CHAPTER 10

PUBLIC ENTERPRISE, MANAGEMENT, AND TRUST FUNDS

1001 GENERAL

100101. Purpose

A. This chapter highlights the policies and justification procedures underlying budget formulation and congressional justification. The provisions of Volume 11B “Reimbursable Operations, Policy and Procedures – Working Capital Funds (WCF),”, and of Volume 2B, Chapter 9, apply to the Pentagon Reservation Maintenance Revolving Fund and Buildings Maintenance Fund.

B. The following accounts are covered:

Section

1002

Public Enterprise Funds

National Defense Stockpile Transaction Fund
Pentagon Reservation Maintenance Revolving Fund
National Defense Sealift Fund
Buildings Maintenance Fund

Management Funds

Conventional Ammunition Working Capital Fund (**Ceased** operating as a revolving fund at the end of FY 1998. Will process existing orders on hand through Revolving Fund Accounts until complete.)

Trust Funds

National Security Education Trust Fund
Surcharge Collections, Sales of Commissary Stores, Defense
(see Section [010603](#) for listing of all current trust fund accounts)

100102. Background

A. Public Enterprise Funds are expenditure accounts authorized by Congress to be credited with collections, primarily from the public, that are generated by, and earmarked to finance, a continuing cycle of business-type operations.

B. The Pentagon Reservation Maintenance Revolving Fund and Buildings Maintenance Funds are Enterprise Funds that operate in accordance with the provisions of Volume 11B of the DoD FMR “Reimbursable Operations Policy – Working Capital Funds (WCF)” and of Volume 2B, Chapter 9, “Defense Working Capital Funds Activity Group Analysis”. These Funds satisfy recurring Department of Defense requirements by using a businesslike buyer-and-seller approach. Unlike profit-oriented commercial businesses, one goal of the funds’ is to break even over the long term. Selling prices established in the budget are

stabilized or fixed during execution to protect customers from unforeseen rate and price fluctuations that would impact customer ability to execute the programs approved by the Congress.

C. A basic principle of the enterprise fund structure is to create a customer-provider relationship between tenants and support organizations. This relationship is designed to make managers of support organizations funded through a Revolving Fund and decision-makers at all levels more concerned with the costs of goods and services. Requiring the tenants to pay for support they receive provides increased assurance that services supplied and paid for are actually needed.

D. Trust Funds. The following definitions apply to trust fund accounts.

1. Trust fund receipt account. Trust fund receipt accounts are credited with receipts generated by the terms of a trust agreement or statute. At the point of collection, these receipts are available for transfer to a trust fund expenditure account or are not available for transfer depending upon the terms of the trust agreement or statutory authority.

2. Trust fund expenditure account. Trust fund expenditure accounts are established to record amounts appropriated or otherwise made available by transfer from a trust fund receipt account to be obligated and expended in carrying out the specific purposes or programs in accordance with the terms of the trust agreement or statute. Funds transferred or appropriated to a trust fund expenditure account are normally available for obligation and expenditure within the limits imposed by the trust agreement or authorizing statute.

3. Trust revolving fund account. A trust revolving fund is a single account that is authorized to be credited with receipts and incur obligations and expenditures in support of a continuing cycle of business-type operations in accordance with the provisions of the trust agreement or statute. Trust revolving fund receipts are available for obligation and expenditure without further action by Congress.

4. Unavailable collections are either (1) unappropriated receipts or receipts that are precluded from obligation because of a provision of law, such as a benefit formula or limitation on obligations in PY, CY, or **BY**, or (2) collections unavailable for obligation because of limitations on obligations in PY, CY, or **BY**. Section 36.6 of [OMB Circular A-11](#) provides instructions on MAX Schedule N on unavailable collections for trust funds and O&M special funds which Federal agencies must include in their annual budget submission to OMB.

100103. General

A. In general, DoD trust funds authorized to incur obligations and expend receipts have been exempted from apportionment by OMB. However, the Surcharge Collections, Sales of Commissary Stores, Defense trust revolving fund, and the National Security Education Trust Fund are subject to apportionment by OMB. Each trust fund must be viewed as a unique fund in light of any special provisions in the trust agreement or the enabling legislation.

B. Trust funds have been assigned account symbols between 8000 and 8999. Within this range trust revolving funds have been assigned symbols between 8400 and 8499. Some trust funds used by DoD are:

Surcharge Collections, Sales of Commissary Stores, Defense
National Security Education Trust Fund

C. The Conventional Ammunition Working Capital Fund **ceased** operations as a Revolving Fund at the end of FY 1998. This activity **is** a direct funded activity under the cognizance of the Single Manager for Conventional Ammunition.

100104. Submission Requirements

General guidance with regard to submission requirements is presented in the DoD Financial Management Regulation (DOD 7000.14-R), Chapter 1. Chapter 10 covers specific back-up material requirements for the above areas.

100105. Preparation of Material
