This reprogramming action is submitted for prior approval because it uses general transfer authority pursuant to section 8005 of Public Law 108-287, the Department of Defense (DoD) Appropriations Act, 2005; and section 1001 of Public Law 108-375, the Ronald W. Reagan National Defense Authorization Act for Fiscal Year (FY) 2005. This action transfers \$34.5 million from the Other Procurement, Army, 05/07, appropriation to the Research, Development, Test, and Evaluation, Army, 05/06, appropriation. This action reprograms funding in support of higher priority items, based on unforeseen military requirements, than those for which the funds were originally appropriated; and is determined to be necessary in the national interest. It meets all administrative and legal requirements and the items have not previously been denied by the Congress.

Explanation: The Joint Program Office Joint Tactical Radio System (JTRS) has identified shortfalls in FY 2005 for JTRS waveform and cryptographic equipment applications development. The waveform and crypto programs are aligned to meet joint service priorities and requirements, but the funding shortfalls put the waveform capability at risk. These waveforms support all JTRS programs, to include the Cluster 1, 2, 5, Airborne and Maritime/Fixed site (AMF) and Multinational Information Distribution System-JTRS (MIDS-J) requirements.

<u>FY 2005 REPROGRAMMING DECREASE:</u>	<u>-34,500</u>

Explanation: Technical and developmental delays make the planned award of the JTRS Cluster 1 Low Rate Initial Production (LRIP) not possible during the FY 2005-FY 2007 time period. Therefore the funds are not executable in procurement.
