6.6.2. Unsettled Claims for Deceased Travelers. The individual designated by the Service to settle a deceased member’s affairs is responsible for the preparation of the travel claim for the travel of the deceased member. The finance official computes and forwards all claims to the supporting Defense Finance and Accounting Service (DFAS)/Service site (see subparagraph 6.6.4 for address) for payment or collection. For deceased civilian employees, the surviving spouse or legal representative, the executor, or administrator must sign any outstanding travel claims. The travel office computes these claims locally. Travel settlements for travel cardholders who paid for expenses using a GTCC, are subject to split disbursement (see 10 U.S.C. § 2784(a) and DoD GTCC Regulation, paragraphs 040701, 041007 and 041106). Following payment to the GTCC issuer, any remaining expense reimbursement will be forwarded to the member’s or civilian employee’s pay activity for inclusion in the death claim payment. Similarly, all reimbursements for non-card holders will be forwarded to the appropriate pay activity for inclusion in the death claim payment.

6.6.3. Claims for Dependents of Deceased Members. Two copies of DD Form 1300, Report of Casualty, support travel performed under the provisions of the JTR, paragraph 032001.

6.6.3.1. If the claim is for travel to a member’s home of record, as shown on DD 1300, no further documentation is required.

6.6.3.2. If the claim is for travel to the official residence of a relative, the claimant must furnish a statement to that effect showing the name and relationship of the person to whose residence they traveled.
6.6.4. Forward these claims to the following applicable address:

**Army:** DFAS Indianapolis  
Systems Liaison and Procedures Division,  
Military Pay  
ATTN: DFAS-IN/JFLAKD  
8899 East 56th Street  
Indianapolis, IN 46249-0885  
dfas.indianapolis-in.jfl.mbx.dfas-in-systems@mail.mil

**Navy:** DFAS Cleveland  
Federal Office Bldg.  
1240 East 9th Street  
Cleveland, OH 44199-2055

**Air Force:** Members last servicing  
Financial Services Office (FSO)

**U.S. Marine Corps:** FO/DO responsible for the deceased Marine

6.7  Travel Under Classified Orders

If classification of a TDY order is necessary, classify, mark, and handle the special order according to the applicable DoD Component security regulation.

6.7.1. **Statement Substitute.** The approving official may withdraw such orders and substitute the following certificate:

“I certify that the travel upon which allowances on this voucher are claimed was authorized by SECRET (or CONFIDENTIAL) travel orders issued on (date); the travel so ordered was performed; that where travel by private conveyance is involved, the official distance so covered is as stated on the claim; that where per diem is involved, the days and times of departure are as stated; that no Government quarters or meals were furnished except as stated thereon; the transportation mode and basis for reimbursement are correct; the time for which reimbursement is claimed was the minimum necessary; and I have shown or mailed to the paying disbursing official a copy of the travel orders upon which the voucher is based.”

6.7.2. **Voucher Support.** Distribute classified orders only to persons who have the proper clearance and who require a copy of the order. An unclassified extract from a classified order may be used to support the payment voucher if it furnishes enough information. This permits filing an unclassified travel claim. For classified locations, the traveler must indicate in the itinerary of the travel claim the location by showing site 1, site 2, and so forth. The DO must pay the claim if they can apply the per diem rate. If, however, the disbursing official does not have knowledge of the location or the traveler insists on not showing the location, process the travel claim and documentation per Service instructions.
6.8 Multiple Payment Procedures in Connection With Sea Trial Trips

When more than one traveler participates in sea trial trips at the same time, between the same points, and the same accounting data is chargeable, submit a travel claim on a DD 1351-6, Multiple Payments List, to cover the entire group. Enter the notation “See Attached” in the appropriate blocks for the claimant’s name and the certifying official. A DD 1351-2 must support the claim.

6.9 Navy Oceanographic Office

The disbursing office of the ship pays travel claims of civilian employees of the Navy Oceanographic Office for travel aboard survey ships if presented for payment before completion of travel. The disbursing office of the traveler’s duty station pays travel claims filed after return to the traveler’s duty station.

6.10 U.S. Coast Guard

6.10.1 U.S. Coast Guard Travel Using DoD Appropriations. Coast Guard members who travel on orders citing DoD appropriations should file travel claims the same as active-duty DoD members using the procedures applicable at the disbursing office of the unit whose funds are involved. Disbursing offices will settle these vouchers like those of any other member. If any excess travel time is involved, then forward a copy of the settlement voucher to:

Commanding Officer (TVL)
U.S. Coast Guard Pay and Personnel Center
444 SE Quincy Street
Topeka, KS  66683-3591

6.10.2 U.S. Coast Guard Travel on Other Than DoD Appropriations. When a Coast Guard member requests a travel advance or settlement payment on orders citing other than a DoD appropriation, the disbursing officer may provide payment and seek reimbursement from:

Commanding Officer
U.S. Coast Guard Finance Center
1430A Kristina Way
Chesapeake, VA  23326-1000

6.11 Travel and Living Allowance (T&LA) for International Military Students and Guest Instructors

International Military Students and Guest instructors who are paid T&LA, as defined in Chapter 10 of Defense Security Cooperation Agency (DSCA) Manual 5105.38-M, Security Assistance Management Manual, must submit travel claims along with copies of their travel orders/authorization and required receipts for reimbursement to the appropriate travel settlement office (see DSCA Manual, Chapter 10, Section C10.13).
7.0 COLLECTIONS AND INDEBTEDNESS FOR CIVILIAN EMPLOYEES

7.1 Collections

The civilian employee is billed in writing with a demand for payment. If the civilian employee does not remit payment, the DO must initiate collection through salary deductions, set-off from final salary and allowances, lump-sum leave payment, the civilian employee’s retirement account, or other amounts due the civilian employee IAW with controlling debt collection regulations.

7.2 Uncollectible Cases

If the actions prescribed in paragraph 7.1 do not result in full reimbursement to the Government, forward a record of all collection efforts and transactions to the same office as for an agreement violation claim in Chapter 6, paragraph 11.4, except for delinquent indebtedness cases of former civilian employees of the Military Services. Forward debts for former civilian employees of the Military Services to:

DFAS-IN/Debt and Claims
Department 3300
8899 East 56th Street
Indianapolis, IN 46249-3300

8.0 ADVANCE DECISIONS, DOUBTFUL CLAIMS AND RECLAIM OR RECONSIDERATION REQUESTS

8.1 Request for Advance Decision

A DoD DO or certifying officer may request an advance decision on any questionable claim presented for payment. Additionally, accountable officials and others with final responsibility for adjudicating claims may request an advance decision on doubtful claims (claims involving doubtful questions of law or fact) prior to preparation or presentment of a claim. The request must be prepared and submitted as required in Volume 5, Chapter 12. Submit the original request package and two copies to the DFAS Indianapolis office through the supporting DFAS site for the DoD Component that funds the travel order. An accountable officer desiring an advance decision on an issue involving the interpretation of the JTR must forward the request through the Per Diem Travel and Transportation Allowances Committee. Forward requests to the following addresses, as applicable:

Army, Marine Corps, Navy, and all Defense Agencies

DFAS Indianapolis
ESS Travel Pay
ATTN: DFAS-IN/JFKCE
8899 East 56th Street
Indianapolis, IN 46249
8.1.1. **Amounts Over $250.** The supporting DFAS site must review each request and contact the DO to resolve any questions. Requests for amounts over $250 require advance decisions by the Defense Office of Hearings and Appeals (DOHA) for Service members and the Civilian Board of Contract Appeals (CBCA) for DoD civilian employees. Forward all requests for advance decisions through the General Counsel of the requesting Component or the DFAS to the General Counsel, DoD, before referral to any authorized official outside the DoD (see Volume 5, Chapter 12, section 3.0).

8.1.2. **Amounts Under $250.** If the advance decision request is for $250 or less, the General Counsel, DoD, may refer the request to the General Counsel, DFAS. The General Counsel, DFAS must review the request and issue an advance decision (see *DoDI 1340.21*, Procedures for Settling Personnel and General Claims and Processing Advance Decision Requests, Enclosure 8, paragraph E8.5.3).

8.2 Reconsideration Requests and Reclaims

When the travel office makes a decision concerning an allowance determination that the traveler disagrees with, that travel office must issue the traveler a written explanation and advise the traveler of the right to have the claim reconsidered. If the traveler does not accept the explanation of the DO, the DO must assist with the resubmission of the claim. To have a claim reconsidered (see exceptions in paragraph 8.4), send:

8.2.1. A copy of the claim;

8.2.2. A letter of explanation from the traveler;

8.2.3. An endorsement from the approving officer; and

8.2.4. A letter of position from the travel computation office, through the major Command, to the appropriate DFAS site. The DFAS site must respond to the DO or traveler. If the traveler does not accept the decision, the DFAS site may forward the claim as a reclaim or appeal to DOHA or the CBCA. A reclaim or appeal is forwarded because the claimant is unwilling to accept the decision, and not because the travel office or accountable official has doubts as to whether the claim should be paid. The travel office or accountable official forwards such claims through the appropriate DFAS site to DOHA for Service members and the CBCA for DoD civilian employees at the following addresses.

**Defense Office of Hearings and Appeals**
**Claims Division**
**PO Box 3656**
**Arlington, VA 22203-1995**
8.3 Waivers

Travelers or Components must submit waiver requests resulting from erroneous travel payments and transportation allowances to the DFAS Indianapolis site. See Volume 16, Chapter 4.

8.4 Unions and Third-Party Review

When covered by a collective bargaining agreement, neither the Department, the Office of Personnel Management, the CBCA, nor the DOHA, has jurisdiction over the claimant’s claim unless the matter of travel claims is explicitly excluded from grievance under the collective bargaining agreement.

9.0 CLAIM FOR LATE PAYMENT FEE

The Travel and Transportation Reform Act of 1998 (Public Law 105-264), governs the claim for late payment fees for late processing of a traveler’s travel claim.

9.1 Submission of Travel Claim

Travelers must submit a properly prepared travel claim to their supervisor/approving official within five working days after completion of travel. The disbursing office pays the travel claim within 30 calendar days after the claim is signed and dated as received by the supervisor/approving official. The supervisor/approving official or the travel computation office has seven calendar days to notify the traveler if the travel claim is not proper or complete for payment.

9.2 Late Payment Fee and Charges

If the disbursing office does not pay a travel claim within 30 calendar days after it is received by the office with responsibility to approve the claim, that office may be required to pay a late payment fee. This fee is payable, using the Prompt Payment Act interest rate, beginning on the 31st day after the submission of a proper travel claim and ending on the date that the Government disburses the payment. The only exception is that no payments are required for amounts less than $1.00. Interest payment funding instructions are located in Volume 10, Chapter 7, paragraph 2.9. In addition, the Government must pay the traveler an amount equal to any late payment charge that the card contractor would have been able to charge had the traveler not paid the bill. The IRS has determined that the late payment fee is reportable as interest and that the Government reports payment equal to the late payment charge as additional wages. In addition, travelers must be reimbursed for late fees imposed by the bank if the nonpayment that caused the late fee was a result of the Government’s untimely processing of the travel claim. The bank does not assess late fees until 75 days following the billing statement.
9.3 Systems Modifications

As necessary, modifications are made to DoD Component travel systems to capture the date of submission of a proper travel claim and compute entitlement for late payment fees due as a result of untimely settlements.

9.4 Claims for Late Payment Fees

Payment of late fees must be calculated and paid at the time the claim is processed. Travelers who believe that late payment fees were not included in the calculation of their travel claim may submit supplemental travel claims for late payment fees. Claimants must submit each such supplemental travel claim through the office where the claim is reviewed/approved. That office must annotate the claim with the date of receipt of the original travel claim.

9.5 Receipt of Travel Claim for Late Payment Fee

Upon receipt of a travel claim for a late payment fee, the travel computation office must review the claim. That office must calculate the number of elapsed calendar days beginning with the signature and date of receipt by the supervisor/approving official and the date the claim was paid. The date the supervisor/approving official receives the proper travel claim counts as the first day and the payment date of the travel claim counts as the last day. If the number of days exceeds 30 calendar days, the travel computation office multiplies the amount paid on the delayed travel claim by the daily Prompt Pay Act interest rate by the number of days in excess of 30 days. Pay the traveler by EFT, or check if the previous payment was by check. The disbursing office must use the accounting classification used for the original travel claim for the amount charged to the supplemental travel claim. When required, prepare an IRS Form 1099-INT, Interest Income, for the traveler IAW IRS regulations.

9.6 Travel Claim Forwarded to Another Activity

If the traveler submits a travel claim and the travel computation office requires a review by another activity, such as for doubtful claims, the 30-day clock continues to run. If the travel computation office disallows a claim, the claimant earns no late payment fee. If the travel computation office allows part of the claim, that amount is subject to the late payment fee and that portion of the payment earns interest from the original submission date. Claims returned to the traveler for errors or incomplete travel claims do not earn interest. Start the 30-day clock when a corrected claim is submitted to the supervisor/approving official.

DEFINITIONS

1.0 General

The following list defines general terms of significance or importance relating to travel pay entitlement policies for the DoD that are discussed in various chapters in Volume 9. This list of definitions provides general information. It is by no means an exhaustive list of all financial management terms. The standard dictionary definition shall apply to any terms not defined in this chapter, unless otherwise indicated. Authoritative guidance with more detailed explanations or nuances may be found in Volume 9 specific chapters.

2.0 List of Definitions

Accountable Officials

Individuals appointed in writing to ensure the adequacy of system internal procedures, and serve as control points within an organization, focusing on minimizing opportunities for erroneous or improper payments.

Actual Expense Allowance

Payment of authorized actual expenses incurred, up to the limit prescribed by the Joint Travel Regulations (JTR), as appropriate. Entitlement to reimbursement is contingent on entitlement to per diem and is subject to the same definitions and rules governing per diem. See the JTR, Appendix A, and paragraph 020307.

Actual Travel Time

The travel time from physical departure to arrival at the traveler’s temporary duty (TDY) location or permanent duty station (PDS).

Agency Program Coordinator (APC)

The individual who administers the Government travel card program and acts as the liaison between the travel card vendor and agency cardholders. APCs are responsible to the respective Department of Defense (DoD) Component Program Manager (CPM) for program execution and management at hierarchy levels determined by the DoD CPM.

Allowable Travel Time

The number of days allowed for official travel. See the JTR, paragraph 020302.

Approve

As defined in the JTR, Appendix A, the ratification or confirmation of a completed act. Its use, with respect to official travel, applies equally to military and civilian personnel.
Approving Official

Individuals who direct and approve/disapprove travel requests and vouchers prior to claim settlement. They ensure the necessity and justification for travel orders.

Authorize

As defined in the JTR, Appendix A, the term ‘authorize’ is defined as the giving of permission before an act. Its use, with respect to official travel, applies equally to military and civilian personnel.

Authorized Travel Time

The maximum allowable travel time, determined before travel begins, and based on the mode of travel authorized in the orders.

Authorizing Official (AO)

The designated representative to whom final authority to issue travel orders is delegated in writing by a DoD Component, by organizational title, and/or by name. He or she directs travel and is responsible for funding. This is the same as Authorizing/Order-Issuing Official.

Authorizing Official (AO) (Defense Travel System (DTS))

An individual appointed in writing that is responsible for authorizing travel and approving travel claims by determining the necessity of trips and funds availability, assigning the proper line of accounting (LOA) prior to authorization, and approving travel claims for validity after completion of travel. The AO is the individual who controls the mission, authorizes the trip, and controls funds for TDY travel.

Cardholder

The cardholder is the legal agent of the Government Travel Charge Card (GTCC). The cardholder holds primary liability for the card’s proper use and payment.

Centrally Billed Accounts (CBA)

A card or account established by the travel card vendor at the request of a federal agency. Through a CBA, the travel card vendor bills the Government and payments are made directly to the travel card vendor by the federal agency responsible for the reconciliation of the account. CBA’s are issued directly to the Government and the Government retains liability for the CBA’s.
Certifying Official

An individual, designated in writing, who is responsible for the certification of travel vouchers for payment and the verification that payments made by the Government are legal, proper, and correct.

*Common Carrier

A private sector supplier of air, rail, bus, ship, or other transportation system.

Component Program Manager (CPM)

The designated headquarters program manager for each agency using the General Services Administration (GSA) SmartPay contract. CPMs are responsible for establishing the hierarchies for their agency and distributing program management information from the Defense Finance and Accounting Service, the Defense Travel Management Office, and the GSA.

Concurrent Travel

Travel under which the traveler is accompanied or immediately followed by the traveler’s spouse and/or dependents.

Constructed Cost (Transportation)

The constructed cost is the sum of the authorized transportation type’s ticket cost plus the TMC fee. See the JTR, paragraph 020210 and Appendix A, Policy Constructed Airfare entry for more information.

Contiguous United States

The 48 contiguous states of the United States and the District of Columbia, which do not include Alaska (AK) and Hawaii (HI).

Continental United States (CONUS)

The 48 contiguous states of the United States and the District of Columbia. This definition specifically excludes the states of AK and HI as they are not part of the contiguous states and are included in the definition of Non-Foreign, Outside the Continental United States (OCONUS) locations. See Title 37, United States Code, section 101 (37 U.S.C. § 101).

Defense Travel System (DTS)

An efficient, flexible system for electronically creating travel authorizations (travel orders), vouchers, and pre-audit documents and for completing the post-travel claims processes. DTS provides for paperless electronic routing, review, and approval of the travel and associated documentation.
Dependent

The term ‘dependent’ is defined in the JTR, Appendix A. Dependents of uniformed members can be acquired, command sponsored, or non-command sponsored.

Designated Place

See the JTR, Appendix A and Chapter 6, in reference to evacuation allowances.

Digital Signature

An electronic equivalent of a written signature. A digital signature can be used in proving to the recipient or a third party that a document or message was, in fact, signed by the originator.

Directed

An order to do something in a specific way.

Disbursing Office

An activity, or that organizational unit of an activity, whose principal function consists of the disbursement and collection of official funds for the Government.

Dislocation Allowance (DLA)

An allowance paid to military members to partially reimburse them for expenses incurred in relocating their households. See the JTR, section 0505.

Foreign Area

Any area or country outside the 50 states of the United States, District of Columbia, the Commonwealths of Puerto Rico and the Northern Mariana Islands, Guam, and U.S. territories and possessions.

Funeral Honors Detail

A group of individuals not employed by the Government who participate in a funeral honors detail for a veteran and may be authorized transportation or transportation reimbursement, and expenses. See 10 U.S.C. § 1491.

Government Bill of Lading

A Government document used for the procurement of commercial transportation (moving) services.
Government Constructed Cost (GCC)

The “Best Value” cost the Government would have paid for Government procured household goods (HHG) transportation.

Government Dining Facility or Government Mess

A Government-owned facility, funded by appropriated funds. See the JTR, Appendix A.

Government Travel Charge Card (GTCC)

A charge card used by authorized individuals to pay for official travel and transportation related expenses for which the card contractor bills the Government (CBA) or individual (Individually Billed Account (IBA)). See the JTR, Appendix A.

Household Goods (HHG)

Items associated with the home and all personal effects belonging to a member/employee and dependents on the member’s order effective date/employee’s effective date of transfer/appointment that legally may be accepted and transported by an authorized commercial transporter. See the JTR, Appendix A.

Individually Billed Account (IBA)

A GTCC account issued to a traveler to pay for official travel and transportation expenses. The traveler is liable for the use and payment of the account. See the JTR, Appendix A.

Invitational Travel Authorization (ITA)

A term applied to the authorized travel of individuals who are: not employed by the Government; employed intermittently by the Government under 5 U.S.C. § 5703 as consultants or experts and paid on a daily basis (when actually employed); or serving without pay or at $1 a year, or a volunteer covered by 10 U.S.C. § 1588. ITAs are not authorized for individuals merely to attend a meeting or conference, even if hosted by a DoD Component on a matter related to the Component’s official business. The traveler must be an actual “participant” in the proceedings of the gathering, and not there only for attendance. See the JTR, Chapter 3, section 0305.

Joint Travel Regulations (JTR)

The travel regulations that prescribe travel and transportation allowances authorized for members of the Uniformed Services, DoD civilian employees, and their dependents. The JTR is the Department’s implementing guidance for the Federal Travel Regulation (FTR), issued by the GSA.
Line of Accounting (LOA)

A data structure representing a DoD account that may be used to track travel funding (i.e., transportation, per diem, meals, and incidental expenses) associated with an organization’s budget and to ensure accurate accounting transactions.

Meals and Incidental Expenses (M&IE)

The term ‘Meals and Incidental Expenses’ is defined in the JTR, Appendix A, under Per Diem Allowance.

Non- Concurrent Travel

Travel under which the traveler is not accompanied or immediately followed by the traveler’s spouse and/or dependents.

Non-Foreign Outside the Continental United States (OCONUS) Area

The states of AK and HI; the Commonwealths of Puerto Rico and the Northern Mariana Islands; Guam; the U.S. Virgin Islands, and U.S. territories, and possessions (excluding the former Trust Territories of the Pacific Islands, which are foreign areas for JTR purposes.) See the JTR, Appendix A.

Object Classification

A code that classifies transactions according to the nature of the travel services performed rather than their purpose.

Open Travel Authorization

A written document issued or approved by an AO for the purpose of performing official Government travel for a continuous period of time. Also commonly known as a “blanket” or “repeated” travel authorization. See the JTR, Appendix A, definition of “Order.”

*Other Than Coach Class (OTCC)

OTCC common carrier accommodations are first class, business class and premium economy class. See the FTR, § 300-3.1 for more information.

Outside the Continental United States (OCONUS)

The area outside of the 48 states of the United States and the District of Columbia. See the JTR, Appendix A.
Payment Review Official

An individual who conducts random pre-payment or post-payment reviews in accordance with Volume 5, Chapter 5.

Permanent Change of Station (PCS)

The term ‘Permanent Change of Station’ is defined in the JTR, Appendix A.

Permanent Duty Station (PDS)

The term ‘Permanent Duty Station’ is defined in the JTR, Appendix A. It is also referred to as “official station.”

Permissive/Administrative Travel Time

An authorized administrative absence not chargeable to leave and for which per diem and transportation allowances are not payable.

Personally-Procured Household Goods (HHG) Transportation

The transport and/or storage (Storage-in-Transit and/or Non-Temporary Storage) of HHG arranged by a member/employee and/or the member’s/employee’s agent.

Privately Owned Vehicle (POV) for Transporting People

Any transportation mode actually used for the movement of persons from place to place, other than a Government conveyance or common carrier. Included is a vehicle loaned for a charge to, or rented at personal expense by the Service member or civilian employee for transportation on PCS or TDY travel, when such rental has not been authorized or approved IAW the JTR, paragraph 020209. A common carrier or a Government owned, chartered or leased vehicle is not a POV.

Privately Owned Vehicle (POV) for Shipment

Any motor vehicle owned by or leased (12 or more months) to a member/employee or dependents for the primary purpose of providing personal transportation. The vehicle must be self-propelled, licensed to travel on the public highways, designed to carry passengers or HHG; and must have four or more wheels. See the JTR, Appendix A.

Proportional Meal Rate

The average of the standard Government meal rate and the meals portion of the applicable M&IE rate, rounded up to the nearest dollar. See the JTR, Appendix A. This meal rate is used as prescribed in the JTR, Chapter 2, Table 2-17.
Receipt

A legibly written/printed/electronic document (or facsimile thereof) provided by a service provider or vendor to a customer, which provides documentary evidence that the service provider or vendor has been paid for services or goods, provided to the customer. To be considered valid, a receipt must contain the name of the entity providing the good(s)/service, the date(s) that the good(s)/service was/were provided/purchased, the price of the good(s)/service, any tax levied, the total monetary amount due, and must indicate that the total monetary amount due was paid.

Relocation Income Tax Allowance (RITA)

Reimburses an eligible transferred employee for the additional Federal, State, and local income taxes incurred by the employee (or by an employee and spouse if a joint tax return is filed) as a result of reimbursement, or payment, of certain travel and transportation expenses and relocation allowances that are not excludible from gross income for Federal income tax purposes. See the JTR, paragraph 053611, and the FTR, § 302-17. A domestic partner is not a spouse and the employee cannot be reimbursed for additional Federal, State, and local income taxes incurred by the employee’s domestic partner if a joint tax return is filed.

Safe Haven

A designated area to which an employee and dependents and/or military dependents are ordered or authorized to evacuate. See the JTR, Chapter 6.

SmartPay

A GSA program that provides users with card-based tools to simplify procuring needs in three operational areas. The fleet card allows users to efficiently fuel and maintain vehicles, boats, planes, or equipment. The travel card allows users to purchase common carrier transportation, car rentals, lodging, and meals for official travel and travel-related expenses. The purchase card enables users to purchase goods and services to satisfy official business needs.

Split Disbursement

Divides a travel voucher reimbursement between the GTCC vendor and the traveler. Specifically, it is a payment option whereby the traveler can designate a specified amount of his or her travel entitlement be sent directly to the SmartPay travel card vendor to pay down his or her account balance, and the remainder of the entitlement sent to his or her personal direct deposit account.

Supervisor Review

A review conducted by a person who has supervisory responsibilities over the person whom he or she directs to travel. The supervisor has knowledge of the basis for the travel claim. The supervisor reviews the travel claim to ensure that it is valid and accurate. He or she signs and dates the travel claim prior to submitting it to the proper travel computation office.
Temporary Change of Station (TCS)

The relocation of an employee to a new PDS for a temporary period to perform a long-term temporary assignment, and subsequent return of the employee to the previous PDS upon completion of that assignment. See the JTR, Appendix A.

Temporary Duty (TDY)

Duty at one or more locations, away from the PDS, under an order providing for further assignment, or pending further assignment, to return to the old PDS or to proceed to a new PDS. For the purposes of Volume 9, temporary duty includes temporary additional duty (TAD) for those DoD Components that use TAD. See the JTR, Appendix A.

Temporary Lodging Expense (TLE)

An allowance intended to partially pay members for lodging/meal expenses incurred by a member/dependent(s) while occupying temporary lodging in CONUS in connection with a PCS. See the JTR, section 0506.

Temporary Quarters Subsistence Expense (TQSE)

A discretionary allowance, that is intended to partially reimburse employees for reasonable subsistence expenses to pay for lodging, food, and other necessities incurred when they and/or their dependents must occupy temporary quarters due to a PCS to a new PDS in the CONUS or non-foreign OCONUS. See the JTR, section 0542.

Temporary Quarters Subsistence Expense-Actual Expense Reimbursement (TQSE(AE))

An allowance based on the standard CONUS per diem rate for temporary lodging occupied in CONUS localities; or the PDS locality per diem rate for temporary lodging occupied in OCONUS localities. The rates may be found at: Per Diem Rates. See the JTR, paragraph 054206.

Temporary Quarters Subsistence Expense-Lump Sum Reimbursement (TQSE(LS))

A fixed amount payment based on the PDS location’s maximum per diem that is in effect on the date that the fixed offer was accepted. Apply the per diem for the season in which the employee travels that is in effect on the day the employee accepts the fixed rate offer (e.g., offer accepted in November for travel the following June - uses the per diem rate in effect for the following June). (CBCA 2189-RELO, September 12, 2011). See the JTR, paragraph 054208.

Transportation Officer (TO)

A person appointed or designated by the commander of a DoD activity to perform traffic management functions. This person may also be designated as “installation TO,” “traffic manager,” “traffic management officer,” or “passenger TO.”
Travel Authorization (Also referred to as a Travel Order)

A written or electronic instrument issued or approved by a person(s) to whom authority has been delegated, that directs an individual or group of individuals to travel.

Traveler

A military member(s)/dependent(s), DoD civilian employee(s)/dependent(s), and invitational traveler(s) who travel in an official capacity.

Travel Management Company (TMC)

A commercial activity providing a full range of commercial travel and ticketing services for official travel under a contract with the Government. This was formerly referred to as a Commercial Travel Office (CTO).

Travel Status

The Service member’s/civilian employee’s status for the elapsed period of time from the beginning to the end of official travel in compliance with the authority in an order, including time en route awaiting transportation connections and delays en route beyond the traveler’s control. See the JTR, Appendix A.

U.S. Installation

As defined in the JTR, Appendix A, a base, post, yard, camp, or station under the local command of a uniformed service, with permanent or semi-permanent-type troop shelters and a Government Dining Facility/Mess, and at which there are U.S. Government operations. This includes only that area actually occupied by those operations (plus the minimum surrounding area necessary for close-in security) and excludes contracted hotels not contained on and operated by the Installation.

Withholding Tax Allowance (WTA)

An estimated partial payment that acts as an advance on the final RITA payment.

Year One (RITA)

The calendar year in which the WTA payment is made to a civilian employee.

Year Two (RITA)

The calendar year in which the RITA payment is made to a civilian employee.

CHAPTER 1

FINANCIAL CONTROL OF VENDOR AND CONTRACT PAYMENTS

1.0 GENERAL

1.1 Purpose

This chapter sets forth policy necessary to ensure internal controls are adequately established per stated laws and regulations for the entitlement and payment of goods and services. In addition, contract clauses have been outlined that may impose limitations on entitlement to financing or invoice payments. DoD officials are responsible for ensuring DoD organizations maintain control of payments made to vendors and contractors. Internal control and limitation requirements are necessary to ensure payments are based on terms and conditions contained in accepted purchase orders, contracts, and unilateral and bilateral modifications.

1.2 Authoritative Guidance

The importance of internal controls is addressed in many statutes, regulations, and DoD executive documents, which include: Volume 1, Chapter 3; the Federal Managers’ Financial Integrity Act (FMFIA); Office of Management and Budget (OMB) Circular A-123; and DoD Instruction 5010.40.

2.0 INTERNAL CONTROLS

2.1 Statutory Compliance

The FMFIA establishes overall requirements with regard to internal controls, whereas the DoD Component Head is charged with establishing controls to reasonably ensure that:

2.1.1. Obligations and costs are in compliance with applicable laws;

2.1.2. Funds, property, and other assets are safeguarded against waste, loss, unauthorized use, or misappropriation; and

2.1.3. Revenues and expenditures, applicable to DoD operations, are properly recorded and permit the preparation of reliable financial and statistical reports to maintain accountability over assets.

2.2 Federal Standards

The FMFIA requires the Government Accountability Office (GAO) to issue standards for internal control in Government. Refer to GAO Standards for Internal Control in the Federal Government. These GAO standards provide the overall framework for establishing and maintaining internal control and for identifying and addressing major performance and management challenges and areas at greatest risk of fraud, waste, abuse, and mismanagement. In
implementing these standards, financial managers are responsible for developing the detailed policies, procedures, and practices for contract and vendor pay entitlement operations and ensuring they are built into, and are a continuous and integral part of, ongoing operations. The OMB prescribes policies and standards for executive departments and agencies to follow in developing, operating, maintaining, evaluating, and reporting on financial management systems (see OMB Circular A-123 Appendix D).

2.3 Regulatory Compliance

It is DoD policy to make payments and collections that are timely and accurate in accordance with applicable laws and regulations. These laws and regulations include requirements for identification, reporting, and reduction of improper payments (refer to Volume 4, Chapter 14 and Volume 5, Chapter 6). In addition, financial managers with responsibilities for ensuring internal controls are established and functioning properly to comply with this policy must:

2.3.1. Create, document, and maintain an organizational structure and business processes that appropriately segregate assigned duties, emphasize adherence to policies and procedures, and employ sound internal accounting and system access controls;

2.3.2. Implement finance and accounting systems that comply with the federal financial management systems requirements, maintain accurate and complete accounting and entitlement records from contract execution through closeout, and monitor the causes of late payments and interest penalties. The complete listing of financial management system requirements is in the OMB Circular A-123 Appendix D. Efforts to develop or modify a critical financial management system must be subject to the compliance process (see Volume 1, Chapter 3);

2.3.3. Establish systematic controls that provide adequate audit trails to allow the tracing of financial events from source documents to general ledger account balances through successive levels of summarization and financial reports/statements. Ensure all transactional data is processed using accurate coding, and errors are researched and corrected;

2.3.4. Utilize electronic processes and digital signatures, as prescribed by OMB Circular A-130, Appendix II, whenever possible and in the best interest of the Government;

2.3.5. Employ systems that ensure the authenticity of electronically transmitted data, including the electronic signature. Such controls must provide reasonable assurance that deliberate or inadvertent manipulation, modification, or loss of data during transmission is detected;

2.3.6. Ensure prevalidation and payment documentation to vendors and contractors is retained in accordance with Volume 1, Chapter 9 and is readily available to support future audit efforts. Original payment documentation, and associated supporting documentation, must also be retained in accordance with Chapter 8, paragraph 4.1. The documentation must be of sufficient quality to allow an independent third party, such as an outside auditor, to understand and verify the basis of the prevalidation and the payments. Electronic record storage requires adequate controls to ensure that integrity of the digital images accurately represents the corresponding paper
documentation and detects changes to an original digital image. The retention of documentation, both paper and electronic records, is the responsibility of the certifying officer; and

2.3.7. Implement finance and accounting data structures that comply with the Standard Financial Information Structure and the Standard Line of Accounting (see Volume 1, Chapter 4).

2.4 Periodic Reviews

Managers with responsibilities for determining entitlements, authorizing, or executing payments and collections must:

2.4.1. Periodically (minimum annually) validate cash management and payment performance quality and effectiveness; and

2.4.2. Periodically (minimum annually) test effectiveness of internal controls, document results of testing, and take necessary corrective actions (see OMB Circular A-123).

3.0 PREVALIDATION

3.1 General

Prevalidation, as described in Public Law 104-61 Sec. 8102, is the process of matching the planned disbursement with a recorded obligation before the financing or invoice payment is made, and is intended to minimize the occurrence of problem disbursements and Antideficiency Act violations (see Volume 14, Chapter 2).

3.1.1. Obligations (and any adjustments) must be established and recorded for the amounts of orders placed and contracts awarded that will require payment in the current or some future accounting period, as prescribed in Volume 3, Chapters 8 and 15.

3.1.2. Liabilities for payment, including accounts payable, must be established as prescribed in Volume 4, Chapters 8 and 9.

3.1.3 Prior to payment, the undisbursed balance of each applicable obligation must be sufficient to cover the amount of the planned disbursement, as well as all previously scheduled disbursements (see Volume 3, Chapter 11).

3.1.4. Situations may occur when an entitlement office receives a payment request before fund managers have recorded the obligation in the accounting system, resulting in the inability to accomplish prevalidation. Policy addressing this situation exists in Volume 3, Chapter 8 (section 14.0), and it directs the accounting office to immediately record an obligation based upon valid and proper obligation documents in its possession for amounts that are $2,500 or less.
If the dollar amount is greater than $2,500, the accounting office must take the actions required to remedy the unrecorded obligations as prescribed in Volume 3, Chapter 8, subparagraph 14.3.2.

3.1.5. Prevalidation must ensure validation of the line of accounting associated with the planned disbursement with the line of accounting on the obligating document before the financing or invoice payment is made.

3.2 Thresholds

The following thresholds have been established for Non-Mechanization of Contract Administration Services (non-MOCAS) and MOCAS payments.

3.2.1. All non-MOCAS payments must be prevalidated.

3.2.2. The following prevalidation thresholds must be used for MOCAS payments:

3.2.2.1. All dollar value payments made on contracts awarded after fiscal year (FY) 2004 must be prevalidated; and

3.2.2.2. For contracts issued during FY 2004 and prior, payments greater than $5,000 must be prevalidated.

4.0 PAYMENT LIMITATIONS

The following contract clauses, when applicable, may impose limitations on entitlement to financing or invoice payments.

4.1 Limitation on Undefinitized Contracting Actions

4.1.1. According to Defense Federal Acquisition Regulation Supplement (DFARS) 217.7401, “definitization” means the agreement on, or determination of, contract terms, specifications, and price, which converts the undefinitized contract action to a definitive contract. Also, DFARS 217.7401 states an “undefinitized contract action” means any contract action for which the contract terms, specifications, or price are not agreed upon before performance is begun under the action. Examples are letter contracts, orders under basic ordering agreements, and provisioned item orders for which the price has not been agreed upon before performance has begun.

4.1.2. In accordance with Federal Acquisition Regulation (FAR) 16.603-4, letter contracts must include FAR 52.216-24 among others. Under the terms stated in this clause, the maximum amount of the Government’s obligation is the amount specified in the clause. However, if a contractor submits a qualifying proposal before 50 percent of the not-to-exceed price has been obligated by the Government, then the limitation on obligations before definitization may be increased to no more than 75 percent (see DFARS 217.7404-4 and DFARS 252.217-7027).
However, some exceptions apply for purchases of initial spares and contingency operations, as well as humanitarian or peacekeeping operations. See DFARS 217.7404-5 for additional information.

4.2 Limitation of Cost or Funds

4.2.1. The basic requirements for contract funding are described in FAR 32.7, and supplemented by DFARS 232.7. No officer or employee of the Government may create or authorize an obligation in excess of the funds available, or in advance of appropriations, unless otherwise authorized by law (see Volume 14, Chapter 2). Before executing any contract, the contracting officer must obtain written assurance from the responsible fiscal authority that adequate funds are available, or expressly condition the contract upon availability of funds, in accordance with FAR 32.703-2.

4.2.2. Fully-funded, cost-type contracts may include FAR 52.232-20, or incrementally funded, cost-type contracts may include FAR 52.232-22. Under the terms stated therein, the Government’s obligation to the contractor (and the contractor’s obligation to perform) is generally limited to the funds allotted to the contract. Both FAR contract clauses require the contractor to notify the contracting officer 60 days (or as otherwise directed by the contract) prior to the date when it is expected that incurred costs will exceed 75 percent (or 85 percent if specified by the contract) of contract estimated costs for fully-funded cost contracts, or amounts allotted to the contract for incrementally-funded cost contracts.

4.3 Limitation on Withholding of Payments

In accordance with FAR 32.111(b)(2), supply; research and development; service; time and materials; or labor hour contracts, that include two or more terms that authorize temporary withholding of amounts otherwise payable, must include a clause substantially the same as FAR 52.232-9. Under the terms stated therein, the total amount that may be withheld at any one time must not exceed the greatest amount that may be withheld under any one clause or the contract schedule term amount at the time. This limitation does not apply to withholding under any clause related to employee wages, the recovery of overpayments, withholdings not specifically provided for by the contract, or any withholding for which the contracting officer determines the limitation would not be appropriate.

4.4 Limitation of Government’s Obligation

In accordance with DFARS 232.706-70, incrementally funded, fixed-price contracts (one or more incrementally funded contract line items) must include DFARS 252.232-7007. Under the terms stated therein, the Government’s obligation to the contractor for the incrementally funded contract line item number(s) (and the contractor’s obligation to perform) is limited to the funds allotted. The contract clause requires the contractor to notify the contracting officer 90 days (or as otherwise directed by the contract) prior to the date when the work will approximately reach 85 percent of the amount then allotted.

CHAPTER 2

DISCOUNT OFFERS AND REBATES/REFUNDS

1.0  GENERAL

1.1 Purpose

This chapter prescribes the policy for payment discounts and government purchase card (GPC) rebates. This chapter also provides information on determining if discounts should be taken and provides information on rebates offered by the GPC issuer to encourage early payment.

1.2 Authoritative Guidance

The DoD will follow the supporting guidelines for taking discounts and rebates found in Title 5, Code of Federal Regulations (CFR), part 1315; Federal Acquisition Regulation (FAR) 32.906(e); and Office of Management and Budget, (OMB) Circular A 123, Appendix B, Chapter 7. Travel card rebates are addressed in DoD Government Travel Card Regulations, promulgated under the authority of DoD Instruction 5154.31, Volume 4 - Commercial Travel Management, “DoD Government Travel Charge Card Program.” The OMB Circular A-130, Appendix II prescribes the use of electronic processes and digital signatures whenever it is possible and in the best interest of the Government.

2.0 DEFINITIONS

2.1 Discount Date

As prescribed by 5 CFR 1315.2(o), the discount date is the date by which a specified payment reduction, or discount, may be taken in accordance with the discount terms.

2.2 Discount Period

The discount period is the period during which a discount may be taken. The discount period begins from the invoice date placed on a proper invoice by the vendor. If the vendor did not include the invoice date on the invoice, the discount period would begin on the date a proper invoice is actually received and date stamped or otherwise annotated by the designated agency office in accordance with 5 CFR 1315.7(d) and 5 CFR 1315.9(b). See Chapter 7, paragraph 2.4 for guidance on determining the invoice receipt date. The discount period ends on the discount date. When the discount date falls on a weekend or legal holiday, the discount may be taken if payment is made on the next business day as prescribed in FAR 32.906(e).

2.3 Effective Annual Discount Rate

The effective annual discount rate is the annualized value of the discount offered during the discount period. The DoD will take the discount when this rate equals or exceeds the U. S.
Department of Treasury (Treasury) Current Value of Funds Rate (CVFR). Use the Bureau of the Fiscal Service (Fiscal Service) Discount Calculator to determine if it is economically justified to accept a discount offered by a vendor.

2.4 Entitlement Office

The entitlement office is the designated activity to authorize the release of funds or other benefits to those with legally established rights granted by law or by agreement through contract. The entitlement office may also be referred to as the payment office.

2.5 Liquidated Damages

As provided for in FAR 11.5, an agency may establish in a contract a predetermined rate of liquidated damages to be paid in the event of an unexcused delay in performance or delivery, or a breach of contract. Liquidated damages are paid by the contractor and are used to compensate the agency for probable damages associated with the unexcused delay or breach. Liquidated damages are not punitive or negative performance incentives.

2.6 Rebate/Refund

2.6.1. As defined by 5 CFR 1315.2(aa), a rebate is a monetary incentive offered to the DoD by GPC issuers to pay monthly GPC billing statements early. A corrective rebate is done to correct improper or erroneous payments or for an invoice adjustment. The terms “rebate” and “refund” are used interchangeably throughout the CFR, OMB guidance, and existing legislation.

2.6.2. The current General Services Administration (GSA) contract offers productivity refunds based on timeliness and/or frequency of payments and sales refunds based on the dollar volume during a specified period. As stated in OMB Circular A-123, Appendix B, Chapter 7, a refund is a monetary payment provided by a charge card issuer to the agency/organization as stated in the contract. The three types of refunds are:

2.6.2.1. Sales refunds, which represent payments from the charge card issuer to the agency/organization based on the dollar or “spend” volume during a specified time period;

2.6.2.2. Productivity refunds, which represent payments from the charge card issuer to the agency/organization based on the timeliness and/or frequency of payments made to the contractor; and

2.6.2.3. Corrective refunds, which are payments from the charge card issuer to the agency/organization to correct improper or erroneous payments or an invoice adjustment.

2.6.3. For the GSA SmartPay 3 Program, a composite refund approach is used, which combines sales and productivity refunds together. As a result, there are generally no separate sales or productivity refunds. For simplicity, the refunds under GSA SmartPay 3 are referred to as "sales" refunds. See OMB Circular A-123, Appendix B, Chapter 7.1 (note).
2.7 Trade-in

Merchandise accepted as partial payment for a new purchase is referred to as trade-in property.

2.8 Treasury Current Value of Funds Rate

The CVFR is used to assess interest charges for outstanding debts owed the government, to evaluate the cost-effectiveness of a cash discount or sales/productivity refund, and to determine when agencies should pay purchase card invoices when a rebate is offered by the card issuer. Use the Fiscal Service CVFR to view current and historical CVFRs.

3.0 POLICY

3.1 Discounts

3.1.1. As prescribed by 5 CFR 1315.7(a), if a DoD Component is offered a discount by a vendor, whether stipulated in the contract or offered against an invoice, a DoD Component must take the discount if economically justified, but only after acceptance of the goods or services has occurred. FAR 32.111(b) requires FAR 52.232-8, “Discounts for Prompt Payment,” be included in all fixed-price supply and service contracts. The contractor may extend the discount period or increase the discount percentage beyond a previous offer. The offer may be in writing, or it may be oral for specific invoices. If the offer is oral, then the entitlement office must attach a conversation record to the invoice with the name and position of the person offering the discount, the discount terms, the person’s telephone number, and the date of the offer. The entitlement office has the option of requiring written confirmation of the verbal offer.

3.1.2. Entitlement offices must schedule discounted payments as close to, but not later than, the last day of the discount period. Payment is considered to be made on the date printed on the check, or on the electronic funds transfer settlement date, per 5 CFR 1315.4(h). If the payment office cannot apply the discount, payments must be made in accordance with the payment due date guidelines prescribed in 5 CFR 1315.4(g).

3.1.3. A discount is advantageous to the DoD when the discount terms yield an effective annual discount rate that equals or exceeds the CVFR, calculated using the Fiscal Service Discount Calculator cited in paragraph 2.3. DoD Component payment systems must incorporate processes that take advantage of cash discounts as a matter of routine, which eliminates any need for special handling. Such discounts must be taken when the discount terms applied in the conversion formula result in an effective annual discount rate equal to or greater than the CVFR.

3.1.4. Discounts must not be taken when the payment is made after the discount date. As prescribed by 5 CFR 1315.7(b), when an agency takes a discount after the discount date, interest must be paid on the amount of the discount taken. Interest will be calculated for the period beginning the day after the specified discount date through the payment date of the discount erroneously taken, as prescribed in 5 CFR 1315.10(a)(6).
3.1.5. When the discount terms in the contract and the invoice differ, DoD Components must take the most cost effective discount.

3.1.6. Compute discounts on the approved gross amount of the invoice, except as follows.

   3.1.6.1. Deduct taxes or freight charges that are separately listed.

   3.1.6.2. Deduct taxes that are not proper charges under international or status of forces agreements.

   3.1.6.3. Compute the discount on the actual cash balance due when there is a trade-in.

   3.1.6.4. When the entitlement system has the capability to trace and pay individual line items on an invoice, the invoice may be split into multiple payments. Each line item must meet the receipt and acceptance requirements to take advantage of the discount offered against the invoice.

   3.1.6.5. Contract or purchase order modifications may change or add discount terms. Take the discount on any subsequent payment that is made by the new or revised discount date when new or revised discount terms apply.

3.1.7. Discounts may be taken on amounts legally withheld and later released if related amounts were paid in accordance with the discount terms. The discount period for the released payment will begin when the entitlement office receives notification of the release.

3.1.8. The following requirements are used when liquidated damages apply and a contract for supplies, services, research and development, or construction includes FAR 52.211-11, FAR 52.211-12 or Defense Federal Acquisition Regulation Supplement 252.217-7009.

   3.1.8.1. When liquidated damages apply, and the contract or invoice contains an offer of a discount for early payment, compute the discount on the gross contract price without regard to the amount of liquidated damages.

   3.1.8.2. When liquidated damages apply to a price that is modified, and the contract contains an offer of a discount for early payment, compute the discount based on the modified price without regard to the liquidated damages.

3.1.9. After a progress payment has been made, the government is entitled to a discount on any part of delivery payments applied in liquidation of progress payments.

   3.1.9.1. When the discount terms have been met, take the discount against the gross amount of the invoice. If the discount date is not met, only take the discount against the amount of the liquidation. The discount still applies to the liquidation portion of the payment even in instances in which the discount period has expired on the balance due on the partial delivery.
3.1.9.2. If the contractor has had the use of these progress payments, the payment office is entitled to take a prompt payment discount on them at the time they are recouped.

3.1.9.3. If the discount is offered for the first time on an invoice and the contract does not have a discount clause, then do not take the discount on the progress payment liquidation portion of the invoice.

3.1.10. In rare instances, the contractor may offer a voluntary discount after a contract is completed, including final payment. These discounts are distinguished from early payment and volume discounts in that voluntary discounts are discretionary with the contractor and do not reduce the amount obligated against the paying appropriation. Do not treat discounts received after contract completion as rebates. Such discounts must be deposited in the Miscellaneous Receipts Account of the Treasury.

3.1.11. When contracts have Free On Board Origin terms, payments made prior to the delivery of supplies to the carrier or delivery to the destination are entitled to the discount offered on the contract.

3.1.12. Components need to be cognizant of the amount of discounts lost, or not taken, as part of their overall payment operations. Tracking discounts lost can provide additional insight into the efficiency and effectiveness of payment operations, and identify opportunities to take advantage of limited budgetary resources by increasing the amount of discounts received. Entitlement or disbursement system capabilities must be in place to identify and periodically report discounts lost to management for assessment and appropriate corrective actions.

3.1.13. Components must ensure that documentation supporting the discount transactions is retained in accordance with Volume 1, Chapter 9 and is readily available to support audit efforts. The documentation must be of sufficient quality to allow an independent third party, such as an outside auditor, to understand and verify the basis of the entitlement and the determination of a discount.

3.2 Rebates/Refunds

3.2.1. Components must have internal controls and procedures in place to allow them to maximize the sales/productivity refunds, and to identify and collect the corrective rebates. Components must ensure that documentation supporting the rebate/refund transactions is retained in accordance with Volume 1, Chapter 9 and is readily available to support audit efforts. The documentation must be of sufficient quality to allow an independent third party, such as an outside auditor, to understand and verify the basis of the rebates/refunds.

3.2.2. GPC billing statements must be paid as soon as administratively possible when the rebate offered is greater than the cost of funds as defined in 5 CFR 1315.8. The Defense Finance and Accounting Service must determine and make available, as needed, GPC payment data that compares the Current Value of Funds to the rebate discount points, for the payment cycle day. This data must be used to assist Components and the payment office in performing a cost and benefit analysis as part of their consideration of the cost of early payment. This cost is the interest
amount the DoD will earn at the CVFR for each day the payment is not made. Specifically, a comparison will be made between the basis points offered by the card issuer and the corresponding basis points of the Treasury’s CVFR. DoD Components must forward their approved GPC billing statements to the payment office to allow sufficient time to process the payment, receive a rebate for early payment, and avoid interest penalties per 5 CFR 1315.8.

3.2.3. DoD Components may use the *Fiscal Service Rebate Spreadsheet*, which automatically calculates the net savings to the government and whether the DoD Component must pay earlier than the normal contractual payment terms. The only variables required for input to this spreadsheet are the CVFR, the maximum discount rate (that is, the rate from which basis points offered by the card issuer are derived), and the amount of money owed. If the DoD Component elects not to use the spreadsheet, a manual computation can be performed as described in 5 CFR 1315.17.

3.2.4. The charge card issuer is required to calculate the rebate and return that amount to the DoD customer designated in the contract. DoD Component entities subject to the receipt and use of the rebates/refunds must employ the necessary internal controls and procedures to ensure that rebates are received when due as per the terms of their GPC contract, and that the rebates received from the charge card issuer are calculated properly.

3.2.5. Pursuant to *Title 10, United States Code, section 4754*, DoD rebates attributable to the use of the GPC may be credited to operation and maintenance, and/or research, development, test, and evaluation accounts which are current when the rebates are received. For example, if a rebate is received in the new fiscal year against a bill that was paid in September of the previous fiscal year, the rebate may be credited to the operation and maintenance and/or research, development, test, and evaluation account(s) current after October 1 of the new fiscal year. This includes the operational portion of a nonappropriated or working capital fund account.

CHAPTER 3

CONTRACTUAL CLAIMS

1.0 GENERAL

1.1 Purpose

This chapter prescribes financial management policy relating to contractual claims against the United States, which must be adjudicated by the responsible party before payment is made or denied. This chapter also addresses the assignment of claims, name change agreements, and claims that fall under the Contract Disputes Act (CDA). It also includes the regulatory authority, required documentation, and the responsibilities of the agencies involved.

1.2 Authoritative Guidance

Title 31, United States Code (U.S.C.), section 3727 and Defense Federal Acquisition Regulation Supplement (DFARS) 232.8 provide statutory requirements concerning the assignment of claims, and 41 U.S.C. § 7101-7109 provide statutory requirements for contracts in dispute. The Federal Acquisition Regulation (FAR) 32, Contract Financing, and FAR 42, Contract Administration and Audit Services, govern claims for monies due, or to become due, under Government contracts. The FAR 33, Protests, Disputes, and Appeals, provides statutory requirements for filing protests and for processing contract disputes and appeals. Specific criteria and required documentation for payment of valid claims are identified in these provisions and included in this chapter.

2.0 INTERNAL CONTROLS

Internal controls must be in place to ensure that duplicative or erroneous payments do not occur (for regulatory compliance, refer to Chapter 1). Managers with responsibilities for determining entitlements, authorizing or executing payments, and performing collections must perform periodic (minimum annual) risk assessments to ensure that sufficient management control mechanisms are in place to ensure that DoD funds are spent appropriately, and in accordance with all applicable laws and regulations. Refer to Volume 4, Chapter 14 for additional guidance related to improper payments and related risk assessments.

3.0 RETENTION

The retention of payment documentation, both paper and electronic records, is the responsibility of the certifying officer. Electronic record storage requires adequate controls to ensure that integrity of the digital images accurately represents the corresponding paper documentation and detects changes to an original digital image. Refer to Volume 1, Chapter 9, Figure 9-1 for DoD financial records retention policy. Title 44, U.S.C. § 2909 prescribes the authority to retain records for a longer period than specified in the U.S. National Archives and Records Administration, General Records Schedules.
4.0 ASSIGNMENT OF CLAIMS

4.1 Conditions for Assignment of Claims

The FAR 32.8 prescribes requirements for the assignment of contractual claims, which refers to the transfer by the contractor of its right to be paid by the Government for contract performance to a bank, trust company, or other financing institution, as security for a loan made to the contractor.

4.1.1. The authorization to assign claims to banks, trust companies, or other financing institutions (including federal lending agencies) of monies due, or to become due, under Government contracts totaling $1,000 or more is prescribed by 41 U.S.C. § 6305 and 31 U.S.C. § 3727, if not prohibited in the contract.

4.1.2. A contract may prohibit the assignment of claims if the agency determines the prohibition to be in the Government’s interest prescribed by FAR 32.803(b).

4.1.3. When a contractor receives payment by the Government Purchase Card, the contractor may not assign their rights under the contract if the contract is for commercial items and includes the FAR 52.212-4.

4.1.4. Unless otherwise expressly permitted in the contract, the assignment must:

4.1.4.1. Cover all amounts payable under the contract not already paid; and

4.1.4.2. Not be made to more than one party, except that it may be payable to a party acting as the agent or trustee for more than one party participating in the financing.

4.1.5. If an agency pays a party other than the assignee when a properly filed and approved assignment of claims is on record, it may result in Government liability to the assignee.

4.1.5.1. When such an error occurs, the agency remains liable to the assignee for the amount of the payment, subject to potential defenses; and

4.1.5.2. The agency must initiate collection against the payee for any erroneous payment.

4.1.6. Refer to the DFARS 232.8 for additional guidance concerning the assignment of claims.
4.2 Actions Required for Assignment of Claims

4.2.1. As prescribed by DFARS 232.8 and FAR 32.805(b), the assignee will:

4.2.1.1. Forward to the Administrative Contracting Officer (ACO) a true copy of the instrument of assignment, which is a certified duplicate or photostat copy of the original, and an original and three copies of the notice of assignment;

4.2.1.2. Forward to the surety or sureties, if any, a true copy of the instrument of assignment, and an original, and three copies of the notice of assignment. The surety will return three acknowledged copies of the notice to the assignee, who will forward two copies to the disbursing officer of the payment office designated in the contract; and

4.2.1.3. Forward to the disbursing officer of the payment office cited in the contract a copy of the instrument of assignment and an original and copy of the notice of assignment.

4.2.2. The ACO will acknowledge receipt by signing and dating all copies of the notice of assignment and will:

4.2.2.1. File the true copy of the instrument of assignment and the original of the notice in the contract file;

4.2.2.2. Forward two copies of the notice to the disbursing officer of the payment office cited in the contract;

4.2.2.3. Return a copy of the notice to the assignee; and

4.2.2.4. Advise the contracting officer of the assignment.

4.2.3. If the ACO determines that the assignment is valid, the disbursing officer of the designated payment office must acknowledge the notice of assignment and take the required actions as follows:

4.2.3.1. Acknowledge and return a signed copy of the notice of assignment to the assignee and file the true copy of the instrument of assignment and the original notice of assignment;

4.2.3.2. Authorize payment to assignees only after receipt of the following assignment documents:

4.2.3.2.1. A copy of the notice of assignment acknowledged by the contracting officer;

4.2.3.2.2. A copy of the signed notice and a true copy of the instrument of assignment from the assignee; and
4.2.3.2.3. A copy of the notice acknowledged from the surety or sureties, if any, or a copy received from the surety or sureties via the assignee; and

4.2.3.3. Ensure the payment office designated in the contract is provided a copy of the instrument of assignment and the signed notice of assignment.

4.2.4. If the ACO rejects the assignment, the disbursing officer of the designated payment office returns the acknowledged notice, and copy of the assignment, to the assignee. The ACO advises the assignee that the assignment cannot be recognized for the reasons stated by the contracting officer.

4.2.5. Components and agencies must maintain procedures to ensure the appropriate payment office is provided a copy of the instrument of assignment and the signed notice of assignment.

4.3 Letter Contracts

When entering into an assignment of claims under letter contracts, notices (with copies of assignments) are forwarded, by the assignee, to the contracting officer and the designated disbursing officer of the payment office cited in the contract.

4.3.1. If a letter contract is assigned, that assignment is not voided by a subsequent definitization of the contract.

4.3.2. Contracting officers, and the disbursing officer of the designated payment offices, accept receipt for, and honor the assignment of, the proceeds of a definitive contract superseding a letter contract.

4.4 Open-End, Call-Type, or Indefinite-Delivery-Type Contracts

Assignment of claims under open-end, call-type, or indefinite-delivery-type contracts are authorized, provided orders of $1,000 or more are placed prior to the assignment, or the basic contract imposes a minimum obligation of $1,000 or more. When the designated payment office cannot determine whether an assignment of claims applies to an individual call or order under indefinite-delivery-type contracts, the designated payment office must withhold payments until the ACO determines the status and validity of the assignment. Refer to FAR 16.1 for information concerning contract types.

4.5 Basic Ordering Agreements

Basic ordering agreements require a notice of assignment for each delivery order/supplemental procurement identification number. A notice of assignment will not be acknowledged, based solely on a basic ordering agreement, because the basic ordering agreement is not a contract between the Government and contractor (FAR 16.703(a)). The contracting officer must return the notice, and a copy of the assignment, to the assignee and advise that assignments
may be acknowledged on individual orders of $1,000 or more. Consult the agency legal office for determination if there is any doubt on any of these types of contracts.

4.6 Special Considerations for Assignments of Claims

The following are special considerations:

4.6.1. Two assignments of the same contract cannot exist without a release from the first assignment (41 U.S.C. § 6305). An authorization of a second assignment may only occur upon releasing the first assignment and notifying the original parties. Refer to FAR 32.805 for further guidance;

4.6.2. If the amount of the contract is increased, it is not necessary to execute an additional assignment;

4.6.3. The date of assignment cannot be before the date of the contract;

4.6.4. Except as authorized by 41 U.S.C. § 6305(b), the transfer of contracts, or any interest in the contract to another party, is prohibited (41 U.S.C. § 6305(a)); and

4.6.5. Payments to the assignee are not subject to reduction or setoff for an assignor's liability, unless departments/agencies decide it is in the Government's interest, or if the contracting officer makes a determination prescribed by DFARS 232.803(d).

4.7 Release of Assignment of Claims

A release of an assignment is required prior to a further assignment or reassignment. A release of an assignment is also required when the contractor wishes to establish a right to receive payments after the contractor’s obligations to the assignee have been satisfied, and a balance remains due on the contract.

4.7.1. If the assignee releases the contractor from an assignment of claims under a contract, the contractor must file a written notice of release together with a true copy of the release of assignment notice to the same offices noted in subparagraph 4.2.1.

4.7.2. The ACO:

4.7.2.1. Signs and returns a copy of the release notice to the contractor;

4.7.2.2. Files the true copy of the instrument of the release of assignment and the original release notice with the contracting office’s copy of the contract. The ACO and surety's acknowledgment are required. Refer to FAR 32.805(e) for additional guidance; and

4.7.2.3. Signs, dates, and returns the release notices to the assignee.
4.7.3. The designated payment office makes remaining payments to the contractor once it receives the following release documents:

4.7.3.1. A true copy of the instrument of release of assignment, and

4.7.3.2. The original and two copies of the release notice.

4.8 Electronic Funds Transfer

If a contractor attempts to change the identity of the payee by changing Electronic Funds Transfer (EFT), or other information, in System for Award Management (SAM), without complying with the rules governing novation agreements and assignment of claims, the payment information will be incorrect within the meaning of the “Suspension of Payment” paragraph of the EFT clause in the contract (FAR 4.1102(d)). Assignees must be registered separately in SAM to ensure the financial institution identified in the assignment meets the requirement for EFT.

5.0 NOVATION AND CHANGE OF NAME AGREEMENTS

5.1 Legal considerations

5.1.1. A novation agreement is a legal instrument executed by all of the following: the contractor (transferor), the successor in interest (transferee), and the U.S. Government. The transferor guarantees the performance of the contract, the transferee assumes all obligations under the contract, and the Government recognizes the transfer of the contract and related assets. Refer to FAR 42.12 for additional information.

5.1.2. A change of name agreement is a legal instrument executed by the contractor and the Government that recognizes the legal name change of the contractor without affecting the original contractual rights and obligations of the parties.

5.1.3. Title 41 U.S.C. § 6305 prohibits the transfer of Government contracts. However, as prescribed by FAR 42.1204(a), the Government may, when it is in its interest, recognize another party as the successor in interest to a Government contract when the third party’s interest in the contract arises out of the transfer of all the contractor’s assets, or the entire portion of the assets involved in performing the contract. Examples include, but are not limited to:

5.1.3.1. Sale of the assets with a provision for assuming liabilities;

5.1.3.2. Transfer of the assets incident to a merger or corporate consolidation; or

5.1.3.3. Incorporation of a proprietorship or partnership, or formation of a partnership.
5.2 Contractor and Contracting Officer Responsibilities

The contractor provides evidence to the contracting officer responsible for processing and executing novation and change of name agreements, as prescribed by FAR 42.1203(a-g).

5.2.1. The contracting officer enters into a bilateral modification to the contract, which changes the name of the contractor, as prescribed by FAR 42.1203(h).

5.2.2. Refer all questions regarding the novation and change of name agreements to the contracting officer.

5.3 Transfer of Contractual Obligation

When a contracting officer approves the transfer of a contractual obligation to another contractor, the transferor guarantees the performance of the contract by the transferee (a satisfactory performance bond may be accepted instead of the guarantee).

5.3.1. A transferee assumes all the transferor’s obligations under the contract, and the transferor waives all rights under the contract with the Government. Refer to the FAR 42.1204 for additional guidance.

5.3.2. When it is in the Government’s interest not to concur with the transfer of a contractual obligation from one company to another company, the original contractor remains under contractual obligation to the Government.

6.0 CONTRACT DISPUTES

6.1 Contractor Claims

The CDA waives the Government's sovereign immunity, permitting contractors to appeal a contracting officer’s final decision to the appropriate board of contract appeals, or file suit in the Court of Federal Claims.

6.1.1. The Armed Services Board of Contract Appeals is an independent tribunal that presides over disputes under the CDA of 1978, codified at 41 U.S.C. §§ 7101-7109, which allows Federal Government contractors to file a claim with the DoD for monetary damages, and other legal remedies related to their contractual dealings.

6.1.2. Routine submissions for payment are not considered claims under the CDA. The submission may be converted to a claim by written notice to the contracting officer as provided in FAR 33.206(a).

6.1.3. All claims by contractors against the U.S. Government must be a written demand or assertion submitted to the contracting officer for a decision. A contractor asserting a claim exceeding $100,000 must provide a certification as required by FAR 33.207(c).
6.2 Claims Settlement and Final Judgement

6.3 Interest Penalties

Interest on amounts due the contractor, on claims under the CDA, are payable to the contractor from the date the contracting officer receives the claim, or the date payment would otherwise be due, whichever is later, to the date paid (FAR 33.208(a)). Title 41 U.S.C. § 7109 provides the authority for the Secretary of the Treasury to establish the interest rate. Refer to the Department of the Treasury’s website for applicable interest rates. Under the CDA, only simple interest is paid, as noted in FAR 33.208(b); compound interest (interest on interest) is not payable under the CDA.

6.4 Questionable and Fraudulent Claims

6.4.1. If any part of a claim is attributable to misrepresentation of fact or fraud on the part of the contractor, the contracting officer will refer the matter to the agency official responsible for investigating fraud in accordance with FAR 33.209.

6.4.2. Fraudulent and questionable claims should not be paid. For additional information concerning fraudulent and questionable claims refer to Volume 5, Chapter 12.

CHAPTER 4

MISCELLANEOUS ADVANCE PAYMENTS

1.0 GENERAL

1.1 Purpose

This chapter prescribes policy for the entitlement and payment of miscellaneous advance payments. Advances do not include payments for which performance has occurred. Miscellaneous advance payments addressed in this chapter represent a current outlay of funds to DoD employees, other Federal Government agencies, or non-Federal entities before receipt of the items or services for which the payments were advanced.

1.2 Authoritative Guidance

Advance payments, in general, are prohibited by Title 31, United States Code (U.S.C.), section 3324. Exceptions to the advance payment prohibition are located in specific appropriation acts or other laws, or granted by the President as outlined in 31 U.S.C. § 3324.

1.2.1. Miscellaneous advance payments in this chapter include many of those identified as exclusions in the Federal Acquisition Regulation (FAR) 32.4. Refer to Chapter 10 for the entitlement and payment of advances to contractors under contract financing arrangements governed by the FAR 32.4 and the Defense Federal Acquisition Regulation Supplement (DFARS), 232.4. Refer to Volume 4, Chapter 5 for the accounting and reporting of advances and prepayments for cash or other assets disbursed under a contract, grant, or cooperative agreement. Refer to Volume 11A, Chapters 3 and 18 for goods or services procured from other Federal agencies where the DoD is specifically authorized by a specific appropriation or law to advance funds.

1.2.2. Use of electronic submissions is preferable when requesting payment in advance. The electronic request for payment must contain all elements of a proper invoice (Title 5, Code of Federal Regulations (CFR) section 1315.9(b)(1)). See Chapter 8, section 2.0 for additional policy concerning electronic invoicing and payment requirements.

1.2.3. All claimants that are subject to the U.S. Internal Revenue Service code must provide a Taxpayer Identification Number (TIN) in accordance with 31 U.S.C. § 3325(d). Refer to Chapter 6, subparagraph 2.4.2 for contractor, vendor, or individual payee requirements to provide a valid TIN as part of a proper invoice prior to payment.

1.2.4. All advance payment requests must be submitted to the designated payment office in accordance with the DoD and Component’s submission policies and procedures using a vendor invoice; Standard Form (SF) 1034, Public Voucher for Purchases and Services Other Than Personal; or an electronic equivalent.
1.2.5. Personnel may use electronic and digital signatures to approve and certify financial documents processed through automated information systems (Volume 5, Chapter 1, subparagraph 3.5.3).

1.2.6. All advance payments must be approved by a designated approving official, and a properly appointed certifying officer, prior to disbursement to ensure the information on the vouchers agrees with all supporting documentation. A properly appointed certifying officer also certifies that the vouchers are correct and proper for payment from the appropriation(s) or other funds cited on them or on supporting vouchers, and the proposed payments are legal, proper, and correct (Volume 5, Chapter 5).

1.2.7. To ensure auditability, and to validate entitlement systems’ payment records, a copy of all supporting documentation must accompany each advance payment request. Refer to Volume 1, Chapter 9, Figure 9-1 for financial records retention policy. Refer to 44 U.S.C. § 2909 for authorization to retain records for a longer period than specified in disposal schedules. Certifying officers are responsible for retention of all payment documentation (Volume 5, Chapter 5).

1.2.8. A prevalidation process must occur that matches the proposed advance payment to the obligation of funds recorded in the accounting records prior to the disbursement of the advance payment (Volume 3, Chapter 8). Refer to 31 U.S.C. § 1501 for documentation required to record the obligation. Refer to 31 U.S.C. § 1502 and 31 U.S.C. § 1552, which establish limitations of periods available for expenditure.

1.2.9. Agencies/organizations requesting and approving miscellaneous advance payments must ensure the advance payment does not exceed the value of the items/services being procured.

1.2.10. Components must ensure controls are in place for the liquidation of advance payments and assign responsibility for the performance of follow-up action. Internal controls must ensure that validation and documentation exists showing that the items or services were actually received and met the organization’s requirements. This effort is required before the advance payment can be liquidated. Discrepancies encountered must be resolved as soon as possible upon identification and may include the establishment and collection of debts from members, employees, or commercial, Federal, or state entities; see Volume 16 for more information on the collection of debts.

2.0 STATUTORY ADVANCE PAYMENTS

2.1 Overview

Specific legislation authorizes statutory advance payments.
2.2 Child Care

Amounts may be paid in advance to licensed or regulated child care providers for services to be rendered during an agreed period (40 U.S.C. § 590(g)(4) and 10 U.S.C. §§ 1791-1800). Authorized advance payments for child care services in an approved program, in areas where DoD-provided child care is not available, must include a copy of a signed contract between the family and the child care provider outlining the establishment of fees to support the payment (DoD Instruction 6060.02).

2.3 Subscriptions to Periodicals

Advance payment is authorized for subscriptions or other charges for newspapers, magazines, periodicals, microfilm libraries, and other publications for official use (31 U.S.C. § 3324(d)(2)). The total cost of the subscription is a valid charge to the appropriation for the fiscal year (FY) current at the time the subscription is ordered. Subscriptions may extend beyond the current FY. The subscription may cover deliveries extending into the subsequent year; however, the authorization of payments may not cover more than 1-year’s (i.e., 12 months) subscription from the same FY appropriation.

2.4 Tuition

Tuition payments may be paid in advance. Title 5, U.S.C. § 4109 provides general authority for advance tuition payments for civilian and military personnel, and 10 U.S.C. § 2396(a)(3) authorizes advance tuition payments for military personnel of friendly foreign countries. Advance tuition payments are payable when an educational institution requires payment at the time of enrollment.

2.4.1 Advance Payment. The SF 182, Authorization, Agreement and Certification of Training, must identify the training facility by name and address, the amount payable to the facility for the advance of tuition, and the amount payable to the trainee for the purchase of books and fees for library and laboratory services. The SF 182 must be submitted to the entitlement office to support the advance payment and must be signed by an approving official and certifying officer prior to being paid.

2.4.2 Liquidation of the Advance Payment. As stated in subparagraph 1.2.10, certain controls must be in place to liquidate the advance payment. Part of those controls involving tuition payment advances must include obtaining documentation that demonstrates and documents that the student successfully completed the training previously paid in advance. In the event the student owes the DoD, the Component must collect any outstanding amount due, and prepare and forward a DoD (DD) 1131, Cash Collection Voucher, to the designated disbursing office to complete liquidation of the advance payment.
2.5 Advance Payment Authority for Other Type Payments

Title 10, U.S.C. § 2396 authorizes advances of Federal monies for compliance with foreign laws, rent in foreign countries, tuition, public utility services, pay and allowances, and supplies and services of Armed Forces of friendly countries.

3.0 INTRA-GOVERNMENTAL ADVANCE PAYMENTS

3.1 Overview

3.1.1 Agencies may make intra-governmental payments in advance of the performance in the areas identified in this section. Unless the DoD Component is specifically authorized by law, legislative action, or Presidential authorization, funds are not to be advanced to non-DoD Federal entities or used to pay for advance billings without the receipt of goods or services. Volume 4, Chapter 5 covers the conditions and requirements for reporting and accounting related to advances and prepayments. For those few exceptions where DoD is authorized by a specific appropriation or law to advance funds, the specific appropriation or law authorizing the advance must be cited on the obligating and/or interagency agreement documents and orders (Volume 11A, Chapter 18).

3.1.2 The Treasury Financial Manual (TFM), Volume 1, Part 2, Chapter 4700, Appendix 8, provides policy and guidance on the use of the Intragovernmental Payment and Collection (IPAC) system by federal entities, including the DoD. IPAC is an internet-based collection and payment system used to transfer funds from one federal entity to another. An IPAC transaction can be initiated either manually through the IPAC application or through the completion of specific performance transactions in G-Invoicing. As G-Invoicing is developed and implemented, its use will be required by all federal entities. Fiscal Service will require federal entities to use G-Invoicing under the authority of 31 U.S.C. 3512(b) and 31 U.S.C. 3513. Components must establish follow-up actions and controls to ensure receipt and acceptance for the items/services to liquidate the advance payment as prescribed by Treasury Interagency Agreement Guide and subparagraph 1.2.10.

3.2 Leased Office Space

The Federal Management Regulation, Subtitle C, section 102-73.10 prescribes policy for Federal agencies to seek space in Government-owned and Government-leased buildings. With approval from General Services Administration (GSA), one Federal agency can lease from another Federal agency a portion of its leased office space (Federal Management Regulation, Subchapter C, section 102-73.60). The parties may enter into an agreement to include a lease payment made in advance, or on any other basis agreed upon, for the proportionate cost of the space, utilities, and services furnished (40 U.S.C. § 585).

3.3 Printing and Binding and Deposit Accounts

Title 44 U.S.C. § 310 authorizes advance payments for printing, binding, or supplies ordered from the U.S. Government Publishing Office (GPO). The requesting agency must process
the advance payments using IPAC to establish GPO deposit accounts. The GPO website provides instructions on how to create a deposit account by submitting a GPO Form 4045, Deposit Account (Printing and Binding). For a listing of GPO forms, refer to the GPO Forms website to place orders or download a Portable Document Format file.

3.4 Advances to General Services Administration for Special Purpose Leased Space

Title 40 U.S.C. § 581(g) authorizes GSA to bill tenants for building rent in advance. The charge is a fixed rate per square foot of space assigned based on costs of building operation and maintenance. There is no requirement to itemize separate cost factors for utilities, rent, or elevator service on the bill.

3.5 Rental of Post Office Boxes

The DoD authorizes advance payments to the U.S. Postal Service (USPS) for post office box rental on an annual basis (Government Accountability Office Comptroller General, B-57828, JUNE 5, 1946, 25 COMP. GEN. 834.) All fees for post office box service are for a six-month period. A fee is payable for two periods at a time, not to exceed two consecutive six-month periods. Federal Agencies whose payment period coincides with the Federal FY may pay their box fees during the first quarter. The USPS will refund a portion of the rental when the box is surrendered before the end of the rental period. In complying with the requirements of 41 CFR 102-192.50, the following methods are available when processing advance payments for box rentals:

3.5.1. The Bureau of the Fiscal Service (Fiscal Service) IPAC payment process associated with the Official Mail Accounting System;

3.5.2. The USPS Centralized Account Processing System associated with commercial payments;

3.5.3. Another Fiscal Service approved means of paying the USPS; or

3.5.4. Payments made to service providers other than USPS must be made by Fiscal Service payment methods such as automated clearing house electronic funds transfer, or another Fiscal Service approved means of paying the vendor.

4.0 OTHER ADVANCE PAYMENTS

4.1 Overview

Other advance payments not prohibited by 31 U.S.C. § 3324 are identified in the following paragraphs.

4.2 Attendance at Meetings and Conferences
4.2.1. Components may authorize payment of registration fees prior to attendance at meetings of technical, scientific, professional, or similar organizations. Refer to the DoD Conference Guidance Version 4.0 for the administration and oversight of all conferences, including those conferences hosted by the DoD, and those attended by DoD personnel.

4.2.2. DoD civilian employees and uniformed service members may attend and participate in conferences or meetings, and recognized professional organizations, to maintain and improve professional competency at the Government’s expense, subject to the availability of funds, specific management approvals, and the employee’s or member’s work responsibilities. Conference attendance expenditures, which contribute to improved conduct, supervision, or management of the DoD Components’ functions and activities, may be authorized as prescribed by Joint Travel Regulations Uniformed Service Members and DoD Civilian Employees, Chapter 3, Part B. Documentation supporting the approval must accompany the request for advance payment (SF 182 or electronic equivalent). The request for advance payment must be approved by a management official prior to submission to the certifying officer.

4.2.3. If the payment is non-refundable, and the individual fails to attend for reasons beyond their control, then do not collect registration fees from the individual. If an individual’s failure to attend the event is due to a reason deemed inexcusable by the DoD Component concerned, the individual must repay the amount advanced. If an individual does not make a voluntary settlement of indebtedness, the Component must take action to collect the outstanding advance from money due the employee or member. Policy for salary offset to collect debts owed to DoD by military members or civilian employees is in Volume 16, Chapter 3.

4.3 Payments to State and Local Governments

Advance payments to state and local governments for goods and services are authorized on the basis that the established responsibility of these governmental units reduces the possibility of a loss to the Federal Government. The FAR 32.409-3(e) states that in an advance payment agreement to a state or local government, the contracting officer may omit the requirement for deposit of the advances in a special account, if the approving official determines that other adequate security exists to protect the Government’s interest.

4.4 Petition Fees

When submitting a petition for immigrant status for a person whose services are required, the fee must accompany the petition. In this case, the fee is payable in advance to the U.S. Department of State (22 CFR 22.1 - 22.7). Title 22, CFR 22.3 prescribes remittances in the United States and 22 CFR 22.5 prescribes remittances to Foreign Service posts.

4.5 Professional Societies

When approved, membership dues or fees in professional societies or associations acquired for the benefit of the DoD Component are payable in advance. Appropriated funds expended for membership must be to acquire services that will benefit the Component, not an individual. The
head of an agency or designee must make the determination of the membership requirement. The individual employee must provide verification of membership to validate the advance payment.

4.6 Purchase of Copyrights or License to Use Patent for its Life

Components may authorize an advance payment for a license to use a patent or to purchase the copyright. The FAR 27 and DFARS 227 prescribe policies, procedures, solicitation provisions, and contract clauses pertaining to patents, data, and copyrights. The subject matter of the purchase must be within the authorization of the current FY appropriation (10 U.S.C. § 3793).

4.7 Utility Connection Charges

As prescribed by FAR 41.1, FAR 41.2, and FAR 52.241-9, payment for a utility service account activation fee or connection charge is allowable. Connection charges, whether refundable or non-refundable, are to be paid by the U.S. Government to the utility supplier for the required connecting facilities, which are installed, owned, operated, and maintained by the utility supplier. If the connection charges are refundable, they are considered an advance payment, and the U.S. Government recovers the connection charges through reimbursements by a specified monthly refund or a credit on the service billings for utility charges.

4.8 Foreign Country-Related Requirements

4.8.1 Postage. Components may authorize the purchase of foreign postage stamps for contingency or classified operations from imprest funds or by an SF 1034. See Volume 5, Chapter 2 and FAR 13.305 for additional guidance on imprest funds. When using an SF 1034, the originating office prepares the voucher, which requires the approval by the appropriate approving official and certifying officer, and forwards it to the disbursing office. The disbursing office prepares a check and sends it to the originating office. The originating office purchases the stamps and provides the disbursing office with a receiving report. No proof of purchase or sales receipt is necessary as the check endorsement acknowledges payment.

4.8.2 Motor Vehicle Operator Permit Fees Overseas. Some foreign countries require personnel to obtain motor vehicle driver permits to perform their official duties. The fees for the permits may require an advance payment. A tour of duty in a foreign country justifies the expenditure.

CHAPTER 6

FEDERAL, STATE, LOCAL, AND FOREIGN TAXES

1.0  GENERAL

1.1  Purpose

This chapter prescribes the financial management policy for payment of federal, state, local, and foreign taxes associated with the various types of payments addressed in this volume. It also provides the tax information reporting requirements, and associated Departmental policy, that apply to certain contract, vendor, and miscellaneous payments (including miscellaneous payments made to military and civilian employees). Tax-related policy and requirements involving Nonappropriated Fund Instrumentalities are covered in Volume 13, Chapter 7.

1.2  Authoritative Guidance

1.2.1. Tax Information Sources. The Federal Government’s right to tax exemptions depends on the applicability of federal, state, local, and foreign tax law; tax agreements with foreign countries; items being acquired; the nature of the tax; and the type of transaction. Federal Acquisition Regulation (FAR) 29 identifies the general tax applications on U.S. purchases, the rights to exemptions, and the methods of claiming exemptions. More specialized information regarding the applicability of various taxes not obtainable locally may be obtained from the taxing authorities themselves or through discussions with the Component’s general counsel.

1.2.2. Exemptions From Certain Federal Taxes

1.2.2.1  FAR 29.203(a) provides that pursuant Title 26, United States Code (U.S.C.), section 4293, the Secretary of the Treasury has exempted the Federal Government from the communications excise tax imposed by 26 U.S.C. § 4251 when the supplies and services are for the exclusive use of the United States. This does not include facilities furnished to a Government contractor. Exemptions can be made with or without the use of an exemption certificate. The installation (or issuing) contracting office is responsible for preparing tax exemption certificates.

1.2.2.2  FAR 29.203(b) provides that pursuant to 26 U.S.C. § 4483(b), the Secretary of the Treasury has exempted the Federal Government from the Federal highway vehicle use tax imposed in 26 U.S.C. § 4481. As stated in FAR 29.203(b), the exemption applies whether the vehicle is owned or leased by the Federal Government.

1.2.2.3. FAR 29.202 identifies other circumstances in which Federal manufacturers' or special-fuels excise taxes may not be imposed in contracting situations that should be recognized by the contracting officer, who then must furnish the seller an exemption certificate.
1.2.3. **Policy Hierarchy.** Internal Revenue Service (IRS)-published regulations take precedence over DoD policy for the resolution of tax-related issues. Components should consult with their designated legal counsel if there are legal questions or apparent conflicts between the policy provided in this chapter and the IRS regulations.

2.0 RESPONSIBILITIES

2.1 Defense Logistics Agency-Energy (DLA-Energy)

DLA-Energy is responsible for:

2.1.1. Any application for tax refunds applicable to DLA-Energy programs. If DLA-Energy supports a Federal civilian agency, then that civilian agency is responsible for collecting data needed to apply for tax refunds; and

2.1.2. Contracting for fuels, to include the use of the proper clauses concerning local tax provisions as provided in FAR 29.4.

2.2 Military Departments and Defense Agencies

DoD Components are required to take maximum advantage of exemptions from excise taxes.

2.3 Contracting Officer

As outlined in FAR 29, the contracting officer is responsible for:

2.3.1. Inserting the appropriate tax clauses in contracts;

2.3.2. Soliciting prices on a tax-exclusive basis when it is known that the Federal Government as a whole, or the Armed Forces within DoD, are exempt from these taxes;

2.3.3. Contacting local and/or state taxing authorities to verify acceptance of tax exemption certificates;

2.3.4. Working with fleet card issuers to maximize excise tax reclamations (recoupment);

2.3.5. Ensuring that contractors are aware of and understand duty-free entry clause requirements; and

2.3.6. Resolving tax liability or tax exemption disputes associated with DoD contracts.
2.4 Contractors, Vendors, and Individual Payees

2.4.1. In accordance with FAR 29.304, contractors, vendors, and individual payees requesting payment from a DoD Component may be required to take certain action regarding payment, nonpayment, refund, protest, or other treatment of state and local specified taxes. This action will be taken in consultation with the contracting officer and will be varied depending on the tax consequences, nature of the purchases, and applicable contract clauses. Any entitlement or disbursement office concerns regarding any contractor tax-related payment requests or refunds should be elevated to the contracting officer for resolution.

2.4.2. Title 31, U.S.C. § 7701(c) and FAR 4.902 require all payees, subject to the U.S. Internal Revenue Code (IRC), doing business with the DoD to furnish their Taxpayer Identification Number (TIN) as defined by 26 U.S.C. § 6109 (which may be a Social Security Number (SSN), Individual Taxpayer Identification Number or Employee Identification Number. Payments are not to be authorized without a TIN or SSN on record for the required payee, except as described in paragraph 6.5.

2.4.3. If the contractor, or another payee, believes the IRS Form 1099-MISC, Miscellaneous Income, IRS Form 1099-INT, Interest Income, IRS Form 1099-NEC, or IRS Form 1099-C, Cancellation of Debt, was improperly issued or had incorrect information, they must provide written evidence for a correction to the appropriate tax office.

2.5 Fleet Card Issuer

The Fleet Card issuer (third-party payor) is responsible for working with DLA-Energy and the Defense Finance and Accounting Services (DFAS) to maximize excise tax reclamations, as rules and procedures vary by state. Generally, states require that tax reclamations be completed after payment is made. Refer to the General Services Administration (GSA) SmartPay website for additional Fleet Card tax information.

2.6 DFAS

For those entitlement systems managed by DFAS and Enterprise Resource Planning (ERP)-managed systems that have coordinated with DFAS (except for Defense Health Agency and U.S. Army Corps of Engineers, where responsibility has otherwise been assigned), DFAS is responsible for:

2.6.1. Computing all appropriate tax withholdings, making deposits to the U.S. Department of the Treasury (Treasury), and filing the appropriate tax documents with the IRS;

2.6.2. Paying excise taxes as appropriate;

2.6.3. Performing reclamation of Federal and state excise tax related to fuel purchases, based on data provided by either DLA-Energy or Fleet Card issuers. DFAS responsibilities for performing reclamation will include filing for the National Guard;
2.6.4. Recording any taxes recovered in the applicable accounting systems;

2.6.5. Reviewing payment information to determine if a payment is reportable under current IRS guidelines; and

2.6.6. For those entitlement or ERP systems not managed by DFAS, for which DFAS is the responsible disbursing activity, DFAS is responsible for:

   2.6.6.1. Issuing annual instruction on requirements for submitting necessary tax reports to DFAS for distribution to the recipients; and

   2.6.6.2. Coordinating the issuance of the hardcopy or electronic tax statements by the IRS-mandated timelines.

2.7 Office of the Staff Judge Advocate or General Counsel

   These offices are responsible for providing available payment data related to all settlements of personnel cases. The document forwarded to the paying office must identify the type of payment(s) represented by the settlement (for example, compensatory damages, attorney fees, back pay, or interest), as well as the dollar amount attributed to each type of payment. This information will be used to determine the proper tax reporting of the payments. These offices must also provide the information required to properly report payments to attorneys under 26 U.S.C. § 6045(f), separate from the claims settlement payment.

2.8 Third-Party Payors

   Third-party payors are responsible for preparing and filing IRS Form 1099-K, Payment Card and Third-Party Network Transactions, for certain payments they made, even if the item(s) procured were delivered to DoD. Further, the DoD is not responsible for filing an IRS Form 1099-MISC when the covered payments are made by third-party payors.

2.9 Convenience Check Account Holder

   2.9.1. The convenience check account holder is responsible for tax reporting for the convenience checks they issue and for obtaining a signed IRS Form W-9, Request for Taxpayer Identification Number and Certification. Refer to IRS instructions for Form 1099-MISC and 1099-NEC for more detail regarding payment types that are not reportable to DFAS. As the checks are written, the account holder must capture the following check recipient data:

   2.9.1.1. Payee’s legal name (merchant, vendor, or individual name by which taxes are filed);

   2.9.1.2. Payee’s business name. If the business is classified as a sole proprietorship, then report the business (merchant) information and provide the sole proprietor’s name;
2.9.1.3. Payee’s legal mailing address (the address used to file their taxes);

2.9.1.4. Employer Tax Identification Number (SSN or TIN);

2.9.1.5. Check number;

2.9.1.6. Check amount;

2.9.1.7. Payment date (date the check is written, not the date the check is cashed);

2.9.1.8. A brief description of the purchase;

2.9.1.9. Telephone number and/or email address of the merchant; and

2.9.1.10. Convenience check account number.

2.9.2. DFAS has tax reporting responsibilities for certain agencies within the DoD, and thus is responsible for reporting to the IRS miscellaneous and non-employee income paid to vendors/contractors. DFAS coordinates with the GSA Smartpay contract designated bank and the account holder to obtain information to issue tax forms and report to the IRS. Additional policy concerning the use of convenience checks is contained in Chapter 23.

2.9.3. The convenience check account holder is responsible for all backup withholding actions required based on the receipt of an IRS CP2100 notice (See IRS website – backup withholding). Also see paragraph 6.5 for additional information regarding backup withholding.

3.0 FEDERAL EXCISE TAX (FET)

3.1 General

Except for exemptions provided by the IRC as set out in FAR 29, the Government must pay FET on fuel purchases. If a contract does not specify that the contract price excludes FET, then assume the contract price includes the tax and pay only the contract price. If the contract price specifically excludes the tax, then FET for fuel purchases must be billed on the invoice as a separately identified item from the contracted fuel price.

3.2 Exemptions

Tax exemptions or refunds are available for DoD purchases of aviation fuel and off-highway use of gasoline and road diesel fuels. Whether or not an exemption is available, or a refund application is required, depends on where in the distribution chain the purchase was made and the IRS status of the seller of the fuel. See IRS Publication (Pub) 510 for additional IRS guidance.
3.3 Refunds

Requests for refunds must be filed on an IRS Form 8849, Schedule 1, Nontaxable Use of Fuels.

3.4 Quarterly FET Return

3.4.1. Unless notified differently by the IRS District Director, the accounting office responsible for reporting DLA-Energy activity must prepare and submit quarterly FET returns. DLA-Energy must submit a monthly report to DFAS containing the sales to taxable customers. A return must be made using IRS Form 720, Quarterly Federal Excise Tax Return, for the first calendar quarter when the tax liability is incurred and each subsequent calendar quarter until a final return is filed. Final returns must be marked “FINAL” and are applicable only when no FET is owed and reportable in future quarters. See IRS Pub 510 for additional IRS guidance.

3.4.2. IRS Form 720 contains a list of the commodities and services subject to the tax and the tax rate. This form also serves as a return for all excise taxes for which quarterly reporting is required.

3.4.3. The accounting office is responsible for preparing IRS Form 720. Instructions for preparing this form are in IRS Instructions for Form 720.

3.4.3.1. The IRS Form 720 filing due date is on or before April 30, July 31, October 31, and January 31.

3.4.3.2. Submit the original IRS Form 720 to the appropriate IRS Center; include the amount of taxes collected.

3.5 Collections for FET

3.5.1. Collections for FET are made to deposit fund accounts. Excise taxes collected must be transferred using the most current instructions received from the IRS. Generally, transfers of excise taxes are required semi-monthly and must be made electronically to the Treasury.

3.5.2. Report the amounts of FET collected and deposited for the sale of aviation fuel other than for the exclusive use of the DoD.

4.0 STATE AND LOCAL TAXES

4.1 State and Local Taxes

4.1.1. In accordance with FAR 29.302(b), DoD Components must assert the Government’s immunity or exemption from taxes whenever it is available, and economically feasible, to do so. State statutes identify whether the tax is levied on the seller or the purchaser. The process for seeking refunds differs from state to state. Some states accept Standard Form 1094, United States Tax Exemption Form, some states have their own required forms, and other states require payment of the
tax at the time of purchase and provide a means for seeking refunds of the tax. The contracting officer will contact the local state taxing authority to verify if they accept tax exemption certificates. A blanket-type tax exemption certificate is used to obtain a U.S. Government exemption from state or local taxes in the case of continuing or numerous purchases from contractors. Payments of state and local taxes are supported under the following conditions:

4.1.1.1. When the tax is levied on the seller, the Federal Government must pay the tax as part of the purchase price unless the taxing authority provides otherwise; or

4.1.1.2. When the Government has, by contract, agreed to reimburse the contractor for taxes paid to a state or municipality.

4.1.2. Unless specifically stated otherwise in the contract, it is presumed that state and local taxes are included in the contract price. When there is a valid and binding contract covering the furnishing of supplies or services at fixed unit prices, and the contract contains no provision for the adjustment of such prices in the event of the imposition on the contractor of state taxes applicable thereto, there is no authority for the payment of any taxes over and above the unit price stipulated in the contract.

4.2 Taxes Involving Fuel Purchases

DLA-Energy is responsible for supplying applications for tax refunds on fuel purchases for both service station and bulk purchases of fuel. Contracting officers should coordinate with DLA-Energy on the applicability and reimbursement of state and local taxes pertaining to diesel fuels and gasoline purchases.

4.3 Leases and Purchases

In accordance with FAR 29.302(a), generally, purchases and leases are immune from various state and local taxes. This determination is a legal question and requires consultation with agency counsel. FAR 29.4 references the different contract clauses concerning state and local taxes that may be included in contracts on leases and rentals.

5.0 CUSTOMS DUTIES

5.1 U.S. Customs Duties on Foreign Purchases

5.1.1. Duty-Free Purchases. The DoD Components can make emergency purchases of war materials abroad. This material will be admitted free of duty. The applicability of customs duties is governed by the contract and actions of the contractor and contracting officer in accordance with FAR 25.9. Federal acquisition policy in FAR 25.9 states that agencies must pursue and use any exemptions allowed when the anticipated savings to appropriated funds will outweigh the administrative cost associated with processing the required documentation. Defense Federal Acquisition Regulation Supplement 225.9 provides more specific Departmental policy and requirements of the administrative contracting officer (ACO) in issuing duty-free entry

6-10
certificates, identifying exempted supplies, and performing other formal entry and release procedures for the foreign items procured under a prime contract.

5.1.2. Payment of Custom Duties. If the importation is not determined to be duty-free, then the duty must be charged to the same appropriation/fiscal year used to fund the purchase, even though the importation and purchase may be in different fiscal years. Expired funding is available for such obligation "adjustments" as stated in Volume 3, Chapter 10. The amount due will be generated based on the classification of imports by Customs and Border Protection. Payment vouchers must be prepared to show the payment amount, annotated with the source and calculated amount of the duty, with remittance addressed to the Collector or Deputy Collector at the port of entry. However, prior to payment, the entitlement office must obtain the ACO’s approval to ensure the amount of the customs duties is not already covered in the price of the contract or exemption certifications have been issued to exempt the procured items from customs duties.

5.2 Customs Exemptions for American Imports and Purchases in Canada for Joint Defense Program

5.2.1. General. The Government’s imports and purchases from other countries are exempt from Canadian import duties and taxes when used for joint defense projects in Canada.

5.2.2. Refund or Remission of Taxes. Goods purchased in Canada by or for the United States, or by the Canadian Commercial Corporation, are governed by concessions when U.S. funds expended are intended for joint Canadian–U.S. projects in Canada or when the goods will become and remain U.S. property. See Defence Production and Development Sharing Remission Order Consolidated Regulations of Canada, c. 755. The concessions permit refund or remission in certain circumstances, including:

5.2.2.1. Sales taxes paid on goods, other than those for resale, to members of the U.S. Armed Forces or civilian personnel for private use;

5.2.2.2. Excise taxes, including the stamp tax on checks. Items for resale to members of the U.S. Armed Forces or civilian personnel for private use are not exempt from stamp taxes or excise taxes; and

5.2.2.3. Customs duties paid on import goods when used, directly consumed, processed, or attached to items or goods manufactured in Canada and sold to the U. S. Government for use with joint Canadian–U.S. projects.

6.0 MISCELLANEOUS

6.1 Payments in Lieu of Taxes

Issues involving the payment of taxes are complex and should be referred to the activity’s servicing legal office.
6.1.1. Charges by state or local governments for services levied on Federal Government entities or their contractors, which are not imposed on residents or nonfederal tax-exempt entities, where the cost of service is borne by the general tax revenues, are the nature of a tax to which the DoD is immune.

6.1.2. A reasonable charge by a political subdivision based on the “quantum” of direct service furnished, and which is applied equally to all property tax exempt entities, is not considered a tax against the DoD, even though the services are furnished to taxpayers without a direct charge, provided the political subdivision is not required by law to furnish the service involved without a direct charge to all located within its boundaries.

6.1.3. Payments are permitted in lieu of taxes to municipalities that have lost tax revenue due to the transfer of plants to Government Components, only when authorized by the Congress. Payments in lieu of taxes are not authorized if the property transferred was never on municipality tax rolls and municipal services had never been furnished.

6.2 Foreign Taxes

U.S. Government purchases in a foreign country are not exempt, in general, from taxes and custom duties when imposed by the foreign country. The Status of Forces or other government tax or trade agreements may provide exemptions. The Component’s legal counsel should be consulted regarding the applicability of these agreements to their individual circumstances. FAR 29.402 provides specific clauses pertaining to foreign taxes that may be in contracts.

6.3 Taxes on Arms and Ammunition

In accordance with 10 U.S.C. § 2385, Federal taxes may not be imposed on the sale or transfer of firearms, pistols, revolvers, shells, or cartridges when such articles are purchased with funds appropriated for a military department.

6.4 Environmental Assessments

If an environmental assessment is levied by a local government, and it represents a fee, then the payment is authorized. If the assessment appears to be a tax, and its legality is questionable, then the payment is not authorized. The Component’s legal counsel should be consulted to determine whether payment should be made.

6.5 Backup Withholding

6.5.1. In most instances, pursuant to 31 U.S.C. § 3325, DoD may not make a payment without a valid TIN. If payment is appropriate without a TIN and a signed IRS Form W-9, and no exception to backup withholding applies, backup withholding must occur. Backup withholding requirements are enforced on a payment-by-payment basis, regardless of payment size. When an individual or entity has not provided a TIN and a signed IRS Form W-9 as described above, the backup withholding requirements, as described in 26 U.S.C. § 3406, are applicable. Because of
the TIN requirement imposed by 31 U.S.C. § 3325, backup withholding within DoD should be extremely rare.

6.5.2. Backup withholding requirements are separate from the reporting thresholds that apply to most IRS Form 1099 reporting. Backup withholding is applied to the principal payment only, to exclude such charges as transportation charges or interest. Payments that are not subject to reporting on the IRS Form 1099, as set forth in subparagraph 7.3.2, are not subject to backup withholding.

6.5.3. The paying office will deposit the backup withholding with the IRS. The paying office will generate an IRS Form 945, Annual Return of Withheld Federal Income Tax, for the IRS. Additional guidance is available in IRS instructions for Form 945, IRS Pub 15, (Circular E), “Employer’s Tax Guide,” and IRS Pub 1281, “Backup Withholding for Missing and Incorrect Name/TIN(s).”

6.5.4. DoD activities must perform backup withholding on reportable payments when the following conditions exist:

6.5.4.1. The IRS informs the paying office that the payee provided an incorrect TIN and reportable payments totaling $600 or more during the calendar year,

6.5.4.2. An information return was required concerning the payee for the preceding calendar year, or

6.5.4.3. Backup withholding was required from the payee for the preceding year.

7.0 FEDERAL TAX REPORTING

7.1 General

7.1.1. At the end of each calendar year, payment or entitlement offices are required to report certain payments to the IRS. The reporting requirements are established by 26 U.S.C. § 6041, 26 U.S.C. § 6041A, 26 U.S.C. § 6045(f), FAR 4.904, and current IRS instructions/guidelines. Payment or entitlement offices must provide the recipients (payees) with an IRS Form 1099 by the date specified by the IRS (See IRS reporting due dates).

7.1.2. There are various payments made to military members and civilian employees that are subject to IRS for IRS Form W-2, Wage and Tax Statement, reporting (e.g., military award payments). Some of these payment types may require tax withholding and will be reported on the IRS Form W-2. These payments are required to be paid by the appropriate system for accurate withholdings to be applied and reported on the annual IRS Form W-2 by the date specified by the IRS (see IRS reporting due dates). Payment through a vendor pay office is only authorized if the appropriate withholdings are computed, included, and presented for payment to the vendor pay office. At the end of each calendar year, payment or entitlement offices are required to report these payments via Form W-2 according to current Social Security Administration/IRS guidelines.
7.2 Tax Reporting

7.2.1. Each DoD Component is responsible for the preparation of an IRS Form 1099 on its contract or vendor payments for applicable services (specified in paragraph 7.3) that total $600 or more, or royalties of $10 or more, in a calendar year to a single person or business entity (partnership, sole proprietor, or corporation), unless an exception applies. For DFAS-serviced Components, DFAS will prepare, print, and distribute the hard copy of the IRS Form 1099 to the vendor/contractor/payee and forward the same information to the IRS. If an IRS Form 1099 is required to be corrected, then the paying office that maintains the underlying payment record provides the information necessary to effect the correction. If the vendor/contractor/payee believes the IRS Form 1099 was improperly issued or had incorrect information, then the recipient must provide the written evidence needed for correction.

7.2.2. Payment data in various payment systems, for the same contractor, must be consolidated to determine if an entity was paid more than $600 for reportable payments.

7.2.3. IRS Form 1099-MISC is not required for purchase cards and centrally-billed travel paid for using a government credit card.

7.2.4. DFAS will not make a determination of independent contractor or employee status for tax purposes when payments are made to individuals. That determination is at the discretion of the contract-issuing activity. If there is a question, then the contract-issuing activity, through its chain of command, will submit an IRS Form SS-8, Determination of Worker Status for Purposes of Federal Employment Taxes and Income Tax Withholding, to the IRS Associate Chief Counsel (tax exempt and government entities) for a determination. See IRS Pub 1779, “Independent Contractor or Employee,” for additional information.

7.3 IRS Form 1099 Information Reporting

7.3.1. Payments Subject to Reporting. Certain contract and vendor payments are subject to IRS Form 1099 reporting in accordance with IRS regulations/guidelines.

7.3.1.1. General Rule. Payments are aggregated for the taxable year for:

7.3.1.1.1. Business entities: Sole proprietors, partnerships, and corporations, with some exceptions;

7.3.1.1.2. Corporations providing medical and health-care services that are not otherwise exempt from taxation under 26 U.S.C. § 501(a);

7.3.1.1.3. Canceled debts; and

7.3.1.1.4. Interest (including Title 5, Code of Federal Regulation, Part 1315, Prompt Payment) to individuals, sole proprietors, and partnerships. Corporations are exempt from interest reporting.
7.3.1.2. Payment for Services. Payment or compensation for services rendered, including medical or health-care services and contractual legal services, is subject to IRS Form 1099 reporting, unless the payment is to an employee and should be reported on an IRS Form W-2. This reporting requirement applies regardless of whether payment is issued to an individual, a sole proprietorship, a partnership, or corporation. The requirement does not apply when a payment is made to a hospital or extended health-care facility that is exempt from taxation under 26 U.S.C. § 501(a), or to a hospital or extended health-care facility owned and operated by the U.S. or an agency or instrumentality of the United States. This reporting rule also applies to payments issued to U.S. corporations, paid in U.S. dollars, for service contracts executed in foreign countries.

7.3.1.3. Payments for Taxable Settlements

7.3.1.3.1. Generally, payments for personnel claims, Equal Employment Opportunity actions, and grievances represent taxable income and should be reported on an IRS Form 1099, but may be reported on an IRS Form W-2 depending on the classification of the settlement categories. This includes amounts paid in settlement, damages for nonphysical injuries or sickness (such as employment discrimination or defamation), liquidated damages, and punitive damages. Amounts paid on account of personal physical injury or physical sicknesses, however, are not taxable and are not reported on an IRS Form 1099.

7.3.1.3.2. Compensatory damages received based on emotional distress or injury that are attributable to a physical injury or physical sickness are not taxable and not reported on an IRS Form 1099, to the extent that the amount paid does not exceed the amount paid for medical care for the emotional distress. Damages paid on account of emotional distress, including physical symptoms such as insomnia, headaches, and stomach disorders, which are not attributable to a specific physical injury or physical sickness, are reportable.

7.3.1.3.3. In cases where the amount to be paid to the complainant represents back pay, and the claim originates with a DoD activity whose civilians are paid by DFAS, the claim must be forwarded to a civilian pay office for payment and issuance of an IRS Form W-2. DoD activities must forward claims representing back pay to their supporting payroll office.

7.3.1.3.4. The office forwarding personnel claims, as described in Chapter 12, for payment, such as taxable settlement awards, is responsible for providing information with the settlement documents that are required for tax reporting. All settlement payments are presumed to be taxable unless otherwise indicated in the settlement agreement or they meet one of the specific categories that are nontaxable.

7.3.1.4. Gross Proceeds Paid to an Attorney. The total amount paid to an attorney for legal services, other than contractual legal services, must be reported on an IRS Form 1099 as required by 26 U.S.C. § 6045(f). The term “attorney” includes a law firm or other provider of legal services, such as a corporation. This reporting requirement applies, regardless of whether or not legal services are provided to the Government, and if the attorney is the sole payee. In the case of payment by check, payment is considered to be made to the attorney or law firm if the attorney or law firm is named the sole, joint, or alternate payee. A need to issue two IRS Form 1099s on a
single payment may occur. In this case, issue an IRS Form 1099 to the complainant and another IRS Form 1099 to the attorney. Information that must be provided by the office forwarding the claim for payment includes, but is not limited to: payee name(s), payee TIN, amount paid, payee address(es), and settling activity identification.

7.3.1.5. Vendors in U.S. Territories. Service payments to vendors located in Puerto Rico, Guam, American Samoa, Commonwealth of the Northern Mariana Islands, and the U.S. Virgin Islands are subject to IRS information reporting.

7.3.2. Payments Not Subject to Reporting. The following classes of contract and vendor payments are not subject to IRS Form 1099 reporting:

7.3.2.1. Payment of bills for merchandise, transportation, freight charges, telegrams, telephone, storage, and similar charges;

7.3.2.2. Payments subject to reporting on an IRS Form W-2 related to compensation paid to DoD employees or service members;

7.3.2.3. Payments of rent, if made to a real estate agent;

7.3.2.4. Payments to Government employees as an allowance or reimbursement for traveling or associated expenses, including claims for damaged household goods;

7.3.2.5. Payments made as an award to an informer or similar payments;

7.3.2.6. Payments made to a Government agency, political subdivision, or instrumentality thereof; and

7.3.2.7. Payments to organizations that are exempt from taxation under 26 U.S.C. § 50 (a).

7.4 Debt Actions Subject to IRS Form 1099-C

7.4.1. Federal agencies are required to report the cancellation of each debt to an individual, sole proprietor, partnership, or corporation. Debts forgiven via a waiver or remission are not issued an IRS Form 1099-C. The term “debt” includes the principal owed, interest, penalties, administrative costs, and fines. If, however, interest is included in the amount reported on the IRS Form 1099-C, then it must be listed separately on the form. A debt is considered to be canceled on the date that the authorized individual approves the termination of the debt-collection process.

7.4.2. The cancellation of the debt is reported on IRS Form 1099-C, regardless of whether the debtor is required to report the debt as income. A copy of the IRS Form 1099-C must be provided to the debtor by the date specified by the IRS (See IRS reporting due dates). If payment is received on a previously canceled prior year debt, then there is no requirement to file an additional or corrected IRS Form 1099-C.
7.5 Payments to Individuals Subject to IRS Form W-2 Reporting

7.5.1 General. As discussed in Chapter 12, various payments are issued by DFAS to, or on behalf of, DoD employees and military members. Payments may be subject to tax withholding and tax reporting (Federal and state) on an IRS Form W-2.

7.5.2 Cash Awards to Military Members

7.5.2.1 Cash awards to military members for disclosures, suggestions, inventions, and scientific achievements are subject to the withholding of Federal and state income taxes, as cited in Chapter 12 paragraph 2.14.3 and Volume 7A, Chapter 44, paragraph 2.1. In accordance with Volume 7A, Chapter 45, paragraph 2.2, cash awards are not subject to Federal Insurance Contributions Act (Old Age, Survivors, and Disability Insurance/Medicare) withholding. Certain Combat Zone Tax Exclusions (CZTE) may apply. Information on the CZTE is available in IRS Pub 3, “Armed Forces’ Tax Guide,” and Volume 7A, Chapter 44, Withholding of Income Tax.

7.5.2.2 For purposes of issuing an IRS W-2, DFAS will withhold taxes and will issue an IRS Form W-2 by the date specified by the IRS (see IRS reporting due dates). See subparagraph 7.1.2 for additional information.

7.6 Filing Information Returns With the IRS

7.6.1 Filing Requirements

7.6.1.1 Forms Required

7.6.1.1.1 When filing manual (paper) IRS Form 1099s, IRS Form 1096, Annual Summary and Transmittal of U.S. Information Returns, must be used to transmit and summarize payment information. It serves as a cover sheet for one or more individual reports. IRS Form 1096 is obtained through the IRS Forms, Instructions and Pubs website.

7.6.1.1.2 A separate IRS Form 1099 must be completed for each entity concerned, and all are covered by one IRS Form 1096. IRS Form 1099s are obtained through the IRS Forms, Instructions and Pubs website.

7.6.1.2 Distribution of Report. The IRS Form 1096 is to be filed using the address listed on the form, and the IRS Form 1099 is to be filed according to IRS Pub 1220, “Specifications for Electronic Filing of Forms 1097, 1098, 1099, 3921, 3922, 5498, and W-2G.”

7.6.1.3 Electronic Filing. The IRS Form 4419, Revise Existing Transmitter Control Code (TCC) for Application for Filing Information Returns Electronically (FIRE), must be used to receive IRS approval to transmit electronically. When filing 250 or more IRS Form 1099 returns in a single report, filings are done electronically and are required to be filed by the date specified by the IRS (see IRS reporting due dates). These electronic filing procedures are published annually in IRS Pub 1220.
7.6.2. Records Retention

7.6.2.1. Activities preparing information returns must have the ability to reconstruct the data or records used to prepare the IRS Form 1099. The data or records must be retained for at least three calendar years, plus the current calendar year, after filing the information return. See *IRS General Instructions for Certain Information Returns*. These records permit an audit trail that will substantiate the amount(s) reported by showing all relevant payments, to include payments from multiple contracts. The retention period for IRS Form 1099-C, or backup withholding data, is four calendar years after filing the information return. The issuing location must maintain a copy of information returns or be able to recreate the tax document.

7.6.2.2. Documentation supporting tax-related financial transactions reported in the Component’s financial statements needs to be retained in accordance with Volume 1, Chapter 9. The documentation retained must be of sufficient quality to allow an independent third party, such as an auditor, to confirm the computation of the tax-related transaction posted in the accounting system and reported on the financial statements.

8.0 TAX ON CERTAIN FOREIGN PROCUREMENT PAYMENTS

8.1 General

In accordance with *Title 26 U.S.C. § 5000C* and implementing regulations such as *FAR 29.402-3*, a 2% tax will apply to certain foreign procurement payments, unless one of the exemptions in paragraph 8.3 applies. The tax, effective with contracts issued after June 5, 2020 (date of FAR final rule), is identified by the inclusion of *FAR 52.229-12* in the contract, and requires paying agents to withhold up to 2% of applicable payments.

8.2 Background

Section 301 of the James Zadroga 9/11 Health and Compensation Act of 2010 (*Public Law 111–347*), added section 5000C to the IRC. *Title 26 U.S.C. § 5000C*, and its implementing regulations at *26 CFR 1.5000C1 through 1.5000C7*, imposed, unless exempted, a 2% excise tax on the amount of a specified Federal procurement payment on any foreign person receiving such payment. *Title 26 CR 1.5000C–1(c)* defines the term “specified Federal procurement payment” as any payment made pursuant to a contract with the U.S. Government for goods or services if the goods are manufactured or produced, or the services are provided, in any country that is not a party to an international procurement agreement with the United States.

8.3 Exemptions

Exemptions from the tax may be identified at various stages of the procurement or payment process.

8.3.1. Exemptions Identified Prior to Contract Solicitation. In accordance with FAR 29.402-3, a contracting officer will include the solicitation provision *FAR 52.229-11*, unless one of the following exceptions applies:
8.3.1.1. Acquisitions using simplified acquisition procedures that do not exceed the simplified acquisition threshold (as defined in FAR 2.101);

8.3.1.2. Emergency acquisitions using the emergency acquisition flexibilities defined in FAR 18;

8.3.1.3. Acquisitions using the unusual and compelling urgency authority per FAR 6.303-2;

8.3.1.4. Contracts with a single individual for personal services that will not exceed the simplified acquisition threshold on an annual calendar year basis for all years of the contract; or

8.3.1.5. Acquisitions if the requiring activity identifies that the requirement is for certain foreign humanitarian assistance contracts.

If one or more of the above exceptions exists, the contracting office will not include the FAR provision in 52.229-11 and clause 52.229-12 in the solicitation and contract, and the resulting contractual payments will not be subject to the tax withholding.

8.3.2. Exemptions Identified by the Vendor During Contract Proposal or Invoicing. FAR provision 52.229-11 requires the bidder/offeror to identify whether they are a foreign person/entity. The provision also requires that, if the bidder/offeror is a foreign person/entity, to identify whether they are claiming a full exemption, partial exemption, or no exemption from the tax by submitting an IRS Form W-14, Certificate of Foreign Contracting Party Receiving Federal Procurement Payments.

8.3.2.1 If the vendor claims a full exemption in their offer, they are not required to submit an IRS Form W-14 with each invoice, and no withholding by the paying agent for the 2% excise tax will be required. Per FAR clause 52.229-12, if circumstances change during the performance of the contract and the full exemption no longer applies, the vendor is required to notify the contracting officer and begin submitting an IRS Form W-14 with each invoice.

8.3.2.2. If the vendor only claims a partial exemption, or no exemption, from the tax with their offer, then the vendor is required, in accordance with FAR clause 52.229-12, to submit an IRS Form W-14 with each invoice, indicating the amount or percentage of the invoice that is exempt from the tax. The excise tax withholding is applied at the payment level, not at the contract level. The vendor must revise each IRS Form W-14 submission to reflect the exemption (if any) that applies to that particular invoice.

8.3.2.3. If the vendor has only claimed a partial exemption, or no exemption, in their offer, and a Form W-14 is not submitted with an invoice, the default withholding percentage is 2% for that payment request.
8.4 Withholding Requirements

8.4.1. Unless the vendor has claimed a full exemption as part of their bid/offer, paying agents will withhold the tax from invoices received based on the information provided by the vendor on the IRS Form W-14 accompanying each invoice. This will typically be 2% of the invoice amount unless the vendor has claimed a partial exemption on the W-14 (e.g., only a portion of the goods were manufactured, or services provided, in a country that has an international procurement agreement or tax treaty with the United States.

8.4.2. Per FAR clause 52.229-12(d), the Government will withhold a full 2% of each payment unless the vendor claims an exemption. If the vendor enters a ratio in line 12 of the IRS Form W-14, the result of line 11 divided by line 10, the Government will withhold from each payment an amount equal to 2% multiplied by the contract ratio. If the vendor marks box 9 of the IRS Form W-14 (rather than completing lines 10 through 12), the vendor must identify and enter the specific exempt and nonexempt amounts in Line 15 of the IRS Form W-14. The Government will then withhold 2% only from the nonexempt amount.

8.4.3. If the vendor has not claimed a full exemption during their offer, and a Form W-14 is required but not provided with an invoice, the default withholding will be 2% of the invoice amount.

8.5 Responsibilities

8.5.1. Contracting Officer. The contracting officer is responsible for identifying to the paying agent whether or not the contractual payments are subject to the 2% Foreign Excise Tax via inclusion of the appropriate FAR provisions and clauses (52.229-11 and 52.229-12), as well as identifying, in the contract, whether the vendor has claimed a full exemption in its original offer/proposal.

8.5.2. Vendor/Payee. The vendor/payee is responsible for submitting an IRS Form W-14 with each payment request if they have identified in their proposal that: 1) they are a foreign person/entity, and 2) that they have not claimed a full exemption from the tax in their original offer/bid.

8.5.3. Paying Agent. The paying agent is responsible for the following:

8.5.3.1. Withholding the 2% Foreign Excise Tax in accordance with the IRS Form W-14 that the vendor/payee submits with each payment request;

8.5.3.2. Filing the appropriate reports as identified in paragraph 8.9 to report tax withholdings to the IRS, and;

8.5.3.3. Submitting the withheld funds to the IRS as prescribed in paragraph 8.9.

8.5.3. Acquiring Agency/Paying Agent. Every effort must be made by the acquiring agency and paying agent to identify, withhold, and report applicable tax withholdings to the IRS.
However, per IRS guidance, if the acquiring agency fails to withhold the tax, then the foreign contracting party must file a U.S. income tax return and pay the tax due. The acquiring agency, or the paying agent, is not liable for any tax not withheld (see the U.S. Government Reporting section on the IRS webpage).

8.6 Disputes

In accordance with FAR provision 52.229-11(c), any disputes regarding the imposition and collection of the 26 U.S.C. § 5000C tax are adjudicated by the IRS as the 26 U.S.C. § 5000C tax is a tax matter, not a contract issue. If a vendor disputes a withholding of the 2% Foreign Excise Tax, the vendor should be referred to the IRS to address the matter.

8.7 Refunds for Over-withholdings

8.7.1. Refunds of over-withholdings claimed by a vendor may not be refunded by the paying agent. In accordance with 26 CFR 1.5000C-2(e), if the foreign contracting party (payee) discovers that amounts withheld on prior payments were in excess of the amount required to satisfy its tax liability under section 5000C, the foreign contracting party may request the acquiring agency to decrease the amount of withholding on future payments for which withholding is required under section 5000C. The request must be in writing, signed under penalties of perjury, contain the amount by which the foreign contracting party requests to increase or decrease future amounts withheld under section 5000C, and explain the reason for the request.

8.7.2. Upon receipt of a request in writing, acquiring agencies may decrease the amount of withholding on subsequent payments made to the foreign contracting party that are otherwise subject to withholding under section 5000C, provided that the payment for which the decrease is applied is made on or before the end of the applicable tax year, with respect to the payment for which the over-withholding occurred.

8.8 Payments on Classified Contracts

8.8.1. Payments against classified contracts are not exempt from the withholding of the 2% Excise Tax. However, an acquiring agency/paying agent must determine if the reporting of such tax/withholdings against classified contracts will compromise national security. If so, the reporting of such information may be scaled back or eliminated.

8.8.2. In accordance with 26 CFR 1.5000C-3(c)(2), an acquiring agency is not required to report information otherwise required by 26 CFR 1.5000C on IRS Form 1042-S, Foreign Person’s U.S. Source Income Subject to Withholding, for payments made pursuant to classified or confidential contracts, unless the acquiring agency determines that the information reported on the Form 1042-S does not compromise the safeguarding of classified information or national security.

8.9 Reporting/Submission of Withheld Funding to IRS

The paying agent/office is responsible for filing the following reports and submitting withheld taxes to the IRS.
8.9.1. Reporting

8.9.1.1. **IRS Form 1042**, Annual Withholding Tax Return for U.S. Source Income of Foreign Persons, is an annual form used to report all/aggregate funds withheld by an acquiring agency. This form must be filed annually by March 15 of the year following payment.

8.9.1.2. IRS Form 1042-S is an annual form, broken down and submitted for each vendor/payee for which tax withholdings have occurred. The form is not required to be prepared/submitted with each deposit made to the IRS because the IRS’ [Electronic Federal Tax Payment System](#) has a field for remitters to identify what/who the deposit pertains to.

8.9.1.3. The IRS 1042-S is only required to be filed if withholdings have occurred. If no withholdings have occurred for a particular vendor/payee, regardless of the reason, then no Form 1042-S is required. The reporting requirement ties directly to actual withholding that has occurred.

8.9.1.4. The Gross Income Subject to Withholding to be included on the Form 1042-S is the total of the invoiced amounts, which are actually subject to the tax (i.e., it excludes the portions of billings that are exempted based on the vendor’s W-14). As an example, if the vendor submits an invoice for $500,000, and their attached Form W-14 shows that 50% of the services are exempt because they were provided in a country that has an international tax treaty with the United States, then only 50% of the invoice ($250,000) would be taxed at the 2% rate. Thus, the $250,000 would be reported on the vendor’s Form 1042-S at the end of the tax year as Gross Income Subject to Withholding (along with any other taxed invoices the vendor had throughout the year), and $5,000 ($250,000 x 2%) would be withheld from the payment and be reported as Taxes Withheld (along with any other taxes withheld for the vendor throughout the year).

8.9.2. Filing/Submission of Withheld Funds to IRS

8.9.2.1. Funds withheld by paying agents must be submitted/deposited to the IRS via the Electronic Federal Tax Payment System in the timeframes required by 26 CFR 1.5000C-3(b).

8.9.2.2. The frequency of depositing withheld amounts depends on whether the paying agency has other [26 U.S.C. Chapter 3](#), withholding and depositing requirements.

8.9.2.3. If the paying agent does not have any other 26 U.S.C. Chapter 3 withholdings, they will make monthly deposits of the 2% tax withholdings on a monthly basis by the 15th of the following month.

8.9.2.4. If the paying agent has other 26 U.S.C. Chapter 3 withholdings, the frequency will be dependent on the amounts of withholdings that need deposited (weekly, bi-weekly, or monthly).
8.10 Document Retention

The paying agent withholding applicable taxes will retain all documentation supporting the contract payments, and all tax-related information supporting withholdings, in accordance with Volume 1, Chapter 9, Figure 9-1. This includes any documentation supporting the determination of whether to withhold, how much to withhold, and what was actually withheld, such as contracts, invoices, receiving reports, payment/Electronic Funds Transfer information, the vendor’s W-14, Forms 1042 and 1042-S, and IRS Form W-9, Request for Taxpayer Identification Number and Certification.
VOLUME 10, CHAPTER 7: “PROMPT PAYMENT ACT”

SUMMARY OF MAJOR CHANGES

Changes are identified in this table and also denoted by blue font.

Substantive revisions are denoted by an asterisk (*) symbol preceding the section, paragraph, table, or figure that includes the revision.

Unless otherwise noted, chapters referenced are contained in this volume.

CHAPTER 7

PROMPT PAYMENT ACT

1.0 GENERAL

1.1 Purpose

This chapter prescribes the financial management policy for payments to vendors and contractors and primarily focuses on timely payment, determination of appropriate due dates, penalty for late payment, required documentation, receipt dates, acceptance dates, and payment discounts. Paragraph 2.2 lists exemptions to this policy.

1.2 Authoritative Guidance

The policies prescribed throughout this chapter pertaining to prompt payment are based primarily upon the Prompt Payment Act (PPA), Title 31, United States Code (U.S.C.), Chapter 39, as implemented under Title 5, Code of Federal Regulations (CFR), part 1315. Acquisition policy implementing the PPA provisions at 5 CFR 1315 is in the Federal Acquisition Regulation (FAR) 32.9, and the Defense Federal Acquisition Regulation Supplement (DFARS) 232.9. The Office of Management and Budget (OMB) Circular A-130, Appendix II, prescribes the use of electronic processes and digital signatures whenever it is possible and in the best interest of the Government. Policies pertaining to timely payment have been revised by the National Defense Authorization Act (NDAA) Fiscal Year (FY) 2022 Section 814 and (NDAA) Fiscal Year (FY) 2021 Section 815, as presented in subparagraphs 2.6.3 and 2.6.4.

2.0 PROMPT PAYMENT ACT POLICY

2.1 Application

The payment terms ordinarily imposed by contract, or the PPA and its implementing regulations, may be replaced by the payment terms imposed by another governmental authority. For the purposes of this chapter, days refer to calendar days unless stated differently. The PPA applies to the following, unless these payments meet one of the exemptions in paragraph 2.2:

2.1.1. Procurement Contracts. All payments for contracts for the procurement of goods or services;

2.1.2. Vendor Payments. All vendor payments and payments to persons, organizations, or business concerns engaged in a profession, trade, or business and any not-for-profit entity operating as a vendor; and

2.1.3. Utility Payments. All utility payments, including payments for telephone service, are subject to the PPA. Where state, local, or foreign authorities impose generally applicable late
payment rates for utility payments, those rates must take precedence, and thus, PPA interest rates will not apply.

2.2 Exemptions

2.2.1. In accordance with 5 CFR 1315.1(a)(1)(ii) and 5 CFR 1315.1(b)(1), the following payments are exempt from the PPA:

2.2.1.1. Payments directed by military authority exercised in the field in time of war or in occupied territory as stated in 5 U.S.C. § 551(1)(G); and

2.2.1.2. Contract financing payments, as defined in 5 CFR 1315.2(h).

2.2.2. In accordance with 5 CFR 1315.1(b)(2), the following payments are exempt from the PPA:

2.2.2.1. Payments related to declared states of emergency directing any federal agency to utilize its resources in support of federal, state, and local disaster assistance efforts, as defined in the Robert T. Stafford Disaster Relief and Emergency Assistance Act;

2.2.2.2. Payments related to the release, or threatened release, of hazardous substances, as defined in 42 U.S.C. § 9601; and

2.2.2.3. Certain payments related to military contingency operations, as defined in 10 U.S.C. § 101(a)(13).

2.2.3. DFARS 232.901 defines conditions where emergencies or contingency operations affecting normal business processes will dictate a determination to exempt payments from FAR 32.9 requirements. This determination, and all subsequent determinations, will be clarified by the specific clause in the individual contract. Chapter 8 contains additional policy on certifying payments made in support of emergencies and contingency operations, a matrix tool to assist certifying officials in identifying the critical data elements, and the documentation necessary for proper certification.

2.3 Required Documentation Type, Function, and Purpose

Before making an invoice and/or interest payment, and in support of future financial audits, DoD Components must ensure that appropriate payment documentation is established and matched. This documentation includes the contract, receipt/acceptance report, and a proper invoice, unless not required by the contract. Subparagraphs 2.3.1 and 2.3.2 identify unique circumstances when an invoice and/or receipt/acceptance report may not be required. Acquisition policy in DFARS 232.70 prescribes DoD policies and procedures for submitting and processing payment requests and receiving reports in electronic form. It also specifies exceptions and prescribes Wide Area Workflow as the accepted electronic form for submission of payment requests and receiving reports. It further permits the use of TRICARE Encounter Data System as the electronic format for receiving reports for rendered health care services. Ensure payment
documentation is retained in accordance with Volume 1, Chapter 9 and is readily available to support future audit efforts. Original payment documentation, and associated supporting documentation, must also be retained in accordance with Chapter 8, paragraph 4.1.

2.3.1. Contract. The contract is an enforceable agreement between the agency and the contractor or vendor that provides the necessary information to support payment of invoices and interest penalties. Contracts must contain the data elements required under 5 CFR 1315.9(a) as part of the payment documentation. If errors exist in a contractual document that affect payment processing, the entitlement office must notify the contracting office to request corrective action. The payment office must not change contract terms. Contract terms may only be changed through a formal modification to the contract.

2.3.2. Proper Invoice. DoD payments must be based on the receipt of a proper invoice, unless an invoice is not required by the contract (e.g., monthly rental payments), and satisfactory contract performance. FAR 32.905(b) provides details on the information required for a proper invoice. As stated in FAR 32.905.b.2, an interim payment request under a cost-reimbursement contract for services constitutes a proper invoice if it includes all of the information required by the contract. Note that payment requests under cost-reimbursement service contracts are deemed proper when they conform to the contract. The office designated by the purchase order, agreement, or contract first to receive and review invoices, hereafter referred to as the designated activity, must immediately annotate the receipt date and review invoices within 7 days after receipt. If an invoice is improper, then the designated activity must return the invoice to the vendor/contractor.

2.3.2.1. Notice of an Improper Invoice. When the designated activity returns an invoice as improper, they must provide details on why the invoice is being returned and why it is improper. The designated activity’s request to the vendor/contractor for a corrected invoice must be clearly marked as such. Notification must be within 7 days of receipt of the invoice (5 days for perishable agricultural commodities, dairy products, edible fats or oils, and food products prepared from edible fats and oils; and 3 days for meat, meat food, fish, and seafood products). If a DoD Component fails to provide notification of an improper invoice within the prescribed timeframes, the computation of the payment due date will be affected, in that the number of days allowed for payment of the corrected proper invoice will be reduced by the number of days delayed beyond the allowable invoice return notification requirement. For example, a typical invoice payable in 30 days is returned as improper on the 11th day after receipt, minus 7 days allowed, equaling a 4-day delay and reducing the payment due date of the corrected/resubmitted invoice by 4 days. As a result of the 4-day delay, the corrected invoice is now payable in 26 days upon receipt before interest begins to accrue. In accordance with FAR 32.906(b)(4), if a designated activity erroneously rejects a proper invoice, then the original invoice receipt date will be used to compute the payment due date and any interest penalties due.

2.3.2.2. Delivery Ticket as an Invoice. A delivery ticket may be used as an invoice when allowed by the contract. When used as an invoice, the delivery ticket must contain the information required by FAR 32.905(b) unless otherwise stipulated in the contract.
2.3.3. **Receipt and Acceptance Report**

2.3.3.1. A receiving report performs two functions. It provides evidence of the date goods are received, and it provides evidence of the date goods or services are accepted. Receiving reports are written or electronic evidence of the receipt of goods or services by a government official. Receiving reports must minimally contain the information stated in FAR 32.905(c) unless otherwise stipulated in the contract.

2.3.3.2. Receipt of goods does not ordinarily provide a basis for payment. Payment must be based upon acceptance of the goods or services as authenticated by the signature of the government official. Acceptance must occur as a condition of payment except in the following instances.

2.3.3.2.1. **Interim Payments on Cost-Reimbursement Contracts for Services as Stated in FAR 32.905(c).** Contract terms for interim payments may still require receipt and acceptance documentation, or stipulate other related requirements be met before a request for payment for services can be certified and disbursed.

2.3.3.2.2. **Contracts Incorporating the “Fast Payment Procedure” clause at FAR 52.213-1.** For contracts with this clause, payment offices may use the contractor’s submission of an invoice as certification of the delivery of supplies and as the basis for authorizing payment. Payment of these invoices must be made within 15 days after the receipt of the invoice. Component policies and controls must be in place to follow up after payment to ensure receipt of acceptance documentation for the payment and contract files. The acquisition requirements and rules governing the fast payment procedure are found in FAR 13.4 and DFARS 213.4. Refer to section 7.0 of Chapter 10 for additional fast payment procedure financial management policy.

2.3.3.3. The agency receiving official must forward the receiving report, or other government documentation, to the designated payment office by the 5th working day after government acceptance or approval, unless other arrangements have been made.

2.3.3.4. Government acceptance is commonly deemed to occur constructively on the 7th day after the contractor delivers supplies or performs services in accordance with the terms and conditions of the contract, unless there is a disagreement over quantity, quality, or contractor compliance with a contractual requirement. A longer acceptance period can be specified in the contract, in which case the date of the actual acceptance or the date on which such acceptance period ends will substitute for the commonly applied 7th day after the delivery date (refer to DFARS 232.904). The date on which the designated acceptance period ends is referred to as the constructive acceptance date. Constructive acceptance is used to calculate PPA interest and applies to both destination acceptance and source acceptance contract terms. Regardless, government proof of acceptance must be forwarded to the designated payment office.

2.3.3.4.1. If actual acceptance occurs within the constructive acceptance period, the determination of any interest penalty must be based on the actual date of acceptance.
2.3.3.4.2. If actual acceptance occurs after the constructive acceptance period, the determination of any interest penalty must be based on the constructive acceptance date.

2.3.3.4.3. The constructive acceptance requirement does not compel DoD Components to accept supplies or services or make payment prior to fulfilling their designated responsibilities and internal control activities.

2.3.4. Follow up for Required Documents. If payments cannot be made due to the non-receipt of receiving reports, copies of contracts, contract modifications, or other required documentation, the entitlement office will follow up with the contracting or receiving office to ensure these documents are forwarded in a timely manner. These follow-up requests should be made in time to prevent the possible loss of economically justified discounts (if possible) and avoid the unnecessary payment of late payment interest penalties.

2.3.5. Emergency and Contingency Operations. When authorized, the head of the contracting activity of an operational area, in consultation with the cognizant comptroller supporting their contracting activity, will make the determination of whether a contract and related payment will be subject to the requirements of FAR 32.9 and include the applicable payment clause in the contract.

2.3.5.1. For payments that have been determined to be exempt from FAR 32.9, certifying officers involved in supporting contingency operations may use Appendix 1 of Chapter 8 to identify the documents and information needed to ensure the entitlement to payment is valid prior to certification. Certification guidelines for these payments are contained in paragraph 7.6 of Chapter 8.

2.3.5.2. For payments that are subject to the requirements of FAR 32.9, PPA interest payments will be made only as specified in the contract clause.

2.3.6. Progress Payments on Construction Contracts. Progress payments may be made if the payment request meets the requirements specified in the contract clause FAR 52.232-5(b) and any other applicable terms of the contract. These payments are made monthly, or at more frequent intervals, as determined by the contracting officer. According to FAR 52.232-5(d), payment of any portion, or all, of a certified request for progress payment that fails to conform to the specifications, terms, and conditions of the contract is referred to as an “unearned amount.” FAR 52.232-5(d) also requires that if the contractor, after being paid upon submitting a certified request for progress payment, discovers that a portion, or all of such payment, involves an unearned amount, the contractor is then obligated to notify the contracting officer of the performance deficiency and is required to pay DoD interest on any unearned amount from the 8th day after the date of receipt of the unearned amount until:

2.3.6.1. The date the contractor notifies the contracting officer that the performance deficiency has been corrected; or
2.3.6.2. The date the contractor reduces the amount of any subsequently certified request for progress payment by an amount equal to the unearned amount.

2.3.7. Payment for Partial Deliveries on Fixed-Priced Supply, Fixed-Priced Services, or Non-Regulated Communication Service Contracts. FAR 32.906(c) instructs contracting officers, if the nature of the work permits, to write contract statements of work and pricing arrangements that allow contractors to deliver supplies or services and receive invoice payments for discrete portions of the work as soon as completed and found acceptable by the Government. The inclusion of the payment clause at FAR 52.232-1 in the contract, unless specifically prohibited elsewhere in the contract, allows the contractor to be paid for accepted partial deliveries of supplies or partial performance of services that comply with all applicable contract requirements, and for which prices can be calculated from the contract terms. The contract clause may stipulate additional payment requirements; however, a proper invoice and documentation of government receipt and acceptance are required before the payment can be made.

2.4 Determining the Invoice Receipt Date

The date the contractor’s invoice or payment request is received must be recorded on the invoice immediately upon receipt by the billing office designated in the contract to receive the invoice. This annotation must be clearly identifiable to the designated activity that will be processing the payment. The receipt date is an integral part of determining the payment due date, the date by which an improper invoice must be returned, and the date on which interest will begin to accrue if a payment is late. If the designated activity fails to annotate the receipt date, then the invoice receipt date is the date placed on the invoice by the contractor. For invoices electronically transmitted, the invoice received date is the date a readable transmission is received by the designated activity, or the next business day if received after normal working hours. For invoices that are made electronically available in feeder systems such as the Government purchase card bank system or the transportation Third Party Payment System, the invoice receipt date is the date on which the invoice is made available to the DoD, versus when invoices are transmitted to the entitlement office (Chapter 23, paragraph 5.6).

2.5 Determining the Payment Due Date

For payments subject to the requirements of FAR 32.9, the payment due date is the date on which payment must be made to avoid paying PPA interest.

2.5.1. If the payment due date is not specified in the contract, the date by which a proper invoice must be paid is the later of:

2.5.1.1. Thirty days after the date on which the designated activity receives the proper invoice; or

2.5.1.2. Thirty days after government acceptance of supplies delivered, services performed, or the applicable date of constructive acceptance, whichever is earlier.
2.5.2. An example of applying subparagraph 2.5.1 in determining the payment due date is as follows: Supplies are received on April 20th and accepted on April 29th, and a proper invoice is received on May 1st. The payment period will begin by using the later date of when a proper invoice is received (May 1st), or the constructive acceptance date (April 27th, which is the 7th day after receipt). In this example, the payment period begins on May 1st and ends 30 days later on May 31st. The interest penalty begins accruing on June 1st. Refer to FAR 32.904 for additional policy on determining the payment due date.

2.5.3. A contract modification may be required in order to determine when a payment is to be made (the payment due date), e.g., an award fee. If a payment cannot be entitled without a contract modification, the payment clock will start with the effective date of the modification.

2.5.4. If the contract does not require an invoice, then the due date is the date designated in the contract (FAR 32.904(b)(2)).

2.6 Timely Payment

The PPA requires both timely and proper cash management of government resources. DoD will make payments no more than 7 days prior to the payment due date, but as close to the due date as possible, unless the Secretary of Defense or designee has determined, on a case-by-case basis for specific payments, that earlier payment is necessary (FAR 32.906). This authority must be used cautiously, weighing the benefits of making a payment early against good stewardship inherent in effective cash management practices (5 CFR 1315.4(j)).

2.6.1. When the conditions in 5 CFR 1315.5 are met, a DoD Component may use an accelerated payment method.

2.6.2. For interim payments under cost-reimbursement service contracts, DoD may make payments at the standard due date of 14 days after the receipt of a proper invoice (DFARS 232.906(a)(i)) when the contract specifies the use of FAR 52.232-25, Alternate I. For purposes of computing late payment interest penalties that may apply, the due date for payment is the 30th day after the designated billing office receives a proper invoice (refer to FAR 52.232-25).

2.6.3. In accordance with 10 U.S.C. § 3801(b)(1) and NDAA FY 2021 Section 815, for a prime contractor that is a small business concern, DoD must, to the fullest extent permitted by law, establish an accelerated payment date with a goal of 15 days after receipt of a proper invoice for the amount due.

* 2.6.4. In accordance with 10 U.S.C. § 3801(b)(2) and NDAA FY 2022 Section 814, for a prime contractor that subcontracts with a small business concern, DoD must, to the fullest extent permitted by law, establish an accelerated payment date with a goal of 15 days after receipt of a proper invoice for the amount due if the prime contractor agrees to make payments to the subcontractor in accordance with the accelerated payment date, to the maximum extent practicable, without any further consideration from or fees charged to the subcontractor.
2.6.5. Payment is considered to be made on the date printed on the check, or on the Electronic Funds Transfer (EFT) settlement date. In order to avoid late payment interest fees, the EFT settlement date (the date funds are credited to the vendor’s financial institution) must be no later than the calculated due date.

2.6.6. Checks will be mailed or transmitted on the same day the check is dated.

2.6.7. Payments due (including discount periods) on Saturday, Sunday, or legal holidays may be paid on Monday, or the next working day, without interest; however, this does not change the official payment due date as specified in paragraph 2.5.

2.7 Discounts

If a vendor/contractor offers a DoD Component a discount, whether stipulated in the contract or offered on an invoice, the Component should take the discount if economically justified, but only after acceptance has occurred.

2.7.1. When a discount is taken, payment will be made as close as possible to, but no later than, the discount date.

2.7.2. The Bureau of the Fiscal Service’s website contains a discount calculator to assist in determining whether the discount is economically justified.

2.7.3. In accordance with FAR 32.907(b), if a DoD Component takes the discount after the deadline, an interest penalty on any amount remaining unpaid will be due.

2.7.4. Refer to Chapter 2 for additional financial management policy concerning discounts.

2.8 Interest Penalties

When DoD Components fail to make payment by the payment due date, interest accrues from the day after the payment due date through the payment date.

2.8.1. Automatic Interest. In accordance with FAR 32.907(a), the designated payment office will pay an interest penalty automatically, without request from the contractor, when all of the following conditions, if applicable, have been met:

2.8.1.1. The designated billing office received a proper invoice;

2.8.1.2. The Government processed a receiving report or other government documentation authorizing payment, and there was no disagreement over quantity, quality, or contractor compliance with any contractual requirement;

2.8.1.3. In the case of a final invoice, the payment amount is not subject to further contract settlement actions between the Government and the contractor;
2.8.1.4. The designated payment office paid the contractor after the due date; and

2.8.1.5. In the case of interim payments on cost-reimbursement contracts for services, when payment is made more than 30 days after the designated billing office receives a proper invoice.

2.8.2. Incorrect Banking Information. If the vendor/contractor provides incorrect banking information, then interest does not begin to accrue until 7 days after the correct information is received (provided the vendor has been given notice of the incorrect banking information within 7 days after the agency is notified that the information is incorrect). Refer to 5 CFR 1315.10 for additional regulations.

2.8.3. Late Payment. Interest will be accompanied with a notice stating the amount of the interest penalty, the number of days late, and the rate used (5 CFR 1315.10(b)(2)).

2.8.4. Interest Penalty Requirements. The specific interest rate will be applied to the total penalty period (maximum 1 year interest) regardless of whether the interest period carries over into different interest rate periods. No further interest will accrue after 1 year beyond the original due date or after the contractor files a claim for such penalties under the Contract Disputes Act of 1978 (5 CFR 1315.10(a)(5)). Interest calculations are to be based on a 360-day year.

2.8.5. Additional Penalties. Vendors/contractors may be entitled to an additional penalty payment when the vendor/contractor is owed a late payment interest penalty by DoD of $1.00 or more, the contractor receives a contract payment dated after the due date that does not include the interest penalty also due, and the interest penalty is not paid within 10 days after the actual contract payment date (5 CFR 1315.11). The vendor/contractor entitlement to additional penalties is also dependent upon, among other things, its timely submission of a claim for the additional penalty. For further information on additional penalties, refer to 5 CFR 1315.11 and FAR 32.907(c).

2.8.6. Interest Penalties Due Under Construction Contracts. Title 5 CFR 1315.14(c) provides for interest penalties to be paid on payments under construction contracts when a progress payment request has been approved as payable by the designated agency office, and remains unpaid for a period of more than 14 days, or longer if specified in the contract, after receipt of the payment request by the designated agency office. Interest penalties may also be applicable to final payments, based on completion and acceptance of work, and payments for partial performance that has been accepted by the agency. Refer to 5 CFR 1315.14 for additional details on payments and interest penalties under construction contracts.

2.8.7. Exceptions to Interest Penalties Due. Title 5 CFR 1315.10(c) identifies exceptions to when interest penalties are due. These exceptions generally include instances such as when interest penalties due are less than $1.00, the contractor provided incorrect EFT information, payments are solely for financing purposes, or contract payments are delayed due to disputes between the Government and contractor over the payment amount or compliance with the terms of the contract. More detailed information regarding these, and other exceptions, is contained in 5 CFR 1315.10(c).
2.8.8. Computation of Interest Penalties. The Government will compute interest penalties in accordance with the OMB prompt payment regulations at 5 CFR 1315.10 and FAR 32.907. The Bureau of the Fiscal Service website contains both a simple daily interest calculator and a monthly compounding interest calculator to assist in interest calculations.

2.9 Interest Payment Funding

DoD will pay any late payment interest penalties from either the funds available for the administration of the program for which the penalty was incurred (refer to 5 CFR 1315.10(b)(5)), or from funds financing the operation of the Military Department or Defense Agency with which the invoice or contract payment is associated (refer to 31 U.S.C. § 3902). All interest payments will be charged to the fiscal year(s) in which they accrue. If the interest is accrued at the end of the fiscal year, but not paid until the beginning of the next fiscal year, the prior year’s funds will be cited. If interest is accrued at the end of the fiscal year, and additional interest is accrued in the new fiscal year, the total interest penalty will be funded citing each respective fiscal year’s funds where the interest was accrued, thus ensuring the interest fund cite represents the bona fide need of the year in which the obligation arises. If the appropriation to which the interest would otherwise be charged is cancelled, the appropriation current on the date of payment will be charged pursuant to 31 U.S.C. § 1553 (b)(1).

2.9.1. Entitlement offices are required to maintain detailed records in support of their determinations, and are to make these records available upon request of any activity determined to have caused a late payment.

2.9.2. A contractor may waive interest entitlement by returning the amount of interest paid by separate check or by returning the government check and requesting payment only in the amount invoiced. In addition to returning interest penalties already received, a contractor may waive their right to PPA interest by either express written statement or by acts and conduct which indicate intent to waive. All requests made in writing must be submitted to the applicable payment office established in the contract, be specific to each invoice/payment, and be for interest that is already earned/accrued. A contractor may not request a waiver of interest for potential interest not yet accrued, or a blanket waiver for a group of contracts/invoices. Interest waiver request documentation must be retained with payment supporting documentation.

2.9.3. Interest retained or waived is collected as a refund to the appropriation originally cited for the payment of interest. All refunds of interest or penalties from contractors will be credited to the same line of accounting classification (including fiscal year) that was charged at the time interest was paid. If the appropriation is cancelled or closed, then refunds will be applied to Miscellaneous Receipts of the U.S. Department of the Treasury.

2.9.4. The Foreign Military Sales (FMS) Trust Fund will fund late payment interest penalties pertaining to procurements financed by a FMS contract. Refer to Volume 15, Chapter 7 for additional information concerning FMS pricing.
VOLUME 10, CHAPTER 8: “COMMERCIAL PAYMENT VOUCHERS AND SUPPORTING DOCUMENTATION”

SUMMARY OF MAJOR CHANGES

Changes are identified in this table and also denoted by blue font.

Substantive revisions are denoted by an asterisk (*) symbol preceding the section, paragraph, table, or figure that includes the revision.

Unless otherwise noted, chapters referenced are contained in this volume.

Hyperlinks are denoted by bold, italic, blue, and underlined font.

APPENDIX 1. MATRIX FOR PAYMENTS IN SUPPORT OF EMERGENCIES AND CONTINGENCY OPERATIONS .......................................................... 1
CHAPTER 8

COMMERCIAL PAYMENT VOUCHERS AND SUPPORTING DOCUMENTS

1.0 GENERAL

1.1 Overview

Commercial payment vouchers, and the related processing requirements addressed in this chapter, apply to payments made to contractors and vendors (used interchangeably throughout the chapter) as part of the contract and vendor payment environments covered by the Federal Acquisition Regulation (FAR), Defense Federal Acquisition Regulation Supplement (DFARS), and other authorities identified in paragraph 1.3. The preparation and certification of a payment voucher by the entitlement office based on the proper supporting documentation, as well as those externally certified, advises the disbursing officer (DO) that the legal and contractual conditions for payment have been met.

1.2 Purpose

This chapter prescribes policy for the entitlement and preparation of commercial payment vouchers and the documentation required to support the payment vouchers. It also identifies the forms most often used for contracts, receiving reports, and vouchers; the document retention requirements; and the related electronic submission and processing requirements.

1.3 Authoritative Guidance

The policies prescribed throughout this chapter pertaining to the entitlement and preparation of commercial payment vouchers, including supporting documentation, are based primarily upon the FAR Parts 13, 16, 32, 43, and 52; FAR Subparts 2.1, 4.1, 4.5, and 4.9; the DFARS Parts 204, 213, 225, 232, 243, and 252; Titles 15, 31, and 41 of the United States Code (U.S.C.); and Titles 5 and 31 of the Code of Federal Regulations (CFR).

2.0 POLICIES AND REQUIREMENTS

2.1 Federal Acquisition Regulation (FAR)

Title 41, U.S.C., Section 1302 establishes the Federal Acquisition Regulatory Council. Pursuant to 41 U.S.C. § 1303, the Council issues and maintains a single Government-wide procurement regulation known as the FAR. The FAR is the primary regulation used by all Federal executive agencies for the acquisition of supplies and services with appropriated funds.

2.1.1. FAR 4.5 provides policy for the establishment and use of electronic commerce in federal acquisition as required by 41 U.S.C. § 2301.

2.1.2. FAR 32.11 requires contract financing and delivery payments to contractors be made by Electronic Funds Transfer (EFT). FAR 32.1103 and 31 CFR 208.4 prescribe limited exceptions
to the EFT requirement. Volume 5, Chapter 11 provides additional EFT policy information concerning disbursements and collections.

2.2 Defense Federal Acquisition Regulation Supplement (DFARS)

The DoD implementation and supplementation of the FAR is issued in the DFARS.

2.2.1. **DFARS subpart 232.70** prescribes DoD acquisition policies requiring the submission and processing of contractor payment requests and receiving reports in electronic form to comply with **10 U.S.C. § 4601**.

2.2.2. Acceptable electronic submission forms prescribed in DFARS 232.702(b)(1) include, but are not limited to:

   2.2.2.1. The Wide Area Workflow (WAWF) module within the Procurement Integrated Enterprise Environment (PIEE);

   2.2.2.2. DoD-approved electronic third-party payment systems, or other exempted vendor payment/invoicing systems, which have been determined to be acceptable for commercial transportation services provided under a government rate tender or contract for transportation services; and

   2.2.2.3. TRICARE Encounter Data System for rendered health care services.

2.3 Prompt Payment Act (PPA)

The PPA (**31 U.S.C. Chapter 39** and **5 CFR Part 1315**) requires DoD Components to pay their bills on time and pay interest penalties when payments are made late. Regulations promulgated under the PPA state that federal agencies should take discounts only when payments are made by the discount date and the discount is economically justified. Refer to Chapter 7 for additional policy specific to the PPA.

2.4 Payment Prevalidation

**Public Law 104-61 Sec. 8102**, DoD Appropriations Act, 1996, requires certain disbursements be matched to a particular obligation before the disbursement is made (prevalidation). Refer to Chapter 1, section 3.0, for additional policy specific to prevalidation.

2.5 Requirements for Disbursing Transactions

Volume 5, Chapter 9 prescribes policy and requirements pertaining to disbursing transactions. Additionally, the Treasury Financial Manual (**TFM**, **Volume 1, Part 4**) prescribes requirements for disbursing payment vouchers.
2.6 Payment Certification Requirements

Title 31 U.S.C. § 3325 authorizes a DO to disburse money only when provided a voucher certified by a properly appointed certifying officer.

2.6.1. Certifying officers are individuals designated in writing (appointed) who are required to perform their duties in accordance with Volume 5, Chapter 5. DoD Directive (DoDD) 5118.03 delegates authority to appoint certifying officers under 31 U.S.C. § 3325(a)(1) and (b), to the Under Secretary of Defense (Comptroller). Refer to Volume 5, Chapter 5 for additional policy concerning re-delegation authority.

2.6.2. All certifying officers must be appointed using a DoD (DD) Form 577, Appointment/Termination Record-Authorized Signature. As prescribed by Volume 5, Chapter 5, certifying officers who certify electronic vouchers must submit an electronic DD 577. Certifying officers who certify manual vouchers, or submit manual certifications of electronic payments, must submit an original, manually-signed DD 577. By certifying a voucher, the certifying officer attests that the payment is legal, correct, and proper. As prescribed by 31 U.S.C. § 3528 and Volume 5, Chapter 5, certifying officers are pecuniarily liable for payments they certify that do not meet these requirements. For specific policy related to the successive certification of an externally-certified voucher received by the payment office, refer to Volume 5, Chapter 5, section 5.4.

2.6.3. The Secretary of Defense has delegated authority to the Director, Defense Finance and Accounting Service, or designee, to make the required determinations and grant or deny relief on all requests for relief of liability. Refer to Volume 5, Chapter 6, section 7.0 for policy regarding decisions of liability.

2.7 Taxpayer Identification Number (TIN)

Title 31 U.S.C. § 7701(c) requires all payees, subject to the U.S. Internal Revenue Code, doing business with the DoD to furnish their TIN (which may be a Social Security Number (SSN) for individuals). Payments are not to be authorized without a TIN or SSN on record for required payees (FAR 4.902).

2.8 System for Award Management (SAM)

In accordance with FAR 4.11, contractors and vendors doing business with the Federal Government must register in SAM, except as noted in FAR 4.1102. Contractors and vendors are responsible for keeping all SAM information current.

2.9 Electronic and Digital Signatures

Title 15 U.S.C. § 7001 authorizes DoD to use electronic and digital signatures. Volume 5, Chapter 1, subparagraph 3.5.3 prescribes the minimum requirements for electronic and digital signatures.
2.10 Contract Payments Using the Government Purchase Card (GPC)

The FAR 13.301 authorizes the use of the GPC to make payments on contracts.

2.10.1. Pursuant to FAR 32.1101(d), contracting officers must insert the clause at FAR 52.232-36, Payment by Third Party, if payment under a written contract will be made by a charge to a government account with a third party such as a Government-wide commercial purchase card. However, pursuant to FAR 32.1108(b)(1), payment by a purchase card may also be made under a contract that does not contain the clause to the extent the contractor agrees to accept that method of payment.

2.10.2. When it is contemplated that the Government-wide commercial purchase card will be used as the method of payment, and the contract or order is above the micro-purchase threshold, contracting officers are required to verify (by reviewing the SAM) whether the contractor has any delinquent debt, subject to collection under the Treasury Offset Program (TOP), prior to order placement and contract award. In accordance with FAR 32.1108(b)(2)(ii), contracting officers must not authorize the Government-wide commercial purchase card as a method of payment during any period the SAM indicates that the contractor has delinquent debt subject to collection under the TOP.

2.10.3. The Department of Defense Government Charge Card Guidebook for Establishing and Managing Purchase, Travel, and Fuel Card Programs provides additional policy and procedures pertaining to the uses and limitations of the GPC in paying contracts.

*2.11 Payment Office Identification

2.11.1 Designating the payment office best suited to perform entitlement activities for FAR-based contracts and Other Transactions (OT) for Prototype and Production is of critical importance for both the acquisition and financial management communities. Payment offices are aligned to entitlement systems via the payment office DoD Activity Address Code (DoDAAC). Contracting and Agreements Officers determine which payment office DoDAAC goes on a contract or OT, and therefore which entitlement system performs the entitlement.

2.11.2 Each DoD entitlement system is capable of handling varying degrees of complexity. The Mechanization of Contract Administration Services (MOCAS) system is capable of handling the most complex contracting and payment situations that may arise (i.e., financing payments, withholds, foreign currencies, and complex contract types and structures.) The Component’s Enterprise Resource Planning (ERP) systems are often capable of processing payments for less complex awards in a more efficient, accurate, and less-costly manner. Due to the improved accuracy and lower cost for manual intervention, the Component’s ERPs should be used as the payment office except in cases where the contract’s complexity requires another alternative such as MOCAS. See the joint Deputy Under Secretary of Defense for Acquisition and Sustainment and Deputy Under Secretary of Defense, Comptroller policy memorandum for more information.
3.0 SUPPORTING DOCUMENTS REQUIRED TO PROCESS PAYMENTS

As part of entitling and certifying a payment, DoD Components must ensure that appropriate payment documentation is established and retained to support payment of invoices and interest penalties. This documentation normally includes the contract/purchase order, receipt/acceptance report, and a proper invoice. Refer to 5 CFR 1315.9 for additional information on required documentation. Paragraph 3.3 defines the exceptions in which receiving reports are not required prior to payment.

3.1 Follow-up for Required Documents

If the entitlement and certification of contractor/vendor invoices cannot be accomplished due to the non-receipt of receiving reports, copies of contracts, contract modifications, or other required documentation, the entitlement office must follow up with the contracting or receiving office to ensure that these documents are forwarded in a timely manner. The entitlement office, contracting office, and receiving activity must address these actions timely to prevent the potential loss of economically justified discounts and to avoid the unnecessary payment of late payment interest penalties.

3.2 Contract

3.2.1. Definition. As defined by FAR 2.101, a contract is a mutually-binding, legal relationship obligating the seller to furnish the supplies or services (including construction) and the buyer to pay for them. Contracts must contain the information prescribed by 5 CFR 1315.9(a) in order to support payment of contractor/vendor invoices. If the entitlement office discovers an error in a contractural document, they must notify the contracting office to request corrective action. The entitlement office may not change contract terms. Contract terms may only be changed through a formal modification to the contract. FAR 4.5 requires the use of electronic commerce in Federal acquisition whenever practicable or cost effective.

3.2.2. Contract Types. FAR 16 describes the types of contracts that may be used in acquisitions.

3.2.3. Contract Clauses. FAR 52 and DFARS 252 contain:

3.2.3.1. Instructions for using provisions and clauses in contracts, and

3.2.3.2. Contract clauses prescribed in specific FAR and DFARS provisions.

3.2.4. Contract Award. Forms commonly used for contract award include, but are not limited to:

3.2.4.1. Standard Form (SF) 26, Award/Contract;

3.2.4.2. SF 33, Solicitation, Offer, and Award;
3.2.4.3. **SF 44, U.S. Government Purchase Order - Invoice - Voucher**;

3.2.4.4. **SF 1449, Solicitation/Contract/Order for Commercial Items**;

3.2.4.5. **DD 1155, Order for Supplies or Services**;

3.2.4.6. **SF 1442, Solicitation, Offer, and Award** (Construction, Alteration or Repair); and

3.2.4.7. **Optional Form 307, Contract Award**.

3.2.5. **Contract Modifications**

3.2.5.1. **FAR 43** and **DFARS 243.2** contain the policy and requirements for preparing and processing contract modifications.

3.2.5.2. **SF 30, Amendment of Solicitation/Modification of Contract** is a form that may be used for contract modifications.

3.2.6. **Contract Distribution**. **FAR 4.201** and **DFARS 204.201** prescribe distribution procedures for contracts and contract modifications that include the requirement to make distribution to the appropriate accounting and payment offices.

3.3 **Receiving Report**

3.3.1. **Definition**. As defined by FAR 2.101, a receiving report is written evidence documenting the government’s acceptance of supplies delivered or services performed.

3.3.1.1. Acceptance must occur as a condition of payment in all cases except contract financing payments, interim payments on cost-reimbursement contracts for the acquisition of services, and use of the fast payment procedure as defined in Chapter 10, section 7.0. These requirements for payment processing do not negate the documentation requirements established in Volume 4, Chapter 9, section 2.2.

3.3.1.2. As stated in **DFARS 232.7002**, contractors must submit payment requests and receiving reports in electronic form. DFARS 232.7002(b)(1) identifies the acceptable electronic submission forms, which includes the WAWF module of the PIEE (or other limited authorized electronic means as indicated in DFARS 232.7002(b)(1)(i)). The WAWF module of PIEE, Enterprise Resource Planning systems, and third-party payment systems accomplish electronic receipt and acceptance of materials or services with the use of an electronic signature.

3.3.2. **Forms**. If approved by the contracting officer and stated in the contract, non-electronic forms that may be used as a receiving report include, but are not limited to the following:
3.3.2.1. **DD 250, Material Inspection and Receiving Report.** The form used for documenting receipt and acceptance of goods and services is the DD 250. The DFARS, Appendix F, Part 3 contains preparation instructions for the DD 250;

3.3.2.2. **DD 1155.** The verification of receipt by an authorized government representative constitutes a valid receiving report;

3.3.2.3. **SF 44.** General procedural instructions governing the form’s use are printed on the form and on the inside front cover of each book of forms. For additional policy, including conditions that must be satisfied in order to use the SF 44, see paragraph 7.4;

3.3.2.4. **Bill of Lading.** In accordance with FAR 47.302(c)(2), when the government accepts title of supplies at origin, and the contract specifies transportation terms of free on board to destination (contractor bears the expense of transportation), the contractor may be paid upon acceptance of title at origin, provided the invoice is supported by a copy of a signed commercial bill of lading or other document containing the carrier's signature, indicating the goods were received by the carrier. If the contractor fails to provide this documentation, return the invoice to the contractor as an improper invoice; or

3.3.2.5. **SF 1449.** The SF 1449 is prescribed for use in solicitations and contracts for commercial items.

3.3.3. **Follow-up for Receiving Report.** If payment cannot be made due to non-receipt of a receiving report, the entitlement office must follow up with the contracting officer and/or receiving office to ensure the documentation is forwarded in a timely manner.

3.3.4. **Receiving Report Not Required.** In certain situations, such as contract financing and the fast payment procedure, a receiving report may not be required prior to payment.

3.3.4.1. **Contract Financing Payments.** As defined in 5 CFR 1315.2(h), contract financing payments provide for an authorized disbursement of monies prior to acceptance of goods or services.

3.3.4.1.1. As defined by FAR 32.001, contract financing payments include advance payments, progress payments based on cost, progress payments (other than under construction contracts) based on a percentage or stage of completion, performance-based payments, and interim payments on cost-type contracts (other than under cost-reimbursement contracts for the acquisition of services). Title 5, CFR 1315.4(d) and (e) provide for an exception, whereby interim payments under a cost-reimbursement service contract are treated like contract financing payments in that they are also excluded from requiring a receiving report and acceptance prior to payment authorization.

3.3.4.1.2. Contract financing payments do not include invoice payments, payments for partial deliveries, lease and rental payments, progress payments under construction contracts based on a percentage or stage of completion, or interim payments under cost-reimbursement service contracts.
3.3.4.2. Contracts Incorporating the Fast Payment Procedure. Use of the fast payment procedure allows payment prior to verification that supplies have been received and accepted under the limited conditions listed in FAR 13.402 and DFARS 213.402. Refer to Chapter 10, section 7.0 for additional fast payment procedure policy.

3.3.5. Variation in Quantity. Quantity variations in contracts may be authorized for both supply contracts and construction contracts as cited in FAR 11.7. Variations result when total quantities delivered for a line item deviate from contracted quantities. The contract will cite permissible variations as a percentage of contracted quantity and may be defined as an increase, a decrease, or a combination of both (e.g., plus or minus 10% variance).

3.3.5.1. When a shipment is short of the quantity ordered, the entitlement office will pay, in compliance with the PPA (5 CFR 1315), the amount of the invoice that supports the quantity received and accepted, unless specifically prohibited by the contract.

3.3.5.2. When the receiving report or invoice indicates that the shipment is final, but there are undelivered items remaining per the contract terms, the entitlement office will pay, in compliance with the PPA (5 CFR 1315) and the variation authorized in the contract, the amount of the invoice that supports the quantity received and accepted. The entitlement office must also collaborate with the contracting officer, as needed, to advise and assist in resolving the differences.

3.4 Invoice

3.4.1. Definition. As defined by FAR 2.101, an invoice is a contractor/vendor’s bill, or written request for payment under the contract, for supplies delivered or services performed. In accordance with DFARS 232.70, contractors/vendors, with few exceptions (refer to DFARS 232.7002(a)), are required to invoice electronically using the WAWF module of the PIEE.

