

VOLUME 11A, CHAPTER 1: “GENERAL REIMBURSEMENT PROCEDURES AND SUPPORTING DOCUMENTATION”

SUMMARY OF MAJOR CHANGES

All changes are denoted by **blue font**.

Substantive revisions are denoted by an * symbol preceding the section, paragraph, table, or figure that includes the revision.

Unless otherwise noted, chapters referenced are contained in this volume.

Hyperlinks are denoted by **bold, italic, blue and underlined font**.

The previous version dated April 2013 is archived.

PARAGRAPH	EXPLANATION OF CHANGE/REVISION	PURPOSE
Various	Updated the title for DoD Instruction (DoDI) 4000.19, Support Agreements, dated April 25, 2013.	Revision
Various	Replaced Memoranda of Understanding (MOUs) with DD Form 1144, Support Agreement, to document reimbursable support. (Per DoDI 4000.19, paragraph 2.a.(3), MOUs will be used to document issues of general understanding between two or more parties that do not involve reimbursement.)	Revision
010102.	Updated the “Project Order Law” as Title 41, United States Code, section 6307.	Revision
010203.B.2 and 010203.B.3.	Updated Chapter 6, Appendix I title as “Military Composite Standard Pay and Reimbursement Rates.”	Revision
010203.B.3.	Updated military “fringe benefits” with proper terminology.	Revision
010204.B.1.	Clarified that the Memorandum of Agreement (MOA) is used when a certain quantifiable type of support is required over a short period of time (non-recurring), normally less than one year. (Per DoDI 4000.19, paragraph 2.a.(2) and “recurring reimbursable support” definition in the accompanying Glossary.)	Revision
010204.B.1.a.	Replaced Sample MOA Template reference (previous Addendum 3) to the authoritative source, DODI 4000.19, Figure 1, Sample MOA Template	Revision
Previous Addendum 3	Deleted Addendum 3 (Sample MOA Template). Renumbered the remaining table.	Deletion

CHAPTER 1

GENERAL REIMBURSEMENT PROCEDURES AND SUPPORTING DOCUMENTATION

0101 OVERVIEW

010101. Purpose

This chapter supplements the standards for financial accounting for receivables, in Volume 4, Chapter 3, and for budgetary accounting for reimbursements, in Volume 3, Chapter 15. It provides guidance on the amounts that shall be recouped when DoD Components perform work or sell property within the Department of Defense, to other U.S. Government agencies and to private parties that do not involve the Defense Working Capital Fund (DWCF) or other DoD Revolving Funds. This chapter does not provide authority to sell to private parties. Specific legal authority must be identified to make such sales. Activities performing reimbursable operations must be able to identify the statutory authority for their work performed for others.

010102. General

A. The “Project Order Law”, Title 41, United States Code, [section 6307](#) and the “Economy Act”, Title 31, United States Code, [section 1535](#) contain legal authority and requirements for one U.S. Government entity to perform work for another. Chapter 2, “Project Orders” and Chapter 3, “Economy Act Orders” provides policy on the use of these orders within the Department. Reimbursable orders placed with the DWCF or other DoD Revolving Fund activities may fall under any number of authorities (e.g. Project Orders for depot maintenance). The basic transactional authority for the DWCF is derived from Section 405 of the National Security Act Amendments of 1949, and now codified at Title 10, United States Code, [section 2208\(a\)](#). This authority for buyer-seller transactions is not dependent on the Economy Act or Project Order Act statutes. See Volume 11B, Chapter 11 and Volume 3, Chapter 8 for additional information regarding DWCF authorities.

B. The price to be charged for goods and services furnished by the Department depends on whether that good or service is provided to, or for the benefit of, a DoD Component, a non-DoD Federal Agency, a private party, or a foreign military sales customer. Therefore, the ordering DoD Component activity that requisitions or orders a good or service shall inform the performing DoD entity if the requisitioned goods or services are for the subsequent sale to, or benefit of, a customer outside of the Department.

* C. This chapter provides guidance on the pricing of reimbursements that should be obtained as a result of providing authorized services or materiel. It is applicable unless a specific DoD issuance authorizes alternative reimbursement policies. The most significant of these alternative reimbursement policies are as follows:

1. Volume 11B establishes the DoD policy for the recovery of cost for products and services provided by the DWCF or other applicable DoD Revolving Fund activities.

