

1. Component <b>USSOCOM</b>		<b>FY 2018 MILITARY CONSTRUCTION PROJECT DATA</b>			2. Date <b>MAY 2017</b>		
3. Installation and Location/UIC: <b>VARIOUS</b>				4. Project Title <b>ERI: PLANNING AND DESIGN (OCO)</b>			
5. Program Element <b>1140494BB</b>		6. Category Code		7. Project Number <b>VARIOUS</b>		8. Project Cost (\$000) <b>1,900</b>	
<b>9. COST ESTIMATES</b>							
Item				U/M	Quantity	Unit Cost	Cost (\$000)
<b>ERI: PLANNING AND DESIGN</b>				LS	-	-	1,900
CONTINGENCY (0%)							0
SUPERVISION, INSPECTION AND OVERHEAD (0%)							0
SUBTOTAL							1,900
TOTAL							1,900
<b>TOTAL REQUEST</b>							<b>1,900</b>
<p><b>10. Description of Proposed Construction:</b> Funds to be utilized under Title 10 United States Code (U.S.C.) 2807 for architectural and engineering services and construction design. Funding is required for regular program projects, unspecified minor construction, emergency construction, land appraisals, and special projects as directed. Engineering investigations, such as field surveys and foundation explorations, will be undertaken as necessary.</p>							
<p><b>11. Requirement:</b> All projects in a military construction program presented for approval must be based on sound engineering and the best cost data available. For this reason, design is initiated to establish project estimates in advance of program submittal to the congress. Based on this preliminary design, final plans and specifications are then prepared. These costs for architectural and engineering services and construction design are not provided for in the construction project cost estimates.</p>
