;

8.1.2.8. The extent that assets of the individual, spouse, and their dependents are available to meet the offset and essential subsistence expenses;

8.1.2.9. Whether subsistence expenses have been reduced to minimum essential amounts;

8.1.2.10. The extent to which an individual or spouse can borrow money to meet the offset and minimum subsistence expenses; and

8.1.2.11. The extent to which the individual, spouse, and dependents have other exceptional expenses that should be taken into account and whether these types of expenses have been minimized.

8.2 Installment Payment Agreement Terms and Processing

The DCO must obtain signed, legally enforceable, written installment agreements (such as a Voluntary Repayment Agreement or Promissory Note) from the debtor. Such agreements must specify the terms agreed upon by the parties, including terms governing the assessment of IPA charges. The agreement must contain a provision for accelerating the debt, which requires that the remaining debt balance be due and payable immediately upon the debtor's default on the agreement. The agreement must state that the DCO will require the debtor to submit financial statements annually, as necessary, whenever the repayment period exceeds 3 years.

8.2.1. Receipt of an Acceptable Agreement. After receiving a signed agreement, the DCO will begin collecting the debt pursuant to the agreement. If requested by the debtor, and agreed to by the agency, the remittance may be deferred for up to two pay periods with the agreement adjusted to reflect that deferral.

8.2.2. Receipt of an Unacceptable Agreement

8.2.2.1. Individual Debtors. If the DCO determines a proposed repayment agreement submitted by an individual debtor is unacceptable, then the DCO must notify the individual debtor in writing. The debtor will then have 30 days from the date of the written notice to request a special review by the DCO or file a petition for a hearing (or review for military members) to contest the repayment schedule under Chapter 4, sections 3.0 or 6.0.

8.2.2.2. Contractor/Vendor Debtors. The DMO must obtain consent from the creditor DoD Component's senior financial manager or designee before denying a contractor's request for an installment agreement. Refer to Chapter 5 for additional contract debt guidance.

8.3 Installment Payment Delinquency

If a debtor does not make an installment payment by the due date, the entire balance of the debt becomes delinquent from the due date of the missed payment. A debt being repaid under an installment plan is not delinquent if payments under the installment agreement are current. Interest will be assessed on a debt being paid by installment until the debt is paid in full. Penalties may be assessed on any portion of the debt that is outstanding for more than 90 days.

8.4 Review of Installment Agreements

As required, DCOs must review the debtor's annual financial statements and determine whether to collect the balance due in a lump sum or continue the installment agreement at the same or increased amounts. A debtor's request to decrease installment payments based on materially changed circumstances may be considered at any time. The request must include financial data

confirming the debtor's inability to pay the full amount of the agreed upon installment plan. DCOs should not reduce installment payment amounts if there is a determination that the debtor could have controlled the financial condition that impacted the debtor's ability to meet existing installment payment requirements.

9.0 INVOLUNTARY COLLECTION OF DEBT BY SALARY AND ADMINISTRATIVE OFFSET

9.1 General

When a debtor does not pay a debt voluntarily, agencies have the right to offset monies otherwise owed to a debtor in order to extinguish a debt. Where specific statutory authority exists for the collection of a particular debt by offset, the provisions of the statute and its implementing regulations must be used in determining the applicable collection procedures (for example, specific statutory authority exists under [5 U.S.C. § 5705](#), [5 U.S.C. § 5512](#), [10 U.S.C. § 2775](#), and 37 U.S.C. § 1007). However, when a more specific statute does not exist, DCOs must use the general collection authority under 5 U.S.C. § 5514 for salary offset from the current pay of individuals employed by the DoD, or 31 U.S.C. § 3716 (covered in paragraph 9.3) for administrative offset of other payments from the Government that are due a debtor. Refer to Chapter 3 for more specific instructions on involuntary collection of debt for Service members and civilians.

9.2 Salary Offset Under 5 U.S.C. § 5514

DCOs may initiate salary offset to collect indebtedness by installment deductions under 5 U.S.C. § 5514 for debtors who are receiving pay from the DoD. This statute authorizes the involuntary collection of indebtedness of Service members, DoD civilian employees, and Nonappropriated Fund Instrumentality (NAFI) employees from their current pay or salary accounts. Use 5 U.S.C. § 5514 as the authority for salary offset when offset is not authorized or required by other more specific statutes. If the debtor is not currently employed by the DoD and owes a debt to the DoD, the DCO must forward the debt to the DCMO for collection using administrative offset under paragraph 9.3. If the debtor is a separated Service member, and the debt is not subject to salary offset, the DCO must forward the debt to the DCMO for collection using administrative offset under paragraph 9.3.

9.2.1. Due Process

9.2.1.1. When a debtor has either failed to pay the debt in one lump sum, has not agreed to a voluntary one-time payroll deduction, or has not entered into an installment agreement, the DCO must recover the debt by an involuntary salary offset. Before initiating involuntary salary offset, the DCO must ensure the debtor has been given due process pursuant to section 4.0, and the debtor has not exercised the rights listed in the debt notification letter or, having exercised one or more of those rights, was determined to be indebted.

9.2.1.2. The DCO must ensure involuntary salary offset is initiated in the pay period designated in the debt notification letter, unless the period for salary offset was delayed by the debtor's request for a hearing (or request for a review by a military member). When practical,

the DCO will notify the debtor of an offset on the Leave and Earnings Statement. The DCO may initiate collection of a debt from final pay and lump-sum leave payments before granting due process if failure to do so would substantially prejudice the DCO's ability to collect a debt. In such cases, the DCO must afford the debtor due process as soon as practicable. There is no statute of limitations for collecting a debt by salary or administrative offset for civilians, provided notice and due process requirements are met. Refer to subparagraph 2.2.2.2 for information on the statute of limitations for initiating collection of debts owed by members of the uniformed service.

9.2.2. Excluded Debts. The following debts are not authorized for collection by salary offset:

9.2.2.1. Collection of debts to private creditors, except as authorized by [P.L. 103-94](#), Hatch Act Reform Amendments of 1993;

9.2.2.2. Contributions to charities;

9.2.2.3. Payment of commercial life insurance premiums, international agreements, or arrangements with foreign governments;

9.2.2.4. Payment of dues to civic, fraternal, or other organizations; or

9.2.2.5. Collection of state and local/city tax indebtedness.

9.2.3. Disposable Pay. Disposable pay is the current pay that remains after any legally required deductions from earnings are withheld. Refer to [5 CFR 550.1103](#) for a definition of disposable pay. All involuntary salary offset under 5 U.S.C. § 5514 is limited to a maximum of 15 percent of the debtor's disposable pay unless the debtor gives written consent to deductions at a greater percentage. Involuntary salary offset will normally be established at this maximum rate. If salary offset mistakenly exceeds 15 percent of disposable pay when the debtor has not consented to deductions at a greater percentage, the DCO will refund the difference upon the debtor's request. DCOs will compute the amount of disposable pay available for salary offset by making the following deductions:

9.2.3.1. Amounts withheld for Federal, state, or local income tax purposes, if the withholding of the amounts is authorized or required by law, and if the amounts withheld are not greater than would be the case if the individual claimed all dependents as defined in the Federal, state, and local tax codes. For computing disposable pay, no additional Federal tax amounts will be deducted unless the individual presents evidence of a tax obligation supporting the additional deduction;

9.2.3.2. Amounts withheld for Social Security and Medicare taxes;

9.2.3.3. Amounts deducted as health insurance premiums;

9.2.3.4. Amounts deducted as normal retirement contributions (Civil Service Retirement System, Federal Employee Retirement System (FERS), FERS-Revised Annuity Employees, FERS-Further Revised Annuity Employees, and Nonappropriated Fund Retirement), including Thrift Savings Plan (TSP), Roth TSP, and Armed Forces Retirement Home contributions. Amounts voluntarily contributed toward additional retirement benefits are not normal retirement contributions;

9.2.3.5. Amounts deducted as normal life insurance premiums from salary, including amounts deducted for basic Federal Employee Government Life Insurance (FEGLI). However, all optional FEGLI premiums are not considered normal life insurance premiums. Also included is Servicemembers' Group Life Insurance (SGLI), including Family SGLI and Traumatic SGLI;

9.2.3.6. IRS Federal tax levies; and

9.2.3.7. Fines or forfeitures for court martial.

9.2.4. Amounts Not Deductible When Computing Disposable Pay. Do not deduct the following amounts when computing disposable pay for the purpose of salary offset:

9.2.4.1. Deductions for any existing debts being collected for a DoD Component or other Federal agency, including late payment charges;

9.2.4.2. Amounts to satisfy court-ordered garnishments;

9.2.4.3. Amounts to satisfy a court judgment;

9.2.4.4. Court-ordered bankruptcy payments under Chapter 13 of the Revised Bankruptcy Act;

9.2.4.5. Voluntary allotments for child support;

9.2.4.6. Union dues deductions;

9.2.4.7. Charity deductions;

9.2.4.8. Savings allotments;

9.2.4.9. TSP loans;

9.2.4.10. Military Service Deposits; or

9.2.4.11. Other amounts not required by law to be withheld from pay.

9.2.5. Debtor Disagrees With Amount to be Withheld. If the debtor contends that the rate of salary offset proposed, or already established by the DCO, would produce an extreme financial hardship, then in accordance with 5 U.S.C. § 5514, the debtor may:

9.2.5.1. Petition for a hearing with a hearing official to contest the amount of the salary offset (civilian debtors) within the timeframe noted on the debt notification. Military members whose debts are collected under 37 U.S.C. § 1007 may request a review of the repayment schedule by the DCO within the noted timeframe. Refer to Chapter 4 for guidance on hearing or review requests; or

9.2.5.2. Request a special review by the DCO. An individual debtor may request a special review by the DCO of a proposed or established salary offset amount. The request for special review of the established rate of salary offset should be based on the debtor's materially changed circumstances, such as catastrophic illness, divorce, death, or disability.

9.2.5.2.1. Debtor Request. The debtor must submit a written request for special review. The debtor must provide an alternative offset schedule with supporting documents showing why the current or proposed salary offset amount would produce an extreme financial hardship. The supporting documents should include the following information for the debtor, his or her spouse, and dependents: income from all sources, assets, liabilities, number of dependents, expenses for food, housing, clothing and transportation, medical expenses, and other exceptional expenses (if any).

9.2.5.2.2. DCO Response to Debtor. The DCO must evaluate the information submitted by the debtor and issue a written determination concerning the debtor's request for a revised salary offset amount. The DCO should inform the debtor of the acceptance or denial of a revised salary offset amount within 15 days from the date of receipt of the debtor's request for special review. If the DCO approves the debtor's request to reduce the salary offset amount, the reduction will begin immediately upon the issuance of the written determination.

9.2.6. Multiple Debts and Priority of Deductions. When a debtor owes more than one debt, deductions for the current debt and any previously established debts will continue until the debts are paid in full. If prioritizing deductions is necessary, then collect debts owed by debtors to more than one DoD Component, or another Federal agency, in the following priority sequence:

9.2.6.1. Debt to the debtor's employing agency or department,

9.2.6.2. Debt to other DoD Components, then

9.2.6.3. Debt to other Federal Agencies.

9.3 Collection by Administrative Offset Under 31 U.S.C. § 3716

9.3.1. General

9.3.1.1. Administrative offset under 31 U.S.C. § 3716 allows the Government to withhold or intercept funds from monies payable by the United States to a person, organization, or entity in order to satisfy a debt owed to the Government. Administrative offsets may occur against tax refund payments, salary payments, military and civilian retirement pay, contractor payments, grant payments, benefit payments, travel reimbursement, and other Federal payments.

9.3.1.2. Two administrative offset methods are used by agencies to offset a debtor's payments from the Government. Centralized offset uses TOP operated by the Treasury in order to intercept Federal payments due a debtor. Refer to section 11.0 for procedures on referring debts to Treasury. An agency may use non-centralized offset in cases where offset through TOP is not available or appropriate. Non-centralized offset is an ad hoc method of offset performed on a case-by-case basis that the agency executes internally or in cooperation with another agency certifying payments to the debtor.

9.3.2. Exclusions. Administrative offset under 31 U.S.C. § 3716 does not apply to:

9.3.2.1. Offset against Federal salaries if the FCCS are inconsistent with regulations implementing salary offsets under 37 U.S.C. § 1007 or 5 U.S.C. § 5514;

9.3.2.2. Offset under [31 U.S.C. § 3728](#) against a judgment obtained by a debtor against the United States;

9.3.2.3. Offset or recoupment under common law, state law, or Federal statutes specifically prohibiting offset or recoupment of particular types of debts; or

9.3.2.4. Offset in the course of judicial proceedings, including bankruptcy.

9.3.3. Collection Under Common Law. Debts not subject to administrative offset under 31 U.S.C. § 3716 may still be collected by offset under the common law or another applicable statute.

9.3.4. Collecting Debts Owed by Individuals

9.3.4.1. If a DCO cannot collect a debt because no recovery is available from salary offset under 5 U.S.C. § 5514 (or another statute authorizing offset from pay), and the debtor has failed to pay the debt in lump sum or by an installment repayment agreement, then the DCO should refer the debt to the DCMO for administrative offset under 31 U.S.C. § 3716. The DCMO offers debt management and collection assistance to DoD Components for delinquent debts owed to the DoD. Refer to Chapter 3, section 5.0 for guidance on referring debts to the DCMO.

9.3.4.2. Upon receiving a debt, the DCMO will pursue all collection action on the debt available under 31 U.S.C. § 3716. The DCMO will service the debt by using various

collection procedures including issuing demand for payment letters, referring the debt to credit reporting agencies, or referring the debt to the Treasury Cross-Servicing Program. When appropriate, the DCMO will refer uncollectible debts to TOP for centralized offset of any Federal payments due the debtor. Refer to section 11.0 on the referral of debts to TOP and/or the Treasury Cross-Servicing Program. Refer to Chapter 3, paragraph 2.8 for additional guidance on the collection of indebtedness from final salary and lump-sum payments under 31 U.S.C. § 3716.

9.3.4.2.1. Due Process Requirements Prior to Administrative Offset Under 31 U.S.C. § 3716. Before the DCO initiates administrative offset under 31 U.S.C. § 3716, a debtor must receive due process (notice of the debt and an opportunity for review). The DCO must complete all due process requirements under sections 4.0 and 5.0 prior to sending the debt to DCMO for collection by administrative offset. If the debtor has requested a hearing or review, the DCO must follow the guidance contained in Chapter 4, paragraphs 3.3 and 6.4 prior to transferring the debt to DCMO for collection.

9.3.4.2.2. Guidance for Requesting Administrative Offset Within the DoD

9.3.4.2.2.1. Requests by a DCO from one DoD Component for administrative offset against a Service member or civilian employee of another DoD Component are initiated by sending a DoD (DD) [Form 139](#), Pay Adjustment Authorization; [DD 2481](#), Request for Recovery of Debt Due the United States by Salary Offset; other prescribed authorized form; or an automated transaction to the debtor's payroll processing activity.

9.3.4.2.2.2. The request must include a certification from the DCO that the debtor owes the debt and that the requesting DCO has fully complied with regulatory requirements (including all due process requirements) concerning administrative offset.

9.3.4.2.2.3. The request must include a mailing address, email address, and phone number for the point of contact at the DCO who will respond to questions or disputes from the debtor.

9.3.4.2.2.4. When a debtor consents to administrative offset in writing or signs a statement acknowledging receipt of due process procedures, the requesting DCO must include the debtor's consent with the request for offset, along with the certification and all supporting documentation. Administrative offset cannot be accomplished until the DCO has provided all of the supporting documentation for the debt. For those debts transferred to DCMO, the DCMO must advise the debtor of the offset request received from the DCO and issue a demand for payment.

9.3.5. Collecting Debts Owed by Vendors/Contractors. DCOs will recover debts internally within the DoD, to the extent practical, by voluntary repayment of the debt by the vendor/contractor, or administrative offset(s) of other payments owed to the vendor/contractor. Refer to Chapter 5, section 3.0 for additional guidance on administrative offset for vendors/contractors.

9.4 Additional Statutory Authority for Offset

9.4.1. Salary and Administrative Offset for Travel Advances Under 5 U.S.C. § 5705

9.4.1.1. While 5 U.S.C. § 5514 and 31 U.S.C. § 3716 provide generalized authority to collect a debt by salary or administrative offset, 5 U.S.C. § 5705 specifically authorizes salary and administrative offset for travel advances authorized under [5 U.S.C. § 5701](#) et seq. Under 5 U.S.C. § 5705, a Federal employee who is entitled to per diem or mileage allowances may receive a travel advance. Any amount of a travel advance that is not used for allowable expenses is required to be collected back from the employee. DCOs should inform debtors of the requirement for immediate repayment of unearned advances of per diem and mileage allowances at the time advances are made.

9.4.1.2. When making collections of unused advanced per diem or mileage allowances, DCOs must give DoD debtors the opportunity to pay the amount due in a lump sum. If the debtor does not make a lump-sum payment, then salary or administrative offset must be made immediately against accrued pay, retired pay, travel reimbursement, or any other amount due the debtor from the United States. Hearings are not required prior to salary offset under 5 U.S.C. § 5705; however, DCOs must provide the debtor with a notice of the debt and must reconsider/review debts informally upon the debtor's request. If there is no amount available for salary offset, and the debt must be collected by administrative offset, then the DCO must follow the requirements for debt collection by administrative offset under 31 U.S.C. § 3716.

9.4.2. Offset From a Service Member's Pay for Damage to Military Housing Under 10 U.S.C. § 2775. Under 10 U.S.C. § 2775, express authority is provided for the collection of a debt from a Service member's pay for the cost of repair, replacement, or cleaning of military housing necessitated by abuse or neglect by Service members. Debtors are not entitled to a hearing for debts being collected by administrative offset under this statute. However, DCOs must provide the debtor with a notice of the debt and must reconsider/review these debts upon the debtor's request. If there is no amount available for salary offset, and the debt must be collected by administrative offset, then the DCO must follow the requirements for debt collection by administrative offset under 31 U.S.C. § 3716.

9.4.3. Offset from a Member's Pay for Administratively Determined Debts Under 37 U.S.C. § 1007. Under 37 U.S.C. § 1007, express authority is provided for offset from a Service member's pay for the collection of debts that are administratively determined to be owed to a DoD Component by the Service member.

9.4.4. Administrative Offset to Recover Public Funds Under 5 U.S.C. § 5512. Under 5 U.S.C. § 5512, administrative offset is authorized to offset the pay of an accountable official in arrears to the DoD for all sums for which he or she is liable. This authority only pertains to the collection of a debt when the debt is the result of an individual being held liable for a loss of funds. DCOs will withhold the pay of individuals in arrears to the DoD until the debtor has paid all sums for which the debtor is liable. Refer to Volume 5, Chapter 6 for additional guidance on loss of funds.

9.5 Cooperation With Other Government Agencies

9.5.1. General. The FCCS requires that the DoD cooperate with other government agencies to collect debts referred for administrative offset except under either of the following conditions:

9.5.1.1. When the DCO determines that the offset would not be in the best interest of the United States with respect to the program against which the offset is requested, as determined by the head of the agency holding funds or monies for offset; or

9.5.1.2. When the DCO determines that the offset would be contrary to another applicable law.

9.5.2. Requests for Administrative Offset Received From Non-DoD Federal Agencies

9.5.2.1. If a non-DoD Federal agency determines a debtor works for a DoD agency, then the non-DoD agency may submit a request directly to the DoD for administrative offset from the debtor's pay. The non-DoD Federal agency is responsible for determining the validity and amount of the debt. The DoD is not authorized to determine the merits of the debt for which administrative offset is requested. Refer to Volume 8, Chapter 8 for additional guidance regarding these debts.

9.5.2.2. Requests from non-DoD Federal agencies for administrative offset of DoD salaries or contractor invoices are typically sent through the Treasury Cross-Servicing Program. Requests may also be submitted through the Federal Payment Levy Program.

9.5.2.3. All requests from non-DoD Federal agencies for administrative offset of individual salaries that are received by DoD Components must be forwarded to DFAS-Cleveland (DFAS-CL), 1240 East 9th Street, Cleveland, OH 44199 or via email to ccl salary offset@mail.mil. Requests from non-DoD Federal agencies for administrative offset of contractor invoices that are received by DoD Components must be forwarded to Treasury.

9.5.3. Requesting Administrative Offset From Civil Service Retirement Disability Fund (CSRDF) or FERS Funds. Chapter 3 outlines procedures for requesting administrative offset from CSRDF or FERS for debts owed by retired DoD civilian employees. To prevent duplicate administrative offset requests, DCOs must not refer the same requests for administrative offset to both the Office of Personnel Management (OPM) and to TOP. These debts are subject to all other collection procedures.

10.0 REPORTING DEBT TO CREDIT BUREAUS

10.1 Authority to Report Debts

Federal agencies must report all delinquent debts to credit bureaus (also referred to as "credit reporting agencies") as part of the agency's debt collection effort pursuant to [31 U.S.C § 3711\(e\)](#). The DCMO (or other DCO as appropriate) must implement procedures for

reporting delinquent debts to credit bureaus and other automated databases in accordance with the “[Guide to Federal Credit Bureau Reporting](#),” issued by Treasury in 2001. If the DCMO is required to report a non-delinquent debt to a credit bureau, reporting procedures must comply with the “Bankruptcy Code” and the Privacy Act of 1974 ([5 U.S.C. § 552\(a\)](#)), as amended. Provisions of the Privacy Act do not apply to credit bureaus. Effective March 1, 2007, in accordance with [10 U.S.C. § 2780\(b\)](#), debts incurred by Service members will not be reported to credit bureaus during the time a decision regarding waiver or remission/cancellation of the debt is pending, unless the Secretary concerned determines that disclosure pending such a decision is in the best interest of the United States.

10.2 Notification to Debtor of Intent to Report to a Credit Bureau

The DCMO or DMO must ensure the debtor has been given notice before reporting a delinquent debt to credit bureaus. Duplication of previously provided due process notifications is not required prior to reporting the debt to the credit bureau as long as the following information has been provided to the debtor:

10.2.1. A statement that the agency intends to report the debt to a credit bureau;

10.2.2. A statement that the information to be reported will include the debtor’s name, address, taxpayer identification number (TIN), and information about the debt;

10.2.3. Actions that may be taken by the debtor to prevent credit reporting (i.e., repayment of the debt in full or repayment by installment agreement); and

10.2.4. A complete explanation of the debt, along with information about the debtor’s right to dispute the debt, to review records about the debt and to seek a review or hearing, if applicable, of the agency’s determination that the debt is due.

10.3 Requirements for Reporting Debts to Credit Bureaus

Prior to reporting a delinquent debt to a credit bureau, the DCMO must:

10.3.1. Comply with the provisions of the Privacy Act of 1974;

10.3.2. Ensure the DCO has made a determination that the debt is valid and overdue;

10.3.3. Ensure the DCO has complied with the requirements in section 4.0 and has issued a debt notification letter to the debtor that complies with the requirements of section 5.0;

10.3.4. Determine that the debtor has not:

10.3.4.1. Repaid or agreed to repay the debt under a written repayment plan the debtor has signed, and the DoD Component or DCO has agreed to; or

10.3.4.2. Filed a hearing petition for review of the debt under Chapter 4;

10.3.5. Ensure there are procedures to:

10.3.5.1. Disclose promptly, to each credit bureau to which the original disclosure was made, a substantial change in the condition or amount of the debt;

10.3.5.2. Verify or promptly correct, information about the debt on request of a credit bureau; and

10.3.5.3. Obtain satisfactory assurances from each credit bureau that the credit bureau is complying with all laws of the United States related to providing consumer credit information; and

10.3.6. Ensure information disclosed to credit bureaus is limited to:

10.3.6.1. Information necessary to establish the identity of the debtor, including name, address, and TIN;

10.3.6.2. The amount, status, and history of the debt; and

10.3.6.3. The DoD Component or program under which the debt arose.

10.4 Maintenance of Debt Records

DCOs must retain records for debts reported to credit bureaus in accordance with guidelines of the [National Archives and Records Administration General Records Schedule](#). Bankruptcy information can be reported for 10 years. The credit bureau will only maintain accurate, negative information on a credit report if it is less than 7 years old.

11.0 REFERRAL TO THE TREASURY

11.1 General

11.1.1. Treasury has broad collection responsibilities for delinquent debts. Unless otherwise authorized by law, pursuant to Treasury Financial Manual (TFM), Volume 1, Part 3, [Chapter 5000](#), Federal agencies are required to refer eligible and legally enforceable debts more than 180 days delinquent to the Treasury Cross-Servicing Program for debt servicing. Agencies are also required to refer any debts more than 120 days delinquent to TOP for recovery by centralized administrative offset. Refer to 31 U.S.C. § 3711(g) and 31 U.S.C. § 3716 for information on referring debts to TOP.

11.1.2. Components that have implemented the processes contained in the DDMG should refer delinquent debt older than 90 days and greater than \$25 to the DMS for further collection action where applicable. At the DoD Component's discretion, debts may be referred sooner to protect the DoD's interests.

11.1.3. If a debt is first referred to the Cross-Servicing Program, Treasury will submit any remaining amount not collected by cross-servicing to TOP on behalf of the agency. Therefore, in order to comply with the 120-day deadline for submitting debts to TOP, creditor agencies must submit debts more than 120 days delinquent to cross-servicing, rather than waiting until the debt is 180 days delinquent. Once a debt is referred to Treasury, the DoD must cease collection activity related to that debt. Agencies referring debts to Treasury must authorize Treasury to utilize all available collection tools.

11.1.4. In most instances, DCOs refer uncollectible debts to the DFAS DCMO for debt servicing first, and the DCMO refers the debts to Treasury for cross-servicing and to TOP. Only those DCOs with specific authority may refer delinquent debts directly to Treasury. Prior to making a referral directly to Treasury, DCOs must consider the DFAS DCMO debt program and procedures in Chapter 3 to determine whether referring the debt to DFAS first would offer more cost-effective service, debt management control, and reporting.

11.1.5. DoD Components that do not refer debts to one of the DCOs authorized to make referrals to Treasury must negotiate an agreement with Treasury for debt referrals.

11.2 Cross-Servicing

11.2.1. General. The Debt Collection Improvement Act and the TFM 3-5000 requires agencies to refer all eligible debts that are delinquent more than 180 days to Treasury for cross-servicing under the Treasury Cross-Servicing Program. If an agency does not separately refer debts to TOP, then it must refer eligible debts that are delinquent more than 120 days to cross-servicing in order to meet the requirement for TOP referral. Components that have implemented the processes contained in the DDMG should refer delinquent debt older than 90 days to the DMS for further collection action where applicable. Treasury uses a variety of collection tools to collect the debt under cross-servicing including: issuing demand for payment letters, phone calls, credit bureau reporting, referral to TOP, referral to PCAs, and/or referral of debts to DOJ for litigation. Additional information on the Cross-Servicing Program can be found at the Fiscal Service, DMS, [Fiscal Service Cross-Servicing](#) web page.

11.2.2. Due Process. The DCO must complete all due process procedures prior to referring a debt to Treasury for cross-servicing. At least 60 days before a debt is referred to Treasury, the DCO must issue the debtor a debt notification that meets the requirements of paragraph 5.5.

11.2.3. Debts Not Eligible or Required to be Referred to Treasury for Cross-Servicing

11.2.3.1. Pursuant to Treasury's "Managing Federal Receivables," a debt is not eligible for referral to Treasury for cross-servicing if the debt:

11.2.3.1.1. Is not past due or legally enforceable;

11.2.3.1.2. Is owed by a debtor who has died;

11.2.3.1.3. Is owed by a debtor who has filed for bankruptcy protection or the debt has been discharged in a bankruptcy proceeding;

11.2.3.1.4. Is owed by a Federal agency;

11.2.3.1.5. Is the subject of an administrative appeal, until the appeal is concluded and the amount of the debt is fixed; or

11.2.3.1.6. Is less than \$25 (including IPA costs);

11.2.3.2. A debt may be referred for cross-servicing, but is not required to be referred, if the debt:

11.2.3.2.1. Is in litigation, meaning the debt has either been referred to DOJ for litigation or is the subject of proceedings pending in a court of competent jurisdiction, including bankruptcy and post-judgment matters;

11.2.3.2.2. Is in foreclosure, which means the debt is secured by collateral that is being foreclosed, either through a court proceeding or non-judicially;

11.2.3.2.3. Will be disposed of under an approved asset sale program within 1 year after becoming eligible for sale, or later than 1 year if consistent with an asset sales program;

11.2.3.2.4. Has been referred to a private collection contractor for a period acceptable to Treasury;

11.2.3.2.5. Is at a Treasury-designated debt collection center for a period acceptable to Treasury;

11.2.3.2.6. Will be collected under internal offset procedures within 3 years after the debt first became delinquent;

11.2.3.2.7. Is exempt from this requirement based on a determination by Treasury that exemption for a certain class of debt is in the best interest of the United States (the DoD may request that Treasury exempt specific classes of debts);

11.2.3.2.8. Is owed by foreign governments or a NAFI;

11.2.3.2.9. Is less than \$100 and belongs to a debtor without a known TIN;
or

11.2.3.2.10. Is otherwise exempt from the statutory referral requirement by law or official action of Treasury.

11.2.4. Accountability for the Debt. While the debt is in the Cross-Servicing Program, Treasury maintains the debt balance information, collects the funds paid by the debtor, and returns the funds to the creditor agency for proper deposit and accounting. The creditor agency must maintain its original debtor records and remains responsible for all financial reporting associated with the debt, to include IPA fees. IPA will continue to accrue on debts referred to Treasury's Cross-Servicing Program. The creditor agency is responsible for the accuracy of the debt information submitted to Treasury and must provide updates and corrections of debtor information on a regular basis.

11.2.5. Cross-Servicing Fees. Treasury charges fees to cover its costs for cross-servicing. The fee is a percentage of all collections received from the debtor after the debt is referred to cross-servicing. Pursuant to the TFM 3-5000, Treasury fees are added to the outstanding debt balance.

11.3 TOP

11.3.1. General

11.3.1.1. TOP provides for the centralized administrative offset of Federal tax and non-tax payments payable to a debtor in order to collect a delinquent debt owed to the Government. Creditor agencies submit information about delinquent debts to Treasury, which maintains the information in a centralized database. Before Treasury disburses a payment, Treasury compares the payee information with the debtor information in the database. If a match occurs, the payment will be offset, in whole or part, to satisfy the debt.

11.3.1.2. Treasury determines how to apply collected funds to multiple debts. Treasury notifies the debtor, the creditor agency, and the paying agency when an offset occurs. Debtors must contact the creditor agency to resolve any issues related to the offset. At least 60 days before the debt is referred to Treasury, the DCO must have issued the debtor a debt notification, meeting the requirements of paragraph 5.5.

11.3.2. Debts Eligible for Referral to TOP. A debt that is delinquent and legally enforceable is eligible for referral to TOP. A debt is considered legally enforceable for TOP purposes if there has been a final agency determination that the debt is due, and there are no legal bars to collection through the offset of Federal payments.

11.3.3. Debts Not Eligible for Referral to TOP. An agency should not refer directly to TOP those debts that have been referred to Fiscal Service or another Treasury-designated debt collection center for cross-servicing, or to DOJ for litigation. Additionally, a debt is not eligible for referral to TOP if the debt:

11.3.3.1. Is owed by a debtor who has filed for bankruptcy protection or the debt has been discharged in a bankruptcy proceeding;

11.3.3.2. Is owed by a Federal agency;

11.3.3.3. Is the subject of an administrative appeal, until the appeal is concluded, and the amount of the debt is fixed;

11.3.3.4. Is less than \$25 (including IPA charges); or

11.3.3.5. Is owed by a foreign entity.

11.3.4. TOP Fees. Treasury is authorized to charge fees to cover the costs of debt collection and administrative offset programs. Pursuant to TFM 3-5000, Treasury fees are added to the outstanding debt balance. The fee is set annually, and Treasury deducts the fees from the amount offset before the residual amount is transmitted to the referring DCO.

11.3.5. Payments Eligible for Offset Under TOP

11.3.5.1. All Federal payments may be offset under TOP except as prohibited by law or exempted by action of the Treasury. This includes payments disbursed by Treasury, the DoD, U.S. Postal Service, and other Government disbursing agencies.

11.3.5.2. The following types of Federal payments are eligible for offset under TOP:

11.3.5.2.1. IRS tax refunds;

11.3.5.2.2. Retirement payments issued by OPM;

11.3.5.2.3. Vendor payments;

11.3.5.2.4. Federal salary payments;

11.3.5.2.5. Travel advances and reimbursements;

11.3.5.2.6. Certain Federal benefit payments, such as Social Security retirement and disability payments;

11.3.5.2.7. Grant payments; and

11.3.5.2.8. Active military and military retirement payments.

11.3.5.3. Federal law prohibits or limits the amount of offset for certain types of payments. For a complete list of payments that are exempt from offset under TOP, refer to [TOP Payment Exemption Chart](#).

12.0 REFERRAL TO PCA

12.1 Authority to Use PCA

The DCMO is the designated DoD entity that may refer debts to PCAs.

12.2 Contracts for PCA Services

In order to minimize collection costs and avoid duplication of efforts, the agency should refer debts to Treasury for cross-servicing in order to obtain the services of a PCA. However, under 31 U.S.C. § 3711 and the FCCS, an agency has the option of referring a debt directly to a PCA, and not through Treasury, pursuant to a contract between the agency and the PCA. To avoid double submission to the PCA when a debt is also transferred to Treasury, Treasury must be made aware of the direct referral to the PCA. Agency contracts with PCAs to locate delinquent debtors and recover delinquent debts must define the services and must conform to the following terms.

12.2.1. The DCO will retain the final authority to resolve disputes, compromise debts, suspend or terminate collection activity, refer debts to credit bureaus, and refer debts to DOJ for litigation. If the debt was referred to the PCA as part of Treasury's Cross-Servicing Program, then Treasury will retain authority to compromise debts.

12.2.2. The PCA will not offer the debtor, as an incentive for repayment, the opportunity to pay the debt minus the PCA's fee, unless the PCA is granted authorization by the DoD in advance.

12.2.3. The PCA is subject to the Privacy Act of 1974 to the extent specified in 5 U.S.C. § 552a, and to any applicable Federal or state law pertaining to debt collection practices, including, but not limited to, the Fair Debt Collection Practices Act ([15 U.S.C. § 1692](#)) and the FCCS (as applicable to the agency).

12.2.4. The PCA is required to account for all amounts collected.

12.2.5. The PCA will comply with other requirements, as appropriate, with regard to locating and contacting debtors, accepting installment payments, processing late payment charges, and returning uncollectible debts to the referring DCO.

12.2.6. Debts referred to PCAs are not subject to the requirement to transfer debts to Treasury.

12.3 Funding PCA Contracts

Contracts with PCAs may be funded in accordance with fixed fee or contingent fee contracts.

12.3.1. Fixed Fee. Payment to the PCA is a set fee determined without regard to the amount collected under the contract, but only to the extent that funds are made available in advance in appropriations.

12.3.2. Contingent Fee. Payment to the PCA is based on a provision in the contract permitting the PCA to deduct a fee, consistent with prevailing commercial practice, based on a percentage of the amount collected under the contract.

13.0 REFERRALS TO THE DOJ FOR LITIGATION

13.1 General

13.1.1. Unless an agency has specific statutory authority to litigate its own debts, an agency must refer debts to DOJ for litigation. Debts based on conduct in violation of antitrust laws or involving fraud, or the presentation of a false claim or misrepresentation on the part of the debtor, or any party having an interest in the claim, must be referred to DOJ for action. Before referring a debt to DOJ for litigation, the DCO should consult with its Office of General Counsel for guidance. Also, prior to referring a debt to DOJ for litigation, a DCO must take aggressive collection action in accordance with this chapter for legally enforceable debts and must ensure the debt cannot be compromised, suspended, or terminated.

13.1.2. If a DCO intends to refer a debt to the DOJ for litigation, debts with a principal amount over \$1,000,000, exclusive of IPA charges, should be referred to the responsible DOJ litigation division in Washington, D.C. Debts with a principal amount of \$1,000,000 or less, exclusive of IPA charges, should be referred to the DOJ's Nationwide Central Intake Facility as required by the Claims Collection Litigation Report (CCLR) instructions and [31 CFR 902.1](#). DCOs must make every effort to refer delinquent debts to DOJ for litigation within the 6-year statute of limitations for initiating lawsuits against debtors, and within 1 year after a final decision has been rendered in an administrative proceeding. Refer to paragraph 2.2 for additional guidance on the time limit for litigation of a debt.

13.1.3. The Defense Security Cooperation Agency (DSCA) will determine whether or not to forward a Foreign Military Sales (FMS) arrearage to DOJ for litigation. For guidance on referring FMS arrearage, refer to Chapter 6.

13.2 Minimum Amount for Referral

Generally, only non-fraud debts with a principal balance equal to or greater than \$2,500 are eligible for referral to DOJ. DCOs may refer debts under \$2,500, exclusive of IPA charges, to DOJ for acceptance under the following circumstances:

13.2.1. To ensure compliance with policies or programs;

13.2.2. To secure a judgment against the debtor that will be filed as a lien against the debtor's property pursuant to [28 U.S.C. § 3201](#), and returned to the referring office for enforcement; or

13.2.3. To obtain payment when a debtor can pay the debt, and the Government effectively can enforce payment with due regard for the exemptions available to the debtor under Federal and state law and the judicial remedies available to the Government.

13.3 Notification to Debtor

Before referring a delinquent debt to DOJ for litigation, DCOs must ensure a debt notification letter as described in paragraph 5.5 was issued to the debtor and the letter indicated that if the debt could not be collected using administrative procedures, litigation could result. DCOs must ensure a copy of the debt notification letter containing this notice is provided to DOJ when referring a debt for litigation.

13.4 Contact With Debtor After Referral

Once a debt has been referred to DOJ for litigation, DCO personnel are required to refrain from contact with the debtor regarding the debt. DCOs must refer debtors with inquiries to the appropriate DOJ office. A DCO must notify DOJ immediately of any payments received on a debt referred to DOJ in accordance with DOJ guidance.

13.5 Documentation of Debt for the DOJ

13.5.1. The DCO, or other applicable office, must submit debts to DOJ for litigation by using a CCLR and must include a signed Certificate of Indebtedness. The DCO must complete all sections of the CCLR appropriate to the indebtedness as required by the CCLR instructions, and furnish other information or documentation to DOJ as required. The CCLR must clearly indicate what actions are being requested of DOJ (i.e., enforced collection or judgment lien).

13.5.2. A blank CCLR and instructions for completion of the report are with the [DOJ Debt Management Collection Staff](#). The DCO must forward the CCLR to Director, Commercial Litigation Branch, P.O. Box 875, Ben Franklin Station, Washington, D.C. 20044.

13.5.3. The CCLR must include a completed checklist or brief summary of actions taken by the DCO to collect or resolve the debt and an explanation for the omission of any administrative collection action required by the FCCS or this chapter. If the debtor's address is unknown, the DCO must include any information required by DOJ, including a list of the debtor's prior known addresses and an explanation of actions taken to locate the debtor. The debt referral must include the debtor's latest credit history data, such as a commercial credit report, balance sheet, or financial statement, and must provide a recommendation that will indicate whether there is reasonable prospect of enforcing debt collection.

13.5.4. The DCO may omit credit data from the CCLR if a debtor is bankrupt, in receivership, or if the debtor's liabilities are fully covered by insurance. If applicable, DCOs must include the identity and address of the insurer and the type and amount of insurance. Credit data also may be omitted if credit history is not available, such as for a state or local Government unit.

13.6 Preservation of Evidence

The DCO must preserve all debt files and records that may be needed by DOJ to prove its case in court. DCOs should include certified copies of the documents that form the basis for the debt in the debt referral package submitted to DOJ and must provide originals of the documents if requested by DOJ.

13.7 Discontinuation of DCO Actions

DOJ has exclusive jurisdiction over the debts referred to DOJ. DCOs will cease collection actions on debts referred to DOJ for litigation.

14.0 DEBT COMPROMISE, SUSPENSION, AND TERMINATION

14.1 General

14.1.1. Under 31 U.S.C. § 3711 and the FCCS, an agency maintains the authority to compromise, suspend, or terminate collection action. The DCO, DCMO, DMO, fund holder, or other entity involved in debt collection and management may prepare a request for compromise, suspension, or termination of collection action and submit it to the appropriate authority for approval. The approving authority may be DFAS, the DoD Component, DOJ, and/or Treasury depending on the amount of the debt. The referring office submitting the request must maintain supporting documentation pertaining to the request. A referring office may take no further action on debts referred for approval.

14.1.2. When a foreign entity owes the debt that is being considered for compromise, suspension, or termination, the following coordination policies apply.

14.1.2.1. The Accounts Receivable Office or the Foreign DMO must coordinate proposals to compromise, suspend, or terminate collection actions on all non-FMS foreign accounts receivable, regardless of the amount, with the applicable DoD Component fund holder.

14.1.2.2. DFAS Security Cooperation Accounting, in cooperation with the DoD Component, must coordinate proposals to compromise, suspend, or terminate collection actions on FMS arrearages with the DSCA.

14.2 Determining Debt Amount for Compromise, Suspension, and Termination

The DCO, fund holder, or other entity involved in collection and management of the debt must determine the amount of the debt in order to submit it to the appropriate approval authority for compromise, suspension, or termination. Debts must not be subdivided in order to avoid approval requirements. The requesting entity must consider a debtor's liability arising from a particular transaction as a single debt when determining the amount for purposes of compromise, suspension, or termination approval. The dollar amount of the debt must be computed on a contract or transaction basis (for FMS debts, the Letter of Offer and Acceptance represents a transaction).

The amount of the debt used as the basis includes only the principal amount of the debt then due and does not include IPA fees.

14.3 Submission to the DOJ Using the CCLR

If compromise, suspension, or termination of collection action is appropriate, and the amount of the indebtedness is within DOJ's approval threshold level (as set forth in paragraphs 14.4-14.6), then DFAS or the DoD Component must refer such debts to DOJ using a CCLR. Include in the referral appropriate financial information and a recommendation for the acceptance of a compromise, suspension, or termination by DOJ. Refer to paragraph 13.5 for guidance on preparation and submission of the CCLR.

14.4 Compromise

14.4.1. General. Compromise is the acceptance of less than the full amount of the debt in satisfaction of the entire amount of the debt. The debtor is released from liability on the full amount of the debt if the compromise amount is paid in full. The debtor (or debtor's representative) should submit offers of compromise to the agency in writing and should include all additional information requested by the approval authority.

14.4.2. Approval Authorities. The approval authority for an offer of debtor compromise is based on the principal amount of the debt less any IPA costs and partial payments or collection.

14.4.2.1. Less Than or Equal to \$100,000 – Debt With DFAS. DFAS has authority to approve compromises for debts arising out of the activities of, or referred to, DFAS when the principal amount does not exceed \$100,000. DFAS will coordinate a compromise approval with the fund holder.

14.4.2.2. Less Than or Equal to \$100,000 – Debt With DoD Component. DoD Components have authority to approve compromises for debts not referred to DFAS when the principal amount does not exceed \$100,000.

14.4.2.3. Over \$100,000 – Debt is Not With Treasury. DOJ has authority to compromise debts when the principal amount exceeds \$100,000, and the debt has not been referred to the Treasury Cross-Servicing Program. DOJ also maintains authority to compromise all debts greater than \$500,000. Only DOJ can consider noncash compromise offers for debts exceeding \$100,000. The DoD does not require DOJ approval to reject a compromise offer.

14.4.2.4. Less Than or Equal to \$500,000 – Debt With Treasury. Treasury has authority to approve compromises for debts, which have been referred for cross-servicing, when the principal amount of the debt is less than or equal to \$500,000. DOJ maintains authority to compromise all debts greater than \$500,000.

14.4.2.5. Debts in Litigation. DFAS and DoD Components cannot approve a compromise on a debt referred to DOJ for litigation unless the debt is returned to the DoD for disposition.

14.4.3. DOJ Review of Compromise Offers Less Than or Equal to \$100,000. If DFAS or the DoD Component is uncertain whether to accept a firm, written substantive compromise offer on a debt within its delegated compromise authority of \$100,000 or less, they may refer the offer to DOJ using a CCLR and copies of supporting data. DOJ may act upon the offer or return it with instructions or advice.

14.4.4. Reasons for Compromise. When assessing the merits of a compromise proposal from a debtor, DCOs must obtain a current financial statement from the debtor, executed under penalty of perjury pursuant to [31 CFR 902.2\(g\)](#), and a credit report or other financial information to aid in evaluating the debtor's assets, liabilities, income, and expenses. Possible grounds for compromise include the following:

14.4.4.1. Compromise Because of Litigation Risks. Compromise may be appropriate if there is significant doubt concerning the Government's ability to prove its case in court. The amount accepted in a compromise agreement should reflect such factors as the complexity of the legal issues, the probability of a bona fide dispute as to the facts, the availability of witnesses and supporting evidence, and the probability of successful prosecution. In determining the litigation risks involved, DFAS or the DoD Component must consult with agency counsel to consider the probable amount of court costs and attorney fees that may be imposed against the Government if litigation is unsuccessful.

