

**SUMMARY OF MAJOR CHANGES TO
DOD 7000.14-R, VOLUME 2B, CHAPTER 6
“MILITARY CONSTRUCTION/FAMILY HOUSING APPROPRIATIONS”**

All changes are denoted by [blue font](#)

Substantive revisions are denoted by a * preceding the section,
Paragraph, table or figure that includes the revision

Hyperlinks are denoted by [underlined, bold, italic, blue font](#)

PARA	EXPLANATION OF CHANGE/REVISION	PURPOSE
Overall	Format Changes and update room locations	Update
060202	Includes description of Family Housing sub-accounts under Operations, and subordinate accounts for Leasing and Utilities.	New
060301	Includes clarification on incremental funding of a construction project.	Update
060302	Includes guidance and revised “Inventory and Condition of Government-owned Family Housing Units Exhibit” (FH-11), which replaces the “Summary of Inadequate Unit Elimination” Exhibit (FH-7).	New
060302	Updates Military Construction Project Data - DD Form 1391 information requirements.	Update
060302	Includes guidance and new “Privatized GFOQ Operation, Maintenance and Repair Costs Incurred by Private Sector Developer/Partner/Owner Exceeding \$50K per Housing Unit” Exhibit (FH-12)	New
060302	Provides updated lease limitations.	Update
060403	Paragraph E clarifies Defense Agencies requirement to list all projects funded in the FYDP.	Update
060307	Adds Unaccompanied Housing (UH) guidance and budget exhibits.	New

CHAPTER 6

MILITARY CONSTRUCTION/FAMILY HOUSING APPROPRIATIONS0601 GENERAL060101. Purpose

A. This chapter provides instructions applicable to budget formulation and congressional justification for Military Construction, Family Housing, Homeowners Assistance and North Atlantic Treaty Organization (NATO) Security Investment Program appropriations.

B. The following appropriations and accounts are covered:

Section

- 060201: Military Construction
Military Construction, Army
Military Construction, Navy and Marine Corps
Military Construction, Air Force
Military Construction, Defense-Wide
Military Construction, Army National Guard
Military Construction, Air National Guard
Military Construction, Army Reserve
Military Construction, Navy Reserve
Military Construction, Air Force Reserve
Chemical Demilitarization Construction, Defense
- 060202: Family Housing
Family Housing, Army
Family Housing, Navy and Marine Corps
Family Housing, Air Force
Family Housing, Defense-Wide
- 060203: Homeowners' Assistance
Homeowners' Assistance Fund, Defense
- 060304: NATO Security Investment Program
- 060305: NATO Security Investment Program
NATO Enlargement
- 060306: Family Housing Improvement Fund

060102. Submission Requirements

General guidance with regard to submission requirements is presented in [Volume 2A, Chapter 1](#) of this Regulation. This chapter covers specific back-up material requirements for the above accounts. The above appropriations/accounts should also submit any applicable exhibits required in [Volume 2B, Chapter 19](#) of this Regulation – Other Special Analyses.

060103. Preparation of Material

General guidance with regard to format and preparation of material is presented in Volume 2A, Chapter 1 of this Regulation. This chapter provides additional specific guidance with regard to the back-up material required for Military Construction, Family Housing Homeowners Assistance and NATO Security Investment Program appropriations.

060104. References

[Volume 2A, Chapter 1](#), section 010212 of this Regulation provides policies and definitions concerning costs that are to be financed by the Military Construction appropriations as opposed to other appropriations for Research and Development facilities.

060105. Family Housing Program Policies and GuidelinesA. Purpose

1. This section outlines the service aspects of the Family Housing Program; establishes policies and guidelines for program financial management, budgeting, accounting, and reporting; and assigns responsibilities for executing the program. Specific procedures for the administration and management of program funds are set forth in section 060106, below.

2. The Family Housing Program encompasses Military Family Housing as defined and authorized by the provisions of [Title 10, United States Code \(U.S.C.\), Chapter 169](#), and includes all Department of Defense (DoD) Component family housing in the Defense Family Housing Property Account, leases of real property utilized by DoD Components for family housing, and associated family housing support services programs.

B. Policy

1. It is DoD Policy: 1) to provide Military Family Housing for military families and for eligible civilian families only when suitable housing in the community does not exist; 2) to provide for the housing and support services, as authorized by law, that are necessary to meet the requirements of the DoD; 3) that the program shall be financed and managed in the most cost effective and efficient manner possible in order to support these requirements and to maximize the use of available program resources; 4) that the program shall include the provision of assistance to all military personnel and certain eligible civilians in

locating and utilizing privately owned housing including leasing; 5) that the program shall include, within available resources, the provision of Government-owned or leased family housing and furnishings (referred to as Defense Family Housing Property); and 6) that the program shall include the efficient and effective financial and program management of Defense Family Housing Property, including acquisition, privatization, operation, improvement, maintenance, debt financing, leasing, and family housing support programs.

C. Responsibilities

1. The Under Secretary of Defense for Acquisition, Technology and Logistics (USD (AT&L)) is responsible for program management as set forth in [DoD Instruction 4165.63, "DoD Housing,"](#) dated July 21, 2008 and DoD 4165.63-M, "DoD Housing Management," manual dated October 28, 2010, which also addresses Unaccompanied Housing. The Under Secretary of Defense (Comptroller) (USD(Comptroller)) is responsible for financial management, program budget policies, program accounting policies, and financial reporting. As prescribed by the USD (Comptroller), the Director, Defense Finance and Accounting Service, is responsible for central accounting and financial reporting for the program. The Secretaries of the Military Departments and the Directors of the Defense Agencies, as prescribed by DoD Directive 4165.63, are responsible for execution of the program for personnel under their respective jurisdictions, including program and financial management, accounting and reporting.

2. In the financial management and execution of the program, DoD Components shall conduct program budget formulation, presentation, and execution in accordance with the guidance and provisions contained in this chapter and adhere to the program accounting and financial reporting guidance and provisions contained in [Volume 4](#) of this Regulation.

D. Objectives and Procedures

1. This section outlines the objectives and procedures of the Family Housing Program and is divided into the following subsections: assistance in locating and utilizing privately owned family housing; Defense Family Housing Property; and, management of Defense Family Housing Property.

a. Assistance in Locating and Utilizing Privately Owned Family Housing. Assistance provided to DoD personnel to obtain privately owned family housing under the program includes privatized housing referral service including administration of private rental housing for DoD personnel overseas; DoD leasing of private housing; rental guarantee payments pursuant to Public Law 88-174, section 507, Military Construction Authorization Act, 1964 as amended and; service members' mortgage insurance payments on their privately owned housing made pursuant to [Title 12, United States Code \(U.S.C.\), Chapter 13, section 1701](#), the National Housing Act, as amended.

b. Defense Family Housing Property. All DoD-owned or DoD-controlled physical property described below will be managed and controlled under the

Family Housing Program. The properties will be recorded in a property account entitled the Defense Family Housing Property Account, [which should be fully consistent with the DoD Real Property Inventory and Select & Native Programming \(SNaP\) databases](#). Guidance for the maintenance of property accounting records is contained in [Volume 4](#) of this Regulation. A continuing permanent accounting record will be maintained of the real property included in each installation's Family Housing Property Account. Appropriate classifications will be entered on the records to distinguish between real and personal property. Property will be removed from the Defense Family Housing Property account when the property is disposed of as (DoD property), when it is transferred to DoD non-family housing use. The Report Control Symbol assigned to the special record keeping requirements is DD-COMP (AR)1501.

(1) The Defense Family Housing Property Account includes the following properties, under the jurisdiction of the DoD, to which the Government has a right, title, or interest, with exceptions noted in paragraph 060105D.1.b.(2) below.

(a) All types of family dwelling units and mobile home park facilities, without regard to the military status of the occupant and including housing that is: located on or off station, owned or leased, occupied or unoccupied; situated in dispersed locations or in community-type areas; located at an active, inactive, standby, or reserve facility; or, operated or maintained by the Government, directly or by contract.

(b) Non-dwelling buildings directly associated with family dwelling units or a family housing area, including structures outside the housing area required solely for family housing support.

(c) Roads, driveways, walks, and utility systems which primarily serve family housing units or areas.

(d) The grounds area of a group of family housing units and the yards of dispersed family housing units or areas.

(e) Community facilities which are integral to a family housing area and are available for use only by family housing area residents and their house guests.

(f) Fixtures and other appliances or equipment in a housing unit that are either integral components or movable items, such as: refrigerators, kitchen ranges and, when authorized, food freezers, room air- conditioners, washing machines, clothes dryers, dishwashing machines, garbage disposals, exhaust fans, roof or attic television antennas; and those appliances provided for family housing rented privately by DoD personnel in areas outside the conterminous United States, pursuant to DoD 4165.63-M.

(g) Furniture, furnishings, and other personal property that are directly associated with providing and supporting family housing units, including personal property provided for use outside the conterminous United States, pursuant to

DoD 4165.63-M.

(2) The Defense Family Housing Property Account excludes the following properties, irrespective of the Government's right, title, or interest therein:

(a) Aerial roads, public walks, utility lines, and utility mains that may pass through or in front of family housing locations but serve those locations as an incidental or secondary purpose to other station requirements.

(b) Facilities similar to hotels or motels, which are provided for temporary family occupancy.

(c) Community facilities which are not integral to a family housing area or are available for use by other than family housing area residents and their house guests.

(d) Educational facilities.

(e) Telephone and other communication facilities for official use, and telephone facilities for unofficial use, installed in a family housing unit.

(f) Community Antenna Television distribution service by other Government agency, commercial cooperative, or private enterprise.

(g) Properties financed by and supporting the Defense Security Assistance Program.

(h) Food service facilities.

(i) Facilities used primarily for religious services or religious activities.

c. Management of Defense Family Housing Property. Management undertakings, which arise in connection with the DoD responsibility for and jurisdiction over Defense Family Housing Property, include:

(1) The acquisition, privatization, construction, and replacement of family housing facilities and the preliminary planning and design studies on prospective projects, including housing requirement surveys.

(2) The conversion of other real property facilities to family housing quarters.

(3) The upgrading to “adequate public quarters” of those family dwelling units designated as rental, substandard, or inadequate.

(4) The alteration of, or addition, expansion, or extension to, family housing facilities.

(5) The outfitting of family housing facilities, as defined in paragraph 060105D.1.b above, with fixtures and other equipment that are either integral components or movable items of major equipment of a housing unit, including major appliances; and furniture, furnishings, and other personal property. This function includes maintenance and repair.

(6) The maintenance and repair of family housing facilities.

(7) The furnishing of the following services to family housing facilities: utilities services, except telephone service and cable television; refuse collection and disposal; insect and rodent control; snow removal; handling and moving Government-owned furnishings; police and fire protection; and, administrative, supervisory and clerical services related to the performance of services rendered the family housing facilities.

(8) The maintenance and security of family housing property declared excess to DoD needs, which rests with the DoD Component until the Department of Defense is relieved of this responsibility. The following rules and principles apply:

(a) If the property is being disposed of by the General Services Administration (GSA), the transfer of financial responsibility to GSA will be in accordance with Federal Property Management Regulations, Part 101-47, 402.

(b) When the Department of Defense recommends to GSA that disposal of excess property be delayed because of economic considerations and a contract has been made with a local agency to rent the property and to protect and maintain it, the residual financial responsibility for maintenance and security rests with the Department of Defense.

(c) It has been agreed with the GSA that, in interpreting property disposal regulations, the Department of Defense will be deemed to have declared the property excess to GSA on the date that the protection and maintenance contact is discontinued.

060106. Family Housing Procedures for Administration and Management of Program Funds

A. Purpose

This section outlines the procedures for the administration and management of funds appropriated or otherwise made available to the DoD for the Family Housing Program including: authorized reimbursements; application of proceeds from sales or handling of excess family housing for debt service; administration of separate “fixed year” and “annual” accounts; and clarification and amplification of certain financial administration procedures.

B. Treasury Accounts

1. For construction and improvement of family housing facilities, funds are appropriated to remain available for five years. For Operation and Maintenance (O&M) of family housing facilities, funds are appropriated with annual account limitations. These and other funds made available for family housing are administered under the Treasury accounts outlined in [Volume 2A, Chapter 1](#), section 010603 of this Regulation.

C. Financing the Family Housing Program

1. The Family Housing Program will be financed from:
 - a. Those funds primarily appropriated for family housing purposes.
 - b. Authorized reimbursements and collections from housing rentals and services furnished as set forth below:
 - (1) Charges will be made for rentals and services furnished certain occupants or users of family housing facilities. The amount of rent charged shall be determined in accordance with the provisions of DoD 4165.63-M. Disposition of the proceeds of handling or disposal of excess family housing property is treated in subparagraph 060106.C.1.c, below.
 - (2) Those collections for rents and services which will be utilized to finance family housing expenses in accordance with applicable statutes are listed below. Such reimbursements will be utilized within the financial authority issued by the Office of the Under Secretary of Defense (Comptroller) OUSD (Comptroller) but limited to the amount of reimbursements earned.
 - (3) [Collections](#) received for rental of Defense housing shall be utilized within the applicable DoD Component family housing account to defray O&M expenses. If the housing is rented with Government furniture provided, the combined total charge for shelter rent and furniture rent shall be treated as indicated above.
 - (4) [Collections](#) from the sale of utilities and services will be utilized within the appropriation currently available for the supply of that utility or service in accordance with the authority set forth in [Title 10, United States Code \(U.S.C.\), section 2686](#).

(5) Collections from other agencies related to O&M charges pursuant to Title 31 United States Code, section 686 will be effected.

(6) When nonexcess family housing property is leased, pursuant to [Title 10 United States Code \(U.S.C.\), section 2667](#), rental moneys received will be deposited in a special account in the U.S. Treasury established for DoD Components for allocation as prescribed in Title 10 United States Code (U.S.C), section 2667. Moneys received for utilities or services will be deposited to the applicable DoD Component family housing account.

(7) For accounting purposes, those reimbursements described above to be used for O&M purposes will be identified as financing the operations portion of the O&M expenses.

(8) All collections for family housing rents or services, other than those described above and in subparagraph 060106.C.1.c, below will be deposited to Treasury Miscellaneous Receipt Account 1830, "Rent of Real Property not Otherwise Classified," under a citation which includes the appropriate DoD Component two-digit prefix symbol. Such collections include those to cover costs of repairing damages to family housing facilities (including replacement of items) caused by family housing occupants.

c. Other funds which are available from disposal of excess family housing property as set forth below:

(1) In the case of family housing in the United States disposed of pursuant to Public Law (P.L.) 101-526, Title II, the Defense Authorization Amendments and Base Closure and Realignment Act or Public Law 101-510, Defense Base Closure and Realignment Act of 1990, the proceeds should be deposited in the Department of Defense Base Closure Account 1990.

(2) In the case of family housing disposed of under authorities contained in Title 10 United States Code (U.S.C.), section 2871-2885, as added by section 2801 of the National Defense Authorization Act for FY 1996, for purposes of using the proceeds to carry out activities authorized under those provisions, the proceeds should be deposited in the DoD Family Housing Improvement Fund (FHIF).

(3) In the case of family housing overseas disposed of under circumstances which fall within the provisions of Public Law 101-510, section 2921 as amended, the proceeds should be deposited in the Defense Overseas Military Facility Investment Account.

(4) In the case of family housing disposed of under other circumstances, the proceeds should be deposited in the appropriate military family housing account.

2. Family Housing Program costs will be programmed, budgeted and accounted for by the DoD Component having responsibility for the Defense installation or housing area, regardless of the DoD Component of the housing occupant. Reimbursement for such costs will not be made between DoD Components.

