Explanation: In the past, Special Operations Forces (SOF) units used Operation and Maintenance funding to modify tactical vehicles currently in inventory. These modifications became extensive as a result of OEF/OIF. As a result, USSOCOM has designated the Tactical Vehicle program as centrally managed to standardize SOF-unique modifications to various tactical vehicles. Procurement funding will purchase various modification kits for SOF-unique tactical vehicles. These modifications will be conducted during initial outfitting and could include seat reconfiguration and additional fuel tanks among other items. These modifications will enhance the operational capability of these tactical vehicles.
