CHAPTER 2

FINANCIAL REPORTS, ROLES AND RESPONSIBILITIES

0201 GENERAL

020101. Purpose

This chapter defines the roles and responsibilities in the preparation and issuance of financial reports for Department of Defense (DoD) Components. DoD Components and the Defense Finance and Accounting Service (DFAS) are responsible for the proper and consistent preparation of financial reports at the DoD Component departmental, intermediate, and installation level. In some instances, DoD Components prepare their own financial reports without accounting support from DFAS. Ultimately, each DoD Component is responsible for the accuracy and completeness of financial information in the reports that present the financial effects of its operations.

A. The policies within this chapter apply to all DoD Components and include those entities whose departmental, intermediate, and installation level financial reports are prepared by DFAS, DoD Components and organizations operating Enterprise Resource Planning (ERP) systems under an approved agreement with DFAS, certain DoD Components which prepare their own financial reports (e.g., the Army Corps of Engineers), and organizations required to perform their own accounting due to security considerations.

B. In those instances in which DFAS does not have financial report preparation responsibility, the reporting entity will fulfill the responsibilities assigned in this chapter at both the DFAS and DoD Component level. This chapter does not include the requirements for the audited or interim financial statements addressed within Office of Management and Budget (OMB) Circular A-136, “Financial Reporting Requirements.” Volume 6B, “Form and Content of the Department of Defense Audited Financial Statements,” contains those requirements.

*020102. Authoritative Guidance

This chapter prescribes the roles, responsibilities, and authoritative guidance for preparation and issuance of financial reports for DoD Components in accordance with the reporting responsibilities and internal control provisions identified in:

B. Office of the Under Secretary of Defense (Comptroller) (OUSDC)/Chief Financial Officer (CFO) “DoD Financial Statement Audit Guide”; and

0202 RESPONSIBILITIES

*020201. Stewardship and General Responsibilities

The U.S. Congress provides resources to finance the programs, missions, and functions of DoD and its Components. Financial reports are a tool to display the status and uses of those resources at a point in time. DoD Components and DFAS have responsibilities to ensure that financial information is accurate and timely in order for managers to make sound decisions and exercise proper stewardship over these resources. Refer to the “DoD Internal Control Over Financial Reporting Guide” for additional information on roles and responsibilities for internal controls over financial reporting.

*020202. Internal Controls

A. DoD Components. DoD Components will maintain or create internal controls to ensure that data input in DoD Component-controlled systems, or provided to DFAS to be recorded in the accounting systems and subsequently used in financial reports, is accurate, complete, supportable, and input timely into the finance and accounting systems. Refer to the “DoD Internal Control Over Financial Reporting Guide” for additional internal controls applicable to DoD Components.

1. DoD Components will maintain or create controls to ensure actual or potential Antideficiency Act violations are reported, reviewed, and investigated in accordance with Volume 14, Chapter 2.

2. DoD Components will perform and document periodic reviews of system functionality to ensure controls are in place to verify the authorization of recorded transactions and compliance with the U.S. Government Accountability Office (GAO) “Federal Information System Controls Audit Manual” (FISCAM) framework.

3. DoD Components will comply with internal control policies contained in DoD Instruction (DoDI) 8510.01, “Risk Management Framework (RMF) for DoD Information Technology (IT);” Volume 1, Chapter 3; and the “DoD Internal Control Over Financial Reporting Guide.”

B. DFAS. DFAS will maintain or create controls to ensure that data provided by each DoD Component is recorded accurately and processed timely for financial reporting. Refer to the “DoD Internal Control Over Financial Reporting Guide” for additional internal controls applicable to DFAS reporting.

1. DFAS will maintain or create controls to ensure actual or potential Antideficiency Act violations are reported to DoD Components for their review and investigation in accordance with Volume 14, Chapter 2.
2. DFAS will perform and document periodic reviews of DFAS system functionality to ensure controls are in place to verify the authorization of recorded transactions and compliance with the FISCAM framework.

3. DFAS will maintain feeder files used in financial reporting from accounting systems of record (component-controlled), in accordance with records retention guidance contained in Volume 1, Chapter 9.

4. DFAS will maintain supporting documentation for corrections made to DoD Component submissions in intermediate edit systems as part of the audit trail for the reporting period. DFAS will maintain records to support adjustments to DoD Component submissions and assign transactions that fail to pass edits to DFAS or the DoD Component for research and correction.

5. DFAS will provide any adjustments made to DoD Component submissions so they can be recorded by the DoD Component in the accounting systems of record, if not already recorded in the accounting systems of record in the current or subsequent period, before the beginning of the next reporting cycle. DFAS and the DoD Component must make every effort to resolve any discrepancies prior to the end of the reporting period. DFAS and the DoD Components must track unresolved discrepancies for research and correction as soon as possible after the end of the reporting period.

6. DFAS will comply with internal control policies contained in DoDI 8510.01; Volume 1, Chapter 3; and the “DoD Internal Control Over Financial Reporting Guide.”

020203. Audit Trails

A. DoD Components. DoD Components will maintain audit trails in sufficient detail, including the rationale, justification, and approvals to permit tracing of transactions and balances from their sources to their transmission to DFAS. Audit trails are necessary to demonstrate the accuracy, completeness, and timeliness of the transaction. In addition, audit trails provide documentary support for all data generated by the DoD Component and submitted to DFAS for recording in the accounting systems and use in financial reports.

B. DFAS. DFAS will clearly document processes and internal controls and maintain a complete and documented audit trail to support the reports it prepares. The organization that translates the information into an electronic mode will retain supporting documents or images of the supporting documents. DFAS will establish documented business rules and internal controls to ensure feeder file data is received, processed, and compiled in departmental reporting system output files.

1. DFAS will sufficiently document adjustments to DoD Component submissions to assist approving officials and others, such as auditors, in understanding the reason for preparing the adjustment, and to support the validity of adjustments prepared during the reporting period.
2. DFAS will ensure documentation is readily available as part of the audit trail for the reporting period. The documentation must be readily available for assisting auditors, and those involved in financial statement preparation, to understand how feeder file records are processed.

*020204. Reconciliation

Many financial balances (e.g., general ledger (GL) proprietary and budgetary accounts, such as assets, liabilities, commitments, and undelivered orders) require supporting subsidiary records to validate the amount of the financial balance. Reconcile subsidiary records to financial balances in accordance with the policies, requirements, and frequencies prescribed in 020204.A-B.

* A. DoD Components

1. DoD Components maintain the supporting records for many financial balances. An individual authorized by each DoD Component will periodically validate the accuracy of such subsidiary records against applicable physical assets or other appropriate confirmations of the source documents. DoD Components perform periodic physical inventories in accordance with DoDI 5000.64, “Accountability and Management of DoD Equipment and Other Accountable Property,” for tangible equipment, and DoDI 4165.14, “Real Property Inventory (RPI) and Forecasting,” for real property. Validations must be documented, signed, and dated by the individual authorized by the DoD Component.

   a. Various regulations require periodic counting, or another physical verification in the case of equipment, inventories, supplies and materials, and real property, depending upon the nature of the asset. Refer to Volume 1, Section 260, “Identify Risk Factors,” of the GAO Financial Audit Manual (FAM) for controls related to the completeness and accuracy of inventory records.

   b. Periodic validation and/or reconciliation is required in the case of commitments, obligations, accounts receivable, and accounts payable. These validations will include the review of the documentary evidence that initiated the financial transaction to ensure the integrity of source data. For additional information, see Volume 3, Chapter 8.

2. Document and provide changes in the source data to DFAS for proper recording. The reconciliation of source data with reported balances is a joint responsibility of DFAS and the DoD Component.

B. DFAS

1. DFAS will establish procedures to ensure that all GL balances, and other associated financial balances, are validated and/or reconciled with supporting records, including source data, in accordance with DoD policy. See Volume 3, Chapter 8.

* June 2019

DoD 7000.14-R  Financial Management Regulation  Volume 6A, Chapter 2

* June 2019

2. DFAS will investigate unreconciled differences and document adjustments required to balance the GL amount and the amount of the subsidiary records with the rationale, justification, and approvals.

3. DFAS will perform reconciliations on a monthly basis, at a minimum, to determine the cause of differences and take appropriate corrective actions to ensure the accuracy and integrity of the accounting system and monthly reports when unreconcilable differences between the GL and the subsidiary records exceed $1 million. Continue to perform monthly reconciliations until the unreconcilable difference is less than $1 million.

4. DFAS will reconcile changes in source data, made by the DoD Component, with reported balances. The reconciliation of source data with reported balances is a joint responsibility of DFAS and the DoD Component.

020205. Reporting Schedules

A. DFAS will establish procedures requiring joint development of report preparation schedules with DoD Components according to the timeframes established by the Department of the Treasury Bureau of the Fiscal Service (Fiscal Service). DFAS and the DoD Components will work to resolve issues identified in the report preparation process according to the Fiscal Service schedule.

B. Reporting schedules for reports provided to external recipients will include the opportunity to present a draft of the report to the DoD Component for review and approval prior to release to the recipients.

020206. Draft Reports

A. DoD Components. DoD Components will review DFAS reports to assess the accuracy of the financial information reported. The review will identify errors, omissions, and significant diversions from budgeted or planned amounts and levels of activity. The DoD Component will:
1. Research and propose adjustments to correct abnormal balances. A GL balance is abnormal when the reported balance does not comply with the normal debit or credit balance established in the DoD Standard Reporting Chart of Accounts. DoD Components will establish and maintain supporting documentation for requested adjustments to financial reports and provide the support to DFAS;

2. Research any unusual trends and comparisons with the prior year and/or prior period amounts to determine whether corrective action is required;

3. Ensure that the amounts in the financial reports are consistent and reconcilable with the same financial data included in management reports prepared by the DoD Component;

4. Not change draft reports provided by DFAS or release the reports to external recipients. For errors or omissions identified in a draft report, submit a request to DFAS to revise the report and include changes in the final report; and

5. Validate reports created within their ERP systems. DoD Components will perform quality reviews to confirm that:
   a. Amounts on the report are mathematically correct;
   b. Internal relationships of amounts included in a report that are interdependent are correct;
   c. Abnormal account balances, such as negative balances or unusual amounts, are researched and resolved, if possible. If unresolved, include comprehensive explanations identifying root causes and the timeline for resolution; and
   d. Unusual trends and comparison with the prior year and/or prior year amounts are identified, researched, and explained.

B. DFAS. DFAS will validate reports to ensure reported amounts agree with the official accounting records prior to release to DoD Components for review and approval or release to external recipients. DFAS will perform quality reviews to confirm that:

1. Amounts on the report are mathematically correct;

2. Internal relationships of amounts included in a report that are interdependent are correct;

3. Abnormal account balances, such as negative balances or unusual amounts, are researched and resolved, if possible. If unresolved, include comprehensive explanations identifying root causes and the timeline for resolution;
4. Reported amounts for the same data elements for the same report period are consistent across all similar financial reports; and

5. Unusual trends and comparisons with the prior year and/or prior period amounts are identified and called to the attention of the DoD Component.

C. OUSD(C). Refer DoD Component-proposed changes to the draft reports, with which DFAS does not concur, to the OUSD(C) Directorate with oversight responsibility for the subject matter, for adjudication before the end of the current reporting cycle. The DoD Component, or DFAS, may submit requests for adjudication through their reporting chain of command to OUSD(C).

020207. Journal Voucher (JV) Adjustments

A. JVs are all adjustments recorded in system transaction registers and the GL identifying summary-level adjustments to the GL. JVs are required for several reasons, including instances when subsidiary records do not reconcile with the financial balances, transactions need correction, and adjustments are required to align obligations, accruals, or expenses with the liquidation amounts for receipts, acceptances, and/or disbursements. JVs do not include transactions and processes used to record detail amounts in subsidiary ledgers as standard business transactions.

B. Either DFAS or the DoD Components may identify the need to make adjustments. Both DFAS and DoD Components will support adjustments with sufficiently detailed written documentation to provide an audit trail to the source transaction(s) that require the adjustments. The documentation will include the rationale and justification for the adjustment, the dollar amount of errors or conditions related to the transaction(s) or record(s) proposed for adjustment, the date of adjustment, and the name and position of the individual approving the adjustment. The documentation must be readily available in one or a combination of the following media: hardcopy, systemically stored electronic records, or electronic files maintained in an external system or location.

1. DoD Components. When, during the applicable reporting period, a DoD Component identifies an adjustment pertaining to information included in a monthly, quarterly, semiannual, or annual report, the adjustment need not be reported separately, but will be included as part of the financial information used to produce final report balances.

2. DFAS. When DFAS identifies a required adjustment to the official accounting records of a DoD Component, it will refer the proposed adjustment to the DoD Component who will review and approve the adjustment. DFAS must document proposed adjustments to DoD Component submissions and provide supporting documentation. DoD Components must respond with approval or disapproval for proposed adjustments within reporting cutoff dates for the relevant period. The following paragraphs provide the exceptions to this policy.

   a. When DFAS makes an adjustment of less than $1 billion to correct errors made by DFAS in the preparation of a report, (e.g., calculation errors and similar
mistakes), they may be corrected by DFAS without prior referral to the affected DoD Component. Examples of corrections that may be made by DFAS without referral to a DoD Component are:

1. Adjustments to correct systems processing deficiencies;
2. Adjustments to correct an error made by DFAS in processing a transaction or a previous adjustment;
3. Adjustments to correct a financial balance to equal the sum of subsidiary records; and
4. Adjustments to align funding, obligation, accrual, or expense amounts with the liquidation amount for receipts, acceptances, and/or disbursements when the applicable supporting information requires such adjustments.

b. DFAS will notify DoD Components at least once each month of the reports impacted, total amounts, types, and categories of reasons for adjustments made without prior referral to the DoD Component under circumstances specified in the preceding paragraph and provide corrected reports if applicable. DFAS will keep adequate records of all such notifications and DFAS and the DoD Component will work together to record adjustments made by DFAS in the accounting systems of record before the beginning of the next reporting cycle.

*020208. JV Preparation

A. General. Proper preparation of, and adequate support for, JVs is important to ensure they accurately record accounting, financial, or other GL-related events and that documentation for a detailed audit trail exists. Unadjusted GL account balances represent the listing of GL account balances at the end of the reporting period, before period-end adjusting JVs are recorded. In various level financial reporting systems, the unadjusted GL balances reported are summaries of transaction data used to record specific homogeneous types of transactions and balances that aggregate to specific classifications on the financial statements. Use JVs to process monthly, quarterly, and annual adjustments to unadjusted GL account balances in the field and higher-level accounting and reporting systems.

1. All summary-level entries included in system transaction registers identifying adjustments to the GL are considered JVs for the purposes of this chapter and must be adequately documented to support the validity of the transactions. In accounting systems of record, manual adjustments to the GL are considered JVs. Transactions and processes used to record detail amounts in subsidiary ledgers are not considered JVs.

2. Proper preparation of, and adequate support for, JVs is the responsibility of DFAS and the DoD Components. Memorandum-style entries to the GL, affecting neither Fiscal Service-level reporting nor subordinate records, are not considered JVs for the purposes of this chapter.
B. Appropriate Uses of JVs. JVs have the following primary uses within DoD.

1. Correcting Entries. Correcting entry JVs adjust for errors identified during the reports review process. This entry includes specific amounts, accounts, and/or transactions related to the required correction. If possible, the JV supporting documentation will note the required steps in the process to prevent the need for similar adjustments in future periods.

   a. In some cases, correcting entries are required to adjust for errors on previously prepared JVs. In those instances, correcting entries will both reverse the effect of incorrect entries and record the correct amount.

   b. In some cases, both entries can be made with one JV and a single set of supporting documentation. Regardless of whether a single JV or multiple JVs are prepared, the correcting JV will include a copy of the original JV, documentation supporting the correct amount, and a narrative explanation regarding how it is known that the original entry is incorrect and why the correcting entry is accurate/more accurate.

2. Source Entries. Source entry JVs record those accounting entries that, due to system limitations or timing differences, have not been otherwise recorded. By nature, source entry JVs are usually summarized at the entity level by GL account. The source entry accounting transaction will be supported by documentation for the summarized amounts and identify the location of the transaction level supporting detail. Source entry JVs, generally, are used for month-end closing, year-end processing and closing purposes, and also may include postings of information provided through data calls, such as those required to record values for property, plant, and equipment recognition.

3. Summarized Entries. Both correcting and source entry JVs will normally be summarized amounts for which documentation is required. In these situations, the summarized accounting entry represents the amount to record the effect of the detailed transactions. In all such cases, the summarized accounting entry will include documentation of the effect of the detailed transactions and identify the location of the transaction level supporting detail.

4. System-Generated Entries. For the purposes of this chapter, system-generated JVs are all system-generated and controlled entries included in system transaction registers identifying summary-level adjustments to the GL. Examples of system-generated entries include system-performed period-end closing entries, consolidations, and entries to bring GL accounts into balance at specified periods of times during the financial reporting process. System-generated JVs do not include the automation of JVs previously recorded manually. Reporting entities will document and retain system-generated entries adjusting reported amounts to final reported balances in the financial statements. Such system-generated entries must be maintained and available upon request to support the audit trail for the reporting period. Reporting entities must maintain adequate documentation, audit trails, and internal controls over these types of adjustments and review such automated events as part of system controls and table maintenance. System-generated JVs do not include transaction input or processes establishing detail amounts recorded in subsidiary ledgers.
5. **Subcategories.** Further separate correcting and source entry JVs into the following subcategories:

   a. **Audit Recommended JVs.** When auditors recommend a JV adjustment, the proper authoritative source (see paragraph 020207) will perform an analysis of the recommendation using the auditors’ workpapers and other relevant information to determine if the recommended adjustments are valid. Any decision resulting in a determination that a JV should, or should not, be prepared will document why the adjustment is, or is not, required; indicate how the duly authorized official determined that the audit recommendation should be, or should not be, followed; and identify the audit recommendation serving as the basis for the actions taken.

   b. **DoD Component Requested JVs.** When a DoD Component requests an adjustment that complies with the JV definition in 020207.A, a JV will be prepared. In addition, the JV will document why the adjustment is required, indicate how the duly authorized official determined that the entries included on the JV are correct, and identify the DoD Component’s request serving as the basis for the adjustment. The DoD Component’s JV request to DFAS will include supporting records and related analysis. A request for a JV entry that is not properly authorized or supported by accurate or proper documentation will be returned to the JV requestor with an indication of what additional information is required to process it, along with any applicable authoritative guidance.

   c. **Edits and Validations.** Reporting entities record JVs modifying report submissions to comply with edits and validations designed to improve the accuracy of financial reporting. **Section VII** of the Treasury Financial Manual United States Standard General Ledger (USSGL) contains a listing of Governmentwide Treasury Account Symbol Adjusted Trial Balance System validations and edits.

C. **Internal Controls.** OMB Circular A-123 identifies operational internal controls to ensure JVs are recorded properly. These controls will be in place for all transactions included in system transaction registers identifying summary-level adjustments to the GL. These controls do not apply to transaction input or processes establishing detail amounts recorded in subsidiary ledgers.

1. JVs may be prepared at the installation (execution) or departmental (reporting) level and must be:

   a. Systematically tracked and reflected in a JV log. Reporting entities must implement controls to ensure JVs are tracked and readily available for audit;

   b. Categorized by each of the applicable categories listed in subparagraph 020208.F;

   c. Reviewed and validated to ensure the transaction utilizes the correct accounts and posts correctly;
d. Documented to support the validity and the amount of the JV transaction. The documentation requirement applies to all transactions included in system transaction registers identifying summary-level adjustments to the GL;

e. Authorized, approved, and documented at the appropriate level of management or designee. The organizational level within accounting centers, accounting stations, finance offices, and other accounting locations approving JVs will vary by the dollar amount of the voucher as shown in Table 2-1. The dollar amount for each JV is the sum of the absolute value of the debit side entries on that voucher;

(1) The approving officials listed in Table 2-1 provide a framework for approving JVs based on identified thresholds. Reporting entities may adapt the approving officials identified based on the entity’s organizational structure. Within each of the listed thresholds, other approval thresholds with lower dollar values than those specified in Table 2-1 may be established to accommodate the organizational level of those preparing the JV. In addition, unless other DoD Component approval thresholds with lower dollar values are established in memorandums of understanding between DFAS and a DoD Component, all JVs over $1 billion will be coordinated with the affected DoD Component.

(2) Approving officials may delegate their authority in writing to lower-level supervisors or other duly authorized officials with sufficient knowledge of the accounting matters addressed by the JV. The delegation does not relieve approving officials of their responsibilities as outlined in this chapter. See additional guidance in subparagraph 020208.C.2;

f. Processed under procedures that ensure the separation of duties for preparing, approving, recording or posting, and validating to the maximum extent possible. The preparer and approver cannot be the same person;

g. Annotated with the name, title, and office symbol of currently authorized preparers, reviewers (if used), and approvers. In an electronic environment, the name, title, and office symbol may be represented by user identification;

h. Maintained and readily available in hard copy, electronic form, or a combination if there is a manual approval of an automated system JV. All manual JVs must be documented, approved by the appropriate level, readily available, and in compliance with
published guidance. Manual JVs include the automation of JVs previously recorded manually; and

i. Retained in accordance with records retention guidance contained in Volume 1, Chapter 9.

2. Maintain adequate managerial internal controls at each level of management, as directed in OMB Circular A-123, to ensure there is proper oversight of JV preparation. As a minimum, such managerial internal controls will entail the following:

   a. Within 10 workdays after the accounting centers' issuance of quarterly financial statements for the first through third quarters, approving officials, at the levels of authority designated in Table 2-1, must perform and document a high-level integrity review of all JVs for which they delegated approval authority. Integrity reviewers are required to review each delegated JV for compliance with the terms of the delegation but are not required to review all documentation supporting the JV. A fourth quarter review must take place prior to submission of the Agency Financial Report to OMB (no later than November 15). If the approving official, at the levels of authority designated in Table 2-1, is unavailable to perform the integrity review, an individual having the appropriate accounting knowledge and expertise, and who was not a delegated approver, can perform the integrity review on behalf of the approving official. This individual must be appointed in writing by the approving official.

   b. Within 30 calendar days of the issuance of the financial statements, whether quarterly or annually, the DFAS Director for Accounting (or designee) must perform a quarterly quality and compliance review after submission of the quarterly and annual reports to OUSD(C). Conduct the review on a random sample of all JVs to determine if JVs are correctly prepared and processed, adequately described and supported, and approved at the proper managerial level within the limitations set forth in subparagraph 020208.C.1.e.1. The Director of Accounting (or designee) may substitute monthly reviews in place of the quarterly review. The review must be conducted by an entity outside the immediate office that created the JV. The entity conducting the review must have sufficient auditing expertise to perform the review and must sign, date, and retain documentation to support the completed review.

(1) Conduct the review in accordance with Volume 1, Section 450, “Perform Sampling Control Tests,” of the FAM. The FAM provides guidance pertaining to acceptable sample sizes and error rates for typical internal control samples. Figure 450.1, “Sample Sizes and Acceptable Numbers of Deviations,” of the FAM includes tables to compute the acceptable number of deviations for testing controls. Within DoD, compute the acceptable number of deviations using a 90 percent confidence level and a 5 percent tolerable error rate. When the tolerable error rate is exceeded, review current JV procedures for possible revision to ensure compliance;

(2) Identify and correct errors and notify the affected DoD Component as necessary. Identify root causes and implement corrective actions as appropriate. If errors materially impacted the financial statements, evaluate the need to restate/reissue the financial statements;
c. The internal review office must conduct an assessment of the organization's JV processing procedures, in accordance with OMB Circular A-123, to ascertain if JVs are properly prepared and supported. Volume 1, Chapter 3, discusses the necessity and importance of independent reviews.

d. DoD Components must perform a compliance review of JVs within their accounting systems to ascertain if the JVs are correctly prepared and processed, adequately described, supported, and approved at the proper managerial level at least on a quarterly basis.

D. **Critical Elements.** Critical elements are items that, if reported incorrectly for financial reporting purposes, would have a direct effect on the amounts presented on the financial statements. Reporting fields deemed critical must be populated in order to provide sufficient information for the approving official and others, such as auditors, to understand the reason for preparing the JV, determine if it is proper and accurate, and identify whether the JV entries are supported or unsupported by subsidiary records. This paragraph outlines critical elements for most JV categories and applies to JVs recorded in all systems. Additional items may be deemed critical depending on the category of adjustment being made. At a minimum, JVs will include items listed in subparagraphs 020208.D.1-5.

1. **Correct Appropriation/Accounting Data.** JVs will contain accurate financial information in order to populate the required input fields for entry into the accounting/financial reporting systems.

2. **Balanced Adjustments.** JV debits and credits will equal and reflect correct dollar amounts.

3. **Approvals.** JVs will contain required approvals according to the thresholds outlined in subparagraph 020208.C.1.e.

4. **Documentation.** JVs will include adequate documentation, with cross-referencing to other documentation (hard copy or electronic form), to support the validity and amount of the transaction. Attach supporting documentation to the JV as described in subparagraph 020208.E.

5. **USSGL.** JVs will contain valid GL accounts to record the adjustments. Approved DoD postings (transactions) are available at the DoD USSGL Transaction Library.

E. **Documentation.** Proper documentation in hard copy, electronic form, or a combination of both is necessary to support all JV entries. JV documentation will include reporting elements deemed critical to assess the accuracy and completeness of financial information, applicable criteria to support the rationale for preparing the adjustment, Treasury Account Symbol(s) or entity code(s) impacted, and the calculation of the dollar amount of the adjustment. Maintain clear documentation of the JV preparer, reviewer (if used), and approver(s) with the JV documentation. Attach supporting documentation to a copy of the JV. In some cases, it may not
be practical to attach all of the documentation to the JV because of the large number of detailed transactions summarized on it. In those cases, attach specific and detailed information summarizing the content and identifying the location of the supporting documentation to the JV.

F. JV Categories. Regardless of the method of documentation used for the JVs, the dollar amount(s) on the JVs must be clearly and readily identifiable within the supporting documentation for the categories in subparagraphs 020208.F.1-11. Both manual and system-generated JVs require the use of JV categories.

1. Category A — Reversing Entries for Prior Reporting Period. JVs will include documentation regarding the original accrual entry and an explicit statement that the JV is a reversing entry.

2. Category B — Data Call Entry. Source entry information may be provided by data calls where the data are not recorded on a detailed transaction basis. Prepare JVs to record the summarized data call amounts in these situations in the GL trial balance. Support the data call entry with documentation for the summarized amount and identify the source or location of the transaction level supporting detail and/or information for the entry. To the maximum extent possible, reporting entities will eliminate data call JVs in the Defense Departmental Reporting System (DDRS) and record properly supported JVs closer to the underlying source transaction. This practice enhances accuracy and accountability, reduces errors, and places JV ownership with the organization responsible for the underlying transaction. Examples of data call entries include property, plant and equipment; operating materials and supplies; environmental liabilities; contingent liabilities; and employee benefit data. This category does not include JVs produced by the Data Collection Module; see subparagraph 020208.F.11.

3. Category C — Balancing Entries for Eliminations. When the duly authorized official has determined that entries are necessary to balance buyer side data with seller side data, a correcting JV will be prepared prior to eliminating selected intragovernmental accounts. The documentation will include the appropriate worksheets that show in detail the seller side data received, the buyer side control values requiring adjustment, and the calculation of the adjustment amount. The supporting documentation for these JVs will also include a narrative that summarizes the procedures used to make buyer side adjustments. Refer to Volume 6B, Chapter 13 for guidance on eliminations.

4. Category D — Recognition of Undistributed Disbursements and Collections. Undistributed disbursements and collections represent the difference between the amount of disbursements and collections reported to DFAS centers by the Department of the Treasury finance network and the amount of disbursements and collections recorded by the operating level activities. Record entries to adjust an entity’s Fund Balance with Treasury, as reported, for the amount of supported undistributed disbursements and collections reported in the departmental expenditure system.

   a. The proper supporting documentation for this JV consists of identifiable amounts that are in transit from other sources (such as DFAS or Federal agencies). Many amounts at the detailed transaction level are not available due to timing differences, and
support consists solely of transmitted sums. In such a case, evidence available to support the JV adjustments consists of summarized transmittal amounts. However, for audit trail purposes, obtain the detailed transaction level amounts from the transmittal source when the amounts become available.

b. Further evidence includes documentation of procedures and the allocation process used to apply undistributed disbursements and collections to accounts payable and accounts receivable, respectively.

5. **Category E — Reconciliation of Trial Balance and Budget Execution Reports.** Make JV entries in this category to match trial balances or other source data reported by field accounting sites and/or accounting stations to the DoD Component’s budget execution reports. Consider trial balances or other source data correct and only adjust to budget execution data in instances where budget execution data is determined to be more accurate. The JV will document why a discrepancy exists in the data, the reason the budget execution data or other data are considered to be more accurate, the evidence to support this reason, and how it was determined that the entries on the JV are correct.

6. **Category F — Supply Management Inventory.** A correcting JV will be prepared when the duly authorized official has determined that inventory values for supply management activities need adjustment from the standard price to approximate historical cost. The supporting documentation will include appropriate references to Volume 4, Chapter 4 “Inventory and Related Property” and a clear explanation of the method used to value inventory and cost of goods sold.

7. **Category G — Reclassification of Accounts.** A correcting JV will be prepared to crosswalk data from installation level accounts to the USSGL when the duly authorized official has determined that the accounting systems are unable to provide data at the required level of detail for financial statement and footnote presentation. Target systems are required to report using the DoD Standard Reporting Chart of Accounts and Standard Financial Information Structure. The supporting documentation will include a narrative that explains the reason the reclassification is necessary and the reason the systems are unable to provide the data at the required level of detail.

8. **Category H — Identified Errors and Reasonableness Checks.** Evidence to support either an authorized official or auditor-identified correcting JV will include a detailed listing of identified errors, a narrative explaining how it is known that the original entry is incorrect, a related analysis documenting the calculation of the correct amount, and the sources of the data that were used in the analysis.

9. **Category I — Adjustment to Balance Reports Internally.** A correcting JV may be necessary when the authorized official has determined that a reconciliation of data supporting two different reports is not possible. Evidence to support this type of JV will include documentation of the reconciliation efforts made before determining that the reports cannot be reconciled.
10. **Category J — Other Accruals.** The supporting documentation for other accrual JVs will include a narrative explaining the basis for the accrual and any subsequent reversal.

11. **Category M — Data Collection Module (DCM).** The DDRS - DCM JV records data call amounts from DCM. Supporting documentation for Category M JVs includes documentation for the summarized amounts and identification of the source or location of the transaction-level supporting detail and/or information for the entry. To the maximum extent possible, reporting entities will eliminate data call JVs in DDRS and record properly supported JVs closer to the underlying source transaction. This practice enhances accuracy and accountability, reduces errors, and places JV ownership with the organization responsible for the underlying transaction.

020209. **Release of Reports**

A. **DoD Components.** DoD Components will approve draft annual reports and return those reports to DFAS for appropriate revision, validation, and distribution as final reports. The DoD Components will not release any reports, including monthly recurring reports, such as budget execution reports, to any organization external to the DoD Components. Only DFAS will release such reports. Volume 6B, Chapter 2 contains the requirements for the audited and interim financial statements.

B. **DFAS.** DFAS will validate all final reports using the official accounting records prior to release to their intended recipients. The release of reports occurs only after final validation that corrections and adjustments have been made and that the report agrees with the official accounting records.

020210. **Certifications**

A. **DoD Component/Reporting Entity.** A reporting entity is an organization represented by the financial information in a financial statement or report and may be a DoD Component or a subordinate command/organization. For example, a reporting entity may include an individual command or activity, such as a shipyard or a supply depot, or it could encompass a number of activities within a business area, such as all shipyards or aircraft depot maintenance activities in a Military Department. A reporting entity can also be at a DoD Component level.

1. The reporting entity, rather than DFAS, is responsible for annual certifications required in the implementation of [Title 31, United States Code, section 1501(a)](https://www.law.cornell.edu/uscode/text/31/1501). See Chapter 4, “Appropriations and Fund Status Reports,” for additional information related to year-end reporting.

B. **DFAS.** DFAS's role in processing financial data, and in preparation of financial reports for DoD Components, includes certain responsibilities. Accordingly, DFAS will provide the following to the DoD Component:

1. Assurances and certifications, when requested, to the reporting entity regarding the quality of accounting and report preparation services performed for the DoD Component;

2. Signed monthly, quarterly, and semiannual reports on behalf of the DoD Component following review and approval by the DoD Component. An exception is the AR(M) 1307, which the DoD Component is required to sign. Volume 6B, Chapter 2 contains the requirements for the audited and interim financial statements; and

3. A certification provided by the chief of the applicable reports section confirming accuracy of the balances reported on the AR(M) 1307.

CHAPTER 3

REPORTING OF OUTLAYS, RECEIPTS, AND ADJUSTED TRIAL BALANCES

0301 GENERAL

*030101. Overview

DoD reporting entities, including DoD Components, submit monthly outlay and receipt information via the Central Accounting Reporting System (CARS). The data in CARS interfaces with trial balance data submitted through the Governmentwide Treasury Account Symbol Adjusted Trial Balance System (GTAS) to produce the financial reports. Reporting entities, including DoD Components, are responsible for reconciling information between CARS and GTAS to ensure financial reports contain accurate information and provide an audit trail for the reporting period presented. The DoD Financial Management Regulation Glossary identifies DoD Components included as a part of DoD reporting.

