This internal reprogramming action realigns funds within the Research, Development, Test, and Evaluation, Army account to properly execute funds added by the Congress for the Transportable Detonation Chamber. It does not change the purpose for which Congress appropriated the funds. It meets all administrative and legal requirements of the Congress and has not previously been denied by the Congress.

Budget Activity 4: Demonstration and Validation

PE 0603779A Environmental Quality Technology Dem/Val	35,316	35,136	+5,786	40,922
(Transportable Detonation Chamber)	(0)	(0)	(+5,786)	(+5,786)

Budget Activity 2: Applied Research

PE 0602720A Environmental Quality Technology	23,700	23,700	-5,786	17,914
(Transportable Detonation Chamber)	(5,786)	(5,786)	(-5,786)	(-)

Explanation: The Congress provided \$6.0 million in Public Law 107-117, the DoD Appropriations Act, 2000, to be used to validate whether the Transportable Detonation Chamber (Donovan Blast Chamber) would prove acceptable in a production-type environment rather than in a controlled laboratory environment. This action realigns the increase (as adjusted for congressionally directed undistributed reductions) within RDT&E, Army for proper execution.