14.4.4.2. Compromise Because of Debtor Inability to Pay Full Amount. Compromise of a debt may be appropriate if the debtor is unable to pay the full amount due in a reasonable time, or if the DCO cannot collect the full amount in a reasonable time using enforced collection. The compromise amount should bear a reasonable relation to the amount that can be recovered by enforced collection procedures, while considering any exemptions that may be available to the debtor and the time the collection will take. DFAS or DoD Components must consider, as a minimum, the following factors in determining a debtor's ability to pay the full amount of the debt:

14.4.4.2.1. Current financial statement from the debtor, executed under penalty of perjury pursuant to 31 CFR 902.2;

14.4.4.2.2. Credit reports and other financial information;

14.4.4.2.3. Debtor's age and health;

14.4.4.2.4. Debtor's present and potential income;

14.4.4.2.5. Debtor's inheritance prospects;

14.4.4.2.6. The possibility that assets have been concealed or improperly transferred by the debtor; and

14.4.4.2.7. The availability of assets or income that may be realized by enforced collection proceedings.

14.4.4.3. Compromise Where Collection Costs Exceed Amounts Recoverable or Collection is Not Anticipated. Compromise may be appropriate if the cost of collection does not justify the costs of pursuing enforced collection of the full amount. Collection costs may be a substantial factor in the compromise of smaller debts. An amount accepted in compromise may reflect a discount for the administrative and litigation costs of collection, along with consideration for the time involved to perform collection. In determining whether the cost of collection justifies enforced collection of the full amount, DFAS or the DoD Component must consider whether continued collection of the debt, regardless of cost, is necessary to further an enforcing principle, such as the willingness to aggressively pursue defaulting or uncooperative debtors.

14.4.5. Compromise With Joint and Several Liability. When two or more debtors are jointly and severally liable, collection against all debtors should be pursued, as appropriate. DFAS or the DoD Component may not allocate the payment of a debt between debtors and must proceed to liquidate the debt as quickly as possible. A compromise agreement with one debtor will not release the indebtedness of remaining debtors. A DCO must not consider compromise with one debtor as a precedent or as binding when determining the amount that would be required from other jointly or severally liable debtors.

14.4.6. Compromises Payable in Installments. Installment payment of compromised debts generally should not be accepted due to the administrative expense and time required for the full collection of the debt. If installment payment of a compromise is necessary, DFAS or the DoD Component must obtain a legally enforceable written agreement that stipulates immediate payment of the original debt, minus sums already paid, in the event of default. Whenever possible, the DCO should obtain a security for installment repayment agreements.

14.4.7. Enforcement. Statutory penalties, forfeitures, or debts established as an aid to enforcement and to compel compliance may be compromised as long as it does not harm present or future standards for enforcement, deterrence, or compliance.

14.4.8. Tax Consequences to the U.S. Government. In negotiating a compromise, DFAS or the DoD Component must consider the tax consequences to the Government and any inappropriate tax consequences for the debtor. The agency may consider requiring a waiver of tax loss carry-forward and tax loss carry-back rights of the debtor in the compromise agreement, as stated under [31 CFR 902.6](#). See [31 CFR 903.5](#) for reporting the discharge of an indebtedness to the IRS.

14.4.9. Mutual Releases of the Debtor and the Government. In appropriate circumstances, DFAS or the DoD Component may implement an accepted compromise in the form of a mutual release. In a mutual release, the debtor is released from further non-tax liability on the compromised debt in consideration of payment in full of the compromised amount. The Government and its officials, past and present, are released and discharged from any and all claims the debtor may have against them arising from the same transaction. In the event a mutual release is not executed when a debt is compromised, unless prohibited by law, the debtor is still deemed to have waived any and all claims and causes of action against the Government and its officials related to the transaction giving rise to the compromised debt. Sample mutual release language is as follows:

Consideration and Release of Claims Against the Department of Defense (DoD), the Creditor Agency, and the United States and Debtor. In consideration of DoD's obligations under the agreement to compromise the debt, the Debtor hereby releases DoD, the Creditor Agency, and the United States from any and all claims arising prior to the execution of this agreement and arising out of, or related to, the receivables. This shall in no way be deemed an admission of liability by the DoD, the Creditor Agency, or the United States or an admission of the existence of any claims against the DoD, the Creditor Agency, or the United States. The debtor is hereby released from further non-tax liability on the compromised debt in consideration of payment in full of the compromised amount. This release shall survive any termination of the agreement.

14.5 Suspension of Collection Action

14.5.1. General

Pursuant to [31 CFR 903](#), suspension of collection action is a determination by the agency to temporarily cease collection action.

14.5.2. Approval Authority

14.5.2.1. Less Than or Equal to \$100,000 – Debt With DFAS. DFAS has authority to suspend collection on debts arising out of the activities of, or referred to, DFAS when the principal amount does not exceed \$100,000. DFAS will coordinate suspension approval with the fund holder.

14.5.2.2. Less Than or Equal to \$100,000 – Debt With DoD Component. DoD Components have authority to suspend collection action on debts that have not been referred to DFAS when the principal amount does not exceed \$100,000.

14.5.2.3. Over \$100,000 – Debt is Not With Treasury. DOJ has authority to suspend collection action on debts when the principal amount exceeds \$100,000, and the debt is not being serviced by the Treasury Cross-Servicing Program. DOJ also has authority to suspend collection action on all debts greater than \$500,000.

14.5.2.4. Less Than or Equal to \$500,000 – Debt With Treasury. Treasury has authority to suspend collection action on debts, which have been referred for cross-servicing, when the principal amount of the debt is less than or equal to \$500,000. DOJ maintains authority to suspend all debts greater than \$500,000.

14.5.3. When Suspension Should Be Considered. The DCO may suspend collection action, subject to the dollar limits stated in subparagraph 14.5.2, under the following conditions.

14.5.3.1. Location of Debtor Unknown. The debtor cannot be located.

14.5.3.2. Financial Condition. The debtor's financial condition is not currently conducive to repayment, but it is expected to improve. Based on the current financial condition of the debtor, collection activity may be suspended when the debtor's future prospects justify retention of the debt for periodic review and collection activity, and:

14.5.3.2.1. Enforced collection will not be barred by the applicable statute of limitations;

14.5.3.2.2. Future collection can be made using administrative offset; or

14.5.3.2.3. The debtor agrees to pay interest on the suspended debt amount, and the suspension is likely to enhance the debtor's ability to pay the full debt principal amount at a later date with interest.

14.5.3.3. Waiver, Remission, or Review. In most circumstances, the application for waiver or remission does not delay the collection of a debt. Generally, debt collection is delayed while a review is pending. In some circumstances, the formal suspension of a debt under 31 CFR 903 may be appropriate when a debtor requests a waiver, remission, or review of the debt (to include the timely filing of a hearing petition). The DCO may also suspend contract debts if a contractor's request for deferment is approved. Refer to Chapter 5 for guidance on contract debt deferments. Suspension of collection activity is not appropriate if the request for waiver, remission, or review/hearing is frivolous or made primarily to delay collection. Collection activity may be suspended during the time required for consideration of the debtor's good faith request for waiver, remission, or review/hearing of the debt if any of the following factors apply:

14.5.3.3.1. The statute under which the request is sought prohibits collection activity during that time;

14.5.3.3.2. The amount collected during that time cannot be refunded under the applicable statute;

14.5.3.3.3. There is reasonable possibility the debtor will prevail;

14.5.3.3.4. There is reasonable assurance the debt could be collected if the debtor does not prevail; or

14.5.3.3.5. Collection of debt would cause undue hardship.

14.5.3.4. Deceased Active Duty Service Members. Under 31 U.S.C. § 3711(f)(1), the Secretary of Defense may suspend the collection of a claim against the estate of a Service member who died while on active duty with the Army, Navy, Air Force, Marine Corps, or Coast Guard during a period when the Coast Guard is operating as a service in the Navy.

14.5.3.5. Bankruptcy. When a bankruptcy petition has been filed with respect to a debtor, collection activity on a debt must be suspended pursuant to [11 U.S.C. § 362](#), [11 U.S.C. § 1201](#), or [11 U.S.C. § 1301](#), unless it can be clearly established that the automatic stay

has been lifted or no longer is in effect. With the coordination and assistance of the supporting legal office, DCOs must take action to prevent disbursement of funds to the debtor until relief from the automatic stay is obtained.

14.5.3.6. Debts in Litigation. The DCO must suspend collection if the debt is being referred to DOJ for litigation.

14.5.4. Suspending Collection of Debts of Wounded or Injured Service Members. In accordance with 37 U.S.C. § 1007(c)(4), if a Service member, through no fault of his or her own, incurs a wound, injury, or illness while in the line of duty in a combat operation or combat zone designated by the President or the Secretary of Defense and is overpaid pay or allowances while recovering from the wound, injury, or illness, then the DCO may not collect the overpayment from the Service member's pay until the criteria listed in Chapter 3, subparagraph 3.5.3 are met.

14.5.5. Delay of Collection Action for Service Members. In accordance with 37 U.S.C. § 1007(c)(3)(B), Service members subject to deductions from pay under that section may request a delay in the start of the repayment requirement to recover the indebtedness. Before beginning salary offset, the DCO will consider the reasons provided by the Service member for the requested delay, including the financial ability of the Service member to repay the indebtedness and the hardship that immediate collection would impose on the Service member and his or her dependents.

14.6 Termination of Collection Action

14.6.1. General

14.6.1.1. Termination of collection action is a determination to cease active collection because such action is not economically worthwhile or is otherwise inappropriate. Before terminating collection, the agency should have pursued all appropriate means of collection and determined the debt is uncollectible.

14.6.1.2. Termination ceases active collection, but an agency may still pursue passive collection action (for example, when the debt remains secured by a judgment lien or lien interest, or is being collected through TOP). Termination results in the removal of the debt from the active collection files. Termination does not preclude the agency from retaining a record of the account for the reasons under subparagraph 14.6.4. Refer to subparagraph 14.6.3.8 for termination of debts discharged in bankruptcy proceedings. Refer to Volume 4, Chapter 3 for guidance on writing off debts upon termination of active collection.

14.6.2. Approval Authorities

14.6.2.1. Less Than or Equal to \$100,000 – Debt With DFAS. DFAS has authority to terminate collection action on debts arising out of the activities of, or referred to, DFAS when the principal amount does not exceed \$100,000. DFAS will coordinate with the fund holder.

14.6.2.2. Less Than or Equal to \$100,000 – Debt With DoD Component. DoD Components have authority to terminate collection action on debts that have not been referred to DFAS when the principal amount does not exceed \$100,000.

14.6.2.3. Over \$100,000 – Debt is Not With Treasury. DOJ has authority to terminate collection action on debts when the principal amount exceeds \$100,000, and the debt is not being serviced by the Treasury Cross-Servicing Program and also has approval to terminate collection action on all debts with a principal amount greater than \$500,000.

14.6.2.4. Less Than or Equal to \$500,000 – Debt With Treasury. Treasury has authority to terminate collection action on debts, which have been referred for cross-servicing, when the principal amount of the debt is less than or equal to \$500,000. DOJ maintains authority to terminate all debts greater than \$500,000.

14.6.3. Reasons to Terminate Collection Action. Active collection of a debt may be terminated after all appropriate means of collection have been pursued, and a determination is made, based upon the results of collection activity, that the debt cannot be collected. The DCO may terminate collection activity under the following conditions:

14.6.3.1. No substantial amount can be collected using all tools available;

14.6.3.2. The debtor cannot be located;

14.6.3.3. Costs of collection are anticipated to exceed amounts recoverable;

14.6.3.4. The debt is subsequently found to be plainly erroneous or legally without merit;

14.6.3.5. Enforced collection is barred by any applicable statute of limitations;

14.6.3.6. Documentation indicates further collection action would be futile;

14.6.3.7. Subsequent to the establishment, the debt cannot be substantiated;

14.6.3.8. The debt has been discharged in bankruptcy. Additional guidance on termination of debts discharged in bankruptcy is found at section 15.0; or

14.6.3.9. The Active Duty Service member is deceased. Under 31 U.S.C. § 3711(f)(1), the Secretary of Defense may terminate collection of a claim against the estate of a Service member who died while on active duty with the Army, Navy, Air Force, Marine Corps, or Coast Guard during a period when the Coast Guard is operating as a service in the Navy.

14.6.4. Record of Terminated Accounts. Although a debt may be terminated for collection activity, DFAS or the DoD Component must retain a record of the debt for the purposes of:

14.6.4.1. Selling the debt, if Treasury determines the sale is in the best interest of the United States;

14.6.4.2. Pursuing collection activity at a later date in case there is a change in the debtor's status or a new collection tool becomes available;

14.6.4.3. Offsetting against future income or assets not available at the time of termination of collection activity; or

14.6.4.4. Screening future applicants for prior indebtedness.

14.6.5. Exception to Termination. When a significant enforcement policy is involved, or recovery of a judgment is a prerequisite to the imposition of administrative sanctions, debts may be referred to DOJ for litigation, even though termination of collection action otherwise might be appropriate.

14.6.6. Write-off and Close-out of Debt. Write-off is mandatory for public delinquent debt that has not been collected within 2 years of delinquency, unless documented and justified to the Office of Management and Budget in consultation with the Treasury. Write-off procedures are also necessary for debts that are below the break-even threshold. Refer to Volume 4, Chapter 3 for guidance on write-off and close-out of receivables.

14.7 Debts Involving Violation of Antitrust Laws or Fraud

The policy and requirements in this chapter relating to compromise, suspension, and termination of collection activity do not apply to any debt based in whole or in part on conduct in violation of the antitrust laws. The policy and requirements also do not apply to any debt involving fraud, the presentation of a false claim, or misrepresentation on the part of the debtor or any party having an interest in the debt. Only the DOJ has the authority to compromise, suspend, or terminate collection activity on such debts. Upon identification of a debt meeting these criteria, DCOs must promptly refer the debt to DOJ for action. DOJ may return the debt to the DCO for further handling.

15.0 DEBTORS INVOLVED IN BANKRUPTCY PROCEEDINGS

If the DCO learns that a bankruptcy petition has been filed by a debtor, the DCO must take immediate action to ensure the prompt termination of debt collection or processing of bankruptcy orders.

15.1 Active Duty and Reserve Members

If an active duty or reserve member who owes a debt to the DoD files for bankruptcy, the DCO must refer to the instructions in Volume 7A, Chapter 50.

15.2 Military Retirees

If a military retiree who owes a debt to the DoD files for bankruptcy, the DCO must refer to the instructions in Volume 7B, Chapter 17.

15.3 Federal Civilian Employees

If a Federal civilian employee who owes a debt to the DoD files for bankruptcy, the DCO must refer to Volume 8, Chapter 8.

15.4 Commercial Entities

If a DoD vendor or contractor files for bankruptcy, the DCO must refer to Chapter 5, section 8.0.

16.0 BREAK-EVEN ANALYSIS

16.1 Extent of Collection Efforts for Domestic Debts

16.1.1. General. Except for debts of foreign countries, debt accounting and collection procedures must be designed to provide information to assist in determining realistic points of diminishing returns beyond which collection efforts are not justified, and the minimum amount of a debt when no collection action at all should be undertaken. The procedures must capture the total cost of the debt collection process (both direct and indirect costs) by dollar range of debt and the total number of cases processed. Until the DCO accumulates actual cost data, it may develop cost analysis techniques for use in determining the unit cost of processing first debt notices and all other follow-up actions. When estimating costs, update the estimates periodically or when circumstances and conditions change significantly. Standardize, document, and retain the methodology utilized to estimate costs.

16.1.2. Comparison Requirements. As needed, the DCMO and DMO will make at least an annual comparison of costs incurred against amounts collected in its debt collection process to assist in the establishment of reasonable points at which the cost of further collection efforts are likely to exceed recovery. This cost comparison, however, represents but one appraisal element to consider in the analysis of when and where to terminate collection efforts. Other reviews concerning the type of debt, size, and age statistical analysis will also be performed before a final point of termination of collection action is determined. The DCO should consider the following definitions when making cost comparisons, reviews, and analysis.

16.1.2.1. The Debt Collection Process. The debt collection process includes:

16.1.2.1.1. The preparation of the first debt notice;

16.1.2.1.2. All follow-up actions, such as answering rebuttals, processing requests for waiver or remission, holding hearings, negotiating compromises, handling installment contracts and suspenses, processing collections, and making referrals to credit reporting and collection agencies; and

16.1.2.1.3. The completion of the case, including maintaining the case file information until the appropriate statute of limitations expires.

16.1.2.2. Direct Cost. Direct cost includes any cost identified specifically with handling cases or accounts during the debt collection process. These costs normally consist of personnel costs, computer equipment costs, supplies, postage, and contract services.

16.1.2.3. Indirect Cost. Indirect cost includes any cost identified with the debt collection process, but which benefits that process and at least one other activity. Accumulate these costs only when they are expected to exceed 20 percent of the direct costs.

16.1.2.4. Cases Processed. The term cases processed refers to the number of cases completed or closed during the year, either by collection or write-off. Collection includes compromises and offsets from other Federal government payments.

16.2 Break-Even Analysis Format

A break-even analysis is one method of determining realistic points at which further collection efforts are not justified. Refer to Figure 2-1 for a break-even analysis format and instructions.

Exhibit 2-1. Civilian Sample Debt Notification for Overpayment of Pay and/or Allowances

- (1)
(2)

Dear (3):

This is to inform you that you were overpaid for pay periods ending (4), through (4). The gross amount of your overpayment (including pay, taxes, benefits and other deductions) is \$ (5). The Defense Finance and Accounting Service (DFAS) has adjusted your debt for any previous payments made and offsets taken and has determined that the net amount of the debt currently owed by you is \$ (6). The overpayment is a result of (7). The payment was incorrect because (8). Your account was audited and the attached debt worksheet contains information detailing the overpayment.

Payment of Your Debt. Please pay the debt in full by (9), which is (10) days from the date of this letter. Your check or money order should be made payable to Treasury in the amount of \$ (6). Please send your payment to DFAS-CL, ATTN: J3DCBB/555, 1240 E. 9th St., Cleveland, OH 44199-2056. If you are unable to pay the debt in one lump sum, you may agree in writing to pay the debt in regular installments by completing the enclosed Voluntary Repayment Agreement and mailing or faxing it to the address listed on the Agreement.

If You are Unable to Pay Your Debt. If you do not repay the debt in full, or do not submit a Voluntary Repayment Agreement (enclosed) within (10) days from the date of this letter, DFAS must collect the debt using other collection procedures. Beginning on (11), DFAS will initiate collection of the debt involuntarily from your pay by using salary offset procedures (payroll Odeductions). A maximum of 15 percent of your net disposable pay will be deducted each pay period until your debt is paid in full. The salary offset amount may fluctuate each pay period depending on your available net disposable pay. DFAS estimates that based on your current payroll information, your available disposable pay is \$ (12), and 15 percent of your disposable pay is (13). Repayment of the principal amount of your debt would be completed in approximately (14) pay periods. If you retire or resign before your debt is paid in full, the entire amount of your final pay (salary and lump-sum payments) may be applied to pay off your debt. If you file for bankruptcy, you must notify DFAS as soon as possible.

Opportunities Available to You. If appropriate, you may contact your timekeeper to make time and attendance corrections, or your personnel office to make pay or allowance changes. You may inspect and/or receive copies of DFAS records related to your debt by contacting DFAS at the address listed above. If appropriate, you may request a hearing (see the enclosed instructions on "Requesting a Hearing"). You can find additional information on hearings and/or waivers at www.dfas.mil/civilianemployees/debt. If you do not wish to dispute the validity or amount of the debt, you are entitled to request a waiver of your debt (see the enclosed instructions on "Requesting a Waiver"). DFAS will promptly refund to you any amounts you have paid or that were deducted for your debt which are later waived or found not owed to the United States.

Questions about Your Debt. Please see the enclosed "Collection of Your Debt" for additional information regarding debt collection. The Department of Defense Financial Management Regulation (DoD FMR) contains general information concerning debt collection authority at Volume 16, Chapters 1-4 and is available at <http://comptroller.defense.gov/fmr.aspx>.

You may contact your Personnel Office or Customer Service Representative (CSR) if you have questions regarding your debt. If you have further questions about your debt, your CSR may initiate a Remedy inquiry to request information from DFAS, or you may contact the DFAS Civilian Payroll Office at 1-800-538-9043. You may also write to the DFAS Civilian Payroll Office at the address listed on this letter.

Sincerely,

SIGNATURE

Payment Amount Enclosed \$ _____

Explanation of Blank Spaces on Sample Debt Notification

- (1) The title or office symbol/code of the civilian payroll office issuing the debt notification
- (2) The full name and mailing address of the debtor
- (3) Last name of debtor with proper title (Mr. or Ms.)
- (4) The pay period(s) that the overpayment occurred
- (5) The gross dollar amount of the overpayment
- (6) The net dollar amount of the overpayment
- (7) Reason for Indebtedness - A brief explanation of how the overpayment occurred (e.g., time and attendance or a personnel change)
- (8) Explanation citing applicable law or DoD FMR provision, if applicable
- (9) The date by which the debtor must pay the debt in full or submit a request for a voluntary repayment agreement, usually 30 days from the date the letter is issued
- (10) The total number of days the debtor has to pay the debt in full or submit a voluntary repayment agreement, usually this number is "30"
- (11) The date the involuntary deduction from pay begins
- (12) The estimated amount of disposable pay
- (13) Fifteen percent of the disposable pay amount shown in item (12)
- (14) Divide amount shown in (6) by the amount determined in (13) and round to the next highest number. This will be the approximate number of pay periods needed to collect the overpayment in full
- (15) Identify by name, the signatory for the letter
- (16) The Debt Notification must include all enclosures (Enclosure 1, "Collection of Your Debt") (Enclosure 2, "Requesting a Hearing") (Enclosure 3, "Requesting a Waiver") (Enclosure 4, "Sample Voluntary Repayment Agreement" for Civilian Payroll Indebtedness)

Exhibit 2-1. Civilian Sample Debt Notification for Overpayment of Pay and/or Allowances
(Continued)

COLLECTION OF YOUR DEBT

Please be aware of the following additional information concerning the collection of your debt:

Interest and Additional Charges. If you are unable to pay the debt in full by 30 days from the date of this notification, any unpaid portion of the debt will be considered delinquent. DFAS is authorized by law to add interest, penalties, and administrative costs to your debt if it is not paid within 30 days from the date of this letter. The rate of interest charged is at the U.S. Treasury Tax and Loan Rate and may commence on the date your debt becomes delinquent and may continue until the debt is paid in full. Additional penalties may be imposed at the rate of up to 6 percent a year, as well as administrative charges, on any unpaid portion of your debt that is delinquent for more than 90 days, commencing on the date your debt becomes delinquent and continuing until the debt is paid in full.

Collection Action on Delinquent Debts. If DFAS is unable to collect your debt by salary offset, DFAS may enforce repayment of your debt by using other available collection remedies such as referring your debt to a private collection agency, reporting your debt to a credit bureau, garnishing your non-Federal employment wages, or referring your debt to the U.S. Department of Justice for litigation. Debts delinquent for more than 120 days are transferred to the U.S. Department of Treasury (Treasury) for collection, and may be transferred sooner than 120 days. Treasury may offset your Federal income tax refunds or other Federal benefit payments, such as Social Security and Federal employee retirement benefits, in order to collect your debt. You may also be prohibited from being approved for a Federal loan if you do not resolve your outstanding delinquent debt.

Collection of Federal Employee Health Benefit (FEHB) Premiums. Your debt may be the result of an advance in salary you received when you were on leave without pay status (LWOP) or when your pay was insufficient to cover your share of your FEHB premiums. When you return to employment, or upon your pay becoming sufficient to cover the premiums, you are required to reimburse your employer for the premiums paid on your behalf. If you pay your debt with after-tax dollars using a personal check, the payment will not be subject to pre-tax treatment that would reduce your taxable income. In order to ensure the repayment will be treated on a pre-tax basis, you must select payroll deduction as your repayment method. Pursuant to the U.S. Office of Personnel Management (OPM) regulations under 5 CFR 890.502, the “catch-up” option for repaying your FEHB premiums may not be paid pursuant to a Voluntary Repayment Agreement. Premiums must be collected back each pay period at the rate your employer paid the premium for you.

Penalties for False or Frivolous Statements. Please be advised that if you make or provide any knowingly false or frivolous statement, representations or evidence with respect to your debt, you may be liable for penalties under the False Claims Act (31 U.S.C. §§ 3729-3733) or other applicable statutes, and/or criminal penalties under 18 U.S.C. §§ 286, 287, 1001, and 1002, and other applicable statutes. A Federal employee may also be subject to disciplinary procedures under 5 U.S.C. Chapter 75 or any other applicable statutes or regulations.

Tax Considerations. Per Internal Revenue Service (IRS) Publication 15, income tax withheld by DFAS in a prior calendar year cannot be adjusted. Therefore, if your overpayment occurred in a prior calendar year, you must pay back the gross amount of your debt, including any taxes previously withheld and paid on your behalf to the IRS. You may be entitled to a deduction (or credit in some cases) for the repaid wages on your income tax return for the year of repayment of your debt. If your overpayment and repayment both occur in the same calendar year, DFAS will be able to adjust your tax withholding and you will be responsible for repaying only the net overpaid amount. Upon repayment in the same calendar year, your W-2 will be adjusted to reflect your income and the associated taxes. Finally, please be aware that should your debt repayment ever become delinquent and collected by the offset of your tax refund, your spouse may file Form 8379, Injured Spouse Allocation, with the IRS to claim his or her share of the tax refund.

Bankruptcy. If you file for bankruptcy, you must notify DFAS as soon as possible.

Exhibit 2-1. Civilian Sample Debt Notification for Overpayment of Pay and/or Allowances (Continued)

REQUESTING A HEARING

You may request a hearing to contest the validity of your debt or the amount of your debt. If your debt will be collected by involuntary salary offset (other than pursuant to a Voluntary Repayment Agreement), you may also request a hearing to contest the terms of the involuntary salary offset schedule.

Is a hearing always the first step? No. Your Personnel Office or your Customer Service Representative may answer general questions about your debt. If you request a hearing, DFAS will first perform an informal reexamination (“reconsideration”) of your pay records to validate the amount of debt you owe. DFAS will perform the reconsideration and issue written results to you. Reconsideration is an informal review performed to satisfy any doubts you may have regarding the amount or validity of your debt. A reconsideration is not a formal hearing. After considering the results of the reconsideration, you may decide not to proceed with the formal hearing process. To continue with a formal hearing, you must notify DFAS of your intent in a timely manner as noted below.

What happens during the hearing process? If you file a petition for a hearing in a timely manner, a hearing official will make a written determination regarding the validity or the amount of your debt, or will make a ruling on the proposed involuntary repayment schedule. The hearing official will consider any written statements and/or documentary evidence you submit, as well as internal agency debt files. You are entitled to a “Paper Hearing” wherein the hearing official makes a determination based on a review of the documents only, without the parties present. Rarely is an oral hearing granted and only if DFAS determines that the matter cannot be resolved by a review of the documents alone. You will receive a written decision within 60 days after filing your petition, unless the hearing official grants a delay. Collection of your debt, and any interest and penalty charges, will be suspended until the hearing official issues a written decision.

Is there a time limit for requesting a hearing? You must file a petition for a hearing within 30 days from the date of the attached debt notification letter (extended to 45 days if outside the Continental United States). If you requested records related to your debt, you must file a petition for a hearing within 45 days after the date the records are distributed. If DFAS performs a reconsideration of your debt (as explained above) and you wish to proceed with a formal hearing, you must notify DFAS within the time limit stated in the written reconsideration results you received.

What must be included in a hearing petition? Your written hearing petition must contain the following:

- Your name, daytime phone number, email address, mailing address and social security number.
- The reason for your hearing request, presented as follows:

1) To Contest the Validity of Your Debt or the Amount of Your Debt: Provide a statement concerning why you believe the debt (or the amount of the debt) is erroneous. To support your argument, include a written summary of the facts of your case for the hearing official. Include the date and manner in which you became aware of any overpayment. Include all documentary evidence you want the hearing official to review (such as Leave and Earning Statements (LES)). Include the written testimony of any witness you wish the hearing official to consider.

2) To Contest the Proposed Schedule for Collection of Your Debt by Involuntary Salary Offset: Provide an alternate payment schedule and a statement explaining your financial status. Provide copies of records to be considered by the hearing official.

- **Sign and date your hearing petition and include your Social Security number. Identify your submission as “HEARING PETITION”**

Where do I file a hearing petition? Fax your signed hearing petition and documentary evidence to 1-866-401-5849. If your hearing petition is missing information, you will receive a request to submit additional information. Failure to submit the additional information within 30 business days of notification will result in your hearing petition being dismissed. Alternatively, you may mail your hearing request and documentary evidence to DFAS Civilian Pay-IN, Dept. 6200, 8899 East 56th St., Indianapolis, IN 46249-1900.

Where do I find additional information? See DoD FMR Volume 16, Chapter 4.

Exhibit 2-1. Civilian Sample Debt Notification for Overpayment of Pay and/or Allowances
(Continued)

REQUESTING A WAIVER

What is a waiver? Under [5 U.S.C. § 5584](#), the United States may waive its right to collect the debt you owe if collection would be against equity and good conscience and not in the best interest of the United States. The debt must be the result of an erroneous payment of pay or allowances (including travel, transportation, or relocation expenses and allowances). A debt may be waived in whole or in part. Collection of your debt generally will not be suspended during the waiver review process.

May I apply for a waiver and simultaneously request a hearing? No. By submitting an application for a waiver, you acknowledge that you do not intend to dispute the validity or amount of the debt. Waiver is not the proper forum to contest the validity or amount of your debt. If your waiver application includes arguments concerning the validity or amount of your debt, your application may be denied. In order to contest the validity or amount of your debt, you must file a petition for a hearing.

Is there a time limit for filing a waiver application? You must file a waiver application within 3 years after the erroneous payment was discovered.

What must be included in a waiver application and where should the application be submitted?

DD Form 2789:

You must complete and sign DD Form 2789, “Waiver/Remission of Indebtedness Application,” available at: www.dfas.mil. Send the application and all supporting documents to the address in your debt letter. If your waiver application is missing information, you will receive a request to submit additional information. Failure to submit the additional information within 30 business days of notification will result in your request for waiver being closed with no action.

Supporting Documents:

You must include supporting documents with your waiver application. Supporting documents include, but are not limited to:

- Copies of all supporting documentation referred to in DD Form 2789.
- Copies of Leave and Earnings Statements (LESSs) covering 3 pay periods prior to the overpayment(s) through 3 pay periods after the overpayment ended. If you do not have access to your LESSs, you must include a statement explaining why the LESSs are not available.
- Copies of Standard Forms (SF) 50s, “Notification of Personnel Action,” for the debt period (including corrections). If unavailable, include a statement from the personnel office indicating why they are not available.
- Any statement from you or any other persons in support of your application. Statements must be attested to be true and correct to the best of the individual’s knowledge and belief.
- Additional required documents by type of debt:

Personnel Debts: any job offer letter/email (if applicable).

FEHB Debts: SF-2809/SF-2810 (copy of your original enrollment form and any amendments).

FEGLI Debts: SF-2817 (copy of your original enrollment form and any amendments).

Awards and Bonus Debts: Signed agreements or contracts for bonuses and/or Voluntary Separation Incentive Program payments.

Foreign Entitlement Debts: SF-1190 (signed by an official) and Military Orders (if applicable).

Time and Attendance Debts: Time and Attendance cards for debt period.

Where Do I Find Additional Information? See DoD FMR Volume 16, Chapter 4.

Exhibit 2-1. Civilian Sample Debt Notification for Overpayment of Pay and/or Allowances
(Continued)

Sample Voluntary Repayment Agreement for Civilian Payroll Indebtedness

Debt Information:

Employee's Name _____ SSN: _____ Pay Blk: _____

Debt Reason: _____

Sequence Number: _____

Amount Owed: _____

Estimated Disposable Net Amount: _____

Estimated Deduction Amount 15% of net disposable per pay period: _____

Code: _____ Debt Dates: _____ through _____ Creation Date: _____

LOA: _____

Acknowledgement. I acknowledge that I owe the total amount indicated above due to a salary overpayment and that I am obligated to repay the debt to the United States. I understand that in the event I take no further action, 15 percent of my disposable pay will be deducted automatically beginning with the pay period stated above.

Interest. I also understand that if I decide to repay the amount owed by any method other than in a single lump-sum payment, interest at the Treasury Tax and Loan rate may be charged on the unpaid balance every month until the debt is paid in full.

Payment Obligation. I agree to repay the debt in the manner I have indicated below. Please choose one of the following repayment plans (check one):

___ **Payment in Full by Check.** I will repay my debt in a lump sum by check. My payment in the amount of \$_____ is enclosed. Make check payable to Treasury and mail to DFAS-CL, ATTN: J3DCBB/555, 1240 E. 9th St., CLEVELAND, OH 44199-2059 and fax this form to (317) 275-0354 (DSN 366-0354) or (866) 401-5849.

___ **Payment by Salary Offset.** I will repay my debt by having the payment offset from my salary. DFAS will accept the total payment amount as full and final payment of the debt, payable as follows (check one):

___ **Single Payment.** I wish to pay the total amount of the debt by salary offset in one payment. Please deduct the total amount of the debt from my salary on pay period ending _____.

___ **Multiple Payments at 15% of Disposable Pay.** I do not want to pay the debt all at once. I authorize DFAS to deduct the amount listed above (estimated to be 15% of my disposable pay per pay period) until the debt is paid in full.

___ **Multiple Payments at More than 15% of Disposable Pay.** I do not want to pay the debt all at once. I authorize DFAS to deduct \$_____ each pay period, which is more than 15% of my disposable pay, until the debt is paid in full.

___ **Multiple Payments at Less than 15% of Disposable Pay.** Payment at the rate of 15% of my disposable pay would result in an extreme financial hardship for me. I authorize DFAS to deduct \$_____ each pay period. This repayment amount has been approved by my employing agency (**Signature of agency approving official/supervisor is required below). In determining your proposed repayment amount, please be advised your debt should be repaid within 3 years, divide the amount due by 78 to determine the lowest bi-weekly payment; minimum payment amount is \$25 per pay period. You may be required to submit financial statements annually whenever your repayment period exceeds 3 years.

Exhibit 2-1. Civilian Sample Debt Notification for Overpayment of Pay and/or Allowances
(Continued)

In the Event of Default. In the event I default on my obligation under this agreement, DFAS is entitled to terminate this agreement without notice. Upon termination, DFAS will retain all amounts paid. Any unpaid balance of the debt will be automatically reinstated and shall become immediately due and payable pursuant to law. DFAS is entitled to take any lawful action it deems appropriate to collect the debt without duplicating notices and opportunities for review previously provided to me, whether before or after the date of this agreement.

I have read and fully understand and agree to the terms of this agreement.

Signature of Employee: _____ Date: _____

Daytime Telephone Number: _____

****Approving Official/Supervisor/Budget Representative (for Department of Defense Education Activity Employees)**
Signature (when required):

Signature

Date: _____
Printed Name

Submitting Your Signed Agreement. Please sign and return this repayment agreement to your payroll office. Alternatively, you may submit your signed agreement by FAX to (317) 275-0354 (DSN 366-0354) or (866) 401-5849, or by mail to DFAS-IN Dept. 6200 Civilian Pay, 8899 East 56th Street, Indianapolis, IN 46249-1900.

Rejection of an Unacceptable Agreement by DFAS. DFAS maintains the discretion to reject an unacceptable proposed repayment agreement and proceed with collection by salary offset. DFAS will notify the employee in writing in the event the repayment plan submitted by the employee is unacceptable.

THIS REPORT CONTAINS INFORMATION SUBJECT TO THE PRIVACY ACT OF 1974 AS AMENDED.

SUBJECT: Notice of Charge to an Officer RANK, Last Name (0000)

Payment Obligation. I agree to repay the debt in the manner I have indicated below. Please choose one of the following repayment plans (check one):

____ I acknowledge the validity of this debt and agree to the collection of the amount due from my pay.

____ I acknowledge the validity of this debt and request installment payments of the amount over a period of _____ months. I have attached a statement detailing the reasons why this debt should be prorated and not collected in one lump sum.

____ I acknowledge the validity of this debt and would like to pay the debt with a cashier's check or a money order. Please ensure the cashier's check or money order is made out to the Disbursing Officer, [Supporting Finance/Military Pay Office] ***Please include this line of accounting on the check:*** _____

____ I will come to the [Supporting Finance/Military Pay Office] to discuss this matter on _____ (Date must be prior to the suspense date on basic letter).

Service Member's Signature

Date

1. Finance has identified an outstanding debt to the U.S. Government for overpayment of (name of debt) in the amount of \$XXX.XX from YEARMDD-YEARMDD.

2. You have until the close of business of the suspense date indicated above to dispute this debt by submitting a written request for review, along with supporting documentation, to the [Supporting Finance/Military Pay Office], Collections Desk. Upon timely receipt of your request, the debt will be reviewed and a written response will be issued to you within 60 days. If your request for review and supporting documentation is not supplied by the suspense date, immediate collection action will be initiated using the 2/3 rule as set out in the Department of Defense Financial Management Regulation (DoD FMR), Volume 16, Chapter 3. If you retire or resign before your debt is paid in full, the entire amount of your final pay (salary and lump-sum payments) may be applied to pay off your debt. An administrative fee will only be assessed if no response is received by the suspense date or the debt is paid via installments.

3. Under DoD FMR Volume 7A, Chapter 40, paragraph 5.3 and Chapter 52, paragraph 1.1, if the finance office is unable to collect your debts due to voluntary deductions for Thrift Savings Plan contributions and/or discretionary allotments, your allotment(s) will be stopped after the suspense date indicated on this Notification of Indebtedness, and the debt collection will commence as indicated in paragraph 2.

4. You may be eligible to apply for waiver or remission/cancellation of your debt. See attached "Collection of Your Debt" for more information. DFAS will promptly refund to you any amounts you have paid or that were deducted for your debt which are later waived, remitted, or determined not to be owed to the United States.

5. You may request an installment payment plan. A request for payment by installment is subject to the [Supporting Finance/Military Pay Office] final approval which will take into account the amount of the debt and your financial ability to pay the debt. A x% annual interest rate will be charged on any unpaid portion of the debt and an administrative fee may be assessed.

NOTE: For any installment payment period greater than 12 months, an additional memo from your Commander is required stating a longer repayment period is needed based on your financial hardship. This memo will be forwarded to the appropriate authority for approval, with the recommendation of the [Supporting Finance/Military Pay Office]. The recommendations MUST be based on a financial hardship and allow for collection of the debt prior to the Service member's date of separation. Any installment period that exceeds 24 months will be reviewed every 12 months, and will require the member to show continued financial hardship, or the debt will be resumed based on the above mentioned 2/3 rule in paragraph 2.

6. Request correspondence to be returned to the [Supporting Finance/Military Pay Office Address]

MEMORANDUM FOR COMMANDER, XXX

SUBJECT: Notice of Indebtedness

1. Select one of the following items by initialing on the line preceding your choice and sign and date where appropriate. Return this memorandum back to the [Supporting Finance/Military Pay Office] for processing by suspense date.

_____ a. I acknowledge the validity of this debt and request lump-sum collection from my next regular pay.

_____ b. I acknowledge the validity of this debt and request prorating of debt for _____ months. Request for installment payments less than 12 months will be subject to approval by this office. A x% annual interest rate will be charged on any unpaid portion, and an administrative fee may be assessed to the total debt.

NOTE: For any proration greater than 12 months, an additional memo from either the Unit Commander or [Applicable Senior Enlisted Advisor] is required indicating their justification of their recommendation. This memo will then be forwarded to DFAS-Indianapolis for approval with the recommendation of the Defense Military Pay Office. The recommendation MUST be based on a financial hardship and allow for debt collection prior to the member's date of separation. Any installment agreement that exceeds 24 months will be reviewed every 12 months, and will require the member to show continued financial hardship or the debt will be resumed based on the above mentioned 2/3 rule in paragraph 2. If you retire or resign before your debt is paid in full, the entire amount of your final pay (salary and lump-sum payments) may be applied to pay off your debt.

_____ c. I acknowledge the validity of this debt and would like to pay the debt with a cashier's check or a money order. Please ensure the cashier's check or money order is made out to the DISBURSING OFFICER, [Supporting Finance/Military Pay Office]. ***Please include this line of accounting on the check:*** _____

COLLECTION OF YOUR DEBT

Please be aware of the following additional information that may concern the collection of your debt:

Interest and Additional Charges. If you are unable to pay the debt in full within 30 days from the date of this letter, any unpaid portion of the debt will be considered delinquent. DFAS is authorized by law to add interest, penalties, and administrative costs to your debt if it is not paid within 30 days from the date of this letter. The rate of interest charged is at the Treasury Tax and Loan Rate and may commence on the date your debt becomes delinquent and may continue until the debt is paid in full. Additional penalties may be imposed at the rate of up to 6 percent a year, as well as administrative charges, on any unpaid portion of your debt that is delinquent for more than 90 days, commencing on the date your debt becomes delinquent and continuing until the debt is paid in full.

Collection Action on Delinquent Debts. If DFAS is unable to collect your debt, DFAS may enforce repayment of your debt by using other available collection remedies such as referring your debt to a private collection agency, reporting your debt to a credit bureau, garnishing your non-Federal employment wages, or referring your debt to the U.S. Department of Justice for litigation. Debts delinquent for more than 120 days are transferred to the U.S. Department of Treasury for collection. Treasury may offset your Federal income tax refunds or other Federal benefit payments, such as Social Security and Federal employee retirement benefits, in order to collect your debt. You may also be prohibited from being approved for a Federal loan if you do not resolve your outstanding delinquent debt.

Tax Considerations. Pursuant to Internal Revenue Service (IRS) Publication 15, income tax withheld by DFAS in a prior calendar year cannot be adjusted. Therefore, if your overpayment occurred in a prior calendar year, you must pay back the gross amount of your debt, including any taxes previously withheld and paid on your behalf to the IRS. You may be entitled to a deduction (or credit in some cases) for the repaid wages on your income tax return for the year of repayment of your debt. Each January, DFAS will issue a tax certificate for amounts repaid toward a prior year debt that can be used for tax filing. If your overpayment and repayment both occur in the same calendar year, DFAS will be able to adjust your tax withholding and you will be responsible for repaying only the net overpaid amount. Upon repayment in the same calendar year, your W-2 will be adjusted to reflect your income and the associated taxes. Finally, please be aware that should your debt repayment ever become delinquent and collected by the offset of your tax refund, your spouse may file IRS Form 8379, Injured Spouse Allocation, with the IRS to claim his or her share of the tax refund.

Penalties for False or Frivolous Statements. Please be advised that if you make or provide any knowingly false or frivolous statement, representations or evidence with respect to your debt, you may be liable for penalties under the False Claims Act (31 U.S.C. §§ 3729-3733) or other applicable statutes, and/or criminal penalties under 18 U.S.C. §§ 286, 287, 1001, and 1002, and other applicable statutes. A Federal employee may also be subject to disciplinary procedures under 5 U.S.C. Chapter 75 or any other applicable statutes or regulations.

Bankruptcy. If you file for bankruptcy, you must notify DFAS as soon as possible.

Opportunities Available to You

Requesting a Review. A debtor who questions the validity or amount of a debt may request a review and validation of the debt by the DCO. A debtor may also contest the involuntary repayment schedule. The debtor must submit a written request for a review that identifies and explains, with reasonable specificity, the facts and evidence the debtor believes supports his or her position. The request for review must be received not later than 30 days from the mailing date of the debt notification, or by the date indicated in the debt notification. There is no standardized format for a request for review; however, the request should contain debtor identifying information, the reason for requesting a review, supporting documentary evidence, and a dated signature. A debtor waives his or her right to a review if the debtor fails to submit a request in a timely manner. The DCO may accept a late request if the debtor can show that the delay was due to circumstances beyond the debtor's control.

Requesting Records. A debtor may make a written request to the DCO for records related to the debt. A request for records must be made prior to the deadline for submitting a request for review. Within 45 days after the date the records are distributed to the debtor, the debtor must submit a written request for review to the DCO or the debtor will waive his or her right to review.

Review Procedures. The request for review must be submitted to the DCO from which the debtor received his or her debt notification and must be mailed or faxed to the address in the notification. Upon receipt of the request for review, the DCO will consider the information, and any documentary evidence contained in the debtor's request and will perform a review and validation of the debt. The DCO must issue the written review results to the debtor.

Written Review Results. Written results should be provided within 60 calendar days.

