A. COST uses pre-defined cost factors and weighing coefficients, along with a user-supplied description of the contingency, to estimate the cost of an operation for a specified cost breakdown structure (CBS). The cost factors are either provided by DoD components or developed by the contractor. Users can review and change any of the factors used by a calculation. All COST calculations produce incremental costs, which are over and above budgeted peacetime operations costs.

B. COST incorporates appropriate algorithms to compute the cost of each line item in the CBS. The CBS used to report COST estimates is the same structure that has been directed for use by the Services and Agencies for reporting actual costs of contingency operations. Users can view these algorithms at any time to verify the calculations or to determine which factors were used to produce an estimate. Users can change the factors and recalculate an estimate to see the effect of the change. Cost factor tables are structured to facilitate updates, and the update process is automated to the extent feasible.

C. COST is designed to work in a joint environment. While each Component may tailor the tool to its own requirements, all the Components use the same software at the same time in a truly joint effort to build a single DoD cost estimate contingency operation. COST is one of the two joint systems, along with the Joint Planning and Execution System (JOPES), used by DoD to plan and execute contingency operations in support of crises action or campaign level
planning. The JOPES translates policy into an operation plan (OPLAN), while COST estimates the incremental cost of the OPLAN.

D. Components shall use COST to estimate the incremental operational cost for all contingency operations. Additionally, the Combatant Commands (CCMD) and Military Services will coordinate with the OUSD(C) and the Joint Staff J-8 on their cost estimates for contingency operations. The Joint Staff and Military Services will provide cost estimates based on contingency operations’ requirements. The OUSD(C) will periodically review the budget estimate to reflect actual execution experience and changes in the operational and logistics plans. Updates, as required, shall incorporate changes to the operational plan and other policy and fact-of-life that have a significant impact on the cost estimate formulated prior to actual plan implementation.

E. Based upon annual component proposed assumptions, and factor updates to the COST model, the OUSD(C) Operations Directorate will review the components’ methodology to ensure that the COST model output is properly informed based on historical execution. In addition, the OUSD(C) Deputy Comptroller (Program/Budget), or appointed designee, will convene a group of senior level component budget officials, as necessary, to review any improvements they believe are needed in the model to better reflect the functional requirements of each Service and to produce improved results. Their review will result in updates to the COST model, as required.

2305 GENERAL FUNDING RESPONSIBILITIES

230501. Service Component

Each service Component command shall collect all applicable costs related to specific contingency operations, and report these costs to the respective Military Department Senior Financial Manager for subsequent submission for consolidation to DFAS. To the extent that financing has not been provided for a contingency operation, the Department will pursue all options to obtain the additional funding required to ensure readiness of U.S. Forces is not reduced by participation in the operation.

230502. U.S. Transportation Command and the Defense Logistics Agency

Except as provided in section 2306 below, all requests for transportation or other services to a Working Capital Fund Activity, such as the U.S. Transportation Command and the Defense Logistics Agency, shall include a funding source. In the event that a Working Capital Fund activity receives a valid order (e.g., execute or deployment order or a commander of a Combatant Command operations order) that directs action without a funding source, the parent Military Department of the subordinate command receiving the services shall provide funding to finance the request.

2306 SPECIAL FUNDING MECHANISMS

230601. General

Title 10, United States Code, section 127a was revised to include special funding mechanisms operations for which funds are not provided in advance. The statute also requires that such operations be so designated and identified by the Secretary of Defense to the Congress. When
an operation is so designated, DoD Components immediately shall notify subordinate organizations. Also, DoD Components shall establish procedures and controls for these special funding mechanisms.

230602. Special Funding Mechanisms Participating Units

Units participating in such designated operations may not be required, under certain conditions, to reimburse (provide funded customer orders to) Working Capital Fund organizations for goods and services at the time such goods and services are ordered. These procedures apply only to units actually participating in the covered operation, and only to requirements that are directly attributable to the operation; would not have been incurred but for the operation; and have not been financed previously through an appropriation, supplemental funding, reprogramming, or a reallocation of existing appropriations.

230603. General Restrictions

The following general restrictions apply since the Department is not relieved of the legal restrictions of the Antideficiency Act, and because Working Capital Fund cash must remain positive under these legal restrictions. Prior to acceptance by a Working Capital Fund activity of an unfunded customer order, the commander of the Working Capital Fund activity involved shall determine that the unfunded customer order can be filled without incurring a violation of an Antideficiency Act. If filling the requested goods or services, without a funded customer order, would result in a violation of the Act, the Working Capital Fund activity shall notify the requesting DoD Component either to issue a funded order or arrange for the transfer of sufficient Working Capital Fund cash to the supporting Working Capital Fund activity to cover the requested service or supplies.

230604. Working Capital Fund Activities

When a participating unit of the U.S. Armed Forces orders goods or services from a Working Capital Fund activity and those goods or services meet the criteria addressed in paragraphs 230602 and 230603 above, the unit providing the unfunded customer order to the performing Working Capital Fund activity must, in each such request, notify the performing Working Capital Fund activity that the order, or specified portion thereof, is in support of a designated operations and that a funded customer order for the goods or services is not required.

230605. Working Capital Fund Activity Unfunded Customer Orders

The Working Capital Fund activity filling the unfunded customer order separately shall account for all such unfunded customer orders filled and separately report those costs, on a monthly basis, to the DoD Component Senior Financial Manager of the requesting activity. The DoD Components’ Senior Financial Manager shall report separately the cumulative amounts of such unfunded customer orders to DFAS in accordance with provisions contained in this chapter. In accordance with 10 U.S.C. 127a, such amounts shall be accounted for separately and will be used to determine the amounts required to be transferred to the Working Capital Fund activities in order to restore balances to previous levels.
230606. Working Capital Fund Priorities

In order to ensure that the cash reserves of any Working Capital Fund activity are used for the highest priority requirements, the commander of the Working Capital Fund activity shall notify the Principal Deputy Under Secretary of Defense (Comptroller), in writing, and wait 5 workdays before filling the unfunded customer order.

230607. Guidance on Reporting

As needed, the OUSD(C) will provide additional guidance on reporting the use of this authority for designated operations that become eligible for the special funding mechanisms available under 10 U.S.C. 127a.

2307 COST COLLECTION

230701. Special Program Codes

Upon being alerted of an impending contingency operation, each participating DoD Component shall establish a unique special program code to capture costs. The OUSD(C) Operations Directorate shall issue a Standard Financial Information Structure (SFIS) code for contingency operations. The SFIS Values Library Service webpage maintains a list of contingency codes at https://beis.csd.disa.mil/sfis-lib/sf_lib_combo.xml. Additionally, the Joint Staff shall issue a three-digit CJCS Project Code, which provides precedence for supply requisitions and facilitates cost capturing and reporting.

230702. Accounting System(s)

Each organization that supports a contingency operation shall capture related obligations and disbursements in its accounting system(s) at the lowest possible level of the organization. This provides tracking of obligations and disbursements for affected appropriations.

230703. Costs Related to Contingency Operations

Costs related to a contingency operation may be incurred both in the area of responsibility and in other locations. It is the responsibility of the organization that incurs costs in support of the operation, directly or indirectly, to ensure that information on all costs is transmitted to the appropriate DoD Component Senior Financial Manager for forwarding to DFAS, as appropriate.

230704. Cost Accounting Systems

Cost accounting systems shall not be established solely for the purpose of determining costs for contingency operations, but the data from existing systems shall be used as applicable.

230705. Incremental and Billable Costs

DoD Component Senior Financial Managers shall determine incremental and billable costs.
2308 COST REPORTING

230801. Cost Reporting Requirements

Cost reports, SFs 1080, and substantiating documents shall be submitted through the DoD Component Senior Financial Manager to DFAS. Component submissions shall be initiated in sufficient time to arrive at DFAS not later than 30 days following the month in which the cost occurs. Costs shall be reported only by the DoD Component Senior Financial Manager that incurs the cost against appropriated funds. Submissions to DFAS for reporting and billing shall be approved by the DoD Component Senior Financial Manager. See Annex 1 for the standard data reporting format for preparation of the Contingency Cost Report.

230802. DoD Component Inclusions

The DoD Component cost reports shall include all costs, including Working Capital Funds costs (common user/Component unique), that are collected in the accounting or cost accounting system. The Services shall reimburse the Working Capital Funds activity for costs, and separately reflect such costs in their cost reports.

230803. Monthly Consolidation Cost Reports

On a monthly basis, DFAS will consolidate the costs reported provided by the DoD Components and provide reports to the offices of the OUSD (Comptroller), Component Command comptrollers, DoD Component Senior Financial Managers and others, as required, no later than 15 days after receipt from the DoD Components.

2309 DETERMINING COST

The following guidelines are provided to assist the DoD Components in determining baseline and incremental costs for contingency operations.

230901. Baseline Costs

Baseline costs are the continuing annual costs of DoD operations funded by the operation and maintenance and military personnel appropriations. Essentially, baseline costs are those costs that would be incurred whether or not a contingency operation took place, i.e., programmed and budgeted costs. Examples include: scheduled flying hours, steaming days, training days, and exercises.

230902. Incremental Costs

Incremental costs are additional costs to the DoD Component appropriations that would not have been incurred had the contingency operation not been supported. Incremental costs do not include the cost of property or services acquired by the Department that was paid for by a source outside the Department or out of funds contributed by such a source. The costs of investment items, construction costs, and costs incurred to fix existing shortcomings can be categorized as incremental expenses only if the expenditures were necessary to support a contingency operation and would not have been incurred in that fiscal year in the absence of the contingency requirement. Costs incurred beyond what was reasonably necessary to support a
A contingency operation cannot be deemed incremental expenses, since such costs are not directly attributable to support of the operation. The following are examples of allowable incremental costs:

**A. Military entitlements such as premium pay, hazardous duty pay, family separation allowance, or other payments made over and above the normal monthly payroll costs.**

**B. Increases in the amount of allowances due to changes in geographic assignment area due to a contingency (i.e., Basic Allowance for Subsistence (BAS) or Basic Allowance for Housing (BAH)).**

**C. Travel and per diem of active military personnel and costs of Reserve Component personnel, called to active duty by a federal official, who are assigned solely to support the contingency.**

**D. Overtime, travel, and per diem of permanent DoD civilian personnel in support of a contingency.**

**E. Wages, travel, and per diem of temporary DoD civilian personnel hired or assigned solely to perform services supporting the operation.**

**F. Transportation costs of moving personnel, material, equipment, and supplies to the contingency or contingency staging area, including such things as port handling charges; packing, crating and handling charges; first and second destination charges.**

**G. Cost of rents, communications, and utilities that is attributable to the contingency. Examples of such incremental costs include: telephone service, computer time, satellite time, and crypto-traffic support of the contingency.**

**H. Cost of work, services, training, and material procured under contract for the specific purpose of providing assistance in a contingency.**

**I. Cost of material, equipment, and supplies from regular stocks used in providing directed assistance. Material, equipment and supplies from stock shall be priced at the standard prices that are used for issues to the DoD activities. Included in this category will be consumables such as field rations, medical supplies, office supplies, chemicals, cleaning and toilet supplies, petroleum, and items ordinarily consumed or expended within 1 year after they are put into use. Material, equipment and supplies determined to be excess to the departmental requirements may be made available for transfer under excess property disposal authority without reimbursement. In these instances, however, accessorial charges for packing, crating, handling, and transportation shall be added where applicable.**

**J. Costs incurred that are paid from trust, revolving, or other funds, and whose reimbursement is required.**

**K. Replacement costs of attrition losses directly attributable to support of the operation.**
L. That portion of equipment overhaul and maintenance costs when computed on a fractional use basis when the additive cost attributable to the contingency can be identified.

M. Cost of increased flying hours in excess of the level of flying hours otherwise programmed and budgeted for, except that, in the case of foreign disaster relief undertaken under the authority of 10 U.S.C. 2561 or similar authority funded by the OHDACA appropriation, and within specific parameters authorized by the Secretary of Defense, all flying hour costs shall be included for flights made for the primary purpose of providing the disaster relief.

N. Service specific costs for increased OPTEMPO, such as steaming costs for the Navy. Such costs, however, require individual determinations. Reported incremental costs shall reflect, as closely as possible, the actual incremental costs incurred by the unit involved in the specific operation, using cost factors for the specific command or geographic area, when available, as compared to composite cost factors for the overall DoD Component.

230903. Cost Offsets

In some instances, costs for which funds have been appropriated may not be incurred as result of a contingency operation. Examples include: basic allowance for subsistence not paid, training not conducted, and base operations support not provided. In other situations, identified incremental costs may be offset in various ways, such as supply turn-ins for items not used or placed in inventory, and non-monetary contributions, such as free fuel. See Chapter 3 of this volume for reporting non-monetary contributions. These offsets shall be accurately documented and reported at the cognizant organization levels to maintain adequate accountability for reporting and audit purposes.

230904. Guidance/Instructions

Each DoD Component shall ensure that detailed guidance is disseminated to the appropriate subordinate organization levels to ensure the accuracy and reporting of costs.

A. Acquisition Requirements. For contingency operations involving extended deployment of equipment and/or the consumption of materials, leading to the depletion of war reserve stock, a Component may request funding for such procurement items directly related to the prosecution of operations as approved by OUSD(C). In general, it is anticipated that procurement costs intended to replace consumed equipment or material, will be associated with “Campaign Level Contingency Operations” characterized as military deployments of extended duration and involving the utilization of significant numbers of combat elements of the Services.

1. Cost Estimating. The replacement and reconstitution of equipment, munitions, and other end items related to the contingency operation will be handled on an exception basis. OUSD(C) will request the submission of exhibits indicating the level of consumption, cost, quantities to be procured, inventory objectives, and similar financial and programmatic data necessary to assess the requirement. OUSD(C) will provide additional instructions regarding submission of recapitalization costs at an appropriate time.

2. Major Platforms. For major platforms, the Component must demonstrate that the end item is directly associated with current operations. The request should not contain funding to support accelerations of baseline procurement end items unless specifically
approved by OUSD(C). Components will not include estimates for future combat losses in their request.

3. **Funding Requests for Procurement Funds.** Funding requests for procurement programs should not exceed the numerical quantity that would deliver in a normal funded delivery period for that item. Furthermore, for most situations, a Component should not request funding for obligations expected to occur beyond the current fiscal year.

4. **Funding Requests for Research, Development, Test, and Evaluation (RDT&E) Funding.** In limited circumstances, a Component may request funding for the development of technologies that can be fielded in support of an on-going operation if the delivery of such technology can be introduced into the area of operations in time to benefit the prosecution of the operation. In such a case, the Component may request RDT&E funding.

5. **Funding Requests for Military Construction Funding.** In limited circumstances, a Component may request funding for military construction projects which support an ongoing operation. This may be appropriate if the completion of such a structure can be introduced into the area of operations in time to benefit the prosecution of the operation. In such a case, the Component may request funding.

6. **Funding Requests for Working Capital Funds or Other Revolving Funds.** In limited circumstances, a Component may request funding for Working Capital Fund and other revolving funds which support ongoing operations if such funding is directly related to the operations.

7. **Acquisition Obligation Reporting.** Obligations for acquisition requirements will be codified under the cost categories (Contingency Cost Breakdown Structure (CBS)) listed in Annex 4 of this chapter. Components will report to DFAS all obligations incurred in procurement, RDT&E, Working Capital, or Military Construction appropriations on a monthly basis as addressed in section 2308 of this chapter.

B. **Cost Reporting.** Reporting is an integral part of the Department’s stewardship. Components must make every effort possible to capture and accurately report the cost of the contingency operation. Components are required to report the obligation of all funds (regardless of source) to cover the incremental costs of the contingency, including funds received in a supplemental. Each Component will develop and publish a Standard Operating Procedure (SOP) or other supplemental guidance that will cover Component specific items for cost reporting, under this chapter and validating monthly reporting. At a minimum, the SOP should cover:

1. **Data Source.** This section should outline the acceptable procedures and methodology used for capturing costs by CBS category. All sources of data collected for reporting costs should be identified, to include source accounting systems, in-house tracking methods, and supporting documentation. If costs are not captured by CBS category, then the methodology of cross-walking data to the CBS category should be documented.

2. **Validation.** Components will review and validate their reported costs as accurate and a fair representation of ongoing activities on a monthly basis. As a part of this review, the variance analysis, discussed below, will be included. Significant changes from the prior month will be summarized and reported to the OUSD (C) Operations Directorate. The SOP
must include auditable methodology for determining the portion of war-related or other contingency costs attributable to each contingency operation when actual cost by operation is not available.

3. **Variance Analysis.** Each Component is required to provide an analysis, in the footnotes of the report, of all significant variances to the OUSD(C) Operations Directorate. The analysis should address: Cause of variance (describe the action that caused the costs to increase or decrease), factors affecting the variance (what are the values of the related factors that impacted the changes), purpose and effect of the action; and organization or activities that are/were affected by these actions. Additionally, a point of contact should be identified to explain changes in the established variances.

For example, a fluctuation in Imminent Danger Pay might be:

“XX% variance due to Scheduled Operation FREEDOM’S SENTINEL brigade troop rotation.”

An example for an increase in operating costs might be:

“YY” number of troops deployed at a cost of “ZZ.”

Each Component should establish additional criteria for validation and analysis, based on their requirements. Each component is required to retain documentation of their monthly variance analyses and data validations.

* 4. **Reporting Guidance.** The OUSD(C) and DFAS will notify the Components of new or special reporting requirements, as well as, provide instructions and guidance for data collection and changes to reporting requirements such as threshold percentages for variance analysis, suspense dates for monthly submissions, and required reviews and validation of reported costs. The Component will consult with the OUSD(C) before opting to include or exclude an incremental contingency related cost in its cost reporting when it deviates from this volume or current reporting guidance. Additional guidance and instructions for reporting costs (e.g., cost of war, disaster relief, humanitarian assistance, and other contingencies) are posted on the OUSD(C) guidance website at [https://guidanceweb.ousdc.osd.mil/OCO.aspx](https://guidanceweb.ousdc.osd.mil/OCO.aspx).

* 5. **Documentation.** Components will perform an annual review of the methodologies used by subordinate commands in reporting costs by contingency operations. No later than November 30th of the calendar year, the Components will provide an electronic copy of their current SOP to the OUSD(C) Operations Directorate.

C. **Cost Capture**

1. Each organization supporting a contingency operation is required to capture and report all related obligations and disbursements at the lowest possible level of the organization. Actual costs, as reflected in the accounting systems or subsidiary accounting records, should be reported. This activity provides tracking of obligations and disbursements for affected appropriations.

2. It is up to the DoD Component to develop adequate measures to allow for capturing actual costs from the official accounting records. Procedures could include
establishing unique coding or establishing subsidiary accounting records for use during the contingency operations that will allow it to provide accurate reports to the Department’s cost breakdown structure (CBS). When actual costs are not available, an auditable methodology should be established and documented for capturing costs.
230905. Program Resource Collection Process (PRCP)

   A. The PRCP is the primary management and assessment tool used by OUSD(C) and Office of Management and Budget (OMB) to manage and assess all OCO requirements.

   B. The PRCP system is used to collect, validate, and report budget data. It generates the appropriation budget justification books commonly known as the M-I, Manpower Programs; O-1, Operations Programs; C-1, Construction Programs; P-1, Procurement Programs; and R-1, RDT&E Programs. It supports automated collection and reporting for other budgetary exhibit such as the OP-8, Civilian Personnel Costs; OP-32, Summary of Price and Program Growth; and PB-22 Major DoD Headquarters Activities.

   C. “Ask OCO” can be found within the “Web-PRCP” and is designed to provide answers to the most critical budget questions regarding OCO.

   D. By using “Ask OCO”, analysts are able to extract PRCP data in an intuitive format. The data is formatted into a series of reports designed to answer frequent questions that are not easily answered by other budgetary tools. These reports provide analysts with data based on the latest budget position.

230906. Justification Materials for Budget

This section addresses the requirement to budget for OCO incremental operational costs. This information is used to justify resource requirement for directed OCO – specifically the justification of the incremental costs for supporting a designated operation. These incremental costs will become the basis for any funding requests forwarded to the Congress through normal appropriations process or through emergency supplemental appropriation requests during the year of execution, if warranted.

   A. The OCO budget submission is reviewed in concert with the baseline budget submission.

   B. All Components are required to submit justification materials to support OCO budget estimates. In order to ensure that the requested funding is defensible and that the submitted data and justification material complies with congressional requirements, each Component is required to submit the contingency operation budget exhibits using the formats outlined in the respective appropriations. Components should consult chapters as applicable. Refer to Volume 2A, Chapter 1, general guidance and the specific volumes listed below:

      1. Military Personnel. Refer to Volume 2A, Chapter 2, Military Personnel, for appropriation details. For specific details, contact the designated appropriation analyst.

      2. Operation and Maintenance. Refer to Volume 2A, Chapter 3, Operation and Maintenance, for appropriation details. For specific details, contact the designated appropriation analyst.
3. **Procurement.** Refer to Volume 2A, Chapter 4, Procurement, for appropriation details. For specific details, contact the designated appropriation analyst.

4. **Research, Development, Test and Evaluation (RDT&E).** Refer to Volume 2B, Chapter 5, Research, Development, Test and Evaluation, for appropriation details. For specific details, contact the designated appropriation analyst.

5. **Defense Working Capital Fund.** Refer to Volume 2B, Chapter 9, for appropriation details. For specific details, contact the designated appropriation analyst.

2310 BILLING

231001. General

DoD Components determine their billable incremental costs. Billable incremental costs will be less than the full incremental cost when the performing DoD Component has determined to supplement or enhance their support beyond the level agreed to by the requesting organization. The DoD Component headquarters are responsible for transmitting to DFAS, on a monthly basis, a Contingency Operations Cost Report, standardized SF 1080 for each UN Letters of Assist (UNLoA) or incurred cost for which payment is requested, and sufficient supporting documentation such as receipts, invoices, copies of requisitions approved by the organization supported (e.g., UN, State Department, or other), when required by the billed organization.

A. DFAS is designated to administer centralized billing and reimbursement distribution activities in support of contingency operations. For the billing function, DFAS shall consolidate the bills from the Components for monthly transmittal to the U.S. Mission to the UN (USUN) or other organizations, as required, along with copies of the Component Contingency Cost Reports. In addition, DFAS shall prepare a monthly status report on amounts billed and reimbursements received for each applicable peace operation. Only billable costs shall be submitted to applicable agencies or international organizations in accordance with the provisions of sections 607 and 630 of the Foreign Assistance Act (FAA), other applicable U.S. statutes, and requirements of the organization being billed.

B. The billing information transmitted by the DoD Components shall include sufficient supporting documentation to satisfy the payee of the validity of the charges. Detailed lists of transactions supporting the amount billed shall be included with each bill rendered.

C. With respect to services and commodities provided under section 607 of the FAA, the Department may spend only those reimbursements received within 180 days after the end of the fiscal year in which the costs were incurred. Payments received subsequent to the 180 days shall not be available to defray the costs already incurred by the Department in providing the requested assistance. Payments received for assistance provided under the UN Participation Act and unsolicited payments received from the UN for UN Determined Costs for Participating Troops to UN peacekeeping operations shall be credited to the account or accounts that incurred the costs being reimbursed or the accounts currently available for such purposes. Given the legal restrictions on the use of reimbursed expenses, and to ensure timely recoupment of reimbursable costs to the Department, it is incumbent that each DoD Component identifies and reports on a timely basis all reimbursable billable expenses to DFAS with sufficient supporting documentation as required by the billed organization.
231002. DoD and Non-DoD Transportation Rates for Contingency Operations

DoD airlift provided in support of UN peacekeeping support, and foreign disaster relief efforts shall be billed at the DoD transportation rate (http://www.dtic.mil/comptroller/rates/). This rate is comparable to commercial rates for similar transportation services. Charges for DoD airlift transportation support provided to other U.S. government agencies pursuant to the Economy Act, 31 U.S.C. 1535, shall normally be billed at the non-DoD rate.

231003. United Nations Process

The UN reimburses contributing countries for the costs of their activities in accordance with its standard procedures as covered in the UN Guidelines to Contributing Governments, Aides-Memoire to the agreement, Notes Verbal, and specific and general LoAs. The UN should approve all elements of national contributions and the extent of reimbursement prior to an actual deployment, if possible. Therefore, activities undertaken, troops deployed, or costs incurred for items which are not agreed to in advance by the UN, as identified and detailed in the Guidelines, Aides-Memoire, Notes Verbal, or specific or general LoAs, normally will not be reimbursed by the UN. Only expenditures in support of an operation approved by the UN Security Council, and authorized by the General Assembly as a legitimate charge to the UN, are eligible for reimbursement. Costs related to deployment and sustainment of forces and equipment, and rotation of personnel (but not equipment) of contributing countries, based on prior agreement with the UN, are eligible for reimbursement by the UN through UN standing procedures. Financial responsibilities normally shall be included as part of the agreement between the contributing countries and the UN and shall include the details of the financial responsibilities of each party. The U.S. position normally is negotiated by the Department of Defense in coordination with the Department of State. Since costs billable to the UN may differ from the incremental costs incurred, both shall be reported. The following addresses billing procedures and allowable costs for each major type of financial arrangement.

A. UN Letters of Assist (UNLoA)

1. A UNLoA is a document, issued by the UN to a contributing government, which authorizes that government to provide goods or services to the UN. A UNLoA typically details specifically what is to be provided by the contributing government and establishes a funding limit that cannot be exceeded for that specific UNLoA. General support UNLoAs can be negotiated with the UN, if such UNLoAs are advantageous to both parties, to cover more generic categories such as subsistence, POL, sustainment, and spare parts. The UNLoAs are considered by the UN to be contracting documents and shall be signed and issued by an authorized UN official. More than one item can be included in a UNLoA.

2. The approved UNLoA is issued by the UN to the U.S. Mission to the UN (USUN) where it is acted on by the Military Advisor to the Ambassador. The Office of the Military Advisor (USUN/OMA) determines the appropriate U.S. agency (DoD or State) to receive the request. For the Department of Defense, all requests should be forwarded to OUSD(P) for approval and action. The Office of the USD(P) shall determine the appropriate action organization, and will provide a copy of the UNLoA to that organization and DFAS. DFAS is responsible for maintaining a status report on all active LoAs.

3. The UNLoA is not considered a funded order, and the UN ordinarily does not provide an advance of funds for the value of the request. Therefore, an UNLoA shall not
give a DoD Component any additional obligational authority to accomplish the order. The appropriate action office in the DoD Component shall accomplish the action using existing operation and maintenance funds or other appropriated funds, and prepare an SF 1080 bill for the cost of the goods or services provided, referencing the appropriate UNLoA. No Working Capital Fund is authorized to be used to support these operations when funds are not provided to the Working Capital Fund activity. The SF 1080 is forwarded to DFAS along with sufficient detailed documentation and a Contingency Operations Cost Report to support the bill. All bills shall include adequate documentation for accountability and certification. DFAS shall verify the UNLoA number and item for which a bill is being submitted, summarize these in a separate attachment, and forward the bill to the USUN Mission for submission to the UN.

B. Non Letters of Assist - U.S. Invoiced Costs. These include recoverable costs of specific support or items requested by the UN, or approved by the UN, in support of a peace operation mission for which a specific itemized bill can be submitted to the UN based on the Aide-Memoire guidelines for participating countries, as described below.

1. Predeployment Actions. Preparation of personnel and equipment for deployment is the responsibility of the contributing country, and includes all preparation costs involved to get the personnel or equipment to the point of embarkation. Billing the UN for reimbursement of these expenses will be based on advance negotiations with the UN. Costs associated with preparing authorized equipment to additional standards defined by UN for deployment to a mission (such as painting, UN marking, winterizing) are the responsibility of the UN. Similarly, costs for returning authorized equipment to national stocks at the conclusion of a mission (such as repainting to national colors) also are the responsibility of the UN. Costs shall be assessed and reimbursed on presentation of a claim based on the authorized equipment list contained in the contribution agreement.

2. Deployment and Redeployment Actions. Transportation to and from the mission area normally shall be by airlift or sealift, as required. Normally, the UN will organize all deployments and redeployments. These activities may be organized by the troop contributing government, but the arrangements must be agreed upon by the UN in advance. All transportation to be provided by the troop contributing country should be coordinated and approved by the UN. If reimbursement is requested, it shall be made only up to the amount it would have cost the UN to accomplish the move.

3. Self-Sustainment. The UN normally is required to provide services to troop-contributing countries. Should the UN not be able, or not wish, to provide the services, it can request a troop-contributing country to provide those services. Services which the UN can request are set out in the UN Contingent-owned Equipment Manual and Procedures (these include services such as catering, communications, minor engineering, explosive ordnance disposal, laundry and dry cleaning, tentage, medical, NBC protection, and other services). Only those services specifically requested will be reimbursable monthly at the indicated rate, on a troop strength basis, to the limits indicated in the agreement with the troop-contributing country.

4. Major Equipment, Minor Equipment and Consumables Reimbursement. Reimbursement for major equipment is provided under established rates whereby the contributing country is reimbursed for both equipment and maintenance (wet lease), or for equipment only, with the UN assuming responsibility for maintenance (dry lease). Minor equipment and consumables are reimbursed as self-sustainment based upon troop strength.
Reimbursement is dependent upon verification that the major equipment, and associated minor equipment and consumables, provided meet the undertaking of the troop-contributing country in its agreement with the UN. The UN has established performance standards so that it can verify that a troop-contributing country has met its obligations and that equipment provided is in acceptable operational order.

5. **Arrival Inspection.** An arrival inspection will occur immediately upon arrival, and should be completed within one month. Major equipment will be inspected to ensure that categories, groups, and number delivered correspond with the bilateral agreement and are operational. A troop-contributing country representative should explain and demonstrate the agreed self-sustainment capability. Self-sustainment will be inspected with a view to an assessment of the operational equipment and services. The UN will give an account of the services to be provided in the agreement.

6. **Operational Readiness Inspection.** This inspection of the contingent in the mission area shall be conducted at least once during every 6-month period, or any time when the USUN Mission believes that the equipment or services do not meet standards. The condition of the major equipment shall be inspected, and self-sustainment capability ascertained with a view to assessing whether the sustainment capability is sufficient and satisfactory.

7. **Repatriation Inspection.** This inspection shall account for all major equipment of the troop-contributing country to be repatriated and verify the condition of the major equipment provided under the “Dry Lease” arrangement. The inspection also shall ensure that no UN owned equipment is part of the equipment repatriated.

8. **Reporting Procedures.** The USUN Mission shall report to the UN Headquarters the results of all inspections. The reports shall indicate shortcomings in equipment and self-sustainment, and efforts made at mission level to rectify the situation and to bring the contingent in line with the terms of the agreement. Each month the Mission shall submit a report to the Secretariat confirming the mission strength. The monthly report shall indicate the condition of major equipment and self-sustainment.

9. **Deployment, Redeployment and Rotation.** The UN is responsible for the deployment and redeployment (including regular rotation) of contingent personnel authorized in the Contribution Agreement. The UN normally will make the necessary arrangements with the troop-contributing country and appropriate carriers. When a troop-contributing country offers to provide transportation, the UN may request the troop-contributing country to provide the transportation to and from the mission area under the terms of an UNLoA. The cost for rotation of troops is normally reimbursed on a 6-month basis. Rotation of equipment will not be reimbursed since it is assumed equipment will stay in the area of operation for the length of the operation.

C. **Leases.** Leases to the UN shall be managed by the DSCA, which also is responsible for developing requested Price and Availability data to include preparation and transportation costs, with applicable input from the affected Military Component. Development of leases for DoD equipment (major end items) shall follow normal procedures in Security Assistance Management Manual, Chapter 12, which are governed by the Arms Export Control Act (AECA). Payments from the UN related to the true lease of equipment, as governed by the AECA, revert to the miscellaneous receipts account of the U.S. Treasury. Ancillary costs related to the lease, such as
preparation and shipment costs, are governed by section 607 of the FAA, as are the provision of support and services associated with a lease. Reimbursements or payments received under section 607 authority may be credited back to the Component providing the goods or services if reimbursement is received within 180 days after the end of the fiscal year in which the support was provided. Otherwise, these payments revert to the U.S. Treasury.

D. UN Determined Costs. The UN provides reimbursement at standard rates established by the General Assembly in respect to pay and allowances of military personnel detailed or assigned to the UN to participate in a UN operation. The UN reimburses participating countries without a specific request for payment. The UN determines the number of troop days for which payment will be made based upon USUN Mission reporting of troop strength. No billing is required.

1. Payments by the UN are made directly to DFAS. The State Department receives notification from the UN of a pending reimbursement. Prior to reimbursement by the UN, the State Department transmits this information to the Office of the USD(P), along with the operation(s), time covered, and number of troop months allowed by the UN. The UN estimate is validated by the Joint Staff and the Service Components and directions are provided to the UN through the State Department regarding disposition of the reimbursement.

2. Upon validation of the estimate, the UN processes two checks: one to the DoD (DFAS) at an approved rate per person/month, as determined by the OUSD(C), to cover the incremental military personnel and related costs incurred by the DoD; and a second to the State Department, representing the difference between the UN standard rate and the amount paid to the Department of Defense. For distribution of the DoD funds, Office of the USD(P) makes an assessment of DoD Component manpower deployed during the timeframe covered by the UN payment, and directs DFAS to make the appropriate distribution to the DoD Components, as applicable.

2311 REIMBURSEMENT/DISTRIBUTION

UN Process. Within 90 days of receipt of an SF-1080 and supporting documentation from the USUN Mission, the UN will confirm with the appropriate UN organization that the goods or services were received, consolidate payment, and forward a check to DFAS. DFAS will distribute funds to appropriate recipients.

2312 NONCOMBATANT EVACUATION OPERATIONS (NEO)

*231201. Protection of U.S. Citizens and Nationals

A. NEOs are conducted to assist the DoS in evacuating U.S. citizens, DoD civilian personnel, and designated host nation (HN) and third country nationals (TCN) whose lives are in danger from locations in a foreign nation to an appropriate safe haven. The United States Government (USG) will consider evacuating TCNs and host country nationals on a case-by-case, space available, and reimbursable basis. Although normally considered in connection with hostile action, evacuations may also be conducted in anticipation of, or in response, to any natural or man-made disaster.
B. Upon receipt of a request from the President, or the Department of State, the Department will protect U.S. citizens and nationals and designated other persons, and assist in evacuating these persons from threatened areas overseas. In accordance with Executive Order 12656, as amended on February 9, 1998, the Department is authorized to deploy and use military forces to protect U.S. citizens and nationals and designated other persons in support of their evacuation from threatened areas overseas. The Department of State has the lead responsibility for such evacuations.

231202. Memorandum of Agreement (MOA)

The MOA between the Departments of State and Defense, “DOS/DoD Cost Responsibility Matrix and Definitions,” dated September 2, 1997, defines departmental cost responsibilities when an evacuation occurs. The content of the MOA is included at Annex 3 and shall be used to determine all NEO cost responsibilities. In general, DoD will fund protection-related costs and DOS will fund evacuation-related costs. The DoD Component supporting the protection operation shall fund the costs of its deployment, unless otherwise specified.

231203. Cost to Transport DoD Noncombatants

In accordance with 31 U.S.C. 1535 (the Economy Act), all costs incurred by the DoD to assist in evacuating personnel from threatened areas are billable and reimbursable, except for the costs to transport DoD noncombatants to safe havens. If, however, the Department of State incurs costs for transporting DoD noncombatants to safe havens, the applicable DoD Component shall reimburse the Department of State for those costs.

231204. Contingency Operations Cost Report

After the evacuation is completed, the finance and accounting office of the supporting DoD Component shall collect the cost data and submit the following documents, through its Component Senior Financial Manager, to DFAS: an SF-1080 for all reimbursable evacuation costs, supporting cost documentation (e.g., flying hours, medical costs, or food for evacuees), and a Contingency Operations Cost Report. The DoD Component shall work with the Department of State and DFAS to submit the bills for reimbursement from the Department of State, Attn: Bureau of Finance and Management Policy, Washington, DC 20520-7427.

2313 FOLLOW-UP

In the event that billed organizations require additional information relating to submitted bill(s), DFAS shall assist the billed organization to ensure that the necessary information is provided by the appropriate Component.

2314 LARGE SCALE CONTINGENCIES

231401. Preparing Budget Estimations Guidance

DoD may be involved in a range of operations from very large to small scale contingencies. The following guidance is to be used in addition to that found throughout this regulation for purposes of preparing budget estimations, cost reporting and billing associated with large-scale, campaign level, contingency operations.
Costs Related to a Contingency Operations

During large-scale contingencies costs related to a contingency operation may be incurred in both the area of responsibility (AOR) and in other locations to include home station. Additionally, because of the scale of operations, including intense combat or long-term stability or anti-insurgency operations, expenses beyond only direct incremental costs may be appropriate on a case by case basis in written coordination with OUSD(C). They can relate directly to operations in the AOR or be required as a result or consequence of the operations such as reconstitution activities (to replenish stocks, replace battle losses, or worn equipment or systems), depot maintenance and other supporting actions. In addition, during large-scale, campaign-level contingencies, these special funding authorities are often provided by the Congress in support of the operation. These may include special Train and Equip, Coalition Support, Foreign Disaster Relief or other programs. It is the responsibility of the organization that incurs costs in support of the operation, directly or indirectly, to ensure that information on all incremental costs are captured and transmitted to the appropriate DoD Component Senior Financial Manager for forwarding to DFAS, as appropriate.

Determining Costs

Components are required to report the obligation of all funds (regardless of source) to cover the incremental cost of the contingency, including funds received in a supplemental. Baseline costs should not be reported. The following guidelines are provided to assist the DoD Components in determining baseline and incremental costs for contingency operations.

A. Incremental Costs. In coordination with OUSD(C), DoD Component Senior Financial Managers shall determine incremental and billable costs. Incremental costs are additional costs to the DoD Component appropriations that would not have been incurred had the contingency operation not been supported. Incremental costs do not include the cost of property or services acquired by the Department that was paid for by a source outside the Department or out of funds contributed by such a source. The costs of investment items, construction costs, and costs incurred to fix existing shortcomings can be categorized as incremental cost if the expenditures were necessary to support a contingency operation and would not have been incurred in that fiscal year in the absence of the contingency requirement. Costs incurred beyond what is reasonably necessary to support a contingency operation cannot be deemed reimbursable incremental expenses, since such costs are not directly attributable to support of the operation. Incremental costs may be recorded against supplemental funding, baseline funding, or any source of funds. Base budget funding diverted to pay incremental costs in support of contingency operations are not the same as baseline costs.

B. Baseline Costs. Baseline costs are the continuing annual costs of DoD operations funded by the Components base appropriations. Baseline costs are those costs that would be incurred whether or not the Component is participating in a contingency operation.

C. Service-Specific Costs. Service-specific costs for increased OPTEMPO, such as steaming costs for the Navy or Service flying hours should be determined as accurately as possible based on “official” accounting data. Such costs, however, due to the complexity of the operation may require individual determinations on a case by case basis. Reported incremental costs shall reflect, as closely as possible, the actual incremental costs incurred by the unit involved.
in the specific operation, using cost factors for the specific command or geographic area, when available, as compared to composite cost factors for the overall DoD Component.

231404. Spending Constraints

Each DoD Component shall ensure that detailed guidance is disseminated to the appropriate subordinate organization levels to ensure the accuracy and reporting of costs. The DoD Components are responsible to employ a fiduciary approach to ensure that the funds are used in a prudent manner. As operations mature, steps should be taken to evaluate and establish spending constraints.

2315 OVERSEAS CONTINGENCY OPERATIONS TRANSFER FUND (OCOTF) AND BASE FUNDED OVERSEAS CONTINGENCY OPERATIONS

231501. Overseas Contingency Operations Transfer Fund (OCOTF)

The OCOTF was established to meet operational requirements in support of emerging overseas contingency operations without disrupting approved program execution or force readiness. The OCOTF is a “no-year” transfer account that provides the Department additional flexibility to meet operational requirements by transferring funds to the Military Services and Components based on actual execution experience as events unfold during the year of execution.

231502. Base Funded Overseas Contingency Operations

Military Services and Components supporting overseas contingency operations with base funding will submit estimated base budget estimates and obligations electronically through the Select and Native Programming (SNaP) input system during program and budget reviews. Operations include but are not limited to: Bosnia Operations; Kosovo Operations; Operation NOBLE EAGLE; Operation ENDURING FREEDOM (OEF) - TRANS SAHARA; Joint Task Force Bravo – Honduras; Operation OEF-Caribbean and Central America; or other based funded contingency operations.

2316 FOREIGN DISASTER RELIEF (FDR) FUNDED BY OVERSEAS HUMANITARIAN, DISASTER, AND CIVIC AID (OHDACA)

231601. Purpose/Applicability

The purpose of this section is to provide responsibilities and instructions for the development of DoD FDR cost estimates and the request for funding or subsequent reimbursement from DSCA. In accordance with DoDD 5100.46, DoD FDR activities are conducted outside the U.S. and at the request of the U.S. Agency for International Development (USAID), when civilian capacity is overwhelmed and DoD possesses unique capabilities to support life-saving/sustaining humanitarian activities. USAID uses a Mission Tasking Matrix (MiTaM) process to request DoD support. DoD support activities align with validated expenses incurred as a direct result of providing FDR to a foreign country and which comply with the legal purposes of 10 U.S.C. 2561 or similar authority shall be paid or reimbursed with the OHDACA appropriation, as authorized by the Secretary of Defense.
231602. Responsibilities

A. The Under Secretary of Defense for Policy (USD(P)) has overall policy, guidance and management responsibility, through subordinate activities, for conducting FDR. For these contingency operations, the USD(P) is responsible for accepting requests for assistance from USG Departments and Agencies, and organizations external to the Department and responding to those Departments, Agencies, or organizations.

B. The Chairman Joint Chiefs of Staff (CJCS) issues an execute order from the Secretary of Defense, to the Commander of a Combatant Command, which gives the Combatant Commander the authority to order the Military Component into action and the authority for DoD components to expend available funds to carry out the order.

C. The Office of the Under Secretary of Defense (Comptroller) (OUSD(C)) is responsible for the overall financial oversight and determining financial responsibility for all contingency operations.

D. The Defense Security Cooperation Agency (DSCA) is responsible for program management of the OHDACA appropriation, approving FDR cost estimates in coordination with OUSDP, and issuing funds to Combatant Commands to support validated cost reimbursements.

E. The Combatant Command (CCMD) is responsible for collecting and preparing estimated costs from the DoD Components responsible for executing FDR operations within their geographic area of responsibility (AOR). The CCMD is responsible for submitting costs reports to DSCA, the OUSD(C), and others as required. In addition, the CCMD will validate and reimburse the DoD Components for incremental costs incurred in support of FDR operations.

231603. Funds Management of OHDACA Funded Operations

This section identifies specific OHDACA financial responsibilities and procedures of the CCMD and Military Services to ensure the accountability and management of OHDACA funds distributed in support of FDR operations.

A. The DSCA will work closely with OSD Policy and Comptroller to coordinate efforts across OSD, the Joint Staff, and the interagency community to provide for a common understanding of resource funding requirements for the relief mission and to focus efforts necessary to obtain additional OHDACA resources, if required, in a timely manner. The DSCA will ensure the approved amount of OHDACA funds set aside by the Secretary of Defense for CCMD FDR operations will be available to the CCMD. DSCA will also provide an OHDACA Funding Authorization Document (FAD) to the CCMD to execute the mission.

B. The CCMD has the responsibility to establish effective financial management oversight of OHDACA funds provided for the FDR operation. The CCMD will collect daily estimated costs, commitments, and obligations from the supporting components and defense agencies and will ensure that OHDACA funded operations are necessary and applicable, within authorized OHDACA purposes and fund ceilings. The CCMD will report daily funds estimates and expenditures to DSCA and the OUSD(C) Operations Directorate using the Foreign Disaster Relief (FDR) Reporting format at Annex 2.
C. The Military Component will execute the FDR operations as directed by the CCMD using their available funds, capture actual operation obligations/costs, and code transactions, as necessary, to ensure that all operational costs recorded in the accounting systems are auditable. The Military Component will request OHDACA reimbursement from the CCMD.

1. The request for reimbursement shall be traceable to its costs as included in the cost reports required under paragraph 230904 of this guidance.

2. Once the DoD Components submit their OHDACA reimbursement request to the CCMD, the CCMD will validate that the costs were incurred in direct support of the mission and comply with legal purposes for the use of OHDACA. Upon validation of these costs, the CCMD will issue an OHDACA FAD or Military Interdepartmental Purchase Request (MIPR) to the DoD Component for reimbursement.

D. In certain circumstances, a Military Component may need OHDACA funds prior to the humanitarian mission being completed. The CCMD will issue an OHDACA FAD or MIPR to the Military Component, as required.

1. The Military Component is still required to report their estimated daily costs to the CCMD and to execute funds as directed by the CCMD. The CCMD will validate that the costs were incurred to support the humanitarian mission.

2. The Military Component will report all costs as required under section 2308 of this guidance.

3. The CCMD will make every effort to reimburse OHDACA funds to the Military Component in a timely manner, so the Military Component does not lose buying power from having to utilize its current funds available.

4. The CCMD is required to submit validated cost reports for reimbursement no later than 60 days following the expiration of the Department of Defense Executive Secretary response to the request for assistance. Reimbursement requests received after the 60 day period will be reimbursed by exception based on funds availability.

Contingency: CoW (Cost of War), CRE (Contingency Response Events), or FDR (Foreign Disaster Relief)
Component: Participating DoD Military Service, Defense Agency or Combatant Command; e.g. Army
Reporting Period: e.g. October-08
Treasury Index: Treasury’s Department identifier; e.g. 57 - Air Force
Basic Symbol: Appropriation code; e.g. 2020 - Operation & Maintenance for Army
Beginning FY (yyyy): e.g. 2016
Ending FY (yyyy): e.g. 2016
Funding Category Code: For Foreign Disaster Relief Operations Only; e.g. OHDACA (Overseas Humanitarian, Disaster, and Civic Aid) and Baseline
Operation: Contingency/Disaster, Humanitarian Relief Event or Activity
BAG: Budget Account Group; e.g. 01
SAG/BLIN/PE: Sub Account Group / Budget Line Item Number / Program Element; e.g. 011C
CBS Line Item: Cost Breakdown Structure; Cost Category e.g. 1.2.1
Monthly Commitments: Blank (place holder for future use)
Monthly Obligations: e.g. 7,000.00 (Dollars)
Monthly Disbursements: e.g. 6,900.00 (dollars)
Data Source: Accounting System, Cost Model or Allocation
Comments: As needed
Annex 1 (Continued)

Additional Cost Reporting Considerations and Requirements

1. Be prepared to separately identify offsets to Reserve and Guard accounts due to Reserve/Guard call-up to active duty. Reserve personnel called to active duty shall be funded from the active duty appropriation.

2. **Depending on the operation reporting requirements, Component may be required to** separately identify other offsets (e.g., training not accomplished, base operating support not required, supplies returned/not utilized, non-monetary contributions, such as free fuel, as applicable).

3. To include dependents (per diem/transportation for NEO or safehaven support): The DoD Component military pay and permanent change of station accounts have been designated fund cites for military dependent evacuations. Related transportation costs addressed here are those from the repatriation center to the evacuees’ final safehaven locations. (If CONUS is the designated safehaven, all dependents shall be brought to a repatriation center for processing, then provided additional transportation to a final safehaven location). These costs are separate from the airlift/sealift provided by the DoD or the Department of State for noncombatants during the evacuation; those costs would be reported under Operation and Maintenance, Transportation.

4. **Be prepared to provide** the most current manpower data for inclusion into the monthly reports to provide a basis for funds distribution for potential United Nations determined cost reimbursements.

Additional information and guidance:

CCMDs will receive OHDACA funding through the Defense Agencies Initiative (DAI) or Program Budget Accounting System (PBAS) from DSCA within 48 hours of the signed Department of Defense Executive Secretary (EXECSEC) memorandum to Department of State.

CCMDs are responsible for reimbursement of all validated expenses related to an EXECSEC or Disaster Response.

1/ If other evacuation efforts are requested specifically by the Department of State, those efforts shall be billed under the Economy Act (31 U.S.C. 1535).

2/ If other protection efforts are performed during an evacuation, the associated costs shall be borne by DoD.
## Cost Breakdown Structure

### 1.1 Military Personnel

<table>
<thead>
<tr>
<th>Code</th>
<th>Description</th>
<th>Details</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.1.1</td>
<td>Reserve Components Called To Active Duty</td>
<td>The fully-burdened cost for pay and allowances for Reserve and National Guard personnel called to active duty to support a contingency operation (excludes mobilized Reserve AGRs since there is no incremental cost for their mobilization, but includes mobilized National Guard AGRs). Excludes Imminent Danger Pay, Family Separation Allowance, and Hardship Duty Pay which are accounted for in CBS codes 1.1.2, 1.1.3 and 1.1.4 and Stop Loss and Deployment Extension pays which are recorded in 1.1.7.1. Does not include TRICARE accrual costs, which for reservists, are not an incremental cost. It includes, but is not limited to Basic Pay, Basic Allowance for Housing (BAH), Basic Allowance for Subsistence (BAS), Retired Pay Accrual, government’s portion of Federal Insurance Contribution Act taxes, and all special and incentive pays not included in 1.1.2, 1.1.3, 1.1.4 and 1.1.7.1.</td>
</tr>
<tr>
<td>1.1.2</td>
<td>Imminent Danger or Hostile Fire Pay</td>
<td>When authorized by the directing authority, a monthly special pay provided to active and reserve component military personnel participating in or supporting the contingency operation.</td>
</tr>
<tr>
<td>1.1.3</td>
<td>Family Separation Allowance</td>
<td>A monthly special allowance paid to all active and reserve component personnel who are separated from their families for 30 days or more.</td>
</tr>
<tr>
<td>1.1.4</td>
<td>Hardship Duty Pay</td>
<td>Hardship Duty Pay (HDP) is a monthly special pay for both mission (HDP-M) and location (HDP-L) paid to all Active and Reserve Component personnel who are eligible based upon the appropriate designations for personnel who are at a location outside of the continental U.S. (OCONUS).</td>
</tr>
<tr>
<td>1.1.5</td>
<td>Subsistence-in-Kind</td>
<td>Includes the costs of water, food, and ice and other subsistence items (Army Class I) which are purchased expressly to support personnel engaged in or supporting the contingency operation. Does not include Basic Allowance for Subsistence (BAS) which will be reported in 1.1.1 or 1.1.8 as applicable.</td>

<td>Miscellaneous programs (e.g., Reserve Income Replacement Program, Unemployment Compensation, and Interest on Uniformed Services).</td>
</tr>
</tbody>
</table>
### 1.1.8 Active Component Overstrength

The situation where a Military Service administratively retains a military member in an active duty status beyond a previously scheduled separation from the Armed Forces or brings on additional members in a temporary status to meet wartime requirements. Includes the cost of the fully-burdened composite rate of pay, allowances, taxes, and accruals for approved active component end strength in excess of Congressional authorized manning levels while supporting a contingency operation or war. Includes personnel retained as a result of stop loss actions. Excludes Imminent Danger Pay, Family Separation Allowance, Hardship Duty Pay, Stop Loss and Deployment Extension pays which are accounted for in other categories. It includes, but is not limited to Basic Pay, BAH, BAS, special and incentive pays, Retired Pay Accrual, TRICARE accrual, and the governments portion of Federal Insurance Act Contribution taxes.

### 1.2 Civilian Personnel

#### 1.2.1 Civilian Premium Pay

Includes certain types of pay such as overtime pay, night/shift differential pay, Sunday pay, holiday pay, hazard duty pay, environmental differential pay, danger pay allowance, and allowances and differentials in foreign areas that are incurred solely as a result of the employee's participation in or support to the contingency operation. Covers premium pay for both permanent and temporary DoD civilian employees.

#### 1.2.2 Civilian Temporary Hires

Includes the basic salary and benefit costs of DoD civilian employees hired, on a temporary/nonpermanent basis, to directly support contingency operations or to provide backfill support with duty station in CONUS or OCONUS. Includes reimbursement for Working Capital Fund employees utilized in direct support of a contingency.

#### 1.2.3 MRAP Vehicles

Obligations for civilian premium pay for deployed civilians and workload peaks at mobilization/demobilization and deployment/redeployment sites in the Continental United States (CONUS).

<td>Reset Organizational Level Maintenance</td>
<td>Reset organizational level maintenance. Definition: For Operation and Maintenance activities, reset includes a series of actions taken to restore units that have participated in contingency operations to a desired level of combat capability commensurate with the units' future mission. It encompasses both maintenance and supply activities that restore and enhance combat capability to unit and pre-positioned equipment that was destroyed, damaged, stressed, or worn out beyond economic repair due to combat operations by repairing, rebuilding, or procuring replacement equipment. These maintenance and supply activities involve both recapitalization and Depot and Field Level repairs/overhauls centrally managed to specified standards. Included are Procurement and Operation and Maintenance funded major repairs/overhauls and recapitalization (Rebuild or Upgrade) that enhance or restore existing equipment inventories through the insertion of new technology or restoration of selected equipment to a zero-miles/zero-hours condition. Reset includes replacement of equipment lost during operations in theater.</td>

### 6.1 Procurement

<p>| 6.1.1 | Aircraft Procurement | The obligation of funds in the Components aircraft procurement accounts that include actions taken to restore units to a desired level of combat capability commensurate with the unit’s future mission. It encompasses procurement activities that restore and enhance combat capability to unit and pre-positioned equipment that was destroyed, damaged, stressed, or worn out beyond economic repair due to combat operations by procuring replacement equipment. Included are Procurement funded major repairs/overhauls and recapitalization (Rebuild or Upgrade) that enhances existing equipment through the insertion of new technology or restores selected equipment to a zero-miles/zero-hours condition. |
| 6.1.1.1 | Aircraft Procurement Reset | Includes the obligation of funds in the Components aircraft procurement accounts, incurred in support of a contingency operation for reset. See CBS Code 3.5.1.2 and 6.1.7 for reset definition. |
| 6.1.1.2 | Aircraft Procurement Non-Reset | Includes the obligation of funds in the Components aircraft procurement accounts, incurred in support of a contingency operation excluding reset. Included are purchases of specialized, theater-specific equipment or operationally required modifications to equipment used in theater or in direct support of combat operations. |
| 6.1.2 | Munition Procurement | The obligation of funds in the Components munitions procurement accounts that include actions taken to restore units to a desired level of combat capability commensurate with the unit’s future mission. It encompasses procurement activities that restore and enhance combat capability to unit and pre-positioned equipment that was destroyed, damaged, stressed, or worn out beyond economic repair due to combat operations by procuring replacement equipment. Included are Procurement funded major repairs/overhauls and recapitalization (Rebuild or Upgrade) that enhances existing equipment through the insertion of new technology or restores selected equipment to a zero-miles/zero-hours condition. |</p>

<td>Reset</td>
<td>Includes the obligation of funds in the Components procurement accounts, incurred in support of a contingency operation for reset. Definition: For Procurement activities, reset includes a series of actions taken to restore units that have participated in contingency operations to a desired level of combat capability commensurate with the units' future mission. It encompasses both maintenance and supply activities that restore and enhance combat capability to unit and pre-positioned equipment that was destroyed, damaged, stressed, or worn out beyond economic repair due to combat operations by repairing, rebuilding, or procuring replacement equipment. These maintenance and supply activities involve both recapitalization and Depot and Field Level repairs/overhauls centrally managed to specified standards. Included are Procurement and Operation and Maintenance funded major repairs/overhauls and recapitalization (Rebuild or Upgrade) that enhance or restore existing equipment inventories through the insertion of new technology or restoration of selected equipment to a zero-miles/zero-hours condition. Reset includes replacement of equipment lost during operations in theater.</td>
</tr>
<tr>
<td>6.1.8</td>
<td>Joint Counter IED</td>
<td>Obligations incurred to procure, modify, upgrade or replace equipment to defeat or counter the use of improvised explosive devices. Includes the Joint Improved – Threat Defeat Fund (JIDF).</td>

CHAPTER 24

BURDENSHARING AND OVERSEAS RELOCATION CONTRIBUTIONS
BY FOREIGN ALLIES

2401 INTRODUCTION

240101. Purpose

This chapter prescribes the overall policy and assigns responsibilities for the acceptance, receipt, use, and reporting of burdensharing and relocation monetary contributions to the Department of Defense (DoD) under Title 10, United States Code (U.S.C.), section 2350j and section 2350k.

2402 RESPONSIBILITIES

240201. Under Secretary of Defense for (Policy) (USD(P))

The USD(P) has policy and management responsibility for burdensharing agreements or arrangements. In addition, the USD(P) will work with the Defense Finance and Accounting Service – Trust Funds Accounting and Reporting Division (TFAR) (DFAS-IN/JJAEB) on burdensharing program requirements that impact DFAS responsibilities, as appropriate.

240202. Under Secretary of Defense (Comptroller) (USD(C))

A. The USD(C) serves as the single departmental point of contact with the Departments of State and Treasury for all matters involving the acceptance, receipt, administration and distribution of contributions of funds from foreign countries and organizations for burdensharing and relocation contributions.

B. The USD(C) is responsible for coordination and approval of military construction projects that are subject to Title 10 U.S.C., section 2350j. In addition, the USD(C) is responsible for reviewing and submitting to the Congress those reports required by Title 10 U.S.C., section 2350j and Title 10 U.S.C., section 2350k.

240203. Director of Defense Finance and Accounting Service (DFAS)

The DFAS Director is responsible for recording and reporting the collection of receipts for burdensharing and relocation contributions and for the distribution of receipts, as prescribed by the USD(C), in support of burdensharing and overseas relocation programs.

240204. Commanders of the Combatant Commands (CINCs)

The cognizant CINC is responsible for, but may delegate to subordinate commanders, the following responsibilities.
A. For burdensharing contributions for other than military construction projects, the cognizant CINC shall:

1. Notify the responsible DoD Component of anticipated contributions from foreign governments.

2. Identify a proposed distribution of funds to the approving authority.

3. Deposit funds received with the DFAS Field Activity located within the immediate overseas operating area or the Financial Services Office (FSO) if no DFAS Field Activity is located within the immediate overseas operating areas.

4. Prepare the necessary disbursing documentation for forwarding to the DFAS Field Activity located within the immediate overseas operating area, or the FSO if no DFAS Field Activity is located within the immediate overseas operating area.

5. Submit reporting and control of funds information to:

   DFAS Indianapolis Site
   Trust Funds Accounting and Reporting Division (DFAS-IN/JJAEB)
   Room 315AA-1
   8899 East 56th Street
   Indianapolis, IN  46249-2801

   Submit this information via the DFAS Field Activity located within the immediate overseas operating area, or the FSO if no DFAS Field Activity is located within the immediate overseas operating area.

6. Submit information on the amount and purpose of each contribution to:

   Office of the OUSD(C)
   Office of the Deputy Comptroller (Program/Budget) ODC(P/B)
   Operations Directorate, Room 3C710, 1100 Defense Pentagon
   Washington, DC  20301-1100

B. For military construction projects funded with burdensharing contributions, the cognizant CINC shall:

1. Initiate the military construction project proposals utilizing Defense Department (DD) Form 1391 (Justification of Military Construction Projects).
2. Submit for approval the justification material to:

OUSD(C), ODC (P/B)
Military Personnel and Construction Directorate
Room 3C654, 1100 Defense Pentagon
Washington, DC  20301-1100

3. Deposit contributions with the DFAS Field Activity located within the immediate overseas operating area, or the FSO if no DFAS Field Activity is located within the immediate overseas operating area.

4. Ensure that ODC(P/B) Military Personnel and Construction Directorate approval has been received prior to disbursement of funds (see subparagraph 240204.B.2) via the DFAS Field Activity located within the immediate overseas operating area, or the FSO if no DFAS Field Activity is located within the immediate overseas operating area.

5. Prepare necessary disbursing documentation for forwarding to the DFAS Field Activity located within the immediate overseas operating area, or the FSO if no DFAS Field Activity is located within the immediate overseas operating area.

6. Submit information to the DFAS-IN/JJAEAB (see subparagraph 240204.A.5) for reporting and control of funds purposes, via the DFAS Field Activity located within the immediate overseas operating area, or the FSO if no DFAS Field Activity is located within the immediate overseas operating area.

C. For all overseas relocation contributions, the cognizant CINC shall:

1. Notify the DFAS Trust Fund Accounting and Reporting Division (DFAS-IN/JJAEAB) that a contribution is expected.

2. Submit information on the amount and purpose of the contribution to the OUSD(C), ODC (P/B), Operations Directorate (see subparagraph 240205.A.6). Courtesy copies shall be provided to the Military Personnel and Construction Directorate when contributions are made for construction projects.

3. Deposit the funds with the DFAS Field Activity located within the immediate overseas operating area, or the FSO if no DFAS Field Activity is located within the immediate overseas operating area.

4. Notify DFAS-IN/JJAEAB, via the DFAS Field Activity located within the immediate overseas operating area, or the FSO if no DFAS Field Activity is located within the immediate overseas operating area, at least 1 business day in advance of disbursements so securities can be sold to finance the payment.
5. Prepare the necessary disbursing documentation, for forwarding to the DFAS Field Activity located within the immediate overseas operating area, or the FSO if no DFAS Field Activity is located within the immediate overseas operating area.

6. Submit information to the DFAS-IN/JJAEAB, for reporting and control of funds purposes, via the DFAS Field Activity located within the immediate overseas operating area, or the FSO if no DFAS Field Activity is located within the immediate overseas operating area.

240205. Assistant Secretaries of the Military Departments (Financial Management and Comptroller) (FM&C)

A. The cognizant Assistant Secretary (FM&C) has responsibility to review and approve the distribution of funds received from foreign countries and regional organizations for the purposes outlined in this Regulation. These responsibilities may be delegated below the Assistant Secretary level.

B. The Assistant Secretary of the Army (FM&C) is responsible for Korea and Kuwait.

C. The Assistant Secretary of the Air Force (FM&C) is responsible for Japan, except for the Realignment of Forces from Okinawa to Guam, wherein the Assistant Secretary of the Navy (FM&C) is responsible.

D. Distribution of contributions received from other countries, not specified above, shall be the responsibility of the Assistant Secretary (FM&C) whose Service will use the greater portion of the contribution.

2403 MONETARY CONTRIBUTIONS

240301. Notifications

A. The DoD Components shall notify the DFAS-IN/JJAEAB of all potential monetary contributions prior to acceptance of such contributions. All notifications shall indicate the applicable statute (i.e., Title 10 U.S.C., section 2350j for burdensharing contributions or Title 10 U.S.C., section 2350k for overseas relocation). Copies of all notifications shall be sent to the DFAS-IN/JAFB (see subparagraph 240204.A.5 for full address) via the DFAS Field Activity located within the immediate overseas operating area, or the FSO if no DFAS Field Activity is located within the immediate overseas operating area.

B. Within 5 working days after notification of anticipated receipt of funds from a country without a designated account, the DFAS Field Activity located within the immediate overseas operating area, or the FSO if no DFAS Field Activity is located within the immediate overseas operating area, shall submit a request for a new Treasury account for that country to the address in subparagraph 240204.A.5.
C. TFAR will submit the necessary documents to the Department of the Treasury to establish the new account and shall send a copy of the information to the DFAS-IN/JJAEAB and the DFAS Field Activity located within the immediate overseas operating area, or the FSO if no DFAS Field Activity is located within the immediate overseas operating area.

240302. Contributions

A. General

1. Monetary contributions shall be accepted for specific purposes as identified in section 2405 of this chapter.

2. If none of the accounts identified in section 2405 of this chapter apply, then contributions shall be credited to a DoD disbursing officer's suspense account using a DD Form 1131 (Cash Collection Voucher) for cash and check contributions. The DoD Component and/or DFAS Field Activity disbursing officer may request further guidance from the DFAS-IN/JAFB.

B. Contributions in Cash

1. The receiving DoD Component and/or DFAS Field Activity located within the immediate overseas operating area shall credit all cash contributions to one or more of the applicable DoD accounts as identified in section 2405 of this chapter.

2. Documentation associated with cash contributions, including copies of the DD Form 1131 and the original of any correspondence from contributors, shall be forwarded by the receiving DFAS Field Activity located within the immediate overseas operating area (or DoD Component activity if no DFAS Field Activity is located within the immediate overseas operating area) within 24 hours of deposit to the DFAS-IN/JJAEAB.

C. Contributions by Check

1. Checks received by DoD officials shall be made payable as described in accordance with Volume 5, Chapter 10. The reference line on the check shall identify the applicable burdensharing agreement or arrangement, or a copy of the agreement shall be attached.

2. Checks received by DoD officials shall be forwarded to the nearest DFAS Field Activity located within the immediate overseas operating area, or other DoD disbursing office if no DFAS Field Activity is located within the immediate overseas operating area, for processing within 24 hours of receipt. Such checks shall be credited to one or more of the applicable DoD accounts identified in section 2405 of this chapter.

3. Documentation associated with check contributions— including copies of checks, DD Forms 1131, deposit tickets and the original of any correspondence from
contributors—shall be forwarded by the receiving DFAS Field Activity located within the immediate overseas operating area, or other DoD Component activity if no DFAS Field Activity is located within the immediate overseas operating area, within 24 hours of deposit to the DFAS-IN/JJAEAB.

D. Contributions by Wire Transfer

1. Contributions by wire transfer are preferred since they eliminate delays in receiving deposits and should provide the most efficient preliminary accounting information for receipt distribution purposes. Wire transfers shall be credited to one or more of the applicable DoD accounts identified in section 2405 of this chapter.

2. Contributors may make contributions to the Department via electronic funds transfer from commercial banks to the Federal Reserve Bank of New York (as Fiscal Agent of the United States). The Federal Reserve Bank of New York shall credit the Department. Any exceptions shall be documented within the international agreements and coordinated with the USD(C), or designee.

3. Documentation associated with wire transfer contributions, including the original of any correspondence from contributors, shall be forwarded within 24 hours of the deposit to the DFAS-IN/JAFB.

E. Contributions in Foreign Currencies (Cash or Check).

When a DoD Component becomes aware of a planned, large contribution ($1 million or more) to be made in a foreign currency, the cognizant DFAS Field Activity or DoD Component official shall:

1. Request that the contributor give as much advance notification as possible regarding the amount of the contribution and the estimated date that the contribution will be made.

2. Advise the DFAS-IN/JJAEAB of any planned contributions and continue to keep that office advised of the status until the contribution is received.

3. Except as described in subparagraph 240402.E.6, the contributor should transfer the foreign currency credit to the Federal Reserve Bank of New York via the contributor's central bank. If the Federal Reserve Bank does not maintain a relationship with a particular central bank, the DoD Component or DFAS Field Activity located within the immediate overseas operating area shall seek guidance from the DFAS-IN/JJAEAB for appropriate alternative arrangements, including the use of limited depositary accounts.

4. Cash and checks received by DoD officials in countries not served by DoD disbursement officers shall be delivered to the nearest U.S. Embassy within 24 hours of receipt for credit in one or more of the applicable DoD accounts identified in section 2405 of this chapter. If none of the accounts identified in section 2405 of this chapter applies, then all cash
and checks shall be credited to an Embassy disbursing officer's suspense account. The Embassy disbursing officer or representative shall request further guidance from the DFAS-IN/JJAEAB. Documentation associated with the contribution, including copies of deposit tickets and appropriate collection voucher, shall be forwarded within 24 hours to the DFAS-IN/JJAEAB.

5. Except as described in subparagraph 240302.E.6, all contributions received in foreign currencies shall be converted to U.S. dollars at the prevailing rate of exchange at the time that the deposit is made.

6. Where international arrangements require the retention of the currency in limited depository accounts for local disbursement in that currency, the deposits shall be calculated and recorded (not converted) in terms of equivalent dollar value based on the prevailing rate of exchange. (See Volume 5, Chapter 13, for additional information.)

2404 ACCOUNTING

240401. Burdensharing

Burdensharing contributions shall be credited to one or more of the special fund accounts listed below which have been established in the U.S. Treasury for monetary contributions accepted by the Secretary of Defense or designee under Title 10 U.S.C., section 2350j.

A. Special Fund Receipt Accounts

97_5441.001 Burdensharing Contribution, Defense, Kuwait
97_5441.003 Burdensharing Contribution, Defense, Japan
97_5441.004 Burdensharing Contribution, Defense, South Korea
97_5441.005 Burdensharing Contribution, Defense, Qatar
97_5441.006 Burdensharing Contribution, Defense, United Kingdom

B. Special Fund Expenditure Account

97X5441 Expenditures (Only)

240402. Overseas Relocation

Relocation contributions shall be credited to one or more of the following trust fund accounts which have been established in the U.S. Treasury for monetary contributions accepted by the Secretary of Defense or designee under Title 10 U.S.C., section 2350k.

A. Trust Fund Receipt Accounts

97_8337.001 Contributions from Kuwait, Host Nation Support for U.S. Relocation Activities
97_8337.003 Contributions from Japan, Host Nation Support for
U.S. Relocation Activities

97_8337.004 Contributions from South Korea, Host Nation Support for U.S. Relocation Activities

97_8337.005 Contributions from Qatar, Host Nation Support for U.S. Relocation Activities

B. Trust Fund Expenditure Account

97X8337 Expenditures (Only)

C. The DFAS disbursing office or FSO shall transmit copies of deposit tickets for these investments to the DFAS-IN/JIAEAB. For tracking and computation of interest, contributions shall be tracked along with the earnings on each investment by country.

2405 AVAILABILITY OF CONTRIBUTIONS

240501. Burdensharing Contributions

A. Burdensharing contributions shall be available only for the payment of the following costs:

1. Compensation for the Department's local national employees,

2. Supplies and services required by the Department, and

3. DoD military construction projects.

   a. USD(C) or designee written approval is required for the use of such contributions to carry out a military construction project that is consistent with the purposes for which the contributions were made and not otherwise authorized.

   b. Such approval is also conditional upon a 21-day notice to the Congress as described in subparagraphs 240601.D and 240601.E.

B. Burdensharing contributions normally shall be available only for the payment of costs in the country making the contribution. Local disbursement of burdensharing funds is authorized. In accordance with Title 10 U.S.C. 2350k, “out-of-country” expenditures shall be made only with the agreement of the contributing country and only for costs that are directly related to U.S. military activities in the contributing country.

C. If burdensharing contributions are to be used for personnel costs or supplies and services, prior approval of the cognizant Assistant Secretary (FM&C) or designee (such as the U.S. Forces Korea) is necessary before the expenditure of funds.

   1. The organization receiving the funds shall submit the proposed distribution of the funds to the cognizant Assistant Secretary (FM&C) for approval.
2. The cognizant Assistant Secretary (FM&C) shall review the proposed distribution and, if approved, transmit the approved distribution to the DFAS-IN/JAFB, as well as to the submitting field component.

3. The field component shall prepare the necessary documentation to effect the disbursement of funds.

D. If the Department decides to use burdensharing contributions for a military construction project, the cognizant CINC shall forward a coordinated project proposal for approval to OUSD(C), ODC(P/B), Military Personnel and Construction (See subparagraph 240204.B.2.) Once the necessary coordination and approval process has been completed, the Military Personnel and Construction Directorate shall submit a report to the congressional defense oversight committees. The following information shall be included in the proposal:

1. An explanation of the need for the project,

2. The estimated cost of the project, and

3. A justification for carrying out the project.

E. The Department may not commence a military construction project until the end of a 21-day period that begins on the date that the OUSD(C) submits the required report to the appropriate congressional defense oversight committees.

240502. Relocation Contributions

A. Relocation contributions are available only for costs incurred in connection with the relocation for which the contribution was made. Costs include:

1. Design and construction services;

2. Transportation, packing, unpacking, handling and storage;

3. Communications services;

4. Supply and administration;

5. Personnel costs (including TDY expenses and excluding salaries of permanently assigned military personnel); and,

6. Other expenses that are related directly to the relocation.

B. The organization receiving the relocation contribution shall submit information on the amount and the purpose of the contribution to the OUSD(C), ODC (P/B), Operations Directorate (see subparagraph 240204.A.6.) Courtesy copies shall be provided to the
Military Personnel and Construction Directorate (see subparagraph 240204.B.2.) when contributions are made for construction projects.

C. The organization receiving the contribution is responsible for preparing the necessary documentation for the disbursing transaction. The DFAS-IN/JJAEAB, however, shall be notified at least 1 business day in advance of disbursement so securities can be sold to finance the payments. The date of each payment and the specific country’s funds being utilized must be identified.

2406 REPORTING REQUIREMENTS

240601 Amount and Purpose for Expended Contributions

No later than 10 days after the end of each fiscal year, the DoD Components shall report, to the DFAS-IN/JAFB, the amount of and the purpose for expended contributions.

240602 Report for Defense Congressional Oversight Committees

No later than 20 days after the end of each fiscal year, the DFAS-IN/JJAEAB shall prepare and forward to the OUSD(C), ODC (P/B), Operations Directorate, a report for submission to the applicable defense congressional oversight committees. Those committees are: the Committees on Armed Services of the House of Representatives and the Senate, and the Committees on Appropriations of the House of Representatives and the Senate. The report shall include the following information for each country and regional organization from which contributions were accepted:

A. The amount of the contribution accepted during the preceding fiscal year under Title 10 U.S.C., sections 2350j and 2350k, and the purposes for which the contributions were made, and

B. The amount of the contributions expended during the preceding fiscal year under Title 10 U.S.C., sections 2350j and 2350k, and the purposes for which the contributions were expended.

2501 GENERAL

250101. Purpose

This chapter prescribes the policy for the disposition of lost, abandoned or unclaimed non-
Department of Defense (DoD) personal property and the personal property of deceased members
of the Armed Forces. This policy applies when disposing of non-DoD personal property under the
jurisdiction of a Military Department, or the Department of Homeland Security as prescribed in
Title 10, United States Code, section 2575.

*250102. Authoritative Guidance

The financial management policy and related requirements prescribed by this chapter are
in accordance with the applicable provisions of:

court – martial”;

C. 10 U.S.C. § 8392, “Disposition of effects”;

court – martial.”

*2502 DISPOSITION OF UNCLAIMED PROPERTY

250201. General Policy

The Secretary of any Military Department, and the Secretary of Homeland Security, under
such regulations as they may respectively prescribe, may each by public or private sale or
otherwise, dispose of all lost, abandoned, or unclaimed personal property that comes into the
custody or control of the Secretary’s department, other than property subject to 10 U.S.C. §§ 7712,
8392, or 9712. Property subject to paragraph 250203 is exempted from the requirements.
Requirements for the disposition of personal property of deceased members of the Army and Air
Force are in section 2503. Requirements for the disposition of personal property of deceased
members of the Navy and Marine Corps are in section 2504.

A. Property may not be disposed of until a diligent effort has been made to find
the owner (or the heirs, next of kin, or legal representative of the owner). A diligent effort to find
the owner (or the heirs, next of kin, or legal representative of the owner) must begin, to the
maximum extent practicable, not later than 7 days after the date on which the property comes into
the custody or control of the Secretary having immediate jurisdiction. The period for which that effort is continued must not exceed 45 days.

B. Notice of the time and place of the intended sale or other disposition must be sent by certified or registered mail to the applicable owner (or heirs, next of kin, or legal representative of the owner) at their last known address. If the owner (or the heirs, next of kin, or legal representative of the owner) is determined but not found, the property may not be disposed of until the expiration of 45 days after the date the notice is sent to the owner (or the heirs, next of kin, or legal representative of the owner).

C. When a diligent effort to determine the owner (or heirs, next of kin, or legal representative of the owner) is unsuccessful, the property may be disposed of without delay. If the property has a fair market value of more than $300, it may not be disposed of until 45 days after the date it is received at the point of storage designated by the Secretary.

250202. Distribution of Proceeds

The proceeds from the sale of lost, abandoned, or unclaimed personal property found on a military installation, must be credited to the operation and maintenance account that funds the operations of that installation and be used to reimburse the installation for any costs incurred during the collection, transporting, storage, protection, or selling of the property. Any proceeds which remain after the reimbursement of installation expenses must be utilized to support morale, welfare, and recreation activities under the jurisdiction of the armed forces that are conducted for the comfort, pleasure, contentment, or physical or mental improvement of members of the armed forces at such installation. The net proceeds from the sale of other property under paragraph 250201 must be deposited into the U.S. Department of the Treasury (Treasury) as miscellaneous receipts.

250203. Restrictions

No property covered by this section may be delivered to the Armed Forces Retirement Home by the Secretary of a Military Department, except papers of value, sabers, insignia, decorations, medals, watches, trinkets, manuscripts, and other articles valuable chiefly as keepsakes.

250204. Claims for Proceeds

The owner (or heirs, next of kin, or legal representative of the owner) of personal property whose proceeds were credited to a military installation may file a claim with the Secretary of Defense for an amount equal to the proceeds less costs referred to in paragraph 250202. Amounts to pay the claim must be drawn from the morale, welfare, and recreation account for the installation that received the proceeds. The owner (or heirs, next of kin, or legal representative of the owner) may file a claim with the Secretary of Defense for proceeds deposited at Treasury as well. Unless a claim is filed under this section within 5 years after the date of the disposal of the property to which the claim relates, the claim may not be considered by either the Secretary of Defense or a
court. The responsibility of the Secretary of Defense to consider such claims has been delegated to the Under Secretary of Defense (Personnel and Readiness).

2503 ARMY AND AIR FORCE DISPOSITION OF PERSONAL PROPERTY OF DECEASED MEMBERS

250301. General Policy

Upon the death of a person subject to military law and under the jurisdiction of the Army or Air Force, or upon the death of a resident of the Armed Forces Retirement Home; the commanding officer must permit the legal representative or the surviving spouse of the deceased, if present, to take possession of the effects of the deceased that are then in camp, air base, or quarters. If there is no legal representative or surviving spouse present, the commanding officer must direct a summary court-martial to collect the effects of the deceased that are then in camp, air base, or quarters. The summary court-martial may collect debts due the decedent by local debtors, and pay undisputed local creditors of the deceased (to the extent permitted by the monetary assets of the deceased in the court’s possession). Receipts for payments made from the estate of the deceased must be filed with the court’s final report to the Department of the Army or Air Force.

250302. Distribution of Personal Property

As soon as practicable after the collection of the personal effects and monetary assets of the deceased, the summary court-martial must, at the expense of the United States, send the personal effects and monetary assets to one of the living persons, in the order of precedence shown on the following list, who is found by the court:

A. The surviving spouse or legal representative.
B. A child of the deceased.
C. A parent of the deceased.
D. A brother or sister of the deceased.
E. The closest next of kin of the deceased.
F. The beneficiary named in the will of the deceased.

250303. Time Limits

If the summary court-martial cannot dispose of the effects as stated in paragraph 250302 because there are no persons in any of the categories listed, or because the addresses of such persons are not known or are not available, the court may convert the effects of the deceased into cash by public or private sale. However, the sale may not occur until 30 days after the date of death of the deceased. Items listed in paragraph 250203 may not be sold.
250304. Final Disposition of Personal Effects

As soon as practicable after the effects have been converted into cash, the summary court-martial must relinquish custody of all cash and all receipts relating to cash transactions to the executive part of the Department of the Army or Air Force. Wills or other papers of value, an inventory of personal effects, and articles whose sale is not permissible also must be placed under the jurisdiction of the executive part of the Service of which the deceased was a member. All items received by the executive part of the Army or Air Force must be delivered to the Armed Forces Retirement Home.

2504 NAVY AND MARINE CORPS DISPOSITION OF PERSONAL PROPERTY OF DECEASED MEMBERS

250401. General Policy

The Secretary of the Navy must retain custody of money or other personal property of a deceased member of the Naval Service and make a diligent effort to determine and locate the heirs or next of kin of the deceased member. Property remaining unclaimed 2 years after the death of the member must be sold, and the proceeds, together with any other monetary assets of the member held in custody, must be deposited into the Treasury as miscellaneous receipts.

250402. Recoupment

Within 5 years after the date the money and proceeds are deposited into the Treasury, any claim that is presented, and supported by competent proof, must be certified to Congress for consideration. Subsequent to the 5 year period, claims may not be accepted and the requestor must be notified that the time limit for submitting a claim has expired.

CHAPTER 27

COMMANDERS’ EMERGENCY RESPONSE PROGRAM

*2701 GENERAL

270101. Overview

The Commanders’ Emergency Response Program (CERP) is a tool designed to enable local U.S. Military Commanders in Afghanistan to carry out small-scale projects designed to meet urgent humanitarian relief requirements or urgent reconstruction requirements within their areas of responsibility, and that provides an immediate and direct benefit to the people of Afghanistan. As used here: (1) “urgent” is defined as any chronic or acute inadequacy of an essential good or service that, in the judgment of a local U.S. Military Commander, calls for immediate action; (2) “reconstruction” is not limited to efforts to restore previous conditions/structures in Afghanistan; (3) an “immediate” benefit means that at the time a project is commenced, the planned completion date for the project is within one year, recognizing that in the course of executing the project unforeseen circumstances may cause the completion date to be extended beyond one year; and (4) a “direct” benefit means that the people of Afghanistan are the proximate beneficiaries of a completed project, not the Government of the Islamic Republic of Afghanistan (GIRoA), tribal leaders, or other third parties. In addition, the CERP is intended to be used for small-scale projects that will, if sustainment is required, be sustained by the local population or government, or other non-Department of Defense (DoD) funding sources. For purposes of the CERP, “small-scale” is generally defined as less than $500,000 per project; in no event may a CERP project exceed $2 million. Projects of $500,000 or more are expected to be relatively few in number and require approval by the Afghanistan Resources Oversight Council and the Secretary of Defense, and require congressional notification not less than 15 days before obligating or expending funds for the project.

270102. Purpose

This chapter provides guidance on the implementation of the DoD CERP, including assigning responsibilities for administering the CERP; defining the purposes for which U.S. appropriations or other funds provided for the CERP may be expended; and specifying the procedures for executing, managing, recording and reporting such expenditures. This guidance applies to all DoD organizations and activities.

270103. Authoritative Guidance

This guidance implements section 1201 of the National Defense Authorization Act (NDAA) for Fiscal Year (FY) 2012, Public Law 112-81, as most recently amended by section 1224 of the John S. McCain NDAA for FY 2019, Public Law 115-232, and the recurring general provision for CERP in the annual DoD appropriations acts.
2702  APPLICABILITY

270201. Approval Authority

A. CERP projects costing $500,000 up to $2 million must be approved by the Secretary of Defense.

* B. CERP projects costing less than $500,000 may be approved by the Commander, U.S. Forces – Afghanistan (USFOR-A). The Commander, USFOR-A may delegate this approval authority to subordinate U.S. commanders in the grade of O-5 or above. The appropriate level of delegation will be determined based on the complexity and/or the total estimated cost of completion for each project.

*270202. Representative Areas

The CERP may be used to benefit the Afghan people in the following categories:

A. Agriculture
B. Battle Damage Repair
C. Civic Cleanup Activities
D. Civic Support Vehicles
E. Condolence Payments
F. Education
G. Electricity
H. Food Production and Distribution
I. Healthcare
J. Other Urgent Humanitarian Relief or Reconstruction Projects
K. Repair of Civic Facilities
L. Telecommunications
M. Temporary Contract Guards for Critical Infrastructure*
N. Transportation
O. Water and Sanitation

*Authority available only to the Special Operations Task Force – Afghanistan (SOTF-A)

Guidance concerning CERP reporting categories for potential projects is contained in Annex A.

270203. Contract Requirement

A requirement to comply with this guidance must be incorporated into contracts, as appropriate to cover the execution, management, recording and reporting of expenditures of U.S. appropriations and other funds made available for the CERP.
2703 RESPONSIBILITIES

270301. Under Secretary of Defense for Policy

The Under Secretary of Defense for Policy (USD(P)), in coordination with the Under Secretary of Defense (Comptroller) (USD(C)), establishes principles, policies, and procedures to be followed in connection with the CERP, oversees and supervises their execution, and ensures that congressional defense committees are informed in a timely manner of CERP activities through the semi-annual reports required under section 1201(b) of the NDAA for FY 2012, as amended. The USD(P) will assemble and staff for approval by the Secretary of Defense the congressional notification package for any project with a total anticipated cost of completion of $500,000 or more. Such projects will be approved on an exception basis and will be accompanied by justification material sufficient for the Secretary to determine if the project meets the required criteria to be approved for funding.

270302. Under Secretary of Defense (Comptroller)

The USD(C), in coordination with the USD(P), establishes principles, policies, and procedures to be followed in connection with the CERP, oversees and supervises their execution, and ensures that congressional defense committees are informed in a timely manner of CERP activities through the semi-annual reports required under section 1201(b) of the NDAA for FY 2012, as amended.

270303. Secretary of the Army

Pursuant to DoD Directive 5101.1, “DoD Executive Agents,” dated September 23, 2002 and incorporating, dated May 9, 2003, the Secretary of the Army has been designated as executive agent for the CERP, and in that capacity must forward semi-annual reports to Congress and must promulgate through the Commander, U.S. Central Command (USCENTCOM) and designated forward commands, detailed financial procedures as necessary for commanders to carry out the CERP in a manner consistent with applicable laws, regulations, and this guidance. These procedures must include rules for expending CERP funds through contracts, in accordance with paragraph 270407. The Assistant Secretary of the Army (Financial Management and Comptroller) (ASA (FM&C)) must utilize the General Fund Enterprise Business System (GFEBS) to submit quarterly commitment, obligation, and expenditure data for CERP to the congressional defense committees not later than the 30th day following the end of each fiscal quarter. The ASA (FM&C) will ensure that the data compiled in the CERP Review and Reporting Tool (CRRT) matches the data in the GFEBS.

270304. Commander, U.S. Central Command

The Commander, USCENTCOM must advocate for appropriate resources for CERP in support of military operations in Afghanistan. The Commander, USCENTCOM will forward to the USD(P) the request and necessary supporting information to gain approval of all CERP projects that cost $500,000 or more. The Commander, USCENTCOM will review the semi-annual narratives submitted to the Secretary of the Army by Commander, USFOR-A to ensure that
commanders’ uses of CERP are consistent with the intent of the program and maximize the benefits to the local populations and best influence conditions on the ground. The USCENTCOM will work with the Army to provide Commander’s operational perspectives to address discrepancies raised by the Army on the Commander’s Narratives compared to the reported project data.

270305. Commander, U.S. Forces Afghanistan

The Commander, USFOR-A must ensure that proper procedures are in published theater guidance to evaluate CERP projects and ensure that the projects meet the intent of the program. In addition, the Commander, USFOR-A must ensure that:

* A. Projects are properly managed so that CERP funds achieve maximum results, which includes establishing performance objectives and monitoring achievements. Specifically, Commander, USFOR-A must review any CERP project with a total anticipated cost for completion of $500,000 or more, on an exception basis given that the intent is for small-scale projects, and must ensure local national donor nation, non-government organization, or other aid or reconstruction resources are not reasonably available before forwarding a request to Commander, USCENTCOM seeking Secretary of Defense approval.

* B. A command CERP policy is established and published annually that includes: command guidance on areas of emphasis for selecting CERP projects that best support the current mission, subordinate approval authority levels, and detailed procedures as necessary to ensure Commanders carry out CERP in a manner consistent with mission requirements and applicable laws, regulations, and guidance.

* C. Data is accurately maintained in the Combined Information Data and Network Exchange (CIDNE) and the GFEBS which will serve as sources of CERP data for the CRRT.

* D. A Commander’s narrative is prepared in support of each semi-annual report that addresses: Commander’s intent for CERP funds, including performance measures for on-going and proposed projects; impacts of CERP-funded projects, how individually and collectively projects assist the U.S. carry out its strategy in Afghanistan; specific details for each prior and proposed project of $500,000 or more; and the contributions these projects made to humanitarian relief and reconstruction efforts for the benefit of the Afghan people. Appendix B provides additional guidance on the Commander’s Narrative.

* E. The CERP funds are expended commensurate with work completed, performance metrics, and that projects are properly monitored and closed out upon completion, including the transfer of ownership to an appropriate authority of the country’s government prepared to sustain the project.

* F. A specific procedure for project transfer and close-out is established. For project transfers (i.e., when a newly deployed unit assumes responsibility for a project from a redeploying unit), procedures must include providing the current status (i.e., in-progress,
completed, or terminated) of all CERP projects the redeploying unit was responsible for at any time during their deployment. The status for each project must include a brief project synopsis of the project’s purpose, and for in-progress projects, all information necessary to continue progress on the project. Project close-out for each CERP project must include adjusting obligations to match disbursements, as appropriate, and the assessment of performance metrics as described in paragraph 270414.

G. Projects using a bulk draw of funds will not be obligated when the funds are drawn. A DA Form 3953, “Purchase Request & Commitment,” document annotating a bulk funds draw will generate a commitment in the financial system. Each type of bulk funding must be recorded and maintained by the pay agent until the bulk fund is closed out at finance. Bulk funds are limited to condolence payments, battle damage payments, and Commander’s small-scale projects (limited to $5,000 per project). Prior to each semi-annual report, the amount of funding drawn as cash by the pay agent that was paid out must be identified as an obligation and disbursement for each individual project using the appropriate CERP category.

2704 PROCEDURES

270401. Improper Usage of Funds

Appropriated funds made available for the CERP must not be used for the following purposes:

A. Direct or indirect benefit to U.S., coalition, or supporting military personnel.

* B. Providing goods, services, or funds to national armies, National Guard forces, border security forces, civil defense forces, infrastructure protection forces, highway patrol units, police, special police, or intelligence or other security forces (except temporary private civilian security guards hired to protect critical infrastructure in Afghanistan, when requested by the Commander, Special Operations Joint Task Force - Afghanistan).

C. Weapons buy-back programs or other purchases of firearms or ammunition.

D. Entertainment (except light refreshment costs purely incidental to an approved CERP project opening ceremony, a conference in support of a CERP project, subnational (Provincial or District) shuras (i.e., a consultative council) hosted by either the Provincial Governor or District Governor to address the root causes of instability, or a meeting in support of reconciliation).

E. Reward programs.

F. Removal of unexploded ordnance or other explosive remnant of war (unless incidental to construction or an agricultural development project).

G. Duplication of services available through municipal governments.
H. Salaries, bonuses, or pensions for Afghan military or civilian government personnel.

I. Training, equipping, or operating costs of Afghan National Defense and Security Forces (ANDSF), Afghan militias, or other paramilitary forces.

J. Conducting psychological operations, information operations, or other U.S., coalition, or ANDSF operations.

K. Support for personal security details.

L. Providing grants to businesses, individuals, International Organizations, or Non-Governmental Organizations. These organizations, however, may be contracted to execute specific, approved CERP projects.

M. Projects that have not been properly approved by a U.S. military official.

N. Beautification projects, including murals.

O. Sports complexes, zoos, museums, mosques, or other religious or cultural facilities.

P. Support to individuals or private businesses (except for condolence or battle damage payments).

*270402. Amount

The CERP is intended for urgent, small-scale, humanitarian relief and reconstruction projects for the immediate and direct benefit of the Afghan people. Priority must be given to projects with a cost estimate of less than $500,000.

A. The Commander, USFOR-A is the approval authority for individual CERP projects with an estimated total cost for completion of less than $500,000. The Secretary of Defense is the approval authority for individual CERP projects with an estimated total cost for completion of $500,000 or more. Each project, including any ancillary or related elements in conjunction with the project, executed under CERP authority must not exceed $2 million in total cost.

B. The Commander, USFOR-A must submit all proposed individual CERP projects with an estimated cost of completion of $500,000 or more through the USCENTCOM, Directorate of Resources and Analysis, to the USD(P) for approval and congressional notification. No CERP funding will be made available for a project with a total anticipated cost of completion of $500,000 or more until at least 15 days after the Secretary of Defense approves the project and provides notification to the congressional defense committees. The congressional notification will include the following elements:
1. The location, nature, and purpose of the proposed project, including how the project is intended to advance the military campaign plan.

2. The budget, implementation timeline with milestones, and completion date for the proposed project.

3. A plan for the sustainment of the proposed project, including the agreement with either the host nation, a non-DoD agency of the U.S. Government or a third-party contributor to finance the sustainment of the activities and maintenance of any equipment or facilities to be provided through the proposed project.

270403. Allocation of Funds

The USD(C) must ensure that DoD appropriations available for the CERP are properly allocated to Army for funds control and execution.

270404. Delivery, Transporting, and Safeguarding of Funds

Any funds made available for the CERP must be delivered, transported, and safeguarded consistent with Volume 5, Chapter 3, “Obtaining and Safeguarding Public Funds.”

270405. Appointment of Paying Agents

Paying Agents responsible for making disbursements of funds under the CERP must be appointed consistent with Volume 5, Chapter 2, “Disbursing Offices, Officers and Agents.” Upon completion of authorized payments, the paid vouchers, negotiable instruments, and any balance of funds must be returned to the disbursing officer with a properly completed DD Form 1081, “Statement of Agent Officer’s Account.” The same individual must not serve as both the Paying Agent and either the Project Manager or Project Purchasing Officer on a project.

270406. Documentation of Payments

Payments under the CERP must be made and documented consistent with Volume 5, Chapter 9, “Disbursements,” and Volume 10, Chapter 8, “Commercial Payment Vouchers and Supporting Documentation.”

270407. Contracts

Appropriated funds made available for the CERP may be expended through contracts that are prepared and executed in accordance with regulations designed to ensure transparency, fairness, and accountability.
270408. Circumventing Limits

Monetary limits and approval requirements may not be circumvented by “splitting” a single project through the submission of multiple purchase requests, similar documents, or otherwise. Pre-deployment training should highlight this restriction.

270409. Clearance of Accounts

Accounts maintained under the CERP must be cleared consistent with Volume 5, Chapter 2, “Disbursing Offices, Officers and Agents.”

270410. Certification of Payments

Payments made under the CERP must be certified in a manner consistent with Volume 5, Chapter 5, “Certifying Officers, Departmental Accountable Officials, and Review Officials.”

270411. Audits and Program Reviews

The administration of the CERP will be subject to periodic audits by DoD’s internal review and audit organizations, including the DoD Inspector General and the Army Audit Agency, as well as external organizations such as the Special Inspector General for Afghanistan Reconstruction, the Government Accountability Office, and congressional oversight committees. All officials responsible for administering the CERP must cooperate fully with any review, audit, or investigation conducted by such organizations.

270412. Appointment of Project Purchasing Officers

The Project Purchasing Officers (PPOs) are U.S. government employees/U.S. service members who, upon completion of training and receipt of written delegation, serve as an extension of warranted contracting officers. A contracting officer may delegate to a PPO the authority to obligate the U.S. on CERP-funded projects costing less than $500,000.

270413. Monitoring of Projects

All projects must have progress monitored to ensure that payments are commensurate with the work accomplished and the engineering standards as stipulated. For construction projects less than $500,000, (which may use a PPO rather than a warranted contracting officer), the PPO delegation memo should note that assistance from either the organic engineers or another unit’s engineers may be requested to assist in determining construction progress.

270414. Performance Metrics and Project Close-out

Performance metrics are essential to ensure that funds are applied for the most beneficial projects. Performance indicators must be included in evaluation packages for proposed CERP projects $50,000 or more and used as part of the close-out process for evaluating the project at its completion. CERP procedures for evaluating proposed projects should consider:
A. Immediate benefit to the local population.

B. Sustainability of the project.

C. Name and stability of the local partner.

D. Number of the local population engaged in the project.

E. Number of locals benefitting, which can also be considered as a cost-benefit or per capital analysis.

F. Executability of the project (in terms of completion, operation and sustainment of the project).

G. Relationship to other similar efforts, such as replicating other successful projects funded with CERP.

270415. Project Execution

During project execution, the Commander responsible for the project will ensure that construction meets engineering standards and that performance is updated against the relevant metrics. At project completion, the Commander will ensure final inspections are completed and the project is documented in all required databases and then transferred to appropriate Afghan officials for sustainment.

270416. Training

In order to optimize the execution of the CERP, all individuals involved in the administration and execution of the program are required to complete CERP training. DoD CERP Training Standards, published in November 2011, established pre-deployment and in-theater training standards for all DoD personnel involved in administering and executing the CERP.

2705 REPORTS AND NOTIFICATIONS

270501. CERP Quarterly Report

Not later than the 30th day following the end of each fiscal quarter, the Army must submit to the congressional defense committees a CERP report of top-line CERP commitments, obligations, and disbursements as of the last day of the preceding quarter. Army will provide a copy of the report to USD(P), USD(C), USCENTCOM J8, Commander, USFOR-A, and the Joint Staff, J8.
270502. CERP Review and Reporting Tool

Personnel at USFOR-A, USARCENT, USCENTCOM, the Joint Staff, the Army, USD(P), and USD(C) must monitor the online CRRT to evaluate the following data fields for all CERP projects:

A. For projects less than $500,000:

1. Unit.

2. Train, Advise, Assist Command.

3. CIDNE Record Number.

5. Project Category from USD(C) categories in this reference.

6. Obligation date.

7. Description (two or three sentences that describe the project for a person not familiar with it).

8. Province where project is located.

9. Total amount committed, obligated, and disbursed for the project.

10. Current status of the project and projected completion date or when the project was completed, noting also whether the project was finished or terminated for other reasons.

B. For projects equal to or greater than $500,000:

1. All information identified under subparagraph 270502.A.1 – 10 for all projects.

2. Description of the plan for the transition of the project when completed to the Afghan people/government. If project sustainment is required, document the GIRoA’s commitment to sustain the project.

3. Amount of GIRoA funding for the project, if any.

4. Date when the project is or will be transferred to GIRoA.

5. Provide justification outlining how the project supports overall CERP objectives.
6. Number of local citizens estimated to benefit directly from the project.

7. Note if one of the goals of the project includes benefit to internally displaced citizens.

C. If any errors are noted, reviewers will use the CRRT request for information (RFI) function to notate required corrections. USFOR-A will fix data discrepancies, as needed, in the source system (i.e., CIDNE and/or GFEBS) and respond to the RFI in the CRRT. The Army will use the information in the CRRT fields to generate the semi-annual report outlined in paragraph 270503.

270503. CERP Semi-Annual Report

Army, with the support of the USD(P) and the USD(C), must submit to Congress the semi-annual report required under the NDAA for FY 2012, section 1201, as amended. The report is due to Congress no later than 45 days after the end of each half of a fiscal year.

*270504. Congressional Notification

Not less than 15 days prior to obligating or expending funds made available for the CERP and with Secretary of Defense approval, the USD(P) sends written notice to the congressional defense committees for projects with an estimated total cost for completion of $500,000 or more. The USD(P) will provide the USD(C) and the Army with a copy of the Secretary of Defense congressional notification.

270505. Changes in Guidance

The USD(C) will notify the congressional defense committees no later than 15 days after issuing any change to this guidance. The Commander, USFOR-A will notify the USD(P), the USD(C), USCENTCOM, and the Secretary of the Army no later than 15 days after issuing any changes to their CERP implementing guidance (i.e., the CERP Standard Operating Procedures in the “Money As A Weapon System Afghanistan” guidance).

2706 WAIVERS

270601. Requests

Request for waivers from, or exceptions to any provision of law that would (but for the waiver or exception) prohibit, restrict, limit, or otherwise constrain the execution of the CERP must be submitted through the USD(C) and DoD General Counsel to the Secretary of Defense for approval.
270602. Submission

Requests for waivers or exceptions to this guidance must be submitted by the Army, in coordination with Commander, USCENTCOM, to the USD(C) for approval.

*2707 EFFECTIVE DATE

This guidance is effective immediately. CERP data must meet the requirements of section 1201 of the NDAA for FY 2012 for any project begun on or after December 31, 2011.
CERP Category Definitions and Projects

1. **Agriculture**: Small-scale projects when urgently required to increase agricultural production to feed the people of Afghanistan:

   A. Wind breaks for fields
   B. Pesticide control for crops
   C. Animal husbandry practices
   D. Veterinary clinics, supplies, and care of animals
   E. Seeds for planting
   F. Fertilizer
   G. Purchase of initial, parents livestock for herds
   H. Animal health
   I. Aquaculture
   J. Fish farms
   K. Purchase of farm equipment or implements
   L. Irrigation wells
   M. Irrigation ditches
   N. Canal cleanup
   O. Water pumps
   P. Siphon tubes
   Q. Terracing
   R. Sprinkler irrigation
   S. Dust suppression
   T. Central pivot irrigation
   U. Sub-irrigation
   V. Agricultural Training Facilities and Demo-Farms

2. **Battle Damage Repair**: Projects for individual Afghan civilians to repair property damage that results from U.S. military operations not compensable under the Foreign Claims Act.

3. **Civic Cleanup Activities**: Small-scale projects to clean public areas when required for urgent health and safety purposes:

   A. Streets and roads
   B. Demolition of old buildings/structures
   C. Trash removal
4. **Civic Support Vehicles**: Projects to purchase or lease vehicles for public/government use in support of urgent civic and community health and safety requirements:
   A. Construction vehicles for health- and safety-related public works
   B. Water and trash trucks
   C. Ambulances
   D. Fire Trucks

5. **Condolence Payments**: Payments to individual Afghan civilians, or surviving relatives residing in Afghanistan, for the death or physical injury resulting from U.S. military operations not compensable under the Foreign Claims Act. Payments are limited to a maximum of $5,000 total per individual injured or killed. The amount may be increased up to a maximum of $15,000 for the loss of the head of household with the approval of the Commander, U.S. Forces – Afghanistan (USFOR-A) or the Commander’s delegate.

6. **Education**: Small-scale projects to build, repair, or improve schools, and to purchase school supplies or equipment, in order to provide urgently needed basic education:
   A. Build, repair, or improve primary, middle, and high schools
   B. Tents for use as schools/classrooms
   C. School supplies and textbooks
   D. Furniture, desks, and mats
   E. Sports equipment (e.g., soccer balls/goals) for schools

7. **Electricity**: Small-scale projects to provide electricity in direct support of urgent humanitarian or reconstruction efforts; this category is limited to the purchase or repair of portable generators and solar panels.

8. **Food Production & Distribution**: Small-scale projects to increase urgently needed food production or distribution processes:
   A. Food handling technology, including refrigeration, storage, warehousing.
   B. Production, transportation, and supply logistics to facilitate distribution of food products
   C. Food labeling and packaging
   D. Food production safety
   E. Training for the production and regulation of food

9. **Healthcare**: Small-scale projects to build, repair, or improve infrastructure/equipment or to provide urgently needed medical/immunization supplies to health facilities:
   A. Construction/repair of clinics and hospitals
   B. Transportation for doctors in rural areas
C. Transportation to and from hospitals for patients needing treatment who are without access to transportation  
D. Furnishings for clinics and hospitals  
E. Expendable medical supplies  
F. Durable and non-expendable equipment for medical facilities  

10. **Other Urgent Humanitarian Relief or Reconstruction Projects:** Urgent humanitarian relief and reconstruction projects, not captured under any other category, that provide an immediate and direct benefit to the people of Afghanistan. This category should be used **only** when no other category is applicable.  

A. Tents, tarps, plastic sheeting, and other temporary construction materials  
B. Blankets  
C. Clothes, shoes/boots, winter coats/gloves  
D. Hygiene and sanitation kits  
E. Subsistence food items (e.g., rice, bread, flour, tea, cooking oil)  
F. Stoves  
G. Coal, charcoal, wood or other locally available fuel for heat and cooking  
H. Temporary sanitation/ablution facilities  
I. Transportation of humanitarian materials  
J. Hosting shuras at the Provincial and District level to address the root causes of instability, including the provision of light refreshments (limited to $10 per attendee per day), lodging expenses (not to exceed $25 per night per attendee), providing or renting a shura venue, augmenting physical security for the shura venue, and providing administrative support for the shura  

11. **Repair of Civic Facilities:** Small-scale projects to repair or restore civic buildings or facilities needed for urgent health or safety requirements:  

A. Civic/community centers  
B. Women’s centers  

12. **Telecommunications:** Small-scale projects to repair, but not construct, urgently needed communications systems or infrastructure:  

A. Radio stations (including equipment purchase, repair, and maintenance)  
B. Communications systems for emergency responders (telephones, two-way radios, repeaters, antennas)  
C. Loudspeaker systems
13. **Temporary Private Civilian Security Guards:** Small-scale projects for guarding infrastructure, including neighborhoods, other public areas, and electoral facilities. Private civilian security guards may be used, in the absence of Afghan National Defense and Security Forces, in areas of insurgent activity in order to establish a secure environment which facilitates the distribution of urgent humanitarian relief, urgent reconstruction, and the return of internally displaced persons. These projects may only be requested by the Commander, Special Operations Task Force – Afghanistan (SOTF-A). For the purpose of this section, “temporary” means protecting an area for 6-months or less. Commanders will not use private civilian security guards for consecutive 6-month periods for the same area.

14. **Transportation:** Small-scale projects to build, repair, or improve urgently needed local routes that link to primary highways, markets, health facilities, schools, and government services:

   A. Roads and drainage
   B. Bridges and canals
   C. Traffic safety and control measures (e.g., signs, lights, traffic barriers/markers)
   D. Equipment to maintain local transportation networks

15. **Water & Sanitation:** Small-scale projects to build, repair, or improve local drinking water availability or to enhance public sanitation:

   A. Wells (regardless of the end user, unless the end user is an unauthorized recipient of CERP assistance, such as security forces)
   B. Water pumps
   C. Water treatment facilities
   D. Production or distribution of potable water
   E. Establishing trash collection points
   F. Waste disposal sites
   G. Sewage treatment
   H. Retaining walls for flood prevention
   I. Dumpsters
   J. Public latrines
   K. Water testing
**ANNEX B**

**CERP Semi-Annual Report Commander’s Narrative**

1. Each semi-annual report, submitted in accordance with paragraph 270503, will be informed by a Commander’s Narrative from the Commander, U.S. Forces – Afghanistan (USFOR-A) that within the first 30 days of each half fiscal year establishes:
   
   A. Commander’s overall goals for the CERP funding
   B. Areas of emphasis for using the funding
   C. How progress against the identified goals will be judged

2. The Commander’s Narrative will also review the program performance in the prior half year, report progress achieved against the identified goals, and address the following:
   
   A. Significant events/issues that have occurred since the previous quarterly report
   B. Adequacy of projected funding
   C. Areas anticipated to be of interest to USCENTCOM, HQDA, OSD and Congress
   D. Any problems arising in the transfer of completed projects to the Governments
   E. Impact of security situation on monitoring of CERP-funded projects
   F. Newly approved projects ≥$500,000 and the category of any project
   G. Projects ≥$500,000 that were completed during the quarter and category of each project.
   H. Contributions each project ≥$500,000 made to humanitarian relief and reconstruction efforts for the benefit of the Afghan people.
   I. Efforts made to obtain donor funding for projects and results obtained.
   J. Identification of any projects or category of projects that are cost-shared and with whom.
   K. Date that projects were turned over to the appropriate government.
   L. Impacts of CERP-funded projects, individually and collectively in assisting the U.S. carry out its strategy.
VOLUME 12, CHAPTER 29: “ADMINISTERING, USING, AND ACCOUNTING FOR SEIZED AND/OR VESTED FUNDS AND PROPERTY DURING CONTINGENCY OPERATIONS”

SUMMARY OF MAJOR CHANGES

All changes are denoted by blue font.

Substantive revisions are denoted by an asterisk (*) symbol preceding the section, paragraph, table, or figure that includes the revision.

Unless otherwise noted, chapters referenced are contained in this volume.

Hyperlinks are denoted by bold, italic, blue, and underlined font.

The previous version dated May 2017 is archived.

Shipment and Distribution of Funds During Contingency Operations

A. Purpose and Applicability

This annex addresses the duties, responsibilities, and procedures to be followed by the host nations, Office of the Under Secretary of Defense (Comptroller) (OUSD(C)), and the designated Executive Agent when requesting and shipping vested funds to host nations.

B. Responsibilities

The administrator of the host nation, along with OUSD(C) and the Executive Agent will coordinate, request, document and arrange for the shipment of vested funds to the host nation.

C. Definitions

1. Contingency operations include, but are not limited to, support for peacekeeping operations, major humanitarian assistance efforts, noncombatant evacuation operations, and international disaster relief efforts.

2. Host nation is a nation that receives the forces and/or supplies of allied nations, and/or coalition partners to be located on, to operate in or to transit through its territory.

3. Coalition Forces are defined as a temporary alliance of factions, nations, or countries, for a specific purpose, in times of international conflict or war.

4. Executive Agent is the head of a Department of Defense (DoD) Component to whom the Secretary of Defense or the Deputy Secretary of Defense has assigned specific responsibilities, functions, and authorities to provide defined levels of support for operational missions, or administrative or other designated activities that involve two or more of the DoD Components.

5. Interim government is defined as a temporary government formed by the host nations or allies until a permanent government can be installed by the local people.

6. Vested assets are those frozen by Presidential Executive Order and vested with the U.S. Department of Treasury (Treasury) for return to the host nation.
7. Spending plan is a plan describing the purposes and the amounts of proposed expenditures of vested and seized property, developed by the host nation or the interim government, and submitted through appropriate channels for approval.

D. Procedures

1. The administrator of the host nation will make a determination that vested funds are needed for a specific purpose or objective.

2. After the determination is made, the host nation’s comptroller will notify the OUSD(C) to create the necessary funding documents. The host nation’s comptroller will also provide OUSD(C) with the host nation approved spending plans, supporting the distribution of the funds. The host nation’s comptroller will identify the amount of money required along with the quantity of each denomination.

3. OUSD(C) will notify Treasury that cash is needed. When possible, the host nation’s comptroller will give the OUSD(C) and Treasury at least a 10-day advance notice of when the money is needed in country. The Treasury will notify the Federal Reserve Board. The Federal Reserve Board will work with the designated Federal Reserve Bank to procure the amount of money needed and denominations as requested.

4. The host nation’s comptroller, in coordination with the Executive Agent, is responsible for coordinating the delivery date and location where the money is to be delivered to allow for a maximum force protection posture keeping in mind customs, requirements and coordination with the host nation. The designated Executive Agent will coordinate with the Surface Deployment and Distribution Command to arrange transportation, security and loading of aircraft at the designated debarkation point to meet the host nation’s desired delivery date.

5. The designated Executive Agent will provide the flight number and arrival time in country to the designated receiving disbursing officer and to the host nation to ensure security and logistical assets are available to off-load the currency.

6. The Executive Agent’s financial operation’s designee will ensure security and logistical assets are available to off-load the currency.

7. The Federal Reserve Board will notify the contracted armored carrier service to escort the money to the designated military installation. When the shipment arrives at the designated military installation, the accountable individual will be a military officer assigned to accompany the flight to the appointed airport.

8. Once at the designated military installation, the money is verified, arranged on pallets and shrink-wrapped to prevent loss and ensure accountability during shipment. The money is then loaded onto available military aircraft and escorted by two designated couriers. The accountable individual has accountability for the money from the designated shipping point to designated receiving point.
9. Accountability will transfer from the accountable individual to the designated custodian for host nation funds or disbursing officer’s representative, at the designated receiving point upon verification of funds.
ANNEX 2 DUTIES UPON ASSUMING POSSESSION OF FUNDS AND/OR PROPERTY

A. Purpose and Applicability

1. This annex addresses the duties, responsibilities, and general procedures to be followed by the Coalition Forces upon discovery, possession, seizure, or receipt of funds and/or property. Specific procedures to ensure accountability and transparency of vested and seized property must be developed to accommodate each unique contingency operation. Policy memorandums specific to each on-going contingency operation will be maintained on the DoD Financial Management Regulation website at Policy Memoranda; Volume 12, Special Accounts, Funds and Programs.

2. The designated Executive Agent shall coordinate with the OUSD(C) to develop specific procedures upon the notification of pending contingency operations. Such procedures will apply to all parties involved in the area(s) of operations for the specific contingency operations as specified in the policy memorandum.

B. Responsibilities

1. Command Responsibility. It is the obligation of the Combatant Commander and subordinate commanders at all levels to ensure all local regime or private property, cash, or other valuables seized, received, or otherwise taken into possession are properly secured, safeguarded, controlled and accounted for.

2. Individual Responsibility. It is the responsibility and obligation of all Coalition Forces personnel to: (1) notify superiors in a timely manner of any property seized or received; (2) keep records of and account for such property; and (3) properly secure, safeguard, and control the property in their physical possession. If required, assist other assigned or responsible personnel in the conduct of their duties to secure and safeguard such property or assets.

3. Custodial Responsibility. This responsibility can be either formally assigned or it may be an inherent responsibility derived from command authority. Custodians shall take all necessary and prudent actions to properly secure, control, account for, and safeguard property that comes into their physical possession.

4. Accountable Individual. An accountable individual will be appointed by the commander of the Coalition Forces (Detachment, Company, Battalion or equivalent activity) that originally finds, seizes, secures, or otherwise takes possession of public or private property, cash, or valuables. The accountable individual may be a Coalition Forces commissioned or warrant officer or a properly qualified Coalition Forces civilian manager detailed or attached to the activity. The accountable individual will: maintain formal property, inventory, and accounting
records that show, on a continuing basis, the identification or description or the items held, the physical count of cash and face value of currency and securities held by denomination, record of all gains or losses and on-hand balances, the conditions and locations of all property assigned or in possession, and evidence of the chain of custody maintained from time of first receipt or possession (by hand receipt or other record).

C. Definitions

Seized funds are cash and property confiscated by coalition forces during military operations and governed by the laws and usages of war. Normally captured foreign currency shall be delivered promptly into the custody of the State Department’s United States Disbursing Officer (USDO) supporting the particular country involved. Any DoD DO acquiring captured foreign currency shall ensure the funds are safeguarded and delivered to the USDO as soon as possible. Captured foreign currency shall not be collected into the DOs accountability as prescribed in Volume 5, Definitions.

D. Procedures

1. Secure the property. Use armed guards or other appropriate forms of control as necessary.

2. The ranking military member present when the property is secured automatically becomes the accountable individual with custodial responsibility.

3. Conduct and document a physical inventory of the property. Establish a custodial record, using and modifying DA Form 4137 (Evidence/Property Custody Document) (Figure 2-1) as appropriate.

4. Remove the property, using appropriate care and security, to a controlled area and deliver to an accountable officer.

5. The accountable individual will deliver the property in the form of cash, jewels, precious metals or other items of value to the nearest disbursing officer or disbursing officer’s representative. Upon receipt, the disbursing officer or DO representative shall become the designated custodian official for the cash, jewels, and precious metals. All other property should be handled through established logistics channels. If the seized assets have been designated to be collected into a trust fund, the DO will take them into his accountability. The DO will safeguard and account for the assets as prescribed in Volume 5, Chapter 16.

6. This accountable individual shall establish the appropriate accounting records.

7. Officers with custodial responsibility shall take all prudent and necessary steps to accomplish their responsibilities in this area, including observing and controlling the actions of subordinates, as needed, to safeguard property in their custody.
E. Determination of Public or Private Property Status

1. The location where the property was discovered or obtained must be considered in determining whether property is public or private. It is important that the officers with custodial responsibility document the location and circumstances under which property was obtained. In general, property obtained or seized at palaces or government ministry offices or other government compounds will be assumed to be the local regime assets. Property discovered in private residences or commercial locations or in rural locations will be initially assumed to be private assets. If what appears to be stocks or concentrations of looted goods are discovered, this property will initially be considered public.

2. Any additional documentation found with or adjacent to property may be used in the process of making a final determination on the status of the property. This documentation could include such items as records, invoices, vouchers, inventory lists, letters, or other forms of property identification. The officer initially charged with custodial responsibility will be required to make the determination as to the relevance of any documentation found with or in the vicinity of property recovered or seized. Should the documentation be deemed relevant, the officer charged with custodial responsibility will secure and include that documentation along with the property seized.

3. When property is seized from banks or other financial institutions, the custodial officer will secure and include all available, relevant documentation that will assist in the final determination of the status of the property. Other sources of information can be used to assist in these cases, including but not limited to, intelligence information and records obtained at government ministries describing banking or financial institutions used by the regime as part of their government financial system. Final determinations of the status of any seized assets or property will be made in conjunction with U.S. and Coalition Forces legal authorities.

ANNEX 3 FINANCIAL RECORDS RETENTION AND DISPOSITION DURING CONTINGENCY OPERATIONS

A. Purpose and Applicability

This annex provides guidance on the submission of necessary documents and reports during contingency operations in order to provide pertinent information to the designated accounting site. It addresses the duties, responsibilities, and procedures to be followed by the disbursing officers and certifying officers when providing disbursement services during contingency operations.

B. Responsibilities

The disbursing officer or his designee shall ensure that all original disbursing officer records and associated papers are retained as government property as cited in Volume 5, Chapter 15. These records shall be readily accessible to the disbursing officer for 6-years period consistent with guidance in the National Archives and Records Administration, General Records Schedules or in accordance with the specific record schedules authorized for their DoD Components. Extension to this record retention period may be warranted on a case-by-case basis.

C. Procedures

1. All disbursing officers will keep a daily report of all transactions processed.

2. All disbursement documents shall be supported by either hard copy or readable machine source records to ensure that:
   a. A legal obligation to pay exists (typically a contract);
   b. The payee has fulfilled any prerequisites to payment (typically an invoice and receiving report);
   c. The amount of the payment and identity of the payee are correct;
   d. The payment is legal under the appropriation or fund involved (typically the correct fiscal year and appropriation); and
   e. The documentation links together all records and supports an audit of certifying and disbursing officer transactions as required by law. In addition, a copy of the spending plan must be retained with the original disbursement vouchers.

3. If disbursements are made in cash, the voucher should be receipted by the vendors and/or receipts from the vendors should be attached to the vouchers.
4. The designated accounting site must issue specific accounting and document retention and disposition requirements for paid vouchers. These requirements must be satisfied within 30 days of the payment.

5. The original collection and disbursement vouchers shall be forwarded with the DD Form 2657 (Daily Statement of Accountability) to the designated accounting site as soon as possible after the close of the business day. Disbursing officers shall take extra precautions to ensure that all copies prepared for distribution are completely legible. Additional guidance on the assembly and transmittal of financial reports can be found in Volume 5, Chapter 15.

6. Original paid vouchers shall be safeguarded consistent with standard security regulations prescribed in Volume 5, Chapter 3.

7. Payments using vested and seized funds shall be made and documented consistent with Volume 5, Chapter 9.

8. All vested and seized funds shall be delivered, transported and safeguarded consistent with Volume 5, Chapter 3.
ANNEX 4 DEVELOPMENT OF FUNDING REQUIREMENTS FOR VESTED AND SEIZED PROPERTY

A. Purpose and Applicability

This annex addresses the duties, responsibilities, and procedures to be followed by the government or designated interim government when working to identify and develop requirements for spending plans in restoring and rebuilding the host country for its people. There may be multiple funding sources available for the purpose of stabilization, reconstruction and humanitarian assistance for the benefit of the local people.

B. Responsibilities

1. It is the responsibility of the appointed/designated officials and coalition commanders to explain the requirements for obtaining vested and seized property for projects that achieve the mission of the designated government.

2. Local designated governmental officials and coalition commanders are responsible for requesting funding from vested and seized assets to accomplish approved projects and requirements by submitting the appropriate funding request form to the designated review board.

3. The majority of funding requirements are expected to be included in the interim government budgets. However, unanticipated or emergency requests will be accepted by the designated review board for consideration. The local government offices shall prepare complete funding request forms to request funding for requirements not addressed in budget submissions.

C. Procedures

1. The funding request form will be reviewed in accordance with the interim government process for the allocation of funds. The designated committee, will conduct the initial review of all program funding requests and project submissions, categorize them, and make recommendations to the designated review board for the allocation of vested and seized funds. The designated review board is responsible for preparing and submitting allocation requests to the Administrator for approval. The designated review board requests will include proposed allocations of available resources. The specific roles, responsibilities, and membership of the interim government designate review board will be determined at the formation of the interim government. For approved projects using Seized and Vested Assets, the interim government is the final authority. After the interim government approval, the interim government comptroller will provide the appropriate funding form and related decision documents to the OUSD(C) and the designated Executive Agent budget office.

2. Once funding requests are approved by the Administrator, the requestor must submit a completed Standard Form 1034 (Public Voucher for Purchases and Services Other Than Personal), along with a spending plan to the interim government comptroller for the
disbursement of funds. A spending plan is a plan describing the purposes and amounts of proposed expenditures of vested and seized property, developed by the host nation or the interim government, and submitted through appropriate channels for approval.
ANNEX 5 ALLOCATION, DISBURSEMENT, AND FINANCIAL REPORTING OF VESTED AND SEIZED PROPERTY

A. Purpose and Applicability

This annex applies to all parties involved in the receiving, disbursing, accounting for, securing, and reporting of vested and seized property. Specific procedures to accommodate each contingency operation must be developed to ensure accountability and transparency of vested and seized property. Policy memorandums specific to each on-going contingency operation will be maintained on the Department of Defense Financial Management Regulation website at Volume 12, Special Accounts, Funds and Programs; Policy Memorandums.

B. Responsibilities

1. Coalition Government Responsibility. The coalition government (or interim government) is responsible for identifying program requirements, identifying appropriate funding sources for requirements, initiating reprogramming actions when needed, maintaining program accountability, fund certification, certifying receipt of goods, services, and payroll, and certifying disbursement of funds.

2. The Designated Executive Agent (Resource Management) Responsibility. The Executive Agent (Resource Management) is responsible for:

   a. Providing commitment accounting support documentation;

   b. Providing obligation transactions input to the designated accounting site for processing into the appropriate accounting system;

   c. Monitoring fund execution; and

   d. Certifying all required financial reports.

3. Disbursing Officer (DO) Responsibility. The DO is responsible for:

   a. Processing DD Form 1131 (Cash Collection Voucher) for seized assets and SF 5515 (Debit Voucher) for vested assets to increase cash balances;

   b. Disbursing cash to host nation authorized payees;

   c. Processing disbursements in the appropriate disbursing system; and

   d. Transferring SF 1034s (Public Voucher for Purchases and Services Other Than Personal) and SF 44s (Purchase Order-Invoice-Voucher) and support documents to the designated accounting site promptly.
4. **The Designated Accounting Site.** The designated accounting site shall maintain the accounting database and prepare, certify, and process SF 1081s (Voucher and Schedule of Withdrawal and Credits) based upon receipt of the Funding Authorization Documents (FADs); post disbursement and obligation transactions processed by the designated disbursing office to the appropriate accounting system; and maintain documentation for future review and audit. In addition, to record an increase in the DO’s accountability under general ledger control, the designated accounting site will prepare an Optional Form 1017-G – Journal Voucher (OF 1017-G, Figure 5-1) upon receipt of the monthly SF 1219 (Statement of Accountability) from the DO.

C. **Procedures**

1. **Program Control Procedures**
   
   a. Specific procedures shall be developed to accommodate the unique circumstance of each contingency operation.

   b. Cash accountability will be maintained on the DO’s DD 2657 (Daily Statement of Accountability) and monthly SF 1219.

   c. The designated accounting site will determine the appropriate accounting system to be used as the book of original entry.

   d. The Executive Agent shall monitor execution of funds.

   e. All collections and disbursement transactions are reported on the disbursing officer’s SF 1219 (Statement of Accountability).

2. **Funds Management Procedures**

   a. **Fiscal Coding and Management Structure.** The Executive Agent, in coordination with the designated accounting site, will establish the fiscal coding and management structure, including monthly and annual reporting levels, budget activities, and project codes. The coding structure and budget activities are established per Treasury and the Office of Management and Budget guidance received and in coordination with the host nation.

   b. **Vested Assets.** Vested assets are funds vested in Treasury by operations of domestic law. A special Treasury General Fund Account Symbol shall be used to record cash deposits and disbursements of vested funds. This unique account shall be used only for the purpose designated for the use of vested funds.

   c. **Seized Assets.** Seized funds are cash and property confiscated by coalition forces during military operations and governed by the laws and usages of war. A special Treasury Deposit Fund Account Symbol shall be used to record seized assets after
validation by the designated Federal Reserve Bank. This unique account shall be used only for the purpose designated for the use of seized funds.

d. Detailed Accounting Codes. The host nation’s comptroller shall request detailed accounting transaction codes through the Executive Agent’s headquarters, from the designated accounting site, based on the fiscal coding and management structure established.

3. Disbursing Operations and Cash Accountability Procedures

a. The coalition government must provide certifying official appointment letters and signature cards, DD Form 577 (Appointment/Termination Record – Authorized Signature) to the DO for all host nation personnel that will certify SF 44s or SF 1034s for payments.

b. Prior to disbursing, the coalition government shall obtain validated, detailed documentation to support payment of payrolls, utilities, and other goods and services from the designated host nation officials. For accountability purposes, supporting documentation from automated local payment systems should be used if they are determined to be available and adequate. The coalition government shall obtain from host nation officials organizational listing(s) of individuals authorized to receive payment at the designated payment site(s), and the amount each individual is to be paid. The host nation will certify the payment vouchers and present to the DO for payment. The DO and the host nation shall follow customary local practices for validation of, and payment for, normal and/or recurring utilities and other goods and services. The host nation will ensure adequate controls are in place by utilizing supporting documentation from local officials to ensure goods and services were received.

c. The host nation shall prepare and submit a memorandum to the DO, including the date, time, location, number of payees, and amount of money to be disbursed at each site. The DO shall disburse funds based on the amount of the certified voucher. The designated disbursing or paying agent will provide supporting documentation for the additional funds. The DO will advance funding to the disbursing or paying agent via a DD Form 1081 (Statement of Agent’s Accountability). After the paying agent has finished making payments, he/she will use the payroll plus any additional payments added to the payroll to balance with the DO.

d. The host nation’s representative appointed as the certifying official will certify the payment(s), and will date and sign the payment voucher.

e. Payments made using seized and vested funds shall be certified in a manner consistent with Volume 5, Chapter 5.

f. Paying agents responsible for making disbursements of vested and seized funds shall be appointed consistent with Volume 5, Chapter 2.
4. **Delivery of Funds Procedures**

   a. A host nation’s fund custodian or paying agent will deliver the funds to the designated pay site(s). Designated cashiers or designated local representatives will sign a receipt acknowledging receiving the funds and make payments at the designated pay site(s). The cashiers will acknowledge receipt from the disbursing agent on a DD Form 1081. Designated host nation representatives will verify the amount and date, and then sign as the payee on the SF 1034 or SF 44. The host nation appointed task force will ensure, insofar as practicable, that designated coalition representatives properly secure funds at the designated pay site(s) and/or while transporting funds to remote sites.

   b. The cashiers and/or designated host nation representatives shall disburse funds to designated individuals or service providers. All disbursements shall be documented with a certified voucher with supporting documentation to validate who received the funds and the purpose that the funds will be used.

   1. **For Payrolls.** Individuals must present proper/valid identification, and acknowledge receipt of payment by signing the payroll list or other appropriate form.

   2. **For Payment of Utilities and Other Goods and Services.** The host nation shall appoint paying agents in accordance with Volume 5, Chapter 2. The DO shall brief all cashiers and paying agents on their responsibilities and pecuniary liability for funds. A properly certified voucher with supporting documentation (receipt and invoice) must be presented when disbursing for other than payroll.

   c. Paying agents will be advanced funds on a DD Form 1081, “Statement of Agent Accountability”. The paying agent will disburse funds based on a properly certified SF 44 or SF 1034. Any funds not disbursed that are remaining after the mission is completed and all disbursements have made will be returned to the DO using a DD Form 1081 and DD Form 2665. The paying agent will use the certified disbursed vouchers to balance with the remaining funds and the advancing DD Form 1081. The host nation comptroller will conduct weekly reviews of any balances on hand at the designated local payment sites. The host nation comptroller shall also review supporting documentation to validate beginning balances, all disbursements and ending cash balances. The host nation comptroller shall verify cash on-hand matches the ending cash balance and that the funds are properly secured. Any funds returned from the designated local payment sites to the host nation comptroller will be collected into the DO’s accountability using a DD Form 1131.

5. **Paying Operations Procedures**

   a. **Purchasing Officer Appointments.** The host nation contracting activity must appoint purchasing officers. Purchasing officers are appointed to purchase goods and services, and are authorized to make such purchases via the SF 44.

   b. **Paying Agent Appointments.** Paying agents must be appointed to pay for commercial services or supplies in support of purchasing officers.
(1) Requests for paying agents must be made in writing to the DO.

(2) Host nation commanders authorized to appoint paying agents shall do so in writing in accordance with Volume 5, Chapter 2. The DO must appoint cashiers from the local finance command. The DO shall brief them on the responsibilities and potential pecuniary liability for funds.

(3) Paying agent appointments may be for either a specific transaction or a specified period of time.

(4) Appointed paying agents may not serve concurrently as purchasing officers and may not be charged with the handling or custody of any other funds.

6. Disbursing Procedures

a. The host nation comptroller shall prepare a memorandum to the DO providing date, time, location, number of paying agents, names of the paying agents, and amount of money to be disbursed to each paying agent.

b. The DO or disbursing agent will advance the funds to the appointed paying agent(s) using DD Form 1081. The paying agent shall sign the DD Form 1081 as a receipt for the funds.

c. The paying agent will disburse funds in accordance with the purchasing officer’s authorization. The purchasing officer and the paying agent will use the SF 44 to make purchases and payments. The purchasing officer will sign and certify the SF 44.

d. The SF 44 must be signed by the paying agent and the individual receiving the funds.

e. The paying agent must keep the original SF 44 with all signatures. Upon mission completion, the paying agent must return all supporting documentation (e.g., original receipts and SF 44s) and remaining cash to the DO in country or designated government financial activity in order to clear the DD Form 1081.

f. The host nation comptroller will authorize any replenishment of funds. The host nation comptroller certifying official must prepare another memorandum to the DO requesting additional funds. A new DD Form 1081 will be prepared by the DO.

g. Imprest fund cashiers will not be utilized. Purchasing agents appointed by the host nation comptroller-designated government procurement activity will be used to make small purchases, as needed. Disbursing agents will disburse payments based on certified vouchers provided by an appointed certifying officer.
7. Reconciliation Procedures

   a. The host nation comptroller and designated accounting site shall conduct a joint reconciliation of commitments and obligations in accordance with Volume 3, Chapter 8. Additionally, the DO and designated accounting site will need to follow existing requirements associated with reporting and reconciliation of DO deposit fund accounts.

   b. The DO and cashiers shall follow standard daily balancing procedures as identified in the Volume 5, Chapter 15. Additionally, quarterly cash verifications will be conducted in accordance with Volume 5, Chapter 3.

   c. The host nation reports required in Annex 7 will require reconciliation of Program Review Board approved projects versus disbursements.

8. Audits and Program Reviews

   The administration, use, and accounting of seized and vested assets will be subject to periodic audits by the Department of Defense’s internal audit organizations, including the Office of Inspector General, as well as external organizations such as the Government Accountability Office and congressional oversight committees. All officials responsible for administering vested and seized assets shall cooperate fully with any review, audit, or investigation conducted by such organization.

ANNEX 6 MONTHLY INVENTORY REPORT OF SEIZED PROPERTY

A. Purpose and Applicability

This annex addresses the duties, responsibilities and procedures to be followed by the designated DO or designated government financial activity supporting the host nation’s interim government in preparing monthly reporting of vested and seized property.

B. Responsibilities

The designated Executive Agent having custody of the seized assets shall prepare monthly reports describing all vested and seized property in the possession of host nation officials. These reports shall distinguish between vested and seized property.

The designated Executive Agent having custody of the seized assets shall submit the monthly reports under cover memorandum to the host nation and the OUSD(C), with copies furnished to the Principal Deputy Under Secretary of Defense (Comptroller), and the Director, the appointed Executive Agent’s Resource Management Directorate no later than close of the fifth business day of the month following the month being reported.

C. Reporting Procedures

1. Follow the attached sample report format (Figure 6-1).

2. Instructions

   a. Report Title - enter the name of the month and the year in the title of the report.

   b. Line 1.A.1 – enter the beginning balance of the vested cash in possession of U.S. government officials. After the first monthly report, the beginning balance will be the ending balance of the previous month (e.g., the beginning balance for June will be the ending balance from May).

   c. Line 1.A.2 – enter the amount of vested cash disbursed during the month being reported.

   d. Line 1.A.3 – enter the amount of vested cash deposited to financial institutions and no longer in the possession of host nation officials.

   e. Line 1.A.4 - enter the amount of collections.

   f. Line 1.A.4.1 - this line will include the amount of cash collected back into the disbursing office.
g. Line 1.A.4.2 - enter the amount of vested cash collected during the month.

i. Table 1.B – Non-Cash Assets Vested and Divested – provide, in table format, a listing of vested non-cash property by category (e.g., jewelry, arms, equipment, artwork, etc.), a brief description and item count for such property in the possession of host nation officials. This table shall include a cumulative listing of all vested non-cash property in the possession of host nation officials.

   (1) Column 1 – enter the category of the non-cash property.

   (2) Column 2 – enter a brief description of the items within the category in Column 1.

   (3) Column 3 – enter the beginning count of items in the possession of host nation officials. After the first monthly report, the beginning balance will be the ending balance of the previous month (e.g., the June beginning balance will be the May ending balance).

   (4) Column 4 – enter the entity to which the host nation official divested the non-cash property.

   (5) Column 5 – enter the count of items divested.

   (6) Column 6 – enter the sum of Column 3 minus Column 5 (Column 3 – Column 5).

j. Line 2.A.1 – enter the beginning amount of seized cash (US dollars) in the possession of host nation officials. After the first monthly report, the beginning balance will be the ending balance of the previous month (e.g., the beginning balance for June will be the ending balance from May).

k. Line 2.A.2 – enter the amount of seized cash (U.S. dollars) verified as authentic currency during the reporting period and available for disbursement.

l. Line 2.A.3 – enter the amount of seized cash verified as counterfeit.

m. Line 2.A.4 – enter the sum of Line 2.A.1 minus Line 2.A.2 minus Line 2.A.3 (i.e., Line 2.A.1 – Line 2.A.2 – Line 2.A.3). This amount represents the amount of seized cash (U.S. dollars) in the possession of host nation officials that has not been verified as authentic currency and available for disbursement.
n. Line 2.A.5 – for the first monthly report enter 0.00 (zero). After the first monthly report, the beginning balance will be the ending balance of the previous month (e.g., the beginning balance for June will be the ending balance from May).

o. Line 2.A.6 – enter the amount of seized cash (U.S. dollars) verified as authentic currency during the month and available for disbursement.

p. Line 2.A.7 - enter the amount of seized cash (U.S. dollars) disbursed during the month being reported.

q. Line 2.A.8 – enter the amount of seized cash (U.S. dollars) deposited to financial institutions and no longer in the possession of host nation officials.

r. Line 2.A.9 – enter the amount of seized cash (U.S. dollars) collected during the month. This amount will include the amount of cash collected back into the disbursing office.

t. Table 2.B – Coin/Currency (Non-U.S. dollars) – enter, in table format, a listing of seized coin/currency (Non-U.S. dollars), by country, monetary unit (franc, pound, Canadian dollar, etc.) and amount, in the possession of host nation officials.

(1) Column 1 – enter the name of the country and monetary unit of seized coin/currency (Non-U.S. dollars) in the possession of host nation officials.

(2) Column 2 – enter the beginning count of items in the possession of host nation officials. After the first monthly report, the beginning balance will be the ending balance of the previous month (e.g., the June beginning balance will be the May ending balance).

(3) Column 3 – enter the entity to which the host nation official released the coin/currency (Non-U.S. dollars).

(4) Column 4 – enter the amount of the coin/currency (Non-U.S. dollars) released.

(5) Column 5 – enter the sum of Column 2 minus Column 4 (Column 2 – Column 4).

u. Table 2.C – Non-Cash Assets – enter, in table format, a listing of seized non-cash property by category (e.g., jewelry, arms, equipment, artwork, etc.), a brief description and item count in the possession of host nation officials.

(1) Column 1 – enter the category of the non-cash assets.
(2) Column 2 – enter a brief description of the items within the category in Column 1.

(3) Column 3 – enter the beginning count of items in the possession of host nation officials. After the first monthly report, the beginning balance will be the ending balance of the previous month (e.g., the June beginning balance will be the May ending balance).

(4) Column 4 – enter the entity to which the host nation official released the non-cash assets.

(5) Column 5 – enter the count of items released.

(6) Column 6 – enter the sum of Column 3 minus Column 5 (Column 3 – Column 5).

v. The disbursing officer certifies the accuracy of the data on the report by signing and dating the report.

w. Footnote the amount of non-U.S. currency in possession of the host nation, but not verified as of the end of the reporting period, and the verified amount of counterfeit U.S. currency for the reporting period.

ANNEX 7 MONTHLY DISBURSEMENT REPORT

A. Purpose and Applicability

This annex addresses the duties, responsibilities, and procedures to be followed by the host nation’s interim government in preparing monthly disbursement reports for vested and seized assets.

B. Responsibilities

The host nation interim government shall prepare monthly reports describing the purposes, amounts and recipients of all cash disbursements of vested and seized assets. This report will include cash disbursements only; non-cash assets, including coin/currency (non-U.S. dollars), either divested or released, are reported in the Monthly Inventory Report of Vested and Seized Assets (Annex 6, Figure 6-1). These reports shall distinguish between disbursements of vested and seized assets. The report must be reconciled with official accounting records.

The host nation interim government shall submit the monthly reports under cover memorandum to the OUSD(C), with copies furnished to the Director, Resource Management, of the designated Executive Agent, no later than close of the tenth business day of the month following the month being reported.

C. Reporting Procedures

1. Follow the report format at Figure 7-1.

2. Instructions

   a. Table 1 – Vested Assets

      (1) Column 1 – enter a brief description of the purpose for the cash disbursements. The descriptions should be the same as the descriptions shown on the spending plans (Annex 4).

      (2) Column 2 – enter a brief description of the recipients of the cash disbursements. The detail information regarding the entity receiving the cash disbursements is required as part of the supporting documentation to the disbursement vouchers as provided for in the Procedures section for host nation interim government (Annex 5).

      (3) Column 3 – enter the dollar amount of the cash disbursements. NOTE: the total of Column 3 will be reported on the Monthly Inventory Report of Vested and Seized Assets, Line 1.A.2 (Annex 6, Figure 6-1).
b. Table 2 – Seized Assets

   (1) Column 1 – enter a brief description of the purpose for the cash disbursements. The descriptions should be the same as the descriptions as shown on the spending plans (Annex 4).

   (2) Column 2 – enter a brief description of the recipients of the cash disbursements. The detail information regarding the individual recipients of the cash disbursements is required as part of the supporting documentation to the disbursement vouchers as provided for in the Procedures section for the host nation interim government (Annex 5).

   (3) Column 3 – enter the dollar amount of the cash disbursements. NOTE: The total of Column 3 will be reported on the Monthly Inventory Report of Vested and Seized Assets, Line 2.A.7 (Annex 6, Figure 6-1).

   c. The disbursing officer certifies the accuracy of the data on the report by signing and dating the report.

**Disbursing Officer**, Host Nation Interim Government  
**DATE**
ANNEX 8 REPORTING OF VESTED AND SEIZED ASSETS ON THE DOD FINANCIAL STATEMENTS

A. Purpose and Applicability

This annex addresses the duties, responsibilities, and procedures to be followed by the designated Executive Agent and the Defense Finance and Accounting Service (DFAS) in preparing consolidated financial statements in support of the host nation interim government’s vested and seized assets.

B. Responsibilities

The Executive Agent and DFAS are responsible for reporting activity of vested and seized assets on the DoD consolidated financial statements.

C. Procedures

1. Seized asset activity shall be reported on the Executive Agent’s financial statements and the DoD consolidated financial statements. These activities relate to the receipt, management, and disposition of cash and negotiable instruments held by the DoD. Nonentity seized cash will be included as Fund Balance with Treasury on the face of the DoD consolidated Balance Sheet and the Executive Agent’s Balance Sheets. The Nonentity Assets Note to the financial statements shall contain sufficient disclosure to provide the reader with an understanding of the source of the seized assets, applicable laws and regulations, and how the assets were used.

2. Vested asset activity shall be reported in the General Fund financial statements of the Executive Agent and on the DoD consolidated financial statements. Vested assets will be distinguishable from other entity assets only in the footnotes to the financial statements. The note to the financial statements shall contain sufficient disclosure to provide the reader with an understanding of the source of the vested assets, applicable laws and regulations, and how the assets were used.

3. Additional information regarding financial statement reporting can be found in Volume 6B and the DFAS Financial Reporting Guidance, “Annual and Quarterly Financial Statement Guidance,” on the OUSD(C) website.

CHAPTER 30

OPERATION AND USE OF GENERAL GIFT FUNDS

3001  GENERAL

300101.  Purpose

The purpose of this chapter is to prescribe the overall policy and assigns responsibilities for the acceptance, holding, administration, receipt, recording, reporting, use, investment, distribution, disbursement, and accountability of money, real property, personal property, or services to the Department of Defense (DoD) under Title 10, United States Code (U.S.C.), sections (§§) 2601, 974(d), and 1501a(e).

300102.  Authoritative Guidance

A. 10 U.S.C. § 2601(a)

10 U.S.C. § 2601(a) authorizes the Secretary of Defense and Secretaries of the Military Departments to accept, hold, administer, and spend any gift of money, real property, or personal property made on the condition that the gift be used for the benefit, or in connection with, the establishment, operation, or maintenance, of a school, hospital, library, museum, cemetery, or other institution or organization under a Secretary's jurisdiction.

1. Section 2601(a)(2)(A) authorizes the Secretary of Defense and Secretaries of the Military Departments to accept a gift of services for a military museum program from a nonprofit entity established for the purpose of supporting a military museum program. Employees or personnel of a nonprofit entity who provide a gift of services may not be considered to be employees of the United States.

2. Section 2601(a)(2)(B) authorizes the Secretary of Defense and Secretaries of the Military Departments to solicit from a bona fide collector a gift of books, manuscripts, works of art, historical artifacts, drawings, plans, models, or condemned or obsolete combat materiel for the use and benefit of a military museum program.

B. 10 U.S.C. § 2601(b)

10 U.S.C. § 2601(b) authorizes the Secretary of Defense and Secretaries of the Military Departments to accept, hold, administer, and spend any gift of money, real property, personal property, or services made on the condition that the gift be used for the benefit of the following individuals who are under their jurisdiction.

1. Members of the armed forces, including members performing full-time National Guard duty under 32 U.S.C. § 502(f), who incur a wound, injury, or illness while in the line of duty.
2. Civilian employees of the Department of Defense who incur a wound, injury, or illness while in the line of duty.