3. Financing will be on a program-year basis. The detailed program-year criteria for the major functional categories and for the immediate subordinate accounts is set forth below:

a. The program year for the undertakings (projects for new construction, acquisition of housing, construction improvements, and minor construction) shall be the same as the year of the applicable annual Military Construction Authorization Act.

b. After the program year for a specific project is established as provided above, the related appropriation for that project will be administered under the designated program year, irrespective of when the work is undertaken. In the event there are savings due to lower bids, change in scope, etc., these savings may be reprogrammed for projects authorized in different program years [in accordance with guidance provided in Volume 3, Chapter 5, "Reprogramming of Military Construction and Family Housing Appropriated Funds"](#).

c. For planning and design, which is a "level of effort" type activity, the following program year concept applies:

(1) Budget estimates for the budget year and each future year will include the planning and design work programmed to be placed on contract or intragovernmental order during the program year and the planning and design work expected to be performed with in-house capabilities during the program year. The dollar value of a planned program will be determined on the basis of estimated obligations to be incurred during the program year for the program scope embraced by subparagraphs 060106.C.3.a and b, above.

(2) Obligation authorities will be requested and issued by program year on the basis of obligations estimated to be incurred as a result of the issuance during the program year of contracts or other orders which constitute valid obligations pursuant to [Volume 4](#) of this Regulation for planning and design work, irrespective of when the work is to be performed and the accomplishment during the program year of planning and design work with in-house capability. Obligations will be charged by program year on these same bases.

(3) Adjustments to obligations charged against a prior program year will be made only to the extent of an adjustment in the amount of an obligation recorded for specific work ordered in that prior program year or deobligations to reflect cancellation of work ordered in that prior year. New obligations for planning and design work for a particular project which are in addition to that ordered in prior program years for that project are charges against the program year in which those new obligations are incurred.

d. For rental guarantee payments, the program year shall be

the fiscal year in which the rental guarantee payments are obligated. No new obligations may be incurred under a program year obligation authority after the close of that program fiscal year. Adjustments to obligations for rental guarantee payments may be made as necessary to reflect actual obligations incurred during the fiscal program year in accordance with existing procedures covering adjustment to annual accounts.

e. The major functional categories of O&M and debt payment are considered “level of effort” type activities. Program planning and budget estimates for these categories will be developed in accordance with that concept. Obligational authority for O&M and debt payment will be requested and issued by program year and will not be available for new obligations after the close of the fiscal year for which such authority is issued. Adjustments to obligations for O&M and debt payment may be made as necessary to reflect actual obligations incurred during the fiscal program year in accordance with existing procedures covering adjustment to annual accounts.

4. Economic analysis will be applied to all program investment proposals in accordance with this manual which sets forth budget submission requirements.

5. Apportionment of funds and issuance of financial authorities will be obtained as follows: each DoD Component (except Defense Agencies) shall submit to the OUSD (Comptroller) an apportionment request, then the OUSD (Comptroller) will issue specific financial authority to the DoD Components concerned in such amounts and at such levels as appropriate for efficient and economical administration of the Family Housing Program.

6. For the Construction category, Office of the Secretary of Defense (OSD) program approval and obligating authority will be provided by fiscal year, generally at the construction element level (immediate subordinate account level) or at project level where circumstances warrant. [Volume 3](#) of this Regulation defines the scope of realignment authority delegated to the DoD Components. All program/fund realignments will be reported in accordance with Volumes 2 and 4 of this Regulation.

7. Obligations, incurred costs, accrued expenditures, accrued revenues, disbursements and receipts will be recorded and reported in accordance with [Volume 4](#) of this Regulation. When another appropriation, e.g., O&M, initially incurs a funded cost, the applicable DoD Component family housing account will be billed at least monthly. Obligations, incurred costs, accrued expenditures and disbursements will be charged to the applicable accounts.

8. The balance due on indebtedness previously assumed should be in a “Borrowing Account” in conformance with Federal budget concepts.

a. The acquisition of property will be recorded in accordance with Volume 4 of this Regulation. The amount of the mortgage assumed will be recorded as an increase in the “Borrowing Account” and will be reported to the Treasury under Code (97).

060107. Use of O&M Funds under Contingency Construction Authority

The criteria and procedures for the use of O&M funds under Contingency Construction Authority (also known as Section 2808 Authority) are listed in [Volume 3, Chapter 17](#), Section 170102(L) of this Regulation.

0602 UNIFORM BUDGET AND FISCAL ACCOUNTING CLASSIFICATION060201. Military Construction Appropriations

Programming, budgeting, financing and accounting for the Military Construction Program will be accomplished under an account structure uniformly used for these purposes by all DoD Components. The uniform account structure and scope of each account prescribed for the administration of the Military Construction Program are as follows:

A. Major Functional Category: Construction

1. Immediate Subordinate Account: Major Construction. Includes construction projects authorized under [Title 10 United States Code \(U.S.C.\), section 2802](#) for the purposes of erection, installation, or assembly of a new facility; the addition, expansion, extension, alteration, conversion, or replacement of an existing facility; or the relocation of a facility from one installation to another. Includes equipment installed and made a part of such facilities, and related site preparation, demolition, excavation, filling and landscaping, or other land improvements.

2. Immediate Subordinate Account: Minor Construction. Includes any urgently required construction project not otherwise authorized by law having a cost equal to or less than \$2,000,000. However, if the military construction project is intended solely to correct a deficiency that is life-threatening, health-threatening, or safety-threatening, a minor military construction project may have an approved cost equal to or less than \$3,000,000. Minor construction projects costing more than \$750,000 may not be carried out unless [Title 10 United States Code \(U.S.C.\), section 2805](#) requirements are met. This includes advance approval by the Secretary concerned and notification to the Congress. An unspecified military construction project costing not more than \$750,000 may be funded from appropriations available for O&M. However, if the project is intended solely to correct a deficiency that is life-threatening, health-threatening, or safety-threatening, up to \$1,500,000 may be funded from O&M accounts.

3. Immediate Subordinate Account: Planning and Design. Includes architectural and engineering services, construction design, planning, study, working drawings, specifications and estimates for construction projects. [Title 10 United States Code \(U.S.C.\), section 2807](#) pertains to architectural and engineering services and construction design.

a. Design Status. Projects with parametric cost estimates and supporting documentation, e.g. site plan, economic analysis, and National Environment Policy Act (NEPA) documentation, will be considered at the 15 percent design level. Projects using the

traditional method of design, being designed in-house, using a standardized design, or site adapting a previous design should use the milestone chart below to gauge their design status.

1% Design Complete:	Design instructions issued to major command.
2% Design Complete:	Major command design instructions issued to design agent.
3% Design Complete	Notice to proceed issued to architect/engineering firm (A&E) by the design agent.
30% Design Complete	Concept plan, early preliminary working drawings, design analyses, and outline specifications issued by the designer.
5% Design Complete	Concept or early preliminary review comments forwarded to the design agent.
60% Design Complete	Regular preliminary working drawings, design analyses, and updated cost estimate and outline specifications issued by the designer
65% Design Complete	Regular preliminary review comments forwarded to the design agent.
90% Design Complete:	Final design (working drawings, design analyses, cost estimates, and specifications) completed by the designer.
95% Design Complete	Final design review comments forwarded to the design agent
100% Design Complete	Corrected final design accepted by the DoD Component.

4. Immediate Subordinate Account: Supporting Programs. Includes Defense access roads and land acquisitions.

B. Major Functional Category: North Atlantic Treaty Organization (NATO) Security Investment Program

Includes contributions for the United States share of the cost of multilateral programs for the acquisition and construction of military facilities and installations (including international military headquarters) and for the related expenses for the collective defense of the North Atlantic Treaty Area. [Title 10 United States Code \(U.S.C.\), section 2806](#) pertains to contributions for (NATO) Security Investment Program.

060202. Family Housing

DoD Components will use the uniform account structure established for programming, budgeting, financing and accounting for the family housing program. The account structure will be administered so as to provide program and financial control of the family housing program consistent with applicable statutes. The uniform account structure and scope of each account for the family housing program are as follows:

A. Major Functional Category: Construction

1. Immediate Subordinate Account: New Construction (by Installation and Project). Includes the erection, installation, assembly, relocation or replacement of single or multifamily dwelling units; related land acquisition, site preparation, excavation, filling and landscaping, or other land improvements. Also included are the initial outfitting during construction of a dwelling unit with fixtures and other requirements which are either integral components or movable items of major equipment thereof, including major appliances; and architectural and engineering supervision and inspection of construction. Includes design costs of contractor to perform a turnkey contract. New construction also includes the construction of items included in subparagraphs 060105.D.1.b.(1) (a), (b), (c), and (e), above.

2. Immediate Subordinate Account: Post Acquisition Construction. Includes major construction projects (projects beyond those authorized under the minor construction program) for the following (by installation and project): upgrading inadequate public quarters, rental housing and acquired units to produce adequate public quarters; conversion of existing facilities to public quarters; alterations, additions-expansions-extensions; construction of family housing real property, other than dwelling units required subsequent to and because of previously acquired dwelling units; and the payments made to military personnel for telephone reconnection charges shall be included in project costs under this subaccount when a construction project involves relocation, alteration, improvement, or other work necessitating Government directed, non-Permanent Change of Station moves between Government quarters. However, in cases where concurrent maintenance/repair work is involved, telephone reconnection costs shall be charged to the maintenance account.

3. Immediate Subordinate Account: Planning and Design. Includes the design, working drawings, specifications and estimates for construction projects approved by the Secretary of Defense for inclusion in the President's Budget. Also includes consolidated DoD guide drawings, specifications, and planning and design efforts on projects which are not subsequently constructed.

B. Major Functional Category: O&M

1. Immediate Subordinate Account: Operation. This account includes the costs associated with Management, Services, Furnishing, and Miscellaneous subaccount categories identified below:

(a) Management. This account includes costs for management, administrative, and support-type services at the installation level, such as, inspection of construction and administration of rental guarantee projects, housing referral administration, housing office base support costs, surveys, engineering studies, and other identifiable management costs.

(b) Services. This account includes cost associated with refuse collection and disposal, fire protection, police protection, entomological services, custodial services, snow removal, street cleaning, and other municipal-type services.

(c) Furnishings. This account includes initial acquisition, maintenance, repair and replacement of furniture, furnishings and other personal property (see subparagraph 060105D.1.b.(1)(g) above); the furnishing of services included in subparagraph 060105D.1.c.(7).

(d) Miscellaneous. This account includes other family housing program operational costs that do not fall into the other Operation categories.

2. Immediate Subordinate Account: Housing Privatization Support. Includes the costs that the government incurs in direct support of the family housing privatization program under the authorities of Title 10 United States Code (U.S.C.), Chapter 169, Subchapter IV (Alternative Authority for Acquisition and Improvement of Military Housing) with the exception of those costs that will be included as part of the privatization project. These costs include all administrative, planning, development, solicitation, award, transition, construction oversight, and portfolio management activities associated with military housing privatization and specifically for:

(a) Site Assessment Costs. Includes all costs in direct support of the family housing privatization program for environmental baseline assessments, environmental assessments, environmental impact statements, and any efforts required to be accomplished by the government prior to privatization for, environmental mitigation, site surveys, or real estate costs.

(b) Project Costs. Includes all costs in direct support of the family housing privatization program for project feasibility studies, concept development, consultant fees, solicitation, procurement, contracting, execution, transition, construction management (supervision, inspection and overhead), post award management/monitoring, and portfolio management.

(c) Administrative Costs. Includes all costs in direct support of the family housing privatization program for civilian pay, travel, training, supplies, equipment, and for any services provided by a Component in support of the privatization program.

3. Immediate Subordinate Account: Maintenance of Real Property Facilities. This account includes maintenance and repair of buildings, roads, driveways, walks, exterior and interior utility systems and grounds care; and maintenance, repair and replacement of fixtures and other equipment which are integral components of a housing unit. This account also finances the costs of reimbursements made to military personnel for telephone reconnection charges when maintenance or repair work necessitates Government-directed, non-PCS moves. This includes such charges resulting from improvement/repair projects funded in part from the family housing construction account.

4. Immediate Subordinate Account: Leasing: This account includes leasing of family housing facilities by the Government as outlined in subparagraph 060105D.1.a.

5. Immediate Subordinate Account: Utilities: This account includes costs for utilities consumed in government-owned family housing, including electricity, water, sewage, natural gas, fuel oil, or other heating fuels. It excludes the costs associated with the maintenance and repair of utility systems covered under the Maintenance of Real Property Facilities Account.

C. Major Functional Category: Debt Payment (Interest and Other Charges)

Immediate Subordinate Account: Servicemen's Mortgage Insurance Premiums. This account includes payments of servicemen's mortgage insurance premiums pursuant to Title 12 United States Code (U.S.C.), Chapter 13, section 1701, the National Housing Act as amended.

D. Major Functional Category: DoD Family Housing Improvement Fund: Includes activities required in connection with the Military Housing Privatization Initiative (MHPI) program planning, execution, accounting and financial reporting, and administration of contracts entered into under the authorities of Title 10 United States Code (U.S.C.), Chapter 169, Subchapter IV (Alternative Authority for Acquisition and Improvement of Military Housing).

060203. Homeowners' Assistance Fund, Defense

The program/budget account classification structure for the Homeowners' Assistance program is prescribed in Exhibits HA-1 through HA-4, found in Section 060504.

0603 PROGRAM AND BUDGET REVIEW SUBMISSION

060301. Military Construction

A. Purpose

1. This Section prescribes instructions for the preparation and submission of program and budget estimates for the Military Construction appropriations.

2. Unless otherwise specified, these instructions apply to all Military Construction appropriations and to all program and budget estimates. Data submitted must be consistent with the program and budget estimate being supported.

B. Submission Requirements

1. General Guidance. Supporting data for each of the military construction appropriation requests will be submitted concurrently with all other Department of Defense appropriation requests. To facilitate the review and decision making process, it is essential that the packaging of justification materials conform to the uniform facility category

structure established by [DoD Instruction 4165.3](#), “DoD Facility Classes and Construction Categories.”

a. Construction requirements will be determined in consonance with Program Decision Memorandum (PDM) guidance and with applicable Executive Orders, Office of Management and Budget (OMB) Circulars, and DoD 4270.1-M, “Policy Guidelines for Installation Planning, Design, Construction and Upkeep.”

b. Each proposed construction project will be supported by DD Form 1391/1391C, Military Construction Project Data. These will be prepared in accordance with guidance contained in Section 060502, below. Projects associated with intelligence or intelligence-related operations will be so identified. Block 5, Program Element, DD Form 1391, will include the annotation National Intelligence Program (NIP) or Military Intelligence Program (MIP) as appropriate. DD Form 1390, Military Construction Program, will be prepared for each installation at which major construction is planned, utilizing the format prescribed in Section 060502. DD Form 1390S, Guard and Reserve Forces Military Construction, will be utilized by the Guard and Reserve Components.

c. Each Component will also submit a Major Initiatives exhibit which must include a general description of each of its major initiatives for the budget year and what the Component plans to accomplish in the budget year to support that initiative. Be specific, including the impact on force structure. This exhibit will be prepared in accordance with the format contained in Section 060502, below.

d. Lump sum requests for a number of construction projects at a single location or for related projects at several locations will not be considered.

e. OMB is strictly enforcing the full funding policy contained in [OMB Circular A-11](#). . The Components are required to ensure that all projects are fully funded in compliance with OMB Circular A-11. For large projects that formally would have been considered for incremental funding over multiple years (an increment is not a complete and usable facility), the Components may break projects down into complete and usable phases, with phases in multiple years. OMB’s intent is that incremental funding for construction will be for rare and exceptional cases only.

f. In the rare case that OMB grants a waiver to allow for budgeting for the incremental funding of a project, the Components have the flexibility to move funding between increment/years to allow for flexibility but only if there is no increase in the total cost of the project or number of increments. Additional increments or an increase in the total cost of the project requires another waiver request to and approval from OMB. When projects fully funded in a given year’s President’s Budget request are incrementally funded by Congress, the Components should not infer that OMB has agreed to continued incremental funding of the remainder of the project. The Components’ subsequent budget submission should request funding for the full cost of completing the project. Budget justification materials (1391/1391C) should include a chart depicting all outyear liabilities resulting from incremental

funding decisions.

g. In order to ensure prudent and economic investments a life-cycle, net present value economic cost analysis is required to support all new construction or renovation projects estimated to cost in excess of \$ 2 million dollars. Copies of these studies are to be retained by the DoD Components and must be available, when requested, during the OSD - OMB program and budget review. In accordance with Chapter 1, section 010303 of this volume, components are required to indicate on the justification page for each individual construction project whether or not an economic analysis is applicable or pertinent. If not applicable, a statement is required indicating why.

h. In accordance with guidance provided under Section VI.D. of [DoD Directive 2010.5](#), "DoD Participation in the NATO Infrastructure Program," components are required to indicate on the justification page for each individual construction project for U.S. forces committed to NATO a statement whether or not the project is planned for prefinancing, with appropriate explanation as to: (a) why U.S. unilateral financing is being proposed; and (b) as appropriate, follow-on actions planned to seek reimbursement through NATO channels. A similar statement is required for any other overseas construction, describing why the project is not eligible for host nation funding. More specific guidance is provided in [DoD Directive 2010.5](#).

i. Justification materials DD Forms 1390/1391/1391C will be submitted in book form, with appropriate cover, bound on the left margin. Classified materials are to be submitted in separate volumes, with appropriate security classification markings on covers.

j. The following sections outline the specific materials to be provided including special guidance as to formats to be followed. The numbers of copies required are identified in [Volume 2A, Chapter 1](#) of this Regulation. Other special materials required for intelligence activities are outlined in [Volume 2B, Chapter 16](#) of this Regulation.

k. It is recognized that it may be necessary to revise construction project costs subsequent to the budget submission which have changed significantly because of Congressional action, design changes, etc. Such changes will be considered as an additional budget submission and all ground rules, including cut-off dates, will apply.

l. All budget submissions for military construction and family housing programs should include outyear project level detail in the format specified in Section 060502, below.

m. If a military construction project is associated with global defense posture initiatives, it should be identified at the end of the Requirements section under Item 11 of the DD Form 1391.

