This internal reprogramming action consists of two parts. **Part I** transfers \$5.0 million of the FY 2003 Supplemental funds from the Operation and Maintenance, Army, 03/03, appropriation to the Iraq Freedom Fund (IFF). **Part II** then transfers \$5.0 million funds from the IFF to Other Procurement, Army, 03/05, appropriation for proper execution. These funds were initially transferred from the IFF to the Operation and Maintenance, Army, 03/03, appropriation in 03-42 IR. The funds should have been transferred to the Other Procurement, Army, 03/05, appropriation. This transfer authority is contained in Public Law 108-11, the Emergency Wartime Supplemental Appropriations Act, 2003. This action does not change the purpose for which the funds were originally appropriated. It meets all administrative and legal requirements of the Congress, and the Congress has not denied any of the funds.

**Explanation:** These funds will procure telecommunications voice switches (\$2.1 million), IDNX Promina 800 equipment (\$0.3 million), and a satellite terminal (\$2.6 million). Purchase of major telecommunications switching and transmission systems are required to satisfy the Coalition Provisional Authority's urgent need for an integrated national internal command and control network of voice, data, video teleconference and collaborative planning capabilities. The Coalition Provisional Authority (CPA) has stated that this fielding is their highest C<sup>4</sup> priority. Failure to provide this equipment delays the initial operational capability of a CPA area support network, causing the continued commitment of US Forces Signal personnel and equipment.
