MEMORANDUM FOR ASSISTANT SECRETARIES OF THE MILITARY DEPARTMENTS
(FINANCIAL MANAGEMENT AND COMPTROLLER)
DIRECTORS OF THE DEFENSE AGENCIES
DIRECTORS OF THE DOD FIELD ACTIVITIES
COMMANDER, U.S. ARMY CORPS OF ENGINEERS

SUBJECT: Accounting for Internal Funds Distributions; Interpretation Guidance for General Fund Appropriations

The ability to properly distribute funding and properly record associated accounting events is an important capability for the Department to achieve and sustain an unqualified audit opinion for appropriations received. The requirements for recording an appropriation received and subsequent distributions are contained in the DoD 7000.14-R, Department of Defense Financial Management Regulation (DoD FMR), Volume 3, Chapter 13 – 15. Attachments 1 and 2 provide the detailed requirements for recording the receipt and distribution of all appropriated funds in the financial systems.

Attachment 1 is the Accounting for Internal Funds Distributions, Interpretation Guidance for General Fund Appropriations – Distribution of Military Department Funds. Attachment 2 is the Accounting for Internal Funds Distributions, Interpretation Guidance for General Fund Appropriations – Distribution of Office of the Secretary of Defense Treasury Index 97 Funds.

Your support to enhance this area of financial management is fully appreciated. Please direct questions regarding this memorandum to Mr. Joseph Doyle, at (703) 614-3523 or joseph.f.doyle10.civ@mail.mil.

ACCOUNTING FOR INTERNAL FUND DISTRIBUTIONS

Background

Department of Defense (DoD) Financial Management Regulations (FMR) Volume 3 is the authoritative source for budget execution and accounting for the availability and execution of budgetary resources across the DoD. Within volume 3, chapters 13, 14 and 15 prescribe the standards for the receipt and distribution of those budgetary resources. Specifically:

DoD FMR Volume 3, Chapter 13, *Receipt and Distribution of Budgetary Resources – Department Level*, prescribes the standards for recording receipt and subsequent distribution of budgetary resources transactions at the department, headquarters, or Office of the Secretary of Defense (OSD) level.

DoD FMR Volume 3, Chapter 14, *Receipt and Distribution of Budgetary Resources – Intermediate Level*, prescribes the standards for recording receipt and subsequent distribution of budgetary resources using the intermediate-level budgetary accounts, which are applicable to components with a funding structure that includes three (or more) component levels.

DoD FMR Volume 3, Chapter 15, *Receipt and Distribution of Budgetary Resources – Execution Level*, prescribes the standards for recording receipt and subsequent distribution of budgetary resources using the execution-level budgetary accounts.

Only those DoD components with a funding distribution structure organized into three (or more) levels are required to use the intermediate-level accounts covered in DoD FMR Volume 3, Chapter 14. For example, the DoD Military Departments are structured organizationally into three (or more) levels, or echelons, but the Other Defense Organizations (ODOs) receive Defense-wide appropriations directly from the Office of the Under Secretary of Defense (Comptroller) (OUSD(C)), Program/Budget (PB) in a two tiered structure, without an intermediate level component.

Regulatory and Policy Revisions

This scenario contains transactional guidance that includes revisions as follows:

- (1) DoD Transaction OUSD-016-01 to close budgetary authority within the Headquarters level where distributions previously issued to intermediate or execution level components remain undistributed upon the expiration of the period of availability.

Reference(s): DoD USSGL Transaction Library, OUSD-016-01
DoD FMR Volume 3, Chapter 13, 130301

- (2) DoD Transaction OUSD-017-01 to close budgetary authority within the intermediate level upon expiration of the period of availability where distributions were issued to the execution level.

Reference(s): DoD USSGL Transaction Library, OUSD-017-01
DoD FMR Volume 3, Chapter 14, 140302

- (3) DoD Transaction OUSD-018-01 to close internal fund distributions received in the intermediate level that remains undistributed upon expiration of the period of availability.