2. Construction Programs for the Active Forces and Defense Agencies. The books containing the DD Forms 1391/1391C will be arranged by facility

category, following the guidelines established by [DoD Instruction 4165.3](#). For each project, the DD Form 1390 will immediately precede the DD Form 1391/1391C. In each DD Form 1391/1391C provided for the OSD submission, the following design status is required: (1) date of design or parametric cost estimate initiation; (2) percentage of design complete on the OSD submission date; (3) date on which 35 percent design or a parametric cost estimate (15 percent design level) will be or has been completed (including review and approval of 35 percent drawings); (4) projected or actual date of design completion; (5) percentage of design utilizing standard design, (6) if the project cost is based on parametric estimates, include the annotation "Parametric estimates have been used to develop project costs"; and (7) type of design contract, i.e. design-build, design-bid-build, or other, if other, provide a brief explanation of the design contract. Projects proposed for alternative construction methods such as turnkey, or private financing alternatives, for which percent design is not appropriate, should be noted in place of the design status required for normal projects. Prior to the submission of the President's Budget to Congress, the OUSD(Comptroller) Military Personnel and Construction Directorate shall be notified of any projects in the request where the cost estimate is not based on either 35 percent design or a parametric cost estimate (15 percent design level).

a. Major Construction. For purposes of the OSD and OMB review:

(1) No project will be identified or listed under more than one facility category.

(2) The "Operation and Training Facilities" category is to be packaged in the justification books as two separate categories, i.e., "Operation Facilities" followed by "Training Facilities."

(3) Books containing the DD Forms 1391/1391C are to include omnibus packages for the energy conservation investment, and air and water pollution abatement programs. The total requested for each of these programs will be identified separately on single DD Form 1391's with the detail of program (installation, location, cost, and project description) provided on continuation pages DD Form 1391C. None of the projects included in these categories are to be listed under any other facility category.

(4) Each DD Form 1391 for a major construction project must show the construction contract award date (indicate month and year the contract is planned to be awarded to the construction firm, the construction start date (indicate month and year construction is planned to start), and construction completion date (indicate month and year construction is planned to be completed). The information should be displayed on the DD Form 1391, section 12, Supplemental Data.

(5) All DD Forms 1391 must include a name and phone number of the civil engineer at the installation responsible for the requested project. This information should be displayed in the bottom left hand corner on the last page of the DD Form 1391.

b. Minor Construction. The total minor construction program request should be submitted as an omnibus package on a single Form DD Form 1391, specifying the lump-sum amount proposed for unspecified (unforeseen) minor construction projects costing up to \$ 2.0 million per project.

c. Supporting Activities. The funding request for Supporting Activities will continue to be reflected as a lump sum amount on DD Form 1391. Supporting detail (location/cost) will be shown parenthetically following the lump sum estimate. While this item will be addressed for decision making purposes in the document covering Utilities and Real Estate, it should be listed separately and not included in the indexes for either Utilities or Real Estate, which fall under different facility category codes.

d. Restrictions on Omnibus Construction Packages. Apart from the specific exceptions noted for the pollution abatement, energy conservation, and minor construction programs, which are discrete decisions, there are to be no other omnibus packages or breakouts in the DD Form 1391 justification books. All other projects are to be listed under the appropriate facility category. In this respect, the Marine Corps facilities program is to be integrated with the Navy facilities program so that all Navy and Marine facilities are included in a single Department of Navy facility category listing covering the entire "Military Construction, Navy and Marine Corps" appropriation request. However, a separate "non-add" listing or index of all Marine Corps unique facilities, similar to those provided in the past, is both useful and desired.

e. Budget Summary and Indexing. Each Component will provide a one page Budget Summary at the front of the justification book that provides a summary of the total construction program request. The summary will show, by column, the Total Obligation Authority (TOA), Budget Authority (BA), and authorization requested with subtotals by budget activity. Additionally, the books containing the DD Forms 1391/1391C should provide, immediately preceding each category section, an index showing facility category code numbers, installation and location, project number and title, cost, and DD Forms 1391 page number. The index should also identify each project as either new mission or current mission.

f. Multi-service and National Level Support Programs. Projects providing multi-service or national level support are to be programmed/budgeted under the appropriation, "Military Construction, Defense-Wide", or, in the case of NATO Security Investment Program, under the appropriation "NATO Investment Program." These are to be determined on a case-by-case basis, and should be identified as early as possible in the program planning phase. Such items will be identified in the Program Objective Memorandum (POM) and PDM process with appropriate programmatic adjustment or treatment during that phase of the review.

g. Should, on rare occasions, other candidates surface outside of the POM/PDM process, they will require review in the budget review process. The following guidelines apply:

(1) The individual military departments will serve in an executive agency capacity for support of those construction items. The military department assigned executive agency responsibility will continue to provide all necessary and appropriate management support for such projects, including preparation of budget justification materials, and will continue to fully manage and execute the program including the preparation of all budget justification materials and defense of estimates submitted to Congress.

(2) For those projects which have been identified and programmed as multi-service or national level support programs during the POM and PDM process, the executive agent will provide, at the time of its own budget submission, a separate submission consisting of all justification materials (DD Forms 1391/1391C) necessary for OSD and OMB review. Such projects are not to be reflected (duplicated) in the submission covering the department's own program (i.e., financial program, facility category listings, etc.).

(3) For those projects which may surface outside the POM and PDM process as possible additional candidates, the sponsoring military departments will include these in their own construction program submissions as outlined earlier in this chapter, within their own fiscal levels, and separately highlight such items, providing a narrative explaining the basis for change.

3. Construction Programs for the Guard and Reserve Forces. Justification materials for the Guard and Reserve construction programs will be submitted on DD Forms 1391/1391C (Project Data). A separate justification book is required for each of the five Guard and Reserve appropriations.

a. The DD Forms 1391/1391C will be in a single volume covering total requirements for each appropriation. The materials will be sequenced in alphabetical order, by state and by installation within state. The justification pages covering the lump-sum amount requested for minor construction will appear last. The DD Form 1390S will be in a separate section following the DD Forms 1391/1391C. Each book is to include an index in the front, showing the installation and location, project title, project cost, DD Form 1391 page number, and arranged in alphabetical order by state.

b. Each Guard and Reserve program submission is to include separate listings identifying amounts requested in the budget year for: (a) air and water pollution abatement; and (b) energy conservation investment programs. Each listing is to show the installation and location, project title, project cost, and DD Form 1391 page number. "Negative response" listings are required to assure complete coverage.

4. Construction Planning and Design. The annual estimates for planning and design are to be identified and justified on DD Form 1391. In preparing the annual estimates, full consideration should be given to the lead-time required to meet the objective of having each construction project at the 35 percent design stage at the time the Budget is submitted to OSD. Guard and Reserve component construction projects will meet the design

criteria established in [DoDI 1225.8](#), “Programs and Procedures for Reserve Component Facilities and Unit Stationing,” at the time the budget request is submitted to OSD.

a. The Military Departments will develop and submit planning estimates in support of the construction programs for the individual Active Forces, Guard and Reserve programs.

b. OSD will prepare a DD Form 1391, consolidating estimates to be submitted by the Defense Components having justified requirements for Defense Agencies planning and design funds.

(1) Each Defense Agency having a requirement for planning funds during the current and budget years is to submit its estimates on a DD Form 1391.

(2) The individual Military Departments may have a justified requirement for use of Defense-Wide planning funds under circumstances where the Military Departments serve as executive agents for certain multi-service or national-level support projects if funding is required to design a project which will be constructed using Military Construction, Defense-Wide funds. Under such circumstances, the Military Department should submit its estimates on a separate DD Form 1391.

5. Automated Data Requirement. All Military Construction estimates for the Active Forces, Defense Agencies, Guard and Reserve Components shall be addressed in the Exhibit C-1 Construction Annex input prescribed in [Volume 2A, Chapter 1](#) of this Regulation.

6. Long-Term Facilities Contracts. DD Forms 1390 and 1391 must be submitted for each project proposed under the authorities of Title 10 U. S. C., Chapter 169. All additional supporting justification should be included in the DD Form 1390 and DD Form 1391 Justifications. These include Section 2809 (“Long-term facilities contracts for certain activities and services”), Section 2812 (“Lease-Purchase of Facilities”), Section 2835 (Long-term leasing of military family housing to be constructed”), Section 2836 (“Military housing rental guarantee program”), and other third party financed construction authorities. Private financing initiatives will be closely reviewed to ensure their programmatic and budgetary viability. So that an informed decision regarding inclusion of the project in the budget may be made during the program and budget review, proposed projects must be supported by an economic analysis. In addition, to establish a reasonable expectation that the long-term facility project meets Congressional guidance that all third party financed projects, including proposed child care facilities, be at least five percent less expensive than regular military construction appropriation, a lease-versus-buy analysis conducted in accordance with the provisions of OMB Circular A-94 must also be submitted as backup documentation for the DD Form 1391.

a. In development of cost estimates, military construction alternatives should not exceed the published DoD pricing guidance. Private sector construction estimates should be fully supported by documentation and include all pertinent cost factors.

b. Guidance for development of the basic economic analysis required to support these long-term facility contracts is contained in [DoDI 7041.3](#), “Economic Analysis for Decision Making.” The separate lease-versus-buy analysis must conform with OMB Circular A-104, and include full life-cycle costs and net present value discounting of each alternative.

c. Proposed child care facilities should also include in their justification the results of a market survey of child care services available in the local community, and the results of a need assessment and installation interest survey that documents and supports the need for the proposed project.

d. Authorization and appropriation procedures for long-term lease and lease-purchase contracts are special cases and may not be treated as regular military construction in some respects. General guidance for the treatment of budget authority, outlays, and scorekeeping guidelines for lease-purchase and capital lease contracts is contained in OMB Circular A-11.

(1) Under the provisions of public law these contracts may, depending on the authority used, be for periods of up to thirty-two years exclusive of the period of construction. However, for projects proposed under the authority of Title 10 United States Code (U.S.C.), Sections 2809, 2835, and 2836 the obligation of the United States to make payments under the contract in any fiscal year is subject to appropriations being provided specifically for that fiscal year and specifically for that project.

(2) Annual lease or annual lease-purchase payments commence at the time of beneficial occupancy, usually after the budget year in which the project is proposed for authorization.

(3) Components will request authorization for the full asset value of the contract (the estimated construction or acquisition cost, the differential cost of financing, and any contract termination liability costs). Components will request budget authority for each project in the amount equal to the full extent of the Government’s first year liability under the contract (the sum of all cost and contract termination liability costs), in the budget year the project is submitted for approval.

e. Components shall submit proposals for long-term facilities contracts in a separate section in the OSD/OMB Justification books. The section shall be entitled “Long-Term Facilities Contracts“. The section will include all DD Form 1390 and DD Form 1391’s for newly proposed projects, and be preceded with an index showing facility category code numbers, installation and location, project number and title, estimated military construction cost and DD Form 1391 page number. Long-term leases and lease-purchases will be separately summarized in the index. In order to assess the long term financial impact of these proposals the section should also include a financial table that provides project data and cumulative totals for; total estimated project authorization, estimated annual lease payment, and year of planned beneficial occupancy.

f. Congressional budget presentation Justification Book guidance is provided in section 0604, below.

g. Following approval of projects for inclusion in the President's Budget, Components may then proceed with project development.

h. In accordance with Title 10 United States Code (U. S. C.) these projects must be submitted to Congress for final review or approval 21 days in advance of contract award. Unless denied by Congress, Components may make contract award following the 21 day notification period.

(1) Components will submit these projects for approval to the Under Secretary of Defense for Acquisition, Technology, and Logistics, and the OUSD (Comptroller), prior to congressional notification, and again prior to the final submission to Congress.

(2) In order to ensure that only economical investments are approved, and that budget requests are sufficient to cover the full financing of the contract, only those projects demonstrated to be more cost effective than regular Military Construction will be approved for submission to Congress.

7. Construction Programs for Working Capital Funds

The Working Capital Funds related capital construction projects costing over \$750,000 will be included in the component military construction appropriation (including budget authority) program and budget estimates submission for review.

a. Military construction projects supporting the Working Capital Funds must be clearly labeled as Working Capital Fund projects. The C-1 Annex will include the Working Capital Fund projects (annotated as such) with their associated budget authority.

b. A separate copy of military construction projects supporting the Working Capital Funds will be provided to the Directorate for Revolving Funds, OUSD (Comptroller) (Pentagon, room [3D755](#)).

c. Copies of associated economic analysis studies supporting the construction requirements for Fund projects will be separately provided to the Directorate for Military Personnel and Construction, OUSD(Comptroller) (Pentagon, room [3C654](#)).

8. Facilities Programming and Financing at DoD Installations Utilized by Two or More DoD Components. This section establishes the policy for programming and financing facilities at DoD installations where utilization by more than one DoD Component is involved, including host-tenant relationships.

a. Responsibilities

(1) To ensure joint use construction is considered when assessing the Department's facilities needs, each DD Form 1391 must include a certification by the Secretary or Defense Agency Director concerned that the proposed project has been considered for joint use potential; a recommendation for either joint use or unilateral construction; and the reason(s) for that recommendation if joint use is not recommended. The certification may be delegated not lower than the Assistant Secretary responsible for the project. This certification is not required for family housing construction and improvement projects.

(2) **Single-Use Facilities.** The DoD Component requiring a facility for its own use shall program and budget for the construction project involved.

(3) **Joint-Use Facilities.** The DoD Component which has jurisdiction over the host command shall program and budget for a facility which is planned for the joint use or joint occupancy of two or more DoD Components.

(4) **Common-Purpose Facilities.** On a case-by-case basis, the individual DoD Components shall function as executive agents for programs whose output directly and uniquely operates to the benefit of two or more DoD Components. The executive agent shall be responsible for planning and programming all facilities.

(5) **Required Facilities.** Generally, the host Military Department will program and budget an extension, expansion, and/or increase the capacity of the main utilities and communications or transportation systems, consistent with the master plan of the installation, to support any required facilities, including those required by a tenant. However, programming and budgeting for such connecting utilities and communications or transportation systems as an integral part of any single-use facility are the responsibilities of the DoD Components requiring the facility.

(6) **Siting Facilities.** Siting of any facility for a tenant will conform to the master plan of the installation or will be in accordance with an agreed-upon location by the DoD Components concerned.

(7) **Design.** Standards of design and construction will conform to those of the host Military Department, consistent with the master plan of the installation; however, exceptions will be made in those instances where tactical or other operational considerations requiring limited duration of occupancy economically would not justify construction of facilities to higher standards.

b. Utilization

(1) The tenant DoD Component will have exclusive use of any facility constructed for the duration of the tenant's requirement. Upon termination of

tenancy or use by the tenant, the facility will revert to the host Military Department for utilization without fee.

