This prior approval reprogramming action is submitted for approval because it uses special transfer authority and exceeds established reprogramming thresholds. This reprogramming action transfers \$403.440 million among various Defense appropriations. This reprogramming action uses \$341.440 million of special transfer authority pursuant to section 9002 of Public Law 111-118, the Department of Defense (DoD) Appropriation Act, 2010. This reprogramming action reprogram funds in support of higher priority items, based on unforeseen military requirements, than those for which funds were originally appropriated; and is determined to be necessary in the national interest. All of the items funded in this reprogramming are for emergency safety-of-life. **I certify that this reprogramming action is an emergency requirement and is necessary to fund. This action replaces reprogramming action FY 10-03 PA, dated December 3, 2009.** The only change to the previous reprogramming request is the special transfer authority citation, which must be updated now that Public Law 111-118 is enacted. It meets all administrative and legal requirements, and none of the items has been denied previously by the Congress

FY 2010 REPROGRAMMING INCREASES: **+403,440** **+358,740**

ARMY INCREASE: **+62,000**

Other Procurement, Army, 10/12 **+62,000**

Budget Activity3: Other Support Equipment

Physical Security Systems **+62,000**

Explanation: Funding is required to provide 37 Vehicle Scanners and 111 Personnel Scanners as part of the Modularized Entry Control Points (ECP) suites of force protection equipment. The suites of equipment are easily reconfigured or relocated as requirements change providing greater protection to service members at access points to forward operating bases in Afghanistan.

Approved (Signature and Date)

Robert F. Hale 2/2/2010

NAVY INCREASES: **+93,800**

Procurement, Marine Corps, 10/12 **+91,800**

Budget Activity 6: Engineer and Other Equipment

Physical Security Equipment **+91,800**

Explanation: Funds are required to procure additional Ground Based Operational Surveillance Systems (G-BOSS) for persistent surveillance in support of protection of Forward Operating Bases in Afghanistan. The G-BOSS is a system of towers, radars, ground sensors and communications systems, which provide day and night, 24-hour surveillance capability. This is a Marine Corps Urgent Universal Needs Statement (UUNS).

Research, Development, Test, and Evaluation, Navy, 10/11 **+2,000**

Budget Activity 4: Advanced Component Development and Prototypes

PE 0603851M Joint Non-Lethal Weapons

+2,000

Explanation: Funding is required to provide U.S. Forces Afghanistan (USFOR-A) with an extended range non-lethal capability to immediately move, suppress or deny access to adversaries without causing permanent injury or death. This will provide a rapid response to an urgent force protection requirement for Forward Operating Bases in Afghanistan.

AIR FORCE INCREASES: **+53,300** **+8,600**

Other Procurement, Air Force, 10/12 **+53,300** **+8,600**

Budget Activity 3: Electronics and Telecommunication Equipment

USCENTCOM - - **+1,300**

Explanation: Funding is required to procure 10 Global Broadcasting System (GBS) terminals. This capability will provide access to Intelligence, Surveillance and Reconnaissance (ISR) information by remote Special Operations Command Central (SOCCENT) teams isolated from existing infrastructure. The information accessed is critical to time sensitive targeting operations.

Tactical C-E Equipment +52,000 +7,300

Explanation: Funding is required to procure 744 Hand Held Laser Designators for use in CENTCOM area of responsibility. These units will provide the ability to covertly mark hostile positions during day and night operations.

SAC denied \$44.7 million

DEFENSE-WIDE INCREASES: **+194,340**

Operation and Maintenance, Defense-Wide, 10/10 **+5,274**

Defense Human Resources Activity (DHRA)

+1,200

The Joint Staff (TJS)

+4,074

Explanation: Funds are required to operate and maintain the Joint Personnel Accountability Reconciliation and Reporting (JPARR) project which is an automated SIPRNET solution for creating the Total Force Joint Personnel Status report and providing preliminary personnel numbers for the Congressional Boots-on-the-Ground (BOG) Report. The JPARR will replace the manual process currently employed to account for all deployed US Forces and DoD support personnel.

Procurement, Defense-Wide, 10/12 **+156,566**

Budget Activity 2: Special Operations Command

C-130 Modifications

+156,566

Explanation: Funding is required to fulfill an urgent USSOCOM requirement to rapidly arm and field multi-mission precision strike platforms. Funding procures eight fully modified kits for the MC-130W. Funding is also required to procure installation kits, spares, data packages, and support equipment. Approval of this request is critical to generate additional armed over-watch capability, which includes sensors, communication systems, precision guided munitions, and a single medium-caliber gun.

Research, Development, Test, and Evaluation, Defense-Wide, 10/11 +32,500**Budget Activity 7: Operational Systems Development**

PE 0303126K Long Haul Communications, Defense Information Systems Agency
+32,500

Explanation: Funds are required for continued development for extended range coverage and increased numbers of tactical networks for command and control "push-to-talk" capability using commercially-based, satellite technology as part of the Distributed Tactical Communication System. This capability will reduce combat casualties and enhance mission effectiveness for small, dispersed teams operating in remote mountainous regions of Afghanistan. This technology will allow for quicker software uploads, the testing of multi-beam capability, data encryption, improved network management, and system application tools. The funding will also provide for the necessary support and training requirements of remote teams, operating in a beyond-line-of-sight location, in a netted, tactical communications environment.

FY 2010 REPROGRAMMING DECREASES: **-403,440** **-358,740**

Other Procurement, Army, 10/12 **-403,440** **-358,740**

Budget Activity 1: Tactical and Support Vehicles

Family of Heavy Tactical Vehicles (FHTV) **-53,440**

Budget Activity 2: Communications and Electronics

Information Systems **-200,000** **-155,300**

OUSD(C) Adj.

Installation Information Infrastructure Modernization Program **-75,000**

Night Vision Devices **-75,000**

Explanation: The programs being used to finance this urgent time sensitive requirement remain valid and are necessary to reconstitute and recapitalize combat and support equipment as a result of prolonged use in combat, or as a consequence of damage beyond repair. The identification of these programs as funding sources should not be perceived as lack of need, but instead an acceptance of risk, by postponing reconstitution in order to address a critical nearer term requirement. These funds