Waiver or Remission. If appropriate, you may request a waiver of your debt. Under 10 U.S.C. § 2774, the United States may waive its right to collect the debt you owe if collection would be against equity and good conscience and not in the best interest of the United States. The debt must be the result of an erroneous payment of pay or allowances (including travel, transportation, or relocation expenses and allowances). A debt may be waived in whole or in part. Collection of your debt generally will not be suspended during the waiver review process. DFAS will promptly refund to you any amounts you have paid or that were deducted for your debt which are later waived, remitted, or determined not to be owed to the United States. See DoD FMR Volume 16, Chapter 4. Please contact your Supporting Finance/Military Pay Office for further information on waiver or remission of your debt.

Figure 2-1. Break-Even Analysis

BREAK-EVEN ANALYSIS					
(1) <u>Dollar Range</u>	(2) <u>Number of Cases Processed</u>	(3) <u>Original Dollar Amount</u>	(4) <u>Historical Cost to Collect</u>	(5) <u>Total Dollars Collected</u>	(6) <u>Dollar Difference</u>

SUBTOTAL					
OVER 600					
GRAND TOTAL					

Column (1) - Dollar range should be meaningful to the debt collection process. Subtotal can be placed anywhere within dollar range to relate to a particular debt collection need.

Column (2) - Total number of cases processed within this particular dollar range.

Column (3) - Original dollar amount of debts for this particular range.

Column (4) - Historical cost for this particular range or subtotal times number of cases in column (2).

Column (5) - Accumulate collections per range or subtotal.

Column (6) - Column (5) minus column (4). Break-even point is where the collections (5) are equal to the cost to collect (4).

Grand total of collections (column (5)) divided by grand total of original dollar amount (column (3)) = percent collection range for period.

CHAPTER 3

COLLECTION OF DEBTS OWED BY INDIVIDUALS TO THE DOD

1.0 GENERAL

1.1 Overview

1.1.1. This chapter pertains to the collection of debts owed to the DoD from current and retired DoD civilian employees, current members of the Military Services (active and reserve), military retirees, Survivor Benefit Plan (SBP) annuitants, and individuals who are no longer employed by DoD.

1.1.2. This chapter does not apply to collection of debts owed by contractors, vendors, assignees, state and local governments, or foreign entities. Refer to Chapters 5 and 6. This chapter does not apply to the collection of child support, alimony, or commercial debts from the pay or salaries of DoD civilian employees or military members through garnishment or involuntary allotment. This chapter does not apply to antitrust, fraud, tax, and interagency claims. Refer to Volume 7A, Chapters 41 and 43; Volume 7B, Chapter 27; and Volume 8, Chapter 8 for guidance pertaining to garnishments and involuntary allotments.

1.1.3. This chapter does not prescribe policy and requirements for determining whether a debt exists. Such determinations are the responsibility of the particular entitlement office or other organizations (e.g., military pay office, human resources office, or transportation office).

1.1.4. For purposes of this chapter, the civilian payroll office (PRO), military pay office, and military retiree pay office are examples of debt collection offices (DCOs).

1.2 Purpose

This chapter prescribes policy and requirements for the collection of debt owed to the DoD by individuals.

1.3 Authoritative Guidance

DoD is required to aggressively collect debts in accordance with the following statutes, as well as other statutes and regulations expressly identified in this volume:

1.3.1. Debt Collection Improvement Act of 1996 ([*Public Law 104-134*](#), Chapter 10, section 31001);

1.3.2. Debt Collection Act of 1982 ([*Public Law 97-365*](#));

1.3.3. Federal Claims Collection Act of 1966 (codified at Title 31, United States Code, section 3701 ([*31 U.S.C. § 3701*](#)); [*5 U.S.C. § 5514*](#); and [*37 U.S.C. § 1007*](#));

1.3.4. Contract Disputes Act of 1978 ([41 U.S.C. § 7101 et seq.](#));

1.3.5. Internal Revenue Code provisions regarding the authority to make credits or refunds ([26 U.S.C. § 6402](#));

1.3.6. [Federal Claims Collection Standards \(FCCS\) parts 900-904](#);

1.3.7. Regulations for collection by offset from indebted government employees (Title 5, [Code of Federal Regulations \(CFR\), section 550, subpart K](#)); and

1.3.8. Regulations for the collection of past-due support by administrative offset ([31 CFR 285.1](#)).

2.0 COLLECTION OF DEBT FROM CURRENT, SEPARATING, TRANSFERRING, AND RETIRED DOD CIVILIAN EMPLOYEES

2.1 General

This section prescribes policy and requirements for the collection of debt owed to DoD by current, separating, transferring, and retired DoD civilian employees due to the overpayment of civilian pay and/or allowances.

2.2 Reasons for Overpayment of Civilian Pay and Allowances

Overpayments to employees may be the result of various payroll errors or adjustments. Examples include errors in computing federal withholding tax, Civil Service Retirement System (CSRS) or Federal Employees Retirement System (FERS) deductions, Social Security and/or Medicare deductions, improper rates of pay, errors in reporting time worked, or erroneously accrued and paid annual leave. These errors may be the result of action taken both inside and outside the PRO. The head of each PRO maintains the overall responsibility for ensuring that an overpayment is recovered expeditiously or that another appropriate disposition of a debt is carried out, such as waiver of the indebtedness. The head of each PRO is responsible for ensuring that employees are afforded all legal rights relative to the collection of indebtedness. Responsibilities may be delegated, in writing, to another appropriate official within the financial community.

2.3 Procedures for Debt Establishment

Generally, a debt is “established,” or comes into existence, when the government agency to which it is owed determines that there is a debt and identifies the exact amount of the debt. This initial determination by the agency triggers the debt collection process. To establish a debt and prepare for collection, the PRO must:

2.3.1. Compute the amount of the overpayment and assemble agency records establishing the debt;

2.3.2. Notify the human resources office immediately if corrective personnel action is required. Continued payment of erroneous pay and allowances is not authorized and must cease immediately;

2.3.3. Provide the employee with due process before collecting an overpayment of pay and allowances, except under certain limited circumstances as set forth in Chapter 2; and

2.3.4. Correct the employee's records when appropriate.

2.4 Overview of Debt Collection from Current DoD Employees

2.4.1. General

2.4.1.1. After determining the amount owed to the United States by a current DoD employee and establishing a debt, the PRO must determine if collection may be made using a routine pay adjustment under paragraph 2.5. If the PRO cannot use a routine adjustment to collect a debt, then the PRO must contact the debtor by issuing a written debt notification that satisfies due process requirements. Refer to Chapter 2, sections 4.0 and 5.0 for guidance on debt notifications.

2.4.1.2. Upon notification, the debtor may voluntarily repay the debt in full, in one lump sum, or by installment payment arrangement (voluntary repayment agreement) with the DCO. Refer to Chapter 2, section 7.0 for information regarding voluntary repayment by a debtor.

2.4.1.3. Alternatively, a debtor may choose to request a review of the debt by filing a petition for hearing. The DCO should stay debt collection efforts pending the outcome of the hearing. When appropriate, the debtor may also request a waiver of the debt; however, debt collection is generally not suspended during the waiver review process (refer to Chapter 4 for additional information).

2.4.1.4. Finally, if the civilian employee does not respond to the debt notification by voluntarily repaying the debt or submitting a request for a review or waiver, then the DCO must initiate collection by salary offset under 5 U.S.C. § 5514, or under other specific statutory authority set out in Chapter 2, section 9.0.

2.4.2. Case Examples. The following examples illustrate typical debt collection scenarios for civilian overpayments.

2.4.2.1. Routine Adjustment Example. A civilian employee was overpaid as a result of a time and attendance clerical error. The PRO established the debt owed by the employee and determined the overpayment occurred within the last four pay periods. The PRO provided the debtor with written notice that a routine adjustment was being made to the employee's pay. The notice appeared on the employee's Leave and Earnings Statement (LES). The DCO recouped the overpayment from the employee's pay.

2.4.2.2. Salary Offset/Voluntary Repayment Example. A civilian employee was overpaid for overtime 2 years ago. The PRO established the debt owed by the employee. Because more than four pay periods had elapsed since the overpayment, the PRO could not recover the debt by a routine pay adjustment. The PRO issued a debt notification letter to the employee. The employee received the notification, agreed that the debt was owed, and because the employee could not repay the debt in one lump sum, the employee negotiated a voluntary repayment agreement with the DCO.

2.4.2.3. Involuntary Salary Offset/Hearing Petition Example

2.4.2.3.1. A civilian employee was overpaid for overtime 2 years ago. The PRO established the debt owed by the employee. Because the overpayment did not occur within the last four pay periods, the PRO cannot recover the debt by a routine pay adjustment. The PRO issued a debt notification letter to the employee. The employee received the notification and filed a hearing petition in order to contest the validity or amount of the debt.

2.4.2.3.2. As the first step in the hearing process, the PRO performed a reconsideration of the debt and issued written results to the employee indicating that the debt had been validated after reconsideration. The PRO further instructed the employee that if he or she disagreed with the reconsideration results, the employee could request to continue with a formal hearing. The employee requested the matter be set for hearing with a hearing official. The hearing official conducted a paper hearing and issued a written determination validating the debt. The employee did not voluntarily repay after receiving the hearing official's determination, and the PRO proceeded with salary offset at the rate of 15 percent of disposable pay. Refer to Chapter 2, subparagraph 9.2.3 for guidance on determining disposable pay.

2.5 Procedures for Routine Pay Adjustments

2.5.1. In accordance with 5 U.S.C. § 5514, DCOs are not required to provide due process procedures prior to collecting overpayments of pay and allowances using routine intra-agency pay adjustments. To collect by routine adjustment, the overpayment must have occurred within the four pay periods preceding the adjustment or amount to \$50 or less. Routine adjustments may be necessary due to overpayments attributable to clerical errors, administrative errors, delays in processing pay documents, corrected or late time and attendance data, underdeduction of premiums, or incorrect personnel actions.

2.5.2. The DCO must provide the debtor with written notice of the nature and amount of the adjustment, as well as a point of contact for questions regarding the adjustment. The information should be provided by the payday for the pay period in which the adjustment is processed, or as soon thereafter as practical. An appropriate notice on the LES meets the requirements for notification. See [5 CFR 550.1104\(c\)](#).

2.5.3. The actual overpayment must have occurred after April 26, 1996.

2.5.4. The amount deducted may not exceed 15 percent of disposable pay unless the debtor has consented in writing to a higher amount. Refer to Chapter 2, subparagraph 9.2.3 for guidance on computing disposable pay.

2.5.5. If a DoD debtor's payroll account is moved from one PRO to another PRO within DoD, then the new PRO has the authority to collect an overpayment made by the former PRO using routine adjustment procedures.

2.5.6. For routine adjustments involving health or life insurance premiums, refer to paragraph 2.7.

2.6 Processing Debt Repayments

2.6.1. Voluntary Repayment

2.6.1.1. Cash Repayment. The term "cash repayment" encompasses payments by personal check, money order, or another negotiable instrument. The DCO must record the collection on a [DoD \(DD\) Form 1131](#), Cash Collection Voucher. The accounting data must include the appropriation or fund that funded the overpayment.

2.6.1.2. Payroll Deductions (Salary Offset)

2.6.1.2.1. One-Time/Lump-Sum Deduction (Salary Offset). If an employee voluntarily requests to have the indebtedness deducted from pay, then the DCO must arrange for the employee to complete and sign a voluntary repayment agreement as shown in Chapter 2, [Exhibit 2-1](#) indicating payment by lump-sum deduction. The DCO must retain the original signed agreement. If requested by the employee and agreed to by the DCO, then the DCO can defer remittance for up to two pay periods and change the agreement to reflect that adjustment. An employee may also combine a one-time deduction with a cash payment as a means of liquidating the indebtedness. If a one-time deduction does not fully liquidate the indebtedness, then the DCO must adjust the agreement accordingly.

2.6.1.2.2. Installment Deductions (Salary Offset). If an employee is unable to repay the debt in one lump-sum repayment, then installment payments may be acceptable. The employee should complete a voluntary repayment agreement indicating repayment by salary offset using installment payments. The DCO must retain the original signed agreement. Refer to Chapter 2 for additional guidance pertaining to requesting and approving installment payment plans.

2.6.2. Involuntary Repayment by Salary Offset

2.6.2.1. When a debtor has either failed to pay the debt in one lump sum, has not agreed to a voluntary, one-time payroll deduction, or has not entered into an installment agreement, the DCO must recover the debt by involuntary salary offset.

2.6.2.2. Before initiating involuntary salary offset, the DCO must ensure the debtor was given due process pursuant to Chapter 2, section 4.0, and that the debtor has not exercised the

rights listed in the debt notification letter or, having exercised one or more of those rights, was determined to be indebted. The DCO may initiate collection of a debt from final pay and lump-sum leave payments before granting due process if failure to do so would substantially prejudice DCO's ability to collect the debt. In such cases, the DCO must afford the debtor due process as soon as practicable. For additional guidance on salary offset, refer to Chapter 2, paragraph 9.2.

2.7 Collection of Indebtedness Due to Underdeduction of Health or Life Insurance Premiums

2.7.1. An employee's debt may be the result of an election or a change in coverage in the Federal Employees Health Benefit (FEHB) or Federal Employees' Group Life Insurance (FEGLI) programs that results in the underdeduction of premiums. Collection of the debt caused by the underdeduction of premiums may be made without affording the employee full due process under 5 U.S.C. § 5514, if the amount to be collected accumulated over four pay periods or less, or the amount is \$50 or less. Refer to 5 CFR 550.1104(c) for additional information.

2.7.2. In such cases, the PRO must notify the employee, either in advance or concurrently with the actual collection. The notice must indicate: (1) because of the employee's election, future salary will be reduced to cover the period between the effective date of the election/change in coverage and the first regular withholding; and (2) a point of contact for contesting the retroactive collection. An appropriate notice on the LES that includes this information meets the requirement for notification.

2.7.3. If processing delays cause the debt to accumulate over more than four pay periods, then the DCO must use the due process procedures required under 5 U.S.C. § 5514, as outlined in Chapter 2.

2.7.4. For guidance on collecting debts arising from the nonpayment of premiums when an employee is in a non-pay status, or when salary is insufficient, refer to Volume 8, Chapter 11 and the Office of Personnel Management (OPM) [FEHB Handbook](#) or [FEGLI Handbook](#).

2.7.5. The DCO may request OPM recover past-due health insurance premiums from separated employees by requesting OPM withhold the amount due from any payment owed to the former employee from a refund or retirement annuity. The agency must submit an [OPM Form 1522](#), Request for Offset for Health Benefits Premiums From Monies Payable Under the Civil Service Retirement System (CSRS) or the Federal Employees Retirement System (FERS) (In Lieu of [Standard Form \(SF\) 2805](#), Request for Recovery of Debt Due the United States), to request the offset from amounts that may be paid to the separated employee from the retirement system. See [FERS Handbook, Chapter 4](#).

2.7.6. An employee's health insurance plan carrier may garnish an employee's wages to collect debts owed to the carrier following the provisions of [5 CFR, Part 582](#).

2.8 Collection of Indebtedness from Final Salary and Lump-Sum Payments

2.8.1. Collection of a Previously Established Debt

2.8.1.1. Under 5 U.S.C. § 5514, when an employee separates by resignation, retirement, death, or termination of appointment, the employee's final pay (including lump-sum leave payments) will be applied to the extent necessary to liquidate a previously established debt. The 15 percent disposable pay limitation does not apply to the offset. To recover the debt, other payments due from any source (such as amounts claimed for travel and transportation) should be applied to the debt.

2.8.1.2. Due process is not necessary if debt collection is already in process at the time of the employee's separation, and the employee has previously been afforded notification of the debt and an opportunity for review. For deceased employees, any unpaid compensation due must be applied to liquidate any indebtedness with no limit on the maximum rate of collection. If a debt balance remains after offsetting and collecting the debt from the deceased employee's final pay, the DCO should forward the debt case to the Debt and Claims Management Office (DCMO) for collection against the estate of the deceased employee. The DCO should not pursue collection of the employee's debt from any of the employee's beneficiaries named under [5 U.S.C. § 5582](#).

2.8.2. Collection of a Newly Established Debt. When an employee separates by resignation, retirement, death, or termination of appointment and, upon the separation, a debt is newly established (i.e., the debt was not previously established and is not already being collected from salary under the authority of 5 U.S.C. § 5514), the DCO must collect the debt using administrative offset under [31 U.S.C. § 3716](#). The DCO must apply all money payable to the employee to collect the debt with no limit on the maximum rate of collection. As soon as practicable, the DCO must give the debtor notification of the debt and an opportunity for review under Chapter 2. More information may be found in [31 CFR 901.3\(b\)\(4\)\(iii\)\(C\)](#).

2.8.3. Collection of a Debt from Severance Pay. Collection of a debt from an employee's severance pay issued under [5 U.S.C. § 5595](#) is permissible under 31 U.S.C. § 3716. If an employee has not previously received notification of the debt and an opportunity for review (due process) under Chapter 2, the DCO must grant notice of the debt to the debtor as soon as practicable. Refer to 31 CFR 901.3(b)(4)(iii)(C) for additional guidance. There is no limit on the maximum rate of collection, and all money due and payable to the employee is subject to offset. Severance pay represents wages credited to the employee's account; therefore, deductions taken from severance pay should be computed before the offset. The employee's net pay amount is available for administrative offset under 31 U.S.C. § 3716. In addition, under [5 CFR 581.103](#), severance pay is subject to court-ordered garnishments for alimony, child support, and commercial debts.

2.9 Collection of Indebtedness from Transferring DoD Employees

2.9.1. General

2.9.1.1. This section applies to DoD employees who transfer within DoD, resulting in a change of PRO, and to employees who transfer to a non-DoD federal agency. The instructions

contained in this paragraph apply regardless of the point in the debt collection cycle when the employee's separation occurs. For example, the employee may separate while installment payments are being made, a waiver request is being considered, a petition for a hearing is pending, or the written notification of indebtedness is being prepared.

2.9.1.2. In general, all actions will continue upon the employee's separation. While hearings regarding the amount of involuntary offset should be terminated upon an employee's separation, other hearings concerning the validity or amount of a debt must continue, and a written determination should be issued. If, due to subsequent events, the indebtedness is nullified, the DCO must refund amounts withheld from both current and final pay. Refunds must be made without requiring a claim from a former employee.

2.9.2. Transfer Within DoD that Results in a Change of PRO

2.9.2.1. In accordance with 5 CFR, Part 550, Subpart K, the losing PRO must ensure the gaining PRO is aware of the following information, which is typically provided systemically:

2.9.2.1.1. The identity of the indebted employee;

2.9.2.1.2. The amount of the debt, including assessments of interest, penalties, and administrative charges (IPA), when appropriate;

2.9.2.1.3. The accounting classification for credit;

2.9.2.1.4. The nature of the debt and the original due date (generally 30 days from the initial notification of indebtedness);

2.9.2.1.5. Copies of all correspondence sent to or received from the employee, including waiver requests, hearing petitions, decisions on waiver requests, and determinations of hearing officials;

2.9.2.1.6. The original copy of any voluntary repayment agreements. If none exists, a statement of the biweekly percentage of involuntary offsets must be included;

2.9.2.1.7. The date the right to collect the debt first occurred. Generally, this is the date the overpayment occurred. If offset has already begun, the date of the last offset will be given;

2.9.2.1.8. A statement regarding the status of any unfinished actions which may be pending. When such action is completed, the gaining PRO must be immediately advised;

2.9.2.1.9. A request that the offset be accomplished or continued; and

2.9.2.1.10. A copy of [DD 2481](#), Request for Recovery of Debt Due the United States by Salary Offset, properly completed and certified.

2.9.2.2. The losing PRO must complete any pending actions involving due process or waiver and notify the gaining PRO of the outcome. Upon receipt of the required information, the gaining PRO must assume full responsibility for collection of the debt, pending receipt of previously unfinished actions. Any agreements reached regarding installment repayments or the decision not to accrue or assess IPA are binding on the gaining PRO. If the debt is subject to interest, the gaining PRO must make the necessary computations. Installment deductions already begun must continue without interruption.

2.9.3. Transfer to Another Federal Agency. When an employee transfers to another federal agency outside of DoD, the PRO/DCO should forward the debt case to the DCMO pursuant to the instructions in section 5.0.

2.10 Collection of Indebtedness from Retirement Funds of Former Civilian Employees

2.10.1. Action by the PRO

2.10.1.1. General. Upon retirement, if an employee is still indebted to DoD, and the amount withheld from final salary and lump-sum payments (paragraph 2.8) is inadequate to satisfy the indebtedness, then the DCO may [take the following actions](#).

2.10.1.1.1. Refer the debt to DCMO. In most cases, after providing the employee with the [due process rights found in Chapter 2](#), the PRO [will](#) submit the debt directly to the DCMO for collection action that may result in the offset of retirement funds via referral to the U.S. Department of the Treasury (Treasury) Offset Program.

2.10.1.1.2. Refer the debt to OPM. The PRO [may](#) request that OPM offset the indebtedness against monies due and payable to the separated employee from the CSRS or FERS basic benefits. Such a request is in the form of a debt claim submitted to OPM by the DCO. A debt claim is the agency's request for recovery of the debt by OPM. This practice does not apply to Nonappropriated Fund Instrumentality employees. For additional information on collection of indebtedness from retirement funds, refer to [5 CFR, Part 831, Subpart R](#) (for CSRS retirees) and [5 CFR, Part 845, Subpart A](#) (for FERS retirees).

2.10.1.1.2.1. Submission of Complete or Incomplete Debt Claims to OPM. If the DCO chooses to submit a claim directly to OPM, it must do so in accordance with [5 CFR 831.1805\(b\)\(5\)](#), [5 CFR 845.405\(b\)\(5\)](#), and the CSRS and FERS Handbook, Chapter 4.

2.10.1.1.2.2. Notice to the Employee. Prior to sending a debt claim request to OPM, the DCO must notify the employee in writing that a debt claim is being sent to OPM to offset the employee's CSRS or FERS basic benefits. The letter must state the amount of the debt at separation, the amount recouped from final pay and other sources, and the balance due. The letter must inform the employee that if he or she makes full payment of the balance due, the debt will not transfer to OPM. This notice is in addition to any previous due process notification the employee should have received. Refer to Exhibit 3-1 for a sample notification.

2.10.1.1.2.3. Due Process. The DCO must provide due process to the debtor prior to submitting the debt to OPM for collection unless the DCO submits an incomplete debt claim.

2.10.1.2. Scope. The instructions contained in subparagraph 2.10.1 apply to all debts that the DCO is collecting on behalf of DoD, with the exception of debts resulting from an individual's failure to pay health benefit premiums. Refer to paragraph 2.7 for guidance regarding the collection of debts for health benefit premiums.

2.11 Collection of Indebtedness from Former DoD Civilian Employees

PROs and DCOs must refer debts of former personnel, who are no longer DoD civilian employees (out-of-service debtors), to the DCMO. See section 6.0 for Components using Treasury's Centralized Receivables Services (CRS), as authorized by an appropriate authority within DoD.

2.12 Collection of Debts Other than Overpayment of Pay and Allowances

2.12.1. General. Pursuant to [5 CFR 550.1109](#), DoD Component organizations external to the PRO (such as employing agencies) may request the PRO recover debts from current employees of the component by means of salary offset. Such debts originate outside of the PRO and are not due to an overpayment of pay or allowances. In general, the PRO will not review the merit of a debt originating outside the PRO.

2.12.2. Requests for Involuntary Salary Offset under 5 U.S.C. § 5514. Requests from DoD Components for involuntary salary offsets under 5 U.S.C. § 5514 for the following types of overpayments should be forwarded to the PRO on a DD 2481. The form requires certification by an appropriate official that the employee has been provided due process pursuant to Chapter 2. Salary offset is limited to 15 percent of disposable pay for the following debts:

2.12.2.1. Overpayment of travel allowances;

2.12.2.2. Report of Survey (also known as Government Property Lost or Damaged) debts (provided that procedures, as prescribed in the cognizant DoD Component regulations, are completed before invoking involuntary salary offset under 5 U.S.C. § 5514);

2.12.2.3. Unofficial telephone use;

2.12.2.4. DoD Component hospital uncollected billings;

2.12.2.5. Commissary store debts (such as for dishonored personal checks); and

2.12.2.6. Fees received for court service, such as fees received from the court for service as a juror or witness. Refer to Volume 8, Chapter 5 for additional guidance on these fees. Fees are returned to the appropriation or fund from which the employee is paid under [5 U.S.C. § 5515](#).

2.12.3. Requests for Salary Offset Under Other Statutory Authority

2.12.3.1. Collections of Unused Travel Advances (Unearned Advance Per Diem and Mileage Allowance) and Unearned Temporary Quarters Subsistence Expense. In addition to 5 U.S.C. § 5514, additional statutes authorize salary offset. The PRO should follow any specific requirements under these statutes for offset. When a statute does not provide other procedures, prior to any involuntary offset, debtors should be provided with notice of the debt and an opportunity for review. See 64 Comptroller General (Comp. Gen.) 142 (1984).

2.12.3.1.1. Under [5 U.S.C. § 5705](#), a federal employee who is entitled to per diem or mileage allowances may receive a travel advance. Any amount of the travel advance that is not used for allowable expenses must be collected. The travel pay office or the employing activity must give the employee an immediate opportunity to repay any amount due in a lump sum.

2.12.3.1.2. If the employee does not make immediate payment, offset may be made against all accrued pay, retirement credit for individuals who have left federal employment prior to being eligible for retirement, or any other amounts due the employee. The offset may be made without limitation, as long as it does not cause extreme financial hardship. Refer to Chapter 2, paragraph [8.1](#) for guidance on determining financial hardship. The travel functional area must notify the PRO of the request for offset in writing and must provide a copy of the employee's signed repayment agreement, when applicable. The PRO must collect the debt in one lump sum, or in installments, in accordance with the employee's signed voluntary repayment agreement or written instructions provided by the travel pay office or the employing activity.

2.12.3.2. Excess Costs Due to Shipment of Personal Property. A debt for excess cost is created when an employee's shipment of personal property exceeds the authorized weight allowance. A DD 2481 must be issued to the employee's PRO to request collection under [5 U.S.C. § 5724\(a\)\(2\)](#). The collection of the excess costs from an employee's pay is considered a voluntary salary offset since the employee agreed to repay the excess costs when he or she signed [DD 1299](#), Application for Shipment and/or Storage of Personal Property, before the actual shipment of the property.

2.12.3.2.1. The employee may submit a written request for reconsideration of any amount due to his or her employing activity's transportation management representative within 30 days of the debt notification.

2.12.3.2.2. After the agency performs the reconsideration and has notified the employee of the result, the transportation management representative must notify the PRO in order to begin the collection by offset of any balance due.

2.12.3.3. Collection of Employee Training Expenses

2.12.3.3.1. When an employee fails to fulfill a training agreement, and he or she does not voluntarily repay the employing activity, collection of training expenses from the employee's pay account is authorized under [5 U.S.C. § 4108](#). In accordance with [5 CFR 410.309](#),

the employing activity must give the employee the opportunity to request a reconsideration of the amount to be recovered or to request a waiver of the activity's right to recover.

2.12.3.3.2. In order for the PRO to initiate collection by salary offset, the DoD Component training office must supply the PRO with a copy of the [SF 182](#), Authorization, Agreement and Certification of Training, showing the employee's signed consent to the terms of the training agreement, along with a copy of the notification of indebtedness issued to the employee by the training office. The PRO must forward a copy of the SF 182 to the employee with written notification advising the employee of the payroll deduction amount.

2.12.3.4. Negotiation of Duplicate Treasury Payments

2.12.3.4.1. The negotiation of an original Treasury check that was replaced by a recertified check is an illegal and improper payment for purposes of pecuniary liability. The disbursing officer who issues a duplicate payment is responsible for collection of the duplicate payment from the payee.

2.12.3.4.2. The disbursing officer must give the payee an opportunity to dispute the debt or to consent to salary offset. If the employee agrees to repayment, the disbursing officer must forward to the PRO a signed statement from the employee agreeing to voluntary collection from pay and evidence that negotiation of both instruments has occurred. The PRO must inform the employee that it will deduct the amount of the indebtedness in full from the next salary payment. If, for any reason, the disbursing officer cannot produce a written consent from the employee, then the PRO must treat the case as an overpayment and provide the employee a written debt notification and opportunity for review as required by Chapter 2. After the completion of due process requirements, if the employee does not authorize voluntary deductions, involuntary salary offset must be made under 5 U.S.C. § 5514.

2.12.3.5. Collection of Dishonored Personal Checks. Collect for dishonored personal checks in accordance with Volume 5, Chapter 4.

3.0 COLLECTION OF DEBT FROM ACTIVE AND RESERVE MEMBERS

3.1 General

This section pertains to the collection of debt owed to DoD by active and reserve military members, hereafter referred to as members. Debt collection authority for members exists both under the common law and various statutes. Much of this section discusses the authority for collection under 37 U.S.C. § 1007 and 5 U.S.C. § 5514; however, there are other debt collection authorities listed in Tables 3-1 through 3-6.

3.2 Due Process Requirements

The head of the military pay office (typically the DCO) must ensure that it affords members all legal rights relative to collection of a debt due to overpayments of pay and allowances. Unless otherwise directed by statute, military members are entitled to due process, consisting of a notice

and an opportunity for review, prior to the initiation of debt collection. Refer to Chapter 2 for due process requirements. Refer to Chapter 4, section 6.0 for information on review opportunities for military members.

3.3 Collection From Member's Pay

3.3.1. General. General statutory authority for collection by salary offset from a member's pay exists under both 37 U.S.C. § 1007(c) and 5 U.S.C. § 5514. Generally, debts established by DoD agencies are collected under the authority at 37 U.S.C. § 1007 and debts that a non-DoD agency has administratively determined to be owed the United States are collected under 5 U.S.C. § 5514. Routine adjustments are authorized under 5 U.S.C. § 5514. Other statutory authority may authorize collection of specific classes of debts. See Comp. Gen. B-230865 (1990) and U.S. Tafoya, 803 F2d 140 (1986).

3.3.2. Voluntary Repayment Encouraged. Members indebted to the United States should be encouraged to discharge their indebtedness through lump-sum cash payments. When the amount of the debt relative to the member's ability to repay indicates that a lump-sum payment would create a financial hardship for the member, installment payments may be accepted. Members are encouraged to voluntarily accept liability for their indebtedness and to agree to a repayment schedule that adequately protects the interest of both the United States and the member. The member may authorize or request collection in greater amounts than could be collected involuntarily.

3.3.3. Collection without a Member's Consent

3.3.3.1. Current Pay

3.3.3.1.1. Current pay is available for repayment of a debt by involuntary offset (without the member's consent) only if such recovery is expressly authorized by statute. Refer to Tables 3-1 through 3-5 for guidance and statutory authority on involuntary collection from the member's pay.

3.3.3.1.2. Tables 3-1 through 3-5 authorize collection to be made involuntarily when statutory authority exists for such collection. The tables also reflect the limited circumstances under which collection may be made from the member's current pay only with a member's consent.

3.3.3.2. Final Pay. When a member receives final pay on separation, indebtedness to the United States may be collected under the common law rule of offset, subject to the limitations in subparagraphs 3.3.3.2.1 through 3.3.3.2.3 and Table 3-6. Even debts that are subject to collection from current pay only with the member's consent may be collected from final pay and allowances without the member's consent. Amounts owed to a Service relief society (i.e., Army Emergency Relief, the Navy-Marine Corps Relief Society, the Air Force Aid Society, or the Coast Guard Mutual Assistance) may also be collected from final pay without the member's consent as provided under 37 U.S.C. 1007(c) and (h). Except as specified in Table 3-6, amounts are generally collectible as follows:

3.3.3.2.1. Officers of any Service. There is no limitation on the amount that may be deducted from an officer of any Service from his or her final separation pay;

3.3.3.2.2. Army and Air Force Enlisted Members. An amount due from an enlisted member of the Army or Air Force may be deducted from their final separation pay. Pursuant to 37 U.S.C. 1007(d), the appropriate rate of collection in subparagraph 3.5.2 applies to collection from the member's final separation payment; and

3.3.3.2.3. Navy and Marine Corps Enlisted Members. There is no limitation on the amount that may be deducted from an enlisted member of the Navy or Marine Corps from his or her final separation pay.

3.3.3.3. Collection of Remaining Debt Amounts. When the entire debt cannot be offset from final separation pay, refer to section 5.0 for guidance on collecting additional amounts due after separation.

3.4 Computation of Gross and Disposable Pay

3.4.1. Gross Pay. Compute gross pay by adding together basic pay, all special and incentive pays, and all reenlistment bonuses. Gross pay does not include allowances or reductions in pay, such as forfeitures.

3.4.2. Disposable Pay. Disposable pay, when used to calculate maximum allowable deduction, is computed by deducting the following from gross pay of active duty members: Federal Insurance Contributions Act (FICA); Armed Forces Retirement Home; Federal Income Tax Withholdings (FITW); Servicemembers' Group Life Insurance (SGLI) (including Family SGLI (FSGLI) and Traumatic SGLI (TSGLI)); and State Income Tax Withholdings (SITW). For reservists, the deductions to calculate disposable pay are: FICA; FITW; SITW; and SGLI (including FSGLI and TSGLI).

3.5 Collections by Salary Offset Under 37 U.S.C. § 1007(c)

Section 1007(c) of Title 37 authorizes the deduction of an amount, from a member's current pay, that the Secretary of the Military Department concerned administratively determines to be owed to the United States, or any of its instrumentalities, due to the overpayment of pay and allowances. Debts collected under 37 U.S.C. § 1007 are subject to due process requirements. Limitations on amounts subject to collection under 37 U.S.C. § 1007 are set out in subparagraph 3.5.2. Two-thirds of the member's disposable pay is the maximum amount that may be deducted from his or her monthly pay, except as provided in subparagraph 3.5.2 or 3.3.3 for final separation. [Collection at the rate of two-thirds is not the default rate of collection and is applied only in those limited situations where the overpayment is the fault of the member. See subparagraph 3.5.2.1.](#) Where a member of one Military Service owes a debt to another Military Service and the creditor Service makes an administrative determination of indebtedness, the creditor Service may forward that determination, along with a certification of having complied with the appropriate instructions set forth in this section, to the military pay office servicing the member for collection action. Refer

to Chapter 2, subparagraph 14.5.5 for guidance on delaying the start of the repayment requirement to recover the indebtedness.

3.5.1. Due Process Requirements Under 37 U.S.C. § 1007

DCOs must use the procedures set out in Chapter 2 for debts that require due process be provided to the member. The field office must initiate due process after its receipt of a management notice from the pay system, and any subsequent debt collection must be based on an appropriate repayment schedule.

3.5.2. Amount of Pay Subject to Collection

3.5.2.1. Collection When Member is at Fault. When the military pay office determines that an overpayment of pay or allowances is the fault of the member, the military pay office may recover the debt in monthly installments of up to two-thirds of the member's disposable monthly pay. The member may consent to deduction of the debt at a greater percentage. Note: Collection at the rate of two-thirds is not the default rate of collection and is applied only in those limited situations where the overpayment is the fault of the member. Therefore, in most cases, collection at the rate set out in subparagraph 3.5.2.2 will be applicable.

3.5.2.2. Collection When Member is Not at Fault. When the military pay office determines that an overpayment of pay or allowances is not the fault of the member, it is authorized to recover the debt in monthly installments.

3.5.2.2.1. Overpayments Made On or Prior to October 28, 2009. If overpayment was made to a member on or before October 28, 2009, the military pay office will recover the overpayment in monthly installments not to exceed 20 percent of the member's disposable pay for each month. The military pay office may deduct a greater percentage with the member's consent.

3.5.2.2.2. Overpayments Made After October 28, 2009. If overpayment was made to a member on or after October 29, 2009, the military pay office will recover the overpayment in monthly installments not to exceed 15 percent of the member's disposable pay for each month. The military pay office may deduct a greater percentage with the member's consent.

3.5.2.2.3. Requests for Delayed Collection. For overpayments described in this subparagraph that are made on or after October 29, 2009, the military pay office is required to provide a reasonable opportunity for the member to request a delay in the imposition of the repayment requirement to recover the overpayment. Before beginning collection efforts, the military pay office must consider the reasons provided by the member for the requested delay, including the financial ability of the member to repay the indebtedness, and the hardship that immediate collection would impose on the member and the member's dependents.

3.5.3. Collection of Combat Zone/Combat Operation Wounded Member Debts

3.5.3.1. If a member, through no fault of the member, incurs a wound, injury, or illness while in the line of duty in a combat operation or combat zone designated by the President or the Secretary of Defense, then any overpayment of pay or allowances made to the member while the member recovers from the wound, injury, or illness may not be deducted from the member's pay until:

3.5.3.1.1. The member is notified of the overpayment; and

3.5.3.1.2. The later of the following occurs:

3.5.3.1.2.1. The end of the 180-day period beginning on the date of the completion of the tour of duty of the member in the combat operation or combat zone, or

3.5.3.1.2.2. The end of the 90-day period beginning on the date of the reassignment of the member from a military treatment facility or another medical unit outside of the theater of operations.

3.5.3.2. After receiving notification of the overpayment, a member may request initiation of collection action at an earlier date. The military pay office must determine the appropriate rate of collection pursuant to subparagraph 3.5.2.2 and must follow due process requirements set out in Chapter 2.

3.6 Collection by Salary Offset Under 5 U.S.C. § 5514

3.6.1. Debt Determination. A federal agency, other than the DoD, may determine that a member is indebted to the United States and that collection action against the member's monthly pay under the authority of 5 U.S.C. § 5514 is warranted. The collection of a debt owed to departments and agencies other than DoD (including its instrumentalities or other uniformed services) resulting from a court judgment is included under this collection authority. The non-DoD agency must forward the request for offset through Treasury's Cross-Servicing Program.

3.6.2. Amount of Collections. The military pay office may make collections not exceeding 15 percent of disposable pay for any pay period, unless the member authorizes a greater percentage in writing. Unsatisfied debts at discharge or retirement will be deducted from subsequent payments due the member. For additional guidance on salary offset, refer to Chapter 2, paragraph 9.2.

3.6.3. Due Process. The creditor agency to which the debt is owed must provide due process to the member and must certify due process was completed if the debt is submitted to the Defense Finance and Accounting Service (DFAS) for collection. For due process procedures, refer to Chapter 2.

3.6.4. Routine Administrative Adjustment

3.6.4.1. In accordance with 5 U.S.C. § 5514, DCOs are not required to provide due process procedures prior to collecting overpayments of pay and allowances using routine intra-agency pay adjustments. To collect by routine adjustment, the overpayment must have either occurred within the four pay periods preceding the adjustment, or amount to \$50 or less. Routine adjustments may be necessary due to an overpayment attributable to clerical errors, administrative errors, delays in processing pay documents, or underdeduction of premiums, for example. The DCO must provide the debtor with written notice of the nature and amount of the adjustment, as well as a point of contact for questions regarding the adjustment. This information should be provided by the payday for the pay period in which the adjustment is processed, or as soon thereafter as practical. An appropriate notice on the LES meets the requirements for notification.

3.6.4.2. The actual overpayment must have occurred after April 26, 1996.

3.6.4.3. The amount deducted may not exceed 15 percent of disposable pay, unless the debtor has consented in writing to a higher amount. The servicing military pay office must generate a “no pay due” management notice when a debt creates a “no pay due” situation.

3.6.5. IPA Costs. Interest will be charged beginning from the date of delinquency. IPA will be assessed and calculated pursuant to Chapter 7, 31 U.S.C. § 3717, and 31 CFR 901.9.

3.7 Indebtedness Incurred in National Guard or Reserve

When a member re-enters active Military Service, the military pay office must collect from active pay and allowances any indebtedness the member incurred while in a National Guard or Reserve status.

3.8 Member Dies after Receiving Advance Salary Payment

Advance payday payments made in accordance with Volume 7A, Chapter 32 are not considered “indebtedness” if the member dies before the date through which the pay was computed and paid.

3.9 Centralized Processing of Involuntary Withholding of Member’s Pay for Debts Owed to the Services’ Exchange Commands

3.9.1. Purpose and Authority. This section provides the procedures for collecting in-service debts owed to the Army and Air Force Exchange Service, the Navy Exchange Command, and the Marine Corps Exchange Command (referred to collectively as “The Exchange Commands”). This section applies when active duty, reserve, and retired military members are delinquent in the repayment of a dishonored check or their credit plan. Under 37 U.S.C. § 1007(c), an amount that a member of the uniformed services is administratively determined to owe the United States may be deducted from the member’s pay in monthly installments.

3.9.2. Procedures. When a member is indebted to a service exchange, the service exchange may forward the determination to DFAS. DFAS will honor the request based on written certification from the Exchange Command that it complied with due process requirements found in Chapter 2. If the member has not paid the debt within 60 days from the date of the debt notification letter, then the Exchange Command may submit a [DD 139](#), Pay Adjustment Authorization, to DFAS. DFAS will collect the amount owed to the Exchange Command in accordance with the priority of pay deductions and collections in Volume 7A, Chapter 52.

3.9.3. Applicability and Scope

3.9.3.1. These procedures apply to the pay of Army, Navy, Air Force, and Marine Corps members serviced by the Defense Joint Military Pay System or the Marine Corps Total Force System.

3.9.3.2. DFAS will collect the amounts requested, as long as the total monthly amount collected, including any other debt amount being collected under 5 U.S.C. § 5514, does not exceed two-thirds of the member's disposable pay. The military pay office must reduce monthly collection amounts if the pay due a member is insufficient to cover authorized deductions or collections. Debt collection is subject to the rules presented in Table 3-5, as well as the priority of pay deductions and collections in Volume 7A, Chapter 52.

3.9.4. General Procedures

3.9.4.1. Exchange Commands must certify that they provided the member due process in accordance with Chapter 2. Exchange Commands must maintain due process documentation (debt notification letters and supporting documentation) on individual delinquent debt accounts.

3.9.4.2. Collection of any portion of the debt remaining uncollected at the time of a member's separation is subject to subparagraph 3.5.2.

3.9.4.3. When a member enrolls in a credit plan, the Exchange Command must advise the member of the maximum deduction for delinquent accounts under subparagraph 3.5.2. DFAS, or the field finance office, is responsible for ensuring that collections do not exceed two-thirds of the member's monthly disposable pay.

3.9.4.4. If a repayment amount exceeds the maximum deduction limitation, DFAS or the servicing military pay office must adjust by inputting a transaction to change the deduction.

3.9.4.5. The military pay office is responsible for answering inquiries from the member on how exchange debt transactions are reflected on the LES.

3.9.5. Exchange Command Responsibilities

3.9.5.1. Exchange Commands must respond to all inquiries from a member concerning his or her debts and deduction amounts.

3.9.5.2. Exchange Commands may not deduct any amount from a member's pay account to cover a dishonored check written by a dependent without consent of the member.

3.9.5.3. Exchange Commands must use a listing of basic pay rates, plus income data received from the member, to determine the amount that is equal to or less than two-thirds of the member's pay.

3.9.5.4. If a member separates from active duty, or if retired pay is suspended, and the debt was not fully collected, then the Exchange Command is responsible for collecting any remaining debt. The military pay office must advise the Exchange Command that the member has separated or that the retiree's pay has been suspended.

3.9.5.5. Exchange Commands are responsible for overpaid debts. When a member has overpaid a debt, the Exchange Commands must issue a refund immediately to the member for the overpayment.

3.9.5.6. Exchange Commands must honor a repayment agreement under which a member voluntarily agrees to repay the debt. If the member voluntarily repays the debt (off-line), then the Exchange Command must cancel the offset request and notify DFAS immediately.

3.9.5.7. For audit purposes, Exchange Commands must maintain and ensure the availability of all documentation pertaining to these debts.

3.9.6. System Overview

3.9.6.1. Once a collection action is deemed necessary, the Exchange Command must transmit a monthly update transaction requesting a pay deduction. The input should be applied to the pay account in the appropriate sequence (refer to Volume 7A, Chapter 52, Table 52-1).

3.9.6.2. DFAS provides new basic pay rates, or other pay data, to the Exchange Command as it becomes available.

3.9.6.3. During a processing month, Exchange Commands submit the electronic pay-adjustment transaction with name, social security number, total debt, and the deduction amount for the month. Exchange Commands electronically submit the information in time to adjust in the payment processing update.

3.9.6.4. The Exchange Command input identifies the balance due and the monthly collection amounts. If the debt is collected off-line after submitting the input, then the Exchange Command is responsible for the refund.

3.9.6.5. If the deduction amount input by the Exchange Command is greater than two-thirds of the member's disposable pay (subparagraph 3.4.2), then DFAS or the military pay office either changes the deduction amount or returns the debt to the Exchange Command for

adjustment in amount. After the deduction is processed, DFAS must notify the Exchange Command of any adjustments.

3.9.6.6. The Exchange Command manages the entire debt amount internally. Exchange Commands are responsible for notifying the member of the debt balance and encouraging the member to submit payments voluntarily. DFAS provides management notices (listing) to the servicing military pay office if applicable, which identifies the member's pay account to which the deduction is charged.

3.9.6.7. Rejects are downloaded to the Exchange Commands after each update. Exchange Commands are required to work rejects on a daily basis.

3.9.6.8. At the end of each processing month, in order to identify the affected members, DFAS sites wire-transfer the amounts deducted via electronic funds transfer to a central processing location for each Exchange Command.

4.0 COLLECTION OF DEBT FROM MILITARY RETIREES AND SBP ANNUITANTS

4.1 General

This section pertains to the collection of debt owed to DoD by military retirees, Retired Serviceman's Family Protection Plan (RSFPP) annuitants, or SBP annuitants due to the overpayment of annuity payments. A debt may be the result of an overpayment to the military retiree, or an amount owed to the Government but unpaid by a military retiree. A debt may be for an overpayment of military retired pay, Concurrent Retirement and Disability Pay, Combat Related Special Compensation (CRSC), an overpayment of active duty pay and allowances, or other indebtedness arising from service on active duty.

4.2 Due Process Requirements

The head of the military retiree pay office, DFAS – Retired and Annuitant Pay, must ensure that it affords military retirees all legal rights relative to the indebtedness arising from overpayments of pay and allowances, including due process under Chapter 2. This includes providing the military retiree the opportunity to request a delay in collection of the debt under 37 U.S.C. § 1007(c)(3)(B).

4.3 Routine Pay Adjustments Under 5 U.S.C. § 5514

4.3.1. In accordance with 5 U.S.C. § 5514, DCOs are not required to provide due process procedures prior to collecting overpayments of pay and allowances using routine intra-agency pay adjustments. To collect by routine adjustment, the overpayment must have occurred within the four pay periods preceding the adjustment or amount to \$50 or less. Routine adjustments may be necessary due to an overpayment attributable to clerical errors, administrative errors, or delays in processing pay documents. Routine adjustments include retroactive U.S. Department of Veterans Affairs (VA) increases that may result in retirement benefit debts.

4.3.2. The DCO must provide the debtor with written notice of the nature and amount of the adjustment, as well as a point of contact for questions regarding the adjustment. The information should be provided by the payday for the pay period in which the adjustment is processed, or as soon thereafter as practical. An appropriate remark added to the Retiree Account Statement (RAS) meets the requirements for notification.

4.3.3. The actual overpayment must have occurred after April 26, 1996.

4.3.4. The amount deducted may not exceed 15 percent of disposable pay, unless the debtor has consented in writing to a higher amount. The servicing pay office must generate a “no pay due” management notice when a debt creates a “no pay due” situation.

4.4 Debt Collection

4.4.1. General. When the indebtedness cannot be corrected using a routine pay adjustment, then the amount to be collected each month should be no less than \$50 (unless otherwise specified by statute), or an amount reasonable in relationship to the size of the debt and the military retiree’s ability to pay. Refer to Chapter 2, paragraph 8.1 for guidance on determining the financial status of the military retiree. Military retirees indebted to the United States should be encouraged to discharge their indebtedness through lump-sum repayment.

4.4.2. Authority for Involuntary Collection. A military retiree’s pay is available for repayment of indebtedness by involuntary offset without the military retiree’s consent, provided the military retiree is afforded due process under Chapter 2, as follows:

4.4.2.1. Debts to the DoD, or any of its instrumentalities or other uniformed services, will be deducted from pay under 37 U.S.C. § 1007(c);

4.4.2.2. Debts determined to be owed to another federal agency will be collected by salary offset under the authority of 5 U.S.C. § 5514;

4.4.2.3. Debts determined to be owed to another federal agency will be collected by administrative offset under the authority of 31 U.S.C. § 3716; and

4.4.2.4. Routine adjustments are authorized under 5 U.S.C. § 5514.

4.4.3. Limitation on Amount of Deductions. Debt collection amounts are subject to the limitations set out in the authorizing debt collection statute. The maximum monthly amount that may be collected under 37 U.S.C. § 1007(c) is subject to the limitations under subparagraph 3.5.2.

4.4.4. “No Pay Due” Notice. As a precaution to prevent avoidable hardship to the military retiree, generate a “no pay due” RAS for the military retiree when collection of a debt results in “no pay due.”

4.5 Debt Transfer on Retirement

Debts incurred while the military retiree was on active duty must be transferred on retirement to the military retiree pay office. Resume collection from retirement or retainer pay. It is not necessary to repeat the due process procedures prior to resuming collection.

4.6 Debt Owed to Another Military Service

When a military retiree of one Military Service (e.g., Army) owes a debt to another Military Service (e.g., Air Force), and a DCO of the creditor Service makes an administrative determination of indebtedness, the DCO may forward that determination, along with certification of compliance with due process requirements, to the DFAS Retired and Annuitant Pay for collection action.

4.7 Priority of Deductions and Collections

When the pay due a military retiree is not enough to cover all authorized deductions and collections, the DFAS Retired and Annuitant Pay office must use the following priority sequence for making deductions and collections from pay:

4.7.1. Reduction of pay entitlement, which takes precedence over all other items for deduction or collection. These reductions include:

- 4.7.1.1. Readjustment pay,
- 4.7.1.2. Separation pay,
- 4.7.1.3. Severance pay,
- 4.7.1.4. Variable Separation Incentive,
- 4.7.1.5. Special Separation Benefit,
- 4.7.1.6. Reserve Special Separation Pay,
- 4.7.1.7. Forfeiture of pay, and
- 4.7.1.8. VA compensation;

4.7.2. Reimbursement to the United States, to include:

- 4.7.2.1. FITW,
- 4.7.2.2. TRICARE – Dental Plan,
- 4.7.2.3. RSFPP premiums,

4.7.2.4. SBP and Supplemental SBP (SSBP) premiums, and

4.7.2.5. Reserve Component (RC) SBP (RCSBP) premiums;

4.7.3. Involuntary repayment of indebtedness to the United States, which includes:

4.7.3.1. Routine adjustments and automatic collections;

4.7.3.2. Other overpayments of retired pay and CRSC;

4.7.3.3. Delinquent RSFPP, SBP, SSBP, or RCSBP costs;

4.7.3.4. Debts arising from active duty;

4.7.3.5. Debts to DoD appropriated fund activities;

4.7.3.6. Hospital rations issued to a member;

4.7.3.7. Excess cost of shipment of household goods;

4.7.3.8. Unpaid hospital bills for medical services furnished a dependent;

4.7.3.9. Court-martial fines; and

4.7.3.10. Debts from other departments or agencies outside DoD, including court judgments;

4.7.4. Garnishment for alimony and child support payments and Uniformed Services Former Spouses' Protection Act payments;

4.7.5. Court-ordered bankruptcy payments under Chapter 13 of the revised Bankruptcy Code;

4.7.6. Indebtedness to a nonappropriated fund activity; and then

4.7.7. SITW.

4.8 Collection of Debt from SBP Annuitants

4.8.1. General. Generally, SBP annuity overpayments are the result of one of the following: (1) the failure to reduce an annuity by the amount of disability indemnity compensation awarded by the VA, (2) the non-termination of an annuity due to ineligibility, (3) an erroneous computation, (4) insufficient or untimely information, (5) unpaid SBP premiums, or (6) a determination by the Secretary of the Military Department concerned (or designee) that a participating member is alive after the Secretary concerned previously determined that the member was presumed dead

4.8.2. Liability. An SBP annuitant is liable for any debt resulting from the overpayment of an annuity. A military retiree is liable for a debt resulting from erroneous annuity payments that were made based on the presumption of the member's death. If the member dies before such payments are fully recovered, an annuitant who was the recipient of the annuity payments made under the presumption of death is liable for the indebtedness.

4.8.3. Collection of Debt. Upon discovery of an overpayment, the DCO must provide the annuitant with due process as required under Chapter 2. The DCO must advise the annuitant of the debt and the method by which the overpayment is being, or may be, liquidated. The debt may be liquidated by:

4.8.3.1. The annuitant making direct remittance payments to DFAS Retired and Annuitant Pay;

4.8.3.2. The annuitant authorizing the VA to reduce Dependency and Indemnity Compensation and remit the amount collected to DFAS Retired and Annuitant Pay; or

4.8.3.3. The DFAS Retired and Annuitant Pay reducing the SBP annuity payments through administrative offset as authorized by law.

5.0 COLLECTION OF DEBT FROM FORMER EMPLOYEES, FORMER MEMBERS AND OTHER NON-DOD RELATED DEBTORS

5.1 General

5.1.1. This section pertains to the collection of debts owed by individuals who are no longer employed by DoD or no longer on active duty. This section also covers individuals who were neither DoD employees nor active-duty members, but who are indebted to DoD. This category of debt is referred to as "out-of-service." If a Component's DCO cannot collect a debt through salary offset because the debtor is not being paid by DoD, and the debtor has not agreed to pay the debt in a lump sum, then the DCO should obtain debt collection services from the DCMO. The DCMO operates and maintains the Defense Debt Management System (DDMS) to provide centralized, cost-effective, automated debt servicing and collection assistance to DCOs on delinquent debts owed to DoD by individuals who are no longer paid by DoD. See section 6.0 for Components using Treasury's CRS.

5.1.2. The DCMO may also provide collection assistance for other debts as specifically agreed to in each Service's mission work agreement.

5.1.3. The DCMO must comply with the 31 U.S.C. § 3701- [31 U.S.C. § 3720E](#) and all applicable laws and regulations, including the FCCS. However, pursuant to paragraph 5.4, the DCO, [not the DCMO](#), is responsible for all due process requirements under the FCCS.

5.2 Reasons for Individual Out-of-Service Debts

An out-of-service debt occurs when a debtor separates from DoD and no longer receives a salary or other payments from DoD that can be offset to collect a previously established debt. Individual out-of-service debts may also arise from overpayments, erroneous payments to other individuals, or indebtedness by the public for use of DoD's facilities or services, such as healthcare services provided to non-beneficiaries of the Military Health System at DoD military treatment facilities.

*5.3 Advanced Education Assistance Debts Under 10 U.S.C. 2005

5.3.1. Advanced education assistance, including Reserve Officers' Training Corps scholarships and payments, require the recipient of such assistance to enter into a written agreement with the Secretary concerned. Under 10 U.S.C. 2005, the terms of the agreement must state that if the recipient does not complete the period of active duty, or other such terms as specified in the agreement, the recipient will be subject to the repayment provisions of 37 U.S.C. 303a(e) or 37 U.S.C. 373, under which the obligation to repay the United States is, for all purposes, a debt owed to the United States.

5.3.2. If a Service is unable to collect the repayment debt under the terms of the written agreement and the debt becomes delinquent, the delinquent debt may be transferred to the DCMO for further collection action. DCMO will collect the delinquent debt owed to the United States pursuant to 31 U.S.C. § 3701 - 31 U.S.C. § 3720E, regardless of the terms of the original agreement. DCMO will assess interest, penalties, and administrative costs as stated in the DFAS debt notification issued to the recipient, irrespective of the terms set forth in the original agreement.

5.4 Obtaining Service from the DCMO

Other DoD Components not supported by DFAS may obtain debt collection services from the DCMO. The DoD Component and the DCMO must document the services to be provided using a Fiscal Service Form 7600A, United States Government Interagency Agreement (IAA) - Agreement Between Federal Agencies General Terms & Conditions (GT&C) Section Support Agreement.

5.5 DCO Responsibilities

The DCO must:

5.5.1. Initiate debt collection and ensure due process requirements (notification and opportunity for review) are met. The DCO must issue the initial bill, invoice, and/or debt notification letter to the debtor and take appropriate follow-up action. The DCO may use bills and invoices as an initial attempt at debt collection. However, generally bills and invoices do not meet the requirements of due process. The DCO must issue a debt notification letter setting out the debtor's due process rights prior to submitting the debt to the DCMO for collection services. Although only one due process notification is required, a DCO may issue additional written

demands for payment to the debtor as deemed appropriate. Refer to Chapter 2 for guidance on issuing the debt notification letter;

5.5.2. Complete any previously initiated actions such as reclamation, appeal, litigation, or foreclosure before referring delinquent, individual, out-of-service debts to the DCMO;

5.5.3. Research and verify the military or civilian status of debtors to ensure that only individual out-of-service debts are referred to the DCMO, or ensure other debts transferred are in accordance with established procedures;

5.5.4. Refer delinquent, individual, out-of-service debts that are \$225 or greater to the DCMO no later than 60 days after the payment due date when the DCO has not been able to collect a debt or establish a repayment schedule with the debtor. If an individual has multiple debts all under \$225, then the DCO may consolidate the debts and refer them to the DCMO as one debt package. Components that have implemented the processes and procedures defined in the Delinquent Debt Management Guidance (DDMG) should refer eligible and legally enforceable, delinquent, individual out-of-service debt over \$25 to Treasury's Bureau of the Fiscal Service (Fiscal Service) Debt Management Services for further collection action where applicable. Refer to Volume 4, Chapter 3 for guidance on clearing individual out-of-service debts that are below the referral threshold;

5.5.5. For manually submitted debts, use a transmittal letter to refer eligible debts to the DCMO and to ensure that the debts are received by the DCMO (refer to paragraph 5.7 for systemic referral of debts to the DCMO). Prepare the transmittal letter in duplicate and send it to [askDFAS](#), along with all substantiating documentation, or to the DCMO, DFAS-IN, Department 3300 (ATTN: Case Management), 8899 East 56th Street, Indianapolis, IN 46249-3300, or via email to dfas.indianapolis-in.jaa.mbx.oosdebt-debtmgmt-baselevel@mail.mil. Send new debts with transmittal letters as often as required, but at least weekly. Identify on the transmittal letter all attached debt case files by name, social security number, and amount. Include the name, email address, and telephone number for the DCO point of contact and the name and location of the office accountable for the debt. Attach a copy of all documentation and background material in the debt case files. The required documentation includes:

5.5.5.1. A copy of the original bill, invoice, and/or debt notification letter. In order for the DCMO to accept the debt, the debt notification letter must comply with the requirements under Chapter 2;

5.5.5.2. The original debt principal amount with complete accounting classification and fiscal year to credit with any collections. Include a copy of the original disbursement voucher when the debt is the result of a previous payment;

5.5.5.3. The date the debt became known;

5.5.5.4. The date the debt was due;

5.5.5.5. The date the debt became delinquent (usually 30 days from the date of the debt notification letter);

5.5.5.6. The amount of accrued IPA;

5.5.5.7. Copies of any follow-up correspondence between the debtor and the DCO;

5.5.5.8. Amounts and dates of any prior collections and the accounting classification credited. Include a copy of the collection voucher when the collection was not processed through salary offset;

5.5.5.9. The debtor's branch of service or agency where formerly employed;

5.5.5.10. The debtor's, sponsor's, or beneficiary's social security number;

5.5.5.11. Military status and date of separation for members or employees whose period of service or employment ended with indebtedness;

5.5.5.12. Copy of DD 139 for military pay debts;

5.5.5.13. Copy of DD 2481 for civilian employee debts; and

5.5.5.14. Any other relevant documentation or information regarding the debt;

5.5.6. Include in each transmittal package a certifying statement that the amounts of the debts being referred are correct and that the debts are delinquent, valid, legally enforceable, and confirm that the DCO provided the debtor with all due process requirements. DCOs referring debts electronically must also submit a debt certification statement. Exhibit 3-2 is a sample debt certification statement;

5.5.7. Correct any errors in debt packages returned by the DCMO for correction/additional action and send the debt package back to the DCMO;

5.5.8. Coordinate with the DCO's supporting accounting office to ensure that it removes accountability for the referred debts from its records in accordance with the guidance in Volume 4, Chapter 3 upon receipt of the duplicate copy of the transmittal letter;

5.5.9. Maintain names, official addresses, and contact information for all witnesses to the events leading to the debt and copies of and location of physical evidence (documentation and other evidence) relating to the debt for payroll debts involving fraud, misrepresentation, or credibility, and for all non-payroll debts. Retain all investigative reports. This information is necessary in the event that the debt must be referred to Department of Justice (DOJ) for litigation; and

5.5.10. Mail any payments received from a debtor after the debt was referred to the DCMO to DFAS-IN, Department 3300 (ATTN: Case Management), 8899 East 56th Street, Indianapolis,

IN 46249-3300. Include the debtor's name and social security number so the DCMO can credit the proper account.

5.6 DCMO Responsibilities

The DCMO must:

5.6.1. Assist DCOs in the centralized management of debts, including automated, centralized processing, referral to private collection agencies or to the Treasury, reporting, and accounting of debts;

5.6.2. Return uncollectible debts, debts requiring additional DCO collection action, and debts with incomplete documentation to the DCO with an explanation of the reason for the return;

5.6.3. Determine the effective date for entering the debts into DDMS, annotate the effective date on the duplicate copy of the transmittal letter, and return the duplicate copy of the transmittal letter to the DCO;

5.6.4. Pursue collection action once debts are entered in DDMS. [Exhibit 3-3](#) illustrates a general overview of the individual, out-of-service, delinquent debt collection steps. The DCMO debt services provided to the DCO include the following: issuing written demands for payment to the debtor; collecting debts via lump sum or agreed-upon installment payments; referring delinquent debts to private collection agencies for collection; reporting debts to credit bureaus; referring uncollectible, delinquent debts to Treasury for offset (see Chapter 2); and referring uncollectible debts to the DOJ for litigation. The DCMO may also process debts for compromise, suspension of collection, or termination of collection. In the case of deceased debtors, the DCMO must use [DD 2840](#), Request for Information Regarding Deceased Debtor, to seek information from state probate courts concerning the establishment of an estate in order to pursue collection;

5.6.5. Provide the data recorded in DDMS monthly to DFAS departmental accounting offices;

5.6.6. Retain all pertinent debt documentation. Upon request, provide feedback regarding the status of debt collection to the applicable DoD Component; and

5.6.7. Provide PROs pertinent data regarding collections from former civilian employees so that the PRO may affect necessary changes (i.e., [SF 2812](#), Report of Withholdings and Contributions for Health Benefits, Life Insurance and Retirement; [SF 2806/SF 3100](#), Individual Retirement Record; Internal Revenue Service [\(IRS\) Form W-2](#), Wage and Tax Statement; and [IRS Form 941](#), Employer's QUARTERLY Federal Tax Return).

5.7 DFAS Departmental Accounting Offices

DFAS departmental accounting offices must use DDMS to establish and maintain accountability at the departmental level for all debts referred to the DCMO. DFAS departmental accounting offices must report the transfer-out and transfer-in of these debts on Part I, Section A,

Line 5.A, “Reclassified/Adjusted Amounts” on the Treasury Report on Receivables (TROR), and provide the required footnote. Components that have implemented processes defined in the DDMG must maintain accountability of debt in their systems and submit data for the TROR directly to Treasury. Volume 4, Chapter 3 contains more specific reporting requirements.

5.8 Collection Assistance for System-Generated Individual Out-of-Service Debts

5.8.1. Uncollected debts over \$225 maintained on the Master Military Pay Account of Active Component and RC service members that are due upon separation or retirement, debts for offset from retired pay or annuitant pay, and some other out-of-service debts are systemically referred to the DCMO. Debts being referred must be correct, valid, legally enforceable, and the DCO must have provided the debtor with all due process requirements unless there is an agreement that the DCMO will provide due process instead. Once these system-generated debts are entered in DDMS, the debts are serviced in the same manner as debts referred to the DCMO by the DCOs under paragraph 5.5. Defense Retiree and Annuitant Pay System (DRAS) debts are created when payments are made after the entitlement to retired pay has ended. DRAS debts are transferred to the DCMO each month by an interface between DRAS and DDMS.

5.8.2. Components that have implemented the processes and procedures defined in the DDMG should refer eligible and legally enforceable, delinquent, individual, out-of-service debt over \$25 directly to Treasury for further collection action where applicable (see Chapter 2 for guidance on referring delinquent debts to Treasury).

6.0 COLLECTION OF DEBT USING TREASURY CRS

CRS is a Treasury, Fiscal Service program managed by its Debt Management Services area. Under its authority at [31 U.S.C. 3711\(g\)](#), CRS provides servicing for federal, nontax, administrative debt from the point at which a creditor agency establishes a debt until the debt is paid, otherwise resolved, or referred to the Treasury’s Cross-Servicing program for further action. A creditor agency using CRS services must execute an annual written agreement with Fiscal Service and certify that referred debts are valid and legally enforceable. DoD Components that are authorized to enter into a CRS agreement with Treasury use the service to collect debts owed to DoD. Collection is governed by the terms of the CRS agreement. See [*I Treasury Financial Manual Part 3 – Chapter 3000*](#) for further guidance.

7.0 REFUNDING PREVIOUSLY COLLECTED DEBTS AND LATE PAYMENT CHARGES

7.1 Scope

This section does not pertain to refunds authorized under the Contract Disputes Act. Refer to Chapter 5 for specific guidance on contract debt.

7.2 General

Refunds of collected debts may be required for a variety of reasons, but generally are based on a determination that the debt is invalid or should have been forgiven under applicable law or regulation. Payments received from debtors for principal and IPA must be refunded to the debtor when a debt is found not to be due to the Government. For example, refunds may be appropriate in instances where waiver or remission is granted, when a post-collection clarification changes the debt amount, or as a result of an administrative or judicial order. A refund may also be appropriate if collection from an employee's pay exceeds the allowable percentage of disposable pay due to an error in computation. If an offset mistakenly exceeds 15 percent of disposable pay when the debtor has not consented to deductions at a greater percentage, then the DCO must refund the difference to the debtor upon the debtor's request.

7.3 Payment Voucher for Refunds

When making a refund payment, the DoD Component or DCO must prepare a [SF 1034](#), Public Voucher for Purchases and Services Other Than Personal, or other approved voucher, and submit it for payment to the disbursing office. Documentation from the debtor or other source(s) that establishes the claim for a refund must accompany the voucher. The DoD Component or DCO must retain a copy of the voucher and supporting documentation in the debtor's case file.

7.4 Refunds Available for Administrative Offset

Refunds of amounts previously collected may be applied to other, unrelated outstanding debts the debtor may owe to the Government, as long as due process has been provided.

7.5 Determination of Refund Amount

The amount refunded to the debtor may include money that was originally collected for principal and IPA, or if the debt was collected by Treasury and/or a private collection agency, any additional fees imposed by those entities must be considered for inclusion in the refund. Treasury and private collection agencies retain any fees assessed for the collection of the debt. However, the amount refunded to the debtor must be the total amount collected, including any fees assessed by the Treasury and/or private collection agencies. The debtor should receive a full refund even though fees imposed by Treasury or private collection agencies may not be returned to the referring DCO. Interest is not paid on refunds unless the refund is the result of a personnel action and interest is ordered to be paid under the Back Pay Due to Unjustified Personnel Action at [5 U.S.C. § 5596](#).

7.6 Funding the Payment of Collected Debt Refunds

Refer to Volume 4, Chapter 3 for guidance on which appropriation(s) to charge when refunding amounts collected for principal debt and IPA.

Exhibit 3-1. Sample Notification Prior to Referral of Debt to OPM

(1)

(2)

Dear (3):

Our records indicate that you are separating from Federal service. On (4), you were notified that you were overpaid for pay periods ending (5)-(6) in the gross amount of (7). The remaining balance of your debt is (8), after all prior payments and offsets, and after collection from your final pay.

Payment of the Balance Due on Your Debt. Please pay the balance due of your debt in full by (9), which is 30 days from the date of this letter. Your check or money order should be made payable to [\[Insert recipient, e.g., DFAS-CL DSSN 8522\]](#) in the amount of (8). Please send your payment to [\[Insert mailing address\]](#).

If you do not pay the balance due on your debt within 30 days, your debt will be forwarded to the Office of Personnel Management (OPM) for recovery by offset from Civil Service Retirement System (CSRS) or Federal Employees Retirement System (FERS) basic retirement or disability benefits paid to you. DFAS will not forward your debt to OPM if you pay the remaining balance due within 30 days from the date of this letter. The DFAS Debt and Claims Management Office will continue to pursue the collection of your debt after you leave Federal service.

If you have further questions regarding this debt contact the [\[Insert name and contact information, e.g., Indebtedness Processing Team at \(800\) 538-9043\]](#).

Sincerely,

(10)

(11)

Exhibit 3-1. Sample Notification Prior to Referral of Debt to OPM (Continued)

Explanation of Blank Spaces on Sample Debtor Notification

- (1) Date
- (2) Address of the Debt Collection Office
- (3) Last name of debtor with proper title (Mr. or Ms.)
- (4) Date of the due process notification originally sent to the debtor
- (5) First pay period of overpayment
- (6) Last pay period of overpayment
- (7) Gross amount of the debt of which debtor had been previously notified
- (8) The net amount of debt remaining at the time of this notification
- (9) The date by which the debtor must pay the debt in full or else it will be forwarded to the Office of Personnel Management, usually 30 days from the date the letter is issued
- (10) Supervisory signature
- (11) Identify by name, the signatory for the letter

Exhibit 3-2. Sample Debt Certification Statement

DEBT CERTIFICATION STATEMENT

Pursuant to Title 28, United States Code, Section 1746 ([28 U.S.C. § 1746](#)), I certify under the penalty of perjury that to the best of my knowledge and belief that the debts submitted herewith are delinquent, valid, and legally enforceable in the amounts stated. The debts are not subject to any circumstances that legally preclude or bar collection, including collection by offset. The debtor has been afforded all due process rights, including notification and an opportunity for review under 31 U.S.C. § 3716. Records available do not show that any debtor owing a debt has filed for bankruptcy protection.

PREPARATION AND SUBMISSION INSTRUCTIONS

REQUIRED SIGNATORY: The submitting office's director, deputy director, or designee.

MANUAL DEBT SUBMISSION: Prepare and send a copy of the Certification Statement along with each manual submission of debts.

ELECTRONIC DEBT SUBMISSION: Prepare and mail a copy of the Certification Statement to cover the electronic submission of debts to: DCMO, DFAS-IN, Department 3300 (ATTN: Debt Establishment), 8899 E. 56th Street, Indianapolis, IN 46249-3300. Prepare and mail a new Certification Statement whenever the signatory changes. For those periodic electronic debt submissions when it is not necessary to reissue and mail a paper copy Certification Statement (i.e., no change in signatory), e-mail the Certification Statement to cover the electronically transmitted debts. Contact the DCMO to obtain the current e-mail address for submission of e-mailed certifications.

Exhibit 3-3. DDMS Debt Processing Steps

Exhibit 3-3. DDMS Debt Processing Steps (Continued)

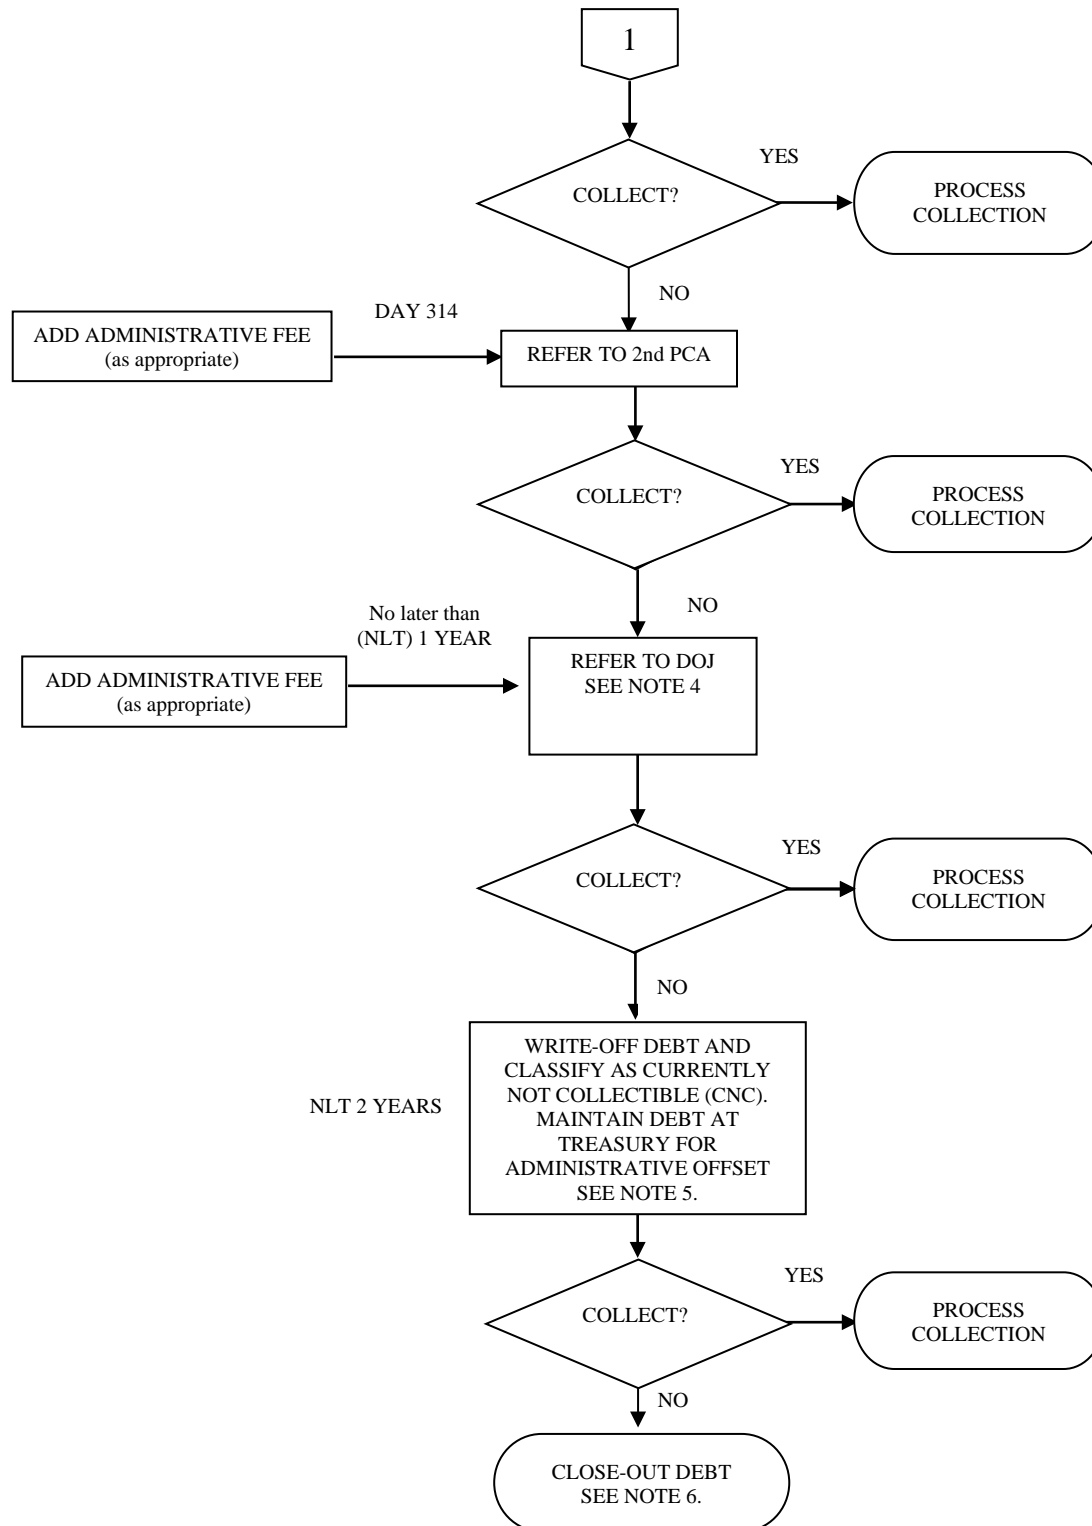

Exhibit 3-3. DDMS Debt Processing Steps (Continued)**NOTES:**

1. The number of days depicted in this chart reflects the approximate number of days that a debt has been recorded in DDMS.
2. Interest is accrued and assessed monthly throughout the life of a delinquent debt.
3. Debts are reported to credit bureaus no earlier than 60 days from the date the debtor is notified of the intention to report the debt to a credit bureau. The DCMO includes this notice in the initial letter to the debtor (Day 2).
4. Refer to Chapter 2 for thresholds to refer debts to DOJ.
5. Refer to Volume 4, Chapter 3 for guidance on write-off and classification of debt as CNC.
6. Refer to Volume 4, Chapter 3 for guidance on the close-out of debts.

Table 3-1. Military Member Indebtedness Due to Erroneous Payments, Government Accountability Office (GAO) Disallowances, and Notices of Exception

R U L E	If an	of	is indebted to the United States for	and	then collect from current pay	at a monthly rate not to exceed that shown in this table or in the rule cited
1	officer or enlisted member	any Military Service	payment disallowed by GAO or by the DoD Office of the General Counsel in accounts of a disbursing or certifying officer	the Secretary of the Military Service concerned or the Secretary's designee has determined the indebtedness is valid	involuntarily (note 1)	disposable pay (see subparagraph 3.4.2 and Table 3-6, rule 2).
2	officer or enlisted member	any Military Service	debt cited in GAO notice of exception or informal inquiries (note 2)	the Secretary of the Military Service concerned or the Secretary's designee has determined the indebtedness is valid	involuntarily (note 1)	Table 3-6, rule 2.
3	officer or enlisted member	any Military Service	erroneous payment (including allotments the member knew or reasonably should have known were erroneous) made to or on behalf of the member of any uniformed service (note 3)	the Secretary of the Military Service concerned or the Secretary's designee has determined the indebtedness is valid	involuntarily (note 1)	Table 3-6, rule 2.
4	officer or enlisted member recovering from a wound, injury, or illness incurred through no fault of the member in the line of duty in a combat operation or zone	any Military Service	an overpayment of pay or allowances through no fault of the member incurred on or before October 28, 2009	the Secretary of the Military Service concerned or the Secretary's designee has determined the indebtedness is valid	after a 90-day delay following reassignment of the member from a military treatment facility or other medical unit outside of the theater of operations or member's consent (see subparagraph 3.5.3)	Table 3-6, rule 5.

Table 3-1. Military Member Indebtedness Due to Erroneous Payments, Government Accountability Office (GAO) Disallowances, and Notices of Exception (Continued)

R U L E	If an	of	Is indebted to the United States for	and	Then collect from current pay	at a monthly rate not to exceed that shown in this table or in the rule cited
5	officer or enlisted member recovering from a wound, injury, or illness incurred through no fault of the member in the line of duty in a combat operation or zone	any Military Service	an overpayment of pay or allowances through no fault of the member incurred on or after October 29, 2009	the Secretary of the Military Service concerned or the Secretary's designee has determined the indebtedness is valid	after a 180-day delay beginning on the date of the completion of the tour of duty of the member in the combat operation or combat zone or member's consent (see subparagraph 3.5.3)	Table 3-6, rule 6.
6	officer	any Military Service	erroneous payment of allotment caused by failure to report, as required, the death of the allotter or any other fact making the allotment not payable	appropriate investigation is made, and the overpaid amount is not recovered from the allottee	with officer's consent, or with approval of the Secretary concerned	applicable amount of allotment.

NOTES:

1. This does not change rules on collections of indebtedness of accountable, certifying, or disbursing officers.
2. If a Notice of Exception covers erroneous payment by a uniformed service, then rule 3 will be applied. A Notice of Exception is issued by the GAO and pertains to a disbursing officer account(s).
3. When a member's pay is not promptly reduced to allow for Uniform Code of Military Justice forfeitures, the resulting indebtedness is considered an erroneous payment within this rule.

Table 3-2. Military Member Indebtedness Due to Loss of Public Funds

R U L E	If an	of	is indebted to the United States for	and	then withhold from current pay	at a monthly rate not to exceed that shown in this table or in the rule cited
1	account- able official (note 1)	any Military Service	arrears in accounts because of failure to account for funds entrusted to the member	debt is admitted by officer (note 2)	involuntarily	disposable pay (see subparagraph 3.4.2 and Table 3-6, rule 2).
2	account- able official (note 1)	any Military Service	arrears in accounts because of failure to account for funds entrusted to the member	debt is shown by the judgment of a court	involuntarily	disposable pay (see subparagraph 3.4.2 and Table 3-6, rule 2).
3	account- able official (note 1)	any Military Service	arrears in accounts because of failure to account for funds entrusted to the member	debt is shown by special order issued by the Secretary of the Military Service concerned	involuntarily	rate directed by special order of Secretary of the Military Service concerned (all pay excluding allowances, or lesser amount).
4	account- able official (note 1)	any Military Service	arrears in accounts because of failure to account for funds entrusted to the member	relief of an officer, pursuant to 31 U.S.C. 3527 , was denied.	involuntarily	rate directed by special order of Secretary of the Military Service concerned (all pay excluding allowances, or lesser amount).
5	account- able enlisted member (note 3)	any Military Service	arrears in accounts because of failure to account for funds entrusted to the member	relief of an officer, pursuant to 31 U.S.C. 3527, was denied.	involuntarily	disposable pay (see subparagraph 3.4.2 and Table 3-6, rule 2).
6	officer or enlisted member	any Military Service	public funds obtained or converted to own use through fraud, larceny, embezzlement, or other unlawful means	the mis- appropriation of funds is admitted by the member	involuntarily, or as prescribed by regulations of the Military Service concerned	Table 3-6, rule 2 (note 4).

NOTES:

1. Applies to officers who hold in trust sums or balances of public money for which they are required to account, such as disbursing officers and deputies or agents to disbursing officers.
2. A mere acknowledgment or report of a shortage in accordance with Military Service regulations is not an admission for the purpose of this rule. The phrase “debt is admitted” means either a written statement made by the accountable officer admitting indebtedness, acknowledged or witnessed before a person authorized to administer oaths, or another person designated by higher authority, or if the accountable officer refuses to sign a statement, then a certification by a commissioned officer that the accountable officer clearly and unequivocally admitted the indebtedness is sufficient to authorize the withholding from officer’s current pay.
3. If exact amount of debt is not known at the time the loss is discovered, then establish the debt at the amount then known and adjust when investigation is completed.
4. Applies to enlisted members who are entrusted with public funds. It includes military postal clerks and members who, though not bonded, are entrusted with public funds for small purchases.

Table 3-3. Military Indebtedness Due to Loss or Damage to Public Property or Supplies

R U L E	If	of	is indebted to the United States for	and	and	then collect from current pay	at a monthly rate not to exceed that shown in this table or in the rule cited
1	an account- able officer	the Army or Air Force	loss or damage to military supplies, upon final settlement of accounts of officer charged with issue of the supplies	the officer fails to show satisfactorily that the loss or damage of property was not due to any fault on the officer's part	the officer is found pecuniarily liable by a report of survey or by a board of officers, and findings are approved by the Secretary concerned	involuntarily	disposable pay (see subparagraph 3.4.2 and Table 3-6, rule 2).
2	an account- able officer	the Navy or Marine Corps	loss or damage to public property entrusted to the officer, such as stores, supplies and receipts from sale of public property	the Commander, Naval Supply Systems Command or the Commandant of the Marine Corps (Installation and Logistics) renders determination	the Director, DFAS- Cleveland Site issues instructions to the member's commanding officer on action to take to liquidate debt	involuntarily	disposable pay (see subparagraph 3.4.2) or lesser amount approved by the Assistant Secretary of the Navy (Financial Management and Comptroller) or the Commandant of the Marine Corps.
3	an officer or enlisted member	any uni- formed service	damage or cost of repairs to arms or equipment	the member had the care of, or was using the property when damaged	negligence or abuse in care or use of property is established by a board of officers or on a report of survey, and findings are approved by Secretary concerned	involuntarily	disposable pay (see subparagraph 3.4.2 and Table 3-6, rule 2).
4	a non- accountable officer or enlisted member	any uni- formed service	loss of or damage to Government property	liability is established under regulations of the Military Service concerned	case is not within the scope of rule 3	involuntarily	Table 3-6, rule 2.
5	an officer or enlisted member	any Military Service	damage to or failure to satisfactorily clean assigned housing or damage to or loss of equipment or furnishings of such housing	the damage, loss or requirement for cleaning was caused by the abuse or negligence of the member, the member's dependent(s) or a guest of either the member or the member's dependent(s)	the negligence or abuse is established by administrative determination under regulations of the Military Service concerned	involuntarily	Table 3-6, rule 2.

Table 3-4. Military Member Indebtedness to the United States

R U L E	If	of any Military Service is indebted to the United States for	then collect from current pay	At a monthly rate not to exceed that shown in this table or in the rule cited
1	an enlisted member	enlistment or reenlistment bonus for period unserved	involuntarily	Table 3-6, rule 2.
2	an officer or enlisted member	unpaid hospital bills for medical services furnished a dependent	involuntarily or pursuant to Military Service regulations	amount owed or received.
3	an officer or enlisted member	excess cost of shipment of household goods	involuntarily or pursuant to Military Service regulations	amount owed or received.
4	a medical officer	compensation or stipend payments received from state, county, municipal, or privately owned hospitals for medical service	involuntarily or pursuant to Military Service regulations	amount owed or received.
5	an officer or enlisted member	jury duty fees (as distinguished from expenses) from any court, except while on authorized leave, and receiving active duty pay and allowances	involuntarily	amount owed or received.
6	an officer or enlisted member	amount due the DoD, its instrumentalities, or other uniformed services by reason of court judgment	involuntarily	Table 3-6, rule 2.
7	an officer or enlisted member	a debt determined valid from a federal agency outside DoD or other uniformed service including debts resulting from court judgments	involuntarily	Table 3-6, rule 3.
8	an officer or enlisted member	a travel advance in excess of entitlements (see note)	involuntarily or pursuant to Military Service regulations	Table 3-6, rule 2.

NOTE:

If the member has not filed a claim on a timely basis as defined by Military Service regulations, then the entire amount of the advance is considered to be in excess of entitlements.

Table 3-5. Military Member Indebtedness to Individuals, Government Instrumentalities, and Agents

R U L E	If	of	is indebted to	for	and	then collect from current pay	at a monthly rate not to exceed that shown in this table or in the rule cited
1	an officer or enlisted member	any Military Service	any person	willfully damaging or wrongfully taking property of that person	the commander has convened a board to investigate complaint, and board has assessed damages, and commander has approved an amount of assessment	involuntarily	amount approved by commander not to exceed disposable pay (see subparagraph 3.4.2).
2	an officer or enlisted member		member's spouse, former spouse, or child	court-ordered child support or alimony	the commander has convened a board to investigate complaint, and board has assessed damages, and commander has approved an amount of assessment	involuntarily	see Volume 7A, Chapter 41.
3	an officer or enlisted member	the Army or Air Force	a commissary	an uncollectible check which member or member's authorized agent has issued or endorsed to the commissary (notes 1 and 2)	the commander has convened a board to investigate complaint, and board has assessed damages, and commander has approved an amount of assessment	involuntarily	disposable pay (see subparagraph 3.4.2 and Table 3-6, rule 2).
4	an officer or enlisted member	the Navy or Marine Corps	a commissary	an uncollectible check which member or member's authorized agent has issued or endorsed to the commissary (notes 1 and 2)	the commander has convened a board to investigate complaint, and board has assessed damages, and commander has approved an amount of assessment	involuntarily or pursuant to Military Service regulations	Table 3-6, rule 2.
5	an officer or enlisted member	any Military Service	other appropriated fund activity or office	an uncollectible check endorsed or issued by member or member's agent (note 1)	the commander has convened a board to investigate complaint, and board has assessed damages, and commander has approved an amount of assessment	involuntarily or pursuant to Military Service regulations	Table 3-6, rule 2.

Table 3-5. Military Member Indebtedness to Individuals, Government Instrumentalities, and Agents (Continued)

R U L E	If	of	is indebted to	for	and	then collect from current pay	at a monthly rate not to exceed that shown in this table or in the rule cited
6	an officer or enlisted member	any Military Service	a nonappropriated fund activity	any indebtedness by member or member's agent (note 1)	the custodian of the nonappropriated fund instrumentality has tried all means for direct collection from member, and a request has been sent to member's commander for assistance in obtaining direct payment	involuntarily or pursuant to Military Service regulations	Table 3-6, rule 2.
7	an officer or enlisted member	any Military Service	a nonappropriated fund activity	any indebtedness by member or member's agent (note 1)	the custodian of the nonappropriated fund instrumentality has tried all means for direct collection from member, and a request has been sent to member's commander for assistance in obtaining direct payment	involuntarily or pursuant to Military Service regulations	Table 3-6, rule 2.
8	an officer or enlisted member	any Military Service	the IRS or the Treasury	delinquent income taxes or court-ordered child support (note 3)	IRS Notice of Levy is served or court ordered garnishment is issued	involuntarily or pursuant to Military Service regulations	see Volume 7A, Chapter 41

1. Generally, an agent is one who has been given a power of attorney by the member.
2. Effective February 1, 1999, collection of dishonored checks written by the member or the person who presented the check based upon their status and relationship to the member as well as costs associated with that check may be collected.
3. Upon certification from Department of Health and Human Services to the Treasury, IRS Notice of Levy may be issued for delinquent child support (Refer to Volume 7A, Chapter 41, section 3.0).