3.4.2. Submission Requirements

3.4.2.1. When using contracting officer approved/designated electronic techniques for submission of invoices and electronically certified vouchers, it is not necessary to transfer paper documentation to the payment office for examination if the same supporting data are readily available and accessible in electronic media or through an electronic process.

3.4.2.2. The certifying officer must further ensure that the transmitted data relied upon in entitling and certifying a payment contains the necessary PPA information required by 5 CFR 1315.9 and FAR 32.905(b). As prescribed by Chapter 1, section 2.0, processes, controls, and routine testing must be established to ensure the completeness, accuracy, authorization, and validity of the electronic data received via system interfaces/transmission.

3.4.2.3. When contractors/vendors are permitted to invoice in a non-electronic manner, they may submit invoices on any type of form, provided all required items of a proper invoice are included on the document, unless their contract prescribes a specific form of invoicing.
3.4.3. **Proper Invoice.** DoD payments must be based on satisfactory contract performance and the receipt of a proper invoice, unless an invoice is not required by the contract (e.g., monthly rental payments). Title 5, CFR 1315.9(b)(1) and FAR 32.905(b) identify the items that must be included on a proper invoice.

3.4.4. **Improper Invoice.** If an invoice is improper, or does not meet the contract requirements prescribed by FAR 32.905(b), then the designated activity must return the invoice to the contractor/vendor and provide all details regarding invoice deficiencies.

3.4.4.1. An invoice must be returned as improper if the entitlement office has not been provided a valid TIN for any designated payee subject to the U.S. Internal Revenue Code. If the TIN is not in the SAM, Corporate Electronic Funds Transfer, or within the supporting documentation (to include the invoice or contract), then the contracting officer must provide the contractor’s TIN to the appropriate payment office *(FAR 4.203(e)(2))*.

3.4.4.2. An electronically-transmitted payment request is treated the same as a paper payment request and must contain identical data elements as a proper, paper payment request *(FAR 32.905(b))*). Electronically-transmitted payment requests that are returned to the contractor will be returned in the same manner that they were received, or in a manner practical for the entitlement system. An electronic message reporting the reason for the return must accompany the returned electronically-transmitted payment request.

3.4.5. **Forms.** Non-electronic forms that may be used as an invoice, if approved by the contracting officer and included in the contract, include, but are not limited to:

3.4.5.1. DD 250;

3.4.5.2. SF 44;

3.4.5.3. Delivery Ticket, refer to Chapter 7, subparagraph 2.3.2.2; and

3.4.5.4. SF 1449.

3.4.6. **Recurrent Payments/Fixed Amounts.** Payments for services of a continuing nature (e.g., rents, janitorial services), which are performed under agency-vendor contracts providing for payments of definite amounts at fixed periodic intervals, may be made without submission of invoices or bills by the vendor if allowed by the contract.

3.4.6.1. The contract must specify the payment due date. The voucher prepared by the payment office to support payments of this nature must show, at a minimum, the contract number, the period covered by the payment, the name of the vendor, the amount of the payment, and the account/appropriation to be charged. The payment voucher must be certified for payment the same as the vouchers for all other types of payments.

3.4.6.2. To comply with *TFM Volume 1, Part 4A, Chapter 2000, Section 2060*, internal controls must be established, and periodically tested, to ensure that recurrent payments
being made are: on unexpired contracts or agreements, for correct amounts, for services actually received or leased space actually under contract, and are not duplications of previous payments made for the same goods or services.

3.4.7. Lost or Destroyed Invoices. If an original invoice has been lost or destroyed, then a duplicate must be obtained from the original submitter of the invoice to support the voucher. Mark the invoice obtained as a duplicate. A full explanation of the loss or destruction of the original invoice, and a statement that steps have been taken to prevent duplicate payments, must be placed on, or attached to, the duplicate invoice. If the information has already been input from the invoice into the entitlement system, payment can be made from the information contained in the entitlement system prior to obtaining a duplicate invoice. In those situations where a duplicate invoice cannot later be obtained from the contractor, an annotation must be made documenting that payment was made based on existing records, a hardcopy duplicate invoice could not be obtained, and the original invoice was lost or destroyed. The specific existing records relied upon must be identified and documented, and management review and approval of such payment must occur and be documented prior to the disbursement. Refer to TFM Volume 1, Part 4A, Chapter 2000, Section 2050.10.

3.4.8. Invoices Requiring Administrative Contracting Officer (ACO) Approval. The Defense Contract Audit Agency (DCAA) is the authorized representative of the ACO for approving interim contract payment vouchers for provisional payment, including interim vouchers for non-commercial and commercial Time and Material (T&M) and Labor Hour (LH) contracts, subject to final audit. In accordance with DFARS 242.803, DCAA utilizes sampling methodologies to select interim vouchers for review prior to sending them to the payment office. Interim vouchers not selected for pre-payment review will be considered as provisionally approved and will be sent directly to the payment office. All provisionally-approved interim vouchers are subject to later audit of actual costs incurred. DCAA does not provisionally approve the contractor’s final voucher on a contract. Approval of final vouchers is required to be performed by the contracting officer. Refer to DoDD 5105.36 for additional information regarding DCAA’s roles and responsibilities in this process. The following invoices and vouchers require ACO approval before payment:

3.4.8.1. Completion vouchers under cost-plus, fixed-fee, or other cost-reimbursement type contracts;

3.4.8.2. Vouchers and invoices for termination costs under supplemental agreements, unless the termination modification specifies the costs to be paid;

3.4.8.3. Completion vouchers under T&M and LH contracts;

3.4.8.4. Invoices for progress and performance-based payments under fixed-price type contracts;

3.4.8.5. Vouchers and invoices where the contract requires approval by the ACO before payment;
3.4.8.6. Invoices for the release of "withhold" amounts previously instituted by the ACO; and

3.4.8.7. Any payment request where a DO requires an ACO signature.

3.5 Payment Voucher

For specific policy and requirements concerning payment vouchers, refer to Volume 5, Chapter 9. TFM Volume 1, Part 4A, Chapter 2000 contains policy related to scheduling payments and required payment voucher data. Forms that may be used as a payment voucher include, but are not limited to:

3.5.1. SF 44,

3.5.2. **SF 1034**, Public Voucher for Purchases and Services Other than Personal, and

3.5.3. DD 1155.

4.0 DOCUMENT RETENTION

4.1 Period of Retention

Original payment documentation and associated documents must be retained as government records in a format readily accessible to the entitlement office. Refer to Volume 1, Chapter 9, Figure 9-1, for specific policy and timeframes regarding record retention. Electronic record storage requires adequate controls to ensure that the digital images accurately represent the corresponding paper documentation and prevent changes to an original digital image (**FAR 4.805(a)**). The retention of documentation, both paper and electronic records, is the responsibility of the certifying officer.

4.2 Electronic Document Access (EDA)

EDA is a mandatory DoD-centralized repository of all unclassified contracts, orders, and modifications in accordance with the DFARS, Procedures, Guidance, and Information 204.201. The system is also used as a repository for Contract Deficiency Reports, Government Bills of Lading, vouchers, and receiving reports.

5.0 FOREIGN LANGUAGE DOCUMENTS

5.1 Documents Prepared in a Foreign Language

5.1.1. Invoices and supporting documents prepared in a foreign language must be translated before payment to ensure their contents satisfy requirements of the contractual document. Refer to **DFARS 225.1103** for additional policy related to contracts that may involve documentation written in a foreign language.
5.1.2. The documents must be translated in enough detail (contract number, item identification, unit of measure, price, and extension) to enable someone unfamiliar with the language to determine that receipts (material or services) satisfy the contract terms.

5.1.2.1. Documents containing technical terms that cannot be translated by entitlement office personnel should be forwarded to the ordering or requiring activity for translation.

5.1.2.2. If terms are so technical that a translation cannot be made, then a descriptive translation is adequate, provided the ordering or requiring activity certifies receipt and acceptance of the items, and provides the names and contact information, along with the signature accompanying this translation certificate if not performed electronically.

5.1.2.3. If not properly translated, return the invoice to the vendor as improper. Refer to subparagraph 3.4.4 and Chapter 7, for information on improper invoice policy.

5.2 Multiple Invoices

If several invoices contain a similar format and wording, then a single translation is adequate provided like invoices support the same payment voucher, and:

5.2.1. The required certification shows that all data not translated on other identified documents are the same as that translated,

5.2.2. All non-common data on all invoices are identified and translated in enough detail to allow an audit by persons not familiar with the language, and

5.2.3. A separate translation is attached for each group of different invoices.

5.3 Translation Certificate

The translation can be entered over or under the corresponding foreign wording or in its entirety on any available space on the document. If space is not available, then the English translation may be copied on a separate sheet. The translator completes and signs the following translation certificate on each translated document found satisfactory for payment: “I certify that I am familiar with the ____ language, and that I have made a true and correct translation of the____.” (Printed Name, Signature, Date, and Contact Information). This certification, which pertains only to the translation, may be inscribed on a separate sheet and attached if space is not available on the foreign language document. A duly appointed (via a DD 577) certifying officer must ensure payment requirements are satisfied based upon the translation.

6.0 PROCESSING ALTERED DOCUMENTS

The following policy applies to pen and ink changes associated with contractual documents, requests for payment, receiving reports, and invoice documents.
6.1 Prohibited Pen and Ink Changes

6.1.1. Pen and ink changes are prohibited from being made on all contractual documentation. FAR 43.301(a) prescribes the use of the SF 30 to make changes to contractual documentation.

6.1.2. Entitlement office personnel are prohibited from making pen and ink changes on requests for payments, receiving reports, and invoices for the following information:

6.1.2.1. Payee Identification. Payee identification includes, but is not limited to: name, address, banking information, Commercial and Government Entity code, and TIN;

6.1.2.2. Order Numbers. Order numbers include, but are not limited to: contract, modification, call, task, and delivery order numbers;

6.1.2.3. Monetary Amounts. Monetary amounts include any dollar value on any of the documents;

6.1.2.4. Line of Accounting (LOA) Data. LOA data includes all information pertaining to the LOA on any of the documents;

6.1.2.5. Names of Officials and Officers. Officials and officers include, but are not limited to: the certifying officer, approving official, contracting officer, and all other related information as typed or printed on the documents; and

6.1.2.6. Dates. Dates include any dates impacting PPA interest or discounts.

6.2 Allowable Pen and Ink Changes

6.2.1. Entitlement offices can make pen and ink changes for administrative type errors not described in subparagraph 6.1.2 on requests for payment, receiving reports, and invoice documents.

6.2.2. Entitlement office personnel may accept pen and ink changes on supporting documentation attached to an externally-certified payment request, certified and submitted by an appointed certifying officer. When submitting a certified payment voucher with accompanying manually altered supporting documents such as requests for payments, invoices, and other documents, a properly certified SF 1034 must be provided to the entitlement office identifying the correct total amount and fund citations.

7.0 EMERGENCIES AND CONTINGENCY OPERATIONS

7.1 Definitions

7.1.1. Emergencies. The Robert T. Stafford Disaster Relief and Emergency Assistance Act defines emergencies as any occasion or instance
for which, as determined by the President, federal assistance is needed to supplement state and local efforts and capabilities to save lives and to protect property and public health and safety, or to lessen or avert the threat of a catastrophe in any part of the United States.

7.1.2. Contingency Operations. A contingency operation, as defined by FAR 2.101(b), is a military operation that either:

7.1.2.1. Is designated by the Secretary of Defense as an operation in which members of the armed forces are, or may become, involved in military actions, as evidenced by the execution of an operations plan (operations order) by a Combatant Commander; or

7.1.2.2. Results in the call or order to, or retention of, active duty of members of the uniformed services, or any other provision of law during a war or during a national emergency declared by the President or Congress. For additional information on contingency operations, refer to Volume 12, Chapter 23.

7.2 Prompt Payment Act (PPA) Exemption

Certain payments made during contingency operations, an emergency, or the release or threatened release of hazardous substances (as defined in 42 U.S.C. § 5170 – 42 U.S.C. § 5195c) may not be subject to the requirements of FAR 32.9. Refer to DFARS 252.232-7011 and Chapter 7 for the policy detailing these exemptions.

7.3 Simplified Acquisition Threshold

Title 41 U.S.C. § 1903 provides detailed policy involving the simplified acquisition thresholds to support contingency operations and special emergency procurements. The contracting community is primarily responsible for ensuring the conditions for invoking 41 U.S.C. § 1903 are met.

7.4 Standard Form (SF) 44

The SF 44 is designed for on-the-spot, over-the-counter purchases of supplies and non-personal services while away from the purchasing office or at isolated activities. It can be used as a multipurpose 3-in-1 form to document the receipt, invoice, and voucher (FAR 13.306). The amount of the purchase must be at or below the micro-purchase threshold defined in FAR 13.2, except for purchases made under unusual and compelling urgency or in support of contingency operations. The simplified acquisition threshold applies to the SF 44 for overseas transactions by contracting officers in support of contingency operations. Refer to FAR 13.306 and DFARS 213.306 for the conditions that must be satisfied in order to use the SF 44.

7.5 Government-wide Purchase Card

A contracting officer supporting a contingency operation may use the Government-wide commercial purchase card to make a purchase that exceeds the micro-purchase threshold but does
not exceed the simplified acquisition threshold. Refer to DFARS 213.301(3) for information concerning the conditions that must be met.

7.6 Certification Guidelines

In addition to a contract, receiving report, and an invoice, certifying officers involved in supporting emergencies and contingency operations must ensure specific information is contained within the entitlement package. This is to ensure that the entitlement to payment is valid for certification and payment in those situations when the payment is exempt from the PPA. Payments subject to the PPA would fall within the requirements contained in Chapter 7. For payments made in support of an emergency or contingency operation that are not subject to the PPA requirements, Appendix 1 - Matrix for Payments in Support of Emergencies and Contingency Operations provides a matrix tool to assist in identifying the critical data elements necessary to perform a proper certification of a payment.

7.7 Written Justification

In circumstances where information identified in Appendix 1 is not present on all of the documents (i.e., contract, receiving report, and the invoice), the certifying officer may certify the payment if they can make a reasonable linkage among the documents. Additionally, the certifying officer may, in certain circumstances as explained in Appendix 1, certify a payment that does not contain a critical data element identified in the Appendix 1 matrix; however, they must justify in writing why they certified the payment.

7.8 Transportation Cost

If transportation costs are claimed, or shipment damage occurs or is expected to occur, then shipping terms should be considered as a critical element.

7.9 Control of Funds

All accounting offices that support emergencies or contingency operations must ensure that accounting and document retention requirements are in place within 30 days of declaration of the operation. Adherence to these requirements is critical to DoD financial stewardship and control of funds.
APPENDIX 1. MATRIX FOR PAYMENTS IN SUPPORT OF EMERGENCIES AND CONTINGENCY OPERATIONS

This appendix provides a matrix tool to assist certifying officers in identifying the critical data elements necessary to properly certify a payment made in support of emergencies and contingency operations. The matrix does not apply to contract financing payments since contract terms stipulate the invoicing and related documentation requirements.

When authorized, the head of the contracting activity, in consultation with the cognizant comptroller supporting their contracting activity, will make the determination of whether a contract and related payment will be subject to the prompt payment requirements of FAR 32.9 and are in accordance with the criteria outlined in DFARS 232.901. This determination will be reflected in a specific payment clause in the individual contract.

- Emergencies and contingency operations payments made subject to the Prompt Payment Act (PPA) requirements must adhere to the payment documentation requirements contained in 5 CFR 1315.9.
- Emergencies and contingency operations payments that are not subject to the PPA requirements must adhere to the documentation requirements contained in the following matrix.

The data elements contained in the matrix, in addition to other requirements that may be imposed by the contract terms, or those deemed necessary by the certifying officer, are critical requirements for ensuring proper certification. While it is desirable that all elements identified in 5 CFR 1315 for a proper invoice, receiving report, and contract are available for review by the certifier and subsequent processing of the payment, they are not required if the payment is not subject to FAR 32.9.

The matrix in this appendix identifies the types of payments (e.g., construction, goods or services) that can be exempt from the PPA and the data elements that are required for each type of payment. The matrix is not intended to be all-inclusive as it is very difficult to predict all types of payments that will be made during emergencies and contingency operations. Many payments fall under the category of miscellaneous payments, and each miscellaneous payment may have different data element requirements associated with it.

The certifying officer must use professional judgment to determine if a payment request and supporting documentation is sufficient to demonstrate that the payment is legal, correct, and proper.

- Critical data element not on all documents. A critical data element may be missing from one document, but present somewhere in the payment package. While all critical, required data elements identified in the matrix for a specific type of payment must be present on the supporting documentation, these data elements do not have to be present on all the documents. In other words, if a required data element is contained on the contract (e.g., Taxpayer Identification Number (TIN)) but not the invoice, and the certifying officer can make a reasonable linkage between the two documents, then the certifying officer may certify that payment.
APPENDIX 1. MATRIX FOR PAYMENTS IN SUPPORT OF EMERGENCIES AND CONTINGENCY OPERATIONS (Continued)

- Critical data element completely omitted. When a payment package does not contain a critical data element as reflected in the matrix, the certifying officer must be confident that: (1) there is a legal obligation to pay, (2) the payee has fulfilled any prerequisites to payment, (3) the amount of the payment and identity of the payee are correct, and (4) the payment is legal under the appropriation or fund involved. For any payment package missing any required critical data element, the certifying officer must justify in writing why they certified the payment. This justification can either be on the voucher or on a separate attachment provided with the voucher.

**CRITICAL POLICY COMPLIANCE REQUIREMENTS:**

1. A contract, receiving report, and invoice are required documents. The elements identified in the matrix must be present on at least one of the documents. Refer to paragraph 7.7 for justified exceptions under emergencies and contingency operations.
2. Cash payments require the seller’s signature of receipt attached to the voucher.
3. For payments for services of a recurring nature, if the contract does not require submission of an invoice for payment, then the contract must specify the payment due date.
4. An interim payment request under a cost-reimbursement contract for services constitutes a proper invoice if it correctly includes all of the information required by the contract.
5. Progress payments based on the percentage of completion must be certified by the prime contractor.
6. The TIN is required for all payees subject to the U.S. Internal Revenue Code. Payees not required to provide the TIN include: court-ordered payments, foreign companies, foreign visitors, and U.S. Government agencies. Refer to paragraph 2.7 and subparagraph 3.4.4.
7. Documentation for miscellaneous payments varies, based on the specific type of payment. Refer to Chapter 12 and the *DoD Guidebook for Miscellaneous Payments* for additional policy.
8. A certifying officer must justify in writing when a payment is made that is missing any required critical data element. This justification can either be made on the voucher or on a separate attachment provided with the voucher.
9. If transportation costs are claimed, or shipment damage occurs or is expected to occur, shipping terms are considered a critical element.

CHAPTER 10

PAYMENT VOUCHERS – SPECIAL APPLICATIONS

1.0 GENERAL

1.1 Overview

The DoD uses payment vouchers to document the payment of billings for services and supplies. Payment voucher processing described in this chapter relates to vouchers with unique entitlement or execution features. This chapter includes policy for executing intragovernmental payments and entitling partial payments, contract financing, advance payments, fast payments, and payments against cost-reimbursement contracts. Disbursement processing requirements are described in Volume 5, Chapter 9.

1.2 Purpose

This chapter prescribes the DoD policy for handling payment vouchers with special requirements in accordance with the laws and regulations cited herein.

1.3 Authoritative Guidance

This chapter establishes policies based on the statutory and regulatory requirements spelled out in specific sections of Title 41, Code of Federal Regulations (CFR), the Treasury Financial Manual (TFM), Title 31, United States Code (U.S.C.), Title 10, U.S.C., Federal Acquisition Regulation (FAR) Part 32, and the Defense Federal Acquisition Regulation Supplement (DFARS) referenced throughout the chapter. Standard processing forms include the Standard Form (SF) 1080, Voucher for Transfers Between Appropriations and/or Funds, SF 1081, Voucher and Schedule of Withdrawals and Credits, SF 1034, Public Voucher for Purchases and Services Other Than Personal, and the General Services Administration’s (GSA) Form 789, Statement, Voucher and Schedule of Withdrawals and Credits.

2.0 INTRAGOVERNMENTAL PAYMENTS

2.1 Overview

Intragovernmental payments result from transactions between federal entities for sales, services, or transfers between such entities. See Volume 4, Chapter 3, section 5.0 and Chapter 9, paragraph 2.6 for intragovernmental accounting policy. For DoD, these transactions can be:

2.1.1. Between DoD and Non-DoD entities,

2.1.2. Between DoD Components, or

2.1.3. Within a DoD Component.
2.2 Billing Processes

2.2.1. Interfund Billings. Intragovernmental transactions between or within DoD Components for the purchase of goods will be processed through the interfund billing system when initiated and supported by the supply and accounting systems of both trading partners (also see Volume 4, Chapter 3, section 5.0 for additional policy on intragovernmental receivables). As prescribed by the Defense Logistics Management Standards (DLMS), Defense Logistics Manual (DLM) 4000.25, Volume 4, Chapter 5, (C5.1.2), Interfund Billing System Procedures, the GSA, Federal Aviation Administration, and the National Oceanic and Atmospheric Administration are authorized federal agencies that may also bill DoD through the interfund billing system for goods purchased. The interfund billing system allows suppliers to reimburse themselves at the time of the billing from appropriations designated by the customer. The supplier forwards an automated billing to the billed office and reports to the U.S. Department of the Treasury (Treasury) a reimbursement of the supplier’s funds with an offsetting charge to the customer’s funds. Interfund bills, therefore, serve as both a billing and a notice to the customer that its funds have been charged and the bill has been paid. Only the billing office or the Central Accounts Office is authorized to adjust, or otherwise reverse, reimbursements reported to the Treasury on behalf of the billing office. See the DLM 4000.25, Volume 4 for detailed interfund billing system procedures.

2.2.2. Non-Interfund Billings. Intragovernmental transactions between DoD Components that are not initiated and supported by the supply and accounting systems of both trading partners, and are unable to be processed through the interfund billing system (described in subparagraph 2.2.1), are classified as non-interfund transactions. This includes intragovernmental transactions between a DoD Component and a non-DoD entity, which are not authorized for interfund billing in accordance with the DLM 4000.25, Volume 4, Chapter 5. The TFM, Volume 1, Part 2, Chapter 4700, Appendix 8, section 2.6, provides policy and guidance on the use of the Intragovernmental Payment and Collection (IPAC) system by federal entities, including the DoD, to electronically bill and pay for non-interfund intragovernmental transactions. Appendix 8, section 1 of the referenced TFM also provides guidance and information related to the development, use of, and required implementation dates of G-Invoicing as the platform for creating and managing intragovernmental transactions. G-Invoicing is not an accounting system nor a procurement system; instead, it serves as a gateway for federal entities to agree upon the funding terms and the accounting treatment of their reimbursable activity, and exchange that data with one another for consistent financial reporting. IPAC will continue to operate as the application for the settlement of funds between federal entities, even in a G-Invoicing environment, per the TFM. The IPAC system communicates to the Treasury and the trading partner agency that the online billing and payment for services and supplies has occurred. Refer to TFM, Volume 1, Part 2, Chapter 4700, Appendix 8 for additional information on G-Invoicing and IPAC respectively. See Volume 5, Chapter 11 for disbursing policy related to IPAC processes and Volume 4, Chapter 3 for accounting policy related to non-interfund receivables policy. Volume 5, Chapter 11, paragraph 4.4 provides policy concerning monthly cutoff dates for IPAC processing.

2.2.3. Advance Payments. Unless the DoD Component is specifically authorized by law, legislative action, or Presidential authorization, funds are not to be advanced to non-DoD federal entities, or be used to pay for advance billings without the receipt of goods or services. The constructive delivery and drop from inventory methods described in paragraph 2.4 are exceptions.
to this prohibition of advances prior to receipt. Volume 11A, Chapter 3 contains additional policy pertaining to advances to non-DoD entities via Economy Act Orders. Also see Volume 4, Chapter 5, and TFM Volume 1, Part 2, Chapter 4700, Appendix 8, section 2.7 for general policy concerning advance payments.

2.3 Completion of Intragovernmental Reimbursement and Transfer Vouchers

2.3.1 Vouchers. In accordance with DLM 4000.25, Volume 4, Chapter 2, C2.2.7, when an activity is unable to utilize electronic data interchange methods, the SF 1080 is an authorized voucher that may be used to entitle, execute, and support non-interfund intragovernmental payments. See Volume 5, Chapter 9 for detailed guidance regarding disbursement vouchers for non-interfund intragovernmental transactions.

2.3.1.1 SF 1080. The SF 1080 is used as support for bills to other DoD Components and non-DoD federal agencies for non-interfund, intragovernmental transactions.

2.3.1.2 SF 1081. Components may also use the SF 1081 when a manual process is required to generate interagency payments and collections between DoD and other agencies of the U.S. Federal Government. In addition, the SF 1081 is used for correcting prior expenditure or collection transactions, as well as for processing expenditure transactions not requiring payment by check.

2.3.1.3 Valuation/Cost Conditions. The following conditions may apply when using either the SF 1080 or SF 1081.

2.3.1.3.1 Surplus articles, for which payment is to be made, are listed on the voucher or supporting documents at their appraised values. Surplus articles refer to any items provided by the seller to the buyer over and above what was originally requested/agreed to.

2.3.1.3.2 Work and shop orders indicate the unit prices of articles or services furnished, or the actual value of personal services, materials, or other direct charges and overhead. When vouchers cover expenses related to the use of equipment, the following certification is placed upon the itemized statement: “I hereby certify that the amount billed herein represents cost as determined under 31 U.S.C. § 1535 and 31 U.S.C. § 1536.” In cases where the account is billed based on unit costs (e.g., per hour, day, or mile) rather than by itemization of supplies and services, such unit costs will include all expenses of operation and maintenance except depreciation. The billing method should be identified in, and determined by, the purchase agreement between the entities.

2.3.1.3.3 The services of an employee performed for another federal department or agency may be reimbursed to the providing agency if an agreement for reimbursement was made before the rendering of such services. Copies of such agreements are attached to the transfer voucher (i.e., SF 1080, 1081, or 1034) in support of the payment.

2.3.1.3.4 Articles issued from stock on hand, or stock due in, are listed on the vouchers or supporting documents. The unit prices of such items are at the standard average cost, or are computed on such basis as to ensure proper reimbursement to the agency.
Refer to Volume 4, Chapter 4, paragraph 4.3 for additional details concerning valuation methodologies for inventory items.

2.3.1.4. GSA 789. The GSA 789 is an authorized payment voucher for purchases from GSA (DLM 4000.25, Volume 4, Chapter 2, C2.2.7).

2.3.2.1. The entitlement office examines intragovernmental payment vouchers and supporting documentation to verify amounts, ensure required information is present, and validate that any required certifications are present; such as that described in 2.3.1.3.2 for the use of equipment. The entitlement office also verifies accessorrial charge rates when levied by non-DoD Government activities for issues, sales, and transfers of material, supplies, and equipment.

2.3.2.2. This verification must ensure that charges do not take into account recurring reimbursement issues (sales) and non-reimbursable transfers of material to other DoD Components, except for sales and transfers pursuant to the military assistance grant aid program and Foreign Military Sales (FMS) programs. After the review and examination for propriety, the entitlement office cites the accounting classification and verifies the voucher is ready for payment.

2.3.3. Receipt and Acceptance Documentation. Evidence of receipt and acceptance is required to support all intragovernmental and interfund transactions. The accurate and timely recording of receipts is critical to ensure financial statements are materially correct. DoD financial reporting entities must develop and implement internal controls to ensure receipt and acceptance is properly accomplished and documented to support all intragovernmental transactions. Refer to Chapter 1 for additional details concerning internal control requirements of federal agencies. Refer to Volume 4, Chapter 9 for additional details concerning receipt and acceptance requirements.

2.4 Constructive Delivery or Drop From Inventory

2.4.1. Overview. Components can place orders with another major organization within DoD, or another Federal agency, for goods or services under the Economy Act, 31 U.S.C. § 1535. Refer to Volume 11A, Chapter 3 for policy on Economy Act orders. Payments from the ordering agency are made promptly upon the written request of the agency or unit filling the order. Payment is made in advance or upon providing the goods or services ordered, for any part of the estimated or actual cost as determined by the agency or unit filling the order. A bill submitted, or a request for payment, is not subject to audit or certification in advance of payment. Adjustments of amounts paid prior to receipt of the goods or services are made in accordance with prior agreement by appropriate Component personnel on the basis of the actual cost of goods or services provided. DoD billings are based on constructive delivery or drop from inventory as follows.

2.4.1.1. Constructive Delivery. Constructive delivery is the delivery of material by the providing entity to a commercial carrier, freight forwarder, the U.S. or an international post office, or customer at the point of production, storage, or test.
2.4.1.1.1. Delivery is evidenced by completed copies of shipping documents, material shipment status of shipping documents, or a list of deliveries to a post office. Constructive delivery also applies to billings for goods accepted by an authorized inspector of another DoD Component providing direct shipment to the consignee. Such billings must be supported with a DoD (DD) Form 250, Material Inspection and Receiving Report, or other authorized documents received from the inspector showing shipment. Under constructive delivery, bills are issued when the carrier accepts the goods for transport.

2.4.1.1.2. Payment under constructive delivery differs from the actual delivery or drop from inventory concept. Constructive delivery bills are accepted and paid without waiting for delivery of the goods to the final destination. However, Components must perform follow-up procedures to ensure the goods have been received and accepted, and obtain the documentation to support the receipt and acceptance for subsequent audit purposes.

2.4.1.2. Drop From Inventory. Drop from inventory is the reduction of the quantitative inventory balance. Billing for shipments from stock must be billed at the standard price in effect at the time the stock is dropped from inventory. Refer to Volume 11B, Chapter 15 for pricing policy of inventory items.

2.4.2. Non-interfund Billings From DoD

2.4.2.1. Overview. Following a supply activity requisition, reimbursable sales of material are billable after the material has been transferred using the drop from inventory method. Billing will occur on the basis of the drop from inventory or performance of services. Sales of bulk petroleum, oil, lubricants, and perishable subsistence, as well as FMS and military assistance grant aid shipments, are noted exceptions to this billing policy. Refer to DLM 4000.25, Volume 4, Chapter 2 for billing guidelines.

2.4.2.2. Responsibility of Supplying Activity. The supplying activity initiates a request for payment for items supplied to the DoD. Billings must, at a minimum, be supported by the following information: document order number, description of the article or services, delivery or other performance date, quantity, and price. The document order number will normally be satisfied by the requisition document number, and the description will normally be satisfied by the National Stock Number. The delivery or performance date is the same date established in the detailed billing record, as appropriate for the issue or service. The supplying activity notifies the requisitioning activity of item substitutions and price or quantity changes. To facilitate the resolution of billing or payment disputes involving bills, billing offices should also include electronic contact information on the bill. Refer to DLM 4000.25, Volume 4, Chapter 2 for further details regarding billing procedures.

2.4.2.3. Responsibility of Requisitioning Activity. The requisitioning activity records the amounts and quantities of items approved for payment at the time of receipt and acceptance of the delivered items/services. The requisitioning activity adjusts the billing for unacceptable items or for items unfilled by the supplying activity and provides reimbursement for the adjusted amount. The requisitioning and supplying activities determine subsequent disposition of the unfilled items through mutual agreement.
2.4.2.4. Billing Adjustments for Short, Damaged, or Defective Shipments Within the DoD. The requisitioning activity initiates action to obtain billing adjustments. When the DoD Component shipping the items is responsible for an adjustment, a Supply Discrepancy Report (SDR) (an electronic equivalent to the SF 364, Report of Discrepancy (ROD)), is prepared by the receiving activity and submitted under DLMS procedures. The Transportation Management Office or Transportation Office initiates the DD Form 361, Transportation Discrepancy Report (TDR), when the shortage or damage is attributed to the commercial carriers. For procedural instructions regarding these reports, see the Defense Transportation Regulation (DTR), Part II, Chapter 210 and DLM 4000.25, Volume 2, Chapter 17.

2.4.2.5. Other Billing Adjustments or Allowances. The requisitioning activity is responsible for initiating requests to the billing activity to grant adjustments or allowances that do not arise from shortages, damages, or defects in shipments. These adjustment and allowance requests are submitted via the SDR for discrepancies such as overages (to be retained by the receiving activity), unacceptable substitutes, or erroneous material received. Approved requests are applied as an adjustment or allowance to the customer account included in the billing document.

2.4.2.6. Billing and Credit for Material Diversions Using Military Standard Requisitioning and Issue Procedures (MILSTRIP)/Military Standard Transaction Reporting and Accounting Procedures. If the requisitioning activity cancels requisitions, then the requisitioning activity is credited the amount billed, including accessorial charges. Accessorial costs represent certain expenses incident to issues, sales, and transfers of materiel. Accessorial costs include costs incurred for packing, crating, and handling; transportation; and port loading and unloading (See Volume 11A, Chapter 1 for additional details on accessorial charges). Refer to DLM 4000.25, Volume 4, Chapter 2 for further details regarding MILSTRIP cancelation procedures. The alternate consignee for material diverted is billed for the standard price and accessorial charges. If the Defense Logistics Agency (DLA) places an order for direct shipment of non-stocked items and the requisitioning activity cancels the order, then the requisitioning activity is billed via the SF 1080 for contract termination costs arising from cancelation of the requisition. DLA notifies the “bill to” activity cited in the canceled requisition of impending termination costs.

2.5 Payments to Defense Working Capital Funds (DWCFs)

Payment for services rendered by DWCF activities is based on the prescribed rates, tariffs, and billing procedures. DWCF payments are made with the same policy as constructive delivery and drop from inventory payments described in section 2.4.

2.6 General Services Administration (GSA)

The majority of GSA billing is accomplished via the interfund process utilizing the Simplified Interagency Billing and Collection system. When the interfund process is not used, the GSA Form 789 is used for purchases from GSA.

2.6.1. Non-interfund Billings (GSA)

2.6.1.1. GSA provides selected supplies, equipment, services, space, communications, motor vehicle rental, and other miscellaneous items on a reimbursable basis. These
supplies and services are financed from revolving, management, or working capital funds, and reimbursement from the Components is obtained through periodic billings and collections. Periodic billings and collections allow GSA to operate these programs with a minimum amount of appropriated funds.

2.6.1.2. The ordering activities receive bills from GSA biweekly, monthly, or quarterly, after the fact, or in advance (e.g., rental payments) on the GSA billing forms. This will be determined in the purchase agreement between the entities. As prescribed by DLM 4000.25, Volume 4, Chapter 2, when activities are unable to use electronic methods, the SF 1080 or the GSA 789 may be used for billing. GSA is not required to certify such bills. Except for those bills that are rendered in advance, bills are sent to the Components only after there is evidence of actual delivery of material or services or after receipt of evidence of shipment (constructive delivery). GSA furnishes bills and supporting documentation containing the data necessary to permit identification of the requisition, purchase order, or other obligating documents. Components must perform follow-up procedures to ensure the goods have been received and accepted, and obtain the documentation to support the receipt and acceptance for subsequent audit purposes. GSA may process requisitions of $1 or less without billing.

2.6.2. Adjustments. GSA adjusts bills for transportation-type discrepancies attributable to the common carrier, when the difference in shipment is caused by the shipper (GSA), or results from a lost or damaged parcel post shipment. See DLM 4000.25, Volume 4, Chapter 4 for additional policy regarding requesting or processing billing adjustments or refunds.

2.6.2.1. For lost, damaged, or defective shipments, when the discrepancy is attributable to the common carrier, the receiving activity prepares a TDR. The GSA processes these claims within the Continental United States (CONUS), since they are designated on the Government bill of lading to make payment of transportation charges to the common carrier.

2.6.2.2. When a discrepancy in shipment is either caused by the shipper (GSA) or results from a lost or damaged parcel post shipment, the receiving activity prepares the SDR. The receiving activity sends the SDR, under DLMS procedures, to the GSA National Customer Service Center (NCSC). The NCSC will accept reports of discrepancies sent by mail or via e-mail at NCSCCustomer.service@gsa.gov, or through online account access at GSA ADVANTAGE.

2.6.2.3. Errors in GSA non-interfund billings, other than shipping errors, are corrected by GSA based on an electronic request for billing adjustment, if possible, or a letter or email from the billed office. The billed office sends the request for adjustment to the GSA NCSC, including a copy of the bill and explanation of the error.

2.6.2.4. GSA processes the SDR or TDR, replies to the receiving activity, and when applicable, sends an adjusted bill to the billed office. The GSA may also initiate communication advising the billed office of erroneous billings and, when applicable, submit an adjusted bill to the billed office.

2.6.2.4.1. If GSA fails to reply to an SDR or TDR, then the receiving activity is responsible for following up with the GSA NCSC. Refer to DTR, Part II, Chapter 210, and
DLM 4000.25, Volume 2, Chapter 17 for follow-up instructions. When the reply to an SDR or TDR indicates a billing adjustment will not be made, the issue may be elevated within the organization’s management chain for resolution. When the reply indicates a billing adjustment will be made, the receiving activity provides a copy of the reply to the billed office.

2.6.2.4.2. If the billing adjustment that GSA stated was forthcoming is not received within 60 calendar days of the date of the reply to the SDR or TDR, the SDR/TDR submitter should consult the billed office for verification. When non-receipt of credit is confirmed, the billed office will submit a request for billing adjustment as prescribed by the Military Standard Billing System procedures contained in DLM 4000.25, Volume 4, Chapter 4.

2.6.3. Transportation. GSA pays transportation costs on stock items to all CONUS activities and to U.S. ports of embarkation for overseas shipments. These costs are included in the GSA standard stock item prices.

2.6.4. Non-interfund Payments

2.6.4.1. Payment is made for material through the IPAC system within 15 days after receipt of the GSA invoice. Bills are paid as rendered without pre-audit or receipt verification, subject only to availability of funds and adjustments for obvious significant errors in dollar amount. If items are deleted from the billing, then fully explain on the GSA billing forms. A follow-up process must be established to ensure the material paid for has been received and accepted. Documentation obtained in support of the receipt and acceptance must be retained as part of the support for the billing for future audit purposes. Documentation must be retained in accordance with the timeframes and requirements identified in Volume 1, Chapter 9 and the General Records Schedules of the National Archives and Records Administration’s disposal authorization guidance.

2.6.4.2. As prescribed by DLM 4000.25, Volume 4, Chapter 2, GSA billings for material shipped overseas contain a special surcharge for packing, packaging, and preservation of material. These costs are not included in the standard unit prices of the items but are separately billed. GSA billings for these charges cite the appropriation fund code shown in the MILSTRIP requisition.

2.6.4.3. Surcharge rates apply when unique DoD marking/packing requires the shipment to be physically handled by a GSA export packing facility. Surcharge rates are computed by applying an authorized percentage of the value of the material ordered and shipped to customers overseas from GSA wholesale distribution centers and vendors. These rates are subject to change each fiscal year based on an annual review of actual costs by GSA (DLM 4000.25, Volume 4, Chapter 2).

2.6.4.4. GSA Accounting Services is responsible for GSA Motor Pool transactions incurred by the local Transportation Officer. Travel Pay sections process payments to GSA or contractors for vehicle rentals authorized by travel orders. Use the data on the documented detailed billing cards to identify the requisition, purchase order, travel order, or other obligating documents. The billing information must be compared to the obligation document; if an error is found, then follow instructions in paragraph 2.6.2. Payment is due within 30 days of the billing date (see
paragraph 2.3.3 for requirements regarding receipt and acceptance). GSA supports each transaction listed with detailed billing cards for use with either mechanized systems or for manual processing.

2.6.4.5. GSA has exclusive multiyear contracting authority for telecommunications resources. However, GSA may delegate this authority in certain instances (see 41 CFR 101-35.6 and DFARS 239.7405). GSA bills for federal telecommunication services are submitted monthly and paid in advance using the IPAC system, without pre-audit or receipt verification and subject only to the availability of funds (see 10 U.S.C. § 2396 and 40 U.S.C. § 581(g)). These bills should be paid within 15 days after receipt of the GSA invoice. Components must perform follow-up procedures to ensure the services have been received and obtain the supporting documentation (receipt verification) for subsequent audit purposes.

2.6.5. Billing and Credit for Material Diversions Using MILSTRIP. Activities seeking credit resulting from canceled requisitions for a material diversion must provide confirmation of the amount billed, including accessorial charges. The alternate consignee for material diverted is billed for the standard price and accessorial charges. Activities canceling requisitions for material for which GSA placed an order for direct shipment of non-stocked items are billed by SF 1080 for contract termination costs arising from cancelation of the requisition. GSA will promptly provide the bill to the activity cited in the canceled requisition of impending termination costs.

2.7 Payments to the Government Printing Office (GPO), Library of Congress, and Government Corporations

2.7.1. Overview. The DLA Document Services is the single DoD focal point for GPO ordering and management of document services in accordance with DoD Instruction 5330.03. An invoice is submitted to the requisitioning activity upon the furnishing of printing services or supplies. The office billed prepares and processes the SF 1080 for payment and must attach an invoice to the SF 1080. Instead of transcribing the details of the transactions, each invoice can be listed under the caption “per attached invoice” according to date, number, and other identifying data as appropriate.

2.7.2. Payments to GPO. GPO reimburses the contractor for commercial printing services acquired through that agency.

3.0 PARTIAL PAYMENTS

In accordance with FAR 32.906(c) and 5 CFR 1315.4(k), unless prohibited by the contract, partial payments are authorized invoice payments for partial delivery of contractual quantities that have been accepted by the Government. Partial payments are payments made to the contractor after the work has been completed, or goods provided, and are based on items accepted on the receiving report. Per FAR 32.102(d), payments for accepted supplies and services that are only a part of the contract requirements (i.e., partial deliveries) are authorized by 10 U.S.C. § 3801(a)(1). When appropriate, contract statements of work and pricing arrangements must permit acceptance and payment for discrete portions of the work as soon as accepted (FAR 32.906(c)).
3.1 Invoicing and Tracking

When partial payments are made on purchase orders, contracts, or delivery orders, a partial payment record is maintained by the entitlement office. A separate partial payment record is maintained for each purchase order, contract, or other obligation document requiring partial payments. Contractors will submit payment requests and receiving reports in electronic form, utilizing the Wide Area Workflow (WAWF) module within the Procurement Integrated Enterprise Environment (PIEE), as prescribed by DFARS 232.7002 and DFARS 232.7003, with noted limited exceptions. When payment requests and receiving reports are not submitted in electronic form, the contracting officer will consult with the payment office and the Administrative Contracting Officer (ACO) regarding the preferred method for submission.

3.2 Discounts Offered

Partial payment requests may contain discount provisions per the contract, or on the invoice, that must be considered. See Chapter 2 for discount policy.

3.3 Ordering Agreements and Blanket Delivery Orders

Payments made against blanket purchase agreements, call-type contracts, and blanket delivery orders, as defined by FAR Part 16, are not considered partial payments, except when more than one payment is required on an individual call or order.

4.0 CONTRACT PAYMENT ALLOCATIONS

4.1 Overview

In accordance with DFARS, Subpart 204.7108, contracting officers must follow the procedures at DFARS 204.7108, Procedures, Guidance, and Information (PGI), for inclusion of payment instructions in contracts. The payment instructions provide guidance to the payment office to assign payments to appropriate accounting classification reference numbers (ACRNs) based on the anticipated contract work performed (regulatory guidance for establishing ACRNs is contained in DFARS PGI 204.7107). Payment instructions are required for any contracts or separately priced orders that:

4.1.1. Include deliverable line items or subline items that are funded by multiple accounting classifications;

4.1.2. Contain cost-reimbursement or time-and-materials/labor-hour line items; or

4.1.3. Authorize financing payments.

4.2 Application

The DFARS PGI payment instructions provide for a specific allocation methodology based on the type of payment request being submitted and the type of effort being procured. The
contracting officer must insert the specific instructions, or a link to the table at DFARS PGI 204.7108(b)(2), into section G of the contract. The DFARS PGI payment instructions include an authorization for the contracting officer to utilize an alternative “Other” allocation methodology if none of the specific payment-type instructions apply. However, this methodology may only be used if:

4.2.1. It provides a significantly better reflection of how funds will be expended in support of contract performance; and

4.2.2. It is agreed to by the payment office and the contract administration office. A copy of the agreement will be kept in the contract file.

5.0 CONTRACT FINANCING PAYMENTS

5.1 Overview

A contract financing payment, as defined in FAR 32.001 and DFARS Subpart 232, is an authorized Government disbursement of monies to the contractor prior to acceptance of supplies or services by the Government. Contract financing payments relieve the contractor from responsibility for the total financing of a contract that extends over a long period, or is for a large amount of money. These payments must be authorized by the contracting officer within the contract terms and conditions.

5.1.1. Contract financing payments include:

5.1.1.1. Progress payments based on cost (FAR 32.5 and DFARS 232.5);

5.1.1.2. Progress payments based on a percentage or stage of completion (FAR 32.102);

5.1.1.3. Performance-based payments (FAR 32.10 and DFARS 232.10);

5.1.1.4. Advance payments (FAR 32.4 and DFARS 232.4);

5.1.1.4.1. Commercial advance and interim payments (FAR 32.2 and DFARS 232.2); and

5.1.1.4.2. Interim payments under a cost-reimbursement-type contract, except for a cost-reimbursement contract for services when Alternate I of the clause at FAR 52.232-25 is used. See section 6.0 for policy pertaining to payments on cost-reimbursement-type contracts.

5.1.2. In accordance with DFARS 232.102-70, the contracting officer may establish provisional delivery payments to pay contractors for the costs of supplies and services delivered to and accepted by the Government under certain contract actions.
This may take place if the contract is undefinitized, whereby the contract terms, specifications, or prices are not agreed upon before performance begins.

5.1.3. Contract financing payments do not include:

5.1.3.1. Invoice payments;

5.1.3.2. Payments for partial deliveries;

5.1.3.3. Lease and rental payments; or

5.1.3.4. Interim payments under a cost-reimbursement-type contract for services when Alternate I of the clause at FAR 52.232-25 is used.

5.2 Progress Payments

Progress payments are made to the contractor when requested, as work advances.

5.2.1. Progress Payments Based on Costs. These payments, authorized by the inclusion of FAR clause 52.232-16, are made to the contractor when requested, but not more frequently than monthly and only in amounts approved by the ACO in accordance with FAR 32.5 and DFARS 232.5. Progress payment requests are processed in sequential order.

* 5.2.1.1. Per FAR clause 52.232-16, the total amount of progress payments shall not exceed 80 percent of the total contract price, as defined by FAR 32.501-3. Furthermore, in accordance with FAR 32.501-1 and 10 U.S.C. § 3804(b), progress payments may not exceed 80 percent of the eligible costs of work accomplished on undefinitized contract actions (UCA), as defined by DFARS 217.7401, and;

5.2.1.1.1. A contractor performing the contract for which a UCA is entered into has not already received increased progress payments on contractual actions other than UCAs; or

5.2.1.1.2. A contractor performing the contract for which a UCA is entered into, and that has received increased progress payments on contractual actions other than UCAs, can demonstrate that the contractor has promptly provided the amount of the increase to any subcontractors (at any tier), small business concerns, or suppliers of the contractor.

5.2.1.2. Each contractor request for progress payment must be prepared and submitted through the WAWF module of PIEE, as a separate progress payment document/SF 1443, Contractor’s Request for Progress Payment, in accordance with DFARS 252.232-7003, with noted limited exceptions. The FAR and DFARS links provided herein discuss the computation, liquidation, reduction, suspension, and limitations of progress payments.
5.2.1.3. **DFARS 252.232-7004** provides for special liquidation rates pertaining to small businesses (90%) and small disadvantaged businesses (95%). However, the limitation/ceiling of 80% of total contract price specified by FAR clause 52.232-16 still applies.

5.2.1.4. Progress payments may have different liquidation rates. For example, a contract may have different liquidation rates for payments pertaining to the U.S. effort versus FMS. In this example, the liquidation rate could be 80 percent for the U.S. work versus 90 percent for the FMS, and two separate progress payment requests are required to be prepared and submitted by the contractor. In addition, as prescribed by **DFARS 252.232–7002**, if more than one FMS country is involved, the contractor is required to attach a supporting schedule to the progress payment request identifying the countries and the requested distribution of the payment. Unless directed otherwise in the contract, or by the contracting officer, the contractor submits the progress payment requests, with supporting information, to the entitlement office designated in the contract when requesting a progress payment.

5.2.1.5. **FAR 32.102(b)** states that progress payments based on costs do not include:

5.2.1.5.1. Payments based on the percentage or stage of completion when the contract contains either **FAR clause 52.232-5** or **FAR clause 52.232-10**;

5.2.1.5.2. Payments for partial deliveries accepted by the Government;

5.2.1.5.3. Partial payments for a contract termination proposal; or

5.2.1.5.4. Performance-based payments (FAR 32.10).

5.2.2. **Progress Payments for Fixed-Price Construction Contracts.** The Government may make progress payments on fixed-price construction contracts containing FAR clause 52.232-5 based on estimates of work accomplished that meet the standards of quality established under the contract. These progress payments, whether disbursed monthly or at more frequent intervals as determined by the contracting officer, should be processed by the entitlement office as partial payments as described in paragraph 3.1.

5.2.3. **Progress Payments Based on a Percentage of Completion.** **FAR 32.102(e)(1)** references the statutory authority to use progress payments based on a percentage or stage of completion. These are authorized only for contracts for construction (as defined in **FAR 36.102**), shipbuilding and ship conversion, alteration, or repair. However, percentage or stage of completion methods of measuring contractor performance may be used for performance-based payments in accordance with FAR 32.10. Agency procedures must ensure that payments are commensurate with work accomplished, which meets the quality standards established under the contract.
5.2.4. Progress Payment Allocations to Accounting Classifications

5.2.4.1. DFARS PGI 204.7108 identifies the methodologies for allocation (payment instructions) that contracting officers must include in contracts when financing payments are authorized. The DFARS PGI provide instruction to the payment office to assign payments to the ACRN citation(s). Refer to Volume 4, Chapter 12, paragraph 4.4, concerning the accounting treatment of progress payments.

5.2.4.2. When allocating progress payments across ACRNs, controls must be established to ensure disbursements do not exceed obligations at the ACRN level. In order to incorporate these necessary controls, progress payments, performance-based payments, and commercial item financing will ordinarily be charged to an ACRN so that the outstanding financing payment balance for each ACRN does not exceed the Unliquidated Obligation (ULO) for that ACRN multiplied by the contractual liquidation rate. This internal control ensures contracts are not over liquidated at the ACRN level, potentially causing a negative ULO condition, prior to final delivery. For ACRNs that fund both fixed-price and cost-type line items, the allocation methodology of contract financing applies only to the fixed-price portions (in accordance with FAR 32.501-3).

5.2.4.2.1. If the ACRN allocation instructions within the contract, based on the incorporation of DFARS PGI payment instructions, deviates from the allocation process described in 5.2.4.2, allocations in entitlement and accounting systems may be established to reflect payment instructions that direct liquidation of contract finance payments from ACRNs with a shorter remaining period of availability for expenditure. This may facilitate liquidation of obligations pursuant to 31 U.S.C. § 1553 prior to closure of the appropriation account by operation of 31 U.S.C. § 1552. If payment instructions direct liquidation of ACRN balances in excess of the ULO balance multiplied by the contractual liquidation rate, controls must be established to ensure that ACRNs with mixed-type funding (fixed and cost) are not over liquidated, and that the overall contract ceiling of 80% of contract price (FAR clause 52.232-16) is not exceeded.

5.2.4.2.2. If the contracting officer determines an alternate ACRN allocation methodology is to be used to liquidate payments for a specific contract, as described in 5.2.4.2.1, then the contracting officer must incorporate the DFARS PGI payment instruction of “Other” (prescribed by DFARS PGI 204.7108(d)(12)) and negotiate a written agreement to such an alternate methodology with the payment office before that alternate allocation methodology may be used. A copy of the written agreement, or the contractual modification identifying the specific payment instruction, must be maintained in the contract file and the payment office files for audit support purposes.

5.2.4.3. There are occasions when work is shifted from one contract to another for the same contractor. The shifting of work between contracts must be in compliance with DoD progress payment policy of taking offsets whenever possible. When shifts occur, it is noted that a disbursement adjustment between contracts is a bookkeeping entry and not a payment transaction. Accordingly, when work is shifted between contracts of the same contractor, a progress payment is the net amount of the transactions involved on the contracts. Any transfers of work from one contract to another contract are ordered by a modification to each affected contract.
5.2.4.4. If the progress payment is for FMS requirements, then the portion of the amount approved for payment is charged to each customer country. For the FMS customer to receive a correct billing statement, the long line fund citation must include the country code, implementing agency, country code designator, and the case line number. If each country code contains only one ACRN, then payment is made to the ACRN representing the country code, implementing agency, and case line item. If there is more than one ACRN for each country code, the amount charged to each country code is prorated to the ACRNs identified to that country code, or allocated in a manner identified by, or acceptable to, the ACO (in accordance with DFARS PGI 204.7108 and DFARS 252.232-7002). Proration is based on the ratio of the ACRN obligation to the total obligation for a particular country code.

5.2.5. Progress Payment Recoupment

Progress payments are recouped (liquidated) either by voucher deductions from amounts otherwise due the contractor on payments for fixed-price delivered and accepted items, or in extremely rare cases, by cash refunds. Recoupments must be based on the DFARS PGI payment instruction requirements contained in the contract, as described in 5.2.4.1. If the contract contains the FAR clause 52.232-16, progress payment financing shall be liquidated by deducting from any payment under this contract, other than advance or progress payments, the unliquidated progress payments, or 80 percent of the amount invoiced (or an alternate liquidation rate established in accordance with FAR 32.503-9), whichever is less.

5.2.5.1. Deduction From Vouchers

5.2.5.1.1. Disbursement vouchers are prepared for the gross amount of work completed by the contractor and charged to the applicable accounts, based on the contractual payment instructions. From this gross amount, the deduction for the liquidation amount will occur to recoup the prior progress payment financing.

5.2.5.1.2. The recouped amount is determined by multiplying the gross amount of the invoice by the liquidation rate stated in the contract. If this amount is greater than the outstanding progress payment balance on the contract, then the outstanding progress payment balance becomes the amount recouped.

5.2.5.1.3. The recoupment is computed and applied, utilizing the DFARS PGI payment instructions contained in the contract, against the outstanding progress payment balances of the ACRNs to which the delivery is applicable.

5.2.5.1.4. If an insufficient outstanding balance of progress payments exists on the ACRNs applicable to the delivered items, then any remaining outstanding progress payment balance on other ACRNs must be recouped, up to the liquidation rate established in the contract, which is ordinarily 80%.

5.2.5.1.4.1. If sufficient schedule information is available, then any remaining recoupment is applied against the outstanding progress payment balance of the ACRN. The recoupment is against the ACRN representing the delivery furthest into the future within the
same service as the deliverable ACRN. If sufficient liquidation is not available within the deliverable service ACRN, then liquidation from the ACRNs of other services should occur against the delivery furthest into the future.

5.2.5.1.4.2. If sufficient schedule information is not available, then the remaining liquidation is prorated against those ACRNs with an outstanding progress payment balance within the service of the deliverable first, and then from other service ACRNs when necessary. The basis for the proration is the ratio of the individual ACRN progress payment balances to the total contract progress payment balance.

5.2.5.1.5. Recoupments are not accomplished involving both U.S. and FMS funds unless both are involved with the payment of the deliverable item. If there is a deliverable payment against U.S.-funded ACRNs, then progress payments are recouped only against the U.S. ACRNs. For a deliverable payment against FMS-funded ACRNs, progress payments are recouped against only those countries involved with the FMS deliverable.

5.2.5.1.6. For invoices offering discounts on contracts with unrecouped (unliquidated) progress payments, see Chapter 2.

5.2.5.2. Cash Repayment. Cash repayments may be required by the provisions of the contract.

5.3 Performance-Based Payments

As prescribed by FAR 32.10, performance-based payments are a form of contract financing that is authorized for use by the inclusion of FAR clause 52.232-32 in solicitations that may result in contracts providing for performance-based payments, and fixed-price contracts under which the Government will provide performance-based payments. Performance-based payments and progress payment financing may not be authorized on the same contract, or individual order (for indefinite delivery contracts), per FAR 32.1003.

5.3.1. Payment. Performance-based payment financing differs from progress payments, which are based on costs incurred, in that they are based on objective quantifiable performance, the accomplishment of defined events, or some other quantifiable method. Two different types of performance-based payments may be included in a contract. The inclusion of DFARS clause 252.232-7012 authorizes performance-based financing payments on a whole contract basis, whereas DFARS clause 252.232-7013 authorizes the payments on a deliverable line-item basis. As prescribed by FAR 32.1004(b)(2)(ii), total performance-based payments shall not exceed 90 percent of the contract price if on a whole contract basis, or 90 percent of the delivery item price if on a delivery item basis.

5.3.2. Recoupment. Performance-based financing payment amounts shall be recouped (liquidated) by deducting a percentage, or a designated dollar amount, from the delivery payments in accordance with FAR clause 52.232-32. The contracting officer must specify the liquidation rate or designated dollar amounts in the contract. The method of liquidation must ensure complete recoupment no later than final payment. As prescribed by FAR 32.1004, the methodology for
liquidating performance-based financing payments must be stated in the contract and will be on the same basis as they were paid, whole contract basis or line item basis.

5.4 Advance Payments for Non-commercial Items

Advances are payments made to contractors in anticipation of performance on the contract. Advances are often made prior to the associated costs being accumulated and summarized in the contractor’s accounting system. Contracts must include FAR clause 52.232-12 authorizing these payments before payment may be made. In accordance with FAR clause 52.232-12, these payments will be made payable to the contractor marked for deposit only in the contractor’s special bank account designated for this purpose. For more details, see FAR 32.4, DFARS 232.4, and Chapter 4.

5.4.1 Reconciliation and Tracking. Subsidiary records of individual advances must be maintained to support the amount recorded in the general ledger account. The subsidiary record must include the amount advanced, the date advanced, the applicable contract number, and the disposition of the advance. At least quarterly, the subsidiary record must be reconciled with the general ledger balance; see Volume 4, Chapter 3.

5.4.2 Advance Payment Pool Agreements. Advance payments may be used for financing the performance of more than one contract. This is accomplished under a single advance payment agreement called an advance payment pool agreement, under the authority of FAR 32.408 and DFARS 232.470.

5.4.2.1 Advance payment pool agreements are used for the financing of cost-type contracts with nonprofit educational or research institutions, for experimental or research and developmental work, when several contracts or a series of contracts require financing by advance payments. The educational institution uses the advance to pay expenses that will be reimbursed under performance of the contracts. The advance remains outstanding as long as there are contracts remaining in the pool, the need for the amount exists, and there is contract value (unliquidated value on the contract) greater than the amount of the advance.

5.4.2.2 Contracts may cite the funds of more than one agency or department when the contract is part of a pooling agreement. When more than one contract is involved in the pooling agreement, one or more of the contracts is designated as the contract for which the advance payments are applied. This is usually a large dollar value contract.

5.4.2.3 The following policies apply to DoD Components operating under advance payment pool agreements.

5.4.2.3.1 The contractor request for an advance payment must be submitted to, approved, and certified for payment by the office(s) specified in the contract. The advance payment must cite a specific appropriation associated with the advance payment pool agreement. The approved payment request is then forwarded to the payment/entitlement office cited in the contract to be paid.
5.4.2.3.2. Upon receipt of a properly approved advance payment voucher in the entitlement office, it must be reviewed for accuracy. If proper, the voucher is entitled and forwarded to the disbursing office to be paid.

5.4.2.3.2.1. The payment must cite the appropriations identified on the contracts listed on the reimbursement voucher.

5.4.2.3.2.2. A record must be maintained of all contract financing payments made by the entitlement office.

5.4.2.3.2.3. Total payments must not exceed the total amount authorized on the contract.

5.4.2.3.2.4. Payments are to be made within 5 to 10 workdays after receipt of a properly approved reimbursement voucher, but not earlier than the date specified in the pool agreement. These payments are considered a form of contract financing and are not subject to Prompt Payment Act (PPA) interest.

5.4.2.4. Controls must be established (e.g., manual or electronic ledgers) by the payment office to ensure cumulative payments, plus the amount advanced, do not exceed the ULO of all contracts awarded under the pooling agreement. This condition may result from:

5.4.2.4.1. Failure to receive obligating documents, or

5.4.2.4.2. Nearing completion of the pool contracts.

5.4.2.5. Do not make a (non-advance) contract payment when it causes the ULO to fall below the advanced amount. If this condition occurs, notify the designated DoD Component and request further instructions. The Component will advise whether obligating documents are in transit or whether the payment must be processed to liquidate the amount advanced.

5.4.3. Recoupment of Advance Payments

The methodology for recoupment of advance payments should be stated in the contract. In accordance with FAR clause 52.232-12, at any time, the contractor may repay all or any part of the funds advanced by the Government. Whenever requested in writing to do so by the administering office, the contractor must repay to the Government any part of unliquidated advance payments considered by the administering office to exceed the contractor’s current requirements. If the contractor fails to repay the amount requested by the administering office, all or any part of the unliquidated advance payments may be withdrawn from the special account established for deposit of the advanced payments, by check signed by only the countersigning agent and applied to reduce the unliquidated advance payments under this contract. If the agency considers a more rapid liquidation appropriate, the contracting officer may use the clause with its Alternate III.
5.4.3.1. When the advance is recouped, or repaid by the contractor, charge the appropriate contracts in the pooling agreement and reduce the amount recorded against the designated contract as advance payments.

5.4.3.2. When a contract is terminated, the disbursing office will collect any balances due for advance payments not liquidated, as well as accrued interest if applicable (see FAR 32.407).

6.0 COST-REIMBURSEMENT-TYPE CONTRACTS

Cost-reimbursement-type contracts provide for payment of allowable costs incurred, to the extent prescribed in the contract. These contracts establish an estimate of the total cost for purposes of obligating funds, and contain a cost limitation that the contractor may not exceed (except at its own risk) without the approval of the contracting officer (See FAR 16.3). Interim payments under a cost-reimburseable-type contract are considered contract financing and are governed by the requirements of FAR, Part 32, except for cost-reimbursement contracts for services, when Alternate I of the clause at FAR 52.232-25 is used.

6.1 Recording of Payments

The general ledger posting requirements for those interim cost-reimbursement payments that are considered contract financing are contained in Volume 4, Chapter 5.

6.2 Authority to Review and Approve Vouchers

The Defense Contract Audit Agency (DCAA) has sole authority for verifying claimed costs and provisionally approving interim payment requests under cost-reimbursement, non-commercial and commercial time-and-materials, and labor-hour type contracts. This authority may include, upon request, cost verification and provisional approval for state and local government-submitted claims that fall under the provisions contained in the Office of Management and Budget Circular A-87. In accordance with DFARS 242.803, DCAA utilizes sampling methodologies to select interim vouchers for review prior to sending them to the payment office. Interim vouchers not selected for pre-payment review will be considered to be provisionally approved and will be sent directly to the payment office. All provisionally approved interim vouchers are subject to later audit of actual costs incurred. A Contracting Officer’s Representative (COR) may not be delegated authority to approve these types of payments. The COR may review contractor billings, but is expected to coordinate with DCAA when any cost verification of data is necessary for support of their surveillance responsibilities. Therefore, DCAA provisionally approves interim payment requests subject to final audit, the ACO approves the final payment request on the contract, and the COR coordinates with DCAA if any cost verification is needed.

6.3 Invoice Submission

Contractors must submit payment requests and receiving reports in electronic form, utilizing the WAWF module of PIEE, as prescribed by DFARS 232.7002 and DFARS 232.7003, with noted limited exceptions. When payment requests and receiving reports are not required to be submitted
in electronic form, the contracting officer will consult with the payment office and the ACO regarding the preferred method for submitting payment requests.

6.4 Special Provisions for Foreign Military Sales (FMS) - Funded Contracts

Special payment techniques are required in some cases when the contract includes requirements under the FMS program for more than one country, or one or more countries and the United States. Further policy regarding FMS-funded contracts is contained in Volume 15.

7.0 FAST PAYMENT

The fast payment policies authorize payment prior to verification that supplies have been received and accepted on contracts containing FAR clause 52.213-1, under the limited conditions listed in FAR 13.402 and DFARS 213.402. When a purchase is made using fast payment procedures, payment is made based on the supplier's submission of an invoice, which constitutes a certification that the contractor has delivered the supplies to a post office, common carrier, or point of first receipt by the Government, and that it will repair, replace, or correct non-conforming items. Contractors must submit payment requests in electronic form, utilizing the WAWF module of PIEE, as prescribed by DFARS 232.7002 and DFARS 232.7003, with noted limited exceptions (see Chapter 8 for additional policy regarding electronic submission requirements).

7.1 Payment Timelines and Requirements

Payment is to be made no later than 15 days after receipt of a proper fast pay invoice. However, if the payment office does not meet the 15-day requirement for payment, PPA interest will begin to accrue in accordance with procedures applicable to invoices to which the fast payment procedure clause does not apply. See Chapter 7 for additional PPA policy and requirements.

7.1.1. Both manual and electronic invoices will be prominently marked as “FAST PAY” and processed using fast payment procedures. Invoices not prominently marked “FAST PAY” may be accepted for payment. If the contract contains FAR Clause 52.213-1, then the invoice may be paid using fast payment procedures.

7.1.2. If the fast payment procedure clause is not incorporated into the contract, the invoice will be paid in accordance with the procedures for invoices to which fast payment procedures do not apply. The contracting officer should be provided timely feedback concerning contractor performance (including deficiencies and any history of abuse) under fast payment purchases.

7.2 Controls

The entitlement office, together with the contracting officer, must ensure the following conditions are in place when using the fast payment procedures.

7.2.1. A closed loop process exists that matches payments to material receipts and resolves non-receipt or other discrepancies. This should consist of a management control/audit program by the entitlement office for the post-payment examination of payments made under fast pay.
7.2.1.1. Authorized personnel with direct knowledge of the receipt must document receipt of goods and services. This documentation, whether hardcopy or systemic, must be made available within the timeframe prescribed by a post-payment examiner when requested during audits. The audit must confirm receipt and acceptance and include matching with payment documents.

7.2.1.2. The first attempt to obtain missing receiving reports will be initiated no later than 45 days after payment is made. If the receiving report is not received within 45 days from the date of the initial follow-up, the entitlement office will contact the contracting officer to verify receipt and acceptance; or issue a contract deficiency report to the contracting officer for non-compliance with contract terms so the entitlement office and the contracting officer can start collection actions.

7.2.2. Auditable evidence of receipt and acceptance of the goods/services exists and is accessible. Audit evidence of receipt must have the date the items were delivered or when the services were rendered, the printed authorizing official’s name, and authorizing signature or electronic/digital approval. Audit evidence of acceptance is the authorization that the receipt of goods/services matches the criteria identified on the originating order and acknowledges the items/services are of acceptable condition/quality.

7.2.3. An information flow exists that links consignee (the post office, common carrier, or point of first receipt by the Government) receipt and discrepancy information to both the purchasing and bill entitlement offices. The information flow documents contractor performance and provides timely feedback to contracting/bill entitlement offices.

7.2.4. A prevalidation process exists that matches expenditures and obligations for fast pay transactions (See Chapter 1 for additional information on prevalidation requirements).

CHAPTER 11

PAYMENT AS REIMBURSEMENT FOR PERSONAL EXPENDITURES

1.0 GENERAL

1.1 Purpose

This chapter prescribes policy for reimbursement to civilian personnel, military members, and others who have used personal funds to pay for Federal Government obligations. The DoD Guidebook for Miscellaneous Payments, prepared by the Defense Finance and Accounting Service, assists DoD officials in identifying mandatory requirements prescribed for DoD miscellaneous payments. It provides a high-level overview of policies and processes, with a goal of consolidating and streamlining miscellaneous payment procedures across the Components.

1.2 Authoritative Guidance

The policies prescribed throughout this chapter pertaining to claims for personal expenditures are based primarily upon Title 5, United States Code (U.S.C.); Title 10, U.S.C.; Title 31, U.S.C.; and Title 41, U.S.C.; Title 5, Code of Federal Regulations (CFR); Title 32, CFR; Joint Travel Regulations (JTR), Chapters 2, 3, and 5; DoD Instruction (DoDI) 1000.30, “Reduction of Social Security Number (SSN) Use Within DoD;” and DoDI 7250.13, “Use of Appropriated Funds for Official Representation Purposes.”

2.0 PERSONAL EXPENDITURES

2.1 Overview

It is DoD’s policy that military and civilian personnel follow standard personnel reimbursement procedures established by their Component or activity, and avoid using personal funds to pay for Federal Government obligations. However, personnel will be reimbursed if the underlying expense was authorized, or if there was an urgent and unforeseen public necessity, and the claim is legally payable. Personnel will not use this policy to avoid the use of standard personnel reimbursement procedures established by their Component or activity, or to circumvent other laws or regulations.

2.1.1. Use of electronic submissions is preferable when requesting reimbursement for personal expenditures. The electronic claim must contain all the elements of the Optional Form (OF) 1164, “Claim for Reimbursement for Expenditures on Official Business,” unless the Component’s system captures the same data elements through some other system functionality that can be directly linked to the claim and supports both internal and external audit requirements.

2.1.2. In lieu of electronic submissions, the OF 1164 is the authorized form used in requesting reimbursement for personal expenditures outlined in this chapter.
2.1.3. All payments require claimants subject to the U.S. Internal Revenue Service code to provide a Tax Identification Number (TIN) in accordance with \textit{31 U.S.C. Section 7701}, \textit{31 U.S.C. § 3325(d)}, and \textit{Federal Acquisition Regulation, subpart 4.9}. For personnel, the TIN may be the claimant’s SSN \textit{(26 U.S.C. § 6109(d))}. However, an alternative identification number should be used whenever possible in accordance with DoDI 1000.30. In accordance with \textit{DoDI 5400.11}, “DoD Privacy and Civil Liberties Programs,” Components must safeguard the privacy of all individuals and the confidentiality of all personally identifiable information (PII), and take action to ensure any PII contained in a system of records used to conduct official business will be protected so the security and confidentiality of the information is preserved.

2.1.4. All claims for reimbursement must be submitted in accordance with the DoD and Component’s submission policies and procedures (electronic or manual). All claims must be signed by the claimant, appropriate approving official, and a properly appointed certifying officer prior to being paid.

2.1.5. Personnel may use electronic and digital signatures to approve and certify financial documents processed through automated information systems (Volume 5, Chapter 1, subparagraph 3.5.3).

2.1.6. Certifying officers must approve the claim prior to disbursement to ensure the information on the vouchers agrees with all supporting documentation. Certifying officers certify that the claims/vouchers are correct and proper for payment from the appropriation(s) or other funds cited on them or on supporting vouchers, and the proposed payments are legal, proper, and correct (Volume 5, Chapter 5, sections 4.0 and 5.0).

2.1.7. To ensure auditability and to validate entitlement systems’ payment records, all claims for reimbursement require supporting documentation for proof of receipt, approval by a designated approving official, and certification by a properly appointed certifying officer prior to the disbursement. Volume 1, Chapter 9, Figure 9-1 prescribes DoD policy regarding the retention period for financial records in support of these payments. Refer to \textit{44 U.S.C. § 2909} for authorization to retain records for a longer period than specified in disposal schedules. Supporting documentation includes, but is not limited to, receipts, tickets, and invoices.

2.2 Claim for Reimbursement for Expenditure on Official Business

2.2.1. \textbf{Military Personnel and Civilian Employees}. Military and civilian personnel claiming reimbursement for expenditure of personal funds without pre-approval must show there was an urgent and unforeseen public necessity. The claimant must prepare a claim for reimbursement and place the following statement on the claim, or attach to the claim: "I certify this claim is true and correct. There was an unforeseen and urgent reason to spend my funds, and I have not received credit or payments." The claimant must sign and date the claim. An official designated in the Component or activity procedures must approve the claim prior to forwarding to the certifying officer.

2.2.2. \textbf{Non-Government Personnel}. Claims submitted for reimbursement require signatures by the claimant, an approving official, and a properly appointed certifying officer.
certified copy of the document requesting the person to perform services, or documentation showing personally paid items, must support the claim.

2.2.3. Supporting Documents. The documents supporting certified vouchers must show the goods or services were received and essential. Mission-related expenses incurred while in a travel status are not payable on a travel voucher and/or by using the Defense Travel System. The JTR, Chapters 2, 3, and 5, prescribes items allowable for reimbursement while in travel status for military members and DoD civilian personnel.

2.3 Civil Air Patrol Expenses

Reimbursement is authorized to members of the Civil Air Patrol for supplies, including fuel, lubricants, and other items required for vehicle and aircraft operations, through Air Force appropriations when acting as an auxiliary of the Air Force. Reimbursement of expenses is also authorized to place equipment into serviceable condition, or to improve and maintain equipment (including aircraft, motor vehicles, computers, and communications equipment) owned or leased by the Civil Air Patrol. Refer to 10 U.S.C. § 9494.

2.4 Conference Attendance

2.4.1. Overview. Military members may attend conferences of recognized professional organizations to maintain and further their professional competency at Government expense, subject to the availability of funds, specific management approvals, and the member’s work responsibilities. Conference attendance expenditures, which contribute to improved conduct, supervision, or management of the DoD Components’ functions and activities, may be authorized as prescribed by Volume 9, Chapters 5, 8, and Definitions. Refer to the DoD Conference Guidance, Version 4.0 for DoD policy concerning the administration and oversight of all conferences.

2.4.2. Attendance at Technical, Scientific, Professional, or Similar Organizations. The DoD requires specific approval for authorization and reimbursement of expenses associated with attending meetings for technical, scientific, professional, or similar private membership non-Federal societies or organizations (JTR, Chapter 3, sections 0302 and 0321). Documentation supporting that approval must accompany the claim for reimbursement.

2.5 Notary Public Commission Expenses

An employee required to serve as a notary public in connection with the performance of official duties is entitled to repayment of the expenses incurred in obtaining a notarial commission as authorized by 5 U.S.C. § 5945. Reimbursable expenses include the cost of seals, embossing devices, recording and filing fees, and surety bonds required for notaries by state laws. DoD Components will not make reimbursements for claims related to dues for notarial professional associations or other non-essential services. The claim for reimbursement of commission expenses must include a statement that the notary commission is required in the performance of official duties as designated in Component or activity procedures. The claimant’s statement must be
approved by a management official prior to submission to the certifying officer. There is no statutory authority for payment of these expenses to military members.

2.6 Professional Credentials and Specialty Board Examinations

Reimbursement of expenses to obtain professional credentials may be authorized for application fees, examinations, and certifications. The authority for reimbursement of professional accreditation fees is prescribed by 5 U.S.C. § 5757.

2.7 Passports and Visas

Reimbursement is authorized for costs related to obtaining a visa or passport when required for official travel by DoD employees and their dependents in accordance with JTR, Chapter 2, section 0204, Table 2-24.

2.8 Personnel Held Captive

2.8.1. U.S. military personnel held captive who barter personal valuables during escape and evasion may file a claim for reimbursement. The claim submitted for reimbursement must list the value of each article and show its age and condition at the time of barter. The appropriate commander or management official must approve the claim prior to submission to the certifying officer.

2.8.2. Civilian personnel held captive who barter personal valuables during escape or evasions should consult with their Component’s legal counsel in preparation of the claim. The claim must be approved by the designated Component official prior to submission to the certifying officer.

*2.9 Room and Board for Dependent Children

In limited circumstances, the cost of room and board is reimbursable to sponsors of dependent children who require room and board away from their domicile (not within commuting distance) as prescribed by 20 U.S.C. § 926(b). Also see DoD Directive 1342.20, DoD Education Activity (DoDEA), for more information regarding eligibility requirements for education of dependent children in overseas areas or attendance at non-DoD schools. In accordance with DoD Directive 1342.20, a dependent is defined as a minor who has not completed secondary schooling and who is the child, stepchild, adopted child, spouse, or other eligible minor of an eligible sponsor. A receipt covering the actual payment of room and board by the sponsor is required to support the claimed amount. Additionally, a signed statement is required from the school superintendent or principal that room and board charges are reasonable for the area, and there was nothing available as a less expensive alternative for providing adequate education at a school within the same comparable distance.
2.10 Travel for Dependent Children

When DoD-operated schools are unavailable overseas, the DoDEA will coordinate the placement of students in local public or private schools, or in boarding schools. In limited circumstances, reimbursement for the education travel of student family members is authorized by 5 U.S.C. § 5924(4). The claim for reimbursement must be supported with a travel receipt.

2.11 Continuing Medical Education Program

Title 10, U.S.C. § 1094a prescribes policy for continuing medical education requirements. Individuals enrolled in approved medical correspondence courses may be reimbursed for course costs prior to course completion. Refer to 5 U.S.C. § 4109 and Chapter 4, paragraph 2.4 for additional guidance. The claimant must provide satisfactory proof of course completion, through appropriate Component channels, to the certifying officer in a timely manner to avoid debt collection procedures being initiated for perceived non-completion of the course.

2.12 Official Representation

The use of appropriated funds for official representation purposes is authorized as prescribed in DoDI 7250.13. The Heads of DoD Components may authorize the expenditure of Official Representation Funds by authorized individuals, or their designees, only for official purposes. The claim for reimbursement must be supported by receipts for personal expenditures and approved by the officials designated in accordance with DoDI 7250.13 prior to forwarding to the certifying officer for certification. Also see the DoD Guidebook for Miscellaneous Payments (type payment codes OREV, ORGV, OREE, and ORGE) for additional policy.

2.13 Awards Ceremony Fees

Fees paid by award nominees, award recipients, and their supervisors and managers attending ceremonies may be reimbursed by the Government when those expenditures fall within the scope of the Government Employees Incentive Awards Act (5 U.S.C. §§ 4501-4506 and 10 U.S.C. § 1124). Fees may cover items such as meals, refreshments, plaques, and awards. The DoD will not authorize advance payments. Individuals will request reimbursement on travel vouchers. However, to obtain reimbursement in the event travel orders are not issued, the claimant must submit a claim with applicable receipts, approved by the designated management official, to the certifying officer.

2.14 Defense Attaché Payments

Expenses are authorized and reimbursable for military attaché officers to maintain suitable official residence and may vary by location. The claimant must submit a form DD281, “Voucher for Emergency or Extraordinary Expense Expenditures,” to request and receive reimbursement. The Head of the DoD Component must approve claims submitted for reimbursement prior to submission to the certifying officer. Title 10 U.S.C. § 127 prescribes policy for emergency and extraordinary expenses.
2.15 Payment for Contract Quarters for Foreign Military Sales (FMS) Travelers

Payment for the use of contract quarters is reimbursable for personnel traveling on official orders in connection with FMS. Refer to the Defense Security Cooperation Agency, Security Assistance Management Manual, Chapter 10, Section C10.13; the JTR, Chapter 2, paragraph 020303; and DoD Component regulations for travel reimbursements.

2.16 Reimbursement for Use of Local Special Conveyances

The JTR, Chapter 2, section 0206 prescribes allowable reimbursements for commonly incurred expenses associated with public or special conveyances used for transportation in and around duty stations. The claim for reimbursement must be supported by receipts, and approved by the Component’s designated approving official, prior to submission to the certifying officer.

2.17 Official Recruiting Duty

Military members assigned to a recruiting organization, or assigned recruiting duties as either a primary or an additional duty, are authorized reimbursement for actual and necessary expenses paid from personal funds. The JTR, Chapter 2, paragraph 020605 prescribes policy for reimbursement for actual and necessary costs. The claim for reimbursement must be supported by receipts, and approved by the Component’s designated approving official, prior to submission to the certifying officer.

2.18 Reimbursement for Local Movement of Household Goods

When local moves of household goods of military personnel are authorized in accordance with the JTR, Chapter 5, and the moves are made at personal expense, the claimant must submit a claim for reimbursement to the designated entitlement office. The claimant must provide a copy of the order directing the move, a copy of the authorization to move household goods at personal expense, and a copy of the paid receipt to support the claim. The claimant will be reimbursed for documented receipts and expenses claimed in accordance with the JTR.

2.19 Expenses Incident to Death of Personnel

2.19.1. Overview. Specific Component regulations authorize and prescribe the services and expenses for the care of deceased personnel. Title 10, U.S.C. § 1482 authorizes payment for services, supplies, transportation, and other expenses incurred by the next of kin. The claimant must submit a claim for reimbursement supported by receipts for personal expenditures. The claim must be approved by the Component’s designated approving official prior to submission to the certifying officer. Title 10, U.S.C. § 1482 establishes limitations regarding the amount of reimbursement. The payment of expenses incident to the recovery, care, and disposition of remains of a decedent are covered by 10 U.S.C. § 1481.

2.19.2. Primary Expenses. A contract with a local mortuary can cover primary expenses for active duty military. Payments for primary expenses covered by the Prompt Payment Act (5 CFR 1315) are paid directly to the mortuary by the Government.
2.19.3. Secondary Expenses. Secondary expenses may be assigned to a mortuary or made as a reimbursement to the next of kin for expenses incurred. Secondary expense payments, whether assigned or not, should be expedited.

*2.20 Reimbursement for Civilian Medical and Dental Treatment Paid From Personal Funds

2.20.1. Military Members. The cost of authorized medical and dental treatment from the private sector is ordinarily paid directly to doctors and hospitals by the Defense Health Agency (DHA) TRICARE contractor. If members pay for private sector care, they may submit a claim for reimbursement. The claim must include paid, itemized invoices from the service provider and signatures of the claimant, approving official, and certifying officer. Visit www.tricare.mil to download the proper claim form, which includes full instructions for completion.

2.20.2. Dependents of Military Members and Retired Members. The cost of authorized medical and dental treatment from the private sector is ordinarily paid directly to the doctors and hospitals by the DHA TRICARE contractor. If dependents or retirees who are enrolled in TRICARE pay for authorized private sector care, they may submit a claim for reimbursement. Visit www.tricare.mil to download the proper claim form, which includes full instructions for completion.

2.20.3. Civilian Personnel. **Title 5, CFR, Subpart 339.203** prescribes policy for the authorization of physical examinations to determine an employee's fitness for duty when such requirements are considered essential for performance of the duties, clearly documented in the position description, and directed by the commanding officer or supervisor. Examinations may be procured through an approved agency purchasing method or the employee can make their own arrangements including direct payment for the physical examination. Procured examinations are processed in the same manner as other contractor invoices or the employee may submit a claim for reimbursement. The employee must submit a claim for reimbursement to the appropriate official for approval prior to submission to the certifying officer. The claim must contain a chargeable line of accounting and the amount payable, supported by a paid statement from the physician or other evidence of payment. The activity requiring the physical examination must charge the request for reimbursement to their operating funds.

2.21 Reimbursement Expenses Under Government Employees Training Act

Title 5, U.S.C. § 4109 authorizes reimbursements for necessary expenses such as tuition and matriculation fees, library and laboratory services, and other services or facilities directly related to training. The claim for reimbursement must include receipts for each payment of $25 or more, details of the expenditures such as services received and dates rendered, signatures of the claimant and approving official, and be certified by a properly appointed certifying officer prior to payment.
2.22 Reimbursement of Miscellaneous Expenses to Defense Counterintelligence and Security Agency (DCSA)

DCSA agents are authorized reimbursement for investigative costs, such as parking fees, police and court record checks, transcripts, photographs, or miscellaneous investigative fees. The DCSA Headquarters must provide the servicing entitlement office the accounting classification citation for the reimbursement. The citation of the appropriate legal, statutory, or other authority providing for the authorization of the reimbursement must appear on the claim for reimbursement. The claimant must submit a claim for reimbursement supported by receipts and approval signatures from designated DCSA management officials.

CHAPTER 12

MISCELLANEOUS PAYMENTS

1.0  GENERAL

1.1  Overview

This chapter prescribes policy for certain miscellaneous payments. The Department of Defense (DoD) Guidebook for Miscellaneous Payments (hereafter referred to as the Guidebook) provides additional mandatory requirements prescribed for DoD miscellaneous payments not specifically addressed in this chapter, due to the varied types of miscellaneous payments. The Guidebook also provides a high-level overview of policies and processes, with the goal of consolidating and streamlining miscellaneous payment guidance across the DoD.

1.2  Purpose

A miscellaneous payment occurs as a result of a claim for payment or reimbursement of a valid, non-recurring, non-contractual expense of the DoD, that is not payroll related for a military or civilian member, and when use of the Government Purchase Card is not feasible or appropriate.

1.2.1. The Standard Form (SF) 1034, Public Voucher for Purchases and Services Other Than Personal, or an electronic equivalent, is the most common authorized form used when claiming payment or reimbursement for miscellaneous expenses. Refer to the Guidebook for specific information related to other authorized forms, depending on the type of miscellaneous expense, as well as the documentation requirements to support the request for payment. Chapter 8, and Volume 5, Chapters 5 and 9 prescribe policy addressing payment vouchers.

1.2.2. To establish auditability and to validate entitlement systems and payment records, a copy of all supporting documentation must accompany each payment request. Components must ensure the documentation is of sufficient quality to allow an independent third party, such as an outside auditor, to understand and verify the basis of the entitlement, to include the authority for the reimbursement as a liability of the DoD, as well as its value, timing, and funding source. The supporting documentation must clearly identify the parties approving and certifying the payment.

1.2.3. A designated approving official is the individual appointed by the commanding officer, director or designee, with oversight responsibility to ensure all payments or requests for reimbursement transactions are necessary and for official Government purposes only. Components may also assign fiduciary responsibility to these approving officials in accordance with Volume 5, Chapter 5. Approving officials are responsible for providing information and data to certifying officers or disbursing officials in support of the payment by attesting to the accuracy of information and data provided. Approving officials will review all claims and verify the request for payment, or request for reimbursement of miscellaneous expenses, was received in accordance with Component procedures.
1.2.4. All payment requests require supporting documentation for proof of receipt, approved by a designated approving official and certified by a properly appointed certifying officer prior to the disbursement of the payment. Refer to Volume 5, Chapter 5 for policy regarding the appointment of certifying officers via the DoD (DD) Form 577, Appointment/Termination Record – Authorized Signature, as well as the proper distribution of the form to the appropriate disbursing office. Certifying officers are responsible for making supporting documentation available for review by authorized personnel, as stated in Volume 5, Chapter 5.

1.2.5. Components must ensure all miscellaneous claims are paid from funds current and available to the accountable activity at the time the claim accrues, unless specifically authorized and noted otherwise. All requests for payment or reimbursement of miscellaneous expenses must contain a valid line of accounting with funds obligated as specified in Volume 3, Chapter 8. Processing of the request for payment through a DoD payment system may require the configuration of unique standard document numbers.

1.2.6. All payments require payees subject to the U.S. Internal Revenue Service (IRS) code to provide a Taxpayer Identification Number in accordance with Title 26, United States Code (U.S.C.), section 6109 (also see 31 U.S.C. § 3325(d) and 31 U.S.C. § 7701(c), and Federal Acquisition Regulation (FAR) 4.902). In accordance with DoD Instruction (DoDI) 5400.11, Components must safeguard the privacy of all individuals and the confidentiality of all personally identifiable information (PII), and take action to ensure any PII contained in a system of records used to conduct official business is protected so the security and confidentiality of the information is preserved.

1.2.7. Volume 1, Chapter 9, Figure 9-1 prescribes DoD policy regarding the retention period of financial records in support of these payments. Refer to 44 U.S.C. § 2909 for authorization to retain records for a longer period than specified in disposal schedules.

1.2.8. Miscellaneous payments pertaining to awards and judgments that are wage-related must be submitted and paid through the civilian payroll office to ensure proper withholding of mandatory deductions. Refer to Volume 8, Chapter 4 for mandatory payroll deductions.

1.3 Authoritative Guidance

Policy contained in this chapter pertains to various types of miscellaneous payments, and is based primarily upon Titles 5, 10, 28, 31, 41, and 44 of the U.S.C.; Titles 5, 19, 28, 29, 40, and 44 of the Code of Federal Regulations (CFR); the Treasury Financial Manual (TFM), Volume 1, parts 2 and 6; the FAR parts 5, 33, and 52; and the Defense Federal Acquisition Regulation Supplement (DFARS) subparts 205 and 241. Refer to each individual miscellaneous payment subject for the specific authoritative reference.
2.0 FEES, CLAIMS, AND AWARDS

2.1 Attorney Fees Awarded under Freedom of Information Act (FOIA)

*Title 5 U.S.C. § 552* requires the release of agency records requested under the authority of the statute, unless a specific exemption authorizes its withholding.

2.1.1. Under the provisions of the FOIA, a federal district court judge may award attorney fees and litigation costs to a party that substantially prevails in litigation against the Government (5 U.S.C. § 552a(4)(E)). The Openness Promotes Effectiveness in Our National Government Act of 2007 stipulates that fees assessed in FOIA litigation are not payable from the Judgment Fund, which is administered by the U.S. Department of the Treasury (Treasury), Bureau of the Fiscal Service (Fiscal Service). Such fees are payable from appropriated funds of the agency or agencies from which the plaintiff has obtained relief by judgment of the court, or substantial change in agency position (see the note concerning “Limitation on Amounts Obligated or Expended from Claims and Judgment Fund” of 5 U.S.C. § 552).

2.1.2. It is DoD funding policy that the attorney fees, and other costs assessed in the FOIA litigation, are payable from operating funds of the Military Department, Defense Agency, Field Activity, or Combatant Command responsible for administering the initial FOIA determinations or contested record searches that are the subject of the litigation. The funding organization will not necessarily be the organization named as a defendant in the litigation. Components must make payments from funds current at the time of awarding attorney fees.

2.1.3. Litigation involving record or FOIA determinations of multiple organizations may require funding responsibility allocation among such organizations. Counsel that is responsible for defending the litigation is ordinarily in a position to identify the organization that should fund a portion of the attorney fee assessments, and consultation should occur accordingly.

2.2 Attorney Fees Awarded by Court

The Department of Justice (DOJ), in most cases, is the federal agency designated to represent DoD in litigation. The Judgment Fund was established to pay court judgments and DOJ-compromise settlements of actual or imminent lawsuits against the Government (31 U.S.C. § 1304). Additionally, the DOJ, with the approval of the Fiscal Service, is able to make payments of properly awarded attorney fees. Fees awarded in discrimination cases are exceptions. See section 3.9 for policy on discrimination cases. Awarding of attorney fees must be by a court of competent authority, and these fees are normally payable from the Judgment Fund. If such fees are not payable from this appropriation, the DOJ provides guidance on a case-by-case basis for payment of these fees.

2.3 Attorney Fees Awarded under the Equal Access to Justice Act

2.3.1. The Equal Access to Justice Act (EAJA), as amended by the Equal Access to Justice Reform Act of 2005 (5 U.S.C. § 504), authorizes payment of attorney fees and other expenses incurred by the prevailing party (other than the United States) in civil actions and administrative
proceedings. The party prevailing against the DoD in the adversary adjudication, or a court action, may obtain an award of attorney fees and other expenses incurred in connection with the proceeding.

2.3.1.1. In adversary adjudications, the application for the amount sought must be submitted to the DoD activity involved within 30 days of final disposition in the adversary adjudication (5 U.S.C. § 504).

2.3.1.2. In court actions, the application for an award of attorney fees and other expenses must be submitted to the court within 30 days of final judgment in the action (28 U.S.C. § 2412(d)(1)(B)).

2.3.1.3. In both cases, the application must be supported by an itemized statement from the attorney, agent, or expert witness stating the actual time spent and the rate at which fees and other expenses were computed.

2.3.2. Attorney fees and other expenses awarded to claimants under EAJA are payable from funds available to the DoD activity at the time of the award. Attorney fees payable under EAJA are limited to $125 per hour (5 U.S.C. § 504), unless the adjudicating officer (deciding official), or the court in civil actions, determines a higher rate may be allowed under the law. Other expenses include those for expert witnesses and any study, analysis, engineering report, test, or project necessary for the preparation of the party's case. The amount payable is the amount approved by the adjudicating officer, or by the court in civil actions, based on documentation from the adjudicating officer or the court.

2.4 Attorney Fees Awarded under Contract Disputes

Payments made by the Fiscal Service to the contractor will not include attorney fees payable in connection with an action filed by a contractor under the Contract Disputes Act of 1978 (41 U.S.C. §§ 7101-7109). Attorney fees awarded in these cases are payable from funds current at the time the award is made and available to the activity accountable for the contract obligation (28 U.S.C. § 2412(d)(4)).

2.5 Awards Made to Bid Protesters

The FAR subpart 33.1 prescribes policies and procedures for filing and processing bid protests. Protests can be submitted to the contracting agency, Comptroller General, or the U.S. Court of Federal Claims. The FAR 33.102(b)(1) stipulates the head of the agency may take any action that could have been recommended by the Comptroller General had the protest been filed with the Government Accountability Office, and award certain costs to the bid protester (FAR 33.102(b)(2)), if it is determined a solicitation for a contract, proposed award, or award of a contract did not comply with the requirements of law or regulation. These costs may include costs associated with filing and pursuing the protest, consultant and expert witness fees, bid/proposal preparation, and reasonable attorney fees. The agency must use funds available for the procurement to pay the costs awarded (FAR 33.104(h)(1)). Refer to 31 U.S.C. § 3554(c)(2) for cost and fee reimbursement limitations.
2.5.1. Payment of the costs must occur within 30 days of their determination and acceptance by the contracting office. A copy of the decision, along with a statement of costs incurred, approved by the contracting officer, must be used to support the certification of payment.

2.5.2. A successful bid protester must provide a certification when submitting a claim exceeding $100,000 in accordance with FAR 33.207.

2.6 Claims under the Federal Tort Claims Act and Other Non-Contractual Claims

2.6.1. The Secretary of Defense, or designee, is authorized to pay claims against the United States for monetary damages. The Federal Tort Claims Act (28 CFR part 14) permits private parties to file a claim against the United States. Claims include damages to or loss of property, or personal injury or death, caused by the negligent or wrongful act or omission of an employee of the United States acting within the scope of his office or employment, under circumstances where the United States, if a private person, would be liable to the claimant in accordance with the law of the place where the act or omission occurred. When an award is in excess of $25,000, or in excess of the authority delegated to the agency by the Attorney General pursuant to 28 U.S.C. § 2672, whichever is greater, an SF 1145, Voucher for Payment Under Federal Tort Claims Act, must be accompanied by evidence that the award, compromise, or settlement has been approved by the Attorney General or his designee (28 CFR, section 14.10).

2.6.2. A list of persons designated to approve or disapprove claims cited under this regulation, or other applicable statutes, can be obtained from the local office of counsel or judge advocate office. For claims approved by the Secretary of a Military Department, or by designated approving authorities in the office of counsel or judge advocate general, the public voucher must be sent to the appropriate office for payment. Claims approved by other designees should be forwarded to the local entitlement office that supports the approving authority for payment of the public voucher.

2.6.3. Awards are payable from the DoD’s appropriations. Refer to 28 CFR, section 14.10 for the required claim documentation, threshold amounts, and execution requirements of the claimant. In accordance with 28 CFR, section 14.10, when an attorney represents a claimant, the voucher for payment must designate both the claimant and his attorney as payees, and the check will be delivered to the attorney, whose address must appear on the voucher.

2.7 Claims under the Foreign Claims Act

2.7.1. The Foreign Claims Act (10 U.S.C. § 2734) authorizes the Secretaries of the Military Departments, or their designee, to appoint claims commissions to approve or disapprove claims cited under the Act. The composition of a claims commission may include one or more officers, employees, or combination of officers or employees of the armed forces. The commission may settle and pay an amount not more than $100,000 for a claim against the United States. Title 10, U.S.C. § 2734 covers claims for damage to or loss of real property, damage to or loss of personal property, and personal injury to or death of any inhabitant of a foreign country.
2.7.2. These commissions may also approve or disapprove claims under international agreements in accordance with 10 U.S.C. § 2734b. Commanders, directors, or other designated officials of the DoD should contact the local office of counsel or their Judge Advocate General office for the regulations governing the preparation, submission, adjudication, and payment of these claims. Claims approved must be forwarded to the Component’s nearest designated payment office or the nearest Defense Finance and Accounting Service (DFAS) payment office. Use the DoD Activity Address Code (DoDAAC) Customer Service tab on the DFAS.mil website to access the DFAS payment office and DoDAAC customer service information.

2.7.3. Military Service personnel should consult with their respective Judge Advocate General office to identify the requirements for the investigation and adjudication of foreign claims to ensure approved local procedures are followed for processing these claims.

2.8 Counsel Fees and Other Expenses in Foreign Courts

2.8.1. Payment of counsel fees and other service-related expenses in foreign courts may require an advance payment (32 CFR 845).

2.8.2. Requests for payment of counsel, bail, or other expenses are ordinarily made by the defendant or the accused through appropriate channels, to the officer (or designee) exercising general court-martial jurisdiction. The officer (or designee) must determine if the request meets the proper criteria and take final approval or disapproval action.

2.8.3. When appropriate, contracts or letters of commission and understanding are instruments that obligate the U.S. Government for payment of counsel fees, court costs, bail, and other expenses for obtaining copies of records, printing and filing fees, interpreter fees, witness fees, and other necessary and reasonable expenses. The payment of fines or civil damages is not an authorized expenditure (32 CFR 845.5). Payment for bail is authorized when stated in an authorizing letter or message issued by the responsible officer and citing 10 U.S.C. § 1037 as the authority. Members must sign an agreement to refund the U.S. Government the amount of the bail prior to posting of bail (32 CFR 845.10). In the event the defendant forfeits bail, the individual will be held liable to reimburse the DoD either in cash or by payroll deduction via a DD Form 139, Pay Adjustment Authorization.

2.8.4. When the responsible officer certifies an acceptance for legal services and related expenses necessary for the representation of the defendant (32 CFR 845.8), an SF 1034, or electronic equivalent, must be prepared for the advance payment of authorized charges. Payment will be in local currency of the foreign government.

2.9 Payment to Contractor When Contracting Officer Approves Claim under the Contract Disputes Act of 1978

2.9.1. If funds for the claim are available, and the contractor does not appeal the contracting officer’s decision, settlement of the claim is to be made by the responsible entitlement office from funds cited on the contract (41 U.S.C. § 7108 and 31 U.S.C. § 1304).
2.9.1.1. After final agreement with the contractor, the contracting officer must modify the contract, accomplished with an SF 30, Amendment of Solicitation/Modification of Contract, to obligate the funds and document support for the payment. The execution of the contract modification must take place prior to entitlement of the contractor’s invoice.

2.9.1.2. Upon receipt of the contractor’s invoice and the SF 30, payment can be made, including interest from the date the claim was received by the contracting officer to the date of payment. Claims involving disputes, and any interest due, are payable upon resolution in accordance with FAR 33.208 and the FAR Disputes clause 52.233-1.

2.9.2. If funds to pay the claim are not available, the contracting officer may refer the claim to the Armed Services Board of Contract Appeals (ASBCA) and request the ASBCA approve a settlement of the claim from the Judgment Fund. Reimbursement to the Judgment Fund will subsequently be required upon receipt of a bill from the Fiscal Service. This reimbursement may come from current and available funds or by obtaining additional funds (41 U.S.C. § 7108) as stated in section 2.11. The policy for payment of amounts under the Contract Disputes Act by the ASBCA or the Court of Federal Claims is in section 2.10.

2.10 Payment to Contractors Based on Decisions of ASBCA or Court of Federal Claims

2.10.1. Court action may result as identified in 28 U.S.C. § 2412 and 28 U.S.C. § 2414 when the DoD terminates a contract. While settlement of the contractor’s termination claim falls within section 2.9, a separate payment may be due the contractor when a final judgment occurs from a separate court action against the DoD. When settlements have been rendered, the transcript of the court judgment against the DoD must be forwarded by the DoD organization directly to the Fiscal Service. The DoD organization must use the methods prescribed by TFM Volume 1, part 6, chapter 3100, section 3130 (except for claims settled under the Contract Disputes Act of 1978, as noted in paragraph 2.9.2.

2.10.2. The Fiscal Service administers and certifies payments from the Judgment Fund for the settlement and final judgment by the U.S. District Courts and on final judgments by the Court of Federal Claims (TFM, Volume 1, part 6, chapter 3100, 28 U.S.C. § 2517, and 31 U.S.C. § 1304). Reimbursement of the Judgment Fund is payable from funds current at the time the award is made and available to the activity accountable for the contract obligation (see 31 U.S.C. § 1553 (b)(2)).

2.10.3. Title 41, U.S.C. § 7108 covers payment of claims filed under the Contract Disputes Act of 1978 (41 U.S.C. § 7101-7109, FAR subpart 33.2, and FAR clause 52.233-1). Judgments against the United States by the Court of Federal Claims, and monetary awards to a contractor from the ASBCA, are authorized to be paid and charged to the Judgment Fund when certain conditions are met, as established by 31 U.S.C. § 1304. Amounts owed may include interest from the date the claim was received by the contracting officer to the date of payment. Reimbursement of the Judgment Fund is payable from funds current at the time the award is made and available to the activity accountable for the contract obligation.
2.10.4. Payment of attorney fees claimed by the contractor may not be included in amounts paid from the Judgment Fund. Attorney fees awarded in these cases will be payable out of funds current at the time the award is made and available to the activity accountable for the contract obligation (28 U.S.C. § 2412(d)(4)).

2.11 Payments to Reimburse the Fiscal Service for Payments in Settlement of Contractor Claims

Upon certification by the Fiscal Service (TFM, Volume 1, part 6, chapter 3100), the amounts of contractor claims settled under the Contract Disputes Act of 1978 may be paid to the contractor by the Fiscal Service from the Judgment Fund. Amounts paid to contractors are reimbursable to the Fiscal Service from the appropriation available for the purpose of the contract or by obtaining additional funds for such purpose. If funds are not available in the proper account to cover invoices received from the Fiscal Service, the Component must request additional funds through appropriate channels. Amounts reimbursed to the Fiscal Service are not charged to the original fiscal year appropriation that funded the contract, unless the original appropriation was still current at the time of the judgment (Volume 3, Chapter 8).

2.12 Interest Awarded Contractor by the Armed Services Board of Contract Appeals

2.12.1. Interest rates are established and reported by the Secretary of the Treasury (31 U.S.C. § 3902) in January and July of each year on the Treasury website.

2.12.2. In accordance with FAR 33.208, the Government will pay interest on the amount due from the date the contracting officer receives the claim, or the date the payment is due, if that date is later.

2.12.3. If claims involve antecedent liability, interest payments are chargeable to the appropriation(s) current at the time the basic contract was executed (Volume 3, Chapter 8), or by obtaining additional appropriations for purposes of reimbursement (41 U.S.C. § 7108).

2.12.4. Claims covered by this section exclude interest penalty claims related to the Prompt Payment Act (PPA) cited in 5 CFR, part 1315. Pursuant to 31 U.S.C. § 3902, PPA interest must be paid from the funds available for the administration of the program for which interest was incurred, or from funds financing the operation of the Military Department or the defense agency with which the invoice or contract payment is associated. All interest payments will be charged to the fiscal year(s) in which they accrue. In a case of cancelled appropriations, the current fiscal year will be charged any interest payment (31 U.S.C. § 1553(b)(1)).

2.13 Return of Absentees

The DoDI 1325.02 provides policy to authorize payment of claims for rewards or expenses (but not both) associated with apprehending, detaining, or delivering absentees, deserters, or escaped military prisoners to military control.
2.13.1. **Rewards.** Receipt of any authorized communication, oral or written, from a military or federal law enforcement officer or agency requesting active cooperation in the apprehension or delivery to military control of an absentee or deserter wanted by the Military Services, will constitute the basis for a reward. Payment of a reward will not exceed the amount cited in [10 U.S.C. § 956](#) for apprehending absentees, deserters, or parole and mandatory supervised release violators.

2.13.2. **Expense Reimbursements.** The DoDI 1325.02 authorizes reimbursements for reasonable and actual expenses incurred in the apprehension, detention, or delivery to military control of an absentee, deserter, or parole and mandatory supervised release violators. The cost of detention expenses, furnished to military personnel placed in their custody for safekeeping at the request of military authorities, may be reimbursable to civil authorities. These expenses may be reflected in a per day or daily room and board charge the detention facility normally charges other legal jurisdictions for similar prisoner custody services.

2.13.3. **Charging of Expenses.** Authorized payments and cost of travel of the guards assigned to absentees or deserters are charged to the parent Military Service’s military personnel appropriation (DoDI 1325.02).

2.13.4. **Condition for Payment.** Before a reward is payable, there must be a notification issued for the return to military control of the absentee, deserter, or escaped military prisoner. Receipt of [DD Form 553](#), Deserter/Absentee Wanted by the Armed Forces, oral or written communication from military or federal law enforcement officials, or entering the individual's name in the [National Crime Information Center](#), constitutes notification.

2.13.5. **Voucher Preparation and Support.** After the apprehended member’s release from civilian detention to military control, an SF 1034, or an electronic equivalent, must be prepared and certified by the personnel officer or other certifying officer designated by the commanding officer of the activity. In addition to the other routinely required data items on an SF 1034, the following information must also be shown on the voucher or attached:

2.13.5.1. The member’s name, Social Security Number, organization from which the member is absent, and the date and place military authorities resumed control;

2.13.5.2. A statement stipulating the payee apprehended and detained, or apprehended and delivered the member;

2.13.5.3. The military appropriation of the parent military service of the person apprehended;

2.13.5.4. A copy of a DD Form 553, a certificate from the organization of the absentee, or written notification from military or federal law enforcement officials stating the absentee’s return to military control was desirable; and

2.13.5.5. An itemized statement of allowable expenses if reimbursement of actual expenses is being claimed.
2.13.6. Payment. Upon receipt of the SF 1034 or electronic equivalent, the entitlement office will review the voucher for its propriety and, if proper, approve the voucher for disbursement by the designated disbursing official.

2.14  Cash Awards to Military Members

2.14.1. Military personnel may receive cash awards for suggestions, inventions, and scientific achievements as authorized by Military Service regulations.

2.14.2. Upon approval of the award, the Executive Secretary of the Suggestion Awards Committee, or designee, must prepare, sign, and submit a claim on an SF 1034, an electronic equivalent, or other Component-established form (plus a copy of the Suggestion Award Certificate) to the entitlement office.

2.14.3. The award payment will be payable against current funds available to the activity primarily benefiting, or the several funds or appropriations of the various activities benefiting (10 U.S.C § 1124(e)). Refer to paragraph 1.2.8 for requirements pertaining to submission, payment, and mandatory payroll deductions. The claim for payment requires submission on an SF 1034, or electronic equivalent, and must provide the Home of Record of the military member for state tax reporting. The only exception to the requirement for withholding taxes on cash awards is when payment is made to an enlisted member serving in a combat zone. See Combat Zone Tax Exclusions discussed in Publication #3 (2020), Armed Forces Tax Guide.

2.15  Rewards for Recovery of Lost DoD Property

Under 10 U.S.C. § 2252, certain rewards are authorized and paid as follows:

2.15.1. Commanders may offer rewards for recovery of lost property; and

2.15.2. The reward payment may be made to persons or organizations for the return of lost property, or information leading to its recovery.

2.15.2.1. Conditions for payment of reward include:

2.15.2.1.1. The persons or organizations must know a reward is being offered, or it is a general practice to offer rewards for the return of particular DoD property, or information leading to its recovery;

2.15.2.1.2. The claimant is not a member of the U.S. Armed Forces or an officer, employee, or agency of the U.S. Government; and

2.15.2.1.3. The payment is consistent with local laws, prevailing customs or practices, treaties, or international agreements.

2.15.2.2. A Military Department will not pay a reward of more than $500 in any case. Rewards are payable from the current funds available for the Component concerned. The
voucher submitted for payment must be supported with a copy of the offer of reward, and a
statement by the commanding officer or designated representative that all conditions for payment
of reward and accountability for the property have been met.

3.0 PURCHASES OF SPECIAL ITEMS AND SERVICES

This section provides policy for various special items and services for non-recurring and
non-contractual purchases.

3.1 Advertising

3.1.1 Newspapers. In accordance with 44 U.S.C. § 3702 and FAR 5.502, contracting officers
must obtain written authorization from the DoD Component head, or from a person who has received
written delegation of authority from the head of a DoD Component, prior to advertising in newspapers,
trade journals, and similar publications (5 U.S.C. § 302(b)). Such delegation of authority cannot be
re-delegated. Newspaper advertisements are not payable unless the claim includes the advertising
bill and a copy of the written authority. Requirements for payment and retention of documents are
as follows:

3.1.1.1 Providing Substantiating Documentation. All invoices submitted to the
purchasing office must be supported by an affidavit of publication or a copy of the publication or
advertisement (known as a "tear sheet"). The officer placing the advertisement will attach
evidence of authority to advertise to the invoice and forward the invoice to the designated
entitlement office.

3.1.1.1.1 Except in cases of blanket authority to advertise, heads of
contracting activities are delegated authority to approve the publication of paid advertisements in
newspapers as prescribed by DFARS subpart 205.5.

3.1.1.1.2 If advertising was authorized by a delegated officer, a copy
of the delegation must be attached to the first voucher paid under such delegation and can be
referenced on subsequent vouchers.

3.1.1.1.3 When the authority to advertise is given to several activities in
the form of a notice or instruction issued by the head of a DoD Component based on the official's
delegated authority, a reference to the authorizing notice or instruction on the advertisement order
is acceptable in lieu of a copy of the authority.

3.1.1.2 Retention of Supporting Documents. Every account for official
advertising rendered must include a copy of a tear sheet in which the advertisement appeared as a
proof of publication. If tear sheets are not available, an affidavit or a copy of the advertised
publication may be furnished in lieu thereof. The affidavit must include the signature of an official
of the publishing firm or advertising agency where the order was placed and, in the case of
advertising in newspapers or periodicals, must identify the issues in which the advertisement
appears. Tear sheets or affidavits submitted as proof of publications must be attached to the
voucher. Volume 1, Chapter 9, Figure 9-1 prescribes policy for the retention period of vouchers and documentation.

3.1.2. Radio Advertising. The requirement of written authority for advertising from the head of a DoD Component, or from a person who has received written delegation of authority, does not apply to radio advertising (FAR 5.502(b)) unless required per Component policy. The other restrictive provisions contained in 44 U.S.C. § 3702 pertaining to advertising do not relate to radio advertising. There are no statutory restrictions upon the use of appropriated funds for radio advertising in the promotion of objectives. Payment for claims must be submitted on an SF 1034, or other approved Component form, accompanied by a copy of the invoice and an affidavit of publication furnished by the advertising agency (FAR 5.503(d)).

3.2 Arbitrator Fees

The use of arbitrator services under negotiated grievance procedures of management and labor union agreements is authorized. These services normally are acquired by issuance of a DD Form 1155, Order for Supplies or Services, which specifies payment terms and conditions, and requires coordination between the civilian personnel office and the contracting support office. Reservation and obligation of funds is a requirement prior to executing the ordering/contracting action. Upon completion of the services, the civilian personnel office, or a designated official, must certify receipt of services. This certification will represent the receiving report required for payment. Payment will then be made using this certification, the arbitrators’ billing statement, and the terms specified in the completed DD Form 1155. These payments are governed by the terms cited in the PPA (5 CFR, part 1315), unless the DD Form 1155 contains a specific payment due date.

3.3 Automobiles

The use of appropriated funds to buy or lease passenger motor vehicles must be specifically authorized by an annual appropriation act or other law (see 31 U.S.C. § 1343). The purchase cost limitation identified in 31 U.S.C. §1343 does not include articles used with a car but not permanently attached to it, or not an integral part thereof (e.g., tire chains, fire extinguishers, safety flares, removable seat covers, transportation of the vehicle, and taxes). The acquisition of motor vehicles should be from the most cost-effective source, which may be by purchase or commercial lease through the General Services Administration (GSA), or by any other method less costly to the Government as validated by a cost-comparison (DoD Manual 4500.36).

3.4 Blood Purchases

Appropriated funds may be used for the purchase of blood supplies from donors (24 U.S.C. § 30) or through civilian contracts (DoDI 6480.04) in accordance with the policies of the respective Military Services for persons entitled to medical treatment at Government expense.
3.5 Civilian Uniform Allowances

The Component’s designated personnel must prepare and certify payment of civilian uniform allowances on an SF 1034 or electronic equivalent. The DoDI 1400.25, Volume 591, prescribes the amount payable for uniform allowances per year and other related uniform allowance policies. The voucher for payment may include more than one employee. The payment must be charged to the same appropriation and subsidiary accounting data normally charged for the salary of the personnel concerned. See the Guidebook for additional information and policy.

3.6 Confinement of Prisoners in Civil Detention

3.6.1. Prisoners may be confined in civilian facilities used by the U.S. Marshals Service when DoD confinement facilities are not available, or do not provide for the separation of male and female prisoners in accordance with DoDI 1325.07. The transferring commanders must determine if a military confinement facility, including military/security police detention cells, is not reasonably available. If a facility used or approved by the U.S. Marshals Service is not reasonably available, a military prisoner may be transferred to a facility accredited by the American Correctional Association, or a facility accredited by the State for confinement.

3.6.2. The Provost Marshal’s Office, which transfers prisoners, must provide the entitlement office with a certified voucher and supporting documents containing an itemized list of expenses of the confinement (10 U.S.C. § 956). After entitlement, the disbursing office will remit payment to the civil confinement facility. Supplies necessary for personal hygiene and maintenance of good health will be provided to all military prisoners. The Military Services may also provide supplies for a prisoner’s comfort, establish monetary or quantity limitations on any supplies, and establish other limitations as deemed appropriate by Service corrections headquarters. Supplies issued to persons in a non-pay status will be paid from appropriated funds. The cost of health and comfort supplies provided to persons in a pay status will be charged against their pay accounts or paid from their personal funds.

3.7 Copies of Official Records or Documents

Fees required by local laws for certified copies or photocopies of public records, or documents required by a court or board, may be paid to the performing officials or legal entities. Current operation and maintenance funds may be used to purchase death certificates for deceased retired personnel. The claimant must sign a statement attesting all resources have been exhausted attempting to find beneficiaries, and none were found.

3.8 Demurrage on Cylinders

3.8.1. Vouchers covering demurrage charges on reusable gas cylinders or drums retained beyond the contracted free loan period must state size, type and quantity. Often, demurrage charges are not funded through the contract due to variables such as a free loan period, the daily rental charge, and delivery shipping point. In computing the period involved, establish the free loan period to commence on the first day after date of delivery of each container without regard to any
particular cylinder. In such cases, the contractor’s claim must explain the method of calculating demurrage.

3.8.2. The contractor’s claim must cover the preceding demurrage payment and other identifying data such as the cylinder number(s), date of delivery of cylinder(s), date rental starts, date of return of cylinder(s), and the actual number of days and rate per day on which the charges were computed. The Component causing the delay must attach an SF 1034 or an electronic equivalent to support the contractor’s claim by identifying the voucher upon which payment was originally made for the filled containers, and citing an appropriate line of accounting. Coordination with the contracting officer or ordering official may be necessary to ensure demurrage costs are not already covered as part of the price(s) negotiated for the cylinder(s) and/or their contents.

3.9 Discrimination Complaints

3.9.1. Overview. Costs incurred in processing discrimination complaints may include travel expenses, attorney fees, investigation expenses, costs of administrative judges, and court reporters (5 CFR, part 1201 and 29 CFR, part 1614).

3.9.2. Attorney Fees. In cases involving complaints of discrimination, attorney fees may be awarded pursuant to a no-fault settlement agreement, an informal adjustment, the decision of the Service director of Equal Employment Office (EEO), the Equal Employment Opportunity Commission (EEOC), the Merit Systems Protection Board, an arbitrator, a Federal court, or other appropriate authority. After review and approval of the award letter by the legal counsel, the EEO manager of the legal office must initiate or authorize the claim for reimbursement. The Component’s request for reimbursement of these fees must be as a joint payment to the complainant and complainant's representative supported by an award letter and approval. The claim must cite current operating funds. Policy pertaining to allowable and reasonable attorney fees is in 29 CFR, part 1614.

3.9.3. Investigation Expenses. Most complaint investigations are conducted by an investigator assigned to the appellate review agency. The EEO manager is responsible for arranging for the investigator's visit and submitting a claim for expenses. The chief EEO counselor will initiate a purchase request for expenditures of miscellaneous purchases. An SF 1034, electronic alternative, or a DD Form 1155 supported by the investigator’s expense receipts, approved by the chief EEO manager, and certified by an authorized certifying officer, will be used to make payment. The claim must cite operating funds current at the time of investigative services.

3.9.4. EEO Administrative Judge. The EEO assigns an EEO Administrative Judge to hold hearings on formal complaints of discrimination and otherwise process individual and class complaints for the EEOC. Expenses associated with these complaints where the alleged discrimination took place must be funded using operating funds current at the time of requesting the services. The EEOC will bill the activity for any authorized and required expenses (29 CFR, part 1614). The chief EEO manager at the activity, or assigned designee, must review and approve the EEOC billing.
3.9.5. **Court Reporter.** The chief office of counsel typically arranges for the services of a court reporter by submitting a request to the DoD Component contracting office. Costs for court reporter services must be paid by the activity where the alleged discrimination took place, using funds current at the time services are requested. The chief EEO manager at the activity, or assigned designee, must review and approve the requests for payment.

3.9.6. **Interest.** Interest payments related to discrimination cases (when permitted by statute) are to be charged to funds current at the time of the award. The Treasury establishes the rate to be used. This interest rate is not the same as when computing interest under PPA.

### 3.10 Emergency Notification Service (9-1-1)

3.10.1. Emergency notification is a service allowing a telephone subscriber to dial one number, often 9-1-1, for any emergency. A central control desk takes the call and notifies the appropriate local government agencies. This service often is provided by a state or local government and is funded by charges collected from telephone subscribers. In many cases, this charge is a tax levied by the providing agency, and the telephone company merely acts as a billing and collection agent.

3.10.2. If 9-1-1 fees are imposed by the telephone company for its own service, and duly permitted by the tariff to which all utility customers are subject, the charge is proper and payable by the DoD. The DoD does not have immunity from such fees. If, however, a state or local government is imposing the charge and merely using the telephone company as its agent, then the charge amounts to a tax from which the DoD is exempt.

3.10.3. If a military installation receives an invoice for a 9-1-1 charge imposed by a state or local government, the tax is not payable. If fees were improperly paid, refer to the collection policy in Volume 16, Chapter 5 to recover them.

3.10.4. If it is unclear whether such charges are taxes or service charges, the designated entitlement office, or responsible certifying officer, must contact the base communications officer or higher authority. This clarification must be included as part of the entitlement and certification documentation used to support the payment request.

3.10.5. Telephone service provided to on-base residents is a private contract between the resident and the local telephone company. If residents receive charges for 9-1-1 services, they may not claim exemption based on immunity. If a resident of the base housing lives in an area where all fire, police, and other emergency services are provided by the base, the charge may be for services the resident does not receive, and a challenge may be possible. Regardless of the basis a resident of base housing uses to challenge a 9-1-1 charge, it remains a private matter between the subscriber and the telephone company and is not a DoD reimbursable expense.

### 3.11 Hospital Accreditation

Hospital accreditation fees associated with the requirements contained in the [DoD Manual 6025.13, Enclosure 3](https://www.acq.osd.mil/fgov/forms/DoD-Manual-6025.13-Enclosure-3.pdf) for medical facilities accredited by the Joint Commission
on Healthcare Organization may be reimbursable. A deposit may be required to be paid for an initial customer and, therefore, may be reimbursable. Accreditation and certification on-site fees are invoiced 1 to 5 days following the survey event completion and would be reimbursable for those requiring accreditation. Accreditation annual fees may also be payable and are subject to the programs, services, volumes, and sites where service is provided.

3.12 Lost or Damaged Clothing Payments to Military Personnel

If the loss was not caused by any fault or negligence of the Service member, reimbursement is authorized to compensate military personnel for clothing items destroyed, damaged, lost, abandoned, captured, or otherwise rendered unusable, incident to military training or service (DoDI 1338.18). Personnel must submit an approved Service-specific Personal Clothing Claim form, or electronic equivalent. The Service member’s activity billing office must prepare an SF 1034 or electronic equivalent for payment to the member.

3.13 Medical Services Provided by Civilian Non-Federal Sources

3.13.1 Members. The military medical treatment facility (MTF) can refer members to civilian health care providers for diagnostic services, treatment, or both. Upon receipt of an itemized invoice from the civilian health care provider, the claimant must submit a request for reimbursement to their designated Component. The Component must prepare an SF 1034, or electronic equivalent, within 30 days from the later of receipt of an invoice or the date of acceptance of the care. The same standards apply to an approved claim for services rendered in connection with care of a deceased member.

3.13.2 Dependents and Retired Personnel. Dependents and retired personnel are authorized certain medical care and diagnostic services as established by 10 U.S.C. §§ 1071-1085. When a MTF is managing the care of dependent and retired personnel, and must refer those personnel to civilian facilities for the care beyond the MTF's capability, payment for related supplemental care is authorized. The claimant must submit an itemized invoice from the health care provider to their designated billing Component. The Component must prepare an SF 1034, or electronic equivalent, within 30 days from the later of receipt of an invoice or the date of acceptance of the care.

3.14 Security and Firefighting Services

The DoD may not make payments for any service required to be provided by the local government when such service is financed from revenues raised by state or local taxation from which the Federal Government is exempt. Common examples are police and fire protection (10 U.S.C. § 2465(a)). Refer to 10 U.S.C. § 2465(b) for exceptions of authorized payments.

3.15 Municipal Services

In accordance with DFARS subpart 241.1 and DFARS subpart 241.2, the DoD may pay on the same basis as private users of services, based on the quantity of direct services received,
e.g., water and sewage. The general rule is the DoD will not pay for municipal services, unless private citizens and businesses also pay a charge for the same services.

3.16 Patents, Copyrights, and Designs

Appropriated funds available for making or procuring supplies may be used to acquire the following, if the acquisition relates to supplies or processes produced, or used by or for, or useful to the DoD (10 U.S.C. § 3793):

3.16.1. Copyrights, patents, and applications for patents;
3.16.2. Licenses under copyrights, patents, and applications for patents;
3.16.3. Design and process data, technical data, and computer software; and
3.16.4. Releases for past infringement of patents or copyrights or for unauthorized use of technical data or computer software (10 U.S.C. § 3793).

3.17 Pollution Control Permits or Fees

In the absence of express Presidential exemption, DoD facilities must abide by state or local laws for abatement and control of pollution. These facilities may incur costs related to compliance with these laws for obtaining permits and paying the associated fees for the management of natural resources. Submit an SF 1034, or electronic equivalent, to pay these expenses. The request for payment must include supporting documentation identifying the permit application fee and other related fees, approved by the base civil engineer or assigned designee.

3.18 Reciprocal Mutual Aid Agreements for Fire Protection

3.18.1. Claims for reciprocal mutual aid agreements for fire protection, as required by 44 CFR, part 151, are submitted to the Administrator, U.S. Fire Administration, Federal Emergency Management Agency (FEMA), Washington DC 20472, by non-DoD firefighting organizations. If approved, such claims are paid by the Treasury, subject to reimbursement by the DoD installation under whose jurisdiction the fire occurred.

3.18.2. If the claims affect current funding for fire protection, then FEMA will contact the installation as a part of its claim processing and adjudication procedures. The DoD installation must provide information requested, in coordination with the civil engineer, fire protection unit, and staff judge advocate. The DoD installation must provide the complete name and address of the disbursing office, including the Disbursing Station Symbol Number, and an appropriation fund cite for fire protection funding so the Treasury can bill for reimbursement for approved claims paid.

3.18.3. All sums received as reimbursements for costs incurred by any DoD activity for fire protection will be credited to the same appropriation or fund from which the expenses for fire
protection were paid. If the period of availability for obligation of that appropriation has expired, credit the fund or appropriation currently available for the same purpose (42 U.S.C. § 1856d(b)).

3.19 Representation and Contingencies Fund Use

3.19.1. **Overview.** The policy in this paragraph applies to disbursements made against funds separately appropriated in the contingencies program. These include representation, special expenses, and contingencies. For each fiscal year, the Congress appropriates funds in the contingencies program under the statutory authority in 10 U.S.C. § 127 for use by the head of each DoD Component. Funding documents provide authority to obligate and expend contingency funds as approved, or as adjusted later during the fiscal year.

3.19.2. **Representation Funds.** The head of a DoD Component must authorize the expenditure of Official Representation Funds by commanders for official entertainment or other official purposes in accordance with 10 U.S.C. § 127 and DoDI 7250.13.

3.19.3. **Emergency and Extraordinary Expenses (10 U.S.C. § 127).** The language in the Appropriation Act for contingencies usually reads: “For emergencies and extraordinary expenses, to be expended on the approval of the Secretary of the cognizant Military Service, and payments may be made on their certificate of necessity for confidential military purposes.” The following policies apply, depending on the type of payment involved.

3.19.3.1. **Miscellaneous Current Expenses.** Claims for these expenses must be submitted using an SF 1034 or electronic equivalent with attached receipts or other supporting documentation, depending on security protocols.

3.19.3.2. **Intelligence Contingency Funds.** Expenses incurred using these funds are for confidential military purposes and are normally made based on a DD Form 281, Voucher for Emergency or Extraordinary Expense Expenditures (file has limited permissions). The original vouchers (i.e., DD Form 281), must be returned to the originator. Refer to Volume 5, Chapter 9 for additional information on vouchers related to contingency funds.

3.19.3.3. **Investigation Expenses.** Requests for reimbursement of expenses for other than confidential military purposes must be submitted on an SF 1034 or electronic equivalent. The originating office will retain a copy of the voucher and ensure the supporting documents are submitted to the entitlement office. Request for classified investigation expenses for confidential military purposes must be submitted on a DD Form 281. Refer to Volume 5, Chapter 9 for additional information on the handling of classified vouchers and documentation.

3.20 Special Drinking Water

In situations where water supply systems providing service to DoD organizations do not meet the standards prescribed in 40 CFR, part 141, subpart C, special drinking water may be purchased with appropriated funds only when it is necessary from the Government's standpoint. The claim for reimbursement requires a statement attesting the drinking water is non-potable, along with a public announcement or a copy of the water testing results. Some examples are:
3.20.1. The public water is unsafe for human consumption;

3.20.2. There is an emergency failure of the water source on the installation;

3.20.3. There is a temporary facility with no drinking water available within a reasonable distance; or

3.20.4. There is no water fit for drinking purposes available without cost or at a lower cost to the Government.

3.21 Support of Armed Forces Personnel in Confinement

3.21.1. Purchase of health and comfort items for personnel confined on-base is authorized to all military prisoners, subject to the provisions of DoDI 1325.07. Reimbursement for the purchase of these items must be claimed using an SF 1034 or electronic equivalent. Supplies issued to persons in a non-pay status will be paid from appropriated funds. The cost of health and comfort supplies provided to persons in a pay status will be charged against their pay accounts or paid from their personal funds.

3.21.2. A prisoner confined without essential clothing will be provided suitable clothing, on a temporary loan basis, by the Military Confinement Facility commander. Permanent issue items, except for distinctive prisoner clothing, will be subject to personal funds withdrawal if the prisoner is in a pay status. All necessary items of clothing for a prisoner confined in a non-pay status will be provided at Government expense.

3.22 Telephone and Television Service

3.22.1.1. Appropriated funds should normally not be used to pay for telephone service to private residences, except in those instances identified in 31 U.S.C. § 1348 and DoDI 1100.21. Long distance calls from private residences for official business may be paid from appropriated funds when supported by properly certified vouchers.

3.22.1.2. Charges for official telephone service, and charges for metered services, for a period beginning in one fiscal year and ending in another fiscal year may be paid from the appropriation current at the end of the period covered by the service (31 U.S.C. § 1308). This rule also applies to leased wire and teletypewriter services.

3.22.1.3. Telephone services provided for Service clubs, motion picture service, military Exchange store activities, and officers' and non-commissioned officers' messes within the United States are subject to federal communications taxes (26 U.S.C. § 4251 and 26 U.S.C. § 4252).

3.22.2. Increased Rates. The contract for telephone service may provide for payment of telephone charges at legally established rates. Under such contracts, rate increases approved by
rate-setting authorities may be paid. Increased rates billed in advance of pending approval by rate-setting authorities may be payable, but will be subject to adjustment if the increase does not receive approval.

3.22.3. Payment Policy.

3.22.3.1. The office designated to receive the telephone bills from the telephone company must coordinate the preparation and certification of the SF 1034, or an electronic equivalent, for payment. Local Component procedures must be in place to confirm the number and active statuses of the phone lines/numbers billed, and ensure the related costs reflect charges for official or other authorized use.

3.22.3.2. The SF 1034 must be forwarded to the designated payment office, together with the telephone company’s summary billing statement, which includes totals for the monthly plan and long distance charges. The detailed listings, and schedules supporting the telephone company's bill, must be retained by the responsible office and not be attached to the payment voucher, unless required by local procedures. Components must follow established local ethical conduct and related personnel policies and procedures in addressing the reimbursement of costs associated with unauthorized use. Any funds collected must be handled in accordance with the Component’s appropriation and fund deposit rules and regulations.

3.22.4. Teletypewriter Service. If telephone companies provide teletypewriter services, the charges, based on time used, will be processed in the same manner as the telephone charges identified in this section.

3.22.5. Satellite Communications Service. Government communication systems and equipment are only for official use and authorized purposes. The use of Navy communication systems and equipment for other than official use is at the commanding officers’ discretion, as long as the Navy does not incur additional cost or the use does not degrade mission readiness (Operations Navy Instruction (OPNAVINST) 2060.8B). The communications officer must collect for unauthorized or unofficial charges on a DD Form 1131, Cash Collection Voucher, from personnel using the ships’ communication service in an unauthorized manner. The communications officer must immediately turn over the amounts collected to the disbursing office. When the telephone company bills the ship for the service, payment must be made to the telephone company by the designated payment office using an SF 1034 to substantiate the payment.

3.22.6. Reimbursement for Telephone Wiring Maintenance. Charges paid by the tenant for telephone wiring maintenance necessary in base housing may be reimbursable in accordance with 31 U.S.C. § 1348. Charges for internal wiring repair in family housing will be reimbursable from maintenance funds and charges for unaccompanied personnel housing from current base funds.

3.22.7. Telephone and Television Reconnection Charges

3.22.7.1. Payment using appropriated funds is authorized for reconnection expenses where a move is the result of Government action over which the member has no control,
and the move is directed at Government expense. Exclude expenses incurred during permanent change of station (PCS) that may be reimbursable under the PCS orders or other related regulations.

3.22.7.1.1. Payment is authorized for the following moves as directed by the base commander:

3.22.7.1.1.1. Mandatory assignment to Government-owned housing facilities,

3.22.7.1.1.2. Involuntary relocation to Government or non-Government facilities because of base renovation or condemnation proceedings, or

3.22.7.1.1.3. The termination of assigned quarters because of death of qualifying dependents.

3.22.7.1.2. Members are not authorized reimbursement for moves involving:

3.22.7.1.2.1. Voluntary termination of assigned quarters,

3.22.7.1.2.2. The termination of assigned quarters due to demotion to ineligible grade or adverse conduct by a member,

3.22.7.1.2.3. The termination of assigned quarters due to family separation (no hardship involved), or

3.22.7.1.2.4. Member's voluntary movement from off base to on-base quarters.

3.22.7.2. Reimbursement of the member’s claim or a direct payment to the contractor is chargeable against the appropriation covered by the service.

3.22.7.2.1. Reimbursement to Member. A Service member may pay for reconnection charges when billed and then file a claim for reimbursement. The member must submit the invoice, letter, or special order directing the move, and a letter request to the billeting officer for bachelor quarters or to the base civil engineer for military family housing for approval and certification.

3.22.7.2.2. Direct Payment Method. A Service member may submit the same documentation through the billeting officer or base civil engineer to the entitlement office for a direct payment to the contractor. These payments are not subject to the PPA. The payment voucher must contain the statement, "Payment is being made for the following individual(s) for reconnection services on the following dates." Activity controls and procedures must be designed to ensure a duplicate reimbursement is not paid to the Service member at a subsequent time.
3.22.7.3. Support the reimbursement or direct payment to the contractor with the following:

3.22.7.3.1. The special order or letter directing the move;

3.22.7.3.2. The letter from the member requesting reimbursement for reconnection charges already paid or a direct payment to the contractor for charges not yet paid. The member must certify the amount invoiced includes only those charges incurred in restoring telephone or television services previously provided at their old location and does not include charges for any new services or equipment; and

3.22.7.3.3. A copy of the telephone or television company invoice certified by the chief of services or base civil engineer showing only reconnection charges. All other charges are the responsibility of the member and must be paid separately.

3.23 Tuition and Training

3.23.1. Authorized Reimbursements. Tuition and training reimbursements to employees are miscellaneous payments. **Title 5 U.S.C. § 4109** provides the authority to reimburse employees for necessary training expenses (e.g., tuition and matriculation fees; library and laboratory services; purchase or rental of books, materials, and supplies; and other services or facilities directly related to employee training). Refer to the **DoDI 1322.25** for additional tuition and training guidance.

3.23.2. Military Personnel. Tuition assistance for military personnel must be paid directly to the academic institution in accordance with the contract terms with that institution. Reimbursement to the member for other related reimbursable expenses requires a properly certified **SF 182**, Authorization, Agreement and Certification of Training, or other Component-approved form. Component procedures must ensure specified annual and per course hour reimbursements do not exceed allowable limits and prevent duplication of payments.

3.23.3. Civilian Employee Training. A miscellaneous payment request is required for direct reimbursements to employees for necessary training expenses, such as books and supplies. Employees submitting requests for these reimbursements must use an SF 182 or other Component-approved form. Refer to **DoDI 1400.25, Volume 410** for additional policies and procedures regarding training education, and professional development activities for civilian employees.

3.23.3.1. The training must be a regularly scheduled, off-the-shelf course, training conference, or instructional service available to the public and priced the same for everyone in the same category (i.e., price per student, course, program, service, or training space). To minimize the need for reimbursing the employee, the preference is to pay the training provider directly.

3.23.3.2. Prohibitions against the payment of tuition or other expenses for training include overtime, holiday, and night differential pay, or membership fees as outlined in the DoDI 1400.25, Volume 410 and **5 U.S.C. § 4109**.
3.23.3. The *Joint Travel Regulations, chapter 3, part B* contains travel and transportation policy involving attendance at training.

3.23.4. **Advance Payment.** Advance payment of tuition and other expenses is authorized (5 U.S.C. § 4109 and 31 U.S.C. § 3324) either when the training facility renders, or refuses to render, a billing. The SF 182 will identify the training facility by name and address, the amount payable to the facility for the advance of tuition, as well as the amount payable to the trainee for purchase of books, library, and laboratory services. The SF 182 must be submitted to the entitlement office to support payment of the advance as a miscellaneous payment.

3.23.5. **Liquidation of Advance.** Within five workdays after completion of the training, the trainee will prepare an SF 182 itemizing the training expenses, attach receipts when obtainable, and submit the original agency finance copy of the SF 182 endorsing the advance payment information. The disbursing office will liquidate the advance payment in the same manner as prescribed for travel advances.

### 3.24 Tuition Refunds

3.24.1. When the DoD Education Activity (DoDEA) determines refunds are payable to sponsors of tuition-paying students attending DoD operated schools, refunds will normally be a prorated amount of tuition when enrollment is terminated prior to the end of the grading period (*DoDEA Administrative Instruction 7200.01*). A refund of advance tuition payment is only authorized based on a full grading period. A grading period is considered to be any one of the four periods established by the school, and covered by student report cards.

3.24.2. The school administrator must ensure deposit funds are available and prepare an SF 1034, which must include the name of the student, date of enrollment termination, and the amount authorized for refund.

3.24.3. The entitlement office will pay the voucher after reviewing it for propriety and ensuring related funds are available in deposit fund accounts.

### 3.25 Payment for Contract Quarters for Foreign Military Sales (FMS) Travelers

Contract quarters are reimbursable to the contractor for personnel traveling on official orders in connection with FMS. The Security Assistance Management Manual (*DoD 5105.38M, Chapter 10*; Volume 15, Chapter 8; and other appropriate DoD Component regulations prescribe the travel policy under which this payment would occur. The claimant must prepare an Optional Form (*OF*) 1164, Claim for Reimbursement for Expenditures on Official Business, SF 1034, or other Component-approved form, or electronic equivalent, and submit it along with a copy of the official orders to obtain reimbursement.
4.0 PROFESSIONAL LIABILITY INSURANCE (PLI)

4.1 Civilian Employees

Certain civilian employees (law enforcement officer, supervisor, management official, or temporary fire line manager) may be eligible for PLI reimbursement up to one-half of the insurance premium costs incurred annually, not to exceed $150 per year (see 5 U.S.C., chapter 59, subchapter IV and DoDI 1400.25, Volume 885).

4.2 Conditions for Payments of PLI

An employee must submit an insurance policy and proof of payment to their servicing Human Resource Office/Civilian Personnel Office (HRO/CPO). The employee also must submit a completed OF 1164, SF 1034, or other Component-approved form, or electronic equivalent, certified by the HRO/CPO approving official and an invoice from the insurance carrier. The insurance carrier invoice must include the issuing company’s name, the policy number, and proof of payment. If it is not evident to the paying office that the carrier’s invoice, or the policy itself, is a qualified professional liability policy, the invoice will be returned to the employee, requesting they provide evidence the sole purpose of the policy presented for reimbursement is to provide liability insurance. The reimbursement is not reportable as taxable income and not subject to IRS Form W-2, Wage and Tax Statement, reporting.

5.0 GOVERNMENT CHARGE CARDS CENTRALLY BILLED ACCOUNTS (CBAs)

5.1 Government Charge Cards CBAs

This section provides financial management policy for CBA billings (hereafter referred to as “invoices” for the purposes of this policy). The GSA’s Government-wide SmartPay3 contract and applicable DoD-tailored task orders authorize the use of CBA programs for the DoD. The Government Travel Charge Card program has two types of travel cards: the Individual Billed Account (IBA) and the CBA. The financial management policy associated with IBAs is contained in Chapter 23. CBA transportation accounts are issued to DoD activities and are restricted to the purchase of air, rail, and bus tickets only for travelers who are not eligible for an IBA. Mission requirements of the unit determine credit limits on CBAs. There are two types of CBAs:

5.1.1. A transportation account is a cardless account issued to a Government transportation office for use in purchasing transportation, to include airline, bus, and rail tickets.

5.1.2. A unit travel card may be issued to an individual or unit for group travel only when it is cost-effective and in the interest of the mission. Unit cards are designed to accommodate groups of travelers such as new recruits, prisoners, and foreign nationals participating in an official DoD-sponsored program or activity.
5.2 Policy

5.2.2. The DoD Government Charge Card Guidebook for Establishing and Managing Purchase, Travel, and Fuel Card Programs is a consolidated guide that provides policies, unique business rules and procedures for DoD charge card programs.

5.2.3. Government centrally billed travel card policies are prescribed by DoDI 5154.31, Volume 4, Commercial Travel Management: DoD Government Travel Charge Card (GTCC) Program. Payment provisions are available in DoD Component regulations and Standard Operating Procedures.

5.3 CBA Billing Statements

CBA contractors will furnish a monthly invoice or statement of account, showing charges made during the billing cycle. The invoice must contain the elements specified in Chapter 8. The date of receipt of the invoice in the Billing Office starts the PPA clock.

5.4 Roles and Responsibilities

Officials must work together to ensure accuracy, propriety and legality over centrally billed accounts and related payments. Volume 5, Chapter 5 provides roles and responsibilities of accountable officials for CBA programs. The certifying officer ensures that only certified payment packages are forwarded for payment.

5.5 Documentation

Accountable officials must ensure maintenance of documentation, at all levels, to support the integrity of the Government CBA programs and facilitate the reconciliation and payment of CBA transactions. Accountable officials must establish clear audit trails for CBA transactions by maintaining documentation to support each purchase such as travel orders/authorizations; requisitions, including cross references to any related Blanket Purchase Agreements; telephone and mail order logs; receipt records; and credit slips (DoDI 5154.31, Volume 4, Commercial Travel Management: DoD Government Travel Charge Card (GTCC) Program). Certifying officers must review the payment packages to ensure the information agrees with all supporting documentation before certification and submission to the entitlement office for payment. Volume 5, Chapter 15 prescribes responsibility for certifying officers to make records and supporting documents accessible to authorized users.

5.6 Disputed Transactions

Government CBA owners must dispute, or report as fraud, questionable transactions with the issuing bank in accordance with the timetable and provisions contained in the contract with the
issuing bank and local procedures. Approving officials must notify the entitlement office by annotating the invoice or the invoice package to show reductions for disputed charges and must maintain records to track disputed transactions to full resolution.

5.7 Designated Entitlement Office

The designated entitlement office personnel rely on the certifying officer to ensure the validity, legality, and accuracy of certified invoice packages. The designated entitlement office must ensure all certified invoice payment packages undergo prevalidation to ensure the availability of funding. They must also ensure a DD Form 577 is on file to verify all manually and electronically certified payment packages.

5.8 Records Retention

Approving officials in the billing offices submitting CBA Billing Statements must ensure proper audit trails exist, and documentation is available to support all charges and CBA payments. The retention of documentation, both paper and electronic records, is the responsibility of the certifying officer. Refer to Volume 1, Chapter 9, Figure 9-1 for statutory retention requirements.

6.0 PAYMENTS UNDER REAL PROPERTY LEASES

6.1 Overview

Leases are subject to the statutory and regulatory provisions applicable to DoD contracts, as well as the specific statutory provisions pertinent to leases themselves. A lease is a contract, which conveys the use of land or buildings for a specified time at a specified rate of compensation. Leases describe the premises, the specific period involved, purpose for which used, the amount of rent, method of payment, special or operational services included (such as heat, light, water, and janitorial services), and any restoration provisions. If the lessor fails to provide the services called for in the lease, then the lessee (DoD) may pay the cost and deduct the amount from the lease rental payments.

6.2 Rent

6.2.1. Fractional Parts of a Month. The calculation to determine payment for part of a month for leased premises must include the actual number of days involved. In computing the time between two dates, the general rule is to exclude the first and include the last date, except when the lease is for a specified term and begins on the date of occupancy.

6.2.2. Monthly Installment Payments of Annual Rent. A lease generally begins on the first of the month. For leases that begin on a date other than the first, the monthly rent installments become due and payable on the date of each month numerically corresponding to the date the term began, less one day. The amount of each installment should be one-twelfth of the annual rate, regardless of the number of days in any calendar month.

6.2.3. Recurring Rental Charges. Processing payment for these charges occurs without requiring individual invoices from the vendor. At the end of each rental period, the using activity or
the designated payment office must prepare an SF 1034 or an electronic equivalent. The claim must identify the lease, confirm the use or availability of the property during the rental period, include all relevant documentation supporting the payment, and be processed in accordance with the provisions of the lease. Refer to the Guidebook for preparation instructions of an SF 1034. Lease or rental payment transactions between intra-Governmental entities must be processed using the Intra-Governmental Payment and Collection (IPAC) System or the G-Invoicing process, as prescribed by the TFM, Volume 1, Part 2, Chapter 4700, Appendix 5, Section 3, and Appendix 8.

6.2.4. Reporting Rental Payments Made to Civilian Landlords. At the end of each calendar year, report yearly rental payments of $600 or more to the IRS. Do not report payments to real estate agents. See the DFAS Tax Office website and Chapter 6 for additional information and policy concerning 1099 reporting.

6.3 Party Entitled to Rental Payment

6.3.1. If DoD occupies land under a lease, the rental payment cannot be avoided because of any defect in the title of the lessor at the time of entering into a lease agreement.

6.3.2. If DoD occupies land owned by several tenants-in-common under an agreement with one of them, and without objection by the others, such tenant-in-common is entitled to receive the rent.

6.3.3. If property leased to DoD sells on one day and the deed of conveyance is executed on another day, the grantee is entitled to receive the rental from the property only from and after the date of execution of the deed.

6.3.4. Liability for rent due does not become payable day-by-day. It becomes due in total on the dates set forth in the lease. There will be no proration of the payment for several owners, who may have owned the premises for a portion of the rental period. When leased property changes ownership through a sale, a copy of the deed of sale is furnished for association with the lease contract. If proper notification is provided to the lessee, payment is made to the titleholder on the due date.

6.4 Payment for Leased Land

Payment for leased land is not payable in advance. Payment for leases in foreign countries for periods of time is by direction of laws and ministerial regulations of foreign countries or local customs (10 U.S.C. § 2396).

6.5 Payment for Cost of Improvement of Rented Premises

DoD lease agreements must be clearly written regarding provisions for laying conduit and wires, making alterations, performing repairs, or making other improvements. Thus, unless the lease clearly provides for making such improvements at DoD expense, the payment of any cost associated with this type of improvement effort is not authorized.
6.6 Payment of Taxes on Property

Although taxes are not payable by DoD as the owner of real property, such taxes are properly payable as part of the rent when specifically included in the terms of the lease.

6.7 Payment of Rent in Connection with Termination of Lease

The terms of the lease determine the basis of payment. Leases containing the standard U.S. Army Corps of Engineer’s termination clause require payment for the day after the notice of termination mailing plus 29 days. Leases containing other termination provisions should be analyzed on an individual basis, in consultation with local legal counsel to determine the correct amount of rent due upon termination of the lease.

7.0 PAYMENTS UNDER INDIVIDUAL SET-ASIDE CONTRACTS (ISAs)

Reimbursements made to medical health service providers serving under ISAs may be subject to Federal tax and the Federal Insurance Contributions Act depending on the terms of the contract. If required, payments made under ISAs will be reported by DoD at the end of the year to the IRS on a Form W-2 in accordance with Social Security Administration/IRS guidelines (IRS Publication 15, Circular E). The DoD Tax Reporting Office will perform the W-2 reporting requirements. Refer to Volume 8, Chapter 9 for disbursements to taxing authorities.

8.0 PAYMENTS OF FEES FOR GUEST SPEAKERS, LECTURERS, AND PANELISTS

Payment for expenses associated with honoraria (guest speaker fees) is allowable for individuals who are not Government personnel. Honoraria are ex gratia payments and are made to a speaker who has discretion concerning the content of the speech, presentation, or panel discussion on the general topic. In contrast, honoraria limitations do not restrict payment for presentation of materials under a training contract involving a program of instruction. To avoid excessive payment of honoraria, the Deputy Secretary of Defense has established a policy for honoraria amounts greater than $2,000 must have approval by the next higher organizational echelon. Such approvals will be in accordance with the Component’s established procedures.

9.0 INTRA-GOVERNMENTAL TRANSACTIONS

The TFM, Volume 1, Part 2, Chapter 4700, Appendices 5 and 8 prescribes policy for agencies to process intra-Governmental expenditure transactions through the IPAC system or the G-Invoicing process. IPAC is an electronic internet-based collections and payment system. Refer to Volume 5 for additional policy regarding IPAC and G-Invoicing.

9.1 Border Clearance Inspectors Overtime Expenses

9.1.1. If border clearance inspectors are required to work overtime, or on Sundays and holidays, at a DoD installation, the DoD installation must pay the overtime expenses incurred, including travel and subsistence in accordance with 19 CFR, 24.16 and 19 CFR, 24.17. Border clearance officials regularly assigned to DoD installations will not receive payment for travel and
subsistence. When additional inspectors are required to supplement the regularly assigned inspection staff, the DoD installation pays for their overtime, travel, and subsistence.

9.1.2. If a DoD aircraft lands at a site other than a DoD installation, the home station of the aircraft must pay the charges. When a DoD aircraft lands at another DoD installation, the installation providing the landing clearance services must accept the border clearance and inspection expenses. Financial managers must ensure funds are reserved to pay for these claimed expenses. The DoD official designated to make the necessary arrangements must maintain accurate records, submit requests for overtime, certify receipt and acceptance of services, and forward the billings for payment. Invoices received from one agency may be consolidated and processed for payment by using a single IPAC or G-Invoicing transaction.

9.2 GSA Payments, Where DoD Liability Exists for Damages to GSA Motor Pool Vehicles

9.2.1. Except for normal wear and tear, the DoD is pecuniarily liable for loss of or damages to GSA motor pool vehicles caused by negligence, misconduct, abuse, or inattention of military or DoD civilian personnel.

9.2.2. The operator of the vehicle is responsible for notifying the GSA fleet management center, his/her supervisor, and the state, county, or municipal authorities as required by law (41 CFR, section 101-39.401) when damages occur to a GSA vehicle. GSA will charge DoD for all costs resulting from damage, including vandalism, theft and parking lot damage to a GSA vehicle on a case-by-case basis after a review of the documentation required by 41 CFR, section 101-39.406. Upon receipt of GSA’s assessment of damages, use the IPAC system, G-Invoicing, or an SF 1080, Voucher for Transfers Between Appropriations and/or Funds, to process the payment to GSA. The DoD Component to which the vehicle was assigned must provide the fund cite for the payment. The SF 1080 must identify the damaged vehicle involved, and include the vehicle registry number, date of damage, register number of the SF 91, Motor Vehicle Accident (Crash) Report, and, when applicable, include an SF 94, Statement of Witness.

9.2.3. Provide one copy of the voucher, without supporting papers, with the IPAC payment to GSA. Support the original voucher, and other copies of vouchers, (when required) with a copy of the Report of Survey, and the cost of repairs statement prepared by GSA.
## VOLUME 10, CHAPTER 13: “COMMERCIAL TRANSPORTATION PAYMENTS”

### SUMMARY OF MAJOR CHANGES

Changes are identified in this table and also denoted by blue font.

Substantive revisions are denoted by an asterisk (*) symbol preceding the section, paragraph, table, or figure that includes the revision.

Unless otherwise noted, chapters referenced are contained in this volume.

Hyperlinks are denoted by bold, italic, blue, and underlined font.

The previous version dated March 2020 is archived.

CHAPTER 13

COMMERCIAL TRANSPORTATION PAYMENTS

1.0 GENERAL

1.1 Purpose

This chapter establishes policies and responsibilities within the DoD for the financial management of various types of transportation payments. It outlines the policies and responsibilities for payment of transportation documents, including bills of lading (BOL) and third-party transportation invoices. It also includes requirements for prepayment and post-payment audits, reviews, claims, and related General Services Administration (GSA) procedures. The policies in this chapter also apply when the Transportation Working Capital Fund pays the commercial Transportation Service Provider (TSP).

1.2 Authoritative Guidance

The following laws and regulations comprise the current requirements for the efficient and effective use of Government and commercial transportation resources. This policy includes the roles, responsibilities, and authority in applying these requirements, to include policy pertaining to payment of transportation and transportation-related services for the DoD.

1.2.1. *Title 10, United States Code (U.S.C.), Chapter 157* and *31 U.S.C. § 3726* provide information concerning the laws surrounding the transportation of both personnel and supplies and the general conditions under which a carrier may submit claims for payment. *Title 31, U.S.C. § 3726* also establishes the role of GSA in settling claims, identifies when claims must be filed with GSA, and identifies requirements for conducting and funding prepayment and post-payment audits.

1.2.2. *DoD Instruction 5158.06* and *DoD Directive 4500.09* govern the worldwide movement of passengers, cargo, and personal property for DoD.

1.2.3. *Defense Transportation Regulation (DTR) 4500.9-R* provides policy to DoD Components for efficient and effective use of Government and commercial transportation resources.

1.2.4. *Federal Acquisition Regulation (FAR), Part 47* prescribes policies for applying transportation and traffic management considerations in the acquisition of supplies, and it prescribes policy for acquiring transportation or transportation-related services by contract methods.

1.2.5. *Defense Federal Acquisition Regulation Supplement, Part 247* contains additional transportation guidance as a supplement to FAR, Part 47 provisions.
1.2.6. *Title 41, Code of Federal Regulations (CFR), Part 102-118*, codifies statutes and other policies that assure transportation services are uniform and appropriate. It also defines authority for GSA to conduct prepayment and post-payment audits, and establishes agency prepayment audit requirements.

1.2.7. The following laws and regulations provide guidance for payment of Non-Temporary Storage (NTS) and local drayage of Household Goods (HHG):

1.2.7.1. *Title 5, U.S.C. § 5726*;

1.2.7.2. *Title 41, CFR 302-8*; and

1.2.7.3. *Joint Travel Regulations (JTR).*

2.0 POLICY

2.1 Valid Line of Accounting (LOA)

Every transportation shipment, when initiated, must have a valid LOA to include the Standard Document Number, or in its place, an associated Transportation Account Code (TAC) representing a valid LOA, prior to processing shipment requests, automation of obligation recording, and invoice certification and payment.

2.1.1. The Transportation Officer (TO) or the Traffic Management Officer (TMO) will not provide transportation services without first obtaining proper supporting documentation. At a minimum, this documentation must include an authorization to use, and a citation of, a valid and funded LOA provided by a designated Fund Manager (FM) or financial management official.

2.1.2. If funding data supporting the shipment request fails validation when processed, the TO/TMO will suspend further processing efforts until the shipping customer provides written (electronic or hardcopy) verification indicating the LOA is valid.

2.1.3. For further guidance and exceptions regarding the LOA and TAC, please refer to *DTR 4500.9-R, Part II*, Appendix V and attachments.

2.2 Funded Line of Accounting (LOA) and Associated Transportation Account Code (TAC)

Shipping customers requesting transportation services will provide the TO/TMO with the FM’s written or electronic verification of a funded LOA (funding document), or the associated TAC, before entering the Government into a contract with a carrier. The FM verification may be annotated on the Movement Request Order, usually a DoD *(DD) Form 1348-1A*, Issue Release/Receipt Document, or *DD 1149C*, Requisition and Invoice/Shipping Document.
2.3 Anti-Deficiency Act (ADA)

Any transportation shipment request processed without an authorized, valid, and funded LOA, resulting in an obligation on behalf of the Federal Government, could result in a violation of the ADA under 31 U.S.C. § 1341. See Volume 14, Chapters 2 and 3 for additional information concerning appropriations and violations of the ADA.

2.4 Internal Controls

Internal controls must be in place to ensure that duplicative or erroneous payments do not occur. These controls will ensure that sufficient management control mechanisms are available so that DoD funds are spent appropriately and in accordance with all applicable laws and regulations. Refer to Chapter 1 for additional policy specific to internal controls.

3.0 RESPONSIBILITIES

3.1 United States Transportation Command (USTRANSCOM)

Per DoD Instruction 5158.06, the Secretary of Defense has designated USTRANSCOM as the single manager within the DoD for transportation, other than Service-unique or theater-assigned assets. USTRANSCOM operates three component commands: Surface Deployment and Distribution Command, Military Sealift Command, and Air Mobility Command. USTRANSCOM operates two subordinate commands: Joint Transportation Reserve Unit and Joint Enabling Capabilities Command.

3.2 Defense Finance and Accounting Service (DFAS)

DFAS maintains the software/database support for the Transportation Global Edit Table (TGET).

3.2.1 TGET is a centralized repository that contains established transportation LOAs formatted in accordance with Service/Agency LOA requirements and associated TACs.

3.2.2 Each Component is responsible for updating the TGET and ensuring it contains valid LOAs and TACs.

3.3 Shipping Customers

Shipping customers can be individuals (Service members or civilian employees), units, or organizations within the Military Services, Defense Agencies and other Government (non-DoD) agencies (federal, state, or local) requesting shipment of freight or personal property. The shipping customer will obtain and present to the TO/TMO, in written or electronic form, a valid and funded LOA from a designated FM.
3.4 Transportation Officer (TO) and Traffic Management Officer (TMO)

TOs and TMOs are individuals who are designated to process approved shipment requests for transportation or storage of military goods and other items entitled to be transported or stored at Government expense and related accessor or special services. The TO/TMO responsibilities include:

3.4.1. Preparing and editing shipment documentation to ensure quality electronic data and timely submission to support total movement shipment processes;

3.4.2. Reviewing shipment requests presented by the shipping customer to ensure that the approved funding and shipping documents fully support each shipment request;

3.4.3. Ensuring that any shipment request that is found to be incomplete or is not fully supported by the proper funding authorization will be suspended and not be accepted for shipment; and

3.4.4. Resuming the shipment request process when written or electronic verification of a corrected LOA, or other required shipping and supporting documents, is received.

3.5 Fund Manager (FM)

FMs are individuals legally responsible for managing the appropriate use of funds and will assist and provide advice to the TO/TMO on all financial related matters. The FM will:

3.5.1. Maintain and issue authorizations to use LOAs, based on requests, to ensure their appropriate use and the availability of sufficient funding;

3.5.2. Coordinate and administer changes and modifications to LOAs and ensure updated data is uploaded to the TGET when necessary;

3.5.3. Provide a properly formatted LOA and associated TAC for input into the shipper system when utilizing electronic processing and third-party billing;

3.5.4. Coordinate with the appropriate finance and accounting office to resolve edit exceptions encountered in the obligation and accrual recording and invoice payment processes;

3.5.5. Work with the TO/TMO and/or certifying officer to correct fund citation edit exceptions;

3.5.6. Provide the shipping customer with documentation supporting funds availability and record the commitment/obligation appropriately. Documentation must include a valid, appropriate, and funded LOA, as well as the point of contact information of the FM (e.g., name, phone number and, e-mail address);

3.5.7. Monitor execution of transportation costs and make adjustments as needed; and
3.5.8. Coordinate with the contracting officer and/or TO/TMO in addressing any issues associated with transactions that have not yet been certified for payment.

3.6 Certifying Officer

Certifying officers within the responsible transportation offices are properly qualified and trained individuals designated in writing by the activity commander and will perform their duties in accordance with Volume 5, Chapter 5. All certifying officers will be appointed using a DD 577, Appointment/Termination Record – Authorized Signature. Certifying officers are responsible for:

3.6.1. Ensuring the accuracy of facts stated on a voucher to include the supporting documents and records, pursuant to 31 U.S.C. § 3528;

3.6.3. Ensuring the legality of a proposed payment under the appropriation or fund involved, pursuant to 31 U.S.C. § 3528;

3.6.4. Ensuring that when a manual, electronic, or digital signature is affixed to a voucher, the certifying officer certifies to a disbursing officer that the items listed therein are correct and proper for payment from the appropriation(s) or other funds designated thereon or on supporting vouchers, and that the proposed payment is proper, correct, and not prohibited by law;

3.6.5. Ensuring the use of and certifying a Standard Form (SF) 1113, Public Voucher for Transportation Charges, and ensuring the form includes the correct amount and fund cites when processing documents such as requests for payments, invoices, and other transportation documents;

3.6.6. Forwarding the certified SF 1113, with the attached supporting documents, to the proper payment office for recording into the accounts payable system and disbursement of payment to the provider;

3.6.7. Returning, and not certifying, vouchers which are inaccurate, inadequate, improper, incorrect, impermissible by law, or contain invalid or inadequate funding information; and

3.6.8. Performing additional duties and responsibilities of certifying officers concerning the review, reconciliation, and certification of the DoD Third Party Payment System (TPPS) monthly summary invoices as discussed in paragraph 10.3.
3.7 Payment Office

Each payment office will:

3.7.1. Provide finance and accounting support to designated shipping customers, FMs, TOs/TMOs, and certifying officers;

3.7.2. Ensure that a valid electronic record of the transportation obligation is posted in the accounting system prior to disbursing funds;

3.7.3. Record accruals, if appropriate, and then disburse payment upon receipt of the certified request for payment or electronic data feeds. See Volume 4, Chapter 9 for additional information;

3.7.4. Ensure that commitment, obligation, accrual, and expense transactions are reconciled and processed into the appropriate accounting systems. See Volume 3, Chapter 8, and Volume 4, Chapter 9 for additional information;

3.7.5. Send electronic funds transfer disbursement to the vendor or third-party payer with an accompanying remittance advice; and

3.7.6. Collect any overpayments, as required. See Volume 16 for additional information.

3.8 General Services Administration (GSA)

GSA is the executive agent for the Federal Government and is responsible for oversight of prepayment and post-payment audits and associated collection actions. GSA also handles payment claims and disputes that cannot be resolved between the TSP and the payment office. See sections 4.0 and 9.0 for additional policy concerning transportation audits, reviews, and TSP claims.

3.9 Transportation Service Provider (TSP)

The TSP is the commercial provider of transportation services for either freight or HHG.

3.9.1. The TSP certifies that the shipment has been delivered in good condition and submits certified invoices for payments of services rendered.

3.9.2. The certified invoice is sent to the activity designated in the shipping request.

3.10 Contracting Officer

A contracting officer is a U.S. military officer or civilian employee who has been properly appointed on a SF 1402, Certificate of Appointment.
3.10.1. A contracting officer has the authority to enter into, administer, and/or terminate contracts, and make related determinations and findings. See definition of contracting officer in FAR 2.1.