030102. Purpose

This chapter prescribes guidance for reporting outlays, receipts, and adjusted trial balances (ATBs) to the U.S. Department of the Treasury (Treasury). The policies included in this chapter apply to DoD reporting entities authorized to prepare and submit consolidated monthly reports of outlays and receipts, and reporting entities authorized to prepare and submit consolidated annual financial statements, to the Treasury, Bureau of the Fiscal Service (Fiscal Service).

030103. Authoritative Guidance

0302 CARS REPORTING

*030201. CARS

CARS handles Treasury-level accounting and reporting for all federal agencies and is the system of record for Fiscal Service. CARS captures and records Treasury Account Symbol (TAS) information for payments, deposits, and intragovernmental transactions and provides agencies a daily status of their Fund Balance with Treasury. All agencies must use the CARS Modules and submit the CARS TAS/Business Event Type Code (BETC) reporting classification for each payment, deposit, and intragovernmental transaction. The CARS Glossary identifies and defines the reporting processes and data elements used by CARS reporters.
030202. CARS Reporting

A. CARS Daily Reporters. “CARS Daily Reporters” submit the TAS/BETC reporting classification for each payment or collection daily to CARS via the Payment Information Repository (PIR) or Collections Information Repository (CIR), respectively. DoD disbursing officers report cash disbursements via the Classification, Transactions, and Accountability system.

1. PIR. The PIR serves as a repository for all Government payment data and supports Government transparency initiatives by improving the way Fiscal Service collects, analyzes, and reports on payment-related data. Reporting entities submit payment and accounting data to the PIR using the Standard Reporting Format.

2. CIR. Reporting entities use the CIR to obtain detailed and summary-level information on collections and deposits received.

030203. Special Reporting

* A. Government Securities. Refer to I TFM 2-4300 for guidance on reporting the purchase and sale of U.S. Government securities, including the purchase of unrealized discount on investments. Report U.S. Government securities, purchased as an investment by a trust fund, as a disbursement at par value and the sale of securities at par value as a receipt. See the Fiscal Service BETC listing for approved TAS/BETC combinations used to report the purchase and sale of U.S. Government securities.

* B. Borrowing Authority. Borrowing authority is statutory authority to incur obligations and make payments for specified purposes out of borrowed money. It must be established as needed by the acquisition of property subject to a mortgage, and withdrawn upon payment of the mortgage principal. When the buyer assumes the mortgage, the borrowing authority is disestablished. See the Fiscal Service BETC listing for approved TAS/BETC combinations used to report mortgage transactions.

1. A DoD Component becomes the mortgagor when it acquires property subject to a previous mortgage under the DoD Homeowners Assistance Program, or when it borrows money to finance, or issues a mortgage instead of immediate payment, for new construction under the DoD Family Housing Program. See Volume 3, Chapter 15 for additional guidance on borrowing authority.
2. Report the total acquisition cost of the property, including mortgages payable included in the sale of non-guaranteed Government agency securities, as a disbursement to liquidate the entire related obligation. Report the amount of the mortgage assumed, which is included in the sale of non-guaranteed Government agency securities, as a reimbursement.

3. Report payments to the mortgagee in two parts: Payments on principal, which are associated with the redemption of non-guaranteed Government agency securities, as disbursements; and the associated interest payments.

4. Report the sale of property subject to a previous mortgage assumed by the buyer as a reimbursement for the total sales price. Report only the portion of this balance that relates to the redemption of non-guaranteed Government agency securities. Report the amount of the existing mortgage assumed by the buyer, related to the redemption of non-guaranteed Government agency securities, as a disbursement.

* C. Cash. ITM 2-3400 contains guidance on reporting cash held outside of the U.S. Treasury. See Volume 4, Chapter 2 and Volume 5 for additional information on establishing financial control over fund balances with the U.S. Treasury and cash resources not part of the Fund Balance with Treasury.

030204. Monthly Reporting Process

A. Fiscal Service coordinates with reporting entities to ensure appropriate submission and reporting procedures are in place to accomplish the monthly reporting requirements. Reporting entities compile expenditure accounting information from their reporting activities and electronically submit a monthly consolidated report to Fiscal Service in accordance with due dates established by Fiscal Service. Due dates are consistent with the requirements of the Office of the Under Secretary of Defense (Comptroller) Program/Budget, Program and Financial Control Directorate.

B. Fiscal Service uses outlay and receipt information submitted by reporting entities to produce the Monthly Treasury Statement (MTS), which summarizes the financial activities of the Federal Government and conforms to the Budget of the U.S. Government. MTS data includes information provided by federal entities, disbursing officers, and Federal Reserve Banks. It presents a summary of receipts and outlays, surplus or deficit, and means of financing on a modified cash basis.

030205. Reconciliation of Monthly Information

A. The Defense Finance and Accounting Service (DFAS) and Components must incorporate controls into their processes to ensure amounts reported daily or monthly to Treasury reconcile to collections and disbursements processed through the disbursing systems and reflect amounts reported in the accounting systems. Treasury reporting includes SF 224 submissions by reporting entities. See Volume 1, Chapter 3 for information on providing accurate, reliable, and timely financial management information to achieve compliance with the Federal
B. DFAS and Components must perform timely reconciliations and implement effective and efficient reconciliation processes. Effective reconciliations serve as a detection control for identifying unauthorized and unrecorded transactions at the entities and Treasury. Volume 4, Chapter 2 prescribes DoD policy for reporting and reconciling transactions affecting an entity’s Fund Balance with Treasury. Effective reconciliations are also important in preventing entity disbursements from exceeding appropriated amounts and providing an accurate measurement of the status of available resources.

030206. Supplemental Reporting

A supplemental report may be submitted to Fiscal Service to adjust previously submitted data. Under special circumstances, Fiscal Service may request a supplemental report from the reporting entity. The totals reported on the supplemental reports will be consistent with the summarized net disbursements submitted by the reporting entities.

0303 GTAS REPORTING

*030301. GTAS

Fiscal Service administers and maintains GTAS to facilitate preparation and consolidation of the FR. Within GTAS, reporting entities submit both proprietary and budgetary data simultaneously in the Bulk File Format. Systemic edits validate data across both budgetary and proprietary reporting, including the Governmentwide Accounting System Account Statement. Reporting entities reconcile GTAS data with amounts reported in CARS to verify the accuracy of reported balances.

030302. GTAS Reporting

A. The GTAS data submitted by agencies are United States Standard General Ledger (USSGL)-based trial balances used to populate the Statement of Budgetary Resources (SBR); the SF 133, Report on Budget Execution and Budgetary Resources; and the prior-year column of the Program and Financing Schedule of the Budget. Agencies must ensure budgetary information used to prepare the SBR is consistent with budgetary information reported to GTAS during the fourth quarter reporting window. Reporting entities submit GTAS data according to the annual Fiscal Service Reporting Window Schedule. The GTAS Glossary identifies and defines the reporting processes and data elements used by GTAS reporters.

* B. Agencies must ensure the data in their Agency Financial Reports is exactly the same as the data reported in GTAS and the Defense Departmental Reporting System-Audited Financial Statements as of the GTAS close date.
C. GTAS establishes the default Canceled ("C") TAS used to report canceled proprietary payables, receivables, and assets. Report expired obligated and unobligated balances as canceled on the final, September 30, SF 133 before closing a Treasury Appropriation Fund Symbol (TAFS). While budgetary USSGL balances are not required to be reported to Treasury and the Office of Management and Budget (OMB) after a TAFS is canceled, Section 130 of OMB Circular A-11, “Preparation, Submission, and Execution of the Budget,” requires a tracking process monitoring obligations pertaining to canceled appropriations in order to prevent overpayment.

D. The DoD Financial Reporting Guidance provides DoD processes for reporting GTAS information, in addition to the quarterly and year-end schedules.

030303. FR

The FR provides a comprehensive view of the Federal Government’s financial position and condition, its revenues and costs, assets and liabilities, and other obligations and commitments. The FR includes consolidated financial statements and related disclosures, as well as reports on stewardship responsibilities. I TFM 2-4700 and OMB Circular A-136, “Financial Reporting Requirements,” describe how agencies provide data for the FR using GTAS.

030304. Submission and Verification of Data

A. Reporting. DoD reporting entities will:

1. Comply with Fiscal Service (GTAS) reporting policies for the reconciliation and confirmation of balances;

2. Ensure submitted data is timely and reliable; and

3. Verify due dates are met according to I TFM 2-4700, DoD Financial Reporting Guidance, and this chapter, for both Significant Entities and Other Entities.

B. Significant Entities. I TFM 2-4700 provides a list of Significant Entities. Other Entities include all other executive branch agencies. All entities (Significant and Other) submit pre-closing GTAS ATB data and complete FR Notes and other FR data for fiscal year reporting. Significant entities will:

1. Submit audited financial statements in the Agency Financial Report or the Performance and Accountability Report;

2. Submit GTAS ATBs and provide an interim and year-end variance analysis to OMB;
3. Provide Fiscal Service with an electronic copy of the interim unaudited financial statements (the third-quarter financial statements), notes, required supplementary information, required supplementary stewardship information, and other information, if the information is not available in OMB MAX;

4. Comply with intragovernmental policies;

5. Review (with their auditors) the fifth quarter Scorecard to determine if a prior-year journal voucher was processed. If a prior-year journal voucher was processed, the Significant Entity must identify the reason for the journal voucher as well as how to prevent the adjustment in the current year; and

C. Edits and Validations. Reporting entities must comply with established GTAS edits and validations used to verify the integrity of data submissions. Section VII of the USSGL contains a listing of edits and validations used in GTAS. In addition to Treasury-level tie-point type edits incorporated in GTAS, reporters will perform more-detailed Component-level tie-point reconciliations before submitting finalized data through GTAS.

D. Standard Financial Information Structure (SFIS). SFIS is a comprehensive data structure that supports GTAS reporting, as well as requirements for budgeting, financial accounting, cost/performance, and external reporting needs across DoD. Entities must use the SFIS reporting elements as prescribed in the SFIS data structure.

030305. I TFM 2-4700 Reporting Requirements

B. ATB Requirements. Federal entities must prepare and submit pre-closing GTAS ATBs at the TAS level using USSGL accounts and attributes. Table 3-1 contains a list of DoD reporting entities required to submit ATBs. Fiscal Service collects ATB data to aid in its analytical processes. The GTAS ATBs must include USSGL accounts with the required attributes, while USSGL account balances must reflect the pre-closing adjusting entries needed to produce financial statements. Significant Entities and Other Entities use the same USSGL data on the GTAS ATBs used to prepare the current fiscal year audited entity consolidated financial statements due to OMB.

030306. Digital Accountability and Transparency Act

A. The Digital Accountability and Transparency Act (DATA Act) requires Federal agencies to report financial and payment information according to data standards
established by Treasury and OMB. The purpose of the DATA Act is to make Federal spending data more accessible, searchable, and reliable while also serving as a tool for better oversight, data-centric decision-making, and innovation both inside and outside of government.

* B. To help agencies comply with the DATA Act, OMB and Treasury created the **DATA Quality Playbook** identifying key steps that, if followed together, assist agencies in leveraging existing capabilities with DATA Act implementation. Accurate financial reporting through GTAS enables reporting entities to submit USSGL accounts and SFIS data elements required to comply with the DATA Act.

APPROPRIATION AND FUND STATUS REPORTS

0401 GENERAL

*040101. Purpose

This chapter prescribes the reporting requirements and policy to follow when preparing appropriation and fund status reports at the departmental level. These reports identify, for the Defense Finance and Accounting Service (DFAS) and its customers, the status of accounting transactions on a monthly, quarterly, and annual basis. This chapter does not prescribe the reporting requirements of the intermediate command and installation levels. The provisions apply to all Department of Defense (DoD) Components, and cover fund types included in Section 79 of Office of Management and Budget (OMB) Circular A-11, Preparation, Submission, and Execution of the Budget.

040102. Authoritative Guidance

A. The reports defined by this chapter fulfill the requirement in Title 31, United States Code (U.S.C.), section 1512(d) that the President review expenditures by executive agencies at least four times a year. The policy in this chapter also fulfills the requirement in 31 U.S.C. § 1554(b) to report unliquidated obligations, unobligated balances, canceled balances, and adjustments made to appropriation accounts during the fiscal year (FY).

B. The chapter supplements reporting policies required by OMB Circular A-11, which provides an overview of the budget process and instructions on budget execution, including guidance on the apportionment and reapportionment process.

0402 REPORTING

040201. Report Formats

The report formats for the appropriation and fund status-type reports are identified within the respective paragraphs. Figures 1 and 2 contain sample fund status reports.

040202. Frequency and Distribution

The frequency and distribution of each report are designated within the respective paragraphs.

040203. Governmentwide Treasury Account Symbol Adjusted Trial Balance System (GTAS)

A. The Department of the Treasury (Treasury), Bureau of the Fiscal Service (Fiscal Service), administers and maintains GTAS to facilitate preparation and consolidation of
the *Financial Report of the U.S. Government*. Reporting Agencies submit both proprietary and budgetary data simultaneously in the *Bulk File Format*. Refer to Chapter 6 for DoD policy related to the submission of financial data using GTAS.

B. Reporting entities are required to submit requests for new Treasury symbols to be used in GTAS reporting to the Office of the Under Secretary of Defense (Comptroller), Program/Budget (OUSD(C)(P/B)), Program and Financial Control (P&FC) Directorate, along with justification that cites the specific authorizing legislation. P&FC will review requests and coordinate with OMB and the Treasury to establish new accounts when authorized.

040204. Standard Financial Information Structure (SFIS)

Appropriation and fund status reporting utilizes the data structure and reporting elements outlined in *SFIS*. SFIS is a comprehensive data structure that supports requirements for budgeting, financial accounting, cost/performance, and external reporting needs across DoD. See Volume 1, Chapter 4, for additional information on SFIS reporting.

0403 YEAR-END REPORTING

040301. Purpose

This section contains instructions for reporting unexpended appropriation and fund balances required by Treasury Financial Manual, Volume I, Part 2, *Chapter 4200*.

040302. Scope

This section pertains to all DoD reporting entities reporting unexpended balances of appropriation accounts to Fiscal Service through GTAS.

040303. Reporting

Reporting entities utilize GTAS and the Fiscal Service Year-End Module to report unexpended balances of appropriation accounts. Fund holders are responsible for verifying the accuracy of reported balances and providing final confirmation of amounts reported in GTAS to DFAS Accounting Standards and Reporting, Budget Execution Analysis via signed documentation for electronic certification.

0404 REPORT ON BUDGET EXECUTION AND BUDGETARY RESOURCES (STANDARD FORM (SF) 133)

040401. Purpose

This section contains instructions for implementing OMB Circular A-11 for the monthly *SF 133, Report on Budget Execution and Budgetary Resources*. The SF 133 shows the status of budgetary resources and related financial data. The report is intended for use, with other available information, in reviewing apportionments and the U.S. Government’s budgetary programs, in
managing the rate of incurring obligations and outlays, and as a basis for initiating requests for reappropriations and transfers. See Section 130.1 of OMB A-11 for additional uses of SF 133 data.

*040402. Scope

A. Applicability. The requirements of this section apply to all DoD Components.

* B. Basic Report. Prepare an SF 133 for each unexpired (current) or expired Treasury Appropriation Fund Symbol (TAFS) of the types identified in OMB Circular A-11, Section 130.2(a). Unless exempted by OMB, submit SF 133 information for each open TAFS. Subparagraph 040402.C contains a list of current exemptions.

C. Exemptions. Unless required by OMB, do not submit SF 133s for deposit fund accounts, receipt accounts, clearing accounts, suspense accounts, and closed TAFS (TAFS with canceled balances).

*040403. Frequency and Distribution

A. Fiscal Service. Fiscal Service receives monthly budget execution information via GTAS according to the Fiscal Service Reporting Window Schedule. Fiscal Service prepares the monthly SF 133 for OMB based upon GTAS United States Standard General Ledger (USSGL) information and attributes forwarded by DoD.

B. Reporting Entities. Volume 6B addresses the form and content of DoD audited financial statements. Volume 6B, Chapter 1 contains information regarding DoD Component reporting entities.

* C. Reports on Allocation and Appropriation Transfer Accounts

1. Allocation (Transfer To) Account. For allocation transfers made from a parent account to allocation accounts, submit an SF 133 containing the activity for each allocation account.

2. Parent (Transfer From) Account. The parent agency may choose to gather information from all of the agencies that have allocation accounts and enter the information into GTAS, or require each agency with an allocation account to enter information into GTAS and provide a copy to the parent agency. See OMB Circular A-11 for additional information on allocation/parent reporting.

D. Submission Schedule

1. Except for reports on allocation and transfer appropriation accounts, submit reports by the departmental level reporting entities as of the end of each month. Submit
regular reports in accordance with due dates established by DFAS and consistent with the timeframes established by the Fiscal Service Reporting Window Schedule.

2. **Submit** reports on allocation and transfer appropriation accounts to the parent agency in accordance with the schedule prescribed by that agency and consistent with the timeframe provided in OMB Circular A-11.

040404. Preparation

A. The SF 133 is divided into four sections: Budgetary Resources; Status of Budgetary Resources; Change in Obligated Balance; and Budget Authority and Outlays, Net. Report cumulative amounts from the beginning of the FY to the end of the period reported and include all footnotes at the end of the report. Forward any information used to supplement or clarify the submitted reports directly to OMB. See OMB Circular A-11, *Appendix F*, “Format of SF 132, SF 133, Schedule P, and SBR” for the format and line item descriptions for each line item on the SF 133.

B. Section 130 of OMB Circular A-11 contains exhibits of sample SF 133 reports.

C. Volume 1, Chapter 7, contains DoD’s implementation of the USSGL. Fiscal Service includes crosswalks from the SF 133 to the USSGL in Section V of the current FY’s version of the USSGL.

D. OMB Circular *A-136*, Financial Reporting Requirements, contains information on reconciling SF 133 information with the Statement of Budgetary Resources (SBR).

040405. The Expired Phase: Budget Execution Reporting

Report obligated and unobligated balances on the SF 133 for each expired TAFS that has not been canceled. Section 130 of OMB Circular A-11 contains instructions for budget execution reporting on expired TAFS that have not been canceled, as well as instructions for reporting upward and downward adjustments to expired TAFS.

040406. The Expired Phase: Obligation Adjustments for Contract Changes

Upward adjustments to obligations in expired appropriation accounts, caused by contract changes that exceed certain thresholds, are subject to additional reporting and approval requirements. A contract change represents an order relating to an existing contract under which a contractor is required to perform additional work. A contract change does not include adjustments related to an escalation clause.

A. Section 130 of OMB Circular A-11 specifies the thresholds, reporting requirements, and approval requirements for contract changes.
B. The USD(C), as the Secretary of Defense’s designee, fulfills the duties and responsibilities designated to “the agency head” in this section of OMB Circular A-11.

040407. The Expired Phase: Alternatives for Payment of Old Obligations

The length of the expired phase of a TAFS may only be changed by law. When DoD requires payment of obligations beyond the normal 5-year expired phase (such as the Navy Shipbuilding and Conversion appropriation), the Assistant Secretary of the Military Department Financial Management and Comptroller (FM&C) submits proposed changes to appropriation language for the budget year through OUSD(C)(P/B) to OMB for approval.

A. Request this authority only when historical outlay data indicates the payment of old balances from unexpired funds regularly exceeds the 1 percent limitation or when such payments would severely affect the current program.

B. Report such authority to Treasury to prevent premature automatic cancelation of the account. Without this authority, DoD must seek reappropriation of canceled balances and defer payment until the appropriation is available, or pay from current appropriations, as described in Volume 3, Chapter 10.

040408. SF 133 and the SBR

The compilation of an agency’s SF 133s should generally agree with the agency’s SBR. OMB Circular A-11 identifies the few differences between the SF 133 and SBR.

040409. Consistency of Amounts Reported

Amounts reported in the fourth quarter SF 133 must be consistent with information reported to Treasury as part of the year-end closing procedures and based on actual accounting information pursuant to 31 U.S.C. § 3512. Actuals submitted to OMB for inclusion in the President’s annual budget, which is submitted to the Congress, will agree with those submitted to Treasury and reported on the fourth quarter SF 133.

0405 REPORT ON REIMBURSEMENTS AND REFUNDS (ACCOUNTING REPORT (MONTHLY) (AR(M)) 725)

040501. Purpose

The AR(M) 725 identifies supplemental budget execution data with respect to reimbursements and refunds, in terms of their sources and the FY programs being executed. The AR(M) 725 identifies reimbursable activity during the reporting period and includes refunds of prior year orders from direct appropriations.

040502. Scope

A. The provisions of this section apply to all DoD Components.
B. Reports are required electronically for the following:

1. All current appropriations or other fund accounts for military or civil functions of DoD reported on the SF 133;
2. All expired appropriations or other fund accounts;
3. Trust fund accounts if reimbursements or refunds are from non-Federal sources;
4. Trust revolving fund accounts if the reimbursements or refunds are from U.S. Government accounts; and
5. Allocation and transfer accounts for DoD Components from appropriations made to the Office of the Secretary of Defense (Treasury Index (TI) Code 97).

C. Unless specifically requested in writing by the OUSD(C), reports are not required for the following:

1. Trust fund accounts, except those in subparagraph 040502.B.3;
2. Trust revolving fund accounts, except those in subparagraph 040502.B.4;
3. Deposit fund accounts;
4. Other Defense, civil programs; and
5. Security assistance appropriation accounts.

040503. Report Format

The AR(M) 725 will be prepared in accordance with the guidance provided in paragraph 040505. Figure 1 contains the current report format for the AR(M) 725.

040504. Frequency and Distribution

A. Reporting entities with reimbursable activity electronically submit monthly reports in accordance with due dates established by DFAS and consistent with the timeframes established by OUSD(C). Submit the report at the same time as the AR(M) 1002, Appropriation Status by Fiscal Year Program and Subaccounts.

B. Include the AR(M) 725 with the SF 133.
*040505. Preparation

* A. Basis of Reporting. Amounts reported will agree with corresponding general ledger balances for reimbursement and refund USSGL accounts as defined in the DoD Standard Reporting Chart of Accounts.

B. Unit of Entries. Round reported amounts to the nearest thousand.

C. Description (Column A). This column identifies whether the transaction is from a “Federal” or “Non-Federal” source.

D. Reimbursements Receivable (Column B). Enter the amount of receivables brought forward from the prior year. The total of this column must agree with column I of the year-end AR(M) 725 report from the prior year.

E. Unfilled Customer Orders Without Advance (Column C). Enter the amount of unfilled orders brought forward from the prior year. The total of this column must agree with column J of the year-end AR(M) 725 report from the prior year.

F. Total Anticipated Reimbursements (Column D). Enter the estimate of reimbursements expected to be earned during the current FY, subject to OMB apportionment, other authorized reimbursements, and/or other income for which current year obligational authority is automatically established based on orders received.

G. Earned Reimbursements and Refunds (Column E). This column represents the amount recognized when a performing organization renders actual or constructive performance on a reimbursable order. Generally, reimbursements must recover the cost elements outlined in Volume 11A, Chapter 3 and Volume 11B, Chapter 3.

1. The SFIS reporting structure identifies approved USSGL transactions and data elements used to record transactions between buyers and sellers. This column also includes refunds of prior-year orders from direct appropriations. Refunds are the repayments of excess payments and are directly related to previous obligations incurred and outlays made against the appropriation. Process refunds received to the appropriation or fund account charged with the original obligations.

2. OMB Circular A-11 provides guidance for processing refunds in both current and prior years.

H. Changes in Unfilled Customer Orders (Column F). This column represents the net change in unfilled customer orders during the period. The balance in this column increases with new customer orders and decreases with earned customer orders.

I. Anticipated Orders for Rest of Year (Column G). For transactions with the public, this column represents estimated collections, including advances expected to be received
and reimbursements expected to be earned. In transactions between U.S. Government entities, this balance represents orders expected to be received, but which have not been accepted.

J. Reimbursements and Refunds Collected (Column H). This column includes collections received on a reimbursable basis for goods, services provided, and refunds of prior-year orders from direct appropriations.

K. Reimbursements Receivable (Column I). This column represents the balance of outstanding collections, for goods and services provided on a reimbursable basis, at the end of the reporting period.

L. Unfilled Customer Orders Without Advance (Column J). This column represents the balance of unfilled customer orders, at the end of the reporting period, for goods and services without an advance. This line applies only to transactions between U.S. Government entities and those entities with approved exceptions.

0406 APPROPRIATION STATUS BY FISCAL YEAR PROGRAM AND SUBACCOUNTS (AR(M) 1002)

040601. Purpose

This section prescribes the preparation and submission of reports on the application and status of appropriation and other fund accounts. The reports present budget execution data with respect to obligational authority in terms of the FY programs executed at budgetary subdivisions not found on the SF 133. Maintain program value, obligation, unobligated balance, unexpended balance, and expenditure balance data integrity, by line item, throughout an account’s unexpired and expired availability periods. Expired account adjustments, which move resources between Budget Line Items (BLI), must reflect the appropriate change to that line item’s program value amount, obligations, unobligated balance, unexpended balance, and expenditure data on the AR(M) 1002.

040602. Scope

A. The provisions of this section apply to all DoD Components.

B. Reports are required for all general and special fund appropriations for military and civil functions of the Department that are reported on the SF 133, except those accounts specifically exempted in subparagraph 040602.C.

C. Reports are not required for the following, unless specifically requested in writing by the OUSD(C):

1. Revolving funds that do not have direct appropriation funds available, except for accounts 97 X 4555, 4090, 4965, and 0833;
2. Receipt accounts, clearing accounts, suspense accounts, deposit funds, and trust funds, except for 97 X 8097, 8098, and 8335;

3. Civil funds of the U.S. Army Corps of Engineers and the U.S. Soldiers’ and Airmen’s Home; and

4. Transfer appropriation accounts.

040603. Report Format

Prepare the AR(M) 1002 in accordance with the guidance provided in paragraph 040605. Report 1002 data in accordance with the Business Enterprise Architecture included in SFIS. The AR(M) 1002 format includes budget and fiscal account classifications required to align with information included in annual DoD budget requests, as illustrated in the President’s Budget Exhibits M-1, O-1, P-1, R-1, and C-1. See the “SFIS Matrix” for business rules and examples of acceptable budgetary values. The Defense Departmental Reporting System-Budgetary contains the official report mapping for the AR(M) 1002. Figure 2 contains the current report format for the AR(M) 1002.

040604. Frequency and Distribution

A. Electronically submit monthly reports in accordance with the due dates established by DFAS, and consistent with the timeframes established by OUSD(C).

B. Arrange the reports in the same order as the SF 133s they support.

*040605. Preparation

A. Units of Entry. Round all amounts to the nearest thousand and no attempt need be made to adjust the rounded figures so that they will add to column totals. Rounded amounts will never exceed the actual amounts by more than ± $2,000.

B. Direct Programs

1. Military Personnel

   a. General. Report at least two classification levels for distinct sets of TI Codes 17 (Navy), 21 (Army), and 57 (Air Force); FY program; and Treasury account number (Main Account Code).

   b. Level One. Budget Activity (BA) equals the M-1 (Military Personnel Programs) BA. Use the set of distinct M-1 BA records to present the BA stub entries.

   c. Level Two. Budget Sub-activity (BSA) equals the M-1 BSA and is the M-1 line item detail and lowest classification level. Use the set of distinct M-1 BSA records to present the BSA stub entries. Present the BSA stub entries under their respective BA.
d. **Level Three (Optional).** BLI equals the President’s Budget Exhibit PB-30J, Summary of Entitlements by Sub-activity, and is the lowest classification level. Use the same set of distinct entitlement stub entries on the AR(M) 1002 displayed in Budget Exhibit PB-30J. Present the BLI stub entries under their respective BA and BSA.

2. **Operation and Maintenance (O&M)**

   a. Report the three classification levels for distinct sets of TI Codes 17, 21, and 57; FY program; and Main Account Code.

      (1) **Level One.** BA equals the O-1 (O&M Programs) BA. Use the set of distinct O-1 BA records to present the BA stub entries.

      (2) **Level Two.** BSA equals the O-1 Budget Activity Group (BAG). Use the set of distinct O-1 BAG records to present the BSA stub entries. Present the BSA stub entries under their respective BA.

      (3) **Level Three.** BLI equals the O-1 Sub-activity Group (SAG) and is the O-1 line item detail and lowest classification level. Use the set of distinct O-1 SAG line items to present the BLI stub entries. Present the BLI stub entries under their respective BA and BSA.

   b. Report five classification levels for distinct sets of TI Code 97, FY program, and Main Account Code as prescribed by [DFAS Manual 7097.01](#).

      (1) **Level One.** BA equals the O-1 BA. Use the set of distinct O-1 BA records to present the BA stub entries.

      (2) **Level Two.** Defense Level Organization (DLO) equals the O-1 Defense Agencies. Use the set of distinct O-1 Defense Agencies to present the DLO stub entries. Present the DLO stub entries under their respective BA. The DFAS Manual 7097.01 Budget Project Codes appropriation chapters identify the valid Defense Agencies. Within each chapter is a list of valid limitations where the first two digits of the limitation identify the Defense Agency allotment holder.

      (3) **Level Three.** BSA equals the O-1 BAG. Use the set of distinct O-1 BAG records to present the BSA stub entries. Present the BSA stub entries under their respective DLO.

      (4) **Level Four.** BLI equals the O-1 SAG and is the O-1 line item detail and lowest classification level. Use the set of distinct O-1 SAG line items to present the BLI stub entries. Present the BLI stub entries under their respective BSA.

      (5) **Level Five.** Budget Allotment Line Item Identifier (BALI) is a sub-set of BLIs and refers to sub-BLI codes used in original allotment and sub-
3. **Procurement**

   a. Report the three classification levels for distinct sets of TI Code 17, 21, and 57; FY program; and Main Account Code.

      (1) **Level One.** BA equals the P-1 (Procurement Programs) BA and BA Title. Use the set of distinct P-1 BA records to present the BA stub entries. A subtotal at the BA level is required for Procurement Accounts.

      (2) **Level Two.** BSA equals the P-1 BSA and BSA Title. Use the set of distinct P-1 BSA records to present the BSA stub entries. Present the BSA stub entries under their respective BA. A subtotal at the BSA level is not required for Procurement Accounts.

      (3) **Level Three.** BLI equals the P-1 Line Item and Line Item Title and is the P-1 line item detail and lowest classification level. Use the set of distinct P-1 line item records to present the BLI stub entries. Present the BLI stub entries under their respective BA and BSA.

   b. Report five classification levels for distinct sets of TI Code 97, FY program, and Main Account Code as prescribed by DFAS Manual 7097.01.

      (1) **Level One.** BA equals the P-1 BA and BA Title. Use the set of distinct P-1 BA records to present the BA stub entries.

      (2) **Level Two.** DLO equals the P-1 Organizational Title. Use the set of distinct P-1 Defense Agencies to present the DLO stub entries.

      (3) **Level Three.** BSA equals the P-1 BSA and BSA Title. Use the set of distinct P-1 BSA records to present the BSA stub entries. Present the BSA stub entries under their respective DLO. A subtotal at the BSA level is not required for Procurement Accounts.

      (4) **Level Four.** BLI equals the P-1 Line Item and Line Item Title and is the P-1 line item detail and the lowest classification level. The DFAS Manual 7097.01 Budget Project Codes appropriation chapters identify a valid list of line items/budget projects. Use the set of distinct P-1 line item records to present the BLI stub entries. Present the BLI stub entries under their respective BSA.

      (5) **Level Five.** BALI is a sub-set of BLIs and refers to sub-BLI codes used in original allotment and sub-allotment funding authorization documents. Present the BALI stub entries under their respective BLI.
4. Research, Development, Test, and Evaluation (RDT&E)

a. Report at least two classification levels for distinct sets of TI Code 17, 21, and 57; FY program; and Main Account Code.

   (1) **Level One.** BA equals the R-1 (RDT&E Programs) BA and BA Title. Use the set of distinct R-1 BA records to present the BA stub entries.

   (2) **Level Two.** BLI equals the R-1 Program Element (PE) and PE Title and is the R-1 line item detail and the lowest classification level. Use the set of distinct PE records to present the BLI stub entries under their respective BA.

b. Report five classification levels for distinct sets of TI Code 97, FY program, and Main Account Code as prescribed by DFAS Manual 7097.01.

   (1) **Level One.** BA equals the R-1 BA and BA Title. Use the set of distinct R-1 BA records to present the BA stub entries.

   (2) **Level Two.** DLO equals the R-1 Organizational Title. Use the set of distinct R-1 Defense Agencies to present the DLO stub entries.

   (3) **Level Three.** BSA equals the R-1 BSA and BSA Title. Use the set of distinct R-1 BSA records to present the BSA stub entries. Present the BSA stub entries under their respective DLO.

