MEMORANDUM FOR DEPUTY ASSISTANT SECRETARIES OF THE MILITARY  
DEPARTMENTS (FINANCIAL OPERATIONS)  
DIRECTOR OF RESOURCE MANAGEMENT, U.S. ARMY CORPS  
OF ENGINEERS  
CHIEF FINANCIAL EXECUTIVES OF THE DEFENSE AGENCIES

SUBJECT: Standard Financial Information Structure Attribute Values Sourcing

The Standard Financial Information Structure (SFIS) Values Library (SVL) is a repository of values for SFIS attributes and must be the authoritative source for SFIS attribute values validation. DoD Financial Management Regulation 7000 14-R, Volume 1, Chapter 4, “Standard Financial Information Structure,” will be updated accordingly.

Previously, DoD financial management professionals have relied on disparate resources or other published guidance, such as the Defense Finance and Accounting Service (DFAS) Manual 7097.01, to determine allowable values for SFIS attributes. The use of multiple sources of “master” data has resulted in inconsistent usage of SFIS attributes, with inefficient and ineffective validations being performed. In order to ensure completeness and eliminate redundant SFIS data, an extensive reconciliation of data sources is currently being performed. Effective July 1, 2022, the DoD will recognize the SVL as the only authoritative source for SFIS attribute values.

The SVL is available on the Office of the Deputy Chief Financial Officer (ODCFO) SFIS Resources Page at <https://comptroller.defense.gov/ODCFO/sfis.aspx>. External resources for sourcing attributes, such as DFAS Manual 7097.01 chapters, will be migrated to the SVL. The DFAS Manual 7097.01 will be removed from the Office of the Assistant Secretary of the Army (Financial Management and Comptroller) website, but will remain within the SFIS Resources Page in its current format for referential data other than SFIS attribute values until data consolidation efforts of non-SFIS data conclude in FY2023.

To facilitate change management, please review and disseminate the attached informational paper, and leverage the e-tutorial training it references. This paper and its links can also be accessed under the SFIS Values Library header on the SFIS Resources Page.