3.10.2. Within the context of this chapter (for transportation charges falling outside of TPPS processes) the contracting officer:

3.10.2.1. Prepares solicitations and contracts for transportation and/or transportation-related services;

3.10.2.2. Specifies authorization of prepaid freight in contracts;

3.10.2.3. Ensures that the requirements of the DTR 4500.9-R are included in appropriate contracts for all applicable shipments and enforces these requirements concerning shipments under their control; and

3.10.2.4. Includes in the solicitation and contract all applicable services, provisions, clauses, and instructions concerning first destination transportation charges and electronic invoicing. The solicitation and contract must also identify a separate LOA for prepaid freight.

4.0 PAYMENT, AUDITS, AND COLLECTIONS

4.1 Request for Payment

The payment office will process a request for payment in accordance with the applicable commercial rates, fares, or charges for transportation by any common carrier of any property for the United States, or on its behalf, as approved by the TO/TMO, or designee, and certified by the certifying officer. Transportation payments will be made by the payment office designated in the contract.

4.2 Prepayment Audit

Title 31 U.S.C. § 3726 establishes that each agency that receives a bill from a carrier or freight forwarder for transporting an individual or property for the U.S. Government must verify its correctness (to include transportation rates, freight classifications, or proper combinations thereof) using a prepayment audit, in accordance with regulations prescribed by the GSA. Meal tickets and meal checks are not subject to audit since they do not represent bills from a TSP. Implementing instructions are in 41 CFR 102-118, which provides responses to the most frequently asked questions concerning transportation payments and audit.

4.2.1. GSA has complete oversight of the prepayment audit process; however, it can further delegate that authority to the DoD Components if the delegation is determined to be cost-effective or otherwise in the public’s best interest, as prescribed in 31 U.S.C. § 3726(g).

4.2.2. The GSA Transportation Audits Division keeps a central repository of electronic transportation billing records for legal and audit purposes. Therefore, the DoD must forward all
relevant electronic transportation billing documents to GSA as soon as possible following the end of the month; this is accomplished by the TPPS contractor which provides all shipping and payment data available in support of DoD transportation payments (FAR 47.103-1 and 41 CFR 102-118.80).

4.2.3. The payment office must ensure, during its prepayment audit of a hardcopy (non-TPPS) TSP bill, that the TSP filled out the SF 1113 completely, including the taxpayer identification number and standard carrier alpha code. An SF 1113 must accompany all hardcopy (non-TPPS) billings (41 CFR 102-118.100).

4.2.4. In accordance with 41 CFR 102-118.280, 31 U.S.C. § 3521(b), and GAO's Policy and Procedures Manual for Guidance of Federal Agencies, Title 7, statistical sampling is permitted on TSP bills under $2,500. See Volume 5, Chapter 5, section 0506 for additional details concerning statistical sampling.

4.2.5. In accordance with 31 U.S.C. § 3726(a)(3), expenses for prepayment audits must be funded by DoD appropriations used for the transportation services.

4.3 Prompt Payment Act (PPA)

Transportation payments are subject to the PPA. PPA regulations require that agencies pay transportation bills within a certain time period and pay interest penalties when payments are late.

4.3.1. Unless specified differently in the contract, transportation charges must be paid within 30 days after the original completed BOL reaches the designated billing office, and the carrier certification, as described in paragraph 4.4, is completed on the document.

4.3.2. If an invoice or accompanying documentation is determined to be incomplete or incorrect, the agency must provide the TSP with written notice of an apparent error, defect, or impropriety within 7 days of receipt of the bill. See FAR 32.905 for additional information.

4.3.3. Refer to Chapter 7 for additional PPA policy.

4.4 Certified Invoice

Transportation invoices must be certified by the carrier that the shipment has been delivered in good order and condition. A TSP cannot demand advance payment for transportation charges submitted on a BOL, per 41 CFR 102-118.200.
4.5   General Services Administration (GSA) Post-Payment Audit

A carrier’s BOL and the supporting documents, which represent payments made by agency payment offices for freight and passenger transportation services, must be forwarded to GSA for a post-payment audit (41 CFR 102-118.415 and 41 CFR 102-118.425).

4.5.1. GSA reviews the carrier’s transportation rates, freight classification, and other information for correctness during the audit and has a number of applicable actions it can take based on post-payment review outcomes (41 CFR 102-118.430 and 41 CFR 102-118.435).

4.5.2. Expenses of post-payment audit contract administration and audit-related functions are financed from overpayments collected from the TSP’s bills previously paid by the DoD and similar type refunds (41 CFR 102-118.440).

4.6 Overpayments

If the agency conducts prepayment audits of its transportation bills, agency transportation certifying and disbursing officers are liable for any overpayments made. If GSA has granted a waiver to the prepayment audit requirement, and the agency performs a post-payment audit (31 U.S.C. § 3528 and 31 U.S.C. § 3322), neither the certifying nor disbursing officers are liable based on the reasons listed in these two cited statutes (41 CFR 102-118.160).

4.6.1. If an overpayment results from the use of improper transportation rates, classifications, or from the failure to deduct the proper amount, the disbursing officer or certifying officer will normally not be held liable for overpayments.

4.6.2. Relief of liability may normally be granted when the certification was based on official records and the certifying officer did not know, and by reasonable diligence and inquiry could not have discovered, the correct information, or the obligation was incurred in good faith, and diligent collection actions were undertaken in accordance with established procedures. Refer to Volume 5, Chapter 6.

4.7 Collection / Offset of Overcharges

The Director of the GSA Transportation Audits Division has the authority and responsibility to audit and settle all transportation-related accounts (31 U.S.C. § 3726). When instructed to do so by GSA, the payment office will offset, as appropriate, any overcharge amounts due the United States from an unpaid carrier’s bill.

4.7.1. The payment office will inform GSA if they do not have, and are not likely to have, a subsequent voucher to collect an overcharge.

4.7.2. GSA then handles the collection as a U.S. claim against the payee (41 CFR 102-118.640). If GSA collects the overcharged amount, the collection is retained by GSA.
4.7.3. The payment office must report all voluntary refunds to the GSA Transportation Audits Division (so that no Notice of Overcharge or financial offset occurs), unless other arrangements are made (41 CFR 102-118.500(a)).

4.7.4. Once a Notice of Overcharge is issued by the GSA Transportation Audits Division, then any refund is no longer considered voluntary and the payment office must forward the refund to the GSA Transportation Audits Division (41 CFR 102-118.500(b)).

4.7.5. Title 31, U.S.C. § 3726(d) states that not later than 3 years (excluding time of war) after the time a bill is paid, the Government may deduct from an amount subsequently due a carrier or freight forwarder an amount paid on the bill that was greater than the rate allowed.

5.0 TRANSPORTATION PAYMENT DOCUMENTATION

5.1 Prescribed Forms

The DoD may receive payment requests for transportation and related services in various forms, such as paper or electronic BOLs, or periodic billing statements. Transportation offices will use commercial payment practices and electronic processing to the maximum extent possible in accordance with DoD policy set forth in the DTR 4500.9-R.

5.2 Commercial Bills of Lading (BOL)

The Commercial BOL (the industry-wide form used by transportation carriers) is the preferred document used for the transportation of property per 48 CFR 53.247. This document will be used for the receipt of goods, as documentary evidence of title, and as documentary evidence of delivery. The use of the commercial BOL is the initial step in satisfying the GSA's and DoD’s ongoing initiatives to maximize electronic processing of transportation documents. In its electronic form (i.e., without the issuance of a hard-copy Government BOL), the commercial BOL is referred to as a "virtual" Government BOL.

6.0 TRANSPORTATION DELIVERY TERMS

6.1 Delivery Terms

Delivery terms are listed in the contract indicating the point at which title and risk of loss of merchandise pass from the seller to the buyer. They define the obligations and the responsibilities of the buyer and seller during the delivery of goods. See FAR 47.3 for additional details.

6.1.1. Free on Board (FOB) Origin. If the shipping contract states FOB origin, the ownership of the cargo is passed on to the buyer when the goods are placed on the conveyance by which they are to be transported. Unless the contract states otherwise, the cost of shipping and risk of loss are borne by the buyer (Government), per FAR 47.303-1.

6.1.2. FOB Destination. If the shipping contract states FOB destination, the supplier owns the goods until they arrive at their destination. Unless the contract states otherwise, the cost of
shipping and the risk of loss are borne by the seller (contractor). Pursuant to FAR 47.303-6, transportation costs that are included in contracts for material delivered FOB destination must not be paid.

6.1.3. Most Advantageous Delivery Point. If the shipping contract includes both FOB origin and FOB destination delivery terms, the payment office will process each payment in accordance with the assigned contract terms for the goods being shipped. Refer to FAR 47.304-1(b) when the contracting officer includes both options to obtain the most advantageous delivery point.

6.2 Prepaid Freight

Contractor prepaid freight is any type of transportation amount authorized to the point specified in the contract, which is to be prepaid at (FOB) origin by the contractor and later submitted for reimbursement on the contractor’s invoice, per FAR 47.303-4.

6.2.1. When providing goods, the TSP can be authorized reimbursement for prepaid freight within their contracts.

6.2.2. Contractors will support the prepaid transportation freight charges with a copy of the carrier’s receipted freight bill or evidence of receipt from the carrier. Evidence of payment is a receipted freight bill or BOL stamped or marked "To Be Prepaid" showing the charges receipted for by the carrier. If this is not present, then the BOL must bear a notation of the contractor’s check number, the date paid, and proof of shipment.

6.2.2.1. If a receipted freight bill is not available, then the contractor can provide other support for the claim for reimbursement of freight charges. The contractor must furnish a copy of the transportation company’s pickup record or a copy of the contractor’s internal business document showing the contractor turned the material over to a particular shipper. The contractor then must support either of these documents with a copy of the transportation company’s invoice and a statement that the charges have been paid.

6.2.2.2. For cost reimbursement contracts, the contractor must send freight bills to the contracting officer for a pre-payment audit, per *FAR 47.103-2*.

6.2.2.3. Per FAR 47.303-17(d)(1), the Government may determine that receipted freight bills or other evidence of receipt are not required for transportation charges of $100 or less if the following conditions are met:

6.2.2.3.1. The underlying contract specifies retention by the contractor of all records for at least 3 years after final payment under the contract;

6.2.2.3.2. The contractor agrees to furnish evidence of payment when requested by the Government; and
6.2.2.3. Per FAR 47.303-17(e), shipments and invoices will not be split to reduce transportation charges to $100 or less per transaction as a means of avoiding the required documented support for the charges.

6.2.2.4. Per FAR 47.303-17(d)(2), a Government agency may pay an invoiced, but unsupported, transportation charge of $250 or less per transaction if the following conditions exist:

6.2.2.4.1. The contractor cannot reasonably provide a receipted bill; and

6.2.2.4.2. The agency has determined that the charges are reasonable. Determination of reasonableness may be based on the following: past experience (authenticated transportation charges for similar shipments); rate checks; copies of previous bills submitted by the contractor; or other information submitted by the contractor to substantiate the amount claimed.

6.2.3. When deliveries are made at points other than the designated FOB point, the contracting officer will make an adjustment in the contract price that corresponds to the resulting increase or decrease in the amount of freight charges.

6.2.4. The payment office will not make an adjustment on the amount of the freight charges if deliveries are made to places other than the FOB point.

6.2.5. The payment office will not make an adjustment to freight charges when a contractor contends that it paid transportation expenses, which the Government was obligated to pay.

6.2.6. The payment office cannot deduct for potential excessive freight charges paid by the Government. Such adjustments must be submitted to the respective legal counsel for referral to the GSA for direct settlement as claims.

6.3 Reimbursable Prepaid Freight

Reimbursement to a contractor for prepaid freight covers the cost of transporting the material being shipped from the designated FOB origin point to the designated destination(s).

6.3.1. The contractor may be authorized by the contracting officer to pay transportation costs subject to the terms and conditions of the BOL on behalf of the Government. The contractor pays for shipping on a commercial BOL, other commercial form, or through the postal system.

6.3.1.1. If a contractor is directed by a contracting officer to ship FOB origin via parcel post, then postal charges are reimbursable.

6.3.1.2. The contractor must list this expense as a separate item on the invoice.

6.3.1.3. Charges are included in accounting records as a part of the cost of material.
6.3.2. The contractor will bill the DoD Component for the cost of the transportation. This billing is shown as a line item on the contractor’s invoice and is supported by a receipt, per FAR 47.303-17(d).

6.3.3. Contractor prepaid freight is not authorized within overseas areas. A contractor, however, may be reimbursed for prepaid freight within the United States to a stateside port of embarkation for further shipping by Government means to the overseas area.

6.3.4. Contractor prepaid freight costs are obligated as a cost of the contract.

6.3.5. If it is advantageous to the Government, the contracting officer may authorize the contractor to ship supplies, which have been acquired FOB origin, to domestic destinations, including DoD air and water terminals by common carriers on commercial BOLs. Such shipments must not exceed 150 pounds by commercial air, or 1,000 pounds by other commercial carriers, and must not have a security classification, per FAR 47.303-17(a).

6.3.6. GSA does not audit fixed price contractor prepaid freight charges.

6.3.7. Contractors directed to prepay freight may maintain charge accounts with companies specializing in delivery of small parcels.

6.4 Excessive Freight Charges

Excessive freight charges are freight costs incurred by a contractor that exceed costs from the FOB point specified in the contract, and they are not reimbursable costs. The contracting officer will need to make a determination whether to pay excessive freight charges and provide that determination to the payment office before any approved adjustments to payments can be made by the payment office.

6.4.1. If a contractor prepays freight for a shipment contrary to the current contract terms, payment of shipment charges may be made to the contractor after receipt of contract modification authorizing the prepaid shipment. The payment may not exceed the cost that would have been incurred by the Government. The prepaid freight receipt will be attached to the contractor’s request for payment.

6.4.2. Any premium freight (e.g., overnight delivery, first class mail, or airfreight) to be paid by the Government must be authorized by the contracting officer, per FAR 47.304-1(c)(4).

6.4.3. Where the original contract was FOB origin, and the TO/TMO changes the destination point, the Government may be held liable for all additional freight costs.

6.4.4. If the contractor changes the location from where the item is being shipped from, thereby increasing the freight costs, then the contractor is liable for any increased freight costs.
6.4.5. Shipment of perishable or medical supplies that are subject to in-transit deterioration is an example of a situation when solicitations will normally be on an FOB destination-only basis because it is advantageous to the Government per FAR 47.304-1(g)(4).

6.5 Funding Determination Guidelines

When Government property is shipped from one point to another, specific guidelines will be applied to determine the appropriation or fund to be charged for transportation.

6.5.1. Transportation charges are applied to the fiscal year and the appropriation in which they accrue, as stated in the contract.

6.5.2. The transportation (movement) of cargo can have multiple segments (e.g., base to shipping port, then receiving port to base). Each segment may have a different fund-citation, depending on the type of shipment.

6.5.3. Transportation charges for material shipped from one U.S. Government installation to another are not considered part of the contract expense in buying the material.

6.5.4. Transportation charges incurred for transporting exchange or commissary supplies are charged to the applicable exchange fund or to the Defense Commissary Agency.

6.5.5. If freight is damaged in shipment, regardless of which entity is responsible for the damaged goods, transportation funds will not to be used to pay for the replacement or repairs of damaged goods.

6.5.5.1. For FOB origin shipments, destination sites will furnish procurement officials with any available information to support the shipper’s claim for damage(s).

6.5.5.2. If freight is damaged in shipment, then follow the requirements of the DTR 4500.9-R, Part II, Chapter 209 for reporting damages.

6.6 Property Loss or Damage

The Government generally retains the risk of loss and/or damage to its property that is not the legal liability of the commercial carriers. In addition, the Government generally does not buy insurance coverage for its property in the possession of commercial carriers per FAR 47.102. However, in cases where loss or damage risk does reside with the carrier based on contractual agreement, deductions can be made from amounts due the carrier using the following guidance, per 10 U.S.C. § 2636 (a)(1) and (2):

6.6.1. If deducted due to loss of, or damage to, material in transit for a military department, the amount must be credited to the proper appropriation, account, or fund from which the same or similar material may be replaced; or
6.6.2. If deducted as an administrative offset for an overpayment previously made to the carrier under any DoD contract for transportation services, or as liquidated damages due under any such contract, the amount must be credited to the appropriation or account from which payments for the transportation services were made.

6.7 Non-Department of Defense (DoD) Funding

Non-DoD agencies that wish to use DoD transportation services must provide funds with the appropriate LOAs to the sponsoring DoD Component. Non-DoD funding is required before services can be provided. The sponsoring Component may set up a reimbursable account where the third-party billing system can continue to pay the TSP, and the sponsoring Component can establish a Service/DoD LOA/TAC for the paying office to process. See Volumes 11A and 11B for additional reimbursable policy.

7.0 NON-TEMPORARY STORAGE (NTS) AND LOCAL DRAYAGE OF HOUSEHOLD GOODS (HHG)

7.1 Definitions and Guidelines

An authorized DoD official will determine if local drayage and storage of HHG is authorized when it provides the best value to the Government. The TO/TMO responsibilities include obtaining these transportation services to meet operational needs.

7.1.1. NTS. NTS of HHG is all storage other than temporary (e.g., storage in transit) or special storage (e.g., access-controlled environment). NTS includes any shipment, movement, packing/unpacking, and crating/uncrating necessary to transport the HHG to and from the designated storage facility.

7.1.1.1. NTS authority is normally included in the permanent change of station (PCS) travel authorization/order and must be obligated against the appropriation current at the time of the contract award, or against the appropriation current at the time the service is rendered, per Volume 3, Chapter 8 (11.0). Follow these same obligational criteria for storage of a privately owned vehicle (POV).

7.1.1.2. Where the contracting officer acquires these storage services (NTS or POV) as non-severable services, obligations are applied to the appropriation current at the time of the contract award. Where storage services are designated as severable, obligations are applied against the appropriation current at the time the services are rendered unless under authority of 10 U.S.C. § 2410a. A contract that crosses fiscal years must have a period of performance not to exceed 1 year. Refer to Volume 3, Chapter 8 (3.4.2) for additional information regarding distinctions between severable and non-severable services in the context of a contracting activity procuring services on behalf of customer organizations.

7.1.1.3. All Invoices for NTS services are processed electronically through a TPPS using the policy provided in section 10.0.
7.1.2. **Local Drayage.** Local Drayage includes hauling HHG to a designated storage facility.

7.1.2.1. The TO/TMO responsibilities include the following actions concerning the processing of invoices pertaining to local drayage of HHG:

7.1.2.1.1. Receiving and verifying invoices with supporting documents from the ordering officer;

7.1.2.1.2. Documenting the service for local drayage has been performed and determining the entitlement pertaining to beginning and ending periods of storage and excess weight;

7.1.2.1.3. Certifying the invoiced services have been performed;

7.1.2.1.4. Verifying with the Family Housing Management Office or Billeting Office regarding entitlement to local drayage incident to assignment of Government quarters; and

7.1.2.1.5. Preparing, approving, and certifying the **SF 1034**, Public Voucher for Purchases and Services Other Than Personal, and forwarding it to the proper payment office with documents to support these entitlements for recording into the accounts payable system and for disbursement of the payment to the provider.

7.1.2.2. When moving HHG to or from storage locally (drayage), the TO/TMO will:

7.1.2.2.1. Provide to the payment office a copy of the invoice containing a certificate of performance signed by both the contractor and ordering officer; a copy of the **DD 1164**, Service Order for Personal Property; a copy of the **DD 1299**, Application for Shipment and/or Storage of Personal Property; and a copy of any special orders or other authority; and

7.1.2.2.2. Provide to the ordering office a copy of the paid removal from storage voucher.

7.1.2.3. The payment office responsibilities include the following actions concerning the processing of invoices pertaining to local drayage of HHG:

7.1.2.3.1. Certifying funds availability on the basis of a purchase order request and record obligations based on receipt of a **DD 1155**, Order for Supplies or Services, with the coordination of the FM;

7.1.2.3.2. Obtaining evidence of receipt of services before paying a contractor's invoice. This may be accomplished by a TO/TMO statement on the invoice that states the date the services ordered were received, with the TO/TMO official’s printed name, signature, and contact information placed on that invoice; and
7.1.2.3.3. Obtaining a copy of the obligating document and the contractor's invoice to support the payment voucher.

7.2 Military Members

7.2.1. See JTR, Chapter 5, Part C, Section 0513 and 0514 for details concerning HHG weight allowances.

7.2.2. See JTR, Chapter 5, Part C, Section 0518 for details concerning HHG storage.

7.2.3. The housing office issues assignment and reassignment orders for movement of member's personal property placed in NTS incident to occupancy of Government or Government-controlled quarters.

7.3 Civilian Employees

7.3.1. As stated in 5 U.S.C. § 5726 (b), the maximum combined weight for HHG transported and/or stored for civilian employees is 18,000 pounds. The Government may pay the total transportation cost, and other charges applicable to any excess weight that exceeds the HHG weight allowance, and collect reimbursement for the excess cost from the civilian employee.

7.3.2. As stated in the JTR, Chapter 5, Part B, Section 5658, civilian expenses for NTS are authorized for PCS travel, or new appointee travel, to a designated isolated Continental United States (CONUS) permanent duty station (PDS). A signed service agreement for 12 months is required for each individual CONUS PCS. The period of NTS under these conditions may not exceed 3 years, per 5 U.S.C. § 5726(c).

7.3.3. As stated in the JTR, Chapter 5, Part B, Section 5660, a traveler’s HHG are placed in NTS when there is no authority to transport some items, or the HHG cannot be used at the Outside of the Continental United States (OCONUS) PDS. The traveler may request authority from the employer for HHG withdrawal from NTS, and transportation at Government expense, when the situation requiring NTS no longer exists, and the HHG are needed for the current tour of duty, or when a removal agreement is signed. The period of NTS, at Government expense, may be authorized for a period not to exceed the tour of duty.
8.0 MISCELLANEOUS TRANSPORTATION PAYMENTS

8.1 Drive-away and Tow-away Service

DoD vehicles may be moved by drive-away or tow-away carrier service. Authorized en route expenses may be incurred for which the carrier is not liable. Drive-away service is the movement of a vehicle under its own power by a driver of an authorized motor carrier. Tow-away service is when any motor vehicle, or combination of motor vehicles coupled together, has one or more sets of wheels on the roadway during the course of transportation. This method also includes the movement of one or more vehicles, including other than self-propelled vehicles, when towed or mounted (either full or saddle mount) upon a vehicle. See DTR 4500.9-R, Part II, Chapter 202 for additional information concerning drive-away service.

8.2 Meal Checks

Meal checks are used by DoD recruits, including the Department of Homeland Security Coast Guard recruits, while in transit from the Military Entrance Processing Stations (MEPS), under the command of the U.S. Military Entrance Processing Command (USMEPCOM), to the Service training centers. Meal checks will be issued only by an appointed MEPS Transportation Assistant (TA), or designated alternate, to DoD recruits traveling under provisions of the JTR.

8.2.1. During the transportation briefing, the MEPS TA will inform the recruit on the authorized use of the meal check, the procedures for completing the meal check, their responsibility to use the check for authorized meals, the locations that will accept meal checks, and their responsibility for safeguarding their meal check.

8.2.2. The MEPS will use the USMEPCOM’s automated USMEPCOM Integrated Resource System (USMIRS) to issue computer-generated meal checks.

8.2.2.1. The MEPS USMIRS will print the allowable amount on the meal check depending on the type of meal authorized. The rates per meal for members are in the JTR, Chapter 2, Section 0203.

8.2.2.2. The MEPS TA will inform the recruit that he/she cannot write meal checks for amounts that exceed the applicable amount authorized in the JTR. Meals may be acquired at a lower cost. The recruit will be responsible for any costs that exceed the authorized amount published in the JTR, Chapter 2, Paragraph 020306.

8.2.2.3. Meal checks are valid at all airport restaurants owned, operated, or contracted by Host Marriott Services Corporation and most other food vendors.

8.2.2.4. The vendors will not give the recruits any change if the cost is less than the amount stated on the meal check.
8.2.3. Meal checks must not be used:

8.2.3.1. To buy alcoholic beverages;

8.2.3.2. When travel is by commercial aircraft, and passage rates include meal service;

8.2.3.3. When an advance allowance of per diem has been received;

8.2.3.4. When any portion of travel is OCONUS; or

8.2.3.5. For payment of a gratuity.

8.2.4. A contracted private sector bank will pay the restaurants electronically, within 48 hours, through the normal banking process. After the bank pays the restaurants, the payment office will reimburse the bank by electronic funds transfer.

8.2.5. See DTR 4500.9-R Part I, Appendix M for additional information concerning meal checks.

8.3 Meal Tickets

Meal tickets may be issued to all authorized users under the JTR provisions, with the exception of recruits assigned to MEPS. Meal tickets may be issued only as specifically authorized in the DTR 4500.9-R for members traveling together with no/limited reimbursement directed in the authorization/order, on a commercial airline flight on which courtesy meals are not served, and prior arrangements have been made for the airline to serve meals in exchange for meal tickets. See DTR 4500.9-R, Part I, Passenger Movement, Appendix M for details concerning meal tickets.

8.3.1. Meal tickets must not be used:

8.3.1.1. To buy alcoholic beverages;

8.3.1.2. When travel is by commercial aircraft, and passage rates include meal service;

8.3.1.3. When an advance allowance of per diem is received;

8.3.1.4. For travel of civilian employees;

8.3.1.5. For travel of military dependents, except when a dependent is authorized per diem for the purpose of escorting a deceased military sponsor; or

8.3.1.6. For payment of a gratuity.
8.3.2. Reimbursement of contractors accepting meal tickets will be accomplished in the following manner:

8.3.2.1. The contractor submits the original meal ticket(s), DD 652, attached to an invoice;

8.3.2.2. Payment will be made based on a SF 1034. Payment cannot exceed the number of meals nor the price set forth on each meal ticket. Each meal ticket is shown on the SF 1034;

8.3.2.3. Before payment is made, verify the meal ticket has a properly completed contractor’s certification and ensure that it agrees with the certification made by the Service member who received the meal or the Service member in charge of the party;

8.3.2.4. Anyone who alters a meal ticket after it has been issued must initial and date the alteration and include their printed name and contact number;

8.3.2.5. Charge the appropriation and allotment cited on the meal ticket with the payment amount; and

8.3.2.6. These payments are due 30 days after they reach the designated billing office. Interest is due on late payments, as these transactions are subject to PPA.

9.0 CLAIMS BY TRANSPORTATION SERVICE PROVIDER (TSP)

9.1 Filing Claims

A TSP may file a claim for the following reasons (41 CFR 102-118.450):

9.1.1. Amounts considered to be owed to the TSP but were not included in the original billing;

9.1.2. Amounts that were deducted or offset by the payment office that are disputed by the TSP;

9.1.3. Amounts that were previously refunded by the TSP in error; or

9.1.4. Unpaid original bills requiring direct settlement by GSA, including those subject to doubt about the suitability of payment (mainly bankruptcy or fraud).

9.2 Claims Resolution /Appeals

If a claim is sent by a TSP to a payment office, they must make every reasonable and legal effort to resolve the dispute directly with the TSP.
9.2.1. If resolution is not possible by the original payment office, the claim must be forwarded to the GSA Transportation Audits Division.

9.2.2. Claims forwarded to the GSA Transportation Audits Division for resolution must arrive at GSA within 3 years (excluding time of war) after the later of the following dates (31 U.S.C. § 3726 and 41 CFR 102-118):

9.2.2.1. The date of receipt of the invoice by the payment office when the demand for payment is refused by the payment office;

9.2.2.2. The date of payment; or

9.2.2.3. The date of deduction on subsequent amounts paid (if the payment office offsets subsequent bills submitted by the TSP).

9.2.3. If the TSP does not agree with the decision of the GSA Transportation Audits Division, then the TSP may appeal to the Civilian Board of Contract Appeals or file a claim with the U.S. Court of Federal Claims.

9.2.4. Appeals of GSA Transportation Audits Division decisions to the Civilian Board of Contract Appeals must be made within 6 months (excluding time of war) of the date of the decision or within the periods of limitation specified in 31 U.S.C. § 3726, as amended, whichever is later. Refer to 41 CFR 102-118.580.

9.3 Certificate of Settlement

When the claim has been adjudicated by GSA, and it is determined the TSP is owed money, GSA will issue a "Certificate of Settlement" indicating the amount to be paid.

9.3.1. Once a decision is made, interest may accrue beginning 30 days from the date of settlement.

9.3.2. Similarly, if a TSP appeals the decision of an agency to the GSA Transportation Audits Division or to the Civilian Board of Contract Appeals, then interest penalties do not accrue until 30 days after a decision is rendered.

9.3.3. When a dispute arises between the agency and a TSP over an amount billed by the TSP (either in whole or part), the amount in dispute is not subject to interest penalties during the period of resolution, per 41 CFR 102-118.465.

10.0 DoD THIRD PARTY PAYMENT SYSTEM (TPPS)

10.1 Background

The DoD uses a TPPS for transportation payment processing of CONUS freight, HHG shipments, and NTS services. The TPPS collects shipment and financial data from both shippers
and carriers. Transportation transactions are entered into the TPPS electronically, and carriers are reimbursed for their services by a bank. A monthly TPPS summary invoice is forwarded electronically by the bank to the designated billing office for review and approval by an authorized certifying officer. The payment office will compute and pay interest based on payment terms specified in the TPPS contract.

*10.2 Internal Control and System Access

All DoD Components utilizing the TPPS service must implement local internal controls to prevent, detect, and report unauthorized transactions as outlined in Chapter 1, Section 2.0. All managers will ensure adequate separation of duties and limit system access to only those individuals necessary to accomplish their assigned tasks. The policy cited in subparagraph 10.3.2 concerning annual reconciliations reinforces existing policy prescribed in the DTR, Part II, Chapter 212, and Part V, Appendix A, which identifies specific reviews and controls that must occur to ensure the timely and accurate processing of transportation bills. DoD Components and transportation offices must work closely with the DFAS to perform root cause analysis and develop both automated tools and business process solutions to improve the efficiency and effectiveness of the reconciliation process, including the use of Advanced Analytics if feasible. The infrastructure should also include performance metrics for Component accountability.

*10.3 Certification, Reconciliation, and Payment Processing

Refer to the DTR 4500.9-R, Part II, Chapter 212 for additional detailed information and procedures concerning payment documentation requirements, correcting invalid LOAs and TACs, and the monthly summary invoice certification and payment process.

10.3.1. The certifying officer is responsible for reviewing and certifying the monthly invoices. As part of this review, they must ensure the invoices contain valid and adequate funding information, are accurate, correct, and permissible by law, and must identify any transactions that do not belong to their TPPS account. Certification criteria outlined in paragraph 3.6, the DTR 4500.9-R, Part II, Chapter 212, and Volume 5, Chapter 5 must be applied.

10.3.2. The certifying officer, in conjunction with the payment office, must reconcile the account activity section of each TPPS monthly summary invoice in a timely manner to identify any carrying balance discrepancies, resolve any past due amounts, and review and verify that all fees and adjustments cited on each invoice are correct. All transportation accounts must be reconciled and paid in full on an annual basis, by the end of the first quarter following the end of the fiscal year (FY). For example, all charges on a transportation account that occurred during FY 2021 are required to be reconciled and paid in full by the end of the first quarter, FY 2022. The certifying officer will communicate any reconciliation issues to the payment office in a timely manner, as appropriate.

10.3.3. The certifying officer is responsible for returning, and not certifying, invoices that do not contain valid and adequate funding information, or are not accurate, correct, or permissible by law.
10.3.4. In addition to assisting the certifying officers when necessary, the payment office must ensure that the TPPS monthly invoice is paid in a timely manner. Any late payments will be assessed the proper PPA interest penalty. All interest penalties paid will appear in the subsequent month's fees and adjustment section of the monthly summary invoice and must be reconciled with the total and interest payments previously made.

CHAPTER 16

PAYMENT FOR POSTAL SERVICES AND SMALL PACKAGE DELIVERY COSTS

1.0 GENERAL

1.1 Purpose

This chapter provides DoD policy on processing payments to the U.S. Postal Service (USPS) for various types of postal services, to non-Government service providers, and for commercial small package delivery costs. Refer to Chapter 8 for additional information concerning general payment policies such as electronic invoicing requirements, prevalidation, the use of electronic and digital signatures, supporting documentation requirements, and the requirement for tax identification numbers. Volume 5, Chapter 5 provides policy concerning payment certification requirements.

1.2 Authoritative Guidance

1.2.1. Title 41, Code of Federal Regulations (CFR), Part 102-192 prescribes policy for mail management in Federal agencies.

1.2.2. Title 39, CFR 501.15 provides policy on the Computerized Meter Resetting System (CMRS).

1.2.3. The DoD Instruction (DoDI) 4525.09, “Military Postal Service;” and DoD Directive 5101.11E, “DoD Executive Agent for the Military Postal Service and Official Mail Program,” contain policy for official DoD mail management.

2.0 PAYMENTS

2.1 Methods of Payment for Postage

2.1.1. Title 41, CFR, Subpart B, § 102-192.50 establishes the following payment policy and methods for paying the USPS:

2.1.1.1. The U.S. Department of Treasury (Treasury) Intragovernmental Payment and Collection (IPAC) process associated with the Official Mail Accounting System (OMAS);

2.1.1.2. The USPS Centralized Account Processing System (CAPS) associated with commercial payments;

2.1.1.3. Another Treasury-approved means of paying the USPS; or

2.1.1.4. Treasury’s G-Invoicing program for Intra-Governmental buy-sell transactions, as Components/USPS develop the systemic and processing capabilities (see the Treasury Financial Manual, Volume 1, Part 2, Chapter 4700, Appendix 8 and the Fiscal Service for additional guidance).
2.1.2. Effective April 1, 2019, the USPS required the migration of eligible mail services and products from CAPS to their new Enterprise Payment System (EPS) (see USPS.com). Products not currently supported by the EPS will continue to be supported through CAPS. See USPS PostalPro for additional information on supported products, as well as User Guides, Frequently Asked Questions, and fact sheets.

2.1.3. Payments made to service providers other than USPS must be made by Treasury payment methods, such as automated clearing house (ACH), electronic funds transfer (EFT), or another Treasury-approved means of paying the vendor.

2.2 Payment to Service Providers

Metered or permit-mail payments must be made using EFT transactions to commercial banks designated by the USPS as their financial agents. Payments for postage may not be held in postal vendor accounts unless the DoD Component has statutory authority to do so, or it has received prior written approval from Treasury.

3.0 INSTALLATION OFFICIAL MAIL MANAGERS (OMM)

3.1 OMM Appointment

The DoDI 4525.09 prescribes policy for installations, units, staff elements, and the DoD Components to appoint OMMs. Such appointment must be in writing, and the function is inherently Governmental. OMM appointments are reserved for commissioned, warrant, and noncommissioned officers (Enlisted-6 or higher), or DoD civilians (General Schedule-9 or higher). This requirement may be granted a waiver when the activity concerned has no personnel in the grades specified. Since the OMM function is inherently Governmental, those duties will not be contracted out.

3.2 OMM Responsibilities

Each installation has an OMM who is responsible for planning and coordinating outgoing postal and delivery purchases. The OMM must work closely with facility personnel to minimize postage requirements, and with managers to ensure that the person who makes the decision to send any significant number of pieces of mail is the same person who controls the funds for postage. OMMs are responsible for interpreting and carrying out the Private Express Statutes (USPS Publication 542) within their organization; acquisitioning use or disposition of supplies and property; budgeting for and the expenditure of appropriated funds for postage and fees; providing oversight for the monthly reconciliation of trust and debit accounts; and reporting requirements.
3.3 DoD OMM Reporting

The DoD OMM must provide an annual Mail Management Report to GSA when the Agency’s collective total payments for mail service expenditures equal or exceed $1 million per fiscal year (GSA Federal Management Regulation, Subchapter G, § 102-192.85).

4.0 CENTRALIZED TRUST AND DEBIT ACCOUNTS

4.1 CAPS and Centralized Trust Accounts

DoD Components can establish a centralized trust account with the USPS by enrolling in CAPS. The CAPS is an electronic postage payment system designed to make payment for all classes of mail easier and more cost effective. The CAPS provides electronic alternatives to making manual transactions and will enable the OMM to charge postal services at multiple locations, eliminating the need for trust accounts at numerous post office locations. Electronic reports are available to CAPS users that provide the capability to consolidate reports by types of mailing transactions, account, and defined date ranges. Reports are available in printed form and are import-compatible with most electronic reporting systems. Commercial pre-paid postage procurement options are:

4.1.1. Centralized trust account. DoD Components deposit funds electronically via standard ACH banking mechanisms, or Fed Wire, to the CAPS bank prior to mailing. The CAPS account is then reduced automatically as local offices process postage statements.

4.1.2. Centralized debit account. DoD Components designate a debit-enabled bank account for postage charges. The bank debits the account for the total day's postage on the next bank business day.

4.1.3. Government Purchase Card. The GSA Smart Pay credit card may be used for all transactions for which the USPS accepts the card. Use the CAPS or CMRS trust account instead of a GSA Smart Pay card when there is a choice.

4.1.4. Advance Deposit Trust Accounts. Advance deposit trust accounts at local post offices may be used when one of the preceding methods are not available. The use of advance deposit trust accounts is not authorized at military post offices.

4.2 Availability of CAPS Accounts

The use of CAPS accounts is a local decision. CAPS accounts are not available at overseas military post offices. CAPS accounts are established to include customer meter advance deposits, business reply mail (BRM) advance deposits, and permit imprint advance deposits. A payment into a centralized trust or debit account is an advance deposit payment to the post office. The OMM must monitor and reconcile the established centralized trust or debit account to ensure receipt of services that were paid in advance. If the OMM establishes one or more centralized trust or debit accounts, then the OMM maintains a record of all transactions in each account and is responsible for each account balance.
4.3 Centralized Trust and Debit Account Payment Process

4.3.1. The OMM must request funds to set up or replenish each centralized trust or debit account by preparing and submitting a Standard Form (SF) 1034, Public Voucher for Purchases and Services Other Than Personal. The OMM must ensure funds are available and approved by the designated approving official and a properly appointed certifying officer.

4.3.2. The OMM charges postal services against a trust or a debit account as required. Each time there is a charge to a centralized trust account or debit account, the USPS issues a receipt. The OMM verifies services received on the postal receipt and reduces the advance based on the amount shown on the receipts. The OMM must identify receipts to each trust or debit account.

4.3.3. One SF 1034 can establish or replenish more than one trust or debit account. The SF 1034 must identify the amount to be deposited into each particular centralized trust account or debit account. Once the designated finance and accounting office makes a deposit into an account, the OMM has limited authority from the USPS to transfer funds between trust or debit accounts. If a transfer between accounts is necessary, then the OMM must coordinate the transaction with the designated finance and accounting office and the USPS. The designated finance and accounting office must use an Optional Form 1017-G, Journal Voucher, or equivalent to record the transfer between accounts.

4.3.4. The OMM must reconcile the trust accounts monthly with the USPS transactional documentation. The designated finance and accounting office confirms the balance in each centralized trust account or debit account monthly with the OMM. The OMM must provide documentation to support any unexplained difference and report those findings to the Comptroller of the designated finance and accounting office. Any unresolved discrepancy must receive a joint review by the OMM and the designated finance and accounting office. Service specific, or locally developed, automated or manual worksheets must be used to assist with the reconciliation process to provide a greater tracking capability of postal expenditures. All Official Mail and Distribution Centers must maintain this information. The OMM must submit a written letter to the USPS to correct account errors.

4.3.5. Advance payments for any centralized trust account or debit account are limited to the postal requirements of the current quarter. The designated finance and accounting office, and the OMM, must review balances versus the postal requirements on a monthly basis. When required, the OMM must adjust the balances by allowing the trust account or debit account to decrease with subsequent use, or by the OMM submitting a request (SF 1034) to designated finance and accounting office to deposit more funds to support the quarterly postal requirements.

4.3.6. There are cases where the USPS refunds cash for unused services in a trust or debit account. The OMM must provide a written request to the USPS to process the refund to the appropriate DoD Component account via IPAC or EFT. If the USPS cannot send the refund via IPAC or EFT, then the OMM must request a reimbursement by check from the USPS using a Postal Service (PS) Form 3533, Application for Refund of Fees, Products and Withdrawal of Customer Accounts. Every copy of this form is uniquely barcoded and is no longer available online at the USPS website. The OMM must contact the local Post Office to secure a PS 3533 for each refund.
transaction. The OMM will submit the USPS refund check to the designated disbursing office with a DoD Form 1131, Cash Collection Voucher, for deposit as a collection.

5.0 POSTAL METERS

5.1 CMRS Agreements

DoD customers must enter into an agreement with the USPS for authorization to use postage evidencing systems (e.g., via electronic click-through or contract signature), in conjunction with executing a separate agreement with an authorized provider for rental, lease, or use of a postage evidencing system as prescribed by the Domestic Mail Manual, section 604.4.0, “Postage Meters and PC Postage Products (“Postage Evidencing Systems”).” The PS Form 3615, Mailing Permit Application and Customer Profile, must be completed and submitted to the USPS if the DoD mailer will be using a postage evidencing system.

5.2 Commercial Meter Settings

In accordance with 39 CFR 501.15, the USPS accepts payment through ACH transfers, EFT, and check for resetting postal meters. For overseas check payments, the mail manager requests an EFT payment by submitting an SF 1034 with appropriate supporting documentation. The designated payment office must make the EFT payable to the USPS licensed vendor. The designated disbursing office releases the funds to the USPS Accounting Service Center, and upon validation and verification, the USPS forwards the funds to the licensed vendor. Upon receipt of the funds by the USPS Accounting Service Center, the postage meter vendor will reset the metering account over an analog line or internet secure line.

5.3 Refunds for Spoiled Meter Tapes

The OMM may receive refunds from the USPS for spoiled meter tapes, or other types of unused services previously paid. The USPS will issue a refund in the amount remaining in a customer's CMRS account, after the customer provides a written request to the provider. The refund request must meet the USPS approved minimum amount and time frame (39 CFR 501.15(h)). Subparagraph 4.3.6 contains the guidelines for requesting refunds.

5.4 Remote Meters

DoD Components can reset postal meters using a remote method. Title 39, CFR 501.15 provides the legal authority for using the CMRS and contains details about this payment process.
6.0 MISCELLANEOUS PAYMENTS

6.1 Official Business Envelopes

The Defense Logistics Agency (DLA) Document Services serves as the DoD single manager for printing services (DoDI 5330.03). All DoD Components must procure official business envelopes, and other document services, from DLA at the DLA Document Services link.

6.2 Postage Stamps

All DoD activities must use only prepaid postage. In instances where the environment will not support the electronic processes, the OMM that purchases postage stamps for official use from the local post office may use a Government purchase card. All working postal accounts advanced by the USPS must be audited at least once monthly by responsible commanders or their designated representatives, postal officers, and Military Post Office supervisors.

6.3 BRM

6.3.1. Specially printed postcards, envelopes, cartons, and labels may be mailed without postage prepayment. Postage and fees are collected when the mail is delivered back to the original sender. This domestic service enables authorized mailers to receive First-Class Mail, without prepaid postage, from customers by paying the postage and a fee upon return receipt of the mail pieces. The OMM obtains a new commercial BRM permit by submitting a PS 3615 to the local post office. The OMM uses a copy of the completed PS 3615 to support the SF 1034. Attach a postal receipt certified by the OMM to the SF 1034. For information on BRM, refer to the Domestic Mail Manual, section 505.

6.3.2. A permit holder may choose to pay an annual account maintenance fee and establish an advance deposit account, which qualifies returned BRM pieces for the high-volume per piece charge. The account maintenance fee must be paid once each 12-month period at each post office where a permit holder holds an advance deposit account and only during the last 60 days of the current 12-month period. Refer to the Domestic Mail Manual, section 505.1.1.9 for the conditions in which an advance deposit account can be used.

6.4 Postage Due Costs

6.4.1. Under normal circumstances, postage due mail is not accepted by DoD mail rooms. Postage due mail is returned to the sender at the sender's expense.

6.4.2. An exceptional circumstance is when DoD Components are engaged in a hostile environment or operating under arduous conditions. Those units can send official matter through the USPS when postage is not available. The addressee will not refuse the postage due penalty mail received from military units engaged in hostile operations, and is obligated to pay the cost of postage.
6.4.3. Government agencies using penalty mail must pay postage due through an OMAS postage due account. Government agencies may no longer use penalty meter strips, or penalty mail stamps to pay postage due (Domestic Mail Manual, section 604, paragraph 6.3).

6.5 Address Correction Costs

Costs for address correction in CAPS is an ancillary service and must be paid by EFT. Supporting documentation must accompany each payment request for processing.

6.6 Express Mail

Payment for express mail is made with stamps, metered postage, or through an express mail corporate account. This account is similar to a trust account officially authorized by the OMM. Payments into an express mail account are advances to the USPS, and these deposits are controlled similarly to trust account payments; refer to section 4.0. The OMM submits PS Form 5639, USPSA Application and Payment Authorization Form, to establish the account. The USPS provides the OMM with a statement each month. The OMM must reconcile this account with the USPS at least once a month. The designated finance and accounting office confirms the balance in the account with the OMM monthly.

7.0 SMALL PACKAGE DELIVERY COSTS

7.1 Commercial Service

DoD Components may elect to use commercial bills of lading or commercial procedures, and payment practices to the maximum extent possible (41 CFR 102-118.130), rather than Government Bills of Lading, to procure express transportation services for small package shipments weighing up to 150 pounds.

7.2 Terms and Conditions

Commercial shipments are subject to the terms and conditions set forth in 41 CFR 102-118, and any other applicable contract or agreement of the carrier for the transportation of shipments for the United States. Freight loss and damage claims against commercial carriers using these procedures are processed according to 41 CFR 102-118.450 through 41 CFR 102-118.540.

7.3 Method of Payment

The approved method for billing and payment of commercial small package express shipments is the authorized electronic processes used by DoD for transportation. In instances where the environment will not support the electronic processes, or business reasons preclude the use of these processes, a waiver may be requested from the Office of the Secretary of Defense (Transportation Policy) in accordance with the Defense Transportation Regulation, Chapter 212, section C.3. Waiver requests must contain detailed justification as to why electronic means cannot be used, and a proposed future date when the electronic requirement will be met.

CHAPTER 19

PAYMENT PROVISIONS FOR GRANTS AND OTHER INSTRUMENTS OF ASSISTANCE

1.0 GENERAL

1.1 Purpose

This chapter provides policy for the proper administration and payment of funds under DoD grants, cooperative agreements, and other instruments of assistance. Policy is also included for cash management, financial reporting, and debt collection associated with these instruments. Refer to Volume 3, Chapter 8 for policy when recording obligation of funds for grants or agreements and Volume 12, Chapter 5 for accounting policy concerning these instruments.

1.2 Authoritative Guidance

1.2.1. *Title 31, United States Code (U.S.C.), Chapter 63* provides criteria for agencies to use in determining when a grant or cooperative agreement is the appropriate legal instrument between the U.S. Government and a state, local government, or other recipient.

1.2.2. *Title 32, Code of Federal Regulations (CFR), Part 22* outlines grants officers' and DoD Components' responsibilities related to the award and administration of grants and cooperative agreements.

1.2.3. *Title 2, CFR, Subtitle A and Subtitle B* prescribe Office of Management and Budget (OMB) guidance and Federal agency regulations for grants and agreements.

1.2.4. *DoD Directive 3210.06*, “Defense Grant and Agreement Regulatory System (DGARS),” assigns the Assistant Secretary of Defense for Research and Engineering the responsibility for developing and implementing DGARS policies and procedures through the issuance of the DoD Grant and Agreement Regulations (DoDGARs). The DoDGARs is codified at *2 CFR, Subtitle B, Chapter XI* and *32 CFR, Subchapter C, Parts 21-37* and, as necessary, DoD instructions and other issuances.

2.0 SUBMISSION AND PAYMENT RESPONSIBILITY

2.1 Administering Office

2.1.1. The office that issues the grant or cooperative agreement (grants officer) distributes a copy of the award to the office designated to administer the instrument of assistance, and will also promptly distribute award documents, modifications, and electronic funds transfer (EFT) information to the designated payment office (*32 CFR 22.605*). If the DoD awarding office is using a grant payment system in which the awarding office must enter the relevant details of the award into the payment system (e.g., Automated Standard Application for Payments), then this distribution is not required.
2.1.2. The award recipient will certify and forward payment requests for the performance period to the administering grants office or required payment request system. The responsibilities of the administering grants office related to payment requests are specified in 32 CFR 22.810. When the DoD awarding office is not using a grant payment system as described in 2.1.1., payment requests are required to be submitted and authorized in accordance with section 22.810 and the administering grants office must review and certify that the payment request or electronic equivalent is legal, proper, and correct (Volume 5, Chapter 5). The administering grants office also ensures the request for payment complies with the award terms and the recipient will not have excess cash on hand, based on expenditure patterns.

2.1.3. See www.grants.gov for additional information and guidance on managing and administering grants.

2.2 Designated Payment Office

The award must designate the specific payment office that will make payment (typically the Defense Finance and Accounting Service (DFAS)). The payment office must verify the propriety, adequacy, and completeness of any required documentation to substantiate amounts to be paid by the DoD. The payment office must retain all hardcopy award documentation, or have access to electronic award documentation, supporting the payment file.

2.3 Electronic Payment Process

Electronic commerce is the preferred method to submit and process payment requests in accordance with 32 CFR 22.810(b)(3). Payment by EFT is a requirement of 32 CFR 22.810(b)(2) and 31 CFR 208.3, Title 2, CFR, Part 25 requires the recipient to maintain current information about itself in the System for Award Management (SAM). The SAM is the primary Government repository for prospective Federal awardees and Federal awardee information and is the centralized Government system to support certain contracting, grants, and other assistance-related processes.

3.0 INTERNAL CONTROLS

3.1 Internal Controls - Grant Awards

OMB Circular A-123, “Management’s Responsibility for Enterprise Risk Management and Internal Control,” states that statutory requirements should be considered as part of the agency’s internal control framework that includes the Single Audit Act (31 U.S.C. §§ 7501-7507). Title 32 CFR, Part 22, subpart H provides post-award administration responsibilities between the grants office and the designated payment office regarding specific requirements for timely and accurate handling of financial transactions for grants and cooperative agreements (payments and debt collection). The agency head must establish controls that ensure obligations and costs comply with applicable laws. Safeguards must be in place to ensure DoD’s grants comply with the purpose awarded, are adequate to pay the request, and are expended within the constraints reflected in the grant. The Single Audit process, and an agency’s procedures for resolving audit findings related to those audits, are controls that assist in assuring achievement of these objectives.
3.2 Audits

Refer to \textit{2 CFR, Part 200, Subpart F, 200.501} for single audit threshold requirements. The Single Audit Act requires financial statement audits of non-Federal entities that receive or administer grant awards of Federal funds. These audits also include testing the effectiveness of internal controls and determining whether the recipients’ Federal expenditures comply with laws and regulations. Each DoD agency that provides Federal awards will review the audits of the recipients to determine whether corrective actions require implementation with respect to audit findings and perform follow up procedures to ensure that the corrective actions are implemented \textit{(2 CFR, Part 200, Subpart F, 200.513(c)(3) and 2 CFR, Part 200, Subpart F, 200.514(e))}.

3.2.1. For additional information, see the Single Audit Act information prescribed in DoD Instruction (DoDI) 7600.10, “Follow-Up and Oversight on Single Audits.” The DoDI 7600.10 establishes DoD policy for the implementation of single audit requirements in 2 CFR 200, subpart F, which was issued pursuant to 31 U.S.C.§ 7501-7507. The DoD Inspector General provides audit policy guidance and direction to the DoD Components and other Federal agencies on single audit matters related to states, local governments, Indian tribes, institutions of higher education, and non-profit organizations.

3.2.2. The DoD will rely on and use single audits. Independent auditors will conduct audits in the oversight of Federal awards provided to states, local governments, Indian tribes, institutions of higher education, and non-profit organizations. The Department may request additional audits of such Federal awards when required by regulation or as needed to ensure effective use of such Federal awards. Any additional audit effort will be planned and implemented to avoid duplication and must be separately funded.

4.0 PAYMENT REQUEST

4.1 Types of Payment Requests

The OMB guidance in \textit{2 CFR 200.305(b)(1)} states that, provided certain standards are met, recipients must be paid in advance. Reimbursement is the method of payment to be used when the standards for advance payments cannot be met or when the grants officer includes specific conditions in the award terms and conditions that require its use \textit{(2 CFR 200.305(b)(3))}.

4.2 Payment Request Forms

Except as noted, the following forms are authorized for use by the recipients in requesting advances and reimbursements from the grants office.

4.2.1. For non-construction programs with states, local governments, institutions of higher education, and other non-profit organizations, requests for advance payments or reimbursements \textit{may} be made on \textit{Standard Form (SF) 270, Request for Advance or Reimbursement, or electronic equivalent, or other prescribed forms or formats as necessary} \textit{(32 CFR,Subtitle A,Chapter 1, Subchapter C, Part 34, Subpart B, 34.12(d))}. A DoD Component must also obtain approval for any variation from OMB-approved forms or formats, including the use of
additional or electronic data elements, or modification of the associated instructions for recipient entities submitting the information.

4.2.2. For construction programs, each Federal awarding agency will use the SF 271, Outlay Report and Request for Reimbursement for Construction Programs, as the standard form, or electronic equivalent (41 CFR, Subpart 105-72.302(m)(2)). The DoD may use the SF 270 in lieu of the SF 271 when the DoD-awarding agency determines that it provides adequate information to meet Federal needs.

4.3 Commercial Recipients

For payments to commercial recipients, the grants office may authorize recipients to use SF 270 or SF 271, or prescribe other forms or formats as necessary (32 CFR 34.12(d)).

4.4 Accounting for Award Payments

Refer to Volume 12, Chapter 5 for information concerning accounting for advance payments made to the award recipients and accounting for the expenditure until the recipient has performed under the award. Payments to award recipients as reimbursements for work performed, or costs incurred, must be accounted for as expenditures and as expenses incurred, or as reductions of liabilities if the expenses were previously accrued. Title 2 CFR, Part 200, Subpart E, 200.400(d) requires the recipient to maintain adequate documentation to support the accumulation of costs charged to the Federal award. The recipient is not required to provide documentation for accumulated cost when submitting payment requests to the grants office, unless otherwise specified in a form or format approved by OMB in accordance with the Paperwork Reduction Act (44 U.S.C. § 3501).

4.5 Payment Submission Timelines

When payment requests must be authorized by the administrative grants office in accordance with 32 CFR 22.810, the administrative grants office will review each payment request to ensure the request complies with award terms, available funds are adequate to pay the request, and the recipient will not have excess cash on hand based on expenditure patterns. In these circumstances, to ensure timely payments, the administrative grants office must certify and forward the request to the designated payment office at least 3 working days before the end of the following specified periods:

4.5.1. No more than 7 calendar days after receipt of the recipient’s request at the administering office whenever electronic commerce is used, e.g., Electronic Data Interchange to request the payment and EFT to make the payment;

4.5.2. No more than 30 calendar days after receipt of the recipient’s request at the administering office when it is not possible to use electronic commerce; and

4.5.3. No more than 7 calendar days after each date specified by the award when payments are authorized in advance, on a predetermined payment schedule, provided the payment schedule
was received in the designated payment office at least 30 calendar days in advance of the date of the scheduled payment.

4.6 Prompt Payment Interest Penalties

In accordance with 5 CFR 1315.15, prompt payment interest penalties do not apply to Federal grants and cooperative agreements.

4.7 Cash Management Policy

The Cash Management Improvement Act, implemented by 31 CFR, Part 205 and 31 CFR, Part 206, sets rules, including interest liabilities and procedures, concerning the transfer of funds for Federal financial assistance programs between Federal agencies and the states.

5.0 DEBT COLLECTION FOR GRANTS AND COOPERATIVE AGREEMENTS

5.1 Collection Policy

Any funds paid to the recipient in excess of the amount to which the recipient is entitled constitutes a debt to the DoD. Grants officers are responsible for post-award administration of grants and cooperative agreements in accordance with the DoDGARs. Primary responsibility for collecting debt resulting from a grant or cooperative agreement rests initially with the grants office (see 32 CFR 22.820 for additional detailed policy). DoD awarding offices should use the Debt Collection Office (DCO) of the designated payment office as the primary debt collection option. If DFAS is not the designated payment office, DoD awarding offices may utilize the Debt Management Office of DFAS for further debt collection and administrative offset opportunities, after first utilizing the DCO. Refer to Volume 16, Chapters 1, 2, and 5 for additional detailed policy.

5.1.1. The grants officer will attempt to resolve, by mutual agreement, any claim of a recipient's indebtedness. In the absence of such mutual agreement, any claim of a recipient's indebtedness will be the subject of a grants officer decision, in accordance with 32 CFR 22.815(b)(2). The grants officer will prepare and transmit to the recipient a written notice providing all relevant data supporting the debt determination (32 CFR 22.820). The notice will inform the recipient that within 30 calendar days of the grants officer's decision, the recipient must either pay the amount owed, in accordance with instructions in the notice, or inform the grants officer of the recipient's intention to appeal the decision.

5.1.2. If the recipient has neither paid the amount due, nor provided notice of intent to file an appeal, within 30 days of the grants officer's decision, the grants officer will send a demand letter to the recipient, with a copy to the DCO (see Volume 16, Chapter 2 for general policy requirements of debt letter notifications).

5.1.3. The DCO of the designated payment office will be responsible for any further debt collection activity, including any additional issuance of demand letters (32 CFR 22.820). The
DCO will follow collection policy in Volume 16, Chapter 5 unless the DoDGARs, or the applicable grant or cooperative agreement, explicitly prescribes a different procedure.

5.1.4. Grants offices will obtain each grant recipient’s Taxpayer Identification Number (TIN) via the SAM for the purpose of collecting and reporting delinquent debts.

5.2 Offset Policy

In accordance with the provisions of OMB Circular A-129, “Policies for Federal Credit Programs and Non-Tax Receivables,” the collection of delinquent debts owed by the recipient may require the use of administrative offsets. When taking an administrative offset, the DCO will follow the due process as provided in 31 CFR 901.2, Demand for Payment, and 31 CFR 901.3, Collection by Administrative Offset (also see Volume 16, Chapter 2 and 5 for additional policy concerning offsets). Use of administrative offset is not required in every instance in which there may be an available source of funds. Either the payment office or the accounting office will make a determination on a case-by-case basis, in conjunction with the grants officer responsible for the award against which the offset will be applied. In accordance with 32 CFR 22.820(e), the following examples are when an offset will not be taken.

5.2.1. Recovery of debt by an administrative offset will not be performed when the grants officer determines that the offset will substantially interfere with, or defeat the purpose of, the program for which the offset is contemplated.

5.2.2. Generally, grants and cooperative agreements paid in advance are not subject to offset. If deemed to be in the best interest of the Government, then the payment office may request the issuing grants officer to convert the agreement to a reimbursable method of payment that would enable the use of an administrative offset.

5.3 Collection Office

The office responsible for collecting the debt will apply interest, penalty, and administrative charges to delinquent debts according to policy in Volume 16, Chapter 7.

5.4 Uncollectible Debts

Volume 4, Chapter 3 and Volume 16, Chapters 2, 5, and 7 prescribe policy for writing off debts that are determined uncollectible.
VOLUME 10, CHAPTER 20: “CONTRACT RECONCILIATION”

CHAPTER 20

CONTRACT RECONCILIATION

1.0 GENERAL

1.1 Purpose

This chapter prescribes DoD policy for Mechanization of Contract Administration Services (MOCAS) and Non-MOCAS contract reconciliations, and the requirements necessary to maintain complete, consistent, and accurate data for contract files and related entitlement and accounting records. It defines the DoD Components’ roles and responsibilities for efficiently identifying differences, conducting research, performing reconciliations, approving recommended adjustments, processing corrections, and maintaining appropriate supporting records.

1.2 Authoritative Guidance

The maintenance of complete and accurate contract files and related entitlement and accounting records is necessary to reduce the potential for Anti-Deficiency Act (ADA) violations, minimize the amount of negative unliquidated obligations (NULOs), and minimize the number and dollar value of unmatched disbursements (UMDs). Paying office contract files will include the information specified in the Federal Acquisition Regulation (FAR) paragraph 4.803(c). The use of accounting classification reference numbers (ACRN) and contract line items is described in the Defense Federal Acquisition Regulation Supplement (DFARS) 204.7101, DFARS 204.7103-1, and DFARS 204.7107. The streamlined closeout of contract files is described in DFARS 204.804 and section 5.0. Disbursements will be authorized, classified, processed, and promptly posted and reported, as discussed in Volume 5, Chapter 9.

2.0 RESPONSIBILITIES

2.1 Responsible Contract Reconciliation Agent (RCRA)

RCRAs manage the daily operations of contract reconciliation and are responsible for the completion of contract reconciliations. The RCRA is responsible for reviewing the reconciliation request, determining the appropriate level of effort, setting the priority, coordinating assistance, accepting or rejecting reconciliation results, approving adjustments, and ensuring that refunds or demands for payment are initiated. Instructions and guidance on the RCRA’s role in contract reconciliation are contained in the User Manual for the Standard Contract Reconciliation Tool (SCRT).

2.2 Director, Defense Finance and Accounting Service (DFAS)

The Director, DFAS, is the principal DoD executive for the finance and accounting requirements and procedures as prescribed by DoD Directive 5118.05. The Director, DFAS has the following responsibilities:
2.2.1. Assist with providing specific instructions and computer-based tools necessary to identify, analyze, reconcile, track, and correct differences between written contracts, entitlement, disbursement, and related accounting systems. The instructions will include criteria for determining the nature and scope of required analyses;

2.2.2. Provide entitlement and accounting system information to individuals participating in negotiating settlements;

2.2.3. Train and maintain a core group of individuals who meet the qualification requirements to perform responsibilities prescribed by the SCRT manual (to include RCRAs, reconcilers, and assistants);

2.2.4. Designate qualified DFAS personnel to be trained as part of the core group, and assign RCRA personnel to oversee and perform contract reconciliations; and

2.2.5. Ensure that the Systems Support Office-DFAS Columbus will provide support to the RCRAs and maintain the SCRT, which is a DoD-wide database that contains a listing of RCRAs, core group members, and contracts being reconciled. SCRT users will receive support from the help desk at disa.global.servicedesk.mbx.application-ticket-request@mail.mil.

2.3 Enterprise Resource Planning (ERP) Systems

Heads of DoD Components utilizing ERP systems will assume responsibilities to provide data for the support and coordination of contract reconciliation functions performed under the direction of DFAS. The roles and responsibilities of DFAS and the ERP Components may change as the interfaces between SCRT and the ERPs are developed.

2.4 Reconciliation Partners

All RCRA reconciliation partners (procurement contracting officers (PCOs), administrative contracting officers (ACOs), resource managers, and program managers) will perform their respective or combined duties as they relate to the following:

2.4.1. Participating in contract reviews and reconciliations, and assist in the identification and resolution of differences between written contracts and entitlement, disbursement, and accounting systems;

2.4.2. Comparing the ACRNs of the contract with data in the entitlement and accounting systems. When discrepancies occur, the appropriate entitlement and accounting office will be notified of any significant difference(s), and the appropriate office will provide required supporting documentation;

2.4.3. Responding in a timely manner to reasonable requests for action, information, and/or documentation on a contract or modification;
2.4.4. Modifying the contract to correct any disclosed discrepancies in accordance with *FAR 43*; and

2.4.5. Designating personnel to be trained as part of the core group of individuals from the DoD Components who oversee and perform contract reconciliations.

### 3.0 CONTRACT RECONCILIATION

#### 3.1 Reconciliation Referrals

Normally, at the end of the contract, the total payments made to the contractor should match the total of funds obligated on the contract. Cost underruns, payment errors, unearned incentives, or withheld fees may be some of the causes that can result in unliquidated obligations at the completion of the contract. When remaining or excess fund balances exist that cannot be explained, reconciliation may be required to compare all source documents with the entitlement and accounting systems. MOCAS contracts will be forwarded to DFAS Columbus to perform reconciliations. Non-MOCAS contract reconciliations will be performed by the designated entitlement office administering payments for those contracts. See the SCRT manual for reconciliation request guidance.

#### 3.2 Discrepancy Identification

When a discrepancy between contract payments and accounting records is identified, a preliminary contract review must be performed by the appropriate RCRA, or designated entitlement office, to determine what corrective action is needed. Recommended adjustments will be reviewed and approved by qualified personnel before distribution to the appropriate location(s) for processing. Approved adjustments must be posted in a timely manner. Reconciled records will be identified by registration in the SCRT. Any subsequent adjustment of reconciled records will be based on a reconciliation registration as prescribed in paragraph 3.5. All actions of contract reconciliation will support the timely completion of funds review, deobligation of excess funds, and contract closeout procedures found in *FAR 4.804*. The related requirements for researching and correcting NULOs, UMDs, disbursements in suspense accounts, and disbursements in-transit are covered in Volume 3, Chapter 11.

#### 3.3 Conditions for Contract Reconciliation

The following circumstances may indicate discrepant conditions that require preliminary contract review or contract reconciliation:

3.3.1. Incomplete contract, payment, or accounting information;

3.3.2. Insufficient funds;

3.3.3. Un-recouped progress payment balances at or near contract completion;

3.3.4. Possible overpayments;
3.3.5. **UMDs**; and

3.3.6. **NULOs**.

### 3.4 Prioritization Concerns

DoD Components will prioritize the analyses of discrepant conditions in view of applicable time limitations and other circumstances. High priority conditions include those that involve congressional or senior DoD management interest, potential ADA violations, prevalidation problems, insufficient funds for payment, suspected or identified overpayments, transactions with the highest dollar value, and cancelling/closing-year appropriations.

### 3.5 Registration in the SCRT

Each contract nominated for reconciliation must be registered in the SCRT database of contracts being reconciled. By registering a formal reconciliation request into the DoD contract reconciliation system, the opportunity for duplicated efforts by other DoD Components is greatly reduced or eliminated. Resources, procedural guidance, forms, and other reconciliation tools used to obtain vital information for the contract reconciliation registration process can be obtained from DFAS Columbus Accounts Payable – MOCAS, Reconciliation Division at dfas.dscj.ai.mbx.recon-maillog@mail.mil. For more information on reconciliation tools used in the contract reconciliation process, refer to section 4.0.

### 3.6 Required Actions

The individual assigned to perform contract reconciliation, whether a Government employee or contractor, will compare databases, research differences, identify root cause(s), and recommend adjustment(s) needed to correct differences between contract, entitlement, and accounting records. Differences among systems will be researched to determine whether errors exist, where they exist, and the extent of such errors, as well as the required corrective actions. Every effort should be made to complete contract reconciliations within 90 days after initiation.

3.6.1. **Contract reconciliations should include, as applicable, a review and analysis of:**

3.6.1.1. The basic contract, including any modifications, and all obligation actions in all systems;

3.6.1.2. Payment vouchers;

3.6.1.3. Contract payment system records;

3.6.1.4. Official accounting system(s) records for all funds on the contract; and

3.6.1.5. Adjustments, including any collection actions or expenditure transactions, to the contract payment and accounting system(s) records that have been processed.

3.6.2. Differences that require adjustment generally are identified as:
3.6.2.1. Contractual documents that require correction by the ACO or PCO; and

3.6.2.2. Obligation posting documents (omissions or corrections) that require initiation or correction by the responsible funds holder or responsible accounting office.

3.6.3. If the accounting system records require correction, and the entitlement records are correct, then a correction (internal adjustment) is required for the accounting system records to balance with the corresponding entitlement system.

3.6.4. If entitlement office payment system records require a correction, and the accounting system records are correct, then a correction (internal adjustment) is required for the entitlement office payment records to balance with the corresponding accounting system.

3.6.5. If identical correcting adjustments are required by both the entitlement office payment system records and the accounting system records, then corrections (external adjustments) are required to be processed by the responsible entitlement office, and they must flow to the corresponding accounting system.

3.7 Documentation and Review

Documents accumulated during a contract reconciliation must be retained, made available for, and be subject to, internal review and audit.

3.7.1. The DoD Component responsible for the review and acceptance of the recommended adjustments must retain adequate documentation to support any adjustment that is processed. Each completed adjustment file will include the preparer’s identity, approval, and confirmation of the posting of the adjustment.

3.7.2. The retention of adjustment files by the DoD Component will be in accordance with the financial record retention requirements in Volume 1, Chapter 9. Foreign Military Sales retention requirements are in Volume 15, Chapter 6.

3.8 Internal Controls

Internal Controls will be incorporated into the operations of all stakeholders to maintain complete, consistent, and accurate data for contract files and related entitlement and accounting records throughout the life of the contract, as discussed in Chapter 1.
4.0 RECONCILIATION TOOL

The SCRT is a DoD-wide registration database and reconciliation tool. In cases where SCRT is not interfaced with an accounting system, other existing tools may be used to identify discrepant conditions and aid in their resolution. Further details on SCRT capabilities and instructions for system access and use can be found in the comprehensive DFAS guide, User Manual for the SCRT.

5.0 STREAMLINED CONTRACT CLOSEOUT

5.1 Criteria

In accordance with the Fiscal Year (FY) 2017 National Defense Authorization Act (NDAA) and with DFARS 204.804(3)(i), as modified by Section 820 of the FY 2021 NDAA, contracting officers may close out contracts, or groups of contracts, through issuance of one or more modifications to such contracts without completing a reconciliation audit or other corrective action in accordance with FAR 4.804-5, as appropriate, if each contract:

5.1.1. Was entered into on a date that is at least 7 FYs before the current FY;

5.1.2. With respect to a contract or group of contracts for military construction or shipbuilding was entered into at least 10 fiscal years before the current fiscal year;

5.1.3. Has been completed at least 4 years before the current fiscal year, in terms of performance or delivery; and

5.1.4. Has been determined by a contracting official, at least one level above the contracting officer, to be not otherwise reconcilable, because:

5.1.4.1. The contract or related payment records have been destroyed or lost; or

5.1.4.2. Although contract or related payment records are available, the time or effort required to establish the exact amount owed to the U.S. Government, or amount owed to the contractor, is disproportionate to the amount at issue.

5.2 Identification and Documentation

Agencies and DoD Components must partner closely to identify potential contracts for closeout under the NDAA legislative authority and must maintain a documented record of all contracts closed under the authority. The Deputy Chief Financial Officer policy memorandum, “National Defense Authorization Act Contract Closeout Authority (FPM 19-06),” dated May 14, 2019, contains critical procedural implementation guidance and can be accessed on the Office of the Deputy Chief Financial Officer/Financial Management Policy and Reporting website under Dual Purpose Policy Memos & Other Information (Common Access Card-enabled).
5.3 Remaining Balances – Same Contract

Modifications issued under this authority may offset remaining contract balances with balances in other contract line items within the same contract, regardless of the year or type of appropriation obligated to fund each contract line item and regardless of whether the appropriation obligated to fund such contract line item has closed/canceled.

5.4 Remaining Balances – Other Contracts

Modifications issued under this authority may offset remaining contract balances with balances on other contracts meeting the legislative criteria, regardless of the year or type of appropriations obligated to fund each contract and regardless of whether such appropriations have closed/canceled.

5.5 Adjust and Close

After closeout of any contract by the issuance of a negotiated settlement modification, the payment or accounting offices concerned must adjust and close any open finance and accounting records related to the contract(s).

5.6 Liability

As prescribed by Section 836 of the FY 2017 NDAA, no liability will attach to any accounting, certifying, or payment official, or any contracting officer, for any adjustments or closeouts made pursuant to the authority under the DFARS 204.804.

CHAPTER 21

JUNIOR RESERVE OFFICER TRAINING CORPS (JROTC)
INSTRUCTOR PAY

1.0 GENERAL

1.1 Overview

This chapter prescribes the financial management policies applicable to the reimbursement of the DoD portion of JROTC Instructor Pay worldwide to public and private secondary educational institutions and Department of Defense Dependent Schools (DoDDS).

1.2 Purpose

This chapter applies to all Military Services. The term “Military Services” refers to the Army, Navy, Air Force, Marine Corps, and Space Force.

1.3 Authoritative Guidance

DoD Instruction (DoDI) 1205.13, JROTC Program, and Title 10, United States Code (U.S.C.), section 2031 provide policy and guidance regarding the JROTC program. The Office of Management and Budget Circular A 130 Appendix II, prescribes the use of electronic processes and digital signatures whenever it is possible and in the best interest of the Government.

2.0 DEFINITIONS

2.1 Academic Year

An academic year is the period of time necessary to complete one JROTC course, normally consisting of not less than 7,200 minutes of instruction.

2.2 Active Duty Pay and Allowances

For calculating JROTC instructor pay, active duty pay and allowances are limited to the types described in subparagraphs 2.2.1 through 2.2.7. See DoDI 1205.13, section 3, for guidance on active duty pay and allowances.

2.2.1 Basic Pay. Basic pay is the pay of an officer or an enlisted member according to grade and longevity, before additional amounts for quarters, subsistence, and overseas duty. See Volume 7A, Chapter 1 for computing creditable service at the time of retirement.

2.2.2 Basic Allowance for Housing (BAH). The rate of BAH entitlement is based on the instructor’s current dependent status and permanent duty station zip code. The permanent duty station for an instructor is the employing school. Dependency determination requirements are the
same as when the instructor was on active duty. See Volume 7A, Chapter 26 for guidance on BAH.

2.2.3. Continental United States (CONUS) Cost Of Living Allowance (COLA). CONUS COLA is designed to serve as a temporary reimbursement for instructors employed in high-cost areas in CONUS to partially offset additional expenses incurred. The rate of entitlement is based on the instructor’s grade, dependent status, and the zip code of the employing school, as specified in Volume 7A, Chapter 67.

2.2.4. Overseas COLA. The overseas COLA is designed to assist instructors employed at schools outside CONUS. The rate of entitlement is based on the instructor’s grade, number of dependents claimed, and the geographic COLA location applicable to the employing school located overseas, as specified in Volume 7A, Chapter 68.

2.2.5. Overseas Housing Allowance (OHA). OHA is payable to instructors working at schools located overseas to assist in defraying excess costs incurred incident to these locations. OHA is calculated by comparing the member’s monthly rent to the prescribed locality rental allowance, selecting the lesser of the two, and then adding the appropriate utilities/recurring maintenance allowance. See Volume 7A, Chapter 26 for guidance on OHA.

2.2.6. Clothing Replacement Allowance (CRA). The entitlement to CRA is limited to enlisted instructors only and amounts depend on the branch of service and service member gender. The CRA is normally an annual entitlement based on 12 consecutive months of active duty. An applicable monthly rate will be used for instructors since their contracts are for a period of less than 12 months. See Volume 7A, Chapter 29 for guidance on CRA.

2.2.7. Basic Allowance for Subsistence. This entitlement is payable to individuals officially allowed to eat their meals (for various reasons) outside a military dining facility. The monthly rate of entitlement is based on the instructor’s pay status (enlisted or officer). See Volume 7A, Chapter 25 for guidance on the basic allowance for subsistence.

2.3 DoDDS

DoDDS are a network of schools, both primary and secondary, that serve dependents of the U.S. military and dependents of U.S. Government employees. The schools themselves are operated by the Department of Defense Education Activity.

2.4 Domestic Dependent Elementary and Secondary Schools (DDESS)

A DDESS special arrangement is an agreement between the Secretary of Defense, or designee, and a local public education agency whereby a school or a school system operated by the local public education agency provides educational services to eligible dependent children of U.S. military personnel and federally employed civilian personnel. Arrangements result in partial or total federal funding for the local public education agency for the educational services provided.
2.5 Gross Retired Pay (or Retainer Pay)

The gross retired pay, or retainer pay, is the entitlement that is computed under 10 U.S.C. chapter 61, 10 U.S.C. chapter 71, or 10 U.S.C. chapter 1223, whichever chapter is applicable to the member. For Navy and Marine Corps members retired with more than 20 years of service but less than 30, pay received following retirement is referred to as retainer pay until the member reaches the 30-year mark. Pay received following the 30-year mark is referred to as retired pay.

2.6 Instructor Management Division (IMD)

The IMD is the office within a Military Service responsible for certifying instructors.

2.7 JROTC Instructor Reimbursement Office (JIRO)

The JIRO is the office within a Military Service responsible for maintaining instructor accounts for reimbursement to a school or school district.

2.8 JROTC Unit

A JROTC unit is an organized group of JROTC students and faculty members at one secondary school.

2.9 Minimum Instructor Pay (MIP)

The MIP is the minimum salary that a school or school system hosting a JROTC unit is required to pay an instructor for instructor duties in direct support of the JROTC program. MIP is the difference between the active duty pay and allowances the instructor would receive when recalled to active duty and the instructor’s retired pay entitlement.

3.0 PRESCRIBED FORMS

3.1 Department of Defense (DD) Form 2767

Paragraphs 7.2, 8.1, and 8.2 discuss the use of DD 2767, JROTC Instructor Annual Certification of Pay and Data Form.

3.2 DD Form 2754

Paragraphs 5.3, 7.3, 7.4, and 8.2 discuss the use of DD 2754, Junior Reserve Officer Training Corps (JROTC) Instructor Pay Certification Worksheet for Entitlement Computation.
3.3 Standard Form (SF) 3881 and 1080

Paragraph 5.3 discusses the use of SF 3881, ACH Vendor/Miscellaneous Payment Enrollment Form and SF 1080, Voucher for Transfers between Appropriations and/or Funds.

4.0 REIMBURSEMENT RESPONSIBILITIES

4.1 Military Services

The Military Services will reimburse each JROTC program school for JROTC instructor pay at the rate of one-half the amount of the difference between the instructor’s retired or retainer pay and the amount of active duty pay and allowances (excluding hazardous and special duty pays) the instructor would receive when ordered to active duty.

4.2 Schools

Schools meeting specific criteria of need, if determined to be in the national interest by the appropriate Secretary of the Military Department (or designee), may receive additional instructor funds when either of the following applies:

4.2.1. On-site visits by representatives of JROTC headquarters elements determine the neighborhood in which the school is located has a substandard quality of life, with family incomes below the poverty level and a high incidence of violent crime; or

4.2.2. Additional criteria, as determined by the appropriate Secretary of the Military Department or designee concerned, whereby the school is in an educationally and economically deprived area to meet a compelling need of the community or national interest.

5.0 REIMBURSEMENT REQUIREMENTS AND PROCESS

5.1 Requirements for Authorizing Reimbursement

The JIRO authorizes reimbursement to the schools only for those instructors:

5.1.1. Who are certified as qualified instructors by the cognizant Military Service;

5.1.2. For whom funding has been authorized by the Military Service; and

5.1.3. Who are filling positions authorized by the Military Service.

5.2 JROTC Units in DoDDS and DDESS Schools

5.2.1. DoDDS JROTC instructors will be employed under provisions of 20 U.S.C. §§ 901-907.

5.2.2. DDESS JROTC instructors will be employed under provisions of 10 U.S.C. § 2164.
5.2.3. Pay and allowances for both DoDDS and DDESS JROTC instructors will be in accordance with 10 U.S.C. § 2031.

5.3 School Reimbursement Process

5.3.1. The amount of the reimbursement to the school generally is equal to 50 percent of an instructor’s MIP. The Secretary of the Military Department concerned may pay to the school more than 50 percent of the amount paid to the member by the school if the specific criteria of needs in paragraph 4.2 are met, as prescribed in 10 U.S.C. § 2031(e)(2). The JIRO must ensure that documentation supporting these reimbursements is retained in accordance with Volume 1, Chapter 9 and is readily available to support future audit efforts. The documentation should be of sufficient quality to allow an independent third party, such as an outside auditor, to understand and verify the basis of the reimbursement.

5.3.2. The amount is calculated based on the information and documentation required on the DD 2754, adjusted to reflect the agreed-upon reimbursement rate/amount between the Military Service and the school.

5.3.3. Monthly statements of the reimbursements are forwarded by the JIRO to the school and the school district. These statements will show the total amount paid to each instructor working at the school.

5.3.4. An electronic funds transfer (EFT) for the reimbursement to the school is sent to the financial institution designated by the public and private educational institutions. DoDDS schools are reimbursed based on the JIRO approval of amounts cited on the DD 2754 by funds transfer via the Intragovernmental Payment and Collection (IPAC) system or SF 1080.

5.3.5. Schools must provide the financial banking information via the SF 3881, or by using the System for Award Management when the school is new to the JROTC program or when there is a change to its previously provided banking information.

6.0 JROTC UNIT ESTABLISHMENT AT SCHOOLS

6.1 School Verification

An authenticated copy of the countersigned contract between a school and the Military Service must be provided to the JIRO in order to verify and provide documented support that schools requesting payment are active participants in the JROTC program.
6.2 Addresses

Authorized officials occupying the positions stated in the contract between a school and the Military Service are responsible for supplying the current address of the school employing each instructor.

7.0 JIRO

7.1 JIRO Reimbursement Requirements

The school is the employing organization and pays the full amount due the JROTC instructor. This amount is not less than the MIP referenced in paragraph 2.9. Each JROTC instructor negotiates his or her own contract with the school. The Military Service JIRO will authorize reimbursement to the school for up to 12 months per academic year, but only for the period of time the instructor is under a valid contract and is receiving a salary equal to, or greater than, the MIP. The amount of the reimbursement to the school generally is equal to 50 percent of an instructor’s MIP as identified in subparagraph 5.3.1.

7.2 JIRO Employment Verification Process

Each school must forward to the JIRO a copy of the DD 2767 within 30 days of the instructor’s employment. Reimbursements for that instructor will be held in abeyance until this form is received by the JIRO.

7.2.1. Each school must submit a DD 2767 annually for those JROTC instructors continuing employment at the school in the upcoming academic year.

7.2.2. The form must be received prior to the end date of an instructor’s current contract to ensure uninterrupted reimbursement.

7.2.3. Schools are reimbursed only when there is a current form on file at the JIRO.

7.3 Entitlement Computation

For each new instructor, reimbursement to the school will be computed using the DD 2754, and as stated in paragraph 5.3.

7.4 Entitlement Recertification

Instructors must recertify dependent status and permanent duty station (school) zip code for entitlement to BAH and OHA (as applicable). A DD 2754 is used to fulfill the recertification requirement.

7.4.1. Recertification is required upon request of the servicing JIRO, or upon a change in the instructor’s dependent status or employment zip code.
7.4.2. OHA recertification is required each year.

8.0 SEPARATIONS, TRANSFERS, DECERTIFICATIONS, AND DISESTABLISHMENTS

8.1 Separations

Each employing school must forward a DD 2767, or termination letter, containing the applicable date to the JIRO immediately upon the separation or death of an instructor. Separation of an instructor occurs when that instructor resigns his or her position at a specific school. If notification is not received in a timely manner, then future reimbursement to the school must be adjusted by the JIRO to reflect the actual period of time the instructor performed duties as a JROTC instructor and to collect any over reimbursement.

8.2 Transfers

A transfer of an instructor occurs when he or she resigns the position at one school and accepts a position at another school. Transfers must be processed as a separation from one school and a new hire at another school. Both the losing and gaining schools must forward to the JIRO a DD 2767. The instructor must immediately forward an updated DD 2754, as stipulated in paragraph 7.4, to the JIRO.

8.3 Decertification

A Military Service may, for cause, decertify a JROTC instructor for employment eligibility. The IMD must immediately notify the JIRO of those instructors who have been decertified and currently are under contract with a school. Future reimbursement to the school must be adjusted by the JIRO to reflect the actual period of time the instructor performed duties as a JROTC instructor and to collect any over reimbursement.

8.4 Disestablishment of JROTC Units

Disestablishment of a JROTC unit normally occurs upon determining that the unit will not meet the standards specified by the Military Service, or the unit cannot maintain the statutory minimum student enrollment. The disestablishment of a unit voids the contract between the Military Service and the school. Therefore, instructor pay reimbursements to the school are terminated, and the JIRO must authorize final reimbursement to, or initiate collection action from, the school.

9.0 FINANCIAL MANAGEMENT

9.1 Military Service Responsibilities

Each Military Service will be the holder and manager of its JROTC funds. The JIRO concerned must authorize and assign the funds to the proper line of accounting and verify each JROTC instructor’s pay computation and associated reimbursement amount for each school for
accuracy prior to disbursement by the designated paying office. The JIRO also monitors the budget execution throughout the assignment of the JROTC instructor.

9.2 Military Pay Operations Responsibilities

Based on the authorization received from the JIRO and verification of fund availability, military pay operations certifying officers will perform payment certification and submit to the designated paying office for all school disbursements. Certifying officers must be appointed in accordance with Volume 5, Chapter 5. Reimbursement to DoDDS must be made via a separate IPAC transfer that cites the applicable appropriation provided for DoDDS.

9.3 Designated Paying Office Responsibilities

Reimbursement to the school must be made only after the JIRO concerned has verified the payroll data, authorized fund availability, and received concurrence from the appropriate accounting office, and after military pay operations has provided certification. The Defense Finance and Accounting Service (DFAS) designated paying office will disburse funds for school reimbursements based upon an SF 1034, Public Voucher for Purchases and Services Other Than Personal, for each of the Military Service’s payments to the school districts. Funds must be sent via EFT to the financial institution of the school, with the exception of reimbursements to the DoDDS schools, which are transferred via the IPAC system.

10.0 IDENTIFICATION AND COLLECTION OF JROTC-RELATED DEBTS

10.1 Debt Identification

The JIRO is responsible for debt identification. A debt accrues when a school or school district is over-reimbursed for the pay of an instructor(s). The following are examples of when debts might accrue:

10.1.1. Instructor transferred to another school. This possibly results in the losing school being over-reimbursed and the gaining school being under-reimbursed;

10.1.2. Instructor separated from instructor program;

10.1.3. Instructor dies; or

10.1.4. Instructor’s contract ending date changed, thereby shortening the contract period.

10.2 Debt Collection Process

Collection of a debt is accomplished by a fully documented adjustment to the amount of reimbursement paid to the school for the next calendar month, with one exception. When a debt is owed by a school that no longer has JROTC instructor(s) and is not due any further reimbursements, collection action will be in accordance with Volume 16, Chapter 5.
10.2.1. In those instances in which a school does not have a future reimbursement to adjust/offset, the JIRO must initiate collection action from the school directly via the use of a demand letter. See Volume 16, chapter 5 for the policy requirements and guidance. Amounts collected must be forwarded to the JIRO as the debt collection office.

10.2.2. After the JIRO has completed all related actions specified in Volume 16, Chapter 5, paragraph 5.2, uncollected debts 90 days delinquent must be referred to the DFAS Debt Management Office, and uncollected debts 120 days delinquent must be referred to the Bureau of the Fiscal Service for further collection action, as prescribed in 31 U.S.C. § 3716(c)(6)(A).

CHAPTER 22

PAYMENT RECOVERY AUDITS

1.0 GENERAL

1.1 Overview

All programs or activities, as defined by Office of Management and Budget (OMB) Circular A-123, Appendix C, with annual payments that exceed $1 million must implement and utilize a cost-effective recovery audit and activities program to recover improper payments. Recovery audit requirements apply to all types of payments, except for intra-governmental transactions.

1.2 Purpose

This chapter establishes the DoD policy for implementation of recovery audits in accordance with the laws and regulations cited herein.

1.3 Authoritative Guidance

This chapter establishes policies and requirements based on the Payment Integrity Information Act (PIIA) of 2019 (Public Law 116-117), as codified in Title 31, United States Code (U.S.C.), Chapter 33, Subchapter IV. Except for sections specifically noted in the PIIA, the PIIA supersedes and repeals the Improper Payments Information Act of 2002, the Improper Payments Elimination and Recovery Act (IPERA) of 2010 (31 U.S.C. § 3301 note), and the Improper Payments Elimination and Recovery Improvement Act of 2012 (31 U.S.C. § 3321 note). This chapter also incorporates associated implementing guidance found in OMB Circular A-123, Appendix C, and the financial reporting requirements of OMB Circular A-136.

2.0 DEFINITIONS

2.1 Recovery Audit

A recovery audit is a review and analysis of an agency’s or program’s accounting and financial records, supporting documentation, and other pertinent information supporting its payments, that is specifically designed to identify overpayments. It is not an audit in the traditional sense covered by Generally Accepted Government Audit Standards. Rather, it is a detective and corrective control activity designed to identify and recapture overpayments, and, as such, is a management function and responsibility (OMB Circular A-123, Appendix C).

2.2 Recovery Audit and Activities Program

This is a Component’s overall plan for risk analysis and the performance of recovery audits and recovery activities. The agency head will determine the manner and/or combination of...
recovery activities to use that are expected to yield the most cost-effective results. These activities should include a management improvement program if appropriate. A copy of the Consolidated DoD Recovery Audit and Activities Program Plan must be provided to the DoD Inspector General (DoDIG) annually.

2.3 Recovery Activities

A recovery activity includes any activity, not defined as a recovery audit (see paragraph 2.1), used by an agency to identify and recapture overpayments. Recovery activities include but are not limited to review of Single Audit reports; self-reported overpayments, statistical samples conducted under PIIA; and agency post-payment reviews.

2.4 Recovery

Recovery refers to the return of a monetary loss-type improper payment to the agency. This can occur as a result of recovery audits or recovery activities.

2.5 Cost-Effective Recovery Audit and Activities Program

A cost-effective recovery audit and activities program is one in which the benefits (i.e., recovered amounts) exceed the costs (e.g., staff, time, resources, or payments for the recovery audit contractor) associated with implementing and overseeing the program. Each agency will determine the most cost-effective combination of recovery activities and recovery audits as part of their Recovery Audits and Activities Program.

2.6 Improper Payment

An improper payment is any payment that should not have been made, or that was made in an incorrect amount, under statutory, contractual, administrative, or other legally applicable requirements. Incorrect amounts are overpayments or underpayments that are made to eligible recipients. An improper payment also includes any payment that was made to an ineligible recipient, for an ineligible good or service, or for goods or services not received (except for such payments authorized by law). See Volume 4, Chapter 14 for additional details on improper payments and reporting requirements.

2.7 Overpayment

An overpayment refers to a payment in excess of what is due. When an overpayment occurs, the improper amount is the difference between the amount due and the amount of which was actually paid. Overpayments are improper payments resulting in a monetary loss.

2.8 Monetary Loss

Monetary loss to the Federal Government is an amount that should not have been paid and in theory should/could be recovered. A monetary loss-type improper payment is an overpayment.
2.9 Recovery Audit Contingency Contract

This type of contract is for recovery audit services in which the contractor is paid for its services as a percentage of overpayments actually collected. Clear evidence of overpayments must be provided by the contractor to the appropriate Component official.

2.10 Post-Award Audit

A post-award audit refers to a post-award examination of the accounting and records of a payment recipient that is performed by a Component official, or an authorized representative of a Component official, pursuant to the audit and records clauses incorporated into the contract or award. An audit is normally performed by an internal or external auditor that serves in an advisory capacity to the Component official. A post-award audit, as distinguished from a recovery audit, is normally performed for the purpose of determining if amounts claimed by the recipient are in compliance with the terms of the award or contract, and with applicable laws and regulations. Such reviews involve the recipient’s accounting records, including the internal control systems.

3.0 DoD RECOVERY AUDIT AND ACTIVITIES PROGRAM

3.1 Applicability

3.1.1. As prescribed by OMB Circular A-123, Appendix C, the Component head will determine the manner and/or combination of payment recovery activities to use within the agency’s recovery audit and activities program that are expected to yield the most cost-effective results.

3.1.2. If a Component concludes that implementing this type of review for a program or activity is not cost-effective, then it must submit a quantitative justification to the Office of Under Secretary of Defense (Comptroller) (OUSD(C)), Office of the Deputy Chief Financial Officer (ODCFO), Financial Management Policy and Reporting (FMPR) Directorate, for approval.

3.1.3. When determining the cost-effectiveness of the use of recovery audit contingency contracts, any Defense Finance and Accounting Service (DFAS) resources used to assist the recovery audit contractor must be taken into consideration. This includes the cost of providing government records, researching claims, and recovering amounts due the government. See the OMB Circular A-123, Appendix C, for additional information concerning specific criteria agencies are to consider in determining the cost-effectiveness of a recovery audit and activities program.

3.1.4. Recovery audits will be implemented in a manner designed to ensure the greatest financial benefit to the Component. In most cases the combination of payment recovery activities, predominantly internal controls, are expected to yield the most cost-effective and beneficial results. Recovery Audit and Activities, coupled with the financial management roles and responsibilities for all of the PIIA established programs, will ensure timely overpayment corrective actions and streamlined recoupment processes.
3.1.5. Components will report the results of their recovery audit and activities program in accordance with section 5.0 and OMB Circular A-136, Financial Reporting Requirements.

3.2 Annual Plan Submission

3.2.1. All Components that expend $1 million or more annually for each program and activity must perform a reassessment of their annual recovery audit plan to determine its validity, and provide any updates or improvements to their plan not later than August 31 of each year, for use during the upcoming fiscal year (FY) to:

OUSD(C)/ODCFO/FMPR
1100 Defense Pentagon – Suite 3D150
Washington, DC 20301-1100

3.2.2. At a minimum, this plan must include:

3.2.2.1. A cost-effectiveness analysis;

3.2.2.2. The estimated total dollar amount of payments by program or activity for the current FY;

3.2.2.3. Any additional collection/recovery audits and/or risk mitigation activities the Component plans to use in addition to its current DoD recovery audit and activities program;

3.2.2.4. The dollar amount of payments the Component plans to review using these additional activities or audits;

3.2.2.5. What entity will perform the recovery audits (internal, external, or contractor resources);

3.2.2.6. The proposed methodology; and

3.2.2.7. The period of review.

3.2.3. In addition, if the Component head determines that performing recovery audit activities is not cost-effective for certain categories of disbursements, as further described in paragraph 6.2, the quantitative justification must be included in this plan.

3.3 Establishing Targets for Recovery Audit and Activities Programs

For each recovery audit and activities program established, annual recovery targets must be set. DoD is required to establish annual targets for their recovery audit and activities programs for each Department established PIIA program (i.e., Civilian Pay, Military Pay for each Branch, Commercial Pay, Travel Pay, Retired and Annuitant) that will drive their annual performance. Targets will be based on the rate of recovery (i.e., the amount of improper contract overpayments recovered divided by the amount of improper contract overpayments identified) and are expected
to be set to show an increase in recoveries over time. Each Component will provide their annual recovery targets to OUSD(C)/ODCFO/FMPR for review and approval (see paragraph 3.2). The OUSD(C)/ODCFO/FMPR, in turn, will submit targets to OMB for review as part of the annual approval process of Agency Financial Reports (AFR) and Performance and Accountability Reports (PAR), coupled with the OMB Annual PIIA Tables and Data call submission.

4.0 OVERPAYMENT IDENTIFICATION

While it is preferable that Components focus efforts toward preventing overpayments from occurring, it is important for Components to have cost-effective means to both identify and recover overpayments if they do occur. Components use a variety of policies and activities to identify and recover overpayments. The following subsections and examples, which come directly from the OMB Circular A-123, Appendix C guidance, are not meant to provide an exhaustive list of overpayment identification methods, rather they are meant to help Components strengthen their overpayment identification processes. Each Component must determine the most cost-effective method for their particular circumstances.

4.1 Reviews

Reviews are a mechanism Components use to assist with identification of overpayments across the Federal Government. This includes but is not limited to activities such as improper payment risk assessments conducted under PIIA, agency post-payment reviews, Budget Execution Monthly Reviews, Dormant Account Reviews, monitoring debt collection software to track recovery of overpayments, SF-50 vs. SF-52 validation, and Sampling and Estimation Methodology Plans conducted under PIIA.

4.2 Audits

The use of audits is a common mechanism that assists in identifying overpayments. Examples include but are not limited to performance of post-award audits, recovery auditing techniques such as data matching with Federal, State, and local databases, audit reports, GAO audits, DoDIG audits, and the results of the agency audit resolution and follow-up process.

4.3 Data Analytics

Using data analytics to identify overpayments is not only beneficial for identifying overpayments after they have occurred, but establishing a robust data analytics effort can move an agency from a “pay-and-chase” approach to a predictive approach allowing the agency to identify potential improper payments before they even occur. There are a wide range of analytics techniques available such as rule-based, anomaly detection, predictive analytics, network/link analytics, or text analytics. Examples of analytics approaches used to identify overpayments include, but are not limited to, using data analytics to monitor and detect misuse in ongoing complex contracts, to monitor and detect misuse in Government purchase cards, for identifying above average payments to a vendor, for identification of duplicate payments, or to identify amounts exceeding purchase orders.
4.4 Reports

While reports are in a “pay-and-chase” status, programs can often use the reports to help identify weaknesses in internal controls that, if strengthened, could prevent future overpayments from occurring. Examples of such reports include, but are not limited to, GAO reports, reports from the public such as new media, or self-reported errors.

4.5 Reconciliations

Reconciliations are a common accounting mechanism which identify overpayments. Examples include but are not limited to conducting contract reconciliations by comparing invoices, receiving reports, and payments; verifying the terms of the contract have been met and are properly recorded, performing reporting and accounting outlays reconciliations, performing service provider payroll disbursement reconciliations, performing general ledger gross pay file reconciliations, or reconciling employee data with the accounting and disbursing systems. When overpayments are identified through reconciliation programs, Components should review their internal controls and determine whether additional mitigation strategies should be established to prevent the overpayments from occurring in the future.

5.0 REQUIRED REPORTING

5.1 Annual Reporting

Components must report annually on their recovery audit and activities programs. Components must consult with the DFAS Enterprise Audit Support & Compliance to ensure proper coverage of improper payments and payment recovery actions and to prevent duplicate reporting. Components must inform OUSD(C)/ODCFO/FMPR if suspension or limitation occurs in the Component monitoring/oversight activities. In order to meet the AFR reporting schedule, Component reporting of their recovery audit and activities program is due no later than the dates established in the annual Consolidated DoD Recovery Audit and Activities Program Plan.

*5.2 OMB Circular A-136 Required Reporting

5.2.1. The DoD must report in accordance with the annual update to OMB Circular A-136, Financial Reporting Requirements. The following must be addressed in the AFR or PAR:

5.2.1.1. Actions taken to address auditor recovery recommendations; and

5.2.1.2. Fraud reduction reporting. Instances of potential fraud discovered through recovery audit activities must be reported in accordance with Volume 5, Chapter 6.

5.2.2. Refer to OMB Circular A-136, Section II.4.5 (Payment Integrity Information Act Reporting), and Volume 4, Chapter 14, for Payment Integrity Information Act Reporting requirements.
6.0 SCOPE OF DoD RECOVERY AUDIT ACTIVITIES

6.1 Dollar Threshold

All programs and activities that expend $1 million or more annually, including grant, benefit, loan, and contract programs, must be considered for recovery audits. All classes of contracts and contract payments, as well as all other types of payments (excluding intra-governmental transactions), must be considered for recovery audit activities. Components that disburse payments must review the different types of payment categories and identify those categories that have a higher potential for recoverable payment errors that will ensure the greatest financial benefit to the government. Once this assessment is performed, the Component must then determine the overall cost-effectiveness of performing recovery audits.

6.2 Possible Exclusions

Agencies may exclude payments from certain programs from recovery audit activities if the agency determines that recovery audits are not a cost-effective method for identifying and recovering overpayments or if other mechanisms to identify and recover overpayments are already in place. Common mechanisms used to identify overpayments within a recovery audit include: statistical samples and risk assessments, agency post-payment reviews, prior payment recovery audits and activities, Office of Inspector General reviews, Government Accountability Office reports, self-reported errors, reports from the public, audit reports, and the results of the agency audit resolution and follow-up process. If an agency elects to exclude a class of payments or contracts from payment recovery activities or audits, the justification for this exclusion must be included in their annual plan and annual report (see sections 3.0 and 5.0).

6.3 Required Root Cause Analysis

In addition to identifying and documenting specific overpayments resulting from payment errors, any entity performing recovery audits must also analyze the reasons why payment errors occurred and, where appropriate, recommend cost-effective controls to prevent such overpayments in the future. These results must be presented to management on a regular basis. The results of such analysis, and related recommendations, should be considered by the Component as part of its management improvement program. The Component will provide such information to DFAS, the DoDIG, and where applicable, the IG of the Military Service.

7.0 ROLE AND RESPONSIBILITIES OF THE DoD COMPTROLLER’S OFFICE

7.1 Role

To facilitate compliance with OMB Circular A-123, Appendix C, the ODCFO assigned reporting responsibility for this function to the OUSD(C), FMPR Directorate. This reporting function is part of the OUSD(C) oversight responsibility for DoD’s annual recovery audit reporting in the AFR.
7.2 Responsibilities

The Comptroller’s FMPR Directorate is responsible for:

7.2.1. Serving as the Executive Agent (EA) for the DoD Payment Integrity program. As the EA for the DoD Payment Integrity program, the FMPR Directorate provides oversight to the DoD Components to ensure compliance with the PIIA and/or OMB Circular A-123, Appendix C, requirements;

7.2.2. Reviewing the Components’ annual recovery audit plan submissions as described in paragraph 3.2 to ensure completeness;

7.2.3. Reviewing the annual submission of recovery audit reports described in section 5.0 to ensure the reporting requirements are met;

7.2.4. Preparing and submitting Department-wide recovery audit results and mandatory reports as described in OMB guidance, and any related information for submission to OMB, publication in the AFR, and other required reporting; and

7.2.5. Preparing the Department-wide recovery audit and activities plan reassessment based on pertinent overpayment recovery methods or improvements identified by the Components during the FY, for submission to the DoDIG.

8.0 ROLE AND AUTHORITY OF THE OFFICE OF THE INSPECTOR GENERAL (IG)

8.1 No Impairment of Inspectors General Authority

Nothing in this policy should be construed to impair the authority of an IG under the Inspector General Act of 1978, as amended, or any other law. However, because the recovery audit program required by this policy is an integral part of Components’ internal control over payments, and therefore a management function, independence considerations would normally preclude the IG and other Component external auditors from carrying out management’s recovering audit program.

8.2 Effectiveness Assessment

The IG, as well as other authorized auditors, are encouraged to assess the effectiveness of Components’ recovery audit programs as part of their internal control assessment on existing audits (e.g., the annual financial statement audit, or as a separate audit).

9.0 SOURCES TO PERFORM RECOVERY AUDITS

Recovery audits may be performed by employees of the Components, by any other Component, department, or agency of the U.S. Government acting on behalf of the Component, or by private sector contractors performing recovery audit services under contracts awarded by the Component, or any combination of these options.
10.0 RECOVERY AUDIT SERVICES PERFORMED BY CONTRACTORS

10.1 Use of External Contractors

When Components have determined that using external post-payment recovery audit contractors (i.e., recovery audit contingency contract) is the most cost-effective plan, they must update their current recovery audit plan with the detailed cost effectiveness breakdown, including terms of the contract, and submit to OUSD(C) FMPR for approval prior to executing the contract. These private sector firms may, with the consent of the employing Component, communicate with the Component’s contractors for the purpose of verifying the validity of potential payment errors they have identified. In addition, to avoid confusion with established accounts receivable/debt management processes, Components must coordinate with the DFAS, Enterprise Solutions and Standards, Accounts Receivable Office (JJA) at 8899 East 56th Street, Indianapolis, IN 46249 to determine whether direct communication with the Component’s contractors is authorized.

10.2 Contingency Fee Requirement

Contracts entered into by Components to obtain recovery audit services from the private sector are limited to contingency contracts that pay the contractor an amount equal to a negotiated percentage of the total amount collected by the United States for valid claims of overpayment. However, certain types of payments recovered may not be available to pay the recovery audit costs (for instance, amounts recovered due to interim improper payments made under ongoing contracts if these amounts are still needed to make subsequent payments under the contract, or amounts recovered from closed accounts). Components may allow contracted recovery auditors to establish a presence on, or visit, the property, premises, or offices of any subject of recovery audits. Such physical presence is not prohibited, and may allow the recovery auditor to perform a more thorough review of the subject’s payments and related documentation.

10.3 Actions of External Contractors

The recovery audit contractor may, with the consent of the contracting Component, notify entities, including individuals, of potential overpayments made to those entities, respond to questions concerning potential overpayments, and take other administrative actions with respect to overpayment claims made, or to be made, by the Component.

10.4 External Contractor Prohibitions

In addition to provisions that describe the scope of recovery audits (and any other provisions required by law, regulation, or Component policy), any contract with a private-sector firm for recovery audit services will include contract provisions that prohibit the recovery audit contractor from:

10.4.1. Having the authority to make a final determination relating to whether any overpayment occurred or whether to compromise, settle, or terminate an overpayment claim;
10.4.2. Requiring production of any additional records or information from the Component’s contractors. Only duly authorized employees of the Component can compel the production of information or records from the Component’s contractors, in accordance with applicable contract terms and DoD regulations;

10.4.3. Using or sharing sensitive financial information with any individual or organization, whether associated with the Federal Government or not, that has not been officially released for use by the general public, except for an authorized purpose of fulfilling the recovery audit contract; or

10.4.4. Disclosing any information that identifies an individual, or could reasonably be used to identify an individual, for any purpose other than as authorized for fulfilling its responsibilities under the payment recapture audit contract.

10.5 Safeguarding Confidentiality

Components will require the recovery audit contractor to take steps to safeguard the confidentiality of sensitive financial information that has not been released for use by the general public and any information that could be used to identify a person.

10.6 Minimum Contract Requirements

At a minimum, each contract for recovery audit services will require the contractor to:

10.6.1. At least quarterly, provide reports to the DoD disbursing Component on the root cause conditions causing the overpayments identified and recommendations on how to mitigate such conditions;

10.6.2. Notify the DoD disbursing Component of any overpayments identified by the recovery audit contractor pertaining to any Component that is beyond the scope of the contracts; and

10.6.3. Report potential instances of fraud immediately to the DoD disbursing Component for which it is performing the contract. The Component will further review and refer to its IG, if appropriate. Contractors and all personnel performing recovery audits must be trained to recognize evidence of fraud and vulnerability to fraud.

11.0 RECOVERY AUDIT COLLECTION ACTIVITY

Actual collection activity must be carried out by federal employees, or nonfederal entities expending federal awards, as appropriate. However, Components or nonfederal entities may use another private sector entity, such as a private collection agency, to perform this function if this practice is permitted by applicable laws and regulations governing collection of amounts owed to the Federal Government.
12.0 DISPOSITION OF AMOUNTS RECOVERED

12.1 Amounts Collected

PIIA and 31 U.S.C. Chapter 33 prescribe that amounts collected under a recovery audit program from expired discretionary fund accounts are available to reimburse the actual expenses incurred by a Component in administering the program, and to pay contractors in accordance with applicable law and regulation, if appropriate. As prescribed by 31 U.S.C. § 3352(i)(2)(H), the disposition guidance in paragraph 12.2 does not apply to the recovery of an overpayment if the appropriation from which the overpayment was made has not expired. In those cases, the collection will be credited to the appropriation or funds from which the original disbursement was made. As prescribed by OMB Circular A-123, Appendix C, any recovered overpayments that pertain to canceled/closed appropriations must be credited to Treasury Miscellaneous Receipts. Please refer to the OMB Circular, A-123, Appendix C, pages 38-42, for flowcharts and tables depicting the disposition requirements.

12.2 Uses of Amounts Collected

Except as provided in paragraph 12.3, 31 U.S.C. § 3352(i)(2) requires that any expired discretionary amounts collected (recovered) through recovery audits, that were appropriated after the date of IPERA’s enactment (July 22, 2010), and that are not used to reimburse expenses of the Component or pay recovery audit contractors under paragraph 12.1, may be used in the following manner:

12.2.1. Up to 25 percent of the recovered funds may be used to supplement (but not supplant) any other amounts available to support the Component’s financial management improvement program, and will remain available until expended. Such funds can be passed to nonfederal entities, such as state and local governments, if the agency determines that is the best disposition of the funds to support its financial management improvement program;

12.2.2. Up to 25 percent of the recovered funds may be used for the original purpose of the fund. The funding will be credited to the appropriation or fund, if any, available for obligation at the time of collection for the same general purposes as the same appropriation or fund for which the overpayment was made, and will remain available for the same period of availability and purposes as the appropriation or fund to which it is credited;

12.2.3. Up to 5 percent of the recovered funds may be made available to the Component’s IG. The IG may use this funding to carry out the law’s requirements, and perform other activities relating to investigating improper payments or auditing internal controls associated with payments. This funding will remain available for the same period of availability and purpose as the appropriation or fund to which it is credited; or

12.2.4. The remainder of the recovered expired or closed/canceled discretionary funds that are not applied in accordance with subparagraphs 12.2.1 through 12.2.3 must be deposited in the Treasury as miscellaneous receipts, except recoveries of overpayments that are made from trust or special fund accounts must revert to those accounts (31 U.S.C. § 3352(i)(2)(H).)
12.3 Return of Collections to Original Appropriation

As prescribed by OMB Circular A-123, Appendix C, recovered overpayments from unexpired discretionary fund accounts (still available for obligation) that were appropriated after enactment of IPERA (July 22, 2010) must be credited to the account from which the overpayments were made without using it for any purposes outlined in paragraphs 12.1 or 12.2. Recovered overpayments from revolving funds, working capital funds, non-appropriated funds, and appropriations with indefinite periods of availability must be refunded to such accounts.

12.4 Other Uses of Collections

When required or authorized by other provisions of law, any funds remaining after reimbursing the actual expenses for the administration of the program and paying recovery audit contractors may be credited to the non-appropriated fund instrumentality, revolving fund, working capital fund, trust fund, or other fund or account from which the improper payments were made. For example, a recovery audit contractor may identify an improper payment during its review of a Defense Agency’s working capital fund. Upon recovery of the payment, the Component could use the proceeds recovered to reimburse the Department’s administration expenses and pay the recovery audit contractor’s contingency fee. The remaining balance, if any, could then be credited back to the Component’s working capital fund.

12.5 Contingency

Contingency fee contracts will preclude any payment to the contractor performing recovery audit services until the recoveries are actually collected by the Component.

12.6 Accounting for and Reporting Collections

All funds collected, and all direct expenses incurred, as part of the recovery audit and activities program will be accounted for specifically. The identity of all funds recovered must be maintained to facilitate the crediting of recovered funds to the correct appropriations, to identify applicable time limitations associated with the appropriated funds recovered, and to allow for required reporting in compliance with OMB Circular A-136.

12.7 Unconfirmed Overpayments

Overpayments that are identified by a recovery auditor, but that are subsequently determined not to be collectable or not to be improper, will not be considered “collected” for disposition purposes outlined in this section.

12.8 Separate Statutory Authorities

Programs and payments that have separate statutory authority and requirements to conduct recovery audits are not required to follow the disposition of recovered funds outlined in section 12.0 or 13.0 (in accordance with OMB Circular A-123, Appendix C). As an example, the General Services
Administration audits transportation payments for improper payments. Reference Chapter 13 for additional details.

13.0 DISPOSITION OF RECOVERED AMOUNTS BEFORE IPERA

Components may review payments made from appropriations that were enacted before IPERA was signed into law (July 22, 2010), and have the same authorities to credit collections as existed before IPERA was enacted. OMB Circular A-123, Appendix C, provides detailed guidance for the disposition of recovered amounts prior to IPERA enactment. For recoveries of funds appropriated prior to IPERA’s enactment, Components may use the recovered funds for reimbursement of Component expenses and to pay the recovery audit contractor. For those funds appropriated prior to IPERA’s enactment that have expired, and after reimbursement of Component expenses and payment to the recovery audit contractor, any remainder of the recovered funds must be returned to the expired account(s). If the appropriation is canceled, the funds must be credited to Treasury Miscellaneous Receipts.

14.0 GRANT PROGRAMS

Components whose grant programs fund significant contract activity by grant recipients may consider including contracts at the grant recipient level in their recovery audit and activities program. Components can engage contractors on a contingency basis to the extent otherwise authorized by law.

CHAPTER 23

PURCHASE CARD PAYMENTS

1.0 GENERAL

1.1 Purpose

This chapter provides DoD policy for financial management-related activities within the purchase card program, including convenience check writing. This chapter supplements general payment policy described in other chapters, as well as DoD Government-wide Commercial Purchase Card Program Policy (hereafter referred to as DoD GPC Policy), and Office of Management and Budget (OMB) Circular A-123, Appendix B. The DoD GPC Policy includes the DoD Government Charge Card Guidebook (hereafter referred to as the Guidebook) for Establishing and Managing Purchase, Travel, and Fuel Card Programs. These documents assist DoD officials in establishing and managing purchase card programs.

1.2 Authoritative Guidance

1.2.1. This chapter establishes policy based on the statutory and regulatory requirements spelled out in Title 10, United States Code (U.S.C.), section 4754; the Federal Acquisition Regulation (FAR), Part 13; the Defense Federal Acquisition Regulation Supplement (DFARS), Part 213; DFARS PGI 213.301; DoD GPC Policy; and the current General Services Administration (GSA) SmartPay® master contract and applicable task orders.

1.2.2. The Office of the Under Secretary of Defense for Acquisition and Sustainment (OUSD(A&S)) and the DoD Component Program Managers (CPM) are responsible for oversight of the purchase card program, to include policy formulation and procedural guidance. The Defense Contract Management Agency participates in operational oversight of the purchase card program administered by DoD Components.

2.0 PURCHASE CARD POLICY

2.1 Overview

2.1.1. Through task orders issued on the GSA master contract (SmartPay®3), the DoD uses third party, card-issuing banks to support the purchase card program. The card-issuing banks provide a commercial purchase and payment service that replaces the paper-based, time consuming purchase order process, thereby eliminating procurement lead time, providing transaction cost savings, and reducing procurement office workload. The use of purchase cards also streamlines payment processes by consolidating transactions from multiple merchants for payment under a single invoice. The suite of services offered by the card-issuing banks includes web-based purchase log entry; electronic invoicing, statement review, approval, certification, and reporting; retention of transaction supporting data; as well as transaction data mining capabilities. Cardholders use purchase cards to make and/or pay for authorized government purchases, place and pay for orders against contracts, make payments against approved Standard Form 182, Authorization, Agreement...
and Certification of Training (as authorized in the DoD *Miscellaneous Payment Guidebook*), and pay for intragovernmental transactions. GPC transactions are subject to established limitations on transaction amount, billing cycle amount, and Merchant Category Codes (MCCs) as described in DoD GPC Policy.

2.1.2. A purchase card charge authorizes the card-issuing bank to make payment to the merchant or contractor consistent with the GSA master contract and these regulations. An authorized purchase is defined as a purchase that satisfies a bona fide need at a fair and reasonable price that meets all legal and regulatory requirements. Individuals responsible for purchase card violations (i.e., abuse, delinquency, internal fraud, or misuse) are subject to administrative and disciplinary actions as described in DoD GPC Policy and Component personnel policies and procedures.

2.1.3. Purchase card open market transactions are limited to the micro-purchase thresholds prescribed by *FAR 2.101*, 10 U.S.C. § 3573, and *DFARS PGI 213.201(g)* that apply to the transaction being made. See DoD GPC Policy for specific guidance related to the application of current DoD micro-purchase thresholds. Any increase to a cardholder’s delegated authority must be authorized by issuance and acceptance of a new Government Purchase Card Delegation of Procurement Authority Letter.

2.2 Audits

Pursuant to 10 U.S.C. § 4754(b)(14-15), the purchase card program is subject to periodic audits by the DoD Inspector General and the Military Services’ audit agencies to determine whether the program complies with agency policy.

*2.3 Terminology for Unauthorized Purchase Card Transactions*

Refer to DoD GPC Policy, OMB Circular A-123, Appendix B, Attachment 6, and DPC’s “Final Governmentwide Commercial Purchase Card Disciplinary Category Definitions Guidance” for terminology and definitions of the specific categories of improper purchase card transactions, including guidance on what is reportable to OMB.

2.4 Purchase Card Accountable Officials

2.4.1. Within DoD, purchase card accountable officials are military members or civilian employees who are appointed in writing as cardholders, approving/billing officials, and certifying officers. Such appointments, made in accordance with Volume 5, Chapter 5 (10 U.S.C. § 2773a and 31 U.S.C. § 3528), are necessary to establish pecuniary liability under the law governing accountable officials, other than those potentially liable under 10 U.S.C. § 4754(c). Accountable officials are responsible for providing information, data, or services to certifying or disbursing officers in support of the payment process, and are responsible for attesting to the accuracy of information and data in support of the payment to the card-issuing bank. In accordance with Defense Pricing and Contracting (DPC) memorandum, “Appointment of Governmentwide Commercial Purchase Card Officials – *SmartPay®3 Transition Memorandum #3*,” accountable officials within the DoD purchase card
program must be appointed within the Joint Appointment Module (JAM) of the Procurement Integrated Enterprise Environment (PIEE).

2.4.2. Foreign national employees cannot serve as purchase card certifying officers or accountable officials unless they are direct hire employees of the United States Government. However, prior to making such appointments, commanders must consider the potential consequences when the Status of Forces Agreements or other treaties do not subject direct hire local nationals to the same pecuniary liability or disciplinary actions as other DoD employees. If such appointments are necessary, commanders must consider implementing other management controls to compensate for the lack of pecuniary liability. Refer to Volume 5, Chapter 1 for policy regarding accountable officials and foreign national personnel.

2.5 Submission of Billing Statements

Policies, standards, and controls concerning the electronic submission, receipt, and processing of billing statements and transactions are contained in Chapter 8.

2.6 Delegation

As prescribed by 31 U.S.C. § 3325, the head of an executive agency may delegate the authority to assign personnel to perform the purchase card invoicing, reviewing, approving, and certifying responsibilities at the accountable official level. When authority is delegated, DoD Components will:

2.6.1. Designate each billing office, approving/billing official, and/or certifying officer within the Component’s activities to receive the official purchase card billing statements; and

2.6.2. Delegate the authority to certify official purchase card billing statements in accordance with Volume 5, Chapters 1 and 5.

2.7 Purchase Card Refunds

2.7.1. The terms “rebate” and “refund” are used interchangeably throughout the CFR, OMB guidance, existing legislation, and this chapter. Timely payment of a purchase card billing statement is a refund computation factor. Purchase card billing statement payments must occur as soon as administratively possible when the refund offered is greater than the cost of funds as defined in Title 5, Code of Federal Regulations (CFR), section 1315.8. The DoD will take advantage of refund offers only when it is economically justified and advantageous to the DoD. The DoD will follow the guidelines for taking discounts and refunds/rebates found in 5 CFR 1315.8; FAR 32.906(e); and OMB Circular A-123, Appendix B, Chapter 7. Billing statements will be paid for the amount certified. See Chapter 2 for additional information and policy concerning refunds/rebates.

* 2.7.2. Refunds attributable to the use of the purchase card may be credited to operation and maintenance; and research, development, test and evaluation accounts of the DoD which are current when the refunds are received (see statutory note “Crediting of Refunds” within
10 U.S.C. § 4754). In accordance with OMB Circular A-123, Appendix B, Chapter 7, rebates/refunds can be used for any legitimate purchase by the appropriation or account to which they were returned, or as otherwise authorized by statute. Transaction credits, which are funds sent back to DoD from the contracted bank resulting from returned items, billing errors, overpayments, duplicate payments, or erroneous payments, must be credited to the original appropriation from which they were disbursed. See DPC’s “Refund Validation under SmartPay®3 - SP3 Transition Memorandum #9” regarding DoD GPC refund validation requirements.

2.8 Compromised Account Numbers

If an account number is compromised, or if a card has been lost or stolen, the cardholder must notify the approving/billing official, certifying officer, agency/organization program coordinator (A/OPC), and the card-issuing bank to close the account immediately.

3.0 INTERNAL CONTROLS

3.1 Overview

All DoD Component purchase card program policies, implementing procedures, and enterprise risk management programs must ensure the inclusion of internal controls to prevent, detect, and report improper purchase card transactions. Refer to DoD GPC Policy and OMB Circular A-123, Appendix B, section 2.4.1 and Attachment 6, for terminology and definitions of improper or incorrect purchase card transactions.

3.2 Monthly Review

The monthly review checklist (Figure 23-1) is intended as a reference tool for use in examining the cardholder purchase card statement from the card-issuing bank. Use of the checklist will assist in delinquency management and avoid account suspensions. Refer to section 5.0 for cardholder, approving/billing official, and certifying officer responsibilities in the monthly statement review and reconciliation process.

3.3 Separation of Duties

Managers at all levels will maintain the effective operation of internal controls within the purchase card program and ensure adequate separation of duties of participants under their control. The management accountability and internal control requirements prescribed by DoD GPC Policy, along with those outlined in Chapters 1 and 8, will apply to the operation of a DoD Component purchase card program.

3.4 Merchant Category Codes

MCCs are used to categorize each merchant according to the type of business in which the merchant is engaged and the kinds of supplies or services they provide. These codes are used to limit unauthorized transactions on a card account by blocking purchases from merchants included
in MCCs identified by OUSD(A&S) as high risk sources for government purchases. DoD policy concerning MCCs is contained in DoD GPC Policy.

3.5 Data and System Access

Cardholder, approving/billing official, certifying officer, A/OPC, and Resource Manager (RM) access to government and card-issuing bank’s purchase card data and processing systems will be limited to that necessary to accomplish required tasks while maintaining proper separation of duties. Refer to DoD GPC Policy for specific requirements when such personnel transfer to other duties or depart from the organization.

3.6 Penalties for Unauthorized Use of the Purchase Card

Commanders and supervisors at all levels must ensure compliance with this chapter and the requirements of DoD GPC Policy. Military and civilian personnel who violate the provisions of this chapter or DoD GPC Policy, are subject to administrative and disciplinary action. In instances when an official directs a cardholder to purchase items or services that are subsequently determined to be violations, the official who directs the purchase may be subject to personal financial liability and to disciplinary action in accordance with OMB Circular A-123, Appendix B, Chapter 4, sections 2.5 and 2.10. See DoD GPC Policy for specific policies and requirements pertaining to disciplinary actions within the Government Charge Card Program.

3.7 Documentation

In accordance with 10 U.S.C. § 4754(b)(7), this Regulation, records management policies, and DoD GPC Policy, documentation will be maintained at all levels to support the integrity of the purchase card program and to facilitate the reconciliation and payment of purchase card transactions. For purposes of disbursing, supporting documentation must include copies of cardholder billing statements, charge tickets, credit slips and receipts, cardholder purchase log, invoices, delivery orders, approvals, requisitions, cross references to any related contract or purchase orders, or telephone and mail order logs.

* 3.7.1. Cardholders will establish clear audit trails for purchase card transactions by maintaining a purchase log and creating a purchase log entry that includes all fields required in the DoD GPC Policy for each purchase requirement and maintaining transaction supporting documentation in the card issuing bank’s Electronic Access System. This ensures cardholder billing statements, purchase log entries, and supporting documentation are available to the approving/billing official and certifying officer. This also fulfills electronic GPC disbursing office record retention requirements and supports auditability.

3.7.2. Volume 1, Chapter 9, Figure 9-1 provides the policy regarding document retention requirements for financial transaction records related to procuring goods and services, paying bills, collecting debts, and accounting.

3.7.2.1. On a case-by-case basis, and when determined the records are necessary to complete reconciliation of payment, collection discrepancies, audit requirements, or for other
necessary purposes, an extension beyond the record retention period may be warranted. Refer to 44 U.S.C. § 2909 for authorization to retain records for a longer period than specified in disposal schedules.

3.7.2.2. In the event of account termination for both a cardholder and/or approving/billing official, management must ensure safeguards are in place to meet retention requirements.

3.7.3. In accordance with DPC memorandum, “Deployment of Procurement Integrated Enterprise Joint Appointment Module Government-wide Commercial Purchase Card Cardholder Appointment Capability – SmartPay®3 Transition Memorandum #10,” the PIEE/JAM is the mandatory enterprise tool for issuing and retaining GPC program appointments.

4.0 RESPONSIBILITIES

4.1 Overview

The reconciliation and account certification process for Statements of Account received from the card-issuing bank involves a coordinated responsibility between the cardholder, approving/billing official, and the certifying officer. Every individual involved in the purchase card process must report suspected purchase card non-compliances, improper transactions, or violations through the proper chain of command and in accordance with Component policies (refer to DoD GPC Policy for definitions of these transactions). They must also complete required initial and refresher training in accordance with DoD GPC Policy, Component policy, and Volume 5, Chapter 5 requirements, and comply with the additional responsibilities for contingency operations and contracting events prescribed in the Guidebook, Appendix B.

4.1.1. Commanders and supervisors at all levels have the authority and the responsibility to ensure that military and civilian personnel under their supervision use purchase cards only as authorized. Commanders and supervisors are responsible for addressing purchase card non-compliances, improper transactions and violations.

4.1.2. Purchase card disbursing and certifying officers are pecuniarily liable for illegal, improper, or erroneous payments, unless granted relief. Purchase card accountable officials may also be held pecuniarily liable. Policy concerning liability and relief of liability is available in Volume 5, Chapter 6.

4.2 Head of DoD Component

The Heads of DoD Components (or their designees) may delegate their authority in writing for the appointment of cardholders, approving/billing officials, A/OPCs, component program managers (CPMs), and certifying officers (see Volume 5, Chapter 5 for additional policy concerning appointments). In addition, Heads of DoD Components are responsible for managing commanders, directors, or other designated officials and their delegated authority for carrying out their duties and responsibilities as prescribed in DoD GPC Policy.
*4.3 Component Program Manager (CPM)

The CPM serves as the Service’s or Agency’s functional representative with the Program Management Office and is responsible for developing/maintaining hierarchies, ensuring subordinate CPMs and A/OPCs perform their functions/roles, and interfacing with DoD level program offices regarding card-issuing bank performance issues in accordance with the DoD GPC Policy.

4.4 Agency/Organization Program Coordinator

A/OPCs serve as the Agency’s functional representatives and have oversight to manage and ensure the integrity of the purchase card program. The A/OPC is the individual appointed, as identified in DoD GPC Policy, with responsibilities associated with the management, administration, and day-to-day operation of the purchase card program. The A/OPC will jointly work with the RM in setting and maintaining cardholder spending limits based on estimates of purchase requirements for the period or a budgetary limit. They may also assist the RM in providing guidance to the cardholder on any legal or regulatory restrictions on the funds provided.

4.5 Commanding Officer or Director

4.5.1. The military officer in command or the civilian director in charge of an activity has overall responsibility for implementing the purchase card financial management policies of this chapter. They have disciplinary authority over cardholders and approving/billing/certifying officials and must investigate all allegations of purchase card violations. The commanding officer or director must establish procedures for the activity that will permit rapid investigation and resolution of purchase card violations. They will convene or order an investigation in accordance with Volume 5, Chapter 6 and take all appropriate actions resulting from each investigation.

4.5.2. When authority has been delegated by the Head of the DoD Component, the commanding officer or director will appoint accountable officials in accordance with Volume 5, Chapter 5.

4.6 Payment Review Official

The review official is an individual that may be appointed by the commanding officer or director to perform pre- and/or post-payment reviews of payments and perform other duties in accordance with Volume 5, Chapter 5. The A/OPC may not be appointed as the review official.

4.7 Purchase Card Certifying Officer

The certifying officer is the individual responsible for the accuracy of payments, including designation of the proper appropriation(s) or other funds, certified to the disbursing office and disbursing officer. The certifying officer is liable for any illegal, improper, or erroneous payment processed by the DoD resulting from an inaccurate or misleading certification. The certifying officer’s appointment must meet minimum qualifications and eligibility requirements as discussed in Volume 5, Chapter 5. While it is desirable to maintain the greatest separation of duties, it is not
always practical or possible. The certifying officer and approving/billing official duties may be performed by the same appointed person as discussed in Volume 5, Chapter 1. See Figures 23-1 and 23-2 for additional information concerning the monthly review checklist and certification statements. Purchase card certifying officers’ responsibilities, as identified in Volume 5, Chapter 5, section 3.4 and DoD GPC Policy include, but are not limited to the following:

4.7.1. Ensuring transactions meet the legal requirements for authorized purchase card purchases;

4.7.2. Ensuring adequate documentation is available for individual transactions and cardholders have reconciled all transactions with purchase log entries;

4.7.3. Ensuring the facts presented in documents for payment are complete and accurate to include designation of the proper appropriation(s) or other funds;

4.7.4. Verifying the accuracy of computation of a voucher before certification;

4.7.5. Ensuring internal controls exist to prevent submission of duplicate invoices for the same transaction;

4.7.6. Ensuring all items and services have been received and procedures are in place to ensure transactions for items or services not received by the next billing cycle are disputed within the designated dispute timeline;

4.7.7. Ensuring the cardholder is familiar with the dispute process of the servicing bank and implementing dispute procedures when warranted. Refer to paragraph 5.7 regarding disputed transactions;

4.7.8. Reviewing and certifying the Statement of Account and forwarding it to the designated entitlement and/or disbursing office for payment processing. Figure 23-2 contains the language for the certifying officer’s certification statement;

4.7.9. Ensuring cardholder billing statement transactions are reallocated to other accounting classifications, if necessary, prior to the actual certification of the invoice; and

4.7.10. Ensuring the cardholder billing statement and all original supporting documentation (e.g., receipts, logs, invoices, delivery orders, and approvals) is retained to comply with the requirements for record retention. This retention must capture and leverage origination of electronic data contained in automated systems so that it may be shared across the DoD’s various platforms.

4.8 Approving/Billing Official

The approving/billing official is the individual, appointed by the commanding officer, director, or designee, with oversight responsibility for a number of cardholders to ensure that all purchase card transactions are necessary and for official government purposes only.
4.8.1. Approving/billing officials are responsible for providing information and data to certifying or disbursing officers in support of the payment process. A purchase card approving/billing official is responsible for attesting to the accuracy of information and data provided to a purchase card certifying officer in support of a payment to the card-issuing bank. Purchase card approving/billing officials are accountable and may be held pecuniarily liable for any erroneous payments that result from inaccurate information and data, including designation of the proper appropriation(s) or other funds, provided to a purchase card certifying officer, if the erroneous payment is the result of negligence relative to the performance of assigned duties.

4.8.2. The approving/billing official will review each cardholder’s billing statement every month to verify the cardholder was authorized to purchase the items, the government has received the items, and all accountable property (including pilferable items as defined by the DoD Component) has been properly recorded on government property accountability records in accordance with Component procedures. The capitalization threshold and accountability requirements for property, plant, and equipment purchased are provided in Volume 4, Chapters 24-28. Each approving/billing official will have a reasonable span of control over cardholders in accordance with DoD GPC Policy. The approving/billing official’s responsibilities referenced in DoD GPC Policy include, but are not limited to the following:

4.8.2.1. Coordinating purchase card limits and MCC exclusions with the RM and A/OPC for cardholders under their purview;

4.8.2.2. Ensuring each cardholder fulfills his or her responsibilities as identified in DoD GPC Policy;

4.8.2.3. Reviewing/reconciling his or her cardholder’s billing statements and approving the statement when the cardholder cannot perform this function. A purchase card checklist, included as Figure 23-1, may be used as a tool by approving/billing officials and certifying officers to document due diligence in billing statement reviews;

4.8.2.4. Verifying all transactions are legal, proper, and mission essential in accordance with the FAR, DFARS, and DoD policies and regulations;

4.8.2.5. Ensuring monthly Statement of Account accuracy and forwarding the monthly Statement of Account and all original supporting documentation (e.g., receipts, logs, invoices, delivery orders, and approvals) to the certifying officer;

4.8.2.6. Reviewing, approving, and forwarding the monthly Statement of Account to the certifying officer (if not the same as the approving/billing official). Figure 23-2 contains the language for the approving/billing official’s certification statement;

4.8.2.7. Resolving any questionable purchases with the cardholder;

4.8.2.8. Notifying the A/OPC of any personnel changes that may require cardholder or managing account closure;
4.8.2.9. Notifying the A/OPC and certifying officer (if not the approving/billing official) of any planned approving/billing official reassignment to other duties or departure from the installation or activity;

4.8.2.10. Notifying the A/OPC and certifying officer (if not the approving/billing official) of any lost/stolen cards (in addition to the cardholder notifying the card-issuing bank); and

4.8.2.11. Completing service and agency-specific training.

4.9 Authorized Cardholder

The cardholder is the individual appointed in accordance with the policies contained in DoD GPC Policy and Volume 5, Chapter 5. DoD GPC Policy addresses the responsibilities of cardholders, their required use of a purchase log, and the responsibilities of others charged with cardholder and cardholder account management, reconciliation, and oversight. From a financial management perspective:

4.9.1. A cardholder will ensure funds are available prior to making the purchase;

4.9.2. A cardholder will perform a review of the monthly cardholder Statement of Account as described in paragraph 5.2;

4.9.3. When a cardholder uses the card to make unauthorized transactions, (see paragraph 2.3), the cardholder may be liable for any illegal, improper, or erroneous payment resulting from those transactions, and be subject to pecuniary liability (including reimbursing the Government for unauthorized or erroneous purchases through salary offset) or appropriate adverse personnel actions; and

4.9.4. In cases where an erroneous charge is not disputed timely, the cardholder may also be held accountable.

4.10 Convenience Check Account Holder

The convenience check account holder is a military member or civilian employee appointed as prescribed in DoD GPC Policy. In addition to the responsibilities of an authorized cardholder addressed in paragraph 4.9, the convenience check account holder is also responsible for ordering, receiving, storing, safeguarding, inventorying, reconciling, and disposing of check stock. Convenience check account financial management policy is addressed in section 6.0. The convenience check account holder is responsible for tax reporting for the convenience checks they issue and for obtaining a signed Internal Revenue Service (IRS) Form W-9. Request for Taxpayer Identification Number and Certification, so that an IRS Form 1099-MISC can be issued to the convenience check payee. Reporting requirements are set forth at paragraph 6.3. The convenience check account holder will not perform the functions of approving/billing officials or certifying officers on the managing account for which they are a check writer. The commanding officer,
director, or designee with oversight responsibility will cancel the convenience check privileges of cardholders who improperly use convenience checks.

4.11 Resource Manager

The RM is the individual designated by an agency to record formal commitments and obligations into the accounting system. The RM will establish commitments in advance in amounts no less than the periodic purchase limits authorized for commercial purchase cards or at the purchase requisition level. Advance reservations of funds are established by the RM (or equivalent), in conjunction with the assigned A/OPC, and must be considered when setting office, managing account, and/or cardholder purchase limits. The use of advance reservations of funds or commitments for purchase requisitions will also ensure positive funds control, precluding expenditures from exceeding obligations. Policy for recording obligations for the transactions in this chapter is contained in Volume 3, Chapter 8. The RM responsibilities associated with the purchase card program, referenced in DoD GPC Policy, include, but are not limited to the following:

4.11.1. Coordinating funding and spending limits with approving/billing officials and A/OPCs, to include providing advice on legal or regulatory constraints on the use of funds;

4.11.2. Providing approving/billing officials and cardholders official notification of funding;

4.11.3. Assigning default and alternate lines of accounting (LOAs), and ensuring they are entered into the card-issuing bank’s system for electronic invoicing, receipt, and processing;

4.11.4. Providing reallocation authority to cardholders and approving/billing officials, when necessary. The process of reallocation, which gives the cardholder the capability to select different LOAs for a transaction rather than the default line, is set up by the cardholder’s supporting RM;

4.11.5. Receiving and correcting invoice rejects with the certifying officer’s assistance;

4.11.6. Assisting with resolving accounts in a delinquent status and providing payment information when requested; and

4.11.7. Coordinating with the responsible officials to ensure any unrecorded purchases are recorded in the period in which they occur and the miscellaneous obligation is reversed timely as referenced in Volume 3, Chapter 8.

4.12 Entitlement Office

For the purpose of this chapter, the term “entitlement office” is defined as the office that processes the card-issuing bank’s payment request (i.e., Statement of Account) after certification by the certifying officer. Responsibilities of the entitlement office include, but are not limited to the following:
4.12.1. Verifying the amount certified for payment on the invoice matches the amount certified per the certified disbursement voucher;

4.12.2. Validating sufficient funds have been obligated in the accounting records;

4.12.3. Notifying the certifying officer and RM within one business day of invoices rejected, including a detailed reason for the rejection. Upon resubmission of the rejected transactions, processing will include the Standard Document Number/contract number of the original transaction; and

4.12.4. Computing late payment interest penalties in accordance with Chapter 7 and provisions of the card-issuing bank’s contract, if applicable.

4.13 Disbursing Office

The disbursing office verifies that the certifying officer Appointment/Termination Record (DD Form 577, Appointment/Termination Record – Authorized Signature) has been completed in the PIEE/JAM and disburses payments to the card-issuing bank. The disbursing office will not replicate the reconciliation process before making payment on certified purchase card billing statements. The disbursing office makes an advice of payment available to the bank. See Volume 5, Chapter 9 for additional disbursing policy.

5.0 STATEMENT RECONCILIATION AND CERTIFICATION

5.1 Receipt and Acceptance

The cardholder will ensure receipt and acceptance and perform proper documentation of all purchases made. Independent receipt and acceptance by an individual, other than the cardholder, is required for accountable property purchases and self-generated purchases (i.e., purchases lacking a documented requisition/request from someone other than the cardholder). Accountable property, as identified in DoD GPC Policy, includes sensitive, classified, and pilferable property type items. Refer to the Guidebook for additional circumstances that may require independent receipt and acceptance and the use of the Wide Area Workflow module within the PIEE when the purchase card is used as a method of payment against a contract.

5.1.1. To verify proof of delivery, record the date received, along with the signature (or electronic alternative when supported by internal controls), printed name, telephone number, and office designator or address of the receiving official on the sales invoice, itemized packing slip, bill of lading, or other shipping or receiving document. Record the name of the independent individual confirming receipt in the cardholder purchase log.

5.1.2. Local procedures may specify additional circumstances (e.g., based on cost) requiring evidence of receipt by an individual other than the cardholder. The approving/billing official will verify the existence of receipt and acceptance documentation (e.g., hand receipts for accountable property). The approving/billing official also may physically verify receipt and acceptance. Cardholders must timely notify the property accountability official of pilferable,
sensitive, or high valued property obtained with the purchase card, in accordance with established property accountability policy.

5.2 Cardholder Review

The cardholder’s Statement of Account from the card-issuing bank details all the transactions posted against his or her account through the end of the billing cycle.

* 5.2.1. Each cardholder must reconcile his or her Statement of Account, ensure a purchase log entry has been created for each transaction/purchase, and retain supporting documentation as specified in DoD GPC Policy to ensure accurate and timely payments. Cardholders will review their statements to identify any discrepancies and, as appropriate, attempt to resolve the issue(s) with the merchant or, in accordance with bank procedures, dispute the transaction(s) or report the external fraud (see paragraph 5.7).

5.2.1.1. Under the billing discrepancy provisions of the GSA master contract, the cardholder must report cases of fraud to the card-issuing bank, the A/OPC, the commanding officer or director, and the local procurement fraud investigative authority for investigation and adjudication. The cardholder must also comply with the bank’s fraud reporting procedures.

5.2.1.2. Known or suspected fraudulent transactions not authorized by the cardholder must not be approved for payment. If the fraudulent transaction is not removed by the bank by the end of the billing cycle, the invoice will be manually processed, excluding the amount of the transaction(s) in question, and then certified for payment. Due to timing issues, if the transaction in question has already been paid, the bank will issue a transaction credit on the next billing statement in accordance with the SmartPay contract. Cardholders must identify the reason the transactions are deemed fraudulent and the date the fraudulent transactions were reported to the bank in the system. In all instances, the cardholder will attempt to review/reconcile all transactions during the billing cycle within which they occur so that these fraudulent transactions are never included in the corresponding cardholder Statement of Account.

5.2.2. If the cardholder cannot resolve the discrepancy by obtaining a credit from the merchant, then the cardholder will officially dispute the transaction with the card-issuing bank following the procedures in paragraph 5.7.

5.2.3. The cardholder will sign and date the Statement of Account (preferably electronically) and forward it, with the necessary supporting documentation, to the approving/billing official for action. Figure 23-2 contains the language for the cardholder’s certification statement.

5.2.4. If the cardholder cannot review the Statement of Account upon receipt (e.g., due to leave or business travel), then he or she will make his or her cardholder Statement of Account and supporting documentation available to the approving/billing official or certifying officer for timely review.
5.3 Approving/Billing Official Review

The approving/billing official must review each transaction made by cardholders under their managing account to ensure all supporting documentation is available and correct. The approving/billing official will ensure cardholder reviews have been completed properly; ensure billing discrepancies have been resolved with the merchant, disputed, or reported as fraud as necessary; ensure receipt and documentation of all accountable property; verify all transactions were necessary government purchases; and perform any other functions required by DoD GPC Policy and other Component policies and procedures.

5.3.1. Under billing discrepancy provisions of the GSA master contract, known or suspected fraudulent transactions not authorized by the cardholder must not be certified for payment and must be reported to the card-issuing bank, A/OPC, commanding officer or director, and the local fraud investigative authority for investigation and adjudication. Refer to subparagraphs 5.2.1.1 and 5.2.1.2 for additional guidance concerning the review and handling of fraudulent transactions. If not done so by the cardholder, the approving/billing official should ensure fraudulent transactions are disputed in accordance with applicable card-issuing bank procedures, and reported as fraudulent in accordance with the card-issuing bank fraud reporting procedures, as well as those of the Component.

5.3.2. The government is contractually obligated to pay the card-issuing bank for all purchase card transactions made by an authorized cardholder other than those successfully disputed or that result from external fraud. This includes those made by an authorized cardholder in violation of purchase card policies (e.g., unauthorized or incorrect as defined by OMB Circular A-123, Appendix B, section 2.4.1). Every purchase made by an authorized cardholder using an authorized card creates a contractual obligation of the government to pay the card-issuing bank. Report these purchase card violations to the A/OPC, appropriate authorities, and/or management officials for investigation and corrective action in accordance with Component policies and procedures.

5.3.3. For transactions that are determined to be purchase card violations, the approving/billing official will authorize payment for any items that cannot be returned and pursue corrective action by reporting the matter to the A/OPC and management officials in accordance with Component policies and procedures.

5.3.4. For transactions that may be questionable, the approving/billing official will determine as rapidly as possible whether there is potential fraud or whether the transaction is otherwise disputable. The mere lack of supporting documentation will not trigger a finding of fraud or impropriety unless the identity of the item or service, or other facts, would lead a reasonable person to believe that this was a fraudulent or unauthorized transaction. If the transaction is determined not to be external fraud, or otherwise disputable, then it must be approved for payment. The approving/billing official will continue to follow up to obtain sufficient documentation to support that the transaction is no longer categorized as questionable. The follow-up work should involve the cardholder, appropriate management, and bank officials as necessary.
5.3.5. When the approving/billing official is appointed collaterally as the certifying officer, he or she will also complete the requirements in paragraph 5.4.

5.4 Certifying Officer Review

The certified billing statement is the official invoice for payment purposes.

5.4.1. The certifying officer will review and certify the billing statement (preferably electronic) and forward it to the designated entitlement and/or disbursing office for timely payment processing. Figure 23-2 contains the language for the certifying officer’s certification statement. See Volume 5, Chapter 5 for additional policy concerning certification requirements.

5.4.2. The certifying officer must not certify a known or suspected fraudulent transaction that was not authorized by the cardholder. The certifier must not certify payments if the card or the card number applies to transactions generated by an unauthorized user, such as a merchant entering the wrong card number, or the transaction occurs after reporting the card or card number lost or stolen. The certifying officer will follow agency procedures for addressing all fraudulent or abusive transactions, or other instances of purchase card misuse.

5.4.3. Pursuant to 31 U.S.C. § 3528, a certifying officer certifying a voucher (purchase card billing statement) is responsible for the information, computation, and legality of a proposed payment under the appropriation or fund. A certifying officer will ensure all transactions are legal, proper, correct, and satisfy a bona fide need in accordance with government policies, rules, and regulations. Since payments are to the financial institution, the certifying officer is responsible for certifying the legality and accuracy of the information pertaining to the amount owed the financial institution.

5.5 Payment without Receipt and Acceptance

In accordance with DoD GPC Policy, the DoD is authorized to certify invoices for payment of micro-purchases prior to the verification that all items billed have been received and accepted. The cardholder, as part of the monthly reconciliation of their Statement of Account, will annotate instances of non-receipt for recently ordered goods or services on each statement. Each approving/billing official is required to establish a system and related procedures to flag and track all transactions certified for payment without verification of receipt and acceptance. These procedures will ensure that all transactions that have been reconciled and approved for payment will have their receipt verified no later than 45 days after the invoice date. If there is no documented evidence verifying receipt and acceptance after the 45-day period, the cardholder must protect the government’s rights by disputing the transaction. The cardholder is responsible for notifying the bank of any item in dispute and will have 90 calendar days from the date the transaction was processed/posted to the account. The cardholder must file a formal dispute in accordance with paragraph 5.7.
5.6 Payment of the Certified Billing Statement

The designated entitlement office will pay purchase card invoices (preferably electronic) upon receipt of the certified billing statement. Attention must be paid to the prompt payment clock, which starts when the invoice is made available to the DoD on the card-issuing bank’s website versus when invoices are transmitted to the entitlement office. The entitlement office will ensure that only the amount certified for payment by the certifying officer is processed for payment.

*5.7 Disputed Transactions

A transaction dispute may occur in a situation in which the Government questions the validity of a transaction included on the cardholder Statement of Account. Transactions should be disputed only after all attempts have been made to resolve the issue directly with the merchant. Reasons to dispute a transaction include circumstances where the cardholder did not authorize the transaction, the amount of the transaction is incorrect, the quality or service is unacceptable, the information on the transaction is erroneous or is a duplicate of an existing transaction, the material was returned or service was cancelled and a credit was not issued by the merchant within 30 days. The cardholder must dispute the transaction as soon as possible in accordance with the timetable and provisions contained in the tailored task orders with the card-issuing bank, the DoD GPC Policy, and local procedures.

5.7.1. For instances where items appear on the billing statement, but have not been received, the cardholder will contact the merchant to validate that shipment has been made. For cases of non-shipment, items will be officially disputed only if the merchant fails to credit the account in the next billing cycle, or the items are not ultimately received.

5.7.2. Approving/billing officials will monitor cardholder items billed versus receipt discrepancies to ensure any remaining discrepancies are disputed.

5.7.3. Fraudulent transactions include, but are not limited to, transactions made on lost or stolen cards, incidences of compromised card numbers, or transactions initiated by unauthorized third parties. These transactions do not follow the dispute process, but rather must be reported as fraudulent in accordance with the card-issuing bank fraud reporting procedures, DoD GPC Policy, and those of the Component.

5.8 Summary Accounting

To reduce transaction processing fees, DoD activities will summarize accounting data, where systems capabilities are available to preclude any duplication of LOAs, before submitting certified billing statements and accounting data to the designated entitlement office. Specifically, DoD activities will “roll up” disbursing data by LOA to eliminate duplicate LOAs on one certified billing statement.

5.8.1. Approving/billing officials and certifying officers will ensure complete summarization of billing statements with no duplicate LOAs prior to certification and submission
of the billing statements for payment. The level of appropriation data summarization will be consistent with the advance reservation of funds and the data for entry into the accounts payable, disbursing, and accounting systems in order to maintain positive funds control, match each planned disbursement with a recorded obligation (as described in Chapter 1 and Volume 3, Chapter 8), and prevent unmatched disbursements.

5.8.2. The following methods will be used to facilitate summary-level accounting:

5.8.2.1. Use the minimum number of LOAs per purchase card to satisfy mission requirements;

5.8.2.2. Establish approving/billing official and cardholder relationships, to the maximum extent possible, which will support summary-level billing statements which are comprised of multiple purchase cards citing the same LOA; and

5.8.2.3. Use the object class that is most appropriate for the types of transactions made with the card.

6.0 CONVENIENCE CHECKS

6.1 Overview

Use of convenience checks must be minimized and designated as a purchase instrument of last resort. They will only be used if the merchant offering the goods or services does not accept or does not have the ability to process the purchase card, no other merchant can reasonably be located, and it is not practical to pay for the items using the traditional procurement method.

6.1.1. A discrete account must be set up in order to issue convenience checks. Convenience check and normal purchase card accounts may be issued under a single managing account, but they must not be commingled. The transactions reported during the billing cycle for the convenience check and purchase card accounts will appear on the cardholder’s Statement of Account.

6.1.2. Convenience check accounts are provided by the card-issuing bank in accordance with the terms of the tailored task orders with the bank. The card-issuing banks operate a convenience check writing system that allows DoD activities, including overseas locations, to make selected purchases and payments using checks to replace cash for official expenses, when card products and other alternatives have been determined unusable. The card-issuing banks offer “help desk” assistance and reporting capabilities with a variety of reporting media and frequencies to assist with performing oversight activities.

6.1.3. Each Component will issue instructions concerning the use of convenience checks. Individuals delegated as convenience check account holders will be appointed in writing. At a minimum, the appointment letter will state the specific duties of the check writer, any limitations on the scope of authority (including dollar limitations), and an acknowledgement of the check writer’s duties and responsibilities. Convenience checks will not be used for employee
reimbursements, cash advances, cash awards, travel-related transportation payments, meals, or payroll/salary payments. For additional information concerning convenience check requirements and restrictions on their use, refer to DoD GPC Policy.

6.2 Printed Convenience Checks and Issuing Bank Requirements

The GSA contract provides responsibilities of the card-issuing bank for convenience check accounts. The card-issuing bank will ensure convenience checks are sequentially pre-numbered duplex documents (one copy for the cardholder’s records and the original for the merchant).

6.3 IRS Form 1099 Requirements for Convenience Check Account Holders

6.3.1. The Defense Finance and Accounting Service (DFAS) has tax form issuance and IRS reporting responsibilities for the DoD convenience check program.

6.3.2. DFAS obtains the universe of DoD convenience check payment data from the GSA contracted bank that is responsible for convenience check accounts. DFAS provides the convenience check payment data to the applicable A/OPC, Account Manager, and Convenience Check Account Holder for determining the tax reporting requirements and completion of specifically identified data not available to, or captured by, the contracted bank. The Convenience Check Account Holder is responsible for ensuring the completion and return of the data to DFAS.

6.3.3. Using the information provided by the Convenience Check Account Holder, DFAS issues the tax forms to the convenience check payees and electronically reports the data to the IRS.

6.3.4. A/OPCs, Account Managers, and Convenience Check Account Holders that do not return the requested information to DFAS are responsible for their own tax form issuance and IRS tax reporting.

6.3.5. Additional tax reporting guidance for convenience check payments is located at https://www.dfas.mil/contractorsvendors/taxinfo/Convenience-Check-1099PRO/.

6.4 Authorizing and Establishing Convenience Check Accounts

Requests to establish an account for convenience checks must be justified in writing and in accordance with the provisions established in DoD GPC Policy. A specific individual must be designated as the account holder responsible for that account via the proper application forms and delegation of authority letters. Those forms will be submitted through the DoD activity’s existing purchase card hierarchical structure.

6.5 Conditions for Using Convenience Check Accounts

The authorized threshold for convenience checks is one half of the applicable micro-purchase threshold (41 U.S.C. § 1902, statutory notes). See DoD GPC Policy and FAR 2.101 for alternative thresholds pertaining to situations involving declared contingencies or emergency-type operations either within the United States or outside the United States. In order to maintain
effective internal controls, approving/billing officials, payment review officials, and certifying officers will not perform the functions of convenience check custodian or cashier. Additional conditions on the use of convenience checks are as follows:

6.5.1. Convenience checks will be issued for the exact payment amount, with a prohibition on splitting purchases, payments, or other amounts among more than one check in order to keep amounts below the applicable micro-purchase threshold or other assigned limits;

6.5.2. Convenience checks will be used for official government purposes only;

6.5.3. Convenience checks will not be issued as an “exchange-for-cash” vehicle to establish cash funds;

6.5.4. If convenience checks are mailed to payees, then local internal controls must be in place to avoid duplicate payments being made to them;

6.5.5. The issuing activity is responsible for all administrative costs associated with the use of convenience checks. Fees associated with the use of convenience checks are specified in the GSA contract. At DoD Component election, the costs associated with the purchase of convenience checks may be expressed as a: (a) percentage; (b) number of basis points; or (c) fixed fee; and

6.5.6. Convenience checks are negotiable instruments and will be stored in a locked container, such as a safe, where only the account holder has access. Checks will be accounted for by recording transactions as they occur in the check register and/or purchase log to maintain control of number sequence. Local policies and procedures must be implemented to provide safeguards to prevent physical loss, theft, or potential forgery.

6.6 Reconciliation of Convenience Check Accounts

The convenience check account holder will reconcile the Statement of Account as part of the monthly billing cycle against his or her supporting documentation in accordance with the standard payment practices established for the purchase card in section 5.0.

* 6.6.1. Convenience check accounts and transactions must be reviewed in accordance with the “DoD SmartPay®3 Government-wide Commercial Purchase Card Policies, Procedures and Tools – SP3 Transition Memorandum #6.” The SP3 Transition Memorandum #6, which phased out the requirement to perform Annual Managing Account Reviews, requires the review and approval of each convenience check case (transaction) generated by the bank’s data mining review tool. Convenience check transaction reviews will ensure each convenience check transaction was authorized, properly funded and approved, appropriate for Government use, does not exceed allowable limits, includes supporting documentation, and any other requirement of Component policies. Any suspected violations will be reported to the appropriate management and investigative authorities in accordance with established policies (see DoD GPC Policy for terminology and definitions of the specific categories of unauthorized or inappropriate transactions).
6.6.2. The dispute process is not available for convenience checks. Any concerns over a purchase made with a check will be resolved directly with the merchant. The account holder is solely responsible for securing restitution and/or credit on disputed purchases.

6.6.3. Stop payments may have an effect on convenience checks, provided the convenience checks have not been posted to the account. The card-issuing bank will provide the ability to stop payment on a convenience check within 24 hours. The stop payment fee will be charged directly to the account.

7.0 CONTINGENCY CONTRACTING EVENTS

The Guidebook, Appendix B, provides the relevant regulatory and related Departmental policies regarding the use of purchase cards in support of emergency-type operations (e.g., contingency contracting events.) The financial management policies related to purchase cards, as previously identified in this chapter, remain in place for contingency operations and contracting events unless otherwise noted.
Figure 23-1. Approving/Billing Official and Certifying Officer Monthly Review Checklist

This checklist is for approving/billing official and certifying officer use in completing the cardholder billing statement reconciliation, receipt and acceptance, and dispute procedures prior to certification. The checklist is intended as a reference tool for use in examining the cardholder’s purchase card statement received from the card-issuing bank.

Figure 23-2. Purchase Card Certification Statements

- The Cardholder (as Accountable Official) certification statement will read:

  “I certify that, except as may be noted herein or on supporting documents, the purchases and amounts listed on this account statement:

  (1) Are correct and required to fulfill mission requirements of my organization;
  (2) Do not exceed spending limits approved by the Resource Manager;
  (3) Are not for my personal use or the personal use of the receiving individual;
  (4) Are not items that have been specifically prohibited by statute, by regulation, by contract, or by my organization; and
  (5) Have not been split into smaller segments to avoid dollar limitations.”

CHAPTER 1

GENERAL REIMBURSEMENT POLICY

1.0 GENERAL (0101)

1.1 Overview (010101)

DoD reimbursable authority is authorized by the Office of the Under Secretary of Defense (Comptroller) (OUSD(C)), through budget formulation and statutory authorization of the budget in accordance with Title 10, United States Code, section 2205 (10 U.S.C. § 2205).

1.2 Purpose (010102)

This chapter provides guidance on the amounts that must be recouped when DoD Components perform work or sell property within the Department, to other federal agencies and to private parties that do not involve the Defense Working Capital Fund (DWCF) or other DoD Revolving Funds. It does not provide authority to sell to private parties, since specific legal authority must be identified to make such sales. It supplements the standards for financial accounting for intragovernmental accounts receivable in Volume 4, Chapter 3, for intragovernmental accounts payable in Volume 4, Chapter 9, and budgetary accounting for reimbursements, in Volume 3, Chapters 8 and 15.

1.3 Authoritative Guidance (010103)

1.3.2. Statutory authority on project order agreements for work or material or for the manufacture of material pertaining to approved projects placed with a separately managed DoD-owned establishment is given in 41 U.S.C. § 6307. 31 U.S.C. § 1535 governs Economy Act orders placed with an agency or major organizational unit within an agency. Chapters 2 and 3 provide detailed guidance on these statutory requirements.

1.3.3. According to DoD Instruction (DoDI) 4000.19 “Support Agreements,” DoD Components are responsible for programming, budgeting, and funding for the reimbursable support agreements into which they enter. These include agreements into which a DoD Component enters into with another DoD Component; a federal agency; a state, local, or tribal government; or a non-governmental entity that is a congressionally chartered nonprofit organization pursuant to 36 U.S.C. §§ 20101 to 240101 (e.g., American Red Cross, Boy Scouts of America, Girl Scouts of the U.S., and United Service Organizations, Inc.). DoDI 4000.19 uses the term Intra-agency support agreements to refer to agreements between DoD Components. Also, DoDI 4000.19 uses the term Inter-agency support agreements to refer to agreements between DoD Components and federal agencies.
1.3.4. The Department will no longer provide non-reimbursable support of any kind to other federal, state, territorial, tribal, or local government entities; private groups and organizations; foreign governments; and international organizations. Refer to the Secretary of Defense Memorandum, "Reimbursable Activities in Support of Other Entities," June 19, 2020 (DoD Common Access Card required). Non-reimbursable support may be provided if required by statute. When discretionary non-reimbursable support is permitted but not required by statute, it must be authorized by the DoD Joint Ethics Regulation or DoD Public Affairs guidance; or is provided after approval of an exception. Refer to the OUSD(C) memorandum, "Reporting Guidance for Reimbursable Activities in Support of Other Entities," July 22, 2020 (DoD Common Access Card required) for details on how to receive an exception.

1.3.5. The requirements in Treasury Financial Manual (TFM) Volume I, Part 2, Chapter 4700, Appendix 8, “Section 1—Buy/Sell Transactions,” provides guidance on Buy/Sell activity that involve reimbursable activity between Federal Program Agencies (FPAs) and, between FPAs and third-party providers. These buyers and sellers are also known as trading partners. The TFM provides the business rules and processes to properly record, report, reconcile and measure intra-governmental transactions (IGTs). The TFM differentiates between two types of IGTs, intra-departmental and intra-governmental. Intra-departmental transactions result from activity between trading partners within the same department. Intra-governmental transactions result from activity between federal agencies not within the same department. The Volume 5, “Definitions” Chapter defines an FPA as a department, instrumentality, office, commission, board, service, or other establishment of the U.S. Government.

1.3.6. The guidance in this chapter is applicable unless a specific DoD issuance authorizes alternative reimbursement policies. The most significant of these alternative reimbursement policies include:

1.3.6.1. 10 U.S.C. § 2571 allows for the exchange or transfer of supplies and services between military departments without compensation. Such transfers of supplies between military departments must have the permission of the Service Secretaries involved. In addition, a DoD Component may perform work, services or issue supplies without reimbursement, to another DoD Component with the permission of the respective Component heads. Furthermore, costs of DoD military or civilian pay and allowances (along with dependent and household goods transportation) for detail or other assignments, may be charged to an appropriation with the approval of the receiving DoD Component head.

1.3.6.2. Volume 11B establishes the DoD guidance for the recovery of cost for products and services provided by the DWCF or other applicable DoD Revolving Fund activities. Reimbursable orders placed with the DWCF or other DoD Revolving Fund activities may fall under any number of authorities (e.g. Project Orders for depot maintenance). The basic transactional authority for the DWCF is derived from 10 U.S.C. § 2208(a). This authority for buyer-seller transactions is not dependent on the Economy Act or Project Order Act statutes. See Volume 11B, for additional information regarding DWCF authorities.
1.3.6.3. Volume 13 establishes the DoD accounting guidance for DoD Morale, Welfare, and Recreation (MWR) functions performed by Nonappropriated Fund instrumentalities (NAFIs). DoD Components must not commingle Nonappropriated Funds (NAFs) with Appropriated Funds (APFs), even when used to support a common program. DoDI 1015.15, “Establishment, Management, and Control of Nonappropriated Fund Instrumentalities and Financial Management of Supporting Resources,” provides further guidance.

1.3.6.4. Volume 15 establishes the DoD guidance for the Foreign Military Sales (FMS) of defense articles, defense services and for providing military training to allied and friendly foreign governments and international organizations. Refer to Volume 15, Chapter 6, Appendix G (Columns 12 and 13), for additional information on how to account for actual hours worked.

1.3.6.5. DoD Directive (DoDD) 3025.13 “Employment of DoD Capabilities in Support of the U.S. Secret Service (USSS), Department of Homeland Security (DHS),” provides the DoD policy for the use of DoD resources for reimbursable support of the USSS, a DHS entity.

1.3.6.6. DoDD 3025.18 “Defense Support of Civil Authorities,” provides the DoD policy for providing reimbursable military support when requested by civil authorities in order to save lives, prevent human suffering or, mitigate property damages within the U.S. Refer to Chapter 19 for further guidance.