3. Dependents of such members or employees.

4. Survivors of such members or employees who are killed.

C. 10 U.S.C. § 2601(e)

10 U.S.C. § 2601(e) authorizes the Secretary concerned to accept a gift under 10 U.S.C. § 2601(a) or 10 U.S.C. § 2601(b) consisting of the provision, acquisition, enhancement, or construction of real property offered to the United States Military Academy, the Naval Academy, and the Air Force Academy even though the gift will be subject to the condition that the real property, or a portion thereof, bear a specified name. Under this authority, Secretary concerned refers to the Secretary of the Military Department responsible for the particular Service Academy.

D. 10 U.S.C. § 974(d)

10 U.S.C. § 974(d) authorizes the Secretary of Defense and Secretaries of the Military Departments to accept contributions of money, personal property, or services on the condition that such money, property, or services be used for the benefit of a military musical unit under the jurisdiction of the Secretary. Any contribution of money must be credited to the appropriation or account providing the funds for such military musical unit and be available for the same purposes, and subject to the same conditions and limitations, as amounts in such appropriation or account.

* E. 10 U.S.C. § 1501a(e)

10 U.S.C. § 1501a(e) authorizes that the Secretary may accept, hold, administer, spend, and use any gift of personal property, money, or services made on the condition that the gift be used for the purpose of facilitating accounting for missing persons. All gifts and bequests of money accepted under this subsection must be deposited in the Department of Defense General Gift Fund.

3002 DEFINITIONS

A. Account. A special account established in the Treasury of the United States for receipt of monetary gifts and proceeds from the sale of real or personal property gifts to the Secretary of Defense or the Military Departments.

B. Acceptance Authorities. Acceptance Authorities are the appropriate concerned Secretary and all designees who may accept gifts pursuant to this chapter. The concerned Secretaries may approve additional delegations.

C. Ethics Counselor. Ethics Counselor is defined as set forth in DoD 5500.7 - R, Joint Ethics Regulation (JER).
D. **Gifts.** Gifts include devises or bequests, and money, real property, personal property, or services collectively referred to herein as gifts.

E. **Prohibited Sources.** Prohibited Sources are defined as set forth in the JER.

F. **Services.** Services include activities that benefit the morale, welfare, or recreation of members of the armed forces and their dependents or are related or incidental to the conveyance of a gift of real or personal property in accordance with the 10 U.S.C. § 2601(b) and 10 U.S.C. § 2601(a)(2)(A) requirements. Performance of services includes non-monetary gifts of services through volunteer gratuitous agreements.

### 3003 DESIGNATIONS

The Secretary of Defense and the Secretaries of the Military Departments may approve additional Acceptance Authority designations under their jurisdiction. The Office of the Secretary of Defense (OSD) designations are as follows:

300301. **Under Secretary of Defense (Comptroller) (USD(C))**

All of the authority and responsibility granted to the Secretary of Defense in 10 U.S.C. § 2601 associated with acceptance and use of such gifts has been delegated to the USD(C) in a letter signed by the Secretary of Defense on May 3, 2007.

300302. **USD(C) Designations**

The USD(C) prescribes additional designations of gift Acceptance Authority to the following OSD Components.

A. **Under Secretary of Defense for Acquisition and Sustainment (USD(A&S)).** On behalf of the Secretary of Defense, the USD(A&S) has authority and responsibilities associated with acceptance and use of such gifts of real property or personal property under 10 U.S.C. §§ 2601(a) and 2601(b) or services under 10 U.S.C. § 2601(b), and may authorize the development of additional procedures for implementing policy in this chapter.

B. **Under Secretary of Defense (Personnel and Readiness (USD(P&R))**. On behalf of the Secretary of Defense, the USD(P&R) has authority and responsibilities associated with acceptance and use of such gifts of personal property under 10 U.S.C. §§ 2601(a) and 2601(b) or services under 10 U.S.C. § 2601(b).

*C. **Administration and Organizational Policy.** On behalf of the Secretary of Defense, the Administration and Organizational Policy has authority and responsibility, including management responsibility, associated with acceptance and use of such gifts of personal property under 10 U.S.C. §§ 2601(a) and 2601(b) or services under 10 U.S.C. § 2601(b).
D. DoD Defense Agencies, Joint Staff, and Combatant Commands. On behalf of the Secretary of Defense, the heads of the DoD Defense Agencies, the Chairman of the Joint Chiefs of Staff, and the Commanders of the Combatant Commands have authority and responsibility associated with acceptance and use of such gifts of personal property under 10 U.S.C. §§ 2601(a) and 2601(b) or services under 10 U.S.C. § 2601(b) valued at $500,000 or less. All gifts over $500,000 must be accepted by the USD(C).

E. Washington Headquarters Services (WHS). On behalf of the Secretary of Defense, the Director of the WHS has authority to accept such gifts of personal property offered to the OSD for use at facilities under his or her authority under 10 U.S.C. §§ 2601(a) and 2601(b). The Director of the WHS also has the authority to accept such gifts of services for the benefit of individuals described in paragraph 300302 at facilities under his or her authority under 10 U.S.C. § 2601(b).

3004 RESPONSIBILITIES

300401. OSD Components

The OSD Components identified in paragraphs 300301 and 300302 and Acceptance Authority designees must ensure compliance with policy in this chapter and must establish procedures to ensure personnel are familiar with the restrictions on accepting gifts and requirements for receiving, recording, reporting, and accounting for gifts.

300402. Military Departments

The Secretaries of the Military Departments and Acceptance Authority designees must ensure compliance with policy in this chapter and establish procedures to ensure personnel are familiar with the restrictions on accepting gifts and requirements for receiving, recording, reporting, and accounting for gifts.

300403. Defense Finance and Accounting Service (DFAS)

The DFAS is responsible for the accounting, investing, and reporting of all such monetary gifts and proceeds from the sale of real property or personal property gifts accepted by the Acceptance Authorities and forwarded to DFAS as prescribed in section 3006.

300404. Under Secretary of Defense (Personnel and Readiness) (USD(P&R))

The USD(P&R) must establish procedures for verifying the eligibility of individuals to receive benefits under 10 U.S.C. § 2601(b) as identified in subparagraphs 300102.B.1-4 and may authorize the development of additional procedures for implementing 10 U.S.C. § 2601(b).
3005 ACCEPTANCE

300501. Circumstances to Decline Acceptance

Acceptance Authorities must decline gifts under the following circumstances.

A. The use of the gift is in connection with any program, project, or activity that would result in the violation of any prohibition or limitation otherwise applicable to such program, project, or activity;

B. The gift or conditions attached to the gift are inconsistent with applicable law or regulations;

C. The use of the gift would reflect unfavorably on the ability of the Department of Defense or any personnel of the Department to carry out any responsibility or duty in a fair and objective manner;

D. The use of the gift would compromise the integrity or appearance of integrity of any program of the Department of Defense or any individual involved in such a program; and

E. Acceptance of the gift would not be in the best interests of the Department of Defense, including but not limited to the following, where it creates or requires:

1. The appearance or expectation of favorable consideration as a result of the gift;

2. The appearance of an improper endorsement of the donor, its events, products, services, or enterprises;

3. A serious question of impropriety in light of the donor’s present or prospective business relationships with the Department of Defense;

4. The expenditure or use of funds in excess of amounts appropriated by Congress;

5. Substantial expenditures or administrative efforts and maintenance that are disproportionate to any benefit;

6. Gift acceptance or the imposition of naming-rights under 10 U.S.C. § 2601(e) that would not reflect favorably upon the Department of Defense; or

7. The real property subject to the gift naming condition has not been named by an act of Congress.
300502. Department of Defense Personnel

Department of Defense personnel must not solicit, fundraise for, or otherwise request or encourage the offer of a gift. Acceptance Authorities must not accept gifts offered contrary to this policy. Notwithstanding this general prohibition, the Secretary of Defense may solicit from a bona fide collector, a gift for the use and benefit of a military museum program in accordance with the provision of 10 U.S.C. § 2601(a)(2)(B).

300503. Related Expenses

Acceptance Authorities may pay all necessary expenses in connection with the conveyance or transfer of a gift.

300504. Offers from Prohibited Sources

Acceptance Authorities must use increased sensitivity and scrutiny when gifts are offered from prohibited sources, as acceptance may cause embarrassment to the Department of Defense or the appearance of influencing official decisions or actions of the Department, and must consult with their appropriate Ethics Counselor before accepting such a gift valued in excess of $10,000 to determine whether the donor is involved in any claims, procurement actions, litigation, or other particular matters involving the Department that should be considered prior to gift acceptance.

300505. Acknowledgement of Future Gifts

Acceptance Authorities may acknowledge offers of future gifts and advise the donors that acceptance will occur after actual presentation of the gifts only when they determine that such acceptance will likely occur.

300506. Acceptance through Intermediaries

Acceptance Authorities must not accept gifts offered indirectly through an intermediary if they could not accept such gifts if offered directly from the source.

300507. Circumstances under 10 U.S.C. § 2601(b)

The following circumstances also apply to gifts accepted pursuant to the authority in 10 U.S.C. § 2601(b).

A. Acceptance Authorities must consult with their appropriate Ethics Counselor before accepting gifts valued in excess of $10,000 to ensure that:

1. The gift is not offered in a manner that specifically discriminates among Department of Defense personnel merely on the basis of type of official responsibility or of favoring those of higher rank or rate of pay; and
2. The donor does not have interests that may be affected substantially by the performance or nonperformance of the Department of Defense employee’s official duties.

B. Acceptance Authorities may not accept a gift of services under 10 U.S.C. § 2601(b) from a foreign government or international organization. They may accept a gift of money, real property, or personal property from a foreign government or international organization under 10 U.S.C. § 2601(b) only if the gift is not designated for a specific individual.

300508. Circumstances under 10 U.S.C. § 2601(e)

The following circumstances also apply to gifts accepted pursuant to the authority in 10 U.S.C. § 2601(e).

A. The authority to accept gifts under section 2601(e) may be delegated by the Secretary concerned only to a civilian Presidential Appointee in a Position Requiring Senate Confirmation. This authority may not be further re-delegated.

B. The Secretary concern must issue uniform regulations governing the circumstances under which gifts conditioned on naming-rights may be accepted, appropriate naming conventions, and suitable display standards. The naming conventions and suitable display standards must be in accordance with Unified Facilities Criteria (UFC) 3-120-01 and other implementing guidance issued under the purview of the USD(A&S).

C. The Secretary concerned or designee must decline conditional gifts offered under section 2601(e) unless the donor agrees in writing that the Military Department retains the right to remove or alter the name if a determination is made that:

1. The donor has committed an immoral act or engaged in unethical conduct;

2. The donor has engaged in activities that reflects unfavorably on the United States; or

3. A subsequent donor offers to significantly alter a facility, and such subsequent gift is worthy of receiving naming-rights.

3006 RECEIPT

300601. Monetary Gifts

All monetary gifts must be forwarded to the DFAS office servicing the Acceptance Authority via mail or an electronic funds transfer (EFT). Department of Defense officials should contact the DFAS for EFT deposit information.
300602. Gift Fund Accounts

Gifts of money and the proceeds of the sale of property gifts must be deposited in the Treasury in the following accounts:

A. The Department of Defense General Gift Fund in the case of deposits made by the Secretary of Defense or Secretary of Defense Acceptance Authority designees.

B. The Department of the Army General Gift Fund, in the case of deposits made by the Secretary of the Army or Secretary of the Army Acceptance Authority designees.

C. The Department of the Navy General Gift Fund, in the case of deposits made by the Secretary of the Navy or Secretary of the Navy Acceptance Authority designees.

D. The Department of the Air Force General Gift Fund, in the case of deposits made by the Secretary of the Air Force or Secretary of the Air Force Acceptance Authority designees.

300603. Accounting Transactions

Accounting entries for monetary, nonmonetary, and service type gifts are specified in the United States Standard General Ledger Standard Financial Information Structure Transaction Library.

3007 RECORDS AND REPORTS

300701. Records

A. Acceptance Authorities must keep accurate, auditable, and timely records of all gifts and provide this information for periodic audits. The receiving organization must obtain and retain in gift fund records the required documentation and information for all gifts received including the date nonmonetary gifts were transferred to property records and the unique identifier or data element, if applicable (see property accountability requirements in section 3009). For audit purposes, the supporting documentation for monetary and nonmonetary gifts must be retained for 6 years and 3 months beyond the life of the asset.

B. Acceptance Authorities must ensure that the following information concerning items sold is documented and retained in the records.

1. A description of each item sold.

2. The name of the donor for each item sold.

3. The date each item was sold.

4. The name of the purchaser for each item sold.
5. The proceeds of the item sold.

6. Details of any relevant specific information regarding each item sold.

7. If applicable, the unique identifier or data element used to track the same or similar nonmonetary item such as a Real Property Unique Identifier from the Department of Defense Real Property Unique Identifier Registry or accountable property data elements (see property accountability policy cited in section 3009).

300702. Reports

A. DFAS Standards and Compliance (Corporate Reporting) must develop and require a standardized report for Acceptance Authorities or designees to use in order to report the following information to DFAS quarterly.

1. A description of the gift.

2. The value of the gift (estimated value if nonmonetary) to include the valuation method used.

3. The name and address of the donor(s).

4. The date each gift was received.

5. The expected useful life of the gift (the length of time in which a depreciable asset is expected to be used).

6. Details of any conditions, restrictions, or other relevant specific information regarding each gift.

7. If applicable, a unique identifier or data element used to track the same or similar nonmonetary items received or shipped from different sources.

8. Statement explaining the benefits of accepting the gift.

B. Acceptance Authorities must report the information in paragraph 300702.A for all monetary gifts and real property gifts along with personal property gifts and services with a unit value of $5,000 or more to the DFAS office servicing each Secretary (Defense, Army, Navy, and Air Force) not later than 10 days after the end of each quarter. Monetary, real property, and personal property gifts must be reported separately.
C. Acceptance Authorities must prepare a separate report entitled "Donations to Military Musical Units under 10 U.S.C. § 974(d)". The report must be submitted to Congress annually for all gifts accepted during the fiscal year by Military Musical Units. A copy of the report must be provided to the OUSD (C), Deputy Chief Financial Officer; and the Office of the Assistant Secretary of Defense for Public Affairs (OASD(PA)), Community and Public Outreach (CPO) division.

D. The DFAS Standards and Compliance (Corporate Reporting) must prepare a report containing the following information and forward the information to the Office of the Under Secretary of Defense (Comptroller) Deputy Chief Financial Officer no later than 30 days after the end of each quarter.

1. Separate summary values for monetary and nonmonetary gifts accepted during the quarter. Also, separate as to the authority, identified in subparagraph 300702.A.9, under which the gift was accepted.

2. A description of all property valued at more than $1 million. In determining whether the $1 million threshold has been met, the following procedures must be used:
   a. The value of similar items accepted during the quarter must be added together.
   b. The value of components which, if assembled, would comprise all or a substantial portion of an item or facility must be added together.

3008 INVESTMENTS

The DFAS must:

A. Invest general gift funds in Government securities until distribution is authorized consistent with good cash management practices;

B. Follow standard operating procedures related to the accounts in paragraph 300602 for purchasing Government securities;

C. Follow standard operating procedures to initiate and complete the sale of Government securities;

D. Maintain a tracking system that identifies impending maturities and collections of securities for the specified account and ensure appropriate reinvestment action is taken upon maturity of a security;

E. Conduct an annual review of the account operations and transactions, including the purchase and the sale of Government securities. The objective of the review will
include compliance with the Department of Defense and the Treasury policies and procedures, and adequacy of internal controls.

3009 PROPERTY ACCOUNTABILITY

Acceptance Authorities must establish procedures for receiving, accounting, and disposing of real and personal property gifts. Property accountability procedures must be addressed or referenced in general gift acceptance procedures. Property accountability procedures must be consistent with policy prescribed in the DoD Instruction (DoDI) 4165.14 “Real Property Inventory and Forecasting”, DoDI 4165.70 “Real Property Management”, DoDI 4165.71 “Real Property Acquisition”, DoDI 4165.72 “Real Property Disposal”, and DoDI 5000.64 “Accountability and Management of DoD Owned Equipment and Other Accountable Property”.

CHAPTER 31

DOD BRANDING AND TRADEMARK LICENSING PROGRAM

3101 GENERAL

310101. Purpose

This chapter promulgates policy used to account for fees received by the Department of Defense (DoD) from the licensing of trademarks, service marks, certification marks and collective marks. It establishes guidance that is applicable to the Secretary of Defense, the Military Departments, the Chairman of the Joint Chiefs of Staff and the Joint Staff, the Geographic Combatant Commands, the Office of the Inspector General of DoD, the Defense Agencies, the DoD Working Capital Fund Activities, the DoD Field Activities, and all other organizational entities in DoD (hereinafter referred to as DoD Components).

*310102. Authoritative Guidance

The financial management policy and related requirements prescribed by this chapter are in accordance with the applicable provisions of:

C. DoD Directive (DoDD) 5122.05, “Assistant Secretary of Defense for Public Affairs (ASD(PA))”;

D. DoDD 5535.09, “DoD Branding and Trademark Licensing Program”;

E. DoD Instruction 5535.12, “DoD Branding and Trademark Licensing Program Implementation.”

*3102 DEFINITIONS

310201. Branding

A program or process of creating awareness, public goodwill, and a positive image for the DoD and its Components through the marketing and promotion of its marks.

310202. Certification Mark

The term “certification mark” means any word, name, symbol, or device, or any combination thereof –
A. Used by a person other than its owner, or

B. Which its owner has a bona fide intention to permit a person other than the owner to use in commerce and files an application to register on the principal register established in 15 U.S.C. § 1127.

310203. Collective Mark

The term “collective mark” means a trademark or service mark –

A. Used by the members of a cooperative, an association, or other collective group or organization, or

B. Which such cooperative, association, or other collective group or organization has a bona fide need to use in commerce and applies to register on the principal register established in 15 U.S.C. § 1127.

310204. Licensee

As used in DoDD 5535.09, this term must include any person, company, or organization whose use of a mark is controlled by a DoD Component with respect to the nature and quality of goods or services on or in connection with which the mark is used.

310205. Licensing Agent

As used in DoDD 5535.09, this term must include any person, company, or organization that serves as an agent of a DoD Component for the purpose of assisting that DoD Component in securing licensees, collecting royalty fees, and/or other operational functions that deal with the DoD Component’s trademark licensing program.

310206. Service Mark

The term “service mark” means any word, name, symbol, or device, or any combination thereof –

A. Used by a person, or

B. Which a person has a bona fide intention to use in commerce and applies to register on the principal register established in 15 U.S.C. § 1127.

310207. Trademark

The term “trademark” includes any word, name, symbol, or device, or any combination thereof –

A. Used by a person, or
B. Which a person has a bona fide intention to use in commerce and applies to register on the principal register established in 15 U.S.C. § 1127.

3103 RESPONSIBILITIES

310301. Assistant Secretary of Defense for Public Affairs

The ASD(PA), in accordance with DoDD 5122.05, is the proponent agency for the DoD Branding and Trademark Licensing Program (BTLP) and has overall responsibility for the operation of the program, defining program costs and establishing procedures to ensure the proper use of program funds.

310302. DoD Components

The DoD Components operating a trademark licensing program under the provisions of 10 U.S.C. § 2260 and DoDD 5535.09 are responsible for ensuring that:

A. A single individual or office is designated within the DoD Component to review and approve all requests for the use of funds deposited into the Component’s designated U.S. Department of the Treasury (Treasury) Account. The designated individual or office must be responsible for ensuring that all funds are used only for authorized purposes. To ensure an independent review of the request, no individual or office may both request and approve the use of such funds. The appointment of this person or office must be done in writing in the form of an appointment order or similar document. A copy of the appointment must be provided to the DoD Component’s supporting representative at the Defense Finance and Accounting Service and to the Manager, DoD BTLP. A record of all requests for the use of funds and the action taken must be retained in accordance with Volume 1, Chapter 9.

B. There is a complete and accurate accounting for all trademark licensing fees received.

C. All trademark licensing fees received by DoD Components are promptly deposited and recorded in the United States Standard General Ledger account 426600, which provides direct budget authority on line 1800 of the Standard Form (SF) 132, Apportionment and Reapportionment Schedule, and SF 133, Report on Budget Execution and Budgetary Resources. DoD Components must obligate and disburse from the designated Treasury Account Symbol only for the purposes specifically authorized in 10 U.S.C § 2260. The use of suspense accounts is prohibited and any remaining balances must be transferred to the designated Treasury account. Guidance on processing collections can be found in Volume 5, Chapter 8.

D. Fees collected are only used for payment of costs incurred in securing trademark registrations and operating the licensing program; and for support of Morale, Welfare, and Recreation (MWR) activities when fees available for a fiscal year exceed the amount needed for payment of such costs.
3104 ACCOUNTING AND REPORTING

310401. Accounting

A. Fees received in a fiscal year must remain available for obligation in such fiscal year and the following two fiscal years.

B. The excess of licensing fees collected over annual costs may be expended to support MWR activities. The law does not require that the excess be obligated in the fiscal year collected. The excess may be used in the two following fiscal years to offset those fiscal year costs of the licensing program or may be expended in support of the DoD Component’s MWR activities.

C. Funds not obligated or made available to MWR activities before September 30 of the second fiscal year following the year collected must be reallocated (transferred) to R3210, “General Fund Proprietary Receipts, Defense Military, Not Otherwise Classified.”

D. Additional accounting codes may be used to separately track unobligated funds carried forward from the fiscal year of collection through the following two fiscal years.

E. Each DoD Component must ensure that all royalty reports received from licensees and/or licensing agents are promptly reviewed and any questions resolved. Copies of royalty reports must be retained in accordance with Volume 1, Chapter 9.

310402. Reporting

Each DoD Component operating a trademark licensing program must provide the Manager, DoD BTLP, with the following financial reports. The Manager, BTLP, may issue guidance prescribing the required format of the reports and the specific information to be provided.

A. Quarterly Reports. The following quarterly reports must be forwarded to the Manager, DoD BTLP, within 30 days following the end of each calendar quarter.

1. Income and Expense Report. The Income and Expense Report must show the total fees received from trademark licensing during the preceding calendar quarter. It should also show the total costs paid for securing trademark registrations and the total costs paid for operating the trademark licensing program.

2. Other Reports. The Manager, DoD BTLP may require other quarterly reports as the Manager deems necessary to assure compliance with DoDD 5535.09.

B. Annual Reports. The following annual reports must be forward to the Manager, DoD BTLP, within 45 days following the end of the fiscal year.
1. Trademark Account Fund Aging Report. The Trademark Account Fund Aging Report must show, in detail, the age of all funds currently in the DoD Component’s Treasury Account for Trademark Licensing and the date on which those funds will expire.

2. MWR Funding Report. The MWR Funding Report must show all funds transferred during the preceding fiscal year to an MWR activity under the control of the Secretary concerned. If more than one MWR activity received funding, the report must identify each activity and the amount it received. If more than one trademark licensing program is operated by a DoD Component, separate reports must be issued for each program.

3. Other Reports. The Manager, DoD BTLP may require other annual reports as the Manager deems necessary to ensure compliance with DoDD 5535.09.

CHAPTER 32

COLLECTION AND RETENTION OF CONFERENCE FEES
FROM NON-FEDERAL SOURCES

*3201 GENERAL

320101. Purpose

This chapter establishes the policies to be followed by Department of Defense (DoD) Components to account for conference fees that are collected by the Department of Defense to cover DoD costs. The conference fees are used in accordance with statutory authority in Title 10, United States Code, § 2262 (10 U.S.C. § 2262) which provides authority for the Secretary of Defense to collect fees in advance, either directly or by using a contract, from individuals and commercial participants attending DoD sponsored conferences. This guidance applies to DoD Components, which for the purpose of this chapter, includes the Office of the Secretary of Defense, the Military Departments, the Chairman of the Joint Chiefs of Staff or the Joint Staff, the Unified and Specified Combatant Commands, the Office of the Inspector General of DoD, the Defense Agencies, the DoD Working Capital Fund Activities, the DoD Field Activities, and all other organizational entities in DoD.

320102. Authoritative Guidance

A “conference” is defined in the DoD Joint Travel Regulations as a meeting, retreat, seminar, symposium, or event that involves attendee travel. The term conference also applies to training activities that are considered to be conferences in accordance with Title 5, Code of Federal Regulations, section 410.404 (5 CFR § 410.404). Conferences subject to this authority are also often referred to as conventions, expositions, workshops or exhibitions that typically involve topical matters of interest to, and the participation of, multiple agencies and/or non-governmental participants. The DoD Conference Guidance 4.0 identifies exemptions to the defined list of conferences.

3202 POLICY

*320201. Other Federal laws and Regulations

Although 10 U.S.C. § 2262 authorizes the retention of conference fees, all other applicable Federal laws and regulations must be followed regarding conferences and conference planning. These Federal authorities include the DoD Travel Regulations, the Federal Acquisition Regulation (FAR), the DoD FAR Supplement, and the Joint Ethics Regulation. This authority does not increase or affect any other currently existing conference authority. Guidelines related to determining conference fees are available on the DoD Cost Guidance Portal that resides on the DoD Costs Assessment and Program Evaluation web page. Access requires a DoD Common Access Card.
320202. Use of Contracts for Conference Planning, Organizing, or Management

DoD Components collecting fees by contract, to include contractors under no-cost contracts, are authorized to structure such contracts to permit contractors to offset from fees collected, the actual costs incurred by the contractor (to include its fee), in providing conference related services. Fee collections in excess of such amounts must be credited to the appropriation from which other conference costs are payable. DoD Components must be responsible for all other provisions contained in this chapter including the oversight regarding the setting of appropriate fee amounts and the reporting of fees collected and costs paid by the contractor.

*320203. Reimbursement

Collection of conference fees into appropriations is subject to the general rules of appropriation reimbursement as well as specific rules stated in 10 U.S.C. § 2262. Fiscal limitations on expenditure of appropriated funds for conference expenses apply to use of fees collected under 10 U.S.C. § 2262. In accordance with DoD Conference Guidance 4.0, revenue is all direct or indirect conference costs collected or reimbursed to DoD by non-DoD entities. For the purpose of this guidance, revenue includes, but is not limited to registration fees collected, exhibitor fees collected, sponsor fees collected, and total conference costs. Total conference costs should be the net value of the conference expenses, less any fees or revenue received by the Department through the conference.

320204. Ethics and Fiscal Guidance

Ethics restrictions found in the Standards of Ethical Conduct for Employees of the Executive Branch are applicable to the execution of conferences. Also follow guidance prescribed by the DoD Office of the General Counsel (See DoD’s Standards of Conduct Office (SOCO) paper on Conference Sponsorship and Conference Planning. In addition, DoD conference managers should consult with their own component General Counsel to ensure compliance with applicable laws and regulations.

3203 RESPONSIBILITIES

*320301. Office of the Under Secretary of Defense (Comptroller), Office of the DoD Chief Management Officer (OCMO)

   A. Secretary and Deputy Secretary of Defense - The Secretary and Deputy Secretary of Defense are accountable for all of the Department's conference related activities. Specifically with overseeing the DoD's conference policies and controls, and maintaining visibility and accountability for the conduct of conferences hosted by the Department and attended by Department personnel through Component reporting as required by legislation. Agencies are obligated to ensure reporting requirements to Congress on conference costs and fees collected are met, in accordance with the Office of Management and Budget (OMB) Memorandum M-17-08 and section 739 of Public Law 113-235, “Consolidated and Further Continuing Appropriations Act of 2015,” and reported through the DoD Conference Tool in adherence with the standards of the DoD Conference Guidance 4.0.
B. **DoD Deputy Chief Management Officer** – In accordance with the DoD Conference Guidance 4.0, and consistent with the guidance codified in the OMB Memorandum M-17-08, the DoD Deputy Chief Management Officer is responsible for DoD’s conference oversight on behalf of the Secretary and Deputy Secretary of Defense, to include maintaining the DoD Conference Guidance 4.0 policy and controls, and executing the reporting requirements contained in section 320402. The Deputy Chief Management Officer is authorized to act on behalf of the Secretary and Deputy Secretary on all conference related matters.

320302. Defense Finance and Accounting Service (DFAS)

The DFAS must:

A. Establish a process for collecting data needed to meet conference fees statutory reporting requirements.

B. Ensure conference fee collections and disbursements are processed and recorded accurately and timely, consistent with DoD policy.

C. Take corrective action when issues accounting for these funds arise.

320303. DoD Components

The DoD Components sponsoring conferences under the provisions of 10 U.S.C. § 2262 must:

A. Adhere to established chapter OUSD(C), P/B reporting requests.

B. Develop and implement internal operating procedures and guidance to ensure complete, accurate, timely, and proper accounting and reporting for all conference fees collected, and relevant financial data.

C. Ensure that conference fees collected are only used to offset associated allowable conference expenses. Use of registration fees to pay unallowable costs is prohibited, illegal, and improper; and reduces the amount of fees that would otherwise be available to pay allowable costs.

D. Collaborate with DFAS to establish a process for collecting data needed to meet statutory reporting requirements.

E. As needed, provide training to employees on using this authority.

F. Monitor conference fee collections and disbursements to assess operational or financial problems.
G. Ensure all conference fees collected directly by the Government are promptly deposited and recorded in the appropriate account. When fees are collected by contract as described in paragraph 320202, promptly deposit and record amounts that are in excess of actual conference costs offset by the contractor. To avoid having to credit excess fee collections to Miscellaneous Receipts, fees (attendance, vendor, and other) should be structured so as not to exceed the anticipated costs of the conference. Guidance on processing collections can be found in Volume 5, Chapter 10.

H. Assist the OUSD(C) in any investigations into funding violations.

I. Determine the conference fee amounts that are excess and promptly transfer to Receipt Account 3210, “General Fund Proprietary Receipts, Defense Military, Not Otherwise Classified.” Excess fees collected must not be used to finance expenditures of a succeeding conference or for any other purpose. Because the statute does not allow the retention of funds in excess of costs incurred, doing so would improperly augment agency funds otherwise available for funding conference expenses.

J. Ensure that conference fees collected for one conference are not used to fund for other conferences. If more than one conference is funded by a DoD Component, the Component must maintain records sufficient to separately account for fee collections for each conference.

K. Maintain all records supporting conference fees collected under this authority in accordance with Volume 1, Chapter 9.

3204 ACCOUNTING AND REPORTING

320401. Accounting

A. Accounting for collections into appropriations is covered in the United States Standard General Ledger Standard Financial Information Structure Transaction Library.

B. Except when conference planning services at no cost to the government are used and the government entity does not directly collect fees, amounts collected in accordance with 10 U.S.C. § 2262 with respect to a conference must be credited to the appropriation or account from which the costs of the conference are paid and must be used to pay or reimburse those costs of the Department with respect to the conference. Record conference fees collected as an appropriation reimbursement.

C. The registration fees collected must remain with the year that funds for the conference are obligated. In the event registration fees are collected in one fiscal year but the conference is conducted in the next, the fees collected must remain in the year the conference expenses were obligated and must be available for the same purpose and time period of that appropriation.
D. Components, agencies and activities which collect conference fees into appropriations may not augment those appropriations. Accordingly, any fees collected which exceed actual conference costs must be deposited to 3210.

*320402. Reporting

A. In accordance with DoD's Conference Policies and Controls, all DoD sponsored conferences are required to be reported through a central DoD Conference Tool. This data is used to generate the annual reports that are posted publically and support the Department's ongoing oversight of conference activities. Conference fees are not reported as a separate entity; they are reported within conference expenses as a net of any fees or revenue received through the conference, not to include costs. Detailed guidance on conference expense reporting requirements and thresholds can be found in the DoD Conference Policies and Controls, and in the DoD Conference Tool.

B. In accordance with OMB Memorandum M-17-08, "Promoting Efficient Spending to Support Agency Operations," agencies must report conference expenses on a dedicated space on their official website. Conference expenses are defined as all direct and indirect conference costs paid by the Government, whether paid directly by agencies or reimbursed by agencies to travelers or others associated with the conference but do not include funds paid under Federal grants to grantees. Conference expenses include any associated authorized travel and per diem expenses, hire of rooms for official business, audiovisual use, light refreshments, registration fees, ground transportation, and other expenses as defined by the Federal Travel Regulations.

1. By January 31 of each year, the agency must provide a description of all agency-sponsored conferences from the previous fiscal year where the net expenses for the agency associated with the conference were in excess of $100,000. This description must include:

a. Total conference expenses incurred by the agency for the conference.

b. The location of the conference.

c. The date of the conference.

d. A brief explanation how the conference advanced the mission of the agency.

e. The total number of individuals whose travel expenses or other conference expenses were paid by the agency.

2. In addition, for any instances where the net expenses for an agency-sponsored conference exceeded $500,000, the website must include the agency designated official's rationale and approval.
The website must also include information in the appropriate format (e.g., narrative) about the total net conference expenses for the fiscal year incurred by that agency as well as a general report about conference activities throughout the year.

3. In reporting this data, agencies must exclude any information that is considered to be sensitive, that is prohibited from public disclosure by statute or regulation, or that may jeopardize national security or the health, safety or security of conference attendees, organizers, or other individuals.

CHAPTER 33

FINANCIAL INSTITUTIONS ON DOD INSTALLATIONS

3301 GENERAL

330101. Purpose

This chapter prescribes guidance governing the establishment, support, operation and termination of banks and credit unions operating on Department of Defense (DoD) installations worldwide, to include Military Banking Facilities (MBFs). This chapter also provides guidance intended to ensure that arrangements for the provision of services by financial institutions are consistent among DoD Components, and that financial institutions operating on DoD installations provide, and are provided, consistent support. In addition to the DoD Components cited in Chapter 1, this chapter applies to the Uniformed Services University of the Health Sciences, all DoD nonappropriated fund instrumentalities including the Military Exchange Services and morale, welfare and recreation (MWR) activities, and all other organizations within DoD.

330102. Authoritative Guidance

This chapter implements policy pertaining to financial institutions operating on DoD installations. This policy is contained in DoD Instruction 1000.11, “Financial Institutions on DoD Installations,” and codified in Title 32, Code of Federal Regulations, Part 230.

3302 RESPONSIBILITIES

330201. The Under Secretary of Defense (Comptroller)

The Under Secretary of Defense (Comptroller) (USD(C)) shall develop policies governing establishment, operation, and termination of financial institutions on DoD installations.

330202. The Under Secretary of Defense (Acquisition, Technology and Logistics)

The Under Secretary of Defense (Acquisition, Technology and Logistics) (USD(AT&L)) shall monitor policies and procedures governing logistical support furnished to financial institutions on DoD installations, including the use of DoD real property and equipment.

330203. The Under Secretary of Defense (Personnel and Readiness)

The Under Secretary of Defense (Personnel and Readiness) (USD(P&R)) shall advise the USD(C) on all aspects of on-base financial institution services that affect the morale and welfare of DoD personnel.
330204. The Director, Defense Finance and Accounting Service shall:

A. Develop procedures governing banks and credit unions on DoD installations for promulgation in this Regulation.

B. For domestic DoD installations, coordinate with the Secretaries of the Military Departments (or designees) on requests from subordinate installation commanders to establish or terminate banking offices or on-base credit unions. For overseas DoD installations, coordinate with the Secretary of the Military Department concerned (or designee) on requests from subordinate installation commanders to establish or discontinue the provision of financial services from the on-base financial institution under contract with DoD or to establish or terminate banking offices or credit unions located on DoD installations.

C. In coordination with affected DoD Components, authorize the specific types of banking services that will be provided by overseas MBFs and specify the charges or fees, or the basis for these, to be levied on users of these services.

D. Coordinate with the Fiscal Assistant Secretary of the Treasury on the designation of domestic and overseas MBFs as depositaries and financial agents of the U.S. Government.

E. Designate a technical representative to provide policy direction for the procuring and administrative contracting officer(s) responsible under the Federal Acquisition Regulation (FAR) for acquiring banking services required at overseas DoD installations.

F. Serve as principal liaison with banking institutions having offices on overseas DoD installations. In this capacity, monitor MBF managerial and operational policies, procedures, and operating results and take action as appropriate.

G. As necessary, assist in the formation of government-to-government agreements for the provision of banking services on overseas DoD installations, in accordance with DoD Directive 5530.3, “International Agreements.”

H. Provide procedural guidance to DoD Components, as required.

I. Maintain liaison with financial institution trade associations, leagues, and councils in order to interpret DoD policies toward respective memberships and aid in resolving mutual concerns affecting the provision of financial services.

J. Coordinate with the USD(P&R), through the USD(C), on all aspects of morale and welfare and with the USD(AT&L), through the USD(C), on all aspects of logistic support for on-base financial institutions.
K. Monitor industry trends, conduct studies and surveys, and facilitate appropriate dialogues on banking and credit union arrangements and cost-benefit relationships, coordinate as necessary with DoD Components, financial institutions, and trade associations as appropriate.

L. Maintain liaison, as appropriate, with financial institution regulatory agencies at federal and state levels.

M. Ensure that recommendations of the Combatant Commands are considered before processing requests for overseas banking and credit union service or related actions.

N. Maintain a listing of all geographic franchises assigned to credit unions serving DoD overseas installations.

330205. Secretaries of the Military Departments (or designees) shall:

A. For domestic DoD installations, take action on requests from subordinate installation commanders to establish or terminate financial institution operations in accordance with this guidance. For overseas DoD installations, take action in accordance with guidance contained herein on requests from subordinate installation commanders to establish or discontinue the provision of financial services from the DoD contracted banking institution, or to establish or terminate other financial institutions located on DoD installations.

B. Provide for liaison to those financial institutions that operate banking offices on respective domestic DoD installations.

C. Oversee the use of banking offices and credit unions on respective DoD installations within the guidance contained herein.

D. Evaluate the services provided and related charges and fees by respective on-base banking offices and credit unions to ensure that they fulfill the requirements upon which the establishment and retention of those services were justified.

E. Monitor practices and procedures of respective banking offices and credit unions to ensure that the welfare and interests of DoD personnel as consumers are protected.

F. Assist on-base banking offices and credit unions to develop and expand necessary services for DoD personnel consistent with this Regulation.

G. Encourage the conversion of existing domestic MBFs on respective installations to independent or branch bank status where feasible.

H. Provide logistical support to overseas MBFs under terms and conditions identified in this Regulation as well as with the applicable terms of DoD contracts with financial institutions responsible for the operations of overseas MBFs.
I. Refer matters requiring policy decisions or proposed changes to this Regulation to the USD(C) through the Director, DFAS.

J. Monitor and encourage the use of financial institutions on DoD installations to accomplish the following ends.

1. Facilitate convenient, effective management of the appropriated, nonappropriated, and private funds of on-base activities.

2. Assist DoD personnel in managing their personal finances through participation in programs such as direct deposit and regular savings plans, including U.S. Savings Bonds. The use of on-base financial institutions shall be on a voluntary basis and should not be urged in preference to, or to the exclusion of, other financial institutions.

K. Encourage and assist duly chartered financial institutions on domestic DoD installations to provide complete financial services to include, without charge, basic financial education and counseling services. Financial education and counseling services refer to basic personal and family finances such as budgeting, checkbook balancing and account reconciliation, benefits of savings, prudent use of credit, how to start a savings program, how to shop and apply for credit, and the consequences of excessive credit.

L. Establish liaison, as appropriate, with federal and state regulatory agencies and financial institution trade associations, leagues, and councils.

M. Make military locator services available to on-base financial institutions in accordance with the Privacy Act guidelines in Figure 33-1.

N. Permit DoD personnel to serve on volunteer boards or committees of on-base financial institutions, without compensation, when neither a conflict of duty nor a conflict of interest is involved, in accordance with DoD Directive 5500.07, “Standards of Conduct.”

O. Allow DoD personnel to attend conferences and meetings that bring together representatives of on-base financial institutions, when neither a conflict of duty nor a conflict of interest is involved, in accordance with DoD Instruction 1327.06, “Leave and Liberty Policy and Procedures” and DoD Instruction 1400.25, Volume 630, “DoD Civilian Personnel Management System: Leave”.

330206. Commanders of the Combatant Commands shall:

A. Ensure the appropriate coordination of the following types of requests affecting financial institutions overseas.

1. Establish financial institutions in countries not presently served. Such requests will include a statement that the requirement has been coordinated with the U.S. Chief of Diplomatic Mission or U.S. Embassy and that the host country will permit the operation.
2. Eliminate any or all financial institutions on DoD installations within a foreign country. Such requests will include a statement that the U.S. Chief of Diplomatic Mission has been informed and that appropriate arrangements to coordinate local termination announcements and procedures have been made with the U.S. Embassy.

B. Monitor and coordinate military banking operations within the command area. Personnel assigned to security assistance positions will not perform this function without the prior approval of the Director, Defense Security Cooperation Agency (DSCA).

330207. Commanders of Major Commands and Subordinate Installation Commanders shall:

A. Monitor the banking and credit union program within their commands.

B. Coordinate requests to establish or construct bank and credit union offices or terminate logistical support as specified in this Regulation to banks and credit unions within their commands. Personnel assigned to overseas security assistance positions will not monitor, coordinate, or assist in military banking operations without the prior approval of the DSCA.

C. Assign, as appropriate, responsibility for subparagraphs 330207.A and B, to comptroller or resource management personnel.

D. Cooperate with financial institution associations, leagues, and councils.

E. Recognize the right of all DoD personnel to organize and join credit unions and promote the credit union movement in DoD worldwide.

F. Permit DoD personnel to serve on volunteer boards or committees of on-base financial institutions, without compensation, when neither a conflict of duty nor a conflict of interest is involved, in accordance with DoD Directive 5500.07.

G. Allow DoD personnel to attend conferences and meetings that bring together representatives of on-base financial institutions, when neither a conflict of duty nor a conflict of interest is involved, in accordance with DoD Instruction 1327.06 and DoD Instruction 1400.25, Volume 630.

H. Seek the provision of financial services only from existing on-base financial institutions, proposing alternatives only where on-base financial institutions fail to respond favorably to a valid requirement.

I. Ensure to the maximum extent feasible, that all financial institutions operating on that installation are given the opportunity to participate in pilot programs to demonstrate new financial-related technologies or establish new business lines (e.g., in-store banking) where the respective DoD Component has determined that the offering of such services is warranted.
J. Approve requests for termination of financial services that are substantiated by sufficient evidence and forwarded to the Secretary of the Military Department concerned (or designee). The Secretary of the Military Department (or designee) shall coordinate such requests with the USD(C)/CFO, through the Director, DFAS, before notifying the appropriate regulatory agency.

3303 GENERAL POLICY PROVISIONS

330301. Financial Institutions on DoD Installations

In accordance with DoD Instruction 1000.11, financial institutions or branches thereof, shall be established on DoD installations only after approval by the Secretary of the Military Department concerned (or designee) and the appropriate regulatory agency.

A. Except in limited situations overseas, only banking institutions insured by the Federal Deposit Insurance Corporation and credit unions insured by the National Credit Union Share Insurance Fund, or by another insurance organization specifically qualified by the Secretary of the Treasury, shall operate on DoD installations. These financial institutions may either be State or federally chartered; however, U.S. credit unions operated overseas shall be federally insured.

B. MBFs shall be established on DoD installations only when a demonstrated and justified need cannot be met through other means. The provisions for the Department of the Treasury to establish MBFs are contained in Title 12, United States Code (U.S.C.), section 265. Normally, MBFs shall be authorized only at overseas locations. This form of financial institution may be considered for use at domestic DoD installations only when the cognizant DoD Component has been unable to obtain, through normal means, financial services from a State or federally chartered financial institution authorized to operate in the State in which the installation is located. During mobilization, it may become necessary to designate additional MBFs as an emergency measure. The Director, DFAS, may recommend the designation of MBFs to the Department of the Treasury.

C. Expansion of financial services (to include in-store banking) requiring the outgrant of additional space or logistical support shall be approved by the installation commander. Any DoD activity or financial institution seeking to expand financial services shall coordinate such requests with the installation bank and credit union liaison officer prior to the commander’s consideration.

D. Retail banking operations shall not be performed by any DoD Component. Solicitations for such services shall be issued, or proposals accepted, only in accordance with the policies identified in DoD Instruction 1000.11 or this chapter.

E. Installation commanders shall not seek the provision of financial services from any entity other than the on-base banking office or credit union.
F. Military disbursing offices, nonappropriated fund instrumentalities (including MWR activities and the Military Exchange Services), and other DoD Component activities requiring financial services shall use on-base financial institutions to the maximum extent feasible.

G. Nonappropriated fund instrumentalities (including MWR activities and the Military Exchange Services) that desire and are authorized to provide accommodation exchange services shall acquire foreign currency from the servicing MBF at the MBF wholesale rate and sell it at a rate of exchange no more favorable than the customer rate available at the MBF.

330302. Security

The installation commander (or designee) and officials of the on-base financial institutions shall work with the installation security authorities to establish an understanding as to each entity’s responsibilities. The on-base financial institutions are encouraged to establish an ongoing relationship with installation security authorities on all matters of asset protection.

A. A written agreement shall be established outlining the security procedures that the financial institution will follow and the role that installation security authorities will play with regard to alarms, movement of cash, and procedures to be followed in response to criminal activity (e.g., armed robbery).

B. Cash and other assets in on-base banking offices and credit unions are the property of those financial institutions. Maintenance of alarms and use of armored cars is the sole responsibility of the on-base financial institution. The on-base financial institution is also solely responsible for the guarding or escorting of cash unless a determination is made by the installation commander that providing such services is desirable or necessary.

330303. Central Locator Services

Military locator services shall be provided per the Privacy Act guidelines in Figure 33-1.

A. When appropriate, installations will process financial institution requests for central locator service to obtain military addresses of active duty personnel. This service will be used to locate persons for settling accounts, and recovering funds on checks that did not clear or loans that are delinquent or in default (see DoD Instruction 1344.09). If delinquent loans or dishonored checks are not recouped within 48 hours, financial institutions operating on DoD installations may bring this information to the attention of the local commander, bank liaison officer, or other designee for assistance in effecting restitution of the amount due, if not otherwise prohibited by law. The financial institution will pay the appropriate fee for each request to the respective Military Department (see Volume 11A, Chapter 4).
B. The DoD Components shall assist financial institutions to locate DoD personnel whose whereabouts cannot be locally determined. The request should be on the financial institution’s letterhead, include the Service member’s name and social security number, and cite the cognizant Military Service regulation that authorizes the use of locator services. If a financial institution needs immediate service, the cognizant institution official should contact the bank or credit union liaison officer.

1. For addresses of Department of the Army active, retired and separated personnel, financial institutions may telephone (502) 613-4400 or write to:

   Department of the Army
   U.S. Army Human Resources Command
   Attn: AHRC-FOI
   1600 Spearhead Division Ave.
   Fort Knox, KY 40122-5504

2. For addresses of Department of the Navy active, retired and separated personnel, financial institutions may telephone 866-U-ASK-NPC ((866)-827-5672)) or write to:

330304. Advertising

A. An on-base financial institution may use the unofficial section of that installation’s daily bulletin, provided space is available, to inform DoD personnel of financial services and announce seminars, consumer information programs, and other matters of broad general interest. Announcements of free financial counseling services are encouraged. Such media may not be used for competitive or comparative advertising of, for example, specific interest rates on savings or loans.

B. An on-base financial institution may use installation bulletin boards, newsletters or web pages to post general information that complements the installation’s financial counseling programs and promotes financial responsibility and thrift. Message center services may distribute a reasonable number of announcements to units for use on bulletin boards so long as this does not impose an unreasonable workload.

C. An on-base financial institution may include an insert in the installation’s newcomers package (or equivalent). This insert should benefit newcomers by identifying the financial services that are available on the installation.

D. DoD Manual 5120.20 prevents use of the Armed Forces Radio and Television Service to promote a specific financial institution.

E. Off-base financial institutions are not permitted to distribute competitive literature or forms on the installation. These institutions, however, may use commercial advertising, mailings or telecommunications to reach their customers.

F. Advertising in government-funded (official) installation papers is not permitted with the exception of insert advertising in the Stars and Stripes overseas. Installation newspapers funded by advertisers are not official publications and, thus, may include advertising paid for by any financial institution.

G. Installation activities, including Military Exchange Services and concessionaire outlets, shall not permit the distribution of literature from off-base financial institutions if there is an on-base financial institution. This does not prevent the Military Exchange Services from distributing literature on affinity credit card services that those Military Exchange Services may acquire centrally through competitive solicitation.

330305. Service

On-base financial institutions are encouraged to install Automated Teller Machines (ATMs) at those installation(s) on which they are located.

A. ATMs are considered electronic banking services and, as such, shall be provided only by financial institutions that are chartered and insured in accordance with the provisions of paragraph 330301.
B. Financial institutions that propose to install ATMs on DoD installations shall bear the cost of ATM installation, maintenance and operation. The installation commander may enter into an agreement with the on-base financial institution wherein the installation may acquire and provide ATMs to on-base financial institutions under certain circumstances, such as when it is advantageous to the government to have one or more ATMs available for use but the acquisition cost to the financial institution is prohibitive. No ATM shall be purchased by an installation unless approved by the Secretary of the Military Department concerned (or designee). In all such cases, installation costs and all logistic support shall be borne by the financial institution.

C. ATM approval authority is as follows:

1. The installation commander has approval authority when an on-base financial institution wishes to place an ATM on the installation. This approval should be reflected as an amendment to the operating agreement.

2. Where there is no on-base financial institution, follow the solicitation procedures to obtain financial services set forth in paragraphs 330403 and 330602.

D. The availability of ATM service shall not preclude the later establishment of a banking office should conditions change on an installation.

E. Proposals by an installation commander to install ATMs on domestic installations from other than on-base financial institutions, including the Military Exchange Services, MWR activities and/or other nonappropriated fund instrumentalities, shall be considered only when (1) ATM service is unavailable or existing service is inadequate, and (2) only when the on-base financial institution(s) either declines to provide the service, fails to improve existing service so that it is adequate, or does not formally respond to the request for such service within 30 days of the date of the request. Any ATM service from other than on-base financial institutions is considered an exception to policy. The procedures to establish an on-base financial institution set forth in paragraphs 330403 and 330602, shall be followed when soliciting for such ATM services. Proposals offering shared-access ATMs (e.g., ATMs operated by two or more financial institutions where their accountholders are not assessed any or all fees applicable to non-accountholders) shall receive preference.

F. ATM service from foreign banking institutions may be authorized on overseas installations with or without MBFs operated under contract where the installation or community commander determines that a bona fide need exists to support local national hires. On installations with MBFs operated under contract, the MBFs shall be the primary source of the ATM service except when a determination has been made by the cognizant contract program office that providing the service is either not cost effective or precluded by pertinent status of forces agreements, other intergovernmental agreements or host-country law. In those instances where ATM service from foreign banking institutions is authorized and provided by other than the on-base financial institution, ATM connectivity shall be limited to host country networks and the ATMs shall dispense only local currency (no U.S. dollars). The operating agreement covering ATM service shall be negotiated by the installation or community commander and
submitted for approval by the appropriate Combatant Commander (or designee) prior to its execution. A copy of the operating agreement will be forwarded through DoD Component channels to the DFAS.

330306. Domestic and International Treasury General Accounts

In cases where authorization will be required for the on-base banking office or credit union to act as a Treasury General Account (TGA) domestic depositary (or, on overseas installations, an International Treasury General Account (ITGA) depository), the financial institution shall satisfy the risk management standard established by the Secretary of the Treasury. Local operating funds may be used if the on-base financial institution requests reimbursement for costs incurred. On-base financial institutions shall accept deposits for credit to the TGA (or ITGA) when so authorized.

330307. Staffing

A. On-base financial institutions shall be staffed adequately (i.e., commensurate with industry standards for similar numbers of accountholders and financial services rendered). Staffing at overseas MBFs operated under DoD contract shall be maintained within negotiated ceilings.

B. All staffing shall comply fully with applicable equal employment opportunity laws and with the spirit of DoD equal employment opportunity policies as set forth in DoD Directive 1440.1.

C. DoD personnel, excluding military retirees and their dependents, may not serve as directors of domestic or foreign banking institutions operating banking offices on those DoD installations where they currently are assigned. This does not preclude a member of a Reserve Component, who has been serving as a director of a domestic or foreign banking institution operating a banking office on a DoD installation, from retaining his or her directorship if called to active duty.

D. DoD personnel may not be detailed to duty with an on-base financial institution located on a DoD installation. Off-duty personnel, however, may be employed by an on-base financial institution subject to approval by the installation commander (or designee). Such employment must not interfere with the performance of the individual's official duties and responsibilities.

330308. Departure Clearance

The installation commander establishes the clearance policy for all DoD personnel leaving the installation. The on-base financial institutions shall be included as places requiring clearance. The purpose of a clearance is to report change of address, reaffirm outstanding debts, and receive financial counseling, if desired or appropriate. Clearance may not be denied in order to collect debts or resolve disputes with financial institution management.
330309. Financial Education

A. Officials of on-base financial institutions shall be invited to take part in seminars to educate personnel on personal financial management and financial services. Financial institutions shall be encouraged to provide financial education and counseling services as an integral part of their financial service offerings. Officials of on-base financial institutions shall submit advance briefing texts for approval by the installation commander to ensure that the program is not used to promote services of a specific financial institution.

B. DoD personnel who tender uncollectible checks, overdraw their accounts or fail to meet their financial obligations in a proper and timely manner damage their credit reputation and adversely affect the public image of all government personnel. For uniformed personnel, military financial counselors and legal advisors shall recommend workable repayment plans that avoid further endangering credit ratings and counsel affected personnel to protect their credit standing and career. Counselors shall ensure that such personnel are aware of the stigma associated with bankruptcy and difficulties in obtaining future credit at reasonable rates and terms and shall recommend its use only when no other alternative will alleviate the situation.

330310. Operating Agreements

A. Before operations of an on-base banking office or credit union begin, a written operating agreement (See Figure 33-2) and the appropriate real estate outgrant (i.e., a lease, permit or license issued as identified in paragraphs 330405, 330406, 330407, 330604, 330605, and 330606) shall be negotiated directly between the installation commander and officials of the designated financial institution. Thereafter, the operating agreement shall be jointly reviewed by the installation commander and the financial institution at least once every 5 years. The operating agreement shall define the basic relationship between the on-base financial institution and the installation commander and identify mutual support activities such as hours of operation, service fees and security provided. One copy of the agreement shall be sent through command channels to the Secretary of the Military Department concerned (or designee). A copy of the agreement shall be maintained by the installation commander and the banking office or on-base credit union. At a minimum, the agreement shall include the following provisions:

1. Identification of services to be rendered and the conditions for service. Full financial services shall be provided where feasible. Agreements, however, may not restrict either entity’s right to renegotiate services and fees.

2. Agreement by both parties to comply with this Regulation and DoD Instruction 1000.11 (codified in 32 CFR, 231).

3. Agreement by the on-base financial institution that it will furnish copies of its financial reports and other local publications on an “as needed” basis in response to a formal request from the installation commander (or designee).
4. Agreement that the on-base financial institution will indemnify and hold harmless the U.S. Government from (and against) any loss, expense, claim, or demand to which the U.S. Government may be subjected as a result of death, loss, destruction, or damage in conjunction with the use and occupancy of the premises caused in whole or in part by agents or employees of the on-base financial institution.

5. Agreement that neither DoD nor its representatives shall be responsible or liable for the financial operation of the on-base financial institution or for any loss (including criminal losses), expense, or claim for damages arising from operations.

6. Agreement by the on-base financial institution (or any successor) that it will provide no less than 180 days advance written notice to the installation commander before ceasing operations.

7. Specification of the security services to be provided for guarding cash shipments, at times of unusual risk to the financial institution, and to avoid excessive insurance costs charged to that institution.

8. Statement that the physical security for cash and negotiable items will be in a manner consistent with the requirements of the on-base financial institution’s insurer. A copy of those requirements will be provided to the installation commander on request.

9. Statement that the financial institution, whenever possible, will accommodate local command requests for lectures and printed materials for consumer credit education programs. Officials invited to participate in such programs shall not use the occasion to promote the exclusive services of a particular financial institution.

10. Agreement that the financial institution will reimburse the installation for the provision of logistical support (such as custodial, janitorial, and other services provided by the government) at rates set forth in the lease or agreement between the installation and the financial institution.

11. Statement that on-base financial institution operations shall be terminated, when required, under provisions specified in this Regulation.

B. Approved expansion of services will be documented as an amendment to the existing operating agreement between the installation commander and the on-base financial institution. The amendment to the operating agreement and any required lease (to include a change to an existing lease) shall be in place prior to the initiation of new financial services or offices.

330311. Installation Financial Services

A. Retail banking operations shall not be performed by any DoD Component or nonappropriated fund instrumentality including the Military Exchange Services and MWR activities or any other organizational entity within DoD.
B. Financial services provided on DoD installations will be as uniform as possible for all personnel. As separately negotiated, or based on a fee schedule, custodians of nonappropriated funds shall compensate on-base financial institutions for services received. Compensation may be made with compensating balances or paying fees based on the services provided or a combination of these payment mechanisms. Fees shall not exceed the charge customary for the financial institution less an offsetting credit on balances maintained. Banking offices shall classify nonappropriated fund accounts as commercial accounts.

C. At a minimum, banking offices shall provide the same services to individuals and nonappropriated fund instrumentalities as are available in the surrounding geographic area.

D. On-base financial institutions may conduct operations during normal duty hours provided they do not disrupt the performance of official duties. Operating hours shall be set, in consultation with the bank or credit union liaison officer, to meet the needs of all concerned. ATMs may be used to expand financial services and operating hours.

E. DoD personnel may use their allotment of pay privileges to establish sound savings practices through on-base financial institutions. The on-base financial institution shall credit customer accounts not later than the deposit date of the allotment check or electronic funds transfer.

F. In accordance with sound lending practice, policies on loans to individuals are expected to be as liberal as feasible while remaining consistent with the overall interests of the on-base financial institution. On-base financial institutions shall conform to the Standards of Fairness principles before executing loan or credit agreements.

G. On-base financial institutions shall make basic financial education and counseling services available without charge to individuals seeking these services. Financial education and counseling services refer to basic personal and family finances such as budgeting, checkbook balancing and account reconciliation, benefits of savings, prudent use of credit, how to start a savings program, how to shop and apply for credit, and the consequences of excessive credit. DoD personnel in junior enlisted or civilian grades, or newly married couples who apply for loans, shall be given special attention and counseling.

H. On-base financial institutions must strive to provide the best service to all customers. On-base financial institutions that evidence a policy of discrimination in their services are in violation of Volume 12, Chapter 33. In resolving complaints of discrimination, use the procedures specified in subparagraph 330408.H.

I. All correspondence regarding on-base financial institutions, and questions concerning their operation that cannot be resolved locally, shall be referred through command channels to the Secretary of the Military Department concerned (or designee) for consideration.
3304  DOMESTIC BANKS

330401. General Policy

Given their role in promoting morale and welfare, on-base banks shall be recognized and assisted by DoD Components at all levels.

330402. Establishment

A. The following information shall be included in the installation commander’s request to the Secretary of the Military Department concerned (or designee) for establishment of banking offices:

1. The approximate number of DoD personnel at the installation, and other persons who may be authorized to use the banking office.

2. The distance between the installation and the financial institutions in the vicinity, and the names of those institutions.

3. Available transportation between the installation and the financial institutions listed in subparagraph 330402.A.2.

4. The number of DoD personnel in duty assignments that confine them to the installation or who cannot obtain transportation (such as hospital patients).

5. The name and location of the depositary used to make official deposits for credit to the TGA.

6. A list of organizational and nonappropriated fund accounts, the name and location of the financial institutions where deposited, and the average daily activity and balance of each account.

7. A written description and photographs of the space proposed for banking office use.

8. A statement listing the requirements of the proposed banking office for safes and a vault, alarm systems, and surveillance equipment, when necessary.

9. Reasons for use of space controlled by the General Services Administration (GSA). All the GSA-assigned space, whether leased space or federal office building space, is reimbursable to the GSA at the standard level user charge. As such, space occupied by a banking office to serve military needs will be assigned and charged by the GSA.

10. Any other information pertinent to the establishment of a banking office.
B. The Secretary of the Military Departments (or designee) shall:

1. Review each request for the establishment of banking offices.

2. Conduct a solicitation for the services when warranted.

3. Approve proposals for banking offices.

4. Notify the selected financial institution either directly or through the installation commander. The selected banking institution will, in turn, obtain operating authority from their regulating agencies.

5. Forward proposals to establish TGAs to the DFAS for subsequent forwarding to the Fiscal Assistant Secretary of the Treasury in accordance with Chapter 5.

330403. Solicitations

The Secretary of the Military Department concerned (or designee), or the installation commander with advice from the cognizant Secretary of the Military Department (or designee), shall conduct solicitations to include pre-proposal conferences for on-base banking. Subject to the criteria for selection outlined in subparagraph 330403.D, the preferred sources of on-base financial services at domestic installations are federally-insured, state-chartered or federally-insured, federally-chartered banking institutions operating in the local area. Subparagraph 330403.A addresses distribution of the solicitation only and does not preclude any federally-insured, state-chartered or federally-insured, federally-chartered banking institution from responding at any stage (from local distribution in subparagraph 330403.A.1, to publication in FedBizOpps and financial institution trade journals as outlined in 330403.A.3) of the solicitation process. No commitment may be made to any banking institution regarding its proposal until a designation is made by the appropriate regulatory agency.

A. Solicitations for banking services shall be accomplished in the following order:

1. Solicitation letters will be sent to local banking institutions and a solicitation announcement will be published in the local newspaper(s) and forwarded to financial institution associations.

2. If the Secretary of the Military Department concerned (or designee) or, where delegated, the installation commander, determines that the geographic scope of the solicitation needs to be expanded, a prospectus will be forwarded to financial institutions in a larger geographic area, as well as financial institution associations and regulatory authorities in the state where the installation is located.
3. If the Secretary of the Military Department concerned (or designee) or, where delegated, the installation commander, determines that the geographic scope of the solicitation needs to be expanded further, the prospectus will be published in FedBizOpps and financial institution trade journals.

B. For solicitations conducted at the installation level, the installation commander shall review proposals to establish banking offices, select the banking institution making the best offer and forward a recommendation to the Secretary of the Military Department concerned (or designee) for final approval.

C. Banking institutions shall not be coerced when banking arrangements are under consideration or after banking offices are established. If otherwise proper, this prohibition does not preclude:

1. Discussions with banking institutions prior to submitting a proposal for a new banking office.

2. Helping banking offices extend their operations in support of an installation requirement.

3. Discussions with banking institutions to improve services or to create savings for the banking institution or DoD personnel.

4. Seeking proposals for banking service as directed by the Secretary of the Military Department concerned (or designee).

5. Negotiations preparatory to signing a banking agreement.

D. When soliciting for banking services, proposals shall be evaluated on specific factors identified in the solicitation. These factors, at a minimum, shall be predicated on the services to be provided as outlined in Figure 33-2, paragraph 3, the financial institution’s schedule of service fees and charges, and the extent of logistical support required. Prior to issuance of the solicitation, the preparing office shall identify (for internal use during the subsequent evaluation period) the weights to be applied to the factors reflected in the solicitation. Proposals shall be evaluated and ultimate selection made based upon the factors and weights developed for the solicitation.

E. The Secretary of the Military Department concerned (or designee), or the installation commander with advice from the cognizant Secretary of the Military Department (or designee), shall make the selection of the banking institution based on the provisions outlined in this section.

330404. Terminations

A. Requests for termination of financial services shall be approved by the installation commander, substantiated by sufficient evidence and forwarded to the Secretary of
the Military Department concerned (or designee). The termination of banking office operations shall be initiated by the installation commander only under one of the following conditions:

1. The mission of the installation has changed, or is scheduled to be changed, thereby eliminating or substantially reducing the requirement for financial services.

2. Active military operations prevent continuation of on-base financial services.

3. Performance of the banking office in providing services is not satisfactory according to standards ordinarily associated with the financial services industry or is inconsistent with the operating agreements or the procedures prescribed herein.

4. When merger, acquisition, change of control or other action results in violation of the terms and conditions of the existing operating agreement, the Secretary of the Military Department (or designee) shall terminate the operating agreement with the existing banking institution. When the merger, acquisition, change of control or other action does not result in violation of the terms and conditions of the existing operating agreement, the Secretary of the Military Department (or designee) shall initiate a novation action of the operating agreement identifying the change in control.

B. The installation commander shall forward requests for termination to the Secretary of the Military Department concerned (or designee). The Secretary of the Military Department (or designee) shall coordinate all termination actions with the USD(C), through the Director, DFAS, before notification to the appropriate regulatory agency. Subsequent to this coordination process:

1. The Secretary of the Military Department (or designee) shall inform the regulatory agency of the action.

2. The installation commander shall revoke the authority of the financial institution to operate. The lease will be terminated.

C. Any banking office that intends to terminate its operations should notify the installation commander at least 180 days before the closing date. This notification should precede any public announcement of the planned closure. When appropriate, the commander shall attempt to negotiate an agreement permitting the banking office to continue operations until the installation has made other arrangements. Immediately upon notification of a closing, the commander shall advise the DoD Component headquarters concerned. If it is determined that continuation of banking services is justified, action to establish another banking office shall be taken in accordance with paragraph 330403.

330405. Use of Space, Logistical Support, and Military Real Property for Domestic Banks Land Leases

A. Lease Terms
1. The consideration for a lease shall be determined by appraisal of fair market rental value in accordance with 10 U.S.C. 2667. Periodic reappraisals shall be based upon the fair market rental value exclusive of the improvements made by the banks.

2. The term of the lease shall not exceed 5 years except where the banking institution uses its own funds to improve existing government space as outlined in subparagraph 330405.E. If space occupied is assigned by the GSA, charges to financial institutions for space and services shall be at the GSA standard level user rate.

3. Leases shall include the following provisions:
   a. The government has the right to terminate the lease due to national emergency; installation inactivation, closing, or other disposal action; or default by the lessee.
   b. The lessee shall provide written notice 180 days prior to voluntarily terminating the lease.
   c. Upon a lease termination, the government has the option to cause the title of all structures and other improvements to be conveyed to the United States without reimbursement, or require the lessee to remove the improvements and restore the land to its original condition.

B. Logistical Support

1. The banking office shall be housed in a building accessible to DoD personnel on the installation and in a location permitting reasonable security.

2. Banking institutions shall perform all maintenance, repair, improvements, alterations, and construction on the banking premises.

3. Banking institutions shall pay for all utilities (i.e., electricity, natural gas or fuel oil, water and sewage), heating and air conditioning, intra-station telephone service, and custodial and janitorial services to include garbage disposal and outdoor maintenance (such as grass cutting and snow removal) at rates set forth in the lease, operating agreement or other written agreement between the installation and the banking institution.

C. Leases executed before the issuance of Volume 12, Chapter 33 may not be altered solely as a result of the provisions of Volume 12, Chapter 33 unless a lessee specifically requests a renegotiation under these provisions. No lease may be negotiated or renegotiated, nor may any rights be waived or surrendered without compensation to the government.

D. When a banking institution participates in the construction of a shopping mall complex the lease shall cover only land where the banking office physically is located.
E. When a banking institution uses its own funds to improve existing government space, leases, for a period not to exceed 25 years subject to periodic review every 5 years to assess changes in fair market value, may be negotiated for a period commensurate with the appraised value of the leasehold improvements divided by the annual lease fee.

330406. Land Leases

A. A lease for construction of a building to house a banking office shall be at the appraised fair market rental value. Charges shall apply for the term of the lease not to exceed 25 years, subject to periodic review every 5 years to assess changes in fair market value.

B. If determined to be in the government's interest, an existing lease of land may be extended prior to expiration of its term. Passage of title to facilities shall be deferred until all extensions have expired. Such extensions shall be for periods not to exceed 5 years with lease payments set at the appraised fair market rental of the land only as determined on the date of each such extension. Banking institution lessees shall continue to maintain the premises and pay for utilities and services furnished.

C. When, under the terms of a lease, title to improvements passes to the government, arrangements normally will be made as follows:

1. When the square footage involved exceeds that authorized in the Unified Facilities Criteria and Unified Facilities Guide Specifications (MIL-STD-3007F), the banking institution shall be given first choice to continue occupying the excess space under a lease that provides for fair market rental for the land underlying that excess space.

2. The charge for continued occupancy of improved space by a banking office shall be at fair market rental value only for the associated land. The lessee shall continue to maintain the premises and pay the cost of utilities and services furnished.

330407. Construction

Banks may construct buildings subject to the following provisions:

A. The building shall be solely for the use of the banking institution and may not provide for other commercial enterprises or government instrumentalities.

C. Construction Projects Approval Authority:

1. Projects costing $25,000 or more shall be approved by the Major Command with an information copy sent to the Secretary of the Military Department concerned (or designee). The Secretary of the Military Department (or designee) shall have 30 days to provide comments to the Major Command before final approval can be granted.
2. Projects costing less than $25,000, to include interior alterations and room or office additions to existing banking offices, shall be approved by installation commanders. Copies of approvals, including the identification of project cost, shall be furnished to the Secretary of the Military Department concerned (or designee).

* D. The Congress shall be notified of all construction projects, using other than appropriated funds and costing over $750,000, in accordance with DoD Instruction 7700.18, “Commissary Surcharge, Nonappropriated Fund (NAF), and Privately Financed Construction Reporting Procedures.”

E. Proposals for construction of structures on installations at a banking institution’s expense shall be reviewed and reported in accordance with regulations of the Military Department concerned. The following information shall be listed to support each proposal:

1. Number of DoD personnel at the installation plus others who may use the banking office
2. Square footage of the proposed building
3. Land area to be leased to the banking institution
4. Term of the lease
5. Estimated cost of construction
6. Estimated fair market value of the land to be leased
7. A statement that the banking institution will be responsible for utility connections and other utility and maintenance costs
8. A statement that the building will be used only for financial services
9. A statement that financial institution officials understand the potential loss of the building in the event of installation closure or other delimiting condition

F. Banks shall pay for interior alterations and maintenance as well as utilities, custodial, and other furnished services.

G. Banks shall pay all construction costs.
330408. Bank Liaison Officer

Each installation commander having an on-base banking office shall appoint a Bank Liaison Officer (BLO). The BLO’s name and duty telephone number shall be displayed prominently at each banking office on the installation. As appropriate, the BLO’s responsibility shall be assigned to comptroller or resource management personnel. Employees, officials or directors of a financial institution may not serve as BLOs. The BLO shall:

A. Ensure that the banking institution operating the banking office has the latest version of Volume 12, Chapter 33.

B. Ensure that traveler’s checks and money orders are not being sold by other on-base organizations when banking offices are open for business. Postal units and credit unions, however, are exempt from this restriction. Also, ensure that other financial services, to include vehicle financing on domestic installations, are offered only by the banking office.

C. Attend financial workshops, conferences, and seminars as appropriate. These gatherings offer excellent opportunities for personnel of financial institutions and the Department to improve the military banking program. Free discussion among the attendees gives an excellent forum for planning, developing, and reviewing programs that improve financial services made available to DoD personnel and organizations.

D. Assist, when requested by the banking office manager or the installation commander, in locating and collecting from individuals tendering uncollectible checks, overdrawing accounts, or defaulting on loans (within the guidelines of Figure 33-1) if not otherwise prohibited by law.

E. Maintain regular contact with the banking office manager to confer and discuss quantitative and qualitative improvements in the services provided. In executing this authority, the BLO shall not become involved in the internal operations of the financial institution.

F. Review the schedule of service charges and fees annually, and ensure that the operating agreement is updated at least every 5 years. Renegotiate the financial services offered and related service charges and fees as necessary.

G. Assist in resolving customer complaints about banking services.

H. Assist in resolving complaints of discrimination with financial services by the banking institution. If a complaint cannot be resolved, a written request for investigation shall be forwarded to the appropriate regulatory agency. Any such request must document the problem and command efforts taken toward its resolution. Information copies of all related correspondence shall be sent through channels to the Secretary of the Military Department concerned (or designee) for transmittal to the DFAS.
I. Assist the installation commander to report to the appropriate regulatory agency any evidence suggesting malpractice by banking office personnel.

330409. In-Store Banking

Under the direction and approval of the installation commander, an on-base financial institution may provide in-store banking within the premises of a commissary operated by the Defense Commissary Agency, a Military Exchange, or any other on-base retail facility.

A. Provision of the requested services, and any associated stipulations, shall be documented as an amendment to the existing operating agreement between the installation commander and the on-base financial institution that will provide in-store services.

B. The amendment to the operating agreement shall be drafted through close coordination between the requesting DoD Component representative, the on-base financial institution representative, the bank liaison officer, and the installation commander (or designee). The final amendment shall be signed by the installation commander and the on-base financial institution with the acknowledgement of the DoD Component that will host the in-store banking operation.

C. The installation commander shall extend the opportunity to provide the requested in-store banking services to all financial institutions located on the installation. Space shall be granted by the installation commander through a lease to the banking institution that will provide in-store service. The selection process must ensure an impartial and thorough process to select the best on-base financial institution to provide in-store banking services when such services are desired and approved by the installation commander. Consistent with DoD Component delegation, the final decision to solicit for an in-store banking office rests with the installation commander. The DoD Component seeking in-store banking (e.g., in buildings operated by the Defense Commissary Agency, Military Exchange Services and MWR activities) shall draft the solicitation letter. Close coordination among all cognizant DoD organizations is essential throughout the selection process.

1. The need for in-store banking service may be identified from either:

a. An unsolicited proposal from an on-base financial institution,

b. A DoD Component’s request, or

c. An installation commander’s request.

2. The cognizant installation commander (or designee) is responsible for assessing the environment and authorizing the Bank/Credit Union Liaison Officer(s) to pursue the acquisition of in-store banking services. If no authorization is given, no further action is required.
3. The cognizant installation commander shall determine whether a solicitation is required. (A solicitation shall be required whenever there are two or more financial institutions on a DoD installation.) If no solicitation is required, then the Bank/Credit Union Liaison Officer shall work directly with the on-base financial institution to obtain the requested services. Where there is neither a banking office nor an on-base credit union, use the solicitation process outlined in paragraph 330403, as supplemented by the provisions outlined in subparagraph 330409.A.

4. The solicitation letter shall identify the financial services being requested and classify these services as either mandatory or optional. In addition, the solicitation letter shall highlight any services that will be weighed as more important than others during the evaluation of the proposals. Any space consideration and terms of the proposed agreement also shall be identified in the letter.

5. The installation commander (or designee) formally shall notify the selected financial institution and request that institution to coordinate with the proper activity to begin any construction, modifications or renovations necessary to open the in-store banking office. The cognizant facility management personnel shall begin the process of obtaining the necessary outgrant instruments. Concurrently, the requesting DoD Component representative and the financial institution representative shall draft the appropriate amendment to the operating agreement. The amendment should contain provisions regarding: (a) the roles and responsibilities of all parties involved, (b) the financial services to be provided, and (c) the logistical support arrangements to include custodial services and security provisions. The amendment should be coordinated with the Bank/Credit Union Liaison Officer(s) prior to forwarding that document to the installation commander for signature. The amendment shall be signed by the installation commander (or designee) and the appropriate financial institution official with a copy furnished to the Secretary of the Military Department concerned (or designee) and the Director, DFAS (or designee).

330410. Domestic Military Banking Facilities

A. Domestic Military Banking Facilities (MBF) Establishment

1. Requests to establish MBFs shall be made only when a need for services cannot be met by other means. During mobilization, however, MBFs may be designated as an emergency measure.

* 2. Installation commanders shall send requests for an MBF with justification for its establishment through the Secretary of the Military Department concerned (or designee) to the Director, DFAS, for coordination with the Department of the Treasury. The Department of the Treasury may approve the designation of an MBF under provisions of 12 U.S.C. 265.

3. MBF operations may begin only after approval for MBF status is granted by the Department of the Treasury.
B. MBF Conversion

1. Where MBFs exist, installation commanders shall encourage their conversion to independent or branch banks.

2. Proposals from the on-base banking institution to convert an existing MBF to an independent or branch bank shall be sent through command channels to the Secretary of the Military Department concerned (or designee) for approval. The Secretary of the Military Department (or designee) shall forward the request to the Director, DFAS, for coordination with the Department of the Treasury.

3. Unsolicited proposals from banking institutions to establish independent or branch banks where an MBF exists shall be forwarded through command channels to the Secretary of the Military Department concerned (or designee). Each proposal shall be evaluated on its own merits.

   a. The installation commander shall inform the banking institution operating the MBF that an unsolicited proposal for a banking office has been received and shall offer that incumbent institution the opportunity to submit its own proposal.

   b. Preference to operate an independent or branch bank shall be given to the banking institution that has operated the MBF, provided that the banking service previously rendered has been satisfactory and that the institution’s proposal is adequate.

C. MBF Termination

The Director, DFAS, shall coordinate the termination of a financial institution’s authority to operate an MBF with the Department of the Treasury.

3305 OVERSEAS BANKS

330501. General Provisions of Banking Services Overseas

The Department acquires banking services overseas for use by authorized persons and organizations from the following sources.

A. MBFs operated under contract and authorized by the pertinent status of forces agreement, other intergovernmental agreements, or host-country law.

B. Domestic and foreign banking institutions located on overseas DoD installations. Each such institution shall be:

1. Chartered to provide financial services in that country.

2. A party to a formal operating agreement with the installation commander to provide such services.
3. Identified, where applicable, in the status of forces agreements, other intergovernmental agreements, or host-country law.

330502. Establishment

A. Overseas MBFs Operated Under Contract. Installation or community commanders requiring banking services will send a request through command channels to the Secretary of the Military Department concerned (or designee) for concurrence and subsequent transmittal to the Director, DFAS, for approval.

1. Requests to establish MBFs shall include, but are not limited to, the following information:

   a. The approximate number of DoD personnel at the installation and in the community and any other persons who may be authorized to use the MBF.

   b. The distance between the installation and the nearest MBF and credit union office, the names; addresses, and telephone numbers of the operators of those institutions; and the installations and communities where they are located.

   c. The availability of official and public transportation between the installation or community and the nearest MBF and credit union office.

   d. The name and location of the depository used to make official deposits for credit to the TGA.

   e. A list of organizational and nonappropriated fund accounts, the name and location of the financial institutions where deposited, and the average daily activity and balance of each account.

   f. A written description and photographs or drawings of the space proposed for MBF use. The extent and approximate cost of required alterations, including the construction of counters and teller cages.

   g. A statement that recognizes the logistical support, including equipment, to be provided by the local command as detailed in paragraph 330503. The statement will include the costs of such equipment and the manner in which it will be acquired.

   h. In countries where no MBFs currently are operated under contract, a statement from the cognizant Combatant Command that the requirement has been coordinated with the U.S. Chief of Diplomatic Mission or U.S. Embassy and that the host country will permit the operation in accordance with subparagraph 330206.A.1.

   i. Any other pertinent information to justify the establishment of an MBF.
2. As a general rule, MBFs may be established only when the installation or community population meets the following criteria:

   a. **Full-time MBF.** Except in unusual circumstances, a total of at least 1,000 permanent military personnel and DoD civilian employees is necessary to qualify for a full-time MBF.

   b. **Part-time MBF.** Except in unusual circumstances, a total of at least 250 permanent military personnel and DoD civilian employees is necessary to qualify for a part time MBF.

3. If the population at a certain remote area is not sufficient to qualify under the criteria for full-time or part-time MBFs, the installation or community commander will explore all other alternatives for acquiring limited banking services before requesting establishment of an MBF as an exception to these provisions. Alternatives to limited banking services include installation of ATMs and check cashing and accommodation exchange service by disbursing officers and their agents.

4. Establishment of an overseas MBF is predicated on and requires:

   a. Designation of the MBF contractor as a depositary and financial agent of the U.S. Government by the Department of the Treasury.

   b. The availability of banking contractors interested in bidding for the operation of the facility and the viability of such proposals.

   c. The availability of appropriated funds to underwrite such banking services.

   d. Establishment of a U.S. dollar currency custody account to support banking operations.

B. **Other Overseas Banking Offices.** Where a need for financial services has been identified and either (1) the banking and currency control laws of certain host countries do not permit MBFs to operate on DoD installations or (2) MBFs, where permitted, have not been established, then the following applies:

1. Installation or community commanders shall send requests for banking services or unsolicited proposals from foreign banking institutions to their Major Commands with supporting data as required in paragraph 330402.A.

2. Major Commands shall forward installation or community commander requests to the Secretary of the Military Department concerned (or designee) for approval. The Secretary of the Military Department concerned (or designee) shall coordinate with the DFAS to seek the designation of the parent foreign banking institution as a depositary and financial agent of the U.S. Government by the Department of the Treasury.
3. Banking offices in this category cannot become operational until the foreign parent banking institution has been designated a depositary and financial agent of the U.S. Government. The institution also shall indicate a willingness and ability to provide collateral backing for any official and nonappropriated fund U.S. dollar deposits. Any collateral pledged shall be in a form acceptable to the DFAS and the Department of the Treasury.

330503. Logistical Support

A. Overseas MBFs Operated Under Contract

1. Given that appropriated funds support those MBFs that are operated under contract, installation or community commanders shall provide the MBFs logistical support to the maximum possible extent. Such support normally includes:

   a. Adequate office space, including steel bars; grillwork; security doors; a vault, safes, or both; security alarm systems and camera surveillance equipment (where deemed necessary) that meet documented requirements of the MBF contractor’s insurance carrier; construction of counters, teller cages, and customer and work areas; necessary modifications and alterations to existing buildings; and construction of new MBF premises, if necessary.

      (1) The size and arrangement of space should permit efficient operations. Space assigned may not exceed that prescribed in the Unified Facilities Criteria and Unified Facilities Guide Specifications (MIL-STD-3007F).

      (2) All maintenance, repair, rehabilitation, alterations, or construction for banking offices shall comply with guidelines established by the installation commander.

   b. Office space in a building that is accessible to most users and permits the maximum security. In addition, office space for MBF area and district administrations and storage space for retention of records, files, and storage of supplies.

   c. DoD housing on a rental basis to assigned MBF staff that are designated as key and essential MBF managerial personnel who are unable to find suitable, reasonably priced housing in the vicinity of the DoD installation, subject to the assignment procedures and other requirements of DoD 4165.63-M, “DoD Housing Management.”

   d. Education, on a space-available, tuition-paying basis, provided by the DoD Education Activity to minor dependents of assigned staff.

   e. Air conditioning, which is considered a normal utility for banking offices located at installations that qualify for air conditioning under applicable regulations. Banking space is classified as administrative space at military installations.
f. Utilities (i.e., electricity, natural gas or fuel oil, water and sewage), heating, intra-station telephone service, and custodial and janitorial services to include garbage disposal and outdoor maintenance (such as grass cutting and snow removal).

g. Defense Switched Network (DSN) voice and data communication to include, where feasible, internet access.

h. Military guards, civilian guards (for use within the installation), military police, or other protective services to accompany shipments of money. This level of protective service also shall be provided at other times as required to include replenishment of ATM currency and receipts, alarm system failures, and to avoid undue risks or insurance costs on the part of the MBF.

i. U.S. Military Postal Service access in accordance with DoD Directive 5101.11E, “DoD Executive Agent for the Military Postal Service (MPS) and Official Mail Program (OMP).” Use of free intra-theater delivery system (IDS) is authorized for all routine mail sent and received between Army Post Offices (APOs) and Fleet Post Offices (FPOs) within a theater.

j. Office equipment and furniture on memorandum receipt if available from local stock. If office equipment or furniture is unavailable, statements of nonavailability shall be issued.

k. Vehicle registration and fuel sales from government-owned facilities for bank-operated vehicles if not in conflict with host government agreements. Vehicle registration shall be subject to normal fees.

l. Issuance by local commanders of invitational travel orders, at no expense to the U.S. Government when required for official onsite visits by U.S. based banking institution officials.

2. Suggestions for changes to the logistical support provisions of the MBF contract may be forwarded for consideration through command channels to the Director, DFAS.

B. Other Overseas Banking Offices

1. Logistical support provided to such offices will be negotiated with the parent foreign banking institution and incorporated into the written operating agreement.

2. Logistical support shall not exceed that provided to contract MBFs, as specified in 330503.A.
330504. Operations

A. General Conditions of MBF Operation

1. Before initiating MBF operations, a written agreement shall be negotiated directly and signed by the installation or community commander and a senior official of the banking contractor or other financial institution concerned. One copy of the agreement with U.S. banking contractors and two copies of the agreement with institutions other than U.S. banking contractors shall be forwarded through command channels to the Secretary of the Military Department concerned (or designee). The Secretary of the Military Department (or designee) shall forward one copy of the agreement with institutions other than U.S. banking contractors through command channels to the Director, DFAS. A copy of the agreement also shall be maintained at all times by the installation or community commander and the banking institution manager.

2. For MBFs operated by U.S. banking contractors, the agreement shall state operating details not set forth in the contract. Though the contract limits the number of operating hours per week, local commanders and MBF managers should set days and hours of operation to best meet local needs. Operating times may include Saturdays and evening hours when necessary to complement other retail services for DoD personnel, provided the contractor can implement that service at no additional cost to the government. When added cost is involved, the commander shall send a request including reasons for expanded or modified times of operation, through command channels, to the Secretary of the Military Department concerned (or designee) for action. If approved, the request, with recommendations, shall be forwarded to the Director, DFAS (or designee).

B. Overseas MBFs Operated Under Contract

1. General. Overseas MBFs shall operate under terms and conditions established at the time of contract negotiations and confirmed in respective contracts or contracting officer determinations.

2. Authorized Customers. DoD banking contracts specify the personnel authorized to receive service. Additionally, overseas major commanders may approve banking services for other individuals that qualify for individual logistic support under the regulations of the DoD Component concerned, provided that the use of banking services is not precluded by status of forces agreements, other intergovernmental agreements, or host-country law.

3. Services Rendered. DoD banking contracts specify the services to be rendered and related charges. Suggestions for expansion or modification of authorized services, fees or charges may be forwarded through DoD Component channels to the Director, DFAS. Proposals for any new service must be coordinated with the appropriate Combatant Command and U.S. Chief of Diplomatic Mission or U.S. Embassy to make certain that the proposal does not conflict with the status of forces agreements, other intergovernmental agreements, or host-country law.
4. Regulation to be Provided. The Director, DFAS (or designee) shall advise each U.S. banking contractor operating an overseas MBF of Volume 12, Chapter 33 and furnish a copy to the contractor.

5. Conditions of Operation

a. Part-time and payday service MBFs shall provide limited services that mirror, to the extent feasible, those provided by full-time MBFs. Since part-time MBFs operate out of nearby MBFs, installation or community commanders shall provide and fund transportation and guards for their operation.

b. Any deficiency of banking services under DoD banking contracts shall be reported to the manager of the MBF within 7 calendar days of noting the deficiency. If the problem has not been corrected within 30 calendar days after being noted, the commander shall report the problem through DoD Component channels to the Director, DFAS (or designee).

c. The MBF contractor and military disbursing officers shall establish cash management practices that minimize the cash required to conduct business.

d. Commanders shall assist MBF contractors to develop and update contingency plans for banking services in the event of hostilities or other emergencies.

e. MBF provision of foreign currency shall be in accordance with Volume 5, Chapter 13.

C. Other Overseas Banking Offices

1. Authorized Customers. The list of authorized customers shall be negotiated between the installation commander and the foreign banking institution and shall be reflected in the operating agreement. The list of authorized customers included in the operating agreement shall be consistent with the applicable status of forces agreement, other intergovernmental agreements, or host-country law.

2. Services Rendered. Services and charges shall parallel, whenever practical, the services and charges of MBFs operated under contract. Specific services shall be negotiated and included in the agreement with the foreign banking institution. A copy of the agreement shall be sent through DoD Component channels to the Director, DFAS (or designee).

3. Operating Agreements. Before agreements are executed, they will be coordinated with and approved by the cognizant Combatant Command (or designee).

4. Conditions of Operation. A foreign banking institution shall provide equipment (except that furnished by the installation or community), supplies, and trained personnel.
D. Relocation of MBF

1. When an MBF is moved from one location to another at the same installation or community, the commander shall notify the cognizant Military Department, through command channels. The Military Department shall forward the information to the Director, DFAS (or designee).

2. For all other relocations, prior approval from the Director, DFAS (or designee) shall be obtained through DoD Component channels.

E. Comments. Installation or community commanders shall send their banking comments through DoD Component channels to the Director, DFAS (or designee) for any of the following:

1. Major changes in installation population that would affect use of the MBF.

2. Opinion that the space assigned is not adequate for the efficient operation of the MBF including a statement concerning corrective action.

3. Suggestions that might improve the MBF operation, increase efficiency, or decrease costs.

4. Pending developments that may have a material impact on the MBF operation.

F. Bank Liaison Officer. The duties of the BLO are outlined in paragraph 330408.

330505. Termination

Requests to eliminate any or all MBFs in a foreign country shall include documentation that the U.S. Chief of Diplomatic Mission has been informed and that arrangements for local termination announcements and procedures have been made with the U.S. Embassy.

A. Overseas MBFs Operated Under Contract. In cases where an installation or community no longer can justify overseas MBF operations, the commander shall notify the Secretary of the Military Department concerned (or designee) through command channels.

1. The report shall state whether a part-time MBF should be established and specify the days each week that the MBF would be needed.

2. The Secretary of the Military Department (or designee) shall send this report with recommendations to the Director, DFAS (or designee).
B. Other Overseas Banking Offices. Termination actions, when required, shall be taken in accordance with the applicable clauses in the operating agreement. Notice of intent to terminate, including the closing date, shall be sent through DoD Component channels to Director, DFAS (or designee), who shall notify the Department of the Treasury so that the foreign banking institution's authority as a Depositary and Financial Agent of the U.S. Government at that location may be revoked.

3306 DOMESTIC CREDIT UNIONS

330601. General Policy

Given their role in promoting morale and welfare, on-base credit unions shall be recognized and assisted by DoD Components at all levels. These financial institutions shall provide services to DoD personnel of all ranks and grades within their respective fields of membership.

330602. Establishment

A demonstrated need for credit union services may be addressed by establishing a new full-service credit union or by opening a branch office or facility of an existing credit union under the common bond principle.

A. DoD personnel seeking to establish a new full-service credit union shall submit a proposal to the installation commander for review. In addition to the information identified in subparagraph 330402.A, the proposal shall include a request for the establishment of a field of membership that includes all personnel at the installation. Upon installation commander concurrence, the proposal shall be forwarded through DoD Component channels to the Secretary of the Military Department (or designee).

B. The Secretary of the Military Department concerned (or designee) shall:

1. Obtain a list of credit unions that could establish eligibility to serve the installation’s military members and civilian employees from the National Credit Union Administration (NCUA) Regional Office that has geographic jurisdiction and the applicable state regulatory agency.

2. Prepare and send formal solicitation letters to eligible credit unions informing them of an opportunity to establish a branch office at the installation.

3. In coordination with the installation commander, establish the criteria for selection of a specific credit union in accordance with subparagraph 330403.D. Proposals shall be evaluated, and a selection made, based upon the factors and weights developed for the solicitation.
C. Upon approval by the Secretary of the Military Department (or designee), the NCUA or applicable state regulatory agency shall be notified and asked to establish or amend the selected credit union’s charter to include the new location.

D. No commitment may be made to a credit union regarding its proposal until the appropriate regulatory agency has approved the requested charter change.

330603. Terminations

A. Voluntary Credit Union Terminations

1. When a credit union plans to end operations on a DoD installation, it shall be required to notify the installation commander 180 days before the closing date. Such notification shall be required to precede public announcement of the planned closure. When appropriate, the commander shall attempt to negotiate an agreement permitting the credit union to continue operations until the installation has made other arrangements.

2. The installation commander shall inform the Secretary of the Military Department concerned (or designee) immediately upon receiving notification of a closing. The report shall include a recommendation about continued credit union service on the installation. Paragraph 330602 applies if continued service is needed.

B. Termination for Cause. If, after discussion with credit union officials, an installation commander determines that the operating policies of a credit union are inconsistent with this Regulation, a recommendation for termination of logistical support and space arrangements may be made through the Secretary of the Military Department concerned (or designee). A credit union shall be removed from the installation only with approval of the Secretary of the Military Department (or designee) after coordination with the USD(C) through the Director, DFAS, and the appropriate regulatory agency.

C. Termination in the Interest of National Defense. At the option of the government, leases may be terminated in the event of national emergency or as a result of installation deactivation, closing, or other disposal action.

D. Termination Resulting from Merger, Acquisition, or Change of Control. When merger, acquisition, change of control or other action results in violation of the terms and conditions of the existing operating agreement, the Secretary of the Military Department (or designee) shall, subsequent to coordination with the USD(C), through the Director, DFAS, terminate the operating agreement with the existing credit union. When the merger, acquisition, change of control or other action does not result in violation of the terms and conditions of the existing operating agreement, the Secretary of the Military Department (or designee) shall initiate a novation action of the operating agreement identifying the change in control.
E. Termination of Lease. The lessee shall provide written notice 180 days prior to a voluntary termination of the lease. Upon lease termination, the government has the option to cause the title of all structures and other improvements to be conveyed to the United States without reimbursement, or require the lessee to remove the improvements and restore the land to its original condition.

330604. Use of Space, Logistical Support, and Military Real Property for Domestic Credit Unions

A. Criteria for Use of Space in Government-owned Real Property or Federal Land:

2. A credit union may be furnished space on a DoD installation at one or more locations for periods not exceed 5 years except where the credit union uses its own funds to improve existing government space as outlined in subparagraphs 330604.A.2.c and 330604.A.2.d. The cumulative total of space furnished shall be subject to the limitations of the Unified Facilities Criteria and Unified Facilities Guide Specifications (MIL-STD-3007F).

a. The furnishing of office space and/or land (including ATM placement) to on-base credit unions is governed by the Federal Credit Union Act (12 U.S.C 1770). Notwithstanding any other provision of law, upon application by any credit union, the provision of no-cost federal office space or no-cost land lease is for a period not to exceed 5 years. This is limited to credit unions if at least 95 percent of the membership to be served by the allotment of space or the facility built on the lease land is composed of individuals who are, or who were at the time of admission into the credit union, military personnel or federal employees, or members of their families. A written statement to the effect that the credit union meets the 95 percent criterion shall be required to justify and document the allotment of free government space and/or land. This statement shall be prepared on the credit union’s letterhead and signed by either the chairman of the board of directors or the president. A certification shall also be required whenever there is a merger, takeover, or significant change in a field of membership. This certification shall serve as justification and documentation for the continued allocation of free government space including space renovated with credit union funds and/or the free lease of land. The statement shall be updated every 5 years and on renewal of each no-cost permit or license. (See Figure 33-3 for a sample format of the statement.)

b. Credit unions that fail to meet the 95 percent criterion shall be charged fair market rental for space provided. Except where more than one credit union exists on an installation prior to June 9, 2000, credit unions giving less than full service or not serving all assigned DoD personnel are not authorized no-cost office space.
c. When a credit union that meets the 95 percent criterion uses its own funds to expand, modify, or renovate government-owned space, it may be provided a no-cost permit or license for a period commensurate with the extent of the improvements not to exceed 25 years as determined by the DoD Component concerned. The permit or license shall be effective until the agreed date of expiration or until the credit union ceases to satisfy the 95 percent criterion. In this latter case, the no-cost permit shall be cancelled in favor of a lease immediately negotiated at fair market value under the provisions of subparagraph 330704.A.2.b. If the credit union desires, this permit or license may extend through the period identified in the original permit or license not to exceed 25 years.

d. Similarly, a credit union not meeting the 95 percent criterion that uses its own funds to expand, modify, or renovate government-owned space, may be provided a lease at fair market value for a period not to exceed 25 years subject to periodic review every 5 years to assess changes in fair market value. Duration of this lease shall be commensurate with the extent of the improvements as determined by the DoD Component concerned.

3. All space assigned by the GSA, whether leased or in a federal office building, is reimbursable to the GSA at the standard level user charge. Consequently, the GSA shall charge the benefiting DoD Component for any space assigned for credit union operations. Such space is subject to the provisions of subparagraphs 330604.A.1 and 2.

B. **Logistical Support.** When available, custodial and janitorial services to include garbage disposal and outdoor maintenance (such as grass cutting and snow removal), heating and air conditioning, utilities (i.e., electricity, natural gas or fuel oil, water, and sewage), fixtures, and maintenance shall be furnished without cost to credit unions occupying no-cost office space in government buildings. With the exception of intra-station telephone service, credit unions shall be required to pay for all communication services to include telephone lines, long distance data services and internet connections. Credit unions also shall pay for space alterations. Should a credit union fail to meet the 95 percent membership criterion, any logistical support furnished shall be on a reimbursable basis.

C. **Leases executed before the issuance of Volume 12, Chapter 33 may not be altered solely as a result of the provisions of Volume 12, Chapter 33 unless a lessee specifically requests a renegotiation under these provisions. No lease may be negotiated or renegotiated, nor may any rights be waived or surrendered without compensation to the government.**

D. **When a credit union participates in the construction of a shopping mall complex the lease shall cover only land where the branch or facility physically is located.**

E. **Administrative Fees.** All administrative fees associated with the initiation, modification, or renewal of an outgrant shall be borne by the installation, provided that the credit union satisfies the 95 percent membership criterion requirement for no-cost office space as outlined subparagraph 330604.A.2.a, and that the fees are associated with the no-cost space.
330605. Land Leases

Credit unions entering into a land lease to construct a building on a DoD installation shall be provided a no-cost land lease, if they meet the 95 percent criterion established in subparagraph 330604.A.2.a. Credit unions not meeting the 95 percent criterion shall enter into a land lease in accordance with subparagraph 330604.A.2.b and paragraph 330406.

330606. Construction

Credit unions constructing a building on a DoD installation shall do so in accordance with paragraph 330407.

330607. ATM Service

Credit unions offering ATM service shall do so in accordance with paragraph 330305.

330608. Staffing

A. On-base credit unions shall provide full service. To do so, credit union offices shall be staffed by:

1. An official authorized to act on loan applications;

2. An individual authorized to sign checks; and

3. A qualified financial counselor available to serve members during operating hours.

B. Exceptions to subparagraph 330608.A.1, may be approved by the installation commander with advice from the Secretary of the Military Department concerned (or designee) in the case of newly organized credit unions.

C. When an on-base credit union can support only minimum staffing, one of the positions required in subparagraphs 330608.A.1 or 2, also may be subsumed under the counselor duties.

D. Credit union remote service locations at the same installation may be staffed with one person alone, provided that a direct courier or an electronic or automated message service links each remote location to the credit union’s main office.
330609. Credit Union Liaison Officer

When a credit union office is located on an installation, the commander shall appoint a Credit Union Liaison Officer (CULO). As appropriate, the CULO responsibility should be assigned to comptroller or resource management personnel. The CULO’s name and duty telephone number shall be displayed prominently at each credit union office on the installation. Anyone who serves as a credit union board member or in any other official credit union capacity may not serve as a CULO. The duties of a CULO are the same as the duties listed for a BLO (see paragraph 330408).

330610. In-Store Banking

In-store banking services may be provided in accordance with paragraph 330409, except that:

A. Credit unions interested in submitting proposals to provide requested in-store banking services shall provide a statement from the NCUA or applicable state regulatory agency certifying the credit union’s authority to offer the requested financial services to the commissary, Military Exchange, or other on-base facilities.

* B. Space granted to a credit union selected to provide in-store banking services should be issued through a no-cost license in accordance with section 170 of the Federal Credit Union Act (12 U.S.C. 1770 et seq.).

3307 OVERSEAS CREDIT UNIONS

330701. General Policy

A. Credit union services to authorized persons and organizations may be provided by domestic on-base credit unions operating under a geographic franchise.

B. The extension of credit union service overseas is encouraged consistent with the principles prescribed for domestic credit unions and with applicable status of forces agreements or other intergovernmental agreements, or host-country law.

C. Where permitted by the status of forces agreements or other intergovernmental agreements, or host-country law, only federal credit unions or federally insured state chartered credit unions may operate on overseas DoD installations. The ultimate decision to provide services overseas rests with the credit union itself.

330702. Establishment

A. Commanders shall notify the Secretary of the Military Department concerned (or designee), through command channels, when overseas credit union services are needed. Such requests shall include:
1. Full information about available space and logistical support.

2. The name and location of the nearest credit union facility or branch.

3. The distance between the installation and the nearest credit union facility or branch.

4. The availability of any official or public transportation.

5. The number of DoD personnel in duty assignments that confine them to the installation or who cannot obtain transportation (such as hospital patients).

6. In countries not presently served, a statement concurred in by the cognizant Combatant Command that the requirement has been coordinated with the U.S. Chief of Diplomatic Mission or U.S. Embassy. The statement shall include that the host country will permit credit union operations and will indicate any conditions imposed by the host country with respect to those operations.

B. Subsequent to approval of the request from the installation or community commander to establish an overseas credit union facility, the Secretary of the Military Department concerned (or designee) shall solicit proposals for the provision of full credit union services under the following provisions.

1. Where there is a DoD designated geographic franchise with a specific field of membership, the Secretary of the Military Department (or designee) shall direct the installation or community commander to contact the supporting credit union and request that a branch or facility be established. The basic decision concerning such extensions of service rests with the servicing credit union. The Director, DFAS (or designee) shall maintain a listing of all geographic franchises assigned to credit unions serving DoD overseas installations.

2. Where there is no DoD designated geographic franchise, the Secretary of the Military Department (or designee) shall:
   a. Coordinate requests, through the Director, DFAS (or designee), to obtain a geographic franchise. A geographic franchise is the authorization granted to a credit union by the Office of the Under Secretary of Defense (Comptroller) (OUSD(C)) to provide financial services in a specific geographic region located outside the United States, its territories and possessions.
   b. Solicit proposals from credit unions currently operating on DoD installations.
   c. Review proposals of interested credit unions.
   d. Coordinate with field commands, as needed.
e. Recommend selection to the NCUA or applicable state regulatory agency with a copy to the DFAS and the OUSD(C), requesting that the appropriate field of membership adjustment be made. Such a recommendation shall identify the primary installations on which the credit union would operate and, if applicable, the contiguous geographic boundaries for future facilities and branches.

C. Where there is an existing field of membership, the Secretary of the Military Department concerned (or designee) shall take the following actions:

1. If a credit union on an installation terminates operation, afford any other credit union having a geographic franchise within that country an opportunity to assume the franchise being vacated. If all such institutions decline, the geographic franchise shall be offered to the federally insured credit union community. If, as a result of a credit union decision to decline service to an installation or a termination action, another credit union (a) offers to provide service, (b) meets host country requirements (if any) and (c) is assigned the former geographic franchise or portion thereof, the NCUA or the applicable state regulatory agency shall be notified and requested to make appropriate field of membership adjustments.

2. When other credit union(s) having a geographic franchise within a country decline the opportunity, or there is no other credit union having a franchise within that country, the provisions of subparagraph 330702.B.2, apply.

D. No commitment may be made to a credit union regarding its proposal until the appropriate regulatory agency has announced a selection.

330703. Logistical Support

Installation or community commanders shall provide logistical credit union support. Such support normally shall include:

A. Adequate office space, including steel bars; grillwork; security doors; a vault, safes or both; security alarm systems and camera surveillance equipment (where deemed necessary) that meet documented requirements of the credit union’s insurance carrier; construction of counters, teller cages, and customer and work areas; necessary modifications and alterations to existing buildings. The size and arrangement of space should permit efficient operations. The credit union shall pay for all improvements to the space given. Space assigned may not exceed that prescribed in the Unified Facilities Criteria and Unified Facilities Guide Specifications (MIL-STD-3007F).

B. DoD housing on a rental basis to key credit union personnel unable to find suitable, reasonably priced housing in the vicinity of the DoD installation, if available.

C. Education, on a space-available, tuition-paying basis, provided by the DoD Education Activity to minor dependents of assigned staff.
D. Utilities (i.e., electricity, natural gas or fuel oil, water and sewage), heating, intra-station telephone service, and custodial and janitorial services.

E. DSN voice and data communication to include, where feasible, internet access.

F. U.S. Military Postal Service support under DoD Directive 5101.11E. The use of free IDS is authorized for all routine mail sent and received between APOs and FPOs within a theater.

G. Military guards, civilian guards (for use within the installation), military police, or other protective services to accompany shipments of money from the MBF to the credit union and return where it is impractical or not authorized to have a local armored car service or civilian police authorities entering a military installation to provide cash escort service or when the cost of obtaining such service is prohibitive. This level of protective service also shall be provided at other times as required to include replenishment of ATM currency and receipts, alarm system failures, and to avoid undue risks or insurance costs.

330704. Travel

Travel by credit union officials must be at no expense to the U.S. Government. Overseas commanders may issue invitational travel orders for official on-base visits by credit union officials at no cost to the U.S. Government.

330705. Operations

A. An overseas credit union shall confine its field of membership to individuals or organizations eligible by law or regulation to receive services and benefits from the installation. Services shall not be provided to those personnel precluded such services by the applicable status of forces agreement, other intergovernmental agreements, or host-country law.

B. The Department assigns overseas credit unions a prescribed geographic franchise. Any credit union, however, may continue to serve its members stationed overseas by mail or telecommunications, to include access to the internet.

C. A credit union proposing a new service to be offered by a branch office that is not authorized by the operating agreement shall coordinate the establishment of the new service through the cognizant Component command to the Combatant Command. The new service shall be offered only after the appropriate command’s approval and coordination with the U.S. Chief of Diplomatic Mission or U.S. Embassy to ensure that the service does not conflict with the applicable status of forces agreement, other intergovernmental agreements, or host-country law.
D. Credit unions that operate full service branches shall have U.S. currency and coin available for member transactions. In areas served by currency custody accounts, transactional U. S. currency and coins shall be made available from the servicing MBF with no direct or analysis charge to the credit union, provided settlement is made via the local MBF account or equivalent arrangements are made with the MBF.

E. In countries served by MBFs operated under contract, credit unions shall purchase foreign currency only from the servicing MBF.

   1. The bulk rate purchase price shall apply to currency used by the credit union to make payments to vendors or to make payroll payments.

   2. Credit unions that desire and are authorized to provide accommodation exchange services to members shall acquire foreign currency from the servicing MBF at the MBF wholesale rate and sell it at a rate of exchange no more favorable than the customer rate available at the MBF.

F. Credit unions operating under a geographic franchise on an overseas DoD installation shall not publicize, display or sell vehicles on the installation.

G. The NCUA or applicable state regulatory agency may review operations of overseas credit union offices either when it examines the main credit union or at other times of its choosing. For federally insured, state chartered credit unions, the applicable state regulatory agency also may examine credit unions operations.
Figure 33-1: Guidelines for Application of the Privacy Act to Financial Institution Operations

1. The following guidelines govern the application of DoD Directive 5400.11 to those financial institutions that operate under this Regulation:

   A. Financial institutions and their branches and facilities operating on Department of Defense (DoD) military installations do not fall within the purview of 5 U.S.C. 552 et seq.  

      1. These financial institutions do not fit the definition of “agency” to which the Privacy Act applies: “...any executive department, Military Department, government corporation, government-controlled corporation, or other establishment in the executive branch of the government (including the Executive Office of the President), or an independent regulatory agency” (5 U.S.C. 552(e) and 552a(a)(1)).

      * 2. These financial institutions are not “government contractors” within the meaning of 5 U.S.C.552a(o), as they do not operate a system of records on behalf of an agency “...to accomplish an agency function.” According to the Office of Management and Budget Privacy Act Guidance the provision relating to government contractors applies only to systems of records “...actually taking the place of a federal system which, but for the contract, would have been performed by an agency and covered by the Privacy Act.” Clearly, the subject institutions do not meet these criteria.

      3. Since the Act does not apply to them, these financial institutions are not required to comply with 5 U.S.C. 552a(e)(3) in obtaining and making use of personal information in their relationships with personnel authorized to use such institutions. Thus, these institutions are not required to inform individuals from whom information is requested of the authority for its solicitation, the principal purpose for which it is intended to be used, the routine uses that may be made of it, or the effects of not providing the information. There also is no requirement to post information of this nature within on-base banking and credit union offices.

   B. The financial institutions concerned hold the same position and relationship to their account holders, members, and to the government as they did before enactment of OMB Circular A-130. Within their usual business relationships, they still are responsible for safeguarding the information provided by their account holders or members and for obtaining only such information as is reasonable and necessary to conduct business. This includes credit information and proper identification, which may include social security number, as a precondition for the cashing of checks.

   C. Financial institutions may incorporate the following conditions of disclosure of personal identification in all contracts, including loan agreements, account signature cards, certificates of deposit agreements, and any other agreements signed by their account holders or members:
Figure 33-1: Guidelines for Application of the Privacy Act to Financial Institution Operations (Continued)

I hereby authorize the Department of Defense and its various Components to verify my social security number or other identifier and disclose my home address to authorized (name of financial institution) officials so that they may contact me in connection with my business with (name of financial institution). All information furnished will be used solely in connection with my financial relationship with (name of financial institution).

When the financial institution presents such signed authorizations, the receiving military command or installation shall provide the appropriate information.

D. Even though an agreement described in subparagraph A.3., has not been obtained, DoD may provide these financial institutions with salary information and, when pertinent, the length or type of civilian or military appointment, consistent with DoD Directives 5400.11 and 5400.07. Some examples of personal information pertaining to DoD personnel that normally can be released without creating an unwarranted invasion of personal privacy are name, rank, date of rank, salary, present and past duty assignments, future assignments that have been finalized, office phone number, source of commission, and promotion sequence number.

E. When DoD personnel with financial obligations are reassigned and fail to inform the financial institution of their whereabouts, they should be located by contacting the individual’s last known commander or supervisor at the official position or duty station within that particular DoD Component. That commander or supervisor either shall furnish the individual's new official duty location address to the financial institution, or shall forward, through official channels, any correspondence received pertaining thereto to the individual’s new commander or supervisor for appropriate assistance and response. Correspondence addressed to the individual concerned at his or her last official place of business or duty station shall be forwarded as provided by postal regulations to the new location. Once an individual’s affiliation with DoD is terminated through separation or retirement, however, the Department’s ability to render locator assistance (i.e., disclose a home address) is severely curtailed unless the public interest dictates disclosure of the last known home address. The Department may, at its discretion, forward correspondence to the individual’s last known home address. The Department may not act as an intermediary for private matters concerning former DoD personnel who are no longer affiliated with the Department.

2. Questions concerning this guidance should be forwarded through channels to the Deputy Chief Financial Officer, Office of the Under Secretary of Defense (Comptroller), The Pentagon, Washington, DC 20301-1100.
NOTE: The following operating agreement template identifies general arrangement and content. Content of the actual operating agreement may vary according to the circumstances of each installation.

Operating Agreement Between (Name of Installation), (State or Country Installation Located) and (Name of Financial Institution)

This Agreement is made and entered into this day by and between the installation commander of (name of installation) in his or her official capacity as installation commander, hereinafter referred to as the “commander” and the (name of financial institution), having its principal office at (location of home office) hereinafter referred to as the “financial institution,” together hereinafter referred to as “the parties.” Whereas the commander and the financial institution enter into this Operating Agreement upon the mutual consideration of the promises, covenants, and agreements hereinafter contained.

1. The parties understand and agree that this Agreement shall in no way modify, change, or alter the terms and conditions of Lease Number (number of lease) covering the use of real property described therein, and this Agreement shall continue, subject to the termination provisions herein-after set forth, during the terms of said lease and any extensions thereof. In the case of a banking institution operating a military banking facility (MBF) overseas, this agreement will not change the conditions of the contract between the banking institution and the Department of Defense.

2. The financial institution agrees to operate a (federally or state) chartered office on-base in accordance with the policies and procedures set forth in DoD Instruction 1000.11, “Financial Institutions on Military Installations;” and Volume 12, Chapter 33 as codified in Title 32 of the Code of Federal Regulations; and, in addition for the Overseas Military Banking Program (OMBP), the policies and procedures set forth in the applicable DoD contract. The hours of operations shall be between (hour office opens) and (hour office closes), and on the following days (week days office open), except on government holidays when the financial institution may be closed. The Program Office for the OMBP shall notify the commander of any changes to the DoD contract.

3. The financial institution shall provide the following services:

   a. Services for Individuals

      (1) Demand (checking) account services

      (2) Cashing personal checks and government checks for accountholders
Figure 33-2. Sample Operating Agreement Between Military Installations and Financial Institutions (Continued)

(3) Maintaining savings accounts and (any other interest-bearing accounts)

(4) Selling official checks, money orders, and traveler’s checks

(5) Selling and redeeming United States savings bonds

(6) Providing direct deposit service

(7) Loan Services

(8) Electronic banking (i.e., automated teller machines, internet banking).

b. Services for Disbursing Officers

(1) Furnishing cash (if the financial institution’s terms for doing so are consistent with sound management practices)

(2) Accepting deposits for credit to the Treasury General Account (where the financial institution has entered into an agreement with the Department of the Treasury).

c. Services for Nonappropriated Fund Instrumentalities and Private Organizations

(1) Demand (checking) account services, including wire transfers

(2) Savings accounts and nonnegotiable certificates of deposit or other interest-bearing accounts offered by the banking institution

(3) Currency and coin for change.

4. Service charges shall be as follows:

a. Service for Individuals
Figure 33-2. Sample Operating Agreement Between Military Installations and Financial Institutions (Continued)

(1) No fees shall be charged to individuals for the services listed in subparagraphs 3.a.(2), and 3.a.(5), except for subparagraph 3.a.(2), wherein checks drawn on other financial institutions may be treated in accordance with the financial institution’s established policy. Any charge to cash a government check shall not exceed that typically charged by financial institutions in the vicinity of the installation. Fees assessed to accountholders and non-accountholders for use of automated teller machines shall be the customary service charges of the financial institution or those negotiated for base personnel per the attached schedule.

(2) Checking and savings accounts. Fees for individual checking and savings accounts shall be the customary service charges of the financial institution or those negotiated for base personnel per the attached schedule.

(3) Sale of official checks, money orders, traveler’s checks and other types of financial paper. Charges for these services shall be the customary charges of the financial institution operating the on-base office.

b. Service for Disbursing Officers. No charge shall be made for the services listed in subparagraph 3.b.(2). Compensation to the financial institution shall be per its separate agreement with the Department of the Treasury. Charges, if any, for the services stated in subparagraph 3.b.(1) shall be as locally negotiated with the financial institution.

c. Nonappropriated Fund Instrumentalities and Private Organizations. State the charges or refer to a schedule of charges for funds and organizations that do not participate in a central banking program. For those activities participating in a central banking program, determine the compensation to the financial institution by account analysis.

5. It is agreed that the financial institution shall:

a. Notify the commander or designated representative of any proposed changes to the attached schedule of fees and services at least 30 days prior to implementation.

b. Follow the requirements in Volume 12, Chapter 33 and any changes thereto.

c. Comply with Department of the Treasury requirements for establishment and operation of a Treasury General Account where the financial institution agrees to act as a depository for government funds.

d. Absolve the (Military Service) and its representatives of responsibility or liability for the financial operation of the financial institution; and for any loss (including losses due to criminal activity), expenses, or claims for damages arising from financial institution operations.
Figure 33-2. Sample Operating Agreement Between Military Installations and Financial Institutions (Continued)

e. Indemnify, and hold harmless the United States from (and against) any loss, expense, claim, or demand, including attorney fees, court costs, and costs of litigation, to which the government may be subjected as a result of death, loss, destruction, or damage in connection with the use and occupancy of (Military Service) premises occasioned in whole or in part by officers, agents or employees of the financial institution operating an office of the financial institution.

f. Favorably respond, whenever feasible, to reasonable local command requests for lectures and printed materials to support consumer credit education programs, financial management program and newcomer’s briefings.

g. Prominently post in the lobby of the financial institution the name, duty telephone number of the (Bank or Credit Union) Liaison Officer.

h. Accept the government travel card in all on-base ATMs operated by the financial institution.

i. Abide by the installation fire protection program, including immediate correction of fire hazards noted by the installation fire inspector during periodic fire prevention inspections.

6. The commander shall provide the following space and support:

a. Space requirements for financial institution operations shall be administered in accordance with the existing outgrant (i.e., lease, permit or license). (Show Number of Outgrant).

b. Utilities (i.e., electricity, natural gas or fuel oil, water and sewage), heating and air conditioning, intra-station telephone service, and custodial and janitorial services to include garbage disposal and outdoor maintenance (such as grass cutting and snow removal) on a reimbursable basis.

c. DoD housing and minor dependent education in overseas locations for MBF and credit union personnel in accordance with Volume 12, Chapter 33, subparagraphs 330503.A.1.c, 330503.A.1.d, 330703.B, and 330703.C.

d. The local commander shall determine the recurring/frequency requirement for installation access and issue the appropriate installation and/or facility access credential consistent with local security requirements using Government authoritative databases for vetting purposes, as prescribed in Directive-Type Memorandum 09-012, Interim Policy Guidance for DoD Physical Access Control.
Figure 33-2. Sample Operating Agreement Between Military Installations and Financial Institutions (Continued)

7. Termination of this Agreement shall be consistent with the termination provision of the real property lease and Volume 12, Chapter 33. The Secretary of the (Military Department) shall have the right to terminate this Agreement at any time. Any termination of the right of the financial institution to operate on the installation shall render this Agreement terminated without any applicable action by the commander.

8. Any provision of this Agreement that is contrary to or violates any laws, rules, or regulations of the United States, its agencies, or the state of (state in which the financial institution is located) that apply on federal installations shall be void and have no force or effect; however, both parties to this Agreement agree to notify the other party promptly of any known or suspected continuing violation of such laws, rules, or regulations.

9. So long as this Agreement remains in effect, it shall be reviewed jointly by the commander and the financial institution at least once every 5 years to ensure compatibility with current DoD issuances and to determine if any changes are required to the Agreement.

IN WITNESS WHEREOF, the commander and the financial institution, by their duly authorized offices, have hereunto set their hands this day of (month, day, year).

CHAPTER 34

DIRECT ACCEPTANCE OF GIFTS BY MEMBERS OF THE ARMED FORCES,
DEPARTMENT OF DEFENSE EMPLOYEES AND THEIR FAMILIES AND
SURVIVORS

3401 GENERAL

340101. Overview

Congress enacted Title 10, United States Code (U.S.C), § 2601(a) which authorized the direct acceptance of gifts from outside sources by members of the armed forces and civilian employees of the Department of Defense (DoD), their family members and survivors, for injuries or illnesses incurred as a result of combat and other covered circumstances. Prior to enactment, employees and Service members were authorized to receive gifts from within the Department.

340102. Purpose

This chapter establishes policy and assigns responsibilities to implement 10 U.S.C. § 2601a. The authority in 10 U.S.C. § 2601a is in addition to, and in no way limits, any other statutory or regulatory authority of covered members or employees, their family members, and their survivors to accept gifts from non-federal entities.

340103. Authoritative Guidance

10 U.S.C. § 2601a provides authority to the Secretary of Defense to prescribe regulations allowing covered members of the armed forces, covered employees of the DoD, their family members, and their survivors to accept gifts from nonprofit organizations, private parties, and other sources outside the DoD under specified circumstances.

3402 POLICY

340201. Definitions

A. Covered Employee. A civilian DoD employee who, while an employee on or after September 11, 2001, incurred an illness or an injury under the criteria in this chapter.

B. Covered Member. A Service member who, while performing active duty, full-time National Guard duty, or inactive-duty training on or after September 11, 2001, incurred an injury or illness under the criteria in this chapter.

C. Designated Agency Ethics Official. A DoD employee appointed in writing by the head of the DoD agency to coordinate and manage the agency’s ethics program.

D. Ethics Counselor. A DoD employee appointed in writing by the designated agency ethics official or designee to assist in implementing and administering the DoD component command’s or organization’s ethics program.
E. **Family Members.** Parents, siblings, spouse, biological and adopted children, and dependent relatives of covered members or employees.

F. **Gift.** Any gratuity, favor, discount, entertainment, hospitality, loan, forbearance, or other item having monetary value. It includes services, as well as gifts of transportation, local travel, lodgings, and meals. It does not include those items excluded from the definition of “gift” in [5 Code of Federal Regulations (C.F.R.) § 2635.203(b)(1)-(9)].

G. **Secretary Concerned.** The Secretary of a Military Department who has jurisdiction over the military reservation, installation, ship, aircraft, or facility where an event occurs that meets the criterion of this chapter. The Secretary of Defense or designee, if the event meeting the criterion of this chapter occurs at a location that is not a military reservation, installation, or facility, or where more than one Secretary has jurisdiction.

H. **Survivors.** Living family members of a covered member or employee who is killed.

340202. **Gift to Covered Employees**

Pursuant to the authority in 10 U.S.C. § 2601a, covered members of the armed forces in the DoD and covered employees of DoD, their family members, and their survivors may accept gifts directly from nonprofit organizations, private parties, and other sources outside the DoD when, while performing military duties or performing duties as a civilian employee on or after September 11, 2001, they incur an injury or illness: (1) as a direct result of armed conflict; while engaged in hazardous service; in the performance of duty under conditions simulating war; or through an instrumentality of war; (2) in an operation or area designated as a combat operation or combat zone by the Secretary of Defense; or (3) under other circumstances determined by the Secretary concerned to warrant treatment similar to members covered by the first criterion of this section.

340203. **Impermissible Gifts**

The authority in 10 U.S.C. § 2601a does not apply to gifts from foreign governments or international organizations or their representatives, nor does it apply to gifts that: (1) are accepted in return for being influenced in the performance of an official act; (2) are solicited or coerced; (3) are accepted in violation of any other statute or regulation, including [18 U.S.C. § 201](https://www.statutes.atlas.gov/archive/v18/contents/201.html) and [209](https://www.statutes.atlas.gov/archive/v209/contents/209.html), and [5 C.F.R. § 2635](https://www.gpo.gov/fdsys/pkg/CFR-2019-title5-vol11/pdf/CFR-2019-title5-vol11.pdf) and [3601](https://www.gpo.gov/fdsys/pkg/CFR-2019-title5-vol11/pdf/CFR-2019-title5-vol11.pdf); or (4) will reflect adversely on the DoD.

340204. **Criteria for Gift Acceptance**

A. **Nonprofit organizations, private parties, and other sources outside DoD.** The following individuals may accept gifts from nonprofit organizations, private parties, and other sources outside DoD:

a. A member of the armed forces described in subparagraph 340204.B.
b. A civilian employee of the DoD described in subparagraph 340204.C.

c. The family members of such a member or employee.

d. Survivors of such a member or employee who is killed.

B. Covered members. Applies to a member of the armed forces who, while performing active duty, full-time National Guard duty, or inactive-duty training on or after September 11, 2001, incurred an injury or illness:

1. As described in section 10 U.S.C. 1413a(e)(2);

2. In an operation or area designated as a combat operation or a combat zone, respectively, by the Secretary of Defense in accordance with the regulations prescribed under subparagraph 340204.A; or

3. Under other circumstances determined by the Secretary concerned to warrant treatment analogous to members covered by subparagraph 340204.A.1.

C. Covered Employees. Applies to a civilian employee of the DoD who, while an employee on or after September 11, 2001, incurred an injury or illness under a circumstance described in subparagraph 340204.B.

D. Gifts From Certain Sources Prohibited. Members and employees may not accept a gift from a foreign government or international organization or their agents under this authority.

E. Application of Certain Regulations. These regulations shall apply to the acceptance of gifts received after the date of the enactment of the National Defense Authorization Act for Fiscal Year 2012 for injuries or illnesses incurred on or after September 11, 2001. The military services must apply uniformly to all elements of the DoD and require review and approval by an ethics counselor before acceptance of a gift to ensure that acceptance of the gift complies with the Joint Ethics Regulation.

3403 RESPONSIBILITIES

340301. Under Secretary of Defense for Personnel and Readiness

The Under Secretary of Defense for Personnel and Readiness (USD(P&R)) has the overall oversight responsibility on the implementation of this guidance. USD(P&R) monitors compliance with the provisions of this chapter pursuant to DoD Directive 5124.02.
340302. Secretary Concerned

The Secretary concerned determines whether an event occurring within his or her jurisdiction meets the criterion of “other circumstances” as described in paragraph 340202.

340303. Designated Agency Ethics Official

The relevant designated agency ethics official ensures that an ethics counselor reviews and, when appropriate, approves the acceptance of a gift in accordance with 10 U.S.C. § 2601a (a)(2)(B). That review and approval includes a determination that: (1) the gift is not offered in a manner that specifically discriminates among covered members or employees on the basis of type of official responsibility or favors those of higher rank or pay; (2) the donor does not have interests that may be affected substantially by the performance or nonperformance of the covered member’s or employee’s official duties; and (3) acceptance would not cause a reasonable person with knowledge of the relevant facts to question the integrity of DoD programs or operations.

INTRODUCTION TO NONAPPROPRIATED FUND ACCOUNTING

0101 GENERAL

*010101. Overview

Nonappropriated Fund (NAF) accounting applies to all NAF Instrumentalities (NAFIs) and their supporting Accounting Offices (AOs), except the Military (Armed) Service Exchanges. NAFs are separate from appropriated funds (APFs) of the U.S. Treasury. NAFs are not commingled with APFs and are managed separately from APFs, even when used to support a common program.

010102. Purpose

This chapter provides a list of definitions, reporting requirements, accounting standards, internal controls, and audit requirements for NAFIs.

*010103. Authoritative Guidance

The accounting policies, and related requirements prescribed, are in accordance with the applicable provisions of:

A. Department of Defense Instruction (DoDI) 1015.15, “Establishment, Management, and Control of Nonappropriated Fund Instrumentalities and Financial Management of Supporting Resources;” and

B. Financial Accounting Standards Board Accounting Standards Codification (ASC). Users can obtain free access to the ASC by registering for the Basic View, which allows browsing by ASC topic.

0102 DEFINITIONS

010201. APFs

APFs are monies paid out of the U.S. Treasury pursuant to statutory authority granted by Congress to the DoD to incur obligations and make payments. The term “appropriation” means a provision of law (not necessarily in an appropriations act) authorizing the expenditure of funds for a given purpose. In most cases, appropriations are of two types, annual and multi-year. Congress approves the appropriation acts that specify the purposes for which the APFs are used. Specific accounting policies for APFs are described in Volume 4. For additional information on the use of and accounting for APFs for NAF activities, refer to DoDI 1015.15.
010202. Balance Sheet

The Balance Sheet is a financial statement that shows an entity’s financial position at a certain point in time (usually at the end of an accounting period). It represents the entity’s assets, liabilities, and net worth (or fund equity).

010203. Chart of Accounts

The chart of accounts is a list of ledger account names, descriptions, and numbers arranged in the order in which they customarily appear in the financial statements. The chart serves as a useful source for locating a given account within the ledger. The chart of accounts for NAFs is established to comply with FASB and DoDI 1015.15 reporting requirements, and is maintained on the DoD NAF Accounting website.

010204. Comparability

Comparability is the similarity and consistency of information produced by an entity from period to period and by others operating in similar circumstances. The value and usefulness of information depends greatly on the degree to which it is comparable to information from prior periods and to similar information reported by others.

010205. Consistency

Consistency is the uniformity of accounting procedures used by an accounting entity from period to period.

010206. Cost-Benefit Analysis (CBA)

CBA is an analytic technique that compares the costs and benefits of investments, programs, or policy actions in order to determine which alternative or alternatives maximize net benefits (economic efficiency). CBA attempts to consider all costs and benefits.

010207. General Ledger

The general ledger is a summary of all the transactions that occur for each NAFI. Separate accounts exist for individual assets, liabilities, net worth, income, and expenses. The general ledger is the core of the NAF accounting system and contains all of the accounting entries for the current period. The general ledger accounts are found in the NAF Standard General Ledger on the DoD NAF Accounting website.

010208. Internal Controls

Internal controls are tools to help program and financial managers achieve desired results and safeguard the integrity of their programs.
010209. Interpretation

Interpretation is an opinion regarding a set of facts. A degree of subjectivity is involved on the part of the individual, based on experience and judgment.

010210. Materiality

Materiality refers to the magnitude of an omission or misstatement of accounting data that misleads financial statement readers. Information is material when it is of such magnitude or significance that its omission or misstatement leads to a misinterpretation of the financial information. For example, amounts in a financial statement that are too small to make a difference or affect the reliability of information may be omitted because they are immaterial. In addition to magnitude, the nature of the item is considered when making a materiality judgment. For reporting purposes that require the level of materiality to be quantified, materiality must be defined as one percent of the total assets in the Balance Sheet for each NAFI. For those NAF activities required to report on a consolidated basis, the threshold of materiality must be one percent of the assets in the consolidated Balance Sheet.

010211. NAFs

NAFs are government monies that are not appropriated by Congress and are not held within the U.S. Treasury. These are separate funds that are not recorded in the books of the Department of the Treasury.

010212. NAFI

A NAFI is a fiscal entity of the U.S. Government that is supported in whole or in part by NAFs. In accordance with DoDI 1015.15, paragraph 6, NAFIs are categorized into six Program Groups: Military Morale, Welfare, and Recreation (MWR), Military (Armed) Service Exchange, Civilian MWR, Lodging Program Supplemental Mission Funds, Supplemental Mission Funds, and Special Purpose Central Funds. A NAFI acts in its own name to provide or assist the Secretaries of the Military Departments to provide programs for DoD personnel. See the definition of NAFI in DoDI 1015.15, Enclosure 2, for further clarification.

010213. Recording

Recording is the accurate documentation of business transactions. Recording is an essential requirement of both manual and automated accounting systems.

010214. Relevance

Relevance is the capacity of information to make a difference in decision-making. For instance, relevant information must be available in a timely manner to ensure its value in decision-making.
010215. Reliability

In financial accounting theory, reliability describes information that is reasonably free from error and bias and accurately presents the facts.

010216. Statement of Cash Flows

The Statement of Cash Flows is a financial statement for a given period that provides information about an entity’s cash receipts and cash disbursements as they apply to operating, investing, and financing activities.

010217. Statement of Income and Expense

The Statement of Income and Expense is a financial statement showing the elements (income and expense) used in arriving at the net income for the accounting period or over a certain period of time.

010218. Subsidiary Ledgers

Subsidiary ledgers are a group of related accounts supporting the balance of a control account in the general ledger. In some cases, a simple file system or the equivalent may be adequate if it substantiates the general ledger account balance. Three typical subsidiary ledgers are accounts receivable, prepaid accounts, and accounts payable.

010219. Summarizing

Summarizing is the process of bringing together financial information to develop financial statements or reports. Examples of the most commonly used financial statements are the Balance Sheet, Statement of Income and Expense, and Statement of Cash Flows.

010220. Timeliness

Timeliness is prompt reporting of financial information to users for their maximum benefit. Financial data is recorded as soon as practical after the occurrence of a transaction.

010221. Trial Balance

A trial balance is a listing of the accounts in the general ledger along with each account's balance in the appropriate debit or credit column. AOs will prepare an end-of-month trial balance of the general ledger accounts to ensure total debits equal total credits.
0103  ANNUAL REPORTING REQUIREMENTS

010301.  Annual Reporting Period

The annual accounting reporting period for DoD NAFIs begins October 1 of each year and ends September 30 of the following year.

*010302.  Reports

Financial reports are prepared annually for each NAFI and must include notes to accompany the financial statements. The following NAFI financial reports are explained in Chapter 7:

A.  Balance Sheet;
B.  Reconciliation of Net Worth;
C.  Statement of Income and Expense;
D.  Schedule A – APF and NAF Expense Summary; and
E.  Statement of Cash Flows.

010303.  Financial Statement Disclosures

Financial reports must include full and adequate disclosure of financial and accounting information in accordance with Chapter 7 specific reporting requirements (e.g., disclosure of fund equity adjustments and eliminating entry transactions between NAFIs); this includes Military Service Headquarters, Major Command or Region, and installation NAFIs. Following these requirements ensures that financial and accounting information is properly treated in preparation of reports.

0104  ACCOUNTING STANDARDS

010401.  Generally Accepted Accounting Principles (GAAP)

The term GAAP encompasses the conventions, rules, and procedures necessary to define accepted accounting practice at a particular time. GAAP includes not only broad guidelines of general application, but also detailed practices and procedures. These conventions, rules, and procedures establish a standard by which to measure financial presentations.

A.  Judgment.  Although there are numerous sources of GAAP, some judgment is necessary to determine whether:

1.  The accounting principles selected and applied have general acceptance;
2. The accounting principles are appropriate in the circumstances;

3. Financial statements, including related notes, are informative of matters that may affect their use, understanding, and interpretation;

4. Information presented in the financial statements is classified and summarized in a reasonable manner, i.e., it is neither too detailed nor too condensed; and

5. Financial statements reflect the underlying transactions and events in a manner that presents the financial position, results of operations, and cash flows stated within a range of acceptable limits, i.e., limits that are reasonable and attainable.

B. FASB Codification. The American Institute of Certified Public Accountants (AICPA) Council designated the Federal Accounting Standards Advisory Board as the body that promulgates GAAP for federal entities and the FASB as the organization that establishes standards for financial accounting and reporting in the private sector. Since NAFI business operations are similar to the private sector, financial statements are prepared and presented to comply with accounting standards promulgated by FASB. The FASB Accounting Standards Codification is the single source of authoritative nongovernmental U.S. GAAP, and is available as an advanced application that allows users to access authoritative content, perform research, and submit feedback. Effective for interim and annual periods ending after September 15, 2009, the Codification supersedes all previous GAAP standards. All other accounting literature not included in the Codification is considered non-authoritative. The Codification structure is significantly different from the structure of the previous standards and is composed of the following literature issued by various standard setters:

1. FASB:
   a. Statements,
   b. Interpretations,
   c. Technical Bulletins,
   d. Technical Staff Positions, and
   e. Staff Implementation Guides;

2. Emerging Issues Task Force:
   a. Abstracts, and
   b. Topic D;

3. Derivative Implementation Group Issues;
4. Accounting Principles Board Opinions;
5. Accounting Research Bulletins;
6. Accounting Interpretations; and
7. AICPA:
   a. Statements of Position,
   b. Audit and Accounting Guides,
   c. Practice Bulletins, and
   d. Technical Inquiry Service.

C. Other Considerations. An important aspect of GAAP, as applied to government entities, is the recognition of the variety of legal and contractual considerations typical of the government environment. These considerations underlie and are reflected in the fund structure, basis of accounting, and other principles that distinguish governmental accounting from private sector accounting. Some of the types of laws and regulations that may have a direct and material effect on the determination of amounts in a NAF activity’s financial statements include:

1. Requirements for reporting to DoD and others;
2. Restrictions on the use of APFs;
3. Restrictions on expenditures, including construction;
4. Restrictions on investments; and
5. Laws and regulations for NAF, Civil Service, and military personnel.

010402. Accrual Accounting

NAFIs use the accrual basis of accounting. Under accrual accounting, transactions and other economic events are recorded when they occur. Income and expense are recognized and reported when earned or incurred. Accrual accounting emphasizes matching associated income and expense in the period in which they occur and contributes to effective financial control over resources and cost of operations. Accrual accounting is essential in developing adequate income and cost information.
010403. AO Responsibilities

AOs provide centralized professional accounting services to NAFIs. AO responsibilities include:

A. Maintain all books of original entry, the general ledger, and related subsidiary ledgers;

B. Maintain fixed asset records;

C. Prepare all disbursement vouchers and checks after assuring availability of funds and pay liabilities of all supported NAFIs;

D. Maintain payroll records if performing payroll functions;

E. Prepare required periodic financial reports with ratios and percentages as requested. AOs also report variances in relation to established standards or approved budget goals upon request;

F. Prepare other information when requested by NAFI management or higher authority. For example, AOs may supply financial analysis with an MWR activity’s financial statements or provide variance from budget data or historical information for use in preparation of NAFI budgets;

G. Prepare and distribute financial reports to all supported NAFIs;

H. Prepare an annual operating budget for the AO. When more than one NAFI is supported by an AO, then a schedule is prepared that shows the estimated amounts to be assessed each supported NAFI;

I. Reconcile the bank accounts of supported NAFIs. Review daily account balances shown on monthly bank statements to make sure that insurance and collateral are sufficient. Notify NAFI managers of missing or delayed deposit or check documentation;

J. Compute and bill service fees to recover operating costs;

K. Review documentation for completeness and accuracy;

L. Provide documentation to internal and external independent auditors, as required;

M. Prepare aged accounts receivable and accounts payable reports;

N. Maintain awareness of all changes that affect financial reporting; and
O. Review requests for making adjustments to fund equity or net worth. Non-receipt of accounting documents or failure to record documents received does not constitute a valid equity adjustment.

010404. Accounting Changes

The term “accounting change” means a change in an accounting principle or an accounting estimate. When an accounting change is made, appropriate footnote disclosure is required to provide justification for the accounting change and its effect on the financial statements.

A. Change in Accounting Principle. A change in accounting principle results from an adoption of a generally accepted accounting principle different from the one previously used for reporting purposes to include the methods for applying the new principle. A characteristic of a change in accounting principle is that it concerns a choice from among two or more generally accepted accounting principles. In the preparation of financial statements, there is a presumption that an accounting principle, once adopted, is not changed in accounting for events and transactions of a similar type. Consistent use of accounting principles from one accounting period to another enhances the utility of financial statements to users by facilitating analysis and understanding of comparative accounting data. Generally, the past financial statements are restated to reflect a change in accounting principle.

B. Change in Accounting Estimate. A change in an estimate used in accounting is a necessary consequence of periodic presentations of financial statements. A change in accounting estimate results from new information or subsequent developments and accordingly from better insight or improved judgment. Preparing financial statements requires estimating the effects of future events. Examples of items for which estimates are necessary are uncollectible receivables, inventory obsolescence, service lives, and salvage values of fixed assets. Future events and their effects cannot be predicted with certainty. Estimating, therefore, requires the exercise of judgment. Accounting estimates may change as new events occur, as more experience is acquired, or as additional information is obtained. A change in accounting estimate is accounted for prospectively over current and future years, which will cause a change to the expense account in future years. Prior years are not restated.

010405. Accounting Errors

Errors in financial statements result from mathematical mistakes, mistakes in the application of accounting principles, oversight, or misuse of facts that existed at the time the financial statements were prepared. A change from an accounting principle that is not generally accepted to one that is generally accepted is a correction of an error. The past financial statements are restated to reflect the corrections.

*0105 INTERNAL CONTROLS

NAFIs must establish and operate internal control programs in accordance with a range of guidance. The Office of Management and Budget Circular A-123, “Management’s Responsibility for Enterprise Risk Management and Internal Control,” and the statute it implements, the Federal
Managers’ Financial Integrity Act (FMFIA) of 1982, are at the center of the existing Federal requirements to improve internal controls. Circular A-123 provides guidance on using the range of tools at the disposal of agency managers to achieve desired program results and meet the requirements of the FMFIA of 1982. The Circular provides internal control standards and specific requirements for conducting management’s assessment of the effectiveness of internal controls over financial reporting. For additional guidance, refer to DoDI 5010.40, “Managers’ Internal Control Program Procedures,” and DoDI 1015.15. See Volume 1, Chapter 3, section 0303 for additional guidance on appropriate internal controls, including verifying the authorization of recorded transactions.

0106 AUDIT REQUIREMENTS

010601. Audit Policy

Policy regarding the audit of NAFIs and related activities is prescribed in DoDI 7600.06, “Audit of Nonappropriated Fund Instrumentalities (NAFI) and Related Activities.” NAFIs will have access to the results of system or functional audits in the form of reports.

010602. Audit Frequency

DoD policy is to provide adequate audit coverage of NAFIs to include annual financial statement audits. Each Military Service is required by DoDI 7600.06 to have independent certified public accountants conduct an annual financial audit of NAFIs with annual income or expenses exceeding $10 million. If directives require or circumstances warrant, additional audits may be scheduled as instructed by DoD Component authority.

010603. Audit Objectives

The primary objectives of NAFI audits are to determine whether internal control systems are adequate, the financial statements fairly represent the results of operations, applicable laws and regulations are followed, and desired program results are achieved. Particular attention is placed on identifying potential fraud, waste, or abuse in operations.
VOLUME 13, CHAPTER 2: “NONAPPROPRIATED FUND STANDARD GENERAL LEDGER”

SUMMARY OF MAJOR CHANGES

All changes are denoted by blue font.

Substantive revisions are denoted by an asterisk (*) symbol preceding the section, paragraph, table, or figure that includes the revision.

Unless otherwise noted, chapters referenced are contained in this volume.

Hyperlinks are denoted by bold, italic, blue, and underlined font.

The previous version dated February 2014 is archived.

CHAPTER 2

NONAPPROPRIATED FUND STANDARD GENERAL LEDGER

0201 GENERAL

020101. Purpose

This chapter prescribes policy for the Nonappropriated Fund Standard General Ledger (NAFSGL), maintained on the DoD NAF Accounting website. The NAFSGL is a modified version of the United States Standard General Ledger used for accounting and financial statement reporting to ensure financial statement information is consistent for all Nonappropriated Fund Instrumentalities (NAFIs). The NAFSGL provides for standardization and traceability from the financial statements through the general ledger balances to the source documentation for audit purposes. At a minimum, the Office of the Under Secretary of Defense (Personnel & Readiness) updates and publishes the NAFSGL prior to 1 October of each year. Policies in this chapter apply to all NAFIs and their supporting accounting offices, except the Military (Armed) Service Exchanges, which include Army and Air Force Exchange Service, Navy Exchange Command, and Marine Corps Exchange.

020102. Authoritative Guidance

The accounting policies, and related requirements prescribed, are in accordance with the applicable provisions of:

A. Department of Defense Instruction (DoDI) 1015.15, “Establishment, Management, and Control of Nonappropriated Fund Instrumentalities and Financial Management of Supporting Resources;” and

B. Financial Accounting Standards Board Accounting Standards Codification (ASC). Users can obtain free access to the ASC by registering for the Basic View, which allows browsing by ASC topic.

0202 REPORTING

020201. Basic Structure

The general ledger accounts are self-balancing (the total debits equal the total credits) and provide for accounting of business events. The NAFSGL contains basic common account code elements, including the Installation, Nonappropriated Fund (NAF), Activity, Cost Center, Site, and General Ledger Account Code (GLAC). Each Military Department uses the accounts required for its particular financial operations. The NAFIs and Military Departments may not have to use all accounts. See paragraph 020302 for a description of each common account code element.
020202. Financial Transactions

All resources acquired and used, and valid claims to and against those resources, are to be recorded as financial transactions. Asset and liability accounts cover the collection and payment of cash, the proper classification of assets (e.g., receivables, prepayments, inventory, and fixed assets), and the recognition and proper classification of liabilities (e.g., accounts payable, wages payable, loan liabilities, and pension liabilities). Revenue and expense accounts measure the realization of revenues from the sale of goods and services, and the recognition of costs through the use and consumption of assets.

