Description:

Program Overview

The Defense Security Service (DSS), an agency overseeing the protection of the nation's most critical technological and information assets, administers the National Industrial Security Program (NISP) on behalf of the Department of Defense and 30 other Federal agencies. In this capacity, DSS is responsible for providing security oversight, counterintelligence coverage and support to almost 10,000 cleared companies (comprising over 13,500 + industrial facilities and about 1.2 million cleared contractors), and accreditation of more than 14,000 classified information technology systems in the NISP. DSS also serves as the functional manager responsible for the execution and maintenance of DoD security training.

The DSS supports the Automated Information Systems (AIS) and telecommunications infrastructure and programs that include: National Industrial Security Program (NISP), Counterintelligence (CI), Center for Development of Security Excellence (CDSE), and support elements. The DSS IT infrastructure includes: desktops, networks: (Joint Worldwide Intelligence Communications System (JWCIS), Non-Secure Internet Protocol (NIPRNet), and Secure Internet Protocol Router Network (SIPRNet), Help Desk operations and call center. The DSS manage activities associated with the Enterprise Security System (ESS), which includes ongoing support and maintenance of the following legacy systems: Industrial Security Facilities Database (ISFD), and Security Training Education and Professionalization Protal (STEPP).

Purpose and Scope

The funds requested provide resources necessary for life-cycle replacement of mission-essential IT equipment and to procure new investment items for Enterprise Security Systems applications.

Justification:

The FY 2017 funding includes continued upgrade and support of DSS network infrastructure, along with the relocation of the COOP/Disaster recovery site. Emphasis is placed on continuing to implement enterprise-wide common applications and systems to expand the capabilities for automating manual processes and facilitating collaboration across the agency directorates.