2. Volume 13 establishes the DoD accounting policy for Nonappropriated Fund instrumentalities.

3. Volume 15 establishes the DoD policy for the Foreign Military Sales of defense articles and defense services to friendly foreign governments and international organizations.

4. [DoD Directive 3025.18](#), “Defense Support of Civil Authorities (DSCA),” provides the DoD policy for employment of military resources in the event of civil disturbances.

5. [DoD Directive 3025.13](#), “Employment of Department of Defense Resources in Support of the United States Secret Service (USSS), Department of Homeland Security (DHS),” provides the DoD policy for the use of DoD resources in support of the United States Secret Service.

6. [DoD Instruction 4000.19](#), “Support [Agreements](#),” provides the DoD policy for interservice and intragovernmental support agreements.

7. [DoD Instruction 3025.21](#), “Defense Support of Civilian Law Enforcement Officials,” provides the DoD policy for reimbursable support provided to civilian law enforcement officials.

0102 POLICY AND PROCEDURES

010201. Disposition of Collections

A. Collections may only be returned to the appropriation that procured the services or materiel being sold when specifically authorized by law.

B. Collections for unfunded depreciation, unfunded civilian retirement, and interest shall be deposited into the General Fund of the U.S. Treasury as miscellaneous receipts unless otherwise provided for by this chapter or other DoD issuances. Disposition of collections for Foreign Military Sales shall be in accordance with Volume 15.

010202. Billing Standard

DoD Components performing work or services on a customer order shall bill the requesting DoD Component, other Federal Agency, or the public for earned reimbursements (performance of work or services, payments to contractors, or delivery from inventory) within 30 calendar days after the month in which performance occurred. The payment due date shall not be more than 30 calendar days from the date of the invoice. Bills rendered shall not be subject to audit by the customer prior to payment.

010203. General Rules for Determining Amounts to be Reimbursed

The following rules shall be followed by DoD Components when determining amounts to be collected as reimbursements unless other specific reimbursable rules have been established in this volume or by alternative reimbursement policies (see paragraph 010102.C.). An order placed or agreement made under the Economy Act obligates an appropriation of the ordering entity. The amount obligated is deobligated to the extent that the entity filling the order has not incurred obligations, before the end of the period of availability of the appropriation. The tables provided in addendum 1 and addendum 2 provide a summary of the rules for determining the amounts to be collected by appropriated fund and DWCF activities.

A. Direct Civilian Labor

1. The cost of direct civilian labor incurred in the performance of a service for, or the furnishing of materials to, another entity shall be reimbursed unless the performing entity has been provided funds appropriated directly to it for that purpose. Otherwise, the performing entity would be penalized to the extent that its funds are used to finance the cost of performing another entity's work, while the ordering entity's appropriations would be augmented to the extent that they now may be used for some other purpose.

2. Civilian labor performed for the benefit of other DoD Components, other Federal agencies, and the public shall be charged at actual hourly pay rates multiplied by the number of actual hours worked or assigned (detailed). Full-time assignments (details) shall be charged using annual rates. Otherwise, an hourly rate of 1/2087 of the annual rate shall be used and a leave and holiday factor of 18 percent of pay cost added.

3. Direct civilian labor includes consultants and direct hire foreign nationals employed by DoD activities.

4. Civilian personnel fringe benefit rates will be determined in accordance with Chapter 6, Appendix C, "Civilian Personnel Fringe Benefit."

5. Foreign national reimbursement rates are based on local pay agreements. Periodic reviews must be made to determine if the U.S. Government must make a contribution for severance pay or retirement pay.

B. Direct Military Labor

1. As a rule, the applicable military personnel appropriations shall fund the cost of direct (and indirect) military labor incurred in the performance of a service for, or the furnishing of materials to, another DoD entity. Therefore, since a direct appropriation is provided for that purpose, the cost of military labor shall not be charged to another DoD entity except for the cost of military personnel assigned to the DWCF activities. DWCF activities shall be reimbursed by their customers for the cost of military labor as prescribed in Volume 11B, Chapter 12.