*0203 NAFSGL FRAMEWORK

020301. Reporting

The NAFSGL framework requires reporting by specified common account code elements used to organize data for financial reporting. The current NAF common account code elements include the Installation, NAF Fund, Activity, Cost Center, Site, and GLAC.

020302. NAF Common Account Code Elements

A. Installation. A five-character code used to indicate the Military Service and the location where the NAF program is physically or virtually located.

B. NAF Fund. A three-digit code that indicates the NAF Program Group and the type of NAF operation (e.g. Military Morale, Welfare and Recreation (MWR), Department of Defense Lodging, Military Academy Athletic Fund). More information about NAF Program Groups and the definition of NAFIs is in DoDI 1015.15.

C. Activity. A two-digit code that indicates a specific program or an operational program of a NAFI designed to increase the well-being of authorized MWR users. An activity identifies operational organizations within the service structure. Examples include bowling, camping, lodging, and golf.

D. Cost Center. A three-digit code providing a subset or subaccount used to give a more detailed view of a business activity by identifying the accounting subdivision of a NAFI. NAFIs consist of one or more subdivisions called cost centers. Transactions relating to one operational activity (e.g., military club) are recorded into one or more cost centers (e.g., bar, restaurant, or snack bar).

E. Site. A two-digit code for similar activities operated at separate physical locations that are associated with the same installation. For example, an installation might have two bowling alleys or three clubs. The service would provide a consecutive number for each similar location (e.g., Bowling Alley X = 01, Bowling Alley Y = 02). If the activity and cost center cannot be traced to a specific site, use the code "00" to indicate the activity and cost center do not align with a site. If only one physical location exists, use the code "01" to identify the location.
F. **GLAC.** A three-digit code that is used to record transactions relating to a Service’s NAF program assets, liabilities, equity, revenues (income), and expenses. The GLAC is the central repository for accounting data transferred from all sub-ledgers or modules, such as accounts payable, accounts receivable, cash management, fixed assets, purchasing and projects.

*0204 NAFSGL ACCOUNTS*

020401. **Categories**

The NAFSGL uses a three-digit account numbering system for the GLACs. The Chart of Accounts is a list of GLACs with a detailed definition for each account. Within the NAFIs, the NAFSGL supports financial statement reporting at the Program Group level and the consolidated Military Department level. All data must summarize to the three-digit NAFSGL accounts and be traceable to the NAFIs using subaccounts. The following paragraphs discuss the definition of each summary category and the accounts that make up that specific summary category. The general ledger accounts are grouped into the following major summary categories:

<table>
<thead>
<tr>
<th>Account Numbers</th>
<th>Category</th>

</tr>
</tbody>
</table>

020402. **Assets**

Account for assets in the 100 series of accounts. Current asset accounts consist of cash, investments, receivables, inventories, and other assets or resources that are reasonably expected to be converted to cash or be consumed during the normal operating cycle (12 months or less). Noncurrent asset accounts consist of NAFI-titled fixed assets, appropriated fund (APF)-titled fixed assets, and other long-term assets. Chapter 3 contains additional information on assets.

A. **Cash/Investments.** Cash and investments are liquid assets, which can be quickly used to carry out operations. Cash consists of coins, paper currency and readily negotiable instruments, cash in bank, foreign currencies, revolving cash funds, cash held in petty cash or change funds, imprest funds, savings, and restricted cash. Investments consists of interest-bearing deposits, certificates of deposit (12 months or less), and marketable securities. Employee retirement cash and investments (employee 401K, employee retirement, and employee post-retirement medical) must be excluded from a consolidated presentation. The employee retirement cash and investments will distort available NAF.

B. **Receivables.** Receivables are amounts due from others when the right to receive funds occurs. This may result from amounts owed by employees, customers, and organizations for amounts earned on products sold and services rendered. Receivables consists of
customer receivables, inter- and intra-NAFI receivables, APF receivables, merchant card receivables, claims receivables, employee receivables, accrued interest receivables, allowance for doubtful accounts, and other receivables.

C. Other Current Assets. Other current assets are prepaid expenses that are payments and expenditures made in contemplation of future benefits or performance. Other Current Assets consists of prepayments for supplies, contracts, insurance, franchise fees, deposits, and advance payments.

D. Inventory. Inventory consists of goods held for sale in the normal course of business, designated as resale inventory items, and warehouse materials not accounted for as prepaid supplies or fixed assets. Inventory consists of central warehouse inventory, work in progress inventory, and inventory in-transit.

E. Fixed Assets. Fixed assets are property, plant and equipment purchased, donated, or transferred to NAFIs that have an expected life of two or more years. Fixed Assets consists of buildings, land, land improvements, vehicles, aircrafts, boats, furniture, fixtures and equipment, information technology, livestock, assets in progress, fixed assets in-transit when ownership passes to the NAFI before receiving the asset, and accumulated depreciation.

F. Other Noncurrent Assets. Other noncurrent assets are assets not identified in other asset categories. Other Noncurrent Assets consists of long-term pension benefit assets, receivables, long-term prepaid expenses, certificates of deposit (more than 12 months), marketable securities, long-term contributions, long-term franchise fees, intangible assets, and long-term royalty and trademark fees. Report pension benefit asset information when the pension plan is overfunded and classified as a noncurrent asset. Refer to Statement of Financial Accounting Standards (FAS) No. 158, “Employers’ Accounting for Defined Benefit Pension and Other Postretirement Plans” and Chapter 11 for reporting guidance.

020403. Liabilities

Account for liabilities in the 200 series of accounts. Current liability accounts are due on demand or will be due on demand within 1 year and consist of accounts payable, wages payable, interest payable, post-retirement benefit obligations (12 months or less), and other liabilities. Long-term liability accounts are due more than 12 months from the date of the Balance Sheet and consist of loan liabilities, capital lease liabilities, post-retirement benefit obligations (more than 12 months), and other long-term liabilities. Chapter 3 contains additional information on liabilities.

A. Accounts Payable. Accounts Payable consists of the amounts owed for goods and services.

B. Post-Retirement Benefit Obligation – Current. Report the current obligation when the pension plan is underfunded (plan assets are less than the plan benefit obligation). Report obligation information when the pension plan is underfunded and classified as a current liability as determined and provided by the pension provider. This includes any other
post-retirement benefit plan, such as retiree health care. The benefit obligation is the accumulated post-retirement benefit obligation. Refer to FAS No. 158 and Chapter 11 for reporting guidance.

C. **Other Current Liabilities**. Other Current Liabilities consists of various payables, including loans, leases, interest, wages, taxes, and unearned income.

D. **Long-Term Loans Payable**. Long-Term Loans Payable consists of the amount of loans and notes that will be paid in more than 12 months.

E. **Post-Retirement Benefit Obligation – Long-Term**. Report the long-term obligation when the pension plan is underfunded (plan assets are less than the plan benefit obligation). Report obligation information when the pension plan is underfunded and classified as a long-term liability as determined and provided by the pension provider. This includes any other post-retirement benefit plan, such as retiree health care. The benefit obligation is the accumulated post-retirement benefit obligation. Refer to FAS No. 158 and Chapter 11 for reporting guidance.

F. **Other Long-Term Liabilities**. Other Long-Term Liabilities consists of the amount of leases and claims that will be paid in more than 12 months.

020404. **Net Worth/Equity**

Account for Net Worth/Equity in the 300 series of accounts. Net Worth consists of retained earnings, transferred equity, workers’ compensation reserves, equity reserves, undistributed profits and net income, unrealized gains and losses, and other equity transactions. The pension cost liability account records any adjustment made to the existing pension balances in the Balance Sheet. Post these adjustments as an offset to the equity account in the Balance Sheet as either an addition or reduction to Net Worth. Account for these temporary adjustments in the Net Worth section of the Balance Sheet in the same manner as the unrealized gains and losses on investments pursuant to FAS No. 115, “Accounting for Certain Investments in Debt and Equity Securities.” In addition, do not include these temporary adjustments in the net worth calculation. Refer to FAS No. 158 for reporting guidance.

020405. **Operating and Non-Operating Income**

Classify income as either operating (400 series) or non-operating (600 series).

A. **Operating Income**. Account for operating income in the 400 series of accounts. Examples of operating income accounts include gross sales income, participation fees income, concessionaire income, rental income, amusements income, gaming income, reimbursement income, and other operating income. Chapter 5 contains additional information on income.

B. **Non-Operating Income**. Account for non-operating income in the 600 series of accounts. Examples of non-operating income include interest income, rebates income, subsidy income, exchange dividend income, extraordinary income, and other non-operating income.
020406. Operating and Non-Operating Expenses

Classify expenses as either operating (500 series) or non-operating (700 series).

A. Operating Expenses. Account for operating expenses in the 500 series of accounts. Examples of operating expenses include purchases, cost of goods sold, wage expense, tax expense, retirement expense, supplies expense, communication expense, utilities expense, travel expense, claims expense, entertainment expense, bad debt expense, and other operating expense. Chapter 5 contains additional information on expenses.

B. Non-Operating Expenses. Account for non-operating expenses in the 700 series of accounts. Examples of non-operating expenses include interest expenses, prior year(s) expense adjustments, extraordinary expenses, and other non-operating expenses.

CHAPTER 3

ASSETS, LIABILITIES, AND NET WORTH

0301 GENERAL

030101. Purpose

This chapter prescribes the accounting policy and related requirements for Nonappropriated Fund (NAF) assets, liabilities, and net worth. NAF instrumentality (NAFI) programs and facilities must be operated, maintained, and funded as an integral part of the Department of Defense (DoD) personnel and readiness program. Policies in this chapter apply to all NAFIs and their supporting accounting offices (AOs), except the Military (Armed) Service Exchanges, which include Army and Air Force Exchange Service, Navy Exchange Command, and Marine Corps Exchange.

*030102. Authoritative Guidance

The accounting policy and related requirements prescribed are in accordance with the applicable provisions of:

A. Department of Defense Instruction (DoDI) 1015.15, “Establishment, Management, and Control of Nonappropriated Fund Instrumentalities and Financial Management of Supporting Resources;”

B. Financial Accounting Standards Board Accounting Standards Codification (ASC). Users can obtain free access to the ASC by registering for the Basic View, which allows browsing by ASC topic.

C. DoDI 4105.67, “Nonappropriated Fund (NAF) Procurement Policy and Procedure;” and

D. Title 5, Code of Federal Regulations (CFR), Part 1315.

*0302 CHART OF ACCOUNTS

The NAF Standard General Ledger (NAFSGL) chart of accounts, to include definitions and general ledger account codes (GLACs) for asset, liability, and net worth accounts, is maintained on the DoD NAF Accounting website.

0303 ACCOUNTING REQUIREMENTS FOR ASSETS

The NAFSGL contains eight categories in the assets group: Cash, Investments, Receivables, Inventories, Other Current Assets, NAFI Titled Fixed Assets, Appropriated Fund (APF) Titled Fixed Assets, and Other Long Term Assets. Specific accounting requirements related to these categories are outlined in paragraphs 030301 through 030307.
030301. Cash

NAF cash must be maintained in financial institutions that are U.S. federally insured or designated by the Department of Treasury. Cash consists of: coins; paper currency; readily negotiable instruments such as money orders, checks, and bank drafts on hand or in transit for deposit; amounts on demand deposit with banks or other financial institutions; and foreign currencies, which, for accounting purposes, should be translated into U.S. dollars at the exchange rate on the financial statement date.

A. Cash in Bank

1. Reconciliation of Bank Accounts. Designated accounting personnel must reconcile all bank statements or reports on a monthly basis. Any discrepancies found are reported immediately to NAFI management. To maintain separation of duties, the person performing the reconciliations cannot be the check writer.

2. Blank Check Stock. The AO must designate someone to maintain the records and control the blank check stock. For security reasons, this person cannot be one of the check writers. Checks are sequentially pre-numbered and stored in a locked container, which must be either a built-in vault or a safe that is burglary resistant and is fire resistant for a minimum period of two hours. For additional guidelines on securing blank check stock, refer to Volume 5, Chapter 3, section 0303.

3. Check Signing Equipment. There are three components to check signing equipment: a signature plate, a key to the machine, and the machine itself. The signatory maintains the signature plate, and a designated person, other than the signatory, maintains the key to the machine and a log to record machine usage. Whenever operating the machine, the authorized operator enters the beginning and ending readings, date, and their initials in the log. In addition to signature plates, there are other media acceptable for signing checks, e.g., digitized signatures. For comprehensive guidance on check signing machines, refer to Volume 5, Chapter 7, section 0705.

4. Change of Signatory. When a change of signatory occurs, destroy the signature plates and notify the bank. A certificate of destruction is prepared, signed by two witnesses and the successor signatory, and maintained in the AO. Refer to Volume 5, Chapter 7, subparagraph 070502.F for additional information on the destruction of signature media.

B. Foreign Currency. For guidance on exchange rate fluctuations, refer to Volume 5, Chapter 13, section 1304.

C. Change Funds

1. Accounting for Change Funds. Upon initial issuance of the change fund, the NAFI’s cash account is reduced and the appropriate asset account (change funds issued) is increased. Increases to these funds must be requested in writing from the NAFI custodian (see DoDI 1015.15, Enclosure 2 for definition of NAFI custodian). The AO issues a check for the approved amount and increases the asset account accordingly.
2. Replenishment of Change Funds. The NAFI manager or designee may replenish the funds at the end of the day with cash received from operations as long as all the daily receipts are deposited in total. Before replenishing the funds, the NAFI manager or designee must ensure all checks cashed from these funds are deposited daily. In no case will the NAFI manager or designee exchange dollars for foreign currency, except as provided in Volume 5, Chapter 13, section 1302.

D. Petty Cash Funds. Disbursements from the petty cash fund are recorded to the applicable expense accounts in the month that the petty cash is disbursed by the petty cash custodian.

1. Establishing a Petty Cash Fund. Each NAFI must comply with the following guidelines when establishing a petty cash fund.

   a. Each manager within a NAFI appoints, in writing, individuals to act as petty cash custodians.

   b. The amount of a petty cash fund will not exceed one month's requirements.

   c. Any one transaction will not exceed $500, and transactions will not be fragmented to circumvent this limitation. A higher limit may be approved by the Military Service proponent for NAF financial management for purchases made in foreign currency, if currency rates so warrant. This increase must be reviewed on an annual basis.

   d. In foreign locations, NAFIs may have one petty cash fund in the local foreign currency as well as one in U.S. dollars. If NAFIs give cash bingo prizes in both dollars and foreign currency, then two bingo petty cash funds must be established.

   e. NAFIs must not use petty cash funds for cashing checks or paying salaries and wages.

2. Replenishment of Petty Cash Funds. The AO provides the fixed amount to the individual appointed as the petty cash custodian. Disbursements are made by the petty cash custodian and a petty cash voucher is completed to support each transaction. The petty cash custodian will submit a request with the petty cash vouchers and receipts (or equivalent) to the AO to replenish the petty cash fund as needed, but not later than the last day of each month. The AO will issue a check payable to the petty cash custodian, by name, to reimburse the fund.

030302. Investments

For guidance on management of investments policy, refer to DoDI 1015.15, Enclosure 9.
030303. Receivables

Receivables are amounts owed to the NAFIs for sales of merchandise, services, or dues. Receivables may result from amounts owed by employees, members, customers, and organizations for dues, fees, charges, rentals, credit sales, or travel advances. Receivable records are maintained to ensure transactions accurately identify each debt and its respective debtor. Receivable subsidiary records are reconciled on a monthly basis to the general ledger control accounts. Refer to the NAFSGL for a complete listing of receivable accounts and their definitions.

A. Accounting for Customer Accounts Receivable. A subsidiary ledger is maintained for each individual account. Dues are charged monthly where applicable. Monthly statements are sent to members or participants of the NAFIs that permit charge sales, charge dues, or deferred payments. Account balances are due and payable on the first day after the statement date. Current month dues are treated the same as current month charge sales and normally become payable the first day after the statement date. If the DoD Component authorizes delinquent fees, then they are established as a customer receivable and charged to the delinquent account each month.

B. Aged Customer Accounts Receivable Reports. An aged customer accounts receivable report is prepared for all NAFIs with internal credit systems. The aging report, at a minimum, will include the following: over 30 days (second billing statement), over 60 days (third billing statement), and over 90 days (fourth billing statement).

C. Allowance for Doubtful Accounts. ASC, Topic 310, Subtopic 10, Section 35 (ASC 310-10-35) and ASC 450-20-25-2 require the accrual of losses from uncollectible receivables if a loss is probable and the amount of the loss can be reasonably estimated. When using the allowance method for bad debts, NAFIs must determine and record the amount of accounts receivable estimated to be uncollectible at the end of each reporting period. The amount to record as estimated is based on a review of the average write-offs of accounts receivable, which is based on historical data (maintain documentation supporting the calculation and associated adjustment for audit purposes). Adjust the allowance for doubtful accounts to cover those accounts expected to become uncollectible during the next reporting period.

030304. Inventories

Inventory is merchandise or supplies on hand or in transit at a particular point in time. Inventory held for sale or resale consists of goods to be sold in the normal course of business. A value is assigned, which represents the cost of acquisition. When the goods are sold, the value assigned is used to determine profit for the accounting period, as shown on the income statement, and to report assets on the balance sheet at the end of the accounting period.

A. Accounting for Inventory

1. Inventory Subsidiary. All items are recorded at cost, as required by ASC 330-10-30. Cost is the purchase price less trade and cash discounts. If cash discounts are not material to warrant changing individual prices, then the amount of the discount is credited to the
purchases account and not to individual items. Discounts lost and excise taxes paid are not included in the cost of merchandise but are recorded in the applicable operating expense account. The cost of merchandise will include freight, insurance, and handling charges if they can be associated to specific items. If they cannot be identified to specific items, then record directly against the appropriate expense account.

2. **Stock Record.** The stock record is used to record resale merchandise and supplies in a warehouse or storeroom. It requires a complete description of the merchandise and all pertinent information regarding receipt and issue.

3. **Spoilage, Breakage, Obsolete Material, Customer Complaint, or Reject Items.** Immaterial losses of inventory resulting from spoilage, breakage, obsolescence, rejection, or constant customer complaint items are absorbed in cost of goods. Material losses are recorded in a Spoilage and Breakage expense account for the applicable operation.

4. **Consigned Merchandise and Tickets.** Merchandise held on consignment is maintained and accounted for by the consignor. NAFIs only maintain inventory of consigned merchandise for accountability purposes. These items are physically inventoried monthly or at the end of an event for tickets (whichever comes first). In accordance with ASC 605-15-25-1, this inventory is not recorded in the general ledger. Tickets purchased for resale are to be recorded as inventory in the general ledger.

B. **Physical Counts of Inventory.** Inventories are required to be physically counted (called “book to floor”). The following are policies related to physical inventories of merchandise.

1. The inventory list is printed in the same sequence in which the merchandise is stored or arranged for display or in stock record number sequence.

2. A cutoff date is established for sales, issues, returns, adjustments, and transfers so inventory quantities and related accounting entries can be recorded.

3. Merchandise received during the inventory count is not counted unless the payable or payment will be recorded in the general ledger as of the inventory cutoff date.

4. Merchandise sold during the physical count is included in the inventory count. The merchandise is not included in the count if the related sale and receivable or cash received will be recorded in the general ledger after the inventory cutoff date.

5. Physical inventory is conducted separately for each department.

6. Inventories of merchandise held on consignment are separate from NAFI-owned merchandise. Inventory lists are prepared for each owner of the goods.

7. At the conclusion of the inventory count, any discrepancies are provided to the NAFI custodian for resolution. The general ledger (i.e. Inventory, Central
Warehouse Inventory, Purchases, and/or Purchases Discounts and Allowances GLACs) is then adjusted to match the physical count that was observed by the observation team. See DoDI 1015.15 paragraph 6.7 for information on reporting fiduciary responsibility and investigations.

C. Physical Inventory Observation. At least annually, the physical inventory counts are observed by at least one person who is independent of the NAFI conducting the physical count. The objective of the count is to verify the inventory to determine the accuracy of the accounting records. Since it is frequently impractical to observe all physical inventories at one time, the observations may be staggered throughout the year.

030305. Other Current Assets

Prepaid expenses are accounted for in multiple accounts in the Other Current Assets category (refer to the NAFSGL for a complete list of accounts and definitions). Under the prepaid concept, payments made for expenses that apply to a specific period of time are amortized over that period. Any unexpired portion of that expense is shown as a prepaid asset. An advance or prepayment is never amortized for more than its expected usage. Monthly expenses are computed and prorated over each month of the period covered by the advance or prepayment. If the advance or prepayment is for supplies, it is expensed based on expected usage provided by the NAFI custodian. The unexpired prepaid expense subsidiary is reconciled to the related control account. The accounting principle of materiality (see Chapter 1) must be considered before employing the prepaid concept.

030306. NAFI Titled Fixed Assets and APF Titled Fixed Assets

Fixed assets are captured under two categories in the NAFSGL: NAFI Titled Fixed Assets and APF Titled Fixed Assets. Each category has similar accounting treatment, and the same accounts are listed under each category (refer to NAFSGL).

A. Accounting for Fixed Assets. Fixed assets purchased with NAFs, donated, or transferred to a NAFI with a useful life expectancy of two or more years and an acquisition cost of $2,500 or more must be capitalized.

1. Acquisition Cost. Unless otherwise stated in the following subparagraphs, fixed assets are recorded at cost plus any expenditures necessary to place those assets into use as intended (e.g., installation, freight, testing, and legal fees to establish title). The NAFI can apply purchase discounts to reduce these costs; however, late payment interest penalties must not be capitalized. Interest expenses incurred as part of the acquisition cost of fixed assets will be capitalized.

   a. Assets Purchased in Quantity. Like items purchased in a quantity in excess of one must individually meet the capitalization threshold in accordance with the appropriate Military Service guidance. All other criteria for fixed assets listed in subparagraph 030306.A must be met.

   b. Trade-In Assets. When an asset is traded in at the time of purchase, the new asset is recorded at the amount of the monetary consideration paid, plus the trade-
in allowance for the old asset. The acquisition cost and accumulated depreciation of the traded-in asset are removed from the accounting records. If the trade-in allowance is less than the book value of the old asset, then a loss will result. These losses are recorded in the “Other Non-Operating Expense” GLAC of the NAFI. If the trade-in allowance is more than the book value of the old asset, then the difference is subtracted from the acquisition cost of the new asset. No gain is recognized.

c. **Assets-in-Progress.** Assets-in-progress include all costs attributable to a construction project (i.e., building and improvements). This includes, but is not limited to, construction of new buildings, renovation of existing buildings, and fixed assets that are purchased as part of the project. The AO records amounts based on the documentation supporting the contract completion. When progress payments to contractors are based on a percentage of completion clause, record the amount of payments due or paid. In addition to costs related to a construction project, fixed assets received but not billed may be recorded. The AO will transfer the accumulated cost of assets-in-progress to the appropriate fixed asset account and commence depreciation when the final payment is disbursed. NAFI management establishes the facility depreciation periods according to guidance in Volume 4.

d. **Donated or Transferred Assets.** Assets donated or transferred without the expenditure of funds are recorded at the fair market value on the date the asset was donated or transferred. If the fair market value cannot be determined, then the amount recorded is the book value of the donated asset in the donor's accounting records.

e. **Nonmonetary Exchanges.** When assets are exchanged between NAFIs without monetary consideration, it is called a nonmonetary exchange. The assets received in such exchanges are recorded on the books of the gaining NAFI at the net book value of the losing NAFI. The offsetting entry is to the “Realized Gains and Losses for Sale of Fixed Asset Income” GLAC on both the gaining and the losing NAFI.

f. **APF Property Obtained for Free.** These assets are recorded separately from other fixed assets because title and control of these assets remain with APFs. For APF fixed assets expected to benefit more than one accounting period, any acquisition costs such as repairs, transportation, installation, and any subsequent outlays that extend the useful life of the asset are recorded and depreciated over the useful life of the asset. For APF fixed assets held one year or less, all costs are an expense for the period the asset is held.

g. **Uniform Funding and Management (UFM) Fixed Assets.** Fixed assets acquired through UFM process must be expensed and offset with UFM funds at the time of purchase and not depreciated. Record these assets in the NAFI fixed assets records for inventory and control purposes with a zero acquisition value. UFM fixed assets are considered NAFI assets and the proceeds from disposal must revert to the NAFI. Further information on UFM practices is included in DoDI 1015.15, Enclosure 6.

2. **Lease Disclosures.** If either capital or operating leases are material, then information concerning the leases is disclosed in the NAFI financial statement footnotes.
3. **Subsequent Expenditures.** Subsequent expenditures for fixed assets fall into three categories: repair and maintenance, improvements, and additions. The objective is to match the expenditures with the period benefited. Therefore, expenditures that benefit only the current period are expensed and expenditures that benefit future periods are capitalized.

   a. **Repair and Maintenance.** Expenditures in this category are designed to prevent an asset from deteriorating (e.g., painting the interior of the enlisted club) or to return the asset to its original level of performance (e.g., a tune-up on a motor vehicle). These expenditures do not improve the performance of the asset or extend the life of the asset. Maintenance and repair expenditures are expensed in the period incurred.

   b. **Improvements.** Improvements are expenditures that extend the useful life of an asset (e.g., an engine overhaul on a motor vehicle) or improve original asset performance. Improvements are capitalized and depreciated.

   c. **Additions.** Expenditures which increase the size of an asset (e.g., adding a new section to the club) are called additions. Additions are capitalized and depreciated.

4. **APF Titled Fixed Assets.** An aspect of NAF accounting is that some assets, particularly buildings, are purchased using NAFs, and the NAFI has exclusive use, but the title rests with the Government. NAF procured property or facilities may be transferred to APF for maintenance when allowed by the Military Service regulations. Upon receipt of approved documentation from NAFI management, record these items in the NAF property records and general ledger as APF Titled Fixed Assets (signifies government title) and commence depreciation.

5. **Fixed Assets in Transit.** The NAFI may receive title to fixed assets and may make payment for fixed assets before the NAFI has physical possession of the property. Typically, this happens when property destined for a NAFI overseas is delivered to a stateside port for over-water transportation by government means. Payment is made based on the receipt at the port and is recorded to the appropriate fixed asset account. Depreciation begins when the asset is placed in service.

6. **Disposition of Property.** Disposal means that the NAFI activity manager has physical control of the item and disposes of it. Documents are prepared and approved by the NAFI activity manager for the disposition of fixed assets. When property is transferred to APFs, it is evidenced on the form required by APFs.

7. **Physical Fixed Asset Inventory.** A physical inventory of all fixed assets will be conducted at least annually and observed by at least one person who is independent of the NAFI conducting the physical count. The objective of the count is to verify the inventory to determine the accuracy of the accounting records. When it is impractical to perform this inventory all at one time, the NAFI may schedule and conduct the physical inventory by area.

8. **Property Subsidiary Ledger.** Property subsidiary ledgers serve as property control records. At a minimum, the property subsidiary ledger must list each piece of
property, acquisition date, acquisition value, useful life, depreciation to date, and current book value. This subsidiary ledger can be either automated or manual, but if automation is available, it must be used. The NAFI prepares the documentation necessary to change any data on the subsidiary ledger records, even when no general ledger entries are required, e.g., fixed assets transferred from one location to another within the same NAFI.

9. **Claims.** When an insured asset is destroyed or damaged and the claim is settled, the affected accounts are adjusted. Usually claim settlements do not exceed the acquisition value less accumulated depreciation of the property destroyed (book value).

10. **Depreciation.** Depreciation accounting distributes the cost or other basic value of tangible capital assets over the estimated useful life of such assets in a systematic and rational manner. Accounting for depreciation as an expense is an integral part of the accrual basis of accounting. Accordingly, all NAF activities recognize depreciation of their fixed assets. For NAF capital assets whose titles are transferred to APFs, but are still used by the NAFI, continue to depreciate these fixed assets on the NAFIs book until the items are fully depreciated. The straight-line method of depreciation is used for determining the monthly depreciation expense. Refer to Volume 4, Chapter 6, Table 6-1 for depreciation periods. Also, refer to Volume 4, Chapter 6, paragraph 060205 for the requirements for salvage value to be subtracted from the acquisition cost of fixed assets before computing depreciation.

**B. Information Technology Assets.** In accordance with ASC 350-40-35-4, internal-use software will be amortized on a straight-line basis unless another systematic and rational basis is more representative of the software’s use. Software acquired for research and development with no alternative future use will be amortized over the period of the project as opposed to the normal life-cycle amortization. Refer to Volume 4, Chapter 27 for detailed guidance.

030307. **Other Long Term Assets**

Other long term assets include those not identified in other asset lines of accounting and that fall into such categories as company's property, equipment, and other capital assets (e.g., stocks or bonds) that are held for longer than 1 year.

**0304 ACCOUNTING REQUIREMENTS FOR LIABILITIES**

The NAFSGL contains two categories in the liabilities group: Current Liabilities and Long Term Liabilities. Current liabilities are due on demand or will be due on demand within 1 year; whereas, long term liabilities are amounts due over a period of time longer than 1 year from the date of the balance sheet. Specific accounting requirements related to liabilities are outlined in paragraphs 030401 through 030403.
030401. Recognition of Liabilities

Liabilities arise from the acquisition of goods or services. Accounts payable liability must be recognized upon receipt of services or when accepting title to goods. Accrued liabilities originate at the end of the period of adjustment process, which is a requirement of accrual accounting.

030402. Contingent Liabilities

Contingencies are existing conditions, situations, or circumstances involving uncertainty as to possible gain or loss that will ultimately be resolved when one or more future events occur or fail to occur. Loss contingencies are accrued when the outcome is probable and the amount is reasonably estimable. Do not record gain contingencies. When a contingency is identified, the AO will footnote the year-end Military Service level consolidated financial statements explaining the contingency and the potential for gain or loss. See ASC 450-20-25 for more information on recording contingent liabilities.

030403. Accountability for Liabilities

The NAFI manager or designee is responsible for approving the disbursement of NAFs. The AO is not authorized to make disbursements without the approval of the NAFI manager or designee or as authorized in this Regulation.

0305 PAYMENT OF LIABILITIES

030501. Documentation Required for Payment

DoDI 4105.67 provides policy and responsibility for procurements using NAFs. NAFIs must also comply with the Prompt Payment Act in accordance with 5 CFR 1315. The following documentation is required prior to payment of liabilities.

A. General. NAFIs will submit the following documents, properly prepared and authenticated, to the AO to support payment for procurements:

1. Procurement document, e.g., purchase order (PO), contract, blanket purchase agreement, or similar documents;

2. DoD (DD) Form 250, Material Inspection and Receiving Report, or other signed document that provides evidence that goods were accepted or services were received; and

3. Vendor invoice or claim for payment. The invoice or claim may be for a specific delivery or for deliveries made over a specified period.

B. Overseas Shipments. The AO must receive a vendor invoice and proof of shipment before payment can be made on overseas shipments. These payments may be made prior to receipt or acceptance of goods.
C. Partial Shipments. The NAFI will submit to the AO a DD 250 or locally produced receiving report showing receipt and acceptance of goods. The form must have “Partial Shipment” written on the top. The AO will establish an accounts payable open item. When the AO receives the invoice for the partial shipment, payment will be processed and the supporting documents will be annotated as partial shipment received.

030502. Purchases from Other NAFIs

When a NAFI purchases goods or services from another NAFI, a DD 1149, Requisition and Invoice/Shipping Document, or similar form will be submitted to the AO to support the transaction.

030503. Purchases from the Government

NAFI purchases of goods or services from the Government (e.g., bills from APFs) are not usually supported by a procurement instrument. The NAFI will submit a DD 250 or other signed document to the AO to support the payment.

030504. POs, Vendor Invoices, and Receiving Reports

A. POs. A PO is a document issued by the NAFI to a seller, indicating the type, quantity, and agreed price for goods or services to be provided. Sending a PO to a supplier constitutes a legal offer to buy goods or services. Acceptance of a PO by a seller forms a contract between the NAFI and the seller.

B. Vendor Invoices. A vendor invoice represents a claim against NAF. All invoices must be date stamped at time of receipt and meet Prompt Payment Act criteria in accordance with 5 CFR 1315.

C. Receiving Reports. A receiving report is a document prepared by the receiving activity to document the receipt of services or acceptance of goods.

030505. Discounts

For NAFIs, a discount is the amount deducted from the total amount of the invoice when goods are supplied “Free on Board (FOB) destination.” If the goods are supplied “FOB other” and a separate freight charge is shown, then the discount is taken on the cost of goods only. The FOB delivery terms are shown on the PO.

030506. Prompt Payment Act

The Prompt Payment Act, 5 CFR 1315, requires Federal agencies (including NAF activities) to make payments in a timely manner. If a payment to a contractor is late, then an interest payment is due to the contractor. This interest payment is made without contractor request. A notice stating the amount of the interest penalty, the number of days late, and the rate used for calculation accompanies the interest payment.
0306 ACCOUNTING REQUIREMENTS FOR NET WORTH

Net Worth or Equity consists of capital invested in NAFIs plus (minus) the net income (loss), resulting from operations since inception. Transactions into and out of equity are limited to net income, net losses, and entries associated with the establishment of the fund, as well as certain adjustments. Adjustments are rare and might include certain accounting principle changes, certain prior period adjustments, and distribution of capital. The NAFSGL contains one category in the net worth/equity group: Net Worth/Equity. Specific accounting requirements related to this category are outlined in paragraphs 030601 and 030602.

030601. Accounting for Net Worth/Equity

A. When a new NAF organization with preexisting capital is authorized, the capital is recorded as equity. As an example, preexisting capital is a factor when a private association converts to a membership association. Equity is disestablished when a NAF organization is dissolved.

B. Equity may be distributed by declaring dividends to other NAF organizations. An example is dividends paid by installation restaurants. Special grants for new construction and facility improvements are another method of distributing equity. Equity is transferred in the form of cash or other assets.

030602. Other Equity Transactions

A. The Other Equity or Earnings general ledger account consists of transfers in and out of equity that will be limited to:

1. Prior year material corrections;

2. Components of other comprehensive income (loss) prescribed by ASC 220-10-45-10A;

3. Entries associated with the establishment, disestablishment, or consolidation of NAFIs; and

4. Distribution and receipt of capital.

B. Refer to Chapter 1 for information on materiality.

0501 GENERAL

050101. Purpose

This chapter prescribes the standard policies surrounding Department of Defense (DoD) Nonappropriated Fund (NAF) income and expenses. NAF instrumentality (NAFI) programs and facilities must be operated, maintained, and funded as an integral part of the DoD personnel and readiness program. Policies in this chapter apply to all NAFIs and their supporting accounting offices (AOs), except the Military (Armed) Service Exchanges (Army and Air Force Exchange Service, Navy Exchange Command, and Marine Corps Exchange).

050102. Authoritative Guidance

The accounting policy and related requirements prescribed are in accordance with the applicable provisions of:

A. Financial Accounting Standards Board Accounting Standards Codification (ASC). Users can obtain free access to the ASC by registering for the Basic View, which allows browsing by ASC topic;

B. DoD Instruction (DoDI) 1015.15, “Establishment, Management, and Control of Nonappropriated Fund Instrumentalities and Financial Management of Supporting Resources;” and

C. Title 10, United States Code (U.S.C.), sections 2241, 2491, 2492, 7459, 8478, and 9459.

0502 CHART OF ACCOUNTS

The NAF Standard General Ledger (NAFSGL) Chart of Accounts, to include definitions and general ledger account codes for income and expense accounts, is maintained along with other relevant information on the DoD NAF Accounting website.

0503 INCOME STANDARDS

050301. Recognition

In accordance with ASC, Topic 605, Subtopic 10, Section 25, NAFIs must recognize revenue (classified as “income” in the NAFSGL) when it is realized or realizable. Earned income is recognized at the time of delivery of the goods or performance of the service. If cash or credit payments are received prior to time of delivery or performance, then income is unearned. If cash or
credit payment has not been received at time of delivery or performance, then an accounts receivable
is posted for the amount due.

050302. Recording

The AO must record income in the appropriate NAFI’s financial records on a consistent basis in the appropriate cost center and in the operating cycle that the income is earned. Income is recorded in accordance with DoDI 1015.15.

0504 EXPENSE STANDARDS

Expenses are decreases in economic benefits during an accounting period, in the form of outflows (or other asset depletion) or the incurrence of liabilities that result in a decrease in equity. In NAF accounting, expenses are the costs related to the sale of goods and services consequent to the operation of the NAFI.

050401. Recognition

NAFIs must recognize costs as an expense in the period that the income with which they are associated is recognized (the matching principle). Cost elements are included in inventory and expensed when the items are sold and income from the sale is recognized. If no connection with income can be established, then the asset’s cost is allocated to the accounting period benefited in a systematic and rational manner. This form of expense recognition involves the expected length of benefit and the relationship and cost of each period (e.g., depreciation of fixed assets, amortization of intangibles, and allocation of rent and insurance). All other costs are recognized in the accounting period in which they are incurred.

050402. Recording

Using the accrual method of accounting, AOs must record expenses on a consistent basis in the appropriate cost center and in the operating cycle in which the expense was incurred. See Statement of Financial Accounting Concepts No. 6, “Elements of Financial Statements,” for further guidance on accrual accounting.

*0505 ACCOUNTING FOR APPROPRIATED FUND (APF) SUPPORT TO NAFIs

050501. Legal Authority

Title 10, U.S.C. § 2241 is the basic statutory authority to provide APFs to support Morale, Welfare, and Recreation (MWR) functions. MWR (Utilization Support and Accountability (USA)) and Uniform Funding and Management (UFM) are two mechanisms for provision of APF support to NAFIs. The MWR (USA) and UFM practices involve use of NAFs for MWR expenses that, per funding policies in DoDI 1015.15, should be borne by APFs. MWR (USA) enables NAFIs to use NAFs to execute such expenses, subject to subsequent APF reimbursement under Memoranda of Agreement (MOAs). Unlike MWR (USA) practices (which involve reimbursement from APFs), under UFM practices, APFs may be transferred into NAF accounts prior to expenditure. Funds appropriated to DoD and available for MWR programs are treated as
NAFs for all purposes under UFM MOAs and remain available until expended. Title 10, U.S.C. § 2491 provides statutory authority for UFM practices. Other statutory authorities available to NAFIs are 10 U.S.C. §§ 2492, 7459, 8478 and 9459.

050502. MWR (USA) Recording

A. **Income.** The AO must record funds received from appropriated sources for expenses covered by the MWR (USA) income.

B. **Expense.** The AO must record authorized expenses (which is the amount subject to APF reimbursement), as they occur, in the applicable expense accounts to allow identification of MWR (USA) support in accordance with DoDI 1015.15, Enclosure 6.

050503. UFM Recording

A. **Income.** The AO must record UFM funds received in advance in the cash account with a contra entry to an Unearned Income (liability) account identified as UFM. As UFM expenses are recorded, the Unearned Income account must be reduced by the same amount in the same reporting cycle.

B. **Expense.** The AO must record authorized expenses, as they occur, in the applicable expense accounts to allow identification of UFM support in accordance with DoDI 1015.15, paragraph E.6.3.4 and reduce the Unearned Income account as applicable in the same reporting cycle.

050504. Other APF Support

Direct support is an APF category that occurs when APFs are obligated and expended (e.g., furnishing of utilities, fire/safety support, refuse removal, and snow removal) and the NAFI does not incur the expense subject to reimbursement. In this case, the NAFI does not administer APFs as if they were NAFs.

CHAPTER 7

FINANCIAL REPORTING

0701 GENERAL

070101. Purpose

This chapter prescribes the standard policies for financial reporting, which are the principal means of communicating accounting information to those activities relying on information for management of their operations.

070102. Authoritative Guidance

The accounting policies, and related requirements prescribed, are in accordance with the applicable provisions of:

A. Department of Defense Instruction (DoDI) 1015.15, “Establishment, Management, and Control of Nonappropriated Fund Instrumentalities and Financial Management of Supporting Resources;” and

B. Financial Accounting Standards Board Accounting Standards Codification (ASC). Users can obtain free access to the ASC by registering for the Basic View, which allows browsing by ASC topic.

0702 RESPONSIBILITIES

070201. General

The policies in this chapter apply to Department of Defense (DoD) Nonappropriated Fund Instrumentalities (NAFIs) and their supporting Accounting Offices (AOS). These policies do not apply to the Military (Armed) Service Exchanges, except for financial reporting prescribed in paragraph 070202 and Section 0703.

070202. DoD Components

The DoD Components are responsible for the fair presentation in the financial reports of financial position, results of operations, and the program and personnel information included. In addition, the DoD Components are responsible for compliance with Nonappropriated Fund (NAF) program laws and regulations.

070203. AO

The supporting AO is responsible for compiling all the necessary information from accounting and payroll systems, as well as preparation of financial statements and reports. The
integrity of those systems, and the accuracy of data produced, are also AO responsibilities. Refer to Chapter 1 for a list of definitions, reporting requirements, and accounting standards.

0703  FINANCIAL REPORTING

070301.  Financial Statements

The principal financial statements used to convey information to users are the Balance Sheet, Statement of Income and Expense, Reconciliation of Net Worth, Schedule A - Appropriated Fund (APF) and NAF Expense Summary, and Statement of Cash Flows.

A.  Balance Sheet.  The Balance Sheet (also known as statement of financial position) presents a NAFI’s financial position as of a specified date. It is sometimes described as a “snapshot” that allows the user to see what a NAFI owns as well as what it owes to others. The major components of the Balance Sheet are assets, liabilities, and net worth (equity). Refer to Section 0707 and Figure 7-1 for information on the format and instructions for preparing the Balance Sheet. Refer to Chapter 3 and FASB ASC Topic 210 for additional information on assets, liabilities, and net worth (equity).

B.  Statement of Income and Expense.  A Statement of Income and Expense (also referred to as a profit or loss statement or income statement) provides information about a NAFI’s financial performance during a specified period of time, and a summary of a NAFI’s profit or loss during the accounting period. Use the Statement of Income and Expense to track revenues and expenses. Refer to Section 0708 and Figure 7-2 for information on the format and instructions for preparing the Statement of Income and Expense. Refer to Chapter 5 and FASB ASC Topic 225 for additional information on income and expenses.

C.  Reconciliation of Net Worth.  The Reconciliation of Net Worth (also known as statement of retained earnings) provides information about changes to net worth during a specified period of time. It shows the establishment, disestablishment, and consolidation of NAFIs; receipt and distribution of capital; net income and net loss; grants received and disbursed; and prior year material adjustments. Refer to Section 0709 and Figure 7-3 for information on the format and instructions for preparing the Reconciliation of Net Worth. Refer to Chapter 3 and FASB ASC Topic 215 for additional information on net worth (equity).

D.  Schedule A - APF and NAF Expense Summary.  Schedule A provides a detailed breakdown of APF and NAF operating costs and capital expenditures other than cost of goods sold. Report APF received and expended through the DoD Morale Welfare and Recreation (MWR) Utilization Support and Accountability (USA) practice, Uniform Funding Management (UFM) practice, or other APF agreements as APF contractual services support and not as NAF expenditures. Summarized NAF costs on this report equal the operating expenses, other expenses, and extraordinary expenses lines on the Statement of Income and Expense, which are also reported net of APF support to avoid double counting. Report NAF capital expenditures in the year funds are expended and assets are recorded (including construction in progress and capital leases). Refer to Section 0710 and Figure 7-4 for information on the format and instructions for preparing Schedule
A - APF and NAF Expense Summary. Refer to FASB ASC topics 605-610 for additional information on revenues and ASC topics 705-740 for additional information on expenses.

E. Statement of Cash Flows. A cash flows statement provides information about cash receipts and cash payments of a NAFI during the accounting period. The statement shows how changes in balance sheet and income accounts affect cash and cash equivalents and breaks the analysis down according to operating, investing, and financing activities. Refer to Section 0711 and Figure 7-5 for information on the format and instructions for preparing the Statement of Cash Flows. Refer to FASB ASC Topic 230 for additional information on preparing the Statement of Cash Flows.

070302. Footnotes to Financial Statements

Footnotes are an integral part of the financial statements and used to provide additional disclosures to ensure the financial statements are informative and not misleading. When the actual dollar amounts on the financial statements do not provide sufficient information for decision makers, accountants supplement the financial statements with more detailed data in the form of footnotes. Footnotes help management compare the operating results of the current business period with the operating results of previous periods. Fund equity adjustments and significant business closures are examples of occurrences requiring footnotes. Refer to DoDI 1015.15 for required footnotes.

0704 COMPARATIVE ANALYSIS OF FINANCIAL STATEMENTS

Comparative analysis is the study of relationships and trends to determine whether the financial position, results of operations, and the financial progress of the business are satisfactory or unsatisfactory. The objective of any method used to analyze a financial statement is to simplify or reduce the data under review to more understandable terms.

070401. Analytical Methods and Techniques

Analytical methods and techniques used in analyzing financial statements include the following:

A. Comparative Balance Sheets, Statements of Income and Expense, Statements of Cash Flows, and Reconciliations of Net Worth (retained earnings) with the following information:

1. Absolute data (dollar amounts);
2. Comparisons expressed in ratios;
3. Increases and decreases in absolute data in terms of dollar amounts;
4. Increases and decreases in absolute data in terms of percentages; and
5. Percentages of total;
B. Statement of sources and uses of working capital;

C. Trend ratios of selected and/or related financial and operating data. A trend analysis is performed for each NAFI financial statement. The analysis of the Balance Sheet compares actual to actual, and the percentage of increase or decrease is calculated. The analysis of the Statement of Income and Expense for each activity compares actual to actual as well as actual to the budgeted amounts. The financial statement analysis is made by each activity for items such as sales, cost of goods sold, labor expenses, net income, and all other revenue and expense items with a material financial effect on the activity;

D. Common size percentages ((amount/base amount) and multiply by 100) from the Balance Sheet, the Statement of Income and Expense, and individual sections of these statements;

E. Ratios expressing the relationships of items selected from the Balance Sheet, the Statement of Income and Expense, or both statements; and

F. Statement of variation in net income or gross margin.

*070402. Ratios

The behavior of ratios over a series of accounting periods is indicative of trends and may signal the need for adjustments in the future. Use the ratios included in 070402 A-L to complete the trend analysis explained in 070401.C. The following ratios are a means of monitoring the efficiency of NAFIs:

A. Accounts Receivable Turnover. The accounts receivable turnover is the relationship between credit sales and accounts receivable and indicates the liquidity of an activity’s receivables. Calculate accounts receivable turnover by dividing net credit sales by the average accounts receivable (Accounts Receivable Turnover = Net Credit Sales/Average Accounts Receivable). The average accounts receivable is the beginning accounts receivable plus the ending accounts receivable, divided by two. Use average accounts receivable monthly balances in the computation, as it gives recognition to seasonal fluctuations. When such data is not available, it is necessary to use the average of the balances at the beginning and end of the year. Prompt collection of receivables reduces the amount of loss from bad debts. Another method is to divide 365 days by the accounts receivable turnover figure to get the average number of days the receivables were on the books.

B. Acid-Test Ratio. The acid-test ratio, or quick ratio, measures the ability of NAFIs to use quick assets to liquidate current liabilities. The formula to compute the acid-test ratio is to divide quick assets by current liabilities (acid-test ratio = quick assets/current liabilities). Quick assets refer to assets that can be easily converted to cash, or that are already in cash form, including cash, receivables, and marketable securities. Quick assets equal current assets minus inventory and prepaid expenses. The acid-test ratio should not be less than 1:1. A ratio of 1:1 shows that for every dollar of current debt there is $1 of quick assets available to meet current liabilities. Higher ratios indicate NAFIs have sufficient cash and cash equivalents to pay immediate obligations.
C. **Current Ratio.** The current ratio, or working capital ratio, measures the relationship between current assets and current liabilities. It measures the ability of current assets to pay short-term debts. The formula to compute the current ratio is to divide the total current assets by the total current liabilities (Current Ratio = Total Current Assets/Total Current Liabilities). A current ratio of 1.5:1 is considered standard. A smaller ratio indicates high debt. However, if the current ratio is too high, current assets are not being efficiently utilized and should be converted to other useful purposes. A ratio higher than one means that if all current assets can be converted to cash, they are more than sufficient to pay off current liabilities.

D. **Inventory Turnover Ratio.** The inventory turnover ratio expresses the relationship between cost of goods sold and the average inventory balance. The formula to compute the inventory turnover is cost of goods sold divided by the average inventory (Inventory Turnover = Cost of Goods Sold/Average Inventory). Average inventory equals beginning inventory plus ending inventory, divided by two. Excess inventory reduces available funds and may increase the cost of insurance, storage, and other related expenses. The inventory ratio for food and beverage operations generally should not exceed 2.5:1 on a monthly basis or 30:1 on an annual basis. A ratio of 1:3 for other sales operations on a monthly basis, or a ratio of 4:1 on an annual basis, is generally considered acceptable and shows about a 3-month inventory supply. A low turnover rate may indicate overstocking, obsolescence, or deterioration. A high turnover rate may indicate inadequate inventory levels, which may lead to a loss in business. Appropriate inventory levels depend on quantity pricing of purchases, shelf life, and restocking lead-time.

E. **Net Income Ratio.** The net income ratio measures the rate of return on revenue. The formula to compute the net income ratio is net income divided by total revenue (Net Income Ratio = Net Income/Total Revenue). Calculate net income as total revenues minus total expenses. Refer to DoDI 1015.15 for additional information on net income.

F. **Ratio of Net Sales to Assets.** The ratio of net sales to assets measures the efficiency with which NAFIs are using their assets to generate sales. The formula to compute the ratio of net sales to assets is to divide net sales by total assets minus long-term investments (Ratio of Net Sales to Assets = Net Sales/(Total Assets - Long-Term Investments)). In computing the ratio, exclude any long-term investments from total assets, as they do not contribute to sales. If sales can be stated in a common unit, then units of products sold can be used in place of the dollar amount of sales. Assets used in determining the ratio may be the total at the end of the year, the average at the beginning and end of the year, or the average of monthly totals.

G. **Return on Assets Ratio.** The return on assets ratio measures a NAFI’s ability to generate income with its existing assets. The formula to compute the return on assets ratio is to divide net income by the average total assets (Return on Assets Ratio = Net Income/Average Total Assets). Average total assets are beginning total assets plus ending total assets divided by two.

H. **Return on Fund Equity.** The return on fund equity measures a NAFI's ability to earn a higher rate of return than is paid for the funds used in operations. The formula to compute the return on fund equity is to divide net income by the average fund equity (Return on Fund Equity = Net Income/Average Fund Equity). Average fund equity is beginning equity plus ending equity divided by two.
I. Turnover of Working Capital. Working capital is a valuation metric calculated as current assets minus current liabilities. The formula to compute the working capital turnover is to divide net sales by average working capital (Turnover of Working Capital = Net Sales/Average Working Capital). Average working capital is ending current assets minus ending current liabilities plus beginning current assets minus beginning current liabilities, divided by two. Current assets include accounts receivable and inventory while current liabilities include accounts payable. These various components are analyzed individually to account for changes from period to period. The turnover of working capital reflects the extent to which NAFIs operate on a small or large amount of working capital in relation to sales.

J. Fixed Asset Turnover. The fixed asset turnover is the ratio of net sales to the value of fixed assets, and indicates how well the entity uses its fixed assets to generate sales. The formula to compute the fixed asset turnover is to divide net sales by the total property, plant, and equipment, net of accumulated depreciation (Fixed Asset Turnover = Net Sales/Net Property, Plant, and Equipment).

K. Working Capital to Total Assets. The working capital to total assets ratio is a liquidity ratio that expresses the net current assets or working capital as a percentage of total assets, and measures a company’s ability to cover its short-term financial obligations. The formula to compute the working capital to total assets ratio is to divide working capital by total assets (Working Capital to Total Assets = Working Capital/Total Assets).

L. Return on Total Assets. The return on total assets measures earnings before interest and taxes (EBIT) relative to total net assets, indicating how effectively assets are used to generate earnings before contractual obligations must be paid. The formula to compute the return on total assets is to divide EBIT by total net assets (Return on Total Assets = EBIT/Total Net Assets).

070403. Comparative Statements

A. Comparison. Financial statements analyzed on a comparative basis can be much more informative and meaningful. Use comparative statements to complete the trend analysis explained in 070401.C. Sample comparisons include:

1. Comparison of the latest financial statements and relationships between various elements with one or more previous periods;

2. Comparison of the statements and financial relationships with data for other similar activities;

3. Comparison of the statements and financial relationships of two or more divisions or branches of the same activity; and

4. Comparison of information in the statements with preset plans or goals (normally in the form of budgets).
B. Horizontal Analysis. A comparison of the amounts for the same item in the financial statements of two or more periods is called horizontal analysis. The term is applied because the analysis includes data from year to year rather than as of one date or period of time. In computing the percent of change, the amount for the earlier year serves as the base. In general, the percentage of change is of greater interest than the actual amounts.

C. Vertical Analysis. The amount of each item in a statement can be expressed as a percentage of the total. Compare percentages resulting from vertical analysis across two or more periods to discover trends over time.

0705 REPORTING TO THE INTERNAL REVENUE SERVICE (IRS)

070501. General

Retain all records relating to payments to individuals and firms according to the IRS Topic Number 305: "Recordkeeping." Continental United States (CONUS) offices consult their local IRS office for forms, publications, or assistance. Overseas offices contact the IRS to get the address and telephone number of the nearest IRS representative. IRS representatives, in CONUS and overseas, provide instructions concerning IRS procedures for return preparation, filing, and depositing employment tax payments. Use electronic reporting mechanisms when possible.

070502. Contract Payments (Non-personal Services)

Report to the IRS cumulative NAFI service contract payments made during the calendar year, along with the total amounts paid, which meet the IRS threshold for reporting income on IRS Form 1099-MISC, “Miscellaneous Income.” Include the name, address, and Social Security number of the individual. For businesses, report the amount paid, the business name, business address, and business tax identification number. NAFI contracts with entertainers are considered service contracts. If a single payment to an individual is less than the IRS threshold, but total payments made during the calendar year to the same individual reach the IRS threshold, report the information to the individual or firm, and the IRS, using 1099-MISC. The individual or firm receives a copy of the 1099-MISC by January 31 of the calendar year following the calendar year in which payment was made. This applies to individuals who, in addition to being NAFI employees, have contracts with NAFI for non-personal services. Prepare a separate 1099-MISC for each individual or firm to whom total payments meeting the IRS threshold are made. Use IRS Form 1096, “Annual Summary and Transmittal of U.S. Information Returns,” to transmit the 1099-MISC to the IRS and forward these forms to the IRS by February 28 of the following year.

070503. Gambling and Bingo Winnings

IRS reporting requirements for gambling and bingo winnings are tied to individual games. Unlike contract payments, winnings are not accumulated from game to game; each game stands alone for IRS reporting requirements. Whenever cash, merchandise, or a combination thereof, meeting the IRS threshold for reportable gambling winnings, is awarded to a person for winning a single bingo game or other gambling activity, prepare an IRS Form W-2G, “Certain Gambling Winnings.” Individuals receive their copies of the IRS Form W-2G at either the time payment is
made, or not later than January 31 of the following year. Use IRS Form 1096 to transmit W-2Gs to the IRS. Additionally, prepare IRS Form 1042-S, “Foreign Person’s U.S. Source Income Subject to Withholding,” for reporting foreign nationals’ gaming winnings and withholdings, and forward these forms to the IRS by February 28 of the following year.

0706 INTERNATIONAL BALANCE OF PAYMENTS (IBOP) PROGRAM

IBOP is an accounting of a country’s international transactions for a particular period of time. NAFIs are subject to the IBOP reporting guidance prescribed in DODI 4105.67, “Nonappropriated Fund (NAF) Procurement Policy and Procedure,” and Volume 6A, Chapter 13.

0707 FORMAT FOR THE BALANCE SHEET

070701. Format for the Balance Sheet

Use the format presented in Figure 7-1 for the consolidated Balance Sheet. The working versions of all statements and notes will include line numbers as shown.

070702. Instructions for the Preparation of the Balance Sheet

The Balance Sheet presents, as of a specific time, amounts of economic benefits owned or managed by the reporting entity (assets), amounts owed by the entity (liabilities), and amounts comprising the difference (net worth). Crosswalks of accounts used to prepare the Balance Sheet to other financial statements are prepared utilizing the NAF Standard General Ledger (NAFSGL) guidance in Chapter 2. Complete the heading on the form to indicate: Military Service, Program Group, and the reporting date.

*070703. Line Item Instructions for Preparing the Balance Sheet

A. Current Assets

1. Cash/Investments, Line 1. This is a summary line for cash and investments. Items reported as cash and investments include cash, U.S. checking accounts, change funds, petty cash, foreign currency, savings accounts, marketable securities, and other short-term investments. Employee retirement cash and investments (employee 401K, employee retirement, and employee post-retirement medical) must be excluded from a consolidated presentation, as these non-entity items are not available for general use by a NAFI.

2. Receivables, Line 2. This is a summary line for all receivables. Items reported as receivables include customer accounts receivables, exchange service dividend receivables, gaming machine profit distribution receivables, claims receivables, commercial credit card receivables, concessionaire receivables, deposits receivables, NAFI receivables, returned check receivables, employee receivables, accrued interest receivables, loans receivables, MWR USA/UFM receivables, and other current receivables. Include allowance for doubtful accounts on this line.
3. **Other Current Assets, Line 3.** This is a summary line for all prepaid assets. Items reported as other current assets include travel advances, prepaid contracts, prepaid insurance, prepaid rent, prepaid supplies, prepaid tax and license, and other prepaid expenses.

4. **Inventories, Line 4.** This is a summary line for all inventory accounts. Items reported as inventory include inventory located in warehouses or storerooms, inventory sales outlet resales, and inventory in transit.

5. **Total Current Assets, Line 5.** Report the net total of Line 1 through Line 4.

**B. Noncurrent Assets**

1. **NAFI-Owned Fixed Assets, Line 6.** This is a summary line for all NAFI-owned fixed assets. Items reported as NAFI-owned fixed assets include land improvements, construction in progress, buildings and improvements, furniture and fixtures, equipment, internal-use software, and fixed assets in transit.

2. **Less: Accumulated Depreciation and Amortization on NAFI-Owned Fixed Assets, Line 7.** This is a summary line for the accumulated depreciation and amortization for all NAFI-owned fixed assets. Report depreciation or amortization balances for land improvements, buildings and improvements, furniture and fixtures, equipment, and internal-use software.

4. **APF-Titled Fixed Assets, Line 9.** This line is for reporting renovation, improvement, restoration, and reconstruction costs associated with fixed assets for which title has been transferred to the Government. Include footnote disclosures for amounts reported on this line. Refer to DoDI 1015.15 for footnote information. Items reported as APF-titled fixed assets include APF-titled buildings and improvements.

5. **Less: Accumulated Depreciation on APF-Titled Fixed Assets, Line 10.** This line is for reporting depreciation for renovations, improvements, restorations, and reconstructions to APF-titled fixed assets.

7. **Pension Benefit Asset, Line 12.** This line is for reporting pension benefit asset information. When plan assets are greater than the plan benefit obligation, report the asset on Line 12. If plan assets are less than the plan benefit obligation, report the liability on Line 17 (current liability) or Line 21 (long-term liability).

8. **Other, Line 13.** This is the summary line for all other noncurrent
assets. Report noncurrent asset information associated with long-term receivables, investments, and sinking funds.

C. **Current Liabilities**

1. **Accounts Payable, Line 16.** This is the summary line for all accounts payable.

2. **Post-Retirement Benefit Obligation, Line 17.** This line is for reporting post-retirement benefit obligation information. When plan assets are greater than the plan benefit obligation, report the asset on Line 12. If plan assets are less than the plan benefit obligation, report the liability on Line 17 (current liability) or Line 21 (long-term liability). The difference is classified as a current liability as determined and provided by the pension provider when the amount is due in one year or less. This also includes any other post-retirement benefit plan obligations, such as retiree health care.

3. **Other Current Liabilities, Line 18.** This is a summary line for all other current liabilities. Items reported as other current liabilities include short-term loans payable, short-term leases payable, dividends payable, vending machine revenue sharing payable, gaming machine profit distribution payable, interest payable, salaries payable, leave payable, payroll taxes payable, benefits payable, other payroll deductions payable, APF payroll payable, employee allowance payable, claims payable, UFM unearned revenue, other unearned revenue, flexible spending accounts payable, deposits payable, and other current liabilities.

4. **Total Current Liabilities, Line 19.** Report the total of Line 16 through Line 18.

D. **Long-Term Liabilities**

1. **Loans Payable, Line 20.** Report the amount of loans and notes that will not be paid in one year or less.

2. **Post-Retirement Benefit Obligation, Line 21.** This line is for reporting post-retirement benefit obligation information. When plan assets are greater than the plan benefit obligation, report the asset on Line 12. If plan assets are less than the plan benefit obligation, report the liability on Line 17 (current liability) or Line 21 (long-term liability). Classify the amount as a long-term liability as determined and provided by the pension provider when the amount is due beyond one year. This also includes any other post-retirement benefit plan obligations, such as retiree health care.
3. **Other, Line 22.** This is a summary line for all other long-term liabilities. Items reported as other include long-term leases payable and other long-term liabilities.

4. **Total Long-Term Liabilities, Line 23.** Report the total of Line 20 through Line 22.

5. **Total Liabilities, Line 24.** Report the total of Line 19 and Line 23.

E. **Net Worth**

1. **Net Worth, Line 25.** Report the amount of retained earnings, net income (loss), pension adjustment, and other equity transactions, pursuant to DoDI 1015.15. Items reported as part of net worth include retained earnings information, contributed capital, minimum pension liability adjustments, and other equity transactions.

2. **Total Liabilities and Net Worth, Line 26.** Report the total of Line 24 and Line 25.

0708 FORMAT FOR THE STATEMENT OF INCOME AND EXPENSE

070801. Format for the Statement of Income and Expense

The format presented in Figure 7-2 will be used for the Statement of Income and Expense.

*070802. Instructions for the Preparation of the Statement of Income and Expense

The Statement of Income and Expense reports a NAFI’s financial performance over a specific period of time. Financial performance is assessed by providing a summary of how the entity incurred its revenues and expenses through both operating and non-operating activities. It also shows the net profit or loss incurred over a specific accounting period. Unless noted, crosswalks of accounts used to prepare the Statement of Income and Expense to other financial statements are prepared utilizing the NAFSGL guidance in Chapter 2. Complete the heading on the form to indicate: Military Service, Program Group, Category, and Year Ending.

*070803. Line Item Instructions for Preparing the Statement of Income and Expense

A. **Sales, Line 1.** This is a summary line for income from the sale of goods or services less sales returns and allowances and sales discounts.

B. **Cost of Goods Sold, Line 2.** This is a summary line for costs associated with purchases and freight charges less returns, allowances, and rebates.

C. **Gross Margin, Line 3.** Calculate gross margin as the total sales revenue minus the cost of goods sold, divided by the total sales revenue, expressed as a percentage.
D. Other Operating Income, Line 4. This is the heading for reporting other operating income.

1. Participation Fees and Charges, Line 4a. Items reported as participation fees and charges include other fee income, amusement machine income, and gaming machine income.

4. Other, Line 4d. This is a summary line for all other accounts affecting operating income. Report other operating income balances for other service/recreation activity income and commission income.

E. Total Other Operating Income, Line 5. Report the total of Line 4a through Line 4d.

G. Operating Expenses (Schedule A), Line 7. Report the operating expenses from Schedule A - APF and NAF Expense Summary, Line 1 through Line 13. Schedule A includes costs, such as APF Military and Civilian labor that are not recorded in the NAFI accounting system.

H. Operating Margin, Line 8. Operating Margin is a calculation only. Report the difference in Gross Operating Income (Line 6) and Operating Expenses (Schedule A) (Line 7).

I. Other Income, Line 9. Non-operating income (loss) consists of income/expenses not related to the NAFI’s primary operation.

3. Other, Line 9c. Report the balances for other income-generating activities. Items reported as other income include commercial sponsorship income, recyclable material income, U.S. Department of Agriculture income, UFM income, cash overages, contributions and donations, intrafund income, interest income, gains on disposition of fixed assets, gains on foreign currency, and other income.

K. **Other Expenses (Schedule A), Line 11.** Report other expenses from Schedule A – APF and NAF Expense Summary, Line 14. Schedule A includes costs, such as APF Military and Civilian labor that are not recorded in the NAFI accounting system.

M. **Extraordinary Income, Line 13.** Extraordinary income is income that is unusual and infrequent and requires special treatment in the accounts or separate disclosure in financial statements. Report the balance for extraordinary income.

N. **Extraordinary Expenses (Schedule A), Line 14.** Extraordinary expenses are expenses that are unusual and infrequent and require special treatment in the accounts or separate disclosure in the financial statements. Report the balances for extraordinary expenses and base realignment and closure (BRAC) and installation closure expenses.

---

0709 FORMAT FOR THE RECONCILIATION OF NET WORTH

070901. Format for the Reconciliation of Net Worth

The format presented in Figure 7-3 will be used for the Reconciliation of Net Worth.

070902. Instructions for the Preparation of the Reconciliation of Net Worth

The Reconciliation of Net Worth presents, as of a specific time, the reconciliation of the additions and reductions of net worth. Crosswalks of accounts used to prepare the Reconciliation of Net Worth to other financial statements are prepared utilizing the NAFSGL guidance in Chapter 2. Complete the heading on the form to indicate: Military Service, Program Group and the reporting date.

070903. Line Items Instructions for Preparing the Reconciliation of Net Worth

A. **Net Worth, Beginning, Line 1.** Report the amount of Line 25 on the Balance Sheet from the preceding year.

B. **Net Income, Line 2.** Report the amount of Line 15 of the Statement of Income and Expense (if appropriate).

C. **Grants Received, Line 3.** Report the amount of grant income reported on Line 9b of the Statement of Income and Expense.

D. **Other Increases, Line 4.** This is a summary line for all other increases to net worth. Examples of other increases include contributed capital, minimum pension liability adjustments, other equity transactions, donated assets, recycling contributions, prior year material
corrections, change in funded status of pension and other post-retirement liabilities, and funds for BRAC property.

E. **Total Additions, Line 5.** Report the sum of Line 2 through Line 4.

F. **Net Loss, Line 6.** Report the amount of Line 15 of the Statement of Income and Expense (if appropriate).

G. **Grants Disbursed, Line 7.** Report the amount of grants disbursed as of the report date.

H. **Other Decreases, Line 8.** Report other decreases affecting the reconciliation of net worth. Examples of decreases include the transfer of headquarters-funded projects after books closed, change in funded status of pension and other post-retirement benefit liabilities, net decreases in fair value of derivative instruments, annual leave transfers, asset write-offs, data conversion write-offs, prior period adjustments, interest distribution, dividends paid, audit adjustments, and closing facilities.

I. **Total Reductions, Line 9.** Report the sum of Line 6 through Line 8.

K. **Net Worth, Ending, Line 11.** Report the sum of Line 1 and Line 10.

0710 FORMAT FOR THE SCHEDULE A - APF AND NAF EXPENSE SUMMARY

071001. Format for Schedule A - APF and NAF Expense Summary

The format presented in Figure 7-4 will be used for Schedule A.

071002. Instructions for the Preparation of Schedule A – APF and NAF Expense Summary

NAF expenses for common support functions are allocated to and reported by the benefiting categories (Category A, B, and C). **Do not report** allocated or prorated management overhead below the category level. Complete the heading on the form to indicate: Military Service, the Program Group, and for the year ending.

*071003. Line Item Instructions for Preparing Schedule A – APF and NAF Expense Summary

A. **Cost Expense Captions**
1. **Military Personnel, Line 1.** This line includes the cost of active duty military personnel services computed according to Volume 7A. Items reported as military personnel include APF payroll expenses.

2. **Civilian Personnel (Salaries and Wages), Line 2.** This line includes the cost of civilian personnel services computed according to Volume 7A. Items reported as civilian personnel (salaries and wages) include salaries and wages expenses and capitalized labor costs.

3. **Civilian Personnel (Services and Benefits), Line 3.** This line includes the cost of services of civilian personnel paid from APFs and the cost of personnel compensation and benefits, including employer costs for the Civil Service Retirement System, Federal Employees Retirement System, Thrift Savings Plan, Federal Employees Group Life Insurance, and Federal Employees Group Health Insurance. Items reported as civilian personnel (services and benefits) include annual leave expenses, sick leave expenses, foreign national benefit expenses, and other employee benefit expenses.

4. **Utilities, Line 4.** This line includes the cost of heat, light, power, water, gas, electricity, steam, and other utility expenses.

5. **Rent, Line 5.** This line includes rental expenses for equipment (except transportation equipment) and real property.

6. **Communications, Line 6.** This line includes charges for the transmission of messages from place to place, postal charges, and electronic communications (telephone and telephone installation charges, internet, television, Defense Switched Network, fax, public address systems, and other electronic media).

7. **Sustainment, Restoration, and Modernization (Including APF minor construction), Line 7.** This line includes sustainment, restoration, and modernization of facilities, buildings, structures, and real property supplied through commercial contracts. Allocate costs according to job costing system data using fixed charges or unit costs for specific maintenance categories.

8. **Supplies and Equipment, Line 8.** This line includes the cost of supplies, minor property and equipment, and materials ordinarily consumed or expended within 2 years or used to fix property (such as repair parts). Line 8 also includes APF software that is not capitalized.

9. **Contractual Services, Line 9.** This line includes contractual expenses for services provided indirectly through contracts or memoranda of agreement.

10. **Travel of Personnel, Line 10.** This line includes expenses for travel and transportation of persons when the primary purpose is to conduct NAFI business.
11. **Transportation of Things, Line 11.** This line includes freight expenses for the transportation of things, whether incurred through contract or use of Government resources.

12. **Reimbursed Common Support, Line 12.** This line includes administrative common support service expenses provided by a different Program Group and reimbursed by the benefiting Program Group as identified in DoDI 1015.15.

13. **NAF Depreciation, Line 13.** This line includes depreciation expenses on NAFI-capitalized tangible fixed assets, including both NAFI-owned fixed assets and fixed assets to which title has been transferred to the Government.

14. **All Other Expenses, Line 14.** This line includes all other expenses not captured elsewhere.

15. **Total Expense, Line 15.** Report the total of Line 1 through Line 14 for Categories A, B, and C for APF and NAF.

**B. Capital Expenditure Captions.** This section includes APF, NAF, and privately financed asset cost. This section aligns with the Capital Investment Programs annual report shown in Enclosure 10 of DoDI 7700.18, “Commissary Surcharge, Nonappropriated Fund (NAF), and Privately Financed Construction Reporting Procedures.”

1. **Facilities and Improvements (Land and Structures), Line 16.** Line 16 is a summary line for Lines 16a, “APF (MILCON),” and 16b, “NAF.” Items reported as facilities and improvements include capitalized costs for tangible fixed assets, land, buildings, and other structures; additions to buildings; nonstructural improvements; and fixed equipment.

2. **Equipment (Investment type), Line 17.** This line includes all other capitalized tangible fixed assets.

3. **Total Costs (less depreciation), Line 18.** Report the sum of Line 16a through Line 17.

0711 **FORMAT FOR THE STATEMENT OF CASH FLOWS**

071101. Format for the Statement of Cash Flows

The format presented in Figure 7-5 will be used to prepare the Statement of Cash Flows.
071102. Instructions for the Preparation of the Statement of Cash Flows

The Statement of Cash Flows discloses the gross cash receipts and cash payments with an explanation of the changes in cash or cash equivalents for the reporting period. Crosswalks of accounts used to prepare the Statement of Cash Flows to other financial statements are prepared utilizing the NAFSGL guidance in Chapter 2. Complete the heading on the form to indicate: Military Service, Program Group, and Period Ending.

*071103. Line Item Instructions for Preparing the Statement of Cash Flows

B. Adjustments to Reconcile Net Income to Net Cash Provided by Operating Activities

1. Depreciation and Amortization, Line 2. The depreciation and amortization expenses are not paid in cash and require a positive adjustment to the net cash flow from operations. This amount comes from Line 13, “NAF Depreciation” of Schedule A - APF and NAF Expense Summary.

2. Loss on Disposal of Fixed Assets, Line 3. A loss on disposal of fixed assets requires a positive adjustment to the net cash flow from operations. This amount comes from Line 14, “All Other Expenses” of Schedule A - APF and NAF Expense Summary for an amount identified as a loss on disposition of fixed assets.

3. Decrease (Increase) in Accounts Receivable, Line 4. The change in accounts receivable balances between the end of the preceding and current fiscal years comes from Line 2, “Receivables” from the Balance Sheet. A decrease in accounts receivable adds to the cash balance, and an increase in accounts receivable reduces the cash balance.

4. Decrease (Increase) in Inventories, Line 5. The change in inventory balances between the end of the preceding and current fiscal years comes from Line 4, “Inventories” of the Balance Sheet. A decrease in inventory adds to the cash balance, and an increase in inventory reduces the cash balance.

5. Decrease (Increase) in Prepaid Expenses, Line 6. The change in prepaid expense balances between the end of the preceding and current fiscal years comes from Line 3, “Other Current Assets” of the Balance Sheet. A decrease in prepaid expenses adds to the cash balance, and an increase in prepaid expenses reduces the cash balance.

6. Increase (Decrease) in Accounts Payable, Line 7. The change in accounts payable balances between the end of the preceding and current fiscal years comes from Line 16, “Accounts Payable” of the Balance Sheet. An increase in accounts payable adds to the cash balance, and a decrease in accounts payable reduces the cash balance.
7. Increase (Decrease) in Unearned Income, Line 8. The change in unearned revenue balances between the end of the preceding and current fiscal years comes from Line 18, “Other Current Liabilities” of the Balance Sheet. An increase in unearned revenue adds to the cash balance, and a decrease in unearned revenue reduces the cash balance.

8. Increase (Decrease) in Other Current Liabilities, Line 9. The change in other current liabilities balances between the end of the preceding and current fiscal years comes from Line 18, “Other Current Liabilities” of the Balance Sheet less Line 8, “Increase (Decrease) in Unearned Income” of the Statement of Cash Flows. An increase in other current liabilities adds to the cash balance, and a decrease in other current liabilities reduces the cash balance.

9. Other Liabilities, Line 10. The change in other liabilities balances between the end of the preceding and current fiscal years comes from Line 18, “Other Current Liabilities” of the Balance Sheet. An increase in other liabilities adds to the cash balance, and a decrease in other liabilities reduces the cash balance.

10. Total Adjustments, Line 11. Total adjustments are the sum of Line 2 through Line 10.

11. Net Cash Provided by (Used in) Operating Activities, Line 12. The net cash provided by (used in) operating activities is the total of Line 1 and Line 11.

C. Investing Activities. Investing activities include acquiring and disposing of debt or property, plant, and equipment and other productive assets used in the production of goods or services.

1. Purchase of Fixed Assets, Line 13. This line includes amounts disbursed for minor construction and purchases of property, plant, and equipment that reduce the cash balance.

2. Proceeds from the Sale of Fixed Assets, Line 14. This line includes collections or proceeds from the sale of surplus property, plant, and equipment that increase the cash balance.

3. Other, Line 15. This line includes net amounts of other collections or disbursements associated with the purchase and sale of investments. Identify the nature of each investment purchased and sold.

D. Financing Activities. Financing activities include proceeds from banks and grants or disbursements to banks, individuals, and businesses for amounts owed or payment of dividends.
1. **Net Borrowing, Line 17.** This line includes the cash proceeds borrowed from the bank or cash disbursed to banks for loans.

2. **Payment of Dividends, Line 18.** This line includes the cash disbursed for dividends.

3. **Capital Grants, Line 19.** This line includes the cash proceeds from grants.

4. **Net Proceeds from (Payments on) Other Long-Term Liabilities, Line 20.** This line includes the net proceeds from (or payments on) other long-term liabilities.

5. **Other, Line 21.** This line includes other financing proceeds or payments not captured on other lines.

E. **Net Cash Provided By (Used In) Financing Activities, Line 22.** The net cash provided (used in) financing activities is the sum of Line 17 through Line 21.

F. **Net Decrease/Increase in Cash and Cash Equivalents, Line 23.** The sum of net cash provided (used in) operating, investing, and financing activities is the sum of Line 12, Line 16, and Line 22.

G. **Cash and Cash Equivalents at Beginning of Year, Line 24.** The balances for cash and cash equivalents are the sum of account balances at the beginning of the fiscal year.

H. **Cash and Cash Equivalents at End of Year, Line 25.** The cash and cash equivalent balances at year-end equal the net of Line 23 and Line 24 and agree with Line 1, “Cash/Investments” from the Balance Sheet.

CHAPTER 8

NONAPPROPRIATED FUND PAYROLL

0801  GENERAL

080101. Purpose

This chapter provides the standard Nonappropriated Fund (NAF) policy for DoD NAF payroll and applies to DoD NAF employees. NAF instrumentality (NAFI) programs and facilities must be operated, maintained, and funded as an integral part of the DoD personnel and readiness program. NAF employees are not paid from funds appropriated by Congress but from funds generated by NAFls. NAF employees are Federal employees, but they are not covered by most laws administered by the Office of Personnel Management (OPM), unless specifically provided by statute. Policy in this chapter applies to all NAFls, NAF Human Resources (HR), NAF payroll offices, and their supporting accounting offices (AOs).

080102. Authoritative Guidance

The policy and related requirements prescribed are in accordance with the applicable provisions of:

A. DoD Instruction (DoDI) 1015.15, “Establishment, Management, and Control of Nonappropriated Fund Instrumentalities and Financial Management of Supporting Resources;”

B. DoDI 1400.25, “DoD Civilian Personnel Management System;”

C. DoDI 5010.40, “Managers’ Internal Control Program Procedures;”

D. DoDI 7600.06, “Audit of Nonappropriated Fund Instrumentalities (NAFI) and Related Activities;”

0802 PAYROLL OVERSIGHT

Defense Civilian Personnel Advisory Service (DCPAS), NAF Personnel Policy Division is responsible for developing, coordinating, and publishing DoD-wide civilian HR policy concerning NAF employees. DCPAS policy covers staffing, workforce relations, pay, classification, leave, and employee benefits. DCPAS is also responsible for implementing the DoD Employee Benefit Portability Act and the congressional mandate for a single, uniform health benefits program for NAF employees. DoD NAF HR policy is found in DoDI 1400.25, with volumes in the 1400 series.

080201. Payroll Objectives

All NAF payroll systems that are being designed and implemented, or are in use, must operate in accordance with authoritative guidance in paragraph 080102 and Volume 1. All payroll systems must provide, at a minimum, the following:

A. Complete, accurate, and prompt processing and accounting for pay, leave, and deductions;

B. Complete, accurate, and prompt generation and maintenance of payroll records and transactions;

C. Timely access to complete and accurate information to those customers internal and external to the NAFI who require the information;

D. Timely and proper interaction of payroll systems with the core financial systems; and

E. Adequate internal controls to ensure that payroll systems are operating as intended.

080202. AO Responsibilities

AOs must ensure all payroll information (including accrued payroll and benefits) is passed to the accounting system (whether systemically or manually), update the appropriate NAF Standard General Ledger (NAFSGL) accounts, and meet reporting requirements specified in DoDI 1015.15 and Volume 13, Chapter 7. AOs are also responsible for the compilation of financial statements.

080203. NAFI Responsibilities

It is the responsibility of each NAFI to be knowledgeable of the legal requirements governing its payroll operations. NAFIs will establish the administrative workweek, basic workweek, workday, meal periods, legal holidays, administrative leave, flexible and compressed work schedules, compensatory time off for religious observances, and volunteer activities in accordance with DoDI 1400.25, Volume 1406, “Nonappropriated Fund (NAF) Attendance and
Leave.” Compensatory time off may be granted to NAF employees, at their request, instead of overtime pay for overtime work. See *DoDI 1400.25, Volume 1405*, “Nonappropriated Fund (NAF) Pay, Awards, and Allowances.” NAFIs must ensure that each position is assigned to its proper occupational category, title, code, grade, or pay band level, consistent with the duties and responsibilities of the position, and proper job-grading standards in *DoDI 1400.25, Volume 1407*, “Nonappropriated Fund (NAF) Classification.” The NAFI must work closely with the AO and payroll office to ensure the payroll objectives are met.

080204. Payroll Office Responsibilities

The NAF payroll office has primary responsibility for all payroll processing and must work closely with the supporting NAF personnel office, NAFIs, and NAF employees to:

A. Maintain accurate records to satisfy employee needs and NAFI accounting requirements, and to comply with federal, state, and local statutory requirements;

B. Ensure safekeeping of pay information with adequate controls;

C. Promptly process all documents received affecting pay in accordance with established schedules;

D. Obtain information necessary to correct errors detected, including erroneous deductions, deductions not withheld, and over deductions by contacting the submitting office or employee;

E. Make timely disbursement of employees’ pay and supplemental payments when required;

F. Provide documentation to the NAF personnel office to support retirement actions; and

G. Submit tax reports to federal, state, and local authorities.

0803 BASIC AND PREMIUM PAY

Authorized pay systems for NAF employees are described in DoDI 1400.25, Volume 1405. Laws and policy governing the application of rates of basic pay and premium pay for NAF employees are contained or referenced in that DoD issuance.

0804 TIPS AND SERVICE CHARGES

NAF employees may receive tips from customers which are not negotiated by the NAFI via cash, check, debit card or credit card (e.g., customer adds to a credit card sales ticket). Debit and credit card tips may be immediately paid to the employee or recorded as a liability in the accounting records to be paid to the employee during payroll processing. NAF employees must report tips received, regardless of payment method, to the NAFI by the 10th day after the month
that the tips are received if those tips total $20 or more in a month. Employees must report the tips on IRS Form 4070, Employee’s Report of Tips to Employer, or a similar form. NAFIs may, at their discretion, distribute service charges (amount added to a customer’s ticket) to employees. Service charges distributed to employees are treated as wages and are not required to be included as tips on IRS Form 4070. For further information on tip reporting, refer to IRS Publication 15.

0805 ALLOWANCES AND OTHER SPECIAL ENTITLEMENTS

DoDI 1400.25, Volume 1405 covers allowances and other special entitlements for NAF employees. The payment of allowances and differentials to NAF employees in overseas and foreign areas must comply with DoDI 1400.25, Volume 1412, “Nonappropriated Fund (NAF) Overseas Allowances and Differentials, and Employment in Foreign Areas.”

0806 PAYROLL DEDUCTIONS

Payroll deductions or withholdings made from an employee’s pay must be properly authorized by the employee (or made in accordance with applicable laws), adequately documented, and paid when due to the appropriate recipient in the amount authorized.

080601 Taxes

Tax collections represent liabilities that are settled when funds are remitted to the designated authorities. Refer to IRS Publications 15 and 15-A for information on employer identification number, tax withholding, depositing, and reporting.

A. Employee Versus Independent Contractor. An employer must generally withhold Federal income taxes, and withhold and pay Social Security and Medicare taxes, for its employees. An employer does not generally have to withhold or pay taxes on payments to independent contractors. To determine whether an individual is an employee or an independent contractor under common law, the relationship of the worker and the business must be examined. IRS Publication 15-A provides the guidelines for determining whether an individual is an employee under the common law rules. These rules assist in identifying whether sufficient control is present to establish an employer-employee relationship.

B. Withholding State and Local Income Taxes. The payroll office will withhold taxes from the wages of civilian employees and remit them to tax jurisdictions wherever the Federal Government has entered into agreements for withholding taxes. State and local taxes must be withheld from the pay of enlisted personnel compensated from NAF for work performed during off-duty hours.

C. Foreign Taxes. NAFIs located in foreign countries will neither pay to, nor collect for, any foreign country or political subdivision, any tax unless the United States has consented to levy collection by treaty, convention, or Executive agreement.

D. Federal Insurance Contributions Act (FICA). The payroll office will withhold a set percentage of an employee’s salary each pay period to pay the employee’s share of
FICA contribution. FICA also requires that the NAFI match the employee’s amount and contribute the money to the Social Security Trust Fund and the Medicare Trust Funds.

080602. Other Deductions

If an eligible NAF employee elects to participate in other NAF benefits programs (to include retirement, group life, medical, dental, long-term care insurance, flexible spending accounts, and 401(k) savings plan benefits), deductions will be made as applicable. Employee-elected deductions may also be made for U.S. Savings Bonds, contributions to the Combined Federal Campaign, union dues (as applicable), and allotments to financial institutions, such as credit unions, banks, or other savings institutions. In accordance with 5 U.S.C. § 5514, NAF employees are subject to installment deductions from pay to collect debts owed to Federal agencies.

080603. Garnishment of Wages

NAF employees are subject to court-ordered garnishment of wages for alimony, child support, bankruptcy, commercial debts, and federal tax levies. Refer to DoDI 1400.25, Volume 1405 for further authorities governing NAF employee garnishments.

080604. Administrative Offset for Erroneous Overpayments

In accordance with 5 U.S.C. § 5514, NAFI employees are subject to salary offset for collection of debts in the same manner as DoD civilian employees, including debts owed to NAFIs or appropriated fund (APF) activities. NAF payroll offices must ensure procedures are developed to comply with the requirements of 5 U.S.C. § 5514. NAF payroll offices must refer to Volume 8, Chapter 8 and Volume 16, Chapters 2 and 4 in developing indebtedness and debt collection procedures for NAFIs.

080605. Order of Precedence for Deductions

If the gross salary of an employee is not sufficient to permit all deductions to be made, then deductions will be made in the order of precedence established by the OPM Personnel Policy Memorandum 2008-01, “Order Of Precedence When Gross Pay Is Not Sufficient To Permit All Deductions,” dated July 30, 2008. NAFIs must consult policy, legal staff, and collective bargaining agreements to ensure the proper order of precedence is followed.

0807 EMPLOYEE BENEFIT PORTABILITY PROGRAM

080701. General

The Portability of Benefits for Nonappropriated Fund Employees Act of 1990 (Portability Act), Public Law (Pub. L.) 101-508, section 7202 provides portability of pay and benefits for employees moving between NAF and APF positions. Under the Portability Act, employees who move with a break in service of no more than three days between NAF and APF positions may be eligible for pay, leave, reduction-in-force, and retirement benefit protection. The protection provided by the Portability Act, particularly protection in the area of retirement coverage elections,
was subsequently expanded by Pub. L. 104-106, section 1043, enacted in 1996. In 2002, Pub. L. 107-107, section 1131 further expanded the retirement election opportunity to make it easier for employees to continue retirement coverage after moving between NAF and APF positions. Under current retirement portability law, eligible employees who move with a break in service of no more than one year between NAF positions and retirement-covered civil service positions in any Federal agency may elect to continue retirement coverage in the losing employment system’s retirement plan without the vesting requirement. Additionally, Pub. L. 107-107, section 1132 permits employees in both Civil Service Retirement System (CSRS) and Federal Employee Retirement System (FERS) to use prior NAF service to qualify for an immediate retirement. An employee who elects to remain covered in the losing employment system is excluded from coverage under the gaining DoD Agency for all subsequent periods of employment including periods of service as a reemployed annuitant. Refer to DoDI 1400.25, Volume 1408, “Insurance and Annuities for Nonappropriated Fund (NAF) Employees,” and the DoD Portability of Benefits Reference Guide for additional information.

080702. Leave Transfer

In accordance with the Portability Act, accrued annual and sick leave hours will transfer within DoD to the gaining activity without exchange of funds if there is a break in service of no more than three days. Employees are not entitled to receive lump-sum payment for accumulated/accrued annual leave. Refer to DoDI 1400.25, Volume 1406 for additional guidance.

A. NAF to APF Transfer. When a NAF employee transfers to an APF position, the AO or NAF payroll office will make applicable entries to the appropriate NAFSGL accounts to eliminate the annual leave liability (consult local procedures for additional information). The value of the income resulting from the elimination of the liability will be recorded as specific non-operating income in the appropriate NAFSGL account.

B. APF to NAF Transfer. When an APF employee transfers to a NAF position, the AO or NAF payroll office will record the total dollar amount of accumulated/accrued annual leave to the appropriate NAFSGL accounts to recognize the annual leave liability (consult local procedures for additional information). The value of the expense resulting from the recognition of the liability will be recorded as specific non-operating expense in the appropriate NAFSGL account.

C. Annual Leave Lump-Sum Repayment. Employees who are covered under the provisions of the Portability Act and were paid lump-sum leave payments between January 1, 1987 and April 15, 1991, because of a transfer between APF and NAF positions, may repay those lump-sum payments and receive credit of the leave. Employees who separated from Federal service between January 1, 1987 and April 15, 1991, and who were subsequently rehired, may also have the opportunity to repay the lump-sum leave and receive credit.

080703. Portability Retirement Records

NAF HR/payroll offices are responsible for providing and processing forms for employees who are retiring under either CSRS or FERS. OMB Circular A-130, Appendix II prescribes the
use of electronic processes and digital signatures whenever it is possible and in the best interest of the Government. The NAF HR/payroll offices must fulfill the following general responsibilities relating to CSRS or FERS (for further information on portability retirement, refer to Volume 8, Chapter 4, section 0404).

A. NAF HR/payroll offices must prepare and maintain a Standard Form (SF) 2806 (CSRS) or an SF 3100 (FERS), Individual Retirement Record, for each employee subject to either CSRS or FERS. Each SF 2806/SF 3100 must be correct, complete, clear in every detail, and properly certified to ensure timely and accurate closeout procedures when an employee is separated or transferred to the paying jurisdiction of another agency.

B. NAF HR/payroll offices must maintain adequate control over retirement records and associated monetary balances.

C. NAF HR/payroll offices must promptly send claims and records. The OPM address is:

CSRS/FERS Retirement Records
Office of Personnel Management
Retirement Operations Center
P.O. Box 45
Boyers, PA 16017-0045

D. NAF HR/payroll offices must withhold retirement deductions from employees’ salaries, make agency contributions, and send the deductions/contributions to OPM for deposit. Deductions begin on the day the employee acquires coverage under the retirement system and must be prorated for partial pay periods. FICA contributions must be withheld and reported in accordance with current guidance from the Department of Treasury. Employee retirement deductions, employer contributions, employee contributions to applicable 401(k) plans, and loan repayments will be made biweekly and submitted to the appropriate NAF employee benefit system. Thrift Savings Plan (TSP) deductions and the employer’s matching contributions must be forwarded to the TSP.

0808 LEAVE ACCRUAL

080801. Annual Leave

The accrual of annual leave is material and must be recognized as a liability and expensed monthly in the individual NAFI’s accounting records. The individual leave records or annual leave report, showing the accumulated leave balance for all employees, will be used as the subsidiary ledger to the appropriate NAFSGL account for each NAFI.

080802. Sick Leave

The monthly accrual of sick leave is not a liability to the NAFI. Sick leave used monthly will be recognized as an expense in the individual NAFI’s accounting records.
080803. NAFI to NAFI Leave Transfer

When a NAF employee transfers from one NAFI to another, the accrued annual leave hours and dollar amount may be transferred to the gaining NAFI if both employers and employee agree. If the employee elects not to have the annual leave transferred to the gaining NAFI, then the losing NAFI will make a lump-sum leave payment to the employee. If the DoD Component head has implemented policy that permits NAF employees transferring between the NAF activities to receive partial payment of any unused annual leave to their credit at the time of separation, the employee may also elect to transfer part of the annual leave balance and take a lump-sum payment for the remaining portion. Accrued sick leave hours will transfer to the gaining NAFI with no exchange of funds. See DoDI 1400.25, Volume 1406 for additional guidance.

0809 SEVERANCE AND SEPARATION BENEFITS

DoDI 1015.15 specifies that NAFls must set aside and invest funds on a regular basis to ensure sufficient cash availability to defray payment of severance benefits for U.S. and Foreign National employees upon their separation from NAFI employment. NAFls will ensure that the estimated liability for a business-based action is accrued when probable and a separation allowance is accrued on a monthly basis where applicable. DoDI 1400.25, Volume 1405 describes the eligibility criteria, exclusions, and conditions under which NAF employees may receive severance pay and the computation and payment requirements.

0810 PAYROLL DISBURSEMENTS

All payroll disbursements must be paid to NAF employees by electronic fund transfer (EFT) unless the head of the agency or designee has granted a waiver. The head of the agency or designee may waive the EFT requirement upon receipt of written certification from the employee which states that he or she does not have an account with a financial institution or providing some other extenuating circumstance.

0811 RECORDS RETENTION AND STORAGE

NAF payroll offices are required to keep records sufficient to support all transactions relevant to matters concerning NAF payroll. In accordance with IRS Publication 15, records of employment taxes must be maintained for a period of 4 years following the due date of such tax or from the date for which such tax has been paid, whichever date is later. Aggregate records documenting payroll disbursed in each pay period (base pay, additions to and deductions from pay, and leave balances) must be stored and transferred to the National Personnel Records Center for 56 years’ retention, in accordance with the National Archives and Records Administration General Records Schedule 2.4.

0812 INTERNAL CONTROL STANDARDS

A key to effective payroll operations is the maintenance of internal controls over those operations. Internal control standards are outlined in the OMB Circular A-123; DoDI 1015.15, paragraph 6.7.3; DoDI 5010.40; and DoDI 7600.06. All DoD NAF organizations must ensure that
these standards are followed for payroll operations as well as for the methods and procedures adopted for processing and auditing payrolls.

CHAPTER 11

ACCOUNTING FOR DEFINED BENEFIT PENSION AND OTHER POSTRETIREMENT PLANS

1101 GENERAL

110101. Purpose

This chapter provides requirements to account for defined benefit pension and other postretirement plans for single-employer plans. The policies in this chapter apply to DoD Nonappropriated Fund Instrumentalities (NAFIs), their supporting Accounting Offices, and Military Services Exchanges. This chapter does not pertain to Military Department plans that are considered multi-employer. This chapter provides basic pension accounting, funding principles, and a review of standards. Each NAFI and its Certified Public Accounting (CPA) firm providing financial services support should fully review the exceptions and variables associated with pension accounting prior to implementation.

110102. Authoritative Guidance

The annual reporting of Pension Plan assets and liabilities must be in conformance with Financial Accounting Standards Board Accounting Standards Codification (ASC) Topic 715, “Compensation–Retirement Benefits.” ASC Topic 715 addresses the concern that employers’ accounting standards for defined benefit pension and postretirement plans fail to communicate the funded status of those plans in a complete and understandable way.

1102 DEFINITIONS

The standards contained within ASC Topic 715 improve reporting for defined benefit pension and postretirement plans by requiring an employer to recognize certain financial activity occurring in the plans in their financial statements. This activity includes the overfunded or underfunded status of defined benefit pension and postretirement plans in the balance sheet. The actuarial gains and losses, prior service costs (SC), transition obligations, and credits that arise during the period are recognized through the income statement. ASC Topic 715 provides additional information regarding the types of plans for the financial statement reader. Terms that NAFIs and Military Departments should be aware of include those listed in paragraphs 110201 through 110207.

110201. Funded Status

The funded status is the difference between the projected benefit obligation (PBO) (also known as the pension liability) and the plan assets (PA) at fair value.
110202. Measurement Date

The measurement date is the employer’s fiscal year-end statement of financial position. The PA and PBO are measured as of this date. There are two exceptions. See section 715-30-35-62 of ASC Topic 715.

110203. Net Periodic Pension Cost (NPPC)

The NPPC is the annual expense incurred by the employer because of the pension plan. The NPPC is composed of the SC, interest cost, actual return on assets, amortization of prior SC, transition obligations, and gains or losses.

110204. Pension Provider

The pension provider is the organization that administers a Military Department’s pension plan.

110205. PA

The PA are the amounts a pension plan could reasonably expect to receive from a current sale of assets held for pension benefits.

110206. PBO

The PBO is the actuarial present value, as of a specified date, of all employees’ vested and non-vested pension benefits.

110207. Statement of Financial Position

The statement of financial position is another term for the balance sheet. The term “balance sheet” is used in this volume.

1103 BASIC PENSION ACCOUNTING PRINCIPLES

110301. Disclosure

Pension accounting principles require the disclosure of the components of net pension costs and of the PBO. ASC Topic 715 prescribes the disclosure requirements that a NAFI must follow to reflect the cost of pension plans on income statements and balance sheets.

*110302. Measurement Date

ASC Topic 715 requires that PA and benefit obligations be measured as of the date of the fiscal year-end balance sheet. As of that date, each NAFI sets assumptions, gathers the participant data used to measure the obligations, and determines the fair value of assets in the pension trust. Each NAFI uses these amounts to calculate the cost of the plan in the future year and determines
110303. Basis for Calculation of NPPC

The basis for calculation is the benefit obligations, i.e., PBO, the accumulated benefit obligation (ABO), and SC. These values are used in the calculation of the NPPC, which is the annual accounting expense or income each NAFI must recognize in its income statement. The NPPC is comprised of the following components.

A. **SC.** The SC is the annual accrual of benefits. ASC Topic 715 requires a NAFI to disaggregate the SC component from the other components of net benefit cost on the income statement. Only the SC component of net benefit cost is eligible for capitalization.

B. **Interest Cost.** The interest cost is an increase in PBO associated with the passage of time during the year. This is generally the discount rate multiplied by the beginning of year PBO adjusted for expected benefit payments.

C. **Expected Return on Assets.** The expected return on assets is an increase in PA associated with the passage of time during the year. This is offset against the other cost items and is generally the expected long-term rate of return on assets multiplied by the beginning of year market related value of PA adjusted for expected benefit payments, contributions, and possibly for expected administrative expenses paid from the trust.

D. **Amortization Amounts.** Amortization amounts are the systematic recognition of certain changes in value.

1. **Transition Obligation or Asset.** Amortization of a transition obligation or asset allows phased recognition on the income statement of the difference between the plan’s funded status (PBO less PA) and any remaining accrued or prepaid cost on the balance sheet.

2. **Prior SC.** Amortization of prior SC allows phased recognition on the income statement of changes in the PBO associated with a plan amendment. This amount is generally amortized over the average remaining service period of the plan participants.

3. **Net Gain or Loss.** Amortization of a gain or loss allows phased recognition of actuarial gains or losses. Actuarial gains and losses that have not yet been reflected on the income statement are accumulated each year and amortized over the average remaining service period of plan participants, only to the extent their total exceeds a threshold. The threshold may be up to 10 percent of the greater of the plan’s PBO or market related value of PA.
1104 BALANCE SHEET CLASSIFICATIONS

The Military Departments will calculate the funded status of a benefit plan. The funded status should be determined as of the year-end statement date (measurement date) and is defined as the difference between the PBO and PA. Depending on the differences between the PBO and PA, several areas of the balance sheet could be affected. The following examples are provided.

110401. PA greater than PBO

An overfunded plan exists when the PA is greater than the PBO. The difference would be classified as a non-current asset in the balance sheet.

110402. PA less than PBO

An underfunded plan exists when the PA is less than the PBO. The difference would be classified as a liability (current or long-term) in the balance sheet. The classification of the liability as a current or long-term liability will be determined and provided by the pension provider.

110403. Adjustments

Once the funded status of a benefit plan is determined, adjustments may need to be made to existing pension balances in the balance sheet. These adjustments will be posted as an offset to the equity account in the balance sheet and can be either an addition or reduction to the equity section. These temporary adjustments are treated in the equity section of the balance sheet in the same manner as the “unrealized gains/losses on investments,” pursuant to ASC Topic 320, “Investments–Debt Securities.” In addition, these temporary adjustments are not calculated in the net worth determination. The final result of these entries will result in the funded status equaling either a non-current asset or a liability based on the difference of the PA and PBO. The provisions of ASC Topic 715 eliminate the accounting for any potential additional minimum liability.

1105 INCOME STATEMENT CLASSIFICATIONS

110501. Presenting NPPC

The NPPC is the annual expense incurred by the employer because of the pension plan. Under ASC Topic 715, the NPPC will continue to be recognized as a component of the income statement similar to the previous reporting process. Accounting rules can produce a negative expense, which appears as income on the financial statements. While the expense (debit) is recognized through the income statement, the second part of the entry (credit) results in adjustments to the balance sheet accounts, which have been expanded to include the adjustment to the equity account. The net of the SC, interest cost, and expected return on PA will continue to be an adjustment as a component of either the non-current asset or the liability, whichever component the NAFI is reflecting in the financial statements due to the new funded status. The amounts of the net gain or loss, net prior SC or credits, and net transition asset or obligation will be offset against the equity account.
110502. Presenting SC

A NAFI must report the SC component in the same line item or items as other compensation costs arising from services rendered by the pertinent employees during the period. The other components of net benefit cost defined in ASC Topic 715 are required to be presented in the income statement separately from the SC component. If a separate line item or items are used to present the other components of net benefit cost, that line item or items must be appropriately described.

1106 DISCLOSURES

The NAFI receives annual valuation reports from outside actuaries to prepare the financial statement disclosures. At a minimum, the NAFI will provide additional information about certain effects on net periodic benefit cost, and the amount and timing of any PA expected to be returned to the Military Departments and NAFIs. In addition, amounts recorded as adjustments to the equity section of the balance sheet will result in an adjustment to the income statement. See ASC Topic 715 for more information on disclosure requirements.

1107 BASIC PENSION FUNDING (LIABILITY) PRINCIPLES

110701. Calculation of Liabilities

A pension plan’s liabilities can be calculated in different ways, but the same principles always apply. The actuary calculates the expected future pension payments for each participant in the plan using the entity’s participant data and plan provisions. These future benefit payments consider the individual’s compensation and service history, and when that individual might be expected to die, quit, become disabled, or retire. Each future payment is discounted from the date of payment to present day using the actuarial assumptions, known as the present value of future benefits (PVFB). It represents the present value of all benefits expected to be paid from the plan to current plan participants. Theoretically, the NAFI could set aside that amount of money in a plan today and it would cover payments from the plan, including those for service not yet rendered. Note, this amount considers future service the participant is expected to earn and future pay increases.

110702. Cost Methods

Actuaries developed the following cost methods to be used to determine the amount of the liabilities (current and long-term) to be reported on the balance sheet. These cost methods divide the PVFB into actuarial liability (AL), normal cost (NC), and present value of future normal costs (PVFNC).

A. **AL.** AL is the portion of the PVFB that is attributed to past service. This is the current value of the compensation that was deferred in prior years. For pension accounting purposes, the AL is referred to as the PBO. Different cost methods calculate the AL differently, but it always reflects past service only. Sometimes the AL reflects expected future pay increases because many pension plans are designed so that the retirement benefit is based on the pay at
retirement. To allow the plan sponsor to recognize the cost of the plan gradually over the participant’s lifetime, the actuary considers the portion of the future benefit due to past service to already include expected future pay increases. The portion of the PVFB that only recognizes benefits accrued to date (i.e., without future pay increases) is called the present value of accumulated benefits (PVAB). This reflects current service and current salary. For pension funding, the PVAB may also be called the current liability; however, the current liability is calculated using Internal Revenue Service mandated interest and mortality assumptions. For pension accounting purposes, the PVAB is referred to as the ABO.

B. **NC.** NC is the portion of the PVFB that is attributed to the current year of service. This is the current value of the compensation that is being deferred this year. Different cost methods calculate the NC differently, but generally it reflects the current year of service and may reflect expected future pay increases. For pension accounting purposes, the NC is referred to as the SC.

C. **PVFNC.** PVFNC is the portion of the PVFB that will be attributed to future years of service. It covers compensation that has not yet been earned. This number is not disclosed and is rarely used in any cost calculations. However, it is disclosed in valuation reports for plans that use the entry average normal (EAN) funding method.

110703. Methods Used for PVFB

PVFB can be divided into the AL, NC, and PVFNC under many different actuarial cost methods. The three most common cost methods are the projected unit credit (PUC) cost method, unit credit (UC) cost method, and the EAN cost method.

A. **PUC Cost Method.** The PUC cost method considers expected future pay increases in the calculation of the liability and NC.

B. **UC Cost Method.** The UC cost method does not reflect expected future pay increases in the liability, and only reflects one year’s expected growth in pay in the NC.

C. **EAN Cost Method.** The EAN cost method tends to generate a NC from year to year that is a level percentage of payroll for each individual on the system with a single date of retirement, not multiple dates of retirement.

CHAPTER 1

ADMINISTRATIVE CONTROL OF FUNDS

0101 GENERAL

010101. Overview

The Volume 14 prescribes the requirements for the administrative control of funds and the Antideficiency Act (ADA) for Department of Defense (DoD) Components. Chapter 1 defines the statutory restrictions and limitations governing the administrative control of funds. Failure to comply with these restrictions and limitations is a violation of the ADA. Chapter 2 explains the ADA and related statutes, causes of violations, and preventive action including training requirements. Chapter 3 prescribes the requirements for DoD Components when a potential ADA violation is discovered, conducting an ADA investigation, reporting ADA violations, and administering disciplinary action. The provisions of this volume take precedence over any conflicting guidance in other volumes or DoD regulations, manuals, instructions, or directives.

010102. Purpose

This chapter establishes policy for the administrative control of funds and includes specific instruction for controlling available funds. The DoD Components are required to establish and maintain effective controls over appropriations and other funds in accordance with this chapter. All DoD organizations, appropriations, and funds are subject to the provisions contained herein.

010103. Authoritative Guidance

Administrative division of apportionments and control of funds is prescribed by Title 31, United States Code, section 1514(a) (31 U.S.C. § 1514(a)). The Office of Management and Budget (OMB) Circular No. A-11 prescribes implementing requirements for the control of funds in Section 150 and Appendix H. Additional authorities:

C. 31 U.S.C. §§ 1501-1502

0102 POLICY

010201. Defense-wide Appropriations

Unless otherwise specified, for purposes of this volume, the Office of the Under Secretary of Defense, Deputy Comptroller (Program/Budget) is considered a “DoD Component” for matters involving Defense-wide (Treasury Symbol “97”) appropriations.

010202. Administrative Control Systems

DoD Components must:

A. Design systems for the administrative control of funds so that formal administrative subdivisions of funds are placed at the highest practical organizational level consistent with effective and efficient management.

B. Restrict the use of limitations on available funds to those necessary to comply with statutory provisions, such as those imposed by the appropriate DoD Authorization or DoD Appropriations Act, or to address specific management requirements.

010203. Reporting Requirements for Administrative Control Systems

DoD Components must establish a reporting system for the administrative control of funds process to provide data for reviewing the efficiency (e.g., obligation rate) with which funds are used. Reporting requirements must be established separately from a formal administrative subdivision of funds limitation when a need exists for accumulating data below the allocation level.

010204. Delegations of Authority

All delegations or redelegations of authority or functions under this chapter must be made in writing. Delegation or redelegation of authority or function is prohibited if the delegation or redelegation limits the capabilities of the Secretaries of the Military Departments, the Directors of the Defense Agencies, or designated officials of the Office of the Secretary of Defense to exercise the control necessary to discharge properly their responsibilities in accordance with this volume.
010205. Statutory Limitations and Duties of DoD Officials

DoD officials are prohibited from authorizing or creating any obligation or making any expenditure beyond the amount permitted under any statutory limitation that modifies or restricts the availability of funds. Special or recurring statutory limitations on DoD funds are frequently imposed by the DoD Authorization or Appropriations Acts, or may be imposed by other legislation. Specifically, DoD officials to whom funds are entrusted or apportionments or formal administrative subdivisions of funds are issued at any level must:

A. Limit any further subdivision of funds to the amount provided and currently available.

B. Limit the obligation and expenditure of funds provided to the amount currently available at the time of the obligation or expenditure, enforce those limitations, and ensure that all personnel involved in administrative control and use of available funds are knowledgeable of such limitations.

C. Limit the obligation and expenditure of funds provided to the purposes authorized by type of fund or account.

D. Ensure that the obligation and expenditure of funds provide for a bona fide need of the period of availability of the fund or account.

E. Preclude acceptance and use of voluntary services, gifts, and donations except in accordance with specified provisions of law.

F. Ensure that all personnel, including the actual fund users, contracting personnel, and other personnel involved in administrative control and use of available funds, are fully aware of, and comply with, the requirements of the ADA as described in Chapter 2 and other applicable guidance. Potential ADA violation investigation and reporting requirements are also contained in this volume.

G. Ensure that decisions on the obligation of funds comply with the provisions of the ADA by careful review and examination of the facts involved in advance of the decision.

H. Enforce compliance with all the provisions of the ADA and other specific laws that limit the obligation and expenditure of funds.

I. Maintain internal control systems to ensure that:

   1. All available funds are identified, controlled, and recorded in the official accounting records from the time received until subdivided to others or obligated and expended.
2. All available funds are identified with authorized purposes by account, period of availability for new obligations, and for the period of availability for expenditure.

3. All special and recurring provisions and limitations on the obligation and expenditure of funds are identified and documented for all available funds and accounts.

4. All proposed obligations of funds are reviewed to ensure that sufficient funds are available to cover the obligation, the purpose of the obligation is consistent with the authorized purposes of the fund or account, and the obligation does not violate any special or recurring provisions and limitations on the incurrence of obligations.

J. Issue and maintain appropriate delegations of authority.

K. Ensure that amounts reported to the Department of the Treasury are accurate, that is, recorded accurately and posted to the correct appropriation account.

L. Ensure that internal controls are in place and operating as required by DoD Instruction 5010.40, “Managers’ Internal Control Program Procedures.”

M. Ensure that appropriate training programs are in place to provide all personnel involved in administrative control and use of available funds with the knowledge of funds control and the skills and abilities to perform the duties specified in paragraph 010205. See Chapter 2 for training requirements.

010206. Apportionments, Allotments, Suballotments and Allocations

The administrative control of funds process restricts obligations and expenditures (disbursements) to the amount available at the apportionment, allotment, suballotment and allocation levels. Apportionments, allotments, suballotments, allocations and other formal administrative subdivision of funds designated by a DoD Component are subject to the provisions of the ADA; therefore, obligations and disbursements of funds that exceed these limitations are violations of the ADA.

A. Apportionments. An apportionment is a distribution made by OMB of amounts available for obligation in an appropriation or fund account into amounts available for specified time periods, program, activities, projects, objects, or any combination of these. The apportioned amount limits the obligations that may be incurred. An apportionment may be further subdivided by an agency into allotments, suballotments, and allocations.

1. When DoD appropriations or other funds are required to be apportioned under law by OMB to a DoD Component, a request for the apportionment or reapportionment must be prepared and submitted through the Under Secretary of Defense (Comptroller) (USD(C)) to the Director of OMB. A request for an apportionment must be in such form and at such time as the USD(C) may prescribe to conform to the requirements of the Director
of OMB. See Volume 3, Chapter 2 for the preparation of apportionment or reapportionment schedules and Volume 3, Chapter 13, paragraph 130303 for the accounting of DoD apportionments and reapportionments.

2. Obligations during any apportionment period must not exceed the amount of the apportionment available for that period or of any administrative subdivisions of the apportionment. Apportionments may include estimates of anticipated budgetary resources; however, these approved anticipated resources may not be obligated until realized.

3. Apportionments that anticipate the need for a deficiency appropriation or a supplemental under 31 U.S.C. § 1515 will be specifically identified on the apportionment request. To qualify as a deficiency apportionment, the request must be required by:
   a. Laws enacted subsequent to the transmittal of the annual budget for the year to Congress;
   b. Emergencies involving human life, the protection of property, or the immediate welfare of individuals; or
   c. Specific authorization by law.

B. Allotments. An allotment is a subdivision of an apportionment that is made by the head of an agency (e.g., Secretary of Defense), or designee (e.g., USD(C)), to incur obligations within a prescribed amount. Formal distribution, i.e., subdivision of an allotment must contain at least the same statutory and other limitations applicable to the original allotment (e.g. suballotments/allocations to operating agencies or installation-level accounting activities).

1. The USD(C) must make allotments of apportioned amounts, in writing, to the heads of DoD Components. The Secretary of a Military Department, or designee, must make further allotments of apportioned amounts, in writing, to the heads of operating agencies.

   a. The original signed document or an authenticated copy bearing a signature or an electronic equivalent of a signature must be forwarded to the recipient of the allotment. This does not preclude the use of an automated system to communicate and record fund subdivisions as long as a confirmation copy bearing an authenticated signature or an electronic equivalent of a signature is available to the recipient via the automated system.

   b. At a minimum, this document must contain the following basic information:
      1. Amount available;
      2. Funding source;
3. Time period of availability;
4. Position and title of the responsible official and other agency limitations; and
5. Justification for changes in allotments.

  c. A suballotment is a subdivision of an allotment. It is a formal distribution that must contain at least the same statutory and other limitations and requirements applicable to the original allotment. Amounts allotted may be suballotted to major subordinate operating commands.

  2. Allotments/suballotments must not exceed the amount available for use for each apportionment period.

  3. The use of an electronically reproduced equivalent of an original signature is considered an acceptable implementation of the requirement for a document containing an authenticated signature. However, in accomplishing electronic transmission of fund authorizations through linked computer systems, internal controls for electronically transmitted allotments and suballotments must have the following minimum characteristics:

    a. Fund control systems must provide validation of fund authorities by use of access codes and lockout techniques.

    b. One set of access codes must be used to issue fund authorizations.

    c. Other controlled access codes must be used to process a signature section of fund control documents for transmission to funded activities.

    d. The authentication, signature element, and symbol must be included as part of electronically produced funding documents.

  4. Anticipated transfers or other items of anticipated receipts may be allotted/suballotted/allocated only when realized.

  5. Allocations are subdivisions of suballotments, or subdivisions of allotments that are not required to be suballotted (reference subparagraph 010206.C).
6. DoD Components must not authorize or incur an obligation, or make a disbursement against anticipated transfer authorizations until the transferred resources are realized. Such actions must be delayed until the completed Standard Form (SF) 1151, “Nonexpenditure Transfer Authorization” is received and the resources realized. Nonexpenditure Transfers are processed using the Agency Transaction Module within the Central Accounting Reporting System (CARS). See the Treasury Financial Manual Volume 1, Part 2, Chapter 2000 for information and guidance on using the CARS.

7. DoD Components must not authorize or incur an obligation or make a disbursement against anticipated reimbursements. Such actions must be delayed until the applicable customer order is received from Federal Government activities and funds are collected from public activities. See Volume 11A for reimbursable policy.

C. Allocations. Allocations are subdivisions of suballocations or subdivisions of allotments that are not required to be suballotted.

1. The recipients of allotments or suballocations, or their designees, must make allocations in specific amounts to the heads of installations or organizational units of DoD Components, as required. The total of the amounts allocated must not exceed the amount of the allotment/suballocation available for each period.

2. A suballocation is a subdivision of an allocation. The recipients of allocations may make suballocations to the heads of other organizational units, including those of other DoD Components, as required. The total of the amounts suballocated must not exceed the amount of the allocation available for use for each period.

3. Allocations and suballocations must be made in writing and the recipient’s copy must either be signed by the fund-issuing authority or be an authenticated copy bearing an authorized authenticated signature or an electronic equivalent of a signature. At a minimum, the document must contain the following basic information:

   a. Name or title of the allocation/suballocation recipient.

   b. Amount of the allocation/suballocation and the period of availability.

   c. Legal restrictions or limitations on the obligation and disbursement of the allocated/suballocated funds.

   d. The amount of anticipated reimbursements, specified to the organizational level responsible for receiving the reimbursable orders.
4. In emergency circumstances, it may not be possible to provide a formal allocation or suballocation document before incurring obligations. Under such emergency conditions, it may be necessary to use expedited means of communication pending formal confirmation.

   a. A telephone or other electronic means may be used to make arrangements to indicate that funds will be provided. However, the official allocation or suballocation of funds does not occur until the substantiating documentation of the issuance of funds has been transmitted by the issuer and received by the recipient.

   b. In such cases, both the issuer and recipient must document the funding transaction showing action taken, the date, amount involved, authorizing official, and method of communication. The issuer must immediately provide a copy of the documentation to the recipient and request acknowledgment of receipt. The recipient must provide confirmation of receipt and acceptance to the issuer. The issuer must sign the same documentation and return the document containing both signatures. The official funds issuance does not occur until this final double-signed (issuer and recipient) document has been received by the recipient of the funds.

   c. The recipient is not authorized to issue funds to others or authorized to incur obligations with the funds received until after receipt of the double-signed document.

010207. Other Fund Management

   A. Centrally-Managed Account (CMA). The head of an operating agency that has specific written approval of the head of a DoD Component may establish CMAs. A CMA is a formal administrative subdivision of funds (allotment, suballotment, or allocation) that is managed at the highest practical level and allows officials at a lower echelon to incur obligations or charge expenditures to the CMA for authorized purposes without further determination or certification of fund availability for the individual transactions. Fund balances at the allotment/suballotment/allocation level are subject to the provisions of 31 U.S.C. § 1517(a)(1). Fund authorization documents forwarding budget authority to the CMA must include the following statement: “Authorizing or incurring obligations in excess of the cumulative allotment/suballotment/allocation amount, contained herein, is a reportable violation of 31 U.S.C. § 1517.”

   1. These accounts must be established only when it is impractical to administer decentralized allotments/suballocations/allocations under normal operating procedures. The head of an operating agency, usually general officer or Senior Executive Service level, is responsible for establishing adequate controls to ensure CMA managers are expeditiously informed of obligations and expenditures at the lower echelon levels to prevent the CMA from becoming over-obligated/expended. Before approval, a specific written determination must be made that adequate controls have been established to avoid over-obligating/expending the CMA.

   a. The amount of the CMA must be within the amount and terms of the allotment/suballotment/allocation.
b. Requests for the establishment of a CMA must fully justify the need, delineate possible alternatives, and clearly demonstrate why the CMA method is the only practical administrative procedure.

c. The official who establishes or continues the use of a CMA must be held responsible, to the extent prescribed by law, directive, and regulation, for ensuring that obligations are not incurred, or expenditures made, beyond the amount available under each CMA.

d. The establishing or continuing official is responsible for the administration of each CMA and must prescribe an adequate system of financial and nonfinancial control. The system must:

   (1) Designate the name or position of specific individuals authorized to incur obligations or make expenditures against each CMA.

   (2) Establish suitable limitations on the numbers, quantities or volume for which obligations may be incurred or expenditures made.

   (3) Provide for accounting and reporting at least monthly.

   (4) Ensure timely notice to prevent the CMA from being over-obligated/expended by taking necessary management action. This may include (a) increasing the amount of the CMA; (b) terminating the CMA; (c) terminating new obligations or disbursements; and/or (d) taking other necessary management actions to prevent an over-obligation/expenditure.

e. Each CMA must be reviewed annually to determine whether its operation should be continued. This determination must be made by the head of the DoD Component concerned, or designee. The annual review must include an evaluation, by an internal audit group, of the adequacy of control procedures established to prevent violations of 31 U.S.C. § 1341(a)(1), 31 U.S.C. § 1517(a), or both, and a recommendation to the head of the DoD Component concerned, or designee, whether continuation of the CMA is justified. DoD Components must provide certification as to the adequacy of controls of the CMA. This certification must be submitted with the annual evaluation required by paragraph 010212.

2. Components are required to maintain documentation supporting their assessment and produce it on request. At a minimum, Components must maintain records on the following:

   a. Appropriation and dollar value of the CMA.

   b. Rationale for establishing a CMA and why it is preferable to other methods of managing the appropriation.
c. Individuals primarily responsible for managing the CMA and ensuring fund controls are properly implemented.

d. Organizations authorized to make obligations against the CMA.

e. Fund controls in place to establish limits on the amount and type of obligations that may be charged to the CMA.

f. Monthly execution monitoring and procedures.

g. Date and method of testing of internal controls.

B. Reimbursable Orders. A reimbursable order is an order for services, supplies, material, or equipment placed by a requiring DoD Component (or Federal Agency) and furnished by another DoD Component (or Federal Agency) without separate identification of the items, or separate citation of the funds of the requiring DoD Component; and with subsequent delivery to and reimbursement by the requiring DoD Component. The requiring DoD Component records the reimbursable order as an obligation when the procuring DoD Component accepts the reimbursable order in writing. See Volume 3, Chapter 8 for recording standards.

1. DoD organizations may be authorized by law to accept reimbursable orders for services provided or goods sold to other Federal Government-funded customers and authorized private parties.

2. Apportioned reimbursements must not be allotted/suballotted/allocated unless there is reasonable assurance that orders will be received. Even though apportioned and allotted/suballotted/allocated, these estimates must not be considered budgetary resources available for obligation unless the following two conditions are met:

   a. Valid orders, including written agreements, have been received from and obligated by Federal Government-funded customers.

   b. Advance payment has been collected, in the case of orders from the public.

3. Officials responsible for incurring obligations and making expenditures must be particularly cognizant of reimbursable authority received. Controls must be established and carefully followed to avoid obligating or expending in excess of the amount of appropriated funds available, plus the amount of reimbursements that ultimately will be earned and collected.

4. Under certain circumstances, and only with the prior written approval of OMB, immediate and automatic apportionment of the amounts of reimbursable orders received and accepted may be authorized.
5. Reimbursable orders received from state or local governments, recognized international bodies such as the United Nations and North Atlantic Treaty Organization, foreign governments, corporations, or individuals are subject to special controls.

   a. These orders are to be recognized as reimbursable orders received only to the extent that cash has been received and deposited with the Treasury. The exception is Foreign Military Sales (FMS) orders. Contract authority may be recognized for FMS orders based upon a dependable undertaking when cash advances are not provided for the full amount of the order from a foreign government or international body. Bills are then presented for payment from the account established in the FMS Trust Fund for the applicable country.

   b. FMS disbursement controls must be established to ensure that disbursements are not made until the cash is actually received from the foreign country and deposited in the Treasury FMS Trust Fund. Expenditure authorizations are used to ensure that funds are available in the account for the country involved before disbursements are made.

6. Reimbursable orders that are financed by appropriated or revolving funds of Federal agencies provide expenditure as well as obligational authority.

C. Revolving Funds. A revolving fund is an account authorized by specific provisions of law to finance a continuing cycle of business-type operations and to incur obligations and expenditures that generate receipts.

1. General. Obligations and expenditures of a revolving fund, whether subject to, or exempt from, apportionment, must be controlled under applicable provisions of this chapter.

2. Cash Balances. The disbursement of amounts in excess of the Department of the Treasury cash balance of a revolving fund is a potential ADA violation. Additionally, the disbursement of amounts in excess of the balance of sub-numbered cash accounts or other subdivisions of cash within a revolving fund is a potential ADA violation when such sub-numbered accounts or subdivisions have been specifically designated as being subject to the provisions of the ADA.

3. Apportionment. A revolving fund may be subject to apportionment or it may be exempt from apportionment, depending upon the type of fund.

   a. Revolving Funds Subject to Apportionment. An apportionment limits the obligations that may be incurred to the apportioned amount. The incurring of obligations in excess of apportioned budgetary resources is a potential ADA violation without regard to whether a revolving fund has additional unapportioned budgetary resources or other assets equal to or greater than the amount of the deficiency.
b. Revolving Funds Exempt from Apportionment. A revolving fund that is exempt from apportionment may not incur obligations in excess of available budgetary resources. The incurring of obligations in excess of available budgetary resources is a potential ADA violation.

4. Budgetary Resources. The incurring of obligations in excess of budgetary resources is a potential ADA violation. The concept of “budgetary resources” is defined and explained in OMB Circular A-11, “Preparation, Submission, and Execution of the Budget.” Budgetary resources available to revolving funds are composed of the same elements as budgetary resources available to appropriated funds. Further, while budgetary resources available for obligation for reimbursable work differ depending upon whether a reimbursable order is accepted from a Federal Government account or from the public, such budgetary resources are determined in the same manner for a revolving fund as they are for an appropriated fund.

a. Orders from other Federal Government Agencies. Funded orders from other Federal Government agencies, that represent valid obligations of the ordering account, provide a budgetary resource without regard to whether they are accompanied by an advance payment.

b. Orders from the Public. Orders from the public (except FMS orders) including local and state governments and international organizations (e.g., United Nations), provide a budgetary resource only to the extent that the order is accompanied by an advance payment of cash received and credited to the account.

5. Organizational Level for Revolving Fund Potential Violations. Systems for the administrative control of revolving funds should be placed at each organizational level at which budgetary resources may be received, held, transferred, obligated, or expended. The lowest organizational level for administrative control purposes generally should be the level, frequently a single site, at which an obligation may be incurred or expenditure approved. In the case of a revolving fund account that encompasses operations at multiple sites, responsibility for potential ADA violations generally should not be assigned to an organizational level lower than the level at which the administrative control system is adequate to prevent and detect a potential violation of the ADA.

010208. Obligations and Expenditures

Available funds are used by the incurrence of obligations and expenditures. An amount must be recorded as an obligation or expenditure when incurred as supported by documentary evidence of the occurrence of the event. An oral order or agreement must be formalized in writing or conform to prescribed electronic standards in order to provide proper support and an audit trail for an obligation. Oral orders executed in this manner without a formal commitment of funds run a high risk of violating the ADA and should be avoided if possible. See Volume 3, Chapter 8 to determine the amount and accounting period in which commitments and obligations must be recorded.
A. Once incurred, all obligations and expenditures must be recorded, accurately and promptly, as of the date incurred even if recordation results in a negative amount in the accounting records for an appropriation or fund, or a formal administrative subdivision of an appropriation. (For this purpose, negative amount means that obligations or disbursements exceed the amount of funds that are appropriated or otherwise available.) A violation resulting from a negative amount is caused by the actions of the individual(s) who caused or created the obligation. The recording of the obligation in the accounting system merely records an obligation that already exists.

B. Adjustments in obligations may consist of recording changes to obligation amounts that existed in a prior period that may or may not have been identified and recorded during that period. If an adjustment causes total obligations for a prior period to exceed the amount that was available for obligation for that prior period after consideration of all known valid obligations and deobligations, violations of 31 U.S.C. § 1341(a)(1), 31 U.S.C. § 1517(a), or both, may have occurred.

C. A within-scope contract adjustment is properly chargeable to the funds that funded the original contract. Such adjustment must be charged to those funds even if sufficient funds are not available. If sufficient funds are not available, a potential violation may have occurred.

D. An increase-in-scope adjustment to a contract is properly chargeable to funds currently available at the time the change was made.

010209. Reconciliations

DoD managers at all levels must ensure that accounting records for receipt and use of budgetary resources are reconciled. Obvious accounting errors must be corrected immediately and negative account balances must be researched and reconciled promptly with appropriate source documents.

A. Transactions or adjustments must be recorded in accounting records only when supported by appropriate source documents or electronic equivalents. Managers must not permit identified errors to go uncorrected for extended periods of time, inaccurate transactions to be recorded or failures to record transactions in a timely manner. Due diligence is necessary in order to avoid the appearance of a potential ADA violation that occurred because of careless record keeping.

B. An ADA investigation must be initiated by the applicable DoD Component and reported to the Office of the Under Secretary of Defense (Comptroller) (OUSD(C)) as required by this volume if a manager suspects that a potential ADA violation may have occurred. However, investigations of potential ADA violations are not required merely to force correction of erroneous records.
010210. Records

A. The Defense Finance and Accounting Service (DFAS), working with other DoD Components, must ensure that accounting records are maintained that provide full disclosure and support of the financial operations and resource utilization applicable at each successive organizational level. The accounting records must show the amounts of funds received at each organizational level, funds issued to others, current available balances, and funds committed, obligated, and expended.

B. These fund control records must constitute an integral part of the official accounting records maintained for each successive organization level for the DoD Component. Financial reports reflecting funds received, issued, available, and utilized must be prepared from the official accounting records.

C. DoD Components must maintain key records and documents on appropriations, allotments/suballotments, allocations/suballocations, and budgetary data for the funds for which they are responsible.

D. DoD Components must retain, for 6 years, 3 months, work papers and documentary evidence developed and/or obtained during an investigation of an actual or potential ADA violation.

010211. Financial Management Systems

In addition to effective and efficient administrative funds control systems established by the DoD Components, the DFAS and/or DoD Component must be responsible for establishing accounting and finance systems. The accounting and finance systems must be established for reporting commitments and obligations by the DFAS and/or DoD Component. Such systems of accounting and internal controls must comply with the requirements of 31 U.S.C. § 3512(b) and (c).

A. Federal agencies must maintain systems of accounting and internal controls that ensure:

1. Complete disclosure;
2. Adequate financial information;
3. Effective internal control over and accountability for assets;
4. Obligations and costs comply with applicable laws;
5. Revenues and expenditures or expenses applicable to DoD operations are accounted for properly so that accounts and reliable financial and statistical reports are prepared and accountability of assets is maintained;
6. Suitable integration of DoD accounting with the central accounting and reporting responsibilities of the Secretary of the Treasury under 31 U.S.C. § 3513; and

7. All assets are safeguarded against waste, loss, unauthorized use, and misappropriation.

B. Specifically, financial management systems must be:

1. Designed to assist responsible officials in restricting authorization or incurrence of obligations to the proper amount and authorized purpose for which obligational authority is available.

2. Capable of providing timely disclosure of the authorization or creation of an obligation and the disbursement of funds in excess of amounts available in both expired and unexpired accounts.

010212. Annual Evaluation

The OUSD(C) requires DoD Components to conduct an annual evaluation of its overall administrative funds control processes as well as the processing of ADA violations. The applicable Office of the Assistant Secretary of the Military Department for Financial Management and Comptroller or the Senior Financial Manager for other DoD Components will provide a memorandum addressed to the OUSD(C). The memorandum must address the following information in subparagraphs 010212.A and B and be submitted by October 31:

A. Memorandum Certification Statements.

1. “For Fiscal Year 20xx, the internal controls over centrally-managed accounts were in place and effective. Monthly accounting and reporting processes are adequate to reduce the risk of over obligations.”

2. “Corrective actions are being implemented and/or sustained and adequate evidentiary documentation is available to support this certification.”

3. A statement that provides the number of key fund control personnel identified and trained as prescribed in Chapter 2, paragraph 020401.

CHAPTER 2

ANTIDEFICIENCY ACT VIOLATIONS

0201 GENERAL

020101. Purpose

This chapter explains the Antideficiency Act (ADA) and related funding statutes that consist of certain provisions of law prescribed in sections (§) of Title 31, United States Code (U.S.C.). It also provides examples of circumstances in which ADA violations may occur and establishes requirements to prevent ADA violations. Additional requirements are contained in Volume 3, Chapter 11. Any military member or Department of Defense (DoD) employee who violates any provision or limitation imposed by any law may violate the ADA and be subject to discipline and/or criminal penalties.

*020102. Authoritative Guidance

A. The ADA, prescribed in 31 U.S.C. §§ 1341, 1342, and 1517, prohibits obligations and expenditures in excess of an appropriation or before an appropriation is available. 31 U.S.C. § 1517 is the primary foundation for the administrative control of funds set forth in Chapter 1. See Figure 2-3 for additional references.

1. **Amount Limitation.** 31 U.S.C. § 1341 stipulates that any officer or employee of the United States Government or of the District of Columbia government may not:
   
   a. Make an obligation, expenditure, or authorize an obligation or expenditure of funds that exceeds the amount available in an appropriation or fund.
   
   b. Involve the Government in any contract or obligation for the payment of money before an appropriation is made available, unless the law authorizes such contract or obligation.

2. **Voluntary Services Limitation.** 31 U.S.C. § 1342 stipulates that an officer or employee of the United States Government or of the District of Columbia government may not accept voluntary services on behalf of the Government or employ personal services in excess of that authorized by law, except as it may be necessary in emergencies involving the safety of human life or the protection of property.

3. **Administrative Control of Funds, Amount Limitation.** 31 U.S.C. § 1517 stipulates that an officer or employee of the United States Government or of the District of Columbia government may not make an obligation or expenditure or authorize an obligation or expenditure that exceeds an apportionment or amount permitted by a regulation prescribed for the administrative control of an appropriation, including any other formal administrative subdivision of funds designated by a DoD Component. See Chapter 1 for DoD administrative control of funds policy.
B. **31 U.S.C. §§ 1301, 1502(a), and 3302(b)** are additional funding statutes. Noncompliance with these statutes may result in an ADA violation.

1. **Purpose Statute.** 31 U.S.C. § 1301 stipulates that appropriations must be applied only to the objects for which the appropriations were made, except as otherwise provided by law.

2. **Time Limitation.** 31 U.S.C. § 1502(a) stipulates that the balance of a fixed-term appropriation is available only for payment of expenses properly incurred during the period of availability or to complete contracts properly made and obligated within that period. See Volume 3, Chapter 8 for obligation policy and Volume 3, Chapter 10 for expired and closed account policy.

3. **Miscellaneous Receipts Statute.** 31 U.S.C. § 3302(b) requires an official or agent of the Government to deposit money received for the Government from any source into the miscellaneous receipts account of the U.S. Treasury without deduction for any charge or claim if the retention of the money is not authorized or exceeds authorized levels.

C. If sufficient amounts were available in the proper account for the proper fiscal year at the time of the obligation, and the amount is properly recorded as an obligation, then the use of the wrong appropriation (purpose) or the wrong fiscal year funds (time limitation) generally will not result in an ADA violation. It may be possible to adjust the accounts to replace the erroneously obligated funds with the proper funds. Under these conditions, the error can and should be corrected.

1. The use of the wrong appropriation (purpose) can be corrected if the proper funds (appropriation, year, and amount) were available at the time of the erroneous obligation, available during the entire period from the time of obligation until the time of correction, and available at the time of correction. In other words, to correct the error, not only must amounts have been properly available at the time of the error and be available at the time of correction, but the correct amount must be properly recorded as an obligation in the proper account, consistent with paragraph 020202, thereby requiring accounting adjustments going forward from the time of correction to account for the change in balance. Funds must be available at the lowest level of the administrative subdivision of funds, i.e., the lowest level of the appropriation, apportionment, allotment, suballotment, or allocation at which the ADA violation occurred.

2. The use of the wrong fiscal year funds (time limitation) can be corrected if the proper funds (appropriation, year, and amount) were available during the entire period from the time of obligation until the time of correction, at the time of the erroneous obligation, and at the time of correction. In other words, to correct the error, not only must amounts have been properly available at the time of the error and be available at the time of correction, but the correct amount must be properly recorded as an obligation in the proper account, consistent with paragraph 020202, thereby requiring accounting adjustments going forward from the time of correction to account for the change in balance. Funds must be available at the lowest level of the administrative subdivision of funds, i.e., the lowest level of the appropriation, apportionment, allotment, suballotment, or allocation at which the ADA violation occurred.
3. See Volume 3, Chapter 8, paragraph 080304.A for Bona Fide Need recording requirements.

0202 VIOLATIONS

020201. General Violations

General ADA violations occur when:

A. Statutory limitation was exceeded for the amount authorized in an appropriation or fund, to include special and recurring statutory limitations or restrictions on the amounts for which an appropriation or fund may be used.

B. Statutory limitation on the purposes authorized in an appropriation or fund was violated and upon correction into the proper appropriation or fund, funds were not available at the time of the erroneous obligation or were not available when the obligation was recorded in the proper appropriation or fund.

C. Funding authority was issued in excess of the amount available in an appropriation or fund and the excess amount was obligated or expended. The issuance of funds by means of a formal administrative subdivision of funds (apportionment, allotment, suballotment, allocation or other formal administrative subdivision of fund), in an amount that exceeds the amount currently available, would result in an ADA violation if those excess funds distributed are obligated or expended. The issuance of a reimbursable order in excess of available funds may also result in an ADA violation.

D. Obligations or expenditures are authorized or incurred in excess of the amount of funds available at the formal administrative subdivision of funds level. Apportionments, allotments, suballotments, allocations and other formal administrative subdivision of funds designated by a DoD Component are subject to the provisions of the ADA; therefore, obligations and disbursements of funds that exceed these limitations are violations of the ADA. Incurring an obligation or disbursement in excess of a target versus a formal administrative subdivision of funds does not in itself create an ADA violation; however, if exceeding a target causes the governing formal administrative fund subdivision level or limitation to be breached, then a potential ADA violation arises. Errors that require correction by obtaining additional funds at a formal administrative subdivision of fund level cannot eliminate the fact that a violation likely has occurred and must be investigated. An exception applies when funds are required at the formal administrative subdivision level but funds were returned to higher headquarters as the result of the customary practice of sweeping up funds near the end of a fiscal year.

E. Obligations were made or authorized in advance of funds being available.

F. Obligations or expenditures of funds did not provide for a bona fide need of the fund or account (time violation) and upon correction into the proper fund or account, proper
funds were not available at the time of the erroneous obligation or were not available when the
obligation was recorded in the proper fund or account.

G. Obligations charged against a current account that would otherwise be properly chargeable (except as to amount) to an expired account, but sufficient funds did not exist in the applicable expired account to fund the obligation.

H. Obligations that otherwise would have been properly chargeable (both as to purpose and amount) to a canceled appropriation exceeds the limits specified in Volume 3, Chapter 10, subparagraph 100303.D.

I. Voluntary services were accepted, or personal services were employed, except as authorized by law.

J. Funds were retained without authority and were not deposited into the miscellaneous receipts of the U.S. Treasury but instead augmented an appropriation and, as a result, obligations or expenditures exceed the amount appropriated by Congress.

020202. Recording Obligations/Expenditures

A violation may not be avoided by declining to record valid obligations or expenditures in the official accounting records. All obligations or expenditures must be recorded accurately and promptly, even if the recording results in a negative amount in the appropriation, fund, or at the formal administrative subdivision of funds level.

020203. Recording Errors/Omissions

An ADA violation is not considered to have occurred when an over-obligation or over-expenditure results solely from recording a transaction in an erroneous account or recording an incorrect amount for a transaction. In each instance, the potential violation status is eliminated by correcting the erroneous transaction or by posting the omitted transaction. These actions must not include the deletion or adjustment of any valid transactions. If, after the proper recording of the transactions, an over-obligation or expenditure of the appropriation, fund or amount limited by a formal administrative subdivision of funds remains, then a potential ADA violation has occurred.

0203 CAUSES OF VIOLATIONS

ADA violations occur for several reasons. The following is a list of the most frequent causes of DoD ADA violations:

A. Inadequate or obsolete internal controls and standard operating procedures;
B. Internal controls and standard operating procedures that are ignored;
C. Lack of appropriate training; and
D. Inadequate supervisory involvement or oversight.

0204 PREVENTING VIOLATIONS

020401. Requirements

Inadequate supervisory involvement and oversight combined with a lack of appropriate training are common throughout most DoD ADA violations. Therefore, supervisors of DoD personnel who have responsibility for control and use of DoD funds must ensure that their personnel receive proper oversight, support, and training to prevent violations. To assist in the prevention of ADA violations, DoD personnel must be knowledgeable of requirements in this chapter and Chapter 1. The following subparagraphs provide specific actions that must be taken to reduce or prevent violations.

A. Heads of DoD Components must:

1. Use the internal management control programs as required by DoD Instruction 5010.40, “Managers’ Internal Control Program Procedures,” to periodically assess the reliability of internal controls to prevent ADA violations.

2. Develop a full spectrum of DoD formal education programs for all military officers, from staff officer courses to executive development courses, and incorporate relevant aspects of this volume to highlight the potential pitfalls and risks associated with the ADA. This volume must be used as source material to conduct seminars and workshops targeted to general and specific audiences including financial, program, and project managers; engineers; contracting, information system, and comptroller personnel; commanders; supervisors; and managers.

3. Develop formal education structures to educate personnel about the ADA. Formal courses can be used to alert personnel to common violations and high-risk business transactions and decisions that can result in a violation. Course materials will clearly state that taxpayer funds should not be spent when the requirement is no longer needed, i.e., the requirement is no longer a bona fide need at that time. The DoD financial management community sponsors professional development courses that include discussions on ADA violations. These courses include the Army Comptroller and Advanced Resource Management Programs at Syracuse (NY) University; the Naval Post Graduate School at Monterey, California; and the Defense Financial Management and Comptroller School at Maxwell Air Force Base, Alabama. In addition, the U.S. Army Judge Advocate General School at Charlottesville, Virginia, includes a fiscal law course in its curriculum; and both the Enhanced Defense Financial Management training course hosted by the American Society of Military Comptrollers and the Under Secretary of Defense (Comptroller) Defense Financial Management Certification Program include fiscal law in their accreditation programs.
B. DoD commanders, supervisors, and managers must:

1. Be aware of the ADA, related funding statutes, types of violations, and causes of violations as described in this chapter.

2. Provide appropriate ADA training to financial, program, and project managers; engineers; and contracting, information system, and comptroller personnel. Provide fiscal law training to educate DoD personnel with regard to their fiduciary and legal responsibilities to prevent wasteful spending of appropriated funds. The focus of this training must include the basics of fund control, the ADA statute, and related funding statutes; the types of violations that can occur; the most frequent types of violations that occur within the DoD and their causes; the necessary training, supervision, and oversight of personnel who perform financial management or programmatic functions; and methods for preventing violations. Require that all executive development and financial management course content be updated to ensure proper use and good stewardship of appropriated funds. The training must be maintained to ensure the information remains current. Videos, computer courses or handbooks may be used for such training.

3. Identify key fund control personnel, incorporate the provisions of this volume into key fund control personnel training programs, require that key fund control personnel receive appropriations law training at least every three years, maintain the documents that identify key fund control personnel, and maintain documents that confirm completion of the appropriations law training. Key fund control personnel are those responsible for the proper assignment of funding on a commitment or obligation document before the obligation is incurred. Examples are resource managers, fund holders, funds certifying officials, and authorizing officials. Key fund control personnel should inquire with their individual DoD Components as to the appropriate source of training that satisfies this requirement. Appropriations law training requirements for certification of fund availability are separate from training requirements for certification for payment. Personnel that certify vouchers for payment must adhere to additional requirements as prescribed in Volume 5, Chapter 5.

4. Ensure key fund control personnel coordinate with requiring officials, such as program managers, contracting officers, and engineers, to verify that requests comply with funding statutes applicable to the assignment of funding on a commitment or obligation document before the obligation is incurred. This coordination should include ensuring delivery of supplies and/or the period of performance for services aligns with the lifecycle of the associated funds such that the obligation meets the bona fide need rules laid out in Volume 3, Chapter 8, subparagraph 080304.A. Key fund personnel must review and verify on a continuous basis that the goods and/or services are still needed. Key fund control personnel must not spend taxpayer funds when goods and/or services are no longer needed.

5. Ensure that their employees receive the necessary training and experience in the control and use of funds at levels that correspond with their responsibilities. Furthermore, supervisors must perform oversight and validation checks to ensure that established internal controls and standard operating procedures are adequate and are being consistently
followed by their subordinates. Inadequate supervisory involvement or oversight combined with lack of appropriate training is common in DoD ADA violations.