Reference(s): DoD USSGL Transaction Library, OUSD-018-01
DoD FMR Volume 3, Chapter 14, 140302

- (4) DoD Transaction OUSD-019-01 to close allotments and suballotments of budget authority within the execution level that remains unobligated upon expiration of the period of availability.

Reference(s): DoD USSGL Transaction Library, OUSD-019-01
DoD FMR Volume 3, Chapter 15, 150202

- (5) DoD Transaction OUSD-020-01 to close suballotments within the execution level that remains unobligated upon expiration of the period of availability.

Reference(s): DoD USSGL Transaction Library, OUSD-020-01
DoD FMR Volume 3, Chapter 15, 150202

Alignment to the DoD Standard Line of Accounting/Accounting Classification

The DoD Standard Line of Accounting (SLOA) is used to identify the funding source associated with an organization’s budget and to ensure accurate accounting transactions. The following SLOA and Standard Financial Information Structure (SFIS) data elements uniquely applicable to this scenario for the purpose of standard accounting and reporting of internal fund distributions and ending balances include the following as a minimum set. For implementation guidance and attribute description, refer to the SFIS Resources Page website located at: <http://dcmo.defense.gov/products-and-services/standard-financial-information-structure/>.

Accounting and Reporting for Internal Fund Distribution – Military Department/Headquarters Level

DoD FMR Volume 3, Chapter 13 prescribes the standards for recording receipt and subsequent distribution of budgetary resources transactions at the department, headquarters, or Office of the Secretary of Defense (OSD) level.

This scenario begins with recording an annual Military appropriation of \$6,000,000. For scenario purposes only, the following example utilizes Department Regular 017 (Department of the Navy). The funds are quarterly apportioned with one-fourth of the funds available in the current quarter and three-fourths of the funds available in subsequent quarters. The Standard Financial Information Structure (SFIS) Attribute A13 (Availability Time) indicates whether a specific amount of funding is available for execution in the current reporting period (A) or in a subsequent reporting period (S). The line of accounting applicable to this scenario includes:

A1	A2	A3	A4	A27	A28	B4	B12	A13
017	000	1804	000	2013	2013	See Below	See Below	See Below

Note: For simplicity, an opening Trial Balance is not used in this scenario.

Accounting and Reporting for Internal Fund Distribution – Intermediate Level Component

DoD FMR Volume 3, Chapter 14 prescribes the standards for recording receipt and subsequent distribution of budgetary resources using the intermediate-level budgetary accounts, which are applicable to operating components with a funding structure that includes three (or more) component levels. Only those DoD components that are structured organizationally into three (or more) levels record the intermediate-level accounts covered in DoD FMR Volume 3, Chapter 14. An example of an intermediate level component is a Major Command (MajCom) within the same Military Branch. The SFIS Attribute A13 (Availability Time) indicates whether a specific amount of funding is available for execution in the current reporting period (A) or in a subsequent reporting period (S).

Distributions received at the intermediate level retain the same availability constraints as initially apportioned by OMB.

1. To record direct budgetary authority received from the department level by an intermediate level component and available for allotment to execution level component(s) or suballotment to other intermediate level component(s). (DoD FMR Vol 3, Ch 14)

The intermediate level component may allot budgetary authority to an execution level component(s) or suballot budgetary authority to another intermediate level component(s).

2. To record direct budgetary authority either allotted by an intermediate level component to an execution level component(s) or suballotted between two or more intermediate level components. (DoD FMR Vol 3, Ch 14)

ACCOUNTING FOR INTERNAL FUND DISTRIBUTIONS

Accounting and Reporting for Internal Fund Distribution – Execution Level Component

DoD FMR Volume 3, Chapter 15 prescribes the standards for recording receipt and subsequent distribution (including suballotment) of budgetary resources at the execution level. The following scenario portrays an initial allotment of \$495,000 from an intermediate level (DoD FMR Vol 3, Ch 14) to an execution level (DoD FMR Vol 3, Ch 15) component within the same Military branch. Distributions received at the execution level retain the same availability constraints as initially apportioned by OMB.

