Explanation: Funds were requested in the FY 2003 President's Budget in the Operation and Maintenance, Army appropriation for strengthening physical security at Army activities Army-wide. This transfer is required because the requirements for increased physical security at Army Ammunition Plants were included in the Army's total physical security requirement funded by the Operation and Maintenance appropriation. However, the proper place for execution of the physical security requirements for Army Ammunition Plants is in the Procurement of Ammunition, Army appropriation, which funds all costs for Army Ammunition Plants.
