This reprogramming action uses no special transfer authority pursuant to section 9203 of Public Law 110-252, the Supplemental Appropriation Act, 2009. This action realigns \$100.0 million within the Other Procurement, Army, 09/11 appropriation.

It reprograms funds, based on unforeseen military requirements, in support of higher-priority items than those for which the funding was originally appropriated; and is determined to be necessary in the national interest. It meets all administrative and legal requirements, and none of the items has been denied previously by the Congress.

Explanation: Funds are required to support an urgent operational needs statement (ONS 10-11741). Funds are quickly needed to procure base life support equipment to support the surge of 33,000 troops into Afghanistan. Providing this funding is the only option the soldiers have as existing facilities are insufficient to provide adequate latrines, showers, kitchens, laundries and water reuse systems for combat outposts. This request is critical to the morale and welfare of forward deployed troops serving in austere conditions. Funds will also be used to procure Energy/Resource Efficiency modification kits for deployed Force Provider modules. This is not a new start.