   (4) **Level Four.** BLI equals the R-1 Line Item and Line Item Title and is the R-1 line item detail and the lowest classification level. The DFAS Manual 7097.01 Budget Project Codes appropriation chapters identify a valid list of BAs/PEs. Use the set of distinct R-1 line item records to present the BLI stub entries. Present the BLI stub entries under their respective BSA.

   (5) **Level Five.** BALI is a sub-set of BLIs and refers to sub-BLI codes used in original allotment and sub-allotment funding authorization documents. Present the BALI stub entries under their respective BLI.

5. Military Construction and Family Housing

a. Report the three classification levels for distinct sets of TI Code 17, 21, and 57; FY program; and Main Account Code. For TI Code 97, report the three classification levels by Defense Agency as prescribed by the DFAS Manual 7097.01.

   (1) **Level One.** BA equals the C-1 (Construction Programs) BA and BA Title. Use the set of distinct C-1 BA and BA Title records to present the BA stub entries.
(2) **Level Two.** BSA equals the C-1 Location, Location Title, and State-Country. Use the distinct sets of C-1 Location, Location Title, and State-Country record combinations to report the set of locations. Present the location stub entries under their respective BA.

(3) **Level Three.** BLI equals the C-1 Project and Project Title. Use the distinct set of C-1 Project and Project Title record combinations to report C-1 line items. Present the C-1 line items under their respective location and BA and BSA.

b. Report five classification levels for distinct sets of TI Code 97, FY program, and Main Account Code as prescribed by DFAS Manual 7097.01.

(1) **Level One.** BA equals the C-1 BA and BA Title. Use the set of distinct C-1 BA records to present the BA stub entries.

(2) **Level Two.** DLO equals the C-1 Organizational Title. Use the set of distinct C-1 Defense Agencies to present the DLO stub entries.

(3) **Level Three.** BSA equals the C-1 BSA and BSA Title. Use the set of distinct C-1 BSA records to present the BSA stub entries. Present the BSA stub entries under their respective DLO.

(4) **Level Four.** BLI equals the C-1 Line Item and Line Item Title and is the C-1 line item detail and the lowest classification level. The DFAS Manual 7097.01 Budget Project Codes appropriation chapters identify a valid list of BAs/PEs. Use the set of distinct C-1 line item records to present the BLI stub entries. Present the BLI stub entries under their respective BSA.

(5) **Level Five.** BALI is a sub-set of BLIs and refers to sub-BLI codes used in original allotment and sub-allotment funding authorization documents. Present the BALI stub entries under their respective BLI.

c. Report one classification level for distinct sets of TI Code 17, 21, 57, and 97; FY program; Military Construction BA of Minor Construction or Planning and Design; and Family Housing Construction BA of Construction Improvements or Planning and Design. The line item classification equals the C-1 BA and BA Title. Use the set of distinct C-1 BA records to present the BA stub entries. For TI Code 97, report the BA by Defense Agency.

d. Report one classification level for distinct sets of TI Code 17, 21, 57, and 97; FY program; and Main Account Code for Family Housing O&M or DoD Family Housing Improvement Fund (FHIF). The line item classification equals the C-1 BA and BA Title. Use the set of distinct C-1 BA records to present the BA stub entries.

e. For Base Realignment and Closure (BRAC), follow the report classification levels prescribed by the DFAS Manual 7097.01 Budget Project Codes appropriation chapter guidance for BRAC Accounts. Report the BA of Major Construction
information by location and title, and report all other BAs at the BA lump-sum level by FY and Service Component or Defense Agency.

f. For the FHIF (97 X 0834), follow the guidance in subparagraph 040605.B.5.a once project funds have transferred from Family Housing Construction to the FHIF.

6. Trust and Special Funds

a. Report one classification level for each trust or special fund.

b. The line item classification equals the BA as found in the President’s budget exhibits, DoD Military Programs, or Other Defense – Civil Programs, as appropriate.

C. Reimbursable Programs

1. Report all reimbursable program data separately from direct program data. A subtotal for the direct program will be followed by a one-line reimbursable program, followed by a “Grand Total,” which is the sum of the direct and the reimbursable programs.

2. For all the aforementioned appropriation functional titles, report reimbursable program data at the lump-sum level for distinct sets of TI Code 17, 21, and 57; FY program; and Main Account Code.

3. For TI Code 97:

a. Main Account Codes for BRAC and Procurement accounts report reimbursable program data at the lump-sum level by FY program and Defense Agency; and

b. All other Main Account Codes report reimbursable program data at the lump-sum level by FY program.

040606. Column Descriptions

The composition and amounts in each column are detailed in subparagraphs 040606.A through 040606.D.

A. No-year accounts

1. No-year accounts follow the same guidance as other accounts but are individually reported by FY account. No-year accounts are tracked and reported by the FY in which the funds were appropriated. The FY in which the funds were appropriated is also known as the SFIS Program Year.
2. The period of availability (POA) start year for no-year accounts reflects the year money was appropriated; the POA end year reflects XXXX. For example, the POA for no-year money appropriated in FY 2019 would be reflected as 2019/XXXX on the AR(M) 1002. Continue to report these funds separately until the account is closed.

B. General

1. Budget Activity (Column A). Valid values for the report stub entries are the program codes contained in the publicly published President’s Budget. The nomenclature is equal to the line items found in the President’s Budget Exhibits M-1, O-1, R-1, P-1, C-1; Family Housing and BRAC Programs; DoD Military Programs; and Other Defense – Civil Program documents. Arrange the separate FY appropriation accounts of an appropriation title in consecutive order, starting with the most current FY or multiple-year account. Arrange the FY programs within a multiple program year account in consecutive order, starting with the most current FY program. Subtotals are required for each level contained in the report.

2. Base for Reprogramming (Column B). The balance in this column matches the enacted amounts as published in the Department of Defense (DD) Form 1414, Base for Reprogramming Actions for most appropriation types. Once established, the dollar values in the column will not change and will continue to be reported for the life cycle of the account (until the account closes). Volume 3, Chapter 6, contains an example of the DD 1414. The exceptions to this are the Trust and Special Funds. Column B will match current year authority for these funds.

C. Cumulative Columns

1. Approved Program (Column C). The balance in this column shows the approved program for the FY-to-date. Column C includes the distribution of the effect of approved reprogramming actions on DD Form 1415-1, Reprogramming Action - Prior Approval, and/or DD 1415-3, Reprogramming Action - Internal; supplemental appropriations; and rescissions. The amounts in this column will change to reflect congressionally approved changes to the program. This column reflects the cumulative program-to-date, and will continue to be reported for the life cycle of the account (until the account closes). Guidance for reprogramming is contained in Volume 3, Chapters 6 and 7. Volume 3, Chapter 6, contains an example of the DD 1415-1 and DD 1415-3. The exceptions to this are the Trust and Special Funds. Column B will match current year authority for these funds.

2. Revised Program (Column D). The balance in this column shows the effect of below threshold reprogramming (BTR) actions initiated by a DoD Component that occur during execution.

   a. Note that the grand total for column C and column D will be the same. The difference between the two columns is column D incorporates BTRs and column C does not. BTR actions provide DoD Components with the discretionary flexibility to realign funding within prescribed limits. BTR actions are minor actions not otherwise requiring congressional approval that may be accomplished within the DoD Components and are measured
cumulatively over the entire obligation availability of the appropriation. The grand totals for column C and column D will be the same; however, differences will exist below the grand total level if BTRs have been recorded which realigned previous funding levels.

b. The exceptions to this are the Trust and Special Funds. Column B will match current year authority for these funds, which report either current year authority or apportionment amount as appropriate.

3. **Cumulative Obligations (Column E).** Enter the amount of obligations occurring from the inception of the program to the end of the reporting period. Obligation transactions will include both obligations incurred and adjustments of prior-year obligations. The exceptions to this are the Trust and Special Funds, which report current year obligations plus unpaid obligations from prior year.

4. **Cumulative Unobligated Balance (Column F).** The balance shown in this column represents the difference between columns D and E.

5. **Cumulative Expenditures (Column G).** Enter the distribution of the gross disbursements (net of refunds) from the inception of the program to the end of the reporting period. Within an FY program, enter the difference between amounts distributed by subaccounts and total disbursements identifiable to that FY program on the line “Undistributed Disbursement.” Enter disbursements not immediately distributable by FY program, or by subaccount in accounts without FY program subdivisions, on the line “Undistributed Disbursement” immediately before the total line for the appropriation account. For expired year accounts, unless specifically exempted by the OUSD(C), report the direct and reimbursable programs at the same level of detail as they were reported as unexpired accounts. The total of column G plus the total of column H must equal column D.

6. **Cumulative Unexpended Balance (Column H).** Enter the distribution of the unexpended balance from the inception of the program to the end of the reporting period. Column H will equal the difference between columns D and G.

7. **Commitments (Column I).** The use of column I is optional for operating appropriations. Enter, by subaccount, the amount of outstanding commitments recorded. The entry in this column may properly exceed the amount of the unobligated balance in column F if a program reduction was approved in anticipation of a cancelation or downward adjustment of commitments outstanding. If there was no approved program reduction, then an excess of commitments outstanding over total unobligated balance indicates the program was implemented in excess of the approved amount.

D. **Current FY Columns**

1. **Amount Obligated in Current FY (Column J).** Enter the amount of obligations occurring from the beginning of the current FY to the end of the reporting period. Obligation transactions include both obligations incurred and adjustments of prior year obligations.
2. **Amount Expended in Current FY (Column K).** Enter the distribution of the gross disbursements (net of refunds) for the period from the beginning of the current FY to the end of the reporting period. Within an FY program, enter the difference between amounts distributed by subaccounts and total disbursements identifiable to that FY program on the line “Undistributed Disbursement.” Enter disbursements not immediately distributable by FY program, or by subaccount in accounts without FY program subdivisions, on the line “Undistributed Disbursement” immediately before the total line for the appropriation account. For expired year accounts, unless specifically exempted by the OUSD(C), report the direct and reimbursable programs at the same level of detail as they were reported as unexpired accounts.

*040607. Reconciliation of AR(M) 1002 With the DD 1414; DD 1416, Report of Programs; and Other Reports Submitted to Congress

A. **Reconciliations**

1. Perform the DD 1414 and DD 1416 reconciliations described in 040607.B-C only for appropriation authority amounts.

2. Spending authority from offsetting collections, contract authority, and borrowing authority do not apply to these reconciliations.

B. **Military Personnel and O&M Accounts**

1. The DD 1414 is prepared annually directly after the DoD Appropriations Act is passed. The Base for Reprogramming column (normally the last column on the DD 1414 report) amounts must reconcile with the amounts in the AR(M) 1002 column B at the BA level. See Volume 3, Chapter 6 for additional information on the reprogramming of DoD appropriated funds and related reports.

2. The Selected Reserve Personnel by Reserve Component Report is prepared in accordance with the yearly appropriations acts.

C. **RDT&E and Procurement Accounts**

1. The Base for Reprogramming column amounts must reconcile with the amounts in the AR(M) 1002 column B at the P-1/R-1/BLI line item level.

2. The DD 1416 is prepared quarterly upon receipt of enactment of the DoD Appropriations Act. The net amount reported on the DD 1416 must reconcile with column D of the AR(M) 1002 by P-1/R-1/BLI. The OUSD(C) will provide guidance for reporting under continuing resolutions.
D. Military Construction Accounts

1. The DD 1391, Military Construction Project Data, supports each project proposed for inclusion in the Military Construction Program. This includes new authorization projects in the program or projects using emergency or contingency authorization.

040608. Special Instructions for Selected Accounts

A. Obligation Limitation for Annual Accounts. Each year, Title VIII, “General Provisions,” of the DoD Appropriations Act requires a certification that not more than 20 percent of the appropriations in that act, which are limited for obligation during the current FY, will be obligated during the last 2 months of the FY. The exception to this policy is the Reserve Components record obligations for support of active duty training or the Reserve Officers’ Training Corps records obligations for summer camp training.

B. Certification. Each year, DoD Components must provide one of the following certifications, depending upon the level of obligations incurred, on the July AR(M) 1002 for those annual appropriations to which the limitation applies:

1. This certification usually is referred to as the “80/20” criterion. In determining direct obligational authority, the amount of transfers in or out within the applicable DoD Appropriations Act will be considered. If obligations are 80 percent or more of direct authority, the certification will be as follows:

   “I hereby certify that direct obligations have been incurred equal to or in excess of 80 percent of the funds subject to the congressional limitation on year-end spending.”

2. If obligations are less than 80 percent, then the certification will be as follows:

   “I hereby certify that action has been taken to assure that not more than 20 percent of the funds subject to the congressional limitation on year-end spending remain available for obligation during the remainder of the FY.”

0407 REPORTING OBLIGATION AND OUTLAY DATA

040701. Purpose

Reporting entities will report obligation and outlay planning and execution data to OUSD(C)(P/B) P&FC for monitoring the planned monthly execution of approved DoD programs.
A. OUSD(C) updates requirements for planning data on an annual basis. Specific report formats are updated on a yearly basis by memorandum to the Assistant Secretaries of the Military Departments’ FM&C.

B. OUSD(C) updates requirements for execution data on an annual basis. Specific report formats are updated on a yearly basis by memorandum to DFAS.

C. Report on the SF 133 monthly totals for obligation and outlay execution data. These reports, provided monthly by DFAS to OUSD(C) and the Military Departments, must be consistent with data reported to Treasury via GTAS. These reports are also to be made available to DoD reporting entities.

040702. Scope

Planning and execution data for obligations and outlays applies to DoD Components with respect to obligations incurred for all military functions; including obligations incurred in connection with related allocation and transfer appropriation accounts. This includes all DoD Military accounts as well as related receipt accounts.

CHAPTER 7
FOREIGN CURRENCY REPORTS

0701 GENERAL

070101. Purpose

This chapter establishes reporting requirements for tracking all transactions that increase or decrease the foreign currency fluctuation (FCF) accounts. FCF, Defense (FCF, D) and FCF, Construction, Defense (FCF, C, D) appropriations were established by Congress to reduce the adverse impact of FCF losses on the Department of Defense (DoD) operating budget.

070102. Authoritative Guidance

The DoD Appropriation Act of 1979, Public Law 95-457, initially established the FCF program to maintain the budgeted level of operations and eliminate substantial gains or losses caused by FCF rates that vary substantially from those used in preparation of budget submissions. Public Law 95-457 has been codified under Title 10, United States Code (U.S.C), section 2779. Additional authoritative guidance is referenced throughout the chapter.

0702 PROGRAM MANAGEMENT

The provisions of this chapter apply to all DoD Components unless a specific written exception has been granted by the Office of the Under Secretary of Defense (Comptroller) (OUSD(C)).

070201. Definitions

A. Foreign Currency Unliquidated Obligations. Foreign currency unliquidated obligations are unpaid obligations recorded in the accounting system at the budget rate of the foreign currency cited within the obligating document. These unpaid obligations represent a key component of the monthly reporting process and are required to compute the accrued variance. At time of disbursement, foreign currency unliquidated obligations in excess of the outlay amount must be adjusted to the actual outlay amount and net gains transferred to the applicable FCF Account.

B. Foreign Currency Liquidated Obligations. Foreign currency liquidated obligations are paid obligations liquidated in the accounting system at the budget rate of the foreign currency cited within the obligating document. These liquidated obligations represent a key component of the monthly reporting process and are required to compute the realized variance.

C. Budget Rate. Budget rates are OUSD(C) published foreign currency exchange rates for use during the formulation, preparation, and submission of DoD’s operating budgets. These published budget rates will also be used as the basis for recording budgetary obligations that are associated with approved overseas programs into the accounting systems of DoD. Do not use internal or unapproved exchange rates on official accounting or disbursing records.
D. **Accrued Variance.** An accrued variance is the difference between the value of unliquidated obligations recorded at the budget rate and the value of those same unliquidated obligations calculated at the current foreign currency exchange rate. The computed accrued variance provides DoD decision makers a monthly estimate of the net gains or losses that would be realized if payment had to be made as of the report date.

E. **Realized Variance.** A realized variance is the calculated difference between obligations recorded at the budget rate and liquidated at the foreign currency exchange rate in effect at the time of payment. When the budget rate used in recording the original obligation is less than the current exchange rate, transfer the realized variance (loss) from the applicable FCF account if funds are available. When the budget rate used in recording the original obligation is more than the current foreign currency exchange rate, transfer the realized variance (gain) into the applicable FCF account.

F. **Centrally Managed Allotment (CMA).** A CMA is used by DoD to manage budgetary authority provided by the FCF accounts. Funding transfers from the FCF account line within the appropriation to cover realized losses are contingent on funds availability in the CMA. Should FCF budget authority be insufficient, component level operating funds must be used to cover any realized losses. Net gains due to currency fluctuation are returned by the component operating appropriations through the FCF account line for reallocation and distribution by the CMA in subsequent years based on approved FCF budget authority (see subparagraph 070302.D). CMAs are managed at the DoD level.

G. **FCF Account.** An FCF account is used by service components to manage realized gains and losses in direct programs due to fluctuation in foreign exchange rates. Funding is normally provided as a budgetary line item as part of a component’s annual funding authorization. FCF accounts are maintained at various budgetary levels within the service components.

070202. **FCF, D**

In fiscal year (FY) 1979, Congress authorized an appropriation to facilitate the transfer of funds to and from DoD operating appropriations to cover substantial net losses from foreign exchange rate fluctuation. Substantial net gains from foreign currency exchange rate fluctuation will also be transferred to this appropriation, entitled FCF, D, Department of the Treasury Account Symbol (TAS) 97X0801. The purpose of the appropriation is to alleviate the adverse effect of substantial fluctuation in the specified currency exchange rates on authorized DoD programs funded by Operation and Maintenance (O&M) and Military Personnel (MILPERS) appropriations. Charge net gains or losses from foreign currency exchange rate fluctuation funded by the FCF, D appropriation to the same FY as the underlying obligation. As FCF gains are realized by de-obligation of the unneeded portion of the direct program, transfer the gains to the FCF account. In areas participating in the FCF program, the occurrence of a gain or loss on an FCF transaction is an expected, normal component of an obligation and should be treated as an ordinary event. Record the gain or loss on an FCF transaction using current United States Standard General Ledger (USSGL) accounts for Other Gains (USSGL account 719000) and Other Losses (USSGL account 729000). The following statutes provide authority for the FCF, D appropriation:
A. The “DoD Appropriation Act, 1979” established the FCF, D appropriation.

B. Title 10, U.S.C. § 2779(a) allows previously transferred FCF, D funds to be transferred back to the FCF, D appropriation so long as the transfer is made no later than the end of the second FY after the FY that the appropriation to which the funds were originally transferred is available for obligation. This is allowed only if the funds are not needed to finance increased obligations due to fluctuation in currency exchange rates because of subsequent favorable fluctuation in currency exchange rates or because other funds are, or become, available to finance these cost increases.

C. Title 10, U.S.C. § 2779(d) states any transfer made pursuant to the authority provided in this subsection must be limited such that the balance in the appropriation FCF, D does not exceed $970 million at the time of the unobligated balance transfer.

070203. FCF, C, D

In FY 1987, Congress enacted the current authority for an FCF appropriation to protect DoD Military Construction, Family Housing, and North Atlantic Treaty Organization (NATO) infrastructure programs from substantial gains or losses resulting from foreign currency fluctuation. The title of this appropriation is the FCF, C, D TAS 97X0803.

A. The FCF, C, D account was initially capitalized by transferring unobligated balances from the family housing and military construction appropriations. Pursuant to authority conferred by recurring annual Military Construction Appropriations Act general provisions, unobligated balances from family housing and military construction appropriation accounts may be transferred into the FCF, C, D account during the 5-year period after the appropriations expire for original obligation purposes. Charge net gains or losses from foreign currency exchange rate fluctuation funded by the FCF, C, D appropriation to the same FY as the underlying obligation. As FCF gains are realized by de-obligation of the unneeded portion of the direct program, transfer the gains to the FCF account. In areas participating in the FCF program, the occurrence of a gain or loss on an FCF transaction is an expected, normal component of an obligation and should be treated as an ordinary event. Record the gain or loss on an FCF transaction using current USSGL accounts for Other Gains (USSGL account 719000) and Other Losses (USSGL account 729000).

B. OUSD(C) will approve all amounts transferred from this appropriation to other appropriations available for construction.

070204. Standards

A. Use the foreign currency appropriations (FCF, D and FCF, C, D) to offset losses sustained because of unfavorable foreign currency fluctuation realized upon payment for goods and services in local currency. The appropriations are not available to finance cost increases resulting from changes in the scope of programs, inflation increases, or other such changes, nor to finance Prompt Payment Act interest payments. Other important provisions of the FCF appropriations relate to obligation/expenditure limitations and financial accounting requirements related to foreign currency exchange fluctuation.
1. Authorizations or limitations now or hereafter contained within appropriations or other provisions of law limiting the amounts that may be obligated or expended will be increased to the extent necessary to reflect fluctuation in foreign currency exchange rates from those used in preparing the applicable budget submission.

2. Contracts or other obligations entered into that are payable in foreign currencies may be recorded as obligations based on currency exchange rates used in preparing budget submissions, as amended by Congress, and adjustments to reflect fluctuation in such rates will be recorded as disbursements are made.

B. Funds transferred from the FCF appropriations will be available for funding CMAs established in the applicable O&M, construction, family housing, or NATO infrastructure appropriations to cover losses or account for gains in direct programs due to fluctuation in foreign exchange rates. Base these transfers on need, funds available to cover such losses DoD-wide, and other budgetary considerations. Consequently, such losses may not be fully funded.

C. The DoD Components will record foreign currency obligations at the installation level in dollars, at the budgeted rate, or at the congressionally established budget exchange rate for direct program of affected appropriations as reflected in applicable committee reports or the appropriate appropriation acts.

1. OUSD(C) will provide these rates to the DoD Components.

2. Foreign currency obligations are those obligations that are either payable in specified foreign currency or payable in dollars, the amount of which is determined by the rate of exchange.

3. When payment is made, charge the variance between the budget rate and the current rate directly to the applicable FCF account. If the transaction results in a gain, credit the FCF account in the amount de-obligated from the original FCF, C, D obligation. For example, a military construction project was included in the FY 2017 President’s Budget (PB). Funds for the project were obligated in FY 2018 using FY 2017 funds, and all the project expenditures disbursed in FY 2019. In this example, record the obligations in the accounting system using the FY 2017 budget rates. There would be no effect on the military construction FCF account prior to FY 2019 since no disbursements were made until FY 2019. The foreign currency reports in each of those years, however, would identify accrued variances, i.e., the differences between the project obligations carried at the FY 2017 budget rate and the project obligations valued at the current exchange rate. Use this accrued variance to identify the projected disbursement requirements of the component FCF account. The realized foreign currency variance would be recorded against the military construction FCF account for FY 2017 at the time of the actual disbursements.

D. The DFAS Service Component central accounting activities will determine the total foreign currency unliquidated obligations at the budget exchange rate provided by OUSD(C) for each appropriation, and identify and accumulate both favorable and unfavorable variances. The supporting activity will also determine the “accrued variance” at the end of each
month based on the difference between unliquidated obligations at the budget rate and unliquidated obligations at the current rate, using the exchange rate on the last day of the month. The accrued variance will never be obligated in the official accounting documents.

E. Each DoD Component holding an FCF account is responsible to establish internal controls and carefully monitor funds availability at all times, as Antideficiency Act provisions apply to each FCF account. Establish controls to reserve sufficient funds within the appropriation’s availability to finance projected disbursement requirements for the FCF account. For family housing and construction, a 6-month requirement is recommended. Should FCF account funding availability drop below that level, take immediate action to avoid overobligation. Such action will include providing additional funds from current accounts and, if necessary, advising all disbursing officers to cease payments from the FCF account without prior certification until funding is obtained. Do not take any action that presumes relief through a transfer of funds from the FCF appropriations because of the limited capital available in these accounts.

F. OUSD(C) publishes lists of specific currencies in the FCF program and associated exchange rates. Currencies may be added and deleted by OUSD(C) as conditions warrant. The OUSD(C) FCF site provides a report containing the list of currencies, the applicable budget rate, and the current period adjusting rate.

0703 REPORTING REQUIREMENTS

070301. Appropriation Transfers

OUSD(C) manages the FCF, D and FCF, C, D appropriations and instructs the Defense Finance and Accounting Service (DFAS) Departmental Reporting Directorate-Indianapolis on the amount of the funds to transfer to and from the applicable appropriations. DFAS-Indianapolis transfers the designated amounts by means of a Standard Form 1151, Nonexpenditure Transfer Authorization.

070302. General Reporting Guidance

A. Other than calculating the monthly accrued variance described in subparagraph 070204.D, no further adjustment to the original obligation is necessary until disbursement is made or until the appropriation is closed.

B. FCF requirements described in this chapter do not apply to reimbursable programs. The performing activity will continue to accept reimbursable orders, incur obligations, and bill for reimbursement at the current foreign currency exchange rate using the requirements found in Volume 3, Chapter 9 and Volume 11A, Chapter 1. However, when the performing activity and the benefiting activity are DoD organizations, the performing activity will notify the benefiting activity of the amounts obligated that are to be paid in foreign currency. The benefiting activity will record that portion of its obligation for direct programs at the budget rate in the manner prescribed in subparagraph 070204.C. Record the realized variance determined at the time of the disbursement in the respective FCF account of the benefiting activity.
C. Do not adjust normal operating budgets or other funding documents issued for the affected appropriations by DoD Components for foreign currency exchange rate fluctuation.

D. Prior to closing the financial records at year-end, each component holding an FCF account will review the status of that account. Transfer net gains in an FCF account to the applicable FCF appropriation. Components will also determine the portion of the losses that can be absorbed by the FCF account and transfer to the FCF appropriation any remaining balances that are not required.

E. FCF requirements described in this chapter do not apply to Gains and Deficiencies on Exchange Transactions, Army (TAS 21 6763 and TAS 021 6763); Gains and Deficiencies on Exchange Transactions, Navy (TAS 17 6763 and TAS 017 6763); Gains and Deficiencies on Exchange Transactions, Air Force (TAS 57 6763 and TAS 057 6763); and Gains and Deficiencies on Exchange Transactions, Treasury (TAS 20 6763 and TAS 020 6763). Volume 5, Chapter 4 provides guidance regarding deficiencies. See Volume 5, Chapter 13 for guidance regarding gains and losses by revaluation.

F. FCF requirements described in this chapter do not apply to Burdensharing funds received from other countries. See Volume 12, Chapter 24 for guidance regarding Burdensharing funds.

*070303. Report Error Correction

Service components and OUSD (Personnel & Readiness) (OUSD(P&R)) Military Compensation Policy are responsible for ensuring the completeness and accuracy of monthly report submissions to DFAS Departmental Reporting Directorate-Indianapolis. DFAS forwards the consolidated reports to the Office of the Deputy Comptroller (Program/Budget) (ODC(P/B)), OUSD(C), which also conducts a review of submitted reports for completeness and accuracy. ODC(P/B), OUSD(C) will notify the applicable data submitter if data correction is required. The applicable data submitter is responsible for data correction and resubmission through DFAS Departmental Reporting Directorate-Indianapolis to ODC(P/B), OUSD(C).

0704 REPORTING FORMATS

A. DFAS Departmental Reporting Directorate-Indianapolis is responsible for submitting the consolidated monthly report to the ODC(P/B), OUSD(C).

B. The DFAS Service Component central accounting activities, National Security Agency (NSA), DoD Education Activity (DoDEA), and Defense Security Cooperation Agency will provide a monthly report to DFAS Departmental Reporting Directorate-Indianapolis using the format in Figure 7-1.
1. Submit the report in accordance with due dates established by DFAS-Indianapolis and consistent with the requirements of OUSD(C).

2. The report will include the following:

   a. **Column 1 – Currency/Submitter.** Alphabetically list the specified country. Include the official currency (monetary unit) next to each country.

   b. **Column 2 – Unliquidated Obligations.** Enter the dollar amount of foreign currency unliquidated obligations at the budget rate. Derive this amount by taking the obligations incurred at the budget rate less the disbursements at the budget rate.

   c. **Column 3 – Accrued Variances.** Enter the accrued variances for the unliquidated obligations shown in column 2. This amount may change from month to month as the current foreign currency exchange rate changes and/or as the amount of unliquidated obligations changes.

   d. **Column 4 – Liquidated Obligations.** Enter the dollar amount of foreign currency obligations liquidated in the accounting system at the budget rate of the foreign currency cited within the obligating document.

   e. **Column 5 – Realized Variances.** Enter the actual dollar amount of the variance resulting from liquidated obligations to date. This amount represents the variance (difference) between obligations at the budget rate and amounts actually disbursed.

   f. **Column 6 – Obligations Incurred.** Enter the dollar amount of total foreign currency obligations incurred to date at the budget rate. Compute this amount from actual accounting data of obligations incurred at the budget rate. It will not be a derived number.

   g. **Column 7 – Planned Overseas Program.** The planned overseas program for execution at the budget rate should agree with the current year (CY) column of the Exhibit PB-18 (Foreign Currency Exchange Data). Volume 2B, Chapter 19 contains the format for Exhibit PB-18, which is required to support the PB request for the budget year. Explain any increases or decreases to the planned overseas program during the execution of the CY by country in the monthly report.

3. The report will also include footnotes showing:

   a. The total funding provided to the FCF account by source including:

      (1) Transfers from the FCF, D appropriation;

      (2) Transfers from the component's O&M availability; and
(3) Total FCF account funding;

b. The anticipated gains or losses for the remainder of the FY. Estimate the anticipated gains or losses on projected disbursements to the end of the year by computing the variance that would occur if the current foreign currency exchange rates were to remain in effect during the remainder of the year;

c. Transfers to FCF, D due to favorable realized variances;

d. Projected liquidations (budget rate) for the FY. Estimate the obligations (budget rate) that will be disbursed during the FY; and

e. An explanation of deviations from planned overseas program by country. This is required when substantial variances from the “obligations incurred” column exist. This explanation can occur any time prior to the canceling of funds.

* 070402. FCF, D Report (MILPERS)

A. Foreign currency rate variances increase or decrease the value of allowances paid to service members. To maintain the value of that portion of allowances members receive to purchase foreign currency, adjust allowances to offset increases or decreases in foreign currency rates. For purposes of FCF, D transfers, the calculated effect on MILPERS disbursements that result from changes in foreign currency rates (foreign currency variance) is the difference in dollars required for the allowance at budget exchange rates and the current allowance rates. However, FCF, D transfers are approved only for Cost-of-Living Allowances (COLA) and Overseas Housing Allowances (OHA).

B. DFAS Departmental Reporting Directorate-Indianapolis is responsible for submitting this consolidated monthly report to the ODC(P/B), OUSD(C).

C. The process for identifying the foreign currency impact on COLA and OHA is as follows:

1. Identify total expenditures by the Military Departments for COLA and OHA by officer and enlisted for the country currencies included in the FCF, D account.

2. OUSD(P&R) Military Compensation Policy will report to the DFAS Service Component central accounting activities the appropriate COLA and OHA index based on current exchange rates. For FCF, D, OUSD(P&R) Military Compensation Policy will also report COLA and OHA indices based on the budget exchange rates.

3. DFAS Service Component central accounting activities will access affected personnel pay accounts and identify the COLA and OHA disbursements, by officer and enlisted, according to designated location codes.
4. DFAS Service Component central accounting activities will calculate the foreign currency impact by estimating the differences between budget exchange rates and current exchange rates applied to the total expenditures for COLA and OHA.

5. Consolidate foreign currency amounts and identify the remaining expenditures for the end-of-month recorded disbursements.

D. The COLA foreign currency report format structure is:

1. Service,
2. Country (FCF, D country),
3. Budget Rate,
4. COLA Rate,
5. COLA Code,
6. COLA Code Change Indicator,
7. Budget Index,
8. Allowance Index,
9. COLA Factor,
10. Actual COLA Enlisted Disbursement,
11. Budgeted COLA Enlisted Amount MILPERS Appropriation,
12. COLA Realized Variance Enlisted,
13. Actual COLA Officer Disbursement,
14. Budgeted COLA Officer Amount MILPERS Appropriation,
15. COLA Realized Variance Officer,
16. Actual COLA Officer/Enlisted Disbursement Total,
17. Budgeted COLA Officer/Enlisted Amount MILPERS Appropriation Total, and
18. COLA Realized Variance Officer/Enlisted Total.
E. The OHA foreign currency report format structure is:

1. Service,
2. Country (FCF, D country),
3. Budget Rate,
4. OHA Rate,
5. OHA Factor,
6. Actual OHA Enlisted Disbursement,
7. Budgeted OHA Enlisted Amount MILPERS Appropriation,
8. OHA Realized Variance Enlisted,
9. Actual OHA Officer Disbursement,
10. Budgeted OHA Officer Amount MILPERS Appropriation,
11. OHA Realized Variance Officer,
12. Actual OHA Officer/Enlisted Disbursement Total,
13. Budgeted OHA Officer/Enlisted Amount MILPERS Appropriation Total, and
14. OHA Realized Variance Officer/Enlisted Total.