* 2. Military labor shall be charged to non-DoD organizations on the basis of the actual hours worked or assigned (detailed). In either case, work shall be charged using the annual military composite standard pay rates. The military composite standard pay rates are computed in accordance with Chapter 6, Appendix I, “Military Composite Standard Pay and Reimbursement Rates,” and are published at the DoD Reimbursable Rates page of the Under Secretary of Defense (Comptroller) website under TAB K, “Military Personnel Composite Standard Pay and Reimbursement Rates.”

* 3. Military labor charged using the annual DoD composite rate for military labor includes a Medicare-Eligible Retiree Health Care accrual to cover the cost of health benefits for current officer and enlisted personnel after they retire and become Medicare-eligible, as well as such costs for their dependents and annuitants. The annual composite rate charged to non-DoD organizations includes an acceleration factor to cover medical health care costs of active duty personnel and their dependents. Military Services will furnish data in accordance with Chapter 6, Appendix I, “Military Composite Standard Pay and Reimbursement Rates.”

C. Temporary Duty Costs (TDY). Travel costs incurred by DoD civilian employees and military personnel incurred in performance of a reimbursable work order shall be charged as a direct cost when such travel can be identified specifically to the order. Costs of supplies and other directly relatable expenses also are chargeable.

D. DoD Personal Property and Inventory

1. DWCF Materiel. Inventory issues and operating materials and supplies consumed from DWCF stocks are reimbursable unless specific legal authority precludes reimbursement. Transfers to DoD Components, other Federal agencies, private parties and contractors performing work for a DoD Component or other Federal Agency, shall be priced at standard prices (see Volume 11B, Chapter 15).

2. Reutilization and Marketing Materiel (Surplus)

a. The disposition of materiel by a Defense Reutilization and Marketing Office shall be in accordance with DoD Publication 4160.21-M, “Defense Materiel Disposition Manual.” The accounting treatment is set forth in Volume 4, Chapters 4 and 7.

b. The general rules for the disposition of proceeds from the sale of scrap or excess personal property shall be in accordance with Chapter 5, “Disposition of Proceeds from Sales of DoD Excess and Surplus Personal Property.”

3. Non-DWCF Materiel. The pricing of personal property for DWCF materiel depends on whether the item(s) being transferred or sold will be transferred to another DoD Component and would normally be replaced. This decision shall be based on a review of the approved acquisition objective. If the sale will reduce assets required to meet the approved acquisition objective, then replacement is required.

a. Issues Within or to Another DoD Component. Issues within or to another DoD Component shall be on a non-reimbursable basis, but will require an

accounting entry to reflect the transfer from the losing to the gaining activity. The accounting entry shall reflect original acquisition cost and any accumulated depreciation.

b. Issues to another Federal Agency or Private Parties. Issues to other federal agencies or private parties shall be priced as follows:

(1) Materiel to be Replaced

(a) Materiel, including equipment, for which replacement (i.e., similar, but not exact) or replacement in kind (i.e., exact) is required, shall be transferred or sold at the estimated replacement cost, including the contract or production costs of the article less an adjustment for age and condition of the item being sold. This price is determined as follows:

AA. Determine the normal useful peacetime life of the item or equipment to be sold.

BB. Determine the percentage of useful life remaining on the item.

CC. Apply the percentage developed in subparagraph 2. to the estimated (or actual) cost of the replacement item. The resultant amount is the base cost to be used in the sale price calculation. Under no condition shall the sale price be less than the scrap value plus the cost of the last major overhaul or outfitting accomplished within 24 months before the sale.

(b) If it is imperative that the item be replaced through accelerated procurements and normal pricing policies will not adequately recoup replacement costs, an exception to DoD pricing policies shall be requested from the Under Secretary of Defense (Comptroller), Office of the Deputy Comptroller (Program/Budget). Normally, the exception would be to either add a replacement factor or delay final pricing until the contract for replacement items is financially complete.

(2) Materiel Not to be Replaced. Material, including equipment, shall be transferred or sold to other federal agencies and private parties at their original acquisition cost minus an adjustment for age and condition of the item being sold. Reimbursements from Foreign Military Sales transactions from the sale of assets will be in accordance with Volume 15, Chapter 7.

E. Contracts

1. Contract costs incurred for contracts awarded as part of a reimbursable agreement shall be billed to the benefiting organization.

