This prior approval reprogramming action is submitted for approval because these actions affect special interest items. This reprogramming action provides funding in support of higher priority items, based on unforeseen military requirements, than those for which originally appropriated; and are determined to be necessary in the national interest. They meet all administrative and legal requirements.

This reprogramming action accompanies a Rapid Acquisition Authority (RAA) request in support of the U.S. Forces Korea (USFK) and U.S. Pacific Command (USPACOM) Joint Emergent Operational Need (JEON) (PC-0021) to integrate ballistic missile defense capabilities.

This reprogramming action realigns funds within Procurement budget activities and Research, Development, Test, and Evaluation program elements that were appropriated for certain programs, projects, and activities listed in tables entitled "Explanation of Project Level Adjustments" and that are subject to section 8006 of applicable Department of Defense (DoD) Appropriations Acts. This action is submitted because the Department intends to exercise RAA conferred by section 806(c)(3)(A) of the Bob Stump National Defense Authorization Act for Fiscal Year 2003, as amended. Section 806(c)(3)(A) authorizes use any funds available to the Department to obtain supplies and associated support services to address certain documented deficiencies that, if left unfulfilled, could potentially result in loss of life or critical mission failure. Unless funding subject to section 8006 is made available for higher priority items pursuant to section 8005 of applicable DoD Appropriations Acts, such funds are unavailable for direct execution pursuant to RAA for obligations that otherwise would be recorded against another appropriation.

By operation of section 8006(b) of each applicable Appropriations Act, because transfers are not made between appropriation accounts this reprogramming is not subject to monetary ceilings on exercise of general transfer authority.

**Part I** of this reprogramming action realigns \$20.0 million within the Procurement, Defense-Wide, 17/19, appropriation.

**Part II** of this reprogramming action realigns \$6.4 million within the Research, Development, Test, and Evaluation, Air Force, 16/17, appropriation.

**Part III** of this reprogramming action realigns \$43.7 million within the Aircraft Procurement, Air Force, 15/17, appropriation.

Approved (Signature and Date)

SEP 8 2017

<b><u>FY 2017 REPROGRAMMING INCREASE:</u></b>	<b><u>+20,000</u></b>	
<b><u>Procurement, Defense-Wide, 17/19</u></b>	<b><u>+20,000</u></b>	
<u>Budget Activity 01: Major Equipment</u>		
Redesigned Kill Vehicle (RKV) (AP)	-	20,000

Explanation: Funds are required for a classified USPACOM JEON (PC-0021). Additional classified details will be provided under separate cover. This is a base budget requirement.

<b><u>FY 2017 REPROGRAMMING DECREASE:</u></b>	<b><u>-20,000</u></b>
<b><u>Procurement, Defense-Wide, 17/19</u></b>	<b><u>-20,000</u></b>
<u>Budget Activity 01: Major Equipment</u>	
Redesigned Kill Vehicle (RKV) (AP)	-20,000

Explanation: Funds are available due to being early to need for the RKV program. The RKV program is still in development and will not be ready for procurement until the required testing is complete. Funds were appropriated for long lead materials. This is a congressional special interest item. This is a base budget funding.

**PART II**

<b><u>FY 2016 REPROGRAMMING INCREASE:</u></b>	<b><u>+6,400</u></b>
<b><u>Research, Development, Test, and Evaluation, Air Force, 16/17</u></b>	<b><u>+6,400</u></b>
<u>Budget Activity 07: Operational System Development</u>	
PE 0401132F C-130J Program	6,400

Explanation: Funds are required for a classified USPACOM JEON (PC-0021). Additional classified details will be provided under separate cover. This is a base budget requirement.

<b><u>FY 2016 REPROGRAMMING DECREASE:</u></b>	<b><u>-6,400</u></b>
<b><u>Research, Development, Test, and Evaluation, Air Force, 16/17</u></b>	<b><u>-6,400</u></b>
<u>Budget Activity 07: Operational System Development</u>	
PE 0401132F C-130J Program	-6,400

Explanation: Funds are available due to the C-130J in-flight propeller balancing no longer being a program requirement. Maintainability improvements for the C-130J engine and propeller systems have negated the

requirement for the C-130 in-flight propeller balancing. The C-130J utilizes a Full-Authority Digital Engine Control (FADEC), which automatically controls the engines and the propellers to achieve optimum performance during all phases of flight. Although the FADEC does not balance the C-130J propellers in flight, flight data is recorded and enables maintainer to balance the propellers on the ground, when necessary. This is a congressional special interest item. This is a base budget funding.

**PART III**

<b><u>FY 2015 REPROGRAMMING INCREASES:</u></b>	<b><u>+43,700</u></b>	
<b><u>Aircraft Procurement, Air Force, 15/17</u></b>	<b><u>+43,700</u></b>	
<b><u>Budget Activity 05: Modification of Inservice Aircraft</u></b>		
C-130	-	33,230

Explanation: Funds are required for a classified USPACOM JEON (PC-0021). Additional classified details will be provided under separate cover. This is a base budget requirement.

Airborne Warning and Control System	-	10,470
-------------------------------------	---	--------

Explanation: Funds are required for a classified USPACOM JEON (PC-0021). Additional classified details will be provided under separate cover. This is a base budget requirement.

<b><u>FY 2015 REPROGRAMMING DECREASES:</u></b>	<b><u>-43,700</u></b>	
<b><u>Aircraft Procurement, Air Force, 15/17</u></b>	<b><u>-43,700</u></b>	
<b><u>Budget Activity 05: Modification of Inservice Aircraft</u></b>		
C-130	-	33,230

Explanation: Funds are available due to being early to need for the C-130 Avionics Modernization Program. The C-130 AMP Increment 1 is still in development and will not be ready for procurement until the required development and testing for Milestone C is complete, which will not occur before funds expire on September 30, 2017. This is a congressional special interest item. This is a base budget funding.

Airborne Warning and Control System	-	10,470
-------------------------------------	---	--------

Explanation: Funds are available due to a contract savings on a Full Rate Production Contract Delivery Order. The production support contract realized actual costs lower than originally anticipated. Funds are now excess to the program. This is a congressional special interest item. This is a base budget funding.
