

Subject: March 2017 Military Intelligence Program (MIP) Prior Approval Request		DoD Serial Number: FY 17-13 PA
Appropriation Title: Research, Development, Test, and Evaluation, Air Force, 16/17		
		Includes Transfer? No

Component Serial Number:	<i>(Amounts in Thousands of Dollars)</i>							
	Program Base Reflecting Congressional Action		Program Previously Approved by Sec Def		Reprogramming Action		Revised Program	
	Line Item	Quantity	Amount	Quantity	Amount	Quantity	Amount	Quantity
a	b	c	d	e	f	g	h	i

This action is being submitted for prior approval because this action exceeds established reprogramming thresholds. This reprogramming action provides funding in support of higher priority items, based on unforeseen military requirements, than those for which originally appropriated; and are determined to be necessary in the national interest. This reprogramming action meets all administrative and legal requirements, and none of the items have previously been denied by the Congress. This impacts the **Military Intelligence Program (MIP)**.

This reprogramming action realigns \$5.4 million within the Research, Development, Test, and Evaluation, Air Force, 16/17, appropriation.

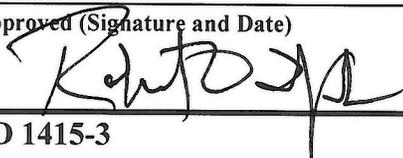

<u>FY 2016 REPROGRAMMING INCREASE:</u>	<u>+5,400</u>
<u>Research, Development, Test, and Evaluation, Air Force, 16/17</u>	<u>+5,400</u>
<u>Budget Activity 07: Operational System Development</u>	
PE 0305913F NUDET Detection System (Space)	
14,403	14,403
	+5,400
	19,803

Explanation: Funds are required to meet the delivery schedule of the third Universal Ground Nuclear Detonation Terminal (UGNT) in FY 2017. The UGNTs will integrate with the Space Based Infrared System (SBIRS) Survivable Endurable Evolution (S2E2) system. Delivery of the terminal is on the S2E2 critical path to achieve Initial Operational Capability (IOC) in 4Q FY 2019. If not funded, delays to S2E2 IOC are estimated to be 18 months with an associated cost growth of \$33.3 million in FY 2018 – FY 2020. This is a **MIP project**. This is a base budget requirement.

<u>FY 2016 REPROGRAMMING DECREASE:</u>	<u>-5,400</u>
<u>Research, Development, Test, and Evaluation, Air Force, 16/17</u>	<u>-5,400</u>
<u>Budget Activity 05: System Development and Demonstration</u>	
PE 0605433F Wideband Global SATCOM (Space)	
49,954	49,954
	-5,400
	44,554

Explanation: Funds are available due to changing the Wideband Global SATCOM (WGS) program to a competitive development effort. There are minimal impacts on the WGS program. This is base budget funding.