F. Report the following information by OUSD(P&R) Military Compensation Policy and use it to prepare the monthly COLA and OHA foreign currency execution reports:

1. **Column A – Country.** This column lists the budget countries subject to FCF, D requirements.
2. **Column B – Budget Rate.** This column identifies the FY budget exchange rates as set by OUSD(C).
3. **Column C – COLA Rate.** This column identifies the current market exchange rate upon which both COLA and OHA are set (allowance rate).
4. **Column D – COLA Code.** For countries with multiple COLAs, many locations are linked and receive the same index. This code identifies linked locations for COLA purposes.
5. **Column E – COLA Code Change Identifier.** This column identifies whether a change has been made this period to the COLA Code.

6. **Column F – Budget Index.** This column represents the COLA index based on budget rate.

7. **Column G – Allowance Index.** This column represents the COLA index based on allowance rate.

8. **Column H – COLA Factor.** This column represents the multiplication factor for COLA disbursements based on budget and allowance indices.

9. **Column I – OHA Factor.** Compute the balance for this column by taking the budget rate minus the OHA rate divided by OHA rate.

070403. DD-COMP (M) 1761 – Foreign Currency Fluctuation, Construction, Defense Report

A. **DFAS Departmental Reporting Directorate-Indianapolis** is responsible for submitting this consolidated monthly report to ODC(P/B), OUSD(C).

B. The **DFAS Service Component** central accounting activities, NSA, and DoDEA will provide a monthly report to the DFAS Departmental Reporting Directorate-Indianapolis using the format in Figure 7-2.

1. Submit the reports in accordance with due dates established by DFAS-Indianapolis and consistent with the requirements of OUSD(C).

2. The report will include the following:

   a. **Column 1 – Country.** Alphabetically list the specified country.

   b. **Column 2 – Monetary Unit.** Enter the monetary unit of the country.

   c. **Column 3 – Foreign Currency Unliquidated Obligations.** Enter the dollar amount of unliquidated obligations at the budget rate. Report unliquidated obligations by FY.

   d. **Column 4 – Accrued Variance.** Enter the accrued variance for the unliquidated obligations in column 4. This amount may change from month to month as the current foreign currency exchange rate changes. Report accrued variances by FY.

   e. **Column 5 – Foreign Currency Liquidated Obligations.** Enter the dollar amount of total obligations liquidated for the report month at the budget rate.
f. **Column 6 – Realized Variance.** Enter the actual dollar amount of the variance resulting from liquidated obligations for the month. This amount represents the variance (difference) between obligations at the budget rate and the amount actually disbursed. Charge all realized variances against the applicable FCF accounts for construction, military family housing operations and maintenance, and military family housing construction.

g. **Column 7 – FCF Account Projected 6-Month Disbursements.** Enter the projected 6-month disbursements from the FCF accounts based on historical outlay data, contract requirements, and payment schedules.

3. The report will also include footnotes showing:

   a. The anticipated gains or losses for the rest of the FY (estimate this figure by computing the variance that would occur if the present currency exchange rates were to remain unchanged during the remainder of the FY); and

   b. The total amount of funding transferred to the FCF accounts from the FCF, C, D appropriation.

ACCOUNTING AND REPORTING FOR OPERATION AND MAINTENANCE OF THE FAMILY HOUSING PROGRAM

0901  GENERAL

090101. Overview

This chapter provides accounting support for Family Housing Operation and Maintenance (O&M) requirements and prescribes an accounting structure that accumulates Family Housing O&M costs consistent with guidance set forth in Volume 2B, Chapter 6. Congress established the Family Housing O&M appropriation to separate the funding of Family Housing O&M from other O&M programs. Charge all obligations incurred for O&M to support the military Family Housing Program to the Family Housing O&M appropriation.

090102. Purpose

The purpose of the account structure is to provide uniform procedures for consistently identifying, accumulating, and reporting family housing program costs. It is important that methods for computing costs for the Family Housing Program are as uniform as practicable among the Department of Defense (DoD) Components. Such uniformity is essential to permit intra-DoD and inter-DoD Component program, budget, and cost comparison, irrespective of the management service, the agency, or the accounting system used at the installation. Cost identification and computation methods specified herein should minimize the accounting effort and detail required to compute costs. Costs for operating and maintaining family housing facilities must be identified as prescribed in this chapter and are the basis for reports referenced herein.

090103. Authoritative Guidance

The Family Housing Program encompasses Military Family Housing, as defined and authorized by the provisions of Title 10, United States Code (U.S.C.), Chapter 169, and includes all DoD Component family housing in the Defense Family Housing Property Account, leases of real property utilized by DoD Components for family housing, and associated family housing support services programs. The policies prescribed throughout this chapter, pertaining to the accounting and reporting for O&M costs of the Family Housing Program, are based upon 10 U.S.C., Chapter 169 and the laws and regulations cited herein.

*0902  SCOPE

This policy applies to all DoD Components that support military family housing under the Family Housing Program. Military Departments’ Housing Privatization support costs associated with the Military Housing Privatization Initiative (MHPPI) Program, such as assessments/studies; portfolio, program, and asset management; construction oversight; consultant fees; and other administrative costs, are funded by the Family Housing O&M appropriation and fall within the parameters of this policy. The Office of the Assistant Secretary of Defense for Sustainment
(OASD(S)) and Defense Finance and Accounting Service (DFAS) MHPI Program administrative support costs are separately budgeted, accounted for, and reported in the Defense-wide Family Housing Improvement Fund (FHIF) and Military Unaccompanied Housing Improvement Fund (MUHIF) Program accounts.

0903 ACCOUNT STRUCTURE AND CONTENT

090301. Accounts Used for Accumulating Costs

A series of accounts has been established and maintained for accumulating Family Housing O&M costs incurred and reimbursements earned through the Family Housing Program. Compute and identify costs and reimbursements to the accounts in accordance with the guidance herein. Use the accumulated costs and reimbursements in the accounts to support budget exhibits and budget execution reports.

090302. Required Summary and Subordinate Accounts

The following is a list of required summary and subordinate accounts.

A. Operations Account

1. Management Account. This account accumulates costs of management, administrative, and support-type services at the installation level involving:

   a. Administration costs for installation housing offices, including management office personnel, supplies, equipment, and utilities pertaining to the functions of a family housing office. These costs also include administrative support services provided in supply, comptroller, maintenance, and other installation offices when the costs for such services are attributable to family housing;

   b. Costs for administering and providing housing referral services and assistance in locating and inspecting privately-owned family housing for DoD personnel;

   c. Costs for requirements surveys and preliminary studies, including Family Housing market analyses, condition assessments, survey requirements for construction plans, and concept development. This account also includes community liaison and planning for improvement and rental guarantee projects and inspection; and

   d. Other identifiable management costs that directly support the Family Housing Program.

2. Services Account. This account accumulates costs for authorized services for Government-owned family housing units. For privatized housing, the developers are financially responsible for the reimbursement or payment of services provided.
a. **Refuse Collection and Disposal.** These services include collecting garbage, trash, ashes, debris, and refuse disposal for family housing, such as the O&M of incinerators, sanitary fills, and regulated dumps. These services also include acquisition, maintenance, and repair of garbage and trash containers, and operation of can-washing facilities.

b. **Fire Protection.** This service includes costs for protection and fire prevention efforts for family housing facilities.

c. **Police Protection.** This service includes the costs for law enforcement, traffic control, and protection of family housing facilities.

d. **Entomological Services.** These services include costs of all control measures against fungi, insects, and rodents within family housing dwellings, facilities, and areas.

e. **Custodial Services.** These services include costs of janitorial and custodial services performed in common service areas and the cost of elevator operation in family housing facilities.

f. **Snow Removal.** This service includes the costs of removing, hauling, and disposing of snow; ice alleviation; and erection, maintenance, repairs, and removal of snow fences for family housing areas.

g. **Street Cleaning.** This service includes the costs of cleaning streets comprised of sweeping, flushing, and picking up litter.

h. **Municipal Type Services.** These services include costs of miscellaneous municipal type services not identifiable to other listed accounts.

i. **Other Services.** The costs of all other authorized services for family housing fall into this category.

3. **Furnishings Account.** This account accumulates costs for initial acquisition, maintenance, repair, and replacement of furnishings, furniture, movable household equipment, and authorized miscellaneous items. This account also includes costs of controlling, handling, record keeping, and moving of Government-owned furnishings into and out of dwelling units; charges for connecting and disconnecting equipment; and handling costs incident to storage. Also included are furnishings for Special Command Positions and Senior Leadership as prescribed in DoD Manual 4165.63, “DoD Housing Management.”

4. **Miscellaneous Account.** This account accumulates costs of operational items that do not fall into management, services, or furnishings accounts. This account includes:
a. Lease, rents, and permit payments for housing and trailer spaces leased by the Government from private sources or provided by the Federal Housing Administration (FHA) or the U.S. Department of Veterans Affairs (VA);

b. Reimbursement costs for dwellings provided by State (e.g., International Cooperative Administrative Support Services), municipal, or foreign governments, or by Federal agencies other than the FHA or VA. This includes payments from the Military Departments to the U.S. Coast Guard for family housing provided to their military personnel;

c. German land taxes paid to the Federal Republic of Germany under the North Atlantic Treaty Organization Status of Forces Agreement for local taxes on land and improvements of family housing property;

d. Fire insurance charges paid to the Federal Republic of Germany to cover fire damage to family housing dwelling units;

e. United Kingdom accommodation charges paid in accordance with the country-to-country agreement for housing provided to U.S. Forces; and

f. Other miscellaneous operations costs not covered elsewhere.

B. **Utility Account.** This is a summary account for accumulating costs for utilities consumed in family housing, including electricity, water, sewage, natural gas, fuel oil, or other heating fuels. This account excludes the costs of maintenance and repair of utility systems identified to the family housing property covered under the Maintenance Account. Exclude other costs reported as “Services” from the utility operations account.

C. **Maintenance Account**

1. **Dwellings Account.** This account accumulates costs of maintenance and repair, including all interior utilities and installed equipment, of all family housing buildings in real property category codes 711, 712, and 714, as defined in the DoD Real Property Categorization System, which is established by DoD Instruction 4165.03, “DoD Real Property Categorization.” Typically, accumulating costs for this account involves:

   a. Service calls for minor work, including emergency and temporary repairs normally not in excess of 16 work hours;

   b. Routine maintenance for occupancy work and other maintenance usually scheduled annually or more frequently;

   c. Repairs and replacements for rehabilitations and replacement of major components and installed equipment;

   d. Interior and exterior painting and the necessary preparation; and
2. **Exterior Utilities Account.** This account accumulates costs of maintenance and repair of electric, gas, water, sewage, and other utility distribution, collection, or service systems assigned to family housing. Street and area lighting systems are included in exterior utilities beginning at a point 5 feet from the house line and ending at a point where the utility system joins a common use main or terminates.

3. **Other Real Property Account.** This account accumulates costs for maintenance other than to dwellings and exterior utilities, including:
   
   a. Maintenance, care, and repair of improved and unimproved grounds, storm sewerage, and drainage structures; and costs of acquisition, maintenance, and repair of Government-owned minor equipment, such as hand-operated lawnmowers used for grounds maintenance by occupants;
   
   b. Maintenance and repair of paved or stabilized streets, roads, walks, and driveways; utility, service, and parking areas, as well as curbs, gutters, signs, and other road appurtenances; and
   
   c. Maintenance and repair of facilities other than dwellings, such as fences when the facility is dedicated to housing, athletic and recreation facilities, community buildings, service facilities, and the costs of maintenance of trailer sites including outlets.

4. **Alterations and Additions Account.** This account accumulates costs for incidental additions, expansions, extensions, and alterations to existing real property. These costs include payments made to military personnel for telephone reconnection charges when maintenance or repair work necessitates Government-directed, nonpermanent change-of-station moves, and charges resulting from improvement or repair projects funded in part from the family housing construction account.

**D. Leasing Account**

1. **Lease Cost – Foreign Account.** This account accumulates costs for charges and other payments specified in the lease agreement for housing in foreign countries under 10 U.S.C., section 2828.

2. **Lease Cost – Foreign Account Government Rental Guarantee Program (GRGP).** This account accumulates costs for charges and other payments specified in the lease agreement for housing in foreign GRGPs (e.g., Europe under the Army GRGP programs).

3. **Lease Cost – Domestic Account.** This account accumulates costs for charges and other payments specified in the lease agreement for housing in the United States, including U.S. possessions and territories, as specified in 10 U.S.C. § 2828.
4. **Lease Cost – Section 2835 Account.** This account accumulates costs for charges and other payments specified in the lease agreement for 10 U.S.C. § 2835 housing contracts for the lease of facilities on or near military installations, essentially a build-to-lease guarantee to a local property developer.

5. **Rental Guarantee – Section 2836 Account.** This account accumulates costs accounted for under rental guarantees for a minimal occupancy rate or rental income for 10 U.S.C. § 2836 housing. This program allows the DoD Components to enter into lease agreements guaranteeing that tenants occupy rental housing on or near installations.

6. **Other O&M Cost.** This series of accounts accumulates costs for maintenance, utilities, and contracted services not provided by the lessor for foreign, GRGP, domestic, and 10 U.S.C. § 2835 and § 2836 housing. They include initial make-ready costs, costs of Government-owned furnishings, any pro rata share of the costs of installation services, and administrative costs, such as assignment, travel, and inspection by installation personnel. Reimbursements to the Department of State for foreign affairs administrative support costs are also included.

E. **Mortgage Insurance Premiums Account.** This is a summary account for accumulating the costs for service members’ mortgage insurance premium payments pursuant to 12 U.S.C. § 1701, also referred to as the “National Housing Act.” See Volume 2B, Chapter 6 for more guidance.

F. **Foreign Currency Fluctuations Account.** This is a summary account for accumulating the gains or losses arising from foreign currency exchange rate fluctuations in accordance with the requirements in Chapter 7.

G. **Reimbursements Account.** This is a summary account for accumulating reimbursements collected during the current fiscal year for Family Housing O&M rental and service charges billed to occupants and for proceeds from handling or disposing of excess housing property. Identify reimbursements for Foreign Military Sales (FMS)-funded and Non-FMS-funded accounts separately.

1. **FMS-Funded Account.** This account accumulates all reimbursements from FMS-funded activities or sources. Identify the amounts within the account as to the nature of the reimbursements, for example, recovery of the costs of operations, utility operation, maintenance of real property facilities, or proceeds from property handling or disposal.

2. **Non-FMS-Funded Account.** This account accumulates reimbursements from other than FMS-funded activities or sources. Identify the amounts within the account as to the nature of the reimbursements, for example, recovery of the costs of operations, utility operation, maintenance of real property facilities, or proceeds from property handling or disposal.

H. **Housing Privatization Support Account.** Use this account for accumulating costs the Government incurs in direct support of the MHPI program with the exception of the costs
included as part of the privatization project. These costs are associated with the support of the MHPI program and specifically for:

1. Site assessment costs, including environmental baseline assessments, environmental assessments, environmental impact statements, and any efforts required by the Government prior to privatization for environmental mitigation, site surveys, or real estate costs;

2. Project costs, including project feasibility studies, concept development, consultant fees, solicitation, procurement, contracting, execution, transition, construction management, post-award management and monitoring, and portfolio management; and

3. Administrative costs, including civilian pay, travel, training, supplies, equipment, and services provided by a Defense agency in support of the privatization program.

0904 COST IDENTIFICATION PROCEDURES

090401. Obligations Incurred

The DoD Components must identify the obligations incurred, both in-house and by contract, to operate and maintain family housing programs.

090402. Identifiable and Measurable Costs

Charge costs to the applicable family housing account to the extent they are reasonably identifiable and measurable to the housing program. This practice does not prevent the use of engineered standards or estimates in charging utilities when metering devices are not used.

090403. Obligations for Administrative Costs

Limit obligations incurred for administrative support and supervision efforts to those incurred at installation level and do not include those incurred at echelons of command above the installation. An exception is made when amounts for administrative support and supervision are included in charges assessed by a field office of a construction agent.

090404. Criteria for Support Costs

Assign other efforts, goods, or services provided to family housing programs to appropriate family housing accounts based on relative workload, benefit, or other measurement. Use the following general criteria in assigning support costs to the Family Housing Program:

A. When the support provided is predominantly personnel-intensive, costs must be allocated based on a pro rata basis of workload or actual costs, whenever possible. This would
include collateral duty management assignments involving command or policy determinations related to personnel, financial management, legal, procurement, or similar areas;

B. When the support provided has a mix of personnel, equipment, materials, or supplies, allocate costs based on workload (e.g., printing or reproduction services or computer support involving a mix of resources) or actual costs, whenever possible. Use the proportion of workload for the Family Housing Program to the total workload to compute the portion of the total costs identified to the Family Housing Program; and

C. When the support provided predominantly involves specific goods or services (e.g., electricity, gas, water, or sewer), allocate costs based on the relative amount consumed or quantity used or actual costs, whenever possible.

090405. General or Flag Officers Costs

When a set of quarters is intended for or occupied by officers of General or Flag rank, identify the costs accumulated for the O&M of each set of quarters within the accounts specified in this chapter and reported in accordance with the requirements prescribed by the OASD(S).

090406. Costs Identified to the Family Housing Program

When identifying Family Housing O&M costs to the program, the general premise is to assign all applicable costs. When an incidental level of effort, supplies, or services are provided on a nonrecurring basis, costs need not be identified to the program if they are insignificant and it is not cost effective to measure and assign the costs. As a general rule, cost identification is necessary when the support is more than incidental.

090407. Installation Managers Responsibility

Installation management officials, such as the installation commander, public works officer, housing director, or comptroller, are responsible for identifying the O&M costs for the Family Housing Program, whether funded by Family Housing O&M or other appropriations. Installation managers must periodically review manning standards, workload and consumption methods, and other factors used to identify efforts in support of the program. When variances occur in efforts, workload, or other resources consumed, reset the basis of allocating such costs to the program. Management must also review charges to the accounts specified herein to ensure that none have been inadvertently omitted or erroneously included.

0905 COST ELEMENTS AND COMPUTATION OF CHARGES

090501. Full Absorption Basis

Charge costs to the program in proportion to the actual efforts used, goods consumed, or services received by the Family Housing Program. Fully charge dedicated efforts or responsibilities for the program. For example, charge total costs for full-time management and staff to the Family
Housing Program. Compute and expense all costs of providing program support to the program on a full absorption basis, i.e., full cost for dedicated support and pro rata cost for other support.

A. Apply the normal business fund overhead rates to family housing support for Defense Working Capital Fund (DWCF) real property maintenance activities, which have a primary mission of facility maintenance.

B. Apply the applicable rate to direct work or service in support of family housing for other funded real property maintenance activities with established shop or productive expense rates.

090502. Labor Costs

Compute the labor effort of military or civilian personnel assigned and identified to family housing for pay and benefits using a labor distribution system, if available, or the guidance in Volume 11A, Chapter 1. Review and validate personnel efforts annually to support charges to family housing. Accumulate and classify military labor as an unfunded cost within the account structure since the cost is not a reimbursable charge to the program.

090503. Material and Supplies Costs

Compute costs for material and supplies based upon the relative or actual amount consumed, or the quantity used. Compute material and supplies at acquisition price if directly (locally) purchased or at standard inventory price if issued through the supply system.

090504. Costs of Services

Compute and charge, upon receipt, services provided by Government forces or contractors, such as refuse collection and disposal, entomological, and custodial activities. Family housing must bear the full cost of these services when it is the sole customer. Charge a partial cost to family housing when the family housing portion of such services is readily separable and distinct. When the service operation is too intertwined or complex to enable ready identification of proper family housing costs, charge costs to family housing based on the proportionate amount of service received on a unit-of-service basis, such as number of refuse pickups or square feet of floor area receiving custodial service.

090505. Utility Costs

Compute utility costs based upon consumption. All DWCF-funded activities providing utilities must compute the charges consistent with their normal procedures. All other activities must compute the charge to family housing at the rate the utility is purchased from the supplier. If not metered, then base consumption on documented engineering estimates.
090506. Equipment Usage Costs

Compute equipment usage costs for rented property at the lease or rental rate. Limit cost computation in the case of Government-owned equipment to the expenses of operating and maintaining the equipment and charges for the operator’s time when provided by other than family housing. Do not compute acquisition costs or periodic depreciation charges.

090507. Unfunded Costs

Treat military labor and headquarters costs, included in construction agent administrative support and supervision effort above the installation level, as unfunded costs in computing Family Housing O&M costs.

0906 REIMBURSEMENTS

090601. FMS-Funded and Non-FMS-Funded Accounts

Use FMS-funded and non-FMS-funded accounts to accumulate reimbursements for charges initially financed by the Family Housing O&M appropriation for the Family Housing Program or proceeds from handling or disposing of family housing property. Record all reimbursements in the family housing reimbursement accounts.

090602. Reimbursements

Ordinarily, reimbursements are for rental and service charges paid by occupants or users of family housing facilities. Some collections are refunds that include the costs of repairing damages and replacement of items to family housing facilities.

090603. Reimbursements for Recovery of Expenses

Reimbursements involve the recovery of expenses for handling and disposing of excess family housing property as well as the proceeds from sales of such property. Collections are used for various purposes, such as defraying O&M expenses or the payment of debt. Volume 2B, Chapter 6 provides policy guidance governing such collections, use, and reporting.

0907 INTERNAL CONTROL

Management must develop and implement internal control techniques to ensure effective control over and accountability for the resources charged to this program and for the full and prompt receipt of all proceeds from reimbursements for rents, service charges, and disposal or handling of excess family housing property.
0908 REPORTING

* 090801. Responsibility of DoD Components

The DoD Components responsible for operating and maintaining family housing facilities are required to prepare the reports described in this chapter. Administrators of Housing programs under MHPI are required to prepare these reports for the FHIF and MUHIF program accounts. The FHIF and MUHIF Financing accounts, however, require only the Standard Form (SF) 133, Report on Budget Execution and Budgetary Resources.

090802. Reports

Data derived from the uniform account structure identified in this chapter must be used when preparing and submitting the following reports.

A. Appropriation Status by Fiscal Year Program and Subaccounts Report (Accounting Report (Monthly) 1002). The DoD Components must prepare and distribute the report in accordance with the guidance contained in Chapter 4.

B. SF 133. The DoD Components must prepare and distribute the monthly report for the annual portion of the Family Housing O&M category of the family housing appropriation in accordance with the guidance prescribed in Chapter 4.

090803. Military Departments/DFAS and Intermediate/Installation-Level Report Requirements

Reporting requirements for family housing reports at the center/service and intermediate/installation-level are addressed in manuals and instructions published by the individual Services or DFAS central accounting activities.

1301 GENERAL

DoD Components are required to report expenditures and receipts that affect the U.S. International Balance of Payments (IBOP). The IBOP report provides information required by the Department of Commerce and the Department of the Treasury (Treasury) for control of IBOP financial transactions.

130101. Purpose

This chapter establishes the policies and requirements for the accounting and reporting of DoD international transactions related to U.S. balance of payments data, including grants and credits extended to foreign countries.

130102. Authoritative Guidance

Authoritative guidance for this chapter is derived from Office of Management and Budget (OMB) Statistical Directive 19: “Reports of the Department of Commerce on International Transactions” (Directive 19). Directive 19 established the IBOP transaction reporting requirements to the Department of Commerce. Reported information is used by the United States in managing balance of trade with foreign nations.

1302 REPORTING OVERVIEW

130201. Applicability and Scope

A. These requirements apply to the OSD, the Military Departments (Army, Navy, Air Force, Marine Corps), Defense Agencies (including the Military Postal Service (MPS) and nonappropriated fund activities), and DoD Field Activities (hereafter referred to collectively as “DoD Components”). DoD Components are responsible for reporting transactions affecting the IBOP. Each Defense Finance and Accounting Service (DFAS) main site (Indianapolis, Columbus, and Cleveland) is responsible for consolidating the data for the DoD Components and submitting a final report to the Department of Commerce. While DFAS reports a majority of the IBOP data, the Department of Commerce may identify specific information to be reported directly by select DoD components.

B. The requirements cover all transactions that relate to the IBOP report, including specified data on DoD assets and liabilities abroad and foreign currency transactions, DoD international investments, Foreign Military Sales, transfers of property and services abroad, and foreign grants and credits. This chapter’s requirements apply to all transactions, regardless of payment method (e.g., U.S. dollars, foreign currency, and purchase card) accounted for in any of the following:
13-5

1. Expenditures from or reimbursements to U.S. dollar appropriation and fund accounts (general and special funds, public enterprise funds, deposit funds, and trust fund accounts for military and civilian functions);

2. Transfer appropriation accounts including Foreign Military Sales;

3. General fund receipt accounts established by the Treasury for collection of miscellaneous receipts for which the DoD has billing and collecting responsibility;

4. Expenditures or receipts of foreign currencies charged or credited to other than U.S. dollar appropriation and fund accounts (such as DoD Foreign Currency (Foreign Transaction (FT) accounts));

5. Receipts or donations of commodities or services;

6. Transfers under special drawdown authority of the President, Excess Defense Articles (EDA) program, or international treaties;

7. Nonappropriated fund activities, such as commissaries, post exchanges, and officers’ clubs; and

8. All MPS transactions, such as meters (including Postage Validation Imprinters Sales), stamps, and money orders.

130202. Report Formats and Rules

The report formats and edit and validation rules for submission are provided in Tables 13-1 through 13-4. Sample formats are shown in Tables 13-5 through 13-7.

130203. Definitions

A. Abroad. The term abroad includes all foreign countries and the Panama Canal Commission, but excludes the United States, its possessions, Puerto Rico, Guam, and the U.S. Virgin Islands.

B. Accommodation Sales. Accommodation sales represent the sale of foreign currencies for dollars to U.S. personnel for their personal use in a foreign country.

C. Collections. Collections are receipts in currencies (both foreign and U.S.), checks, or other negotiable instruments and net of repayments.

D. Constructive Delivery. Constructive delivery is the delivery of materiel to a carrier for transportation to the consignee; the delivery of materiel to the customer or the designated forwarder at point of production, testing, or storage; delivery at dockside, at airports, or to a U.S. post office for shipment to the consignee. Completed shipping documents or listings of delivery to the U.S. Post Office provide evidence of delivery.
E. **Contract.** A contract is any type of agreement or order for procurement of materiel, supplies, and services of any amount including purchase orders, delivery orders, service orders, and similar authorizations.

F. **Delivery.** Delivery is the performance of services for the customer or requisitioner; the constructive delivery of materiel as defined in subparagraph 130203.D; or collections for services, transportation, and materiel when they are normally recorded in the billing and collection cycle immediately following performance.

G. **Foreign Military Sales.** Foreign military sales represent the sale of materiel, supplies, equipment, services, and any other support for cash or credit by a DoD Component to a foreign government or international organization as authorized by the Arms Export Control Act (AECA) of 1976, as amended.

H. **Foreign Resident.** The term foreign resident is comprised of the government of a foreign country and all its agencies and subdivisions, corporations, and any individuals residing in a foreign country, except for those defined as follows.

1. Consider a corporation a resident of the country in which it is incorporated. Count a subsidiary as a separate corporation and as a resident in the country where it is incorporated. Business offices and branches of U.S. corporations are residents of the countries where they are located. A corporation operating in a foreign country without a subsidiary or foreign business office or branch is a resident of the country in which it is incorporated. A business representative, however, such as the ticket office of a U.S. transportation company or a sales agent, is not considered a foreign business office.

2. An individual, including a retired U.S. citizen, is a resident of the country in which he or she resides, and not the country of his or her citizenship.

3. An international organization with multi-governmental members is not considered a resident of any particular country.

I. **Gross Pay Foreign Nationals.** The term gross pay foreign nationals is the amount paid to or on behalf of a foreign national citizen or organization, including U.S. contributions to the foreign government, and fees charged by a foreign government under contracts for indirect hire.

J. **Guaranty Financing.** Guaranty financing includes items associated with the guaranty of private credit by the U.S. Government under the AECA of 1976, as amended.

K. **Interest.** The term interest includes interest collected on military assistance or foreign military long-term credit, interest collected by finance and accounting officers for short-term deposits made in financial institutions that share in interest remitted to a DoD Component under Guaranty Financing arrangements, and interest on advances to foreign residents.
L. Joint Weapons Production and Exchange Agreements. Joint weapons production and exchange agreements includes both production of military end items by a foreign country or resident with participation by a DoD Component through payment of cash, or the provision in kind of materiel, assemblies, components, or services, and a joint sharing of the end items as determined by the agreement. This includes co-production, cost sharing, exchange agreements, joint production, North Atlantic Treaty Organization (NATO) consortiums, and others as authorized by the AECA of 1976, as amended.

M. Military Assistance Grant Aid. Military assistance grant aid is the provision of any type of assistance in the form of materiel, supplies, equipment, facilities, training, transportation and services, or otherwise by a DoD Component to a foreign government or international organization. The AECA of 1976 and the Foreign Assistance Act (FAA) of 1961 authorize such assistance. These provisions include Foreign Military Financing (FMF), International Military Education and Training (IMET), the Military-to-Military Contact Program, Special Drawdown Authority, the EDA Program, and Building Partnership Capacity (BPC) programs.

N. MPS. The MPS is the single DoD point of contact with the U.S. Postal Service (USPS). An agreement between the DoD and the USPS establishes the MPS as an extension of the USPS abroad and in the continental United States, as applicable.

O. Net Pay. Net pay is the part of gross pay that is given, mailed, or electronically transferred directly to the individual by cash, check, or electronic transfers. This can include paychecks mailed or transferred by a disbursing officer (DO) to any bank or financial institution for credit to the individual account of U.S. personnel stationed abroad. Net pay includes allotment checks for U.S. personnel stationed abroad or in the United States (for dependent support, personal accounts) mailed to a foreign address (including Army Post Offices), Fleet Post Offices (FPOs), and Diplomatic Post Offices (for foreign addressees), but excludes allotment checks mailed to a U.S. address.

P. Net Pay U.S. Personnel. The term net pay U.S. personnel includes earned entitlements (pay and allowances) for U.S. military forces, allowances to enlisted personnel for subsistence, and amounts earned or otherwise payable to U.S. civilian employees. Net pay excludes U.S. contributions (e.g., life insurance, retirement, health benefits, and social security), but includes amounts that may be withheld from personnel for these items or that are allotted to designated individuals or institutions.

Q. Other Assistance Grant Aid. The DoD outlays from appropriations or sections of appropriations that specifically support U.S. foreign assistance (as authorized under the FAA as amended and other legislation) are IBOP assistance grant aid. These DoD outlays represent the value of goods and services delivered to foreign individuals, governments, or international organizations under specific U.S. foreign assistance programs that include, but are not limited to: Overseas Humanitarian, Disaster, and Civic Aid, Defense (97X0819); Cooperative Threat Reduction Account, Defense (97X0134); Drug Interdiction and Counter-Drug Activities, Defense (in-country support only of 97X0105); and Overseas Costs for Contingency Operations under section 607 of the FAA (reimbursed by special supplement appropriations).
R. **Payment.** The term payment includes payment in currencies (both foreign and U.S.), checks, or other negotiable instruments, after net of all refunds.

S. **Personnel Afloat.** The term personnel afloat includes U.S. personnel whose duty station is aboard ship.

T. **Progress Payments.** Progress payments are payments made by a DoD Component to a contractor or other supplier on contractual procurement of goods or services as work progresses for delivery on a foreign military sale.

U. **Real Property Transfer.** Real property transfers are items associated with the conveyance of military real property by a Military Department to a foreign resident or international organization.

V. **Returns to the United States.** Returns to the United States are the portion of payments to contractors or suppliers that is remitted to the United States, or spent or held in the United States, as the result of procurement of U.S. end products, U.S. services, and transportation on U.S. flag carriers for supply, service, or construction contracts. For rules applicable to the identification and reporting of returns to the United States, see the Defense Federal Acquisition Regulation Supplement (DFARS), section 225.1103(1) and the clause at 252.225-7005.

W. **U.S. Personnel.** U.S. personnel includes U.S. military forces (active duty and Reserve Components, but excludes retired military personnel) and U.S. civilian employees (civil service, nonappropriated fund, and individual contract hire).

130204. **Frequency and Distribution**

The IBOP report must be prepared, at a minimum, quarterly and is due to the Department of Commerce no later than 45 calendar days following the end of the quarter. The report may be prepared and submitted monthly if desired based upon system capability. DFAS Operations Directorates will provide specific due dates to their respective DFAS Sites.

130205. **Policy**

It is DoD policy to operate overseas activities efficiently and effectively, and to reduce the balance of payments impact of these activities, when such reduction is consistent with U.S. national security goals and objectives. To support this policy, the Department maintains a mechanism to manage and control DoD transactions that enter the IBOP. This system provides for:

A. DoD-wide accounting for and reporting of IBOP transactions;

B. Evaluation and explanation of DoD IBOP transactions;

C. Use of uniform criteria, definitions, and requirements to report IBOP transactions; and
D. Integration of IBOP management and the overall system of management within the Department.

130206. Responsibilities

A. Heads of the DoD Components, must:

1. Develop procedures for implementing the reporting requirements;

2. Ensure reports and required data are submitted on time and are complete and accurate; and

3. Identify, for the Department of Commerce, the office responsible for submitting required data and points of contact within respective organizations that can both provide supplemental information on specific IBOP transactions and resolve problems associated with collecting and processing data.

