This action provides current year funds to adjust obligations for the FY 1995 and 1996 production quantities of Joint Surveillance Target Attack Radar System (JSTARS) aircraft, consistent with the authority provided by section 304 of Public Law 106-31, the 1999 Emergency Supplemental Appropriations Act. It includes and expands upon data included in the Air Force's notification letter provided to the Congress on July 14, 1999. It is submitted for prior approval because it includes congressional special interest items. This action is for higher priority items, based on unforeseen military requirements; it meets all administrative and legal requirements of the Congress; and the Congress has not denied the items. It affects the Joint Military Intelligence Program; it does not affect Tactical and Intelligence Related Activities or the National Foreign Intelligence Program. It is not reflected in the FY 2000 President's budget.
