| <p>This internal reprogramming action realigns funding for the Joint Tactical Radio System to the proper program element within the Research, Development, Test and Evaluation, Army, 99/00, appropriation. This realignment does not represent a change from the purpose or funding approved by the Congress. This action meets all administrative and legal requirements of the Congress and has not previously been denied by the Congress. This action does not affect Tactical Intelligence and Related Activities (TIARA), Joint Military Intelligence Programs (JMIP) or the National Foreign Intelligence Program (NFIP). This action is not reflected in the FY 2000/2001 President's budget.</p> |  |  |        |  |        |                                    |        |                 |        |

| <p><u>Explanation:</u> The Joint Tactical Radio System is a major research and development initiative assigned to the Army to develop and engineer a single radio family based on a common communications system architecture that will meet mobile and fixed airborne, ground, maritime and personnel communications requirements. This action will realign FY 1999 funds to the correct program element for proper execution.</p>  |  |  |        |  |        |                                    |        |                 |        |