B. The DFAS Site Directors must:

1. Administer and monitor, as necessary, the reporting requirements for their field reporting offices;

2. Ensure the requirements prescribed are uniformly implemented;

3. Work with other DFAS Sites to provide technical assistance on collecting required data and preparing reports. Each DFAS Site acts as the focal point for the assigned reporting organizations (sites) in providing technical assistance; and

4. Ensure reports are submitted directly to the Bureau of Economic Analysis, U.S. Department of Commerce, and include all data required by Directive 19.

130207. Reporting Guidelines

A. Finance and Accounting Data

1. Installation-Level Procedures. The DoD Components and supporting DFAS Sites must accumulate the data on payments and collections made by their respective disbursing activities as an integral part of installation-level requirements. The IBOP reports must include all collection and disbursement data for the period covered by the report.

2. Nonappropriated Funds and MPS. Accumulate data on nonappropriated funds and MPS accounts and include them in the quarterly reports.
B. Category and Country Codes on Vouchers

1. Codes. Code all payment and collection vouchers processed overseas with the appropriate category code and foreign country or international organization code, as prescribed on the National Geospatial-Intelligence Agency (NGA) website (see Geopolitical Entities, Names and Codes (GENC) Standard) and Table 13-8, prior to time of payment or collection. Vouchers processed overseas not entering the IBOP must be coded with the “U.S.” country code.

2. Country Codes. Input country codes on vouchers processed in the United States only for those transactions entering the IBOP. A current list of country codes is available on the GENC Standard (formerly “Federal Information Processing Standards (FIPS) Publication (PUB) 10-4”). If countries are not listed in the current guidance, a request can be sent to NGA at ccwgsecretariat@nga.mil for a new code. Country codes must not be confused with Defense Security Cooperation Agency (DSCA) customer codes. The two codes are not interchangeable.

C. Coded Authorizations. To ensure that payment vouchers are coded properly to indicate category, procurement of U.S. end products, transportation or services, and country or international organization, authorizations such as purchase orders, delivery orders, and contracts that result in expenditures entering the IBOP must be coded at the time of preparation whenever possible. Enter these same codes on the payment vouchers. When the authorization covers procurements of U.S. end products, transportation, or services, enter the percentage or amounts applicable to each procurement return category. Enter codes on all authorizations for the following types of transactions.

1. Construction and Other Service Contracts, Including Contracts for Scientific and Technical Knowledge to Be Performed Abroad. In all cases where the contract, delivery order, or other procurement document is issued to a U.S. resident, appropriate codes that identify returns to the United States must be included in the accounting classification.

2. Contracts for Procurement of Materiel, Supplies, and Equipment Abroad. When the terms of the contract require the use of U.S. end products, appropriate codes that identify returns to the United States must be included in the accounting classification on all contracts or other procurement documents issued to U.S. residents.

D. New or Discontinued Appropriations. Each DFAS Site is responsible for modifying their associated tables to reflect new or discontinued accounts that affect IBOP. The Treasury’s Federal Account Symbols and Titles (FAST) Book lists receipt, appropriation, and other fund account symbols and titles assigned by the Department. The FAST Book lists accounts separately that were created or discontinued since the previous revision.

E. Transaction Review. Review IBOP transactions prior to submission for accuracy to ensure the final report is complete and includes all of the required data elements for submission to the Department of Commerce. The DoD Components, accounting activities, and other reporting entities in the United States and at overseas locations must ensure that reported transactions are coded appropriately.
IBOP transactions are consistent with total transactions reported on the Standard Form (SF) 1220, Statement of Transactions According to Appropriations, Funds, and Receipt Accounts, and supporting SF 1219, Statement of Accountability, including FT accounts.

F. Cross-Disbursing. Under cross-disbursing requirements, the appropriate disbursing office must provide data on payment and receipt transactions to the DoD Component assigned reporting responsibility. Under these procedures, reports must include all of the data necessary for the DoD Component to report balance of payment expenditures and receipts for its accounts in accordance with the requirements of this chapter. The data must include all supplementary information that is necessary to identify returns to the United States as stated in subparagraph 130208.B.1.c. The DoD Component having management control of the funds must include these transactions in its IBOP report. Subparagraph 130207.N.4 identifies cross-disbursing reporting requirements for each Military Department.

G. Appropriation Reimbursements. Enter appropriation reimbursements from foreign entities on the appropriate Collections lines in the Accounting Report (AR)-1, as shown in Table 13-5. Enter collections from U.S. personnel abroad in the appropriate “Less Receipts from U.S. Personnel” lines (i.e., “Payments”).

H. Delivery Data. As outlined in DSCA 5105.38-M, Security Assistance Management Manual (SAMM), data regarding Foreign Military Sale deliveries (Chapter 7), FMF grant aid deliveries (Chapter 9), IMET Program (Chapter 10), transfers under Special Drawdown Authority and the EDA program (Chapter 11), Military-to-Military Contact Program (Chapter 11), BPC deliveries (Chapter 15), and transfers of real property (Chapter 15) must be prepared by the appropriate agencies.

I. Loans of Property. For any defense item loaned to a foreign government, central offices in each DoD Component must maintain a record as outlined in the SAMM, Chapter 11.

J. Advances to Foreign Residents or Countries. Report advances made to foreign residents or countries by a DoD Component as payments on the same lines in AR-1, as shown in Table 13-5, for future contract payments. Use Line Item 190000 of AR-1 to report interest collections for advances.

K. Other Foreign Aid under FAA. Report data on DoD outlays resulting from serving as the executive agent for other U.S. foreign assistance programs (as authorized by the FAA) as IBOP Other Assistance Grant Aid by the appropriate DoD Component assigned the responsibility for those programs. Such assistance includes, but is not limited to, the following programs: Overseas Humanitarian, Disaster, and Civic Aid Defense; Cooperative Threat Reduction Account, Defense; Drug Interdiction and Counter-Drug Activities, Defense (In-Country Support only); and Overseas Costs for Contingency Operations under section 607 of the FAA.

L. Records Retention. Maintain records reflecting balance of payments transactions at each DFAS Site consolidation point for 12 months following the end of the reporting period.
M. Foreign Currencies

1. Report data on foreign currencies in dollar equivalents.

2. The DSCA must report expenditures and collections for all FT accounts under its control, including those for which the DSCA has financial management responsibility in connection with Foreign Military Sales currencies, as well as those provided under joint weapons production and exchange agreements.

3. Use the respective reporting system utilized by each DoD Component to provide data on accommodation sales to individuals by military DOs.

N. Submission of Reports

1. Prepare reports of performance and transactions, using the current automated technology, entering the IBOP by DoD Components as outlined in the detailed instructions provided in Tables 13-1 through 13-4. Sample formats are shown in Tables 13-5 through 13-7.

2. Submit ARs to the Department of Commerce through DFAS as follows:
   a. Department of the Army – ARs-1 and 2;
   b. Department of the Navy (including U.S. Marine Corps) – ARs-1 and 2;
   c. Department of the Air Force – ARs-1 and 2;
   d. MPS - AR-3; and
   e. All other Defense Agencies, such as the DSCA and Defense Intelligence Agency - AR-1.

3. The DSCA must report all Foreign Military Sales and BPC delivery data.

4. Submit cross-disbursing data submitted by the DoD Component as follows.
a. Forward IBOP transactions between the Air Force and the Army no later than 32 calendar days following the end of the quarter to their corresponding offices. Each Service will send its IBOP files to the other Services.

b. Forward vouchers and control listings of IBOP transactions of the Navy for the Army and the Air Force, the Army for the Air Force and the Navy, and the Air Force for the Navy and the Army to the designated accounting and finance offices quarterly.

c. Forward electronic transmissions of Army, Navy, Air Force, and Marine Corps IBOP transactions for the Defense Agencies and OSD no later than 45 calendar days following the end of the quarter to the Department of Commerce.

d. Report salary payments to U.S. personnel as the net amount paid to individuals, excluding all deductions, such as amounts withheld for taxes, contributions, allotments, or savings bonds.

5. Complete the headings on each report as indicated in Tables 13-5 through 13-7. Round dollar amounts to the nearest $1,000. Round amounts from $1 to $499 downward; amounts from $500 to $999 are rounded upward.

130208. Criteria for Determining and Identifying IBOP Transactions

A. Introduction. In establishing a basis for reporting IBOP transactions, assume that purchases of materiel and services are equal to related disbursements, since payments by DoD Components normally are made within the month following receipt of the materiel and services. Similarly, report DoD outlays from appropriations supporting various U.S. foreign assistance programs to signify the delivery of that assistance to foreign entities. It is necessary, however, to report Foreign Military Sales on a delivery basis. State collections separately to reflect the changes in financial status. Accounting reports prescribed by this chapter reflect these reporting concepts. Table 13-9 contains a glossary of automated data processing (ADP) terms.

B. Transactions Entering the IBOP. The following transactions enter the DoD IBOP for reporting purposes.

1. Payments

a. Inclusion of all payments is required, including advance and progress payments by DOS (whether located abroad or in the United States, its territories and possessions, or Puerto Rico) from their accounts and all payments from the accounts of nonappropriated funds and the MPS to:

   (1) Foreign residents, including all amounts deposited in foreign or U.S. banks to their credit (e.g., a deposit to the account of a foreign entity maintained in
a U.S. bank). Foreign residents include foreign governments, corporations, contractors, and individuals;

(2) U.S. personnel stationed, or employed, or who live abroad, or on ships homeported abroad, for pay disbursed or mailed abroad when on temporary duty (TDY) abroad and per diem for TDY abroad;

(3) International organizations, including all amounts deposited to their credit in foreign or U.S. banks;

(4) U.S. corporations for materiel, supplies (excluding petroleum products), and equipment, title to which is acquired by the U.S. Government abroad as evidenced by an accomplished materiel inspection and receiving report;

(5) U.S. contractors for construction or services performed abroad, except for travel and transportation as described in subparagraph 130208.D.2.g; and

(6) U.S. and foreign corporations for petroleum products that will be identified to the country shown as the product source as described in subparagraph 130208.D.2.h.(2).

b. Inclusion of foreign currency payments is required, including counterpart foreign currency payments by a foreign government held by the foreign government for U.S. uses under special arrangements such as Euros disbursed by the Spanish Government for constructing and maintaining U.S. facilities.

c. Included are all Returns to the United States resulting from contracts or other procurement documents for procurement of supplies and services for use outside the United States. Also included are all Returns to the United States from contracts for construction, maintenance, and repair of real property facilities that require U.S. end products, or that specify certain services be performed in the U.S. Additionally, U.S. contractors performing construction and service contracts overseas may acquire, on their own initiative, certain U.S. end products, services, or transportation on U.S. flag carriers in fulfillment of construction or service contracts. Identify and report the amount of such procurements of U.S. end products, services, and transportation on U.S. flag carriers in AR-1, as shown in Table 13-5. The following rules apply only to contractors who are U.S. residents.

(1) The amounts remitted by a supplier to the United States for procurement of U.S. end products and the amounts paid by the supplier to a U.S. transportation company for transportation of goods on U.S. flag carriers must be identified and reported as reductions to procurement payments.

(2) Identify and report the following amounts as reductions to contractual service payments:
(a) The amount of U.S. end products procured from the United States by the contractor for incorporation in the project (whether required by the terms of the contract or voluntarily procured from the United States without contractual requirements);

(b) The amount remitted to or retained in the United States by the contractor for services performed in the United States and for profit, overhead, amortization costs, employee tax withholdings, and other indirect expenses, including that portion of the salaries of contractor personnel remitted to or retained in the United States; and

(c) The amount paid to transportation companies in the United States by the contractor for transportation provided on U.S. flag carriers.

(3) Reporting requirements and requirements for contracts exceeding the simplified acquisition threshold are set forth in DFARS 225.1103(1) and the clause at 252.225-7005.

(4) The amounts reported as returns under subparagraph 130208.B.1.c must exclude:

(a) Payments by the contractor to a DoD Component for supplies or services such as utilities and telephone services; and

(b) Returns to the United States by foreign residents who use U.S. end products or services to fulfill DoD contracts.

2. **Collections**

a. Report all collections by DOs credited to their accounts or to Treasury accounts (for which the Department has billing and collection responsibility) and all receipts in nonappropriated funds and the MPS from the following:

(1) Foreign residents;

(2) U.S. personnel who are stationed, employed, residing, or traveling abroad, or on ships homeported abroad (for reporting purposes, however, these collections are treated as a reduction to pay of personnel);

(3) International Organizations;

(4) U.S. contractors in connection with their performance of contracts with the U.S. Government or private firms abroad; and

(5) Foreign governments or other foreign entities for goods and services sold for delivery or use under the Foreign Military Sales program, other sales programs, and the Defense Logistics Agency Disposition Services.
b. Report all collections of foreign currency contributed by foreign governments for the support of U.S. Military Assistance Advisory Groups (MAAGs) and Missions.

c. Do not deposit FMF receipts into the U.S. Treasury. The FMF receipts are recorded in successor account 11*1082 (Foreign Military Financing Program, Funds Appropriated to the President), via a Treasury **SF 133, Report on Budget Execution and Budgetary Resources**, allocation by the Department of State in the year received, and finally apportioned in the same year on an SF 132, OMB Apportionment And Reapportionment Schedule as found in **OMB Circular A-11**, “Preparation, Submission, and Execution of the Budget,” Appendix F.

3. Deliveries

a. All deliveries of materiel, supplies, equipment, and services to foreign countries and international organizations must be reported to include the following:

   (1) Foreign Military Sales deliveries outlined in the AECA of 1976, as amended;

   (2) Sales by property disposal officers as represented by collections;

   (3) Loans and leases of aircraft, vessels, and other equipment to foreign entities;

   (4) Transfers of real property and deliveries of materiel and services under logistical support agreements and otherwise; and

   (5) Deliveries of goods and services for foreign assistance reimbursed by the Agency for International Development (AID), Department of State, or from Funds Appropriated to the President.

b. This chapter requires that delivery data pertaining to Military Assistance Grant Aid be reported.

4. Special Transactions

a. Transfers. Transfers from Deposit Account 6500 (Advances Without Orders from Non-Federal Sources) and Clearing Account 3875 (Budget Clearing Account (suspense)) to other accounts must be included when recorded as a collection in deposit fund accounts or in applicable receipt (including miscellaneous receipt), appropriation, or other fund accounts. For example, a bid deposit of a successful purchaser of surplus, excess, foreign excess, scrap, or salvage will be recorded in IBOP at the time transferred to account 3845 (Proceeds of Sales, Personal Property). Treat returns of deposits to depositors as IBOP transactions. Exclude amounts initially recorded in these suspense accounts from IBOP reporting requirements.
b. **Settlements.** Treat offsetting settlements between DoD accounts made in place of payments to, and collections from, a foreign government as IBOP transactions as if the transaction had been carried out with the foreign government.

c. **Outlays.** Report DoD outlays in support of Other Assistance Grant Aid.

C. **Transactions Not Entering the IBOP.** The following transactions do not enter the DoD reporting of IBOP:

1. Payments to and receipts from any DoD or other U.S. Government agency or activity, including any DoD nonappropriated fund or postal service activity, except special transactions noted in subparagraph 130208.B.4;

2. All transfers between the DoD or other U.S. Government accounts, except those from Deposit Account 6500 and Clearing Account 3875, as noted in subparagraph 130208.B.4.a;

3. Payments to foreign residents for goods produced in the United States if title is transferred within the United States. Include payments to the foreign resident when title is transferred to the United States if the goods were originally delivered to the foreign resident under the Foreign Military Sales program; and

4. Payments to foreign residents for goods produced abroad and imported into the United States when title is transferred to the U.S. Government after the goods are imported. Consider goods imported when they clear the U.S. Customs Service.

D. **Identification of Transactions to Country or International Organizations**

* 1. **General.** Identify transactions, except those relating to international organizations designated in *SAMM Table C4.T2B*, generally to the country of residence of the payee or remitter, rather than the location of the DO. Identify transactions with international organizations not listed in *SAMM Table C4.T2B* to the country to which payment is sent or from which payment is received. In cases where country of residence cannot be determined, identify transactions as follows.

   a. **Cash.** Code payments or collections by cash to the country in which disbursed or collected.

   b. **Check.** Code payments or collections by check to the country to which check is sent or from which check is received.

   c. **Electronic.** Code payments or collections by electronic transfer to the country to which transfer is sent or from which transfer is received.
2. Payments. Identify payments to the designated international organization or country of residence of the payee. More specifically, identify payments as follows.

   b. Foreign Corporations. Identify payments to foreign corporations and individuals to the country of residence. A current list of country codes is available on the NGA website (GENC Standard).

   c. U.S. Personnel Payments

      (1) U.S. Personnel Ashore. Code net pay to the foreign country to which payment is made or the check is addressed.

      (2) U.S. Personnel Afloat (Homeported Abroad). Code net pay to the foreign country to which payment is made or the check is addressed.

      (3) U.S. Personnel Afloat (U.S. Homeported). Code net pay as a U.S. payment. A statistical determination will be made, by country, of the expenditures ashore by these individuals.

      (4) Allotments of Pay. Allotments to individual persons will be identified to the country to which addressed. Identify all other allotments to the country of residence of the allottee.

   d. Retired and Survivors Pay. Identify the amount of the payment to the foreign country to which the check is mailed or payment is electronically transferred.

   e. Foreign Nationals

      (1) Direct Hire of Foreign Nationals. Identify net pay to the foreign country, which employs the individual. In addition, identify the payment of all U.S. Government contributions, and the payments of all amounts withheld from the employee's pay, at the time of payment, to the country addressed.

      (2) Indirect Hire of Foreign Nationals. Identify payments under contracts for indirect hire of foreign nationals, including retirement accruals or separation allowances when paid, to the country addressed.
(3) **Foreign Nationals Aboard Ships.** Identify net pay to the country in which the individual maintains his or her “home of record.” In addition, the payment of all U.S. Government contributions and payments of all amounts withheld from the employee's pay must be identified, at the time of payment, to the country to which addressed.

**f. Construction and Services Performed Abroad Other Than Travel and Transportation.** Identify payments for construction or services performed abroad to the country in which construction or service is performed, regardless of where the check is mailed.

**g. Travel and Transportation**

(1) **Transportation.** Code payments for transportation of persons or things (trip requests, bills of lading, warrants, or cash) paid to a transportation company to the country of residence of the transportation company.

(2) **Travel Allowances.** Code payments for per diem allowances, relocation allowances, and other incidental travel expenses, including transportation expenses or mileage allowances paid to individuals, according to the following guidance.

(a) For permanent change of station (PCS), code to the country in which the greater part of the allowances was earned or expenses incurred. Code relocation allowances to the country to which the individual's family moves.

(b) For TDY, code to the country in which the TDY was performed, except TDY performed aboard ship that must be coded to the United States. Where TDY is performed in several countries and it is not feasible to identify the per diem to each country, code the payment to the country in which the greater part of the allowances was earned.

**h. Materiel, Supplies, and Equipment**

(1) Payments to a U.S. corporation for materiel, supplies (excluding petroleum products), and equipment acquired by a DoD Component abroad must be coded to the country where it is delivered or accepted by the DoD Component. Code payments to foreign contractors (excluding petroleum products) to the country of residence of the payee.

(2) Identify payments to a U.S. or foreign corporation for petroleum products according to the following guidance.

(a) Code the payment to the country shown as the product source in the “product source” clause of the contract under which the payment is made. If a region (e.g., the Caribbean or Persian Gulf) is shown rather than a country, code the payment to the country shown in section 9 of the Department of Defense **Form 250-1**, Tanker/Barge-Material Inspection and Receiving Report. If the product source cannot be established, it will be coded to the country where acquired by the DoD Component.
(b) When the product source for petroleum is the United States, and the petroleum has been transported by the Military Sealift Command, or transported by commercial vessels directly to a DoD Component abroad, code the payment to the United States. If the petroleum is not consigned directly to a DoD Component, code the payment to the country where it is delivered and code the amount of the petroleum product and the transportation furnished by U.S. flag carriers as a return to the United States.

(c) Code petroleum services, other than ocean transportation, to the country in which the service is performed.

i. **NATO Infrastructure.** In processing NATO Infrastructure and International Military Headquarters Payments for NATO infrastructure, refer to Enclosure 2 of *DoD Directive 2010.5,* “The NATO Security Investment Program,” for eligible project types. Code such payments to the country or to the appropriate NATO command that is the recipient of the payment. Code payments to international military headquarters, including those located in the United States.

3. **Deliveries and Collections**

a. **Materiel or Services.** Code deliveries of materiel or services to the country or international organization to which the collection for that delivery must be identified. Code collections to the countries making payments. Code collections from international organizations to the international organization making payment.

b. **Recipient Country.** Code delivery transactions involving Military Assistance Grant Aid and reimbursement from AID, Department of State, or Funds Appropriated to the President to the recipient country or international organization.

4. **Special Transactions**

a. **Balance of Payment Transactions.** Transactions for Guam, Puerto Rico, the Commonwealth of the Northern Marianas, and the U.S. Virgin Islands must not be included in any summary totals of balance of payments transactions since transactions involving these areas do not enter the United States balance of payments. If a special report is requested for these areas, then apply country codes as appropriate.

b. **Guantanamo Bay.** Code transactions at Guantanamo Bay, other than pay of foreign nationals, as U.S. transactions not entering the IBOP. However, treat the pay of foreign nationals employed at Guantanamo Bay as IBOP transactions and code to their country of residence.

130209. **Entries for DoD Transactions Entering the IBOP – AR-1**

A. **Purpose.** This format prescribes line items, columnar data, and line item identification (ID) codes used for reporting IBOP transactions in AR-1. This submission provides for summarizing DoD IBOP transactions under appropriation and category groupings.
B. General

1. Separate AR-1. Prepare a separate AR-1 for each foreign country and international organization listed in the GENC Standard and SAMM Table C4.T2B, as applicable, and for each foreign area grouping shown in Table 13-8. In addition, submit a separate AR-1 (a sample format of AR-1 is shown in Table 13-5; change “Quarter” to “Month” if reporting monthly) for Guam, Puerto Rico, the Commonwealth of the Northern Marianas, and the U.S. Virgin Islands. However, these transactions, and those for other U.S. possessions, must not be included in the subtotals for foreign area groupings or worldwide totals.

2. DoD Component. Each DoD Component must submit AR-1 electronically. Data on the electronic transfer submissions must carry the line item numbers for AR-1 precisely as shown in Table 13-10.

3. Assemble Reports. Documentation for countries without transaction data is not required when assembling supporting documentation for IBOP reporting.

4. Report Data. Report data for each line item entry listed in Table 13-10. To facilitate summarizing data, each line item entry must be identified by the same line ID Code shown in Table 13-10. Line items for which no amount is reported for the current quarter or cumulative columns must not be shown on the report.

5. Reporting Responsibilities. Data reported for all lines for transactions involving the FMF, Foreign Military Sales Program, BPC Program, IMET, Drawdowns, EDAs, and Military-to-Military Contact Programs are established under the SAMM, Chapter 1.

6. Dollar Collections. Report as dollar collections all collections of foreign currency not obtained by purchase with U.S. dollars, used for authorized expenditure purposes rather than deposited to Treasury FT accounts.

7. Trust Fund Expenditures. Treat refunds to foreign governments for Foreign Military Sales as trust fund expenditures. In the DoD balance of payment presentations, net such refunds against receipts rather than treated as expenditures on AR-l.

C. Line Entries - Descriptions and Codes. Line item ID codes, line item captions, and descriptions for AR-1 are shown in Table 13-10.
B. General

1. Nonappropriated Fund Activities. Each reporting activity must include all nonappropriated fund activities under its command jurisdiction. When one activity serves more than one command in a given area, make local arrangements to have the data submitted through only one command, thus avoiding duplications (e.g., the Army and Air Force Exchange Service). Nonappropriated fund activities aboard ship must include only receipt and payment transactions abroad, which are included with activities ashore and enter the IBOP.

2. Submit Separate Reports. The reporting activities must submit separate reports for the following:

   a. Exchange Service Operations, and

   b. Other Nonappropriated Fund Activities.

3. Payments and Receipts. These reports must include only payments and receipts affecting nonappropriated funds. Exclude payments and receipts from appropriated funds used in operating a nonappropriated fund activity.

4. Reported Quarter. Amounts shown in the report must cover the reported quarter. Change “Quarter” to “Month” if reporting monthly.

5. Schedules. Submit separate schedules for the Navy and Marine Corps.

C. Line Entries - Descriptions and Codes. Line ID codes, line item captions, and descriptions for AR-2 are shown in Table 13-11.

130211. Entries for DoD Transactions Entering the IBOP - AR-3

A. Purpose. This format prescribes line items, columnar data, and line ID codes used for reporting IBOP transactions in AR-3, i.e., financial data relating to military postal services to individuals. Use these data to develop the amounts available for spending abroad by U.S. personnel.

B. General

1. MPS. Submit one report to cover all MPS operations, excluding FPO operations aboard ship.

2. Payments and Receipts. Exclude from the report payments and receipts of appropriated funds used for operating expenses of MPS facilities.

3. Agencies and Activities. Exclude sales to or receipts from federal agencies and activities and DoD-sponsored nonappropriated fund activities.
4. **Reported Quarter.** The amounts shown in the report must cover the reported quarter only and will be noncumulative. Change “Quarter” to “Month” if reporting monthly.

C. **Line Entries – Description and Codes.** Line ID codes, line item captions, and descriptions for AR-3 are shown in Table 13-12.

1303 **INTERMEDIATE/INSTALLATION-LEVEL REPORTING REQUIREMENTS**

Each DFAS site develops and monitors the reporting requirements, at the intermediate or installation level, for its IBOP reporting. Consistently apply reporting formats for the intermediate or installation levels in accordance with the requirements outlined in paragraphs 130201 through 130211.

1401 GENERAL

140101. Purpose

The DoD maintains a core depot-level maintenance and repair capability in support of mission-essential weapon systems and other military equipment needed to directly support operational requirements and enable the armed forces to execute the strategic and contingency plans prepared by the Chairman of the Joint Chiefs of Staff. This chapter prescribes Depot Maintenance Cost System (DMCS) requirements that are necessary to provide a comprehensive accounting of DoD depot maintenance workloads. The DoD Components must satisfy these requirements with regard to reporting the accomplishment and status of DoD depot maintenance workloads in:

A. DoD depot maintenance facilities;
B. Private-sector facilities;
C. Other DoD and Federal Government facilities; and
D. State, local, and foreign government facilities.

140102. Authoritative Guidance

These requirements apply to DoD depot maintenance workloads the Components identify pursuant to Title 10, United States Code, section 2466, under which DoD reports to the Congress the respective depot maintenance workload levels in the public and private sectors.

1402 COST DATA REQUIREMENTS

140201. Scope

These requirements apply to all depot maintenance workloads, regardless of DoD funding source, e.g., Defense Working Capital Fund (DWCF), Research and Development, Procurement, General Purpose Forces, Special Operations Forces, Operation and Maintenance, or other appropriations; or non-DoD funding source, such as work done for private-sector customers or other federal, state, local, and foreign governments. Additional guidance is provided in:

A. Addendum 1 – DoD Major Depot Maintenance Activities;
B. Addendum 2 – Reporting Activity Identifying Codes;
C. Addendum 3 – DMCS Input File;
D. Addendum 4 – Work Breakdown Structure Codes; and

E. Addendum 5 – Work Performance Category (WPC) Codes.

140202. Cost Data Collection

The uniform recording, accumulation, and reporting of costs incurred in depot maintenance operations is required to document the use of DoD resources and to assist management in the measurement of productivity and efficiency, development and use of performance measurement and cost standards, and identification of areas in need of increased management emphasis. In addition, the data will assist in the assessment of total DoD maintenance capability, duplication of capacity, and opportunities for areas of interservice support of maintenance workloads.

140203. Managerial Use of Cost Data

Management requires depot maintenance information to assist in:

A. Developing inputs to meet Departmental and Congressionally-mandated requirements;

B. Comparing repair costs with replacement costs;

C. Overseeing the utilization of depot maintenance resources;

D. Evaluating budgets for customers and providers of depot maintenance;

E. Comparing cost trends among organic DoD depots and between organic and contract (private-sector) sources;

F. Formulating managerial direction and guidance for depot maintenance programs;

G. Evaluating depot maintenance activities for efficient use of resources;

H. Estimating depot maintenance requirements;

I. Monitoring DoD Component compliance with various Congressionally-mandated reporting requirements;

J. Examining the behavior of cost drivers over time; and

K. Identifying and evaluating total ownership costs.

140204. Cost Definition

To ensure that all workloads are accounted for and reported in DMCS, regardless of funding source, reporting requirements have been stratified to facilitate reporting of total DoD
costs, both funded and unfunded, for organic and contract depot maintenance. For DMCS reporting purposes:

A. Funded costs are those charged to the operating funds of the performing activity or the activity reporting contract depot maintenance. Funded costs are defined from the perspective of the activity performing the work or, in the case of contract maintenance, from the perspective of the program manager or administrator responsible for reporting contract costs. Costs incurred by a DWCF, or direct-funded organic activity in performance of reimbursable orders, are categorized as funded, as these costs are charged to the operating account of the performing activity. Funded costs at DoD organic activities normally include items such as payroll, operating materials, supplies, and services; and

B. Unfunded costs are costs financed by a DoD appropriation, activity, or entity other than that of the performing activity, or the reporting activity in the case of contract depot maintenance. In other words, financial responsibility resides with an entity other than the DMCS reporting unit. Material, such as a modification kit or other Government-furnished material financed by a procurement appropriation not available to the performing activity, is an unfunded cost. For a direct-funded activity, depreciation of plant and equipment financed by procurement appropriations, and facilities maintenance financed by a regional command, are examples of unfunded costs.

1403 REPORTING REQUIREMENTS

*140301. General Reporting Requirements

The DMCS reporting requirements contained in this chapter, including any subsequent data and format revisions, are the responsibility of the Deputy Assistant Secretary of Defense for Materiel Readiness (DASD (MR)), Office of the Under Secretary of Defense (OUSD) (Acquisition & Sustainment). The DASD (MR) must provide the data revisions and report format changes to the OUSD Comptroller (OUSD (C)), Financial Management Policy and Reporting (FMPR), for publication in subsequent revisions of this chapter. The senior official with responsibility for logistics in each DoD Component is responsible for timely reporting. The Assistant Secretary responsible for financial management in the Military Departments (or equivalent in other DoD Components) is responsible for providing complete and accurate financial data to the report preparer in sufficient time for report submission.

140302. Applicability of Reporting Requirements

The depot maintenance cost report required by this chapter applies to all Military Services and other DoD activities that accomplish depot maintenance workloads, or have depot maintenance workloads accomplished by contract. This includes all work performed by DoD depot maintenance activities, as well as all DoD depot-level maintenance accomplished by other Government activities and contractors.
A. Performing and Reporting Activities

1. Addendum 1 identifies the major DoD depots, shipyards, and other depot maintenance activities that historically have performed depot maintenance workloads. Report work performed at major depot maintenance activities listed in that addendum as specified in subparagraph 140401.B.1. Report work performed by DoD activities not listed in Addendum 1 in accordance with subparagraph 140401.B.2. Report all other work (i.e., that performed by contractors; other Federal Government activities; and state, local, and foreign governments) as stipulated in subparagraph 140401.B.3 by the program administering offices designated by the official in each DoD Component responsible for reporting DMCS data.

2. Addendum 2 is a list of reporting activity identifying codes. Activities performing depot maintenance not listed in Addendum 2, that are required to report, will request an appropriate identifying code from DASD (MR) or its designated agent.

B. Cost Reporting By DoD Performing Activities. Report records from DoD performing activities must reflect total costs incurred, including the cost of any subsidiary ordering from other Government activities or contracting with commercial firms incident to accomplishing workloads. The report accommodates separate reporting of direct labor hours, and costs of contract labor used to augment the workforce, when the hours and associated costs are obtainable from local cost accounting data.

C. Cost Reporting By Other Activities. Report records for DoD depot-level maintenance performed by contractors and DoD activities not listed on Addendum 1 must include all costs to DoD incurred in performing the work. These reports must:

1. Exclude intermediate-level, organizational-level, and other non-depot-level maintenance services (unless those maintenance services are an integral part of a depot-level task or contract);

2. Include the depot-level maintenance portion of Contractor Logistics Support (CLS), Interim Contractor Support (ICS), Performance-Based Logistics (PBL), and similar contracts. Report the direct costs of the depot maintenance performed, as well as associated overhead and other costs attributable to the depot-level maintenance portion of the contracts;

3. Include the cost of Government-furnished material and Government-furnished services consumed in producing a product or service, even though financed or provided by a source other than the primary reporting office or entity; and

4. Provide all appropriate categorization codes, including Item Identification, Weapon or Support System Code (WSSC), Work Breakdown Structure, WPC, and the average number of Shop Flow Days.
140303. Work Performance Categories

Addendum 5 contains the WPC codes that identify the nature of work performed. In cases where there may be overlap between WPCs, report costs in the highest level of repair. For example, if manufacture is required to complete an overhaul because critical parts are not available, report costs as overhaul.

140304. DMCS Data Submission Process

A. Frequency and Timing of Submittal. Annual DMCS data submissions must be provided to DASD (MR), or its designated agent, no later than December 31 following the end of the fiscal year. Reporting requirement symbol AP-MP(A)1397 is assigned to this reporting requirement. Paragraph 140301 lists the parties responsible for data submission.

