This reprogramming action is submitted for prior approval because it realigns funds within the Military Personnel, Army (MPA) appropriation in excess of established thresholds. The action transfers MPA resources between budget activities to fund projected increased costs in subsistence based on previous execution levels. This action reprograms funding in support of higher priority items, based on unforeseen military requirements, than that for which the funds were originally appropriated. It meets all administrative and legal requirements of the Congress and has not previously been denied by the Congress.