1.3.6.7. DoDI 3025.21 “Defense Support of Civilian Law Enforcement Agencies,” provides the DoD policy for reimbursement when equipment or services are provided to agencies outside DoD in support of civilian law enforcement officials.

2.0 REIMBURSEMENT GUIDANCE (0102)

2.1 General Guidance (010201)

2.1.1. A seller’s reimbursements are amounts earned and collected for materials sold or services furnished as a result of a reimbursable agreement. A seller’s reimbursable obligations are financed by offsetting collections. Components are to credit these offsetting collections to an expenditure account in payment for goods and services provided by that account. Refer to Office of Management and Budget (OMB) Circular A-11, section 20 for further details. Credit the specific appropriation or fund account for the collection only when it authorized by law.

2.1.2. The TFM in Volume I, Part 2, Chapter 4700, Appendices 5 and 8 provide the requirements for accounting, reporting, and reconciliation of IGTs between FPAs and their trading partners. The five IGT categories are Fiduciary, Buy/Sell, Transfers, Custodial, and General Fund transactions. Buy/Sell IGTs involve transactions where goods or services are purchased by one federal agency from another federal agency. Buy/Sell IGTs are exchange transactions impacting assets and liabilities; revenue and expenses; and advances/prepayments and deferred credits. Two federal agencies will usually execute a reimbursable agreement to formally document this arrangement. Trading partners must have appropriate statutory authority, such as the
Economy Act, prior to engaging in an agreement for Buy/Sell transactions. For Buy/Sell IGTs, the receiving agency is the buyer and the servicing agency is the seller. Trading partners must reconcile completed performance transactions at a minimum, on a quarterly basis to ensure both parties are in agreement. The TFM provides the requirements for using the standard Interagency Agreement (IAA) containing the Bureau of the Fiscal Service (FS) Form 7600A “United States Government General Terms and Conditions (GT&C)” and FS Form 7600B “United States Government Order Form.” Treasury requires the use of these two IAA forms to ensure the proper recording and reporting on IGT Buy/Sell transactions unless, other guidance (such as OMB policy) requires a completed agreement for certain IGT types, such as assisted acquisitions. Refer to paragraph 010205 for specific guidance.

2.1.3. Non-Economy Act orders for intra-governmental work and services should be executed in accordance with the detailed guidance provided in Chapter 18.

2.2 Disposition of Collections (010202)

2.2.1. Collections must be credited to the appropriation that procured the services or materiel being sold when specifically authorized by law as required by subparagraph 010201.A.

2.2.2. Collections for unfunded costs such as labor of military personnel, depreciation of capital assets and interest, must be deposited into the General Fund of the Treasury as miscellaneous receipts unless otherwise provided for in this chapter or by other DoD issuances.

2.2.3. Collections received after an appropriation cancels must be deposited in Treasury Account 3200, "Collections of Receivables from Canceled Accounts.” Refer to Volume 4, Chapter 3.

2.2.4. Disposition of collections for FMS must be in accordance with Volume 15.

2.3 Billing Standard (010203)

2.3.1. The price to be charged for goods and/or services furnished by the Department depends on whether that good and/or service is provided to, or for the benefit of a DoD Component, a non-DoD federal agency, a private party, or a FMS customer. Therefore, the ordering DoD Component activity that requisitions or orders a good or service must inform the performing DoD activity of the identity of the intended recipient for the requisitioned goods or services. Volume 4, Chapter 3 requires that the ordering activity must review all charges from the performing activity to ensure that amounts due are in agreement with the reimbursable order and are supported with a copy of the order or contract and evidence of performance.

2.3.2. DoD Components performing work or services on a customer order must bill the ordering DoD Component, other federal agency, or the public for earned reimbursements (performance of work or services, or delivery from inventory) within 30 calendar days after the month in which performance occurred. The payment due date must not be more than 30 calendar days from the date of the invoice. Bills rendered are not subject to audit by the customer prior to payment as required under 31 U.S.C. § 1535.
2.3.3. The accurate reporting of reciprocal balances, and proper elimination of reciprocal activity between trading partners, requires accurate documentation of accounting events. Imbalances occur when federal entities or trading partners are unable to account for and reconcile differences when buying and selling goods and services. Volume 6B, Chapter 13 provides guidance for trading partner exchange of data, eliminating intra-governmental transactions from the DoD quarterly and annual financial statements, and providing Treasury elimination information for use in preparing the Government-wide financial statements.

2.4 Determining Amounts to be Reimbursed (010204)

DoD Components must adhere to the guidance in the following 14 categories (subparagraphs 010204.A – N) when determining amounts to be collected as reimbursements. Components may use alternative reimbursement rules described in this volume and in other DoD issuances as applicable.

* 2.4.1. DoD Components providing prepaid or reimbursable support will require that cost information is quantifiable and provided to all parties. In addition, support must only be reimbursable when the specified support increases the seller’s incremental direct costs and the seller’s actual indirect costs of providing support. A seller can waive reimbursement from buyers that use or benefit from available support when charges would be less than the anticipated expense of billing and disbursement of funds. DoD Components designated as a Combatant Command support agent will provide administrative and logistics support to Combatant Command headquarters and the subordinate unified command headquarters, as documented in agreements on a non-reimbursable basis, in accordance with DoDD 5100.03 “Support of the Headquarters of Combatant and Subordinate Unified Commands.” Refer to DoDI 4000.19 for additional guidance.

2.4.2. An order placed or agreement made under the Economy Act obligates an appropriation of the ordering entity. The amount obligated is deobligated to the amount of costs incurred and billed by the performing entity before the end of the period of availability of the appropriation. According to OMB Circular A-11 “Section 20 - Terms and Concepts,” the Economy Act allows federal agencies or DoD Components to do work for each other. As the costs for this work are incurred, the Economy Act authorizes the collections to be credited directly to the expenditure account that provided the goods and services for reimbursement. Refer to Chapter 3 for further details.

2.4.3. A project order placed with, and accepted by a separately managed DoD-owned entity for services, material, or the manufacture of material, provide support for a valid and recordable obligation of the ordering entity. Project order appropriations remain available to pay an obligation in the same manner as appropriations remain available to pay an obligation to a commercial manufacturer or private contractor. Refer to Chapter 2 for further details.
2.4.4. As provided in Volume 13, Chapter 5 the two mechanisms for providing APF support to NAFIs are via two MWR functions. The first is the Utilization Support and Accountability (USA), and the second is the Uniform Funding and Management (UFM). MWR USA enables NAFIs to use NAFs to execute such expenses, subject to subsequent APF reimbursement. Record in the cash account with a contra entry to an Unearned Income (liability) account any MWR UFM funds received in advance. Reduce the Unearned Income account for the amount of MWR UFM expenses recorded.

2.4.5. **Direct Civilian Labor.**

2.4.5.1. A DoD Component must be reimbursed for direct civilian labor costs when performing a service or furnishing materials to another entity. If the performing Component has appropriated funds for that purpose, then reimbursement is not required.

2.4.5.2. DoD Components, other federal agencies, and the public must be charged for civilian labor performed for their benefit. Calculate the costs by multiplying the actual hourly pay rates by the number of actual hours worked or assigned (detailed). Charge full-time assignments (details) using annual rates. Otherwise apply the hourly rate in accordance with Chapter 6, Appendix D.

2.4.5.3. Civilian personnel fringe benefit rates must be computed in accordance with Chapter 6, Appendix C. These rates are updated annually and published by OUSD(C), Deputy Comptroller Program/Budget (P/B) on the Financial Management Reports web page, listed by fiscal year (FY) under the *DoD Reimbursable Rates* heading. Refer to the Civilian Personnel Fringe Benefit (Tab D).

2.4.6. **Direct Military Labor.**

2.4.6.1. A DoD Component must fund the cost of direct (and indirect) military labor incurred in the performance of a service for, or the furnishing of materials to, another DoD Component via applicable military personnel appropriations. Therefore, the performing DoD Component must not charge the receiving DoD Component for reimbursement of the cost of military labor. 10 U.S.C. § 2571 authorizes this exception to typical reimbursement requirements as outlined in 010103.F.1. DoD Components must reimburse DWCF activities for the cost of military labor as prescribed in Chapter 6, Appendix B and Volume 11B, Chapter 12. U.S. Army Corps of Engineers (USACE) military labor provided in support of civil works activities of the USACE via reimbursable agreement with DoD organizations, and to non-DoD organizations through the Support for Others Program must be charged in the same manner as military labor provided to non-DoD organizations. The Support for Others Program is a reimbursable financing source that is reported each year in the USACE Annual Financial Report. As an example, refer to the *USACE FY 2020 Annual Financial Report*, Note 1, section 1.D “Financing Sources.”
2.4.6.2. If provided for in the annual DoD Appropriations Act, operation and maintenance appropriations, may be available for reimbursement of pay, allowances and other expenses for National Guard and Reserve members who provide intelligence or counterintelligence support to Combatant Commands, Defense Agencies and Joint Intelligence Activities. These expenses involve the activities and programs included within the National Intelligence Program and the Military Intelligence Program. Refer to the FY 2021 OUSD(C), P/B guidance published online at Tab K under the subsection DoD Reimbursable Rates.

2.4.6.3. DoD Components must charge non-DoD organizations for military labor on the basis of the actual hours worked or assigned (detailed), using the annual military composite standard pay rates. Compute the military personnel composite standard pay and reimbursement rates in accordance with Chapter 6, Appendix G. OUSD(C), P/B annually updates and published these rates online at Tab K under the subsection DoD Reimbursable Rates.

2.4.6.4. Military labor charged using the annual DoD composite rate for military labor includes a Medicare-Eligible Retiree Health Care accrual to cover the cost of health benefits for current officer and enlisted personnel after they retire and become Medicare-eligible, as well as such costs for their dependents and annuitants. The annual composite rate charged to non-DoD organizations includes an acceleration factor to cover medical health care costs of active duty personnel and their dependents. Military Services will furnish data in accordance with Chapter 6, Appendix G.

2.4.7. Temporary Duty Costs. Travel costs incurred by DoD civilian employees and military personnel incurred in performance of a reimbursable work order must be charged as a direct cost when such travel can be identified specifically to the order. Costs of supplies and other directly relatable expenses are also chargeable.

2.4.8. DoD Personal Property and Inventory.

2.4.8.1. According to DoDI 5000.64 “Accountability and Management of DoD Equipment and Other Accountable Property,” personal property includes systems, equipment, materials, and supplies. This does not include records of the Federal Government and real property (land and improvements to facilities). Personal property normally expected to have a period of service of a year or more after being put into use meets the OMB Circular A-11 equipment definition. This equipment must be without material impairment of its physical condition or functional capacity. Personal property either held for sale, produced for sale, or used to produce goods for sale, or to provide a service for a fee, meets the OMB Circular A-11 inventory definition.

2.4.8.2. Reutilization and Marketing Materiel (Surplus)

2.4.8.2.1. DoD Manual 4160.21, Volume I “Defense Materiel Disposition: Disposal Guidance and Procedures,” defines a surplus as excess personal property no longer required by the federal agencies, as determined by the General Services Administration. The disposition of materiel by a Defense Reutilization and Marketing Office must be in accordance with this DoD Manual. The accounting treatment is set forth in Volume 4, Chapter 4.
2.4.8.2.2. The general rules for the disposition of proceeds from the sale of scrap or excess personal property must be in accordance with Chapter 5.

2.4.8.3. **Non-DWCF Materiel.** The pricing of personal property for non-DWCF materiel depends on whether the item(s) being transferred or sold will be transferred to another DoD Component and would normally be replaced. DoD Components make this determination in accordance with the approved acquisition objective, according to OMB Circular A-25 “User Charges.” If the sale will reduce assets required to meet the approved acquisition objective, then replacement is required.

2.4.8.3.1. Issues within or to another DoD Component with the exception of issues in support of NAFI Category C activities and USACE civil works activities, must be on a non-reimbursable basis as provided in 10 U.S.C. § 2571. Such issues will require an accounting entry to reflect the transfer from the losing to the gaining activity. The accounting entry must reflect original acquisition cost and any accumulated depreciation. Issues in support of NAFI Category C activities and USACE civil works activities must be priced in the same manner as issues to other federal agencies and private parties as provided in 010204.H.3.b.

2.4.8.3.2. Issues to other federal agencies or private parties must be priced as follows:

2.4.8.3.2.1. **Materiel to be Replaced.**

2.4.8.3.2.1.1. Materiel, including equipment, for which replacement (i.e., similar, but not exact) or replacement in-kind (i.e., exact) is required, must be transferred or sold at the estimated replacement cost, including the contract or production costs of the article less an adjustment for age and condition of the item being sold. This price is determined in three steps. First, determine the normal useful peacetime life of the item or equipment to be sold. Second, determine the percentage of useful life remaining on the item. Third, apply the percentage to the estimated (or actual) cost of the replacement item. The resultant amount is the base cost to be used in the sale price calculation. Under no condition must the sale price be less than the scrap value plus the cost of the last major overhaul or outfitting accomplished within 24 months before the sale.

2.4.8.3.2.1.2. If it is imperative that the item be replaced through accelerated procurements and normal pricing policies will not adequately recoup replacement costs, an exception to DoD pricing policies must be requested from OUSD(C), P/B. Normally, the exception would be to either add a replacement factor or delay final pricing until the contract for replacement items is financially complete.

2.4.8.3.2.2. **Materiel Not to be Replaced.** A DoD Component that transfers or sells material, including equipment, to other federal agencies and private parties must do so at their original acquisition cost, net of any accumulated depreciation/amortization (i.e., net book value). If the DoD Component cannot reasonably ascertain those amounts, the cost of the material will be its fair value at the time of transfer as provided in Volume 4, Chapter 25.
2.4.9. **Contracts.**

2.4.9.1. Contract costs incurred for contracts awarded as part of a reimbursable agreement must be billed to the benefiting organization.

2.4.9.2. Government-furnished materiel must be billed in addition to contract costs in accordance with subparagraph 010204.H.

2.4.9.3. If the contract is provided to meet the requirements of a non-federal organization, the contractor must be required to pay rent (at fair market value) to the Department for the costs incurred for the use of plant or production equipment utilized in manufacturing the item being sold.

2.4.9.4. The *Federal Acquisition Regulation Subpart 52.232-17*, “Interest,” provides that all amounts that become payable under the contract must bear simple interest from the due date until paid, unless paid within 30 days of becoming due. The Treasury’s Bureau of the Fiscal Service provides an online “**Simple Daily Interest Calculator**” for payments less than 31 days old and a monthly compounding interest calculator for payments more than a month late.

2.4.9.5. Contract administration charges must be charged to other federal agencies and private parties, in accordance with statutory or policy requirements. As allowed in 10 U.S.C. § 2571 contract administration costs are not to be charged within a DoD Component or to another DoD Component (with the exception of support to NAFI Category C activities and support provided to USACE civil works activities) when funding for such costs is included in the mission funding of the performing DoD entity. Contract administration charges for support to NAFI Category C activities and support provided to USACE civil works activities must be priced in the same manner as charges to other federal agencies and private parties.

2.4.9.6. DoD personnel services in support of contracts must be costed in accordance with subparagraphs 010204.E and 010204.F.

2.4.10. **Accessorial Charges.**

2.4.10.1. The “Glossary” Chapter defines these as costs incurred for packing, crating, and handling related to sales or shipments of property. Accessorial charges may be incurred by the DoD for direct delivery of items from contractor facilities or by DoD Components for items furnished from DoD stocks. Accessorial expenses for support provided to USACE civil works activities must be priced in the same manner as charges to other federal agencies and private parties.
2.4.10.2. Unless otherwise provided by law or regulation, accessorial charges must be billed to the following:

2.4.10.2.1. Non-DoD federal departments, agencies, or instrumentalities.

2.4.10.2.2. Non-federal entities, including DoD contractors.

2.4.10.2.3. NAFIs when property is transported for DoD MWR activities unless reimbursement has been waived by DoDI 1015.15.

2.4.10.2.4. USACE for civil works projects or activities.

2.4.10.3. Accessorial charges must be reimbursed by non-DoD activities for the actual cost incurred and billed.

2.4.11. **Asset Use Charge.** A charge for the use of DoD assets (facilities and equipment, or both) is required to recoup depreciation and interest on investment. In accordance with OMB Circular A-25 section 9.A, amounts collected must be returned to the Treasury as miscellaneous receipts, unless otherwise provided for by statute or other DoD guidance. An asset use charge is a factor added to the base rate to recoup depreciation and interest on investments for use of DoD facilities and equipment. A four percent charge may be used. This rate is published annually by OUSD(C), P/B. Refer to the DoD Reimbursable Rates (Tab E) for details. Alternatively, the following calculations may be performed:

2.4.11.1. Depreciation is the systematic and rational allocation of the recorded cost of facilities and equipment (less its estimated salvage or residual value), as an operating expense over the period in which these assets are expected to provide benefits or the estimated useful life, whichever is shorter. Depreciation must be charged using the straight-line method of depreciation. A general equipment or real property item with a recorded cost that equals or exceeds the applicable capitalization threshold and has a useful life of at least two years must be capitalized as an asset and depreciated over its useful life. See Volume 4, Chapter 25. The depreciation calculation is illustrated in Exhibit 1-1.

2.4.11.2. Interest expense must be included in reimbursement billings to private parties to recognize the interest on investment in fixed assets when such assets are acquired or manufactured for the purpose of, or prepared for use in, providing materiel to private parties. The calculation of interest on investment is illustrated in Exhibit 1-2.

2.4.12. **Repair and Maintenance.** When repair and/or maintenance of items occurs, costs from a cost accounting system or, in its absence, equivalent costs developed through cost-finding techniques must be billed.

2.4.12.1. Labor cost must be computed in accordance with subparagraphs 010204.E and 010204.F.
2.4.12.2. Materiel and Supplies cost must be computed in accordance with subparagraph 010204.H.

2.4.12.3. Transportation and related costs must be computed in accordance with subparagraph 010204.J.

2.4.12.4. Overhead Cost must be computed in accordance with subparagraph 010204.N.

2.4.13. **Leased or Loaned DoD Equipment.** When determining the charge for leased or loaned equipment, the following elements must be billed:

2.4.13.1. Depreciation is not applicable to federal agencies unless the billing activity is a DWCF. Depreciation must be based on cost-finding techniques for sales to private parties unless actual rates are known. Calculations must be in accordance with subparagraph 010204.K.

2.4.13.2. Interest on investment in assets must be computed in accordance with subparagraph 010204.K and as designated within the lease agreement.

2.4.13.3. Value of equipment not returned to the owning DoD Component must be a sale to the using organization. This sale must be priced in accordance with subparagraph 010204.H.

2.4.13.4. Accessorial expenses must be recognized in accordance with subparagraph 010204.J.

2.4.13.5. Repair costs to restore equipment or property to its condition at the time leased or loaned must be collected from the using organization. The amounts must be based on either actual job order cost accumulations or estimates of the cost to be incurred based upon past repair and maintenance experience for similar equipment. The amounts collected must be returned to the appropriation that financed the repair and maintenance in accordance with 10 U.S.C. § 2667.

2.4.13.6. Direct labor costs must be computed in accordance with subparagraphs 010204.E and 010204.F; materiel and supply costs must be computed in accordance with subparagraph 010204.H; and overhead must be computed in accordance with subparagraph 010204.N.

2.4.14. **Overhead.**

2.4.14.1. Overhead involve expenses necessary to run a business that are not directly tied to the production and delivery of goods or services, according to OMB Circular A-11.

2.4.14.2. Overhead is typically referred to as general and administrative (G&A) costs or some combination of G&A and indirect costs which cannot readily or directly be identified to the performance of a specific customer order for reimbursable costing. Examples of such costs
include central management, rent for office space, human resources, sales, building maintenance, office supplies and utility costs. As provided by the Federal Accounting Standards Advisory Board (FASAB) in FASAB Technical Release 15 that clarifies Statement of Federal Financial Accounting Standards 6, when accumulated indirect costs are not identified as costs incurred to bring facilities and equipment to a form and location suitable for its intended use, they should be expensed.

2.4.14.3. DoD Components may use materiality to determine whether overhead costs should be included in reimbursable billings. This determination must be justified, documented, and be able to stand up to audit scrutiny. If an organization has a material amount of reimbursable effort, overhead costs are accumulated in a cost pool and allocated to customers. In the absence of a cost accounting system, applicable costs may be estimated.

2.4.14.4. Overhead charges may not be applied to reimbursable customer orders received from APF activities within the Department. However, APF activities will charge overhead on sales to other federal agencies, NAFI Category C activities, USACE civil works activities and private parties.

*2.5 Documentation Standards (010205)

2.5.1. General. Support agreements must comply with generally accepted government auditing standards as required in 31 U.S.C. § 3521 “Audits by agencies.” These standards require establishing internal controls that provide reasonable assurance of achieving effective and efficient operations, compliance with regulations and applicable laws, and reliability of financial reporting. Support agreements must contain documentary evidence as required in 31 U.S.C. § 1501 “Documentary evidence requirement for Government obligations.” Such evidence must include a purpose or scope of agreement in writing as authorized by law. These agreements must be executed before obligational availability expires and prior to the initiation of reimbursable fund certification.

2.5.1.1. A support agreement with a term greater than 3 years must be reviewed and validated by a support agreement manager from the buyer and seller. This review and validation must occur by at least the mid-point of the effective date (e.g., at year 4 in an 8-year agreement). Support agreements expire at a maximum 10 years from the effective date unless there is legal authority for the agreement to continue beyond 10 years.

2.5.1.2. New signatures from all parties to the agreement are required to establish a new support agreement or modify an existing support agreement. This must take place even when the terms and conditions are the same as those in the prior agreement. Cost estimates within agreements that include reimbursable support services must be reviewed annually by the seller to ensure current year actual costs are identified for accurate customer billing and invoices.

2.5.1.3. Support agreements that are active and have established terms for payment in effect as of December 16, 2020 will be converted to FS Form 7600A. This conversion must occur upon the agreement’s next scheduled review or 3 years from December 16, 2020, whichever comes first. Refer to DoDI 4000.19 for additional guidance.
2.5.1.4. Support agreements must include procedures for amending, terminating, reviewing, and transferring the agreement; and for dispute resolution. For example, the agreement must specify that termination may occur by either party via written notice to the other party following an agreed upon termination time. Reporting entities unable to reach an agreement with respect to intragovernmental account balances must escalate the issue to the OUSD(C), Financial Improvement and Audit Remediation (FIAR) Directorate for resolution. Submit requests to the FIAR Directorate no later than the 12th business day of the month following the end of the quarter. At fiscal year-end, final adjustments must be completed prior to the issuance of the Agency Financial Report. Refer to Volume 6B, Chapter 13 for details.

2.5.2. FS Forms 7600A/B. The TFM defines trading partners as two entities engaged in IGT activity. Components must use FS Forms 7600A/B for intra-governmental Buy/Sell transactions. FS Form 7600A should cover the broadest categories of goods and services agreed to by both trading partners and, where practical, consolidate requirements to reduce the agreement workload until DoD Enterprise Resource Planning financial systems are capable of processing FS Form 7600B or equivalent.

2.5.3. Principal Documents. The **DoD Financial Statement Audit Guide**, published May 2018 (DoD Common Access Card required), allow these Key Supporting Documents for Reimbursable Work Orders:

2.5.3.1. FS Form 7600A, GT&C (refer to DoDI 4000.19 and the TFM, Volume I, Part 2, Chapter 4700, Appendix 8 “Section 1 - Buy/Sell Transactions,” for further guidance).

2.5.3.2. FS Form 7600B, Order Form (refer to DoDI 4000.19 and the TFM, Volume I, Part 2, Chapter 4700, Appendix 8 “Section 1 - Buy/Sell Transactions,” for further guidance).

2.5.3.3. The Memorandum of Agreement (MOA) (see DoDI 4000.19 for further guidance).

2.5.3.4. **Standard Form (SF) 1080**, Voucher for Transfers Between Appropriations and/or Funds.

2.5.3.5. **SF 1081**, Voucher and Schedule of Withdrawal and Credits.

2.5.4. Preparation Standards. The following apply to document preparation:

2.5.4.1. FS Forms 7600A/B. A Buy/Sell agreement that defines the terms, conditions, scope, and responsibilities for trading partners during the exchange is referred to as the GT&C (FS Form 7600A). To begin the agreement process, either a buyer or seller may originate a GT&C that must be completed and approved to create an order (FS Form 7600B). The order must reference an open GT&C; however, federal agencies do not have to complete a GT&C each time they do a related order. Federal agencies may complete just one GT&C for multiple years to cover multiple orders. With the GT&C, data is exchanged for approval and a broad range of transactions; in general no funds are transferred and no accounting entries are created.
2.5.4.1.1. The Volume 5, “Definitions” Chapter defines G-Invoicing as an online portal that supports the exchange of information in IGT activity by federal trading partners. G-Invoicing will assign a unique identifier for each GT&C for tracking purposes. Federal agencies maintain the ability to associate their own unique identifier to each GT&C in their internal accounting systems. Orders in G-Invoicing must reference an active GT&C. G-Invoicing serves as a gateway for federal entities to agree upon the funding terms and the accounting treatment of their reimbursable activity, and exchange that data for consistent financial reporting.

2.5.4.1.2. The order section of the Buy/Sell agreement (FS Form 7600B) specifies the terms, quantities and prices, accounting data, and actions of each trading partner under the overarching GT&C. It serves as the funding section of the agreement that creates a fiscal obligation and details the necessary products/services requirements. Funding information is provided for both trading partners, and all required points of contact sign to authorize the order. It communicates the Treasury Account Symbol/Business Event Type Code for each order Schedule Line and contains unique lines of accounting or other accounting data. The order will also identify the specific requirements of the buyer for the expected delivery of products or services by the seller. In addition, the order identifies the roles and responsibilities for both trading partners to ensure effective management of the order and use of the related funds.

2.5.4.1.3. Treasury’s Bureau of the Fiscal Service will eventually require all FPAs to use G-Invoicing under the authority of 31 U.S.C. § 3512(b) and 31 U.S.C. § 3513, and in accordance with the TFM. FPAs must implement G-Invoicing for new orders by October 1, 2022 and for “In-Flight” Orders by October 1, 2023. Refer to the TFM, Volume I, Part 2, Chapter 4700, Appendix 8 for details.

2.5.4.2. MOA. An MOA is used to document an agreement and execute or deliver support with or without reimbursement between two or more parties. When a support agreement involves reimbursement, it can be used to further detail terms and conditions in addition to the FS Form 7600A. A Memorandum of Understanding (MOU) must only be used when there is agreement, among two or more parties, that payment is not expected; and when the parties do not rely on each other to execute or deliver on any responsibilities. Figures 1 and 2 in DoDI 4000.19 provide examples of an MOA and MOU respectively.

2.5.4.3. SF 1080. Intra-governmental payments result from transactions between federal entities for sales, services, or transfers between such entities. DoD Components may use the SF 1080 voucher as support for bills to other DoD Components and non-DoD federal agencies when unable to utilize electronic data interchange methods. See Chapters 2, 9, 16 and Volume 10, Chapter 10.

2.5.4.4. SF 1081. DoD Components may use the SF 1081 voucher when a manual process is required to generate inter-agency payments and collections with non-DoD federal agencies. See Volume 10, Chapter 10.
Exhibit 1-1 STRAIGHT-LINE METHOD OF DEPRECIATION

<table>
<thead>
<tr>
<th>Example of Straight-Line Method of Depreciation</th>
</tr>
</thead>
<tbody>
<tr>
<td>Acquisition cost of the asset: $1,000,000</td>
</tr>
<tr>
<td>Less: Residual value (scrap): $100,000</td>
</tr>
<tr>
<td>Depreciable basis: $900,000</td>
</tr>
<tr>
<td>Estimated useful life in years: 20</td>
</tr>
</tbody>
</table>

The annual depreciation expense of $45,000 is computed by dividing the $900,000 depreciable basis by the 20-year useful life.

Hourly charge is computed by dividing the annual depreciation expense of $45,000 by 2,080 (standard yearly hours) to arrive at $21.63 per hour.

Note: the standard 40-hour work week x the standard 52 weeks in a year = standard yearly hours.

Multiply the hours used to complete the customer order by the hourly charge. For example, 500 hours x $21.63 = $10,815 depreciation expense to be charged.

Exhibit 1-2 INTEREST ON INVESTMENT CALCULATION

<table>
<thead>
<tr>
<th>Example of Interest on Investment Calculation</th>
</tr>
</thead>
<tbody>
<tr>
<td>Acquisition cost of the asset: $1,000,000</td>
</tr>
<tr>
<td>Less: Accumulated depreciation (5 years at $45,000 per year): $225,000</td>
</tr>
<tr>
<td>Net Book Value: $775,000</td>
</tr>
<tr>
<td>Annual interest (assume a rate of 10 percent per annum in this instance): $77,500</td>
</tr>
</tbody>
</table>

Hourly charge is computed by dividing the annual interest of $77,500 by 2,080 (standard yearly hours) to arrive at $37.26 per hour.

Note: the standard 40-hour work week x the standard 52 weeks in a year = standard yearly hours.

Multiply the hours used to complete the customer order by the hourly charge. For example, 500 hours x $37.26 = $18,630 interest on investment to be charged.

CHAPTER 2

PROJECT ORDERS

1.0 GENERAL (0201)

1.1 Purpose (020101)

This chapter prescribes the financial management guidance and policy involving project orders issued pursuant to the authority in Title 41, United States Code, section 6307 (41 U.S.C. § 6307). The United States Coast Guard (USCG) has similar project order authority contained in 14 U.S.C. § 712. Chapter 1 provides the overall guidance and discussion of general reimbursement procedures and related supporting documentation.

*1.2 Authoritative Guidance (020102)

The following accounting policy and related requirements prescribed by this chapter are in accordance with the applicable provisions of:

1.2.1. 41 U.S.C. § 6307, Contracts with Federal Government-owned establishments and availability of appropriations

1.2.2. 14 U.S.C. § 712, Contracts with Government-owned establishments for work and material

1.2.4. Government Accountability Office (GAO) Red Book, Volume 2, Chapter 7, section B.1, Principles of Federal Appropriations Law

*2.0 DEFINITIONS (0202)

2.1 Project Order (020201)

41 U.S.C. § 6307 provides the Department of Defense (DoD) with the authority to place an order or contract for work, material, or the manufacture of material pertaining to an approved project from Federal Government-owned and operated activities. USCG has similar project order authority contained in 14 U.S.C. § 712 to accept orders from, and enter into reimbursable agreements with, establishments, agencies, and departments of the DoD.

These Project Orders must be for “non-severable” work or service, which are separate and distinct from the Economy Act Orders discussed in Chapter 3. When placed with, and accepted
by a separately managed DoD-owned establishment or the USCG, the project order serves to obligate an appropriation(s) in the same manner as an order or contract with a commercial enterprise. The appropriations related to project orders remain available to pay the obligation to a DoD-owned establishment or the USCG just as appropriations remain available to pay an obligation to a commercial manufacturer or private contractor.

2.2 DoD-owned Establishment (020202)

A "DoD-owned establishment" for the purpose of this chapter is any DoD-owned and operated activity (that is, not contractor owned or operated). Such activities include working capital fund activities; other revolving fund activities; and those appropriated fund activities engaged in reimbursable operations that reasonably are not severable into fiscal year segments and where such operations can be forecasted with reasonable accuracy. Examples of such activities include equipment overhaul or maintenance shops, manufacturing or processing plants or shops, research-and-development laboratories, computer software design activities, testing facilities, proving grounds owned and operated by the Department, and engineering and construction activities.

2.3 Contractual Relationship and Commercial Contracts (020203)

Terms such as "contractual relationship," and "commercial contracts," are used to indicate the close relationship between project orders and commercial contracts in the particular circumstances involved. The use of these and similar terms do not subject project orders to the provisions of the Federal Acquisition Regulation, project order agreement, or responsibilities (legal or otherwise) not provided for in this chapter.

2.4 Allotment (020204)

Per Office of Management and Budget Circular A-11, allotments are subdivisions of apportionments that are made by the heads of agencies to incur obligations within a prescribed amount. For the purposes of this chapter, subdivision includes the approved operating budgets for the operation of the Military Departments.

2.5 Approved Projects (020205)

As interpreted by GAO, the term "approved projects" simply refers to projects approved by officials having legal authority to do so.

3.0 GENERAL POLICY (0203)

*3.1 Treasury Guidance on Intra-Governmental Transactions (020301)

3.1.1. Section 4708, "Intra-governmental Quarterly and Year-end Requirements," of the 1-TFM 2-4700 discusses the requirements necessary to properly report intragovernmental transactions resulting from business activities (i.e., buy/sell transactions) between two federal government entities, called trading partners. It further references the Appendix 5, "Overall
Intragovernmental Transaction Processes/General Information” to properly record, report, and reconcile intragovernmental transactions, including the processes for dispute resolution.

3.1.2. Appendix 8 to Section 4708 provides guidance concerning reimbursable activity between trading partners, otherwise referred to as buy/sell activity. Buy/sell activity and the associated accounting activities must be agreed upon by the trading partners and managed through a formal buy/sell agreement. The TFM provides the requirements for using the standard Interagency Agreement (IAA) containing Treasury’s Bureau of the Fiscal Service (FS) Form 7600A “General Terms and Conditions (GT&C)” and FS Form 7600B “Order Requirements and Funding Information (Order)”. The data elements captured in these forms are necessary to (1) ensure the proper recording and reporting on intragovernmental buy/sell transactions, and (2) eliminate most of the federal-wide reporting deficiencies impacting the Financial Report of the United States Government.

3.1.3. The Treasury’s G-Invoicing system will be used as a gateway by all federal entities to agree upon the funding terms and the accounting treatment of their reimbursable activity, and exchange the data with one another for consistent financial reporting. Key changes from manual processes include a new set of data standards and the electronic submission of necessary documentation. The mandated implementation deadline for “new orders” is FY 2023. The mandated implementation deadline for “in-flight” orders, which includes the conversion of orders with an open balance and a period of performance extending beyond September 30, 2023 is FY 2024.

3.2 Recordable Obligation (020302)

3.2.1. A project order is a valid and recordable obligation of the issuing entity when the order is placed with and accepted by a separately managed DoD-owned establishment or the USCG, providing the obligation otherwise meets the criteria for recordation of an obligation contained in 31 U.S.C. § 1501.

3.2.2. All orders or contracts for work or material or for the manufacture of material pertaining to approved projects placed with DoD-owned establishments or the USCG must be considered as obligations in the same manner as prescribed for similar orders or contracts placed with commercial manufacturers or private contractors. Appropriations remain available to pay the obligations so created as in the case of contracts or orders with commercial manufacturers or private contractors.

3.3 Project Order Forms (020303)

3.3.1. As stated in paragraph 020301.B, Treasury has established a standard Interagency Agreement form containing the GT&Cs (FS Form 7600A) and the Order (FS Form 7600B) for federal-wide use in carrying out buy/sell transactions between trading partners. These forms must be issued by an authorized DoD or USCG entity and accepted for performance in a DoD-owned and operated establishment.
3.3.2. To properly document that the order for goods or services is a project order, the trading partners must ensure the proper statute (41 U.S.C. § 6307) is cited on the FS Form 7600B for DoD project orders, or 14 U.S.C. § 712 for USCG-related project orders.

3.4 Work Description (020304)

A project order must include an adequate description of the goods to be delivered and/or work to be performed, to include the Line Item/Sub-Line Item level, as well as, the Product Service Code on each requirement. Without these required elements, the order is not sufficient to create a recordable obligation or document detailed performance/delivery, receipt and acceptance, and its’ respective invoicing and settlement. (Note: There may be repeat orders for which the performing installation has detailed and definite specifications available. Thus, if the performing activity has on file those elements that make a project order specific, definite, and certain, and those elements are in sufficient detail to enable the performing installation to proceed in carrying out the work ordered, then it is not necessary to also include those elements within the project order itself. In such cases, reference may be made on the project order that specification documentation is retained on file by the performing activity.)

3.5 Use of Standard Line of Accounting (020305)

In accordance with Volume 1, Chapter 4 “Standard Financial Information Structure”, buyers and sellers must use the Standard Line of Accounting (SLOA) and ensure it is properly annotated when generating or accepting a reimbursable order, as applicable. Refer to Volume 1, Chapter 4 for additional details and requirements.

4.0 ADVANCE PLANNING (0204)

*4.1 Work Estimates to Performing DoD Establishments (020401)

Ordering DoD Components or the USCG must give performing DoD-owned establishments advance planning notice of future requests of goods and/or services expected to be placed with the performing DoD-owned establishment. A performing DoD-owned establishment, in the development of its operating budget, must use this advance planning detailed line/sub-line item level data to draft order requirements. An operating budget is subject to revision as subsequent specific work requirements, including significant revisions thereof, are determined.

4.2 Cost Estimates (020402)

At the appropriate time during project order negotiations, performing DoD-owned establishments must give ordering DoD Components cost estimates for each item to be produced or work to be performed under the project order.
5.0 CONDITIONS GOVERNING ISSUANCE AND ACCEPTANCE OF PROJECT ORDERS (0205)

5.1 Contractual Relationship (020501)

A contractual relationship must exist (i.e., be created by the project order) between the parties involved.

5.2 Under the Same Activity Commander (020502)

Since an entity may not enter into a formal contract with itself, a project order must not be used by one organizational unit to order work from another organizational unit under the same activity commander.

5.3 Expiration (020503)

Expiration dates of project orders must not extend beyond the point in time in which the appropriation funding the order cancels (generally five years after the appropriation expires for new obligations).

5.4 DoD-Owned Establishment (020504)

Project orders must be issued only to DoD-owned establishments (see definition in paragraph 020201) that have been given the authority to operate a reimbursable program in an amount equal to or exceeding the project order amount(s). Those issued to the USCG under 14 U.S.C. § 712 would be issued in accordance with USCG established regulations. To determine whether the project order statute provides the statutory authority for an intra-DoD order, determine whether the order is being placed with a DoD-owned establishment. Also, determine whether the order is “entire” (also known as non-severable) under paragraph 020509 and satisfies the other requirements identified in this chapter.

5.5 Payments (020505)

All payments made by an ordering DoD Component to a performing DoD-owned establishment must be based upon the payment schedule in the approved and accepted order (FS Form 7600A) which must be within the scope and conditions of the established agreement (FS Form 7600B).

5.6 Specific, Definite, and Certain (020506)

Project orders are analogous to contracts placed with commercial concerns and similar to such contracts, must be specific, definite, and certain both as to the work encompassed by the order and the terms of the order itself. A project order must be accepted by the performing entity as a basis of obligation by the issuer.
5.7 Certification of Availability for Purpose (020507)

Project orders are subject to the same fiscal limitations that are contained within the appropriation from which they are funded. On the other hand, the performing entity may not be aware of all such appropriation limitations. Therefore, an official of the issuing entity must offer a certification on or attached to the project order stating that the funds cited on the project order are properly chargeable for the purposes cited in the project order.

5.8 Bona Fide Need (020508)

The issuing entity’s project order must serve a bona fide need that exists in the fiscal year in which the project order is issued; otherwise, a valid obligation is not accomplished. It is not intended that the bona fide need of the fiscal year rule be construed to preclude procurement lead-time. Thus, where materials, for example, cannot be obtained in the same fiscal year in which they are needed and contracted for, a provision for delivery in the subsequent fiscal year does not violate the bona fide need rule so long as the time intervening between contracting and delivery is not excessive and the procurement is not for standard commercial items readily available from other sources. Bona fide need generally is a determination of the requesting entity and not that of the performing entity. The performing entity, however, must perform due diligence prior to accepting a project order. It is incumbent upon the performing entity to review the order for obvious deficiencies that would lead the reasonable financial manager to question if the order serves a bona fide need existing in the fiscal year of the appropriation cited on the order. The performing entity must maintain this documentation as part of the project order file.

5.9 “Entire/Non-Severable” Versus “Severable” (020509)

5.9.1. To be eligible for project order financing, the need must be present in the fiscal year in which the project order is issued, require a series of actions over a period of time which may cross a fiscal year, and call for work or services that are reasonably not severable between fiscal years. For instance, an order for an “entire” end-item or service would call for a single or unified outcome or product and would be one in which few, if any benefits would accrue if the work were terminated without completion at the end of the fiscal year in which it was placed.

5.9.2. The distinction between “entire” and “severable” may not be readily evident. A service is non-severable if the service produces a single or unified outcome, product, or report that cannot be subdivided for separate performance in different fiscal years. Whether the subdivision is feasible or not is a matter of judgment. The objective desired by the requesting customer must be used in the determination. For example, if the customer supplies an item (for example, an aircraft) for overhaul or renovation and wants the entire item returned in a serviceable state, then a repair of a single component (for example, avionics, landing gear, electronics) of the item when the item consists of many components needing repair, would not be a “severable” action. Conversely, if a customer desires an automated system that consists of multiple modules and some (or all) modules can be used independent of the entire system, then each module that can be used independent of the entire system is severable.
5.9.3. The following are examples of efforts that are not eligible for procurement as a project order:

5.9.3.1. Custodial or housekeeping services;

5.9.3.2. Security or fire protection services;

5.9.3.3. Refuse collection;

5.9.3.4. Routine maintenance in general, including: grounds or surfaced-area maintenance, heating and air conditioning systems operation and maintenance, and other real and personal property maintenance;

5.9.3.5. Services such as: subsistence, storage, printing, laundry, welfare, transportation (including port handling), travel, utilities or communications when any of these purposes is the primary purpose of the request; and

5.9.3.6. Efforts where the stated or primary purpose of the order is to acquire a level of effort (e.g., 80 hours of Continuing Education & Training courses, 40 credits of Continuing Professional Education, 100 hours, 20 weeks, or one year) rather than a specific, definite, and certain end-product.

5.9.4. The following are examples of efforts in which an entire need generally exists and, therefore, are eligible for project order financing:

5.9.4.1. Manufacture, production, or assembly of items including experimental prototypes or items manufactured and assembled for test. “Items” include ships, aircraft, guided missiles, other weapons, vehicles of all kinds, ammunition, clothing, machinery and equipment for use in such operations, and other military and operating supplies and equipment (including components and spare parts);

5.9.4.2. Renovation, rebuild, rehabilitation, reconditioning or overhaul of items, including such operations as are necessary to restore an item to a condition of serviceability equivalent to its original state;

5.9.4.3. Alteration or modification in design or assembly of an item to meet revised specifications or to correct defects;

5.9.4.4. Construction or conversion of items (including buildings and other structures), utility and communication systems, and other public works;

5.9.4.5. Development of software programs and automated systems when the purpose of the order is to acquire a specific, definite, and certain non-severable end-product that is achievable reasonably with the resources (financial, human, and plant) available to the provider rather than a level of effort over an extended period;
5.9.4.6. Production of engineering and construction related products and services; and

5.9.4.7. Education and training contracts for single training courses which are considered a single undertaking. Multi-year research study work order to produce a publishable report.

5.10 Commencement of Work (020510)

The work to be performed under project orders must be expected to begin within a reasonable time after its acceptance by the performing DoD-owned establishment or the USCG.

5.10.1. Although work on a project order is not required to commence in the year of project order acceptance, as a minimum requirement, evidence must exist at the time of project order acceptance showing the intention that work (or procurement if required prior to the beginning of work) must (1) begin without delay (usually within 90 days) and (2) be completed within the normal production period for the specific work ordered.

5.10.2. If work (or procurement if required prior to the beginning of work) financed from an appropriation that expired for obligation on September 30 on a project order does not begin, or is not expected to begin, before January 1 of the following calendar year, then the project order must be returned by the performing activity for cancellation. If it is documented that the delay is unavoidable and could not have been foreseen at the time of project order acceptance, and that documentation is retained for audit review, then the project order can be retained and executed.

5.11 Contingent Event Prohibition (020511)

A project order must not be issued if commencement of work is contingent upon the occurrence of a future event or authorizing action by the ordering entity.

5.12 Lawful Purpose (020512)

Project orders must not be used to contravene provisions of the law or accomplish by means of this device what regulations do not permit under commercial contracts.

5.13 Authorized Purpose (020513)

Project orders must not be issued for the primary (or secondary) purpose of continuing the availability of appropriations.

5.14 Project Order Modifications (020514)

5.14.1. The project order statute differs from the Economy Act at 31 U.S.C. § 1535 because it permits agencies to account for obligations for orders in the same manner as orders for similar work placed with commercial manufacturers and private contractors. Project orders, similar to commercial contracts, may contain special provisions and may be modified. Unlike
procurement contracts with commercial concerns where competition requirements limit permissible contract modifications, project orders may be changed or increased at any time to accommodate new or additional work so long as proper funding is available, and so long as the new work otherwise meets the general conditions governing issuance and acceptance of project orders.

5.14.2. If the appropriation used to fund the initial order remains available for new obligation, then use it to fund all modifications that are a bona fide need of that appropriation, even if the modification changes the scope of the project order.

5.14.3. If the appropriation used to fund the initial order has expired, then use it to fund only those amendments and modifications that are within the general scope of the initial project order.

5.14.4. All modifications that increase or change the general scope of work of the original order must be charged to a current appropriation. In cases where the original appropriation has expired and no longer available for new obligations, and the modification or amendment changes the general scope of the original order, the amendment or modification must be funded from a current appropriation.

5.14.5. The appropriation cited on the project order must remain available for price increases and changes that are within the scope of the original order. These obligational rules apply equally to fixed price and cost reimbursable project orders.

5.14.6. Limitation of cost clauses in commercial cost-reimbursement contracts that are the obligational basis for the requirement to charge current appropriations for all ceiling increases, including those within the general scope of such contracts, are not applicable to cost-reimbursement project orders. Limitation of cost clauses govern the legal liability of the United States to third parties, whereas transactions within or between agencies are governed by principles of comity. Whether to structure such project orders on a fixed price or reimbursable basis is a matter of agency discretion and convenience, but not obligational relevance. Whether the work changes the general scope of the original order, or otherwise satisfies an emergent bona fide need of the current fiscal period, governs whether current funds must be charged. Subject to the provisions of paragraph 020708, amendments to project orders which have the effect of partial or complete termination of such orders must provide for the inclusion of the costs of termination.

5.14.7. Volume 3, Chapter 10 provides additional guidance on accounting requirements for expired and closed accounts.

5.15 Ability to Perform (020515)

Project orders must be issued only to those DoD-owned establishments that are capable of performing substantially the work ordered. “Substantially” as used in this paragraph, means that the project order recipient must incur costs of not less than 51 percent of the total costs attributable to rendering the work or services ordered. Total costs to render the work or services ordered include the costs of goods or services obtained from or provided by contractors.
5.16  Subsidiary Ordering (020516)

The provisions of this chapter are not intended in any way to authorize one DoD-owned establishment to act as a general contracting or purchasing agent for another entity.

5.16.1. Subsidiary ordering (within the government) and contracting (with commercial firms) pursuant to a project order is authorized, given such subsidiary ordering and contracting is incident to, and is for use in, carrying out the purpose of the project order.

5.16.2. Project orders must contemplate the use of personnel and facilities (and may include the use of other resources) on the part of the project order recipient, but beyond those incident to contract procurement. In this connection, it is not improper for a project order recipient to subcontract for component parts when the recipient later assembles those parts into the end-product ordered. The assembly operation includes the use of personnel whose technical skills are essential to completion of the job. In addition, the work expended in the assembly operation must be of such an extent that it avoids a perception of the project order being used for contract procurement.

5.16.3. If a project order cannot be placed with another DoD-owned establishment because that establishment would fill the order by contracting with a commercial concern for performance of substantially the entire order, then it is possible the order could be placed pursuant to the Economy Act. This Act permits the agency or agency unit filling the order to provide or procure by contract the goods and services necessary to perform the order.

5.17  Project Order Default (020517)

5.17.1. Where a recipient of a project order defaults or fails to perform work or services specified in the order, and a replacement project order is required as the result of such default, the following apply:

5.17.1.1. Defaulted work or services may be procured from another DoD-owned establishment or the USCG to the extent of any unobligated balance in the appropriation thus obligated.

5.17.1.2. Similarly, a project order also may be issued to a DoD-owned establishment or the USCG under an appropriation obligated by contracts with outside contractors when such contract is terminated for default or failure on part of the contractor to perform work or services specified in the contract.

5.17.1.3. Replacement project orders resulting from defaults may be issued and obligated subsequent to the period of availability of the appropriation for obligation if the replacement project order is made without undue delay after the termination of the original contract or project order.
5.17.2. A replacement project order fulfills a bona fide need of the appropriation that had funded the contract or project order that was terminated for default. The replacement project order must be awarded on the same basis and be similar substantially to the original project order in its scope and size. The replacement project order must not extend beyond the point in time in which the ordering appropriation cancels (generally five years after the appropriation expires for new obligation).

5.18 Project Order Financing (020518)

A project order must be financed fully by the ordering DoD Component from obligational authority current at the time the project order is issued and accepted. Project orders may be issued for a research, development, test and evaluation project which is not financed to completion (i.e., prepared on an incrementally programmed basis). A research, development, test and evaluation appropriation project or program financed on an incrementally programmed basis is one that is funded for the remainder of the funding appropriation’s period of current availability or the current fiscal year vice a fully-funded-to-completion basis.

5.19 Direct-Cite Prohibition (020519)

A DoD-owned establishment may only accept project orders on a reimbursable basis. Orders must not be made a subdivision of funds, similar to an allotment; nor the appropriations of the ordering entity be cited by the performing DoD-owned establishment when incurring and recording obligations incurred in performance of the order.

5.20 Reimbursement of Costs Incurred in Performance of a Project Order (020520)

Reimbursement of costs incurred by a performing activity may be accomplished in the manner ordinarily used by that performing activity. Volume 5, Chapter 9 “Disbursement” recognizes that a disbursement may result from a transfer of funds from one appropriation or fund to another by a “no check drawn” transaction using a Standard Form (SF) 1080, Voucher for Transfers Between Appropriations and/or Funds; SF 1081, Voucher and Schedule of Withdrawals and Credits; or by the Department of the Treasury's Intra-governmental Payment and Collection (IPAC) system. Volume 5, Chapter 11 provides additional information on the IPAC system and also identifies general requirements and technical specifications prescribed by the Treasury on the use of IPAC.

6.0 CONDITIONS GOVERNING PERFORMANCE OF PROJECT ORDERS (0206)

6.1 Timeliness (020601)

After acceptance, project orders must be performed as expeditiously as possible according to the terms as accepted. (See paragraph 020510 for additional information.)
6.2 Notification of Delivery Schedule (020602)

Performing DoD-owned establishments are responsible for promptly advising ordering DoD Components of all goods delivered and/or service rendered, and of any changes in delivery schedules.

*6.3 Summary of Costs (020603)

For cost-reimbursement project orders, performing DoD-owned establishments must give ordering DoD Components a summary of costs incurred to date and estimates of costs to complete the order no less than quarterly, but no more frequently than once a month. No special report forms are authorized for this purpose.

6.4 Expiration Dates (020604)

Expiration dates of project orders may be extended with the approval of the ordering DoD Component. Expiration dates of project orders may not extend beyond the point in time in which the ordering appropriation cancels.

7.0 REIMBURSEMENTS TO PERFORMING DOD-OWNED ESTABLISHMENTS (0207)

7.1 Reimbursement (020701)

Performing DoD-owned establishments must be reimbursed for work covered by project orders based upon fixed prices or costs incurred.

7.2 Fixed Price Project Orders (020702)

7.2.1 A fixed price project order must establish a firm price for purposes of reimbursement for the work or services ordered. A fixed price basis may be used when all of the following conditions are present.

7.2.1.1 Work specifications are stable, specific, and definite; and they are made part of the order (or incorporated by reference) for each item when the project order is accepted for performance on a fixed price basis or amended for any changes in the scope of the work. This requirement is critical especially for project order-accepting activities financed by a direct appropriation. An activity financed by a direct appropriation must not accept a fixed price project order unless the activity can predict with a high degree of certainty the actual cost to complete the project order. Otherwise, the activity may violate the prohibition against inappropriately augmenting an appropriation and/or using an appropriation for a purpose not authorized.
7.2.1.2. When there is more than one item of work or service in a project order, including amendments for changes in scope, each item is made the subject of a separate price as shown by the order or in a list incorporated therein by reference. When the work to be performed is the subject of a work list (e.g., equipment overhaul) each entry on the work list must be considered to be an item.

7.2.1.3. No substantial contingencies are included in the price, nor considered to be involved in performance, so that cost variations in performance reasonably can be expected to be minor.

7.2.1.4. There is a satisfactory system of cost estimating used as a basis for establishing fixed prices. When cost standards are used in cost estimating for the purpose of pricing, they must be adjusted for this purpose to include expected cost variances.

7.2.1.5. The same cost elements are used in cost estimating and establishing fixed prices as would be required for use if reimbursements were based upon actual cost incurred.

7.2.2. The requirement to establish a firm price for purposes of reimbursement for the work or services ordered does not preclude the issuance of amendments/modifications to cover changes in scope of any item in the order.

7.3 Cost-Reimbursement Project Orders (020703)

7.3.1. The amount stated in a cost-reimbursement project order must be a sound estimate of the costs to be incurred in performance of the work or services ordered. Such estimates must be determined based upon the specific work to be performed. The estimate of costs must be the ceiling amount for purposes of reimbursement for the work or services ordered.

7.3.2. The performing DoD-owned establishment and the ordering DoD Component must undertake timely renegotiations for revisions of the ceiling amount of cost-reimbursement project orders. Such renegotiations must take place whenever cost performance indicates the need for adjustment of the ceiling amount upward or downward, but before the cost of performance has exceeded 75 percent, when compared with the current ceiling amount. Renegotiations need not be conducted when the probable cost of renegotiation is greater than the adjustment amount. In such cases, the performing establishment must absorb the difference, upward or downward.

7.3.3. Cost-reimbursement project orders may be converted to a fixed price basis provided all conditions governing the use of fixed price project orders are present (see paragraph 020702). In addition, the conversion must occur prior to incurring either 50 percent of the total cost of the work, or 50 percent of the period of performance, whichever comes first.

7.4 Unfunded Costs (020704)

For purposes of this paragraph, “unfunded costs” are costs that are not funded in the account or appropriation that funds the performing activity. (Examples of unfunded costs are not universal. Some performing revolving fund accounts, primarily the working capital fund accounts,
may fund costs that are unfunded by appropriated funds. Unfunded costs of a performing activity funded by an appropriation normally include labor of military personnel and depreciation of capital assets.) When an ordering DoD Component places an order on behalf of persons or agencies outside the U.S. Government (including reimbursable transactions pursuant to Foreign Military Sales discussed in Volume 15), the ordering DoD Component must identify this circumstance on the project order. Under this circumstance, the amount of unfunded costs must be specifically identified and included in the amounts contained in the:

7.4.1. Project orders issued to performing activities;

7.4.2. Billings made by the performing activity to the ordering activity;

7.4.3. Reimbursements by the ordering activity to the performing activity; and

7.4.4. Reimbursements obtained by the ordering activity from the non-federal customer.

7.5 Working Capital Fund (020705)

In the case of a performing DoD-owned establishment operating under a working capital fund, reimbursable costs must be determined in accordance with Volume 11B.

7.6 Non-Working Capital Fund (020706)

When the performing DoD-owned establishment is not operating under a working capital fund, a reimbursable agreement negotiated prior to the placement of a project order must be executed in accordance with the policy requirements contained in Chapter 1.

7.7 Reimbursable Costs (020707)

Reimbursable costs include the cost of machinery or equipment acquired specifically for the performance of a single project order. Such costs must be specifically approved in the following circumstances:

7.7.1. In advance by the ordering DoD Component,

7.7.2. When the machinery or equipment legally could be acquired directly by the ordering fund or appropriation, or

7.7.3. Approval is incorporated into the terms of the project order agreement or amendments thereto. When this is the case, the approved costs must be segregated from other costs and shown as a separate item in the reimbursable billing. Such machinery and equipment are the property of the ordering DoD Component and must be disposed of in accordance with instructions from the ordering DoD Component.
7.8 Termination Costs (020708)

Costs incurred in the termination of a project order must be reimbursable to the performing DoD-owned establishment when the order is terminated by the ordering DoD Component, to the extent that such costs do not exceed the amount of the fixed price or the current ceiling amount specified in the case of cost-reimbursement project orders. When ordering DoD Components and performing DoD-owned establishments cannot agree on the costs of termination, the case must be referred through Component financial management channels for settlement by the Under Secretary of Defense (Comptroller).

7.9 Billing (020709)

To the extent feasible, performing DoD-owned establishments must bill ordering DoD Components for work performed upon the basis of jobs completed or services rendered in accordance with the terms of the project order. Whenever a long period of time is required in the performance of a project order, periodic progress payments approximating costs incurred may be provided for in the order. Progress payments may be made to the performing DoD-owned establishment to cover the accrued cost (and other direct obligations incurred) of performance to the end of the fiscal year under an uncompleted project order. Reimbursement to a working capital fund activity for work performed prior to completion of the project order must be accomplished normally on either a progress payment or a percentage-of-completion basis.

8.0 ACCOUNTING FOR COST OF PERFORMANCE (0208)

8.1 Administration (020801)

Project orders are reimbursable orders and must be administered and accounted for as such. Therefore, project orders may not be administered or accounted for by performing DoD-owned establishments as separate subdivisions of appropriations or funds similar to an allotment. The appropriation type accounting for project orders must be performed by the ordering DoD Component in a manner similar to that performed for commercial contracts.

8.2 Working Capital Fund (020802)

The operations of performing DoD-owned establishments financed under a working capital fund must be accounted for in accordance with Volume 11B.

8.3 Obligation Authority (020803)

Project orders received and accepted are the source of reimbursable obligational authority, in the amount of the accepted project order, for the performance of services or delivery of goods requested.
8.4 Costs Accounts (020804)

Cost accounts must be maintained to accumulate the costs of performance for all project orders. Those cost accounts serve as a basis for determining the amount reimbursable for cost-reimbursement project orders and as a basis of determining a fixed price for similar future fixed price project orders.

8.5 Billings (020805)

Billings covering reimbursements must identify costs for each project line/subline item in accordance with the accepted project order (FS Form 7600A). The billing standard is discussed in Chapter 1.

9.0 EXEMPTIONS (0209)

Requests for exemptions, along with appropriate justification, must be submitted to the Office of the Under Secretary of Defense (Comptroller), Deputy Chief Financial Officer.
VOLUME 11A, CHAPTER 3: “ECONOMY ACT ORDERS”

SUMMARY OF MAJOR CHANGES

Changes are identified in this table and also denoted by blue font.

Substantive revisions are denoted by an (*) symbol preceding the section, paragraph, table, or figure that includes the revision.

Unless otherwise noted, chapters referenced are contained in this volume.

Hyperlinks are denoted by **bold, italic, blue and underlined font**.

The previous version dated March 2012 is archived.

CHAPTER 3

ECONOMY ACT ORDERS

1.0 GENERAL (0301)

1.1 Purpose (030101)

This chapter prescribes the financial management policy applicable to orders placed for goods and services within the authority provided for in Title 31, United States Code, section 1535 (31 U.S.C. § 1535) (the Economy Act of 1932, as amended). Chapter 1 provides overall guidance on general reimbursement procedures and supporting documentation.

*1.2 Authoritative Guidance (030102)

1.2.1. 10 U.S.C. § 2410a provides statutory authority for severable service contracts for periods crossing fiscal years.

1.2.2. 10 U.S.C. § 2205 provides statutory authority for reimbursements made to appropriations of the Department of Defense (DoD) under 31 U.S.C. §§ 1535 and 1536.

1.2.3. 31 U.S.C. § 1502 stipulates the bona fide needs rule.

1.2.4. 31 U.S.C. § 1535 provides the authority for Federal agencies to order goods and services from major organizations within the same agency or other Federal agencies.

1.2.5. 31 U.S.C. § 1536 provides the authority for crediting payments received on orders executed under 31 U.S.C. § 1535. Payments may be credited to the appropriation or fund against which charges were made to fill the order, or to replace stocks on hand used to fill the order, unless another law authorizes the amount to be credited to some other appropriation or fund; or the head of the performing agency decides that replacement is not necessary, in which case, the amount received is deposited in the United States (U.S.) Department of the Treasury (Treasury) as miscellaneous receipts.

1.2.6. DoD Instruction 4000.19, “DoD Agreements,” establishes policy, assigns responsibilities, and provides direction for agreements within the DoD and between DoD and other entities.

1.2.8. Federal Acquisition Regulation (FAR) Subpart 17.5, “Interagency Acquisitions,” provides federal-wide acquisition policy related to interagency acquisitions. Under this Subpart, FAR 17.502-2 provides additional acquisition policy specifically related to Economy Act orders.

*2.0 DEFINITIONS (0302)

2.1 Assisted Acquisition (030201)

FAR Subpart 2.1 defines an assisted acquisition as a type of interagency acquisition where a servicing agency performs acquisition activities on a requesting agency’s behalf, such as awarding and administering a contract, task order, or delivery order. DFARS 217.701 defines assisted acquisition similarly as the type of interagency contracting through which acquisition officials of a non-DoD agency award a contract, task, or delivery order for the acquisition of supplies or services on behalf of DoD.

2.2 Direct Acquisition (030202)

Per FAR Subpart 2.1, a direct acquisition is a type of interagency acquisition where a requesting agency places an order directly against a servicing agency’s indefinite-delivery contract. The servicing agency manages the indefinite-delivery contract but does not participate in the placement or administration of an order. DFARS 217.701 defines direct acquisition as a type of interagency contracting through which DoD orders a supply or service from a Government-wide acquisition contract maintained by a non-DoD agency.

2.3 Interagency Acquisition (030203)

As defined in FAR Subpart 2.1, an interagency acquisition is an action by which an agency needing supplies or services (the requesting agency) obtains them from another agency (the servicing agency) by an assisted acquisition or a direct acquisition. The term includes acquisitions under the Economy Act (31 U.S.C. § 1535) and Non-Economy Act acquisitions completed under other statutory authorities.

2.4 Multiple Year Appropriation (030204)

As used in this chapter, a multiple year appropriation means an appropriation that is available for obligation for a definite period of time in excess of one fiscal year.

2.5 Non-Severable Service (030205)

A non-severable service represents a single undertaking that cannot be feasibly subdivided. If the service produces a single or unified outcome, product, or report, the service is considered non-severable.
2.6 Requesting Agency (030206)

The requesting agency is defined in FAR Subpart 2.1 as the agency that has the requirement for an interagency acquisition.

2.7 Servicing Agency (030207)

The servicing agency is defined in FAR Subpart 2.1 as the agency that will conduct an assisted acquisition on behalf of the requesting agency.

2.8 Severable Service (030208)

A severable service represents a service that is continuing and recurring in nature where the agency realizes a benefit at the time that the service is provided even if the contract has not been performed to completion. A service is considered severable if it can be separated into a component that independently provides value to meet an agency’s need.

3.0 LEGAL AUTHORITY (0303)

3.1 Statutory Conditions on Use (030301)

31 U.S.C. § 1535 establishes four basic conditions on the use of Economy Act authorities. In accordance with the statute, the head of an agency or major organizational unit within an agency may place an order with a major organizational unit within the same agency or another agency for goods or services if:

3.1.1. Funds are available;

3.1.2. The head of the requesting agency or unit decides the order is in the best interest of the U.S. Government;

3.1.3. The agency or unit to be asked to fill the order is able to provide or obtain by contract the ordered goods or services; and

3.1.4. The head of the requesting agency decides that ordered goods or services cannot be provided by contract as conveniently or economically by a commercial enterprise.

3.2 Reimbursements to Appropriations (030302)

As stated in 10 U.S.C. § 2205, reimbursements made to DoD appropriations under 31 U.S.C. §§ 1535 and 1536 for services rendered or supplies furnished may be credited to the appropriation or fund of the activity performing the reimbursable work.
3.3 Limitations (030303)

Economy Act orders may not be used by an agency to:

3.3.1. Circumvent conditions and limitations imposed on the use of funds, including extending the period of availability of the cited funds;

3.3.2. Contravene provisions of the law or accomplish what regulations do not permit under commercial contracts;

3.3.3. Make acquisitions conflicting with any other agency’s authority or responsibility (see FAR 17.501) or for which the servicing agency is required by law to provide and for which it received appropriations; or

3.3.4. Order work or services from another organizational unit under the same activity commander where the activity commander is in a position to fund the required goods or services through the use of direct funds.

4.0 USES OF ECONOMY ACT ORDERS (0304)

Economy Act orders may be used for any required goods, supplies or services that are appropriate and legal. Acquisition policies contained in the FAR, DFARS, and within individual DoD Component’s implementation guidance govern the potential uses of Economy Act orders. Typical uses include, but are not limited to, base support (host-tenant) services such as administrative services, civilian personnel services, community services, environmental compliance, fire protection, food service, health service, mail service, police service, security/guard services, and warehousing.

5.0 INITIATING AN ECONOMY ACT ORDER (0305)

*5.1 Determinations and Findings Requirement (030501)

FAR 17.502-2(c) requires each Economy Act order to be supported by a determinations and findings (D&F) that must be furnished to the servicing agency with the order. Specific D&F requirements are stated in FAR 17.502-2(c) and DFARS 217.503.

*5.2 Ordering Procedures and Requirements (030502)

FAR 17.503, DFARS Subpart 217.5, and DFARS Subpart 217.7 address the procedures that apply to all interagency acquisitions, including those made under the authority provided within the Economy Act.
5.3.1. The TFM Volume I, Part 2, Chapter 4700, Section 4706, “Intragovernmental Quarterly and Year-End Requirements,” discusses the requirements necessary to properly report intragovernmental transactions resulting from business activities (i.e., buy/sell transactions) between two Federal government entities, called trading partners. It further references the Intragovernmental Transaction Guide (Appendix 6) as containing the business rules and processes to properly record, report, and reconcile intragovernmental transactions, including the processes for dispute resolution.

5.3.2. The guidance in TFM, Volume I, Part 2, Chapter 4700, Appendix 6, Section 9 provides the standard Interagency Agreement (IAA) containing two Fiscal Service (FS) Forms: FS Form 7600A, General Terms and Conditions (GT&C) and FS Form 7600B, Order Form. Treasury has mandated the use of these two forms to ensure the proper recording and reporting on intragovernmental buy/sell transactions, and to eliminate the federal-wide reporting deficiencies impacting the Financial Report of the U.S. Government. Accordingly, all DoD Components must use the latest published versions of FS Forms 7600A/B when completing an Economy Act Order and these must comply with the Federal Intragovernmental Data Standards when using the Treasury's G-Invoicing system, DoD Ordering systems, Enterprise Resource Planning, or when completing the FS Forms 7600 A/B manually.

5.3.3. The Treasury's G-Invoicing system must be used to negotiate, broker, and electronically store the GT&Cs and associated transactions between buyers and sellers for all inter- and intragovernmental reimbursable transactions as appropriate system capabilities come online for individual DoD Components. This requirement is for all IAAs with a performance period extending to June 30, 2021 or later. In instances where G-Invoicing is not available, such as remote deployments or other austere conditions, DoD Components must use hardcopies of FS Forms 7600A/B. DoD Components must establish internal policies and procedures for designating signature authority for GT&Cs.

5.3.4. The requesting scope of work on the FS Form 7600A should cover relatively broad categories of goods or services when feasible. However, the FS Form 7600B must discretely describe the goods or services ordered with the associated FS Form 7600A. When practical and legally permissible, the agreement period on the FS Form 7600A should cover multiple years.
6.2 Certification of Availability for Purpose (030602)

Economy Act orders are subject to the same fiscal limitations that are contained within the appropriation from which they are funded. However, the performing entity may not be aware of all such appropriation limitations. Therefore, the requesting official must provide a certification, on or attached to the Economy Act order, stating that the funds cited on the Economy Act order are properly chargeable for the purposes cited in the order.

6.3 Bona Fide Need (030603)

Economy Act orders citing an annual or multiple year appropriation must serve a bona fide need arising, or existing, in the fiscal year(s) for which the appropriation is available for obligation (refer to 31 U.S.C. § 1502). Otherwise, a valid obligation is not accomplished. Bona fide need generally is a determination of the requesting activity and not that of the servicing activity. A servicing activity should, however, refuse to accept an Economy Act order if it is obvious that the order does not serve a need existing in the fiscal year for which the appropriation is available.

6.4 Appropriation Policy (030604)

6.4.1. Obligation. An Economy Act order obligates the applicable appropriation of the requesting agency or unit upon acceptance of the order by the servicing agency. Thus, the requesting agency should obligate the entire amount of a reimbursable order when the order is accepted by the servicing agency.

6.4.1.1. Annual appropriations are not available for requirements that are bona fide needs of a subsequent fiscal year, except pursuant to statutory authority. DoD Components that enter into Economy Act agreements with other organizations to satisfy requirements for severable services, non-severable services, and supplies must ensure that obligations for the Economy Act agreements constitute a bona fide need of the annual appropriation charged. Consequently, any supply or service contract entered into by the servicing agency must be entered into before the end of the period of availability of the annual appropriation.

6.4.1.2. To constitute a bona fide need of the requesting activity’s annual appropriation, any resultant contract for supplies or services entered into by the servicing agency must satisfy the same obligational requirements set forth in Volume 3, Chapter 8, as would any contract directly entered into by the requesting activity. For example, an Economy Act agreement for severable services may be performed by issuance of a contract that crosses fiscal years only if the awarded contract satisfies the requirements of 10 U.S.C. § 2410a, the contract period does not exceed 1 year, and the contract period commences during the period of availability for the requesting agency’s appropriation(s).
6.4.1.3. Multiple year appropriations may be obligated for requirements that constitute bona fide needs of the multiple year period of availability of the appropriation. Multiple year appropriations obligated for Economy Act orders are subject to the same bona fide need standards as would a contract directly entered into by the requesting activity. Resultant supply and service contracts must be entered into during the period of availability of the appropriation funding the Economy Act order, and are subject to the same budgetary full funding or incremental funding policies prescribed in Volumes 2A and 2B.

6.4.1.4. Resultant contracts for non-severable services that cross fiscal years must be supported entirely by the requesting agency’s appropriations available for new obligations at the time the contract is awarded.

6.4.1.5. Because Research, Development, Test and Evaluation (RDT&E) requirements are iterative in nature, RDT&E programs, projects and activities are not subject to full funding policies. For example, DFARS 232.703-1 permits DoD organizations to incrementally fund a fixed-price contract for severable services if the contract is funded with research and development appropriations. Refer to DFARS 232.703-1 for additional guidance and restrictions. Similarly, DoD budgetary policy in Volume 2A, Chapter 1 provides that RDT&E budget estimates are prepared on an incrementally funded basis and only those funds required for work in a given fiscal year must be included in the RDT&E request for that fiscal year. DoD Components are encouraged to fully fund RDT&E contracts for non-severable services.

6.4.1.6. Obligating funds for an Economy Act order where the resultant fixed-length severable services contract will exceed the 1-year limit set forth in 10 U.S.C. § 2410a or will not commence until a subsequent fiscal year, may result in an Antideficiency Act violation under 31 U.S.C. § 1341.

6.4.2. Deobligation. Transactions undertaken in reliance on authority conferred by the Economy Act are subject to statutory requirements imposed by 31 U.S.C. § 1535(d) governing when excess funds must be deobligated. The amount obligated by the requesting agency or unit must be deobligated to the extent that the servicing agency has not incurred obligations before the end of the period of availability of the ordering appropriation. It is critical that activities reconcile the obligation status of Economy Act orders and deobligate unused funds, as needed, before the end of the funds availability. Funds must be deobligated by both the requesting and servicing agency to the extent that the servicing agency or unit filling the order has not (1) provided the goods or services, or (2) entered into an authorized contract with another entity to provide the requested goods or services before the end of the period of availability (fiscal year or multiple year period, as applicable) of the appropriation of the requesting or ordering agency.

6.5 Commencement of Work (030605)

The work to be performed under Economy Act orders must be expected to begin within a reasonable time after its acceptance by the servicing agency.
6.6 Contingent Event Prohibition (030606)

Economy Act orders must not be issued if commencement of work is contingent upon the occurrence of a future event or authorizing action by the requesting agency.

7.0 PAYMENT PROCEDURES (0307)

7.1 Payments (030701)

7.1.1. Payment must be made promptly upon the written request (or billing) of the agency or unit filling the order. Unless the DoD Component is specifically authorized by law, legislative action or Presidential authorization, funds are not to be advanced to non-DoD Federal entities or be used to pay for advance billings without the receipt of goods or services. Refer to Volume 4, Chapter 5 for the conditions and requirements related to advances and prepayments.

7.1.2. For those few exceptions where DoD is specifically authorized by a specific appropriation or law to advance funds, the specific appropriation or law authorizing the advance must be cited on the obligating and/or interagency agreement documents and orders. Advance payments, when authorized, are based on estimated costs, but the final payment amount must be adjusted to account for actual costs. Any unused amounts of the advance must be collected from the performing agency immediately and returned to the fund from which originally made.

7.1.3. The requesting official must be fully aware of the non-DoD Federal agency’s billing practices and methods. If an advance of funds is permitted, the DoD agency requesting official must ensure that the written agreement with the servicing agency requires it to specifically account for the funds advanced. The requesting official must also take appropriate action to ensure DoD funds are not disbursed in advance of contract performance. Additionally, DoD Components must work with their servicing disbursement sites to ensure trading partner agreements restrict other Federal agencies’ ability to withdraw funds prior to the delivery of goods or performance of services.

7.2 Small Amounts (030702)

7.2.1. DoD working capital funds, the Corps of Engineers Civil Works Revolving Fund, and other DoD revolving funds may not waive reimbursement of any amount. This does not preclude identification of a central payment office by a DoD Component to pay small bills. Guidance on financial management of working capital funds is in Volume 11B.

7.2.2. When an appropriated fund activity is the performer and the amount to be billed within the same DoD Component or to another DoD Component is less than $1,000, the billing may be suspended by the billing organization until the end of the fiscal year, or until the total billed exceeds $1,000. However, no later than the end of the fiscal year, all suspended amounts must be billed even though the amount to be billed is less than $1,000.
7.2.3. When the amount to be billed to a non-DoD U.S. Government activity is less than $1,000, the billing may be suspended by the billing organization until the end of the fiscal year, or until the total billed exceeds $1,000. However, no later than the end of the fiscal year, all suspended amounts must be billed to non-DoD U.S. Government activities even though the amount to be billed is less than $1,000.

8.0 REIMBURSEMENTS (0308)

8.1 Appropriated Funds (030801)

Reimbursement under the Economy Act is to be made on the basis of actual cost as determined by the servicing agency. The requesting agency must pay the servicing agency the actual costs of the goods or services provided. Actual costs include all direct costs attributable to providing the goods or services, regardless of whether the servicing agency’s expenditures are increased. Actual costs also include indirect costs (overhead) to the extent they have a significant relationship to providing the goods or services and benefit the requesting agency. Indirect costs (overhead) must be computed in accordance with Chapter 1. DoD activities not funded by working capital funds normally do not charge indirect costs to other DoD activities. In accordance with FAR 17.502-2.d.(4), the servicing agency may not require a payment of, or the requesting agency pay, any fee or charge in excess of the actual cost (or estimated cost if the actual cost is not known) of entering into and administering the contract or other agreement under which the order is filled. Chapter 1 provides the general rules that DoD Components must follow when determining amounts to be collected as reimbursements.

8.2 Working Capital Fund Activities (030802)

Reimbursable costs in the case of servicing DoD activities operating under a working capital fund must be determined in accordance with Volume 11B.

9.0 ACCOUNTING (0309)

9.1 Direct Fund Cite Orders (030901)

Economy Act orders may be issued as direct fund cite orders where the requesting unit identifies the appropriate fund citation for the servicing unit to place on the requested contract or reimbursable order. Economy Act orders must neither be administered nor accounted for by servicing DoD activities as separate subdivisions of appropriations or funds similar to an allotment. Appropriation-type (e.g., annual, no-year, multiyear) accounting for an Economy Act order must be performed by the requesting DoD Component in accordance with Volume 3, Chapter 15.

9.2 Working Capital Fund (030902)

The operations of servicing DoD activities financed under a working capital fund must be accounted for in accordance with Volume 11B.
9.3 Obligation Authority (030903)

Economy Act orders received and accepted are the source of obligational authority in the amount of the order for the performance of the work requested.

9.4 Cost Account (030904)

A cost account, or other device, must be used to accumulate the costs of performance for all Economy Act orders. The cost account serves as a historical basis for determining the amount reimbursable for cost-reimbursement Economy Act orders and as a basis of determining a fixed-price for similar future fixed-price Economy Act orders.

9.5 Records (030905)

The servicing DoD Component must establish procedures that identify and retain a record of the requestor’s appropriation accounting classification(s) for each order received. Establishment and compliance with these procedures will facilitate auditability of the requestor’s source of funding.

*9.6 Billings (030906)

Billings covering reimbursements must identify costs by each item listed in the Economy Act order. Volume 10, Chapter 10 contains the DoD policy for executing intragovernmental payments.

*9.7 Reconciliation and Elimination of Intragovernmental Transactions (030907)

Volume 6B, Chapter 13 contains DoD policy and guidance for adjustments, eliminations, and other special intragovernmental reconciliation procedures.
VOLUME 11A, CHAPTER 4: “USER FEES”

SUMMARY OF MAJOR CHANGES

CHAPTER 4

USER FEES

1.0 GENERAL

*1.1 Overview

The Federal Government must assess user fees against each identifiable recipient for special benefits derived from Federal activities beyond those received by the general public. The User Charge Statute, Title 31, United States Code, section 9701 (31 U.S.C. §9701), “Fees and Charges for Government Services and Things of Value,” establishes that it is the sense of Congress that any work, service, publication, report, document, benefit, privilege, authority, use, franchise, license, permit, certificate, registration or similar thing of value or utility performed, furnished, provided, granted, prepared, or issued by an agency (except a mixed-ownership Government corporation) to a person (except a person on official business of the United States (U.S.) Government) is to be self-sustaining to the extent possible.

The Department of Defense (DoD) is authorized by legislation to establish user fees, in accordance with the guidelines that are defined by 31 U.S.C. §9701.

The Office of Management and Budget (OMB) Circular A-25 Revised, “User charges,” and Chief Financial Officers Act of 1990 require federal agencies to review, on a biennial basis, the fees, royalties, rents, and other charges imposed by the agency for services and things of value provided to specific recipients, beyond those received by the general public. The purpose of this review is to periodically adjust existing charges to reflect unanticipated changes in costs or market values, and to review all other agency programs to determine whether fees should be assessed for Government services or the use of Government goods or services.

*1.2 Purpose

This chapter:

1.2.1. Promulgates Department of Defense (DoD) policy regarding establishment and assessment of appropriate fees for services or things of value supplied by DoD Components.

1.2.2. Provides information on the scope and types of activities subject to user charges and the basis upon which user charges are to be calculated.

1.2.3. Provides guidance on Component implementation of user charges and the disposition of collections.

1.3 Authoritative Guidance

The accounting policy and related requirements prescribed by this chapter are in accordance with the applicable provisions of:

1.3.1. 31 U.S.C. § 9701, “Fees and Charges for Government Services and Things of Value.” This statute authorizes the head of each agency to prescribe regulations establishing the charge for a service or thing of value provided by an agency.

1.3.2. Chief Financial Officers Act of 1990, requires federal agencies to review, on a biennial basis, the fees, royalties, rents, and other charges imposed by the agency for services and things of value provided to specific recipients, beyond those received by the general public.

*1.3.3. 31 U.S.C. § 3302, “Custodians of money.” The User Charge Statute is a codification of a provision in Title V of the Independent Offices Appropriation Act of 1952, which provided broad authority to assess user fees or charges on identifiable beneficiaries by administrative regulation. This statute details the Federal Government’s custodial responsibilities of public money. Subsection (b) is the basis for the requirement that unless authorized by law, an agency may not retain and use money received from sources other than congressional appropriations; the money must instead be deposited in the Treasury.

1.3.4. 10 U.S.C. § 2667, “Leases: non-excess property of military departments and Defense Agencies.” This statute provides authority to the Secretary of Defense to lease non-excess real or personal property and accept either cash or an in-kind consideration as payment.

1.3.5. OMB Circular A-25 Revised, “User Charges.” This Circular establishes Federal policy regarding fees assessed for Government services and sale or use of Government goods or resources. In any case where an OMB circular provides guidance concerning a specific user charge area, the guidance of that circular must be deemed to meet the requirements of this Circular. Examples of such guidance include the following: OMB Circular A-45, concerning charges for rental quarters; OMB Circular A-130, concerning management of Federal information resources; and OMB Circular A-97, concerning provision of specialized technical services to State and Local governments.

2.0 RESPONSIBILITIES

2.1 Under Secretary of Defense (Comptroller)

The Under Secretary of Defense (Comptroller) (USD(C)) will promulgate financial management policy governing user fees.
2.2 DoD Components

Heads of DoD Components, or designees, will:

2.2.1. Identify the services and activities that will adopt and charge a user fee or accept an in-kind consideration.

2.2.2. Determine the extent of the special benefits provided as specified in paragraph 3.1.

2.2.3. Apply the principles specified in paragraph 3.1 in determining full cost or market price.

2.2.4. Publish user fees to be charged for services on schedules, lists, or tables posted on publicly available websites.

2.2.5. Review user fees biennially in accordance with OMB Circular A-25 Revised, to include:

2.2.5.1. Assurance that existing fees are adjusted to reflect unanticipated changes in costs or market values; and

2.2.5.2. A review of all other programs where fees are not being assessed to determine whether special benefits are being provided and whether fees should be charged for Government services or goods.

2.2.6. Publish and describe the results of the biennial review of user fees and any resulting proposals, such as adjustments to fee schedules, in the annual DoD Agency Financial Report as required by the Government Management and Reform Act of 1994 and the Chief Financial Officers Act of 1990.

2.2.8. Maintain readily accessible records of the:

2.2.8.1. Services or activities charging user fees or accepting in-kind considerations;

2.2.8.2. Extent of special services provided;

2.2.8.3. Exceptions to the general policy;
2.2.8.4. Cost information used to establish or calculate fees and the specific methods used in their determination. This information must be provided upon request to OMB for the evaluation of the fee schedules in accordance with the requirements in *OMB Circular A-11*, “Preparation, Submission and Execution of the Budget”; and

2.2.8.5. The collections (i.e., cash or in-kind consideration) from each user fee imposed.

2.2.9. Initiate exception actions outlined in paragraph 3.6. All such actions must be coordinated with the USD(C) prior to forwarding to OMB.

2.2.10. Develop legislative proposals as outlined in section 4.0 when there are statutory prohibitions, restrictions, or limitations on the implementation, assessment or retention of user fees.

3.0 USER FEES

3.1 General Policy

*3.1.1 Collections are credited to the General Fund of the U.S. Department of the Treasury (hereafter referred to as Treasury) as miscellaneous receipts as required by 31 U.S.C. § 3302, or if specific statutory authority is available, may be retained by the Component for a specific purpose (e.g., Agriculture and Grazing (10 U.S.C. § 2667), Forestry (10 U.S.C. § 2665), Recycling (10 U.S.C. § 2577), Royalties (10 U.S.C. § 3710c), and Licensing of Intellectual Property (10 U.S.C. § 2260) revenue programs).

3.1.2. User fees should only be established and implemented if:

3.1.2.1. Mandated by specific statutory authority, or when implemented under the authority of the User Charge Statute; and

3.1.2.2. The monetary benefits to the Federal Government of receipts collected significantly exceed the costs of collecting the fees.

3.1.3. Since generating and maintaining reliable cost data is expensive, consideration must be given to the cost of personnel and related data gathering requirements, and the costs of implementing, maintaining, and using financial management systems when determining the level of cost detail required and whether or not monetary benefits exceed costs.

3.1.4. It is DoD policy not to compete unfairly with available commercial facilities in providing special services or in the sale or lease of property to private parties and agencies outside the Federal Government. However, when a service (or privilege) provides special benefits to an identifiable recipient, beyond those that accrue to the general public, a fee should generally be imposed to recover the full cost to the Federal Government for providing the special benefit (or the market price) except as otherwise approved by the USD(C) and authorized by the Director of the
OMB. A special benefit will be considered to accrue, and a user fee should be imposed, when a government service:

3.1.4.1. Enables the beneficiary to obtain more immediate or substantial gains or values (which may or may not be measurable in monetary terms) than those which accrue to the general public (e.g., receiving a patent, insurance, or guarantee provision, or a license to carry on a specific activity or business of various kinds of public land use), or

3.1.4.2. Provides business stability or contributes to public confidence in the business activity of the beneficiary (e.g., insuring deposits in commercial banks), or

3.1.4.3. Is performed at the request of or for the convenience of the recipient and is beyond the services regularly received by other members of the same industry or group or by the general public (e.g., receiving a passport, visa, airman's certificate, or a Custom's inspection after regular duty hours).

3.2 Applicability

None of the provisions in this chapter should be construed as giving authority for the sale or lease of property, or the rendering of special services. Actions to convey such special benefits must be authorized by separate authority. This user fee policy is applicable except when other statutes or directives specifically direct other practices or procedures, such as for:

3.2.1. Services to military personnel and civilian employees of the DoD provided in accordance with section 5.0.

3.2.2. Products and services provided to military personnel, their families, and civilian DoD employees by DoD Nonappropriated Fund Instrumentalities (i.e., morale, welfare, and recreation (military and civilian), Military Services exchanges, lodging, supplemental mission funds, and special purpose central funds). Fees for such services are governed by DoD Instruction (DoDI) 1015.15, “Establishment, Management, and Control of Nonappropriated Fund Instrumentalities and Financial Management of Supporting Resources,” and other Office of the Secretary of Defense policy.

3.2.3. Sale or disposal of surplus property under specifically approved programs (please refer to Chapter 5).

3.2.4. Services furnished the general public relating to, or in furtherance of, the Armed Forces recruiting program.

3.2.5. Services furnished to representatives of the public information media in the interest of public understanding of the Armed Forces.

3.2.6. Armed Forces participation in public events. Fees for such participation are governed by the provisions of DoDI 5410.19, “Public Affairs Community Relations Policy Implementation”.

4-7
3.2.7. Records made available to the public, under FOIA, pursuant to DoD 5400.7, “DoD Freedom of Information Act Program.” Fees for searches and copies of records are governed by Chapter 6 of DoD 5400.7.

3.2.9. Pricing of performance by DoD Working Capital Fund activities which must be in accordance with Volume 11B.

3.2.10. Foreign Military Sales of Defense articles and services which must be in accordance with Volume 15.

3.2.11. Records made available to requesters under the Privacy Act of 1974, pursuant to DoD 5400.11.

3.3 Calculation of User Fees

All fees must be based on the full cost to the U.S. Government or market price, whichever applies. Additionally, whenever possible, fees must be set as rates rather than fixed dollar amounts in order to adjust for changes in costs to the Government or changes in market prices of the good, resource, or service provided.

3.3.1. Except as provided in paragraphs 1.3, 4.0, and 5.0 a user fee should be imposed to recover the full cost to the Federal Government of providing the service, resource, or good when the Government is acting in its capacity as sovereign. “Full cost” includes all direct and indirect costs associated with providing a good, resource, or service. Full cost must be determined or estimated from the best available records, and new cost accounting systems should not be established solely for this purpose. These costs are outlined in Chapter 1 and include, but are not limited to, an appropriate share of:

3.3.1.1. Direct and indirect personnel costs, including salaries and fringe benefits such as medical insurance and retirement. Retirement costs should include all (funded or unfunded) accrued costs not covered by employee contributions as specified in OMB Circular A-11.

3.3.1.2. Physical overhead, consulting, and other indirect costs including material and supply costs, utilities, insurance, travel, and rents or imputed rents on land, buildings, and equipment. If imputed rental costs are applied, they should include:

   *3.3.1.2.1. Depreciation of structures and equipment (based on guidance contained in Volume 4, Chapter 24 and 25, respectively); and

3.3.1.2.2. An annual rate of return (equal to the average long-term Treasury bond rate) on land, structures, equipment and other capital resources used.
3.3.1.3. The management and supervisory costs.

3.3.1.4. The costs of enforcement, collection, research, establishment of standards, and regulation, including any required environmental impact statements.

3.3.2. User fees should be based on market prices when the Government is not acting in its capacity as sovereign and is leasing or selling goods or resources, or is providing a service (e.g., leasing space in federally owned buildings). Under these business-type conditions, user fees need not be limited to the recovery of full cost, must be based on market prices, and may yield net revenues. “Market price” means the price for a good, resource, or service that is based on competition in open markets, and creates neither a shortage nor a surplus of the good, resource, or service.

3.3.2.1. When a substantial competitive demand exists for a good, resource, or service, its market price will be determined using commercial practices, for example by:

3.3.2.1.1. Competitive bidding; or

3.3.2.1.2. Reference to prevailing prices in competitive markets for goods, resources, or services that are the same or similar to those provided by the Government (e.g., campsites or grazing lands in the general vicinity of private ones) with adjustments as appropriate that reflect demand, level of service, and quality of the good or service.

3.3.2.2. In the absence of substantial competitive demand, market price will be determined by taking into account the prevailing prices for goods, resources, or services that are the same or substantially similar to those provided by the Government, and then adjusting the supply made available and/or price of the good, resource, or service so that there will be neither a shortage nor a surplus (e.g., campsites in remote areas).

3.3.3. Fees established in advance of performance should be based on the estimated cost of performance. Projected amounts must be reviewed the earlier of biennially or whenever significant changes in cost or value occur.

3.3.4. Internal management controls must be established in accordance with OMB Circular A-123, GAO’s GAO-14-704G, and DoDI 5010.40 to ensure that user fees are developed, published on a publicly available website, and adjusted using current, accurate, and complete data. These controls must also ensure compliance with cash management and debt collection policies promulgated in Volume 5.

3.4 Collection of User Fees

DoD Components should make every effort to keep the costs of collection to a minimum and collect fees electronically, via electronic funds transfer (EFT), and utilize, as applicable, the collection services provided by the Treasury’s Bureau of the Fiscal Service (Fiscal Service) as described in Volume 5, Chapter 8 and outlined in the Treasury Financial Management, Volume 1, “Federal Agencies,” Part 5, “Deposit Regulations (1 TFM Part 5).”
3.4.1. In accordance with OMB Circular A-25, user fees must be collected in advance of, or simultaneously with, the rendering of services unless appropriations and authority are provided to allow for services to be provided on a reimbursable basis.

3.4.2. Although fees must be collected in advance absent statutory authority to provide services or special benefits on a reimbursable basis, Components may collect advance fee payments incrementally if variable costs such as personnel or utility costs are incurred incrementally over time and if the services or special benefit is susceptible to being provided on a severable basis.

3.5 Disposition of User Fees

As required by 31 U.S.C. § 3302, an official or agent of the Government who receives money for the Federal Government from any source must deposit the money in the Treasury as soon as practicable. This law is generally referred to as the “Miscellaneous Receipts Statute.” Accordingly, unless another statute provides otherwise, user fees collected under the authority of the User Charge Statute must be credited to the General Fund of the Treasury as miscellaneous receipts.

3.6 Exceptions or Waiving of User Fees

3.6.1. The Head of each DoD Component or designee may make exceptions to the general policy if the provision of a free service is an appropriate courtesy to a foreign government or international organization; or comparable fees are set on a reciprocal basis with a foreign country.

3.6.2. The Head of each DoD Component or designee may recommend to OMB that exceptions to the general policy be made when:

3.6.2.1. The cost of collecting the fees would represent an unduly large part of the fee for the activity; or

3.6.2.2. Any other condition exists that, in the opinion of the agency head or his designee, justifies an exception.

3.6.3. All exceptions must be for a period of no more than four years unless renewed by the Head of each DoD Component or designee for exceptions granted under subparagraph 3.6.1 or OMB for exceptions granted under subparagraph 3.6.2 after a review to determine whether conditions warrant their continuation.

3.6.4. Requests for exceptions and extensions under paragraphs 3.6.2 and 3.6.3 must be submitted to the Director of OMB.
4.0 LEGISLATIVE PROPOSALS TO RETAIN AND USE FEES

4.1 General Policy

If Components require modification of statutory prohibitions on assessment of user fee charges, they may propose remedial legislation to repeal the assessment prohibition or to authorize an exception. Similarly, Components may propose legislative authority to retain and use amounts collected as user charges. Such proposals are subject to requirements for preparation and submission established in DoD Directive (DoDD) 5500.01, “Preparing, Processing, and Coordinating Legislation, Executive Orders, Proclamations, Views Letters, and Testimony.” For additional guidance on submitting legislative proposals for approval or authorization to implement or modify a user fee program or to authorize retention and use of user fee collections, refer to OMB Circular A-25 Revised, paragraph 7.

4.2 Authorities

Under the User Charge Statute, a statutory authority is required for DoD Components to retain and use user fees. Proposals requesting such authority may be appropriate when a user fee is levied in order to finance a service that is intended to be provided on a substantially self-sustaining basis and thus is dependent upon adequate collections.

4.2.1. The authority to use fees credited to an appropriation is generally subject to limits set in annual appropriations language. However, it may be appropriate to request exemption from annual appropriations control, if a provision of the service is dependent on demand that is irregular or unpredictable (e.g., a fee to reimburse an agency for the cost of overtime pay of inspectors for services performed after regular duty hours).

4.2.2. Legislative proposals that permit fees to be credited to accounts must be consistent with the full cost recovery guidelines contained in paragraph 3.3.2. Any fees collected in excess of full cost recovery (i.e., under business-type conditions in which user fees are calculated based on market prices) are to be credited to the General Fund of the Treasury as miscellaneous receipts.

4.3 Procedures

Legislative proposals must be submitted to OMB in accordance with the requirements of DoDD 5500.01 and OMB Circular No. A-19, “Legislative Coordination and Clearance”. To ensure the proper placement of user fee initiatives in the budget account structure, DoD Components are encouraged to discuss proposals with OMB at an early stage of development. Further guidance may be obtained from the DoD General Counsel Office of Legislative Counsel's website at: https://ogc.osd.mil/OGC-Offices/Office-of-Legislative-Counsel/. Proposals to remove user fee restrictions or retain collections must:

4.3.1. Define, in general terms, the services for which fees will be assessed and the pricing mechanism that will be used.
4.3.2. Specify whether fees will be collected in advance of, or simultaneously with, the provision of service unless appropriations and authority are provided in advance to allow reimbursable services.

4.3.3. Specify where collections will be credited. Legislative proposals should not normally specify precise fees. The user fee schedule should be set by regulation to allow for the administrative updating of fees to reflect changing costs and market values.

5.0 BENEFITS FOR WHICH NO FEE MUST BE ASSESSED

5.1 Military and Civilian Benefits

5.1.1. Documents and information requested by members of the U.S. Armed Forces as required by such personnel in their capacity as Service members.

5.1.2. Documents and information requested by members of the U.S. Armed Forces who are in a casualty status or requested by their next of kin or legal representative.

5.1.3. The provisions of the address of record of a member or former member of the U.S. Armed Forces when the address is readily available through a directory (locator) service, and when the address is requested by a member of the U.S. Armed Forces or by a relative or a legal representative of a member of the U.S. Armed Forces or when the address of record is requested by any source for the purpose of paying monies or forwarding property to a member or former member of the U.S. Armed Forces.

5.1.4. Services requested by, or on behalf of, a member or former member of the U.S. Armed Forces and civilian personnel of DoD (where applicable) or, if deceased, his or her next of kin or legal representative that pertain to the provision of:

5.1.4.1. Information required to obtain financial benefits regardless of the terms of separation from the Service.

5.1.4.2. Documents showing membership and military record in the Armed Forces if discharge or release was under honorable conditions.

5.1.4.3. Information related to a decoration or award or required for memorialization purposes.

5.1.4.4. Information related to the review or change in type of discharge or correction of records.

5.1.4.5. Personal documents, such as birth certificates, when such documents are required to be furnished by the member.

5.1.4.6. Services that are furnished free in accordance with statutes or Executive Orders.
5.1.4.7. Information from or copies of medical and dental records or x-ray films of patients or former patients of military medical or dental facilities, when such information is required for further medical and dental care, and requests for such data are (a) submitted by an accredited medical facility, physician, or dentist; or (b) requested by the patient, his or her next of kin, or legal representative. Other requests subject to the Privacy Act of 1974 must be in accordance with DoD 5400.11.

5.2 Services requested by and furnished to entities outside DoD

5.2.1. A member of Congress for official use.

5.2.2. State, territorial, county, or municipal government, or an agency thereof, that is performing a function related to or furthering a DoD objective.

5.2.3. A court, when such services will serve as a substitute for personal court appearance of a military or civilian employee of DoD.

5.2.4. A nonprofit organization that is performing a function related to or furthering an objective of the Federal Government or that is in the interest of public health and welfare, including education.

5.2.5. Donors in connection with the conveyance or transfer of a gift to DoD.

5.3 Occasional and incidental services

Occasional and incidental services (including requests from residents of foreign countries), that are not requested often, when it is determined administratively that a fee would be inappropriate for the occasional and incidental services rendered.

5.4 Administrative services

Administrative services offered by reference or reading rooms to inspect public records, excluding copies of records or documents furnished.

5.5 Services rendered in response to requests

Services rendered in respond to requests for classification review of DoD classified records, submitted under Executive Order 13526, “Classified National Security Information”, and implemented by DoD Manual 5200.01 Volumes 1-3, “DoD Information Security Program.” Such services consist of the work performed in conducting the classification review or in granting and completing an appeal from a denial of declassification following such review.

5.6 Services of a humanitarian nature

Services of a humanitarian nature performed in such emergency situations as life-saving transportation for non-U.S. Armed Forces patients, search and rescue operations, and airlift of
personnel and supplies to a disaster site. This does not mean that inter- and intra-governmental agreements to recover all or part of costs should not be negotiated. Rather, it means the recipient or beneficiary will not be assessed a “user fee.”

1.0 GENERAL (0501)

1.1 Purpose (050101)

This chapter provides the policy for the collection and disposition of cash and cash equivalents received by Department of Defense (DoD) Components for the DoD sale of surplus personal property.

1.2 Authoritative Guidance (050102)

The financial management policy and related requirements prescribed in this chapter are in accordance with the applicable provisions of the following sources, and apply to all proceeds resulting from sales of surplus personal property:

1.2.1. Title 10, United States Code, section 2210 (10 U.S.C. § 2210), “Proceeds of Sales of Supplies: Credit to Appropriations”;

1.2.2. 10 U.S.C. § 2605, “Acceptance of gifts for defense dependent’s school”;

1.2.3. 10 U.S.C. § 2608, “Acceptance of contributions for defense programs, projects, and activities; Defense Cooperation Account”;

1.2.4. 10 U.S.C. § 2575, “Disposition of unclaimed property”;

1.2.5. 10 U.S.C. § 2577, “Disposal of Recyclable Materials”;

1.2.6. 22 U.S.C. § 2355(d), “Retention and use of certain items and funds”;

2.0 POLICY (0502)

*2.1 General Rules for Deposit and Use of Proceeds (050201)*

2.1.1. In accordance with 40 U.S.C. § 571, net proceeds from sales of surplus property must be deposited in the U.S. Department of the Treasury *(Treasury)* as miscellaneous receipts unless deposit into an alternate appropriation is authorized by law. The law also requires that the expenses of the sale of old material, condemned stores, supplies and other public property are paid from the proceeds of the sale, so that only the net proceeds are deposited in the Treasury or other applicable appropriation authorized by law.

2.1.2. 10 U.S.C. § 2210 states that proceeds of disposals of property that are necessary to recover the expenses incurred in disposing of that property may be retained by a working capital fund responsible for the disposal. Accordingly, the Defense Logistics Agency *(DLA)* Disposition Services will retain amounts sufficient to offset all expenses incurred in the disposition of excess/surplus personal property, out of the proceeds of sales of such property (see Table 5-1). Legal exceptions to this policy affecting the Department are contained at paragraphs 050203.

2.2 Legal Exceptions to the General Rules (050202)

The following authorizations permit the crediting of the proceeds of the sale to appropriations and/or funds of the Department. Additional guidance on specific types of exceptions is located in Table 5-2.
2.2.1. Supplies, Material, Equipment, and Other Personal Property Not Financed by Stock Funds. In accordance with 10 U.S.C. § 2210, the net proceeds from the sale or disposal of surplus property in excess of amounts necessary to recover expenses may be credited to current applicable appropriations of DoD. Thus, any proceeds that remain after disposal expenses are recovered are to be credited to the current applicable appropriations of the Department (i.e., the appropriation currently available for the purchase of such property).

2.2.2. Revolving Fund and Non-A appropriated Fund Property. In accordance with 40 U.S.C. § 574, when property is acquired with amounts either (a) not appropriated from the general fund of the Treasury; or (b) appropriated from the general fund of the Treasury but by law reimbursable from assessment, tax, or other revenue or receipts, the net proceeds of such a disposition or transfer of the property must be:

2.2.2.1. Credited to the applicable reimbursable fund or appropriation; or

2.2.2.2. Paid to the federal agency that determined the property to be excess.

2.2.3. Contractor Sales of Surplus Government Property in the Possession of Contractors. The DFARS subpart 245.604, implements 40 U.S.C. § 574(c) and provides overall direction for crediting proceeds from contractor conducted sales of surplus government property in the possession of contractors.

2.2.3.1. The contractor making the sale may follow normal company policy on bid deposits and form of payment. However, any loss associated with a dishonored payment is the contractor’s responsibility.

2.2.3.2. The plant clearance officer appointed by the contracting administration office, consistent with DFARS subpart 245.70, is responsible for notifying the appropriate accounting office of the amounts collected by the contractor. The plant clearance officer also must notify the accounting office of the disposition of such collections. Specifically, collections may:

2.2.3.2.1. Represent an increase in the dollar value of the applicable contract(s).

2.2.3.2.2. Be applied in place of disbursements on the applicable contract(s).

2.2.3.2.3. Be returned to the applicable Component’s Working Capital Fund (097X4930, where 097 is the agency identifier code for DoD and X represents a no-year fund) in the case of inventory purchased with Working Capital Funds, or deposited in the miscellaneous receipt account, “Sale of Scrap and Salvage Materials, Defense,” (097_2651).

2.2.3.3. The accounting office for the contract is identified in the accounting citation. That office must prepare the source documents necessary to account properly for the transaction.
2.2.4.  Sales of Recyclable Material on Military Installations.  Distribution of proceeds, by DoD installations or DLA Disposition Services, from direct sales of installation qualified recycling programs (QRP) is covered by 10 U.S.C. § 2577 and DoDI 4715.23.

2.2.4.1. The Director, DLA and DLA Disposition Services (under the Under Secretary of Defense for Acquisition and Sustainment) must establish procedures and controls to ensure that when recyclable materials are consigned for disposal to DLA Disposition Services on behalf of a qualified recycling program, 100 percent of any proceeds, less the costs of sales and handling, are returned to installations in accordance with established accounting procedures.

2.2.4.2. An accounting and control system must be established for recycling programs that provides detailed management and audit information, tracks material quantity handled, calculates sales and handling costs for recycled material, and tracks expenditures made for appropriate projects and Morale, Welfare and Recreation (MWR) programs. Integrity of the audit trail must be a priority concern.

2.2.4.3. If after such funds are credited and a balance remains available to a military installation and such installation has a QRP (as determined by the Secretary of the Military Department concerned or the Secretary of Defense), not more than 50 percent of that balance may be used at the installation for projects for pollution abatement, pollution prevention, energy conservation, alternative-fueled vehicle infrastructure support, and occupational safety and health activities. In accordance with 10 U.S.C. § 2577, a project may not be carried out under the preceding sentence for an amount greater than 50 percent of the amount established by law as the maximum amount for a minor construction project.

2.2.4.4. All recycling proceeds received by DoD Components must be promptly deposited and recorded in the United States Standard General Ledger account 426600, which provides direct budgetary authority on line 1800 of the Standard Form (SF) 132, Apportionment and Reapportionment Schedule, and SF 133, Report on Budget Execution and Budgetary Resources. DoD Components must obligate and disburse from the designated Treasury Account Symbol only for the purposes specifically authorized in 10 U.S.C. § 2577. The use of suspense accounts is prohibited and any remaining balances must be transferred to the designated Treasury account.

2.2.4.5. The remaining balance available to a military installation may be transferred to the non-appropriated morale and welfare account of the installation to be used for any morale or welfare activity. If the balance available to a military installation at the end of any fiscal year is in excess of $10 million, the amount of that excess must be deposited into the Treasury as miscellaneous receipts, 020R3210, or other as appropriate.

2.2.5. Lost, Abandoned and Unclaimed Privately-Owned Personal Property. DoD may dispose of lost, abandoned, or unclaimed personal property after diligent effort has been made to find the owner (or the heirs, next of kin, or legal representative of the owner) as prescribed by 10 U.S.C. § 2575.
2.2.5.1. Military Installations. In the case of lost, abandoned, or unclaimed personal property found on a military installation, the net proceeds from the sale of the property must be credited to the operation and maintenance account of that installation and used:

2.2.5.1.1. To reimburse the installation for any costs incurred by the installation to collect, transport, store, protect, or sell the property; and

2.2.5.1.2. To the extent that the amount of the proceeds exceeds the amount necessary for reimbursing all such costs, to support morale, welfare, and recreation activities under the jurisdiction of the armed forces at such installation.

2.2.5.2. The net proceeds from the sale of all other lost, abandoned and unclaimed privately-owned personal property must be deposited into the Proceeds of Sales of Lost, Abandoned or Unclaimed Personal Property (_X6001). After five years, any unclaimed net proceeds must be transferred from _X6001 to Forfeitures of Unclaimed Money and Property (_1060).

2.2.5.3. The owner(s) of personal property disposed of as described in this section may file a claim with the Secretary of Defense for the amount equal to the proceeds less the costs incurred by the installation to collect, transport, store, protect, or sell the property. The claim must be filed within five years of the date of disposal of the property.

2.2.5.3.1. For property found on military installations, in which the proceeds were deposited into the installations MWR account, the amounts to pay claims must be drawn from the installations MWR account.

2.2.5.3.2. For all other property, amounts to pay the claim must be from the Proceeds of Sales of Lost, Abandoned or Unclaimed Personal Property account (_X6001).

2.2.5.4. See Tables 5-1 and 5-2 to identify, by type of surplus property, the collection and disposition of proceeds from the sale of surplus property.

3.0 COLLECTION AND DISPOSITION OF BID DEPOSITS (0503)

3.1 Types of Bid Deposits (050301)

When a DoD sale of surplus personal property conducted by a DoD Component provides for a bid deposit with subsequent removal of the surplus personal property, the following definitions must be applied:

3.1.1. Term Bid. This type of bid deposit is applicable when the sale involves the purchase of scrap or disposable material that will be generated over time with periodic removal by the successful bidder. The normal amount of the bid deposit required to accompany such bids is the average estimated quantity of such material to be generated during a three-month period multiplied by 20 percent of the bid price.
3.1.2. Other Than Term Bid. With the exception of term bids, payment in the normal amount of 20 percent of the bid must accompany the bid.

3.1.3. Immediate Pickup Terms. When a sale conducted by a DoD Component provides for immediate pickup, the entire amount of the sales price must be collected from the buyer at the conclusion of the sale. If the sale provides for a bid deposit, the balance of the bid price must be paid before removal of the property.

3.2 Forms of Payment (050302)

3.2.1. Cash and Cash Equivalents. Cash or cash equivalents in the prescribed amounts must accompany the bid, if required by the sales solicitation. For one-time contracts, cash or cash equivalents for the balance due must be received by the DoD Components or, in authorized cases, by contractors before the transfer of physical possession to the successful bidder. Cash equivalents are guaranteed negotiable instruments, such as cashiers’ checks, certified checks, traveler’s checks, or postal money orders.

3.2.2. Personal Checks. Personal checks may be accepted by a DoD Component only when a bank guarantee, bid bond or a bank letter of credit is on hand that will cover the amount due. If the check is dishonored, amounts due must be collected from the issuer of the guarantee, bond, or letter of credit.

3.2.2.1. If a bidder intends to use a bond or letter of credit without an accompanying personal check (permitted for bid deposits only), the claim against the performance bond or letter of credit must be made for any amounts due.

3.2.2.2. If personal checks are used, the bond or letter of credit must be returned intact after the applicable personal checks are honored, unless other instructions have been received from the bidder.

3.2.3. Credit Cards/Debit Cards. As specified herein, credit or debit cards may be accepted by a DoD Component for payment.

3.2.3.1. Policies governing acceptance under the Card Acquiring Service (CAS) by DoD Components are established in Volume 5, Chapter 11, “Electronic Commerce and Deposit of Public Funds.” Transaction limits do apply in these instances, for further guidance see Volume 5, Chapter 11.

3.2.3.2. CAS is a Treasury, Bureau of the Fiscal Service program that provides federal agencies payment card acceptance capabilities. Federal agencies can collect most remittance obligations through debit and credit cards. CAS is also a card neutral program that accepts cards from all the major network brands. Changes or additions to approved credit or debit cards are announced in Office of the Under Secretary of Defense (Comptroller) memoranda, or in changes to the TFM. Except for equipment and communication costs, Treasury pays any fees normally charged to sellers.
3.2.3.3. If a credit or debit card is used for the bid deposit, and authorization is declined, the bid may be rejected as nonresponsive and other bidders considered.

3.3 Disposition of Bid Deposits (050303)

3.3.1. If the sale provides for a bid deposit, cash collected from bidders initially must be deposited by a DoD Component to account 097X6501, “Small Escrow Amounts,” until such time as a successful bidder has been determined and a contract has been awarded.

3.3.2. Unsuccessful Bidders

3.3.2.1. A check must be drawn on account 097X6501, “Small Escrow Amounts,” to reimburse unsuccessful bidders for their cash bid deposits.

3.3.2.2. Normally, noncash bid deposits must be returned to unsuccessful bidders by DoD Components through the mail. There are some exceptions such as:

3.3.2.2.1. When a bidder appears in person, normally the noncash instrument may be released to the bidder or an agent designated for this purpose.

3.3.2.2.2. When a bidder has requested expedited return and has provided the name of a carrier and a charge account number, the designated carrier must be called to pick up the deposit with the explicit condition that applicable carrier costs will be charged to the bidder’s account.

3.3.3. Successful Bidder

3.3.3.1. A bid deposit of the successful bidder must be transferred promptly from the account 097X6501, “Small Escrow Amounts,” to the account(s) prescribed in accordance with this chapter.

3.3.3.2. The DLA Disposition Services either must retain the bid deposit or charge a specific penalty for buyer defaults on sales contracts.

3.4 Disposition of Proceeds Received from Successful Bidders (050304)

If the account, ultimately to be credited with the proceeds of a sale reasonably can be determined at the time funds are collected from the successful bidder and by law can receive reimbursement, the amounts collected must be deposited immediately to that account. The use of suspense accounts is prohibited.

CHAPTER 6

ANNUAL REIMBURSABLE RATES

1.0 GENERAL (0601)

The Department of Defense (DoD) provides goods and services to meet military mission requirements. The Economy Act allows the Department to provide certain goods not only to DoD Components, but also to other government agencies and the private sector, under specified conditions. Reimbursable rates, published by the Under Secretary of Defense (Comptroller)/DoD Chief Financial Officer, provide a basis for the Department and its Components to be reimbursed for such goods and services provided.

2.0 PURPOSE (0602)

The purpose of this chapter is to provide guidance relative to the preparation of specific exhibits, and due dates for the submission of such exhibits, used to develop and support those reimbursable rates published by the DoD Deputy Comptroller (Program/Budget).

3.0 APPLICABILITY (0603)

This guidance applies to all DoD Components and goods or services encompassed by or subject to reimbursable rates approved by the DoD Chief Financial Officer.

4.0 RESPONSIBILITY (0604)

4.1 Deputy Comptroller (P/B) (060401)

The Office of the Under Secretary of Defense (Comptroller) is responsible for reviewing, coordinating, and publishing reimbursable rates for the Department. Where feasible, applicable reimbursable rates will be published prior to the beginning of each new fiscal year, allowing sufficient lead time for the distribution of rates and the updating of billing systems.

4.2 DoD Components (060402)

DoD Components are required to:

4.2.1. Maintain systems that use generally accepted cost accounting procedures to formulate proposed rates. Each such DoD Component is responsible for maintaining, in conjunction with the Defense Finance and Accounting Service, an appropriate cost accounting system enabling the accumulation of data needed to formulate reimbursable rates to be charged to consumers of such goods or services. Generally accepted cost accounting procedures will be the basis for such proposed rates.

4.2.2. Submit to the DoD Deputy Comptroller (P/B), reimbursable rate exhibits that propose reimbursable rates for the upcoming fiscal year. Such exhibits shall be prepared and
submitted in accordance with the time frames specified in section 5.0 and use the formats specified in the appendices to this chapter.

4.2.3. Bill using rates approved by the DoD Deputy Comptroller (P/B). Goods or services provided in an academic year or a fiscal year, as applicable, will be billed at the approved academic or fiscal year rate, respectively, effective with the beginning of the academic year, or October 1 of the fiscal year, as appropriate, irrespective of whether the rates have been established in the billing system.

4.2.4. Ensure that rates different from those approved by the DoD Chief Financial Officer are not issued or changed without the prior written approval of that official or the Deputy Chief Financial Officer.

5.0 EXHIBITS (0605)

5.1 Reimbursable Rate Exhibits (060501)

The following reimbursable rate exhibits are to be submitted in support of the President’s Budget submission each year. Detailed instructions are included with each exhibit and specific due dates are identified below:

</table>
GENERAL

Department of Defense Service Academies’ Foreign Cadet Reimbursable Rate is to be used when billing foreign cadets and midshipmen instruction cost. Title 10, United States Code, Section 347 requires a Foreign Government to reimburse instruction costs to the United States for cadets and midshipmen permitted to attend one of the military academies to include the United States Military Academy, the Naval Academy, and the Air Force Academy. Each Service Department calculates its internal Service Academies’ Foreign Cadet Reimbursable Rate using the rate calculation in the instructions. OUSD(C) calculates the Department of Defense Service Academies’ Foreign Cadet Reimbursable Rate from the Services’ submissions and publishes on the OUSD(C) public website prior to the commencement of the academies’ academic year.

Instructions:

Instruction costs include faculty, staff, learning material, housing, basic pay and allowance, subsistence (meals), and medical expenses of a cadet/midshipman. The instruction costs are identified in the Operations and Maintenance (O&M), Military Personnel (MILPER), and Other Procurement (OP) appropriations. Detailed instructions for calculating the Services’ foreign cadet and midshipman reimbursable rate follows:

1. Insert the applicable current year (CY) and budget year (BY) for the fiscal year being calculated. For example, when computing the FY 2020 Budget Year rate, the current year would be FY 2019 and the budget year would be FY 2020.

2. Include all budgeting and programming data in the Service Academies Program Element (PE) 804721 for all appropriations. The Service Academy PE shall be exclusively used for cadet and midshipman instruction cost. The O&M appropriation must include the PE, budget activity, and subactivity group for instruction cost. For the O&M and OP accounts the current year reflects the enacted appropriation and the budget year reflects the President’s Budget. In the MILPER accounts CY shall reflect the CY Estimate (i.e., not the enacted) in the BY President's Budget and BY shall reflect the BY in the BY President's Budget. When there is no enactment of an appropriation, the CY is an estimate for all appropriations.

3. Insert the Cadet/Midshipman workyears/average strength which includes Foreign Cadets (Basic Pay, Average Number) shown in the Military Personnel justification books for budget activity 3, Pay and Allowances for Cadets/Midshipmen submitted to the Congress in support of the President’s Budget. The workyears/average strength CY column shall reflect the CY Estimate in the BY President’s Budget and BY shall reflect the BY in the BY President’s Budget.

4. Obtain the Cadet/Midshipman medical support cost from the OUSD(C). The Service Academies’ Cadet/Midshipman medical support costs include both clinic and hospital costs. The Office of the Assistant Secretary of Defense (Health Affairs) shall provide a cost per capita for the CY and BY, by Academy to the Director, for Operations Directorate, OUSD(C), Room 3C749, the Pentagon, 30 days after the submission of the President’s Budget to the Congress. This amount will be calculated by multiplying the per capita cost provided by the OASD(HA) by the sum of the cadet/midshipman workyears/average strength included in the President’s budget.
(5) Multiply the number of cadet workyears/average strength by the medical support costs per capita rate to get the total Medical charge for the academy.

(6) Sum the Service Academies PE (804721) cost, the total medical charge Program Element cost, and medical support cost.

(7) Divide the Total Costs (6) by Cadet/Midshipman workyears/average strength (3).

(8) Sum 1/3 of the cost per cadet/midshipman for the CY and 2/3 of the CY cost per cadet/midshipman for the BY.
APPENDIX B: DoD WORKING CAPITAL FUNDS CIVILIAN/MILITARY EQUIVALENCY RATE

Fiscal Year ________________

The cost of military personnel assigned to activities financed by a Defense Working Capital Fund (DWCF) is included in the total cost of operations of the Working Capital Fund activities at civilian equivalent rates. Military personnel assigned to DWCF activities are to be costed at civilian equivalent rates, using the rates in the table below.

</tbody>
</table>

Stabilized customer rates and reimbursement to the Military Personnel accounts are not based on the above rates. Rather, such amounts are based on the absolute total dollar amount specified in the President’s budget (rather than based on the number, or military composite rate, of individuals actually assigned). Guidance on calculating, paying (reimbursing), recording and reporting DWCF military personnel costs is contained in Volume 2B, Chapter 9, Section 090103 and Volume 11B, Chapter 12, Section 1202 of the DoD Financial Management Regulation (FMR) (DoD 7000.14-R).
INSTRUCTIONS

The Department of Defense Working Capital Funds civilian/military equivalency rate will be calculated as follows:

1. Use the generic (Rest of U.S.) pay amount for Step 5 of each appropriate General Schedule (GS) civilian grade, or the applicable Executive Service (ES) pay level, as applicable, from the current civilian pay schedules.

2. Add as required, the applicable portion (pro-rata) of the proposed pay raise, if any, for civilians (GS/ES) that was effective for the budget fiscal year, and

3. Add the average civilian personnel fringe benefits factor applicable to the Military Services and Defense Agencies. The amount for unfunded civilian retirement is not to be included in the fringe benefits percentage factor. Civilian personnel fringe benefit rates are provided by the OUSD (Comptroller) and published on the Comptroller website.
APPENDIX C: CIVILIAN FRINGE BENEFIT RATE COMPUTATION

DOD COMPONENT (1)

| A. Object Class 12.1 Civilian Personnel Benefits (4) |
| B. Object Class 11 Civilian Personnel Compensation (5) |
| 11.1 Full-time Permanent |
| 11.3 Other Than Full-Time Permanent |
| 11.5 Other Personnel Compensation |
| 11.8 Special Personal Services Payments |
| C. Total Personnel Compensation (Total of 11.1, 11.3, 11.5, 11.8) (6) |
| D. Civilian Fringe Benefit (Interagency) Rate (7) |
| E. Office of Personnel Management (OPM) Unfunded Retirement Factor (8) |
| F. Public, and Private Activities (9) |

(See footnoted instructions on following page)
INSTRUCTIONS

(1) Insert the name of the applicable DoD Component submitting the exhibit. A separate exhibit is required from each Military Service (including the U.S. Marine Corps) and from all Defense Agencies.

(2) Insert the applicable fiscal year.

(3) Insert the applicable amounts for each fiscal year. A brief description should be provided to explain changes of 10 percent or more between (a) previously budgeted and actual amounts for the prior fiscal year, (b) previously budgeted and currently budgeted amounts for the current year, and (c) the currently budgeted amounts for the budget year.

(4) Insert the applicable amounts shown in the current President’s Budget for Object Class 12.1, Civilian Personnel Benefits.

(5) Insert on the applicable lines, the applicable amounts shown in the current President’s Budget for Object Class 11.1, 11.3, 11.5 and 11.8.

(6) Enter the total of personnel compensation from Object Class 11.1, 11.3, 11.5 and 11.8, shown above.

(7) Divide the amount reported in line A. by the amount reported in line C. The resultant percentage is the percentage rate to be applied to civilian labor costs for billings to other Federal Agencies. This is DoD’s funded rate.

(8) The civilian fringe benefit rate--to be used in this calculation--will be obtained annually from the Directorate for Accounting and Finance Policy.

(9) Add lines D. and lines E. to determine the percentage to be applied on billings to the public and private activities.
APPENDIX D: CONTRACT ADMINISTRATION SERVICES

Contract administration services (CAS) hourly reimbursable billing rates should be applied to direct labor hours incurred in support of CAS efforts. These CAS rates are to be used in billing other Federal Agencies, the public, and Foreign Military Sales (FMS) customers. FMS customers are to be billed in accordance with subsections 070406 and 080601 of Volume 15, “Security Assistance Policy and Procedures,” of this Regulation. Waivers and exclusions are to be granted in accordance with subsection 070104 of Volume 15.

<table>

</tr>
<tr>
<td>Defense Logistics Agency</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Defense Contract Audit Agency</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

NOTES:
(1) Use the Budget Year “Gross Cost Per Direct Hour” amount from page 2.
(2) Sum Budget Year lines C, E, and G from page 2 and multiply the resultant amount by .167 (obtained from OMB Circular No. A 76 Revised Supplemental Handbook, “Performance of Commercial Activities”). That product then is divided by the applicable total direct work-hours (line V from page 2) to derive an hourly unfunded civilian retirement cost. The resultant hourly unfunded civilian retirement cost is added to the “Other Federal Agencies Rate” (column 1) to yield the FMS rate.

REIMBURSEMENT COST FOR CONTRACT ADMINISTRATION SERVICES

Notes:

(1) The amounts reflected should be the “actual” cost and work-hour data for the most recently completed Fiscal Year. This should be the FY 20PY of the President’s Budget.

(2) The amounts reflected should be that shown in the “Total” column of the attached schedule, “Personnel Cost For Contract Administration Services” (page 4) for the applicable year, i.e., PY, CY, BY.

(3) Separately, show basis of computation.

(4) Includes all travel costs, i.e., local, temporary additional duty, and permanent change of station, of the civilian and military personnel included under items (A), (D) and (F).

(5) Includes other expenses such as supplies, equipment, training and communications.

Notes:

(9) Include the salary expenses of direct civilian and military personnel, e.g., contract administrators.

   a. Civilian. The cost of civilian personnel assigned full time to contract administration requirements should reflect the annual salary for the applicable pay grades. Otherwise, an hourly rate of 1/2087 of the annual rate shall be used and a leave and holiday factor of 18 percent of pay cost added.

   b. Military. The cost of military personnel assigned full time to contract Administration requirements should be based on the annual Military Composite Pay rates. Otherwise, an hourly rate of 1/2080 of the annual Military Composite Pay rate shall be used and a leave and holiday factor of 14 percent of pay cost added.

(10) Include the indirect salary expenses for civilian and military personnel that perform supervisory and administrative (clerical) functions. Such costs are computed as indicated in (9)a. and (9)b. above.
(11) Include the salary expenses for civilian and military personnel at the district, regional and headquarters level. Such costs are computed as indicated in (9)a. and (9)b. above.

(12) Include the fringe benefit expenses for all civilian and military personnel included in items (A), (D) and (F).

a. Civilian. Fringe benefits are computed by multiplying civilian personnel costs by the civilian fringe benefit rate. The fringe benefit rate must be that reported for the applicable fiscal year on the OP-8 exhibit, “Civilian Personnel Costs.”

b. Military. Fringe benefits are computed by multiplying separately the officer and enlisted salaries by 6 percent for officers and 18 percent for enlisted personnel.

INSTRUCTIONS

(1) Insert Army, Navy or Air Force, as applicable.

(2) Insert the applicable fiscal (budget) year.

(3) Separately list and provide data for each type/model/series of aircraft (fixed or rotary wing) in the DoD Component’s inventory which is subject to reimbursement as a composite rate of all Service Components (Active, Guard, and Reserve).

(4) The DoD rate will include costs for (8)--Fuel, (9)--DLRs, (10)--Depot Maintenance, and (11)--Other. This rate is to be used for interdepartmental (e.g., Navy to Air Force, etc.) billing purposes. Location of calculation instructions in this appendix are indicated by the number in parenthesis before the name of the cost category.

(5) The Other Federal Agency Rate will include costs for (8)--Fuel, (9)--DLRs, (10)--Depot Maintenance, (11)--Other, and (12)--Crew Salary. Location of calculation instructions in this appendix are indicated by the number in parenthesis before the name of the cost category.

(6) The FMS rate will include costs for (8)--Fuel, (9)--DLRs, (10)--Depot Maintenance, (11)--Other, (12)--Crew Salary. Location of calculation instructions are indicated by the number in parenthesis before the name of the cost category.

(7) The Public Rate will include costs for (8)--Fuel, (9)--DLRs, (10)--Depot Maintenance, (11)--Other, (12)--Crew Salary, (13)--Asset Utilization and an unfunded civilian retirement cost (The civilian fringe benefit rate--to be used in this calculation--will be obtained annually from the OUSD(C), Program/Budget, Operations Directorate, 3C749, the Pentagon, Washington, DC 20301-1100) for any civilian personnel costs included in (4), (5), (6), (7) or (8). Location of calculation instructions in this appendix are indicated by the number in parenthesis before the name of the cost category.

(8) Fuel costs will be equal to the corresponding amounts shown in the related OP-20 Exhibit series (OP-20D for Army, OP-20 for Navy, and OP-20E for Air Force) for the applicable type/model/series. (If for any reason, the OP-20 Exhibit series does not include an applicable type/model/series of aircraft, fuel costs will be computed using the same methodology as that used for aircraft included in the OP-20 Exhibit series, i.e., by dividing the total cost of fuel for the fiscal year for each type of aircraft by the total number of flying hours for that same aircraft.) Services should also include fuel costs for non-fly fuel directly supporting the flying hour program (such as fuel used in engine test cells and auxiliary powers units).

(9) Depot-level reparable (DLR) costs will be equal to the corresponding amounts shown in the related OP-20 Exhibit series (OP-20D for Army, OP-20 for Navy, and OP-20E for Air Force) for the applicable type/model/series. (If for any reason, the OP-20 Exhibit series does not include an applicable type/model/series of aircraft, DLR costs will be computed using the same methodology as that used for aircraft included in the OP-20 Exhibit series, i.e., by dividing the
(10) Include an hourly rate for depot maintenance cost for airframes, engines, and components for the applicable type/model/series. This cost will be an average cost for that type/model/series, and be computed by dividing the total amount of depot maintenance budgeted for the applicable type/model/series by the number of flying hours budgeted for that type/model/series.

(11) Other costs will equal corresponding “other” amounts shown in the related OP-20 Exhibit series (OP-20D for Army, OP-20 for Navy, and OP-20E for Air Force--for Air Force, this is equal to the consumables required in Exhibit OP-20E). (If for any reason, the OP-20 Exhibit series does not include an applicable type/model/series of aircraft, other costs will be computed using the same methodology as that used for aircraft included in the OP-20 Exhibit series, i.e., by adding all operating costs (other than fuel, DLRs, depot maintenance, crew salary, and asset utilization)) and dividing the total of such other costs for the applicable fiscal year by the total number of flying hours.) If for any reason the OP-20 Exhibit does not include detail for contract logistics support, use a five-year average of variable CLS or equivalent costs and hours.

(12) Crew salary amounts will be computed based on the number and grade of military personnel operating the aircraft. Crew salary costs will be computed by:

(a) Multiplying the standard number of crew members in each applicable military grade times the annual Military Standard Composite Rate for that grade available on the reimbursable rates page of the OUSD(C) website: (https://comptroller.defense.gov/Financial-Management/Reports/rates2022/). NOTE: For Federal Agencies and Public rates, use the applicable rates in the “Annual Rate Billable to Other Federal Agencies” column. For the FMS rate, use the applicable rate in the “Annual DoD Composite Rate” column plus the annual acceleration factor.

(b) Dividing the result of (a) by 2080 (hours) to convert the annual rate to an hourly rate, by grade.

(c) Multiplying the results of (b) by a factor of 1.14 percent for both officers and enlisted personnel. (This calculation increases the hourly rate by 14 percent for officers and enlisted personnel fringe benefits.)

(d) Adding the amounts arrived at in (c) for each grade, to arrive at a total hourly rate for the entire crew.

NOTE: The computation of crew salary amounts should be supported by a separate table attached to this exhibit.

(13) The asset utilization amount will be computed by applying an asset utilization factor of 4 percent times the sum of columns (8)--Fuel, (9)--DLRs, (10)--Depot Maintenance, (11)--Other and (12)--Crew Salary for each specific aircraft.

(14) Provide a brief narrative to explain significant changes between fiscal years.
APPENDIX F: MEDICAL AND DENTAL SERVICES RATE COMPUTATION

INPATIENT, OUTPATIENT AND OTHER RATES AND CHARGES

1.0  *Inpatient Rates

Direct Care Inpatient Adjusted Standardized Amounts (ASA) rates are computed based on the Military Health System (MHS) direct care standardized cost to provide a single Medicare Severity Relative Weighted Product (MS-RWP). The MS-RWP is a Medicare Severity Diagnosis Related Group (MS-DRG) based measure of the relative costliness of a given discharge. The average standardized cost per MS-RWP for hospitals in locations with area wage rates greater than 1.0, less than or equal to 1.0, and overseas are published annually as inpatient ASAs shown in Table 1. This approach maintains compatibility with both Medicare and TRICARE ASA policies. The ASA rates will be applied to the MS-RWP for each inpatient case, determined from the TRICARE MS-DRG weights, outlier thresholds, and payment rules to calculate the reimbursement charge. The Department of Defense (DoD) publishes this data annually for hospital reimbursement rates under TRICARE/Civilian Health and Medical Program of the Uniformed Services pursuant to 32 Code of Federal Regulations 199.14(a)(1). Due to data system limitations, for military treatment facilities (MTFs), direct care adjustments are made for length of stay (LOS) outliers rather than high cost outliers.

The example below provides the average direct care inpatient ASA rates for third party billing, interagency billing, and International Military Education and Training (IMET) billing for three core-based statistical areas (CBSA) (high area wage index, low area wage index, and overseas).
Example: Average FY 2019 Direct Care Inpatient ASA Rates

<td>$8,181.31</td>
<td>$17,641.03</td>
<td>$18,522.71</td>
</tr>
</tbody>
</table>

^ Hawaii and Alaska are not considered overseas for billing purposes

The IMET program is a key funding component of U.S. security assistance that provides training on a grant basis to students from allied and friendly nations. Authority for the IMET program is found pursuant to Chapter 5, part II, Foreign Assistance Act 1961. Funding is appropriated from the International Affairs budget of the Department of State. Not all foreign national patients participate in the IMET program. The IAR ASA rates are used to bill other federal agencies. The full/Third Party Collection (TPC) ASA rates are used to bill insurance carriers, pay patients, and other payers.

Each MTF providing inpatient care has its own applied ASA rates (shown in Appendix A). The MTF-specific ASA rates are the average ASA rates adjusted for indirect medical education costs, if any, for the discharging hospital. The product of the discharge specific MS-RWP and the MTF-applied ASA rate is the charge submitted on the claim and is the amount payers will use for reimbursement purposes. The individual ASAs are published on the Defense Health Agency (DHA) Uniform Business Office (UBO) Website (http://health.mil/Military-Health-Topics/Business-Support/Uniform-Business-Office).

The ASA per MS-RWP used in the direct care system is comparable to procedures used by the Centers for Medicare and Medicaid Services (CMS) and TRICARE. The expenses represented by the ASAs include all direct care expenses associated with direct inpatient care. The inpatient ASAs includes the cost of both inpatient professional and institutional services. The ASA rates apply to reimbursement from TPC, IMET and IAR payers. Pursuant to the provisions of 10 United States Code (U.S.C.) 1095, the breakdown of total inpatient charges is 93 percent for institutional charges and seven (7) percent for professional charges. When preparing bills for inpatient services, professional fees are based on the privileged provider services. The hospital institutional fees are based on the costs for support staff, facility costs, ancillary services, pharmacy, and supplies.

MTFs without inpatient services, whose providers perform inpatient care in a civilian facility for a DoD beneficiary, may bill payers the percentage of the ASA/MS-RWP based charge that represents professional services. In the absence of a MTF-applied ASA rate for the facility, the ASA rate used will be based on the average for the type of CBSA in which the MTF is located - areas with wage rate indices greater than 1.0, less than or equal to 1.0, or overseas. The MTF UBO must receive documentation of care provided in order to produce an appropriate bill.
The full table of the current FY MTF-specific ASA rates are published on the Defense Health Agency Uniform Business Office (UBO) website and Comptroller Financial Management Reports website at the links below:

Defense Health Agency Uniform Business Office (UBO):

2.0 *Outpatient Rates

Outpatient Rates are the charges for professional and institutional health care services provided in MTFs financed by the Defense Health Program Appropriation. These rates are used to submit claims for reimbursement of the costs of the health care services provided by MTFs in accordance with the various MTF Cost Recovery Programs: Medical Services Account (MSA), Third Party Collections and Medical Affirmative Claims.

Outpatient Rates consists of Civilian Health and Medical Program of the Uniformed Services (CHAMPUS) Maximum Allowable Charge (CMAC) Rate Tables (modified for UBO use); Dental Rates; Immunization/Injectable Rates; Anesthesia Rates; and Durable Medical Equipment/Durable Medical Supplies (DME/DMS) Rates

Outpatient Rates are updated annually on a Calendar Year (CY) basis, with an effective date of 1 July. The actual rate tables are not included in this section, due to size. The current CY Outpatient rates are on the Defense Health Agency (DHA) Management Control & Financial Studies Uniform Business Office (UBO) Web site https://health.mil/Military-Health-Topics/Business-Support/Uniform-Business-Office/UBO-Rates-Overview/MHS-UBO-Rates.

**CMAC Rates**

Civilian Health and Medical Program of the Uniformed Services (CHAMPUS) Maximum Allowable Charge (CMAC) Rates, established under Title 32, Sec. 199.14(j) of the Code of Federal Regulations, are used to determine the appropriate charge for the professional and technical components of services based on the Healthcare Common Procedure Coding System (HCPCS) methodology, which includes the Current Procedural Terminology (CPT®) codes. DHA UBO CMAC rates differ from standard TRICARE CMAC rates in that DHA UBO CMAC rates
are formatted for legacy military billing systems and include charges for additional services not reimbursed by TRICARE. DHA UBO CMAC rates pertain to professional services (e.g., office and clinic visits), ancillary services (e.g., laboratory and radiology) and OBS professional services.

DHA UBO CMAC rates are calculated for distinct “localities”. These localities recognize differences in local costs to provide health care services in the different geographic regions in which MTFs are located. Each MTF Defense Military Information System Identification (DMIS ID) is mapped to its corresponding CMAC locality code to obtain the correct rates. For all MTFs located outside the continental United States, Alaska, and Hawaii, the national average CMAC locality file (300) is used except for Guam and Puerto Rico which have their own CMAC localities. The complete DMIS ID-to-CMAC Locality table is available on the DHA UBO Website at https://health.mil/Military-Health-Topics/Business-Support/Uniform-Business-Office/UBO-Rates-Overview/MHS-UBO-Rates

For each CMAC locality, the DHA UBO creates two sub-tables of rates: CMAC and Component. The CMAC rate table specifies the rates to use as payment for professional services and procedures identified by CPT® and HCPCS codes, which cannot be separately provided as professional and technical component services. The Component rate table specifies which rates to use for CPT® codes which can be provided as distinct professional and technical components, or as a combined professional and technical service. A separate rate is provided for each component. Both CMAC and Component rate tables are further categorized by CHCS provider class. The four provider classes are: 1) Physicians, 2) Psychologists, 3) Other Mental Health Providers, and 4) Other Medical Providers. UBO CMAC rates for billing of professional services are available on the DHA UBO Website at https://health.mil/Military-Health-Topics/Business-Support/Uniform-Business-Office/UBO-Rates-Overview/MHS-UBO-Rates

<td>$PR + TR</td>
<td>2013-07-01</td>
</tr>
</tbody>
</table>

**Dental Rates:**
The UBO Dental Rate Table consists of MTF dental charges based on a flat rate multiplied by the DoD established dental weighted value (DWV) for each American Dental Association (ADA) Current Dental Terminology (CDT) procedure code. The dental flat rate for a particular code represents the average DoD cost of dental services at all dental treatment facilities. The table below provides the dental code, clinical service/procedure name, the DoD weighted value, the International Military Education and Training (IMET) program, Interagency Rate (IOR) and Full Outpatient Rate (FOR) dental charges. The Dental rates table may be found on DHA UBO’s Website at [https://health.mil/Military-Health-Topics/Business-Support/Uniform-Business-Office/UBO-Rates-Overview/MHS-UBO-Rates](https://health.mil/Military-Health-Topics/Business-Support/Uniform-Business-Office/UBO-Rates-Overview/MHS-UBO-Rates).

Example: CY 2018 Dental Rate Table

<table>
<thead>
<tr>
<th>ADA CDT Code</th>

<th>Full Rate $</th>
</tr>
</thead>
<tbody>
<tr>
<td>D0210</td>
<td>Periodic oral evaluation – established patient</td>
<td>0.49</td>
<td>$</td>
</tr>
</tbody>
</table>

**Immunization/Injectable Rates:**
Immunization or injectable rate charges are applicable for any administered immunization, injection or medication in the MTFs. UBO Immunization rates are based on TRICARE rates when available. If there is no TRICARE rate available, Purchased Care Data is used to derive rates. Rates are derived from Purchased Care Data by using the Military Health System Management Analysis and Reporting Tool or M2 system. This reporting tool allows for querying and detailed trend analysis including summaries and detailed views of population, clinical, and financial data from all MHS regions worldwide. Data pulled from previous and current FY (to date) allows calculation of average amount allowed for rate use. Outlier rates are adjusted using historical Purchased Care Data of up to five (5) years.

Example: CY 2018 Immunization Rate Table

<table>
<thead>
<tr>
<th>CPT®/HCPCS Code</th>

<td>$</td>
<td>INTERFERON ALFA-2B INJ 1 MIL UNITS</td>
<td>INJECTION, INTERFERON, ALFA-2B, RECOMBINANT, 1 MILLION UNITS</td>
</tr>
</tbody>
</table>
Anesthesia Rates:

UBO Anesthesia charges are used for the anesthesia professional services performed in the MTFs. Anesthesia charges are calculated by multiplying the CMS national anesthesia conversion factor by the sum of the anesthesia base units and the average time units.

The UBO Anesthesia rate table consists of the CPT® Code, rate, and the short and long descriptions. The current CY Anesthesia rates are found on the DHA UBO Web site: https://health.mil/Military-Health-Topics/Business-Support/Uniform-Business-Office/UBO-Rates-Overview/MHS-UBO-Rates

Example: CY 2018 Immunization Rate Table

<table>

<td>ANESTH, LOWER ARM PROCEDURE</td>
<td>ANESTHESIA ALL CLOSED PROC RADIUS, ULNA, WRIST, HAND BONES</td>
</tr>
</tbody>
</table>

Durable Medical Equipment/Durable Medical Supplies (DME/DMS) Rate:

UBO DME/DMS rates are based on the CMS Medicare Fee Schedule floor rate when available. If there is no Medicare Fee Schedule floor rate, Purchased Care data is used to establish a rate based on the average amount allowed.

The UBO DME/DMS rate table consists of the alpha-numeric HCPCS Code, any applicable modifiers (MOD), the description and the rate. The current CY DME/DMS Rate table is published on the DHA UBO Web site: https://health.mil/Military-Health-Topics/Business-Support/Uniform-Business-Office/UBO-Rates-Overview/MHS-UBO-Rates

Example: CY 2018 DME/DMS Rate Table

<td>$</td>
</tr>
</tbody>
</table>

3.0 Pharmacy Rates

Pharmacy rates are established on a unit measure price basis (e.g., cost per tablet) and are standardized for National Drug Codes (NDCs) within each generic sequence number (GSN). Pharmacy rates are derived from the Managed Care Pricing File (MCPF) and are based on TRICARE allowable charges, Average Wholesale Price (AWP) or Prime Vendor Program (PVP) prices listed for the NDCs in the MCPF. Rates are computed based on the median unit measure cost for all of the listed AWP NDCs in each GSN group. The median unit measure price is applied to all the NDCs in that GSN group.
The Pharmacy table consists of the 11 digit NDC number, the corresponding name/description of the drug (generic or brand), the form of the dosage (tablet, capsule, powder, etc.), the strength of the dosage and the current unit price. Pharmacy rates are updated biannually, in February and August. Available Pharmacy rates are available on the DHA UBO Web site: https://health.mil/Military-Health-Topics/Business-Support/Uniform-Business-Office/UBO-Rates-Overview/MHS-UBO-Rates

Example: CY 2018 Pharmacy Rate Table

<table>

<td>xxx</td>
<td>$</td>
</tr>
</tbody>
</table>

4.0 *Cosmetic Surgery

Elective cosmetic procedures are not TRICARE covered benefits. Elective cosmetic procedures provided in MTFs are restricted to TRICARE-eligible beneficiaries, including TRICARE for Life, on a “space-available” basis. Patients receiving elective cosmetic procedures (e.g., Active Duty personnel, retirees, family members, and survivors) are responsible for charges for all services (including implants, injectables, anesthesia, and other separately billable items) associated with elective cosmetic procedures. A list of elective cosmetic procedures and their associated rates can be found on the DHA UBO Website at https://health.mil/Military-Health-Topics/Business-Support/Uniform-Business-Office/UBO-Rates-Overview/MHS-UBO-Rates

Professional Charges for Elective Cosmetic Procedures:

Professional charges for elective cosmetic procedures are based on the CMAC national average when available. When CMAC allowable charges are not available, charges are determined based on estimates of the medical resources required relative to procedures that have CMAC pricing. Professional charges for elective cosmetic procedures are applied in both inpatient and ambulatory settings. Elective cosmetic charges are not adjusted for the treating MTF’s geographical location.

CMAC CY 2018 “facility physician” allowable charges are used for the professional component for services furnished by a provider in a hospital operating room or designated Ambulatory Procedure Unit (APU). CMAC “non-facility physician” allowable charges are used for the professional component for services furnished in a provider’s office.

Institutional Charges for Elective Cosmetic Procedures:

Institutional charges for elective cosmetic procedures are based on the procedure performed and the location of the service provided (i.e., provider’s office/minor surgery room, hospital operating room (either on an outpatient or inpatient basis), operating room of a MTF that is not a hospital (i.e., does not provide inpatient services).
For elective cosmetic procedures conducted in a provider’s office/minor surgery room, the institutional fee is included in the “non-facility physician” professional charge.

- The institutional charge for elective cosmetic procedures performed in a hospital operating room on an outpatient basis is based on the APV flat rate for the primary procedure with no additional institutional charge for bilateral or additional procedures.

- The institutional charge for elective cosmetic procedures performed in an operating room of a facility that is not a hospital is also based on the APV flat rate for the primary procedure with no additional institutional charge for bilateral or additional procedures.

- The institutional charge for an elective cosmetic procedure performed in a hospital on an inpatient basis is calculated by multiplying the FY 2018 TRICARE Adjusted Standardized Amount (ASA), by the relative weighted product (RWP) associated with the Diagnostic Related Group (DRG).

If an elective cosmetic procedure is combined with a medically necessary procedure during the same surgical visit, the elective cosmetic procedure charge is adjusted to avoid duplicate institutional charges. The institutional charge, for an elective cosmetic procedure, when combined with a medically necessary procedure is reduced by 50 percent from the initial charge.

Most ancillary services (e.g., laboratory, radiology, and routine pre-operative testing) are included in the institutional pricing methodology described above. Ancillary services and supplies not included are billed at the FOR.

**Anesthesia Charges for Elective Cosmetic Procedures**

Anesthesia rates associated with elective cosmetic procedures include anesthesia professional services. Anesthesia charges are calculated using the current national anesthesia conversion factor, multiplied by the sum of base units and national average time units (measured in 15-minute increments) of the primary procedure. An additional anesthesia charge, based on additional minutes of service, is added for secondary procedures performed during the same surgical encounter. Anesthesia charges are applied in both inpatient and ambulatory settings. Due to the large size of the cosmetic surgery rate table, a format example is not included. The current CY DME/DMS Rate table is published on the DHA UBO Web site: [https://health.mil/Military-Health-Topics/Business-Support/Uniform-Business-Office/UBO-Rates-Overview/MHS-UBO-Rates](https://health.mil/Military-Health-Topics/Business-Support/Uniform-Business-Office/UBO-Rates-Overview/MHS-UBO-Rates)

*Note: Basic Pay for O-7 to O-10 pay grades is limited by Level II of the Executive Schedule.
MILITARY COMPOSITE STANDARD PAY AND REIMBURSEMENT RATES

INSTRUCTIONS

Each Military Service must complete an Appendix G using the attached standard format. The heading to each Appendix G consists of three lines. The first line identifies the appendix by number, the second line states “MILITARY COMPOSITE STANDARD PAY AND REIMBURSABLE RATES,” and the third line identifies the Military Service that has developed the rates and the fiscal year that the rates will be used.

The Military Composite Standard Pay and Reimbursement Rates exhibit for the Budget Year should include the following cost elements that are listed for each column of the report. Amounts listed shall be equal to corresponding amounts contained in the applicable Military Service’s justification book in support of their military personnel appropriation budget request included in the latest President’s budget:

(Column 1) Basic Pay. Include the average basic pay amounts, by pay grade, as provided in the President's budget justification, Budget Subactivity (BSA) 1-A, Pay and Allowance of Officers, BSA 2-A, Pay and Allowances of Enlisted Personnel, and BSA 3-A, Pay and Allowances of Cadets and Midshipmen. The cadet and midshipmen rate is computed as a single rate for all cadets/midshipmen. NOTE: Basic Pay for O-7 to O-10 pay grades is limited by Level II of the Executive Schedule.

(Column 2) Retired Pay Accrual. Include average retired pay accrual amounts, by pay grade, as provided in the President's budget justification, BSA 1-B, Retired Pay Accrual for Officers and BSA 2-B, Retired Pay Accrual of Enlisted. The applicable retired pay accrual percentage is statutory and published annually.

(Column 3) Basic Allowance for Subsistence. Compute the basic allowance for subsistence rate separately, for officers and enlisted personnel, by pay grade, and for cadets and midshipmen, using amounts from the President's budget justification books. The officer rate is computed by dividing BSA 1-G, Basic Allowance for Subsistence for officers, by the officer average strength, by grade. The enlisted rate is computed by adding BSA 4-A, Basic Allowance for Subsistence for enlisted, BSA 4-B, Subsistence-in-Kind (SIK) for enlisted and BSA 4-C, Family Subsistence Supplemental Allowance (FSSA), and then dividing the total by the enlisted average strength, by grade. Compute a single rate for cadets and midshipmen.
(Column 4) Basic Allowance for Housing (BAH). Compute the BAH rate separately, for officers and enlisted personnel, by pay grade, using amounts from the President's budget justification books. The officer rate is computed by dividing BSA 1-F, BAH for officers by the average strength for officer personnel. The enlisted rate is computed by dividing BSA 2-K, BAH for enlisted by the average strength for enlisted personnel.

(Column 5) Incentive and Special Pays. Compute the Incentive and Special Pay rate separately for officers and enlisted personnel, by pay grade, using amounts from the President's budget justification books. For each pay grade, add the incentive and special pay amounts and then divide the sum by the average end strength, separately for officers and enlisted personnel. The officer rate is computed by adding the amounts for BSA 1-D, Incentive Pay for officers and BSA 1-E, Special Pay for officers, then dividing the sum by the average strength for officer personnel. The enlisted rate is computed by adding the amounts for BSA 2-D, Incentive Pay for enlisted, BSA 2-E, Special Pay for enlisted, BSA 2-F, Special Duty Assignment Pay for enlisted, BSA 2-G, Reenlistment Bonus, BSA 2-H, Enlistment Bonus, BSA 2-I, Education Benefits (College Fund), and BSA 2-J, Loan Repayment Program, then dividing the sum by the average strength for enlisted personnel.

(Column 6) Permanent Change of Station (PCS) Expense. This element represents the average cost of amounts provided in the President’s budget justification books for PCS travel, Budget Activity 5. Compute the average PCS by adding the following types of travel each for officers, enlisted personnel, and cadets, from the BSAs contained in the justification books: accession travel (BSA 5-A); training travel (BSA 5-B); operational travel between duty stations (within CONUS and within overseas) (BSA 5-C); rotational travel to and from overseas (BSA 5-D); separation travel (BSA 5-E); and travel of organized units (BSA 5-F). The sum of BA-5 is divided by the average strength separately, for officer and enlisted personnel. Compute a single rate for cadets and midshipmen.

(Column 7) Miscellaneous Expense. This rate is the average computed separately, for officers and enlisted personnel, by pay grade, and for cadets and midshipmen, of amounts provided in the President's budget justification books for Budget Activity 6, Other Military Personnel Costs, and other amounts for miscellaneous allowances and payments for officers, enlisted, and cadets/midshipmen as contained in BSAs listed in the following matrix:
Sum the amounts in each of the above categories for officer and enlisted, by pay grade, and divide the sum by the average strength of officer and enlisted, by pay grade, as shown in the budget justification materials. A single rate shall be used for cadets and midshipmen.

(Column 8) Medicare-Eligible Retiree Health Care (MERHC) Accrual. The annual rate is provided in OUSD(Comptroller) budget guidance and covers the cost of future health care benefits for current officer and enlisted personnel once they retire and become Medicare-eligible, as well as their dependents and annuitants. It does not apply to cadets and midshipmen. See Volume 12, Chapter 16, Paragraph 160406, for additional information about Reimbursements of MERHC.

(Column 9) Acceleration Factor. This rate is provided by the OUSD(Comptroller) and covers the medical health care costs of active duty personnel and their dependents associated with the Defense Health Program. It does not apply to cadets and midshipmen.

(Column 10) Annual DoD Composite Standard Rate. This rate shall be used when determining the military personnel appropriations cost for budget/management studies, but should not be considered as a fully-burdened costs of military personnel for the purposes of workforce-mix decisions. Enter the sum of columns (l) through (8). Note: Rates include a per capita normal cost for MERHC accruals since MERHC accruals are counted as part of the Military Departments’ discretionary budget authority.
(Column 11) **Amount Billable to DoD Entities.** This rate shall be used when obtaining reimbursement for services provided to entities side of the DoD. See Volume 11A, Chapter 1, Paragraph 010203, for billing DoD entities. Add columns (1) through (7). Note: Rates exclude the per capita normal cost of MERHC accruals. Beginning with FY 2006, MERHC accruals are paid from the General Fund of the Treasury and cannot be reimbursed to the Services’ personnel accounts during the year of execution.

(Column 12) **Amount Billable to Other Federal Agencies.** This rate shall be used when obtaining reimbursement for services provided to other federal agencies outside of the DoD. Add columns (9) and (11). Note: Rates include an acceleration factor to cover medical costs of active duty personnel and their dependents. Reimbursements of the acceleration factor shall be deposited into the Defense Health Program (97*0130). Rates exclude the per capita normal cost of MERHC accruals. Beginning with FY 2006, MERHC accruals are paid from the General Fund of the Treasury and cannot be reimbursed to the Services’ personnel accounts during the year of execution. Military labor shall be charged to non-DoD organization on the basis of actual hours worked or assigned (detailed). To compute a daily rate, multiply column (12) by a factor of .00452 (1.18/260.875). For an hourly rate, multiply column (12) by a factor of .00057 (1.18/2087). This represents a leave/holiday factor of 18%. This factor compensates for wages paid during leave or holiday period, and is only applicable when reimbursements are based on time actually worked. (Do not use this factor if the assignment is full time.)

(Column 13) **Amount Billable to Foreign Military Sales (FMS) Entities.** This rate shall be used when obtaining reimbursement for services provide to FMS Entities. Add columns (8) and (12). Note: Title 22, United States Code, Section 2761(a)(1)(C) of the Arms Export Control Act requires foreign countries or international organizations, in the case of the sale of a defense service, to pay “the full cost to the United States Government of furnishing such service”. Therefore the acceleration factor and the per capita normal cost for MERHC accruals shall be included in the DoD Annual Rate Billable to FMS. Reimbursement of the acceleration factor shall be deposited into the Defense Health Program (97*0130). Reimbursement of the per capita normal cost for MERHC accrual shall be deposited into the Miscellaneous Receipts Account 3041. See Volume 12, Chapter 16, Paragraph 160406, for addition information about Reimbursements of MERHC. Military labor shall be charged to non-DoD organization on the basis of actual hours worked or assigned (detailed). To compute a daily rate, multiply column (13) by a factor of .00452 (1.18/260.875). For an hourly rate, multiply column (13) by a factor of .00057 (1.18/2087). This represents a leave/holiday factor of 18%. This factor compensates for wages paid during leave or holiday period, and is only applicable when reimbursements are based on time actually worked. (Do not use this factor if the assignment is full time.)

REIMBURSEMENT COST FOR CONTRACT ADMINISTRATION AND RELATED SUPPORT SERVICES
FURNISHED TO THE NASA

Notes:

(1) The amounts reflected should be the “actual” cost and work-hour data for the most recently completed fiscal year. This should be the FY 19PY of the President’s budget.

(2) The amounts reflected should be that shown in the “Total” column of the attached schedule, “Personnel Cost For Contract Administration and Related Support Services Furnished to the NASA” (pages 3 and 4) for the applicable year, i.e., PY, CY, BY.

(3) Separately, show basis of computation.

(4) Includes all travel costs, i.e., local, temporary additional duty, and permanent change of station, of the civilian and military personnel included under items (A), (D) and (F).

(5) Includes other expenses such as supplies, equipment, training and communications.

</table>

Notes:
(6) Include the salary expenses of direct civilian and military personnel, e.g., contract administrators, and auditors.
   a. **Civilian.** The cost of civilian personnel assigned full time to NASA requirements should reflect the annual salary for the applicable pay grades. Otherwise, an hourly rate of 1/2087 of the annual rate shall be used and a leave and holiday factor of 18 percent of pay cost added.

   b. **Military.** The cost of military personnel assigned full time to NASA requirements should be based on the annual Military Composite Pay rates. Otherwise, an hourly rate of 1/2080 of the annual Military Composite Pay rate shall be used and a leave and holiday factor of 14 percent of pay cost added.

(7) Include the indirect salary expenses for civilian and military personnel that perform supervisory and administrative (clerical) functions. Such costs are computed as indicated in (6)a. and (6)b. above.
(8) Include the salary expenses for civilian and military personnel at the district, regional and headquarters level. Such costs are computed as indicated in (6)a. and (6)b. above.

(9) Include the fringe benefit expenses for all civilian and military personnel included in items (A), (D) and (F).

   a. Civilian. Fringe benefits are computed by multiplying civilian personnel costs by the civilian fringe benefit rate. The fringe benefit rate must be that reported for the applicable fiscal year on the OP-8 exhibit, “Civilian Personnel Costs.”

   b. Military. Fringe benefits are computed by multiplying separately the officer and enlisted salaries by 6 percent for officers and 18 percent for enlisted personnel.

CHAPTER 7

INTERNATIONAL NARCOTICS CONTROL PROGRAM

*1.0 GENERAL

1.1 Overview

The DoD’s International Narcotics Control Program (INCP) directly supports the Foreign Assistance Act (FAA) of 1961. The FAA’s key objectives are to suppress the illicit manufacturing and trafficking of narcotics and psychotropic drugs, money laundering, precursor chemical diversion, and to progressively eliminate the illicit cultivation of the crops from which narcotic and psychotropic drugs are derived. While the FAA addresses statutory responsibilities for multiple agencies, the DoD is specifically tasked as a key partner in the training of foreign allies on illegal narcotics interdiction and the prevention of illegal narcotics trafficking.

1.2 Purpose

This chapter provides pricing guidance for INCP transactions, explains special cost computation scenarios, and identifies procedures for the disposition of proceeds from collections. *It does not provide guidance and procedures on the DoD’s national drug and counterdrug activities as it focuses exclusively on the department’s international training efforts and partnership with the Department of State.

1.3 Authoritative Guidance

The financial management policy and procedures addressed in this chapter are in accordance with Section 632 (c) of the FAA.

2.0 SUPPORT OF INTERNATIONAL NARCOTICS CONTROL PROGRAM

2.1 Billing

Section 632 (c) of the FAA explains special pricing requirements when services, including training, are provided by the Department of Defense to the Department of State in support of the INCP. Billing must be made within 30 calendar days after the monthly services are rendered. The payment due date must be no more than 30 days from the date of the invoice. Bills rendered under this program are not subject to audit by the customer.

2.2 Pricing

The following rules must be followed by DoD Components when determining amounts to be collected as reimbursements for orders from the Department of State that cite INCP financing.
2.2.1. **INCP Training.** The tuition rate for DoD training provided to support INCP is an incremental rate comparable to the International Military Education and Training (IMET) rate. DoD FMR Volume 15 provides a detailed explanation on tuition rates, direct and indirect costs of international student training, and IMET training price exceptions not covered in this chapter. The cost elements to include in the pricing are as follows:

2.2.1.1. **Civilian Instructors and School Support Staff.** It is anticipated that additional costs charged to the INCP for civilian instructors will be minimal for courses or groupings of courses when either the ratios of students to instructors or U.S. students to international students is high. Courses must be reviewed to determine the additional cost incurred resulting from international student attendance. Classroom or technical courses that are similar, or that utilize instructors who teach more than one course, may be grouped for computation purposes.

2.2.1.1.1. For groups of courses, an estimate must be made of the number of U.S. students in each course and the number of civilian instructors and civilian staff required. A second projection must be made of the total number of students to be enrolled in applicable courses, both U.S. and international, and the number of civilian instructors and civilian staff required. Base both projections on the maximum number of student output by civilian instructors or civilian staff rather than on optimum class size. The difference in the number of civilian instructors and civilian staff between the two projections represents the additional civilian instructors and civilian staff required. Applicable additional civilian instructors and civilian staff must be priced in accordance with Volume 11A, Chapter 1. This value, divided by the total number of INCP students, represents the additional cost per INCP student for the course (or courses).

2.2.1.1.2. When there is a one-for-one or one-for-two relationship of civilian instructors to students, the instructor in all cases is considered additional. If the entire class is composed of INCP students, the instructor, and staff must be considered additional in the pricing formula.

2.2.1.2. **Military Instructors and Military School Support Staff.** There must be no charges to the INCP program for military personnel conducting training courses.

2.2.1.3. **Equipment Overhaul and Maintenance.** The overhaul and maintenance of major items of equipment, when computed on an hourly use basis, must be considered additional resources to a course based on estimated utilization hours.

2.2.1.4. **Simulators.** Simulator hours must be considered additional costs. Simulator costs must include pay of the operators, supplies and equipment maintenance. Allocate simulator costs to the course using an equitable distribution across the total hours available.

2.2.1.5. **Supplies, Materiel, Training Aids, Ammunition.** Charge the replacement costs of items not returned or reusable (including petroleum, oil, and lubricants) expended in the conduct of training as an additional cost.
2.2.1.6. Lost or Damaged Equipment. If equipment was lost or damaged during training and it was found to be the result of an international student’s negligence, the additional cost to be charged must be the actual costs of the repairs or replacement cost of the equipment.

2.2.1.7. Base Support (That Is, Indirect Student Costs). A standard weekly rate must be charged for INCP training conducted on DoD installations. The fixed weekly amount must be the same amount used for billing DoD appropriations reimbursed by the International Military Education and Training (IMET) program. See Volume 15, Chapter 7, subparagraph 23.4.2, for additional details.

2.2.1.8. Food Preparation. Meal operating/food preparation costs are additive to other food costs. The weekly meal operating and food preparation costs for INCP students must be the same amount used in billing DoD appropriations reimbursed by the IMET program when courses are conducted on DoD installations and students use DoD appropriated dining facilities.

2.2.1.9. Instructor Training. Special courses provided on a non-routine basis to US instructors and personnel are considered additional costs and must be charged accordingly. Charge the normal cost rate for all required training conducted at a U.S. training facility in direct support of the INCP program (i.e., the Department of State). Treat special courses conducted by a Management Service Team (MST) away from the normal training institution as dedicated service, and charge the full cost billed to the INCP program.

2.2.1.10. Facilities and Equipment. The costs of any facilities or equipment acquired primarily for the support of international students enrolled in the INCP program are considered additional costs.

2.2.1.11. Field Studies Program (FSP). The full cost of the FSP to the U.S. Government is considered an additional cost.

2.2.1.12. Shipment of Retainable Instructional Materials (RIM). The shipment of RIM to students must be included in the tuition rate applicable to INCP students. Apply shipping charges to the same DoD billing appropriations reimbursed by the IMET program. See Volume 15, Chapter 7, subparagraphs 22.10, 23.4.3.3, and 24.8.3 for additional details.