6. Ensure regular reviews of fund status type reports are performed. If the amount of commitments and obligations (undelivered orders and delivered orders unpaid or paid) exceed the total amount available in an appropriation or the total amount of funds available at the formal administrative subdivision level, a violation could occur if all or some of the commitments eventually become valid obligations.

7. Take proactive measures specifically tailored to address the causes and corrective actions required to prevent violations. See section 0203 for causes of violations.

020402. Common Violations

To prevent ADA violations, DoD personnel must be knowledgeable of the most common and frequent types of ADA violations to include the following:

A. Exceeding an Appropriation

1. All DoD commanders, managers, and personnel whose duties include obligating and/or managing funds must be aware of this type of violation and causal factors. This violation often occurs when obligations from an obligation document are not timely or accurately recorded thus causing the official accounting records to reflect an inflated (and incorrect) availability of funds. Since personnel use those records to certify funds are available for other obligations, a violation can easily occur because the records do not reflect the correct amount of funds available for obligation. This violation also occurs when obligations are charged against a current account that would otherwise be properly chargeable (except as to the amount) to an expired account, but sufficient funds do not exist in the applicable expired account to fund the obligation.

2. This type of potential violation is commonly discovered when an unmatched disbursement is recorded in the accounting system when correcting inaccurately recorded obligations, or when a reprogramming action requests additional funds for an expired account. To help prevent this type of violation, DoD funds managers (for example, Comptrollers) must require that all organizations that incur obligations and record obligations maintain strict and absolute positive controls over-obligating documents (or their electronic equivalents) to ensure that none are lost or misplaced and all transactions are recorded accurately and in a timely manner. Such controls include batch totals of transactions and dollar amounts incurred, transmitted, received, processed, and recorded.

3. The establishment of a funds control system is also essential to ensure that all obligations are reconciled properly against available funds and authorized before they are incurred. This process must include reserving available funds for authorized obligations that are not immediately recorded as an obligation. The reservation must be made by means of a formal commitment or an informal reservation record that contains an estimated amount. The documented estimated reservation must closely approximate the obligation when incurred and
recorded. Also, when recording estimated obligations, it is important to record the initial obligation based on the most current data available and adjust the estimated obligations as conditions change to avoid making an obligation or expenditure that exceeds the amount available in an appropriation or fund.

B. Exceeding Statutory Limitations on the Use of Operations and Maintenance Funds

1. Military Construction. To prevent an ADA violation, engineering and contracting personnel must be advised of the provisions of 10 U.S.C. §§ 2801, 2802, and 2805; and DoD rules and regulations that cover minor construction projects. Engineering personnel and those who authorized the construction are frequently identified responsible for violations involving construction projects exceeding statutory construction limitations and administrative construction limitations placed in engineering regulations. The following is a brief summary of some of the provisions of 10 U.S.C. §§ 2801, 2802, and 2805; and DoD rules and regulations on minor projects.

a. Congress establishes by statute, the amount of Operations and Maintenance (O&M) funds that may be used for a minor construction project. From time to time, that limit is increased by Congress. If the specified limit is exceeded, Military Construction funds must be used for the entire project including planning and design. A violation of 31 U.S.C. § 1341(a)(1)(A) may occur when the limitation is exceeded. The limitation applies to the use of O&M funds for a minor construction project even though there is sufficient obligational authority available in the O&M account at the time that the project is authorized and approved.

b. A military construction project includes all work necessary to produce a complete and usable facility, or a complete and usable improvement to an existing facility under provisions of 10 U.S.C. § 2801(b). Incremental construction, which is the planned acquisition of, or improvement to, a real property facility through a series of minor construction projects is prohibited. See Volume 3, Chapter 17 for military construction project requirements.

c. Engineering and contracting personnel must be familiar with the statutory limitation, under the provisions of 10 U.S.C. § 2825, on the maintenance and repair funds that may be used for a family housing unit. That limit may not be exceeded without prior notification to Congress. When that limit is exceeded for any reason during the completion of a family housing maintenance and repair project, and the conditions specified in the law for a waiver of the statutory limitations have not been met, a violation of 31 U.S.C. § 1341(a)(1)(A) may occur.

d. The misclassification of construction costs as alterations by engineering personnel may result in an ADA violation. A potential violation may occur if the amount of the misclassification, when added to construction costs (if any), exceeds a statutory limitation. For example, an engineering project that has a minor construction cost close to the statutory limit, but which also has related maintenance and repair costs, could cause a violation of the statutory limit if the maintenance and repair work later is proven to be construction. Likewise, a maintenance and repair project exceeding the statutory construction limit could be a potential ADA violation if the maintenance and repair later is determined to be construction.
2. Equipment

   a. Congress designates an amount above which acquisitions of equipment must be funded from a procurement fund (expense versus investment threshold rule). Using O&M funds to acquire equipment items that exceed the designated threshold amount for the mandatory use of procurement funds could be a potential ADA violation. For instance, O&M funds are used to purchase a computer system when Other Procurement funds are required. Expense versus investment criteria is in Volume 2A, Chapter 1, paragraph 010212 and Volume 2B, Chapter 18.

   b. Similar problems also frequently occur when acquiring low dollar value equipment items that are estimated to cost less than the congressionally designated amount for procurement funds, but actually cost more than that amount when acquired.

   c. An ADA violation does not occur automatically in the situations outlined in subparagraphs 020402.B.2.a and b because the obligation can be moved from the O&M account to the applicable procurement account. If proper funds were available in the proper procurement account at the time of the erroneous obligation of O&M funds and funds are available when the obligation is recorded in the procurement account, including all other known valid obligations and deobligations, then a potential ADA violation has not occurred. However, if proper procurement funds were not available at the time of the erroneous obligation or were not available when the obligation is recorded in the procurement account to cover the obligation in the procurement account, a potential ADA violation may have occurred.

   d. DoD decision makers, such as program managers, information systems managers, and contracting personnel, must be knowledgeable of the expense versus investment rules to prevent this type of violation. Program managers and information systems, contracting, and comptroller personnel must be trained on this issue. Such training should help reduce the incorrect application of the expense versus investment rule and the resulting ADA violations.

C. Exceeding a Formal Administrative Subdivision of Funds. If a formal administrative subdivision of funds level is exceeded, then a potential violation must be reported. The receipt of additional funds before the end of a reporting period does not mitigate a limitation violation or eliminate the potential violation reporting requirement as specified in Chapter 3. Also, failure to record a valid obligation or expenditure as of the date incurred does not avoid the incurrence of, and the requirement to report, a potential ADA violation if, upon recordation, available funds in the appropriation fund or other formal administrative fund subdivision level are exceeded. For example, the Military Departments historically have experienced problems with over-obligated Reserve Component (RC) personnel accounts. Funds in these accounts are used to pay RC personnel for such items as weekend drills, travel, special tours, or other training. RC unit commanders who control a formal administrative subdivision of funds level are subject to the ADA and must, in advance of the incurrence and recording of these obligations, budget and reserve against available funds the amounts estimated for weekend drills and other scheduled training.
D. Obligating Funds in Advance of Availability

1. A common scenario is the use of current year funds to procure goods or services that properly are funded only with a subsequent year appropriation. An ADA violation occurs when an individual obligates funds before those funds are authorized and appropriated by Congress. For example, signing a facility or equipment operating lease using one-year authority funds and agreeing to pay, or obligating the funds, for a two-year lease during the first year would constitute an obligation in advance of the availability of the funds for the amount associated to the second year of the lease. Similarly, agreeing to pay or obligating the funds for a two-year equipment maintenance agreement using one-year authority funds would constitute an ADA violation related to the amount associated with the second year of the agreement.

2. To help prevent this type of violation, training programs must include specific focus on the importance of ensuring funds are authorized and available before obligating the Government to contracts for future fiscal years’ expenses.

3. For guidance on determining whether a violation may be properly corrected, see paragraph 020102.c.

E. Providing Funds to Servicing Agencies Before or Past the Period of Availability

1. A common scenario occurs when funds cited on an Economy or non-Economy Act order do not meet the bona fide need arising or existing in the fiscal year (or years) for which the appropriation is available for obligation. When an erroneous obligation is moved to the applicable fiscal year and proper funds were not available at the time of the erroneous obligation or were not available when the obligation was recorded in the proper fund or account, a potential ADA violation may have occurred.

2. To prevent this type of ADA violation, DoD personnel with the responsibility to control the use and type of funds used must be aware of the fiscal limitations of providing funds to servicing agencies before or past the period of availability. See specific policy for Economy Act orders in Volume 11A, Chapter 3, section 0304; and non-Economy Act orders in Volume 11A, Chapter 18, sections 1802 and 1803.

F. Retaining Funds Without Authority

1. This violation often occurs when funds are retained without authority and are not deposited into the miscellaneous receipts of the U.S. Treasury but instead augments an appropriation and, as a result, obligations or expenditures exceed the amount appropriated by Congress.

2. This violation is often discovered when new personnel arrive and raise concerns over accepting and retaining unauthorized funds. Therefore, it is essential that DoD decision makers, such as DoD Commanders and Comptrollers, are knowledgeable of this type of
violation and that financial managers be trained on this issue and understand the authority related to funds under their control to preclude augmenting an appropriation.

Figure 2-2. Violation Examples

A. GENERAL. Most of the examples described in items B – D are taken from actual violations that occurred within DoD. However, these violations are fact specific and in other circumstances a potential violation may or may not be incurred. These examples are supplied for information only and are not intended to imply that in all similar but not identical circumstances a violation would have been incurred.

B. TITLE 31, UNITED STATES CODE, SECTION 1341

1. 31 U.S.C. § 1341(a)(1)(A)

   a. Obligated O&M funds for site preparation construction costs on a relocatable building project. The project was incorrectly scoped into multiple projects and the cumulative costs of the construction exceeded the minor construction threshold and should have been authorized by Congress and funded with military construction funds. This unauthorized obligation of O&M funds instead of military construction funds resulted in a violation.

   b. Obligated O&M and Working Capital funds on a single military construction project. The project amount exceeded the minor construction statutory limitation and resulted in a violation. The Government Accountability Office takes the position that a violation of a funding restriction in an authorizing statute (such as 10 U.S.C. § 2805) results in a violation of the ADA (31 U.S.C. § 1341). The use of funds to finance the project is not consistent with the authorized purpose of the appropriation and resulted in an incurable violation of the “purpose statute” (31 U.S.C. § 1301).

   Note: Although the circumstances described herein constitute a violation of 10 U.S.C. §§ 2802(a) and 2805(b), the Department of Justice (DOJ) Office of Legal Counsel (OLC) has concluded that “a violation of a statutory restriction on spending does not violate the ADA where the restriction is not ‘in an appropriation.’ ” See also: DOJ OLC opinion, “Use of Appropriated Funds to Provide Light Refreshments to Non-Federal Participants at EPA Conferences,” April 5, 2007 (online at: http://www.justice.gov/sites/default/files/olc/opinions/2007/04/31/epa-light-refreshments13.pdf); and DOJ OLC letter, “Re: Whether the Federal Aviation Administration’s Finalizing and Implementing of Slot Auction Regulations Would Violate the Anti-Deficiency Act,” October 7, 2008.

   c. Obligated O&M funds rather than Procurement funds for recapitalization of a system and Procurement funds were not available when the obligation was recorded which resulted in a violation.
d. Failure to promptly record valid obligations in a reserve personnel appropriation resulted in valid obligations that exceeded the available amount in the appropriation and resulted in a violation.

2. 31 U.S.C. § 1341(a)(1)(B)
   a. Obligated O&M funds in advance of the appropriation when a 14 month severable services contract was awarded that exceeded the 12 month limit set forth in section 10 U.S.C. § 2410a, and resulted in a violation.
   b. Obligated O&M funds for two and four year severable equipment leases in advance of an appropriation which resulted in a violation.
   c. Obligated O&M funds for equipment with phased deliveries into subsequent fiscal years in advance of an appropriation which resulted in a violation.

C. TITLE 31, UNITED STATES CODE, SECTION 1342

Apparently, at the urging of the Chairman, a member of a Federal Commission agreed to waive his statutory entitlement to $100 per day while involved in Commission business. The year after the Commission was disbanded, the former member changed his mind and filed a claim for a portion of the compensation he would have received had it not been for the waiver. Since the $100 per day was a statutory entitlement, the purported waiver was invalid and the former commissioner was entitled to be paid. By accepting the waiver and allowing the commissioner to conduct Commission business without pay, the provision against acceptance of voluntary services was violated and a violation of the ADA occurred.

D. TITLE 31, UNITED STATES CODE, SECTION 1517

1. Obligated O&M funds in excess of the Continuing Resolution Authority allocation which resulted in a violation.

2. Obligated O&M funds for information technology equipment in excess of the investment threshold. When correction was made, Procurement funds were not available at the suballotment level which resulted in a violation.
3. A DoD activity used O&M funds, rather than Other Procurement funds to purchase a data processing local area network (LAN). Even though the hardware components and LAN operating system software were purchased separately, the components and the software together constituted a system with an aggregate cost in excess of the expense/investment threshold specified by the Congress for the required use of procurement appropriation funds. A violation occurred because the DoD activity did not have the required amount of Other Procurement funds at the time of the purchases.

4. A funds holder at a formal administrative subdivision of fund level erroneously distributed more funds than available at the subdivision level. The activities receiving the funds incurred obligations and expenditures in excess of amounts available to the fund holder but below the amount distributed. The funds holder incurred an ADA violation because the obligations and expenditures exceeded the total amount in the formal administrative subdivision of funds.

CHAPTER 3

* ANTIDEFICIENCY ACT VIOLATION PROCESS

0301  GENERAL

030101. Overview

This chapter describes the Antideficiency Act (ADA) violation process from initial discovery to formal investigation and final report. When an ADA violation is suspected and those concerns are validated by an internal review, an in depth investigation is required. The structured investigation process consists of two phases, a preliminary review and, if required, a formal investigation. Generally, the likelihood that a potential ADA violation occurred must be established during the preliminary review, before a formal investigation begins. The preliminary review gathers facts and establishes by adequate evidence whether an uncorrectable deficiency has occurred. The formal investigation then determines the event(s) that “more likely than not” caused the potential violation, the responsible individual(s), and action(s) being taken to ensure that a similar violation does not reoccur. To ensure efficiency, it is important that those involved in the investigation of, and reporting on, ADA violations are adequately trained and qualified. Investigators are provided specific authority to collect and evaluate relevant information as well as obtain direct support from subject matter experts and personnel throughout the process.

030102. Purpose

This chapter provides guidance for addressing potential and actual violations of statutes discussed in Chapters 1 and 2. It establishes the policy for conducting initial reviews, structured investigations, and other requirements to report an ADA violation properly. It also establishes policies for training individuals assigned to investigate potential and actual ADA violations. Additionally, this chapter provides the process and policies regarding organizational corrective actions and disciplining of civilian and military employees.

030103. Authoritative Guidance

This chapter implements provisions of Title 31, United States Code (U.S.C.), especially sections 1511 - 1517 and 1519 (31 U.S.C. §§ 1511 – 1517 and 1519) related to apportionment and allotment, and §§ 1341 and 1348 related to limitations on obligations and expenditures, § 1342 related to voluntary services and personal services, and §§ 1349 and 1518 related to disciplinary actions. This chapter also implements reporting requirements as specified in 31 U.S.C. §§ 1351 and 1517(b), and the Office of Management and Budget (OMB) Circular No. A-11, Exhibit 145A
0302 REPORTING SUSPECTED VIOLATIONS

030201. Initial Discovery

Date of discovery is the point in time when there is adequate information to suspect a potential ADA violation may have occurred, triggering an initial review. Discovery is often marked by an event, such as release of internal review findings suggesting an ADA violation may have occurred, or receipt of a status of funds report showing irregularities. An inquiry may be conducted to confirm that the information is accurate, complete, and sufficient to suggest that a violation of the ADA has occurred.

030202. Initial Report

A. Fund holders have a fiduciary responsibility to ensure their funds are properly executed in accordance with applicable laws and regulations. Consequently, fund holders are responsible for reporting all suspected violations of the ADA. This does not mean that others are not responsible for bringing suspected violations to the attention of the proper officials.

B. Within two weeks of discovering a potential violation of the ADA, an initial review must be conducted and an initial report must be prepared by the activity holding the funds that were allegedly misused. The review is intended to aid in the preparation of the initial report. It determines whether a suspected violation may have occurred — even when the suspected violation is presumed to be curable. In cases where the activity identifies a potential cure, it should be noted in the report. However, no action to cure a potential ADA should be undertaken without concurrence from the authorities identified in section 030202, paragraph C.

C. Initial reports must be submitted through activity/command channels to the applicable Office of the Assistant Secretary of the Military Department for Financial Management and Comptroller, Combatant Commands, or the Senior Financial Manager for other Department of Defense (DoD) Agencies and Field Activities (referred herein as DoD Component).

D. The initial report is not a determination of responsibility for causing the potential ADA; it merely serves as official notification that a suspected violation may have occurred. A template for an initial report is located at Figure 3-2. To the extent, such information is available and pertinent to the potential ADA at issue (e.g., some of the following may not be pertinent to a potential voluntary services ADA violation), the report must contain the following:

1. Accounting classification of funds allegedly misspent;
2. Name and location of the activity where the alleged violation occurred;
3. Name and location of the activity issuing the fund authorization;
4. Amount of the alleged violation;
5. Nature of the alleged violation;

6. Date the alleged violation occurred and date discovered;

7. Means of discovery; and

8. Description of the facts and circumstances of the case.

E. Initial reports addressing potential voluntary services ADA violations must include all items listed in subparagraph 030202.D (except subparagraphs 030202.D.1 and 3).

030203. Evaluation

The DoD Component must evaluate the initial report for validity and completeness. If this evaluation determines a suspected violation may have occurred, the DoD Component must assign a case number for tracking purposes and direct the initiation of a preliminary review. If the DoD Component determines that the suspected violation is curable, the impacted activity/command will provide all the necessary information and documentation to support the correction to the DoD Component. Upon correction of the error and determination of appropriate internal controls to prevent a recurrence of similar violations, there are no additional ADA violation requirements.

0303 DOD COMPONENT INVESTIGATION ADMINISTRATION

030301. Timeframes for Investigation

A. The preliminary review must be completed within four months from the date it was directed by the DoD Component.

B. The formal investigation must be completed within nine months from the date it was directed by the DoD Component.

C. The Office of the General Counsel (OGC) (Fiscal) advance decision legal review must be completed within three months from the date the draft formal investigation report is submitted to the Office of the Under Secretary of Defense (Comptroller) (OUSD(C)), Deputy Chief Financial Officer (DCFO) requesting an advanced decision.

D. The DoD Component must consider appropriate disciplinary action and document any disciplinary action taken. A final summary report must be submitted by the DoD Component within two months from the Office of the Secretary of Defense (OSD) OGC (Fiscal) receipt of an advance decision concurring with the formal investigation report. However, DoD Components may request additional time from the DCFO to complete disciplinary actions, if required.

E. The DCFO must complete and submit the letters required by OMB Circular No. A-11, Exhibit 145A within one month after receiving the final investigation report from the DoD Component. The total process for investigating and reporting potential ADA
violations must be completed within 15 months from the start of the formal investigation. The preliminary review is not part of the 15 months’ timeline.

F. All appointing officials must stipulate in the investigating officer appointment memorandum a due date for the ADA violation investigation report. The due date must conform to the timeframes stipulated in paragraph 030301.A-E regardless of the scope or amount of the potential violation.

030302. Approving Exceptions to Timeframes

The DCFO may approve an exception to the timeframes on a case-by-case basis. Upon request, this responsibility may be delegated to the DoD Components. This responsibility may not be redelegated. The DoD Components must provide sufficient justification for the extension. The DCFO will notify the DoD Components of any extension that is approved.

030303. Special Interest Investigations

Special interest investigations include potential violations that may have been the subject of a news release; requested by the Secretary of Defense, Deputy Secretary of Defense, or the USD(C); or involve a high-level DoD official. When necessary, investigations of special interest may deviate from the timeframes stipulated in paragraph 030301.A-E; however, the DoD Components must notify the DCFO when such deviations are necessary. If the DCFO agrees, the timeframes may be extended.

030304. Involvement of the OUSD(C)

The OUSD(C) may supervise the progress of an investigation when the nature of the violation or the implication of individuals in the violation warrants such involvement. Such supervision may include requirements for oral and written progress reports and may require a team of investigating officers (IOs) and compressed timeframes.

030305. Investigation Costs

When conducting an investigation outside the major activity/command to which the IO is assigned, incidental costs (e.g., temporary duty, local travel) incurred must be identified and accumulated. In accordance with Volume 11A and Volume 11B, reimbursement must be provided by the activity/command that was under investigation.

0304 PRELIMINARY REVIEWS

030401. Purpose

A. The purpose of the preliminary review is to gather facts that adequately support, at a minimum, the conclusion that a reportable violation of the ADA has occurred. It does not identify responsible officials or recommend corrective actions to prevent similar violations.
Applicable corrective actions will be developed during the formal investigation, if a formal investigation is warranted.

B. The DoD Component will assign the responsibility for conducting the preliminary review to the activity where funds were potentially misused.

030402. Investigating Officer Appointment

A. The IO’s must be appointed by an appointing official. The appointing official is at the DoD Component level unless the Component delegates this authority to a senior Commander, or director of the organization assigned responsibility for conducting the investigation. The appointing official will appoint a qualified IO to be assisted by a review team with expertise in the areas being investigated, if necessary. The appointing official will issue an appointment letter within two weeks after the DoD Component’s evaluation of the initial report concluded that a potential reportable violation has occurred. A template for appointment orders is located at Figure 3-3.

B. The appointing official must certify that the IO has been trained in fiscal law or appropriations law within the last three years and is capable of conducting a complete, impartial, and unbiased review. It is the responsibility of each DoD Component to ensure that its ADA investigators are properly trained and that the training is current and documented.

C. The IO should be selected from an organization external to the activity/command being reviewed.

D. The IO does not need to be senior in grade to the persons potentially under investigation.

E. The IO must be competent and capable of gathering evidence, establishing facts, documenting findings and recommendations, and preparing investigation reports of violation.

F. The IO must also be able to manage time and meet timeframes established for the completion of the investigation. The appointing official may prescribe additional training as required.

G. Appointing officials must ensure the investigation receives the appropriate level of activity/command emphasis and the IO is given adequate time and resources to conduct a thorough investigation.

H. The appointment orders must certify that investigators are free of personal, external, and organizational impairments and retain the document(s) in the ADA case file.

I. Appointment orders must be submitted to the DoD Component and are part of the case files for the investigation.
030403. Conduct of the Investigation

A. Checklists. Figure 3-4 contains a template for preparation of the preliminary review report.

B. At the conclusion of the preliminary review, the investigator must have gathered facts, established a narrative of events and determined what should have happened. This may involve reviewing funding documents, contracts, and other key documents, as well as interviewing key witnesses.

C. The investigation should check for accounting errors such as: duplications or other errors in recording the applicable obligation and/or expenditure; obligations and/or expenditures charged to invalid and/or improper fund accounts; and inaccurate fund status at the time the applicable transaction occurred. If the preliminary review determines that an accounting error occurred, the investigator must coordinate the appropriate accounting correction.

D. When an IO determines that a reportable violation can be cured, the fund holder must attempt to correct the accounts. Corrections must be completed with the concurrence of the DoD Component, and only after appropriate supporting documentation is provided to the DoD Component.

030404. Obligations Charged to the Wrong Appropriation or Wrong Year

A. To cure a potential ADA violation and to correct the accounts, (violations of Purpose (31 U.S.C. §1301) and the Bona Fide Need Rule (31 U.S.C. §1502)), the fund control personnel should first ascertain that:

1. The proper type of funds, fiscal year, and amount are currently available to correct the erroneous obligation(s), and

2. If so, they should also determine that the proper funds were available at the time of the erroneous obligations.

B. If the fund holder is able to certify that both of these conditions have been met and that the potential ADA violation can be cured via fund substitution by account adjustments, this should be explicitly stated in the report.

C. The IO should then coordinate with the necessary personnel to correct the potential violation and document completion of the proper accounting corrections. Once the accounting corrections have been made, the IO, in coordination with his/her legal advisor must determine whether a reportable violation occurred and document this in the Preliminary Report.

D. If fund control personnel do not provide the certification, then the preliminary review report must include evidence that adequately supports a determination that there is a reasonable likelihood that a violation of 31 U.S.C. §§ 1341 or 1517 occurred.
030405. Obligations Incurred in Advance of an Appropriation

A. Obligations incurred in advance of the availability of the proper appropriation (31 U.S.C. §1341(a)(1)(B)) will not be regarded as reportable violations of the ADA, provided that there are sufficient funds available in the proper appropriation to cover the obligation.

B. To cure a potential ADA violation, fund control personnel should first ascertain that the proper type of funds, fiscal year, and amount are currently legally available to correct the premature erroneous obligation.

C. If the fund holder is able to certify that this condition has been met and that the potential ADA can be cured via fund substitution, this should be explicitly stated in the report.

D. The IO should then coordinate with the necessary personnel to correct the potential violation and document completion of the proper accounting corrections. Once the accounting corrections have been made, the IO, in coordination with his/her legal advisor must determine whether a reportable violation occurred and document this in the Preliminary Report.

E. If fund control personnel do not provide the certification, then the preliminary review report must include evidence that adequately supports a determination that a violation of 31 U.S.C. §§ 1341 or 1517 occurred.

030406. Review Results

The findings of the preliminary review must be documented in the IO’s preliminary report and the report must be accompanied by a legal review. This report and legal review are forwarded for approval to the applicable DoD Component, and coordinated with the applicable DoD Component’s General Counsel. If the DoD Component involved determines that there is no violation, then the preliminary report completes the required ADA violation investigation.

030407. Preliminary Reviews Initiated by the OUSD(C)

When the OUSD(C) is informed of a potential violation by an audit report or otherwise learns of a potential violation, the applicable DoD Component may be directed to initiate a preliminary review of the circumstances surrounding the potential violation. The date the DoD Component receives the direction is considered the date of discovery for reporting purposes and the DoD Component must follow procedures in sections 0302, and 0303.
030408. Oversight Entities

A. In some cases, the Government Accountability Office, DoD Office of Inspector General, a military department audit agency, or other organizations external to a DoD Component may advise in a report that a potential violation may have occurred and recommends a preliminary review be conducted. The DoD Component must review the finding(s) and recommendation(s) provided in the report. An informed inquiry may have to be conducted by the DoD component.

B. If the DoD Component agrees that a potential violation may have occurred and a preliminary review is warranted, then the date of the agreement is considered the date of discovery for reporting purposes. The DoD Component must follow procedures in section 0304 and must supply the status of the preliminary review as requested by the applicable external organization.

C. If the DoD Component disagrees that a potential violation has occurred and believes a preliminary review is not warranted, the DoD Component must provide applicable written comments to the report outlining the disagreement consistent with policy prescribed in DoD Instruction 7650.03 “Follow-up on General Accountability Office (GAO), Inspector General of the Department of Defense (IG DoD), and Internal Audit Reports.”

D. If disagreements between the DoD Component and the oversight activity arise as to whether a preliminary review is warranted, the DoD Component may request assistance from the DCFO.

030409. Evaluation

The DCFO may routinely examine open or closed preliminary review cases.

0305 ROLES OF THE DOD INSPECTOR GENERAL

The Inspector General Act of 1978 (P.L. 95-452), as amended, gives the DoD Inspector General (DoD IG) the authority to conduct investigations of violations of the ADA.

A. The DoD IG reserves the right to initiate investigations of potential violations of the ADA, depending upon the type, amount, or significance of the violation.

B. The DoD IG may elect to conduct investigations not requested by the OUSD(C) or other DoD official.

C. When the DoD Inspector General conducts such investigations, the resultant report must constitute the official DoD report on the matter; no other DoD Component must conduct parallel or supplemental investigations unless directed to do so by the Secretary of Defense, Deputy Secretary of Defense, or OUSD(C).
0306 FORMAL INVESTIGATIONS

030601. Overview

A. Following completion of a preliminary review that concludes by adequate evidence that a reportable and incurable violation of the ADA has occurred, a formal investigation must be opened. The violation must be reported to the DCFO within 2 weeks of the determination. The DCFO will assign the DoD Component a unique tracking number and due date.

B. The purpose of the formal investigation is to determine the event that caused the potential violation, the responsible individual(s), and action(s) taken to ensure that a similar violation does not occur in the future. It may require the discovery of new or additional evidence, re-interviewing witness or interviewing new witness, re-examining documents or discovery of new documents.

C. During the course of a formal investigation, the DCFO may request periodic status reports.

D. The DoD Component will generally assign the responsibility for conducting the investigation to the activity that performed the preliminary review. The DoD Component may request another organization to conduct the investigation to eliminate potential conflicts of interest, or to leverage the expertise of another activity/command.

030602. Investigating Officer Appointment

A. IO’s must be appointed by an appointing official. The appointing official is at the DoD Component level unless the Component delegates this authority to a senior activity/commander or director of the organization assigned responsibility for conducting the investigation. The appointing official will appoint a qualified IO, to be assisted by a review team with expertise in the areas being investigated, if necessary. A template for appointment orders is located at Figure 3-3. The formal investigation may be conducted by the same IO who conducted the preliminary review.

B. The appointing official must certify that the IO/review team lead has been trained in fiscal law or appropriations law within the last three years and is capable of conducting a complete, impartial, and unbiased review. It is the responsibility of each DoD Component to ensure that its ADA investigators are properly trained and that the training is current and documented.

C. The IO should be selected from an organization external to the activity/command being reviewed.

D. The IO does not need to be senior in grade to the persons potentially under investigation.
E. IO’s must be competent and capable of interviewing witnesses, gathering evidence, establishing facts, documenting findings and recommendations, and preparing reports of violation. They must also be able to manage time and meet timeframes established for the completion of the investigation. The appointing official may prescribe additional training as required.

F. Appointing officials must ensure the investigation receives the appropriate level of activity/command emphasis and the IO is given adequate time and resources to conduct a thorough investigation.

G. The appointment orders must certify that investigators and/or review team leads are free of personal, external, and organizational impairments and retain the document(s) in the ADA case file.

030603. Conduct of Investigation and Preparation of Formal Report of ADA Violation Investigation (ROI)

A. Checklists

1. Figure 3-1 contains a checklist for use in the conduct of the Formal Investigation.

2. Figure 3-5 contains a template for preparation of the formal report.

B. Examination of Physical Evidence

During the investigation, the IO will be required to expand upon the findings established in the preliminary investigation or make new findings. The IO may revise dollar amounts based on witness statements, or, as more information is obtained, facts and conclusions also may be revised. The focus of the formal investigation will be on finding the root cause(s) for the violation, and identifying the individual(s) making or authorizing the improper obligations or expenditures, as well as identifying the corrective action(s) that are being implemented to reduce the risk of similar violations in the future.

C. Identifying Circumstances and Assigning Responsibility

1. All relevant aspects of the case, including all individuals and records connected with the event, must be investigated to the fullest extent. Key personnel involved in a violation must be interviewed. If an employee to be interviewed is a member of a bargaining unit, then the IO must comply with appropriate statutory and collective bargaining agreement protections for such employee.

2. Key facts associated with the events leading to the potential violation must be examined and documented in the report and the IO must address any conflicts. If a series of events at several levels led to the violation, then the report clearly must identify what happened at each level and how the events contributed to the violation.
3. In cases where the subject matter of the potential violation is beyond the expertise of the IO, a subject matter expert must be requested to evaluate the evidence along with statements from personnel interviewed and provide an opinion whether the key facts are correct and the conclusions reasonable. For example, when a potential violation involves the question of whether a military construction project results in a complete and usable facility, a civil engineer will be required to analyze the facts and provide an opinion.

4. The IO must make findings of fact to support all conclusions reached in the investigation. All findings of fact that lead to a conclusion of an ADA violation must be supported by a preponderance of the evidence. A preponderance of the evidence is created when the evidence collected makes the existence of a fact more likely than not. If the IO cannot establish a fact by the preponderance of the evidence, that fact may not be used to support a conclusion that an ADA violation occurred or that an individual is a responsible official.

5. In cases where the IO concludes that a reportable ADA violation occurred, the IO must make findings of fact and conclusions identifying the responsible official(s), the individual or individuals responsible for making or authorizing the improper obligations or expenditures pursuant to 31 U.S.C., §§ 1341(a) and/or 1517(a). Findings of fact used to support a determination that an individual is responsible for the violation must be established by a preponderance of the evidence. A conclusion that an individual is a responsible official does not, by itself, result in pecuniary liability of an accountable official under 10 U.S.C., § 2773a.

6. Any report that concludes an ADA violation occurred must identify one or more responsible officials. A conclusion that no individual was responsible for the violation is not acceptable.

7. The same individual(s) may be responsible for more than one violation under the auspices of a single investigation. In these cases, the report should specifically clarify how they contributed to each discrete violation.

8. The responsible official is usually the highest-ranking individual in the decision-making process with actual or constructive knowledge of the actions taken and awareness of the possible risks.

9. In order to establish responsibility, the IO must conclude, based on findings of fact, that the act or omission was a proximate cause of the violation. An act or omission is a proximate cause when it sets into motion a chain of events that directly leads to the violation, and the violation would not have happened but for the act or omission. A violation may have more than one proximate cause, and therefore more than one responsible official.

10. In some cases, it is necessary to establish that an individual had a duty to take an action that may have prevented the ADA violation, knew or should have known of that duty, and failed to take that action. In such cases, collateral evidence, such as Position Descriptions, may be used as evidence of the individual's scope of duties. If used, such evidence must be included in the ROI.

11. Activity/commanding officers, directors, budget officers, or fiscal officers may be named because of their overall responsibility or position, or the fact that they are
designated as the holder of a subdivision of funds, if they failed to properly exercise their responsibilities. Responsible officials may also include Information Technology specialists, program managers, facility engineers, and acquisition personnel.

12. The ROI must clearly identify the involvement of each individual and the acts or omissions that were the proximate cause(s) of the violation. The following questions must be considered:
   a. Did the violation occur because an individual carelessly disregarded instructions?
   b. Did the violation occur because an individual was inadequately trained or lacked knowledge to properly perform their job? If so, was the individual or a supervisor at fault?
   c. Did the violation occur because of an error or mistake in judgment by an individual or a supervisor?
   d. Did the violation occur because of lack of adequate procedures and controls? If so, who was at fault?
   e. Did the violation occur because of other reasons? If so, who was at fault?

13. If at any time during an investigation the IO believes there may be a criminal issue(s) involved, then the investigation must be stopped immediately. The IO must consult with legal counsel to determine if the issue should be referred to appropriate criminal investigators for resolution. The IO must notify the DoD Component of the outcome of this consultation.

   a. If at any time it is suspected that the violation of the ADA was knowing and willful, then the IO must submit all available information to the DoD Component, which will consider the case, in conjunction with the applicable Office of the General Counsel, for submission through DoD channels to the Department of Justice pursuant to 31 U.S.C., §§ 1350 or 1519, as applicable.
   b. At this time, the case will be closed to avoid duplication of effort or interference with a criminal investigation. If appropriate, a new formal investigation will be opened at the conclusion of the criminal investigation.

D. Rebuttal Statements

1. Individuals found potentially responsible for the violation will be provided a draft ROI detailing the facts and circumstances leading to the determination of their responsibility and given two weeks to issue a rebuttal statement.
2. The individuals named potentially responsible must be granted this opportunity even if they no longer work where the violation occurred or have retired or separated from the DoD.

3. The ROI should document the steps taken to notify the proposed responsible officials and provide them an opportunity to submit a rebuttal statement. Certified mail and/or email with tracking may be used to verify a good faith attempt was made to deliver the draft report to the proposed responsible official.

4. In cases where proposed responsible officials may have separated and left no valid forwarding address, a reasonable attempt to contact them should be made. The report should then be annotated accordingly. Attempts to make contact with the proposed responsible official should be summarized in the report.

5. If the proposed responsible official declines to give a statement in writing, then the DoD Component must include this declination statement as their response.

6. If they refuse to receive the report or submit a statement of any kind, the report should be noted accordingly. Attempts to solicit a response should be summarized in the report.

7. Any oral statements provided to the IO should be supported by a memorandum for record.

8. Statements from the proposed responsible official should acknowledge that they read the draft ADA report and understand that the draft ROI names them as being responsible for the violation. They may introduce any additional information they believe to be pertinent to the particular violation case.

9. The IO must evaluate the rebuttal statements of the proposed responsible official to determine if they clarify certain facts, provide mitigating information that might alter the draft’s conclusions or provide additional leads that require follow up. If rebuttal statements result in material changes to the draft ROI, the responsible official should have an opportunity to review the report again.

10. The final ROI will include the rationale for naming the individual as a responsible official, a synopsis of the rebuttal statements and the IO’s assessment. The IO should ensure the report is clearly written and the rationale for assigning responsibility to an individual is fully justified.

11. The salient points of the rebuttals should be summarized in the ROI. Verbatim statements should be submitted as an exhibit. The IO should provide an assessment of the accuracy of the rebuttal statements, following up on new leads, addressing questions regarding the responsibility of other personnel not named, and any other issues introduced by the rebuttal statements.
E. Corrective Actions

1. The ROI must state what actions were taken to request the proper funding. A statement in the report to the effect that funds will be requested is not sufficient. The report must state the year, type of funds, and the amount used to make the correction. As an example, if Operation and Maintenance (O&M) funds were improperly used for a minor construction project costing in excess of the limitation for minor construction, funds must be obligated from the Military Construction appropriation and the O&M appropriation restored to the proper balance.

2. When the causes and the individuals responsible for the violation have been determined, officials of the DoD Component under investigation and/or the activity holding the funds that were misused, working with the IO, must develop lessons learned and implement internal control enhancements necessary to reduce risks that a violation of a similar nature will reoccur. Those specific actions must be included in the formal report.

3. Corrective actions should not be merely prospective in nature, but also concrete actions that have been implemented, or that are in the process of being implemented.

4. Corrective actions should address the act or omission by the responsible official(s) that led to the violation.

5. Investigations resulting in no reportable violation are nonetheless permitted to recommend corrective actions, as appropriate, to address any deficiencies or practices documented during the investigation.

030604. Reinvestigation

If a reinvestigation is requested by the DCFO, then after the reinvestigation is completed or other requested action has been taken, the applicable DoD Component must submit the revised report to the DCFO according to applicable procedures in paragraph 030603. The DoD Component must submit the revised ROI within two weeks following completion of the reinvestigation or other requested action.

030605. Formal Investigation Results

A. The IO should ensure the ROI is clearly written and that each finding of fact and conclusion leading to a violation and assigning responsibility is supported by a preponderance of the evidence.

B. The DoD Component must carefully review the ROI and all enclosures.

C. The complete report should include:

1. Legal review;
2. Witness statements;

3. Responsible official notification;

4. Responsible official rebuttal or declination statement-proof of delivery/statement from IO regarding inability to contact;

5. Evaluation of responsible official statements;

6. Ongoing/completed corrective actions;

7. For ADA’s susceptible to accounting adjustments, fund certifications supporting conclusions that the ADA is/is not correctable; and

8. Functional reviews conducted by SMEs of decisions that drove fund determinations, especially with respect to Military Construction, information technology procurements and covered Defense Business Systems.

D. An incomplete ROI must be returned to the activity/command for rework. A firm suspense should be given to the activity/command to resubmit a legally supportable report.

0307 DOD COMPONENT ROI

030701. Preparation of the ROI.

A. The ROI submitted by the DoD Component must follow the same general format as described in Figure 3-5. However, it is generally a stand-alone product without enclosures or attachments. Extraneous information not supporting conclusions should be removed from the report. The DoD Component must keep these records and provide on request.

B. Inaccurate or confusing information should be removed or clarified. Key dates mentioned in the report should be verified. Numbers in tables, graphs, and text should be accurate, consistent and easy to follow. Unnecessary tables and photographs may be removed.

C. Personally Identifiable Information must be redacted and superfluous argument(s) not supporting the findings should be removed. Witness names should be replaced with position titles where practicable, to avoid potential Personally Identifiable Information concerns.

D. The ROI must be concise and avoid unnecessary historical background or references to external documents. Salient points should be highlighted and gaps in the narrative should be addressed, utilizing extant supporting documentation.
030702. Legal Coordination.

A. The DoD Component ROI should be prepared in close coordination with counsel and verify all information in the IO’s report and compare it to information in the exhibits. When in doubt, the changes should be staffed with the activity/command to ensure there are no material misstatements of fact and to ensure any factual gaps in the record are filled in.

B. When the violation is incurable, the type of ADA violation will ultimately be 31 U.S.C. §1341 (exceeding an appropriation or in advance of an appropriation), 31 U.S.C. §1517 (exceeding apportionment or formal subdivision) or 31 U.S.C. § 1342 (accepting voluntary services for the United States, or employing personal services not authorized by law).

C. With legal concurrence, some proposed responsible officials may be removed in the event that facts do not support responsibility. The DoD Component may identify additional responsible individuals and will coordinate adding them to the report with the IO. Proposed responsible officials will generally be the highest-ranking individual in the decision-making process with actual or constructive knowledge of the actions taken.

D. In the event the formal investigation was materially incomplete or the facts do not support the conclusions, the ROI will be returned to the activity/command for revision and/or reinvestigation. A firm suspense should be given to the activity/command to resubmit a legally supportable ROI.

E. If the ADA violation is found to involve the funds or personnel of another DoD Component, the ROI must first be coordinated with the appropriate stakeholders and the ROI should be annotated accordingly.

F. If the results of a formal investigation lead to a determination by the DoD Component that there was no violation, then a ROI that concludes no violation occurred must still be prepared by the DoD Component. The ROI must contain appropriate justification that supports a revised finding that no violation occurred.

0308 REQUEST FOR ADVANCE DECISION

030801. Advance Decision Package Submission

A. The DoD Components, must submit the ROI, to include the individual(s) responsible for the potential violation, to the DCFO with a copy to the DoD Office of the Deputy General Counsel (Fiscal) (OGC (Fiscal)) requesting an Advance Decision for a determination of whether the case is or is not an ADA violation.

B. Advance Decision is the pre-decisional OGC (Fiscal) review of the DoD Component ROI and determination that evidence substantiates the ADA violation and the naming of responsible officials. The Advance Decision will examine the role of the proposed responsible officials and determine whether they may be legally held accountable in accordance with 31 U.S.C. §§1341(a), 1517, and 1342.
1. If the OGC (Fiscal) determines that no violation is substantiated, then the DoD Component will be notified that no further action is required and the investigation is closed.

2. If the OGC (Fiscal) concurs that the proposed responsible officials are correctly identified and the violation is substantiated by a preponderance of the evidence, then the DoD Component will be notified and informed that they may proceed with discipline against one or more individuals named in the report.

030802. OUSD(C) DCFO Review

The DCFO must review each ADA violation report for completeness, clarity, and compliance with reporting requirements. If the report is determined incomplete by DCFO or OGC (Fiscal), then the ROI must be returned to the applicable DoD Component. The DoD Component must provide additional documentation, modify the report, or accomplish other actions as requested within the period of time specified by the DCFO.

0309 DISCIPLINARY ACTION

030901. Disciplinary Actions

A. Following OGC (Fiscal) concurrence and receipt of an advance decision from the OUSD(C), a tasking memorandum from the DoD Component will be sent to the appropriate organization or individual for potential administration of adverse action, as deemed warranted, along with a copy of the report.

B. The individual imposing discipline must be independent and free of external influence.

C. The disciplinary officer(s) must follow the appropriate disciplinary procedures applicable to the military member or civilian employee who has been determined in the ADA investigative process to be a responsible individual. The disciplinary officer will consult with the staff judge advocate or servicing legal office, as well as the civilian personnel office (in the case of a civilian employee).

D. The IO is prohibited from also being appointed as the disciplinary officer. The IO does not have a role in recommending or determining discipline.

030902. Imposing Discipline

A. Administrative Penalties

1. Disciplinary action taken should be documented in the individual’s personnel file in accordance with established policies.

2. Administrative discipline for a civilian employee may include, but is not limited to, written/oral counseling, written/oral admonishment or reprimand, reduction in grade, suspension from duty without pay, or removal from office.
3. Military personnel may be subject to appropriate administrative discipline or to action under the Uniform Code of Military Justice.

4. In general, individuals no longer on active duty or employed by a DoD Component may not be disciplined. However, disciplinary actions may still be imposed against some retired individuals who have separated from military service, if it is warranted by circumstances and determined to be legally appropriate by counsel. DoD has no authority to discipline retired or former civilian employees.

B. Criminal Penalties

1. An officer or employee found responsible for committing a violation knowingly and willfully may be subject to criminal penalties. The IO should consult with legal counsel to determine if the investigation should be referred to the appropriate criminal investigation organization for action.

2. 31 U.S.C. § 1350, prescribes that an officer or employee of the United States Government who knowingly and willfully violates 31 U.S.C., §§ 1341 or 1342 must be fined not more than $5,000, imprisoned for not more than 2 years, or both. 31 U.S.C. § 1519 discusses the violation of 31 U.S.C., § 1517 and provides the same level of punishment. Criminal penalties for military personnel may include punishment under Article 15 of the Uniform Code of Military Justice or trial by Courts-Martial.

3. When submitting an ROI to the DCFO that may require criminal penalties, a statement to that effect must be included in the ROI from the DoD Components.

030903. Documentation of Discipline Imposed

A. A suggested template for use by the disciplinary officer is located at Figure 3-6. In documenting discipline, the officer imposing discipline must acknowledge the following:

1. An ADA violation is a violation of federal statute;

2. ADA violations constitute misuse of DoD funds, even if the misuse was not knowing or willful and the misuse was not ultimately harmful to DoD, or the DoD Component;

3. DoD is required to report violations of the ADA to the President (via the Director, OMB), the U.S. Congress, and the Government Accountability Office;

4. An unwillful or unintentional violation alone does not justify a decision not to administer disciplinary action; and

5. Disciplinary actions must consider the severity of the violation.
B. Moreover, the officer imposing discipline must provide a written statement addressing why the disciplinary penalty imposed or not, is commensurate with the severity of the violation.

0310 SUBMISSION OF THE FINAL REPORT

031001. Submission to DCFO

The original or an electronic copy of the final ROI, including a discussion of the disciplinary actions taken, must be submitted to the DCFO and it must contain a copy of all pertinent documents referenced in the body of the report.

031002. ROI Due Date

The ROI is due to DCFO within 14 months from the date the formal investigation began.

0311 NOTIFICATION TO EXTERNAL AUTHORITIES

031101. Letter Preparation

Following receipt of an acceptable final ADA violation report from the applicable DoD Component, the DCFO will prepare the required letters, in accordance with OMB Circular No. A-11, Exhibit 145A, that report an ADA violation to the President through the Director of the Office of Management and Budget, the President of the Senate, the Speaker of the House of Representatives, and the Comptroller General of the United States. The notification letters must be coordinated with the OGC (Fiscal), Office of the Assistant Secretary of Defense for Legislative Affairs, and Office of the Deputy Comptroller (Program/Budget).

031102. Letter Content/Submission

These letters are submitted to the USD(C) for signature and forwarded to the external authorities identified in paragraph 031101. The letters and the attached ROI, notify the external authorities of the violation, its cause(s) and circumstances, the names of the individual(s) responsible for the violation, and the disciplinary action taken.
Figure 3-1. Checklist for Formal Investigations

Initial Phase
- Formal investigation opened
- Case control number assigned for tracking
- DCFO notification
- Directs activity to appoint investigating officer
- Appointment memo provided to DoD Component
- Support team named
- In-Brief session
- Determine scope of investigation
- Consult legal counsel
- Review the results of Preliminary Review
- Familiarize team with legal basis for potential violation
- Consult governing statutes, and regulations
- Meet with staff requesting or reporting investigation
- Compile list of witnesses and questions
- Make travel arrangements

Phase II
- Examine for physical evidence
  - Assemble and analyze evidence
  - Trace and document transactions and funding documents
- Determine roles and responsibilities of participants and decision-makers at each echelon
  - Develop chronology of events
  - Consult subject-matter-experts, have them prepare written opinions, as required
  - Interview witnesses
  - Determine specific acts or decisions leading to violation
  - Assign responsibility for making/authorizing violation
- Make initial assessment of whether anyone appears to have intentionally violated the ADA with knowing and willful intent. If so:
  - Halt investigation and notify appointing official
  - Consult with legal advisor
- Prepare initial draft of findings

Phase III
- Notify proposed responsible officials
  - Allow two weeks for submission of rebuttal statements
  - Document delivery of report via email tracking or certified mail
  - A reasonable effort must be made to locate former officials or employees
  - Provide draft report
- Analyze rebuttals to determine if they necessitate new interviews and follow up on new leads, if required
  - Incorporate salient points from rebuttals in revised report
Figure 3-1. Checklist for Formal Investigations (cont.)

✓ Insert assessment on the impact of the rebuttal statements, if any, on conclusions
✓ Enclose verbatim rebuttals as enclosure to report

Phase IV
- Engage activities involved to develop corrective actions to reduce risk of similar violations recurring
  ✓ Document corrective actions that have already been put in place
  ✓ Quantify enhanced controls being implemented
  ✓ Obtain listing of planned corrective actions and milestones
- Incorporate lessons learned and corrective actions in report
- Finalize Formal Report
- Obtain legal review

Phase V
- Appointing official verifies the following information before endorsement and release:
  ✓ Is a copy of the investigating officer’s appointment memorandum included in the report?
  ✓ Does the report include the case control number, title of the appropriation/fund involved, Treasury symbol, amount, date of occurrence, date discovered, and a description of how the potential violation was identified, the name and title of the investigating officer, the dates, place and scope of the investigation?
  ✓ Is the evidence clearly documented in the report and is the evidence relevant to the case?
  ✓ Does the evidence appear to be complete or are significant factors missing that should be considered? Do there appear to be relevant unanswered questions?
  ✓ Are the findings clearly stated, logical, supported by the evidence, and relevant to the case?
  ✓ Is each finding that is based upon testimony properly cross-referenced to the testimony?
  ✓ Are the findings and conclusions fully substantiated by the evidence and testimony?
  ✓ Were all conflicts in testimony addressed in the report?
  ✓ Does the report include a clear description of the causes and circumstances surrounding the violation?
- Transmit report to DoD Component

Final Phase
- DoD Component reviews report
- DoD Component summary report initiated
- Coordination with counsel
- DCFO review of report
- Advance Decision
- Complete Investigation – Insert discipline imposed into the report.
- Notification letters to external authorities
- Closure
MEMORANDUM FOR (DoD Component)

SUBJECT: Alleged Antideficiency Act Violation (Location and Subject Matter)

2. In accordance with reference above, Initial report of an alleged Antideficiency Act Violation (ADA) follows:

   a. Accounting classification of funds allegedly misused:
   b. Name and location of the activity where the alleged violation occurred:
   c. Name and location of the activity issuing the fund authorization:
   d. Amount of fund authorization or limitation that was allegedly exceeded:
   e. Amount and nature of the alleged violation:
   f. Date the alleged violation occurred:
   g. Date of Discovery:
   h. Means of Discovery:
   i. Description:

Signature Block of
Activity/commanding Officer or
Head of Activity
Investigating Officer Appointment

MEMORANDUM FOR (Investigating Officer’s Name)

SUBJECT: Appointment as Investigating Officer, Case Number.

1. References:
   b. Cite Initial Report.

2. You are hereby appointed as investigating officer to conduct a preliminary review/formal investigation of a potential Antideficiency Act (ADA) Violation which allegedly occurred at (location or activity) in Fiscal Year xx.

3. I certify you have received qualifying fiscal law training within the previous three years and are qualified to perform this investigation. You are free of any known conflicts-of-interest and able to perform an independent review. You will be assisted by (names of legal advisor and support team subject matter experts).

4. A report detailing the results of your preliminary review/formal investigation will be submitted no later than (suspense date). Your report must include the facts surrounding the alleged violations and include a legal review, which supports the conclusion an ADA violation did or did not occur.

5. Provide any additional instructions to the investigating officer.

6. The point of contact for this report is xxx, who can be reached at (phone), or (email)

Signature Block of Appointing Official
Figure 3-4. Template for Preliminary Review

Preliminary Review

DEPARTMENT OF THE XXX
REPORT OF ANTIDEFICIENCY ACT VIOLATION
Name of Component/Agency and Case No.

1. Appropriations(s) Involved/Title, Symbol, and Apportionment Status. Example: Fiscal Year (FY) Operation and Maintenance, Defense-wide (9710100)

2. Where Violation Occurred.

3. Name and Location of Activity Issuing the Fund Authorization.

4. Amount of Violation.

5. Date Violation Occurred.

6. Type of Violation(s). Provide 31, U.S.C., section violated and brief description of violation and state whether the violation was an over-obligation of an appropriation, an apportionment, or an allotment. Example: 1341(a)(1)(A), exceeded amount available in appropriation or fund.

7. Effect of Violation on the Next Higher Level of Funding. State whether the violation had an effect on the next higher level of funding.

8. Date and Description of How Violation Was Discovered. Provide date and who/how violation was discovered.

9. Causes and Circumstances Surrounding the Violation. Provide a detailed description of the violation. Include the following:
   a. A detailed summary of what actually caused the violation and the associated circumstances; what actions should have been, but were not, taken by specific individuals; what actions were taken that should not have been taken; and why the violation happened.
   b. The scope of the investigation and the methods used to accomplish the investigation, for example, face-to-face interviews; research of legal, financial, and management issues; and written explanation of the facts of the potential violation. Discuss the evolution of the issues investigated, number of people interviewed, mitigating circumstances surrounding the violation, issues that could or could not be proven during the investigation and the supporting rationale, any issues that cannot be agreed upon by those individuals involved, and any other comments that are pertinent to the investigation.
Figure 3-4. Template for Preliminary Review (cont.)

c. If the investigation has been undertaken because of an audit report, then identify that report by title, number, date, and issuing audit organization. If the investigation was conducted as a result of a memorandum or letter directing an investigation, then reference that document and attach a copy to the report.

10. Conclusion. Summarize your finding in a paragraph to support your conclusion that a violation has occurred or that a violation did not occur.

11. Additional Information. Provide details not covered above.
Figure 3-5. Template for Formal Report

**DOD COMPONENT OR AGENCY**

**REPORT OF ANTIDEFICIENCY ACT VIOLATION INVESTIGATION**

Name of Component/Agency and Case No.

1. Appropriation(s) Allegedly Exceeded.

   Treasury Symbol or Fund Account, and Apportionment Status. Example: Fiscal Year (FY) Operation and Maintenance, Defense-wide (97 20102010 0100)

2. Where Violation(s) Occurred.

3. Name and Location of Activity Issuing the Fund Authorization.

4. Amount of Violation.

   Provide total and breakdown, if applicable.

5. Date Violation(s) Occurred.

6. Type of Violation(s).

   Provide the section(s) of title 31, U.S.C. that was violated. For example, 31, U.S.C. §§ 1341(a)(1)(A), 1342 or 1517(a)(2).

7. Effect of Violation(s) on the Next Higher Level of Funding.

   State whether the violation(s) had an effect on the next higher level of funding.

   a. Exceeding an administrative subdivision at the local level can lead to the next higher level exceeding its subdivision of funds and to the DoD Component's apportionment and appropriation being exceeded.

   b. For instance, if an installation exceeded an amount in an operating budget authority or an allotment, did this cause the higher activity/command operating budget authority or allocation to also be exceeded? If the higher activity/command operating budget authority or allocation is exceeded, also state why the DoD/Component apportionment or appropriation was also exceeded.

8. Name and Position of Responsible Individual(s).

   a. If a violation(s) involves a centrally managed allotment, then the head of the operating agency at the time the violation was incurred must be named responsible.

   b. Include position description of the proposed responsible official as backup to the report.
Figure 3-5.  Template for Formal Report (cont.)

9.  Signed Statement(s) of Responsible Individual(s).

State whether a statement(s) was received from the individual(s). If so, enclose the verbatim statement. The ADA report must summarize salient points of the proposed responsible official’s statements and an evaluation of their relevance by the investigating officer. Introduction of new witnesses and new evidence in the rebuttal statements should be addressed. Each individual named responsible for the violation(s) must be given the opportunity to state any circumstances believed to be extenuating. If the proposed responsible official could not be located or refused to provide a statement, the report should detail measures taken to contact them and solicit a response. The individual(s) found responsible for the alleged violation must be:

a.  Allowed to consult with legal counsel.

b.  Advised that a violation(s) has been determined to have occurred, and that he or she is named a responsible individual for the violation(s) and must be allowed to review the report and examine evidence on which the determination was based.

c.  Allowed to submit a sworn or unsworn statement regarding the alleged violation(s) after reviewing the report and evidence.

d.  The report must include an evaluation of any facts or circumstances and the effects on the report when the statement of the responsible officer(s) or individual(s) differs from the report itself. If the statement has no effect on the report, state the reason(s) why. Material changes in findings as they relate to the role of the proposed responsible official must be staffed with the proposed responsible official a final time.

10. Date(s) and Description of How Violation(s) Was Discovered.

Provide date(s) and who/how violation(s) was discovered.

11. Causes and Circumstances Surrounding the Violation(s).

Provide a detailed description of the violation(s). Include the following:

a.  A brief, clear description of the causes and circumstances surrounding the violation(s); what actually caused the violation(s) and the associated circumstances; what actions should have been, but were not, taken by specific individual(s); what actions were taken that should not have been taken, but were; and why the violation(s) happened. The description must state clearly, what the individual(s) responsible for the violation(s) did, or failed to do, that caused the violation(s). State whether the violation(s) was due to careless disregard of instructions; an error; a lack of adequate training, procedures, or controls; or due to other reasons. The report should not be so brief that it does not convey clearly the essential facts and circumstances of what happened.
Figure 3-5. Template for Formal Report (cont.)

Clearly state in sufficient detail what happened. If the violation(s) involved an appropriation with a negative balance, then state whether the cause of the negative balance was systemic or a unique situation.

b. The scope of the investigation and the methods used to accomplish the investigation, for example, face-to-face interviews; research of legal, financial, and management issues; and written explanation of the facts of the potential violation. Discuss the evolution of the issues investigated, number of people interviewed, mitigating circumstances surrounding the violation(s), issues that could or could not be proven during the investigation and the supporting rationale, any issues that cannot be agreed upon by those individuals involved, and any other comments that are pertinent to the investigation.

c. Results of interviews of individuals involved in the violation(s) and a summary of how the area(s) procedures and processes operated that were involved in the investigation. Discuss the issues and the areas or functions that were reviewed, evaluated, and investigated; the names, ranks, and titles of the individuals that were interviewed; and a discussion on any related areas and matters that were not investigated and the rationale for omitting them from the investigation.

d. If the investigation has been undertaken because of an audit report, then identify that report by title, number, date, and issuing audit organization. If the investigation was conducted as a result of a memorandum or letter directing an investigation, then reference that document and attach a copy to the report. To ensure all essential items are discussed, use the results of the checklist Figure 3-1.

12. Evidence of Willful Intent to Violate.

State whether the ADA was knowingly and willfully violated. If the violation was willfully committed, was the case referred to appropriate criminal investigators? If criminal investigators or Department of Justice declined to pursue the case, clearly state the outcome.

13. Disciplinary Action Taken.

This section is not used by the investigating officer and should have a statement that discipline will be implemented only after DCFO review.

The DoD Component will complete this section only after discipline is implemented and documented.

14. Corrective Action Taken.

State what procedural actions were taken and completed to preclude violations from happening in the future. This must include a description of specific action(s) taken to correct the violation.
State what funds were used to make necessary accounting corrections, such as appropriation, title, and fiscal year. Include any procedural changes or new safeguards established to prevent recurrence of the same type of violation. Describe actions in detail so that adequacy of the corrective action(s) may be evaluated. This includes improvement of overall and specific policies, procedures, and processes used by the functional areas involved in the violation; revised statutes or regulatory guidance that may have been involved; established or improved internal procedures; and assurance that a similar violation will not occur in the future. Reference documentation of corrective actions in an enclosure.

15. Administrative Control of Funds.

Name and position of the holder of the funds and an evaluation of whether their exercise of fund control responsibilities contributed to the violation.

16. Component or Agency Coordination.

State steps taken to coordinate the report with the other components or agencies involved (if applicable).

17. Additional Information.

If applicable.
MEMORANDUM FOR DoD Component

SUBJECT: Disciplinary Action imposed on Mr./Ms.__________________, Antideficiency Act Violation Case XX-XX

1. An ADA violation occurred when Mr./Ms.__________________, while assigned to (activity or installation) issued/authorized ________________. This resulted in an uncorrectable violation of the Antideficiency Act.

2. I understand that (a) an Antideficiency Act violation is a violation of Federal statute; (b) Antideficiency Act violations constitute a misuse of DoD funds even though the misuse may not have been knowing or willful, and despite whether the disciplinary officer considers the misuse harmful to DoD, the Military Department or Service, or to the Defense Agency; (c) the Department is required to report the violation to the President (via the Director, Office of Management and Budget), the U.S. Congress, and to the Government Accountability Office; (d) an unwillful or unintentional violation does not justify a decision to not administer disciplinary action; and (e) disciplinary action must be commensurate with the severity of the violation, and factors leading to the violation or its resolution may be considered.

3. As identified in the formal investigation, Mr./Ms.__________________ is an individual primarily responsible for this violation. Mr./Ms.__________________ caused an uncorrectable violation of the ADA when he/she (state specific actions). As the officer charged with imposing discipline in this case, I issued (state actions) to Mr./Ms.___________________. While I considered _____, I have determined that _______________ is appropriate for the following reasons: ________________. No further discipline against Mr./Ms.__________________ will be taken.

4. My point of contact for this action is xxx who can be reached at (xxx) xxx-xxxx, email: xxx.

Signed
Disciplinary Officer

CHAPTER 1

GENERAL INFORMATION

0101 GENERAL

010101. Overview

* A. Security Cooperation (SC). SC, which includes Department of Defense (DoD)-administered Security Assistance (SA) programs and international armaments cooperation, will be undertaken to achieve specific ends in support of defense and national security strategy, rather than serving as an end unto itself. SC will be used to develop allied and partner defense and security capabilities and capacity for self-defense and multinational operations, provide the U.S. forces with peacetime and contingency access to host nations, build defense relationships that promote specific U.S. security interests, and take other actions in support of U.S. objectives. Abbreviations and acronyms commonly used in SC policies can be found in the Defense Security Cooperation Agency (DSCA) 5105.38-M, “Security Assistance Management Manual” (SAMM), “ESAMM Acronyms,” and in Appendix 7, “Case Reconciliation and Closure Guide” (RCG). Commonly used definitions can be found in the SAMM, “ESAMM Glossary,” and in Appendix 7, RCG, “RCG Definitions.” See DoD Directive 5132.03, “DoD Policy and Responsibilities Relating to Security Cooperation,” for more detailed information.

* B. SA. SA refers to a group of programs authorized by Title 22, U.S. Code (U.S.C.), “Foreign Relations and Intercourse,” or other legal authorities under which the United States provides defense articles, military training, and other defense-related services by grant, loan, credit, cash sales, or lease, in furtherance of national policies and objectives. DoD does not administer all SA programs. Those SA programs administered by DoD are a subset of SC. The SAMM provides guidance on the major programs DoD administers:

1. Foreign Military Sales (FMS),
2. Foreign Military Construction Services,
3. Foreign Military Financing,
4. Leases,
5. Military Assistance,
6. International Military Education and Training (IMET),
7. Drawdowns, and
C. Building Partner Capacity (BPC) Programs. BPC programs refer to SC and SA activities funded with U.S. Government (USG) appropriations and administered as cases within the FMS infrastructure. When executing BPC programs, DoD may enter into agreements for provision of defense articles and/or services to other USG departments and agencies under the authority of the Economy Act or other transfer authority for the purpose of:

1. Building the capacity of partner nation security forces and enhancing their capability to conduct counterterrorism operations, counter-weapons of mass destruction operations, counter-illicit drug trafficking operations, counter-transnational organized crime operations, maritime and border security operations, military intelligence operations, and operations or activities that contribute to an international coalition operation that is determined by the Secretary to be in the national interest of the United States per 10 U.S.C. § 333, “Foreign security forces: authority to build capacity;” or

010102. Purpose

The purpose of this chapter is to provide DoD accounting policy for SC transactions to ensure compliance with all requirements for the administrative control of SC programs. SC transactions must follow DoD accounting policy in Volume 15, unless specifically exempt. Proposed changes must be submitted to the Defense Finance and Accounting Service (DFAS) Accounting Policy office as soon as practical for consideration. However, DoD Components must submit proposed changes through the DSCA Directorate of Business Operations. All proposed chapter updates will be submitted to the appropriate approving authority, and if approved, will be incorporated into the DoD Financial Management Regulation as soon as possible.

010103. Authoritative Guidance

0102 TREASURY ACCOUNTS

The Foreign Affairs/Foreign Relations Committees of the Congress (rather than the Armed Services Committees) authorize SA funds. The Executive Branch, Office of the President, identified by Treasury Index (TI) 11, receives SA funds. Funds and accounts authorized by Acts originating in the Armed Services Committees of the Congress and appropriated to DoD are identified by: TI 97, “Defense Department;” TI 17, “Navy;” TI 21, “Army;” and TI 57, “Air Force.”
010201. Treasury Accounts Applicable to FMS Trust Fund Operations

Treasury account 11X8242, “Advances, FMS, Funds Appropriated to the President,” is the account for the FMS Trust Fund and is used for centrally recording contract authority and collections. Under Section 3 of Executive Order No. 13637, “Administration of Reformed Export Controls,” dated March 2013, responsibility for the execution (e.g. obligations and disbursements) of the FMS Trust Fund passed from the Executive Branch, Office of the President, identified by TI 11, to the DoD, identified by TI 97. The complete fund cite 97 11X8242 is required for execution of consolidated financial statements and reports within DoD, but only 11X8242 is reported to the Bureau of Fiscal Service (Fiscal Service) and the Office of Management and Budget. Fiscal Service has established trust fund receipt and expenditure accounts to account for cash collections, budget authority (BA), and cash disbursements resulting from the FMS Program.

A. Cash Receipts. Cash collected from sales authorized under 22 U.S.C. §§ 2761, 2762, 2769, and 2796 is deposited into account 97 11 8242.001, “Deposits, Advances, Foreign Military Sales, Executive.” The DFAS Security Cooperation Accounting Office processes cash collections into this account, including cash transfers from appropriations provided by the USG to finance credit sales under 22 U.S.C. § 2763 and the proceeds from guaranteed commercial loans under 22 U.S.C. § 2764. Collections must reflect account 11 8242.001 on DoD reports issued to the Fiscal Service and be listed under “Proprietary Receipts From the Public” in the Fiscal Service system.

B. BA. The BA resulting from FMS or BPC orders is recognized in account 97 11X8242. BA is recognized only to the extent it is estimated that orders will be executed within a fiscal year (FY). The portion of the order that cannot be executed is classified as an uncommitted acceptance.

C. Cash Expenditures. Cash disbursements are made from account 97 11X8242 to contractors when direct cite procedures are used; they are made to DoD Components for services, items from inventory, and procurements financed by DoD appropriations/fund accounts.

* E. SDAF

1. The SDAF established under the authority of 10 U.S.C. § 114 is a DoD-controlled revolving fund used to acquire defense articles and services in anticipation of their sale to eligible foreign countries and international organizations. Pursuant to 10 U.S.C. § 114(c)(1), the SDAF may not exceed $2.5 billion. In accordance with 22 U.S.C. 2795(e), the size of the fund includes funds acquired through reimbursements when existing SDAF inventory is sold, or through FMS sales, also known as offsetting collections.
2. Offsetting collections identified in 22 U.S.C. § 2795(b) that were previously collected into the Miscellaneous Receipt account are now collected and deposited into the SDAF account, 97 11X4116, “Special Defense Acquisition Fund, Funds Appropriated to the President” by DFAS. Offsetting collections consist of asset use charges; items not requiring replacement; and charges for the proportionate recoupment of nonrecurring research, development, and production costs, excluding charges for FMS leases authorized under 22 U.S.C. § 2796. Offsetting collections will reside in the parent 97 11X4116 account for future SDAF procurements; however, the offsetting collections will first be posted as outlined in subparagraphs 010201.E.2.a-c (for additional information on the proper handling of SDAF offsetting collections, see Table 1-1):

   a. DSCA, Non-Recurring Charges Recoupments, 97 11X4116.6807;

   b. DSCA, Items Not To Be Replaced Recoupments, 97 11X4116.6808; or

   c. DSCA, Asset Use Charge Recoupments, 97 11X4116.6809.

3. Cash receipts for the anticipated collections, reimbursements, and other income related to the SDAF are collected into Treasury account, “Special Defense Acquisition Fund, Funds Appropriated to the President” 11X4116. DFAS Security Cooperation Accounting processes cash collections into account 11X4116, including cash transfers of reimbursements made under the proceeds from the sale or transfer of SDAF procured articles and services.

4. BA from approved SDAF procurements is recognized in account 97 11 FY/FY 4116. BA exists only for orders that will be executed, i.e. funds obligated before September 30 of the FY when the funds period of availability expires. The portion of the approved SDAF procurements that cannot be obligated must be returned to the Treasury account 11X4116.

5. Cash disbursements are made from account 97 11 FY/FY 4116 to contractors when direct cite is used and for DSCA approved procurements financed by the SDAF. Expenditures must be consistent with the funding years in which the original funding on the Funding Authorizing Document was provided.

6. For more information on SDAF, see Chapter 3, Table 3-1, “Cost Elements;” and the SAMM, Chapter 11.9, “Special Defense Acquisition Fund (SDAF).”

010202. Treasury Accounts Applicable to Credit Sales, Guaranties, and IMET

   A. Receipt and Utilization of Appropriations. The accounts described in subparagraphs 010202.A.1-6 are used to capture the receipt of SA appropriations.

   1. Account 11X4121, “Foreign Military Loan Liquidating Account, Funds Appropriated to the President (FMLLA),” is used to record the receipt and use of

2. Account 11 (FY) 1085, “Foreign Military Financing, Direct Loan Program Account, Funds Appropriated to the President,” is used to record the appropriation that subsidizes the estimated long-term cost to the USG of post-FY 1991 foreign military direct loan obligations.

3. Account 11X4122, “Foreign Military Financing, Direct Loan Financing Account, Funds Appropriated to the President,” is used to receive the payments for the subsidy cost from the program account, 11 (FY) 1085, and includes all other cash flows to and from the USG resulting from post-FY 1991 foreign military direct loans. This appropriation is for new loans with original disbursement dates on or after October 1, 1991.

4. Account 11X4174, “Military Debt Reduction Financing Account,” is used to record the rescheduling of loans and to collect loan payments on those loans rescheduled from 11X4121. These loans have pre-FY 1992 original disbursement dates.

5. Account 11 (FY) 1082, “Foreign Military Financing Program, Funds Appropriated to the President,” is used to record the receipt and use of appropriated funds to finance U.S. defense sales to selected foreign friends and allies, primarily through the FMS program. Based on annual appropriations bill language, the funds are considered obligated upon apportionment, are available for expenditure for 5 years, and must remain available for an additional 4 years from the date on which the availability of such funds would otherwise have expired. These funds, transferred to the FMS Trust Fund, are expenditure transfers. BA is transferred from this account to DoD Components to fund administrative expenses of FAA programs (e.g., IMET and End-Use Monitoring).

6. Account 11 (FY) 1081, “International Military Education and Training, Funds Appropriated to the President,” is used to record the receipt and use of appropriated funds for the training of selected foreign military and related civilian personnel in the United States and, in some cases, in overseas U.S. Military facilities.

B. Cash Collections. The accounts described in subparagraphs 010202.B.1-3 are used to capture collections made from foreign countries because of loans and loan guaranties.

1. Account 11X4121 is used to collect foreign country repayments for outstanding pre-FY 1992 loan obligations. This account is also used to collect loan repayments to DSCA for default payments made by DSCA to the Federal Financing Bank or commercial banks holding pre-FY 1992 loans guaranteed by DSCA.

2. Account 11X4122 is used for collections of foreign country repayments for post-FY 1991 direct loan obligations. This appropriation is used for loans with original disbursement dates on or after October 1, 1991.
3. Account 11X4174 is used to reschedule loans from 11X4121. This account is also used to collect the payments from outstanding loans that have been rescheduled.

*010203. Other Treasury Accounts

Other Treasury accounts used in SC include those for BPC cases, Humanitarian Assistance, Mine Action Programs, and the SDAF. For more information on these programs, see the SAMM, Chapter 11, “Special Programs and Services;” SAMM, Chapter 12, “Overseas Humanitarian, Disaster, and Civic Aid (OUDACA);” SAMM, Chapter 15, “Building Partner Capacity Programs;” and SAMM Table C15.T2, “BPC Programs and Authorities.” The Treasury accounts include, but are not limited to:

A. 11 (FY) 1032, “Peacekeeping Operations, Funds Appropriated to the President;”
B. 11X1032, “Peacekeeping Operations, Funds Appropriated to the President;”
D. 21 (FY) 2091, “Afghanistan Security Forces Fund, Army;”
E. 21 (FY) 2097, “Iraq Training and Equip Fund, Army;”
F. 21X2097, “Iraq Training and Equip Fund, Army;”
G. 21 (FY) 2099, “Counter - ISIS Train and Equip Fund, Army;”
H. 21X2099, “Counter - ISIS Train and Equip Fund, Army;”
K. 97 (FY) 0819, “Overseas Humanitarian, Disaster, and Civic Aid Defense;”
and
L. 97X0819, “Overseas Humanitarian, Disaster, and Civic Aid, Defense;”

0103 TYPES OF FINANCING

There are two types of financing associated with the FMS Trust Fund, reimbursable and direct cite. The detailed budgeting and accounting policy for each type is discussed throughout the remainder of Volume 15.
*010301. Reimbursable Financing

Sales under 22 U.S.C. §§ 2761 and 2762, for which the President has determined are in the National interest to defer payment (bill for defense articles and services on or after delivery), must be accomplished using reimbursable financing. When deferred payment is authorized under 22 U.S.C. § 2761 for 120 days, and for all authorized deferred payments for 22 U.S.C. § 2762 sales, an appropriation is required to finance any outlays until the purchaser makes payment. The appropriation cited must have reimbursable authority.

010302. Direct Cite Financing

New procurements initiated because of FMS orders under 22 U.S.C. §§ 2762 and 2769 (except as exempted in paragraph 010301) must be accomplished, to the maximum extent feasible and appropriate, through direct citation of the FMS Trust Fund (97 11X8242) on applicable contractual documents.

010303. Accounting Classification Codes of the FMS Trust Fund

The agency code signifies the agency name executing FMS Trust Funds within the FMS accounting system. The accounting classification codes of the FMS Trust Fund for cases executed within the FMS infrastructure are depicted in Table 1-2.

CHAPTER 2

FINANCE

0201 GENERAL

020101. Purpose

The purpose of this chapter is to provide guidance on Foreign Military Sales (FMS) Trust Fund budget authority (BA), to include FMS Trust Fund obligational authority (OA) for implemented cases, the FMS administrative surcharge budget, and contract administration services (CAS) surcharge budget.

020102. Authoritative Guidance

The Arms Export Control Act (AECA), Public Law 90-629, as amended, codified as Title 22, United States Code (U.S.C.), Chapter 39, provides the authority and general rules for FMS and commercial sales of defense articles, services, and training. Additional specific authorities are in the applicable sections.

0202 RESPONSIBILITIES

020201. Defense Security Cooperation Agency (DSCA)

A. DSCA must prepare annual budget requests for the FMS Trust Fund obligational and outlay authority to support the FMS Trust Fund program. DSCA reviews, approves, and distributes budgets for the FMS administrative surcharge, Security Cooperation Organizations, and the FMS CAS surcharge accounts.

B. DSCA is responsible for establishing the annual Safety Level amount to be maintained in the FMS Trust Fund Administrative Surcharge account. The Safety Level amount will represent 18 months of operational funding based on current budget levels. DSCA will establish the Safety Level before the close of the fiscal year (FY) and forward the information to the Defense Finance and Accounting Service, Security Cooperation Accounting Directorate (DFAS SCA).

1. The 18-month Safety Level is calculated using the amount that may be obligated for expenses pursuant to AECA § 21(e)(1)(A) (22 U.S.C. § 2761(e)(1)(A)), noted in the “Foreign Military Financing Program” section of the Annual State and Foreign Operations Appropriation Act for the upcoming fiscal year. The monthly operating amount is calculated by dividing the amount by 12, and then multiplying that amount by 18. For detailed information on the calculation, refer to the DSCA Manual 5105.38-M, “Security Assistance Management Manual” (SAMM), C9.15.

2. Any changes requiring adjustment of the Safety Level computation methodology will be forwarded to the Office of the Under Secretary of Defense (Comptroller)
(OUSD(C)) for review and approval. See Chapter 3, paragraph 030408.F. for more information on surcharge accounts.

020202. Implementing Agency (IA) and Performing Agency

A. Each implementing and performing agency that prepares data for Letters of Offer and Acceptance (LOAs) must ensure that:

1. *Department of Defense (DD) Form 2060*, FMS Obligational Authority, (or automated equivalent) is created to initiate performance of the case and support Component budget estimates, and

2. Sufficient anticipated appropriation or fund reimbursable authority is included in the DoD budget.

B. IAs are responsible for fulfilling FMS Trust Fund orders using these financing techniques:

1. Issuance and acceptance of reimbursable orders into a financing appropriation or Defense Working Capital Fund (DWCF) account,

2. Issuance of allotments of the FMS Trust Fund to performing DoD Components, or

3. Authorization to use the FMS Trust Fund (11X8242, “Advances, Foreign Military Sales, Funds Appropriated to the President”) directly.

C. IAs must submit FMS administrative and CAS budget requests annually.

020203. DFAS SCA

DFAS SCA must:

A. Establish OA not to exceed the cumulative value of the accepted LOA documents (Basic, Amendments, and Modifications);

B. Record OA resulting from the accepted LOA documents (Basic, Amendments, and Modifications) in the FMS Trust Fund case management system by case identifier; and

C. Obtain cash advances from FMS Trust Fund purchasers to liquidate obligations resulting from the use of OA created by the FMS Trust Fund program.
0203 BA

020301. General

A. The DoD BA is the United States’ legal financial authority, provided by law, that empowers government agencies to spend federal funds. This is what allows DoD to enter into obligations that will result in immediate or future outlays from Federal Government accounts. For Security Cooperation, exercising BA begins with the implementation of the applicable LOA document. Prior to exercising the BA, the IA must prepare and process five forms (or automated equivalents) as applicable:

1. LOA(s),
2. LOA Modifications,
3. LOA Amendments,
4. DD 2060, and
5. DD 2061, FMS Planning Directive.

B. The implementation of the LOA will occur only after the purchaser has forwarded a signed copy to the IA with any required initial deposit. Once implemented, IAs will ensure that OA is properly recorded in their accounting system of record. This authority must take place prior to a government agency or department spending money from the budget.

C. BA requests must be limited to:

1. The total case value for approved LOAs, Amendments, and processed Modifications; or
2. The amount expected to be obligated in the current FY.

D. At the end of each FY, DFAS reduces unused BA or OA. Following the year-end accounting closing entries, reversal entries restore BA values for the new FY.

E. BA for FMS case lines, with the exception of contingency, Small Case Management Lines, is distributed to IAs. BA for the below-the-line surcharges (FMS administrative surcharge and packing, crating, handling, and transportation (PCH&T)) are not distributed to IAs.

020302. Source Documents

A. LOA. The LOA is the basic source document for an FMS case. The LOA does not in itself create BA in either the FMS Trust Fund or in a DoD appropriation or fund
account; however, it is required for establishing BA. See Figure 2-1 for a sample LOA; instructions for preparing LOAs are contained in SAMM, C5.4.

B. Amendment to an LOA. An Amendment is designed to obtain FMS Trust Fund purchaser acceptance of a change in LOA scope when the original purpose of a case line or note changes. Amendments are used to alter the original LOA and provide the basis to change FMS Trust Fund BA, when applicable. See Figure 2-2 for a sample Amendment; instructions for preparing an Amendment are in SAMM, C6.7.

C. Modification to an LOA. A Modification is a notification document to alert FMS Trust Fund purchasers of within-scope cost increases, cost decreases, or other minor changes to the program. Modifications are used to alter the original LOA and provide the basis to change FMS Trust Fund BA, when applicable. See Figure 2-3 for a sample Modification; instructions for preparing a Modification are in SAMM, section C6.7.

D. FMS Planning Directive (DD 2061). The installation preparing the LOA data for the IA prepares and maintains a Planning Directive. See Figure 2-4 for a sample DD 2061; instructions for completing the DD 2061 are in Table 2-1. The DD 2061 is a working paper that serves three major purposes:

1. It provides identification of the cost elements included in prices reflected on the LOA and helps assure the case is priced in accordance with DoD pricing policies in Chapter 7;

2. It provides a time-phased plan for execution of the case upon FMS purchaser acceptance and implementation; and

3. It identifies the appropriations or funds that will be used to finance new procurement, or realize earned reimbursements, through delivery of items from inventory or from DoD in-house services.

E. OA Request. An OA Request is prepared based on the Planning Directive.

1. Part A is prepared at the FMS case-line level and is the basis for line-level control of OA. Part B identifies the appropriations or funds that have been or will be used to finance the lines reflected in Part A.

2. The OA Request may be prepared for an individual case or for multiple cases.

3. The OA Request is also used to convey the FMS CAS surcharge OA (see section 0205).

4. See Figure 2-5 for a sample DD 2060; instructions for completing the form are in Table 2-2.
020303. Recognition of OA by the FMS Trust Fund

A. Establishment of FMS Trust Fund OA. To establish OA, FMS Trust Fund purchasers must return all accepted LOAs, Amendments, and processed Modifications to the IA. IAs will create and submit an automated OA request through the Defense Integrated Financial System (DIFS). Upon successful processing in DIFS, the IA will receive an automated acknowledgement of receipt and approval of the OA request.

B. Trust Fund Direct Citation. The OA Request must be used to request commitment/OA for direct citation of the FMS Trust Fund. The OA Request is used as a control device, and commitments/obligations must be limited to the dollar value of the approved OA Request.

020304. Recognition of FMS Reimbursable OA in DoD Appropriation or Fund Accounts

A. Trust Fund Orders for Reimbursable Orders

1. The LOA, Amendment, or Modification does not represent a reimbursable order to the performing DoD Components. The approved OA Request is the reimbursable order. The OA Request includes the reimbursable portion of the order that may be credited to appropriations by a DoD Component for each line within a case for a FY. The OA amount for each line within a case cannot be exceeded. Reporting violations of this administrative limitation will follow the guidance in Chapter 3 and Volume 14.

2. The applicable DoD appropriation or fund accounting system must maintain an audit trail between the applicable OA Request and the appropriation or fund accounting records. Performance within the financing appropriation or fund account will be controlled in accordance with the accounting system established for that particular appropriation or fund account. Appropriation or DWCF bills for earned reimbursements must be processed in accordance with Volumes 11A and 11B.

3. The FMS case management system is not intended to track the financial status, or obligation, while reimbursable performance is in process. The status of specific purchaser requisitions can be obtained through logistical system inquiries. Applicable logistics status reports are provided to case managers and FMS purchasers, and are not to be confused with financial status reports.

4. Those DoD Components that are not IAs, but support the FMS program in response to IA work requests, must carefully review applicable work requests to determine the financing source. If the financing source is an IA appropriation account, the request must be recorded and processed as an internal DoD order. If the recipient is a sub-allotment holder, the required allotment status report must be provided to the allotment holder and consolidated into the DoD Status-of-Allotment report to DFAS, as discussed in Chapter 3.
B. Apportionment for Reimbursable Orders

1. When authority to accept reimbursable orders is subject to apportionment, obligations on a reimbursable program may not exceed the apportioned amounts of anticipated reimbursement. Reimbursable OA may be recognized up to the apportioned amount to the extent the FMS Trust Fund purchaser has advanced necessary cash under subparagraph 020303.A, or has orders charged to appropriated funds. Reimbursable orders in excess of apportionment are not available for obligation; an additional apportionment of anticipated reimbursable orders needs to be requested and received through the reapportionment process.

2. Apportionments and reapportionments for reimbursable programs must be requested by appropriation account and FY. An appropriation that is available for obligation for more than one year requires an apportionment for anticipated reimbursable orders in the first year of availability. That apportionment must be reduced to the value of orders actually received in the first year. In the subsequent years of availability, a reapportionment for anticipated reimbursable orders is required to accept the purchaser’s orders that fund within-scope price increases. The reapportionment request for anticipated reimbursable orders in the final year of availability is especially critical because any unused amounts in the reapportionment are automatically available for acceptance of additional reimbursable orders necessary to fund within-scope price increases after the appropriation has lapsed.

3. Receipt of an apportionment, or reapportionment for anticipated reimbursable orders, does not constitute authority to incur obligations. The actual purchaser’s orders must be received and recorded in appropriation accounting records before applicable BA may be used.

020305. Contract Authority

A. Contract authority is the statutory authority to incur obligations with liquidation of obligations dependent on a future act, such as receipt of an appropriation. Implemented FMS documents, along with the OA Request, create contract authority. New contract authority reported in the Standard Form 133, Report on Budget Execution and Budgetary Resources, is the value of FMS cases accepted for performance during the current FY for which OA has been approved in accordance with the requirements of paragraph 020303.

B. Funds appropriated by Congress for defense purposes cannot be used to liquidate obligations resulting from the use of FMS contract authority, unless specifically allowed in appropriation acts or supplemental funding bills. FMS purchaser cash deposits liquidate these obligations and unfunded contract authority. Below departmental level, contract authority loses its unfunded identity and is treated in the same way as other budgetary resources available for obligation. See 22 U.S.C. § 2762 for more information on procurement for cash sales.

C. Procurements for FMS purchasers are accomplished by citing the FMS Trust Fund in applicable documents. Amounts in the FMS Trust Fund are, in a technical sense, appropriated funds, even though they are not annually appropriated by Congress, and are not
subject to direct Congressional control. Accordingly, accounting for commitments, obligations, and accrued expenditures in the FMS Trust Fund is accomplished as a direct fund cite.

020306. BA for FMS Administrative Expenses

The cumulative BA available in the current FY is composed of actual collections for FMS administrative expenses (including the FMS administrative charges and logistics support charges), less any prior allotments of such amounts and the amount to be reserved for future administrative expenses (i.e., the Safety Level). In no event should the annual allotment be higher than the limitation imposed in the annual Department of State, Foreign Operations, and Related Programs Appropriations Acts, unless otherwise approved through the process required by law.

020307. BA for Cooperative Logistics Supply Support Arrangements (CLSSAs)

Proper recognition and phasing of BA resulting from LOAs written to implement CLSSAs create unique challenges (DoD Instruction (DoDI) 2000.20, “Cooperative Logistics Supply Support Arrangements”). Under these arrangements, the purchaser provides for the purchase and sustainment of spare and repair parts in DoD inventory. Once these increments are established, the purchaser is provided supply support with the same responsiveness as is provided to DoD military units within the same Force Activity Designator. The applicable LOAs have three distinct financial subdivisions.

A. FMS Order (FMSO) I

1. FMSO I, Part A. FMSO I, Part A represents the on-hand inventory level required in the Continental United States (CONUS) to support FMS requisitions to replenish in-country stocks. Normally, the on-hand level represents five months of demand. The cash necessary to establish on-hand inventory accompanies the accepted LOA.

2. FMSO I, Part B. FMSO I, Part B results in recognition of the contract authority necessary to award contracts for pipeline resupply to support FMS purchaser demands.

   a. The purchaser’s requisition is filled from on-hand inventory acquired under FMSO I, Part A. The inventory is then replaced by a delivery of a due-in from a contractor. Purchaser payments under FMSO II (the foreign purchaser's anticipated yearly consumption under CLSSA) provide the cash necessary to pay the contractor and establish new contract authority to award a contract for additional items, thus maintaining quantities in the pipeline.

   b. Because cash received from FMSO II is used to pay for due-ins, the purchaser is not required to deposit cash in support of FMSO I, Part B. However, billings against the FMSO I, Part B are required if FMSO II demands are below expected levels. FMSO I, Part B normally represents 12 months of demand or the procurement lead-time, whichever is greater.
3. **BA.** The FMSO I case exists for the duration of the CLSSA and is modified only if the quantity of the end items to be supported changes or FMSO consumption patterns differ from expectations. The reimbursable BA resulting from acceptance of the FMSO I is credited to financing appropriations current at the time the contracts are awarded to increase on-hand and on-order quantities.

**B. FMSO II**

FMSO II is the consumption case. FMSO II does not create BA for re-procurement until applicable requisitions are received (earned reimbursements) and purchaser cash is deposited in the financing appropriation account (collected). Upon shipment and collection, additional BA is recognized to maintain the pipeline created by FMSO I, Part B. FMSO II BA is credited to appropriations current at the time material is released from inventory in response to FMSO II requisitions.

0204 PLANNING DIRECTIVES AND OA REQUESTS

020401. General

Planning Directives and OA Requests are required for all new cases that have been submitted to FMS Trust Fund purchasers for acceptance and for all cases in the process of implementation. The Planning Directive and OA Request must initially be developed when the LOA data is prepared. The OA Request must be included with the LOA package. The IA must retain the Planning Directive as backup for the LOA package.

A. The Planning Directive reflects detailed pricing elements, planned financing appropriations (or direct citation), the amount of OA required for the current year, and an estimate of OA for the budget year. The initial Planning Directive may contain abbreviated financial analysis data. However, as execution begins, the Planning Directive must be expanded to encompass all required cost elements and data.

B. Activities furnishing articles or services to fulfill case requirements must provide the case manager the necessary data to accomplish his or her responsibilities. The case manager must ensure that all applicable nonrecurring research, development, and production costs (see Chapter 7) are included in the LOA package and identified for reimbursement to the appropriate Miscellaneous Receipts Account in the OA Request.

C. Planning Directives and OA Requests must be prepared for each case and must also be prepared:

1. In support of requests for Amendments and Modifications reflecting financial impact;

2. In support of price changes of less than 10 percent of the estimated cost of articles and services (utilizing the most recently approved document);
3. In support of variations of more than $100,000 between reimbursable accounts or between direct cite and reimbursable accounts discovered subsequent to case implementation;

4. In support of changes in current year OA requirements within the net case value as reflected on the most recently approved Planning Directive and OA Request; and

5. As necessary, to ensure adequate OA is available in the budget year before commencement of that year.

020402. Preparation of Planning Directives and OA Requests

Guidance for completing a Planning Directive using DD 2061 is in Table 2-1. Guidance for completing an OA Request using DD 2060 is in Table 2-2. All Planning Directives and OA Requests are cumulative. Therefore, case managers must maintain an audit trail that will relate each to its predecessor.

A. To ensure control over the flow of documentation, the case manager must assign and maintain a system of control numbers. The control numbers are composed of the FMS Trust Fund purchaser country code, case designator, Julian date, and serial number (e.g., BN-BLX-08181 08).

B. All amounts on Planning Directives and OA Requests must be in U.S. currency.

C. Case managers must scrutinize financial performance on a continuing basis to ensure the availability of sufficient OA for both the current FY and case completion.

D. Each case manager preparing the year-end OA Request must identify the OA requirements through the end of the upcoming FY. If the sum of the budget-year, current-year, and prior-year requirements exceed the case value, then the case manager must initiate action for the processing of a case Amendment or Modification, as appropriate.

E. The various pricing elements and related appropriations and funds required to prepare Planning Directives and OA Requests are maintained in DIFS by DSCA.

0205 OA REQUESTS FOR BUDGETED FMS CAS COSTS AND FUNDS REIMBURSED BY THE FMS CAS SURCHARGE ACCOUNT

020501. FMS CAS Surcharge Budget

DoD Components will develop and submit an annual FMS CAS Budget request to the DSCA Comptroller by August 10 of each year. These estimates must support only FMS CAS-related efforts as outlined in the Federal Acquisition Regulation (FAR Part 31) and the Defense FAR Supplement, subpart 225.7303. As such, these estimates cannot include FMS CAS-related efforts that are not charged in whole or in part under 22 U.S.C. § 2761. This includes individual
reciprocal countries’ agreements processed by the Under Secretary of Defense (USD) for Research and Engineering and USD for Acquisition and Sustainment; CAS waivers for North Atlantic Treaty Organization (NATO) and NATO Cooperative Projects; CAS waivers applicable to other special projects; and FMS CAS work excluded by specific Public Laws. For more information concerning items excluded from FMS CAS Budget estimates, see Chapters 7 and 8, and SAMM, C9.6.

A. The FMS CAS Budget request must specify the amount of anticipated FMS CAS work that will be performed and needs to be reimbursed for that particular FY. An OA Request must accompany the budget request with anticipated FMS CAS costs, to include the projected unfunded civilian retirement (UCR) costs and associated salary and retirement costs for military personnel performing full-time FMS CAS. The DoD reimbursable rates are computed annually (see Volume 11A, Chapter 6) and approved and released by OUSD(C) (see DoD Reimbursable Rates).

B. The OA Request must reflect the total amount of reimbursements that are expected to be performed for that FY and list all appropriations and reflect the estimated amount for each appropriation. The sum of the amounts reflected for each appropriation must equal the requested total and the FMS CAS Budget. The UCR costs are computed on the basic pay only, excluding overtime (see 5 U.S.C. § 8331).

C. The Defense Contract Management Agency (DCMA) CONUS FMS CAS Budget estimates must be based on a DCMA-established annual command rate as explained in Chapter 8, subparagraph 080702.C.4. In addition to the budget estimates, DCMA must provide a copy of the Command Rate Report and the Quarterly Functional Workforce Analysis worksheet.

D. The DCMA Overseas FMS CAS-Budget estimates must be based on actual costs for employees.

1. Such estimates will include all other costs (e.g., equipment, vehicles, or computers) in addition to salaries that are associated with CAS-employees. Budget presentation of employees’ cost must be based upon all effort.

2. Follow the Funded Environmental and Morale Leave (FEML) funding guidance issued by OUSD (Personnel and Readiness), DoDI 1327.06, “Leave and Liberty Policy and Procedures.” Employees who are provided Environmental and Morale Leave (EML) travel as assistance-in-kind (AIK) by the host government may not also travel on FMS CAS-funded FEML in the same year. Under no circumstances may the combination of FMS CAS-funded FEML and AIK-EML exceed one trip per year. The travel on AIK tickets must not be augmented with further tickets or travel that is FMS CAS-funded.

3. The estimates for the part-time employees will include only actual work performed (costs relating to salaries), UCR rate computed on salaries, and overseas temporary duty costs.
020502. FMS CAS OA Requests

Upon approval of the budget estimate by DSCA, the OA Request must be forwarded to DFAS SCA for approval, processing, reporting, and general ledger control (see Chapter 3, subparagraph 030408.C). Before FMS CAS surcharge costs may be incurred, the DoD Component must establish a reimbursable order in the financing appropriation that will initially pay the actual cost of such services. The OA Request must list the appropriations and anticipated reimbursements to each appropriation.

A. The initial approved OA Request must represent the reimbursable order to perform FMS CAS work on FMS cases. If it is suspected that the OA Request is no longer valid, and the OA amount needs either to be increased or decreased, then an updated OA Request must be forwarded with a cover letter to the DSCA Comptroller explaining the need for the OA change. The revised OA Request must be forwarded to DFAS SCA for processing.

B. At year-end, the annual OA Request must be updated to reflect the September 30 end-of-year obligated position. New obligations are not authorized after September 30 of the closing FY. When all costs have been finalized and reimbursements have been processed by DFAS SCA (i.e., when actual costs, disbursements, and obligations all are equal), a “Final FMS OA” document must be prepared and forwarded to the DSCA Comptroller for approval and processing.

1. The “Final FMS OA” documents must show the actual cost incurred by each individual appropriation, including the UCR costs that are deposited in Miscellaneous Receipts Account 3041 (see 5 U.S.C. § 8331(3) and Office of Management and Budget Circular A-11, section 20.5) and the military pay accounts for military personnel costs associated with salary and retirement for full-time FMS CAS employees. The U.S. Treasury accounting symbols are listed in the “Federal Account Symbols and Titles: The FAST Book.”

2. DFAS SCA must use this “Final FMS OA” as the basis for withdrawing OA for all unobligated balances that were recorded under each appropriation for that FY. Prior to the close out of a particular FY and during the subsequent FYs, joint financial reviews will be conducted between the billing agency, DFAS SCA, and DSCA. All adjustments or revisions will be submitted within 30 days following the completion of the review.

3. CONUS FMS OA documents should be forwarded to DSCA on or before December 14 of that year. Overseas “Final FMS OA” documents must be forwarded to DSCA when all costs have been reimbursed and all associated disbursements have been processed by DFAS SCA.

C. Revenues to fund FMS CAS expenses are prescribed in Chapter 3, subparagraph 030405.A. The methods for reimbursing the DoD Components for performing FMS CAS are prescribed in Chapter 8, subparagraphs 080702.A and 080702.B.

D. DoD Components that purchase equipment, vehicles, computers, and other items using the FMS CAS Surcharge Account must establish disposal guidance to ensure
compliance with Volume 11A, Chapter 5, to ensure that all funds resulting from the sale or disposal of this equipment are returned to the FMS Trust Fund.
United States of America
Letter of Offer and Acceptance (LOA)
BN-P-BLX

Based on BANDEF ltr 2/265 of 10 April 2010

Pursuant to the Arms Export Control Act, the United States Government (USG) offers to sell to the Embassy of Bandaria Office of the Naval Attaché, 1234 Massachusetts Ave, NW, Washington, DC 29999, the defense articles or defense services (which may include defense design and construction services) collectively referred to as “items”, set forth herein, subject to the provisions, terms, and conditions in this LOA.

This LOA provides for Technical Services for the Standard Missile Program.

Estimated Cost: $1,038,000
Initial Deposit: $273,750

Terms of Sale:
Cash Prior to Delivery
Dependable Undertaking
This offer expires on 22 July 2010. Unless a request for extension is made by the Purchaser and granted by the USG, the offer will terminate on the expiration date.

This LOA consists of page 1 through page 9.

The undersigned are authorized representatives of their Governments and hereby offer and accept, respectively, this LOA:

BN-P-BLX
Figure 2-2.  Amendment to LOA

United States of America  
Amendment 1 to Letter of Offer and Acceptance  
BN-P-BLX

Based on BANDEF ltr 2/343 of 12 Aug 2010

Mail To: Embassy of Bandaria Office of the Naval Attaché, 1234 Massachusetts Ave, NW Washington, DC 29999.

Pursuant to the Arms Export Control Act, the United States Government (USG) offers to amend the Letter of Offer and Acceptance (LOA) identified above for the purchase of defense articles, defense services, or both. Other provisions, terms, and conditions of the original LOA remain unchanged.

This Amendment provides for extending Basic LOA Item 001 period of availability. Purchaser request extends period of performance 12 months.

Basic LOA accepted: 18 July 2010.

Estimated Cost: $1,557,000  
Due with Amendment Acceptance: $385,625

Terms of Sale:
Cash Prior to Delivery  
Dependable Undertaking.

This offer expires on 5 December 2010. Unless a request for extension is made by the Purchaser and granted by the USG, this offer will terminate on the expiration date.

This Amendment consists of page 1 through page 3.

The undersigned are duly authorized representatives of their Governments and hereby respectively offer and accept this Amendment:

CHAPTER 3

ACCOUNTING

0301 GENERAL

030101. Purpose

This chapter establishes accounting requirements which:

A. Assure proper DoD control and accountability of cases implemented in the Foreign Military Sales (FMS) Trust Fund;

B. Provide accounting information that can be used for preparation of Chief Financial Officer (CFO) financial statements, quarterly bills to FMS purchasers, and financial status reports to DoD case managers and Defense Security Cooperation Agency (DSCA) staff;

C. Integrate with physical delivery (logistics) reporting systems;

D. Serve as a basis for timely identification and reporting of financial management problems; and

E. Establish internal controls to assure compliance with the payment requirements of the Arms Export Control Act (AECA), Public Law 90-629, codified at Title 22, United States Code (U.S.C.), Chapter 39.

030102. Authoritative Guidance

Authoritative guidance for this chapter is as follows:

A. AECA, Public Law 90-629, codified as 22 U.S.C., Chapter 39;

B. 31 U.S.C., Chapter 15; and

0302 GENERAL ACCOUNTING GUIDANCE

030201. Accounting Characteristics

A. Each FMS case is an accounting unit similar to a commercial job order. A case identifier is composed of the Security Cooperation (SC) customer code, implementing agency (IA) code, and a three-position case designator assigned by the IA. See the DSCA Manual 5105.38-M, “Security Assistance Management Manual” (SAMM), Table C4.T2, for more
information. Obligational authority (OA) necessary to implement a case is released by case identifier and line item number. All requisitions for materiel or services have a case identifier and line item number. Report accrued costs and cash disbursements at this level of detail. Accumulate and report this accounting information to FMS purchasers and DoD case managers to allow proper monitoring of case execution.

B. DoD manages cash at country level to ensure sufficient funds are available to meet expenditure requirements and to determine arrearages of a country’s dependable undertaking. See Volume 16, Chapter 6, for more information on arrearages. A cumulative summary cash account, including all sub-accounts of the FMS Trust Fund 11X8242, “Advances, Foreign Military Sales, Funds Appropriated to the President,” is needed to allow reconciliation with the U.S. Department of the Treasury (Treasury) cash records. Cumulative summary accounts showing OA, commitments, obligations, accounts payable, accounts receivable, accrued expenditures, and expenses are required to complete budget execution reports on the FMS Trust Fund account.

C. DoD case management entails obtaining the necessary OA, releasing requisitions or procurement work orders, and reporting physical delivery of required items. The first two actions require efforts directed through the accounting system. Proper management controls require the use of the same source document for reporting to both the financial and logistical systems (including delivery reporting).

030202. Responsibilities

A. DSCA. DSCA is responsible for providing oversight and monitoring usage of the FMS Trust Fund, to include periodic reviews of funding levels and unused balances.

B. Defense Finance and Accounting Service (DFAS). DFAS performs the accounting, billing, disbursing, and collecting functions for the FMS Trust Fund. DFAS ensures entries in the accounting systems have audit trails to the source documents and generates financial statements. DFAS is specifically responsible for:

* 1. Maintaining the centralized FMS case-line level accounts prescribed in this chapter, and the Bureau of the Fiscal Service (Fiscal Service), “U.S. Standard General Ledger (USSGL).” The DoD Standard Chart of Accounts are in the Standard Financial Information Structure (SFIS), DoD USSGL Transaction Library, and Volume 1, Chapters 4 and 7. Use information accumulated in the accounts when preparing billing statements to FMS purchasers and financial management reports to DoD case managers and DSCA staff;

2. Maintaining FMS Trust Fund budget execution records;

3. Identifying and notifying DSCA when an FMS Trust Fund arrearage occurs as required in Volume 16, Chapter 6;
4. Summarizing all case-line level accounts at the FMS Trust Fund level, reconciling the summary cash accounts to Treasury’s records per Treasury guidance, and using the summary accounts as the basis for required reports on FMS Trust Fund operations;

5. Maintaining audit trails and supporting documentation for entries made to the accounting system; and

6. Preparing monthly, quarterly, and annual statements as required in Volumes 6A and 6B.

C. **IAs.** IAs are responsible for:

1. Fulfilling FMS Trust Fund orders using these financing techniques:
   a. Issuing and accepting reimbursable orders into a financing appropriation or Defense Working Capital Fund (DWCF) account,
   b. Issuing allotments of the FMS Trust Fund to the performing DoD Components, or
   c. Authorizing direct citation of the FMS Trust Fund (11X8242);

2. Ensuring appropriation/fund budget execution records accurately reflect the status of the reimbursable FMS Trust Fund program;

3. Performing the Dormant Account Review Quarterly (DAR-Q) of obligations and unfilled customer orders as described in Volume 3, Chapter 8, section 0816; and

4. Maintaining audit trails between source documents and entries to the accounting system.

D. **Allotment Holders for Actual FMS Administrative Expenses.** A DoD Component that receives a DSCA allotment of FMS Administrative **Budget Authority** (BA) is responsible for:

1. Maintaining obligations and expenditures within the limitations of the allotment,

2. Ensuring obligating documents and accrued expenditures meet the requirements contained in this volume, and

3. Returning unobligated OA to DSCA at the end of each fiscal year (FY).
0303 MANAGEMENT CONTROLS

For management controls, Security Assistance activities will follow the guidance in DoD Instruction 5010.40, “Managers’ Internal Control Program Procedures.”

0304 FMS TRUST FUND ACCOUNTING REQUIREMENTS

030401. FMS Trust Fund

The FMS Trust Fund is a single account that is authorized to be credited with receipts that may be obligated and expended in accordance with the AECA. FMS Trust Fund receipts must be apportioned prior to obligation and expenditure; however, an official, designated under 31 U.S.C. § 1513, and as per 31 U.S.C. § 1516, may exempt trust funds from apportionment.

030402. FMS Standard General Ledger (GL)

All financial accounting data applicable to the FMS program must be recorded in accounts consistent with Volume 1, Chapter 7 and the USSGL accounts. The USSGL specifies the accounting entries for these accounts. Subsidiary ledgers are used, where necessary, to provide accounting control and management reports. The Deputy CFO, Office of the Under Secretary of Defense (Comptroller) (OUSD(C)), must approve the use of any other GL Trust Fund accounts in writing. Objective evidence, e.g., invoices, vouchers, receipts, or statements, must support all entries in the accounting records and data reported on financial statements. Such evidence may be either hard-copy documents or computer data, but in either case, the evidence must be verifiable.

030403. Accounting for Receivables

A. General

1. Cash in advance of performance is required from FMS purchasers unless a written determination is made pursuant to legal authority. See Chapter 4 for more information on cash management. For FMS purchasers who are legally exempt from making cash advances, record accounts receivable for each FMS country program accounted for in the FMS Trust Fund in USSGL 131000, “Accounts Receivable.” SFFAS 1, paragraph 41 provides that a receivable should be recognized when a federal entity establishes a claim to cash or other assets against other entities, either based on legal provisions, such as a payment due date, or goods or services provided. If the exact amount is unknown, a reasonable estimate should be made.

2. The offered and accepted FMS case is a binding requirement and calls for an advance of funds from the FMS purchaser; thus, a non-entity account receivable is established when the due date for payment is not met. Follow up and aging of delinquent accounts receivable will be in accordance with Volume 16, Chapter 6. Accounts receivable are aged according to Volume 4, Chapter 3, Figure 3-1.

B. Application of Interest. Assess interest on FMS country-level arrearages in accordance with the provisions of the affected country’s active cases and Volume 16, Chapter 6.

030404. Accounting for Inventory

The Military Departments or Defense Agencies control and report assets (equipment and related software, amounts invested in inventories, and work-in-process at contractor’s plants) on their financial statements.

030405. Accounting for the FMS Program

The AECA and provisions of the Letter of Offer and Acceptance (LOA) require that the FMS program operate at no cost to the U.S. Government. Therefore, recognize equity only for the balance retained in the attrition account; see subparagraph 030405.B.

A. Accounting for FMS Surcharges

1. Record the collection of surcharges established in accordance with AECA §§ 21 and 43 as unearned revenue to ensure full recovery of costs incurred in operating the FMS program.

2. Record and recognize revenue and expenses at the time disbursements are made from the applicable FMS Surcharge account.

3. Revenues to fund these expenses are from the application of money received from accrued costs, estimated actual costs, or rates charged. Maintain ledgers for each of the categories of FMS Surcharges as subsidiary to the unearned revenue control account, USSGL 231000, “Liability for Advances and Prepayments.”

4. Apply the Contract Administration Services (CAS) Surcharge to new procurements; however, it may not be applicable under certain conditions detailed in AECA § 21. The performing activities incur costs and obtain reimbursement from FMS CAS Surcharge accounts in response to billings on Standard Form (SF) 1080, Voucher for Transfers Between Appropriations and/or Funds.

B. Accounting for Attrition Surcharges. When FMS training LOAs include the use of training or operational equipment, an attrition surcharge rate may be applied pursuant to SAMM, C9.T4. The Attrition Surcharge Account replaces equipment damaged or destroyed because of student training. Record attrition surcharges in the attrition account; they are assets to the U.S. Government. At year end, record the balance in the attrition account as equity in the FMS Trust Fund. Refer to Chapter 7, subparagraph 072303.C. for more information on the application of the attrition surcharge.

C. Accounting for Bad Debts. Policy concerning compromise, termination, or suspension of collection actions of a country-level bad debt is in Volume 16, Chapter 6,
section 0606. Resolution of all foreign indebtedness resulting from FMS transactions will be staffed with the Department of State (DoS) by DSCA via the Under Secretary of Defense for Policy. Within 30 calendar days of a determination by the DoS that a debt is uncollectible, DSCA will direct DFAS Security Cooperation Accounting (SCA) to record the amount owed, including accrued interest, in the GL. When a country is in arrears, and the debt is confirmed to be uncollectible:

1. All available funds for the affected country will be used to satisfy outstanding liabilities according to a priority recommended by the Director of DFAS SCA and approved by the DSCA Principal Director, Directorate of Business Operations (DBO);

2. DSCA will direct applicable case managers to request cancellation of all outstanding commitments and adjustment of all outstanding obligations, to include an amount for termination cost. The residual amount of debts shown will be transferred to the GL for the affected country, to coincide with the termination of the FMS cases, based on the determination that the country’s account is uncollectible. This highlights losses due to uncollectible amounts in the accounts as required by SFFAS 1, paragraph 44; and

3. Aging of amounts recorded will continue. Accrue the accumulation of interest, in accordance with the AECA and other applicable authorities, monthly on the balance in the sub-account. The amount recorded in the account will include the amount of the arrearage, termination liability costs, and accrued interest.

D. Accounting for Transactions Occurring Prior to January 1, 1989. A reconciliation problem existed within the FMS Trust Fund for transactions that occurred prior to January 1, 1989, and some reconciliations occurred as a result of management decisions. Adjustments to transactions that occurred prior to January 1, 1989, will be reviewed by the FMS central accounting site control point staff, and approved by the DSCA Comptroller, prior to posting in the Defense Integrated Financial System (DIFS) Account Codes. The control point staff at DFAS SCA and DSCA will maintain a complete audit trail of all adjustments received and processed. Documentation supporting these adjustments will be retained by the originating organization. Transactions will be approved by:

1. DFAS SCA and an appropriate representative of the applicable DoD Component involved;

2. The Director of the applicable DFAS center submitting transactions to DFAS SCA, if the amount of the transaction is in excess of $500,000; or

3. The Director, DFAS and the Director, DSCA, if the amount of the transaction exceeds $1,000,000.

*030406. Processing Accounting Transactions

In order to account for the FMS Trust Fund, DFAS SCA uses DIFS. As the trust-fund level, interfacing accounting system, DIFS links IA records from bills, including supporting
financial documents, issued to purchasing countries for articles and/or services. See SAMM C13.6, for additional information. Transactions entered into DIFS are a combination of installation-level transactions received through the FMS Integrated Control System, and vouchers recorded at DFAS SCA, resulting from billing, collection, and disbursement activities. Transactions recorded in DIFS are posted at the trust fund-, country-, and case-level. This enables DFAS SCA to prepare required accountability and fund status reports for the FMS Trust Fund. DFAS SCA relies on the accuracy and integrity of the records maintained in IA’s source accounting systems. Source transactions must have all of the information required to enable DFAS SCA to prepare required accounting reports and perform financial management oversight.

030407. DFAS SCA Analysis of FMS Case Accounting Data

DFAS SCA must continuously analyze case-level accounting data to identify developing financial problems and alert IA case managers, DSCA country finance directors, and other concerned DoD officials of the necessity for corrective action. The types of analysis performed are as follows:

A. Adequacy of Cash Deposits. Compare the net unreserved cash balance to the accounts payable case-level accounts. If the accounts payable balance is greater, request an IA review of the case payment schedules;

B. Timely Payments to the DoD Components and Contractors. Balances in accounts payable must be aged to assure timely payments are made. If payments are not on time, DFAS SCA will review internal payment procedures and implement necessary corrective action; and

C. Timely Case Closure Actions. When the expenditures equal OA, DFAS SCA should request an IA review of the case's financial and logistical status to determine if the case should be closed.

030408. DFAS SCA Surcharge Transactions

A. FMS Administrative Surcharge and Logistics Support Charge (LSC) Account

1. Accrual of Earned Surcharge. As accrued expenditures are calculated, pursuant to FMS orders, the amount of FMS Administrative Surcharges applicable will be determined and credited to the FMS Administrative Surcharge account.

   a. $30,000 or less. If the computed FMS Administrative Surcharge for the FMS case is $30,000 or less, the entire surcharge value must be included in the initial deposit (SAMM Table C9.T14). This includes the value of any small case management line for cases implemented August 1, 2006 through July 2, 2012 (SAMM paragraph C9.4.7).

   b. Over $30,000. If the computed FMS Administrative Surcharge for the FMS case is greater than $30,000, 50 percent of the surcharge is collected upon
case implementation (SAMM Table C9.T14). Apply the remaining accruals over the life of the case and finalize at case closure.

2. **Actual FMS Administrative Surcharge.** Transactions representing actual expenses will be entered based on accrued expenditures reported in the DoD Status-of-Allotment reports for FMS. See paragraph 030601.C.

3. **LSC.** LSC is applicable to articles delivered or services performed on or after April 1, 1987 and prior to October 1, 2007. These charges are accounted for in the FMS Administrative Surcharge account as described in subparagraph 030408.A.1 and 2. For more information on LSC, see SAMM Table C9.T4.

### B. Transportation Surcharge Account

1. **Accrual of Earned Surcharge.** When items reported by the DoD Components as physically delivered, applicable transportation surcharges are earned and credited to the Transportation Surcharge account.

2. **Actual Transportation Expense.** Transactions showing actual transportation cost, based on receipt of carrier bills, will be entered against the Transportation Surcharge account.

3. **Building Partner Capacity (BPC) Transportation Surcharge.** BPC funds are transferred to the FMS Trust Fund under the authority of the Economy Act. Funds transferred via Economy Act orders are subject to the same fiscal limitations that are contained within the appropriation from which the orders are funded. Therefore, BPC funds in the transportation surcharge account are required to adhere to the same fiscal limitations to which BPC funds are generally subject. See **SAMM C15.I** for additional information and **SAMM C15.T2 Programs and Authorities.**

### C. CAS Cost Clearing Account

1. **Accrual of Earned Surcharge.** When payments are made to contractors (either progress payments or bills for incurred costs), the applicable CAS surcharges are earned and credited to the CAS Cost Clearing Account.

2. **Actual CAS Expenses.** Transactions showing actual CAS costs are considered CAS Expenses, based on receipt of SF 1080 billings from the performing DoD Components. See Chapter 7, paragraph 071603.

### D. Attrition Surcharge Account

Assess a one percent attrition surcharge for applicable training cases (SAMM Table C9.T4). The IAs will identify the amounts earned as they distribute collections for tuition, credit the attrition portion, and report it to DFAS SCA by country, case, and line. Expenditures from this account represent orders to the DoD Components to fund the cost of replacing damaged or destroyed equipment associated with student training. DFAS SCA will maintain cumulative records of these deposits by country, case, and line item. Fund
withdrawal from the attrition account requires prior written approval from the DSCA Comptroller. The cost in full of replacing damaged or destroyed equipment is reimbursed from the attrition account.

E. Year-End Certification. Reporting entities now utilize the Governmentwide Treasury Account Symbol Adjusted Trial Balance System (GTAS) and the Fiscal Service Year-End Transaction Module to report unexpended appropriation and fund balances. The Year-End Module, in addition to GTAS, is used to initiate year-end cancelation and adjustment transactions previously presented on the Fiscal Service Form 2108. See Volume 6A, Chapter 4 and the Treasury Financial Manual, Volume 1, Part 2, Chapter 4200 for more information.

F. Periodic/Year-End Analysis of Surcharge Accounts. DSCA and DFAS SCA analyze activity in the surcharge accounts. This analysis will serve as a basis for decisions by DSCA DBO to redistribute surcharge account balances between the accounts or to recommend rate changes. DSCA DBO will coordinate any decision made to redistribute balances, to mitigate shortfalls in one or more surcharge accounts, with DFAS SCA and OUSD(C). If a redistribution between surcharge accounts is required, DSCA DBO will then notify OUSD(C) of the intended redistribution action and seek concurrence. OUSD(C) should provide a response within 30 calendar days. With OUSD(C) concurrence, DSCA DBO will authorize DFAS SCA to redistribute the funds. Once the receiving surcharge account is returned to an acceptable funding level, the transferred funds will be redistributed back to the original account once the DSCA DBO receives concurrence with OUSD(C). When a decision is made to revise rates, the revisions will be coordinated with OUSD(C). See Chapter 7, paragraph 071202 for more information on revising rates.

0305 IA ACCOUNTING REQUIREMENTS

030501. Allotments for Direct Citation

Amounts in Column 11, “Direct Cite Authority Required This FY,” of the DoD (DD) Form 2060, FMS Obligational Authority, or automated equivalent (OA request), which are coded “(A),” represent allotments of case contract authority. Allotment holders must request expenditure authority (EA) from DFAS SCA prior to processing the disbursements against the contract authority. DFAS SCA provides incremental EA from the FMS Trust Fund based on the allottee’s need to disburse funds. Additional instructions for the DoD Status-of-Allotment report are in section 0306. Specific requirements include:

A. The DoD Component that holds an allotment of the FMS Trust Fund for direct citation on contracts must maintain detailed commitment, obligation, and expenditure records on an FMS case and line basis. That DoD Component must provide DFAS SCA a monthly DoD Status-of-Allotment report reflecting the case and line-level data. Delivery transactions in an amount equal to the current month’s net change in accrued expenditures or cash advances to contractors must support the status of expenditures. A manual DoD Status-of-Allotment format is in Figure 3-1; and
B. Submit Monthly DoD Status-of-Allotment information, and associated reports of reconciliation, to DFAS SCA by the 20th calendar day following the close of each accounting month. Use this information, with detailed supporting documentation, as the basis for the DFAS SCA entries to case-level accounting records and overall FMS Trust Fund reconciliation with Treasury.

030502. Allotments for Reimbursable Orders

For information on reimbursable orders, see Chapter 2, paragraph 020304.

030503. FY-End Reporting Requirements

A. The DoD Components are required to submit a printed and certified, final, FY consolidated OA request and DoD Status-of-Allotment information for direct cite funds to DFAS SCA. Establish submission dates in accordance with special instructions issued by DFAS. The forms submitted may be manual forms or automated equivalents.

B. The final OA request will have this certification: “I hereby certify that this report reflects FMS Obligational Authority as required by DoD 7000.14-R, Chapter 2, subparagraph 020304.A.”

C. The final DoD Status-of-Allotment report must have this signed certification: “I hereby certify that the amounts shown in this report are correct. All known transactions meeting the criteria of 31 U.S.C. § 1501(a) have been obligated and are so reported.”

0306 ACTUAL ADMINISTRATIVE EXPENSE ACCOUNTING REQUIREMENTS

030601. Reimbursement for FMS Administrative Expenses

A. Price FMS administrative expenses in accordance with Chapter 7, section 0705 and charge directly to the allotment received from DFAS SCA for actual FMS administrative expenses. DoD Status-of-Allotment reports must be submitted in the DoD standard format in Figure 3-1. If the allotment is used as the basis for issuing reimbursable orders to appropriation accounts, a schedule showing the dollar value of orders released to each appropriation must be attached to the DoD Status-of-Allotment report. FMS administrative expenses may not be incurred in excess of the allotment, nor are the DoD Components authorized to incur obligations against appropriated fund operation accounts to finance FMS administrative budgets.

B. Upon review of the budget requests submitted in response to its administrative budget call, DSCA will approve a single budget amount for each DoD Component and will issue an allotment providing funding for the approved budget. The recipient will prepare a DoD Status-of-Allotment report showing actual uses for administrative expense. Base the information on the organization designated in the DSCA budget call. Allotments for administrative expenses must be fully funded to cover obligations. Receiving DoD Components must use “no-check SF 1080” self-reimbursement procedures to reimburse appropriation accounts.
Reimbursable procedures apply when the FMS Trust Fund is not directly cited as the financing source of payrolls, contracts, or travel orders.

C. Support DoD Status-of-Allotment reports for FMS administrative expenses with subsidiary allotment status reports of the executing organizations. Annotate subsidiary reports as “Subsidiary report-(name of the organization).”

030602. Control of FMS Administrative and SC Organizations (SCO) Budget Allotment Authority

A. Report the FY identity of budget allotment authority, obligations, and disbursements for the current FY (CFY), and five preceding FYs, on the monthly DoD Status-of-Allotment reports for administrative expenses. Accounts will remain open for the liquidation and adjustment of valid obligations until the end of the canceled FY (five expired FYs and one canceling FY). See the FY example in subparagraph 030602.C.

B. All fund holders are required to maintain FY identity of obligations, disbursements, and budget allotment authority for the CFY and the five preceding FYs.

C. Provided is an example of FY identity using a CFY of 2015.

<table>
<thead>
<tr>
<th>FY</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>FY 2010 = expired FY</td>
<td>At the end of FY 2015, and after completing the end-of-year reporting and closeout cycle, cancel all unliquidated obligations (ULOs). All amounts are withdrawn effective September 30, 2015. Following this action, FY 2010 cancels on October 1, 2015.</td>
</tr>
<tr>
<td>FY 2011 = expired FY</td>
<td></td>

<tr>
<td>FY 2015 = CFY</td>
<td>Out-of-scope increase to prior FY obligations (FY 2014 and prior) will be charged against the CFY (FY 2015). The CFY becomes an expired FY on October 1, 2015.</td>
</tr>
<tr>
<td>FY 2016 = Next FY</td>
<td>October 1, 2015, FY 16 begins.</td>
</tr>
</tbody>
</table>

030603. Control of FMS Administrative and SCO Prior FY OA

A. DSCA will not authorize increases to a prior year OA to record upward adjustments for obligations that are the result of out-of-scope changes. Such changes constitute new obligations and are funded from the current year OA. Upward adjustments, which are the result of “within-scope” changes under the terms of the contract, are usually chargeable to the appropriate FY account against which the original obligation was charged. Charge all valid upward adjustments applicable to canceled years to the CFY.

B. All fund holders will establish procedures to review and validate all ULOs for the CFY, and the preceding five FYs, on a monthly basis. If obligations are no longer valid, fund holders will ensure these amounts are deobligated and the appropriate funds returned to
DSCA for withdrawal; see paragraph 030605. Valid disbursements may be made from these expired accounts, up to the amount of the ULO balances for that year's obligation. Additional funding to cover these valid upward adjustments (within-scope price adjustments) may be requested from DSCA. This request should provide the following: original obligation amount; additional required funding authority needed; source or reason for additional obligation, including any subsidiary calculations or source; applicable supporting documentation; and point of contact.

C. Deobligation of prior year funds, and the subsequent reobligation of these same funds in the current or one of the five preceding FYs, is not authorized.

030604. Control of Unliquidated Balances

A. FMS Administrative and SCO accounts remain available for liquidating valid obligations until the end of their fifth expired year; see the example in subparagraph 030602.C. No new obligations can be started for the CFY after September 30 of that FY.

B. The monthly DoD Status-of-Allotment reports for administrative expenses, showing the DFAS departmental accounting position, will present the current allocation and account balances (obligations and disbursements) for the end of that reporting month.

C. See paragraph 030605 for the procedure used when canceling funds at the end of the fifth year following their expiration and the process used when deobligations occur in the five preceding FYs.

D. All fund holders will establish procedures to review and validate all ULOs for the CFY and the five preceding FYs.

030605. Administration and Implementation of the Monthly and End-of-Year Closeout Guidance

A. All fund holders will review and use their respective monthly DoD Status-of-Allotment reports for administrative expenses, which present the DFAS departmental accounting position for that month. Use these reports to compare with the installation accounting records. If there are disbursement differences between the departmental and installation accounting records, use the departmental accounting records reconciled with Treasury cash to establish the withdrawal amount.

B. DSCA will issue the annual end-of-year closeout guidance to all holders of FMS Administrative and SCO funds.

C. When the fifth expired year is canceled, the budget allotment authority amount will be decreased on September 30 to equal the departmental accounting disbursement amount that has been reconciled with Treasury.

D. The fund holder will ensure that all obligations and disbursements are equal prior to year-end closeout for the canceling year account (the fifth year following funds expiration)
and that no further disbursements are processed. The fund holders need to work closely with the DFAS departmental accounting offices at finalizing the amounts to be withdrawn for the canceling year (the fifth year following funds expiration).

E. All fund holders will notify DSCA in writing when BA can be decreased on the CFY and the five preceding FYs. Upon receipt of a written request from the fund holder, DSCA will issue an FMS Administrative and SCO Allocation document withdrawing the unobligated BA, citing the concurrence correspondence from the fund holder for the expired and canceling FYs. All records will be maintained with the FY BA documents.

030606. DFAS Responsibilities for Expired and Canceled Accounts

A. DFAS SCA will adjust OA/EA to agree with the DSCA allocation values for the expired and canceling FYs. All unobligated balances will be considered expired and not available for incurring new obligations. FMS Administrative and SCO accounts remain available for liquidating valid obligations until the end of their fifth expired year.

B. DFAS SCA will update the subsidiary record by loading the DIFS case-level disbursement records with the expired year balances, as identified by the allotment holders (IAs) on the year-end DoD Status-of-Allotment reports for administrative expenses.

C. DFAS SCA will maintain off-line, historical, administrative accounting records to show cumulative balances for disbursements, obligations, and allotment BA for all closed (canceled) FYs. At the end of each FY, DFAS SCA will update the canceling FY's obligated and disbursed balances for FMS and SCO Administrative Fund accounting records.

D. DFAS SCA will maintain memorandum records of the canceled obligations. Once closed, an account is no longer available for obligation. If it becomes necessary to pay an obligation, which otherwise would have been properly charged to the appropriation before it was canceled, the obligation should be charged to and paid from the applicable CFY FMS or SCO account. Post these obligations against the CFY account when disbursed. Use memorandum records (or equivalent) to record the canceled “valid” obligations offline so that they may later be recognized as valid when disbursed and recorded against the applicable FMS or SCO Administrative CFY account. For more information, see Volume 3, Chapter 10.

* E. DFAS SCA, once all BPC cases associated with the transportation account are closed, will deposit all unliquidated balances into the Miscellaneous Receipts of the Treasury. BPC Transportation accounts are subject to closure when all appropriations within the account have canceled.

0307 BUDGET EXECUTION

030701. Objectives

This section establishes the budget execution requirements that are applicable to the FMS program. Specific objectives are to ensure that:
A. Mandatory budget execution reports that accurately reflect data recorded in accounting records are submitted to Treasury in a timely manner;

B. Unnecessary FMS OA is withdrawn officially from all organizations participating in execution of FMS cases at the end of each FY; and

C. FMS case records maintained by IAs are in agreement with DFAS SCA at the case-line level throughout the life of each FMS case.

030702. Responsibilities

A. DFAS must provide accounting data on FMS Trust Fund operations to the DoD Components.

B. DSCA must monitor the FMS program and submission of required FMS Trust Fund Budget Execution reports in accordance with requirements outlined in Volume 6A, Chapter 2, section 0202.

C. IAs and the supporting DoD Components must:

1. Conduct year-end reviews of the unobligated FMS reimbursable program to ensure unnecessary BA is identified and returned to the FMS Trust Fund;

2. Ensure that the FMS reimbursable program is properly reported in appropriation or DWCF budget execution reports;

3. Submit financial Budget Execution reports accurately and timely in accordance with section 0308;

4. Reconcile IA FMS case records to DFAS SCA case-line level accounting transactions on a periodic basis;

* 5. Partner with DFAS to resolve any variances or out of balance conditions in support of monthly FMS financial reporting; and

* 6. Prepare Case Closure Certificates signifying IA completion of all actions necessary for DFAS SCA to close the case as soon as possible after the case supply/services are complete, but no longer than 24 months after such occurrence for cases applicable to countries participating in Accelerated Case Closure Procedures (ACCP). See the SAMM, Appendix 7, “Case Reconciliation and Closure Guide (RCG),” for the Case Closure Certificate format, SAMM Chapter 16, and paragraph 031002 for case closure information. For case closure procedures required for non-ACCP, including BPC program cases, refer to paragraph 031002.
0308 FMS TRUST FUND BUDGET EXECUTION REPORTS AND FINANCIAL STATEMENTS

030801. Budget Execution Reports

DFAS submits the following budget execution reports on FMS Trust Fund operations:

A. Monthly SF 133, Report on Budget Execution, for 11X8242. For more information, see Volume 6A, Chapter 4, section 0404;

B. GTAS. Fiscal Service discontinued use of the Fiscal Service Form 2108 and removed references to the form from current Fiscal Service guidance. Budget execution information previously provided on Fiscal Service Form 2108 is now available to Treasury through GTAS. For more information, see Volume 6A, Chapter 4; and

C. Appropriate sections of the annual CFO Financial Statements. For more information, see paragraph 030802.

030802. Financial Statements

For financial statement guidance concerning the reporting of FMS amounts, see Volume 6B, Chapters 2 and 10. The Security Assistance reporting entity also provides GTAS submissions as a Significant Entity per Volume 6A, Chapter 3, subparagraph 030304.B.

0309 CASE EXECUTION

030901. FY End

At the end of each FY, review the reimbursable OA received to implement each FMS case. The total amount of reimbursable BA received is on the OA request. The review serves as the basis to withdraw any unnecessary unobligated balances. Make the withdrawal by submitting a year-end OA request. See Chapter 2, section 0203 for instructions on the preparation of OA requests.

A. Non-Expanding Accounts. At the close of each FY, retain reimbursable FMS OA in a performing DoD account only to the extent that:

1. The amounts are required to cover certifiable obligations incurred by the performing account because of performance of the order;

2. The amounts have been committed within a formal commitment accounting system, for example, to cover normal administrative lead time on the next contract escalation clauses; or

3. The items have been delivered from inventory or applicable DoD services have been performed (cash earned reimbursement). Withdraw any reimbursable FMS
OA not required for these purposes from the performing accounts by September 30 each year. It is recognized that year-end reviews must be made prior to the last day of the FY. Therefore, the amount of OA retained may be somewhat greater than the goal. It is expected, however, that estimating procedures must be improved continually until unnecessary unobligated balances are eliminated.

B. **Expanding and Expired Accounts.** By the close of each FY, show reimbursable FMS OA in an expiring account only to the extent that the amounts are earned reimbursements or are required to cover certifiable obligations incurred against the performing account. Withdraw any reimbursable FMS OA not required to cover obligations in the expiring account by September 30 each year. During the FY, transfer amounts required in expired accounts from the Trust Fund, as necessary, to cover upward obligation adjustments needed for within-scope changes to contracts or similar transactions.

030902. **Reimbursement of Appropriations and Accounts**

A. Reimburse DoD appropriations and fund accounts, or Miscellaneous Receipts Account 3041, “Recoveries Under the Foreign Military Sales Program, Army, Navy, Air Force, Defense,” upon delivery of items from inventory or performance of DoD services within 30 **calendar** days of the occurrence (i.e., date of shipment or performance) for:

1. Items sold under AECA § 21, or

2. Procurement actions made under AECA § 22, if direct cite procedures for financing applicable contracts are not used.

B. **The general rule applicable to the sale of DoD services is that the financing account current at the time of performance is credited with applicable BA and subsequent cash collections.** The various cost elements that may be involved in the performance of an FMS order, and the appropriations that are to be reimbursed, are in Table 3-1.

1. When items are sold from inventory, the financing account current at the time items are dropped from inventory is credited with applicable BA and subsequent cash collections.

2. When items not to be replaced (free assets) are sold from inventory, those receipts are credited to Miscellaneous Receipts or the Special Defense Acquisition Fund (SDAF). For more information on SDAF, see SAMM, **section 11.9**.

3. When appropriation or fund accounts are used to finance FMS procurements, the account current at the time the order is accepted is credited with BA and subsequent cash collections.

Update the case Planning Directive, as required, as prescribed in Chapter 2, section 0204. Update cost elements and financing accounts to ensure full recoupment of the costs prescribed in Chapter 7 and to ensure timely identification of cost increases. The Planning Directive serves as the basis for preparing all OA requests during the life of the case.

0310 FMS CASE CLOSURE REQUIREMENTS

031001. General

All proper charges and credits must be recorded against the applicable FMS case. Case closure does not stop the billing/reporting process, but results in a re-categorization of the case records from active status to inactive status to ensure accessibility for recording subsequent activity. In other words, a case never closes from a DoD accounting perspective. For further guidance on the reconciliation and closure of FMS cases, to include closure checklists, see SAMM Chapter 16 and A7.C4.3, and the RCG.

031002. Initiating FMS Case Closure

A. When all ordered items have been physically delivered and all ordered services performed (i.e., supply/services complete), or there is no activity on a blanket order case for 180 calendar days (and the purchaser agrees no further activity will occur), and all other conditions of the LOA are fulfilled, an FMS case is a candidate for closure. At this time, the responsible IA must determine if there are any unresolved delivery issues, outstanding Supply Discrepancy Reports (SDRs), or litigation claims. Contracting officers must review any contracts that have not been financially closed to determine if significant financial adjustments of open contracts may occur. Cases can be closed under either ACCP or non-ACCP closure procedures.

1. **ACCP.** ACCP must be used only for those countries that explicitly elect such procedures. However, all countries that have cases financed with Military Assistance Program Merger/Foreign Military Financing (non-repayable) are mandatory participants in ACCP, unless specifically excluded by DSCA. Once selected by a country, ACCP must apply to all cases of that country and must govern any case that was opened (or closed) prior to the date of ACCP implementation, unless a specific arrangement between DSCA and the FMS purchaser is made as part of the implementation criteria. Under ACCP, case closure should be initiated within 24 months after the case is supply/services complete, to allow a country to initiate an SDR and allow the IA to reconcile the case. The applicable DoD Component must request DSCA approval to delay closure beyond 24 months.

2. **Non-ACCP.** Under non-ACCP case closure, all logistical and financial transactions must be processed before case closure can be initiated.

B. The case manager must ensure the actions outlined in subparagraphs 031002.B.1-6 are taken.
1. The IA-delivered value must agree with the delivered value recorded in DIFS. If necessary to reconcile IA records, obtain historical transaction records from the DIFS database or equivalent online repositories.

   a. **ACCP.** If the case is being closed under ACCP, the difference between progress payments and liquidating deliveries, and the difference between total deliveries and total disbursements in DIFS, must equal the estimated ULO value established by the IA. The IA records must be in balance with each of these values; if not, the IA must submit applicable input to bring the records into balance before issuing a Case Closure Certificate.

   b. **Non-ACCP.** If the case is being closed under non-ACCP, progress payments must equal liquidating deliveries in DIFS. The IA records must be in balance with each of these values; if not, the IA must submit applicable input to bring the records into balance before issuing a Case Closure Certificate.

2. Rectify all problem disbursements in accordance with Volume 3, Chapter 11. A prerequisite for satisfactorily resolving problem disbursements is to validate the accuracy of the disbursed values. Use the authorities in Volume 3, Chapter 11 to facilitate efficient reconciliation and closure actions. Additionally, section 0311 addresses the applicable write-off authority for FMS problem disbursements.

3. Ensure the validity of all obligations in accordance with Volume 3, Chapter 8. Many of those provisions address FMS-specific actions in this regard.

4. Use the guidance in subparagraphs 031002.B.4.a-b for all FMS cases without remaining ULOs.

   a. **ACCP.** If the case belongs to an ACCP country, the applicable DoD Component must submit a final Case Closure Certificate (see the RCG) to DFAS SCA within 24 months after an FMS case is supply/services complete. If the IA determines that due to reconciliation issues a case under ACCP cannot be closed within 24 months of supply/services completion, then submit the case, along with identification of the problem or cause believed to prevent case closure, to DSCA for resolution.

   b. **Non-ACCP.** A supply/services complete case for a country not participating in ACCP will not be submitted for closure until ULOs on accounting classification reference numbers (ACRNs) citing the case are resolved. No case under non-ACCP closure procedures can be interim closed, it must be marked final.

5. Use guidance in subparagraphs 031002.B.5.a-b for FMS cases with remaining ULOs.

   a. **ACCP**

      (1) The applicable IA must submit a Case Closure Certificate to DFAS SCA within 24 months after an FMS case is supply/services complete. Cases
with a ULO of zero are final closed (there should be no more transactions of any kind on the case). Cases with a ULO greater than zero are interim closed (there could be additional disbursements on the case, but the purchaser has already paid the FMS Trust Fund enough to cover those disbursements). See paragraph 031003 and the RCG.

(2) The applicable IA must determine and report the value of any remaining ULO relevant to that case. These amounts should be equal to those recorded in the applicable DoD accounting system.

(3) The applicable IA must request DSCA approval to delay interim closure if the estimated ULO is of significant value and is likely to be deobligated rather than disbursed. DSCA will then determine whether to approve the delay.

(4) DFAS SCA must bill the applicable country using the DoD Component’s remaining ULO via normal billing procedures. The ULO is part of the case closure value.

(5) DFAS SCA must record the estimated ULO value in a summary account entitled Case Closure Suspense Account (CCSA). At the same time, DFAS SCA must record applicable charges and credits, by country and case, in subsidiary accounts, which total to the CCSA.

(6) When final costs are known and reported by the IA (i.e., liquidating the ULO), DFAS SCA must record such amounts against the CCSA and subsidiary account by country and case.

(7) Upon receipt and payment of final bills, and reconciliation of the case, the IA must submit a final Case Closure Certificate.

(8) On a quarterly basis, DFAS SCA must submit a status report on the CCSA and subsidiary accounts to the DSCA DBO (Financial Policy and Analysis) and ACCP-participating FMS purchaser countries.

(9) When a country’s CCSA has a negative balance of $100,000 or more for a period of six consecutive months, DSCA may instruct DFAS SCA to bill the country for the entire balance owed. For example, if the country’s suspense account has negative balances of $100,000 on December 31, $250,000 on March 31, and $175,000 on June 30, DFAS SCA will bill the country $175,000. Such billings will be made through the country’s omnibus quarterly billing statement and will cite all the FMS case(s) involved. DSCA should review the country’s CCSA periodically to determine if any refund is warranted.

b. Non-ACCP. For non-ACCP countries, the DoD Component must submit Case Closure Certificates to DFAS SCA only after all applicable known costs have been recorded and no ULOs exist on ACRNs citing the case.
6. At case closure, DFAS SCA must use the submitted closure certificate/transaction in place of an LOA amendment or modification unless the case meets the criteria for an LOA amendment or modification specified in SAMM, section C6.7.

031003. Closure Certification

A. The Case Closure Certificate alerts DFAS SCA to initiate actions needed to close a case. The IA must send certificates electronically to DFAS SCA. If any reporting after the issuance of a Case Closure Certificate has caused variances between DIFS and the certified values, DFAS SCA must notify the IA of actions required to enable closure processing to continue. When the IA and DFAS SCA FMS case records are reconciled, DFAS SCA must reclassify the case to an inactive status and provide a final statement of account to the FMS purchaser for the final value of the case. Once a final statement has been sent for an FMS case, the case must be reclassified by the IA from active to inactive status. The IA then closes applicable case records.

B. All closed cases with post-closure activity on or after October 1, 1992, not subject to ACCP, must be reopened as authorized by DSCA to report execution. The IA must cancel the original closure certificate and submit a new certificate prior to case closure. Cases for countries subject to ACCP may be reopened only as authorized by DSCA.

031004. Billings After Case Closure

A. Any cases required to be reverted to implemented status must be approved by DSCA.

B. The following requirements apply to all ACCP cases.

1. The DoD Component will submit an interface transaction to DIFS moving the case from final to interim closure status. After the status is changed, the IA will send an EA request to DFAS SCA. DFAS SCA will then move the cash from CCSA to the EA reserve account and record the disbursement against the country, case, and line.

2. When post-closure disbursements exceed $100,000 (in either direction) because of a verified pricing adjustment, the applicable IA must submit a request to DSCA, with an information copy to DFAS SCA, that the case be reopened. Upon receipt of DSCA approval to reopen the case, both the IA and DFAS records must be reclassified to implemented status. If the case is not reopened, then the disbursement must be processed against the CCSA.

3. When all post-closure disbursements/credits have been reported and final costs determined, the DoD Component must certify the case for final status by using the Case Closure Certificate (see the RCG) and by reporting the transaction in DIFS.

C. The following requirements apply to all BPC cases and cases closed under non-ACCP.
1. All cases must be reclassified to implemented status, except for those with a transaction adjustment of $200 or less. Such adjustments may be charged to the FMS Administrative Surcharge account. Otherwise, reestablish accounting records at the amounts recorded at the time closure certification occurred. Reclassification to implemented status must occur in both the IA and DFAS SCA records.

2. All post-closure disbursements or credits must be recorded in an undistributed account until case records are reactivated.

3. When post-closure activity results in exceeding the case value, a modification to the case is required.

4. When cases are reactivated, the IA must request additional OA, commence reporting status of funds data, request EA, process disbursement/credit transactions, and report adjusted delivery information via the delivery transaction.

5. Once the disbursement/credit and billing processes are complete, DFAS SCA must bill the FMS Trust Fund purchaser. The IA must recertify the case for closure as specified in paragraph 031003.

6. For FMS cases where funds have canceled, irrespective of funding source, DSCA will provide guidance on how to proceed and how invoices will be paid.

031005. Reopening FMS Cases

Normally, closed cases will not be reopened. If the FMS purchaser requests to reactivate a closed case, first determine if there is a case already implemented and available or if a new case should be developed. Opening a closed case (interim or final) is a last resort and requires DSCA approval. See SAMM, Chapter 16, for additional information on reopening cases.

0311 WRITE-OFF AUTHORITY

An IA that determines unresolved reconciliation issues exist for a case may write off those imbalances using write-off authority guidelines. The IA is responsible for providing all vouchers it prepares citing the FMS Administrative Surcharge account to DFAS SCA.

031101. Problem Disbursements

For problem disbursements (unmatched disbursements, negative unliquidated obligations, and in-transit disbursements) up to $2,500 per transaction, refer to Volume 3, Chapter 11 for an explanation of the problem disbursements policies. The DSCA DBO and DFAS SCA are responsible for ensuring detailed procedures are issued to the FMS community. Problem disbursements greater than $2,500 should be brought to the attention of DSCA, via the FMS Case Closure Executive Committee, for resolution, provided those problem disbursements have not exceeded the Volume 3, Chapter 11 processing timelines.
031102. Other FMS Financial Transactions

For all other types of FMS financial transactions, up to $200, charge the FMS Administrative Surcharge account for the amount required to affect prompt financial reconciliation as prescribed in the DSCA annual case review requirement in the SAMM, Chapter 16. For write-off adjustments performed while readying a case for closure, DFAS SCA will provide DSCA DBO (Financial Policy and Analysis) with a quarterly summary of closure certificates received in which amounts have been charged in accordance with this paragraph. A comment must be included in the remarks/comments section of the Case Closure Certificate when these write offs are used.

