CHAPTER 16

ACCOUNTING FOR PRODUCTION AND SALE OF FOREST PRODUCTS

1601 OVERVIEW

160101. Purpose. The purpose of this chapter is to establish the policy and procedures for accounting for the production and sale of forest products. It also assigns responsibility for DoD reimbursement and for the entitlement of a state to a share in the net proceeds derived from forest products sold from military installations or facilities.

160102. Applicability and Scope. The policies and procedures established by this chapter:

A. Apply to the Office of the Secretary of Defense (OSD) and to the Military Departments (including their National Guard and Reserve components). The term “Military Services,” as used herein, refers to the Army, Navy, Air Force, and Marine Corps.

B. Cover forest products production and sales programs on military installations or facilities in the United States.

C. Do not apply to forestry activities within the civil programs of the U.S. Army Corps of Engineers or to the state-owned National Guard installations.

1602 POLICY AND PROCEDURES

160201. DoD appropriations incurring obligations for the production and sale of forest products shall be reimbursed from collections made as a result of the sale of such products. Remaining collections shall be disposed of as follows:

A. Forty percent of installation net proceeds shall be distributed to the state that includes the military installation or facility from which forest products were sold during a fiscal year. If the installation or facility is located in more than one state, each state shall share proportionally in the net proceeds (see subsection 160208, below). Entitlement to the states applies to forest products sold after September 30, 1984.

B. Once the disbursement to each state has been made, any remaining amount shall be transferred to the reserve account (see subsection 160203, below). To the extent that collections from the sale of forest products are inadequate, obligations for the production and sale of such products may be financed either from the appropriation accounts or transfers from the reserve account.

160202. The Treasury General Fund Receipt Clearing Accounts (F3875) shall receive all sales proceeds. Transfers of these proceeds shall be made, in accordance with the
approved budgets, to the applicable Operations and Maintenance (O&M) and Other Procurement appropriations that incur obligations, which are reimbursable, for the production and sale of forest products.

160203. A DoD reserve account shall be established.

A. Balances in the account may be used for the following:

1. Improvements of forest lands.

2. Unanticipated contingencies in the administration of forest lands and the production of forest products for which other sources of funds are not available in a timely manner.

3. Natural resource management that implements approved plans and agreements.

B. The balance in the reserve account shall not exceed $4 million on December 31 of any calendar year. Unobligated balances exceeding $4 million on that date shall be deposited in the U.S. Treasury General Fund Miscellaneous Receipts Account (see subsection 160207, below).

160204. The operating procedures to be followed for program obligations is as follows:

A. Program obligations shall be related directly to the economic production and sale of forest products in the following functions:

1. Forest Improvement. Obligations incurred for improving an existing timber stand or forest, whether it is planted, seeded, or natural, and including thinning, pruning and controlling undesirable vegetative growth.

2. Reforestation. Obligations incurred for natural or artificial regeneration including planting; purchasing of seeds or seedlings; preparing sites; and controlling insects, diseases, vegetation, and animals.

3. Forest Protection. Obligations incurred for the protection of a forest capable of economic production of forest products including damage by fire, insects, diseases, animals, floods, and erosion.

4. Forest Access Roads. Obligations incurred for construction, reconstruction, repair, and maintenance of forest access roads and trails and for repair of other roads as a result of forest production and harvest operations.
5. **Sales.** Obligations incurred for sales and preparation for sales of forest products including appraising, cruising, marking, scaling, advertising, escorting prospective bidders, as well as preparing, administering, and enforcing compliance with sales contracts.

6. **Management.** Obligations incurred for the management of the functions listed in subparagraphs 160204.A.1 through 160204.A.5, above, including supervising, planning, programming, conducting field surveys and inventories, training, and attending professional meetings.

7. **Forestry Equipment.** Obligations incurred in the purchase of vehicles, minor equipment, and heavy equipment used exclusively in forest management (purchased by O&M or procurement appropriations under reimbursable program authority).

B. To the extent that an installation receives applicable program support from a function or activity above the installation level, costs shall be prorated on the basis of level of effort among all applicable military installations or facilities involved in the program.

C. Program obligations do not include amounts incurred for operations that, while related to the land and forest, are for other purposes such as the military mission, recreation, general area improvement, wildlife management, and beautification. They do not include amounts for the protection of forests that are incapable of economic production of timber products. Program obligations at all organizational levels shall be categorized according to the functions listed in subparagraphs 160204.A.1 through 160204.A.7, above.

D. Reimbursable program obligations under Title 10, United States Code, section 2665(d) include all program costs except those in paragraph 160204.C, above. Acquisition of equipment shall be justified on an economic basis. When general equipment is used in forestry program operations, obligations incurred by DoD appropriations for such use shall be included as program costs.

160205. **Accounting and Reimbursements**

A. Proceeds collected from forestry sales shall be turned over to the servicing DoD disbursing officer. These proceeds shall be deposited without delay to the Treasury General Fund Receipt Clearing Account **F3875, “Budget Clearing Account (Suspense).”** (The applicable agency code shall be shown instead of asterisks.) That portion of the proceeds which is to be used to finance reimbursable expenses shall be transferred to O&M or procurement appropriations in accordance with the annual budget. 160206. At the end of the fiscal year, an estimate shall be made of the amount of each state’s entitlement and transferred from **F3875 to deposit account **X6875, “Suspense.” After the states’ entitlements are computed (see subsections 160201.A and 160208), the estimate shall be adjusted with applicable refunds to **F3875 or additional transfers to **X6875. Payments to the states shall be made from **X6875. After the states have been paid and appropriation accounts reimbursed, any remaining balance in **F3875 shall be transferred to 21*5285, “Department of Defense, Forest Products Program, Army.”

160207. On December 31 of each year, the Deputy Under Secretary of Defense (Environmental Security) (DUSD(ES)) shall review the balance in 21X5285 and direct the transfer of any amount in excess of $4 million to Treasury account **3210, “General Fund Proprietary Receipts, Defense Military, Not Otherwise Classified.”

160208. Entitlements to each state shall be computed in accordance with Title 10, United States Code, section 2665(e). These entitlements shall be determined on the basis of a separate calculation for each military installation or facility from which forest products were sold in that fiscal year.

A. Records shall be maintained for each military installation or facility concerned to show sales proceeds and reimbursable program obligations by fiscal year. If a military installation or facility is located in more than one state, payments shall be made to each state involved in a manner proportional to the area of the installation or facility situated in each state. If an installation or facility is located in more than one county within a state, a description of the areas (acres) of the installation or facility situated in each county may accompany that state’s entitlement.

B. States’ entitlements shall be disbursed within 90 days after the end of the fiscal year. Payments to the states shall be made by electronic funds transfer.

160209. As directed by the DUSD(ES), in coordination with the Office of the Under Secretary of Defense (Comptroller) (OUSD(C)), net proceeds may be distributed among
the Military Services to ensure the overall funding requirements of the DoD forestry program are met.

160210. The recording of sales revenue, program obligations, entitlement payments to states, and all other accounting for this program shall be in accordance with the requirements of this chapter.

160211. Appendix 2 contains DUSD(ES) coordinating and reporting requirements. The Forest Products Sales Program report has been assigned Report Control Symbol DD-A&T (Q&A)1649; see paragraph 160302.A, below, and Appendix 2.