(2) Should the tenant DoD Component, at a later date have a requirement for use of the same facility, the host Military Department will make the facility, or an acceptable existing facility, available within a reasonable time period to the tenant. The host Military Department will not reconstruct or acquire a new facility for the tenant instead of returning the original facility or an acceptable existing substitute. If the host Military Department is not able to make a facility available to the tenant without creating unacceptable conditions for the host, the tenant will be responsible for obtaining a new facility.

c. Maintenance and Service Support. Determination as to the levels of maintenance and service support and reimbursement therefore will be made by the DoD Components concerned consistent with DoD policies for host-tenant agreements.

9. Energy Conservation Investment Program (ECIP). DD Forms 1390's and 1391's should be submitted for each ECIP project requested in the budget. These forms should include the location, the nature or category of the project, the cost and the expected payback using the most current technological and economic information available, and the name and telephone number of a point of contact. The Components should submit these forms to the OUSD (Acquisition, Technology, and Logistics) ECIP Program Manager 7 days prior to the OUSD (Comptroller) budget due date to allow sufficient time for the ECIP Program Manager to review them prior to transmittal to OUSD (Comptroller).

060302. Family Housing

A. Purpose

1. This Section prescribes instructions for the preparation and submission of budget estimates for the Services' and Defense-Wide Family Housing, appropriations.

2. Budget estimates will be submitted by the Services and Defense Agencies, which have requirements for financing the Family Housing Program as defined in Section 060106.

B. Submission Requirements

1. Budget Estimates. Each DoD Component is to submit data to support the budget requirement for Family Housing on the basis of the accounts and account structure set forth in the detail prescribed in Section 060302 B.3, below (Preparation of Material). In addition, each DoD Component will address Family Housing estimates in the Exhibit C-1 Construction Annex input prescribed in Volume 2A, Chapter 1, section 010504 of the Regulation.

2. General

a. All data (including the OP-5 exhibit) will be provided on 8-1/2 inch by 11 inch size paper, typed across the short dimension of the paper, except for the formal exhibits contained in Section 0605. All pages will be bound on the 11 inch side.

b. The family housing budget data will be bound in separate books for the Army, Navy (including Marine Corps, with O&M Cost and Debt Payment for Marine Corps shown separately), Air Force, and Defense Agencies.

c. The number of required copies of the above material is specified in [Volume 2A, Chapter 1](#), section 010302 of this Regulation.

3. Preparation of Material. Submit data using forms and formats as indicated below. Separate tabbed sections will be submitted for each of the categories below (a, b, and 4-18).

a. Index. Provide a detailed index to the submission.

b. Summary

(1) Provide a narrative summary describing the most significant features of the request. This summary need not cover every facet of the request and is intended to highlight those items of special significance.

(2) Provide a one-page financial summary of the entire request. This should include, as a minimum, the amounts requested for authorization and appropriation for the major programs and their immediate subordinate accounts (Construction: New Construction, Post Acquisition Construction, Planning and Design; O&M: Operating Expenses, Utilities, Maintenance, Leasing, Housing Privatization Support, Debt Payment, Servicemen's Mortgage Insurance Premium and Reimbursable Program).

(3) Provide the summary metric tables, Exhibit FH-11, [Inventory and Condition of Government-owned Family Housing Units, \(which replaced the Summary of Inadequate Unit Elimination, FH-7 Exhibit\)](#) and Exhibit FH-8, Annual Inadequate Family Housing Elimination.

(a) These exhibits support the measures and targets developed in the DoD Performance Budget, which are based on the condition of the facilities (Q-Ratings) and maintaining a minimum specified percentage level of adequate housing units. The performance goal is to have 90% of the world-wide, government-owned Family Housing units at adequate Q1-Q2 levels by FY 2012.

(b) All government-owned Family Housing inventory should be reflected in these exhibits, including transitional units. Inventory should be

consistent with number of units and Q-Ratings contained in the Real Property Inventory database. Additional information on Q-Ratings is available in OSD (AT&L) Facility Quality Rating Memorandum of September 5, 2007 and the GSA Guidance for Real Property Inventory Reporting .

4. Legislative Language. Provide the required authorization and appropriation language for the budget year. The current year language should serve as the base, with changes and omissions bracketed.

5. New Construction

a. Summary. Provide a brief summary of the New Construction program. The summary should include, as a minimum: a short narrative highlighting the most significant features of the request, a comparison of the prior year program with the request, and a listing of each project requested showing new construction or replacement, location, number of units and the estimated cost. The listing should also identify each project as either new mission or current mission requirement, [as well as provide the major initiative category](#).

b. Project Justification. For each New Construction project, including the construction of mobile home spaces, the following forms and exhibits are required. Additionally, in accordance with [Title 10 United States Code \(U.S.C.\), Sections 2823](#) and [2824](#) provide documentation of consultations with the Department of Housing and Urban Development on the availability of suitable alternative housing at each construction location.

(1) Military Construction Project Data –DD Form 1391. Form will be prepared in accordance with the instructions contained in Section 0605, below. It is important to avoid the use of “boiler-plate” justification. Cost estimates for new construction projects will include the maximum level of detail practicable, [including construction contract award date \(indicate month and year the contract is planned to be awarded to the construction firm\), the construction start date \(include month and year construction is planned to start\), and construction completion date \(indicate month and year construction is planned to be completed\)](#). Any unusual features impacting on the cost of the project must be identified and fully justified. In order to ensure prudent and economic investments, a life-cycle net present value economic cost analysis is required to support all new construction projects estimated to cost in excess of \$2 million. Copies of these analyses are to be provided with the Family Housing budget estimates. Each DD Form 1391 will (1) state if an economic analysis has been prepared and provide a summary of the results of that analysis, including the calculated savings-to-investment ratio, or (2) provide the specific reasons why an economic analysis is not required. Assemble the DD Form 1391’s in the same sequence as the listing of projects on the summary page.

(2) DD Form 1523, Military Family Housing Justification. Form will be prepared in accordance with DoD 4165.63-M, “DoD Housing Management” manual. Data supplied should be in agreement with the latest formal housing survey for the location, and with the information provided on the DD Form 1390. The date of

the survey should be specified. The form must include a statement indicating whether a private sector housing market analysis has been conducted and the date the market analysis was completed. When a market analysis has been conducted and is used as justification for new construction, a copy of the analysis must be available for review upon request. Since this form deals with housing deficit calculations, the DD Form 1523 is [needed only for new requirements](#).

(3) Tri-Service Family Housing Cost Model. Provide, for each housing project, the calculations on which the budget estimate is based, using Exhibit FH-1, the “Tri-Service Family Housing Cost Model”. The appropriate DoD cost factors must be used in the calculations. In addition, Tri-Service Family Housing Cost Models should be prepared using metric units of measure.

6. Post-Acquisition Construction

a. Summary. Provide a general summary of the Post-Acquisition Construction program being requested. The summary should include, as a minimum, a short narrative highlighting the most significant features of the request, and a comparison of the prior year program with the request. For consistency, the program should be referred to as “Post-Acquisition Construction” rather than “Improvements” or any other title.

b. Project Justification. Provide a DD Form 1391 covering the entire Post-Acquisition Construction program and DD Form 1391C listing each project requested. Project description should be specific with regard to the work which is to be done (specify the number of units to be improved by intended occupant grade -- senior officer, junior officer, or enlisted), and show any planned concurrent, non-routine, maintenance costs, [including construction contract award date \(indicate month and year the contract is planned to be awarded to the construction firm\), the construction start date \(include month and year construction is planned to start\), and construction completion date \(indicate month and year construction is planned to be completed\)](#). Projects should be arranged alphabetically by state and country. Federal Energy Management Program funding, if any, must be separately totaled. Projects, or portions of projects, for General and Flag Officer Quarters (GFOQ) must be identified separately. For improvement projects, where the unit improvement cost exceed seventy percent of the replacement cost, the project must be supported by a life-cycle economic analysis which demonstrates that renovation is more cost effective than replacement construction or other available alternatives, such as demolition and reliance on housing allowances.

c. Projects in Excess of \$50,000 Per Unit. A separate DD Form 1391 is required for each project for which the per unit cost exceeds \$50,000, taking into consideration the applicable area cost factor. If the improvement is required to make the unit suitable for habitation by a handicapped person, the threshold is \$60,000 multiplied by the applicable area cost factor. The cost estimate should also include concurrent repair to be funded under O&M. The justification for the project must detail the findings of an economic analysis and the resulting savings-to-investment ratio. Any unusual features impacting on the cost of the project must be clearly cited. Additionally, note the total Post Acquisition Construction and non-routine maintenance for the unit or set of units over the past five years.

d. Restriction on the Amount Invested in Improving Foreign Source Housing Units. The three-year limitation on overseas units is \$35,000. If the Services intend to program improvements to specific units which exceed \$35,000 over a period of three years, total funding should be requested in one year. The justification for each unit should identify all improvements and major maintenance work done in the past three years, and all improvements and major maintenance planned in the following three years.

7. Rental Guarantee Housing. For each rental guarantee housing project, both foreign and domestic, provide a listing showing: (1) location, (2) number of units (by intended occupants (senior officer, junior officer, enlisted), (3) term of contract, (4) FY and month of contract renewal, and (5) maximum termination costs.

8. Advance Planning and Design. All requirements for Advance Planning and Design should be submitted in the format prescribed for military construction in [Volume 2B, Chapter 6, section 060301](#).

9. O&M Summary

a. Narrative Summary. Provide a general summary of the entire O&M program being requested, excluding leasing, housing privatization support, debt, and servicemen's mortgage insurance premium, which are to be addressed elsewhere in the budget submission. The summary should include, as a minimum, a succinct narrative highlighting the significant features of the request and a comparison of the prior year program with the budget request, particularly the reasons for any significant upward or downward shifts in funding levels.

b. Inventory and Funding Summary

(1) Provide the data called for in Exhibit FH-2, Family Housing O&M Summary. Include for each fiscal year, as a subset of "Average Inventory for Year," the total number of units that are classified as historic (units that DoD must manage in accordance with the National Historic Preservation Act of 1966). Display the historic figures in parenthesis immediately below the Average Inventory line.

(2) Provide the total civilian personnel compensation for all U.S. Direct Hires, Foreign National Direct Hires and Foreign National Indirect Hires. This information should be provided for the prior year, current year and budget years in the format of Exhibit OP-8, Civilian Personnel Costs, shown in [Volume 2A, Chapter 3](#), section 030402 of this Regulation. This exhibit is only required for inclusion in the OMB and OSD review, but should be provided separately for the President's Budget submission.

10. Operations. The sub-accounts of Operations are Management, Services, Furnishings and Miscellaneous. For each of these provide:

a. Summary. Provide a short narrative describing what the funds will be used for, how the budget was developed, major assumptions made, and

highlighting the most significant features of the request. The summary should also explain the effect that the housing privatization program has on the budget estimates for each of the O&M accounts and subaccounts. For the Furnishings program only, provide additional information in the format of Exhibit FH-3, "Furnishings Summary".

b. Reconciliation of Increases and Decreases. A reconciliation of increases and decreases, at the worldwide level, between the amounts requested in the President's Budget for the current year and budget years. The format of this reconciliation is to be identical to the Exhibit OP-5 shown in section 0605, below. For each program increase or decrease, quantitative and qualitative information relative to the proposed change must be provided. Increases and decreases should be supported by specific reasons why these adjustments in the program are necessary, particularly changes in the number of family housing units being supported, changes in the FH-2 and FH-3 exhibits, etc.

11. Utilities. For the Utilities program, separate from Operations, provide the following:

a. Provide a short narrative describing what the funds will be used for, how the budget was developed, major assumptions made, and highlighting the most significant features of the request. The summary should also explain the effect that the housing privatization program has on the budget estimates for the account. This section must address energy consumption reductions accomplished and progress made towards meeting Congressional and Defense energy conservation goals.

b. Include a table that breaks out, for each FY reflected in the budget submission, kilowatt hour of electricity, tons of coal, cubic feet of gas, barrels of oil, and other forms of energy that support the utilities budget request.

c. Reconciliation of Increases and Decreases. A reconciliation of increases and decreases, at the worldwide level, between the amounts requested in the President's Budget for the current year and budget years. The format of this reconciliation is to be identical to the Exhibit OP-5 shown in Section 0605, below. For each program increase or decrease, quantitative and qualitative information relative to the proposed change must be provided. Increases and decreases should be supported by specific reasons why these adjustments in the program are necessary, particularly changes in the number of family housing units being supported, changes in the FH-2 exhibit, etc.

12. Maintenance

a. Provide a short narrative describing what the funds will be used for, how the budget was developed, major assumptions made, and highlighting the most significant features of the request. The summary should also explain the effect that the housing privatization program has on the budget estimates for the account.

b. Reconciliation of Increases and Decreases. A reconciliation of increases and decreases, at the worldwide level, between the amounts requested in the President's Budget for the current year and budget years. The format of this reconciliation is to be identical to the Exhibit OP-5 shown in Section 0605 of this manual. For each program increase or decrease, quantitative and qualitative information relative to the proposed change must be provided. Increases and decreases should be supported by specific reasons why these adjustments in the program are necessary, particularly changes in the number of family housing units being supported, changes in the FH-2 exhibit, etc.

c. Provide a summary on the backlog of deferred maintenance. Describe the plans for reducing the backlog to a manageable level. Provide an analysis of types of projects, type and accuracy of reporting and special efforts to reduce the backlog. Provide a table covering the Future Years Defense Program (FYDP) including: (1) backlog at beginning of year, (2) recurring maintenance arising during the year, (3) maintenance funds approved or planned, (4) backlog at end of year, and (5) backlog reduction (-) or growth (+) during the FY.

13. Maintenance and Repair Cost Over \$20,000 Per Unit

a. Using DD Forms 1391 and 1391C, provide data on maintenance and repair projects for which the per-unit cost exceeds \$20,000. As a minimum, the 1391C should provide, for each project: (1) location, (2) number of units, (3) age of units, (4) per unit cost, (5) total square footage of unit and square footage of project, (6) total cost, and (7) short narrative description and justification of the work, including results of economic analysis and savings-to-investment ratio. Projects should be listed alphabetically by state and country, as displayed for the Post Acquisition Construction projects.

b. Projects which appear as concurrent maintenance and repair on the 1391's for Post-Acquisition Construction (see Section 060302 B.7 above) will be shown here if they exceed the \$20,000 per unit threshold, with a notation stating that the project is also shown in the post acquisition construction section.

14. GFOQ Maintenance and Repair Cost Over \$35,000 Per Unit

a. Provide a narrative summary, detailing efforts to control and reduce expenditures for the "high-cost" GFOQ units.

b. Provide a listing of all GFOQ for which total maintenance and repair cost per unit exceeds \$35,000 for the Budget Year. Listing should include, for each unit: (1) state/country/location, (2) quarters identification, (3) size of unit, (4) age of unit, (5) total operations cost, (6) total utilities cost, (7) total maintenance and repair cost, (8) total O&M cost, and (9) a short narrative description and justification of the work, including results of economic analysis and savings-to-investment ratio. In addition, identify any Post-Acquisition Construction project and funding requested for any GFOQ in the listing.

c. This listing will include all GFOQ projects for which total maintenance and repair cost exceeds \$35,000, including those listed in other sections of the submission.

d. Provide a similar listing for the Prior Year and Current Year units with M&R over \$35,000 and which were not included in the previous budget request.

e. To satisfy Congressional reporting requirements, provide:

(1) A report identifying each family housing unit used, or intended for use, as a quarters for a general officer or flag officer for which the total operation, maintenance, and repair costs are anticipated to exceed \$35,000 in the next fiscal year. For each family housing unit so identified specify the total of such anticipated operation, maintenance, and repair costs for the unit. This shall be reported in the format of Exhibit FH-5 General and Flag Officers Quarters (Anticipated expenditures for O&M exceeding \$35,000).