0312 ANTIDEFICIENCY ACT (ADA) VIOLATIONS AND ADVERSE FINANCIAL CONDITION REPORTS

031201. ADA Violations

For purposes of the ADA, appropriated funds are not limited to those funds specifically appropriated by Congress to federal agencies from the general funds of Treasury. Funds available to agencies are considered appropriated if made available for collection and expenditure pursuant to specific statutory authority, regardless of their source. In applying the ADA, the FMS Trust Fund is considered to be and will be treated as appropriated funds. Therefore, the ADA applies to transactions involving the FMS Trust Fund.

A. Types of Potential Violations. Potential violations may occur in FMS Trust Fund transactions when:

1. Issuing OA or awarding an FMS contract without a signed LOA;

2. Obligating or expending FMS case funds for an unauthorized purpose, including purposes not provided for by law;

3. Violating apportionments or indemnity clauses; or

4. Incurring obligations on a BPC case where the financing appropriation's period of availability to incur new obligations has expired. Additional information on potential violations of the ADA is in Volume 14, Chapter 2.

B. Identifying and Reporting Potential Violations of the ADA. Detailed guidance for identifying, investigating, and reporting violations under the ADA is in Volume 14. Due to the complexities of provisions in the AECA, it is important to consult with appropriate legal counsel and comptroller officials on potential violations of the ADA for FMS.

031202. Adverse Financial Conditions

Other reportable events occur when FMS case records are out of balance, but these conditions do not necessarily meet the criteria of violations discussed in paragraph 031201. These conditions are adverse financial conditions and occur when financial reports show that: OA
exceeds case or line-item level values, commitments or obligations exceed OA at case or line-item level, total disbursements exceed obligations at case or line-item level, or EA is not requested prior to disbursement. Adverse financial conditions are reported using the same format used for ADA violations.

A. Reporting Requirements for Adverse Financial Conditions

1. DFAS SCA has the responsibility for determining reportable conditions and notifying IAs of adverse conditions involving EA. DFAS SCA must provide a monthly analysis report to the DoD Components identifying if disbursements are greater than EA at the country case level, or if EA was requested, remained unused, and was not returned at the end of the month. The DoD Components must review the listings within 15 calendar days of receipt and provide DFAS SCA an explanation of the discrepancy, the required corrective action, and when such action will be processed. This information will be shared with DSCA.

2. The DoD Component has the responsibility to resolve adverse conditions involving obligations or expenditures of funds in excess of approved authority at any level lower than case level.

B. Exceptions to Reporting Adverse Financial Conditions. Reports need not be submitted for within-scope cost increases in either of the following circumstances:

1. Obligation(s) in excess of the “Total Estimated Cost” shown on the LOA occurs, and a modification is prepared by the DoD Component and submitted to the purchaser through appropriate channels within 60 calendar days of the date of the transaction that resulted in the unfavorable financial condition; or

2. Obligation(s) or expenditure(s) in excess of approved authority occurs, the excess amount results from the posting of duplicate or erroneous obligation/expenditure transactions or the posting of obligations from inventory systems, and corrective action is taken within 60 calendar days of the transaction date. These conditions, however, could indicate weaknesses in internal controls and administrative action may be required to improve systems design or to prevent recurrence.

| O. CAS (This is a combination of cost elements A, B, and K)                   | MILPERS, O&M, DWCF, or Miscellaneous Receipts Account 3041, as applicable                 |
| Q. Mailing fee, storage, and publications                                     | O&M or DWCF, as applicable                                                               |
| R. Inventory losses                                                           | Applicable procurement or DWCF, as applicable                                            |
| S. Attrition                                                                 | FMS Trust Fund Attrition Account                                                         |

Note: DoD Components must maintain internal records of the dollar amounts applicable to each category of collections deposited into Miscellaneous Receipts Account 3041. One decimal sub-account must be used for each type of collection. For example, 3041.3 might be used to designate dollar amounts applicable to non-recurring cost recoupment.
### SUMMARY OF MAJOR CHANGES

All changes are denoted by blue font.

Substantive revisions are denoted by an asterisk (*) symbol preceding the section, paragraph, table, or figure that includes the revision.

Unless otherwise noted, chapters referenced are contained in this volume.

Hyperlinks are denoted by **bold, italic, blue, and underlined font**.

The previous version dated February 2020 is archived.

CASH MANAGEMENT

0401 GENERAL

040101. Purpose

The purpose of this chapter is to provide policies to ensure cash is available to liquidate Foreign Military Sales (FMS) Trust Fund obligations, as disbursements are due. Funds appropriated by the Congress for defense purposes cannot be used to liquidate obligations resulting from the use of FMS Trust Fund contract authority, except as authorized by law. The FMS purchaser, U.S. Government (USG) appropriation made available to finance FMS Trust Fund purchases, or a third-party payer, must meet the cash requirements (outlay authority) of each FMS Trust Fund purchaser.

040102. Authoritative Guidance

The Arms Export Control Act (AECA), Public Law 90-629, as amended, codified as Title 22, United States Code, Chapter 39 provides the authority and general rules for FMS and commercial sales of defense articles, services, and training. Implementation information on cash management procedures can be found at the Security Assistance Management Manual (SAMM), Chapter 9, “Financial Policies and Procedures.”

0402 RESPONSIBILITIES

Executive Order 13637, “Administration of Reformed Export Controls,” delegates authority and responsibility for the administration and functions for Security Assistance (SA), from the President, to the Secretary of Defense and the Secretary of State. The authority of the Secretary of Defense is further delegated in the DoD Directive (DoDD) 5105.65, “Defense Security Cooperation Agency (DSCA),” to the Deputy Secretary of Defense, to the Under Secretary of Defense for Policy, and finally, to the DSCA Director.

040201. DSCA

DSCA is responsible for:

A. Ensuring adequate cash availability in the FMS Trust Fund to meet DoD’s financial requirements;

B. Identifying the specific issue and remedy should cash flow problems arise (e.g., collection of additional funds or other alternative financial arrangements, adjustments to ordered values, delivery timeframes, or ordered quantity);
C. Approving Standby Letters of Credit (SBLCs), Federal Reserve Bank of New York (FRBNY) accounts, and Commercial Bank Accounts (CBAs) as they may pertain to FMS financial requirements;

D. Calculating and approving, on a quarterly basis, the Termination Liability (TL) reserve amounts required to protect the USG against liability if a particular FMS-funded contract (or contract line item number (CLIN)) is terminated prior to completion;

E. Performing follow-up actions on SA Program arrearages;

F. Constructing standard payment schedules (to include any contract termination costs); and

G. Preparing special bills for those customers with approved special billing arrangements (SBAs).

040202. Defense Finance and Accounting Service (DFAS)

DFAS is responsible for:

A. Posting purchaser cash deposits within 2 business days of notification when the Defense Integrated Financial System (DIFS) is available. When DIFS is unavailable due to scheduled maintenance, update upon availability;

B. Posting disbursements by the 20th day of the following month to FMS case accounting records;

C. Reconciling summary trust fund-level account balances in DIFS with the U.S. Department of the Treasury (Treasury) balance in the Account Summary from the Governmentwide Treasury Account Symbol Adjusted Trial Balance System (GTAS);

D. Assuring that approved cash expenditure authority (EA) requests do not exceed the FMS purchaser’s cash available balance in the FMS Trust Fund; and

E. Working with the accounting activities, contract payment offices, and certifying officers as appropriate to:

1. Ensure sufficient cash is available and approve EA requests above a country threshold prior to disbursing FMS funds, when requested;

2. Facilitate resolution, or resolve all rejects of EA to lessen Prompt Payment Act interest payments;

3. Resolve situations where EA was approved but returned without a disbursement; and
4. Ensure EA is obtained prior to processing a transfer, correction of charges against, or credits to the FMS Trust Fund using Standard Form (SF) 1080, Voucher for Transfers Between Appropriations and/or Funds, or SF 1081, Voucher and Schedule of Withdrawals and Credits.

040203. Implementing Agencies (IAs)

IAs are responsible for:

A. Providing information needed to the DSCA (Operations Directorate, Case Writing Division) for payment schedule preparation at the line level, in the Defense Security Assistance Management System (DSAMS). The IA will approve the schedule as part of the Letter of Offer and Acceptance (LOA) document coordination/signature process. Additional information on payment schedule preparation is in the SAMM, Chapter 9, paragraph C9.9.1;

B. Developing progress payment schedules or historical cost curves systematically for DoD major weapon systems (used to determine payment schedule distributions for procured materiel requiring progress payments to contractors), and reviewing the schedules or curves when the acquisition strategy changes;

C. Reviewing all case payment schedules, at least annually, in preparation for a formal review with the FMS purchaser, or when the case value adjusts by ten percent or more;

* D. Requesting and receiving EA approval prior to processing a disbursement citing the FMS Trust Fund;

E. Resolving problem disbursements using the authorities found in Volume 3, Chapter 11;

F. Validating obligations in accordance with the requirements found in Volume 3, Chapter 8, section 0803; and

G. Performing case reviews including reviewing and reconciling general case and delivery-related data, expenditures/disbursements, and USG financial requirements.

1. If payment schedules are inadequate to meet USG financial requirements, the IA must promptly notify the responsible DSCA Country Financial Director, DFAS Security Cooperation Accounting (SCA), and the FMS purchaser of the additional requirements. The IA must also follow-up on this notification by issuing a revised payment schedule via an LOA modification.

2. During the annual review of the case, if payment schedules overstate USG financial requirements due to delays in contract award, delivery slippages, or other reasons, the IA must issue a revised payment schedule via an LOA modification. The IA is responsible for ensuring that the USG does not prematurely collect customer funds.
*040204. Payment Activities

Payment Activities are defined as the entities responsible for the payment of invoices either to commercial vendors or payees, or for executing intragovernmental payments or collections. Payment Activities are responsible for requesting and receiving EA approval prior to the certification to a disbursing officer of a voucher for a commercial payment, or an intragovernmental payment or payment refund, which cites the FMS Trust Fund.

0403 CASH MANAGEMENT CHARACTERISTICS

040301. Cash in Advance

The FMS purchaser must make cash deposits into the FMS Trust Fund, a DSCA-approved Federal Reserve Bank (FRB), or DSCA-approved CBA for defense articles and services sold under AECA, §§ 21, 22, and 29 in advance of delivery, performance, or payments to contractors, except as provided in subparagraphs 040301.C-D. Foreign Military Financing (FMF) and other USG appropriations used to finance a sale executed in the FMS Trust Fund must also make advance cash collections.

A. AECA § 2761, Sales from Stocks. Payment must be made in advance, unless the President determines it to be in the national interest for payment to be made upon delivery of the article or performance of the service.

B. AECA § 2762, Procurement for cash sales. Without charge to any appropriation or contract authorization otherwise provided, the President may enter into contracts for the procurement of defense articles, defense services, or design and construction services in U.S. dollars, to any foreign country or international organization, if such country or international organization provides the USG with a dependable undertaking:

1. To pay the full amount of such contract that will assure the USG against any loss on the contract; and

2. To make funds available in such amounts, and at such times, as may be required to meet the payments required by the contract and any damages and costs that may accrue from the cancellation of such contract, in advance of the time such payments, damages, or costs are due.

C. AECA § 2761(d) Exception. The President may determine that delayed payment is in the national interest, and allow payment to be made without interest within 60 calendar days after delivery of defense articles from stock or rendering of in-house defense. In addition, the President may extend the 60 calendar day period to 120 calendar days if the President determines an emergency exists.
D. AECA § 2762(b) Exception

1. Payment within 120 calendar days after delivery of procured defense articles or rendering of procured defense services requires the following Presidential determinations:

   a. It is in the national interest to issue letters of offer under this authority, and

   b. The emergency requirements of the purchaser for the acquisition of such defense articles and services exceed the funds available to the purchaser to make payments on a dependable undertaking basis.

2. Both determinations in subparagraph 040301.D.1, together with a special emergency request for authorization and appropriation of additional funds to finance such purchases under the AECA, are submitted to Congress for approval.

E. Initial Deposit. An initial deposit must accompany the accepted LOA to provide the cash advance required to cover the outlays and/or deliveries anticipated until receipt of the first quarterly payment. Several factors affect the initial deposit. On an exception basis, DSCA may approve emergency implementation of an FMS case. The initial deposit may be deferred to a later date agreed to by both the FMS purchaser and DSCA. Refer to the SAMM, Chapter 9, section C9.9 for initial deposit requirements.

F. Billing. DFAS SCA prepares FMS bills on a quarterly basis. The bills include information as of the end of December, March, June, and September. Payments are due on March 15, June 15, September 15, and December 15. DSCA must approve any deviations from this schedule. The bills must include the cash requirements for the calendar quarter following the payment due date. For example, a bill prepared with December data (due March 15) is to project cash requirements through June. Thus, the deposit for an LOA accepted in January would be the cash required through June, or 6 months of advance cash requirements. See Chapter 8 for a full discussion of the FMS billing process.

040302. FMS Trust Fund

The FMS Trust Fund is managed as a single cash entity, regardless of the source of the deposits. All FMS Trust Fund deposits are accounted for at purchaser and FMS case level by source of financing. Examples of funds include FMF (FMS Credit and FMS Credit (non-repayable)) and the Military Assistance Program (MAP) Merger. Examples of other types of funds are a purchaser’s national funds, which include third-party funds, and other DoD appropriated funds.
040303. SA and Security Cooperation (SC) Funds

The USG may provide SA or SC funds annually to selected allied or friendly countries to finance the purchase of U.S. defense articles and services. It is, therefore, in the USG’s interest to use and manage these limited funds as effectively as possible.

A. In determining the order of funds to be paid into the FMS Trust Fund, DSCA normally draws down MAP Merger funds up to the amount reserved for each case prior to using available FMF funds, followed by requesting the FMS purchaser to use other funds. Likewise, MAP Merger funds on deposit in the FMS Trust Fund will be expended prior to FMF funds, followed by the expenditure of the purchaser’s national funds.

B. SA funds that become excess due to FMS case reduction or closure may be reapplied to other FMS cases with DSCA approval. However, FMS Credit Funds must not be refunded to the FMS purchaser unless those funds originated from loans, have been fully repaid by the FMS purchaser, and no delinquent accounts receivable exist.

C. SC funds are USG appropriations made available in furtherance of the Building Partner Capacity (BPC) efforts. These funds are deposited into the FMS Trust Fund to enable the acquisition and delivery of articles and services for this purpose. Usually, BPC funds cannot be co-mingled with SA funds on any FMS case.

040304. SBLC

DSCA is authorized to approve an SBLC arrangement instead of the TL prepayment requirements described in subparagraph 040501.B. An FMS purchaser, with prior approval from DSCA, may provide DSCA with a properly executed, separate SBLC to cover uncollected TL amounts for a billing quarter. In such an event, it will be necessary to deposit into the FMS Trust Fund only the amount of funds needed to cover anticipated expenditures and disbursements during the billing cycle. Refer to SAMM, Chapter 9, paragraph C9.9.1 and/or contact DSCA (Country Financial Management Division) for details on an SBLC.

040305. FRB Accounts

A. DSCA is authorized to enter into a national funds investment account agreement with an FMS purchaser and the FRBNY for any country that finances all or a significant part of its FMS programs with national funds. The FRBNY accounts will normally not be considered for a country that finances FMS programs primarily with SA funds.

B. Upon account establishment, DSCA must compute the amount of funds to be transferred from the FMS Trust Fund to the purchaser’s FRB investment account. After the establishment of the investment account, the purchaser remits all national funds payments to the FRBNY, usually identified to specific FMS cases. Payments made from FMF (FMS Credit (non-repayable) only) funds will made directly to the FMS Trust Fund unless otherwise specified in U.S. law and/or DSCA policy.
C. DFAS SCA is authorized by the account agreement to make periodic drawdowns, as needed (usually monthly), from the FRBNY account into the FMS Trust Fund, to ensure sufficient funds are available to make payments during the succeeding 30 calendar days.

040306. CBAs

In accordance with DoDD 5105.65, DSCA is authorized to enter into a national funds investment account agreement with an FMS purchaser who has a duly authorized CBA agreement with a commercial bank. This agreement allows the FMS purchaser to deposit FMS payments into a CBA and earn interest. DSCA manages the CBAs, which operate like the FRBNY accounts. However, funds originating from USG appropriations (e.g., FMF funds (repayable and non-repayable credits) or BPC cases) must not be deposited in this account, and TL amounts must not reside in the CBA. Any deviations must have DoD Office of the Deputy Chief Financial Officer written approval. The USG is not liable for any financial losses resulting from the deposits of the FMS purchaser’s funds in the account. However, funds so deposited are considered public funds within the meaning of Title 31, Code of Federal Regulations, part 202. Depositories and Financial Agents of the Federal Government. For specific details regarding CBA agreements, refer to SAMM, Chapter 9, Section C9.11.3.

040307. Disbursements

All cash disbursements for FMS Trust Fund purchases must be identified by FMS case identifier and line, and must not exceed the cash available in the purchaser’s FMS Trust Fund account (to include MAP Merger and FMF funds). A specific case may be in a deficit cash position with the deficit being funded by the purchaser’s cash advances on other cases. The cash deposited by country “X,” however, must not be used to liquidate obligations incurred for country “Y” unless an FMS Trust Fund purchaser authorizes the use of its excess cash deposits to meet the cash requirements of another purchaser. A reportable adverse financial condition exists when a single purchaser’s FMS Trust Fund cash summary account is in a deficit position (credit balance). See Chapter 3, section 0312 for more information on adverse financial conditions.

0404 PAYMENT SCHEDULES

Payment schedules are a consolidated formal presentation to the FMS purchaser of the estimates of cash advances needed to meet USG financial requirements. See section 0405 for cash requirement calculations. The Department of Defense (DD) Form 645, FMS Billing Statement, reflects the amounts shown on the current case payment schedule or the quarterly forecast of USG financial requirements, whichever is greater. If financial requirements or anticipated disbursements exceed the current payment schedule, or SBAs have been negotiated, the billing statement, not the payment schedule, contains the required payment amount. The IA must continually monitor USG financial requirements and confirm, at least annually, that payment schedules are accurate to ensure cash is available in an FMS purchaser’s trust fund account when disbursements are needed. The DSCA Financial Policy and Analysis Division is responsible for issuing detailed guidance for payment schedule preparation. See SAMM, Chapter 9 for more information on payment schedule preparation and billing requirements.
040401. Requirements

Payment schedule requirements will be included in each LOA in the format required in the SAMM, Chapter 9, section C9.9.

040402. Timing

As a standard, new sales agreements can enter the billing system at DFAS SCA through the 10th calendar day of the last month of the quarter. Therefore, if a new agreement is anticipated to be accepted by the purchaser and received by DFAS SCA after the 10th calendar day of the last month of the quarter, the DoD Component should require an initial deposit for the first two quarters of the agreement.

040403. Initial Deposit

If an LOA requires a deposit upon acceptance, the deposit must equal the FMS administrative surcharge required, plus all anticipated costs and contingencies (e.g., contract holdback and TL), until the first billing statement can be rendered and monies collected.

040404. Payment Schedule Revision

It is essential to prepare payment schedule revisions in the manner consistent with the parameters of the FMS billing cycle. Since the payment schedule is the basis for billing the FMS purchaser, there must be an audit trail between the original payment schedule and any revision(s).

A. IA case managers are required to initiate payment schedule revisions when the LOA acceptance date is extended beyond the end of the billing quarter, to ensure that the purchaser has an LOA document that matches the payment schedule created in the billing system.

B. The payment dates shown on the revised payment schedule must be compatible with the FMS billing cycle. The payment schedule dates are in the SAMM, Chapter 9, Table C9.T13.

C. Payment schedule revisions due to an amendment (change in scope) or a modification must be in accordance with subparagraphs 040203.G.

0405 CASH REQUIREMENT CALCULATIONS

040501. Calculation of Initial Estimate of Cash Needed

Calculation of the cash advance needed to meet the USG financial requirements for a specific FMS case requires dividing the costs into broad cost categories. The first category is the portion of case value under the authority of AECA § 21, which includes sales from DoD inventories and the services of DoD personnel. The second category is the portion of case value under the authority of AECA § 22, which includes procurement of hardware or contractor services.
for the FMS purchaser. The third category is the portion of the case under the authority of AECA § 29, which involves rendering design and construction services from DoD resources.

A. Initial Estimates of Cash Needed to Meet USG Financial Requirements in Support of the AECA § 21 Effort, When Dependable Undertaking is Authorized. The cash advance needed to meet USG financial requirements for the portion of the case classified as an AECA § 21 sale must include the estimated earned reimbursements to be realized by DoD appropriation/fund accounts through the 3-month period after the payment due date of the billing statement issued by DFAS SCA.

1. Sales From Inventory. The drop from inventory creates the earned reimbursement, to include applicable administrative surcharges and accessorial charges. Therefore, the applicable FMS case manager will develop the estimated portion of cash needed to meet USG financial requirements based on anticipated requisition release dates.

2. Sales of DoD Services. Base the estimates of earned reimbursement for DoD services provided directly to the FMS purchaser, and for DoD services provided in support of an AECA § 22 contract, on the estimated portion of the services that will occur in the applicable billing period. Services also include applicable administrative surcharges and accessorial charges.

B. Initial Estimates of Cash Needed to Meet USG Financial Requirements in Support of the AECA § 22 and § 29 Effort, When Dependable Undertaking is Authorized

1. The cash advance needed to meet USG financial requirements for the portion of a case classified as an AECA § 22 or § 29 sale, must include estimated disbursements to contractors for contractor invoices and potential disbursements to contractors if the purchaser does not make additional cash deposits in a timely manner, or the purchaser unilaterally cancels the case. Potential disbursements to contractors include payment of contract holdbacks and termination costs that would result if the work were stopped when the cash available to pay contractor invoices is exhausted. The estimate of cash advance needed to meet USG financial requirements covers the period extending through the 3-month period after the payment due date of the FMS billing statement.

2. Base the cash advances needed to meet USG financial requirements in support of procurements for FMS purchasers on normal administrative and procurement lead-times for the type of commodity being procured. The use of progress payment schedules from contractors, when available, is preferred over relying on default cost curves when developing LOA payment schedules. Tables 4-1 and 4-2 show the total cash advance needed to meet USG financial requirements for contracts in terms of percentage of contract costs. The percentages are a function of procurement lead-times. Tables 4-1 and 4-2 also show the percentage of the contract value required as a reserve for potential termination costs and contract holdback in the absence of an SBLC.

a. Potential termination costs represent the liability the USG has to contractors in the event termination occurs. Such costs include all accrued direct and indirect costs, as well as profits and subcontracts not covered by progress payments to the contractor, plus
any penalty contract termination charges that might be realized. Potential termination costs do not include price increases to other ongoing contracts resulting from reductions in procurement quantities.

b. In the absence of procurement history for a particular system, a similar system, or cost curves obtained from the prime contractor, Tables 4-1 and 4-2 may be used. The IAs must first exhaust all other avenues for obtaining forecasting or historical data from contractors and internal sources prior to using Tables 4-1 and 4-2 as the basis for calculating expenditure and TL prepayment requirements.

c. The percentages in Tables 4-1 and 4-2 are for procurement lead-times ranging from 6 months to 60 months. The tables may be used for the development of payment schedules included in the LOA. The percentage figures shown in Tables 4-1 and 4-2 include all applicable costs (e.g., progress payment amounts, contractor holdback, and potential TL). The amount of the cumulative monthly payment applicable to the TL/contractor holdback is shown in the second column (% TL) for each procurement lead-time.

d. The TL/contractor holdback amount is a percentage of the Cumulative Amount of Contract Cost. TL/contractor holdback amounts are cumulative throughout the life of the case, and the required percentages decline toward the end of the life of the case.

040502. Administrative Surcharge Included in Initial Deposit

The initial deposit to accompany the LOA must include the FMS administrative surcharge expense and the cash advance needed to meet USG financial requirements (to include other applicable surcharges and accessorial charges) for the time between LOA acceptance and the first payment due date. The FMS administrative surcharge amount included in the deposit is determined by the total amount of the surcharge.

A. For cases where the calculated administrative surcharge is $30,000 or less, the entire administrative surcharge value is recouped as part of the initial deposit. For cases that have a Small Case Management Line (SCML), the entire value of the administrative surcharge and SCML is recouped as part of the initial deposit (refer to SAMM, Chapter 9, paragraph C9.4.7, for more information on SCML).

B. For cases where the calculated administrative surcharge is greater than $30,000, one-half of the administrative surcharge is recouped as part of the initial deposit. The remainder is proportionally recouped based on the dollar value of items or services delivered in each subsequent year.

040503. Estimate of Cash Needed to Collect Nonrecurring Cost (NC) Recoupment Charges

NC Recoupment Charges are earned when the title is passed to the FMS purchaser and should be collected within 30 calendar days of being earned. The title is normally transferred at
the point of origin, at the time DoD releases the item from DoD’s inventory, or at the time the vendor ships the item. Refer to SAMM, Chapter 7, section C7.3 for more information on title transfers.

040504. Forecasting Procedures

Alternative forecasting procedures may be used for requisition cases (i.e., Cooperative Logistics Supply Support Arrangement and other repair parts cases). Most payment schedules for these cases tend to be overstated because of variations in both requisitioning and supply actions. To prevent substantial over-billing, each IA must review and update payment schedules in accordance with subparagraph 040203.G.2.

0406 QUARTERLY TL RESERVE REQUIREMENT

TL Reserve is the amount of prepayments placed in reserve on a quarterly basis. For FMS purchasers with an FRB account, the TL Reserve is maintained in their FRB account, provided sufficient funds are on deposit in the FRB to cover the TL reserved amount. Otherwise, the FMS purchaser’s Trust Fund TL Reserve Account will be utilized. The TL Reserve is not an additional charge or cost. These funds are fenced for potential termination costs; however, they do not necessarily represent the entire cost to cancel the contract. These funds cannot be used for normal disbursement activities (e.g., to pay for articles/services, administrative surcharges, or accessorial charges).

0407 CONTRACTOR REQUEST FOR PROGRESS PAYMENTS AND REIMBURSEMENT OF COSTS UNDER CONTRACTS INCLUDING FMS REQUIREMENTS

Current contracting procedures permit the procurement of both DoD and FMS purchaser(s) requirements in a single contract. Allocate the amount to be billed to DoD and to each FMS purchaser to implement FMS cash flow requirements. The part of the bill applicable to an FMS purchaser can be paid only to the extent that the FMS purchaser has sufficient cash available in its FMS Trust Fund account.

040701. Contractor Allocations

Per the Defense Federal Acquisition Regulation Supplement, part 252.232-7002, “Progress Payments for Foreign Military Sales Acquisitions,” DoD contracts that include FMS requirements must require the contractor to:

A. Submit a separate progress payment request for each progress payment rate;
B. Submit a supporting schedule showing:
   1. The amount of each request distributed to each country’s requirements, and
2. The total price per contract line item applicable to each separate progress payment rate;

C. Identify in each progress payment request the contract requirements to which it applies (i.e., FMS or USG);

D. Calculate each request on the basis of the prices, costs (including costs to complete), subcontractor progress payments, and progress payment liquidations of the contract requirements to which it applies; and

E. Distribute costs among contract line items and countries in a manner acceptable to the Administrative Contracting Officer.

040702. Allocation of Payments on Contracts

Allocate progress payments in accordance with Volume 10, Chapter 10, paragraph 100402. In addition, DoD contracts that include FMS requirements must identify amounts by accounting classification reference numbers (ACRNs), CLINs, and sub-line item numbers (SLINs), if applicable. This will enable the paying office to match payments to the applicable obligations.

040703. Contract Payment Offices

The contract payment offices must require that all bills submitted by contractors for payment include the proper ACRN/CLIN/SLIN. Contract payment offices must ensure they have all the documentation required to support payment (refer to Volume 10, Chapter 8, section 0803), and that payments are applied to the proper ACRN/CLIN/SLIN.

0408 DEPOSIT OF PURCHASER CASH INTO TREASURY ACCOUNTS

040801. General

DD 645s, SBAs, and LOA financial instructions direct that foreign purchasers forward payments (initial deposits on basic LOAs, amounts due with LOA amendments, or official billing statement payments) by wire transfer or mailed check.

A. Wire transfers are the preferred method for the foreign purchaser to forward payments.

1. Send wire transfers to the Treasury Account at FRBNY, using the standard Federal Reserve Funds Transfer format. The Federal Reserve System (FRS) will accept wire transfers only from banks that are members of FRS. Foreign banks must go through a U.S. correspondent bank that is a member of FRS.

2. DFAS SCA retrieves wire transfers daily from the Treasury Financial Communications System and prepares collection vouchers from this data for crediting FMS purchasers.
B. Make checks payable to the U.S. Treasury and mail to Disbursing Operation (DFAS-IN/JFD), DSSN 3801 Center Collections - SCA, 8899 E. 56th Street, Indianapolis, IN 46249-6300, showing payment from (insert purchaser) for (insert case identifier). Any recipient of a check from an FMS purchaser is responsible for depositing the check into a Treasury account within one working day of receipt.

040802. Misrouted Payments

When a recipient other than DFAS SCA is making a check deposit, the deposit must be processed as a courtesy deposit for DFAS SCA. The following procedures apply:

A. Prepare a deposit ticket utilizing the Over the Counter Channel (OTCnet) application. For information on OTCnet see Volume 5, Chapter 11, section 110801;

B. Process the deposit through an FRB or supporting member bank; and

C. Send a copy of the deposit ticket notification to DFAS-IN/JAX, ATTN: Customer Accounting, 8899 East 56th Street, Indianapolis, IN 46249-6300. Attach the supporting documentation received with the misrouted payment. DFAS SCA must voucher the collection into the FMS Trust Fund on receipt of the supporting documentation.

0409 EA

EA is an FMS country-level authority, which allows payments to be made against obligations previously recorded against a country’s trust fund account. EA is formal segregation of trust fund cash in the FMS Trust Fund, making the cash no longer available for any other purpose.

040901. EA Requirements

A. Most country trust fund disbursements require EA (including expenditure adjustments). All EA for administrative fund disbursements is accomplished by DFAS-IN/SCA.

B. Certifying officers engaged in FMS Trust Fund certification must verify EA was obtained. EA can be obtained by contacting DFAS SCA, or interactively from DIFS.

C. DFAS SCA can only approve and issue EA when sufficient cash is available in an FMS purchaser’s trust fund account.

D. EA must be obtained during the same calendar month in which the ensuing disbursement will be made.

E. If the disbursement is not made in the same month as the EA request, the EA must be returned and reissued the subsequent month.
F. Failure to request EA prior to disbursement is subject to reporting and disciplinary requirements. Administrative control of funds and Antideficiency Act violations are outlined in Volume 14.

040902. Cash Advances

A cash advance to an appropriation account must be obtained when a cash disbursement for an FMS contract would result in the applicable appropriation account being placed in a negative cash position. The amount requested must be equal to anticipated disbursing demands for a 30 calendar day period. Liquidation of outstanding advances (earning the advance through payment to contractors) must be reported to DFAS SCA monthly. The objective is to limit the amount and length of time that outstanding advances remain against the trust fund.

040903. Cash Flow Problems

DFAS SCA notifies the DSCA Country Financial Director when sufficient, unencumbered cash is not available for DFAS SCA to provide cash advances or EA, and contractor billings cannot be paid by the due date. The DSCA Country Financial Director then takes appropriate action as outlined in subparagraph 040201.B.

CHAPTER 6

CASE FILES

0601 GENERAL

060101. Overview

A. National Archives and Records Administration (NARA). Within the Federal Government, NARA is responsible for promulgating procedures for the disposal of all U.S. Government (USG) records. The NARA Records Management Program provides guidance and assistance for the management and disposition of Federal records in the General Records Schedules (GRS).

B. Department of Defense (DoD) Records Management Program. The DoD Records Management Program outlines records management policy and responsibilities. Within DoD, there are 24 Records Management Programs, each with an appointed Federal Agency Records Officer, Records Management Manual, Instruction or Regulation, and Records Disposition Schedules (RDS). DoD’s RDS must comply with NARA guidelines and may include additional financial records used in DoD business operations that are not listed in the NARA GRS.

1. DoD requires documentation to be retained for longer than the NARA requirement if the documentation will be used to support an audit. See Volume 1, Chapter 9, Figure 9-1 for more information.

2. The Defense Security Cooperation Agency (DSCA) may issue exceptions to retention periods if there is a determination that Security Cooperation cases (hereafter "case files"), are needed for any other business purpose that may require access to the documentation (e.g., records associated with ongoing litigation proceedings and country suspensions). Consult your DoD-appointed Federal Agency Records Officer for additional guidance regarding Foreign Military Sales (FMS) records retention.

C. Case Files. Case files may be maintained in a decentralized manner by the various activities having responsibility for actions associated with the case. Each activity must maintain a comprehensive record of relevant correspondence, worksheets, and officially prepared forms that constitute a complete audit trail from the time of case initiation through case closeout or retirement.

D. Electronic Files. Reference to the Defense Security Assistance Management System (DSAMS) and other electronic files (including e-mail correspondence and compact disk read-only memory) is encouraged, provided such files are complete, secure, and readily retrievable. Electronic imaging is strongly encouraged to preserve documentation (e.g., historical documents and signature pages), when retention of the paper originals, or a copy of such documents, is materially expensive but necessary to protect USG interests.
E. **Supporting Documentation.** The case manager must maintain a directory of supporting documentation locations. All supporting documentation must be reviewed carefully prior to disposal or retirement. In addition, coordinate with your DoD-appointed Federal Agency Records Officer for appropriateness and any potential litigation holds. A closed case from an FMS purchaser perspective may remain open from a DoD accounting perspective.

---

0601.02 Purpose

This chapter establishes guidance on maintaining documents for case files. The guidance is designed to facilitate uniformity of case file maintenance and ensure that all necessary documentation is readily available and retrievable by the appropriate activities. All policy applies regardless of storage media (i.e., electronic and/or hard copy).

0601.03 Authoritative Guidance

Authorities for case file policy include:

C. NARA, *GRS 1.1*, “Financial Management and Reporting Records,” which maintains FMS minimum document retention requirements; and

D. *DoD Instruction 5015.02*, “DoD Records Management Program.”

---

0602 CONCEPTS AND REQUIREMENTS

0602.01 General

A. Maintain case files in official folders, uniformly titled, and filed by section as discussed in paragraph 060301. When more than one file folder is required, the folders must be appropriately numbered (e.g., 1 of 2 or 2 of 2). The documents placed in each folder must be maintained in chronological sequence by section.

B. When a case is implemented, each implementing DoD Component must identify and direct which supporting activities are to maintain the required documentation on file. For example, a copy of the Letter of Offer and Acceptance (LOA) may be on file with several activities, while the Quarterly Requisition Report (QRR) applicable to that case would have a more limited distribution.

C. Certain records associated with a case may be voluminous listings that are too large to be printed and placed in official folders. Instead of filing the listing in the folder annotate on the General Information Cover Sheet, or within the file itself, where such electronic
information is located. The purpose of filing such documents, or cross-referencing notes to such documents, is to maintain the integrity of the case audit trail and to consider all applicable information during case execution and at case closure.

D. The uniform case folder, as outlined in section 0603, lists those documents considered to be of primary relevance on a DoD-wide basis. DoD Components may also wish to include additional documents as part of the case file. The inclusion of such documents is encouraged, and it is recommended that they be filed in the form of numbered appendices following in sequence after the required sections.

E. The value of the uniform case folder is in maintaining a complete and accurate record for audit purposes and ensuring a standard and systematic approach to case file maintenance. With management support, it may also serve as a checklist of planned and completed actions, thereby facilitating the case execution and closure process. In addition, the existence of a comprehensive and well-maintained file facilitates supervisory reviews and brings greater efficiency to the transfer of ongoing case management responsibilities.

060202. Responsibilities

Each DoD Component, and Defense Finance and Accounting Service Security Cooperation Accounting (DFAS SCA), is responsible for maintaining its respective portion of the case file as required in Section 0603.

0603 UNIFORM CASE DOCUMENTATION

060301. Documentation Requirements

The minimum required documentation for complete and effective case management includes the following sections:

A. General Information Cover Sheet: see Table 6-1,

B. Letter of Request (LOR) Documentation: see Table 6-2,

C. Planning Information: see Table 6-3,

D. Security Assistance (SA) Survey Documentation: see Table 6-4,

E. FMS Contractual Instruments Documentation: see Table 6-5,

F. Financing Arrangements Documentation: see Table 6-6,

G. Financial Control Documentation: see Table 6-7,

H. Implementation Directives Documentation: see Table 6-8,
I. DSAMS and DSCA 1200 System Update Documentation: see Table 6-9,
J. Case Execution Documentation: see Table 6-10,
K. Special Logistics Documentation: see Table 6-11,
L. Accessorial Charges Documentation: see Table 6-12,
M. Government Furnished Materiel (GFM) Documentation: see Table 6-13,
N. FMS Billing Documentation: see Table 6-14,
O. Supply Discrepancy Report (SDR) Billing Documentation: see Table 6-15,
P. Review Information: see Table 6-16,
Q. Case Closure Documentation: see Table 6-17, and
R. Reopened Case Documentation: see Table 6-18.

*060302. Documentation Maintenance and Disposition

The documentation must be accumulated throughout the life of the case from inception through final case closure. Implementing Agencies (IAs) may retire, but not destroy, closed case file records to document storage areas upon final case closure by DFAS SCA. DFAS SCA may retire, but not destroy, closed case file records, including delivery listings, no earlier than one year from the date of the latest case-related correspondence with the purchaser or final case closure, whichever is later. The IAs and DFAS SCA must maintain an accurate record of the location of all retired records to ensure they can be located as needed. For more detailed guidance on records retention policy, consult the appropriate DoD-appointed Federal Agency Records Officer using the link provided in subparagraph 060101.B.

VOLUME 15, CHAPTER 7: “PRICING”

SUMMARY OF MAJOR CHANGES

All changes are denoted by blue font.

Substantive revisions are denoted by an asterisk (*) symbol preceding the section, paragraph, table, or figure that includes the revision.

Unless otherwise noted, chapters referenced are contained in this volume.

Hyperlinks are denoted by bold, italic, blue, and underlined font.

The previous version dated January 2014 is archived.

CHAPTER 7

PRICING

0701  GENERAL

070101. Purpose

The purpose of this chapter is to establish pricing policy for articles, services, and training and to ensure the Department of Defense (DoD) Components uniformly and consistently apply pricing methodologies that recoup current period costs and a reasonable contribution to sunk investment costs. Sunk investment costs represent historical decisions to expend research and development (R&D) funds to develop new equipment or to purchase assets or facilities. Foreign Military Sales (FMS) purchasers and Title 10, United States Code (U.S.C.), Building Partner Capacity (BPC) partner nations benefit from the investment decision, although it is based entirely on DoD requirements when they purchase related equipment or when the use of the assets and facilities is necessary in order to provide ordered services or to deliver ordered materiel.

070102. Authoritative Guidance

0702  RESPONSIBILITIES

070201. Price Establishment

The DoD Components that sell defense articles or services under the authority of the AECA must:

A. Ensure defense articles and services provided to FMS purchasers are priced in accordance with the policies established in this chapter; and

B. Establish a single selling price for defense articles and services. A single selling price includes the additional charges for nonrecurring research, development, test, and evaluation (RDT&E) and production costs, costs for recurring procurement support efforts, transportation costs when the use of DoD transportation is approved, and other applicable surcharges.

070202. Price Information

The DoD Components must:

A. Ensure each price estimate provided to a FMS purchaser is a reasonable approximation of the final price. However, the fact that an estimate is not consistent with the final
cost accumulation does not negate the requirement to establish a final price (actual cost) in accordance with this chapter;

B. Provide detailed price and cost information upon request by the FMS purchaser. Proprietary cost and pricing data must not be disclosed unless there is prior authorization of the contractor concerned;

C. Present prices of defense articles and services to FMS purchasers and DoD Components in the format of FMS Letters of Offer and Acceptance (LOAs) or BPC pseudo LOAs (unless otherwise specified, references to an LOA in this chapter apply to both types of documents). The administrative surcharge percentage prescribed in this chapter is subject to change without prior approval of the purchaser. The administrative surcharge applicable to each line on the LOA is to be specified in a note in each LOA document. The LOA must be used unless a waiver is obtained from the Director, Defense Security Cooperation Agency (DSCA), to use a suitable substitute instrument. Any substitute instrument must contain the same cost elements as those identified on the LOA; and

D. Cite directly the FMS Trust Fund (11X8242) purchaser(s) subaccount(s) on contractual documents for new procurements initiated as a result of FMS Orders (FMSOs).

070203. Transportation

The DoD Components must ensure that the transportation of materiel, other than Defense Working Capital Fund (DWCF) materiel, sold to FMS purchasers is accomplished through the use of collect commercial bills of lading to the maximum extent possible. When transportation is accomplished through the use of Government Bills of Lading (GBLs) including DWCF materiel, the GBL must be annotated to show that Interstate Commerce Act, Section 10721 (49 U.S.C., Section 10721) is not applicable and that normal commercial rates must be billed to the U.S. Government (USG) for the shipment. Refer to the DSCA 5105.38-M, Security Assistance Management Manual (SAMM), Chapter 7 and Chapter 15 for guidance on the use of the Defense Transportation System (DTS) in support of FMS and BPC cases.

070204. Case Management

A. The DoD Components must assign a case manager to each active FMS case. The case manager is responsible for the total financial and logistical aspects of the case, to include ensuring:

1. Prescribed pricing policies are followed;

2. Delivery reports have been processed to the Defense Finance and Accounting Service (DFAS), Security Cooperation Accounting (SCA); and

3. Reconciliation of the FMS case financially and logistically throughout the life of the FMS case has occurred, and not less than annually:
a. On the anniversary of each major case, and/or

b. In preparation for a review with the FMS purchaser.

B. The case manager’s authority to direct other supporting activities must be commensurate with the responsibilities in subparagraphs 070204.A.1-3. Refer to SAMM, Chapter 2 for additional discussion on case management responsibilities.

070205. Buy Back

The DoD Component must ensure that the USG “buy back” of items from foreign governments initially sold under FMS programs is conducted in accordance with procurement rules involving the obligation of DoD appropriations. Monies due as a result of such procurement may be paid by the DoD paying office into the FMS Trust Fund in accordance with the foreign government’s instructions (e.g., applied to a case or a cash refund). The FMS purchaser’s “buy back” holding account is used as an audit trail for the transaction. A direct exchange is permitted for a reparable item of the same type under certain circumstances (see subparagraphs 071502.B.2-3).

0703 ESTIMATING PRICES AND BILLED VALUES FOR AN LOA

FMS pricing policy for an LOA stipulates how costs are determined when the FMS purchaser is billed and establishes how to develop a price estimate. An essential difference between the billed price and the estimated price on an offer is the degree of firmness associated with each pricing method. Title 22, U.S.C. § 2751 states that sales are approved only when they are consistent with the foreign policy interest of the United States, and the purpose and principles of the United Nations Charter.

070301. Pricing Requirements

A. Defense Articles and Services from Stock. Title 22, U.S.C. § 2761(a)(1) states that a foreign country or international organization pays in U.S. dollars for:

1. Defense articles not intended to be replaced at the time a sales agreement is entered into, not less than the actual value;

2. Defense articles intended to be replaced at the time a sales agreement is entered into, the estimated cost of replacement of such article, including the contract or production costs less any depreciation in the value of such article; or

3. Defense services, for the full cost to the USG of furnishing such service, except in the case of training sold to a purchaser under the terms in paragraph 072101. In this latter case, only those additional costs that are incurred in furnishing such assistance must be recovered.
B. Charges Applicable to the Sale of Defense Articles or Services. Title 22, U.S.C. § 2767(e)(1) states that the selling price must include appropriate charges for:

1. Administrative services, calculated on an average percentage basis to recover the full estimated costs (excluding a pro rata share of fixed base operations costs) of administration of sales made to all purchasers of such defense articles and services as specified in 22 U.S.C. § 2792(b) and (c);

2. A proportionate amount of any nonrecurring costs (NC) of R&D and production of major defense equipment (MDE), except for equipment wholly paid for either from U.S. military assistance funds under 22 U.S.C. § 2311(a)(3), or from U.S. credit funds made available on a non-repayable basis under 22 U.S.C. § 2763; and

3. The recovery of ordinary inventory losses associated with the sale of defense articles that are being stored at the expense of the purchaser of such articles.

C. Price of New Procurement. Title 22, U.S.C. § 2762 requires eligible countries or international organizations to pay the full amount of the contract and any damages and costs that may accrue due to the cancellation of such contracts (termination liability) when the USG enters into a contract for a new procurement on their behalf. Payment to the USG by the foreign country or international organization must be in U.S. dollars.

D. Price of Design and Construction Services. Title 22, U.S.C. § 2769 requires that foreign countries or international organizations pay the full cost of design and construction services, and any damages and costs that may accrue due to the cancellation of such contracts, when the USG enters into a contract for design and construction services on their behalf.

070302. LOA Values

On the LOA, the estimated price is to be a reasonable approximation of the amount which will ultimately be billed, to include the Office of the Under Secretary of Defense (Comptroller) (OUSD(C)) inflation indices and other factors. Amounts to be placed on the LOA, except unit price, will be rounded to the next whole dollar. LOAs are written either as a defined order, blanket order, or as a Cooperative Logistics Supply Support Agreement (CLSSA). Pricing for each type of LOA requires special treatment. Moreover, an LOA may involve lines that are defined order or blanket order, while CLSSA cases have no other lines. An LOA must include only prices for defense articles and services sold to FMS purchasers and must not be adjusted for any reason other than authorized by this chapter (such as for inflation or for contingencies).

A. Defined Order LOAs. Defined Order LOAs are for specified defense articles or services and are usually written for the acquisition of systems. Orders are normally placed by the Implementing Agency (IA) following LOA implementation.

1. Cost Estimates. IAs involved in procuring such systems should have available estimates of the expected costs as the basis for developing the FMS price. These estimates, however, must be validated for the configuration to be delivered. Additional charges
detailed in other sections of this chapter must also be applied. When developing estimates for weapon systems in different configurations than those for which IA estimates are available, the IA should obtain contractor estimates for the different configurations.

2. **Inflation.** When a price estimate must be inflated for delivery of a weapon system several years in the future, OUSD(C) published inflation indices must be used. If other price inflation or alternate OUSD(C) published factors apply, those factors must be documented in case files and justified to OUSD(C) for approval before finalizing LOAs.

B. **Blanket Order LOAs.** Blanket Order LOAs are for categories of defense articles or services with no definitive listing of items or quantities to be provided.

1. **Cost Estimates**

   a. For hardware support items, the price developed may be based on either a computer listing of specified parts, or a percentage of the cost of the major system to be supported. In other instances, the price on the LOA may simply be a dollar value line to enable the purchaser to requisition those items up to the dollar ceiling in the Letter of Request. In the latter case, the amount written into the LOA can rely in part on the estimated activity in the country’s program.

   b. In developing a price for LOA purposes where a blanket order is involved, the source of supply might not be known. In this case, certain assumptions must be made. For example, in writing a blanket order case for spare parts for an aircraft, an agency may have to make assumptions about the source and value of items in order to estimate various pricing elements. This allows the analyst to apply the appropriate costs and charges. At the time of the billing for delivery of an item charged to the case, the appropriate surcharges must be applied by DFAS SCA in accordance with Chapter 8. Agencies that have developed an ordering history for certain countries or weapon systems may be able to develop a ratio for items using procurement data and items from stock that enable a more precise application of surcharges for the estimate.

2. **Inflation.** When developing a price for items to be delivered beyond the period for which pricing data is available, it will be necessary to apply inflation factors as in defined order cases.

C. **CLSSA.** CLSSA LOAs are designed to provide responsive and continuous supply support at the depot level for U.S.-made military materiel possessed by foreign countries and international organizations. CLSSAs are normally the most effective means for providing common repair parts and secondary item support for equipment of U.S. origin that is in allied and friendly country’s inventories. Pricing for CLSSA LOAs must be estimated per section 0708.

   070303. **Billing Values**

   On the DoD (DD) Form 645, “FMS Billing Statement,” the price, at the point in time when actual costs are known and reported to DFAS SCA, should be firm and exact (the exception being
“E” (Estimated) price code transactions). The billed cost (except when a rounded dollar indicator code is utilized) is detailed in dollars and cents.

0704 ACCESSORIAL COSTS

Accessorial costs represent certain expenses incident to issues, sales, and transfers of materiel that may or may not be included in the standard price or contract cost of materiel. The various types of accessorial costs that may be applicable to FMS shipments include packing, crating, and handling (PC&H); transportation; port loading and unloading; and staging.

070401. PC&H

PC&H includes the costs incurred at DoD facilities for labor, materials, or services in removing requisitioned articles from storage locations, preparing them for shipment from the storage or distribution points, and processing necessary materiel release confirmation documents.

A. PC&H costs will be based on the original acquisition value of materiel sold from DoD inventories to recover the cost except for DWCF items delivered after October 1, 1990, since DWCF standard pricing already includes PC&H. PC&H will not be assessed on articles shipped directly from the manufacturer since no in-house DoD labor, material, or services are involved. The use of actual costs, when known, is highly encouraged. If actual costs are not available or are not cost effective to obtain, a surcharge rate can be used. Prescribed PC&H rates are:

1. A PC&H rate of 3.5 percent added to the original acquisition value of materiel with a unit price of $50,000 or less (SAMM, C9.T4); and

2. An additional charge added at a rate equal to 1 percent of that portion of the original acquisition value of materiel over $50,000 (SAMM, C9.T4).

B. The PC&H charge for service/maintenance cases is applied to the acquisition cost of the item(s) sold or serviced, not the cost of the service. The rate(s) in subparagraphs 070401.A.1-2 apply.

C. For excess items, PC&H is computed on the original acquisition value and not the excess reduced value. The use of actual costs, when known, is highly encouraged.

D. For pricing blanket order lines on LOAs, use 3.5 percent on the line value since the unit price is unknown.

070402. Transportation

Transportation costs include DoD-supplied or DoD-financed transportation (land, air, inland and coastwise waterways) within and outside the United States, and overseas transportation by vessel or air. This includes parcel post via surface or air.
A. **Non-DWCF.** The transportation of FMS materiel must be on collect commercial bills of lading to the maximum extent possible. When transportation is accomplished using a GBL, it must show that 49 U.S.C. § 10721 is not applicable and that normal commercial rates must be billed to the USG for the shipment. Shipping activities must clearly identify materiel as DWCF or non-DWCF to ensure the appropriate fund cite is issued for inland Continental United States (CONUS) transportation.

B. **DWCF.** Effective October 1, 1990, DWCF standard pricing includes transportation costs within CONUS. If the first destination transportation is accomplished through GBLs, it must contain the DWCF fund cite, and show that 49 U.S.C. § 10721 is not applicable and that normal commercial rates must be billed to the USG for the shipment. Shipping activities must clearly identify materiel as DWCF or non-DWCF to ensure the appropriate fund cite is issued for inland CONUS transportation.

C. **Pricing Transportation.** Price transportation on LOAs as follows:

1. **Above-the-Line Transportation Services.** When FMS purchasers use DTS, an estimated amount is placed above-the-line to pay for transportation services that are not appropriate to be funded with below-the-line estimates. Examples of these transportation services include premium transportation such as Special Assignment Airlift Mission flights, securing a vessel for a one time only shipment, staging cost for consolidating shipments, Radio-Frequency Identification tagging and tracking devices, special security (guards hired to escort the shipment), and other unique requirements. For more information on DTC percentages, see the SAMM, *Chapter 7*.

2. **Below-the-Line Transportation Services.** When FMS purchasers use DTS, a Delivery Term Code (DTC) percentage is applied to the line to compute an estimated amount for these costs on the LOA. DTC percentages are based on the mode of transportation provided (e.g., port-to-port, depot-to-in-country destination) and the rate area where articles are being delivered. For more information on DTC percentages, see the SAMM, *Chapter 7*.

3. **Exception.** The DoD Components must apply estimated actual totals contained in the SAMM Transportation Cost Look-Up Tables, *Appendix 2*, to estimate transportation costs for items normally shipped in DTS (e.g., sensitive/hazardous end items) when costs using standard transportation percentages are significantly different from actual charges.

4. **Excess Items.** For excess items, transportation is computed on the original acquisition value and not the excess reduced value, except when accountability for excess items has been transferred to "Property Disposal," the provisions of the Defense Materiel Disposition Manual, *DoD 4160.21-M*, Volume 3 must apply. The use of actual costs, when known, is highly encouraged.

**070403. Port Loading and Unloading Costs**

Port loading and unloading costs include DoD-supplied or DoD-financed labor, materials, or services for loading, unloading, and handling at ports of embarkation or debarkation.
070404. Staging

The actual costs of staging must be recovered as part of an above-the-line service charge. Such charges must not be duplicative of any other accessorial cost.

A. Costs for the staging of materiel in CONUS DoD (non-DWCF owned/operated) facilities are additional to DTS costs, and a 3 percent staging charge is applicable, if DSCA has authorized below-the-line recoupment of staging.

B. DWCF activities must bill actual costs incurred as an above-the-line service.

C. When non-excess materiel is supplied for DoD storage points located Outside CONUS (OCONUS), the applicable rates must be charged as a prepositioning cost.

0705 FMS ADMINISTRATIVE SURCHARGE

An administrative surcharge must be added to all FMS cases (unless waived pursuant to legal authority, see section 0713) to recover DoD expenses. SAMM, C9.T4 gives further guidance on the current FMS administrative surcharges and how they are applied.

070501. Prescribed Standard FMS Administrative Surcharge

A. FMS Administrative Surcharge. The applicable FMS administrative surcharge is dependent upon variables associated with the LOA. For cost increases within the scope of the LOA, modifications retain the FMS administrative surcharge rates associated with the lines modified. When an amendment adds a new line to an existing FMS case, the FMS administrative surcharge rate in effect at that time is applied. The following FMS administrative surcharge rates are applicable for LOA standard cases/lines and for the periods shown:

* 1. Effective June 1, 2018. A uniform 3.2 percent FMS administrative surcharge is effective for all new LOA lines accepted by the purchaser on or after June 1, 2018.

2. November 1, 2012 – May 31, 2018. A uniform 3.5 percent FMS administrative surcharge is effective for all new LOA lines accepted by the purchaser on or after November 1, 2012 through May 31, 2018.

3. August 1, 2006 – October 31, 2012. A uniform 3.8 percent FMS administrative surcharge rate was used for all new LOA lines accepted by the purchaser during this period. Program Management Lines were no longer applicable to new cases accepted on or after this date. USG services, over or above those covered by the FMS administrative surcharge, were provided on well-defined line items. All cases accepted on or after August 1, 2006 through October 31, 2012, collected a minimum charge to ensure sufficient funds to prepare and implement each case by including small case management lines (SCML). The FMS administrative surcharge rate is not applied against the SCML. This application was suspended
for cases accepted, implemented, or decreased on or after July 3, 2012. Refer to the SAMM, C9.4.7 for specific information concerning the application of the SCML.

4. **June 1, 1999 - July 31, 2006.** A uniform 2.5 percent FMS administrative surcharge rate for standard lines and 5 percent for nonstandard lines on LOAs was effective on or after June 1, 1999 through July 31, 2006.

5. **October 1, 1977 - May 31, 1999.** A uniform 3 percent FMS administrative surcharge rate for LOA standard articles/services lines was effective on or after October 1, 1977 through May 31, 1999.

6. **March 10, 1977 - September 30, 1977.** A uniform 2 percent FMS administrative surcharge rate was effective for LOAs signed by the IA on or after March 10, 1977 through September 30, 1977.

7. **January 29, 1970 - March 9, 1977.** A 2 percent FMS administrative surcharge rate was applied on January 29, 1970 through March 9, 1977, unless the supplying Military Department determined that the rate was either insufficient or in excess of actual administrative expenses, for any single FMS case. The use of actual FMS case administrative expenses was authorized.

**B. Supply Support Arrangements.** An FMS administrative surcharge of 5 percent must be added to the basic sales price of the initial on-hand portion of CLSSA. See paragraph 070803 and SAMM C9.T4.

**C. FMSOs for Nonstandard Articles and Services.** For case lines accepted prior to August 1, 2006, an FMS administrative surcharge rate of 5 percent must be added to the basic sales price of FMSOs for nonstandard articles and services. However, the standard rate in effect must be applied under the following circumstances:

1. A contractor is designated as the source of supply in lieu of a DoD Component performing additional work for the nonstandard articles and services, or

2. A case/program management line is included in the LOA that specifically recovers costs associated with the tasks performed in support of the sale of nonstandard articles or services.

070502. **DoD Component Administrative Expenses**

Administrative expense calculations of component FMS program support costs must include a pro rata share of manpower and contract costs. The DoD Component administrative support costs must not include costs prescribed in this Volume as above-the-line costs, nor should the costs include DoD mission costs. See SAMM, C9.4.2 for case related manpower functions and appropriate funding sources.
A. The personnel portion of actual administrative expenses must include a pro rata share of those personnel who spend 10 percent or more of their time performing FMS duties. This same measure applies to contractor-provided support for FMS administrative functions. These functions may be indirect (e.g., support across multiple purchasers/cases) or direct (e.g., support to a specific case or program).

B. DoD organizations that provide general administrative support to the FMS program must recoup the full cost (excluding a pro rata share of fixed base operations costs) to provide such support.

070503. FMS Administrative Surcharge on Cases Closed at Reduced or No Value

A. For any case that is closed, the USG will retain funds to pay for estimated administrative costs associated with the case, even if no articles or services have been delivered ($0 delivered value). The minimum, nonrefundable amount will be the value when combining the SCML (if applicable) and the FMS administrative surcharge value; one-half of the FMS administrative surcharge estimated on the case; or the standard FMS administrative surcharge percentage of the expended value, whichever is greater. See SAMM, C6.8.

B. DSCA Directorate of Business Operations (DBO) may approve reductions to the minimum nonrefundable amount when it can be clearly shown that the actual values of administrative costs on the case are less than the minimum nonrefundable amount or if the case is cancelled for the convenience of the USG.

C. Case Managers wishing to request that a case be closed at $0 articles and/or services value, must contact DSCA DBO for approval. The DSCA DBO reply is sent to the Case Manager and DFAS SCA.

D. Cases cancelled for the convenience of the USG may not incur an administrative cancellation fee, but require the amount of the FMS administrative surcharge assessed be approved by DSCA DBO.

E. For cases with an ordered value greater than or equal to $25,000,000, and closing at $0 delivered articles and/or service value, the IA will submit a recommended nonrefundable FMS administrative surcharge amount to DSCA DBO for approval.

070504. Waived FMS Administrative Surcharge

A. General. Normally, the amount of the FMS administrative surcharge that has been waived or reduced for a particular FMS case, pursuant to statute, must be reimbursed to the FMS administrative surcharge account. For such reimbursements, the IA (which is the proponent of the case on which the charge has been waived) must obligate its current available appropriations for the full amount being waived when the case is implemented. DFAS SCA calculates the amount of the earned FMS administrative surcharge on cases with waived administrative surcharge and submits quarterly billings to the appropriate IA.
B. Funds Control. The LOA package for cases with waived FMS administrative surcharge must cite the authority, dollar amount waived, and obligating document number in a case note. The IA must include a copy of the certified document committing the funds as part of the LOA coordination package. See Volume 14 for guidance on the administrative control of appropriations.

0706 LOGISTICS SUPPORT CHARGE (LSC)

LSC was applicable to materiel and services identified on the Military Articles and Services List, excluding DWCF materiel. LSC was assessed at 3.1 percent of the articles and services reported delivered on or after April 1, 1987 and prior to October 1, 2007. The SAMM, C9.T4 explains the elimination of the LSC and how to treat prior year LSC charges.

0707 PROGRAM MANAGEMENT SERVICES

070701. Level of Service

A. FMS Administrative Surcharge Funded Manpower. There is a certain level of routine support provided to an FMS customer on each case. Costs associated with this workload are captured via the FMS administrative surcharge assessed against the case.

B. LOA Funded Manpower. An IA may determine there are additional services directly related to the defense articles or services being provided, that are over or above the routine level of support generally provided to an FMS customer. These costs may be included on an FMS case as an above-the-line cost at the request of the FMS purchaser or by the USG based on the analysis of what will be required to successfully implement and execute the requested program/case. An auditable methodology must be used to document all costs included on these lines.

C. DoD Component Operating Funds. In accordance with OUSD(C) Memo, “Budget Policy on use of DoD Component Operating Funds in Support of Foreign Security Forces,” Military Departments have the responsibility to develop, maintain, and institutionalize the capabilities of Service members and DoD Expeditionary Civilian personnel to support DoD efforts to organize, train, equip, and advise foreign military forces and relevant supporting institutions. DoD Components are to budget in their operating accounts all costs for DoD military and civilian personnel in Afghanistan, Iraq, and other countries, as well as reach back support, encompassed by DoD Assistance Appropriations.

1. Costs include, but are not limited to, military pay, special pay, transportation, pre-deployment training and training in theater, forward base operating costs, life support, communications, vehicle maintenance, program management, and contracts for linguists, logistics, security, and infrastructure needed to support such DoD personnel in-country.
2. Where the Military Department has discretion, as a matter of budget policy, the following activities will be budgeted and paid from DoD Assistance Appropriations and not budgeted or paid from DoD Component operating accounts:

   a. In circumstances where DSCA provides services pursuant to the Economy Act to the organization designated by the Secretary of Defense or Deputy Secretary of Defense to have management responsibility for the DoD Assistance Appropriation (Managing Organization), amounts from such DoD Assistance Appropriation will be used to reimburse DSCA for its administrative expenses in providing the ordered services;

   b. In circumstances where the Multi-National Aviation Special Project Office (MASPO) provides services pursuant to the Economy Act to the Managing Organization, amounts from such DoD Assistance Appropriation will be used to reimburse MASPO for the actual costs of the procurement, sustainment, and technical support services;

   c. In circumstances where the U.S. Army Corps of Engineers (USACE) provides services to the Managing Organization, amounts from such DoD Assistance Appropriation will be used to reimburse USACE for its project design, contract preparation and award, and supervision and administration expenses in providing the ordered services;

   d. In circumstances where an organization funded by a DWCF provides supplies or services pursuant to 10 U.S.C. § 2208 to the Managing Organization, amounts from such DoD Assistance Appropriation will be used to pay the working capital-funded organization for the costs of providing the ordered supplies or services;

   e. In circumstances where the Managing Organization arranges for a member of an eligible foreign security force to receive education or training at a U.S. Service school, amounts from such DoD Assistance Appropriation will be used to reimburse the Service school at the lowest rate charged to other foreign countries; and

   f. In circumstances where the Managing Organization arranges for a member of an eligible foreign security force to attend a U.S. Service Academy, amounts from such DoD Assistance Appropriation will be used to reimburse the U.S. Service Academy at the lowest rate charged to other foreign countries, unless reimbursement for the cost of attendance is waived pursuant to 10 U.S.C. § 347(a)(6)(B).

070702. Cost Allocation

DoD Components must ensure that each type of cost is allocated only once and only on one basis to an FMS case. Additional discussion on consistency in allocating costs incurred for the same purpose is contained in Volume 4. Care must be taken to ensure against “double charging” for the same costs. The FMS Case-Related Manpower Functions and Funding Source
Manpower Matrix (SAMM, C9.T2) describes in detail the manpower functions that may be funded on FMS cases and the funding source for those related costs.

0708 CLSSA

070801. CLSSA Management

DoD Instruction 2010.06, "Materiel Interoperability and Standardization with Allies and Coalition Partners," and the SAMM, C5.4.3.3 prescribe the policies and criteria for establishing CLSSAs. CLSSAs provide for the execution of FMSOs covering stock, consumption, and storage. Two FMS cases are required for supply support arrangements, an FMSO I case and a FMSO II case. Both cases must be executed in order for FMS requirements to be anticipated and to be satisfied on an equal footing with U.S. requirements.

A. FMSO I

1. The FMSO I case is subdivided into two parts: Part A represents the on-hand portion of the inventory (normally 5 months), and Part B represents an on-order dependable undertaking (normally a 12-month period). In unusual circumstances, it may be determined that the 5-month on-hand and 12-month on-order levels are inappropriate for the particular equipment being supported. In these circumstances, the on-hand and on-order requirements may be adjusted to more realistically reflect DoD on-hand and on-order levels for the items being supported; a renegotiation of the CLSSA may be necessary. The office that developed the CLSSA must retain documentation in support of such determinations.

2. For new FMSO I cases accepted on or after September 20, 2005, the on-hand portion of the inventory list will be 30 percent of the total investment/equity list. For FMSO I cases accepted prior to September 20, 2005, the on-hand portion of the inventory list will remain at 5/17 of the total investment/equity list.

B. FMSO II. The FMSO II case represents the foreign purchaser’s anticipated yearly consumption under CLSSA.

C. Cash Requirements

1. Cash paid on acceptance of the FMSO I should equal the Part A on-hand portion of the inventory and administrative surcharge. The cash required to liquidate obligations incurred with suppliers for the on-order portion is the cash paid by the purchaser in connection with the FMSO II case and, in turn, creates a new order received and recreates obligational authority (OA) back to the FMSO I.

2. If the amount of progress payments required by the IA varies by more than 10 percent of the Part A value, the DoD Component must:

   a. Amend the case to bring the Part A value in line with the DoD Component progress payment requirement; or
b. Request additional progress payments to equal the Part A value.

3. Cash to cover requisitions is paid in advance of each quarter covered by the case. The cycle of obligation, acquisition, requisition, issuance, and payment can be summarized as follows:

   a. The FMSO I, Parts A and B, grant the DoD Components OA up to the case amount;
   b. The cash provided under FMSO I, Part A, finance the on-hand inventory;
   c. Requisitions made by the purchaser are filled from the on-hand inventory;
   d. Replenishment of on-hand inventory is made from contracts awarded under OA granted by FMSO I, Part B;
   e. Payments to contractors are made from funds provided in accordance with FMSO II terms; and
   f. Liquidation of obligations by payment to contractors in effect recreates OA granted by FMSO I, Part B, and the cycle commences again.

D. OA

1. The entire amount of the FMSO I case represents OA. Normally, no cash billings are required against the FMSO I, Part B, unless the CLSSA is either partly or wholly terminated. The FMSO II case provides OA only to the extent purchaser orders are received. Thus, proper working of the FMSO I and II should result in a constant 12 months of OA in the applicable appropriation or fund account, never more or less, after the on-hand inventory of FMSO I, Part A, has been acquired.

2. The cash and OA derived from the FMSO I and FMSO II are to be transferred to the commodity command or supply agency that is expected to provide supply support to the foreign country. This command or supply agency must use such cash and OA to increase stock and on-order quantities in anticipation of requisitions from the country which entered into the CLSSA.

E. Both parts of the FMSO I provide OA equal to its value in the DoD Component activity giving the supply support to the purchaser.

070802. General Pricing

Use the pricing requirements in subparagraph 071502.B to price CLSSA cases.
070803. FMS Administrative Surcharge

A. FMSO I (Part A). A one-time nonrefundable, administrative surcharge of 5 percent must be charged on the on-hand portion (Part A) of the FMSO I case. For amendments that decrease the value of the on-hand portion (Part A), there must be no adjustment made to the administrative surcharge. However, for amendments that increase the value of the on-hand portion (Part A), the 5 percent nonrefundable administrative surcharge must be charged on the total value of the increase. The following is an example of the administrative fee computation:

<table>
<thead>
<tr>
<th>Document</th>
<th>Revised On-Hand Materiel Value</th>
<th>Increase or (Decrease) to Previous On-Hand Materiel Value</th>
<th>5% Admin Fee Charge on Increase</th>
<th>Admin Fee Accrued Expenditures</th>
</tr>
</thead>
<tbody>
<tr>
<td>Basic LOA</td>
<td>$3,000,000</td>
<td>$3,000,000</td>
<td>$150,000</td>
<td>$150,000</td>
</tr>
<tr>
<td>Amend 1</td>
<td>4,000,000</td>
<td>1,000,000</td>
<td>50,000</td>
<td>200,000</td>
</tr>
<tr>
<td>Amend 2</td>
<td>2,000,000</td>

<td>5,000,000</td>
<td>2,000,000</td>
<td>100,000</td>
<td>350,000</td>
</tr>
<tr>
<td>Amend 5</td>
<td>4,000,000</td>
<td>(1,000,000)</td>
<td>N/A (Decrease)</td>
<td>350,000</td>
</tr>
</tbody>
</table>

B. FMSO I (Part B). No administrative surcharge must be charged on the on-order portion (Part B) of the FMSO I case. The current administrative surcharge (3.2 percent) must be charged on requisitions processed under FMSO II cases. If a FMSO I agreement is terminated, the current administrative surcharge must be charged for the inventory over and above the on-hand portion of the case. There must be no additional surcharge on the on-hand portion of the case, since the purchaser has made advance payment of the administrative charges applicable to this portion of the case.

070804. Storage Costs

There is no annual inventory maintenance and storage charge for DWCF items for CLSSAs, as the DWCF standard (stabilized) price recoups all costs. For non-DWCF items, storage fees must be charged, on the value of stored assets, based on the on-hand portion of the FMSO I. The annual storage fee is 1.5 percent. For cases not remaining open a full year, a fee of 0.125 percent per month must be charged (SAMM C9.T4).

070805. Normal Operating Inventory Loss

The standard prices paid by the foreign government for stock level of DWCF items already include a surcharge for estimated normal operating losses in storage.

070806. Unusual Inventory Loss

Stock losses due to enemy action, major disaster, or other casualty from a natural phenomenon must be assessed against the foreign government in an amount proportionate to the ratio that the value of its stock case bears to the total value of stocks in storage.
070807. Obsolete Materiel

A. **Obsolete or Excess to the United States.** If an item becomes obsolete or excess to the United States but not to the foreign government, the United States may request the foreign government to withdraw its undelivered quantity of the item. Additional quantities may be offered to the foreign government at fair value prices (see subparagraphs 071503.A-B).

B. **Obsolete or Excess to the Foreign Government.** If items become obsolete or excess to the requirements of the foreign government but not to the United States, the foreign government may request the United States to consider cancellation of its order and to apply its equity in the undelivered quantity to subsequent orders for other items. If cancellation is not agreed to, arrangements must be made for the United States to dispose of the materiel and credit the net proceeds to the foreign government. If the United States has a need for the materiel, credit the stock level for the return of materiel to U.S. stocks in accordance with departmental procedures.

C. **Obsolete or Excess to the United States and Foreign Government.** If items become obsolete or excess to the requirements of both the United States and the foreign government, arrangements must be made for the United States to dispose of the materiel and the proportional share of the net proceeds of sale must be credited to the foreign government.

070808. Purchaser Equity

CLSSAs are written in terms of an absolute dollar amount of support to be provided under the arrangement. A listing of the specific items required to support the weapon system is not developed. Under this "dollar value" concept, the FMS purchaser's equity must remain valued at the cash deposited for the FMSO I. Upon termination, a review must be made of the foreign country’s demand data for specific items. When demand data results in the procurement of stock above the DoD-approved retention levels, the foreign country must be informed that applicable stocks owned by that country must be drawn down or that a settlement agreeable to both parties must be reached.

0709 STORAGE, REPAIR, OR MODIFICATION OF PURCHASER-OWNED MATERIEL

070901. Storage

Costs applicable to storage of purchaser-owned articles include the functions of receiving, care and preservation, set assembly and related activities, and overhead operations (such as re-warehousing, maintenance of operating equipment, physical inventories, and cleaning areas).

A. Storage charges are applicable to the non-DWCF on-hand portion of FMSO I cases, cases on which DoD is ready to deliver applicable items but has been requested by the purchaser to delay delivery, and cases on which DoD cannot deliver due to legal or policy restrictions.
B. Charges commence 15 days following the date of availability (there is no annual inventory maintenance and storage charge for DWCF items for CLSSAs, as the DWCF standard (stabilized) price recoups all costs).

C. A uniform DoD annual rate of 1.5 percent or 0.125 percent of the average monthly value of purchaser-owned materiel will be charged to applicable FMS cases to recover an activity’s storage cost, unless a separate charge is negotiated with the storage facility.

D. A separate line on the LOA(s) should capture the storage-related costs. If this line did not previously exist, it can be added via an LOA modification.

070902. Repair or Modification

When a foreign government requests the repair and/or modification of items from non-DWCF activities, the actual or estimated cost of the work will be priced on a job order basis. An illustration of price computation is at Figure 7-1.

A. Labor costs will be computed in accordance with section 0720.

B. Materials and supplies obtained from the military supply system stocks will be priced in accordance with section 0715.

C. Materials, supplies, or services obtained directly from contractors will be priced in accordance with section 0716.

D. Transportation and related costs incurred in movement of the materials and supplies used during repair and/or modification must be priced in accordance with section 0704. See subparagraph 070402.B for treatment of DWCF materiel.

E. Indirect labor, material, and contractual services will be priced in accordance with the guidance in this chapter and allocated to job orders.

F. Appropriate incoming and outgoing transportation costs related to FMS equipment or materiel processed by repair or overhaul facilities will be paid by the FMS purchaser. If the repair facility ships the repaired item to the purchaser, then the transportation costs must be charged to the FMS case.

070903. FMS Administrative Surcharge

The FMS administrative surcharge must be applied to all direct and indirect costs billed in connection with storage, repair, and/or modification.

070904. Special Instructions Applicable to DWCF Activities

DWCF activities must charge approved DoD stabilized rates and prices for defense articles and services in support of FMS cases. Materiel funded by DWCF, including depot level
reparables, must be priced at the standard (stabilized) price in effect at the time the item is dropped from inventory or at the net/exchange price, if applicable, for a direct exchange transaction. The standard (stabilized) price or rate charged to FMS purchasers of DWCF activities for defense articles and services must be adjusted to include an amount for unfunded civilian retirement (UCR) and post-retirement health benefits costs in accordance with paragraph 072005.

0710 USE OR EXPANSION OF DOD FACILITIES AND EQUIPMENT

All costs of construction or expansion of facilities desired by and for the exclusive use of the foreign government must be financed and funded by the foreign government. Charges by the USG for labor, materiel, or services must be reimbursed in accordance with the provisions of sections 0715 and 0720. Any expansion of facilities or equipment required for DoD use, which may also be available for FMS, must be funded through the normal DoD budget process.

071001. Reimbursement of Proportionate Share

In addition to the costs identified in section 0710, a proportionate share of operating costs must be reimbursed.

071002. Work at DoD Test Facilities and Laboratories

Case and line managers must inform performing activities when work requested at DoD test facilities and laboratories involves FMS. Work is priced to ensure full reimbursement of direct, indirect, and overhead costs to the test facility or laboratory for the FMS effort.

071003. Embedded Computer Software (ECS) Facilities

A. ECS support is normally supplied through a services case (or line) of a system sale. A requirement for a new facility or augmentation of an existing facility that is funded by the FMS purchaser is incidental to the service. Regardless of the costs charged to an FMS purchaser for use or augmentation of a facility, DoD owns and operates the facility.

B. Software support may be supplied by a separate facility dedicated to FMS or from a facility supporting both DoD and FMS programs. The FMS purchaser pays a prorated share of the total software support costs.

0711 COSTS ALLOCABLE FOR JOINTLY USED FACILITIES

When specific agreements or arrangements are made for the joint use of USG facilities (e.g., sharing of storage spaces, dedicated training facilities), a pro rata share of the operating cost financed by operating appropriations must be charged to the foreign purchaser.
071101. Joint Use of Office or Storage Space

A. When jointly used storage or office space is involved, the pro rata share of operating costs must be determined based on space assigned to the foreign government versus total space available for assignment.

B. Operating costs must include, but are not necessarily limited to, the cost of maintenance and upkeep of the facilities, including access roads, security, communications, utilities, and rent, if the USG must make rental payments under lease agreements.

071102. Joint Use of Satellites

When jointly used satellites are involved, the launch cost must be allocated to each participant based on pre-launch negotiations that consider the expected benefits accruing to each participant. Recurring operating costs must be prorated based on the time each participant actually uses the satellite.

0712 PERIODIC REVIEW AND RATES/SURCHARGE REVISION

071201. Periodic Review

Rates that may be developed to recoup accessorial costs and surcharges (see sections 0716 and 0705) are subject to periodic review. OUSD(C) should notify the applicable DoD Components when such reviews are being conducted and request the DoD Components’ participation.

071202. Rate Revision

No charges, or surcharges based on a percentage rate, must be made to recover any element of cost unless the charge or percentage charge is expressly prescribed in this Volume, or the charge based on the percentage rate is proposed in writing to and is approved by OUSD(C). Whenever a DoD Component believes a prescribed rate should be revised, it should submit its request with supporting data to OUSD(C), through the DoD Component Senior Financial Manager and DSCA DBO. DSCA DBO will conduct its assessment of the request and provide either its endorsement of or objection to OUSD(C). Sufficient data must accompany the request to enable evaluation of the merits of the proposed revision.

0713 COST RECOUPMENT WAIVERS AND EXCLUSIONS

A cost recoupment waiver is the exercise of legal authority to partially or totally waive recoupment of incurred costs. A cost recoupment waiver is not an exception to pricing policy.

071301. Waiver of NC Recoupment Charges

A. Title 22, U.S.C. § 2761(e)(2)(A) authorizes the President to reduce or waive the NC recoupment charge or charges which would otherwise be considered appropriate under 22 U.S.C. § 2761(e)(1)(B) for particular sales that would, if made, significantly advance
USG interest in North Atlantic Treaty Organization (NATO) standardization; standardization with the Armed Forces of Japan, Australia, the Republic of Korea, Israel, or New Zealand, in furtherance of the mutual defense treaties between the United States and those countries; or foreign procurement in the United States under coproduction agreements.

B. Title 22, U.S.C. § 2761(e)(2)(B) authorizes the President to waive NC recoupment charges for a particular sale if it is determined that:

1. Imposition of the charge or charges likely would result in the loss of the sale; or

2. The waiver of the charge or charges for MDE would result in a savings to the United States that substantially offsets the revenue due to this waiver.

C. Title 22, U.S.C. § 2761(e)(2)(C) gives the President the authority to waive, for particular sales of MDE, any increase in a charge or charges previously considered appropriate under 22 U.S.C. § 2761(e)(1)(B). This authority is given if the increase results from a correction of an estimate (reasonable when made) of the production quantity base that was used for calculating the charge or charges for purposes of such paragraph.

D. The authority to waive NC recoupment charges has been delegated to the Director, DSCA. All waiver requests must be coordinated with the USD for Research and Engineering (R&E), USD for Acquisition and Sustainment (A&S), and the OUSD(C).

071302. Special Waiver Authority for NATO Airborne Warning and Control System (AWACS)

Notwithstanding subparagraph 070504.A, 10 U.S.C. § 2350e authorizes the Secretary of Defense, in carrying out the NATO AWACS program, to:

A. Waive reimbursement for the costs of the following functions performed by personnel other than personnel employed in the U.S. Air Force AWACS program office:

1. Auditing;

2. Quality assurance;

3. Codification;

4. Inspection;

5. Contract administration;

6. Acceptance testing;

7. Certification services; and
8. Planning, programming, and management services;

B. Waive any surcharge for administrative services otherwise chargeable; and

C. Assume contingent liability for:

1. Any program losses resulting from the gross negligence of any contracting officer of the United States;

2. Identifiable taxes, customs duties, and other charges levied within the United States on the program; and

3. The U.S. share of unfunded termination liability.

071303. Waiver of Contract Administration Services (CAS) and Cataloging Services

A. Title 22, U.S.C. § 2761(h) authorizes the President to provide (without charge) quality assurance, inspection, CAS, contract audit defense services, cataloging data, and cataloging services. Title 22, U.S.C. § 2761(h) applies to:

1. Any contract or subcontract for defense articles, defense services, or design and construction services entered into after October 29, 1979, under FMS or direct commercial sales on behalf of a foreign government that is a member of NATO or the Governments of Australia, New Zealand, Japan, the Republic of Korea, or Israel. The authority applies only if the foreign government provides these services in accordance with an agreement on a reciprocal basis, without charge, to the USG;

2. Any contract or subcontract for defense articles, defense services, or design and construction services pursuant to the NATO Security Investment Program. The authority applies only in accordance with a reciprocal agreement under which the foreign governments participating in the NATO Security Investment Program provide such services, without charge, in connection with similar contracts or subcontracts; and

3. Cataloging data and cataloging services provided to NATO, to any member government of NATO, or to the Governments of the Republic of Korea, Australia, New Zealand, Japan, or Israel, if that organization, member government, or the Governments of the Republic of Korea, Australia, New Zealand, Japan, or Israel provides such data and services without charge to the United States in accordance with a reciprocal agreement.

B. The authority to negotiate and conclude these reciprocal agreements has been delegated to OUSD(A&S). Upon approval of the agreement, OUSD(A&S) will provide a copy of that agreement to DSCA.

C. When a waiver is approved, the cost of CAS in support of the applicable effort must be funded by a DoD appropriation. Billings for such actual costs must not be submitted against the FMS Trust Fund. The waiver under each agreement applies only to new FMS LOAs.
with implementation dates (as recorded in the Defense Security Assistance Management System) on or after the effective date of the reciprocal agreement.

D. Countries with CAS waivers are listed in the SAMM, C9.75, C9.76, and C9.77. DSCA is responsible for updating and maintaining the CAS waiver tables.

071304. Special Waiver Authority for NATO Cooperative Projects

A. Title 22, U.S.C. § 2767(e)(1) stipulates that the President may reduce or waive the charge or charges in connection with cooperative projects or agreements entered into under the authority of that section. The charges that may be reduced or waived are those that are otherwise considered appropriate under 22 U.S.C. § 2761(e) (see subparagraph 070301.B) for sales of defense articles and services from stocks or new procurements when the other participants agree to waive or reduce such charges.

B. Waiver authority of the President under 22 U.S.C. § 2767 has been delegated to the Director, DSCA.

C. Administrative surcharges must not be increased on other sales made under the U.S.C. in order to compensate for any cost waivers that are granted pursuant to 22 U.S.C. § 2767(d). Funds received pursuant to such other sales must not be available to reimburse the costs incurred by the USG for which waiver or reduction is approved by the President under 22 U.S.C. § 2767.

071305. Exclusion of the Cost of Military Pay and Entitlements for Defense Services Funded by the Military Assistance Program (MAP) or Non-Repayable Foreign Military Financing (FMF)

A. Title 22, U.S.C. § 2767(a)(3) permits the exclusion of salaries of members of the Armed Forces (other than Coast Guard) if the sales case for defense articles, services (including training), or for design and construction services is totally financed by MAP Merger or by non-repayable FMF.

B. Services provided under 22 U.S.C. §§ 2761, 2762, 2769, or 2770 must be priced to exclude military pay and entitlements (including retired pay accrual) only for those cases with LOAs exclusively citing MAP Merger funds and/or non-repayable FMF or BPC and Foreign Security Forces (FSF) cases which are funded with DoD or Department of State (DoS) appropriated funds (Pakistan Counterinsurgency Fund (PCF), Pakistan Counterinsurgency Capability Fund (PCCF), Coalition Readiness Support Program (CRSP), FSF: authority to build capacity under 10 U.S.C. § 333, Counter-Islamic State in Iraq and Syria (ISIS), Counter-Islamic State of Iraq and the Levant (ISIL) Train and Equip Fund (CTEF), Afghanistan Security Forces Fund (ASFF), or Iraq Train and Equip (ITEF)).

   1. The exclusion of military pay and entitlements in pricing applies when services are performed regardless of the date of the LOA. For MAP Merger, this pricing
applies to services provided after September 30, 1985; for non-repayable FMF, this pricing applies to services provided after September 30, 1989.

2. Any subsequent amendment or modification that reduces MAP Merger or non-repayable FMF funding below 100 percent requires re-pricing to add military pay and entitlements to the entire case.

C. A separate price for DWCF goods and services must not be established to exclude military pay and entitlements when the case is fully funded by MAP Merger, is a non-repayable FMF, or is a BPC case.

071306. Exchange of Unit Training and Related Support

Title 22, U.S.C. § 2770(a) empowers the President to provide training and related support to military and civilian defense personnel of a friendly foreign country or an international organization. This authority applies only to established military units, not to ad hoc units or individual members of units.

A. Such training and related support is specifically to be provided by a Secretary of a Military Department and only when the recipient foreign country or international organization agrees, pursuant to an agreement or other arrangement, to provide comparable training and related support on a reciprocal basis to personnel under the jurisdiction of the Secretary providing the training.

B. The reciprocal training must be provided within a reasonable period of time that is not later than one year after the provision of training and related support. If such training is not provided, then the country or international organization receiving the training must be required to reimburse the United States. See Volume 11A, Chapter 10 and SAMM, Chapter 10, for the financial policies associated with this reciprocal program.

071307. Special Authorities.

In accordance with the administration of the European Air Defense Agreements, the Secretary of Defense is authorized under the International Security and Development Cooperation Act of 1985, Section 132 (see 22 U.S.C. § 2767(e)) to:

A. Waive any surcharge for administrative services otherwise chargeable under 22 U.S.C. § 2761(e)(1)(A), and

B. Waive any charge not otherwise waived for services associated with contract administration for the sale (under the AECA) of Patriot Air Defense Missile Fire units to the Federal Republic of Germany contemplated in the agreements.
071308. Fair Pricing

Under 22 U.S.C. §§ 2761 and 2792, the recoupment of NC is not required for FMS cases wholly funded with MAP Merger or non-repayable FMF, BPC, or FSF cases which are funded with DoD or DoS appropriated funds (e.g., ASFF, PCCF, PCF, CRSP, CTEF, ITEF, or FSF: authority to build capacity under 10 U.S.C. § 333). Effective with delivery reports after December 1, 1989, asset use charges are no longer applicable to FMS transactions. When such asset use expenses are included in, or are a part of, the standard prices/stabilized rates charged for defense articles and services furnished by DWCF, a separate price must not be established for sales from, or services furnished by, DWCF in connection with FMS cases. In addition, military salaries and the unfunded costs of civilian retirement and other benefits are not included in the FMS administrative account.

0714 EXCEPTION TO PRICING POLICIES

An exception to prescribed pricing policies refers to approval of an alternative method of identifying applicable cost(s). Requests for exceptions to the policies prescribed herein or waivers of DoD costs for which DSCA is not delegated as the waiver authority, must be submitted to OUSD(C), through the DoD Component Senior Financial Manager, and DSCA DBO. (Note: A cost recoupment waiver is not an exception to pricing policy.) DSCA DBO will conduct its assessment of the request and provide either endorsement or objections to OUSD(C). Sufficient data must accompany the request to enable OUSD(C) to evaluate the merits of the proposed deviation.

0715 CASH SALES OF DEFENSE ARTICLES ISSUED FROM STOCK

071501. General

Title 22, U.S.C. § 2761 authorizes the sale of defense articles from stock to eligible foreign governments and international organizations. These sales include all sales of items from DoD inventories, whether delivered from storage or from procurements that were initiated to maintain adequate DoD inventory levels. Procurements specifically for FMS requirements (excluding CLSSAs) may not be considered a sale from stock. Procurements initiated to replace stocks sold from DoD inventories are not FMS new procurements.

071502. Sale of Defense Articles

A. Sale Price of Non-Excess Defense Articles. Non-excess defense articles are assets within the approved force acquisition objective and approved force retention stock of all DoD Components. Also included in the non-excess category are articles procured in anticipation of military assistance or sales requirements as a result of CLSSAs, or pursuant to a military assistance or sales order. The selling price must be determined when the item is dropped from inventory or the LOA is prepared, if a firm price is determined in accordance with the provisions of paragraph 071504.
B. Sale of DWCF Articles

1. The selling price of DWCF articles to FMS purchasers must be determined at the time the article is dropped from inventory. The standard price charged to FMS purchasers for DWCF articles must be adjusted to include an amount for unfunded civilian retirement and post-retirement health benefits costs (see paragraph 072005). See Volume 2B, Chapter 9; Volume 11A, Chapter 1; and Volume 11B, Chapter 11 for additional information.

2. If a purchaser returns a reparable DWCF item for repair or replacement, the overhaul service must be priced in accordance with paragraph 070902. The price of the replacement/exchange item would be the exchange price or net price (standard price less credit) basis adjusted for the unfunded retirement and benefits.

3. As an invested participant, a CLSSA purchaser may return a fully serviceable reparable item to the appropriate DWCF activity for credit, when the item is within the activity's approved acquisition objective. The credit will only be issued after the item is received and inspected at the activity. Funds credited may be paid by the DoD disbursing office into the FMS Trust Fund in accordance with the instruction of the foreign purchaser or DSCA.

4. Prior to October 1, 2001, petroleum, oil, and lubricants (POL) was priced at standard (stabilized) prices. Effective October 1, 2001 the selling price of POL is the replacement cost of the POL, during the period of the sale, plus associated overhead. See Volume 11A, Chapter 1 and Volume 11B, Chapter 11 for additional information on overhead.

C. Sale of Non-DWCF Articles. The pricing and treatment of reimbursements of non-DWCF articles sold are dependent upon whether the item(s) being sold requires replacement. An illustration of the price computation is in Figure 7-2.

1. Item Not to be Replaced. When an item is sold from the stocks of DoD and is not intended to be replaced, it is considered a free asset. The free asset price is not less than the actual value of the article.

   a. The price of the item must be the most recent actual procurement cost of the series and model being sold, plus the cost of any modifications or improvements incorporated after production and the applicable NC recoupment charge.

   b. Reductions to the sale price may be made when there is an actual difference in utility or desirability among units of issue of an item due to age or condition.

   c. The cost of the last major overhaul or outfitting accomplished before the sale date is added to the calculated price and is not reduced for age or condition. The overhaul costs will be prorated over the interval between the last actual overhaul and the next scheduled overhaul (see Figure 7-3).

   (1) If a future overhaul is not scheduled, the cost of the previous overhaul will be prorated over the normal average interval between overhauls.
(2) If an overhaul schedule is not available, the most appropriate time span for that series and model should be used.

(3) In the case where actual costs are not available for the last overhaul, a reasonable estimate from the facility normally performing overhauls for the type of item to be sold may be used.

(4) In the case where a maintenance schedule has not been established, a period of at least five years should be used.

(5) A request for waiver of the overhaul cost may be submitted to OUSD(C) in accordance with section 0713.

d. In the case of a naval vessel that is 20 or more years old, and 3,000 tons or less, 22 U.S.C. § 2761(a)(2) provides that the actual value is not less than the greater of the scrap value or the fair value (including conversion costs) as determined by the Secretary of Defense. See Figure 7-4 for an example of the price computation for a ship that is greater than 3,000 tons.

e. The amounts received as payment for free assets from the FMS purchaser must be deposited into the Miscellaneous Receipts of the U.S. Treasury. See Volume 3, Chapter 15, paragraph 150205 for additional information on proceeds from assets sold.

2. Item to be Replaced. The sale from stock with replacement represents the sale of assets for cash and the subsequent replacement of assets with cash proceeds. The sale and replacement represent two separate transactions generally occurring months or years apart.

a. Like Items. Title 22, U.S.C. § 2761 authorizes the replacement of materiel using proceeds from sales without further congressional approval, so long as the item sold will be replaced with an item of the identical type, model, and series (e.g., the sale of C-130E aircraft and purchase of C-130E aircraft) or a modified version of the same basic model. Obligations to replace the assets will be recognized as direct obligations.

(1) The price of the item to be replaced must be the best-estimated cost of the replacement item available at the time the item is dropped from inventory, plus the NC recoupment charge of the item being sold, adjusted for its remaining service life. The final bill will utilize the best pricing information available if actual replacement procurement cost is not known. This must be the final cost to the purchaser regardless of the actual cost of final replacement procurement. Inventory managers must realize that this prescribed pricing methodology may not result in a one-for-one replacement. If exact quantities are needed in inventory in order to maintain readiness, the inventory manager must recommend FMS procurement and not approve a shipment out of stock.

(2) When it is imperative that stock be replaced through accelerated procurements, and normal pricing policies will not adequately recoup replacement
costs, an exception to DoD pricing policies must be requested from the OUSD(C). Section 0714 specifies guidance on exception requests. Normally, the exception would be to add a replacement factor or delay final pricing until the contract for replacement items is financially complete.

b. **Dissimilar or Modified Items.** Congress authorizes the replacement of materiel using proceeds from sales of dissimilar or modified items. The replacement item must be a later series or modified version of the same basic model (e.g., sale of a C-130A aircraft and the purchase of a C-130E aircraft) or an acceptable substitute item (e.g., sale of an M-48 tank and the purchase of an M-60 tank). The purchase of upgrading or a modification kit is not considered a replacement even though the upgrade or modification would result in an end item similar to the items that are being acquired. In this situation, an item of materiel sold will require replacement to compensate DoD inventories for the resultant loss of capability or readiness. The replacement must be shown under the direct budget program and reprogramming action taken prior to replacement. The obligations to replace the assets will be recognized and accounted for as direct obligations, rather than as reimbursements to annual procurement appropriations.

D. **Sale of Ammunition.** The selling price of an ammunition item must be the current standard price plus any applicable NC recoupment charge.

071503. **Excess Defense Articles**

Excess defense articles are assets in excess of the Approved Force Acquisition Objective and Approved Force Retention Stock of all the DoD Components (see paragraph 071502 for additional discussion). Excess defense articles must be sold in an "as is" condition. The cost of repairing, rehabilitating, or modifying such articles must be computed in accordance with paragraph 070902.

A. Excess articles may be sold at reduced prices to recognize depreciation for the age and condition of the article. PC&H and Transportation (PCH&T) is computed on the original acquisition value and not on the reduced price. The level of effort for the PCH&T is not less for an article that is considered excess; therefore, the expenses for the PCH&T do not decrease and must be recovered in total from purchasers. This policy applies to procurement appropriations and DWCF. An illustration of the price computation for Non-DWCF is in Figure 7-5.

B. The selling price of excess articles, exclusive of repair or modification costs, must be the highest of:

1. Its market value for which the applicable NC recoupment charge must be assumed to be included (market value is the price at which bona fide sales have been consummated for products of like kind, quality, and quantity);

2. Its scrap value plus NC recoupment charge and the last major overhaul costs incurred (scrap value is the amount that would be expected to be obtained from selling the asset at the end of its useful life); or
3. Its fair value, plus NC recoupment charge and prorated major overhaul costs (fair value is the price for which an item can be bought or sold in an arm’s length transaction between unrelated parties).

C. The fair value is computed using the fair value rates associated with the Federal Condition Code of the asset multiplied by the established inventory price. See Table 7-1. If the IA proposes the price of materiel to be less than the 5 percent minimum threshold indicated in Table 7-1 or proposes to waive the overhaul costs, a detailed justification must be sent to the DSCA DBO in accordance with section 0713. If DSCA endorses the IA proposal, it will forward that package to OUSD(C) for final approval.

D. The overhaul costs will be prorated over the interval between the most recent prior overhaul and the next scheduled overhaul. If a future overhaul is not scheduled, the cost of the last overhaul will be prorated over the normal average interval between overhauls. In the case where actual costs are not available for the last overhaul, a reasonable estimate from the facility normally performing overhauls for the type of item to be sold may be used. In the case where a maintenance schedule has not been established, a period of at least five years should be used. An example of computing these costs is illustrated at Figure 7-3.

E. When accountability for excess items has been transferred to "Property Disposal," the provisions of the Defense Materiel Disposition Manual, DoD 4160.21-M, Volume 3 must apply. This manual provides specific guidance for the disposition of amounts realized from the sale of such equipment. Defense Logistics Agency Disposition Services will calculate PC&H based on the original acquisition value of assets sold or transferred.

F. A request for exception to established pricing policy of excess materiel for FMS will be submitted in accordance with section 0714 and must address the following:

1. Whether the item has been screened for potential sale to purchasers and whether there is any existing purchaser interest at the price determined in accordance with the established pricing policy;

2. Whether the alternative proposed price is equal to or greater than the scrap value plus the established recoupment charge for DoD NC;

3. Whether demilitarization costs will be incurred by DoD if the item is sold and, if so, the estimated amount of such demilitarization costs;

4. What the price to repair the item would be and its percentage of the original acquisition cost of the item; and

5. Whether the proposed sale has any other economic or political benefit to DoD and/or the USG.
071504. Quotation of Firm Prices

A. The DoD Components are authorized to quote firm prices for items to be sold from stock and for in-house services to be furnished, pursuant to 22 U.S.C. § 2761. Such prices are not subject to further adjustment, provided the purchaser accepts the LOA before the expiration date. A firm price may be quoted only for:

1. An actual or estimated replacement price for a procurement funded end item, including ammunition, or major items to be sold from inventory as authorized in subparagraph 071502.C.2, when the price is based on budgetary data or contractor quotation;

2. A price for procurement funded or major item developed under provisions of subparagraph 071502.C.1 and paragraph 071503; and

3. Training tuition rates (only for current year). Refer to section 0721 for additional information on rates for training of international students.

B. The reason for quoting firm prices is to minimize difficulties that might arise should prices undergo several revisions due to budgetary decisions made subsequent to country acceptance of LOAs. Firm prices may be quoted only after careful and coordinated development of such pricing data. LOAs (other than for training) that specify firm pricing must be coordinated, at a minimum, with the OUSD(C), the Offices of the Assistant Secretaries of the Military Departments (Financial Management and Comptroller), and DSCA.

C. All LOAs authorized to be on a firm price basis must include a note that specifies that pricing data presented is firm (except for changes authorized in paragraph 072204) and will not be changed, provided the country accepts the LOA before its offer expiration date.

*071505. Charges for NC

Non-USG purchasers must pay a fair price, determined in accordance with DoD Directive (DoDD) 2140.02, “Recoupment of Nonrecurring Costs (NCs) on Sales of U.S. Items,” for the value of DoD nonrecurring investment in the development and production of MDE, as required by law, unless an NC recoupment charge waiver has been approved by the Director, DSCA. For FMS, an NC recoupment charge is applicable to all MDE. MDE is any item of Significant Military Equipment (SME) listed on the U.S. Munitions List having a DoD nonrecurring RDT&E cost accumulation of $50 million or a total DoD production cost of more than $200 million. A listing of MDE with associated NC charges can be found in the SAMM, Appendix 1. The NC recoupment charge is not applicable to BPC cases.

A. Cost Pool Methodology

1. A cost pool methodology is used to determine the pro rata share of NC to be recouped. The NC recoupment charge computation (nonrecurring RDT&E and nonrecurring production cost pools divided by estimated benefiting units) is submitted to the Director, DSCA for approval. The NC recoupment computation must be supported with an MDE
calculation worksheet, illustrated in Figures 7-6, 7-7, and 7-8. The Director, DSCA will review each DoD Component’s calculations and publish the approved charge in the SAMM, Appendix 1.

2. Each DoD Component must establish a system to accumulate cost pools, recognize when a cost pool meets recoupment thresholds, and calculate an NC recoupment charge for items releasable to foreign countries and international organizations when FMS sales are anticipated. The NC recoupment charge must be based upon information recorded in DoD accounting records or DoD budget justification documents. If adequate documentation is unavailable, the DoD Component will calculate the pro rata NC at 5 percent of the last known DoD acquisition cost.

* B. Nonrecurring RDT&E Cost Pool

1. The nonrecurring RDT&E cost pool includes costs funded by RDT&E appropriations to develop or improve the product or technology under consideration. The costs to be included in the nonrecurring RDT&E investment cost pool must be determined on the budget and accounting classifications established for RDT&E appropriations in Volume 2B. Volume 2B, Chapter 5, paragraph 050105 establishes the following RDT&E categories:

a. Budget Activity 1, Basic Research;

b. Budget Activity 2, Applied Research;

c. Budget Activity 3, Advanced Technology Development (ATD). ATD is sometimes further broken down into budget activities 3A (strictly research efforts that involve the production of breadboards or brass boards to model all or part of a design) and 3B (applied to projects to produce a prototype, which although not suitable for fielding, is closer to representation of an end item for military application);

d. Budget Activity 4, Advanced Component Development and Prototypes;

e. Budget Activity 5, System Development and Demonstration;

f. Budget Activity 6, RDT&E Management Support; and

g. Budget Activity 7, Operational System Development.

2. Costs in budget activities 3B, 4, 5, 6, and 7 are subject to recoupment and must be included in the nonrecurring RDT&E cost pools upon which the pro rata charge is calculated. The costs incurred for nonrecurring RDT&E in budget activities 1, 2, and 3A may not be included in the nonrecurring RDT&E cost pool.

3. All applicable NC efforts, including in-house or multiple contractors must be included in the nonrecurring RDT&E cost pool; the source of the NC effort
to develop a product is not relevant to the calculation of the NC recoupment charge. The costs of improvement programs that are designed to continuously improve the safety, reliability, availability, and maintainability of an end item or major component over the projected life of the item will be shared equitably by all users of the item.

a. Normally, each user will pay a share of the total annual cost through a Component Improvement Program (CIP) or comparable program. All users are expected to participate in such a program.

b. The cost sharing calculation will be established at the time the nonrecurring RDT&E cost pool is established and the NC recoupment charge is approved. First, the total life of the item will be projected, and then the point in time when half of all projected deliveries to non-DoD purchasers will occur will be estimated. Using actual cost data and data from historical files for similar CIP or comparable programs, the total U.S. investment costs over the life of the program will be estimated. The amount of U.S. investment projected to be incurred up to the previously determined point of half of the deliveries to non-DoD purchasers will be included in the weapon system nonrecurring RDT&E cost pool.

c. The annual cost of operating the CIP or comparable program will be shared in proportion to the number of items in the possession of each user. This will ensure that the remaining costs of operating the CIP or comparable program will be shared equally by all users of the item.

C. Nonrecurring Production Cost Pool. The costs to be included in the nonrecurring production cost pool are those financed by, or to be financed in the future by, procurement or operations and maintenance appropriations that benefit current and future production runs. DoDD 2140.02 stipulates that the pool must capture such costs as preproduction, special tooling, special testing equipment, production engineering, product improvement, destructive testing and product model production, and testing and evaluation. Other costs may be included if they benefit both current and future production runs. Descriptions of the major categories of costs to be accumulated in this NC pool are as follows:

1. **Production Cost.** Preproduction cost refers to the cost of such activities as tooling manufacture and tryout (i.e., jigs, dies, and fixtures) and the implementation of layout plans. A lump sum payment for license cost is part of the preproduction cost. See subparagraph 071505.C.8 for more information on license cost.

2. **Special Tooling Cost.** Special tooling cost refers to the costs of all jigs, dies, fixtures, molds, patterns, taps, gauges, other equipment and manufacturing aids, and replacement thereof, that are of such a specialized nature that substantial modifications or alteration of their use is limited to the development of production of particular supplies or parts, or the performance of particular services. The term includes all components of such items, but does not include:
a. Material;

b. Special testing equipment; or

c. Building and non-serviceable structures (except foundations and similar improvements necessary for the installation of special tooling), general or special machine tools, or similar capital items.

3. **Special Test Equipment Cost.** Special test equipment cost refers to the cost funded by procurement appropriations for either single or multipurpose integrated test units engineered, designed, fabricated, or modified to accomplish special purpose testing in the performance of the contract. Such testing units comprise electrical, electronic, hydraulic, pneumatic, mechanical, or other items or assemblies of equipment that are mechanically, electrically, or electronically interconnected so as to become a new functional entity, causing the individual item or items to become interdependent and essential in the performance of special test equipment procured with RDT&E appropriations.

4. **Developmental Production Engineering Cost.** Developmental production engineering cost includes the cost of product design improvement intended to enhance producibility of an item; examination of available manufacturing processes to determine the need for new techniques (and their development, if necessary); the optimum marshalling of resources for efficient manufacturing (such as optimum lot size, scheduling, production control, production line design and balancing, and plant layout); and tool design and detailed manufacturing planning. Although a continuing activity, most of this effort is rightfully considered a nonrecurring production cost.

5. **Product Improvement Cost.** Product improvement programs may be accomplished by contractors as an engineering change proposal, modification work order, or an in-house project. Categories listed in subparagraphs 071505.C.5.a-071505.C.5.e are to be included in the end item nonrecurring production cost pool, even though a participating product improvement program has been established that prorates the annual cost of the program based upon worldwide asset position (both U.S. and foreign-owned end items). The DoD cost of category listed in subparagraph 071505.C.5.f must be recovered as part of the selling price of a new model item, if the item is MDE. Product improvement is subdivided into six distinct types of effort:

a. Safety;

b. Cost reduction;

c. Reliability, availability, and maintainability;

d. Deficiency corrections;

e. Compatibility standardization, and simplification; and
f. New or improved operational capability.

6. **Destructive Testing Cost**. Destructive testing is a technique for performing tests on a component, assembly, or an end item. It involves the testing of an article beyond its design limits (and ultimately its destruction), or the actual consumption of the article to determine if it is performing to design specifications.

7. **Pilot Model Testing Cost**. Pilot model testing includes the following efforts:

   a. Qualification testing, a very severe testing, to determine if a product will do what it is designed to do. It usually involves the testing of a product to the limits of its performance. It is often destructive and the test articles are not intended to be used operationally in the future; and

   b. First article testing performed to evaluate a new manufacturer’s ability to produce a specified design (could be the new manufacturer’s design or that of another manufacturer). It is normally more stringent and costly than routine acceptance testing, but less stringent and costly (and less destructive) than qualification testing.

8. **License Cost**. License cost refers to the cost of the license DoD obtains to allow competitive awards for production of an item when its design is owned by a contractor. In effect, DoD buys the rights to allow other contractors to produce an item for DoD purposes through the payment of royalties or a lump sum fee. These royalties are customarily on a per item basis and should be charged as recurring production costs. The lump sum fee is a nonrecurring production cost.

D. **Components for USG Use Only**. In computing NC pools for items to be sold under FMS, NC of major components that are restricted to USG use must not be included. For example, the costs of nuclear devices and features, countermeasure devices and features, security devices (black boxes), carrier-peculiar adaptations, and special fuel tank devices must be excluded. Estimates may be used if accounting records do not identify associated costs.

E. **Benefiting Units**.

   1. Benefiting units is the number of items that must be included in all known or projected DoD production quantities and must be determined as follows:

   a. The production quantities of end items required by DoD must be obtained from either Selected Acquisition Reports or the Future Years Defense Program Procurement Annex.

   b. The production quantities of end items to be procured for foreign countries or international organizations under Security Assistance (SA) programs must be obtained from DoD Component SA plans.
c. If end item data is not available from any of these sources, then the developing command must estimate the total number of end items to be produced.

d. The production quantities of systems components that meet the investment threshold must be derived from the number of end items to be produced. For example, if 100 aircraft must be produced (assume one engine for each aircraft) and spare part support requires 150 engines, the production quantity of engines is 250.

2. In the event of a disagreement on the production quantity and sales projections, the Director, DSCA must make the final determination in coordination with OUSD(C) and OUSD(A&S/R&E) of the production estimates to be used for determining the NC recoupment charge.

F. NC Charge Revisions. A revision may be submitted at any time by a DoD Component. It is mandatory that a modification to the NC recoupment charge be submitted when a significant change occurs.

1. **Price Reduction.** When the price is reduced because of age, condition, or supply status (excess), the same percentage reduction must be made to the pro rata share of NC.

2. **Biennial Review.** DoDD 2140.02 requires a biennial review of approved MDE charges to determine if there has been a significant change in factors or assumptions used to compute the currently approved recoupment for a model. A significant change occurs when:

   a. A new calculation shows a change of 30 percent of the current system NC charge for an MDE item;

   b. The NC unit charge increases or decreases by $50,000 or more; or

   c. The potential for a $5 million change in recoupment exists.

3. **Model Change.** When a model change occurs, the NC recoupment charge must be recalculated. That portion of the NC that benefits only one model must be allocated only to that model. That portion of the NC that benefits old and new models must be prorated between cost pools related to the old and new model items. Commonality between old and new models may be determined either on the basis of the ratio of old model parts in the new item or on some other common acceptable basis for allocation of costs between the models (e.g., engineering analysis or technology analysis, as appropriate). Sample calculations are illustrated in Figures 7-7 and 7-8.

G. **NC Charge Recoupment.** The approved pro rata charge must be recouped unless a waiver is authorized. When NC recoupment is applicable, the price on an LOA must include the specific recoupment charge. In instances where the initial rate has not yet been
approved, DoD Components must provide for an estimated rate based on the most accurate information available to the DoD Component. The LOA must be modified to specify the subsequently approved rate and only that approved rate is to be billed. When a recoupment charge is revised, the previous value is retained in the SAMM, Appendix I. Subsequent revisions to the pro rata charge must be applied to new LOAs and must not be applied retroactively. An exception to this rule of application is not authorized.

H. Reporting NC Recoupment Collections. NC Recoupment Collections must be reported.

1. Funds collected for NC recoupment charges must be disposed of in accordance with Chapter 3, paragraph 030902.

2. DoD Components must provide a quarterly report on the status of NC recoupment collections. The report must be forwarded to the Director, DSCA DBO within 45 days following the close of each fiscal quarter.

3. DoD components must maintain records of anticipated and actual NC recoupment collections.

I. Waivers

1. The Director, DSCA has been delegated the authority to waive NC recoupment charges on FMS sales in accordance with paragraph 071301. DSCA must issue, in writing, any approvals granted for waivers of the NC recoupment charge that otherwise would be collected under FMS. DSCA must forward a notification of each approved waiver to the applicable DoD Component.

2. The decision on any waiver requires the concurrence of OUSD(C) and OUSD(A&S/R&E). If an issue concerning the waiver request cannot be resolved, the Director, DSCA must submit an official waiver request to the Deputy Secretary of Defense for final determination. That request to the Deputy Secretary of Defense must be coordinated with OUSD(C) and OUSD(A&S/R&E).

3. Articles delivered after November 30, 1989, under FMS cases fully financed with MAP Merger funds and/or non-repayable FMF funds, must be priced to exclude the NC recoupment charge, in accordance with 22 U.S.C. § 2761(e)(1)(B).

J. "Special" RDT&E and Nonrecurring Production Costs

1. DoDD 2140.02 requires the purchaser to pay for “special” RDT&E and nonrecurring production costs that are incurred for the benefit of a particular FMS purchaser. Documentation must be maintained to show that the FMS purchaser requested the feature for its own benefit. For purposes of this paragraph, a “special” feature or unique requirement includes, but is not limited to, features that DoD initially may not have adopted or purchased due to the non-
availability of funds, lack of authorization from the Congress, or lack of an approved DoD requirement, but subsequently adopts or purchases when otherwise authorized.

2. DoDD 2140.02 stipulates that the USG must not be charged a recoupment charge for "special" RDT&E and nonrecurring production costs even if the USG also adopts those features for its own use, or provides equipment with such features under a U.S. grant, aid, or similar program. This provision applies without regard to whether the adoption of such features by DoD occurs before, during, or after full development of the feature.

3. DoDD 2140.02 permits the recoupment of "special" RDT&E and nonrecurring production costs incurred by FMS purchasers or participants of a coproduction, co-development, and cooperative development, or cooperative production program.

   a. Recoupment is allowable only if such "special" costs exceed $50 million for each FMS purchaser, or if the special costs (SC) of participants of a cooperative agreement exceed $50 million in aggregate.

   b. The "special" recoupment charge is determined by the DoD Component as a result of the distribution of the total costs divided by the total production, which is the same methodology used for determining the DoD NC recoupment charge.

   c. The reimbursements may be collected by the Department from other purchasers or participants on behalf of the purchaser or cooperative participant incurring the "special" costs. The reimbursements must not be collected after 10 years from the date the "special" recoupment charge is established.

K. Defense Contract Audit Agency (DCAA). The Director, DCAA must ensure that any evaluation of a contractor accounting system includes an analysis of the internal controls established to ensure compliance with the requirement to pay NC recoupment charges for sales made prior to October 7, 1992. If DCAA audit work (e.g., on a bid proposal or claim for incurred costs) discloses contractor noncompliance with the requirement to pay an NC recoupment charge, an audit report must be issued promptly to the cognizant DoD contracting officer, with a copy of the report submitted to OUSD(C), DFAS SCA, and DSCA DBO.

071506. Returns

In accordance with 22 U.S.C. § 2761(m), returns may be accepted if the defense article was previously supplied under the U.S.C., is not SME, and is in full functioning condition without need of repair or rehabilitation. DoD must have a funded requirement, including FMS requirements, for the defense article. The purchaser must not be reimbursed directly; the purchaser's FMS Trust Fund account must be credited to reflect the transaction, using DoD appropriations or other purchaser funds, dependent on the buyer.
CASH SALES OF DEFENSE ARTICLES AND SERVICES FROM NEW PROCUREMENT FOR DIRECT DELIVERY AND NEW PRODUCTION

Defense articles procured for cash sales to an eligible foreign government or international agency for direct delivery, pursuant to 22 U.S.C. § 2762, must be priced to recover the full contract cost to DoD, including DoD recurring contract support costs and applicable DoD surcharges. Costs may be revised for increases in labor and materials, or for other changes in production and procurement costs. The purchaser is obligated to pay any damages or costs that may accrue from the purchaser’s cancellation of the contract (termination liability). Applicable surcharges must be added to the contract cost and included in billings for incurred costs. An illustration of the price computation is in Figure 7-9.

071601. Cost Principles

A. DoD articles must be priced based on the same cost principles used in pricing DoD contracts covering items for DoD use. Recognition must be given to other reasonable, allowable, and allocable contractor costs and risks as permitted in the Federal Acquisition Regulation and Defense Federal Acquisition Regulation Supplement, unless the purchase is wholly funded through non-repayable FMF funds.

B. When insufficient funds are available in the FMS Trust Fund account of a foreign government to meet current cash requirements, DSCA must initiate, through the responsible DoD Component contracting officer, appropriate contractual actions that will balance current cash requirements with available funds, unless the provisions of 22 U.S.C. § 2762(b) are involved. This condition should not occur without notification to the FMS purchaser. See Volume 16, Chapter 6 for information on debt owed to the DoD by foreign entities.

C. The $250,000 expense/investment threshold stated in 10 U.S.C. 2245a does not apply to investment items funded by expense appropriations in support of BPC programs.

071602. Nonrecurring RDT&E and Nonrecurring Production Costs

The price must include recovery of nonrecurring RDT&E costs and nonrecurring production costs as specified in DoDD 2140.02. Paragraph 071505 contains further discussion of these costs.

071603. CAS Costs Incurred in Support of New Procurements for FMS

A. CAS Surcharge. DFAS SCA recovers the cost of CAS by applying a percentage surcharge to the delivery transactions reflecting disbursements to contractors for FMS procurements on which applicable CAS have not been waived. The surcharge amounts collected are deposited to an account maintained by DFAS SCA and used to reimburse the DoD Components for CAS performed. The following surcharges are prescribed for DFAS SCA application to disbursement with reimbursable codes, specific delivery source codes, and price code "N":

7-45
B. CAS Waivers. CAS is subject to waiver in whole or in part under 22 U.S.C. § 2761(h). See paragraph 071303 for more information on CAS waivers. A listing of waived programs is included in the SAMM, Chapter 9. CAS waivers apply only to those cost elements approved for the entire LOA, not only to a specific line/sub-line. CAS waivers are case-based and apply to new cases implemented on or after the approved waiver date. They are not retroactive nor applied to amendments on cases implemented prior to the waiver. The waived CAS element must be charged to DoD appropriations. DFAS and DSCA must reject billings to the FMS Trust Fund CAS Surcharge Account for charges that were waived.

071604. CAS Costs Incurred in Support of Foreign Country Commercial Contracts

DoD support of commercial contracts awarded by foreign countries and international organizations represents an FMS sale of services. The Defense Contract Management Agency is responsible for performing this function. The hours expended in support of these commercial contracts must be accumulated and billed at an FMS contract administrative hourly labor rate published each fiscal year (FY) by OUSD(C). For the current rate, see “Financial Management Reports, Department of Defense Reimbursable Rates, Contract Administration” (Tab E).

071605. Costs for Government-Furnished Materiel (GFM)

A. Supplied From Inventory. All GFM supplied from inventory must be billed to the FMS case as "work in process" when the GFM is shipped from a depot to a contractor (Chapter 8). The billing price must be the same as a direct sale to an FMS purchaser, plus applicable accessorial costs.

B. Supplied From a Contractor. All GFM supplied from another contractor must be billed to the FMS case as "work in process" when payments are made to the contractor supplying the GFM. GFM should be shipped via a collect commercial bill of lading or prepaid by the supplying contractor. Contracts with contractors supplying GFM should directly cite the FMS Trust Fund as the financing source to the maximum extent possible.
C. **Precious Metal.** When precious metals recovered under the precious metals recovery program are provided as GFM to a contractor, the materiel must be valued at the market price on the date it is supplied to the contractor. Market price must be determined from any authoritative publication, such as The Wall Street Journal.

071606. **Other DoD-Funded Services in Support of FMS Procurements**

A. The cost of DoD-provided or DoD-funded engineering services that are required to solve problems encountered during a production run must be allocated to FMS purchasers based upon the number of their items that are in the production run.

B. If components are procured for an FMS purchaser and assembled by DoD personnel, assembly labor costs must be assessed in accordance with section 0720.

C. If a contractor is designated as the source of supply for nonstandard items to be procured for FMS purchasers, the contract price for the applicable items will normally include the additional cost(s) incurred to research and procure the nonstandard items. Any reasonable method of allocating these additional costs is acceptable. The test of the reasonableness of the contractor’s costing allocation would be acceptance of the method by DCAA.

071607. **Customization Costs**

The cost of deviations from USG configuration and special technical data desired by a foreign government must be included as a charge to that foreign government.

071608. **Items to be Replaced by Later Production (Diversions)**

When new production and procurement items are diverted from Military Department delivery schedules, and will be replaced by later production, these items must be priced at the current production cost or the replacement production cost, whichever is higher.

071609. **Production by a Foreign Government**

When a portion of the production quantity is to be produced by the purchasing foreign government, costs must be computed separately in accordance with cost methods established by the foreign government and accepted by the USG.

071610. **Recoupment of Interest Penalties Due to Prompt Payment Act**

The FMS Trust Fund must pay or reimburse any prompt payment interest penalty payments that are incurred (Title 5, Code of Federal Regulation, Section 1315, “Prompt Payment”). Vouchers for interest penalties incurred on FMS procurements must cite the same line of accounting supplied by DFAS SCA prior to the beginning of each FY. If, at the time of occurrence, the appropriate fund cite is unknown, contact DFAS SCA. DFAS SCA has assigned a unique accountable station number for each Military Department for the purposes of accounting for prompt payment interest penalty reporting.
A. Within 30 days after the end of each quarter, each assigned DFAS SCA accountable station must submit the FMS Prompt Payment Act Report to DSCA. This report contains three sections reflecting the interest penalties paid by number of transactions, the dollar amount, and a reason code.

B. Each assigned DFAS SCA accountable station must submit an FY end-of-year report annually. Since the fourth quarter report is an aggregate of the entire FY, the quarterly report must also serve as the annual requirement. This report is due to DSCA 45 days after the end of the FY.

071611. Price Codes

The DoD Components will make every effort to obtain the final price for contract-supplied items within 180 days of reported delivery. However, the use of estimated price codes is approved for reporting the deliveries of major end items if an actual price code is not available within 30 days after date of shipment. Moreover, the use of estimated price codes is mandatory for reporting the deliveries of major end items if an actual price code is not available within 90 days after date of shipment.

0717 LEASING OF DEFENSE ARTICLES

Defense articles are leased to a foreign country or international organization under authority of 22 U.S.C. § 2796. Inspection, restoration, maintenance, accessorial costs, or other support costs incurred in connection with the lease must be priced in accordance with this chapter and included on a separate LOA. Lease charges must apply except for cooperative R&D projects, military exercises, communications, and/or electronics interface projects. Reimbursement of the lease charge for any defense article that has passed 75 percent of its normal service life may be waived if it is determined that to do so is important to the national security interest of the United States. This waiver authority has been delegated to the Director, DSCA or in the absence of the Director, the Deputy Director.

071701. Pricing of Leased Defense Articles

The amount to be charged for the lease of defense articles is the depreciation incurred during the period of the lease. The depreciation charge is dependent upon the following (see Figure 7-10):

A. Date the item is to be leased,

B. Date the item was first fielded or actual acquisition date,

C. The total estimated service life of the item,

D. Duration of the lease,

E. The original acquisition cost of the item,
F. A pro rata share of nonrecurring RDT&E and production costs, and

G. Capital improvements made to the item.

071702. Replacement Costs

Replacement costs must be estimated when the item is placed on lease and reflected in the lease agreement. In the event a leased defense article is damaged beyond repair, or is not returned, the replacement cost must be collected from the leasing foreign country or international organization. The FMS administrative surcharge does not apply to lease rental payments. The replacement cost must be calculated in accordance with subparagraph 071502.B and C. Refer to SAMM, Chapter 11 for procedures on leasing arrangements.

0718 TECHNOLOGY TRANSFER

071801. Technical Data Package (TDP)

A TDP encompasses production designs, drawings, specifications, models, manufacturing techniques and details, and similar information necessary to enable a foreign government to manufacture, or have manufactured, items of military equipment and repair parts, excluding information associated with the RDT&E stage. It also does not include technical assistance or knowledge by USG personnel; however, such assistance may be provided at additional cost. Refer to SAMM, Chapter 3 for additional information on TDP.

071802. Pricing of TDPs

DSCA may authorize release of a TDP to a foreign government for in-country manufacture of military equipment and repair parts. Costs incurred in the preparation, reproduction, and handling of the TDP must be priced in accordance with section 0719. When the pricing of the TDP is subject to an international agreement of which DoD is a party or is otherwise bound, the sale will be determined consistent with the terms of the agreement.

0719 PUBLICATIONS

Generally, the cost for a DoD standard publication is the incremental cost to produce another copy. Effective October 1, 2004, acquisition and development costs are excluded in determining the costs of a DoD standard publication.

071901. Terms

A. Publications. The term publications includes technical orders, technical manuals, supply catalogs, training publications, courseware, computer based tutorials, administrative publications, engineering drawings and associated documents, Integrated Logistics Support publications and associated documents, equipment component lists, special file extracts, decals, forms, and audio-visual products.
B. **Medium of Publications.** The medium of publication refers to the format of the publication; it may be in bound or loose-leaf format, imprinted form, Automated Data Processing listing, operator’s card, microfilm, slide, motion picture film, computer disc, or internet accessible.

C. **FMS Purchaser-Unique Publication.** Unique publications are DoD standard publications sanitized for the elimination of non-releasable information or publications developed for a country’s unique specification. Engineering drawings and associated documents will be reviewed to determine if a technology charge is appropriate. Refer to subparagraph 071502.B when pricing DWCF publications.

071902. **Publication/Software Pricing Factors**

Publications or software developed solely for the use of an FMS purchaser(s), such as a country-unique technical order/software, instructions, or other publications and programs, must be priced to recover the total costs (including both in-house and contractual efforts) of development and delivery of the end product. These costs must include, but are not limited to, the amounts paid for technical or administrative writing, editing, illustrating, animation, copy preparation, documentation, royalty fees for intellectual property, and distribution services. The costs of additional copies or masters must be limited to the actual costs of reproduction to include media (e.g., disk, tape, compact disk, and hardcopy) and distribution/delivery. The development of FMS prices for current, standard publications, or software programs/products of the DoD includes copy production cost (CPC) and SC.

A. **CPC.** CPC are the costs incurred in the printing or reproduction of copies from the reproducible master.

B. **SC.** SC are the costs incurred in the elimination of non-releasable information from a DoD publication/software program prior to release to a foreign government. SC includes the costs of classified handling, development, and maintenance of country-peculiar publications or programs, including costs associated with updating manuals/programs for nonstandard items (such as items out of inventory or out of production).

071903. **Development of a Per Copy Selling Price**

A. **Calculation.** The total cost of a publication or software program is the sum of the incremental costs identified in paragraph 071902. The total cost must be reduced to a per copy expression by dividing the total incremental cost by the quantity produced.

B. **Use of Actual Cost.** Recorded actual costs will be used when available. When actual costs for individual publications or programs cannot be readily determined, a factored expression of historical costs will be developed from the most current cost records available. Uniform pricing tables can be developed from the cost per "unit" ("unit" being either a page, a roll of microfilm/microfiche page, or a running foot of tape or motion picture film). Paragraph 071902 includes guidance for developing publication pricing tables.
071904. Other Applicable Costs

A. Recoupment of NC does not normally apply to the sale of publications or software. However, if the item is MDE, then NC recoupment charges would apply. Applicable NC recoupment charges are a part of the cost included in the pricing formula set forth in paragraph 071903.

B. The standard administrative and accessorial charges prescribed in this chapter must be recouped as a percentage of publication/software prices. These charges are not included in the per copy selling price.

C. The FMS price for a joint Military Service publication or software program must be established by the Military Department responsible for its acquisition and management. That Military Department must notify the other participating DoD Components of the established FMS price.

0720 PRICING OF PERSONNEL SERVICES

The pricing of DoD personnel services in support of the FMS program, including personnel costs recouped indirectly through the FMS administrative surcharge and those recouped as direct charges, such as special management services, Mobile Training Teams (MTTs), Mobile Education Teams, Technical Assistance Teams, or Technical Assistance Field Teams (TAFTs), must be calculated in accordance with this section. See section 0721 for the pricing of personnel assigned to DoD training installations and for those costs that may be waived or excluded from charges in certain cases discussed throughout this chapter. When determining the pricing for personnel services, every attempt should be made to use actual costs. If actual cost data is not available, estimated pricing is acceptable. The costs must be substantiated by a reliable audit trail.

072001. Civilian Personnel

Services performed by DoD civilian personnel must be priced at rates in effect at the time the services are performed. Salary tables are available at the Office of Personnel Management (OPM) website. Base salary rates must be accelerated as discussed in this paragraph. An illustration of civilian personnel pricing computation is shown in Figure 7-11.

A. The Civilian Personnel Fringe Benefit Rate is applied to the base salary, with leave and holiday (L&H) acceleration when applicable, to recover the USG’s contribution of civilian employee benefits such as retirement, insurance and health plans, cash awards, and, when applicable, the USG’s share of social security taxes and L&H. The Civilian Fringe Benefit Rates are published annually at OUSD(C) DoD Reimbursable Rates.

B. The L&H acceleration factor of 18 percent is not applied to the base salary when the employee is reimbursed by FMS or BPC cases which are funded with DoD or DoS appropriated funds (e.g., ASFF, PCF, PCCF, CRSP, or FSF: authority to build capacity under 10 U.S.C. § 333) on a full-time basis.
C. The UCR factor is applied to the base salary, with L&H acceleration when applicable, to recover retirement, post-retirement health benefits, and post-retirement life insurance costs incurred by USG. The UCR factor is published annually with Civilian Fringe Benefit Rates. The UCR factor is not applied when calculating personnel costs to be reimbursed by the FMS Administrative Surcharge Budget or BPC cases.

D. See paragraph 071308 for the impact of "Fair Pricing" legislation on civilian personnel services in calculating charges for administrative services under 22 U.S.C. § 2796(e)(1)(A).

072002. Military Personnel (MP)

A. MP services must be priced using the composite standard pay rates current at the time services are performed. MP service costs are not included in cases solely citing MAP Merger, FMF, or BPC funding.

1. Current reimbursable rate tables are available at the OUSD(C) DoD Reimbursable Rates website. Rates applicable to FMS are computed using the “Annual Rate Billable to Other Federal Agencies” plus the Medicare-Eligible Retiree Health Care (MERHC) accrual. Monthly, daily, or hourly rates can be determined from these tables by using factors listed in the notes at the bottom of each page.

2. Historical rates are available in the Appendix C Archive. Prior to November 30, 1989, an Asset Use acceleration factor would have applied to the total costs of temporary duty (TDY) and military composite pay costs if the service was performed at a military installation.

B. Since FY 1985, the annual composite standard military rates include the cost of retirement. These composite rates, however, must also recover the cost of other benefits. L&H costs are added when reimbursements are based on time actually worked, such as when the foreign country does not otherwise pay for the personnel costs incurred by DoD during L&H periods. The additive amounts for retirement, L&H, and other benefits are expressed as percentages of the composite standard pay rate. Pricing computations are illustrated in Figure 7-12.

C. Permanent change of station (PCS) costs are included in the composite standard pay rates and are subject to the reimbursement factors. For cases prior to FY 2005, if MP were required to make a PCS move to support an FMS case, the PCS rate must be deleted from the composite rate and the actual PCS cost charged to the case is not subject to any additional reimbursement factor. Effective FY 2005, MP services for FMS must be priced using the composite rates that already include the PCS expense and must no longer use the actual PCS expense for PCS moves to support an FMS case.
072003. Foreign National Personnel

Foreign national personnel services must be priced at actual costs or at standard pay rates. Standard pay rates must not be used when known to be less than actual costs. Both the actual cost and the standard pay rate must include an estimated amount to cover such benefits as sick leave, maternity leave, death, accident, unemployment, and retirement (separation) when such benefits are paid to these employees or specifically required by the laws of the foreign government.

072004. Travel and Living Allowances

A. The calculation of personnel costs must include travel time, for both TDY travel and PCS, when the travel directly results from performance of an FMS or BPC case (PCS does not apply to BPC).

B. Travel, per diem, living allowance payments, and other entitlements to DoD personnel working on FMS cases must be identical to the payments and entitlements of DoD personnel working on direct DoD mission assignments at similar locations. Refer to Volume 9 for additional information.

C. Waivers from the normal travel procedures must be granted to SA travelers on the same basis and in the same manner as provided for DoD personnel traveling on regular defense business.

D. An FMS case must be priced to include the amount paid to employees or centrally funded through authorized DoD entitlement programs.

072005. Special Instructions Applicable to DWCF

A. Rates. DWCF facilities must charge approved DoD stabilized rates and prices for services in support of FMS cases, except where special rates have been approved by OUSD(C) or where actual cost reimbursement is appropriate. The stabilized rate to be charged is the rate in effect when the order is received and accepted (as opposed to when work is performed by DWCF supply management). See Volume 2B, Chapter 9 and Volume 11B for additional information on DWCFs.

B. UCR and Post-Retirement Health Benefits. The price or rate charged to FMS purchasers of DWCF activities for defense articles and services must be adjusted to include an amount for UCR and post-retirement health benefits costs. UCR would not be applied to any personnel funded by the FMS administrative account (see paragraph 071308). To determine the price or rate adjustment, the civilian salary costs (not including benefits or overtime costs) included in the price or rate, must be multiplied by the UCR and post-retirement health benefits costs rate. Amounts collected for UCR and post-retirement health benefits costs must not be retained by DWCF activities; rather, such amounts must be deposited into the Miscellaneous Receipts Account 3041. The DoD Reimbursable Rates can be found at OUSD(C) DoD Reimbursable Rates website.
0721 TRAINING OF INTERNATIONAL STUDENTS

072101. General

Any special requirement for the exclusive use of an international student or international program must be reimbursed in full. Less than the full cost of training may be charged under training price exceptions, 22 U.S.C § 2761.

072102. International Student Training Price Exceptions

A. Title 22, U.S.C § 2761(a)(1)(C) allows for countries concurrently (same FY) in receipt of International Military Education and Training (IMET) or designated as a high-income foreign country to be charged only those additional costs that are incurred by the USG in furnishing the training.

B. Title 22, U.S.C § 2761(g) authorizes the President to enter into NATO Standardization Agreements (STANAG). The President also is authorized to enter into similar agreements with countries that are major non-NATO allies for the cooperative furnishing of training on a bilateral or multilateral basis, if the financial principles of such agreements are based on reciprocity.

1. Such agreements must include reimbursement for all direct costs but may exclude reimbursement for indirect costs, administrative surcharges, and costs of billeting of trainees (except to the extent that members of the U.S. Armed Forces, occupying comparable accommodations, are charged for such accommodations by the United States).

2. Each such agreement must be transmitted promptly to the Speaker of the House of Representatives and the Committees on Appropriations, Armed Services, and Foreign Relations of the Senate. See SAMM, C10.T13 and C10.T14 for more information on Reciprocal Agreements.

0722 STANDARD GUIDELINES FOR TUITION-BASED TRAINING

Training provided to international students must be based on the costs of providing the training. Several factors affect the tuition rate for which an international student is eligible. The source of financing is one determinant (e.g., whether a country uses its national funds to purchase training or whether U.S. appropriated funds are used to purchase the training). Other factors include whether a country is a high-income country, whether it has signed a reciprocal training agreement with the United States, and/or whether the country is concurrently in receipt of IMET funding. A general tuition rate pricing structure for pricing training is in Figure 7-13.

072201. Types of Training

A. Standard Formal Training. Formal training provided to international students may consist of flying training courses, technical training courses, language training, and other training not specifically addressed in subparagraph 072201.B. Tuition rates are generally
shown as a cost per student or cost per student week. Refer to section 0723 for pricing of tuition-based training.

B. Nonstandard Formal Training. Nonstandard formal training courses follow the same pricing concepts as formal training with the following noted exceptions:

1. **Observer Training.** Observer training where International students, who audit a course, must be charged the same price as enrolled students; and

2. **Distance Learning.** Distance learning or other technology based training as follows:
   
   a. A material only training course that is provided solely by computer media (e.g., computer disc), satellite video teleconference (VTC) or closed circuit VTC, is non-resident and is being developed solely for the training of international students (one country or a group of cooperating countries), must be priced to fully recoup all costs to the USG including the costs (in-house and contractual) to develop and produce the training, and the costs of the materials (such as a computer disc) (see paragraph 071902 for publication/software pricing);

   b. A material and proctor/on-line service, non-resident training course developed solely for the training of international students (one or more countries) that is provided by computer media (e.g., computer disc), plus on-line services (proctor) to include testing must be priced to recoup all costs (in-house and contractual) to develop and produce the training; the costs of the materials (such as a computer disc); and the actual, or estimated costs of the services (see paragraph 072301 for training cost categories and paragraph 071902 for publication/software pricing); and

   c. Resident courses developed solely for the training of international students that is on computer media (e.g., computer disc), plus on-line services (proctor) must be priced to recoup all costs (in-house and contractual) to develop and produce the training; the costs of materials (such as computer disc); the actual, or estimated costs of the services; and the costs for resident training (see paragraph 072301 for training cost categories and paragraph 071902 for publication/software pricing).

3. **Dedicated Training Courses.** For purposes of this section, a dedicated training course is a training course developed or provided solely for the training of international students (one or more countries). Pricing of dedicated training courses must be in accordance with section 0723.

4. **Contractor-Provided Courses.** Contractor-provided courses must include the applicable contract costs. If taught at a government-owned/government operated facility, pricing of indirect costs must be in accordance with section 0723.

5. **Inter-American Air Forces Academy and Western Hemisphere Institute for Security Cooperation Courses.** Training costs associated with courses offered at Inter-American Air Forces Academy and Western Hemisphere Institutes for Security Cooperation
Courses must exclude the fixed costs of operating and maintaining the schools (e.g., costs that do not vary with student load).

6. **Specialized/Dedicated Training Programs.** Refer to section 0724 for specialized/dedicated training program guidance.

7. **Training Teams.** Refer to section 0725 for pricing guidance for training team.

---

072202. **Courseware Development**

**A. Recoupment of Nonrecurring Development Costs**

International student participation in any of the aforementioned types of courses that have been developed for use by U.S. DoD personnel must not include the recoupment of nonrecurring development costs. Since these courses/courseware are not items of SME or MDE, the nonrecurring development costs of the original U.S. courses/courseware must not be included in the price. The costs of providing unique training material based on U.S. developed course/courseware (e.g., sanitizing, customizing, and country standardization) must be recouped.

**B. Pricing of Non-Inventory Courseware**

1. When an international partner has requested that specific courseware be developed to meet its training requirements, either for training in the U.S. or for its own in-country training purposes, and the United States does not currently offer or have such courseware developed, the full costs of developing that courseware must be charged to the international partner. Assumptions used in pricing include: courseware does not currently exist, country-specific requirements being addressed/developed, work hours required to prepare/develop the courseware, courseware may require materials, and courseware may be used in the future for another country if deemed appropriate.

2. The cost must include, but is not limited to, the personnel or contractor costs incurred in the development of the courseware material, and/or supply costs incurred for the cost of publishing the courseware, and any shipping costs that may be incurred if delivering the courseware in-country. The guidance for applying costs to publications, if applicable, may be found in section 0719.

3. When determining the pricing for personnel services, every attempt should be made to use actual costs. If actual cost data is not available, estimated pricing is acceptable. The costs must be substantiated by a reliable audit trail. Pricing of civilian/MP will be in accordance with section 0720.

---

072203. **Liability for Damages**

**A. Training cases that involve the use of U.S. equipment (e.g., aircraft, trucks, or simulators)**, but do not include charges for attrition, must include the statement regarding
liability for damages, “The Purchaser is liable for any and all damages to U.S. Government equipment caused by negligence on the part of the student.” For students attending training under the IMET program, the student’s Invitational Travel Order (ITO) must include the liability statement. The cost of replacing equipment that is destroyed as a result of student negligence must be reimbursed in full. See section 0723 for instructions on pricing replacement equipment. Refer to Chapter 3 for guidance on attrition charges.

B. Claims arising out of combined exercise activities with USG under an LOA with NATO countries must be dealt with under the Agreement between the Parties to the North Atlantic Treaty regarding the Status of their Forces, Article VIII. This also applies to the Agreement among the States Parties to the North Atlantic Treaty and the other States participating in the Partnership for Peace regarding the Status of their Forces.

*072204. Training Obligation

A. General. In general, a training course is an entire effort. This is particularly evident with USG contracted training. However, USG provided training funded by DoD or DoS appropriations must end by the funds expiration date, as this training is severable and must not cross a FY, unless crossing a FY is authorized for a specific authority or program (i.e. FSF: authority to build capacity under 10 U.S.C. § 333, IMET, Combating Terrorism Fellowship Program and the Regional Centers).

B. Obligations. Funds for training are obligated on the date the student enters the course. In some cases, due to the long-range nature of planning required to support students’ participation in a training course, funds can be obligated prior to the start date of the course, so long as the obligation meets a bona fide need of the current FY and are obligated during the appropriated period of availability.

072205. Annual Publication of Tuition Rates

Tuition rates must be computed annually by the Military Departments and published in the Training Military Articles and Services List (SAMM, C10.4.3). Every effort should be made to publish these rates by October 1st of each year. Tuition rates must be those in effect for the year in which the student enters the course or phase of a course. Approved rates must remain constant for the year.

072206. Adjustments to Tuition Rates and Training Obligations

A. Current Year. Adjustments must be made only to correct significant errors in computation, change in syllabus, or major unanticipated increases or decreases in the cost of such items as POL and salaries. The foreign country must be billed for the actual time the student is in training when it varies from the scheduled length of the course. Any adjustments must be made as soon as possible, but not later than 90 days after completion of the course.
B. **Future Year.** Tuition rate estimates for future years must be adjusted for inflation. OUSD(C) published rates will be used. See *OUSD(C)*, DoD Budget Request, “National Defense Budget Estimates (Green Book), Chapter 5,” for treatment of inflation.

072207. **Training Cancellations**

A. **Dedicated Courses/Contract Provided Training.** Once a contract is awarded or a quota is confirmed, a 100 percent charge (cancellation charge) will apply to any country that fails to send a student to the identified training, unless another international student is identified and the quota is filled. Dedicated/contract training will only apply to certain courses. This training will include courses that rely on contract support and courses that are designated for international students only. A list of these courses will be identified by the IAs.

B. **All Other Confirmed Training.** A 50 percent cancellation charge will apply for all confirmed training cancelled or rescheduled with less than 60 days notification unless training is reallocated and filled by another international student. The cancellation policy will be applied to all confirmed training within the 60-day window. Additionally, the cancellation charge will be applied to all training that falls within and outside the 60-day window if the training is part of a sequential pipeline that a student would attend as part of a complete curriculum.

C. **Other Cancellation Charges.** The IA will determine all other cancellation charges. To the extent there are costs that would not exist but for the international student, such costs must be considered by the IA in determining the appropriate cancellation charge (e.g., cost of the International Military Student Office (IMSO)). Request for waivers to these cancellation charges should be addressed to the IA. The funding status of a training line has no bearing on whether the cancellation charge applies. The cancellation charge will not be applied when the cancellation is due to:

1. USG decisions, such as deletion or rescheduling of classes;

2. Unavoidable circumstances within a country, such as national disaster; or

3. The quota being used by another country.

072208. **Student Costs**

Certain costs associated with support of international students and/or their dependents are considered to be a responsibility of the foreign government and are not included in the tuition rate for a training course(s). The student’s ITO will contain details about the level of support provided in accordance with the FMS LOA; see SAMM C10.11 for more information. Compute and bill these costs as follows:

A. **Meals.** Meal rates are set annually by OUSD(C) and published on the OUSD(C), DoD Reimbursable Rates website: “Food Service Charges at Appropriated Fund Dining Facilities, (Tab G).”
B. Medical. Medical care (including outpatient) for students and dependents must be charged in accordance with the procedures identified in SAMM, \textit{C10.9}. If included on the LOA, these costs must be shown as a separate line and billed to the foreign country.

C. Travel. Student travel, \textit{living allowances}, and related costs must be paid to the commercial carrier, or other service provider, by the foreign country or student. For any U.S. services supplied (e.g., Air Mobility Command transportation), the non-government rate must be applied and billed to the foreign country or student, as appropriate. The government rate applies for IMET or non-repayable FMF.

D. Lodging

1. Family Housing. International students may occupy DoD student family housing only after a determination has been made that U.S. student requirements are satisfied and must be satisfied for the projected duration of the international student’s occupancy. Under these circumstances, the amount to be charged must be, at a minimum, the cost incurred by DoD for the operation and maintenance of family housing units. When international students occupy family housing that is not excess to U.S. Military Service needs, the amount to be charged must be equal to the cost of housing U.S. military service personnel on the economy.

2. Government Quarters. When international students occupy government quarters, they must be required to pay, at a minimum, the local custodial and nonappropriated fund fees.

3. NATO STANAG/Reciprocal Pricing Agreement Countries. Lodging costs may be excluded from reimbursement for billeting of trainees except to the extent that members of the Armed Forces occupying comparable accommodations are charged for such accommodations by the United States.

