This reprogramming is submitted for prior approval because it uses special transfer authority pursuant to section 1001 of Public Law 109-13, the Emergency Supplemental Appropriations Act for Defense, the Global War on Terror and Tsunami Relief, 2005. This action transfers \$2.5 million from the Procurement, Defense-Wide, 05/07, appropriation to the Research, Development, Test, and Evaluation, Navy, 05/06, appropriation for the Silver Fox Unmanned Aerial Vehicle (UAV) for Naval Special Operations Forces. This action reprograms funding in support of higher priority items, based on unforeseen military requirements, than those for which originally appropriated; and are determined to be necessary in the national interest. It meets all administrative and legal requirements and none of the items have previously been denied by the Congress.

Explanation: The Congress added FY 2005 Supplemental funding for Silver Fox Unmanned Aerial Vehicles (UAVs) for Naval Special Operations Forces. The Silver Fox UAV was determined to be not optimum for Special Operations Command (SOCOM) uses. The SOCOM will use \$2.5 million for the Aqua Puma UAV, and the remaining \$2.5 million will be transferred to the Navy for the Silver Fox Unmanned Aerial Vehicle Systems Proof-of-Concept demonstration in support of Navy Special Clearance Teams. Efforts funded will include: 1) upgrade and material delivery of four UAV Block B-4 systems; 2) program management support and documentation; 3) test/demonstration support; and 4) operator training and materials. This is a congressional special interest item.

Approved (Signature and Date)

JUN 23 2006