2.2.1.13. Travel and Per Diem. Instructor and student travel and per diem associated with the provision of training must be considered additional costs, to include transportation, living allowances, and medical expenses.

2.2.2. Other DoD Services

2.2.2.1. DoD Services Provided Incident to Normal Mission Accomplishment. When support of the INCP is accomplished incidental to performance of a DoD mission requirement, there are no additional costs incurred. However, an extended mission or overall cost increase constitutes the reimbursement of the cost over and above the scheduled mission cost.
2.2.2.2. Scheduled DoD Transportation. Air and ocean transportation services performed by the U.S. Transportation Command on scheduled movements must be priced, where applicable, at current tariff rates for DoD Components.

2.2.2.3. Detailed Personnel. All costs incurred in connection with the detail of DoD personnel to the Department of State to support the INCP--both civilian and military--are considered additional expenses and must be priced at the normal rate charged to other Federal Agencies.

2.2.3. Supplies and Equipment. Section 482 of the FAA prohibits the procurement of weapons or ammunition from funds authorized for this program. Thus, any specific order for a weapon or ammunition that cites the appropriations provided to finance INCP either must be rejected or returned for a new fund citation. Supplies and equipment that can be provided must be priced in accordance with Chapter 1. Additionally, Chapter 1 establishes pricing policy for excess and non-excess material.

2.3 Disposition of Proceeds

Section 632(c) of the FAA mandates that applicable collections from the Department of State must be reimbursed to the financing DoD appropriation account.
VOLUME 11A, CHAPTER 8: “INTERNATIONAL ACQUISITION AND CROSS-SERVICING AGREEMENTS”

SUMMARY OF MAJOR CHANGES

All changes are denoted by blue font.

Substantive revisions are denoted by an * symbol preceding the section, paragraph, table, or figure that includes the revision.

Unless otherwise noted, chapters referenced are contained in this volume.

Hyperlinks are denoted by bold, italic, blue, and underlined font.

The previous version dated July 2010 is archived.

CHAPTER 8

INTERNATIONAL ACQUISITION AND CROSS-SERVICING AGREEMENTS

*1.0 GENERAL

*1.1 Overview

The Department of Defense (DoD) strengthens key international partnerships through the acquisition and transfer of logistic support, supplies, and services (LSSS) between DoD and certain countries and regional organizations. These acquisitions and transfers are accomplished through Acquisition and Cross-Servicing Agreements (ACSA), on a reimbursement basis, or by replacement-in-kind (RIK), or by exchange of supplies or services of an equal value (equal-value-exchange (EVE)). The use of these agreements strengthens alliances and provides beneficial support for U.S. service members and respective members of foreign militaries when U.S. supplies are not readily available.

*1.2 Purpose

This chapter provides guidance and instructions for pricing and disposition of proceeds for reimbursable ACSA orders. For management of ACSA orders, this chapter acknowledges the ACSA Global Automated Tracking and Reporting System (AGATRS) as the DoD System of Record in accordance with Paragraph 5.k. of Enclosure A, Chairman of the Joint Chiefs of Staff Instruction (CJCSI) 2120.01.

*1.3 Authoritative Guidance

The financial management policy and related requirements addressed in this chapter are in accordance with the applicable provisions of the following sources, and apply to all ACSA and Acquisition only Agreements (AOA), allowing the U.S. DoD to acquire LSSS from, and in some cases provide LSSS to authorized parties.

1.3.1. CJCSI 2120.01D, “Acquisition and Cross-Servicing Agreements.”

1.3.3. DoD 7000.14R, Volume 14, Chapter 3, “Antideficiency Act Violation Process.”

1.3.4. Department of Defense Instruction (DoDI) 1300.26, “Operation of the DoD Financial Management Certification Program”.

1.3.5. DoDI 5530.03, “International Agreements.”

1.3.6. Federal Acquisitions Regulation (FAR), Part 1, Subpart 1.6, Section 1.602-3, “Ratification of unauthorized commitments.”
1.3.7. *Joint Staff ACSA Website.* Joint Staff Repository for ACSA agreements, implementing arrangements and relevant program management documents.

2.0 **GENERAL POLICY**

*2.1 Liquidation of Credits and Liabilities*

Monetary reimbursement occurs via a monetary instrument in the currency of the supplying nation, as payment for LSSS. The recipient is responsible for the total cost of the order, to include additional fees imposed by financial institutions for payment processing. Exchange/Replacement reimbursements, use RIK or EVE transfers as the means of repayment where equal value is the actual, estimated, or negotiated price at the time of order approval. Signatures of the recipient and the supplier for the terms of the agreement are required and constitute approval.

* 2.1.1. **Reimbursement Order Liquidation Method.** The reimbursement due date is 30 days from the date of invoice, demand letter, or notice of payment due; unless a specific due date is established by statute, contract provision, or notice of indebtedness Volume 16, Chapter 6, Paragraph 3.1. The bill is then distributed by the Component or by the Accounts Receivable Office (ARO) Volume 4, Chapter 3, Paragraph 3.4. Bills must be accompanied by the completed Form (usually, Form 1-3a generated in AGATRS), or document containing all minimum essential data elements, used to document the issue and receipt of supplies and services. Payment due date must not be more than 30 days from the date of the invoice, Chapter 1, Paragraph 2.3, unless terms of the ACSA agreement or Implementing Arrangement specify a different payment timeline. A payment extension of 30 to 120 days from the due date is permissible, if initiated by the recipient and based upon their processing capabilities, with mutual written agreement of all parties.

* 2.1.2. **Exchange/Replacement Order Liquidation Method.** Exchange/Replacement orders must be recorded and accrued in compliance with Generally Accepted Accounting Principles. Recorded Accounts Payables and Accounts Receivables related to the exchange of goods and services must be settled through the issue or receipt, as applicable, of the thing of equal value or replacement item, within 12 months of the original (initial) order date of delivery, or within 90 days of an agreed upon settlement conference documented via the authorizing signatory certifying authority to the ACSA agreement. If not settled within this period, the exchange/replacement order must convert to a monetary reimbursable order and then be settled according to Volume 16,
Chapter 6. The resulting accounts receivable or accounts payable must be liquidated, expeditiously, if possible. Upon conversion to a direct bill, any delinquency greater than 90 days will result in the termination of DoD support to the ACSA supported entity until delinquent orders are liquidated.

2.2 Prohibitions

2.2.1. Inventories of Supplies. Inventories of supplies for elements of the United States Forces must not be increased in anticipation of a request for support under the authority of, 10 U.S.C. Chapter 138, Subchapter I and DoD Directive 2010.09.

2.2.2. Prohibitions on Transfers. DoD Components, must not agree to or carry out: (1) transfers in exchange for property whose acquisition by DoD is prohibited by law; (2) transfers of source, byproduct, or special nuclear materials subject to the Atomic Energy Act of 1954 42 U.S.C. § 2011; or (3) transfers of chemical munitions.

2.2.3. Mandated Separation of Duties. Safeguards to ensure proper separation of Duties. Commands will ensure that proper safeguards are in place to include ensuring that a single individual performs only one of the following functions.

2.2.3.1. Initiation of the ACSA Order requirement;

2.2.3.2. Signing to Authorize the ACSA Order as the Logistics Officer;

2.2.3.3. Receipt, inspection, and acceptance of the ACSA supplies or services that are transferred with the Order; and

2.2.3.4. Signing the ACSA Order as the Finance Officer confirming disbursement of payment or acceptance of the re-imbursement payment.

2.3 Obligation and Earned Reimbursement Limitations

Apply the obligations and earned reimbursement limitations discussed below without regard to offsetting balances; that is, only the original gross values of sales and purchases are to be considered for purposes of the limitations. These limitations do not apply during periods of active hostilities involving the armed forces and are allocated by the Joint Staff.

* 2.3.1. Financial Obligation Recording. Duly appointed and trained financial personnel must record entries in the appropriate financial systems in accordance with DoDI 1300.26.

* 2.3.2. Authorized Personnel. Financial Personnel must have on a file a Department of Defense Form 577 (DD Form 577), appointing them to the role as the financial certifying official. Persons authorized as ACSA Signature Officials must have on file an official delegation memo from higher authority.
2.3.2.1. **Recording Obligations.** Within 10 days of an order authorization the corresponding obligation or reimbursable credit must be recorded in the appropriate financial system as prescribed in Volume 3, Chapter 8, Paragraph 3.3.

2.3.2.2. **Recording Accounts Payable (ACSA Monetary Buys).** Obligations (and any adjustments) must be established and recorded in the appropriate financial system for the amounts of orders placed and contracts awarded that will require payment as prescribed in Volume 10, Chapter 1, Paragraph 3.1 for the current or some future accounting period.

2.3.2.3. **Recording Accounts Receivable (ACSA Monetary Sales).** Amounts due to the DoD will be recorded as sales for the amounts of the orders that will establish a claim to cash or other asset as prescribed in Volume 4, Chapter 1, Section 4.0.

2.3.2.4. **Recording Accounts Payable (RIK/EVE Buys).** Recognize the liability when the DoD and the Partner nation complete the ACSA order. Record amounts in the appropriate financial system for the amount or negotiated amount of orders placed that may require payment as prescribed in Volume 4, Chapter 8, Paragraph 3.1 for the current or future accounting period.

2.3.2.5. **Recording Accounts Receivable (RIK/EVE Sales).** Amounts due to the DoD will be recorded in the appropriate receivables account in the financial system for the amount of orders regardless of the method of reimbursement, as prescribed in Volume 4, Chapter 4, Paragraph 5.4.

2.3.2.6. **Aging of Accounts Payable and Accounts Receivable:** Accounts Payable and Accounts Receivable will begin aging upon the acceptance and/or certification by both parties at the on-going reconciliation of support conferences. Until orders and settlement terms have been agreed to and certified, by both parties, Accounts Payables and Accounts Receivables will remain in a current non-delinquent 0-30 day category for financial reporting and management-monitored metrics.

2.3.3. **Department Level Obligation Naming Standard**

2.3.3.1. **Standard Format.** Within the respective Financial Systems, Services, Components and Agencies using the ACSA Acquire/Transfer process must establish, at the highest level, an ACSA identifier, more specifically a unique document type/entry code. This must be accompanied by a required field to document the AGATRS generated ACSA requisition number. In the absence of a unique document type/entry code, or in the interim during establishment, organizations will identify a free-text field for entry of a standard Department-wide format of the word “ACSA_” followed by the AGATRS generated ACSA Order Requisition Number. Example ACSA_JO-12345-001.

Example → ACSA (word)__AGATRS ACSA Order Requisition #

2.3.3.2. **Standard Format Tracking.** Services/Components/Agencies must communicate their accounting procedures, document type/entry code, in addition to their
respective field choice back to OUSD(A&S) and OUSD(C), and distribute to all subordinates for inclusion in all financial operating procedures regarding ACSA.

2.3.4. Obligation Limitations

2.3.4.1. Acquisitions from NATO Countries, NATO Subsidiary Bodies, the United Nations (UN) Organization or Any Regional International Organization. The total amount that may be obligated by DoD for reimbursable orders (purchases) with NATO countries, NATO subsidiary bodies, the UN Organization, or any regional international organization must not exceed $200 million during any fiscal year. Of the $200 million limitation, no more than $50 million in obligations may be incurred for the acquisition of supplies other than petroleum, oil, and lubricants (POL).

2.3.4.2. Acquisitions from non-NATO Member Countries. The total amount that may be obligated by the DoD for reimbursable orders (purchases) with a non-NATO member country (with which the United States has an acquisition or cross-servicing agreement) must not exceed $60 million during any fiscal year. Of the $60 million limitation, no more than $20 million in obligations may be incurred for the acquisition of supplies (materiel) other than POL.

2.3.5. Earned Reimbursement Limitation

2.3.5.1. Transfers to NATO countries, NATO subsidiary bodies, the United Nations Organization or Any Regional International Organization. The total amount of earned reimbursable credits (sales) to NATO countries, NATO subsidiary bodies, the UN Organization, or any regional international organization of which the United States is a member that DoD can accrue must not exceed $150 million during any fiscal year.

2.3.5.2. Transfers to Non-NATO Member Countries. The total amount of earned reimbursable credits (sales) to a non-NATO member country (with which the United States has an acquisition or cross-servicing agreement) that DoD can accrue must not exceed $75 million during any fiscal year.
2.4 Requests for Authorization to Use Limitations

Obligation/Earned Reimbursement Limitations are allocated by the Joint Staff. Each organization entering into reimbursable purchases or sales under ACSA, must request authorization. Requests must be accompanied by a justification, including a prioritization of requirements. The requests must be submitted to the cognizant CCMD through the requesting organization’s appropriate Component command. The authorizations do not increase the amount of obligatory or apportioned anticipated reimbursable authority, but rather allow use of existing budget authority to enter into purchases or sales under the authority of 10 U.S.C. § 2347. Requests must identify the categories of support as identified in figure B-1 in Appendix B.

*2.5 Waiver During Contingency or Non-Combat Operations

When United States Forces are involved in a contingency operation or non-combat operation (including an operation in support of the provision of humanitarian or foreign disaster assistance or in support of peacekeeping operations under Chapters VI or VII of the Charter of the UN), the restrictions in paragraphs 2.3 and 2.4 are waived for the purposes and duration of that operation.

2.6 Issuance of the Authorization

The cognizant CCMD must review and approve requests for authorization. If the total amount requested by all Component commands exceeds established limitations, the cognizant CCMD must review the justifications and make appropriate reductions to requested amounts as needed. Each cognizant CCMD must advise the Military Departments of authorizations distributed.
2.7 Distribution of Authorization Received

Upon receipt of an authorization from a CCMD, Component commands must authorize their activities to enter into reimbursable orders under 10 U.S.C. § 2342. No activity or unit may enter into such orders without proper authorization. Recipients of an authorization must establish procedures to ensure that authorized dollar amounts are not exceeded.

*2.8 Ratification of Unauthorized ACSA Orders

2.8.1. Ratification is the confirmation or adoption of an unauthorized act after the fact. Ratification, as used in this subsection, means the act of approving an unauthorized commitment by an official who has the authority to do so. An unauthorized commitment, as used in this subsection, can be procedural or funding related, or a mix of both. Procedural errors occur when the person who approved the ACSA order was not in possession of the required authority to approve the ACSA order. Funding errors occur when the funds required to cover the ACSA order are insufficient.

2.8.2. FAR Part 1.602-3 provides a useful guide on how to carry out ratification properly and avoid an ADA violation under 31 U.S.C. § 1341 and Volume 14, Chapter 3. The official with authority to ratify an ACSA order must work with the official’s corresponding legal office and Financial Manager(s) (to include those at Higher Headquarters) to determine if ratification is available and the best course of action. If ratification is deemed appropriate, the official authorized to ratify the ACSA order must use the process laid out by their component to answer the questions identified in this subparagraph and conduct an investigation to capture necessary documentation for adjudication/approval. Figure A-1, (APPENDIX A) the ACSA Ratification form, must be used to document and capture the questions.

2.8.2.1. Determine Why - The obligating party must document the reasons why the ACSA order was signed and why such an obligation is inappropriate.

2.8.2.2. Determine U.S. Benefit - Document the benefit(s) to the U.S. Government provided by ratification of the unauthorized commitments. Include the bona fide U.S. Government requirement necessitating ratification.

2.8.2.3. Remedial Corrective Actions - Describe all remedial corrective actions, disciplinary actions, or both that were taken; describe all action(s) taken to preclude recurrence.

2.8.2.4. Determine Measures for non-recurrence – Identify the measures undertaken to ensure that the obligating party and the foreign partner will not enter into such orders in the future.

2.8.2.5. Determine Funding Availability - Determine that (1) proper funding was available at the time the obligation was incurred and (2) proper funding remains available at the time of ratification.
2.8.2.6. Adjudication Approval Determination – Investigate and conduct resolution at the lowest level possible. If unable to resolve, elevate and work in conjunction with the Commander, Director, and Comptroller/Budget Officer in preparation for General Officer or SES assessment and requirement for Legal review. If unable to resolve, elevate to higher headquarters. For orders greater than $1 million, forward findings through command channels to Joint Staff (J4 and Comptroller) for adjudication and approval. If disapproved, reverse the ACSA order under the unauthorized transfer and return the LSSS to the original owning party or begin ADA violation investigation and reporting. (See Volume 14, Chapter 3, Section 2.0 for more information.)

3.0 ACCOUNTING FOR REIMBURSABLE LOGISTIC SUPPORT, SUPPLIES, AND SERVICES

3.1 Military Department (Appropriation Holder) Procedures

The Assistant Secretary (Financial Management and Comptroller) of a Military Service will record specifically apportioned reimbursable program authority at the appropriation level as specified in the apportionment document received from the OMB. Specifically, apportioned reimbursements are amounts earned and collected for property sold or services furnished under 10 U.S.C. § 2346. Within the Department, a reimbursement program must be authorized for the account by the Under Secretary of Defense (Comptroller), Program and Financial Control Directorate (P&FC) through the budget preparation process and included in the budget submission materials to Congress. Procedures for recording the authorization and tracking its use are contained in Volume 3, Chapters 13, 14 and 15. The allocation document forwarded to a CCMD will clearly differentiate between direct program authority and specifically apportioned reimbursable authority included in the funding document.

3.2 Unified Command (Allocation Holder) Accounting Procedures

Unified commands will ensure that controls are in place to track amounts of specifically apportioned reimbursable authority included in the funding documents (allotments) issued to installation commands and operating units.

3.3 Installation Command/Operating Unit (Allotment Holder) Procedures

Installation commands and operating units will record the receipt of an allotment containing specifically apportioned reimbursable authority, for which reimbursable orders must be placed, before the authority may be used. Procedures for recording the authorization and tracking its use are contained in Volume 3, Chapter 15. An allotment of anticipated reimbursable authority does not provide obligational authority. An allotment of anticipated reimbursable program authority provides the authority to accept reimbursable orders. The accepted reimbursable order provides the obligational authority. In the case of country-to-country agreements, reimbursable orders are those documents or forms specified in the agreement or amendments thereto.
4.0 REPORTS ON ACSA ORDERS

This section prescribes the requirement for the quarterly report required by DoDD 2010.09. This report is designed to advise the CJCS on reimbursable orders related to the purchase or sale of mutual logistics support, supplies, and services with a foreign entity.

4.1 Applicability and Scope

The reporting requirements apply to the Office of the Secretary of Defense; Military Departments; the CJCS; the CCMDs; and the Defense Agencies. Amounts reported as reimbursable orders must be supported by country-to-country or multinational agreements for mutual logistics support between the United States and the Governments of other NATO countries, NATO subsidiary bodies, UN Organization, any regional international organization of which the U.S. is a member, and other eligible foreign countries.

4.2 Report Format

The quarterly report must be prepared in the formats contained in figures B-2, B-3, B-4, and B-5, (See APPENDIX B). The CJCS may modify the report formats as the Chairman deems appropriate, as long as the revised formats meet the minimum information requirements.

4.3 Frequency and Distribution

The quarterly report must be submitted as follows:

4.3.1. No later than 15 days after the end of the preceding fiscal quarter, the commanders of the CCMDs must submit to the CJCS, a detailed report, by fiscal year, for each country-to-country or multinational order entered into under the authority of 10 U.S.C. Chapter 138, Subchapter I, that was in effect during the prior quarter, itemized by reimbursable order.

4.3.2. The Military Departments and Defense Agencies must assist, as necessary, the CCMDs in preparing the quarterly report.

5.0 OTHER REQUIREMENTS

*5.1 Acquisition & Cross-Servicing Agreement Global Automated Tracking and Reporting System (AGATRS)

AGATRS is the DoD system of record for the Joint Staff, CCMDs, and Services to manage ACSA orders. AGATRS is an unclassified, Web-based system that provides a worldwide automated means of building, tracking, and managing orders throughout their life cycle. AGATRS will be used to fully document all transfers of LSSS under ACSA authorities to meet the filing, tracking, and reporting requirements established in paragraphs 5.3 and 5.4. Refer to current versions of the CJCSI 2120.01 and DoDD 2010.09 for additional information and instruction regarding AGATRS use and responsibilities.
*5.2 Documentation Forms

Forms used to document the issue or receipt of supplies and services under the authority of 10 U.S.C. § 2342, are subject to a bilateral or multinational agreement. The DoD standard form for ACSA order/receipt/invoice is the Form 1-3a producible via AGATRS. For orders with NATO, the form found in the E-Library on the NATO Website, NATO Standardization Agreement 2034, “NATO Standard Procedures for Mutual Logistics Assistance” is often used. Any form used must include the following minimum information requirements.

5.2.1. Agreement and/or Implementing Arrangement: The ACSA identification number and, if applicable, IA identification number under which the Order is placed.

5.2.2. Date of Order Authorization (Day, Month, Year): Show the date (DD-MMM-YYYY) on which the order was signed by the authorized acceptance official.

5.2.3. Order or Requisition Number: Show the AGATRS system-assigned number unique to the specific order. This number is system-assigned based on ordering country/organization, Julian date, and document requisition number. For example, “AS-210131-003” would indicate the third order executed for Australian forces 31 January 2021.

5.2.4. Date and Place of Delivery: Delivery place and date of LSSS, or in the case of an Exchange Order, an agreed return date and place of replacement transfer. The date and place delivery of LSSS is required by the recipient. In the case of an Exchange Transaction, include an agreed date and place for delivery of the replacement LSSS.

5.2.5. Quantity and Description of Material/Services Requested: Quantity and description of LSSS requested, to include National Stock Number (NSN) of Materiel when applicable. In the event of an Exchange Order, list the replacement line items.

5.2.6. Unit of Issue: Unit of Issue, (also known as, Unit of Measurement) refers to the quantity of an item such as each, dozen, gallon, pound, ream, yard, etc.

5.2.7. Quantity Furnished: Number of units issued or received, as applicable.

5.2.8. Unit price: Monetary value of logistic supply or service, based on unit of issue, in the currency of the billing country.

5.2.9. Total Value of Furnished Line Item: Quantity furnished multiplied by unit price.

5.2.10. Total Order Amount: Monetary value of all furnished line items expressed in the currency of the billing country.

5.2.11. Currency of the Billing Country: Billing country is determined by which party provided LSSS.
5.2.12. Method of Reimbursement: Indicate whether the order is reimbursable by monetary instrument (cash, check or Electronic Funds Transfer (EFT)), RIK, or EVE.

5.2.13. Limitation of Government Liability: Show the maximum liability of the ordering/receiving organization.

5.2.14. Fund Citation or Certification of Availability of Funds: Show the funding source when advance payments are to be provided, or, if funding is not to be paid in advance, include a certification that funds are available. This should always occur prior to the U.S. receiving goods or services.

5.2.15. Authorized Ordering Official: Obtain and show name (typed or printed), signature (wet scanned, digital or graphic), and title of authorized ordering/requisitioning representative. Additional information on electronic processes and digital signatures is available in OMB Circular A-130, Appendix II.

5.2.16. Authorized Acceptance Official: Obtain and show name (typed or printed), signature (wet scanned, digital or graphic), and title of authorized acceptance representative per OMB Circular A-130, Appendix II.

5.2.17. Receiving Representative: Obtain and show name (typed or printed), title, organization, and signature (with date of signature) of individual acknowledging receipt and acceptance of LSSS per OMB Circular A-130, Appendix II.

5.2.18. Supplying Representative: Obtain and show name (typed or printed), title, organization, and signature (with date of signature) of individual acknowledging receipt, and acceptance of LSSS per OMB Circular A-130, Appendix II.

5.2.19. Designated Office Responsible for Payment: Name and mailing address of the office responsible to receive bill and submit monetary reimbursement for LSSS received. (Note: Not mandatory for exchange orders unless, failing proper replacement or return of LSSS, monetary remuneration is required.)

5.2.20. Designated Billing Office: Name and email or mailing address of the office responsible for preparing and delivering bills for LSSS provided. For U.S. acquisitions, must include the office responsible for making payment. This is not required for exchange orders unless monetary reconciliation is required.

5.2.21. Additional Special Requirements, if any: Examples include such special notations as transportation or special packaging. Show any additional needs of the receiving organization, if applicable.

5.3 Accounting for Funds and Reimbursements

Any organization receiving an authorization to incur obligations or receive reimbursements pursuant to authority in 10 U.S.C. § 2344 for an activity or unit for which it provides accounting
and finance support, must capture or obtain data on the use of this authority and must provide for the appropriate targets or limitations within the affected allotments. Similarly, receipt of the earned reimbursement authority requires the establishment of a customer order subsystem to capture data on the use of such authority. Source documents pertaining to the authorized dollar amount and its use, such as obligations (DoD undelivered orders for materiel or services and accrued expenditures based on receipt of the materiel or services ordered), disbursements (liquidation of unpaid accrued expenditures), accounts payable (the unpaid portion of accrued expenditures), accounts receivable (earned reimbursements), and collections (receipt of payment to liquidate accounts receivable) must be recorded promptly in the financial records. Accounting for reimbursable orders under these authorizations must be maintained within the appropriate accounting records to assure crediting of remittances in accordance with paragraphs 2.3, 5.1, and sections 6.0 and 7.0.

*5.4 Exchange Orders and History Files

Control over exchange orders must be established and maintained through use of an exchange order history file. Input to the history file must be made by submission of each individual order form which must include the minimum information prescribed in paragraph 6.2. AGATRS will be used to fulfill this purpose, ensuring compliance with DoDD 2010.09.

6.0 PRICING REIMBURSABLE ORDERS

10 U.S.C. Chapter 138, Subchapter I, authorizes two methods for pricing reimbursable orders. The method used is dependent upon the ability of the SECDEF to negotiate for the adoption of specific pricing principles for reciprocal application. Pricing procedures under each of the alternatives are set forth in paragraphs 6.1 and 6.2. Additional pricing information is found in Chapter 1 and Volume 15, Chapter 7, Paragraph 3.1.

6.1 Reciprocal Pricing Principles

When a reciprocal pricing agreement is negotiated between the U.S. and another authorized party, pricing by the supplying country must be in accordance with the following:

6.1.1. For new procurements, the price charged to a recipient country by the supplying country must be no less favorable than that charged the armed forces of the supplying country by its contractors. The price charged must allow for differentials due to delivery schedules, points of delivery, and other similar considerations.

6.1.2. For supplies from inventories of the supplying country, or for logistics support and government services, the supplying country must charge the recipient country the same prices as it charges its own armed forces for identical supplies or services. When the DoD is the supplier, the price charged must be identical to rates charged by the DoD Components for cross-service logistics support or services. Guidance on pricing such support or services is in Chapter 1. The DoD price to be charged is the price for type of sale "To Another DoD Component" as indicated in Chapter 1 and Chapter 4. Where a price for a particular product or service is not otherwise specified, agreement on a price should be reached prior to execution. Failing that, a “not to exceed
amount,” establishing the upper limits of the financial liability of the receiving party, must be established.

6.2 Nonreciprocal Pricing Principles

To the extent that a DoD Component cannot achieve mutual acceptance by another country of reciprocal pricing principles, or in the case of a NATO subsidiary body, the following procedures must apply:

6.2.1. U.S. commanders delegated authority to negotiate, approve, or execute orders pursuant to DoD Directive 2010.09 must determine that the price for acquiring supplies or services is fair and reasonable. This determination must be supported by a price analysis based on prior experience and supporting data, and consideration of all applicable circumstances. If this determination cannot be made, no purchases or sales must take place.

6.2.2. Any transfer of supplies or services by United States Forces must be subject to the pricing provisions of 10 U.S.C. § 2344.

7.0 DISPOSITION OF PROCEEDS

Any payment for materiel or services provided by United States forces and initially recorded as a sale order, must be credited to the appropriation or fund used in incurring the obligation. Payment for an order initially recorded as an exchange of materiel or services, but converted into a sale due to non-receipt of replacement materiel or services, must be credited to the appropriation or fund currently available for the same purposes for which the expenditures for materiel or services exchanged were made.

*8.0 DEBT COLLECTION ACTIONS

The DoD policy is to conduct timely and aggressive debt collection action, with follow-up efforts as necessary, to ensure debt owed to the DoD by a foreign entity is collected and held to an absolute minimum. All collection activity must be in compliance with the provisions of the applicable agreement between the DoD and the foreign entity, CJCSI 2120.01, and Volume 16, Chapter 6, which also contains elevations procedures for foreign indebtedness.

*9.0 DEFINITIONS AND ACRONYMS

*9.1 Acronyms

Provided to clarify acronym use, used in the context of ACSA.

ACSA - Acquisition and Cross-Servicing Agreement
ADA – Antideficiency Act
AGATRS - Acquisition and Cross-Servicing Agreement Global Automated Tracking and Reporting System
AOA – Acquisition only Agreement
ARO – Accounts Receivable Office
9.2 Definitions

Section provided to define terms used in the context of ACSA.

9.2.1. Accounts payable – Amounts owed to other entities for goods and services received (actual or constructive receipt), progress in contract performance, and rents due.

9.2.2. Accounts receivable – Amounts owed to the DoD for goods and services provided (actual or constructive), progress in contract performance, and rents from other entities.

9.2.3. Active Hostilities - The employment of offensive action and counterattacks to deny a contested area or position to the enemy in an environment resulting from an attack or other use of force against the United States, United States forces, or other designated persons or property to preclude or impede the mission and/or duties of United States forces, including the recovery of United States personnel or vital United States Government property, in which the host government forces do not have control of the territory and population in the intended operational area.

9.2.4. Acquisition – The act of obtaining ownership or benefiting from logistical support, supplies and/or services.

9.2.5. ACSA Global Automated Tracking and Reporting System (AGATRS) - The DoD system of record for the Office of the Secretary of Defense, Joint Staff, CCMDs, and Services to build, track, and manage ACSA orders for logistic support, supplies, and services. This system
also serves as the worldwide library for ACSAs and their associated Implementing Arrangements (IAs).

9.2.6. ACSA authorities - For the purposes of this instruction, the legal authorities conferred under 10 U.S.C. Chapter 138, Subchapter I (all Sections).

9.2.7. ACSA – Acquisition Cross-Servicing Agreement – See definition for Cross-servicing agreement.

9.2.8. ACSA Order – a legal instrument entered into under the authority of 10 U.S.C. § 2342.

9.2.9. Activities – An organizational unit of a Military component which performs a specific function.

9.2.10. Agreement - A negotiated and typically legally binding arrangement between parties as to a course of action in return for money or the reciprocal provisions of logistic support, supplies, and services by such government or organization to elements of the armed forces.

9.2.11. Allotment – Subdivisions of apportionments that are made by the heads of agencies, or their designee, to incur obligations within a prescribed amount. Subdivision and distribution of an allotment (e.g., sub-allotments and allocations to operating agencies or installation-level accounting activities) must contain at least the same legal and other limitations applicable to the original allotment. Such subdivisions and distributions may establish additional legal and other limitations applicable to execution of budgetary resources.

9.2.12. Acquisition only Agreement – A legal instrument entered into under the authority of 10 U.S.C. 2341.

9.2.13. Authorization – Approval or permission.

9.2.14. Bill – Notice of payment due, normally sent to the recipient of the LSSS as a reminder of the recipient’s debt. Need not be accompanied by the I-3a.

9.2.15. Bona Fide Need - Orders citing an annual or multiyear appropriation must serve a current need arising, or existing, in the fiscal year (or years) for which the appropriation is available for obligation.

9.2.16. CCMD - A unified or specified command with a broad continuing mission under a single commander established and so designated by the President, through the Secretary of Defense and with the advice and assistance of the CJCS. CCMDs typically have geographic or functional responsibilities.

9.2.17. Collections - Amounts received during the fiscal year. Collections are classified into two major categories: offsetting receipts (amounts deposited to receipt accounts) and
offsetting collections. Offsetting collections are receipts or credits credited to an appropriation or fund account.

9.2.18. Component - One of the subordinate organizations that constitute a joint force.

9.2.19. Contingency Operation - A situation requiring a sequence of tactical actions with a common purpose or unifying theme, or the carrying out of a strategic, operational, tactical, service, training, or administrative military mission in response to natural disasters, terrorists, subversives, or as otherwise directed by appropriate authority to protect United States interests.

9.2.20. Cross-Servicing Agreement – An international agreement, authorized by law, which allows for reciprocal provision of logistic support, supplies, and services on a reimbursement basis, specifically allowed by 10 U.S.C. §§ 2341 and 2342.

9.2.21. Disbursement – Amounts paid by Federal Agencies, by cash or cash equivalent, during the fiscal year to liquidate government obligations. “Disbursement” is often used interchangeably with the term “outlay.” In budgetary usage, gross disbursements represent the amount of checks issued and cash or other payments made, less refunds received. Net disbursements represent gross disbursements less income collected and credited to the appropriation or fund account, such as amounts received for goods and services provided. For purposes of matching a disbursement to its proper obligation, the term disbursement refers to the amount charged to a separate line of accounting.

9.2.22. DoD Component – The Office of the Secretary of Defense; the Military Departments; the organization of the Joint Chiefs of Staff; the CCMDs; the DoD Inspector General; the DoD field activities; and the Defense Agencies.

9.2.23. Electronic Funds Transfer (EFT) - The act of debiting or crediting accounts in financial institutions by wire rather than source documents, such as paper checks. Processing typically occurs through the Federal Reserve Bank clearing houses.

9.2.24. Exchange – Replacement of a reciprocal nature of logistic support, supplies or services with similar logistic support, supplies or services of equal value through either a RIK or an EVE transfer.

9.2.25. Implementing Arrangement - A supplementary arrangement that prescribes details, terms, and conditions to implement cross-servicing agreements effectively.

9.2.26. Invoice – A demand for payment with an accompanying 1-3a describing the transfer of the LSSS.

9.2.27. Non-Combat Operations - A military mission carried out as a result of a calamitous situation or catastrophic event that occurs naturally or through human activities, which threatens or inflicts human suffering on a scale that may warrant emergency relief assistance from the United States Government or from foreign partners: to directly relieve or reduce human suffering, disease, hunger, or privation; or to assist in the event of mass casualties, damage, or
disruption severely affecting the population, infrastructure, environment, economy, national morale, and/or government functions in the country or territory where the event occurred.

9.2.28. Obligations – Amount resulting from orders placed, contracts awarded, services received, and similar orders during an accounting period that will require payment during the same or a future period.

9.2.29. Offsetting Collections – Collections from Federal Government accounts or from orders with the public. The two major categories of offsetting collections are offsetting receipts (amounts deposited to receipt accounts) and offsetting collections credited to appropriation or fund accounts.

9.2.30. Order - A written request, in an agreed-upon format and signed by an authorized individual, for the provision of specific logistic support, supplies, and services pursuant to an acquisition or cross-servicing agreement, acquisition only authority agreement, or implementing arrangement with an approved foreign partner for LSSS on a reimbursable basis.

9.2.31. Participating non-NATO countries – The government of a country not a member of the North Atlantic Treaty Organization (NATO) which is designated by the Secretary of Defense (SECDEF) as a government with which the SECDEF may enter into agreements only after consultation with the Secretary of State to determine that such a designation for such purpose is in the interest of the national security of the United States., and notification of appropriate Congressional Committees of the intended designation, not less than 30 days before the date of official Secretary designation.

9.2.32. Ratification - The recognition or adoption of an unauthorized order, obligation or commitment, retroactively, by an official with proper authority after following a reconciliatory process.

9.2.33. Reciprocal – Consisting of or functioning in an even and mutually beneficial manner between two parties.

9.2.34. Reimbursements – Amounts earned and collected for property sold or services furnished either to the public or to another Federal accounting entity. To be an appropriation reimbursement, the collection must be authorized by law, for credit to the specific appropriation or fund account.

9.2.35. Transfer – Selling, Leasing, Loaning, or otherwise providing logistic support, supplies, and services pursuant to an ACSA subject to reciprocal reimbursement.

9.2.36. Undelivered Orders - The value of goods and services ordered and obligated that have not been received. This amount includes any orders for which advance payment has been made but for which delivery or performance has not yet occurred.

9.2.37. Unit – 1) Any military element whose structure is prescribed by competent authority; or 2) A quantity adopted as a standard of measure.
APPENDIX A: RATIFICATION OF UNAUTHORIZED COMMITMENTS

Figure A-1. Ratification Form

**ACSA RATIFICATION FORM FOR APPROVAL/RATIFICATION OF UNAUTHORIZED TRANSACTIONS**

*ACSA FMR Vol 11a Chapter 8*

This form is only for the Acquisition and Cross-Servicing Agreement (ACSA) Program and may not be used for ratifications of unauthorized commitments under the Federal Acquisition Regulation (FAR).

<table>
<thead>
<tr>
<th>Amount ($)</th>
<th>To ACSA Program Manager</th>
<th>Date of commitment (YYYYMMDD)</th>
</tr>
</thead>
<tbody>
<tr>

<td></td>
<td></td>
</tr>
</tbody>
</table>

For (item or service) | Committing unit or activity

**PART I — Description of Commitment and Unit Commander’s Review**

The individual making the unauthorized ACSA transaction will complete part I, section A, blocks 1 through 5; provide the required documentation; date, sign, and forward the form to his or her immediate supervisor who will complete part I, section A, blocks 5 and 7. The immediate supervisor will then forward the form to the appropriate individual (unit commander, director or activity chief, O6/GS15 equivalent) who will complete part I, section B. All information must be provided in detail with documentation attached.

Section A — Commitment Circumstances

1. Statement by individual who made the commitment and whether or not that person is an ACSA implementing and approving official (ACSA IAO):

2. Explain why ACSA procedures were not followed. For cash transactions, regulations require certification of funds and a counter-signed ACSA order before goods or services are provided.

3. Describe bona fide Government requirement necessitating the commitment.
4. Describe Government received benefits (State the value of the benefit and other pertinent facts.)

5. List and attach all relevant documents (Include statements of requirements, previous or draft ACSA order, invoices, and other evidence of the transaction.)

<table>
<thead>
<tr>
<th>Individual making unauthorized ACSA transaction</th>
</tr>
</thead>
<tbody>
<tr>
<td>Name, grade, and title</td>
</tr>
<tr>
<td>Date (YYYYMMDD)</td>
</tr>
<tr>
<td>Signature</td>
</tr>
</tbody>
</table>

6. Describe attempts to resolve unauthorized transaction (for example, cancelling transaction, returning merchandise, individual paying from personal funds)

<table>
<thead>
<tr>
<th>Financial Analyst verifying funds resolution attempts</th>
</tr>
</thead>
<tbody>
<tr>
<td>Name, grade, and title</td>
</tr>
<tr>
<td>Date (YYYYMMDD)</td>
</tr>
<tr>
<td>Signature</td>
</tr>
</tbody>
</table>

7. Comments of immediate supervisor of individual making unauthorized ACSA transactions:

<table>
<thead>
<tr>
<th>Supervisor</th>
</tr>
</thead>
<tbody>
<tr>
<td>Name, grade, and title</td>
</tr>
<tr>
<td>Date (YYYYMMDD)</td>
</tr>
<tr>
<td>Signature</td>
</tr>
</tbody>
</table>
### Section B — Commander, Director, or Activity Chief

Completed by unit commander, director, or activity chief (O6/GS15 equivalent). Complete blocks 1 through 4 and forward the form to the CCMD and MILDEP ACSA Program Manager, International Agreements Division, Office of the Deputy Chief of Staff.

1. Describe special remedial corrective action, disciplinary action, or both that were taken (Include a description of any administrative action to be taken or explain why no disciplinary action was considered necessary.)

2. Describe action taken to prevent recurrence of unauthorized ACSA transactions:

3. I have reviewed part I, section A, and verify that the information is accurate and complete, that the Government received a benefit and associated value from the subject transaction, and—

   - Concur with the subject transaction
   - Do not concur (explain nonconcurrency)

4. A completed purchase request and commitment form (from applicable system) has been prepared and is attached (required if ratification is recommended). The purchase request and commitment must specifically state that funds were available at the time the unauthorized ACSA transaction was made and are still available.

   - Yes
   - No

Name, grade, and title

Commander or director

Date (YYYYMMDD)

Signature

### Section C — Transactions in Excess of the Simplified Acquisition Threshold

5. For transactions in excess of the simplified acquisition threshold (currently $150,000), recommendation of the first general officer or Senior Executive Service (SES) equivalent in the chain of command.

   - Recommend approval
   - Recommend disapproval

Name, grade, and title

First General Officer or SES Equivalent in the Chain of Command

Date (YYYYMMDD)

VOLUME 11A, CHAPTER 9 “SUPPORT OF INTERNATIONAL MILITARY ACTIVITIES”

SUMMARY OF MAJOR CHANGES

Changes are identified in this table and also denoted by blue font.

Substantive revisions are denoted by a (*) preceding the section, paragraph, table, or figure that includes the revision.

Unless otherwise noted, chapters referenced are contained in this volume.

Hyperlinks are denoted by **bold, italic, blue and underlined font**.

The previous version dated January 2017 is archived.

CHAPTER 9

SUPPORT OF INTERNATIONAL MILITARY ACTIVITIES

1.0 GENERAL (0901)

1.1 Overview (090101)

This chapter assigns responsibilities and establishes guidance for the support of international organizations, and for providing reimbursable and nonreimbursable support.

1.2 Purpose (090102)

1.2.1. Establishes administrative arrangements, reimbursement and billing procedures, and identifies a method to compute the dollar value of credits due the U.S. for the support of international military activities.

1.2.2. Identifies the support that DoD Components can expect to receive from international military organizations and whether such support is on a reimbursable or nonreimbursable basis.

1.2.3. Establishes guidance for financing the U.S. contributions to and the receipt of credits from the international military organizations with which the U.S. participates.

1.2.4. Establishes guidance for paying U.S. personnel employed by international military organizations, and for verifying the credits received from the organizations for such personnel.

1.2.5. Does not apply to the provision of intelligence or cryptologic support provided under authorities other than those cited herein.

*1.3 Authoritative Guidance (090103)

The financial management policy and related requirements prescribed in this chapter are in accordance with the applicable provisions of the following sources:

1.3.2. 10 U.S.C. § 161, “Combatant commands: establishment”;

1.3.3. 10 U.S.C. § 164(3), “Commanders of combatant commands: assignment; powers and duties”;

1.3.4. 10 U.S.C. § 421(a), “Funds transfers for foreign cryptologic support”;

1.3.5. 10 U.S.C. § 2344(a), “Methods of payment for acquisitions and transfers by the United States”;
1.3.6. 10 U.S.C. § 2667, “Leases: non-excess property of military departments and Defense Agencies”;

1.3.7. 22 U.S.C. § 2751, “Need for international defense cooperation and military export controls; Presidential waiver; report to Congress; arms sales policy”;

1.3.8. 10 U.S. Code § 2801, “Scope of chapter; definitions”;

1.3.9. 10 U.S. Code § 2802, “Military construction projects”;

1.3.10. 22 U.S.C. § 2778(b)(2), “Control of arms exports and imports”;

1.3.11. 31 U.S.C § 1353, “Acceptance of travel and related expenses from non-Federal sources”;

1.3.14. DoDD 5015.02, “DoD Records Management Program”;

1.3.15. DoDD 5100.03, “Support of the Headquarters of Combatant and Subordinate Unified Commands”;

1.3.16. DoDD 5101.1, “DoD Executive Agent”;

1.3.17. DoD Instruction (DoDI) 1000.17, “Detail of DoD Personnel to Duty Outside the Department of Defense”;

1.3.18. DoDI 4000.19, “Support Agreements”;

1.3.20. DoDI 5530.03, “International Agreements”; and

1.3.21. Joint Travel Regulation
2.0  DEFINITIONS AND GUIDELINES (0902)

2.1  Military Department (090201)

Military Department refers to one of the departments within DoD created by the National Security Act of 1947 as amended (NSA 1947), which are the Department of the Army, the Department of the Navy, and the Department of the Air Force.

*2.2  Military Service (090202)

Military Service is established by NSA 1947 and refers to the Army, Navy, Air Force, Marine Corps and the Coast Guard when operating as a part of the Navy in accordance with law (see the definition of “Service” in the DoD Dictionary of Military and Associated Terms, June 2020, as amended).

2.3  Military Unit (090203)

Military Unit refers to any military element whose structure is prescribed by competent authority (see the definition of “Unit” in Joint Chiefs of Staff Publication 1 (JP 1).

2.4  Military Element (090204)

Military Element refers to any military organization formed to perform a specific function under a joint force commander’s headquarters (see the definition of “Element” in JP 1).

2.5  Nonreimbursable Support (090205)

The DoD provides nonreimbursable support to international military organizations in two forms: (1) through a financial contribution to the budget of the international organization, or (2) by assignment of U.S. military elements to the international organization under the terms of international treaties or agreements (see DoDI 5530.03). The U.S. military elements may be assigned either on a long or short-term basis.

2.5.1  Short-term assignments are typically for the purpose of participating in joint exercises or maneuvers under the auspices of the international organization.

2.5.2  Long term assignments typically involve filling an existing billet on the staff of an international organization.

2.5.3  Support under subparagraphs 2.7.1 and 2.7.2 are not reimbursable to DoD. An exception to this policy is the support by members of a U.S. military element who provide services that were included in the budget of the international organization (e.g., a U.S. Military member who occupies an international civilian billet). These costs are reimbursable (see section 4.0).
2.6 Reimbursable Support (090206)

All other support provided to the international military organization and to military elements of participating foreign countries is reimbursable to the performing DoD Component, and must be provided under one of the authorities described in paragraphs: 4.2, Arms Export Control Act (AECA); 4.3, NATO Mutual Support Act (NMSA); 4.4, Other than AECA and NMSA.

2.7 Support for U.S. Military Elements/Units (090207)

The U.S. military element of an international military organization is supported by the international organization and the administrative agent (see paragraph 3.3) on a nonreimbursable basis. The administrative agent must ensure support provided to the U.S. military elements of an international organization is equal in scope and quality to all organizations which it supports at a comparable location. Other U.S. military units in the area, including units of the administrative agent, also may receive support from the international organization, but on a reimbursable basis. The Military Department concerned and the international organization will execute a support agreement between them when those military units receive support.

2.8 Table of Distribution and Allowance (090208)

Tables of distribution and allowance (TDA) refer to a military unit that is organized to perform unique missions for which a TO&E does not exist. A TDA may contain combinations of military, civilian and contractor man year equivalent positions.

2.9 Table of Organization and Equipment (TO&E) (090209)

A TO&E is comprised of military personnel and refers to the capabilities, organizational structure, and required personnel and equipment for a military unit to accomplish its mission.

3.0 RESPONSIBILITIES (0903)

3.1 Under Secretary of Defense (Comptroller) (090301)

The Under Secretary of Defense (Comptroller) provides financial policy with regard to support agreements and designates the administrative agent responsible for arranging support to U.S. military elements at an international military organization. Geographic proximity to existing support infrastructure and mission compatibility is the primary criteria used to assign administrative agent duties. Current designations are provided in Table 9-1. The Military Services must request updates to this table as needed to reflect changes in available support infrastructure within a geographic area.
3.2 Secretaries of the Army and the Air Force (090302)

3.2.1. The Secretary of the Army must program and budget the annual U.S. contributions to the various NATO bodies in the Army Operations and Maintenance (O&M) appropriation.

3.2.2. The Secretary of the Army must program and budget for the annual U.S. contributions to other recognized multinational headquarters, such as the NATO Force Structure and the NATO Response Force in which the U.S. participates.

3.2.3. The Secretary of the Air Force must budget for the NATO Airborne Early Warning Program Management Agency (NAPMA).

3.3 Administrative Agent (090303)

The administrative agent must:

3.3.1. Budget for the U.S. contributions to designated non-NATO international military organizations. When the Army is not the administrative agent for a NATO body, or other multinational headquarters, the designated agent will provide the Army with program and budget information on the annual contribution for inclusion in the Army’s O&M appropriation. Budgeting for the NAPMA constitutes an exception to this policy (see subparagraph 3.2.3.).

3.3.2. Coordinate with appropriate U.S. representatives at the international military organizations to ensure that effective procedures and controls are prescribed for budgeting, obligating, disbursing, and receiving credits incident to administering the U.S. contributions.

3.3.3. Program and allocate resources in a manner that will provide the international organization with the highest possible level of support under paragraphs 4.2, 4.3, and 4.4 consistent with financial constraints that may be imposed through the normal program and budget process.

3.3.4. Support U.S. military elements attached to the designated international military organization on a nonreimbursable basis, unless the support is an international budget cost or is a budget responsibility of another Military Department (see paragraph 3.4). The standards and directives of the administrative agent govern the level and type of support furnished. The level and type of support will be consistent with the highest possible level of support allowable under this chapter while not violating those same governing standards and directives. Support requirements based upon input provided by the U.S. military element are included in the administrative agent’s annual budget. The administrative agent is required to obtain support from the most efficient and economical source, to include local sources, while ensuring that no parallel support facility is established (see DoDI 4000.19).

3.3.5. Provide U.S. military elements, which are TO&E or equivalent units, with replacement consumable and nonconsumable material, obtaining peculiar items when necessary from supply systems of the parent Military Service on a reimbursable basis.
3.3.6. Provide U.S. military elements, which are TDA or equivalent units, both with initial and replacement consumable and nonconsumable material.

3.3.7. Establish table of allowances, unit allowance lists, base allowance lists, and other authorization documents for U.S. military elements attached to the international military organization.

3.3.8. Budget for the cost of civilian employees of the U.S. Government assigned to positions in international military organizations. These employees retain their status as U.S. employees and are paid from U.S. funds at the appropriate U.S. scale of pay and allowances.

3.3.8.1. The pay and allowances are budgeted at the appropriate international pay scale by the international military organization to which they are assigned. A sum equal to the amount of such pay and allowances at the international pay scale must be collected from the international organization and reflected in the reimbursable portion of the DoD budget. The DoD direct budget must absorb any differences.

3.3.8.2. The U.S. civilians who occupy positions in international military organizations on a direct hire basis (not as U.S. Government employees), as provided for by DoDI 5210.60, will be governed by the provisions of that firm offer of employment and other applicable U.S. Government regulations that deal with such employment. The international military organization concerned will remunerate those U.S. civilians at the applicable international pay scale; however, these U.S. civilians will not be entitled to the same pay and allowances or benefits as those of U.S. Government employees.

3.4 Secretaries of the Military Departments (090304)

The Secretaries of the Military Departments with military personnel assigned to a U.S. military element must:

3.4.1. Budget and fund for personnel costs of military personnel of that Component included in the U.S. military element.

3.4.2. Budget and fund for personally assigned equipment provided to military personnel of that Component included in the U.S. military element.

3.4.3. Make initial issuance to TO&E or equivalent units of that Component assigned or attached to U.S. military elements.

3.4.4. Budget and fund Component peculiar requirements, such as flying qualifications, medical examinations, personnel training and development, and social actions, for military personnel of that Component.

3.4.5. Support other requirements. Costs are chargeable to the administrative agent on an interservice (reimbursable) basis.
3.4.6. Provide appropriate support to foreign military elements or to international military organizations in accordance with paragraphs 4.2, 4.3, or 4.4, herein, unless identified in this chapter as items of nonreimbursable support.

3.5 Head of a U.S. Military Element (090305)

The Head of a U.S. military element must support the international military organization on a nonreimbursable basis, except for the costs of a military member who is assigned to an international civilian position, or when such support requires augmentation of the element’s normal manpower, equipment, or other resources from other U.S. sources.

*3.6 Head of a DoD Component (090306)

The Head of a DoD Component must:

3.6.1. Support the international military organization and participating foreign countries on a reimbursable basis, in accordance with the AECA or the NMSA unless otherwise specified in this chapter.

3.6.2. Ensure the use of appropriate internal controls and oversight measures (e.g., support agreements manager assignments) and documentation of reimbursable support agreements to support financial audits, in accordance with DoDI 4000.19 and DoDD 5015.02.

3.7 Commander of a Unified Combatant Command (090307)

The Commander of a Unified Combatant Command must coordinate the activities of the administrative agents concerned in implementing this chapter within the command theater of operations.

3.8 Head of an International Military Organization (090308)

The Head of an International Military Organization must support U.S. military elements on a nonreimbursable basis for those support areas set forth in the scope of the budget for international military headquarters and agencies (see Table 9-1).

4.0 REIMBURSEMENTS (0904)

4.1 Reimbursements Due the U.S. from International Military Organizations for U.S. Personnel (Military or Civilian) Occupying International Civilian Positions. (090401)

4.1.1. A sum equal to the pay and allowances established for the occupied positions at the international scale must be credited to the U.S. as an offset to the U.S. contribution to the international organization.
4.1.1.1. The administrative agent must determine the amount of credit due and initiate a quarterly Standard Form (SF) 1080, Voucher for Transfers between Appropriations and/or Funds, to transfer funds from the U.S. contribution to the international budget to the applicable financing DoD appropriation.

4.1.1.2. As an exception to this offset credit procedure, international military organizations located in the continental U.S. (CONUS), to which contributions are made in U.S. dollars, must make direct reimbursement of the international pay and allowance equivalent to the administrative agent for any U.S. personnel assigned to international civilian positions.

4.1.2. The administrative agent must screen the personnel administration and payroll computations for U.S. employees, as performed by the international organization, to ensure the accuracy and sufficiency of data and credits granted.

4.2 Reimbursements Due the U.S. from International Military Organizations for Reimbursable Support Provided Pursuant to the AECA. (090402)

When DoD services are performed, articles delivered from inventory or new procurement initiated under the authority of the AECA, the pricing and billing must be in accordance with Volume 15.

4.3 Reimbursements Due the U.S. from International Military Organizations for Reimbursable Support Provided Pursuant to NMSA. (090403)

When DoD services are performed or articles delivered from inventory under the authority of the NMSA, pricing must be in accordance with Chapter 8 and billing must comply with the international agreement negotiated in accordance with DoDD 2010.09.

4.4 Reimbursements Due the U.S. from International Military Organizations for Reimbursable Support Provided Under Authorities Other than the AECA, NMSA or this Regulation. (090404)

4.4.1. Leases of real and personal property are authorized by Title 10, U.S.C. section 2667 and must be priced in accordance with Volume 2B and Volume 12. Property with a life expectancy of less than 3 years or a value of less than $1,000 and provided under the authority of the AECA (paragraph 4.2) or NMSA (paragraph 4.3) must be provided on a sales basis. In the event that DoD services or materiel are provided under authorities other than the AECA, NMSA or this Regulation, the DoD Component providing that support must obtain a legal opinion supporting the use of such other legal authority before providing the service or materiel. The legal opinion must be retained for audit verification.
4.4.2. The designated official of the DoD Component furnishing the support must:

4.4.2.1. Originate promptly and in detail an SF 1080 to bill the administrative agent or the designated coordinating agent.

4.4.2.2. Prepare the invoice for reimbursable support on the basis of constructive delivery.

4.4.2.3. Distribute the SFs 1080 as follows:

4.4.2.3.1. Submit two copies of the SF 1080, with supporting detail, to the international military organization receiving the services or materiel for verification of the charge.

4.4.2.3.2. Forward the original (disbursement SFs 1080) and the collection copy (SF 1080), without supporting detail, to the administrative agent or the designated coordinating agent.

4.4.2.3.3. Retain additional copies, with supporting detail as may be required by the billing office, pending receipt of executed vouchers.

4.4.3. The administrative agent or the designated coordinating agent must (1) request that the comptroller of the NATO command or the appropriate international organization concerned provide a monthly listing of charges that have been accepted, and (2) ensure that such charges are reflected as offset credits to the U.S. in the contributions to the international budgets.

4.4.4. The coordinating agent must match the monthly listing of accepted charges with outstanding SFs 1080, and process the SFs 1080 for accepted charges as payments to the billing office. Upon receipt of the validated SFs 1080, the billing office must process the collection.

4.4.5. The designated coordinating agent must verify that the offset credits are applied to the U.S. contributions to the international organization through a reconciliation of individual SF 1080 billings to the monthly list of accepted charges.

4.4.6. When materiel or services are furnished to international military organizations that are located within the CONUS and contributions are made in U.S. dollars, the U.S. military activity providing the support is responsible for billing the international military organization directly, and obtaining reimbursement in U.S. dollars.
5.0 SCOPE OF BUDGET FOR INTERNATIONAL MILITARY HEADQUARTERS AND AGENCIES (0905)

The international budget includes the types of costs, except as limited by exclusions in the following paragraphs, in such order and form as may be determined by the appropriate financial reviewing authorities. The following paragraphs are illustrative of the types of costs accepted by the NATO Military Budget Committee as an international charge. The comptroller of the international military organization concerned and the U.S. representative must be consulted if there is doubt whether the cost of any article or service is properly an international charge.

5.1 Civilian Personnel, Administrative Staff (090501)

Pay and authorized allowances of personnel employed by an international headquarters for the performance of international functions, including secretarial, clerical, or technical assistance. For U.S. military and civilian personnel, see paragraph 4.1.

5.2 Civilian Personnel, Operational Staff (090502)

Pay and authorized allowance of personnel locally hired for custodial, industrial, or operational purposes. This includes upkeep of the premises and fixed or movable equipment used by the headquarters or its support units or fixed installations; supervision or operation of headquarters’ fixed and movable equipment other than office equipment; and operation of headquarters enlisted mess facilities.

5.3 Rents and Maintenance (090503)

Rental of office space, barracks, warehouses, and other commercial type buildings, including taxes; cost of utilities, liquid and solid fuels, sewage and garbage disposal service; supplies and material for janitorial and hygienic services (national support unit barracks excluded); and supplies, material, and contractual expenses for maintenance, repair, and minor alterations to buildings and facilities, including replacement of minor installations and fixed equipment when damaged or worn beyond repair.

5.4 Operation of General Services (090504)

Stationary and general office supplies for the headquarters and all units assigned in direct support; rental of office equipment required to supplement available equipment in accordance with internationally approved standards; printing, binding, and reproduction; purchase of maps, charts, and terrain models for peace time use; newspapers, periodicals, and library supplies; photo supplies and photographic processing; and drugs and other expendable medical supplies for first aid stations.
5.5 Communications (090505)

Procurement and installation of switchboards, radio transmitters and receivers, telephone exchanges, and mobile communications equipment including related signal vehicles; rental of commercial type equipment for additional requirements; repair and maintenance of communications equipment, including supplies and spare parts; cost of commercial communications, including installation and reinstallation charges for leased or other use of local, national, and international telephone, telegraph, and teletype circuits; and postage and postal fees.

5.6 Transportation (090506)

Rental or purchase of passenger and cargo vehicles; petroleum, oil, and lubricant products for such vehicles and other equipment used in direct support of international headquarters; supplies and spares required for organizational maintenance of vehicles and related equipment; commercial freight, local hauling, and express charges for internationally procured supply and equipment items, including shipping charges for contribution-in-kind from member nations to place of receipt.

5.7 Travel of International Staff (090507)

5.7.1. Civilian Personnel. Transportation and per diem costs of temporary duty travel on official business.

5.7.2. U.S. Military Personnel. When traveling on official business under travel orders issued by an authorized international headquarters that directs payment to be charged to international funds, the costs of such travel are payable as follows:

5.7.2.1. From International Funds. Cost of transportation furnished by Military Airlift Command and/or a common carrier, to include taxi fares and privately owned conveyances under previously approved conditions.

5.7.2.2. From U.S. Appropriated Funds. Per diem and other expenses authorized by U.S. travel regulations, and the costs under subparagraph 5.7.2.1, for personnel who are members of an international military headquarters that does not maintain a centralized international budget for such purposes.
5.8 Exercises and Maneuvers (090508)

When directly related to an allied command training exercise, the cost of commercial communication services and facilities provided solely to fill a requirement of the exercise on behalf of the participating nations; civilian labor hired in connection with the exercise by the interallied headquarters and not specifically for any one nation; temporary installations for interallied field headquarters not available from organic equipment of participating troops or the headquarters and not properly chargeable to the host nation; rental of additional commercial transportation required at interallied headquarters for the exercise; utilities costs for interallied headquarters if at a place other than an existing military post; and reproduction of photographs and film strips, required by the directing staff for subsequent international training or critique purposes, when source of production is other than a military unit.

5.9 Representational and Hospitality (090509)

Representational and hospitality expenses of the Supreme Commanders for international purposes.

5.10 Contingencies (090510)

Claims for losses by fire, theft, and other damages; and costs to employ legal representation in civil court actions.

5.11 Construction (090511)

Design and new construction of buildings and facilities, including housing, structures, utilities, modification; and alteration of existing buildings and facilities, including fixed equipment, sewage, gas, water, and electrical supply systems, roads, and approaches.

5.12 Furniture and Equipment (090512)

Office furniture and equipment procured within internationally approved standards for the direct support of international headquarters and agency activities; equipment for maintenance of kitchens, shops, heating electrical plants; and furniture used in barracks, messes, recreation rooms, and dining rooms and clubs.

FINANCIAL MANAGEMENT REGULATION

CHAPTER 10: "ARCHIVED"

UNDER SECRETARY OF DEFENSE
(COMPTROLLER)
VOLUME 11A, CHAPTER 11: “SPECIAL OR TECHNICAL SERVICES TO STATE AND LOCAL GOVERNMENTS”

SUMMARY OF MAJOR CHANGES

Changes are identified in this table and also denoted by blue font.

Substantive revisions are denoted by an asterisk (*) symbol preceding the section, paragraph, table, or figure that includes the revision.

Unless otherwise noted, chapters referenced are contained in this volume.

Hyperlinks are denoted by bold, italic, blue, and underlined font.

The previous version dated April 2013 is archived.

CHAPTER 11

SPECIAL OR TECHNICAL SERVICES TO STATE AND LOCAL GOVERNMENTS

1.0 GENERAL (1101)

1.1 Purpose (110101)

The purpose of this chapter is to provide the policy for sale of special or technical services to both state and local governments, and also provide guidance on amounts that must be recouped when the Department of Defense (DoD) Components perform these services. Overarching legal authority to sell to state or local governments is not provided in this chapter because specific legal authority must be identified to make such sales. This guidance supplements the standards for financial accounting for receivables, and budgetary accounting for reimbursements, discussed in Volume 4, Chapter 3 and Volume 3, Chapter 15.

*1.2 Authoritative Guidance (110102)

The financial management policy and related requirements promulgated throughout this chapter are in accordance with the applicable provisions of:

1.2.2. Title 31, United States Code, Section 6505 (31 U.S.C. § 6505), “Authority to provide specialized or technical services.”

2.0 POLICY AND REPORTING (1102)

2.1 Policy Requirements (110201)

It is the policy of the Department to cooperate to the maximum extent possible with state and local governments to provide specialized or technical services. Such services generally must supplement and not supplant any services provided under other authority.

2.1.1. Pricing. Specialized or technical services to state and local governments must be priced as a sale to private parties at the full costs to the Department. General rules on determining amounts to be reimbursed vary as there are several categories with applicable guidance to follow when determining amounts to be collected. Components may also use guidance found in other sources as applicable. Refer to Chapter 1 for more details.

2.1.2. Disposition of Proceeds. Payments received by DoD Components for providing service must be deposited to the credit of the appropriation or account from which the costs of providing the services have been paid or are to be charged. Unfunded portions of the costs of such services must be deposited to the U.S. Treasury as miscellaneous receipts.
2.2 Types of Services (110202)

* 2.2.1. The following are specialized or technical services that may be provided.

2.2.1.1. Any existing statistical or other studies and compilations, development projects, results of technical tests and evaluations, technical information, surveys, reports, documents, and any such materials which may be developed or prepared in the future to meet the needs of the federal government or to carry out a DoD Component’s normal responsibilities.

2.2.1.2. Preparation of statistical or other studies and compilations, development projects, technical tests and evaluations, technical information, surveys, reports, documents, and assistance in the conduct of such activities, and in the preparation of such materials, provided they are similar to those that the DoD Component is authorized by law to conduct or prepare.

2.2.1.3. Training of the type that the DoD Components are authorized by law to conduct for DoD personnel.

2.2.1.4. Technical aid in the preparation of proposals for development and other projects, for which the DoD Components provide grants-in-aid or other assistance, provided such aid primarily develops recipients’ capability to prepare their own proposals.

2.2.1.5. Technical information, data processing, communications and personnel management systems services, and technical advice on improving logistical and management services that the DoD Components normally provide the DoD for themselves or others under existing authorities.

2.2.2. Any of the specialized or technical services provided by a DoD Component to states and their political subdivisions under other authorities also may be provided under the authority of OMB Circular No. A-97.

2.2.3. If a DoD Component receives a request for specialized or technical services that is not covered in 2.2.1, but that is consistent with the OMB Circular No. A-97, and which the Component has a special competence to provide, the Component must forward the request to the Assistant Secretary of Defense (Sustainment) (ASD(S)) for submission to OMB for review. If there is doubt whether the service requested is covered, the Component should forward the request to the ASD(S) for review.

2.3 Conditions Under Which Services May Be Provided (110203)

Specialized or technical services covered under OMB Circular No. A-97 may be provided at the discretion of the DoD Component head only under the following conditions:

2.3.1. Such services must be provided only to states, their political subdivisions, and combinations or associations of such governments, their agencies, and instrumentalities.
2.3.2. Such services must be provided only upon the written request of a state or its political subdivision. Requests normally must be made by the chief executive of such entities and must be addressed to the head of the DoD Component involved.

2.3.3. Such services may not be provided unless the servicing DoD Component maintains similar services for its own use under the policies and procedures set forth in OMB Circular No. A-76, “Performance of Commercial Activities”, and subsequent changes thereto. In addition, in accordance with the policies set forth in OMB Circular No. A-76, the requesting entity must certify that such services cannot be procured reasonably and quickly through ordinary business channels.

2.3.4. Such services may not be offered if they require any staff additions or involve expenditures for additional equipment or other facilities solely for the purpose of providing such services, except when the costs of such services are charged to the user.

2.3.5. Such services must be provided only upon payment or arrangement for reimbursement to the DoD Component involved by the unit of government making the request. This includes salaries and all other identifiable direct and indirect costs of performing such services.

2.3.6. Technical information provided in accordance with this chapter may not be disseminated further to third party governmental entities or associations, unless expressly authorized by the originating DoD Component.

2.3.7. If a request for a service is denied, the DoD Component must furnish a statement to the entity making the request indicating the reasons for the denial.

*2.4 Reporting Requirements (110204)

The head of each Federal agency will furnish annually to the respective Committees of the Senate and the House of Representatives a summary report on the scope of the services provided under OMB Circular A-97. These reports will be prepared as of the end of each calendar year, and will indicate the nature of the services rendered, the names of the States and political subdivisions involved, and the cost of the work. Services provided under other authorities are not to be included in the reports.
## SUMMARY OF MAJOR CHANGES

Changes are identified in this table and also denoted by blue font.

Substantive revisions are denoted by an asterisk (*) preceding the section, paragraph, table, or figure that includes the revision.

Unless otherwise noted, chapters referenced are contained in this volume.

Hyperlinks are denoted by bold, italic, blue and underlined font.

The previous version dated July 2013 is archived.

1.0 GENERAL (1201)

*1.1 Overview (120101)

The Major Range and Test Facility Base (MRTFB) is a national asset which is sized, operated, and maintained primarily for Department of Defense (DoD) test and evaluation support missions, but also is available to non-DoD users having a valid requirement for its capabilities. The MRTFB is operated and maintained primarily for DoD test and evaluation support missions under the oversight of the Director, Test Resource Management Center (TRMC). The MRTFB is managed and operated to provide test and evaluation support to the DoD Components responsible for developing or operating weapons systems. They are also available to Federal, state, local, and allied foreign governments as well as commercial users when a valid requirement for range capabilities exists. MRTFB missions vary from testing missiles and aircraft to ensuring that electrical components can survive in various environments. The MRTFB is designed to assure the most cost-effective development and testing of materiel, and provide for inter-Service compatibility, efficiency, and equity without influencing technical testing decisions or inhibiting legitimate and valid testing.

1.2 Purpose (120102)

This chapter provides reimbursable policy for DoD MRTFB. This chapter does not apply to the commercial space launch activities of the 30th and 45th Space Wings contained in Chapter 13. Additionally, this chapter does not apply to the sale of samples, drawings, information, equipment, and certain services contained in Chapter 14.

*1.3 Authoritative Guidance (120103)

1.3.1. DoD Directive (DoDD), Number 3200.11, “Major Range and Test Facility Base (MRTFB)”’. This Directive realigns the policy and responsibilities for the MRTFB.

1.3.2. DoD Instruction (DoDI), Number 3200.18, “Management and Operation of the Major Range and Test Facility Base (MRTFB)”. This Instruction implements policy and assigns responsibilities for the management and operation of the MRTFB.

1.3.3. Title 10, United States Code (U.S.C), section 2208. Sections 2208(a)(2) and 2208(o) of Title 10 provide authority to the Secretary of Defense to establish working-capital funds (WCFs) to provide working capital for activities that provide common services across DoD and to other persons outside DoD when authorized by law.

1.3.4. 10 U.S.C. § 2681. Section 2681 of Title 10 authorizes the Secretary of Defense to enter into contracts with commercial entities that desire to conduct commercial test and evaluation activities at a MRTFB.
DEFINITIONS (1202)

The following terms and definitions are provided for the purposes of this chapter:

2.0.1. **MRTFB.** The designated core set of DoD Test and Evaluation (T&E) infrastructure and associated workforce that must be preserved as a national asset to provide T&E capabilities to support the DoD acquisition system.

2.0.2. **MRTFB Activity.** Organizational command element of a DoD Component responsible for managing MRTFB capabilities and resources.

2.0.3. **Non-DoD Component Users.** Federal, state, or local government agencies; allied foreign governments; defense contractors; commercial entities, and private organizations.

2.0.4. **Direct Costs.** Direct costs are those costs that are directly attributable to the use of the facility or resource for testing under a particular program. DoD Component users must reimburse MRTFB activities for direct costs readily identifiable with a particular program. Chargeable direct costs include labor, contract labor (which includes a portion of general and administrative (G&A) expense and overhead), material, minor construction, utilities, equipment, supplies, items damaged or consumed during testing, and any resource or item maintained for a particular program. Direct costs must be billed in accordance with Chapter 1 and must be identified to a job or function served in support of a customer order.

2.0.5. **Indirect Costs.** Indirect costs are overhead costs of the MRTFB activities and are not to be charged to DoD Component users. Indirect costs are defined as the costs of maintaining, operating, upgrading, and modernizing the facility or resource. Indirect costs do not include any incremental costs of operating the facility or resource that are directly attributable to the use of the facility or resource for specific testing under a particular program. The following are examples of types of indirect costs, although the list is not all inclusive:

2.0.5.1. General administrative services, security, rent, operating and maintenance costs for buildings, equipment, and utilities;

2.0.5.2. Preventative and usage maintenance;

2.0.5.3. Cost of leases, except when the cost of the lease can be directly associated with a specific customer and the appropriation is available to fund the leases;

2.0.5.4. Upgrade or modernization of an MRTFB facility, not expressly needed for testing for a specific customer;

2.0.5.5. Routine calibration of instruments;

2.0.5.6. Maintenance and repair of shop machinery; and

2.0.5.7. Replacement of obsolete equipment.
*3.0 RESPONSIBILITIES (1203)

The following responsibilities were established in DoDD 3200.11 and DoDI 3200.18 and specifically represent the financial management responsibilities of MRTFB operations.

3.1 Under Secretary of Defense (USD) Acquisition, Technology and Logistics (AT&L) (120301)

USD AT&L, specifically the Director, TRMC will:

3.1.1. Review and provide oversight of proposed DoD budgets and expenditures for the MRTFB; and

3.1.2. Coordinate MRTFB decisions affecting financial policy and matters containing a monetary value (financial and non-financial) with the Under Secretary of Defense (Comptroller).

3.2 DoD Chief Information Officer (CIO) and the Secretaries of the Military Departments (120302)

DoD CIO and the Secretaries of the Military Departments will:

3.2.1. Plan, program, and budget for institutional costs of operation, maintenance, and sustainability of the MRTFB; and for capability improvements, modernization, and recapitalization; and

3.2.2. Implement a reimbursement system to define and collect user charges in accordance with Volume 11A, Chapters 1 and 4.

3.3 MRTFB user(s) (120303)

MRTFB user(s) will:

3.3.1. Plan, budget, and fund the MRTFB activities for applicable direct and/or indirect costs; and

3.3.2. Promptly fund the activity managing the MRTFB facility or range for any damage to property or equipment caused by the user in the preparation for, or conduct of, any activity on the facility or range or for direct costs incurred for aborted or canceled tests.
4.0 POLICY (1204)

*4.1 General (120401)

The MRTFB must be managed and operated under uniform financial guidelines across the DoD Components. Accordingly, all direct and indirect costs charged to MRTFB users must be uniform and applied consistently among all the MRTFB activities. DoD Components must work with the Director, TRMC to ensure financial uniformity and consistency. All costs incurred by MRTFB activities must be billed to one of the following sources: (1) MRTFB users (customers), (2) direct appropriations of the managing activity, or (3) other sources as directed by DoD.

*4.2 MRTFB Users (Customers) (120402)

A MRTFB may be used by DoD Component users (including DoD training users) and Non-DoD Component users. The type of user or customer determines the total amount charged to the user and whether they are charged only direct costs or direct costs plus an appropriate level of indirect costs.

*4.3 Accounting (120403)

4.3.1. Cost information is an important basis in setting user fees and reimbursements. Each MRTFB activity must accumulate and report as required, the costs of its activities for management and audit purposes. In accordance with the Statements of Federal Financial Accounting Standards 4: “Managerial Cost Accounting Standards & Concepts”, costs must be accumulated through the use of cost accounting systems. Such systems or techniques must be able to accurately capture full costs (i.e., direct costs or costs directly attributed to a specific user; and indirect costs or costs that cannot be directly attributed to a specific user) and more importantly, be used to determine accurate user charges or standard rates under agreements entered into pursuant to Chapter 1 and DoD Instruction (DoDI) 4000.19, “Support Agreements”. Additionally, appropriate separation of duties and levels of authorization must be implemented into the cost-tracking process to protect vulnerable areas such as controls over automatic user billing and rate validation. All rates must be applicable to the specific product or service provided. Each MRTFB activity must validate standard rates at least annually and adjust them accordingly to reflect unanticipated changes in costs or market values.

4.3.2. In accordance with DoDD 3200.11, MRTFB activities are categorized as Army, Navy, Air Force, or DoD CIO. Specifically, MRTFB activities are comprised of multiple assets, each of which is reported individually on its respective consolidated Balance Sheet under General Property, Plant, and Equipment and further disclosed in Note 10 to the financial statements.
4.4 Reimbursements for MRTFB Activity Usage (120404)

In accordance with DoDI 4000.19, MRTFB activities and DoD or Non-DoD Federal Component users must use support agreements (memorandums of agreement or understanding) to document and establish the General Terms and Conditions (GT&Cs) between buyers and sellers for all inter- and intra-governmental reimbursable transactions. Additionally, in accordance with Volume 1, Chapter 4, buyers and sellers must ensure the Standard Line of Accounting is adhered to and properly annotated when generating or accepting a reimbursable order (i.e., Military Interdepartmental Purchase Request). Moreover, reimbursement of direct costs incurred for aborted or canceled tests or for damages to property or equipment caused by a user in the preparation for, or conduct of, any activity on the facility or range must be pursued to the extent permitted by law and DoD policy.

NOTE: For support agreements established during and or after Fiscal Year (FY) 2017 and whose terms extend beyond FY 2017, MRTFB activities and DoD or Non-DoD Federal Component users are required to upload and store their agreements on the Department of the Treasury’s G-Invoicing (formerly Invoice Processing Platform).

4.4.1 Working Capital Fund Activities. If an organization finances a MRTFB activity using WCFs, then its operations will be funded through reimbursable inter-governmental orders and user fees collected from non-Federal users. Under the stabilized price standardized cost recovery method, managers of WCF activities within each Component must set rates/prices based on full cost recovery and must charge users in accordance with established pricing policies contained in Volume 2B, Chapter 9 and Volume 11B.

4.4.2 Non-Working Capital Fund Activities. If an organization does not finance a MRTFB using WCFs, then its operations will be funded through direct appropriations, reimbursable inter-governmental orders, and/or user fees collected from non-Federal users.

4.4.2.1 DoD Component Users

4.4.2.1.1 Direct Costs. DoD Component users are to be charged and must reimburse MRTFB activities for direct costs identifiable with a particular program or customer order. Direct costs billed must be in accordance with Chapters 1 and 4 and must be attributed to a job or function served in support of a customer order.

4.4.2.1.1.1 By mutual agreement, investments in new or existing test and evaluation facilities may be funded, in whole or in part, by one or more DoD users of a MRTFB activity. This agreement, however, must explicitly delineate responsibilities for ownership/capitalization of the asset, funding, staffing, operating, and maintaining the facility, and must be approved by all parties prior to obligation of any funds for the project.

4.4.2.1.1.2 Investments made under subparagraph 4.4.2.1.1 that change the composition of the MRTFB must conform to DoDI 3200.18.
4.4.2.1.3. Direct incremental costs (i.e., costs resulting from an increase in production) must be charged to DoD Component users.

4.4.2.1.2. Indirect Costs. DoD Component users are not to be charged and must not reimburse MRTFB activities for indirect costs.

4.4.2.1.2.1. Overhead (indirect) costs must not be charged to DoD Component users, and must remain as costs fully borne by the MRTFB activity and paid for by the institutionally funded program element accounts comprising the MRTFB’s budgetary structure.

4.4.2.1.2.2. Indirect incremental costs must not be charged to DoD Components.

* 4.4.2.1.3. Military Personnel Costs. As a rule, the applicable military personnel appropriations must fund the cost of direct (and indirect) military labor incurred in the performance of a service for, or the furnishing of materials to, another DoD Component user. Therefore, since a direct appropriation is provided for that purpose, the cost of military labor must not be charged to another DoD Component user except for the cost of military personnel assigned to the WCF activities. WCF activities must be reimbursed by their users for the cost of military labor as prescribed in Volume 11B, Chapter 12.

4.4.2.2. Non-DoD Component Users.

4.4.2.2.1. Direct Costs. Non-DoD Component users are to be charged and must reimburse MRTFB activities for all direct costs readily identifiable with a particular program or customer order. Military labor incurred by non-Working Capital Fund activities must be charged to non-DoD Component users on the basis of the actual hours worked or assigned. Military personnel costs must be computed or priced at the composite standard military pay rates in accordance with Chapter 6, Appendix I.

4.4.2.2.2. Indirect Costs. MRTFB commanders may charge non-DoD Component users an appropriate level of indirect costs at their discretion. Any indirect costs incurred, but not billed to a user, must be billed to the MRTFB activity’s institutional or appropriated funding. Appropriated funding levels, however, must not be increased to finance any additional indirect cost incurred due to sales to non-DoD activities.

4.4.3. Foreign Military Sales. Foreign Military Sales users must reimburse MRTFB activities in accordance with Volume 15, Chapter 7. This chapter does not, and must not, be construed to permit foreign customer countries or foreign commercial entities to purchase services from MRTFB activities through other than Foreign Military Sales procedures authorized under the Arms Export Control Act.

4.4.4. Government-Furnished Services. When the use of an MRTFB activity has been included in a contractual agreement as government-furnished services, the user must be charged based on the category of the contracting government agency (see subparagraphs 4.4.2.1 or 4.4.2.2).
4.5 Disposition of Collections. (120405)

4.5.1. **Working Capital Fund Activities.** For a MRTFB activity financed using WCFs, reimbursable operations are funded through reimbursable inter-governmental orders and user fees collected from a non-Federal user. Section 2208(h) of Title 10, U.S.C., provides general authority for retention and use of amounts collected under both inter-governmental orders and user fees. Reimbursable inter-governmental orders are valid budgetary resources available to a MRTFB activity for obligation; however, a MFTRB activity financed using WCFs may not recognize user fees as a budgetary resource until collected from a non-Federal user.

4.5.2. **Non-Working Capital Fund Activities.** For a MRTFB activity not financed using WCFs, its operations may be financed through direct appropriations, reimbursable inter-governmental orders, and/or user fees collected from non-Federal users. Inter-governmental orders under reimbursable statutory authorities such as the Economy Act increase available budgetary resources in the reimbursable program of the appropriation the Component uses to finance the MRTFB. To the extent a statutory miscellaneous receipts exception is applicable to a reimbursable transaction with a non-Federal user, user charges collected from such users may be credited to the reimbursable program of the applicable direct appropriation. Section 2681(d) of Title 10, U.S.C., provides such authority for certain transactions with commercial entities conducting test and evaluation activities at MTRFB activities.
VOLUME 11A, CHAPTER 13: “DOD SUPPORT TO UNITED STATES (U.S.) COMMERCIAL SPACE ACTIVITIES”

CHAPTER 13

DOD SUPPORT TO U.S. COMMERCIAL SPACE ACTIVITIES

*1.0 GENERAL (1301)

1.1 Purpose (130101)

This chapter provides reimbursable policy for the provision of Department of Defense (DoD) support to U.S. commercial space activities. This chapter applies to all DoD Components that provide support to U.S. commercial sector space launch operations and other related space activities.

1.2 Authoritative Guidance (130102)

*2.0 DEFINITIONS (1302)

2.1 Commercial (130201)

The term “commercial” means having private capital at risk, with primary financial and management responsibility for the activity residing with the U.S. commercial sector.

2.2 Direct Costs (130202)

The term “direct costs” includes those actual costs (including salaries of U.S. civilian and contractor personnel) incurred by DoD as a result of use of its space-related facility or resource by the U.S. commercial sector. These costs are reflective of costs that would not be borne by DoD in the absence of such use by the U.S. commercial sector. These costs also include specific wear and tear and property damage incurred by the DoD as related to the launch property acquisition.

2.3 Indirect Costs (130203)

The term “indirect costs” includes the actual costs of maintaining, operating, upgrading, and modernizing the DoD space-related facility.

2.4 DoD Space Launch Property (130204)

DoD space launch property consists of items built for, or used to perform space launch operations and other space-related activities.
2.5 DoD Space Launch Services (130205)

As defined under 51 U.S.C. § 50902 and DoDD 3230.3, DoD space launch services are those activities, including utilities, otherwise not needed for public use, involved in the preparation of a launch vehicle, its payload for launch, crew (including crew training), or space flight participation for launch; and the conduct of a launch.

2.6 Property Damage Costs (130206)

Property damage costs represent the costs necessary to replace or restore the DoD property, or site, to its condition before the space-related lease/license.

3.0 PRICING (1303)

3.1 Pricing of DoD Space Launch Property and Services (130301)

3.1.1. DoD Space Launch Property.

3.1.1.1. Sale or Transfer. DoD space launch property that is excess or otherwise not needed for public use may be sold or transferred in lieu of sale to U.S. commercial sector launch vehicle operators performing commercial space activities (e.g., payload retrieval services, payload processing services). The transaction must be priced to recover direct costs, as defined in paragraph 2.2.

* 3.1.1.2. Lease/License. DoD space launch property that is excess or otherwise not needed for public use may be leased/licensed, on a non-interference basis, to U.S. commercial sector launch vehicle operators performing commercial space activities. The transaction must be priced to recover direct costs, as defined in paragraph 2.2.

3.1.2. DoD Space Launch Services.

For DoD space launch services, as defined in paragraph 2.5, the acquisition price represents an amount equal to the direct costs defined in paragraph 2.2.

3.2 Defense Working Capital Fund (DWCF) Activities (130302)

Generally, standard prices/stabilized rates must be charged for articles and services provided by activities operating under a DWCF. Refer to Volume 11B, Chapters 11 and 15, for additional details and exceptions.

3.3 Fixed Price Estimates (130302)

Commercial space launch operators may be offered fixed price quotes for the sale of DoD launch services based on reasonable estimates of direct costs only when there is a well-defined contractor requirement and a reliable cost history of similar previous sales.
4.0 BILLING (1304)

Invoices for support provided by DoD must be completed and transmitted to the U.S. commercial space activity within 30 calendar days after the month in which performance occurred. The payment due date must be no more than 30 days from the date of the invoice.

5.0 DISPOSITION OF COLLECTIONS (1305)

5.1 Proceeds from DWCF Activities (130501)

Proceeds from the sale of articles and services from DWCF activities must be deposited to the DWCF.

5.2 Proceeds from Non-DWCF Activities (130502)

Proceeds from the sale of DoD launch property by a non-DWCF activity must be:

5.2.1. Credited to the general fund of the U.S. Treasury as miscellaneous receipts when the launch property is not to be replaced.

5.2.2. Deposited to the DoD appropriation account or fund, currently available for the procurement of the launch property, if the launch property is to be replaced.

5.3 Proceeds Deposits for License of Launch Property and Leases (130503)

Proceeds from the license of launch property must be deposited to the DoD appropriation account or fund currently available for financing the direct costs incurred. Proceeds from leases must be credited to the general fund of the U.S. Treasury as miscellaneous receipts.

5.4 Proceeds Deposits from the Sale of Launch Services (130504)

Proceeds from the sale of DoD launch services must be deposited to the DoD appropriation account or fund that financed the provisioning of those launch services. These proceeds must be credited to the fiscal year in which the DoD Component provided the services.
VOLUME 11A, CHAPTER 14: “DISPOSITION OF PROCEEDS OR FEES FOR SERVICES PROVIDED BY OR THROUGH THE USE OF A DOD LABORATORY, CENTER, RANGE, OR OTHER TESTING FACILITY”

SUMMARY OF MAJOR CHANGES

Changes are identified in this table and also denoted by blue font.

Substantive revisions are denoted by an asterisk (*) symbol preceding the section, paragraph, table, or figure that includes the revision.

Unless otherwise noted, chapters referenced are contained in this volume.

Hyperlinks are denoted by bold, italic, blue, and underlined font.

The previous version dated January 2016 is archived.

CHAPTER 14

DISPOSITION OF PROCEEDS OR FEES FOR SERVICES PROVIDED BY OR THROUGH THE USE OF A DOD LABORATORY, CENTER, RANGE, OR OTHER TESTING FACILITY

1.0 GENERAL (1401)

1.1 Overview (140101)

The Department of Defense (DoD) promotes research and development within the commercial sector of the U.S. economy by transferring technology and information from the Department to the commercial sector. This policy strengthens both national and economic security by establishing a national technology and industrial base to sustain military superiority and increase U.S. production capabilities. The transfer of technology and information from the Department to the commercial sector enables critical research and leads to the development of both useful military and/or commercial technology.

1.2 Purpose (140102)

This chapter prescribes financial management policy for reimbursement through sale or fee and, the disposition of fees and proceeds received by making testing facilities available; and resulting from the provision of samples, drawings, information, and equipment to any person or entity, as authorized. Authorization is provided by Title 10, United States Code, section 2539b (10 U.S.C. § 2539b), “Availability of samples, drawings, information, equipment, materials, and certain services” and implemented in DoD Instruction (DoDI) 5535.11, “Availability of Samples, Drawings, Information, Equipment, Materials, and Certain Services to Non-DoD Persons and Entities.” This chapter does not apply to facilities and ranges of the Major Range and Test Facility Base (MRTFB) (see Chapter 12 for reimbursable policy applicable to DoD MRTFBs).

*1.3 Authoritative Guidance (140103)

The financial management policy and related requirements prescribed by this chapter are in accordance with the applicable provisions of:

1.3.1. 10 U.S.C. § 2358, “Research and development projects”;  
1.3.2. 10 U.S.C. § 2363, “Mechanisms to provide funds for defense laboratories for research and development of technologies for military missions”;  
1.3.3. 15 U.S.C. § 3710a, “Cooperative research and development agreements”;  
1.3.4. 22 U.S.C. § 2753, “Eligibility for defense services or defense articles”;  
1.3.5. 31 U.S.C. § 3302, “Custodians of money”;

1.3.7. **31 U.S.C. § 9701**, “Fees and charges for Government services and things of value”;

1.3.9. Defense Logistics Agency (DLA) Instruction 4160.01 (**DLAI 4160.01**), (DoD Common Access Card enabled access only) “DLA’s Guidance on Department of Defense (DoD) Property Disposal”;

1.3.11. **DoDI 5010.40**, “Managers' Internal Control Program Procedures”;

1.3.13. Federal Accounting Standards Advisory Board (FASAB) Handbook, **FASAB Appendix E: Consolidated Glossary**;

1.3.16. Office of Management and Budget (**OMB Circular A-25**), “User charges”;

*2.0 DEFINITIONS (1402)

2.1 Drawing (140201)

A diagram, plan, or list detailing the fabrication and assembly of structural elements, or describing the steps for the installation of materials and equipment. A drawing details the characteristics, or outlines the parts of operation of a product or item.
2.2 Equipment or Materials (140202)

Equipment or materials are personal property, including machinery, devices, and apparatuses, and components of such items. Personal property also includes systems, equipment, materials, and supplies. This does not include records of the Federal Government and real property (land and improvements to facilities) as specified in the glossary portion of DoDI 5000.64 “Accountability and Management of DoD Equipment and Other Accountable Property.” Personal property normally expected to have a period of service of a year or more after being put into use meets the equipment definition in OMB Circular A-11 “Preparation, Submission and Execution of the Budget.”

2.3 Fair Value (140203)

The amount at which an asset or liability could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

2.4 Friendly Foreign Government (140204)

Those countries for which a Presidential Determination has been provided under 22 U.S.C. § 2753(a)(1), and to which transfer has not been prohibited by the Department of State under Title 22, Code of Federal Regulations, part 126 (22 CFR 126) of the International Traffic in Arms Regulations.

2.5 Historical Cost less Depreciation (Book Value) (140205)

Historical Cost includes all appropriate purchase, transportation, and production costs incurred to bring items to their current condition and location. Historical cost excludes abnormal costs, which should be expensed in the period incurred rather than capitalized as inventory.

2.6 Independent Research and Development (IR&D) Programs (140206)

IR&D programs are performed by non-government entities that are not sponsored by, or required in performance of government contracts or grants. These efforts include basic research, applied research, development, systems and other concept formulation studies. These programs do not include technical efforts expended in developing and preparing technical data specifically to support submitting a bid or proposal.

2.7 Laboratory (140207)

A facility or group of facilities owned, leased, or otherwise under the jurisdiction and control of the DoD, a substantial purpose of which is the performance of research, development, engineering, test and evaluation, or otherwise developing or maintaining a technology in accordance with 15 U.S.C § 3710a.
2.8 Manufacturing or Other Information (140208)

Any blueprints, drawings, plans, instructions, documentation, or other technical information or technical data that can be used or adopted for use to design, engineer, produce, manufacture, operate, repair, overhaul, or reproduce any equipment or material.

2.9 National Technology and Industrial Base (140209)

The persons and organizations that are engaged in research, development, production, integration, services, or information technology activities conducted within the U.S., the United Kingdom of Great Britain and Northern Ireland, Australia, and Canada. Reference 10 U.S.C. § 2500 “Definitions.”

2.10 Net Realizable Value (140210)

The estimated amount that can be recovered from selling, or any other method of disposing of an item less estimated costs of completion, holding and disposal.

2.11 Person or entity (140211)

An individual, partnership, corporation, association, state, local, or tribal government, or an agency or instrumentality of the U.S. Government other than the DoD.

2.12 Proceeds (140212)

40 U.S.C. § 571 “General rules for deposit and use of proceeds,” defines proceeds as either the transfer of excess property to a Federal agency for agency use; or sale, lease, or other disposition of surplus property. 40 U.S.C § 574 “Other rules regarding proceeds,” defines net proceeds (with respect to the disposition or transfer of property) as proceeds less all expenses incurred for the disposition or transfer, including care and handling. A gain or loss must be recorded for exchange transactions that are unusual or nonrecurring. In contrast, exchange revenue for exchange transactions that are usual and recurring must be reported. Further, exchange revenue is the proceeds from either intragovernmental sales by an organization that maintains an intragovernmental revolving fund; or when each party to a transaction receives and sacrifices something of value (e.g., when a DoD Component provides goods and services to the public). Refer to FASAB SFFAS 7, sections 238 and 314-315 of Appendix B for details.

2.13 Range (140213)

10 U.S.C § 101 defines a range as a designated land or water area that is set aside, managed, and used for range activities of the DoD. This includes firing lines and positions, maneuver areas, firing lanes, test pads, detonation pads, impact areas, electronic scoring sites, buffer zones with restricted access, and exclusionary areas. It also includes airspace areas designated for military use in accordance with regulations and procedures prescribed by the Administrator of the Federal Aviation Administration. Range activities involve research, development, testing, and evaluation of military munitions, other ordnance, and weapons systems; and the training of members of the armed forces in their use.
2.14 Research Center (140214)

The Secretaries of the Military Departments may execute task order contracts, cooperative agreements, or other arrangements to obtain university technical expertise for up to 30 mission types. These arrangements must be made (to the degree practicable) in consultation with DoD activities in order to provide technical expertise and, to reduce costs and duplicative efforts. Examples of these DoD activities include the Federally Funded Research and Development Centers (FFRDCs), University Affiliated Research Centers (UARCs), and Defense Test Centers. Details may be found in 10 U.S.C § 2358. The Defense Innovation Marketplace gives a listing of FFRDCs and UARCs.

2.15 Sample (140215)

A unit or units of a product drawn from a lot or batch that is representative of the product and is constructed in conformance with the requirements and complies with specifications of the product. The item may be from a prototype or final production version of the product.

2.16 User Fee/User Charge (140216)

A fee assessed to users for goods or services provided by the DoD. In the context of transactions with the public, user fees generally apply to Federal programs or activities that provide special benefits to identifiable recipients above and beyond what is normally available to the public. User fees are normally related to the cost of the goods or services provided.

2.17 Without Charge (140217)

This could be the result of Other Financing Sources resulting from Inflows of resources that increase the net position of a reporting entity during the reporting period but that are not revenues or gains. They include appropriations used, transfers of assets from other government entities, and financing imputed with respect to any cost subsidies. This could also be in the form of a grant as defined by 31 U.S.C. § 6304, “Using grant agreements.” According to 31 U.S.C. § 6304, an executive agency must use a grant agreement as the legal instrument reflecting a relationship between the U.S. Government and a state, a local government, or other recipient when (1) the principal purpose of the relationship is to transfer a thing of value to the state or local government or other recipient to carry out a public purpose of support or stimulation authorized by a law of the U.S. instead of acquiring (by purchase, lease, or barter) property or services for the direct benefit or use of the U.S. Government; and (2) substantial involvement is not expected between the executive agency and the state, local government, or other recipient when carrying out the activity contemplated in the agreement.
3.0 CONDITIONS GOVERNING SELLING, RENTING, LENDING (1403)

3.1 Authorization to Sell, Rent, Lend, Give, or Charge an Appropriate Fee (140301)

10 U.S.C. § 2539b authorizes the Secretary of Defense or the Secretaries of the Military Departments concerned, in the interest of national defense to:

3.1.1. Sell, rent, lend, or give samples, drawings, and manufacturing or other information (subject to the rights of third parties) to any person or entity;

3.1.2. Sell, rent, or lend Department equipment or materials to any person or entity:

3.1.2.1. For use in IR&D programs subject to the condition that the equipment or material be used exclusively for such research and development, or

3.1.2.2. For use in demonstrations to a friendly foreign government;

3.1.3. Make available to any person or entity, at an appropriate fee, the services of any Department laboratory, center, range, or other testing facility for the testing of materials, equipment, models, computer software, and other items; and

3.1.4. Make available to any person or entity, through leases, contracts, or other appropriate arrangements the facilities, services, and equipment of any Department laboratory, research center, or range, if the facilities, services, and equipment provided will not be in direct competition with the domestic private sector.

3.2 Fee Determination Policies (140302)

In selling or leasing property or providing services or in making facilities, equipment, and other items available under subparagraphs 3.1.1 – 3.1.4, the DoD should charge appropriate fees in a manner consistent with 10 U.S.C. § 2363, 31 U.S.C. § 9701, OMB Circular A-25 and Chapter 4.

*3.3 Fees for Defense Laboratories Research and Development (140303)

10 U.S.C. § 2363 authorizes a director of a defense laboratory to charge customer activities a fixed percentage fee (not to exceed four percent of costs), above normal costs of performance, in order to obtain funds to carry out four authorized activities. The defense laboratory director must first consult with the science and technology executive of the military department concerned. Activities eligible for funding are:

3.3.1. Innovative basic and applied research that is conducted at the defense laboratory and supports military missions;

3.3.2. Development programs that support the transition of technologies developed by the defense laboratory into operational use;
3.3.3. Development activities that improve the capacity of the defense laboratory to recruit and retain personnel with necessary scientific and engineering expertise that support military missions;

3.3.4. Repair or minor military construction of the laboratory infrastructure and equipment, only if:

3.3.4.1. The Secretary of Defense notifies the congressional defense committees of the total cost of the project before the start date; and,

3.3.4.2. The Secretary of Defense ensures that the project complies with the applicable cost limitations in 10 U.S.C. §§ 2805(d) and 2811.

4.0 PROCEEDS OR FEES (1404)

*4.1 General Policy (140401)

4.1.1. 31 U.S.C. § 9701 gives DoD the authority to charge fees in order to be self-sustaining as much as possible for services, sales and rentals provided to a person (except a person on official business of the Department). The word person includes groups, associations, organizations, partnerships, corporations, and other businesses. Accordingly, the Secretary of Defense is authorized to prescribe regulations establishing the charge for a service or thing of value that is provided by the Department.

4.1.2. The sales price and rental fees related to subparagraphs 3.1.1 and 3.1.2 must be calculated in accordance with paragraphs 4.2 and 4.3. Fees for services provided in accordance with subparagraphs 3.1.3 and 3.1.4 must be calculated in accordance with paragraph 4.3. 10 U.S.C. § 2539b prohibits these fees from exceeding the full amount of all direct and indirect costs incurred by the Department. DoD Working Capital Fund activities must establish stabilized rates and unit prices for goods and services in accordance with Volume 11B.

4.1.3. Internal controls must be established in accordance with 31 U.S.C. § 3512, OMB Circular A-123, GAO-14-704G and DoDI 5010.40. Managers of DoD Components must be able to identify, measure, and assess risks related to mission delivery in establishing, collecting and reporting sales price and fees. The determination as to the effectiveness of internal controls must be justified, documented, and be able to stand up to audit scrutiny in accordance with the DoD May 2018 Financial Statement Audit Guide as amended (DoD Common Access Card enabled access only).

4.1.4. OMB Circular A-25 requires DoD to initiate and adopt user charge schedules. In addition, these schedules must be reviewed biennially to ensure the charges are properly applied and adequately adjusted for changes in costs or market values. Furthermore, the biennial review of user fees must be published and discussed in the annual DoD Agency Financial Report (AFR). The CFO Act of 1990 requires the publication of the DoD annual AFR.
4.1.5. When a Department laboratory, center, range, or testing facility makes a decision to sell, rent, lend or give samples, drawings, information, or equipment or charge a fee for services that is subject to DoDI 5535.11, then the financial management policy outlined in paragraphs 4.2 through 4.5 regarding calculation, collection, and disposition of proceeds or fees must be followed.

4.2 Calculation of Sales Price (140402)

4.2.1. In general, the sales price of samples, drawings, information, equipment, or materials in accordance with subparagraphs 3.1.1 and 3.1.2 will be calculated or determined prior to or at the time of the sale. When calculating or determining the sales price of such assets, consideration must be given to the following:

4.2.1.1. Fair Value (defined at paragraph 2.4);

4.2.1.2. Historical Cost less Depreciation - Book Value (defined at paragraph 2.6 and in the FMR “Glossary”);

4.2.1.3. Replacement Cost (defined in the FMR “Glossary”);

4.2.1.4. Net Realizable Value (defined at paragraph 2.11);

4.2.1.5. Discounted (Cash) price (defined in the FMR “Glossary”). This may be used when selling an asset to a state or local agency;

4.2.1.6. Without charge (as defined at paragraph 2.17). This action may be considered when reutilizing an asset within DoD, transferring an asset to another Federal agency, or donating an asset to a state or local agency; and

4.2.1.7. The specific mission, goals, and/or objectives of the research and development project associated with a particular asset’s sale.

4.2.2. Additional guidance on the sale (and disposal) of DoD property can be found on the website for the DLA Disposition Services. Moreover, specific guidance regarding property disposal can be found in DoDM 4160.21-V1 and DLAI 4160.01.

4.3 Calculation of Fees (140403)

4.3.1. When DoD services, facilities, or equipment are made available in accordance with subparagraphs 3.1.3 and 3.1.4, an appropriate user fee must be imposed by the DoD Component providing the service, facility, or equipment to recoup the total cost incurred.
4.3.1.1. In accordance with 10 U.S.C. § 2539b, user fees may not exceed the amount necessary to recoup the direct and indirect costs incurred (i.e., total or full costs) by providing the service, facility, or equipment. However, DoDI 5535.11 allows for the elimination of indirect costs when approved by the director or commander, prior to providing the service or use of facilities and equipment;

4.3.1.2. Costs may include capital improvement costs, utility costs, depreciation, contractor support, salaries of personnel, and all other ancillary support costs. Reference DoDI 5535.11;

4.3.1.3. Specific policy pertaining to the calculation (i.e., identification of specific costs) and reporting of fees for the provision of services, equipment, and facilities pursuant to subparagraphs 3.1.3 and 3.1.4, can be found in Chapter 4 under the authority of OMB Circular A-25.

4.3.2. When approved by the laboratory directors, facility directors, and/or commanders, prior to providing the service or use of facilities and/or equipment, all or a portion of the indirect costs may be eliminated from the fee. Fees charged for services at less than total costs are permitted only when there is a compelling reason or it is determined to be in the best interest of national defense to do so.

4.3.2.1. Special consideration as to recovery of less than full costs may be given when:

4.3.2.1.1. The recipient of the benefit is engaged in a nonprofit activity designed for public safety, health, or welfare;

4.3.2.1.2. Payments of full fees by a state, local government, or nonprofit activity would not be in the Department’s best interest; or

4.3.2.1.3. The laboratory directors, facility directors, and/or commanders have determined that the administrative costs of determining and collecting the full fees would outweigh the benefits to the Component.

4.3.2.2. When less than full cost is charged, laboratory directors, facility directors, and commanders must maintain adequate documentation justifying or supporting each decision. Such documentation must address the criteria in subparagraphs 4.2.1 and 4.2.2, and be available for audits or inspections and for review by higher authorities.

4.3.3. DoD Working Capital Fund laboratories and facilities must use standard (stabilized) rates to establish fees in accordance with Volume 11B, and DoD Components designated as MRTFBs must determine costs and fees in accordance with Chapter 12.
4.4 Collection of Proceeds or Fees (140404)

DoD Components should make every effort to collect proceeds or fees electronically, (e.g., electronic funds transfer), and utilize, as applicable, the collection services provided by the Treasury’s Bureau of the Fiscal Service (Fiscal Service) as outlined in the TFM, Volume 1, Part 5, and also Part 2, Chapter 4700, Appendix 5, “Section 3 - Intragovernmental Payment and Collection;” and further described in Volume 5, Chapters 8 and 11. Moreover, support agreements with DoD Components or other Federal Government agencies, contract agreements with private parties or entities that are established in conjunction with sales, rentals, or lending of property identified in subparagraphs 3.1.1 and 3.1.2 and fees received for services identified in subparagraphs 3.1.3 and 3.1.4, should include requirements to use, as applicable, the collection services provided by the Fiscal Service.

4.4.1. In accordance with OMB Circular A-25, user fees must be collected in advance of, or simultaneously with, the rendering of services unless appropriations and authority are provided to allow for reimbursable services;

4.4.2. All fees for services that incur variable costs over time such as personnel or utility costs may be collected incrementally over time.

*4.5 Disposition of Proceeds or Fees Received (140405)

A DoD official or agent must safely keep public money in his/her custody or possession in accordance with 31 U.S.C. § 3302. The code prohibits lending, using public money, depositing the money in a bank, or exchanging it for other amounts. The code requires depositing the money in the Treasury not later than three days upon receipt. The Secretary of the Treasury may prescribe another timeframe requirement. The Secretary of Defense may allow an official or agent to incur expenses to collect, keep, transfer and pay out public money.

4.5.1. Proceeds received from sales or rentals provided in accordance with subparagraphs 3.1.1 and 3.1.2 must be credited to the General Fund of the Treasury as miscellaneous receipts as required by 31 U.S.C. § 3302 and DoDI 5535.11.

4.5.2. Under authority of 10 U.S.C. § 2539b, fees collected for services or when making facilities, equipment and other items available under subparagraphs 3.1.3 and 3.1.4, may be credited to the appropriations or other funds of the Component making such services, facilities, and equipment available.

4.6 Warranties and Liabilities (140406)

All transfers of property or services of whatever nature made pursuant to this policy must be without any express or implied warranty. This means the recipient of the property or services must agree in writing to hold harmless and indemnify the Department from any liability or claim for damages or injury to any person or property arising out of the property or services provided.
4.7 Liability for Loss of or Damage to Property of the Department (140407)

The written support agreement or contract with an individual, company, corporation, or organization must include a clause stating that the Department will be reimbursed for any losses or damages arising out of or in conjunction with the use of DoD property. Refer to Volume 12, Chapter 7 for guidance on how to assess financial liability.
VOLUME 11A, CHAPTER 15: “TRAINING OF SPECIAL OPERATIONS FORCES WITH FRIENDLY FOREIGN FORCES”

SUMMARY OF MAJOR CHANGES

Changes are identified in this table and also denoted by blue font.

Substantive revisions are denoted by an asterisk (*) symbol preceding the section, paragraph, table, or figure that includes the revision.

Unless otherwise noted, chapters referenced are contained in this volume.

Hyperlinks are denoted by bold, italic, blue, and underlined font.

The previous version dated November 2012 is archived.

CHAPTER 15

TRAINING OF SPECIAL OPERATIONS FORCES
WITH FRIENDLY FOREIGN FORCES

1.0 OVERVIEW (1501)

1.1 Purpose (150101)

This chapter provides accounting and reporting procedures to implement provisions of Title 10, United States Code, section 322 that are related to the training of special operations forces with friendly foreign forces.

1.2 Authority for Payment of Training Expenses (150102)

10 U.S.C. § 322, authorizes, the Commander, United States Special Operations Command and the commander of any other unified or specified combatant command to pay, or authorize payment for, any of the following expenses:

1.2.1. Expenses of overseas training of U.S. special operations forces, to include civil affairs forces and psychological operations forces, assigned to the combatant commander in conjunction with training, and training with, armed forces and other security forces of a friendly foreign country.

1.2.2. Expenses of deploying such special operations forces, to include civil affairs forces and psychological operations forces, for that training.

1.2.3. Incremental expenses incurred, in the case of training in conjunction with a friendly developing country, by that country as the direct result of such training. The term, “incremental expenses,” with respect to a developing country, means the reasonable and proper costs of rations, fuel, training ammunition, transportation (except to and from the continental United States or from one country to another country), and other goods and services consumed by such country, except that the term does not include pay, allowances, and other normal costs of such country’s personnel.

1.3 Purpose of Training (150103)

For the authority cited in paragraph 1.2 to apply, the primary purpose of the overseas training activities must be the training of special operations forces of the combatant commands. Training of foreign forces may not be the primary purpose.
2.0 POLICY AND PROCEDURES (1502)

2.1 Accounting Procedures (150201)

Departmental funds expended to facilitate the participation of friendly foreign forces training with U.S. special operations forces must be incurred and reported under the following guidelines:

2.1.1. Funding for training of U.S. personnel may include amounts for training expenses authorized in 10 U.S.C. § 322. The funding source for these proposed payments must be funds made available to the applicable DoD Component for these purposes.

2.1.2. Prior to commencement of the training, agreement on implementing arrangements should be reached in terms of the types and scope of non-financial support and financial contributions to be provided by the United States to a foreign country and/or by a foreign country to the United States. In order to protect the interests of the United States, the essential terms of the arrangement should normally be documented in writing and a copy of the document provided to the foreign country. In addition, the arrangement should request that each participating country identify both physical and financial contributions to the training effort and the amount of expenses paid related thereto. Formal foreign agreements, under the provisions of DoD Instruction 5530.03, "International Agreements," are not required with respect to these implementing arrangements.

2.1.3. In the event that the participating country is unable to identify its expenses in time to meet reporting requirements, knowledgeable U.S. personnel will estimate that participant’s contributions, and the value of expenses paid in U.S. dollar equivalents at the exchange rate in effect at the time of the training. Estimates of a participating country’s contributions may be calculated using relative factors of comparable costs for similar U.S. training activities.

2.1.4. Arrangements with a friendly developing country may provide for financial or in-kind payment to the developing country by the United States for incremental expenses incurred by that country as a direct result of such training. “Incremental expenses” are defined in subparagraph 1.2.3.

2.1.5. Arrangements with a friendly country also may provide for payment to that country by the United States for the costs of support provided to U.S. personnel by the host country. Expenses that may be paid under the terms of an arrangement with a friendly country for support provided to U.S. personnel by that country are limited to those types of expenses included in the definition of incremental expenses described in subparagraph 1.2.3.

2.1.6. For expenses that are to be paid to a friendly country, either incremental costs incurred by a developing country or support provided by a host country to U.S. personnel, the arrangement must stipulate that the host country provides, in advance of payment, appropriate documentation to support the payment. This documentation must include dates, quantities, units and costs so that the senior U.S. official can determine the reasonableness and propriety of such costs, in U.S. dollar equivalents at current exchange rates, for the various types of authorized expenses incurred.

2.1.7. The following procedures must be followed to substantiate payments for reasonable incremental expenses incurred by a developing country.
2.1.7.1. The senior foreign official participating in the training must certify that the documentation provided to support the claim for payment reflects reasonable and proper expenses incurred during the training.

2.1.7.2. The senior U.S. official participating in the training must include a statement that, in his or her judgment, the documentation reflects reasonable and proper expenses.

2.1.7.3. If the senior U.S. official participating in the training questions the propriety or reasonableness of any expense claimed by the foreign country, resolution of those questions must occur before the payment is made.

2.1.8. The following procedures must be followed to substantiate payments for reasonable expenses to support U.S. personnel.

2.1.8.1. The U.S. official accepting the goods and/or services on behalf of the United States Government must certify receipt and acceptance for the United States Government. The acceptance must include documentation of the dates, quantities, units, and costs of the various types of support received.

2.1.8.2. The host country must submit a claim for payment that includes documentation of the dates, quantities, units, and costs, in U.S. dollar equivalents at current exchange rates, of the various types of support provided.

2.1.9. The annual report (described in paragraph 2.2) requires a determination of both financial and non-financial contributions to the training effort and the amount of related expenses paid by the participants in such training. Financial and non-financial contributions include all costs that are incurred because of the training. The accounting records from which the contributions are reported must include the separate identification of all the costs incurred, such as:

2.1.9.1. Rations, fuel, and training ammunition.

2.1.9.2. Personnel (including lodging, and/or per diem costs) for other than normal pay and allowances.

2.1.9.3. Costs associated with training areas, firing ranges, storage sites, and other similar items and facilities used during the training. These costs must be attributable directly to such training.

2.1.9.4. All transportation of personnel, equipment and supplies to and from the training area.
2.1.10. The operations and maintenance funds expensed under 10 U.S.C. § 322, are not to be used to supplement other accounts, to circumvent budget ceilings established for other accounts, or to assume the mission of programs funded from other accounts.

2.1.11. 10 U.S.C. § 322 authorizes the Department to program and expend operation and maintenance funds to train U.S. special operations forces, to include civil affairs forces and psychological operations forces, with friendly foreign nations. It does not provide authority to conduct any type of training activity that the Department otherwise cannot legally conduct. Any training activity funded under this statutory authority must be conducted in accordance with DoD directives, regulations and instructions, and all other applicable interagency procedures.

2.2 Annual Report by U.S. Unified Combatant Commands (150202)

Funds expended under the authority of 10 U.S.C. § 322, must be reported by the appropriate combatant commands on a fiscal year basis to the Assistant Secretary of Defense (Special Operations/Low Intensity Conflict (ASD(SO/LIC)) to arrive not later than February 1 of each year. Each fiscal year report submitted by the combatant commands must be organized by theater and presented for each country in alphabetical order with each joint combined exchange training (JCET) deployment listed in chronological order. The reporting of classified training activities, if any, must be properly classified and the classification prominently identified. Each report must specify the following:

2.2.1. All countries in which training was conducted.

2.2.2. The type of training conducted in each country for each JCET, including whether such training was related to counter-narcotics or counter-terrorism activities; the date and duration of that training; the number of U.S. military personnel involved; and the total expenses paid by the United States. Total expenses paid by the United States must be the total of (1) amounts paid for deploying and training U.S. special operations forces, including the costs listed in subparagraph 2.1.9; (2) amounts paid to a foreign country for support provided to U.S. personnel, as described in subparagraph 2.1.8; and (3) financial payments to a developing foreign country for incremental expenses, as described in subparagraph 2.1.7.

2.2.3. The extent of participation by foreign military forces, including the number and service affiliation of foreign military personnel involved and the physical and financial contribution of each host nation to the training effort.

2.2.4. The relationship of that training to other overseas training programs conducted by U.S. Armed Forces, such as military exercise programs sponsored by the Joint Chiefs of Staff, military exercise programs sponsored by a U.S. unified combatant command, and military training activities sponsored by a Military Department (including deployments for training, short duration exercises and other similar unit training events).
2.3 Consolidated Budget Display for DoD Security Cooperation Programs (150203)

2.3.1. The DASD for Security Cooperation (DASD(SC)), must receive from ASD(SO/LIC) by August 1 each year budget request data for activities to be conducted in the subsequent fiscal year, including the specific country or region pursuant to 10 U.S.C. § 322 for the purpose of developing a Consolidated Budget Display (CBD) in accordance with 10 U.S.C. § 381(a).

2.3.2. The USD(P) must submit a consolidated budget for all security programs and activities of the Department of Defense each year, consistent with the submission of the President’s annual budget request.

2.4 Quarterly Budget Execution Reports for DoD Security Cooperation Programs (150204)

2.4.1. The Combatant Commands must transmit to the Director, Defense Security Cooperation Agency, no later than 15 days after the end of each calendar quarter, the cumulative total of all obligations and expenditures related to 10 U.S.C. § 322.

2.4.2. The Director, DSCA, must submit to the appropriate members of Congress, a report on the obligation and expenditure of funds for security cooperation programs and activities of the Department of Defense not later than 30 days after the end of each calendar quarter in accordance with 10 U.S.C. § 381(b).

2.5 Annual Report by the Secretary of Defense (150205)

2.5.1. The ASD(SO/LIC) must receive reports from the commander of the special operations command, and the commander of any other unified or specified combatant command, as described in this chapter, and compile those reports into a single document and forward it to the Under Secretary of Defense (Policy (USD(P))).

2.5.2. The USD(P) must, not later than April 1 of each year, submit on behalf of the Secretary of Defense the required annual report to the Armed Services and Foreign Relations Committees of the Senate and the National Security and Foreign Affairs Committees of the House of Representatives.

2.5.3. The annual report must cover training during the preceding fiscal year for which expenses were paid under 10 U.S.C. § 322.
**VOLUME 11A, CHAPTER 16: “ACCOUNTING FOR PRODUCTION AND SALE OF FOREST PRODUCTS”**

**SUMMARY OF MAJOR CHANGES**

Changes are identified in this table and denoted by [blue font](#).

Substantive revisions are denoted by an asterisk (*) symbol preceding the section, paragraph, table, or figure that includes the revision.

Unless otherwise noted, chapters referenced are contained in this volume.

Hyperlinks are denoted by [**bold, italic, blue, and underlined font**](#).

The previous version dated March 1997 is archived.

CHAPTER 16

ACCOUNTING FOR PRODUCTION AND SALE OF FOREST PRODUCTS

1.0 OVERVIEW (1601)

1.1 Purpose (160101)

This chapter establishes the policy and procedures used to account for the production and sale of forest products (see Figure 16-1). This chapter also assigns responsibility for Department of Defense (DoD) reimbursement and for the entitlement of a state to a share in the net proceeds (see Figure 16-1) derived from forest products sold from military installations or facilities.

1.2 Applicability and Scope (160102)

The policies and procedures established by this chapter:

* 1.2.1. Apply to the Office of the Secretary of Defense (OSD) and to the Military Departments (including their Reserve Components). The term “Military Services,” as used herein, refers to the Army, Navy, Air Force, and Marine Corps. Policies and procedures specific to the Army are included in the Army Annex. The policies and procedures applicable within the Department of the Navy are in Appendix L of the Marine Corps Financial Execution Standard Operating Procedures Manual (P7300.21).

1.2.2. Cover forest products production and sales programs on military installations or facilities in the United States.

1.2.3. Do not apply to forestry activities within the civil programs of the U.S. Army Corps of Engineers or to the state-owned National Guard installations.

2.0 POLICY AND PROCEDURES (1602)

2.1 DoD Appropriations To Incur Obligations to Fund the Production and Sale of Forest Products (160201)

DoD appropriations that incur obligations to fund the production and sale of forest products shall be reimbursed from collections made as a result of the sale of those products. Remaining collections shall be disposed of as follows:

2.1.1. Forty percent of installation net proceeds shall be distributed to the state that includes the military installation or facility from which forest products were sold during a fiscal year. If the installation or facility is located in more than one state, each state shall share the proceeds in a manner proportional to the area of such installation or facility in each state. (See paragraph 2.6 and Figure 16-1) Entitlement to the states applies to forest products sold after September 30, 1984.
2.1.2. When the disbursement to each state has been made, any remaining amount shall be transferred to the reserve account. (See paragraph 2.3, below.) To the extent that collections from the sale of forest products are inadequate, obligations for the production and sale of those products may be financed either from the appropriation accounts, or from transfers from the reserve account when other sources of funds are not available in a timely manner.

2.2 DoD Reserve Account (160202)

A DoD reserve account shall be established. The balance in this account may be used for:

2.2.1. Improvements of forest lands,

2.2.2. Unanticipated contingencies in the administration of forest lands and the production of forest products for which other sources of funds are not available in a timely manner, and

2.2.3. Natural resource management that implements approved plans and agreements.

The balance shall not exceed $4 million on December 31 of any calendar year. Unobligated balances exceeding $4 million on that date shall be deposited in the U.S. Treasury General Fund Miscellaneous Receipts Account. (See paragraph 2.5.3, below.)

2.3 Operating Procedures for Program Obligations (160203)

2.3.1. Program obligations shall be related directly to the economic production and sale of forest products in the following functions:

2.3.1.1. Forest Improvement. Obligations incurred to improve an existing timber stand or forest, whether it is planted, seeded, or natural, to include thinning, pruning, and controlling undesirable vegetative growth.

2.3.1.2. Reforestation. Obligations incurred for natural or artificial regeneration including planting, purchasing of seeds or seedlings, preparing sites, and controlling insects, diseases, vegetation, and animals.

2.3.1.3. Forest Protection. Obligations incurred to protect a forest capable of economic production of forest products from damage by fire, insects, diseases, animals, floods, and erosion.

2.3.1.4. Forest Access Roads. Obligations incurred for construction, reconstruction, repair and maintenance of forest access roads and trails, and for repair of other roads as a result of forest production and harvest operations.
2.3.1.5. **Sales.** Obligations incurred to facilitate sales and preparation for sales of forest products including appraising, cruising, marking, scaling, advertising, and escorting prospective bidders, as well as preparing, administering, and enforcing compliance with sales contracts.

2.3.1.6. **Management.** Obligations incurred to manage of the functions listed in subparagraphs 2.4.1.1 through 2.4.1.5, above, including supervising, planning, programming, conducting field surveys and inventories, training, and attending professional meetings.

2.3.1.7. **Forestry Equipment.** Obligations incurred to purchase vehicles, minor equipment, and heavy equipment used exclusively in forest management (purchased, as appropriate, by O&M or procurement appropriations under reimbursable program authority).

2.3.2. To the extent that an installation receives applicable program support from a function or activity above the installation level, costs shall be prorated based on the level of effort among all applicable military installations or facilities involved in the program.

2.3.3. Program obligations do not include amounts incurred for operations that, while related to the land and forest, are for other purposes such as the military mission, recreation, general area improvement, wildlife management, and beautification. Do not include amounts for the protection of forests that are incapable of economic production of timber products. Program obligations at all organizational levels shall be categorized according to the functions listed in subparagraphs 2.4.1.1 through 2.4.1.7, above.

2.3.4. Reimbursable program obligations under Title 10, United States Code (U.S.C.), section 2665(d) include all program costs except those cited in subparagraph 2.4.3, above. Acquisition of equipment shall be justified on an economic basis. When general equipment is used in forestry program operations, obligations incurred by DoD appropriations for that use shall be included as program costs.

2.4 **Accounting and Reimbursements (160204)**

2.4.1. Proceeds collected from forestry sales shall be turned over to the supporting DoD disbursing officer. These proceeds shall be deposited without delay to the Treasury General Fund Receipt Clearing Account **F3875,** “Budget Clearing Account (Suspense).” (The applicable agency code will be shown instead of asterisks.) That portion of the proceeds used to finance reimbursable expenses shall be transferred to the funding O&M or procurement appropriation in accordance with annual budget guidance. Table 16-1 illustrates the applicable United States (U.S.) Treasury account symbols.
2.4.2. At the end of the fiscal year, estimate the amount of each state’s entitlement and transfer that amount from **F3875 to deposit account **X6875, “Suspense.” After the states’ entitlements are computed (see subparagraph 2.1.1, above, and paragraph 2.8, below), adjust the estimate to record applicable refunds to **F3875 or additional transfers to **X6875. Make payments to the states from **X6875. After the states have been paid and appropriation accounts reimbursed, transfer any remaining balance in **F3875 to 21*5285, “Department of Defense, Forest Products Program, Army.”

2.4.3. On December 31 of each year, the Deputy Under Secretary of Defense (Environmental Security), Office of the Under Secretary of Defense for Acquisition, Technology and Logistics (OUSD(AT&L)) (or designee) shall review the balance in 21X5285 and direct the transfer of any amount in excess of $4 million to U.S. Treasury account **3210, “General Fund Proprietary Receipts, Defense Military, Not Otherwise Classified.”

2.5 Compute Entitlements (160205)

Compute entitlements to each state in accordance with 10 U.S.C. 2665(e). Determine these entitlements based on a separate calculation for each military installation or facility from which forest products were sold in that fiscal year.

2.5.1. Maintain records for each military installation or facility concerned in order to effect sales proceeds and reimbursable program obligations by fiscal year. If a military installation or facility is located in more than one state, make payments to each state involved in a manner proportional to the area of the installation or facility situated in each state. If an installation or facility is located in more than one county within a state, a description of the areas (acres) of the installation or facility situated in each county may accompany that state’s entitlement.

2.5.2. Disburse states’ entitlements within 90 days after the end of the fiscal year. These payments shall be made by electronic funds transfer.
2.6 Distribute Net Proceeds (160206)

As directed by the USD(AT&L) or designee, in coordination with the Office of the Under Secretary of Defense (Comptroller) (OUSD(C)), distribute net proceeds among the Military Services to meet the overall funding requirements of the DoD forestry program.

2.7 Chapter Provisions (160207)

These OUSD(C) provisions govern the recording of sales revenue, program obligations, entitlement payments to states, and all other accounting for this program.

2.8 Coordinating and Reporting Requirements (160208)

Figure 16-2 contains USD(AT&L) coordinating and reporting requirements. The Forest Products Sales Program report has been assigned Report Control Symbol DD-A&T(Q&A)1649. See subparagraph 3.2.1, below, and figures 16-3, 16-4 and 16.5

3.0 RESPONSIBILITIES (1603)

3.1 The USD(AT&L) or Designee Shall (160301):

3.1.1. Issue and monitor policy on forest management of DoD lands in accordance with DoD Directive 4700.4, “Natural Resources Management Program.”

3.1.2. Advise the Military Services of potential downward adjustments in funding for the program during the year if timely receipt of anticipated proceeds becomes doubtful.

3.2 The Secretaries of the Military Departments shall (160302):

3.2.1. Prepare annual forestry program budgets for the coming fiscal year that include anticipated sales revenue, program obligations, states’ entitlements, unfinanced requirements, and transfers. See Figure 16-2, below “Coordination and Reporting Requirements” for due date and other reporting information.

3.2.2. Ensure that all proposed obligations are related directly to the economical production and sale of forest products, consistent with DoD Directive 4700.4.

3.2.3. Ensure that no unplanned program obligations are incurred simply to “use up” proceeds.

3.2.4. Adjust the program downward during the year by reducing planned obligations if actual proceeds do not materialize at anticipated levels and sufficient funding cannot be obtained from the reserve account.
3.2.5. Ensure that all program obligations are accumulated in DoD appropriation accounts and that reimbursements and distributions to States and the use of funds from the DoD Reserve Account conform to paragraph 2.3, above.

3.2.6. Comply with requirements stated in paragraph 2.5, above.

3.2.7. Coordinate approved budgets with the USD(AT&L) or designee to assist in planning and trade-off analysis and to ensure effective and efficient functioning of the overall DoD program.

3.2.8. Review the cumulative total obligations incurred, estimated program obligations, cumulative revenue, and realistic estimates of future revenue to determine whether DoD forests remain capable of economic production.

3.2.9. Identify to the DoD Executive Agent (see subparagraph 3.3.1, below) the official who is authorized to transfer surplus funds (see Figure 16-1) and accept reserve funds.

3.3 The Secretary of the Army shall (160303):

3.3.1. Act as DoD Executive Agent to monitor and coordinate financial management of the DoD forest products program.

3.3.2. Coordinate the transfers of surplus and reserve funds.

3.3.3. Maintain the DoD Reserve Account (21*5285) and make transfers in accordance with the instructions from the USD(AT&L) or designee. (Replace asterisk with fiscal year designator.)
Figure 16-1 DEFINITIONS

1. Forest Products. Those items produced from a forest such as sawtimber, veneer logs, poles, piles, posts, pulpwood, pine straw, stumpwood, bark, and other mulch, cones, seeds, mistletoe, firewood, and wood chips.

2. Net Proceeds. The amount received by the United States during a fiscal year (FY) as proceeds from the sale of forest products produced on a military installation or facility, minus the amount reimbursed to the Department of Defense, under 10 U.S.C. 2665, for program costs incurred by that installation or facility. Program costs include obligations for current operating expenses and for the purchase of capital equipment required to operate the program.

3. Reserve Funds. A reserve account authorized under 10 U.S.C. 2665 and administered by the Department of Defense. The amount is held in the U.S. Treasury Special Fund Account 21*5285, Department of Defense, Forest Products Program, Army. (Replace asterisk with fiscal year designate.)

4. Surplus Funds. The amount expected to be available during the year within the Department of Defense after providing for the reimbursements under this Instruction. These funds represent the amounts to be transferred to the DoD Reserve Funds Account.
1. **Purpose.** To coordinate forestry obligations and revenues of the Military Services to ensure that overall DoD revenue is sufficient to reimburse all authorized obligations for the production and sale of forest products.

2. **Authority.** Title 10, United States Code (U.S.C.), section 2665

3. **Schedule**

   a. **December 15.** Each Military Service disburses funds to the various states. Each disbursement shall be accompanied by identification of the generating installation(s) and amount generated by each installation.

   b. **December 30.** Each Military Service deposits funds from the F3875 clearing account to the DoD Reserve Account (21*5285). (Replace asterisk with fiscal year designation.)

   c. **January 2.** Each Military Service transmits the “Actual Revenue and Obligations Report” to the Executive Agent (EA) and the Office of the Deputy Under Secretary of Defense (Environmental Security) (OUSD(AT&L)). See Figure 16-3.

   d. **February 15.** Each Military Service transmits to the EA and the USD(AT&L) a report of cumulative program revenue and obligations through December 31 of the current fiscal year and any planned changes. See Figure 16-4.

   e. **May 15.** Each Military Service transmits to the EA and the USD(AT&L) a report of cumulative program revenue and obligations through March 31 of the current fiscal year and any planned changes. See Figure 16-4.

   f. **August 15.** Each Military Service transmits to the EA and the USD(AT&L) a report of cumulative revenue and obligations through June 30 of the current fiscal year and any planned changes. See Figure 16-4.

   g. **September 1.** Each Military Service transmits to the EA and the USD(AT&L) its planned forest products revenue and expenses, by appropriation, for the coming fiscal year. See Figure 16-5. This plan shall reflect no deficit in the program; however, a description of unfinanced needs may accompany the plan.

ARMY Annex

ARMY POLICIES AND PROCEDURES FOR PRODUCTION AND SALE OF FOREST PRODUCTS

A. The Reimbursable Forestry Program

1. **General.** This chapter and annex prescribes the policies and procedures for budgeting, accounting and reporting of proceeds and obligations associated with the production and sale of forest products at Army installations or facilities (see Title 10, United States Code (U.S.C.), section 2665). Determine eligibility for participation within this program using the provisions of Army Regulation (AR) 200-3. The objectives of the Army’s reimbursable forestry program are to support mission operations, support conservation compliance, and execute natural resources stewardship.

2. **Responsibilities.** Headquarters, Department of the Army (HQDA), through the Office of the Director of Environmental Programs (ODEP) along with the United States (U.S.) Army Environmental Center (USAEC), major Army commands (MACOMs), and Army installations, is responsible for the execution of the Army’s reimbursable forestry program. The ODEP, as the program manager, in coordination with other Army Staff (ARSTAF) offices, shall monitor all proceeds received and recommend targets for reimbursable authority to the Director of Environmental Programs (DEP).

3. **Budgeting.** Include authority to execute reimbursable work on the Funding Authorization Document (FAD). Automatic reimbursable authority may be used for operation and maintenance, minor construction, purchase of forestry equipment, and other obligations directly related to the reimbursable forestry program. The ODEP shall annually determine targets for the MACOMs’ forest products reimbursable authority based on the anticipated proceeds, obligations, and states’ entitlements. Issue these targets to the MACOMs separately memorandum from the ODEP.

4. **Proceeds.** Deposit proceeds from the sale of forest products into General Fund Budget Clearing Account, 21F3875.3960. Report proceeds on the Accelerated Reporting of Receipt and Outlay (Expenditure) Data-Statement of Accountability Report (RCS CSCFA-302A). This includes proceeds from forest products disposed of by the Defense Reutilization and Marketing Service. Forest products include, but are not limited to, veneer logs, timber, pine straw, stumpwood, bark, mulch, cones, seeds, mistletoe, firewood, Christmas trees, sawlogs, chips, poles, piles, posts, and pulpwood. The products can be dead and down or designated standing timber. When forest products are removed from Army lands by any means other than a commercial sale (for example, generating energy on the installation), a dollar amount equal to the fair market value shall be deposited in the Army Forestry Account by the proponent of the activity removing the forest products. The only exception is that forest products may be removed or used directly to assist the military mission without payment. Deposit advances from contractors as unearned revenue in the same account as the unfilled orders to which the advance applies. Monthly, each
activity’s accounting office shall transfer current month earnings from the unearned revenue to the deposit fund account.

5. **Expenses.** Program expenses incurred by HQDA, installations or facilities and the District Engineer Offices shall be related directly to the integrated management, production and sale of forest products, and associated program management costs for personnel at all levels (i.e., installation, MACOM, district, division, field operating activity (FOA), ARSTAF and auxiliary staff) whose primary duties are to administer the forestry reimbursable program. Program expenses shall be categorized according to the functions listed below.

   a. **Forestry Equipment.** Include purchase, over the Capital Expenditure Limit (currently $100,000) only, of forestry equipment (for example, vehicles, or heavy equipment) used exclusively in reimbursable forest management.

   b. **Forest Fire Protection.** Include the protection of forests on land in forestry reimbursable programs. Include equipment costing less than the Capital Expenditure Limit.

   c. **Forest Management.** Include reimbursable forest management functions. Include supervision, planning, programming, and conducting field surveys and inventories, training, and attending professional meetings. Include improvements of existing forest stands, whether they are planted, seeded, or natural, including natural resources projects in direct support of the reimbursable forestry program. This includes controlling undesirable vegetative growth, prescribed burning, precommercial thinning, and pruning. Include the protection of reimbursable forests from insect, disease, animal, flood, and erosion damage. Include the sale and preparation for sale of forest products. Include appraising, cruising, marking, scaling, preparing sales contracts, escorting prospective bidders, advertising, sales administration, and contract compliance inspections. Include equipment costing less than the Capital Expenditure Limit.

   d. **Forest Access Roads.** Include construction, repair, and maintenance of reimbursable forest access roads and trails. Include the repair of other roads resulting from the production and harvest operations. Include equipment costing less than the Capital Expenditure Limit.

   e. **Reforestation.** Include natural or artificial regeneration, including planting, purchasing of seeds or seedlings, and preparing sites. Include equipment costing less than the Capital Expenditure Limit.

   f. **Forestry Support.** Include Phase I archaeological surveys, threatened and endangered species surveys, and military mission coordination efforts driven only by forestry activities (for example, planting and harvesting).

6. **Reporting and Review**

   a. Report proceeds on the RCS CSCFA-302 report. (“Report obligations incurred as automatic reimbursable obligations on the RCS CSCFA-218 (Status of Approved Resources Report”). Report obligations incurred for items of equipment purchased with
procurement appropriation funds on the RCS CSCFA-112 (“Status of Reimbursements Report”). See Volume 6 of this Regulation for reporting instructions.

b. Report reimbursements earned on the RCS CSCFA-112 report as “Transferred for Collection” in the “Reimbursement Collected-Automatic” column. Identify the amounts transferred by detail reimbursement source code. Identify the amount of reimbursements “Transferred for Collection” as a separate footnote on the RCS CSCFA-112 report. Report reimbursements for items of equipment financed with procurement funds on the RCS CSCFA-112 report. Bill and collect according to procedures outlined in Chapter 12 of this volume. See Volume 6A or 6B of this Regulation for reporting instructions.

c. HQDA, MACOMs, installations, district engineering offices, Defense Finance and Accounting Service (DFAS) sites, and Field Accounting Offices (FAOs) shall submit quarterly analysis of actual proceeds and obligations to become part of the RCS CSCFA-218 report. The U.S. Army Corps of Engineers (USACE) districts shall report proceeds and obligations separated by installation to the DFAS-Indianapolis (Sustaining Forces).

d. The DFAS-Indianapolis (Sustaining Forces) shall provide a quarterly Consolidated Analysis of Department of the Army (DA) Forest Products, based on USACE and installation input, to USAEC within 30 days after the end of each quarter. The USAEC, the MACOMs, and the USACE jointly shall review the Army’s commercial forestry program utilizing this report. The USAEC shall maintain a 7-year historical data record of annual proceeds and obligations.

e. Within 90 days after the conclusion of each fiscal year, the DFAS-Indianapolis (Sustaining Forces) shall compute the concluding fiscal year’s unfilled forestry orders (transferring excess to or removing required funds from that fiscal year’s Lumber/Timber account 21F3875.3960), compute and provide 40 percent of the net proceeds per installation to the appropriate States, and deposit the remaining net proceeds into the Forest and Wildlife Conservation, Military Reservations Account (21R5285, DFAS-Indianapolis Manual 37-100-FY). Before issuing states’ entitlements, the DFAS-Indianapolis (Sustaining Forces) shall confirm figures with the USAEC. States’ entitlements and transfers to 21R5285 shall not be made until monies are set aside, if necessary, to cover unfilled forestry orders.

f. States entitlements shall be issued to state treasurers with sufficient explanation to include reason for the issuance, itemization by installations and counties, and the DFAS point of contact (POC) phone number(s). A copy of this information shall be furnished to the USAEC.

g. The USACE determines and updates, as required, the total acreage by county and state for all Army installations or facilities participating in the DoD Forest Products Program. The USACE provides this data to the DFAS-Indianapolis (Sustaining Forces). The DFAS shall update its files for determining states’ entitlements. Acreage by county is the total acreage of the installation or facility, not just the acreage applicable to the forest products program.

B. The Forestry Reserve Account
1. **General.** The Forest and Wildlife Conservation, Military Reservations Account (The Forestry Reserve Account (21X5285)) is sustained with the calendar year end transfers from each of the Services’ Forestry Program Deposit Fund accounts (**F3875**).

2. **Responsibilities.** The Army is the DoD executive agent for this account. Balances in this account shall be used in accordance with paragraph 2.3 of this chapter.

3. **Project Approval Process.** The project approval, funding and accounting processes for forestry reserve account projects at Army installations or facilities are outlined below.

   a. Annually, the ODEP shall request the MACOMs, based on installation input, to submit proposed projects to the Commander, USAEC, ATTN: SFIM-AEC-EQN, Aberdeen Proving Grounds, MD 21010-5401. The USAEC shall consolidate the proposals and provide them to ODEP. In coordination with other concerned ARSTAF offices and the Office of the Deputy Assistant Secretary of the Army, Environmental Safety and Occupational Health (ODASA-ESOH), the ODEP initially shall rank the proposals and submit them to the Assistant Chief of Staff for Installation Management for consideration and official submittal to the DASA-ESOH. The DASA-ESOH forwards Army’s official submittal to the Department of Defense for funding.

   b. The DFAS-Indianapolis (Sustaining Forces) shall transfer the total approved Army projects from 21X5285 when the Deputy Under Secretary of Defense (Environmental Security) approval memorandum and appropriate accounting classification are received from USAEC.

   c. Based on the approved project list, the USAEC shall prepare a Military Interdepartmental Purchase Request (MIPR) (DD Form 448) citing Economy Act orders and forward a copy to the requesting/performing activity.

   d. The requesting/performing activity shall accept the MIPR and forward signed copies to the USAEC.

   e. Any remaining funds, after completion of the project, shall be returned to the USAEC. At no time shall the performing activity incur expenses in excess of the accepted MIPR.

4. **Fund Transfers from 21X5285.** The DFAS-Indianapolis (Sustaining Forces) shall transfer funds for approved Army projects from this account to USAEC using a “no check drawn” SF 1080. The DFAS-Indianapolis (Sustaining Forces) shall handle the transaction as a reverse collection.

   a. Funds for approved projects at other DoD agencies shall be transferred by the DFAS-Indianapolis (Sustaining Forces) via an On-Line Payment and Collection (OPAC) transaction.
b. Collection and disbursement of funds from this account are limited to the DFAS-Indianapolis (Sustaining Forces).

5. Calendar-Year End

a. The DFAS shall deposit unobligated balances exceeding $4 million on December 31 to a U.S. Treasury General Fund Miscellaneous Receipts Account in accordance with subparagraph 2.3 of this chapter.

b. Deposits to the account of proceeds from the preceding fiscal year shall not be made until after January 1 to allow sufficient time to manage new deposits efficiently.

c. The DFAS-Indianapolis (Sustaining Forces) shall report to the USAEC on the activity and balance of this account within 30 days after the end of each quarter.

C. Equipment Purchases

1. General. Equipment purchased shall be for commercial forest management use when purchased with forestry automatic reimbursable authority and for natural resources uses when purchased with DoD Forestry Reserve Account or Agricultural/Grazing automatic reimbursable authority. (See Volume 12, Chapter 14.) Equipment purchases shall be coordinated fully with the organization equipment manager or equivalent.

2. Equipment Acquisition Process. Each purchase of equipment shall begin with an internal review of contract/buy/lease options, funding availability, and the potential for use of multipurpose equipment. The reimbursable authority is intended only to supplement routine procurement sources. Programmed equipment authority, such as Other Procurement, Army (OPA), shall be used for equipment. If the internal review justifies the need to purchase new equipment, then the general procedures outlined below shall be utilized.

a. The installation shall assure authority exists in the Table of Distribution and Allowances (TDA) or Common Table of Allowance (CTA).

b. The installation shall determine whether the equipment to be purchased is centrally managed by the Tank and Automotive Command (TACOM). The installation Property Book Officer (PBO) can make this determination by checking the equipment Line Item Number (LIN) against the Supply Bulletin 700-20. If the equipment is not centrally managed and is less than the Capital Expenditure Limit, then the equipment may be purchased locally or through the GSA schedule.

c. If the equipment is centrally managed, then the TACOM shall conduct the purchase unless a waiver for local procurement is granted.
d. If the estimated cost of the equipment is greater than the capital expenditure limit, centrally managed or not, do not use OMA (Agricultural/Grazing, Forestry, or Forestry Reserve Account). The TACOM shall use equipment purchase authority, reimbursing OPA. The purchase may be finalized at the TACOM, or the authority may be returned to the installation for a local procurement with a local procurement waiver.
### VOLUME 11A, CHAPTER 17: “OFFSETTING RECEIPTS”

#### SUMMARY OF MAJOR CHANGES

Changes are identified in this table and also denoted by blue font.

Substantive revisions are denoted by an * symbol preceding the section, paragraph, table, or figure that includes the revision.

Unless otherwise noted, chapters referenced are contained in this volume.

Hyperlinks are denoted by *bold, italic, blue and underlined font*.

The previous version dated March 1997 is archived.

CHAPTER 17

OFFSETTING RECEIPTS

1.0 OVERVIEW (1701)

1.1 GENERAL (170101)

This chapter prescribes standard procedures for accounting and reporting offsetting receipts throughout the Department of Defense (DoD).

2.0 DEFINITIONS (1702)

2.1 Offsetting Receipts (170201)

Offsetting receipts are collections within the Department of Defense that result from proprietary or business-like transactions (such as rents, sales of services and products, patent fees, sale of property, etc.) and from Intragovernmental transactions such as deposits between Federal and trust funds or payments within the same fund group.

2.1.1. Offsetting receipts are recorded as offsets to gross outlays and may be distributed or undistributed. Distributed offsetting receipts offset outlays of DoD as the agency that conducts the activity generating the receipts. Undistributed offsetting receipts offset government-wide outlays.

2.1.2. Offsetting receipts are credited to general fund, special fund, or trust fund receipt accounts and offset gross outlays. Standard receipt accounts are prescribed by the Department of the Treasury in its Federal Account Symbols and Titles (FAST) Book. Offsetting receipts are deposited with the Department of the Treasury Financial Management Service (FMS) using receipt accounts symbols and reported monthly on the FMS Form 1220, “Statement of Transactions According to Appropriations, Funds and Receipt Accounts” as prescribed in Volume 6A Chapter 3.

2.1.3. Offsetting receipts are deducted from budget authority and outlays at agency (Component) levels. Actual offsetting receipts are reported on the Statement of Budgetary Resources and in budget submissions by DoD Components as described in Volume 6B Chapter 7.

2.1.4. Receipts collected by DoD Components shall be classified according to (1) the source of the receipt, (2) the authority for the collection and the nature of the transaction, and (3) whether the receipt offsets agency (Component) or government-wide totals. Receipts also are classified into fund groups in accordance with the Treasury FAST Book (i.e., general funds (0000-3799); clearing accounts (3800-3899); special funds (5000-5999); and trust funds (8000-8999)). In this section of the FAST Book, distributed offsetting receipts, as described in the Office of Management and Budget (OMB) Circular No. A-136 “Financial Reporting Requirements” are identified with the check √ symbol before the account title.
2.1.5. Most offsetting receipts are offset (deducted) against the function that contains the outlays which give rise to the receipts, i.e., the function of the account collecting the money. In such cases, these offsetting receipts are deducted at the agency and sub-functional level before reaching functional budget authority or outlay totals, and are referred to as “distributed” to the functions. However, there are several categories of offsetting receipts that cannot be offset properly against any specific function. These collections are deducted at government-wide totals and are referred to as “undistributed offsetting receipts.” Such receipts are either intrabudgetary (a payment from one Federal agency to another, such as agency payments to the retirement trust funds) or proprietary (a payment from the public for some type of business transaction with the government). There are four (4) types of receipts that are deducted from budget totals as undistributed offsetting receipts:

2.1.5.1. Agency payments (including payments by off-budget Federal entities) as employers into employees’ retirement funds;

2.1.5.2. Interest received by trust funds;

2.1.5.3. Rents and royalties on the Outer Continental Shelf lands; and

2.1.5.4. Other interest such as that collected on Outer Continental Shelf money in deposit funds when such money is transferred into the budget.

*3.0 GENERAL STANDARDS (1703)

*3.1 Contents (170301)

Contents of this chapter shall be used in addition to the accounting principles, standards, and procedures established in the chapters that follow.

3.1.1. Volume 4 - Accounting Policy and Procedures

3.1.1.1. Chapter 2 “Accounting for Cash and Fund Balance with Treasury”

3.1.1.2. Chapter 16 “Revenues and Other Financial Sources, Expense, Gains and Losses”

3.1.1.3. Chapter 19 “Managerial Cost Accounting”

3.1.2. Volume 6A – Reporting Policy and Procedures: Chapter 4 “Appropriation and Fund Status Reports”

3.1.3. Volume 12 – Special Accounts Policy and Procedures: Chapter 1 “Funds”
**3.2 Budgeting Standards (170302)**

Budgeting standards for offsetting receipts are prescribed by the Office of Management and Budget (OMB) Circular No. A-11, Preparation, Submission, and Execution of the Budget.

**Budget Classification of Offsetting Receipts**

(Receipt type codes in bold face)

- **Offsetting Receipts**
  - Intragovernmental
  - Interfund
  - Intrafund
  - Trust Intrafund (IT)
  - Federal Intrafund
  - Distributed (ID)
  - Undistributed (UI)
  - Distributed (IF)
  - Undistributed (UF)
  - Business-Like (Proprietary)
    - Distributed (P)
    - Undistributed (UP)
  - Offsetting Governmental
    - Distributed (OG)
    - Undistributed (UG)
  - Non-Federal Sources

* Normally offsets budget authority and outlays at the agency level.

Preparation of budget justification requirements are also prescribed in Volume 2B Chapter 11, “Budget Formulation and Presentation.” OMB adopted a single format to present like information in the SF 132, SF-133, and Schedule P. The realignment employs three common data sections—Budgetary Resources; Change in Obligated Balance; and Budget Authority and Outlays, Net. The SF-133, Schedule P and Statement of Budgetary Resources will use all three of the sections, and the SF 132 will use the common Budgetary Resources.

**4.0 ACCOUNTING AND REPORTING STANDARDS FOR OFFSETTING RECEIPTS (1704)**

**4.1 Offsetting Receipts (170401)**

Offsetting receipts within the Department are collections from the public that result from business-like transactions such as sales of property, rental fees or sales of services. These miscellaneous proprietary receipts are recorded using receipt account symbols prescribed by the Treasury FAST Book. Offsetting receipt account symbols normally used within the Department are:
4.1.1. Account 1435. General fund proprietary interest, not otherwise classified. This account shall be used only for Defense civil functions. Account 1435 shall not be used for Defense military functions. Deposits of interest on loans, investments, and other equities shall be deposited in account 3210 to ensure that the Department receives credit for the offsetting receipt.

4.1.2. Account 1840. Proprietary receipts for rent of equipment and other personal property. This account shall be used exclusively by the Military Departments. Defense Agencies shall deposit rent receipts into Account 3210.

4.1.3. Account 2462. Proprietary receipts for survivor annuity benefits. This account shall be used exclusively by the Military Departments. Defense Agencies shall deposit receipts into Account 3210.

4.1.4. Account 2641. Proprietary receipts for the sale of ordinance material within the Department. All DoD Components may use this account.

4.1.5. Account 2651. Proprietary receipts for the sale of scrap and salvage materials within the Department. All DoD Components may use this account, but the Military Services must cite 97 2651.

4.1.6. Account 3019. Proprietary receipts for recoveries for government property lost or damaged, not otherwise classified. This account shall be used exclusively by the Military Departments. Defense Agencies shall deposit such recoveries into Account 3210.

4.1.7. Account 3041. Proprietary receipts for recoveries under the Foreign Military Sales Program. This account shall be used by all DoD Components. Receipts in this account shall be subcategorized and reported to the Office of the Under Secretary of Defense, Comptroller (OUSD(C)) on the SF-133, in accordance with the guidance contained in Volume 6A Chapter 4. The subcategories are:

4.1.7.1. Nonrecurring Research, Development, Test and Evaluation (RDT&E) and production costs.

4.1.7.2. Sale of principal and/or major items from stock that do not require replacement.

4.1.7.3. Sale of excess stock fund and procurement of secondary items from stock.

4.1.7.4. Charges for unfunded civilian retirement costs.

4.1.8. Account 3210. General fund proprietary receipts, not otherwise classified. The Military Departments shall use this account for proprietary receipts not otherwise classified (as cited above). Defense Agencies shall use this account for proprietary receipts not allowed to be reported as indicated in subparagraphs 5.1.1 through 5.1.7. Receipts in this account shall be maintained and reported for budget purposes in sub-categories as follows:
4.1.8.2. Sales of surplus real property (excluding Account 2621).
4.1.8.3. Sales of materials, equipment, and other personal property (excluding Account 2641).
4.1.8.4. Interest on loans.
4.1.8.5. Repayment of loans.
4.1.8.6. Royalties on patents, trademarks, and copyrights.
4.1.8.7. Rent of real property.
4.1.8.8. Rent of equipment and other personal property (excluding Account 1840).
4.1.8.9. Sale of power and utilities.
4.1.8.10. For Defense Agencies:
   4.1.8.10.1. Sale of publications and reproductions, not otherwise classified (similar to Account 2259).
   4.1.8.10.2. Fees and other charges for communications and transportation services, not otherwise classified (similar to Account 2429).
   4.1.8.10.3. Proceeds from sale of equipment and other personal property, not otherwise classified.
   4.1.8.10.4. Recoveries for government property, lost or damaged, not otherwise classified (similar to Account 3019).

*4.2 Budget Clearing Account (Suspense) (170402)

   Offsetting receipts that are not readily classified into established categories shall be temporarily accounted for in the Budget Clearing Account (suspense), F3875. All efforts shall be made to identify and clear out suspense accounts and record these receipts properly into the applicable categories listed above within 60 calendar days as discussed in Volume 5 Chapter 11 and Volume 5 Chapter 24.

*4.3 Depositing Offsetting Receipts (170403)

   All offsetting receipts shall be recorded immediately upon receipt and deposited with the Department of the Treasury as soon as practicable. Any delays in borrowing or deposit preclude use
of the funds by the Treasury Department to benefit the U.S. Government through the avoidance of interest expense.

*4.4 Reporting Offsetting Receipts (170404)

Offsetting receipt amounts reported by DoD Components shall agree with the collections credited to receipt accounts maintained by the Department of the Treasury. Those DoD Components that prepare consolidated reports shall obtain the required information from applicable organizations and assure that the amounts reported are in agreement with balances reflected by the Department of the Treasury.

4.4.1. FMS Form 1220. Actual offsetting receipts shall be reported on a monthly basis on FMS Form 1220, “Statement of Transactions According to Appropriations, Funds and Receipt Accounts” (SOT) consistent with requirements of the OUSD(C) Program/Budget (P/B), Program and Financial Control (P&FC) Directorate as prescribed in Volume 6A Chapter 3.

4.4.2. SF-133 Report. Do not submit SF133 reports for receipt accounts (including clearing accounts and suspense accounts) unless required by OMB. Distributed offsetting receipts credited to Components shall be included in the SBR. Undistributed offsetting receipts credited to the government-wide outlay totals should not be included in the SBR. In November 2010, OMB adopted a single format to present like information in the SF 132, SF-133, and Schedule P. The realignment employs three common data sections - Budgetary Resources; Change in Obligated Balance; and Budget Authority and Outlays, Net. The single format SF-133, Schedule P and SBR will use all three of the sections. Procedures on monthly budget execution reporting are prescribed in Volume 6A Chapter 4, “Reporting Policy and Procedures.” These reports shall be submitted on a monthly basis to the Director for OUSD(C) (P/B). Specific requirements are prescribed in Volume 6A Chapter 4. Offsetting receipt amounts reported on these reports shall equal the amounts deposited with the U.S. Treasury.

4.4.2.1. A separate SF-133 report for each group of offsetting receipt accounts shall be submitted as part of the basic appropriation report. Separate SF-133 reports are required for Federal funds and trust funds under each of the functional groups: “Military Functions,” “Civil Functions” and “Military Assistance.”

4.4.2.2. Separate SF-133 reports are required within any of the foregoing groups in the event that the receipts consist of more than one of the following categories:

4.4.2.2.1. Proprietary receipts from the public (P).

4.4.2.2.2. Interfund receipts (ID).

4.4.2.2.3. Federal intrafund receipts (IF) including those receipts in Budget Clearing Account (suspense), **F3885.
*4.5  Proprietary and Budgetary General Ledgers (170405)

Offsetting receipts shall be recorded in the proprietary and budgetary general ledgers.

*4.5.1. Volume 3 “Budget Execution,” Chapter 15 and Volume 4 “Accounting Policy and Procedures” Chapters 2, 16, and 19 prescribe the general ledger accounts to be used in recording offsetting receipts.

4.5.2. Source documents for the general ledger entries include cash collection vouchers, sales slip, rental receipts, and journal vouchers.

*5.0 USE OF ACCOUNTING DATA FOR BUDGET SUBMISSIONS (1705)

*5.1 Budgeting Requirements (170501)

Budgeting requirements are established by OMB Circular No. A-11 and Volume 2A and Volume 2B, “Budget Formulation and Presentation.”

*5.2 Receipt Accounts (170502)

Offsetting receipts deposited in receipt accounts are deducted as offsets to outlays and against budget authority at sub-function and agency levels. For instance, sub-function 051, “Department of Defense, Military,” is the level at which proprietary receipts from the public are deducted from the Department's budget authority and outlays in arriving at total DoD Federal Funds in the budget.

*5.3 Accuracy and Timeliness (170503)

The accuracy and timeliness of recording and reporting offsetting receipts are critical in the budget preparation process. Actual receipts for the prior year are reported in the budget submissions and are used as the basis for projecting estimates for the budget outyears.

CHAPTER 18

NON-ECONOMY ACT ORDERS

1.0 GENERAL (1801)

1.1 Purpose (180101)

This chapter prescribes the financial management policy applicable to orders placed for goods or services from non-Department of Defense (DoD) Federal agencies under statutory authorities other than the Economy Act authority provided in Title 31, United States Code, section 1535 (31 U.S.C. § 1535). These orders are referred to as non-Economy Act orders. Chapter 1 provides overall guidance and discussion of general reimbursement procedures and supporting documentation.

*1.2 Authoritative Guidance (180102)

1.2.1. 10 U.S.C. § 2410a provides statutory authority for severable service contracts for periods crossing fiscal years.

1.2.2. 31 U.S.C. § 1502 stipulates the bona fide needs rule.

1.2.3. DoD Instruction 4000.19, “DoD Agreements,” establishes policy, assigns responsibilities, and provides direction for agreements within the DoD and between DoD and non-DoD entities.

1.2.5. Federal Acquisition Regulation (FAR) Part 7, “Acquisition Planning,” provides Federal-wide acquisition policy and procedures related to acquisition planning.

1.2.7. The Treasury Financial Manual (TFM) Volume I, Part 2, Chapter 4700, 1 TFM 2-4700, Section 4706 “Intragovernmental Quarterly and Year-End Requirements.”
2.0 DEFINITIONS (1802)

2.1 Assisted Acquisition (180201)

**FAR Subpart 2.1** defines an assisted acquisition as a type of interagency acquisition where a servicing agency performs acquisition activities on a requesting agency’s behalf, such as awarding and administering a contract, task order, or delivery order. DFARS 217.701 defines assisted acquisition similarly as the type of interagency contracting through which acquisition officials of a non-DoD agency award a contract, task, or delivery order for the acquisition of supplies or services on behalf of DoD.

2.2 Direct Acquisition (180202)

Per FAR Subpart 2.1, a direct acquisition is a type of interagency acquisition where a requesting agency places an order directly against a servicing agency’s indefinite-delivery contract. The servicing agency manages the indefinite-delivery contract but does not participate in the placement or administration of an order. DFARS 217.701 defines direct acquisition as a type of interagency contracting through which DoD orders a supply or service from a Government-wide acquisition contract maintained by a non-DoD agency.

2.3 Interagency Acquisition (180203)

As defined in FAR Subpart 2.1, an interagency acquisition is an action by which an agency needing supplies or services (the requesting agency) obtains them from another agency (the servicing agency) by an assisted acquisition or a direct acquisition. The term includes acquisitions under the Economy Act (31 U.S.C. § 1535) and non-Economy Act acquisitions completed under other statutory authorities.

2.4 Multiple Year Appropriation (180204)

As used in this chapter, a multiple year appropriation means an appropriation that is available for obligation for a definite period of time in excess of one fiscal year.

2.5 Non-Severable Service (180205)

A non-severable service represents a single undertaking that cannot be feasibly subdivided. If the service produces a single or unified outcome, product, or report, the service is considered non-severable.

2.6 Requesting Agency (180206)

The requesting agency is defined in FAR Subpart 2.1 as the agency that has the requirement for an interagency acquisition.
2.7 Servicing Agency (180207)

The servicing agency is defined in FAR Subpart 2.1 as the agency that will conduct an assisted acquisition on behalf of the requesting agency.

2.8 Severable Service (180208)

A severable service represents a service that is continuing and recurring in nature where the agency realizes a benefit at the time that the service is provided even if the contract has not been performed to completion. A service is considered severable if it can be separated into a component that independently provides value to meet an agency’s need.

2.9 Trading Partner (180209)

A trading partner is defined as a Federal entity that is party to intragovernmental transactions with another Federal entity. This includes transactions between DoD Components and transactions between DoD Components and other non-DoD Federal entities.

3.0 LEGAL AUTHORITY (1803)

3.1 Statutory Conditions on Use (180301)

Specific statutory authority is required to place a non-Economy Act order with a non-DoD agency for goods or services, and to pay the associated cost. If specific statutory authority does not exist, the default will be the Economy Act which is discussed in Chapter 3. The more commonly used non-Economy Act authorities include, but are not limited to:

3.1.1. Acquisition Services Fund. The Acquisition Services Fund was established by the General Services Administration Modernization Act that merged the General Supply Fund and the Information Technology Fund to carry out functions related to the uses of the Acquisition Services Fund including any functions previously carried out by the Federal Supply Service and the Federal Technology Service managed by the General Service Administration (GSA).

3.1.2. Franchise Funds. Franchise Funds were first established by the Government Management Reform Act of 1994 to provide common administrative support services on a competitive and fee basis.
3.2 Justification (180302)

Non-Economy Act orders may be placed with a non-DoD Federal agency for goods or services if:

3.2.1. Proper funds are available;

3.2.2. The order does not conflict with another agency’s designated responsibilities (e.g., real property lease agreements with GSA);

3.2.3. The requesting agency or unit determines the order is in the best interest of DoD; and

3.2.4. The performing agency is able and authorized to provide the ordered goods or services.

3.3 Simplified Acquisition Threshold (180303)

Non-Economy Act orders greater than the simplified acquisition threshold must comply with FAR Part 7 and established DoD Components’ procedures for the proper use of non-DoD contracts. The “Non-Economy Act Acquisition Package Checklist” provided in Figure 18-1 and the list of “Requesting Official Responsibilities” in Figure 18-2 will assist in ensuring that statute, policy, and regulation are complied with under non-Economy Act orders.

3.4 Prohibitions (180304)

Non-Economy Act orders may not be used to:

3.4.1. Violate provisions of law or accomplish what regulations do not permit under commercial contracts; or

3.4.2. Circumvent conditions and limitations imposed on the use of funds to include extending the period of availability of the cited funds.

4.0 INITIATING A NON-ECONOMY ACT ORDER (1804)

4.1 Ordering Procedures and Requirements (180401)

FAR Subpart 7.5, FAR Subpart 7.7, DFARS Subpart 217.5, and DFARS Subpart 217.7 address the procedures that apply to all interagency acquisitions. A non-Economy Act order must comply with the documentation standards in Chapter 1 and supported with the items identified in Figure 18-1. Non-Economy Act orders must include:

4.1.1. A firm, clear, specific, and complete description of the goods or services ordered. The use of generic descriptions is not acceptable;
4.1.2. Specific performance or delivery requirements;

4.1.3. A proper fund citation;

4.1.4. Payment terms and conditions (e.g., direct cite or reimbursement, and specific appropriation or law authorizing advanced payments);

4.1.5. A specific non-Economy Act statutory authority citation such as those referenced in paragraph 3.1;

4.1.6. The following statement on funding documents for severable services: “These funds are available for severable service requirements crossing fiscal years for a period not to exceed one year, where the period of any resultant contract for services commences this fiscal year. All funds not placed on contract this fiscal year must be returned promptly to the ordering activity, but no later than one year after the acceptance of the order or upon completion of the order, whichever is earlier.”;

4.1.7. The following statement on funding documents for goods or non-severable services: “I certify that the goods or non-severable services to be acquired under this agreement are necessary expense of the appropriation charged, and represent a bona fide need of the fiscal year in which these funds are obligated.”; and

4.1.8. DoD Activity Address Code (DODAAC)

*4.2 Treasury Guidance (180402)

4.2.1. The TFM Volume I, Part 2, Chapter 4700, Section 4706, “Intragovernmental Quarterly and Year-End Requirements,” discusses the requirements necessary to properly report intragovernmental transactions resulting from business activities (i.e., buy/sell transactions) between two Federal government entities, called trading partners. It further references the Intragovernmental Transaction Guide (Appendix 6) as containing the business rules and processes to properly record, report, and reconcile intragovernmental transactions, including the processes for dispute resolution.