*072209. Field Studies Program (FSP)

In accordance with \textit{DoD Instruction 5410.17}, “United States Field Studies Program (FSP) for International Military and Civilian Students and Military-Sponsored Visitors,” tuition rates must include the costs associated with implementation of FSP.

A. Included Costs. Costs that may be included in the computation of the FSP include the following:

1. Transportation – car, bus, rail, air (if applicable to the Washington DC trip), and baggage (non-excess);

2. Meals – costs should be limited to those rates as specified in the \textit{Joint Travel Regulations (JTR)};

3. Lodging – if applicable, the costs of lodging will be based on double occupancy for those International Military Students (IMS) in the rank/equivalent grade of O-6 and
below. Single room accommodations are allowed for escorts and those IMS in the rank/equivalent grade of O-7 or higher;

4. Admission (except as noted in subparagraph 072209.B.4);

5. Tours and associated fees (e.g., brochures, pamphlets, maps);

6. Appropriate gratuities, where applicable;

7. Service charges (e.g., tolls and parking fees);

8. Costs associated with authorized guests at FSP functions such as luncheons, dinners, and receptions planned to facilitate IMS and U.S. personnel meeting and engaging in conversation. The ratio of IMS to guests will not be less than 20 percent in gatherings of fewer than 30 persons. When 30 or more persons are present, the ratio of IMS to guests will not be less than 50 percent;

9. Mementos (e.g., coins and plaques) for sponsors, guest speakers, and other individuals/institutions that support the FSP at a cost not to exceed $25 (rate to be adjusted annually by the OUSD(C) published inflation rate after 2018); and

10. Distinctive medallions, plaques, or ornaments, one per IMS, which serve to commemorate the IMS’s experience for participating in a particular FSP activity.

B. Excluded Costs. Funds may not be obligated or expended to pay for the following:

1. Alcoholic beverages;

2. Excess baggage;

3. Support for purely academic objectives (i.e., costs for trips that are an integral part of the training curriculum must be included in the course tuition rate);

4. Entertainment expenses for activities that are substantially of a recreational character, including but not limited to entrance fees at sporting events, theatrical and musical productions, and amusement/theme parks;

5. Personal costs of the IMS for laundry, cleaning, telephone service, room service, and all other costs not directly associated with the programmed tour; and

6. Dependents authorized to accompany an IMS in the United States participating in selected FSP activities; such participation is subject to space availability and at no cost to the FSP. Costs related to such participation must be paid by the IMS in advance of the event.
C. IMSO Costs

1. Local area travel costs are reimbursable in accordance with the JTR.

2. Washington, DC trip costs will include all appropriate costs for the IMS as well as the escort officer(s) (e.g., transportation, meals, lodging, and admissions). For more information on visits to Washington D.C., see SAMM, C10.18.5.

072210. Retainable Instructional Materials (RIM)

Much of the RIM issued to an IMS is provided via compact disk; however, if there is a need to ship RIM, include the cost of the shipment in the tuition cost. RIM must be packed and labeled at the training installation and shipped to the Security Cooperation Office of the country for delivery to the IMS. A copy of the student’s ITO must be placed inside the package. The training installation must ensure that no personal baggage or other unauthorized matter is shipped with RIM. See SAMM, C10.20.6 for additional information.

0723 PRICING OF TUITION-BASED TRAINING

072301. Cost Categories

The pricing of training tuition rates falls under one of two costing schemes – full cost or incremental cost. Within each cost scheme, costs are segregated into three categories: direct costs, indirect costs, and other billable costs.

A. Direct Cost. A direct cost is any cost that is identified specifically with the training of a student. Direct costs also include directly associated costs that would not have been incurred had the other direct costs not been incurred (e.g., costs that are allocated on a specific measurable basis - cost per student week, cost per flying hour/sortie, costs per steaming hour, costs per range hour).

B. Indirect Cost. Indirect costs are costs of resources that are jointly or commonly used by all activities at an installation, but are not specifically identifiable with any of the users. These costs are not directly related to training, but instead are associated with a variety of activities and services.

C. Other Billable Cost. Other billable costs are those required by legislation or policy that are additive to the cost of training an international student (e.g., FMS administrative surcharge, FSP, attrition, and RIM).

*072302. Pricing of Personnel

A. MP

1. Full Costs. Price military pay using the FMS composite standard rates, which include the per capita normal cost of MERHC and the acceleration factor for the
Defense Health Program (DHP) published at OUSD(C) DoD Reimbursable Rates website, under “Military Personnel Composite Standard Pay and Reimbursement Rates,” (Tab K). In addition, see paragraph 072002 and Figure 7-12 for pricing applicability.

2. Additional Cost. Base pay and allowances of U.S. active duty personnel, including MERHC and DHP costs, are considered a sunk cost and are normally not considered an additional cost, except as noted in paragraph 072304. Additional costs related to military deploying as part of a training team could include such costs as hazardous duty pay, family separation pay, travel, and per diem. Exceptions follow:

   a. Military positions coded as reimbursable billets applicable to FMS must be considered additional costs. Budget materials must clearly reflect the reimbursable nature of the billet.

   b. MP assigned to DWCF activities must be considered additional costs.

   c. Pay and allowances of National Guard/Reserve members called to active duty in support of FMS must be considered additional costs.

B. Civilian Pay

1. Full Cost. Price civilian pay in one of two ways:

   a. Using actual costs plus inflation and applicable acceleration factors (recommended for tuition pricing); or

   b. In accordance with paragraph 072001 and Figure 7-11.

2. Additional Cost. Base pay and allowances of U.S. civilians are not necessarily considered sunk costs and may/may not be considered an additional cost. Additional costs related to civilians deploying as part of a training team could include such costs as hazardous duty pay, travel, and per diem. See Figure 7-13 for tuition training pricing applicability. Additional costs would include:

   a. Civilian positions coded as reimbursable billets applicable to FMS. Budget materials must clearly reflect the reimbursable nature of the billet; and

   b. Civilian personnel assigned to DWCF activities.

072303. Pricing of Full Cost of Training (Tuition Rates A and B)

Full cost includes all direct costs and a proportional share of indirect costs to the USG for providing the training, regardless of funding sources. When developing the full cost of training, take into account the cost of training both U.S. and international students. For international
students, full cost will also include the other billable costs. Rates priced using full cost principles include Rates A and B in Table 7-2. Training price exceptions are found in section 0721.

**A. Direct Costs**

Certain costs can be directly identified to training courses. Once identified, the direct cost is divided by the total number of students that can be enrolled in a course to determine the cost per student. Add together all direct costs per student to be included in the tuition rate.

1. **Instructors and School Support Staff**

   a. **Instructors**

      (1) **Average Instructor Costs.** The cost of instructor salaries, allowances, and other entitlements is computed by dividing the annual instructor cost by 52 weeks and multiplying the result by the number of weeks in the applicable course (see section 0720). Divide this cost by the maximum class size to develop the instructor cost per student.

      (2) **Instructor Contact Hours.** Alternatively, instructor costs may be allocated on an instructor contact-hours basis (e.g., total platform work hours allocated as instructor contact-hours per student); this allows for a more equitable distribution.

   b. **School Support Staff.** Compute the cost of salaries, allowances, and other entitlements of administrative and other personnel supporting training by dividing the total annual cost by total course weeks of training and multiplying the result by the number of weeks in the applicable course. Divide this cost by the maximum number of students in the class to develop the school support staff cost per student.

   c. **IMSO and Staff.** Allocate the cost of the IMSO and staff to courses based on actual or programmed international student weeks.

2. **TDY and Per Diem.** The cost of TDY must be allocated to courses based on a causal or beneficial relationship. Accordingly, TDY must be segregated into two categories: direct TDY that is caused by or benefits a specific course or courses and indirect TDY that benefits the training operation as a whole. TDY that is directly related to (or benefits) one or more courses must be directly allocated to those courses. To preclude "double charging" TDY to a course, care must be taken to ensure that all directly allocable travel is eliminated from the TDY included in the indirect cost pool.

3. **Equipment Overhaul and Maintenance**

   a. **Depot Level Maintenance.** The depot level maintenance cost of aircraft, engines, motorized vehicles, and equipment must be charged to the applicable course at the budgeted average hourly item repair cost that includes civilian pay, contractual effort, and supplies. These costs must be adjusted to include military pay and centrally procured
equipment and parts. Multiply this average hourly cost by the hours programmed for use in the specific course.

b. **Base Level Maintenance.** Base level aircraft and equipment maintenance costs (including munitions maintenance) must be allocated to courses on the basis of total maintenance costs divided by the total training hours supported, if not identifiable and chargeable on a job order basis. Costs must include military and civilian pay, supplies and equipment (including replenishment spares), and contractual support. If there are a significant number of transit or non-training aircraft at the base, aircraft operating costs must be initially distributed between training and non-training on the basis of percentage of number of takeoffs, number of sorties per year, or maintenance direct labor hours, whichever results in the best allocation of costs in relation to the benefits received. For this purpose, aircraft used by personnel supporting training for proficiency flying must be classified as training aircraft.

c. **Range Maintenance.** Range maintenance and operating costs must be computed and allocated to courses based on the percentage of sorties or rounds fired in the course compared to the total sorties or rounds fired or any other basis that results in an equitable allocation of these costs.

4. **Simulators.** Simulator costs must include pay of the operators, supplies, and equipment maintenance. Simulator costs must be allocated to the course in the same ratio as hours used to the total hours available.

5. **Supplies, Materiel, Training Aids, and Ammunition**
   a. The cost of POL for aircraft (rotary/fixed wing), motorized equipment, ships, landing craft, and other equipment must be computed by multiplying the equipment hourly cost of POL times the number of operating hours for the course.

   b. The costs for training materials, equipment, supplies, aids, munitions, flight clothing, and personal equipment must be charged to the applicable course. Training material and aids prepared above base level that are readily identifiable to a course, must be included as a direct cost of the course. If not readily identifiable to a specific course, these costs must be distributed to courses in the same manner as indirect TDY costs. Care must be taken to ensure against "double charging" a course.

6. **Directly Associated Costs**
   a. Other directly associated costs allocable to training operations must be distributed to courses based on total training hour support or any other logical method of measurement (e.g., square footage of buildings, flying hours/sorties, or any other usage factor). Costs in this category include costs generated as a result of the incurrence of another cost and would not have been incurred had the other cost not been incurred (e.g., flight line operations costs in direct support of flying training and port operations in direct support of shipboard training, without which there would be no flying training operations or shipboard training operations).
b. The cost for training U.S. instructor pilots, including proficiency and continuation training, must be limited to special aircraft not in the active U.S. aircraft inventory. These costs must be divided by the normal tour of duty for an instructor pilot to arrive at an annual cost that must be distributed to courses in the same manner as instructor salaries and allowances.

B. Indirect Costs

1. Indirect Base Operating Support Costs

   a. Allocation. Indirect base operating costs must be initially allocated to major claimants (e.g., training activities and tenants) at the installation level using engineering estimates or some other basis to ensure that allocations are commensurate with the benefits received. The amount allocated to training must then be distributed to areas of training that are significantly different (e.g., flying operations, classroom training, and equipment maintenance). The amount allocated to each area of training must then be distributed to the tuition rate by dividing the amount allocated by the annual estimated student weeks of training.

   b. Exclusions. No costs to support or operate quarters, a family housing complex, and food service activities that are applicable to instructors and training support personnel may be allocated to tuition rates if these costs are recouped in base personnel salaries.

2. Maintenance and Repair of Facilities. Maintenance and repair of facilities must be considered part of the normal base operating support costs, unless these costs can be directly identified to a specific user (e.g., dedicated facility, specific to a course or courses). When non-dedicated facilities are used for training, the costs are included as indirect costs in the tuition rates. These costs may be combined with other indirect costs and allocated at the installation level or allocated based on a separate cost pool. IAs may not unilaterally dedicate facilities for international student use and then recoup the full cost of the maintenance and repair of the facilities through tuition rates. Such maintenance and repair costs will be combined with other indirect costs and allocated at the installation level. See sections 0710 and 0711 for more information on facility usage.

3. Indirect TDY. TDY that is caused by or benefits the training operation as a whole must be allocated to courses by dividing these total indirect TDY costs by total number of students to determine the course cost per student.

4. Training Material and Aids. Training material and aids not readily identifiable to a specific course must be distributed to courses in the same manner as indirect TDY costs.

5. Exclusions. Exclude the following from indirect allocations:

   a. Costs associated with combat development, training development (less course development), non-resident instruction, or other activity that offers no
support to the training mission, and a pro rata share of school overhead costs to support these elements;

b. Costs associated with units attached to the training installation with duty stations at another location that are not involved in the training of international students; and

c. Costs related to underutilized capacity and mobilization requirements, when specifically identified and documented.

* C. Other Billable Costs

1. Attrition Rate/Liability Statement. Tuition Rate A will include the attrition factor (SAMM, C9.T4) whenever the training or education course includes the use of training equipment or operational equipment used as training aids. Tuition Rate B will include the liability statement in subparagraph 072203.A. Title 22, U.S.C. § 2761(a)(1)(C) states the full cost of the service must be paid by the purchaser.

2. FSP. Tuition rates must include the costs of the FSP if a program exists at the training location. Do not include if there is no FSP at the training location. See paragraph 072209 and SAMM, Chapter 10 for more information on FSP.

3. RIM. Tuition rates must include the costs of RIM, if applicable. See paragraph 072210 for more information on RIM.

4. FMS Administrative Surcharge. The current FMS administrative surcharge must be applied to Tuition Rate A. Exceptions are contained in the SAMM, Tables C10.T13 and C10.T14.

*072304. Pricing of Additional Cost Training (Rates C, D, and E)

Additional costs represent the increase incurred in the full cost of training due to the addition of international students. Title 22, U.S.C. § 2761(a)(1)(C) provides the authority to apply additional cost pricing to training sold to a purchaser concurrently in receipt of IMET or a purchaser designated as a high-income country. Title 22, U.S.C. § 2347(b), provides the authority for FMF recipients (Rate D) to be charged at a rate comparable to IMET (Rate E). Title 22, U.S.C. § 2770(a)(3) provides the authority to exclude military salaries from additional cost pricing when the training is funded with U.S. appropriated funds; see Figure 7-14.

A. Direct Costs

1. Instructors and School Support Staff

a. Courses must be reviewed to determine if the additional cost should be developed for a specific course (e.g., pilot training) or a group of courses. For classroom
or technical courses that are similar or that utilize instructors who teach more than one course, such courses may be grouped for computation purposes.

b. For courses that contain both U.S. and international students, determine instructor and staff requirements for the programmed (maximum) U.S. student load. Estimate the total number of students, both U.S. and international, and the number of instructors and staff required. Where total estimated student requirements exceed maximum programmed student requirements, the difference in instructor and staff between the two projections represents the additional costs. This value, divided by the total number of students, represents the additional cost per student for the course(s).

c. When there is a one-for-one or one-for-two relationship of instructor to student, the instructor in all cases must be considered an additional cost. If the entire class is composed of international students, the instructor and staff must always be considered additional.

d. It is anticipated that the additional cost charged for instructors must be minimal for courses or groupings of courses when the ratio is high of either students to instructors or U.S. students to international students.

2. TDY and Per Diem. The costs for all student travel and per diem associated with the training must be considered an additional cost. Refer to subparagraph 072303.A.2 for additional TDY and per diem information.

3. Equipment Overhaul and Maintenance. The cost for overhaul and maintenance of major items of equipment, when computed on an hourly use basis, must be an additional cost to a course based on estimated utilization hours. Refer to subparagraph 070303.A.3 for additional information.

4. Simulators. The cost for simulator hours must be an additional cost. Refer to subparagraph 072303.A.4 for additional information.

5. Supplies, Material, Training Aids, and Ammunition. The associated additional cost must be the replacement price of items that are not returned or reusable (including POL) used in conducting the training.

6. Directly Associated Costs

   a. Instructor Training. The training of U.S. instructors or other personnel for special courses normally not conducted for U.S. personnel must be considered an additional cost. When the required training is conducted at a U.S. training facility, the benefiting country must be charged the course cost established in accordance with instructions for computing training costs in paragraph 072303.
b. Facilities and Equipment. The costs for any facilities or equipment acquired primarily for the support of international students, and the support costs thereof, must be considered incremental.

B. Indirect Costs

Standard weekly rates for base operating support must be charged to additional cost training rates, as developed by the IAs, and adjusted annually. Include only those additional base operating support costs that are incurred because of international student attendance. See subparagraph 072303.B for additional information on indirect costs.

C. Other Billable Costs

1. Attrition Rate/Liability Statement. For FMS training sold using additional cost pricing (Tuition Rates C-D in Table 7-2) include the liability statement in subparagraph 072203.A.

2. FSP. The full cost to the USG of FSP must be considered an additional cost. See paragraph 072209 for more information on FSP.

3. RIM Shipment. If RIM is applicable for a course, then the costs must be considered an additional cost. See paragraph 072210 for more information on RIM.

4. FMS Administrative Surcharge. The current FMS administrative surcharge must be charged on FMS training cases/lines receiving incremental pricing (Tuition Rates C-D in Table 7-2). Tuition Rate E (IMET) is exempt from paying the FMS administrative surcharge.

D. Exclusions

The unfunded civilian retirement charge that is deposited to the Miscellaneous Receipts Account of the U.S. Treasury must be considered a fixed cost and not included in incremental priced training rates (Tuition Rates C-E in Table 7-2).

*0724 PRICING OF SPECIALIZED/DEDICATED TRAINING PROGRAMS

When pricing specialized dedicated training programs, full cost pricing principles (refer to paragraph 072303) must be applied. Appropriate legislative authority and terms of the formal agreement must be taken into consideration. The information in paragraphs 072401 and 072402 is provided for current specialized/dedicated training programs. General guidelines for other types of training events are found in the SAMM, Chapter 10.

072401. Air Force Specialized/Dedicated Training Programs

A. Euro-NATO Joint Jet Pilot Training (ENJJPT) Program

7-68
1. The ENJJPT multinational cooperative training program at Sheppard Air Force Base, Texas is an activity authorized by 22 U.S.C. § 2761(g). The LOAs clearly indicate that the AECA is the authority of the program but remain silent as to which exact section authorizes the activity. Associated program documents (Memorandum of Understanding and Plan of Operations) clearly state that the activity is undertaken "in furtherance of NATO rationalization and standardization" and "in the cooperative spirit of the NATO alliance," while also citing the NATO Status of Forces Agreement.

2. While a NATO or Major Non-NATO Ally may also be in receipt of IMET funds, once a cooperative training agreement of the type envisioned by 22 U.S.C. § 2761(g) is signed, it becomes the section of the U.S.C. that determines the terms under which the training activities are conducted if the financial principles are based on reciprocity. These reciprocal agreements include reimbursement for all direct costs and may exclude reimbursements for indirect costs, the FMS Administrative Surcharge, and the cost of trainee billeting (unless U.S. forces are charged to occupy like accommodations). The application of the FMS Administrative Surcharge and Contract Administration Surcharge to the ENJJPT Program is waived.

B. Dutch F-16 Training Program

1. The Dutch F-16 training program is conducted under the authority found in 22 U.S.C. § 2761(g). Based on that authority, the program must recoup reimbursement for all direct costs but may exclude reimbursement for indirect costs, the FMS administrative surcharge, and the cost of trainee billeting (unless U.S. forces are charged to occupy like accommodations).

2. The U.S.C. allows for some flexibility when it comes to the billing of indirect costs under 22 U.S.C. § 2761(g) so those preparing the costs can properly account for sharing of the total cost of the program. Unique program agreements may provide specific reimbursement details to which the parties have agreed. The FMS administrative surcharge has not been excluded for this program. Costs associated with the salaries of activated troops of the reserve component/National Guard would be a cost to the program.

C. The German Air Force (GAF) Tornado Program. The GAF Tornado Program is a dedicated training program, authorized by 22 U.S.C. § 2761(g). Based on that authority, the program must recoup reimbursement for all direct costs but may exclude reimbursement for indirect costs, the FMS Administrative Surcharge, and the cost of trainee billeting (unless U.S. forces are charged to occupy like accommodations). Again, the U.S.C. allows for some flexibility when it comes to the billing of indirect costs under 22 U.S.C. § 2761(g), so those preparing the costs can properly account for the sharing of the total cost of the program. Unique program agreements may provide specific reimbursement details to which the parties have agreed. The FMS Administrative Surcharge has not been excluded for this program.

D. The Republic of Singapore Air Force (RSAF) PEACE CARVIN V (PC V) F-15 Training Program. The RSAF PC V program is authorized by 22 U.S.C. § 2761(a)(1)(C). Singapore is identified as a high-income country under the FAA § 546(b) and is eligible to receive
training priced using the additional cost concept. Absent a formal agreement, costing procedures should follow the guidelines in paragraph 072304.

E. The RSAF PEACE CARVIN II (PC II) F-16 Training Program. The RSAF PC II program is authorized by 22 U.S.C. § 2761(a)(1)(C). As a high-income country, Singapore is eligible to receive training priced using the additional cost concept. Absent a formal agreement, costing procedures should follow the guidelines in paragraph 072304.

F. Taiwan Air Force PEACE FENG HUANG F-16 Training Program. Taiwan’s PEACE FENG HUANG program is conducted under the authority of 22 U.S.C. § 2761(a)(1)(C). Taiwan is not under special pricing authority and therefore pays the full cost of training. Refer to paragraph 072303.

072402. Army Specialized/Dedicated Training Programs

A. The RSAF Peace Prairie CH-47 Chinook Helicopter Training Program. The Peace Prairie Program is conducted under the authority of 22 U.S.C. § 2761(a)(1)(C). As a high-income country, Singapore is eligible to receive training priced using the additional cost concept. Absent a formal agreement, costing procedures should follow the guidelines in paragraph 072304. Costs associated with the salaries of activated troops of the reserve component/National Guard would be considered an additional cost.

B. The RSAF Peace Vanguard AH-64 Apache Helicopter Training Program. The Peace Vanguard Program is conducted under the authority of 22 U.S.C. § 2761(a)(1)(C). As a high-income country, Singapore is eligible to receive training priced using the additional cost concept. Absent a formal agreement, costing procedures should follow the guidelines in paragraph 072304. Costs associated with the salaries of activated troops of the reserve component/National Guard would be considered an additional cost.

072403. Personnel

Specialized/dedicated training programs may be supported by U.S. personnel, international personnel, or a combination of the two. When establishing a specialized/dedicated training program, an assessment must be performed to determine whether additional U.S. personnel are required to support the training. Care should be taken to ensure these individuals are properly coded as reimbursable billets and whether they are considered a direct cost or an indirect cost. Other personnel billets may provide support to the training.

A. MP. Pricing for U.S. MP must be in accordance with subparagraph 072302.A. Where international military members are filling training instructor billets, apply the comparable U.S. rate if computing costs to charge or compensate.

B. Civilian Personnel. Pricing for U.S. civilian personnel must be in accordance with subparagraph 072302.B. Apply the unfunded civilian retirement factor where applicable.
072404. Inflation Factors

Estimates for future years must be adjusted for inflation. OUSD(C) published rates will be used. See subparagraph 072205.B.

072405. Start-up Costs

The FMS purchaser is responsible for all costs, to include expenses incurred by IA activities assisting in the establishment of the training. Costs to consider in the start-up of a specialized/dedicated training program may include, but are not limited to, the following: environmental analysis/assessment/impact; construction of, alteration of, or expansion of existing facilities (refer to section 0710); a pro rata share of the costs for joint use of USG facilities (refer to section 0711); acquisition of equipment required to execute the program; commercially leased space (i.e., off-base offices, on-base modular buildings); and one-time site activation costs, if applicable.

072406. Direct Costs

Refer to subparagraph 072303.A (full cost) or subparagraph 072304.A (additional cost) for the types of costs appropriate to charge as direct costs.

072407. Indirect Costs

Refer to subparagraph 072303.B (full cost) or subparagraph 072304.B (additional cost) for the types of costs appropriate to charge as indirect costs.

072408. Other Billable Costs

A. Attrition Surcharge/Liability Statement. If specific program agreements do not address the application of the attrition surcharge, the liability statement in subparagraph 072203.A must be included on the LOA.

B. FSP. Specialized training programs may include the costs of the FSP if the purchaser(s) desires to participate in such. Refer to paragraph 072209.

C. RIM. If there is a need to ship RIM, include the cost of the shipment in the pricing of the specialized training program. Refer to paragraph 072210.

D. FMS Administrative Surcharge. The current FMS administrative surcharge must be applied to the specialized training program, where applicable. Refer to subparagraphs 072303.C.4 and 072304.C.4.

*0725 PRICING OF TRAINING TEAMS

When training is conducted by a Security Cooperation Team/SA Team (e.g., Management Service Team, TAFT, Extended Training Service Specialist, or MTT) away from the normal
training institution, the services of the team must be treated as a service and priced in accordance with paragraph 072302. Training aids must be included in the pricing. All pay and allowances, travel, and per diem paid to members of the team established to conduct in-country training must be considered costs of the training team except as noted in paragraphs 072501-072504.

072501. Teams Fully Financed by FSF Funding

   A. Military Pay and Allowances. Exclude the cost of military pay and allowances.

   B. Civilian Pay and Allowances. Exclude the cost of civilian pay and allowances.

   C. Attrition/Liability Statement. Include the liability statement, “The Purchaser is liable for any and all damages to U.S. Government equipment caused by negligence on the part of the student.”

072502. Teams Fully Financed by MAP Merger, FMF, IMET, or BPC Funding

   A. Military Pay and Allowances. Exclude military pay and allowances from the costs established for teams conducting in-country training fully financed by MAP Merger or FMF, financed under the IMET program, or DoD-funded BPC teams. Should a MAP/MAP Merger case be less than 100 percent financed by such funds, it must be re-priced to include the full cost of MP.

   B. Civilian Pay and Allowances. Exclude civilian unfunded retirement from the costs established for teams conducting in-country training fully financed by MAP Merger or FMF, financed under the IMET program, or DoD-funded BPC teams. Refer to paragraph 072302 for an explanation and pricing.

072503. Teams Financed by an IMET-Recipient Country/High-Income Country

For teams conducting in-country training financed by a high-income country or an IMET-recipient country using its own national funds, determine whether personnel costs are considered an additional cost to the USG. Refer to paragraph 072302 for an explanation and pricing.

072504. Teams Using National Guard/Reserve Personnel

If National Guard or Reserve personnel are activated solely to conduct FMS training, those costs must be considered additional costs to the USG and must be properly charged to the country or countries receiving the training. Refer to paragraph 072302 for an explanation and pricing.

¹ **RATE C – FMS**: Countries concurrently in receipt of IMET that elect to purchase training using national funds receive this rate. Countries designated as high-income countries also receive this rate.

² **Apply**: Charge the entire factor against the additional cost. There is no reduction to the factor because additional cost pricing is used.

³ **Refer to 22 U.S.C. § 2761(g)**. The President is authorized to enter into NATO STANAG and similar agreements with Major Non-NATO Allies if the pricing principles of such agreements are based on reciprocity. Such agreements may exclude reimbursement of indirect costs and the FMS Administrative Surcharge.

^2 Apply: Charge the entire factor against additional cost. There is no reduction to the factor because additional cost pricing is used.

^4 RATE D – FMF: This rate applies to courses provided to countries that use U.S. appropriated dollars as their source of funding (except IMET). If the training case is not wholly funded with U.S. appropriated funds (e.g., 100 percent MAP Merger, 100 percent non-repayable FMF), then re-price training to include military salaries and benefits. This rate also applies to general BPC appropriations and authorities (i.e., FSF: authority to build capacity under 10 U.S.C. § 333).
Figure 7-1. Price Computation Example: Overhaul of Purchaser-Owned Materiel

**Assumptions:**
- Civilian Direct Labor Hours 500
- Direct labor hourly rate (employee salary and pro rata overhead) $36.72
- UCR Rate FY 2018 6.8%
- Army Military Labor Hours (E-7) 100
- Foreign Purchaser paid for inbound and outbound transportation

**Computation:**
- Direct materiel consumed or incorporated (does not include purchaser-owned materiel) $1,000.00
- Direct civilian labor cost recouped (including unpacking and PC&H) $(500 \times $36.72) $18,360.00
- Unfunded Civilian Rate costs $(18,360 \times 6.8\%) $1,248.48
- Military Composite Standard Pay Reimbursement $(104,429 \times .00056) \times 100 $5,848.02
- Transportation

<table>
<thead>
<tr>
<th>+</th>
<th>-----</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>$26,456.50</td>
</tr>
</tbody>
</table>

1 This figure is general in nature and does not show all costs that may be included. For example, direct materiel consumed or incorporated should include transportation, replacement prices, and charges as appropriate. (See subparagraph 070402.B for treatment of DWCF materiel). This example assumes that inbound and outbound transportation is paid by the FMS purchaser. (See subparagraph 070902.F for information on incoming and outgoing transportation costs). If the purchaser does not pay via the freight forwarder, the cost is included in the FMS selling price.

2 The administrative surcharge is an additive to the FMS selling price.
Figure 7-2. Price Computation Example: Non-Excess Procurement Funded Item from Stock

**Assumptions:**

<table>
<thead>
<tr>
<th>Market Value</th>
<th>None Available</th>
</tr>
</thead>
<tbody>
<tr>
<td>Most Recent Acquisition Price</td>
<td>$50,000.00</td>
</tr>
<tr>
<td>New Contract Price</td>

<tr>
<td>Service Life</td>
<td>10 Years</td>
</tr>
<tr>
<td>Age at transfer</td>
<td>6 Years</td>
</tr>
<tr>
<td>Remaining Service Life</td>
<td>4 Years</td>
</tr>
</tbody>
</table>

**Calculation**

**Not to Be Replaced**

Adjusted Price: \((50,000+5,000) \times (4/10)\)

Adjusted NC recoupment: \(2,000 \times (4/10)\)

Prorated overhaul costs before sale date (see Figure 7-3)

FMS Selling Price

$22,000.00

800.00

+ 5203.20

$28,003.20

**To Be Replaced**

Adjusted Price: \(100,000 \times (4/10)\)

Adjusted NC recoupment: \(2,000 \times (4/10)\)

FMS Selling Price

$40,000.00

800.00

+ 800.00

$40,800.00

1 (Most Recent Acquisition Price + Modification Costs) \times Remaining Service Life

2 NC Recoupment Charge \times Remaining Service Life

3 Credit to Miscellaneous Receipts Account 3041.

4 Credit previously incurred overhaul costs to the financing account.

5 Any administrative, PC&H, and transportation surcharges are additive to the selling price.

6 FMS selling price cannot be less than the Market Value if one exists.
If this is a sale of a ship, the FMS selling price cannot be lower than the scrap value or fair value plus the cost of the last major overhaul or outfitting accomplished before the sale.

New Contract Price \times \text{Remaining Service Life}
Figure 7-3. Price Computation Example: Overhaul Costs Previously Incurred for a Procurement Funded Item Sold to FMS Purchasers

Assume the following:

1. Item is to be sold in May 2018. The last overhaul for that aircraft was accomplished in June 2016 at a cost of $8,672.

2. The normal interval between overhauls for the item is 60 months.

   The price is computed using the following steps:

   A. Determine the actual interval since the last overhaul in terms of months.

      June 2016 to May 2018 equals 24 months.

   B. Determine the percentage of overhaul costs applicable to the DoD by comparing the actual interval since the last overhaul with the normal interval between overhauls.

      Actual Interval = 24 months = 40%
      Normal Interval = 60 months

3. Determine the amount of the costs to be charged to the purchaser by subtracting the resulting percentages in step 2 from 100 percent and applying the result to the overhaul costs. If actual overhaul costs are not known, a reasonable estimate should be obtained from the facility normally performing overhauls for the type of item that is to be sold.

   100% - 40% = 60% × $8,672 = $5,203.20
Figure 7-4. Price Computation Example: Sale of Ship (Greater than 3,000 Tons or More Than 20 Years Old) Not to be Replaced

**Assumptions:**

<table>
<thead>
<tr>
<th>Description</th>
<th>Value</th>
</tr>

1 If the method used to determine an estimated actual PCH&T cost is based on the cost or price of the excess item, acquisition cost must be used.

2 Credit to Miscellaneous Receipts Account 3041.

3 Credit previously incurred overhaul costs to the financing account.

4 The FMS selling price must be increased if the market value or the scrap value plus the NC recoupment charge and the prorated value of the last major overhaul costs incurred are higher than the fair value FMS selling price. The market value is the price at which bona fide sales have been consummated for products of like kind, quality, and quantity. The scrap value is the amount that would be expected to be obtained from selling the asset at the end of its useful life. The fair value price is determined by the Federal Condition Code.

5 Any administrative, PC&H, and transportation surcharges are additive to the selling price.

</tr>
<tr>
<td><strong>FMS Unit Selling Price</strong> (1,091,813/20)</td>
<td><strong>$54,590.65</strong></td>
</tr>
</tbody>
</table>

1 PC&H and CONUS transportation are applicable, if the GFM is purchased from procurement citing the case funds. Actual costs should be used whenever known. However, in the absence of actual costs, a percentage-based computation must be used. For the purpose of this example, the GFM ($25,000) is considered to be all procurement-funded items with unit costs of less than $10,000. PC&H and Inland CONUS Transportation are not applicable, if the GFM is shipped from inventory by the DoD Working Capital Funds, as the cost is included in the standard (stabilized) price of the item.

2 Transportation of end item, if applicable, and administrative surcharges are additive to the selling price.
Figure 7-10. Calculation of Charges for Leased Defense Articles with Illustrative Entries

STEP 1: Determine Service Life.
   a. Date to be leased: June 2018
   b. Date item first fielded or actual acquisition date of specific item (if known): June 2008
   c. The total estimated service life of the item: 240 months
   d. Item age in months as of the lease date: 120
   e. Number of months to be leased: 12
   f. Estimated months of service life remaining at conclusion of lease: +108
   g. Total months of service life (d. + e. + f.)\(^1\): 240

STEP 2: Determine cost of defense articles leased to be depreciated.
   a. Original acquisition cost: $1,000,000
   b. Pro rata share nonrecurring R&D and production costs\(^2\): 20,000
   c. Capital improvements
      (1) Major overhauls in past 24 months (see subparagraph 071505.I): 500,000
      (2) Modifications net of retirements\(^3\): +300,000
      Total Cost: $1,820,000
   Less residual value Amount subject to depreciation
   (see Volume 4, Chapter 6, paragraph 060207)

STEP 3: Calculate monthly charge.
   Divide results of Step 2 by results of Step 1.
   \[ \frac{1,820,000}{240} = 7,583.33 \]

\(^1\) In the event the service life is zero, the life would be extended to include the lease period.

\(^2\) The pro rata share of nonrecurring R&D and production costs is additive when determining the full cost of the equipment to be depreciated. This cost is not authorized to be waived under subparagraph 071505.I.

\(^3\) Retirements represent serviceable components and weapons that are replaced by a modified version and that are returned to inventory upon removal. Normally, retired items are valued at standard (stabilized) inventory price, if repair is not necessary. If repair is required before the item may be reissued, the retirement item is valued at standard inventory price less estimated repair cost.
Figure 7-11. Civilian Personnel Services Price Computation Example

**Assumptions:**
A. Navy General Schedule (GS)-12 within Atlanta, Georgia locality pay area. When the GS step is not known, use step 5 pay rates. $38.23 per hour is used for this computation example.
B. 100 hours performed in August 2018 against an FMS Case
C. FY 2018 UCR Factor = 6.8%
D. FY 2018 Navy Civilian Personnel Fringe Benefits Factor = 35.2%
E. L&H Acceleration Factor = 18%

</tr>
</tbody>
</table>

¹ Pay rates in effect at the time services are performed. Hourly and annual locality salary tables are available at OPM website. Tables through 2008 are available in the Appendix C Archive of this Volume.

² The L&H acceleration factor is applied as a percentage of direct labor cost when the individual is not reimbursed on a full time basis by FMS. See Volume 11A, Chapter 6 and the OUSD(C) DoD Reimbursable Rates website for current factors.

³ The unfunded retirement acceleration factor is applied as a percentage of total civilian labor costs when the individual is not reimbursed from FMS Admin. Credit unfunded civilian retirement to the Miscellaneous Receipts Account 3041. Current rates are available at the OUSD(C) DoD Reimbursable Rates website, select the applicable FY, Civilian Personnel Fringe Benefit (Tab D). Historical rates are available in the Appendix C Archive.

⁴ The fringe benefits factor is applied as a percentage of the total civilian labor costs and includes the employer's share of retirement, health benefits, life insurance, and other benefits. Rates are available at the OUSD(C) DoD Reimbursable Rates website, Civilian Personnel Fringe Benefit (Tab D), for FY 1997 and forward. Historical rates are available in the Appendix C Archive.

⁵ The FMS Administrative Surcharge is additive to the FMS selling price.
Figure 7-12. MP Services Price Computation Example

Assumptions:
A. Scenario 1: Navy O-4 and E-7 Full time FMS effort in FY2018 at an overseas location
B. Scenario 2: Navy O-4 and E-7 Part-time FMS effort; each performing 100 hours service in
   FY 2018. TDY cost is $5,600.
C. Navy O-4 FMS Composite Rate ($169,096 + $11,017 = $180,113)\(^1\)
D. Navy E-7 FMS Composite Rate ($105,214 + $11,017 = $116,231)\(^1\)
E. Navy O-4 Hourly Composite Rate ($180,113 \times 0.00056 = $101.86)\(^2\)
F. Navy E-7 Hourly Composite Rate ($116,231 \times 0.00056 = $65.09)\(^2\)

FMS CASE – FULL TIME FMS EMPLOYEE

Computation Scenario 1:

<table>
<thead>
<tr>
<th></th>
<th>O-4</th>
<th>E-7</th>
<th>Total</th>
</tr>
</thead>
<tbody>
<tr>
<td>FMS Composite Pay Cost(^1)</td>
<td>$180,113</td>
<td>$116,231</td>
<td></td>
</tr>
<tr>
<td>FMS Selling Price(^3)</td>
<td></td>
<td></td>
<td>$296,344</td>
</tr>
</tbody>
</table>

FMS CASE – LESS THAN FULL TIME FMS EMPLOYEE

Computation Scenario 2:

\[
\begin{align*}
\text{FMS Composite Pay Hourly Rate} & \times \text{hours of service performed}^2 \\
& = \$10,086 \quad \$6,509 \quad \$16,595 \\
\text{TDY Cost} & \quad \$5,600 \\
\text{FMS Selling Price}^3 & \quad \$22,195
\end{align*}
\]

\(^1\) Refer to OUSD(C) DoD Reimbursable Rates website, MP Composite Standard Pay and
Reimbursement Rates (Tab K) to obtain the current FMS Composite Rate. The FMS Composite
Rate is computed by taking the Annual DoD Composite Rate and adding the acceleration factor
(for FY 2018 the amount is $11,017) to cover medical health care costs of active duty personnel
and their dependents. These are the costs financed by the DHP.

\(^2\) To compute the hourly rate, multiply the FMS Composite Rate by 0.00056. This computation
includes an 18\% L&H factor. See Volume 11A, Chapter 6 and the OUSD(C) DoD Reimbursable
Rates website for current factors.

\(^3\) The FMS administrative surcharge is additive to the FMS selling price.
Notes:

Not all NATO countries are a signatory to *STANAG 6025*, “Financial Principles and Procedures for the Provision Of Support and the Establishment of Multinational Arrangements”

*Figure 7-14. Incremental Tuition Based Pricing (Rate C)

Incorporating an increase in student requirements in programming, the additional costs must be included in the calculation. The number of instructors and staff required for the maximum student load is determined, and the estimated total number of students (both U.S. and international) is calculated. If the enrollment capacity is exceeded due to IMS enrollment, the MP pay is included. If not, the Military Fringe Benefits & MERHC and DHP are excluded. If the enrollment capacity is exceeded, the additional costs are calculated, considering the difference in instructor and staff requirements between the two projections.
VOLUME 15, CHAPTER 8: “BILLING AND REIMBURSEMENT”

SUMMARY OF MAJOR CHANGES

All changes are denoted by blue font.

Substantive revisions are denoted by an asterisk (*) symbol preceding the section, paragraph, table, or figure that includes the revision.

Unless otherwise noted, chapters referenced are contained in this volume.

Hyperlinks are denoted by **bold, italic, blue, and underlined font**.

The previous version dated March 2017 is archived.

CHAPTER 8

BILLING AND REIMBURSEMENT

0801 GENERAL

080101. Purpose

This chapter establishes the standard policies for use when:

A. The Defense Finance and Accounting Service (DFAS), Security Cooperation Accounting (SCA) bills foreign governments and international organizations (hereafter referred to as Foreign Military Sales (FMS) purchasers) for costs related to defense articles and services sold pursuant to the Arms Export Control Act (AECA) (AECA starts on page 427 of Legislation on Foreign Relations, Volume 1-A).

B. The Department of Defense (DoD) Components report FMS deliveries of materiel and services, contractor progress payments, and other related costs to DFAS SCA to obtain reimbursement or to report performance under an allotment of FMS Trust Fund budget authority; and

C. The DoD Components request reimbursement from the other DoD Components for costs associated with inter-service support of FMS cases.

080102. Authoritative Guidance

The AECA (Public Law 90-629), codified as 22 United States Code (U.S.C.), Chapter 39, and the Foreign Assistance Act (Public Law 87-195), as amended, codified as 22 U.S.C., Chapter 32 provide the authority for FMS sales of defense articles, services, and training.

0802 RESPONSIBILITIES

080201. Defense Security Cooperation Agency (DSCA)

DSCA approves the establishment and revision of the Implementing Agency (IA), Delivery Source Code, Monitor, and Type of Assistance codes. DSCA forwards the recommended new or revised codes to the DFAS, Accounting Policy Division for approval and inclusion in Volume 15. DSCA and DFAS must use the Standard Financial Information Structure as prescribed in Volume 1, Chapter 4.

080202. DFAS SCA

DFAS SCA must issue quarterly billing statements to FMS purchasers based on payment schedules attached to the Letter of Offer and Acceptance (LOA) by the applicable IA. Exceptions to this policy may be made when an IA submits a Quarterly Forecast of Financial Requirements for Requisition Cases, and the committed values for requisition cases indicate the performance on
a particular requisition case is behind or ahead of schedule. In such cases, DFAS SCA must bill based on the quarterly forecast or the committed value of requisitions. See Chapter 4, paragraph 040504 for more information.

080203. IAs

* A. An IA is the DoD Component assigned responsibility by DSCA to prepare an LOA and implement the case. The IA is responsible for overall management of the actions that will result in delivery of the materiel or service set forth in an implemented LOA.

B. IAs must report accrued expenditures (work in process (WIP)) and physical deliveries in the applicable IA financial or logistical system within 30 days of the occurrence (date of shipment or performance). This information is provided to DFAS SCA through the billing and reporting policies prescribed in this chapter.

080204. Supporting DoD Components

The supporting DoD Components must request reimbursement from other DoD Components through the billing and reporting policies prescribed in this chapter.

A. Requesting Activities. When placing an order to satisfy an FMS demand, requesting activities are responsible for notifying the performing activities. The notification must include the country, case designator, and line item.

B. Performing Activities. Upon notification that a customer order is for an FMS purchaser, performing activities must notify the requesting activity whether the order has been accepted on a reimbursable or direct cite basis and identify the total cost to process the order. This total billing must include both funded and unfunded costs. The performing activity must deposit amounts collected to the appropriate accounts, including the Miscellaneous Receipt Account.

0803 FMS BILLING STATEMENT

080301. General

A. DoD (DD) Form 645, FMS Billing Statement (or automated equivalent), and special billing arrangement statements issued by DSCA represent an official claim for payment by the U.S. Government. The DD 645 is prepared on a quarterly basis as of December, March, June, and September. As an example, the December bill reflects physical deliveries, performance of services, and WIP from October 1 through December 31, and cash collections recorded for the FMS case through the preparation date of the billing statement. It also has a forecast of estimated advance cash requirements through the month of June. A December bill is mailed on or around January 15, with payment due March 15. The March, June, and September statements follow the same basic timeframes.

B. The FMS billing statement furnishes an accounting to the FMS purchaser for all costs incurred under each FMS Trust Fund case. Detail on the face of the billing statement
must display the cost elements similar to the line item detail on the LOA. Physical performance of services and delivery of materiel are shown against the line item detail of the LOA. FMS administrative surcharge, accessorial costs, and WIP are separately listed.

080302. Billings for Cases With Payment Upon Delivery

For cases authorized under the AECA, sections 21(d) or 22(b), the IAs must ensure that each case has a delivery schedule. On the scheduled delivery dates, DFAS SCA must follow up with the IA and verify the accuracy of the delivery schedule. On the delivery date, DFAS SCA must immediately bill the FMS purchaser the appropriate charges. Interest must be charged in accordance with the policy found in Volume 16, Chapter 6, section 0604.

080303. Final Statement

DFAS SCA must give the FMS purchaser a case final statement at the end of the calendar quarter in which the case is closed and re-categorized from an active status to inactive status. DFAS SCA must annotate the final statement to notify the FMS purchaser of this reclassification.

080304. FMS Delivery Listing

An FMS Delivery Listing is prepared in support of entries to Current Period Delivery Costs, on the DD 645, using the IA FMS Integrated Control System (FICS). The FMS Delivery Listing is an itemized listing of all items physically delivered and services performed during the reporting period. It is cross-referenced to specific document numbers and allows FMS purchasers to validate receipt of the materiel or services. The FMS Delivery Listing also includes DFAS SCA’s computation of charges applied by the organization fulfilling the order in accordance with Chapters 3 and 7.

*080305. Computer Output

The FMS purchaser may request that DFAS SCA provide a Compact Disk Read-Only Memory (CD-ROM) or hard copy report to support the FMS Delivery Listing. The billing and FMS Delivery Listing may be electronically transmitted upon request, or the data may be placed on a file server where the FMS purchaser may access it. Security precautions must be taken to assure data confidentiality and appropriate access control.

*0804 FMS PURCHASER REQUESTS FOR BILLING AND SUPPLY ADJUSTMENTS

080401. General

A. If, after review of the DD 645 and/or the supporting FMS Delivery Lists, the FMS purchaser identifies that an adjustment is needed, the FMS purchaser must submit a formal request for adjustment. Billing and supply adjustment requests for materiel or service performance and accessorial charges should be submitted to the IA. Adjustment requests dealing only with FMS administrative surcharges should be submitted to DFAS SCA.
B. FMS purchasers must submit all requests for billing and supply adjustments on a *Standard Form (SF) 364, Report of Discrepancy (ROD)*, clearly indicating the specific adjustment or billing action requested. The DoD Components must process eligible RODs in accordance with the *Defense Logistics Manual 4000.25, “Defense Logistics Management Standards (DLMS)”* Manual. The form, instructions for completion, and definitions are prescribed in *Volume 2, Chapter 17* of the DLMS Manual. After RODs applicable to materiel and services are resolved, the DoD Components must report the action being taken to DFAS SCA using appropriate Adjustment Reply Codes in the delivery transaction (for additional informal concerning delivery transactions, see section 0805).

080402. Adjustment Reply Codes

Adjustment Reply Codes cover most replies to FMS purchaser requests for billing or adjustments. When a situation arises not covered by these codes, a reply by letter is appropriate. Submit requests for codes to cover additional transactions to DFAS SCA at DFAS-JAX/IN, 8899 E. 56th St., Indianapolis, IN 46249.

080403. Reply Listing

DFAS SCA provides a consolidated listing of the actions taken in response to RODs. This listing must be mailed with the DD 645 to the FMS purchaser involved. All responses to RODs must be listed separately for each country and case and have the same data elements as shown on the FMS Delivery Listing. The Reply Listing is prepared in the same basic sequence as the billing statement and FMS Delivery Listing.

0805 IA PERFORMANCE REPORTS OR REQUESTS FOR REIMBURSEMENT

080501. Reporting Deliveries

A. IAs must report the cost of DoD services (inventory items and new procurement to DFAS SCA using delivery reports, or automated equivalents) through the FICS delivery transaction unless the provisions of paragraph 080503 are applicable. It is the IA’s responsibility to ensure that receipt documentation demonstrating proof of shipment, with the appropriate FMS purchaser’s (or the FMS purchaser’s representative, e.g., a freight forwarder) signature, is retained permanently for the record.

B. DFAS SCA must pay earned reimbursements included in such reports within 20 working days from the date of receipt. If a cash flow problem precludes payment, DFAS SCA must issue immediate notification to the Director, DSCA. DSCA will then notify the appropriate country if FMS funding is short, and the Office of the Undersecretary of Defense Comptroller (OUSD(C)) if appropriated funding is short. The Director, DSCA, must notify IAs to suspend further deliveries of DoD stock or performance of DoD services unless a determination has been made that it is in the national interest for billings to be dated and issued upon delivery or performance, with payment due in 60 days.
080502. Interfund Transactions

Defense Working Capital Fund (DWCF) items are normally billed under interfund policies and use the Detailed Billing Codes prescribed in DLMS Manual, Volume 4, “Military Standard Billing System – Finance” (MILSBILLS). To minimize the impact on normal MILSBILLS billing (and still provide IAs or DFAS SCA with the data necessary to assure proper FMS billing), a modified MILSBILLS detailed billing transaction may be used to report FMS shipments. This modified MILSBILLS detailed billing transaction is in place of the FICS delivery transaction. The required modification is to substitute information that normally appears in the unit price field of the MILSBILLS detailed billing transaction. The information required on the modified billings transactions applicable to the FMS program includes the item number, Transportation Bill Code, Delivery Source Code, and when applicable, the DWCF Code.

080503. DFAS SCA Computations

Based on data in delivery transactions, DFAS SCA computes and bills FMS purchasers for the following.

A. Contract Administration Service (CAS) Charge. CAS percentages prescribed in Chapter 7, paragraph 071603 are applied as a percentage of reported payments to contractors, except for cases when CAS has been waived as authorized in Chapter 7, paragraph 071603 or determined to be not applicable and approved by DSCA. DFAS SCA performance and performance reporting feedback reports identify the amount of CAS computed based on delivery or WIP transactions (see section 0809).

B. Packing, Crating, and Handling (PC&H) Charge. The PC&H surcharge applies to shipments of DoD non-Working Capital Fund materiel. For Excess Defense Articles, the IA is responsible for calculating the PC&H based on the acquisition price of the materiel (see Chapter 7, paragraph 070401 or 071503).

C. Transportation Charges. When actual cost is unknown, an estimated transportation charge should be included on the LOA as a “below-the-line” (indirect/accessorial) charge. Estimated costs are collected into the FMS Transportation Account to pay actual transportation costs once bills are received. See “Security Assistance Management Manual” (SAMM), Chapter 9, Table C9.T4a, “Table of Delivery Term Codes and Percentage,” and the SAMM Appendix 2, “Transportation Cost Look Up Tables,” for the applicable rates. When shipments require containerization, storage in-transit, escorts, or has any other special transportation accessorial requirements; these special transportation accessorials are not included in the standard transportation percentages, nor in the cost provided in the transportation cost look-up table. These charges are to be placed “above-the-line” and adjusted as needed to capture actual cost. See SAMM Chapter 7 for more information on transportation costs, and Volume 11A, Chapter 1, subparagraph 010203.F for more information on accessorial expenses.

D. FMS Administrative Surcharge. The FMS administrative surcharge is assessed on performance reporting, except for the amount collected upon case implementation as prescribed in Chapters 3 and 4. Use the requirements in effect at the time the applicable LOA,
basic documents, or amendments are accepted by the FMS purchaser, or are added via LOA modification. See Chapter 7, paragraph 070501 for the prescribed standard FMS administrative surcharge. The FMS administrative surcharge does not apply to WIP.

E. FMS Logistics Support Charge (LSC). The LSC was applied against items delivered after March 31, 1987 with delivery reported prior to October 1, 2007 on case lines that included specific Military Articles and Service Listings for spares, equipment modifications, maintenance, secondary support equipment, and supplies.

0806 TRANSPORTATION COST LOOK-UP TABLE

The purpose of the Transportation Cost Look-Up table is to provide DoD Components with estimated transportation costs for items normally shipped in the Defense Transportation System (DTS) (e.g., sensitive/hazardous end items) when costs using standard transportation percentages are significantly different from actual charges. This table is located in the SAMM, Appendix 2 and is used to compute an estimate of the actual transportation costs for the items listed.

0807 BILLING FOR SPECIFIC COSTS

Compute billings for specific costs associated with support to FMS as indicated in paragraphs 080701 through 080704.

080701. Actual Administrative Costs

Actual administrative costs are funded by an allotment that is provided based on an approved FMS administrative budget. Documentation that shows the propriety of the obligation must support the obligations and outlays against the allotment. The allotment holder must retain these basic source documents for audit and report the use of allotment through the required Status-of-Allotment reports.

*080702. Actual FMS CAS Costs

A. The DoD Components performing contract administration or audit services must submit a monthly certified SF 1080, Voucher for Transfers Between Appropriations and/or Funds, billing to DFAS SCA for reimbursement of contract administration (quality assurance and contract management) and audit services being performed on FMS cases. Billings must reflect the actual or proportionate share of FMS CAS. DFAS SCA must make payment within 30 days following receipt of billings.

B. The organization performing these services must validate all bills before submitting the SF 1080 and attesting to the validity of the required computation process. The approved DoD reimbursable rate and approved OUSD(C) unfunded civilian retirement rate are available at the OUSD(C) reimbursable rate website, “Civilian Personnel Fringe Benefit (TAB D).” If an adjustment or correction is needed, it must be corrected within 30 days from the date of discovery.
C. DoD Components authorized to bill for CAS are listed in subparagraphs 080702.C.1 through 080702.C.7.

1. **Department of the Army Ammunition Plants.** Allocate contract management and quality assurance efforts based on the ratio of the FMS disbursements to total net disbursements. Compute the unfunded civilian retirement rate and show it on the monthly billings.

2. **Department of the Navy.** The Naval Sea Systems Command will submit monthly bills for the Navy Supervisors of Shipbuilding, Conversion, and Repair Activities, and allocate contract management and quality assurance efforts based on actual hours expended. Compute the unfunded civilian retirement rate and show on the monthly billings.

3. **Department of the Air Force.** The Air Force Security Assistance Training and Air Force Installation Contracting Agency will submit monthly bills and allocate contract management and quality assurance efforts based on actual hours expended. Compute the unfunded civilian retirement rate and show on the monthly billings.

4. **Defense Contract Management Agency (DCMA) Continental United States (CONUS) FMS CAS**

   a. DCMA establishes an annual command rate by August 1 of each year for the following fiscal year (FY). The rate must be determined based on the ratio of FMS net contract disbursements to total DoD net contract disbursements. The ratio will reflect actual net FMS (Trust Fund appropriation, 11X8242) disbursement data for the prior 12 months (using January of the prior FY to December of the current FY, e.g., January 2010 to December 2010). The annual command rate must apply to the next FY budgetary estimates and billing period. For example, the January 2010 to December 2010 data will be used for the budgetary estimate and billing period for FY 2012 and the rate due by August 1, 2011. The annual command rates methodology is further defined by the following factors.

   (1) **Numerator.** Twelve months of monthly Defense Integrated Financial System FMS (11X8242) net contract disbursement amounts reported for the Mechanization of Contract Administration Services disbursing stations will be used as the numerator for calculating the annual command rate for DCMA. These amounts will exclude FMS (11X8242) disbursements and apply to contract administration reciprocal agreements, all other types of FMS CAS waivers reflected in the SAMM, **subsection 9.6.2**, and other FMS disbursements that are not FMS contract costs, e.g., in-house services performed by civil servants and financed by the FMS Administrative Surcharge account.

   (2) **Denominator.** Twelve months of total DoD net contract disbursements as reported on the SF 1219, **Statement of Accountability**, Part A, Line 4.1 will be used as the denominator for calculating the annual command rate for DCMA.

   b. Quarterly, DCMA will update the Functional Work Force (FWF) to include full-time equivalents that perform CONUS FMS CAS efforts (quality assurance or contract management) in the work sections. Use the updated FWF number derived in the third
month of that quarter for the FWF number in the next quarter’s billings (SF 1080). In the computation process, round all hours and FWF amounts to whole numbers. Round all dollars and percentages to the second decimal point.

c. Monthly, DCMA will prepare the DCMA CONUS FMS CAS monthly earnings computation sheet and certification memorandum.

(1) CONUS FMS CAS earnings and unfunded civilian retirement for the month are computed using the DCMA annual command rate and the data sources listed in this chapter. The unfunded civilian retirement factor is listed with the Annual DoD Reimbursement Rates issued by OUSD(C). The approved FY reimbursable rates are available at the OUSD(C) reimbursable rate website.

(2) Overtime is listed as a separate charge on the DCMA CONUS FMS CAS monthly earnings computation sheet or, if the overtime factor was not included, in the Annual DoD Reimbursable Rate in accordance with Volume 11A, Chapter 6. The unfunded civilian retirement factor is not computed on overtime hours since unfunded civilian retirement applies to salaries (basic pay) only (see 5 U.S.C., section 8331(3) for an explanation of what is not included in basic pay).

(3) The DCMA CONUS FMS CAS monthly earnings computation analysis, computed using unfunded civilian retirement and overtime earnings, is certified and forwarded to DFAS SCA for billing preparation. Certification must be based on, and consistent with, the provisions of Volume 5, Chapter 5. The certification statement must be as follows:

“I certify that DCMA is entitled to $____ in FMS CAS reimbursements, excluding unfunded civilian retirement, for contract services performed during the period from _______ to ________, in accordance with applicable regulations, and that this entitlement is supported by the attached documentation. All disbursements applying to all FMS CAS waivers have been removed and are not included in this bill.

Signed: “____________________”

5. DCMA International

a. DCMA International FMS CAS must be reimbursed on actual costs incurred based on net disbursements processed by DFAS. The unfunded civilian retirement rate will be computed on salaries (basic pay) only. Military pay will also be computed and reimbursed.

b. Since the FMS CAS Surcharge Account pays for all costs associated with FMS full-time employees (full-time is 90 percent or more of their time spent on FMS), including equipment, vehicles, and housing, these reimbursements (monthly billings) must be based on total actual costs. Employees working part-time FMS CAS (part-time is 10 percent
to less than 90 percent of their time spent on FMS) are reimbursed using the DoD FMS CAS hourly rate and the unfunded civilian retirement rate listed in the Annual DoD Reimbursable Rates Table issued by the OUSD(C). No additional support costs are reimbursed for part-time employees except for overseas Temporary Duty costs. See the OUSD(C) reimbursable rate website.

c. Billings must exclude all costs associated with countries that have FMS CAS waivers and/or reciprocal agreements.

6. Defense Contract Audit Agency (DCAA), All Offices Except DCAA Headquarters Offices. Allocate the FMS contract audit based on actual hours expended on FMS requirements. Compute the unfunded civilian retirement rate and show the results on the monthly billings.

7. Any other Activity Performing Contract Management Services as Approved by OUSD(C). When OUSD(C) grants this exception, the exception will identify the cost recoupment method.

D. The SF 1080 bills for actual costs must be supported with a schedule containing the following data:

1. Organization;

2. Type of CAS effort incurred:
   a. Contract audit,
   b. Quality assurance and inspection, or
   c. Other CAS efforts;

3. Cost recoupment basis;

4. Annual hourly rates prescribed by OUSD(C) for CAS, plus unfunded civilian retirement costs (including costs for post-retirement health benefits). See the OUSD(C) reimbursable rate website for approved unfunded civilian retirement rate and hourly rates; and

5. The authority or directive requesting work to be performed and justification for why the normal FMS CAS procedures and billing arrangements for the current authorized DoD Components performing CAS cannot be used.

E. Billings for non-FMS CAS must be charged in accordance with Volume 11A, Chapter 6, Appendix D, Contract Administration Services.
Bill actual transportation costs of delivering defense articles on SF 1080s or Government bills of lading (GBLs); pay from the transportation surcharge account. Transportation costs to FMS purchaser freight forwarders from DWCFs are included in the cost of the article reported to DFAS SCA. Bill inventory shipments from the DWCF beyond the freight forwarders as a “below-the-line” charge in accordance with Table 8-1 and Chapter 3, Table 3-1, Cost Elements. Bill all other shipments according to Table 8-2 and Chapter 3, Table 3-1. Reimburse costs for transportation billed as a “below-the-line” cost to transportation activities based on the SF 1080 bills. The bills must be supported by a valid case identifier comprised of Country Code, IA Code, case designator, date of shipment, and certification that the billed amount was not included in the article’s cost.

A. Carrier Costs

1. Commercial and Industrially Funded or DWCF Organizations. Support billings for other-than-inland CONUS DWCF materiel by electronic media, listing, or computer tapes detailing the transaction control numbers and case designators or articles transported for FMS purchasers. “Carrier” means commercial carriers and/or the industrially-funded or DWCF part of Air Mobility Command (AMC) and Military Sealift Command (MSC). The following exceptions apply.

   a. Include the cost of transporting Government furnished materiel (GFM) to a contractor’s plant in the price of the GFM, reported in the delivery transactions, and not in the SF 1080 billings.

   b. Include the cost of transportation for repair and return cases in the cost of the repair service, reported via the delivery transaction, and not in the SF 1080 billings.

   c. Report “above-the-line” discrete transportation costs, such as high flight or special airlift, as a case charge via the delivery transaction, and not in the SF 1080 billings.

   d. Do not include in the SF 1080 billings the inland CONUS transportation cost for DWCF materiel from point of origin to point of FMS purchaser pickup (freight forwarder, FMS purchaser, or FMS purchaser-designated CONUS delivery point); it is borne by the DWCF.

2. DWCF and GBLs. Do not cite the FMS Trust Fund on GBLs for transportation of DWCF materiel. The cost of such transportation is included in the standard price of DWCF materiel. GBL processing activities must not accept GBLs citing the FMS Trust Fund for transporting DWCF materiel.
3. **U.S. Postal Service.** Directly reimburse all postal service costs collected by DFAS SCA as surcharge costs on FMS purchaser billings to the applicable IA’s designated administrative headquarters organization.

4. **Defense Courier Service.** Base the SF 1080 billings to recoup the cost of support provided by the Defense Courier Service on a prorated share of FMS shipments to total shipments. Apply the resulting percentage to payments to the Defense Courier Service to determine FMS billings.

5. **Air/Army Postal Office (APO), Fleet Postal Office (FPO).** Base the SF 1080 billings to recoup the cost of support provided by APOs and FPOs on a prorated share of FMS shipments to total shipments. Apply the resulting percentage to payments to the armed services operating these offices.

6. **Commercial Package Carriers.** All costs collected by the DFAS SCA as surcharges on FMS purchaser billings for commercial package carriers are directly reimbursed back to the reporting DoD Components and not reimbursed from the FMS Transportation Account as a direct cite disbursement.

**B. Recoupment of the Cost of DoD Organizations Which Support Carrier Movement**

1. **AMC Headquarters.** Allocate non-industrially funded/DWCF headquarters cost based on the ratio of FMS billings to the total dollar value of industrial fund/DWCF billings. The billing for headquarters cost must include a proportionate share of all costs funded by the Operations & Maintenance (O&M) appropriation, Military Pay appropriation, and those unfunded costs identified in subparagraph 080702.D.

2. **MSC Headquarters.** Allocate non-industrially funded headquarters cost based on the ratio of FMS billings to the total dollar value of industrial fund/DWCF billings. The billing for headquarters cost must include a proportionate share of all costs funded by the O&M appropriation, Military Pay appropriation, and those unfunded costs identified in subparagraph 080702.D.

3. **Organizations Responsible for Routing of Materiel, Preparation of GBLs, and Carrier Selection.** Organizations responsible for the routing of materiel, preparation of GBLs, and carrier selection include the Surface Deployment and Distribution Command and subsidiary organizations, the Navy Materiel Transportation Office (NAVMTO), and installation transportation offices. Base billings on level of effort estimates of FMS tonnage as a percentage of total tonnage moved. For this calculation, costs of FMS tonnage must include movement of materiel processed through both DTS and commercial bills paid directly by foreign countries. Apply the resulting percentage of tonnage moved to the total actual obligations incurred by routing organizations to determine the base charge. The billing must include the base charge, military labor, and unfunded costs determined in accordance with subparagraph 080702.D.
4. **Organizations Responsible for Accounting, Audit, and Payment of Transportation Bills.** Organizations responsible for accounting, audit, and payment of transportation bills are DFAS - Indianapolis Center, for Army, Air Force, and Defense Agency shipments; NAVMTO, Norfolk, Virginia, for Navy shipments; and the Marine Corps Logistics Base, Albany, Georgia, for Marine Corps shipments. Base billings on the use of level of effort estimates, on the number of FMS GBLs processed as a percentage of the total number of GBLs processed. Then apply the percentage to obligations incurred by cost centers responsible for processing GBLs, and those unfunded costs identified in subparagraph 080702.D.

5. **Organizations Providing Physical Security.** Shipments that involve sensitive conventional arms, ammunition, and explosives in transit are to be processed in accordance with DoD Manual 5100.76, “Physical Security of Sensitive Conventional Arms, Ammunition, and Explosives (AA&E).” DoD civilian and military personnel involved in providing personnel services in connection with these types of shipments are to be priced in accordance with the provisions of Chapter 7, paragraphs 072001 and 072002.

C. **Billings for Organic Transportation and Troop Labor**

1. **Troop Labor.** Activities utilizing troop labor for the loading or unloading of vessels, trains, vans, or other conveyances are responsible for billing applicable costs. FMS cost may be based on a prorated share of the total cargo manifest, or a similar document.

2. **Use of Organic Vehicles.** Base billings for the use of organic vehicles on motor pool records that disclose DoD vehicles were used to move FMS materiel. Determine the number of miles and bill at the rate of $4.00 per mile. This rate includes the labor cost of drivers assigned by the motor pool. Consolidate motor pool billings by major commands.

080704. Actual PC&H

SF 1080 billings for actual PC&H costs are normally not submitted. Instead, earned reimbursements are transferred to the shipping depot when DFAS SCA applies the applicable surcharge. DWCF items are not reimbursed for PC&H because that charge is included in the standard price.
SCA and reimburse any amounts due for inventory items or services when reimbursement is received from DFAS SCA. Only make payments to contractors subject to expenditure authority (EA) issued by DFAS SCA. A non-reimbursable delivery transaction applicable to such costs should be included in the submission.

080802. Processing Requisitions

A. If requisitions are received from the IA with a fund and signal code signifying direct citation of the FMS Trust Fund (not an allotment of direct cite authority), the delivery transaction must be submitted to the requisitioning activity. Process requisitions containing such fund and signal codes on a prompt delivery basis (within 30 days). Obligations must be recorded after the funding authorization has been received and upon release of the requisition to the supply source. Record disbursements against the applicable case once the interfund bill transactions have been validated and accepted in the IA database. The IA reports the initial obligation transaction, obligation adjustment transaction, and related disbursement transaction to DFAS SCA. DFAS SCA must approve EA for requisitions submitted to non-DoD supplying activities.

* B. Within the DoD, the interfund billing activity must get necessary self-reimbursement authority for interfund requisitions. If stocked items are not available for prompt delivery and new procurement is necessary, follow Military Interdepartmental Purchase Request procedures, direct cite procurement procedures, or commercial buying services procedures. If the requisition is submitted to a non-DoD organization, the summary billing transaction and the supporting unmodified MILSBILLS detailed billed transactions must be submitted to the IA. The IA must convert MILSBILLS detailed delivery transactions to FMS detail delivery transactions and forward the billing information to DFAS SCA within five working days. DFAS SCA must use the FMS detail delivery transactions to prepare delivery reports to the FMS purchasers and provide a copy of the report, or automated system equivalent, to the implementing DoD Components for use in posting to supply performance files.

0809 PERFORMANCE AND DELIVERY REPORTING

080901. Reports

* A. FMS Command Pay List. DFAS SCA provides reporting activities with a monthly FMS Command Pay List that identifies the total amount of WIP or deliveries charged to FMS cases in the current reporting period, excluding accounts payable (see subparagraph 080901.D). The amount includes the delivery transactions submitted by the reporting activity, less accounts payable and rejected items (see subparagraph 080901.C), and additional charges mechanically computed by DFAS SCA. The last line of the Command Pay List, “Total Reimbursable to This Payee,” should equal the amount received by the payee. DFAS SCA computed charges may or may not be reimbursable to the reporting activity. The following are DFAS SCA computed charges:

1. FMS Administrative Surcharge are non-reimbursable costs;
2. PC&H are reimbursable charges not applicable to DWCF items;

3. “Below-the-line” Transportation Charges;
   a. Reimbursable and non-reimbursable costs (reimbursable costs are not applicable to DWCF items if the ship date is October 1, 1991 or later). The Inland CONUS rate of 2.75 percent is not applicable to stock fund items effective October 1, 1990,
   b. Transportation Bill Codes (TBCs) are used to bill FMS purchasers for “below-the-line” transportation costs if the actual method of transportation is different from that identified by the Delivery Term Code. Report the return of repaired materiel using TBC “L.” TBCs are in Table 8-3; and

4. CAS charges are non-reimbursable.

B. FMS Detail Delivery Feedback List. The FMS Detail Delivery Feedback List is attached to the Command Pay List and identifies the delivery transactions submitted by reporting activities and processed by DFAS SCA for reimbursement or reporting to the FMS purchaser. It also identifies add-on amounts mechanically computed by DFAS SCA for each processed delivery transaction. This listing does not provide summary totals of deliveries reported. It is used to compare deliveries reported with deliveries processed when reconciling amounts reimbursed to the reporting activity. When reconciling reimbursements received from DFAS SCA to reporting activity records, the following columns of the FMS Detailed Delivery Feedback list should be used:

1. The Voucher Amount Paid (VOU AMT PD) column, which identifies the amount of reimbursement to the reporting activity;

2. The Extended Value (EXT VAL) column, which identifies the total amount reported to DFAS SCA;

3. The Stock Fund Add-On (STK FUND ADD-ON) column, which identifies the amount of LSC or stock fund add-on charges computed by DFAS SCA. After accounting date March 1987, this field identifies the LSC;

4. The Contract Administration Surcharge Add-On (CAS ADD-ON) column, which identifies CAS computed by DFAS SCA. The CAS applied to procurement Delivery Source Codes (non-reimbursable to the reporting activity). Items procured and associated costs charged may include DWCF listed items, GFM, and nonrecurring charges;

5. The Date of Transaction (DT TRAN) column, which identifies the date of transaction; and

6. The Accessorial Administrative Costs (ACSRL ADM COST) column, which identifies administrative charges applied against the FMS case. These charges are
applied against total deliveries reported for each case during the month and not identified to the individual deliveries.

C. FMS IA Performance Report Transaction Register (PRTR). The FMS IA PRTR has five parts. These parts are detailed in the following subparagraphs.

1. The IA-Initiated Performance Reports Rejected Not Processed section includes all delivery transactions that could not be processed by DFAS SCA. The reasons for not processing are listed immediately under each transaction. A corrected transaction should be resubmitted to DFAS SCA. This part must be used in reconciling reported deliveries, to deliveries processed by DFAS SCA. Rejected transactions should be corrected and resubmitted within 30 days.

2. The IA-Initiated Performance Reports Processed with Management Alerts section includes all delivery transactions processed with the possible problem areas identified by DFAS SCA processing. Review these transactions to determine if each transaction was properly prepared. If the transaction was properly prepared, no further action is required.

3. The DFAS SCA-Initiated Performance Reports Processed section includes those transactions computed and applied by DFAS SCA for the IA. DFAS SCA reports these transactions for posting to the IA’s records.

4. The DFAS SCA-Initiated Corrections to Initial IA Performance Reports section provides information on delivery transactions subsequently modified by DFAS SCA. Data appears with the IA delivery transaction first, followed by the corrective action taken by DFAS SCA.

5. The DFAS SCA Deletions from IA-Initiated Performance Reports section provides the delivery transactions that have been subsequently deleted by DFAS SCA.

D. FMS Accounts Payable List

1. The FMS Accounts Payable List indicates reimbursable delivery transactions for which payment is not being made. Reasons for non-payment include:

   a. The country’s funds are frozen (not available to disburse),
   b. The country does not have enough cash available, or
   c. The case provides for payment 60 days after delivery.

2. The list has a total of all transactions that are reimbursable and have not been paid to the reporting activity.

E. FMS Voucher Backup for Payment of Accounts Payable. The FMS Voucher Backup for Payment of Accounts Payable listing represents the amount paid to the
reporting activity per the Command Pay List (see subparagraph 080901.A) by country, IA, and
reporting activity.

F. **FMS Accounts Payable.** Detailed payable records are only maintained in
installation-level systems and, therefore, can only be aged at the installation level. Monitoring
payables and assuring specific vendors are paid promptly is a function of the installation-level
accounting activity. DFAS SCA, however, should validate general ledger account balances to
payables reported to Defense Integrated Financial System on behalf of the IA on a monthly basis.

080902. Reject Codes

The FMS IA PRTR contains Reject Codes for the delivery transactions that did not process
to the FMS Command Pay List. Research reports with Reject Codes and process delivery
transactions within 30 days. DFAS SCA will maintain a control file of outstanding rejected
transactions and will update the file once corrected transactions are resubmitted and reprocessed.
DFAS SCA will send copies of the control file to the respective IAs.

080903. Reconciling Reports

**Reconcile** reimbursable delivery transactions to the amounts reimbursed. Verify that the
voucher backup equals the amount on the check and the FMS Command Pay List. If amounts are
not equal, contact DFAS SCA to reconcile differences.

</table>

1. The costs of L1D, L1E, and L4O are included in the DWCF item price when being directly shipped to the customer. If the item is shipped to a staging location, the rate listed must be charged.

2. L1A does not apply to DWCF shipments with shipping dates after September 30, 1990. Computation for L1D and L1E for DWCF items was discontinued on items with shipping dates after September 30, 1991. L1A is computed once on DWCF items shipped to a CONUS staging or aggregation area and then on to the CONUS water or aerial port. The first CONUS movement is included in the DWCF item price. The second movement TBCs (P, Q, R, or S) are charged at the normal rate.
Table 8-1. Transportation Charges Based on TBC for Inventory Items Shipped by DWCF (Continued)

3. Wherever “L1B/L1C” appears, if the Port of Embarkation (POE) code is “A,” L1C is computed; otherwise, L1B is computed.

4. L1B is computed at 2.5 percent for rate area one or 5.0 percent for rate area two. See Chapter 3, Table 3-1 “Cost Elements.”

5. L1C is computed at 4.0 percent for rate area one or 6.0 percent for rate area two. See Chapter 3, Table 3-1 “Cost Elements.”

6. L1A is computed once on DWCF items shipped to a CONUS staging or aggregation area and then on to the CONUS water or aerial port. The first CONUS movement is included in the DWCF item price.

</table>

1. Amounts collected for L1D, L1E, and L4O must be reimbursed to the shipping depot shown in the delivery transaction. SF 1080 billings for actual costs are not required.

2. Wherever “L1B/L1C” appears, if the POE Code is “A,” L1C is computed; otherwise, L1B is computed.

3. L1B is computed at 2.5 percent for rate area one or 5.0 percent for rate area two. See Chapter 3, Table 3-1 “Cost Elements.”
Table 8-2. Transportation Charges Based on TBC for Inventory Items Not Shipped by DWCF (Continued)

4. L1C is computed at 4.0 percent for rate area one or 6.0 percent for rate area two. See Chapter 3, Table 3-1 “Cost Elements.”

5. L1A is computed twice on non-DWCF items shipped to a CONUS staging or aggregation area and then on to the CONUS water or aerial port for TBCs P, Q, R, and S.
### Table 8-3. TBC

<table>
<thead>
<tr>
<th>TBC</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Materiel moved by parcel post to an inland CONUS/Canada (except Newfoundland and Labrador) destination or freight forwarder, or to an overseas destination through the APO or international mail. The FMS purchaser makes all subsequent arrangements.</td>
</tr>
<tr>
<td>B</td>
<td>Materiel moved by commercial package carrier to an inland CONUS/Canada (except Newfoundland and Labrador) destination or freight forwarder, when all subsequent arrangements are made by the FMS purchaser. However, see TBC “Z.”</td>
</tr>
<tr>
<td>C</td>
<td>Materiel moved by GBL, AMC channel airlift, Air Force organizational airlift, MSC sealift, and combinations thereof, to an overseas port of debarkation (POD) in rate area one or two, including overseas carrier discharge. The FMS purchaser makes all subsequent arrangements.</td>
</tr>
<tr>
<td>D</td>
<td>Any form of materiel for which the FMS purchaser is totally responsible, such as materiel moved by a collect commercial bill of lading to an inland CONUS destination, free alongside ship (FAS), an overseas carrier at a CONUS POE, freight forwarder, a CONUS POE, or an inland overseas destination. Also used if transportation costs are not applicable.</td>
</tr>

CHAPTER 1

GENERAL PROVISIONS FOR DEPARTMENT OF DEFENSE (DOD) DEBT MANAGEMENT

0101 GENERAL

010101. Overview

A. Policy and requirements in this volume apply to administrative actions associated with the collection and disposition of debts that are owed to the DoD by any person, organization, or entity except another Federal agency. Policy and requirements regarding debts owed to the DoD by Federal agencies are contained in Volume 4, Chapter 3.

B. Policy and requirements in this volume are not applicable to debts owed by DoD or debts arising from antitrust, fraud, tax, or interagency claims.

C. Policy and requirements for loss of funds cases are contained in Volume 5, Chapter 6. Debts that are the result of improper payments may require loss of funds investigations in accordance with Volume 5, Chapter 6. Debts resulting from improper payments have additional reporting requirements under the Improper Payments Information Act of 2002, the Improper Payments Elimination and Recovery Act of 2010, and the Improper Payments Elimination and Recovery Improvement Act of 2012. Refer to Volume 4, Chapter 14 and Volume 10, Chapter 22 for additional guidance regarding the improper payments program.

D. Policy and requirements for recording and reporting accounts receivable are contained in Volume 4, Chapter 3.

E. Where specific statutory authority applies to the collection of a particular category of debt, the provisions of the applicable statute will determine the appropriate debt collection procedures.

F. Policy and requirements for handling personally identifiable information are contained in the DoD Directive 5400.11, "DoD Privacy Program."

G. The DoD Delinquent Debt Management Guidance (DDMG), signed August 31, 2012, defines the end state of debt management through the incorporation of Services’ and Agencies’ Enterprise Resource Planning (ERP) systems. Components that have implemented the DDMG are permitted to follow those requirements in place of specific steps defined throughout Volume 16.

H. Payments of amounts owed to DoD by organizations, businesses, and individuals must be made in accordance with the terms specified in contracts, agreements, or demand letters.

I. Nothing in Volume 16 exempts accountable officials from pecuniary liability arising from erroneous payments or loss of funds as discussed in Volume 5, Chapter 6.

K. Nothing in Volume 16 will be interpreted in a manner that would impair DoD’s ability to collect debts under the common law utilizing any available statutory authority.

L. Nothing in Volume 16 or the Federal Claims Collection Standards (FCCS) (Title 31, Code of Federal Regulations (CFR), parts 900-904) requires the omission or duplication of administrative proceedings associated with debt collection that may be required by other laws or regulations. DoD's failure to comply with this volume or the FCCS does not create any right or benefit, substantive or procedural, enforceable by law or in equity by a party against the United States, its agencies, its officers, or any other person. Refer to 31 CFR 900.7-900.8.

010102. Purpose

This chapter provides an overview of the policies and requirements for collection and management of debt owed to the DoD.

010103. Authoritative Guidance

A. DoD is required to aggressively collect debts in accordance with the following statutes, as well as other statutes and regulations expressly identified in this volume:

1. Debt Collection Improvement Act of 1996 (Public Law 104-134, Chapter 10, section 31001);

2. Debt Collection Act of 1982 (Public Law 97-365);

5. Internal Revenue Code provisions regarding the authority to make credits or refunds (26 U.S.C. § 6402);

6. FCCS (31 CFR 900-904);

7. Regulations for collection by offset from indebted Government employees (5 CFR 550, subpart K); and

B. Policy and requirements in this volume are intended to be consistent with the Federal Acquisition Regulation and the Defense Federal Acquisition Regulation Supplement.
0102 RESPONSIBILITIES

010201. Accounts Receivable Office (ARO)

The ARO is the office responsible for recording and reporting receivables and may also be the office responsible for debt collection.

010202. Contracting Officer

The contracting officer has primary responsibility for determining the amount of the debt and ensuring collection for most types of contract debt. The contracting officer, or another authorized official, will request that a payment office collect a debt and will provide a copy of the contract, with the accompanying documents necessary to facilitate collection, to the payment office. If the contracting officer or designated official receives the contractor’s payment, then he or she must immediately forward the payment to the disbursing office, with proper documentation, to allow posting into the accounting system. The contracting officer or designated official should request a confirmation of receipt of the payment from the disbursing office. Refer to Chapter 5 for additional responsibilities related to contract debt.

010203. Debt Collection Office (DCO)

A. DCO refers to the office or individuals at the DoD Component level that are primarily responsible for debt establishment and collection for the Component. DCOs that manage the debt collection for the Component are typically located in the following areas: AROs, military and civilian payroll offices (located both within and outside of the Defense Finance and Accounting Service (DFAS)), Debt Management Offices (DMOs), the Debt and Claims Management Office (DCMO), contracting offices, disbursing offices, or the Foreign Debt Management Office. DCO also refers to any other organizational element within a DoD Component that performs debt management/collection activities.

* B. After establishing a debt, the DCO is responsible for initial debt collection and due process procedures, including the issuance of debt notification letters that comply with all the requirements for debt collection under the FCCS. If the DCO and ARO are separate offices, the DCO is responsible for working with the ARO to ensure that appropriate accounting actions are completed. DCOs must ensure that all debts are valid and legally enforceable. DCOs must work with the AROs to reverse accounting entries for debts subsequently determined not to be valid or legally enforceable pursuant to Volume 4, Chapter 3.

010204. DFAS DCMO

The DFAS DCMO offers debt management and collection assistance for delinquent debts owed to DoD by individual debtors who are no longer paid by DoD (i.e., out-of-service employees and Service members). If a Component’s DCO cannot collect a debt through offset because the debtor is no longer being paid by DoD, and the debtor has not agreed to pay the debt, then the DCO should obtain debt collection services from the DCMO. The DCMO also makes determinations on hearing requests and applications requesting waiver of individual indebtedness.
Refer to Chapters 3 and 4 for additional guidance on referring debts to DCMO and the waiver process.

010205. DFAS DMO

The DMO is responsible for processing collection actions on referred delinquent vendor/contractor debt. The DMO will document debt collection activities, including any basis for a debt compromise, suspension, or termination of collection action, and retain the documentation in individual debtor files. Refer to Chapter 5 for additional guidance on when to refer debts to DMO and DMO responsibilities.

010206. DoD Component

DoD Components are responsible for establishing debt management programs as described in section 0103 and ensuring DCOs and AROs collect and manage debt owed to that Component.

0103 DEBT MANAGEMENT PROGRAM

010301. General

Each DoD Component must establish and maintain a debt management program to identify, recover, and collect debts owed by individuals to the United States. DoD Components must clearly designate the DCOs responsible for the recovery and collection of debts within the DoD Component. The recovery of debts must be undertaken promptly, using a strategy that is determined to result in the maximum recovery of debt. DoD Components must ensure debtors are afforded due process, in the form of proper debt notification and the right to review, in accordance with Volume 16 and applicable regulations and guidance issued by the U.S. Department of the Treasury. DoD Components must establish guidance that clearly assigns responsibilities for processing, monitoring, reporting, and closing out delinquent debts.

010302. Debt Prevention and Monitoring

* A. DoD Components must institute procedures and assign responsibility to designated personnel (including contractors and vendors), as necessary, to ensure that appropriate personnel and organizations (e.g., personnel, entitlement, payroll, finance and accounting, disbursing, and legal offices) are promptly notified and kept apprised of activities that could give rise to indebtedness by any member, employee, or other personnel. Such indebtedness could be the result of employment or other financial or contractual relationship between DoD and the debtor. DoD Components must maintain continuous communication and follow up to prevent indebtedness from remaining unresolved for an extended period.

* B. DoD officials must establish procedures to identify the causes of indebtedness, delinquencies, and defaults, and must take corrective action to mitigate those causes and thereby reduce the number of debts subject to collection.
010303. DoD Debtor Information Exchange and Debt Collection Partnership Programs

DCOs must share information concerning debtors. DCOs must cooperate with each other and with other Federal agencies, including any private debt collection agencies and credit bureaus working on behalf of such agencies. DCOs must take all actions necessary to facilitate the collection of delinquent debts owed by current and former DoD civilian employees and military members, as well as other debtors.

010304. Debt Management Requirements

DoD officials, including contracting officers, contractor/vendor pay offices, disbursing officers, and AROs, must cooperate with each other to ensure that debts are collected, properly recorded in the accounting systems, and accurately reported in the agency’s financial statements.

010305. Documenting Collection Activity

The DCO must document all debt collection activities, including how the debt was established, due process procedures, installment payment plan agreements, collection activity and/or the basis for debt compromise, suspension, or termination of collection action. The DCO must also document bankruptcy activity if applicable. Documentation should be retained in individual debtor files and provided to the office responsible for recording and reporting of the related accounts receivable.

010306. Automating Debt Collection and Reporting Systems

DoD Components must use automated debt collection and reporting systems to the extent that it is feasible and cost effective for recording, processing, and controlling debts. The Deputy Chief Financial Officer created the DDMG, signed August 31, 2012, which defines the end state of debt management through the incorporation of Services’ and Agencies’ ERP systems. These systems must be utilized to the fullest extent possible in compliance with the DDMG.

0104 INTERNAL CONTROLS

010401. General

DoD Components involved in the collection and management of debts owed to the DoD must adhere to the basic standards for internal controls prescribed in DoD Instruction 5010.40, “Managers’ Internal Control Program Procedures.” DoD Components will establish and maintain internal controls to ensure that debts owed to DoD are recorded, reported, managed, and aggressively collected.

010402. Recording and Reporting Accounts Receivables

Major categories of receivables must be maintained to facilitate clear and full disclosure (e.g., disclose the debtor, the amount, the age, and the type of debt). Subsidiary records must be
reconciled to the control accounts on at least a monthly basis. The DoD Components must document the date of a debt so that timely and appropriate collection and follow-up action can be accomplished. Refer to Volume 4, Chapter 3 for guidance on recording and reporting accounts receivables.
VOLUME 16, CHAPTER 2: “GENERAL INSTRUCTIONS FOR COLLECTION OF DEBT OWED TO THE DEPARTMENT OF DEFENSE (DOD)”

SUMMARY OF MAJOR CHANGES

All changes are denoted by blue font. Substantive revisions are denoted by an asterisk (*) symbol preceding the section, paragraph, table, or figure that includes the revision.

Unless otherwise noted, chapters referenced are contained in this volume.

CHAPTER 2

GENERAL INSTRUCTIONS FOR COLLECTION OF DEBT OWED TO THE
DEPARTMENT OF DEFENSE (DOD)

0201 GENERAL

020101. Overview

The policy and requirements in this chapter apply to administrative actions associated with the collection of debts owed to and collected by the DoD. Additional guidance related to collecting debt from individuals, vendors/contractors, and foreign entities is included in Chapters 3, 5, and 6, respectively. The instructions in this chapter do not apply to the collection of child support or alimony or to commercial, non-DoD debts owed by civilian employees and Service members through garnishment or involuntary allotment. Refer to Volume 7A, Chapters 41 and 43; Volume 7B, Chapters 27 and 28; and Volume 8, Chapter 8 for guidance pertaining to garnishments, involuntary allotments, and tax levies. In addition, this chapter does not apply to antitrust, fraud, tax, or interagency collection issues.

020102. Purpose

The purpose of this chapter is to provide policy and requirements Debt Collection Offices (DCOs) must follow in the collection of public debts owed to the DoD. These debts include amounts outstanding from civilian employees, Service members, retired personnel, and other individuals.

020103. Authoritative Guidance

Pursuant to U.S. Department of Treasury (Treasury) requirements, DoD is required to aggressively collect debts in accordance with the following statutes and regulations:

A. Debt Collection Improvement Act of 1996 (Public Law 104-134, Chapter 10, section 31001);

B. Debt Collection Act of 1982 (Public Law 97-365);

E. Internal Revenue Code provisions regarding the authority to make credits or refunds (26 U.S.C. § 6402);

F. Federal Claims Collection Standards (FCCS) (Title 31, Code of Federal Regulations (CFR), parts 900-904);
G. Regulations for collection by offset from indebted government employees (5 CFR, Part 550, subpart K);

H. Regulations for the collection of past-due support by administrative offset (31 CFR 285.1); and

I. Additional statutes and regulations listed by Treasury’s Bureau of the Fiscal Service (Fiscal Service).

0202 GENERAL GUIDANCE

*020201. Prompt Collection of Debt

DCOs must promptly and aggressively initiate collection action on all established debts owed to the DoD and must complete follow-up actions to ensure successful repayment to the DoD. DCOs may utilize Treasury-designated debt collection centers to pursue collection. For additional information, refer to Treasury’s Centralized Receivables Service web page.

020202. Statute of Limitations for Collecting Debts

A. Time Limits for Debt Collection Litigation

1. The DoD may refer a debt to the Department of Justice (DOJ) for litigation against a debtor in order to enforce collection or obtain a judgment in favor of the DoD. Federal law limits the period of time within which an agency may file a lawsuit to collect a debt. In accordance with 28 U.S.C. § 2415, the statute of limitations for filing a lawsuit to pursue debt collection is generally the later of 6 years from the date the right of action accrues (date of delinquency), or 1 year after a final decision has been rendered in an administrative proceeding, such as an action before the Armed Services Board of Contract Appeals. For additional guidance on referring debts to DOJ for litigation, refer to section 0213.

2. Determining the statute of limitations for debt collection litigation is subject to numerous considerations and exceptions depending on the facts of each case. DCOs should consult their legal counsel for guidance. For example, the deadline for initiating litigation to collect an erroneous payment to a Federal employee is 6 years after the right of action accrues (unless otherwise provided by statute); however, a partial payment or a written debt affirmation restarts the 6-year period. Refer to 28 U.S.C. § 2415(d).

3. The time limits for initiating litigation to pursue debt collection do not apply to collection by other means, such as collection by salary offset or administrative offset.

on or after December 23, 2016, by a member of the uniformed services. As a result, time limits on the collection of debts differ for civilians and members of the uniformed services as follows.

1. **Civilians.** There is no statute of limitation on debt collection from current or former civilian employees. All debts, including those previously ineligible for collection prior to the removal of the time limit, may be collected by administrative offset without any time limitation. Debts more than 10 years delinquent as of December 31, 2009, which were previously ineligible for collection, may now be collected by administrative offset, provided additional notice and due process requirements are met. If a debt has been closed out, the debt cannot be reopened for administrative offset. Refer to Volume 4, Chapter 3 for additional guidance on debt closeout.

2. **Members of the Uniformed Services.** The statute of limitation on debt collection from members of the uniformed services depends on several factors.

   a. **Debts Incurred On or After December 23, 2016.** If a member incurs a debt to the United States on or after December 23, 2016, the indebtedness may only be recovered if collection commences before the end of the 10-year period beginning on the date the member incurred the debt. Generally, the date a debt is “incurred” by a member is the date the overpayment is received by the member. The date debt collection commences is typically when the member receives written notification of the debt. The 10-year limitation applies only to debts that meet all of the following requirements:

   (1) The debt must have been incurred through no fault of the member;

   (2) The debt must be the result of the overpayment of pay or allowances, or be incurred upon the settlement of the member’s accounts; and

   (3) The debt must belong to a current, retired, or former member.

   b. **Debts Incurred Before December 23, 2016.** Indebtedness incurred by a member prior to December 23, 2016, should be recovered, even when recovery efforts commence after the end of the 10-year period following the date on which the debt was incurred by the member.

020203. **Method of Payment**

Debts may be paid in the form of cash, check, money order, wire transfer, or electronic funds transfer (EFT). When a contractual basis exists, demand may be made for the return of specific property or the performance of specific services. Debts may otherwise be resolved by law, regulation, contract, or agreement. Refer to Volume 4, Chapter 3 for guidance on disposition of funds collected.
020204. Return of Property to Settle Indebtedness

Nothing in this volume is intended to preclude the DoD from demanding the return of specific Government-furnished property or the payment of the value of the property.

0203 RECOVERY TOOLS FOR DEBTS

020301. Common Debt Collection Methods Used by the DoD

The following are the most common recovery tools or methods of collection used to collect debts owed to the DoD.

A. Voluntary Repayment or Voluntary Offset. Whenever possible, the DoD should collect a debt in a single lump-sum payment from the debtor. A debtor may also request to make payment by installment agreement or may permit the withholding (offset) of funds payable to the debtor by the United States. Voluntary repayment via direct remittance or offset is the preferred method for collecting debts.

B. Involuntary Salary Offset. The DoD maintains the authority to collect involuntarily from an individual debtor’s current salary or pay as authorized by statute. Refer to section 0209 for guidance on involuntary salary offset from DoD civilian employees and Service members.

C. Administrative Offset. The DoD maintains the authority to refer a debt for involuntary collection by administrative offset from any available funds payable to the debtor by the United States, as authorized by statute. Administrative offsets may be taken against tax refunds, retirement payments, contract payments, travel reimbursements, and/or other Federal payments owed to the debtor. Refer to section 0209 for additional guidance on administrative offset and section 0211 for guidance on the Treasury Offset Program (TOP) for the administrative offset of any available funds payable to the debtor by the United States.

020302. Other Collection and Recovery Tools

Collection from other sources, including liquidation of collateral or security, is not a prerequisite to requiring payment by a surety or insurance concern unless expressly required by law. The following are other collection and recovery tools to consider when attempting to collect debt owed to the DoD:

A. Suspension or revocation of eligibility for loans and loan guarantees, licenses, permits, or privileges (except for disaster loans and where exempted by the Under Secretary of Defense (Comptroller) or the Comptroller’s designee, the Deputy Chief Financial Officer, DoD);

B. Liquidation of security or collateral by the DoD Component through a power of sale or non-judicial foreclosure if debtors fail to pay debts within a reasonable time after issuance of a demand letter, if such action is in the best interest of the Government. The DoD
Component must give consideration to security or collateral disposition costs as compared to amounts that might be received from such a sale. After the DoD Component liquidates the security or collateral to satisfy a debt, the DoD Component must give the debtor a written notice of sale and an account of surplus proceeds, in accordance with applicable laws or regulations. The servicing general counsel should be contacted if there is a bankruptcy filed, which is possible if there is a liquidation of security or collateral (refer to section 0215 for guidance on debtors involved in bankruptcy proceedings);

C. Collection in installments;
D. Administrative wage garnishment;
E. Compromise of debt;
F. Credit bureau reporting;
G. Contracting with collection agencies;
H. Submission of the debt to DOJ for litigation in order to enforce collection or obtain a judgment in favor of the DoD;
I. Acceleration of collection of the debt, which is when the DCO considers the total amount of the debt delinquent and demands the debtor pay the entire debt (both the delinquent and non-delinquent portions of the debt). Acceleration is particularly appropriate when a debtor has failed to repay the debt in accordance with an installment plan, or when the debtor will be separating from military or civilian service prior to the end of the installment payment period; and
J. Rescheduling the debt in order to revise the repayment period.

0204 DUE PROCESS

020401. General

A. In the context of Federal debt collection, the constitutional right of “due process” requires an agency to provide debtors with written notice of the debt and an opportunity to dispute the debt. Due process is required prior to an involuntary salary offset (5 U.S.C. § 5514) or administrative offset (31 U.S.C. § 3716). Except under certain limited circumstances, debtors must receive due process prior to the initiation of debt collection. Written debt notifications must adhere to the requirements at section 0205. The requirements for disputing a debt are set out in Chapter 4.

B. The requirements of due process do not preclude a debtor from repaying the debt prior to or during due process. A debtor may elect to repay the debt at any time after receiving the initial notification of indebtedness, the reconsideration or review results from the DCO, a determination by a hearing official, or a decision on a request for waiver or remission of the overpayment. Repayment may also be accepted from the debtor while any of these actions are
pending. If payment has been received, and the debt is later determined to be invalid, depending on the circumstances, a full or partial refund (including interest and fees) may be necessary.

020402. Requirements for Routine Pay Adjustments

A. In accordance with 5 U.S.C. § 5514, DCOs are not required to provide due process procedures prior to collecting overpayments of pay and allowances from Federal employees and Service members through routine intra-agency pay adjustments that have occurred within the four pay periods preceding the adjustment, or for any adjustments that amount to $50 or less. The debtor must be provided with a written notice of the nature and the amount of the adjustment, as well as a point of contact for questions regarding the adjustment, by the payday for the pay period in which the adjustment is processed, or as soon thereafter as practical.

B. Routine pay adjustments may be used to correct clerical errors, administrative errors, or delays in processing pay documents. Routine pay adjustments include, but are not limited to, correcting overpayments due to corrected or late time and attendance data or late or incorrect personnel actions. The actual overpayment must have occurred after April 26, 1996. Adjustments for health benefits and life insurance premiums made within four pay periods are covered by 5 CFR 550.1104(c).

C. The amount deducted for the routine adjustment may not exceed 15 percent of disposable pay, unless the debtor has consented in writing to a higher amount. When the debtor is a Service member, the servicing military pay office will generate a “no pay due” management notice when a debt creates a “no pay due” situation.

D. If a DoD debtor’s payroll account is moved from one payroll office to another payroll office within the DoD, then the new payroll office has the authority to collect an overpayment made by the former payroll office using routine adjustment procedures.

020403. Authority to Initiate Collection Before Due Process is Granted

Under 31 CFR 901.3(b)(4)(iii)(C), in certain limited circumstances, a DCO may use accelerated procedures to collect a debt by salary or administrative offset prior to, or while providing, notice and an opportunity for review to the debtor. The DCO may initiate collection before due process is given if failure to take the offset would substantially prejudice the DoD’s ability to collect a debt, or if there is insufficient time before payment to the debtor to allow for prior notice and an opportunity for review. When prior notice and an opportunity for review is not provided prior to collection, then such notice and opportunity for review must be given to the debtor as soon as practicable. Any amount recovered by offset, which is found not to be owed by the debtor, must be promptly refunded.
0205  DEBT NOTIFICATION LETTER

020501. General Requirements for Debt Notification Letter

The FCCS requires the issuance of one debt notification letter to the debtor. Debt notification letters must include the due process notification requirements listed in the Fiscal Service’s, “Managing Federal Receivables,” Appendix 8. The requirements for the notice of indebtedness can be found in 5 U.S.C. § 5514, 5 CFR 550.1104(b) and (d), 31 CFR 901.2, and 31 CFR 285.7(d)(4).

020502. When to Issue a Debt Notification Letter

A. DCOs must issue the initial debt notification letter to the debtor within 5 working days following confirmation of the existence and validity of the debt, the basis of indebtedness, and the amount of the debt. Only one due process debt notification is required to be issued to the debtor. DCOs may issue additional demand for payment letters at 30-day intervals after the date of the initial debt notification letter when deemed appropriate by the DCO.

B. DCOs must exercise care to ensure the debt notification letter is dated the same day the letter is mailed to the debtor’s last known address or hand-delivered to the debtor. The DCO is required to retain a copy of the debt notification letter as part of the debtor’s file. When warranted by the facts of a particular case, a DCO is not prohibited from issuing a written demand for payment to the debtor prior to issuing the due process debt notification letter; however, salary and administrative offset may only begin after due process has been completed.

020503. Debt Notification Letters Issued by Disbursing Officers

Disbursing officers are responsible for issuing a debt notification letter under specific circumstances in accordance with Volume 5, Chapters 6 and 8.

020504. Debt Notification Letters Issued by a Contracting Officer or Other Designated Official

The contracting officer, or other designated official, will issue a debt notification letter in accordance with the guidance in Chapter 5.

*020505. Content of Debt Notification Letters

A sample debt notification letter used by the Defense Finance and Accounting Service (DFAS) Civilian Pay DCO is available at Figure 2-1, and a sample debt notification letter used by the Military Pay DCO is available at Figure 2-2. DCOs outside of DFAS may modify the sample debt notification letter as they deem necessary; however, all debt notification letters should contain the following information.
A. Statement of Facts Regarding the Debt. The debt notification must include an explanation of the amount and reason for the indebtedness, the authority for establishing the debt, and the basis on which the determination of indebtedness was made.

B. Request for Lump-Sum Payment. A request for a lump-sum payment is a request that the debt be repaid in a lump sum by check, money order, or electronic funds transfer.

C. Payment Due Date. Payment due date is the date by which payment must be made to avoid incurring interest, penalties, administrative (IPA) fees, and enforced collection. The due date must not be more than 30 days from the date of the initial debt notification letter, unless otherwise mandated by statute, contract provision, or another notice of indebtedness. A due date more than 30 days from the date of the debt notification letter may also be allowed based on unusual circumstances as determined by the agency (for example, medical-related debts where insurance is billed first).

D. Right to Request a Review or Hearing. The debt notification must include a statement indicating that if the debtor wishes to dispute the existence or amount of the debt (or contest the repayment schedule for collection by salary offset), then the debtor may do so by submitting a written request for review or hearing petition. See Chapter 4 to determine whether debtor is eligible for a hearing or review. The notification must advise the debtor of the method and period of time for filing the request for review or hearing petition, typically 30 days from the date of the debt notification letter. It must also state that the timely filing of a request for review or hearing petition will stay the beginning of collection proceedings, and that interest and penalty charges will not be collected until and unless a determination is issued in favor of a collection. Detailed review or hearing petition instructions may be provided to the debtor online through the Internet. This process does not apply to contractor debts. For information regarding the contractor debt dispute process, refer to Chapter 5.

E. Right to a Written Decision. The debt notification must advise the debtor that if a review or hearing is granted, the debtor has the right to receive a written decision from the reviewer or hearing official within 60 days after the filing of the request for review or hearing petition. In the case of a hearing, the hearing official may grant a request for a delay in the proceedings.

F. Right to Inspect Records. The debt notification must advise the debtor that he or she has the right to inspect and copy the DoD records relating to the debt.

G. Voluntary Repayment Agreement Information. The debt notification must advise the debtor of the opportunity to establish a schedule for the voluntary repayment of the debt by entering into an installment payment plan if the debtor claims, and can support, an inability to repay the debt in a single lump sum.

H. Right to Request a Waiver or Remission. If applicable for individual debtors, include a statement regarding the right to request a waiver or remission of the indebtedness in accordance with applicable statutory authority for waiving or remitting a debt. Detailed waiver application instructions may be provided to the debtor online.
I. **Collection Action on Delinquent Debts.** Include a statement indicating that if the DCO is unable to collect a debt, other collection methods may be used, such as referring the debt to a private collection agency (PCA), reporting the debt to a credit bureau, garnishing non-Federal employment wages, or referring the debt to DOJ for litigation. Inform the debtor that any debts delinquent for more than 120 days are required to be transferred to Treasury for collection, and in some cases, the debt may be transferred sooner. Components that follow the procedures contained in the *Delinquent Debt Management Guidance* (DDMG) should refer delinquent debts older than 90 days to the Fiscal Services Debt Management Services (DMS) for further collection action where appropriate.

J. **Collection from Final Pay of Employee.** Include a statement indicating that any portion of a debt remaining at the time of separation may be collected from the debtor’s final pay and allowances.

K. **IPA.** The debt notification must contain a statement explaining the requirements under [31 CFR 901.9](#) to assess IPA, including:

   1. An explanation that if the debt is not paid by the due date, then interest will be charged from the date of delinquency, or from the date specified in the repayment agreement, if applicable (refer to the Definitions chapter for a definition of date of delinquency). Include a statement indicating that the interest rate will be calculated pursuant to 31 CFR 901.9;
   2. An explanation that if the debt is not paid in full by the due date stated in the debt notification letter, then the DCO will assess administrative costs for the processing and handling of the delinquent debt; and
   3. An explanation that if the debt is delinquent for more than 90 days, then the DCO will assess a penalty, not to exceed 6 percent per annum, on the unpaid portion of the debt accruing from the date of delinquency.

L. **Point of Contact.** Include a statement identifying the name, mailing address, email address, fax number, and telephone number of a point of contact the debtor may contact regarding the debt.

M. **Payment Address.** Provide the address where payment should be mailed or delivered (including instructions for Pay.Gov or EFT, where applicable), and include notice that the check, money order, or wire transfer must be made payable to Treasury.

N. **Penalty for False or Frivolous Statements.** The debt notification letter must indicate the consequences of knowingly providing false or frivolous statements, representations, or evidence, which include:

   1. Disciplinary procedures for Federal employees under 5 U.S.C. *Chapter 75, 5 CFR 752*, or any other applicable statutes or regulations;
2. Penalties under the False Claims Act (31 U.S.C. § 3729-3733) or any other applicable statutory authority; or

O. Bankruptcy. Include a statement indicating the debtor is responsible for notifying the DCO if the debtor files or has filed for bankruptcy.

P. Right to a Refund. Include a statement that amounts paid or deducted for the debt, which are later waived or found not to be owed to the Government, will be refunded promptly to the debtor, unless prohibited by law.

Q. Tax Filing. Provide notice that for joint income tax filers, the spouse should file Internal Revenue Service (IRS) Form 8379, Injured Spouse Allocation, with the IRS to claim his or her share of the tax refund.

R. Salary Offset Procedures. Where applicable, state the DCO’s intention to collect the debt of a Federal employee by means of payroll deductions (salary offset) if payment is not received within 30 days. Identify the amount, frequency, proposed beginning date, and the duration of deductions by salary offset.

020506. Duplication of Debt Notification

When a debtor has previously been provided with due process with respect to a debt, there is no need to duplicate due process requirements before initiating administrative offset with regard to the same debt, except as provided in subparagraph 020202.B. DCOs will implement salary or administrative offset procedures as funds or monies become due and payable to a debtor.

0206 RESPONDING TO DEBTOR INQUIRIES

The DCO should respond promptly to any questions raised by the debtor, normally not later than 30 days from the date of receipt of the debtor’s correspondence. The DCO must provide copies of relevant documents requested by the debtor.

0207 VOLUNTARY REPAYMENT OF INDEBTEDNESS

020701. Lump-Sum Repayment

Lump-sum repayment in full is the preferred method of collection. DCOs must encourage debtors to repay their debts through lump-sum payments by EFT (for military personnel and contractors), personal check, money order, or Pay.Gov. Lump-sum collections by offset from current pay or salary cannot exceed the percentages specified in subparagraph 020902.C or any other applicable regulation, unless voluntarily agreed to by the debtor.
020702. Voluntary Repayment by Installment

A. General. If the Component determines that the debtor is financially unable to pay a debt in a lump sum, then the DoD may accept voluntary repayment from the debtor in regular installments, rather than proceeding with collection by an involuntary salary or administrative offset. Installment agreements must be in writing as specified in paragraph 020802. DCOs must include a copy of a voluntary repayment agreement in the debt notification issued to the debtor. Refer to Figure 2-1, Enclosure 4 and Figure 2-2 for a sample voluntary repayment agreement.

B. Amount of Installment Payment for Individual Debt. The size and frequency of installment payments should bear a reasonable relation to the size of the debt and the debtor’s ability to pay. Installment payments should be at least $50 per month unless a debtor can prove financial hardship. The installment payments should be sufficient in size and frequency to liquidate the debt in 3 years or less; however, a greater amount of time may be appropriate based on the size of the debt and the debtor’s ability to repay. An installment payment plan is typically only appropriate if the total debt amount is at least 5 percent of the individual’s annual disposable pay. Unless voluntarily agreed to by the debtor, the amount of the installment payments from an individual’s current pay or salary must not exceed the offset percentages established in subparagraph 020902.C.

C. Review of Proposed Installment Agreements. DCOs must forward requests for installment payment plans from contractors/vendors to the Debt Management Office (DMO) for review and appropriate action. DCOs will review proposed installment agreements submitted by Service members and DoD civilian employees. The Debt and Claims Management Office (DCMO) will review proposed installment agreements submitted by individuals who are no longer employed by the DoD. The DCO/DMO/DCMO must review the proposed installment agreement submitted by the debtor using the criteria set out in paragraph 020801 and must notify the debtor as to whether the proposed agreement is acceptable.

D. Installment by Payroll (Salary Offset) or Cash Repayment. Individuals may make installment payments through payroll deductions or by submitting cash repayments on a monthly basis or each pay period. Cash repayment includes payments by EFT, personal check, money order, or another negotiable instrument. Any amount remaining unpaid at the time of separation or retirement will be collected from final lump-sum payments of any nature, such as final salary, lump-sum leave, and/or bonuses.

E. Applying Receivables. When a receivable is collected by installment payment, apply amounts received first to contingency fees, second to outstanding penalties, third to administrative costs, fourth to interest, and last to principal. Contingency fees are defined as administrative costs resulting from fees paid by one Federal agency to other Federal agencies or private collection contractors for collection services rendered when the fees are paid from the amounts collected from the debtor.
0208 CONSIDERING AND PROCESSING INSTALLMENT AGREEMENTS

020801. Proposed Installment Agreement Review Criteria

A. An installment repayment schedule should adequately protect the interests of both the DoD and the debtor. The DCO must ensure the debt is recoverable within the shortest practical period of time, taking into consideration the financial impact on the debtor.

B. A debtor may negotiate the terms of an installment repayment schedule if the schedule proposed by the agency would subject the employee to an extreme financial hardship. An extreme financial hardship means the proposed repayment schedule would prevent the debtor from meeting the costs necessary for essential subsistence expenses of the debtor, the debtor’s spouse, and dependents. Essential subsistence expenses include costs incurred for food, housing, necessary public utilities, clothing, transportation, and medical care. Upon the agency’s request, the debtor must submit financial statements in support of a proposed installment payment plan. The agency may enter into installment agreements only when there is sufficient evidence the debtor will be able to abide by the terms of the agreement, including the repayment schedule. The DCO should base its decision to accept or deny a proposed installment agreement on a review of the following factors:

1. Age and health of the debtor;
2. Present and potential income;
3. Inheritance prospects;
4. Possibility of hidden assets or fraudulent transfers;
5. Assets/income available through enforced collection;
6. Reasonable and necessary living expenses for the debtor and the debtor’s dependents;
7. Income from all sources and expenses for the individual, spouse, and dependents;
8. The extent that assets of the individual, spouse, and their dependents are available to meet the offset and essential subsistence expenses;
9. Whether subsistence expenses have been reduced to minimum essential amounts;
10. The extent to which an individual or spouse can borrow money to meet the offset and minimum subsistence expenses; and
11. The extent to which the individual, spouse, and dependents have other exceptional expenses that should be taken into account and whether these types of expenses have been minimized.

020802. Installment Payment Agreement Terms and Processing

The DCO must obtain signed, legally enforceable, written installment agreements (such as a Voluntary Repayment Agreement or Promissory Note) from the debtor. Such agreements must specify the terms agreed upon by the parties, including terms governing the assessment of IPA charges. The agreement must contain a provision for accelerating the debt, which requires that the remaining debt balance be due and payable immediately upon the debtor’s default on the agreement. The agreement must state that the DCO will require the debtor to submit financial statements annually, as necessary, whenever the repayment period exceeds 3 years.

A. Receipt of an Acceptable Agreement. After receiving a signed agreement, the DCO will begin collecting the debt pursuant to the agreement. If requested by the debtor, and agreed to by the agency, the remittance may be deferred for up to two pay periods with the agreement adjusted to reflect that deferral.

B. Receipt of an Unacceptable Agreement

1. Individual Debtors. If the DCO determines a proposed repayment agreement submitted by an individual debtor is unacceptable, then the DCO must notify the individual debtor in writing. The debtor will then have 30 days from the date of the written notice to request a special review by the DCO or file a petition for a hearing (or review for military members) under Chapter 4, sections 0403 or 0406.

2. Contractor/Vendor Debtors. The DMO must obtain consent from the creditor DoD Component’s senior financial manager or designee before denying a contractor’s request for an installment agreement. Refer to Chapter 5 for additional contract debt guidance.

020803. Installment Payment Delinquency

If a debtor does not make an installment payment by the due date, the entire balance of the debt becomes delinquent from the due date of the missed payment. A debt being repaid under an installment plan is not delinquent if payments under the installment agreement are current. Interest will be assessed on a debt being paid by installment until the debt is paid in full. Penalties may be assessed on any portion of the debt that is outstanding for more than 90 days.

020804. Review of Installment Agreements

As required, DCOs must review the debtor’s annual financial statements and determine whether to collect the balance due in a lump sum or continue the installment agreement at the same or increased amounts. A debtor’s request to decrease installment payments based on materially changed circumstances may be considered at any time. The request must include financial data confirming the debtor’s inability to pay the full amount of the agreed upon installment plan. DCOs
should not reduce installment payment amounts if there is a determination that the debtor could have controlled the financial condition that impacted the debtor’s ability to meet existing installment payment requirements.

0209 IN VOLUNTARY COLLECTION OF DEBT BY SALARY AND ADMINISTRATIVE OFFSET

020901. General

When a debtor does not pay a debt voluntarily, agencies have the right to offset monies otherwise owed to a debtor in order to extinguish a debt. Where specific statutory authority exists for the collection of a particular debt by offset, the provisions of the statute and its implementing regulations must be used in determining the applicable collection procedures (for example, specific statutory authority exists under 5 U.S.C. § 5705, 5 U.S.C. § 5512, 10 U.S.C. § 2775, and 37 U.S.C. § 1007). However, when a more specific statute does not exist, DCOs must use the general collection authority under 5 U.S.C. § 5514 for salary offset from the current pay of individuals employed by the DoD, or 31 U.S.C. § 3716 (covered in paragraph 020903) for administrative offset of other payments from the Government that are due a debtor. Refer to Chapter 3 for more specific instructions on involuntary collection of debt for Service members and civilians.

DCOs may initiate salary offset to collect indebtedness by installment deductions under 5 U.S.C. § 5514 for debtors who are receiving pay from the DoD. This statute authorizes the involuntary collection of indebtedness of Service members, DoD civilian employees, and Nonappropriated Fund Instrumentality (NAFI) employees from their current pay or salary accounts. Use 5 U.S.C. § 5514 as the authority for salary offset when offset is not authorized or required by other more specific statutes. If the debtor is not currently employed by the DoD and owes a debt to the DoD, the DCO must forward the debt to the DCMO for collection using administrative offset under paragraph 020903. If the debtor is a separated Service member, and the debt is not subject to salary offset, the DCO must forward the debt to the DCMO for collection using administrative offset under paragraph 020903.

A. Due Process

1. When a debtor has either failed to pay the debt in one lump sum, has not agreed to a voluntary one-time payroll deduction, or has not entered into an installment agreement, the DCO must recover the debt by an involuntary salary offset. Before initiating involuntary salary offset, the DCO must ensure the debtor has been given due process pursuant to section 0204, and the debtor has not exercised the rights listed in the debt notification letter or, having exercised one or more of those rights, was determined to be indebted.

2. The DCO must ensure involuntary salary offset is initiated in the pay period designated in the debt notification letter, unless the period for salary offset was delayed by the debtor’s request for a hearing (or request for a review by a military member). When practical, the DCO will notify the debtor of an offset on the Leave and Earnings Statement. The
DCO may initiate collection of a debt from final pay and lump-sum leave payments before granting due process if failure to do so would substantially prejudice the DCO’s ability to collect a debt. In such cases, the DCO must afford the debtor due process as soon as practicable. There is no statute of limitations for collecting a debt by salary or administrative offset for civilians, provided notice and due process requirements are met. Refer to subparagraph 020202.B.2 for information on the statute of limitations for initiating collection of debts owed by members of the uniformed service.

B. Excluded Debts. The following debts are not authorized for collection by salary offset:

1. Collection of debts to private creditors, except as authorized by Public Law 103-94, "Hatch Act Reform Amendments of 1993;"

2. Contributions to charities;

3. Payment of commercial life insurance premiums, international agreements, or arrangements with foreign governments;

4. Payment of dues to civic, fraternal, or other organizations; or

5. Collection of state and local/city tax indebtedness.

C. Disposable Pay. Disposable pay is the current pay that remains after any legally required deductions from earnings are withheld. Refer to 5 CFR 550.1103 for a definition of disposable pay. All involuntary salary offset under 5 U.S.C. § 5514 is limited to a maximum of 15 percent of the debtor's disposable pay unless the debtor gives written consent to deductions at a greater percentage. Involuntary salary offset will normally be established at this maximum rate. If salary offset mistakenly exceeds 15 percent of disposable pay when the debtor has not consented to deductions at a greater percentage, the DCO will refund the difference upon the debtor’s request. DCOs will compute the amount of disposable pay available for salary offset by making the following deductions:

1. Amounts withheld for Federal, state, or local income tax purposes, if the withholding of the amounts is authorized or required by law, and if the amounts withheld are not greater than would be the case if the individual claimed all dependents as defined in the Federal, state, and local tax codes. For computing disposable pay, no additional Federal tax amounts will be deducted unless the individual presents evidence of a tax obligation supporting the additional deduction;

2. Amounts withheld for Social Security and Medicare taxes;

3. Amounts deducted as health insurance premiums;

4. Amounts deducted as normal retirement contributions (Civil Service Retirement System, Federal Employee Retirement System (FERS), FERS-Revised Annuity Employees, FERS-Further Revised Annuity Employees, and Nonappropriated Fund Retirement),
including Thrift Savings Plan (TSP), Roth TSP, and Armed Forces Retirement Home contributions. Amounts voluntarily contributed toward additional retirement benefits are not normal retirement contributions; and

5. Amounts deducted as normal life insurance premiums from salary, including amounts deducted for basic Federal Employee Government Life Insurance (FEGLI). However, all optional FEGLI premiums are not considered normal life insurance premiums. Also included is Servicemembers' Group Life Insurance (SGLI), including Family SGLI and Traumatic SGLI.

D. Amounts Not Deductible When Computing Disposable Pay. Do not deduct the following amounts when computing disposable pay for the purpose of salary offset:

1. Deductions for any existing debts being collected for a DoD Component or other Federal agency, including late payment charges;
2. Amounts to satisfy court-ordered garnishments;
3. Amounts to satisfy a court judgment;
4. Court-ordered bankruptcy payments under Chapter 13 of the Revised Bankruptcy Act;
5. Voluntary allotments for child support;
6. Union dues deductions;
7. Charity deductions;
8. IRS Federal tax levies;
9. Savings allotments;
10. TSP loans; or

* E. Debtor Disagrees with Amount to be Withheld. If the debtor contends that the rate of salary offset proposed, or already established by the DCO, would produce an extreme financial hardship, then in accordance with 5 U.S.C. § 5514, the debtor may at any time:

1. Petition for a hearing with a hearing official to contest the amount of the salary offset (civilian debtors) within the timeframe noted on the debt notification. Military members whose debts are collected under 37 U.S.C. § 1007 may request a review of the repayment schedule by the DCO within the noted timeframe. Refer to Chapter 4 for guidance on hearing or review requests; or
2. Request a special review by the DCO. An individual debtor may request a special review by the DCO of a proposed or established salary offset amount. The request for special review of the established rate of salary offset should be based on the debtor’s materially changed circumstances, such as catastrophic illness, divorce, death, or disability.

   a. Debtor Request. The debtor must submit a written request for special review. The debtor must provide an alternative offset schedule with supporting documents showing why the current or proposed salary offset amount would produce an extreme financial hardship. The supporting documents should include the following information for the debtor, his or her spouse, and dependents: income from all sources, assets, liabilities, number of dependents, expenses for food, housing, clothing and transportation, medical expenses, and other exceptional expenses (if any).

   b. DCO Response to Debtor. The DCO must evaluate the information submitted by the debtor and issue a written determination concerning the debtor’s request for a revised salary offset amount. The DCO should inform the debtor of the acceptance or denial of a revised salary offset amount within 15 days from the date of receipt of the debtor’s request for special review. If the DCO approves the debtor’s request to reduce the salary offset amount, the reduction will begin immediately upon the issuance of the written determination.

F. Multiple Debts and Priority of Deductions. When a debtor owes more than one debt, deductions for the current debt and any previously established debts will continue until the debts are paid in full. If prioritizing deductions is necessary, then collect debts owed by debtors to more than one DoD Component, or another Federal agency, in the following priority sequence:

1. Debt to the debtor’s employing agency or department,

2. Debt to other DoD Components, then

3. Debt to other Federal Agencies.

A. General

1. Administrative offset under 31 U.S.C. § 3716 allows the Government to withhold or intercept funds from monies payable by the United States to a person, organization, or entity in order to satisfy a debt owed to the Government. Administrative offsets may occur against tax refund payments, salary payments, military and civilian retirement pay, contractor payments, grant payments, benefit payments, travel reimbursement, and other Federal payments.

2. Two administrative offset methods are used by agencies to offset a debtor’s payments from the Government. Centralized offset uses TOP operated by the Treasury in order to intercept Federal payments due a debtor. Refer to section 0211 for procedures on referring debts to Treasury. An agency may use non-centralized offset in cases where offset
through TOP is not available or appropriate. Non-centralized offset is an ad hoc method of offset performed on a case-by-case basis that the agency executes internally or in cooperation with another agency certifying payments to the debtor.

B. Exclusions. Administrative offset under 31 U.S.C. § 3716 does not apply to:

1. Offset against Federal salaries if the FCCS are inconsistent with regulations implementing salary offsets under 37 U.S.C. § 1007 or 5 U.S.C. § 5514;
2. Offset under 31 U.S.C. § 3728 against a judgment obtained by a debtor against the United States;
3. Offset or recoupment under common law, state law, or Federal statutes specifically prohibiting offset or recoupment of particular types of debts; or
4. Offset in the course of judicial proceedings, including bankruptcy.

C. Collection Under Common Law. Debts not subject to administrative offset under 31 U.S.C. § 3716 may still be collected by offset under the common law or another applicable statute.

D. Collecting Debts Owed by Individuals

1. If a DCO cannot collect a debt because no recovery is available from salary offset under 5 U.S.C. § 5514 (or another statute authorizing offset from pay), and the debtor has failed to pay the debt in lump sum or by an installment repayment agreement, then the DCO should refer the debt to the DCMO for administrative offset under 31 U.S.C. § 3716. The DCMO offers debt management and collection assistance to DoD Components for delinquent debts owed to the DoD. Refer to Chapter 3, section 0305 for guidance on referring debts to the DCMO.

2. Upon receiving a debt, the DCMO will pursue all collection action on the debt available under 31 U.S.C. § 3716. The DCMO will service the debt by using various collection procedures including issuing demand for payment letters, referring the debt to credit reporting agencies, or referring the debt to the Treasury Cross-Servicing Program. When appropriate, the DCMO will refer uncollectible debts to TOP for centralized offset of any Federal payments due the debtor. Refer to section 0211 on the referral of debts to TOP and/or the Treasury Cross-Servicing Program. Refer to Chapter 3, paragraph 030208 for additional guidance on the collection of indebtedness from final salary and lump-sum payments under 31 U.S.C. § 3716.

   a. Due Process Requirements Prior to Administrative Offset Under 31 U.S.C. § 3716. Before the DCO initiates administrative offset under 31 U.S.C. § 3716, a debtor must receive due process (notice of the debt and an opportunity for review). The DCO must complete all due process requirements under sections 0204 and 0205 prior to sending the debt to DCMO for collection by administrative offset. If the debtor has requested a hearing or
review, the DCO must follow the guidance contained in Chapter 4, paragraphs 040303 and 040604 prior to transferring the debt to DCMO for collection.

b. Guidance for Requesting Administrative Offset Within the DoD

(1) Requests by a DCO from one DoD Component for administrative offset against a Service member or civilian employee of another DoD Component are initiated by sending a DoD Form 139 (DD 139), Pay Adjustment Authorization; DD 2481, Request for Recovery of Debt Due the United States by Salary Offset; other prescribed authorized form; or an automated transaction to the debtor’s payroll processing activity.

(2) The request must include a certification from the DCO that the debtor owes the debt and that the requesting DCO has fully complied with regulatory requirements (including all due process requirements) concerning administrative offset.

(3) The request must include a mailing address, email address, and phone number for the point of contact at the DCO who will respond to questions or disputes from the debtor.

(4) When a debtor consents to administrative offset in writing or signs a statement acknowledging receipt of due process procedures, the requesting DCO must include the debtor’s consent with the request for offset, along with the certification and all supporting documentation. Administrative offset cannot be accomplished until the DCO has provided all of the supporting documentation for the debt. For those debts transferred to DCMO, the DCMO must advise the debtor of the offset request received from the DCO and issue a demand for payment.

E. Collecting Debts Owed by Vendors/Contractors. DCOs will recover debts internally within the DoD, to the extent practical, by voluntary repayment of the debt by the vendor/contractor, or administrative offset(s) of other payments owed to the vendor/contractor. Refer to Chapter 5, section 0503 for additional guidance on administrative offset for vendors/contractors.

020904. Additional Statutory Authority for Offset

A. Salary and Administrative Offset for Travel Advances Under 5 U.S.C. § 5705

1. While 5 U.S.C. § 5514 and 31 U.S.C. § 3716 provide generalized authority to collect a debt by salary or administrative offset, 5 U.S.C. § 5705 specifically authorizes salary and administrative offset for travel advances authorized under 5 U.S.C. § 5701 et seq. Under 5 U.S.C. § 5705, a Federal employee who is entitled to per diem or mileage allowances may receive a travel advance. Any amount of a travel advance that is not used for allowable expenses is required to be collected back from the employee. DCOs should inform
2. When making collections of unused advanced per diem or mileage allowances, DCOs must give DoD debtors the opportunity to pay the amount due in a lump sum. If the debtor does not make a lump-sum payment, then salary or administrative offset must be made immediately against accrued pay, retired pay, travel reimbursement, or any other amount due the debtor from the United States. Hearings are not required prior to salary offset under 5 U.S.C. § 5705; however, DCOs must provide the debtor with a notice of the debt and must reconsider/review debts informally upon the debtor’s request. If there is no amount available for salary offset, and the debt must be collected by administrative offset, then the DCO must follow the requirements for debt collection by administrative offset under 31 U.S.C. § 3716.

B. Offset from a Service Member’s Pay for Damage to Military Housing Under 10 U.S.C. § 2775. Under 10 U.S.C. § 2775, express authority is provided for the collection of a debt from a Service member’s pay for the cost of repair, replacement, or cleaning of military housing necessitated by abuse or neglect by Service members. Debtors are not entitled to a hearing for debts being collected by administrative offset under this statute. However, DCOs must provide the debtor with a notice of the debt and must reconsider/review these debts upon the debtor’s request. If there is no amount available for salary offset, and the debt must be collected by administrative offset, then the DCO must follow the requirements for debt collection by administrative offset under 31 U.S.C. § 3716.

C. Offset from a Member’s Pay for Administratively Determined Debts Under 37 U.S.C. § 1007. Under 37 U.S.C. § 1007, express authority is provided for offset from a Service member’s pay for the collection of debts that are administratively determined to be owed to a DoD Component by the Service member.

D. Administrative Offset to Recover Public Funds Under 5 U.S.C. § 5512. Under 5 U.S.C. § 5512, administrative offset is authorized to offset the pay of an accountable official in arrears to the DoD for all sums for which he or she is liable. This authority only pertains to the collection of a debt when the debt is the result of an individual being held liable for a loss of funds. DCOs will withhold the pay of individuals in arrears to the DoD until the debtor has paid all sums for which the debtor is liable. Refer to Volume 5, Chapter 6 for additional guidance on loss of funds.

020905. Cooperation with Other Government Agencies

A. General. The FCCS requires that the DoD cooperate with other government agencies to collect debts referred for administrative offset except under either of the following conditions:

1. When the DCO determines that the offset would not be in the best interest of the United States with respect to the program against which the offset is requested, as determined by the head of the agency holding funds or monies for offset; or
2. When the DCO determines that the offset would be contrary to another applicable law.

B. Requests for Administrative Offset Received From Non-DoD Federal Agencies

1. If a non-DoD Federal agency determines a debtor works for a DoD agency, then the non-DoD agency may submit a request directly to the DoD for administrative offset from the debtor’s pay. The non-DoD Federal agency is responsible for determining the validity and amount of the debt. The DoD is not authorized to determine the merits of the debt for which administrative offset is requested. Refer to Volume 8, Chapter 8 for additional guidance regarding these debts.

2. Requests from non-DoD Federal agencies for administrative offset of DoD salaries or contractor invoices are typically sent through the Treasury Cross-Servicing Program. Requests may also be submitted through the Federal Payment Levy Program.

3. All requests from non-DoD Federal agencies for administrative offset of individual salaries that are received by DoD Components must be forwarded to DFAS-Cleveland (DFAS-CL), 1240 East 9th Street, Cleveland, OH 44199 or via email to ccl-salary-offset@mail.mil. Requests from non-DoD Federal agencies for administrative offset of contractor invoices that are received by DoD Components must be forwarded to Treasury.

C. Requesting Administrative Offset from Civil Service Retirement Disability Fund (CSRDF) or FERS Funds. Chapter 3 outlines procedures for requesting administrative offset from CSRDF or FERS for debts owed by retired DoD civilian employees. To prevent duplicate administrative offset requests, DCOs must not refer the same requests for administrative offset to both the Office of Personnel Management (OPM) and to TOP. These debts are subject to all other collection procedures.

0210 REPORTING DEBT TO CREDIT BUREAUS

*021001. Authority to Report Debts

Federal agencies must report all delinquent debts to credit bureaus (also referred to as “credit reporting agencies”) as part of the agency’s debt collection effort pursuant to 31 U.S.C § 3711(e). The DCMO (or other DCO as appropriate) must implement procedures for reporting delinquent debts to credit bureaus and other automated databases in accordance with the “Guide to the Federal Credit Bureau Program,” issued by Treasury in 2001. If the DCMO is required to report a non-delinquent debt to a credit bureau, reporting procedures must comply with the “Bankruptcy Code” and the “Privacy Act of 1974” (5 U.S.C. § 552(a)), as amended. Provisions of the Privacy Act do not apply to credit bureaus. Effective March 1, 2007, in accordance with 10 U.S.C. § 2780(b), debts incurred by Service members will not be reported to credit bureaus during the time a decision regarding waiver or remission/cancellation of the debt is pending, unless the Secretary concerned determines that disclosure pending such a decision is in the best interest of the United States.
021002. Notification to Debtor of Intent to Report to a Credit Bureau

The DCMO or DMO must ensure the debtor has been given notice before reporting a delinquent debt to credit bureaus. Duplication of previously provided due process notifications is not required prior to reporting the debt to the credit bureau as long as the following information has been provided to the debtor:

A. A statement that the agency intends to report the debt to a credit bureau;

B. A statement that the information to be reported will include the debtor’s name, address, taxpayer identification number (TIN), and information about the debt;

C. Actions that may be taken by the debtor to prevent credit reporting (i.e. repayment of the debt in full or repayment by installment agreement); and

D. A complete explanation of the debt, along with information about the debtor’s right to dispute the debt, to review records about the debt and to seek a review or hearing, if applicable, of the agency’s determination that the debt is due.

021003. Requirements for Reporting Debts to Credit Bureaus

Prior to reporting a delinquent debt to a credit bureau, the DCMO must:

A. Comply with the provisions of the Privacy Act of 1974;

B. Ensure the DCO has made a determination that the debt is valid and overdue;

C. Ensure the DCO has complied with the requirements in section 0204 and has issued a debt notification letter to the debtor that complies with the requirements of section 0205;

D. Determine that the debtor has not:

1. Repaid or agreed to repay the debt under a written repayment plan the debtor has signed, and the DoD Component or DCO has agreed to; or

2. Filed a hearing petition for review of the debt under Chapter 4;

E. Ensure there are procedures to:

1. Disclose promptly, to each credit bureau to which the original disclosure was made, a substantial change in the condition or amount of the debt;

2. Verify or promptly correct, information about the debt on request of a credit bureau; and
3. Obtain satisfactory assurances from each credit bureau that the credit bureau is complying with all laws of the United States related to providing consumer credit information; and

F. Ensure information disclosed to credit bureaus is limited to:

1. Information necessary to establish the identity of the debtor, including name, address, and TIN;

2. The amount, status, and history of the debt; and

3. The DoD Component or program under which the debt arose.

021004. Maintenance of Debt Records

DCOs must retain records for debts reported to credit bureaus in accordance with guidelines of the National Archives and Records Administration General Records Schedule. Bankruptcy information can be reported for 10 years. The credit bureau will only maintain accurate, negative information on a credit report if it is less than 7 years old.

0211 REFERRAL TO THE TREASURY

021101. General

A. Treasury has broad collection responsibilities for delinquent debts. Unless otherwise authorized by law, pursuant to Treasury Financial Manual (TFM) Volume I Part 4, Chapter 4000 (4-4000), Federal agencies are required to refer eligible and legally enforceable debts more than 180 days delinquent to the Treasury Cross-Servicing Program for debt servicing. Agencies are also required to refer any debts more than 120 days delinquent to TOP for recovery by centralized administrative offset. Refer to 31 U.S.C. § 3711(g) and 31 U.S.C. § 3716 for information on referring debts to TOP.

B. Components that have implemented the processes contained in the DDMG should refer delinquent debt older than 90 days and greater than $25 to the DMS for further collection action where applicable. At the DoD Component’s discretion, debts may be referred sooner to protect the DoD’s interests.

C. If a debt is first referred to the Cross-Servicing Program, Treasury will submit any remaining amount not collected by cross-servicing to TOP on behalf of the agency. Therefore, in order to comply with the 120 day deadline for submitting debts to TOP, creditor agencies must submit debts more than 120 days delinquent to cross-servicing, rather than waiting until the debt is 180 days delinquent. Once a debt is referred to Treasury, the DoD must cease collection activity related to that debt. Agencies referring debts to Treasury must authorize Treasury to utilize all available collection tools.
D. In most instances, DCOs refer uncollectible debts to the DFAS DCMO for debt servicing first, and the DCMO refers the debts to Treasury for cross-servicing and to TOP. Only those DCOs with specific authority may refer delinquent debts directly to Treasury. Prior to making a referral directly to Treasury, DCOs must consider the DFAS DCMO debt program and procedures in Chapter 3 to determine whether referring the debt to DFAS first would offer more cost-effective service, debt management control, and reporting.

E. DoD Components that do not refer debts to one of the DCOs authorized to make referrals to Treasury must negotiate an agreement with Treasury for debt referrals.

*021102. Cross-Servicing

A. General. The Debt Collection Improvement Act and the TFM 4-4000 requires agencies to refer all eligible debts that are delinquent more than 180 days to Treasury for cross-servicing under the Treasury Cross-Servicing Program. If an agency does not separately refer debts to TOP, then it must refer eligible debts that are delinquent more than 120 days to cross-servicing in order to meet the requirement for TOP referral. Components that have implemented the processes contained in the DDMG should refer delinquent debt older than 90 days to the DMS for further collection action where applicable. Treasury uses a variety of collection tools to collect the debt under cross-servicing including: issuing demand for payment letters, phone calls, credit bureau reporting, referral to TOP, referral to PCAs, and/or referral of debts to DOJ for litigation. Additional information on the Cross-Servicing Program can be found at the Fiscal Service, DMS, Cross-Servicing.

B. Due Process. The DCO must complete all due process procedures prior to referring a debt to Treasury for cross-servicing. At least 60 days before a debt is referred to Treasury, the DCO must issue the debtor a debt notification that meets the requirements of paragraph 020505.

C. Debts Not Eligible or Required to be Referred to Treasury for Cross-Servicing

1. Pursuant to Treasury’s “Managing Federal Receivables,” a debt is not eligible for referral to Treasury for cross-servicing if the debt:
   a. Is not past due or legally enforceable;
   b. Is owed by a debtor who has died;
   c. Is owed by a debtor who has filed for bankruptcy protection or the debt has been discharged in a bankruptcy proceeding;
   d. Is owed by a Federal agency;
   e. Is the subject of an administrative appeal, until the appeal is concluded and the amount of the debt is fixed; or
f. Is less than $25 (including IPA costs);

2. A debt may be referred for cross-servicing, but is not required to be referred, if the debt:

a. Is in litigation, meaning the debt has either been referred to DOJ for litigation or is the subject of proceedings pending in a court of competent jurisdiction, including bankruptcy and post-judgment matters;

b. Is in foreclosure, which means the debt is secured by collateral that is being foreclosed, either through a court proceeding or non-judicially;

c. Will be disposed of under an approved asset sale program within 1 year after becoming eligible for sale, or later than 1 year if consistent with an asset sales program;

d. Has been referred to a private collection contractor for a period acceptable to Treasury;

e. Is at a Treasury-designated debt collection center for a period acceptable to Treasury;

f. Will be collected under internal offset procedures within 3 years after the debt first became delinquent;

g. Is exempt from this requirement based on a determination by Treasury that exemption for a certain class of debt is in the best interest of the United States (the DoD may request that Treasury exempt specific classes of debts);

h. Is owed by foreign governments or a NAFI;

i. Is less than $100 and belongs to a debtor without a known Tax Identification Number; or

j. Is otherwise exempt from the statutory referral requirement by law or official action of Treasury.

D. Accountability for the Debt. While the debt is in the Cross-Servicing Program, Treasury maintains the debt balance information, collects the funds paid by the debtor, and returns the funds to the creditor agency for proper deposit and accounting. The creditor agency must maintain its original debtor records and remains responsible for all financial reporting associated with the debt, to include IPA fees. IPA will continue to accrue on debts referred to Treasury’s Cross-Servicing Program. The creditor agency is responsible for the accuracy of the debt information submitted to Treasury and must provide updates and corrections of debtor information on a regular basis.
E. Cross-Servicing Fees. Treasury charges fees to cover its costs for cross-servicing. The fee is a percentage of all collections received from the debtor after the debt is referred to cross-servicing. Pursuant to the TFM 4-4000, Treasury fees are added to the outstanding debt balance.

021103. TOP

A. General

1. TOP provides for the centralized administrative offset of Federal tax and non-tax payments payable to a debtor in order to collect a delinquent debt owed to the Government. Creditor agencies submit information about delinquent debts to Treasury, which maintains the information in a centralized database. Before Treasury disburses a payment, Treasury compares the payee information with the debtor information in the database. If a match occurs, the payment will be offset, in whole or part, to satisfy the debt.

2. Treasury determines how to apply collected funds to multiple debts. Treasury notifies the debtor, the creditor agency, and the paying agency when an offset occurs. Debtors must contact the creditor agency to resolve any issues related to the offset. At least 60 days before the debt is referred to Treasury, the DCO must have issued the debtor a debt notification meeting the requirements of paragraph 020505.

B. Debts Eligible for Referral to TOP. A debt that is delinquent and legally enforceable is eligible for referral to TOP. A debt is considered legally enforceable for TOP purposes if there has been a final agency determination that the debt is due, and there are no legal bars to collection through the offset of Federal payments.

C. Debts Not Eligible for Referral to TOP. An agency should not refer directly to TOP those debts that have been referred to Fiscal Service or another Treasury-designated debt collection center for cross-servicing, or to DOJ for litigation. Additionally, a debt is not eligible for referral to TOP if the debt:

1. Is owed by a debtor who has filed for bankruptcy protection or the debt has been discharged in a bankruptcy proceeding;

2. Is owed by a Federal agency;

3. Is the subject of an administrative appeal, until the appeal is concluded, and the amount of the debt is fixed;

4. Is less than $25 (including IPA charges); or

5. Is owed by a foreign entity.

D. TOP Fees. Treasury is authorized to charge fees to cover the costs of debt collection and administrative offset programs. Pursuant to TFM 4-4000, Treasury fees are added
to the outstanding debt balance. The fee is set annually, and Treasury deducts the fees from the amount offset before the residual amount is transmitted to the referring DCO.

E. Payments Eligible for Offset Under TOP

1. All Federal payments may be offset under TOP except as prohibited by law or exempted by action of the Treasury. This includes payments disbursed by Treasury, the DoD, U.S. Postal Service, and other Government disbursing agencies.

2. The following types of Federal payments are eligible for offset under TOP:

   a. IRS tax refunds;
   
   b. Retirement payments issued by OPM;
   
   c. Vendor payments;
   
   d. Federal salary payments;
   
   e. Travel advances and reimbursements;
   
   f. Certain Federal benefit payments, such as Social Security retirement and disability payments;
   
   g. Grant payments; and
   
   h. Active military and military retirement payments.

3. Federal law prohibits or limits the amount of offset for certain types of payments. For a complete list of payments that are exempt from offset under TOP, refer to TOP Exemptions.

0212 REFERRAL TO PCA

021201. Authority to Use PCA

The DCMO is the designated DoD entity that may refer debts to PCAs.

021202. Contracts for PCA Services

In order to minimize collection costs and avoid duplication of efforts, the agency should refer debts to Treasury for cross-servicing in order to obtain the services of a PCA. However, under 31 U.S.C. § 3711 and the FCCS, an agency has the option of referring a debt directly to a PCA, and not through Treasury, pursuant to a contract between the agency and the PCA. To avoid double submission to the PCA when a debt is also transferred to Treasury, Treasury must be made
aware of the direct referral to the PCA. Agency contracts with PCAs to locate delinquent debtors and recover delinquent debts must define the services and must conform to the following terms.

A. The DCO will retain the final authority to resolve disputes, compromise debts, suspend or terminate collection activity, refer debts to credit bureaus, and refer debts to DOJ for litigation. If the debt was referred to the PCA as part of Treasury’s Cross-Servicing Program, then Treasury will retain authority to compromise debts.

B. The PCA will not offer the debtor, as an incentive for repayment, the opportunity to pay the debt minus the PCA’s fee, unless the PCA is granted authorization by the DoD in advance.

C. The PCA is subject to the Privacy Act of 1974 to the extent specified in 5 U.S.C. § 552a, and to any applicable Federal or state law pertaining to debt collection practices, including, but not limited to, the Fair Debt Collection Practices Act (15 U.S.C. § 1692) and the FCCS (as applicable to the agency).

D. The PCA is required to account for all amounts collected.

E. The PCA will comply with other requirements, as appropriate, with regard to locating and contacting debtors, accepting installment payments, processing late payment charges, and returning uncollectible debts to the referring DCO.

F. Debts referred to PCAs are not subject to the requirement to transfer debts to Treasury.

021203. Funding PCA Contracts

Contracts with PCAs may be funded in accordance with fixed fee or contingent fee contracts.

A. Fixed Fee. Payment to the PCA is a set fee determined without regard to the amount collected under the contract, but only to the extent that funds are made available in advance in appropriations; or

B. Contingent Fee. Payment to the PCA is based on a provision in the contract permitting the PCA to deduct a fee, consistent with prevailing commercial practice, based on a percentage of the amount collected under the contract.