(2) A report specifying for each family housing unit used as quarters for a general officer or flag officer at any time during the most recently completed fiscal year, the total expenditures for O&M, utilities, lease, and repairs of the unit during that fiscal year. This shall be reported in the format of Exhibit FH-9 GFOQ (O&M Expenditures for FY 2XXX). This report should also be provided to the Military Personnel and Construction Directorate in electronic excel format, no later than December 1.

(3) A report identifying each family housing unit used or intended for use, as a quarters for a general officer or flag officer which is in excess of 6,000 square feet. For each unit over 6,000SF specify any alternative and more efficient use to which the unit could be converted (including cost of conversion) and an explanation as to why the unit is not being converted to the alternative use. For each unit identified whose annual O&M costs are greater than \$35,000 or if new construction costs are anticipated to exceed \$100,000 in the next FY, specify any alternative use (including cost of conversion) and an estimate of the costs to demolish and rebuild the unit to private sector standards. This shall be reported in the format of Exhibit FH-10, GFOQ 6,000NSF Units for FY 2XXX.

(4) As amended by section 2805 of the FY 2009 National Defense Authorization Act (NDAA), 10 USC 2884 requires annual reporting of privatized GFOQ units and the total operation, maintenance, and repair costs incurred by private sector developer/partners that exceed \$50,000 per housing unit. Therefore, the Components are required to complete the Exhibit FH-12, Privatized GFOQ Operation, Maintenance and Repair Costs Incurred by Private Sector Developer/Partner/Owner Exceeding \$50K per Housing Unit, annually.

15. Reimbursable Program. Provide a detailed justification for the Reimbursable Authority requested. Include information on what precisely is funded through the reimbursable program and details on the sources of receipts for the prior year, current year and budget year.

16. Leasing

a. Provide a short narrative describing what the funds will be used for, how the budget was developed, major assumptions made, and highlighting the most significant features of the request. The summary should also explain the effect that the housing privatization program has on the budget estimates for the account. The summary shall include a table reflecting the authorized number of leases, average number of leases supported and costs for each of the PY, CY and BY, for Domestic Leasing, Section 801 and Section 802 leases, and foreign leasing.

b. For both domestic and foreign leases, provide a summary justification statement. Also provide data on the leasing program in the format of Exhibit FH-4, "Analysis of Leased Units." Information should be provided at the installation or community level, whichever is most applicable. For each new project requested, include a full justification and description, in the same format as for a New Construction project (see Section 060302 B.6 above).

c. Reconciliation of Increases and Decreases. A reconciliation of increases and decreases, at the worldwide level, between the amounts requested in the President's Budget for the current year and budget years. The format of this reconciliation is to be identical to the Exhibit OP-5 shown in Section 0605, below. For each program increase or decrease, quantitative and qualitative information relative to the proposed change should be provided. Increases and decreases should be supported by specific reasons why these adjustments in the program are necessary, particularly changes in the number of family housing units being supported.

d. For each new Public Law 98-115, section 801 lease project requested, include a full justification and description, in the same format as for a New Construction project (see Section 060302 B.6 above) , including the results of the economic analysis.

e. Under Section Title 10 United States Code (U.S.C.), section 2828, the Components are allowed not more than 10,000 domestic (United States, Puerto Rico, or Guam) leased family housing units. The cost of domestic leases may not exceed \$12,000 (including the cost of utilities, maintenance, and operation) per unit per year.

(1) Section 2828 permits an exception for 500 of these domestic leased units that may exceed \$12,000 per unit per year but can not exceed \$14,000 per unit per year as adjusted from time to time. *At the beginning of each fiscal year, the Secretary concerned shall adjust the maximum lease amount for domestic leases for the previous fiscal year by the percentage (if any) by which the national average monthly cost of housing (as calculated for purposes of determining rates of Basic Allowance for Housing under section 403 of title 37) for the preceding fiscal year exceeds the national average monthly cost of housing (as so calculated) for the fiscal year before such preceding fiscal year.*

(2) The Army has authority to lease eight units in Miami, Florida for key and essential personnel, as designated by the Secretary, for the United States Southern Command. Total lease cost for all eight units may not exceed \$280,000 per year as adjusted from time to time. The terms of any lease under this paragraph may not exceed 5 years. At the beginning of each FY the Secretary of the Army shall adjust the maximum aggregate amount for these leases for the previous FY by the percentage (if any) by which the annual average cost of housing for the Miami Military Housing Area (as calculated for purposes of determining Basic Allowance for Housing under Section 403 of Title 37) for the preceding FY exceeds the annual average cost of housing for the Miami Military Housing Area (as so calculated) for the FY before such preceding FY. Additionally, not more than 600 domestic housing units may be leased by the Secretary of the Army for which the expenditure for the rental of such units does not exceed \$35,000 per unit per year, as adjusted from time to time.

f. Also under Title 10 United States Code (U.S.C.), section 2828, the Components are allowed not more than 55,775 foreign leased units. Foreign leases may not exceed \$20,000 per unit per year (including the cost of utilities, maintenance, and operation). Section 2828 permits exceptions for 450 leased units that may exceed \$20,000 but that can not exceed \$25,000 per unit per year and for 350 leases that may exceed \$25,000 per unit per year.

(1) In addition to the 450 units:

(a) The Secretaries of the military departments may lease not more than 3,300 units of family housing in Italy that may not exceed \$25,000 per unit per year.

(b) The Army may lease not more than 1,175 units in Korea that may exceed \$25,000. Also, the Army may lease not more than 2,800 units of family housing in Korea subject to a maximum lease amount of \$35,000.

(2) The maximum lease amounts for the previous FY will be adjusted at the beginning of each FY, by the percentage (if any) by which the Consumer Price Index (CPI) for all Urban Consumers, published by the Bureau of Labor Statistics, during the preceding FY exceeds such CPI for the FY before such preceding FY and for foreign currency fluctuations from October 1, 1987. To determine the impact of foreign currency fluctuation on the rental rate, these high cost “cap” rental rates must be computed for each foreign country, each year to adjust for the impact of foreign currency fluctuation. After the caps of \$20,000, \$25,000 and \$35,000 U.S. dollars are adjusted by country, the adjusted rates becomes the new cap for determining whether a lease must be counted against the exception limits for a given budget year. Then, if a rental exceeds the adjusted maximum costs, it counts against the high cost ceiling limitations of 450 and 350, units, respectively, DoD-wide. For each country the formula that is to be applied is: $\$20,000$ adjusted for CPI changes or $\$25,000$ adjusted for CPI changes or $\$35,000$ adjusted for CPI changes * [FY 1988 exchange rate / current budget exchange rate] = new cap limit.

(a) Where the “FY 1988 exchange rate“ is the exchange rate that was published by the USD (Comptroller) for use in preparing the FY 1988 budget estimates, stated in units of foreign currency for one (1) U.S. dollar:

Country	Monetary Unit	FY 1988 Exchange Rate
Belgium	Franc	42.77
Canada	Dollar	1.39
Denmark	Krone	7.75
Germany	Mark	2.06
France	Franc	6.72
Greece	Drachma	139.90
Italy	Lira	1,423.00
Japan	Yen	163.10
Netherlands	Guilder	2.33
Norway	Krone	7.52
Portugal	Escudo	150.50
Spain	Peseta	137.60
Turkey	Lira	743.50
UK	Pound	0.70

For countries not listed, use the October 1, 1987 exchange rate.

(b) Where the “current budget exchange rate“ is the rate published by the USD (Comptroller) for use in preparing the fiscal year budget estimates for which the lease funds are being requested, stated in units of foreign currency for one (1) U.S. dollar.

(c) The new cap limit is the maximum amount in dollars that a lease may cost per unit per annum for each nation, before that unit must count against the worldwide 350 and 450 unit limits on exceptions for high cost leases for the fiscal year for which the budget resources are being requested.

(d) Provide a summary table showing application of the above formula for each nation where high cost leases exist or are proposed, and the total number of such leases.

17. Debt Payments

a. Provide a brief justification statement describing the requested program.

b. Provide a table identifying separately the total of the principal payments, and interest charges, and the totals for the Servicemen’s Mortgage Insurance Premium program for the prior, current, and budget years.

c. For the Servicemen’s Mortgage Insurance Premium program provide a listing for each fiscal year, showing: the number of terminations, the number

of mortgages on which payments are to be made, the average payment per mortgage, and the estimated payments for the year. This table should start with the prior year, and end with BY+1.

18. Foreign Currency Exchange Data. All Family Housing O&M appropriations that participate in the Foreign Currency Fluctuations, Construction, Defense appropriation are required to prepare and submit a PB-18 Exhibit using the approved foreign currency exchange rates. The format for the PB-18 Exhibit is in Volume 2B, Chapter 19, section 191204 of this Regulation.

19. Each Component will also submit a Major Initiatives exhibit which must include a general description of each of its major initiatives for the budget year and what the Component plans to accomplish in the budget year to support that initiative. Be specific, including the impact on force structure. This exhibit will be prepared in accordance with the format contained in Section 060502.

20. Family Housing Privatization. See section 060306 below.

060303. Homeowners' Assistance Fund, Defense

A. Purpose

1. This Section provides guidance for the preparation and submission of Homeowners' Assistance Fund, Defense budget estimates under the Department of the Army allocation account.

2. Budget estimates will be submitted only by the Department of the Army, which has been assigned the overall responsibility for the administration and management of the Department of Defense Homeowners' Assistance program by DoD Directive 4165.50 "Homeowners Assistance Program (HAP)."

3. Each Component is responsible for including sufficient resources in its budget to fund HAP costs related to the Component's actions associated with base closures, realignments, and force reductions. The level of resources required to fund HAP costs shall be developed in consultation with the Army, as the HAP executive agent. Budget estimates for HAP costs shall be separately identified and submitted in the Component' Base Realignment and Closure (BRAC) submissions for HAP costs associated with realignments and closures and in the O&M submission for non-BRAC related HAP costs.

B. Submission Requirements

1. The following exhibits, provided in Section 0605, below will be submitted:

HA-1	Workload and Obligation Data
HA-2	Status of Accounts
HA-3	Work Unit Data
HA-4	Program and Financing

In addition, the Army will input Homeowners' Assistance Fund estimates for the C-1 Construction Annex input prescribed in [Volume 2A, Chapter 1](#), section 010504 of this Regulation.

2. Required copies of the above material are identified in Volume 2A, Chapter 1, section 010302 of this Regulation.

3. For the biennial budget, separate sections or volumes will be provided for BY1 and BY2. For the BY2 section, BY1 will be considered as the prior year and BY2 as the budget year.

C. Preparation of Material. All material will be provided on 8-1/2 inch by 11 inch size paper, and bound on the long side. All narrative data will be typed across the short dimension of the paper, while Exhibits HA-1, 2, 3 and 4 will be typed across the long dimension.

060304. NATO Security Investment Program

A. Purpose

1. This section provides guidance for preparation and submission of the NATO Security Investment Program budget estimates.

2. Budget estimates will be submitted by the OUSD (AT&L) since that office has been assigned the overall responsibility for the oversight and management of the NATO Security Investment Program by DoDD 2010.5, "DoD Participation in the NATO Infrastructure Program."

B. Submission Requirements. Submit a detailed exhibit, NATO Security Investment Program-1 (NSIP-1), listing requirements at the project level for both construction and procurement requirements. The listing should be sufficiently detailed to identify discrete projects and initiatives. Aggregations at the capability package level i.e., Defense of the Mediterranean, are not sufficiently detailed and should be broken down further to show the individual projects/initiatives comprising the capability packages. A narrative explanation and description of each of the requirements for the current and budget years should be provided. The NSIP-1 exhibit is provided in section 060505, below for the NATO Security Investment Program to identify the following information: Location, Installation, Project Title, Description of Project, Budget Scheme (how many NATO Nations participating in the funding of the project), Project Cost, U.S. Cost Share, Other Nations Cost Share. This will be provided for both the current year and budget year.

Submit a detailed exhibit, NSIP-2, listing each NSIP major construction project that are eligible for recoupment (reimbursement by other member countries for eligible costs). The NSIP-2 exhibit is provided in section 060505, below for the NATO Security Investment Program to identify the following information: Component, Appropriation, FY, Location, Installation, Project Title, Slice/Serial (if known), Recoupment Budget Estimate, and Rate of Conversion.

C. Preparation of Material. All material will be provided on 8-1/2 inch by 11 inch size paper, and bound on the long side. All narrative data will be typed across the short dimension of the paper.

060305. NATO Security Investment Program Expansion Costs

A. Expansion Costs. Submit a list of all requirements, construction and procurement, associated with NATO expansion. The listing should be sufficiently detailed to identify discrete projects and initiatives. Aggregations at the capability package level i.e., Defense of the Southern Region, are not sufficiently detailed and should be broken down further to show the individual projects/initiatives comprising the capability packages. The NSIP-1 exhibit is provided in section 060505, below for the NATO Security Investment Program to identify the following information of projects associated with NATO Expansion: Location, Installation, Project Title, Description of Project, Budget Scheme (how many NATO Nations participating in the funding of the project), Total Project Cost, U.S. Cost Share, Other Nations Cost Share. This will be provided for both the current year and budget year. A narrative explanation and description of each of the requirements for the budget years should be provided. The budget estimate for NATO Expansion Costs should be identified in BA 02 as presented in Volume 2A, Chapter 1 of this Regulation.

060306. Family Housing Improvement Fund

A. Purpose

This section prescribes instructions for the preparation and submission of budget estimates for the DoD Family Housing Improvement Fund (FHIF) and related requirements.

B. Submission Requirements

1. The Housing and Competitive Sourcing (H&CS) Directorate of the Office of the Deputy Under Secretary of Defense (ODUSD) (Installation and Environment (I&E)), shall submit to the USD (Comptroller), Military Personnel and Construction Directorate a memorandum which includes a narrative overview of the Military Housing Privatization Initiative (MHPI), current status of the MHPI, and future plans for the program. In addition, the H&CS memorandum shall include funds required for the budget year to administer and oversee the MHPI program and detailed justification for these funds.

2. The Components shall add a separate tab and section called "Housing Privatization" (after the Leasing section) in the family housing justification book, and include, as a minimum, the following information in the new section:

a. A narrative summary of the Component's overall family housing privatization efforts and accomplishments/progress to date.

b. A summary list of privatization projects and associated funding requested in the Construction portion of the program and budget submission. (DD Form 1391 for New Construction and Post Acquisition projects should indicate which projects are intended as a source of funding for privatization initiatives.)

c. Awarded Privatization Projects. Provide a list of all awarded projects, including: award date; types of financing (direct loan, loan guarantee, investment, differential lease payments, etc), scored amounts for each type of financing used in the deal; and total number of end-state units in the privatized project (breakout total units conveyed, renovated, replaced, and/or new/added units).

d. Fund sources for financing privatization projects. Provide a list showing funding sources, **by appropriation and project (include project number)**, to finance each privatization project.

e. OP-5 Exhibit. An OP-5 exhibit shall be prepared for the Housing Privatization Support (as defined previously in 060202.B.1) budget and must include detailed explanation/justification for the request, and explanation for all increases and decreases from prior budget request.

3. Credit Financing Schedule

a. OMB Circular A-11 requires credit financing information for privatization projects to be reflected in the President's budget. Credit financing information required for the President's budget is explained in OMB Circular A-11, section 85 (Federal Credit).

b. For all privatization projects that have been awarded and those planned for award in the current year, Budget year, and BY1, the Components shall provide the relevant credit financing data required for the preparation of credit financing schedules by November 1. For the current year, budget year and BY1, this data will include a separate list by Component and FY. Each list will include, the installation name, state, type of financing, total number of end-state units in the privatized project (breakout total units conveyed, renovated, replaced, and/or new/added units, total scored amount for each type of financing, and source of funds. The source of funds will be broken out by FY of funds, account (new construction or improvements etc...), project name and amount. Additional credit financing data, to include credit subsidy re-estimate data, required for the preparation of the President's

budget will be requested separately by the OUSD (Comptroller), Directorate for Military Personnel and Construction.

060307. Unaccompanied Housing

A. Purpose

This section prescribes instructions for the preparation and submission of budget exhibits related to Unaccompanied Housing (UH). These exhibits are to be included in the unaccompanied housing section of the Military Construction Budget Estimates for OSD and OMB. They are not required to be included in the President's Budget justification books for Congress, but will still need to be updated and provided to OUSD (Comptroller), Directorate for Military Personnel and Construction, separately.

