This prior approval reprogramming action is submitted for approval because these actions use general or special transfer authority, exceeds established reprogramming thresholds, affects special interest items, or indicates a new start. This reprogramming action provides funding in support of higher priority items, based on unforeseen military requirements, than those for which originally appropriated; and are determined to be necessary in the national interest. They meet all administrative and legal requirements, and none of the items have previously been denied by the Congress.

This reprogramming action transfers or realigns \$6.5 million among Fiscal Year (FY) 2021 Defense appropriations. This reprogramming action uses \$2.5 million of general transfer authority pursuant to section 8005 of division C of Public Law 116-260, the Department of Defense (DoD) Appropriations Act, 2021; and section 1001 of Public Law 116-283, the William M. (Mac) Thornberry National Defense Authorization Act for FY 2021.

Explanation: Funds are required for the following efforts:

- ~~\$+0.5 million to maintain and update the Congressional Hearings and Reporting Requirements Tracking System (CHARRTS), which facilitates communication between Congress and DoD, and timely DoD responses to Congressional RFI. This is a congressional special interest item. This is a base budget requirement.~~
- ~~\$+3.5 million to support the Independent Review Commission (IRC) on Sexual Assault in the Military addresses the immediate priority of the President and the Secretary of Defense. The IRC will ensure that an independent, impartial assessment is prepared. The High Risk Installation (HRI) Evaluation Study will generate the HRI Reports on an enduring basis - quarterly reports to the Secretary. Enduring efforts also include establishment of a Violence Prevention Workforce, as well as implementation of the IRC's Final Report Recommendations to the President and Secretary. This is a must-pay requirement to meet one of the Administration's top defense priorities, and will improve unit cohesion, morale, and force readiness. This is a base budget requirement.~~

Defense Health Program, 21/22						+2,500		
<u>Budget Activity 02: RDT&E</u>		2,392,579		2,392,579		+2,500		2,395,079
<p><u>Explanation:</u> Funds are required to conduct operational testing and evaluation of the effectiveness of mechanical tourniquets in a real world context. Congress appropriated an additional \$2.5 million for Operation and Maintenance, Defense-Wide appropriation for US Special Operations Command (USSOCOM) for a demonstration project for contractors employing persons with disabilities to manufacture mechanical tourniquets, but DoD determined such tourniquets must first undergo testing and evaluation of product effectiveness prior to acquisition. The realignment allows the Defense Health Agency, as the lead for the Department's medical research, to conduct a test and evaluation study of the product with Joint representation from the major Service Component Commands. This is a congressional special interest item. This is a base budget requirement.</p>								
FY 2021 DEFENSE-WIDE DECREASES:						<u>-6,500</u>		<u>-2,500</u>
<u>Operation and Maintenance, Defense-Wide, 21/21</u>						<u>-6,500</u>		<u>-2,500</u>
<u>Special Operations Command</u>								
<u>Budget Activity 01: Operating Forces</u>		9,401,779		9,388,424		-2,500		9,385,924
<p><u>Explanation:</u> Funds provided as a congressional add for USSOCOM for a demonstration project for contractors employing persons with disabilities to manufacture mechanical tourniquets are available because the test and evaluation of such tourniquets is required before items are acquired for operational use. This is a congressional special interest item. This is base budget funding.</p>

<p>Explanation: Funds are available from the Atomic Veteran's Service Medal project. This funding cannot be executed within FY 2021 due to the feasibility study and award development timeline. The feasibility study was recently completed and sent to the House and Senate Armed Services Committees, and contracting for the design and production of the medal cannot be completed before the end of FY 2021. The OSD anticipates finalizing the Atomic Veteran's Service Medal in early FY 2022, and will make necessary funding adjustments for the costs associated with design and production. This is base budget funding.</p>
