<p>This internal reprogramming action transfers funds from Research Development, Test, and Evaluation, Army (RDT&amp;E,A), 99/00, to Procurement of Ammunition, Army, 99/01, and Other Procurement, Army, 99/01; and realigns funds within RDT&amp;E, A, for the proper execution of various items identified as Force XXI Initiatives - Warfighting Rapid Acquisition Program (WRAP). It does not represent a change from the purpose or funding approved by the Congress. This action requires the use of general transfer authority, pursuant to section 8005 of Public Law 105-262, the DoD Appropriations Act, 1999, and section 1001 of Public Law 105-261, the Strom Thurmond National Defense Authorization Act for FY 1999. It meets all administrative and legal requirements of the Congress and has not previously been denied by the Congress. This action does not affect Tactical Intelligence and Related Activities, Joint Military Intelligence Programs, or the National Foreign Intelligence Program. This action is not reflected in the FY 2000 President's budget.</p>								
<b>FY 1999 REPROGRAMMING INCREASES:</b>						<b><u>+23,500</u></b>		
<b><u>Procurement of Ammunition, Army, 99/01</u></b>						<b><u>+400</u></b>		
<b><u>Budget Activity 1: Ammunition</u></b>						<b><u>+400</u></b>		
Items Less Than \$2.0 Million	1,009			1,003		<b>+400</b>		1,403
<p><u>Explanation:</u> The Rifle Launched Entry Munitions is a rifle launched grenade that is designed to defeat locked doors to allow soldiers to gain entry to sealed buildings from covered and concealed positions. This funding accelerates fielding of a capability that currently does not exist. This funding will procure 485 rounds to support an urgent fielding decision.</p>								
<b><u>Other Procurement, Army, 99/01</u></b>						<b><u>+6,500</u></b>		
<b><u>Budget Activity 1: Tactical and Support Vehicles</u></b>						<b><u>+4,700</u></b>		
Family of Heavy Tactical Vehicles (FHTV)								
	189,617			189,617		<b>+4,700</b>		194,317
<p><u>Explanation:</u> The Heavy Expanded Mobility Tactical Truck Load Handling System (HEMTT-LHS) consists of a proven M977/978 tactical truck with improved suspension and a flat-rack load handling system with a lift arm similar to the Palletized Loading System (PLS). This allows the HEMTT truck to load/off-load</p>

<p>standard demountable cargo beds (flat racks). These funds will complete the acceleration of the HEMTT-LHS fielding to the Force XXI Digitized Division by two years. The test community is satisfied with the results of previous testing and supports this strategy. This funding will allow the Project Manager to initiate production for the First Digitized Division using an existing contract to meet the required fielding objective.</p>									
<u>Budget Activity 2: Communications and Electronics Equipment</u>						<b>+1,800</b>			
<p>Medical Communication for Combat Casualty Care (MC4)</p>									
		9,440		9,440		+600		10,040	
<p><u>Explanation:</u> Medical Logistics–Division is a mature software/hardware system that replaces the current aging legacy system, Theater Army Medical Management Information System Division. It digitizes the logistics functions system down to the unit level. These funds will provide an automated medical logistics system infrastructure by using commercial off-the-shelf laptop Pentium computers with communications through modem, local area network, tactical radio or satellite connection.</p>									
<p>Automated Data Processing Equipment</p>									
		123,712		123,009		+1,200		124,209	
<p><u>Explanation:</u> The Tactical Personnel System (TPS) is an automated tactical personnel strength management system. TPS creates a deployable go to war personnel strength baseline and is capable of establishing a personnel database for joint operations, DoD personnel, contractors, foreign nationals and POWs. The Army plan is to use this software on laptop computers fielded with SIDPERS-3. However, there is an additional hardware requirement for bar-code scanners to support this initiative. Funding will be used to procure 2,000 bar-code scanners.</p>

<p>0604780A Combined Arms Tactical Trainer (CATT) Core</p>									
		7,533		7,533		+12,400		19,933	
<p><u>Explanation:</u> The Aviation Combined Arms Tactical Trainer – Aviation Reconfigurable Manned Simulator (AVCATT-A) is a fully mobile, modular suite of six reconfigurable aviation warfighting cockpits that will simulate attack, cargo, observation, reconnaissance-attack, and utility helicopters that can be linked to digital and conventional tactical operations center equipment. AVCATT-A provides a system for collective</p>

and combined arms training, as well as reinforcing safety training. These funds will initiate the software effort to create an aviation specific virtual battlefield.								
0604802A Weapons and Munitions – Engineering Development								
		35,725		35,725		+2,700		38,425
<u>Explanation:</u> Type classification of a breaching system will be accelerated three years by leveraging the ongoing military operations in urban terrain ACTD experimental data, and facilitating rapid technology transition. These funds will procure 1,600 rounds in FY 1999 for technical and operation testing of the Rifle Launched Entry Munitions to support a MS III Type Classify Standard decision.								
0604805A Command, Control, Communications Systems – Engineering Development								
		16,404		16,404		+1,500		17,904
<u>Explanation:</u> Funding allows for maintenance of the current baseline software of the Tactical Personnel System (TPS), including updates and changes, and provides for the integration of currently separate functionality (Casualty, Company Admin/Training, and Deployment Capabilities, TDY, instructor support, and testing support). It finances training support and Subject Matter Expert review/support.