2. Government-furnished materiel shall be billed in addition to contract costs in accordance with subparagraph 010203.D.

3. If the contract is provided to meet the requirements of a non-Federal Government organization, the contractor shall be required to pay rent (at fair market value) to the Department for the use of plant or production equipment utilized in manufacturing the item being sold.

4. The collection of interest on a late payment is applicable to a contract with a non-Federal Government organization that is required to pay a recoupment charge in accordance with Volume 15. [DoDD 2140.2](#) eliminated the requirement for recoupment on all sales entered into after January 13, 1993, except for recoupment required by Act of Congress. The contract interest clause [52.232-17](#), mandated by the “Federal Acquisition Regulation,” provides that all amounts that become payable under the contract shall bear simple interest from the due date until paid, unless paid within 30 days of becoming due.

5. Contract administration charges shall be charged to other federal agencies and private parties, in accordance with statutory or policy requirements. Contract administration costs are not to be charged within a DoD Component or to another DoD Component when funding for such costs are included in the mission funding of the performing DoD entity.

6. DoD personnel services in support of contracts shall be costed in accordance with paragraphs 010203.A and 010203.B.

F. Accessorial Expenses

1. Accessorial costs represent certain expenses incident to issues, sales, and transfers of materiel. Accessorial costs include costs incurred for packing, crating, and handling (PCH); transportation; and port loading and unloading. PCH expenses are costs incurred for sales or shipments of property. Accessorial expenses may be incurred by the DoD for direct delivery of items from contractor facilities or by DoD Components for items furnished from DoD stocks. Accessorial expenses incurred by contractors for direct delivery items are normally included in the contract price of the property. If accessorial costs of direct delivery items are billed separately by the contractor, they shall be reimbursed in accordance with this section. Accessorial expenses incurred by one DoD Component are not reimbursable from another DoD Component when funding for such costs are included in the mission funding of the performing DoD entity.

2. Unless otherwise provided by law or regulation, accessorial expenses shall be billed to the following:

a. Non-DoD Federal departments, agencies, or instrumentalities.

b. Non-Federal entities, including DoD contractors.

c. Nonappropriated funds when property is transported for DoD morale, welfare, and recreation activities unless reimbursement has been waived by [DoD Instruction 1015.15](#), Establishment, Management, and Control of Nonappropriated Fund Instrumentalities and Financial Management of Supporting Resources.

3. Accessorial charges shall be reimbursed by non-DoD activities at the actual cost incurred. Accessorial charges for Foreign Military Sales are prescribed in Volume 15, Chapter 7.

G. Asset Use Charge. A charge for the use of DoD assets (facilities and equipment, or both) is required to recoup depreciation and interest on investment. Amounts collected shall be returned to the U.S. Treasury as miscellaneous receipts, unless otherwise provided for by statute or other DoD guidance. (Asset use charges are not assessed for Foreign Military Sales, see Volume 15). A four percent charge, developed by the Office of the Secretary of Defense through cost-finding techniques, may be used or the following calculations shall be performed:

1. Depreciation. Depreciation expense represents the amortization of the cost of depreciable property, plants, and equipment as an operating expense over the period in which assets are expected to provide benefits. Depreciation shall be charged using the straight-line method of depreciation. The calculation of depreciation is illustrated in Table 1-1.

2. Interest on Investment in Assets. Both DWCF and non-DWCF activities shall include in reimbursement billings to private parties an amount to recognize the interest on investment in fixed assets when such assets are acquired or manufactured for the purpose of, or prepared for use in, providing materiel to private parties. The calculation of interest on investment is illustrated in Table 1-2.

H. Repair and Maintenance. When repair and/or maintenance of items occurs, costs from a cost accounting system or, in its absence, equivalent costs developed through cost-finding techniques shall be billed.

1. Labor Cost. The cost shall be computed in accordance with subparagraphs 010203.A. and 010203.B.

2. Materiel and Supplies. The cost shall be computed in accordance with subparagraph 010203.D.

3. Transportation and Related Costs. The cost shall be computed in accordance with subparagraph 010203.F.

4. Overhead Costs. These costs shall be computed in accordance with subparagraph 010203.J.

I. Leased or Loaned DoD Equipment. When determining the charge for leased or loaned equipment, the following elements shall be billed:

1. Depreciation is not applicable to federal agencies unless the billing activity is a WCF. Depreciation shall be based on cost-finding techniques for sales to private parties unless actual rates are known. Calculations shall be in accordance with subparagraph 010203.G.1.