B. Accompanying Documents

1. With each data submission to the DASD (MR), include a transmittal memorandum that includes a brief discussion of any anomalies in the data, significant changes from previous submissions, or other pertinent information to aid in processing the data. The transmittal memorandum for the report must identify a point of contact within the submitting activity for issues and questions related to the reported data.

2. Within 90 days after the initial submission due date, submit a brief narrative analysis (three to five pages) explaining trends in the data to the DASD (MR). The focus of the narrative analysis must be on the factors driving year-to-year changes in cost and direct labor hours. These factors include changes in workload; changes in contract support (both in level of effort and in price); changes in the prices paid for labor, material, and other resources; and, when applicable, significant changes in organic maintenance processes and financial policies. Express the impact of the factors in quantitative terms (for example, an average 3.2 percent material price change or a 2.1 percent improvement in direct labor productivity).

C. Quality Control and Editing of Data Prior to Submission. The AP-MP(A)1397 report serves as a principal database in support of DASD (MR) weapon systems depot maintenance cost and production analyses and external reporting, as well as the principal joint-service database on depot maintenance production operations. The DASD (MR) provides a data editing and submission file creation tool in the form of a relational database application. This tool, which provides Component-specific and general edits, facilitates accuracy and consistency of data submitted by the individual Components. The use of this tool is a required element of the submission process. Provide appropriate personnel within each reporting activity with training in tool usage. In addition, the DASD (MR) will provide each Component with tool updates on an annual basis prior to the end of the fiscal year.

D. Data Input to the Data Editing Tool. The format and content of DMCS data input to the Data Editing Tool must be in accordance with Addendum 3. The individual Military Services and the DASD (MR), or its designated agent, may agree upon alternative formatting of data.
E. Form and Method of DMCS Data Submissions. Annual AP-MP(A)1397 data must be submitted to DASD (MR), or to its designated agent, using the DMCS Data Editing Tool described in subparagraph 140304.D. The tool containing the data and associated documentation may be compressed and submitted in a variety of ways, for example, compact disk, file transfer protocol, email, or other medium agreed upon by the DASD (MR), or its designated agent, and the reporting activity.

F. DoD-Level Review Process. The review and update of annual AP-MP(A)1397 submissions must be accomplished as follows:

1. Within 15 days of receipt of each Component submission, the DASD (MR), or its designated agent, must perform an edit of the data and provide each reporting activity or Component data consolidation point with preliminary versions of summary tables and the applicable section of the “DoD Depot Data Highlights Report.” Review any data discrepancies, at this time, with the individual reporting activities or consolidation points;

2. Within an additional 30 days, the Component must review and make appropriate updates or provide explanations to support the data as initially submitted;

3. Within 30 days following receipt of all revised Component data, the DASD (MR), or its designated agent, must prepare and publish the final versions of summary tables and the “DoD Depot Data Highlights Report.” At that time, a final fiscal year database must be established as a historical file for subsequent analysis by the Office of the Secretary of Defense, the Components, and other authorized activities; and

4. Within an additional 15 days, the Components must submit the narrative analyses described in subparagraph 140304.B.2.

G. Retention of Submitted Data by Reporting Facilities. Reporting activities must retain submission files for a minimum of 5 years.

140305. DMCS Data Maintenance Requirements

The Components must ensure that cost and production reporting systems retain the capability to provide an audit trail back to individual job order cost records, or other data sources, when needed to support DMCS report records.

140306. Report Record Data Requirements

A report record is required for each type of maintenance work (Field 14) performed for each different weapon system, or item identification number, as indicated by different data entries in Addendum 3. Consolidate data for similar job orders if the item repaired, services performed, and other report record fields are consistent. All fields in Addendum 3 are mandatory except for those identified as “Not Used.” “Not Used” fields may be employed by reporting activities for internal use or left blank. Where quantitative data are required, such as costs and man-hours, enter “0” (zero) if there are no data associated with the fields. Null mandatory fields are not acceptable.
A. The DASD (MR), or its designated agent, must maintain lookup tables of pertinent data elements and codes for use by the Military Departments in compiling the DMCS report. These tables will include Weapon or Support System Codes, Performing Activity Identification Codes, Reporting Activity Identification Codes, WPC Codes, Item Identification Codes and Nomenclature, Work Breakdown Structure Codes, and Customer Codes. Components will review the codes annually and notify the DASD (MR), or the designated representative, of any needed additions or deletions. Do not change codes at any other time, except by agreement between the DASD (MR), or its designated agent, and the individual Components.

B. The Defense Finance and Accounting Service (DFAS) must work with the Components to ensure that DFAS financial systems (if used at depot level) retain the capability to provide cost detail to satisfy the reporting requirements of this chapter. Preparation of the DMCS report is the responsibility of the DoD Component performing the work or managing the contract.

C. Each depot maintenance reporting activity must implement quality assurance procedures to be applied to each DMCS record as it is created and populated. Such procedures must include validity checks to prevent errors, such as identifying an F/A-18A aircraft as a submarine or a High Mobility Multipurpose Wheeled Vehicle (HMMWV) as a tank. Each reporting activity that consolidates DMCS organic and contract records must also implement quality control procedures for all its performing facilities. Prior to data submission, reporting facilities must use the DMCS Data Editing Tool, or similar application, to validate the records.

140307. Report Record Type

The data submission report must consist of two types of report records. For both types, the costs reported must be cumulative from inception.

A. The first record type is cumulative costs for financially completed work. Identify all reported transaction records with a “C” in Field 51 for financially completed customer orders. The reported amount for work completed by contractors must equal the total cost (funded and unfunded) incurred.

B. The second record type is cumulative costs for not financially complete work. Report these costs in order to form a complete picture of the work accomplished at each activity performing depot maintenance. Identify report records for financial work that is incomplete with a “W” in Field 51. When reporting contract costs (Field 36), enter the sum of the contract costs accumulated since inception of the contract that are attributable to the work accomplished.

140308. Report Record Corrections

Once an annual DMCS report cycle is completed and the results published, the data should remain unchanged. Therefore, it is important to incorporate corrections and adjustments in the original report records. Exceptions must be for corrections or adjustments that materially change a total for an entire performing facility. If significant corrections to prior year data become necessary, contact the DASD (MR), or its designated agent, to coordinate processing the changes.
1404 REPORTING CATEGORIES AND DATA REQUIREMENTS

140401. Workload Reporting Activities

A. Depot maintenance is performed at DoD depots, at private-sector commercial contractor facilities, and at other DoD activities, such as intermediate maintenance facilities (IMF), arsenals, ordnance stations, or public works centers. The DoD depot maintenance activities that are funded by DWCF are required to follow the formal job order accounting requirements specified in Volume 11B, Chapter 13. Other DoD activities performing depot maintenance workloads may use other cost finding procedures to satisfy the reporting requirements specified in Section 1403.

B. All activities performing depot maintenance will report workload identification data, as required, in Fields 1-16. Cost and production data reporting requirements (Fields 17-54) vary, depending upon the category of activity performing the work. Reporting categories and data requirements must be as follows:

1. DoD Major Depot Maintenance Activities. Addendum 1 lists the major depot maintenance activities under the headings: Army Depots, Naval Shipyards, Fleet Readiness Centers, Marine Corps Depots, and Air Force Depots. Funded and unfunded DoD costs for these activities are reported in Fields 17 through 35, with an owner/operator code (Field 7) of “1.” The cost of work suballocated, in part, by a depot to another DoD facility or commercial firm must be reported as an “other direct-funded cost” (Field 30). These major maintenance activities must report all work accomplished by the activity;

2. DoD Activities Not Listed in Addendum 1. The program manager or DoD entity (as determined by each Component’s DMCS reporting official) responsible for program oversight must report funded and unfunded DoD costs for these activities in Fields 17 through 35, with an owner/operator code (Field 7) of “2.” If the cost finding procedures of the reporting facility are not sufficiently robust to adequately identify the detailed costs required in Fields 17 through 35, a waiver must be requested from DASD (MR) to permit reporting costs in Fields 36, 37, and 41; and

3. Non-DoD Facilities. Work performed at commercially-owned/ commercially-operated (COCO) facilities; Government-owned/contractor-operated (GOCO) facilities; non-DoD Government activities; and state, local, and foreign government facilities must be reported by the DoD activity initiating the order (e.g., systems program offices, program managers, major commands, major subordinate commands, Fleet Forces Command, the Naval Inventory Control Points, and other activities that use DoD funds, regardless of source, to obtain depot maintenance from non-DoD entities). Reporting activities must ensure that data submissions for depot maintenance performed at non-DoD activities are complete and accurate and that report records reflect an owner/operator code of “3” in Field 7, non-DoD entity costs in Field 36, and Government-furnished materials and services costs in Fields 37 and 41. Government-furnished materials and services include goods and services funded or provided by a sponsor or contract other than administered by the primary reporting entity.
140402. Primary Workload Reporting Data Fields

The DMCS reports from all activities must identify the item worked on, the WPC, and work breakdown structure classification to the extent economically feasible.

1405 SPECIAL REPORTS

Any one-time or additional reports required must be as prescribed by the OUSD (C), FMPR or the DASD (MR).

ADDENDUM 3 – DMCS Input File (continued)

ADDENDUM 3
SECTION B
EXPLANATION OF ENTRIES REQUIRED FOR DMCS REPORTING

1. Field 1—Not Used

2. Field 2—Not Used

3. Field 3—Fiscal Year. Enter the two terminal digits of the current fiscal year being reported.

4. Field 4—Reporting Component. In position 10, enter A (Army), F (Air Force), M (Marine Corps), N (Navy), or S (Defense Logistics Agency) to designate the DoD Component providing the report.

5. Field 5—Performing Activity Identifying Code
   a. Organic Activity Identifying Code. If the activity is Government-operated (Code 1 or 2 in Field 7), then enter the identifying code in positions 11 through 15 for the activity identified in Addendum 2.
   b. Contractor CAGE or Identifying Code. If the maintenance is contractor-performed (Code 3 in Field 7), then enter the contract activity’s CAGE code or other unique, approved 5-digit identifier as specified by the Defense Logistics Information Service (DLIS). Start in position 11 and leave positions 16 through 24 blank. Request a CAGE code if one has not been established for a contractor.

6. Field 6—Not Used

7. Field 7—Owner and/or Operator Code. Enter one of the following to indicate the type of activity performing the maintenance.

   Code 1—DoD Major Depot Maintenance Activities (DoD Component organic maintenance activities listed in Addendum 1). When Code 1 is entered in Field 7, report costs in Fields 17 through 35. Fields 36, 37, and 41 must be zero filled.

   Code 2—Other DoD Facilities (DoD Component in-house maintenance activities not listed in Addendum 1). When Code 2 is entered in Field 7, report costs in Fields 17 through 35. Fields 36, 37 and 41 must be zero filled.

   Code 3—COCO, GOCO, and other non-DoD entities (other Federal Government activities; state, local, and foreign governments). When Code 3 is entered, report costs in Fields 36, 37, and 41. Fields 17 through 28 and 30 through 35 must be zero filled.
8. **Field 8—Reporting Activity Identifying Code.** A code identifying the reporting activity, including activities contracting for depot maintenance work with commercial contractors. Enter the reporting activity’s identifying code as specified in Addendum 2. Depot maintenance activities performing in-house work for all other DoD activities, including other depot maintenance activities, must report their work by using their own identifying code in this field.

9. **Field 9—Item Identification Code.** A code to identify the specific item on which depot maintenance was or is being performed. Do not use punctuation or special characters such as dashes, slashes, or blank spaces between characters. Start in position 32 and enter left justified up to 13 characters; zero fill unused positions. Sample entries for this field are as follows:

   a. If the item is an aerospace vehicle (aircraft, guided missile, rocket, or probe), then show the mission-design series according to *DoD Directive 4120.15E*, “Designating and Naming Military Aerospace Vehicles,” and listed in *DoD 4120.15-L*, “Model Designation of Military Aerospace Vehicles.”

</tbody>
</table>

   NOTE: Ø is numeric; O is alphabetic.

   b. If the item is an aerospace vehicle propulsion engine, equipment or aeronautical support equipment, or photographic item, then show the type designation according to Military Handbook 1812, “Type Designation, Assignment, and Method for Obtaining.”
c. If the item is a vessel, then show ship type and hull number in the first eight positions and zero fill the remaining five positions.

d. If ammunition rework or renovation is performed by a depot-level maintenance activity, then total cost must be recorded by work breakdown structure code H3 (Field 13) only, and this field must be zero filled.

e. If items “a” through “d” for Field 9 do not apply, and the job order is for repair of items with the same national stock number (NSN) identification, then enter that NSN, such as 673001161618, in positions 32 through 44.

f. If items “a” through “e” for Field 9 do not apply, enter the letters or numbers used for the identification of the job order. The first 4 digits should identify the Federal Supply Class and, of the remaining nine positions, one must be alphabetic. Zero fill when WPC (Field 14) is “Other Work (T).”

10. **Field 10—Item Nomenclature.** A 20-digit field describing the specific item on which maintenance was performed, or the support service that was performed. Use common abbreviations if more than 20 positions would otherwise be required. Start in position 45 and leave blank unused positions to the right (left justify).

a. For aircraft and missiles, use popular names, if assigned, such as Patriot, Cobra, Phoenix, Falcon, Minuteman, and Harrier. If a popular name has not been assigned or is unknown, then use the basic mission of the aircraft or missile, such as Fighter Aircraft, Trainer Aircraft, Cargo Trans Aircraft, Util Helicopter, or Surface Attack Missile. DoD 4120.15-L, “Model Designation of Military Aerospace Vehicles,” includes a current complete listing.
b. For aircraft and rocket engines, use the name of the engine type. Examples are Turbofan Engine, and Rocket Motor.

c. For vessels, use the name of the ship. An example is the U.S. Ship (USS) Georgia.

d. For conventional ammunition, use “Ammunition.”

e. For items with an NSN, use the standard description maintained by DLIS in the Federal Logistics Information System (FLIS).

f. For all other items, use the noun and modifiers that adequately describe the item.

11. **Field 11**—Not Used

12. **Field 12**—Weapon or Support System Code. A code identifying a specific weapon or support system. Use code 997 if an item cannot be identified to a specific weapon or support system, but can be identified in Field 13 to a major commodity group (such as aircraft, and missiles) and to a category (such as fighters and bombers) within the major commodity group. Use code 998 if identification is possible only to the major commodity group and not to a category. Use code 999 if identification cannot be made to a major commodity group and the Work Breakdown Structure Code L11 is used in Field 13.

13. **Field 13**—Work Breakdown Structure Code. A code to identify the specific type of weapon or support system to which the item described by the Item Identification Code (Field 9) and Item Nomenclature (Field 10) applies. Use the Work Breakdown Structure Code established in Addendum 4 to this chapter. Use code L11 if the item, service, or investment cannot be identified with a specifically listed Work Breakdown Structure Code and Code 999 is used in Field 12.

14. **Field 14**—WPC. A code to categorize the type of maintenance work performed on the item identified in Field 9 or the type of maintenance service provided. Use the Codes in Addendum 5. Subcategorize basic alpha codes with a numerical designation by each Component as required for internal management and analysis, budget review, and justification. If the report record is “N” (Technical Assistance) or “T” (Other Work), then Fields 45 and 50 must be zero.

15. **Field 15**—Customer Code. A code identifying the DoD Program and Department or Agency billed for the maintenance cost (that is, “Sales code”). In Position 85, enter A (Army), N (Navy), F (Air Force), M (Marine Corps), or D (Defense Agency) to designate a DoD customer. Enter Y for other Federal agencies or a Z for all non-Federal customers. Leave position 86 blank.

16. **Field 16**—Not Used
ADDENDUM 3 – DMCS Input File (continued)

Fields 17–42—Labor Hour and Cost Data. The direct labor hours and summary elements of reported costs are set forth in Addendum 3. The various elements of cost are explained in detail in the basic chapter. Some clarifying notations are included for certain fields. In addition:

a. “Funded” and “Unfunded” costs are defined in paragraph 140204.

b. Entries in direct labor hour’s fields must be the actual hours expended rather than standard (or “earned”) hours.

17. Field 17—Direct Civilian Labor—Funded Costs

18. Field 18—Direct Civilian Labor—Funded Hours

19. Field 19—Contract Labor Augmentation of Direct Workforce—Funded Costs. Funded costs for direct labor performed by contract personnel who augment the organic workforce, working side by side with Government personnel, and whose time is recorded in the local time and attendance system. This excludes contract personnel working at a Government depot under a contract for delivery of a specific product such as painting an aircraft for a fixed price per aircraft. Also excluded are contract personnel performing indirect or overhead support functions.

20. Field 20—Contract Labor Augmentation of Direct Workforce—Funded Hours. Funded hours for direct labor performed by contract personnel who augment the organic workforce, working side by side with Government personnel, and whose time is recorded in the local time and attendance system. This excludes contract personnel working at a Government depot under a contract for delivery of a specific product, such as painting an aircraft for a fixed price per aircraft. Also excluded are contract personnel performing indirect or overhead support functions.

21. Field 21—Direct Military Labor—Funded Costs. Since the majority of military personnel at depot maintenance activities are there for reasons other than business requirements, their cost is to be reported based upon civilian equivalent rates that are provided by the DoD Comptroller. These are the rates reflected in DWCF activity budgets.

22. Field 22—Direct Military Labor—Funded Hours

23. Field 23—Direct Military Labor—Unfunded Costs. The labor cost for military personnel not funded by the performing activity. The cost calculation is based upon civilian equivalent rates that are provided by the DoD Comptroller. This Field includes military personnel at a direct-funded activity or military personnel temporarily working under the supervision of a DWCF activity.
ADDENDUM 3 – DMCS Input File (continued)

24. **Field 24—Direct Military Labor—Unfunded Hours.** The labor hours for military personnel not funded by the performing activity. This Field includes military personnel at a direct-funded activity or military personnel temporarily working under the supervision of a DWCF activity.

25. **Field 25—Direct Material—Funded Costs**

26. **Field 26—Direct Material—Unfunded Costs**. Includes material provided at no cost to the performing activity.

27. **Field 27—Direct Civilian Labor—Unfunded Costs**. The civilian labor cost for Government (Civil Service) employees not funded by the performing activity. This Field excludes contractor personnel used for workforce augmentation.

28. **Field 28—Direct Civilian Labor—Unfunded Hours**. The civilian labor hours for Government (Civil Service) employees not funded by the performing activity. This Field excludes contractor personnel used for workforce augmentation.

29. **Field 29—Not Used**

30. **Field 30—Other Direct—Funded Costs**. For example, contracted services.

31. **Field 31—Other Direct—Unfunded Costs**. For example, customer provided services.

32. **Field 32—Operations Overhead—Funded Costs**

33. **Field 33—Operations Overhead—Unfunded Costs**. For example, military personnel cost for indirect effort.

34. **Field 34—General and Administrative—Funded Costs**

35. **Field 35—General and Administrative—Unfunded Costs**
ADDENDUM 3 – DMCS Input File (continued)

36. Field 36—Contract and/or Other Maintenance Activity—Funded and Unfunded Costs. When code 3 is entered in Field 7, this field must be the total cost of the contract. Report Government-furnished material or services consumed in the production of contract maintenance in Field 37 or Field 41 as applicable. When code 1 or 2 is entered in Field 7, this field must be zero filled.

37. Field 37—Government-Furnished Material—Funded and Unfunded Costs

38. Field 38—Not Used

39. Field 39—Not Used

40. Field 40—Not Used

41. Field 41—Government-Furnished Services—Funded and Unfunded Costs

42. Field 42—Not Used

43. Field 43—Not Used

44. Field 44—Not Used

45. Field 45—Total Production Quantity

   a. If Field 51 is a “C,” then enter the total quantity of items for which work was completed and reported by this transaction record (including contractor-performed work reported with a “3” in Field 7). This field must be zero filled for WPCs “N” and “T.”

   b. If Field 51 is a “W,” then enter the total quantity of items covered by job orders that are not yet financially complete at the end of the period covered by the report record. This field must be zero filled for WPCs “N” and “T.”
ADDENDUM 3 – DMCS Input File (continued)

46. Field 46—Report Data Record Identifier. A unique DoD Component alpha and/or numeric code used to identify each individual report transaction record. Use the field to permit the unique identification of each report record. For DoD organic activities, it is recommended that the job order number, or similar production control number, be entered. In all cases, the numbering scheme should:

   a. Uniquely identify each job order, consolidation of similar job orders, or similar production control number;
   
   b. Support queries into the source of data appearing in DMCS report records; and
   
   c. Support year-to-year tracking by job order number (or similar production control number).

47. Field 47—Not Used

48. Field 48—Not Used

49. Field 49—Not Used

50. Field 50—Shop Flow Days

   a. If Field 51 is a “C,” then report the average number of days that the items being reported were in process; that is, from the date an item is physically inducted to the date the item is completed, passed its final inspection, and is ready for delivery to the customer. The field may be left blank for contractor-performed work or for work performed at another depot maintenance activity if the number of days in process cannot be determined. Make reasonable efforts to provide accurate data for all applicable records submitted.

   b. If Field 51 is a “W,” then report the average number of days that each item was in process; that is, since the date of physical induction.

51. Field 51—Work Status Code. A single-digit alpha code that indicates if the transaction being reported has been financially completed, or is still in process at the time of the report.

   a. Enter a “C” if the reported transaction is financially complete.

   b. Enter a “W” if the transaction being reported is not financially complete as of the report date.
ADDENDUM 3 – DMCS Input File (continued)

52. Field 52—Not Used

53. Field 53—Not Used

54. Field 54—Not Used

ADDENDUM 5 - Work Performance Category (WPC) Codes

ADDENDUM 5
WPC CODES
(Codes To Be Used in Field 14 of Addendum 3)

**Code A—Overhaul.** Returning an unserviceable item of equipment to serviceable condition by restoring most or all internal tolerances to “like new” specification. Overhaul is synonymous with “rework” and “rebuild.”

**Code B—Progressive Maintenance.** A predetermined amount of work that represents a partial overhaul under a program that permits the complete overhaul by means of two or more scheduled work efforts in the maintenance process. Progressive maintenance is synonymous with “cycle maintenance,” “restricted availability,” “preventive servicing,” “recondition,” and “phased” or “incremental maintenance.”

**Code C—Conversion.** The alteration of the basic characteristics of an item to such an extent as to change its mission, performance, or capability.

**Code D—Activation.** The process of returning an item from preservation, storage, or inactive status to an active, serviceable status by means of removal from storage and containers, stripping, inspection, servicing, testing, repair, replacement of components, assemblies, or subassemblies as required.

**Code E—Inactivation.** The servicing and preservation of an item prior to placement in storage or an inactive status.

**Code F—Renovation.** The proof and test, evaluation, inspection, and rework of ammunition or ordnance items as required for retaining their desired capability.

**Code G—Analytical Inspection.** The disassembly, inspection, data gathering, and engineering analysis of an equipment item to compare actual wear characteristics and failure patterns with predicted values. Data collected during analytical inspection is used to validate the adequacy of maintenance planning and execution. Analytical rework is synonymous with the “age exploration analysis” phase of reliability-centered maintenance.

**Code H—Modification.** A physical change made to weapon systems or equipment such that one or more measurable characteristic is altered. Modifications are often made to improve equipment performance, but may also be designed to increase reliability, improve supportability, or enhance safety. Synonymous with “upgrade.”

**Code I—Repair.** Returning an unserviceable item of equipment to serviceable condition by restoring failed structures or components to acceptable standards. “Acceptable” may mean “restore to ‘like new’ specification,” or it may be less stringent, depending upon the demands of the equipment user.
ADDENDUM 5 - Work Performance Category (WPC) Codes (continued)

Code J—Inspection. The examination of an item to reveal information about its physical condition. Inspection results are typically compared with specifications, standards, or the results of other inspections to determine whether the item under inspection is acceptable for use. Inspections are also an important part of engineering investigations that seek to establish cause-and-effect relationships between observed characteristics and external influences.

Code K—Manufacture. The fabrication of a component or end item from raw materials or components. Can include engineering, design, test, and production. Does not include manufacturing that takes place as a part of the normal repair or overhaul processes.

Code L—Reclamation. The authorized processing of end items, assemblies, or subassemblies to obtain parts or components retained in operating materials and supplies prior to taking disposal action on the end item, assembly, or subassembly. Includes demilitarization actions on items prior to disposal when the demilitarization is incidental to the reclamation.

Code M—Storage. The inspection, preservation, periodic re-preservation, and maintenance in storage status of weapons, subsystems, and components in the supply system.

Code N—Technical Assistance. The use of qualified depot maintenance personnel to provide technical information, instructions, or guidance, or to perform specific work requiring special skills for operational activities or other maintenance organizations. Includes all demilitarization other than that incidental to reclamation when reporting is required.

Codes O, P, Q, R, and S—Not Used

Code T—Other Work. Used to complete the reporting of all maintenance workforce costs incurred. Any costs incurred at a depot maintenance activity funded by the Working Capital Fund that do not meet the criteria for reporting under the other WPCs must be reported in this category. This includes any maintenance support costs funded by a DWCF activity. Maintenance support includes centralized programming and planning support, technical and engineering services, preparation of maintenance publications and engineering data, and technical and administrative training.

Code U—Software Maintenance. Those software activities carried out following initial operating capability to include all events that maintain operational capability, correct faults, improve performance, and adapt the software to environmental changes or new requirements. Software maintenance must be reported regardless of location or funding source. For software or related hardware modifications/upgrades, includes the labor associated with the application of the modification.

Code V—Calibration. The comparison of a measurement system or device of unknown accuracy to a system or device of known and greater accuracy. The system or device of greater accuracy is a measurement standard.
ADDENDUM 5 - Work Performance Category (WPC) Codes (continued)

Code W—CLS, ICS, PBL, and Similar Contracts. The CLS, ICS, PBL, and similar contracts provide commercial support for weapon systems and equipment that do not have an organic support base established. Contractors provide total logistics support, including depot maintenance for the equipment, end item, and components. Only those maintenance functions that would be classified as depot-level, if the equipment were maintained organically, will be included.

Codes X, Y, and Z—Not Used

CHAPTER 15

DEFENSE WORKING CAPITAL FUND ACCOUNTING REPORT
[ACCOUNTING REPORT (M) 1307]

1501 GENERAL PREPARATION INSTRUCTIONS

150101. Purpose

150102. General

A. The DWCF AR(M) 1307 consists of three principal statements.

1. **Statement of Financial Position.** This statement discloses the reporting entity’s assets, liabilities, and net position.

2. **Statement of Cash Flow.** This statement discloses the reporting entity’s gross cash receipts and disbursements with an explanation of the changes in cash for the reporting period.

3. **Statement of Operations.** This statement discloses the results of the reporting entity’s operations for the reporting period, including the changes in the entity’s net position from the end of the prior reporting period.

* B. An identification of the hierarchy of accounting standards to be followed in preparing the DWCF Accounting Report is contained in Volume 1, Chapter 2, “Federal Accounting Standards Hierarchy”.

C. Notes, being an integral part of the principal statements, shall provide additional disclosures necessary to make the principal statements fully informative and not misleading.

D. The DWCF Accounting Report was designed based on fiscal year 2009 Volume 6B, “Form and Content of DoD Audited Financial Statements” of this Regulation. Annually, the Office of the Under Secretary of Defense (Comptroller) (OUSD(C)) updates Department of Defense (DoD) guidance on the form and content of financial statements. Additionally, the United States Standard General Ledger (USSGL) on which the report is based is updated at least annually and is posted by both the Office of the Deputy Chief Management Officer (DCMO) and the Treasury Financial Management Service (FMS). Accordingly, the DWCF Accounting Report will be revised to maintain comparability.
E. The Statement of Operations consists of seven parts.

1. Part I, “Statement of Operations” identifies the cumulative year-to-date Net Operating Results (NOR) and the Recoverable NOR, i.e. the amount that must be recovered in the activity’s rates.

2. Part II, “Changes in Net Position” identifies the arithmetic difference between the total assets and total liabilities recognized on a component entity’s balance sheet.

5. Part V, “Recoverable Operating Results” reconciles Net Operating Results to the operating results used for rate-setting purposes.

6. Part VI, “Capital Program” identifies the approved program, obligations and outlays for the Capital Program, by fiscal year.

F. The AR(M) 1307 is prepared based on the activity’s proprietary trial balance, except for some items in Part VI, Capital Program and Part VII, Inventory Management Report – Supply Management Business Area, which includes obligation data. The AR(M) 1307 complements the information provided in the Standard Form (SF) 133, Report on Budget Execution and Budgetary Resources, which is prepared using the activity’s budgetary trial balances. Both reports provide information required to manage the DWCF activities.

150103. Reporting Requirement

A. Applicability. The provisions of this chapter apply to all DoD Components operating a DWCF activity. A listing of DWCF financial reporting activities is located in Figure 15-10 of this chapter. Within the attached listing, an asterisk (*) symbol indicates the lowest level for which individual AR(M) 1307 reports are required. DWCF Activities may generate the AR(M) 1307 at different levels in order to manage their business effectively. The levels for which a consolidated AR(M) 1307 report are required are indicated in the attached listing by a pound (#) symbol. Consolidated statements are required for each DoD Component business area.
B. **Report Formats.** The financial report formats contained herein show the report formats that must be used. The reports shall be prepared or reproduced on letter size paper (8 ½” x 11”). Reports produced by automated data processing equipment may be substituted for the formats illustrated. The following reports **shall** be submitted:

- Statement of Financial Position
- Statement of Cash Flow
- Statement of Operations
  - Part I – Statement of Operations
  - Part II – Changes in Net Position
  - Part III – Cost of Goods Sold
  - Part IV – Expenses
  - Part V – Recoverable Operating Results
  - Part VI – Capital Program

C. **Reporting Responsibilities.** DoD Components are responsible for the information included in the AR(M) 1307 report and for arranging for the preparation and submission of the report.

D. **Frequency of Reports.** Unless otherwise specified by the OUSD(C), the AR(M) 1307 reports shall be prepared and submitted monthly. Submit regular reports in accordance with due dates established by the Defense Finance and Accounting Service (DFAS) and consistent with the requirements of the OUSD(C).

E. **Distribution.**

1. **Consolidated DoD Component and Business Area Reports.** A copy of consolidated DWCF business area reports **will** be submitted to the:

   a. Director for Revolving Funds, Office of the Deputy Comptroller (Program/Budget), OUSD(C).

   b. Office of the Assistant Secretary of the Army (Financial Management and Comptroller), Office of the Assistant Secretary of the Navy (Financial Management and Comptroller), Office of the Assistant Secretary of the Air Force (Financial Management and Comptroller), the Defense Commissary Agency (DeCA) Comptroller, and Other Defense Organizations (i.e. the Defense Logistics Agency Comptroller).

   c. Management Command responsible for the oversight of a business area, if requested by a DoD Component.

2. **Activity Level Reports.** A copy of DWCF activity level reports **will** be submitted to the:
a. Offices of the Assistant Secretary of the Army, Navy and Air Force (Financial Management and Comptroller), the Defense Commissary Agency (DeCA), and the Comptrollers of Other Defense Organizations, if requested by a DoD Component.

b. Management Command responsible for the oversight of a business area, if requested by a DoD Component.

c. The DWCF activity whose operations are being reported. The report provided to a DWCF activity shall disclose any adjustments made to the financial data submitted by that activity.

*150104. Detail Instructions

A. The instructions to the AR(M) 1307 identify the specific data, and appropriate source of that data, for amounts to be entered into each line of each report.

B. Amounts will be reported in thousands of dollars ($000) for all parts of the report and related footnotes (that is, $1,000 = $1; $10,000 = $10; $100,000 = $100).

C. Report lines that require identification of the nature of specific amounts will be footnoted, and will be provided with each report.

D. Adjustments for amounts otherwise accounted for or reported at the DoD Component level should be allocated or assigned to the applicable business areas. Similarly, adjustments for amounts otherwise submitted for or reported at the business area level should be allocated or assigned to the applicable individual activities. Such allocations shall be made by DFAS, in accordance with direction received from the DoD Components. However, as a general rule, and where reasonable, all such adjustments should be allocated to individual activities. Adjustments made at the business area level shall be shown separately as a business area adjustment. Adjustments allocated to the individual activity level shall be entered into the activity’s installation level accounting records.

E. Policies that, if implemented retroactively, could have a significant adverse impact on the accuracy and integrity of financial reports will not be retroactively implemented without a clearly offsetting benefit or unless directed by an external authority such as Congress.

F. The report is based on current fiscal year data. All references to year in this instruction apply to fiscal year.

G. Entities are only required to report lines on the AR(M) 1307 in which there is activity.

H. This chapter cites USSGL accounts that populate each line. The DoD requires the use of the DoD Chart of Accounts, which is comprised of the USSGL accounts, followed by a four position further breakout.

### 1502. FORMAT OF THE STATEMENT OF FINANCIAL POSITION (FIGURE 15-1)

150201. General
The Statement of Financial Position, Figure 15-1, discloses the reporting entity’s assets, liabilities, and net position.

