DEFENSE WORKING CAPITAL FUND ACCOUNTING REPORT
[ACCOUNTING REPORT (M) 1307]

1501 GENERAL PREPARATION INSTRUCTIONS

150101. Purpose

This chapter identifies the reporting requirements and provides guidance on the Defense Working Capital Fund (DWCF) Accounting Report [Accounting Report (Monthly) 1307] (AR(M) 1307).

150102. General

A. The DWCF AR(M) 1307 consists of three principal statements.

1. Statement of Financial Position. This statement discloses the reporting entity's assets, liabilities, and net position.

2. Statement of Cash Flow. This statement discloses the reporting entity's gross cash receipts and disbursements with an explanation of the changes in cash for the reporting period.

3. Statement of Operations. This statement discloses the results of the reporting entity's operations for the reporting period, including the changes in the entity's net position from the end of the prior reporting period.

* B. An identification of the hierarchy of accounting standards to be followed in preparing the DWCF Accounting Report is contained in Volume 1, Chapter 2, "Federal Accounting Standards Hierarchy".

C. Notes, being an integral part of the principal statements, shall provide additional disclosures necessary to make the principal statements fully informative and not misleading.

D. The DWCF Accounting Report was designed based on fiscal year 2009 Volume 6B, "Form and Content of DoD Audited Financial Statements" of this Regulation. Annually, the Office of the Under Secretary of Defense (Comptroller) (OUSDC) updates Department of Defense (DoD) guidance on the form and content of financial statements. Additionally, the United States Standard General Ledger (USSGL) on which the report is based is updated at least annually and is posted by both the Office of the Deputy Chief Management Officer (DCMO) and the Treasury Financial Management Service (FMS). Accordingly, the DWCF Accounting Report will be revised to maintain comparability.

- * E. The Statement of Operations consists of seven parts.
1. Part I, “Statement of Operations” identifies the cumulative year-to-date Net Operating Results (NOR) and the Recoverable NOR, i.e. the amount that must be recovered in the activity’s rates.
 2. Part II, “Changes in Net Position” identifies the arithmetic difference between the total assets and total liabilities recognized on a component entity’s balance sheet.
 3. Part III, “Cost of Goods Sold,” identifies the components of cost of goods sold.
 4. Part IV, “Expenses” identifies detailed expense information.
 5. Part V, “Recoverable Operating Results” reconciles Net Operating Results to the operating results used for rate-setting purposes.
 6. Part VI, “Capital Program” identifies the approved program, obligations and outlays for the Capital Program, by fiscal year.
 7. Part VII, “Inventory Management Report – Supply Management Business Area” reports inventory management data for the Supply Management and Commissary Resale business areas.
- * F. The AR(M) 1307 is prepared based on the activity’s proprietary trial balance, except for some items in Part VI, Capital Program and Part VII, Inventory Management Report – Supply Management Business Area, which includes obligation data. The AR(M) 1307 complements the information provided in the Standard Form (SF) 133, Report on Budget Execution and Budgetary Resources, which is prepared using the activity’s budgetary trial balances. Both reports provide information required to manage the DWCF activities.

150103. Reporting Requirement

A. Applicability. The provisions of this chapter apply to all DoD Components operating a DWCF activity. A listing of DWCF financial reporting activities is located in Figure 15-10 of this chapter. Within the attached listing, an asterisk (*) symbol indicates the lowest level for which individual AR(M) 1307 reports are required. DWCF Activities may generate the AR(M) 1307 at different levels in order to manage their business effectively. The levels for which a consolidated AR(M) 1307 report are required are indicated in the attached listing by a pound (#) symbol. Consolidated statements are required for each DoD Component business area.

B. Report Formats. The financial report formats contained herein show the report formats that must be used. The reports shall be prepared or reproduced on letter size paper (8 ½" x 11"). Reports produced by automated data processing equipment may be substituted for the formats illustrated. The following reports shall be submitted:

Statement of Financial Position

Statement of Cash Flow

Statement of Operations

Part I – Statement of Operations

Part II – Changes in Net Position

Part III – Cost of Goods Sold

Part IV – Expenses

Part V – Recoverable Operating Results

Part VI – Capital Program

Part VII – Inventory Management Report – Supply Management

Business Area

C. Reporting Responsibilities. DoD Components are responsible for the information included in the AR(M) 1307 report and for arranging for the preparation and submission of the report.