This scenario begins with recording an allotment received by a single execution level operating activity. The funds are quarterly apportioned by OMB prior to distribution of the allotment with one-fourth of the funds available in the current period and three-fourths of the funds available in subsequent quarters within the stated period of availability. The Standard Financial Information Structure (SFIS) Attribute A13 (Availability Time) indicates whether a specific amount of funding is available for execution in the current reporting period (A) or in a subsequent reporting period (S). The same line of accounting elements are applicable as passed down by the higher echelon.

1. To record direct budgetary authority received by an execution level component through allotment of authority. (DoD FMR Vol 3, Ch 15)						
DoD TC	Description	Dr	Cr	B4	B12	A13
OUSD-007-01	<u>Budgetary Entry</u>

Navy Operating Activity suballots \$89,500 of their available allotment across three Other Defense Organizations (ODOs). The Budget Line Item (BLI) of the suballotter (1A1A) is retained in the suballotment of funds to other organizations.

2. To record the suballotment of direct budgetary authority at the execution level. (DoD FMR Vol 3, Ch 15)

ACCOUNTING FOR INTERNAL FUND DISTRIBUTIONS

Pre-Close Notification upon Expiration of the Period of Availability

At the end of the period of availability, all budget authority that remains undistributed to the Execution Level and all allotments received that remain unobligated, must be returned to the Intermediate and Headquarters/OSD Level for financial statement reporting.

Specifically, the recipient of an allotment, suballotment, allocation or suballocation must pre-close all unobligated funds utilizing the following accounting transactions in DoD FMR Volume 3, Chapter 15 to return the funds to the previous and original fund holder.

1. To close suballotment of budget authority within the execution level that remains unobligated upon expiration of the period of availability.

ACCOUNTING FOR INTERNAL FUND DISTRIBUTIONS

YEAR END CLOSING PROCESS

Following the end of year reporting, Treasury requires post-closing entries to be made to certain accounts. These entries are described in detail in the DoD USSGL Transaction Library, based on the overarching guidance of USSGL Supplement to the Treasury Financial Manual (TFM). The DoD USSGL Transaction Library is located on the SFIS Resources webpage at: <http://dcmo.defense.gov/products-and-services/standard-financial-information-structure/>.

Closing transactions are used to establish beginning balances for accounts that do not have posting activity during the fiscal year and to zero out account balances used to record current year activity. The following pages represent those closing entries applicable to the internal fund distribution process as defined in DoD FMR Volume 3, Chapters 13, 14 and 15.

As shown in the following table, Internal Fund Distribution accounts are closed into either account 420100.9000, Total Actual Resources – Collected, or 445000.9000, Unapportioned Authority.

FINANCIAL REPORTING

Based on Federal requirements in OMB Circular A-136, Financial Reporting Requirements, DoD FMR Vol 6B, Form and Content of DoD Audited Financial Statements, provides the guidance on the overall form and content of quarterly and annual financial statements prepared within the DoD. The DoD financial statements consist of four principal statements.

1. Balance Sheet
2. Statement of Net Cost
3. Statement of Changes in Net Position
4. Statement of Budgetary Resources

The principal financial statements and notes to the principal statements summarize financial information for individual funds and accounts. The amounts reported on the principal statements are based on specific general ledger account balances reflected in the Trial Balances submitted to DDRS. Instructions for the preparation of the principal statements are contained in Chapters 4, 5, 6, and 7 of DoD FMR Vol 6B. Reconciliations and edits used within DoD can be viewed with proper authorization in the DDRS by selecting reports from the menu and then accessing reconciliations.

The following statements are supported by the specific transactional detail and the related Trial Balances used within this Scenario.

