This reprogramming action is submitted for prior approval because it uses general transfer authority pursuant to section 8005 of division C of Public Law 113-235, the Department of Defense (DoD) Appropriations Act, 2015; and section 1001 of Public Law 113-291, the Carl Levin and Howard P. "Buck" McKeon National Defense Authorization Act for Fiscal Year (FY) 2015. This action transfers $50.0 million from the Defense Working Capital Fund, Defense, X, appropriation to the Research, Development, Test, and Evaluation, Navy, 15/16, appropriation. This action reprograms funding in support of higher priority items, based on unforeseen military requirements than those for which originally appropriated, and is determined to be necessary in the national interest. It meets all administrative and legal requirements, and none of the items has been previously denied by the Congress. This reprogramming action impacts the Military Intelligence Program (MIP).

+50,000

Explanation: Funds are required for a classified program. Additional details will be provided through the appropriate classified channels. This is a MIP project. This is a base budget requirement.

FY 2015 REPROGRAMMING DECREASE:

**Defense Working Capital Fund, Defense, X**

-50,000

Explanation: Funds are available due to commodity market volatility that has resulted in the cost to purchase refined petroleum products to be lower than budgeted. The lower costs have allowed the Working Capital Fund, Defense-Wide account to build a cash balance that is excess to current requirements.
