CHAPTER 14

RECEIPT AND DISTRIBUTION OF BUDGETARY RESOURCES
INTERMEDIATE LEVEL

*1401 GENERAL

140101. Purpose

This chapter prescribes the standards for recording the receipt and subsequent distribution of budgetary resources using the intermediate level budgetary accounts, which are applicable to components with a funding structure that includes three (or more) component levels. The intermediate level budgetary accounts are used to record the receipt of fund distributions (allotments, suballotments, or allocations) issued from higher authority, e.g. the Assistant Secretary of the Air Force (Financial Management and Comptroller), and the subsequent issuance to execution level activities. Only those Department of Defense (DoD) Components with a funding structure that includes three (or more) levels are required to use the intermediate level accounts covered by this chapter. For example, the Military Departments are structured organizationally into three (or more) levels, or echelons, but the Other Defense Organizations receive Defense-wide appropriations directly from the Office of the Under Secretary of Defense (Comptroller), Program/Budget in a two tiered structure, without an intermediate level component. See Chapter 13 for departmental level and Chapter 15 for execution level requirements.

*140102. Authoritative Guidance

The Office of Management and Budget (OMB) Circular A-11 provides an overview of the budget process and specific requirements for preparation and submission of the budget. The U.S. Department of the Treasury (Treasury) is responsible for Government-wide reporting and issues requirements in the Treasury Financial Manual. Volume 14, Chapter 1 prescribes the requirements for the administrative control of funds in accordance with OMB Circular A-11, Appendix H, and identifies additional authorities in paragraph 010103. The DoD United States Standard General Ledger (USSGL) Transaction Library provides the appropriate accounts, as well as, posting logic, used to record the issuance and closure of budgetary resources.

The Accounting for Internal Funds Distribution memorandum provides an overview of the appropriate general ledger accounts, and transaction codes that must be used to show the flow of funds from the department level to the execution level. Military Departments and DoD agencies must ensure they are following the procedures outlined in this memorandum regarding the internal funds distribution accounts rolling up to Treasury account 411900. The guidance provided within the memorandum will also help military and civilian accounting personnel understand how these entries must be recorded from a budgetary and proprietary aspect, as well as, understand which accounts must be used from the issuance of funds until the funds have been closed.

140103. Definitions

Departmental Level: Involves recording receipt and distribution of budgetary resources at the department level, headquarters, or Office of the Secretary of Defense (OSD) level as discussed in Chapter 13.

Intermediate Level: Involves recording receipt and distribution of budgetary resources using the intermediate level accounts. An example of the intermediate level would be a Command within a Military Department that has received the initial funding.

Execution Level: Involves recording receipt and distribution of budgetary resources using the execution level budgetary accounts discussed in Chapter 15.

1402 STANDARDS

140201. Accounts

The accounts established for use at the intermediate level implement the DoD (USSGL) and the DoD Standard Chart of Accounts prescribed in Volume 1, Chapter 7. Both the budgetary and proprietary accounting entries for the DoD USSGL accounts are specified in the DoD USSGL Transaction Library that can be accessed on the Office of the Deputy Chief Financial Officer Standard Financial Information Structure resources web page.

140202. Internal Fund Distributions

A. Budgetary authority is formally distributed by apportionment, allotments, suballotments, allowances, and allocations. The OMB Circular A-11, Appendix H, defines these terms and a specific subdivision hierarchy (see Volume 14, Chapter 1). The intermediate level budgetary accounts are used to record the receipt of funds issued from higher authority, and the subsequent issuance to execution level activities.

B. Any formal subdivision of funds must contain at least the same statutory and other limitations applicable to the original apportionment.

C. Accounting Entries

1. To record direct budgetary authority received from the departmental level by an intermediate level Component(s), or activity thereof, and available for allotment to execution level Component(s), or activities thereof, or suballotment to other intermediate level Component(s), or activities thereof:
