<p>This internal reprogramming action realigns funding within Research, Development, Test, and Evaluation, Army (RDT&E, A), 00/01, for proper program execution. The realignment does not change the purpose for which the funds were originally appropriated. This action meets all administrative and legal requirements of the Congress and has not previously been denied by the Congress.</p>

<p><u>Explanation:</u> The FY 2000 DoD Appropriations Act provided \$3.0 million to facilitate development of Combustion Driven Eye Safe Laser technology. These funds will be used to design a “proof-of-principle” prototype combustion driven laser and to build and test components to demonstrate the feasibility of the combustion driven laser concept. This request will place the funds in the correct program element for proper program execution. This program is a congressional special interest item.</p>								
<p>Approved (Signature and Date) Signed by Mr. William J. Lynn on June 16, 2000.</p>