150202. Heading

Complete the heading of the form to indicate: (a) the reporting DoD Component, (b) the reporting DWCF business area or activity, (c) the reporting period (month), and (d) the calendar year.

*150203. Line Item Instructions

Instructions for the content of each line item are as follows:

A. **Section Heading - ASSETS**

B. **Line 1 – Fund Balance with Treasury.** This item represents the aggregate amount of the entity’s accounts with Treasury for which the entity is authorized to make expenditures and pay liabilities. Accounts have been established to separately identify disbursements and collections applicable to the operating program and capital program to comply with *United States Code*, Title 10, Section 2208, which requires DoD to establish a capital asset sub-account. Report the balance by the specified applicable categories:

C. **Line 1.a. – Funds Collected - Operating Program.** Report the portion of the balance of the following account as it relates to funds collected for the operating program during the current fiscal year.

   1010 Fund Balance with Treasury (Funds Collected - Operating Programs)

D. **Line 1.b. – Funds Collected - Capital Program.** Report the portion of the balance of the following account as it relates to funds collected for the capital program during the current fiscal year. Note: the amount of collections allocated from the operating program to the capital program will be based on the activities DWCF-funded depreciation expenses and capital surcharge. In all cases, at the end of the Fiscal Year (FY), the amount collected must be sufficient to ensure the ending Fund Balance with Treasury – Capital Program is not negative.

   1010 Fund Balance with Treasury (Funds Collected – Capital Program)

E. **Line 1.c. – Funds Disbursed - Operating Program.** Report the portion of the balance of the following account as it relates to funds disbursed for the operating program during the current fiscal year.

   1010 Fund Balance with Treasury (Funds Disbursed - Operating Programs)
F. **Line 1.d. – Funds Disbursed - Capital Program.** Report the portion of the balance of the following account as it relates to funds disbursed for the Capital Program during the current fiscal year. This amount shall agree with the amount reported on Part VI, “Total Outlays”, for the current year.

1010  Fund Balance with Treasury (Funds Disbursed - Capital Program)

G. **Line 1.e. – Funds Transferred In (Out).** Report the portion of the balance to the following account as it relates to funds transferred in or out during the current fiscal year.

1010  Fund Balance with Treasury (Current Year Transfers)

H. **Line 1.f. – Funds with Treasury – Operating Program.** Report the beginning fiscal year balance of the operating program account, which is the net of prior year funds collected and funds disbursed related to operating programs.

1010  Fund Balance with Treasury (Funds with Treasury - Operating Programs)

I. **Line 1.g. – Funds with Treasury – Capital Program.** Report the beginning fiscal year balance of the Capital Program account, which is the net of prior year funds collected and funds disbursed related to capital programs.

1010  Fund Balance with Treasury (Funds with Treasury - Capital Program)

J. **Line 2. – Cash on Hand and Other Monetary Assets.** Consists of (a) coins, paper currency and readily negotiable instruments such as money orders, checks and bank drafts on hand or in transit for deposit, (b) amounts on demand deposit with banks or other financial institutions, and (c) cash held in imprest funds. Report the balance of the following accounts:

1110  Undeposited Collections
1120  Imprest Funds
1130  Funds Held by the Public
1190  Other Cash
1195  Other Monetary Assets
1200  Foreign Currency
1531  Seized Monetary Instruments
1532  Seized Cash Deposited

K. **Line 3. – Accounts Receivable, Net.** Accounts receivable are amounts due from others when the right to receive funds accrues. This may result from the performance of services, the delivery of goods, or court-ordered assessment. This is a summary line for lines 3.a.-Accounts Receivable, Intragovernmental through 3.d.-Accounts Receivable, Non-Federal, Undistributed.
L. **Line 3.a. – Accounts Receivable, Intragovernmental.** Report the amount of accounts receivable in the following accounts that relate to accounts receivable from other Federal Agencies. Note: Allowance for loss accounts are not included in this line because it is expected that all Federal Agencies will pay their bills.

1310 Accounts Receivable (except as reported on Line 3.b.)
1320 Employment Benefit Contributions Receivable
1330 Receivable for Transfers of Currently Invested Balances
1335 Expenditure Transfers Receivable
1340 Interest Receivable – Not Otherwise Classified
1360 Penalties and Fines Receivable – Not Otherwise Classified
1370 Administrative Fees Receivable – Not Otherwise Classified

M. **Line 3.b. – Accounts Receivable, Intragovernmental, Undistributed.** Report the amount of accounts receivable in the following account related to accounts receivable from other Federal agencies recorded for undistributed collections. Undistributed collections represent the difference between the amount of collections reported to DFAS by the Department of the Treasury finance network and the amount of collections recorded by the operating level activities.

1310 Accounts Receivable (except as reported on Line 3.a.)

N. **Line 3.c. – Accounts Receivable, Non-Federal.** Report the amount of accounts receivable in the following accounts that relate to accounts receivable from other than Federal agencies.

1310 Accounts Receivable, (except as reported on Line 3.d.)
1319 Allowance for Loss on Accounts Receivable
1320 Employment Benefit Contributions Receivable
1325 Taxes Receivable
1329 Allowance for Loss on Taxes Receivable
1340 Interest Receivable – Not Otherwise Classified
1347 Allowance for Loss on Interest Receivable – Not Otherwise Classified
1360 Penalties and Fines Receivable – Not Otherwise Classified
1367 Allowance for Loss on Penalties and Fines Receivable – Not Otherwise Classified
1370 Administrative Fees Receivable – Not Otherwise Classified
1377 Allowance for Loss on Administrative Fees Receivable – Not Otherwise Classified

O. **Line 3.d. – Accounts Receivable, Non-Federal, Undistributed.** Report the amount of accounts receivable in the following account related to accounts receivable from other than Federal agencies recorded for undistributed collections. Undistributed collections represent the difference between the amount of collections reported to DFAS by the Department of the
Treasury finance network and the amount of collections recorded by the operating level activities.

1310 Accounts Receivable, (except as reported on Line 3.c.)

P. Line 4. – Advances Paid and Prepayments. Report the amount of the following accounts:

1410 Advances and Prepayments

The amount reported shall agree with the amount reported on Line 5, “Advances and Prepayments, End of Period” of the “Supplemental Report on Budget Execution”.

Q. Line 5. – Inventories, Net. Inventory is tangible personal property that is (a) held for sale, (b) in the process of production for sale, (c) to be consumed in the production of goods for sale or in the provision of services for a fee, (d) held for repair or (e) excess, obsolete, and unserviceable. This line is the net sum of line 5.a. “Inventory Items” and line 5.b. “Allowance for Gains or (Losses) on Inventories”.

R. Line 5.a. – Inventory Items. Report the sum of line 5.a.(1). Inventory at Latest Acquisition Cost (LAC) and line 5.a.(2). Inventory at Moving Average Cost (MAC).

S. Line 5.a.(1). – Latest Acquisition Cost (LAC). Report the amount of inventory whose value is maintained at LAC in the following accounts. This amount will be the amount reported on Part III - Cost of Goods Sold, Line 2.i. “Minus: Ending Inventory – LAC”.

1521 Inventory Purchased for Resale
1522 Inventory Held in Reserve for Future Sale
1523 Inventory Held for Repair
1524 Inventory - Excess, Obsolete, and Unserviceable
1525 Inventory - Raw Materials
1527 Inventory - Finished Goods

T. Line 5.a.(2). – Moving Average Cost (MAC). Report the amount of inventory maintained at MAC in the following accounts:

1521 Inventory Purchased for Resale
1522 Inventory Held in Reserve for Future Sale
1523 Inventory Held for Repair
1524 Inventory - Excess, Obsolete, and Unserviceable
1525 Inventory - Raw Materials
1527 Inventory - Finished Goods

U. Line 5.b. – Allowance for Gains or (Losses) on Inventories. Report the balance of the following account as it relates to gains or losses on inventories. A credit balance
will be reported as a negative [deduct] amount; a debit balance will be reported as a positive [add] amount.

1529 Inventory – Allowance

V. Line 6. – Work in Process. Work in process is, for the DWCF, the amount of direct, indirect, and general and administrative costs assigned or otherwise properly allocated to a final cost objective (generally, a job order) prior to completion of that final cost objective in its entirety or in discrete elements. When revenue is recognized on a percent of completion basis, the work in process associated with the revenue recognized should be removed from work in process and recorded as cost of goods sold. This line applies only to DWCF activities that accumulate costs to a final cost objective (generally, a job order) such as those within the Depot Maintenance, Research and Development (R&D) and Base Support business areas. This line does not ordinarily apply to activities that do not accumulate costs to a final cost objective such as the Supply Management business area or DeCA. The balance in the following account shall be reported:

1526 Inventory - Work-in-Process
1529 Inventory – Allowance

This amount shall agree with the amount reported on Part III, Line 1.g., “Minus: Ending Work-In-Process”.

W. Line 7. – Operating Materials and Supplies, Net. Operating materials and supplies consist of tangible personal property to be consumed in the course of normal operations. This line can be applicable to any DWCF activity. Report the balance of the following accounts:

1511 Operating Materials and Supplies Held for Use
1512 Operating Materials and Supplies Held in Reserve for Future Use
1513 Operating Materials and Supplies - Excess, Obsolete, and Unserviceable
1514 Operating Materials and Supplies Held for Repair
1519 Operating Materials and Supplies - Allowance

X. Line 8. – Stockpile Materials, Net. Stockpile materials are strategic and critical materials held due to statutory requirements for use in national defense, conservation, or national emergencies. They are not held with the intent of selling in the ordinary course of business. Report the balance of the following accounts:

1571 Stockpile Materials Held in Reserve
1572 Stockpile Materials Held for Sale

Y. Line 9. – Property, Plant and Equipment, Net. Property, plant and equipment (PP&E) are tangible assets that (1) have an estimated useful life of 2 or more years, (2) are not intended for sale in the ordinary course of business, and (3) are intended to be used or available for use by the entity. The line is the value of the activity’s real and personal property,
i.e., land, structures and facilities, construction in progress, purchased and self-developed software, equipment and related improvements that have been capitalized, net of accumulated depreciation, if any. Line 9 also includes assets acquired by capital leases and leasehold improvements; and property owned by the reporting entity in the hands of the reporting entity or contractors. This line is the sum of the following Line 9 sub-lines. See Annex 4 of Volume 4, Chapter 6 for additional guidance regarding PP&E.

Z. Line 9.a. – Structures, Facilities and Leasehold Improvements, Net. Report the balance of the following accounts:

- 1711 Land and Land Rights
- 1712 Improvements to Land
- 1719 Accumulated Depreciation on Improvements to Land
- 1730 Buildings, Improvements, and Renovations
- 1739 Accumulated Depreciation on Buildings, Improvements, and Renovations
- 1740 Other Structures and Facilities
- 1749 Accumulated Depreciation on Other Structures and Facilities
- 1820 Leasehold Improvements
- 1829 Accumulated Amortization on Leasehold Improvements

AA. Line 9.b. – Construction in Progress. Report the balance of the following account:

- 1720 Construction-in-Progress

AB. Line 9.c. – Equipment, Net. Report the balance of the following accounts:

- 1750 Equipment
- 1759 Accumulated Depreciation on Equipment

AC. Line 9.d. – ADP Software, Net. Report the balance of Automated Data Processing (ADP) Software in the following accounts:

- 1830 Internal-Use Software
- 1839 Accumulated Amortization on Internal-Use Software

AD. Line 9.e. – Software Development in Progress. Report the balance of the following account:

- 1832 Internal-Use Software in Development

AE. Line 9.f. – Assets Under Capital Lease, Net. Report the balance of the following accounts:

- 1810 Assets Under Capital Lease
- 1819 Accumulated Depreciation on Assets Under Capital Lease
AF. **Line 9.g. – Other Property, Net.** Report the balance of the following accounts:

- 1840 Other Natural Resources
- 1849 Allowance for Depletion
- 1890 Other General Property, Plant, and Equipment
- 1899 Accumulated Depreciation on Other Property, Plant, and Equipment

AG. **Line 10. – Other Assets, Net.** Report the balance of the following accounts:

- 1340 Interest Receivable – Not Otherwise Classified
- 1347 Allowance for Loss on Interest Receivable – Not Otherwise Classified
- 1350 Loans Receivable
- 1359 Allowance for Loss on Loans Receivable
- 1541 Forfeited Property Held for Sale
- 1542 Forfeited Property Held for Donation or Use
- 1549 Forfeited Property – Allowance
- 1561 Commodities Held Under Price Support and Stabilization Support Programs
- 1569 Commodities – Allowance
- 1591 Other Related Property
- 1599 Other Related Property - Allowance
- 1990 Other Assets

AH. **Line 11 – Total Assets.** Report the net total of line 1 through line 10.

AI. **Section Heading - LIABILITIES**

AJ. **Line 12. – Liabilities Covered by Budgetary Resources.** Liabilities incurred which are covered by available budgetary resources. Available budgetary resources include (1) new budget authority, (2) reimbursements and other income, (3) recoveries of unexpired budget authority, and (4) remaining unobligated balances of amounts available at the beginning of the year or transferred in during the year, and (5) assets held, or resources collected on behalf of another which are not yet remitted according to Section 301 of the Quarterly Guidance. Report the net total of lines 12.a. through 12.h.

AK. **Line 12.a. – Accounts Payable, Net.** The amounts owed by a DWCF activity for goods and services from, progress in contract performance made by, and rents due to DoD and other Federal and non-Federal entities. Report the net total of lines 12.a.1 through 12.a.(4).

AL. **Line 12.a.(1). – Accounts Payable, Intragovernmental.** Report the amount of the following accounts that is owed to Federal entities:
2110  Accounts Payable (except as reported on Line 12.a.(2))
2120  Disbursements in Transit
2140  Accrued Interest Payable – Not Otherwise Classified
2155  Expenditure Transfers Payable

AM.  **Line 12.a.(2). – Accounts Payable, Intragovernmental, Undistributed.** Report the amount of accounts payable in the following account that is owed to Federal entities recorded for undistributed disbursements. Undistributed disbursements represent the difference between the amount of disbursements reported to DFAS by the Department of the Treasury finance network and the amount of disbursements recorded by the operating level activities.

2110  Accounts Payable (except as reported on Line 12.a.(1))

AN.  **Line 12.a.(3). – Accounts Payable, Non-Federal.** Report the amount of the following accounts that are owed to non-federal entities:

2110  Accounts Payable (except as reported on Line 12.a.(4))
2120  Disbursements in Transit
2140  Accrued Interest Payable – Not Otherwise Classified

AO.  **Line 12.a.(4). – Accounts Payable, Non-Federal, Undistributed.** Report the amount of accounts payable in the following account that is owed to non-federal entities recorded for undistributed disbursements. Undistributed disbursements represent the difference between the amount of disbursements reported to DFAS by the Department of the Treasury finance network and the amount of disbursements recorded by the operating level activities.

2110  Accounts Payable (except as reported on Line 12.a.(3))

AP.  **Line 12.b. – Accrued Payroll and Benefits.** Report the amount of payroll and benefits payable. Report the net total of lines 12.b.(1) through 12.b.(3).

AQ.  **Line 12.b.(1). – Salaries and Wages.** Report the portion of the balance as it relates to salaries and wages of the following accounts:

2210  Accrued Funded Payroll and Leave
2213  Employer Contributions and Payroll Taxes Payable

AR.  **Line 12.b.(2). – Accrued Annual Leave.** DWCF activities are required to fully fund annual leave in their rates. This balance in the account represents the value of employee annual leave that has not yet been taken. Report the portion of accrued annual leave in the following account:

2210  Accrued Funded Payroll and Leave
AS. Line 12.b.(3). – Severance Pay and Separation Allowance

- 2211 Withholdings Payable
- 2215 Other Post Employment Benefits Due and Payable
- 2216 Pension Benefits Due and Payable to Beneficiaries
- 2217 Benefit Premiums Payable to Carriers
- 2218 Life Insurance Benefits Due and Payable to Beneficiaries

AT. Line 12.c. – Progress Billings. Report the portion of the balance of the following account as it relates to progress billings.

- 2110 Accounts Payable

AU. Line 12.d. – Advances and Prepayments from Others. Report the value of advances and prepayments received for goods to be delivered or services to be performed in the following account:

- 2310 Liability for Advances and Prepayments

The amount reported shall agree with the amount reported on line 6, “Unearned Revenue, End of Period” of the “Supplemental Report on Budget Execution”.

AV. Line 12.e. – Debt. This item represents the amount of borrowings from the Treasury, the Federal Financial Bank, or other Federal Agencies. Report the balance of the following accounts as they relate to debt:

- 2141 Accrued Interest payable - Debt
- 2510 Principal Payable to the Bureau of the Public Debt
- 2520 Principal Payable to the Federal Financing Bank
- 2590 Other Debt

AW. Line 12.f. – Interest Payable. Report the portion of the interest payable balance as it relates to other than debt interest in the following account. Exclude amounts already listed on line 12.e.

- 2140 Accrued Interest Payable – Not Otherwise Classified

AX. Line 12.g. – Lease Liabilities. This item represents the portion of the liability for capital leases which is covered by budgetary authority. Capital leases and lease purchases entered into must be fully funded in the first year of the lease in accordance with Office of Management and Budget Circular A-11, Appendix B. Report the balance of the following account:

- 2940 Capital Lease Liability
AY. Line 12.h. – Other Liabilities. This item represents other liabilities that are not recognized in other specific categories. Include in this line the total amount due the federal entities for other liabilities covered by budgetary authority that are not included on other lines. Report the balance of the following accounts as they apply to transactions with other Federal and non-Federal entities:

- 2130 Contract Holdbacks
- 2190 Other Liabilities With Related Budgetary Obligations
- 2320 Other Deferred Revenue
- 2400 Liability for Nonfiduciary Deposit Funds, Clearing Accounts, and Undeposited Collections
- 2610 Actuarial Pension Liability
- 2620 Actuarial Health Insurance Liability
- 2630 Actuarial Life Insurance Liability
- 2650 Actuarial FECA Liability
- 2690 Other Actuarial Liabilities
- 2920 Contingent Liabilities
- 2970 Liability for Capital Transfers to the General Fund of the Treasury
- 2985 Liability for Non-Entity Assets Not Reported on the Statement of Custodial Activity

AZ. Line 13. – Liabilities Not Covered by Budgetary Resources. Liabilities incurred which are not covered by available budgetary resources result from the receipt of goods or services or the occurrence of other eligible events for which revenues or other sources of funds necessary to pay the liabilities have not been made available through Congressional appropriations or current earnings of the reporting entity. Not withstanding an expectation that the appropriations will be made, whether they in fact will be made is completely at the discretion of the Congress. Report only the amount of the liability for which an available budgetary resource does not exist. If any such liabilities exist, report the amount and disclose its nature by footnote if material.

- 2110 Accounts Payable
- 2140 Accrued Interest Payable – Not Otherwise Classified
- 2160 Entitlement Benefits Due and Payable
- 2170 Subsidy Payable to the Financing Account
- 2190 Other Liabilities with Related Budgetary Obligations

2940  Capital Lease Liability
2960  Accounts Payable from Canceled Appropriations
2990  Other Liabilities Without Related Budgetary Obligations
2995  Estimated Cleanup Cost Liability

BB.  Section Heading – NET POSITION

BC.  Line 15. – Net Position.  The components of net position are classified as follows.  Report the net total of lines 15.a. through 15.c.

BD.  Line 15.a. – Unexpended Appropriations.  This line is equal to the “Equals: Unexpended Appropriations – End of Period” from Statement of Operations, Part II - Changes in Net Position, Line 1.A.(3).  Normally DWCF activities will not have unexpended appropriations as they are immediately expended upon receipt to provide budgetary authority.

*BE.  Line 15.b. – Accumulated Operating Results (AOR).  This line is equal to the “Total AOR End of Period” from Statement of Operations, Part II - Changes in Net Position, Line 1.B.(3).

BG.  Line 16. – Total Liabilities and Net Position.  Report the total of lines 14 and 15.

The amount reported shall agree with the amount reported on Statement of Financial Position, Line 11, “Total Assets”.

1503. FORMAT OF THE STATEMENT OF CASH FLOW (FIGURE 15-2)

150301. General

The Statement of Cash Flow, Figure 15-2, discloses the DWCF cash receipts and disbursements with an explanation of the changes in cash or cash equivalents for the reporting period.

150302. Heading

Complete the heading of the form to indicate: (a) the reporting DoD Component, (b) the reporting DWCF business area or activity, (c) the reporting period (month), and (d) the calendar year.

150303. Line Item Instructions

Instructions for the content of each line item are as follows:

A. Section Heading - CASH FLOWS FROM OPERATIONS

B. Line 1 – Net Operating Results (NOR) (Part I, Line 11). This line is equal to the NOR from Part I – Statement of Operations, Line 11.

C. Section Heading - OPERATING ADJUSTMENTS

D. Line 2 – Appropriated Capital Used (-). The amount of appropriated funds expended is a negative adjustment to the cash flow from operations. Report the balance of the following account:

5700  Expended Appropriations

*E. Line 3 – Decrease (Increase) in Receivables. A decrease in accounts receivable adds to, and an increase in accounts receivable reduces, the DWCF cash balance. Decreases due to bad debt write-offs should not be included in the accounts receivable calculation. Report the current year change in the following accounts:

1310  Accounts Receivable
1319  Allowance for Loss on Accounts Receivable
1320  Employment Benefit Contributions Receivable
1325  Taxes Receivable
1329  Allowance for Loss on Taxes Receivable
1330  Receivable for Transfers of Currently Invested Balances
1335  Expenditure Transfers Receivable
1340  Interest Receivable – Not Otherwise Classified
1349  Allowance for Loss on Interest Receivable – Not Otherwise Classified

F. Line 4 – Decrease (Increase) in Advances and Prepayments. A decrease in advances and prepayments adds to, and an increase in advances and prepayments reduces, the DWCF cash balance. Report the current year change in the following account:

1410 Advances and Prepayments

G. Line 5 – Decrease (Increase) in Inventories. Net total of the decrease or increase of the four sub-categories of inventory on lines 5.a through 5.d.

H. Line 5.a. – Inventory. A decrease in inventory adds to, and an increase in inventory reduces, the DWCF cash balance. Report the current year change in the following accounts:

1521 Inventory Purchased for Resale
1522 Inventory Held in Reserve for Future Sale
1523 Inventory Held for Repair
1524 Inventory - Excess, Obsolete, and Unserviceable
1525 Inventory - Raw Materials
1527 Inventory - Finished Goods
1529 Inventory – Allowance

Report the balance of the preceding September 30, Statement of Financial Position, line 5.a., “Inventory, Items”, minus the current balance reported on line 5.a. of the Statement of Financial Position.

I. Line 5.b. – Work in Process. A decrease in work in process adds to, and an increase in work in process reduces, the DWCF cash balance. Report the current year change in the following account.

1526 Inventory - Work-in-Process
J. Line 5.c. – Operating Materials and Supplies, Net. A decrease in operating materials and supplies adds to, and an increase in operating materials and supplies reduces, the DWCF cash balance. Report the current year change in the following accounts:

- 1511 Operating Materials and Supplies Held for Use
- 1512 Operating Materials and Supplies Held in Reserve for Future Use
- 1513 Operating Materials and Supplies - Excess, Obsolete, and Unserviceable
- 1514 Operating Materials and Supplies Held for Repair
- 1519 Operating Materials and Supplies - Allowance

K. Line 5.d. – Stockpile Materials, Net. A decrease in Stockpile materials adds to, and an increase in Stockpile materials reduces, the DWCF cash balance. Report the current year change in the following accounts:

- 1571 Stockpile Materials Held in Reserve
- 1572 Stockpile Materials Held for Sale

L. Line 6. – Decrease (Increase) in Other Assets. A decrease in other assets adds to, and an increase in other assets reduces, the DWCF cash balance. Report the current year change in the following accounts:

- 1340 Interest Receivable – Not Otherwise Classified
- 1347 Allowance for Loss on Interest Receivable – Not Otherwise Classified
- 1350 Loans Receivable
- 1359 Allowance for Loss on Loans Receivable
- 1541 Forfeited Property Held for Sale
- 1542 Forfeited Property Held for Donation or Use
- 1549 Forfeited Property – Allowance
- 1561 Commodities Held Under Price Support and Stabilization Support Programs
- 1569 Commodities – Allowance
- 1591 Other Related Property
- 1599 Other Related Property - Allowance
- 1599 Other Related Property

M. Line 7. – Increase (Decrease) in Accounts Payable. An increase in accounts payable adds to, and a decrease in accounts payable reduces, the DWCF cash balance. Report the current year change in the following accounts:

- 2110 Accounts Payable
2120  Disbursements in Transit
2140  Accrued Interest Payable – Not Otherwise Classified
2155  Expenditure Transfers Payable

N.  Line 8. – Increase (Decrease) in Accrued Payroll and Benefits. An increase in accrued payroll and benefits adds to, and a decrease in accrued payroll and benefits reduces, the DWCF cash balance. Report the current year change in the following accounts:

2210  Accrued Funded Payroll and Leave
2211  Withholdings Payable
2213  Employer Contributions and Payroll Taxes Payable
2215  Other Post-Employment Benefits Due and Payable
2216  Pension Benefits Due and Payable to Beneficiaries
2217  Benefit Premiums Payable to Carriers
2218  Life Insurance Benefits Due and Payable to Beneficiaries

*O.  Line 9. – Increase (Decrease) in Other Liabilities. An increase in other liabilities adds to, and a decrease in other liabilities reduces, the DWCF cash balance. Report the current year change in the following accounts:

2110  Accounts Payable
2130  Contract Holdbacks
2140  Accrued Interest Payable – Not Otherwise Classified
2160  Entitlement Benefits Due and Payable
2170  Subsidy Payable to the Financing Account
2190  Other Liabilities With Related Budgetary Obligations
2220  Unfunded Leave
2225  Unfunded FECA Liability

2310  Liability for Advances and Prepayments
2320  Other Deferred Revenue
2400  Liability for Nonfiduciary Deposit Funds, Clearing Accounts, and Undeposited Collections
2510  Principal Payable to the Bureau of the Public Debt
2520  Principal Payable to the Federal Financing Bank
2590  Other Debt
2610  Actuarial Pension Liability
2620  Actuarial Health Insurance Liability
2630  Actuarial Life Insurance Liability
2650  Actuarial FECA Liability
2690  Other Actuarial Liabilities
2910  Prior Liens Outstanding on Acquired Collateral
2920  Contingent Liabilities
2940  Capital Lease Liability
2960  Accounts Payable From Canceled Appropriations
2970  Liability for Capital Transfers to the General Fund of the Treasury
2985  Liability for Non-Entity Assets Not Reported on the Statement of Custodial Activity
2990  Other Liabilities Without Related Budgetary Obligations
2995  Estimated Cleanup Cost Liability

P.  Line 10. – Depreciation and Amortization. The depreciation and amortization for the period are not paid in cash and therefore require a positive adjustment to the net cash flow from operations. Include only the amount in the account associated with items that were funded by the DWCF activity.

6710  Depreciation, Amortization, and Depletion

Q.  Line 11. – Other Adjustments. The net of the period’s other non-cash related adjustments from its three subcategories in lines 11.a. through 11.c.

R.  Line 11.a. – Prior Period Adjustments. Enter prior period adjustments for the period that are not cash related transactions.

7400  Prior-Period Adjustments Due to Corrections of Errors
7401  Prior-Period Adjustments Due to Changes in Accounting Principles

S.  Line 11.b. – Non-Cash Transfers. Enter transfers in and transfers out for the period which are not cash related transactions.

5720  Financing Sources Transferred In Without Reimbursement
5730  Financing Sources Transferred Out Without Reimbursement

T.  Line 11.c. – Other. Enter current period amounts for the following accounts:

5790  Other Financing Sources

U.  Line 12. – Total Operating Adjustments. Sum of lines 2 through 11.
V. Line 13. – NOR Plus/Minus Operating Adjustments. Sum of lines 1 and 12.

W. Section Heading – CAPITAL ADJUSTMENTS. This section adjusts the cash flow for the impact of acquiring and disposing of property, plant and equipment and other assets used in the production of goods and services. Most sales within the DWCF are recorded as revenue and thereby included in line 1 of this statement. However, if an incoming cash flow is not a result of revenue, that cash flow should be identified within this section as either a result of a sale of property, plant and equipment or other cause. See Annex 4 of Volume 4, Chapter 6 for further guidance.

* X. Line 14. – (Increase) Decrease of Property, Plant and Equipment, Net. The net amounts of cash proceeds received from the sale of surplus real and personal property (i.e., buildings, docks and piers, and equipment) which adds to the DWCF cash balance and the amounts disbursed for acquisitions of plant, property, and equipment which reduces the DWCF cash balance.

1711 Land and Land Rights
1712 Improvements to Land
1719 Accumulated Depreciation on Improvements to Land

Y. **Section Heading - APPROPRIATIONS AND CASH TRANSFERS.** This section identifies the impact on cash flow from resources obtained in the form of appropriations from the Congress, or by transferring from or to other reporting entities. Appropriations may, or may not, be distributed to the individual activity level. If appropriations are not distributed, then they may be reported by the DWCF level that is holding those balances or allocated by that DWCF level, for reporting purposes, to the appropriate activity(ies).

Z. **Line 15. – Appropriations (Current Warrants).** The amount of appropriations received, net of rescissions, for the current fiscal year. Report the balances in the following accounts:

- 3101 Unexpended Appropriations - Appropriations Received
- 3102 Unexpended Appropriations - Transfers-In
- 3103 Unexpended Appropriations - Transfers-Out
- 3106 Unexpended Appropriations – Adjustments
- 3108 Unexpended Appropriations – Prior-Period Adjustments Due to Corrections of Errors
- 3109 Unexpended Appropriations – Prior-Period Adjustments Due to Changes in Accounting Principles

The total of Line 15, “Appropriations (Current Warrants)” shall agree with the total of the amounts reported on line 3.A.1. “Budgetary Authority, Appropriation, Actual” and line 6.B., “Enacted reductions (-) of the Standard Form 133, “Report on Budget Execution and Budgetary Resources”.

AA. **Line 16. – Transfers of Cash.** The net amounts of cash transferred to and from all Federal sources, except the Department of the Treasury. This line is the sum of the two sub categories in lines 16.a. and 16.b.

AB. **Line 16.a. – Transfers In.** The amount of cash transferred from all Federal sources, except the Department of the Treasury. Report cash transfers in from other Federal sources as an increase. The amounts to be reported are those related solely to transferred-in cash balances. A transfer of cash as a result of work performed (reimbursable sales) shall not be reported on this line.

- 5755 Nonexpenditure Financing Sources - Transfers-In - Other

This amount shall agree with the amount reported on Part II, line 1.D.(2)b. “Plus: Transfers In of Cash”.

AC. **Line 16.b. – Transfers Out.** The amounts of cash transferred to all Federal agencies, except the Department of the Treasury. Report cash transfers out to other Federal sources as a reduction. The amounts to be reported are those related solely to transferred-out cash balances. A transfer of cash as a result of work performed (reimbursable sales) shall not be reported on this line.
5765 Nonexpenditure Financing Sources - Transfers-Out - Other

This amount shall agree with the opposite amount reported on Part II, line 1.D.(2)c. “Minus: Transfers Out of Cash”.

AD. Line 17. – Total Appropriations and Cash Transfers. The net total of lines 15 and 16.

*AE. Line 18. – Repayments on Loans from the Treasury and the Federal Financing Bank. This item represents the amounts disbursed to liquidate loans from the Department of the Treasury, the Federal Financing Bank, or other Federal Agencies. This line applies only to the Military Sealift Command (MSC).

   2510 Principal Payable to the Bureau of the Public Debt
   2520 Principal Payable to the Federal Financing Bank

AF. Line 19. – Net Change in Cash For Accounting Period. The net total of lines 13, 14, 17 and 18.

AG. Line 20. – Fund Balance, Beginning. The sum total of the following account balances at the beginning of the fiscal year. Undistributed amounts will be reported at the lowest organizational level to which they can be identified.

   1010 Fund Balance with Treasury
   1110 Undeposited Collections
   1120 Imprest Funds
   1130 Funds Held by the Public
   1190 Other Cash
   1195 Other Monetary Assets
   1200 Foreign Currency
   1531 Seized Monetary Instruments
   1532 Seized Cash Deposited

Report the balance of the preceding September 30th, Statement of Cash Flows, line 21., “Fund Balance, Ending”. This amount will not change during the fiscal year.

AI. Section Heading – SUPPLEMENTAL DISCLOSURE OF CASH FLOW INFORMATION. Report additional information related to the statement of cash flow.

AJ. Line 22. – Total Interest Paid. Report the current year change to the following accounts:
2140  Accrued Interest Payable – Not Otherwise Classified
2141  Accrued Interest Payable – Debt
6310  Interest Expense on Borrowings from Bureau of Public Debt or Federal Financing Bank (if used by the Military Sealift Command)

1504. FORMAT OF THE STATEMENT OF OPERATIONS: PART I - STATEMENT OF OPERATIONS (FIGURE 15-3)

150401. General

Part I – Statement of Operations provides data on current operating results by DWCF business areas.

150402. Heading

Complete the heading of the form to indicate: (a) the reporting DoD Component, (b) the reporting DWCF business area or activity, (c) the reporting period (month), and (d) the calendar year.

