CHAPTER 14

RECEIPT AND DISTRIBUTION OF BUDGETARY RESOURCES
INTERMEDIATE-LEVEL

*1401 GENERAL

140101. Purpose

This chapter prescribes the standards for recording the receipt and subsequent distribution of budgetary resources in the intermediate-level budgetary accounts, which are applicable to operating agencies or other intermediate-level accounting entities. The intermediate-level budgetary accounts are used to record the receipt of fund distributions (allotments, suballotments, or allocations) issued from higher authority, and the subsequent issuance to execution-level activities. Only those Department of Defense (DoD) Components with a funding structure that includes three (or more) levels are required to use the intermediate-level accounts covered by this chapter. For example, the Military Departments are structured into three or more levels but Other Defense Organizations receive Defense-wide appropriations directly from the Office of the Under Secretary of Defense (Comptroller) which represents a two-tiered funding structure (departmental-level to execution-level). See Chapter 13 for departmental-level and Chapter 15 for execution-level requirements.

140102. Authoritative Guidance

The Office of Management and Budget (OMB) Circular A-11 provides an overview of the budget process and specific requirements for preparation and submission of the budget. The U.S. Department of the Treasury (Treasury) is responsible for Government-wide reporting and issues requirements in the Treasury Financial Manual. Volume 14, Chapter 1 prescribes the requirements for the administrative control of funds in accordance with OMB Circular A-11, Appendix H, and identifies additional authorities in paragraph 010103.

1402 STANDARDS

140201. Accounts

The accounts established for use at the intermediate level implement the DoD United States Standard General Ledger (USSGL) and the DoD Standard Chart of Accounts prescribed in Volume 1, Chapter 7. Both the budgetary and proprietary accounting entries for the DoD USSGL accounts are specified in DoD USSGL Transaction Library that can be accessed on the Standard Financial Information Structure resources web page.
140202. Internal Fund Distributions

A. Budgetary authority is formally distributed by allotment, suballotment, allocation, and suballocation. The OMB Circular A-11, Appendix H, defines these terms and a specific subdivision hierarchy (see Volume 14, Chapter 1). The intermediate-level budgetary accounts are used to record the receipt of funds issued from higher authority, and the subsequent issuance to execution-level activities.

B. Any formal subdivision of funds must contain at least the same statutory and other limitations applicable to the original apportionment.
