Explanation: These funds will be made available to the Program Executive Officer Ground Combat Systems due to reprioritization of funds to enable participation in the MRAP program with the Marine Corps. This reprogramming is a cross leveling of programmatic resources available for force protection to system capability. Resources are being reprogrammed to a vehicle with a higher level of protection that can be used selectively for the more dangerous mission profiles. These funds were originally for fourth quarter HMMWV program fielding costs that can be deferred for several months until the FY 2007 GWOT supplemental is enacted.