150403. Line Item Instructions

Instructions for the content of each line item are as follows:

A. Section Heading – REVENUES AND FINANCING SOURCES

B. Line 1. – Appropriated Capital Used. Appropriations, primarily for War Reserve Material and Commissary Operations, may be provided directly to the DWCF. USSGL account 5700, Expended Appropriations is used to record an amount equal to accrued expenses (versus outlays) of appropriated funds provided directly to the Fund. The purpose of the account is to match current period expenses to the appropriated funds used to finance those expenses. The amounts to be recorded in account 5700 shall be equal to the amount of program expenses recorded in the 6100 series of accounts but shall not include any expenses applicable to revenue accounts other than account 5700. In other words, expenses incurred against an appropriation made directly available to the DWCF should be recorded separately from expenses incurred against ordinary DWCF reimbursable financing. Volume 4, Chapter 17 contains additional information on USSGL account 5700. Report the balance in the following account:

5700 Expended Appropriations

D. Line 2.a. – Gross Revenue from Sales. Report the balances in the following accounts:

5100 Revenue from Goods Sold
5200 Revenue from Services Provided

E. Line 2.b. – Minus: Credits Allowed on Sales. Reporting activities within the Supply Management business area shall report the dollar amount of credits allowed on
amounts due (accounts receivable) as a result of sales or Depot Level Repairable (DLR) exchanges. Report the balances in the following accounts:

5109 Contra Revenue for Goods Sold
5209 Contra Revenue for Services Provided

F. Line 3. - Other Revenue and Financing Sources. Report revenues and financing sources not reported on lines 1 or 2. Include cash donations. Identify the nature of each miscellaneous gain. Report the total recorded in the following accounts:

5310 Interest Revenue – Other
5319 Contra Revenue for Interest Revenue - Other
5320 Penalties and Fines Revenue
5324 Contra Revenue for Penalties and Fines
5325 Administrative Fees Revenue
5329 Contra Revenue for Administrative Fees
5400 Benefit Program Revenue
5409 Contra Revenue for Benefit Program Revenue
5500 Insurance and Guarantee Premium Revenue
5509 Contra Revenue for Insurance and Guarantee Premium Revenue
5600 Donated Revenue - Financial Resources
5609 Contra Revenue for Donations - Financial Resources
5610 Donated Revenue - Nonfinancial Resources
5619 Contra Donated Revenue - Nonfinancial Resources
5640 Forfeiture Revenue – Cash and Cash Equivalents
5649 Contra Forfeiture Revenue – Cash and Cash Equivalents
5650 Forfeiture Revenue – Forfeitures of Property
5659 Contra Forfeiture Revenue – Forfeitures of Property
5740 Appropriated Earmarked Receipts Transferred In
5745 Appropriated Earmarked Receipts Transferred Out
5750 Expenditure Financing Sources - Transfers-In
5755 Non-Expenditure Financing Sources – Transfers In – Other
5760 Expenditure Financing Sources - Transfers-Out
5765 Non-Expenditure Financing Sources – Transfers Out – Other
5766 Nonexpenditure Financing Sources – Transfers-Out – Capital Transfers
5775 Nonbudgetary Financing Sources Transferred In
5776 Nonbudgetary Financing Sources Transferred Out
5780 Imputed Financing Sources
5790 Other Financing Sources
5791 Adjustment to Financing Sources – Downward Reestimate or Negative Subsidy
5792 Financing Sources To Be Transferred Out – Contingent Liability
5795 Seigniorage
5900 Other Revenue
5909 Contra Revenue for Other Revenue
5993 Offset to Non-Entity Collections – Statement of Changes in Net Position
5994 Offset to Non-Entity Accrued Collections – Statement of Changes in Net Position
7110 Gains on Disposition of Assets – Other
7180 Unrealized Gains
7190 Other Gains

G. Line 4. – Total Revenue and Financing Sources. Report the total of lines 1 through 3. Revenue should equal net sales plus any other reimbursable revenue and financing source.

H. Section Heading – EXPENSES

I. Line 5. – Program or Operating Expenses (Supply and Service Activities). This line is a summary of expenses for the current period. It will equal the sum of Part IV – Expenses, lines A through J, minus Part III, line 1.F. “Plus: Operating Expenses” for Supply and Service Activities.

K. Line 7. – Other Losses. Amount reported on line K “Other Losses” of Part IV - Expenses.

L. Line 8. – Total Expenses. Sum of lines 5 through 7.

M. Section Heading – NET OPERATING RESULTS

N. Line 9. – Revenue Less Cost Incurred Before Extraordinary Items. The net amount of line 4 less line 8.

O. Line 10. – Plus (Minus) Extraordinary Items. Extraordinary items are both unusual in nature and infrequent in occurrence. Identify, as a footnote, the nature of each extraordinary gain or loss. Report the balance in the following account:

7300 Extraordinary Items

P. Line 11. – Net Operating Results (NOR). The sum of line 9 plus (or minus) line 10.

Q. Section Heading – NET OPERATING RESULTS FOR RATE PURPOSES
R. Line 12. – Plus (Minus) Deferred Operating Results and Depreciation (Part V). Report the sum of the amounts shown on lines 2 and 3 of Part V - Recoverable Operating Results. Amount will include the total deferred operating results and depreciation on non-DWCF acquired plant, property and equipment.

S. Line 13. – Recoverable Net Operating Results. The sum of line 11 plus (or minus) line 12.

1505. FORMAT OF THE STATEMENT OF OPERATIONS: PART II - CHANGES IN NET POSITION (FIGURE 15-4)

150501. General

Part II – Changes in Net Position, Figure 15-4, provides data on the current equity position of the DWCF.

150502. Heading

Complete the heading of the form to indicate: (a) the reporting DoD Component, (b) the reporting DWCF business area or activity, (c) the reporting period (month), and (d) the calendar year.

*150503. Line Item Instructions

Instructions for the content of each line item are as follows:

A. **Section Heading – Changes in Net Position**

B. **Section Heading – Unexpended Appropriations**

C. **Line 1.A.(1). – Appropriations Available-Beginning of Year.** Report the balance of appropriations available at the end of the preceding fiscal year (line 1.A.(3) on September 30 of the preceding fiscal year). The amount reported will not change during the fiscal year. The following account should be used:

   3100 Unexpended Appropriations - Cumulative

D. **Line 1.A.(2). – Plus or Minus: Changes in Appropriation Balance.** This is equal to the difference between the beginning of the fiscal year balance and the balance as of the end of the reporting period. The amount should be equal to the net sum of the following accounts:

   3101 Unexpended Appropriations - Appropriations Received
   3102 Unexpended Appropriations - Transfers-In
   3103 Unexpended Appropriations - Transfers-Out
   3106 Unexpended Appropriations - Adjustments
   3107 Unexpended Appropriations - Used
   3108 Unexpended Appropriations - Prior-Period Adjustments Due to Corrections of Errors
   3109 Unexpended Appropriations - Prior-Period Adjustments Due to Changes in Accounting Principles

E. **Line 1.A.(3). – Equals: Unexpended Appropriations – End of Period.** Report the net total of lines 1.A.(1) and 1.A.(2). The amount reported should agree with the
amount reported on line 15.a “Unexpended Appropriations” of the Statement of Financial Position.

F. **Section Heading – Accumulated Operating Results (AOR)**

G. **Section Heading – Recoverable AOR**

H. **Line 1.B.(1).a. – AOR Beginning of Year (Unadjusted).** Report the balance of recoverable AOR available at the end of the preceding fiscal year (line 1.B.(1).e. on September 30 of the preceding fiscal year). This amount will not change during the fiscal year. Report the amount of recoverable AOR contained in the following account:

3310 Cumulative Results of Operations

I. **Line 1.B.(1).b. – Plus or Minus: Prior Period Adjustments.** A credit balance is reported as a plus; a debit balance is reported as a negative. Report prior period adjustments related to recoverable AOR in the following accounts:

7400 Prior-Period Adjustments Due to Corrections of Errors
7401 Prior-Period Adjustments Due to Changes in Accounting Principles

K. **Line 1.B.(1).d. – Plus or Minus: Net Operating Results.** Report the amount shown on line 13 “Recoverable Net Operating Results”, of Part I – Statement of Operations.

M. **Section Heading – Deferred AOR**

N. **Line 1.B.(2).a. – AOR Beginning of Year (Unadjusted).** Report the balance of deferred AOR available at the end of the preceding fiscal year (line 1.B.(2).e on September 30 of the preceding fiscal year.) This amount will not change during the fiscal year. Report the amount of deferred AOR contained in the following account:

3310 Cumulative Results of Operations

O. **Line 1.B.(2).b. – Plus or Minus: Prior Period Adjustments.** A credit balance is reported as a plus; a debit balance is reported as a negative. Report prior period adjustments related to deferred AOR recorded in the following accounts:

7400 Prior-Period Adjustments Due to Corrections of Errors
7401 Prior-Period Adjustments Due to Changes in Accounting Principles

Q. Line 1.B.(2).d. – Plus or Minus: Net Operating Results. Report the opposite of the amount shown on Part V, Recoverable Operating Results, line 2, “Deferred Operating Results (Gain/Loss) Net”.

U. Section Heading – Invested Capital

V. Section Heading – Assets Capitalized

W. Line 1.D.(1).a. – Assets Capitalized – Beginning of Period. Report the portion of assets capitalized available at the end of the preceding fiscal year (line 1.D.(1).e on September 30 of the preceding fiscal year). This amount will not change during the fiscal year. Report the amount related to the asset capitalization program contained in the following account:

3310 Cumulative Results of Operations

X. Line 1.D.(1).b. – Plus: Transfers In of Property. Report the value of non-cash capital assets received without reimbursement. Report the portion related to non-cash capital transfers in the following account:

1506. FORMAT OF THE STATEMENT OF OPERATIONS: PART III - COST OF GOODS SOLD (FIGURE 15-5)

150601. General

Part III – Cost of Goods Sold, Figure 15-5, reflects all costs, including gains and losses, applicable to the production of goods and services sold to customers during the reporting period. The total of line 1.i., “Equals Cost of Goods & Services Sold”, or 2.o., “Equals: Cost of Goods Sold from Inventory” must agree with the amount shown on Part I -Statement of Operations, line 6, “Cost of Goods and Services Sold”.

150602. Heading

Complete the heading of the form to indicate: (a) the reporting DoD Component, (b) the reporting DWCF business area or activity, (c) the reporting period (month), and (d) the calendar year.

150603. Line Item Instructions

Instructions for the content of each line item are as follows:

A. Line 1 – Cost of Goods and Services Sold. This line is to be used by all WIP business areas. The Supply Management and Commissary Resale business areas shall use line 2 of this part to compute its cost of goods sold. Service business activities do not produce goods for sale and their operating expenses will be reported on Part I – Statement of Operations, line 6, “Cost of Goods and Services Sold”.

B. Line 1.a. – Beginning Work-in-Process. Enter the total of the balances in the following account at the end of the preceding reporting period. This amount will not change during the fiscal year, and will be the same as the amount on line 1.g, “Ending Work-in-Process” from the previous year’s September 30 report:

1526 Inventory - Work-in-Process

C. Line 1.b. – Plus/Minus: Prior Period Adjustments to Work-in-Process. Report the amount of increase or decrease to Inventory-Work-in-Process related to a prior period adjustment included in the following account:

7400 Prior-Period Adjustments Due to Corrections of Errors
7401 Prior-Period Adjustments Due to Changes in Accounting Principles

E. Line 1.d. - Minus: Transfers Out of Work-in-Process. Report the amount of Work-in-Process transferred out without reimbursement to another activity included in the following account:

5730 Financing Sources Transferred Out Without Reimbursement

F. Line 1.e. – Plus: Transfers In of Work-in-Process. Report the amount of Work-in-Process transferred in without reimbursement from another activity included in the following account:

5720 Financing Sources Transferred In Without Reimbursement

G. Line 1.f. – Plus: Operating Expenses. Enter the total of the amounts reported on Part IV, “Expenses”, lines A. through I.

H. Line 1.g. – Minus: Ending Work-in-Process. Enter the total of the balance in the following account as of the end of the current reporting period:

1526 Inventory – Work-in-Process

I. Line 1.h. – Minus: Work for Activity Retention. Report the value of assets developed or manufactured for use and retention by the performing business area activity. Enter the balance in the following accounts:

6500 Cost of Goods Sold

J. Line 1.i. Equals: Cost of Goods and Services Sold. Report the net total of lines 1.c. through 1.h.

K. Line 2. – Cost of Goods Sold from Inventory. This category of costs is reported only by the Supply Management and Commissary Resale Business Areas.

*NOTE: The Statement of Federal Financial Accounting Standards Number 3, “Accounting for Inventory and Related Property” sets forth the accounting principles that shall be followed by Federal Government entities when accounting for and reporting inventory and related property. An illustration of the DoD implementation of those principles is contained in Volume 4 Chapter 4, “Inventory and Related Property” of this Regulation (for DoD Components recording inventory at its latest invoice price). The referenced illustrations demonstrate the application of inventory related accounts and must be read to more fully understand the reporting requirements contained in section 2 of Part III - Cost of Goods Sold.

L. Line 2.a – Beginning Inventory – LAC. Report the balance as shown on line 2.i “Minus: Ending Inventory - LAC” on September 30 of the preceding fiscal year, as this amount will not change during the fiscal year. LAC is “Latest Acquisition Cost.”

1521 Inventory Purchased for Resale
1522 Inventory Held in Reserve for Future Sale
1523 Inventory Held for Repair
1524 Inventory – Excess, Obsolete, and Unserviceable
1525 Inventory – Raw Materials
1527 Inventory – Finished Goods

M. **Line 2.b. – Plus/Minus: Prior Period Adjustments to LAC Inventory.** Report the portion of the amount from the following account as it relates to LAC inventory adjustments:

7400 Prior-Period Adjustments Due to Corrections of Errors
7401 Prior-Period Adjustments Due to Changes in Accounting Principle

N. **Line 2.c. – Equals: Adjusted Beginning Inventory-LAC.** Report the net total of lines 2.a and 2.b.

O. **Line 2.d. – Minus: Beginning Allowance for Unrealized Holding Gains (Losses).** Report the balance as shown on line 2.j. “Plus: Ending Allowance for Unrealized Holding Gains/Losses” on September 30 of the preceding fiscal year, as this amount will not change during the fiscal year. Holding gains (or losses) are recognized in the valuation of inventory. Holding gains or losses may be unrealized or realized. “Unrealized” refers to any gain or loss associated with inventory still held by the entity. “Realization” of the holding gain or loss occurs only when an item of inventory is sold or otherwise leaves the supply management stocking point.

P. **Line 2.e. – Plus: Purchases at Cost.** Report amounts paid or payable for all inventory purchases during the reporting period in the following account:

1529 Inventory Allowance (Purchased at Cost)

Q. **Line 2.f. – Plus: Customer Returns – Credit Given.** Report amounts of credit given on materiel returns in the following account:

1529 Inventory Allowance (Customer Returns-Credit Granted)

R. **Line 2.g. – Plus: DLR Exchange Credits.** Report the amounts of credits given on DLR exchanges in the following account:

1529 Inventory Allowance (DLR Exchange Credit)

S. **Line 2.h. – Minus: Inventory Losses (Gains) Realized.** The realization of most inventory gains (and losses) are recognized through reduction of the unrealized holding gains/losses accounts as a result of sales; that is, those gains and losses are realized when inventory items are sold and are recognized in the cost of good sold. However, decreases in inventory occurring as a result of disposal and events other than sale also result in a reduction of the unrealized holding gains/losses accounts. As those inventory decreases are not the result of
sales, they should not affect the cost of goods sold. Therefore, the value of those losses shall be removed from the cost of goods sold and reported on Part IV – Expenses, line K.4, “Net Other Inventory (Gains) Losses”.

7210  Losses on Disposition of Assets – Other
7290  Other Losses

T. Line 2.i. – Minus: Ending Inventory – LAC. Report the end of period inventory value of the following accounts:

1521  Inventory Purchased for Resale
1522  Inventory Held in Reserve for Future Sale
1523  Inventory Held for Repair
1524  Inventory – Excess, Obsolete, and Unserviceable
1525  Inventory – Raw Materials
1527  Inventory – Finished Goods

U. Line 2.j. – Plus: Ending Allowance for Unrealized Holding Gains (Losses). Report the total of balances in the following account:

1529  Inventory – Allowance

V. Line 2.k. – Minus: Transfers Out of Inventory at LAC. Report the portion of the following account that relates to inventory maintained at LAC, which was transferred out of the activity.

5730  Financing Sources Transferred Out Without Reimbursement

W. Line 2.l. – Plus: Transfers In of Inventory at LAC. Report the portion of the following account that relates to inventory maintained at LAC, which was transferred in to the activity.

5720  Financing Sources Transferred In Without Reimbursement

X. Line 2.m. – Equals: Cost of Goods Sold at LAC. Report the net total of lines 2.c. through line 2.l.

Y. Line 2.n. – Plus: Cost of Goods Sold at MAC. Report the amount of the following account as was reported from activities maintaining inventory at MAC value.

6500  Cost of Goods Sold

Z. Line 2.o. – Equals: Cost of Goods Sold from Inventory. Report the net total of lines 2.m. and 2.n.

1507. FORMAT OF THE STATEMENT OF OPERATIONS: PART IV - EXPENSES (FIGURE 15-6)

150701. General

Part IV – Expenses, Figure 15-6, reflects all expenses incurred during the reporting period. The total of lines A thru I should agree, except for rounding, with the amount shown on Part I – Statement of Operations, Line 5 “Program or Operating Expenses (Supply and Service Activities)” for Supply and Service Activities or Part III – Cost of Goods Sold, line 1.f. “Plus: Operating Expenses” for all other activities.

150702. Heading

Complete the heading of the form to indicate: (a) the reporting DoD Component, (b) the reporting DWCF business area or activity, (c) the reporting period (month), and (d) the calendar year.

150703. Line Item Instructions

Instructions for the content of each line item are as follows:

B. Line A.1. – Personnel Compensation. Report the total amount of expense related to personnel compensation. Include the amount of the following account as it relates to personnel compensation.

   6100 Operating Expenses/Program Costs

C. Line A.2. – Annual Leave. Report the total amount of expense related to annual leave. Include the amount of the following accounts related to annual leave.

   6100 Operating Expenses/Program Costs
   6800 Future Funded Expenses

D. Line A.3. – Personnel Benefits. Report the total amount of expense related to personnel benefits. Include the amount of the following accounts related to personnel benefits.

   6100 Operating Expenses/Program Costs
   6400 Benefit Expense
   6850 Employer Contributions to Employee Benefit Programs not Requiring Current-Year Budget Authority (Unobligated)
   7600 Changes in Actuarial Liability
E. **Line A.4. – Benefits for Former Personnel.** Report the total amount of expense related to benefits for former personnel. Include the amount of the following accounts related to benefits for former personnel.

   6100  Operating Expenses/Program Costs
   6400  Benefit Expense

F. **Line B. – Travel and Transportation.** Report the amount of expense related to travel and transportation. Report the net total of sub-lines B.1 and B.2.

G. **Line B.1. – Travel and Transportation of People.** Include the amount of the following account related to travel and transportation of persons.

   6100  Operating Expenses/Program Costs

H. **Line B.2. – Transportation of Things.** Include the amount of the following account related to travel and transportation of things.

   6100  Operating Expenses/Program Costs

I. **Line C. – Rents, Communications and Utilities.** Report the amount of expense related to rents, communications, utilities, and printing and reproduction. Report the net total of sub-lines C.1 and C.2.

J. **Line C.1. – Rents, Communications and Utilities.** Include the amount of the following account related to rents, communications and utilities.

   6100  Operating Expenses/Program Costs

K. **Line C.2. – Printing and Reproduction.** Include the amount of the following account related to printing and reproduction.

   6100  Operating Expenses/Program Costs

L. **Line D. – Contractual Services.** Report the amount of expense related to military personnel services and other contractual services. Report the net total of sub-lines D.1 and D.2.

M. **Line D.1. – Military Personnel Services.** Include the amount of the following account related to military personnel.

   6100  Operating Expenses/Program Costs

N. **Line D.2. – Purchased Services.** Include the amount of the following account related to purchased services.
6100 Operating Expenses/Program Costs

O. Line E. – Supplies, Materials and Other Non-Capitalized Assets. Report the amount of expense related to supplies, materials and other non-capitalized assets. Report the net total of sub-lines E.1 and E.2.

P. Line E.1. – Supplies and Materials. Include the amount of the following account related to supplies and materials.

6100 Operating Expenses/Program Costs

Q. Line E.2. – Equipment. Include the amount of the following account related to equipment (not capitalized).

6100 Operating Expenses/Program Costs

R. Line F. – Grants and Fixed Charges. Report the amount of expense related to grants, subsidies, contributions, insurance, claims, and indemnifications. Report the net total of sub-lines F.1 through F.3

S. Line F.1. – Grants and Contributions. Include the amount of the following accounts related to grants, subsidies and contributions.

6100 Operating Expenses/Program Costs

T. Line F.2. – Insurance Claims and Indemnifications. Include the amount of the following account related to insurance claims and indemnifications.

6100 Operating Expenses/Program Costs

U. Line F.3. – Other Interest Expenses. Report the balances in the following accounts:

6310 Interest Expenses on Borrowing From the Bureau of the Public Debt and/or the Federal Financing Bank
6330 Other Interest Expenses

V. Line G. – Other Expenses. Report amounts that do not coincide to the description of the other elements of expense and identify the type of expense reported in this line.

6100 Operating Expenses/Program Costs
6600 Applied Overhead
6610 Cost Capitalization Offset
6730 Imputed Costs
6790 Other Expenses Not Requiring Budgetary Resources
6800  Future Funded Expenses
6850  Employer Contributions to Employee Benefit Programs Not Requiring Current-Year Budget Authority (Unobligated)
6900  Non-production Costs

W.  **Line H. – Depreciation.** Include the amount of depreciation to be recouped to the operating budget of the activity. Report the net total of sub-lines H.1 through H.3

X.  **Line H.1. – Depreciation of Equipment.** Include the amount of the following account related to depreciation of equipment.

6710  Depreciation, Amortization, and Depletion

Y.  **Line H.2. – Depreciation of Real Property.** Include the amount of the following account related to depreciation of real property.

6710  Depreciation, Amortization, and Depletion

Z.  **Line H.3. – Amortization of Leasehold Improvements and Other Intangible Assets.** Include the amount from the following account(s) related to amortization of leasehold improvements and other intangible assets.

6710  Depreciation, Amortization, and Depletion

AA.  **Line I. – Depreciation – Non-DWCF Acquired PP&E.** The amount of depreciation on Plant, Property and Equipment acquired by the activity with funds other than DWCF Revolving Funds. Report the net total of sub-lines I.1 through I.3

AB.  **Line I.1. – Non-Recoverable Depreciation of Equipment.** Include the amount of the following account related to depreciation of equipment acquired by the activity with funds other than DWCF Revolving Funds.

6710  Depreciation, Amortization, and Depletion

AC.  **Line I.2. – Non-Recoverable Depreciation of Real Property.** Include the amount of the following account related to depreciation of real property acquired by the activity with funds other than DWCF Revolving Funds.

1508. FORMAT OF THE STATEMENT OF OPERATIONS: PART V - RECOVERABLE OPERATING RESULTS (FIGURE 15-7)

150801. General

Part V – Recoverable Operating Results, Figure 15-7, is intended to disclose differences, if any, between net operating results reported on Part I, - Statement of Operations, and the operating results used in the budget formulation of stabilized billing rates. As a matter of policy, any amounts that a DoD Component requests be excluded from its DWCF rates—whether identified in the Office of the Under Secretary of Defense (Comptroller) guidance as permissible or requested by the DoD Component—must be adequately documented and quantified. Further, all such amounts must be approved by the Office of the Under Secretary of Defense (Comptroller). Amounts not explicitly approved by the Office of the Under Secretary of Defense (Comptroller) for exclusion from customer rates shall be excluded from this report.

150802. Heading

Complete the heading of the form to indicate: (a) the reporting DoD Component, (b) the reporting DWCF business area or activity, (c) the reporting period (month), and (d) the calendar year.

150803. Line Item Instructions

Instructions for the content of each line item are as follows.

A. Line 1 – Net Operating Results (NOR). Enter the amount reported on Part I – Statement of Operations, line 11, “Net Operating Results (NOR).”

B. Line 2 – Deferred Operating Results (Gains/Losses) Net.

1. Data reported on this line and its sublines, unless otherwise specified below, are restricted to specific exclusions approved by the Office of the Deputy Comptroller (Program/Budget).

2. These exclusions shall include those amounts determined by the reporting Agency to be adjustments for the difference between the historical and latest acquisition costs for inventory valuation. This difference is attributed to the value of inventory reflected in the COGS at historical cost versus the value of inventory at latest acquisition cost. This difference must be reflected on the AR 1307 to adjust the NOR to Net Recoverable Operations Results based on replacement costs that preserve the Working Capital Funds ability to replenish stock.

3. Amounts to be reported on monthly activity reports should be obtained from, or approved by, the activity, management command of the reporting business area or the DoD Component departmental level. Report the net total of lines 2.a through 2.g.
C. **Line 2.a – Net (Gains) Losses on Disposal of Excess Inventory.** This line applies only to supply management business areas. Report those losses on potential excess/actual inventory for which an exclusion has been approved by the Office of the Deputy Comptroller (Program/Budget). Report the amount of gains/losses on the disposal of excess inventory as reported in the following accounts:

- 7110 Gains on Disposition of Assets – Other
- 7190 Other Gains
- 7210 Losses on Disposition of Assets – Other
- 7290 Other Losses

D. **Line 2.b – Disposal of Equipment/Capital Assets.** Report losses (or gains, if applicable) realized upon the disposal of excess equipment and other capital assets when the Office of the DoD Comptroller (Program/Budget) has approved the exclusion. NOTE: Losses on excess equipment and other capital assets disposed of as a result of base closure shall not be reported on this line but shall, instead, be reported on line 2.c. Report the amount of losses related to the disposal of equipment and capital assets as reported in the following accounts:

- 7110 Gains on Disposition of Assets – Other
- 7210 Losses on Disposition of Assets – Other

E. **Line 2.c – Non-Reimbursable Base Closure (BRAC) Costs.** Report losses (or gains, if applicable) in excess of reimbursement directly resulting from a base closure when the Office of the Deputy Comptroller (Program/Budget) has approved the exclusion. Report the amount of gains/losses related from BRAC costs as reported in the following accounts:

- 7110 Gains on Disposition of Assets – Other
- 7190 Other Gains
- 7210 Losses on Disposition of Assets – Other
- 7290 Other Losses

F. **Line 2.d – Capital Asset Surcharge.** Capital asset surcharge amounts, positive or negative, included in revenue will be adjusted to avoid either the return of an apparent gain or loss in the development of the subsequent year rate structure. This line is left blank when there is no capital surcharge revenue. A capital asset surcharge shall be included in customer rates only if approved by the Office of the Deputy Comptroller (Program/Budget). A capital asset surcharge might be approved when the amount of depreciation expense of existing capital assets included in stabilized rates is either less or greater than the budgeted Capital Program. As the capital asset surcharge does not have an offsetting expense, in isolation from other transactions, it would be anticipated to result in a gain (or loss) to net operating results. That gain/loss must be deducted from Net Operating Results to prevent its return or charge to customers in subsequent years through stabilized rates that are lower than they would be otherwise. Capital asset surcharge amounts may be reported without the prior approval of the Office of the Deputy Comptroller (Program/Budget). See Annex 4 of Volume 4, Chapter 6 for further guidance. Report the amount of revenue related to capital asset surcharges as reported in the following accounts:
G. **Line 2.e – Cash Surcharge.** Similar to capital asset surcharges, activities may include a cash surcharge in their rates. Report the amount of revenue related to cash surcharges as reported in the following accounts:

- 5100 Revenue From Goods Sold
- 5200 Revenue From Services Provided

H. **Line 2.f – Inventory Replenishment.** The difference between the historical and latest acquisition costs for inventory valuation. Report the amount of revenue related to inventory replenishment as reported in the following accounts:

- 5100 Revenue From Goods Sold

I. **Line 2.g – Other Approved Gains and Losses (Must Be Footnoted).** Report any other approved gain or loss not already identified. May include, but is not limited to the following accounts:

- 5100 Revenue From Goods Sold
- 5700 Expended Appropriations
- 6710 Depreciation, Amortization, and Depletion
- 7110 Gains on Disposition of Assets - Other
- 7190 Other Gains
- 7290 Other Losses

K. **Line 4 – Net Recoverable Operating Results from Current Year Operations.** Report the net total of lines 1 through 3.

*150804. **Year End Procedures**

At fiscal year end, the Net Operating Results is closed to Cumulative Results of Operations. Since part of that amount may be a non-recoverable deferred amount and an amount related to depreciation for non-DWCF acquired PP&E, those amounts should be separately identified in financial records. These amounts should be identified with attributes.

A. **The amount reported on Line 2, “Deferred Operating Results (Gains/Losses) Net” should be the opposite of Part II – Changes in Net Position, Line 1.B.(2).d.**
“Plus or Minus: Net Operating Results” during the fiscal year and closed to deferred Cumulative Results of Operations during the year-end close process. The amount on Line 3, “Depreciation, Non-DWCF Acquired PP&E” should be reported on Part II – Changes in Net Position, Line 1.D.(1).d “Minus: Depreciation, Non-DWCF Acquired PP&E” during the fiscal year and closed to “Assets Capitalized – Beginning of Period” during the year end close process. The amount on Line 4, “Net Recoverable Operating Results from Current Year Operations” should be reported on Part II – Changes in Net Position, Line 1.B.(1).d. “Plus or Minus: Net Operating Results” during the fiscal year and closed to Cumulative Results of Operations – Recoverable during the year end close process.

1509. FORMAT OF THE STATEMENT OF OPERATIONS: PART VI – CAPITAL PROGRAM (FIGURE 15-8)

150901. General

A. Part VI – Capital Program, Figure 15-8, reflects the program, obligations, and outlays for each fiscal year of the program. A capital asset for this report must meet the Working Capital Fund Investment Threshold for the program year reported and have a useful life of 2 years or greater.

B. For reporting these amounts, the reporting period is defined as the year to date amounts, i.e., amounts reported since the end of the prior fiscal year to the end of the reporting month shown in the heading.

150902. Heading

Complete the heading of the form to indicate: (a) the reporting DoD Component, (b) the reporting DWCF business area or activity (c) the reporting period (month), and (d) the calendar year.

150903. Columnar Instructions

The contents of the columns should be as follows:

A. Program Year (Column 1). Separate fiscal year program identification is required. All prior fiscal years must be separately identified until all obligations and outlays for the approved program have been fully concluded. The fiscal year programs will be arranged in consecutive order, starting with the least current fiscal year program.

B. Approved Program - Original Program (Column 2). The original program amount will be capital authority approved for the reporting fiscal year on the initial Annual Operating Budget (AOB) for the fiscal year. Carryover from prior fiscal years is already reported as part of the initial program for that year. The amount reported should not change in subsequent years. Changes in the Capital Program amounts are shown in “Program Adjustments” (Column 3).

C. Approved Program - Program Adjustments (Column 3). Amounts included in this column shall be adjustments (generally, deductions) to the initial approved Capital Program amounts. Adjustments to the initial approved program amounts are disclosed in the AOBs for a subsequent program year. The amount reported in this column may change annually as of the beginning of a fiscal year, but should not change during a fiscal year except at year-end. The amount reported in this column will change at the end of each fiscal year to allow the value of Current Program (column 4) to equal the amount of Obligations-Total (column 7).

D. Approved Programs - Current Program (Column 4). This is the sum of the original program (column 2) and program adjustments (column 3). These amounts will be subject to the provisions of 31 U.S.C. 1517 (a), “Prohibited Obligations and Expenditures”.

31 U.S.C. 1517 (a)
E. **Obligations – This Fiscal Year (Column 5).** Amounts included in this column shall be the total amount of obligations incurred in the current fiscal year.

F. **Obligations – Prior Fiscal Year(s) (Column 6).** Amounts included in this column shall be the cumulative amount of obligations (Column 7) as of the end of the prior fiscal year. The amount reported should not change during the reporting fiscal year.

G. **Obligations – Total (Column 7).** This is the sum of Obligations-Current Fiscal Year (column 5) and Obligations-Prior Fiscal Year(s) (column 6). The amount reported in Column 4 “Current Program” must be greater than or equal to the amount reported in column 7 “Obligations Total”.

H. **Outlays – This Fiscal Year (Column 8).** Amounts included in this column shall be the total amount of outlays incurred in the current fiscal year.

I. **Outlays – Prior Fiscal Year(s) (Column 9).** Amounts included in this column shall be the cumulative amount of outlays (Column 10) as of the end of the prior fiscal year. The amount reported should not change during the reporting fiscal year.

J. **Outlays – Total (Column 10).** This is the sum of Outlays-Current Fiscal Year (column 8) and Outlays-Prior Fiscal Year(s) (column 9). The amount reported in Column 7 “Obligations Total” must be greater than or equal to the amount reported in column 10 “Outlays Total”.
