# 2025 Interim National Defense Strategic Guidance

- **The United States faces one of the most dangerous strategic environments in our Nation's history characterized by:**
  - **A vulnerable homeland** arising from years of unsecured borders and increasingly capable air and missile threats;
  - **China's unprecedented military buildup** and the direct threat that it poses to America's security and economy; and
  - **A range of other threats**, including Russia, Iran, North Korea, and select terrorist organizations.
- **President Trump has charged the Department with supporting his America First defense policy agenda and achieving his vision of peace through strength.**
- **To do so, the Interim Strategic Guidance is built around three priority lines of effort:**
  - **Defend the Homeland**
  - **Deter China in the Indo-Pacific**
  - **Empower allies and partners to do more**
- **Success demands clear prioritization, strategic discipline, and fiscal responsibility.**

**The Department of Defense will act urgently to strengthen U.S. homeland defenses and deter Chinese aggression in the Indo-Pacific, while empowering U.S. allies and partners to lead efforts against other threats with critical but more limited U.S. support.**
