Report Language

H.R. 4350 – Title X – General Provisions: Report on Congressional Increases to the Defense Budget

The committee directs the Secretary of Defense to submit a report to the congressional defense committees as an unclassified appendix to the Fiscal Year 2023 Department of Defense budget request on the programs and activities of the Department for which Congress provided authorization or appropriations levels in the Fiscal Year 2022 National Defense Authorization Act or the Fiscal Year 2022 Defense Appropriations Act that exceeded the amount requested for such program or activity in the budget for the Department of Defense submitted to Congress by the President for Fiscal Year 2022.

The report shall include information on:

- (1) Any program or activity that the Department of Defense sought to divest from entirely, or requested zero units, but that was restored wholly or in part by Congress, and;*
- (2) Any program or activity that Congress authorized or appropriated at a level exceeding the amount requested by the Department of Defense in its Fiscal Year 2022 budget request by \$20,000,000 or more.*
- (3) Each program or activity listed in this report shall include an assessment of whether and how the program or activity does or does not meet requirements in support of the priorities articulated in the 2018 National Defense Strategy and the 2021 Interim National Security Strategic Guidance.*

In addition to being appended to the Department of Defense's Fiscal Year 2023 budget request, this report shall be made publicly available on the website of the Under Secretary of Defense (Comptroller).

Executive Summary

In response to a congressional reporting requirement in H.R. 4350, this report provides a summary of congressional additions to the Fiscal Year (FY) 2022 President's Budget request of the Department of Defense. As displayed in the following table, when considering only those additions to appropriations that exceed the amount requested by the Department by \$20 million or more, approximately \$58.6¹ billion of additional appropriations were included by the Congress in FY 2022. These additions were identified primarily through data used to compile the Department of Defense DD 1414, *Base for Reprogramming Actions*, which is available on the public website of the Office of the Under Secretary of Defense (Comptroller)/CFO.

FY 2022 Congressional Adds (\$20 million or greater)
Dollars in Millions

Public Law Title	Amount
Military Personnel	\$947
Operation & Maintenance	\$25,705
Procurement	\$17,677
Research, Development, Test & Evaluation	\$9,894
Military Construction	\$4,329
Grand Total	\$ 58,552

At the time of this report, there was no additional assessment completed of each of the congressional additions identified against the overall strategic priorities of the Department - the FY 2021 Interim National Security Strategy Guidance or the FY 2018 National Defense Strategy.

Finally, upon review of the Department's request for divestitures as part of the FY 2022 budget request, there were no programs or activities that were requested for divestiture in their entirety. Thus, there were no associated restorations in whole, or in part, by the Congress for divestiture requests of this nature.

¹ This number has been corrected to \$58.6 billion, vice \$28.8 billion that was erroneously displayed in a previous version. All tables remain correct at \$58.6 billion.

Congressionally Restored Divestments for Programs/Activities Requested for Divestiture in Their Entirety

FY 2022 Funding Increase: None

The Department reviewed all of the proposed divestments included in the FY 2022 budget request and found none that the Department sought to divest of entirely or requested zero units, to include weapons systems quantities. All proposed divestments included in the FY 2022 budget request were partial in nature. These divestments are detailed in the FY 2022 Defense Budget O&M Overview Book, Chapter 3, Section 3-8. This document is available on the public website of the Office of the Under Secretary of Defense (Comptroller)/CFO.

FY 2022 Congressional Adds in Excess of \$20 Million or More Over the Budget Request

The following section provides the appropriation and Service information and associated dollar amounts of all of the FY 2022 congressional appropriation increases identified through data used to compile the Department of Defense DD 1414, *Base for Reprogramming Actions*, and the Military Construction, Veterans Affairs, and Related Agencies Appropriations Act for FY 2022.
