1401 GENERAL

140101. Overview

A. Some Department of Defense (DoD) Components, such as the Military Departments, are structured into three or more levels, or echelons. Direct appropriation budget authority in the General Fund is initially recorded at the Departmental level (e.g., Headquarters) and subsequently issued to intermediate level organizations (e.g., major commands), which, in turn, distributes the budget authority to execution level (field level) organizations for program execution.

B. Military Departments and DoD agencies composed of three or more levels must follow the procedures outlined throughout the chapter to ensure internal fund distribution accounts roll up in the Defense Departmental Reporting System to the appropriate United States Standard General Ledger (USSGL) accounts, and accurately report the total and status of budgetary resources. Paragraph 140301.C references accounting scenarios that provide an overview of the appropriate general ledger accounts, and transaction codes that must be used to show the flow of funds from the department level to the execution level. This guidance provides accounting personnel with an understanding of how these budgetary and proprietary entries must be recorded from the time funds are issued until the funds have been closed.

140102. Purpose

A. This chapter prescribes the standards for recording the receipt and subsequent distribution of direct budgetary resources (appropriations received in the General Fund) using the intermediate level budgetary accounts, which are applicable to intermediate level organizations in those DoD components with a funding structure that includes three or more component levels. The budgetary general ledger accounts in this chapter record the receipt of fund distributions (e.g., allotments or suballotments) issued within the same Treasury Account Symbol from Department level to intermediate level organizations, and the subsequent issuance down to execution level activities.

B. This chapter does not apply to Defense-wide appropriations issued directly from the Office of the Under Secretary of Defense (Comptroller), Program/Budget to Other Defense Organizations (a two tiered structure), without an intermediate level component. See Chapter 13 for departmental level and Chapter 15 for execution level internal fund distribution requirements. This chapter does not apply to reimbursable budget authority addressed in Volumes 11A and 11B.
140103. Authoritative Guidance

The financial management policy and related requirements prescribed in this chapter are in accordance with the applicable provisions of the following authoritative sources:

B. The Office of Management and Budget (OMB) Circular A-11, “Preparation, Submission, and Execution of the Budget”; and 

*1402 DEFINITIONS

140201. Departmental Level

Involves recording receipt and distribution of budgetary resources at the department level, headquarters, or Office of the Secretary of Defense level as discussed in Chapter 13.

140202. Intermediate Level

*1403 STANDARDS

140301. Standard General Ledger Accounts and Transaction Entries

The Office of the Under Secretary of Defense (Comptroller)/Office of the Chief Financial Officer maintains the Standard Financial Information Structure resources web page that contains the:

A. DoD Standard Chart of Accounts (see Volume 1, Chapter 7), which includes the DoD Standard General Ledger accounts established for use at the intermediate level;

B. DoD USSGL Transaction Library, which includes the budgetary and proprietary accounting entries established for use at the intermediate level; and
C. DoD Accounting Scenarios include two Internal Fund Distribution scenarios, “TI-097 General Funds” and “Military Department General Funds,” that identify the posting logic and appropriate accounts for recording the issuance and closure of budgetary resources at all three levels (Departmental, Intermediate and Execution).

140302. Internal Fund Distribution

A. A system of fund control is required by 31 U.S.C. § 1514(a), and OMB Circular A-11 defines the terms apportionment, allotments, suballotments, allowances, and allocations, while Section 150 and Appendix H implement fund control. Volume 14, Chapter 1 prescribes the requirements for the administrative control of funds within the DoD. Intermediate level budgetary accounts are used to record the receipt of funds issued from higher authority, and the subsequent issuance to execution level activities.

B. Any formal subdivision of funds must contain the same statutory and other limitations applicable to the original apportionment.