2. Interest on investment in assets shall be computed in accordance with subparagraph 010203.G.2.

3. Value of equipment not returned to the owning DoD Component shall be a sale to the borrowing organization. This sale shall be priced in accordance with subparagraph 010203.D.

4. Accessorial expenses shall be recognized in accordance with subparagraph 010203.F.

5. Repair costs to restore equipment or property to its condition at the time leased or loaned shall be collected from the using organization. The amounts may be based on either actual job order cost accumulations or estimates of the cost to be incurred based upon past repair and maintenance experience for similar equipment. The amounts collected shall be returned to the appropriation that financed the repair and maintenance. Direct labor costs shall be computed in accordance with subparagraphs 010203.A and 010203.B; materiel and supply costs shall be computed in accordance with subparagraph 010203.D; and overhead shall be computed in accordance with subparagraph 010203.J.

J. Overhead

1. Overhead is typically referred to as general and administrative costs (G&A) or some combination of G&A and indirect costs which cannot readily, or directly, be identified to the performance of a specific customer order. Examples of such costs include supervision, office supplies, utility costs. If an organization has a significant amount of reimbursable effort, such costs are accumulated in a cost pool and allocated to customers. In the absence of a cost accounting system, applicable costs may be estimated.

2. Overhead charges normally are not applied to reimbursable customer orders received from appropriated fund activities within the Department. However, appropriated fund activities will charge overhead on sales to other federal agencies and private parties. DWCF activities shall be reimbursed by their customers for overhead charges as prescribed in Volume 11B, Chapters 11, 13 and 15.

*010204. Documentation Standards

A. General. Orders must be supported by documented evidence of a formal offer and acceptance between the grantor and grantee of the order. (See [DoDI 4000.19](#), Support Agreements, for additional guidance.) In the absence of such documentation, there can be no assurance that there is a meeting of the minds on the material or services to be provided nor that payment is required. The principal documents used by the Department are:

1. [DD Form 1144, Support Agreement](#).
2. The memorandum of agreement (MOA).
3. The universal order format.

B. Preparation Standards. The following standards apply to the preparation of these documents:

1. Support Agreements or MOA. Support agreements using a [DD Form 1144](#), or civilian agency equivalents when necessary, are normally used when recurring or unquantifiable support is required over a period of time, often a 1-year duration, or longer. An MOA is typically used when quantifiable, non-recurring support is required over a short period of time, ordinarily less than 1 year in duration. The [DD Form 1144](#) or MOA establishes the estimated total requirement.

a. The minimum essential information that shall be included in a [DD Form 1144](#) or MOA is listed below. A model of an MOA is illustrated as [Figure 1 to DoDI 4000.19](#), “Sample MOA Template.”

(1) The authority for entering into the [DD Form 1144](#) or MOA, such as the “Economy Act” ([31 U.S.C. 1535](#)) or the “Project Order Law” ([41 U.S.C. 6307](#)). See Volume 3, Chapter 8, “Standards for Recording Commitments and Obligations”.

(2) A description of the material or services required.

(3) The established dollar limits and any authority to exceed applicable limits without specific approval from the ordering activity.

(4) The financing source or fund citation.

(5) The delivery requirements.

(6) The payment provisions.

(7) The duration of the agreement.

(8) The form in which specific orders against the [DD Form 1144](#) or MOA will be placed, for example, telephone calls, memoranda, or supplementary formal orders.

b. The [DD Form 1144](#) or MOA should be coordinated with appropriate program, comptroller, and legal offices. This is a fundamental control technique to demonstrate and document the legality and propriety of the arrangement.

c. When a DoD activity is the ordering organization, the [DD Form 1144](#) or MOA shall contain language that clearly sets forth the fact that the document is subject to the availability of funds unless the agreement itself is to be an obligating document. If the agreement is to be an obligating document, there must be a certification of fund availability and the obligation must be recorded promptly.