*Table 3-6. Military Member Rates of Collection

R U L E	If	Is indebted for	then the DCO may authorize or approve liquidation by monthly installments that	and if debt remains at time of separation, collect from final pay	And if total debt is not liquidated from final pay, establish collection from
1	an officer or enlisted member of any Military Service	court-ordered child support or alimony and garnishment or attachment of pay is directed by court order	do not exceed limitations set forth in Volume 7A, Chapter 41	as directed by court order	retired pay, retainer pay, or pay in new enlistment and limited by Volume 7A, Chapter 41.
2	an officer or enlisted member of any Military Service	an administratively determined indebtedness to the United States or its instrumentalities	do not exceed maximum limitation specified in paragraph 3.5 unless the member consents to collection of a greater amount. Commander may authorize collection of a lesser amount when justified or as provided for in the regulations of the Military Service concerned (note 1)	unpaid pay and allowances, separation payments under Volume 7A, Chapter 35; Reservists' Involuntary Separation Payment; amounts deducted for U.S. savings bonds including undelivered bonds; separation travel allowance for officers; reimbursement for transportation of household goods, dislocation and trailer allowance (for enlisted members, do not collect from separation travel allowance, or donation on discharge). If member is retiring, then see section 4.0 (notes 1, 2, 3, and 4)	retired pay (see section 4.0) or pay in new enlistment.
3	an officer or enlisted member of any Military Service	an administratively determined indebtedness to the United States excluding the DoD and its instrumentalities or other uniformed services	do not exceed 15 percent of disposable pay for that month (see subparagraph 3.6.2)	unpaid pay and allowances, separation payments under Volume 7A, Chapter 35; Reservists' Involuntary Separation Payment; amounts deducted for U.S. savings bonds including undelivered bonds; separation travel allowance for officers; reimbursement for transportation of household goods, dislocation and trailer allowance (for enlisted members, do not collect from separation travel allowance, or donation on discharge). If member is retiring, then see section 4.0 (notes 1, 2, 3, and 4)	retired pay (see section 4.0) or pay in new enlistment.

Table 3-6. Military Member Rates of Collection (Continued)

R U L E	If	is indebted for	then the DCO may authorize or approve liquidation by monthly installments that	and if debt remains at time of separation, then collect from final pay	and if total debt is not liquidated from final pay, then establish collection from
4	an officer or enlisted member of any Military Service	any indebtedness incurred on or after December 4, 1987, to a Service relief society (Army Emergency Relief, Air Force Aid Society, Navy-Marine Relief Society, or Coast Guard Mutual Assistance)	do not exceed 15 percent of disposable pay for that month (see subparagraph 3.6.2)	involuntarily or pursuant to Military Service regulations (note 5)	retired pay (see section 4.0) or pay in new enlistment.
5	an officer or enlisted member of any Military Service	an overpayment of pay or allowances through no fault of the member (for overpayments made on or after October 17, 2006 through October 28, 2009)	do not exceed 20 percent of disposable pay for that month	involuntarily or pursuant to Military Service regulations (note 5)	retired pay (see section 4.0) or pay in a subsequent period of military service.
6	an officer or enlisted member of any Military Service	an overpayment of pay or allowances through no fault of the member (for overpayments made on or after October 29, 2009)	do not exceed 15 percent of disposable pay for that month	involuntarily or pursuant to Military Service regulations (note 5)	retired pay (see section 4.0) or pay in a subsequent period of military service.

NOTES:

1. For Army and Air Force enlisted members that do not exceed the maximum limitation specified in paragraph 3.5. This limitation does not apply to enlisted members whose accounts are being settled on discharge for fraud, desertion, or because of mental [incapacity](#).
2. For enlisted members, travel allowances remaining due after the completion of separation travel may be collected.
3. For members transferring to the Retired Reserve and receiving Reservists' Special Separation Pay (RSSP), the entire amount of the RSSP payment(s) is available for offset.
4. If indebtedness is a result of an unfulfilled bonus agreement, and separation is under the Special Separation Benefit (SSB) or Voluntary Separation Incentive (VSI) program, then refer to Volume 7A, Chapter 35 for VSI or Volume 7B, Chapter 4 for SSB.
5. Do not exceed maximum limitation specified in subparagraph 3.5.2.
6. In unusual circumstances, the initiation of collection action of travel advances pursuant to a consent agreement may be delayed if the delay is approved by the Director, DFAS (or designee). However, the repayment period will, in all cases, be scheduled to repay the advance before the member's expected date of separation.

Table 3-7. Military Retiree Indebtedness to Government Agencies

R U L E	If a (an)	of	is indebted for	then collect from retired pay	at a maximum monthly rate of
1	retired member	any Military Service	overpayment of retired pay	involuntarily	see note 1.
2	retired member	any Military Service	overpayment of active duty pay and allowances carried forward from active duty	involuntarily	rate established while on active duty (note 1).
3	retired member	any Military Service	unpaid hospital bills for medical services furnished a dependent	involuntarily or pursuant to Military Service regulations	see note 1.
4	retired member	any Military Service	excess cost of shipment of household goods	involuntarily or pursuant to Military Service regulations	see notes 1 and 2.
5	retired member	the Army or Air Force	uncollectible check to a commissary issued or endorsed by member or member's agent	involuntarily	all pay (excluding FITW). See note 3.
6	retired member	the Navy or Marine Corps	uncollectible check to a commissary issued or endorsed by member or member's agent	involuntarily or pursuant to Military Service regulations	see notes 1 and 3.
7	retired member	any Military Service	any indebtedness to a nonappropriated fund activity	involuntarily or pursuant to Military Service regulations	see note 1.
8	retired member	any Military Service	hospital rations furnished to a member	involuntarily or pursuant to Military Service regulations	see note 1.
9	retired member	any Military Service	TRICARE payment on behalf of member's dependents	with member's consent	amount applicable.
10	retired member	any Military Service	delinquent federal income tax	involuntarily	amount applicable.
11	retired member	the Army or Air Force	loss, damage, or destruction of arms or equipment in member's care or use	involuntarily or pursuant to Military Service regulations	see note 1.
12	retired member	the Navy or Marine Corps	loss, damage, or destruction of arms or equipment in member's care or use	with member's consent	see note 1.
13	accountable officer	any Military Service	loss or damage to military supplies, upon final settlement of accounts of officer charged with issue of the supplies	involuntarily or pursuant to Military Service regulations	see note 1.

Table 3-7. Military Retiree Indebtedness to Government Agencies (Continued)

R U L E	If a (an)	of	is indebted for	then collect from retired pay	at a maximum monthly rate of
14	retired member	any Military Service	damage to assigned family housing, or damage to or loss of equipment or furnishings caused by the abuse or negligence of the member or the member's dependent(s) or guests of member or the member's dependent(s) while on active duty and established by a Report of Survey	involuntarily	see notes 1 and 4.
15	retired member	any Military Service	a debt determined valid from another federal agency	involuntarily	not to exceed 15 percent of disposable pay.
16	retired member	any Military Service	RSFPP and SBP payments to a surviving annuitant when retiree presumed dead is later found to be alive	involuntarily	all pay or amount applicable.
17	retired member	any Military Service	advanced and unused travel expense	involuntarily	see notes 1 and 4.
18	retired member	any Military Service	dual compensation restrictions	involuntarily	see note 1.
19	retired member	any Military Service	negotiating both original and substitute checks	involuntarily	
20	retired member	any Military Service	retired pay paid concurrently with active duty pay while serving as a Reservist. (a) prior fiscal year(s) or prior month(s)	involuntarily	see note 1.
21	retired member	any Military Service	(b) current	involuntarily	1/12 of total for fiscal year
22	retired member	any Military Service	readjustment pay (a) paid prior to September 15, 1981 (see Volume 7B, Chapter 4, Table 4-1) (b) paid after September 14, 1981	involuntarily	all.
23	retired member	any Military Service	non-disability severance pay (a) paid prior to September 15, 1981 (see Volume 7B, Chapter 4, Table 4-2) (b) paid after September 14, 1981	involuntarily	see note 4.

Table 3-7. Military Retiree Indebtedness to Government Agencies (Continued)

R U L E	If a (an)	of	is indebted for	then collect from retired pay	at a maximum monthly rate of
24	retired member	any Military Services	separation pay	involuntarily	see note 2.
25	retired member	any Military Service	an uncollectible check endorsed or issued by the member or a defaulted loan made to the member at a military banking facility overseas	involuntarily	see notes 1 and 4.
26	retired member		an uncollectible check endorsed by the member to a disbursing officer	involuntarily	see note 1.

NOTES:

1. Deductions will not exceed limitation set forth in paragraph 4.4.
2. Submit these types of indebtedness to the DCMO.
3. Effective February 1, 1999, collection of dishonored checks written by the member or the person who presented the check based upon their status and relationship to the member as well as costs associated with that check may be collected involuntarily.
4. Monthly rate based on service for which readjustment, severance, or separation pay was received as a proportion of the total deducted equals the lump-sum payment received. Refer to Volume 7B, Chapter 4 for additional guidance.

VOLUME 16, CHAPTER 4: “HEARINGS, INFORMAL DISPUTES, WAIVERS, AND REMISSIONS/CANCELLATIONS OF DEBT OWED BY INDIVIDUALS”**SUMMARY OF MAJOR CHANGES**

Changes are identified in this table and also denoted by [blue font](#).

CHAPTER 4

**HEARINGS, INFORMAL DISPUTES, WAIVERS, AND
REMISSIONS/CANCELLATIONS OF DEBT OWED BY INDIVIDUALS**

1.0 GENERAL

1.1 Purpose

This chapter provides policy and requirements pertaining to the submission and processing of petitions for hearings or requests for review in order to dispute debt owed by individuals, as well as waiver and remission/cancellation applications. This chapter does not apply to collection of debts owed by contractors, vendors, assignees, state and local governments, or foreign entities. For guidance on disputed contractor debts, refer to Chapter 5. This chapter does not apply to the collection of child support, alimony, or commercial debts from the pay or salaries of DoD civilian employees or military members through garnishment or involuntary allotment. This chapter also does not apply to antitrust, fraud, tax, and interagency claims. See Volume 7A, Chapters 41 and 43; Volume 7B, Chapter 27; and Volume 8, Chapter 8 for guidance pertaining to other collections, including garnishments, child support, and collections from non-DoD, Federal entities.

1.2 Authoritative Guidance

DoD is required to aggressively collect debts in accordance with the following statutes, as well as other statutes and regulations expressly identified in this volume:

1.2.1. Debt Collection Improvement Act of 1996 ([*Public Law 104-134*](#), Chapter 10, section 31001);

1.2.2. Debt Collection Act of 1982 ([*Public Law 97-365*](#));

1.2.3. Federal Claims Collection Act of 1966 (codified at Title 31, United States Code, section 3701 ([*31 U.S.C. § 3701*](#)) et seq; [*5 U.S.C. § 5514*](#); and [*37 U.S.C. § 1007*](#));

1.2.4. Contract Disputes Act of 1978 ([*41 U.S.C. § 7101 et seq.*](#));

1.2.5. Internal Revenue Code provisions regarding the authority to make credits or refunds ([*26 U.S.C. § 6402*](#));

1.2.6. Federal Claims Collection Standards ([*Title 31, Code of Federal Regulations \(CFR\), parts 900-904*](#));

1.2.7. Regulations for collection by offset from indebted government employees ([*5 CFR 550, subpart K*](#)); and

1.2.8. Regulations for the collection of past-due support by administrative offset ([*31 CFR 285.1*](#)).

2.0 NON-WAIVER OF RIGHTS BY PAYMENT

A debtor's involuntary payment of all or any portion of a debt must not be construed as a waiver of any rights that the debtor may have under 5 U.S.C. § 5514 or any other provision of a contract or law unless there are statutory or contractual provisions to the contrary. [5 CFR 550.1104\(o\)](#) provides additional information.

3.0 HEARINGS UNDER 5 U.S.C. § 5514 AND 31 U.S.C. § 3716 FOR DEBTORS OTHER THAN [ACTIVE DUTY, RESERVE, OR RETIRED](#) SERVICE MEMBERS

3.1 General

3.1.1. Debtors Under This Section. For the purposes of section 3.0, a debtor is an individual, other than an active duty, [reserve](#), or retired Service member (unless otherwise indicated), who owes a debt to DoD, subject to involuntary offset under 5 U.S.C. § 5514 and [31 U.S.C. § 3716](#).

3.1.2. Requirement for Hearings. Hearings conducted by a hearing official are required prior to salary offset under 5 U.S.C. § 5514. Prior to administrative offset under 31 U.S.C. § 3716, a review by an agency official is legally sufficient, unless a hearing before a hearing official is granted under subparagraph 3.3.3.2.1, pursuant to [31 CFR 901.3\(e\)](#). Defense Finance and Accounting Service (DFAS), in its sole discretion, may perform hearings in other circumstances, as it deems necessary.

3.1.3. Active [Duty](#), [Reserve](#), and Retired Service Members. Due process review procedures for the debts of active duty, [reserve](#), or retired Service members are set out at section 6.0. However, see subparagraph 3.1.5 for Financial Liability Investigation of Property Loss (FLIPL) hearing procedures for FLIPL debts involving active duty Service members.

3.1.4. Due Process Requirement. Granting a debtor the opportunity for a hearing is a due process requirement of 5 U.S.C. § 5514 and 31 U.S.C. § 3716. Debtors must be afforded the opportunity to dispute a debt prior to the initiation of involuntary offset to collect indebtedness due the U.S. Government, except in those instances listed in subparagraph 3.1.8. See 5 CFR 550.1104, [31 CFR 285.5](#), and 31 CFR 901.3. A debtor who repays a debt in part or in full, either before or after the filing of a timely hearing petition, does not waive [their](#) right to a hearing. Debtors may petition for a hearing to contest the validity or amount of the debt, or the involuntary repayment schedule. Generally, all issues requiring a hearing will be consolidated and decided in one hearing.

3.1.5. Scope of FLIPL Hearings. The DFAS Debt and Claims Management Office (DCMO) performs hearings involving FLIPL debts for both civilians and active Service members. For hearings involving FLIPL debts, the scope of a debtor's hearing before DCMO is limited to a review of the amount of the debt and/or the rate of collection for purposes of salary offset requirements under 5 U.S.C. § 5514 and [Army Regulation 735-5](#). The hearing official's determination regarding the amount of the debt is based on the finding in the approving authority's FLIPL report. The hearing official will not issue a decision that results in the substitution of [the hearing official's](#) judgment regarding the interpretation of policies and regulations as applied by

the approving authority. The hearing official will make a determination verifying the amount of the debt submitted for collection matches that of the investigation and the approving authority's final determination.

3.1.6. Hearing Petition. To request a hearing, the debtor must submit, in a timely manner, a hearing petition that meets the requirements of subparagraph 3.2.2. The timely filing of a hearing petition will stay the beginning of collection procedures until the results of the hearing have been rendered, unless collection is deemed necessary to protect the Government's interests.

3.1.7. Reconsideration Performed Prior to Hearing. Upon receipt of the hearing petition, the Debt Collection Office (DCO) must perform a reconsideration of the debtor's records to validate the debt. Reconsideration is an informal examination of internal debt records by the DCO to validate the debt without appointment of a hearing official and is the first step in the hearing process. It is not the formal hearing (see subparagraph 3.2.3.2). The DCO must issue the written reconsideration results to the debtor. Once the debtor receives the results, he or she must notify the DCO of his or her intent to continue with a formal hearing within 30 days from the date of the reconsideration, or by the date indicated in the reconsideration letter. If the debtor proceeds with a formal hearing, a hearing will be held by a hearing official who will make a written determination regarding the validity or amount of the debt, or on the proposed involuntary repayment schedule.

3.1.8. Exception to Requirement for Formal Notice, Hearing, Reconsideration Results, and Final Decision. Pursuant to 5 CFR 550.1104(c), a debtor is not entitled to a formal notice, hearing, written response, or a final decision under certain circumstances.

3.1.8.1. Underdeduction for Life or Health Insurance Premiums. A DoD civilian employee is not entitled to a formal notice, hearing, reconsideration results, or a final decision prior to offset of a debt related to the underdeduction of health or life insurance premiums if the amount to be recovered accumulated over 4 pay periods or less. Chapter 3 contains guidance for the collection of such premiums.

3.1.8.2. Routine Pay Adjustments. A DoD civilian employee is not entitled to a formal notice, hearing, reconsideration results, or a final decision prior to a routine intra-agency pay adjustment under 5 U.S.C. 5514 in order to collect overpayments of pay and allowances identified as having occurred within the 4 pay periods preceding the adjustment, or for any adjustments that amount to \$50 or less. Refer to Chapter 2 for notification requirements for routine pay adjustments. While the notification must provide the debtor with a point of contact for contesting the adjustment, in these circumstances, a post-deprivation due process hearing is not required.

3.2 Hearing Petitions

3.2.1. Filing a Hearing Petition

3.2.1.1. The debtor must file a written petition to request a hearing in order to contest the validity or amount of the debt or to contest the involuntary repayment schedule. See 5 CFR 550.1104(e) and [31 CFR 901.2\(b\)\(1\)](#). The debtor must file the petition in accordance with the instructions provided by the DCO in the debt notification letter. The debtor must file the

hearing petition no later than 30 calendar days from the mailing date of the debt notification, or by the date indicated in the debt notification.

3.2.1.2. A debtor who wishes to contest an involuntary repayment schedule must file a hearing petition no later than 30 calendar days from the mailing date of a notice rejecting an unacceptable voluntary repayment agreement, or by the date indicated in the notice.

3.2.1.3. If the debtor first makes a written request for records related to the debt, then the debtor must file a hearing petition within 45 days after the date the records are distributed (by mail, electronically, or in person) to the debtor.

3.2.2. Content of Hearing Petition. A hearing petition must identify and explain, with reasonable specificity, the facts and evidence the debtor believes supports his or her position. There is no standardized format for a hearing petition; however, the petition must be in writing and contain the following information:

3.2.2.1. Identifying Information. The petition must include information such as a name, telephone number, email address, mailing address, and social security number of the debtor.

3.2.2.2. Reason for Filing the Petition/Basis of the Dispute. A hearing petition should include a written summary of the facts and the date and manner in which the debtor became aware of the overpayment. The debtor must indicate the basis for disputing the debt. If contesting an involuntary repayment schedule, then the petition should include a statement explaining the debtor's financial status.

3.2.2.3. Documentary Evidence. A hearing petition should include all documentary evidence the debtor wants the hearing official to review, including Leave and Earnings Statements (LES) and written testimony from any witnesses. If the debtor is contesting an involuntary repayment schedule, then the debtor should submit an alternate schedule and statement and/or records explaining his or her financial status.

3.2.2.4. Signature and Date. A hearing petition must be signed and dated by the debtor.

3.2.3. Action by the DCO on Hearing Petitions

3.2.3.1. Determine Whether Hearing Petition is Sufficient and Timely. The DCO should review the hearing petition to ensure it contains all required information and **that** it was submitted in a timely manner. For insufficient or untimely hearing petitions, the DCO should take the following actions:

3.2.3.1.1. Insufficient Hearing Petition. The DCO is responsible for reviewing the hearing petition for sufficiency based on the requirements of subparagraph 3.2.2. The DCO maintains the authority to retain and identify as insufficient any hearing petitions that do not contain the required information. For a petition deemed insufficient by the DCO, the DCO must notify the debtor in writing that his or her hearing petition was insufficient, and request that

the debtor submit additional information within 30 days from the date of the written notice of insufficiency. The DCO must advise the debtor that if he or she fails to submit additional information within 30 days of the written notice of insufficiency, the hearing request will be denied.

3.2.3.1.2. Untimely Hearing Petition. A debtor waives his or her right to a hearing if the debtor fails to file a hearing petition within 30 days from the mailing date of the debt notification or by the date indicated in the debt notification or notice rejecting an unacceptable voluntary repayment agreement. An untimely petition will result in denial of the hearing request. The DCO must notify the debtor in writing of the denial. If the debtor files a hearing petition after the time expires, the DCO may accept a late petition if the debtor can show that the delay was due to circumstances beyond the debtor's control. A DCO should consult with its Office of General Counsel (OGC) regarding the acceptance of late petitions.

3.2.3.2. Perform Reconsideration. Reconsideration is the first step in the hearing process. The DCO must perform the reconsideration once the debtor submits a timely and sufficient hearing petition. Reconsideration is the informal reexamination of the debtor's records by the DCO to validate the amount of the debt and to satisfy any doubt the debtor may have regarding the amount or validity of the debt. The DCO must determine if the debt is valid and issue the written results of the reconsideration to the debtor. See Exhibit 4-1 for a sample reconsideration letter.

3.2.3.2.1. Time Limit for Performing Reconsideration. The DCO should issue written results of the reconsideration to the debtor within 15 days of receipt of the hearing petition. If the DCO needs additional time to investigate the debt, the DCO should advise the debtor of the delay in writing, and include an estimate of when the debtor can expect a final determination.

3.2.3.2.2. When Reconsideration Invalidates the Debt. If the DCO determines all or part of the debt is invalid, then the reconsideration letter must inform the debtor of the finding, and the DCO must take action to adjust or dismiss the debt.

3.2.3.2.3. When Reconsideration Validates the Debt

3.2.3.2.3.1. If the reconsideration validates all or part of the debt, then the reconsideration letter must inform the debtor of the finding. The DCO must inform the debtor that he or she has 30 days from the date of the reconsideration letter to inform the DCO of his or her intent to continue with a formal hearing before a hearing official.

3.2.3.2.3.2. If the debtor requests the matter be forwarded to a hearing official, the DCO must forward the debt information to the DCMO for assignment to a hearing official and must stay collection of the debt. If the debtor does not respond to the reconsideration letter within 30 days, the DCO must remove the debt from disputed status and pursue the appropriate debt collection action. The DCO will initiate the debt collection by using salary offset procedures as outlined in the original debt notification if the debtor does not respond and takes no additional action to repay the debt.

3.2.3.3. Referral to DCMO for Hearing. After performing a reconsideration of the debt, and at the debtor's request to proceed with a hearing, the DCO must refer hearing petitions determined to be timely and sufficient to the DCMO. The DCMO is the office responsible for processing requests for hearings from individuals who are indebted to the DoD and entitled to a hearing before a hearing official. The DCO must forward the hearing petition, and all supporting documentation from the debtor, to the DCMO, DFAS/JFEA-IN, 8899 East 56th Street, Department 3300 (ATTN: Hearings), Indianapolis, IN 46249-3300.

3.3 The Hearing Process

3.3.1. General. All hearings are conducted in accordance with 31 CFR 901.3(e) and 5 CFR 550.1104.

3.3.2. Hearing Officials. Generally, DCMO hearing officials will process all requests for hearings. In the event the appointment of another hearing official is necessary, contact the DCMO for guidance.

3.3.3. Types of Hearing. The DCMO hearing official will determine which of the following two types of hearings is most appropriate:

3.3.3.1. Paper Hearing. Generally, debtors who present a timely and sufficient petition for a hearing are entitled to a "paper hearing." The hearing official will make a determination based on a review of the available written record, without the parties present. A paper hearing is generally adequate for making determinations concerning the validity or amount of the debt or the terms of the involuntary repayment schedule.

3.3.3.2. Oral Hearing

3.3.3.2.1. If the hearing official, with the advice and guidance of the DFAS OGC, determines that the matter cannot be resolved by a review of the documents alone, then an oral hearing may be granted. For example, if the validity of the debt turns on an issue of credibility or veracity, then an oral hearing may be necessary. Since payroll overpayments seldom present issues of credibility or veracity, the need for oral hearings will be extremely rare.

3.3.3.2.2. An oral hearing is not an adversarial adjudication or a trial-type evidentiary hearing. An oral hearing may include an informal conference with the hearing official where the debtor and agency representative (the DCO) are both given the opportunity to present documents, witnesses, and arguments. Alternatively, oral hearings may take the form of an informal meeting where the debtor and DCO are questioned by the hearing official. The hearing may also consist of formal written submissions by the parties with an opportunity for oral presentation to the hearing official.

3.3.3.3. Checklist for Hearings. See Exhibit 4-2 for information required by the hearing official for a paper or oral hearing.

3.3.4. Hearing Official Final Decision

3.3.4.1. Time Limit. Pursuant to 5 CFR 550.1104, within 60 calendar days after the filing of the hearing petition, the hearing official must issue a written decision on the merits of the dispute. The hearing official may notify the parties of any delay in the issuance of the decision. The final decision must detail the hearing official's findings and conclusions. Generally, the final decision should advise the debtor that the basis for the debt and amount were reviewed, indicate whether the debtor's contentions were accepted in whole or in part, specify the debt amount now owed, and, if applicable, reaffirm the DCO's intent to collect the debt by administrative offset. The hearing official must issue a copy of the final decision to both the debtor and the DCO.

3.3.4.2. Final Decision in Favor of the DCO. If the final decision upholds the validity and amount of the debt (in full or in part) or the involuntary repayment schedule, then the DCO must recommence collection action after sending the debtor a letter that includes the following (refer to Exhibit 4-3 for a sample of the Post-Hearing Notification):

3.3.4.2.1. A brief statement of the hearing official's final decision;

3.3.4.2.2. A request that the debtor repay the debt in full within 15 calendar days following the date of the letter, a request for authorization for a voluntary one-time offset [or lump-sum payment](#) to repay the debt, or agreement to pay the debt in regular installments pursuant to a voluntary repayment agreement;

3.3.4.2.3. A statement that a salary offset will begin with the pay period in which the deadline expires unless the debtor informs the DCO of his or her decision regarding the options in subparagraph 3.3.4.2.2. The letter must be specific as to the pay period in which the offset will occur;

3.3.4.2.4. The amount of the offset and its estimated duration that will be equal to the amount of the debt, or 15 percent of the debtor's disposable pay, whichever is less;

3.3.4.2.5. A statement regarding the assessment of interest, administrative expenses, and penalties; and

3.3.4.2.6. A reminder of the debtor's right to request waiver or remission/[cancellation](#) of the debt.

3.3.4.3. Final Decision in Favor of the Debtor. If the hearing official's final decision finds in favor of the debtor and determines a portion or all of the debt is invalid, then the DCO must inform the debtor as to what portion of the debt is no longer considered valid. Any amount previously collected on the invalid debt must be refunded to the debtor. If the hearing official reduces the amount of the debt, then the DCO must issue a letter to inform the debtor, and begin collection action for the new amount.

3.3.4.4. Appeal of Final Determination. There are no provisions for review or appeal of debt determination decisions rendered with regard to salary or administrative offset. However,

debtors may exercise any other waiver, remission/[cancellation](#), or review right that may be provided by other statute or regulation with regard to the debt. For example, a federal civilian employee may file an appeal with the Office of Personnel Management concerning a claim involving the employee's compensation and leave. See [5 CFR 178](#). The Defense Office of Hearings and Appeals (DOHA) considers appeals of claims for uniformed services pay and allowances. Refer to [31 U.S.C. § 3702](#); [32 CFR 282.5\(b\)\(2\)](#); and [32 CFR 282, Appendix E](#) for additional information on appeals.

4.0 HEARINGS FOR ADMINISTRATIVE WAGE GARNISHMENT (AWG)

The U.S. Department of the Treasury (Treasury) may request that DCMO hearing officials conduct hearings requested by individuals who owe debts to DoD when the Treasury is attempting to collect from the debtor using AWG procedures pursuant to [31 U.S.C. § 3720D](#) and [31 CFR 285.11](#). DFAS adopts by reference, and conducts AWG hearings consistent with, [31 CFR 285.11](#).

5.0 HEARINGS FOR GOVERNMENT TRAVEL CHARGE CARD DEBTS

Any inquiries or disputes regarding the debt and the 90-day demand notice, which are received by the travel charge card contractor prior to forwarding the debt to DFAS for collection, will be handled and resolved by the travel charge card contractor. If the debtor wants to negotiate an installment agreement prior to the referral of the debt for salary offset, then any such agreement must be made with the travel charge card contractor. If the debtor is not satisfied with the travel charge card contractor's disposition of the dispute, then he or she may submit a petition for a debt hearing to the DCMO.

6.0 REVIEWS FOR ACTIVE [DUTY](#), RESERVE, [AND RETIRED](#) SERVICE MEMBERS

6.1 Due Process

Under 37 U.S.C. § 1007 and 5 U.S.C. § 5514, [active duty, reserve, and retired](#) Service members are entitled to due process, consisting of a notice and an opportunity for review, prior to the initiation of debt collection unless otherwise required by statute. See Chapter 2 for due process requirements for routine pay adjustments and Chapter 3 for debts transferred from other agencies.

6.2 Requesting a Review

A Service member who questions the validity or amount of a debt may request a review and validation of the debt by the DCO. A Service member may also contest the involuntary repayment schedule.

6.2.1. Content of the Review Request. The Service member must submit a written request for a review that identifies and explains, with reasonable specificity, the facts and evidence the Service member believes supports his or her position. There is no standardized format for a request for review; however, the request should contain Service member identifying information, the reason for requesting a review, supporting documentary evidence, and a dated signature.

6.2.2. Time Limit For Requesting a Review. The request for review must be received not later than 30 days from the mailing date of the debt notification, or by the date indicated in the debt notification. A Service member waives his or her right to a review if the Service member fails to submit a request in a timely manner. The DCO may accept a late request if the Service member can show that the delay was due to circumstances beyond the Service member's control.

6.3 Requesting Records

A Service member may make a written request to the DCO for records related to the debt. A request for records must be made prior to the deadline for submitting a request for review. Within 45 days after the date the records are distributed to the Service member, the Service member must submit a written request for review to the DCO or the Service member will waive his or her right to review.

6.4 Review Procedures

Service members who wish to request a review, must email or fax their request to the DCO, at the number or address provided in the debt notification. Upon timely receipt of the review request, the DCO must stay collection of the debt, unless collection is deemed necessary to protect the Government's interests. The DCO will validate the debt and amount, as well as consider all documentation contained in the Service member's request. Once complete, the DCO must issue the written review results to the Service member.

6.5 Written Review Results

Written results should be provided within 60 calendar days and contain the following information:

6.5.1. A brief statement of the DCO's determination regarding the validity or amount of the debt or the involuntary repayment schedule. If the DCO determines a portion or all of the debt is invalid, or the involuntary repayment schedule should be revised, the DCO will adjust the debt amount or repayment schedule accordingly and inform the Service member in the review results;

6.5.2. A request that the Service member pay the debt in full within 15 calendar days following the date of the letter, authorize a voluntary one-time offset to repay the debt, or agree to pay the debt in regular installments pursuant to a voluntary repayment agreement;

6.5.3. A statement that the offset will begin with the pay period in which the deadline expires, unless the Service member informs the DCO of his or her decision regarding the above options;

6.5.4. The amount of the offset; and

6.5.5. A reminder of the Service member's right to request a waiver or remission/[cancellation](#) of the debt.

6.6 Appeal of Final Determination

The DCO's determination on review is final. There are no provisions for review or appeal of the DCO's decision on salary or administrative offset. However, Service members may exercise any other waiver, remission/[cancellation](#), or review right provided by other statute or regulation with regard to the debt. For example, DOHA considers appeals of claims for uniformed services pay and allowances. Refer to 32 CFR 282.5(b)(2) and 32 CFR 282, Appendix E for additional information on appeal rights.

7.0 INFORMAL DEBT DISPUTES

7.1 General

At the debtor's request, the DCO may perform an informal courtesy review of a debt. This informal review is typically not intended to satisfy due process requirements and is in addition to such procedures. The informal courtesy review of a debt by the DCO typically occurs when the debtor submits a written "debt protest" or "debt dispute" to the DCO after the time period for filing a hearing petition has expired. The purpose of the courtesy review is to allow the DCO to validate the debt and respond to the debtor's questions. Chapter 5 contains guidance on contractor debt disputes.

7.2 Processing Informal Debt Disputes

7.2.1. A written request from the debtor is required before a debt is placed in a disputed or protest status.

7.2.2. For debts placed in dispute, the DCO should make every attempt to complete the courtesy review and issue a written response to the debtor within 30 days of receipt of the written protest.

7.2.3. If any portion of the debt cannot be validated and supported by the DCO, then the invalid portion of the debt should be reversed in the accounting system and closed in the appropriate entitlement systems. The DCO should notify the debtor in writing that the debt has been invalidated or partially invalidated.

7.2.4. If the debt is found to be valid, then the DCO must provide a response with applicable supporting documentation to the debtor and proceed with appropriate collection activity.

8.0 WAIVER OF INDEBTEDNESS

8.1 Authority

8.1.1. General

8.1.1.1. Title [5 U.S.C. § 5584](#), [10 U.S.C. § 2774](#), and [32 U.S.C. § 716](#) provide the head of an executive agency with the authority to waive an indebtedness that is the result of an erroneous payment of pay or allowances, or an erroneous payment of travel, transportation, or relocation expenses and allowances. Title [10 U.S.C. § 1453](#) provides authority to waive indebtedness that is the result of an erroneous payment of Survivor Benefit Plan (SBP) annuity.

8.1.1.2. The Under Secretary of Defense (Comptroller) delegated waiver authority to the DFAS Director by memorandum, dated January 29, 1992, and upheld that delegation in [DoD Directive \(DoDD\) 5118.05](#), “Defense Finance and Accounting Service (DFAS).” The DFAS Director re-delegated this authority to the DFAS-Indianapolis (IN) Director. The waiver authority is subject to the dollar value limits identified in paragraph 8.2. The exercise of this authority must be coordinated with the affected DoD Component, where appropriate. The DCMO exercises waiver authority for DoD employees (military and civilian), with the exception of waiver authority specifically delegated to the Director, Department of Defense Education Activity (DoDEA); the Director, National Security Agency (NSA); and the heads of non-DoD Components.

8.1.2. Policies and Procedures. Policies and procedures for considering applications for waivers of indebtedness resulting from erroneous payments to or on behalf of Service members and civilian DoD employees are set forth in [DoDD 1340.22](#), “Waiver of Debts Resulting from Erroneous Payments of Pay and Allowances,” which is codified at [32 CFR 283](#). Detailed waiver procedures for debts resulting from erroneous pay and allowances are set forth in [DoD Instruction \(DoDI\) 1340.23](#), “Waiver Procedures for Debts Resulting from Erroneous Pay and Allowances,” which is codified at [32 CFR 284](#).

8.2 Designated Waiver Authority Based on Aggregate Amount of Debt

The responsibility of the DCMO, or other designated waiver authority, to grant or deny a waiver is contingent upon the aggregate amount of the debt. The aggregate amount of a debt is the total amount of the debt before deductions for repayments or withholding for taxes.

8.2.1. Authority to Waive Collection for Debts Less Than or Equal to \$1,500 (Civilian) or \$10,000 (Military). Under 5 U.S.C. § 5584, the DCMO, or other designated waiver authority, is authorized to grant a waiver of debt aggregating to not more than \$1,500 for civilian employees. Under 10 U.S.C. § 2774 and 32 U.S.C. § 716, the DCMO, or designated waiver authority, is authorized to grant a waiver of debt aggregating to not more than \$10,000 for military members or National Guard members. There is no threshold for DCMO or other designated waiver authority to deny the waiver of debt for either civilian employees or military members.

8.2.2. Authority to Waive Collection for Debts Greater Than \$1,500 (Civilian) or \$10,000 (Military). If the aggregate amount of a debt is greater than \$1,500 for civilian employees or greater

than \$10,000 for military or National Guard members, then the authority to grant the waiver application resides with the Director, DOHA, or his or her designee under the DoD OGC. All requests should be submitted to the DCMO, and the DCMO will forward relevant requests to DOHA for consideration.

8.3 Submission of Request for Waiver

8.3.1. Application. All requests for waiver of indebtedness for DoD civilians (current and separated or former employees) and military members (active, reserve, retired, and National Guard) must be submitted on the [DoD \(DD\) Form 2789](#), Waiver/Remission of Indebtedness Application. Instructions on submitting a waiver application should be included with the debt notification letter issued by the DCO, or the letter may direct the debtor to an online resource for the information. Refer to Chapter 2, Figures 2-1 and 2-2 for sample debt notifications that include waiver instructions. The debtor must complete and sign the DD 2789 and submit the application to the appropriate organization as indicated on the DD 2789, depending on whether the debtor is a current or former employee or military member. The debtor's application must include all supporting documentation, which includes, but is not limited to:

8.3.1.1. Copies of all supporting documentation referred to on the DD 2789;

8.3.1.2. Copies of the three LESs issued immediately preceding the overpayment through the three LESs issued after the overpayment ended. If LESs are not available, then the individual or DCO must include a statement explaining why LESs are not available;

8.3.1.3. For civilians, copies of Standard Form (SF) 50s, Notification of Personnel Action, for the debt period (including corrections). If unavailable, then the individual must include a statement from the personnel office indicating why the notifications are not available; and

8.3.1.4. Any statement from the individual or another person in support of the waiver application. Signed statements must be attested to be true and correct to the best of the individual's knowledge and belief.

8.3.2. DCO Responsibility. The DCO should supplement the debtor's waiver application with additional information in the form of a written report containing a chronological summary of the facts and relevant records. The DCO must forward to the DCMO a debt computation that shows, by pay period, the amount the debtor was paid (as reflected on the LESs), the amount the debtor should have been paid, and the total amount of the overpayment. The debt computation should include three pay periods prior to, and three pay periods following, the period of indebtedness pursuant to DOHA's submission requirements. The amount of the debt should match the amount in the pay system, as well as the amount in the debt notification sent to the debtor.

8.3.3. DoDEA and NSA Employees. DoDEA and NSA civilian employees must forward applications for waiver to the DoDEA and NSA designated waiver approval authorities.

8.3.4. Time Limit for Filing Application

8.3.4.1. Civilian Employees. DoD civilian employees must submit a waiver application within 3 years from the date the erroneous payment was discovered. For the purposes of starting the 3-year period, the date of discovery is the date that an appropriate official first determines that an erroneous payment has been made. The timeframe for submitting a request for waiver cannot be extended or waived.

8.3.4.2. Military Members. Military members (active, reserve, retired, and National Guard) must submit a waiver application within 5 years from the date the erroneous payment was discovered. For the purposes of starting the 5-year period, the date of discovery is the date that an appropriate official first determines that an erroneous payment has been made. The timeframe for submitting a request for waiver cannot be extended or waived.

8.3.5. Contesting the Debt. By submitting an application for the waiver of a debt, an individual is acknowledging that he or she does not intend to dispute the validity or amount of the debt. Waiver is not the proper forum to contest the validity or amount of the debt. To contest the validity or amount of the debt, an individual must petition for a hearing under section 3.0. A waiver application that includes arguments concerning the validity or the amount of the debt may be returned without action or denied.

8.3.6. Application Filed by a Representative. A waiver application submitted by the debtor's agent or attorney must include a duly executed power of attorney or other documentary evidence of the agent's or attorney's right to act for the debtor.

8.3.7. Application Filed by a Guardian for Minor/Incompetent Debtors. If a guardian or committee has been appointed for a debtor who is a minor or an incompetent person, then the waiver application filed on behalf of the debtor must include a certificate of the court showing the appointment and qualification of the guardian or committee. If a guardian or committee has not been appointed for the debtor, then the waiver application submitted on behalf of the debtor must:

8.3.7.1. State the applicant's relationship to the minor or incompetent person;

8.3.7.2. Provide the name and address of the person having care and custody of the minor or incompetent person; and

8.3.7.3. Include an affirmation that any money received will be applied to the use and benefit of the minor or incompetent person and that the appointment of a guardian or committee is not contemplated.

8.4 Suspension of Debt Collection Pending Waiver Determination

Collection of a debt should not routinely be suspended pending waiver determination (refer to [31 CFR 903.2\(c\)\(2\)](#)). The DCO will determine, in each case, whether suspension of collection under 31 CFR 903.2, or a delay in implementing collection action, would be appropriate based on the following criteria:

8.4.1. Waiver will likely be granted,

8.4.2. Erroneous payment can be recovered if waiver is not granted, or

8.4.3. Collection of the debt would cause undue financial hardship.

8.5 Standards for Reviewing Requests for Waiver

Standards for determining the appropriateness of waiving debt collection are located in DoDI 1340.23. The appropriateness of a waiver depends on the facts of each particular case. Generally, a person who receives an erroneous payment from the U.S. Government acquires no right to the money. The recipient of the payment is bound in equity and good conscience to make restitution. If the payment was made by mistake, no matter how careless the act of the U.S. Government may have been, the recipient of the payment must make restitution. A waiver is not a matter of right and is available only to provide relief as a matter of equity when warranted by the circumstances of the individual case. Economic or financial considerations play no role in the determination of a waiver request.

8.5.1. Indication of Fraud, Misrepresentation, Fault, or Lack of Good Faith. A waiver may only be granted when the collection would be against equity and good conscience and not in the best interests of the United States. There must be no indication the erroneous payment was solely or partially the result of the fraud, misrepresentation, fault, or lack of good faith of the applicant.

8.5.2. Considering Debtor Awareness of Erroneous Payment

8.5.2.1. Generally, a waiver is precluded when the individual, or another person who has an interest in obtaining a waiver, receives a significant, unexplained increase in pay or allowances, or otherwise knows, or reasonably should know, that an erroneous payment has occurred and fails to make inquiries or bring the matter to the attention of appropriate officials. A waiver may be inappropriate even though the recipient of the payment makes inquiries or brings the matter to the attention of appropriate officials and is mistakenly advised that the payment is proper. The fact that an erroneous payment is the result of an administrative error by the U.S. Government is not a sufficient basis in and of itself for granting a waiver.

8.5.2.2. An individual does not acquire title to the amounts paid erroneously and should hold the excess amounts for eventual repayment to the U.S. Government. DOHA has held that a waiver will not be granted if it appears the debtor had records (such as LESSs) which, if reviewed, would have indicated an overpayment, and the debtor failed to review such documents for accuracy or otherwise failed to take corrective action. Such failure on the part of the debtor renders the debtor partially at fault and ineligible for a waiver of the debt.

8.6 Action of the DCMO or Designated Waiver Authority

8.6.1. All applications are first submitted to DCMO. If necessary, DCMO will forward waiver applications, appeals, or doubtful cases to DOHA. After reviewing each application for waiver, the DCMO must take the following action.

8.6.1.1. If the aggregate amount of the debt is not more than \$1,500 for civilian employees or \$10,000 for military or National Guard members, the DCMO may grant or deny part or all of a waiver application.

8.6.1.2. If the aggregate amount of the debt is more than \$1,500 for civilian employees or \$10,000 for military or National Guard members, the DCMO must do the following:

8.6.1.2.1. Deny the waiver application in its entirety; or

8.6.1.2.2. Refer the waiver application to DOHA for its consideration, along with a recommendation that part or all of the debt be waived.

8.6.1.3. Refer the appeal of an initial determination on a waiver application to DOHA.

8.6.1.4. Refer any doubtful case to DOHA for consideration.

8.6.2. After the DCMO (or designated waiver authority) makes a determination on the waiver application, or forwards the waiver to DOHA, the DCMO must notify the debtor and the applicable DCO in writing of its action. If the DCMO denied the request for waiver, then the notification to the debtor must state the basis for that decision. The notification must include guidance regarding the debtor's right to submit an appeal. A debtor may appeal the denial of all or part of his or her waiver application to DOHA.

8.7 Final Action of the DCO After Waiver Determination

8.7.1. Upon receipt of notification that the request for waiver was denied, the DCO must immediately initiate collection action if collection action was suspended.

8.7.2. If the request for waiver is approved, then the DCO must refund to the debtor any amount collected prior to the waiver being approved. The waiver application is considered an application for refund for any amount of the debt that was collected prior to the waiver approval. No refund will be paid when the debtor cannot reasonably be located within 2 years after the effective date of the waiver. The refund must be paid from a current applicable appropriation.

8.8 Appeal of Waiver Denial

In accordance with DoDI 1340.23, a debtor may appeal the denial of a waiver application. The appeal must be submitted to the DCMO, or the designated waiver authority that made the determination on the waiver application. The debtor must submit a request for appeal within 30

calendar days of receipt of the written denial of the waiver application. The DCMO may extend this period for up to an additional 30 calendar days if the debtor can show good cause. No appeal will be accepted after this time has expired. The DCMO must review the appeal and forward it to DOHA. The debtor must submit their appeal to the DCMO and not directly to DOHA. DOHA will review the debtor's appeal, and affirm, modify, or reverse the initial determination made by the DCMO.

8.9 Waiver of SBP Overpayments

8.9.1. Authority. Recovery of debts resulting from erroneous payments made under the SBP may be waived pursuant to 10 U.S.C. § 1453. The Under Secretary of Defense (Comptroller) delegated waiver authority to the DFAS Director by memorandum dated February 1, 1991. See DoDD 5118.05 for additional information. The DFAS DCMO exercises waiver authority on behalf of the Director.

8.9.2. Debts Not Eligible for Waiver. Debts that are the result of unpaid SBP premium payments are not eligible for waiver under this provision.