0213 REFERRALS TO THE DOJ FOR LITIGATION

021301. General

A. Unless an agency has specific statutory authority to litigate its own debts, an agency must refer debts to DOJ for litigation. Debts based on conduct in violation of antitrust laws or involving fraud, or the presentation of a false claim or misrepresentation on the part of the
debtor, or any party having an interest in the claim, must be referred to DOJ for action. Before referring a debt to DOJ for litigation, the DCO should consult with its Office of General Counsel for guidance. Also, prior to referring a debt to DOJ for litigation, a DCO must take aggressive collection action in accordance with this chapter for legally enforceable debts and must ensure the debt cannot be compromised, suspended, or terminated.

B. If a DCO intends to refer a debt to the DOJ for litigation, debts with a principal amount over $1,000,000, exclusive of IPA charges, should be referred to the responsible DOJ litigation division in Washington, D.C. Debts with a principal amount of $1,000,000 or less, exclusive of IPA charges, should be referred to the DOJ’s Nationwide Central Intake Facility as required by the Claims Collection Litigation Report (CCLR) instructions and 31 CFR 902.1. DCOs must make every effort to refer delinquent debts to DOJ for litigation within the 6-year statute of limitations for initiating lawsuits against debtors, and within 1 year after a final decision has been rendered in an administrative proceeding. Refer to paragraph 020202 for additional guidance on the time limit for litigation of a debt.

C. The Defense Security Cooperation Agency (DSCA) will determine whether or not to forward a Foreign Military Sales (FMS) arrearage to DOJ for litigation. For guidance on referring FMS arrearage, refer to Chapter 6.

021302. Minimum Amount for Referral

Generally, only non-fraud debts with a principal balance equal to or greater than $2,500 are eligible for referral to DOJ. DCOs may refer debts under $2,500, exclusive of IPA charges, to DOJ for acceptance under the following circumstances:

A. To ensure compliance with policies or programs;

B. To secure a judgment against the debtor that will be filed as a lien against the debtor’s property pursuant to 28 U.S.C. § 3201, and returned to the referring office for enforcement; or

C. To obtain payment when a debtor can pay the debt, and the Government effectively can enforce payment with due regard for the exemptions available to the debtor under Federal and state law and the judicial remedies available to the Government.

021303. Notification to Debtor

Before referring a delinquent debt to DOJ for litigation, DCOs must ensure a debt notification letter as described in paragraph 020505 was issued to the debtor and the letter indicated that if the debt could not be collected using administrative procedures, litigation could result. DCOs must ensure a copy of the debt notification letter containing this notice is provided to DOJ when referring a debt for litigation.
021304. Contact With Debtor After Referral

Once a debt has been referred to DOJ for litigation, DCO personnel are required to refrain from contact with the debtor regarding the debt. DCOs must refer debtors with inquiries to the appropriate DOJ office. A DCO must notify DOJ immediately of any payments received on a debt referred to DOJ in accordance with DOJ guidance.

021305. Documentation of Debt for the DOJ

A. The DCO, or other applicable office, must submit debts to DOJ for litigation by using a CCLR and must include a signed Certificate of Indebtedness. The DCO must complete all sections of the CCLR appropriate to the indebtedness as required by the CCLR instructions, and furnish other information or documentation to DOJ as required. The CCLR must clearly indicate what actions are being requested of DOJ (i.e., enforced collection or judgment lien).

B. A blank CCLR and instructions for completion of the report are with the DOJ. The DCO must forward the CCLR to Director, Commercial Litigation Branch, P.O. Box 875, Ben Franklin Station, Washington, D.C. 20044.

C. The CCLR must include a completed checklist or brief summary of actions taken by the DCO to collect or resolve the debt and an explanation for the omission of any administrative collection action required by the FCCS or this chapter. If the debtor’s address is unknown, the DCO must include any information required by DOJ, including a list of the debtor’s prior known addresses and an explanation of actions taken to locate the debtor. The debt referral must include the debtor’s latest credit history data, such as a commercial credit report, balance sheet, or financial statement, and must provide a recommendation that will indicate whether there is reasonable prospect of enforcing debt collection.

D. The DCO may omit credit data from the CCLR if a debtor is bankrupt, in receivership, or if the debtor’s liabilities are fully covered by insurance. If applicable, DCOs must include the identity and address of the insurer and the type and amount of insurance. Credit data also may be omitted if credit history is not available, such as for a state or local Government unit.

021306. Preservation of Evidence

The DCO must preserve all debt files and records that may be needed by DOJ to prove its case in court. DCOs should include certified copies of the documents that form the basis for the debt in the debt referral package submitted to DOJ and must provide originals of the documents if requested by DOJ.

021307. Discontinuation of DCO Actions

DOJ has exclusive jurisdiction over the debts referred to DOJ. DCOs will cease collection actions on debts referred to DOJ for litigation.
0214 DEBT COMPROMISE, SUSPENSION, AND TERMINATION

021401. General

A. Under 31 U.S.C. § 3711 and the FCCS, an agency maintains the authority to compromise, suspend, or terminate collection action. The DCO, DCMO, DMO, fund holder, or other entity involved in debt collection and management may prepare a request for compromise, suspension, or termination of collection action and submit it to the appropriate authority for approval. The approving authority may be DFAS, the DoD Component, DOJ, and/or Treasury depending on the amount of the debt. The referring office submitting the request must maintain supporting documentation pertaining to the request. A referring office may take no further action on debts referred for approval.

B. When a foreign entity owes the debt that is being considered for compromise, suspension, or termination, the following coordination policies apply.

1. The Accounts Receivable Office or the Foreign DMO must coordinate proposals to compromise, suspend, or terminate collection actions on all non-FMS foreign accounts receivable, regardless of the amount, with the applicable DoD Component fund holder.

2. DFAS Security Cooperation Accounting, in cooperation with the DoD Component, must coordinate proposals to compromise, suspend, or terminate collection actions on FMS arrearages with the DSCA.

021402. Determining Debt Amount for Compromise, Suspension, and Termination

The DCO, fund holder, or other entity involved in collection and management of the debt must determine the amount of the debt in order to submit it to the appropriate approval authority for compromise, suspension, or termination. Debts must not be subdivided in order to avoid approval requirements. The requesting entity must consider a debtor’s liability arising from a particular transaction as a single debt when determining the amount for purposes of compromise, suspension, or termination approval. The dollar amount of the debt must be computed on a contract or transaction basis (for FMS debts, the Letter of Offer and Acceptance represents a transaction). The amount of the debt used as the basis includes only the principal amount of the debt then due and does not include IPA fees.

021403. Submission to the DOJ Using the CCLR

If compromise, suspension, or termination of collection action is appropriate, and the amount of the indebtedness is within DOJ’s approval threshold level (as set forth in paragraphs 021404-021406), then DFAS or the DoD Component must refer such debts to DOJ using a CCLR. Include in the referral appropriate financial information and a recommendation for the acceptance of a compromise, suspension, or termination by DOJ. Refer to paragraph 021305 for guidance on preparation and submission of the CCLR.
A. General. Compromise is the acceptance of less than the full amount of the debt in satisfaction of the entire amount of the debt. The debtor is released from liability on the full amount of the debt if the compromise amount is paid in full. The debtor (or debtor’s representative) should submit offers of compromise to the agency in writing and should include all additional information requested by the approval authority.

B. Approval Authorities. The approval authority for an offer of debtor compromise is based on the principal amount of the debt less any IPA costs and partial payments or collection.

1. Less Than or Equal to $100,000 – Debt With DFAS. DFAS has authority to approve compromises for debts arising out of the activities of, or referred to, DFAS when the principal amount does not exceed $100,000. DFAS will coordinate a compromise approval with the fund holder.

2. Less Than or Equal to $100,000 – Debt With DoD Component. DoD Components have authority to approve compromises for debts not referred to DFAS when the principal amount does not exceed $100,000.

3. Over $100,000 – Debt is Not With Treasury. DOJ has authority to compromise debts when the principal amount exceeds $100,000, and the debt has not been referred to the Treasury Cross-Servicing Program. DOJ also maintains authority to compromise all debts greater than $500,000. Only DOJ can consider noncash compromise offers for debts exceeding $100,000. The DoD does not require DOJ approval to reject a compromise offer.

4. Less Than or Equal to $500,000 – Debt With Treasury. Treasury has authority to approve compromises for debts, which have been referred for cross-servicing, when the principal amount of the debt is less than or equal to $500,000. DOJ maintains authority to compromise all debts greater than $500,000.

5. Debts in Litigation. DFAS and DoD Components cannot approve a compromise on a debt referred to DOJ for litigation unless the debt is returned to the DoD for disposition.

C. DOJ Review of Compromise Offers Less Than or Equal to $100,000. If DFAS or the DoD Component is uncertain whether to accept a firm, written substantive compromise offer on a debt within its delegated compromise authority of $100,000 or less, they may refer the offer to DOJ using a CCLR and copies of supporting data. DOJ may act upon the offer or return it with instructions or advice.

D. Reasons for Compromise. When assessing the merits of a compromise proposal from a debtor, DCOs must obtain a current financial statement from the debtor, executed under penalty of perjury pursuant to 31 CFR 902.2(g), and a credit report or other financial
information to aid in evaluating the debtor’s assets, liabilities, income, and expenses. Possible grounds for compromise include the following:

1. **Compromise Because of Litigation Risks.** Compromise may be appropriate if there is significant doubt concerning the Government’s ability to prove its case in court. The amount accepted in a compromise agreement should reflect such factors as the complexity of the legal issues, the probability of a bona fide dispute as to the facts, the availability of witnesses and supporting evidence, and the probability of successful prosecution. In determining the litigation risks involved, DFAS or the DoD Component must consult with agency counsel to consider the probable amount of court costs and attorney fees that may be imposed against the Government if litigation is unsuccessful.

2. **Compromise Because of Debtor Inability to Pay Full Amount.** Compromise of a debt may be appropriate if the debtor is unable to pay the full amount due in a reasonable time, or if the DCO cannot collect the full amount in a reasonable time using enforced collection. The compromise amount should bear a reasonable relation to the amount that can be recovered by enforced collection procedures, while considering any exemptions that may be available to the debtor and the time the collection will take. DFAS or DoD Components must consider, as a minimum, the following factors in determining a debtor’s ability to pay the full amount of the debt:

   a. Current financial statement from the debtor, executed under penalty of perjury pursuant to 31 CFR 902.2;

   b. Credit reports and other financial information;

   c. Debtor’s age and health;

   d. Debtor’s present and potential income;

   e. Debtor’s inheritance prospects;

   f. The possibility that assets have been concealed or improperly transferred by the debtor; and

   g. The availability of assets or income that may be realized by enforced collection proceedings.

3. **Compromise Where Collection Costs Exceed Amounts Recoverable or Collection is not Anticipated.** Compromise may be appropriate if the cost of collection does not justify the costs of pursuing enforced collection of the full amount. Collection costs may be a substantial factor in the compromise of smaller debts. An amount accepted in compromise may reflect a discount for the administrative and litigation costs of collection, along with consideration for the time involved to perform collection. In determining whether the cost of collection justifies enforced collection of the full amount, DFAS or the DoD Component must consider whether
continued collection of the debt, regardless of cost, is necessary to further an enforcing principle, such as the willingness to aggressively pursue defaulting or uncooperative debtors.

E. Compromise with Joint and Several Liability. When two or more debtors are jointly and severally liable, collection against all debtors should be pursued, as appropriate. DFAS or the DoD Component may not allocate the payment of a debt between debtors and must proceed to liquidate the debt as quickly as possible. A compromise agreement with one debtor will not release the indebtedness of remaining debtors. A DCO must not consider compromise with one debtor as a precedent or as binding when determining the amount that would be required from other jointly or severally liable debtors.

F. Compromises Payable in Installments. Installment payment of compromised debts generally should not be accepted due to the administrative expense and time required for the full collection of the debt. If installment payment of a compromise is necessary, DFAS or the DoD Component must obtain a legally enforceable written agreement that stipulates immediate payment of the original debt, minus sums already paid, in the event of default. Whenever possible, the DCO should obtain a security for installment repayment agreements.

G. Enforcement. Statutory penalties, forfeitures, or debts established as an aid to enforcement and to compel compliance may be compromised as long as it does not harm present or future standards for enforcement, deterrence, or compliance.

H. Tax Consequences to the U.S. Government. In negotiating a compromise, DFAS or the DoD Component must consider the tax consequences to the Government and any inappropriate tax consequences for the debtor. The agency may consider requiring a waiver of tax loss carry-forward and tax loss carry-back rights of the debtor in the compromise agreement, as stated under 31 CFR 902.6. See 31 CFR 903.5 for reporting the discharge of an indebtedness to the IRS.

I. Mutual Releases of the Debtor and the Government. In appropriate circumstances, DFAS or the DoD Component may implement an accepted compromise in the form of a mutual release. In a mutual release, the debtor is released from further non-tax liability on the compromised debt in consideration of payment in full of the compromised amount. The Government and its officials, past and present, are released and discharged from any and all claims the debtor may have against them arising from the same transaction. In the event a mutual release is not executed when a debt is compromised, unless prohibited by law, the debtor is still deemed to have waived any and all claims and causes of action against the Government and its officials related to the transaction giving rise to the compromised debt. Sample mutual release language is as follows:

Consideration and Release of Claims Against the Department of Defense (DoD), the Creditor Agency, and the United States and Debtor. In consideration of DoD’s obligations under the agreement to compromise the debt, the Debtor hereby releases DoD, the Creditor Agency, and the United States from any and all claims arising prior to the execution of this agreement and arising out of, or related to, the receivables. This shall in no way be deemed an admission of liability by the DoD,
the Creditor Agency, or the United States or an admission of the existence of any claims against the DoD, the Creditor Agency, or the United States. The debtor is hereby released from further non-tax liability on the compromised debt in consideration of payment in full of the compromised amount. This release shall survive any termination of the agreement.

*021405. Suspension of Collection Action

A. General

Pursuant to 31 CFR 903, suspension of collection action is a determination by the agency to temporarily cease collection action.

B. Approval Authority

1. Less Than or Equal to $100,000 – Debt With DFAS. DFAS has authority to suspend collection on debts arising out of the activities of, or referred to, DFAS when the principal amount does not exceed $100,000. DFAS will coordinate suspension approval with the fund holder.

2. Less Than or Equal to $100,000 – Debt With DoD Component. DoD Components have authority to suspend collection action on debts that have not been referred to DFAS when the principal amount does not exceed $100,000.

3. Over $100,000 – Debt is Not With Treasury. DOJ has authority to suspend collection action on debts when the principal amount exceeds $100,000, and the debt is not being serviced by the Treasury Cross-Servicing Program. DOJ also has authority to suspend collection action on all debts greater than $500,000.

4. Less Than or Equal to $500,000 – Debt With Treasury. Treasury has authority to suspend collection action on debts, which have been referred for cross-servicing, when the principal amount of the debt is less than or equal to $500,000. DOJ maintains authority to suspend all debts greater than $500,000.

C. When Suspension Should Be Considered. The DCO may suspend collection action, subject to the dollar limits stated in subparagraph 021405.B, under the following conditions.

1. Location of Debtor Unknown. The debtor cannot be located.

2. Financial Condition. The debtor’s financial condition is not currently conducive to repayment, but it is expected to improve. Based on the current financial condition of the debtor, collection activity may be suspended when the debtor’s future prospects justify retention of the debt for periodic review and collection activity and:
a. Enforced collection will not be barred by the applicable statute of limitations;

b. Future collection can be made using administrative offset; or

c. The debtor agrees to pay interest on the suspended debt amount, and the suspension is likely to enhance the debtor’s ability to pay the full debt principal amount at a later date with interest.

* 3. Waiver, Remission, or Review. In most circumstances, the application for waiver or remission does not delay the collection of a debt. Generally, debt collection is delayed while a review is pending. In some circumstances, the formal suspension of a debt under 31 CFR 903 may be appropriate when a debtor requests a waiver, remission, or review of the debt (to include the timely filing of a hearing petition). The DCO may also suspend contract debts if a contractor’s request for deferment is approved. Refer to Chapter 5 for guidance on contract debt deferments. Suspension of collection activity is not appropriate if the request for waiver, remission, or review/hearing is frivolous or made primarily to delay collection. Collection activity may be suspended during the time required for consideration of the debtor’s good faith request for waiver, remission, or review/hearing of the debt if any of the following factors apply:

a. The statute under which the request is sought prohibits collection activity during that time;

b. The amount collected during that time cannot be refunded under the applicable statute;

c. There is reasonable possibility the debtor will prevail;

d. There is reasonable assurance the debt could be collected if the debtor does not prevail; or

e. Collection of debt would cause undue hardship.

4. Deceased Active Duty Service Members. Under 31 U.S.C. § 3711(f)(1), the Secretary of Defense may suspend the collection of a claim against the estate of a Service member who died while on active duty with the Army, Navy, Air Force, Marine Corps, or Coast Guard during a period when the Coast Guard is operating as a service in the Navy.

5. Bankruptcy. When a bankruptcy petition has been filed with respect to a debtor, collection activity on a debt must be suspended pursuant to 11 U.S.C. §362, 1201, or 1301, unless it can be clearly established that the automatic stay has been lifted or no longer is in effect. With the coordination and assistance of the supporting legal office, DCOs must take action to prevent disbursement of funds to the debtor until relief from the automatic stay is obtained.

6. Debts in Litigation. The DCO must suspend collection if the debt is being referred to DOJ for litigation.
D. Suspending Collection of Debts of Wounded or Injured Service Members. In accordance with 37 U.S.C. § 1007(c)(4), if a Service member, through no fault of his or her own, incurs a wound, injury, or illness while in the line of duty in a combat operation or combat zone designated by the President or the Secretary of Defense and is overpaid pay or allowances while recovering from the wound, injury, or illness, then the DCO may not collect the overpayment from the Service member’s pay until the criteria listed in Chapter 3, subparagraph 030305.C are met.

E. Delay of Collection Action for Service Members. In accordance with 37 U.S.C. § 1007(c)(3)(B), Service members subject to deductions from pay under that section may request a delay in the start of the repayment requirement to recover the indebtedness. Before beginning salary offset, the DCO will consider the reasons provided by the Service member for the requested delay, including the financial ability of the Service member to repay the indebtedness and the hardship that immediate collection would impose on the Service member and his or her dependents.

021406. Termination of Collection Action

A. General

1. Termination of collection action is a determination to cease active collection because such action is not economically worthwhile or is otherwise inappropriate. Before terminating collection, the agency should have pursued all appropriate means of collection and determined the debt is uncollectible.

2. Termination ceases active collection, but an agency may still pursue passive collection action (for example, when the debt remains secured by a judgment lien or lien interest, or is being collected through TOP). Termination results in the removal of the debt from the active collection files. Termination does not preclude the agency from retaining a record of the account for the reasons under subparagraph 021406.D. Refer to subparagraph 021406.C.8 for termination of debts discharged in bankruptcy proceedings. Refer to Volume 4, Chapter 3 for guidance on writing off debts upon termination of active collection.

B. Approval Authorities

1. Less Than or Equal to $100,000 – Debt With DFAS. DFAS has authority to terminate collection action on debts arising out of the activities of, or referred to, DFAS when the principal amount does not exceed $100,000. DFAS will coordinate with the fund holder.

2. Less Than or Equal to $100,000 – Debt With DoD Component. DoD Components have authority to terminate collection action on debts that have not been referred to DFAS when the principal amount does not exceed $100,000.

3. Over $100,000 – Debt is Not With Treasury. DOJ has authority to terminate collection action on debts when the principal amount exceeds $100,000, and the debt is
not being serviced by the Treasury Cross-Servicing Program and also has approval to terminate collection action on all debts with a principal amount greater than $500,000.

4. **Less Than or Equal to $500,000 – Debt With Treasury.** Treasury has authority to terminate collection action on debts, which have been referred for cross-servicing, when the principal amount of the debt is less than or equal to $500,000. DOJ maintains authority to terminate all debts greater than $500,000.

C. **Reasons to Terminate Collection Action.** Active collection of a debt may be terminated after all appropriate means of collection have been pursued, and a determination is made, based upon the results of collection activity, that the debt cannot be collected. The DCO may terminate collection activity under the following conditions:

1. No substantial amount can be collected using all tools available;
2. The debtor cannot be located;
3. Costs of collection are anticipated to exceed amounts recoverable;
4. The debt is subsequently found to be plainly erroneous or legally without merit;
5. Enforced collection is barred by any applicable statute of limitations;
6. Documentation indicates further collection action would be futile;
7. Subsequent to the establishment, the debt cannot be substantiated;
8. The debt has been discharged in bankruptcy. Additional guidance on termination of debts discharged in bankruptcy is found at section 0215; or
9. The Active Duty Service member is deceased. Under 31 U.S.C. § 3711(f)(1), the Secretary of Defense may terminate collection of a claim against the estate of a Service member who died while on active duty with the Army, Navy, Air Force, Marine Corps, or Coast Guard during a period when the Coast Guard is operating as a service in the Navy.

D. **Record of Terminated Accounts.** Although a debt may be terminated for collection activity, DFAS or the DoD Component must retain a record of the debt for the purposes of:

1. Selling the debt, if Treasury determines the sale is in the best interest of the United States;
2. Pursuing collection activity at a later date in case there is a change in the debtor’s status or a new collection tool becomes available;
3. Offsetting against future income or assets not available at the time of termination of collection activity; or

4. Screening future applicants for prior indebtedness.

E. Exception to Termination. When a significant enforcement policy is involved, or recovery of a judgment is a prerequisite to the imposition of administrative sanctions, debts may be referred to DOJ for litigation, even though termination of collection action otherwise might be appropriate.

F. Write-off and Close-out of Debt. Write-off is mandatory for public delinquent debt that has not been collected within 2 years of delinquency, unless documented and justified to the Office of Management and Budget in consultation with the Treasury. Write-off procedures are also necessary for debts that are below the break-even threshold. Refer to Volume 4, Chapter 3 for guidance on write-off and close-out of receivables.

021407. Debts Involving Violation of Antitrust Laws or Fraud

The policy and requirements in this chapter relating to compromise, suspension, and termination of collection activity do not apply to any debt based in whole or in part on conduct in violation of the antitrust laws. The policy and requirements also do not apply to any debt involving fraud, the presentation of a false claim, or misrepresentation on the part of the debtor or any party having an interest in the debt. Only the DOJ has the authority to compromise, suspend, or terminate collection activity on such debts. Upon identification of a debt meeting these criteria, DCOs must promptly refer the debt to DOJ for action. DOJ may return the debt to the DCO for further handling.

0215 DEBTORS INVOLVED IN BANKRUPTCY PROCEEDINGS

If the DCO learns that a bankruptcy petition has been filed by a debtor, the DCO must take immediate action to ensure the prompt termination of debt collection or processing of bankruptcy orders by referring to the following instructions.

A. Active Duty and Reserve Members. If an active duty or reserve member who owes a debt to the DoD files for bankruptcy, the DCO must refer to the instructions in Volume 7A, Chapter 50.

B. Military Retirees. If a military retiree who owes a debt to the DoD files for bankruptcy, the DCO must refer to the instructions in Volume 7B, Chapter 17.

C. Federal Civilian Employees. If a Federal civilian employee who owes a debt to the DoD files for bankruptcy, the DCO must refer to Volume 8, Chapter 8.

D. Commercial Entities. If a DoD vendor or contractor files for bankruptcy, the DCO must refer to Chapter 5, section 0508.
0216 BREAK-EVEN ANALYSIS

021601. Extent of Collection Efforts for Domestic Debts

A. General. Except for debts of foreign countries, debt accounting and collection procedures must be designed to provide information to assist in determining realistic points of diminishing returns beyond which collection efforts are not justified, and the minimum amount of a debt when no collection action at all should be undertaken. The procedures must capture the total cost of the debt collection process (both direct and indirect costs) by dollar range of debt and the total number of cases processed. Until the DCO accumulates actual cost data, it may develop cost analysis techniques for use in determining the unit cost of processing first debt notices and all other follow-up actions. When estimating costs, update the estimates periodically or when circumstances and conditions change significantly. Standardize, document, and retain the methodology utilized to estimate costs.

B. Comparison Requirements. As needed, the DCMO and DMO will make at least an annual comparison of costs incurred against amounts collected in its debt collection process to assist in the establishment of reasonable points at which the cost of further collection efforts are likely to exceed recovery. This cost comparison, however, represents but one appraisal element to consider in the analysis of when and where to terminate collection efforts. Other reviews concerning the type of debt, size, and age statistical analysis will also be performed before a final point of termination of collection action is determined. The DCO should consider the following definitions when making cost comparisons, reviews, and analysis.

1. **The Debt Collection Process.** The debt collection process includes:

   a. The preparation of the first debt notice;

   b. All follow-up actions, such as answering rebuttals, processing requests for waiver or remission, holding hearings, negotiating compromises, handling installment contracts and suspenses, processing collections, and making referrals to credit reporting and collection agencies; and

   c. The completion of the case, including maintaining the case file information until the appropriate statute of limitations expires.

2. **Direct Cost.** Direct cost includes any cost identified specifically with handling cases or accounts during the debt collection process. These costs normally consist of personnel costs, computer equipment costs, supplies, postage, and contract services.

3. **Indirect Cost.** Indirect cost includes any cost identified with the debt collection process, but which benefits that process and at least one other activity. Accumulate these costs only when they are expected to exceed 20 percent of the direct costs.
4. **Cases Processed.** The term cases processed refers to the number of cases completed or closed during the year, either by collection or write-off. Collection includes compromises and offsets from other Federal government payments.

021602. **Break-Even Analysis Format**

A break-even analysis is one method of determining realistic points at which further collection efforts are not justified. Refer to Table 2-1 for a break-even analysis format and instructions.
Figure 2-1. Civilian Sample Debt Notification for Overpayment of Pay and/or Allowances

(1)

(2)

Dear (3):

This is to inform you that you were overpaid for pay periods ending (4) through (4). The gross amount of your overpayment (including pay, taxes, benefits and other deductions) is $ (5). The Defense Finance and Accounting Service (DFAS) has adjusted your debt for any previous payments made and offsets taken and has determined that the net amount of the debt currently owed by you is $ (6). The overpayment is a result of (7). The payment was incorrect because (8). Your account was audited and the attached debt worksheet contains information detailing the overpayment.

Payment of Your Debt. Please pay the debt in full by (9), which is (10) days from the date of this letter. Your check or money order should be made payable to Treasury in the amount of $ (6). Please send your payment to DFAS-CL, ATTN: J3DCBB/555, 1240 E. 9th St., Cleveland, OH 44199-2056. If you are unable to pay the debt in one lump sum, you may agree in writing to pay the debt in regular installments by completing the enclosed Voluntary Repayment Agreement and mailing or faxing it to the address listed on the Agreement.

If You are Unable to Pay Your Debt. If you do not repay the debt in full, or do not submit a Voluntary Repayment Agreement (enclosed) within (10) days from the date of this letter, DFAS must collect the debt using other collection procedures. Beginning on (11), DFAS will initiate collection of the debt involuntarily from your pay by using salary offset procedures (payroll deductions). A maximum of 15 percent of your net disposable pay will be deducted each pay period until your debt is paid in full. The salary offset amount may fluctuate each pay period depending on your available net disposable pay. DFAS estimates that based on your current payroll information, your available disposable pay is $ (12), and 15 percent of your disposable pay is (13). Repayment of the principal amount of your debt would be completed in approximately (14) pay periods. If you retire or resign before your debt is paid in full, the entire amount of your final pay (salary and lump-sum payments) may be applied to pay off your debt. If you file for bankruptcy, you must notify DFAS as soon as possible.

Opportunities Available to You. If appropriate, you may contact your timekeeper to make time and attendance corrections, or your personnel office to make pay or allowance changes. You may inspect and/or receive copies of DFAS records related to your debt by contacting DFAS at the address listed above. If appropriate, you may request a hearing (see the enclosed instructions on “Requesting a Hearing”). You can find additional information on hearings and/or waivers at www.dfas.mil/civilianemployees/debt. If you do not wish to dispute the validity or amount of the debt, you are entitled to request a waiver of your debt (see the enclosed instructions on “Requesting a Waiver”). DFAS will promptly refund to you any amounts you have paid or that were deducted for your debt which are later waived or found not owed to the United States.

You may contact your Personnel Office or Customer Service Representative (CSR) if you have questions regarding your debt. If you have further questions about your debt, your CSR may initiate a Remedy inquiry to request information from DFAS, or you may contact the DFAS Civilian Payroll Office at 1-800-538-9043. You may also write to the DFAS Civilian Payroll Office at the addressed listed on this letter.

Sincerely,

SIGNATURE

**COLLECTION OF YOUR DEBT**

Please be aware of the following additional information concerning the collection of your debt:

**Interest and Additional Charges.** If you are unable to pay the debt in full by 30 days from the date of this notification, any unpaid portion of the debt will be considered delinquent. DFAS is authorized by law to add interest, penalties, and administrative costs to your debt if it is not paid within 30 days from the date of this letter. The rate of interest charged is at the U.S. Treasury Tax and Loan Rate and may commence on the date your debt becomes delinquent and may continue until the debt is paid in full. Additional penalties may be imposed at the rate of up to 6 percent a year, as well as administrative charges, on any unpaid portion of your debt that is delinquent for more than 90 days, commencing on the date your debt becomes delinquent and continuing until the debt is paid in full.

**Collection Action on Delinquent Debts.** If DFAS is unable to collect your debt by salary offset, DFAS may enforce repayment of your debt by using other available collection remedies such as referring your debt to a private collection agency, reporting your debt to a credit bureau, garnishing your non-Federal employment wages, or referring your debt to the U.S. Department of Justice for litigation. Debts delinquent for more than 120 days are transferred to the U.S. Department of Treasury (Treasury) for collection, and may be transferred sooner than 120 days. Treasury may offset your Federal income tax refunds or other Federal benefit payments, such as Social Security and Federal employee retirement benefits, in order to collect your debt. You may also be prohibited from being approved for a Federal loan if you do not resolve your outstanding delinquent debt.

**Collection of Federal Employee Health Benefit (FEHB) Premiums.** Your debt may be the result of an advance in salary you received when you were on leave without pay status (LWOP) or when your pay was insufficient to cover your share of your FEHB premiums. When you return to employment, or upon your pay becoming sufficient to cover the premiums, you are required to reimburse your employer for the premiums paid on your behalf. If you pay your debt with after-tax dollars using a personal check, the payment will not be subject to pre-tax treatment that would reduce your taxable income. In order to ensure the repayment will be treated on a pre-tax basis, you must select payroll deduction as your repayment method. Pursuant to OPM regulations under 5 CFR 890.502, the “catch-up” option for repaying your FEHB premiums may not be paid pursuant to a Voluntary Repayment Agreement. Premiums must be collected back each pay period at the rate your employer paid the premium for you.

**Penalties for False or Frivolous Statements.** Please be advised that if you make or provide any knowingly false or frivolous statement, representations or evidence with respect to your debt, you may be liable for penalties under the False Claims Act (31 U.S.C. § 3729-3733) or other applicable statutes, and/or criminal penalties under 18 U.S.C. § 286, 287, 1001, and 1002, and other applicable statutes. A Federal employee may also be subject to disciplinary procedures under 5 U.S.C. Chapter 75 or any other applicable statutes or regulations.

**Tax Considerations.** Per Internal Revenue Service (IRS) Publication 15, income tax withheld by DFAS in a prior calendar year cannot be adjusted. Therefore, if your overpayment occurred in a prior calendar year, you must pay back the gross amount of your debt, including any taxes previously withheld and paid on your behalf to the IRS. You may be entitled to a deduction (or credit in some cases) for the repaid wages on your income tax return for the year of repayment of your debt. If your overpayment and repayment both occur in the same calendar year, DFAS will be able to adjust your tax withholding and you will be responsible for repaying only the net overpaid amount. Upon repayment in the same calendar year, your W-2 will be adjusted to reflect your income and the associated taxes. Finally, please be aware that should your debt repayment ever become delinquent and collected by the offset of your tax refund, your spouse may file Form 8379, Injured Spouse Allocation, with the IRS to claim his or her share of the tax refund.

**Bankruptcy.** If you file for bankruptcy, you must notify DFAS as soon as possible.
Figure 2-1. Civilian Sample Debt Notification for Overpayment of Pay and/or Allowances
(Continued)

REQUESTING A HEARING

You may request a hearing to contest the validity of your debt or the amount of your debt. If your debt will be collected by involuntary salary offset (other than pursuant to a Voluntary Repayment Agreement), you may also request a hearing to contest the terms of the involuntary salary offset schedule.

Is a hearing always the first step? No. Your Personnel Office or your Customer Service Representative may answer general questions about your debt. If you request a hearing, DFAS will first perform an informal reexamination (“reconsideration”) of your pay records to validate the amount of debt you owe. DFAS will perform the reconsideration and issue written results to you. Reconsideration is an informal review performed to satisfy any doubts you may have regarding the amount or validity of your debt. A reconsideration is not a formal hearing. After considering the results of the reconsideration, you may decide not to proceed with the formal hearing process. To continue with a formal hearing, you must notify DFAS of your intent in a timely manner as noted below.

What happens during the hearing process? If you file a petition for a hearing in a timely manner, a hearing official will make a written determination regarding the validity or the amount of your debt, or will make a ruling on the proposed involuntary repayment schedule. The hearing official will consider any written statements and/or documentary evidence you submit, as well as internal agency debt files. You are entitled to a “Paper Hearing” wherein the hearing official makes a determination based on a review of the documents only, without the parties present. Rarely is an oral hearing granted and only if DFAS determines that the matter cannot be resolved by a review of the documents alone. You will receive a written decision within 60 days after filing your petition, unless the hearing official grants a delay. Collection of your debt, and any interest and penalty charges, will be suspended until the hearing official issues a written decision.

Is there a time limit for requesting a hearing? You must file a petition for a hearing within 30 days from the date of the attached debt notification letter (extended to 45 days if outside the Continental United States). If you requested records related to your debt, you must file a petition for a hearing within 45 days after the date the records are distributed. If DFAS performs a reconsideration of your debt (as explained above) and you wish to proceed with a formal hearing, you must notify DFAS within the time limit stated in the written reconsideration results you received.

What must be included in a hearing petition? Your written hearing petition must contain the following:

- Your name, daytime phone number, email address, mailing address and social security number.
- The reason for your hearing request, presented as follows:

  1) To Contest the Validity of Your Debt or the Amount of Your Debt: Provide a statement concerning why you believe the debt (or the amount of the debt) is erroneous. To support your argument, include a written summary of the facts of your case for the hearing official. Include the date and manner in which you became aware of any overpayment. Include all documentary evidence you want the hearing official to review (such as Leave and Earning Statements (LES)). Include the written testimony of any witness you wish the hearing official to consider.

  2) To Contest the Proposed Schedule for Collection of Your Debt by Involuntary Salary Offset: Provide an alternate payment schedule and a statement explaining your financial status. Provide copies of records to be considered by the hearing official.

- Sign and date your hearing petition and include your Social Security number. Identify your submission as “HEARING PETITION”

Where do I file a hearing petition? Fax your signed hearing petition and documentary evidence to 1-866-401-5849. If your hearing petition is missing information, you will receive a request to submit additional information. Failure to submit the additional information within 30 business days of notification will result in your hearing petition being dismissed. Alternatively, you may mail your hearing request and documentary evidence to DFAS Civilian Pay-IN, Dept. 6200, 8899 East 56th St., Indianapolis, IN 46249-1900.

Where do I find additional information? See DoD FMR Volume 16, Chapter 4.
REQUESTING A WAIVER

**What is a waiver?** Under 5 U.S.C. § 5584, the United States may waive its right to collect the debt you owe if collection would be against equity and good conscience and not in the best interest of the United States. The debt must be the result of an erroneous payment of pay or allowances (including travel, transportation, or relocation expenses and allowances). A debt may be waived in whole or in part. Collection of your debt generally will not be suspended during the waiver review process.

**May I apply for a waiver and simultaneously request a hearing?** No. By submitting an application for a waiver, you acknowledge that you do not intend to dispute the validity or amount of the debt. Waiver is not the proper forum to contest the validity or amount of your debt. If your waiver application includes arguments concerning the validity or amount of your debt, your application may be denied. In order to contest the validity or amount of your debt, you must file a petition for a hearing.

**Is there a time limit for filing a waiver application?** You must file a waiver application within 3 years after the erroneous payment was discovered.

**What must be included in a waiver application and where should the application be submitted?**

**DD Form 2789:** You must complete and sign DD Form 2789, “Waiver/Remission of Indebtedness Application,” available at: [http://www.dtic.mil/whs/directives/forms/eforms/dd2789.pdf](http://www.dtic.mil/whs/directives/forms/eforms/dd2789.pdf). Send the application and all supporting documents to the address in your debt letter. If your waiver application is missing information, you will receive a request to submit additional information. Failure to submit the additional information within 30 business days of notification will result in your request for waiver being closed with no action.

**Supporting Documents:**
You must include supporting documents with your waiver application. Supporting documents include, but are not limited to:
- Copies of all supporting documentation referred to in DD Form 2789.
- Copies of Leave and Earnings Statements (LESs) covering 3 pay periods prior to the overpayment(s) through 3 pay periods after the overpayment ended. If you do not have access to your LESs, you must include a statement explaining why the LESs are not available.
- Copies of Standard Forms (SF) 50s, “Notification of Personnel Action”, for the debt period (including corrections). If unavailable, include a statement from the personnel office indicating why they are not available.
- Any statement from you or any other persons in support of your application. Statements must be attested to be true and correct to the best of the individual’s knowledge and belief.
- Additional required documents by type of debt:
  - **Personnel Debts:** any job offer letter/email (if applicable).
  - **FEHB Debts:** SF-2809/SF-2810 (copy of your original enrollment form and any amendments).
  - **FEGLI Debts:** SF-2817 (copy of your original enrollment form and any amendments).
  - **Awards and Bonus Debts:** Signed agreements or contracts for bonuses and/or Voluntary Separation Incentive Program payments.
  - **Foreign Entitlement Debts:** SF-1190 (signed by an official) and Military Orders (if applicable).
  - **Time and Attendance Debts:** Time and Attendance cards for debt period.

**Where Do I Find Additional Information?** See DoD FMR Volume 16, Chapter 4.
Figure 2-1. Civilian Sample Debt Notification for Overpayment of Pay and/or Allowances (Continued)

Sample Voluntary Repayment Agreement for Civilian Payroll Indebtedness

Debt Information:

Employee’s Name ____________ SSN: ___________ Pay Blk: ______________

Debt Reason: ____________________
Sequence Number: ________________
Amount Owed: _______________
Estimated Disposable Net Amount: ______________
Estimated Deduction Amount 15% of net disposable per pay period: ____________
Code: _____ Debt Dates: ________ through _______ Creation Date: ___________
LOA: __________________________________________________________

Acknowledgement. I acknowledge that I owe the total amount indicated above due to a salary overpayment and that I am obligated to repay the debt to the United States. I understand that in the event I take no further action, 15 percent of my disposable pay will be deducted automatically beginning with the pay period stated above.

Interest. I also understand that if I decide to repay the amount owed by any method other than in a single lump-sum payment, interest at the Treasury Tax and Loan rate may be charged on the unpaid balance every month until the debt is paid in full.

Payment Obligation. I agree to repay the debt in the manner I have indicated below. Please choose one of the following repayment plans (check one):

___ Payment in Full by Check. I will repay my debt in a lump sum by check. My payment in the amount of $_____________ is enclosed. Make check payable to Treasury and mail to DFAS-CL, ATTN: J3DCBB/555, 1240 E. 9th St., CLEVELAND, OH 44199-2059 and fax this form to (317) 275-0354 (DSN 366-0354) or (866) 401-5849.

___ Payment by Salary Offset. I will repay my debt by having the payment offset from my salary. DFAS will accept the total payment amount as full and final payment of the debt, payable as follows (check one):

________ Single Payment. I wish to pay the total amount of the debt by salary offset in one payment.
Please deduct the total amount of the debt from my salary on pay period ending ___________.

________ Multiple Payments at 15% of Disposable Pay. I do not want to pay the debt all at once. I authorize DFAS to deduct the amount listed above (estimated to be 15% of my disposable pay per pay period) until the debt is paid in full.

________ Multiple Payments at More than 15% of Disposable Pay. I do not want to pay the debt all at once. I authorize DFAS to deduct $___________ each pay period, which is more than 15% of my disposable pay, until the debt is paid in full.

________ Multiple Payments at Less than 15% of Disposable Pay. Payment at the rate of 15% of my disposable pay would result in an extreme financial hardship for me. I authorize DFAS to deduct $___________ each pay period. This repayment amount has been approved by my employing agency (**Signature of agency approving official/supervisor is required below). In determining your proposed repayment amount, please be advised your debt should be repaid within 3 years, divide the amount due by 78 to determine the lowest bi-weekly payment; minimum payment amount is $25 per pay period. You may be required to submit financial statements annually whenever your repayment period exceeds 3 years.

___ Multiple Payments at Less than 15% of Disposable Pay. Payment at the rate of 15% of my disposable pay would result in an extreme financial hardship for me. I authorize DFAS to deduct $___________ each pay period. This repayment amount has been approved by my employing agency (**Signature of agency approving official/supervisor is required below). In determining your proposed repayment amount, please be advised your debt should be repaid within 3 years, divide the amount due by 78 to determine the lowest bi-weekly payment; minimum payment amount is $25 per pay period. You may be required to submit financial statements annually whenever your repayment period exceeds 3 years.
In the Event of Default. In the event I default on my obligation under this agreement, DFAS is entitled to terminate this agreement without notice. Upon termination, DFAS will retain all amounts paid. Any unpaid balance of the debt will be automatically reinstated and shall become immediately due and payable pursuant to law. DFAS is entitled to take any lawful action it deems appropriate to collect the debt without duplicating notices and opportunities for review previously provided to me, whether before or after the date of this agreement.

I have read and fully understand and agree to the terms of this agreement.

Signature of Employee: __________________________________________  Date: ______________

Daytime Telephone Number: _____________________________

**Approving Official/Supervisor/Budget Representative (for Department of Defense Education Activity Employees)
Signature (when required):

_________________________  Date: ____________

Printed Name

Submitting Your Signed Agreement. Please sign and return this repayment agreement to your payroll office. Alternatively, you may submit your signed agreement by FAX to (317) 275-0354 (DSN 366-0354) or (866) 401-5849, or by mail to DFAS-IN Dept. 6200 Civilian Pay, 8899 East 56th Street, Indianapolis, IN 46249-1900.

Rejection of an Unacceptable Agreement by DFAS. DFAS maintains the discretion to reject an unacceptable proposed repayment agreement and proceed with collection by salary offset. DFAS will notify the employee in writing in the event the repayment plan submitted by the employee is unacceptable.

THIS REPORT CONTAINS INFORMATION SUBJECT TO THE PRIVACY ACT OF 1974 AS AMENDED.

Payment Obligation. I agree to repay the debt in the manner I have indicated below. Please choose one of the following repayment plans (check one):

- I acknowledge the validity of this debt and agree to the collection of the amount due from my pay.
- I acknowledge the validity of this debt and request installment payments of the amount over a period of _______ months. I have attached a statement detailing the reasons why this debt should be prorated and not collected in one lump sum.
- I acknowledge the validity of this debt and would like to pay the debt with a cashier’s check or a money order. Please ensure the cashier’s check or money order is made out to the Disbursing Officer, [Supporting Finance/Military Pay Office] Please include this line of accounting on the check: ________________________________
- I will come to the [Supporting Finance/Military Pay Office] to discuss this matter on __________________ (Date must be prior to the suspense date on basic letter).

__________________________   ____________________
Service Member’s Signature        Date

1. Finance has identified an outstanding debt to the U.S. Government for overpayment of (name of debt) in the amount of $XXX.XX from YEARMMDD-YEARMMDD.

2. You have until the close of business of the suspense date indicated above to dispute this debt by submitting a written request for review, along with supporting documentation, to the [Supporting Finance/Military Pay Office], Collections Desk. Upon timely receipt of your request, the debt will be reviewed and a written response will be issued to you within 60 days. If your request for review and supporting documentation is not supplied by the suspense date, immediate collection action will be initiated using the 2/3 rule as set out in the Department of Defense Financial Management Regulation, Volume 16, Chapter 3. If you retire or resign before your debt is paid in full, the entire amount of your final pay (salary and lump-sum payments) may be applied to pay off your debt. An administrative fee will only be assessed if no response is received by the suspense date or the debt is paid via installments.

3. Under DoD FMR Volume 7A, Chapter 40, paragraph 400503 and Chapter 52, paragraph 520101, if the finance office is unable to collect your debts due to voluntary deductions for Thrift Savings Plan contributions and/or discretionary allotments, your allotment(s) will be stopped after the suspense date indicated on this Notification of Indebtedness, and the debt collection will commence as indicated in paragraph 2.
4. You may be eligible to apply for waiver or remission/cancellation of your debt. See attached “Collection of Your Debt” for more information. DFAS will promptly refund to you any amounts you have paid or that were deducted for your debt which are later waived, remitted, or determined not to be owed to the United States.

5. You may request an installment payment plan. A request for payment by installment is subject to the [Supporting Finance/Military Pay Office] final approval which will take into account the amount of the debt and your financial ability to pay the debt. A x% annual interest rate will be charged on any unpaid portion of the debt and an administrative fee may be assessed.

   NOTE: For any installment payment period greater than 12 months, an additional memo from your Commander is required stating a longer repayment period is needed based on your financial hardship. This memo will be forwarded to the appropriate authority for approval, with the recommendation of the [Supporting Finance/Military Pay Office]. The recommendations MUST be based on a financial hardship and allow for collection of the debt prior to the Service member’s date of separation. Any installment period that exceeds 24 months will be reviewed every 12 months, and will require the member to show continued financial hardship, or the debt will be resumed based on the above mentioned 2/3 rule in paragraph 2.

6. Request correspondence to be returned to the [Supporting Finance/Military Pay Office Address]

[Supporting Finance/Military Pay Office]

MEMORANDUM FOR COMMANDER, XXX

SUBJECT: Notice of Indebtedness

1. Select one of the following items by initialing on the line preceding your choice and sign and date where appropriate. Return this memorandum back to the [Supporting Finance/Military Pay Office] for processing by suspense date.
   _____ a. I acknowledge the validity of this debt and request lump-sum collection from my next regular pay.
   _____ b. I acknowledge the validity of this debt and request prorating of debt for ____ months. Request for installment payments less than 12 months will be subject to approval by this office. A $x\%$ annual interest rate will be charged on any unpaid portion, and an administrative fee may be assessed to the total debt.

NOTE: For any proration greater than 12 months, an additional memo from either the Unit Commander or [Applicable Senior Enlisted Advisor] is required indicating their justification of their recommendation. This memo will then be forwarded to DFAS-Indianapolis for approval with the recommendation of the Defense Military Pay Office. The recommendation MUST be based on a financial hardship and allow for debt collection prior to the member’s date of separation. Any installment agreement that exceeds 24 months will be reviewed every 12 months, and will require the member to show continued financial hardship or the debt will be resumed based on the above mentioned 2/3 rule in paragraph 2. If you retire or resign before your debt is paid in full, the entire amount of your final pay (salary and lump-sum payments) may be applied to pay off your debt.
   _____ c. I acknowledge the validity of this debt and would like to pay the debt with a cashier’s check or a money order. Please ensure the cashier’s check or money order is made out to the DISBURSING OFFICER, [Supporting Finance/Military Pay Office]. Please include this line of accounting on the check:

   _____ d. I disagree with the debt. I will contact the [Supporting Finance/Military Pay Office] PRIOR to the suspense date to dispute this debt. I request remission or cancellation.

   ____________________________  ______________________

   ____________________________  ______________________
   Commander’s Signature        Date

2. The point of contact is XXX, Collections Desk @ XXX-XXX-XXXX.

3. Finance has identified outstanding debt to the U.S. Government pertaining to [Rank] Last name, First name (last 4 of SSN], in the amount of $XXX.XX for overpayment of (name of debt) from YEARMMDD to YEARMMDD.

4. The Service member has until the close of business of the suspense date indicated above to dispute this debt and provide supporting documentation to the [Supporting Finance/Military Pay Office], Collections Desk. If supporting documentation is not supplied by the suspense date, immediate collection action will be initiated using the 2/3 rule of the Department of Defense Financial Management Regulation, Volume 16, Chapter 3. An administrative fee will ONLY be assessed on the debt if no response is received by the suspense date or the debt is repaid via installments. You are advised that you are afforded the opportunity to request payment via installments or waiver or remission/cancellation of indebtedness for erroneous payment of pay and allowances.

[Signature of Supporting Finance/Military Pay Office]
Figure 2-2. Military Sample Debt Notification for Overpayment of Pay and/or Allowances
(Continued)

COLLECTION OF YOUR DEBT

Please be aware of the following additional information that may concern the collection of your debt:

**Interest and Additional Charges.** If you are unable to pay the debt in full within 30 days from the date of this letter, any unpaid portion of the debt will be considered delinquent. DFAS is authorized by law to add interest, penalties, and administrative costs to your debt if it is not paid within 30 days from the date of this letter. The rate of interest charged is at the Treasury Tax and Loan Rate and may commence on the date your debt becomes delinquent and may continue until the debt is paid in full. Additional penalties may be imposed at the rate of up to 6 percent a year, as well as administrative charges, on any unpaid portion of your debt that is delinquent for more than 90 days, commencing on the date your debt becomes delinquent and continuing until the debt is paid in full.

**Collection Action on Delinquent Debts.** If DFAS is unable to collect your debt, DFAS may enforce repayment of your debt by using other available collection remedies such as referring your debt to a private collection agency, reporting your debt to a credit bureau, garnishing your non-Federal employment wages, or referring your debt to the U.S. Department of Justice for litigation. Debts delinquent for more than 120 days are transferred to the U.S. Department of Treasury for collection. Treasury may offset your Federal income tax refunds or other Federal benefit payments, such as Social Security and Federal employee retirement benefits, in order to collect your debt. You may also be prohibited from being approved for a Federal loan if you do not resolve your outstanding delinquent debt.

**Tax Considerations.** Pursuant to Internal Revenue Service (IRS) Publication 15, income tax withheld by DFAS in a prior calendar year cannot be adjusted. Therefore, if your overpayment occurred in a prior calendar year, you must pay back the gross amount of your debt, including any taxes previously withheld and paid on your behalf to the IRS. You may be entitled to a deduction (or credit in some cases) for the repaid wages on your income tax return for the year of repayment of your debt. Each January, DFAS will issue a tax certificate for amounts repaid toward a prior year debt that can be used for tax filing. If your overpayment and repayment both occur in the same calendar year, DFAS will be able to adjust your tax withholding and you will be responsible for repaying only the net overpaid amount. Upon repayment in the same calendar year, your W-2 will be adjusted to reflect your income and the associated taxes. Finally, please be aware that should your debt repayment ever become delinquent and collected by the offset of your tax refund, your spouse may file IRS Form 8379, Injured Spouse Allocation, with the IRS to claim his or her share of the tax refund.

**Penalties for False or Frivolous Statements.** Please be advised that if you make or provide any knowingly false or frivolous statement, representations or evidence with respect to your debt, you may be liable for penalties under the False Claims Act (31 U.S.C. § 3729 -3733) or other applicable statutes, and/or criminal penalties under 18 U.S.C. §§ 286, 287, 1001, and 1002, and other applicable statutes. A Federal employee may also be subject to disciplinary procedures under 5 U.S.C. Chapter 75 or any other applicable statutes or regulations.

**Bankruptcy.** If you file for bankruptcy, you must notify DFAS as soon as possible.

**Opportunities Available to You**

**Requesting a Review.** A debtor who questions the validity or amount of a debt may request a review and validation of the debt by the DCO. A debtor may also contest the involuntary repayment schedule. The debtor must submit a written request for a review that identifies and explains, with reasonable specificity, the facts and evidence the debtor believes supports his or her position. The request for review must be received not later than 30 days from the mailing date of the debt notification, or by the date indicated in the debt notification. There is no standardized format for a request for review; however, the request should contain debtor identifying information, the reason for requesting a review, supporting documentary evidence, and a dated signature. A debtor waives his or her right to a review if the debtor fails to submit a request in a timely manner. The DCO may accept a late request if the debtor can show that the delay was due to circumstances beyond the debtor’s control.
Requesting Records. A debtor may make a written request to the DCO for records related to the debt. A request for records must be made prior to the deadline for submitting a request for review. Within 45 days after the date the records are distributed to the debtor, the debtor must submit a written request for review to the DCO or the debtor will waive his or her right to review.

Review Procedures. The request for review must be submitted to the DCO from which the debtor received his or her debt notification and must be mailed or faxed to the address in the notification. Upon receipt of the request for review, the DCO will consider the information, and any documentary evidence contained in the debtor’s request and will perform a review and validation of the debt. The DCO must issue the written review results to the debtor.

Written Review Results. Written results should be provided within 60 calendar days.

Waiver or Remission. If appropriate, you may request a waiver of your debt. Under 5 U.S.C. § 5584, the United States may waive its right to collect the debt you owe if collection would be against equity and good conscience and not in the best interest of the United States. The debt must be the result of an erroneous payment of pay or allowances (including travel, transportation, or relocation expenses and allowances). A debt may be waived in whole or in part. Collection of your debt generally will not be suspended during the waiver review process. DFAS will promptly refund to you any amounts you have paid or that were deducted for your debt which are later waived, remitted, or determined not to be owed to the United States. See DoD FMR Volume 16, Chapter 4. Please contact your Supporting Finance/Military Pay Office for further information on waiver or remission of your debt.

</table>

Column (1) - Dollar range should be meaningful to the debt collection process. Subtotal can be placed anywhere within dollar range to relate to a particular debt collection need.

Column (2) - Total number of cases processed within this particular dollar range.

Column (3) - Original dollar amount of debts for this particular range.

Column (4) - Historical cost for this particular range or subtotal times number of cases in column (2).

Column (5) - Accumulate collections per range or subtotal.

Column (6) - Column (5) minus column (4). Break-even point is where the collections (5) are equal to the cost to collect (4).

Grand total of collections (column (5)) divided by grand total of original dollar amount (column (3)) = percent collection range for period.

CHAPTER 3

COLLECTION OF DEBTS OWED BY INDIVIDUALS TO THE DEPARTMENT OF DEFENSE (DOD)

0301 GENERAL

030101. Overview

A. This chapter pertains to the collection of debts owed to the DoD from current and retired DoD civilian employees, current members of the Military Services (active and reserve), military retirees, Survivor Benefit Plan (SBP) annuitants, and individuals who are no longer employed by DoD.

* B. This chapter does not apply to collection of debts owed by contractors, vendors, assignees, state and local governments, or foreign entities. Refer to Chapters 5 and 6. This chapter does not apply to the collection of child support, alimony, or commercial debts from the pay or salaries of DoD civilian employees or military members through garnishment or involuntary allotment. This chapter does not apply to antitrust, fraud, tax, and interagency claims. Refer to Volume 7A, Chapters 41 and 43; Volume 7B, Chapter 27; and Volume 8, Chapter 8 for guidance pertaining to garnishments and involuntary allotments.

C. This chapter does not prescribe policy and requirements for determining whether a debt exists. Such determinations are the responsibility of the particular entitlement office or other organizations (e.g., military pay office, human resources office, or transportation office).

D. For purposes of this chapter, the civilian payroll office (PRO), military pay office, and military retiree pay office are examples of debt collection offices (DCOs).

030102. Purpose

This chapter prescribes policy and requirements for the collection of debt owed to the DoD by individuals.

030103. Authoritative Guidance

DoD is required to aggressively collect debts in accordance with the following statutes, as well as other statutes and regulations expressly identified in this volume:

A. Debt Collection Improvement Act of 1996 (Public Law 104-134, Chapter 10, section 31001);

B. Debt Collection Act of 1982 (Public Law 97-365);

E. Internal Revenue Code provisions regarding the authority to make credits or refunds (26 U.S.C. § 6402);

F. Federal Claims Collection Standards (FCCS) (parts 900-904);

G. Regulations for collection by offset from indebted government employees (Title 5, Code of Federal Regulations (CFR), section 550, subpart K); and

H. Regulations for the collection of past-due support by administrative offset (31 CFR 285.1).

0302 COLLECTION OF DEBT FROM CURRENT, SEPARATING, TRANSFERRING, AND RETIRED DOD CIVILIAN EMPLOYEES

030201. General

This section prescribes policy and requirements for the collection of debt owed to DoD by current, separating, transferring, and retired DoD civilian employees due to the overpayment of civilian pay and/or allowances.

030202. Reasons for Overpayment of Civilian Pay and Allowances

Overpayments to employees may be the result of various payroll errors or adjustments. Examples include errors in computing federal withholding tax, Civil Service Retirement System (CSRS) or Federal Employees Retirement System (FERS) deductions, Social Security and/or Medicare deductions, improper rates of pay, errors in reporting time worked, or erroneously accrued and paid annual leave. These errors may be the result of action taken both inside and outside the PRO. The head of each PRO maintains the overall responsibility for ensuring that an overpayment is recovered expeditiously or that another appropriate disposition of a debt is carried out, such as waiver of the indebtedness. The head of each PRO is responsible for ensuring that employees are afforded all legal rights relative to the collection of indebtedness. Responsibilities may be delegated, in writing, to another appropriate official within the financial community.

030203. Procedures for Debt Establishment

Generally, a debt is “established,” or comes into existence, when the government agency to which it is owed determines that there is a debt and identifies the exact amount of the debt. This initial determination by the agency triggers the debt collection process. To establish a debt and prepare for collection, the PRO must:
A. Compute the amount of the overpayment and assemble agency records establishing the debt;

B. Notify the human resources office immediately if corrective personnel action is required. Continued payment of erroneous pay and allowances is not authorized and must cease immediately;

C. Provide the employee with due process before collecting an overpayment of pay and allowances, except under certain limited circumstances as set forth in Chapter 2; and

D. Correct the employee's records when appropriate.

030204. Overview of Debt Collection from Current DoD Employees

A. General

1. After determining the amount owed to the United States by a current DoD employee and establishing a debt, the PRO must determine if collection may be made using a routine pay adjustment under paragraph 030205. If the PRO cannot use a routine adjustment to collect a debt, then the PRO must contact the debtor by issuing a written debt notification that satisfies due process requirements. Refer to Chapter 2, sections 0204 and 0205 for guidance on debt notifications.

2. Upon notification, the debtor may voluntarily repay the debt in full, in one lump sum, or by installment payment arrangement (voluntary repayment agreement) with the DCO. Refer to Chapter 2, section 0207 for information regarding voluntary repayment by a debtor.

3. Alternatively, a debtor may choose to request a review of the debt by filing a petition for hearing. The DCO should stay debt collection efforts pending the outcome of the hearing. When appropriate, the debtor may also request a waiver of the debt; however, debt collection is generally not suspended during the waiver review process (refer to Chapter 4 for additional information).

4. Finally, if the civilian employee does not respond to the debt notification by voluntarily repaying the debt or submitting a request for a review or waiver, then the DCO must initiate collection by salary offset under 5 U.S.C § 5514, or under other specific statutory authority set out in Chapter 2, section 0209.

B. Case Examples. The following examples illustrate typical debt collection scenarios for civilian overpayments.

1. Routine Adjustment Example. A civilian employee was overpaid as a result of a time and attendance clerical error. The PRO established the debt owed by the employee and determined the overpayment occurred within the last four pay periods. The PRO provided the debtor with written notice that a routine adjustment was being made to the employee’s
pay. The notice appeared on the employee’s Leave and Earnings Statement (LES). The DCO recouped the overpayment from the employee’s pay.

2. **Salary Offset/Voluntary Repayment Example.** A civilian employee was overpaid for overtime 2 years ago. The PRO established the debt owed by the employee. Because more than four pay periods had elapsed since the overpayment, the PRO could not recover the debt by a routine pay adjustment. The PRO issued a debt notification letter to the employee. The employee received the notification, agreed that the debt was owed, and because the employee could not repay the debt in one lump sum, the employee negotiated a voluntary repayment agreement with the DCO.

3. **Involuntary Salary Offset/Hearing Petition Example**

   a. A civilian employee was overpaid for overtime 2 years ago. The PRO established the debt owed by the employee. Because the overpayment did not occur within the last four pay periods, the PRO cannot recover the debt by a routine pay adjustment. The PRO issued a debt notification letter to the employee. The employee received the notification and filed a hearing petition in order to contest the validity or amount of the debt.

   b. As the first step in the hearing process, the PRO performed a reconsideration of the debt and issued written results to the employee indicating that the debt had been validated after reconsideration. The PRO further instructed the employee that if he or she disagreed with the reconsideration results, the employee could request to continue with a formal hearing. The employee requested the matter be set for hearing with a hearing official. The hearing official conducted a paper hearing and issued a written determination validating the debt. The employee did not voluntarily repay after receiving the hearing official’s determination, and the PRO proceeded with salary offset at the rate of 15 percent of disposable pay. Refer to Chapter 2, subparagraph 020902.C for guidance on determining disposable pay.

030205. **Procedures for Routine Pay Adjustments**

   A. In accordance with 5 U.S.C. § 5514, DCOs are not required to provide due process procedures prior to collecting overpayments of pay and allowances using routine intra-agency pay adjustments. To collect by routine adjustment, the overpayment must have occurred within the four pay periods preceding the adjustment or amount to $50 or less. Routine adjustments may be necessary due to overpayments attributable to clerical errors, administrative errors, delays in processing pay documents, corrected or late time and attendance data, underdeduction of premiums, or incorrect personnel actions.

   B. The DCO must provide the debtor with written notice of the nature and amount of the adjustment, as well as a point of contact for questions regarding the adjustment. The information should be provided by the payday for the pay period in which the adjustment is processed, or as soon thereafter as practical. An appropriate notice on the LES meets the requirements for notification. See 5 CFR 550.1104(c).

   C. The actual overpayment must have occurred after April 26, 1996.
D. The amount deducted may not exceed 15 percent of disposable pay unless the debtor has consented in writing to a higher amount. Refer to Chapter 2, subparagraph 020902.C for guidance on computing disposable pay.

E. If a DoD debtor’s payroll account is moved from one PRO to another PRO within DoD, then the new PRO has the authority to collect an overpayment made by the former PRO using routine adjustment procedures.

F. For routine adjustments involving health or life insurance premiums, refer to paragraph 030207.

030206. Processing Debt Repayments

A. Voluntary Repayment

1. Cash Repayment. The term “cash repayment” encompasses payments by personal check, money order, or another negotiable instrument. The DCO must record the collection on a Department of Defense (DD) Form 1131, Cash Collection Voucher. The accounting data must include the appropriation or fund that funded the overpayment.

2. Payroll Deductions (Salary Offset)

   a. One-Time/Lump-Sum Deduction (Salary Offset). If an employee voluntarily requests to have the indebtedness deducted from pay, then the DCO must arrange for the employee to complete and sign a voluntary repayment agreement as shown in Chapter 2, Figure 2-1 indicating payment by lump-sum deduction. The DCO must retain the original signed agreement. If requested by the employee and agreed to by the DCO, then the DCO can defer remittance for up to two pay periods and change the agreement to reflect that adjustment. An employee may also combine a one-time deduction with a cash payment as a means of liquidating the indebtedness. If a one-time deduction does not fully liquidate the indebtedness, then the DCO must adjust the agreement accordingly.

   b. Installment Deductions (Salary Offset). If an employee is unable to repay the debt in one lump-sum repayment, then installment payments may be acceptable. The employee should complete a voluntary repayment agreement indicating repayment by salary offset using installment payments. The DCO must retain the original signed agreement. Refer to Chapter 2 for additional guidance pertaining to requesting and approving installment payment plans.

B. Involuntary Repayment by Salary Offset

1. When a debtor has either failed to pay the debt in one lump sum, has not agreed to a voluntary, one-time payroll deduction, or has not entered into an installment agreement, the DCO must recover the debt by involuntary salary offset.

2. Before initiating involuntary salary offset, the DCO must ensure the debtor was given due process pursuant to Chapter 2, section 0204, and that the debtor has not
exercised the rights listed in the debt notification letter or, having exercised one or more of those rights, was determined to be indebted. The DCO may initiate collection of a debt from final pay and lump-sum leave payments before granting due process if failure to do so would substantially prejudice DCO’s ability to collect the debt. In such cases, the DCO must afford the debtor due process as soon as practicable. For additional guidance on salary offset, refer to Chapter 2, paragraph 020902.

030207. Collection of Indebtedness Due to Underdeduction of Health or Life Insurance Premiums

A. An employee’s debt may be the result of an election or a change in coverage in the Federal Employees Health Benefit (FEHB) or Federal Employees’ Group Life Insurance (FEGLI) programs that results in the underdeduction of premiums. Collection of the debt caused by the underdeduction of premiums may be made without affording the employee full due process under 5 U.S.C. § 5514, if the amount to be collected accumulated over four pay periods or less, or the amount is $50 or less. Refer to 5 CFR 550.1104(c) for additional information.

B. In such cases, the PRO must notify the employee, either in advance or concurrently with the actual collection. The notice must indicate: (1) because of the employee's election, future salary will be reduced to cover the period between the effective date of the election/change in coverage and the first regular withholding; and (2) a point of contact for contesting the retroactive collection. An appropriate notice on the LES that includes this information meets the requirement for notification.

C. If processing delays cause the debt to accumulate over more than four pay periods, then the DCO must use the due process procedures required under 5 U.S.C. § 5514, as outlined in Chapter 2.

D. For guidance on collecting debts arising from the nonpayment of premiums when an employee is in a non-pay status, or when salary is insufficient, refer to Volume 8, Chapter 11 and the Office of Personnel Management (OPM) FEHB Handbook or FEGLI Handbook.

E. The DCO may request OPM recover past-due health insurance premiums from separated employees by requesting OPM withhold the amount due from any payment owed to the former employee from a refund or retirement annuity. The agency must submit an OPM Form 1522, Request for Offset for Health Benefits Premiums From Monies Payable Under the Civil Service Retirement System (CSRS) or the Federal Employees Retirement System (FERS) (In Lieu of Standard Form 2805), to request the offset from amounts that may be paid to the separated employee from the retirement system. See FERS Handbook, Chapter 4.

F. An employee’s health insurance plan carrier may garnish an employee’s wages to collect debts owed to the carrier following the provisions of 5 CFR, Part 582.
030208. Collection of Indebtedness from Final Salary and Lump-Sum Payments

A. Collection of a Previously Established Debt

1. Under 5 U.S.C. § 5514, when an employee separates by resignation, retirement, death, or termination of appointment, the employee’s final pay (including lump-sum leave payments) will be applied to the extent necessary to liquidate a previously established debt. The 15 percent disposable pay limitation does not apply to the offset. To recover the debt, other payments due from any source (such as amounts claimed for travel and transportation) should be applied to the debt.

2. Due process is not necessary if debt collection is already in process at the time of the employee’s separation, and the employee has previously been afforded notification of the debt and an opportunity for review. For deceased employees, any unpaid compensation due must be applied to liquidate any indebtedness with no limit on the maximum rate of collection. If a debt balance remains after offsetting and collecting the debt from the deceased employee’s final pay, the DCO should forward the debt case to the Debt and Claims Management Office (DCMO) for collection against the estate of the deceased employee. The DCO should not pursue collection of the employee’s debt from any of the employee's beneficiaries named under 5 U.S.C. § 5582.

B. Collection of a Newly Established Debt. When an employee separates by resignation, retirement, death, or termination of appointment and, upon the separation, a debt is newly established (i.e., the debt was not previously established and is not already being collected from salary under the authority of 5 U.S.C. § 5514), the DCO must collect the debt using administrative offset under 31 U.S.C. § 3716. The DCO must apply all money payable to the employee to collect the debt with no limit on the maximum rate of collection. As soon as practicable, the DCO must give the debtor notification of the debt and an opportunity for review under Chapter 2. More information may be found in 31 CFR 901.3(b)(4)(iii)(C).

C. Collection of a Debt from Severance Pay. Collection of a debt from an employee's severance pay issued under 5 U.S.C. § 5595 is permissible under 31 U.S.C. § 3716. If an employee has not previously received notification of the debt and an opportunity for review (due process) under Chapter 2, the DCO must grant notice of the debt to the debtor as soon as practicable. Refer to 31 CFR 901.3(b)(4)(iii)(C) for additional guidance. There is no limit on the maximum rate of collection, and all money due and payable to the employee is subject to offset. Severance pay represents wages credited to the employee's account; therefore, deductions taken from severance pay should be computed before the offset. The employee’s net pay amount is available for administrative offset under 31 U.S.C. § 3716. In addition, under 5 CFR 581.103, severance pay is subject to court-ordered garnishments for alimony, child support, and commercial debts.
A. General

1. This section applies to DoD employees who transfer within DoD, resulting in a change of PRO, and to employees who transfer to a non-DoD federal agency. The instructions contained in this paragraph apply regardless of the point in the debt collection cycle when the employee’s separation occurs. For example, the employee may separate while installment payments are being made, a waiver request is being considered, a petition for a hearing is pending, or the written notification of indebtedness is being prepared.

2. In general, all actions will continue upon the employee’s separation. While hearings regarding the amount of involuntary offset should be terminated upon an employee’s separation, other hearings concerning the validity or amount of a debt must continue, and a written determination should be issued. If, due to subsequent events, the indebtedness is nullified, the DCO must refund amounts withheld from both current and final pay. Refunds must be made without requiring a claim from a former employee.

B. Transfer Within DoD that Results in a Change of PRO

1. In accordance with 5 CFR, Part 550, Subpart K, the losing PRO must ensure the gaining PRO is aware of the following information, which is typically provided systemically:

   a. The identity of the indebted employee;

   b. The amount of the debt, including assessments of interest, penalties, and administrative charges (IPA), when appropriate;

   c. The accounting classification for credit;

   d. The nature of the debt and the original due date (generally 30 days from the initial notification of indebtedness);

   e. Copies of all correspondence sent to or received from the employee, including waiver requests, hearing petitions, decisions on waiver requests, and determinations of hearing officials;

   f. The original copy of any voluntary repayment agreements. If none exists, a statement of the biweekly percentage of involuntary offsets must be included;

   g. The date the right to collect the debt first occurred. Generally, this is the date the overpayment occurred. If offset has already begun, the date of the last offset will be given;
h. A statement regarding the status of any unfinished actions which may be pending. When such action is completed, the gaining PRO must be immediately advised;

i. A request that the offset be accomplished or continued; and

j. A copy of DD 2481, Request for Recovery of Debt Due the United States by Salary Offset, properly completed and certified.

2. The losing PRO must complete any pending actions involving due process or waiver and notify the gaining PRO of the outcome. Upon receipt of the required information, the gaining PRO must assume full responsibility for collection of the debt, pending receipt of previously unfinished actions. Any agreements reached regarding installment repayments or the decision not to accrue or assess IPA are binding on the gaining PRO. If the debt is subject to interest, the gaining PRO must make the necessary computations. Installment deductions already begun must continue without interruption.

C. Transfer to Another Federal Agency. When an employee transfers to another federal agency outside of DoD, the PRO/DCO should forward the debt case to the DCMO pursuant to the instructions in section 0305.

030210. Collection of Indebtedness from Retirement Funds of Former Civilian Employees

A. Action by the PRO

* 1. General. Upon retirement, if an employee is still indebted to DoD, and the amount withheld from final salary and lump-sum payments (paragraph 030208) is inadequate to satisfy the indebtedness, then the DCO may request that OPM offset the indebtedness against monies due and payable to the separated employee from the CSRS or FERS basic benefits. Such a request is in the form of a debt claim submitted to OPM by the DCO. A debt claim is the agency’s request for recovery of the debt by OPM. This practice does not apply to Nonappropriated Fund Instrumentality employees. Paragraph 030210 applies only when the former employee has been provided the due process rights found in Chapter 2. Alternatively, the PRO may submit the debt directly to the DCMO for collection action that may result in the offset of retirement funds via referral to the Treasury Offset Program. For additional information on collection of indebtedness from retirement funds, refer to 5 CFR, Part 831, Subpart R (for CSRS retirees) and 5 CFR, Part 845, Subpart A (for FERS retirees).

2. Scope. The instructions contained in subparagraph 030210.A apply to all debts that the DCO is collecting on behalf of DoD, with the exception of debts resulting from an individual's failure to pay health benefit premiums. Refer to paragraph 030207 for guidance regarding the collection of debts for health benefit premiums.

3. Notice to the Employee. Prior to sending a debt claim request to OPM, the DCO must notify the employee in writing that a debt claim is being sent to OPM to offset
the employee’s CSRS or FERS basic benefits. The letter must state the amount of the debt at separation, the amount recouped from final pay and other sources, and the balance due. The letter must inform the employee that if he or she makes full payment of the balance due, the debt will not transfer to OPM. This notice is in addition to any previous due process notification the employee should have received. Refer to Figure 3-1 for a sample notification. The DCO must provide due process to the debtor prior to submitting the debt to OPM for collection unless the DCO submits an incomplete debt claim.

4. Submission of Complete or Incomplete Debt Claims to OPM. Claims must be submitted to OPM in accordance with 5 CFR 831.1805(b)(5), 5 CFR 845.405(b)(5), and the CSRS and FERS Handbook, Chapter 4.

a. Complete Debt Claims

(1) The DCO must make a request for debt recovery to OPM by submitting a debt claim on a Standard Form (SF) 2805, Request for Recovery of Debt Due the United States, which must be prepared in duplicate. The submission must be made to OPM, Retirement and Insurance Group, Employee Service and Records Center, Boyers, PA 16017. Attach a copy of the notice sent to the employee and two copies of the following signed certifications to the SF 2805:

(a) A statement that the debt is owed to the Government;

(b) The amount and reason for the debt and whether additional interest accrues. Note that for those debts that are subject to interest beyond that already calculated, the DCO must advise OPM of the dollar value of the additional accrual;

(c) The date the Government's right to collect the debt first accrued;

(d) A statement that the PRO has complied with the applicable statutes, regulations, and OPM procedures;

(e) A statement that if a competent administrative or judicial authority issues an order directing OPM to pay the employee an amount previously paid to DoD (regardless of the reasons behind the order), then DoD will reimburse OPM or pay the employee directly within 15 days of the date of the order;

(f) A chronology of actions taken to collect the indebtedness. Copies of the correspondence are not required;

(g) The amount or percentage of the net annuity in each installment, if the collection will be in installments;
(h) A copy of the debtor’s written consent or acknowledgement if the debtor consents to the collection, or acknowledges the debt, in writing. If the debtor does not consent in writing to the offset, or has not acknowledged receipt of the due process notification, the DCO must certify that the agency has complied with any due process requirements; and

(i) A copy of the judgment if the agency has a court judgment against the debtor.

(2) OPM is aware that DCOs will not be able to obtain the employee's consent to the collection in every case; therefore, OPM will honor such claims from DCOs upon receipt of the DCO's certification. However, every attempt to obtain the employee's consent should be made if the process has resulted in a compromised amount (an amount less than the total debt) or, in the case of an annuitant, a specific monthly installment is agreed to.

b. Incomplete Debt Claims

(1) Occasionally, the DCO will not be capable of sending a complete debt claim to OPM. For example, a separation may occur before or during due process procedures, or before the actions in paragraph 030208 have been completed.

(2) In other instances, the DCO may be required to submit the indebted employee's SF 2806/3100, CSRS/FERS Individual Retirement Record, before the proper amount of offset from the employee's monthly annuity has been determined. In such cases, the DCO must notify OPM in order to prevent payment of retirement benefits to the employee. This practice is particularly important when an employee is entitled to a refund (lump-sum retirement credit) of his or her contributions. The DCO must notify OPM of the incomplete claim by making a remark in Column 8 of the SF 2806/3100. The SF 2806/3100 must include a statement that the debt is owed to the United States, the date the debt first occurred, and the basis for and the amount of the debt.

5. Transfer of Debt Case. After sending the SF 2805 to OPM, the DCO must transfer the debt to the DCMO, pursuant to section 0305.

B. Action by OPM

1. Collection of Debt Claims from Refunds. The term “refund” refers to the payment of a lump-sum retirement credit to an individual by OPM.

   a. Complete Claims

      (1) If the agency sends OPM a complete debt claim, and OPM has already issued a refund to the individual, then OPM will advise the DCO that no monies are available to recover the indebtedness. If OPM received the employee's refund application, but has not yet processed it at the time a complete claim is received, then OPM will honor the claim and make remittance to the DCO.
(2) If the employee has not applied for a refund of contributions, then OPM will advise the DCO that the debt claim will be retained pending a future refund application. If the application for a refund is received from the individual within 1 year following the date of OPM’s receipt of the SF 2805, then OPM will honor the debt claim (where no interest is due) or contact the DCO to determine the amount of interest on the debt prior to honoring the debt claim. If OPM receives the application for refund more than 1 year following OPM’s receipt of the SF 2805, then OPM will contact the DCO to verify that the debt is still current.

(3) If the PRO transferred the debt to the DCMO, then the DCO must refer such inquiries to the DCMO. If the PRO has not yet transferred the debt to the DCMO, but has not made full collection, then the DCO must contact the employee pursuant to 31 CFR 901.3(d) to provide the employee the opportunity to establish whether changed financial circumstances would make the offset unjust. The decision whether to pursue the offset or to attempt collection by other means will be made based on the employee's response. Generally, the offset must be pursued unless the success of alternative collection action is relatively certain.

b. Incomplete Claims. If the agency has submitted an incomplete debt claim to OPM, and OPM is processing the employee’s application for a refund, then OPM will withhold the amount of the debt, but will not make a payment to the agency until the claim is complete. OPM will notify the DCO to submit a completed debt claim to OPM within 120 days from the date of OPM notification. OPM may extend this deadline by an additional 60 days if the DCO so requests. Failure to meet the deadline or extended deadline, if applicable, will result in payment of the refund to the employee with no withholding for the debt.

2. Collection of Debt Claims from Annuities

a. Complete Claims

(1) When OPM receives a complete debt claim from the DCO, and an application for an annuity from the former employee, OPM will offset the annuity and pay the agency. When possible, OPM will make a one-time offset against the retiree's annuity payment in accordance with 5 CFR 831.1806 and 5 CFR 845.406. OPM will not make an installment deduction for more than 50 percent of the net annuity, unless a higher percentage is needed to satisfy a judgment against a debt within a 3-year timeframe, or the annuitant has consented to the higher amount in writing per 5 CFR 831.1807 and 5 CFR 845.407. For debts collected by installment that are subject to continuing interest payments, the DCO must advise OPM of the new amount of the debt at least 90 days prior to the final payment.

(2) Whether the debt is repaid by one-time offset or installment deductions, OPM will begin collection during the next available annuity payment following its receipt of the completed claim. If the monthly annuity payment has not yet been established, offset will begin with the first regular annuity payment. Offsets will not be made against advance annuity payments.

(3) As in the case of refunds, offsets are dependent on OPM’s receipt of the retiree’s application. Therefore, OPM will retain any SF 2805 received in
advance of a retiree’s application. If any application is received more than 1 year following receipt of the SF 2805, then OPM will contact the DCO in order to determine the current status of the debt. If the DCO has transferred the debt to the DCMO, then the DCO should refer the inquiry from OPM to the DCMO. If the DCO has not transferred the debt to the DCMO, and full collection has not been made, then the DCO must contact the employee, pursuant to 31 CFR 901.3(d), in order to provide the retiree with the opportunity to establish whether his or her changed financial circumstances would make the offset unjust.

b. Incomplete Claims. OPM will notify the DCO of an incomplete debt claim against a debtor who is receiving an annuity. OPM will not offset the annuity until the debt claim is complete. Unlike the time limits for submitting a complete debt claim against a refund, there is no time limit on submitting a complete debt claim against an annuity.

030211. Collection of Indebtedness from Former DoD Civilian Employees

PROs and DCOs must refer debts of former personnel, who are no longer DoD civilian employees (out-of-service debtors), to the DCMO pursuant to section 0305.

030212. Collection of Debts Other than Overpayment of Pay and Allowances

A. General. Pursuant to 5 CFR 550.1109, DoD component organizations external to the PRO (such as employing agencies) may request the PRO recover debts from current employees of the component by means of salary offset. Such debts originate outside of the PRO and are not due to an overpayment of pay or allowances. In general, the PRO will not review the merit of a debt originating outside the PRO.

B. Requests for Involuntary Salary Offset under 5 U.S.C. § 5514. Requests from DoD Components for involuntary salary offsets under 5 U.S.C. § 5514 for the following types of overpayments should be forwarded to the PRO on a DD 2481. The form requires certification by an appropriate official that the employee has been provided due process pursuant to Chapter 2. Salary offset is limited to 15 percent of disposable pay for the following debts:

1. Overpayment of travel allowances;

2. Report of Survey (also known as Government Property Lost or Damaged) debts (provided that procedures, as prescribed in the cognizant DoD Component regulations, are completed before invoking involuntary salary offset under 5 U.S.C. § 5514);

3. Unofficial telephone use;

4. DoD Component hospital uncollected billings;

5. Commissary store debts (such as for dishonored personal checks); and
6. Fees received for court service, such as fees received from the court for service as a juror or witness. Refer to Volume 8, Chapter 5 for additional guidance on these fees. Fees are returned to the appropriation or fund from which the employee is paid under 5 U.S.C. § 5515.

C. Requests for Salary Offset Under Other Statutory Authority

1. Collections of Unused Travel Advances (Unearned Advance Per Diem and Mileage Allowance) and Unearned Temporary Quarters Subsistence Expense. In addition to 5 U.S.C. § 5514, additional statutes authorize salary offset. The PRO should follow any specific requirements under these statutes for offset. When a statute does not provide other procedures, prior to any involuntary offset, debtors should be provided with notice of the debt and an opportunity for review. See 64 Comptroller General (Comp. Gen.) 142 (1984).

   a. Under 5 U.S.C. § 5705, a federal employee who is entitled to per diem or mileage allowances may receive a travel advance. Any amount of the travel advance that is not used for allowable expenses must be collected. The travel pay office or the employing activity must give the employee an immediate opportunity to repay any amount due in a lump sum.

   b. If the employee does not make immediate payment, offset may be made against all accrued pay, retirement credit for individuals who have left federal employment prior to being eligible for retirement, or any other amounts due the employee. The offset may be made without limitation, as long as it does not cause extreme financial hardship. Refer to Chapter 2, paragraph 020801 for guidance on determining financial hardship. The travel functional area must notify the PRO of the request for offset in writing and must provide a copy of the employee's signed repayment agreement, when applicable. The PRO must collect the debt in one lump-sum, or in installments, in accordance with the employee's signed voluntary repayment agreement or written instructions provided by the travel pay office or the employing activity.

2. Excess Costs Due to Shipment of Personal Property. A debt for excess cost is created when an employee's shipment of personal property exceeds the authorized weight allowance. A DD 2481 must be issued to the employee's PRO to request collection under 5 U.S.C. § 5724(a)(2). The collection of the excess costs from an employee's pay is considered a voluntary salary offset since the employee agreed to repay the excess costs when he or she signed DD 1299, Application for Shipment and/or Storage of Personal Property, before the actual shipment of the property.

   a. The employee may submit a written request for reconsideration of any amount due to his or her employing activity’s transportation management representative within 30 days of the debt notification.

   b. After the agency performs the reconsideration and has notified the employee of the result, the transportation management representative must notify the PRO in order to begin the collection by offset of any balance due.
3. Collection of Employee Training Expenses
   
a. When an employee fails to fulfill a training agreement, and he or she does not voluntarily repay the employing activity, collection of training expenses from the employee's pay account is authorized under 5 U.S.C. § 4108. In accordance with 5 CFR 410.309, the employing activity must give the employee the opportunity to request a reconsideration of the amount to be recovered or to request a waiver of the activity's right to recover.

   b. In order for the PRO to initiate collection by salary offset, the DoD Component training office must supply the PRO with a copy of the SF 182, Authorization, Agreement and Certification of Training, showing the employee's signed consent to the terms of the training agreement, along with a copy of the notification of indebtedness issued to the employee by the training office. The PRO must forward a copy of the SF 182 to the employee with written notification advising the employee of the payroll deduction amount.

4. Negotiation of Duplicate U.S. Department of the Treasury (Treasury) Payments
   
a. The negotiation of an original Treasury check that was replaced by a recertified check is an illegal and improper payment for purposes of pecuniary liability. The disbursing officer who issues a duplicate payment is responsible for collection of the duplicate payment from the payee.

   b. The disbursing officer must give the payee an opportunity to dispute the debt or to consent to salary offset. If the employee agrees to repayment, the disbursing officer must forward to the PRO a signed statement from the employee agreeing to voluntary collection from pay and evidence that negotiation of both instruments has occurred. The PRO must inform the employee that it will deduct the amount of the indebtedness in full from the next salary payment. If, for any reason, the disbursing officer cannot produce a written consent from the employee, then the PRO must treat the case as an overpayment and provide the employee a written debt notification and opportunity for review as required by Chapter 2. After the completion of due process requirements, if the employee does not authorize voluntary deductions, involuntary salary offset must be made under 5 U.S.C. § 5514.

5. Collection of Dishonored Personal Checks. Collect for dishonored personal checks in accordance with Volume 5, Chapter 4.

0303 COLLECTION OF DEBT FROM ACTIVE AND RESERVE MEMBERS

030301. General

This section pertains to the collection of debt owed to DoD by active and reserve military members, hereafter referred to as members. Debt collection authority for members exists both under the common law and various statutes. Much of this section discusses the authority for collection under 37 U.S.C. § 1007 and 5 U.S.C. § 5514; however, there are other debt collection authorities listed in Tables 3-1 through 3-6.
030302. Due Process Requirements

The head of the military pay office (typically the DCO) must ensure that it affords members all legal rights relative to collection of a debt due to overpayments of pay and allowances. Unless otherwise directed by statute, military members are entitled to due process, consisting of a notice and an opportunity for review, prior to the initiation of debt collection. Refer to Chapter 2 for due process requirements. Refer to Chapter 4, section 0406 for information on review opportunities for military members.

030303. Collection From Member’s Pay

B. Voluntary Repayment Encouraged. Members indebted to the United States should be encouraged to discharge their indebtedness through lump-sum cash payments. When the amount of the debt relative to the member’s ability to repay indicates that a lump-sum payment would create a financial hardship for the member, installment payments may be accepted. Members are encouraged to voluntarily accept liability for their indebtedness and to agree to a repayment schedule that adequately protects the interest of both the United States and the member. The member may authorize or request collection in greater amounts than could be collected involuntarily.

C. Collection without a Member’s Consent

1. Current Pay

   a. Current pay is available for repayment of a debt by involuntary offset (without the member’s consent) only if such recovery is expressly authorized by statute. Refer to Tables 3-1 through 3-5 for guidance and statutory authority on involuntary collection from the member’s pay.

   b. Tables 3-1 through 3-5 authorize collection to be made involuntarily when statutory authority exists for such collection. The tables also reflect the limited circumstances under which collection may be made from the member’s current pay only with a member’s consent.

2. Final Pay. When a member receives final pay on separation, indebtedness to the United States may be collected under the common law rule of offset, subject to the limitations in subparagraphs 030303.C.2.a through 030303.C.2.c and Table 3-6. Even debts that are subject to collection from current pay only with the member’s consent may be collected.
from final pay and allowances without the member’s consent. Amounts owed to a Service relief society (i.e., Army Emergency Relief, the Navy-Marine Corps Relief Society, the Air Force Aid Society, or the Coast Guard Mutual Assistance) may also be collected from final pay without the member’s consent as provided under 37 U.S.C 1007(c) and (h). Except as specified in Table 3-6, amounts are generally collectible as follows:

a. **Officers of any Service.** There is no limitation on the amount that may be deducted from an officer of any Service from his or her final separation pay;

b. **Army and Air Force Enlisted Members.** An amount due from an enlisted member of the Army or Air Force may be deducted from their final separation pay. Pursuant to 37 U.S.C. 1007(d), the appropriate rate of collection in subparagraph 030305.B applies to collection from the member’s final separation payment; and

c. **Navy and Marine Corps Enlisted Members.** There is no limitation on the amount that may be deducted from an enlisted member of the Navy or Marine Corps from his or her final separation pay.

3. **Collection of Remaining Debt Amounts.** When the entire debt cannot be offset from final separation pay, refer to section 0305 for guidance on collecting additional amounts due after separation.

030304. **Computation of Gross and Disposable Pay**

A. **Gross Pay.** Compute gross pay by adding together basic pay, all special and incentive pays, and all reenlistment bonuses. Gross pay does not include allowances or reductions in pay, such as forfeitures.

B. **Disposable Pay.** Disposable pay, when used to calculate maximum allowable deduction, is computed by deducting the following from gross pay of active duty members: Federal Insurance Contributions Act (FICA); Armed Forces Retirement Home; Federal Income Tax Withholdings (FITW); Servicemembers’ Group Life Insurance (SGLI) (including Family SGLI (FSGLI) and Traumatic SGLI (TSGLI)); and State Income Tax Withholdings (SITW). For reservists, the deductions to calculate disposable pay are: FICA; FITW; SITW; and SGLI (including FSGLI and TSGLI).

030305. **Collections by Salary Offset Under 37 U.S.C. § 1007(c)**

Section 1007(c) of Title 37 authorizes the deduction of an amount, from a member’s current pay, that the Secretary of the Military Department concerned administratively determines to be owed to the United States, or any of its instrumentalities, due to the overpayment of pay and allowances. Debts collected under 37 U.S.C. § 1007 are subject to due process requirements. Limitations on amounts subject to collection under 37 U.S.C. § 1007 are set out in subparagraph 030305.B. Two-thirds of the member’s disposable pay is the maximum amount that may be deducted from his or her monthly pay, except as provided in subparagraph 030305.B or 030303.C for final separation. Where a member of one Military Service owes a debt to another Military
Service and the creditor Service makes an administrative determination of indebtedness, the creditor Service may forward that determination, along with a certification of having complied with the appropriate instructions set forth in this section, to the military pay office servicing the member for collection action. Refer to Chapter 2, subparagraph 021405.E for guidance on delaying the start of the repayment requirement to recover the indebtedness.

A. Due Process Requirements Under 37 U.S.C. § 1007

DCOs must use the procedures set out in Chapter 2 for debts that require due process be provided to the member. The field office must initiate due process after its receipt of a management notice from the pay system, and any subsequent debt collection must be based on an appropriate repayment schedule.

B. Amount of Pay Subject to Collection

1. Collection When Member is at Fault. When the military pay office determines that an overpayment of pay or allowances is the fault of the member, the military pay office may recover the debt in monthly installments of up to two-thirds of the member’s disposable monthly pay. The member may consent to deduction of the debt at a greater percentage.

2. Collection When Member is Not at Fault. When the military pay office determines that an overpayment of pay or allowances is not the fault of the member, it is authorized to recover the debt in monthly installments.

   a. Overpayments Made On or Prior to October 28, 2009. If overpayment was made to a member on or before October 28, 2009, the military pay office will recover the overpayment in monthly installments not to exceed 20 percent of the member’s disposable pay for each month. The military pay office may deduct a greater percentage with the member’s consent.

   b. Overpayments Made After October 28, 2009. If overpayment was made to a member on or after October 29, 2009, the military pay office will recover the overpayment in monthly installments not to exceed 15 percent of the member’s disposable pay for each month. The military pay office may deduct a greater percentage with the member’s consent.

   c. Requests for Delayed Collection. For overpayments described in this subparagraph that are made on or after October 29, 2009, the military pay office is required to provide a reasonable opportunity for the member to request a delay in the imposition of the repayment requirement to recover the overpayment. Before beginning collection efforts, the military pay office must consider the reasons provided by the member for the requested delay, including the financial ability of the member to repay the indebtedness, and the hardship that immediate collection would impose on the member and the member’s dependents.
C. Collection of Combat Zone/Combat Operation Wounded Member Debts

1. If a member, through no fault of the member, incurs a wound, injury, or illness while in the line of duty in a combat operation or combat zone designated by the President or the Secretary of Defense, then any overpayment of pay or allowances made to the member while the member recovers from the wound, injury, or illness may not be deducted from the member's pay until:
   a. The member is notified of the overpayment; and
   b. The later of the following occurs:
      1) The end of the 180-day period beginning on the date of the completion of the tour of duty of the member in the combat operation or combat zone, or
      2) The end of the 90-day period beginning on the date of the reassignment of the member from a military treatment facility or another medical unit outside of the theater of operations.

2. After receiving notification of the overpayment, a member may request initiation of collection action at an earlier date. The military pay office must determine the appropriate rate of collection pursuant to subparagraph 030305.B.2 and must follow due process requirements set out in Chapter 2.

A. Debt Determination. A federal agency, other than the DoD, may determine that a member is indebted to the United States and that collection action against the member’s monthly pay under the authority of 5 U.S.C. § 5514 is warranted. The collection of a debt owed to departments and agencies other than DoD (including its instrumentalities or other uniformed services) resulting from a court judgment is included under this collection authority. The non-DoD agency must forward the request for offset through Treasury’s Cross-Servicing Program.

B. Amount of Collections. The military pay office may make collections not exceeding 15 percent of disposable pay for any pay period, unless the member authorizes a greater percentage in writing. Unsatisfied debts at discharge or retirement will be deducted from subsequent payments due the member. For additional guidance on salary offset, refer to Chapter 2, paragraph 020902.

C. Due Process. The creditor agency to which the debt is owed must provide due process to the member and must certify due process was completed if the debt is submitted to the Defense Finance and Accounting Service (DFAS) for collection. For due process procedures, refer to Chapter 2.
D. Routine Administrative Adjustment

1. In accordance with 5 U.S.C. § 5514, DCOs are not required to provide due process procedures prior to collecting overpayments of pay and allowances using routine intra-agency pay adjustments. To collect by routine adjustment, the overpayment must have occurred within the four pay periods preceding the adjustment, or amount to $50 or less. Routine adjustments may be necessary due to an overpayment attributable to clerical errors, administrative errors, delays in processing pay documents, or underdeduction of premiums, for example. The DCO must provide the debtor with written notice of the nature and amount of the adjustment, as well as a point of contact for questions regarding the adjustment. This information should be provided by the payday for the pay period in which the adjustment is processed, or as soon thereafter as practical. An appropriate notice on the LES meets the requirements for notification.

2. The actual overpayment must have occurred after April 26, 1996.

3. The amount deducted may not exceed 15 percent of disposable pay, unless the debtor has consented in writing to a higher amount. The servicing military pay office must generate a “no pay due” management notice when a debt creates a “no pay due” situation.

E. IPA Costs. Interest will be charged beginning from the date of delinquency. Assess and calculate IPA pursuant to Chapter 7, 31 U.S.C. § 3717, and 31 CFR 901.9.

030307. Indebtedness Incurred in National Guard or Reserve

When a member re-enters active Military Service, the military pay office must collect from active pay and allowances any indebtedness the member incurred while in a National Guard or Reserve status.

030308. Member Dies after Receiving Advance Salary Payment

Advance payday payments made in accordance with Volume 7A, Chapter 32 are not considered “indebtedness” if the member dies before the date through which the pay was computed and paid.

030309. Centralized Processing of Involuntary Withholding of Member’s Pay for Debts Owed to the Services’ Exchange Commands

A. Purpose and Authority. This section provides the procedures for collecting in-service debts owed to the Army and Air Force Exchange Service, the Navy Exchange Command, and the Marine Corps Exchange Command (referred to collectively as “The Exchange Commands”). This section applies when active duty, reserve, and retired military members are delinquent in the repayment of a dishonored check or their credit plan. Under 37 U.S.C. § 1007(c), an amount that a member of the uniformed services is administratively determined to owe the United States may be deducted from the member’s pay in monthly installments.
B. Procedures. When a member is indebted to a service exchange, the service exchange may forward the determination to DFAS. DFAS will honor the request based on written certification from the Exchange Command that it complied with due process requirements found in Chapter 2. If the member has not paid the debt within 60 days from the date of the debt notification letter, then the Exchange Command may submit a DD 139, Pay Adjustment Authorization, to DFAS. DFAS will collect the amount owed to the Exchange Command in accordance with the priority of pay deductions and collections in Volume 7A, Chapter 52.

C. Applicability and Scope

1. These procedures apply to the pay of Army, Navy, Air Force, and Marine Corps members serviced by the Defense Joint Military Pay System or the Marine Corps Total Force System.

2. DFAS will collect the amounts requested, as long as the total monthly amount collected, including any other debt amount being collected under 5 U.S.C. § 5514, does not exceed two-thirds of the member’s disposable pay. The military pay office must reduce monthly collection amounts if the pay due a member is insufficient to cover authorized deductions or collections. Debt collection is subject to the rules presented in Table 3-5, as well as the priority of pay deductions and collections in Volume 7A, Chapter 52.

D. General Procedures

1. Exchange Commands must certify that they provided the member due process in accordance with Chapter 2. Exchange Commands must maintain due process documentation (debt notification letters and supporting documentation) on individual delinquent debt accounts.

2. Collection of any portion of the debt remaining uncollected at the time of a member’s separation is subject to subparagraph 030305.B.

3. When a member enrolls in a credit plan, the Exchange Command must advise the member of the maximum deduction for delinquent accounts under subparagraph 030305.B. DFAS, or the field finance office, is responsible for ensuring that collections do not exceed two-thirds of the member’s monthly disposable pay.

4. If a repayment amount exceeds the maximum deduction limitation, DFAS or the servicing military pay office must adjust by inputting a transaction to change the deduction.

5. The military pay office is responsible for answering inquiries from the member on how exchange debt transactions are reflected on the LES.
E. Exchange Command Responsibilities

1. Exchange Commands must respond to all inquiries from a member concerning his or her debts and deduction amounts.

2. Exchange Commands may not deduct any amount from a member’s pay account to cover a dishonored check written by a dependent without consent of the member.

3. Exchange Commands must use a listing of basic pay rates, plus income data received from the member, to determine the amount that is equal to or less than two-thirds of the member’s pay.

4. If a member separates from active duty, or if retired pay is suspended, and the debt was not fully collected, then the Exchange Command is responsible for collecting any remaining debt. The military pay office must advise the Exchange Command that the member has separated or that the retiree’s pay has been suspended.

5. Exchange Commands are responsible for overpaid debts. When a member has overpaid a debt, the Exchange Commands must issue a refund immediately to the member for the overpayment.

6. Exchange Commands must honor a repayment agreement under which a member voluntarily agrees to repay the debt. If the member voluntarily repays the debt (off-line), then the Exchange Command must cancel the offset request and notify DFAS immediately.

7. For audit purposes, Exchange Commands must maintain and ensure the availability of all documentation pertaining to these debts.

F. System Overview

1. Once a collection action is deemed necessary, the Exchange Command must transmit a monthly update transaction requesting a pay deduction. The input should be applied to the pay account in the appropriate sequence (refer to Volume 7A, Chapter 52, Table 52-1).

2. DFAS provides new basic pay rates, or other pay data, to the Exchange Command as it becomes available.

3. During a processing month, Exchange Commands submit the electronic pay-adjustment transaction with name, social security number, total debt, and the deduction amount for the month. Exchange Commands electronically submit the information in time to adjust in the payment processing update.
4. The Exchange Command input identifies the balance due and the monthly collection amounts. If the debt is collected off-line after submitting the input, then the Exchange Command is responsible for the refund.

5. If the deduction amount input by the Exchange Command is greater than two-thirds of the member’s disposable pay (subparagraph 030304.B), then DFAS or the military pay office either changes the deduction amount or returns the debt to the Exchange Command for adjustment in amount. After the deduction is processed, DFAS must notify the Exchange Command of any adjustments.

6. The Exchange Command manages the entire debt amount internally. Exchange Commands are responsible for notifying the member of the debt balance and encouraging the member to submit payments voluntarily. DFAS provides management notices (listing) to the servicing military pay office if applicable, which identifies the member’s pay account to which the deduction is charged.

7. Rejects are downloaded to the Exchange Commands after each update. Exchange Commands are required to work rejects on a daily basis.

8. At the end of each processing month, in order to identify the affected members, DFAS sites wire-transfer the amounts deducted via electronic funds transfer to a central processing location for each Exchange Command.

0304 COLLECTION OF DEBT FROM MILITARY RETIREES AND SBP ANNUITANTS

030401. General

This section pertains to the collection of debt owed to DoD by military retirees, Retired Serviceman’s Family Protection Plan (RSFPP) annuitants, or SBP annuitants due to the overpayment of annuity payments. A debt may be the result of an overpayment to the military retiree, or an amount owed to the Government but unpaid by a military retiree. A debt may be for an overpayment of military retired pay, Concurrent Retirement and Disability Pay, Combat Related Special Compensation (CRSC), an overpayment of active duty pay and allowances, or other indebtedness arising from service on active duty.

030402. Due Process Requirements

The head of the military retiree pay office, DFAS – Retired and Annuitant Pay, must ensure that it affords military retirees all legal rights relative to the indebtedness arising from overpayments of pay and allowances, including due process under Chapter 2. This includes providing the military retiree the opportunity to request a delay in collection of the debt under 37 U.S.C. § 1007(c)(3)(B).

A. In accordance with 5 U.S.C. § 5514, DCOs are not required to provide due process procedures prior to collecting overpayments of pay and allowances using routine intra-agency pay adjustments. To collect by routine adjustment, the overpayment must have occurred.
within the four pay periods preceding the adjustment or amount to $50 or less. Routine adjustments may be necessary due to an overpayment attributable to clerical errors, administrative errors, or delays in processing pay documents. Routine adjustments include retroactive U.S. Department of Veterans Affairs (VA) increases that may result in retirement benefit debts.

B. The DCO must provide the debtor with written notice of the nature and amount of the adjustment, as well as a point of contact for questions regarding the adjustment. The information should be provided by the payday for the pay period in which the adjustment is processed, or as soon thereafter as practical. An appropriate remark added to the Retiree Account Statement (RAS) meets the requirements for notification.

C. The actual overpayment must have occurred after April 26, 1996.

D. The amount deducted may not exceed 15 percent of disposable pay, unless the debtor has consented in writing to a higher amount. The servicing pay office must generate a “no pay due” management notice when a debt creates a “no pay due” situation.

030404. Debt Collection

A. General. When the indebtedness cannot be corrected using a routine pay adjustment, then the amount to be collected each month should be no less than $50 (unless specified by statute), or an amount reasonable in relationship to the size of the debt and the military retiree’s ability to pay. Refer to Chapter 2, paragraph 020801 for guidance on determining the financial status of the military retiree. Military retirees indebted to the United States should be encouraged to discharge their indebtedness through lump-sum repayment.

B. Authority for Involuntary Collection. A military retiree’s pay is available for repayment of indebtedness by involuntary offset without the military retiree’s consent, provided the military retiree is afforded due process under Chapter 2, as follows:

1. Debts to the DoD, or any of its instrumentalities or other uniformed services, will be deducted from pay under 37 U.S.C. § 1007(c);

2. Debts determined to be owed to another federal agency will be collected by salary offset under the authority of 5 U.S.C. § 5514;

3. Debts determined to be owed to another federal agency will be collected by administrative offset under the authority of 31 U.S.C. § 3716; and

C. Limitation on Amount of Deductions. Debt collection amounts are subject to the limitations set out in the authorizing debt collection statute. The maximum monthly amount that may be collected under 37 U.S.C. § 1007(c) is subject to the limitations under subparagraph 030305.B.
D. “No Pay Due” Notice. As a precaution to prevent avoidable hardship to the military retiree, generate a “no pay due” RAS for the military retiree when collection of a debt results in “no pay due.”

030405. Debt Transfer on Retirement

Debts incurred while the military retiree was on active duty must be transferred on retirement to the military retiree pay office. Resume collection from retirement or retainer pay. It is not necessary to repeat the due process procedures prior to resuming collection.

030406. Debt Owed to Another Military Service

When a military retiree of one Military Service (e.g., Army) owes a debt to another Military Service (e.g., Air Force), and a DCO of the creditor Service makes an administrative determination of indebtedness, the DCO may forward that determination, along with certification of compliance with due process requirements, to the DFAS Retired and Annuitant Pay for collection action.

030407. Priority of Deductions and Collections

When the pay due a military retiree is not enough to cover all authorized deductions and collections, the DFAS Retired and Annuitant Pay office must use the following priority sequence for making deductions and collections from pay:

A. Reduction of pay entitlement, which takes precedence over all other items for deduction or collection. These reductions include:

1. Readjustment pay,
2. Separation pay,
3. Severance pay,
4. Variable Separation Incentive,
5. Special Separation Benefit,
6. Reserve Special Separation Pay,
7. Forfeiture of pay, and
8. VA compensation;

B. Reimbursement to the United States, to include:

1. FITW,
2. TRICARE – Dental Plan,
3. RSFPP premiums,
4. SBP and Supplemental SBP (SSBP) premiums, and
5. Reserve Component (RC) SBP (RCSBP) premiums;

C. Involuntary repayment of indebtedness to the United States, which includes:
1. Routine adjustments and automatic collections;
2. Other overpayments of retired pay and CRSC;
3. Delinquent RSFPP, SBP, SSBP, or RCSBP costs;
4. Debts arising from active duty;
5. Debts to DoD appropriated fund activities;
6. Hospital rations issued to a member;
7. Excess cost of shipment of household goods;
8. Unpaid hospital bills for medical services furnished a dependent;
9. Court-martial fines; and
10. Debts from other departments or agencies outside DoD, including court judgments;

D. Garnishment for alimony and child support payments and Uniformed Services Former Spouses’ Protection Act payments;

E. Court-ordered bankruptcy payments under Chapter 13 of the revised Bankruptcy Code;

F. Indebtedness to a nonappropriated fund activity; and then

G. SITW.

030408. Collection of Debt from SBP Annuitants

A. General. Generally, SBP annuity overpayments are the result of one of the following: (1) the failure to reduce an annuity by the amount of disability indemnity compensation awarded by the VA, (2) the non-termination of an annuity due to ineligibility, (3) an erroneous
computation, (4) insufficient or untimely information, (5) unpaid SBP premiums, or (6) a determination by the Secretary of the Military Department concerned (or designee) that a participating member is alive after the Secretary concerned previously determined that the member was presumed dead.

B. **Liability.** An SBP annuitant is liable for any debt resulting from the overpayment of an annuity. A military retiree is liable for a debt resulting from erroneous annuity payments that were made based on the presumption of the member’s death. If the member dies before such payments are fully recovered, an annuitant who was the recipient of the annuity payments made under the presumption of death is liable for the indebtedness.

C. **Collection of Debt.** Upon discovery of an overpayment, the DCO must provide the annuitant with due process as required under Chapter 2. The DCO must advise the annuitant of the debt and the method by which the overpayment is being, or may be, liquidated. The debt may be liquidated by:

1. The annuitant making direct remittance payments to DFAS Retired and Annuitant Pay;
2. The annuitant authorizing the VA to reduce Dependency and Indemnity Compensation and remit the amount collected to DFAS Retired and Annuitant Pay; or
3. The DFAS Retired and Annuitant Pay reducing the SBP annuity payments through administrative offset as authorized by law.

0305 COLLECTION OF DEBT FROM FORMER EMPLOYEES, FORMER MEMBERS AND OTHER NON-DOD RELATED DEBTORS

030501. **General**

A. This section pertains to the collection of debts owed by individuals who are no longer employed by DoD or no longer on active duty. This section also covers individuals who were neither DoD employees nor active duty members, but who are indebted to DoD. This category of debt is referred to as “out-of-service.” If a Component’s DCO cannot collect a debt through salary offset because the debtor is not being paid by DoD, and the debtor has not agreed to pay the debt in a lump sum, then the DCO should obtain debt collection services from the DCMO. The DCMO operates and maintains the Defense Debt Management System (DDMS) to provide centralized, cost-effective, automated debt servicing and collection assistance to DCOs on delinquent debts owed to DoD by individuals who are no longer paid by DoD.

B. The DCMO may also provide collection assistance for other debts as specifically agreed to in each Service’s mission work agreement.

C. The DCMO must comply with the 31 U.S.C. § 3701-3720E and all applicable laws and regulations, including the FCCS. However, pursuant to paragraph 030504, the DCO is responsible for all due process requirements under the FCCS.
030502. Reasons for Individual Out-of-Service Debts

An out-of-service debt occurs when a debtor separates from DoD and no longer receives a salary or other payments from DoD that can be offset to collect a previously established debt. Individual out-of-service debts may also arise from overpayments, erroneous payments to other individuals, or indebtedness by the public for use of DoD’s facilities or services.

030503. Obtaining Service from the DCMO

Other DoD Components not supported by DFAS may obtain debt collection services from the DCMO. The DoD Component and the DCMO must document the services to be provided using a DD 1144, Support Agreement.

030504. DCO Responsibilities

The DCO must:

A. Initiate debt collection and ensure due process requirements (notification and opportunity for review) are met. The DCO must issue the initial bill, invoice, and/or debt notification letter to the debtor and take appropriate follow-up action. The DCO may use bills and invoices as an initial attempt at debt collection. However, generally bills and invoices do not meet the requirements of due process. The DCO must issue a debt notification letter setting out the debtor’s due process rights prior to submitting the debt to the DCMO for collection services. Although only one due process notification is required, a DCO may issue additional written demands for payment to the debtor as deemed appropriate. Refer to Chapter 2 for guidance on issuing the debt notification letter;

B. Complete any previously initiated actions such as reclamation, appeal, litigation, or foreclosure before referring delinquent, individual, out-of-service debts to the DCMO;

C. Research and verify the military or civilian status of debtors to ensure that only individual out-of-service debts are referred to the DCMO, or ensure other debts transferred are in accordance with established procedures;

D. Refer delinquent, individual, out-of-service debts that are $225 or greater to the DCMO no later than 60 days after the payment due date when the DCO has not been able to collect a debt or establish a repayment schedule with the debtor. If an individual has multiple debts all under $225, then the DCO may consolidate the debts and refer them to the DCMO as one debt package. Components that have implemented the processes and procedures defined in the Delinquent Debt Management Guidance (DDMG) should refer eligible and legally enforceable, delinquent, individual out-of-service debt over $25 to Treasury’s Bureau of the Fiscal Service Debt Management Services for further collection action where applicable. Refer to Volume 4, Chapter 3 for guidance on clearing individual out-of-service debts that are below the referral threshold;
E. For manually submitted debts, use a transmittal letter to refer eligible debts to the DCMO and to ensure that the debts are received by the DCMO (refer to paragraph 030507 for systemic referral of debts to the DCMO). Prepare the transmittal letter in duplicate and send it to the DCMO, DFAS-IN, Department 3300 (ATTN: Case Management), 8899 East 56th Street, Indianapolis, IN 46249-3300, or via email to dfas.indianapolis-in.jaa.mbx.oosdebt-debtmgmt-baselevel@mail.mil. Send new debts with transmittal letters as often as required, but at least weekly. Identify on the transmittal letter all attached debt case files by name, social security number, and amount. Include the name, email address, and telephone number for the DCO point of contact and the name and location of the office accountable for the debt. Attach a copy of all documentation and background material in the debt case files. The required documentation includes:

1. A copy of the original bill, invoice, and/or debt notification letter. In order for the DCMO to accept the debt, the debt notification letter must comply with the requirements under Chapter 2;

2. The original debt principal amount with complete accounting classification and fiscal year to credit with any collections. Include a copy of the original disbursement voucher when the debt is the result of a previous payment;

3. The date the debt became known;

4. The date the debt was due;

5. The date the debt became delinquent (usually 30 days from the date of the debt notification letter);

6. The amount of accrued IPA;

7. Copies of any follow-up correspondence between the debtor and the DCO;

8. Amounts and dates of any prior collections and the accounting classification credited. Include a copy of the collection voucher when the collection was not processed through salary offset;

9. The debtor’s branch of service or agency where formerly employed;

10. The debtor’s, sponsor’s, or beneficiary’s social security number;

11. Military status and date of separation for members or employees whose period of service or employment ended with indebtedness;

12. Copy of DD 139 for military pay debts;

13. Copy of DD 2481 for civilian employee debts; and
14. Any other relevant documentation or information regarding the debt;

F. Include in each transmittal package a certifying statement that the amounts of the debts being referred are correct and that the debts are delinquent, valid, legally enforceable, and confirm that the DCO provided the debtor with all due process requirements. DCOs referring debts electronically must also submit a debt certification statement. Figure 3-2 is a sample debt certification statement;

G. Correct any errors in debt packages returned by the DCMO for correction/additional action and send the debt package back to the DCMO;

H. Coordinate with the DCO’s supporting accounting office to ensure that it removes accountability for the referred debts from its records in accordance with the guidance in Volume 4, Chapter 3 upon receipt of the duplicate copy of the transmittal letter;

I. Maintain names, official addresses, and contact information for all witnesses to the events leading to the debt and copies of and location of physical evidence (documentation and other evidence) relating to the debt for payroll debts involving fraud, misrepresentation, or credibility, and for all non-payroll debts. Retain all investigative reports. This information is necessary in the event that the debt must be referred to Department of Justice (DOJ) for litigation; and

J. Mail any payments received from a debtor after the debt was referred to the DCMO to DFAS-IN, Department 3300 (ATTN: Case Management), 8899 East 56th Street, Indianapolis, IN 46249-3300. Include the debtor’s name and social security number so the DCMO can credit the proper account.

030505. DCMO Responsibilities

The DCMO must:

A. Assist DCOs in the centralized management of debts, including automated, centralized processing, referral to private collection agencies or to the Treasury, reporting, and accounting of debts;

B. Return uncollectible debts, debts requiring additional DCO collection action, and debts with incomplete documentation to the DCO with an explanation of the reason for the return;

C. Determine the effective date for entering the debts into DDMS, annotate the effective date on the duplicate copy of the transmittal letter, and return the duplicate copy of the transmittal letter to the DCO;

D. Pursue collection action once debts are entered in DDMS. Figure 3-3 illustrates a general overview of the individual, out-of-service, delinquent debt collection steps.
The DCMO debt services provided to the DCO include the following: issuing written demands for payment to the debtor; collecting debts; referring delinquent debts to private collection agencies for collection; reporting debts to credit bureaus; referring uncollectible, delinquent debts to Treasury for offset (see Chapter 2); and referring uncollectible debts to the DOJ for litigation. The DCMO may also process debts for compromise, suspension of collection, or termination of collection. In the case of deceased debtors, the DCMO must use DD 2840, Request for Information Regarding Deceased Debtor, to seek information from state probate courts concerning the establishment of an estate in order to pursue collection;

E. Provide the data recorded in DDMS monthly to DFAS departmental accounting offices;

F. Retain all pertinent debt documentation. Upon request, provide feedback regarding the status of debt collection to the applicable DoD Component; and

G. Provide PROs pertinent data regarding collections from former civilian employees so that the PRO may affect necessary changes (i.e., SF 2812, Report of Withholdings and Contributions for Health Benefits, Life Insurance and Retirement; SF 2806/3100; Internal Revenue Service (IRS) Form W-2, Wage and Tax Statement; and IRS Form 941, Employer’s QUARTERLY Federal Tax Return).

030506. DFAS Departmental Accounting Offices

DFAS departmental accounting offices must use DDMS to establish and maintain accountability at the departmental level for all debts referred to the DCMO. DFAS departmental accounting offices must report the transfer-out and transfer-in of these debts on Part I, Section A, Line 5.A, “Reclassified/Adjusted Amounts” on the Treasury Report on Receivables (TROR), and provide the required footnote. Components that have implemented processes defined in the DDMG must maintain accountability of debt in their systems and submit data for the TROR directly to Treasury. Volume 4, Chapter 3 contains more specific reporting requirements.

030507. Collection Assistance for System-Generated Individual Out-of-Service Debts

A. Uncollected debts over $225 maintained on the Master Military Pay Account of Active Component and RC service members that are due upon separation or retirement, debts for offset from retired pay or annuitant pay, and some other out-of-service debts are systemically referred to the DCMO. Debts being referred must be correct, valid, legally enforceable, and the DCO must have provided the debtor with all due process requirements unless there is an agreement that the DCMO will provide due process instead. Once these system-generated debts are entered in DDMS, the debts are serviced in the same manner as debts referred to the DCMO by the DCOs under paragraph 030505. Defense Retiree and Annuitant Pay System (DRAS) debts are created when payments are made after the entitlement to retired pay has ended. DRAS debts are transferred to the DCMO each month by an interface between DRAS and DDMS.
B. Components that have implemented the processes and procedures defined in the DDMG should refer eligible and legally enforceable, delinquent, individual, out-of-service debt over $25 directly to Treasury for further collection action where applicable (see Chapter 2 for guidance on referring delinquent debts to Treasury).

0306 REFUNDING PREVIOUSLY COLLECTED DEBTS AND LATE PAYMENT CHARGES

030601. Scope

This section does not pertain to refunds authorized under the Contract Disputes Act. Refer to Chapter 5 for specific guidance on contract debt.

030602. General

Refunds of collected debts may be required for a variety of reasons, but generally are based on a determination that the debt is invalid or should have been forgiven under applicable law or regulation. Payments received from debtors for principal and IPA must be refunded to the debtor when a debt is found not to be due to the Government. For example, refunds may be appropriate in instances where waiver or remission is granted, when a post-collection clarification changes the debt amount, or as a result of an administrative or judicial order. A refund may also be appropriate if collection from an employee’s pay exceeds the allowable percentage of disposable pay due to an error in computation. If an offset mistakenly exceeds 15 percent of disposable pay when the debtor has not consented to deductions at a greater percentage, then the DCO must refund the difference to the debtor upon the debtor’s request.

030603. Payment Voucher for Refunds

When making a refund payment, the DoD Component or DCO must prepare a SF 1034, Public Voucher for Purchases and Services Other Than Personal, or other approved voucher, and submit it for payment to the disbursing office. Documentation from the debtor or other source(s) that establishes the claim for a refund must accompany the voucher. The DoD Component or DCO must retain a copy of the voucher and supporting documentation in the debtor’s case file.

030604. Refunds Available for Administrative Offset

Refunds of amounts previously collected may be applied to other, unrelated outstanding debts the debtor may owe to the Government, as long as due process has been provided.

030605. Determination of Refund Amount

The amount refunded to the debtor may include money that was originally collected for principal and IPA, or if the debt was collected by Treasury and/or a private collection agency, any additional fees imposed by those entities must be considered for inclusion in the refund. Treasury and private collection agencies retain any fees assessed for the collection of the debt. However, the amount refunded to the debtor must be the total amount collected, including any fees assessed.
by the Treasury and/or private collection agencies. The debtor should receive a full refund even though fees imposed by Treasury or private collection agencies may not be returned to the referring DCO. Interest is not paid on refunds unless the refund is the result of a personnel action and interest is ordered to be paid under the Back Pay Due to Unjustified Personnel Action at 5 U.S.C. § 5596.

030606. Funding the Payment of Collected Debt Refunds

Refer to Volume 4, Chapter 3 for guidance on which appropriation(s) to charge when refunding amounts collected for principal debt and IPA.
(1)  

(2)  

Dear (3):  

Our records indicate that you are separating from Federal service. On (4), you were notified that you were overpaid for pay periods ending (5)-(6) in the gross amount of (7). The remaining balance of your debt is (8), after all prior payments and offsets, and after collection from your final pay.

**Payment of the Balance Due on Your Debt.** Please pay the balance due of your debt in full by (9), which is 30 days from the date of this letter. Your check or money order should be made payable to DFAS-CL DSSN 8522 in the amount of (8). Please send your payment to DFAS-CL, ATTN: J3DCBB/555, 1240 E. 9th St., Cleveland, OH 44199-9555.

If you do not pay the balance due on your debt within 30 days, your debt will be forwarded to the Office of Personnel Management (OPM) for recovery by offset from Civil Service Retirement System (CSRS) or Federal Employees Retirement System (FERS) basic retirement or disability benefits paid to you. DFAS will not forward your debt to OPM if you pay the remaining balance due within 30 days from the date of this letter. The DFAS Debt and Claims Management Office will continue to pursue the collection of your debt after you leave Federal service.

If you have further questions regarding this debt contact the Indebtedness Processing Team at (800) 538-9043.

Sincerely,

(10)

(11)

**DEBT CERTIFICATION STATEMENT**

Pursuant to Title 28, United States Code, Section 1746 *(28 U.S.C. § 1746)*, I certify under the penalty of perjury that to the best of my knowledge and belief that the debts submitted herewith are delinquent, valid, and legally enforceable in the amounts stated. The debts are not subject to any circumstances that legally preclude or bar collection, including collection by offset. The debtor has been afforded all due process rights, including notification and an opportunity for review under 31, U.S.C. § 3716. Records available do not show that any debtor owing a debt has filed for bankruptcy protection.

Office Symbol:_________________________

**PREPARATION AND SUBMISSION INSTRUCTIONS**

**REQUIRED SIGNATORY:** The submitting office’s director, deputy director, or designee.

**MANUAL DEBT SUBMISSION:** Prepare and send a copy of the Certification Statement along with each manual submission of debts.

**ELECTRONIC DEBT SUBMISSION:** Prepare and mail a copy of the Certification Statement to cover the electronic submission of debts to: DCMO, DFAS-IN, Department 3300 (ATTN: Debt Establishment), 8899 E. 56th Street, Indianapolis, IN 46249-3300. Prepare and mail a new Certification Statement whenever the signatory changes. For those periodic electronic debt submissions when it is not necessary to reissue and mail a paper copy Certification Statement (i.e., no change in signatory), e-mail the Certification Statement to cover the electronically transmitted debts. Contact the DCMO to obtain the current e-mail address for submission of e-mailed certifications.

NOTES:
1. The number of days depicted in this chart reflects the approximate number of days that a debt has been recorded in DDMS.
2. Interest is accrued and assessed monthly throughout the life of a delinquent debt.
3. Debts are reported to credit bureaus no earlier than 60 days from the date the debtor is notified of the intention to report the debt to a credit bureau. The DCMO includes this notice in the initial letter to the debtor (Day 2).
4. Refer to Chapter 2 for thresholds to refer debts to DOJ.
5. Refer to Volume 4, Chapter 3 for guidance on write-off and classification of debt as CNC.
6. Refer to Volume 4, Chapter 3 for guidance on the close-out of debts.

</tr>
</tbody>
</table>

NOTES:
1. Applies to officers who hold in trust sums or balances of public money for which they are required to account, such as disbursing officers and deputies or agents to disbursing officers.
2. A mere acknowledgment or report of a shortage in accordance with Military Service regulations is not an admission for the purpose of this rule. The phrase “debt is admitted” means either a written statement made by the accountable officer admitting indebtedness, acknowledged or witnessed before a person authorized to administer oaths, or another person designated by higher authority, or if the accountable officer refuses to sign a statement, then a certification by a commissioned officer that the accountable officer clearly and unequivocally admitted the indebtedness is sufficient to authorize the withholding from officer’s current pay.
3. If exact amount of debt is not known at the time the loss is discovered, then establish the debt at the amount then known and adjust when investigation is completed.
4. Applies to enlisted members who are entrusted with public funds. It includes military postal clerks and members who, though not bonded, are entrusted with public funds for small purchases.

</table>

NOTES:
1. For Army and Air Force enlisted members that do not exceed the maximum limitation specified in paragraph 030305. This limitation does not apply to enlisted members whose accounts are being settled on discharge for fraud, desertion, or because of mental incompetence.
2. For enlisted members, travel allowances remaining due after the completion of separation travel may be collected.
3. For members transferring to the Retired Reserve and receiving Reservists' Special Separation Pay (RSSP), the entire amount of the RSSP payment(s) is available for offset.
4. If indebtedness is a result of an unfulfilled bonus agreement, and separation is under the Special Separation Benefit (SSB) or Voluntary Separation Incentive (VSI) program, then refer to Volume 7A, Chapter 35 for VSI or Volume 7B, Chapter 4 for SSB.
5. Do not exceed maximum limitation specified in subparagraph 030305.B.
6. In unusual circumstances, the initiation of collection action of travel advances pursuant to a consent agreement may be delayed if the delay is approved by the Director, DFAS (or designee). However, the repayment period will, in all cases, be scheduled to repay the advance before the member's expected date of separation.

CHAPTER 4

HEARINGS, INFORMAL DISPUTES, WAIVERS, AND REMISSIONS OF DEBT OWED BY INDIVIDUALS

0401 GENERAL

040101. Purpose

This chapter provides policy and requirements pertaining to the submission and processing of petitions for hearings to dispute debt owed by individuals, as well as waiver and remission applications. This chapter does not apply to collection of debts owed by contractors, vendors, assignees, state and local governments, or foreign entities. For guidance on disputed contractor debts, refer to Chapter 5. This chapter does not apply to the collection of child support, alimony, or commercial debts from the pay or salaries of Department of Defense (DoD) civilian employees or military members through garnishment or involuntary allotment. This chapter also does not apply to antitrust, fraud, tax, and interagency claims. See Volume 7A, Chapters 41 and 43; Volume 7B, Chapter 27; and Volume 8, Chapter 8 for guidance pertaining to other collections, including garnishments, child support, and collections from non-DoD, Federal entities.

040102. Authoritative Guidance

DoD is required to aggressively collect debts in accordance with the following statutes, as well as other statutes and regulations expressly identified in this volume:

A. Debt Collection Improvement Act of 1996 (Public Law 104-134, Chapter 10, section 31001);

B. Debt Collection Act of 1982 (Public Law 97-365);

E. Internal Revenue Code provisions regarding the authority to make credits or refunds (26 U.S.C. § 6402);

F. Federal Claims Collection Standards (Title 31, Code of Federal Regulations (CFR), parts 900-904);

G. Regulations for collection by offset from indebted government employees (5 CFR 550, subpart K); and

H. Regulations for the collection of past-due support by administrative offset (31 CFR 285.1).
0402  NON-WAIVER OF RIGHTS BY PAYMENT

A debtor’s involuntary payment of all or any portion of a debt must not be construed as a waiver of any rights that the debtor may have under 5 U.S.C. § 5514 or any other provision of a contract or law unless there are statutory or contractual provisions to the contrary. Title 5, CFR 550.1104(o) provides additional information.

*040301. General

A. Debtors under this Section. For the purposes of section 0403, a debtor is an individual, other than an active duty Service member (unless otherwise indicated), who owes a debt to DoD, subject to involuntary offset under 5 U.S.C. § 5514 and 31 U.S.C. § 3716.

B. Requirement for Hearings. Hearings conducted by a hearing official are required prior to salary offset under 5 U.S.C. § 5514. Prior to administrative offset under 31 U.S.C. § 3716, a review by an agency official is legally sufficient, unless a hearing before a hearing official is granted under subparagraph 040303.C.2.a, pursuant to 31 CFR 901.3(e). Defense Finance and Accounting Service (DFAS), in its sole discretion, may perform hearings in other circumstances as it deems necessary.

C. Active Service Members. Due process review procedures for the debts of active duty Service members are set out at section 0406. However, see subparagraph 040301.E for Financial Liability Investigation of Property Loss (FLIPL) hearing procedures for FLIPL debts involving active duty Service members.

D. Due Process Requirement. Granting a debtor the opportunity for a hearing is a due process requirement of 5 U.S.C. § 5514 and 31 U.S.C. § 3716. Debtors must be afforded the opportunity to dispute a debt prior to the initiation of involuntary offset to collect indebtedness due the U.S. Government, except in those instances listed in subparagraph 040301.H. See 5 CFR 550.1104, 31 CFR 285.5, and 31 CFR 901.3. A debtor who repays a debt in part or in full, either before or after the filing of a timely hearing petition, does not waive his or her right to a hearing. Debtors may petition for a hearing to contest either the validity or amount of the debt or the involuntary repayment schedule. Generally, all issues requiring a hearing will be consolidated and decided in one hearing.

E. Scope of FLIPL Hearings. The DFAS Debt and Claims Management Office (DCMO) performs hearings involving FLIPL debts for both civilians and active Service members. For hearings involving FLIPL debts, the scope of a debtor’s hearing before DCMO is limited to a review of the amount of the debt and/or the rate of collection for purposes of salary offset requirements under 5 U.S.C. § 5514 and Army Regulation 735-5. The hearing official’s determination regarding the amount of the debt is based on the finding in the approving authority’s FLIPL report. The hearing official will not issue a decision that results in the substitution of his or her judgment regarding the interpretation of policies and regulations as applied by the approving
authority. The hearing official will make a determination verifying the amount of the debt submitted for collection matches that of the investigation and the approving authority’s final determination.

* F. **Hearing Petition.** To request a hearing, the debtor must submit, in a timely manner, a hearing petition which meets the requirements of subparagraph 040302.B. The timely filing of a hearing petition will stay the beginning of collection procedures until the results of the hearing have been rendered, unless collection is deemed necessary to protect the Government’s interests.

G. **Reconsideration Performed Prior to Hearing.** Upon receipt of the hearing petition, the Debt Collection Office (DCO) must perform a reconsideration of the debtor’s records to validate the debt. Reconsideration is an informal examination of internal debt records by the DCO to validate the debt without appointment of a hearing official and is the first step in the hearing process. It is not the formal hearing (see subparagraph 040302.C.2). The DCO must issue the written reconsideration results to the debtor. Once the debtor receives the results, he or she must notify the DCO of his or her intent to continue with a formal hearing within 30 days from the date of the reconsideration, or by the date indicated in the reconsideration letter. If the debtor proceeds with a formal hearing, a hearing will be held by a hearing official who will make a written determination regarding the validity or amount of the debt, or on the proposed involuntary repayment schedule.

H. **Exception to Requirement for Formal Notice, Hearing, Reconsideration Results, and Final Decision.** Pursuant to 5 CFR 550.1104(c), a debtor is not entitled to a formal notice, hearing, reconsideration results, or a final decision under certain circumstances.

1. **Underdeduction for Life or Health Insurance Premiums.** A DoD civilian employee is not entitled to a formal notice, hearing, reconsideration results, or a final decision prior to offset of a debt related to the underdeduction of health or life insurance premiums if the amount to be recovered accumulated over 4 pay periods or less. Chapter 3 contains guidance for the collection of such premiums.

2. **Routine Pay Adjustments.** A DoD civilian employee is not entitled to a formal notice, hearing, reconsideration results, or a final decision prior to a routine intra-agency pay adjustment to collect overpayments of pay and allowances identified as having occurred within the 4 pay periods preceding the adjustment, or for any adjustments that amount to $50 or less. Refer to Chapter 2 for notification requirements for routine pay adjustments. While the employee must be provided, in the notice, a point of contact for contesting the adjustment, in these circumstances, a post-deprivation due process hearing is not required.

040302. **Hearing Petitions**

A. **Filing a Hearing Petition**

1. The debtor must file a petition to request a hearing in order to contest the validity or amount of the debt or to contest the involuntary repayment schedule. See 5 CFR
550.1104(e) and 31 CFR 901.2(b)(1). The debtor must file the petition in accordance with the instructions provided by the DCO in the debt notification letter. The debtor must file the hearing petition no later than 30 calendar days from the mailing date of the debt notification, or by the date indicated in the debt notification.

2. A debtor who wishes to contest an involuntary repayment schedule must file a hearing petition no later than 30 calendar days from the mailing date of a notice rejecting an unacceptable voluntary repayment agreement, or by the date indicated in the notice.

3. If the debtor first makes a written request for records related to the debt, then the debtor must file a hearing petition within 45 days after the date the records are distributed (by mail, electronically, or in person) to the debtor.

B. Content of Hearing Petition. A hearing petition must identify and explain, with reasonable specificity, the facts and evidence the debtor believes supports his or her position. There is no standardized format for a hearing petition; however, the petition must contain the following information:

1. Identifying information. The petition must include information such as a name, telephone number, email address, mailing address, and social security number of the debtor.

2. Reason for Filing the Petition/Basis of the Dispute. A hearing petition should include a written summary of the facts and the date and manner in which the debtor became aware of the overpayment. The debtor must indicate the basis for disputing the debt. If contesting an involuntary repayment schedule, then the petition should include a statement explaining the debtor’s financial status.

3. Documentary Evidence. A hearing petition should include all documentary evidence the debtor wants the hearing official to review, including Leave and Earnings Statements (LES) and written testimony from any witnesses. If the debtor is contesting an involuntary repayment schedule, then the debtor should submit an alternate schedule and statement and/or records explaining his or her financial status.

4. Signature and Date. A hearing petition must be signed and dated by the debtor.

C. Action by the DCO on Hearing Petitions

1. Determine Whether Hearing Petition is Sufficient and Timely. The DCO should review the hearing petition to ensure it contains all required information and to ensure it was submitted in a timely manner. For insufficient or untimely hearing petitions, the DCO should take the following actions:

   a. Insufficient Hearing Petition. The DCO is responsible for reviewing the hearing petition for sufficiency based on the requirements of subparagraph
040302.B. The DCO must retain and identify as insufficient any hearing petitions that do not contain the required information. The DCO must notify the debtor in writing that his or her hearing petition was insufficient, and request that the debtor submit additional information within 30 days from the date of the written notice of insufficiency. The DCO must advise the debtor that if he or she fails to submit additional information within 30 days of the written notice of insufficiency, the hearing request will be denied.

b. Untimely Hearing Petition. A debtor waives his or her right to a hearing if the debtor fails to file a hearing petition within 30 days from the mailing date of the debt notification or by the date indicated in the debt notification or notice rejecting an unacceptable voluntary repayment agreement. An untimely petition will result in denial of the hearing request. The DCO must notify the debtor in writing of the denial. If the debtor files a hearing petition after the time expires, the DCO may accept a late petition if the debtor can show that the delay was due to circumstances beyond the debtor’s control. A DCO should consult with its Office of General Counsel (OGC) regarding the acceptance of late petitions.

2. Perform Reconsideration. Reconsideration is the first step in the hearing process. The DCO must perform the reconsideration once the debtor submits a timely and sufficient hearing petition. Reconsideration is the informal reexamination of the debtor’s records by the DCO to validate the amount of the debt and to satisfy any doubt the debtor may have regarding the amount or validity of the debt. The DCO must determine if the debt is valid and issue the written results of the reconsideration to the debtor. See Figure 4-1 for a sample reconsideration letter.

a. Time Limit for Performing Reconsideration. The DCO should issue written results of the reconsideration to the debtor within 15 days of receipt of the hearing petition. If the DCO needs additional time to investigate the debt, the DCO should advise the debtor of the delay in writing, and include an estimate of when the debtor can expect a final determination.

b. When Reconsideration Invalidates the Debt. If the DCO determines all or part of the debt is invalid, then the reconsideration letter must inform the debtor of the finding, and the DCO must take action to adjust or dismiss the debt.

c. When Reconsideration Validates the Debt

(1) If the reconsideration validates all or part of the debt, then the reconsideration letter must inform the debtor of the finding. The DCO must inform the debtor that he or she has 30 days from the date of the reconsideration letter to inform the DCO of his or her intent to continue with a formal hearing before a hearing official.

(2) If the debtor requests the matter be forwarded to a hearing official, the DCO must forward the debt information to the DCMO for assignment to a hearing official and must stay the debt collection action. If the debtor does not respond to the reconsideration letter within 30 days, the DCO must remove the debt from disputed status and pursue the appropriate debt collection action. The DCO will initiate the debt collection by using
salary offset procedures as outlined in the original debt notification if the debtor does not respond and takes no additional action to repay the debt.

3. **Referral to DCMO for Hearing.** After performing a reconsideration of the debt, and at the debtor’s request to proceed with a hearing, the DCO must refer hearing petitions determined to be timely and sufficient to the DCMO. The DCMO is the office responsible for processing requests for hearings from individuals who are indebted to the DoD and entitled to a hearing before a hearing official. The DCO must forward the hearing petition, and all supporting documentation from the debtor, to the DCMO, DFAS/JFEA-IN, 8899 East 56th Street, Department 3300 (ATTN: Hearings), Indianapolis, IN 46249-3300.

*040303. The Hearing Process

A. **General.** All hearings are conducted in accordance with 31 CFR 901.3(e) and 5 CFR 550.1104.

B. **Hearing Officials.** Generally, DCMO hearing officials will process all requests for hearings. In the event the appointment of another hearing official is necessary, refer to the guidance in Table 4-1.

C. **Types of Hearing.** The DCMO hearing official will determine which of the following two types of hearings is most appropriate:

1. **Paper Hearing.** Generally, debtors who present a timely and sufficient petition for a hearing are entitled to a “paper hearing.” The hearing official will make a determination based on a review of the available written record, without the parties present. A paper hearing is generally adequate for making determinations concerning the validity or amount of the debt or the terms of the involuntary repayment schedule.

2. **Oral Hearing**

   a. If the hearing official, with the advice and guidance of the DFAS OGC, determines that the matter cannot be resolved by a review of the documents alone, then an oral hearing may be granted. For example, if the validity of the debt turns on an issue of credibility or veracity, then an oral hearing may be necessary. Since payroll overpayments seldom present issues of credibility or veracity, the need for oral hearings will be extremely rare.

   b. An oral hearing is not an adversarial adjudication or a trial-type evidentiary hearing. An oral hearing may include an informal conference with the hearing official where the debtor and agency representative (the DCO) are both given the opportunity to present documents, witnesses, and arguments. Alternatively, oral hearings may take the form of an informal meeting where the debtor and DCO are questioned by the hearing official. The hearing may also consist of formal written submissions by the parties with an opportunity for oral presentation to the hearing official.

3. **Sample.** See Figure 4-2 for information required by the hearing official for a paper or oral hearing.
D. **Hearing Official Final Decision**

1. **Time Limit.** Pursuant to 5 CFR 550.1104, within 60 calendar days after the filing of the hearing petition, the hearing official must issue a written decision on the merits of the dispute. The final decision must detail the hearing official’s findings and conclusions. Generally, the final decision should advise the debtor that the basis for the debt and amount were reviewed, indicate whether the debtor’s contentions were accepted in whole or in part, specify the debt amount now owed, and, if applicable, reaffirm the DCO’s intent to collect the debt by administrative offset. The hearing official must issue a copy of the final decision to both the debtor and the DCO.

2. **Final Decision in Favor of the DCO.** If the final decision upholds the validity and amount of the debt (in full or in part) or the involuntary repayment schedule, then the DCO must recommence collection action after sending the debtor a letter that includes the following (refer to Figure 4-3 for a sample of the Post-Hearing Notification):

   a. A brief statement of the hearing official's final decision;

   b. A request that the debtor repay the debt in full within 15 calendar days following the date of the letter, a request for authorization for a voluntary one-time offset to repay the debt, or agreement to pay the debt in regular installments pursuant to a voluntary repayment agreement;

   c. A statement that a salary offset will begin with the pay period in which the deadline expires unless the debtor informs the DCO of his or her decision regarding the options in subparagraph 040303.D.2.b. The letter must be specific as to the pay period in which the offset will occur;

   d. The amount of the offset and its estimated duration that will be equal to the amount of the debt, or 15 percent of the debtor's disposable pay, whichever is less;

   e. A statement regarding the assessment of interest, administrative expenses, and penalties; and

   f. A reminder of the debtor's right to request waiver or remission of the debt.

3. **Final Decision in Favor of the Debtor.** If the hearing official's final decision finds in favor of the debtor and determines a portion or all of the debt is invalid, then the DCO must inform the debtor as to what portion of the debt is no longer considered valid. Any amount previously collected on the invalid debt must be refunded to the debtor. If the hearing official reduces the amount of the debt, then the DCO must issue a letter to inform the debtor, and begin collection action for the new amount.

4. **Appeal of Final Determination.** There are no provisions for review or appeal of debt determination decisions rendered with regard to salary or administrative offset.
However, debtors may exercise any other waiver, remission, or review right that may be provided by other statute or regulation with regard to the debt. For example, a federal civilian employee may file an appeal with the Office of Personnel Management concerning a claim involving the employee’s compensation and leave. See 5 CFR 178. The Defense Office of Hearings and Appeals (DOHA) considers appeals of claims for uniformed services pay and allowances. Refer to 31 U.S.C. § 3702; 32 CFR 282.5(b)(2); and 32 CFR 282, Appendix E for additional information on appeals.

0404 HEARINGS FOR ADMINISTRATIVE WAGE GARNISHMENT (AWG)

The U.S. Department of the Treasury (Treasury) may request that DCMO hearing officials conduct hearings requested by individuals who owe debts to DoD when the Treasury is attempting to collect from the debtor using AWG procedures pursuant to 31 U.S.C. § 3720D and 31 CFR 285.11.

0405 HEARINGS FOR GOVERNMENT TRAVEL CHARGE CARD DEBTS

Any inquiries or disputes regarding the debt and the 90-day demand notice, which are received by the travel charge card contractor prior to forwarding the debt to DFAS for collection, will be handled and resolved by the travel charge card contractor. If the debtor wants to negotiate an installment agreement prior to the referral of the debt for salary offset, then any such agreement must be made with the travel charge card contractor. If the debtor is not satisfied with the travel charge card contractor’s disposition of the dispute, then he or she may submit a petition for a debt hearing to the DCMO.

0406 REVIEWS FOR SERVICE MEMBERS

040601. Due Process

Under 37 U.S.C. § 1007 and 5 U.S.C. § 5514, Service members are entitled to due process, consisting of a notice and an opportunity for review, prior to the initiation of debt collection unless otherwise required by statute.

040602. Requesting a Review

A Service member who questions the validity or amount of a debt may request a review and validation of the debt by the DCO. A Service member may also contest the involuntary repayment schedule. The Service member must submit a written request for a review that identifies and explains, with reasonable specificity, the facts and evidence the Service member believes supports his or her position. The request for review must be received not later than 30 days from the mailing date of the debt notification, or by the date indicated in the debt notification. There is no standardized format for a request for review; however, the request should contain Service member identifying information, the reason for requesting a review, supporting documentary evidence, and a dated signature. A Service member waives his or her right to a review if the Service member fails to submit a request in a timely manner. The DCO may accept a late request
if the Service member can show that the delay was due to circumstances beyond the Service member’s control.

040603. Requesting Records

A Service member may make a written request to the DCO for records related to the debt. A request for records must be made prior to the deadline for submitting a request for review. Within 45 days after the date the records are distributed to the Service member, the Service member must submit a written request for review to the DCO or the Service member will waive his or her right to review.

*040604. Review Procedures

Service members who receive debt notifications, and wish to request a review, must email or fax the request to the DCO, at the number or address provided in the notification. Upon timely receipt of the review request, the DCO must stay collection of the debt, unless collection is deemed necessary to protect the Government’s interests. The DCO will conduct validation, while considering all documentation contained in the Service member's request. Once complete, the DCO must issue the written review results to the Service member.

