This internal reprogramming action transfers \$5.5 million from Research, Development, Test, and Evaluation, Defense-Wide, 01/02, to the Defense Health Program, Research, Development, Test and Evaluation, 01/02, for the Joint Medical Asset Repository. This reprogramming action uses general transfer authority, pursuant to section 8005 of Public Law 106-259, the DoD Appropriations Act, 2001; and section 1001 of Public Law 106-398, the Floyd D. Spence National Defense Authorization Act for FY 2001. This action does not change the purpose for which the funds were originally appropriated. It meets all administrative and legal requirements of the Congress and has not previously been denied by the Congress. The action also involves a congressional special interest item.

FY 2001 REPROGRAMMING INCREASE +5,500

Defense Health Program +5,500

Budget Activity 3: Research, Development, Test, and Evaluation, 01/02

	413,380	412,471	+5,500	417,971
Joint Medical Asset Repository	(0)	(0)	(+5,500)	(5,500)

FY 2001 REPROGRAMMING DECREASE -5,500

Research, Development, Test, and Evaluation, Defense-Wide, 01/02 -5,500

Budget Activity 6: RDT&E Management Support

PE 0605116D General Support to C3I	58,227	58,227	-5,500	52,727
Information Technology Ctr	(19,820)	(19,820)	(-5,500)	(14,320)

Explanation: In FY 2001, the Congress added \$19.820 million (adjusted for the government-wide rescission) for the Information Technology Center Initiative for two Pacific-based Information Technology Centers. This Initiative will fund several projects, one of which is Joint Medical Asset Repository (JMAR).

The JMAR will collect and integrate data from service medical logistics (including fixed facilities, field units, and war reserve stocks) and industry systems on supplies, equipment, blood, and medical maintenance status. The intent of the system is to provide end-to-end total asset visibility since deployed operations require the capability to jointly manage assets with both military and commercial pipelines. JMAR is a component system of the Defense Medical Logistics Standard Support Program (DMLSS). This action transfers funds to the Defense Health Program, the agency that executes this project, for proper execution.