4.2.2. The guidance in TFM, Volume I, Part 2, Chapter 4700, Appendix 6, Section 9 provides the standard Interagency Agreement containing two Fiscal Service (FS) Forms: FS Form 7600A, General Terms and Conditions (GT&C) and FS Form 7600B, Order Form. Treasury has mandated the use of these two forms to ensure the proper recording and reporting on intragovernmental buy/sell transactions, and to eliminate the Federal-wide reporting deficiencies impacting the Financial Report of the U.S. Government. Accordingly, all DoD Components must use the latest published versions of FS Forms 7600A/B when completing a non-Economy Act order and these must comply with the Federal Intragovernmental Data Standards when using the Treasury's G-Invoicing system, DoD Ordering systems, Enterprise Resource Planning (ERP) systems, or when completing the FS Forms 7600 A/B manually. Until DoD Ordering Systems and ERP systems are capable of processing the FS Form 7600B, DoD trading partners should continue
to accept the current order forms (e.g., DoD (DD) Form 448, Military Interdepartmental Purchase Request). Individual orders must be placed against an FS Form 7600A.

4.2.3. The Treasury's G-Invoicing system must be used to negotiate, broker, and electronically store the GT&Cs and associated transactions between buyers and sellers for all inter- and intragovernmental reimbursable transactions as appropriate system capabilities come online for individual DoD Components. This requirement is for all interagency agreements with a performance period extending to June 30, 2021 or later. In instances where G-Invoicing is not available, such as remote deployments or other austere conditions, DoD Components must use hardcopies of FS Forms 7600A/B. DoD Components must establish internal policies and procedures for designating signature authority for GT&Cs.

4.2.4. The requesting scope of work on the FS Form 7600A should cover relatively broad categories of goods or services when feasible. When the systems capability become available to accept the FS Form 7600B within DoD Ordering Systems or ERPs, the FS Form 7600B must discretely define the goods or services for each order. When practical and legally permissible, the agreement period on the FS Form 7600A should cover multiple years.

4.3 Best Interest Determination (180403)

Each requirement must be evaluated in accordance with DoD Components’ procedures to ensure that non-Economy Act orders are in the best interest of DoD. Factors to consider include:

4.3.1. Satisfying customer requirements;

4.3.2. Schedule, performance, and delivery requirements;

4.3.3. Cost effectiveness, taking into account the discounts and fees; and

4.3.4. Contract administration, to include oversight.

5.0 FISCAL POLICY (1805)

5.1 Specific, Definite and Certain (180501)

For non-Economy Act orders greater than the simplified acquisition threshold, the requesting official must provide:

5.1.1. Evidence of market research and acquisition planning;

5.1.2. A statement of work that is specific, definite, and certain both as to the work encompassed by the order and the terms of the order itself; and

5.1.3. Unique terms, conditions, and requirements to comply with applicable DoD-unique statues, regulations, directives, and other requirements.
5.2 Contracting Officer Review (180502)

All non-Economy Act orders greater than $500,000 must be reviewed by a DoD warranted Contracting Officer prior to sending the order to the funds certifier or issuing the FS Forms 7600A/B to the non-DoD activity. In addition to the review by the Contracting Officer, the requesting official must further review the acquisition package to ensure compliance with the FAR Part 7, and the DoD Component’s procedures.

5.3 Certification of Funds (180503)

Non-Economy Act orders are subject to the same fiscal limitations that are contained within the appropriation from which they are funded. Because the servicing entity may not be aware of all the appropriation limitations, the DoD requesting official must certify that the funds cited on the order are available, meet time limitations, and are for the purpose designated by the appropriation.

5.4 Bona Fide Need (180504)

The bona-fide needs rule (31 U.S.C. § 1502) provides that an appropriation or fund limited for obligation to a definite period is available only for payment of expenses properly incurred during the period of availability or to complete contracts properly made within that period of availability. Non-Economy Act reimbursable orders of DoD Components for supplies, material, services or equipment placed with non-DoD agencies are subject to policies that, in practical effect, make them subject to obligational standards used for Economy Act reimbursable orders. Non-Economy Act orders citing an annual or multiple year appropriation must serve a bona fide need arising, or existing, in the fiscal year(s) for which the appropriation is available for new obligations. Otherwise, a valid obligation is not accomplished. An interagency agreement may not be used in the last days of the fiscal year solely to prevent funds from expiring or to keep them available for a requirement arising in the following fiscal year. Bona fide need generally is a determination of the requesting agency and not that of the servicing activity. A servicing agency should, however, refuse to accept a non-Economy Act order if it is obvious that the order does not serve a need existing in the fiscal year for which the appropriation is available.

5.5 Obligation (180505)

The provisions of 31 U.S.C. § 1501 govern the recording of the obligation. An amount must be recorded as an obligation only when supported by documentary evidence of an order required by law to be placed with an agency or upon meeting all the following criteria:

5.5.1. Binding agreement (funding vehicle) between an agency and another person (including an agency);

5.5.2. Agreement is in writing using FS Form 7600A;

5.5.3. For a purpose authorized by law;
5.5.4. Serves a bona fide need arising, or existing, in the fiscal year or years for which the appropriation is available for obligation;

5.5.5. Executed before the end of the period of availability for new obligation of the appropriation or fund used; and

5.5.6. Provides for specific goods to be delivered, real property to be bought or leased, or specific services to be supplied.

5.6 Deobligation (180506)

Funding under non-Economy Act orders must be deobligated as outlined in this paragraph.

5.6.1. Goods. Funds provided to a performing agency for ordered goods where the funds period of availability thereafter has expired must be deobligated and returned by the performing agency unless the request for goods was made during the period of availability of the funds and the item(s) could not be delivered within the funds period of availability because of delivery, production or manufacturing lead time, or unforeseen delays that are out of the control and not previously contemplated by the contracting parties at the time of contracting.

5.6.1.1. Where materials cannot be obtained in the same fiscal year in which they are needed and contracted for, provisions for delivery in the subsequent fiscal year do not violate the bona fide need rule as long as the time intervening between contracting and delivery is not excessive and the procurement is not for standard commercial off the shelf items readily available from other sources.

5.6.1.2. The delivery of goods may not be specified to occur in the year subsequent to funds availability unless delivery meets the exceptions cited in subparagraph 5.6.1.1 and a justifiable bona fide need exists in the year funds are available for obligation.

5.6.2. Severable Services. An agreement for severable services that are continuing and recurring in nature and provide DoD a benefit each time the service is performed (e.g., maintenance and repair services, scientific, engineering, and technical services) is based on statutory authority other than the Economy Act. The provisions of 10 U.S.C. § 2410(a) permit the performance of severable services to begin in one fiscal year and end in the next provided the period of performance does not exceed one year. A non-DoD Federal agency may rely on this authority to fill a DoD order funded with fiscal year appropriations to issue a contract for severable services that crosses fiscal years as long as the contract period commences during the period of availability of the DoD customer appropriation. Obligating funds for placing a non-Economy act order with a non-DoD Federal agency, where the resultant fixed-length severable services contract awarded by the non-DoD Federal agency will exceed the one-year limit set forth in 10 U.S.C. § 2410(a), or which is not to commence until a subsequent fiscal year, may result in an Antideficiency violation under 31 U.S.C. § 1341.

5.6.2.1. The performance of severable services must begin during funds period of availability and may not exceed one year.
5.6.2.2. Annual appropriations provided to a performing agency that have expired must be deobligated unless the performance of the services requested began during the funds period of availability and the period of performance does not exceed one year.

5.6.2.3. The annual appropriation from the earlier fiscal year may be used to fund the entire cost of the one-year period of performance; however, annual appropriations may not be used to enter into a severable services agreement where the period of performance for services requested is entirely in the following fiscal year.

5.6.2.4. In no instance may the period of performance extend beyond September 30 of the subsequent year for services funded with annual appropriations.

5.6.3. Non-Severable Services. Non-severable services contracts must be funded entirely with appropriations available for new obligations at the time the contract is awarded, and the period of performance may extend across fiscal years. Funds provided to a performing agency that become excess must be deobligated as identified.

5.6.4. Excess or Expired Funds. Activities must reconcile all obligations and remaining funds available for orders. The purpose of this reconciliation is to ensure the proper use of funds and to identify and coordinate the return of expired or excess funds. Excess or expired funds must be returned by the performing agency and deobligated by the requesting agency to the extent that the performing agency or unit filling the order has not (1) provided the goods or services (or incurred actual expenses in providing the goods or services), or (2) entered into a contract with another entity to provide the requested goods or services before the end of the period of availability (fiscal year or multiple year period, as applicable) of the appropriation of the requesting or ordering agency. Expired funds must not be available for new obligations.

5.7 Payment Procedures (180507)

Payment must be made promptly upon the written request (or billing) of the performing agency. The payment due date must not be more than 30 calendar days from the date of the invoice. Unless the DoD Component is specifically authorized by law, legislative action or Presidential authorization, funds are not to be advanced to non-DoD Federal entities, or be used to pay for advance billings without the receipt of goods or services. Volume 4, Chapter 5 covers the conditions and requirements related to advances and prepayments. For those few exceptions where DoD is specifically authorized by a specific appropriation or law to advance funds, the specific appropriation or law authorizing the advance must be cited on the obligating and/or interagency agreement documents and orders, and any unused amounts of the advance must be collected from the performing agency immediately and returned to the fund from which originally made.

5.7.1. The requesting official must be fully aware of the non-DoD Federal agency’s billing practices and methods. The official must also take appropriate action to ensure DoD funds are not disbursed in advance of contract performance. Additionally, DoD Components must work with their servicing disbursement sites to ensure trading partner agreements restrict other Federal agencies’ ability to withdraw funds prior to the delivery of goods or performance of services.
5.7.2. Payments made for services rendered or goods furnished may be credited to the appropriation or fund of the Federal agency performing the reimbursable work.

* 5.7.3. Volume 10, Chapter 10 contains the DoD policy for executing intragovernmental payments.

6.0 NON-ECONOMY ACT ORDER FOLLOW-UP PROCEDURES (1806)

6.1 Non-Economy Act Order Oversight (180601)

The requesting official must establish quality surveillance plans, for non-Economy Act orders greater than the simplified acquisition threshold, and ensure execution that would facilitate the oversight of the goods provided or services performed by the performing agency. The plans should include:

6.1.1. Contract administration oversight in accordance with the surveillance plan;

6.1.2. Processes for receipt and review of receiving reports and invoices from the performing agency;

6.1.3. Reconciliation of receiving reports and invoices; and

6.1.4. Requirements for documenting acceptance of the goods received or services performed.

6.2 Monitor Fund Status (180602)

The requesting official must monitor fund status to:

6.2.1. Monitor balances with the performing agency;

6.2.2. Conduct Dormant Account Review Quarterly (DAR-Q) of non-Economy Act orders in accordance with Volume 3, Chapter 8 and include a specific attestation on the DAR-Q that all existing interagency agreements are consistent with DoD policy;

6.2.3. Confirm open balances with the performing agency;

6.2.4. Coordinate the return of funds from the non-DoD performing agency in accordance with paragraph 5.6; and

6.2.5. Coordinate with the accounting office to ensure timely deobligation of funds.
6.3 Non-Economy Act Order Close-Out (180603)

All non-Economy Act orders must be reviewed by the requesting official to determine if they are complete. Completed orders must be fiscally closed out. The requesting official must reconcile funds and coordinate the return of excess or expired funds held by the performing agency. As part of this review, the requesting official will:

6.3.1. Identify and determine if there are outstanding invoices;

6.3.2. Identify and determine the existence of excess or expired funds;

6.3.3. Coordinate the return of funds from the non-DoD performing agency in accordance with paragraph 5.6; and

6.3.4. Coordinate with the accounting office to ensure the deobligation of funds.

*6.4 Reconciliation and Elimination of Intragovernmental Transactions (180604)

Volume 6B, Chapter 13 contains DoD policy and guidance for adjustments, eliminations, and other special intragovernmental reconciliation procedures.
Figure 18-1. Non-Economy Act Acquisition Package Checklist

A. Documented evidence of market research and acquisition planning performed.

B. Package includes a specific, definite, and concise statement of work documenting a bona fide need in the fiscal year that the funds are available for new obligations.

C. Package includes specific performance and/or delivery requirements.

D. Package identifies the statutory authority permitting the performing agency to support the DoD Component for the goods/services required.

E. Package includes the purchase request number and the DODAAC.

F. Package includes written justification for the non-Economy Act order in accordance with DFARS Subpart 217.7 and the DoD Components’ procedures.

G. Package documents review of fees/surcharges/contract administration/discounts to ensure the cost is reasonable and consistent with task to be accomplished by performing agency.

H. Package includes specific statutory authority authorizing advance payment or billing.

I. Package documents evidence that DoD competition requirements were followed in accordance with DFARS.

J. Order identifies DoD unique terms & conditions to the performing agency.

K. Order identifies unique reporting requirements not otherwise specified to the performing agency.

CHAPTER 19

DEFENSE SUPPORT OF CIVIL AUTHORITIES

1.0 GENERAL (1901)

1.1 Purpose (190101)

This chapter establishes financial policy for identifying, recording, reporting, and obtaining reimbursement for costs the Department of Defense (DoD) incurs in its role of providing Defense Support of Civil Authorities (DSCA) in accordance with existing laws and policies (see Addendum 1). DSCA refers to support provided by United States (U.S.) Federal military forces, DoD civilians, DoD contract personnel, DoD Component assets, and National Guard forces (when the Secretary of Defense (SecDef), in coordination with the Governors of the affected States, elects and requests to use those forces in Title 32 United States Code (U.S.C.) status). Typically, these elections are in response to requests for assistance from civil authorities for domestic emergencies, law enforcement support, and other domestic activities, or from qualifying entities for special events. (DoD Directive (DoDD) 3025.18).

1.2 Authoritative Guidance (190102)

1.2.1. DoD has several primary missions, one of which is to defend the homeland and provide support to civil authorities (Sustaining U.S. Global Leadership: Priorities for 21st Century Defense, 2012). In some instances, national defense assets may be made available to support civil authorities for disasters, emergencies, or other incidents. DSCA is generally initiated by a request for DoD assistance from a Primary Agency (PA), such as the Federal Emergency Management Agency (FEMA). It is DoD policy that DSCA will be initiated by a request for DoD assistance from civil authorities or qualifying entities or is authorized by the President or SecDef. All requests for DSCA support, with the exception of Immediate Response Authority (IRA), will be written, and will include a commitment to reimburse DoD in accordance with the Stafford Act, Economy Act, or other authorities.

1.2.2. DoD may commit resources when approved by SecDef or when directed by the President. FEMA is responsible for coordinating Federal plans and programs for response to civil emergencies at the national and regional levels, and for Federal assistance to the States in civil emergencies. In accordance with the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. §§ 5121-5207) (“Stafford Act”), in an emergency or major disaster, the President may direct any Federal agency, with or without reimbursement, to utilize its authorities and resources granted under Federal law in support of State and local emergency assistance and disaster response efforts. A request for assistance (RFA) is not valid until it is approved by SecDef. RFAs submitted by FEMA are also called mission assignments (MAs), although they do not have directive effect until approved by SecDef.
2.0 GENERAL ACCOUNTING GUIDANCE (1902)

DSCA is provided on a cost reimbursable basis unless directed to be provided on a non-reimbursable basis by the President or SecDef or otherwise in accordance with the law. Requests for DSCA may be submitted in accordance with the Stafford Act or under non-Stafford Act conditions.

2.1 Stafford Act (190201)

2.1.1. Under the Stafford Act, the President may direct SecDef to utilize DoD resources to help State and local governments respond to emergencies and major disasters. A Governor may request Federal assistance under the Stafford Act. Once this request is received and it is certified in accordance with conditions in the Stafford Act, the President may make an emergency or major disaster declaration.

2.1.2. The Stafford Act provides a system of emergency preparedness to protect life and property in the U.S. from hazards and to apportion responsibility for assistance in a disaster among the Federal Government, States, and their political subdivisions. FEMA is the primary Federal agency responsible for disaster relief efforts within the U.S. and administers assistance provided by the Stafford Act. Federal departments and agencies, including DoD, support FEMA when requested by FEMA. FEMA provides reimbursement for the assistance requested from disaster relief funds appropriated to FEMA for this purpose. Federal departments and agencies may seek reimbursement from FEMA for eligible costs incurred during the performance of the requested support.

2.2 Non-Stafford Act (190202)

2.2.1. A Federal entity with primary responsibility and statutory authority for handling an incident (i.e., the requesting agency) that needs support or assistance beyond its normal operations may request Department of Homeland Security coordination and facilitation through the National Response Framework (NRF). Agencies providing disaster assistance under their own authorities independent of a Stafford Act declaration use their own appropriated mission funding. DoD may provide assistance to other Federal departments and agencies by executing inter-agency reimbursable agreements with the requesting agency and requesting reimbursement from the requesting agency for eligible expenditures. Generally, the requesting agency provides funding to DoD for the assistance requested consistent with the provisions of the Economy Act, unless other statutory authorities are available for this purpose.

2.2.2. In response to a request for assistance from a civil authority under imminently serious conditions where time does not permit approval from higher authority, Federal military commanders, Heads of DoD Components, and/or responsible DoD civilian officials may exercise immediate response authority in order to save lives, mitigate great property damage, and prevent human suffering. (DoDD 3025.18).
3.0 APPLICABILITY (1903)

3.0.1. This policy applies to Office of the SecDef, the Military Departments, the Office of the Chairman of the Joint Chiefs of Staff (CJCS) and the Joint Staff (JS), the Combatant Commands, the Office of the Inspector General of the DoD, the Defense Agencies, the DoD Field Activities, and all other organizational entities within the DoD (hereafter referred to collectively as “DoD Components.”)

3.0.2. This policy also applies to the Army National Guard and the Air National Guard (hereafter referred to collectively as the “National Guard”) personnel when under Federal command and control. Also applies to National Guard personnel when SecDef determines that it is appropriate to employ National Guard personnel in Title 32, U.S.C. status to fulfill a request for DSCA. SecDef requests the concurrence of the Governors of the affected States, and those Governors concur in the employment of National Guard personnel in such a status.

4.0 SCOPE (1904)

4.0.1. This chapter promulgates DoD financial policy for emergency or disaster relief assistance when SecDef approves a request for assistance to provide DoD support to other Federal departments or agencies under DoDD 3025.18.

4.0.2. The Unified Command Plan assigns DSCA responsibilities to the Commander, U.S. Northern Command (USNORTHCOM), within the 48 contiguous states, the District of Columbia, Alaska, Puerto Rico, and the U.S. Virgin Islands; and to the Commander, U.S. Pacific Command (USPACOM), within Hawaii, U.S. territories or insular areas, and possessions in the USPACOM area of responsibility. Commanders of Combatant Commands (CCDRs) with DSCA responsibilities and their Combatant Commands are referred to as “supported CCDRs” or “supported Combatant Commands,” respectively, throughout this policy.

5.0 DEFINITIONS (1905)

Unless otherwise noted, these terms and their definitions are for the purposes of Volume 11A, Chapter 19.

5.0.1. Defense Coordinating Officer (DCO). A DoD single point of contact for domestic emergencies. Assigned to a joint field office to process requirements for military support, forward MAs through proper channels, and assign military liaisons as appropriate to activated emergency support functions. (Joint Publication 1-06).

5.0.2. Defense Support of Civil Authorities (DSCA). Support provided by U.S. Federal military forces, DoD civilians, DoD contract personnel, DoD component assets, and National Guard forces (when SecDef, in coordination with the Governors of the affected States, elects and requests to use those forces in Title 32, U.S.C., status) in response to requests for assistance from civil authorities for domestic emergencies, law enforcement support, and other domestic activities, or from qualifying entities for special events. Also known as civil support. (DoDD 3025.18).
5.0.3. Emergency. Any incident, whether natural or manmade, that requires responsive action to protect life or property. Under the Stafford Act, an emergency means any occasion or instance for which, in the determination of the President, Federal assistance is needed to supplement State and local efforts and capabilities to save lives and to protect property and public health and safety, or to lessen or avert the threat of a catastrophe in any part of the U.S. (42 U.S.C. § 5122).

5.0.4. Immediate Response Authority (IRA). A Federal military commander’s, DoD Component Head’s, and/or responsible DoD civilian official’s authority temporarily to employ resources under their control, subject to any supplemental direction provided by higher headquarters. Those resources are provided to save lives, prevent human suffering, or mitigate great property damage. This is typically in response to a request for assistance from a civil authority, under imminently serious conditions when time does not permit approval from a higher authority within the U.S. IRA does not permit actions that would subject civilians to the use of military power that is regulatory, prescriptive, proscriptive, or compulsory. (DoDD 3025.18).

5.0.5. National Response Framework (NRF). This framework provides the principles by which response partners are to apply when providing a unified national response to disasters and emergencies. It defines the key principles, roles, and structures by which communities, tribes, States, the Federal Government, and private-sector and nongovernmental partners apply these principles for a coordinated, effective national response. The NRF is always in effect, and can be implemented at any level at any time.

5.0.6. Mission Assignment (MA). The mechanism used by FEMA to support Federal operations in a Stafford Act major disaster or emergency declaration. The MA orders immediate, short-term emergency response assistance when an applicable State or local government is overwhelmed by the event and lacks the capability to perform, or contract for, the necessary work. (NRF).

5.0.7. Primary Agency (PA). This describes a Federal agency with significant authorities, roles, resources, or capabilities for a particular function within an Emergency Support Function (ESF). A Federal agency designated as an ESF PA serves as a Federal Executive agent under the Federal Coordinating Officer (or Federal Resource Coordinator for non-Stafford Act incidents) to accomplish the ESF mission. (NRF).

5.0.8. Principal Federal Official. In Homeland Security Presidential Directive (HSPD)-5 “Management of Domestic Incidents,” the President designated the Secretary of Homeland Security as the “principal Federal official” for domestic incident management and empowered the Secretary to coordinate Federal resources used in the prevention of, preparation for, response to, or recovery from terrorist attacks, major disasters, or other emergencies, except for law enforcement responsibilities otherwise reserved to the Attorney General under HSPD-5.
5.0.9. Reimbursable Budget Authority (RBA) (also called reimbursable obligation authority). Authority to incur obligations in accomplishing reimbursable work if a budgetary resource—either a reimbursable agreement from a Federal customer or an advance from a non-Federal customer—is also available. This authority can be acquired only by obtaining an allotment through the Federal Coordinating Officer (FCO) using an approved funding program process.

6.0 RESPONSIBILITIES (1906)

Principal and supporting DoD participants in DSCA activities discussed throughout this chapter include, but are not limited to, SecDef; the Office of the Under Secretary of Defense for Policy (USD(P)), the Under Secretary of Defense (Comptroller) (USD(C)); CJCS; CCDRs; the JS; and DoD Components.

6.0.1. SecDef has overall authority for DoD and is the President’s principal advisor on matters concerning DSCA. SecDef retains approval authority for the use of forces, personnel, units, and equipment; has the primary responsibility within DoD to provide the overall policy and oversight for DSCA in the event of a domestic incident; and retains sole authority to waive reimbursement for DoD support.

6.0.2. The USD(C)/Chief Financial Officer (CFO) establishes policy and guidance to ensure timely reimbursement to DoD for reimbursable DSCA activities, accounting and logistics codes to track an operation’s costs, billing procedures for reimbursable support, and any other financial management (FM) instructions pertinent to the specific operation.

6.0.3. The Heads of the DoD Components direct Component compliance with FM guidance related to support provided for DSCA operations, including guidance related to tracking costs and seeking reimbursement; and plan, program, and budget for DSCA capabilities in accordance with law, policy, and assigned missions.

6.0.4. The Secretaries of the Military Departments direct that requests for reimbursement of actual DSCA expenditures (performance of work or services, payments to a contractor, or delivery from inventory) begin within 30 calendar days after the month in which performance occurred. Final billing invoices will be submitted to supported departments and agencies within 90 calendar days of the termination of the supported event.

6.0.5. The Chief, National Guard Bureau (CNGB), under the authority, direction, and control of SecDef and the Secretaries of the Army and Air Force, will report the use of National Guard assets for DSCA when using Federal resources, equipment, and/or funding to the National Joint Operations and Intelligence Center. CNGB will ensure that the National Guard appropriations are appropriately reimbursed for DSCA activities.

6.0.6. The Joint Staff identifies resources available for support in response to DSCA requests and issues execute orders (EXORDs) to the appropriate CCDR with DSCA responsibilities in order to implement SecDef approved actions.
6.0.7. The Assistant Secretary of Defense for Homeland Defense and Global Security (ASD(HD&GS)) serves as the principal civilian advisor to SecDef and the USD(P) on DSCA and coordinates DSCA policy with other Federal departments and agencies and the DoD Components as appropriate. The ASD(HD&GS) also recommends the establishment of DoD policy regarding DSCA to the USD(P). The ASD(HD&GS) will ensure all requests for DoD assistance include provisions for reimbursement to DoD Components for capabilities provided. ASD(HD&GS) will work with the USD(C), the JS, and the supported CCDR to ensure that DoD Components are reimbursed and will ensure that reimbursement is reported to SecDef at the completion of the support.

6.0.8. CCDRs with DSCA Responsibilities. In addition to the responsibilities in accordance with the Unified Command Plan, CCDRs with DSCA responsibilities will work closely with subordinate commands to ensure they are appropriately reimbursed for DSCA. CCDRs with DSCA responsibilities provide command and control of DoD personnel and resources in Title 10 U.S.C. status and coordinate DSCA operations when directed by SecDef. The supported CCDR will track the costs of support provided and ensure that the Military Departments and Services track costs and effect reimbursement.

6.0.9. During a DSCA event, a PA such as FEMA may request assistance from DoD that, when approved by SecDef, will be reimbursable under the appropriate authority, usually the Stafford Act for FEMA. The supported CCDR may provide assistance with the distribution, tracking, and management of RBA to performing DoD Component organizations. A CCDR may also task one of his or her Components or activate a Financial Management Augmentation Team (FMAT) to manage RBA and close out the funding actions when support is completed (see Addendum 1).

6.1 Financial Management Augmentation Team (FMAT) (190601)

The supported CCDR may establish an FMAT to assist in executing FM duties during DSCA operations. FMAT membership consists of experienced FM subject matter experts from each Service and major Defense Agency. The supported CCDR, in his or her oversight role of conducting DSCA activities, may utilize elements of the FMAT to participate in real-world events. FMAT members serve as a channel of communications to their respective Services and Agencies, and help integrate the DSCA financial management processes into internal financial procedures and guidance. FMAT members also participate in training and exercises with the supported Combatant Command and, if activated by the supported CCDR, will deploy to assist in conducting DSCA FM tasks.

6.2 Federal Emergency Management Agency (FEMA) (190602)

The Secretary of Homeland Security is the principal Federal official for domestic incident management. Under Section 507 of the Homeland Security Act of 2002, Public Law 107-296, as amended, FEMA’s Administrator is delegated responsibility for administering the Stafford Act’s Federal assistance programs. FEMA issues requests for assistance in the form of MAs (FEMA Form 010-0-8). MAs must contain appropriate information on funding and other managerial controls, such as funding obligation limits, for requested support.
6.3 DSCA New Requests / Closure Certification (190603)

The PA uses a RFA or FEMA MA to request goods and/or services from DoD for DSCA under the Economy Act or Stafford Act. DSCA is ordinarily provided under an approved RFA on a cost reimbursable basis unless otherwise directed by the President or reimbursement is waived by SecDef; and is closed when the DCO submits a closure certificate (Addendum 2) to the PA.

6.4 Immediate Response Authority Support (190604)

Support provided under immediate response authority should be provided on a cost reimbursable basis, where appropriate or legally required, but support should not be delayed or denied based on the inability or unwillingness of the requester to make a commitment to reimburse DoD. Oral requests for assistance in an emergency must be followed by a written request that includes an offer to reimburse DoD at the earliest available opportunity. Support provided under immediate response authority will end when the necessity giving rise to the response is no longer present or when the approving DoD official or a higher authority directs an end to the response. (DoDD 3025.18).

7.0 FUNDING (1907)

Disaster relief participation is not a budgeted program for DoD. Congress appropriates the Disaster Relief Fund (DRF) for FEMA’s support to Federal and State Governments’ disaster relief efforts. The DRF is available for purposes of the Stafford Act. The Fund provides a no-year base against which FEMA can direct, coordinate, manage, and fund eligible response and recovery efforts that are associated with domestic major disasters and emergencies that overwhelm State resources. DoD Components may be required to fund the costs of DSCA initially within existing resources, with the understanding that additional operating expenses may be reimbursed by the requesting agencies. DRF funding for FEMA’s Stafford Act programs and disaster support activities falls into two categories: disaster relief cap adjustment and base/non-major disasters.

7.1 Disaster Relief Cap Adjustment (190701)

Funding under the disaster relief cap adjustment is for major disasters declared pursuant to the Stafford Act and designated by the Congress as being for disaster relief pursuant to section 251(b)(2)(D) of the Balanced Budget Emergency Deficit Control Act (as amended by the Budget Control Act). As a general rule, costs DoD incurs above its normal mission (i.e., incremental costs) are reimbursable by FEMA out of funds provided for disaster relief in this category. DoD Components must have processes in place to identify and record incremental costs to facilitate reimbursement as discussed in DoD FMR, Volume 3, Chapter 8.
7.2 Base/Non-Major Disasters (190702)

Funding under the base/non-major disasters category includes Emergencies, Pre-disaster Surge Support, Fire Management Assistance Grants, and activities that are non-disaster specific, such as Disaster Readiness Support activities (e.g., distribution center, reservist training). Pre-declaration requests for DoD support in response to disaster events are reimbursed to DoD on the basis of actual costs. Generally, the requesting agency provides funding for the incident consistent with the provisions of the Economy Act, unless other statutory authorities are available for this purpose. The funding is not cost shared. When an emergency requires a response on behalf of DoD where there has not been a declaration of major disaster, this category of funding is used to reimburse DoD for actual expenses (i.e., full costs) incurred.

7.3 Other (190703)

DRF funding is not available for activities undertaken for incidents requiring a coordinated Federal response prior to the declaration of the disaster. A department or agency that needs support or assistance beyond its normal operations may request PA coordination and facilitation through the NRF. Federal departments and agencies may support each other by executing inter/intra-agency reimbursable agreements in accordance with the Economy Act as discussed in Volume 11A, Chapter 3, or other applicable authorities.

8.0 REIMBURSEABLE SUPPORT (AGREEMENT) (1908)

FM units provide the same or similar capabilities during DSCA operations as for other operations. Authorities and funding are the main issues that affect DoD’s ability to respond and provide DSCA. Costs incurred during DSCA are reimbursable in accordance with the Economy Act and Stafford Act, unless otherwise directed by the President. Cost reimbursement for DSCA usually occurs under 31 U.S.C. § 1535 (commonly called the Economy Act), which mandates cost reimbursement by the Federal agency requesting support; or the Stafford Act, which sets the guidelines for reimbursements to Federal agencies and States from Federal funds set aside to support missions in response to a Presidential declaration. Components should seek reimbursement for any DSCA support provided under the Economy or Stafford Acts. DSCA support provided under immediate response authority to non-Federal agencies is reimbursed to the U.S. Treasury in accordance with 31 U.S.C. § 9701. DSCA support provided under immediate response authority to Federal agencies is reimbursed to DoD organizations in accordance with 31 U.S.C. § 1535.

8.1 Advances (190801)

Advance payments to DoD from the DRF are generally not authorized but may be necessary where DoD Components do not have sufficient funds remaining to provide the requested capability/support to the PA prior to end of the fiscal year.
8.2 Expenditures Eligible for Reimbursement (190802)

*Title 44, Code of Federal Regulations, part 206.8* provides for reimbursement of costs DoD incurs in providing requested assistance. Under the Economy Act and Stafford Act, only SecDef has the authority to waive reimbursement. Examples of expenditures that may be eligible for reimbursement include:

8.2.1. Overtime, travel, and per diem of permanent Federal agency personnel.

8.2.2. Wages, travel, and per diem of temporary Federal agency personnel assigned solely for performance of services directed in the major disaster or emergency area.

8.2.3. Travel and per diem of Federal military personnel assigned solely for the performance of services directed in the major disaster or emergency area.

8.2.4. Cost of work, services, and materials procured under contract for the purposes of providing directed assistance.

8.2.5. Cost of materials, equipment, and supplies (including transportation, repair, and maintenance) from regular stocks used in providing directed assistance.

8.2.6. All costs incurred that are paid from trust, revolving, or other funds, and whose reimbursement is required by law.

8.2.7. Other costs submitted by DoD with written justification or otherwise agreed to in writing by the PA.

8.3 Requirements for Reimbursement (190803)

DoD Components performing work under an approved RFA will submit requests for reimbursement as prescribed in SecDef-approved and USNORTHCOM standing DSCA EXORDs. (FEMA MAs must also comply with FEMA’s Mission Assignment Billing and Reimbursement *FEMA Checklist.*) Reimbursement requests will cite the specific approved RFA /MA under which the work was performed and the major disaster or emergency identification number.

8.3.1. Requests for reimbursement of costs incurred under more than one order may not be combined for billing purposes. Components requesting reimbursement will retain all financial records, supporting documents, statistical records, and other records pertinent to the provision of services or use of resources by the Department.

8.3.2. Reimbursement requests must be reviewed by a Component official familiar with the original approved RFA so that chargebacks resulting from reimbursement requests that are not within the scope of the original request are properly adjusted.
8.3.3. When deployed to the supported Combatant Command in response to an approved RFA, all units must report financial management information to the supported Combatant Command, or its designee, until the order is closed; regardless of when the unit redeployed from the supported Combatant Command. The approved RFA is closed when the DCO submits a closure certificate to the PA (see Addendum 1).

8.4 Supporting Documentation (190804)

Approved RFA (or MA) requests for reimbursement must include supporting documentation.

8.4.1. Each Component is responsible for maintaining supporting documentation for all obligations and outlays and other costs incurred (see paragraph 190903.A.), including:

8.4.1.1. Copy of approved RFA form and identification of order number on other documentation;

8.4.1.2. Breakdown of costs by sub-object class code (see OMB Circular A-11) and cost breakdown structure (CBS) code (see Volume 2A, Chapter 3);

8.4.1.3. Description of services performed;

8.4.1.4. Period of Performance;

8.4.1.5. Personnel Services:

8.4.1.5.1. Regular or overtime labor with breakdown of hours;

8.4.1.5.2. Indirect cost (percentage, description of costs included in cost pool);

8.4.1.6. Travel/Per Diem and Transportation;

8.4.1.7. Contract Services (contract number, name, cost, purpose);

8.4.1.8. Property/Equipment Purchase, provide the following information:

8.4.1.8.1. Expendable Property, separate identification not required;

8.4.1.8.2. Non-expendable property or sensitive items, separate identification is required, including description of item, vendor name, unit cost, and serial number or other unique identification; and

8.4.1.8.3. Verification of disposition for items listed in subparagraph 8.4.1.8.2.
8.4.2. Records Retention. Volume 1, Chapter 9 provides document retention requirements applicable to Federal entities in the Title 44, United States Code and the National Archives and Records Administration General Records Schedule 6. The DoD has also developed supplementary guidance in DoD Directive 5015.2, “DoD Records Management Program” and Volume 1, Chapter 9. DoD Components will comply with their own Records Management policies. Questions regarding records retention shall be directed to each Component’s DoD appointed Federal Records Officer (Federal Records Officers).

8.4.3. Citing the Appropriation. DoD Components receiving reimbursement from the PA for goods and services furnished under the provisions of the Stafford Act are to credit such funds to the appropriation used to make such expenditures that are available for obligation on the date of the reimbursement. Each DoD Component involved in DSCA has a responsibility to:

8.4.3.1. Maintain documentation to support requests for reimbursement;

8.4.3.2. Identify a staff-level point of contact for financial coordination with the PA and identify a headquarters-level point of contact for billing and reimbursement issues that cannot be resolved at the staff level;

8.4.3.3. Notify the requesting activity (e.g., FEMA) when a task is completed;

8.4.3.4. Apply proper financial principles, policies, regulations, and management and internal controls to ensure full accountability for the expenditure of DRF funds;

8.4.3.5. Submit partial or final reimbursement as soon as possible after completing a task;

8.4.3.6. Submit annual validation of open obligations by providing cost data or other justification to show the amount of the obligation balance that must remain available, and why the approved RFA must remain open, or risk losing reimbursable authority due to the possible de-obligation of funds;

8.4.3.7. Reconcile obligation balances and identify excess funds available for de-obligation in an effort to return funds to the DRF in a timely manner;

8.4.3.8. Mark all final bills "Final".
9.0 CLOSURE (1909)

Components shall perform approved RFA closeout procedures and if the closeout procedures reveal excess reimbursable funding authority, advise the PA to deobligate any excess funding authority to DoD. DoD Components will submit a closure package (Addendum 2) to the supported Combatant Command that includes a memorandum signed by a general/flag officer or senior executive service member, certifying that all authorized reimbursable costs have been fully billed and collected and there are no known outstanding financial issues identified by the Federal agency. Heads of DoD Components are responsible for reporting accurate costs associated with DSCA on both a daily and monthly basis.
Addendum 1 - Generalized Financial Flow - Notional Combatant Command with DSCA Responsibility
USNORTHCOM

Addendum 2 – Reimbursable Authority Closure Certification (Completed by Unit)

CHAPTER 1

DEFENSE WORKING CAPITAL FUNDS GENERAL POLICIES

1.0 GENERAL

1.1 Purpose

The purpose of this chapter is to provide financial management policy for Defense Working Capital Funds (DWCF). Guidance includes the responsibilities of management and their roles surrounding the maintenance of a unit’s funds.

1.2 Authoritative Guidance

The accounting policy and related requirements prescribed by this chapter are in accordance with the applicable provisions of:

1.2.2. 10 U.S.C. § 2563, “Articles and Services of Industrial Facilities: Sale to Persons outside the Department of Defense”;

1.2.3. 10 U.S.C. § 7543, “Army Industrial Facilities: Sales of Manufactured articles or services outside Department of Defense”;

1.2.4. 31 U.S.C. § 3515, “Financial Statements of Agencies”;

1.2.5. Federal Account Symbols and Titles (FAST) Book, Agency Identifier Codes, Treasury Financial Manual Supplement;

1.2.6. Department of Defense Directive (DoDD) 4275.5, “Acquisition and Management of Industrial Resources”;

1.2.7. Office of Management and Budget (OMB) Circular A-11, “Preparation, Submission and Execution of the Budget.”

2.0 DWCF REQUIREMENTS

2.1 Treasury Fund Symbol

The DWCF are established under the authority of 10 U.S.C. § 2208. The U.S. Department of the Treasury (Treasury) Account Symbol for the DWCF is 097X4930. The Military Departments and Defense Agencies sub-numbered account identifiers assigned are shown in Table 1.1. The Defense Counterintelligence and Security Agency WCF, Treasury account 097X4932, is also established under 10 U.S.C. 2208 authority.

2.2 Activity Groups

The DWCF consists of individual activity groups that are managed by DoD Components for providing goods and services, on a reimbursable basis, to other activities within the DoD and to non-DoD activities when authorized.

2.3 Charters

The DoD Component individual activity groups financed through the DWCF must be chartered under the DWCF to achieve the following objectives:

2.3.1. The DWCF is designed to:

2.3.1.1. Create a cost conscious environment for both customers and providers. Customers benefit by becoming aware of the cost of their service requirements and behaviors, deriving cost savings by limiting demands to actual requirements and adjusting behaviors to reduce the cost of providing services. Providers scrupulously reduce or eliminate costs to provide services, and assist customers in identifying and modifying behaviors that increase cost.

2.3.1.2. Provide a more effective means for controlling the costs of goods and services required, produced, or furnished by DWCF activities, and a more effective and flexible means for financing, budgeting, and accounting for the costs thereof.

2.3.1.3. Create and recognize contractual relationships between DWCF activities and those activities that budget for and order the end-products or services.

2.3.1.4. Provide managers of DWCF activities the financial authority and flexibility required to procure and effectively use manpower, materials, and other resources.

2.3.1.5. Encourage more cross-servicing among the DoD Components and among their operating agencies, with the aim of obtaining more economical use of facilities.

2.3.1.6. Facilitate budgeting for and reporting of the costs of end-products. This will underline the cost consequences of choosing between alternatives.
2.3.2. Specific objectives include the following:

2.3.2.1. Instill in the officials of ordering Agencies a greater sense of responsibility and self-restraint in balancing the costs of specific goods and services to be ordered against the benefits and advantages of their procurement, especially in the light of alternative or competing demands.

2.3.2.2. Place ordering agencies in the position of critically evaluating purchase prices (that is, costs of performing activities) as well as quality and delivery-speed of goods and services ordered.

2.3.2.3. Enable ordering agencies to budget and account on an “end-product” basis (the same as when buying from commercial contractors), thereby simplifying budget presentations, budgetary control, and accounting procedures for both producers and ordering agencies.

2.3.2.4. Encourage ordering agencies’ management to improve program planning and scheduling in response to producers’ efforts to plan and negotiate for orders as far in advance as feasible.

2.3.2.5. Establish, whenever feasible, standard prices or stabilized rates and unit prices for goods and services furnished by DWCF activities, thus enabling ordering Agencies to more confidently plan and budget.

2.3.2.6. Furnish managers of DWCF activities with modern management tools comparable to those utilized by efficient private enterprises engaged in similar types of activities.

2.3.2.7. Improve cost estimating and cost control through comparison of estimates and actual costs.

2.3.2.8. Obtain alert, forward-looking financial planning at DWCF activities by making them financially dependent on reimbursements received for goods and services furnished in fulfilling orders from customers.

2.3.2.9. Encourage producers of goods and services to coordinate labor forces and inventories with workload, budgeting, and cost control.

2.3.2.10. Provide flexibility within budget cycles to changes in supply and demand.

2.3.3. A charter must be prepared in accordance with Chapter 2 and submitted to the Office of the Under Secretary of Defense (Comptroller) (OUSD(C)), Program/Budget, Director of Operations for approval. Before charter preparation, ensure that the proposed business entity meets the criteria established as described in Chapter 2, paragraph 2.2. Each DWCF business entity must review its charter annually to assure it remains current. Changes must be prepared and submitted to the OUSD(C) Director of Operations for approval.
2.4 Financing

2.4.1. The DWCF receives its initial working capital through an appropriation or a transfer of resources from existing appropriations of funds and uses those capital resources to finance the initial cost of products or services.

2.4.2. Financial resources to replenish the initial working capital and to permit continuing operations are generated by the acceptance of customer orders. After initial capitalization, a DWCF activity’s operations are funded by the reimbursements it receives from its customers for the goods or services provided.

2.4.3. Customers may not place orders with DWCF activities for the purpose of extending the life of their appropriations or avoiding any statutory limitation or restrictions pertaining to those funds. Additional guidance applicable to all working capital funds can be found in Volume 3, Chapter 19.

2.4.4. Amounts earned by the DWCF are available for financing obligations without fiscal year limitation, although DWCF activity obligation authority is dependent on receipt of contract authority, and/or cost authority provided by the receipt of customer orders as documented in the DWCF activity annual operating budget.

2.4.4.1. The Supply Management activity groups and the Capital Investment Program receive contract authority. Contract authority permits obligations to be incurred in advance of appropriations or in anticipation of receipts from customers, but in accordance with an apportionment, allotment, or other limiting authority.

2.4.4.2. Other than the Supply Management activity groups and the Capital Investment Program, all other DWCF obligations must be supported by budgetary resources that are immediately available for outlay even though the outlay may not occur until a future date.

2.5 Authorized Customers

Customers of the DWCF activity may be:

2.5.1. Any DoD command, organization, office, or other element.

2.5.2. Non-DoD federal government agencies.

2.5.3. Private parties and concerns when authorized by law including foreign governments, and state and local governments.

2.5.4. Those U.S. manufacturers, assemblers, or developers authorized by 10 U.S.C. § 2208(h) and in accordance with 10 U.S.C. §§ 2563 and 7543.
2.6 Sources of Budgetary Resources

When an activity receives budgetary resources from more than one source (spending authority from offsetting collections, direct appropriation, contract authority), the receiving activity must maintain records that will enable it to control and separately report the transactions relating to each type of source (in accordance with OMB Circular A-11). Budgetary resources may be received at any level of an organization from the individual activity up to the Departmental level.

2.7 Annual Operating Budgets

Annual operating budgets for the DWCF provide official management cost goals to the Military Services and Defense Agencies for each individual activity group. The annual budget consists of two primary parts—the operating budget and the capital budget. The operating budget represents the annual operating costs of an activity or Component, including depreciation and amortization expenses. The capital budget represents the amount of financial resources that are authorized for use in the acquisition of capital assets. Volume 2B, Chapter 9 and Volume 3, Chapter 19 provides additional details on the annual operating budgets for the DWCF.

2.8 Customer Orders

Customer orders (funded requests for goods or services) provide budgetary resources necessary to finance operations for non-supply management activities, and to liquidate contract authority for supply management activities. Budgetary resources are recognized from anticipated customer orders that obligate budgetary resources of another federal government activity, and from cash advances from non-federal customers, to include orders from non-appropriated fund instrumentalities. To be valid, customer orders must be obligations of a federal government activity and cash advances from non-federal customers. Cash advances may also be requested from federal government activities when directed and approved in advance by the OUSD(C). When accepted, customer orders create a quasi-binding contractual relationship between a DWCF activity and its customer since acceptance of a customer order requires that the performing entity agree in writing to perform the work for the customer entity. Except as authorized in Chapter 11, a DWCF business entity must not initiate work or services or incur obligations in excess of anticipated orders received unless specific authorization is provided by a signed annual operating budget approved by the Director of Operations, to ensure other budgetary resources are available at the DWCF sub-account level. Customers may request a deobligation of their funds for goods or services ordered that were not provided. Return of customer funds is permissible only if the DWCF activity has not commenced work on the good or service ordered or incurred an obligation for those goods or services.

2.9 Stabilized Rates and Prices

The DWCF individual activity groups operate on a break-even basis in accordance with budgetary guidance contained in Volume 2A and Volume 2B. Rates are required to be established during the budget process at levels estimated to recover the budgeted costs of goods or services to be provided including all general and administrative overhead costs, prior period gains and losses,
and applicable surcharges. The budget process ensures that adequate resources are requested in the customers’ fund accounts to pay the established rates and prices. Specific budget formulation requirements are contained in Volume 2B, Chapter 9.

2.10 Restrictions on Use of Customer Appropriations

2.10.1. Customers must comply with statutory limitations and restrictions imposed on the appropriated funds charged when placing an order with the DWCF. A DWCF customer cannot use appropriated funds to do indirectly (i.e., through placement of an order with a DWCF activity) that which it is not permitted to do directly. Thus, the availability of an appropriation funding an order cannot be expanded or changed by placement with an activity financed by the DWCF.

2.10.2. Appropriated funds cited on reimbursable orders are available only for the purposes permissible under the source appropriation and remain subject to the same restrictions. The ordering activity retains primary responsibility for determining the applicability of the appropriated funds cited on the order. However, if instances arise when it is apparent that the ordering appropriation is not appropriate for the purpose provided, then the DWCF activity should return the order with a request for an applicable appropriation to cite.

2.11 Financial Reporting

Under the provisions of 31 U.S.C § 3515 and 10 U.S.C 2208(n), the Department is required to have audited financial statements covering all accounts and associated activities of the Department. The DWCF financial information will be included in DoD’s Annual Financial Report. Specific financial statement reporting requirements are contained in OMB Circular A-136, “Financial Reporting Requirements.” Volume 6B also identifies recurring reporting requirements applicable to the DWCF.

2.12 Mobilization Capability

Each DWCF activity group must plan for and maintain the capability to expand or alter operations, or to provide extraordinary supply or other functional area support necessary, to meet an operational contingency as documented in Defense Planning Guidance or operational plans. All costs at individual activities within the DWCF related to maintaining a capacity to meet mobilization requirements will be reimbursed by funds that are from direct appropriations and will not be financed through customer rates. Volume 2B, Chapter 9 provides specific guidance for the types of mobilization costs that can be funded by a direct appropriation.

3.0 RESPONSIBILITIES OF MANAGEMENT

3.1 Under Secretary of Defense (Comptroller)

3.1.1. Establish DoD policy on DWCF operations.

3.1.2. Provide oversight on all financial management activities relative to the operations of the DWCF.
3.1.3. Authorize or approve DWCF Charters of specific activities to be included in the DWCF and the terms under which such activities must be operated.

3.1.4. Rescind the DWCF Charters of specific activities that no longer meet DWCF criteria or that may be operated more efficiently under other financing.

3.1.5. Establish all necessary budget preparation, accounting, and reporting policies.

3.1.6. Review and approve operating and capital budgets, and monitor and analyze budget execution.

3.1.7. Provide DWCF operations oversight through budget execution reviews.

3.1.8. Advise DWCF managers on accounting and reporting policies.

3.1.9. Monitor compliance with this guidance and other policy issuances through analysis of reports, audits, and reviews of business entity operations.

3.1.10. Exercise funds control responsibilities in accordance with congressional direction, OMB guidance, and DoD policy.

3.2 Director, Defense Finance and Accounting Service (DFAS)

3.2.1. Advise and assist the USD(C) in the development of requirements, systems, and procedures to comply with statutory and regulatory requirements.

3.2.2. Advise DWCF activities on the accounting and reporting procedures.

3.2.3. Issue supplementary instructions as needed for unique requirements within the DoD Components and to provide detailed operating instructions.

3.2.4. Review DWCF accounting systems for compliance with established financial systems requirements.

3.2.5. Prepare external and internal accounting reports for the DWCF.

3.3 Military Department Secretaries and Defense Agency Directors

3.3.1. Manage DWCF activities within approved funding limitations.

3.3.2. Designate a management agency or command to be responsible for effective management of each DWCF activity.

3.3.3. Comply with, and recommend changes to, this and other governing regulations.

3.3.4. Provide periodic financial and management information as required by the USD(C).
3.3.5. Submit to the USD(C) proposed Charters authorizing new DWCF activities or rescinding Charters of existing DWCF activities.

3.4 DWCF Activity Management Agency or Command

3.4.1. Budget and provide appropriated funds for the costs of maintaining unutilized plant and facilities being held for mobilization purposes at DWCF activities. Mobilization maintenance costs for unutilized plant and facilities include costs of labor, materials, contractual services, and overhead that were incurred for that purpose. Retention of facilities in excess of those necessary for current or planned workload must be in accordance with DoDD 4275.5, “Acquisition and Management of Industrial Resources.” The acquisition, retention, or disposal of unutilized plants and facilities at transportation activities must be approved by the Deputy Under Secretary of Defense (Acquisition and Sustainment).

3.4.2. Assign responsibility and authority to designated officials for management and operation of DWCF activities.

3.4.3. Assure that all DWCF activities operate within approved funding limitations.

3.4.4. Evaluate the operation of DWCF activities to determine compliance with established requirements.

3.4.5. Initiate change, as needed, to the charter of the DWCF activities.

3.5 Individual DWCF Activity Management

3.5.1. Incur obligations and costs as necessary and allowable to perform the activity mission.

3.5.2. Control performance costs in line with the annual budget approved by the USD(C).

3.5.3. Evaluate the operation of DWCF activities to determine compliance with established requirements.

3.5.4. Identify to higher management any impediments in achieving performance and cost goals.

3.5.5. Identify and justify to higher management investments that will produce future improvements in effectiveness and efficiency.

3.5.6. Establish, monitor and assess internal controls and resolve internal control weaknesses.
3.6  DWCF Activity Customers

3.6.1. Budget for the cost of material, work, and services ordered from a DWCF activity.

3.6.2. Manage budgetary resources provided in annual operating budget for the cost of material, work, and services ordered from DWCF activities.

3.6.3. Notify the DWCF Activity Management as early as possible if it wishes to terminate a previously ordered service. The customer is liable for funding all costs incurred with service delivery until termination.

4.0  ACCOUNTING STANDARDS

The DWCF will adhere to the accounting standards hierarchy in Volume 1, Chapter 2.

5.0  DWCF SYSTEMS AND CONTROL

5.1  DWCF Financial Management Systems

5.1.1. Transactions are executed in accordance with budgetary and financial standards and requirements issued by OMB and Treasury, consistent with the purposes authorized, and are reported in accordance with the Federal Accounting Standards Advisory Board, Statements of Federal Financial Accounting Standards.

5.1.2. Assets are properly safeguarded to deter fraud, waste and abuse.

5.1.3. Performance measurement information is adequately supported.

5.2  DWCF Accounting Systems

DWCF accounting systems must have the capability to account for the status of budgetary resources on a continuous basis. Budgetary controls must be designed to prevent incurring obligations in excess of budgetary resources. System owners must ensure compliance with each new Standard Financial Information Structure matrix that is updated based on guidance released from Treasury.

5.3  Legacy Systems

DoD Components will continue to bear the cost of their legacy system until they have fully transitioned to the emerging/migratory system. However, if the Component has not fully transitioned from the legacy system to the emerging/migratory system due to a DFAS related implementation problem, then the customer bears no direct cost for the legacy system. The costs for the legacy system that DFAS cannot abolish will go into the DFAS customer rates as part of overhead costs. See Figure 1-1.
5.3.1. If the customer has fully transitioned from the legacy system to the emerging/migratory system, then that customer bears no direct cost for the legacy system. However, the costs for a legacy system that DFAS cannot abolish will go into the DFAS customer rates as part of overhead costs.

5.3.2. If the customer has not fully transitioned from the legacy system to the emerging/migratory system but the customer is running the systems parallel for testing purposes, to include running the legacy system for prior year data not transitioned, then that customer bears a cost for both systems until the customer fully transitions to the emerging/migratory system.

5.3.3. If the customer has not transitioned from the legacy system to the emerging/migratory system because of DoD Component related implementation problems, then that customer will bear the cost for the legacy system even if they are the last DoD Component on the legacy system.

5.3.4. If the customer has not transitioned from the legacy system to the emerging/migratory system due to a DFAS related implementation problem, then that customer bears no direct cost for the legacy system. The costs for a legacy system that DFAS cannot abolish will go into the DFAS customer rates as a part of overhead costs.

5.3.5. The customer must be fully transitioned from the legacy system to the emerging/migratory system before the beginning of a new fiscal year. It is not appropriate to change allocation of legacy costs between customers in the year of execution.

5.3.6. When all customers have transitioned to the emerging/migratory system and DFAS is able to abolish the legacy system, the system’s residual undepreciated value will be charged to the DFAS Accumulated Operating Result.

6.0 FUNDS MANAGEMENT

Financial resources establishing a DWCF must be appropriated. Continuing operations are generated by reimbursements received. Anticipated reimbursements and anticipated customers’ orders are not considered a budgetary resource. Obligations incurred (Undelivered Orders – Obligations, unpaid or Prepaid/Advanced and Delivered Orders – Obligations, paid or unpaid) are claims against budgetary resources. A sufficient fund balance with the Treasury must support all DWCF cash outlays. Refer to Volume 3, Chapter 19 for further guidance on funds management.

7.0 GENERAL LEDGER ACCOUNTS

All DWCF activities must adhere to the United States Standard General Ledger (USSGL) published by the Treasury Bureau of the Fiscal Service. The USSGL Standard Financial Information Structure Transaction Library provides a decomposition of USSGL accounting transactions for DoD. See Volume 1, Chapter 7 for further details.
8.0 AUDITING

Under 31 U.S.C. § 3515, the DoD activities, of which a DWCF is considered a component, are required to prepare audited financial statements. While preparing for and undergoing audit, DWCF activities must be able to provide documentation that must be of sufficient quality to allow an independent third party, such as an external auditor, to understand and verify the basis, value, and rationale for recorded amounts. The DWCF is subject to audit by the DoD Inspector General, the Government Accountability Office, and other parties when contracted or otherwise authorized.

ANNEX 1: CHARTER FORMAT ................................................................................. A1-1
CHAPTER 2

ESTABLISHMENT OF DEFENSE WORKING CAPITAL FUND ACTIVITIES, TRANSFER OF FUND FUNCTIONS AND CLOSURE OF FUND ACTIVITIES

1.0 GENERAL

1.1 Purpose

This chapter prescribes requirements for the chartering of Defense Working Capital Fund (DWCF) activities. This chapter also provides requirements for transfer of fund functions and closure of fund activities.

1.2 Authoritative Guidance

Title 10, United States Code, section 2208 (10 U.S.C. § 2208) authorizes the Department of Defense (DoD) to establish DWCFs to finance inventories of supplies and provide working capital for industrial and commercial-type activities. The accounting policies and related requirements prescribed by this chapter are in accordance with:

1.2.1. 10 U.S.C. § 2687, “Base closures and realignments,” also known as Base Realignments and Closures (BRAC);

1.2.2. Office of Management and Budget (OMB) Circular A-11;

1.2.3. Federal Accounting Standards Advisory Board (FASAB) Statement of Federal Financial Accounting Standards (SFFAS) 3, “Accounting for Inventory and Related Property;”

1.2.4. FASAB SFFAS 6, “Accounting for Property, Plant and Equipment;” and

1.2.5. FASAB SFFAS 7, “Accounting for Revenue and Other Financial Sources and Concepts for Reconciling Budgetary and Financial Accounting.”

2.0 ESTABLISHMENT OF DWCF ACTIVITIES

2.1 Submission of Charter

Prior to the financing of an activity under the DWCF, a proposed charter must be submitted to the Office of the Under Secretary of Defense (Comptroller) (OUSD(C)), Program/Budget (P/B) Operations Directorate for approval.
2.2  Criteria for a DWCF Activity

   In order for a Service or DoD agency organization, program, or function to be considered for inclusion in the DWCF it must meet all of the following criteria:

2.2.1. Materials produced or services provided are shared or required by a group of customers or are common requirements of more than one major command, and/or DoD Component.

2.2.2. A cost accounting system is available that is capable of collecting costs of producing outputs. The activity must have the capability to charge prices or rates that are capable of recovering the full funded costs of the provided goods and services in accordance with Chapter 1. For additional information on general cost concepts refer to Volume 4, Chapter 19.

2.2.3. Activities that require and order products or services (i.e., customers) can be identified so that resources can be aligned in the account of the customer with the requirement. The demand for the goods or services to be provided by the program or organization must come from multiple customers within DoD and/or other federal government entities.

2.2.4. Identification of a buyer-seller relationship to the extent that the buyer can influence cost, workload, and the buyer has alternative sources that can provide the products or services. Operation of the program or organization as a DWCF business area should result in a better identification of the full cost of operations and may also result in better quality goods/services and/or result in decreased costs to the federal government.

3.0  DWCF CHARTER REQUIREMENTS

3.1  Charter Format

   The DWCF charter format is included in Annex 1. Charter provisions are applicable to each DoD Component activity group included within the DWCF. The charter must describe the mission of the Component by activity group. Before charter preparation, actions must be taken to ensure that the proposed business entity meets the criteria listed in paragraph 2.2. Activities must document these criteria as it applies to all proposals for new DWCF business entities, as well as, the addition of new lines of business within existing DWCF business entities.

3.2  Charter Contents

   Each charter must include the following as a minimum:

3.2.1. Statutory authority that authorizes the establishment of a DWCF activity or activity group.

3.2.2. Brief description of the mission of the activity or activities and nature of its products or services.
3.2.3. Designation of the organization (Management Command) directly below the departmental-level that has authority over the management of the DWCF activity group. Additionally, the charter must state whether the Management Command is funded from the DWCF.

3.2.4. Name and location of the activity or activities to be operated under the charter.

3.2.5. Statement of any policy exceptions specifically authorized for the fund’s activity group or any activity included within the fund’s activity group.

3.2.6. Cancellation of any previously approved charter(s), if applicable.

3.3 Charter Support

Documentation supporting the charter application of an activity requesting entry into the DWCF must include:

3.3.1. Explanation of how the proposed DWCF activity meets the minimum criteria identified in paragraph 2.2 and any additional OUSD(C) requirements for the specific activity or activities.

3.3.2. Justification of any exception to the provisions in Chapter 1.

3.4 Amendment or Cancellation of Charters

Requests for cancellations or amendments of existing charters must be forwarded to the OUSD(C), P/B Operations Directorate for approval and supported by the following information:

3.4.1. Justification for the proposed action that may consist of copies of supporting evaluations or studies.

3.4.2. Information as to the disposition of assets and liquidation of liabilities, as necessary.

3.5 Annual Charter Review

The DoD Components must review DWCF operations each fiscal year to ensure that the charters are current. Any required changes must be submitted to the OUSD(C), P/B Operations Directorate in accordance with paragraph 3.4.
4.0 COMMENCEMENT OF DWCF OPERATIONS

Upon charter approval and commencement of DWCF operations, financial control over initial appropriations, assets, liabilities, and capital must be established in accordance with the following guidance:

4.1 Initial Appropriation and/or Reappropriation

4.1.1. Before a DWCF activity can begin operations, it needs fiscal resources. To begin initial operations, a DWCF business entity is provided necessary capital either by a nonexpenditure transfers from another DWCF or appropriation, following congressional notification required by 10 U.S.C § 2208(r); or Congress may appropriate initial capital in response to a request in the President’s budget submission to Congress. The latter is necessary when the level of anticipated cash available is estimated to be insufficient during the initial fiscal year of operation. Appropriations made available to commence operation of a DWCF entity remain available for obligation without fiscal year limitation for their specified purpose until expended or withdrawn.

4.1.2. A reappropriation to a DWCF activity is statutory authority to restore or extend the obligational availability of all or part of the unobligated balance of budget authority that has expired or would otherwise expire in an annual or multiple-year appropriation. Typical budgetary and proprietary accounting entries applicable to receipt and distribution of appropriations and reappropriations are illustrated in Volume 3, Chapter 13. The accounts established for use by departmental-level accounting entities are outlined in the DoD United States Standard General Ledger (USSGL) Transaction Library located on the Standard Financial Information Structure (SFIS) web page. For additional information regarding DWCF distribution of budgetary authority, refer to guidance issued by the OUSD(C), Deputy Chief Financial Officer, “Accounting for Internal Distribution of Budgetary Authority—Defense Working Capital Fund,” (DoD Common Access Card is required to access the link).

4.2 Initial Assets and Liabilities

4.2.1. To commence operations, working capital may be provided by a nonexpenditure transfer of fund balances from another appropriation or federal (general) fund account to the DWCF account. Volume 3, Chapter 13 contains information about nonexpenditure transfers.

4.2.2. Personnel assigned from an appropriated fund activity to a DWCF activity are accompanied by a liability for accrued earnings and annual leave earned by those employees prior to their transfer. Payment in the form of cash or other equivalent assets such as inventories or equipment must be made to the receiving DWCF activity for the liabilities assumed.

4.2.3. Assets provided from other appropriations or funds to commence operations of a DWCF activity must be recorded as Financing Sources Transferred in Without Reimbursement. The DWCF must record a liability for an item transferred from a non-DWCF account only when the item is undelivered at the time of the transfer and the obligation for the item on the books of the organization from which the item was transferred resulted from a reimbursable order from a customer. Otherwise, bills for assets on order at the time of the transfer to the DWCF must be
paid by the appropriation or fund originally ordering the item. This is appropriate since the original appropriation or fund ordering the item was funded through the budget process to procure the item.

4.2.4. Depreciation of capital assets that are transferred into a DWCF activity without reimbursement and with no pre-existing depreciation schedules or accumulated depreciation, must be calculated based on the net value (original acquisition cost less calculated accumulated depreciation) plus any associated costs for transportation, installation, and other related costs necessary to put the asset into operational use. For additional information on accounting for general Property, Plant, and Equipment (PP&E), refer to Volume 4, Chapter 25, “General Equipment.”

4.2.5. At the time of initial capitalization, Financing Sources Transferred In Without Reimbursement must equal the value of all assets excluding the nonexpenditure transfer of U.S. Department of the Treasury (Treasury) fund balances from other appropriations, plus the initial appropriation transferred to the activity without reimbursement or assumption of liability by the DWCF, less the sum of the obligations transferred to the activity for which DWCF resources are liable for future disbursement.

5.0 TRANSFER OF DWCF FUNCTIONS

5.1 Transfer Actions

The general actions and related procedures in paragraphs 5.2 through 5.8 must be followed when transferring all or a portion of the functions from a DWCF activity to another DWCF activity or to an appropriation funded activity. Specific actions and procedures are usually necessary to accommodate unique circumstances of the transferring activities.

5.2 Functions to be Transferred

In the case of a partial transfer of functions, specific negotiations must take place between the affected organizations to identify specific functions that are to be transferred, the effective date(s) of transfer, and the disposition of functions not transferred. Action must be taken to ensure that valid requirements are funded by the activity having the requirement. Follow-on negotiations should identify and remedy any initial oversight and specific directions should be provided once these follow-on actions are complete. All actions taken must be consistent with the negotiated agreements. Pending final negotiations, all excluded functions must remain with the current organization.

5.3 Physical, Financial, and Personnel Resources

The organizations involved must identify resources to be transferred incident to the functional transfer. Follow-on actions must identify resources not recognized in the original negotiations, and specific directions must be provided commensurate with finalized agreements. All actions taken must be consistent with negotiated agreements.
5.4 Interim Funding

If an interim funding method is to be used to fund the transfer, pending resolution of other issues, the organizations involved will determine the method and intended duration of the interim funding. Funding provided by a locally established order should not exceed 30 days.

5.5 Budgetary Accounts

5.5.1. There should not be an automatic transfer of budgetary account balances from the losing activity to the gaining activity. Where items included in an existing obligation or order are for continuing services or other requirements of the transferred entity, an agreement must be negotiated between the losing and gaining activities. This agreement must specify whether accountability will remain identified to the losing activity, or if documents will be modified to reflect the gaining fund cite and paying office. In instances where accountability remains identified to the losing activity, a reimbursable support agreement must be negotiated, and accounting support must continue to be provided by the losing activity and paid for by the gaining activity. For more information regarding support agreements, refer to DoD Instruction (DoDI) 4000.19, "Support Agreements."

5.5.2. All actions relating to the fiduciary aspects of the transfer will be captured and monitored as part of the overall transfer plan. A senior financial official from the organizations involved and the servicing DFAS site will be identified and accountable for ensuring the integrity of the post transfer financial balances. Specific action items will be identified in the transfer plans to ensure that all account balances are maintained and properly liquidated subsequent to the transfer. Transferred balances will be closely monitored to ensure that pending and in-process transactions are properly posted in a timely fashion, and balances are not orphaned. The following actions are needed for the transfer of outstanding commitments, obligations, and unfilled customer orders.

5.5.2.1. Outstanding commitments for functions to be transferred from the losing activity should be canceled, but only when managed in coordination with the gaining activity to ensure that the procurement cycle is not interrupted. Concurrent with cancellation at the losing activity, the new commitment must be entered into the accounting system by the gaining activity, and purchases under the document must reflect the gaining activity as the accountable entity. In those cases, where cancellations of an outstanding commitment would unduly interrupt the purchase cycle, a modification to the outstanding order or continued funding by the original ordering activity may be made for reimbursement to the gaining activity.

5.5.2.2. Undelivered orders and other outstanding obligations account balances must not be transferred from the losing activity to the gaining activity without validation. If orders cannot be validated, they must be canceled or stay on the books of the losing activity. All undelivered orders and other outstanding obligations for goods and services ordered but undelivered directly related to functions transferring from the losing activity must be reviewed, and decisions made on the appropriate disposition for each transaction. Undelivered orders and other outstanding obligations for items or services no longer required must be canceled, and any termination costs, which result from the cancellation, must be the responsibility of the losing
activity. If outstanding obligations support a continuing need, that need either may be filled through a modification to the undelivered order or continued funding by the original ordering activity with reimbursement from the new requiring activity.

5.5.2.3. Unfilled customer order account balances must not be transferred from the losing activity to the gaining activity without validation. Unfilled customer orders citing current funding which are directly related to functions transferring from the losing activity must be reviewed to determine what orders for goods or services remain outstanding, and to identify the activity responsible for providing these goods or services to the customer. If goods or services are to be provided by the gaining activity, reimbursement to the gaining activity may be provided either through an amendment to the unfilled customer order or through funding provided by the losing activity. If an unfilled customer order is amended, the losing activity, along with the gaining activity, must ensure that the customer is advised of this decision. If goods or services are to be provided by the losing activity, the losing activity must continue to bill the customer, and return any remaining unobligated balances to the customer after the order is completed.

5.6 Proprietary Accounts

All actions relating to the fiduciary aspects of the transfer will be captured and monitored as part of the overall transfer plan. A senior financial official from the organizations involved and the servicing DFAS site will be identified and accountable for ensuring the integrity of the post transfer financial balances. Specific action items will be identified in the transfer plans to ensure that all account balances are maintained and properly liquidated subsequent to the transfer. Transferred balances will be closely monitored to ensure that pending and in-process transactions are properly posted in a timely fashion, and balances are not orphaned.

5.6.1. Actions required for the transfer of real property from one DoD entity to another is detailed in Volume 4, Chapter 24, “Real Property.” Real property will be reported on the financial statements of the installation host. Real property is usually reported on the Military Department General Fund financial statements, but a Military Department Working Capital Fund (WCF) can report real property on its financial statements if it has been given jurisdiction over a specific installation. WCFs or other business like activities must impute costs in accordance with SFFAS 55. These imputed costs would include depreciation expense. The imputed costs will include what would otherwise have been depreciation expense for real property assets and improvements that were funded by the WCF and subsequently transferred to the General Fund, as well as any depreciation expense or other costs for assets not funded by the WCF. See Annex 2 of Volume 4, Chapter 24 for determining applicable imputed costs. Transfers of assets must include all relevant supporting documentation, as detailed in Volume 1, Chapter 9, “Financial Records Retention.”

5.6.2. Information on Construction-in-Progress (CIP) may be found in Volume 4, Chapter 24. The funding entity reports CIP for real property (including improvements) in its CIP account until the asset or improvement is placed in service. The funding entity also relieves CIP when the asset or improvement is placed in service.
5.6.3. Detailed information on work-in-process may be found in Volume 4, Chapter 4, “Inventory and Related Property.” Work-in-process for customers (unfilled customer orders) must not be transferred from the losing activity to the gaining activity without validation. Transactions outstanding prior to the transfer must remain on the accounting records of the losing entity until completed, canceled, or reissued as a gaining activity responsibility.

5.6.4. Additional information on raw materials may be found in Volume 4, Chapter 4. Raw materials on hand that must be transferred should be validated prior to their transfer. If the precise value of raw materials for which accounting is to be transferred cannot reasonably be validated prior to transfer, representatives from both the losing and gaining activity must jointly review the most current physical and financial reconciliation records available. Concurrently, any apparent abnormal financial values or financial transactions, which appear abnormal, must be jointly reviewed and a consensus reached as to the reliability of records being transferred. Statistical sampling or other methods of verification should be used, as appropriate. Records of accountability being transferred must be as reasonably accurate as possible. Raw materials accounting transfers must be based on the mutually validated on hand values of the accountable records of the losing activity. Accountability for raw materials should be maintained using existing supply and financial records.

5.6.5. Detailed information on inventory may be found in Volume 4, Chapter 4. Inventory in transit is the value of items moving between a DoD supply activity and a contractor or other government supplier, or moving between storage locations within a DoD Component. Amounts posted to this account are based upon ownership acceptance, or payments made for materiel not yet physically received. Amounts recorded in this account are supported by individual documents evidencing the ownership acceptance or payment prior to receipt. Inventory transfers must be performed in accordance with the procedures described in Volume 4, Chapter 4.

5.6.6. Detailed information on accounts receivable may be found in Volume 4, Chapter 3, “Receivables.” Accounts receivable that are to be transferred should be validated prior to their transfer by representatives from both the losing and gaining activity. Records of accountability being transferred must be as reasonably accurate as possible. Any adjustment amounts must be included on the accountable records of the losing activity. Action may be taken to terminate collection action and write off the debt when the criteria in Volume 4, Chapter 3 apply. All remaining and transferred balances will be closely monitored by the involved organizations and the servicing DFAS to ensure timely and proper liquidation occurs.

5.6.7. Detailed information on liabilities may be found in Volume 4, Chapters 9 and 10.

5.6.7.1. If the precise value of accounts payable for which accountability is to be transferred cannot reasonably be validated prior to transfer, representatives from both the losing and gaining activity must jointly review the most current physical and financial reconciliation records available. Statistical sampling or other methods of verification should be used, as appropriate.
5.6.7.2. The liability for accrued payroll and annual leave for employees transferring from a revolving fund activity to another revolving fund activity or to an appropriated activity becomes a liability to the gaining activity as of the date of the transfer. This liability must be recorded on the respective records in the appropriate net position and liability accounts. The losing revolving fund activity must provide a listing to identify individuals transferring and confirm the value of the leave liability of those employees. Regardless of the contributing event, a revolving fund activity that loses employees through reorganization or transfer to an appropriation-financed activity must transfer cash equal to the accrued payroll to the gaining appropriated fund activity and cash equal to the amount of any funded accrued annual leave value to the Treasury as miscellaneous receipts.

5.6.8. Detailed information on net position may be found in Volume 4, Chapter 15. An increase to net position is recognized when an activity operating within the DWCF receives an asset that does not require the use of available resources to finance the item. Conversely, a decrease to net position is recognized each time an activity receives a liability (e.g., accounts payable and unfunded annual leave) from another activity for which payment in the form of cash or other assets is not provided. Entries vary depending on what is being transferred. Various situations have been covered in the preceding paragraphs detailing transactions that impact net position. Additional information relating to Changes in Net Position may be found in Volume 6B, Chapter 6.

5.7 Determine New Fund Citation and New or Revised Data Structure

5.7.1. A fund citation must be used on all accounting documents. To permit continued operation of transferred functions by the gaining activity, the gaining activity must ensure that the proper fund code is provided to those installations transferring to its command and that instructions for preparation of requisitions are provided with sufficient time to ensure billing to the proper accountable activity. The fund citations provided must include the applicable accounting classification code, and must identify any applicable fund code(s), either system unique, or DoD-wide, or both. All obligating documents such as contracts, small purchase actions, travel orders, training requests, and requisitions prepared for purchase of materiel from the military supply system or the General Services Administration must cite the gaining activity accounting classification code.

5.7.2. A DoD Activity Address Codes (DoDAAC) is used to identify a DoD installation (or, in some instances, components thereof) for purposes of mail and communications, shipment of materiel, or billing for assets issued from the DoD military supply system. Each of the DoD Components controls the DoDAAC assignments; however, they are centrally maintained and distributed to the DoD Components by the Defense Automatic Addressing Systems Office to ensure total system visibility. The DoDAAC (in Navy terms, the Unit Identification Codes) is required on Military Standard System requisition documents to ensure compatibility with the logistics management systems. These requisition documents become obligating documents and are the basis for creation of other logistics and financial documents. The circumstance of each transfer action may require identification of the transferred or consolidated segment of the losing activity as a new entity. In such cases, new DoDAACs must be established and distributed to applicable activity personnel to ensure the proper preparation and subsequent processing of
transactions for accounting and reporting. Concurrently, each transfer must be evaluated to ensure that all Service Code assignments, fund code assignments, routing identifier codes, and all other Military Standard supply and financial systems coding have been established consistent with the transfer status of the new entity. Additional information relating to DoDAACs can be found in the Defense Logistics Manual (DLM) 4000.25, Volume 6, Chapter 2.

5.8 Other Actions Required to Accomplish the Accounting Transfer

5.8.1. Reimbursable agreements may exist between the losing installation and other entities for the provision or receipt of services and other support. It is essential that such reimbursable agreements be identified and that the gaining activity and the providing or receiving entity negotiate Intra-Service Support Agreements or Service Support Agreements to define reimbursable services and support to be provided and received. The agreement should be in accordance with DoDI 4000.19.

5.8.2. The transfer of payroll processing must normally be accomplished either at the beginning of a pay period or at the beginning of a fiscal year. Whenever payroll transfers occur, an agreement must be negotiated between the activities as to the date to be used for transfer. The losing activity is responsible for the salary and benefits of all transferring employees through the agreed upon transfer date. The losing activity also must be responsible for payment in the form of cash or other assets for any unused compensatory time, and merit pay bonuses earned by transferring employees for the fiscal year.

5.8.3. Travel advances and outstanding travel obligations for travel, which has occurred, or is in-process, must remain with the losing activity pending settlement. Only travel for transferring activity personnel beginning after the effective date of the transfer must be an obligation of the gaining activity. The losing and gaining activity must jointly review outstanding travel documents and deobligate those no longer valid. Where temporary duty begins before and ends after the effective transfer date, travel documents must contain fund citations (and appropriate estimates) to ensure payment of travel costs commensurate with the duty station of the individual during each of the travel periods. Separate travel documents for each period are recommended. Copies of all related travel documents must be provided to both the losing and gaining activities to ensure proper processing. The losing activity must prepare the travel order, and make appropriate disbursements. Amounts charged to the gaining activity must be processed as a Transaction for Others or other agreed upon procedures by the losing activity. Losing activities must always obtain authority to cite gaining activity funding on travel orders.

5.8.4. If an outstanding contract(s) is essential to the needs of another DoD activity, that need may be filled through a contract modification citing the appropriation or fund of the other DoD activity. It is especially important that contracts for PP&E be terminated when feasible. Termination costs that result from the cancellation must be identified as base closure costs.

5.8.5. A contract modification must be sent to contractors, under normal change procedures, for each contract for which the responsibility for contract payment is transferred. This is necessary to advise the contractor of a change in paying office. If responsibility for both contract payment and accounting for the losing and gaining activity remains unchanged, a contract
modification is not necessary. Instead, the accounting office must transfer transactions (i.e., payments, refunds, collections) identified to the losing activity that properly belong to the gaining activity and record those transactions as a transaction of the gaining activity. Concurrently, for reports to the Treasury, disbursement and collection values are reported as if they occurred within the gaining activity.

5.8.6. The gaining activity must develop procedures to control and manage the required accounting and system changes. Account control totals and other internal control mechanisms must be developed and used to ensure that accounting integrity is maintained.

5.8.7. The gaining activity must provide specific instructions to new organizational elements transferred to it including points of contact, office symbols and phone numbers, in order to continue the reporting function in an efficient and effective manner.

6.0 CLOSURE OF DWCF ACTIVITY

6.1 Funding

The DWCF does not have any funds available to them for payment of costs or absorption of losses that are not related to their output. Reimbursable rates developed for DWCF activities generally recover only costs incurred in providing requested goods or services. Costs over and beyond those costs generally are not considered in reimbursement rate computations. As a result, the DWCF does not have, through their normal operations, funds available for payment of costs resulting from closure actions that are directed by higher authority such as the BRAC Commission. The OUSD(C), P/B, Directorate for Military Construction provides instructions applicable to budget formulation and congressional justification for BRAC appropriations.

6.2 Closure Actions

The following general actions and related procedures must be followed upon notification that a DWCF activity is to be closed. In the case of a partial transfer of a particular function, specific actions and procedures are identified in section 5.0. Specific actions and procedures are usually necessary to accommodate unique circumstances of the closing activities.

6.2.1. The organizations involved must identify the specific functions to be terminated and the disposition of these functions. Specific guidelines on the disposition of these functions must be provided once the review is complete.

6.2.2. The organizations involved must identify and validate the physical, financial, and personnel resources to be disposed of or terminated at the closing activity. Specific directions must be provided once the review is complete.
6.2.3. The organizations involved must identify any interim funding method and intended duration. If an interim funding method is to be used to fund the closure, the affected organizations must determine the method and intended duration of the interim funding. Funding provided by a locally established order should not exceed 30 days.

6.2.4. The organizations involved must identify outstanding commitments for the functions of the closing activity to be terminated. Outstanding commitments that are not necessary should be canceled.

6.2.5. The organizations involved must review all existing contracts not directly associated with a funded customer order and terminate those for which the contracted service or good is, or must be, no longer essential. It is especially important that contracts for PP&E be terminated when feasible. Termination costs that result from the cancellation must be identified as base closure costs.

6.2.6. The organizations involved must review and validate the undelivered orders and other outstanding obligations of the closing activity. In addition, the accounts payable, the accounts receivable to include unbilled accounts, and the unfilled customer orders, should also be reviewed and decisions made on the appropriate disposition of each transaction. Refer to paragraphs 5.5 and 5.6 for additional information regarding these actions.

6.2.7. The organizations involved must reconcile financial and logistic stock records with physical inventories; determine whether quantities on hand are in excess of requirements to complete the remaining productive workload and other closeout needs; purge the inventories of all obsolete, damaged and surplus items; and dispose of excess material and supplies in accordance with logistics inventory policies and procedures. For detail information on inventory refer to Volume 4, Chapter 4.

6.2.8. The organizations involved must review and validate outstanding travel advances and travel obligations. Travel that is no longer required must be deobligated. Outstanding travel advances and travel obligations for which travel has occurred, or is in-process, must be liquidated prior to closing the activity.

6.2.9. The organizations involved must review and validate advance payments received in advance of performance. If the closing activity has received payment for ordered work in advance of its performance, then the amount of the advance less the amount of obligations, if any, incurred in partial completion of the order must be returned to the financing appropriation. If the amount of the advance is less than the obligations incurred, the closing activity must bill the customer for the unreimbursed obligations incurred and ensure that collection is received prior to closing. Move cost to overhead expense when the BRAC funds expire.

6.2.10. The organizations involved must prepare fiscal year-end financial statements for the closed activity.

6.2.11. The organizations involved must forward a request for cancellation of existing charters to the OUSD(C), P/B Operations Directorate.
6.3 Financing BRAC Related Costs

Costs at a DWCF activity must be financed by a BRAC account when those costs are a direct result of a BRAC determination that a base is to be closed. Stated in a different manner, charges for goods and services provided through DWCF may not include amounts necessary to cover costs incurred in connection with the closure or realignment of a military installation. The BRAC costs are those required to carry out actions that are in direct support of closing or realigning bases. Prior year, current year, or budget year operating losses in the DWCF must not be budgeted in the BRAC base closure accounts. Although overhead associated with the costs listed in this section must be charged to the BRAC account, increases in overhead on existing and new customer work must not be considered a direct result of a determination that a base be closed and, therefore, must not be charged to a BRAC account. Costs identifiable directly to base closure actions must be accumulated separately for reimbursement from a BRAC account. Costs attributable to base closure actions include:

6.3.1. Environmental Restoration and Mitigation includes reducing, removing and recycling hazardous waste, and removing unsafe buildings and debris.

6.3.2. Planning includes advance planning and design that may be required to transfer functions from an activity being closed to another military installation.

6.3.3. Outplacement Assistance in relocation, training, or other necessary assistance to civilian employees employed by the Department at installations being closed.

6.3.4. Community Programs include economic adjustment assistance to a community in which the closed base is located, or community planning assistance to the community to which functions must be transferred as a result of closure of a military installation.

6.4 Financing Non-BRAC Related Base Closure Costs

Paragraph 6.3, specifies costs to be financed from a BRAC account. Other costs at an activity undergoing closure, or to be closed, must not be financed by a BRAC account even though the closure was directed as a result of a determination of a BRAC. Those other costs must be financed either by the DWCF (initially) or by an operations and maintenance appropriation.

6.4.1. The following must be financed by the DWCF (initially) to the extent permitted by amounts available from existing and new customer orders:

6.4.1.1. Current year costs in support of customer orders.

6.4.1.2. Prior year, current year, or budget year operating losses.

6.4.1.3. Increases in overhead even though those increases could be attributed to decisions to close bases.
6.4.2. The following must be financed through a transfer from the Operations and Maintenance (O&M) appropriation of the DoD Component responsible for the activity incurring the following costs and loss:

6.4.2.1. All costs at a closing activity in the year of closure that are not associated with a valid work order or are as a result of other than a determination of a BRAC that the activity be closed.

6.4.2.2. Direct and indirect (including General and Administrative) operating costs for which there are not sufficient resources in existing customer orders or other resources of the closing activity.

6.4.2.3. Current year and prior year losses (to the extent not financed from existing and new customer orders as stated in subparagraph 6.4.1.2) must be financed as a pass through from the O&M appropriation of the DoD Component responsible for the activity incurring the loss.

6.5 Procedures for Requesting DoD Base Closure Account Funds

To request an allocation of DoD base closure account funds, an activity that has been selected for closure by a DoD BRAC determination must request guidance from the OUSD(C), P/B Directorate for Military Construction.

6.6 Allocation of DoD Base Closure Account Funds

Upon OMB’s approval of a Standard Form (SF) 132, “Apportionment and Reapportionment Schedule,” for the base closure account, the OUSD(C), P/B, Directorate for Military Construction must provide a Fund Authorization Document to the Director for Budget and Finance, Washington Headquarters Services (WHS) to fund the Financial Plan as approved. The Director for Budget and Finance, WHS, in accordance with direction received from the Directorate for Military Construction, must allocate DoD base closure funds to the Military Departments or Defense Agencies. Upon receipt of the allocation from the WHS, the Military Departments or Defense Agencies must distribute the base closure funds to the installations responsible for base closure actions. Upon receipt of the fund distribution, the installation must record the allotment from the DoD base closure account. Budgetary accounting entries to distribute direct funds to an installation-level are illustrated in the DoD USSGL Transaction Library.

6.7 Use of DoD Base Closure Account Funds

An activity must implement base closure and realignment actions and administer its allocation of base closure funds in accordance with the approved financial plan. The prior approval of the OUSD(C), P/B, Directorate of Military Construction, is required if a project that does not appear on the approved financial plan is to be executed. The general ledger entries for recording the accounting transactions on the use of direct funds are illustrated in the DoD USSGL Transaction Library.
6.8 Base Closure Account Reporting Requirements

An installation receiving an allotment of DoD base closure account funds must prepare a report on the status of its allotment. The status report must be transmitted to the entity from which the allotment was received in accordance with the reporting due dates required by that entity.

6.9 Disposition of PP&E Assets

6.9.1. The loss (or gain) from the sale, lease, or other disposal of PP&E assets must be recorded by the activity having financial reporting responsibility of the real property asset (i.e., the real property asset Financial Reporting Organization Code). The sale, lease, or other disposal action must be recorded only in proprietary accounts of that installation. Any proceeds generated from the sale, lease, or other disposal of PP&E assets does not add to, or otherwise affect, the budgetary accounts of that activity. All disposals must be supported as of the date the real property leaves the custody of the DoD Component to provide an adequate audit trail for the disposal of the asset. The execution of certain disposal events will generate financial or administrative accountability transactions. For a list of acceptable supporting documentation refer to Volume 4, Chapter 24.

6.9.2. Proceeds resulting from disposal of real property assets (to include land) due to a base closure directed by a BRAC must be deposited as reimbursements into the DoD Base Closure Account. Proceeds resulting from disposal of real property assets (to include land) due to a base closure directed by other than a BRAC must be deposited as reimbursements into the appropriate Treasury miscellaneous receipt account. Examples of transactions involving proceeds resulting from the transfer or disposal of PP&E include funds derived from temporary leases of government property and property upon which settlement has occurred and title has been passed to the new owners. “Good faith” deposits or earnest funds should be deposited in the Budget Clearing Account (Suspense), F3875, until finalization of the sale (settlement) takes place. Upon finalization of the sale (settlement), deposits made to the Budget Clearing Account (Suspense) must be transferred to the appropriate Treasury miscellaneous receipt account. Per the Treasury Financial Manual Bulletin 2020-05, and consistent with OMB Circular A-11 guidance, the suspense account F3875 is to temporarily hold transactions that belong to the government until the transaction is matched to a specific receipt or expenditure account.

6.9.3. A copy of deposit documents, or other notification, must be provided to the Defense Finance and Accounting Service for all deposits made to a base closure account. The deposit document or other notification must identify the specific base closure account to which the deposit was made.
6.10 Withdrawal of Direct Appropriations or Reappropriations

The withdrawal of a direct appropriation or reappropriation is recorded at the departmental-level. The withdrawal of the allocation, if any, of an appropriation or reappropriation issued to the intermediate or activity-level is recorded as a decrease at the intermediate and activity-level and as an increase at the departmental-level as appropriate. The DoD USSGL Transaction Library is the source for the typical budgetary and proprietary accounting entries applicable to receipt, allocation and withdrawal of appropriations.

6.11 Cumulative Results of Operations

6.11.1. DWCF activity that is undergoing closure should request reimbursement for its recoverable costs, as specified in paragraph 6.4: (1) customer accounts for costs attributable to normal day-to-day operations, (2) the account financing the closure for costs attributable to closure activity, and (3) transfer from the O&M appropriation of the DoD Component responsible for the activity for costs in the year of closure, including prior year losses, that are not associated with a valid work order or are as a result of other than a determination of a BRAC that the activity be closed. All reimbursements and costs (including extraordinary gains and losses) flow to Account 331000, “Cumulative Results of Operations (Normal)” This account displays the net difference since the inception of the Activity between 1) expenses and losses, and 2) financing sources including expended appropriations, revenues, and gains. The account is increased by revenues and the value of assets transferred in; and reduced by expenses requiring current resources, expenses not requiring current resources, expenses recorded that are not currently funded and transfers out.

6.11.2. Upon completion of all operations and all closure activity, Account 331000 of the closed activity must have either a positive or a negative balance. If any portion of the balance in general ledger Account 331000 (Normal) is deferred for recovery from, or return to, customers in the subsequent fiscal year stabilized rate or standard price development that deferred amount must be transferred to general ledger Account 331000 (Deferred). Entries to general ledger Account 331000 (Deferred) must not be made unless the decision to recover or return such amounts from cumulative results of operation was authorized by the OUSD(C), P/B Operations Directorate. Additional information relating to cumulative result of operations may be found in Volume 4, Chapter 15.

6.12 Residual Assets

Any financial assets (e.g., cash, receivables, and unobligated authority) that remain after the closing actions are performed must remain in the DWCF and are available to meet the overall requirements of the DWCF or other obligatory authority requirements as may be authorized. All remaining residual asset account balances must be reviewed and validated to determine appropriate actions to be taken. The residual balances must be reduced to zero within one year from the date an activity ceases operations. These actions must be documented in writing and provided to the appropriate management command for action.
6.13 Residual Liabilities

Any financial liabilities (e.g., payables and obligated authority) that remain after the closing actions are performed must remain in the DWCF. All remaining residual liability account balances must be reviewed and validated to determine appropriate actions to be taken. The residual balances must be reduced to zero within one year from the date an activity ceases operations. These actions must be documented in writing and provided to the appropriate management command for action.
ANNEX 1: CHARTER FORMAT

DEPARTMENT OF DEFENSE
(MILITARY DEPARTMENT/DEFENSE-WIDE) WORKING CAPITAL FUND
(TITLE OF WORKING CAPITAL FUND ACTIVITY GROUP,
e.g., SUPPLY MANAGEMENT) CHARTER

1. AUTHORITY

The (insert the name of the working capital fund and the fund’s activity group), is (was) established, effective (DATE), under the authority of Title 10, United States Code, Section 2208. Operations of the (insert the name of the fund’s activity group) must be conducted in accordance with applicable Department of Defense policies and regulations.

2. MISSION

(Provide a brief statement of the mission of the fund’s activity group.)

3. MANAGEMENT COMMAND

(Provide the name and location of the fund’s activity group management command.)

4. ACTIVITY COMPOSITION

See Attachment. (Attach a list of each activity included within the fund’s activity group and each activity’s location. The attachment should include an “as of” date.)

5. AUTHORIZED EXCEPTIONS

(Indicate any policy exceptions specifically authorized for the fund’s activity group or any activity included within the fund’s activity group. Also, explicitly state/reference the document approving that exception. Documentation supporting any authorized exceptions must be submitted with the charter request. If no exceptions are authorized, state “None.”)
6. CANCELLATION

(This section provides for the cancellation of any previously approved charter(s). Identify the previous approved charter(s) with its date(s) and specify that it hereby is canceled as a result of the approval of this charter.)

CHAPTER 3

DEFENSE WORKING CAPITAL FUNDS - BUDGETARY RESOURCES

1.0 GENERAL

Budgetary resources are amounts available to incur obligations in a given fiscal year which include new budget authority, available unobligated balances at the beginning of the year, reimbursements, and other income (also known as offsetting collections credited to an appropriation or fund account), recoveries of prior year obligations from unexpired accounts, and restorations. In the case of reimbursable work, earned reimbursements and unfilled customer orders, limited by the amount collected in advance for orders from the public, comprise budgetary resources.

1.1 Purpose

1.1.1. This chapter discusses budgetary resources available for the Defense Working Capital Fund (DWCF). The applicable general ledger accounts are listed in the United States Standard General Ledger (USSGL) contained in Volume 1, Chapter 7, and the accounting entries for these accounts are specified in the DoD USSGL Transaction Library. Unless otherwise stated, this chapter is applicable to all DWCF Components and DWCF activities listed in Volume 3, Chapter 19. Chapter 2 provides guidance on establishing DWCF activities.

1.1.2. Additional information regarding the receipt and distribution of budgetary resources are located in Volume 3, Chapters 13, 14, and 15.

1.2 Authoritative Guidance

The accounting policy and related requirements prescribed by this chapter are in accordance with the applicable provisions of:

1.2.1. Title 31, United States Code, section 1341 (31 U.S.C. § 1341), Limitations on Expending and Obligating Amounts;

1.2.2. 31 U.S.C. § 1511, Definition and Application;

1.2.3. 31 U.S.C. § 1512, Apportionment and Reserves;

1.2.4. 31 U.S.C. § 1513, Officials Controlling Apportionments;

1.2.5. 31 U.S.C. § 1514, Administrative Division of Apportionments;

1.2.6. 31 U.S.C. §1515, Authorized Apportionments Necessitating Deficiency or Supplemental Appropriations;

1.2.7. 31 U.S.C. §1517, Prohibited Obligations and Expenditures;

1.2.11. **10 U.S.C. § 127a.**, Operations for Which Funds Are Not Provided in Advance: Funding Mechanisms;

1.2.12. Office of Management and Budget (OMB) **Circular A-11**, Preparation, Submission, and Execution of the Budget;

1.2.15. *(GAO) Principles of Federal Appropriations Law, Chapter 3*, Availability of Appropriations: Purpose;

1.2.16. TFM **USSGL**;

1.2.17. Department of Defense *(DoD) USSGL Transaction Library*; and

1.2.18. DoD **Standard Financial Information Structure**.

2.0 SOURCES OF, RESTRICTIONS ON, AND CLAIMS AGAINST BUDGETARY RESOURCES

Prior to incurring an obligation, a DWCF Component must have sufficient budgetary resources available for obligation in accordance with statutory, administrative, and other restrictions, after consideration of the claims against such budgetary resources.

2.1 Sources of Budgetary Resources

2.1.1. Direct appropriations and/or reappropriations provided directly to the DWCF or a DWCF Component by an appropriation act or other law and in accordance with statutory limitations, if any, by purpose, time, and amount.

2.1.1.1. The DWCF may receive direct appropriation to provide working capital and financing for specific projects or tasks. Appropriations are typically provided to the DoD at the departmental-level then transferred to the DWCF Component levels based on the request of the Office of the Under Secretary of Defense (Comptroller) (OUSD(C)), Deputy Comptroller,
Program/Budget (P/B) and the apportionment by the OMB on the Standard Form (SF) 132, Apportionment and Reapportionment Schedule, as discussed in Volume 3, Chapter 13. OMB distributes the amounts available for obligation in an appropriation through apportionments; and

2.1.1.2. A DWCF reimbursable program may be:

2.1.1.2.1. Automatically apportioned. A DWCF Component may obligate the total amount of obligation authority upon becoming available; or

2.1.1.2.2. Specifically apportioned. A DWCF Component may incur the amount of obligations limited to the specified apportioned amount.

2.1.2. Contract authority authorized by specific statutory authority. Contract authority permits a DWCF Component to incur obligations in advance of an appropriation, offsetting collections, or receipts to make outlays to liquidate the obligations.

2.1.2.1. Unless otherwise specified by statute, contract authority is available for obligation only within the fiscal year for which the authority is provided;

2.1.2.2. By definition, contract authority is unfunded and, therefore, obligations incurred through use of contract authority may not be liquidated until funded by an appropriation of liquidating cash or, more commonly within the DWCF, by offsetting collections credited to the DWCF; and

2.1.2.3. DWCF activities that utilize contract authority are issued both contract authority and anticipated customer order amounts that tie to one another as discussed in Volume 3, Chapter 8.

2.1.3. Non-expenditure transfers between DWCF Component sub-numbered accounts or, when authorized by statute, between a DWCF Component sub-numbered account and a direct appropriation or non-DWCF fund. Non-expenditure transfers into the DWCF increase budgetary resources while non-expenditure transfers from the DWCF decrease budgetary resources.

2.1.4. Offsetting collections credited to the DWCF consisting of earned reimbursements, both collected and uncollected, and unfilled customer orders from:

2.1.4.1. Federal government accounts that represent valid obligations of the ordering account whether or not accompanied by an advance;

2.1.4.2. The public, including state and local governments, but only to the extent accompanied by an advance received and credited to the appropriate DWCF Treasury sub-numbered account; and
2.1.4.3. Refunds, which are the repayments of excess outlays. The amounts are directly related to previous obligations incurred and outlays made. Refunds are not available for obligations until the refund is collected. Refunds collected in the same fiscal year as the obligations incurred are credited to the appropriation or fund account charged with the original obligation. Refunds of prior year obligations are not available for obligation until collected and reapportioned by the OMB. Refunds receivable are not a budgetary resource.

2.1.5. Recoveries of prior year obligations. These are cancellations or downward adjustments of obligations incurred in prior fiscal years that were not outlaid. Within the DWCF, recoveries of prior year obligations are automatically apportioned and are available for new obligations as well as upward adjustments of previously existing valid obligations.

2.2 Restrictions on Budgetary Resources

2.2.1. The DWCF is used to more effectively control and account for program costs and the work performed in the DoD. The Secretary of the Treasury establishes DWCFs upon request of the Secretary of Defense. A DWCF Component may only use amounts appropriated:

2.2.1.1. For the purpose stated in the appropriation act or other law providing the amounts, for no more than the amount appropriated or otherwise made available; and

2.2.1.2. Within the time period for which the funds are available for obligation, and are subject to such other limitations and/or restrictions as may be stated in the applicable appropriation act or other law providing the amounts, as well as such other statutory restrictions, both express and implied, as may be relevant.

2.2.2. Budget Authority is the authority provided by law to incur financial obligations that will result in outlays.

2.2.2.1. Budget authority is available for obligation only in accordance with purpose, time, and amount restrictions imposed by statute, by apportionments imposed by the OMB, and by administrative limitations imposed by authorized officials within the OUSD(C) and the DWCF Components;

2.2.2.2. In addition to being subject to statutory restrictions, DWCF budget authority is apportioned and allocated to the sub-account level on the OMB 132. DWCF budget authority is administratively allocated to the activity group levels as appropriate. The allocated amounts may be further restricted through administrative action; and

2.2.2.3. There are three forms of apportioned budget for the DWCF:

2.2.2.3.1. Direct Appropriation. Direct appropriated amounts are to be used for the specific purpose identified in the appropriations act or other legislation. Funds not appropriated specifically for the designated purpose are not available for that purpose. Unless specified otherwise, direct appropriations for the DWCF are no-year funds that do not expire.
2.2.2.3.2. Spending Authority from Offsetting Collections (Reimbursable Obligations). Reimbursable obligations are obligations financed by offsetting collections credited to an expenditure account in payment for goods and services provided by that account. The collection must be authorized by law to credit the specific appropriation or fund account. Anticipated reimbursements may not be used as a source of obligational authority until a customer order is accepted unless such use specifically is authorized in statute. Volume 3, Chapter 15 describes reimbursable obligations in detail.

2.2.2.3.3. Contract Authority.

2.2.2.3.3.1. Contract authority itself is not an appropriation. It is apportioned budget authority which can be legally obligated and may be used only for the purpose, time, and amount specified by statute relating to that contract authority. It is not funded and is apportioned and allocated without a supporting Treasury cash balance. Contract Authority must always be replaced or liquidated by subsequent or other budgetary resources and cash balances, more commonly within the DWCF, by offsetting collections credited to the DWCF. Unless otherwise specified by statute, contract authority is apportioned to the DWCF for the current fiscal year of the apportionment only, and closes for new obligations if not used within the fiscal year it is apportioned;

2.2.2.3.3.2. The OMB apportions contract authority at the beginning of a fiscal year for the amount of the DWCF program. It provides the authority to incur obligations in anticipation of the collection of receipts or offsetting collections that will be used to liquidate the obligation. Within the DWCF, contract authority is available for capital asset program obligations, i.e., all DWCF activity groups, and supply management operations. Supply Management activity groups include Supply Management, Distribution Depots, Defense Commissary Agency (Resale), and the Defense Reutilization and Marketing Service; and

2.2.2.3.3.3. There are no statutory restrictions placed on the obligational availability or availability to liquidate contract authority obligations of offsetting collections.

2.2.3. A non-expenditure transfer is a transfer of budgetary resources from one budget account, appropriation, or fund to another that does not involve an outlay. Statutory restrictions on the purpose, availability, and use of appropriated funds require that no change be made to those restrictions through the use of a non-expenditure transfer into the DWCF unless such change is specifically authorized by law.

2.2.4. Other events reported on the SF 133, Report on Budget Execution and Budgetary Resources, further restrict the availability of Budgetary Resources. Appendix F of the OMB Circular A-11 includes an explanation of these events with an identification of the impacted reporting lines on the SF 133.
2.2.5. If an apportionment is received by a sub-account or an activity group for a specific purpose, obligations must be kept within the apportioned limits even though the amount apportioned may be less than the total budgetary resources that otherwise would be available to the sub-account or activity group, in compliance with 31 U.S.C. Section 1517(a).

2.2.6. An administrative limitation cannot be used to change or eliminate a statutory restriction. An administrative action can only further restrict the purpose, time, or amount for which budgetary resources may be used. An administrative limitation, if any, of budgetary resources provided to a DWCF Component, or subdivision, by the OUSD(C) or designated representative; and/or a subdivision, if any, of budgetary resources provided to a DWCF activity group or activity (operating unit) by a DWCF Component official must be followed. If an administrative limitation is received, the DWCF Component must keep obligations within the limitation even though the limitation may be less than the total budgetary resources that otherwise would be available. Administrative limitations may be provided in various formats but must be in writing, signed, and clearly state that it is a violation of the 31 U.S.C. Section 1517(a) to incur obligations that exceed the limitation.

2.3 Claims Against Budgetary Resources

A DWCF Component must consider claims against budgetary resources in the determination of budget authority that is available for obligation. Claims against budgetary resources should be recorded in financial records of the DWCF entity. A DWCF Component should maintain financial records in sufficient detail to permit a segregation of budgetary resources and, within that segregation, an identification of claims against the budgetary resources.

2.3.1. Where a DWCF activity receives budgetary resources from more than one source, the receiving activity must maintain records which will enable it to control separately the transactions relating to each source and if the funds transferred are subject to restrictions different from those existing in the account to which transferred.

2.3.2. Of the three general availability restrictions of purpose, time, and amount, purpose should be determinable from administrative records while time and amount should be determinable from financial records.

2.3.3. A DWCF Component should have two primary types of financial accounts, proprietary and budgetary. The balance of budgetary resources available for obligation can be determined only from budgetary accounts. Proprietary accounts, by themselves, are not sufficient to determine budgetary resources. For example, non-budgetary assets such as inventories of stock for sale are not considered a budgetary resource. Additionally, a fund balance (i.e., cash) does not necessarily denote the availability of a budgetary resource. A fund balance, although present, may have claims against it (accounts payable, for example) and the amount of those claims, therefore, are not available for obligation.
2.3.4. Not all budgetary accounts represent a budgetary resource available for obligation. For example, anticipated customer orders are not budgetary resources available for obligation. The anticipated customer order only provides the authority to accept reimbursable orders and does not provide obligation authority. In addition, claims against budgetary resources, such as undelivered orders and unpaid accrued expenditures must enter into the determination of unobligated balances and, therefore, budgetary resources available for obligation. Similar to the anticipated customer order, administrative restrictions or other withheld amounts limit the balance of budgetary resources available for obligation. A DWCF Component can determine budgetary resources available for obligation from data required to be reported on the SF 133. Section 82 of OMB Circular A-11 also provides additional information.

2.3.5. In the event that budgetary resources available to a DWCF Component, activity group, or activity are not sufficient, a DWCF manager should not assume that sufficient budgetary resources exist elsewhere within the DWCF to fund obligations in excess of resources available. Rather, the manager of the DWCF Component, activity group or activity, as applicable, must request, in writing, an increase in authority to incur obligations from its management command or responsible DWCF Component and must defer the incurring of additional obligations until budgetary resources are sufficient to fund them. The DWCF Component must document the authority to incur additional obligations in an Annual Operating Budget signed by the OUSD(C), Director/Associate Director, Operations, or designee. See Volume 3, Chapter 19 for additional information on Obligation Authority.

3.0 SUPPLEMENTAL APPROPRIATION AND REAPPROPRIATION

3.1 DWCF Supplemental Appropriations

3.1.1. Supplemental appropriations may be provided for working capital purposes such as when the cumulative results of operations and/or the cash position is either negative or approaching negative or for other purposes discussed in Volume 2A, Chapter 1.

3.1.2. Receipt of the appropriation provides an immediate infusion of cash. The amount of the appropriation used must be accounted for and reflected in accounting records and financial reports.

3.1.3. Appropriation is a financing source against which expenses must be matched and reported on the Statement of Operations. If the amount of the appropriation is in excess of negative net and cumulative results of operations, the amount of the appropriation used must only be the amount sufficient to bring the total of accumulated operating results and net operating results to a zero-dollar ($-0-) position. The remaining amount of the appropriation must be used to offset any subsequent year net operating losses.

3.2 Receipt and Allocation of Supplemental Appropriation and Reappropriation

3.2.1. Supplemental appropriation is an appropriation enacted subsequent to a regular annual appropriation act when the need for funds is too urgent to be postponed until the next regular annual appropriations act. These supplementals may be:
3.2.1.1. Requesting additional amounts not previously anticipated; or

3.2.1.2. Requesting changes in appropriations language that do not affect amounts previously appropriated.

3.2.2. Reappropriation is an extension of the availability of unobligated balances of budget authority that have expired or would otherwise expire as a result of legislation enacted subsequent to the law that provided the budget authority. The term does not apply to extensions of the availability of unobligated balances of budget authority that result from standing provisions of law, enacted before the budget authority was provided, or from provisions of law included in the same law that appropriated the funds.

3.2.3. The receipt of a supplemental appropriation or reappropriation is recorded at the departmental-level only. The allocation, if any, of the supplemental appropriation or reappropriation is recorded at the activity group and activity level as appropriate. The receipt and allocation of appropriations provided to the DWCF are accounted for within the DoD USSGL Account Transactions:

3.2.3.1. Departmental-Level Entries. Record receipt of a supplemental appropriation or reappropriation to the DWCF at the account level and establish budget authority. The source document for the Budgetary Account posting is the OMB SF 132, Apportionment and Reapportionment Schedule. The source document for the Proprietary Account posting is the Treasury Warrant (TFS Form 6200), “Department of the Treasury Appropriation Warrant;”

3.2.3.2. Intermediate Level Entries. Record direct budgetary authority received from the departmental-level by an intermediate level component and available for allotment to execution level component(s) or sub allotment to other intermediate level component(s); and

3.2.3.3. Activity (Execution) Level Entries. Record direct budgetary authority received by an execution level component through either allotment or sub allotment of authority.

3.3 Reduction or Withdrawal of Direct Appropriations

3.3.1. The reduction or withdrawal of an unexpired direct appropriation or reappropriation is recorded at the departmental-level. The reduction or withdrawal of the allocation, if any, of an appropriation or reappropriation issued to the intermediate or activity level is recorded as a decrease at the intermediate and activity level and as an increase at the departmental-level, as appropriate. The entry to record the reduction or withdrawal of an unexpired direct appropriation or reappropriation from the departmental-level requires budgetary and proprietary journal entries to perform the transaction.
4.0 CUSTOMER ORDERS

4.1 Anticipation of Customer Order

4.1.1. The DWCF Component must estimate the dollar amount of reimbursable orders it expects to receive in the current fiscal year.

4.1.2. There must be a specific law that authorizes reimbursable work with non-Federal entities. A DWCF Component cannot cite the Economy Act as the statutory authority to perform work for non-Federal customer orders with or without an advance. A law must specifically allow a DWCF activity to incur obligations against customer orders received from non-Federal sources with an advance.

4.1.3. Customer orders with advances from non-Federal sources are credited to a Treasury Appropriation Fund Symbols (TAFS) that is legally available for the work performed. Customer orders with advances from non-Federal sources are credited to a TAFS that is legally available for the work performed where the period of availability of the performing Federal agency TAFS is determined by the activity’s general counsel.

4.2 Receipt of Customer Orders

4.2.1. Customer orders received are requisitions and other orders accepted for items to be furnished on a reimbursable basis. The amount of budgetary resources available for obligation from customer orders is the sum of orders received from Federal Government accounts that represent valid obligations of the ordering account, whether or not accompanied by an advance plus orders received from the public, including state and local governments, but only to the extent accompanied by a cash advance.

4.2.2. Throughout the year, unfilled customer order amounts should be adjusted to the extent that orders are filled, canceled, or new orders received.

4.3 Recognition of Reimbursement Earned (Revenue)

An earned reimbursement is the amount of the customer orders that have been filled, provided that in the case of orders from the public, including state and local governments, the amount is limited to the amount of the cash advance received. Earned reimbursements should not exceed the amount of individual customer orders as well as letters of intent, commanders’ orders, congressionally mandated actions, and other emergency situations. The amount of budgetary resources available for obligation from earned reimbursements is calculated as the sum of:

4.3.1. Customer orders from Federal Government accounts that have been filled but not yet billed;

4.3.2. Accounts receivable representing Federal Government customer orders that have been filled but not collected;
4.3.3. Cash received as advances from the public for customer orders that have been filled; and

4.3.4. Cash received as reimbursement for Federal Government customer orders that have been filled.

4.4 Treatment of Unearned Revenue

Unearned revenue consists of amounts received in advance for goods and services to be delivered at a future date. The appropriation language for DoD’s DWCF permits the fund to receive advances for supplies and services. The DWCF business entities must be advanced funds identified in the DWCF customer orders during the fiscal year, as required, to enable the DWCF activity to pay for its costs of operation. The DoD Components receiving an advance must record the amount received as a liability until the payment is earned, i.e., goods or services have been delivered. After the payment is earned, the DoD Component must record the appropriate amount as revenue and reduce the liability accordingly. Other Liabilities are further discussed in Volume 4, Chapter 12, and DWCF Reimbursements and Revenue Recognition are further discussed in Volume 11B, Chapter 11.

5.0 NON-EXPENDITURE FUND TRANSFERS

A non-expenditure transfer moves budgetary resources from one budget account, appropriation, or fund to another that does not involve an outlay. Non-expenditure transfers of funds may be received from another appropriation or fund or may be made to another appropriation or fund when appropriate and authorized. A non-expenditure transfer of funds received from another appropriation or fund increases the amount of available budgetary resources. A non-expenditure transfer of funds made to another appropriation or fund decreases the amount of available budgetary resources.

CHAPTER 11

REIMBURSEMENTS AND REVENUE RECOGNITION - DEFENSE WORKING CAPITAL FUNDS

*1.0 GENERAL (1101)

1.1 Overview (110101)

Reimbursements are collections earned for selling goods or providing services. Reimbursable obligations are obligations financed by offsetting collections credited to an expenditure account in payment for goods and services provided by that account. The collection must be authorized by law to credit the specific appropriation or fund account. The Under Secretary of Defense (Comptroller) must authorize reimbursable authority through budget formulation in Annual Operating Budgets and statutory authorization in the annual National Defense Authorization Act. Refer to Volume 3, Chapter 15 for additional information relating to the standards for recording the receipt and distribution of budgetary resources in execution-level activities.

1.2 Purpose (110102)

This chapter establishes guidance for reimbursements and revenue recognition for the DoD Defense Working Capital Fund (DWCF).

1.3 Authoritative Guidance (110103)

The accounting policy and related requirements prescribed in this chapter are in accordance with the applicable provision of:

1.3.2. Office of Management and Budget (OMB) Circular A-11 “Preparation, Submission, and Execution of the Budget.”

1.3.5. U.S. Department of the Treasury (Treasury), Bureau of the Fiscal Service, Federal Account Symbols and Titles (FAST Book).
2.0 REIMBURSEMENTS (1102)

2.1 Reimbursement Principles (110201)

2.1.1. 10 U.S.C. §§ 2208 and 2210 provide the basic transactional authority for the DWCF. These authorize the Secretary of Defense to finance inventories of supplies, industrial-type activities, and commercial-type activities that provide common services within or among activities of the DoD. Supply-type services involve the sale of material financed using contract authority established by 10 U.S.C. § 2210(b) subsequently liquidated using revenue earned and collected from sales. Industrial-type services may be financed for requirements internal to a military department or for external customers and commercial-type activities may be financed when common services are required within or among the departments and agencies that comprise the DoD. As required by 10 U.S.C. § 2208(o), charges for goods and services provided through a DWCF activity must include amounts to recover the full costs of goods and services provided and amounts for capital investment recovery.

2.1.2. The DWCF billings to and reimbursements from ordering activities for services or goods provided must be accomplished in the most efficient and expeditious manner available to reduce or eliminate the need for additional DoD working capital. In addition, the nature of the DWCF requires ordering activities to budget, control, and account for the cost of all goods and services ordered (refer to 10 U.S.C. § 2208).

2.1.3. As a result, a DWCF activity:

2.1.3.1. Must bill ordering activities for all costs incurred as a result of an accepted customer order as long as the billings do not exceed the fixed-price contract amount.

2.1.3.2. Must bill customer order cancellation or reduction costs. When a job order is canceled or reduced in scope after a DWCF activity has commenced work or incurred costs on the order, the costs incurred, plus the applied overhead (that is, indirect and other normally allocated overhead, such as General and Administrative (G&A) costs) plus costs associated with the cancellation or reduction must be charged to the customer. Examples of directly associated cancellation or reduction costs to be charged to customers are advance planning costs, non-creditable direct materiel, special test equipment, necessary preservation and/or shipment effort, and any additional effort necessitated by the cancellation and/or reduction; for example, salvaging of materiel. In addition, costs charged to customers should include the costs of salaries payable to employees hired specifically to work on the canceled order until the employees are, or could have been, separated through a reduction in force or other appropriate action (taking into account appropriate administrative lead time), or reassigned to other direct jobs. Materiel is defined as all items necessary to equip, operate, maintain, and support military activities without distinction as to their application for administrative or combat purposes, excluding real property, installations, and utilities. Materiel is either serviceable (i.e., in an issuable condition) or unserviceable (i.e., in need of repair to make it serviceable). This definition is taken from DoD Instruction 4140.01 “DoD Supply Chain Materiel Management Policy.”
2.1.3.3. Must not charge the customer for costs that are indirectly associated with cancellation or reduction actions. For example, do not charge a customer canceling or reducing an order for under-applied indirect production and G&A overhead costs that result from a reduced workload base of the DWCF activity as a whole. Instead, record the under-applied costs against the net operating results of the performing DWCF activity.

2.1.3.4. Must not enter into any arrangement to offset services/materials received and services/materials furnished, except for Foreign Military Sales (FMS)/Foreign Exchange Agreements as provided in Volume 15 or via Acquisition and Cross-Servicing Agreements as provided in Volume 11A, Chapter 8.

2.2 Reimbursable Orders (110202)

2.2.1. No work or service should be performed by a DWCF activity except on the basis of reimbursable orders received and accepted that constitute obligations of Federal Government ordering activities or cash advances from non-Federal Government entities. Direct fund cite orders will include a reimbursable order portion for the applicable DWCF overhead rate. Economy Act Orders may be issued as direct fund cite orders where the ordering activity identifies the appropriate fund citation for the servicing activity to place on the reimbursable order (refer to Volume 11A, Chapter 3).

2.2.2. Each DWCF activity must record promptly all orders accepted and must account continuously for the status of all orders in terms of deliveries, billings, and unfilled balances. This will provide a basis for scheduling production or operations, assessing work backlogs, determining the need for additional orders or to reduce activity, preparing operating budgets and forecasts, and promptly informing customers about changes in delivery schedules.

2.3 Basis for Reimbursement (110203)

2.3.1. All orders accepted by a DWCF activity must be in writing (either on paper or an electronic document); for a purpose authorized by law; executed before cancellation of the issuing appropriation; and must call for specific goods, real property, work, or services. The DWCF activity will adhere to the accounting standards hierarchy in Volume 1, Chapter 2 in accepting, recording, billing and reporting reimbursable activities.

2.3.2. Each Project Order or other order accepted by a DWCF activity must state specifically the basis of reimbursement to the DWCF for the cost of work or services ordered, as between fixed-price or cost reimbursement. For DWCF industrial facility sales to persons outside the DoD under authority of 10 U.S.C. § 2563, materials or services may be sold on either a fixed-price or cost reimbursement basis.
2.3.3. Orders from the public, including State, local and foreign governments must be accompanied by an advance because DWCF activities cannot recognize budgetary resources for a non-Federal order until a receipt is collected. Volume 4, Chapter 3 provides an exception for fuel sales to the public. According to Chapter 1, paragraph 010208, cash advances may also be requested from Federal Government activities when directed and approved in advance by the Office of the Under Secretary of Defense (Comptroller) (OUSD(C)).

*2.4 Performance Under Project Orders and Economy Act Orders (110204)

A performing activity’s mission, function and the nature of the transaction will determine whether 10 U.S.C. § 2208 or another statutory authority governs a class of orders. As stated in subparagraph 2.1.1, 10 U.S.C. § 2208 is the primary transactional authority for DWCF sales of materials and for the provision of services by chartered DWCF industrial and commercial activities that provide common services within or among DoD components. The Economy Act and the Project Order Statute are additional statutes that may pertain to some DWCF sale transactions.

2.4.1. The DoD Components (i.e., DoD-owned and operated activities) ordering work or services from a DWCF financed activity may place a Project Order whenever such an order meets the requirements for Project Orders established in Volume 11A, Chapter 2. A DWCF customer with a qualifying requirement would use authority conferred by 41 U.S.C § 6307 to account for the obligation in the same manner as it would a procurement contract for a similar requirement with commercial manufacturer or private contractor. To qualify as a Project Order under policy in Volume 11A, Chapter 2 the customer request must be a bonafide need of the fiscal year (FY) in which the Project Order is placed. DWCF customers may place Project Orders only for non-severable requirements that are performed over a period of time which may cross a FY.

2.4.2. Organizations financed by the DWCF accept and perform orders within the scope of their DWCF charter mission under transactional authority conferred by 10 U.S.C. § 2208. Such organizations may also accept and perform Economy Act Orders under 31 U.S.C. § 1535, when providing intra-DoD or intragovernmental support not falling within the activity’s DWCF charter mission, provided they otherwise meet the criteria of such orders as described in Volume 11A, Chapter 3. For instance, when a tenant of a DWCF-financed activity reimburses a DWCF installation host, the Economy Act governs the transaction. Such support would not involve provision of supplies or common services for which the DWCF-financed activity was chartered. Support categories for which the Economy Act may provide transaction authority include, but are not limited to, base support (host-tenant) services, civilian personnel services, community services, environmental compliance, fire protection, food service, health service, mail service, police service, security/guard services, and warehousing.

2.4.3. The customer order and funding document should identify the applicable statutory authority (i.e., Project Orders, Economy Act Orders, or 10 U.S.C. § 2208) upon acceptance by the performing activity. See Treasury’s Bureau of the Fiscal Service, Interagency Agreement, United States Government Order Instructions, FS Form 7600B. The requesting and servicing activities must identify the applicable statutory and program authorities. FS Form 7600B allows for this information to be provided in blocks 17-19 and 20-21, respectively.
2.5 Reimbursement for Contingency Operations and Humanitarian Efforts (110205)

2.5.1. All DWCF activity groups, including transportation services provided by the U.S. Transportation Command (USTRANSCOM), operate on a reimbursement basis with users paying for goods and services provided. Payment for contingency operations, including deployment or other emergency response for military or humanitarian assistance, is no exception.

2.5.2. The Military Department Headquarters is responsible for determining which level within the Military Department will pay (that is, at the unit, major command, or Military Department-level). This process also applies when a Unified Combatant Command tasks a Service-funded unit to perform a mission (such as transportation of military personnel or equipment by the USTRANSCOM). Payment for the services provided is the responsibility of the Military Department controlling the equipment or personnel receiving the service.

2.5.3. Transportation provided in response to a Request for Assistance (RFA) from another government agency must not result in third party collections. The Military Department that controls the equipment or personnel being transported is responsible for reimbursing USTRANSCOM. It is the responsibility of the Military Department that accepted the RFA to collect any required reimbursements owed to that Military Department by the requesting government agency.

2.5.4. An exception to this policy occurs when the USTRANSCOM receives an order from the Joint Chiefs of Staff requiring transportation of non-U.S. owned equipment and/or non-U.S. personnel such as unreimbursed efforts in support of the United Nations. In those instances, the Army will pay Surface Deployment and Distribution Command costs, the Navy will pay Military Sealift Command costs, and the Air Force will pay Air Mobility Command costs. Bills may be centralized for more convenient processing if appropriate; however, billings must be forwarded to the appropriate Military Department within 30 days from commencement of the contingency operation or humanitarian effort. The Military Departments must pay these bills, including transportation costs, in a timely manner.

2.5.5. Authority for another exception to this policy is available for operations described in 10 U.S.C. § 127a. 10 U.S.C. § 127a does not confer authority to conduct operations, but rather establishes mechanisms by which funds are provided for two types of operations that the armed forces are required to carry out under some other authority in the absence of advance funding. The first involves the deployment (other than for a training exercise) of elements of the armed forces. The second involves the provision of humanitarian assistance, disaster relief, or support for law enforcement (including immigration control). 10 U.S.C. § 127a(b) authorizes the Secretary of Defense to not require reimbursement for specified services rendered by DWCF activities to a unit of the armed forces performing a section 127a mission.
2.6 Work Performed in Advance of a Reimbursable Order (110206)

In certain situations, work for customers may begin in advance of receipt and acceptance of a formal order. They are as follows:

2.6.1. In periods under which the Department is operating under a Continuing Resolution (CR). For more details, refer to Volume 3, Chapter 2 and OMB Circular A-11, Section 123. Orders issued under a CR must identify the portion covered by current obligational authority. When obligational authority is not available neither work nor service is to be performed. Another option is to request that OMB provide an exception apportionment. This must include a written justification that provides the legal basis for the request.

2.6.2. When it is necessary, in an urgent situation, to incur limited costs in advance of the receipt of a regular order for an authorized program for which customer funds are available, such work or services may be undertaken on the basis of a letter of intent which constitutes an obligation of the ordering activity in a stated amount sufficient to cover the advance costs that may be incurred. Therefore, letters of intent are obligating instruments, contractual in nature, and must be funded upon issuance. A letter of intent must expire within 30 days from the date of issuance.

2.6.3. When it is necessary to begin work of an emergency nature prior to the receipt of an order, a commanding officer’s order or similar order may be issued by the commander of the DWCF activity subject to the following conditions:

2.6.3.1. The DWCF activity must have written assurance that an order must be issued promptly or have equivalent documented communication. The use of such orders must be limited to situations in which there are bona fide emergencies arising from unforeseen urgent requirements, e.g., loss or damage caused by a disaster, an act of God, or events caused by unforeseen security situations. A commanding officer’s order must not be used as a normal procedure to circumvent administrative lead-times that should be considered in advance planning.

2.6.3.2. A commanding officer’s order must expire within 30 days from the date of issuance.

2.6.3.3. A commanding officer’s order must be issued on a local form (e.g., DoD (DD) Form 577, Appointment/Termination Record - Authorized Signature) and must be approved and signed by the commanding officer or an authorized representative.

2.7 Follow-up on Unfunded Reimbursable Orders (110207)

While there may be some services furnished by a DWCF activity prior to receiving a funded order, this should be a rare occurrence. Whenever this occurs, these services are performed on the basis of anticipated orders or for programs included in approved budget requests. This type of work is for existing customers that have annual recurring requirements. However, when items are furnished or services performed in response to an unfunded reimbursable order (express or implied), and a funded order has not been submitted after 15 days of providing the
service, the DWCF organization must notify the comptroller of the customer organization and request a funded order. If funding is not received within 30 days of providing the service, the DWCF organization must notify the OUSD(C), Deputy Comptroller Program/Budget (P/B) - Revolving Funds Directorate, and request authorization to directly bill the customer's appropriation account. The OUSD(C) P/B - Revolving Funds Directorate must respond to the request within 15 days. Upon authorization by the OUSD(C) P/B - Revolving Funds Directorate, the DWCF organization will self-reimburse the DWCF, citing the customer's appropriation.

*2.8 Billing Standard (110208)

The DWCF Components performing work or services on a customer order must bill the requesting DoD Component, other Federal agency, or the public for earned reimbursements (performance of work or services, payments to contractors, or delivery from inventory) within 30 calendar days after the month in which performance occurred. The payment due date must not be more than 30 calendar days from the date of the invoice.

2.8.1. Stabilized rates must be established to achieve an Accumulated Operating Result (AOR) of zero in the budget year. This means the stabilized rates must recover operating expenses estimated to be incurred for the applicable FY and provide sufficient working capital for the acquisition of fixed assets as approved by the OUSD(C) P/B - Revolving Funds Directorate. Therefore, stabilized rates and unit prices must be established at levels intended to provide for estimated revenues to equal estimated costs plus approved surcharges for the applicable FY for which the rates and unit prices are established. In budget execution, activities will incur either a positive or a negative operating result. Accordingly, activities will increase their budget year prices to make up actual or projected losses of budgetary resources or reduce their budget year prices to return actual excess resources or projected budgetary gains to customers. Activities may request recovery of AOR outside the budget year in instances when an AOR of zero cannot be achieved. This request must be included in the budget submission and approved by the OUSD(C) P/B - Revolving Funds Directorate. Refer to Volume 2B, Chapter 9 for specific details.

2.8.2. When established stabilized rates and unit prices are insufficient to cover the increase in actual costs incurred for Project Order or Economy Act Order cost reimbursable orders, renegotiations in the current FY need not be conducted for small dollar amounts ($0.01 to $2,500.00) when the probable cost of renegotiation is greater than the adjustment amount. The resulting negative operating result must be addressed to achieve an AOR of zero in the budget year in accordance with the guidelines in subparagraph 2.8.1.

2.8.3. Private parties and concerns, when authorized by law including foreign governments, and state and local governments must reimburse the DWCF for the full costs incurred by the Federal Government. Full costs for foreign military, state and local government, and private party sales must include unfunded costs that are not charged to the DoD or other Federal Government customers (such as unfunded civilian retirement and postretirement health benefits costs). Amounts collected for unfunded civilian retirement and postretirement health benefits costs must not be retained by DWCF activities; rather, such amounts must be deposited into either the Miscellaneous Receipts Account 3210, “General Fund Proprietary Receipts,
Defense Military, Not Otherwise Classified,” or for FMS into Account 3041, “Recoveries Under the Foreign Military Sales Program, Army, Navy, Air Force, Defense” (see the FAST Book). Volume 15, Chapter 7 provides additional information on the determination of full costs for FMS.

2.9 Disputed Bills between DoD Components (110209)

2.9.1. Payment for ordered goods and services must be made promptly after the receipt of the bill/invoice by the requesting activity from the performing activity. Payment may be in advance or on providing the goods or services ordered and must be for any part of estimated or actual cost as determined by the activity filling the order. Proper adjustment of amounts paid in advance must be made as agreed to by the ordering and performing activities on the basis of the goods or services provided. A bill submitted or a request for payment must be paid promptly and not postponed subject to audit or other similar validation in advance of payment. This provision is not intended to preclude questions on the accuracy and correctness of the billed amounts but is intended to preclude the nonpayment of bills subject to the resolution of disputed billing details. Every effort must be expended to resolve disputed billing details within 60 days. The billing activity may request adjudication from the OUSD(C) P/B - Revolving Funds Directorate if, after 60 days, agreement as to the resolution of billing details cannot be reached. The OUSD(C) P/B - Revolving Funds Directorate must provide a decision on disputed bills within 30 days.

2.9.2. The providing activity may request approval from the OUSD(C) P/B - Revolving Funds Directorate to collect from the customer such amounts as are unpaid, in cases where there is a question as to ownership of the bill (vice dispute over the amount of the bill or other billing details), and the bill remains unpaid for more than 90 days. The OUSD(C) P/B - Revolving Funds Directorate must provide a decision on ownership questions within 30 days.

3.0 REVENUE RECOGNITION (1103)

*3.1 Reporting Requirements (110301)

3.1.1. DoD Components must use the percentage of completion method for recognizing revenue on all customer orders. Under this method, the revenue earned on an order must be recognized, based on the ratio that costs of goods incurred and services provided to date, bear to the total costs estimated to be incurred on the order when it is completed (see SFFAS 7, paragraph 149 for guidance and exceptions to this treatment). The completed contract method for revenue recognition is not an acceptable method for recognizing revenue within the Department.

3.1.2. Revenue and costs must be recognized in the same accounting period. In accordance with SFFAS 7, paragraph 36(c), “when goods are kept in inventory so that they are available to customers when ordered, revenue should be recognized when the goods are delivered to the customer.” This is clarified in the OUSD(C) Financial Management Regulation Policy Memorandum (FPM) 19-10 “Policy Change to Account for In-Transit Inventory Assets” dated December 9, 2019. According to FPM 19-10 revenue recognition must occur at the point of receipt of the inventory by the customer effective FY 2021. Volume 4, Chapter 17, subparagraph 170506.A provides that DWCF activities routinely post operating expenses/program
costs to a Cost of Goods Sold (COGS) account (either directly to Operating Expenses/Program Costs or via Work-in-Process accounts) so that costs may be matched to revenue upon completion of the task or filling an order. A standard policy for recognizing and reporting revenue must apply for all activities within a DWCF activity group. The amount of revenue recognized must not exceed the amount specified in the order.

3.1.3. Activities in the DWCF industrial activity groups must use a work-in-process account to capture and hold inventory costs prior to their recognition as a COGS. Examples of chartered DWCF industrial activities include the Army Industrial Operations Activity Group, Navy Depot Maintenance Activity Group, and Air Force Consolidated Sustainment Activity Group-Maintenance Division’s depots. DWCF industrial activities are chartered activities with primary missions involving depot maintenance, transportation, and research and development (refer to Volume 2B, Chapter 9).

3.1.4. Activities in the Transportation commercial activity group must recognize revenue based upon receipt of a cargo manifest, the commencement of travel or the agreed upon shipping terms.

3.1.5. Activities in Supply Management activity groups must not recognize revenue, and costs of goods sold, and should not reduce their inventory financial balance until receipt by the customer occurs. This is because materiel does not transfer from the DWCF supply management activity’s inventory until receipt of the materiel by the customer. Therefore, if billing and collection happen prior to receipt by the customer, the funds received by the DWCF must be recorded as an unearned revenue liability. Billing or collection by Supply Management activity groups at time of shipment is not an advance billing under 10 U.S.C. § 2208(l). Upon confirmation of receipt, the DWCF will recognize revenue earned, relieve the liability, reduce inventory, and recognize COGS.

3.1.6. The customers of supply, industrial and commercial activities financed using DWCFs must record complementary accounting entries. Payment prior to receipt of materiel must be recorded as an advance payment, with a corresponding credit to Fund Balance with Treasury. Upon receipt of the materiel, the customer will relieve the advance and debit either an appropriate asset account (e.g., Operating Materials and Supplies held for use) or recognize an expense, if applicable.

3.1.7. Both the DWCF and the customer must also make or adjust any budgetary accounting entries to maintain Treasury Tie-Points. Tie-Points, also referred to as Tie-Point Reconciliations, are a series of standard USSGL accounting relationships that indicate whether certain account balances within a general ledger trial balance are consistent with other account balances. Tie-Points facilitate the validation of trial balance data. Refer to Volume 1, Chapter 7 and the Standard Financial Information Structure given at 1.3.3 for details.

3.1.8. Activities in the Commissary Resale activity group must recognize revenue, and related costs, at the point/time of sale.
3.1.9. In the event that a service is rendered, revenue must be considered earned, and recognized, and associated costs must be reported, at the time that the service is rendered/performed, but not less frequently than monthly on the last calendar day.

3.1.10. Activities in Navy Research and Development activity group must use the percentage of completion method for revenue recognition for production type (end-product item) orders, or report revenue as actual costs are incurred and billed for service type orders.

3.1.11. Activities in all other industrial or commercial activity groups (for example, Financial Operations, Base Support, Information Services, Reutilization and Marketing, and Printing and Publications) not discussed in subparagraphs 3.1.1 through 3.1.10, must recognize revenue and the associated costs, when it is earned. In other words, at the time that the service is rendered/performed, but not less frequently than monthly on the last calendar day.

*3.2 Service Type Orders versus End-Product Type Orders (110302)

3.2.1. For service type orders, a work-in-process account must not be used to capture and hold costs. According to SFFAS 7, paragraph 36(a), revenue should be recognized when the services are performed. Consequently, service type orders must be considered as rendered/completed, and revenue and costs periodically recognized, at least on the last day of the month. Descriptions of projects and work that should be classified as service type orders include:

3.2.1.1. Research and Development includes the conduct and support of research, development, test, and evaluation; basic research; applied research; advanced technology development; advanced component development and prototypes; system development and demonstration; and developmental engineering. Does not include production of items for service testing or engineer-user testing. The Navy’s Warfare Centers and Laboratories are examples of DWCF activities that perform these types of orders.

3.2.1.2. Transportation Services includes transportation (air, land, and sea) services such as the movement of supplies and provisions to deployed forces. This includes operation of ports, port facilities and related sub-installations, passenger trans-shipment activities, and air refueling. This also includes the operation of docks, piers, terminals or similar facilities; and wharfage, ferrying, lighterage and stevedoring. The Navy Military Sealift Command performs these types of orders.

3.2.1.3. Communication and Information Services includes telecommunication services and data processing services (other than those services addressed in subparagraph 3.2.1.5) rendered. For example, the Defense Information Systems Agency operates the information services activity within the DWCF. This activity consists of two main components. The first component includes two lines of service, telecommunications services and enterprise acquisition services. The second component includes computing services.
3.2.1.4. **Specialized Commercial Services.** The Defense Counterintelligence and Security Agency’s personnel vetting program provides personnel background investigations on a fee-for-service basis. The Defense Finance and Accounting Service provides debt management and payment services; payroll services for military personnel, retirees, annuitants and civilians; and performs accounting and reporting for customers that place service type orders.

3.2.1.5. **Technical Information** includes central collection and dissemination for DoD technology based information. Includes provision of access to, and transfer of, scientific and technical information. Also includes provision of computer modeling, data services, and response to requests for solutions to technological problems of the Military Departments.

3.2.1.6. **Printing Services** includes printing, reproduction and document automation, workflow conversion, electronic storage and output, multi-function devices, office printers, and distribution of hard copy and digital information. The Defense Logistics Agency is an example of an activity that provides these services.

3.2.1.7. **Distribution Depots** includes management and procurement of items with a designated national stock number for all DoD customers. For example, the Army’s Industrial Operations activity group conducts depot level maintenance, repair and upgrade; produce munitions and large caliber weapons; and store, maintain, and demilitarize materiel for all branches of DoD.

3.2.1.8. **Supply Management services involving** receipt, reclamation, storage, and issue of consumables and repairable items. For example, the Army DWCF Supply Management activity group administers spare parts inventory for Army managed items, Non-Army managed items and war reserve secondary items. The activity also maintains a protected inventory of spares in Army Prepositioned Stocks, which is released to support deploying combat units.

3.2.1.9. **Contract Management** includes expediting the products and services delivered by industry, assuring that the specifications of the contract are met and paying contractor invoices for these items. Also includes surveillance of contractor operations to assure compliance with contractual requirements and determining the effectiveness of contractor quality control systems and inspection procedures, and officially accepting materiel on behalf of the government after certifying its conformance to contract provisions. Also includes provision of on-site assistance to program managers, such as representation and participation in meetings and informal program/contract reviews.

3.2.1.10. **Base Support** includes facilities maintenance, family housing services, other housekeeping services, and administrative functions, provided to tenants and others. Also includes provision of utility services (central heat and power, electricity, water, wastewater disposal, and natural gas).

3.2.1.11. **Engineering Services** includes provision of technical and engineering assistance in matters relating to various weapon systems, industrial plant equipment, and associate system when they do not relate to research and development projects. Also includes repair service and quality evaluation; that is, inspecting, calibrating, testing, evaluating, trimming and
reengineering of items. For example, the Air Force enhances readiness by efficiently and economically repairing, overhauling and modifying aircraft, engines, missiles, components, and software to meet customer demands through its Consolidated Sustainment Activity Group-Maintenance Division.

3.2.1.12. Support of Reserve (Under and Unutilized) Capacity includes maintenance of unutilized capacity and support of underutilized capacity.

3.2.1.13. Commissary Services includes operation of Defense commissaries. Also includes provision of troop issue subsistence and programming of the replacement of War Reserve Materiel rotation rations. For example, the Defense Commissary Agency collects revenues from product sales in commissary stores through its Resale Stocks business activity.

3.2.1.14. Reutilization and Marketing Service includes the reuse of excess and surplus property within the Federal Government and other authorized agencies, donation to local governments, and the sale of the remaining property to the public on a competitive basis.

3.2.2. A work-in-process account must be used to capture and hold costs prior to their recognition as a COGS that will support revenue recognition. Descriptions of applicable projects and work that should be classified as end-product type orders are as follows:

3.2.2.1. Overhaul or a complete rebuilding of parts, assemblies, subassemblies, and end-items.

3.2.2.2. Manufacture and Assembly such as furnishing customers with new end-items and components. In addition, manufacturing prototypes or furnishing items to the customer for testing.

3.2.2.3. Ordnance is defined as explosives, chemicals, pyrotechnics, and similar stores, e.g., bombs, guns and ammunition, flares, smoke, or napalm. Refer to the DoD Dictionary of Military and Associated Terms. This type order includes the receipt, segregation, demilitarization, storage, assembly, disassembly, test, maintenance, and issuance actions.

3.2.2.4. Construction and Conversion includes construction and conversion of property and equipment.

3.2.2.5. Alteration and Modification includes alteration and modification of property and equipment.

3.2.2.6. Other Products include products not otherwise classified such as the production of research and development items for service testing or engineer-user testing.
3.3 Revenue Billings (110303)

3.3.1. The customer funding an order must be billed for the revenue recognized by the DWCF activity performing the order. When advance payments are received, those advances must be reclassified to the appropriate revenue account when the revenue is earned. Revenue billings to customers must reflect due credit for the advances received. In no case must the total amount of revenue recognized and billed by the DWCF activity exceed the amount of the order. The DWCF customer must not incur obligations for supplies or services ordered from a DWCF activity that exceed the amount of appropriations or other funds available for such purposes. See 10 U.S.C. § 2208 (f).

3.3.2. Revenue billings must be accomplished at least monthly including applicable labor, material, overhead, and surcharges as well as the value of material in inventory that is identified and held in reserve for specific orders, and amounts of work-in-process in contractors’ plants and other government plants that are identified to specific orders. These billings should be made as late as possible in the month so that they include these items to the maximum extent possible and still permit the orderly processing of the collection in the same month. Every effort must be made to reduce the billing and collection lag so that a greater portion of the costs is recovered in the month incurred.

*3.4 Accounting for Reimbursements and Revenue Recognition (110304)

The DoD Standard Reporting Chart of Accounts provides the DoD account definitions and determines how they are to be used. The DoD USSGL Transaction Library illustrates the accounting entries for USSGL budgetary and proprietary accounts. Both are updated on an annual basis at a minimum. Refer to the Standard Financial Information Structure given in subparagraph 1.3.3 for a decomposition of DoD USSGL accounting transactions for DWCF reimbursement and revenue recognition.
## VOLUME 11B, CHAPTER 12: “WORKING CAPITAL FUND COSTS”

### SUMMARY OF MAJOR CHANGES

Changes are identified in this table and also denoted by blue font.

Substantive revisions are denoted by an asterisk (*) symbol preceding the section, paragraph, table, or figure that includes the revision.

Unless otherwise noted, chapters referenced are contained in this volume.

Hyperlinks are denoted by **bold, italic, blue, and underlined font**.

The previous version dated February 2018 is archived.

CHAPTER 12

WORKING CAPITAL FUND COSTS

1.0 GENERAL (1201)

*1.1 Overview (120101)

1.1.1. Working Capital Funds are designed to create a cost conscious environment and provide an efficient and effective means for controlling the cost of goods and services. Defense Working Capital Fund (DWCF) entities must have a cost accounting system capable of collecting and recording the costs of producing outputs in the financial reports, in compliance with the Statement of Federal Financial Accounting Standards (SFFAS) Number 4, “Managerial Cost Accounting Standards and Concepts,” and the DoD United States Standard General Ledger (USSGL) Transaction Library.

1.1.2. Additional information relating to costs can be found in Volume 4, Chapter 17, “Expenses and Miscellaneous Items” and Chapter 19 “Managerial Cost Accounting”. For DWCF entities, all costs must be recovered, unless specifically excluded by DoD policy.

1.2 Purpose (120102)

This chapter describes costs associated with DWCF, and sets forth the criteria for allocating certain costs to outputs (goods and services) in accordance with Federal accounting standards. The full costs of resources that directly or indirectly contribute to the production of outputs (goods and services) should be assigned to outputs (goods and services) through costing methodologies that are most appropriate to the operating environment and should be followed consistently. Costs must be assigned using the following methods listed in the order of preference: (a) directly tracing costs wherever feasible and economically practicable (e.g., direct costs), (b) assigning costs on a cause-and-effect basis (e.g., indirect costs), or (c) allocating costs on a reasonable and consistent basis (e.g., general and administrative (G&A) costs).

*1.3 Authoritative Guidance (120103)

*2.0 MILITARY PERSONNEL EXPENSE (1202)

2.1 Military Personnel Cost (120201)

The cost of military personnel may involve two separate processes. The first process involves the payment to military personnel appropriations for the budgeted amount of military personnel for an activity group – regardless of the actual number of military personnel assigned. The second process involves the assignment of costs for military personnel at the civilian equivalency rate for the number and grade of military personnel assigned to the DWCF activity. In some circumstances, these costs are assigned to production orders or cost centers for services performed; other times they are assigned as overhead or G&A. Rate guidance is provided in Volume 11A, Chapter 6, Appendix B. See Volume 2B, Chapter 9 for additional military personnel reimbursement policy.

2.2 Military Personnel Services (120202)

DWCF activities must price military personnel services reimbursement in support of DWCF operations using the civilian equivalency rate. The respective Military Departments and DWCF activities must reimburse the appropriate military appropriation every fiscal year.

2.3 Unresolved Disputes (120203)

In the event of an unresolved dispute between the military personnel appropriation manager and a DWCF activity on the budgeted amount of the deposit, the budgeted amount requested by the military personnel appropriation manager must be provided. Upon resolution of the dispute, the military personnel appropriation manager will provide a refund to the DWCF activity, if any is due, for the applicable amount.

*3.0 DEPRECIATION EXPENSE (1203)

3.1 Capital Assets (120301)

DWCF activities will fully reflect the depreciation expense of capital assets owned by the activity in their operating costs, whether they were purchased with DWCF budget authority or transferred to the DWCF activity without reimbursement. DWCF activities will recover only those costs incurred by the activity in the rates through the Capital Investment Recovery (CIR) factor. If the depreciation expense is insufficient to cover the costs of capital investments, then an additional capital surcharge may be applied as stated in Volume 2B, Chapter 9.
3.2 Capital Assets Transferred In (120302)

DWCF activities will calculate the depreciation of capital assets that are transferred into a DWCF business entity without reimbursement based on its net value (original acquisition cost less calculated accumulated depreciation) plus any associated costs for transportation, installation and other related costs necessary to put the asset into operational use. Since the transfer of capital assets to the DWCF activity without reimbursement does not involve an outlay, the CIR factor is not applied.

3.3 Imputed Costs Related to Real Property (120303)

Volume 4, Chapter 24, directs DWCF activities to impute costs in accordance with SFFAS Number 55, “Amending Inter-Entity Cost Provisions.” DWCF Activities that transferred out real property to comply with DoD policy must record imputed costs for those assets meeting the criteria defined in SFFAS 55.

4.0 MANAGEMENT IMPROVEMENT INITIATIVES (1204)

DWCF activities must expense any management improvement initiative that does not qualify for the Capital Investment Program and does not result in a capital asset subject to depreciation. See Volume 4, Chapter 24 for further policy on real property maintenance and repair.

5.0 REAL PROPERTY MAINTENANCE AND REPAIR (1205)

DWCF activities must expense real property maintenance and repairs in the period in which the maintenance and repair occurs. See Volume 4, Chapter 24 for further policy on real property maintenance and repair.

6.0 DoD HEADQUARTERS ACTIVITIES COSTS (1206)

Each DWCF activity is under the management control of a designated DoD Component. The DWCF headquarters activities costs are related to specific DWCF activity operations, and are separate from the general policy direction for the Department or a DoD Component. DWCF activities must identify management headquarters funded from the DWCF in the DWCF Charter (Management Command) for each applicable activity. See Chapter 2 for guidance on DWCF charter requirements. Refer to Volume 2B, Chapter 9, paragraph 090107 for the DoD guidance related to headquarters activities.

7.0 ACCOUNTING FOR COSTS (1207)

The DoD USSGL Transaction Library illustrates the accounting entries with related USSGL accounts.

CHAPTER 13

COST ACCOUNTING REQUIREMENTS FOR DEPOT MAINTENANCE

1.0 GENERAL

1.1 Purpose

The purpose of this chapter is to prescribe depot maintenance cost accounting requirements for Defense Working Capital Fund (DWCF) activities to uniformly record, accumulate, and report the job order cost of performing DWCF functions. Depot maintenance reporting requirements and procedures are contained in Volume 6A, Chapter 14, “Depot Maintenance Reporting”.

1.2 Authoritative Guidance

1.2.1. Title 10, United States Code, section 2460 (10 U.S.C. § 2460) generally defines depot maintenance and repairs as:

1.2.1.1. Material maintenance or repair requiring the overhaul, upgrade, or rebuild of parts, assemblies, or subassemblies, and the testing and reclamation of equipment as necessary, regardless of the source of funds for the maintenance or repair, or the location at which the maintenance or repair is being performed;

1.2.1.2. Including all aspects of software maintenance classified by the Department as depot level maintenance and repair, and interim contractor support or contractor logistics support (or any similar contractor support), to the extent that such support is for the performance of services;

1.2.1.3. Not including the procurement of major modifications or upgrades of weapon systems that are designed to improve program performance, the nuclear refueling or defueling of an aircraft carrier and any concurrent complex overhaul, and the procurement of parts for safety modifications; and

1.2.1.4. Including the installation of parts for safety modifications.

1.2.2. Statement of Federal Financial Accounting Standards (SFFAS) 4, “Managerial Cost Accounting Standards and Concepts” sets forth the fundamental elements for cost accounting in Federal agencies. SFFAS 3 “Accounting for Inventory and Related Property” identifies the accounting standards that apply to several types of tangible property, other than long term fixed assets, held by federal government agencies.

1.2.3. Volume 4, Chapter 19 “Managerial Cost Accounting” provides guidance on implementing managerial cost accounting within the Department.
2.0 OVERARCHING POLICY

2.1 General

2.1.1. DWCF depot maintenance activities that utilize a job order costing methodology must use formal cost accounting practices in compliance with the provisions of SFFAS 4.

2.1.2. DWCF activities must ensure compliance with the requirements of this chapter and Volume 4, Chapter 4 “Inventory and Related Property” for all material, whether owned by the Department of Defense (DoD), other federal agencies, state or local governments, foreign governments, or private parties.

2.1.3. DWCF activities must uniformly record, accumulate, and report job order costs to assist management in measuring productivity and efficiency; developing and using performance measurement and cost standards; and highlighting areas that need increased management emphasis. This data also assists in the identification of total capability, duplication of capacity, and areas of interservice support of DWCF workload.

2.1.4. Depot maintenance serves to support Intermediate (I) and Organizational (O) level maintenance by providing technical assistance and performing maintenance that is beyond the capability/responsibility of the I and O levels.

2.2 Facilities Requirement

Depot maintenance may be performed in Government-Owned, Government-Operated facilities; Government-Owned, Contractor-Operated facilities; or Contractor-Owned, Contractor-Operated facilities. The primary funding source for depot maintenance operations is DoD operation and maintenance appropriations made available to customers of depot maintenance. Centrally managed procurement appropriations may finance certain specific programs such as weapon system upgrades and similar modernization and/or modification programs. Activities funded by an appropriation or fund legally authorized for the purpose, as well as customers outside of the DoD such as the Coast Guard and Foreign Military Sales, may place an order for maintenance work.

2.3 Managerial Cost Accounting

2.3.1. Managerial cost accounting should be a fundamental part of the financial management system and, to the extent practical, should be integrated with other parts of the financial management system to provide consistent, cost-based information for reporting and management’s use.

2.3.2. DoD depot maintenance activities must, in accordance with SFFAS 4:

2.3.2.1. Accumulate and report the costs of activities on a regular basis for management information purposes;
2.3.2.2. Establish responsibility segments, and measure and report the costs of each segment’s outputs and calculate the unit cost of each output;

2.3.2.3. Determine and report the full costs of government goods and services, including direct and indirect production costs and general and administrative (G&A) overhead costs;

2.3.2.4. Recognize the full costs of goods and services provided by other federal entities; and

2.3.2.5. Use and consistently follow costing methodologies or cost finding techniques most appropriate to the segment’s operating environment to accumulate and assign costs to outputs. (Refer to Volume 4, Chapter 19 for additional guidance on managerial cost accounting).

3.0 ESTABLISHING THE COST ACCOUNTING MODULE

3.1 Job Order Cost Accounting Module

A job order cost accounting module should be subsidiary to, and integrated within, the financial system defined in Volume 1, Chapter 3 “Federal Financial Management Improvement Act Compliance”. The cost module should be integrated with the depot payroll, fund control, and material control modules. Specifically, management should have information available from the cost accounting and reporting module to assist in the:

3.1.1. Comparison of historical unit cost trends with replacement cost trends to include proper identification and categorization of costs;

3.1.2. Oversight in the utilization of resources;

3.1.3. Evaluation of program budgets;

3.1.4. Comparison of cost trends among DWCF entities or between DWCF and contract sources;

3.1.5. Managerial direction and guidance for DWCF programs;

3.1.6. Evaluation of DWCF activities for efficient use of resources;

3.1.7. Estimation of DWCF requirements;

3.1.8. Monitoring of DoD Component compliance with various congressionally mandated reporting requirements;

3.1.9. Examination of the behavior of cost drivers over time (e.g., relationship between a given cost item and the quantity of its related cost driver(s) over time); and
3.1.10. Establishment of DWCF rates used for customer program budgets based on historic models of cost of repair and applied overhead.

3.2 Requisite Module

The cost accounting module must be established for, but not limited to, all DWCF depot maintenance activities.

3.3 Chart of Accounts

3.3.1. The United States Standard General Ledger (USSGL) provides a uniform chart of accounts and technical guidance for standardizing federal government agency accounting. Guidance on the use of individual general ledger accounts and transactions applicable to the DoD is provided within the Standard Financial Information Structure (SFIS). The DoD Standard Chart of Accounts (SCOA) includes all the point accounts and other information related to the USSGL for DoD purposes.

3.3.2. The following guidance further explains the use of the USSGL chart of accounts by a DWCF activity. For detailed DoD general ledger account guidance and DWCF transaction posting refer to the DoD SCOA and the DoD USSGL Transaction Library.

3.3.2.1. Account 152500, “Inventory - Raw Materials,” must be used to record all materials held for the purpose of providing a good or service to a customer regardless of the method acquired, e.g., purchase, donation, or transfer without reimbursement. DWCF activities must not charge raw materials to the work-in-process account until the materials are issued for use. Raw material issues must then be charged to appropriate job orders or cost centers. Unneeded material and supplies must be returned to the Inventory - Raw Materials account when a determination is made that the material is available for other uses.

3.3.2.2. DWCF activities must verify raw materials records and adjust them to physical counts. Any adjustments needed to reconcile the physical count with the recorded (book) value of raw materials must be charged to the appropriate cost center or to a gain or loss account as described in paragraph 9.8.

3.3.2.3. Account 152600, “Inventory - Work-in-Process,” is the control account for all unbilled job orders. (Refer to Volume 4, Chapter 4 for work-in-process accounting policy.) The amount of work-in-process consists of all costs applied to unbilled job orders including direct labor, direct materials, direct contractual costs (exclusive of contracts that are awarded that directly cite the funds issuer’s line of accounting), and applied overhead expenses. The balance in this account must be reconciled to the total charges on unbilled job orders as of the end of each quarter. In addition, the validity and reasonableness of the charges recorded on the unbilled job orders must be verified on a random sample basis at least annually. This validation must be performed by personnel not assigned to the accounting or maintenance function. For example, personnel from a DoD Component audit service or a local internal review staff may be assigned to perform this
function. Based on the results of the verification, DWCF activities must adjust accounts in accordance with the accounting scenarios contained in the DoD USSGL Transaction Library within SFIS.

3.3.2.4. DWCF activities must use account 141000, “Advances and Prepayments,” to record payment for expenses that properly apply to future accounting periods. Typical prepaid expenses are rents paid to a lessor at the beginning of a rental period. This account must not be used solely to level out significant expenses but must, in fact, represent an equitable distribution to the appropriate time period commensurate with the benefits that will accrue to that future period from the current payment. Refer to Volume 4, Chapter 5 “Advances and Prepayments” for additional guidance and definitions regarding prepayments.

3.4 Customer Funding

Depot maintenance workload performed by DWCF activities is considered non-severable in nature and thus customers must fund the full price of the order, through completion of the effort, using a reimbursable order. The DWCF activity must recognize revenue and bill the customer funding an order or, when advance payments have been received, relieve those advance payments to the appropriate revenue account. Revenue billings to customers must reflect due credit for the advances received. In no case must the total amount of revenue recognized and billed exceed the amount of the order. Chapter 11 “Reimbursements and Revenue Recognition” contains requirements for reimbursements and revenue recognition for DWCF entities.

3.5 Accruals

DWCF activities must record accrued expenses that are significant (material) in relation to the recording of costs for a DWCF activity in the appropriate expense accounts, budgetary accounts, and applicable liability accounts during the accounting period that the benefit was received rather than at the time of the payment for the expense. For example, DWCF activities must record accruals for accrued salaries, annual and sick leave, employee benefits, estimates for utilities, major real property maintenance and repair, and other significant services received and not yet paid. SFFAS 4 states that the determination of whether an item is material (i.e., significant) depends on the degree to which omitting information about the item makes it probable that the judgment of a reasonable person relying on the information would have been changed or influenced by the omission.

3.6 Missing or Erroneous Data

Occasions may arise when, due to missing or erroneous data, costs incurred cannot be identified to charge to the appropriate job order. Such costs must be temporarily recorded in the applicable expense account under suspense control until the correct data is available to make the proper distribution to the correct job order. Any unadjusted amount at the end of a fiscal year, if immaterial, must be charged to the applicable cost center using Account 610000 “Operating Expenses/Program Costs”.

13-9
4.0 ESTABLISHING JOB ORDERS

The performing activity must establish job orders in accordance with the following table:

<table>
<thead>
<tr>
<th>Value of work to be performed</th>
<th>Units subject to “pre-shop analysis”(^1) or “examination and evaluation”</th>
<th>Units NOT subject to “pre-shop analysis” or “examination and evaluation”</th>
</tr>
</thead>
<tbody>
<tr>
<td>&gt;$150,000/unit</td>
<td>Job order per item</td>
<td>Not applicable</td>
</tr>
<tr>
<td>$25,000 to $150,000/unit(^1)</td>
<td>Job order per monthly induction</td>
<td>Job order per monthly induction</td>
</tr>
<tr>
<td>&lt;$25,000/unit(^2)</td>
<td>Job order per quarterly induction</td>
<td>Job order per quarterly induction valued at $500,000 or more</td>
</tr>
<tr>
<td>&lt;$25,000/unit(^3) AND &lt;$500,000/TMS or NSN</td>
<td>Not applicable</td>
<td>Job order per quarterly induction, not to exceed $1,000,000 per job order</td>
</tr>
</tbody>
</table>

\(^1\) inspections and tests and other similar activities performed to determine work requirements

\(^2\) for multiples of the same identification number (Type Model Series (TMS) or National Stock Number (NSN))

\(^3\) homogenous group, by stock classification, subclassification, repair category, or other appropriate criteria

5.0 JOB ORDER REQUIREMENTS

5.1 Job Order Cost Assignment Requirements

DWCF activities must assign costs to individual job orders at the time the job order receives a benefit from the incurrence of an expenditure. The benefit may occur at any time but usually occurs subsequent to the time the obligation is incurred, and before the disbursement occurs. DWCF activities may charge costs to job orders based on standard costs when those costs are properly adjusted for variances to arrive at the actual cost. Costs, including standard costs, must be recorded based on accrual concepts. DWCF activities must not charge direct material, labor, or other direct costs to job orders based on planned, programmed, or reserved amounts. Refer to Volume 4, Chapter 19 for additional guidance on job order cost accounting.

5.2 Job Order Opening and Closing Requirements

5.2.1. DWCF activities must open a job order when a new job order is required under section 4.0.
5.2.2. DWCF activities must close a job order as soon as all direct, indirect production, 
and G&A overhead costs are determined and assigned to the job order. Normally, all such costs 
must be determined and posted to the job order within 30 days of the completion of all direct labor 
chargeable to the job order. The job order must be closed with the use of predetermined indirect 
and G&A rates when authorized. DWCF activities must apply such indirect and G&A rates 
consistently to all job orders. At the end of the fiscal year, any under and/or over absorbed indirect 
and G&A (variances) must be adjusted using the transactions contained in the DoD USSGL 
Transaction Library within SFIS.

5.3 Segregation of Cost for Cancelled and Completed Job Orders

DWCF activities must identify costs associated with the cancellation or reduction of 
partially completed maintenance work, and report these costs separately from the costs of normally 
completed work. Paragraph 12.12 provides additional guidance on cancelled or reduced scope orders.

5.4 Customer Order Support of Job Orders

Customer orders, either project orders or Economy Act orders, from the activity 
responsible for the financing appropriation, are required to support each job order. The customer 
must provide full and adequate funds to cover all requirements. A customer may, however, issue 
orders to cover multiple job orders when agreed to in writing with the depot maintenance activity.

6.0 PROCESS COST CENTERS PROCEDURES

6.1 Process Cost Centers

A DWCF activity may perform certain unique operations that lend themselves to process 
cost center procedures. Process costing is a method of cost accounting that first collects costs by 
process and then allocates the total costs of each process equally to each unit of output flowing 
through it during an accounting period. For example, plating and painting operations are particular 
processes that may be uniformly and consistently performed to units that either are end items or 
will become part of end items. Rather than attempting to directly account for and assign each 
direct labor hour and material cost to an item that has undergone the particular plating or painting 
process, use of a process cost center allows the labor and material costs of the cost center to instead 
be accumulated and allocated to those items that were plated and/or painted during the respective 
accounting period. SFFAS 4 recognizes that process costing is appropriate when the production 
of goods or services involves a regular pattern of process, the output consists of homogeneous 
units, and all units are produced through the same process procedures. (Refer to 
Volume 4, Chapter 19 for additional guidance on process cost accounting).
6.2 Cost Allocation Basis

The DWCF activities must allocate process cost center costs to the job orders for the units processed through the cost center during the respective accounting period. The basis for the allocation of costs must be the number of equivalent units (e.g., number of units, linear feet, square feet, hours operating time) processed on-the-job orders through the cost center during the accounting period.

6.3 Cost Allocation Consistency

The DWCF activity should conduct a thorough analysis of alternative cost accounting and assignment methods before it adopts process cost center procedures. The method used to accumulate and allocate the costs for such operations must be documented and consistently applied from accounting period to accounting period to ensure consistency in the assignment of costs.

7.0 USE OF WORK MEASUREMENT STANDARDS

7.1 Work Measurement Standards

DWCF activities that establish work measurement standards for labor, material, and indirect production and G&A costs must develop cost estimates for each job order using these standards. Incurred costs must be compared against estimated costs to determine if corrective actions are required to control significant variances. Established work measurement standards need to be periodically re-evaluated and updated as necessary to assure that they encourage improvements in efficiency and continue to be within an attainable range.