Similar to Family Housing, the ultimate goal is to have UH at 90% Q1/Q2 adequacy for U.S. and Foreign. As such, UH exhibits have been developed to support the two UH performance goal and targets, one for U.S. and the other for Foreign.

B. Submission Requirements

1. The UH-1a/1b Exhibits – “Inventory and Condition of Government-owned Unaccompanied Housing (UH).” These budget exhibits are based on facility condition (Q-Ratings). Additional information on Q-Ratings is available in OSD AT&L memorandum of September 5, 2007, “Facility Quality Rating Guidance”; and the GSA Guidance for Real Property Inventory Reporting. All Government-owned UH inventory should be reflected in this exhibit, including transitional UH.

a. UH-1a Exhibit - “Inventory and Condition of Permanent Party, Government-owned Unaccompanied Housing (UH)”. The two DoD Performance Goals are to have 90% of Government-owned, Permanent Party UH bedrooms: 1) in the United States (CONUS plus Hawaii and Alaska) at Q1-Q2 adequate levels by FY 2017, and 2) for the foreign locations (includes U.S. Territories) at Q1-Q2 adequate levels by the end of FY 2017. Inventory counts and Q-Ratings should be consistent with the SNaP and Real Property Inventory databases. This includes Facilities Analysis Categories, 7210 – Enlisted UH, and 7240 – Officer UH.

b. UH-1b Exhibit – “Inventory and Condition of Training/Mobilization, Government-owned Unaccompanied Housing (UH).” At this time, there are no DoD Performance Goals associated with Training and Mobilization UH. This includes Facilities Analysis Categories, 7213 – Student UH, 7214 – Annual Training/Mobilization UH, and 7218 – Recruit/Trainee UH.

2. UH-2 Exhibit – “Configuration and Privacy of Permanent Party Unaccompanied Housing (UH).” This budget exhibit was created to capture the Services’ configuration standard design, their range of various configurations in use, the privacy of assigned members (number of personnel who are sharing a bedroom or living on ship), and the

Services' plans for improvement in these areas. At this time, there are no DoD Performance Goals associated with configuration and privacy. However, the Services are requested to provide their own specific configuration and privacy standards and goals, and implementation plans, including timelines.

3. UH-3 Exhibit – “Summary of Military Construction Unaccompanied Housing Projects”. This UH project list should match information already provided in Program/Budget submissions and related DD Form 1391s (Military Construction Project Detail).

0604 CONGRESSIONAL JUSTIFICATION/PRESENTATION

060401. Purpose

This Section presents the justification book organization and the exhibit requirement for submission to Congress. Examples of budget exhibits can be found in Section 0605, below.

060402. Organization of Justification Book

A. Justification material will be entitled:

Supporting Data for Fiscal Year
20BY Budget Estimates
Descriptive Summaries

B. The budget justification book will be divided into sections, organized as shown on the following pages.

Organization:

Table of Contents and Summary Data

The summary data will include a state list of all major, minor and family housing construction projects.

Section 1 Special Program Considerations

This section will include the following topics with a short narrative or summary table, and other special interest items as applicable.

Facilities Funded Through Other Than Military Construction
Pollution Abatement Program
Energy Conservation Program
Drug Interdiction Program

- Section 2 Budget Appendix Extract
 Legislative Language

- Section 3 Installation and Project Justification Data
 DD Forms 1390 and 1391

- Section 4 Architectural and Engineering Services and Construction Design

- Section 5 Unspecified Minor Construction

- Section 6 Defense Access Roads

- Section 7 Family Housing

- Section 8 Homeowners' Assistance (Army Only)

- Section 9 Long-Term Facilities Contracts

- Section 10 Working Capital Fund Capital Construction

C. The volume will be organized by state/country and location. Projects should be shown in precisely the same order as they appear in the State List portion of the Construction Annex (C-1).

D. All construction line items included in the funding program in support of the total obligational authority for the Military Construction appropriations in the President's Budget will be summarized on Installation and Project Justification Data, DD Forms 1390 and 1391/1391C. In addition to data provided on DD Forms 1390 and 1391, justification books submitted to the House and Senate Appropriations, the House Armed Services Committee, and the Senate Armed Services Committees in support of Military Construction Program requests will contain supplemental data prepared in the formats prescribed below on the reverse of DD Form 1391. The Guard and Reserve Forces will use a DD Form 1390S continuation page in lieu of DD Form 1390. All forms required for a project will be grouped and combined in the same book arranged in category code order within state and station.

E. Section 5 will include an exhibit entitled "Long-Term Facilities Contracts", separately listing projects proposed under [Title 10 United States \(U. S. C.\), Sections 2809](#) and [2812](#) authorities, arranged in the same order as they would appear in the State list portion of the Construction Annex (C-1). This exhibit will be followed by the DD Forms 1390 and 1391 for each new project proposed. The section will also include a special financing table

reflecting both prior approved long-term facility contracts and new requests, as specified in Section 060301 B.7, above.

F. Section 060502 contains detailed instructions for preparation of DD Forms 1390 and 1391/1391C. Detailed instructions for preparation of the supplementary justification material are given in Section 060405, below. The following additional instructions apply:

1. In addition to other data requirements, components are required to indicate on the DD Form 1391C for each individual project a statement indicating whether or not an economic analysis has been utilized in evaluating the project. In those instances where an economic analysis has not been prepared, a statement is required indicating why such analysis is not applicable or pertinent.

2. Lump-sum requests for a number of construction projects at a single location or for related projects at several locations will not be considered.

3. Projects associated with intelligence or intelligence-related operations will be so identified. Block 5, Program Element, DD Form 1391, will include the annotation NIP or MIP as appropriate.

4. All DD Forms 1391 should include a name and phone number of the civil engineer at the installation responsible for the requested project. This information should be displayed in the bottom left hand corner on the last page of the 1391.

5. The budget submission should include the Restoration and Modernization (R&M) unfunded requirement at all installations for which there is a requested construction project. This information is to be provided as subsection c. in block 9 of the DD Form 1390 (Block 10 for the Guard and Reserve 1390s) under the heading, "R&M Unfunded Requirement." In addition, for all unaccompanied housing project requests, the DD Form 1391 is to show all unaccompanied housing R&M conducted in the past 2 years (BY-2 and BY-1) and all future R&M requirements (defined as R&M funding for unaccompanied housing included in the FY DP years) for unaccompanied housing at that installation. This information should appear as the last data in the DD Form 1391 under the heading "BY-2 Unaccompanied Housing R&M Conducted," "BY-1 Unaccompanied Housing R&M Conducted," and "Future Unaccompanied Housing R&M Requirements."

G. Justification Book Covers and Binding of Data

1. Justification materials will be provided on 8-1/2" x 11" white paper, typed across the short dimension of the paper (portrait) with 3 holes punched on the left margin and bound with Acco fasteners. Material is to be printed on both sides of the page using 1" margins. The DD Form 1390 should be printed on white paper, not on yellow paper as previously required.

2. Separate justification books will be prepared for those projects which require classified information on the DD Forms 1390 and 1391/1391C.

3. The individual Defense Agencies will submit either originals of DD Forms 1390 and 1391/1391C, or copies of a quality suitable for printing. These are to be used for preparation of consolidated justification books for submission to congress. These submissions are not to be punched or bound. Pages are not to be numbered. Covers are not required. One complete set of each is to be delivered to the OUSD (Comptroller), Directorate for Military Personnel and Construction; and the ODUSD/[Installations and Environment](#).

4. Each justification book (and each submission of the Defense Agencies described in paragraph 3, above) is to include an index of installations and projects by state and country, arranged alphabetically, in precisely the same order as the projects appear in the State List portion of the Construction Annex (C-1).

060403. Submission of Military Construction Justification Books

A. Review by OSD. Before the justification material can be released by the Military Departments to the Congress, it must be reviewed by USD (Comptroller) to assure that policies and decisions made by the President and Secretary of Defense are fully reflected. Justification material prepared by the individual Defense Agencies will be submitted to USD(Comptroller) as requested for preparation of consolidated justification books for submission to the Committees on Appropriations.

B. Security Clearances. Each Military Department will be responsible for the clearance of its justification books through OSD Security Review. OUSD(Comptroller) will be responsible for the clearance of the Defense Agencies justification books through OSD Security Review.

C. Number of Copies. Three advance sets of justification books will be forwarded for review to the Directorate for Military Personnel and Construction, OUSD(Comptroller), Room [3C654](#), Pentagon. See [Volume 2A, Chapter 1](#) of this Regulation for the detailed instructions on number of copies and distribution of printed material.

D. Instructions for Preparation of Supplemental Justification Data in Support of Annual Military Construction Programs. Each data requirement shall be filled in as appropriate including negative responses to indicate that the item has been addressed.

1. Instructions for Preparation of Summary Lists. Each Military Service and Defense Agency shall prepare a State List and an Installation List. These lists shall include every project for which funds have been requested.

2. Instructions for Preparation of DD Form 1390 Supplemental Installation Data. The following data shall be provided in an appropriate place on DD Form 1390:

a. Outstanding Pollution and Safety (OSHA) Deficiencies

(1) Air Pollution. Enter cost of all air pollution abatement projects for the out years. Do not include cost of budget year projects.

(2) Water Pollution. Follow instructions for Air Pollution, a.1., above.

(3) Safety and Occupational Health Deficiencies. Follow instructions for a.1 above and use definitions cited in Section 060403 above for this data.

3. Instructions for Preparation of DD Form 1391 Supplemental (Facility) Data. The following data shall be provided for each facility in the program using the back of standard DD Form 1391.

a. Design Data (Estimates)(1) Status

(a) Enter date design was started (i.e., date when all appropriate design contracting procedures have been completed and the designer directed to proceed with design).

(b) Enter the percent of design completed as of January 1, of the year in which the budget is submitted to the Congress (e.g., January 2, 2000, for FY 2001 projects).

(c) Enter date design expected to be 35% completed.

(d) Enter date design will be completed (i.e., date when all reviews will be completed and construction contract ready for advertising).

(e) Include the annotation “parametric estimates have been used to develop project cost” if the cost estimate is based on parametric estimates in lieu of the traditional 35% design.

(f) Enter the type of design contract (design-bid, design-bid-build, or other, if other, provide a brief description of the design contract).

(g) Indicate whether an energy study and a life-cycle analysis was performed in support of the design of the proposed facility.

(2) Basis

(a) Indicate whether or not design is based on a standard or definitive design.

(b) If answer to (a) is affirmative, indicate where design was previously used.

(3) Total Design Cost. Indicate total federal cost (all costs to be charged to planning and design accounts) as follows:

(a) Cost of the production of plans and specifications (those costs included within the 6 percent statutory cost limitations).

(b) All other costs of design.

(c) Total Cost (a + b or d + e).

(d) Amount of cost estimated to be spent on contracts.

(e) Amount of cost to be spent in-house (total cost if design is all within house; overhead and administration costs if design is contracted out, or other breakout).

(4) Construction Contract Award Date. Indicate month and year the contract is planned to be awarded to the construction firm.

(5) Construction Start Date. Indicate month and year construction is planned to start.

(6) Construction Completion Date. Indicate month and year construction is planned to be completed.

b. Equipment Associated with This Project Which Will be Provided From Other Appropriations

List only those items which support the cost shown in Block 9 of the DD Form 1391, for Equipment Provided from Other Appropriations. Enter the equipment nomenclature, procuring appropriation, fiscal year in which the equipment was appropriated or is to be requested and the cost in thousands of dollars.

c. Working Capital Fund Projects. DD Form 1391's submitted in support of Working Capital Fund Capital Budget requirements will be labeled as such in Block 4, above the project title.

E. FYDP Project Listing. Military Construction/Family Housing Outyear Project Data will be submitted via the Automated Construction Program (C-1 Annex) at the time program and budget submissions are due to OSD for review. Additional guidance on the Automated Construction Program is provided in Volume 2A, Chapter 1, section 010504 of this Regulation. Construction data elements and record formats for the Automated Construction Database are prescribed on the Secret Internet Protocol Router Network (SIPRNET) home page of the OUSD (Comptroller). The out year project data exhibits for the Active Forces will not be included in the justification books provided to Congress. However, the justification book for each component of the National Guard and Reserve, as well as the Defense Agencies will contain a listing of all projects that are funded in the FYDP.

060404. Submission of Family Housing Justification Books

A. Family Housing Justification, Military Departments. The format for the Congressional justification books for Family Housing will be identical to that detailed in Section 060302, above for the budget estimates, with the following exceptions:

1. Submission Requirements. Family Housing Congressional justification material will be submitted with the Military Construction justification books for each military department. The Family Housing material should follow that provided for Military Construction. (See Section 060302B.2.b, above)

2. DD Form 1390, Military Construction Program. Form will be prepared in accordance with section 060502, below. One form is required for each location. Personnel data should be based on latest approved totals for the installation or area. Inventory data should include only Family Housing assets. The form should be printed on white paper, and should precede the DD Form 1391.

3. Tri-Service Family Housing Cost Model. This form is not required. (See subparagraph 060302B.5.b.(3), above).

4. Civilian Personnel Costs -- Exhibit OP-8. This form is not required. (See subparagraph 060302B.9.b.(2), above).

5. Furnishings Summary -- Exhibit FH-3. This form is not required. (See subparagraph 060302B.10.a, above)

6. Submission by Department of the Army Only. Since the Department of the Army has been designated as the executive agent to execute the Homeowners' Assistance Program for the DoD, only the Department of the Army will submit justification material as described in Section 060303, above.

B. Family Housing Justification, Defense Agencies

1. Component Responsibilities. Separate justification material, in the

format described in Section 060302, above and similar to that specified above for the Military Departments, will be provided by the individual Defense Agencies. The submissions will provide separate Construction, O&M, and Leasing exhibits, as appropriate, for Defense Intelligence Agency, Defense Logistics Agency, and National Security Agency.

2. Consolidation and Review by OSD. Original pages of justification material prepared by the individual Defense Agencies will be submitted to the Directorate for Military Personnel and Construction, OUSD (Comptroller) Program/Budget, Room 3C654, as requested by the call letter for the preparation of consolidated justification books for submission to the Congress. One copy of the justification material should be submitted concurrently to the ODUSD (Installations and Environment).

3. Justification Material Format. Justification material submitted by the Defense Agencies will be unbound. Covers are not required. Pages will not be numbered. All data will be provided on 8-1/2 inch by 11 inch paper, typed across the short dimension of the paper with 1 inch margins, except for the FH-2, and FH-4 exhibits, which will be typed across the long dimension.

4. Classification. All justification material will be unclassified.

060405. Submission of Justification Books for the Homeowners' Assistance Fund, Defense Appropriation

A. Organization of Justification Books. Justification data will include items detailed in Section 060303, above for the budget estimates. Material will be incorporated as the final section of the Army's military construction/family housing justification book.

B. Submission by Department of the Army Only. Since the Department of the Army has been designated as the executive agent to execute the Homeowners' Assistance Program for the Department of Defense, only the Department of the Army will submit justification data.

C. Review by OSD. Before the justification material can be released to the Congress, it must be reviewed by the USD(Comptroller) to assure that policies and decisions made by the President and Secretary of Defense are fully reflected.

D. Security Clearances. The Department of the Army will be responsible for obtaining clearance of the justification book through OSD Security Review.

E. Number of Copies. See Volume 2A, Chapter 1, section 010401 of this Regulation for instructions on the number of copies required and the distribution.

0605 MILITARY CONSTRUCTION/FAMILY HOUSING APPROPRIATION SUBMISSION FORMATS

060501. Purpose

The formats provided on the following pages reflect guidance presented in previous sections of the chapter. Unless modified in a submission budget call, these formats should be adhered to.

INSTRUCTIONS FOR PREPARATION OF
DD FORM 1390, "FY_ MILITARY CONSTRUCTION PROGRAM"

The DD Form 1390 will be used by the active services to list the projects proposed for inclusion in the Military Construction Program, including requests for (1) new authorization; (2) funding of new authorization; and (3) funding of prior years' authorization. The Guard and Reserve Forces will use a DD Form 1390s instead of the DD Form 1390.