NOTE: FINANCIAL STATEMENT LAYOUT SHOULD ALWAYS REFLECT CURRENT REPORTING GUIDANCE

ACCOUNTING FOR INTERNAL FUND DISTRIBUTIONS

Background

Department of Defense (DoD) Financial Management Regulations (FMR) Volume 3 is the authoritative source for budget execution and accounting for the availability and execution of budgetary resources across the DoD. Within volume 3, chapters 13, 14 and 15 prescribe the standards for the receipt and distribution of those budgetary resources. Specifically:

DoD FMR Volume 3, Chapter 13, *Receipt and Distribution of Budgetary Resources – Department Level*, prescribes the standards for recording receipt and subsequent distribution of budgetary resources transactions at the department, headquarters, or Office of the Secretary of Defense (OSD) level.

DoD FMR Volume 3, Chapter 14, *Receipt and Distribution of Budgetary Resources – Intermediate Level*, prescribes the standards for recording receipt and subsequent distribution of budgetary resources using the intermediate-level budgetary accounts, which are applicable to components with a funding structure that includes three (or more) component levels.

DoD FMR Volume 3, Chapter 15, *Receipt and Distribution of Budgetary Resources – Execution Level*, prescribes the standards for recording receipt and subsequent distribution of budgetary resources using the execution-level budgetary accounts.

Only those DoD components with a funding distribution structure organized into three (or more) levels are required to use the intermediate-level accounts covered in DoD FMR Volume 3, Chapter 14. For example, the DoD Services are structured organizationally into three (or more) levels, or echelons, but the Other Defense Organizations (ODOs) receive Defense-wide appropriations directly from the Office of the Under Secretary of Defense (Comptroller) (OUSDC), Program/Budget (PB) in a two tiered structure, without an intermediate level component.

Regulatory and Policy Revisions

The following scenario contains guidance that provides revisions as follows:

- (1) DoD Transaction OUSD-016-01 to close budgetary authority within the Headquarters level where distributions previously issued to intermediate or execution level components remain undistributed upon the expiration of the period of availability.

Reference(s): DoD USSGL Transaction Library, OUSD-016-01
DoD FMR Volume 3, Chapter 13, 130301

- (2) DoD Transaction OUSD-019-01 to close allotments and suballotments of budget authority within the execution level that remains unobligated upon expiration of the period of availability.

Reference(s): DoD USSGL Transaction Library, OUSD-019-01
DoD FMR Volume 3, Chapter 15, 150202

- (3) DoD Transaction OUSD-020-01 to close suballotments within the execution level that remains unobligated upon expiration of the period of availability.

Reference(s): DoD USSGL Transaction Library, OUSD-020-01
DoD FMR Volume 3, Chapter 15, 150202

- (4) Year-end closing accounts in the associated DoD Transaction Codes in the DoD USSGL Transaction Library for the following Internal Fund Distribution accounts.

DoD SGL Internal Fund Distribution Account	Year End Closing Account
454000.9000	420100.9000

Alignment to the DoD Standard Line of Accounting/Accounting Classification

The DoD Standard Line of Accounting (SLOA) is used to identify the funding source associated with an organization’s budget and to ensure accurate accounting transactions. The following SLOA and Standard Financial Information Structure (SFIS) data elements uniquely applicable to this scenario for the purpose of standard accounting and reporting of internal fund distributions and ending balances include the following as a minimum set. For implementation guidance and attribute description, refer to the SFIS Resources Page website located at: <http://dcmo.defense.gov/products-and-services/standard-financial-information-structure/>.

ACCOUNTING FOR INTERNAL FUND DISTRIBUTIONS

Accounting and Reporting for Internal Fund Distribution – OSD (Department/Headquarters) Level

DoD FMR Volume 3, Chapter 13 prescribes the standards for recording receipt and subsequent distribution of budgetary resources transactions at the department, headquarters, or Office of the Secretary of Defense (OSD) level.

This scenario begins with recording an annual appropriation of \$4,800,000 distributed to four Other Defense Organizations (ODOs) as directed by applicable public law. The funds are quarterly apportioned with one-fourth of the funds available in the current quarter and three-fourths of the funds available in subsequent quarters. The Standard Financial Information Structure (SFIS) Attribute A13 (Availability Time) indicates whether a specific amount of funding is available for execution in the current reporting period (A) or in a subsequent reporting period (S). The line of accounting applicable to this scenario includes:

Note: For illustration purposes only, an opening Trial Balance is not used in this scenario.

