| <p>This internal reprogramming action transfers \$3.0 million from Research, Development, Test and Evaluation, Defense-Wide, 99/00, to the Research, Development, Test and Evaluation, Navy, 99/00, for proper execution of the laser diode array program. This transfer does not change the purpose for which the funds were originally appropriated. This action uses general transfer authority, pursuant to section 8005 of Public Law 105-262, the FY 1999 DoD Appropriations Act, and section 1001 of Public Law 105-261, the Strom Thurmond National Defense Authorization Act for FY 1999. It meets all administrative and legal requirements of the Congress and has not previously been denied by the Congress. This action does not affect Joint Military Intelligence Programs (JMIP), Tactical Intelligence and Related Activities (TIARA), or the National Foreign Intelligence Program (NFIP). This action is not reflected in the FY 2000/2001 President's budget.</p> | | | | | | | | |

| <p><u>Explanation:</u> The Congress appropriated \$3.0 million for laser diode array in DARPA's Materials and Electronics Technology program for the development of automated laser diode bar mounting techniques. This program has previously been funded in the Department of Navy's Industrial Preparedness program element. This action transfers funds to the Office of Naval Research for proper execution. This reprogramming action transfers the full balance of the program after an adjustment for undistributed reductions assessed by the Congress.</p> | | | | | | | | |