Instructions for preparation of DD Form 1390 follow:

Items 1 and 2 - Component and Date: Self explanatory. Date prepared or the date the budget justification material is due to OSD.

Item 3 - Installation and Location: Enter the official name of the installation. Enter the name of the state if within the United States or the name of the country or island chain if outside the United States. In the case of Guard and Reserve facilities, enter the city and state if the facility is not to be constructed on a military installation. Use "classified location" only when necessary to meet security classification guidelines.

Item 4 - Command: Enter the name of the host major command responsible for management control of the installation.

Item 5 - Area Construction Cost Index: Enter the construction cost index used in estimating the cost of the project(s). Consult the latest guidance published by DUSD(I).

Item 6 - Personnel Strength: Enter personnel strengths for permanent, student, and support activities. Include transient personnel where applicable.

a. As of: Enter September 30 of the year of submittal to OSD.

b. End FY 20_: Enter end of the budget year, plus 5 years.

Item 7 - Inventory Data (\$000):

a. Total Acreage: Enter the number of acres owned and/or leased by the Government, under accountability of the Military Department concerned, as shown in the latest Inventory of Military Real Property.

b. Inventory Total As Of September 30 ____: Enter the date and the current real property inventory total (except land rent). These totals should include inventory amounts for family housing.

c. Authorization Not Yet In Inventory: Enter the amount of funded and unfunded authorization for the construction of facilities or acquisition of land which have not been included in the September 30 Inventory of Real Property. This amount will include only such authorization as is related to either the Military Construction Program or the Family Housing Program as the case may be.

- d. Authorization Requested In This Program: Enter the total cost for construction and land acquisition being requested for authorization in the budget year.
- e. Authorization Included in Following Program: Enter the total estimated cost of construction and land acquisition required for authorization for the program year following the budget year.
- f. Planned in Next Three Program Years: Enter the total estimated cost of construction and land acquisition required for the three years beyond the budget year and following year programs (i.e., second, third, and fourth years beyond the budget year). This amount should agree with the data used in the preparation of the military construction or family housing estimates contained in the Future Years Defense Program.
- g. Remaining Deficiency: Enter the total estimated cost of construction and land acquisition required for existing facilities deficiencies remaining beyond the three program years covered in 7.f., above.
- h. Grand Total: Enter the total of items 7.b. through 7.g.

Item 8 - Projects Requested In This Program: Installation or activity projects for the budget year shall be listed individually with attendant information provided in the appropriate column. Both major and minor construction projects are to be included as shown on the sample form.

- a. Column 1 - Category Code: Enter the applicable category code consistent with the category code shown in Item 6 of the DD Form 1391 for the project.
- b. Column 2 - Projects Title: Enter the project title consistent with the title shown in Item 4 of the DD Form 1391.
- c. Column 3 - Scope: Enter the same quantity shown in Item 9 of the DD Form 1391, "Cost Estimates," and include the unit of measure (e.g., SM, SY, LF, PR, EA, CY, etc.). Immediately following or directly beneath the metric quantity and unit of measure, parenthetically include the English quantity and measurement. In those instances where a specific quantity cannot be satisfactorily identified, enter LS for lump sum.
- d. Column 4 - Cost (\$000): Enter the project cost consistent with the cost shown in Item 8 of the DD Form 1391. If two or more projects are listed, enter the total in this column, and use this figure in Item 7.d., above.
- e. Column 5 - Design Status: Enter the most accurate possible dates for the start and completion of design using numerals (e.g., 6/94, 11/95).

Item 9 - Future Projects:

- a. Included in Following Program (FY__): List all installation projects regardless of the number and include columnar data comparable to that provided in Item 8, but leave design status blank.

- b. Planned Next Three Years: List projects planned for next three years in 9.b. and include columnar data comparable to that provided in Item 8, but leave design status blank. The total costs of the projects listed under Items 9.a. and 9.b. should be identical to the entries under Items 7.e. and 7.f., respectively. If additional space is required to list all projects under Items 9.a. and 9.b., a separate sheet of paper should be utilized.
- c. Also include the R&M unfunded requirement in this block under the heading "R&M Unfunded Requirement."

Item 10 - Mission or Major Functions: Enter the principal types of peacetime units and/or functions assigned or scheduled for assignment to the installation that require facilities or substantially contribute to the base population. Also enter the current mission stating precisely what the activity will do and list the major functions performed. All entries should address the time period shown in Items 6.a. and 6.b.

Item 11 - Outstanding Pollution and Safety Deficiencies (\$000): List all projects included in the budget request and planned for the next three years that are programmed for outstanding pollution and safety deficiencies. Use the format in Item 8.

Notes:

1. Space requirements for Items 8, 9, 10, and 11 may vary. Therefore, remaining space on the DD Form 1390 may be utilized as necessary for the specific entries and continued on a separate sheet of paper. A solid black line should be used to set Items 8, 9, 10, and 11 apart and individual item titles and subheadings should be added.
2. Projects that were authorized (but not appropriated) in prior years will be listed in the same manner as projects for which new authorization is requested. The fiscal year in which the project was authorized will be shown after the project title in Item 8.

INSTRUCTIONS FOR PREPARATION OF
DD FORM 1390s, "FY_ GUARD AND RESERVE FORCES MILITARY CONSTRUCTION"

The DD Form 1390 will be used by the Guard and Reserve Forces to supplement the data entered in the DD Form 1391, FY 19_ Military Construction Program.

Instructions for preparation of DD Form 1390s follow:

Item 1 - Component: Enter the specific Guard or Reserve Forces component of the active services. Recognized abbreviations such as ARNG (Army National Guard); ANG (Air National Guard); etc., are acceptable.

Item 2 - Date: Date prepared or the date to OSD.

Item 3 - Installation and Location: For facilities not located at DoD installations or commercial airfields, enter the name of the city and State in which the projects are located. For other facilities, enter the name of the DoD installation and its geographical location to the extent that it is not included in the installation name.

Item 4 - Area Construction Cost Index: Enter the construction cost index used in estimating the cost of the project(s). Consult the latest guidance published by DUSD(IA&I).

Item 5 - Frequency And Type Of Utilization: Enter the type of utilization (e.g., weekend drill, weeknight drill, unit training activities, annual active duty for training, etc.) and indicate number of days the installation is used per month/year, as appropriate.

Item 6 - Other Active/Guard/Reserve Installations Within 15 Mile Radius: List the nearest six existing Active and existing or programmed (within the next five years) Reserve component facilities and their distances, within a fifteen mile radius of the proposed construction site. If no facilities exist within the fifteen mile radius, identify the three closest installations. Indicate the year the facilities were constructed and the size of the facility.

Item 7 - Projects Requested In This Program: Installation or activity projects for the budget year shall be listed individually with attendant information provided in the appropriate column. Both major and minor construction projects are to be included.

a. Column 1 - Category Code: Enter the applicable category code consistent with the category code shown in Item 6 of the DD Form 1391.

b. Column 2 - Project Title: Enter the project title consistent with the title shown in Item 4 of the DD Form 1391.

c. Column 3 - Scope: Enter the same quantity shown in Item 9 of the DD Form 1391, Cost Estimates, and include the unit of measure (e.g., SM, SY, LF, PR, EA, CY, etc.). Immediately following or directly beneath the metric quantity and unit of measure, parenthetically include the English quantity and measurement. In those instances where a specific quantity cannot be satisfactorily identified, enter LS for lump sum.

d. Column 4 - Cost (\$000): Enter the project cost consistent with the cost shown in Item 8 of the DD Form 1391. If two or more projects are listed, enter the total in this column. In the case of Army National Guard projects where part of the financing is from other than Federal sources, enter only the Federal share.

e. Column 5 - Design Status: Enter the most accurate possible dates for the start and completion of design using numerals (e.g., 6/94, 11/95).

Item 8 - State Guard/Reserve Forces Facilities Board Recommendations (Date): Enter the following statement “facilities identified in Item 6 have been examined by the State Reserve Forces Facilities Board for possible joint use/expansion. The Board recommendations are .” (Note: Project folders will contain justification data to support the recommendation.)

Item 9 - Land Acquisition Required (Number of Acres): Enter the acreage required for the project and the method of acquisition (e.g., fee, title, donation, lease, etc.). For all projects involving land acquisition, a site survey must be conducted in accordance with DoD Directive 1225.5 and the following statement must be entered, either in Item 9 or Item 10: “Site survey has been completed and site is suitable for constructing the proposed project at the estimated cost indicated.”

Item 10 - Projects Planned In Next Four Years: Enter the Project Title and Estimated Cost for projects planned at the installation identified in Item 3 for the next four years beyond this program year. A maximum of five projects should be identified. For armory-type projects, list those facilities which are programmed for replacement within the next four years within a fifteen mile radius of the proposed project as well as the year the facilities were constructed. If none are planned, so indicate. Items shall contain columnar data comparable to that provided in Item 7 with the exception of design status which should be left blank. Also include the restoration and modernization (R&M) unfunded requirement in this block under the heading “R&M Unfunded Requirement.”

Item 11 - Personnel Strength As Of _____: In the appropriate columns, enter the number of authorized and actual personnel at this facility as of six months prior to project submission.

Item 12 - Reserve Unit Data: List the designated units assigned and/or scheduled to be trained in the requested facilities. Enter the corresponding authorized and actual strengths of each unit, indicating actual strength as of the date listed in Item 11.

Item 13 - Major Equipment and Aircraft: List the vehicular and/or other large equipment and aircraft which are to be accommodated at the installation and which have a bearing on the type and/or scope of the facility requirement. When vehicle maintenance shops are being requested, the Weighted Equipment Density (WED) for the vehicles to be maintained will be included in this item.

INSTRUCTIONS FOR PREPARATION OF
DD FORM 1391/1391C
"FY __MILITARY CONSTRUCTION PROJECT DATA"

1. The DD Form 1391 will be used, as applicable, by the Active, Guard, and Reserve Forces to support each project proposed for inclusion in the Military Construction Program. This includes both new authorization projects in the program as well as urgent unforeseen projects using emergency or contingency authorization. This form will also be used to transmit supporting data for the following types of projects:
 - a. Minor construction projects, 10 U.S.C. 2805.
 - b. O&M type projects required to be submitted to OSD in accordance with the provisions of DoD Directives 4270.36, 1225.7 and 4165.6.
 - c. Nonappropriated fund construction projects requiring OSD concurrence or approval.
 - d. Family housing projects.
2. The continuation sheet (DD Form 1391c) will be used as required for explanation of the requirement for the project (item 11.) and other mandatory statements concerning flood plains and wetlands environmental impact, accessibility to the handicapped, fallout shelters, etc. However, when submitting an annual Military Construction Program, these mandatory statements may be included in the front of the program book.
3. Instructions for preparation of DD Form 1391 are outlined below:
 - a. ITEMS 1 and 2 - COMPONENT AND DATE: Self-evident.
 - b. ITEM 3 - INSTALLATION AND LOCATION: Enter the official name of the installation. Use code name or designations only when necessary to preclude security classification or when an official name is not available. Enter the name of the State if within the United States or the name of the country or island chain if outside the United States. In the case of Guard and Reserve Forces facilities, enter the city and State if the facility is not to be constructed on a military installation.
 - c. ITEM 4 - PROJECT TITLE: Enter the title used in item 8, column 2 of the DD Form 1390, assuring that it corresponds to the category code in item 6.
 - (1) Except for new construction, the type of work, such as "addition," "conversion," "alteration," or "modernization" shall be used in the title.
 - (2) Where a single structure is to serve more than one purpose, the title should reflect the predominate use.
 - (3) The scope of a project or number of buildings involved will not be shown in the title (i.e., and "Enlisted Quarters" project will not be shown as "Two 250 Man Enlisted Quarters.")
 - (4) Avoid the inclusion of acronyms.

(5) If a project requires land acquisition estimated to cost in excess of \$50,000, the project title will be suffixed with "With Land Acquisition". Land to be acquired for the construction of several projects or for other purposes shall be programmed as a separate project and identified on a separate DD Form 1391.

d. ITEM 5 -PROGRAM ELEMENT: Enter the appropriate number as it relates to the "Future Years Defense Program," except when inclusion of this number would require classification of an otherwise unclassified form.

e. ITEM 6 - CATEGORY CODE: Enter the applicable category code using no less than three or more than six digits consistent with item 8, column 1 on DD Form 1390.

f. ITEM 7 -PROJECT NUMBER: Enter the number of the project assigned by the Component concerned. If no number has been assigned, indicate N/A (not applicable).

g. ITEM 8 - PROJECT COST: Enter the estimated cost in thousands of dollars (excluding design except for family housing) for which funding is being requested. The amount indicated should be identical to that shown in item 8, column 4, of the DD Form 1390 and should include the costs of the primary facilities, supporting facilities, contingencies, supervision, inspection, and overhead. Figure will be the Total Request entered in item 9. and will not include the figure entered for "Equipment Provided From Other Appropriations."

h. ITEM 9 - COST ESTIMATES: This portion of the DD Form 1391 is comprised of several elements which collectively comprise the Total Request. Each element will be identified, quantified, and costed in a series of five column entries as follows:

(1) Item: Identity of the Primary or Supporting Facility, etc. After each "Item" entry where the metric measurement (square meters) is used in the Unit of Measure column, include in parenthesis the size of the facility in the English measurement (Square Feet).

(2) U/M (unit of Measure): Each entry in the "item" column will be followed in the "U/M" column by the accepted two-character abbreviation for the unit of measure associated with the quantity of the item concerned (e.g., SM, SY, LF, KV, etc.). Where it is not feasible to show a specific unit of measure, use LS (Lump Sum).

(3) Quantity: Enter the required number of units of measure comprising the "item" entry. Where "LS" is the unit of measure, enter a dash (-).

(4) Unit Cost: Enter the appropriate unit cost for each "item" entry where a unit of measure is indicated. Where the unit of measure is "LS" enter a dash in the unit cost column.

(5) COST (\$000):

(a) Enter the cost, in thousands of dollars, represented by the product of the "Quantity" and "Unit Cost" entries.

(b) When a single primary facility is listed enter the cost of the facility without parentheses. If unusual features or functional areas of the primary facility are listed, the cost of each shall be enclosed with parentheses. The sum total cost of these features shall equal the figure entered for the primary facility.

(c) When more than one primary facility is listed, the cost of each facility will be entered in the cost column without parentheses.

(d) The cost entry for the item "Supporting Facilities" shall be entered without parentheses and shall be the total of the various supporting facilities listed. However, each of the individual supporting facility costs shall be enclosed by parentheses.

(e) The cost entered for items such as "Subtotal," "Contingency," "Contract Cost," "SIOH," and "Total Request" shall be entered without parentheses. However, the cost for "Equipment Provided From Other Appropriations" shall be entered as a nonadd item.

(f) Projects in category Code 500 will have separately identified the equipment purchased for the Surgeons General as "Category Equipment" showing the total cost of such equipment added to the "Total Request". Labor cost for installation of "Category E" equipment should be included in the unit cost for the primary facility because it is part of the "Total Contract Cost."

(6) PRIMARY FACILITY: Enter the identity and required columnar data for the primary facility. When the primary facility consists of two or more components the cost of the primary facility will be the sum of the costs of the individual components. In addition, subordinate components will be entered under the primary facility after indenting two spaces.

(a) Normally, the cost of fixed equipment provided as part of the construction contract (e.g., cooling, heating, and electrical systems, etc.) will be included in the cost of the primary facility. However, when the primary facility includes unusual features of significant cost, such as hyperbaric vessels and standby cooling, such features should be identified under the primary facility.

(b) Land acquisition required specifically for the project and estimated to cost \$50,000 or more shall be listed in the same manner as an unusual feature. Conversely, land acquisitions estimated to cost less than \$50,000 are to be accomplished under 10 U.S.C. 2672 and should not be listed.

(c) For family housing new construction, the entry under primary facility will show the total number of units in the project. As subordinate components to the primary facility "Units to 5' line," "GFE," and "Land Acquisition" will be shown in parentheses in the cost column to add up to the cost of the primary facility shown. "Item 10 will be used to show the numbers and cost computations for the various types of living units which comprise the primary facility.