ACCOUNTING FOR INTERNAL FUND DISTRIBUTIONS

Accounting and Reporting for Internal Funds Distribution – Execution Level Component

DoD FMR Volume 3, Chapter 15 prescribes the standards for recording receipt and subsequent distribution (including suballotment) of budgetary resources at the execution level. The following scenario portrays the initial allotment of \$4.8 Million from OSD or a headquarters command (DoD FMR Vol 3, Ch 13) or intermediate (DoD FMR Vol 3, Ch 14) level component received at the execution level.

This scenario begins with recording an allotment received by four Sub-Allocation Holders or Other Defense Organizations (ODOs) as directed by applicable public law. The funds are quarterly apportioned by OMB prior to distribution of the allotment with one-fourth of the funds available in the current period and three-fourths of the funds available in subsequent quarters within the stated period of availability. The Standard Financial Information Structure (SFIS) Attribute A13 (Availability Time) indicates whether a specific amount of funding is available for execution in the current reporting period (A) (e.g., Quarter 1) or in a subsequent reporting period (S) (e.g., Quarters 2 – 4). The same line of accounting elements are applicable as passed down by the higher echelon from which the funds were allotted.

1. To record direct budgetary authority received by an execution level component through allotment of authority. (DoD FMR Vol 3, Ch 15)

Pre-Close Notification upon Expiration of the Period of Availability

At the end of the period of availability, all budget authority that remains undistributed to the Execution Level and all allotments received within the Execution Level that remain unobligated, must be returned to the Headquarters/OSD Level for financial statement reporting.

Specifically, the recipient of an allotment, suballotment, allocation or suballocation must pre-close all unobligated funds utilizing the following accounting transactions in DoD FMR Volume 3, Chapter 15 to return the funds to the previous and original fund holder.

1. To close suballotments received in the execution level that remains unobligated upon expiration of the period of availability.

YEAR END CLOSING PROCESS

Following the end of year reporting, Treasury requires post-closing entries to be made to certain accounts. These entries are described in detail in the DoD USSGL Transaction Library, based on the overarching guidance of USSGL Supplement to the Treasury Financial Manual (TFM). The DoD USSGL Transaction Library is located on the SFIS Resources webpage at: <http://dcmo.defense.gov/products-and-services/standard-financial-information-structure/>.

Closing transactions are used to establish beginning balances for accounts that do not have posting activity during the fiscal year and to zero out account balances used to record current year activity. The following pages represent those closing entries applicable to the internal fund distribution process as defined in DoD FMR Volume 3, Chapters 13 and 15.

As shown in the following table, Internal Fund Distribution accounts are closed into either account 420100.9000, Total Actual Resources – Collected.

DoD SGL Internal Fund Distribution Account	Year End Closing Account
454000.9000	420100.9000
457000.9000	420100.9000

FINANCIAL REPORTING

Based on Federal requirements in OMB Circular A-136, Financial Reporting Requirements, DoD FMR Vol 6B, Form and Content of DoD Audited Financial Statements, provides the guidance on the overall form and content of quarterly and annual financial statements prepared within the DoD. The DoD financial statements consist of four principal statements.

1. Balance Sheet
2. Statement of Net Cost
3. Statement of Changes in Net Position
4. Statement of Budgetary Resources

The principal financial statements and notes to the principal statements summarize financial information for individual funds and accounts. The amounts reported on the principal statements are based on specific general ledger account balances reflected in the Trial Balances submitted to DDRS. Instructions for the preparation of the principal statements are contained in Chapters 4, 5, 6, and 7 of DoD FMR Vol 6B. Reconciliations and edits used within DoD can be viewed with proper authorization in the DDRS by selecting reports from the menu and then accessing reconciliations.

The following statements are supported by the specific transactional detail and the related Trial Balances used within this Scenario.

NOTE: FINANCIAL STATEMENT LAYOUT SHOULD ALWAYS REFLECT CURRENT REPORTING GUIDANCE