8.9.3. Submission of Request for Waiver

8.9.3.1. Application. To request a waiver of indebtedness resulting from an SBP annuity overpayment, an indebted SBP annuitant, or his or her authorized representative (see subparagraph 8.3.6), must submit a DD 2789. The debtor must complete and sign the DD 2789 and submit the application to the address listed on the debt notification. The application must include the following supporting documentation:

8.9.3.1.1. Copies of all supporting documentation referred to on the DD 2789;

8.9.3.1.2. Any statement from the debtor or another person in support of the waiver application. Signed statements must be attested to be true and correct to the best of the individual's knowledge and belief; and

8.9.3.1.3. Other information as requested by the DCMO.

8.9.3.2. DCO's Responsibility. The DCO for SBP annuity payments is DFAS-Cleveland Annuitant Pay. A debtor's waiver application must be supplemented with additional information from the DCO in the form of a written report containing a chronological summary of facts and all relevant records. The DCO must forward the written report to the DCMO and must include a debt computation that shows, by pay period, the amount the debtor was paid, the amount the debtor should have been paid, and the total amount of the overpayment.

8.9.3.3. Action by the DCMO

8.9.3.3.1. The DCMO must take the following action on a waiver application:

8.9.3.3.1.1. Deny the waiver application in its entirety,

8.9.3.3.1.2. Grant the waiver application in its entirety, or

8.9.3.3.1.3. Partially grant the waiver application and deny the remainder.

8.9.3.3.2. After the DCMO makes a determination on the waiver application, the DCMO must notify both the debtor and the applicable DCO of its action in writing. If the DCMO denied the request for waiver, then the notification to the debtor must state the basis for that decision. The notification must include guidance regarding the debtor's right to submit an appeal of the determination. A debtor may appeal the denial of all or part of his or her waiver application to DFAS-IN. Refer to subparagraph 8.9.7 for additional guidance on appeals.

8.9.3.4. Time Limit for Filing Application. Debtors must submit a waiver application within 3 years from the date the erroneous payment was discovered. For the purposes of starting the 3-year period, the date of discovery is the date that an appropriate official first determined that an erroneous payment was made, which is typically marked by the date the debt notification was issued to the debtor. The timeframe for submitting a request for waiver cannot be extended or waived.

8.9.3.5. Contesting the Debt. By submitting an application for the waiver of a debt, an individual is acknowledging that he or she does not intend to dispute the validity or amount of the debt. A waiver is not the proper forum to contest the validity or amount of the debt. To contest the validity or amount of the debt, an individual must petition for a hearing under section 3.0. A waiver application that includes arguments concerning the validity or amount of the debt may be denied as ineligible for consideration.

8.9.3.6. Application Filed by Representative. If an annuitant has a representative payee who is authorized to receive payments on the annuitant's behalf pursuant to Volume 7B, Chapter 46, paragraph 2.2, the representative may submit a waiver application if the representative also maintains the legal authority to act on behalf of the annuitant. The representative must submit additional documentation as required by the DCMO, for example, a power of attorney or other documentary evidence of the agent's or attorney's right to act for the debtor.

8.9.4. Suspension of Collection Pending Waiver Determination. Collection of a debt should not routinely be suspended pending the outcome of a waiver determination (refer to [31 CFR 903.2\(c\)\(2\)](#)). The DCO will determine, on a case-by-case basis, whether a formal suspension of collection under 31 CFR 903.2 is necessary or, alternatively, whether an informal delay in implementing collection action would be appropriate, based on the following criteria:

8.9.4.1. Whether the waiver will likely be granted,

8.9.4.2. Whether the erroneous payment can be recovered if waiver is not granted,

or

8.9.4.3. Whether collection of the debt would cause undue financial hardship.

8.9.5. Standards for Reviewing Requests for Waiver. Waiver of the recovery of an SBP annuity overpayment may be appropriate when the debtor is not at fault, and recovery of the overpayment would be contrary to the purposes of SBP, or against equity and good conscience. The appropriateness of granting a waiver will depend on the facts of each particular case. Pursuant to [Comptroller General \(Comp. Gen.\), B-133142 \(1978\), B-178696 \(1978\)](#), the standards for reviewing a request for waiver of SBP annuity overpayment are the same as those used for considering waiver requests under 10 U.S.C. § 2774 and 5 U.S.C. § 5584. DFAS DCMO uses the standards set out in DoDI 1340.23 for considering waiver applications for debts resulting from SBP annuity overpayments. Refer to paragraph 8.5 for a discussion of the standards used in waiver application determinations.

8.9.6. Refund of Amounts Collected. Any amount collected before DFAS-IN receives the debtor's waiver application will not be refunded. A refund is not authorized by law. If a waiver is granted, amounts collected after DFAS-IN received the completed waiver application from the annuitant may be refunded to the annuitant. Refer to [Comp. Gen. B-184532 \(1975\)](#) for information on when refund is appropriate.

8.9.7. Appeal of the DCMO Determination

8.9.7.1. Who May Appeal. A waiver applicant may appeal the DCMO's denial of all or part of the applicant's request to waive SBP annuity overpayments under 10 U.S.C. § 1453. An applicant may also appeal the denial of a waiver application that was not received by DFAS within the time limit required.

8.9.7.2. Determining Official. The determining official on all appeals is a DFAS official assigned to review the DCMO's initial waiver determination. Pursuant to subparagraph 8.2.1 and 10 U.S.C. § 1453, DFAS has been delegated full authority to consider all waivers, including any appeals or requests for reconsideration.

8.9.7.3. When and Where to Submit an Appeal

8.9.7.3.1. The DCMO must receive an applicant's appeal within 30 days of the date of the DCMO's final written determination of the waiver application, or by the date indicated in the written determination. The DCMO may extend this period for up to an additional 30 days for good cause shown. No appeal may be accepted after this time has expired.

8.9.7.3.2. The applicant's appeal must be sent to the address indicated in DCMO's written determination of the waiver application.

8.9.7.4. Content of an Appeal. No specific format for an appeal is required; however, the appeal must be written and signed by the applicant, the applicant's authorized agent, or the applicant's attorney. The following information must be included with the appeal request:

8.9.7.4.1. Applicant's mailing address;

8.9.7.4.2. Applicant's telephone number;

8.9.7.4.3. Applicant's social security number;

8.9.7.4.4. A written statement that identifies, with specificity:

8.9.7.4.4.1. Errors or omissions of material and relevant facts;

8.9.7.4.4.2. Legal or equitable considerations that were overlooked or misapplied;

8.9.7.4.4.3. Conclusions that were arbitrary, capricious, or an abuse of discretion; and

8.9.7.4.4.4. The reasons why the findings or conclusions of the DCMO should be reversed or modified; and

8.9.7.4.5. Copies of supporting documentation, including any statements by the applicant or other persons in support of the appeal. Signed statements must be attested to be true and correct to the best of the individual's knowledge and belief.

8.9.7.5. DCMO Action on Appeal. The DCMO must select an individual within the DCMO, who had no involvement in the initial waiver application, to serve as the determining official on an appeal. The DCMO must provide the determining official a written statement in support of the original determination on the initial waiver application.

8.9.7.6. Determining Official's Review

8.9.7.6.1. The determining official must review an applicant's appeal request and must affirm, modify, or reverse the initial determination on the waiver application made by the DCMO. The determining official must issue a final written determination to both the applicant and DFAS Annuitant Pay. The written determination must explain the determining official's decision and must include any appropriate action to resolve the debt.

8.9.7.6.2. After review of an appeal concerning whether the receipt of the waiver application was timely, the determining official must notify the applicant of his or her decision in writing. If the determining official determines that the waiver application was timely, he or she must provide the waiver application to the DCMO for consideration.

8.9.7.7. Finality of Determining Official's Decision. Decisions by the determining official are final if DFAS does not receive a request for reconsideration within 30 days of the date of the determining official's final written determination of the appeal.

8.9.7.8. Request for Reconsideration

8.9.7.8.1. Time Limit for Requesting Reconsideration. An applicant may request the determining official reconsider his or her final written determination of the appeal. A request for reconsideration must be received within 30 days from the date of the determining official's final written determination of the appeal. This period may be extended for up to an additional 30 days for good cause shown. The determining official must review any rebuttal submitted by the applicant in support of the request for reconsideration and issue a written determination.

8.9.7.8.2. Review of a Request for Reconsideration. No earlier than 31 days after the date of the determining official's written determination of the appeal, or the day after the end of the period for submitting a request expires, the determining official must:

8.9.7.8.2.1. Consider the request for reconsideration;

8.9.7.8.2.2. Affirm, modify, or reverse the appeal decision;

8.9.7.8.2.3. Prepare a written response explaining the reason for the finding; and

8.9.7.8.2.4. Send the response to the applicant and the DCMO, and notify them of the appropriate action on the debt.

8.9.7.8.3. Finality of a Reconsideration Decision. The reconsideration response is a final action.

8.10 Other Waiver Authority

Other waiver authority may apply to payments that were not erroneously paid. Such waiver authority is generally exercised by the agency component. A debt resulting from a non-erroneous payment may be eligible for a waiver under the following statutory authorities:

8.10.1. Voluntary Separation Incentive Payment and Reemployment ([5 U.S.C. § 3524\(c\)](#)),

8.10.2. Employee Agreements, Service after Training ([5 U.S.C. § 4108\(c\)](#)),

8.10.3. Student Loan Repayments ([5 U.S.C. § 5379\(c\)\(3\)](#)),

8.10.4. Recruitment and Relocation Bonuses ([5 U.S.C. § 5753\(e\)](#)),

8.10.5. Quarters Allowances ([5 U.S.C. § 5922\(b\)](#)),

8.10.6. Physicians Comparability Allowances ([5 U.S.C. § 5948\(e\)](#)), or

8.10.7. Payments to Dependents of Missing Civilians ([5 U.S.C. § 5566\(g\)](#)).

9.0 REMISSION OR CANCELLATION OF INDEBTEDNESS

*9.1 Remission or Cancellation of Indebtedness Due From Military Members

Title [10 U.S.C. § 7837](#), [10 U.S.C. § 8271](#), and [10 U.S.C. § 9837](#) provide authority for the remission or cancellation of indebtedness due from a military member. Remission or cancellation is limited to debts resulting from overpayments of active duty pay. Remission or cancellation is not available for debts resulting from overpayments of military retired pay. This authority may be exercised with respect to any debt incurred on or after October 7, 2001. Title [32 U.S.C. § 710\(c\)](#) provides for remission or cancellation for National Guard members. Remission or cancellation, under these statutes, is not available to DoD civilian employees.

9.2 Submission of Request for Remission or Cancellation

Requests for remission or cancellation from members of the Army, Air Force, Navy, Marine Corps, National Guard, or Space Force must be submitted on forms designated by the respective Services and forwarded to the Service for processing. DFAS does not process remission or cancellation requests for any Service.

9.3 Restriction for Reserve Component Personnel

Remission or cancellation of indebtedness is not applicable for Reserve Component personnel performing inactive duty training or active duty for training, except that:

9.3.1. An enlisted member of the Army National Guard, who is charged with liability for government property that is lost, damaged, or destroyed on or after October 1, 1980, may have such liability remitted or cancelled under regulations prescribed by the Secretary of the Military Service concerned (or designee); or

9.3.2. Any member of the Air National Guard (officer or enlisted member), who is charged with liability for government property that is lost, damaged, or destroyed on or after October 1, 1980, may have such liability remitted or cancelled under regulations prescribed by the Secretary of the Military Service concerned (or designee).

9.4 Indebtedness Which May Be Remitted or Cancelled

9.4.1. Debts to the United States. Generally, any indebtedness may be considered for remission or cancellation. Denial of a waiver under 10 U.S.C. 2774 does not preclude a member from applying for the remission or cancellation of the debt. Debts arising from an erroneous payment of basic pay due to non-collection of court-martial forfeitures may not be remitted or cancelled.

9.4.2. Debts Within Jurisdiction of Military Service Concerned. The debt must be a debt over which the Military Department concerned has jurisdiction. For example, the Secretary of one Military Department may not remit a member's indebtedness because of liability for damage to property of another Military Department.

10.0 ADDITIONAL OPTIONS FOR DEBT RELIEF

10.1 Claim for Refund

A military member may file a written claim, using a [*DD Form 827*](#), Application for Arrears in Pay, for any amounts considered erroneously collected from his or her pay account. The form must be submitted to the individual's pay office, or if separated for more than a year, to DFAS-IN/JFEC, Department 3300 (ATTN: Claims), 8899 East 56th Street, Indianapolis, IN 46249-3300 or via submission of a ticket. If the claim for refund is denied in whole or in part, then an appeal may be submitted to DOHA under the procedures set forth in 32 CFR 282, Appendix E.

10.2 Correction of Military Records

The Secretary of a Military Department, under procedures established by that Secretary and approved by the Secretary of Defense, and acting through boards of civilians of the executive part of that Military Department, may correct any military record of that department when the Secretary concerned considers it necessary to correct an error or remove an injustice. If an individual is owed money pursuant to the correction of record, any earnings received from civilian employment, self-employment, or any income protection plan for such employment during the period for which active duty pay and allowances are payable must be deducted from the settlement. To the extent authorized by law and regulation, a settlement must be reduced by the amount of any existing indebtedness the individual owes to the Government arising from military service. Refer to Volume 7B, Chapter 10 for additional guidance on correction of records.

Exhibit 4-1. Sample Format - Reconsideration Results Letter

(1)	(Date)
(2)	
Dear (3)	
On (4), you were notified that you were overpaid for pay periods ending (5) through (5). The net amount of the debt currently owed by you is \$ (6).	
Reconsideration Results. You submitted a timely request for review of your debt on (7). In response, DFAS has performed an informal reexamination ("Reconsideration") of your pay records in order to validate the amount of debt you owe and to satisfy any doubts you may have regarding the amount or validity of your debt. Reconsideration of your debt is the initial step in the hearing process. After reviewing the results of the Reconsideration, you may decide not to proceed with the formal hearing process. However, if you wish to continue with a formal hearing, you must notify DFAS of your intent by (8), which is 30 days from the date of this letter.	
DFAS has determined your debt is valid for the following reasons:	
(9)	
Payment of Your Debt. If you do not wish to continue with a formal hearing, please pay the debt in full by (8). Your check or money order should be made payable to DFAS-CL DSSN 8522 in the amount of \$ (6). Please send your payment to DFAS-CL/FTB P.O. Box 9955, Cleveland, OH 44199-2056. If you are unable to pay the debt in one lump-sum, you may agree in writing to pay the debt in regular installments by completing the enclosed Voluntary Repayment Agreement and mailing or faxing it to the address listed on the Agreement.	
Continuing with a Formal Hearing. If you wish to continue with a formal hearing in order to dispute the validity or amount of your debt, you must notify DFAS of your intent in writing by (8), by faxing or mailing your request to continue to (10).	
If You Take No Additional Action. If you do not notify DFAS of your intent to continue with a formal hearing, pay your debt in full, or submit a Voluntary Repayment Agreement within 30 days of the date of this letter, DFAS is required by statute to collect your debt using other collection procedures. Beginning on (8), DFAS will initiate collection of the debt involuntarily from your pay by using salary offset procedures (payroll deductions) as outlined in the debt notification you received on (4).	
If you require further assistance, please contact our toll-free number at 1-800-538-9043.

NOTES: Explanation of Blank Spaces on Sample Reconsideration Results Letter

- (1) The title or office symbol/code of the civilian payroll office issuing the debt notification.
- (2) The full name and mailing address of the employee.
- (3) Last name of employee with proper title (Mr. or Ms.).
- (4) Date the debt notification letter was issued by DFAS.
- (5) The pay period(s) that the overpayment occurred.
- (6) The net dollar amount of the overpayment.
- (7) Date of employee's hearing petition.
- (8) Date 30 days from the date of the reconsideration results letter.
- (9) Explanation of the overpayment and any responses to questions raised in the employee's hearing petition.
- (10) Fax and mailing address of the Payroll Office.
- (11) Identify by name, the signatory for the letter.

Exhibit 4-2. Checklist for Hearing on Overpayment of Pay and/or Allowances

<p>I. <u>Items Required From the Debtor:</u></p> <p>The petition for the hearing will include:</p> <p>A. Name</p> <p>B. SSN</p> <p>C. Date</p> <p>D. Contesting the terms of the offset <p>E. Reason(s) for contesting the debt</p> <ol style="list-style-type: none"> 1. When contesting validity or amount of the debt, the debtor must <ol style="list-style-type: none"> (a) Provide a statement why he or she believes the payroll office's determination of the validity and/or the amount of the debt is erroneous. Also provide a complete description of the facts, evidence, and a summary of testimony of any witnesses which support the debtor's belief. (b) Copies of any pertinent records that the debtor wishes to have considered at the hearing if they differ from those records previously provided by the payroll office. 2. When contesting the terms of the repayment schedule proposed by the payroll office, the debtor must <ol style="list-style-type: none"> (a) Propose an alternate schedule, i.e., how much can be repaid each pay period. (b) Enclose an affidavit of financial status. (c) Provide copies of any records he/she wishes to be considered at the hearing if they differ from the records previously provided by the payroll office. <p>F. Debtor's signature</p> <p>II. <u>Items Required From the Payroll Office:</u></p> <p>A. Full name and SSN of the debtor.</p> <p>B. Exact date the error was discovered.</p> <p>C. Exact date and manner (debt notification) in which the debtor was advised of the debt.</p> <p>D. Aggregate (total) amount of the debt.</p> <p>E. Computation of the amount of the debt including/excluding interest-to-date, and administrative fees, if applicable.</p> <p>F. Detailed circumstances that led up to, and under which, the erroneous payment(s) was made.</p> <p>G. Statement(s) corroborating and/or refuting the statement(s) made by the debtor.</p> <p>H. Copies of Leave and Earnings Statements for 3 pay periods prior to the error and the first 3 pay periods beginning with the first overpayment.</p> <p>I. Copies of all other documents pertaining to the case.</p> <p>J. Annual leave cases require special documentation. They should include the following documents:</p> <ol style="list-style-type: none"> 1. Copy of the erroneous SF 50 data (for Civilian Employees). 2. Copy of the corrected SF 50 data (for Civilian Employees). 3. The balance brought forward (and the date) from the last year in which the correct leave accrual was used. 4. Debtor's leave record. 5. The hourly rate of pay and changes. 6. A copy of the SF 2806/3100, Individual Retirement Record.

Exhibit 4-3. Sample Post-Hearing Notification

FROM: (1)

TO: (2)

SUBJECT: Indebtedness to the United States as a Result of an Overpayment of Pay and/or Allowances

Reference: (a) (The initial notification of indebtedness)
 (b) (The employee's petition for a hearing)
 (c) (The hearing official's determination)

Reference (a) advised of your indebtedness to the United States in the amount of \$ (3) as a result of an overpayment of pay and/or allowances. By reference (b), you submitted a petition for a hearing to dispute the (4) of the debt. Reference (c) is the hearing official's determination affirming your indebtedness in the amount of \$ (5).

In order to liquidate the debt in full, please submit a personal check or money order payable to (6), and mail the payment to the civilian payroll office at (7) no later than 15 days from the date of this letter. Alternatively, you may request your debt be paid by a deduction from your current pay. Please contact the civilian payroll office in order to arrange for a one-time voluntary payroll deduction. It may also be possible for you to establish a written agreement for repayment of the debt by periodic installment deductions from your pay, please contact the civilian payroll office to request this option.

As stated in Reference (a), delinquent debts are subject to the assessment of interest, penalties, and administrative expenses. To date, these assessments have not yet been made on your debt. The assessments may not be imposed if you repay the debt in full or are able to reach an agreement with the civilian payroll office to pay your debt by installment.

If you do not repay the debt in full, consent to a one-time payroll deduction, or establish an agreement for payment by installment, DFAS will initiate collection of your debt involuntarily from your pay using salary offset beginning on (8). You must contact the civilian payroll office by (8) in order to avoid salary offset. Deduction by salary offset would begin with the pay period ending on (9). Please refer to Reference (a) for the estimated amount and duration of the payroll deduction. If the amount of the deduction from your pay would cause you to experience extreme financial hardship, then you must contact the civilian payroll office to determine if an alternative repayment schedule may be implemented. Your point of contact in this matter is (10).

Please consult Reference (a) for information concerning your right to request a waiver of the collection of your debt. An application for a waiver must be received within three (3) years after the erroneous payment was discovered. Collection of your debt generally will not be suspended during the waiver review process. In the event that your request is granted, all amounts deducted will be refunded.

(Signature Element)

EXPLANATION OF BLANK SPACES ON SAMPLE POST-HEARING NOTIFICATION

- (1) The title or office symbol/code of the civilian payroll office.
- (2) The full name of the employee.
- (3) The amount of the debt in the initial debt notification.
- (4) Either "existence," "amount," or "the terms of the proposed repayment schedule," as appropriate.
- (5) The amount of the debt as determined by the hearing official. If the hearing official affirmed the civilian payroll office's contention, the amount will be the same as blank (3).
- (6) The office to which the check or money order is to be made payable.
- (7) Identify the mailing address of the civilian payroll office.
- (8) The date the involuntary deduction from pay begins.
- (9) The payday for the pay period indicated in blank (8).
- (10) Include the name, phone number, and office symbol/code of the point of contact in the civilian payroll office who can answer questions regarding this debt.

CHAPTER 5

COLLECTION OF DEBTS OWED BY CONTRACTORS

1.0 GENERAL

1.1 Overview

1.1.1. This chapter provides policy on the collection of contract debts established by the contracting officer as well as the establishment and collection of payment office debts.

1.1.2. Policy in this chapter is not applicable to debts owed by the DoD. Policy in this chapter also does not apply to the settlement of commercial transportation payment overcharges since the Director of the General Services Administration has the authority to audit and settle all transportation accounts (Title 31, United States Code, section 3726 ([31 U.S.C. § 3726](#))) as further discussed in Volume 10, Chapter 13. Refer to Volume 5, Chapter 12 for policies for handling indebtedness associated with fraud.

1.1.3. This chapter does not contain policy for contracting officers regarding their responsibility to make debt determinations pursuant to Federal Acquisition Regulation ([FAR](#)) *subpart 32.6*.

1.1.4. The term Debt Collection Office (DCO), as used in this chapter, refers to vendor pay offices, contracting offices, and any other office that processes contractor debts. The DCO does not refer to the Defense Finance and Accounting Service (DFAS) Debt Management Office (DMO).

1.1.5. This chapter does not contain policy on the disposition of amounts collected during Payment Recapture Audits (PRA). For information on PRA, refer to Volume 10, Chapter 22.

1.1.6. This chapter does not contain policy on the disposition, recording, and reporting of accounts receivable. Refer to Volume 4, Chapter 3 for receivables policy.

1.2 Purpose

This chapter contains debt collection policy for debts that are owed to the DoD by contractors, which also refers to vendors, assignees, universities, non-profits, and other business entities.

1.3 Authoritative Guidance

Policies in this chapter are consistent with the policies established in the FAR 32.6 and the [Defense Federal Acquisition Regulation Supplement \(DFARS\), subpart 232.6](#). Additionally, pursuant to U.S. Department of Treasury (Treasury) requirements, DoD is required to aggressively collect debts in accordance with the following statutes and regulations:

1.3.1. Debt Collection Improvement Act of 1996 ([Public Law 104-134](#), Chapter 10, section 31001);

1.3.2. Debt Collection Act of 1982 ([Public Law 97-365](#));

1.3.3. Federal Claims Collection Act of 1966 (codified at [31 U.S.C. § 3701](#) et seq; [5 U.S.C. § 5514](#); and [37 U.S.C. § 1007](#));

1.3.4. Contract Disputes Act (CDA) of 1978 ([41 U.S.C. § 7101 et seq.](#));

1.3.5. Internal Revenue Code provisions regarding the authority to make credits or refunds ([26 U.S.C. § 6402](#));

1.3.6. Federal Claims Collection Standards (Title 31, Code of Federal Regulations ([CFR](#)), [parts 900-904](#));

1.3.7. Regulations for collection by offset from indebted government employees ([5 CFR, part 550, subpart K](#));

1.3.8. Regulations for the collection of past-due support by administrative offset ([31 CFR 285.1](#)); and

1.3.9. Additional statutes and regulations listed by Treasury's Bureau of the Fiscal Service ([Fiscal Service](#)).

2.0 COLLECTION ACTIONS

2.1 Contract Debts

Contract debts result from amounts that have been paid to the contractor, to which the contractor is not entitled under the terms and conditions of the contract, or amounts otherwise due from the contractor. Contractor debts include, but are not limited to:

2.1.1. Damages or excess costs related to defaults in performance;

2.1.2. Breach of contract obligations concerning progress payments, performance-based payments, advance payments, commercial item financing, or Government-furnished property;

2.1.3. Government expenses of correcting defects;

2.1.4. Duplicate or erroneous payments;

2.1.5. Billing and price reductions resulting from contract terms for price adjustment or a determination of prices under incentive type contracts;

2.1.6. Overpayments disclosed by quarterly statements required under price redetermination or incentive contracts;

2.1.7. Reimbursement of amounts due under [FAR 33.102\(b\)\(3\)](#) and [FAR 33.104\(h\)\(8\)](#);

2.1.8. Price or cost reductions for defective cost or pricing data;

2.1.9. Financing payments determined to be in excess of the contract limitations in [FAR 52.232-16\(a\)\(7\)](#), [FAR 52.232-32\(d\)\(2\)](#), or any contract clause for commercial item financing;

2.1.10. Increases to financing payment liquidation rates;

2.1.11. Price adjustments resulting from Cost Accounting Standards noncompliance or changes in cost accounting practice;

2.1.12. Re-inspection costs for nonconforming supplies or services;

2.1.13. Delinquency in contractor payments due under agreements or arrangements for deferral or postponement of collections; and

2.1.14. Overpayments related to errors in quantity, billing, or deficiencies in quality.

2.2 Initiating Debt Collection

Once it is determined that a contractor might be indebted to the DoD, the contracting officer, or the payment office, must issue a demand for payment to the contractor, providing opportunity to inspect relevant records, and the opportunity to request a review of the debt as set forth in Chapter 2.

2.2.1. Demand Letters. Demand letters must comply with requirements set forth in Chapter 2. Additionally, notice of indebtedness to a contractor must include a statement that, in accordance with [Office of Management and Budget Circular A-123, Appendix C, Part III](#), high-dollar overpayments may be reported on the Federal Government's improper payment website. Refer to Volume 4, Chapter 14 for the definition of a high-dollar overpayment.

2.2.2. Debt Collection Initiated by Contracting Officers or Designees

2.2.2.1. The contracting officer has primary responsibility for determining the amount of the debt and ensuring collection for most types of contract debts, except for those debts resulting from errors made by the payment office.

2.2.2.2. When a contracting officer or other authorized official requests that a payment office collect a debt and provides a copy of the contract to the payment office, including the payment dates and amounts due from the contractor, the payment office will collect the debt.

2.2.2.3. If the contracting officer or other designated official receives the contractor's payment, then the contracting officer or other designated official must immediately forward the payment to the disbursing office with a request for confirmation of receipt of the payment.

2.2.2.4. The appropriate DoD Component contracting officer, or other designated official, must determine the debt amount and demand repayment for debts pursuant to FAR 32.6 and DFARS 232.6.

2.2.2.5. The contracting officer must send a copy of each demand [for payment](#), as well as documentation that identifies the line of accounting for distribution of the principle amount of the debt to the payment office cited in the contract [so the Account Receivable Office \(ARO\) may apply the funds correctly](#).

2.2.2.6. The contracting officer must follow up periodically with the DCO, ARO, or supporting accounting office to ensure that contract debts have been collected and credited to the proper appropriations.

2.2.3. Debt Collection Initiated by the Payment Office

2.2.3.1. Payment offices are designated to make payments under a contract and to receive payments for amounts due to DoD. Payment offices are responsible for determining the amount of contract debts that are the result of overpayments or erroneous payments and initiating collection action on those debts (referring debts).

2.2.3.2. The payment office is also responsible for the collection of contractor debts when the amounts due and dates for payment are in the contract, and a copy of the contract has been furnished to the payment office with notice to collect as amounts become due.

2.2.3.3. When a contract modification (downward adjustment) is issued after the date of a disbursement and causes a contract to be in an overpayment status, the result of that modification is not an erroneous payment with respect to this chapter. The payment office must contact the procuring contracting officer or the administrative contracting officer (the individual who issued the modification causing the overpayment) to ensure that a demand letter is sent to the contractor for collection of funds.

2.3 Supporting Documentation

When referring a debt to the DCO or DMO for further collection, the following documentation is required, unless already provided to DFAS:

2.3.1. Dates and amounts of collections/offsets;

2.3.2. Legible copies of the negotiated checks obtained from Treasury for duplicate payments and dual negotiated successor checks;

2.3.3. All demand letters, correspondence, and written documentation of communication between the contracting officer and the debtor or the DCO and the debtor;

2.3.4. Any documents needed to support a recommendation for compromise, discontinuance, or termination;

2.3.5. Tax identification number (TIN);

2.3.6. Telephone number, address, and the name of a point of contact that is knowledgeable of the following:

2.3.6.1. Debtor,

2.3.6.2. Contracting office making the referral,

2.3.6.3. Disbursing office making the referral, and

2.3.6.4. Supporting accounting office;

2.3.7. A copy of the audit or reconciliation report, with sufficient supporting documentation to explain the conclusions in the case of a determination of debt(s) resulting from an audit or contract reconciliation;

2.3.8. The accounting classification/appropriation to which the principal portion of the debtor's payments should be deposited;

2.3.9. Copies of documentation that supports debts arising from the sale of goods and services to commercial entities on a reimbursable basis; and

2.3.10. The debtor's Commercial and Government Entity code.

3.0 ADMINISTRATIVE OFFSET

3.1 General

3.1.1. To the extent practicable, debts should be collected, either by voluntary repayment in a lump sum or by administrative offset(s) of payment(s) owed to the contractor by the DoD, unless an installment agreement has been entered into or a deferment of collection has been approved (FAR 32.607). If 30 days have elapsed since the [due date in the demand for payment](#), and no payment has been received, then the DCO must offset a contractor's indebtedness against other monies that are owed the contractor.

3.1.2. FAR 32.606 allows for offsetting contractor payments to liquidate debts owed by the contractor. If additional payments are scheduled under the same contract, then the DCO should administratively offset against those payments first. The DCO must coordinate with the payment office to apply administrative offsets against amounts due the contractor under other contracts if

offsets against the contract that gave rise to the debt cannot be accomplished. The disbursement voucher must be approved and the accounting classification charged for the total amount of the entitlement with no regard for the deduction being applied. DCOs must prominently annotate the face of the voucher, or the electronic equivalent, with the amount withheld and the accounting classification credited to ensure that only the net amount is paid to the contractor. The voucher must adequately inform the payee of the reason(s) for the deduction.

3.1.3. Administrative offsets normally will not be taken when there is a valid assignment of claims, under the Assignment of Claims Act of 1940 ([31 U.S.C. § 3727](#) and [41 U.S.C. § 6305](#)), associated with the contractor. DCO personnel should seek guidance from their legal office, as appropriate, in determining whether an administrative offset may be taken when an assignment of claims exists.

3.1.4. Pursuant to [31 U.S.C. § 3716](#), and in accordance with [31 CFR 901.3\(b\)\(2\)](#), a DCO must process an administrative offset to collect a debt when the name and TIN of a payee matches the name and TIN of a debtor, and all other requirements for administrative offset have been met.

3.2 Credit Invoice

3.2.1. A contractor may request to liquidate a debt against existing unpaid bills due to the contractor. As an exception, DCOs may accept a credit invoice under special circumstances, and only when there is a current payable invoice to which the credit can be applied. The contractor should furnish the DCO, upon request, an invoice number, date, and the amount of the debt to be offset against the invoice, according to the credit invoice.

3.2.2. A contractor may state on an invoice, or on a progress payment request, that the amount of the credit invoice can be deducted from the amount due from the DoD.

3.2.3. If a contractor does not state that the amount of the credit invoice can be deducted from other amounts due, a determination must be made on the most effective manner in which the debt can be collected. In making this determination, DCOs must give consideration both to the relative costs that would be incurred by DoD under various options, and to the method that is expected to result in liquidation of the debt at the earliest date. The latter factor is dependent upon the expected volume and frequency of incoming invoices that are susceptible to administrative offset, and whether this option is more effective and efficient than a credit invoice.

3.2.4. DCOs must acknowledge receipt of the credit invoice and inform the contractor of its disposition. If direct remittance is required, then the acknowledgement must contain a statement, such as, “This is to acknowledge receipt of your credit invoice 14245, dated December 14, 2018. We cannot accept this document as liquidation of your indebtedness, and must ask that you remit a check to the following address: (insert applicable address).” The contractor may identify an invoice to offset instead. If the offset is taken, then the DCO’s letter must contain a statement such as, “This is to acknowledge receipt of your credit invoice 67890, dated June 12, 2018.” Receipt of a credit invoice by the due date (where the demand letter states the due date) does not preclude charging interest and administrative charges.

4.0 INSTALLMENT PAYMENT PLANS

4.1 General

Whenever possible, payment to liquidate a debt, including a deferred payment, must be made in one lump sum. However, when a contractor can establish sufficient justification, the DCO may approve a series of installment payments to liquidate the debt within a reasonable period of time. In accordance with [31 CFR 901.8](#), installment payments should be sufficient in size and frequency to liquidate the debt within 3 years. If the contractor requests a repayment term of more than 3 years, then the DCO must refer the request to the DMO for a determination. See Chapter 2 for additional guidance on installment payment plans.

4.2 Installment Payment Approval Authority

The DMO [is the approval authority](#) for a contractor's request for an installment agreement; however, the DMO may not deny a contractor's request for an installment agreement without first obtaining consent from the creditor DoD Component's senior financial manager (FM) or designee. In the latter case, the DMO will send the request to the office of the creditor DoD Component's senior FM or designee within 3 working days from the date the request was received.

4.3 Installment Payment Notification

The DMO will make installment agreements available to the office that referred the debt and to the office of the creditor DoD Component's senior FM or designee.

5.0 REFERRAL OF DELINQUENT DEBTS TO DMO

5.1 Dollar Thresholds for Referral

5.1.1. Dollar thresholds for referring delinquent debts to the DMO are as follows:

5.1.1.1. Debts that amount to \$25 or more and belong to a contractor with a known TIN; or

5.1.1.2. Debts that amount to \$100 or more and belong to a contractor without a known TIN.

5.1.2. Components that have implemented the processes contained in the Delinquent Debt Management Guidance ([DDMG](#)) should refer delinquent debt over \$25 to Fiscal Service, Debt Management Services for further collection action where applicable.

5.1.3. If a contractor has more than one debt, each under the threshold, then the ARO will combine these debts to determine whether the sum of the debts is equal to or greater than the threshold. If so, then the ARO will refer the debts to the DMO in accordance with paragraph [5.2](#). Refer to Volume 4, Chapter 3 for information on write-off of delinquent debt that is below the referral threshold and cannot be collected.

5.2 Delinquent Debts and Multiple Debts Greater Than the Threshold

5.2.1. General. DCOs must refer valid and legally enforceable debts that are equal to or greater than the thresholds in paragraph 5.1, individually or in aggregate, to the DMO no later than 90 days following the debt repayment due date. Debts must be validated by the DCO prior to referral to the DMO. The DMO must annotate acceptance of the debt in the appropriate system, thereby making the information available to the DCO and the supporting accounting office responsible for maintaining the official accounting records. In accordance with Chapter 7, administrative charges may be assessed for the expenses of referring the debt. Delinquent debts incurred under [FAR 51.102](#) may be referred back to the authorizing agency if not satisfied by the contractor.

5.2.2. Supporting Documentation. When referring a debt to the DMO, DCOs must submit the documentation as listed in paragraph 2.3.

5.2.3. Funds Accountability. After referral, the DMO will have full responsibility for collecting the delinquent debt. Accounting and reporting of the debt does not transfer to the DMO, but remains with the servicing accounting office using status information provided by the DMO. The DMO only maintains a memorandum accounts receivable record. Any office other than the DMO that receives a payment after referral of the debt must notify the DMO of the receipt and disposition of the payment within 3 business days. The ARO must notify the FM representative of the cognizant DoD Component when the debt should be closed. In the case of dual negotiated checks, the DMO will also notify the accountable payment office.

5.3 Referral of Debts to Treasury

* 5.3.1. The DMO will refer valid and legally enforceable debts, which have been delinquent over 120 days, to the Treasury for debt collection and cross-servicing. [While a debt is at Treasury, the DMO maintains overall responsibility for tracking and monitoring that debt and must recall any uncollected debts with sufficient time to refer to the Department of Justice for potential recovery via litigation or to write off and close out the debt.](#) See Chapter 2, section 11.0 for additional information regarding referral of delinquent debts to Treasury.

5.3.2. Components that have implemented the processes contained in the DDMG should refer delinquent debt over \$25 directly to Fiscal Service, Debt Management Services for further collection action where applicable.

6.0 DISPUTES AND DEFERMENTS UNDER THE CDA

6.1 Disputes

Under the CDA of 1978 ([41 U.S.C., Chapter 71](#)), a contractor may appeal a decision of indebtedness to the Armed Services Board of Contract Appeals (ASBCA) or through the U.S. Courts. Actions filed by contractors under the Disputes Clause will not suspend or delay the collection unless the contractor has been granted a deferment as set forth in paragraph 6.3 or has

entered into an Installment Payment Plan as set forth in paragraph 4.0. Further interest, penalties, and fees will continue to accrue on uncollected debts that have been formally disputed.

6.2 Crediting Collections in Dispute

6.2.1. When an amount, including interest and administrative fees, is collected from a contractor, and the contractor formally disputes the debt, the collected amount will not be accounted for as settlement of the debt. The disputed amounts will remain available pending disposition of the contractor's dispute, and interest, penalties, and fees will no longer accrue since the debt has been collected. When making a collection in a disputed situation, the collection must be documented as a disputed contract collection. For example, debts collected by DFAS will be coded as disputed in the Contract Debt System.

6.2.2. The payment office typically handles collection of a debt. In the event another office, including the ARO, supporting accounting offices, the DMO, contracting officers, contract administration officers, or legal offices, receives a payment against an existing debt, the receiving office should forward the payment to the relevant DCO immediately. Accounting for disputed collections is covered in Volume 4, Chapter 3.

6.2.3. The DCO and the responsible payment office must notify the contracting officer, the contract administration officer if applicable, the Service or agency contract finance officer, and/or another authority of any matters affecting the disputed collections. Conversely, these officers or offices must also inform the responsible payment office and the DCO of any actions taken that affect the disputed collection.

6.3 Deferments

6.3.1. Under the CDA of 1978, a contractor may appeal a decision of indebtedness to the ASBCA or through the U.S. court system. In accordance with FAR 32.607, the contractor may request, in writing, deferment of debt repayment until the appeal is decided.

6.3.2. In accordance with FAR 32.607, the contractor must submit the request for deferment to the contracting office.

6.3.3. The contracting office will promptly forward the request to the appropriate DoD Component's senior FM or designee. The DoD Component's senior FM or designee will approve or deny the request and notify the contracting office and the DMO of the decision.

6.3.4. Collection of the debt should continue until the date the deferment is granted. Volume 4, Chapter 3 contains the policy for accounting for collections under the CDA.

7.0 WRITE-OFF AND CLOSE-OUT OF ACCOUNTS RECEIVABLE

7.1 Write-off and Close-out of Indebtedness

Refer to Volume 4, Chapter 3 for policy on write-off and close-out of delinquent debt.

7.2 Tax Reporting

The DFAS Tax Office will obtain information on all closed-out, uncollected, public contractor debt. In accordance with [26 U.S.C. § 6050P](#), the Tax Office will issue debtors an [Internal Revenue Service Form 1099-C](#), Cancellation of Debt, if the closed, uncollected debt is greater than or equal to \$600 for the calendar year. Tax Office required data elements are contained in Volume 4, Chapter 3.

8.0 BANKRUPTCY

8.1 General

Within DoD, DFAS Office of General Counsel (OGC) will file contractor bankruptcy proof of claims. DFAS-OGC is not responsible for litigating contractor bankruptcies. The litigation function remains the responsibility of the DoD Component. Bankruptcy litigation is accomplished by the Department of Justice through the office of the responsible U.S. Attorney. Pursuant to [FAR subpart 42.9](#), prescribed actions, as detailed in paragraphs [8.1](#) through [8.6](#), will be taken when the procuring contracting office or contract administrative office receives notice of bankruptcy from the contractor or another source.

8.1.1. Bankruptcy cases are time sensitive. When the DoD receives a notice of bankruptcy, immediate action is required. Government monetary claims and other rights may be adversely and irrevocably affected if not timely asserted.

8.1.2. When either the procuring contracting office or the contract administrative office learns that bankruptcy proceedings have been initiated, the receiving office will immediately notify DFAS-OGC by writing to Defense Finance and Accounting Service – Office of the General Counsel, ATTN: ACL - Bankruptcy, 8899 East 56th Street, Indianapolis, IN 46249 or by email to dfas.indianapolis-in.hgb.mbx.ogc-bankruptcies@mail.mil.

8.1.3. Notification must occur regardless of whether any contracts have fully been performed, closed, or terminated. The DoD Component must also notify any office within the cognizant department or agency designated to receive this information. This notification must be made within 3 business days of receipt of the notice of bankruptcy, regardless of whether it appears the notice has been received late. Bankruptcy notices must also be sent to the following addresses:

8.1.3.1. Defense Logistics Agency
Office of General Counsel, ATTN: DG
8725 John J. Kingman Road, STOP 2533
Fort Belvoir, VA 22060-6221;

8.1.3.2. Assistant General Counsel (Litigation), Department of the Navy
Office of the General Counsel
720 Kennon Street SE Room 233
Washington Navy Yard, DC 20374-5013;

8.1.3.3. Air Force Legal Operations Agency
1500 West Perimeter Road, Suite 1780
Joint Base Andrews, MD 20762;

8.1.3.4. U.S. Army Litigation Center
9275 Gunston Road, Suite 3000
Fort Belvoir, VA 22060-5546; or

8.1.3.5. Defense Contract Management Agency
Office of General Counsel (DCMA-GC)
3901 A Avenue
Building 10500
Ft. Lee, VA 23801-1809.

8.1.4. At a minimum, the notification must include:

8.1.4.1. The name of the contractor,

8.1.4.2. The court in which the bankruptcy petition has been filed,

8.1.4.3. The date of the filing of the bankruptcy petition,

8.1.4.4. The bankruptcy court docket number (if available), and

8.1.4.5. Whether the contractor is indebted to the DoD.

8.2 Bankruptcy 15-Day Report

The contracting office may receive a notice of bankruptcy from the debtor or DFAS-OGC. When the contracting office receives notification of a bankruptcy, that office will follow instructions in paragraph 8.1, and then follow with a Bankruptcy Report sent to the same parties no later than 15 days after receipt of the notice of bankruptcy. If some of this information is not available, then the report will be sent reflecting all available information. To the extent possible, the report will include the following information:

8.2.1. The name of the contractor;

8.2.2. A list of the contracts involved;

8.2.3. The amount of any potential claim against the contractor. Often, the amount of a potential claim must be an estimate. The contracting officer must attempt to calculate the amount of the debt accurately with the understanding that filing of the proof of claim is time sensitive, and must attach a short explanation of how the debt arose. Documentation evidencing the existence of the debt will be attached whenever possible;

8.2.4. Any property, and its location, in the possession of the contractor in which DoD claims an interest, e.g., government property made available to the contractor, such as government-furnished equipment or government-furnished property;

8.2.5. Any claims the debtor may have asserted or presented to DoD;

8.2.6. The bankruptcy court docket number of the proceeding, and the court in which the bankruptcy is pending; and

8.2.7. Available information concerning the deadline for submitting documents to the Bankruptcy Court, asserting the government's claims against the debtor.

8.3 Proof of Claim

Upon receipt of a notice from a contracting officer, DFAS-OGC will prepare a consolidated proof of claim on behalf of DoD. DFAS-OGC will file the proof of claim with the appropriate court unless the responsible U.S. Attorney directs otherwise. DFAS-OGC will send a copy of the proof of claim to each DoD Component that submitted a claim. DoD or agency copies of the proof of claim must be sent to the responsible offices designated in subparagraph 8.1.3. The proof of claim will identify DFAS-OGC as the office designated to receive further notices and any funds received pursuant to the proceedings.

8.4 Actions Against Contractor

The filing of a bankruptcy petition has a major impact on business relationships with the contractor who has filed for bankruptcy protection. Many otherwise appropriate actions cannot be taken against a bankrupt contractor, and actions that may be legally taken against a contractor may have adverse consequences for DoD. The activity's legal office should be informed before any action is taken with regard to a contractor who has filed for bankruptcy.