(d) “Lump-sum” funding requests are prohibited. The only instance for which separate construction projects can be combined under a single DD Form 1391 is when each of the projects is in the same general facility category (i.e., supply facilities, maintenance and production facilities, unaccompanied housing, etc.). Programs such as “facility upgrades,” “ATB Beddown Facilities,” and others combining a number of disparate construction efforts must be justified as separate projects. If it is planned, in execution, to construct several of these projects at a single location under one contract, a statement to that effect should be included in the “Additional” section of Item 10.

(e) Antiterrorism Force Protection/physical security measures: the entry under primary facility will show physical security improvements (e.g. special structural improvements, ballistic glass, etc.). Where land acquisition serves a specific purpose such as stand-off distance for force protection, the acquisition shall be listed as an antiterrorism force protection subordinate component to the primary facility.

(7) SUPPORTING FACILITIES: List those items of construction directly related to and required for the support of the primary facility. Such items should include (a) special construction features (piles, spread footings, seismic, fill, etc.); (b) utilities (gas, oil, steam, electric, and water supply lines as well as sanitary and storm sewers); (c) site preparation; (d) roads, sidewalks, and parking; (e) site improvements (seeding, sodding, landscaping, etc.); (f) antiterrorism force protection/physical security measures such as physical security site improvements (e.g. fencing, perimeter/area lighting, blast mitigation barriers, berms and landscaping, etc); and (g) demolition. All supporting facility items should be listed in terms of accepted units of measure and quantity whenever practicable. For family housing, design cost will be identified under “Supporting Facilities.”

(8) SUBTOTAL: Enter the sum of the costs shown for all primary and supporting facilities.

(9) CONTINGENCY: Enter the appropriate contingency rate, in parentheses, immediately following the item designation in column 1, and enter the cost equivalent in the proper column.

(10) TOTAL CONTRACT COST: Enter the sum of the “Subtotal” and the “Contingency” costs. In the case of Army National Guard, armory projects which are funded, in part, from other than Federal funds, enter the Federal costs on the first line and the State or other cost on the next line below.

(11) SUPERVISION, INSPECTION, AND OVERHEAD (SIOH): Enter the appropriate SIOH rate in column 1 after the item designation and reflect the cost equivalent in the proper column.

(12) DESIGN/BUILD: For major construction projects where the Design/Build contracting method is planned to be used, the design cost associated with the contract should be included in the Cost Estimates (Block 9) section of the DD Form 1391. The entry “Design/Build – Design Cost” will be used and should appear after the “SIOH” entry and before the “Total Request” entry with the associated cost in the proper column.

(13) **TOTAL REQUEST:** Enter the sum of the “Total Contract Cost” and the “SIOH”. This figure should be identical to the entry in item 8, “Project Cost (\$1000)”. Total request should be rounded-off to provide a more realistic approach to the presentation of MILCON programs. The following guidance is provided for “rounding-off” a projects’ total request:

<u>Project (P) Estimate</u> <u>(\$000)</u>	<u>Rounding Guidance</u> <u>(\$000)</u>
< 1,000	Nearest \$ 10K
1,000 to 5,000	Nearest \$ 50K
5,000 to 10,000	Nearest \$ 100K
10,000 to 15,000	Nearest \$ 200K
15,000 to 20,000	Nearest \$ 500K
> 20,000	Nearest \$ 1,000K

(14) **EQUIPMENT PROVIDED FROM OTHER APPROPRIATIONS:** Enter the total cost of equipment which is procured with other than MILCON funds and which is essential to the mission of the facility. DD Form 1391 should reflect only the cost of equipment identified in the Associated Equipment Report. If no such major equipment is associated with the project, enter a “zero” in the appropriate space. Note that this figure is not included in the “Total Request” above. This excludes minor items procured with O&M funds, and in the case of Army National Guard, excludes equipment provided from other than Federal appropriations.

i. **ITEM 10 - DESCRIPTION OF PROPOSED CONSTRUCTION:**

(1) In a clear and concise manner, provide a complete outline of all principal features of the work and its correlation with the various data entered in item 9.

(2) State whether or not the proposed construction is in compliance with applicable antiterrorism force protection measures and antiterrorism force protection standards.

(3) Begin with an accurate description of the primary facility. For buildings, indicate the materials planned to be used for the frame, walls, roof, and foundations, and identify the major functions for which space is being provided. For structures other than buildings, describe each major element required to produce a complete and usable facility. Avoid the use of generalities such as “most economical means” or “modern methods and materials.”

(4) Provide only such additional descriptive details as are necessary for clarity.

(5) Identify and list the buildings or structures to be demolished in connection with the proposed construction, if applicable.

(6) For single person quarters projects, indicate the grade mix of personnel, officer or enlisted, who will occupy the facilities.

(7) For projects involving additions, alterations, or conversions, describe the changes to be made.

(8) At the last entry in item 10, indicate the amount of air conditioning required (e.g., air conditioning - 15 tons).

j. **ITEM 11 - REQUIREMENT:** This portion of the DD Form 1391 is comprised of seven elements which are to be set forth in the following format:

(1) Immediately after the item title "Requirement" indicate, in appropriate units of measure, the total facility requirement (e.g., 5,500 SM), followed by two additional entries giving the status of the existing facility (e.g., adequate: 66,134 SF; substandard: -0-).

(2) **PROJECT:** Provide a one-sentence statement indicating what this project provides.

(3) **REQUIREMENT:** Provide detailed, informative statements as to precisely why the project is needed. Use positive statements to support the requirement and avoid the use of such words as "inadequate," "uneconomical," and "necessary" unless they are fully explained. Similarly, when identifying contributing factors, assure that the presentation leaves no pertinent questions unanswered (e.g., vulnerability to terrorist threats (reference threat/vulnerability assessment); excessive maintenance (show cost comparison); self-liquidation (show amortization); or advanced deterioration (describe effects)). The requirements must establish maximum utilization of existing facilities and identify alternatives considered, along with reasons for their rejection. If the project is a result of the Integrated Global Posture and Basing study, include the phrase, "This project is associated with the global Defense posture changes".

(4) **CURRENT SITUATION.** Describe how and under what conditions the requirement is presently being met. Comments should support the stated requirement and include the identity and description of current assets as well as the reason they are considered unsuitable for continued use. For Guard and Reserve Forces projects which are to replace existing facilities, identify and describe the disposition to be made of them. Similarly, for Guard and Reserve Forces facilities to be constructed and/or utilized jointly with other Guard/Reserve components, include pertinent information and status of coordination or negotiations.

(5) **IMPACT IF NOT PROVIDED.** Describe the manner and extent to which mission accomplishment would be affected if the project were not approved.

(6) **ADDITIONAL.** If the project is justified on an economic basis (primary economic analysis), so state and indicate the projected payback period. As a minimum, all renovation, upgrade, and replacement projects must be supported by an economic analysis. For all other projects, state precisely why a primary economic analysis cannot be applied to the project. When providing supporting documentation for the OSD budget submission, enter appropriate statements on commercial/industrial operations in accordance with the DD

OMB Circular A-76 and as required by applicable DoD Instruction. Entry of this information on the DD 1391 or on a separate DD 1391c is optional. For all overseas projects, state whether or not the project is eligible for NATO Infrastructure or other host nation funding.

(7) JOINT USE CERTIFICATION. Include the following certification: “The (enter the title of the certifying official) certifies that this project has been considered for joint use potential. Joint use construction is recommended.” Or “The (enter the title of the certifying official) certifies that this project has been considered for joint use potential. Unilateral construction is recommended. The reasons for this recommendation are...” The Joint Use Certification is not required for family housing construction projects.

(8) For all unaccompanied housing project requests, the DD Form 1391 is to show all unaccompanied housing restoration and modernization conducted in the past 2 years (BY-2 and BY-1) and all future R&M requirements (defined as R&M funding for unaccompanied housing included in the FYPD years) for unaccompanied housing at that installation. This information should appear as the last data in the DD Form 1391 under the heading "BY-2 Unaccompanied Housing R&M Conducted," "BY-1 Unaccompanied Housing R&M Conducted," and "Future Unaccompanied Housing R&M Requirements."

NOTE: Space requirements for items 10 and 11 will vary. Therefore, remaining space on the DD Form 1391 may be used as necessary for the specific entries and continued on a DD Form 1391c as appropriate. A solid, black line should be used to set items 10 and 11 apart, and individual item titles and subheadings should be added.

Implementation of Major Initiatives**Appropriation:** _____**Major Initiative #:** _____ (choose from the list below)**Major Initiative Title:** _____ (should correspond to the number chosen above)**General Description of Major Initiative:** (Explain the overall strategic goal.)**Total Budget Year Funding Obligation Plan (\$000):** _____**Budget Year Implementation Plan:** Explain what will be accomplished in the budget year to support the initiative. Be specific, including the impact on force structure.

**INSTRUCTIONS FOR PREPARATION OF
FAMILY HOUSING FURNISHINGS SUMMARY
EXHIBIT FH-3**

General. Furnishings to be included in Exhibit FH-3 are defined in Enclosure 6 to DoD Instruction 4165.43. For Unaccompanied Personnel Housing furnishings, see Exhibit OP-21, Chapter 232, this Manual.

Prior Year Data. For the prior year, enter estimated end year obligations.

Current and Budget Year Data. Estimates should be based on requirements determined to be in accordance with Section XI of DoD Instruction 4165.43 and applicable experience data. Provide an explanation for differences of more than \$1 million or 10%, whichever is less, between the total amount shown for furnishings in the current year and the budget year.

Moving and Handling. All identifiable transportation, handling and storage costs should be included here.

Initial Issue. Certain initial issue movable equipment, such as stoves and refrigerators, is usually procured as part of a construction project with construction funds, instead of operation funds. Likewise, in some circumstances leasing funds are utilized for furnishings in leased quarters. The FH-3 should reflect all family housing resources applied to furnishings, with memo entries to indicate the amounts funded from accounts other than the Furnishings portion of Operations and Maintenance.

Instructions:

3. Service name.
4. Budget year.
5. State name or foreign country.
6. Installation name.
7. Specific quarter's address or unit identification.
8. Calendar year in which the dwelling unit or building (in case of multiple units) was built. Identify with an asterisk (*) next to the year built those units that are on the national, state and/or local historic registry.
9. Total net square footage of the dwelling unit.
10. Total operations expenditures for the fiscal year.
11. Total utilities expenditures for the fiscal year.
12. Total maintenance expenditures anticipated for the fiscal year.
13. Total family housing operations and maintenance expenditures for the dwelling unit for the fiscal year.
14. If applicable, total lease cost anticipated for the dwelling unit for the fiscal year.
15. Include any non-family housing O&M expenditures and a short description of these expenditures as a footnote.

* Show these cost figures in thousands of dollars, carried out to no more than one decimal place.

*Condition Index (CI) is a general measure of the constructed asset's condition at a specific point in time with respect to physical condition and ability to support the current occupant or mission. CI is calculated as the ratio of the estimated cost of maintenance and repair requirements to Plant Replacement Value (PRV).

Include narrative describing the Military Department/Service's strategy for achieving the 90% Q1/Q2 adequacy goal for world-wide, government-owned Family Housing Inventory by FY 2012.

Reconciliation of Increases and Decreases

(Dollars in Thousands)

1. FY 19CY President’s Budget Request

2. Congressional Adjustments:

- a.
- b.
- c.
- etc.

3. FY 19CY Appropriated Amount

4. Supplemental Appropriation (if applicable):

- a. Civilian Pay Raise
 - 1) General Schedule
 - 2) Wage Board

b. Program Supplemental

- 1)
- 2)
- etc.

5. Price Growth:

(Categorize and explain significant price growth.)

6. Functional Program Transfers:

a) Transfers in

- 1)
- 2)
- etc.

b) Transfers Out

- 1)
- 2)
- etc.

(This category should be used only when a program function is transferred between activity groups or Services. This category should not be used to show the transfer of funds between activity groups in instances where the transfer of funds is not accompanied by a functional transfer of the program for which the funds were initially requested. Also see end “NOTE” on next page)

Reconciliation of Increases and Decreases (Continued)

(Dollars in Thousands)

7. Program Increases: (For each program increase or decrease, provide
 - a. quantitative and qualitative information relative
 - b. to these changes, as well as the baseline
 - c. (in dollars) to which the increase or decrease
 - etc. applies. Increases and decreases should address
specific adjustments in program, particularly
changes in inventory, management initiatives, transfers,
statutory requirements, etc.)
8. Program Decreases:
 - a.
 - b.
 - c.
 - etc.
9. FY 19CY Current Estimate
10. Price Growth (See 5 above)
11. Functional Program Transfers (See 6 above)
12. Program Increases (See 7 above)
13. Program Decreases (See 8 above)
14. FY 19BY1 Budget Request
15. Price Growth (See 5 above)
16. Functional Program Transfers (See 6 above)
17. Program Increases (See 7 above)
18. Program Decreases (See 8 above)
19. FY 19 BY2 Budget Request

NOTE: If a particular category of increase or decrease does not apply, leave it off the Exhibit OP-5 (rather than include it on the Exhibit OP-5 with a value of zero). Reprogramming actions included in the budget submission for the Current Year other than 1415-IR functional transfers should be shown separately. Except for this, categories of increases and/or decreases other than those shown above should not be used.

Exhibit HA-4 Homeowners Assistance Program and Financing

NATO Security Investment Program (NSIP) Project Data

Location	Installation	Project Title	Project Description	Budget Scheme	Project Cost	U. S. Cost Share	Other Nation Cost Share

Instructions:

1. This exhibit will identify the NSIP requirements, both military construction and procurement, at the project level detail. The exhibit should be completed for both the normal NSIP requirements and NATO Expansion requirements. The listing should be sufficiently detailed to identify discrete projects and initiative; aggregation at the capability package level i.e., Defense of the Mediterranean, is NOT sufficiently detailed.
2. Data should be submitted in hard copy and on a disk in a Microsoft Access format or in Microsoft Excel format.
3. Location: State or country where the project will be executed, i.e. Alaska, Turkey, or Italy.
4. Installation: Base where the project will be executed, i.e. Aviano AB.
5. Project Title.
6. Project Description: Explanation and description of each project.
7. Budgeted Scheme: Identify the number of NATO nations sharing in the cost of the project.
8. Project Cost: The total cost for the NSIP project. The projects cost should be displayed in thousands.
9. U.S. Cost Share: Identify the estimated U.S. share of the project cost. The U.S. share should be displayed in thousands.
10. Other NATO Cost Share: Identify the estimated share of the other NATO nations. The cost should be displayed in thousands.
11. This exhibit should be completed for the current year and budget year, i.e., current year FY 2001; budget Year FY 2002.
12. The hard copy and electronic submission should include a total that reflects the cost of normal NSIP requirements and NSIP Expansion requirements by fiscal year.

Exhibit NSIP -1 NSIP Project Data

NORTH ATLANTIC TREATY ORGANIZATION SECURITY INVESTMENT PROGRAM RECOUPMENT ESTIMATES

Component	Appropriation	Fiscal Year	Location	Installation	Project Title	Slice/Serial (if known)	Recoupment Budget Estimate	Rate of Conversion

Instructions:

1. This exhibit will be executed at the project level for each NSIP major construction project that is eligible for recoupment (reimbursement by other member countries for eligible costs). No project level detail is required for minor construction, planning and design, family housing improvement or BRAC.
2. Data should be submitted in hard copy and on a disk in a Microsoft Excel format.
3. Component should be the specific Service Active, Guard or Reserve Force component or Defense Agency. Recognized abbreviations such as ARNG (Army National Guard), etc. are acceptable.
4. Appropriation should be a four digit number (treasury code).
5. Fiscal year should be a four-digit number.
6. Location is the two digit state or country code.
7. Installation is the military base where the project is being built.
8. Slice/Serial, if known, or pre-financing notification reference number.
9. Recoupment budget estimate amount is in thousands.
10. The estimated budget recoupment should reflect the rate of conversion at the time of estimate.
11. For the hard copy, the data should be sorted by fiscal year, location and then by installation. The hard copy and should also include a total for each fiscal year.

Date
 Point of Contact: Name, Organization, and Phone number
