This reprogramming request is submitted for prior approval because this action uses general transfer authority and exceed thresholds.

**Part I** of this reprogramming action realigns \$100.0 million within the Aircraft Procurement, Air Force, 08/10, appropriation for an urgent classified requirement.

**Part II** of this reprogramming action transfers \$35.0 million from the Research, Development, Test, and Evaluation, Air Force, 07/08, appropriation to the Aircraft Procurement, Air Force, 07/09, appropriation for an urgent classified requirement. This reprogramming action uses \$35.0 million of general transfer authority pursuant to section 8005 of Public Law 109-289, the DoD Appropriations Act, 2007; and section 1001 of Public Law 109-364, the John Warner National Defense Authorization Act for FY 2007. These actions reprogram funding in support of higher priority items, based on unforeseen military requirements, than those for which originally appropriated; and are determined to be necessary in the national interest. They meet all administrative and legal requirements and none of the items has been previously denied by the Congress.

**Aircraft Procurement, Air Force, 08/10**

<b>Budget Activity 7: Aircraft Support Equipment and Facilities</b>				-
<b>Other Production Charges</b>				
	717,108	717,108	+100,000	817,108

Explanation: This specific effort is classified. Details will be provided separately.

**Budget Activity 5: Modification of Inservice Aircraft**

<b>B-2A Mods</b>	212,142	212,142	-100,000	212,142
------------------	---------	---------	----------	---------

Explanation: Major development issues associated in the B-2 Radar Modernization Program (RMP) have now been largely resolved; however, delays incurred to date have resulted in the planned procurement decision and contract award for production units being rescheduled for first quarter of FY 2009. The Air Force plans to adjust future budget requests to re-phase production funding consistent with the revised award date. This source does not decrement any of the congressional special interest items in this line.

Explanation: Due to protests filed with the Government Accountability Office (GAO) against the Combat Search and Rescue Replacement Vehicle (CSAR-X) contract award and the resulting stay of performance issued to Boeing Integrated Defense Systems in November 2006, the program has experienced schedule delays beyond its control. Contract award is now projected for summer 2008. The result is a potential delay of Initial Operating Capability (IOC) and a delay in the Block 0 CSAR-X System Development and Demonstration (SDD) effort. The program is currently in source selection and development schedules are offeror dependent.