D. Frequency of Reports. Unless otherwise specified by the OUSD(C), the AR(M) 1307 reports shall be prepared and submitted monthly. Submit regular reports in accordance with due dates established by the Defense Finance and Accounting Service (DFAS) and consistent with the requirements of the OUSD(C).

E. Distribution.

1. Consolidated DoD Component and Business Area Reports. A copy of consolidated DWCF business area reports will be submitted to the:

a. Director for Revolving Funds, Office of the Deputy Comptroller (Program/Budget), OUSD(C).

b. Office of the Assistant Secretary of the Army (Financial Management and Comptroller), Office of the Assistant Secretary of the Navy (Financial Management and Comptroller), Office of the Assistant Secretary of the Air Force (Financial Management and Comptroller), the Defense Commissary Agency (DeCA) Comptroller, and Other Defense Organizations (i.e. the Defense Logistics Agency Comptroller).

c. Management Command responsible for the oversight of a business area, if requested by a DoD Component.

2. Activity Level Reports. A copy of DWCF activity level reports will be submitted to the:

a. Offices of the Assistant Secretary of the Army, Navy and Air Force (Financial Management and Comptroller), [the Defense Commissary Agency \(DeCA\)](#), and the Comptrollers of [Other Defense Organizations](#), if requested by a DoD Component.

b. Management Command responsible for the oversight of a business area, if requested by a DoD Component.

c. The DWCF activity whose operations are being reported. The report provided to a DWCF activity shall disclose any adjustments made to the financial data submitted by that activity.

*150104. Detail Instructions

A. The instructions to the AR(M) 1307 identify the specific data, and appropriate source of that data, for amounts to be entered into each line of each report.

B. Amounts will be reported in thousands of dollars (\$000) for all parts of the report and related footnotes (that is, \$1,000 = \$1; \$10,000 = \$10; \$100,000 = \$100).

C. Report lines that require identification of the nature of specific amounts will be footnoted, and will be provided with each report.

D. Adjustments for amounts otherwise accounted for or reported at the DoD Component level should be allocated or assigned to the applicable business areas. Similarly, adjustments for amounts otherwise submitted for or reported at the business area level should be allocated or assigned to the applicable individual activities. Such allocations shall be made by DFAS, in accordance with direction received from the DoD Components. However, as a general rule, and where reasonable, all such adjustments should be allocated to individual activities. Adjustments made at the business area level shall be shown separately as a business area adjustment. Adjustments allocated to the individual activity level shall be entered into the activity's installation level accounting records.

E. Policies that, if implemented retroactively, could have a significant adverse impact on the accuracy and integrity of financial reports will not be retroactively implemented without a clearly offsetting benefit or unless directed by an external authority such as Congress.

F. The report is based on current fiscal year data. All references to year in this instruction apply to fiscal year.

G. [Entities are only required to report lines on the AR\(M\) 1307 in which there is activity.](#)

H. This chapter cites USSGL accounts that populate each line. The DoD requires the use of the [DoD Chart of Accounts](#), which is comprised of the USSGL accounts, followed by a four position further breakout.

*NOTE: The [Statement of Federal Financial Accounting Standards Number 3](#), “Accounting for Inventory and Related Property” sets forth the accounting principles that shall be followed by Federal Government entities when accounting for and reporting inventory and related property. An illustration of the DoD implementation of those principles is contained in [Volume 4](#) Chapter 4, “[Inventory and Related Property](#)” of this Regulation (for DoD Components recording inventory at its latest invoice price). The referenced illustrations demonstrate the application of [inventory related accounts](#) and must be read [to more fully understand](#) the reporting requirements contained in section 2 of Part III - [Cost of Goods Sold](#).

L. Line 2.a – Beginning Inventory – LAC. Report the balance as shown on line 2.i “[Minus: Ending Inventory - LAC](#)” on September 30 of the preceding fiscal year, [as this amount will not change during the fiscal year](#). LAC is “Latest Acquisition Cost.”

Holding gains (or losses) are recognized in the valuation of inventory. Holding gains or losses may be unrealized or realized. “Unrealized” refers to any gain or loss associated with inventory still held by the entity. “Realization” of the holding gain or loss occurs only when an item of inventory is sold or otherwise leaves the supply management stocking point.