8.5 Bankruptcy Notification From Contractor

In accordance with the contract clause provisions contained in [FAR 52.242-13](#), should the contractor enter into proceedings relating to bankruptcy, whether voluntary or involuntary, the contractor agrees to furnish by certified mail, or electronic commerce method authorized by the contract, written notification of the bankruptcy to the contracting officer responsible for administering the contract. This notification will be furnished within 5 days of the initiation of the proceedings relating to bankruptcy filing and will include the following:

8.5.1. The date on which the bankruptcy petition was filed,

8.5.2. The identity of the court in which the bankruptcy petition was filed, and

8.5.3. A listing of government contract numbers and contracting offices for all government contracts against which final payment has not been made.

8.6 Notification to DFAS-OGC

FAR 52.242-13 states that the contractor's obligation to notify their contracting officer of a bankruptcy remains in effect until final payment under the contract(s) is made. In addition, the contracting officer must provide a copy of the notification from the contractor, by mail, to DFAS-OGC, 8899 East 56th Street, Indianapolis, IN 46249 and by email to dfas.indianapolis-in.hgb.mbx.ogc-bankruptcies@mail.mil.

VOLUME 16, CHAPTER 6: “DEBT OWED TO THE DOD BY FOREIGN ENTITIES”**SUMMARY OF MAJOR CHANGES**

Changes are identified in this table and also denoted by [blue font](#).

Substantive revisions are denoted by an asterisk (*) symbol preceding the section, paragraph, table, or figure that includes the revision.

Unless otherwise noted, chapters referenced are contained in this volume.

Hyperlinks are denoted by [***bold, italic, blue, and underlined font***](#).

The previous version dated [March 2022](#) is archived.

PARAGRAPH	EXPLANATION OF CHANGE/REVISION	PURPOSE
All	Updated hyperlinks and formatting to ensure compliance with administrative instructions.	Revision
1.1.4	Deleted statement regarding applicability of Acquisition and Cross-Servicing Agreements as it has no relevance to foreign debt.	Deletion
2.2.1, 2.2.8, 2.2.9, and 3.1.3.1	Clarified Accounts Receivable Office responsibilities in collection efforts for non-Foreign Military Sales debts.	Addition

CHAPTER 6

DEBT OWED TO THE DOD BY FOREIGN ENTITIES

1.0 GENERAL

1.1 Overview

1.1.1. The DoD policy is to conduct timely and aggressive debt collection action, with follow-up efforts as necessary, to ensure that debt owed to the DoD by a foreign entity is collected and held to the absolute minimum. Further, all collection activities related to foreign-entity indebtedness, including all Acquisition and Cross-Servicing Agreement (ACSA) debt, will be done in compliance with the provisions of the applicable agreement or treaty with the foreign entity.

1.1.2. For purposes of this chapter, a foreign entity does not include foreign individuals or foreign vendors and will only refer to the following definitions:

1.1.2.1. Any government of a foreign country, and any subdivision, agency, or instrumentality thereof, including all foreign “official” institutions, even those located in the U.S.;

1.1.2.2. Any private relief, philanthropic, or other organization of a multinational or regional character with headquarters abroad; and

1.1.2.3. Any official multinational organization, defined as any international or regional organization (or affiliated agency thereof), created by treaty or convention between sovereign states.

1.1.3. Foreign-entity indebtedness means financial obligations owed to the U.S. Government by a foreign entity, as defined for purposes of this chapter. Foreign-entity indebtedness includes Foreign Military Sales (FMS) arrearages, accounts receivable for goods and/or services provided (where specified, includes goods and/or services provided through the ACSA program), and erroneous payments made to foreign entities. Foreign-entity indebtedness does not include principal payments or interest on short-term and long-term loans and credits.

1.2 Purpose

This chapter establishes policy for the DoD Components for identifying, billing, collecting, and managing foreign-entity indebtedness, including FMS and non-FMS. This chapter does not establish policy for billing and collecting for non-FMS fuel debts, foreign fuel exchange agreement debts, foreign direct bills, or FMS fuel debts. Unpaid debts related to fuel agreements, to include Replacement-in-Kind/Equal Value Exchange settlements, foreign direct bills, and FMS, should be billed and elevated through the Defense Logistics Agency – Finance Energy (subparagraph 3.1.3.2 and paragraph 3.2 are not applicable).

1.3 Authoritative Guidance

DoD must pursue and report all foreign indebtedness in accordance with the following:

1.3.1. The Arms Export Control Act (AECA), Public Law 90-629, as amended, codified in Title 22, United States Code, Chapter 39 ([22 U.S.C. Chapter 39](#)) for FMS arrearages;

1.3.2. [Title 31 U.S.C. § 3719](#); and

1.3.3. [Title 10 U.S.C. Chapter 138](#), Subchapter I, §§ 2341-2350.

2.0 RESPONSIBILITIES

2.1 DoD Component Responsibilities

DoD Components are responsible for:

2.1.1. Providing timely documentation to the Accounts Receivable Office (ARO) to establish the foreign-entity accounts receivable in the accounting records. Documentation must include applicable line(s) of accounting;

2.1.2. Providing collection information to the ARO if a collection for a foreign-entity debt is received by the DoD Component fund holder;

2.1.3. Assisting in notifying the appropriate foreign entity of the delinquent debt and working with the foreign entity to resolve disputed amounts;

2.1.4. Working with appropriate DoD and/or U.S. Government activities (e.g., the Defense Security Cooperation Agency (DSCA), the Military Departments, the Joint Chiefs of Staff, the Combatant Commands, the Department of State, and each country's U.S. Embassy's Office of Defense Cooperation) to collect the delinquent, foreign-entity debt;

2.1.5. Assisting the ARO to obtain necessary documentation, and point of contact information, to collect delinquent, foreign-entity debt;

2.1.6. Ensuring that foreign-entity debts (FMS arrearages and non-FMS debts) are reviewed during the Dormant Account Review - Quarterly of Undelivered Orders; Delivered Orders, Unpaid; Undelivered Orders, Paid; and Unfilled Customer Orders, in accordance with Volume 3, Chapter 8;

2.1.7. Recommending, coordinating, and/or approving recommendations to aggressively pursue delinquent, foreign debt, pursuant to the law and applicable agreement with foreign entities; and

2.1.8. Completing other actions pertaining to FMS arrearages and non-FMS, foreign-entity debts, as specified throughout this chapter.

2.2 ARO Responsibilities

The ARO is responsible for:

* 2.2.1. Preparing and sending the initial bill to the foreign entity and performing follow-up actions on non-FMS debts, to include sending [a written follow-up letter when a debt is 90-days delinquent, and then annually, to include after the appropriation cancels](#). Refer to Exhibit 6-1 for a sample demand letter, [subparagraph 3.1.3.1 for additional follow-up requirements](#), and subparagraph 3.1.2.2 for demand letter requirements;

2.2.2. Ensuring that collection of foreign-entity debt is completed in compliance with the law and applicable agreements with foreign entities;

2.2.3. Ensuring that the foreign-entity debt is valid. See Volume 4, Chapter 3 for accounting procedures when it is determined that a debt is not valid;

2.2.4. Processing all accounting transactions related to foreign-entity accounts receivable. This includes, but is not limited to:

2.2.4.1. Establishing and maintaining the accounts receivable in the applicable accounting system;

2.2.4.2. Crediting collections to the applicable line of accounting;

2.2.4.3. Aging delinquent, foreign-entity accounts receivable (refer to subparagraph 3.1.1); and

2.2.4.4. Preparing and submitting accounts receivable reports to the appropriate offices (e.g., Defense Finance and Accounting Service (DFAS) Departmental Accounting, DSCA, Department of State, U.S. Department of Treasury (Treasury), or Department of Commerce (Commerce)). See section 8.0;

2.2.5. Working with the DoD Component fund holder to resolve disputed, foreign-entity debt;

2.2.6. Coordinating with the DoD Component fund holder on other actions, as needed, to resolve foreign-entity debt;

2.2.7. Retaining required supporting documentation related to accounts receivable in accordance with Volume 4, Chapter 3;

* 2.2.8. Reporting delinquent, non-FMS, ACSA-related debts that are still outstanding [near the time of appropriation cancelation](#) to the DFAS Program Manager (PM); and

* 2.2.9. Using the DFAS Contractor Debt System to record delinquent debts from canceling years during year-end closeout [and communicating status of these debts to the Services](#).

2.3 DFAS PM Responsibilities

The DFAS PM is responsible for general oversight of the ACSA debt collection process, as well as providing strategic support to the ARO in elevating delinquent debts to the respective ACSA Combatant Command, Joint Staff, and other key stakeholders (e.g., Office of the Under Secretary of Defense (Comptroller)) when appropriate.

2.4 DSCA Responsibilities

DSCA is the principal DoD Component responsible for:

2.4.1. Completing actions concerning FMS arrearages and indebtedness, to include making a determination if charging interest or referral to the Department of Justice (DOJ) is required. For purchasers who have delinquent payments due, or who have accrued costs that exceed available cash, DSCA will evaluate the purchaser's entire program to determine whether or not a letter to the purchaser requesting payment is justified. If so, then DSCA will issue a written notification to the purchaser within 30 days of the end of the preceding quarter. If no response is received, then additional written follow-ups will be made at succeeding 30-day intervals;

2.4.2. Approving FMS feeder arrearage reports prepared by DFAS, Departmental Accounting, in accordance with this chapter;

2.4.3. Working with the purchaser, the responsible DoD Component, and DFAS Security Cooperation Accounting (SCA) to identify the specific issue and remedy (e.g., adjustments to ordered values, delivery timeframes, ordered quantity, collection of additional funds, or other alternative financial arrangements) when insufficient funds are available for DoD to meet the collective cash requirements for an FMS purchaser;

2.4.4. Administering and managing FMS long-term loan and credit programs authorized under the AECA, or other authorities, and identifying delinquent amounts associated with these programs; and

2.4.5. Completing other actions as necessary, to include required reporting to the Department of State and others.

2.5 DFAS SCA Responsibilities

DFAS SCA is responsible for:

2.5.1. Utilizing updated FMS payment schedules, and other financial performance criteria, to bill foreign governments and international organizations on the quarterly DoD (DD) Form 645, FMS Billing Statement, and/or special billing statements approved by DSCA;

2.5.2. Coordinating with DSCA to identify, report, and collect FMS arrearages and other delinquent amounts; and

2.5.3. Providing quarterly reports to DSCA to identify those FMS purchasers who are delinquent in payment from the previous quarter, as well as daily reports to identify purchasers' average disbursement rates and estimated number of months of cash on hand.

2.6 DFAS [Departmental Accounting](#) Responsibilities

DFAS Departmental Accounting is responsible for preparing FMS feeder arrearage reports in accordance with this chapter and the [Treasury Financial Manual \(TFM\)](#) and submitting the reports to Treasury after coordination and approval by DSCA.

3.0 BILLING AND FOLLOW-UP ACTIONS

3.1 Non-FMS, Foreign-Entity Debt

3.1.1. Due Date. All non-FMS, foreign-entity debt will be due 30 days from the date of the bill/demand letter, unless otherwise stated in the bill, contract, or agreement between the DoD Component and the foreign entity. The bill/demand letter will include a 60-day grace period. Therefore, the debt becomes delinquent 91 days from the date of the bill/demand letter.

3.1.2. Initial Billing/Notification

3.1.2.1. The ARO will prepare and send initial billings and notifications for goods and/or services for all non-FMS, foreign-entity debt. AROs will include the information listed in subparagraph 3.1.2.2 in the initial debt notification accompanying the bill.

3.1.2.2. The ARO will prepare and send the initial demand for non-FMS, foreign-entity debts. See Exhibit 6-1 for a sample demand letter. The demand letter will include, at a minimum, the following information:

3.1.2.2.1. The basis for and amount of the indebtedness;

3.1.2.2.2. The date by which payment must be made in full;

3.1.2.2.3. The address where payment should be sent or information regarding submission of electronic payment;

3.1.2.2.4. The name, address, and telephone number of a point of contact in the ARO who can discuss alternative methods of payment; and

3.1.2.2.5. Any available documentation that substantiates the debt.

3.1.3. Follow-up Actions

* 3.1.3.1. ARO. The ARO will perform follow-up actions on all non-FMS, foreign-entity debts. If the foreign entity does not provide payment by the due date, or other date specified in the agreement between the DoD Component and the foreign entity, then the ARO will immediately send a written, follow-up demand letter. Include the information listed in subparagraph 3.1.2.2 if not included in the initial billing/demand letter. [At a minimum, the ARO will send a follow-up letter when the debt is 90-days delinquent, and then annually, to include after the appropriation cancels. As the debt approaches the canceling year, the ARO will also refer the debt to the DFAS PM for additional assistance in collection efforts.](#) The ARO will not refer delinquent, foreign-entity debts to Treasury for cross-servicing, or for participation in the Treasury Offset Program (TOP), because these debts are exempt from referral.

3.1.3.2. DFAS PM. ARO personnel will elevate unpaid debt cases to the DFAS PM as described in subparagraph 2.2.8 [and 3.1.3.1](#). The DFAS PM will then [assist AROs in attempting to resolve these cases with the respective Combatant Commands and Joint Staff.](#)

3.2 FMS Accounts Receivable

3.2.1. Legal Requirements

3.2.1.1. For sales from stock, AECA, Section 21(b), codified as [22 U.S.C. § 2761](#), requires DoD to collect payments from foreign purchasers in advance or, if the President determines it to be in the national interest, upon the delivery of a defense article or the rendering of a defense service. After a determination by the President that it is in the national interest to bill upon the delivery of a defense article or the rendering of a defense service, interest will be charged in accordance with AECA, Section 21(d), 22 U.S.C. § 2761(d), on any net amount due and payable that is not paid within 60 days after the date of such billing.

3.2.1.2. The President delegated the authority to determine if billing upon delivery is in the national interest in [Executive Order 13637](#), and the Secretary of Defense further delegated the authority to the Director, DSCA, in [DoD Directive 5105.65](#). The President may extend the period to 120 days if he determines that emergency requirements of the purchaser will exceed the ready availability of purchaser funds to the U.S. Government within the 60 days. In this case, the President submits a determination with a special emergency request for authorization and appropriation of additional funds to finance such purchases under the AECA.

3.2.1.3. For sales from procurements (items sent directly from the source, and not from DoD inventories), when the country is authorized a dependable undertaking, AECA, Section 22(a), [22 U.S.C. § 2762\(a\)](#), requires DoD to collect payments from foreign purchasers in time to meet contractual payments, including any damages and costs that may accrue from the cancellation of such contracts. The AECA, Section 22(a), requires interest to be charged on any net amount by which a foreign purchaser is in arrears, taking into consideration all of its outstanding unliquidated dependable undertakings.

3.2.2. Due Date. Refer to Volume 15, Chapter 8 for policy regarding FMS billing due dates.

3.2.3. Initial Billing. DFAS SCA is responsible for issuing FMS billing documents. Billings for financial requirements will be initiated by using the DD 645, or the special billing statement approved by DSCA. These billings must, at a minimum, identify the financial requirements, amount paid, and amount due. Specific policy on FMS billings is in Volume 15, Chapter 8.

3.2.4. FMS Arrearages

3.2.4.1. When the amount due per the DoD billing statement is not paid by the due date, that amount is considered delinquent, but that does not necessarily constitute an arrearage.

3.2.4.2. For FMS cases authorized to include a term of sale of "Payment on Delivery," and for FMS purchasers authorized "dependable undertaking" terms of sale, an arrearage occurs when the FMS purchaser's total cash resources on deposit with the U.S. Government are insufficient to cover all its outstanding, billed amounts, unliquidated dependable undertakings, considered collectively. Reference Volume 15, Chapter 4, subparagraph 3.1.2 for information on dependable undertaking.

3.5.2. Follow-up Actions

3.5.2.1. FMS purchasers are required to pay in advance of performance unless the President determines it to be in the national interest to collect upon delivery of the defense article or the rendering of the defense service. Refer to 22 U.S.C. § 2761. Therefore, in the FMS program, an arrearage is an unusual event.

3.5.2.2. If required, written notification to the purchaser will normally be sent within 30 days of the end of the preceding quarter. If no response is received, then additional written follow-up must be made at succeeding 30-day intervals. Delinquent FMS arrearages must not be referred to Treasury for cross-servicing or participation in TOP.

4.0 INTEREST, ADMINISTRATIVE CHARGES, AND PENALTIES FOR FMS ARREARAGES

4.1 General

In accordance with 22 U.S.C. § 2761(d) and 22 U.S.C. § 2762(a), interest will be charged on FMS arrearages. The final determination regarding assessment of interest on FMS arrearages will reside with DSCA. "The rate of interest charged shall be a rate not less than a rate determined by the Secretary of the Treasury, taking into consideration the current average market yield on outstanding short-term obligations of the United States as of the last day of the month preceding the net arrearage and shall be computed from the date of net arrearage." For the interest rate due on FMS delinquent payments, see [TreasuryDirect](#). Once there, select the applicable month and "Table 5 - Department of Defense Arms Export Control Act." For the proper disposition of interest

funds collected, refer to Volume 4, Chapter 3. Non-FMS, foreign debts owed by any sovereign state are exempt from interest, administrative charges, and penalties.

4.2 Term of Sale – Payment on Delivery

Interest assessed on arrearages resulting from FMS cases with a term of sale of “Payment on Delivery” must be computed from the date of the billing. Figure 6-1 provides an illustration of the applicability of interest in these cases.

4.3 Insufficient Case Resources

Interest assessed on arrearages resulting from a purchaser’s total cash resources on deposit being insufficient to cover its outstanding, unliquidated dependable undertakings is computed from the date on which the net arrearage occurs. Net arrearage occurs on the date that DFAS SCA determines that the accrued costs exceed available cash.

5.0 REFERRAL OF FMS INDEBTEDNESS

5.1 Authority to Refer FMS Indebtedness

DSCA will determine if an FMS arrearage will be forwarded to DOJ for litigation.

5.2 Preservation of Evidence

The ARO, DFAS PM, DoD Component, and DSCA must retain all files and records that may be needed by DOJ to prove the case in court. Reference Volume 1, Chapter 9 for additional information on record retention.

6.0 COMPROMISE, SUSPENSION, OR TERMINATION OF COLLECTION ACTIONS FOR FMS ARREARAGES

DFAS SCA, in cooperation with the DoD Component, must coordinate proposals to compromise, suspend, or terminate collection actions on FMS arrearages with DSCA. Refer to Chapter 2, section 14.0 for policy on compromise, suspension, or termination of collection actions.

7.0 WRITE OFF AND CLOSE OUT OF FMS ARREARAGES

DSCA is responsible for initiating and coordinating all actions necessary to write off and close out FMS arrearages. Refer to Volume 4, Chapter 3, paragraph 4.7 for write-off and closeout requirements.

8.0 REPORTING FOREIGN INDEBTEDNESS

8.1 Reporting

Foreign indebtedness must be uniformly and accurately reported through appropriate reporting channels to Treasury and Commerce.

8.2 Required Reports

8.2.1. Grants, Loans, Credits, and Contingent Liabilities Involving Foreigners. The TFM, Volume I, Part 2, Chapter 4500 requires the electronic submission of several reports pertaining to foreign obligors to Treasury by the 45th day following the end of the reporting quarter, if applicable. These reports are prepared and submitted by DFAS Security Assistance Accounting (SAA) Departmental. The data for these reports is extracted from the DSCA FMS Credit System. The TFM, Volume I, Part 2, Chapter 4500 provides detailed guidance, formats for the reports, and instructions for completing and submitting the reports.

8.2.2. Data Editing. DFAS SAA Departmental must complete the quarterly data editing and approval process using Treasury's Foreign Credit Reporting System (FCRS) within 2 weeks after receiving notification that the reporting period data is available for editing. The "FCRS Web Site Overview and Data Editing Guide for Agency Users," which is available only to authorized users on the FCRS web site, contains instructions for the quarterly data editing and approval process. The required reports are:

8.2.2.1. Direct Long-Term Credits History,

8.2.2.2. Guarantees and Insurance of Long-Term Credits History,

8.2.2.3. Direct Long-Term Credits Status,

8.2.2.4. Guarantees and Insurance of Long-Term Credits Status,

8.2.2.5. Direct Long-Term Credits Scheduled Payments, and

8.2.2.6. Guarantees and Insurance of Long-Term Credits Scheduled Payments.

8.2.3. Treasury Report on Receivables (TROR). DFAS and DoD Component accounting offices must ensure that the TROR includes foreign indebtedness as required by Volume 4, Chapter 3, section 6.0.

8.3 Preliminary Case Analysis Report of FMS Arrearages

The National Advisory Council (NAC) monitors major foreign arrearages. For this purpose, a major foreign arrearage is any country program arrearage that involves the sum of \$250,000 or more. Periodically, DSCA will request a Preliminary Case Analysis Report (PCAR) from DFAS to satisfy NAC requirements. The PCAR will be submitted directly to DSCA by

DFAS in email message form. The report will reflect any foreign arrearages so that a determination can be made on whether interest should be charged.

8.4 Collecting and Reporting Foreign Debts Under Long-Term Loans and Debts

DSCA is responsible for administering FMS long-term loans and credit programs authorized by [22 U.S.C. § 2763](#) and determining foreign arrearages against these programs.

CHAPTER 7

INTEREST, PENALTIES, AND ADMINISTRATIVE (IPA) CHARGES

1.0 GENERAL

1.1 Overview

1.1.1. This chapter pertains to the collection of debts owed to the DoD from [all other debtors not covered by Chapter 6](#). Debtors subject to IPA under this chapter include, but are not limited to, current and retired DoD civilian employees, current members of the military services (active and reserve), military retirees, individuals who are no longer employed by DoD, contractors, vendors, assignees, and business entities. Contractor-specific guidance can also be found in the Federal Acquisition Regulation ([FAR](#)), [subpart 32.6](#).

1.1.2. This chapter does not pertain to the collection of debts owed to DoD by Foreign Entities, which is covered in Chapter 6.

1.1.3. The intent of IPA charges is to stimulate prompt debt payment, to compensate the government for loss of use of funds when debt is not paid timely, and to recover the cost of processing and handling delinquent debts, including referral to credit bureaus or collection agencies.

1.2 Purpose

This chapter establishes policy and requirements for the DoD Components for the accounting and reporting of IPA charges on delinquent debts and debts repaid via installment agreement or salary offset.

1.3 Authoritative Guidance

Requirements contained in this chapter are primarily based on:

1.3.1. [Title 31, United States Code \(U.S.C.\), section 3717](#);

1.3.2. The FAR, subpart 32.6;

1.3.3. [Title 31, Code of Federal Regulations \(CFR\), Parts 900-904](#) (Federal Claims Collection Standards); and

1.3.4. Published U.S. Department of the Treasury (Treasury) guidance, concerning the collection of interest, contained in [“Managing Federal Receivables,” Chapter 6](#).

2.0 INTERNAL CONTROLS

All organizations involved in the collection and management of IPA charges must adhere to the basic standards for internal controls in [DoD Instruction 5010.40](#), “Managers’ Internal

Control Program Procedures,” to ensure IPA charges owed to the DoD are managed and collected in accordance with this chapter and other applicable regulatory and statutory requirements.

3.0 APPLICATION OF CHARGES

[Title 31, CFR, section 901.9](#) contains guidance on assessing IPA charges. Unless prohibited by law, IPA charges will be applied accordingly. Refer to Volume 4, Chapter 3 for requirements on the disposition of IPA charges.

3.1 General

* 3.1.1. All debts owed to the Government and not paid in full by the due date [specified in the debt notification letter](#) will accrue IPA charges [back to the original date of the debt notification](#), and in accordance with 31 U.S.C. § 3717. These charges will continue to accrue until the debt is paid in full or otherwise resolved through suspension, compromise, termination, or the IPA charges are waived. Debts owed by any federal agency, or nonappropriated fund instrumentality, are exempt from IPA charges.

3.1.2. Payments of amounts owed to the Federal Government by organizations, businesses, and individuals are expected to be made in accordance with terms specified in contracts, agreements, or notifications of indebtedness. For those debts owed to the Federal Government that are not covered by provisions contained in contracts or agreements, the notification of indebtedness will inform the debtor of the basis for the indebtedness, the date the debt payment is to be made (due date), and the requirement for IPA charges, unless otherwise prohibited by law.

3.2 Interest Charges

3.2.1. Interest charges will be [accrued and](#) assessed on all debt not paid in full by the date due, regardless [of](#) if the debt is to be paid in a lump sum or installments. Debt that is paid through an agreed-upon installment plan, or through salary offset, is not considered delinquent as long as the payments are made on time; however, interest will continue to be assessed on the outstanding balance owed and collected until the debt is paid in full.

3.2.2. Pursuant to 31 U.S.C. 3717, interest rates must be established for each loan receivable and overdue debt from the public. The factors that affect the variability of interest rates (e.g., legislation, type of contract, an occurrence of an event, passage of time, debtor's income level, or federal funds rate) must be identified. In the absence of specific authority embodied in statute, regulation required by statute, contract, or other public notice, the interest rate, at a minimum, will be the same rate as the Current Value of Funds Rate (CVFR) established by the Secretary of the Treasury. Interest may not be compounded or assessed on administrative costs or penalties.

3.2.3. The CVFR is used to calculate interest on overdue Federal Government receivables. The interest rate is subject to revision only if the published rate changes by 2 percentage points (e.g., from 6.0 percent to 4.0 percent) at the close of the prior calendar quarter. The Treasury publishes changes to the CVFR in the Treasury Financial Manual Bulletins. Additional information can be found at the Bureau of the Fiscal Service [CVFR](#) web page.

3.2.4. The interest rate used to determine charges on a delinquent debt will remain fixed for the life of the debt. However, if a debtor defaults on a repayment agreement and seeks to enter into a new agreement, the agency may require payment of interest at a new rate that reflects the CVFR at the time the new agreement is executed.

3.2.5. Unless other provisions exist in a contract or prior agreement, interest charges will not be assessed until the debtor has been notified in writing that interest and penalty charges will accrue. Payment terms specified in the invoice, demand letter, or notice of indebtedness must be consistent with payment terms in the related contract or formal agreement.

3.2.6. Interest will not be charged if payment is made by the date specified in the debt notification [letter](#) (typically 30 days from the date on the notification).

3.2.7. Interest will continue to accrue after “date of death” when a claim is to be filed against the estate.

* 3.2.8. Interest charges will be computed using the following formula:

$$I = D * N * F$$

Where:

I = Interest charge,

D = Amount of outstanding debt ([See 3.2.2 for rules regarding compounding](#)),

N = Number of days delinquent ([counted from the date of the debt notification](#)), and

F = Interest rate per day.

3.2.9. For additional information on interest charges pertaining to debts owed by contractors/vendors, refer to Chapter 5.

3.3 Penalty Charges

* 3.3.1. DoD Components must accrue and assess a penalty charge, not to exceed 6 percent per annum, on any portion of the debt that is delinquent more than 90 days ([from the date of the debt notification](#)), to include interest and administrative charges. A debt becomes delinquent if not paid by the established due date; therefore, penalty charges must be applied to those accounts reported in the aging category 91-180 days delinquent and beyond. This does not include payments that are current and made based on an agreed-upon installment plan or through salary offset. The Components may determine what percentage, up to the maximum 6 percent, will be applied to

delinquent accounts. The Component's rationale for charging a lesser amount must be documented and become part of the official debt file.

3.3.2. Penalty charges will continue to accrue after "date of death" when a claim is to be filed against the estate.

3.4 Administrative Charges

3.4.1. In addition to interest and penalty charges, administrative charges will be assessed to cover the added costs incurred in handling a delinquent debt beyond the date on which payment was due. Unlike the interest charge, which begins to accrue on the date the debt notice is issued, the administrative charge is applied only if payment is not made by the due date specified in the notice. Administrative charges are not applied to installment payments that are current and made based on an agreed-upon installment plan or salary offset.

3.4.2. The Components must calculate administrative charges based upon actual costs incurred to cover the cost of processing and handling delinquent debt. If actual cost is not available, then Components may base the administrative charges upon other historical costs or cost analyses, as long as the method used supports determination of the charge and is documented in the official debt file. An administrative charge will be applied to all delinquent debts with due regard given to the length of time the debts are delinquent.

3.5 Installment Payments and Application of Fees

When a debt is collected by installment payments, the amounts received must be applied first to contingency fees, second to outstanding penalties, third to administrative costs, fourth to interest, and last to principal. Contingency fees are paid by a federal agency to other federal agencies or private collection contractors for collection services rendered. These fees are paid from the amounts collected from the debtor.

*4.0 WAIVER OF ACCRUAL OF IPA CHARGES

4.1 Authority

Under 31 U.S.C. 3717(h), IPA charges may be waived, in whole or in part, by the DCO, either by using the criteria set forth in the standards for the compromise under 31 C.F.R. 902.2, or when the collection of IPA charges is against equity and good conscience (such as when charging IPA would cause undue financial hardship to the debtor) or is not in the best interest of the United States. See also 31 CFR 901.9(g). A DCO may waive IPA on its own or at the request of a debtor. A DCO may also waive IPA only in part. For example, circumstances may justify a waiver of penalties, which are meant to penalize untimely payment, but not a waiver of interest and administrative costs, both of which are meant to compensate the Government. A decision to waive IPA charges must be made in accordance with the guidelines in paragraph 4.2.

4.2 Guidelines for Waiver of IPA Charges

The following guidelines for waiver of IPA charges must be followed.

4.2.1. The accrual and assessment of IPA charges may be waived only after the DCO makes a determination that waiver is appropriate, including at the time the debt is terminated or compromised.

4.2.2. Decisions to waive the accrual and assessment of IPA charges must be made on a case-by-case basis. Blanket waivers (i.e., waiving IPA on an entire class of debts) are not appropriate. Decisions on IPA waivers must be documented, include an explanation as to the reasons for the waiver, and retained as a part of the official debt file.

4.2.3. The same organizational level, or the same designee, authorized to approve compromises, write off indebtedness, or approve requests for waiver or remission of indebtedness, depending on the disposition of the basic debt, is authorized to approve waiver of the accrual of IPA charges.

4.2.4. Accrued IPA charges will be collected, reported, compromised, or written off in the same manner as the basic debt.

4.2.5. A decision regarding waiver is within the sole discretion of the agency and is not reviewable.

5.0 WRITE-OFF OF ACCRUED IPA CHARGES

When a debt is written off, the accrued IPA charges must also be written off. Write-off must be done in accordance with Office of Management and Budget Circular A-129. Volume 4, Chapter 3 contains additional requirements on debt write-off.

DEFINITIONS

1.0 General

The following list defines significant terms related to debt management and debt collection.

2.0 List of Definitions

Accounts Receivable Office (ARO)

The ARO is the office responsible for recording and reporting receivables and may also be the office responsible for debt collection.

Administrative Wage Garnishment (AWG)

AWG is a process whereby a non-federal employer is ordered by the U.S. Department of Treasury (Treasury) to withhold amounts from an employee's wages in order to collect a federal non-tax debt owed to a federal agency, such as DoD.

Cross-Servicing Program

The Cross-Servicing Program is the Treasury's consolidated debt collection program in which the Treasury uses a variety of tools to collect a debt, such as demand letters, telephone calls, the Treasury Offset Program (TOP), AWG, and credit bureau reporting.

Debt

A. As defined in [Title 31, United States Code, section 3701](#), debt is an amount of funds or property that an appropriate official of the Federal Government has determined to be due the U.S. Government from a person, organization, or entity other than another federal agency that the Government is entitled to receive immediately. Debts include, but are not limited to: insured or guaranteed loans and amounts due from fees, leases, rents, royalties, services, sales of real or personal property, overpayments, financial obligations from foreign military sales purchasers, penalties, damages, interest, fines, and forfeitures.

B. Debt in this context does not include tax debts, amounts due a nonappropriated fund instrumentality (unless specifically included in the DoD Financial Management Regulation), delays in processing employee-elected coverage, or a change in coverage under federal benefits programs if processing delays did not exceed 2 monthly or 4 biweekly pay periods. The term does not include debts owed by DoD or debts arising from antitrust, fraud, or interagency claims.

Debt and Claims Management Office (DCMO)

The DCMO offers debt management and collection assistance for delinquent debts owed to the DoD by individual debtors who are former DoD employees that are no longer paid by the DoD.

Debt Collection Office (DCO)

DCO refers to the office or individuals at the DoD Component level that are primarily responsible for debt establishment and collection for the Component. DCOs that manage the debt collection for the Component are typically located in the following areas: AROs, military and civilian payroll offices (located both within and outside of the Defense Finance and Accounting Service (DFAS)), Debt Management Office (DMO), DCMO, contracting offices, disbursing offices, or the Foreign DMO.

Debt Compromise

Debt compromise is an agreement between the DoD and the debtor to accept less than the full amount of an outstanding debt in full satisfaction of the entire amount of the debt. A debt compromise is final and conclusive unless obtained by fraud, misrepresentation, presentation of a false claim, or mutual misstatement of fact.

Debt Management Office

The DMO is the DFAS office that services referred vendor/contractor debts.

Debt Referring Office

The Debt Referring Office is the office responsible for referring contractor, assignee, and business entity debt to the DMO or the office responsible for referring individual out-of-service debt to the DCMO. The Debt Referring Office could include, but is not limited to: AROs, DCOs, accounting offices, military pay offices, vendor pay offices, contracting offices, and disbursing offices.

*Delinquent Debt

A delinquent debt is a debt that has not been paid by the due date specified in the written demand for payment (i.e., invoice, debt notification letter, or applicable agreement or instrument (including a post-delinquency payment agreement)). **For the purposes of accruing and assessing fees for interest, penalties, and administrative costs, the date of delinquency is the date of the initial debt notification.**

Erroneous Payment

An erroneous payment is a payment that was not legal and proper when made or is not in compliance with applicable laws or regulations ([*Title 32, Code of Federal Regulations, section 284.3*](#)). Refer to Volume 5, Chapters 5 and 6 for information on pecuniary liability. For purposes of DoD debt collection, examples of erroneous payments include:

- A. An improper overpayment to a payee;
- B. Two or more payments to a payee for the same entitlement (i.e., duplicate payment)
- C. A payment to the wrong payee;
- D. A Treasury check issue overdraft (in some cases);
- E. A shortage caused by negotiation of both an original and a substitute Treasury check;
- F. Payment based on fraudulent, forged, or altered documents; and
- G. A payment made in violation of law or regulation.

Legally Enforceable Debt

A debt is legally enforceable if the DCO has made a final determination that the debt is valid and there are no legal bars to collection action. If the debt is the subject of a pending administrative review process required by statute or regulation, and collection action during the review process is prohibited, then the debt is not considered legally enforceable for purposes of mandatory referral to the Treasury.

Long-Term Loans and Credits

Long-term loans and credits include any indebtedness to the DoD in which the original payment terms provide for payment within a period of time exceeding one year after delivery or performance.

Offset

An offset is the withholding of the entire amount or a portion of a payment to a payee and applying the amount withheld to liquidate the payee's debt. There are several methods used to perform an offset.

- A. Administrative offset is the withholding of any funds payable by the United States to, or held by the United States for, a person to satisfy a debt.

B. Salary offset is limited to the withholding from pay and allowances. Salary offset is accomplished by installment deduction(s) at officially established pay intervals from the current pay of the individual.

C. Centralized offset is done by the Treasury and is administered through TOP. Centralized offset occurs when Treasury withholds part or all of a debtor's federal payments to satisfy the debtor's delinquent debt owed to the Government.

D. Non-centralized offset is also the withholding of a debtor's federal payments, but it is done internally by federal agencies on a case-by-case basis.

Short-Term Loans and Credits

Short-term loans and credits are any debts in which the original payment terms provide for payment between 90 days up to, and including, one year after delivery or performance. Foreign Military Sales transactions, which provide for payment 120 days after delivery or performance, will be classified as short-term credit sales.

Suspension of Collection Action

Suspension of a collection action is a determination to cease collection action temporarily with the intent to initiate collection action at a later date.

Termination of Collection Action

Termination of collection action is a determination to cease active debt collection. Passive debt collection efforts, such as Treasury cross-servicing, may resume following termination of collection activity.

Treasury Offset Program (TOP)

TOP is a program that allows agencies to submit delinquent, valid, and legally enforceable debts to the Bureau of the Fiscal Service for collection via offset of all eligible payments the debtor may receive from the Government.

“GLOSSARY”**SUMMARY OF MAJOR CHANGES**

Changes are identified in this table and also denoted by [blue font](#).

Substantive revisions are denoted by an asterisk (*) symbol preceding the section, paragraph, table, or figure that includes the revision.

PARAGRAPH	EXPLANATION OF CHANGE/REVISION	PURPOSE
All	Administrative updates in accordance with Department of Defense Financial Management Regulation (FMR) Revision Standard Operating Procedures.	Revision

GLOSSARY

A. Overview

The following list defines general terms of significance or importance in financial management policies for the Federal Government or the Department of Defense (DoD) that are discussed in various chapters of this Regulation. This glossary is provided for general information. It is not an exhaustive list of all financial management terms, and it does not define terms when standard dictionary definitions apply. Authoritative guidance with more detailed explanations or nuances may be found in specific chapters.

B. List of Definitions

Accessorial Charges

Costs incurred for packing, crating, and handling related to sales or shipments of property.

Accountable Official (Departmental)

An individual—such as a receiving official, contracting officer, purchase card official or military, civilian, and travel pay officials—responsible for providing a certifying officer with information, data, or services that the certifying officer relies upon in the certification of vouchers for payment.

Accounting Entity

In DoD the accounting entity is the DoD Component; that is, the Department of the Army, the Department of the Navy, the Department of the Air Force, and the Office of the Secretary of Defense (OSD) and/or the Defense Agencies, regardless of appropriation or fund.

Accounting Objectives

Goals toward which accounting efforts are directed. The goals are derived directly from [higher authority](#), [audit requirements](#), legal, and regulatory requirements and the needs of intended users.

Accounting System Design Documentation

Documentation supporting the design of an accounting system that assures all relevant accounting principles, standards, and related requirements have been addressed. It consists of three distinct documentation packages: (1) the functional accounting system concept design, (2) the functional detailed design, and (3) various automated data processing documentation packages that track functional user requirements to specific computer programs. See Volume 1, Chapter 3 for specific documentation requirements.

Accounts Payable

Amounts owed to other entities for goods and services received (i.e., actual or constructive receipt), progress in contract performance, and rents due to other entities.

Accounts Receivable from the Public

All accounts receivable arising from the sale of goods and services and from operations involving other than Federal Government organizations. Examples are debts owed by military personnel, civilian employees, and contractors.

Accrued Variance (Foreign Currency Fluctuations)

The difference between un-liquidated obligations at the budget rate (approved execution rate) and the foreign exchange rate current at the time of payment.

Acquisition Cost

The amount, net of both trade and cash discounts, paid for property plus transportation costs and other ancillary costs to bring the item(s) to its current condition and location.

Adjustments to Expired or Closed/[Canceled](#) Accounts (Upward or Downward)

Increases or decreases to obligations or expenditures. Adjustments involve recording obligations or expenditures that were made or incurred, but not recorded, during the period prior to expiration or cancellation of the account.

Administrative Subdivision of Funds

Any sub-division or legal restriction of an appropriation or fund that makes funds available in a specified amount for incurring obligations. Frequently used subdivisions include apportionments, allocations, sub-allocations, allotments, and sub-allotments.

Advances

Advances are cash outlays made by a federal entity to its employees, contractors, grantees, or others to cover a part or all of the recipients' anticipated expenses or as advance payments for the cost of goods and services the entity acquires. The outlay is made before an authorized DoD receiving official has certified performance. Common examples include travel advances disbursed to employees prior to business trips, and cash or other assets disbursed under a contract, grant, or cooperative agreement before services or goods are provided by the contractor or grantee.

Agency Financial Management System

The total of agency financial systems, both manual and automated, for planning, budget formulation and execution, program and administrative accounting; as well as all other systems for recording and classifying financial data and reporting financial management information, including purchasing, property, and inventory.

A. Financial Management Information. All information that is expressed in dollar terms on federal spending, collections, assets, liabilities, equity, and related budgetary and accounting transactions and balances.

B. Accounting System. The structure of methods and procedures used to record, classify, accumulate, analyze, summarize, and report information on the financial condition and operating position. It is comprised of the various functional operations involved in authorizing, recording, classifying, analyzing, and reporting financial information related to financing sources, gains, expenses, losses, transfers, assets, liabilities, equity, and internal controls. It encompasses the procedures and processes from the point a transaction is authorized through processing the data, either manually or automatically, to issuance of financial and management information statements and reports.

1. Primary Accounting Systems. The aggregation of like financial management information aligned by the major operational areas and summarized to support financial and management information needs. There are five Primary accounting systems made up of the single, standard integrated Departmental accounting systems, which controls all financial management information. The Primary accounting systems are General Fund, Working Capital Fund, Trust Fund, Civilian Pay, and Military Pay.

2. Administrative Accounting Systems.

a. Accounting Support Systems. The manual or automated programs, procedures and processes that authorize, record, classify, analyze, and report on financial management information for one of the Primary accounting systems. Accounting Support systems provide general ledger control and financial information on operations for consolidation to the Primary accounting systems.

b. Subsidiary Accounting Systems. The manual or automated programs, procedures, and processes for one of the various functional operations involved with revenues, expenses, assets, liabilities, and equity. The Subsidiary accounting systems form the foundation and audit trail for the Primary accounting systems and the Accounting Support systems.

3. Accounting System Modules. Modules are distinguished by the fact that their functions and systems of internal controls are embodied in the accounting system. As such, modules are fully integrated subsystems of an accounting system, and they are inventoried and evaluated in conjunction with the accounting system.

4. Feeder Systems. The manual or automated programs, procedures and processes which develop data required to initiate an accounting or financial transaction but do not perform an accounting operation (e.g., personnel, property, or logistics systems).

Allocations

A further subdivision of allotments. Within DoD, the term has been used to refer to departmental-level accounting entity distributions of apportionments, or funds that do not require apportionment, to an operating Agency or other intermediate level accounting entity.

Allotments

Subdivisions of apportionments that are made by the heads of agencies, or their designee, to incur obligations within a prescribed amount. Subdivision and distribution of an allotment (e.g., sub-allotments and allocations to operating agencies or installation-level accounting activities) must contain at least the same legal and other limitations applicable to the original allotment. Such subdivisions and distributions may establish additional legal and other limitations applicable to execution of budgetary resources.

Annual (1-Year) Authority

Budget authority that is available for obligation only during a specified fiscal year and expires at the end of that time.

Anticipated Reimbursements

The dollar value of orders expected to be received during the forthcoming fiscal year. Anticipated reimbursements do not create obligational authority until an actual order is received and accepted.

Antideficiency Act

Legislation enacted by Congress to prevent the incurring of obligations or the making of expenditures (outlays) in excess of amounts available in appropriations or funds; to fix responsibility within an agency for the creation of any obligation or the making of any expenditure in excess of apportionment or reapportionment or in excess of other subdivisions established pursuant to Title 31, United States Code, sections 1341, 1342 ([31 U.S.C. §§ 1341-1342](#)), and 1517 ([31 U.S.C. § 1517](#)); and to assist in bringing about the most effective and economical use of appropriations and funds.

Apportionment

A distribution made by the Office of Management and Budget (OMB) of amounts available for obligation and expenditures in an appropriation or fund account into amounts available for specified time periods (usually fiscal quarters), programs, activities, projects, objects, or any combination of these. The apportioned amount limits the obligations that may be incurred. An apportionment may be further subdivided by an agency into allotments, sub-allotments, and allocations.

Appropriation Limitations

Statutory and other special restrictions, which impose a restriction on the availability of funds or the authority to obligate or expend appropriations for certain objects or purposes, such as, family housing.

Appropriation Warrant

An official U.S. Treasury document that provides the dollar amounts established in the general and detailed appropriation accounts of the U.S. Treasury pursuant to Appropriation Acts authorized by law. It serves as a convenient source document for entries into accounts that establish the amount of money authorized to be withdrawn from the U.S. Treasury.

Appropriation

A provision of law (not necessarily in an appropriations act) authorizing the expenditure of funds for a specified purpose. Usually, but not always, an appropriation provides budget authority, which is authority provided by law to incur financial obligations that will result in outlays. For purposes of the Antideficiency Act, the term "appropriations" may have a broader meaning. As defined by the Act, it means all new budget authority and balances of budget authority as described in OMB Circular No. A-11, [*OMB A-11, Section 20.4*](#).

Asset Use Charge

A charge for the use of DoD assets (facilities and/or equipment) to recoup depreciation and interest on investment.

Authorizing Official (or Officer)

An individual who approves a transaction, and verifies and validates the funds cited on a commitment or obligation document are accurate and available.

Balanced Budget and Emergency Deficit Control Act of 1985 (BBEDCA)

Legislation that shaped the budget process, first by setting fixed targets for annual deficits and then by replacing those with a Pay-As-You-Go requirement for new tax or mandatory spending legislation and with caps on annual discretionary funding. Most of these requirements expired in 2002. The Statutory Pay-As-You-Go Act of 2010, which did not amend the BBEDCA, reinstated a statutory pay-as-you-go rule for revenues and mandatory spending legislation. The Budget Control Act of 2011, which amended the BBEDCA, reinstated discretionary caps on budget authority.