040605. Written Review Results

Written results should be provided within 60 calendar days and contain the following information:

A. A brief statement of the DCO’s determination regarding the validity or amount of the debt or the involuntary repayment schedule. If the DCO determines a portion or all of the debt is invalid, or the involuntary repayment schedule should be revised, the DCO will adjust the debt amount or repayment schedule accordingly and inform the Service member in the review results;

B. A request that the Service member pay the debt in full within 15 calendar days following the date of the letter, authorize a voluntary one-time offset to repay the debt, or agree to pay the debt in regular installments pursuant to a voluntary repayment agreement;

C. A statement that the offset will begin with the pay period in which the deadline expires, unless the Service member informs the DCO of his or her decision regarding the above options;

D. The amount of the offset; and

E. A reminder of the Service member’s right to request a waiver or remission of the debt.
040606. Appeal of Final Determination

The DCO’s determination on review is final. There are no provisions for review or appeal of the DCO’s decision on salary or administrative offset. However, Service members may exercise any other waiver, remission, or review right provided by other statute or regulation with regard to the debt. For example, DOHA considers appeals of claims for uniformed services pay and allowances. Refer to 32 CFR 282.5(b)(2) and 32 CFR 282, Appendix E for additional information on appeal rights.

0407 INFORMAL DEBT DISPUTES

040701. General

At the debtor’s request, the DCO may perform an informal courtesy review of a debt. This informal review is typically not intended to satisfy due process requirements and is in addition to such procedures. The informal courtesy review of a debt by the DCO typically occurs when the debtor submits a written “debt protest” or “debt dispute” to the DCO after the time period for filing a hearing petition has expired. The purpose of the courtesy review is to allow the DCO to validate the debt and respond to the debtor’s questions. Chapter 5 contains guidance on contractor debt disputes.

040702. Processing Informal Debt Disputes

A. A written request from the debtor is required before a debt is placed in a disputed or protest status.

B. For debts placed in dispute, the DCO should make every attempt to complete the courtesy review and issue a written response to the debtor within 30 days of receipt of the written protest.

C. If any portion of the debt cannot be validated and supported by the DCO, then the invalid portion of the debt should be reversed in the accounting system and closed in the appropriate entitlement systems. The DCO should notify the debtor in writing that the debt has been invalidated or partially invalidated.

D. If the debt is found to be valid, then the DCO must provide a response with applicable supporting documentation to the debtor and proceed with appropriate collection activity.
0408 WAIVER OF INDEBTEDNESS

040801. Authority

A. General

1. Title 5, U.S.C. § 5584, 10 U.S.C. § 2774, and 32 U.S.C. § 716 provide the head of an executive agency with the authority to waive an indebtedness that is the result of an erroneous payment of pay or allowances, or an erroneous payment of travel, transportation, or relocation expenses and allowances. Title 10, U.S.C. § 1453 provides authority to waive indebtedness that is the result of an erroneous payment of Survivor Benefit Plan (SBP) annuity.

2. The Under Secretary of Defense (Comptroller) delegated waiver authority to the DFAS Director by memorandum, dated January 29, 1992, and upheld that delegation in DoD Directive (DoDD) 5118.05, “Defense Finance and Accounting Service (DFAS).” The DFAS Director re-delegated this authority to the DFAS-Indianapolis (IN) Director. The waiver authority is subject to the dollar value limits identified in paragraph 040802. The exercise of this authority must be coordinated with the affected DoD Component, where appropriate. The DCMO exercises waiver authority for DoD employees (military and civilian), with the exception of waiver authority specifically delegated to the Director, Department of Defense Education Activity (DoDEA); the Director, National Security Agency (NSA); and the heads of non-DoD Components.

B. Policies and Procedures. Policies and procedures for considering applications for waivers of indebtedness resulting from erroneous payments to or on behalf of Service members and civilian DoD employees are set forth in 10 U.S.C. § 2774 and DoDD 1340.22, “Waiver of Debts Resulting from Erroneous Payments of Pay and Allowances,” which is codified at 32 CFR 283. Detailed waiver procedures for debts resulting from erroneous pay and allowances are set forth in DoD Instruction (DoDI) 1340.23, “Waiver Procedures for Debts Resulting from Erroneous Pay and Allowances,” which is codified at 32 CFR 284.

040802. Designated Waiver Authority Based on Aggregate Amount of Debt

The responsibility of the DCMO, or other designated waiver authority, to grant or deny a waiver is contingent upon the aggregate amount of the debt. The aggregate amount of a debt is the total amount of the debt before deductions for repayments or withholding for taxes.

A. Authority to Waive Collection for Debts Less Than or Equal to $1,500 (Civilian) or $10,000 (Military). Under 5 U.S.C. § 5584, the DCMO, or other designated waiver authority, is authorized to grant a waiver of debt aggregating to not more than $1,500 for civilian employees. Under 10 U.S.C. § 2774 and 32 U.S.C. § 716, the DCMO, or designated waiver authority, is authorized to grant a waiver of debt aggregating to not more than $10,000 for military members or National Guard members. There is no threshold for DCMO or other designated waiver authority to deny the waiver of debt for either civilian employees or military members.
B. **Authority to Waive Collection for Debts Greater Than $1,500 (Civilian) or $10,000 (Military).** If the aggregate amount of a debt is greater than $1,500 for civilian employees or greater than $10,000 for military or National Guard members, then the authority to grant the waiver application resides with the Director, DOHA, or his or her designee under the DoD OGC. All requests should be submitted to the DCMO, and the DCMO will forward relevant requests to DOHA for consideration.

040803. **Submission of Request for Waiver**

A. **Application.** All requests for waiver of indebtedness for DoD civilians (current and separated or former employees) and military members (active, reserve, retired, and National Guard) must be submitted on the Department of Defense (DD) Form 2789, Waiver/Remission of Indebtedness Application. Instructions on submitting a waiver application should be included with the debt notification letter issued by the DCO, or the letter may direct the debtor to an online resource for the information. Refer to Chapter 2, Figures 2-1 and 2-2 for sample debt notifications that include waiver instructions. The debtor must complete and sign the DD 2789 and submit the application to the applicable office listed on the DD 2789, depending on whether the debtor is a current or former employee or military member. The debtor’s application must include all supporting documentation, which includes, but is not limited to:

1. Copies of all supporting documentation referred to on the DD 2789;

2. Copies of LESs covering the 3 pay periods prior to the overpayment through the 3 pay periods after the overpayment ended. If LESs are not available, then the individual or DCO must include a statement explaining why LESs are not available;

3. Copies of Standard Form (SF) 50s, Notification of Personnel Action, for the debt period (including corrections). If unavailable, then the individual must include a statement from the personnel office indicating why the notifications are not available; and

4. Any statement from the individual or another person in support of the waiver application. Signed statements must be attested to be true and correct to the best of the individual’s knowledge and belief.

B. **DCO Responsibility.** The DCO should supplement the debtor’s waiver application with additional information in the form of a written report containing a chronological summary of the facts and relevant records. The DCO must forward to the DCMO a debt computation that shows, by pay period, the amount the debtor was paid, the amount the debtor should have been paid, and the total amount of the overpayment. The amount of the debt should match the amount in the pay system, as well as the amount in the debt notification sent to the debtor.

C. **DoDEA and NSA Employees.** DoDEA and NSA civilian employees must forward applications for waiver to the DoDEA and NSA designated waiver approval authorities.
D. **Time Limit for Filing Application**

1. **Civilian Employees.** DoD civilian employees must submit a waiver application within 3 years from the date the erroneous payment was discovered. For the purposes of starting the 3-year period, the date of discovery is the date that an appropriate official first determines that an erroneous payment has been made. Typically, the date of discovery of the debt for the purposes of filing a timely waiver request is 3 years from the date the debt notification was issued to the debtor. The timeframe for submitting a request for waiver cannot be extended or waived.

2. **Military Members.** Military members (active, reserve, retired, and National Guard) must submit a waiver application within 5 years from the date the erroneous payment was discovered. For the purposes of starting the 5-year period, the date of discovery is the date that an appropriate official first determines that an erroneous payment has been made. Typically, the date of discovery of the debt for the purposes of filing a timely waiver request is 5 years from the date the debt notification was issued to the debtor. The timeframe for submitting a request for waiver cannot be extended or waived.

E. **Contesting the Debt.** By submitting an application for the waiver of a debt, an individual is acknowledging that he or she does not intend to dispute the validity or amount of the debt. Waiver is not the proper forum to contest the validity or amount of the debt. To contest the validity or amount of the debt, an individual must petition for a hearing under section 0403. A waiver application that includes arguments concerning the validity or the amount of the debt may be returned without action or denied.

F. **Application Filed by a Representative.** A waiver application submitted by the debtor’s agent or attorney must include a duly executed power of attorney or other documentary evidence of the agent’s or attorney’s right to act for the debtor.

G. **Application Filed by a Guardian for Minor/Incompetent Debtors.** If a guardian or committee has been appointed for a debtor who is a minor or an incompetent person, then the waiver application filed on behalf of the debtor must include a certificate of the court showing the appointment and qualification of the guardian or committee. If a guardian or committee has not been appointed for the debtor, then the waiver application submitted on behalf of the debtor must:

1. State the applicant’s relationship to the minor or incompetent person;

2. Provide the name and address of the person having care and custody of the minor or incompetent person; and

3. Include an affirmation that any money received will be applied to the use and benefit of the minor or incompetent person and that the appointment of a guardian or committee is not contemplated.
040804. Suspension of Debt Collection Pending Waiver Determination

Collection of a debt should not routinely be suspended pending waiver determination (refer to 31 CFR 903.2(c)(2)). The DCO will determine, in each case, whether suspension of collection under 31 CFR 903.2, or a delay in implementing collection action, would be appropriate based on the following criteria:

A. Waiver will likely be granted,

B. Erroneous payment can be recovered if waiver is not granted, or

C. Collection of the debt would cause undue financial hardship.

040805. Standards for Reviewing Requests for Waiver

Standards for determining the appropriateness of waiving debt collection are located in DoDI 1340.23. The appropriateness of a waiver depends on the facts of each particular case. Generally, a person who receives an erroneous payment from the U.S. Government acquires no right to the money. The recipient of the payment is bound in equity and good conscience to make restitution. If the payment was made by mistake, no matter how careless the act of the U.S. Government may have been, the recipient of the payment must make restitution. A waiver is not a matter of right and is available only to provide relief as a matter of equity when warranted by the circumstances of the individual case. Economic or financial considerations play no role in the determination of a waiver request.

A. Indication of Fraud, Misrepresentation, Fault, or Lack of Good Faith. A waiver may only be granted when the collection would be against equity and good conscience and not in the best interests of the United States. There must be no indication the erroneous payment was solely or partially the result of the fraud, misrepresentation, fault, or lack of good faith of the applicant.

B. Considering Debtor Awareness of Erroneous Payment

1. Generally, a waiver is precluded when the individual, or another person who has an interest in obtaining a waiver, receives a significant, unexplained increase in pay or allowances, or otherwise knows, or reasonably should know, that an erroneous payment has occurred and fails to make inquiries or bring the matter to the attention of appropriate officials. A waiver may be inappropriate even though the recipient of the payment makes inquiries or brings the matter to the attention of appropriate officials and is mistakenly advised that the payment is proper. The fact that an erroneous payment is the result of an administrative error by the U.S. Government is not a sufficient basis in and of itself for granting a waiver.

2. An individual does not acquire title to the amounts paid erroneously and should hold the excess amounts for eventual repayment to the U.S. Government. DOHA has held that a waiver will not be granted if it appears the debtor had records (such as LESs) which, if reviewed, would have indicated an overpayment, and the debtor failed to review such documents for
accuracy or otherwise failed to take corrective action. Such failure on the part of the debtor renders the debtor partially at fault and ineligible for a waiver of the debt.

040806. Action of the DCMO or Designated Waiver Authority

A. After reviewing each application for waiver, the DCMO must take action.

1. If the aggregate amount of the debt is not more than $1,500 for civilian employees or $10,000 for military or National Guard members, the DCMO may grant or deny part or all of a waiver application.

2. If the aggregate amount of the debt is more than $1,500 for civilian employees or $10,000 for military or National Guard members, the DCMO must do the following:

   a. Deny the waiver application in its entirety; or

   b. Refer the waiver application to DOHA for its consideration, along with a recommendation that part or all of the debt be waived.

3. Refer the appeal of an initial determination on a waiver application to DOHA.

4. Refer any doubtful case to DOHA for consideration.

B. After the DCMO (or designated waiver authority) makes a determination on the waiver application, or forwards the waiver to DOHA, the DCMO must notify the debtor and the applicable DCO in writing of its action. If the DCMO denied the request for waiver, then the notification to the debtor must state the basis for that decision. The notification must include guidance regarding the debtor’s right to submit an appeal. A debtor may appeal the denial of all or part of his or her waiver application to DOHA.

040807. Final Action of the DCO After Waiver Determination

A. Upon receipt of notification that the request for waiver was denied, the DCO must immediately initiate collection action if collection action was suspended.

B. If the request for waiver is approved, then the DCO must refund to the debtor any amount collected prior to the waiver being approved. The waiver application is considered an application for refund for any amount of the debt that was collected prior to the waiver approval. No refund will be paid when the debtor cannot reasonably be located within 2 years after the effective date of the waiver. The refund must be paid from a current applicable appropriation.
040808. Appeal of Waiver Denial

In accordance with DoDI 1340.23, a debtor may appeal the denial of a waiver application. The appeal must be submitted to the DCMO, or the designated waiver authority that made the determination on the waiver application. The debtor must submit a request for appeal within 30 calendar days of receipt of the written denial of the waiver application. The DCMO may extend this period for up to an additional 30 calendar days if the debtor can show good cause. No appeal will be accepted after this time has expired. The DCMO must review the appeal and forward it to DOHA. DOHA will review the debtor’s appeal, and affirm, modify, or reverse the initial determination made by the DCMO.

040809. Waiver of SBP Overpayments

A. Authority. Recovery of debts resulting from erroneous payments made under the SBP may be waived pursuant to 10 U.S.C. § 1453. The Under Secretary of Defense (Comptroller) delegated waiver authority to the DFAS Director by memorandum dated February 1, 1991. The DFAS DCMO exercises waiver authority on behalf of the Director.

B. Debts Not Eligible for Waiver. Debts that are the result of unpaid SBP premium payments are not eligible for waiver under this provision.

C. Submission of Request for Waiver

1. Application. To request a waiver of indebtedness resulting from an SBP annuity overpayment, an indebted SBP annuitant, or his or her authorized representative (see subparagraph 040803.F), must submit a DD 2789. The debtor must complete and sign the DD 2789 and submit the application to the DCMO at DFAS-IN, 8899 East 56th Street, Department 3300 (ATTN: Waivers/Remissions), Indianapolis, IN 46249-3300. The application must include the following supporting documentation:

   a. Copies of all supporting documentation referred to on the DD 2789;

   b. Any statement from the debtor or another person in support of the waiver application. Signed statements must be attested to be true and correct to the best of the individual’s knowledge and belief; and

   c. Other information as requested by the DCMO.

2. DCO’s Responsibility. The DCO for SBP annuity payments is DFAS-Cleveland Annuitant Pay. A debtor’s waiver application must be supplemented with additional information from the DCO in the form of a written report containing a chronological summary of facts and all relevant records. The DCO must forward the written report to the DCMO and must include a debt computation that shows, by pay period, the amount the debtor was paid, the amount the debtor should have been paid, and the total amount of the overpayment.

4-19
3. **Action by the DCMO**

   a. The DCMO must take the following action on a waiver application:

      (1) Deny the waiver application in its entirety,

      (2) Grant the waiver application in its entirety, or

      (3) Partially grant the waiver application and deny the remainder.

   b. After the DCMO makes a determination on the waiver application, the DCMO must notify both the debtor and the applicable DCO of its action in writing. If the DCMO denied the request for waiver, then the notification to the debtor must state the basis for that decision. The notification must include guidance regarding the debtor’s right to submit an appeal of the determination. A debtor may appeal the denial of all or part of his or her waiver application to DFAS-IN. Refer to subparagraph 040809.G for additional guidance on appeals.

4. **Time Limit for Filing Application.** Debtors must submit a waiver application within 3 years from the date the erroneous payment was discovered. For the purposes of starting the 3-year period, the date of discovery is the date that an appropriate official first determined that an erroneous payment was made, which is typically marked by the date the debt notification was issued to the debtor. The timeframe for submitting a request for waiver cannot be extended or waived.

5. **Contesting the Debt.** By submitting an application for the waiver of a debt, an individual is acknowledging that he or she does not intend to dispute the validity or amount of the debt. A waiver is not the proper forum to contest the validity or amount of the debt. To contest the validity or amount of the debt, an individual must petition for a hearing under section 0403. A waiver application that includes arguments concerning the validity or amount of the debt may be denied as ineligible for consideration.

6. **Application Filed by Representative.** If an annuitant has a representative payee who is authorized to receive payments on the annuitant’s behalf pursuant to Volume 7B, Chapter 46, paragraph 460202, the representative may submit a waiver application if the representative also maintains the legal authority to act on behalf of the annuitant. The representative must submit additional documentation as required by the DCMO, for example, a power of attorney or other documentary evidence of the agent’s or attorney’s right to act for the debtor.

D. **Suspension of Collection Pending Waiver Determination.** Collection of a debt should not routinely be suspended pending the outcome of a waiver determination (refer to 31 CFR 903.2(c)(2)). The DCO will determine, on a case-by-case basis, whether a formal suspension of collection under 31 CFR 903.2 is necessary or, alternatively, whether an informal delay in implementing collection action would be appropriate, based on the following criteria:
1. Whether the waiver will likely be granted,

2. Whether the erroneous payment can be recovered if waiver is not granted, or

3. Whether collection of the debt would cause undue financial hardship.

E. Standards for Reviewing Requests for Waiver. Waiver of the recovery of an SBP annuity overpayment may be appropriate when the debtor is not at fault, and recovery of the overpayment would be contrary to the purposes of SBP, or against equity and good conscience. The appropriateness of granting a waiver will depend on the facts of each particular case. Pursuant to Comptroller General (Comp. Gen.), B-133142 (1978), B-178696 (1978), the standards for reviewing a request for waiver of SBP annuity overpayment are the same as those used for considering waiver requests under 10 U.S.C. § 2774 and 5 U.S.C. § 5584. DFAS DCMO uses the standards set out in DoDI 1340.23 for considering waiver applications for debts resulting from SBP annuity overpayments. Refer to paragraph 040805 for a discussion of the standards used in waiver application determinations.

F. Refund of Amounts Collected. Any amount collected before DFAS-IN receives the debtor’s waiver application will not be refunded. A refund is not authorized by law. If a waiver is granted, amounts collected after DFAS-IN received the completed waiver application from the annuitant may be refunded to the annuitant. Refer to Comp. Gen. B-184532 (1975) for information on when refund is appropriate.

G. Appeal of the DCMO Determination

1. Who May Appeal. A waiver applicant may appeal the DCMO’s denial of all or part of the applicant’s request to waive SBP annuity overpayments under 10 U.S.C. § 1453. An applicant may also appeal the denial of a waiver application that was not received by DFAS within the time limit required.

2. Determining Official. The determining official on all appeals is a DFAS official assigned to review the DCMO’s initial waiver determination. Pursuant to subparagraph 040802.A and 10 U.S.C. § 1453, DFAS has been delegated full authority to consider all waivers, including any appeals or requests for reconsideration.

3. When and Where to Submit an Appeal

   a. The DCMO must receive an applicant's appeal within 30 days of the date of the DCMO’s final written determination of the waiver application, or by the date indicated in the written determination. The DCMO may extend this period for up to an additional 30 days for good cause shown. No appeal may be accepted after this time has expired.

   b. The applicant’s appeal must be sent to the address indicated in DCMO’s written determination of the waiver application.
4. **Content of an Appeal.** No specific format for an appeal is required; however, the appeal must be written and signed by the applicant, the applicant's authorized agent, or the applicant's attorney. The following information must be included with the appeal request:

   a. Applicant's mailing address;

   b. Applicant's telephone number;

   c. Applicant’s social security number;

   d. A written statement that identifies, with specificity:
      
      (1) Errors or omissions of material and relevant facts;

      (2) Legal or equitable considerations that were overlooked or misapplied;

      (3) Conclusions that were arbitrary, capricious, or an abuse of discretion; and

      (4) The reasons why the findings or conclusions of the DCMO should be reversed or modified; and

   e. Copies of supporting documentation, including any statements by the applicant or other persons in support of the appeal. Signed statements must be attested to be true and correct to the best of the individual’s knowledge and belief.

5. **DCMO Action on Appeal.** The DCMO must select an individual within the DCMO, who had no involvement in the initial waiver application, to serve as the determining official on an appeal. The DCMO must provide the determining official a written statement in support of the original determination on the initial waiver application.

6. **Determining Official’s Review**

   a. The determining official must review an applicant's appeal request and must affirm, modify, or reverse the initial determination on the waiver application made by the DCMO. The determining official must issue a final written determination to both the applicant and DFAS Annuitant Pay. The written determination must explain the determining official’s decision and must include any appropriate action to resolve the debt.

   b. After review of an appeal concerning whether the receipt of the waiver application was timely, the determining official must notify the applicant of his or her decision in writing. If the determining official determines that the waiver application was timely, he or she must provide the waiver application to the DCMO for consideration.
7. **Finality of Determining Official’s Decision.** Decisions by the determining official are final if DFAS does not receive a request for reconsideration within 30 days of the date of the determining official’s final written determination of the appeal.

8. **Request for Reconsideration**

   a. **Time Limit for Requesting Reconsideration.** An applicant may request the determining official reconsider his or her final written determination of the appeal. A request for reconsideration must be received within 30 days from the date of the determining official’s final written determination of the appeal. This period may be extended for up to an additional 30 days for good cause shown. The determining official must review any rebuttal submitted by the applicant in support of the request for reconsideration and issue a written determination.

   b. **Review of a Request for Reconsideration.** No earlier than 31 days after the date of the determining official’s written determination of the appeal, or the day after the end of the period for submitting a request expires, the determining official must:

      (1) Consider the request for reconsideration;

      (2) Affirm, modify, or reverse the appeal decision;

      (3) Prepare a written response explaining the reason for the finding; and

      (4) Send the response to the applicant and the DCMO, and notify them of the appropriate action on the debt.

   c. **Finality of a Reconsideration Decision.** The reconsideration response is a final action.

**040810. Other Waiver Authority**

Other waiver authority may apply to payments that were not erroneously paid. Such waiver authority is generally exercised by the agency component. A debt resulting from a non-erroneous payment may be eligible for a waiver under the following statutory authorities:

   A. **Voluntary Separation Incentive Payment and Reemployment** (*5 U.S.C. § 3524(c)*),

   B. **Employee Agreements, Service after Training** (*5 U.S.C. § 4108(c)*),

   C. **Student Loan Repayments** (*5 U.S.C. § 5379(c)(3)*),

   D. **Recruitment and Relocation Bonuses** (*5 U.S.C. § 5753(e)*),
E. Quarters Allowances (5 U.S.C. § 5922(b)),

F. Physicians Comparability Allowances (5 U.S.C. § 5948(e)), or

G. Payments to Dependents of Missing Civilians (5 U.S.C. § 5566(g)).

0409 REMISSION OF INDEBTEDNESS

040901. Remission of Indebtedness Due From Military Members

Title 10, U.S.C. § 4837, 6161, and 9837 provide authority for the remission of indebtedness due from a military member. Remission is not available to DoD civilian employees. This authority may be exercised with respect to any debt incurred on or after October 7, 2001.

040902. Submission of Request for Remission

Requests for Remission from Army, Air Force, Navy, and Marine Corps military members (enlisted and officer) must be submitted on forms designated by the respective Services and forwarded to the Service for processing. DFAS does not process remission requests for any Service.

040903. Restriction for Reserve Component Personnel

Remission/cancellation of indebtedness is not applicable for Reserve Component personnel performing inactive duty training or active duty for training, except that:

A. An enlisted member of the Army National Guard, who is charged with liability for government property that is lost, damaged, or destroyed on or after October 1, 1980, may have such liability remitted or cancelled under regulations prescribed by the Secretary of the Military Service concerned (or designee); or

B. Any member of the Air National Guard (officer or enlisted member), who is charged with liability for government property that is lost, damaged, or destroyed on or after October 1, 1980, may have such liability remitted or cancelled under regulations prescribed by the Secretary of the Military Service concerned (or designee).

040904. Indebtedness Which May Be Remitted

A. Debts to the United States. Generally, any indebtedness may be considered for remission/cancellation. Denial of a waiver under 10 U.S.C. 2774 does not preclude a member from applying for the remission or cancellation of the debt. Debts arising from an erroneous payment of basic pay due to non-collection of court-martial forfeitures may not be remitted or cancelled.

B. Debts Within Jurisdiction of Military Service Concerned. The debt must be a debt over which the Military Department concerned has jurisdiction. For example, the Secretary
of one Military Department may not remit a member’s indebtedness because of liability for
damage to property of another Military Department.

0410 ADDITIONAL OPTIONS FOR DEBT RELIEF

041001. Claim for Refund

A military member may file a written claim, using a DD Form 827, Application for Arrears
in Pay, for any amounts considered erroneously collected from his or her pay account. The form
must be submitted to the individual’s pay office, or if separated for more than a year, to DFAS-
IN/JFEAA, Department 3300 (ATTN: Claims), 8899 East 56th Street, Indianapolis, IN 46249-3300
or via submission of a ticket online. If the claim for refund is denied in whole or in part, then an
appeal may be submitted to DOHA under the procedures set forth in 32 CFR 282, Appendix E.

041002. Correction of Military Records

The Secretary of a Military Department, under procedures established by that Secretary
and approved by the Secretary of Defense, and acting through boards of civilians of the executive
part of that Military Department, may correct any military record of that department when the
Secretary concerned considers it necessary to correct an error or remove an injustice. If an
individual is owed money pursuant to the correction of record, any earnings received from civilian
employment, self-employment, or any income protection plan for such employment during the
period for which active duty pay and allowances are payable must be deducted from the settlement.
To the extent authorized by law and regulation, a settlement must be reduced by the amount of any
existing indebtedness the individual owes to the Government arising from military service. Refer
to Volume 7B, Chapter 10 for additional guidance on correction of records.
Figure 4-1. Sample Format - Reconsideration Results Letter

(1)  

(2)  

Dear (3)  

On (4), you were notified that you were overpaid for pay periods ending (5) through (5). The net amount of the debt currently owed by you is $ (6).  

**Reconsideration Results.** You submitted a timely request for review of your debt on (7). In response, DFAS has performed an informal reexamination (“Reconsideration”) of your pay records in order to validate the amount of debt you owe and to satisfy any doubts you may have regarding the amount or validity of your debt. Reconsideration of your debt is the initial step in the hearing process. After reviewing the results of the Reconsideration, you may decide not to proceed with the formal hearing process. However, if you wish to continue with a formal hearing, you must notify DFAS of your intent by (8), which is 30 days from the date of this letter.

DFAS has determined your debt is valid for the following reasons:

(9)  

**Payment of Your Debt.** If you do not wish to continue with a formal hearing, please pay the debt in full by (8). Your check or money order should be made payable to DFAS-CL DSSN 8522 in the amount of $ (6). Please send your payment to DFAS-CL/FTB P.O. Box 9955, Cleveland, OH 44199-2056. If you are unable to pay the debt in one lump-sum, you may agree in writing to pay the debt in regular installments by completing the enclosed Voluntary Repayment Agreement and mailing or faxing it to the address listed on the Agreement.

**Continuing with a Formal Hearing.** If you wish to continue with a formal hearing in order to dispute the validity or amount of your debt, you must notify DFAS of your intent in writing by (8), by faxing or mailing your request to continue to (10).

**If You Take No Additional Action.** If you do not notify DFAS of your intent to continue with a formal hearing, pay your debt in full, or submit a Voluntary Repayment Agreement within 30 days of the date of this letter, DFAS is required by statute to collect your debt using other collection procedures. Beginning on (8), DFAS will initiate collection of the debt involuntarily from your pay by using salary offset procedures (payroll deductions) as outlined in the debt notification you received on (4).

If you require further assistance please contact our toll free number at 1-800-538-9043.

(11)  

Enclosures:

1. Hearing Petition received on (4)
2. Payroll Audit
3. Copy of Voluntary Repayment Agreement

NOTES: Explanation of Blank Spaces on Sample Reconsideration Results Letter

(1) The title or office symbol/code of the civilian payroll office issuing the debt notification.

(2) The full name and mailing address of the employee.

(3) Last name of employee with proper title (Mr. or Ms.).

(4) Date the debt notification letter was issued by DFAS.

(5) The pay period(s) that the overpayment occurred.

(6) The net dollar amount of the overpayment.

(7) Date of employee’s hearing petition.

(8) Date 30 days from the date of the reconsideration results letter.

(9) Explanation of the overpayment and any responses to questions raised in the employee’s hearing petition.

(10) Fax and mailing address of the Payroll Office.

(11) Identify by name, the signatory for the letter.

Figure 4-3. Sample Post-Hearing Notification

FROM: (1)
TO: (2)

SUBJECT: Indebtedness to the United States as a Result of an Overpayment of Pay and/or Allowances

Reference: (a) (The initial notification of indebtedness)
(b) (The employee’s petition for a hearing)
(c) (The hearing official’s determination)

Reference (a) advised of your indebtedness to the United States in the amount of $__(3)__ as a result of an overpayment of pay and/or allowances. By reference (b), you submitted a petition for a hearing to dispute the __(4)__ of the debt. Reference (c) is the hearing official’s determination affirming your indebtedness in the amount of $__(5)__.

In order to liquidate the debt in full, please submit a personal check or money order payable to __(6)__ and mail the payment to the civilian payroll office at __(7)__ no later than 15 days from the date of this letter. Alternatively, you may request your debt be paid by a deduction from your current pay. Please contact the civilian payroll office in order to arrange for a one-time voluntary payroll deduction. It may also be possible for you to establish a written agreement for repayment of the debt by periodic installment deductions from your pay, please contact the civilian payroll office to request this option.

As stated in Reference (a), delinquent debts are subject to the assessment of interest, penalties, and administrative expenses. To date, these assessments have not yet been made on your debt. The assessments may not be imposed if you repay the debt in full or are able to reach an agreement with the civilian payroll office to pay your debt by installment.

If you do not repay the debt in full, consent to a one-time payroll deduction, or establish an agreement for payment by installment, DFAS will initiate collection of your debt involuntarily from your pay using salary offset beginning on __(8)___. You must contact the civilian payroll office by __(8)__ in order to avoid salary offset. Deduction by salary offset would begin with the pay period ending on __(9)__. Please refer to Reference (a) for the estimated amount and duration of the payroll deduction. If the amount of the deduction from your pay would cause you to experience extreme financial hardship, then you must contact the civilian payroll office to determine if an alternative repayment schedule may be implemented. Your point of contact in this matter is __ (10) __.

Please consult Reference (a) for information concerning your right to request a waiver of the collection of your debt. An application for a waiver must be received within three (3) years after the erroneous payment was discovered. Collection of your debt generally will not be suspended during the waiver review process. In the event that your request is granted, all amounts deducted will be refunded.

(Signature Element)

EXPLANATION OF BLANK SPACES ON SAMPLE POST-Hearing NOTIFICATION

(1) The title or office symbol/code of the civilian payroll office.
(2) The full name of the employee.
(3) The amount of the debt in the initial debt notification.
(4) Either "existence," "amount," or "the terms of the proposed repayment schedule," as appropriate.
(5) The amount of the debt as determined by the hearing official. If the hearing official affirmed the civilian payroll office's contention, the amount will be the same as blank (3).
(6) The office to which the check or money order is to be made payable.
(7) Identify the mailing address of the civilian payroll office.
(8) The date the involuntary deduction from pay begins.
(9) The payday for the pay period indicated in blank (8).
(10) Include the name, phone number, and office symbol/code of the point of contact in the civilian payroll office who can answer questions regarding this debt.

*050101. Overview

A. This chapter provides policy on the collection of contract debts established by the contracting officer as well as the establishment and collection of payment office debts.

B. Policy in this chapter is not applicable to debts owed by the Department of Defense (DoD). Policy in this chapter also does not apply to the settlement of commercial transportation payment overcharges since the Director of the General Services Administration has the authority to audit and settle all transportation accounts (Title 31, United States Code (U.S.C.), section 3726) as further discussed in Volume 10, Chapter 13. Refer to Volume 5, Chapter 12 for policies for handling indebtedness associated with fraud.

C. This chapter does not contain policy for contracting officers regarding their responsibility to make debt determinations pursuant to Federal Acquisition Regulation (FAR) subpart 32.6.

D. The term Debt Collection Office (DCO), as used in this chapter, refers to vendor pay offices, contracting offices, and any other office that processes contractor debts. The DCO does not refer to the Defense Finance and Accounting Service (DFAS) Debt Management Office (DMO).

E. This chapter does not contain policy on the disposition of amounts collected during Payment Recapture Audits (PRA). For information on PRA, refer to Volume 10, Chapter 22.

* F. This chapter does not contain policy on the disposition, recording, and reporting of accounts receivable. Refer to Volume 4, Chapter 3 for receivables policy.

050102. Purpose

This chapter contains debt collection policy for debts that are owed to the DoD by contractors, which also refers to vendors, assignees, universities, non-profits, and other business entities.

*050103. Authoritative Guidance

Policies in this chapter are consistent with the policies established in the FAR 32.6 and the Defense Federal Acquisition Regulation Supplement (DFARS), subpart 232.6. Additionally, pursuant to U.S. Department of Treasury (Treasury) requirements, DoD is required to aggressively collect debts in accordance with the following statutes and regulations:
A. Debt Collection Improvement Act of 1996 (*Public Law 104-134*, Chapter 10, section 31001);

B. Debt Collection Act of 1982 (*Public Law 97-365*);

E. Internal Revenue Code provisions regarding the authority to make credits or refunds (*26 U.S.C. § 6402*);

F. Federal Claims Collection Standards (Title 31, Code of Federal Regulations (CFR), parts *900-904*);

G. Regulations for collection by offset from indebted government employees (5 CFR, part 550, *subpart K*);

H. Regulations for the collection of past-due support by administrative offset (*31 CFR 285.1*); and

I. Additional statutes and regulations listed by Treasury’s Bureau of the Fiscal Service (*Fiscal Service*).

0502 COLLECTION ACTIONS

050201. Contract Debts

Contract debts result from amounts that have been paid to the contractor, to which the contractor is not entitled under the terms and conditions of the contract, or amounts otherwise due from the contractor. Contractor debts include, but are not limited to:

A. Damages or excess costs related to defaults in performance;

B. Breach of contract obligations concerning progress payments, performance-based payments, advance payments, commercial item financing, or Government-furnished property;

C. Government expenses of correcting defects;

D. Duplicate or erroneous payments;

E. Billing and price reductions resulting from contract terms for price adjustment or a determination of prices under incentive type contracts;
F. Overpayments disclosed by quarterly statements required under price redetermination or incentive contracts;

G. Reimbursement of amounts due under FAR 33.102(b)(3) and FAR 33.104(h)(8);

H. Price or cost reductions for defective cost or pricing data;

I. Financing payments determined to be in excess of the contract limitations in FAR 52.232-16(a)(7), FAR 52.232-32(d)(2), or any contract clause for commercial item financing;

J. Increases to financing payment liquidation rates;

K. Price adjustments resulting from Cost Accounting Standards noncompliance or changes in cost accounting practice;

L. Re-inspection costs for nonconforming supplies or services;

M. Delinquency in contractor payments due under agreements or arrangements for deferral or postponement of collections; and

N. Overpayments related to errors in quantity, billing, or deficiencies in quality.

050202. Initiating Debt Collection

Once it is determined that a contractor might be indebted to the DoD, the contracting officer, or the payment office, must issue a demand for payment to the contractor, providing opportunity to inspect relevant records, and the opportunity to request a review of the debt as set forth in Chapter 2.

A. Demand Letters. Demand letters must comply with requirements set forth in Chapter 2. Additionally, notice of indebtedness to a contractor must include a statement that, in accordance with Office of Management and Budget Circular A-123, Appendix C, Part III, high-dollar overpayments may be reported on the Federal Government’s improper payment website. Refer to Volume 4, Chapter 14 for the definition of a high-dollar overpayment.

B. Debt Collection Initiated by Contracting Officers or Designees

1. The contracting officer has primary responsibility for determining the amount of the debt and ensuring collection for most types of contract debts, except for those debts resulting from errors made by the payment office.
2. When a contracting officer or other authorized official requests that a payment office collect a debt and provides a copy of the contract to the payment office, including the payment dates and amounts due from the contractor, the payment office will collect the debt.

3. If the contracting officer or other designated official receives the contractor’s payment, then the contracting officer or other designated official must immediately forward the payment to the disbursing office with a request for confirmation of receipt of the payment.

4. The appropriate DoD Component contracting officer, or other designated official, must determine the debt amount and demand repayment for debts pursuant to FAR 32.6 and DFARS 232.6.

5. The contracting officer must send a copy of each demand letter to the payment office cited in the contract, as well as documentation that identifies the line of accounting for distribution of the principal amount of the debt to the supporting Accounts Receivable Office (ARO).

6. The contracting officer must follow up periodically with the DCO, ARO, or supporting accounting office to ensure that contract debts have been collected and credited to the proper appropriations.

C. Debt Collection Initiated by the Payment Office

1. Payment offices are designated to make payments under a contract and to receive payments for amounts due to DoD. Payment offices are responsible for determining the amount of contract debts that are the result of overpayments or erroneous payments and initiating collection action on those debts (referring debts).

2. The payment office is also responsible for the collection of contractor debts when the amounts due and dates for payment are in the contract, and a copy of the contract has been furnished to the payment office with notice to collect as amounts become due.

3. When a contract modification (downward adjustment) is issued after the date of a disbursement and causes a contract to be in an overpayment status, the result of that modification is not an erroneous payment with respect to this chapter. The payment office must contact the procuring contracting officer or the administrative contracting officer (the individual who issued the modification causing the overpayment) to ensure that a demand letter is sent to the contractor for collection of funds.

050203. Supporting Documentation

When referring a debt to the DCO or DMO for further collection, the following documentation is required, unless already provided to DFAS:
A. Dates and amounts of collections/offsets;

B. Legible copies of the negotiated checks obtained from Treasury for duplicate payments and dual negotiated successor checks;

C. All demand letters, correspondence, and written documentation of communication between the contracting officer and the debtor or the DCO and the debtor;

D. Any documents needed to support a recommendation for compromise, discontinuance, or termination;

E. Tax identification number (TIN);

F. Telephone number, address, and the name of a point of contact that is knowledgeable of the following:
   1. Debtor,
   2. Contracting office making the referral,
   3. Disbursing office making the referral, and
   4. Supporting accounting office;

G. A copy of the audit or reconciliation report, with sufficient supporting documentation to explain the conclusions in the case of a determination of debt(s) resulting from an audit or contract reconciliation;

H. The accounting classification/appropriation to which the principal portion of the debtor’s payments should be deposited;

I. Copies of documentation that supports debts arising from the sale of goods and services to commercial entities on a reimbursable basis; and

J. The debtor’s Commercial and Government Entity code.

0503 ADMINISTRATIVE OFFSET

050301. General

A. To the extent practicable, debts should be collected, either by voluntary repayment in a lump sum or by administrative offset(s) of payment(s) owed to the contractor by the DoD, unless an installment agreement has been entered into or a deferment of collection has been approved (FAR 32.607). If 30 days have elapsed since the DCO mailed the initial demand letter, and no payment has been received, then the DCO must offset a contractor’s indebtedness against other monies that are owed the contractor.
B. FAR 32.606 allows for offsetting contractor payments to liquidate debts owed by the contractor. If additional payments are scheduled under the same contract, then the DCO should administratively offset against those payments first. The DCO must coordinate with the payment office to apply administrative offsets against amounts due the contractor under other contracts if offsets against the contract that gave rise to the debt cannot be accomplished. The disbursement voucher must be approved and the accounting classification charged for the total amount of the entitlement with no regard for the deduction being applied. DCOs must prominently annotate the face of the voucher, or the electronic equivalent, with the amount withheld and the accounting classification credited to ensure that only the net amount is paid to the contractor. The voucher must adequately inform the payee of the reason(s) for the deduction.

C. Administrative offsets normally will not be taken when there is a valid assignment of claims, under the Assignment of Claims Act of 1940 (31 U.S.C. § 3727 and 41 U.S.C. § 6305), associated with the contractor. DCO personnel should seek guidance from their legal office, as appropriate, in determining whether an administrative offset may be taken when an assignment of claims exists.

D. Pursuant to 31 U.S.C. § 3716, and in accordance with 31 CFR 901.3(b)(2), a DCO must process an administrative offset to collect a debt when the name and TIN of a payee matches the name and TIN of a debtor, and all other requirements for administrative offset have been met.

050302. Credit Invoice

A. A contractor may request to liquidate a debt against existing unpaid bills due to the contractor. As an exception, DCOs may accept a credit invoice under special circumstances, and only when there is a current payable invoice to which the credit can be applied. The contractor should furnish the DCO, upon request, an invoice number, date, and the amount of the debt to be offset against the invoice, according to the credit invoice.

B. A contractor may state on an invoice, or on a progress payment request, that the amount of the credit invoice can be deducted from the amount due from the DoD.

C. If a contractor does not state that the amount of the credit invoice can be deducted from other amounts due, a determination must be made on the most effective manner in which the debt can be collected. In making this determination, DCOs must give consideration both to the relative costs that would be incurred by DoD under various options, and to the method that is expected to result in liquidation of the debt at the earliest date. The latter factor is dependent upon the expected volume and frequency of incoming invoices that are susceptible to administrative offset, and whether this option is more effective and efficient than a credit invoice.

D. DCOs must acknowledge receipt of the credit invoice and inform the contractor of its disposition. If direct remittance is required, then the acknowledgement must contain a statement, such as, “This is to acknowledge receipt of your credit invoice 14245, dated December 14, 2018. We cannot accept this document as liquidation of your indebtedness, and must ask that you remit a check to the following address: (insert applicable address).”
contractor may identify an invoice to offset instead. If the offset is taken, then the DCO’s letter must contain a statement such as, “This is to acknowledge receipt of your credit invoice 67890, dated June 12, 2018.” Receipt of a credit invoice by the due date (where the demand letter states the due date) does not preclude charging interest and administrative charges.

0504  INSTALLMENT PAYMENT PLANS

050401. General

Whenever possible, payment to liquidate a debt, including a deferred payment, must be made in one lump sum. However, when a contractor can establish sufficient justification, the DCO may approve a series of installment payments to liquidate the debt within a reasonable period of time. In accordance with 31 CFR 901.8, installment payments should be sufficient in size and frequency to liquidate the debt within 3 years. If the contractor requests a repayment term of more than 3 years, then the DCO must refer the request to the DMO for a determination. See Chapter 2 for additional guidance on installment payment plans.

050402. Installment Payment Approval Authority

The DMO may approve a contractor’s request for an installment agreement; however, the DMO may not deny a contractor’s request for an installment agreement without first obtaining consent from the creditor DoD Component’s senior financial manager (FM) or designee. In the latter case, the DMO will send the request to the office of the creditor DoD Component’s senior FM or designee within 3 working days from the date the request was received.

050403. Installment Payment Notification

The DMO will make installment agreements available to the office that referred the debt and to the office of the creditor DoD Component’s senior FM or designee.

0505  REFERRAL OF DELINQUENT DEBTS TO DMO

050501. Dollar Thresholds for Referral

A. Dollar thresholds for referring delinquent debts to the DMO are as follows:

1. Debts that amount to $25 or more and belong to a contractor with a known TIN; or

2. Debts that amount to $100 or more and belong to a contractor without a known TIN.

B. Components that have implemented the processes contained in the Delinquent Debt Management Guidance (DDMG) should refer delinquent debt over $25 to Fiscal Service, Debt Management Services for further collection action where applicable.
C. If a contractor has more than one debt, each under the threshold, then the ARO will combine these debts to determine whether the sum of the debts is equal to or greater than the threshold. If so, then the ARO will refer the debts to the DMO in accordance with paragraph 050502. Refer to Volume 4, Chapter 3 for information on write-off of delinquent debt that is below the referral threshold and cannot be collected.

050502. Delinquent Debts and Multiple Debts Greater Than the Threshold

A. General. DCOs must refer valid and legally enforceable debts that are equal to or greater than the thresholds in paragraph 050501, individually or in aggregate, to the DMO no later than 90 days following the debt repayment due date. Debts must be validated by the DCO prior to referral to the DMO. The DMO must annotate acceptance of the debt in the appropriate system, thereby making the information available to the DCO and the supporting accounting office responsible for maintaining the official accounting records. In accordance with Chapter 7, administrative charges may be assessed for the expenses of referring the debt. Delinquent debts incurred under FAR 51.102 may be referred back to the authorizing agency if not satisfied by the contractor.

B. Supporting Documentation. When referring a debt to the DMO, DCOs must submit the documentation as listed in paragraph 050203.

C. Funds Accountability. After referral, the DMO will have full responsibility for collecting the delinquent debt. Accounting and reporting of the debt does not transfer to the DMO, but remains with the servicing accounting office using status information provided by the DMO. The DMO only maintains a memorandum accounts receivable record. Any office other than the DMO that receives a payment after referral of the debt must notify the DMO of the receipt and disposition of the payment within 3 business days. The ARO must notify the FM representative of the cognizant DoD Component when the debt should be closed. In the case of dual negotiated checks, the DMO will also notify the accountable payment office.

050503. Referral of Debts to Treasury

A. The DMO will refer valid and legally enforceable debts, which have been delinquent over 120 days, to the Treasury for debt collection and cross-servicing. See Chapter 2, section 0211 for additional information regarding referral of delinquent debts to Treasury.

B. Components that have implemented the processes contained in the DDMG should refer delinquent debt over $25 directly to Fiscal Service, Debt Management Services for further collection action where applicable.

0506 DISPUTES AND DEFERMENTS UNDER THE CDA

050601. Disputes

Under the CDA of 1978 (41 U.S.C., Chapter 71), a contractor may appeal a decision of indebtedness to the Armed Services Board of Contract Appeals (ASBCA) or through the U.S.
Courts. Actions filed by contractors under the Disputes Clause will not suspend or delay the collection unless the contractor has been granted a deferment as set forth in paragraph 050603. Further interest, penalties, and fees will continue to accrue on uncollected debts that have been formally disputed.

050602. Crediting Collections in Dispute

A. When an amount, including interest and administrative fees, is collected from a contractor, and the contractor formally disputes the debt, the collected amount will not be accounted for as settlement of the debt. The disputed amounts will be credited to a Treasury deposit account pending disposition of the contractor's dispute, and interest, penalties, and fees will no longer accrue since the debt has been collected. When making a collection in a disputed situation, the collection must be documented as a disputed contract collection. For example, debts collected by DFAS will be coded as disputed in the Contract Debt System.

B. The payment office typically handles collection of a debt. In the event another office, including the ARO, supporting accounting offices, the DMO, contracting officers, contract administration officers, or legal offices, receives a payment against an existing debt, the receiving office should forward the payment to the relevant DCO immediately. Accounting for disputed collections is covered in Volume 4, Chapter 3.

C. The DCO and the responsible payment office must notify the contracting officer, the contract administration officer if applicable, the Service or agency contract finance officer, and/or another office of any matters affecting the disputed collections. Conversely, these offices or offices must also inform the responsible payment office and the DCO of any actions taken that affect the disputed collection.

050603. Deferments

A. Under the CDA of 1978, a contractor may appeal a decision of indebtedness to the ASBCA or through the U.S. court system. In accordance with FAR 32.607, the contractor may request, in writing, deferment of debt repayment until the appeal is decided.

B. In accordance with FAR 32.607, the contractor must submit the request for deferment to the contracting office.

C. The contracting office will promptly forward the request to the appropriate DoD Component’s senior FM or designee. The DoD Component’s senior FM or designee will approve or deny the request and notify the contractor, contracting office, and the DMO of the decision.

D. Collection of the debt should continue until the date the deferment is granted. Volume 4, Chapter 3 contains the policy for accounting for collections under the CDA.
0507 WRITE-OFF AND CLOSE-OUT OF ACCOUNTS RECEIVABLE

050701. Write-off and Close-out of Indebtedness

Refer to Volume 4, Chapter 3 for policy on write-off and close-out of delinquent debt.

050702. Tax Reporting

The DFAS Tax Office will obtain information on all closed-out, uncollected, public contractor debt. In accordance with 26 U.S.C. § 6050P, the Tax Office will issue debtors an Internal Revenue Service Form 1099-C, Cancellation of Debt, if the closed, uncollected debt is greater than or equal to $600 for the calendar year. Tax Office required data elements are contained in Volume 4, Chapter 3.

0508 BANKRUPTCY

050801. General

Within DoD, DFAS Office of General Counsel (OGC) will file contractor bankruptcy proof of claims. DFAS-OGC is not responsible for litigating contractor bankruptcies. The litigation function remains the responsibility of the DoD Component. Bankruptcy litigation is accomplished by the Department of Justice through the office of the responsible U.S. Attorney. Pursuant to FAR subpart 42.9, prescribed actions, as detailed in paragraphs 050801 through 050806, will be taken when the procuring contracting office or contract administrative office receives notice of bankruptcy from the contractor or another source.

A. Bankruptcy cases are time sensitive. When the DoD receives a notice of bankruptcy, immediate action is required. Government monetary claims and other rights may be adversely and irrevocably affected if not timely asserted.

B. When either the procuring contracting office or the contract administrative office learns that bankruptcy proceedings have been initiated, the receiving office will immediately notify DFAS-OGC by writing to Defense Finance and Accounting Service – Office of the General Counsel, ATTN: ACL - Bankruptcy, 8899 East 56th Street, Indianapolis, IN 46249 or by email to dfas.indianapolis-in.hgb.mbx.ogc-bankruptcies@mail.mil.

C. Notification must occur regardless of whether any contracts have fully been performed, closed, or terminated. The DoD Component must also notify any office within the cognizant department or agency designated to receive this information. This notification must be made within 3 business days of receipt of the notice of bankruptcy, regardless of whether it appears the notice has been received late. Bankruptcy notices must also be sent to the following addresses:

1. Defense Logistics Agency
   Office of General Counsel, ATTN: DG
   8725 John J. Kingman Road, STOP 2533
   Fort Belvoir, VA  22060-6221
D. At a minimum, the notification must include:

1. The name of the contractor,
2. The court in which the bankruptcy petition has been filed,
3. The date of the filing of the bankruptcy petition,
4. The bankruptcy court docket number (if available), and
5. Whether the contractor is indebted to the DoD.

050802. Bankruptcy 15-Day Report

The contracting office may receive a notice of bankruptcy from the debtor or DFAS-OGC. When the contracting office receives notification of a bankruptcy, that office will follow instructions in paragraph 050801, and then follow with a Bankruptcy Report sent to the same parties no later than 15 days after receipt of the notice of bankruptcy. If some of this information is not available, then the report will be sent reflecting all available information. To the extent possible, the report will include the following information:

A. The name of the contractor;
B. A list of the contracts involved;
C. The amount of any potential claim against the contractor. Often, the amount of a potential claim must be an estimate. The contracting officer must attempt to calculate the
amount of the debt accurately with the understanding that filing of the proof of claim is time sensitive, and must attach a short explanation of how the debt arose. Documentation evidencing the existence of the debt will be attached whenever possible;

D. Any property, and its location, in the possession of the contractor in which DoD claims an interest, e.g., government property made available to the contractor, such as government-furnished equipment or government-furnished property;

E. Any claims the debtor may have asserted or presented to DoD;

F. The bankruptcy court docket number of the proceeding, and the court in which the bankruptcy is pending; and

G. Available information concerning the deadline for submitting documents to the Bankruptcy Court, asserting the government’s claims against the debtor.

050803. Proof of Claim

Upon receipt of a notice from a contracting officer, DFAS-OGC will prepare a consolidated proof of claim on behalf of DoD. DFAS-OGC will file the proof of claim with the appropriate court unless the responsible U.S. Attorney directs otherwise. DFAS-OGC will send a copy of the proof of claim to each DoD Component that submitted a claim. DoD or agency copies of the proof of claim must be sent to the responsible offices designated in subparagraph 050801.C. The proof of claim will identify DFAS-OGC as the office designated to receive further notices and any funds received pursuant to the proceedings.

050804. Actions Against Contractor

The filing of a bankruptcy petition has a major impact on business relationships with the contractor who has filed for bankruptcy protection. Many otherwise appropriate actions cannot be taken against a bankrupt contractor, and actions that may be legally taken against a contractor may have adverse consequences for DoD. The activity’s legal office should be informed before any action is taken with regard to a contractor who has filed for bankruptcy.

050805. Bankruptcy Notification From Contractor

In accordance with the contract clause provisions contained in FAR 52.242-13, should the contractor enter into proceedings relating to bankruptcy, whether voluntary or involuntary, the contractor agrees to furnish by certified mail, or electronic commerce method authorized by the contract, written notification of the bankruptcy to the contracting officer responsible for administering the contract. This notification will be furnished within 5 days of the initiation of the proceedings relating to bankruptcy filing and will include the following:

A. The date on which the bankruptcy petition was filed,

B. The identity of the court in which the bankruptcy petition was filed, and
C. A listing of government contract numbers and contracting offices for all government contracts against which final payment has not been made.

050806. Notification to DFAS-OGC

FAR 52.242-13 states that the contractor’s obligation to notify their contracting officer of a bankruptcy remains in effect until final payment under the contract(s) is made. In addition, the contracting officer must provide a copy of the notification from the contractor, by mail, to DFAS-OGC, 8899 East 56th Street, Indianapolis, IN 46249 and by email to dfas.indianapolis-in.hgb.mbx.ogc-bankruptcy@mail.mil.

CHAPTER 6

DEBT OWED TO THE DEPARTMENT OF DEFENSE (DOD) BY FOREIGN ENTITIES

0601 GENERAL

*060101. Overview

A. The DoD policy is to conduct timely and aggressive debt collection action, with follow-up efforts as necessary, to ensure that debt owed to the DoD by a foreign entity is collected and held to the absolute minimum. Further, all collection activities related to foreign-entity indebtedness, including all Acquisition and Cross-Servicing Agreement (ACSA) debt, will be done in compliance with the provisions of the applicable agreement or treaty with the foreign entity.

B. For purposes of this chapter, a foreign entity does not include foreign individuals or foreign vendors and will only refer to the following definitions:

1. Any government of a foreign country, and any subdivision, agency, or instrumentality thereof, including all foreign “official” institutions, even those located in the United States;

2. Any private relief, philanthropic, or other organization of a multinational or regional character with headquarters abroad; and

3. Any official multinational organization, defined as any international or regional organization (or affiliated agency thereof), created by treaty or convention between sovereign states.

C. Foreign-entity indebtedness means financial obligations owed to the U.S. Government by a foreign entity, as defined for purposes of this chapter. Foreign-entity indebtedness includes Foreign Military Sales (FMS) arrearages, accounts receivable for goods and/or services provided, and erroneous payments made to foreign entities. Foreign-entity indebtedness does not include principal payments or interest on short-term and long-term loans and credits.

*060102. Purpose

This chapter establishes policy for the DoD Components for identifying, billing, collecting, and managing foreign-entity indebtedness, including FMS and non-FMS.
*060103. Authoritative Guidance

DoD must pursue and report all foreign indebtedness in accordance with the following:

A. The *Arms Export Control Act (AECA)* for FMS arrearages

B. *Title 31, United States Code (U.S.C.), Section 3719*; and

0602 RESPONSIBILITIES

*060201. DoD Components are responsible for:

A. Providing documentation to the Accounts Receivable Office (ARO) to establish the foreign-entity accounts receivable in the accounting records. Documentation must include applicable line(s) of accounting;

B. Providing collection information to the ARO if a collection for a foreign-entity accounts debt is received by the DoD Component fund holder;

C. Assisting in notifying the appropriate foreign entity of the delinquent debt and working with the foreign entity to resolve disputed amounts;

D. Working with appropriate DoD and/or U.S. Government activities (e.g., the Defense Security Cooperation Agency (DSCA), the Military Departments, the Joint Chiefs of Staff, the Combatant Commands, the Department of State, and the U.S. Embassy’s Office of Defense Cooperation) to collect the delinquent, foreign-entity debt;

E. Assisting the ARO to obtain necessary documentation, and point of contact information, to collect delinquent, foreign-entity debt;

F. Ensuring that foreign-entity debts (FMS arrearages and non-FMS debts) are reviewed during the Triannual Reviews of commitments, obligations, accounts payable, and accounts receivable in accordance with Volume 3, Chapter 8;

G. Recommending, coordinating, and/or approving recommendations to aggressively pursue delinquent, foreign debt pursuant to the law and applicable agreement with foreign entities; and

H. Completing other actions pertaining to FMS arrearages and non-FMS, foreign-entity debts, as specified throughout this chapter.
*060202. ARO Responsibilities

The ARO is responsible for:

A. Preparing and sending the initial bill to the foreign entity and performing follow-up actions on non-FMS debts, to include sending a written, follow-up demand letter if a debt remains unpaid (31 days after the date of the initial demand letter);

B. Ensuring that collection of foreign-entity debt is completed in compliance with the law and applicable agreements with foreign entities;

C. Ensuring that the foreign-entity debt is valid. See Volume 4, Chapter 3 for accounting procedures when it is determined that a debt is not valid;

D. Processing all accounting transactions related to foreign-entity accounts receivable. This includes, but is not limited to:

   1. Establishing and maintaining the accounts receivable in the applicable accounting system;

   2. Crediting collections to the applicable line of accounting;

   3. Aging delinquent, foreign-entity accounts receivable (refer to subparagraph 060301.A); and

   4. Preparing and submitting accounts receivable reports to the appropriate offices (e.g., Defense Finance and Accounting Service (DFAS) Departmental Accounting, DSCA, Department of State, U.S. Department of Treasury (Treasury), or Department of Commerce). See section 0608;

E. Working with the DoD Component fund holder to resolve disputed, foreign-entity debt;

F. Coordinating with the DoD Component fund holder on other actions, as needed, to resolve foreign-entity debt;

G. Retaining required supporting documentation related to accounts receivable in accordance with Volume 4, Chapter 3;

H. Referring valid and legally enforceable, delinquent, non-FMS, foreign-entity debt (e.g., ACSA-related debt), along with substantiating documentation, to the Foreign Debt Management Office (FDMO); and

I. Notifying the FDMO of collections received after the delinquent, non-FMS, foreign-entity debt was referred to FDMO.
*060203. DFAS FDMO Responsibilities

The FDMO is responsible for:

A. Assisting AROs in the centralized management of delinquent, non-FMS, foreign-entity debts;

B. Coordinating with key stakeholders, such as the ARO, DoD Component fund holder, Combatant Command, and the Department of State to pursue collection of delinquent, non-FMS foreign-entity debts; and

C. Reporting the collection of a debt and returning the debt package to the respective ARO when the debt is collected.

060204. DSCA Responsibilities

DSCA is the principal DoD Component responsible for:

A. Completing actions concerning FMS arrearages and indebtedness. For purchasers who have delinquent payments due, or who have accrued costs that exceed available cash, DSCA will evaluate the purchaser's entire program to determine whether or not a letter to the purchaser requesting payment is justified. If so, then DSCA will issue a written notification to the purchaser within 30 days of the end of the preceding quarter. If no response is received, then additional written follow-ups will be made at succeeding 30-day intervals;

B. Approving FMS feeder arrearage reports prepared by DFAS, Security Cooperation Accounting (SCA) Division, in accordance with this chapter and the Treasury Financial Manual (TFM), *Volume I, Chapter 4100*, Debt Management Reports;

C. Working with the purchaser, the responsible DoD Component, and DFAS SCA to identify the specific issue and remedy (e.g., adjustments to ordered values, delivery timeframes, ordered quantity, collection of additional funds, or other alternative financial arrangements) when insufficient funds are available for DoD to meet the collective cash requirements for an FMS purchaser;

D. Administering and managing FMS long-term loan and credit programs authorized under the AECA, or other authorities, and identifying delinquent amounts associated with these programs; and

E. Completing other actions as necessary, to include required reporting to the Department of State and others.
DFAS SCA Responsibilities

DFAS SCA is responsible for:

A. Preparing FMS feeder arrearage reports in accordance with this chapter and
   the TFM, and submitting the reports to Treasury after coordination and approval by DSCA;

B. Utilizing updated FMS payment schedules, and other financial performance
   criteria, to bill foreign governments and international organizations on the quarterly DoD (DD)
   Form 645, FMS Billing Statement, and/or special billing statements approved by DSCA;

C. Coordinating with DSCA to identify, report, and collect FMS arrearages
   and other delinquent amounts; and

D. Providing quarterly reports to DSCA to identify those FMS purchasers who
   are delinquent in payment from the previous quarter, as well as daily reports to identify purchasers’
   average disbursement rates and estimated number of months of cash on hand.

BILLING AND FOLLOW-UP ACTIONS

*0603. Non-FMS, Foreign-Entity Debt

A. Due Date. All non-FMS, foreign-entity debt will be due 30 days from the
   date of the bill/demand letter, unless otherwise stated in the bill, contract, or agreement between
   the DoD Component and the foreign entity. The bill/demand letter will include a 60-day grace
   period. This means the debt becomes delinquent 91 days from the date of the bill/demand letter.

B. Initial Billing

   1. The ARO will prepare and send initial billings for goods and/or
      services for all non-FMS, foreign-entity debt. AROs will include the information listed in
      subparagraph 060301.B.2 in the initial debt notification.

   2. The ARO will prepare and send the initial demand letter for non-
      FMS, foreign-entity debts that are the result of erroneous payments. See Figure 6-1 for a sample
      demand letter. The demand letter will include, at a minimum, the following information:

         a. The basis for and amount of the indebtedness;

         b. The date by which payment must be made in full;

         c. The address where payment should be sent or information
            regarding submission of electronic payment;
d. The name, address, and telephone number of a point of contact in the ARO who can discuss alternative methods of payment; and

e. Any available documentation that substantiates the debt.

* C. Follow-up Actions

1. **ARO.** The ARO will perform follow-up actions on all non-FMS, foreign-entity debts. If the foreign entity does not provide payment by the due date, or other date specified in the agreement between the DoD Component and the foreign entity, then the ARO will immediately send a written, follow-up demand letter. Include the information listed in subparagraph 060301.B.2 if not included in the initial billing/demand letter. One follow-up letter is required prior to referring the delinquent debt to the FDMO. The ARO will not refer delinquent, foreign-entity debts to Treasury for cross-servicing, or for participation in the Treasury Offset Program (TOP), because these debts are exempt from referral. Unpaid debts related to replacement in kind or foreign direct bills should be elevated through the Defense Logistics Agency.

2. **FDMO.** The FDMO will send one final demand letter for any delinquent, non-FMS, foreign debts referred by the ARO. See Figure 6-2 for a sample demand letter from the FDMO. If there is no collection or communication following the demand letter, FDMO is to utilize the elevation process outlined in the DFAS Enterprise Solutions and Standards FDMO ACSA Standard Operating Procedure.

060302. FMS Accounts Receivable

A. Legal Requirements

1. For sales from stock, AECA, Section 21(b), codified as 22 U.S.C. § 2761 requires DoD to collect payments from foreign purchasers in advance or, if the President determines it to be in the national interest, upon the delivery of a defense article or the rendering of a defense service. After a determination by the President that it is in the national interest to bill upon the delivery of a defense article or the rendering of a defense service, interest will be charged in accordance with AECA, Section 21(d), 22 U.S.C. § 2761(d), on any net amount due and payable which is not paid within 60 days after the date of such billing.

2. The President delegated the authority to determine if billing upon delivery is in the national interest in Executive Order 13637; and the Secretary of Defense further delegated the authority to the Director, DSCA, in DoD Directive 5105.65. The President may extend the period to 120 days if he determines that emergency requirements of the purchaser will exceed the ready availability of purchaser funds to the U.S. Government within the 60 days. In this case, the President submits a determination with a special emergency request for authorization and appropriation of additional funds to finance such purchases under the AECA.

3. For sales from procurements (items sent directly from the source, and not from DoD inventories), when the country is authorized a dependable undertaking, AECA,
Section 22(a), 22 U.S.C. § 2762(a), requires DoD to collect payments from foreign purchasers in time to meet contractual payments, including any damages and costs that may accrue from the cancellation of such contracts. The AECA, Section 22(a), requires interest to be charged on any net amount by which a foreign purchaser is in arrears, taking into consideration all of its outstanding unliquidated dependable undertakings.

B. **Due Date.** Refer to Volume 15, Chapter 8 for policy regarding FMS billing due dates.

C. **Initial Billing.** DFAS SCA is responsible for issuing FMS billing documents. Billings for financial requirements will be initiated by using the DD 645, or the special billing statement approved by DSCA. These billings must, at a minimum, identify the financial requirements, amount paid, and amount due. Specific policy on FMS billings is in Volume 15, Chapter 8.

D. **FMS Arrearages**

1. When the amount due per the DoD billing statement is not paid by the due date, that amount is considered delinquent, but that does not necessarily constitute an arrearage.

2. For FMS cases authorized to include a term of sale of “Payment on Delivery,” the billings may be dated and issued upon delivery of the defense article or performance of the defense service. An arrearage occurs when the billed amount is not received by the payment due date (60 days from the date of the bill, or 120 days if authorized by the President).

3. For FMS purchasers authorized “dependable undertaking” terms of sale, an arrearage occurs when the FMS purchaser’s total cash resources on deposit with the U.S. Government are insufficient to cover all its outstanding, unliquidated dependable undertakings, considered collectively.

E. **Follow-up Actions**

1. FMS purchasers are required to pay in advance of performance unless the President determines it to be in the national interest to collect upon delivery of the defense article or the rendering of the defense service. Refer to 22 U.S.C. § 2761. Therefore, in the FMS program, an arrearage is an unusual event.

2. If required, written notification to the purchaser will normally be sent within 30 days of the end of the preceding quarter. If no response is received, then additional written follow-up must be made at succeeding 30-day intervals. Delinquent FMS arrearages must not be referred to Treasury for cross-servicing or participation in TOP.
0604 INTEREST, ADMINISTRATIVE CHARGES, AND PENALTIES FOR FMS ARREARAGES

060401. General

In accordance with 22 U.S.C. § 2761(d) and 22 U.S.C. § 2762(a), interest will be charged on FMS arrearages. The rate of interest will not be less than a rate determined by the Secretary of the Treasury, taking into consideration the current average market yield on outstanding short-term obligations of the U.S. Government as of the last day of the month preceding the billing, or the net arrearage, respectively. For the interest rate due on FMS delinquent payments, see TreasuryDirect. Once there, select the applicable month and “Table 5 - Department of Defense Arms Export Control Act.” For the proper disposition of interest funds collected, refer to Volume 4, Chapter 3, Annex I.

060402. Term of Sale of “Payment on Delivery”

Interest assessed on arrearages resulting from FMS cases with a term of sale of “Payment on Delivery” must be computed from the date of the billing. Figure 6-3 provides an illustration of the applicability of interest in these cases.

060403. Insufficient Case Resources

Interest assessed on arrearages resulting from a purchaser’s total cash resources on deposit being insufficient to cover its outstanding, unliquidated dependable undertakings is computed from the date on which the net arrearage occurs. Net arrearage occurs on the date that DFAS SCA determines that the accrued costs exceed available cash.

0605 REFERRAL OF FMS INDEBTEDNESS

060501. Authority to Refer FMS Indebtedness

DSCA will determine if an FMS arrearage will be forwarded to Department of Justice (DOJ) for litigation.

060502. Preservation of Evidence

The FDMO within DFAS SCA, the DoD Component, and DSCA must retain all files and records that may be needed by DOJ to prove the case in court.

0606 COMPROMISE, SUSPENSION, OR TERMINATION OF COLLECTION ACTIONS FOR FMS ARREARAGES

DFAS SCA, in cooperation with the DoD Component, must coordinate proposals to compromise, suspend, or terminate collection actions on FMS arrearages with DSCA. Refer to Chapter 2 for policy on compromise, suspension, or termination of collection actions.
0607 WRITE OFF AND CLOSE OUT OF FMS ARREARAGES

DSCA is responsible for initiating and coordinating all actions necessary to write off and close out FMS arrearages. Refer to Volume 4, Chapter 3 for write-off and close-out requirements.

0608 REPORTING FOREIGN INDEBTEDNESS

060801. Reporting

Foreign indebtedness must be uniformly and accurately reported through appropriate reporting channels to Treasury and Department of Commerce.

060802. Required Reports

A. Grants, Loans, Credits, and Contingent Liabilities Involving Foreigners. The *TFM, Volume I, Part 2, Chapter 4500* requires the electronic submission of several reports pertaining to foreign obligors to Treasury by the 45th day following the end of the reporting quarter, if applicable. These reports are prepared and submitted by DFAS SCA. The data for these reports is extracted from the DSCA FMS Credit System. The TFM, Volume I, Part 2, Chapter 4500 provides detailed guidance, formats for the reports, and instructions for completing and submitting the reports.

B. Data Editing. DFAS SCA must complete the quarterly data editing and approval process using Treasury’s Foreign Credit Reporting System (FCRS) within 2 weeks after receiving notification that the reporting period data is available for editing. The “FCRS Web Site Overview and Data Editing Guide for Agency Users,” which is available only to authorized users on the FCRS web site, contains instructions for the quarterly data editing and approval process. The required reports are:

1. Direct Long-Term Credits History,
2. Guarantees and Insurance of Long-Term Credits History,
3. Direct Long-Term Credits Status,
4. Guarantees and Insurance of Long-Term Credits Status,
5. Direct Long-Term Credits Scheduled Payments, and
6. Guarantees and Insurance of Long-Term Credits Scheduled Payments.
C. Report of Current Status Accounts Receivable (Original Maturity of Less Than 90 Days) From Foreign Obligors. DFAS SCA is responsible for preparing and submitting this report to the Department of Commerce, Economics and Statistics Administration, and Bureau of Economic Analysis. Refer to paragraph 060803 for instructions on how to complete the report.

D. Treasury Report on Receivables (TROR). DFAS and DoD Component accounting offices must ensure that the TROR includes foreign indebtedness as required by Volume 4, Chapter 3, section 0306.

060803. Instructions for Preparing the Report of Current Status of Accounts Receivable (Original Maturity of Less Than 90 Days From Foreign Obligors)

All foreign accounts receivable not collected within 90 days from the due date must be included in this report. Amounts reported for FMS in columns 3 through 6 of Figure 6-4 will be determined by analyzing unpaid bills using the following steps:

A. Report an amount in column 3 for a purchaser, if the amount recorded in column 10 of the DD 645 exceeds either the total in column 13 of the DD 645 on a net purchaser basis (adjusted for over-collected cases) plus the purchaser’s cash resources (including holding accounts, interest-bearing accounts, and undisbursed foreign military financing (FMF)) or the total of the amount paid on the DSCA supplementary bill (e.g., special bill, additional request for funding, or “Do Not Pay” letters) plus the country’s cash resources (including holding accounts, interest-bearing accounts, and undisbursed FMF).

B. Do not report the purchaser as having delinquent accounts receivable if the amount in column 13 of the DD 645 exceeds the amount in column 10 of the DD 645, and/or the cash resources exceed a 6-month supply.

C. DSCA will review the reports to determine the values to report in column 3 of Figure 6-4.

D. Report in column 5 of Figure 6-4 the amounts reported for the previous quarter, less collections received during the current period.

E. Use the following instructions to complete Figure 6-4:

1. Reporting Agency. Enter the name of the reporting agency and the applicable agency codes. Agency codes are as follows:

   a. 9700 – DSCA,
   b. 9710 – Air Force,
   c. 9720 – Army,
d. 9730 – Navy.

2. Current Status As Of. Enter the ending date of the calendar quarter for which the report is prepared. For example, the first and second quarter of calendar year 2017 will be identified as 171 and 172, respectively. Enter in the open space the actual ending date of the quarter.

3. Country/Program (Columns 1, 7, and 8)
   a. Enter on the first line the name of the first country from the alphabetical list of country names and codes provided in the TFM, Volume I, Part 2, Chapter 4500, Appendix 2. Enter in column 7 the identification code assigned to the country.
   b. Enter on the line following the country designation each program applicable to the outstanding accounts receivable. Enter in column 8 the identification code assigned to the program.

4. Currency Indicator (Column 2). Foreign currency obligations will be reported in dollar equivalents (FC$) computed at the appropriate reporting rate. Enter the following codes:
   a. $ – Repayable in U.S. dollars;
   b. MO$ – U.S. dollar equivalents of obligations to pay foreign currency amounts, calculated at the reporting rate existing for that country at the time of payment (with maintenance of dollar value); and
   c. FC$ – U.S. dollar equivalents of obligations, the liquidation of which requires the repayment of a stated amount of foreign currency units (without maintenance of dollar value).

5. Total Amount Outstanding – Official (Column 3). Enter the total amount of outstanding accounts receivable from foreign official obligors as of the end of the reporting period. Include foreign private obligations guaranteed by official foreigners.

6. Total Amount Outstanding – Private (Column 4). Enter the total amount of outstanding accounts receivable from foreign private obligors as of the end of the reporting period. Exclude foreign private obligations guaranteed by official foreigners.

7. Amount Due and Unpaid 90 Days or More – Official (Column 5). Enter the portion of the amount recorded in column 3, which is due and unpaid for 90 days or more.
8. **Amount Due and Unpaid 90 Days or More – Private (Column 6).** Enter the portion of the amount recorded in column 4, which is due and unpaid for 90 days or more.

9. **Country Totals.** In column 1, enter the words “Country Totals” on the line following the data for the last program reported. Leave column 2 blank. Enter in columns 3 through 6 the totals of the amounts (U.S. dollars plus dollar equivalents of transactions computed in foreign currency) reported for the programs within that country. A separate entry for country totals will not be necessary where only one program has been reported. Repeat this for each country.

10. **Program Totals.** In column 1, enter the words “Program Totals” on the line following the last country totals. On subsequent lines, enter in columns 1 and 8 the name and identification code, respectively, for each program. Leave column 2 blank. Enter in columns 3 through 6 the totals of the amounts (U.S. dollars plus dollar equivalents of transactions computed in foreign currency) reported by country for each program. Separate entries for program totals will not be necessary where only one country has been listed.

11. **Agency Totals.** In column 1, enter on the line following the last program totals the words “Agency Totals.” Leave column 2 blank. Enter in columns 3 through 6 the totals of all agency programs. A separate entry for agency totals will not be necessary where only one program total has been reported.

060804. Preliminary Case Analysis Report (PCAR) of FMS Arrearages

The National Advisory Council (NAC) monitors major foreign arrearages. For this purpose, a major foreign arrearage is any country program arrearage that involves the sum of $250,000 or more. Periodically, DSCA will request a PCAR from DFAS to satisfy NAC requirements. The PCAR will be submitted directly to DSCA by DFAS in email message form. The report will reflect any foreign arrearages so that a determination can be made on whether interest should be charged.

060805. Collecting and Reporting Foreign Debts Under Long-Term Loans and Debts

DSCA is responsible for administering FMS long-term loans and credit programs authorized by Section 23 of the AECA, as amended, and determining foreign arrearages against these programs.

CHAPTER 7

INTEREST, PENALTIES, AND ADMINISTRATIVE (IPA) CHARGES

0701 GENERAL

070101. Overview

A. This chapter pertains to the collection of debts owed to the Department of Defense (DoD) from current and retired DoD civilian employees, current members of the military services (active and reserve), military retirees, individuals who are no longer employed by DoD, contractors, vendors, assignees, and business entities. Contractor-specific guidance can also be found in the Federal Acquisition Regulation (FAR), subpart 32.6.

B. This chapter does not pertain to the collection of debts owed to DoD by Foreign Entities, which is covered in Chapter 6.

C. The intent of IPA charges is to stimulate prompt debt payment, to compensate the government for loss of use of funds when debt is not paid timely, and to recover the cost of processing and handling delinquent debts, including referral to credit bureaus or collection agencies.

070102. Purpose

This chapter establishes policy and requirements for the DoD Components for the accounting and reporting of IPA charges on delinquent debts and debts repaid via installment agreement.

*070103. Authoritative Guidance

Requirements contained in this chapter are primarily based on:

A. Title 31, United States Code (U.S.C.), section 3717;

B. The FAR, subpart 32.6; and

C. Title 31, Code of Federal Regulations (CFR), Parts 900-904 (Federal Claims Collection Standards (FCCS)).

*0702 INTERNAL CONTROLS

All organizations involved in the collection and management of IPA charges must adhere to the basic standards for internal controls in DoD Instruction 5010.40, “Managers’ Internal
Control Program Procedures,” to ensure IPA charges owed to the DoD are managed and collected in accordance with this chapter and other applicable regulatory and statutory requirements.

*0703 APPLICATION OF CHARGES

Title 31, CFR, section 901.9 contains guidance on assessing IPA charges. Unless prohibited by law, IPA charges will be applied accordingly. Refer to Volume 4, Chapter 3, Annex 1 for requirements on the disposition of IPA charges.

070301. General

A. All debts owed to the Government and not paid in full by the date due will accrue IPA charges in accordance with 31 U.S.C. § 3717. These charges will continue to accrue until the debt is paid in full or otherwise resolved through compromise, termination, or waiver of the charges. Debts owed by any federal agency, or non-appropriated fund instrumentality, are exempt from IPA charges.

B. Payments of amounts owed to the Federal Government by organizations, businesses, and individuals are expected to be made in accordance with terms specified in contracts, agreements, or notifications of indebtedness. For those debts owed to the Federal Government that are not covered by provisions contained in contracts or agreements, the notification of indebtedness will inform the debtor of the basis for the indebtedness, the date the debt payment is to be made (due date), and the requirement for IPA charges, unless otherwise prohibited by law.

*070302. Interest Charges

A. Interest charges will be assessed on all debt not paid in full by the date due, regardless if the debt is to be paid in a lump-sum or installments. Debt that is paid through an installment plan is not considered delinquent as long as the payments are made on time; however, interest will continue to be assessed on the outstanding balance owed and collected until the debt is paid in full.

B. Pursuant to 31 U.S.C. 3717, interest rates must be established for each loan receivable and overdue debt from the public. The factors that affect the variability of interest rates (e.g., legislation, type of contract, an occurrence of an event, passage of time, debtor's income level, or federal funds rate) must be identified. In the absence of specific authority embodied in statute, regulation required by statute, contract, or other public notice, the interest rate, at a minimum, will be the same rate as the Current Value of Funds Rate (CVFR) established by the Secretary of the Treasury. Interest may not be compounded or assessed on administrative costs or penalties.

C. The CVFR is used to calculate interest on overdue Federal Government receivables. The interest rate is subject to revision only if the published rate changes by 2 percentage points (e.g., from 6.0 percent to 4.0 percent) at the close of the prior calendar quarter.
The Treasury publishes changes to the CVFR in the Treasury Financial Manual Bulletins. Additional information can be found at the Treasury Bureau of the Fiscal Service CVFR webpage.

* D. The interest rate used to determine charges on a delinquent debt will remain fixed for the life of the debt. However, if a debtor defaults on a repayment agreement and seeks to enter into a new agreement, the agency may require payment of interest at a new rate that reflects the CVFR at the time the new agreement is executed.

E. Unless other provisions exist in a contract or prior agreement, interest charges will not be assessed until the debtor has been notified in writing that interest and penalty charges will accrue. Payment terms specified in the invoice, demand letter, or notice of indebtedness must be consistent with payment terms in the related contract or formal agreement.

F. Interest will not be charged if payment is made by the date specified in the debt notification (typically 30 days from the date on the notification).

G. Interest will continue to accrue after “date of death” when a claim is to be filed against the estate.

H. Interest Charges will be computed using the following formula:

\[ I = D \times N \times F \]

Where:
- \( I \) = Interest charge,
- \( D \) = Amount of outstanding debt,
- \( N \) = Number of days delinquent, and
- \( F \) = Interest rate per day.

*070303. Penalty Charges

A. DoD Components must accrue and assess a penalty charge, not to exceed 6 percent per annum, on any portion of the debt that is delinquent more than 90 days, to include interest and administrative charges. A debt becomes delinquent if not paid by the established due date; therefore, penalty charges must be applied to those accounts reported in the aging category 91-180 days delinquent and beyond. This does not include payments that are current and made based on an agreed upon installment plan. The Components may determine what percentage, up to the maximum 6 percent, will be applied to delinquent accounts. The Component’s rationale for charging a lesser amount must be documented and become part of the official debt file.

B. Penalty charges will continue to accrue after “date of death” when a claim is to be filed against the estate.

070304. Administrative Charges

A. In addition to interest and penalty charges, administrative charges will be assessed to cover the added costs incurred in handling a delinquent debt beyond the date on which
payment was due. Unlike the interest charge, which begins to accrue on the date the delinquent notice is issued, the administrative charge is applied only if payment is not made by the due date specified in the notice. This does not include payments that are current and made based on an agreed upon installment plan.

B. The Components must calculate administrative charges based upon actual costs incurred to cover the cost of processing and handling delinquent debt. If actual cost is not available, then Components may base the administrative charges upon other historical costs or cost analyses, as long as the method used supports determination of the charge and is documented in the official debt file. An administrative charge will be applied to all delinquent debts with due regard given to the length of time the debts are delinquent.

070305. Installment Payments and Application of Fees

When a debt is collected by installment payments, the amounts received must be applied first to contingency fees, second to outstanding penalties, third to administrative costs, fourth to interest, and last to principal. Contingency fees are paid by a federal agency to other federal agencies or private collection contractors for collection services rendered. These fees are paid from the amounts collected from the debtor.

0704 WAIVER OF ACCRUAL OF IPA CHARGES

*070401. Authority

Under 31 U.S.C. 3717, IPA charges may be waived, in whole or in part, either based on a compromise or settlement agreement, or when the collection of IPA charges is against equity and good conscience or is not in the best interest of the United States. See also 31 CFR 901. A decision to waive IPA charges must be made in accordance with the guidelines in paragraph 070402.

070402. Guidelines for Waiver of IPA Charges

The following guidelines for waiver of IPA charges must be followed.

A. The accrual of IPA charges may be waived when a debt is terminated or compromised, or when the additional charges would cause extreme hardship or would not be in the best interest of the government.

B. Decisions to waive the accrual of IPA charges should be considered on a case-by-case basis. In most circumstances, blanket waivers will not be granted. Decisions on such waivers must be documented, including an explanation as to the reasons for the waiver, and retained as a part of the official debt file.

C. The same organizational level, or the same designee, authorized to approve compromises, write-off indebtedness, or approve requests for waiver or remission of indebtedness, depending on the disposition of the basic debt, is authorized to approve waiver of the accrual of IPA charges.
D. Accrued IPA charges will be collected, reported, or compromised in the same manner as the basic debt.

0705 WRITE-OFF OF ACCRUED IPA CHARGES

When a debt is written off, the accrued IPA charges must also be written off. Write-off must be done in accordance with *Office of Management and Budget Circular A-129*. Volume 4, Chapter 3 contains additional requirements on debt write-off.
VOLUME 16: “DEFINITIONS”

SUMMARY OF MAJOR CHANGES

All changes are denoted by blue font.

Substantive revisions are denoted by an asterisk (*) symbol preceding the section, paragraph, table, or figure that includes the revision.

Unless otherwise noted, chapters referenced are contained in this volume.

Hyperlinks are denoted by bold, italic, blue, and underlined font.

The previous version dated October 2018 is archived.

DEFINITIONS

A. General

The following list defines significant terms related to debt management and debt collection.

B. List of Definitions

Accounts Receivable Office (ARO)

The ARO is the office responsible for recording and reporting receivables and may also be the office responsible for debt collection.

*Administrative Wage Garnishment (AWG)

AWG is a process whereby a non-federal employer is ordered by the Department of Treasury (Treasury) to withhold amounts from an employee's wages in order to collect a federal non-tax debt owed to a federal agency, such as DoD.

Cross-Servicing Program

The Cross-Servicing Program is the Treasury’s consolidated debt collection program in which the Treasury uses a variety of tools to collect a debt, such as demand letters, telephone calls, the Treasury Offset Program (TOP), AWG, and credit bureau reporting.

Debt

A. As defined in Title 31, United States Code, section 3701, debt is an amount of funds or property that an appropriate official of the Federal Government has determined to be due the U.S. Government from a person, organization, or entity other than another federal agency that the Government is entitled to receive immediately. Debts include, but are not limited to: insured or guaranteed loans and amounts due from fees, leases, rents, royalties, services, sales of real or personal property, overpayments, financial obligations from foreign military sales purchasers, penalties, damages, interest, fines, and forfeitures.

B. Debt in this context does not include tax debts, amounts due a nonappropriated fund instrumentality (unless specifically included in the DoD Financial Management Regulation), delays in processing employee-elected coverage, or a change in coverage under federal benefits programs if processing delays did not exceed 2 monthly or 4 biweekly pay periods.

Debt and Claims Management Office (DCMO)

The DCMO offers debt management and collection assistance for delinquent debts owed to the DoD by individual debtors who are former DoD employees that are no longer paid by the DoD.
Debt Collection Office (DCO)

DCO refers to the office or individuals at the DoD Component level that are primarily responsible for debt establishment and collection for the Component. DCOs that manage the debt collection for the Component are typically located in the following areas: AROs, military and civilian payroll offices (located both within and outside of the Defense Finance and Accounting Service (DFAS)), Debt Management Office (DMO), DCMO, contracting offices, disbursing offices, or the Foreign DMO.

Debt Compromise

Debt compromise is an agreement between the DoD and the debtor to accept less than the full amount of an outstanding debt in full satisfaction of the entire amount of the debt. A debt compromise is final and conclusive unless obtained by fraud, misrepresentation, presentation of a false claim, or mutual misstatement of fact.

Debt Management Office (DMO)

The DMO is the DFAS office that services referred vendor/contractor debts.

Debt Referring Office

The Debt Referring Office is the office responsible for referring contractor, assignee, and business entity debt to the DMO or the office responsible for referring individual out-of-service debt to the DCMO. The Debt Referring Office could include, but is not limited to: AROs, DCOs, accounting offices, military pay offices, vendor pay offices, contracting offices, and disbursing offices.

Delinquent Debt

A delinquent debt is a debt that has not been paid by the due date specified in the written demand for payment (i.e., invoice, debt notification letter, or applicable agreement or instrument (including a post-delinquency payment agreement)).

Erroneous Payment

An erroneous payment is a payment that was not legal and proper when made or is not in compliance with applicable laws or regulations (Title 32, Code of Federal Regulations, section 284.3). Refer to Volume 5, Chapters 5 and 6 for information on pecuniary liability. For purposes of DoD debt collection, examples of erroneous payments include:

A. An improper overpayment to a payee;

B. Two or more payments to a payee for the same entitlement (i.e., duplicate payment);

C. A payment to the wrong payee;
D. A U.S. Treasury check issue overdraft (in some cases);
E. A shortage caused by negotiation of both an original and a substitute Treasury check;
F. Payment based on fraudulent, forged, or altered documents; and
G. A payment made in violation of law or regulation.

Legally Enforceable Debt

A debt is legally enforceable if the DCO has made a final determination that the debt is valid and there are no legal bars to collection action. If the debt is the subject of a pending administrative review process required by statute or regulation, and collection action during the review process is prohibited, then the debt is not considered legally enforceable for purposes of mandatory referral to the Treasury.

Long-Term Loans and Credits

Long-term loans and credits include any indebtedness to the DoD in which the original payment terms provide for payment within a period of time exceeding one year after delivery or performance.

Offset

An offset is the withholding of the entire amount or a portion of a payment to a payee and applying the amount withheld to liquidate the payee’s debt. There are several methods used to perform an offset.

A. Administrative offset is the withholding of any funds payable by the United States to, or held by the United States for, a person to satisfy a debt.

B. Salary offset is limited to the withholding from pay and allowances. Salary offset is accomplished by installment deduction(s) at officially established pay intervals from the current pay of the individual.

C. Centralized offset is done by the Treasury and is administered through TOP. Centralized offset occurs when Treasury withholds part or all of a debtor's federal payments to satisfy the debtor's delinquent debt owed to the Government.

D. Non-centralized offset is also the withholding of a debtor’s federal payments, but it is done internally by federal agencies on a case-by-case basis.
Short-Term Loans and Credits

Short-term loans and credits are any debts in which the original payment terms provide for payment between 90 days up to, and including, one year after delivery or performance. Foreign Military Sales transactions, which provide for payment 120 days after delivery or performance, will be classified as short-term credit sales.

Suspension of Collection Action

Suspension of a collection action is a determination to cease collection action temporarily with the intent to initiate collection action at a later date.

Termination of Collection Action

Termination of collection action is a determination to cease active debt collection. Passive debt collection efforts, such as Treasury cross-servicing, may resume following termination of collection activity.

Treasury Offset Program (TOP)

TOP is a program that allows agencies to submit delinquent, valid, and legally enforceable debts to the Bureau of the Fiscal Service for collection via offset of all eligible payments the debtor may receive from the Government.

GLOSSARY

A. Overview

The following list defines general terms of significance or importance in financial accounting policies for the Federal Government, or the Department of Defense (DoD) that are discussed in various volumes of this Regulation. This glossary is provided for general information. It is not an exhaustive list of all financial management terms, and it does not define terms when standard dictionary definitions apply. Authoritative guidance with more detailed explanations or nuances may be found in specific volumes or chapters.

B. List of Definitions

**Accessorial Charges**
Costs incurred for packing, crating, and handling related to sales or shipments of property.

**Accountable Official (Departmental)**
See “Departmental Accountable Official.”

**Accounting Classification Code**
A series of alpha and numeric characters appearing on accounting source documents. The characters provide the information necessary to enter transactions into DoD accounting systems.

**Accounting Entity**
In DoD the accounting entity is the DoD Component; that is, the Department of the Army, the Department of the Navy, the Department of the Air Force, and the Office of the Secretary of Defense (OSD) and/or the Defense Agencies, regardless of appropriation or fund.

**Accounting Objectives**
Goals toward which accounting efforts are directed. The goals are derived directly from legal and regulatory requirements and the needs of intended users.

**Accounting System Design Documentation**
Documentation supporting the design of an accounting system that assures all relevant accounting principles, standards, and related requirements have been addressed. It consists of three distinct documentation packages: (1) the functional accounting system concept design, (2) the functional detailed design, and (3) various automated data processing documentation packages that track functional user requirements to specific computer programs. See Volume 1, Chapter 3 for specific documentation requirements.

**Accounts Payable**
Amounts owed to other entities for goods and services received (i.e., actual or constructive receipt), progress in contract performance, and rents due to other entities.
Accounts Receivable from the Public
All accounts receivable arising from the sale of goods and services and from operations involving other than Federal Government organizations. Examples are debts owed by military personnel, civilian employees, and contractors.

Accrued Variance (Foreign Currency Fluctuations)
The difference between un-liquidated obligations at the budget rate (approved execution rate) and the foreign exchange rate current at the time of payment.

Acquisition Cost
The original purchase, construction, or development cost, net of (less) any purchase discounts.

Adjustments to Expired or Closed Accounts (Upward or Downward)
Increases or decreases to obligations or expenditures. Adjustments involve recording obligations or expenditures that were made or incurred, but not recorded, during the period prior to expiration or cancellation of the account.

Administrative Subdivision of Funds
Any sub-division or legal restriction of an appropriation or fund that makes funds available in a specified amount for incurring obligations. Frequently used subdivisions include apportionments, allocations, sub-allocations, allotments and sub-allotments.

Advances
Disbursements of funds before performance have been certified by an authorized DoD receiving official.

Agency Financial Management System
The total of agency financial systems, both manual and automated, for planning, budget formulation and execution, program and administrative accounting; as well as all other systems for recording and classifying financial data and reporting financial management information, including purchasing, property, and inventory.

A. Financial Management Information. All information that is expressed in dollar terms on federal spending, collections, assets, liabilities, equity, and related budgetary and accounting transactions and balances.

B. Accounting System. The structure of methods and procedures used to record, classify, accumulate, analyze, summarize, and report information on the financial condition and operating position. It is comprised of the various functional operations involved in authorizing, recording, classifying, analyzing, and reporting financial information related to financing sources, gains, expenses, losses, transfers, assets, liabilities, equity, and internal controls. It encompasses the procedures and processes from the point a transaction is authorized through processing the data, either manually or automatically, to issuance of financial and management information statements and reports.
1. **Primary Accounting Systems.** The aggregation and consummation of like financial management information aligned by the major operational areas and summarized to support financial and management information needs. There are five Primary accounting systems made up of the single, standard integrated Departmental accounting systems, which controls all financial management information. The Primary accounting systems are General, Business Operations Fund (Stock Fund and Industrial Fund), Trust Fund, Civilian Pay, and Military Pay.

2. **Administrative Accounting Systems.**
   
a. **Accounting Support Systems.** The manual or automated programs, procedures and processes that authorize, record, classify, analyze, and report on financial management information for one of the Primary accounting systems. Accounting Support systems provide general ledger control and financial information on operations for consolidation to the Primary accounting systems.

b. **Subsidiary Accounting Systems.** The manual or automated programs, procedures and processes for one of the various functional operations involved with revenues, expenses, assets, liabilities, and equity. The Subsidiary accounting systems form the foundation and audit trail for the Primary accounting systems and the Accounting Support systems.

3. **Accounting System Modules.** Modules are distinguished by the fact that their functions and systems of internal controls are embodied in the accounting system. As such, modules are fully integrated subsystems of an accounting system, and they are inventoried and evaluated in conjunction with the accounting system.

4. **Feeder Systems.** The manual or automated programs, procedures and processes which develop data required to initiate an accounting or financial transaction but do not perform an accounting operation (e.g., personnel, property, or logistics systems).

**Allocations**

Allocations are further subdivisions of allotments. Within DoD, the term has been used to refer to departmental-level accounting entity distributions of apportionments, or funds that do not require apportionment, to an operating Agency or other intermediate level accounting entity.

**Allotments**

Subdivisions of apportionments that are made by the heads of agencies, or their designee, to incur obligations within a prescribed amount. Subdivision and distribution of an allotment (e.g., sub-allotments and allocations to operating agencies or installation-level accounting activities) must contain at least the same legal and other limitations applicable to the original allotment. Such subdivisions and distributions may establish additional legal and other limitations applicable to execution of budgetary resources.

**Annual (1-Year) Authority**

Budget authority that is available for obligation only during a specified fiscal year and expires at the end of that time.
Anticipated Reimbursements
The dollar value of orders expected to be received during the forthcoming fiscal year. Anticipated reimbursements do not create obligational authority until an actual order is received and accepted.

Antideficiency Act
Legislation enacted by Congress to prevent the incurring of obligations or the making of expenditures (outlays) in excess of amounts available in appropriations or funds; to fix responsibility within an agency for the creation of any obligation or the making of any expenditure in excess of apportionment or reapportionment or in excess of other subdivisions established pursuant to 31 United States Code (U.S.C.) §§ 1341, 1342, and 1517; and to assist in bringing about the most effective and economical use of appropriations and funds.

Apportionment
A distribution made by the Office of Management and Budget (OMB) of amounts available for obligation and expenditures in an appropriation or fund account into amounts available for specified time periods (usually fiscal quarters), programs, activities, projects, objects, or any combination of these. The apportioned amount limits the obligations that may be incurred. An apportionment may be further subdivided by an agency into allotments, sub-allotments, and allocations.

Appropriation Limitations
Statutory and other special restrictions, which impose a restriction on the availability of funds or the authority to obligate or expend appropriations for certain objects or purposes; such as, family housing.

Appropriation Warrant
An official U.S. Treasury document that provides the dollar amounts established in the general and detailed appropriation accounts of the U.S. Treasury pursuant to Appropriation Acts authorized by law. It serves as a convenient source document for entries into accounts that establish the amount of money authorized to be withdrawn from the U.S. Treasury.

Appropriation
A provision of law conferring authority to incur obligations for a specified purpose; usually, but not always, an appropriation provides budget authority, which is authority provided by law to incur financial obligations that will result in outlays. For purposes of the Antideficiency Act, the term "appropriations" may have a broader meaning, new budget authority and balances of budget authority as described in OMB Circular No. A-11, Section 20.4.

Asset Use Charge
A charge for the use of DoD assets (facilities and/or equipment) to recoup depreciation and interest on investment.

Authorizing Official (or Officer)
An individual who approves a transaction and verifies and validates the funds cited on a commitment or obligation document are accurate and available.
Balanced Budget and Emergency Deficit Control Act of 1985 (BBEDCA)

BBEDCA refers to legislation that shaped the budget process, first by setting fixed targets for annual deficits and then by replacing those with a Pay-As-You-Go requirement for new tax or mandatory spending legislation and with caps on annual discretionary funding. Most of these requirements expired in 2002. The Statutory Pay-As-You-Go Act of 2010, which did not amend the BBEDCA, reinstated a statutory pay-as-you-go rule for revenues and mandatory spending legislation. The Budget Control Act of 2011 (BCA), which amended the BBEDCA, reinstated discretionary caps on budget authority.

Bench Stock (Also Shop Stock)

Inventory held by a cost center for use as indirect material and used in support of numerous small projects or activities carried out by the cost center. Small items such as screws, washers, and lubricants characterize this type of stock.

Book Value

The recorded cost of a general Property, Plant, and Equipment (PP&E) asset, less its accumulated depreciation.

Borrowing Authority

Statutory authority to incur obligations and to make payments for specified purposes out of borrowed money. Within DoD, borrowing authority is used for mortgage assumptions under the Homeowners Assistance Program and for loans from the Federal Financing Bank.

Budget Authority

Budget authority (BA) means the authority provided by law to incur financial obligations that will result in outlays. Specific forms of budget authority include appropriations, borrowing authority, contract authority, and spending authority from offsetting collections.

Budget Control Act (BCA) of 2011

BCA refers to legislation that, among other things, amended the Balanced Budget and Emergency Deficit Control Act of 1985 to reinstate discretionary spending limits on budget authority through 2021 and restored the process for enforcing those spending limits; increased the statutory debt ceiling; and established a Joint Select Committee on Deficit Reduction that was instructed to develop a bill to reduce the Federal deficit by at least $1.5 trillion over a 10-year period. It also provided a process to implement alternative spending reductions in the event that legislation achieving more than $1.2 trillion of deficit reduction was not enacted by January 15, 2012.

Budget Rate

A foreign currency exchange rate provided to DoD Components for use in preparing budget submissions during budget formulation and for recording obligations during budget execution. Budget rates are provided by the DoD Comptroller and may be modified by the Congress. During execution, foreign currency obligations are recorded using the budget rate (rates approved for execution). (Also, see “Foreign Currency Fluctuations.”)
**Budgetary Resources**

For purposes of budget execution, budgetary resources include new budget authority, available unobligated balances at the beginning of the year, reimbursements and other income (also known as offsetting collections credited to an appropriation or fund account), recoveries of prior year obligations from unexpired accounts, and restorations. In the case of reimbursable work, budgetary resources available for obligation are comprised of earned reimbursements and unfilled customer orders (limited by the amounts collected in advance for orders from the public). In the case of loan programs, budgetary resources available for obligation from loan repayments and interest on loans are comprised of actual collections when authorized to be used.

**Business Concern**

Any person or organization engaged in a profession, trade, or business, and nonprofit entities (including State and local governments, but excluding Federal entities) operating as contractors.

**Cash-Flow Process**

Each process of collecting or disbursing moneys for Agency programs or operations, and for balances held outside of the U.S. Treasury.

**Cash-Flow Report**

A document summarizing each unique cash-flow process and corresponding opportunities for new cash management improvements.

**Cash Held at Personal Risk**

Cash held by authorized disbursing officers, their cashiers, and their agent officers, including alternates, for making miscellaneous cash payments, meeting cash payrolls or making change; funds established for making small purchases; imprest funds; cash held pending delivery to other disbursing officers; and for other purposes specifically authorized by law.

**Cash Management**

Practices and techniques designed to accelerate and control collections, ensure prompt deposit of receipts, improve control over disbursement methods, and minimize idle cash balances.

**Cash Management Review**

An ongoing study of an Agency's cash flows and corresponding cash management processes or mechanisms conducted to identify implementable improvement opportunities in an Agency's cash management practices.

**Centrally Managed Account**

Authority issued by the holder of an account (allotment/allocation) for incurring obligations for a specific purpose and in a specific amount. It is administered by publishing a centrally managed account number that permits authorized officials to charge the account for authorized purposes without further determination or certification of fund availability for individual transactions.
Certifying Officer
An individual designated to attest to the correctness of statements, facts, accounts, and amounts appearing on a voucher, or other documents. A certifying officer is pecuniary liable for payments in accordance with 31 U.S.C. § 3528.

Chargeable Account
The appropriation (department code, fiscal year, and appropriation symbol) contained in the line of accounting cited on the obligation document that is the basis for a particular payment.

Clearing Accounts
Accounts established solely to temporarily hold general, special, or trust fund collections or disbursements pending clearance to the applicable receipt or expenditure budgetary account. Except for clearance to the applicable receipt or expenditure budgetary account, clearing accounts are not available for obligation or expenditure.

Closed/Canceled Accounts
An appropriation that has been closed in accordance with 31 U.S.C. §§ 1551-1557. This term also includes an appropriation that otherwise would have been closed by 31 U.S.C. 1551-1557, but has not been closed by the Department of the Treasury because the appropriation has a negative balance. When balances are canceled, the amounts are not available for obligation or expenditure for any purpose.

Collections
Amounts received during the fiscal year. Collections are classified into two major categories: budget receipts and offsetting collections. Offsetting collections are classified into two major categories: offsetting receipts and collections credited to appropriation or fund accounts.

Commitment
An administrative reservation of funds based on firm procurement requests, unaccepted customer orders, Directives, and equivalent instruments.

Component Liaison Office
When the Defense Finance and Accounting Service (DFAS) was established, each Military Department and the Defense Logistics Agency formed financial management liaison offices in their Headquarters. The primary purpose of these staffs was to provide adequate communication among DFAS, and its larger customers; ensure the adequate dissemination of information; and help coordinate DoD finance and accounting policy and other issues. Some of the liaison functions at the Departmental level are still required to ensure adequate communications and coordination of finance and accounting issues among DFAS and DoD Components. DoD Agencies may establish a liaison focal point to interface with DFAS on an as required basis.
Conceptual Design of Accounting System

Documentation of the process that leads to a decision to develop a new accounting system or system segment, or to initiate a major upgrade effort. Documentation reveals the deficiencies in the current system, the accounting entities involved, the parameters of the accounting system, the accounting structure, security considerations, the alternatives considered, and the economic analysis developed to support a decision.

Consolidated Working Fund Accounts

Accounts established to hold funds transferred from other Agencies, DoD Components, or accounts until transferred to an appropriate account authorized by provisions of law. Applicable funds are not available for obligation or expenditure.

Construction in Progress (CIP)

A temporary classification of assets under construction. The costs of new construction and capital improvements are accumulated in a CIP account while the asset is under construction. CIP accounts are only utilized for construction of real property assets and shipbuilding (including ship conversion, alteration, or repair). Under certain contract provisions, CIP accounts include all costs incurred to bring the asset to a form and condition suitable for its intended use.

Contingency

An existing condition, situation, or set of circumstances that involves an uncertainty as to possible gain or loss. The uncertainty will be resolved when one or more future events occur or fail to occur. Resolution of the uncertainty may confirm a gain (i.e., acquisition of an asset or reduction of a liability) or a loss (i.e., loss or impairment of an asset or the incurrence of a liability).

Contingent Liability

The term has two meanings. As a budgetary term, it represents variables that cannot be recorded as valid obligations. Such variables include (1) outstanding fixed price contracts containing escalation, price redetermination, or incentive clauses, or (2) contracts authorizing variations on quantities to be delivered, or (3) contracts where allowable interest may become payable by the Federal Government on contractor claims supported by written appeals pursuant to the "DISPUTES" clause contained in the contract. As a proprietary accounting term, it represents a contingency posing the possibility of a loss when one or more events occur or fail to occur. Examples of loss contingencies include the collectability of receivables, pending or threatened litigation, and possible claims and assessments. DoD recognizes contingent liabilities when a future loss related to past events or exchange transactions is probable and the loss amount can be reasonably estimated.

Continuing Resolution

The Congressional resolution, in the absence of an appropriation act, providing authority for Agencies to continue current operations. Such continuing resolutions are subject to the Office of Budget and Management apportionment in the same manner as appropriations.
Contract

As defined by the Federal Acquisition Regulation (FAR) 2.101, “Definitions,” a contract is a mutually binding legal relationship obligating the seller to furnish the supplies or services (including construction) and the buyer to pay for them.

Contract Authority

Statutory authority to incur obligations but with liquidation of obligations dependent upon future actions of the Congress or by the receipt of customer orders or other available resources. (Within the Department, Contract Authority is apportioned budget authority that can be legally obligated. Contract Authority, however, is not funded and is apportioned and allocated without a supporting Treasury cash balance. Consequently, before an obligation incurred against Contract Authority can be liquidated, sufficient budgetary resources should be available for the outlay. For the Defense Working Capital Funds, obligations against Contract Authority are based on earned customer orders and cash balances in the fund corpus.)

Contract Financing Payment

A Federal Government cash disbursement to a contractor under the contract prior to acceptance of goods or services by the Federal Government.

Contract Liquidating Authority

An appropriation, or re-appropriation, enacted to pay the obligations incurred under the contract authority.

Contractor-Acquired Property

General PP&E assets acquired by a contractor on behalf of a DoD Component for use in the performance of a contract. It does not include federal government furnished material or equipment. Also, see Government Furnished Equipment.)

Cost

A monetary measure of the amount of resources applied to a cost objective. Within DoD, "costs" are identified following generally accepted accounting principles and standards as implemented in this Regulation. The fact that collections for some cost elements are deposited into Miscellaneous Receipts of the Treasury does not make those costs "extraneous." It simply means the Congress has not authorized such amounts to be retained by appropriation accounts. After costs have been identified, following Federal Accounting Standard Advisory Board standards, including the Statement of Federal Financial Accounting Standard 4 on cost accounting rules, a DoD Component may proceed to eliminate cost elements, or process waivers, in accordance with legal authorities.
**Cost Center**
A logical or physical grouping of one or more similar services for the purpose of identifying obligations or developing the cost identification for the services. Services are grouped into cost centers in order to (1) normalize between services that use similar resources with different capabilities, (2) apply surcharges and discounts to services, (3) identify costs for different classes of the same service, or (4) identify obligations. This is the lowest level (that is, unit) or activity that is used to identify obligations or expend resources to produce a unit of work, and the lowest level of activity to segregate costs for management in order to assess efficiency, usage, examine trends.

**Cost Clearing Account**
An account used when standard rates are employed. The actual expenses are debited to the cost clearing account and the amounts billed to customers are credited to the account. At the end of the fiscal year, the account is closed with analysis performed to determine if rates require adjustment.

**Cost Finding**
Procedures designed to accomplish a result approximating the results of a formal cost accounting system.

**Cost Objective**
An activity, operation, or completion of a unit of work to complete a specific job for which management decides to identify, measure, and accumulate costs. The cost objective must be discrete enough and described in writing to such a level of detail to form a basis to establish cost centers and output products.

**Current Receivable**
All receivables that will be due within the 12 months following the reporting period.

**Current Value of Funds Rate (CVFR)**
The average investment rate for the U.S. Treasury Tax and Loan accounts expressed as an annual rate and published by the U.S. Treasury in the "Federal Register" each year. Uses of the CVFR include determining the effectiveness of taking cash discounts and calculating interest on overdue federal government receivables.

**Customer Order**
An order received and accepted by the performing activity from a customer. It is written evidence that a meeting of the minds has taken place and that certain goods and services will be provided to the tenderer of the order for payment of a dollar amount. The order must contain an original signature or equivalent of both the ordering activity and the receiving activity and must specify a dollar amount. The specified dollar amount cannot be exceeded.

**Cutoff Time**
A time prescribed by a financial institution beyond which transactions presented or actions requested will be deferred to the next banking day's business.
Day
A calendar day, unless otherwise noted. If the day on which an action is required falls on a nonworking day, then day means the next working day.

Default
Failure to meet any obligation or term of a credit, grant, or other agreement.

Defense Working Capital Fund (DWCF)
A revolving fund using a business-like buyer-and seller approach with a goal of breaking even over the long term. Stabilized rates or prices are generally established each fiscal year. DWCF stabilized rates or prices are adjusted for sales to customers to include an amount for unfunded civilian retirement and post-retirement health benefits costs. The DWCF was established on December 11, 1996, upon the reorganization of the former Defense Business Operations Fund.

Deferrals
Budgetary resources that have been deferred as reserves to provide for contingencies to achieve savings made possible by or through changes in requirements or greater efficiency of operations or as specifically provided by law.

Definite Authority
Authority that is stated as a specific sum at the time it is granted. This includes authority stated as not to exceed a specified amount. Most DoD appropriations are for definite amounts of authority.

Delivered Orders
The term used for the credits entered into the budgetary accounts to recognize liabilities incurred for (1) services performed by employees, contractors, other Government accounting entities, vendors, carriers, grantees, lessors (2) goods and other tangible property received; and (3) items such as annuities or insurance claims for which no current service is required. Accrued expenditures are categorized as either paid or unpaid.

Delivered Orders-Paid
The budgetary account that represents the dollar value of goods and services received for which payment has been made.

Delivered Orders-Unpaid
The budgetary account matching the proprietary account, "accounts payable." It represents the dollar value of goods and services received for which payment has not been made. (Also, see "Accounts Payable."

Demand Cash Withdrawal
Commercial checks made payable to cash for withdrawal by the cashier.

Departmental Accountable Official
An individual responsible for providing a certifying officer with information, data, or services that the certifying officer relies upon in the certification of vouchers for payment.
Deposit (noun)  
Money presented for credit to the U.S. Treasury. Such transfers may be made by Agencies or directly by the remitter. All such transfers are effected through a Federal Reserve Bank or other financial institution.

Deposit (verb)  
The act of presenting moneys for credit to the U.S. Treasury by an Agency official.

Deposit Funds  
Receipts held temporarily and later refunded or paid into some other Treasury fund or other entity, or held by DoD as banker or agent for others and paid out at the direction of the owner.

Deposit Fund Accounts  
Expenditure accounts established to account for deposit fund receipts. Such funds are not available for paying salaries, grants, or other expenses of the Federal Government. Expenditures are often offset by receipts within this type of fund.

Depreciation  
The systematic and rational allocation of the acquisition cost of an asset, less its estimated salvage or residual value, over its estimated useful life.

Direct Cite  
Citation of customer funds as the financing source on documents leaving the DoD system, that is, contracts with commercial firms, General Services Administration, or Department of Transportation. The term direct cite is not valid if any DoD organization establishes a reimbursable order to a DoD appropriation account, or business operation fund. When direct cite is used, all accounting is accomplished by the ordering activity. The source documents are returned to the allotment holder who accomplishes all required accounting. In the case of the Foreign Military Sales program, it specifically refers to documents that result in a disbursement to other than a DoD organization (a contractor, other Federal Agency, or employee).

Direct Delivery  
Items shipped directly from a contractor to a customer, whether from a consolidated military services procurement or a contract solely for that customer.

Direct Loan  
An obligation created when the Federal Government disburses the funds and contracts with the debtor for repayment, with or without interest, or when the Government acquires a guaranteed private loan in satisfaction of default or other claim.

Direct Program  
The budget authority in an appropriation act. (See "Budget Authority.")
Disbursements

Amounts paid by Federal Agencies, by cash or cash equivalent, during the fiscal year to liquidate government obligations. “Disbursement” is often used interchangeably with the term “outlay.” In budgetary usage, gross disbursements represent the amount of checks issued and cash or other payments made, less refunds received. Net disbursements represent gross disbursements less income collected and credited to the appropriation or fund account, such as amounts received for goods and services provided. For purposes of matching a disbursement to its proper obligation, the term disbursement refers to the amount charged to a separate line of accounting.

Disbursing Officer

An officer or employee of a Federal Department, Agency or Corporation designated to disburse moneys and render accounts according to laws and regulations governing the disbursement of public moneys.

Discount (Cash)

A reduction in the amount due on an account payable offered by the vendor if paid within a stated period.

Discount (Trade)

A reduction in price, usually varying in percentage with volume of transactions, made by vendors to those engaged in certain businesses and allowable irrespective of the time when the account is paid.

DoD Component

For purposes of this Regulation, unless otherwise noted "DoD Component" includes the following: OSD; the Chairman, Joint Chiefs of Staff and the Joint Staff; the DoD Inspector General; the Military Departments including the Coast Guard when assigned to the Department of the Navy; the Defense Agencies; DoD Field Activities; the Combatant Commands; Washington Headquarters Services, the Uniformed Services University of the Health Sciences, and all non-appropriated fund instrumentalities.

DoD Education Benefits Trust Fund

A fund established for education assistance purposes for active and reserve force personnel. It derives its resources through transfers from military personnel accounts and from interest earned from investments in Federal Government securities.

Earned Reimbursement

The amount recognized when a performing organization renders actual or constructive performance on a reimbursable order.

Economy Act Order

An order for goods or services placed by a Federal Agency or Department to another governmental agency under the provisions of §31 U.S.C. §§ 1535 and 1536. (See Volume 11A, Chapter 3).
Electronic Data Interchange (EDI)
The exchange of standardized information between business partners typically communicated electronically between computers. It is DoD policy that DoD Component EDI applications shall conform to the American National Standards Institute, Accredited Standards Committee X12 standard.

Electronic Funds Transfer (EFT)
The act of debiting or crediting accounts in financial institutions by wire rather than source documents, such as, paper checks. Processing typically occurs through the Federal Reserve Bank clearing houses.

Entitlements
Legally established benefits available to any person or unit of Federal Government meeting eligibility requirements established by law.

Executory Costs
Those costs associated with ownership of an asset such as insurance, taxes, and normal maintenance. In the case of a capital lease, the portion of the lease payment that represents executory costs is not capitalized, but is expensed.

Expenditure
An actual disbursement of funds in return for goods or services. Frequently used interchangeably with the term “outlay.”

Expense
The outflow or other depletion of assets or incurrence of liabilities (or a combination of both) during some period as a result of providing goods, rendering services, or carrying out other activities related to an entity’s programs and missions, the benefits from which do not extend beyond the present operating period. In financial accounting and reporting, the costs that apply to an entity’s operations for the current accounting period are recognized as expenses of that period.

Expired Account or Appropriation
Appropriation or fund account in which the balance is no longer available for incurring new obligations, but is still available for recording, adjusting, and liquidating valid obligations. The account remains available for such purposes for five years after expiration period.

Facilities
Industrial property (other than material, special tooling, special test equipment, and military property) for production, maintenance, research, development, or test including real property (other than land) and rights therein, buildings, structures, improvements, and plant equipment (including capital leases).

Fast Pay
Disbursement to a contractor based on the contractor's certification that delivery has been made at the time an invoice is presented for payment.
Federal Agency
This has the same meaning as the term "Agency" in 5 U.S.C. § 551(1), and includes any entity that is operated exclusively as an instrumentality of such an Agency for administering one or more programs of that Agency. Both DoD appropriated and non-appropriated fund activities are included under this definition.

Financial Institution
Bank, Savings Association, or Credit Union eligible under 31 C.F.R. 202 to serve as a Federal Government depositary.

Financial Management System
A financial operation that includes the financial system and the financial portion of mixed systems necessary to support financial management; automated and manual processes, procedures, and controls; data; hardware; software; and support personnel dedicated to the operation and maintenance of system functions.

Financing Interest
Interest charged as a cost of extending credit as distinguished from interest charged because of delinquency.

Financing Payment
Disbursement of funds after performance has occurred but before physical delivery. The most common type of financing payment is the progress payment made to DoD contractors to reimburse incurred cost before ordered items or material are delivered. (See “Contract Financing Payment.”)

Fixed Accounts
Appropriation or fund accounts with balances that are available for a definite period of time. The fixed accounts are comprised of annual and multiyear accounts. The universe of appropriation or fund accounts is made up of fixed accounts and no-year accounts.

Foreign Currency Fluctuations
The difference between budget rates approved for execution and actual foreign currency exchange rates in effect at time of payment that cause changes in obligations or contractual liabilities. Obligations are recorded using the budget rate, and payments are made using the current foreign currency exchange rate.

Foreign Currency Unliquidated or Liquidated Obligations
Foreign currency un-liquidated obligations are derived by taking obligations at the budget rate less the disbursements at the budget rate. Foreign currency liquidated obligations is the actual disbursement at the budget rate.

Fund Groups
The range of numeric or alpha and/or numeric account symbols assigned by the Treasury to identify groups of accounts; such as, 0000 to 3799 = General Funds.
Fund Holder
An individual holding an administrative subdivision of funds or an operating target, who is responsible for incurring obligations against the administrative subdivision or target and for managing the use of such funds.

Funded Carryover
The incomplete portion of a job order for goods or services to be provided by a business operation fund activity. Usually, funded carryover is measured at the end of a fiscal period, that is, a fiscal year.

Funding Account
The appropriation (department code, fiscal year, and appropriation symbol) contained in the line of accounting cited on the obligation document provided to fund a disbursement that otherwise would have been chargeable to a closed appropriation.

Funds Certifying Official
An individual responsible for the proper assignment of funding on a commitment or obligation document before the obligation is incurred.

General Fund Accounts
These consist of (1) receipt accounts used to account for collections not dedicated to specific purposes and (2) expenditure accounts used to record financial transactions arising under congressional appropriations or other authorizations to spend general revenues.

General Fund Receipt Accounts
Accounts established for receipts of the Federal Government that are not earmarked by law for specific purpose and that are not available for obligation and expenditure.

General Management Computer
A computer that is used for any purpose other than as a part of a process control system, space system, mobile system, or equipment that is an integral part of a weapon or weapons system. It also excludes equipment involved with intelligence activities and cryptologic national security activities.

Government-Furnished Equipment
Property provided to a contractor by DoD. It is used in producing an end product. It is not consumed, but is returned in the same form at the end of the contract.

Government-Furnished Material
Property provided to a contractor by DoD. It may be incorporated into an end item (a change in form) or may be consumed in the performance of a contract.

Grants
Assistance awards for which no substantial involvement is anticipated between DoD and the recipient during performance of the contemplated activity.
Guaranteed Loan
A contingent liability created when the Federal Government insures the private lender who disbursed the funds that the lender will be repaid to the extent of the amount or percentage guaranteed in the event of default by the debtor; a DoD Component pledge to pay part or all of the loan principal and interest to a lender, or holder, of a security in the event of default by a third party borrower.

Holdback
The amount withheld from payments to contractors to assure compliance with contract terms. Usually the amount to be withheld is expressed as a percentage in the contract provisions.

Imputed Cost
Imputed cost is a reporting entity’s share of an expense not incurred directly, but borne by another reporting entity and not reimbursed.

Indefinite Appropriations
Appropriations of a current or permanent nature in which a definite amount is not stated.

Indefinite Authority
Authority for which a specific sum is not stated, but is determined by other factors such as the receipts from a certain source or obligations incurred.

Information Technology Facility (ITF)
An organizationally defined set of personnel, hardware, software, and physical facilities, operated within or on behalf of DoD, a primary function of which is the operation of information technology. An ITF includes:

1. The personnel who operate computers or telecommunications systems; develop or maintain software; provide user liaison and training; schedule computers; prepare and control input data; control, reproduce, and distribute output data; maintain tape and disk libraries; provide security; and provide direct administrative support to personnel engaged in these activities.

2. The owned or leased computer and telecommunications hardware, including central processing units; associated peripheral equipment such as disk drives, tape drives, printers, and consoles; data entry equipment; telecommunications equipment including control units, terminals, modems, and dedicated telephone and satellite links provided by the facility to enable data transfer and access to users. Hardware acquired and maintained by users of the facility is excluded.

3. The software, including operating system software, utilities, sorts, language processors, access methods, data base processors, and similar multi-user software required by the facility for support of the facility and/or general use by users of the facility. All software acquired or maintained by users of the facility is excluded.

4. The physical facilities, including computer rooms, tape and disk libraries, stockrooms and warehouse space, office space, and physical fixtures.
Interagency Allocations

According to OMB Circular A-11, section 20.4(l), “Allocation means a delegation, authorized in law, by one agency of its authority to obligate budget authority and outlay funds to another agency. When an agency makes such a delegation, the Treasury Department establishes a subsidiary account called a "transfer appropriation account", and the receiving agency may obligate up to the amount included in the account. The budget does not show the transfer appropriation account separately. The budget schedules for the parent account include the obligations by the other agency against the subsidiary account without separate identification, except in the object class schedule. Allocations are appropriate where the receiving agency is acting as the agent for the allocating agency.”

Internal Control Documentation

Written policies, organization charts, procedural write-ups, Manuals, memoranda, flow charts, decision tables, completed questionnaires, software, and related written materials used to describe the internal control methods and measures, to communicate responsibilities and authorities for operating such methods and measures, and to serve as a reference for persons reviewing the internal controls.

Internal Controls

The manner in which financial, manpower, and property resources are to be controlled and safeguarded by the regular authorization, approval, documentation, recording, reconciling, reporting, and related accounting processes.

Internal Control Standards

The standards issued by the Comptroller General for use in establishing and maintaining systems of internal control. Those standards are applicable to all operations and administrative functions, but are not intended to limit or interfere with duly granted authority for the development of legislation, rulemaking, or other discretionary policymaking in an Agency.

Internal Control Techniques

The application of prescribed processes and documents to efficiently and effectively accomplish an internal control objective and to help safeguard an activity from waste, loss, unauthorized use, or misappropriation.

In-transit Disbursements

Disbursements that have been reported by a disbursing office, through a paying center, to the Department of the Treasury and charged against the Department’s fund balances, but have not yet been received or processed by the applicable accounting office for recordation against the applicable corresponding obligation. This includes inter-service, intra-service, and inter-fund disbursement transactions. This definition includes disbursements originating outside the DoD.

Inventory Price

For non-stock fund items the inventory price is the acquisition cost. For stock fund items, the inventory price is acquisition cost plus prescribed surcharges. (See "Acquisition Cost.")
Investment
As a budget term, investment refers to equipment financed with procurement appropriation accounts. As an accounting term, investments represent the value of securities and other assets held for the production of revenues in the form of interest, dividends, rentals or lease payments, net of premiums or discounts.

Invoice
As defined by FAR 2.101, Definitions, an invoice is a contractor’s bill or written request for payment under the contract for supplies delivered or services performed.

Invoice Payment
A Federal Government disbursement of monies to a contractor under a contract or other authorization for supplies or services accepted by the Government.

Letter Contract
An offer and acceptance that is specific and definitive enough to show the purpose and scope of the final contract to be executed. When accepted in writing by the contractor, documentary evidence exists to support the recording of an obligation.

Loan Guarantees
Agreements by which a DoD Component pledges to pay part or all of the loan principal and interest to lenders or holders of securities in the event of default by third-party borrowers.

Management Fund Accounts
Working fund accounts authorized by law to facilitate accounting for collections from two or more appropriations or funds to finance an activity not involving a continuing cycle of business-type operations and that are available for obligation and expenditure. Those are combined receipt and expenditure accounts established by law, with receipts derived from such operations usually available in their entirety for use by the fund without further action by the Congress.

Military Interdepartmental Purchase Request (MIPR)
An order issued by one military service to another to procure services, supplies, or equipment for the requiring service. The MIPR (DD Form 448) may be accepted on a direct citation or reimbursable basis. It is an Economy Act (31 U.S.C. § 1535 and 31 U.S.C. § 1536) order subject to downward adjustment when the obligated appropriation is no longer valid for obligation.

Military Retired Pay (Includes Fleet Reserve and FMCR Retainer Pay)
(A reduced pay entitlement for reduced services.) The gross entitlement for a retired service member based on terms and conditions of law, pay grade, years of service, percentage of disability, if applicable, and date of retirement (transfer to the retired reserve).

Military Retirement Trust Fund
A trust fund established to finance the retirement cost of active and reserve military personnel. An accrual amount is transferred monthly from the military personnel accounts to the Fund based on a fixed percentage of basic pay for full-time and part-time personnel. The accrual amounts are determined by the DoD Board of Actuaries who are appointed by the President for
15-year terms. In addition, amounts are deposited into the Fund to liquidate the unfunded liability of retired pay earned prior to establishment of the Fund. Interest on investments of the Fund assets in Federal Government securities are also transferred into the Fund.

**Minimum Lease Payments**

The payments that the lessee is obligated to make or may be required to make in connection with leased property. (Contingent rentals are excluded from the minimum lease payments.)

**Multiple-Year Authority**

Budget authority that is available for original obligation for a specified period in excess of 1 fiscal year.

**Negative In-transit Disbursements**

The opposite of in-transit disbursement. The accounting office has processed disbursements for recordation against the applicable corresponding obligation but the disbursing office has not reported the disbursements, through a paying center, to the Department of the Treasury and charged against DoD’s fund balances. (See “In-transit Disbursements.”)

**Negative Unobligated Balance**

An appropriation or fund in which the amount of obligations exceeds the amount of obligational authority. (In closed appropriations, the available obligational authority is equal to the unobligated balance.)

**Negative Unliquidated Obligation**

A disbursement transaction that has been matched to the cited detail obligation, but the total disbursement(s) exceeds the amount of that obligation.

**Noncurrent Receivable**

A receivable that will not be due within 12 months following the reporting period.

**Non-expenditure Transfers**

A redistribution of either unobligated balances of budget authority provided in a previous year, or budget authority provided in the current year between appropriations or funds for the benefit of the gaining appropriation or fund. Transfers of obligated balances and sometimes re-appropriations also require non-expenditure transfers.

**No-Year Authority**

Budget authority that remains available for obligation for an indefinite period of time.

**Obligation**

Amount representing orders placed, contracts awarded, services received, and similar transactions during an accounting period that will require payment during the same, or a future, period. Includes payments for which obligations previously have not been recorded and adjustments for differences between obligations previously recorded and actual payments to liquidate those obligations. The amount of obligations incurred is segregated into undelivered orders and accrued
expenditures - paid or unpaid. For purposes of matching a disbursement to its proper obligation, the term obligation refers to each separate obligation amount identified by a separate line of accounting.

**Obligational Authority**

The sum of (1) budget authority provided for a given fiscal year, (2) balances of amounts brought forward from prior years that remain available for obligation, and (3) amounts authorized to be credited to a specific fund or account during that year, including transfers between funds or accounts. (See "Budget Authority.")

**Offsetting Collections**

Collections from Federal Government accounts or from transactions with the public. The two major categories of offsetting collections are offsetting receipts (amounts deposited to receipt accounts) and offsetting collections credited to appropriation or fund accounts.

**Offsetting Receipts**

Collections that are deposited into proprietary Miscellaneous Receipt Accounts of the Department of the Treasury. Applicable deposits offset the collecting Agency's budget authority and outlays.

**Operating Agency**

A major organizational unit within a Military Department or Defense Agency that is responsible for (1) the active planning, direction, and control of a program or segment, thereof, and (2) the control of the funds allocated to it.

**Outlays**

The amount of checks issued or other payments made (including advances to others), net of refunds and reimbursements. Outlays are net of amounts that are adjustments to obligational authority. The terms "expenditure" and "net disbursement" are frequently used interchangeably with the term "outlay". Gross outlays are disbursements and net outlays are disbursements (net of refunds) minus reimbursements collected.

**Over-aged Disbursement**

A disbursement that is not matched to a corresponding obligation within specified timeframes.

**Overhead Rate**

The rate determined by performing organizations to allocate operating costs not directly identifiable to the work order. The rate may include supervisory, general, and administrative expenses as well as miscellaneous material and supplies.

**Participation Loan**

A loan that consists of both direct and guaranteed portions.
Pass-throughs (Current Year)
Revolving fund revenues received during the current fiscal year which: (1) are in addition to amounts provided for in the customer stabilized rate structure and (2) represent reimbursement for current year costs or amounts in excess of amounts budgeted, or otherwise provided for, in the President's budget on which approved customer stabilized rates for the [current] year were based.

Pass-throughs (Prior Year)
Revolving fund revenues, which provide for the recoupment of amounts associated with prior year efforts or sales. These amounts represent the recoupment of amounts beyond those contained in the DoD stabilized rate structure for the applicable prior fiscal year for which the efforts were performed. These amounts are generally intended to offset prior year losses and/or amounts in excess of amounts previously budgeted.

Pay Account
The part of each individual civilian and Military Service member's master pay record that contains all transaction information on payments and deductions with an audit trail to the authorizing documents. The pay account includes information such as pay grade, record of payments, all earnings separately identified by type (basic pay, bonuses, danger pay); allowances; allotments; year-to-date gross earnings; taxable earnings, taxes withheld, and leave data (amount earned, taken, lost, forfeited, advanced, or used).

Pay and Allowances
Payment to active duty, Reserve, National Guard, and retired members and their surviving annuitants, other than travel and transportation reimbursements, and to all civilian employees and direct hire employees in foreign locations, other than travel and transportation expenses.

Paying Office
A disbursing office. In the case of contracts, the place named in the contract for forwarding invoices for payment.

Period of Availability
The period of time in which budget authority is available for original obligation.

Planning, Programing, Budgeting, and Execution (PPBE)
A cyclic process containing four distinct, but interrelated phases: planning, programing, budgeting, and execution. In addition to establishing the framework and process for decision making on future programs, the process permits prior decisions to be examined and analyzed from the viewpoint of the current environment (threat, political, economic, technological, and resources) and for the time period being addressed. The ultimate objective of PPBE is to provide operational commanders the best mix of forces, equipment, and support attainable within fiscal constraints.

Political Subdivision of Local Government
A local unit of government, including specifically a county, municipality, city, town, township, school district, or other special district created by State law, or combination of these units.
Port Loading and Unloading Costs
A subset of accessorial costs. The costs incurred for loading, unloading, and handling at the ports of embarkation and debarkation.

Pre-positioning Costs
The accessorial costs incurred to store items at locations outside the United States in anticipation of support to other authorized customers.

Predetermined Rate
The rate established by appropriate authority for use in computing recoverable amounts.

Pre-validation
Pre-validation is a procedure that requires a proposed payment be identified/matched to its applicable proper supporting obligation that has been recorded in the official accounting system and that the line(s) of accounting cited on the payment match the data recorded in the accounting system.

Private Parties
Consists of non-U.S. Government activities; foreign governments, firms, and organizations; and international organizations, other than Foreign Military Sales (FMS) customers and FMS/International Military Education and Training Program (IMET) recipients.

Project Order
An order for goods or services issued under the authority in 41 U.S.C. § 6307 to a separately managed and financed Federal Government owned and operated establishment. (See Volume 11A, Chapter 2.)

Property Book
A documentary record of every item on a "Table of Organization and Equipment List", or other type of allowance list, showing that a unit is prepared to accomplish its assigned mission. The property book lists both capitalized and expensed assets, shows quantities on hand, items due in, open requisitions, unit prices, hand receipts.

Realized Variance (Foreign Currency Fluctuations)
The difference between actual obligations at the budget rate (approved execution rate) and the foreign exchange rate in effect at the time of payment (liquidation of the obligation). The variance is equal to the amount disbursed from the applicable centrally managed allotments.

Real Property
Fixed assets that are comprised of land and the rights to land; buildings to include capitalized additions, alterations, improvements, and rehabilitations; and other structures and facilities. Real property does not include personal property (weapons systems and other military equipment).

Reapportionment
An Office of Management and Budget approved change to the previously approved apportionment for the current year. (See “Apportionment.”)
Re-appropriation

Statutory authority to restore or extend the obligational availability, whether for the same or different purpose, of all or part of the unobligated balance of budget authority that has expired or otherwise would expire in an annual or multiple-year appropriation. Re-appropriation transactions require non-expenditure transfer of the funds involved from the expired or otherwise expiring account to the designated current account when the unobligated balance has not been withdrawn to the surplus fund of the U.S. Treasury. If the unobligated balance has been withdrawn, then the transaction requires a warrant. Re-appropriations that provide funds to a fiscal year for which they were not previously available constitute new budget authority in the receiving account.

Refunds

Recoveries of overpayments that result from errors in paying invoices or from items returned to vendors. (Also see "Refunds and/or Transfers (Current Year)" and "Refunds and/or Transfers (Prior Year)."

Refunds and/or Transfers (Current Year)

Industrial fund amounts transferred on a non-expenditure basis which represent the transfer of revenue collected through stabilized rates which: (1) is in excess of current year costs or (2) otherwise exceeds the purpose for which initially intended in the current year. (The latter case, for example, may include the collection of Asset Capitalization Program surcharges in excess of amounts ultimately approved by the Congress for the Asset Capitalization Program.) These transfers are generally made to appropriated funds and provided for in a general provision contained in the applicable annual appropriation act.

Refunds and/or Transfers (Prior Year)

Industrial fund amounts transferred on a non-expenditure basis, which represent the transfer of amounts associated with prior year efforts or sales. These amounts usually represent the transfer of revenue collected through stabilized rates which: (1) were in excess of [then] current year costs or (2) otherwise exceeded the purpose for which initially intended. These transfers are generally made to appropriated funds and provided for in a general provision contained in the applicable annual appropriation act.

Reimbursable Order

An order for services, supplies, material, or equipment placed by a requiring (or ordering) DoD Component (or Federal Agency) and furnished by another DoD Component (or Federal Agency) without separate identification of the items, or separate citation of the funds of the requiring DoD Component; and with subsequent delivery to and reimbursement by the requiring DoD Component. The requiring DoD Component records the reimbursable order as an obligation when the servicing (or performing) DoD Component accepts the reimbursable order in writing.

Reimbursements

Amounts earned and collected for property sold or services furnished either to the public or to another Federal accounting entity. To be an appropriation reimbursement, the collection must be authorized by law for credit to the specific appropriation or fund account.
Replacement Cost
Obligations to be incurred at a future time to procure equipment or material in place of items, which have been sold or transferred. There are two methods used to determine replacement cost: (1) Replacement cost may be determined by applying the OSD prescribed inflation factor to the most recent contract price of the item to be replaced. The inflation factor is applied to each fiscal year between the year the item sold or transferred was acquired and the fiscal year in which the replacement item will be delivered. (2) Replacement cost may also be determined by obtaining a current contractor quote for the replacement item. Normally the second method is the most accurate method.

Reportable Accounting System or Segments
A system or segment that satisfies the definition of an accounting system.

Reprogramming
Realignment of budget authority from the purpose for which appropriated to finance another (usually emergent, unfunded) requirement. A necessary, desirable, and timely device during execution of Defense programs for achieving flexibility in the use of DoD funds provided in appropriation acts.

Reschedule
(Restructure, refinance, forbear, re-amortize, or defer) To establish new terms or conditions in order to facilitate the repayment of debt. For example, stretching out or extending into the future such payments.

Rescission
Legislation that cancels budget authority previously provided by Congress before the time when the authority would otherwise lapse, that is, cease to be available for obligation.

Reserves
Portions of budgetary resources set aside by OMB to (1) provide for contingencies, or (2) effect savings made possible by or through changes in requirements or greater efficiency of operations.

Residual Value
Residual value is the estimated value remaining at the end of a capital asset's useful life to DoD or the amount that can be expected to be recovered from the asset's disposal when it is removed from service.

Resource Manager
An individual who verifies and validates the funds cited on a commitment or obligation document are accurate and available.

Restoration
An unobligated amount previously withdrawn by administrative action to the merged surplus balances that is again made available to fund within scope increases to original obligations or to fund other Congressionally approved programs pursuant to law.
Revolving Fund Accounts

Accounts authorized by specific provisions of law to finance a continuing cycle of business-type operations, and which are authorized to incur obligations and expenditures that generate receipts.

Sequestration

Sequestration means the permanent cancellation of budgetary resources. The Statutory Pay-As-You-Go Act of 2010 requires such cancellations if revenue or direct spending legislation is enacted that, in total, increases projected deficits or reduces projected surpluses relative to the baseline. Under the law, selected mandatory programs would be subject to across-the-board cancellations. BBEDCA, as amended, requires such cancellations if discretionary appropriations exceed the statutory limits on discretionary spending.

Special Fund Accounts

Separate receipt and expenditure accounts established to account for receipts of the Government that are earmarked by law for a specific purpose but are not generated by a cycle of operations for which there is continuing authority to reuse such receipts.

Special Fund - Expenditure Accounts

Accounts established to record amounts appropriated, or otherwise made available by transfers from a special fund receipt account to be obligated and expended for special programs in accordance with specific provisions of law.

Special Funds - Receipt Accounts

Accounts credited with receipts from specific sources that are earmarked by law for a specific purpose, but which are not generated from a continuing cycle of operations.

Specialized or Technical Services

Statistical and other studies and compilations, developmental projects, technical tests and evaluations, technical information, training activities, surveys, reports, documents, and any other similar service functions that any Federal Agency is especially equipped and authorized by law to perform.

Suballotments

Subdivisions of allotments. (See “Allotments” and “Apportionment.”)

Suspense Account

A clearing account established by the U.S. Treasury’s Financial Management Service to temporarily hold unidentifiable general, revolving, special, or trust fund collections that belong to the Federal Government. The funds remain in the suspense accounts until they can be reclassified to the proper receipt or expenditure accounts. Collections should be reclassified from suspense accounts within 60 days.

Tangible Assets

Tangible capital assets are depreciable property, plant, equipment, and software developed, manufactured, transferred or acquired for a determinable cost meeting or exceeding the established
capitalization threshold; are used over a period (useful life) estimated to be 2 years or greater; and generally become economically worthless (except for residual value) at the end of their estimated useful lives.

**Transfer**
Transfer means the movement or shifting of budgetary resources from one budget account to another. Agencies may transfer budget authority only as specifically authorized by law. For budgetary accounting purposes, the nature of the transfer determines whether the transaction is recorded as an expenditure transfer, which means a transfer that involves an outlay, or as a nonexpenditure transfer, which means a transfer that does not involve an outlay.

**Transportation Costs**
The costs incurred for shipment of material.

**Treasury Financial Communications System**
The computer-to-computer link between the U.S. Treasury and the Federal Reserve Bank of New York.

**Trust Fund**
Trust fund refers to a type of account, designated by law as a “trust fund,” regardless of any other meaning of the term “trust fund.” A trust fund account is usually either a receipt, an expenditure, or a revolving fund account (trust revolving fund account). Trust revolving fund accounts have no receipt account and the collections are credited directly to the expenditure account.

**Trust Fund Expenditure Accounts**
Accounts that are established to record amounts appropriated, or otherwise made available by transfer from a trust fund receipt account to be obligated and expended in carrying out the specific purposes, or programs, in accordance with the terms of the trust agreement or statute.

**Trust Fund Receipt Accounts**
Receipts Accounts that are credited with collections (governmental receipts or offsetting receipts) generated by the terms of a trust agreement or statute.

**Trust Revolving Fund**
The name given to a fund entity when a trust fund corpus is established to perform a continuing cycle of business-type operations in accordance with the trust agreement or statute, in which case a combined receipt and expenditure account is used.

**Undelivered Orders**
The value of goods and services ordered and obligated that have not been received. This amount includes any orders for which advance payment has been made but for which delivery or performance has not yet occurred.
**Undistributed Disbursement**

Undistributed disbursements represent the difference between the amount of disbursements reported to DFAS centers by the Department of the Treasury finance network and the amount of disbursements recorded by the operating level activities.

**Unearned Revenue**

Revenue from DoD customers collected in advance of earnings and prior to delivery of goods or services.

**Unexpended Balance**

The sum of the unobligated balance and the un-liquidated obligation balance of an appropriation.

**Unexpired Accounts**

Appropriation or fund accounts in which the balances are available for incurring obligations because the time available for incurring such obligations has not yet expired. Audit requirements, limitations on obligations, and reporting requirements applicable to unexpired accounts must continue to apply after the end of the period of availability for obligation or expenditure of that account.

**Unfilled Customer Orders**

The amount of orders accepted from ordering accounting entities within the U. S. Government for goods and services to be furnished on a reimbursable basis; or, in the case of transactions with the public, amounts collected in advance, for which the accounting entity has not yet performed as requested.

**Unfunded Cost**

Costs not financed by the performing activity's current appropriations or fund accounts. Applicable types of cost include interest on investment and accrued annual leave.

**Unified Combatant Command**

A unified combatant command is a military command which has broad, continuing missions and which is composed of forces from two or more Military Departments. Unified combatant commands are established by the President, through the Secretary of Defense, with the advice and assistance of the Chairman, Joint Chiefs of Staff.

**Unliquidated Obligation Balance**

The amount of obligations that have not been liquidated by payments (disbursements).

**Unmatched Disbursement**

A disbursement transaction that has been received and accepted by an accounting office, but has not been matched to the correct detail obligation. This includes transactions that have been rejected back to the paying office or central disbursement clearing organization by an accounting office.
Unobligated Balance

The cumulative amount of budget authority in an unexpired account that is not obligated and that remains available for obligation under law.

Unrecorded Obligations

Obligations that were incurred legitimately during the period of fund availability, but were not recorded in the Component’s records prior to expiration of the appropriation or fund. For purposes of this guidance, “unrecorded” obligations are included in obligation adjustments. Current accounts may be used to pay previously unrecorded obligations chargeable to a closed account.

User

An individual, organization, or accounting entity that receives services. A user may be internal or external to the DoD Component.

Warehousing

Costs normally incurred for labor, materiel, or services in packing item(s) that are removed from DoD storage, preparing item(s) for shipment, and processing related materiel release documents.

Withdrawal

The transfer of the unobligated balance from an expired annual or multiple-year appropriation to the surplus account of the U.S. Treasury's general fund, or, if appropriate, to the special fund or trust fund from which derived.

Write off

As a budgetary term, write-off means the withdrawal from availability for obligation of an unobligated balance from a no-year appropriation. It excludes amounts withdrawn from expired accounts and amounts rescinded by the Congress. As an accounting term, write-off refers to the removal of a delinquent accounts receivable that is considered not collectible or not cost effective to pursue further collection efforts. A write-off is not a correction to the accounting records resulting from an accounting error.

Work in Process

Costs of the materials, labor, and indirect costs used in producing an end item (customized equipment or personal property), whether fabricated by a DoD business operation fund or by a non-DoD organization under contract.

Year-end Adjustments for Reimbursements

Accounting entries made to eliminate anticipated reimbursements for orders not accepted, eliminate those unobligated accepted orders that are no longer valid obligations of the ordering activity, and transfer valid unobligated reimbursable balances from expiring and non-expiring accounts to the most current ensuing fiscal year accounts. The exception is for unobligated balances resulting from earned reimbursements (that is, sales from inventory or performance of in-house services), which must be retained in non-expiring accounts until account expiration.