2. Universal Order Format. The universal order format is a way to document the financial terms of the offer and acceptance when specific services or quantities are known. Similar formats or computer-produced equivalents that contain all of the required information may also be used. This is an all-purpose format that may be issued on a reimbursable or direct citation basis, or both. It is a specific and definite request for material, supplies, equipment, or services. This format does not replace [DD Form 1144](#), Support Agreement, or [DD Form 448](#), Military Interdepartmental Purchase Request. The universal order format may serve as an “Economy Act Order,” a “Project Order,” or an order based upon other statutory authority. Performance of the work and/or services requested must be accomplished in accordance with the statutes and regulations governing the type of order. A sample of the universal order format and instructions for preparation are illustrated in [Addendum 3](#).

a. The universal format contains essential data such as the following:

(1) The funds citation using the current applicable accounting classification.

(2) A document number, assigned by the requesting activity that uniquely identifies the document and provides an audit trail between the order, posting to the accounting system and posting to other automated information systems.

(3) The dollar value of the order and any flexibility allowed in executing the order.

(4) Detailed description of work or services to be performed or items to be delivered.

(5) The expected completion date for the order or request.

(6) Documentation of the names of the officials responsible for both the offer and acceptance to meet the requirements established for the administrative control of appropriations.

(7) Funds expiration date that indicates when the funds must be obligated by the performing activity. Funds not actually obligated by the expiration date shall be returned to the requesting activity. An amendment shall be prepared by the performing activity to return excess funds.

b. Any restrictive statements relating to the reimbursable or direct citation portion shall be included when deemed appropriate.

c. Amendments to the order may be prepared if funds are not sufficient to let a contract or perform the requested services. Amendments can only be accepted by the requesting activity.

d. The requesting activity shall record the total value of the order as a commitment in its financial records. If the order is accepted on a reimbursable basis, obligations shall be recorded upon receipt of written acceptance from the performing activity. If the order is on a direct fund citation basis, obligations shall be recorded upon receipt of the contract and attachments from the contracting activity (Additional guidance can be found in Volume 3, Chapter 8, “Standards for Recording Commitments and Obligations”).

Table 1-1 STRAIGHT-LINE METHOD OF DEPRECIATION

EXAMPLE OF STRAIGHT-LINE METHOD OF DEPRECIATION	
Acquisition cost of the asset	\$1,000,000
Less: Residual value (scrap)	<u>\$ 100,000</u>
Depreciable basis	<u>\$ 900,000</u>
Estimated useful life in years	20
<p>The annual depreciation expense of \$45,000 is computed by dividing the \$900,000 depreciable basis by the 20-year useful life.</p> <p>Hourly charge is computed by dividing the annual depreciation expense of \$45,000 by 2,080 (standard yearly hours) to arrive at \$21.63 per hour.</p> <p>Multiply the hours used to complete the customer order by the hourly charge. For example, 500 hours x \$21.63 = \$10,815 depreciation expense to be charged.</p>	

Table 1-1

Table 1-2 INTEREST ON INVESTMENT CALCULATION

EXAMPLE OF INTEREST ON INVESTMENT CALCULATION	
Acquisition cost of the asset	\$1,000,000
Less: Accumulated depreciation (5 years at \$45,000 per year)	<u>\$ 225,000</u>
Net Book Value	<u>\$ 775,000</u>
Annual interest (10 percent per annum)	\$ 77,500
<p>Hourly charge is computed by dividing the annual interest of \$77,500 by 2,080 (standard yearly hours) to arrive at \$37.26 per hour.</p> <p>Multiply the hours used to complete the customer order by the hourly charge. For example, 500 hours x \$37.26 = \$18,630 interest on investment to be charged.</p>

Addendum 3

PREPARATION INSTRUCTIONS FOR THE UNIVERSAL ORDER FORMAT

Instructions for the preparation of the “universal order format” are as follows: The requesting activity shall complete blocks 1 through 12 and 17. The performing activity shall complete blocks 13 through 16, 18 and 19.