7.2 Basis of Work Measurement Standards

DWCF activities that establish work measurement standards must base the standards on generally accepted industrial engineering techniques where high value, high volume work is involved. The work measurement standards may be established by in-house or other DoD personnel or they may be established by original equipment manufacturer’s specifications of maintenance tasks and frequencies (product reliability engineered standards). DWCF activities that establish work measurement standards for labor, material, indirect production, or G&A costs must continuously review the standards to verify their accuracy in light of advanced processing equipment, and higher level of skills used. For low-value, low-volume work, the work measurement standards may involve less sophisticated engineering techniques, but the work measurement standards or estimated resources required must be developed for all work accepted.
8.0 LABOR COSTS

8.1 Civilian Labor Hours

DWCF activities must record all civilian labor hours worked in a cost center as either a direct cost on a job order or as an indirect production cost that will be allocated to a job order. Civilian labor hours must be charged at the current payroll rate to include DoD paid personnel benefits.

8.2 Use of Actual and Average Labor Rates

DWCF activities must use actual civilian payroll hourly rates as the basis to record labor costs. Average labor rates may only be used to record labor costs for cost centers when the range of actual hourly pay rates within that center is limited and significant distortions of recorded costs would not result from their use. DWCF activities must not use stabilized rates approved for billing purposes as the basis to record labor or other costs incurred. Stabilized rates are the result of budget estimates; actual costs incurred must be recorded in the cost accounting system independent of the rate setting process.

8.3 Labor Distribution System

DWCF activities must use a labor distribution system to charge all direct labor hours and costs to applicable job orders. Each pay period, DWCF activities must reconcile and correct differences between the labor hours recorded for payroll purposes, payroll costs incurred, and the labor hours and costs distributed to job orders and indirect production cost centers through the labor distribution system. For discrepancies that cannot be reconciled between job order records and payroll records without incurring a major expenditure of resources, DWCF activities must correct the job order records to equal the payroll records. Differences due to the use of average cost center labor rates must be charged to G&A expenses.

8.4 Military Labor Hours

DWCF activities must record all military hours worked as either a direct cost on a job order or as an indirect production cost of a cost center. DWCF activities must charge military labor hours to the job order at the current civilian equivalent rate applicable to the rank and military service of each military member. (Refer to Chapter 12 “Expenses” for the military personnel costing process.)

8.5 Military Personnel Depot Maintenance Costs

DWCF activities must record as an unfunded depot maintenance cost all military labor performed by a “ship’s force” or other military personnel that are part of the operating forces or an intermediate level organization that are loaned, without reimbursement, to and working under the supervision or direction of the depot maintenance activity when weapons systems, platforms or components are undergoing depot maintenance in a DWCF depot. Military personnel “on loan” and not assigned to DWCF activities are funded under other appropriations. The DWCF activities
must not bill these labor costs to, or accept reimbursement from, the customer. These costs are nonrecoverable and DWCF activities must not include them in the calculation of the net operating results used for developing future rates or prices. When military personnel are not working under the supervision or direction of the depot maintenance activity (not assigned), any maintenance work they perform must not be considered depot maintenance.

8.6 Timekeeping

A DWCF activity must maintain a timekeeping system to collect and distribute both military and civilian labor to applicable job orders or cost centers. A timekeeping system must provide the following information:

8.6.1. Source of Hours Available:

8.6.1.1. Normal duty hours available by cost center.

8.6.1.2. Premium time, overtime, and holiday time by cost center.

8.6.1.3. Loaned labor hours by gaining and losing cost center.

8.6.2. Application of Hours Available:

8.6.2.1. Direct hours worked by cost center on each job order.

8.6.2.2. Indirect hours worked by cost center.

8.6.2.3. Nonproductive (e.g., annual, sick) hours by cost center.

8.7 Allocation of Hours

DWCF activities must apply the allocation of hours worked to benefiting job orders, activities, services, or products on a per unit basis, where applicable. The allocation of hours worked to benefiting job orders may also be based on industrially engineered earned hour (actual hour efficiency of a cost center if the employees in the cost center are of a homogeneous type and the allocation of labor hours are properly adjusted for variances to arrive at actual hours worked). The industrially engineered earned hour method of allocation is not appropriate for a cost center with a diverse workforce or different types of workload.

8.8 Supervisor Responsibilities

Supervisors are responsible for the validity of timekeeping records. Supervisors are also responsible for establishing the job order(s) for each pertinent employee and notifying employees of the job orders. Employees are responsible for certifying that the time charged to job orders is correct. DWCF activities must reconcile the source documents used to record the hours worked by each employee on each job order to the total payroll hours.
8.9 Direct Labor

Direct labor is work that can be identified, without undue cost or difficulty, to a single, specific job order. Direct labor generally includes the hands-on maintenance, repair, overhaul, test, and related direct production effort that follow the established sequence and content of work necessary to accomplish the billable job. Direct labor does not include the support work identified as either indirect production or G&A in nature.

8.10 First Line Supervision

First line supervision is that position level immediately over nonsupervisory workers. First line supervisors and above occupy an official supervisory designated position, and when acting in a supervisory capacity, must have their labor costs charged by the DWCF activity as an indirect production cost of the cost center supervised. First line supervisors may be borrowed and when used as direct labor, DWCF activities must classify the time of the first line supervisor as direct labor and charge it to the applicable job order rather than as an indirect production cost. “Crew chiefs,” “snappers,” “team leaders,” and other subordinate job leaders are not first line supervisors.

8.11 Loaned Labor

DWCF activities must place special emphasis on accurately recording the use of loaned labor, which occurs when an employee is temporarily transferred (loaned) from one cost center to another within a DWCF activity. When an employee is loaned, the gaining cost center must record the labor hours of the employee. Care must be exercised to assure that the costs of loaned employees are not charged by both, or by neither of, the loaning and gaining cost centers. First line supervisors at both the loaning and gaining cost centers may be tasked to validate that such costs are accurately recorded. Only personnel assigned to the DWCF are recoverable in the rate structure, while loaned labor is funded by other appropriations.

8.12 Temporary Employees

If employees are temporarily assigned to a DWCF activity from an organizational entity other than DWCF activity and the DWCF activity neither pays the individual directly nor makes payment or reimbursement to the activity loaning the employee, the labor costs must be recorded as unfunded. These costs are nonrecoverable and DWCF activities must not include them in the calculation of net operating results used for developing future rates or prices.

8.13 Civilian Leave and Benefits

The following requirements apply to accounting for civilian leave and benefits. For DoD general ledger accounts and related transaction posting detail, refer to the DoD SCOA and the DoD USSGL Transaction Library.

8.13.1.1. Account 221000, “Accrued Funded Payroll and Leave,” must be used to account for accrued annual leave of DWCF civilian employees. DWCF activities must include a factor for annual leave accruals in stabilized rates or prices in order to provide funding for annual leave.

8.13.1.2. Account 221300, “Employer Contributions and Payroll Taxes Payable,” must be established to account for accrued sick leave, accrued holiday, and other miscellaneous leave in addition to other employee benefits such as life and health insurance, and retirement contributions. The accruals are to be based on estimates of leave to be taken, not the amount of leave earned.

8.13.2. Leave must be costed to job orders based on an allocation factor for all time worked except when a holiday is involved. When an employee works on a holiday, the regular pay for the holiday must be charged against the holiday leave accrual liability, the same as for employees who do not work on the holiday. DWCF activities will only cost the additional pay for working on the holiday, along with the leave accrual, at the prescribed allocation factor, to the job order as stated in paragraph 8.16.

8.13.3. Leave actually taken must be relieved from the appropriate accrued leave account based on payroll labor distributions, and must not be charged to current job orders.

8.13.4. Reconciliation.

8.13.4.1. The amount of annual leave accrued must be reconciled at the end of the fiscal year with individual employee leave records. Adjustments to reconcile the balance in the account to the individual leave records must be costed to USSGL Account 610000, “Operating Expenses/Program Costs” as a G&A expense adjustment. After reconciliation, the balance of the accrued annual leave account must be carried forward into the following fiscal year.

8.13.4.2. At fiscal year-end, the estimates of sick leave, holiday leave, and other leave to be taken may not agree with the actual leave taken. Adjustments necessary to result in a $0 balance in the sick leave, holiday leave, and other leave accounts must be costed to Account 640000, “Benefit Expense (Personnel Benefits – Civilian)” as a G&A expense adjustment. Accrued sick, holiday, and other leave balances are not to be carried forward into the following fiscal year.

8.14 Allocation Factors

The use of allocation factors for calculating leave accruals and applying them to the proper cost centers on labor cost distributions is normally the simplest, most economical, and most accurate method of accruing and costing leave. DWCF activities must update the allocation factors periodically to limit the adjustments to the accrued leave accounts to a minor amount at the end of the fiscal year.
8.14.1. A DWCF activity may determine its own allocation leave accrual factors because of variances caused by average length of service, climate, turnover, and local leave usage experience.

8.14.2. When establishing the allocation factors, it is necessary to estimate the average annual workdays for the activity to which the factor must be applied. The following is an illustration:

8.14.3. Total days in year 365.0

- Less time off
  - Average annual leave taken 20.0
  - Average sick leave taken 9.0
  - Holidays and other events 11.0
  - Saturdays and Sundays 104.0
  - Normal time off 144.0
  - Normal workdays 221.0

- Estimated overtime work 3.5
- Estimated holiday time work .5
- Average workdays 225.0

8.14.4. The annual leave accrual factor may be calculated as follows:

1. Average days net accrual of annual leave 21
2. Average workdays (computed in para. 8.14.3) + 225
3. Preliminary accrual factor (excluding pay adjustments) [(1) ÷ (2)] = .093
4. Estimated regular pay for regular time and overtime worked and premium pay for holiday time worked x $10,000,000
5. Total amount accrued for annual leave using preliminary factor = $930,000
6. Estimated increase in accrual of annual leave due to pay increase + $30,000
7. Total leave accrual requirements = $960,000
8. Amount to which leave accrual factor is to be applied (para. 8.14.4.4) $10,000,000
9. Annual leave accrual factor = .096
8.14.5. The composite leave accrual factor may be calculated as follows:

<table>
<thead>
<tr>
<th>Type of Leave</th>
<th>Average Days</th>
<th>Average Workdays</th>
<th>Accrual Factor</th>
</tr>
</thead>
<tbody>
<tr>
<td>Annual (refer to para. 8.14.4.9)</td>
<td>=</td>
<td>=</td>
<td>.096</td>
</tr>
<tr>
<td>Sick</td>
<td>9</td>
<td>225</td>
<td>.040</td>
</tr>
<tr>
<td>Holiday and Other</td>
<td>11</td>
<td>225</td>
<td>.049</td>
</tr>
<tr>
<td>Composite Accrual Factor</td>
<td>=</td>
<td>=</td>
<td>.185</td>
</tr>
</tbody>
</table>

8.15 Fringe Benefits

In addition to the factor for leave, DWCF activities must add a factor to cover the employer’s share of other employee fringe benefits such as retirement, life insurance, health, and other benefits. Each activity may develop its own factor. Standard accrual factors for leave, retirement, insurance, health, and other benefits must be applied against all payroll costs.

8.16 Overtime Premium

The costs of overtime premium pay (that is, the amount paid for working overtime that is above the normal labor hour rate) must not be charged directly to the applicable job order except when the overtime is clearly caused by the unique conditions of the job order. A clear relationship for the incurrence of overtime costs may be established when a DWCF activity agrees with a customer to meet an expedited completion date or accepts additional work within the same time frame on the same order. Otherwise, the overtime premium must be recorded as an indirect production cost.

8.17 Other Premium Pay

Other premium pay includes payments for extra shift, hazardous duty, and night duty. Consistent with the policy for overtime premium, DWCF activities must only classify other premium pay as a direct labor charge when the incurrence of the premium pay is clearly the result of unique conditions of the job order. Unless the peculiar conditions of the job order require the incurrence of the premium pay, premium pay must be charged as indirect labor costs.
9.0 MATERIAL COSTS

9.1 Raw Materials

All material purchased by DWCF depot maintenance activities, for the purpose of providing a good or service to a customer, must be accounted for in general ledger account 152500, “Inventory-Raw Materials”. This account must be debited based upon receipt of materials and supplies. The same account must be credited with an offsetting debit (charge) to general ledger account 152600, “Inventory-Work-In-Process,” upon issue of the material for use in the performance of DWCF work. Inventory accounting policy and related requirements necessary to establish financial control over DoD inventory, operating materials and supplies, and stockpile materials is contained in Volume 4, Chapter 4.

9.2 Allocation of Direct and Indirect Material

Direct material and supplies must be charged directly to the applicable job order. Indirect material must be charged to the using cost center upon issue.

9.3 Moving Average Cost (MAC)

Materials and supplies contained in the inventory account must be valued at historical cost using the moving average cost flow assumptions in accordance with SFFAS 3 and Volume 4, Chapter 4. More detailed guidance regarding the calculation of MAC is contained in Volume 4, Chapter 4.

9.4 Acceptance and Use of Customer Furnished Material

DWCF activities must accept and use customer furnished material only when its use could be expected to result in a more economical, efficient, or timely output.

9.5 Return of Customer Furnished Material

9.5.1. DWCF activities must return customer furnished material that remains after job order completion to the customer within 60 days unless there is, or soon will be (generally within 90 days), a direct production requirement from the customer who furnished the material for which the material may be used.

9.5.2. If the customer abandons the material, it may be retained if needed for other work requirements. If the inventory is retained, no accounting entry is needed other than the original accepting entry.
9.6 Direct Material

Direct material is that material and supplies that can be identified, without undue cost or difficulty, to the performance of work specified by a work authorization document or job order. A small amount of material may be treated as indirect material even though the material is incorporated as part of the final product, if this practice is consistently applied to all job orders. Direct material may either be incorporated as a part of the final product or consumed in the process.

9.7 Indirect Material

Indirect material is that material that cannot be identified, without undue cost or difficulty, to the performance of work as specified by a work authorization document or job order. The determination of what constitutes “without undue cost or difficulty,” although not defined, is subject to reasonable interpretation. If questioned, it is the responsibility of the DWCF activity to demonstrate that identification of material (or labor) as direct would be unduly costly or difficult in relation to the benefit received.

9.8 Excess Materials

DWCF activities should review the material and supplies on hand in a cost center at least annually to determine if excesses exist. Those items that are excess and are not needed for a particular job order must be returned to the materials and supply stock account. The unused material returned to the materials and supplies stock account must be recorded as follows:

9.8.1 Credit must be granted to the job order originally charged for unused direct material and that material must be recorded as an increase to Account 152500, “Inventory-Raw Materials”. If the job order to which the material was originally charged has been closed, and a decision is made not to reopen the order to post the credit, the credit must be applied to Account 719000, “Other Gains.”

9.8.2 Credit must be granted for the return of usable indirect material to the materials and supplies stock account. The credit must be applied to the indirect material expense account of the applicable cost center.

9.8.3 Items in excess of the needs of a DWCF activity must be returned to the supply system. DWCF activities must record transactions for materials returned and credit received (if any) in accordance with the DoD USSGL/SFIS requirements and transaction library and Volume 4, Chapter 4.
9.9 Reparable Carcasses

When an item such as an assembly, subassembly, or an end item is designated as an “exchange” item, the depot can order and pay for a replacement from the Supply activity to install on the customer’s equipment. The job order must be charged the price the depot pays for the replacement. Further, the depot must return the damaged part or carcass to the Supply activity. If the depot receives credit from the Supply activity, the depot must credit the job order for the amount received. For non-DoD carcasses including those owned by foreign governments, refer to the requirements in Volume 15, “Security Assistance Policy and Procedures”.

9.10 Items Beyond Repair

If an exchange carcass is beyond repair or an exchange item is missing and the depot maintenance activity must order and pay for a replacement from the Supply activity, the cost of the new item must be charged to the job order as a direct material cost.

10.0 OTHER DIRECT COSTS

10.1 Purchased Services

Purchased services must be charged as direct costs to the job order that benefits from the services. If only one job order benefits from a contract or purchase, the cost of the contract must be charged to that job order. If more than one job order benefits from a contract, the costs of the contract must be prorated to the benefiting job orders based on estimates or calculations of the benefits received by each job order.

10.2 Purchased Services Benefiting Indirect Cost Centers

Purchased services that benefit indirect cost centers must be recorded as indirect production costs. If purchased services benefit the activity as a whole, they must be recorded as G&A costs.

10.3 Contracts Supplementing Capacity or Capability

The costs of contracts that supplement the capacity or capability of a DWCF activity must be charged to the job orders that use the additional services.

10.4 Material Costs

The costs of material procured from contractors must be recorded in account 152500, “Inventory-Raw Materials” and charged to job orders under normal procedures. If, however, material is procured for a specific job order, the acquisition cost of the material must be a direct charge to the applicable job order.
10.5 Travel and Per Diem Expenses

Travel and per diem expenses (including regular labor hours spent in travel) must be charged as direct costs only if the labor hours worked while traveling are charged as direct labor. If the traveler works on more than a single job order, the travel and per diem expenses must be prorated based on the related direct labor hours to each order. If the travel is not related to job orders, all travel and per diem expenses must be charged as an indirect production expense of the employee’s cost center.

11.0 INDIRECT COSTS

11.1 Indirect Production Rates and Standard Costs

The indirect production rates and standard costs discussed in this chapter should not be confused with stabilized billing rates. Stabilized billing rates or stabilized prices are used solely to price work to DoD-funded customers and may only be changed upon approval of the Office of the Under Secretary of Defense (Comptroller) (OUSD(C)).

11.2 Indirect Production Costs

DWCF activities must record as indirect production costs, by object class as specified in Office of Management and Budget (OMB) Circular A-11, all costs incurred that are not chargeable as direct costs, unless specifically designated otherwise. Indirect production costs must be recorded by activity, department, cost center, or other organizational element responsible for incurring the cost. The number and type of indirect production cost centers to be established is a function of the diversity of the indirect activities at the depot and the level of management information required. The minimum number of cost centers required to separately identify and record homogeneous groupings of cost is a function of the number of different types of facilities, equipment, and/or skills required in the indirect area. The number of additional cost centers is a management prerogative in terms of the number and type of cost centers needed to ensure efficient and effective operations.

11.3 Indirect Production Cost Pools

Costs of departments, service, and processing centers that provide support directly to direct cost centers must be classified as operating support indirect production cost pools. The costs assigned to these cost pools must be allocated in full to the benefiting direct cost centers (refer to paragraph 11.5) and not included in the G&A expense rate described in paragraph 11.6. Costs assigned to operating support indirect production cost pools must be allocated to the benefiting direct cost centers using a base that results in the distribution of costs incurred in proportion to the benefits received.
11.4 Indirect Production Cost Allocation

Indirect production costs must be allocated to job orders by the use of an operations rate and a G&A rate as described in paragraphs 11.5 and 11.6, respectively. These rates are not the stabilized rates and prices to be used to price DoD customer bills. Refer to Volume 2B, Chapter 9 “Defense Working Capital Fund Budget Justification Analysis” for policy guidance on stabilized rates and prices.

11.5 Operations Rate

DWCF activities must develop an operations rate for each direct cost center in which direct labor is utilized in the performance of DWCF activities. The operations cost pool must consist of all indirect production costs incurred by the cost center plus the allocated share of operating support costs of departments or service cost centers, if any (refer to paragraph 11.3). Use direct labor hours, including both military and civilian direct labor, as the basis for allocating the operations cost pool to the direct cost centers. This base is appropriate because operations in a DWCF activity is normally a function of direct labor hours. When the use of direct labor hours as an allocation base will not result in an equitable allocation of the operations cost pool costs (that is, charges are not commensurate with benefits received), a more appropriate alternate allocation base may be selected providing:

11.5.1. An organizational authority that is above the level of the local performing DWCF activity, including the OUSD(C), has not directed that particular DWCF activity to use a specific allocation base. If a higher organizational authority has not previously directed a specific allocation base for use, then approval of the alternate preferred base need not be obtained by the local performing DWCF activity;

11.5.2. The alternate allocation base preferred for use is approved by the comptroller of the local performing DWCF activity; and

11.5.3. Justification for the decision is documented and retained in the office of the local comptroller for review.

11.6 G&A Rate

DWCF activities must allocate G&A overhead expenses to job orders using an allocation rate separate from the operations rate. The G&A expense pool is comprised of all G&A expenses incurred by a DWCF activity. The base used to allocate G&A expenses to a job order is total incurred costs (both direct and indirect production costs). When the use of total incurred costs as an allocation base will not result in an equitable allocation of G&A expenses (that is, charges are not commensurate with benefits received), a more appropriate alternate allocation base may be selected providing:
11.6.1. An organizational authority that is above the level of the local performing depot maintenance activity, including the OUSD(C), has not directed that particular depot maintenance activity to use a specific allocation base. If a higher organizational authority has not previously directed a specific allocation base for use, then approval of the alternate preferred base need not be obtained by the local performing DWCF activity;

11.6.2. The alternate allocation base preferred for use is approved by the comptroller of the local performing DWCF activity; and

11.6.3. Justification for the decision is documented and retained in the office of the local comptroller for review.

11.7 Variances

Indirect production costs and G&A overhead expenses must be allocated to job orders using, respectively, the indirect production rate and G&A rate. These rates are not the stabilized rates and prices to be used to price DoD customer bills. (Refer to Volume 2B, Chapter 9 for policy on stabilized rates and prices.) The indirect production and G&A rates must be developed based upon estimated costs with an anticipated level of activity (base). The applied overhead account must be used to record any over- and/or under- absorbed indirect production and G&A. A variance between actual indirect production and G&A costs and applied indirect production and G&A may require a change in the indirect production or G&A rate as applicable. The development of a new indirect production and/or G&A rate must include plans to absorb the amount of the realized variance during the time period the new rate is in effect. A change in the indirect production or G&A rate must be approved by the comptroller of the performing DWCF activity when it is apparent that:

11.7.1. The variance is not due to seasonal fluctuations such as summer vacations;

11.7.2. The variance will continue to exist at fiscal year-end; and

11.7.3. The expected variance is significant. The determination of what is “significant” must be made by, or in consultation with, the local DWCF comptroller.

11.8 Completed Job Orders

When a job order is complete, it must be closed—moved from work-in-process to Account 650000, “Cost of Goods Sold”—including indirect production and G&A costs allocated based upon the particular rates in effect during the life of the order. Adjustments in rates made after a job order is closed must not be posted to a completed job order unless the effect of the adjustment would have a significant impact on the total costs assigned to the job order. Adjustments applicable to the current fiscal year for under/over-applied indirect production and G&A must be accounted for using the DoD USSGL Transaction Library within SFIS.
11.9 Permanent Change of Station

The costs of Permanent Change of Station movements for transferred civilian employees that are the responsibility of a DWCF activity must not be charged as a direct cost but as an indirect production expense and recorded in accounts 610000, “Operating Expenses/Program Costs.” Use object class 210 to record travel and transportation costs of persons and object class code 220, as identified in OMB Circular A-11, to record the transportation cost of items to make the proper distinction of expense type.

12.0 COSTS REQUIRING SPECIAL ATTENTION

12.1 Quality Assurance

DWCF activities must charge quality assurance costs (including test design and analysis); testing conducted to independently assure the quality of the work accomplished; and related supervision and support incurred in direct support of a customer order, directly to the order. DWCF activities must charge quality assurance costs that are not identifiable to specific job orders to an operating support indirect cost center as described in paragraph 11.3 and allocate the costs to the benefiting direct cost centers.

12.2 Inspections and Tests

Operational inspections and tests performed to determine the condition of the item and make adjustments are inherent in performing maintenance and must be recorded as “direct labor - production.” Specifically, DWCF activities must record inspections and tests made to determine work requirements, such as pre-shop analysis, initial evaluation and inspection, and pre-inspection or shakedown inspection, as “direct labor” on the applicable job order. Likewise, DWCF activities must record final inspection and tests performed after a process is complete to assure operational or functional adequacy as “direct labor - production.”

12.3 Reparables

The National Inventory Control Point item manager directs the reclamation of unserviceable depot level reparables. Depots must establish a separate job order for each reclamation project and return items produced as a by-product of the reclamation process to the DoD supply system.

12.4 Borrowed Assemblies, Subassemblies, Components, or Parts

12.4.1. Depots use two terms in reference to borrowed assemblies.

12.4.1.1. “Backrobbing” (also called “rob-back”) is defined as the taking of an assembly, subassembly, component, or part from an item that has been inducted for maintenance for use on another item inducted for maintenance with the intention of replacement at a later time. It is the temporary borrowing of the required part.
12.4.1.2. “Cannibalization” is defined as the taking of an assembly, subassembly, component, or part from an item (serviceable or unserviceable) that has not been inducted for maintenance (without regard to its location or ownership) by a maintenance activity for use on an item that has been inducted for maintenance.

12.4.2. Generally, borrowing is authorized only to prevent a work stoppage. Depots must charge the current acquisition cost of the assembly, subassembly, component, or part that was borrowed, and the cost of installing it, to the benefiting job order. Depots must charge all costs incurred in removing the borrowed item and reinstalling the replacement item to the operations cost pool of the cost center requiring the part. These costs must not be separately identified for reporting purposes.

12.5 Calibration

Depots must charge the cost of calibration of an assembly, subassembly, component, part, or other equipment from an item that has been inducted for maintenance to the benefiting job order. Calibration of equipment used by a depot maintenance cost center in the performance of its work must be charged as an indirect production expense of the cost center that uses the item being calibrated.

12.6 Modifications and Upgrades

12.6.1. Depots must establish a separate job order for each modification or upgrade of a major end item such as an aircraft. Separate job orders must only be established for other than major end item modifications or upgrades when the work is easily identifiable, such as when the modification or upgrade is the primary purpose of inducting the item. Depots must charge the cost of material used in the modification or upgrade process, such as a modification kit, and the cost of direct labor incurred to install the modification, to the modification job order.

12.6.2. Depots must also charge to the modification or upgrade job order the modification or upgrade material (modification kits) used for the modification or upgrade job order when a modification or upgrade is performed concurrently with depot maintenance work on the same major end item. In addition, repair requirements that are the direct result of the modification/modernization installation work (also referred to as repair incident to mod) are also legitimate charges to the modification job order. However, direct labor must be charged as modification or upgrade work only when it is peculiar to the modification or upgrade process. For example, depots must charge labor costs incurred in disassembly, test, inspection, repair, rebuild, replacement and servicing that are performed as a normal part of the overhaul to depot maintenance overhaul when modification or upgrade is performed concurrently with overhaul; these costs must not be prorated between overhaul and modification or upgrade.
12.6.3. Depots may charge labor costs incurred installing a modification or upgrade concurrently with depot maintenance overhaul work to the depot maintenance overhaul job order if the amount of the modification or upgrade labor is so small that no significant or material distortion in either the modification or upgrade or the depot maintenance cost will occur. When this practice is followed, there must be no adjustments to the depot maintenance overhaul job order based on labor or material standards or other estimates of modification or upgrade labor in order to support reimbursement from fund citations for modification or upgrade work.

12.7  Information Technology

12.7.1. Depots must capitalize the costs of computer programming efforts for DWCF equipment (that is, the costs of software development efforts for use on DWCF activity assets) when they meet the DoD capitalization criteria. Programming efforts that do not meet prescribed capitalization criteria must be treated as operations overhead expense of the performing cost center. If the programming effort consumes significant amounts of resources, the depot must establish a separate indirect department or service center and allocate the service center’s capitalized and other costs to the benefiting direct cost centers based on program use. Depots must charge the costs of programming effort for non-DWCF activities to those activities before allocating the remaining costs to the benefiting direct cost centers. When the programming costs are not appropriately chargeable as an indirect production cost, depots must charge the costs to a G&A expense account. General cost guidance applicable to information technology can be found in Volume 4, Chapter 6 “Property, Plant, and Equipment”.

12.7.2. DWCF activities perform software support to ensure that fielded software systems, as updated by modification and improvement efforts, continue to support original missions. All DWCF costs for software support must be charged to specific job orders established for this purpose. DWCF activities must include all applicable direct labor, direct material, all other direct costs, indirect production, and G&A costs in costs charged to the orders.

12.8  Machine Set-Up Costs

12.8.1. Depots must charge the cost of programming efforts for automatic test and numerically controlled machines to the benefiting job order(s). However, if a depot expends significant effort for programming that benefits more than one job order, then the depot must allocate the programming cost to all benefiting job orders. If new machinery or equipment is required, then these costs are part of the Capital Investment Program. The nonproductive labor hours of employees waiting for programming to be completed is an indirect expense of the worker’s cost center.

12.8.2. Depots must charge machine tool set-up time to the benefiting job order(s). Set-up time is normally recorded as direct labor on a job order and should not be separately recorded from the job order. However, if a significant effort is expended for a set-up that must benefit more than one job order, then the depot should allocate the set-up to all benefiting job orders. The nonproductive labor hours of employees waiting for a set-up to be completed are an indirect expense of the worker’s cost center.
12.9 Defective Work and Spoilage Costs

12.9.1. Depots must charge the applicable job order for efforts undertaken to correct work defects and spoilage when quality control standards are not met. Examples of corrective work that should be directly charged to a job order include:

12.9.1.1. Reworking castings, welds, and brazing involving acceptable reject rates.

12.9.1.2. Minor realignment or refitting of units that are improperly finished or aligned.

12.9.1.3. Resoldering of connections broken in transit.

12.9.2. Depots must charge the responsible cost center’s indirect material and labor costs with the costs of the corrective work when unusual defects or excessive spoilage occurs. When the responsible cost center cannot be determined, depots must charge the applicable material and labor cost as an indirect production cost. Defective work and spoilage that are chargeable to indirect production costs include the following:

12.9.2.1. Costs for additional material and labor necessary to remedy or rework end products when defects beyond acceptable levels are detected during the normal production and inspection processes. Such costs do not add value to the work performed but are necessary to bring the work up to stated specifications.

12.9.2.2. Costs related to work on items with defects so severe that the item must be removed from the production process and sold as scrap or returned in part to raw materials. When this happens, the depot must relieve the applicable job order of the costs and charge the indirect production costs of the responsible cost center. If a responsible cost center cannot be determined, the depot must charge a G&A account for “Defective Work and Spoilage” for the costs of the rejected item.

12.10 Disposition

12.10.1. Depots must comply with 40 U.S.C. § 574 and Volume 11A, Chapter 5, “Disposition of Proceeds from Department of Defense Sales of Surplus Personal Property” regarding disposition of proceeds from DoD sales of surplus property. Proceeds from the sale of surplus property generated, collected, or otherwise obtained by DWCF activities as a part of normal operations must be credited to the DWCF and accounted for as follows:

12.10.2. Estimated proceeds from the sale of material removed during work on vessels, aircraft, vehicles, and weapons that can be feasibly and economically related to a specific job order may be credited to that job order. When actual proceeds are known, the job order amount must be adjusted if the job order is still open. Otherwise, the net difference between the estimated amount and the actual amount of proceeds must be adjusted to USSGL Account 711000, “Gains on Disposition of Assets - Other”.
12.10.3. Carcasses received from customers that are later condemned or deemed unserviceable are considered a normal part of DWCF operations. Therefore, the proceeds from the sale of carcasses received from customers must be credited to USSGL Account 711000.

12.10.4. All other proceeds from the sale of DWCF items must be credited to USSGL Account 711000.

12.11 Mobilization Capability Costs

Mobilization capability costs include the costs to maintain a surge capacity and/or maintain other assets, functions, or capabilities required to meet an operational contingency as documented in the Secretary’s force planning guidance or operational plans. Surge capacity most often manifests itself in facilities and equipment that are unutilized or underutilized during normal peacetime operations. DoD policy and guidance associated with mobilization costs is contained in Chapter 14 “Mobilization Costs”, and in Volume 2B, Chapter 9.

12.12 Job Order Cancellations or Reductions in Scope

12.12.1. Depots must charge the costs incurred plus the applied indirect production and G&A costs, and costs associated with the cancellation or reduction, to the customer when a job order is canceled or reduced in scope after a DWCF activity has commenced work or incurred costs on the order. Funds personnel must ensure the customer provides and/or does not reduce funding below amounts required to cover canceled/reduced orders. Examples of directly associated cancellation or reduction costs to be charged to customers are advance planning costs, non-creditable direct material, special test equipment, necessary preservation and/or shipment effort, and any additional effort necessitated by the cancellation and/or reduction; for example, salvaging of material. In addition, depots must charge the customer for the costs of salaries payable to employees hired specifically to work on the canceled order until the employees are, or could have been, separated through a reduction in force or other appropriate action (taking into account appropriate administrative lead time), or reassigned to other direct jobs.

12.12.2. Costs that are indirectly associated with cancellation or reduction actions must not be charged to the customer. Although normally allocated indirect production and G&A costs must be charged to canceled or reduced customer orders, any underapplied indirect production and G&A costs that may occur as a result of a reduced workload base of the DWCF activity as a whole must not be charged to the customer canceling or reducing their order. The underapplied costs must be recorded against the net operating results of the performing DWCF activity.

12.13 Employee Training Costs

12.3.1. Depots must record the cost of training performed for the DWCF activity’s benefit as an indirect expense of the employees’ cost center. General developmental training for WCF employees not required to support actual productive workload (i.e., training in the installation, operation, and maintenance of DoD weapons, equipment, and systems to develop organic expertise) may not be charged as a direct cost to customer orders.
12.3.2. Training costs must include all applicable elements of cost, including labor costs of trainees, travel, transportation, per diem costs, labor costs of instructors, tuition, books, and materials. Training costs must include the cost of planning the course of instruction, conducting the course, and any related support effort.

12.3.3. The development and qualification of employees requested by activities outside of the performing DWCF activity must be charged to a specific job order.

12.3.4. The hours of on-the-job training in the form of actual productive effort (as opposed to observation or other noncontributory effort) are chargeable as direct labor to the related job order. Noncontributory effort, including time spent observing others, should be charged to the indirect costs of the cost center of the employee.

12.14 Technical Assistance

Depot maintenance technical assistance is a specialized service, provided by qualified depot maintenance technicians, that is performed in many different ways depending upon the requirement. Technical assistance may include instruction on maintenance repair or support processes for military equipment, special programs for military reserve units, training foreign nationals using uniquely qualified personnel to provide technical assistance, performing specific work requiring special skills for operational activities, other maintenance organizations, or foreign governments. All depot maintenance activity costs for technical assistance must be charged to specific job orders established for that purpose. The costs charged to these job orders must include direct labor, direct material, all other direct costs, and operations overhead and G&A costs including variances for applied overhead.

12.15 Assets Manufactured by a DWCF Activity for Itself

Normally, the material requirements of a DWCF activity are met by the supply system or commercial procurement. However, in some cases, material requirements may be fulfilled by a manufacturing process at the DWCF activity. The manufacturing process includes several phases:

12.15.1. Preparation of a work authorization document (in-house job order) to replace the normal funded customer order;

12.15.2. The costing of direct labor, material, and applied overhead to the manufacturing job order as work-in-process; and

12.15.3. The posting of the completed job order to an asset account, or, if the transaction is reimbursable, to a job order.
12.16 Special Non-DWCF Functions

Occasionally, some uniquely qualified DWCF personnel are asked to perform various types of special functions that are not DWCF activities or functions. Such work is chargeable to other separately budgeted functions such as supply operations, property disposal, or family housing.

12.17 Concurrent Maintenance

Concurrent maintenance occurs when the depot inducts component parts of an end item into the maintenance process at the same time as the end item is inducted for maintenance. This approach is used instead of an exchange. The approach selected is usually a function of the desired outcome and the availability of exchanges. Concurrent maintenance and exchange do not normally result in the same costs being incurred, and no attempts should be made to balance the costs incurred for work performed in the two separate modes. All concurrent maintenance costs must be charged to the weapon system order and not allocated to component repair job orders.

12.18 Host/Tenant Support Services

The DWCF activities give and receive different types and levels of support services to and from the host installation depending upon location and mission assignments.

12.8.1 Uniform costing requires that support services that benefit the performance of the depot maintenance function be recognized as part of the indirect expenses of the benefiting cost center, or the entire DWCF activity as appropriate, regardless of the funding source for the support services.

12.8.2 The DWCF activities must not provide or receive goods or services on a nonreimbursable basis. In addition, offset or barter arrangements must not be made with other activities for goods or services. Special arrangements to avoid normal funding requirements may result in apparent violations of the Antideficiency Act.

12.19 Employee Bonuses and Awards

Depots must charge monetary awards paid to employees for suggestions and one-time bonuses, such as special act awards performance bonuses, and productivity gain sharing program payouts, to indirect production costs of the cost center of the employee receiving the award. Annual pay increases resulting from the employee performance appraisal process are simply increases in base pay that affect regular payroll cost.

CHAPTER 14

MOBILIZATION COSTS

1.0 GENERAL

1.1 Overview

Each Defense Working Capital Fund (DWCF) activity group must plan for and maintain the capability to expand or alter operations, or to provide extraordinary supply or other functional area support necessary, to satisfy mobilization conditions when required. The nature and extent of the costs to be paid by a separate appropriation rather than charged to other customers through the rates must be in accordance with this policy.

1.2 Purpose

1.2.1. The policy contained herein addresses the requirement for a separate appropriation to finance the cost of maintaining a mobilization capability during peacetime; these are not normal operating costs that are passed on to DWCF customers. This policy applies to all DWCF activity groups. This requirement is hereafter referred to as a mobilization requirement.

1.2.2. The Statement of Federal Financial Accounting Standards 4 (SFFAS 4), “Managerial Cost Accounting Standards and Concepts,” requires the reliable and timely information on the full cost of federal programs, their activities, and outputs. SFFAS 4 provides a general understanding of cost accounting, definitions of direct and indirect costs, and the methodology for accumulating the total costs of the supporting DWCF mobilization/surge activities.

1.3 Authoritative Guidance

The National Defense Authorization Act delineates appropriations for mobilization costs. The following accounting policy and related requirements prescribed by this chapter are in accordance with the applicable provisions of:

1.3.1. Title 10, United States Code, section 2208 (10 U.S.C. § 2208), "Working Capital Funds;"

1.3.2. 10 U.S.C. § 7541, "Army Arsenal: Treatment of Unutilized or Underutilized Plant Capacity Cost;" and

1.3.3. SFFAS 4, “Managerial Cost Accounting Standards and Concepts.”
2.0 DEFINITIONS

2.1 Mobilization Capability Costs

Mobilization capability costs include the costs to maintain a surge capacity, to procure and maintain approved war reserve material levels, and/or to maintain other assets, functions, or capabilities required to meet an operational contingency as documented in the Secretary’s force planning guidance or operational plans.

2.2 Surge Capacity

2.2.1. An activity group’s total surge capacity often manifests itself in facilities and equipment that are unutilized or underutilized during normal peacetime operations. Unutilized Capacity is that part of a DWCF activity’s assets including plant and equipment that is held in a standby, idle, or lay away status or for war reserve storage. The DWCF uses a separate appropriation to procure and/or maintain wartime reserve materials, and to maintain other assets, functions, or capabilities required to meet an operational contingency.

2.2.2. Unutilized capacity associated with the ability to satisfy a projected surge capability is considered a mobilization requirement eligible for separate appropriation funding if it is utilized only 20 percent or less of available workdays in a month. The DWCF rates must not include the cost of unutilized capacity. Instead, the host activity will budget direct appropriated fund support (labor, materials, contractual support, and overhead) for the unutilized capacity and will reimburse the DWCF activity for costs incurred in the DWCF.

2.2.3. Unutilized capacity associated with the ability to provide capability in excess of any known or projected requirement is not a mobilization requirement.

2.3 War Reserve Materiel

War reserve materiel includes secondary items procured and/or stored in support of wartime scenarios established in the Secretary’s force planning guidance or contingency operations identified in specific Operational Plans.

3.0 FUNDING

3.1 Operations

The cost incurred to maintain unutilized plant and equipment capacity must be reimbursed by the Department of Defense (DoD) Component responsible for the activity’s management unless funds have been appropriated directly to the DWCF for that purpose. The DWCF activity must separately accumulate the portions of direct, indirect, and general and administrative (G&A) costs supporting the maintenance of this capacity. When a portion of a DWCF activity’s plant is purposely set aside as idle capacity, the Component must request a direct operation and maintenance appropriation to pay for the cost of essential operation and maintenance for that portion of the plant and idle equipment as well as an allocated portion of G&A costs. The
percentage of G&A costs allocated to the cost center for the unutilized plant capacity must be the same as the percentage of G&A costs allocated to other cost elements of the activity. Separate cost centers must be maintained for all such costs.

3.2 War Reserve Materiel

The purchase of secondary items of supply, such as War Reserve Materiel, must be funded from a direct appropriation. The applicable Supply Management or Commissary Resale activity Annual Operating Budget must reflect such appropriated amounts as a separate goal. Items such as ammunition and/or principal and major end items procured for war reserve must not be funded with DWCF, but must be funded through amounts available to Component/Defense Agency procurement appropriations.

3.3 Capital Investments

Component procurement appropriations must fund new capital asset investments at DWCF activities necessary to satisfy a mobilization requirement. The DWCF activity groups must assume ownership of such assets. New capital assets to satisfy a mobilization requirement (as well as other, older capital assets laid away for use in mobilization) must be depreciated for reporting purposes on the Accounting Report (Monthly) 1307 (AR(M) 1307). These expenses are non-recoverable for rate setting purposes because the assets are funded by appropriations, see Volume 2B, Chapter 9.

3.4 United States Transportation Command

The United States Transportation Command (USTRANSCOM) activity must maintain a capability to respond expeditiously to requirements to transport personnel, material, or other elements required to satisfy a mobilization condition. The following paragraphs describe direct appropriations, requested by the Air Force or Army, as appropriate, that support USTRANSCOM operations.

3.4.1 The Air Mobility Command (AMC) develops airlift flying hour requirements and associated costs to maintain the capability of the airlift system, including crew training (and concurrent mobilization) requirements. The DoD uses the airlift system training generated capacity to move air eligible cargo and passengers. The USTRANSCOM generally establishes rates that are competitive with commercial carriers to extend air eligibility and increase capacity utilization. However, resulting revenue does not cover the costs of operations due to the mobilization requirement. This requirement will be budgeted and recorded as follows:

3.4.1.1. The costs for military personnel will be recorded at the civilian equivalency rate in accordance with the policy on Military Personnel Expense in Chapter 12. A Military Personnel appropriation will directly fund military personnel within the AMC. These expenses must be reported on the AR(M) 1307 and are recoverable for rate setting purposes because the expenses are reimbursed to the respective Military Personnel appropriation. See Volume 2B, Chapter 9.
3.4.1.2. The Air Force will request a direct appropriation for and place an order with the DWCF to fund the balance of the mobilization requirement costs. This will ensure revenue offset the costs.

3.4.2. The Surface Deployment and Distribution Command must plan for and maintain a Reserve Industrial Capacity (RIC) to transport personnel resources, material and other elements required to satisfy a mobilization requirement. The costs of RIC will be funded by the Army Operation and Maintenance appropriation.

4.0 ACCOUNTING

4.1 Cost Center Capability

DWCF activities must establish a cost center capability to separately account for all costs applicable to the continuance of a mobilization requirement. Where necessary, DWCF activities must maintain such costs to the function or task level, as necessary to segregate costs between normal operating costs and mobilization costs.

4.2 War Reserve Items

DWCF activities must account for purchases of DWCF-funded War Reserve items at the same level of detail as items procured for peacetime requirements, recording amounts in separate general ledger accounts, or appropriate subaccounts, to retain separate visibility of such assets. Inventory levels funded by such amounts are not available for sale; therefore, DWCF activities must maintain and report War Reserve costs separately to ensure that the unit cost targets for Supply Management activities are not affected.

5.0 REPORTING

The DWCF activities must record and report financial information on the maintenance of a mobilization capability in accordance with the DoD accounting and reporting requirements specified for the DWCF. AR(M) 1307 must be prepared to include a footnote that identifies the amount of the mobilization requirement costs that are funded through direct appropriations or reimbursable orders accepted specifically for mobilization requirements.

CHAPTER 15

SUPPLY MANAGEMENT ACTIVITIES

1.0 GENERAL (1501)

1.1 Purpose (150101)

This chapter provides the policy to guide budget formulation and execution for supply management activities of the Defense Working Capital Fund (DWCF). All policy and supporting guidance promulgated within is applicable to all Department of Defense (DoD) working capital funds (WCF).

*1.2 Authoritative Guidance (150102)

The financial management policy and related requirements prescribed in this chapter are in accordance with the applicable provisions of:

1.2.2. 10 U.S.C. § 2210, “Proceeds of sales of supplies: credit to appropriations;”

1.2.3. 10 U.S.C. § 2306, “Kinds of contracts;”

1.2.4. 31 U.S.C. § 1502 (a), “Balance available;”

1.2.5. 31 U.S.C. § 3901, “Definitions and application;”

1.2.6. 31 U.S.C. § 3902, “Interest penalties;”

1.2.7. 31 U.S.C. § 3903, “Regulations;”

1.2.8. 31 U.S.C. § 3904, “Limitations on discount payments;”

1.2.9. 31 U.S.C. § 3905, “Payment provisions relating to construction contracts;”

1.2.10. The Office of Management and Budget (OMB) Circular A-11, Part 4, “Instructions on Budget Execution;”

1.2.11. Statement of Federal Financial Accounting Standards (SFFAS) 3, “Accounting for Inventory and Related Property;”

1.2.14. **DoD Instruction (DoDI) 1330.17**, “DOD Commissary Program;”

1.2.15. **DoD Manual (DoDM) 4140.01 Volume 1**, “DoD Supply Chain Materiel Management Procedures: Operational Requirements.”

1.2.17. **DoDM 4140.68**, “Integrated Materiel Management (IMM) of Non-consumable Items.”

2.0 PRICING OF INVENTORY ITEMS (1502)

2.1 Budgeting (150201)

Policies used in the budget development of prices for supply management activity items are contained in Volume 2B, Chapter 9, “DWCF Budget Justification Analysis.”

2.2 Standard Price (150202)

2.2.1. Standard price is the price that DoD customers are charged for DoD Inventory Control Point (ICP)-managed items (excluding subsistence), or Integrated Material Management (IMM) items. The authoritative source of standard prices for the DoD is the Federal Logistics Information System (FLIS), accessible through WebFLIS. Prices are computed based on various factors, including replenishment cost of the item, plus surcharges to recover costs for transportation, inventory loss, obsolescence and maintenance, depreciation, and supply operations. Each cataloged inventory item with an assigned national stock number and, under DoD ICP management, must have a selling price for sales to all authorized customers. See DoDM 4140.68 for more details about standard pricing for non-consumable items.

2.2.2. Non-DoD customers providing direct support to DoD related mission requirements must also be charged the standard price. The selling price to all other non-DoD customers will be as prescribed in Volume 2B, Chapter 9. Exceptions to this policy are authorized in paragraph 2.5.

2.2.3. DWCF activities must institute selling prices at the lowest practical item level in order to promote cost visibility/management and to motivate cost effective customer/supplier behavior.

2.2.4. The standard price of each item must be determined annually in advance of the execution year to allow for publication in the FLIS, accessible through WebFLIS, before the price is effective. The standard sales price becomes effective for billing purposes on the first day of the fiscal year. A standard price cannot change during the fiscal year without prior approval from the Office of the Under Secretary of Defense (Comptroller) (OUSD(C)), Program/Budget (P/B),
Revolving Funds Directorate except as stated in paragraph 2.5. The dollar amount of unfilled customer orders accepted at the previous fiscal year’s standard price must be adjusted (upon notification to and confirmation from the customer) to reflect the latest standard price when notice of the price change is received.

2.2.5. All local procurements must be cataloged and assigned a standard price including any retail\(^1\) level cost recovery element. For more information about Demand and Supply Planning, see DoDM 4140.01, Volume 2.

2.2.6. The DWCF establishes selling prices in the budget that are normally stabilized or fixed during execution to mitigate the impact of unforeseen fluctuations that would affect customers’ ability to execute programs approved by the Congress. For more information about full recovery of costs and the setting of prices, see Volume 2B, Chapter 9.

2.2.7. The standard price must also contain the total materiel costs, see Volume 2B, Chapter 9. Total materiel costs for Supply Management Activities include:

2.2.7.1. Materiel costs (without inflation) to be included in this cost recovery element are the net of losses and gains from incoming and outgoing shipments, physical inventory adjustments, inventory losses as a result of shrinkage, theft, deterioration, damage contamination, defective items if not reimbursed by supplier, obsolescence, and adjustments to reconcile internal records.

2.2.7.2. Materiel Inflation (normal inflation) is the dollar amount of the standard rate of inflation as published by the OMB. The Product Cost Growth Factor is a cost element to account for any anticipated price growth beyond standard inflation.

2.2.7.3. Loss/damage/washout/obsolescence is a cost element that is associated with any costs that are expected to be incurred for these types of situations where a replacement unit is required. Activities that manage maintenance and repair missions on an exchange carcass basis incur replacement cost for carcass losses and washouts. Lost carcasses (for example, in transit to the customer or to the supply system) must be investigated and necessary internal controls strengthened as required by Volume 12, Chapter 7. Carcass washouts, also called “condemnations” are carcasses that, during the initial inspection, are determined to be repairable but during the repair process are determined to be unrepairable and are also determined to require replacement. If the carcass is determined to be unrepairable because of cannibalization or other malicious damage caused by the customer, the customer must be charged the difference between the exchange price and the current standard price and this cost must not be included in the surcharge element. Maintenance activities must maintain all documentation in accordance with Volume 1, Chapter 9.

\(^1\) Retail: According to the DoDM 4140.01-V2, retail level: is the level of inventory below the wholesale level, either at the consumer level for the purpose of directly providing material to ultimate users or at the intermediate or region level to supply consumer levels at a region or geographical area.
2.2.8. In a system that supports exchange pricing, the price charged to customers returning a Depot Level Reparable part that needs repair, and purchasing a serviceable one (new or repaired), equates to the latest repair price plus wash out costs (condemnations) per item plus pricing elements necessary to recover other operating costs. (Note: If no carcass (unserviceable item) is returned, the customer must be charged the full standard price.) For additional information related to supply turn-ins, see Volume 4, Chapter 4.

2.2.9. Supply management operations also incur non-materiel costs (overhead cost and pricing adjustments). The non-materiel costs also include adjustments for prior year operating results, approved surcharges, and other factors. The Cost Recovery Rate utilizes a calculation that reflects the markup on total materiel costs required to recover operating costs, calculated by dividing total non-materiel costs by total materiel costs. This represents the percentage markup on materiel costs required to operate the supply activity. These cost elements are displayed on the SM-5a “Markup on Materiel Cost” exhibit (see Volume 2B, Chapter 9).

2.2.9.1. The provisioning cost element is provided when a weapon system was originally fielded under a contractor logistics support agreement. The component may decide to fund the provisioning action in the standard price of the item if the contractor fails to perform or a decision is made at the component level to transfer program management to a DWCF supply activity. The component may also decide to fund this action using contract authority without an immediate reimbursement if a funding source can be identified and used for reimbursement by the time of first delivery and the OUSD(C), P/B, Revolving Funds Directorate has preapproved the action. Preapproved reimbursable transactions of this type must be recorded as “other income” and will not be included in the standard price.

2.2.9.2. Inventory augmentation costs finance the acquisition of inventories that are required over and above demand replacement (excluding mobilization requirements, which are financed by appropriations) to maintain the approved level of materiel support. Inventory Augmentation is normally funded by direct appropriation (see Volume 2B, Chapter 9), but may be included as a cost recovery element if approved by the OUSD(C), P/B, Revolving Funds Directorate. Cash solvency must be considered in determining the recovery method for Inventory Augmentation.

2.2.9.3. Losses that are unusual or nonrecurring in nature, such as those due to armed hostilities, riot, or significant damage due to fire, flood, earthquake, storms, or other abnormal events are not normal inventory losses and should not be included in the cost recovery element for inventory expenses. DWCF Activities should seek approval from the OUSD(C), P/B, Revolving Funds Directorate to fund losses that are unusual or nonrecurring in nature.

2.2.10. The standard sales price of an item must include recovery of operating costs including payroll, personnel travel, transportation, defense agency billings, other DWCF purchases, operating materials and supplies, rent/communications/utilities, depreciation, transportation and other service contracts.
2.2.11. Infrastructure costs must be identified separately and may include capital programs (depreciation, capital surcharges) and systems sustainment recovery elements. For more information, see Volume 2B, Chapter 9.

2.2.12. Other cost recovery elements, as approved by the OUSD(C), P/B, Revolving Funds Directorate during the budget review, may be added to the price. These elements typically include Accumulated Operating Results adjustments, cash surcharges, and fund management adjustments.

2.2.13. The purpose of the cost recovery elements is to balance total revenues with total net operating costs. Total net operating costs must not include requirements funded by appropriations, such as amounts appropriated for war reserve materiel or emergency or national defense stockpiles (see Volume 4, Chapter 4). The costs to be accounted for within the recovery elements must encompass:

2.2.13.1. The costs of operating wholesale ICPs and wholesale supply depots must be financed by the supply management activity. Such costs include civilian labor and benefits, military labor, supplies, purchased services, and reimbursements to other Defense agencies that provide support to supply management operations. The cost of performing equivalent functions at the retail level (installation/area supply support) may be included in the cost assessed by the wholesale activities if the retail activity is managing the distribution of Defense Logistics Agency, General Services Administration or any other government agency where an additional rate would not be applicable.

2.2.13.2. The costs incurred by separate activities and functions that exist primarily to benefit the mission of a wholesale ICP and/or a wholesale supply depot. Mission support cost pools must be established that identify costs incurred in activities and functions that directly provide benefits to wholesale ICPs and wholesale supply depots. These cost pools will include all costs (civilian labor and benefits, supplies, purchased services, and other costs) incurred in functions such as line management (command and control), staff management (policy functions), and centralized service functions (e.g., procurement, accounting, personnel, automated data processing). The portion of such overhead cost pools that directly benefit the supply management activity mission must be allocated to, and reimbursed by, the supply management activity. The allocation must be prorated on the relationship of the cost of the benefits provided to the supply management activity, to the cost for all activities or functions.

2.2.13.3. Shipping and transportation, including costs for packing, crating, handling, transportation, and, where appropriate, port loading, and unloading. Items may be shipped from a stocking point (issues) or to a stocking point (returns).

2.2.13.3.1. Transportation costs include transportation for items issued by the supply management activity. To the extent that first destination transportation is not included in the acquisition cost, an estimate of the cost must be included in this element. Second destination transportation (SDT) costs should be based on the assumption of average cost as adjusted by projected changes in the budget year. The SDT costs financed by a supply management activity generally include transportation within the Continental United States (CONUS) and between overseas locations. An additional transportation charge must be assessed for expedited delivery.
2.2.13.3.2. The costs of providing and managing commissary items, including related operating costs incurred to support the mission of commissaries, must be identified as commissary operating costs. These costs include, but are not limited to, costs incurred to support commissaries at a headquarters or regional level. Commissary operating costs must be charged to, and reimbursed by, appropriations made available to the DWCF for commissaries and the commissary trust revolving fund see DoDI 1330.17.

2.2.13.3.3. Costs include shipping and transportation costs only for items approved by an item manager for return from DoD customers to the supply management activity. The supply management activity must reimburse transportation and other shipping costs only for items approved by an item manager for return from customers. The supply management activity must not pay the shipping and transportation cost for items that have not been approved by an item manager for return from customers.

2.2.13.3.4. Costs to be included are shipping and transportation costs for the return of reparable exchange carcasses from customers. Customers will not be charged separately for carcass returns because supply activities factor shipping and transportation costs for customer returns of carcasses into cost recovery projections.

2.2.13.3.5. Costs to be included are shipping and transportation costs for Lateral Redistribution Orders (LRO) of stock when directed by an item manager. The ICP or IMM must reimburse the supplying/holding activity for the costs of packing, crating, handling, and transportation to move materiel when a shipment is made at the direction of an ICP/IMM.

2.2.13.4. If a supply management activity experiences a sudden decrease in volume of customer orders, it may require additional revenue in order to liquidate contract authority associated with inventory ordered from vendors. Resources may be obtained through either transfer or direct appropriation to the revolving fund, or by supply management activity establishment of a cost recovery element (or combination of both). When undelivered order stock levels have stabilized to a level appropriate for the new volume of demand, any cash surcharge will be eliminated.

2.2.14. A cost recovery element used by a retail level supply activity:

2.2.14.1. Will include inventory (materiel) expenses. Inventory expenses applicable to the retail-managed items are the net impact of gains and losses at the retail level, obsolescence, and shelf-life deterioration.

2.2.14.2. May include other cost recovery elements, when approved by the OUSD(C), P/B, Revolving Funds Directorate.
2.3 Foreign Military and Private Party Sales (150203)

As prescribed in Volume 15, “Security Cooperation Policy”, the selling price of DWCF items to Foreign Military Sales customers must be the current DWCF price for that item. Private Parties (State and Local Governments, and Non-Governmental entities not under a Department of Defense contract) that are authorized to obtain DWCF Supply Management support will be charged the Cost of the Item plus the applicable Cost Recovery Rate.

2.4 Lateral Redistribution of Stock (150204)

When another activity has stock on-hand to fill an order, a Supply Management Activity may direct an LRO to that activity to issue stock directly to the customer. As provided in DoDM 4140.01, Volume 5, “DoD Supply Chain Materiel Management Procedures: Delivery of Materiel,” billing procedures associated with LROs directed by an item manager will ensure a supply holding activity is reimbursed for both the standard price of the materiel and the standard packing, crating, handling, and transportation costs associated with a LRO. The item manager will bill the customer for the standard price of the materiel and reimburse the supply holding activity via the ICP/IMM for the standard price of the materiel and the standard packing, crating, handling, and transportation costs. DoD Components facilitating LROs must record outlays of Fund Balance with Treasury as a disbursement. Recording a negative collection is prohibited. Since these are intra-agency transactions, it is critical that trading partners working together utilize the correct codes at the detailed transaction level. For more information, see the Deputy Chief Financial Officer policy memorandum, “Accounting Treatment of Lateral Redistribution Activities (FPM 20-05).”

*2.5 Authorized Changes of Standard Prices (150205)

DWCF Activities must set product prices on an annual basis per the requirements established in paragraph 2.2. Prices cannot be changed during a fiscal year without justification to, and prior written approval of the OUSD(C), P/B, Revolving Funds Directorate. All approved price changes will be grouped by the item manager and released for updates to the supply management activity’s pricing catalog not to exceed once a month. The only exceptions to the price changes requirement for prior approval are:

2.5.1. Unit of issue changes;

2.5.2. First time buys;

2.5.3. Contract Modifications; and

2.5.4. Discounted product prices (see paragraph 2.6).
2.6 Discount Pricing (150206)

2.6.1. Product prices must reflect the full cost of the product and the related management activity unless the following conditions are met, and submitted to OUSD(C), P/B, Revolving Funds Directorate for approval:

2.6.1.1. Requests to discount item prices must be accompanied by documented approval of the request from within the DoD Component and an analysis of the anticipated cost (profit/loss) impact as a result of changing prices.

2.6.1.2. Reductions from standard prices may be made upon determination that there is an actual difference in utility or desirability of an item because of age, condition, or model for items being phased out of the system, items no longer being procured, items with limited remaining shelf life, items in a less than “fully serviceable” condition, and items in long supply, i.e., assets stratified as “potential reutilization stock.”

2.6.1.3. See Volume 4, Chapter 4, for policies to be used in the development of exchange transaction prices for supply management activity items.

2.7 Pricing for Additional/Premium Service (150207)

2.7.1. Components may establish and offer variable levels of service related to a product, at variable prices, to allow customers the opportunity to economize according to their needs. Appropriate fees may be established annually and may vary according to the item/class of items. Refunds (credits) will be made available for those instances where a customer has paid for a level of service that was not provided. This policy authorizes an additional charge for customers who ask, and are willing to pay, for enhanced service; it does not authorize reduced charges. Individual orders may be assessed an additional cost based on the following elements:

2.7.1.1. Expedited delivery.

2.7.1.2. Delivery outside the CONUS based on destination.

2.7.1.3. Depot handling fees related to order issues only. The fee(s) will include a minimum charge for low priced orders, a standard charge for bin item issues, a standard charge for normal bulk item issues, and special charges for unusual bulk item issues, e.g., special handling and extraordinary quantities.

2.7.1.4. Other additional/premium charges as approved by the OUSD(C), P/B, Revolving Funds Directorate.
3.0 CONTRACT AUTHORITY FOR SUPPLY MANAGEMENT OPERATIONS (1503)

3.1 Background (150301)

3.1.1. Based on the authority in 10 U.S.C. § 2210, obligations may be incurred against anticipated reimbursements, without regard to fiscal year limitations. As defined in OMB Circular A-11, Contract Authority is a type of budget authority that permits you to incur obligations in advance of an appropriation, offsetting collections, or receipts to make outlays to liquidate the obligations.

3.1.2. Contract Authority is apportioned budget authority, which can be legally obligated. Contract Authority, however, is not funded and is apportioned and allocated without a supporting Treasury cash balance. Consequently, contract authority must always be replaced or liquidated by subsequent or other budgetary resources. Contract Authority is apportioned to the DWCF Capital Programs and the Supply Management Operating Programs for the current fiscal year of the Apportionment only, and closes for new obligations if not used within the fiscal year it is apportioned.

3.2 Budgetary Resources (150302)

3.2.1. Budgetary resources for supply management activities available for use during the current fiscal year consist of any congressionally appropriated and re-appropriated amounts made available; the net of any non-expenditure transfers and internal distributions of budgetary authority into and out of the supply management activity and other Federal Government accounts (cash transfers); balances made available from the previous fiscal year contract authority; and apportioned anticipated contract authority. Normally, supply management activities may obligate based on two primary sources: contract authority and appropriated funds for war reserve/mobilization purposes.

3.2.2. Liabilities (accounts payable) are typically payable from the Fund Balance with Treasury within the terms of the Prompt Payment Act, 31 U.S.C. §§ 3901-3905. Unfunded (unliquidated) contract authority should be considered a long-term liability for supply management activities because budgetary resources required for payment of these contracts have not yet materialized through customer orders or appropriations from Congress.

3.2.3. Unobligated balances of contract authority and appropriations are not available for use in the subsequent year until they are reapportioned and reflected on the supporting financing schedule as an increase to the limit imposed for obligation authority on an approved apportionment in the new fiscal year.

3.2.4. The OMB may approve and apportion anticipated contract authority in the amount of the approved supply management activity-operating program.

3.2.5. The OMB apportions contract authority on the SF-132, “Apportionment and Reapportionment Schedule.” The OUSD(C), PB office allots contract authority on the Annual Operating Budgets.
3.2.6. Apportioned contract authority is either obligated or returned. Obligated contract authority is substituted with the receipt of customer orders, and then liquidated with the collection of revenue associated with the fulfillment of those orders. Typically, spending authority from offsetting collections coming from revenue collected from filled customer orders is used to liquidate contract authority. Sometimes, appropriations can be used to liquidate contract authority rather than spending authority from offsetting collections.

3.2.7. Customer orders received are requisitions and other orders accepted for items to be furnished on a reimbursable basis. Budgetary resources provided from a customer order are available to fund obligations provided that, in the case of orders from the public, an advance has been collected.

3.3 Contract Authority and Cash Management (150303)

3.3.1. Although the responsibility for cash management is at the component level, the liquidation of contract authority is only authorized by collections from customer orders or by an appropriation to liquidate contract authority. Cash collections from supply management activities are the primary funding source approved for the liquidation of contract authority unless otherwise approved in writing by the OUSD(C), P/B, Revolving Funds Directorate.

3.3.2. Supply management activities may also submit requests as part of the component’s budget request, for appropriations for the sole use of liquidating contract authority if a change in customer demands warrants this action. Similarly, any proposed negative surcharges identified in the budget justification materiel, other than Accumulated Operating Results recovery, must be pre-approved in writing by the OUSD(C), P/B, Revolving Funds Directorate.

4.0 MULTIPLE-YEAR CONTRACTS (1504)

4.1 Overview (150401)

4.1.1. Multiple-year contracts permit the purchase on one contract of more than one annual program increment of items to obtain a maximum economic advantage. For example, an Economic Order Quantity (EOQ) in a multiple-year contract may exceed a normal annual requirement and yet be advantageous to the Government. Supply management activities are authorized to use multiple-year contracts to procure items from a single contractor.

4.1.2. Sole source items with a stable demand projection that are procured from a single contractor must be evaluated to determine if the items should be acquired by means of a multiple-year contract. As with multiple-year contracts funded by procurement appropriations, the supply management activity may purchase items in an amount corresponding to the economic order quantities deemed appropriate for procurement in each year.

4.1.3. Components, parts, and raw material for use in manufacture of items being acquired under a multiple-year contract may be procured in quantities exceeding the current annual requirement when it is more economical and cost effective to do so. This is referred to as advance EOQ procurement. Advance EOQ procurements integral to multiple-year contracts must be
funded in the most economical manner. They may be funded fully in single year increments on a termination liability basis, or included in a multiple-year contract along with the nonrecurring contract costs.

4.1.4. Under 10 U.S.C. § 2306, the DoD is authorized to enter into multiple-year contracts containing cancellation clauses that may include both nonrecurring and recurring costs. This law specifies congressional reporting requirements based on cancellation ceilings. Further, annual DoD appropriations acts may contain specific language requiring limitations on the use of multiple-year contracts. A single proposed multiple-year contract in excess of $100 million or $10 million in estimated termination liability must be submitted to the OUSD(C), P/B, Revolving Funds Directorate for approval prior to awarding the contract. Each separate option to extend a multiple-year contract must be considered as a single multiple-year contract for the purposes of this approval requirement.

4.2 Obligations (150402)

4.2.1. The supply management activity must obligate the minimum amount required for the period of the contract.

4.2.1.1. If the contract provides for annual terms with options to extend the terms in subsequent years, the obligation must be for the amount required to be procured by the Government in the first year. The obligation for each option year must be recorded when the option is exercised.

4.2.1.2. If the contract provides for minimum quantities over a period of more than one year, the obligation must be recorded for the sum of all of the minimum quantities times the agreed price. If the contract provides for minimum dollar amounts for a period of more than one year, the obligation must be recorded for the sum of the minimum dollar amounts.

4.2.1.3. The bona fide needs rule, derived from 31 U.S.C. § 1502(a), applies to appropriations limited to a definite period of time. Although the bona fide needs principle does not statutorily restrict a supply management activity from incurring obligations against contract authority for requirements of the subsequent fiscal year, contract authority conferred to the activity for a year may impose limitations on execution of obligations. Also, because supply management activities use contract authority to incur obligations to acquire stock or order items for delivery to customers, and do not execute budgetary resources dependent on receipt of funded customer orders, the timing of a supply management activity’s obligations against contract authority do not govern, establish, or reflect whether the customer’s order to the supply management activity is a bona fide need of the customer appropriation charged.

4.3 Cost of Items (150403)

The cost of items procured by multiple-year contracts must be the amount paid for each item. If termination costs are incurred or if minimum guaranteed amounts are not met for items procured, the additional costs paid under the terms of the contract must be recorded as supply management activity materiel obligations.
5.0 BUDGETARY ACCOUNTS (1505)

5.1 Overview (150501)

Budgetary accounts are used to control and account for obligation authority received from appropriations and contract authority apportioned by OMB. Supply management activities are subject to apportionment, as required by the Antideficiency Act, in accordance with the procedures prescribed in OMB Circular A-11, “Instructions on Budget Execution” and Volume 3, Chapter 19.

5.2 Allotments (150502)

The general provisions of the annual Appropriations Act provide that, “Except in amounts equal to the amounts appropriated to DWCF in this Act, no obligations may be made against a DWCF to procure war reserve materiel inventory unless the Secretary of Defense has notified the Congress prior to any such obligation.” Obligation authority for mobilization purposes must be allotted and allocated separately as a direct program. Operating obligations consist of all obligations that do not meet the criteria defined for mobilization; they must be allotted and allocated separately as a reimbursable program. Obligations must be accounted for and reported separately as mobilization and operating.

5.3 Budget Execution (150503)

For supply management activities, balances for budgetary accounts are displayed on the SF-133 and the DFAS Accounting Report 1307 part VII (see Volume 3 Chapter 19).

CHAPTER 1

FUNDS

1.0 GENERAL

1.1 Overview

This chapter prescribes a comprehensive description of account symbols and their operation within fund groups. Account symbols are the basis for reporting the Department of Defense (DoD) financial transactions. The U.S. Department of the Treasury (Treasury), Bureau of the Fiscal Service (Fiscal Service) and the Office of Management and Budget (OMB) assign account symbols consistent with the principals and standards prescribed by the Comptroller General of the United States. Fiscal Service assigns account symbols to agencies after considering the government's relationship to the accounts, the sources of the receipts, and the availability of the funds for expenditure. Receipt account symbols are arranged numerically within each fund group; that is, general, special, and trust funds. Expenditure account symbols (appropriations) and other fund accounts are arranged numerically by general, revolving, special, deposit, and trust fund groups.

1.2 Purpose

The purpose of this chapter is to define receipt, appropriation, and other fund account symbols relating to financial operations and accounting transactions of the Department. Fund account symbols are not the same as the United States Standard General Ledger (USSGL) accounts prescribed in Volume 1, Chapter 7.

1.3 Authoritative Guidance

The accounting policy and related requirements prescribed by this chapter are in accordance with the applicable provisions of:

1.3.1. *Treasury Financial Manual (TFM)*, Supplement to Volume I;

1.3.2. Federal Account Symbols and Titles (*FAST* Book); and

1.3.3. *OMB Circular A-11*, Preparation, Submission and Execution of the Budget.

These authorities describe the various categories of Federal Government fund account symbols.

2.0 FUND GROUPS

2.1 Fund Groups and Symbols

All accounts are identified by fund groups through assignment of numeric and/or alphanumeric account symbols. The symbol assigned to an account is determined after
consideration of the governmental effect of the account and the source of the receipt, and the availability of the fund for expenditure. Some of these accounts have a significant impact on DoD operations. The FAST Book contains all of the fund groups, account symbols, and titles. Table 1-1 lists the fund groups and the range of federal fund account symbols.

2.2 Additions and Deletions

The Defense Finance and Accounting Service (DFAS) obtains new fund account symbols from the Treasury but the Office of the Under Secretary of Defense (Comptroller) (OUSD(C)), Program and Financial Control Directorate must approve new fund account symbols used in Standard Form (SF) 133, “Report on Budget Execution and Budgetary Resources.”

3.0 GENERAL FUNDS

3.1 General Fund Receipt Accounts (0000-3399)

General fund receipt accounts have been established to account for receipts of the Federal Government that have not been earmarked by law for a specific purpose and are preceded by an “R.” For internal control purposes, none of the receipts credited to these accounts are available for obligation and expenditure. Therefore, general fund receipt account collections do not affect budgetary resources. General fund receipt account collections do provide resources to the Congress to fund appropriations. However, a congressional appropriation action requires a separate accounting process.

3.1.1. Unless there is specific statutory authority that authorizes a reimbursement to an appropriation account or fund (including special funds), all collections must be credited to the appropriate general fund receipt account. However, obligations incurred that result in, or as a result of a general fund receipt account collection or receivable must be recorded in the budgetary accounts of a direct appropriation or fund. Such obligations may be recorded as reimbursable obligations only when authorized to be reimbursed independent of the general fund receipt collection.

3.1.2. Accounts receivable for the general fund receipt accounts must be recorded whenever an event results in the determination that money is owed to the U.S. Government. General fund receipt account receivables may be recorded at a summary level. Examples include:

3.1.2.1. A receivable must be recorded for general fund receipt account 2651, “Sale of Scrap and Salvage Materials, Defense,” based upon the recording of an issue or the transfer of ownership of scrap or salvage material to a buyer. (Normally, a cash payment is required.)

3.1.2.2. A receivable must be recorded for general fund receipt account 3019, “Recoveries for Government Property Lost or Damaged, Not Otherwise Classified, Army, Navy, Air Force,” based upon the receipt of an approved DoD (DD) Form 200, “Financial Liability Investigation of Property Loss.”

3.1.2.3. The accounting for receivables and collection of those receivables in general fund receipt accounts are described in Volume 4, Chapter 3.

3.2 General Fund Expenditure Accounts (0000-3899)

General Fund accounts record amounts appropriated by Congress for the general support of the government. Appropriations are statutory authorities to incur obligations and make payments from the Treasury for specified purposes. When a law appropriates budget authority, it specifies the period of availability. The period of availability is the amount of time the entity may create new obligations. This is called the period of availability for new obligation of the budget authority, and the period is normally specified in the law providing the budget authority.

3.2.1. Annual Appropriations (Annual Budget Authority). An annual appropriation has a period of availability for only one fiscal year or less. An example of an annual appropriation is Operation and Maintenance, Army, 021 21 2020.

3.2.2. Multiple-Year Appropriations (Multi-Year Budget Authority). A multi-year appropriation has a period of availability for two or more fiscal years. An example of a multi-year appropriation is Other Procurement, Navy, 017 21/22 1810.

3.2.3. No-Year Appropriations (No-Year Budget Authority). A no-year appropriation has an indefinite period of availability because the appropriation is available until all funds are expended or the appropriation is no longer needed. An example of a no-year appropriation is Environmental Restoration, Air Force, 057X0810.

4.0 CLEARING, DEFAULT, and CUSTODIAL ACCOUNTS (3500-3885)

Clearing, default, and custodial accounts temporarily hold unidentifiable general, revolving, special, or trust fund collections that belong to the Federal Government. An "F" preceding the last 4 digits of the fund account symbol identifies these accounts. These clearing, default, and custodial accounts are to be used only when there is a reasonable basis or evidence that the collections or disbursements belong to the U.S. Government and therefore properly affect the budgetary resources of the DoD activity. None of the collections recorded in clearing, default, or custodial fund accounts are available for obligation or expenditure while in a clearing, default, or custodial account.
4.1 Budget Clearing Account

Budget Clearing Account (suspense), F3875, temporarily credits unclassified transactions from the public when there is a reasonable presumption that the amounts belong to the agency. Therefore, unlike deposit accounts, clearing accounts immediately affect the budget.

4.2 Custodial Accounts

Custodial Clearing Account (F36XX), a subset of the clearing account, temporarily holds funds collected as well as accounts for accruals and transfers related to funds collected on behalf of a Treasury Account Symbol (TAS) other than the General Fund of the U.S. Government.

4.3 Undistributed Intragovernmental Payments Account

Undistributed Intragovernmental Payments, account F3885, is used to temporarily credit unidentified or unclassified transactions between Federal agencies, including Intragovernmental Payment and Collection (IPAC) transactions.

4.4 Temporary Account Requirement

Since accounts F36XX, F3875, and F3885 are temporary in nature, DoD Components must expeditiously transfer all money to the proper account in order to minimize the balance. Use of these suspense accounts are valid if approved by the Treasury provided the suspense account transactions are reclassified to the correct line of accounting and properly reported in the accounting system within 60 days.

5.0 MANAGEMENT FUND ACCOUNTS (3900-3999)

Management fund accounts are working fund accounts authorized by law to facilitate accounting for administration of intragovernmental activities other than a continuing cycle of operations. Such accounts generally do not own a significant amount of assets nor do they have a specified amount of capital provided (a corpus of the fund). A management fund provides a means of interim financing and accounting for: (1) an operation or project that is financed by more than one appropriation or fund and whose costs cannot be distributed and charged to the financing appropriations or funds immediately, or (2) an operation or project that is established pursuant to a transfer of functions involving two or more appropriations or funds under authority of law. An example of a management fund is the Air Force Management Fund, 057X3960.

5.1 Policy

5.1.1. A management fund must be used only to finance the costs of operations which are chargeable to appropriations or funds of a DoD Component. Projects may encompass participation by organizational units of one DoD Component or of two or more DoD Components.
5.1.2. A management fund may not be used to finance any activity that involves a continuing cycle of business-type operations, such as industrial or commercial-type activities, or to purchase materiel for stock. It may be used to finance the purchase of materiel for use in an operation or project operated under a management fund.

5.1.3. A management fund may not be used to finance a new operation or project, although eligible under section 5.0, if other effective and efficient financing techniques are available. In general, appropriation reimbursements must be used. However, industrial funds must be used to finance industrial or commercial-type activities, and stock funds must be used to finance the acquisition of consumable (expense-type) materiel for stock.

5.1.4. Management fund accounts are subject to periodic internal audits.

5.2 Responsibilities

5.2.1. The OUSD(C) Deputy Chief Financial Officer (DCFO) must:

5.2.1.1. Ensure that a management fund account is established or continued only when there is no other effective and efficient financing technique available to accomplish the proposed operation or project. The OUSD(C) DCFO will receive, review, evaluate and approve proposed management fund account charters submitted in accordance with Figures 1-1 and 1-2.

5.2.1.2. Review and evaluate proposed management fund account charters or amendments and recommend to the Under Secretary of Defense (Comptroller) (USD(C)) the establishment or continuance of a management fund account.

5.2.2. The Heads of DoD Components must:

5.2.2.1. Propose use of a management fund as a financing technique, when considered appropriate, in accordance with the provisions of this chapter.

5.2.2.2. Oversee compliance with this chapter regarding the provision for budgeting, financing, accounting, and reporting for management fund accounts in use by their Component.

6.0 REVOLVING FUNDS (4000-4999)

Revolving funds are established to finance a continuing cycle of business-type operations. Revolving fund accounts are authorized to be credited with receipts, incur obligations, and make expenditures. Revolving fund collections are normally available for obligation and expenditure without further action by the Congress. However, DoD revolving funds (except for some business areas within the Defense Working Capital Fund) are subject to apportionment by OMB. Apportionment by OMB precludes obligation or expenditure of funds in excess of the apportioned balance during a fiscal period. The concepts in this section normally apply to revolving funds.
6.1 General

There are two types of revolving funds. Public enterprise revolving funds are distinguished from intragovernmental revolving funds by the source of revenues. Public enterprise revolving fund revenues come primarily from outside the Federal Government. Intragovernmental revolving fund revenues come primarily from other federal appropriations or funds.

6.1.1. Appropriations and/or reappropriations are usually provided to start, increase the size, or replace significant losses of a revolving fund. Also, existing resources in other accounts may be transferred to a revolving fund as capitalized assets to serve the same purposes in lieu of an appropriation. The resources used to commence or increase the size of a revolving fund are commonly referred to as “the corpus of the revolving fund.” The corpus forms the nucleus of resources used to acquire the resources needed to perform the mission of the revolving fund.

6.1.2. Revenues are generated in DoD revolving funds from reimbursable actions on behalf of authorized beneficiaries. Those revenues result in collections of funds. The funds collected are used to pay for the acquisition of resources needed to operate the revolving fund. In revolving funds that are apportioned by OMB, the use of the budgetary resources associated with those collections to incur obligations is limited to the amount of obligation authority available for the fiscal period.

6.1.3. Revolving funds subject to apportionment are apportioned on an obligation basis. An SF 132, “Apportionment and Reapportionment Schedule,” must be submitted to the OMB for approval of the amount of budgetary authority needed for the operation of the revolving fund for a fiscal period. A fiscal period may be a quarter of a fiscal year or a full fiscal year.

6.1.4. Budgetary resources available for apportionment action include:

6.1.4.1. Unobligated balances brought forward.

6.1.4.2. Appropriations.

6.1.4.3. Contract authority.

6.1.4.4. Spending Authority from Offsetting Collections (Anticipated collections, reimbursements, and other income)

6.1.4.5. Recoveries of prior year obligations.

6.1.4.6. Restorations.

6.1.5. The apportionment of anticipated reimbursements does not authorize a revolving fund to obligate in excess of the contract authority, borrowing authority, or reimbursable orders received from within the Federal Government and advances received for orders outside the Federal Government. Orders from state, local, and foreign governments are considered to be orders from the public.
6.1.6. In the case of loan programs, budgetary resources available for obligation from loan repayments and interest on loans are comprised of actual collections when authorized to be used. Loan repayments in the form of loans receivable and interest receivable are amounts due but not collected. These amounts are not available for obligation until collected.

6.1.7. Other assets, whether of a working capital nature such as inventories of stock or of a fixed asset nature, are not considered as a budgetary resource. Such assets, therefore, do not enter into the determination of unobligated balances. However, claims against budgetary resources, such as delivered and undelivered orders, are obligations of a revolving fund and must be subtracted from unobligated balances when incurred. Obligations for the procurement of inventories, as well as for the acquisition of other revolving fund assets, must be recognized, recorded, and reported along with other obligations.

6.1.8. Some revolving funds, particularly public enterprise funds, have budget authority exclusively for the fund that is technically outside the fund as long as it remains “undrawn.” This concept may apply to the authority to borrow from the public, authority to borrow from the Treasury, and sometimes contract authority.

6.1.9. The amount of obligational authority apportioned or the available balance of obligational authority may be less than the total budgetary resources available in a revolving fund. The difference, which cannot be obligated unless it is apportioned, may be characterized as either an unapportioned balance of a revolving fund or a restrictive withholding. The concept of an unapportioned balance is one of preserving a portion of the fund’s capital so it may continue to revolve.

6.1.10. Incurring obligations or authorizing the incurrence of obligations in excess of apportioned budgetary resources must be reported as an apparent violation of the administrative control of funds provisions contained in Volume 14. This reporting requirement applies whether or not a revolving fund has unapportioned budgetary resources or nonbudgetary assets greater than the amount of the deficiency.

6.1.11. Each revolving fund is required to submit a separate set of reports to the Treasury as described in Volume 6A. Therefore, the data required for each revolving fund to prepare these reports must be identified within the DoD Component's accounting system.

6.2 DoD Public Enterprise Revolving Funds (4000-4499)

Public Enterprise revolving funds include but are not limited to the Special Defense Acquisition Fund and the Homeowners Assistance Fund.

6.2.1. The Special Defense Acquisition Fund is funded by the use of a limited amount of certain foreign military sales collections as authorized by Congress. The fund is used to acquire items needed in anticipation of sales to foreign governments. The proceeds from the sales of the fund are used to acquire items in anticipation of future sales. Budgetary resources provided from sales to customers are not available for use until collections occur and OMB approves apportionment of funds by category of item. The apportionment of funds by OMB provides control
over the obligations for the acquisition of approved categories of items. The Special Defense Acquisition Fund was assigned the symbol 011X4116 by the Treasury.

6.2.2. The Defense Homeowners Assistance Fund is funded by borrowing authority and appropriations. The fund is used to acquire homes under certain criteria when a DoD installation is closed. The fund acquires homes as assets and assumes the related liabilities. All properties acquired by the Homeowners Assistance Fund are managed and disposed of by the U.S. Army Corps of Engineers. At the time of sale of a property, revenues are recorded and gains and losses on the disposition of the asset are determined. Costs incurred related to a property must be capitalized as an increase in the amount of the asset whenever value is added to the property. Under certain conditions, losses incurred on private sales of qualified property may be reimbursed as operating expenses of the fund. Certain other operating expenses may be authorized. The budgetary resources provided from sales or lease of property are only available for obligation after collection and when apportioned by OMB. The Defense Homeowners Assistance Fund was assigned the fund account symbol 097X4090 by the Treasury.

6.3 Intragovernmental Revolving Funds (4500-4999)

DoD intragovernmental revolving funds include but are not limited to the Defense Working Capital Fund, and the Pentagon Reservation Maintenance Revolving Fund.

6.3.1. The Defense Working Capital Fund was established to fund the operation of certain support functions within DoD. This fund was formed from five previously existing industrial funds, four previously existing stock funds, and selected Defense Agency support functions that were previously funded through direct appropriations. The Defense Working Capital Fund provides support functions such as inventory, maintenance, communications, depot maintenance, military airlift, and sealift. Services are provided on a reimbursable basis to authorized customers. The Defense Working Capital Fund was assigned the fund account symbol 097X4930 by the Treasury.

6.3.2. The Pentagon Reservation Maintenance Revolving Fund was established by the Fiscal Year 1991 National Defense Authorization Act and is codified in Title 10, U.S. Code, section 2674. The Pentagon Reservation Maintenance Fund finances the activities of the Washington Headquarters Services, the Pentagon Force Protection Agency, and the Raven Rock Mountain Complex. The fund provides space, building services, and force protection for the DoD Components, including Military Departments and other activities housed within the Pentagon Reservation. The Pentagon Reservation Maintenance Revolving Fund was assigned the fund account symbol 097X4950 by the Treasury.
7.0 SPECIAL FUNDS (5000-5999)

7.1 Special Fund Receipt Accounts

The Department credits special fund receipt accounts with receipts from specific sources earmarked by law for specific purposes. At the point of collection, these receipts are either available immediately or unavailable for expenditures depending upon statutory requirements.

7.2 Special Fund Expenditure Accounts

Special fund expenditure accounts are established to record amounts appropriated or otherwise made available by transfers from a special fund receipt account to be obligated and expended for special programs in accordance with specific provisions of law. The accounting for special fund expenditure accounts must be in accordance with the provisions of this Regulation. However, each special fund must be viewed as a unique fund in light of any special provisions in the enabling legislation. An example of a DoD special fund account is the Wildlife Conservation, fund account symbol X5095.

8.0 DEPOSIT FUNDS (6000-6999)

Deposit fund accounts are established to account for collections that are either held temporarily and later refunded or paid upon administrative or legal determination as to the proper disposition thereof, or held by the government as banker or agent for others and paid out at the direction of the depositor. Deposit funds are liabilities of the Federal Government. Deposit fund transactions are excluded from the budget totals because the amounts are not owned by the government, and therefore are not available for the incurrence of any Federal Government obligations or payment of any Federal Government obligations. This section identifies various types of deposit funds.

8.1 Monies Withheld

Monies withheld by the government from payments for goods and services received. This type of transaction may be treated as a deposit fund liability only when a budgetary account has been charged and the funds are being held by the government pending payment; for example, payroll deductions for savings bonds or state and state income taxes.

8.2 Deposits from Outside Sources

Deposits received from outside sources for which the U.S. Government is acting solely as a banker, fiscal agent, or custodian.
8.3 Monies Awaiting Distribution

Monies held by the U.S. Government awaiting distribution on the basis of a legal determination or investigation. This category includes monies in dispute (between the Government and outside parties) when ownership is in doubt and there is no present basis for estimating ultimate distribution.

8.4 Unidentified Remittances

Unidentified remittances must be credited as suspense items outside the budget unless there is a reasonable presumption that they will be credited ultimately to a receipt, appropriation (expenditure), or other fund account within the budget, in which case amounts must be credited to the receipt clearing fund accounts. An example of a DoD deposit fund account is the Army’s Group Life Insurance Fund, fund account symbol 021X6434.

8.5 Unclaimed Collections

On a quarterly basis, DoD Components must initiate action to clear unclaimed collections held in their trust, revolving, and deposit fund accounts for more than one year. Unclaimed collections are money held by the government for individuals whose whereabouts are unknown. Unclaimed collections of $25 or more are transferred to “Payment of Unclaimed Moneys” with the accounting citation 020X6133, if held for more than one year. This account represents money that, when claimed, are properly refundable to the legal owner of the funds. Unclaimed collections of less than $25 or amounts of $25 or more that have been held for more than one year for which the rightful owner can be neither identified nor located are transferred to R1060 unclaimed amounts.

9.0 TRUST FUNDS (8000-8999)

9.1 Trust Fund Receipt Accounts

The Department credits trust fund receipt accounts with receipts generated by the terms of a trust agreement or statute that designates a fund as a trust fund. At the point of collection, these receipts are either available immediately or unavailable for expenditure depending upon statutory requirements. Accounting for trust funds must be in accordance with the provisions of this Regulation. However, each trust fund must be viewed as a unique fund in light of any special provisions in the trust agreement or the enabling legislation. Because of the unique nature and magnitude of impact of the deposits, advances, and Foreign Military Sales related to the Executive trust fund, special accounting requirements have been established in Volume 15.
9.2 Trust Fund Expenditure Accounts

Trust fund expenditure accounts are established to record amounts appropriated or otherwise made available by transfer from a trust fund receipt account to be obligated and expended in carrying out the specific purposes or programs in accordance with the terms of the trust agreement or statute. Funds transferred or appropriated to a trust fund expenditure account are normally available for obligation and expenditure within the limits imposed by the trust agreement or authorizing statute.

9.3 Trust Revolving Funds (8400-8499)

A trust revolving fund is a single account that is authorized to be credited with receipts and incur obligations and expenditures in support of a continuing cycle of business-type operations in accordance with the provisions of the trust agreement or statute. Trust revolving fund receipts are available for obligation and expenditure without further action by the Congress. In general, DoD trust funds authorized to incur obligations and expend receipts have been exempted from apportionment by the OMB. However, the Defense Commissary Agency Surcharge Collections, Sales of Commissary Stores trust revolving fund is subject to apportionment by the OMB. Accounting for trust fund expenditure accounts and trust revolving funds must be in accordance with the provisions of this Regulation. However, each trust fund must be viewed as a unique fund in light of any special provisions in the trust agreement or the enabling legislation.

10.0 AVAILABLE RECEIPTS

Available receipts are special or trust fund receipts that, pursuant to law, are available as appropriations to a single agency for expenditure without further congressional action. However, in some fund accounts, use is restricted to investment only or is precluded by a limitation or benefit formula. An available receipt account carries the same symbolization as its corresponding expenditure account in that an “X” is inserted to indicate the period of availability of such funds for obligation. However, in special circumstances, available receipts that are earmarked for current year obligations and expenditures initially are placed in an unavailable receipt account until Fiscal Service prepares a warrant to move the funds to a current fiscal year expenditure account.

11.0 UNAVAILABLE RECEIPTS

These are receipts that, at the time of collection, are not appropriated and not immediately available for expenditure. Unavailable receipts held in special and trust fund receipt accounts are unavailable for expenditure until appropriated pursuant to specific legislative provisions. Unavailable receipts are sometimes invested. In these circumstances, Treasury designates the fund as “available only for investment.”
12.0 TRANSFER APPROPRIATION ACCOUNTS

Fiscal Service establishes transfer appropriation accounts to receive (and subsequently obligate and disburse) allocations treated as nonexpenditure transactions. These accounts carry symbols identified with the original appropriation from which monies were advanced. A transfer appropriation account is symbolized by adding the receiving agency's department prefix to the original appropriation or fund account symbol. A bureau suffix identifies that the transfer is to a particular office or bureau within the receiving department. For example, 017-097 06 0100 represents a transfer of funds that was initially appropriated to Defense Agencies (097) and was transferred to the Department of the Navy (017) for execution purposes.

*13.0 PATENT ROYALTY ACTIVITIES

Each fiscal year, Treasury will create new three-year TAS to record collections and payments of expenses related to patent royalties. DoD Components should obligate and disburse directly from the three-year TAS for the purposes specifically authorized in statute, Section 3710c of Title 15, U.S. Code, which states that collections are only available for three years.

DoD Components must record the collections in the USSGL 426600 – Other Actual Business-Type Collections From Non-Federal Sources. USSGL 426600 provides direct budget authority on line 1800 of the SF 132, and SF-133.
Figure 1-1. Management Fund Requirements

1.0 APPROVAL OF CHARTERS AND MANAGEMENT FUND ACCOUNTS

A separate administrative account, called a management fund account, must be established for each operation or project that is to be financed by a management fund. This account must be established only with the approval of the Under Secretary of Defense (Comptroller) (USD(C)). As a basis for approval of a management fund account, a proposed charter and explanation of the reasons for the use of the management fund as the means of financing the operation or project must be submitted to the USD(C) via the Deputy Chief Financial Officer (DCFO).

1.1 The proposed charter must be prepared in the uniform format prescribed in Figure 1-2. If a Military Department is to be responsible for administration of the account, the proposed charter must be submitted under the signature of either the Secretary, Under Secretary, or an Assistant Secretary of the Military Department. A proposed charter submitted by a Defense Agency must be signed by the Director or Deputy Director of the Agency concerned. When appropriations or funds of more than one DoD Component are to share in the financing of a proposed account, the concurrence of each DoD Component involved must be evidenced by the signature of the Component comptroller or an equivalent official.

1.2 The scope of operations of a management fund account, as prescribed in the charter, must not be exceeded. However, the basic provisions of a charter may be changed by submitting a proposed charter amendment in the same manner as an original charter application.

1.3 The USD(C) must evidence approval of a charter or an amendment by signing the charter and returning a copy to the applicable DoD Component as its authority to commence operations subject to availability of funds. The original must be retained in the official files of the USD(C).

2.0 DISCONTINUANCE OF A MANAGEMENT FUND ACCOUNT

When a management fund account is to be discontinued, the managing DoD Component must submit a termination notice to the USD(C) stating the reason for discontinuing the account and the estimated date of final liquidation.

3.0 BUDGETING, FINANCING, ACCOUNTING, AND REPORTING

3.1 Budgets and Financial Plans

3.1.1 Annual budget estimates must be prepared for each management fund in accordance with Volume 2B.

3.1.2 An operating budget or financial plan must be prepared annually and updated quarterly by the managing DoD Component for each management fund account in a format appropriate for management planning and control purposes. A copy of the operating budget or financial plan for an operation or project must be submitted with the request for approval of an
account charter. When required for purposes of obtaining advances or for guidance in estimating appropriation or fund requirements, copies of operating budgets or financial plans also must be furnished to participating DoD Components or their organizational subdivisions.

3.2 Financing and Administrative Control of Funds

3.2.1. Obligational authority for the conduct of operations under a management fund account is provided by reimbursable orders, either with or without advances, whichever may be appropriate. The reimbursable orders may be issued in periodic increments to lessen the administrative workload and they must specify the accounting classifications to be used for billing purposes.

3.2.2. The management fund must be controlled administratively in accordance with Volume 14, “Administrative Control of Funds.” No obligation may be incurred against a management fund that is not chargeable to a specific order and the appropriation or fund supporting that order.

3.3 Billing and Payment

3.3.1. Management fund outlays must be charged to appropriations or funds as prescribed in the account charter and specified in the reimbursable order.

3.3.2. Billing and payment must be accomplished by SF 1081, “Voucher and Schedule of Withdrawals and Credits.” In the case of financing by means of advances, the advance must be accomplished by SF 1081 prepared and processed as of the beginning of the period covered by the advance. In all cases, however, the DoD Component responsible for the management fund account must submit monthly bills to participating organizations to permit them to charge appropriate accounts and record the reduction in the advance accounts, as well as to permit the managing DoD Component to adjust its own accounts.

3.4 Accounting and Reporting. Financial transactions must be classified under each management fund account in enough detail to meet management planning and control requirements. The principles, standards, and requirements in this Regulation apply to the accounting and reporting systems, including the recording and reporting of the source, application, and status of funds. Additional financial reporting that may be needed by participating organizations for management purposes must be specified by the DCFO and the Heads of the DoD Components.
1.0 IDENTIFICATION OF MANAGEMENT FUND ACCOUNT

The proposed charter must be numbered serially within each Military Department or the Office of the Secretary of Defense, and the management fund account must be identified by a brief but descriptive title. Serial numbers must be reserved for existing management fund accounts; thus, if a Military Department has three active management fund accounts, the next proposed charter will be No. 4. A reference must be made to this chapter as authority for the management fund account.

2.0 PURPOSE

A brief but complete description of the operation or project to be financed by the management fund must be included in this section.

3.0 PARTICIPATING ORGANIZATIONS

The organizational units within the managing Military Department or Defense Agency and the organizations in the other Military Departments or Defense Agencies that will participate in the operation or project must be identified in this section.

4.0 ADMINISTRATION

The following information must be included in this section:

4.1 The name and location of the organization or office that will be responsible for management and direction of the operation or project.

4.2 The location of the accounting and other administrative records.

4.3 The location of the principal place of business, if different from paragraphs 4.1, and 4.2.

4.4 Special provisions concerning administrative and logistic support.

5.0 BUDGETING, FINANCING, ACCOUNTING, AND REPORTING

The following information must be included in this section:

5.1 Arrangements for the preparation and submission of operating budgets or financial plans.
Figure 1-2. Uniform Format for Management Fund Account Charters (continued)

5.2 Provisions for financing, that is, by reimbursement with or without advances; provisions for determining and allocating costs when appropriate; and provisions for the return of unexpended balances of advances.

5.3 The management fund title and symbol.

5.4 A brief description of the system of accounts and of the system of internal control, including administrative control over funds.

5.5 The nature of the expenses chargeable to the operation or project.

5.6 Reporting policies and procedures.

6.0 TERM AND DURATION OF THE ACCOUNT

This section must specify the commencement date and the termination date of the operation or project or, for an operation or project of indefinite duration, the conditions under which the operation or project will terminate.

REQUESTED:

(Signature of appropriate official of the managing DoD Component)

CONCURRED

(Signature of appropriate official of a participating DoD Component)

(Signature of appropriate official of a participating DoD Component)

CHAPTER 3

CONTRIBUTIONS FOR DEFENSE PROGRAMS, PROJECTS, AND ACTIVITIES

1.0 INTRODUCTION (0301)

1.1 Purpose (030101)

This Chapter prescribes the overall policy and assigns responsibilities for the acceptance, receipt, use, and reporting of money, real or personal property, or services to the Department of Defense (DoD) under Title 10, United States Code, section 2608.

1.2 Defense Cooperation Account (030102)

A special account is established in the Treasury of the United States for receipt of monetary contributions and proceeds from the sale of real or personal property contributions accepted by the Secretary of Defense, or designee under Title 10, United States Code, section 2608.

2.0 AUTHORITY (0302)

2.1 Secretary of Defense (030201)

Title 10, United States Code, section 2608 provides authority for the Secretary of Defense (SECDEF) to accept, for use by the Department, from any business (or person), foreign government, or international organization, any contribution of money or real or personal property and may accept from any foreign government or international organization any contribution of services.

2.2 Under Secretary of Defense (Comptroller) (USD(C)) (030202)

Authority to accept such contributions has been delegated to the USD(C), who also serves as the single point of contact in the Department for the Departments of State and the Treasury with respect to all matters involving the receipt, administration and distribution of contributions of funds from foreign countries for defense programs.

2.3 Military Departments and Defense Agencies (030203)

The Secretaries of the Military Departments and the Directors of the Defense Agencies, have authority to accept from any business (person), or international organization, any contribution of real or personal property for use by their organizations.

2.4 Washington Headquarters Services (030204)

Given Washington Headquarter Services’ responsibility for the management of property and physical assets at the Pentagon and to maintain consistency in property accountability the
Director of the Washington Headquarter Services has authority to accept contributions of personal property offered to the Office of the Secretary of Defense for use at the Pentagon.

2.5 Delegation of Authority (030205)

The USD(C) may provide additional delegations of authority to accept contributions of real and personal property or services on a case by case basis.

3.0 POLICY ON CONTRIBUTIONS (0303)

3.1 Nonmonetary Contributions (030301)

These are contributions in the form of real property (fixed assets such as land, buildings, other structures, and facilities), tangible property (inventory or items held for sale, operating materials, supplies, and equipment) or services that would benefit the DoD if accepted. Once the DoD accepts these contributions, the intent of the accounting standards (Statements of Federal Financial Accounting Standards (SFFAS)) is that the benefiting DoD organization should recognize the contribution in its financial statements. See Volume 4, Chapters 4 and 6, and Volume 6B, for accounting and reporting guidance.

3.1.1. The receiving DoD organization recognizes a change in inventory, stock, or plant, property, and equipment (PP&E) related records once transfer of the goods or services is made thus making DoD the legal owner of said goods or services. An organization receiving donated general PP&E determines its fair value at the time it was acquired by the government. Donations of assets or services must be reported quarterly to the Defense Finance and Accounting Service (DFAS), Indianapolis, 8899 East 56th Street ATTN: Trust Fund Accounting Division, Column 203L, Indianapolis, Indiana 46249-1500 (see paragraph 5.1).

3.1.2. The receiving organization must document and retain on file the details of each nonmonetary contribution received. For audit purposes, the supporting documentation must be retained for the life of the asset, but no less than 6 years and 3 months. Each file must include:

3.1.2.1. A description of the contribution.
3.1.2.2. The estimated value of the contribution, including the valuation method used (see subparagraph 3.1.3, below).
3.1.2.3. The name and address of the donor(s).
3.1.2.4. A list of restrictions, conditions, or other information set out by the donor.
3.1.2.5. The acquisition date.
3.1.2.6. The useful expected life of the donation.
3.1.2.7. A statement explaining the benefits of accepting the donation. You must explain why accepting the donation is preferred to obtaining the item or service through existing DoD supply channels.

3.1.2.8. A unique identifier or data element used to track the same or similar items shipped from different sources.

3.1.2.9. The Service and appropriation that benefit from this contribution. Identify the appropriation that normally furnishes this asset.

3.2 Monetary Contributions (030302)

The USD(C) retains the authority to accept all monetary contributions. Monetary contributions are not generally accepted with restrictions, i.e., with designations for specific programs or purposes.

3.2.1. Contributions in Cash

3.2.1.1. Cash contributions, including proceeds from the sale of any contributed property, shall be deposited to the Defense Cooperation Account (DCA) as soon as practical, but not later than the last day of the month.

3.2.1.2. Consistent with sound cash management practices, any cash accepted, under USD(C) authority, shall be either converted into a check and forwarded to the DFAS using overnight delivery service, or deposited into a Treasury General Account with funds transferred to the DCA via electronic funds transfer--whichever process results in the earliest deposit of funds into the DCA.

3.2.1.3. Any funds forwarded by electronic funds transfer shall be deposited within 24 hours into the DCA under ALC 9720010 and Account Number 97X5187.1. Additionally, the DFAS Trust Fund Accounting Division shall be notified prior to forwarding any funds electronically.

3.2.1.4. Documentation associated with cash contributions, including copies of deposit tickets, and the original of correspondence from contributors shall be forwarded within 24 hours of the deposit using overnight delivery service, to the DFAS Trust Fund Accounting Division.

3.2.2. Contributions by Check

3.2.2.1. Checks received by DoD officials shall be made payable to the “United States Treasury.” The reference line on the check should indicate the “Defense Cooperation Account.”
3.2.2. Checks received by DoD officials shall be forwarded to the DFAS Trust Fund Accounting Division. The DFAS shall deposit such funds within 24 hours of receipt into the DCA under ALC 9720010 and Account Number 97X5187.1.

3.2.2.3. Documentation associated with check contributions, including the original of any correspondence from contributors shall be forwarded with the check.

3.2.3. Contributions by Wire Transfer

3.2.3.1. Contributions by wire transfer eliminate delays in receiving deposits and provide the most efficient preliminary accounting information for investment purposes.

3.2.3.2. After approval by the USD(C), donors may make contributions to the DCA via electronic funds transfer from commercial banks to “Account Number 1” in the Federal Reserve Bank of New York (as Fiscal Agent of the United States). The Federal Reserve Bank of New York shall credit the Department accordingly, using the format in Figure 3-1.

3.2.3.3. Documentation associated with wire transfer contributions, including the original of any correspondence from contributors shall be forwarded within 24 hours of the deposit using overnight delivery service, to the DFAS Trust Fund Accounting Division.

3.2.4. Contributions in Foreign Currencies (Cash or Check). Upon notice of a planned large contribution ($1 million or more) to be made in foreign currency the cognizant DoD official shall:

3.2.4.1. Request the donor provide as much lead time as possible regarding the amount of the contribution and the estimated date the contribution will be made.

3.2.4.2. Advise the USD(C) and the DFAS Trust Fund Accounting Division of any planned contributions and continue to keep that office advised of the status until the currency transfer is made by the donor.

3.2.4.3. Upon approval by the USD(C), request the donor credit the foreign currency contribution to the Federal Reserve Bank of New York “Account Number 1” via the donor’s central bank. If the Federal Reserve Bank does not maintain an account with a particular donor, the DoD official should seek guidance from the DFAS Trust Fund Accounting Division, for appropriate alternative arrangements.

3.2.4.4. Foreign checks received by DoD officials shall be converted to a check denominated in U.S. dollars prior to being forwarded to the DFAS or transferred electronically into the DCA.

3.2.4.5. Cash and checks received by DoD officials in countries not served by a DoD disbursing officer shall, upon approval by the USD(C), be delivered to the nearest U.S. Embassy within 24 hours of receipt for deposit in the DCA, under ALC 97200010 and Account Number 97X5187.1.
3.3 Policy On Acceptance Of Contributions (030303)

3.3.1. Authorities that may accept contributions shall use sensitivity and scrutiny when contributions are offered from prohibited sources and, if there is a question on propriety, shall consult with their Ethics Counselor to determine whether accepting a contribution would violate any prohibition, or reflect unfavorably on the Department. “Prohibited source” and “Ethics Counselor” shall have the meanings set forth in DoD 5500.7-R, the Joint Ethics Regulation.

3.3.2. Authorities that may accept contributions may pay all necessary expenses in connection with the conveyance or transfer of a contribution. Contributions should not be accepted if it would result in substantial expenditures or administrative efforts and maintenance that are disproportionate to any benefit.

3.3.3. Department personnel shall not solicit, fundraise for, or otherwise request or encourage the offer of a contribution.

3.3.4. Authorities that may accept contributions may acknowledge offers of future contributions and advise the donors that acceptance will occur after actual presentation of the contributions only when they determine that such acceptance will likely occur.

*4.0 REPORTING ON CONTRIBUTIONS (0304)

4.1 Reporting Requirements (030401)

Not later than 10 days after the end of each quarter, each DoD official that has accepted and received a nonmonetary contribution shall submit a report to the DFAS Trust Fund Accounting Division that identifies the following:

4.1.1. Nonmonetary Contributions Received

4.1.1.1. A description of each item received.

4.1.1.2. The value of each item received, including the valuation method used.

4.1.1.3. The name of the contributor for each item received.

4.1.1.4. The date each item was received.

4.1.1.5. Details of any restrictions, conditions or other relevant information regarding each contribution.

4.1.1.6. Expected useful life of the contribution.

4.1.1.7. If two more like items are received from different sources the items are to be accounted for separately to permit identification of items received.
4.1.2. **Nonmonetary Contributions Sold**

4.1.2.1. A description of each item sold.

4.1.2.2. The proceeds of each item sold. Also include in report the disposition of the funds received. Funds should be forwarded or deposited with DFAS and credited in the DCA consistent with 10 U.S.C. 2608(b)(2).

4.1.2.3. The name of the contributor for each item sold.

4.1.2.4. The date each item was sold.

4.1.2.5. The name of the purchaser for each item sold.

4.1.2.6. If two or more like items are received from different sources the items are to be accounted for separately to permit identification of items when sold.

4.1.2.7. Details of any other relevant information regarding each item sold.

4.1.3. **Monetary Contributions Received**

4.1.3.1. The dollar amount of each contribution.

4.1.3.2. Name of the donor for each contribution received.

4.1.3.3. The date each item was received.

4.2 **Defense Finance and Accounting Services Reporting Requirement (030402)**

Not later than 15 days after the end of each quarter, the DFAS shall prepare and forward to the USD(C) a report to be submitted to the Congress that provides the following information.

4.2.1. Summary values of monetary and nonmonetary contributions accepted during the quarter.

4.2.2. A description of all property valued at more than $1 million. In determining whether the $1 million threshold has been met, the following procedures shall be used:

4.2.2.1. The value of similar items accepted during the quarter shall be added together.

4.2.2.2. The value of components which, if assembled, would comprise all or a substantial portion of an item or facility shall be added together.
5.0 INVESTING CONTRIBUTIONS (0305)

5.1 General (030501)

Consistent with good cash management practices, funds in the DCA shall be invested in Government securities until distribution is authorized. Generally, investments are limited to U.S. Treasury bills maturing in 90 days or less.

5.2 Purchasing Government Securities (030502)

The DFAS shall follow the procedures below for purchasing Government securities.

5.2.1 Daily, after all contributions and other transactions have been entered into the DCA, generate a Pre-closing Trial Balance.

5.2.1.1 Verify the amount in account 1010, Fund Balance with Treasury, with the amount entered in the General Ledger for the same day.

5.2.1.2 Research and correct any differences between account 1010 and the General Ledger immediately.

5.2.2 A security investment can be purchased if account 1010 has a balance sufficient to purchase a $10,000 Treasury bill or a $1,000 U.S. Treasury note or bond. Information on prices, maturities, and yields of U.S. Treasury securities generally can be found in the financial section of major newspapers.

5.2.3 Select a U.S. Treasury security from those available.

5.2.4 Input the following information into the Treasury’s FedInvest system or other appropriate system:

5.2.4.1 Account: Defense Cooperation Account

5.2.4.2 Transaction Type: Purchase

5.2.4.3 Transaction Date: (Date the security will be purchased)

5.2.4.4 Type of Security: (Specify)

5.2.4.5 Date of maturity: (Specify)

5.2.4.6 Amount: (Amount available in account 1010, Fund Balance with Treasury)

5.2.5 The day after the transaction, review the FedInvest system or other system as appropriate to obtain the face amount, discount or premium, interest purchase (if any), and the
price of the security purchased. Record the above information in the Trust Fund Accounting System (TFAS).

5.2.5.1. Complete the coordination section of the Memorandum for Purchase or Sale of Investments.

5.2.5.2. Complete the Purchases Input Worksheet and update the DCA system. Once this has been accomplished, a person other than the one making input must sign the Purchase Input Worksheet confirming that the DCA was updated for the Purchase.

5.2.6. Once the above has been accomplished, a person other than the individual making the input needs to review the data in the TFAS and the DCA to ensure that the systems have been properly updated.

5.3 Selling Securities (030503)

The DFAS shall follow the procedures below to sell Government securities.

5.3.1. The Office of the Deputy Comptroller (Program/Budget) will determine the amount needed for payment or transfer. The Fund Manager, DFAS Trust Fund Accounting Division, normally shall sell securities to cover the amount needed if no securities mature on that day or contributions are not received. The decision as to which securities will be sold will depend on current economic conditions.

5.3.2. Select a security or securities for sale.

5.3.3. Input the following information into the Treasury’s FedInvest system or other appropriate system:

5.3.3.1. Account: Defense Cooperation Account

5.3.3.2. Transaction Type: Sale

5.3.3.3. Transaction Date: (Date security will be sold)

5.3.3.4. Type of security: (Specify)

5.3.3.5. Interest Rate: (Enter applicable rate only if Notes or Bonds are sold)

5.3.3.6. Date of maturity: (Specify)

5.3.3.7. Amount: (Minimum amount of proceeds from the sale required to cover any projected negative amount in account 1010)
5.3.4. If needed, obtain the principal amount and interest earned from the FedInvest or other appropriate system.

5.3.5. Update the TFAS with DCA activity.

5.4 Maturing Securities (030504)

The DFAS shall maintain a tracking system that identifies impending maturities and collections of securities for the DCA and ensure appropriate reinvestment action is taken upon maturity of a security.

5.5 Payments or Transfers (030505)

Payments or transfers from the DCA must be authorized by the Congress. The USD(C) will provide withdrawal notification to the DFAS which shall ensure appropriate action is taken.

5.6 Annual Reviews (030506)

The DFAS will conduct an annual review of the DCA operations and transactions, including the purchase and sale of investments. The objective of the review will include compliance with the DoD and the Treasury policies and procedures, and adequacy of internal controls.

FIGURE 3-1
Monetary Contributions by Wire Transfer Instructions

The following is a guide for completing the funds transfer form (Figure 3-1) which should be available at the sending financial institution.

1. **RECEIVER DEPOSITORY FINANCIAL INSTITUTION (DFI) No.** The Treasury Department’s American Bankers Association (ABA) number for deposit messages is 021030004. This number shall be entered by the sending bank for all deposit messages sent to Treasury for credit to the Defense Cooperation Account.

2. **TYPE-SUBTYPE CODE.** The type and subtype code is provided by the sending bank.

3. **SENDER DFI NO.** This number is provided by the sending bank.

4. **SENDER REFERENCE NO.** The sixteen (16) character reference number is inserted by the sending bank at its option.

5. **AMOUNT.** The transfer amount shall be in U.S. dollars and must be punctuated with commas and a decimal point; use of the dollar sign is optional.

6. **SENDER DFI NAME.** This information is automatically inserted by the Federal Reserve Bank.

7. **RECEIVER DFI NAME.** The Treasury Department’s name for deposit messages is “TREAS NYC.” The name should be entered by the sending bank.

8. **PRODUCT CODE.** A product code of “CTR” for customer transfer should be the first data in the RECEIVER - TEXT field. Other values may be entered, if appropriate, using the ABA’s options. A slash must be entered after the product code.

9. **AGENCY LOCATION CODE (ALC).** The agency location code is of critical importance and must appear in the precise manner stated to allow for automated processing and classification to the ALC of the Department of Defense. The sequence includes the beneficiary code tag (BNF) and indicator code (/AC) followed by the Defense Department’s eight (8) digit ALC (97200010) for this account. The ALC identification sequence can, if necessary, begin on one line and end on the next line. However, the field beneficiary code tag (BNF) must be one line and cannot contain any spaces.

10. **THIRD PARTY INFORMATION.** The reason for the funds transfer should appear in this field. The originator-to-beneficiary information field tag (OBI=) is used to signify the beginning of free-form text. An example follows: BNF=/AC-97200010 OBI=to the DCA(97X5187) for defense programs, projects, and activities from (Name of Donor).

CHAPTER 4

DIRECT LOANS AND LOAN GUARANTEES

1.0 GENERAL

1.1 Purpose

This chapter establishes the Department of Defense (DoD) policies for direct loans and loan guarantees for non-Federal borrowers. The policies for credit programs reflect the requirements of the Federal Credit Reform Act of 1990 (FCRA) as amended. The major purposes of the Act are to: (a) measure more accurately the costs of Federal credit programs; (b) place the cost of credit programs on a budgetary basis equivalent to other Federal spending; (c) encourage the delivery of benefits in the form most appropriate to the needs of beneficiaries; and (d) improve the allocation of resources among credit programs and between credit and other spending programs.

1.2 Authoritative Guidance

The financial management policy and related requirements prescribed in this chapter are in accordance with the applicable provisions of the following sources, and apply to all proceeds resulting from sales of acquired assets:

1.2.1. Office of Management and Budget (OMB) Circular A-11, Part 5, Section 185, "Federal Credit."

1.2.2. OMB Circular A-129, "Policies for Federal Credit Programs and Non-Tax Receivables."

1.2.3. The Treasury Financial Manual (TFM) Volume I Part 2, Chapter 4600.

1.2.5. SFFAS 18, “Amendments to Accounting Standards For Direct Loans and Loan Guarantees in SFFAS No. 2.”

1.2.6. SFFAS 19, “Technical Amendments to Accounting Standards For Direct Loans and Loan Guarantees in SFFAS No. 2.”

1.2.8. FASAB Technical Release 6, “Preparing Estimates for Direct Loan and Loan Guarantee Subsidies under the Federal Credit Reform Act.”
2.0 ACCOUNTING STANDARDS

2.1 Explanation

The specific accounting standards for direct and guaranteed loans are discussed in this chapter. The standards concern the recognition and measurement of direct loans, the liability associated with loan guarantees, and the cost of direct loans and loan guarantees.

2.2 Accounting Standards

2.2.1. Post-1991 Direct Loans. Refers to direct loan obligations made on or after October 1, 1991, and the resulting direct loans. Direct loans disbursed and outstanding are recognized as assets at the present value of their estimated net cash inflows. The difference between the outstanding principal of the loans and the present value of their net cash inflows is recognized as a subsidy cost allowance.

2.2.2. Post-1991 Guarantees. Refers to loan guarantee commitments made on or after October 1, 1991, and the resulting loan guarantees. For guaranteed loans outstanding, the present value of estimated net cash outflows of the loan guarantees is recognized as a liability. Disclosure is made of the face value of guaranteed loans outstanding and the amount guaranteed.

2.2.3. Subsidy Costs of Post-1991 Direct Loans and Loan Guarantees. A subsidy expense is recognized for direct or guaranteed loans disbursed during a fiscal year. The amount of subsidy expense equals the present value of estimated cash outflows over the life of the loans, minus the present value of estimated cash inflows, discounted at the average interest rate on marketable U.S. Treasury securities of similar maturity to the cash flows of the loan or loan guarantee for which the estimate is being made.

2.2.3.1. For the fiscal year during which new direct or guaranteed loans are disbursed, the components of the subsidy expense of those new direct loans and loan guarantees are recognized separately as interest subsidy costs, default costs, fees and other collections, and other subsidy costs.

2.2.3.2. The interest subsidy cost of direct loans is the excess of the amount of the loans disbursed over the present value of the interest and principal payments required by the loan contracts, discounted at the applicable U.S. Treasury interest rate. The interest subsidy cost of loan guarantees is the present value of estimated interest supplement payments.

2.2.3.3. The default cost of direct loans results from projected deviations, other than prepayments by the borrowers, from the payments schedule in the loan contracts. The deviations include delinquencies and omissions in interest and principal payments. The default cost is measured at the present value of the projected payment deviations minus projected net recoveries. Projected net recoveries include the amounts that would be collected from the borrowers at a later date, or the proceeds from the sale of acquired assets, minus the costs of foreclosing, managing, and selling those assets.
2.2.3.4. The default cost of loan guarantees results from paying lenders’ claims upon default of the guaranteed loans. The default cost of loan guarantees is measured at the present value of projected payments to lenders required by the guarantee, plus uncollected fees, minus interest supplements not paid as the result of the default, and minus projected net recoveries.

2.2.3.5. The present value of fees and other collections is recognized as a deduction from subsidy costs.

2.2.3.6. Other subsidy costs consist of cash flows that are not included in calculating the interest or default subsidy costs, or in fees and other collections. They include the effect of prepayments within contract terms. (See Appendix A)

2.2.4. Subsidy Amortization and Reestimation. The subsidy cost allowance for direct loans is amortized by the interest method, using the interest rate that was originally used to calculate the present value of the direct loans when loans were disbursed, after adjusting for the interest re-estimate. The amortized amount is recognized as an increase (when effective interest exceeds nominal interest) or decrease (when nominal interest exceeds effective interest) in interest income. Nominal interest equals the nominal balance (i.e., the face amount) of the loan outstanding at the beginning of the period multiplied by the interest rate stated in the loan contract. Effective interest equals the book value of the loan (i.e., net of allowance for subsidy) multiplied by the applicable U.S. Treasury interest rate.

2.2.4.1. Interest is accrued and compounded on the liability of loan guarantees at the interest rate that was used to calculate the present value of the loan guarantee liabilities, when the guaranteed loans were disbursed. The accrued interest is recognized as interest expense, after adjusting for the interest re-estimate.

2.2.5. Criteria for Default Cost Estimates. The criteria for default cost estimates apply to both initial estimates and subsequent reestimates. Default costs are estimated and reestimated for each program on the basis of separate cohorts and risk categories. Cohort refers to the fiscal year of obligation for direct loan obligations or loan guarantee commitments of a program. Risk category means subdivisions of a cohort of direct loans or loan guarantees into groups that are relatively homogenous in cost, given the facts known at the time of obligation or commitment. The reestimates take into account the differences in cash flows between the projected and realized amounts, and changes in other factors that can be used to predict the future cash flows of each risk category.

2.2.5.1. In estimating default costs, the following risk factors are considered: (a) loan performance experience; (b) current and forecasted international, national, or regional economic conditions that may affect the performance of the loans; (c) financial and other relevant characteristics of borrowers; (d) the value of collateral to loan balance; (e) changes in recoverable value of collateral; and (f) newly developed events that would affect the performance of the loan. Improvements in methods to reestimate defaults also are considered.
2.2.5.2. Each credit program must use a systematic methodology, such as an econometric model, to project default costs of each risk category. If individual accounts contain significant dollars that would carry a proportionately higher weight in terms of risk exposure, an analysis of the individual accounts is warranted in making the default cost estimate for that category.

2.2.5.3. The actual historical experience for the performance of a risk category is a primary factor upon which an estimation of default cost is based. To document actual experience, a database must be maintained to provide historical information on actual payments, prepayments, late payments, defaults, recoveries, and amounts written off.

2.2.6. Netting Subsidy Reestimate Amounts (within Cohorts). To calculate subsidy costs, components begin by estimating the expected cash flows and inflows over the life of the loans for each cohort year. Expected cash flows are then discounted to the point of loan disbursement to determine the net present value. The subsidy cost represents the net present value cost of making or guaranteeing new loans.

2.2.6.1. The data used for budgetary subsidy cost estimates are updated, or reestimated, annually after the end of the fiscal year to reflect actual loan performance and to incorporate any changes in assumptions about future loan performance. Reestimates must be made immediately after the end of each fiscal year, as long as any loans in the cohort are outstanding.

2.2.6.2. OMB Circular A-11, Part 5, Section 185.6 (f), “Calculating Reestimate Increases/Decreases”, states in cases where agencies execute a risk category on a loan-by-loan basis, increases or decreases in subsidy cost for different loans within the same cohort and risk category will be netted against each other. Loans that require increased subsidies should draw on the excess from any risk categories within the cohort where the reestimate shows a subsidy decrease. A negative or downward subsidy reestimate, should be recognized as a direct reduction in expense, not as a revenue, gain, or other financing source.

2.2.6.2.1. If the netting within the cohort indicates a net increase in the subsidy cost of the cohort as a whole since the last estimate or reestimate, an obligation in the amount of the net increase (plus interest) must be recorded against permanent indefinite budget authority available to the program account for this purpose.

2.2.6.2.2. If the netting within the cohort results in a net downward reestimate, there is no overall increase in subsidy cost for the cohort, and hence no additional appropriated subsidy for the program account. To keep the correct amount of balances in the financing account, an obligation and a financing disbursement in the amount of the net decrease (plus interest on the reestimate) must be recorded in the financing account.

2.2.6.2.3. Within the financing account, any amounts borrowed for downward reestimates for individual loans not needed for/ transferred to loans with upward reestimates are transferred to a miscellaneous receipt account.
2.2.6.3. The Defense Finance and Accounting Services (DFAS) maintains separate accounting records for each loan and loan guarantee with all accounting transactions. All projects having a downward re-estimate, whether or not they are in a cohort with an upward re-estimate project, borrow the gross amount of their respective downward reestimates from the Bureau of Fiscal Services. The borrowed funds received by a downward reestimate project are transferred to the amount needed to fund an upward reestimate project in the same cohort with any net remaining funds paid to the Department of the Treasury.

2.2.6.3.1. Such intracohort transfers are recorded by the downward reestimate project as a credit to United States. Standard General Ledger (USSGL) account 427100 (Actual Program Fund Subsidy Collected) with an offsetting debit to USSGL 427100 recorded by the upward re-estimate project. Consequently, the total reestimate amount included in Line 4120 (Federal Sources) on the Standard Form (SF) 133 “Report on budget Execution and Budgetary Resources”, is the sum of the net cohort balances.

2.2.6.3.2. Detailed accounting guidance provided by the Department of Treasury: Guide for Basic Accounting and Reporting for Direct Loan Programs without Collateral in Federal Credit Program and Guide for Basic Accounting and Reporting for Loan Guarantee Programs without Collateral in Federal Credit Program.

2.2.7. Revenues and Expenses. Interest accrued on direct loans, including amortized interest, is recognized as interest income. Interest accrued on the liability of loan guarantees is recognized as interest expense. Interest due from the U.S. Treasury on uninvested funds is recognized as interest income. Interest accrued on debt to the U.S. Treasury is recognized as interest expense. Costs for administering credit activities, such as salaries, legal fees, and office costs, that are incurred for credit policy evaluation, loan and loan guarantee origination, closing, servicing, monitoring, maintaining accounting and computer systems, and other credit administrative purposes, are recognized as administrative expense. Administrative expenses are not included in calculating the subsidy costs of direct loans and loan guarantees.

2.2.8. Pre-1992 Direct Loans and Loan Guarantees. The losses and liabilities of direct loans obligated and loan guarantees committed before October 1, 1991, are recognized, when it is more likely than not that the direct loans will not be collected totally, or that the loan guarantees will require a future cash outflow to pay default claims.

2.2.8.1. The allowance for uncollectible amounts and the liability of loan guarantees must be reestimated each year as of the date of the financial statements. In estimating losses and liabilities, the risk factors discussed in subparagraph 2.2.5.1 must be considered. Disclosure is made of the face value of guaranteed loans outstanding and the amount guaranteed.

2.2.8.2. Restatement of pre-1992 direct loans and loan guarantees on a present value basis is permitted but not required.
2.2.9. **Modification of Direct Loans and Loan Guarantees.** The term "modification" means a Federal action, including new legislation or administrative action, which directly or indirectly alters the estimated subsidy cost and the present value of outstanding direct loans, or the liability of loan guarantees.

2.2.9.1. Direct modifications are actions that change the subsidy cost by altering the terms of existing contracts or by selling loan assets. Existing contracts may be altered through such means as forbearance, forgiveness, reductions in interest rates, extensions of maturity, and prepayments without penalty. Such actions are modifications unless they are considered reestimates, or workouts, as defined in subparagraph 2.2.9.3, or are permitted under the terms of existing contracts.

2.2.9.2. Indirect modifications are actions that change the subsidy cost by legislation that alters the way in which an outstanding portfolio of direct loans or loan guarantees is administered. Examples include a new method of debt collection prescribed by law or a statutory restriction on debt collection.

2.2.9.3. The term "modification" does not include subsidy cost reestimates, the routine administrative workouts of troubled loans, or actions that are permitted within the existing contract terms. Workouts are actions taken to maximize repayments of existing direct loans, or minimize claims under existing loan guarantees. The expected effects of workouts on cash flows are included in the original estimate of subsidy costs and subsequent reestimates.

2.2.10. **Modification of Direct Loans.** With respect to a direct or indirect modification of pre-1992 or post-1991 direct loans, the cost of modification is the excess of the pre-modification value of the loans over the post-modification value of those loans. The amount of the modification cost is recognized as a modification expense when the loans are modified.

2.2.10.1. When a post-1991 direct loan is modified, the existing book value of that loan is changed to an amount equal to the present value of the net cash inflows projected under the modified terms from the time of modification to the loan's maturity. That amount is discounted at the original discount rate, which is the rate that originally was used to calculate the present value of the direct loan, when the direct loan was disbursed, after adjusting for the interest rate reestimate.

2.2.10.2. When a pre-1992 direct loan is directly modified, it is transferred to a financing account and its book value is changed to an amount equal to its post-modification value. Any subsequent modification is treated as a modification of post-1991 loans. When a pre-1992 direct loan is indirectly modified, it is kept in a liquidating account. The bad debt allowance is reassessed and adjusted to reflect amounts that would not be collected due to the modification.
2.2.10.3. The changes in the book value of both pre-1992 and post-1991 direct loans, resulting from a direct or indirect modification, and the cost of modification, normally will differ due to the use of different discount rates or different measurement methods. Any difference between the change in book value and the cost of modification is recognized as a gain or loss. For post-1991 direct loans, the modification adjustment transfer paid or received to offset the gain or loss is recognized as a financing source (or a reduction in financing source).

2.2.11. **Modification of Loan Guarantees.** With respect to a direct or indirect modification of pre-1992 or post-1991 loan guarantees, the cost of modification is the excess of the post-modification liability of the loan guarantees over the pre-modification liability of those loan guarantees. The modification cost is recognized as modification expense when the loan guarantees are modified and results in a subsidy cost increase or decrease, which must be recorded on the SF-133; refer to OMB Circular A-11, section 185.30 for complete details.

2.2.11.1. The existing book value of the liability of modified post-1991 loan guarantees is changed to an amount equal to the present value of net cash outflows projected under the modified terms from the time of modification to the maturity of those loans, discounted at the original discount rate (the rate that originally is used to calculate the present value of the liability when the guaranteed loans were disbursed, after adjusting for the interest rate reestimate.)

2.2.11.2. When a pre-1992 loan guarantee is directly modified, the modified loan guarantee is transferred to a financing account and the existing book value of the liability of the modified loan guarantees is changed to an amount equal to its post-modification liability. Any subsequent modification is treated as a modification of a post-1991 loan guarantee. When a pre-1992 loan guarantee is indirectly modified, that loan guarantee is kept in a liquidating account. The liability of such a loan guarantee is reassessed and adjusted to reflect any change in the liability resulting from the modification.

2.2.11.3. The change in the amount of liability of both pre-1992 and post-1991 loan guarantees resulting from a direct or indirect modification and the cost of modification normally will differ, due to the use of different discount rates or the use of different measurement methods. Any difference between the change in liability and the cost of modification is recognized as a gain or loss. For post-1991 loan guarantees, the modification adjustment transfer paid or received to offset the gain or loss is recognized as a financing source (or a reduction in financing source).

2.2.12. **Disclosure.** Disclosure is made in notes to financial statements to explain the nature of the modification of direct loans or loan guarantees, the discount rate used in calculating the modification expense, and the basis for recognizing a gain or loss related to the modification. For further information on financial statement disclosures regarding direct or guaranteed loans, go to “Notes to the Financial Statements,” Volume 6B, Chapter 10.
2.2.13. Foreclosure of Post-1991 Direct Loans and Guaranteed Loans. When property is transferred from borrowers to a Federal credit program, through foreclosure or other means, in partial or full settlement of post-1991 direct loans, or as compensation for losses that the government sustained under post-1991 loan guarantees, the foreclosed property is recognized as an asset. The asset is recorded at the present value of its estimated future net cash inflows discounted at the original discount rate, adjusted for the interest rate reestimate.

2.2.13.1. If a legitimate claim exists by a third party or by the borrower to a part of the recognized value of the foreclosed assets, the present value of the estimated claim is recognized as a special contra valuation allowance.

2.2.13.2. Upon the foreclosure of a guaranteed loan, a Federal guarantor may acquire the loan involved. The acquired loan is recognized at the present value of its estimated net cash inflows from selling the loan or from collecting payments from the borrower, discounted at the original discount rate, adjusted for the interest rate reestimate.

2.2.13.3. When assets are acquired in full or partial settlement of post-1991 direct loans or guaranteed loans, the present value of the government's claim against the borrowers is reduced by the amount settled as a result of the foreclosure.

2.2.14. Write-off of Direct Loans. When post-1991 direct loans are written off, the unpaid principal of each such loan is removed from the gross amount of loans receivable. Concurrently, the same amount is charged to the allowance for subsidy costs. Prior to the write-off, the uncollectible amounts should have been reflected in the subsidy cost allowance through the subsidy cost estimate or reestimates. Therefore, the write-off would have no effect on expenses. See OMB Circular A-129 for additional details.

2.2.15. Additional Disclosures Required for Periods Beginning After September 30, 2000. The SFFAS No. 18 requires additional disclosures. Beginning in FY 2001, Federal agencies are required to:

2.2.15.1. Report subsidy reestimates in two distinct components: the interest rate reestimate and the technical/default reestimate.

2.2.15.2. Display reconciliation between the beginning and the ending balances of the subsidy cost allowance for direct loans and the liability for loan guarantees, reported in an entity's balance sheet.

2.2.15.3. Provide a description of program characteristics and disclose:

2.2.15.3.1. the amounts of direct or guaranteed loans disbursed in each program during the reporting year, and the preceding reporting year;

2.2.15.3.2. the estimated subsidy rates for the total subsidy and the subsidy components at the program level in the current year's budget for the current year's cohorts;
2.2.15.3.3. events and changes in economic conditions, other risk factors, legislation, credit policies and subsidy estimation methodologies and assumptions, that have had a significant and measurable effect on subsidy rates, subsidy expense, and subsidy reestimates; and

2.2.15.3.4. events and changes in conditions that have occurred and are more likely than not to have a significant impact, but the effects of which are not measurable at the reporting date.

3.0 CREDIT REFORM FUND CONTROLS

3.1 Fund Control

DoD agency heads must prescribe, by regulation, a system of administrative control of funds. For credit programs and resources, systems for administrative control of funds must ensure that internal controls include objectives specific to compliance with the Antideficiency Act. Additional detailed guidance can be found in OMB Circular A-11, Part 4, Section 150.

3.2 Antideficiency Act Violations

Antideficiency Act violations for direct loans, guaranteed loans, and financing accounts are reportable to the President, through the Director of the OMB, to the Comptroller General, and to the Congress. For additional information, go to “Antideficiency Act Violations,” Volume 14, Chapter 2. Violations include:

3.2.1. Overobligation or Overexpenditure of the Subsidy. This is any case where an officer or employee of the U.S. Government makes or authorizes an expenditure or creates or authorizes an obligation, including a commitment, that is in excess of amounts appropriated and apportioned for (1) the direct loan subsidy or (2) the guaranteed loan subsidy. Examples of violations include modifications of direct loans or loan guarantees, such as forgiveness, forbearance, reductions in interest rate, prepayments without penalty, and extensions of maturity, that result in obligations in excess of apportioned unobligated balances or subsidy amounts.

3.2.2. Overobligation or Overexpenditure of the Credit Level Supportable by the Enacted Subsidy. This is any case where an officer or employee of the U.S. Government makes or authorizes an expenditure or creates or authorizes an obligation, including a commitment, that is in excess of the credit program level supportable by the enacted subsidy, regardless of whether the subsidy is positive or negative. This includes obligations or expenditures that are in excess of: (1) the direct loan level, (2) the guaranteed loan level, or (3) any limitations on the loan level or the Federal share of guaranteed loan levels.

3.2.3. Overobligation or Overexpenditure of the Amount Appropriated for Administrative Expenses. This is any case where an officer or employee of the U.S. Government makes or authorizes an expenditure or creates or authorizes an obligation, including a commitment, which is in excess of the amount appropriated for administrative expenses.
3.2.4. **Obligation or Expenditure of the Expired Unobligated Balance of the Subsidy Except to Correct Mathematical or Data Input Errors in Calculating Subsidy Amounts.** This is any case where an officer or employee of the U.S. Government makes or authorizes expenditure or creates or authorizes an obligation, including a commitment, against unobligated subsidy balances after the period of obligation authority has expired. Correction of mathematical or data input errors up to the amount of the lapsed unobligated balance of the subsidy are specifically exempted. Corrections of these errors in excess of the amount of the expired unobligated balance of the subsidy are violations.

### 4.0 CREDIT APPORTIONMENT AND REAPPORTIONMENT

All Treasury appropriation fund symbols (TAFS) and all program, financing, and liquidating accounts are required to be apportioned, except in the case of a TAFS that is in its entirety exempt from apportionment by OMB. See *OMB Circular A-11*, part 4, section 120.6 for TAFS that are partially exempt from apportionment. This subject is discussed in full detail in Volume 3, Chapter 2, "Apportionment and Reapportionment."

### 5.0 REPORT ON BUDGET EXECUTION AND BUDGETARY RESOURCES (SF 133)

#### 5.1 Coverage

Unless otherwise specified by the OMB, the Report on Budget Execution and Budgetary Resources must be prepared to provide current data on each credit account, whether apportioned or not. Current reporting requirements are published in OMB Circular A-11, Part 4, "Instructions on Budget Execution."

#### 5.2 Timing of Reports

The SF 133 must be submitted electronically through the Treasury's Governmentwide Treasury Account Symbol Adjusted Trial Balance System (GTAS), at the end of November, July, August, and each quarter or such other time period specified by the OMB for each open TAFS. This facilitates analysis and ensures consistent presentation of budget execution information so that Governmentwide totals are meaningful. A copy of the SF 133 for each calendar quarter must be submitted to the Committee on Appropriations, House of Representatives.

### 6.0 DIRECT LOANS

Obligation of subsidy must be recorded in the program account when a binding contract has been signed, in accordance with the provisions of OMB Circular A-11, Part 5, Federal Credit. Subsidy funds must be paid from the program account to the financing account when the direct loan is to be disbursed to the borrower. Note that the subsidy is not recalculated at the time of loan disbursement. Rather, any change in estimated subsidy caused by an interest rate change or change in estimates for other components of subsidy cost is made at the beginning of the fiscal year after the fiscal year in which the loan is disbursed. If, at that time, the subsidy amount increases, permanent indefinite budget authority is available to fund the increase, pursuant to section 504(f) of the FCRA of 1990. If the subsidy amount decreases, a payment must be made to a receipt account.
7.0 GUARANTEED LOANS

Obligation of subsidy must be recorded in the program account when a binding contract has been signed, in accordance with the provisions of OMB Circular A-11, Part 5, Federal Credit. Subsidy funds must be paid from the program account to the financing account when the guaranteed loan is disbursed to the borrower by the third-party lender. Note that the subsidy is not recalculated at the time of loan disbursement. Rather, any change in estimated subsidy caused by an interest rate change or change in estimates for other components of subsidy cost is made at the beginning of the fiscal year after the fiscal year in which the loan is disbursed. If, at that time, the subsidy amount increases, permanent indefinite budget authority is available to fund the increase, pursuant to section 504(f) of the FCRA of 1990. If the subsidy amount decreases, a payment must be made to a receipt account.

8.0 COMPUTATION OF INTEREST EXPENSE AND INTEREST INCOME

8.1 Instructions for Computations of Interest Expense and Interest Income for Direct and Guaranteed Loan Programs

8.1.1. Interest expense in a direct loan program results from borrowing from the U.S. Treasury. As each loan is disbursed by the financing account to the individual borrower, subsidy funds are transferred from the program account to the financing account. Consequently, each loan disbursement is financed by two sources: subsidy transfer, and borrowing from the U.S. Treasury.

8.1.2. A single borrowing from the U.S. Treasury is made at the beginning of each fiscal year, separately for each cohort, based on the estimated net loan disbursements for the cohort. Interest expense accrues on the borrowing, and interest income accrues on the undisbursed balance of the borrowing from the U.S. Treasury. (The undisbursed balance of U.S. Treasury borrowing is held as uninvested funds and earns interest.) The interest rate earned on the uninvested funds equals the interest rate paid on borrowing from the U.S. Treasury.

8.2 Frequency of Interest Computations

OMB has determined that most credit programs do not have a seasonal bias in their loan disbursement patterns. Consequently, interest expense and income calculations for cohorts that currently are disbursing must be based on an assumption that the actual loan amounts disbursed during the year were disbursed equally throughout the four quarters. The assumption allows agencies annually to compute interest expenses and interest income, at the end of each fiscal year, using the average annual interest rate provided by OMB and the U.S. Treasury. In those few programs that have a strong seasonal pattern, OMB will calculate special weighted average interest rates appropriate to these patterns and will provide them to the agencies.
8.3 Weighted Average Interest Rate

The Federal Credit Reform Act provides that the interest rate for borrowing must be assigned based on the U.S. Treasury rate in effect during the period of loan disbursement. Many individual loans are disbursed in segments over several quarters or even years. Consequently, several interest rates can be applicable to an individual loan. To simplify the recordkeeping, a single weighted average interest rate is maintained for each cohort and is adjusted each year, until 90 percent of the disbursements from the cohort have been made. Each year the current year average interest rate is weighted by current year disbursements, and merged with the prior year's weighted average, to calculate a new weighted average. Additional information regarding subsidy calculation is contained in OMB Circular A-11, Part 5, Federal Credit.

8.4 Procedure and Due Dates for Computing Interest Expenses and Income Related to Borrowing for Direct Loan and Guaranteed Loan Financing Accounts

Detailed instructions for calculating interest due to and due from the U.S. Treasury are provided in Volume 1, Part 2, Treasury Financial Manual, Chapter 4600. OMB distributes the actual annual interest rates approximately 10 business days before fiscal year-end, September 30. Each cohort has its own specific interest rate used to earn or pay interest, referred to as a cohort interest rate. The OMB Credit Subsidy Calculator (CSC) calculates the cohort interest rate. Agencies must use the most current version of the CSC, available through the OMB contact with primary responsibility for the account, to calculate interest paid to Treasury. On or before the day the interest payment is made via the Intra-governmental Payments and Collections (IPAC) system, but in any case no later than September 30 of the current fiscal year. Agencies must email the supporting interest payment calculation to Federal Investments and Borrowings Branch.

9.0 Credit Reform USSGL Accounts and Definitions

Credit reform accounts and definitions were established in the USSGL to implement requirements of the FCRA of 1990 (as amended), and are intended to account for direct loans and loan guarantees. DoD entities must follow the Standard Financial Information Structure (SFIS), which is based on the Treasury USSGL. For more complete information, visit the SFIS website.
APPENDIX A

CREDIT REFORM: CASH FLOWS FOR DIRECT LOANS AND FOR LOAN GUARANTEES

In order to more clearly understand the cash flow process as required by credit reform for a direct loan or a guaranteed loan, two examples are provided.

EXAMPLE: Cash Flow for a $100 Direct Loan, 20 percent subsidy, disbursed in one year

1. Congress appropriates $20 in subsidy budget authority (BA) to the program account.

2. The $20 subsidy is obligated when the $100 loan is obligated.

3. The $20 subsidy is outlayed to the financing account at the time the $100 loan is disbursed to the borrower. Simultaneously, the financial account borrows the additional $80 needed to make the $100 loan from the U.S. Treasury (Treasury).

4. The borrower pays fees, interest, and principal to the financing account under the terms of the loan.

5. The financing account makes payments to the Treasury over time on the $80 portion of the loan. If the subsidy rate is accurate, the loan repayments (and other payments) to the financing account will be exactly the amount necessary to repay the original amount of $80 borrowed from the Treasury plus interest.

6. If the subsidy is not accurate, a reestimate must be calculated, and as necessary, either:
   a. an additional subsidy will be disbursed from the program account to the financial account, to cover the amount of the reestimate, or
   b. excess funds must be moved from the financial account to a negative receipt account, where these funds are unavailable until appropriated.

EXAMPLE: Cash flow for a $100 Loan Guarantee with a 20 percent subsidy rate disbursed in one year

1. Congress appropriates $20 in subsidy BA to the program account.

2. The $20 subsidy is obligated when the $100 loan is obligated.

3. The lending institution lends a 75 percent government-guaranteed $100 loan to the borrower. When the loan is disbursed, $20 in subsidy BA is outlayed to the financing account. The borrower pays a 2 percent upfront fee to the agency, which is deposited into the financing account.
4. Reserves (uninvested funds) are held in the financing account and earn interest.

5. The borrower pays principal and interest to the lending institution.

6. If the borrower defaults, the reserves held in the financial account are used to make claim payments to the lending institution. If the subsidy rate is accurate, the financial account will have exactly the reserves required to cover all defaults and other subsidies for that set or cohort of loans.

7. If the subsidy is not accurate, a reestimate must be made and, as necessary either:
   a. additional subsidy must be disbursed from the program account to the financing account to cover the amount of the reestimate, or
   b. excess funds must be moved from the financing account to a negative receipt account, where these funds are unavailable until appropriated.
CHAPTER 4 APPENDIX A: "ARCHIVED"

UNDER SECRETARY OF DEFENSE
(COMPTROLLER)
VOLUME 12, CHAPTER 5: “GRANTS AND COOPERATIVE AGREEMENTS”

SUMMARY OF MAJOR CHANGES

Changes are identified in this table and also denoted by blue font.

Substantive revisions are denoted by an asterisk (*) symbol preceding the section, paragraph, table, or figure that includes the revision.

Unless otherwise noted, chapters referenced are contained in this volume.

Hyperlinks are denoted by bold, italic, blue, and underlined font.

The previous version dated May 2015 is archived.

CHAPTER 5

GRANTS AND COOPERATIVE AGREEMENTS

*1.0 GENERAL (0501)

1.1 Overview (050101)

1.1.1. Grants and cooperative agreements are legal instruments used to enter into a relationship, the principal purpose of which is to transfer a thing of value to the recipient to carry out a public purpose and stimulate the economy as authorized by law. In contrast, contracts are used to acquire property or services for a DoD Component’s direct benefit or use. Grants and cooperative agreements are two types of assistance awards.

1.1.2. A DoD Component’s expected level of involvement in the performance of the assistance award determines whether the legal instrument is a grant or cooperative agreement. Grants are used when a DoD Component expects no substantial involvement in carrying out the activity contemplated in the agreement, whereas cooperative agreements are used when the Component anticipates substantial involvement in carrying out the activity contemplated in the agreement.

1.1.3. A technology investment agreement, as defined in 32 Code of Federal Regulations (CFR) 37 is a cooperative agreement while a cooperative research and development agreement, as defined in Title 15 United States Code (U.S.C.), section 3710a, is neither a grant nor a contract.

1.1.4. The accounting treatment for grants and cooperative agreements is the same. In this Chapter, the term “grant” covers both grants and cooperative agreements. The accounting treatment for international agreements is discussed in Chapter 9.

1.1.5. DoD grant recipients (grantees) include institutions of higher education, hospitals, non-profit organizations, local and state governments, Indian tribal governments, and for-profit entities.

1.2 Purpose (050102)

This chapter prescribes the policy to be followed by DoD Components to account for and control funds obligated and assets acquired through grants. It also outlines additional reporting requirements for grants.

1.3 Authoritative Guidance (050103)

The financial management policy and related requirements set forth in this chapter are in accordance with the applicable provisions of:

1.3.1. 31 U.S.C. § 6101, note, “Program Information, Definitions, also included as part of the DoD Grant and Agreement Regulations (DoDGARS).”

1.3.3. **Public Law 116-103**, “Grant Reporting Efficiency and Agreements Transparency (GREAT) Act of 2019.”

1.3.4. **2 CFR 200**, “Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards.”

1.3.7. **32 CFR 21-37**, “DoDGARS.”

1.3.9. FASAB SFFAS 6, “Accounting for Property, Plant, and Equipment.”

1.3.10. FASAB SFFAS 7, “Accounting for Revenue and Other Financing Sources and Concepts for Reconciling Budgetary and Financial Accounting.”

1.3.11. FASAB SFFAS 49, “Public-Private Partnerships: Disclosure Requirements.”

*2.0 DoD STATUTORY AUTHORITIES FOR USE OF GRANTS (0502)

A DoD Component may use grants under statutory authorities granted to the Secretary of Defense that the Secretary properly delegates to Heads of DoD Components, or under statutory authorities granted directly to the Heads of DoD Components. The types of statutory authority DoD may utilize to award assistance instruments are provided in 32 CFR § 21.420.

3.0 GRANTS FINANCIAL MANAGEMENT (0503)

3.1 Financial Management Information System (050301)

3.1.1. The DoD Component must ensure the availability of a financial management information system capable of recording and monitoring grant transactions and providing, by transaction, a delineation of the federal and grantee breakout of program costs.

3.1.2. The system must enable the DoD Component to identify quickly the basic categories of funds involved, along with the related obligation and expenditure rates, and provide for ensuring fund availability prior to awarding financial assistance and obligating funds.

*3.2 Record Retention (050302)

The DoD Component must maintain grant supporting financial management documentation in accordance with the requirements in Volume 1, Chapter 9.

3.3 Recording and Reviewing Commitments and Obligations (050303)

Accounting for funds under a grant must start with the commitment of funds prior to their obligation by an awarding official. The awarding official must be a DoD grants or agreements officer with a statement of appointment that meets the requirement in 32 CFR §§ 21.435-21.465. After funds commitment, budgetary obligations must be recorded upon execution of the agreement or other obligating document approved by the awarding official that sets out the amount and purpose of the award, the performance period, the performance obligations of the parties to the award, and other terms. A legal obligation to disburse grant funds, in accordance with the terms of the agreement, occurs upon execution of an agreement or other obligating document. Refer to Volume 3, Chapter 8 for more information.

*3.4 Payments (050304)

Volume 10, Chapter 19 provides detailed payment provisions for grants and other instruments of assistance.

3.4.1. Timing and Frequency

3.4.1.1. 32 CFR §22.810 prescribes the timing and frequency of grant payments. In general, it is Governmentwide policy to minimize the time elapsing between any payment of funds to a grantee and the grantee’s disbursement of the funds for program purposes. For States,
payments are governed by Treasury-State Cash Management Improvement Act agreements and default procedures codified in 31 CFR 205 and ITFM 4A - 2000 Overall Disbursing Rules for All Federal Agencies.

3.4.1.2. Payments made to grantees to cover part or all of their anticipated expenses or advance payments must be accounted for as advances by the assisting DoD Component until the grantee has performed under the award, i.e., until the grantee meets the requirements which allow it to use the funds in accordance with the grant agreement. Refer to Volume 4, Chapter 5 for more information.

3.4.1.3. Requiring payments as reimbursements is the preferred method when the requirements in paragraph 3.4.1.1 and 3.4.1.2 cannot be met, the DoD Component sets a specific grant condition per 2 CFR § 200.207, or the grantee requests payment by reimbursement. Reimbursement may be used on any grant for construction, or if the major portion of the construction project is accomplished through private market financing or Federal loans, and the Federal award constitutes a minor portion of the project.

3.4.2. Method

It is a Governmentwide requirement to use electronic funds transfer (EFT) in the payment of any grant for which an application or proposal was submitted or renewed on or after July 26, 1996 unless the grantee has obtained a waiver under 32 CFR §22.810.

3.4.3. Process

Disbursing offices must follow the policies and procedures in Volume 10, Chapter 19 for payment provisions for grants.

3.4.4. Withholding Payments

The DoD Component may withhold payments for allowable costs when:

3.4.4.1. The grantee failed to comply with the project objectives, Federal statutes, regulations, or the terms and conditions of the Federal award. If the grant is not otherwise suspended, the DoD Component must release the payment to the grantee upon the grantee’s compliance. If the grant is suspended, the DoD Component will make payment adjustments according to 2 CFR § 200.342;

3.4.4.2. The grantee is delinquent in a debt to the United States as defined in OMB Circular A-129. In this situation, the DoD Component must provide reasonable notice to the grantee that payments will not be made for obligations incurred after a specified date until the indebtedness to the Federal Government is paid; or

3.4.4.3. The grantee has a sustained audit finding which resulted in amounts due to DoD. The DoD Component must promptly record the amount due from the grantee upon entitlement as an accounts receivable, even if the decision to collect is subject to administrative
appeal or litigation. Interest must begin to accrue no later than 30 days after the date the grantee was notified of the debt, and continues to accrue while an appeal is underway.

3.4.5. Interest from Advanced Payments

A DoD Component may allow grantees to retain interest earned up to $500 per year for the grantee’s administrative expenses. Any additional interest earned on DoD advance payments, required to be deposited in interest-bearing accounts, must be remitted annually to DoD using either an Automated Clearing House network or a Fedwire Funds Service payment.

3.5 Recording of Expense (050305)

3.5.1. When the grantee that received the advance has performed under the grant, the DoD Component must record an expense in an amount equal to the cost of the services performed or cost incurred, and reduce the advance account by that amount. The grantee must provide sufficient documentation to support the cost of the services performed or cost incurred, consistent with the grant.

3.5.2. Payments to grantees as reimbursement for work performed or costs incurred must be accounted for as expenditures and as expenses incurred, or as reductions of liabilities if the expenses were recorded previously.

*3.6 Accruals (050306)

The DoD Component must recognize and report balances due or advanced to grantees at the end of the reporting period and apply cost-benefit considerations to the process of estimating and validating accruals.

3.6.1. Accrual estimates must be treated as follows:

3.6.1.1. Amounts issued as advances must be adjusted, even if grantees have not yet reported expenses incurred; and

3.6.1.2. Where there is no advance or no remaining advance, the DoD Component must estimate amounts payable to grantees.

3.6.2. The DoD Component must document and maintain support for the data and assumptions used to develop grant accrual estimates and follow internal control guidance in FASAB Technical Release 12.

3.7 Accounts Receivable (050307)

3.7.1. At the termination or closeout of a grant, disallowed expenses, improperly applied funds, unused funds, and any amount due to the DoD according to the grant terms and conditions must be established as an accounts receivable by the DoD Component.
3.7.2. When a grantee has a sustained audit finding which resulted in amounts due to DoD, the DoD Component must promptly record the amount due from the grantee upon entitlement as an accounts receivable, even if the decision to collect is subject to administrative appeal or litigation. Interest must begin to accrue no later than 30 days after the date the grantee was notified of the debt, and continues to accrue while an appeal is underway.

*3.8 Debt Collection (050308)

A debt is established when a DoD Component determines that a grantee was paid an amount in excess of how much a grantee is entitled under the terms and conditions of the grant. The treatment of debt collection is described in Volume 10, Chapter 19, and Volume 16, Chapters 2 and 6.

*4.0 REAL PROPERTY AND EQUIPMENT (0504)

4.1 Grantee Purchased Real Property or Equipment (050401)

A DoD Component must provide prior approval to grantees to purchase real property or equipment with federal funds. Generally, title to real property or equipment vests with the grantee upon the grantee’s acquisition and DoD does not account for its reversionary interest in real property and equipment. The title must be conditional, subject to the following:

4.1.1. The grantee must use the real property or equipment for the authorized purposes of the grant until funding ceases, or until the property or equipment is no longer needed for the purpose of the grant. Use in other projects must be limited to those under federally sponsored projects (i.e., awards) or programs that have purposes consistent with those authorized for support by the DoD Component;

4.1.2. The grantee cannot encumber the property without approval of the DoD Component; and

4.1.3. The grantee must use the real property or equipment following the terms of the grant and dispose of the property or equipment following disposition instructions from the DoD Component, consistent with 32 CFR §§ 32.32-32.34.

4.1.4. At grant close-out, the DoD Component must follow paragraph 3.7 to account for any outstanding proceeds from the disposition of real property or equipment.

4.2 Federally-owned Property (050402)

Title to Federally-owned property remains vested in the DoD and:

4.2.1. The DoD Component must establish appropriate general ledger accounting control and property records, and include the assets in its financial statements. The asset must be recorded at acquisition cost to the grantee, and depreciated in accordance with guidance in Volume 4, Chapters 24 and 25.
4.2.2. If DoD has no further need for the property, it must declare the property excess and report it for disposal following the instructions in Volume 4, Chapter 24 for Excess Items Disposition, unless the DoD Component has statutory authority to dispose of the property by alternative methods.

4.3 Exempt Federally-owned Property (050403)

Exempt Federally-owned property means property acquired under a grant when the DoD has chosen to vest title to the property to the grantee without further obligation to the Federal government, based on explicit terms and conditions of the grant. A DoD Component may exercise this option only when statutory authority exists.

*5.0 SUPPLIES (0505)

Title to supplies will vest in the grantee upon acquisition. If there is a residual inventory of unused supplies exceeding $5,000 in total aggregate value upon termination or completion of the project or program and the supplies are not needed for any other Federal award, the grantee must retain the supplies for use on other activities or sell them. In either case, the grantee must compensate DoD, following the requirements in 32 CFR § 32.35. The grantee may deduct and retain $500 or ten percent of the proceeds, whichever is less, for selling and handling expenses. At grant close-out, the DoD Component must follow paragraph 3.7 to account for compensation received from grantee residual inventory.

*6.0 INTANGIBLE PROPERTY (0506)

Intangible property applies to a patent, patent application, copyright, or other intangible property acquired, but not developed or produced, under the grant. When the grantee no longer needs the intangible property for the originally authorized grant purpose, the DoD Component must arrange for the disposition of the intangible property, following the requirements in 32 CFR §32.36. At grant close-out, the DoD Component must follow paragraph 3.7 to account for the remaining proceeds from disposition of intangible property.

*7.0 OTHER REQUIRED REPORTING (0507)

7.1 Improper Payment (050701)

7.1.1. An improper payment is any payment that should not have been made or that was made in an incorrect amount under statutory, contractual, administrative, or other legally applicable requirements. An improper payment also includes any payment that was made to an ineligible recipient or for an ineligible good or service, or payments for goods or services not received (except for such payments authorized by law).

7.1.2. Questioned costs, including those identified in audits, are not an improper payment until reviewed and confirmed to be improper as defined in OMB Circular A-123 Appendix C.
7.1.3. Grant programs are subject to the payment integrity requirements in Volume 4, Chapter 14.

7.2 Public-Private Partnership Reporting (050702)

Grants which meet the definition of public-private partnerships (P3), risk-sharing arrangements or transactions with expected lives greater than 5 years between public and private sector entities, may be subject to disclosure under SFFAS 49. Volume 6B, Chapter 10 and SFFAS 49 provide detailed information about P3 reporting.

7.3 Grants, Loans, Credits, and Contingent Liabilities Involving Foreigners (050703)

I TFM 2 - 4500 requires electronic submission of several reports pertaining to foreign obligors to Treasury. Volume 6A, Chapter 13 and Volume 16, Chapter 6 provide more details.

CHAPTER 7

FINANCIAL LIABILITY FOR GOVERNMENT PROPERTY
LOST, DAMAGED, DESTROYED, OR STOLEN

1.0 GENERAL (0701)

1.1 Purpose (070101)

This chapter prescribes Department of Defense (DoD) general requirements and responsibilities for determining accountability for financial liability for lost, damaged, destroyed or stolen government-owned property, including supply system materiel, equipment, and real property:

1.1.1. Inquire, research, and investigate the causes of the loss, damage, destruction, or theft of government property.

1.1.2. Assess financial liability with respect to lost, damaged, destroyed, or stolen government property.

1.1.3. Account for loss, damage, destruction, or theft of government property; determine the responsibility and amount of financial liability of those found to be culpable for such financial losses; provide relief from accountability; and establish debts resulting from the assessment of financial liability.

1.1.5. The requirements within this chapter apply to all government property regardless of whether the government property is recorded in an Accountable Property System of Record (APSR).

1.1.6. This chapter does not apply to loss, damage, destruction, or theft of Government Furnished Property, Contractor Acquired Property, and property acquired by a contractor as a result of partial, advance, progress or performance based payments in the possession of a third party, to include contractors. Loss, damage, destruction, or theft of such property must be processed in accordance with the terms and conditions of the accountable contract or third party agreement to which the lost, damaged, destroyed, or stolen property was accountable.

*1.2 Authoritative Guidance (070102)

The financial management policy and related requirements prescribed by this chapter are in accordance with the applicable provisions of:

1.2.2. 10 U.S.C. §§ 801 - 806, “General Provisions;”

1.2.3. 18 U.S.C. § 641, “Public money, property or records;”

1.2.4. 18 U.S.C. §1361, “Government property or contracts;”

1.2.5. Federal Acquisition Regulation (FAR) Subpart 45.101, “Definitions;”

1.2.6. FAR Subpart 52.245-1, “Government Property;”

1.2.7. DoD Instruction 1000.30 (DoDI 1000.30), “Reduction of Social Security Number (SSN) Use Within DoD;”

1.2.8. DoDI 4161.02, “Accountability and Management of Government Contract Property;”

1.2.9. DoDI 4140.01, “DoD Supply Chain Materiel Management Policy;”

1.2.10. DoDI 5000.64, “Accountability and Management of DoD Equipment and Other Accountable Property;”

1.2.11. DoD Manual (DoDM) 4140.01, Volume 5 (DoDM 4140.01-V5), “DoD Supply Chain Materiel Management Procedures: Delivery of Materiel;”

1.2.15. DoDM 4160.21-V1, “Defense Materiel Disposition Disposal Guidance and Procedures;”

2.0 GENERAL REQUIREMENTS (0702)

2.1 General Responsibilities (070101)

2.1.1. Under Secretary of Defense (Comptroller). The Under Secretary of Defense (Comptroller) is responsible for financial policies regarding financial liability for government property lost, damaged, destroyed, or stolen.

2.1.2. DoD Components. The DoD Components are responsible for ensuring that the following policies and procedures are implemented:

2.1.2.1. Determining and assessing the amount of financial liability of those responsible for such losses;

2.1.2.2. Mitigating, reducing, and/or relieving financial liability in appropriate cases;

2.1.2.3. Establishing debts resulting from the assessment of financial liability and referring them for appropriate collection action.

2.2 Initiation of General Inquiries and Investigations (070202)

2.2.1. Upon discovery of loss, damage, destruction, or theft of government-owned property (real or personal) of any value, the first line supervisor or, in the case of military, immediate superior within the chain of command, must conduct a general inquiry to determine if the situation warrants a more formal inquiry, i.e., an investigation. A DD Form 200 is not required for general inquiries. Loss, damage, destruction, or theft of supply system materiel must be processed in accordance with section 8.0.

2.2.2. An investigation must be conducted for all loss, damage, destruction, or theft of government-owned equipment with initial unit acquisition cost (value) of $5000 or greater; all sensitive, classified, or leased (capital lease) property regardless of initial acquisition cost; and any real property (see DoDI 5000.64 for more information). Investigations may also be conducted when circumstances warrant. For example, when the loss, damage, destruction or thefts of small amounts of property occur frequently enough to suggest a pattern of wrongdoing, then an investigation may be warranted.

2.2.3. The approving authority is responsible for establishing procedures and designating a person, typically the accountable property officer, real property accountable officer, or reviewing authority (for supply system stocks or “materiel”), to initiate and conduct the investigation, in accordance with agency procedures. Investigations are not limited to the thresholds, but may be conducted if the approving authority deems a formal investigation necessary.
2.2.4. At a minimum, investigations must address the following information:

2.2.4.1. What happened?
2.2.4.2. How it happened?
2.2.4.3. Where it happened?
2.2.4.4. Who was involved?
2.2.4.5. When it happened?
2.2.4.6. Any evidence of negligence, willful misconduct, or deliberate unauthorized use or disposition of the property.

2.2.5. Evidence of Negligence.

2.2.5.1. When inquiring into the loss, damage, destruction, or theft of government property, the first consideration is whether there is evidence of negligence. Examples of questions that can be asked in order to determine whether evidence of negligence exists are: “Would a reasonably prudent individual have acted in this manner?” “Were there procedures governing the use of the property, and were they followed?” “What were the circumstances that existed when the loss actually occurred?” “Was the individual on the job?” Furthermore, an example of a given scenario could be, if a dump truck is parked on an incline, a reasonable person would be expected to set the hand brake and leave the vehicle in park. Using blocks under the wheels might or might not be required. If the individual failed to set the brake and/or use blocks under the wheels and the truck rolled down the incline and was damaged, this could be considered evidence of negligence. A reasonably prudent person would be expected to take precautions.

