A. Mission Description and Budget Item Justification         This is a new start in FY19. Funding in the amount of \$2,600,000 is required for the software development of a prototype capability to transmission, routing, processing, and tracking of the large volume of contractor submissions received annually by the federal gover (Contractor Submission Portal) as well as DMIS replacement analysis and the System of Systems redesign.         B. Accomplishments/Planned Programs (\$ in Millions)         Title:       Enterprise Information Technology System									al govern			
FY 2019 Plans:         • Develop CSP (Contractor Submission portal) requirements and design the technical architecture that will support the CSP pousiness and technical requirements         • Lead the software development and testing of an initial CSP prototype         • Deploy the initial CSP prototype in a web environment accessible to the public         • Develop the SoS (System of System) design requirements and translate business requirements into technical requirements         • Collaborate with the Government in the development of mock-ups and demonstrations         • Develop and test the refined SoS prototype         - Conduct unit testing, system testing, user acceptance testing, and other software testing in order to ensure functionality meets all requirements         • Produce SoS Planning module and the assignment module Intranet Functional and Technical Design