- 1529 Inventory Allowance (DLR Exchange Credit)

S. Line 2.h. – Minus: Inventory Losses (Gains) Realized. The realization of most inventory gains (and losses) are recognized through reduction of the unrealized holding gains/losses accounts as a result of sales; that is, those gains and losses are realized when inventory items are sold and are recognized in the cost of good sold. However, decreases in inventory occurring as a result of disposal and events other than sale also result in a reduction of the unrealized holding gains/losses accounts. As those inventory decreases are not the result of

sales, they should not affect the cost of goods sold. Therefore, the value of those losses shall be removed from the cost of goods sold and reported on [Part IV – Expenses, line K.4, “Net Other Inventory \(Gains\) Losses”](#).

1508. FORMAT OF THE STATEMENT OF OPERATIONS: PART V - RECOVERABLE OPERATING RESULTS (FIGURE 15-7)

150801. General

Part V – Recoverable Operating Results, Figure 15-7, is intended to disclose differences, if any, between net operating results reported on Part I, - [Statement](#) of Operations, and the operating results used in the budget formulation of stabilized billing rates. As a matter of policy, any amounts that a DoD Component requests be excluded from its DWCF rates—whether identified in the Office of the Under Secretary of Defense (Comptroller) guidance as permissible or requested by the DoD Component—must be adequately documented and quantified. Further, all such amounts must be approved by the Office of the Under Secretary of Defense (Comptroller). Amounts not explicitly approved by the Office of the Under Secretary of Defense (Comptroller) for exclusion from customer rates shall be excluded from this report.

150802. Heading

Complete the heading of the form to [indicate](#): (a) the reporting DoD Component, (b) the reporting [DWCF](#) business area [or activity](#), (c) the reporting period (month), and (d) the [calendar](#) year.

150803. Line Item Instructions

Instructions for the content of each line item are as follows.

A. [Line 1 – Net Operating Results \(NOR\)](#). Enter the amount reported on Part I – [Statement](#) of Operations, line 11, “Net Operating Results (NOR).”

B. [Line 2 – Deferred Operating Results \(Gains/Losses\) Net](#).

1. Data reported on this line and its sublines, unless otherwise specified [below](#), are restricted to specific exclusions approved by the Office of the Deputy Comptroller (Program/Budget).

2. These exclusions shall include those amounts determined by the reporting Agency to be adjustments for the difference between the historical and latest acquisition costs for inventory valuation. This difference is attributed to the value of inventory reflected in the COGS at historical cost versus the value of inventory at latest acquisition cost. This difference must be reflected on the AR 1307 to adjust the NOR to Net Recoverable Operations Results based on replacement costs that preserve the Working Capital Funds ability to replenish stock.

3. Amounts to be reported on monthly activity reports should be obtained from, or approved by, the activity, management command of the reporting business area or the DoD Component departmental level. Report the net total of lines 2.a through 2.g.

C. Line 2.a – Net (Gains) Losses on Disposal of Excess Inventory. This line applies **only** to supply management business areas. Report those losses on potential excess/actual inventory for which an exclusion has been approved by the Office of the Deputy Comptroller (Program/Budget). Report the amount of gains/losses on the disposal of excess inventory as reported in the following accounts:

7110 Gains on Disposition of Assets – Other
7190 Other Gains
7210 Losses on Disposition of Assets – Other
7290 Other Losses

D. Line 2.b – Disposal of Equipment/Capital Assets. Report losses (or gains, if applicable) realized upon the disposal of excess equipment and other capital assets when the Office of the DoD Comptroller (Program/Budget) has approved the exclusion. NOTE: Losses on excess equipment and other capital assets disposed of as a result of base closure shall not be reported on this line but shall, instead, be reported on line 2.c. Report the amount of losses related to the disposal of equipment and capital assets as reported in the following accounts:

7110 Gains on Disposition of Assets – Other
7210 Losses on Disposition of Assets – Other

E. Line 2.c – Non-Reimbursable Base Closure (BRAC) Costs. Report losses (or gains, if applicable) in excess of reimbursement directly resulting from a base closure when the Office of the Deputy Comptroller (Program/Budget) has approved the exclusion. Report the amount of gains/losses related from BRAC costs as reported in the following accounts:

7110 Gains on Disposition of Assets – Other
7190 Other Gains
7210 Losses on Disposition of Assets – Other
7290 Other Losses

F. Line 2.d – Capital Asset Surcharge. Capital asset surcharge amounts, positive or negative, included in revenue will be adjusted to avoid either the return of an apparent gain or loss in the development of the subsequent year rate structure. This line is left blank when there is no capital surcharge revenue. A capital asset surcharge shall be included in customer rates only if approved by the Office of the Deputy Comptroller (Program/Budget). A capital asset surcharge might be approved when the amount of depreciation expense of existing capital assets included in stabilized rates is either less or greater than the budgeted Capital Program. As the capital asset surcharge does not have an offsetting expense, in isolation from other transactions, it would be anticipated to result in a gain (or loss) to net operating results. That gain/loss must be deducted from Net Operating Results to prevent its return or charge to customers in subsequent years through stabilized rates that are lower than they would be otherwise. Capital asset surcharge amounts may be reported without the prior approval of the Office of the Deputy Comptroller (Program/Budget). See Annex 4 of Volume 4, Chapter 6 for further guidance. Report the amount of revenue related to capital asset surcharges as reported in the following accounts:

5100 Revenue From Goods Sold
5200 Revenue From Services Provided

G. Line 2.e – Cash Surcharge. Similar to capital asset surcharges, activities may include a cash surcharge in their rates. Report the amount of revenue related to cash surcharges as reported in the following accounts:

5100 Revenue From Goods Sold
5200 Revenue From Services Provided

H. Line 2.f – Inventory Replenishment. The difference between the historical and latest acquisition costs for inventory valuation. Report the amount of revenue related to inventory replenishment as reported in the following accounts:

5100 Revenue From Goods Sold

I. Line 2.g – Other Approved Gains and Losses (Must Be Footnoted). Report any other approved gain or loss not **already** identified. May include, but is not limited to the following accounts:

5100 Revenue From Goods Sold
5700 Expended Appropriations
6710 Depreciation, Amortization, and Depletion
7110 Gains on Disposition of Assets - Other
7190 Other Gains
7290 Other Losses

J. Line 3 – Depreciation, Non-DWCF Acquired PP&E. Report the amount of depreciation from non-DWCF acquired Plant, Property and Equipment which is identified as an asset capitalized on Part II – Changes in Net Position, line 1.D.(1).d. “**Minus: Depreciation, Non-DWCF Acquired PP&E.**” Report the amount from Part IV – Expenses, Line I, “**Depreciation on non-DWCF Acquired PP&E**”, **minus gains and losses.** This amount must be reflected in a footnote.

K. Line 4 – Net Recoverable Operating Results from Current Year Operations. Report the net total of lines 1 through 3.

*150804. Year End Procedures

At fiscal year end, the Net Operating Results is closed to Cumulative Results of Operations. Since part of that amount may be a non-recoverable deferred amount and an amount related to depreciation for non-DWCF acquired PP&E, those amounts should be separately identified in financial records. These amounts should be identified **with** attributes.

A. The amount reported on Line 2, “Deferred Operating Results (Gains/Losses) **Net**” should be the opposite of Part II – Changes in Net Position, Line 1.B.(2).d.

“Plus or Minus: Net Operating Results” during the fiscal year and closed to deferred Cumulative Results of Operations during the year-end close process. The amount on Line 3, “Depreciation, Non-DWCF Acquired PP&E” should be reported on Part II – Changes in Net Position, Line 1.D.(1).d “Minus: Depreciation, Non-DWCF Acquired PP&E” during the fiscal year and closed to “Assets Capitalized – Beginning of Period” during the year end close process. The amount on Line 4, “Net Recoverable Operating Results from Current Year Operations” should be reported on Part II – Changes in Net Position, Line 1.B.(1).d. “Plus or Minus: Net Operating Results” during the fiscal year and closed to Cumulative Results of Operations – Recoverable during the year end close process.

150901. General

A. Part VI – Capital Program, Figure 15-8, reflects the program, obligations, and outlays for each fiscal year of the program. A capital asset for this report must meet the Working Capital Fund Investment Threshold for the program year reported and have a useful life of 2 years or greater.

B. For reporting these amounts, the reporting period is defined as the year to date amounts, i.e., amounts reported since the end of the prior fiscal year to the end of the reporting month shown in the heading.