2.2.5.2. When loss, damage, destruction of government quarters is involved, a distinction must be made between simple and gross negligence. Evidence of simple or gross negligence depends on the conduct of the individual. If the individual failed to exercise precautions or good judgment, then simple negligence applies. If the individual’s conduct was characterized by a reckless, deliberate, or wanton disregard of foreseeable consequences, then gross negligence applies.

2.2.5.3. Evidence of whether simple or gross negligence was the proximate cause of the loss, damage, or destruction is based on the facts and circumstances and must be determined during the general inquiry and documented during the investigation process.

2.2.6. The DD Form 200 is required documentation for investigations and must be used to document the facts and circumstances of the loss, damage, destruction, or theft. The person conducting the investigation must complete blocks 1 through 11 of the DD Form 200, as described in section 6.0.
2.2.7. The DD Form 200 is not required when:

2.2.7.1. An individual voluntarily makes restitution to the government for the full amount and classified or sensitive property is not involved.

2.2.7.2. The damage involves a government-owned vehicle. In such cases, an accident investigation report may be used to document an inquiry in lieu of a DD Form 200. However, when the documentation clearly indicates that negligence or abuse was involved, or if a claim against the government is possible, a DD Form 200 must be prepared.

2.2.7.3. The loss involves shipping and transportation discrepancies attributed to carriers, which are processed and reported according to DLM 4000.25 V-2, Chapter 17. However, item discrepancy reports should be reviewed and evaluated to determine if the circumstances of the loss or damage appear to have been caused by negligence or abuse by DoD personnel. If so, a DD Form 200, **Standard Form 364**, “Report of Discrepancy (ROD),” and **DD Form 361**, “Transportation Discrepancy Report” must be prepared.

2.3 Voluntary Payments (070203)

Individuals may voluntarily choose to pay the government for lost, damaged, or destroyed government property any time prior to involuntary collection from their pay. Individuals offering the payment do so of their own volition. The government does not seek any advantage nor forego any right by accepting a voluntary payment. An individual cannot be coerced or threatened with adverse action if payment is not voluntarily made. Individuals must be made aware of the effect of making a voluntary payment. That is, it may not be later withdrawn, avenues for relief will no longer be available, and voluntary payment does not preclude other administrative or disciplinary action. Individuals offering to pay in excess of basic pay for one month by military members or one-twelfth of annual pay by civilian employees must be made aware that their liability may be a lesser assessment as a result of an investigation. Voluntary payments may be made in cash, by check, or through payroll deduction.

2.4 Review (070204)

Upon completion of the investigation, the DD Form 200 must be forwarded to the appointing authority for review. The appointing authority must determine if a financial liability officer or financial liability board is needed to conduct an investigation. The general criteria for appointing a financial liability officer are in subparagraph 4.2.1. The criteria for appointing a financial liability officer for inventory losses are in paragraph 8.8. General Counsel and/or the member’s commander must be consulted before statements are taken from anyone if there is a suspected violation of the Uniform Code of Military Justice (10 U.S.C. §§ 801 – 806).

2.5 Evidence of Theft (070205)

Cases involving stolen government-owned property must be referred to local security and/or law enforcement officials, in accordance with agency procedures.
2.6 Financial Liability Officer Investigations (070206)

The appointing authority may appoint a financial liability officer to determine whether the facts and circumstances support the findings and recommendations of the individual completing blocks 9 and 10 on the DD Form 200. Qualifications, duties, and responsibilities of financial liability officers are discussed in section 4.0.

2.7 Financial Liability Board (070207)

The appointing authority may appoint a financial liability board in lieu of an officer. The reasons for appointment of a board include the complexity, size, or unique type of loss due to negligence or abuse. The composition, objectives, and functions of the board are discussed in section 5.0.

2.8 Determination of Financial Loss (070208)

2.8.1. Computation of Financial Loss. A computation of the financial loss to the government must be made when there is evidence to indicate that the loss was proximately caused by negligence or abuse.

2.8.1.1. When damaged property or items can be repaired economically or restored in condition to that immediately prior to the loss, the loss to the government must be based on the cost of repair or restoration. If the cost to repair or restore the property exceeds the cost to replace the property, the loss to the government must be as determined in subparagraph 2.8.1.2. For real property, the plant replacement value will be used to value the asset. If the cost to repair or restore the real property exceeds the plant replacement value, then the cost to acquire and install a new asset will be the amount of loss.

2.8.1.2. When property is lost, damaged, destroyed, or stolen, and the property cannot be replaced, the amount of the loss must be the fair market value of the property immediately before the loss. When a fair market value cannot readily be determined, the cost of repairs or an estimate of the repairs may be used (can be obtained from technical manuals or other reliable sources); or the acquisition cost or standard price, adjusted for depreciation may be used (based on the specified depreciation period for such item or if such a period has not been specified, based on its estimated useful life). Depreciation must be computed using the straight-line method of depreciation. In no case should property be depreciated below its scrap value. For property that is damaged beyond economical repair, the scrap or salvage value of the property must be used to reduce the loss to the government.

2.8.2. Liability. Financial liability of individuals is based on the actual loss to the government, as computed in subparagraph 2.8.1. When liability is limited by the individual’s rate of pay, the amount of the actual loss to the government still is computed. However, in such cases, the financial liability of the individual either is the actual amount of the loss or the limitation based upon the rate of pay, whichever is less.
2.8.3. Collective Liability. If more than one individual is found financially liable for the loss, damage, destruction, or theft of government property, the individuals must be collectively held liable for the loss to the government. The government cannot collect more than the total amount of assessed liability. Therefore, the approving authority who assessed financial liability will decide how much to collect from each individual. Among the factors to be considered in taking collection action from each liable individual are the degree of each individual’s responsibility for the loss, damage, destruction, or theft and the ability to collect from the responsible individual.

2.9 Notification and Examination (070209)

When financial liability is recommended, the individual must be notified and given the opportunity to examine the findings and recommendations, obtain representation, make a rebuttal statement, and present any mitigating factors that may have contributed to the negligence or abuse. If damage to government housing is involved, an individual also must be given the opportunity to request a waiver of the financial liability in accordance with 10 U.S.C. § 2775.

3.0 APPROVING AND APPOINTING AUTHORITY (0703)

3.1 Duties and Responsibilities (070301)

3.1.1. Approving Authority. DoD Component regulations must designate those individuals who may be an approving authority. The approving authority’s responsibilities may be delegated; however, the delegations must be in writing. The approving authority may also act as the appointing authority or designate an appointing authority in writing. The approving authority must:

3.1.1.1. Designate an appointing authority, when needed.

3.1.1.2. Disqualify oneself when a conflict of interest is possible, e.g., because the loss relates to property for which he or she is responsible and/or accountable.

3.1.1.3. Establish procedures and designate a person to initiate and conduct an inquiry immediately after the loss, damage, destruction, or theft is discovered (see subparagraph 2.2.1).

3.1.1.4. Ensure that all DD Forms 200 received are accurate, complete and signed by the appropriate individuals. Evaluate each DD Form 200 and either approve recommendations to assess financial liability or relieve those involved from liability, responsibility or accountability. The approving authority approves or disapproves all DD Forms 200, regardless of dollar value, unless otherwise delegated in writing.

3.1.1.5. Ensure that all gains and losses that require a formal investigation are promptly and thoroughly investigated. The system used to process DD Forms 200 must be frequently reviewed to evaluate the accuracy and timeliness of the investigations.
3.1.1.6. Ensure that DD Forms 200 are initiated, processed and adjudicated within the time limits that may be established by the DoD Components.

3.1.1.7. Require, if delays occur in the initiating or processing of a DD Form 200, a written explanation of the reason for the delay and take appropriate corrective actions.

3.1.1.8. Ensure that persons held financially liable are so notified, informed of their rights (including waiver rights if government housing is involved), and given the opportunity to inspect a copy of the DD Form 200.

3.1.1.9. Personally evaluate each DD Form 200 when there is evidence of negligence, abuse, or theft.

3.1.1.10. Determine whether to delegate to the appointing authority the authority to approve or disapprove a DD Form 200 when there is no evidence of negligence or abuse or theft.

3.1.1.11. Ensure, when financial liability is recommended, or when recommendations appear to be inconsistent with findings, that a judge advocate or civilian attorney has reviewed the findings and provided an opinion on the adequacy of evidence and its relationship to the findings and recommendations. This legal review must be included as part of the record with the DD Form 200 and completed before final action is taken by the approving authority.

3.1.1.12. Ensure that corrections of any attested entries are properly initialed and documented.

3.1.1.13. Overrule, when appropriate, the recommendations of the appointing authority and the financial liability officer. When this action results in the assessment of financial liability, the individuals not previously recommended for liability must be advised of their rights and afforded an opportunity to exercise their rights.

3.1.1.14. Formally notify individuals against whom he or she has approved financial liability.

3.1.2. Appointing Authority. The appointing authority is designated in writing by the approving authority. The approving authority also may act as appointing authority. The appointing authority is responsible for the following tasks:

3.1.2.1. Appoint a financial liability officer, if needed.

3.1.2.2. Appoint a board in lieu of a financial liability officer to conduct the investigation, if warranted. Reasons for considering appointment of a board include complexity, size, or unique type of loss due to negligence or abuse (see section 5.0).

3.1.2.3. Provide administrative guidance to the financial liability officer or the board.
3.1.2.4. Review DD Forms 200 for accuracy and compliance with this Regulation.

3.1.2.5. Approve or disapprove the recommendations of the financial liability officer or the board, and forward personal recommendations to the approving authority.

3.1.2.6. Approve or disapprove DD Forms 200 when there is no evidence of negligence or abuse and authorization has been delegated in writing by the approving authority.

3.1.2.7. Approve or disapprove DD Forms 200 when the loss, damage, destruction or theft is less than $100,000 and authorization has been delegated in writing by the approving authority.

3.2 Due Process (070302)

The appointing and approving authorities must act on the DD Form 200 once an individual has been properly notified and given the opportunity to respond to the findings. Failure of involved individuals to respond to recommendations of financial liability is not a sufficient reason to delay the approval process if the individuals were given a reasonable opportunity to reply, as discussed in subparagraph 4.3.6.

4.0 FINANCIAL LIABILITY OFFICER (0704)

4.1 Criteria (070401)

4.1.1. Appointment of Financial Liability Officer. The approving or appointing authority should appoint a financial liability officer to conduct a formal investigation when:

4.1.1.1. Recommended by an accountable officer.

4.1.1.2. Directed by higher authority.

4.1.1.3. Deemed appropriate by the approving or appointing authority (e.g., repetitive losses, evidence of negligence or abuse or large dollar losses).

4.1.2. Financial Liability Officer Duty. Unless operational requirements clearly dictate otherwise, a financial liability officer must perform this function as a primary duty until the investigation has been completed.

4.2 Financial Liability Officer Qualifications (070402)

4.2.1. Selection Criteria. A financial liability officer is selected based on training, experience, competence, and ability to conduct independent and objective investigations.
4.2.2. Persons Eligible. The financial liability officer must be a commissioned officer; warrant officer; enlisted member in the grade of Enlisted Rank (E)-7, E-8, or E-9; or a civilian employee General Schedule (GS) -07, or above. The financial liability officer must be senior to the individuals directly involved in the discrepancy.

4.2.3. Use of Reserve Component Personnel. Reserve Component commissioned officers, warrant officers, and noncommissioned officers in grades E-7, E-8, or E-9 not on active duty may serve as financial liability officers during Reserve training sessions.

4.2.4. Relationship to Property. A person who is accountable or responsible for, or in any way directly interested in, the property being investigated, must not be appointed as a financial liability officer.

4.3 Financial Liability Officer Responsibilities and Duties (070403)

4.3.1. The primary purpose of the DD Form 200 is to determine responsibility for lost, damaged, destroyed, or stolen property. To determine such responsibility, the facts contributing to the loss, damage destruction, or theft must be developed by investigation.

4.3.1.1. The investigation may establish the fact that some other individual is at fault. The financial liability officer must not limit an investigation to verifying statements of interested parties. Rather, the financial liability officer must perform an investigation as thoroughly as needed, in his or her opinion, to ensure that all facts are fully developed, the interests of the government are fully served, and the rights of the involved individuals are fully protected.

4.3.1.2. An investigation is required to determine responsibility and/or liability without regard to the relationship of the responsible individual to the property. As an example, actions by the accountable property officer or property custodian should be investigated as well as the actions of the property users.

4.3.2. The investigation conducted by the financial liability officer is the critical phase of the process. The financial liability officer should determine the actual facts, not as alleged but as they actually occurred. The financial liability officer’s recommendations must be evaluated in succeeding reviews; therefore, the recommendations must be supported by the findings and conclusions. While conducting an investigation the financial liability officers must conduct investigations promptly. They must inform the approving or appointing authority immediately of all delays experienced. In conducting the investigation, the financial liability officer must personally:

4.3.2.1. Scrutinize all available evidence.
4.3.2.2. Interview witnesses and secure statements, ideally in writing, from individuals concerning:

4.3.2.2.1. The cause of the loss, damage, or theft.

4.3.2.2.2. The responsibility for the loss, damage, or theft.

4.3.2.3. Compile evidence substantiating or refuting any statement in block 9 of the DD Form 200.

4.3.2.4. Physically examine the damaged property, if possible, and then release it for repair or disposal. This should be done on the first day of his or her appointment.

4.3.2.5. Consult the approving or appointing authority for guidance, when needed.

4.3.2.6. Determine the amount of damage as described in subparagraph 2.8.1, if the property has been damaged. Determine the value of the property immediately before its damage if the property is not economically reparable. The accountable officer may be asked to assist if he or she has not been directly involved.

4.3.2.7. Ensure that action is taken to exercise control over the property if the property is recovered during the investigation.

4.3.2.8. Ensure that the total loss to the government is computed correctly.

4.3.2.9. Coordinate actions with the claims investigating officer when the investigation may cover loss, damage, destruction, or theft of government property that is being, has been, or will be investigated because of attendant events by a claims investigating officer. This includes cases where military personnel or civilian employees, while driving a private vehicle, damage government property and have insurance to pay for part of the loss.

4.3.3. The financial liability officer should make a determination from the findings and conclusions as to how the loss or damage occurred and whether negligence or abuse was involved.

4.3.4. After recording the findings and conclusions, the financial liability officer recommendations must be based on policies set forth in this Regulation. The financial liability officer must recommend whether to assess financial liability.

4.3.5. A financial liability officer’s findings and recommendations are administrative, not judicial; therefore, the reports are purely advisory; the opinions do not constitute final determinations or legal judgments; and the recommendations are not binding upon appointing and approving authorities.
4.3.6. The financial liability officer must allow any person whose conduct or performance of duty may be subject to inquiry or has a direct interest in the inquiry an opportunity to have their position considered, according to the following:

4.3.6.1. Give any individual against whom the financial liability officer makes a finding of financial liability a chance to examine the report of investigation after the findings and recommendations have been recorded.

4.3.6.2. Give the individual being recommended for financial liability the opportunity to make a statement.

4.3.6.3. Inform the individual that his or her statement may be used against him or her with regard to financial liability and other administrative and disciplinary actions.

4.3.6.4. Fully consider and attach as an exhibit to the DD Form 200 any statement made by the individual(s).

4.3.6.5. Ensure that the individual being recommended for possible financial liability is aware of his or her rights under Volume 5, Chapter 28, “Management and Collection of Individual Debt.”

4.3.6.6. Request the individual to acknowledge his or her understanding of these rights by completing block 16 of the DD Form 200.

4.3.6.7. If appropriate, prepare a statement that the individual recommended for liability refused to sign block 16 of the DD Form 200 after being given the opportunity.

4.3.6.8. Mail a copy of the findings, recommendations, and evidence to the person against whom financial liability is recommended by certified mail with a return receipt requested when the person is not readily available. For example, the person may have been transferred or separated from one of the Military Services.

4.3.6.8.1. A full explanation of the person’s rights must be included and a reply must be requested.

4.3.6.8.2. If the reply is not received within 30 days after the date of mailing, the financial liability officer must record this fact and take action to complete the DD Form 200. The record must be included in, or appended to, the DD Form 200.

4.3.6.8.3. Any reply received subsequent to the expiration of 30 days must be forwarded through the same channels as the DD Form 200 for attachment to the original DD Form 200.

4.3.6.9. Consider any new evidence received after a recommendation has been made. If the financial recommendations remain unchanged, the financial liability officer must note that the added evidence was considered and must provide a rationale for not changing the decision,
e.g., no new evidence or the matters do not overcome the evidence supporting the original recommendations. The notation must be on all copies of the report immediately following the original recommendation. If the financial liability officer makes a change in the original recommendations because of the new evidence, the officer must record such change as “Amended Recommendations.” These recommendations should be recorded immediately after the original recommendations.

5.0 FINANCIAL LIABILITY BOARD (0705)

5.1 Financial Liability Board Role (070501)

A financial liability board may be appointed by the appointing authority for the specific role of conducting the investigation. The primary purpose of a financial liability board is to provide the appointing and approving authorities with adequate information upon which to assess liability or relieve the involved individual from liability for the loss, damage destruction, or theft of government property. A board provides more resources than an officer to investigate losses that are large, complex, or unique. Financial liability boards are administrative, not judicial. Therefore, their reports are purely advisory, their opinions do not constitute final determinations or legal judgments, and their recommendations are not binding upon appointing and approving authorities. The board members will establish appropriate board procedures, such as voting and work priorities.

5.2 Appointment and Composition (070502)

5.2.1. Selection. The members of a financial liability board are selected based on training, experience, competence, and ability to conduct independent and objective investigations. The senior member normally must be designated as the Chair. The appointing authority must not appoint an individual who was or is accountable or responsible, or has direct interest in the property, including a financial liability officer who may have previously investigated the loss of the property.

5.2.2. Composition. The financial liability board members must be commissioned officers; warrant officers; enlisted members in grades E-7, E-8, or E-9; or civilian employees GS-07, or above. The board Chair and a majority of the board must normally be senior in rank to the persons directly involved.

5.2.3. Use of Reserve Component Personnel. A source of financial liability board members is Reserve Component commissioned officers; warrant officers; and enlisted members in grades E-7, E-8, or E-9 during their Reserve training sessions.
5.3 Functions (070503)

The following are specific functions of a financial liability board:

5.3.1. Primary Function. The primary function of a financial liability board is to research, develop, assemble, record and analyze all available information relative to the loss. The board is required to formulate and clearly express consistent findings of facts, conclusions, and recommendations.

5.3.2. Collateral Function. A collateral function of the financial liability board, especially when requested by the appointing authority, is to afford a hearing to any person whose conduct or performance of duty may be subject to inquiry or who has direct interest in the inquiry.

5.4 Final Action by the Financial Liability Board (070504)

The board Chair completes his or her action on the DD Form 200 as the financial liability officer and recommends relief from, responsibility, or assessment of financial liability.

6.0 PREPARATION OF DD FORM 200 (0706)

6.1 Purpose of the Form (070601)

The DD Form 200 is used to document the financial liability process for lost, damaged or destroyed government property. When completed, the DD Form 200 is the official document to support the establishment of debts, relief from accountability, and adjustment of accountable property records, supply system stock and financial records.

*6.2 Instructions for Preparation (070602)

6.2.2. Block 2. “Inquiry/Investigation Number:” Number assigned to the inquiry and/or investigation in accordance with DoD Component instructions.

6.2.4. Block 4. “National Stock No:” Enter the National Stock Numbers, manufacturer’s part number, or other identification number(s), in numerical sequence. If not applicable, enter the word “none.”

6.2.5. Block 5. “Item Description:” Enter the nomenclature of the item(s) including any serial number(s), model number(s), and controlled inventory item. If the item is nonstandard, give a brief description sufficient for identification. If only a portion of an end item is damaged, describe the end item, fully, and then describe the damaged parts. If additional space is needed, a continuation sheet may be used. For real property, provide the Real Property Unique Identifier, the facility number, address, location, room number, and a description of the damage.
6.2.6. **Block 6.** “Quantity:” Enter the number of units and unit of issue (e.g., 1 each, 2 dozen, 5 pair).

6.2.7. **Block 7.** “Unit Cost:” Enter the cost per unit shown in official catalogs, supply bulletins, or accountable property records. The specific reference should be indicated for audit trail purposes.

6.2.8. **Block 8.** “Total Cost:” Enter the total cost of all units of each article listed (block 6 x block 7). For real property enter the estimated cost to repair/replace or if the cost to repair exceeds the plant replacement value, the estimated cost to purchase and install the asset.

6.2.9. **Block 9.** “Circumstances Under Which Property Was Lost, Damaged or Destroyed:” Enter a complete statement of the facts, including the date and place of the incident. Include the name, grade, and the Electronic Data Interchange Personal Identifier (also known as the DoD Identification Number) of all persons directly involved. The statement must at the minimum answer five basic questions of who, what, when, where and how (see subparagraph 2.2.4). Identify any appropriate contract number(s), transaction number(s), control number(s). Add as exhibits and identify alphabetically within the block, as needed.

6.2.10. **Block 10.** “Actions Taken to Correct Circumstances Reported in Block 9 and Prevent Future Occurrences:” Include recommended actions by the accountable property officer and/or property custodian, and if appropriate by the financial liability officer, to the appointing and approving authorities.

6.2.11. **Block 11.** “Individual Completing Blocks 1 Through 10:” Person conducting the inquiry/investigation.

6.2.12. **Block 12.** “Responsible Officer (Property Record Items) or Reviewing Authority (Supply Systems Stocks):” See section 10.0 for definitions of “Responsible Officer” and “Reviewing Authority.”

6.2.13. **Block 13.** “Appointing Authority:” See section 3.0 for duties and responsibilities and section 10.0 for definition of “Appointing Authority.”

6.2.14. **Block 14.** “Approving Authority:” See section 3.0 for duties and responsibilities and section 10.0 for definition of “Approving Authority.”

6.2.15. **Block 15.** “Financial Liability Officer:” Enter findings and recommendations of the financial liability officer along with a recommendation regarding liability of the involved parties. See section 4.0 for duties and responsibilities and section 10.0 for definition of “Financial Liability Officer.”

6.2.15.1. An indication that negligence on the part of the individual has not been determined.
6.2.15.2. A recommendation that the investigation be continued at some future time because of extenuating circumstances.

6.2.15.3. Recommendation for corrective actions.

6.2.15.4. Recommendation that the individuals involved in the loss, damage, destruction, or theft, be relieved of responsibility for the property when negligence cannot be established. State the facts on which the recommendations are based. Proper conclusions must be drawn from available facts, not opinions or suspicions. The financial liability officer must sustain or refute the statements made in block 9 of the DD Form 200 and any other statements that are part of the inquiry and/or investigation. Do not use stereotyped phrases such as “loss or damaged in manner stated.” The financial liability officer must state in his or her own words how the loss or damage occurred based on the evidence obtained by the investigation.

6.2.15.5. As prescribed in subparagraph 2.8.1, include a computation of charges, when recommending financial liability. The computation should show how depreciation was calculated and other factors used in determining the loss, or reference should be made to the exhibit on which the computation is recorded. The results of the computation must be entered in block 15.b.

6.2.15.6. Describe the disposition of the property. Once released by the financial liability officer or the appointing authority (when a financial liability officer is not appointed), property considered to be “uneconomically reparable” must be disposed of in accordance with DoDM 4160.21-V1.

6.2.15.7. Recommendations must be entered immediately after the findings. The recommendation must include:

6.2.15.7.1. Financial liability to be assessed or relief from responsibility and accountability. Also, enter this information in block 15.d. For a military member enter monthly basic pay and for a civilian enter one-twelfth of the yearly salary.

6.2.15.7.2. Disposition instructions for any unserviceable property not previously sent to the Defense Logistics Agency, Disposition Services.

6.2.15.7.3. State clearly the full name, grade, DoD Identification Number, and the amount of the charge, when recommending financial liability.

6.2.15.7.4. State if the DD Form 200 may cover the loss, damage, destruction, or theft of property for which a claim is also being processed.

6.2.15.8. The recommendations must represent a logical and equitable decision developed from the facts cited in the evidence and findings.

6.2.15.9. Sign the DD Form 200 in block 15.j, at the end of the recommendations.

6.2.17. **Block 17. “Accountable Officer:”** See section 10.0 for definition of “Accountable Officer.” Record document numbers used to adjust property and financial records. All other blocks are self-explanatory.

7.0 **GOVERNMENT HOUSING LIABILITY (0707)**

7.1 **Purpose (070701)**

This section describes the liability of military personnel for the loss, damage, or destruction of government housing (family housing or unaccompanied personnel housing). It describes minimum requirements for assessing financial liability when government housing, including equipment or furnishings therein, is lost, damaged or destroyed. Government housing within the scope of this chapter includes both permanent and temporary quarters either owned by, or controlled by, the U.S. Government.

7.2 **Military Personnel Liability for Government Housing (070702)**

7.2.1. **Determination of Proximate Cause.** A member of a Military Service must be held liable to the U.S. for the loss, damage or destruction of family housing or an unaccompanied personnel housing unit assigned to such member, including equipment and furnishings therein, when a determination is made that the loss, damage or destruction was proximately caused by the abuse or negligence of the member, a dependent of the member, or a guest either of the member or the member’s dependent.

7.2.2. **Financial Liability of Military Members.** Financial liability against military personnel for loss, damage or destruction of government housing, including equipment and furnishings therein, is assessed for the full amount of the loss if the loss, damage or destruction was proximately caused by gross negligence or abuse. Liability of military members for damage to government housing and related equipment and furnishings is prescribed in 10 U.S.C. § 2775 and DoDM 4165.63.

7.2.3. **Notification and Examination.** Occupants who are assessed financial liability for loss of, or damage to, assigned government housing must be notified in accordance with subparagraph 4.3.6. A member’s failure to respond must not preclude the government from completing a DD Form 200.
7.2.4. Determination of Negligence. Determinations must be made on whether the loss or damage to government housing was proximately caused by simple or gross negligence or abuse of the member, the member’s dependents, or guests of either. Such a determination leads to the following considerations:

7.2.4.1. When the proximate cause of the loss or damage is determined to be gross negligence or abuse, the financial liability of the member is the total amount of the loss to the government. Where a member’s dependent or guest causes a loss or damage through gross negligence or abuse, the member is fully liable for the loss or damage if the member was “on notice” of the particular risk involved and failed to exercise reasonable, available opportunities to prevent or limit the loss or damage. In the absence of evidence to the contrary, the member is presumed to have been “on notice” of any risks attending the activities of family members and guests on the premises.

7.2.4.2. Where simple negligence is determined to be the proximate cause of the loss or damage, the financial liability of the member is limited to an amount equal to basic pay for one month at the rate in effect at the time of the loss, or the amount of the loss, whichever is less.

8.0 SUPPLY SYSTEM MATERIEL (0708)

8.1 Purpose (070801)

This section applies to personal property defined as “supply system materiel,” and contains procedures to be followed when inventory losses are discovered. The provisions of this chapter are applicable to all activities accountable for supply system materiel including stock fund and other inventories (e.g., appropriated fund).

8.2 Inventory (070802)

Physical inventories must be performed in accordance with the provisions contained herein and in DoDM 4140.03-V5.

8.2.1. Discrepancies. Despite the safeguards established by DoD Components in the care and maintenance of supply system stocks, discrepancies may occur between stock record balances and materiel in storage. These discrepancies are subject to post count validation, pre-adjustment research, and causative research, as prescribed in DLM 4000.25-V2.

8.2.2. Adjustments. An adjustment must be made to the inventory and financial records to bring those records into balance after appropriate research (see DLM 4000.25-V2). Care should be taken to process the transactions correctly (e.g., an issue posted twice should be corrected by a reversal (credit transaction), not as a loss of inventory). These types of corrected discrepancies are referred to as resolved discrepancies. For unresolved inventory losses, an inventory adjustment document or a DD Form 200 must be used to substantiate adjusting the inventory and accounting records to the stock on hand and to provide relief from property accountability or responsibility.
8.2.3. **Causative Research.**

8.2.3.1. Causative research **must** be conducted for all inventory discrepancies that meet any of the criteria specified in DLM 4000.25-V2. For inventory discrepancies which do not meet the criteria for performing causative research, a justification for adjusting the inventory and accounting records and relief from property accountability **must** be provided by means of an inventory adjustment document in accordance with subparagraph 8.2.4.

8.2.3.2. The purpose of this research is to establish liability or provide relief from accountability for the accountable property officer and/or property custodian for the loss, damage destruction, or theft of supply system materiel; and determine if the loss to the government was proximately caused by the negligence or abuse of individuals. If an individual accepts responsibility for the loss, damage destruction, or theft of supply system materiel and voluntarily reimburses the government, a DD Form 200 is not required. The collection voucher may be used to adjust the financial and accountable property records.

8.2.4. **DD Form 200 Used in Substantiating Inventory Loss Adjustments.** When authorized, the reviewing authority may approve physical inventory adjustments equal to or less than $50,000, when negligence or abuse is not evident or suspected. When negligence or abuse is evident or suspected, the reviewing authority **must** initiate an investigation in accordance with paragraph 2.2. The investigation **must** be used to substantiate adjusting the stock record, and providing relief from property accountability.

8.3 **Resolved Inventory Losses (070803)**

8.3.1. **Accountability.** The data developed by post count validation, pre-adjustment research, and causative research **must** be utilized to prepare correcting documentation so that the inventory accounting systems may be updated. These adjustments **must** be processed in accordance with this Regulation and DLM 4000.25-V2.

8.3.2. **Statistics.** The type of inventory losses must be categorized and accumulated by category to identify trends or problem areas in accounting or supply system procedures in accordance with DLM 4000.25-V2.

8.4 **Unresolved Inventory Losses Not Meeting the Criteria for an Investigation (070804)**

8.4.1. **Accountability.** Relief from property accountability and justification for the adjustment of the inventory and accounting records to the inventory on hand **must** be provided by means of an inventory adjustment document. The detail data requirements and procedures for preparing and processing the inventory adjustment document **must** be as prescribed in appropriate DoD Component implementing documents.

8.4.2. **Authority for Adjustment.** If the cause or probable cause of the discrepancy has not been determined, and the discrepancy does not qualify for causative research, this paragraph **must** be cited as authority for relieving the accountable officer of accountability.
8.4.3. **Statistics.** See subparagraph 8.3.2.

8.5 Unresolved Inventory Losses - Causative Research Indicates No Personal Responsibility (070805)

8.5.1. **Accountability.** See subparagraph 8.4.1.

8.5.2. **Statistics.** See subparagraph 8.3.2.

8.6 Unresolved Inventory Losses - Causative Research Indicates Evidence of Personal Responsibility (070806)

8.6.1. **Method of Adjustment.** A financial liability investigation **must** be used to support adjustment of the inventory and accounting records to the actual inventory on hand and to relieve the accountable officer of accountability.

8.6.2. **Statistics.** See subparagraph 8.3.2.

8.7 Criteria for an Investigation (070807)

A financial liability investigation **must** be initiated on all unresolved inventory discrepancies for each stock number that meets any of the following criteria:

8.7.1. Gains and losses of sensitive items (e.g., drugs designated as controlled substances and assigned to one of five schedules by the Drug Enforcement Agency, Department of Justice, under the Comprehensive Drug Abuse, Prevention, and Control Act of 1970 and any other drugs designated for local control by the Medical Treatment Facility Commander, precious metals, hazardous materiel, small arms, ammunition, explosives) regardless of dollar value.

8.7.2. Gains and losses of classified items, regardless of dollar value.

8.7.3. Gains and losses of pilferable items when the unit price times the quantity is equal to or greater than $2,500.00 for each stock number.

8.7.4. Any inventory loss when there is an indication or suspicion of fraud, theft or negligence.

8.7.5. Repetitive losses when the cumulative dollar value of the inventory losses equals or exceeds the projected cost of the financial liability investigation.

8.7.6. Bulk petroleum when the loss exceeds the allowable loss limits per DoDM 4140.25-V9.
8.8 Procedures for an Investigation (070808)

8.8.1. Accountability and Responsibility. For unresolved inventory losses which meet the criteria set forth in paragraphs 8.6 and 8.7, a DD Form 200 is required to relieve accountable property officer of property custodian from responsibility, to substantiate adjustment of the inventory and accounting records to the inventory on hand, and to identify problem areas or trends for corrective actions. A financial liability investigation should be conducted by a person who is not directly supervised by the accountable property officer or property custodian. It must include, as a minimum, the following actions:

8.8.1.1. Review and evaluate existing procedures for their adequacy in protecting property.

8.8.1.2. Determine compliance with prescribed regulations and procedures.

8.8.1.3. Determine who is involved and what responsibilities they have been assigned.

8.8.1.4. Determine whether simple or gross negligence or abuse is evident.

8.8.1.5. Review of causative research conducted.

8.8.1.6. Determine the cause or the probable cause of the inventory loss.

8.8.1.7. Recommend actions to minimize recurrence of the inventory loss.

8.8.2. Review the Adequacy of Procedures in Protecting Property

8.8.2.1. Physical Security Review. Determine if storage facilities are adequate to ensure proper safeguarding of all items, especially those items that are sensitive, classified, or subject to pilferage. The review should include an evaluation of compliance with regulatory requirements, procedures to determine degree of susceptibility of items to theft or pilferage, and lessons to be learned from losses that have been experienced.

8.8.2.2. Receipt, Storage, and Shipment Procedures Review. Determine if adequate procedures exist to prevent loss from theft or pilferage during receipt, storage, or shipment. The degree of protection should be commensurate with statutory and regulatory requirements, the degree of susceptibility to theft or pilferage, and experienced losses.

8.8.3. Determine Procedural Compliance. Determine if the responsible persons have complied with existing procedures to protect government property. If they have not complied with the procedures, determine if they failed to comply or were instructed not to comply.
9.0 PETROLEUM PRODUCT/LOSSES (0709)

9.1 Loss Expectancy (070901)

Some losses are unavoidable in the handling and storage of volatile products. These losses can be controlled by management actions to limit the rates of loss for such products so that standards are not exceeded. For this reason, DoDM 4140.25-V9, provides allowable loss limits to accommodate product losses normally expected. Losses are categorized as in-transit, operating, and determinable, these categories are defined in DoDM 4140.25-V9. However, any trends, such as a pattern of losses within the allowable percentage, must be researched and investigated.

9.2 In-Transit Losses (070902)

Losses of product received at DoD activities are allowable only when the actual loss is within the allowable loss tolerance percentages. When a loss exceeds the allowable limit, a portion of the loss is not allowable, and the entire loss will be reported as prescribed in DoDM 4140.25-V9. Causative research, as described in subparagraph 8.2.3, must be performed if there is any suspicion of negligence or abuse on the part of U.S. Government personnel who contributed to the loss.

9.3 Storage or Operating Losses (070903)

The allowable storage or operating loss tolerance percentages for various types of petroleum products are prescribed in DoDM 4140.25-V9. When the loss exceeds the allowable limit, a portion of the loss is not allowable; and the entire loss must be researched and reported in accordance with the provisions in section 8.0.

9.4 Determinable Losses (070904)

Losses which occur from determinable causes (such as tank overflows, spills, pipeline breaks, recovered abandoned product, fire or unrecoverable tank bottom) can normally be precluded or greatly minimized by effective management. These losses must be researched and reported in accordance with section 8.0.

</tbody>
</table>
| 14  | Controlled Inventory Items | Those items designated as having characteristics which require that they be identified, accounted for, secured, segregated, or handled in a special manner to ensure their safekeeping and integrity. Controlled inventory items in descending order of the degree of control normally exercised are:  

a. Classified Items. Materiel which requires protection in the interest of national security.

b. Sensitive Items. Materiel which requires a high degree of protection and control due to statutory requirement or regulations, such as narcotics and drug abuse items; precious metals; items which are of a high value, highly technical, or a hazardous nature; and small arms, ammunition, explosives, and demolition materiel.

c. Pilferable Items. Materiel having a ready resale value or application to personal possession and which is, therefore, especially subject to theft. |
| 15  | Culpability | Determination of fault. |
| 16  | Deliberate Unauthorized Use | Willful or intentional use without right, permit, or authority. |
| 17  | Determination of Proximate Cause | Ascertaining whether the loss, damage, destruction, or theft was proximately caused by an individual’s negligence or abuse. |
| 18  | Financial Liability | The statutory obligation of an individual to reimburse the government for lost, damaged, or destroyed government property as a result of negligence or abuse. |

<td>Research</td>
<td>An investigation of potential or actual discrepancies between physical count and recorded balances. The purpose of the research is to determine the correct balance and determine the cause of discrepancies. There are three types of research:</td>
</tr>
<tr>
<td></td>
<td></td>
<td>a. Post count Validation. A comparison of physical count with potential recorded balances or another count, with consideration of transactions that have occurred recently. The purpose of post count validation is to determine the validity of the count. Post count validation research ends when the accuracy of the count has been verified or when any necessary recounts have been taken.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>b. Pre-adjustment Research. A review of potential discrepancies, which involves the consideration of recent transactions and verification of catalog data. The purpose of pre-adjustment research is to determine the correct balance. Pre-adjustment research ends when the balance has been verified or the adjustment quantity determined (see DLM 4000.25-V2).</td>
</tr>
<tr>
<td></td>
<td></td>
<td>c. Causative Research. An investigation of discrepancies (i.e., gains and losses) consisting of (as a minimum) a complete review of all transactions to include supporting documentation: catalog change actions, shipment discrepancies, and unposted or rejected documentation occurring since the last completed inventory; the last location reconciliation which included quantity; or back one year whichever is sooner. The purpose of causative research is to identify, analyze, and evaluate the cause of inventory discrepancies with the aim of eliminating repetitive errors. Causative research ends when the cause of the discrepancy has been discovered or when, after review of the transactions, no conclusive findings are possible.</td>

CHAPTER 8

FOREIGN NATIONAL EMPLOYEES SEPARATION PAY ACCOUNT, DEFENSE

1.0 GENERAL

1.1 Purpose

This chapter specifies policy applicable to the United States Department of the Treasury (Treasury) “Foreign National Employees Separation Pay Account, Defense” account. Except as provided herein, all separation payments for Department of Defense (DoD) foreign national employees must be made from this account. All amounts that were obligated for such separation payments, but not expended before enactment, must be transferred to this account. Similar amounts obligated after enactment must also be transferred into this account on a quarterly basis. Amounts in the account remain available until expended.

1.2 Authoritative Guidance

1.2.1. The National Defense Authorization Act (NDAA) for Fiscal Years 1992 and 1993 authorized a trust fund account to accumulate funds to finance obligations for separation payments to foreign national employees of the DoD. The NDAA for Fiscal Year 1995 extended this authorization to include foreign nationals employed by a foreign government, for the benefit of DoD, under any of the following agreements that provide for payment of separation pay: (1) a contract, (2) a treaty, or (3) a memorandum of understanding with a foreign nation. Title 10, United States Code, section 1581 (10 U.S.C. § 1581), “Foreign National Employees Separation Pay Account,” provides for the establishment and operation of this account. Use of the term “foreign national employees” in this chapter is meant to apply to both foreign national direct and indirect hire employees. 10 U.S.C. § 1592 establishes that funds in the “Foreign National Employees Separation Pay Account, Defense” account may not be used to pay severance pay to a foreign national employed by DoD that provides for payment of separation pay if the separation of the employment of the foreign national is the result of the closing of, or the curtailment of activities at, a United States military facility in that country at the request of the government of that country.

1.2.2. This guidance applies to all DoD appropriations. This guidance does not apply to activities under the Defense Working Capital Fund (DWCF). DWCF activities must continue to make necessary foreign national employee severance payments under established DWCF procedures. This guidance also does not apply to the Foreign Military Sales (FMS) Trust Fund. The FMS Trust Fund activities must continue to accrue and disburse separation pay to their foreign national employees from the FMS Trust Fund. Use of non-appropriated funds (NAF) to pay for severance or separation entitlements, accrued during periods of employment with appropriated funded (APF) entities is prohibited.
2.0 POLICY

2.1 Calculations

Amounts to be obligated for foreign national employees separation pay must be determined and calculated at the installation level in accordance with applicable host country agreements. These amounts must be obligated in the full amount of the liability that accrues during the fiscal year, without regard to whether the amount is currently payable. Disbursement of these amounts must be made from the Treasury “Foreign National Employees Separation Pay Account, Defense,” 097X8165. The applicable Treasury receipt account is 097X8165.001, “Employing Agency Contributions, Defense.” Additional guidance on obligations for separation allowances for foreign national employees can be found in Volume 3, Chapter 8.

2.2 Pay Accruals

Foreign national employee separation pay accruals (obligations) must be transferred quarterly to the “Foreign National Employees Separation Pay Account, Defense.” Such amounts are to be transferred via a Standard Form (SF) 1081, “Voucher and Schedule of Withdrawals and Credits.”

2.3 Director, Defense Finance and Accounting Service

The Director, Defense Finance and Accounting Service (DFAS), must administer the account as well as perform related accounting functions.

2.4 Administrative Subdivisions

Administrative subdivisions must be established within the account for each DoD Component that budgets for foreign national employee separation pay. Deposits into and payments from the account must be recorded in the applicable DoD Component subdivision.

2.5 Disbursements

Except for those organizations operating within the DWCF and the FMS Trust Fund, all separation payments for foreign national employees paid from DoD appropriations must be disbursed from the “Foreign National Employees Separation Pay Account.” Requests for authorization to disburse from this account must be forwarded to the appropriate servicing DFAS site. Forward a copy of the backup documents to the DFAS Indianapolis, Enterprise Accounting and Audit Support, Trust Funds Accounting and Reporting Operations mailbox at: dfas.indianapolis-in.jja.mbx.cin-jjra@mail.mil.

2.6 Transfers

Transfers into the “Foreign National Employees Separation Pay Account, Defense” must be made as follows:
2.6.1. All amounts accrued (obligated) for foreign national employee separation pay liability during each fiscal year by any DoD Component must be transferred into the account quarterly via an SF 1081. Forward a copy of the back-up documents to DFAS Indianapolis, Enterprise Accounting and Audit Support, Trust Funds Accounting and Reporting Operations mailbox at: dfas.indianapolis-in.jja.mbx.cin-jjra@mail.mil.

2.6.2. When payments from a DoD Component’s subdivision of the account exceed the balance in that Component’s subdivision, additional amounts must be obligated from funds otherwise available to a DoD Component and subsequently transferred into the account under authority provided in the 10 U.S.C. § 1581. These transfers must equal the amount of the payment in excess of the balance of the DoD Component’s subdivision of the account, plus any amounts accrued but not currently payable. Additional guidance on the transfer of a foreign national employee from one DoD Component to another can be found in Volume 3, Chapter 8.

2.6.3. Each DoD Component, in conjunction with the Director, DFAS, or designee, must perform at least an annual review of the amounts in its respective account subdivision and compare such amounts to its foreign national separation pay liabilities to ensure sufficient funds have been obligated for future payment. Both parties must certify to the accuracy of the information. This annual review must occur each April. DFAS and the other DoD Components also must maintain an audit trail of accounting records and assure the establishment of an effective internal control system for the entire account.

2.7 Deobligations

Each DoD Component must notify its supporting DFAS site of all deobligation transactions, adjustments and corrections, in a timely and accurate manner. The respective site will record adjustments and corrections in the accounting records.

2.8 Availability of Deobligated Amounts

Amounts deobligated by DoD Components must remain in the account for a period of 2 years from the date of deobligation for recording, adjusting, and liquidating amounts properly chargeable to the liability of the respective DoD Component. Any such deobligated amount remaining after the 2-year period must be cancelled.

3.0 SUBSEQUENT DISBURSEMENTS

3.1 Validation of Funds Availability

When approved by DFAS, disbursements for foreign national employee separation payments may continue to be made by local disbursing offices, including the Department of State, using DoD cross-disbursement procedures as applicable. Each DoD Component and non-DoD office (e.g., Department of State) must coordinate its disbursement/cross-disbursement actions with the supporting DFAS site to validate the availability of funds prior to disbursement.
A positive balance in the account is necessary prior to payment; therefore, both DoD and non-DoD activities will verify from the supporting DFAS site that sufficient funds are available prior to submitting vouchers to servicing disbursing offices for employee payments.

3.2 Cross-Disbursements

When cross-disbursements procedures are used, the appropriate DFAS site must be advised prior to each actual disbursement. Additional guidance on cross-disbursement transactions can be found in Volume 3, Chapter 11.

4.0 RESPONSIBILITIES

4.1 DFAS Indianapolis- Enterprise Accounting and Audit Support, Trust Funds Accounting and Reporting

The DFAS Indianapolis- Enterprise Accounting and Audit Support, Trust Funds Accounting and Reporting must:

4.1.1. Oversee the recording and reporting of all required accounting information. Perform the required reporting and reconciliation of cash in the Treasury.

4.1.2. Maintain a general ledger account structure with necessary subsidiary ledgers to support the various accounts. Also accurately maintain subsidiary ledgers and an audit trail. The detail subsidiary ledgers may remain at the supporting DFAS sites or DoD Component field level activities.

4.1.3. Process all accounting transactions through the accounting network in a timely and accurate manner.

4.1.4. Provide accurate and timely accounting service to customers, e.g., DoD Components, upon request. Coordinate the accounting process with other DFAS sites.

4.1.5. Perform a positive funds control function and alert the DoD Components when necessary to assure a timely transfer, based on available information.

4.1.6. Provide a point of contact with telephone, email address, fax numbers to the DoD Components.

4.2 DoD Components

The DoD Components must:

4.2.1. Determine the obligation amount and notify the supporting DFAS site in a timely manner to accomplish the quarterly transfer. This information will be the basis for future SF 1081 processing and for updating the accounting records.
4.2.2. Process the SF 1081 and return a copy to the supporting DFAS site in a timely manner.

4.2.3. Manage all pertinent agreements regarding DoD foreign national employees. Forward a copy of all agreements and/or arrangements, including changes and amendments, to the supporting DFAS site.

4.2.4. Notify the supporting DFAS site of all changes, adjustments, or cancellations of previously reported information at least monthly.

4.2.5. Provide the supporting DFAS site with a point of contact, telephone, email address, fax numbers, and current mailing address.
VOLUME 12, CHAPTER 9: “INTERNATIONAL AGREEMENTS”

SUMMARY OF MAJOR CHANGES

Changes are identified in this table and also denoted by blue font.

Substantive revisions are denoted by an * symbol preceding the section, paragraph, table, or figure that includes the revision.

Unless otherwise noted, chapters referenced are contained in this volume.

Hyperlinks are denoted by bold, italic, blue, and underlined font.

The previous version dated October 2008 is archived.

CHAPTER 9

INTERNATIONAL AGREEMENTS

1.0 OVERVIEW (0901)

1.1 Purpose (090101)

This chapter establishes the financial procedures that shall be followed when DoD Components initiate, develop, and request formal review of international agreements and any annexes, appendices, amendments, or modifications thereto.

2.0 GENERAL (0902)

2.1 International Agreement Document (090201)

The term “international agreement” includes any document, among others, identified as an international agreement, memorandum of understanding, memorandum of agreement, memorandum of arrangement, exchange of notes, exchange of letters, or technical arrangement with one or more foreign governments (including their agencies, instrumentalities, or political subdivisions) or with an international organization. It does not include Foreign Military Sales (FMS) transactions and contracts entered into under the provisions of the Federal Acquisition Regulation or agreements financed with security assistance funds. The latter agreements are implemented under provisions identified in Volume 15.

2.2 International Agreement Design For Coordination (090202)

Each international agreement submitted for coordination must contain a fiscal and legal memorandum in accordance with DoD Directive 5530.3, “International Agreements,” paragraphs 9.3.2 and 9.3.3, or a Summary Statement of Intent (SSOI) in accordance with DoD Instruction 5000.2, “Operation of Defense Acquisition System,” Enclosure 9, section E9.4.1 and the Defense Acquisition Guidebook, Chapter 1 Supplement. The fiscal memorandum shall identify all financial implications of the agreement and provide all information required for a complete understanding and analysis of those implications. The legal memorandum shall identify the statutory authority for any obligation or expenditure of United States (U.S.) appropriated or nonappropriated funds involved in the agreement, as well as the legal basis for any use of U.S. Government property by or on behalf of a foreign government or international organization contemplated by the agreement. The SSOI, in addition to providing information on the fiscal implications and the legal basis for the agreement, provides information such as overview, objective, partner nations, project management, benefits/risks to the U.S., potential industrial base impact, procurement, information security and technology transfer, and points of contact. It is the responsibility of the proponent to provide the references and details supporting the agreement as requested by the approving officials.
3.0 LEGAL CONSIDERATIONS (0903)

3.1 General (090301)

Legal authority information is critical to the preparation of an agreement and is the basis for determining the legal authority for entering into the agreement and subsequent financial requirements. The legal information is used by financial management officials to review applicable international agreements and determine the existence of any special pricing or funding requirements. The legal information normally provides the following, as relevant:

3.1.1 Special Legal Pricing Requirements. The legislative authority to enter into an agreement also may mandate special pricing requirements on the U.S. Thus, the legal authority information shall identify any peculiar pricing that must be reflected in the agreement. In the absence of specific legal authority to price on other than a full cost basis, DoD services and materials shall be priced on a full cost basis.

3.1.2 Legal Requirement for the Disposition of Monies Collected by the Department of Defense (DoD). Amounts collected as reimbursements for DoD material or services or new procurements must be deposited into the miscellaneous receipts of the U.S. Treasury, unless there is specific legal authority to credit collections to a DoD appropriation or fund. Options available for deposit of collections include deposit to an appropriation account, a commercial bank account, or a U.S. Treasury deposit account.

3.1.3 Legal Requirement for Recognition of Obligational Authority. Obligational authority can be created only to the extent that funds are collected and deposited into the U.S. Treasury and appropriated by Congress, unless there is express legal authority to create obligational authority on a dependable undertaking (contract authority) or other basis.

3.1.4 Special Prohibitions or Requirements on the Use of Appropriated Funds. The legal information section shall identify any special prohibitions or requirements on the use of appropriated funds in support of the agreement. These special prohibitions are in addition to the standing prohibitions discussed in paragraph 4.4. An example of a special requirement is when FMS credit funds are to be used to finance co-production or licensed production in a foreign country. The approval of such use requires the Secretary of State first to advise the Congress. (See section 42(b) of the Arms Export Control Act (AECA).)

4.0 FISCAL CONSIDERATIONS (0904)

The fiscal information in the fiscal memorandum or SSOI documents the various financial considerations involved in implementing an international agreement. Specific considerations to be included in the fiscal information are as follows:

4.1 Financing Sources for U.S. Costs (090401)

4.1.1 The fiscal information shall include a schedule of proposed financing sources to be used by the sponsoring DoD Component to implement the agreement. Financing sources may be
current appropriations or funds, provision for inclusion in the Future Years Defense Program (FYDP), or a statement of an intent to include in future program and/or budget requests or FYDPs. This information shall be in a schedule form by FY as illustrated in Table 9-1. When current appropriations or funds are to be used as a financing source, the fiscal information section shall identify the specific appropriation(s) or fund(s), the FYDP Program Element, the amount(s) available therein, and the respective amounts to be used. If the source of financing in current appropriations is in two accounts, the applicable sources of financing must be supported by details showing the specific financing appropriation account symbols.

4.1.2. If the proposed international agreement is, in fact, a firm order for goods or services, a formal certification of fund availability shall be included. Applicable funds shall be committed in accordance with Volume 3 of this Regulation.

4.2 Provisions for the Disposition of Funds Collected (090402)

The fiscal information section shall describe the planned disposition of any funds collected from the foreign country or international organization. The four possible alternatives for disposition of amounts collected are as follows:

4.2.1. Reimbursement to Financing DoD Appropriations or Funds. If reimbursements are to be returned to the financing DoD appropriation accounts, the fiscal memorandum or SSOI shall identify the accounts to be reimbursed. This identification need not specify the fiscal year of the appropriations. Normal reimbursable accounting procedures shall apply.

4.2.2. Deposit in the U.S. Treasury as Miscellaneous Receipts. Without statutory authority to reimburse DoD appropriations or funds or to make other disposition, collections shall be deposited into the U.S. Treasury as miscellaneous receipts. The miscellaneous receipt account to be credited with such collections shall be specified by the depositor. DoD accounting systems shall accumulate costs incurred on behalf of the other participant(s), establish an accounts receivable identified to the applicable miscellaneous receipts account and bill such amounts.

4.2.3. Deposit in a U.S. Treasury Deposit Account. If a Treasury deposit account has been established for the agreement, the fiscal memorandum shall identify the appropriate U.S. Treasury account symbol.

4.2.4. Deposit in a Commercial Bank Account

4.2.4.1. If execution of a proposed agreement contemplates use of a commercial bank account for a foreign country’s funds, such a provision shall be included in the fiscal memorandum or SSOI with a description of intended bank account operation.

4.2.4.2. For contracts administered by DoD, two funding accounts must be cited: the DoD appropriation account for the U.S. share and the commercial bank account for the share of the other participant(s). The fund citation on the contract shall indicate the commercial bank account rather than the normal accounting classification code. In this case, only the Department can draw down on the commercial bank account.
4.3 Use of Amounts Credited (090403)

Foreign contributions collected by a DoD Component under terms of a cooperative project on a cost sharing basis from a foreign country or North Atlantic Treaty Organization (NATO) may be credited to a financing DoD appropriation or fund. Such contributions, however, are available only for the payment of the share of project expenses allocated to the foreign country or NATO making the contribution. The fiscal memorandum or SSOI shall certify that such collections will be used only for purposes as prescribed herein. Payments for which such amounts are available include the following:

4.3.1 Payments to contractors and other suppliers (including DoD and other participants acting as suppliers) for necessary articles and services.

4.3.2 Payments for any damages and costs resulting from the performance or cancellation of any contract or other obligation.

4.3.3 Payments or reimbursements of other program expenses, including program office overhead and administrative costs.

4.3.4 Refunds to other participants.

4.4 Availability of Financing Sources (090404)

There are two general prohibitions on the use of appropriated funds for international agreements. In addition, the legal section must identify any other applicable prohibitions. It is implicit in the identification of the financing sources set forth in paragraph 4.1, that funds are available. It is desirable, however, to include in the fiscal information section a certification that all legal and policy prohibitions on the use of funds have been complied with. The general prohibitions are as follows:

4.4.1 No funds designated by the Congress for NATO or major non-NATO cooperative research and development under 10 U.S.C. 2350a may be used to procure equipment or services from any foreign government, foreign research organization, or other foreign entity (including NATO participants) to the agreement.

4.4.2 U.S. Government military assistance funds (i.e., Foreign Military Financing, FMS loans, and FMS credits) are not available to finance a foreign participant’s share of the cost of a cooperative project authorized by section 27 of the AECA or a cooperative development project with a major non-NATO ally under 10 U.S.C. 2350a.
4.5 Financial and Nonfinancial Contributions (090405)

A contribution to an international agreement may be financial, nonfinancial, or both. Nonfinancial contributions may be in the form of defense articles or defense services needed for the cooperative project. In the event that the contribution is nonfinancial, a price analysis must be made to ensure the valuation assigned to such nonfinancial contribution is fair and reasonable. The fiscal information section shall summarize the results of such an analysis. The price analysis shall be based on prior cost experience for the nonfinancial contribution to be provided. When a foreign contribution is in the form of foreign currency or the awarding of a contract in a foreign country, the foreign currency contribution generally shall be valued at the exchange rate current at the time that the agreement is prepared. There shall be no subsequent modification of the valuation because of changes in the currency exchange rate. The fiscal memorandum or SSOI shall display the value of the currency in terms of U.S. dollars.

4.6 Valuation of Nonfinancial Contributions (090406)

The value of all nonfinancial (background data/information, software, services, military and civilian labor, materiel, equipment, and facilities) contributions to an agreement is to be determined and considered for the evaluation of equitableness of the proposed project. The fiscal memorandum or financial section of the SSOI shall describe the nonfinancial contributions, indicate their value, and state the method used in determining the valuation. The nonfinancial contributions shall also be valued in terms of U.S. dollars in the fiscal memorandum or SSOI. The alternatives for determining the value of nonfinancial contributions are as follows:

4.6.1 Full Costs. Volume 11A, Chapter 1 provides guidance on the specific cost elements and identification methods for pricing sales to private parties. These same methods shall be followed in valuing nonfinancial contributions to an international agreement.

4.6.2 Other Than Full Costs. An agreement that requires the identification or use of less than full cost is normally authorized only when a reciprocal pricing agreement has been entered into by the Department and the other party (parties) to the agreement. The agreement shall demonstrate that costs to be excluded mutually have not been considered by the other party in a determination of equitableness.

4.6.3 Cost Recoupment Waivers. In the event that less than full cost is being identified on the basis of a cost waiver, the legal authority for the waiver, the date of the waiver, and its approving authority must be provided in the SSOI. Copies of such waivers shall be made available on request.

4.7 Reasonable and Necessary Expense (090407)

Any obligation of DoD appropriations under an international agreement must be supported by a showing that it is a reasonable and necessary expense required for the accomplishment of DoD missions, unless the use of DoD funds for other than a DoD mission specifically is authorized by statute.
5.0 PROPOSED AGREEMENT (0905)

5.1 Financial Policies and Appropriate Cross References (090501)

An agreement must contain language that implements the requirements established by U.S. law and regulation. This section discusses the financial policies that must be followed and provides appropriate cross references to other parts of this Regulation that provide more specific guidance.

5.2 Fund Availability Qualification (090502)

5.2.1. Because agreements may involve future years for which the Congress has not yet appropriated funds, all agreements that require that DoD provide financial contributions shall contain a funds availability clause to prevent a premature recording of an obligation against a future year’s appropriation.

5.2.2. Examples of typical fund availability qualification clauses inserted in an international agreement follow:

5.2.2.1. “All undertakings of the U.S. Government under this agreement and any annexes, appendices, amendments, or modifications thereto, are expressly subject to the availability of U.S. funds for such purpose.”

5.2.2.2. “The obligations of each participant under this agreement are subject to the availability of funds for those purposes.”

5.3 Reconciliation of Agreement Dollar Value to Financing Sources (090503)

An international agreement must set forth the dollar value of the agreement and portions of the dollar value that must be borne by each participant. This cost sharing may be in the form of monies or nonfinancial contributions. A preliminary requirement is to ensure that any obligations that the Department may be required to incur in implementation of the agreement have been identified in the fiscal information section. Nonfinancial contributions, described in the scope section, may be valued in the fiscal information section as part of the overall financial contributions, or described solely in the scope section without valuation in the financial information section. The financial information in the fiscal memorandum or SSOI will value all financial and nonfinancial contributions identified in the international agreement.

5.4 Adherence to Prescribed Pricing Rules (090504)

5.4.1. In the event that an international agreement provides for nonfinancial contributions, there must be assurance that proper pricing procedures have been followed. Paragraphs 4.5 and 4.6 of this chapter discuss special requirements that may be applicable to certain agreements. The text of an agreement must be reviewed carefully to ensure compliance with these paragraphs. An area of special pricing attention is charges for existing DoD technical data and computer software, or the use of equipment or facilities.
5.4.2. Preexisting technical data and computer software or such data developed outside the scope of an agreement is normally referred to as background data. When background data is a nonfinancial contribution, its value for determining equitability is its full (total) cost of development, adjusted for any special modifications, shipping, installation, etc. When the original development cost is unknown, background data should be valued at the cost of similar data, or the estimated cost to reconstruct the data.

5.4.3. Background data may be provided for use in furtherance of the purpose of an international agreement as long as it is used solely in connection with the purpose of the agreement. However, an agreement must specify that if the background information is used for any other purpose, approval of the originating participant must be obtained. The following specifics apply:

5.4.3.1. If the data are to be used for cooperative production purposes, the Department must receive appropriate financial credit as part of the DoD share of project cost, unless a cost recoupment waiver has been approved. Any provision for waiver shall be identified in the fiscal information section.

5.4.3.2. If the data is to be used for development and production purposes, a technology transfer fee may be applicable for the development phase. This fee may be offset by a nonrecurring cost recoupment charge when production occurs.

5.4.3.3. All background information exchanged shall be used only for the purposes of the agreement, and is not to be transferred to any third party without the approval of the originating participant.

5.4.4. Equipment and facilities provided for use in the furtherance of the purpose of an international agreement should be based on an amortized rate. This amortized rate should be based on the cost and useful life of the equipment or facilities, and applied to the length of time the equipment or facilities will be used in the furtherance of the purpose of the international agreement. Standard rates, if available, can also be used.

5.5 Determination of Program Equitableness (090505)

5.5.1. Public law and DoD policy require that international agreements that involve cost sharing be equitable. The U.S. and the other participants to an international agreement shall contribute their equitable share of the full cost in funds or in defense articles or services needed to execute the cooperative project, and shall receive their equitable share of the results of the cooperative project in the form of defense articles or services. A participant’s cost share must be proportionately equal to the benefits it receives. The following methodology for determining equitability is in direct response to those requirements and is based on the authority of the Under Secretary of Defense (Comptroller) in accordance with 10 U.S.C. 135 and DoD Directive 5118.03, “Under Secretary of Defense (Comptroller)/Chief Financial Office, Department of Defense,” for establishing and supervising the execution of uniform DoD policies, principles, and procedures for international financial matters, including the adequacy of international financial agreements.
5.5.2. The SSOI or fiscal memorandum to a proposed international agreement must clearly explain why the agreement is considered equitable. Prior to approval of all proposed international agreements, a determination of agreement equitability must be made by the approving DoD officials. It is critical that sufficient detail and information be provided to clearly demonstrate to approving officials that the proposed international agreement is equitable.

5.5.3. Calculation of Expected Contribution. In support of an equitability determination by DoD approving officials, the expected contribution shall be calculated and presented in the SSOI or accompanying documentation using one of the methods below:

5.5.3.1. Number of Participants Method. This is the preferred method of calculating the expected contribution for cooperative feasibility studies, research and development efforts, and test and evaluation programs, and for agreements that establish management or oversight program offices. It is the method that should be employed when estimated unit production quantities are not known or the number of benefiting assets is equal. Under the number of participants method, the expected contribution is determined by dividing the agreement costs by the number of participating nations. An equitable share is where all participating nations equally share the total cost and the benefits. An example of this method is provided in Table 9-2.

5.5.3.2. Estimated Unit Production Method. This is the preferred method of calculating the expected contribution for an agreement that cooperatively establishes a program for the production of defense articles or weapon systems. It is used when specific unit production quantities are known or can be estimated. Under the unit production method, the shares are considered to be equitable when the contribution is proportionately equal to the share of the program production to be received. An example of this method is provided in Table 9-3. An equitability statement is required in the SSOI or accompanying documentation, and it must clearly present the calculation showing production estimates in relation to the total cost of the international agreement or production program.

5.5.3.3. Benefiting Assets. This is the preferred method of calculating the expected contribution when the number of benefiting assets are known or can be estimated. Under the benefiting assets method, the shares are considered to be equitable when the contribution is proportionately equal to the number of assets that will be benefited. An example of this method would be Table 9-3 where the number of units is replaced with benefiting assets. An equitability statement is required in the SSOI or accompanying documentation, and it must clearly present the calculation showing benefiting assets in relation to the total cost of the international agreement.

5.5.3.4. Other Methods of Calculation. There may be situations when none of the above three methods apply, and another calculation is legally supportable. For example, where the U.S. has agreed by treaty to pay a specified percentage of the costs of the operations of an international organization. An equitability statement is required in the SSOI or accompanying documentation. The calculation and justification for use of that calculation must be clearly presented.
5.6 Sales and Transfers of Technical Data Developed Under an Agreement (090506)

An agreement should provide that, in the event technical data developed under the agreement is sold or transferred to third parties, a charge may be made to recoup a pro-rata share of each participant’s investment. The agreement also must provide that background information and data developed outside the program not be retransferred without the prior approval of the owner of the information or data, and contain provisions for any applicable charges. For third party sales and transfers, or the addition of new participants, any recoupment charge for the information or data developed under the program must be shared on the basis of the participants’ financial contribution to the development of the item or technology. The amount of the charge and the procedures for assessing and distributing it shall be determined mutually by the participants prior to the approval of any such third party sale consistent with the policies and laws of each participant. The agreement also should provide that any participant may reduce or waive the assessment of its share of the levy in accordance with its laws and policies. Furthermore, the agreement should provide for rights of use of information developed under the agreement for defense purposes of a participant without payment to the other participant(s).

5.7 Taxes, Duties, and Similar Charges (090507)

Agreements should provide that, insofar as existing laws and regulations permit, the participants shall use their best efforts to ensure that readily identifiable taxes, customs duties, and similar charges on the program components and services shall not be levied in connection with the project. If an agreement obligates the U.S. Government to bear the cost of any U.S. taxes, duties, or similar charges levied in connection with the program, the legal memorandum or SSOI must identify the legal authority for such U.S. obligation.

5.8 Advance of DoD Funds (090508)

5.8.1. An advance constitutes a disbursement of DoD funds before an authorized DoD official has certified that materials have been delivered or ordered services performed. An agreement shall not provide for DoD advance payments, unless the conditions for such advances, as set forth in Volume 4, Chapter 5 are met. An advance to a foreign country is authorized only when required for compliance with the laws and ministerial regulations of the foreign country and is further required by the agreement.

5.8.2. When possible, advances shall be made for no more than the amount necessary to fulfill the DoD share of project expenses for one month. Advances and prepayments shall not exceed the amount necessary to fulfill the DoD share of project expenses for a current fiscal quarter. If monies are paid in advance and deposited into commercial banks, provision must be made to ensure that the agreement requires:

5.8.2.1. Payment of interest at competitive rates;

5.8.2.2. Timely identification of interest earned by each party; and

5.8.2.3. Interest disposition in accordance with the participants’ instructions.
5.8.3. The DoD share of funding required to support an international project shall be obtained in full by appropriation, and no part of such funding shall be derived from interest earnings on U.S. contributions. In view of this policy, the U.S. Government share of interest earned on U.S. advance payments must be returned to the U.S. Treasury Miscellaneous Receipts Account 3210, “General Fund Proprietary Receipts, Defense Military, Not Otherwise Classified.” The interest shall not be used to reduce a future call for funds, nor used for any project cost that would result in funding derived outside the appropriation process.

5.8.4. Advances of DoD funds in excess of 90 days or $5 million require consultation with the Department of the Treasury. Contact with the Department of the Treasury shall be through the Office of the Under Secretary of Defense (Comptroller).

5.9 Billing Requirements (090509)

When payments are to be made, the agreement or subsequent financial arrangements must include the following information:

5.9.1. Billing Cycle. Bills for incurred costs are to be rendered on a 30-day cycle. This is a U.S. Treasury requirement and must be adhered to by DoD. However, in the negotiation process and only at the initiation of other participants, agreement may be reached on up to a 90-day billing cycle.

5.9.2. Collecting Office. The agreement or subsequent financial arrangements shall provide the name and address of the organization to which payments shall be made. It also is desirable to set forth a position title and a telephone number to which questions may be addressed.

5.9.3. Paying Office or Offices. The agreement or subsequent financial arrangements shall provide the name and address of the organization that is responsible for making payments under the agreement. It also is desirable to set forth a telephone number and a position title to which questions may be addressed.

5.9.4. Payment Terms. The payment due date shall not be more than 30 days from the date of the invoice, date prepared.

5.9.5. Documentation in Support of Billings. The agreement or subsequent financial arrangements must identify the form of the bill and the specific supporting details.

5.9.6. Currency of Payment. Normally, payment shall be in the currency of the supplying nation or the lead country if joint financing is provided for in the agreement. The invoice shall identify the amount paid in foreign currency at the current exchange rate and the equivalent conversion rate in U.S. dollars.
5.10 Special Types of Agreements 090510)

5.10.1. Agreements for Reciprocal Exchange of Materials or Services. These agreements must set forth the time period allowed for exchange of materials and services. They also must set forth financial settlements that must be made if the exchange does not take place. DoD services or materials provided are priced in accordance with Volume 11A, Chapter 1.

5.10.2. Cooperative Research, Development, Test and Evaluation, Technical Data Exchange, Co-production, Licensed Production, and Related Standardization Agreements That Are Not Implemented through the Security Assistance Program. Full costs must be identified and shared equitably. Cost sharing may be accomplished through the following:

5.10.2.1. Pooling of monies and designation of a lead country to manage the program, collect cash, and award contracts. Specific shares of program cost are set forth in the agreement.

5.10.2.2. No pooling of monies or designation of a lead country. Specific efforts to be accomplished by each participating country and estimated costs of such efforts are set forth in the agreement.

TABLE 9-2: Calculation of Expected U.S. Contribution Using the Number of Participants Method

Step 1: Determine the total program cost to the U.S. and other participants.

- U.S. Share: $150
- Other Participants: 300
- Total Cost: $450

Step 2: Determine the percentage of the U.S. share of the total costs under the agreement.

- U.S. Share: $150 = 33% share
- Total Cost: 450

Step 3: Determine the total number of participants and calculate the U.S. share on a percentage basis.

- Total Participants: 3
- U.S.: 1 = 33% U.S. as a percentage of Participants

Step 4: Compare the results of step two to step three. If the result of step two is equal to the result of step three, the U.S. appears to be paying an equitable share.

CHAPTER 10

FUNDING CIVILIAN SEPARATION INCENTIVES
AND CIVILIAN PERSONNEL TRANSITION INITIATIVES

1.0 GENERAL

1.1 Purpose

The purpose of this chapter is to provide definitions and funding requirements to implement civilian separation incentives and civilian personnel transition initiatives.

1.2 Authoritative Guidance

The financial management policy and related requirements prescribed in this chapter are in accordance with the applicable provisions of the following sources:

*1.2.1. **Public Law 101-510, Section 322.** “Guidelines for Future Reductions of Civilian Employees of Industrial-type or Commercial-Type Activities.”

1.2.2. Title 5, United States Code, Section 5724, *(5 U.S.C. § 5724)*, “Travel and transportation expenses of employees transferred; advancement of funds; reimbursement on commuted basis.”

1.2.3. *(5 U.S.C. § 9902 (f),* “Department of Defense personnel authorities.”

1.2.5. *(DoDI 1400.25, Volume 1702,* “DoD Civilian Personnel Management System: Voluntary Separation Programs.”

2.0 OVERALL FUNDING POLICY DEFINITIONS

*2.1 Separation Incentives/Outplacement Subsidies

2.1.1 For the purpose of this policy, the term “civilian separation incentives” means resignation and retirement incentives and outplacement subsidies that may be used to encourage designated civilian employees to separate voluntarily from DoD.

2.1.2. Available separation incentives include Voluntary Separation Incentive Pay (VSIP), VSIP Phase II, Voluntary Early Retirement Authority (VERA), and Voluntary Reduction in Force (VRIF). The DoD activities may pay up to $25,000 (before taxes and deductions) from appropriations, funds, or accounts available for such purposes for the voluntary resignation, early retirement, or optional retirement of a designated civilian employee.
2.1.3. Outplacement subsidies are used as an incentive for other Federal agencies to hire employees displaced by reduction in force (RIF) or transfer of function. DoD activities may pay up to $20,000 from appropriations, funds, or accounts available for such purposes. The payment is for Permanent Change of Station (PCS) costs incurred by another Federal agency when that agency hires any DoD employee in a surplus skill category who is subject to RIF. See paragraph 3.4.

2.2 Audit Readiness/Internal Procedures

Each DoD Component must develop and implement internal operating procedures and/or guidance to implement this overarching policy in a manner that ensures accurate, timely, and relevant reporting of financial data. Relevant records supporting financial statements must be maintained and made available during financial statement audits.

2.3 Recording Funding Obligations

Funds for separation incentives and outplacement subsidies must be obligated when an employee accepts the offer of an incentive payment. The obligation must be recorded in DoD Standard General Ledger account 640000, “Benefits Expense,” and reported as object class 13.0, “Benefits for former personnel” for separation incentive and object class 12.1 for outplacement subsidies. Refer to the Office of the Deputy Chief Financial Officer Standard Financial Information Structure (SFIS) for additional information on account descriptions, and Office of Management and Budget (OMB) Circulars, Circular A-11, Section 83 for additional information on object class codes.

3.0 SPECIFIC FUNDING POLICIES FOR DIFFERENT TYPES OF EMPLOYEES

3.1 Civilian Separation

A DoD Component that offers civilian separation incentives to an employee, in order to induce the voluntary separation of that employee to create a vacancy for another employee of the same DoD Component, must fund the resulting separation payments from the applicable appropriation, fund or account that otherwise is available to pay for salaries and expenses of that DoD Component. The source of VSIP funds may include a Defense Working Capital Fund (DWCF) for employees of a DWCF-funded activity. DoD central account funding is not provided.

3.2 Base Realignment and Closure Act

Congress amended the Base Realignment and Closure (BRAC) statute in the Fiscal Year 2013 National Defense Authorization Act and created a single Treasury account known as the “Department of Defense Base Closure Account” to improve the BRAC program’s overall efficiency and effectiveness. The Defense Base Closure Account is available for payment of separation incentives when determined necessary to implement a BRAC recommendation. The departmental policy contained in Volume 2B, Chapter 7 provides the general criterion to apply costs to the DoD Base Realignment and Closure Account.
3.3 Foreign Military Sales Trust Fund

For employees paid from, or whose salaries are fully reimbursed by, the Foreign Military Sales (FMS) Trust Fund, an offer of separation incentives or civilian personnel transition initiatives (either to an FMS Fund civilian employee or to a non-FMS Fund civilian employee to benefit an FMS Fund civilian employee) must be funded as follows:

3.3.1. Separation incentives offered to an FMS civilian employee, in order to induce a voluntary separation of the FMS civilian employee, with the elimination of that FMS civilian employee position, must be paid by the FMS Fund.

3.3.2. Separation incentives offered to an FMS civilian employee, in order to create a vacancy within the same DoD Component for another FMS civilian employee who otherwise would be separated, must be paid by the FMS Fund.

3.3.3. Separation incentives offered to a non-FMS civilian employee, in order to create a vacancy for an FMS civilian employee who otherwise would have been separated, where the FMS civilian employee continues fully to support the FMS program, must be paid by the FMS Fund.

3.3.4. Any costs of outplacement subsidy described in paragraph 3.4, for an FMS civilian employee, must be funded by the FMS Fund.

3.3.5. No other separation payments are chargeable to the FMS Fund.

*3.4 Placements Outside the Department

DoD activities may pay up to $20,000 (subject to the availability of funds) in outplacement subsidy for Permanent Change of Station (PCS) costs associated with placement of a surplus DoD employee with another Federal Agency as authorized under 5 U.S.C. §5724 and DoDI 1400.25, Volume 1702. When a DoD Component-offered outplacement subsidy is accepted by the gaining Federal agency, the DoD activity must notify the gaining agency that DoD funds may be billed up to $20,000 per employee or for the actual PCS costs, whichever is less. The notification must include the DoD fund citation to be billed and the address of the fiscal station paying the subsidy. Payment must be made by the applicable DoD activity based upon documentation of the amounts paid or to be paid to the employee by the gaining Federal Agency.

*4.0 CONTROLS OVER AVAILABLE FUNDS

Controls must be established to ensure that sufficient funds are available to cover projected requirements for employee acceptance of incentive offers and outplacement subsidies each quarter. Antideficiency Act provisions apply to the DoD Component appropriations, funds and accounts. Therefore, if available funds are projected to be inadequate to cover anticipated incentive program acceptances and outplacement subsidies; appropriate action must be taken. In this regard, the DoD Components either must cancel or withdraw incentive offers prior to employee acceptance, or obtain additional funds.

CHAPTER 11

PRIVATIZATION OF DEFENSE UTILITY SYSTEMS

1.0 GENERAL

1.1 Purpose

This chapter prescribes financial management policies to the implementation of statutory provisions of Title 10, United States Code, section 2688 (10 U.S.C. § 2688), “Utility Systems: Conveyance Authority.” Section 2688 permits the Secretary of a Military Department to convey (i.e., transfer or pass title to) a utility system, or part of a utility system, under the Secretary’s jurisdiction to a municipal, private, regional, district, or cooperative utility company, or other entity (this authority does not apply to utility projects constructed or operated by the Army Corps of Engineers under its civil works authority). A utility system is defined as any system used for the: (1) generation and supply of electric power, steam, hot water, or chilled water; (2) supply of natural gas; (3) treatment or supply of water; (4) collection or treatment of wastewater; or (5) transmission of telecommunications. The term "utility system" also includes the following: (A) equipment, fixtures, structures, and other improvements utilized in connection with a utility system as defined and (B) real property, easements, and rights-of-way associated with a utility system as defined.

1.2 Authoritative Guidance

The financial management policies in this chapter correspond with the Department of Defense (DoD) Instruction 4170.11, Installation Energy Management. The Instruction specifies that utilities privatization “is the preferred method for modernizing and recapitalizing DoD utility systems. “To this end, the Instruction provides: “Except where the Secretary of the Military Department has certified that the systems are exempt due to security reasons, or where privatization is uneconomical, the Military Services must attempt to privatize those types of utility systems at every Active and Reserve Component installation within and outside the United States that is not designated for closure under a base closure law.” This guidance also assigns the office of primary responsibility for the Instruction to the Under Secretary of Defense for Acquisition and Sustainment. 10 U.S.C § 2925 defines the annual reporting requirements related to Installations Energy Management, Energy Resilience, and Mission Assurance.

2.0 CONVEYANCE OF UTILITY SYSTEMS

2.1 Consideration and Determination

Subsection 2688(c)(1) of 10 U.S.C. provides that the Secretary of a Military Department concerned may require as consideration for a conveyance an amount for the value (as determined by the Secretary) the right, title, or interest conveyed. Such consideration may take the form of a reduction in charges for future utility services or a lump sum payment. Subsection 2688 does not itself constitute authority for the Secretary of a Military Department to
convey a utility system without any consideration or cause to be inapplicable to authorities that govern disposal of DoD real property and personal property. The Secretary concerned may authorize a contract for utility services to have a term in excess of 10 years, but not to exceed 50 years. The determination of cost effectiveness must be made using a business case analysis that includes an independent estimate of the level of investment that should be required to maintain adequate operation of the utility system over the proposed term of the contract. The business case analysis must also demonstrate how a privatized system will operate in a manner consistent with energy resilience and cybersecurity requirements and associated metrics provided to the conveyee to ensure that the reliability of the utility system meets mission requirements.

2.2 Reduction in Charges

A reduction in charges for future utility services is acceptable consideration when the services are provided by the utility or entity obtaining the utility and the reduction in charges is provided to the military installation at which the utility system is located at the time of conveyance. In such circumstances, a reduction in charges for utility services is an exchange of dissimilar assets that does not result in a credit to an appropriation. The consideration (reduction) in such an exchange is considered an Other Asset (Account 199000), and the recorded asset is reduced by charges to Operating Expenses/Program Costs (Account 610000) over the life of the contract for utility services. Corresponding asset disposal losses must be recognized as described in Volume 4, Chapter 17.

2.3 Lump Sum Payment

2.3.1. Provisions of 10 U.S.C. § 2688 provide that any lump sum cash payment received as consideration for the sale of a utility system must be credited, at the election of the Secretary concerned, to an appropriation of the Military Department available for:

2.3.1.1. The procurement of the same utility services as are provided by the utility system conveyed;

2.3.1.2. Carrying out energy savings or water conservation projects (as discussed in Chapter 12); or

2.3.1.3. Improvements to other utility systems.

2.3.2. A lump sum payment must be credited to the appropriation used to fund the types of base operating support costs described in subparagraph 2.3.1 at the location of the privatized utility system. In most cases, this will be an Operations and Maintenance appropriation. Approval of the Office of the Under Secretary of Defense (Comptroller) (OUSD(C)), Program/Budget (P/B) is required for the use of any other appropriation type, as described in paragraph 3.2.
2.3.3. The amount credited to an appropriation must be merged with the funds in that appropriation and must be available for obligation in the same period, for the same purposes, and subject to the same conditions and limitations as that appropriation. There is no provision in the statute for extending the availability of such funds beyond the normal expiration date of the appropriation.

2.3.4. The conveyance of a utility for a lump sum payment results in budgetary and proprietary accounting entries by the entity responsible for collection as follows:

2.3.4.1. Receipt of a lump sum payment is recorded in the budgetary accounts as an earned reimbursement, as described in Volume 3, Chapter 15.

2.3.4.2. Receipt of a lump sum payment for the conveyance of a utility is recorded in the proprietary accounts as a gain or loss on disposition of assets, as described in Volume 4, Chapter 17.

3.0 CONVEYANCE AUTHORIZATION AND AGENDA

3.1 Same Utility Service Procurements

Before utility conveyance proceeds may be used to procure the same utility services as those provided by the utility system conveyed, the organization receiving the funds must submit the proposed distribution of funds to the Assistant Secretary of a Military Department (Financial Management and Comptroller) (ASMD(FM&C)) for approval. The ASMD(FM&C) must notify the supporting Defense Finance and Accounting Service (DFAS) site of approved funds distributions.

3.2 Savings and Conservation Projects and Improvements

3.2.1. Receiving Organization. Before utility conveyance proceeds may be used for carrying out energy savings or water conservation projects or improvements to other utility systems, the receiving organization must:

3.2.1.1. Prepare and submit to ASMD(FM&C) – for each major construction, minor construction, emergency construction, or Federal Energy Management Program project - the budget estimate data required by Volume 2B, Chapter 6, using Department of Defense Form 1391 (DD Form 1391), “FY__ Military Construction Project Data.”

3.2.1.2. Ensure the required approval and funding authorization is received before the disbursement of funds.

3.2.1.3. Prepare the paperwork necessary for the disbursement of funds in accordance with Volume 5, Chapter 9.
3.2.1.4. Ensure any amount credited to an appropriation from a conveyance under 10 U.S.C. § 2688, is administered in accordance with the financial policy and guidance in Volume 3, Chapter 15.

3.2.2. The ASMD(FM&C). Before approving a receiving organization’s request to carry out energy savings or water conservation projects or improvements to other utility systems, ASMD(FM&C) must:

3.2.2.1. Review the receiving organization’s proposal submitted under subparagraph 3.2.1.1, and forward it to OUSD(C), P/B, Directorate for Military Personnel and Construction, for final approval.

3.2.2.2. Ensure required OUSD(C), P/B approval and funding authorization are received before the disbursement of funds is approved.

3.2.2.3. Provide funds control and reporting information to the supporting DFAS site.

3.2.2.4. Notify the receiving organization of the final decision and provide the funding authorization document.

3.2.3. The OUSD(C), P/B, Directorate for Military Personnel and Construction

3.2.3.1. Before approving an ASMD(FM&C) request to carry out energy savings or water conservation projects or improvements to other utility systems, OUSD(C), P/B must:

3.2.3.1.1. Review the receiving organization’s proposal submitted under subparagraph 3.2.1.1.

3.2.3.1.2. Prepare and submit any necessary apportionment and reapportionment schedule using the most current version of Standard Form 132, “Apportionment and Reapportionment Schedule,” (e.g., for urgent unforeseen projects not already included in the Military Construction program) to the Office of Management and Budget (OMB) for approval.

3.2.3.1.3. Notify the ASMD(FM&C) of the final decision and OMB approval, and provide the funding authorization document.

3.2.3.2. Provide funds control and reporting information to Washington Headquarters Service (for Department-level appropriation accounting).

3.2.4. The DFAS

3.2.4.1. The Military Services are responsible for ensuring that all funding authorization documents and expenditure transactions are complete, and accurately reported to the DFAS Departmental Reporting System, Budgetary (DDRS-B).
3.2.4.2. The Director, DFAS, must account for and report to OMB and the U.S. Department of the Treasury on amounts credited to appropriations resulting from a conveyance under 10 U.S.C. 2688 and on any related fixed asset transactions.

CHAPTER 12

IDENTIFICATION, RETENTION, AND USE OF ENERGY AND WATER CONSERVATION SAVINGS

1.0 GENERAL (1201)

1.1 Purpose (120101)

This chapter prescribes financial management policy for the identification, retention, and use of energy and water cost savings. The Congress has enacted several measures pertaining to energy security within the Department of Defense (DoD), to provide instruction and guidance for the receipt and use of incentives and water cost savings from utilities for water conservation; the availability and use of energy cost savings; energy savings contracts and activities; energy conservation construction projects; the use of renewable forms of energy and energy efficient products in military construction and facility repair and renovation projects; the sale of electricity from alternate energy and cogeneration production facilities; and for the DoD activities’ participation in programs for management of energy demand or reduction of energy usage during peak periods.

1.2 Authoritative Guidance (120102)

1.2.1. Title 10, United States Code, section 2866 (10 U.S.C. § 2866) “Water Conservation at Military Installations,” provides that funds attributable to water cost savings realized under the provisions of that section must be used as prescribed in subparagraphs 1.3.2.1 and 1.3.2.2, provided that such use under subparagraph 1.3.2.1 is for water conservation activities. Neither 10 U.S.C. § 2866 nor any provision in the Department’s appropriations acts, however, provide for the extended availability of such funds. Accordingly, such funds are available only for the period for which they were originally appropriated.

1.2.2. 10 U.S.C. § 2912, “Availability and Use of Energy Cost Savings,” provides that an amount of funds appropriated to DoD for a fiscal year that is equal to the amount of energy cost savings realized by the Department, including financial benefits resulting from shared energy savings contracts pursuant to 10 U.S.C. § 2913, “Energy Savings Contracts and Activities,” must remain available for obligation until expended, without additional authorization or appropriation. The amount that remains available for obligation must be used as follows:

1.2.2.1. One-half of the amount must be used for the implementation of additional energy conservation and energy security measures, including energy resilience and energy conservation construction projects, for buildings, facilities, or installations of the DoD, or related to vehicles and equipment of the DoD, which are designated, in accordance with regulations prescribed by the Secretary of Defense, by the head of the department, agency, or instrumentality that realized the savings; and
1.2.2. One-half of the amount must be used at the installation at which the savings were realized, as determined by the commanding officer of such installation consistent with applicable law and regulations, for (a) improvements to existing military family housing units; (b) any unspecified minor construction project that will enhance the quality of life of personnel; or (c) any Morale, Welfare, and Recreation (MWR) facility or service.

1.2.3. 10 U.S.C. § 2913 provides that the Secretary of Defense must develop a simplified method of contracting for shared energy savings contract services that will accelerate the use of these contracts with respect to military installations and will reduce the administrative effort and cost on the part of DoD as well as the private sector. The Secretary may provide for the direct negotiation (by departments, agencies, and instrumentalities of DoD) of contracts with shared energy savings contractors that have been selected competitively and approved by any gas or electric utility serving the department, agency, or instrumentality concerned.

1.2.4. 10 U.S.C. § 2914, “Energy Resilience and Conservation Construction Projects,” provides that the Secretary of Defense may carry out a military construction project for energy resilience, energy security, or energy conservation, which has not been previously authorized, using funds appropriated or otherwise made available for that purpose. When a decision is made to carry out a project under this section, the Secretary of Defense must notify the appropriate congressional committees of the decision. The project may then be carried out only after the end of the 14-day period beginning on the date the notification is received by such committees in an electronic medium.

1.2.5. 10 U.S.C. § 2915, “Facilities: Use of Renewable Forms of energy and Energy Efficient Products,” provides that the Secretary of Defense must encourage the use of energy systems using solar energy or other renewable forms of energy as a source of energy for military construction projects for energy resilience, energy security, or energy conservation (including military family housing projects), and facility repairs and renovations, and ensure, to the maximum extent practicable, the use of energy efficient products in facility construction, repair, and renovation. The Secretary concerned must require that the design for the construction, repair, or renovation of facilities (including family housing and back-up power generation facilities) must include consideration of energy systems using solar energy or other renewable forms of energy, and require such energy systems be installed if consistent with the energy performance goals and energy performance master plan for the Department and is shown to be cost effective. Additionally, the Secretary of a military department may grant exceptions to otherwise applicable square foot and cost per square foot limitations.

1.2.6. 10 U.S.C. § 2916, “Sale of Electricity from Alternate Energy and Cogeneration Production Facilities,” provides that the Secretary of a military department may sell, contract to sell, or authorize the sale by a contractor to a public or private utility company of electrical energy generated from alternate energy or cogeneration type production facilities which are under the jurisdiction (or produced on land which is under the jurisdiction) of the Secretary concerned. The sale of such energy must be made under such regulations, for such periods, and at such prices as the Secretary concerned prescribes consistent with the Public Utility Regulatory Policies Act of 1978, and 16 U.S.C. § 2601, “Findings: Public Utility Regulatory Policies.” (Revenues from the sale of electricity must be deposited and utilized in accordance with section 4.0.)
1.2.7. **10 U.S.C. § 2919**, “Department of Defense Participation in Programs for Management of Energy Demand or Reduction of energy Usage During peak Periods,” provides that the Secretary of Defense, the Secretaries of the military departments, the heads of the Defense Agencies, and the heads of the other instrumentalities of the Department are authorized to participate in demand response programs for the management of energy demand or the reduction of energy usage during peak periods conducted by any of the following: an electric utility; an independent system operator; a State agency; or a third party entity (such as a demand response aggregator or curtailment service provider) implementing demand response programs on behalf of an electric utility, independent system operator or State agency. Financial incentives received from such entity must be (a) received as a cost reduction in the utility bill for a facility; or (b) deposited into a fund established under 10 U.S.C. § 2919(c) for use, to the extent provided for in an appropriations Act, by the military department, Defense Agency, or instrumentality receiving such financial incentive for energy management initiatives.

2.0 DEFINITIONS (1202)

The following definitions apply with respect to the identification, retention, and use of energy conservation cost savings:

2.1 Energy Savings Performance Contracts (120201)

An Energy Savings Performance Contract (ESPC) is a contract between the Federal government and an energy service company (ESCO) that allows agencies to accomplish energy projects for their facilities without up-front capital costs and without Congressional appropriations to pay for the improvements. The ESCO designs, implements, and arranges financing for an energy savings project that meets the Federal agency’s needs. The ESCO guarantees that the improvements will generate savings sufficient to pay for the project over the term of the contract (up to 25 years). If the energy conservation measures installed by the ESCO do not deliver the guaranteed energy savings, the agency pays only an amount equal to the verified, not guaranteed, savings for that period. The ESCO must immediately determine the reasons for the under achieved energy savings during that period. If it is determined that the ESCO-installed and maintained equipment and controls malfunctioned, then the ESCO must immediately correct the malfunction. If it is determined that the ESCO-installed and government-maintained equipment and controls malfunctioned, the government may be required to pay the guaranteed savings to the ESCO for that period. After the contract ends, any additional cost savings accrue to the agency. The additional savings are transferred to an extended availability account, in accordance with section 3.0 for use as indicated in subparagraph 1.3.2. An ESPC is an alternative financing tool to reduce energy use, modernize aging equipment, reduce maintenance costs, and deploy energy efficiency and renewable energy technologies. See [DoD Instruction 4170.11](#), Installation Energy Management, for further details on ESPC.
2.2 Energy Cost Savings (120202)

Energy cost savings, for the purposes of 10 U.S.C. § 2912, are savings realized as the result of a reduction in the cost of energy as measured against budget documentation, which is determined by metering (if available) or by other methodology, such as professionally acceptable engineering models and estimates, as determined appropriate by the Component Head. The Component Head or designee may define the types of energy commodities to be included in their programs (water is not included as a commodity for this purpose, per subparagraph 1.3.1). Energy cost savings could refer to funding remaining after an energy bill is paid or to additional unobligated funding made available in an amount equivalent to avoided cost from energy not consumed during the previous fiscal year.

2.3 Extended Availability of Funds (120203)

Except as stated in subparagraph 1.3.1, pursuant to 10 U.S.C. § 2912, savings realized by DoD and transferred to an extended availability account, including financial benefits, remain available for obligation until expended in accordance with subparagraph 1.3.2, without additional authorization or appropriation.

2.4 Cost Effectiveness (120204)

An energy system using solar energy or other renewable forms of energy is considered cost effective if the cost difference between the original investment cost of that energy system, and the original investment cost of an energy system not using renewable energy sources can be recovered over the expected life of the facility.

2.5 Extended Availability of Funds Account (120205)

This is an account established for each appropriation to which identified energy cost savings and unobligated balances resulting from such energy cost savings, or a portion thereof, are transferred. The balances in this account remain available for obligation until expended. The Military Department realizing the savings must retain, until expended, an equivalent amount of funding in the extended year account, using appropriately established financial management accounting codes to separate the funding (50 percent of the savings amount for the military department and 50 percent for the installation) to ensure use in accordance with subparagraph 1.3.2.

2.6 Component Head or Designee (120206)

The Secretary of a military department, the Director of a defense agency, an individual designated to act for the Secretary of a military department, or the Director of a defense agency for the purposes of executing the duties, functions, and responsibilities set forth in this chapter. When a provision is applicable only to the military departments, reference is made to the Secretary concerned, or designee.
3.0 ENERGY SAVINGS AND INCENTIVES RECEIVED FROM UTILITIES (1203)

3.1 Extended Availability from Energy Savings (120301)

Energy savings amounts having an extended availability must be transferred to extended availability accounts for execution.

3.1.1. An extended availability account must be established for each appropriation for which energy cost savings have been identified and for which a period of extended availability is to be established.

3.1.2. Transfers to extended availability accounts must be made by a Standard Form (SF) 1151, “Nonexpenditure Transfer Authorization,” or other authorized Service-specific method that incorporates all SF 1151 requirements (see Volume 14, Chapter 1, subparagraph 010206.B.6). Reprogramming actions will not be required in the case of such transfers.

3.1.3. Accounting, appropriate controls, and oversight for amounts in extended availability accounts must be established at the level that use the accounts; this will be at the installation, Military Department, Defense Agency, and/or Office of the Secretary of Defense level.

3.2 Financial Incentives (120302)

Financial incentives received from gas or electric utilities under 10 U.S.C. § 2913 are not considered energy cost savings. These incentives are credited to the installation’s accounts used for operations and maintenance and remain available for the same purposes and the same period as the appropriation to which they are credited. Such incentives are refunds or rebates received as a check and deposited in the accounts used for operations and maintenance; they are not credits to the utility bill.

4.0 REVENUES FROM THE SALE OF ELECTRICITY (1204)

4.1 Sale of Electricity (120401)

Proceeds from sales of electricity from alternate energy and cogeneration production facilities under 10 U.S.C. § 2916 must be credited to the appropriation account currently available to the military department concerned for the supply of electrical energy. The Secretary concerned or designee determines the accounts to which such proceeds must be credited. (See Treasury’s Federal Account Symbols and Titles: The FAST Book for current accounts.) In the case of proceeds from the sale of electrical energy generated from any geothermal energy resource, 50 percent must be credited to the appropriation account, and 50 percent must be deposited in a special account per the guidelines that are described in 10 U.S.C. § 2916(b)(3).
4.2 Use of Proceeds from the Sale of Electricity (120402)

Subject to the availability of appropriations for this purpose, proceeds credited may be used to carry out military construction projects for energy resilience, energy security, or energy conservation, under the energy performance plan developed by the Secretary of Defense under 10 U.S.C § 2911(b), “Energy Policy of the Department of Defense,” including minor military construction projects for energy resilience, energy security, or energy conservation, authorized under 10 U.S.C. § 2805, “Unspecified Minor Construction,” which are designed to increase energy conservation.

4.3 Congressional Notification (120403)

4.3.1 Before carrying out an unspecified minor military construction project for energy resilience, energy security, or energy conservation, described in paragraph 4.2 using proceeds from sales under paragraph 4.1, the Secretary concerned must notify the appropriate committees of Congress of the project. For energy conservation projects, the notification must include the justification and cost estimate, the expected savings-to-investment ration, payback estimates, and the project’s measurement and verification cost estimate. For energy resilience or energy security, the notification must include the rationale for the project, and known vulnerabilities. The project may then be carried out only after the end of the 14-day period beginning on the date the notification is received by Congress in an electronic medium pursuant to 10 U.S.C. § 480, “Reports to Congress: Submission in Electronic Form.”

4.3.2 In accordance with the reporting parameters detailed in 10 U.S.C. § 2914, not later than 90 days after the end of each fiscal year (beginning with fiscal year 2017), the Secretary of Defense must submit to the appropriate committees of Congress a report on the status of the planned and active projects carried out (including completed projects).

5.0 BUDGETING FOR ENERGY COST SAVINGS (1205)

The portion of the guaranteed savings due to the contractor for payment under ESPCs must be included in each military department’s utility requirements submitted in budget requests for the length of the ESPCs entered into by that military department. The entire amount of guaranteed savings provided in ESPCs (including amounts for contract payments and amounts to be retained by installations) must be included in total utility requirements submitted as part of budget requests for the first five years of ESPCs. The total of the amounts requested must not exceed those that would have been requested in the absence of ESPCs. The Secretary concerned, or designee, must specify the procedures for identification of such amounts by installations, facilities, or operating locations at which ESPCs for that military department are in existence. In accordance with the Office of Management and Budget (OMB) Circular A-11, Appendix B, “Budgetary Treatment of Lease-Purchases and Leases of Capital Assets,” the costs of ESPCs may be scored on an annual basis, consistent with the guidance provided in OMB Memorandum M-98-13, “Federal Use of Energy Savings Performance Contracting,” and OMB Memorandum M-12-21, “Addendum to OMB Memorandum M-98-13 on Federal Use of Energy Savings Performance Contracts and Utility Energy Service Contracts.”
6.0 CAPTURING BALANCES AVAILABLE FOR USE RESULTING FROM ENERGY CONSERVATION MEASURES (1206)

6.1 Installation Commanders (120601)

6.1.1. When carrying over unobligated balances resulting from energy conservation, Installation Commanders or their designees must ensure energy cost savings amounts carried over for use beyond the fiscal year for which they were originally appropriated are authorized to be used only for funding initiatives specified by 10 U.S.C. § 2912 (see subparagraph 1.3.2). Installation Commanders must also:

6.1.2. Ensure that unobligated fund balances available at the end of the normal period of appropriation availability that are the direct result of energy conservation measures are identified based on the most current available consumption data and represent actual unobligated funds remaining in the appropriation accounts.

6.1.3. Ensure that the unobligated energy cost savings balances at year-end are carried forward for use beyond the fiscal year by transferring the funds to the extended availability of funds account.

6.1.4. Submit to the Component Head or designee proposed energy savings projects for a given fiscal year that are projected to cost more than the amount of funds available to the Commander for that purpose.

6.1.5. Implement additional energy conservation initiatives approved by the Component Head, or designee and other projects as specified.

6.2 Component Heads (120602)

The Component Head or designee must receive and evaluate savings measures submitted by Installation Commanders, and authorize funding for those other energy savings measures as the Component Head or designee deems appropriate. The Component Head or designee must also ensure that procedures are established to provide sufficient time to compute the energy cost savings and identify the savings amounts to be transferred to the extended availability of funds account.

7.0 ACCOUNTING FOR ENERGY COST SAVINGS (1207)

7.1 Title 10, United States Code, Section 2912 (120701)

The energy cost savings amounts realized in accordance with 10 U.S.C. § 2912 remain as unobligated balances available for obligation at the end of the fiscal year.

7.2 Unobligated Balance Transfers (120702)

Unobligated balances covered by paragraph 7.1 must be transferred to extended availability accounts on an SF 1151 or other authorized Service-specific method that incorporates all SF 1151
requirements (see paragraph 3.1). The authority to be cited for the transfer is 10 U.S.C. § 2912. No further adjustments to the amounts carried forward are permitted once the balance is established in the extended availability account.

8.0 REPORTING REQUIREMENTS (1208)

The standardized Service-specific reporting methods (e.g., the Army’s General Fund Enterprise Business System) or the following requirements must be used to report the status of extended availability accounts:

8.1 Accounting Report (Monthly) 1002 (120801)

The following special procedures have been established for reporting extended availability obligated and unobligated balances on the Accounting Report (Monthly), (AR(M)) 1002, Appropriation Status by Fiscal Year Program and Subaccounts:

8.1.1. Normal Availability Obligated and Unobligated Balances

Identify and report as usual.

8.1.2. Extended Availability Unobligated Balances

Identify, in column F (Cumulative Unobligated Balance), unobligated extended availability amounts resulting from energy cost savings at the end of the normal availability period (e.g., FY 200X/200X+1 or FY 200X/200X+2, +3, and so on) and available unobligated amounts (that is, FY 2018/2019, FY 2018/2020, FY 2018/2021 for the FY 2018 account). The stub entry, column a (Budget Activity) identifies the unobligated extended availability amount as “Extended Availability - Energy Cost Savings.” The amount reported must agree with line 2201 of the SF 133, “Report on Budget Execution” (see paragraph 8.2).

8.1.3. Extended Availability Obligated Balances

Identify, in column e, obligations incurred against the extended availability account. The stub entry must identify those obligations as to the purpose for which the obligations were incurred. The reporting categories for the extended availability accounts must be continued for all fiscal years with remaining obligated balances against the extended availability account.

8.2 Standard Form 133 (120802)

At the end of the first fiscal year, use line 2201, “Unobligated Bal ance: Apportioned: Avail able in the current period” on the SF 133, to identify the amount of available unobligated funds that are available for energy savings investments (or other authorized purposes) in the following fiscal year(s).
VOLUME 12, CHAPTER 13: “FISCAL POLICY FOR BASE CLOSURE AND REALIGNMENT”

SUMMARY OF MAJOR CHANGES

Changes are identified in this table and also denoted by blue font.

Substantive revisions are denoted by an * symbol preceding the section, paragraph, table, or figure that includes the revision.

Unless otherwise noted, chapters referenced are contained in this volume.

Hyperlinks are denoted by bold, italic, blue, and underlined font.

The previous version dated May 2018 is archived.

CHAPTER 13

FISCAL POLICY FOR BASE CLOSURE AND REALIGNMENT

1.0 GENERAL (1301)

1.1 Purpose (130101)

This chapter specifies financial policy for base closure and realignment.

1.2 Authoritative Guidance (130102)

1.2.1. Since 1988, the Congress has enacted legislation that created six separate accounts at the U.S. Department of the Treasury (Treasury) to finance base closure and military installation realignment.

1.2.1.1. Section 207 of the Defense Authorization Amendments and Base Closure and Realignment Act (Public Law (P.L.) 100-526), October 24, 1988, established the “DoD Base Closure Account.”

1.2.1.4. Section 344 of the National Defense Authorization Act for Fiscal Years (FYs) 1992 and 1993 (P.L. 102-190) established the “Reserve Account.”

1.2.1.5. Section 2906A of the Defense Base Closure and Realignment Act of 1990 created the “DoD Base Closure Account 2005.”

1.2.1.6. Section 2711 of the National Defense Authorization Act (NDAA) for FY 2013 establishes a new appropriation for the “Department of Defense Base Closure Account” (097X0516) and cancels existing Base Closure Accounts (097X0510 and 097X0512).

1.2.2. This guidance also establishes funds distribution, accounting and reporting policy and procedures for the “DoD Base Closure Account 1990,” “DoD Base Closure Account 2005” and the “Reserve Account.”
2.0 POLICY (1302)

2.1 General (130201)

2.1.1. Department of Defense (DoD) Components are responsible for implementing all base closure and realignment action including preparation of an economic analysis in accordance with Volume 2B, Chapter 6, and must administer the allocations of base closure funds.

2.1.2. DoD Components are to deposit the proceeds in the appropriate account authorized by law. If transfer funds were deposited into the wrong account, a suspense account, or other interim account, a Standard Form (SF) 1080, “Voucher for Transfers Between Appropriations and/or Funds,” must be used to transfer funds to the proper account.

2.2 DoD Base Closure Account 1990 and DoD Base Closure Account 2005 (130202)

2.2.3. The U.S. Treasury symbol for DoD Base Closure Account is 097X0516. This account is identified as the “Base Realignment and Closure Account, Defense,” in Treasury’s FAST publication. Section 2711 of the National Defense Authorization Act for FY 2013 established this account effective upon enactment of the National Defense Authorization Act for FY 2014. Existing unobligated balances as of December 31, 2013, transfer from 097X0510 and 097X0512 to the new appropriation.

2.2.4. Except as provided for in subparagraph 2.2.6 funds deposited into these accounts must be:

2.2.4.1. Funds authorized for, and appropriated to, the account.

2.2.4.2. Proceeds received from the sale or disposal of any property at an installation closed or realigned under the provisions of the Defense Base Closure and Realignment Act of 1990, P.L. 101-510.
2.2.5. Proceeds resulting from the sale or disposal of property or facilities (including buildings and structures) due to the base closure process must be deposited as reimbursements into the appropriate DoD Base Closure Account (DoD Base Closure Account 1990 or DoD Base Closure Account 2005). Treat these reimbursements as a collection and an earned reimbursement, and credited to the appropriation as a budget source.

2.2.6. Proceeds received after September 30, 1995, from the transfer or disposal of any property at a military installation closed or realigned under the Defense Authorization Amendments and Base Closure and Realignment Act, P.L. 100-526 and Title 10, United States Code, section 2687 (10 U.S.C. § 2687) must be deposited as reimbursements into the appropriate DoD Base Closure Account.

2.2.7. Deposit a portion of the proceeds resulting from the transfer or disposal of any real property or facility acquired, constructed, or improved (in whole or in part) with commissary store funds or nonappropriated funds into the “Reserve Account.” The amount deposited must be equal to the depreciated value of the investment made with such funds in the acquisition, construction, or improvement of that particular real property or facility. Complete the depreciated value of the investment in accordance with Volume 4, Chapter 4, for property funded with commissary store funds. See Volume 13, Chapter 3, for property funded with nonappropriated funds.

2.2.8. Subject to their availability, funds in the account may be used to:

2.2.8.1. Carry out actions as may be necessary to close or realign any military installation. Such actions include the acquisition of such land, construction of such replacement facilities, performance of such activities, and conduct of such advance planning and design as may be required to transfer functions from an installation being closed or realigned to another military installation.

2.2.8.2. Provide economic adjustment assistance to any community located near an installation being closed or realigned. Additionally, provide community planning assistance to any community located near a military installation to which functions must be transferred as a result of such closure or realignment.

2.2.8.3. Carry out activities for the purposes of environmental restoration and mitigation at an installation being closed or realigned. This includes reducing, removing and recycling hazardous waste, and removing unsafe buildings and debris.

2.2.8.4. Offer outplacement assistance to civilian employees employed by the DoD at installations being closed or realigned.

2.2.8.5. Reimburse other federal agencies for actions performed at the request of the Secretary of Defense with respect to any such closure or realignment.
2.3 DoD Overseas Military Facility Investment Recovery Account (130203)

2.3.1. The Treasury symbol for the receipt account (funds deposited in the DoD Overseas Military Facility Investment Recovery Account Deposits, DoD) are 097X5193.017, .057, .021, and .097, as applicable. The Treasury symbol for the special fund account (expenditure of funds from the account) is 097X5193.

2.3.2. Except as offered in subparagraph 2.3.3, funds deposited into this account must be amounts paid to the United States, pursuant to any treaty, status of forces agreement, or other international agreement to which the United States is a party, for the residual value of real property or improvements to real property used by DoD civilian or military personnel.

2.3.2.1. Steps must be taken to ensure that the United States receives, through direct payment or otherwise, consideration equal to the fair market value (FMV) of the improvements made by the United States at facilities scheduled for release to host countries. Determine the FMV for such improvements on a facility-by-facility basis.

2.3.2.2. The term “fair market value of the improvements” means the value of improvements on the basis of their highest use.

2.3.2.3. The term “improvements” includes new construction of facilities and all additions, improvements, modifications, or renovations made to existing facilities or to real property, without regard to whether they were carried out with appropriated or nonappropriated funds.

2.3.3. In the case of a payment for the residual value of real property or improvements at an overseas military facility, deposit the portion of the payment that is equal to the depreciated value of the investment made with nonappropriated funds into the “Reserve Account” not in the “DoD Overseas Military Facility Investment Recovery Account.”

2.3.4. Subject to availability, funds in the account may be used by the DoD for payment, as shown in appropriations acts, of costs incurred by the DoD in connection with:

2.3.4.1. Facility maintenance, repair and environmental restoration at military installations in the United States.

2.3.4.2. Facility maintenance, repair and compliance with environmental laws at military installations outside the United States that the Secretary of Defense anticipates must be occupied by the U.S. Forces for an extended period.

*2.4 Reserve Account (130204)

2.4.1. The Treasury symbol for the receipt account (funds deposited into the Reserve Account) is 097X5195.003. The U.S. Treasury symbol for the special account (expenditure of funds from the Reserve Account) is 097X5195. This account is identified as “Use of Proceeds from the Transfer or Disposition of Commissary Facilities, Defense.”
2.4.2. The transfer or disposal of a commissary or nonappropriated fund (NAF) facility must be connected with the closure or realignment of a military installation. Deposit into this account a portion of the proceeds equal to the depreciated value of the investment made in any real property or facility acquired, constructed, or improved (in whole or in part) with commissary store funds or nonappropriated funds.

2.4.3. If the proceeds from the transfer or disposal of any real property or facility acquired, constructed, or improved (in whole or in part) with commissary store funds or nonappropriated funds are greater than the depreciated value, then the excess amount must be deposited into the appropriate base closure account, not the Reserve Account.

2.4.3.1. The term “commissary store funds” means funds received from the adjustment of, or surcharge on, selling prices at commissary stores fixed under 10 U.S.C. § 2685.

2.4.3.2. The term “nonappropriated funds” means funds received from a NAF instrumentality. (See Volume 13 for additional guidance and definitions.)

2.4.3.3. The term “nonappropriated fund instrumentality (NAFI)” means an instrumentality of the United States under the jurisdiction of the Armed Forces (including the Military Exchange Services). NAFI programs and facilities shall be operated, maintained, and funded as an integral part of the personnel and readiness program. (See Volume 13 for additional guidance and definitions.)

2.4.3.4. The depreciated value of the investment made by NAF must be computed in accordance with Volume 13, Chapter 3.

2.4.4. Subject to availability, funds in the account may be used for the purpose of acquiring, constructing, or improving commissary stores, and real property and facilities for NAF instrumentalities.

2.4.5. DoD Components are responsible for ensuring that budgeting and accounting procedures can separately identify the following:

2.4.5.1. Commissary

2.4.5.2. Exchange system

2.4.5.3. All other NAFI balances in the Reserve Account.
3.0 BUDGET AND ACCOUNTING RESPONSIBILITIES (1303)

3.1 Requests for Funds (130301)

3.1.1. DoD Components

3.1.1.1. DoD Base Closure Account Financial Plan. The Military Departments and Defense Agencies, in cooperation with, and at the direction of, the Under Secretary of Defense for Acquisition and Sustainment or designee, the Director, Office of the Secretary of Defense (OSD) Base Realignment and Closure (BRAC) Office, must submit a financial plan to the Director, Military Personnel and Construction, Office of the Under Secretary of Defense (Comptroller) (OUSD(C)), Program/Budget (P/B), supported by a “DoD Base Closure Account Financial Plan,” (Format 460-BC) (see Figure 13-1), to request allocations of base closure funds. For planned military construction and family housing construction requirements, list separately on the financial plan each project to be executed using requested base closure funds. Also submit a separate narrative explanation for other planned expenditures to the Director, Military Personnel and Construction, OUSD(C), P/B, in sufficient detail on the Format 460-BC to support the DoD Component financial plan. Host DoD Components are responsible for coordination with all affected tenant activities, including Defense Agencies, Defense Medical Facilities Office, Reserve Components, and nonappropriated fund activities. Tenant activities must identify specific base closure program requirements to their host DoD Component.

3.1.1.2. BRAC Reprogramming Procedures. Section 2905A(f) of the Defense Base Closure and Realignment Act of 1990, as amended by the FY 2008 National Defense Authorization Act, Section 2704, (P.L. 110-181) specifies certain cost and scope limits on those BRAC 2005 military construction projects with costs equal to or in excess of $5 million, as follows:

3.1.1.2.1. Cost may not be increased or reduced by more than 20% or $2 million than the authorized amount, whichever is less.

3.1.1.2.2. Scope may not be reduced by more than 25% from the scope specified in the most recent budget justification material.

These limits do not apply if the Secretary of Defense makes a determination that an increase or reduction in cost or a reduction in the scope of work for a military construction project or military family housing project “needs to be made for the sole purpose of meeting unusual variations in cost or scope.” If such a determination is made, then the DoD must notify the congressional defense committees not later than 21 days before the date on which the variation is made (or 14 days if notification submitted electronically). The Deputy Under Secretary of Defense for Installations and Environment memorandum of February 27, 2008, delegated notification responsibility to the DoD Components contingent upon OUSD(C) and OSD BRAC Office concurrence.

3.1.2. Director, Military Personnel and Construction. This office must initiate the SF 132, “Apportionment and Reapportionment Schedule” for the appropriate base closure account for submission to the Office of Management and Budget (OMB) for its approval.
3.2 Funds Distribution (130302)

3.2.1. Director, Military Personnel and Construction. Upon OMB approval of the SF 132 for the base closure account, this office must provide a Fund Authorization Document to the applicable component for recording in the agency-level accounting records.

3.2.2. Director, Defense Finance and Accounting Service (DFAS). The Director of DFAS must obtain and record, in the departmental-level accounting records, a Financial Management Service (FMS) 6200, “ Appropriation Warrant,” for the base closure accounts. Exhibit 13-1 illustrates the most common entries used for this account.

Exhibit 13-1. Accounting Entries for Recording Warrants

</tr>
</tbody>
</table>

To record the appropriation warrant (FMS 6200).

3.2.3. DoD Components. The DoD Components must:

3.2.3.1. Record the Fund Authorization for the base closure accounts received from the Director, Military Personnel and Construction, OUSD(C), P/B. Exhibit 13-2 illustrates the most common entry used to accomplish this action.

<table>

To record the Fund Authorization received from OUSD(C) P/B.

3.2.3.2. Receive and record the allocations of base closure funds received from the Director, Military Personnel and Construction, OUSD(C), P/B, subordinate the allocations of the base closure accounts by subaccount, and distribute the base closure funds to the installations responsible for base closure actions. Each DoD Component must distribute the base closure funds to its installations in accordance with its normal fund distribution procedures. The applicable subaccounts are shown in Exhibit 13-3.

**Exhibit 13-3. Base Closure Accounts by Subaccount (continued)**

**Operation and Maintenance (O&M):**
- Civilian Severance Pay
- Civilian Permanent Change of Station (PCS)
- Transportation of Things
- Facilities Sustainment
- Program Management (civilian work years, travel, and related support dedicated to implementation efforts)

**Environmental:**
Includes environmental restoration, including reducing, removing, and recycling hazardous wastes, and removing unsafe buildings and debris; Memoranda of Agreements between Defense and States (DSMOA), and reimbursements to the Agency for Toxic Substance and Disease Registry (ATSDR); and mitigation efforts associated with a military installation closure or realignment. Mitigation efforts do not apply to the DoD Base Closure Account.

**Community Programs:**
- Community Planning Assistance: For communities located near a military installation to which functions must be transferred as a result of a closure or realignment of a military installation.

- Economic Adjustment Assistance: For communities located near a military installation being closed or realigned.

**Federal Agencies Reimbursement:**
Includes reimbursements to other federal agencies for actions, other than for environmental activity discussed in this exhibit, performed with respect to any closure or realignment.

**Military Personnel:**
Limited to PCS and Temporary Duty (TDY) expenses dedicated to implementation efforts.

**Procurement-type Items:**
The procurement account should be limited to investment items in accordance with the expense/investment criteria.

**Other Costs:**
Any other expenses associated with base closure and realignment efforts.
3.2.3.3. Account for the receipt and allotment of the allocations using the entries in Exhibit 13-4.

Exhibit 13-4. Accounting Entries for Recording Allocations

| Cr 457000 Allotments Issued |
| Dr 101000 Fund Balance With Treasury |
| Cr 310100 Unexpended Appropriations – Appropriations Received |

To record the allotment of direct program obligational authority to a subordinate activity.

3.3 Plan Execution (130303)

The DoD Components must:

3.3.1. Record the allotment of base closure funds provided to installations. Exhibit 13-5 illustrates the entries to record the allotment.

Exhibit 13-5. Accounting Entries for Recording Allotments for Base Closure Accounts

| Dr 458000 Allotments Received |
| Cr 461000 Allotments--Realized Resources |

| Dr 101000 Fund Balance With Treasury |
| Cr 310100 Unexpended Appropriations – Appropriations Received |

To record receipt of an allotment.

3.3.2. Implement base closure and realignment actions and administer their allocation of base closure funds in accordance with their approved financial plan.

3.3.2.1. Exhibit 13-6 illustrates the entries for recording expenses that result in a fund outlay and that are incurred as a result of a DoD base closure.
Exhibit 13-6. Accounting Entries for Recording Expenses/Expenditures for Base Closure Accounts

Cr 490200 Delivered Orders --Obligations, Paid and
Dr 610000 Operating Expenses/Program Costs  
Cr 101000 Fund Balance With Treasury

To record expenditure of an allotment.

3.3.2.2. Losses that do not result in a fund outlay and that are incurred as a result of a DoD base closure must be accounted for as an extraordinary loss. Exhibit 13-7 illustrates these entries.

Exhibit 13-7. Accounting Entries for Recording an Extraordinary Loss (Or Gain) That Does Not Result In Fund Outlay

Dr 173900 Accumulated Depreciation on Buildings, Improvements and Renovations  
Dr 174900 Accumulated Depreciation on Other Structures and Facilities  
Dr/Cr 730000 Extraordinary Items (Debit for Loss or Credit for Gain)  
Cr 171100 Land and Land Rights  
Cr 173000 Buildings, Improvements and Renovations  
Cr 174000 Other Structures and Facilities

To record extraordinary loss (or gain) that does not result in a fund outlay from base closures.

3.3.3. Rephase planned execution of the financial plan as the situation dictates, and with the prior approval of the Under Secretary of Defense for Acquisition and Sustainment or designee, the Director for Base Closure and Utilization, and in coordination with the Director, Military Personnel and Construction, OUSD(C), P/B. A revised Format 460-BC and supporting documentation must be prepared that reflects the changes in the financial plan.

4.0 REPORTING RESPONSIBILITIES (1304)

4.1 DoD Components (130401)

The DoD Components must prepare and submit reports to the appropriate DFAS site on the status of its allotments. At a minimum, these reports must offer detail for each subaccount specified in a Fund Authorization document provided by OSD (see subparagraph 3.2.3). Submit these reports in accordance with a schedule of due dates to be provided by the DFAS.
4.2 Defense Finance and Accounting Service (130402)

4.2.1. Establish base closure accounts with Treasury.

4.2.2. Post SF 1151, “Nonexpenditure Transfer Authorizations” transactions, as necessary, for the base closure accounts.

4.2.3. Prepare departmental-level appropriation and fund status reports as required by Volume 6A, Chapter 4, for the base closure accounts administered by the Military Departments and Defense Agencies.

4.2.4. Prepare Chief Financial Officer reports for all base closure accounts.

4.2.5. Offer consolidation of appropriate financial reports to produce Treasury Index 97 financial reports on a pass-through basis.

4.2.6. Subject to the approval of the OUSD(C), supplement this guidance with additional procedures, as may be required.

5.0 ADMINISTRATION OF BASE CLOSURE FUNDS (1305)

5.1 Appropriated Fund Activities (130501)

Expenses, losses, or other events occurring at an appropriated fund activity as a direct result of a DoD base closure action, which result in a cash outlay, are eligible for reimbursement from the applicable DoD Base Closure Account. Expenses, losses, or other events not resulting in a cash outlay by an appropriated fund activity are not eligible for reimbursement. Expenses, losses, or other events that result in a cash outlay (vice expenses, losses, or other events that do not result in a cash outlay) are dependent largely upon the unique circumstances in existence at a particular activity subject to closure. The general guidance on those two categories of expenses and losses are:

5.1.1. Expenses that Ordinarily Result in a Cash Outlay

5.1.1.1. Military Construction projects, including planning and design efforts, for which base closure funds are requested.

5.1.1.2. Family Housing projects, including construction, planning and design, and operations for which base closure funds are requested.

5.1.1.3. Operations and Maintenance-type efforts including civilian severance pay, civilian PCS, outplacement assistance transportation of things, facilities sustainment, and program management (civilian work years, travel, and related support dedicated to implementation efforts).

5.1.1.4. Environmental projects including environmental restoration (reducing, removing, and recycling hazardous wastes, and removing unsafe buildings and debris),
Memoranda of Agreements between the DoD and the various states, and reimbursements to the Agency for Toxic Substance and Disease Registry (ATSDR).

5.1.1.5. Community Programs including economic adjustment assistance to a community in which the closed base is located, or community planning assistance to the community to which functions must be transferred as a result of a closure or realignment of a military installation.

5.1.1.6. Federal agencies including reimbursements to other Federal agencies for actions, other than for environmental activity discussed in subparagraph 5.1.1.4, performed with respect to any closure or realignment.

5.1.1.7. Military Personnel, limited to PCS and TDY expenses dedicated to implementation efforts.

5.1.1.8. Procurement-type Items for those items normally purchased with procurement appropriations.

5.1.1.9. Other expenses associated with base closure and realignment efforts.

5.1.2. Losses that Do Not Ordinarily Result in a Cash Outlay. Losses on real property or facilities sold, leased, transferred, or disposed of in connection with the closure or realignment of a military installation.

5.2 Disposition of DoD Base Closure Assets (130502)

The loss (or gain) from the sale, lease, or other disposal of assets must be recorded by the activity having financial custody of those assets. The sale, lease, or other disposal action must only be recorded in proprietary accounts of that installation. Any proceed generated from the sale, lease, or other disposal action of assets does not add to, or otherwise affect, the budgetary accounts of that activity. Exhibit 13-8 illustrates these entries.
Exhibit 13-8. Accounting Entries For Extraordinary Loss (Or Gain) Resulting From the Sale or Other Disposal of Base Closure Assets

CHAPTER 14

TRANSFERRING, DISPOSING, AND LEASING OF REAL PROPERTY AND PERSONAL PROPERTY

1.0 GENERAL

1.1 Purpose

This chapter provides financial policy for the disposal, transfer, and leasing of real property, and the transfer and lease of personal property. Financial policy for the disposal of personal property are addressed in Volume 11A, Chapter 5.

1.2 Authoritative Guidance

1.2.1. Title 40, United States Code, section 572(b) (40 U.S.C. § 572(b)), “Real Property,” applies to real property, including any improvement on the property, that is under the control of a Military Department and that the Secretary of the Department determines is excess to the Department’s needs. 10 U.S.C. § 2667, “Leases: non-excess property of Military Departments and Defense Agencies,” governs leases of Department of Defense (DoD) real and personal property. Sections 572(b) and 2667 require that proceeds received from the transfer or disposition or lease of real and personal property controlled by the Military Departments must be deposited into special accounts established by the United States Department of the Treasury (Treasury) for that Secretary. 10 U.S.C. § 2687, “Base closures and realignments,” requires that proceeds from the lease, transfer, or disposal of any property at a military installation that is closed or realigned be deposited into accounts established by Treasury.

1.2.2. Unless otherwise stated, the provisions of this chapter do not apply to:

1.2.2.1. The disposition of proceeds from the sale of surplus personal property (see Volume 11A, Chapter 5);

1.2.2.2. Property at a military installation designated for closure or realignment under 10 U.S.C. § 2687 (see Volume 12, Chapter 13);

1.2.2.3. Damaged or deteriorated military family housing (see 10 U.S.C. § 2854a, “Conveyance of damaged or deteriorated military family housing; use of proceeds”);

1.2.2.4. The lease of defense articles in the stocks of DoD to an eligible foreign country or international organization under 22 U.S.C. § 2796;

1.2.2.5. Transfer of defense articles to Iraq under the National Defense Authorization Act for fiscal year 2008 (Public Law 110-181, section 1228);

1.2.2.6. Proceeds from the disposal of property received as gifts under 10 U.S.C. § 2601 (see Volume 12, Chapter 30).
2.0  POLICY

2.1  Leases: Non-excess Property and Personal Property

2.1.1. The Secretary of a Military Department is allowed to lease non-excess real and personal property under its control that is not needed for a public use for the time that it is leased in accordance with 10 U.S.C. § 2667. Section 2667 provides the same authority to the Secretary of Defense (SECDEF) with respect to property under the control of a Defense Agency. Throughout this chapter, the term “Secretary concerned” will mean the Secretary of a Military Department, with respect to matters concerning that Military Department; and the SECDEF, with respect to matters concerning the Defense Agencies.

2.1.2. Leases for non-excess property may be accepted under the following conditions:

2.1.2.1. The lease is not more than five years, unless the Secretary concerned determines a longer period to be in the public interest.

2.1.2.2. The lease has a provision that it may be revoked at any time. If the lease is revoked to sell the property, the lessee may be given first option to buy.

2.1.2.3. The payment (in cash or in-kind) is not less than the fair market value.

2.1.2.4. The lease may not provide for a leaseback payment by the Secretary concerned or DoD of more than $500,000 per year.

2.1.2.5. All fees received from such leases (other than from leases of property at a military installation designated for closure or realignment) must be deposited into a special Treasury account established for that Secretary.

2.1.2.6. The proceeds deposited in the special Treasury account established for the Secretary concerned must be available to that Secretary and distributed by the Office of the Under Secretary of Defense (Comptroller), Program/Budget (OUSD(C)/PB) consistent with appropriation law. See paragraph 2.2.

2.1.2.7. This section does not apply to oil, mineral, or phosphate lands.

2.1.3. Repeal of 10 U.S.C. § 2667a. The Duncan Hunter National Defense Authorization Act for fiscal year 2009 repealed 10 U.S.C § 2667a, “Leases: non-excess property of Defense agencies” (see Public Law 110-417, section 2812). This authority is now incorporated into 10 U.S.C. § 2667, as revised, and that section now covers leases by both military services and Defense Agencies. In addition:

2.1.3.1. The repeal of 10 U.S.C. § 2667a does not affect the validity or terms of any lease with respect to property of a Defense Agency entered into by the SECDEF under 10 U.S.C. § 2667a.
2.1.3.2. Amounts deposited in a special Treasury account established for a Defense Agency pursuant to 10 U.S.C. § 2667a before repeal and amounts that would be deposited in connection with outstanding leases:

2.1.3.2.1. Remain available until expended for the purposes specified in section 2667a, specifically, solely for the maintenance, repair, restoration, or replacement of the leased property; or

2.1.3.2.2. To the extent provided by appropriations law, must be transferred to the special Treasury account described in paragraphs 2.2 and 2.3.

2.1.4. Easements for Rights-of-Way. **10 U.S.C. § 2668** allows the Secretary of a Military Department to grant easements for rights-of-way over, in, and upon public lands under the Secretary’s control. This authority is available provided the Secretary of that Military Department finds that the easement will not be against the public interest.

2.1.4.1. The easement may be made upon such terms as the Secretary considers advisable. The authorized purposes of the easement are listed in **10 U.S.C. § 2668(a)**.

2.1.4.2. Proceeds and in-kind consideration received from the granting of easements will be accounted for in the manner specified for leases of DoD property in 10 U.S.C. § 2667. See paragraphs 2.2 and 2.3.

2.1.5. Natural Resource Conservation. **10 U.S.C. § 2694a** allows the Secretary of a Military Department to convey certain surplus real property for purposes of natural resource conservation.

2.1.5.1. Surplus property that may be conveyed under this authority is limited to property that:

2.1.5.1.1. Is under the administrative control of the Secretary;

2.1.5.1.2. Is suitable and desirable for conservation purposes;

2.1.5.1.3. Has been made available for public benefit transfer for a sufficient period of time to potential claimants; and

2.1.5.1.4. Is not subject to a pending request for transfer to another Federal agency or for conveyance to any other qualified recipient for public benefit transfer under the real property disposal processes and authorities in **40 U.S.C. § 550**, “Disposal of real property for certain purposes.”

2.1.5.2. Entities eligible to receive surplus property for purposes of natural resource conservation are limited to states, political subdivisions of a state; and nonprofit organizations that exist for the primary purpose of conservation of natural resources on real property.
2.2 Accounting Procedures for Leases of Real and Personal Property

2.2.1. Deposit of Funds. Funds received from the lease or easement of real and personal property under 10 U.S.C. § 2667 and 10 U.S.C. § 2668 (other than from leases of property at a military installation designated for closure or realignment) must be deposited into the special fund Treasury receipt account, net of amounts paid for utilities and services furnished to lessees.

2.2.2. Services Furnished to Lessees. Payments for utilities and services furnished lessees pursuant to leases must be treated as a normal reimbursable transaction with funds credited to the appropriation account or working capital fund from which the cost of furnishing the utilities and services was paid.

2.2.3. Designated Purposes. Funds deposited in Treasury receipt account 5189 must be available to the Secretary concerned for expenditure to the extent provided for in appropriation acts, for the following:

2.2.3.1. Maintenance, protection, alteration, repair, improvement, or restoration (including environmental restoration) of property or facilities.

2.2.3.2. Construction or acquisition of new facilities.

2.2.3.3. Lease of facilities.

2.2.3.4. Payment of utility services.

2.2.3.5. Real Property maintenance services

2.2.4. Use of Proceeds

2.2.4.1. At least 50 percent of the funds deposited must be available for the designated purposes at the military installation or Defense Agency location where the proceeds were derived.

2.2.4.2. If funds deposited for designated purposes are derived from activities associated with a military museum those proceeds must be available for that museum.

2.2.4.3. The remainder of the funds deposited must be available to the Secretary concerned for the designated purposes as described in subparagraph 2.2.3.

2.2.5. Agricultural and Grazing. Money rentals received related to a lease for agricultural or grazing purposes may be retained and spent by the Secretary concerned to cover the administrative expenses of agricultural or grazing leases and to cover the financing of multiple-land use management programs at any installation under the jurisdiction of the Secretary. This provision does not apply to lands acquired by the United States for flood control or navigation purposes or any related purpose, including the development of hydroelectric power.
2.2.5.1. To ensure appropriate accounting and reporting of proceeds from agricultural and grazing leases, the Military Departments must factor collections received into their annual budget process and request the Office of Management and Budget to apportion them prior to use. See 10 U.S.C. § 2667 for complete guidance for collections and disbursements related to agricultural and grazing leases. Effective July 1, 2020, the Military Departments are prohibited from using suspense account F3875 to record and report these proceeds.

2.2.5.2. When recording the direct offsetting collections in general fund accounts (e.g., an Operation and Maintenance account for agricultural and grazing lease proceeds), the Military Departments must use United States Standard General Ledger account 426600 “Other Actual Business-Type Collections From Non-Federal Sources,” which provides direct spending authority on line 1800 of the Standard Form (SF) 132, "Apportionment," and the SF 133, "Report on Budget Execution and Budgetary Resources."

2.2.6. Leases under 10 U.S.C. § 2667a. The provisions of this paragraph apply to the proceeds from leases of Defense Agency property under 10 U.S.C. § 2667a (repealed October 2008) only to the extent provided by appropriation law. Otherwise, such proceeds may be used only for costs related to the leased property. See subparagraph 2.2.3. The repeal of this section does not affect the validity or terms of any lease with respect to property of a Defense Agency entered into by the SECDEF before the repeal date of October 14, 2008.

2.2.7. Accounting Entries. The value of lease payments received and payments for services provided will be recognized as revenue. The accounting entries for the recognition of revenue are specified in the DoD United States Standard General Ledger (USSGL), Standard Financial Information Structure (SFIS) Transaction Library, primarily in Category C, “Collections and Receivables.”

2.2.8. Appropriation Authority. Per section 8034 of the fiscal year 2005 DoD Appropriations Act, Public Law 108-287, amounts deposited in special Treasury accounts established pursuant to 40 U.S.C. § 572 and 10 U.S.C. § 2667 during fiscal year 2005 and in subsequent years remain available until transferred by the SECDEF to current applicable appropriations, at which point they are available for the same time period and the same purposes as the appropriation to which transferred.

2.3 Special Treasury Fund for the Proceeds of Sale and Lease

2.3.1. Requirements. The special funds are to be established and operated under the provisions of Volume 12, Chapter 1. The special funds designated by the Treasury for use in connection with 40 U.S.C. § 572 and 10 U.S.C. § 2667, are Treasury Fund Symbols 5188, “Disposal of DoD Real Property,” and 5189, “Lease of DoD Real Property.” These Federal Treasury account symbols have been established as no-year accounts. These Funds and applicable point accounts are listed in Table 14-1.

2.3.2. Purposes

2.3.2.1. 40 U.S.C. § 572. Any net proceeds (gross proceeds less expenses of transferring or disposing of the property) received from the transfer or disposal of real property under 40 U.S.C. § 572 must be deposited into special fund Treasury receipt account 5188, “Disposal of DoD Real Property,” with point accounts as listed in Table 14-1. See paragraph 2.2 for the appropriate accounting treatment.

2.3.2.2. 10 U.S.C. § 2667(e)(1)(A). Funds received from leases of real property entered into pursuant to 10 U.S.C. § 2667 must be deposited into the special fund Treasury receipt account 5189, “Lease of DoD Real Property,” with point accounts as listed in Table 14-1. Funds received from leases of personal property must also be deposited into the special fund Treasury receipt account 5189, “Lease of DoD Real Property.” See paragraph 2.2 for the appropriate accounting treatment.

2.4 Acceptance of Funds to Cover Administrative Expenses

2.4.1. In connection with real property transactions with nonfederal persons or entities, 10 U.S.C. § 2695 states: “...the Secretary of a Military Department may accept amounts provided by the person or entity to cover administrative expenses incurred by the Secretary in entering into the transaction.” Acceptance of funds applies to the following transactions:

2.4.1.1. The exchange of real property;

2.4.1.2. The grant of an easement over, in or upon real property of the United States;

2.4.1.3. The lease or license of real property of the United States;

2.4.1.4. The disposal of real property of the United States for which the Secretary will be the disposal agent; or

2.4.1.5. The conveyance of real property under 10 U.S.C. § 2694a.
2.4.2. Amounts collected for administrative expenses must be credited to the appropriation, fund or account from which the expenses were paid. The amounts credited must be merged with funds of an identical appropriation, fund or account and must be available for the same purposes and subject to the same limitations as these funds.

2.4.3. Accounting Entries. Funds received to cover administrative expenses will be recognized as revenue. Standard accounting entries are specified in the USSGL SFIS Transaction Library.

2.5 Leases: In-Kind Consideration

2.5.1. Acceptance of In-Kind Consideration. Generally, the receipt of cash is the preferred form of consideration for leases of building and property of the Federal Government per \textit{40 \textit{U.S.C.} § 1302}. In some cases, under \textit{10 \textit{U.S.C} § 2667}, as payment of part or all of the consideration for the lease, the terms of the lease may provide for the alteration, repair, or improvement, by the lessee, of the property leased.

2.5.2. Types of In-Kind Consideration. In-Kind consideration falls into two categories: construction or maintenance of real property, and the reduction of expenses.

2.5.2.1. Real Property In-Kind Consideration involves:

2.5.2.1.1. Alteration, repair, or improvement of property leased in lieu of rental payments.

2.5.2.1.2. Maintenance, protection, alteration, repair, improvement, or restoration (including environmental restoration) of property or facilities under the control of the Secretary concerned.

2.5.2.1.3. Construction of new facilities for the Secretary concerned.

2.5.2.2. Expense-type In-Kind Consideration involves:

2.5.2.2.1. Provision of facilities for use by the Secretary concerned.

2.5.2.2.2. Provision or payment of utility services for the Secretary concerned.

2.5.2.2.3. Provision of real property maintenance services for the Secretary concerned.

2.5.2.2.4. Provision of such other services relating to activities that will occur on the leased property as the Secretary concerned considers appropriate.

Expense-type In-Kind Consideration results in revenue recognition equal to the operating expenses that are avoided because of receiving the in-kind contribution.
2.5.3. Accounting for In-Kind Consideration

2.5.3.1. Real Property In-Kind Consideration. SFFAS No. 7, “Accounting for Revenue and Other Financial Sources and Concepts for Reconciling Budgetary and Financial Accounting”, paragraph 36(d) states:

2.5.3.1.1. “Revenue from specific types of exchange transactions should be recognized as follows: When services are rendered continuously over time or the right to use an asset extends continuously over time, such as the use of borrowed money or the rental of space in a building, the revenue should be recognized in proportion to the passage of time or the use of the asset.”

2.5.3.2. Accounting Entries. The accounting entries for in-kind revenue earned are not yet defined in the USSGL SFIS Transaction Library. The USSGL SFIS Transaction Library acknowledges that there are valid accounting events/postings not yet documented. To recognize revenue earned and capitalized assets received, the Treasury accounts detailed in Table 14-2 must be used:

2.6 Transfers of DoD Real Property

2.6.1. In accordance with 40 U.S.C. § 572(b) real property and related improvements under the control of a Military Department (other than property at a military installation designated for closure or realignment) that are determined by the Secretary of the Military Department to be excess to the needs of that Department must be made available for transfer without reimbursement to other Military Departments. If the property is not transferred to another Military Department, the Secretary of the Military Department must request the Administrator of the General Services Administration (GSA) to transfer or dispose of such property in accordance with applicable laws.

2.6.2. Any proceeds generated from transfer or disposition of property will be deposited into a special account in the Treasury. Funds deposited into the special Treasury account will be distributed to the Military Department(s) by the OUSD(C)/PB consistent with applicable appropriation law to include an amount for facility maintenance and repair or environmental restoration as stated in 40 U.S.C. § 572(b).
2.6.3. If a Military Department determines that real property and related improvements under its control (other than property at a military installation designated for closure or realignment) are excess to its needs and are available for transfer to another Military Department, the transfers will be made on a non-reimbursable basis.

2.6.4. Both the losing and gaining Military Departments will recognize the transfer of real property in the accounting records. The value of the transfer is the net book value of the assets (acquisition cost of the real property plus the cost of capitalized improvements less accumulated depreciation). If the net book value of the property is not known or cannot be determined, the fair market value at the time of the transfer may be used. The same amount of the transfer must be used by both parties. Detailed explanations for property and fiscal accountability are required as supporting footnotes to the accounting entries.

2.6.5. The accounting entries for transfers between DoD components without reimbursement are standard transactions E510 and E606 specified in the USSGL SFIS Transaction Library.

2.6.6. The DoD (DD) Form 1354, “Transfer and Acceptance of DoD Real Property,” is used to document the transfer of real property between DoD Components.

2.7 Disposal of DoD Real Property

2.7.1. Sale by GSA. If real property is not transferred to another Military Department, the SECDEF must request that the GSA Administrator dispose of such real property in accordance with the provisions of applicable laws. See DoD Instruction 4165.72, “Real Property Disposal,” for additional information.

2.7.2. Deposit of Proceeds. Any consideration (money) received must be deposited directly into the special fund Treasury receipt account 5188 with the point account specified in Table 14-1. The explanation for this transaction is as follows: to record the disposition of real property located at (include a full description and the Real Property Universal Identifier number). Monies received were deposited into the special fund Treasury account 5188.xxx, “Disposal of DoD Real Property,” under cash voucher #______ in accordance with 40 U.S.C. § 572.

2.7.3. Availability of amount deposited. To the extent provided in an appropriation act, an amount deposited in a special Treasury account from the disposal of property is available for facility maintenance and repair or environmental restoration as follows:

2.7.3.1. In the case of property located at a military installation that is closed, the amount is available for facility maintenance and repair or environmental restoration by the Military Department that had jurisdiction over the property before the closure of the military installation.

2.7.3.2. In the case of property located at any other military installation:
2.7.3.2.1. Fifty percent of the amount is available for facility maintenance and repair or environmental restoration at the military installation where the property was located before it was disposed of or transferred; and

2.7.3.2.2. Fifty percent of the amount is available for facility maintenance and repair and for environmental restoration by the Military Department that had jurisdiction over the property before it was disposed of or transferred.

2.7.4. Accounting Entries. The accounting entries for disposal of real property are specified in the USSGL SFIS Transaction Library, primarily in Category C, “Collections and Receivables” and Category D, “Adjustments, Write-offs and Reclassifications.”

3.0 REPORTING REQUIREMENTS TO CONGRESS

3.1 Reporting and Notification

3.1.1. 40 U.S.C. § 572(b)(6). As part of the annual request for authorization of appropriations to the Committees on Armed Services of the Senate and the House of Representatives, the Department must include an accounting of each transfer and disposal of real property made during the fiscal year proceeding the fiscal year in which the request is made. This summary must include a detailed explanation of such disposal and the use of the proceeds received.

3.1.2. 10 U.S.C. § 2662(a) includes specific reporting requirements for leases in which the Secretary of a Military Department or, with respect to a Defense Agency, the SECDEF may not enter into any transactions by or for the use of that department until the Secretary concerned submits a report to the Committee on Armed Services of the Senate and the Committee on Armed Services of the House of Representatives. These reporting requirements are discussed in detail in paragraph 3.2.

3.1.3. 10 U.S.C. § 2667(h). When a proposed lease involves only personal property, the lease term exceeds one year, and the fair market value of the lease consideration exceeds $100,000:

3.1.3.1. This paragraph does not apply if the Secretary concerned determines that:

3.1.3.1.1. A public interest will be served as a result of the lease; and

3.1.3.1.2. The use of competitive procedures for the selection of certain lessees is unobtainable or not compatible with the public benefit served under item 3.1.3.1.1.

3.1.3.2. Not later than 45 days before entering into a lease, the Secretary concerned must submit to Congress written notice describing the terms of the proposed lease to include:

3.1.3.2.1. The competitive procedures used to select the lessee; or
3.1.3.2.2. In the case of a lease involving the public benefit exception authorized by 10 U.S.C. § 2667(h) (2) and the description of the public benefit to be served by the lease.

3.1.3.3. The reporting requirement described in this paragraph does not apply to renewal or extension of a certain leases by the Secretary of the Navy for operation of a ship within the University National Oceanographic Laboratory System. See 10 U.S.C. § 2667(h)(3) for the specific terms of this exception.

3.1.4. 10 U.S.C. § 2668. Copies of instruments granting easements over public lands must be furnished to the Secretary of the Interior.

3.2 Reporting under Title 10 U.S.C. § 2662

3.2.1. Under 10 U.S.C. § 2662, the Secretary concerned must submit a report to the Committee on Armed Services of the Senate and the Committee on Armed Services of the House of Representatives before entering into an acquisition, lease, license, or easement of real property owned by the United States (other than a lease or license entered into under Base Closure and Realignment Property), if the estimated price or annual fair market rental value of the property is more than $750,000.

3.2.2. Reporting notifications under 10 U.S.C. § 2662 do not apply to any new facilities whose construction is accepted as in-kind consideration. The Secretary concerned must notify Congress of the proposed lease before (1) issuing a contract solicitation or other lease offering with regard to the transaction; and (2) providing public notice regarding any meeting to discuss a proposed contract solicitation with regard to the transaction. The contents of this public notification are specified in 10 U.S.C. § 2662(b)(2). Specifically, the notification must include the following with regard to the proposed lease:

3.2.2.1. A description of the proposed transaction, including the proposed duration of the lease;

3.2.2.2. A description of the authorities to be used in entering into the transaction;

3.2.2.3. A statement of the scored cost of the entire transaction, determined using the scoring criteria of the Office of Management and Budget;

3.2.2.4. A determination that the property involved in the transaction is not excess property, as required by 10 U.S.C. § 2667 (a)(3), including the basis for the determination;

3.2.2.5. A determination that the proposed transaction is directly compatible with the mission of the military installation at which the property is located and a description of the anticipated long-term use of the property at the conclusion of the lease;
3.2.2.6. A description of the requirements or conditions within the contract solicitation or other lease offering for the person making the offer to address taxation issues, including payments in lieu of taxes, and other development issues related to local municipalities; and

3.2.2.7. If the proposed lease involves a project related to energy production, a certification by the SECDEF that the project, as it will be specified in the contract solicitation or other lease offering, is consistent with the DoD performance goals and plan required by 10 U.S.C. § 2911.

3.2.3. 10 USC 2662 Notification. The Secretary concerned may not enter into the actual lease with respect to property for which the information required by 10 U.S.C. § 2662(b)(2) (see 3.1.2) was submitted in a report to Congress unless the Secretary again complies with these notice-and-wait requirements. The subsequent report to Congress must include the following with regard to the proposed transaction:

3.2.3.1. A cross reference to the prior report that contained the information submitted under 10 U.S.C. § 2662(b)(2) with respect to the transaction;

3.2.3.2. A description of the differences between the information originally submitted under 10 U.S.C. § 2662(b)(2) and the information regarding the transaction being submitted in the subsequent report;

3.2.3.3. A description of the payment to be required in connection with the lease, license, or easement including a description of any in-kind consideration that will be accepted;

3.2.3.4. A description of any community support facility or provision of community support services under the lease, license, or easement, regardless of whether the facility will be operated by a covered entity (as defined in 10 U.S.C. § 2667(d)) or the lessee or the services will be provided by a covered entity or the lessee; and

3.2.3.5. A description of the competitive procedures used to select the lessee or, in the case of a lease involving the public benefit exception authorized by 10 U.S.C. § 2667(h)(2), a description of the public benefit to be served by the lease.
VOLUME 12, CHAPTER 15: “EDUCATIONAL ASSISTANCE PROGRAMS”

SUMMARY OF MAJOR CHANGES

Changes are identified in this table and also denoted by blue font.

Substantive revisions are denoted by an * symbol preceding the section, paragraph, table, or figure that includes the revision.

Unless otherwise noted, chapters referenced are contained in this volume.

Hyperlinks are denoted by bold, italic, blue, and underlined font.

The previous version dated March 1998 is archived.

CHAPTER 15

EDUCATIONAL ASSISTANCE PROGRAMS

1.0 OVERVIEW (1501)

1.1 Purpose (150101)

This chapter provides guidance relative to financial operations of and recording transactions for the Educational Assistance Programs and establishes the accounting principles and standards relative to those requirements.

1.2 General (150102)

1.2.1. Entitlements under the Educational Assistance Programs are established by law and are available to any person meeting eligibility requirements. Authorizations for entitlements constitute a binding obligation on the part of the Federal Government, and eligible recipients may have legal recourse if the obligation is not fulfilled. Legislation authorizing entitlements does not necessarily include a corresponding appropriation of funds; thus, the subsequent enactment of appropriations may be necessary.

2.0 EDUCATIONAL ASSISTANCE PROGRAMS (1502)

2.1 Background (150201)

The Veteran’s Educational Assistance Act of 1984 (P.L. 98-525) referred to as the Montgomery GI Bill (MGIB), provides for an educational assistance program to aid in the recruitment and retention of members of the Armed Forces and the readjustment of members to civilian life after their separation from military service. The Act also provides a program of educational assistance to aid in the recruitment and retention of members of the Selected Reserve.
2.2 Accounting Treatment (150202)

The accounting treatment to be followed for entitlement programs depends on the program and the nature and other circumstances surrounding the requirements to pay benefits. Generally, the unexpended appropriation shall be reduced by the amount of the liability and recorded as a financing source when the liability and expense are recognized. Specific payment procedures for each education benefit program are outlined below.

2.3 Eligibility Requirements (150203)

* 2.3.1. Active Duty (Chapter 30, Title 38 U.S.C). Eligibility is obtained when an individual:

   * 2.3.1.1. First becomes a member of the Armed Forces but expires 10-years after the member separates.

   2.3.1.2. Does not disenroll from the basic program.

   2.3.1.3. Has their pay reduced by $100 per month for the first 12 months of active duty.

   2.3.1.4. Meets the initial Service-defined criteria for additional or supplemental benefits of any type.

   * 2.3.1.5. Members who are separated from active duty because of a disability which was not the result of the individual’s own willful misconduct incurred on or after the date on which that member became entitled to educational assistance, such member’s entitlement to educational assistance expires at the end of the 10-year period beginning on the date on which the member was discharged or was released from active duty.

2.3.2. Selected Reserve (Chapter 1606, Title 10, U.S.C)

2.3.2.1. Members of the Selected Reserve who meet all of the following criteria are entitled to educational assistance:

   2.3.2.1.1. On or after July 1, 1985, enlisted, reenlisted or extended an enlistment in a Reserve component for service in the Selected Reserve for a period of not less than 6 years or, in the case of officers, agree to serve in the Selected Reserve for 6 years beyond any existing Selected Reserve service obligation.

   2.3.2.1.2. Completed the requirements for award of a high school diploma or equivalency certificate before applying for benefits (Reference 10 U.S.C. 16132(a)).

   2.3.2.1.3. Completed the initial period of active duty for training required of the member.
2.3.2.2. Each person who becomes entitled to educational assistance shall be given a written DD Form 2384-1, Notice of Basic Eligibility summarizing the provisions of 10 U.S.C. Chapter 1606. This notice provides a date of basic eligibility contingent on meeting initial eligibility criteria established in subparagraph 2.3.2.1 above.

* 2.3.2.3. Period of Entitlement. Member’s entitlement to educational assistance expires at the end of the 14-year period beginning on the date on which the member became entitled to such assistance or on the date the member separates from the Selected Reserve, whichever occurs first. However, the expiration of a Service member’s entitlement who is ordered to active duty under an order issued under sections 12031(a), 12301(d), 12301(g), or 12304 of 10 U.S.C. shall be extended beyond the 14-year period or the date the Service member separated from the Selected Reserve by the length of the period of active duty plus 4 months.

* 2.3.2.4. Members who are separated from the Selected Reserve because of a disability which was not the result of the individual’s own willful misconduct incurred on or after the date on which that member became entitled to educational assistance, such member’s entitlement to educational assistance expires at the end of the 14-year period beginning on the date on which the member became entitled to such assistance.

* 2.3.3. Reserve Component Members Supporting Contingency Operations (Chapter 1607, Title 10, U.S.C.).

2.3.3.1. Reserve Component members supporting contingency operations and National Guard Members supporting certain operational requirement who meet all of the following criteria are entitled to educational assistance:

2.3.3.1.1. Reserve Component member ordered to active duty in support of a contingency operation and served for 90 consecutive days or more on or after September 11, 2001.

2.3.3.1.2. A member of the Army or Air National Guard, ordered to duty under Section _, for 90 consecutive days or more if the duty performed was authorized by the President or Secretary of Defense for the purpose of responding to a national emergency declared by the President and supported by federal funds, and 90 or more consecutive days of such duty occurred on or after September 11, 2001.

2.3.3.2. Members released from duty before completing 90 consecutive days because of an injury, illness, or disease incurred or aggravated in the line of duty (Line of Duty determination required) shall be entitled to educational assistance at the rate prescribed in Section 16162(c)(4)(A) of Title 10, U.S.C.

2.3.3.3. Active Guard and Reserve members may qualify for this benefit but only if their name is listed on an individual or collective by name list of personnel stating that they have been mobilized and/or deployed to support a qualifying mission as described in subparagraphs 2.3.3.1 or 2.3.3.2, above.
2.3.3.4. An Active Guard or Reserve member cannot gain eligibility by merely providing support (even if direct support) to a mobilized portion of the unit unless the Active Guard or Reserve member is mobilized or deployed as provided in subparagraph 2.3.3.3, above.

2.3.3.5. To retain eligibility for educational assistance under 10 U.S.C. Chapter 1607.

2.3.3.5.1. A member who was serving in the Selected Reserve at the time the member was ordered to active duty or full-time National Guard duty must continue to serve in the Selected Reserve, except, under regulations prescribed by the Secretary of Defense, educational assistance may be provided to a member of the Selected Reserve who incurs a break in service in the Selected Reserve of not more than 90 days if the member continues to serve in the Ready Reserve during and after such break in service;

2.3.3.5.2. A member who was serving in the Individual Ready Reserve to the time the member was ordered to active duty must continue to serve in the Ready Reserve (either the Selected Reserve or the Individual Ready Reserve).

* 2.3.4. National Call to Service (10 U.S.C. 510(e)). The National Call to Service (NCS) Incentive program requires a participant to perform a period of national service to be eligible for benefits.

2.3.4.1. There is a three-tiered service requirement to qualify for incentives under the NCS program:

2.3.4.1.1. First, after completion of initial entry training, individuals must serve on active duty in a military occupational specialty designated by the Secretary of Defense for a period of 15 months.

2.3.4.1.2. After this, and without a break in service, these individuals must serve either an additional period of active duty as determined by the Secretary of Defense, or a period of 24 months in an active status in the Selected Reserve.

2.3.4.1.3. After completion of this period of service, and also, without a break in service the remaining period of obligated service specified in the agreement will be served as follows:

2.3.4.1.3.1. On active duty in the armed forces.

2.3.4.1.3.2. In the Selected Reserve.

2.3.4.1.3.3. In the Individual Ready Reserve.

2.3.4.1.3.4. In AmeriCorps, or another domestic national service program jointly designated by the Secretary of Defense and the head of such a program.
2.3.4.2. Any combination of the service referred to above may also be approved by the Secretary of the Military Department concerned pursuant to regulation prescribed by the Secretary of Defense and specified in the agreement.

2.3.4.3. Individuals who participate in this program have a choice of incentives as follows:

2.3.4.3.1. Cash bonus of $5,000.

2.3.4.3.2. Repayment of a qualifying student loan not to exceed $18,000.

2.3.4.3.3. Entitlement to allowance equal to the 3-year monthly 38 U.S.C. Chapter 30 rate for 12 months ($1,101 effective October 1, 2007).

2.3.4.3.4. Entitlement to allowance equal to fifty percent of the less than 3-year monthly 38 U.S.C. Chapter 30 rate for 36 months (fifty percent of $894.00 effective October 1, 2007).

2.3.4.4. The NCS participants are not entitled to additional assistance under 10 U.S.C. Chapter 1606 or 38 U.S.C. Chapter 30 benefits. However, if the NCS participant has eligibility under either of these chapters, he or she may be paid the amount of 10 U.S.C. Chapter 1606 or 38 U.S.C. Chapter 30 benefits minus any amounts paid under the NCS program. The education benefit options will be administered to the extent possible like 10 U.S.C. Chapter 1606.

2.3.5. Chapter 30 Benefits Transferred to Dependents (Chapter 30, Title 38, U.S.C., Section 3020). Developed for the purpose of enhancing recruitment and retention of members of the Armed Forces, this program allows eligible Members to transfer basic educational assistance to one or more dependents.

2.3.5.1. Members who meet the following criteria are eligible:

2.3.5.1.1. Completed 6 years of service in the Armed Forces;

2.3.5.1.2. Has critical military skill designed by the Secretary; or

2.3.5.1.3. Is in a military specialty designated by the Secretary concerned as requiring critical military skills; and

2.3.5.1.4. Enters into an agreement to serve at least 4 more years as a member of the Armed Forces.
2.3.5.2. Individuals who are approved to transfer an entitlement to basic educational assistance follow:

2.3.5.2.1. The member’s spouse.

2.3.5.2.2. To one or more of the member’s children.

2.3.5.2.3. To a combination of “a” and “b” above.

2.3.5.3. The total number of months of entitlement transferred by a Member to a dependent may not exceed 18 months.

2.3.6. Maximum Combined Eligibility. Members eligible for multiple benefit programs, e.g., 38 U.S.C. Chapter 30 and 10 U.S.C. Chapter 1606; or 10 U.S.C. Chapter 1606 and 10 U.S.C. Chapter 1607 can use up to 36 months of a given program but cannot exceed more than 48 months combined.

3.0 TYPES OF PROGRAMS (1503)

3.1 Categories of Education Benefits (150301)

Education benefits are comprised of two major categories -- Those with a pay reduction and those without a pay reduction.

*3.2 Pay Reduction Programs (150302)

Enrollees in these programs, 38 U.S.C. §§ 3011 and 3012, have their pay reduced by $100 each month for the first 12 months of active duty. All participating service members are required to have completed the requirements for a high school diploma or an equivalency certificate, or have successfully completed the equivalent of 12 credit hours in a program of education leading to a standard college degree before becoming eligible to use the benefit. Members who meet these requirements are entitled to a basic monthly benefit and can receive up to 36 months of benefit. Some exceptions exist for early discharge for service connected disability.

3.2.1. Educational Assistance Program for Service on Active Duty. Participation in this program is limited to persons who:

3.2.1.1. After June 30, 1985, first become a member of the Armed Forces or first enters on active duty as a member of the Armed Forces.

3.2.1.2. Serve at least 3 years of continuous active duty in the Armed Forces.

3.2.1.3. Serve at least 2 years of continuous active duty in the case of an individual whose initial period of active duty is less than 3 years, (see further stipulations in subparagraph 3.2.2 below).
3.2.1.4. After completion of the service described above:

3.2.1.4.1. Continue on active duty.

3.2.1.4.2. Are discharged from active duty with an honorable discharge.

3.2.1.4.3. Are placed on the retired list or temporary disability retired list, or is transferred to the Fleet Reserve or Fleet Marine Corps Reserve.

3.2.1.4.4. Are released from the Armed Services under honorable conditions by the Secretary of Defense for further service in a Reserve Component of the Armed Forces.

3.2.2. Educational Assistance Program for Less than 3 Years Service on Active Duty. Participation in this program is limited to persons who:

3.2.2.1. After June 30, 1985, first become a member of the Armed Forces or first enters on active duty as a member of the Armed Forces.

3.2.2.2. Serve at least 2 years of continuous active duty.

3.2.2.3. Beginning within 1 year after completion of the service on active duty, serve at least 4 years of continuous duty in the Selected Reserve during which the individual participates satisfactorily in the training as required by the Reserve Unit or the Department of Defense.

3.3 No Pay Reduction Programs (150303)

3.3.1. Educational Assistance Program for Service in the Selected Reserve.

3.3.1.1. The Montgomery GI Bill (MGIB) for the Selected Reserve (Chapter 1606, Title 10, U.S.C.) provides educational assistance to individuals who agree to serve in the Selected Reserve of the Ready Reserve for 6 years and meet the eligibility criteria specified in paragraphs 2.3.2.1 through 2.3.2.3.
3.3.1.2. Additionally, the Secretary of the Military Department concerned may provide additional educational assistance to a member who has a skill or specialty designated by the Secretary concerned as a skill or specialty in which there is a critical shortage of personnel or for which it is difficult to recruit or, in the case of critical units, retain personnel. This benefit is often referred to as the “kicker” and is in addition to the assistance provided under the basic benefit. To be eligible for kicker payments, the member must qualify for and be assigned to a Service-designated critical specialty, skill, or unit in the Selected Reserve designated by the Secretary concerned, be in receipt of basic MGIB Selected Reserve benefits or benefit under 38 U.S.C. Chapter 30 (other than section 3012), and enter into a period of obligated service, as described in subparagraph 2.3.2.1. The period of obligated service for kicker payments is separate from the period of obligated service for the basic MGIB Selected Reserve benefit, but runs concurrently with that period of obligated service. Kicker payments may not exceed $350 per month.

3.3.1.3. Individuals may not receive credit for service in both this program and the programs under paragraph 3.2.

3.3.1.4. Members who have met the eligibility criteria will be given a statement in writing summarizing the provisions of sections 16134 and 16135, Chapter 1606, Title 10 U.S.C.

3.3.1.5. A member is prohibited from receiving educational assistance under this program and financial assistance as a member of the Senior Reserve Officers’ Training Corps Program.

3.3.1.6. Eligibility for educational assistance under 10 U.S.C. Chapter 1606 terminates when a member fails to participate satisfactorily in the required training as a member of the Selected Reserve or 14 years after becoming eligible for MGIB Selected Reserve benefits, whichever occurs first. However, the expiration of a Service member’s entitlement who is ordered to active duty under an order issued under sections 12301(a), 12301(d), 12301(g), or 12304 of 10 U.S.C. shall be extended beyond the 14-year period or the date the Service member separated from the Selected Reserve by the length of the period of active duty plus 4 months.

3.3.2. Reserve Educational Assistance Program for Reserve Component Members Supporting Contingency Operations and Other Specified Missions. Enrollees in this program, as provided in section 16163(a), Chapter 1607 of Title 10, U.S.C., are required to have been ordered to active duty in support of a contingency operation or in the case of National Guard members order to duty under section 502(f), Title 32, U.S.C., at the request of the President or Secretary of Defense for the purpose of responding to a national emergency declared by the President or the Congress.

3.3.2.1. Participation in this program is limited to persons who:

3.3.2.1.1. On or after September 11, 2001, have been ordered to active duty in support of a contingency operation or ordered to full-time National Guard duty to respond to national emergency declared by the President or the Congress and have served for 90 consecutive days or more.
3.3.2.1.2. The educational assistance entitlement increases based on the length of continuous service.

3.3.2.1.2.1. A member who completes 90 consecutive days of qualifying service is entitled to assistance at a rate equal to 40 percent of the rate provided to an individual eligible for assistance under 38 U.S.C. 3011.

3.3.2.1.2.2. A member who completes 1 continuous year of qualifying service is entitled to assistance at a rate equal to 60 percent of the rate provided to an individual eligible for assistance under 38 U.S.C. 3011.