Bench Stock (Also Shop Stock)

Inventory held by a cost center for use as indirect material and used in support of numerous small projects or activities carried out by the cost center. Inventory includes items such as screws, washers, and lubricants.

Book Value

The recorded cost of a general Property, Plant, and Equipment (PP&E) asset less accumulated depreciation.

Borrowing Authority

Statutory authority to incur obligations and to make payments for specified purposes out of borrowed money. Within DoD, borrowing authority is used for mortgage assumptions under the Homeowners Assistance Program and for loans from the Federal Financing Bank.

Budget Authority

Authority provided by law to incur financial obligations that will result in outlays. Specific forms of authority include appropriations, borrowing authority, contract authority, and spending authority from offsetting collections.

Budget Control Act (BCA) of 2011

Legislation that, among other things, amended the Balanced Budget and Emergency Deficit Control Act of 1985 to reinstate discretionary spending limits on budget authority through 2021 and restored the process for enforcing those spending limits; increased the statutory debt ceiling; and established a Joint Select Committee on Deficit Reduction that was instructed to develop a bill to reduce the Federal deficit by at least \$1.5 trillion over a 10-year period. It also provided a process to implement alternative spending reductions in the event that legislation achieving more than \$1.2 trillion of deficit reduction was not enacted by January 15, 2012.

Budget Rate

A foreign currency exchange rate provided to DoD Components for use in preparing budget submissions during budget formulation and for recording obligations during budget execution. Budget rates are provided by the DoD Comptroller and may be modified by the Congress. During execution, foreign currency obligations are recorded using the budget rate (rates approved for execution). Also, see “Foreign Currency Fluctuations.”

Budgetary Resources

For purposes of budget execution, budgetary resources include new budget authority, available unobligated balances at the beginning of the year, reimbursements, and other income (also known as offsetting collections credited to an appropriation or fund account), recoveries of prior year obligations from unexpired accounts, and restorations. In the case of reimbursable work, budgetary resources available for obligation are comprised of earned reimbursements and unfilled customer orders (limited by the amounts collected in advance for orders from the public). In the case of loan programs, budgetary resources available for obligation from loan repayments and interest on loans are comprised of actual collections when authorized to be used.

Business Concern

Any person or organization engaged in a profession, trade, or business, and nonprofit entities (including State and local governments, but excluding Federal entities) operating as contractors.

Cash-Flow Process

Each process of collecting or disbursing moneys for Agency programs or operations, and for balances held outside of the U.S. Treasury.

Cash-Flow Report

A document summarizing each unique cash-flow process and corresponding opportunities for new cash management improvements.

Cash Held at Personal Risk

Cash held by authorized disbursing officers, their cashiers, and their agent officers, including alternates, for making miscellaneous cash payments, meeting cash payrolls, or making change; funds established for making small purchases; imprest funds; cash held pending delivery to other disbursing officers; and for other purposes specifically authorized by law.

Cash Management

Practices and techniques designed to accelerate and control collections, ensure prompt deposit of receipts, improve control over disbursement methods, and minimize idle cash balances.

Cash Management Review

An ongoing study of an Agency's cash flows and corresponding cash management processes or mechanisms conducted to identify implementable improvement opportunities in an Agency's cash management practices.

Centrally Managed Account

Authority issued by the holder of an account (allotment/allocation) for incurring obligations for a specific purpose and in a specific amount. It is administered by publishing a centrally managed account number that permits authorized officials to charge the account for authorized purposes without further determination or certification of fund availability for individual transactions.

Certifying Officer

An individual designated to attest to the correctness of statements, facts, accounts, and amounts appearing on a voucher, or other documents. A certifying officer is pecuniary liable for payments in accordance with [31 U.S.C. § 3528](#).

Clearing Accounts

Accounts established solely to temporarily hold general, special, or trust fund collections or disbursements pending clearance to the applicable receipt or expenditure budgetary account. Except for clearance to the applicable receipt or expenditure budgetary account, clearing accounts are not available for obligation or expenditure.

Closed/Canceled Accounts

An appropriation that has been closed in accordance with [31 U.S.C. §§ 1551-1557](#). This term also includes an appropriation that otherwise would have been closed by 31 U.S.C. §§ 1551-1557, but has not been closed by the Department of the Treasury because the appropriation has a negative balance. When balances are canceled, the amounts are not available for obligation or expenditure for any purpose, unless exempt by a provision of an appropriation law.

Collections

Amounts received during the fiscal year. Collections are classified into two major categories: budget receipts and offsetting collections. Budget receipts are amounts received by the Federal Government from the public, e.g. tax revenues, premiums of compulsory social insurance programs, court fines, and license fees. Offsetting collections are classified into two major categories: offsetting receipts and collections credited to appropriation or fund accounts.

Commitment

An administrative reservation of funds based on firm procurement requests, unaccepted customer orders, Directives, and equivalent instruments.

Component Liaison Office

Military Department and Agency formed liaison offices to communicate with the Defense Finance and Accounting Service to ensure adequate dissemination of information and help coordinate DoD finance and accounting policy and other issues.

Conceptual Design of Accounting System

Documentation of the process that leads to a decision to develop a new accounting system or system segment, or to initiate a major upgrade effort. Documentation reveals the deficiencies in the current system, the accounting entities involved, the parameters of the accounting system, the accounting structure, security considerations, the alternatives considered, and the economic analysis developed to support a decision.

Consolidated Working Fund Accounts

Accounts established to hold funds transferred from other Agencies, DoD Components, or accounts until transferred to an appropriate account authorized by provisions of law. Applicable funds are not available for obligation or expenditure.

Construction in Progress (CIP)

A temporary classification of assets under construction equal to the amount of direct labor, direct material, and overhead incurred in the construction of General Property, Plant, and Equipment (PP&E) for which the acquiring DoD agency will be accountable for financial reporting purposes. General property includes real property such as land and buildings. Upon completion, these costs will be transferred to the proper capital asset account as the acquisition cost of the item. CIP is not to be used for information technology software. The Internal Use Software in Development account is used for information technology software.

Contingency

An existing condition, situation, or set of circumstances that involves an uncertainty as to possible gain or loss. The uncertainty will be resolved when one or more future events occur or fail to occur. Resolution of the uncertainty may confirm a gain (i.e., acquisition of an asset or reduction of a liability) or a loss (i.e., loss or impairment of an asset or the incurrence of a liability).

Contingent Liability

The term has two meanings. As a budgetary term, it represents variables that cannot be recorded as valid obligations. Such variables include (1) outstanding fixed price contracts containing escalation, price redetermination, or incentive clauses, or (2) contracts authorizing variations on quantities to be delivered, or (3) contracts where allowable interest may become payable by the Federal Government on contractor claims supported by written appeals pursuant to the "DISPUTES" clause contained in the contract. As a proprietary accounting term, it represents a contingency posing the possibility of a loss when one or more events occur or fail to occur. Examples of loss contingencies include the collectability of accounts receivable, pending or threatened litigation, and possible claims and assessments. DoD recognizes contingent liabilities when a future loss related to past events or exchange transactions is probable and the loss amount can be reasonably estimated.

Continuing Resolution

The Congressional resolution, in the absence of an appropriation act, providing authority for Agencies to continue current operations. Such continuing resolutions are subject to the Office of Budget and Management apportionment in the same manner as appropriations.

Contract

As defined by the Federal Acquisition Regulation ([*FAR* 2.101](#)), "Definitions," a contract is a mutually binding legal relationship obligating the seller to furnish the supplies or services (including construction) and the buyer to pay for them.

Contract Authority

Statutory authority to incur obligations but with liquidation of obligations dependent upon future actions of the Congress or by the receipt of customer orders or other available resources. Within the Department, Contract Authority is apportioned budget authority that can be legally obligated. Contract Authority, however, is not funded and is apportioned and allocated without a supporting Treasury cash balance. Consequently, before an obligation incurred against Contract Authority can be liquidated, sufficient budgetary resources should be available for the outlay. For the Defense Working Capital Funds, obligations against Contract Authority are based on earned customer orders and cash balances in the fund corpus.

Contract Financing Payment

A Federal Government cash disbursement to a contractor under the contract prior to acceptance of goods or services by the Federal Government.

Contract Liquidating Authority

An appropriation, or re-appropriation, enacted to pay the obligations incurred under the contract authority.

Contractor-Acquired Property

General PP&E assets acquired by a contractor on behalf of a DoD Component for use in the performance of a contract. It does not include federal government furnished material or equipment. Also, see Government Furnished Equipment.

Cost

A monetary measure of the amount of resources applied to a cost objective. Within DoD, "costs" are identified following generally accepted accounting principles and standards. The fact that collections for some cost elements are deposited into Miscellaneous Receipts of the Treasury does not make those costs "extraneous." It simply means the Congress has not authorized such amounts to be retained by appropriation accounts. After costs have been identified, following Federal Accounting Standard Advisory Board standards, including the Statement of Federal Financial Accounting Standard 4 on cost accounting rules, a DoD Component may proceed to eliminate cost elements, or process waivers, in accordance with legal authorities.

Cost Center

An element of a cost accumulation structure—representing the lowest level organization or activity used to identify obligations or expend resources—to logically group costs of goods and services for management to assess efficiency, usage, examine trends, and make decisions. Cost centers enable organizations to apply process costing, one of two primary approaches to cost accumulation, the other approach being has job order costing. SFFAS 4 requires organizations to accumulate costs for the identified types of outputs produced for various programs or projects.

Cost Clearing Account

An account used when standard rates are employed. The actual expenses are debited to the cost clearing account and the amounts billed to customers are credited to the account. At the end of the fiscal year, the account is closed with analysis performed to determine if rates require adjustment.

Cost Finding

Techniques that produce cost data by analytical or sampling methods for certain kinds of costs, such as indirect costs, items with costs below set thresholds within programs, or for some programs in their entirety. These techniques support the overall managerial cost accounting process and can represent nonrecurring analysis of specific costs.

Cost Objective

An activity, operation, or item whose cost is to be measured for which management decides to identify, measure, and accumulate costs. The cost objective must be discrete enough and described in writing to such a level of detail to form a basis to establish cost centers and output products.

Current Accounts Receivable

All receivables that will be due within the 12 months following the reporting period.

Current Value of Funds Rate (CVFR)

The average investment rate for the U.S. Treasury Tax and Loan accounts expressed as an annual rate and published by the U.S. Treasury in the "Federal Register" each year. Uses of the CVFR include determining the effectiveness of taking cash discounts and calculating interest on overdue federal government accounts receivables.

Customer Order

An order received and accepted by the performing activity from a customer. It is written evidence that certain goods and services will be provided to the tenderer of the order for payment of a dollar amount. The order must contain an original signature or equivalent of both the ordering activity and the receiving activity and must specify a dollar amount. The specified dollar amount cannot be exceeded.

Cutoff Time

A time prescribed by a financial institution beyond which transactions presented or actions requested will be deferred to the next banking day's business.

Day

A calendar day, unless otherwise noted. If the day on which an action is required falls on a nonworking day, then day means the next working day.

Default

Failure to meet any obligation or term of a credit, grant, or other agreement.

Defense Working Capital Fund (DWCF)

A revolving fund using a business-like buyer and seller approach with a goal of breaking even over the long term. Stabilized rates or prices are generally established each fiscal year. DWCF stabilized rates or prices are adjusted for sales to customers to include an amount for unfunded civilian retirement and post-retirement health benefits costs. The DWCF was established on December 11, 1996, upon the reorganization of the former Defense Business Operations Fund.

Deferrals

Budgetary resources that have been deferred as reserves to provide for contingencies to achieve savings made possible by or through changes in requirements or greater efficiency of operations or as specifically provided by law.

Definite Authority

Authority that is stated as a specific sum at the time it is granted. This includes authority stated as not to exceed a specified amount. Most DoD appropriations are for definite amounts of authority.

Delivered Orders

The term used for the credits entered into the budgetary accounts to recognize liabilities incurred for (1) services performed by employees, contractors, other Government accounting entities, vendors, carriers, grantees, lessors (2) goods and other tangible property received; and (3) items such as annuities or insurance claims for which no current service is required. Accrued expenditures are categorized as either paid or unpaid.

Delivered Orders-Paid

The budgetary account that represents the dollar value of goods and services received for which payment has been made.

Delivered Orders-Unpaid

The budgetary account matching the proprietary account, "accounts payable." It represents the dollar value of goods and services received for which payment has not been made. (Also, see "Accounts Payable.")

Demand Cash Withdrawal

Commercial checks made payable to cash for withdrawal by the cashier.

Deposit (noun)

Money presented for credit to the U.S. Treasury. Such transfers may be made by Agencies or directly by the remitter. All such transfers are effected through a Federal Reserve Bank or other financial institution.

Deposit (verb)

The act of presenting moneys for credit to the U.S. Treasury by an Agency official.

Deposit Funds

Receipts held temporarily and later refunded or paid into some other Treasury fund or other entity, or held by DoD as banker or agent for others and paid out at the direction of the owner.

Deposit Fund Accounts

Expenditure accounts established to account for deposit fund receipts. Such funds are not available for paying salaries, grants, or other expenses of the Federal Government. Expenditures are often offset by receipts within this type of fund.

Depreciation

The systematic and rational allocation of the acquisition cost of an asset, less its estimated salvage or residual value, over its estimated useful life.

Direct Cite

A financing action by a DoD organization (customer) to procure products and services from another entity. When direct cite is used, the procuring entity sends the procurement source documents to the customer for the customer to perform all accounting functions. In the case of the Foreign Military Sales program, it specifically refers to documents that result in a disbursement to other than a DoD organization (a contractor, other Federal Agency, or employee).

Direct Delivery

Items shipped directly from a contractor to a customer, whether from a consolidated military services procurement or a contract solely for that customer.

Direct Loan

An obligation created when the Federal Government disburses the funds and contracts with the debtor for repayment, with or without interest, or when the Government acquires a guaranteed private loan in satisfaction of default or other claim.

Direct Program

The budget authority in an appropriation act. (See "Budget Authority.")

Disbursements

Amounts paid by Federal Agencies, by cash or cash equivalent, during the fiscal year to liquidate government obligations. "Disbursement" is often used interchangeably with the term "outlay." In budgetary usage, gross disbursements represent the amount of checks issued and cash or other payments made, less refunds received. Net disbursements represent gross disbursements less income collected and credited to the appropriation or fund account, such as amounts received for goods and services provided. For purposes of matching a disbursement to its proper obligation, the term disbursement refers to the amount charged to a separate line of accounting.

Disbursing Officer

An officer or employee of a Federal Department, Agency or Corporation designated to disburse moneys and render accounts according to laws and regulations governing the disbursement of public moneys.

Discount (Cash)

A reduction in the amount due on an accounts payable offered by the vendor if paid within a stated period.

Discount (Trade)

A reduction in price, usually varying in percentage with volume of transactions, made by vendors to those engaged in certain businesses and allowable irrespective of the time when the account is paid.

DoD Component

For purposes of this Regulation, unless otherwise noted "DoD Component" includes the following: OSD; the Chairman, Joint Chiefs of Staff and the Joint Staff; the DoD Inspector General; the Military Departments including the Coast Guard when assigned to the Department of the Navy; the Defense Agencies; DoD Field Activities; the Combatant Commands; Washington Headquarters Services, the Uniformed Services University of the Health Sciences, and all non-appropriated fund instrumentalities.

DoD Education Benefits Trust Fund

A fund established for education assistance purposes for active and reserve force personnel. It derives its resources through transfers from military personnel accounts and from interest earned from investments in Federal Government securities.

Earned Reimbursement

The amount recognized when a performing organization renders actual or constructive performance on a reimbursable order.

Economy Act Order

An order for goods or services placed by a Federal Agency or Department to another government agency under provisions of [31 U.S.C. §§ 1535-1536](#). (See Volume 11A, Chapter 3.)

Electronic Data Interchange (EDI)

The exchange of standardized information between business partners typically communicated electronically between computers. It is DoD policy that DoD Component EDI applications must conform to the American National Standards Institute, Accredited Standards Committee X12 standard.

Electronic Funds Transfer (EFT)

The act of debiting or crediting accounts in financial institutions by wire rather than source documents, such as, paper checks. Processing typically occurs through the Federal Reserve Bank clearing houses.

Entitlements

Legally established benefits available to any person or unit of Federal Government meeting eligibility requirements established by law.

Executory Costs

Those costs associated with ownership of an asset such as insurance, taxes, and normal maintenance. In the case of a capital lease, the portion of the lease payment that represents executory costs is not capitalized, but is expensed.

Expenditure

An actual disbursement of funds in return for goods or services. Frequently used interchangeably with the term “outlay.”

Expense

The outflow or other depletion of assets or incurrence of liabilities (or a combination of both) during some period as a result of providing goods, rendering services, or carrying out other activities related to an entity’s programs and missions, the benefits from which do not extend beyond the present operating period. In financial accounting and reporting, the costs that apply to an entity’s operations for the current accounting period are recognized as expenses of that period.

Expired Account or Appropriation

Appropriation or fund account in which the balance is no longer available for incurring new obligations, but is still available to cover upward adjustments to prior year obligations and recording, adjusting, and liquidating valid obligations. The account remains available for such purposes during the five-year expiration period unless the expiration period has been lengthened by legislation.

Facilities

Industrial property (other than material, special tooling, special test equipment, and military property) for production, maintenance, research, development, or test including real property (other than land) and rights therein, buildings, structures, improvements, and plant equipment (including capital leases).

Fast Pay

Disbursement to a contractor (within 15 days after receipt of the invoice) based on the contractor's certification that delivery has been made at the time an invoice is presented for payment.

Federal Agency

Same meaning as the term "Agency" in [5 U.S.C. § 551\(I\)](#), and includes any entity that is operated exclusively as an instrumentality of such an Agency for administering one or more programs of that Agency. Both DoD appropriated and non-appropriated fund activities are included under this definition, but non-appropriated fund activities are public/non-federal entities for purposes of processing receivables. See Volume 4, Chapter 3.

Financial Institution

Bank, Savings Association, or Credit Union eligible under [31 C.F.R. 202](#) to serve as a Federal Government depository.

Financial Management System

A financial operation that includes the financial system and the financial portion of mixed systems necessary to support financial management; automated and manual processes, procedures, and controls; data; hardware; software; and support personnel dedicated to the operation and maintenance of system functions.

Financing Interest

Interest charged as a cost of extending credit as distinguished from interest charged because of delinquency.

Financing Payment

Disbursement of funds after performance has occurred but before physical delivery. The most common type of financing payment is the progress payment made to DoD contractors to reimburse incurred cost before ordered items or material are delivered. See "Contract Financing Payment."

Fixed Accounts

Appropriation or fund accounts with balances that are available for a definite period of time. The fixed accounts are comprised of annual and multiyear accounts. The universe of appropriation or fund accounts is made up of fixed accounts and no-year accounts.

Foreign Currency Fluctuations

The difference between budget rates approved for execution and actual foreign currency exchange rates in effect at time of payment that cause changes in obligations or contractual liabilities. Obligations are recorded using the budget rate, and payments are made using the current foreign currency exchange rate.

Foreign Currency Unliquidated or Liquidated Obligations

Foreign currency un-liquidated obligations are derived by taking obligations at the budget rate less the disbursements at the budget rate. Foreign currency liquidated obligations is the actual disbursement at the budget rate.

Fund Groups

The range of numeric or alpha and/or numeric account symbols assigned by the Treasury to identify groups of accounts, such as, 0000 to 3799 = General Funds.

Fund Holder

An individual holding an administrative subdivision of funds or an operating target, who is responsible for incurring obligations against the administrative subdivision or target and for managing the use of such funds.

Funded Carryover

The incomplete portion of a job order for goods or services to be provided by a working capital fund activity. Usually, funded carryover is measured at the end of a fiscal period, that is, a fiscal year.

Funds Certifying Official

An individual responsible for the proper assignment of funding on a commitment or obligation document before the obligation has incurred.

General Fund Accounts

These consist of (1) receipt accounts used to account for collections not dedicated to specific purposes and (2) expenditure accounts used to record financial transactions arising under congressional appropriations or other authorizations to spend general revenues.

General Fund Receipt Accounts

Accounts established for receipts of the Federal Government that are not earmarked by law for specific purpose and that are not available for obligation and expenditure.

Government Furnished Equipment

Property provided to a contractor by DoD. It is used in producing an end product. It is not consumed, but is returned in the same form at the end of the contract.

Government Furnished Material

Property provided to a contractor by DoD. It may be incorporated into an end item (a change in form) or may be consumed in the performance of a contract.

Grants

Assistance awards for which no substantial involvement is anticipated between DoD and the recipient during performance of the contemplated activity.

Guaranteed Loan

A contingent liability created when the Federal Government ensures the private lender who disbursed the funds that the lender will be repaid to the extent of the amount or percentage guaranteed in the event of default by the debtor; a DoD Component pledge to pay part or all of the loan principal and interest to a lender, or holder, of a security in the event of default by a third-party borrower.

Holdback

The amount withheld from payments to contractors to assure compliance with contract terms. Usually the amount to be withheld is expressed as a percentage in the contract provisions.

Imputed Cost

Imputed cost is a reporting entity's share of an expense not incurred directly, but borne by another reporting entity and not reimbursed.

Indefinite Appropriations

Appropriations of a current or permanent nature in which a definite amount is not stated but is to be determined on the basis of stipulated subsequent events.

Indefinite Authority

Authority for which a specific sum is not stated, but is determined by other factors such as the receipts from a certain source or obligations incurred.

Interagency Allocations

According to OMB Circular A-11, section 20.4(l), "Allocation means a delegation, authorized in law, by one agency of its authority to obligate budget authority and outlay funds to another agency. When an agency makes such a delegation, the Treasury Department establishes a subsidiary account called a "transfer appropriation account," and the receiving agency may obligate up to the amount included in the account. The budget does not show the transfer appropriation account separately. The budget schedules for the parent account include the obligations by the other agency against the subsidiary account. Allocations are appropriate where the receiving agency is acting as the agent for the allocating agency."

Internal Control Documentation

Written policies, organization charts, procedural write-ups, Manuals, memoranda, flow charts, decision tables, completed questionnaires, software, and related written materials used to describe the internal control methods and measures, to communicate responsibilities and authorities for operating such methods and measures, and to serve as a reference for persons reviewing the internal controls.

Internal Controls

The manner in which financial, manpower, and property resources are to be controlled and safeguarded by the regular authorization, approval, documentation, recording, reconciling, reporting, and related accounting processes.

Internal Control Standards

The standards issued by the Comptroller General for use in establishing and maintaining systems of internal control. Those standards are applicable to all operations and administrative functions, but are not intended to limit or interfere with duly granted authority for the development of legislation, rulemaking, or other discretionary policymaking.

Internal Control Techniques

The application of prescribed processes and documents to accomplish an internal control objective efficiently and effectively and to help safeguard an activity from waste, loss, unauthorized use, or misappropriation.

In-transit Transactions

Disbursements or collections that have been reported by a disbursing office, through a paying center, to the Department of the Treasury and charged against the Department's fund balances but have not yet been received by the accounting system.

Inventory Price

For non-stock fund items the inventory price is the acquisition cost. For stock fund items, the inventory price is acquisition cost plus prescribed surcharges. (See "Acquisition Cost.")

Investment

As a budget term, investment refers to equipment financed with procurement appropriation accounts. As an accounting term, investments represent the value of securities and other assets held for the production of revenues in the form of interest, dividends, rentals or lease payments, net of premiums or discounts.

Invoice

As defined by [*FAR 2.101, Definitions*](#), an invoice is a contractor's bill or written request for payment under the contract for supplies delivered or services performed.

Invoice Payment

A Federal Government disbursement of monies to a contractor under a contract or other authorization for supplies or services accepted by the Government.

Journal Voucher

Adjustments recorded in the system transaction registers and the General Ledger identifying summary-level adjustments.

Letter Contract

An offer and acceptance that is specific and definitive enough to show the purpose and scope of the final contract to be executed. When accepted in writing by the contractor, documentary evidence exists to support the recording of an obligation.

Loan Guarantees

Agreements by which a DoD Component pledges to pay part or all of the loan principal and interest to lenders or holders of securities in the event of default by third-party borrowers.

Management Fund Accounts

Working fund accounts authorized by law to facilitate accounting for collections from two or more appropriations or funds to finance an activity not involving a continuing cycle of business-type operations and that are available for obligation and expenditure. Those are combined receipt and expenditure accounts established by law, with receipts derived from such operations usually available in their entirety for use by the fund without further action by the Congress.

Military Interdepartmental Purchase Request (MIPR)

An order issued by one military service to another to procure services, supplies, or equipment for the requiring service. The MIPR (DD Form 448) may be accepted on a direct citation or reimbursable basis. It is an Economy Act ([*31 U.S.C. §§ 1535-1536*](#)) order subject to downward adjustment when the obligated appropriation is no longer valid for obligation.

Military Retired Pay (Includes Fleet Reserve/Fleet Marine Corps Reserve Retainer Pay)

(A reduced pay entitlement for reduced services.) The gross entitlement for a retired service member based on terms and conditions of law, pay grade, years of service, percentage of disability, if applicable, and date of retirement (transfer to the retired reserve).

Military Retirement Trust Fund

A trust fund established to finance the retirement cost of active and reserve military personnel. An accrual amount is transferred monthly from the military personnel accounts to the Fund based on a fixed percentage of basic pay for full-time and part-time personnel. The accrual amounts are determined by the DoD Board of Actuaries who are appointed by the President for 15-year terms. In addition, amounts are deposited into the Fund to liquidate the unfunded liability of retired pay earned prior to establishment of the Fund. Interest on investments of the Fund assets in Federal Government securities are also transferred into the Fund.

Minimum Lease Payments

The payments that the lessee is obligated to make or may be required to make in connection with leased property. Minimum lease payments exclude contingent rentals and any guarantee by the lessee of the lessor's debt and the lessee's obligation to pay (apart from rental payments) executory costs such as insurance, maintenance, and taxes in connection with the leased property.

Multiple-Year Authority

Budget authority that is available for original obligation for a specified period in excess of 1 fiscal year.

Negative In-transit Disbursements

The opposite of in-transit disbursement. The accounting office has processed disbursements for recordation against the applicable corresponding obligation but the disbursing office has not reported the disbursements, through a paying center, to the Department of the Treasury and charged against DoD's fund balances. (See "In-transit Disbursements.")

Negative Unobligated Balance

An appropriation or fund in which the amount of obligations exceeds the amount of obligational authority. In closed appropriations, the available obligational authority is equal to the unobligated balance.

Negative Unliquidated Obligation

A disbursement transaction that has been matched to the cited detail obligation, but the total disbursement(s) exceeds the amount of that obligation.

Noncurrent Accounts Receivable

A receivable that will not be due within 12 months following the reporting period.

Non-expenditure Transfers

A redistribution of either unobligated balances of budget authority provided in a previous year, or budget authority provided in the current year between appropriations or funds for the benefit of the gaining appropriation or fund. Transfers of obligated balances and sometimes re-appropriations also require non-expenditure transfers.

No-Year Authority

Budget authority that remains available for obligation for an indefinite period of time.

Obligation

Amount representing orders placed, contracts awarded, services received, and similar transactions during an accounting period that will require payment during the same, or a future, period. Includes payments for which obligations previously have not been recorded and adjustments for differences between obligations previously recorded and actual payments to liquidate those obligations. The amount of obligations incurred is segregated into undelivered orders and accrued expenditures - paid or unpaid. For purposes of matching a disbursement to its proper obligation, the term obligation refers to each separate obligation amount identified by a separate line of accounting.

Obligational Authority

The sum of (1) budget authority provided for a given fiscal year, (2) balances of amounts brought forward from prior years that remain available for obligation, and (3) amounts authorized to be credited to a specific fund or account during that year, including transfers between funds or accounts. See "Budget Authority."

Offsetting Collections

Collections from Federal Government accounts or from transactions with the public. The two major categories of offsetting collections are offsetting receipts (amounts deposited to receipt accounts) and offsetting collections credited to appropriation or fund accounts.

Offsetting Receipts

Collections that are deposited into proprietary Miscellaneous Receipt Accounts of the Department of the Treasury. Applicable deposits offset the collecting Agency's budget authority and outlays.

Operating Agency

A major organizational unit within a Military Department or Defense Agency that is responsible for (1) the active planning, direction, and control of a program or segment, thereof, and (2) the control of the funds allocated to it.

Outlays

The amount of checks issued or other payments made (including advances to others), net of refunds and reimbursements. Outlays are net of amounts that are adjustments to obligational authority. The terms "expenditure" and "net disbursement" are frequently used interchangeably with the term "outlay." Gross outlays are disbursements and net outlays are disbursements (net of refunds) minus reimbursements collected.

Overaged Disbursement

A disbursement that is not matched to a corresponding obligation within specified timeframes.

Overhead Rate

The rate determined by performing organizations to allocate operating costs not directly identifiable to the work order. The rate may include supervisory, general, and administrative expenses as well as miscellaneous material and supplies.

Participation Loan

A loan that consists of both direct and guaranteed portions.

Pass-throughs (Current Year)

Revolving fund revenues received during the current fiscal year which: (1) are in addition to amounts provided for in the customer stabilized rate structure and (2) represent reimbursement for current year costs or amounts in excess of amounts budgeted, or otherwise provided for, in the President's budget on which approved customer stabilized rates for the [current] year were based.

Pass-throughs (Prior Year)

Revolving fund revenues, which provide for the recoupment of amounts associated with prior year efforts or sales. These amounts represent the recoupment of amounts beyond those contained in the DoD stabilized rate structure for the applicable prior fiscal year for which the efforts were performed. These amounts are generally intended to offset prior year losses and/or amounts in excess of amounts previously budgeted.

Pay Account

The part of each individual civilian and Military Service member's master pay record that contains all transaction information on payments and deductions with an audit trail to the authorizing documents. The pay account includes information such as pay grade, record of payments, all earnings separately identified by type (basic pay, bonuses, danger pay); allowances; allotments; year-to-date gross earnings; taxable earnings, taxes withheld, and leave data (amount earned, taken, lost, forfeited, advanced, or used).

Pay and Allowances

Payment to active duty, Reserve, National Guard, and retired members and their surviving annuitants, other than travel and transportation reimbursements, and to all civilian employees and direct hire employees in foreign locations, other than travel and transportation expenses.

Paying Office

A disbursing office. In the case of contracts, the place named in the contract for forwarding invoices for payment.

Period of Availability

The period of time in which budget authority is available for original obligation.

Planning, Programing, Budgeting, and Execution (PPBE)

A cyclic process containing four distinct, but interrelated phases: planning, programing, budgeting, and execution. In addition to establishing the framework and process for decision making on future programs, the process permits prior decisions to be examined and analyzed from the viewpoint of the current environment (threat, political, economic, technological, and resources) and for the time period being addressed. The ultimate objective of PPBE is to provide operational commanders the best mix of forces, equipment, and support attainable within fiscal constraints.

Political Subdivision of Local Government

A local unit of government, including specifically a county, municipality, city, town, township, school district, or other special district created by State law, or combination of these units.

Port Loading and Unloading Costs

A subset of accessorial costs. The costs incurred for loading, unloading, and handling at the ports of embarkation and debarkation.

Prepositioning Costs

The accessorial costs incurred to store items at locations outside the United States in anticipation of support to other authorized customers.

Predetermined Rate

The rate established by appropriate authority for use in computing recoverable amounts.

Prevalidation

A procedure that requires a proposed payment be identified/matched to its applicable proper supporting obligation that has been recorded in the official accounting system and that the line(s) of accounting cited on the payment match the data recorded in the accounting system.

Private Parties

Consists of non-U.S. Government activities; foreign governments, firms, and organizations; and international organizations, other than Foreign Military Sales (FMS) customers and FMS/International Military Education and Training Program (IMET) recipients.

Project Order

An order for goods or services issued under the authority in [41 U.S.C. § 6307](#) to a separately managed and financed Federal Government owned and operated establishment. See Volume 11A, Chapter 2.

Property Book

A documentary record of every item on a "Table of Organization and Equipment List," or other type of allowance list, showing that a unit is prepared to accomplish its assigned mission. The property book lists both capitalized and expensed assets, shows quantities on hand, items due in, open requisitions, unit prices, hand receipts.

Realized Variance (Foreign Currency Fluctuations)

The difference between actual obligations at the budget rate (approved execution rate) and the foreign exchange rate in effect at the time of payment (liquidation of the obligation). The variance is equal to the amount disbursed from the applicable centrally managed allotments.

Real Property

Fixed assets that are comprised of land and the rights to land; buildings to include capitalized additions, alterations, improvements, and rehabilitations; and other structures and facilities. Real property does not include personal property (weapons systems and other military equipment).

Reapportionment

An Office of Management and Budget approved change to the previously approved apportionment for the current year. See "Apportionment."

Reappropriation

Statutory authority to restore or extend the obligational availability, whether for the same or different purpose, of all or part of the unobligated balance of budget authority that has expired or otherwise would expire in an annual or multiple-year appropriation. Reappropriation transactions require non-expenditure transfer of the funds involved from the expired or otherwise expiring account to the designated current account when the unobligated balance has not been withdrawn to the surplus fund of the U.S. Treasury. If the unobligated balance has been withdrawn, then the transaction requires a warrant. Reappropriations that provide funds to a fiscal year for which they were not previously available constitute new budget authority in the receiving account.

Refunds

Recoveries of overpayments that result from errors in paying invoices or from items returned to vendors. Also see "Refunds and/or Transfers (Current Year)" and "Refunds and/or Transfers (Prior Year)."

Refunds and/or Transfers (Current Year)

Industrial fund amounts transferred on a non-expenditure basis which represent the transfer of revenue collected through stabilized rates which: (1) is in excess of current year costs or (2) otherwise exceeds the purpose for which initially intended in the current year. These transfers are generally made to appropriated funds and provided for in a general provision contained in the applicable annual appropriation act.

Refunds and/or Transfers (Prior Year)

Industrial fund amounts transferred on a non-expenditure basis, which represent the transfer of amounts associated with prior year efforts or sales. These amounts usually represent the transfer of revenue collected through stabilized rates which: (1) were in excess of [then] current year costs or (2) otherwise exceeded the purpose for which initially intended. These transfers are generally made to appropriated funds and provided for in a general provision contained in the applicable annual appropriation act.

Reimbursable Order

An order for services, supplies, material, or equipment placed by a requiring (or ordering) DoD Component (or Federal Agency) and furnished by another DoD Component (or Federal Agency) without separate identification of the items, or separate citation of the funds of the requiring DoD Component; and with subsequent delivery to and reimbursement by the requiring DoD Component. The requiring DoD Component records the reimbursable order as an obligation when the servicing (or performing) DoD Component accepts the reimbursable order in writing.

Reimbursements

Amounts earned and collected for property sold or services furnished either to the public or to another Federal accounting entity. To be an appropriation reimbursement, the collection must be authorized by law for credit to the specific appropriation or fund account.

Replacement Cost

Obligations to be incurred at a future time to procure equipment or material in place of items, which have been sold or transferred. There are two methods used to determine replacement cost: (1) Applying the OSD prescribed inflation factor to the most recent contract price of the item to be replaced. The inflation factor is applied to each fiscal year between the year the item sold or transferred was acquired and the fiscal year in which the replacement item will be delivered. (2) Obtaining a current contractor quote for the replacement item. Normally the second method is the most accurate method.

Reprogramming

Realignment of budget authority from the purpose for which appropriated to finance another (usually emergent, unfunded) requirement. A necessary, desirable, and timely device during execution of Defense programs for achieving flexibility in the use of DoD funds provided in appropriation acts.

Reschedule

(Restructure, refinance, forbear, re-amortize, or defer) to establish new terms or conditions in order to facilitate the repayment of debt. For example, stretching out or extending into the future such payments.

Rescission

Legislation that cancels budget authority previously provided by Congress before the time when the authority would otherwise lapse, that is, cease to be available for obligation.

Reserves

Portions of budgetary resources set aside by OMB to (1) provide for contingencies, or (2) effect savings made possible by or through changes in requirements or greater efficiency of operations.

Residual Value

Residual value is the estimated value remaining at the end of a capital asset's useful life to DoD or the amount that can be expected to be recovered from the asset's disposal when it is removed from service.

Resource Manager

An individual who ensures proper assignment of funds, validates the funds cited on a commitment or obligation document are accurate and available, and maintains funds control to include funding and spending limits.

Restoration

An unobligated amount previously withdrawn by administrative action to the merged surplus balances that is again made available to fund within scope increases to original obligations or to fund other Congressionally approved programs pursuant to law.

Revolving Fund Accounts

Accounts authorized by specific provisions of law to finance a continuing cycle of business-type operations, and which are authorized to incur obligations and expenditures that generate receipts.

Sequestration

Sequestration means the permanent cancellation of budgetary resources. The Statutory Pay-As-You-Go Act of 2010 requires such cancellations if revenue or direct spending legislation is enacted that, in total, increases projected deficits or reduces projected surpluses relative to the baseline. Under the law, selected mandatory programs would be subject to across-the-board cancellations. BBEDCA, as amended, requires such cancellations if discretionary appropriations exceed the statutory limits on discretionary spending.

Special Fund Accounts

Separate receipt and expenditure accounts established to account for receipts of the Government that are earmarked by law for a specific purpose but are not generated by a cycle of operations for which there is continuing authority to reuse such receipts.

Special Fund - Expenditure Accounts

Accounts established to record amounts appropriated, or otherwise made available by transfers from a special fund receipt account to be obligated and expended for special programs in accordance with specific provisions of law.

Special Funds - Receipt Accounts

Accounts credited with receipts from specific sources that are earmarked by law for a specific purpose, but which are not generated from a continuing cycle of operations.

Specialized or Technical Services

Statistical and other studies and compilations, developmental projects, technical tests and evaluations, technical information, training activities, surveys, reports, documents, and any other similar service functions that any Federal Agency is especially equipped and authorized by law to perform.

Standard Financial Information Structure (SFIS)

The SFIS is a comprehensive data structure that supports requirements for budgeting, financial accounting, cost/performance, interoperability, and external reporting needs across the DoD enterprise. It is a common business language that enables budgeting, performance-based management, and the generation of financial statements. SFIS standardizes financial reporting across DoD and allows revenues and expenses to be reported by programs that align with major goals, rather than basing reporting primarily on appropriation categories.

Standard Line of Accounting (SLOA)

The SLOA, a series of alpha and numeric characters appearing on accounting source documents, is a subset of the Standard Financial Information Structure (SFIS) data standard elements. Also referred to as the accounting classification code, the SLOA is comprised of the minimum SFIS data elements that must be exchanged for business events that have an accounting impact at any point from the initial commitment to the final posting in the appropriate general ledger. This includes commitments, obligations, expenditures, and disbursements. The characters provide the information necessary to enter transactions into DoD accounting systems.

Suballotments

Subdivisions of allotments. (See “Allotments” and “Apportionment.”)

Suspense Account

A clearing account established by the U.S. Treasury’s Financial Management Service to temporarily hold unidentifiable general, revolving, special, or trust fund collections that belong to the Federal Government. The funds remain in the suspense accounts until they can be reclassified to the proper receipt or expenditure accounts. Collections should be reclassified from suspense accounts within 60 days.

Tangible Assets

Depreciable property, plant, equipment, and software developed, manufactured, transferred, or acquired for a determinable cost meeting or exceeding the established capitalization threshold; are used over a period (useful life) estimated to be 2 years or greater; and generally become economically worthless (except for residual value) at the end of their estimated useful lives.

Transfer

Movement or shifting of budgetary resources from one budget account to another. Agencies may transfer budget authority only as specifically authorized by law. For budgetary accounting purposes, the nature of the transfer determines whether the transaction is recorded as an expenditure transfer, which means a transfer that involves an outlay, or as a nonexpenditure transfer, which means a transfer that does not involve an outlay.

Transportation Costs

The costs incurred for shipment of material.

Treasury Financial Communications System

The computer-to-computer link between the U.S. Treasury and the Federal Reserve Bank of New York.

Trust Fund

A type of account, designated by law as a “trust fund,” regardless of any other meaning of the term “trust fund.” A trust fund account is usually either a receipt, an expenditure, or a revolving fund account (trust revolving fund account). Trust revolving fund accounts have no receipt account and the collections are credited directly to the expenditure account.

Trust Fund Expenditure Accounts

Accounts that are established to record amounts appropriated, or otherwise made available by transfer from a trust fund receipt account to be obligated and expended in carrying out the specific purposes, or programs, in accordance with the terms of the trust agreement or statute.

Trust Fund Receipt Accounts

Receipt accounts that are credited with collections (governmental receipts or offsetting receipts) generated by the terms of a trust agreement or statute.

Trust Revolving Fund

The name given to a fund entity when a trust fund corpus is established to perform a continuing cycle of business-type operations in accordance with the trust agreement or statute, in which case a combined receipt and expenditure account is used.

Undelivered Orders

The value of goods and services ordered and obligated that have not been received. This amount includes any orders for which advance payment has been made but for which delivery or performance has not yet occurred.

Undistributed Transactions

Undistributed disbursements or collections represent transactions that have occurred and been reported to the Department of the Treasury but have not yet been recorded in the general ledger of the accounting system.

Unearned Revenue

Revenue from DoD customers collected in advance of earnings and prior to delivery of goods or services.

Unexpended Balance

The sum of the unobligated balance and the un-liquidated obligation balance of an appropriation.

Unexpired Accounts

Appropriation or fund accounts in which the balances are available for new obligations. Audit requirements, limitations on obligations, and reporting requirements applicable to unexpired accounts must continue to apply after the end of the period of availability for obligation or expenditure of that account.

Unfilled Customer Orders

The amount of orders accepted from ordering accounting entities within the U.S. Government for goods and services to be furnished on a reimbursable basis; or, in the case of transactions with the public, amounts collected in advance, for which the accounting entity has not yet performed as requested.

Unfunded Cost

Costs not financed by the performing activity's current appropriations or fund accounts. Applicable types of cost include interest on investment and accrued annual leave.

Unified Combatant Command

A unified combatant command is a military command which has broad, continuing missions and which is composed of forces from two or more Military Departments. Unified combatant commands are established by the President, through the Secretary of Defense, with the advice and assistance of the Chairman, Joint Chiefs of Staff.

Unliquidated Obligation Balance

The amount of obligations that have not been liquidated by payments (disbursements).

Unmatched Transactions

A disbursement and/or collection transaction that has been received and accepted by an accounting office, but has not been matched to the correct detail obligation. This includes transactions that have been rejected back to the paying office or central disbursement clearing organization by an accounting office.

A. Unposted Unmatched: Transaction (disbursement or collection) that has been reported to the Treasury Central Accounting Reporting System (CARS) and has been received and processed by an accounting system, but was unable to post to Fund Balance with Treasury (FBWT) 101000 and point account in the accounting system general ledger because it failed to match a detailed document obligation or work order.

B. Posted Unmatched: Transaction (disbursement or collection) that has been reported to the Treasury CARS, has been received and processed by an accounting system, and posted to FBWT 101000 and point account in the accounting system general ledger, but failed to match a detailed document obligation or work order.

Unobligated Balance

The cumulative amount of budget authority in an unexpired account that is not obligated and that remains available for obligation under law.

Unrecorded Obligations

Obligations that were incurred legitimately during the period of fund availability, but were not recorded in the Component's records prior to expiration or cancellation of the appropriation or fund. For purposes of this guidance, "unrecorded" obligations are included in obligation adjustments. Current accounts may be used to pay previously unrecorded obligations chargeable to a closed account.

User

An individual, organization, or accounting entity that receives services. A user may be internal or external to the DoD Component.

Warehousing

Costs normally incurred for labor, materiel, or services in packing item(s) that are removed from DoD storage, preparing item(s) for shipment, and processing related materiel release documents.

Withdrawal

The transfer of the unobligated balance from an expired annual or multiple-year appropriation to the surplus account of the U.S. Treasury's general fund, or, if appropriate, to the special fund or trust fund from which derived.

Write off

As a budgetary term, write-off means the withdrawal from availability for obligation of an unobligated balance from a no-year appropriation. It excludes amounts withdrawn from expired accounts and amounts rescinded by the Congress. As an accounting term, write-off refers to the removal of a delinquent accounts receivable that is considered not collectible or not cost effective to pursue further collection efforts. A write-off is not a correction to the accounting records resulting from an accounting error.

Work in Process

Costs of the materials, labor, and indirect costs used in producing an end item (customized equipment or personal property), whether fabricated by a DoD working capital fund or by a non-DoD organization under contract.

Year-end Adjustments for Reimbursements

Accounting entries made to eliminate anticipated reimbursements for orders not accepted, eliminate those unobligated accepted orders that are no longer valid obligations of the ordering activity, and transfer valid unobligated reimbursable balances from expiring and non-expiring accounts to the most current ensuing fiscal year accounts. The exception is for unobligated balances resulting from earned reimbursements (that is, sales from inventory or performance of in-house services), which must be retained in non-expiring accounts until account expiration.