<u>Block No.</u>	<u>Title and/or Description</u>
1	<u>Type of Order</u> - Indicate the type of order being processed. The order may be on a reimbursable or direct fund cite basis, or both. The order may serve as an “Economy Act Order” (31 U.S.C. 1535), a “Project Order” (41 U.S.C. 6307), or an order based upon other statutory authority. Performance of the work or services, or both, must be accomplished in accordance with the applicable statutes.
2	<u>Document Number</u> - Document numbers are generally assigned by the requesting activity. These numbers are for accountability and control purposes. It uniquely identifies the document and is the number under which the funds cited in blocks 10, 15, and 16, are to be recorded such as committed, obligated, expended.
3	<u>Date Prepared</u> - The date on which the form was prepared by the originator.
4	<u>Order Completion Date</u> - The date by which the work or services being requested must be completed by the performing activity, or physical delivery of material. An extension or change of the completion date, if required, shall be requested in writing and is subject to the approval of the requesting activity cited in block 6. An amendment to the original order shall be prepared by the requesting activity if extension or change is approved.
5	<u>Amendment Number</u> - The number assigned by the originating activity to uniquely identify each amendment to the original (basic) document.
6	<u>From</u> - The name and address of the activity requesting the work or services.
7	<u>Point-of-Contact</u> - The name of an individual at the requesting activity who can be contacted if any questions should arise regarding the order. A telephone number and office symbol also should be identified. This individual generally is not the same as the authorizing official in block 17.

- 8 To - The name and address of the activity being requested to perform the work or services.
- 9 Mail Billings To - The name and address of the organization or activity to which the billings are to be mailed when the universal order format is issued external to DoD Components. Billings normally shall be submitted by the performing activity on a monthly basis unless specifically stated in block 12.
- 10 Accounting Data
- a. Enter the funds expiration date. This date indicates when the funds must be obligated by the performing activity. Funds not actually obligated by the expiration date shall be returned to the requesting activity.
- b. The accounting classification data code structure shall be the one currently in effect. (If the accounting classification code structure is other than DoD, such as that of a civil agency, this block may be altered to accommodate the required form.)
- c. The fund balances should be sufficient to cover the total estimated amount for the subject order. Block 10.f. represents the total amount of funds authorized for the particular document or amendment. Block 10.g. represents the cumulative total amount of funds authorized, including previous amendments, as of the date of that particular document and/or amendment. In the case of a “basic” document, the amounts appearing in blocks 10.f. and 10.g. will be identical.
- 11 Interservice Support Program - Indicate the applicable box pertaining to items requested.
- 11a Remarks - Use for additional information as required.
- 12 Description of Work to be Performed and Other Instructions - Enter a specific, definite and complete description of work encompassed by the order, each item of supplies, material, equipment, or services required. If additional space is required, a continuation sheet may be used. Add the estimated amounts in block 12.g. and enter the amount in block 12.h. The amount in block 12.h. should be the same as blocks 10.f. and/or 10.g.
- 13 Provided through Reimbursement: (Estimated Amount) - Indicate the items and corresponding amounts shown in block 12, which will be completed through reimbursement. This block should be completed by the performing activity.
- 14 Procured by Direct Citation: (Estimated Amount) - Indicate the items and

corresponding amounts shown in block 12, which will be completed through direct citation. This block should be completed by the performing activity.

- 15 Funds Provided through Reimbursement - Add the amounts in block 13.c. and enter in this block. The sum of blocks 15 and 16 shall equal the amount shown in block 12.h. Block 12.h. shall equal block 10.f. Amounts authorized in this block are not subject to the Antideficiency Act (Title 31, United States Code, section 1517) unless specifically indicated on the face of the document.
- 16 Procured by Direct Citation - Add the amounts in block 14.c. and enter in this block. The sum of blocks 15 and 16 shall equal the amount shown in block 12.h. Block 12.h. shall equal to block 10.f. The amount in this block constitutes a limitation under Title 31, United States Code, section 1517 when the purchasing office or contracting activity is a separate entity from the requesting activity.
- 17 Authorizing Official - Enter the name, title, and signature of the individual in the requesting activity authorized to issue the document. The date the authorizing official actually signed the document also must be included. This date is the basis for determining the accounting month under which the commitment or consignment is to be recorded.
- 18 Accepting Official - Written acceptance of this order is required and is accomplished by completing this block. Enter the name, title, and signature of the individual in the performing activity authorized to accept the document.
- 19 Point-of-Contact - The name of an individual at the performing activity who can be contacted if any questions should arise regarding the order. A telephone number and office symbol should also be provided. This individual generally is not the same as the accepting official in block 18.
