This reprogramming action transfers $826.4 million from the funding appropriated in Public Law 117-128, the Additional Ukraine Supplemental Appropriations Act, 2022, to various Defense appropriations for execution. This reprogramming action provides funding for the replacement of defense articles from the stocks of the Department of Defense, and for reimbursement for defense services of the Department of Defense and military education and training provided to the Government of Ukraine or to foreign countries that have provided support to Ukraine at the request of the United States. This action is determined to be necessary in the national interest. This reprogramming action meets all administrative and legal requirements, and none of the items have been previously denied by the Congress.

The transfer authority provided by Public Law 117-128 is in addition to any other transfer authority available to the Department of Defense.
