This action is submitted for prior approval because it establishes advance procurement line items for the Navy and Air Force, supports the C-130J Multiyear Procurement Program, and because it exceeds thresholds. Section 131, Multiyear Procurement Authority for the C-130J Aircraft Program, of Public Law 107-314, the Bob Stump National Defense Authorization Act for FY 2003, provides authorization for the multiyear program. This action meets all administrative and legal requirements of the Congress, and the Congress has not denied the item. It reprograms funding in support of a higher priority item, based on unforeseen military requirements, than that for which the funds were originally appropriated.
